# You can have our big hits sooner.

# Or theirs later.

With over half the titles cleared for '87/'88 airing, Century 13 is ready with the kinds of movies and stars that deliver when the Sweeps stakes are high.

And Century 13 has that special appeal that carries box office momentum right into the home.

Put Stallone and Schwarzenegger to work for you. Give your audience the appeal of Parton and the charisma of Cruise. Watch the Nerds get revenge, take a sexy jaunt to Rio, join a Bachelor's last fling, see a man who's a Mom, Romance a deadly Stone—and look out for a Commando gone wild.

But above all, don't wait.

## **CENTURY 13**

# Now get the same service and equipment on this coast...

# as you do on this coast.

East Coast or West Coast. Now the same complete selection of sophisticated video equipment you've come to expect from Camera Mart/New York is yours to rent or buy from CMTV/Burbank.

The same great service, too. Because with your continued support, we've been able to expand CMTV to a full-fledged West Coast operation, complete with repair and maintenance facilities.

So now you can have the best of both coasts.

*We've been big in video since it was small.*

# Index to Contents of Television & Cable Factbook No. 56

## Stations Volume

### SECTION A — STATIONS VOLUME

Index to Contents (Stations Volume)	A-VII
An alphabetical index of all companies and organizations listed in the Stations Volume. Included are the names of all sections with page reference numbers.	
Television Market Rankings	A-1
A listing of television markets (in ascending order by rank) according to Arbitron Area of Dominant Influence (ADI) Television Households based on the 1986-87 Arbitron Television Markets and Rankings Guide.	
Alphabetical List of Television Market Rankings	A-5
An alphabetical listing of Arbitron TV Markets based on the 1986-87 Arbitron Television Markets and Rankings Guide.	
U.S. Television Station Call Letters	A-6
An alphabetical listing of commercial and non-commercial television station call letters including market name and channel number. Included are call letter assignments to CP holders.	
Canadian Call Letters	A-11
An alphabetical listing of Canadian commercial and non-commercial television station call letters including market name and channel number.	
Description of Station Directory Section	A-14
A detailed description of the kinds of information that can be found on each station page as well as definitions of terms used throughout this section.	
U.S. Television Station Directory	A-16
State by state listings of commercial television stations including coverage maps and Arbitron Net Weekly Circulation levels (where available), personnel and technical facilities for each station listed. Also listed are CP holders reported due to begin operating by late 1987. At the beginning of each state is a map containing the rankings of Arbitron's Area of Dominant Influence that fall within that state as well as those that fall within bordering states. Listed below the map are the ADI market names, Arbitron ADI TV Households for that ADI, the ADI rank and the television stations that fall within it. Total operating commercial and educational TV stations—both UHF and VHF—are shown for each state in a status report located on each state page.	
Public/Educational Television Stations	A-1197
State by state listings of public/educational television stations including personnel and technical facilities for each station listed. Also listed are call letters and addresses of commercially operated outlets plus CP holders reported due to begin operating by late 1987.	
Construction Permits	A-1268
A state by state listing of commercial and non-commercial construction permits with probable starting dates as reported by principals. Included are stations that were operating but have reverted back to CP status.	
Applications Pending for New TV Stations	A-1285
A state by state listing of applications pending for new commercial and non-commercial television stations.	
Group Ownership of Television Stations	A-1305
An alphabetical listing, by company name, of television station owners that have interest in 2 or more commercial television stations.	
Newspaper Ownership of Television Stations	A-1316
An alphabetical listing, by company name, of newspaper owners that have interest in commercial television stations. Included are interlocking ownerships, in whole or part.	
Book & Periodical Ownership of Television Stations	A-1319
An alphabetical listing, by company name, of book & periodical publishing firms that have interest commercial television stations.	
Low Power Television Stations	B-1
A state by state listing of low power television (LPTV) stations including licensee name and technical facilities. Also listed are LPTV construction permits and lottery grantees.	
Ownership of Low Power Television Stations	B-38
An alphabetical listing, by company name, of low power television station owners that have interest in low power television stations. Included are licensees and permittees. Lottery grants not included.	

### SECTION B — STATIONS VOLUME

Television Translator Stations	B-53
A state by state listing of VHF and UHF television translator stations including licensee name, channel number (contained in call letters), transmitter power output (TPO), call letters and location of the station(s) repeated. Included are translators owned & operated by television stations as well as applications and construction permits.	

