OUR SPHERE OF INFLUENCE

From London to Los Angeles, from Cannes to New York our fax machines are busy carrying the latest international information into the latest issue of TV/Radio Age.

Our International Report is gathered from the TV capitals of the world and presented in easy to read digest form in every issue throughout the year. Therefore your international ad in TV/Radio Age reaches the TV influentials throughout the world.

Television/RadioAge

WE'VE SEEN THE FUTURE AND IT FITS.

Just when broadcasters and professional users are shifting from one-inch and 3/4-inch video tape systems to 1/2-inch analog component video, along comes the specter of 19mm D2. First they made it smaller; now they want to make it bigger again.

When Panasonic set out to design Composite Digital recording systems, we had a big responsibility — to keep it small. Our customers have a right to expect their investment in 1/2-inch to be preserved. We know that a change in technology means more than a change in equipment; walls, racks, layouts, suites, vans and tape storage are all long-term investments that shouldn't have to be re-done every time there's a new chip on the block.

Panasonic's new Composite Digital system not only delivers superior multi-generation capability, long-term signal stability and unprecedented operating ease. It is designed to fit right where it should — into your existing facilities.

Panasonic's design philosophy is always to create products for the future with today clearly in

mind. Our editing recorders and systems work with all of today's existing standards for video, audio and control. When you're ready to convert your editing suite to Composite Digital video, Panasonic will fit in.

Panasonic cameras, from our new, all solid-state AK-450 to the new all-digital AQ-20 and AQ-10, are designed to slip transparently into the operators' experienced hands.

Today's mobile teleproduction requirements include everything from commercial production to fast-breaking news. That's why our system design is built around interchangeable components and true portability — and will remain so from today to digital to HDTV.

Here's the bottom line. Television in the 1990's demands technical advances and innovations — digital video and HDTV. But *your* demands are for systems that permit smarter, leaner operations. And that is why Panasonic's broadcast equipment, both for today and tomorrow, is designed to fit into your plant, your vision and your budget.

VIEW COMMUNICATIONS TARGETS THE TELEVISION INDUSTRY FIVE WAYS

VIEW: The Magazine of Television Programming

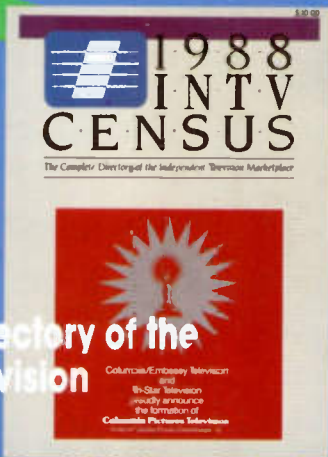

VIEW Magazine is the only publication in the broadcasting market devoted exclusively to the needs of domestic television program buyers and sellers. Published twice a month, VIEW is the authoritative television

business source for TV station general managers, program directors, sales managers and promotion directors as well as TV program distributors, ad agency time buyers and national reps. VIEW's in-depth features, interviews, industry surveys and ratings reports keep TV decision-makers up-to-date on the trends and developments in syndicated, network and cable television programming.

THE INTV JOURNAL: The Magazine of Independent Television

The INTV JOURNAL, published by VIEW Communications under license from the Association of Independent Television Stations, is the official magazine of INTV. Seven times each year, the JOURNAL covers the business of independent television—the latest from Washington, the outlook for spot, plus features on programming, marketing and promotion. The JOURNAL is edited for independent TV station executives, distributors, reps, ad agency buyers and Capitol Hill legislators.

THE INTV CENSUS The Complete Directory of the Independent Television Marketplace

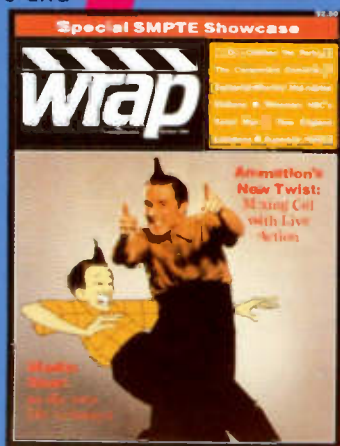

Published each January, the *CENSUS* includes listings of independent TV stations, TV program distributors, reps. and production services. The *CENSUS* is distributed at the INTV's annual convention.

WORLD SCREEN NEWS: The Magazine of International TV, Video & Film Distribution

WRAP: The Magazine of Television Production & Postproduction

WRAP concentrates exclusively on the production and postproduction of programming for television. Co-published monthly with *A/S/M*, publishers of *ADWEEK*, *WRAP* is edited for production, engineering, and promotion executives at TV stations, networks, syndication/cable/video companies, the TV divisions of film studios as well as for executives at post houses, animation, special effects and computer graphics companies. This unique creative and

technical group is the singular focus of *WRAP*'s circulation, and *WRAP*'s editorial is devoted completely to the production and postproduction community's needs.

WORLD SCREEN NEWS (WSN) concentrates on the international programming arena. *WSN* represents the interests of the American producers/distributors abroad by providing international buyers with the most comprehensive coverage of what is available to them from American distributors. Published four times a year to coincide with the major international program markets, *WSN*'s circulation includes international buyers and distributors.

