**F**rom the moment the first telecast made its way into a handful of living rooms, audiences were entranced, entertained and enlightened. Now, television is in nearly every household. Viewers receive more channels and have more choices than ever before. Television. It's the media choice that reaches 98% of all households. That's why advertisers invest a whopping 21 billion dollars each year. How do we know? We've been watching audiences watch TV since 1949—longer than *anyone*. And, as the medium and the audience grow and change, so do we. Developing new ways to define and describe who they are and what they watch. Arbitron. We know the territory.

# Uncovering..

tomorrow's trends today. It takes superior research services that integrate data and bring your audience into sharper focus... hi-tech capability to help you detect the slightest changes taking place... all the tools you need to develop new business out of tomorrow's trends. Only one company has it all.

**ARBITRON RATINGS**  
We know the territory.

# Buyers Guide

*that helps you find products faster!*

## Instructions

1. Turn to the yellow pages **Buyers Guide Product Index** located at the end of the book to find an alphabetical listing of all products and services listed in the Buyers Guide. Following each entry is a Buyers Guide page reference number where a list of companies involved in that specific field can be found in the Buyers Guide.

**NEW this edition:** Listed after the name of each product category is a product NUMBER that will help you find product categories even faster than before! This 8 digit number contains a PRIMARY number (the first 4 digits) followed by a SECONDARY number (the last 4 digits). The product numbers correspond exactly to those on the Buyers Guide Questionnaire (see following pages) sent to each company listed in the BUYERS GUIDE.

Listed at the top of each page is the PRIMARY product number to help guide you to the correct category.

— OR —

You can use the Buyers Guide Questionnaire (see following pages) to find the NUMBER assigned to a particular product and then find it by number within the Buyers Guide.

The Buyers Guide Questionnaire lists product categories IN THE SAME ORDER that the products are listed in the BUYERS GUIDE.

**For example:** 0020 is the product number for Amplifiers listed under 0110 Satellite Earth Stations. Using the PRIMARY number listed at the top of each page, find the 0100 section, then 0110 within it, then 0020 under that category.

2. Once you have found the product category you want and have found the company you want to contact, turn to the page number listed after the company name in the white pages section of the Factbook for detailed information concerning the company.

## Key to Abbreviations

(m)—manufacturer

(r)—repair

(d)—distributor

(s)—service

(p)—producer (i.e. film, etc.)

# BUYERS GUIDE EXPLANATORY NOTES

The Television & Cable Factbook BUYERS GUIDE is divided into nine primary product categories based on product/service type. Each Primary Category begins a new section in the Buyers Guide. Companies are listed alphabetically under each category. Those appearing in bold type are paid **BOLD-FACE BUYERS GUIDE** advertisers\*. All remaining entries are provided free as a service to non-advertising companies listed in the Factbook.