### SECTION B — STATIONS VOLUME

Translators Owned & Operated by Television Stations	B-103
A state by state listing of television translator stations owned and operated by television stations listed by primary station call letters. Also listed are stations with CP status.	
Instructional Television Stations	B-108
A state by state listing of instructional television stations (2,500 MHz) including licensee name, channel number and technical data. Also listed are applications and construction permits.	
Foreign-Language Programming on U.S. Commercial TV Stations	B-125
A alphabetical listing, by call letters within state, of U.S. commercial television stations carrying foreign language programming. Each listing contains the language(s) carried and the number of hours/week the programming is aired.	
Foreign-Language Programming on U.S. Public/Educational TV Stations	B-126
A alphabetical listing, by call letters within state, of U.S. public/educational television stations carrying foreign language programming. Each listing contains the language(s) carried and the number of hours/week the programming is aired.	
Canadian Television Stations	B-127
An alphabetical listing, by call letters within province, of Canadian television stations including personnel, technical facilities and BBM weekly reach figures for each station listed. Listed at the end of each province are repeater stations listed alphabetically by city of license, with call letters, channel number, licensee, station or network repeated (in parentheses) & power.	
Armed Forces Television Stations	B-196
A listing of television stations operated by the military departments under the jurisdiction of the Department of Defense.	
International Directory of TV Stations & Sets	B-173
An alphabetical listing, by country, of television stations on air, under construction, planned and operating experimentally throughout the world (based on best available information from U.S. & foreign govt. agencies). Also listed are Sets-in-Use as of August 1987, Characteristics of World Television Systems, Channel Frequencies and Color Television Systems in Use or Planned.	
Color Television Systems in Use or Planned	B-198
An alphabetical listing, by country, of the type of color television system in use within that country.	
TV Systems of United Kingdom & IBA Commercial Program Contractors	B-199
Companies listed include Directors, Executives and Staff.	
World TV Stations and Sets	B-202
An alphabetical listing, by country, of the total number of stations/transmitters, black & white and color television sets for each country.	

### SECTION C — STATIONS VOLUME

National Sales Representatives of Television Stations	C-1
An alphabetical listing, by company name, of U.S., Canadian, Foreign-Language and Overseas Station Representatives. Included is a list of stations represented as of September 1987.	
Television & Cable Program Sources & Services	C-13
An alphabetical listing, by company name, of companies producing/distributing television and/or cable programming or offering specialized programming services.	
Brokerage & Financing	C-47
An alphabetical listing, by company name, of companies involved in sales, financing, appraisals, consulting, mergers, etc. of television stations, radio stations, newspapers, cable systems or other communications properties.	
Management & Technical Consulting Services	C-56
An alphabetical listing, by company name, of companies involved in marketing, market surveys, promotion, public relations, engineering, research, management consulting for television stations, radio stations, cable systems and other communications properties.	
Manufacturers & Suppliers of Broadcasting & Cable Television Equipment	C-68
An alphabetical listing, by company name, of companies involved in manufacturing and/or distribution of television/cable equipment.	
Buyers Guide of Products and Services	C-111
A complete listing of television & cable related products and services as well as companies listed in the Factbook that manufacture, distribute and/or service the products or offer the various services listed in the SERVICES section of the Buyers Guide.	
Buyers Guide Product Index	C-226
An alphabetical index of all products and services listed in the Buyers Guide. Included is a page reference number as well as a product reference number for each entry.	

# Services Volume

## SECTION A — SERVICES VOLUME

Index to Contents (Services Volume)	Section A
An alphabetical index of all companies and organizations listed in the Services Volume. Included are the names of all sections with page reference numbers.	
U.S. Call Letters	Section A
An alphabetical listing of commercial and non-commercial television station call letters including market name and channel number. Included are call letter assignments to CP holders.	
Industry Charts	Section A
Statistics, charts and graphs containing information concerning television, radio and cable.	
Channel Allocations—VHF & UHF By City & State	Section A
An alphabetical listing, by city within state, of VHF & UHF channel allocations. Channels reserved for non-commercial educational use are identified as are offset carrier positions.	
VHF Channel Allocations	Section A
A numeric listing, by channel number, of VHF channel allocations. Listed beneath each channel number is list of cities (alphabetical by state) that have television stations allocated to that channel number.	
UHF Channel Allocations	Section A
A numeric listing, by channel number, of UHF channel allocations. Listed beneath each channel number is list of cities (alphabetical by state) that have television stations allocated to that channel number.	
Channel Allocations for Canada & Mexico	Section A
An alphabetical listing, by city within province, of VHF & UHF channel allocations within 250 miles of the Canadian and Mexican borders as agreed upon by U.S. and respective countries through change of diplomatic notes. Mexico reports VHF within 250 miles, UHF within 200 miles.	
Federal Communications Commission Directory	Section A
A listing of FCC departments and personnel including major bureau heads and staff.	
Congressional Committees	Section A
A listing of congressional committees handling TV-Radio matters.	
Television Networks	Section A
An alphabetical listing, by company name, of U.S. and Canadian television networks. Listed are departments and personnel as well as network affiliates.	
Public & Educational TV Networks	Section A
An alphabetical listing, by company name, of Public/Educational television networks. Listed officers and personnel as well as a state by state list of member stations.	
Network Parent Companies	Section A
Capital Cities/ABC Inc. CBS Inc. General Electric Company. Listings include key personnel and major departments and division.	
Attorneys Practicing Before the FCC	Section A
An alphabetical list of Law Firms, attorneys active in communications, and members of the Federal Communications Bar Association.	
Consulting Engineers	Section A
An alphabetical list of engineering firms and engineers specializing in television, radio and cable matters.	
Network Engineering Departments	Section A
A listing of the major television network engineering departments and their key personnel.	
Communications Satellite Corporation (COMSAT)	Section A
A listing of COMSAT officers, division and departments.	
Direct Broadcast Satellites (DBS)	Section A
An alphabetical listing, by company name, of companies involved in direct broadcast satellite operations. Included are permittees with interim operating authority for direct-to-home satellite broadcasting services.	
Satellite Communications Services	Section A
An alphabetical list, by company name, of companies involved in satellite communications services. Listed are the satellites operated by each company as well as their location and number of transponders.	
Multipoint Distribution Service (MDS)	Section A
An alphabetical list, by company name, of companies involved in Multipoint Distribution Service - a common carrier, super-high frequency service authorized to transmit specialized private TV programming or data and facsimile transmissions to customer-selected locations within a metropolitan area. Included in each listing is a list of licenses, construction permits (CPs) held and/or the primary service areas in which they have applied; followed by licensees, permittees & applicants arranged alphabetically in state and city order. Channel numbers, station locations, latitudes & longitudes, tariffs & power have been included.	