Whatever your television information needs are, we've got your market covered. For information, please contact our circulation or advertising departments:

STATIONS VOLUME

SECTION A — STATIONS VOLUME

Index to Contents (Stations Volume).....	xi
An alphabetical index of all companies and organizations listed in the Stations Volume. Included are the names of all sections with page reference numbers.	
Television Market Rankings.....	A-1
A listing of television markets (in ascending order by rank) according to Arbitron Area of Dominant Influence (ADI) Television Households based on the 1986-89 Arbitron Television Markets and Rankings Guide.	
Alphabetical List of Television Market Rankings.....	A-5
An alphabetical listing of Arbitron TV Markets based on the 1986-89 Arbitron Television Markets and Rankings Guide.	
U.S. Television Station Call Letters.....	A-6
An alphabetical listing of commercial and non-commercial television station call letters including market name and channel number. Included are call letter assignments to CP holders.	
Canadian Call Letters.....	A-11
An alphabetical listing of Canadian commercial and non-commercial television station call letters including market name and channel number.	
Description of Station Directory Section.....	A-13
A detailed description of the kinds of information that can be found on each station page as well as definitions of terms used throughout this section.	
U.S. Television Station Directory.....	A-16
State by state listings of commercial television stations including coverage maps and Arbitron Net Weekly Circulation levels (where available), personnel and technical facilities for each station listed. Also listed are CP holders reported due to begin operating by late 1989. At the beginning of each state is a map containing the rankings of Arbitron's Area of Dominant Influence that fall within that state as well as those that fall within bordering states. Listed below the map are the ADI market names, Arbitron ADI TV Households for that ADI, the ADI rank and the television stations that fall within it. Total operating commercial and educational TV stations—both UHF and VHF—are shown for each state in a status report located on each state page.	
Public/Educational Television Stations.....	A-1264
State by state listings of public/educational television stations including personnel and technical facilities for each station listed. Also listed are call letters and addresses of commercially operated outlets plus CP holders reported due to begin operating by late 1989.	
Construction Permits.....	A-1342
A state by state listing of commercial and non-commercial construction permits with probable starting dates as reported by principals. Included are stations that were operating but have reverted back to CP status.	
Applications Pending for New TV Stations.....	A-1358
A state by state listing of applications pending for new commercial and non-commercial television stations.	
Group Ownership of Television Stations.....	A-1373
An alphabetical listing, by company name, of television station owners that have interests in 2 or more commercial stations.	

STATIONS VOLUME

SECTION A — STATIONS VOLUME

Newspaper Ownership of Television Stations A-1388

An alphabetical listing, by company name, of newspaper owners that have interest in commercial television stations. Included are interlocking ownerships, in whole or part.

Book & Periodical Ownership of Television Stations A-1392

An alphabetical listing, by company name, of book & periodical publishing firms that have interests in commercial television stations.

SECTION B — STATIONS VOLUME

National Sales Representatives of Television Stations B-1

An alphabetical listing, by company name, of U.S., Canadian, Foreign-Language and Overseas Station Representatives. Included is a list of stations represented as of September 1989.

Low Power Television Stations B-12

A state by state listing of low power television (LPTV) stations including licensee name and technical facilities. Also listed are LPTV construction permits and lottery grantees.

Ownership of Low Power Television Stations B-74

An alphabetical listing, by company name, of low power television station owners. Included are licensees and permittees. Lottery grants not included.

Television Translator Stations B-95

A state by state listing of VHF and UHF television translator stations including licensee name, channel number (contained in call letters), transmitter power output (TPO), call letters and location of the station(s) repeated. Included are translators owned & operated by television stations as well as applications and construction permits.

Translators Owned & Operated by Television Stations B-200

A state by state listing of television translator stations owned and operated by television stations listed by primary station call letters. Also listed are stations with CP status.

Instructional Television Stations B-206

A state by state listing of instructional television stations (2,500 MHz) including licensee name, channel number and technical data. Also listed are applications and construction permits.

Foreign-Language Programming on U.S. Commercial TV Stations B-225

A alphabetical listing, by call letters within state, of U.S. commercial television stations carrying foreign language programming. Each listing contains the language(s) carried and the number of hours/week the programming is aired.

Foreign-Language Programming on U.S. Public/Educational TV Stations B-226

A alphabetical listing, by call letters within state, of U.S. public/educational television stations carrying foreign language programming. Each listing contains the language(s) carried and the number of hours/week the programming is aired.

Canadian Television Stations B-227

An alphabetical listing, by call letters within province, of Canadian television stations including personnel, technical facilities and BBM weekly reach figures for each station listed, when available. Listed at the end of each province are repeater stations listed alphabetically by city of license, with call letters, channel number, licensee, station or network repeated (in parenthesis) & power.

Armed Forces Television Stations B-298

A listing of television stations operated by the military departments under the jurisdiction of the Department of Defense.

International Directory of TV Stations & Sets B-275

An alphabetical listing, by country, of television stations on air, under construction, planned and operating experimentally throughout the world (based on best available information from U.S. & foreign govt. agencies). Also listed are Sets-in-Use as of August 1989, Characteristics of World Television Systems, Channel Frequencies and Color Television Systems in Use or Planned.

SECTION B — STATIONS VOLUME

Color Television Systems in Use or Planned B-299

An alphabetical listing, by country, of the type of color television system in use within that country.

Television Systems of the United Kingdom and IBA Commercial Program Contractors B-300

Companies listed include Directors, Executives and Staff.

World TV Stations and Sets B-304

An alphabetical listing, by country, of the total number of stations/transmitters, black & white and color television sets for each country.

