Managers Programmers Engineers Financial wizards

...have one thing in common.

It's been around so long most people take it for granted. But all 23,705 of them refer to it over 241,000 times on average each month! Where else can the people you want to sell your products or services get the names and numbers and data that are so important to decision-makers and influencers?

If your advertising program is suffering from a weak budget, maybe you should be in the 'bible of the business'...the **Television & Cable Factbook**. A single ad in this important industry resource is a 'year-round campaign' that will continue to showcase your message.

Remember, the **Television & Cable**

Factbook is not a 'shelf item'. It's used monthly, weekly, daily, even hourly by mostly upper-level and mid-level managers. It's used *regularly* more than twice as often as Broadcasting's *Yearbook*. And for television and cable needs, there's less waste circulation.

If you want them to *buy*...you'd better *sell* them...in the **Television & Cable Factbook**. Contact Gene Edwards, Advertising Director, for space reservations and rates. Our media kit will tell you even more about us. The time to plan for next year is now!

Television Digest With Consumer Electronics

Television Digest has been keeping leading communications executives informed since 1945 and is published for all those decision-makers—like you—who have a big stake in the ever-changing broadcasting, cable and consumer electronics industries.

Television Digest goes beyond the scope of any other publication by bringing into sharp focus all the conflicting forces at work—broadcast, cable, home video, MDS, DBS, SMATV and others. It provides experienced, authoritative coverage. The Los Angeles Times recently referred to **Television Digest** as “a publication considered the bible of the TV industry.” Tack Nail, covering broadcasting, and Dave Lachenbruch, covering consumer electronics, are known and respected throughout the entire industry.

And each issue of **TVD** provides thorough coverage of government activities—the FCC, Capitol Hill, the White House. **Television Digest** also gives you the latest news on marketing strategies . . . programming ploys . . . personnel shifts . . . and current standings on the volatile revenue and ratings picture.

Television Digest regularly includes a host of industry surveys and statistics that cannot be found anywhere else. And because conventions, professional meetings and trade shows are of such vital importance to the communications industry, **TVD** provides complete pre- and post-meeting coverage of virtually every major professional meeting and trade show, whether in the U.S. or abroad.

Television Digest gives you the information you need, delivered in a fast-paced style and clear format that always respects your busy schedule. **TVD** is designed to be read quickly . . . to help you spend less time gathering information and more time using what you've found.

Television Translators

As of September 4, 1989
VHF and UHF Channels

Star (★) preceding a listing indicates construction permit(s). Asterisk (*) preceding a listing indicates application only. All others are licenses. Transmitter power output (TPO) is given at end of each listing; all translators are one watt (1-w) unless otherwise indicated. Channel numbers are contained in call letters. For example, Ch. 4 is indicated for Adak, Alaska by K04LY. Call letters and location of station repeated are in parentheses. This listing includes all existing & proposed translator stations, including those which are owned & operated by television stations.