## SECTION A - SERVICES VOLUME

Publications in Television & Related Fields	Section A
An alphabetical list, by publication name, of publications concerned with communications and related fields.	
Market and Audience Research Organizations	Section A
An alphabetical list, by company name, of U.S. and Canadian companies and organizations involved in market and audience research. Included are firms involved in commercials & program evaluation, national monitoring and other related services.	
National Association of Broadcasters (NAB)	Section A
A listing of NAB personnel, committees, television and radio boards of directors.	
State Associations of Broadcasters	Section A
A state by state listing of State Associations of Broadcasters. Included are the president and executives involved in the operation of each association.	
Labor Unions and Guilds	Section A
An alphabetical listing, by company name, of labor unions and guilds involved in television and related fields.	
Electronic Industries Association (EIA)	Section A
A listing of the EIA board of governors, officers and senior staff. Included are groups, divisions and departments and relevant personnel.	
Associations and Other Organization	Section A
An alphabetical listing, by company name, of associations and other organizations involved in television, cable and related fields.	
European Broadcasting Union (EBU)	Section A
A listing of EBU headquarters personnel and administrative council as well as a country by country listing of active members.	
NCTA, CATA, Regional & State Cable Associations	Section A
A listing of NCTA and CATA personnel, committees and chairmen as well as an alphabetical listing of regional cable associations. Following the regional associations is a state by state list of state regulatory agencies for cable television.	
Sales & Transfers of Television Stations 1949—1987	Section A
A state by state listing of television stations that have been sold or had a transfer in major ownership since 1949. Included are volume references to issues of <b>Television Digest</b> reporting details of deals.	

## SECTION B — SERVICES VOLUME

Directory of Cable Systems	Section B
A state by state listing of operating cable systems throughout the U.S., Puerto Rico, Guam, Marianas and Virgin Islands. Included are franchises that have been awarded and are under construction as well as applications pending for franchises. Listings include basic and pay subscribers, programming, equipment in operation, personnel, ownership and more. At the beginning of each state is a summary of the total number of cable systems for that state, total communities served, franchises not yet operating, applications pending, communities with applications, total number of basic subscribers and total number of pay units.	
Cable Systems Reporting Addressability	Section B
A state by state listing of cable systems offering addressable services. When available, listings include number of subscribers, fees, equipment and type of addressable service.	
Cable Group Ownership—U.S.	Section B
An alphabetical listing, by company name, of persons or companies which have interest in 2 or more cable systems or franchises. Listings include officers, systems/franchises owned, legal/sales/engineering reps., total basic and total pay subscribers.	
Broadcasters with Cable Holdings	Section B
An alphabetical listing, by company name, of broadcasters with cable holdings or interests in cable systems.	
Canadian Cable Group Ownership	Section B
An alphabetical listing, by company name, of Canadian persons or companies which have interest in major cable systems or franchises. Listings include officers, systems/franchises owned, legal/sales/engineering reps., total basic and total pay subscribers.	

Television & Cable Program Sources & Services Section C

An alphabetical listing, by company name, of companies producing/distributing television and/or cable programming or offering specialized programming services.

Pay TV & Satellite Services Section C

An alphabetical listing, by company name, of companies offering Pay-TV & Satellite Services. Included are categories for Pay-TV Programmers, Pay-per-View Services, Satellite Programming Services, Audio Only Services, Text Services, Regional Programming, Planned Services and Canadian Satellite Programming Services.

Management & Technical Consulting Services Section C

An alphabetical listing, by company name, of companies involved in marketing, market surveys, promotion, public relations, engineering, research, management consulting for television stations, radio stations, cable systems and other communications properties.

Brokerage & Financing Section C

An alphabetical listing, by company name, of companies involved in sales, financing, appraisals, consulting, mergers, etc. of television stations, radio stations, newspapers, cable systems or other communications properties.

Public Relations & Promotion Section C

An alphabetical list, by company name, of companies involved in public relations & promotion.

Cable TV Construction & Installation Services Section C

An alphabetical listing, by company name, of companies involved in cable television system construction & installation.