SECTION C — STATIONS VOLUME

Television & Cable Program Sources & Services C-1

An alphabetical listing, by company name, of companies producing/distributing television and/or cable programming or offering specialized programming services.

Management & Technical Consulting Services C-37

An alphabetical listing, by company name, of companies involved in marketing, market surveys, promotion, public relations, engineering, research, management consulting for television stations, radio stations, cable systems and other communications properties.

Brokerage & Financing C-49

An alphabetical listing, by company name, of companies involved in sales, financing, appraisals, consulting, mergers, etc. of television stations, radio stations, newspapers, cable systems or other communications properties.

Manufacturers & Suppliers of Broadcasting & Cable Television Equipment C-59

An alphabetical listing, by company name, of companies involved in manufacturing and/or distribution of television/cable equipment.

Buyers Guide of Products and Services C-105

A complete listing of television & cable related products and services as well as companies listed in the Factbook that manufacture, distribute and/or service the products or offer the various services listed in the SERVICES section of the Buyers Guide.

Buyers Guide Product Index C-229

An alphabetical index of all products and services listed in the Buyers Guide. Included is a page reference number as well as a product reference number for each entry.

CABLE & SERVICES VOLUME

SECTION A — CABLE & SERVICES VOLUME

Index to Contents (Services Volume) Section A

An alphabetical index of all companies and organizations listed in the Services Volume. Included are the names of all sections with page reference numbers.

U.S. Call Letters Section A

An alphabetical listing of commercial and non-commercial television station call letters including market name and channel number. Included are call letter assignments to CP holders.

Directory of Cable Systems Section A

A state by state listing of operating cable systems throughout the U.S., Puerto Rico, Guam, Marianas and Virgin Islands. Included are franchises that have been awarded and are under construction as well as applications pending for franchises. Listings include basic and pay subscribers, programming, equipment in operation, personnel, ownership and more. At the beginning of each state is a summary of the total number of cable systems for that state, total communities served, franchises not yet operating, applications pending, communities with applications, total number of basic subscribers and total number of pay units.

Cable Group Ownership—U.S. Section A

An alphabetical listing, by company name, of persons or companies which have interest in 2 or more cable systems or franchises. Listings include officers, systems/franchises owned, legal/sales/engineering reps., total basic and total pay subscribers.

CABLE & SERVICES VOLUME

SECTION A — CABLE & SERVICES VOLUME

Broadcasters with Cable Holdings Section A

An alphabetical listing, by company name, of broadcasters with cable holdings or interests in cable systems.

Canadian Cable Group Ownership Section A

An alphabetical listing, by company name, of major Canadian persons or companies which have interest in 2 or more cable systems or franchises. Listings include officers, systems/franchises owned, legal/sales/engineering reps., total basic and total pay subscribers.

SECTION B — CABLE & SERVICES VOLUME

Federal Communications Commission Directory Section B

A listing of FCC departments and personnel including major bureau heads and staff.

Congressional Committees Section B

A listing of congressional committees handling TV-radio matters.

Television Networks Section B

An alphabetical listing, by company name, of U.S. and Canadian television networks. Listed are departments and personnel as well as network affiliates.

Public & Educational TV Networks Section B

An alphabetical listing, by company name, of Public/Educational television networks. Listed are officers and personnel as well as a state by state list of member stations.

Network Parent Companies Section B

Capital Cities/ABC Inc.
CBS Inc.
General Electric Company
Listings include key personnel and major departments and divisions.

Attorneys Practicing Before the FCC Section B

An alphabetical list of law firms, attorneys active in communications, and members of the Federal Communications Bar Association.

Consulting Engineers Specializing in TV, Radio & Cable TV Section B

An alphabetical list of engineering firms and engineers specializing in television, radio and cable matters.

Network Engineering Departments Section B

A listing of the major television network engineering departments and their key personnel.

Communications Satellite Corporation (COMSAT) Section B

A listing of COMSAT officers, divisions and departments.

Direct Broadcast Satellites (DBS) Section B

An alphabetical listing, by company name, of companies involved in direct broadcast satellite operations. Included are permittees with interim operating authority for direct-to-home satellite broadcasting services.

Satellite Communications Services Section B

An alphabetical list, by company name, of companies involved in satellite communications services. Listed are the satellites operated by each company as well as their location and number of transponders.

Multipoint Distribution Service (MDS) Section B

An alphabetical list, by company name, of companies involved in Multipoint Distribution Service—a common carrier, super-high frequency service authorized to transmit specialized private TV programming or data and facsimile transmissions to customer-selected locations within a metropolitan area. Included in each listing is a list of licenses, construction permits (CPs) held and/or the primary service areas in which they have applied; followed by licensees, permittees & applicants arranged alphabetically in state and city order. Channel numbers, station locations, latitudes & longitudes, tariffs & power have been included. Cities in boldface capital letters denote licensees. Star (★) and boldface capital letters denote grantees of CPs. Asterisk (*) denotes applicants.

SECTION B — CABLE & SERVICES VOLUME

Multichannel Multipoint Distribution Service (MMDS) Section B

An alphabetical list, by city within state, of cities where MMDS service is in operation or planned. MMDS is a common-carrier, super-high frequency service authorized by the FCC in 1983 to transmit specialized private TV programming or data and facsimile transmissions to customer selected locations within a metropolitan area. Listings in all capital letters denote licensees. Star (★) preceding a listing indicates constructor permit(s). Dagger (†) preceding a listing indicates lottery selectees.

