TELEVISION BROKERS.
**DANIELS
 & ASSOCIATES**

From the moment the first telecast made its way into a handful of living rooms, audiences were entranced, entertained and enlightened. Now, television is in nearly every household. Viewers receive more channels and have more choices than ever before. Television. It's the media choice that reaches 98% of all households. That's why advertisers invest a whopping 21 billion dollars each year. How do we know? We've been watching audiences watch TV since 1949—longer than *anyone*. And, as the medium and the audience grow and change, so do we. Developing new ways to define and describe who they are and what they watch. Arbitron. We know the territory.