Security Services Section C

An alphabetical listing, by company name, of companies involved in cable television security services for systems & subscribers.

TV Set Makers Section C

An alphabetical listing, by company name, of companies that manufacture television receivers. Included are U.S. subsidiaries and foreign manufacturers.

Manufacturers & Suppliers of Broadcasting & Cable TV Equipment Section C

An alphabetical listing, by company name, of companies involved in manufacturing and/or distribution of television/cable equipment.

Buyers Guide of Products and Services Section C

A complete listing of television & cable related products and services as well as companies listed in the Factbook that manufacture, distribute and/or service the products or offer the various services listed in the SERVICES section of the Buyers Guide.

Buyers Guide Product Index Section C

An alphabetical index of all products and services listed in the Buyers Guide. Included is a page reference number as well as a product reference number for each entry.

**F**rom the moment the first telecast made its way into a handful of living rooms, audiences were entranced, entertained and enlightened. Now, television is in nearly every household. Viewers receive more channels and have more choices than ever before. Television. It's the media choice that reaches 98% of all households. That's why advertisers invest a whopping 21 billion dollars each year. How do we know? We've been watching audiences watch TV since 1949—longer than *anyone*. And, as the medium and the audience grow and change, so do we. Developing new ways to define and describe who they are and what they watch. Arbitron. We know the territory.

**ARBITRON RATINGS**

# CHANGING ADDRESS?

# PLEASE KEEP IN TOUCH!

We want you to get the best service possible and to do so, we need your help!

Because of the format of TELEVISION & CABLE FACTBOOK, it's very important that we don't lose touch with you. To insure that you receive the next volume of this two-volume set as soon as it's published, we need to be advised of any address change that might affect delivery.

For your convenience, we have included the postage-paid card below.

Please change your records to reflect my new address and to insure that I will receive the second volume of my two-volume TELEVISION & CABLE FACTBOOK as soon as it's published.

# Just Some of the Products and Information Services Available from Television Digest

- **CABLE & STATION COVERAGE ATLAS** — Annual source book for television, cable and related industries, highlighted by updated Grade B contour, microwave, 35-mile and 55-mile zone maps plus information on MDS, LPTV and other vital subjects.
- **ELECTRONIC DELIVERY** — Instant access to all the data in the Television Digest newsletter information services via NewsNet or NEXIS, featuring a keyword search capability and headline scan function designed to give users the most up-to-date news available in the easiest, most timely fashion.
- **COMPUTERIZED MAILING LISTS** — Updated mailing lists of all U.S. operating cable systems and operating U.S. television stations are available for rental.
- **SATELLITE WEEK** — Weekly newsletter covering the latest developments in satellite broadcasting, telecommunications, earth observation and space industrialization.
- **COMMUNICATIONS DAILY** — Daily newsletter covering all aspects of electronic communications including telephone and data communications, cable TV, teleconferencing, electronic publishing and emerging technologies.
- **VIDEO WEEK** — Weekly newsletter reporting the latest news on program sales and distribution for videocassettes, discs, pay TV and allied media.
- **TELEVISION DIGEST with CONSUMER ELECTRONICS** — Weekly newsletter presenting the most up-to-the-minute news, trends and developments in the television, cable, broadcasting and consumer electronic fields.
- **PUBLIC BROADCASTING REPORT** — Bi-weekly newsletter that supplies impartial, analytical news and information on public broadcasting, including funding, technical and regulatory news.
- **ACTION UPDATES** — Weekly supplements covering changes in the Cable and Television fields including licensing, franchising and other regulatory matters.
- **COMMON CARRIER WEEK** — Weekly newsletter examining the telecommunications industry with focus on regulatory and legal actions, product announcements, new services such as PBX and cellular radio, competition and more.
- **SPACE COMMERCE BULLETIN** — Bi-weekly newsletter covering the frontiers of space business including commercialization, industrialization, defense, remote sensing, space stations and other pertinent trends and developments.
- **TELECOM FACTBOOK** — Annual reference/phone directory for the telecommunications industry with organizational charts, graphs, glossary, Buyer's Guide and more.

that's happening in public  
broadcasting...the news  
and the facts behind the  
news...

# PUBLIC BROADCASTING REPORT

**Public Broadcasting Report** is the totally independent information service that covers significant developments on all public broadcasting fronts...from CPB and PBS to NPR and other network programming...from marketing innovations to new technologies... you will follow all the action, *as it develops!*

**Public Broadcasting Report** will keep you up to date with every important development that affects public broadcasting with:

- key reports on critical local and federal legislative action
- interviews and inside information from top executives at PBS, NPR, CPB and stations nationwide
- coverage of the latest industry studies and research
- in-depth analyses of regulatory developments
- early warnings about grants and awards complete with application deadlines

If you have a stake in public broadcasting, a personal subscription to **PBR** could make a substantial difference in your ability to pursue funding, spot trends, anticipate the impact of developments and make even more informed business decisions.