Instructional Television Stations Section B

A state by state listing of instructional television stations (2,500 MHz) including licensee name, channel number and technical data. Also listed are applications and construction permits.

Publications in Television & Related Fields Section B

An alphabetical list, by publication name, of publications concerned with communications and related fields.

Market and Audience Research Organizations Section B

An alphabetical list, by company name, of U.S. and Canadian companies and organizations involved in market and audience research. Included are firms involved in commercials & program evaluation, national monitoring and other related services.

National Association of Broadcasters (NAB) Section B

A listing of NAB personnel, committees, television and radio boards of directors.

State Associations of Broadcasters Section B

A state by state listing of State Associations of Broadcasters. Included are the president and executives involved in the operation of each association.

Labor Unions and Guilds Section B

An alphabetical listing, by company name, of labor unions and guilds involved in television and related fields.

Electronic Industries Association (EIA) Section B

A listing of the EIA board of governors, officers and senior staff. Included are groups divisions and departments and relevant personnel.

Associations and Other Organizations Section B

An alphabetical listing, by company name, of associations and other organizations involved in television, cable and related fields.

European Broadcasting Union (EBU) Section B

A listing of EBU headquarters personnel and administrative council as well as a country by country listing of active members.

NCTA, CATA, Regional and State Cable Associations Section B

A listing of NCTA and CATA personnel, committees and chairmen as well as an alphabetical listing of regional cable associations. Following the regional associations is a state by state list of state regulatory agencies for cable television.

Sales & Transfers of Television Stations 1949—1989 Section B

A state by state listing of television stations that have been sold or had a transfer in major ownership since 1949. Included are volume references to issues of *Television Digest* reporting details of deals.

SECTION C — CABLE & SERVICES VOLUME

Pay TV & Satellite Services Section C

An alphabetical listing, by company name, of companies offering Pay-TV & Satellite Services. Included are categories for Pay-TV Programmers, Pay-per-View Services, Satellite Programming Services, Audio Only Services, Text Services, Regional Programming, Planned Services and Canadian Satellite Programming Services.

Television & Cable Program Sources & Services Section C

An alphabetical listing, by company name, of companies producing/distributing television and/or cable programming or offering specialized programming services.

Management & Technical Consulting Services Section C

An alphabetical listing, by company name, of companies involved in marketing, market surveys, promotion, public relations, engineering, research, management consulting for television stations, radio stations, cable systems and other communications properties.

SECTION C — CABLE & SERVICES VOLUME

Brokerage & Financing **Section C**

An alphabetical listing, by company name, of companies involved in sales, financing, appraisals, consulting, mergers, etc. of television stations, radio stations, newspapers, cable systems or other communications properties.

Public Relations & Promotion **Section C**

An alphabetical list, by company name, of companies involved in television or cable public relations & promotion.

Cable TV Construction & Installation Services **Section C**

An alphabetical listing, by company name, of companies involved in cable television system construction & installation.

Security Services **Section C**

An alphabetical listing, by company name, of companies involved in cable television security services for systems & subscribers.

TV Set Makers **Section C**

An alphabetical listing, by company name, of companies that manufacture television receivers. Included are U.S. subsidiaries of foreign manufacturers.

Manufacturers & Suppliers of Broadcasting & Cable Television Equipment **Section C**

An alphabetical listing, by company name, of companies involved in manufacturing and/or distribution of television/cable equipment.

Buyers Guide of Products and Services **Section C**

A complete listing of television & cable related products and services as well as companies listed in the Factbook that manufacture, distribute and/or service the products or offer the various services listed in the SERVICES section of the Buyers Guide.

SECTION C — CABLE & SERVICES VOLUME

Buyers Guide Product Index **Section C**

An alphabetical index of all products and services listed in the Buyers Guide. Included is a page reference number as well as a product reference number for each entry.

Industry Charts **Section C**

Statistics, charts and graphs containing information concerning television, radio and cable. Initials & Abbreviations

Channel Allocations—VHF & UHF By City & State **Section A**

An alphabetical listing, by city within state, of VHF & UHF channel allocations. Channels reserved for non-commercial educational use are identified as are offset carrier positions.

VHF Channel Allocations **Section A**

A numeric listing, by channel number, of VHF channel allocations. Listed beneath each channel number is list of cities alphabetical by state.

UHF Channel Allocations **Section A**

A numeric listing, by channel number, of UHF channel allocations. Listed beneath each channel number is list of cities alphabetical by state.

Channel Allocations for Canada and Mexico **Section A**

An alphabetical listing, by city within province, of VHF & UHF channel allocations within 250 miles of the Canadian and Mexican borders as agreed upon by U.S. and respective countries through change of diplomatic notes. Mexico reports VHF within 250 miles, UHF within 200 miles. Channels reserved for non-commercial educational use are identified as are offset carrier positions.

Satellite Services for Broadcasters

GTE Spacenet

GTE Spacenet is a leading provider of satellite communication services to the broadcast industry. Networks, cable broadcasters, and other businesses turn to GTE Spacenet for full time and occasional C- and Ku-Band satellite capacity as well as satellite news gathering, business video, and video conferencing services.

With one of the largest, most advanced commercial satellite systems in the world, GTE Spacenet is able to make long term commitments to customers' needs and provide flexibility for future business growth or change.