For subscription information, call collect: **(202) 872-9200.**

# Description of Station Directory Section

## THE STATION MAPS

The only official and uniform rough guide to a station's physical coverage is found in the files of the Federal Communications Commission. Each TV station grantee is required to submit to the Commission its coverage contours predicted on the basis of engineering formulas designated by the Commission. The FCC specifies three grades of service as a general indication of the probable quality of reception.

The FCC does not intend or expect the predicted coverage contours, submitted by each station, to reflect whether a signal is received or not received at any specific location. Rather, the Commission regards the contours as a general guide to probable reception. The basic use made by the Commission of the contours is as a tool to determine where to allocate channels to minimize interference among stations.

Though all stations and applicants are required to submit predicted contours to the FCC, stations may also file contours based on actual measurements of transmitted signals. Under FCC rules, such filings are not mandatory, and only a relatively few stations have offered such measurements voluntarily. The Commission has no official and uniform rules for measuring service contours; such submissions are associated with stations' files but are not given official status by the Commission.

The maps are intended to serve as guides. It should be emphasized that the use of maps for legal proceedings, such as those before the FCC, may require precision greater than that reasonably obtainable in maps of the size employed in the *Factbook*.

On May 29, 1975 the FCC amended Section 73.699 of the rules providing revised charts for the prediction of field strengths of TV stations and requiring licensees to file new contours with renewal applications filed after the effective date. When a revised map was not available from the station or the FCC, a note to that effect appears on the station page.

The three grades of predicted contours required by the FCC are as follows:

**Grade B Service**—The quality of picture expected to be satisfactory to the median observer at least 90% of the time for at least 50% of the receiving locations within the contour, in the absence of interfering co-channel and adjacent-channel signals.

**Grade A Service**—Satisfactory service expected at least 90% of the time for at least 70% of the receiving locations.

**Principal City Service**—Satisfactory service expected at least 90% of the time for at least 90% of the receiving locations.

We obtained the predicted contour maps from the FCC files or from the stations. We publish two contour lines, "Grade A" and "Grade B."

(The composite maps and all other contents of this book are copyrighted by Television Digest, Inc., publishers of *Television & Cable Factbook*. The American Map Corp. (46-35 54th Rd., Maspeth, NY 11378), is the copyright owner of the base maps which are reprinted herein under License #14244-Y. Reproduction in whole or part is prohibited without written permission of the copyright owners).

## ARBITRON TV STATION CIRCULATION

The counties listed on the station pages represent the home market Arbitron Metro area plus those counties in which the station receives a Net Weekly Circulation of at least 5% according to Arbitron circulation estimates. Each of these counties is then delineated by three circulation categories which include those in which the station's circulation is 50% or more, 25%-49% and 5%-24%. In some instances, counties listed do not appear on the maps, since the reduction in scale required to include them would impair the legibility of the maps.

The station circulation estimates which determined the allocation of each county to the proper category were derived from samples obtained over several survey periods. The estimates were based on Arbitron market surveys conducted during 1986 and 1987.

The Total Households and Television Households which are listed for each county qualifying for inclusion in one of the three circulation categories are current Arbitron projections as of January 1987 (see Definitions of Arbitron Terms).

Net Weekly and Average Daily Circulation totals for each station are based on the above surveys.

(Data from Arbitron Ratings are fully protected by copyright. Reproduction in whole or part is prohibited without written permission from the Arbitron Ratings Company, 1350 Ave. of the Americas, New York, NY 10019).

## DEFINITIONS OF ARBITRON TERMS

**Total Households**—A household is a single dwelling unit, which may be a house, an apartment, or a group of one or more rooms. The total households figures shown in the current study are Market Statistics estimates projected to January 1, 1987 and rounded to the nearest hundred. These estimates include households on military installations.

**Television Households**—A television household is an occupied dwelling unit having one or more television sets. Updated estimates of TV households in each county are prepared annually by the Arbitron Research Department.

**TV Penetration**—The percent of total homes having one or more television sets at the time of the surveys. TV penetration uses current regional penetration estimates derived by the Advertising Research Foundation from U.S. Bureau of the Census surveys conducted in accordance with ARF specifications.

**Net Weekly Circulation**—The estimated number of different television households viewing a particular station at least once per week, Monday-Sunday, Sign-on to Sign-off.

**Average Daily Circulation**—The estimated average number of different television households reached by a particular station on each day of the week, Sign-on to Sign-off.

**EDITOR'S NOTE:** Total Households listed for each station in this Volume of the Television and Cable Factbook do not include households in any county in which the station's circulation is less than 5%. The counties appearing in the circulation report are listed alphabetically by state. The states are arranged alphabetically by two-letter state abbreviations.

## SURVEY METHODS, Described by ARBITRON

Arbitron uses one-week, interviewer-supervised family viewing diaries to secure information for television audience estimates. Families are contacted initially by mail to inform them of their selection for the survey. They are then contacted by telephone to secure their cooperation in the survey and to elicit basic information as to television set ownership and number of sets owned in the household. Contact is maintained with the sample families through followup calls to encourage proper recording and prompt return of the diaries.

Sampling is controlled by geographic units of no larger than county size, and in some instances for reasons of population distribution, terrain or technical control a county is divided into two sampling units. Sample homes are selected by computer from all available households with listed telephones in the sampling universe through a systematic interval selection technique with random selection occurring within each interval.

In the Metro and ADI Rating Area, households with unlisted telephones are included in the sample universe by using a list of potential telephone numbers. Known listed numbers, business numbers, nonresidential business exchanges and unassigned number blocks have been eliminated.

The Arbitron family viewing diary measurement technique is used for both market surveys of television viewing and broadscale station circulation information by county.

At least four times each year, Arbitron surveys every county to provide viewing information for every television market in the country. Further details on Arbitron sampling procedures are available from Arbitron.

## EXPLANATION OF FCC SYMBOLS

FCC Filing Symbols:

- BPCT**—Broadcast Permit Commercial Television.
- BMPCT**—Broadcast Modification of Permit Commercial Television.
- DOC**—Docket (designation applied by FCC to hearing cases).
- GRANTED**—Date of authorization by FCC.

Note: "BPCT" and "BMPCT" designations, accompanied by numbers, are affixed by the FCC to applications for new or changed station facilities to identify each when it is accepted for filing. They therefore constitute file numbers. Each map in the Factbook is accompanied with its file number to facilitate reference to the Commission's official files. In each case, the file number used is the one affixed to the application for facilities which were subsequently authorized by the FCC and in use at the time this Factbook was published. "Docket" numbers are used in those few cases where the application was in a hearing status and a file number hasn't been assigned. The "granted" date indicates when the FCC approved construction of facilities involved.

After a station is completed according to the terms of its construction permit, it receives a license; this is identified by a number with a "BLCT" (Broadcast License Commercial Television) prefix. When a license is renewed, a number with a "BRCT"

(Broadcast Renewal Commercial Television) prefix is employed. Applications for licenses or license renewals do not include requests for changes in facilities, thus do not affect predicted Grade A & B contours. Therefore, they are not employed as references in the Factbook.

The Grade A & B contours on the maps are predicted by station engineers according to the formulas designated by the FCC, as previously explained. They are based on facilities authorized or in use by stations at the time of Factbook publication.

## BBM SURVEY METHODS

BBM is a non-profit tripartite association of advertising agencies, advertisers, broadcasters and broadcast representatives.

BBM conducts national surveys of television viewing and radio listening in all ten Canadian provinces.

A television market survey is taken over a seven day period and compiled and reported as the average of two or three weeks. Three week surveys are the designated sweep surveys. BBM identifies a range of dates during which a sweep survey can be taken. Toronto, Montreal and Vancouver are reported seven times yearly; markets four through twelve four times yearly; all others twice yearly. The individual weeks selected by BBM are not disclosed. Network television reports are produced for forty-eight weeks of each year.

BBM provides detailed survey data for fifty recognized markets across Canada. BBM divides the country into three hundred and forty-six mutually exclusive sampling cells which, when combined, cover all of Canada's ten provinces. Ten times yearly, household enumerations are conducted by telephone. A master file of all individuals aged two and over is compiled. From this master file, BBM draws its television sample, just prior to each survey interval. Households selected are not used again except as they may occur in the random selection of a sample. More than a half million Canadians are asked to participate in BBM television surveys each year, 350,000 of whom agree.

Randomly selected households are mailed a diary for each television set in the home. Household members are asked to record their personal television tuning by quarter hour for a specific seven day period to each set. The returned diaries are then weighted to represent the population within each sampling cell. Projections are made separately by age/sex group and by week of survey. In the bilingual markets of Montreal and Ottawa-Hull the intab diaries are also weighted by language group.

For each home station, BBM provides rating information by time periods and for each program for all specified markets in either central and/or extended markets. Full coverage audience data or total station tuning from all measured areas is also published. A reach report showing results by station and area is produced each Fall and Spring.

The definition of the central markets corresponds to Statistics Canada defined Census Metropolitan Areas (CMA) or Census Agglomerations (CA) from which the home stations broadcast. To be considered a central market, CA/CMA will normally contribute the largest of the total hours of tuning to a home station. All BBM central markets have one accompanying extended market (similar in definition to an Area of Dominant Influence) except for some markets where no concentration of hours of tuning to home stations is found within the CA/CMA.

# U.S. Television Station Directory

Data updated to October 15, 1987. Includes rate digests, personnel, facilities and other data. CP holders reported due by November 1987.

## THE STATE PAGES

Following the map of each state, rankings for Arbitron's Area of Dominant Influence Television Households are shown. ADI Households Rank is established by Arbitron.

The state pages also carry additional cross-reference material, indicating for example, those stations within the state that are identified with two or more cities, or with cities in another state.

Operating commercial and educational TV stations by VHF and UHF are shown for each state in a status report as of October 15, 1987.

## STATION PAGES

### Explanatory Notes

Rates, personnel and other data supplied by stations.

**RATE DIGESTS:** These show only the highest one-time rate charged by the stations. Most rates are also subject to frequency discounts, separate or additional rehearsal charges, talent & production charges, etc. For further details and for contract conditions, specifications etc., consult complete station rate cards, available from the stations upon request.