State-of-the-art satellite access and video control facilities at GTE Spacenet headquarters and round-the-clock customer service ensures users high quality, interference-free service.

Call 1-800-535-5375 for more information, or (703) 848-1300 to speak with a GTE Spacenet representative.

Description of Station Directory Section

THE STATION MAPS

The only official and uniform rough guide to a station's physical coverage is found in the files of the Federal Communications Commission. Each TV station grantee is required to submit to the Commission its coverage contours predicted on the basis of engineering formulas designated by the Commission. The FCC specifies three grades of service as a general indication of the probable quality of reception.

The FCC does not intend or expect the predicted coverage contours, submitted by each station, to reflect whether a signal is received or not received at any specific location. Rather, the Commission regards the contours as a general guide to probable reception. The basic use made by the Commission of the contours is as a tool to determine where to allocate channels to minimize interference among stations.

Though all stations and applicants are required to submit predicted contours to the FCC, stations may also file contours based on actual measurements of transmitted signals. Under FCC rules, such filings are not mandatory, and only a relatively few stations have offered such measurements voluntarily. The Commission has no official and uniform rules for measuring service contours; such submissions are associated with stations' files but are not given official status by the Commission.

The maps are intended to serve as guides. It should be emphasized that the use of maps for legal proceedings, such as those before the FCC, may require precision greater than that reasonably obtainable in maps of the size employed in the *Factbook*.

On May 29, 1975 the FCC amended Section 73.699 of the rules providing revised charts for the prediction of field strengths of TV stations and requiring licensees to file new contours with renewal applications filed after the effective date. When a revised map was not available from the station or the FCC, a note to that effect appears on the station page.

The three grades of predicted contours required by the FCC are as follows:

Grade B Service: The quality of picture expected to be satisfactory to the median observer at least 90% of the time for at least 50% of the receiving locations within the contour, in the absence of interfering co-channel and adjacent-channel signals.

Grade A Service: Satisfactory service expected at least 90% of the time for at least 70% of the receiving locations.

Principal City Service: Satisfactory service expected at least 90% of the time for at least 90% of the receiving locations.

We obtained the predicted contour maps from the FCC files or from the stations. We publish two contour lines, "Grade A" and "Grade B."

1990 Edition

ARBITRON TV STATION CIRCULATION

The counties listed on the station pages represent the home market Arbitron Metro area plus those counties in which the station receives a Net Weekly Circulation of at least 5% according to Arbitron circulation estimates. Each of these counties is then delineated by three circulation categories which include those in which the station's circulation is 50% or more, 25%-49% and 5%-24%. In some instances, counties listed do not appear on the maps, since the reduction in scale required to include them would impair the legibility of the maps.

The station circulation estimates which determined the allocation of each county to the proper category were derived from samples obtained over several survey periods. The estimates were based on Arbitron market surveys conducted during 1988 and 1989.

The Total Households and Television Households which are listed for each county qualifying for inclusion in one of the three circulation categories are current Arbitron projections as of January 1989 (see Definitions of Arbitron Terms).

Net Weekly and Average Daily Circulation totals for each station are based on the above surveys.

(Data from The Arbitron Company are fully protected by copyright. Reproduction in whole or part is prohibited without written permission from the The Arbitron Company, 142 West 57th St., New York, NY 10019.)

DEFINITIONS OF ARBITRON TERMS

Total Households—A household is a single dwelling unit, which may be a house, an apartment, or a group of one or more rooms. The total households figures shown in the current study are Market Statistics estimates projected to January 1, 1989 and rounded to the nearest hundred. These estimates include households on military installations.

Television Households—A television household is an occupied dwelling unit having one or more television sets. Updated estimates of TV households in each county are prepared annually by the Arbitron Research Department.

TV Penetration—The percent of total homes having one or more television sets at the time of the surveys. TV penetration uses current regional penetration estimates derived by the Advertising Research Foundation from U.S. Bureau of the Census surveys conducted in accordance with ARF specifications.

Net Weekly Circulation—The estimated number of different television households viewing a particular station at least once per week, Monday-Sunday, Sign-on to Sign-off.

Average Daily Circulation—The estimated average number of different television households reached by a particular station on each day of the week, Sign-on to Sign-off.

EDITOR'S NOTE: Total Households listed for each station in this Volume of the *Television and Cable Factbook* do not include households in any county in which the station's circulation is less than 5%. The counties appearing in the circulation report are listed alphabetically by state. The states are arranged alphabetically by two-letter state abbreviations.

A-13

Station Directory Description

SURVEY METHODS, Described by ARBITRON

Arbitron uses one-week, interviewer-supervised family viewing diaries to secure information for television audience estimates. Families are contacted initially by mail to inform them of their selection for the survey. They are then contacted by telephone to secure their cooperation in the survey and to elicit basic information as to television set ownership and number of sets owned in the household. Contact is maintained with the sample families through followup calls to encourage proper recording and prompt return of the diaries.

Sampling is controlled by geographic units of no larger than county size, and in some instances for reasons of population distribution, terrain or technical control a county is divided into two sampling units. Sample homes are selected by computer from all available households with listed telephones in the sampling universe through a systematic interval selection technique with random selection occurring within each interval.

In the Metro and ADI Rating Area, households with unlisted telephones are included in the sample universe by using a list of potential telephone numbers. Known listed numbers, business numbers, nonresidential business exchanges and unassigned number blocks have been eliminated.