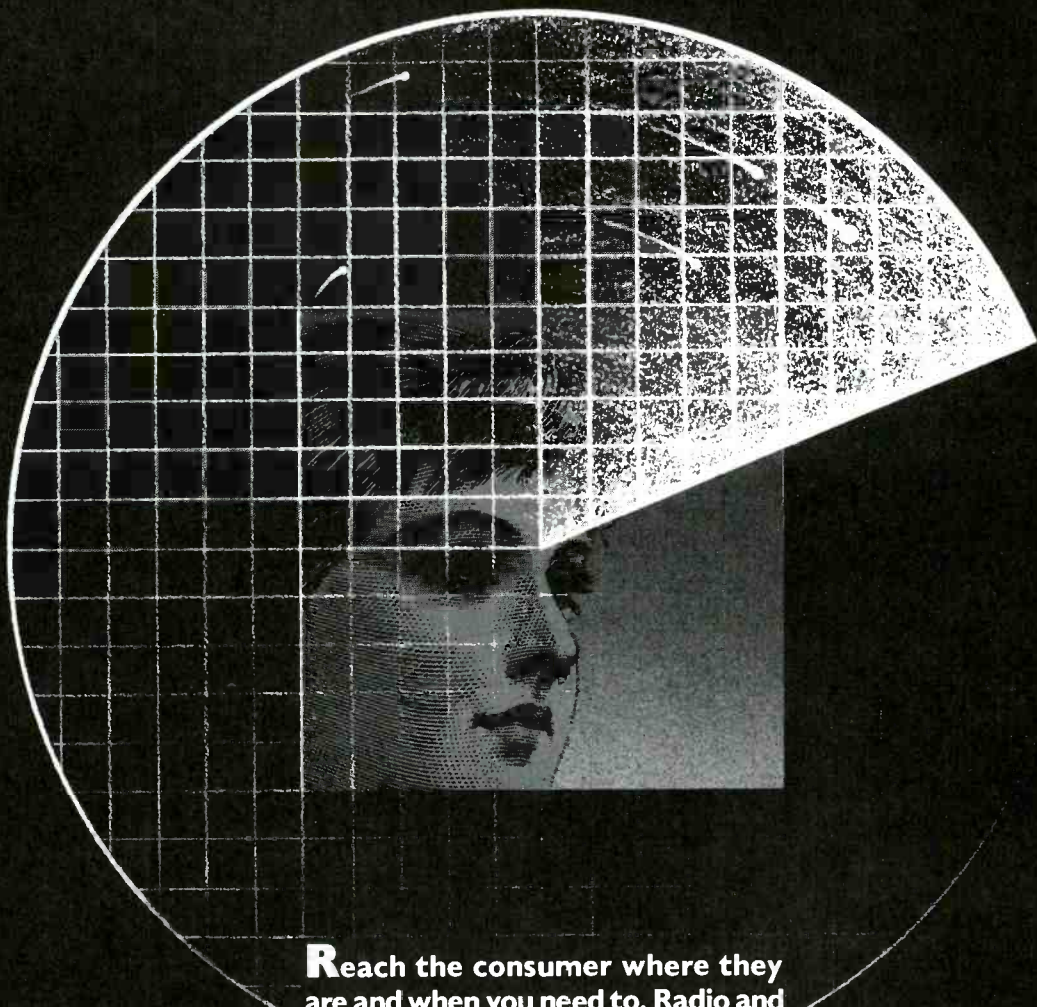

**STATION POWER:** Powers shown are Effective Radiated Powers (ERP).

NETWORK SYMBOLS (registered trademarks)

The individual stations tables show a complete listing of all counties grouped by Arbitron Net Weekly Circulation levels, with Total Households, and TV Penetration in each county individually. For definitions of Arbitron terms, see introduction.