The Arbitron family viewing diary measurement technique is used for both market surveys of television viewing and broadscale station circulation information by county.

At least four times each year, Arbitron surveys every county to provide viewing information for every television market in the country. Further details on Arbitron sampling procedures are available from Arbitron.

EXPLANATION OF FCC SYMBOLS

FCC Filing Symbols:

1. BPCT: Broadcast Permit Commercial Television.
2. BMPCT: Broadcast Modification of Permit Commercial Television.
3. DOC: Docket (designation applied by FCC to hearing cases).
4. GRANTED: Date of authorization by FCC.

Note: "BPCT" and "BMPCT" designations, accompanied by numbers, are affixed by the FCC to applications for new or changed station facilities to identify each when it is accepted for filing. They therefore constitute file numbers. Each map in the Factbook is accompanied with its file number to facilitate reference to the Commission's official files. In each case, the file number used is the one affixed to the application for facilities which were subsequently authorized by the FCC and in use at the time this Factbook was published. "Docket" numbers are used in those few cases where the application was in a hearing status and a file number hasn't been assigned. The "granted" date indicates when the FCC approved construction of facilities involved.

After a station is completed according to the terms of its construction permit, it receives a license; this is identified by a number with a "BLCT" (Broadcast License Commercial Television) prefix. When a license is renewed, a number with a "BRCT" (Broadcast Renewal Commercial Television) prefix is employed. Applications for licenses or license renewals do not include requests for changes in facilities, thus do not affect predicted Grade A & B contours. Therefore, they are not employed as references in the Factbook.

The Grade A & B contours on the maps are predicted by station engineers according to the formulas designated by the FCC, as previously explained. They are based on facilities authorized or in use by stations at the time of Factbook publication.

BBM SURVEY METHODS

BBM is a non-profit tripartite association of advertising agencies, advertisers, broadcasters and broadcast representatives.

BBM conducts national surveys of television viewing and radio listening in all ten Canadian provinces.

A television market survey is taken over a seven day period and compiled and reported as the average of two or three weeks. Three week surveys are the designated sweep surveys. BBM identifies a range of dates during which a sweep survey can be taken. Toronto, Montreal and Vancouver are reported seven times yearly; markets four through twelve four times yearly; all others twice yearly. The individual weeks selected by BBM are not disclosed. Network television reports are produced for forty-eight weeks of each year.

BBM provides detailed survey data for fifty recognized markets across Canada. BBM divides the country into three hundred and forty-six mutually exclusive sampling cells which, when combined, cover all of Canada's ten provinces. Ten times yearly, household enumerations are conducted by telephone. A master file of all individuals aged two and over is compiled. From this master file, BBM draws its television sample, just prior to each survey interval. Households selected are not used again except as they may occur in the random selection of a sample. More than a half million Canadians are asked to participate in BBM television surveys each year, 350,000 of whom agree.

Randomly selected households are mailed a diary for each television set in the home. Household members are asked to record their personal television tuning by quarter hour for a specific seven day period to each set. The returned diaries are then weighted to represent the population within each sampling cell. Projections are made separately by age/sex group and by week of survey. In the bilingual markets of Montreal and Ottawa-Hull the intab diaries are also weighted by language group.

For each home station, BBM provides rating information by time periods and for each program for all specified markets in either central and/or extended markets. Full coverage audience data or total station tuning from all measured areas is also published. A reach report showing results by station and area is produced each Fall and Spring.

The definition of the central markets corresponds to Statistics Canada defined Census Metropolitan Areas (CMA) or Census Agglomerations (CA) from which the home stations broadcast. To be considered a central market, CA/CMA will normally contribute the largest of the total hours of tuning to a home station. All BBM central markets have one accompanying extended market (similar in definition to Designated Market Areas or an Area of Dominant Influence) except for some markets where no concentration of hours of tuning to home stations is found within the CA/CMA.

Note: In the Spring 1989 BBM Survey, results do not include stations which did not subscribe to the study.

Get the facts about
Television Digest with Consumer Electronics
... at no risk!

**We GUARANTEE
You Will Benefit**

**FROM READING TELEVISION DIGEST
with CONSUMER ELECTRONICS**

**... or We'll Refund Every
Penny of Your Investment!**

There are no "if's, and's or but's" about this offer:

Enter a one-year subscription (52 weeks), and any time that you feel you are not getting your money's worth in facts, figures, timely reports on every segment of your industry, tell us, and **we'll return your investment to the last penny.**

Like you, we're business men, and we wouldn't make this kind of an offer lightly. It's based on the simple fact that **for over 45 years *Television Digest with Consumer Electronics* has been the one best source** for the information people like you need to do your job better, faster, and more confidently.

How successful are we? **More than 84% of our subscribers renewed this year.**

Thousands of executive decision-makers now receive ***Television Digest*** every Monday morning—and have at their fingertips the latest reports, reviews, and analyses of television trends and developments, highlighting cable television, networks, stations, FCC, FTC, Congress. Plus what's news in consumer electronics—videocassette recorders, videodisc players, video games, home computers, color and monochrome TV, business statistics, import/export trends, government regulations, and much, much more.

They know—and you will—that ***Television Digest*** brings them the important news **first.**

Subscribe now, we **guarantee** you'll be satisfied, or it will cost you nothing.

To enter a subscription, or for a free sample copy, write us or call collect: (202) 872-9200.

U.S. Television Station Directory

Data updated to October 1, 1989 unless otherwise indicated. Includes rate digests, personnel, facilities and other data.

THE STATE PAGES

Following the map of each state, rankings for Arbitron's Area of Dominant Influence Television Households are shown. ADI Household Rank is established by Arbitron.

The state pages also carry additional cross-reference material, indicating for example, those stations within the state that are identified with two or more cities, or with cities in another state.

Operating commercial and educational TV stations by VHF and UHF are shown for each state in a status report as of October 1, 1989.

STATION PAGES

Rates, personnel and other data supplied by stations.

RATE DIGESTS: These show only the highest one-time rate charged by the stations. Most rates are also subject to frequency discounts, separate or additional rehearsal charges, talent & production charges, etc. For further details and for contract conditions, specifications etc., consult complete station rate cards, available from the stations on request.

STATION POWER: Powers shown are Effective Radiated Powers (ERP).

NETWORK SYMBOLS (registered trademarks)

The individual station tables show a complete listing of all counties grouped by Arbitron Net Weekly Circulation levels, with Total Households, and TV Penetration in each county individually. For definitions of Arbitron terms, see Introduction.

SATELLITE STATIONS are shown with a dash line pattern in relation to the parent listing. In the satellite listing the parent station is shown with a dash line pattern.

With CHANNELS magazine, you're front and center in the television industry.

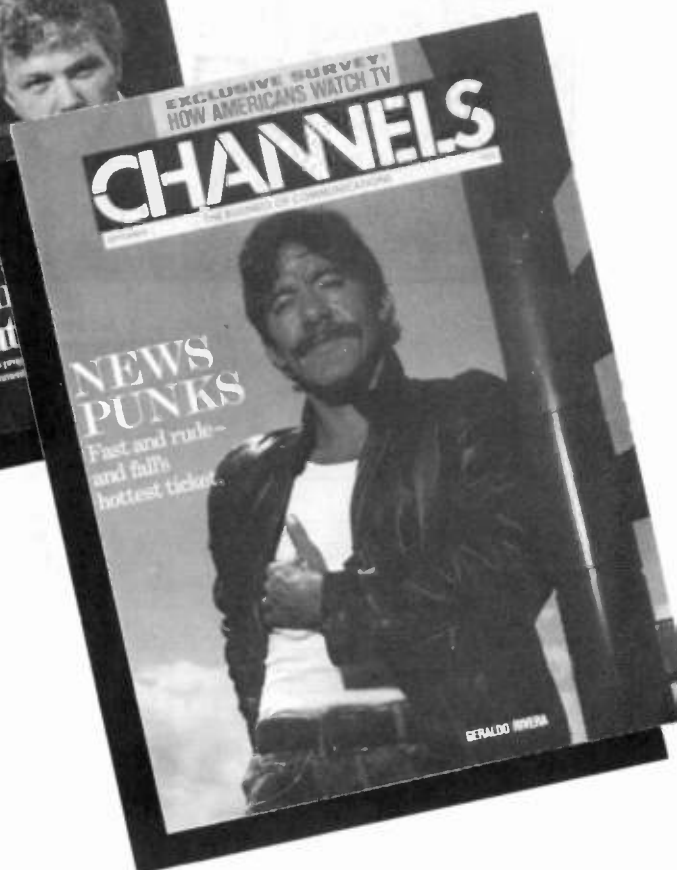

That's because CHANNELS goes beyond the headlines to report on where television is headed and who's taking it there.

Every month CHANNELS analyzes the course of the TV industry and highlights its key players. It takes an in-depth look at syndication, cable, station relations, and finance.