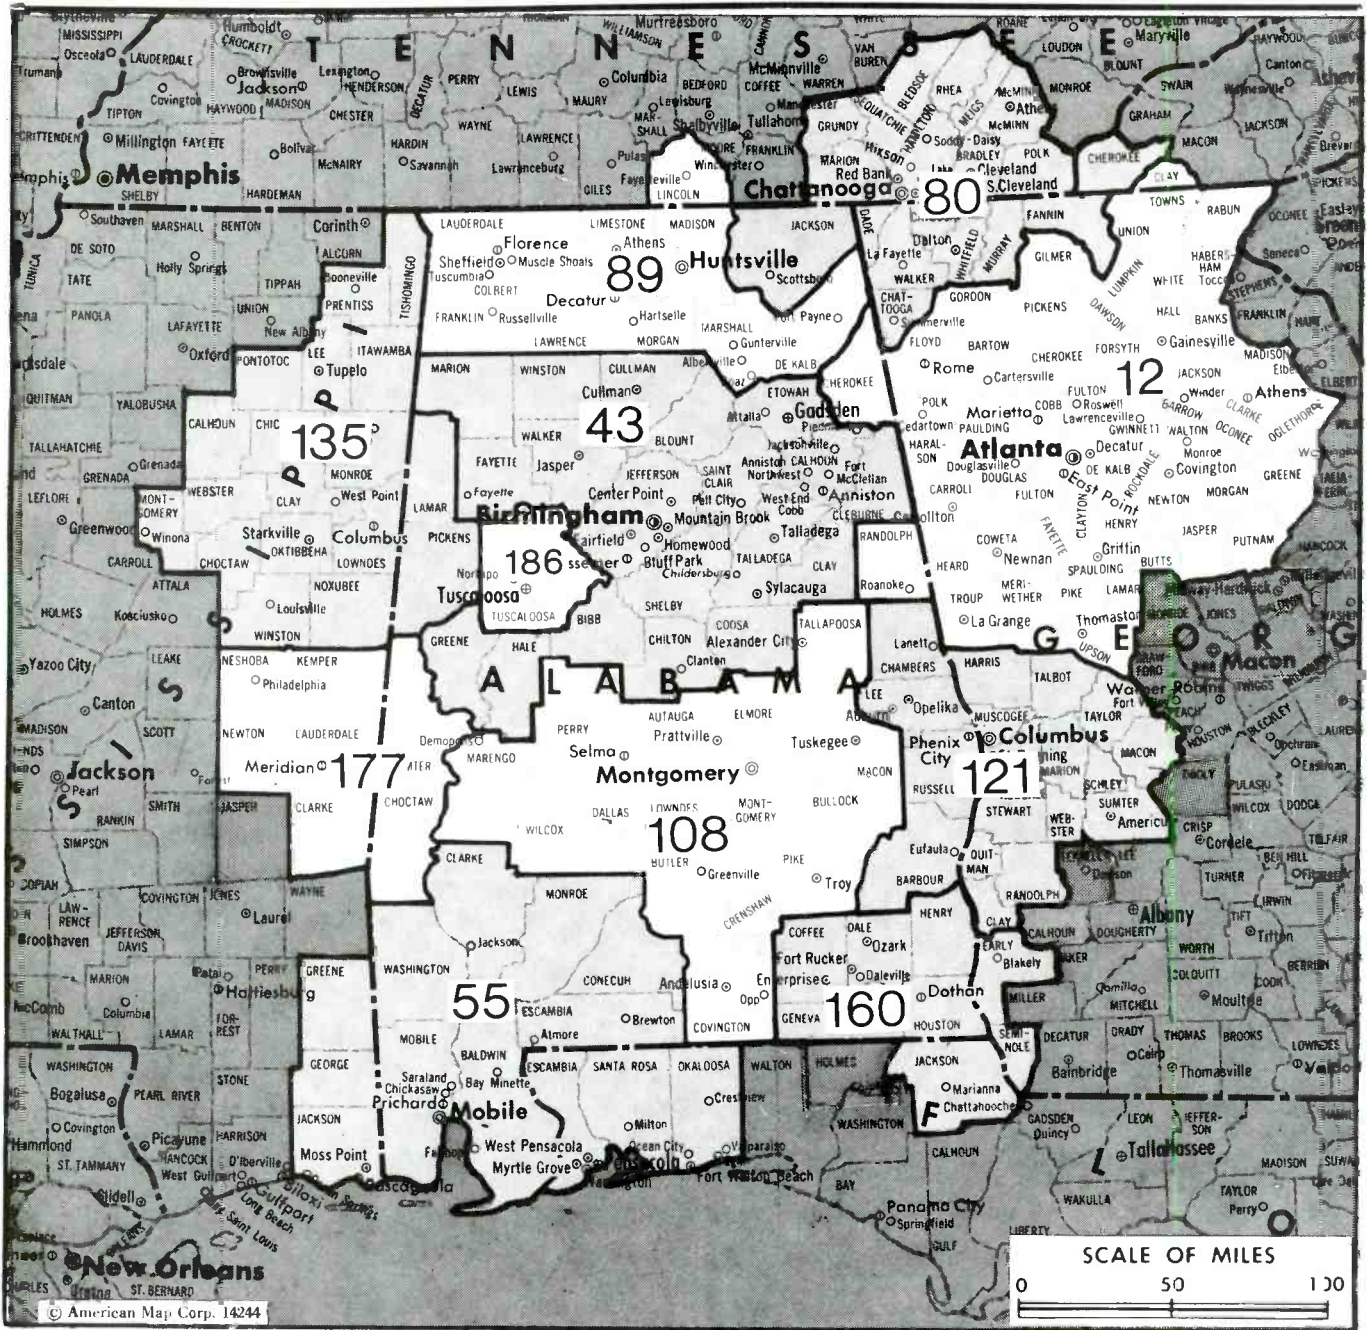

**SATELLITE STATIONS** are shown with a dash line pattern in relation to the parent listing. In the satellite listing the parent station is shown with a dash line pattern.

**R**each the consumer where they are and when you need to. Radio and TV can do that for you. Only if you get the whole picture, from all the angles. Now there's one place to go. One company that brings all the perspectives into a single focus. One company that tells you what they watch, what they listen to, what products they buy, how they live and who's advertising to them. That company is Arbitron. You can see it all from here.

**ARBITRON RATINGS**  
We know the territory.