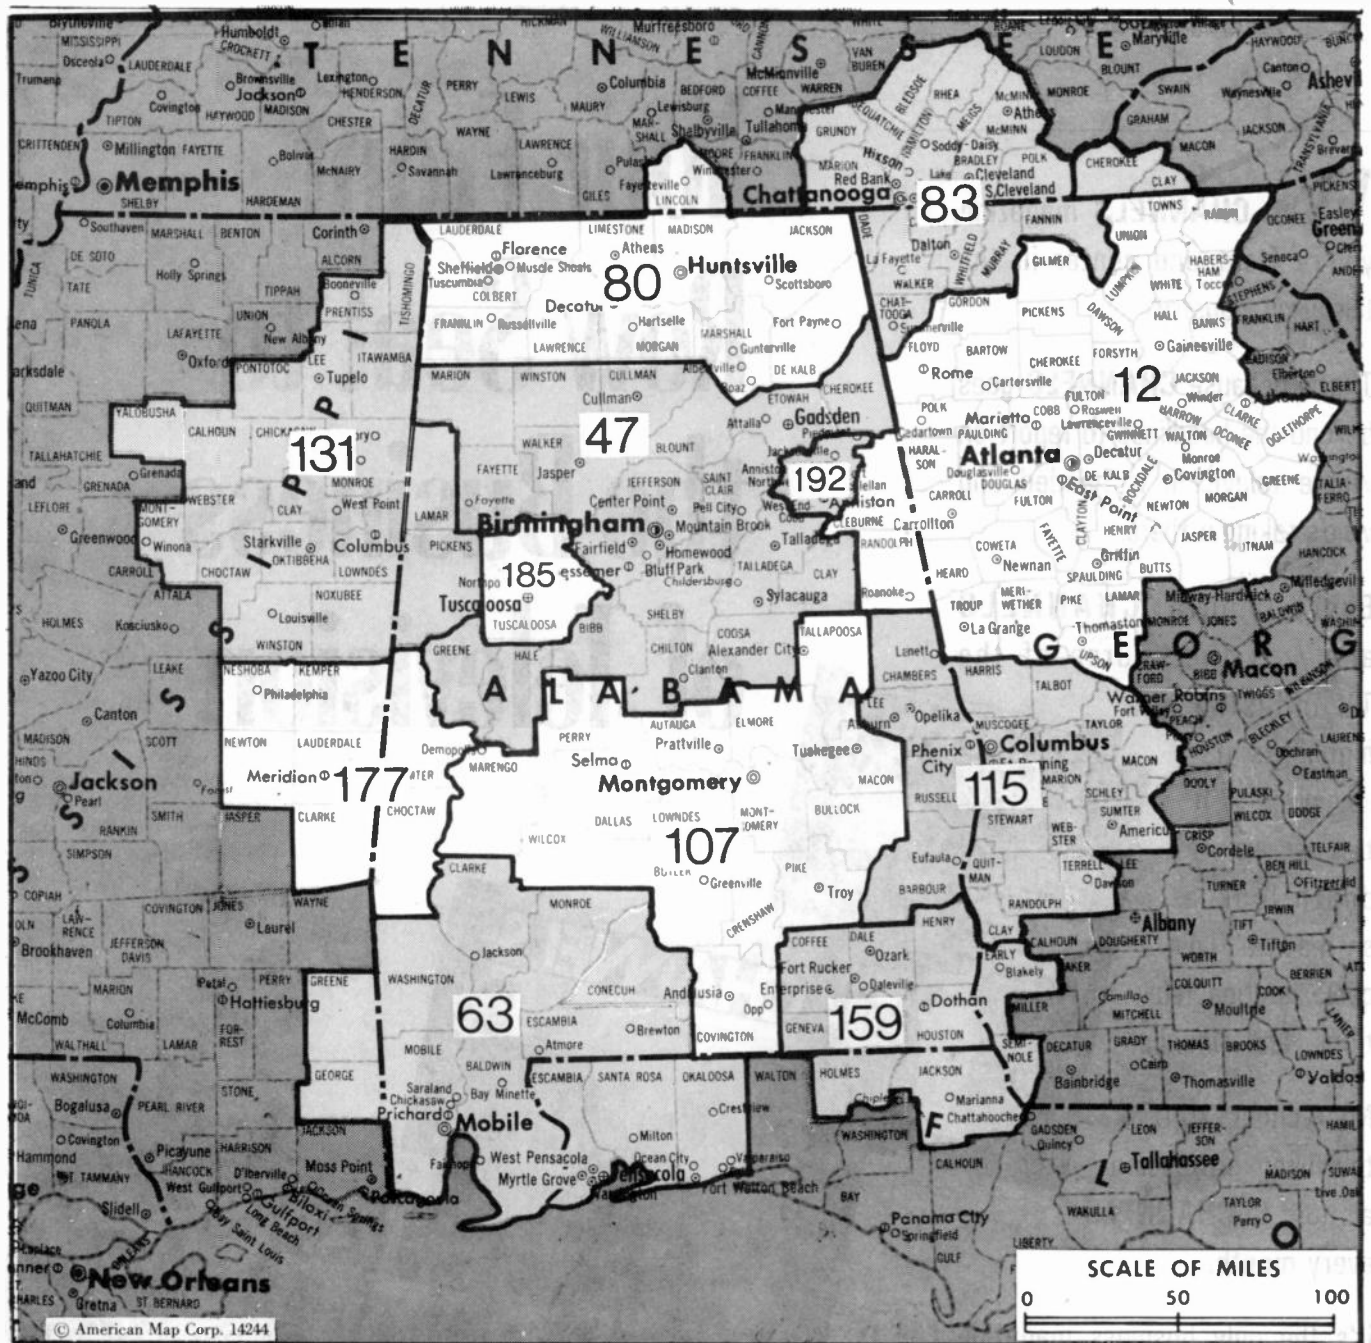

No wonder 25,000 television professionals turn to CHANNELS every month.

It's the only business magazine written by and for them!

Ownership: Burnham Broadcasting Co. See Group Ownership of Television Stations.

Began Operation: December 17, 1958 on Ch. 13, and on Jan. 28, 1959 FCC granted temporary Ch. 13 operation by New Orleans Television Corp. (*Television Digest*, Vol. 14:51; 15:5). Supreme Bcstg. Co. started operation on Ch. 20 Nov. 1, 1953, using WJMR-TV call letters. In Oct. 1957, WJMR-TV began experimental operation on Ch. 12 but FCC ruled in 1958 that this operation was to close by Jan. 1, 1959 but WVUE did not begin on Ch. 12 until Sept. 1, 1962. Sale of 60% by New Orleans Television Inc. (Joseph A. Paretti and associates) to Screen Gems and contingent transfer by Rust Craft of its 40% to Screen Gems approved June 2, 1965 by FCC (Vol. 5:8, 23). Switched to Ch. 8 June 8, 1970. Sale to Gaylord Bcstg. approved by FCC June 30, 1977 (Vol. 16:26; 17:28). Sale to Burnham Bcstg. L.P. by Gaylord approved by FCC June 8, 1987 (Vol. 26:47; 27:3).
