SATELLITE WEEK

When you're in the satellite business, you can't afford a communications breakdown.

And —

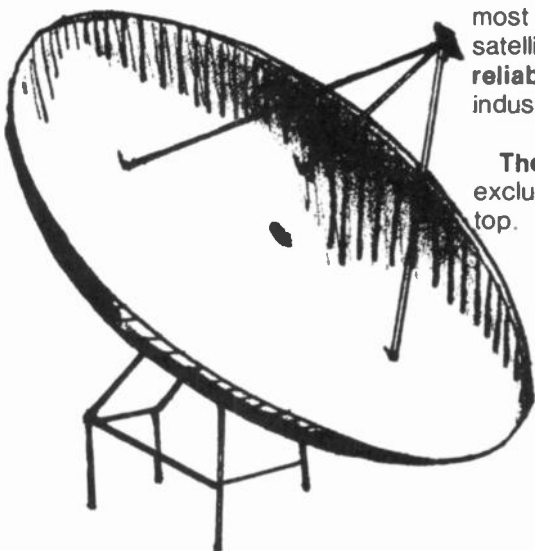

You can't afford to miss out on the dynamic news reports carried exclusively in SATELLITE WEEK because:

(1) SATELLITE WEEK is **unique**. It's the industry's **only** comprehensive weekly briefing **devoted entirely** to space communications and allied business. For us, satellite news isn't an afterthought — jammed in along with news that doesn't concern you. Satellite business news is **all** we cover.

(2) SATELLITE WEEK **saves you time**. Our unmatched early warning report is presented in a **crisp, concise** editorial style designed to cut through the fluff to the substance of the news.

(3) SATELLITE WEEK helps you **stay ahead of the game**. Our staff of experts in Washington, New York, Europe and Japan knows the players and understands the field of competition. (Some of our people have been covering satellite communications for almost 20 years — since Telstar first demonstrated the feasibility of satellite communications.) No other publication provides such a **reliable, timely and independent** assessment of this dynamic industry.

The bottom line: SATELLITE WEEK is the **only** source for the exclusive, hard-hitting news reports that managers need to stay on top.

Armed Forces Radio & Television Service Broadcast Center, 10888 La Tuna Canyon Rd., Sun Valley, CA 91352. Phone: 818-504-1260. Capt. Jack Martin, commander. AFRTS operates radio and television outlets located in 23 foreign countries. AFRTS

facilities are established with major concentrations of U.S. forces overseas as well as in remote areas of Alaska, U.S. trusts, territories and possessions, aboard over 500 Navy ships and as closed-circuit facilities in 140 isolated locations. Most of the land-based stations are grouped into regional AFRTS networks to serve specified geographical areas, i.e., American Forces Network-Europe in Western Europe and Far East Network in the Pacific. AFRTS networks and independent stations overseas create their own individual radio and television program schedules from broadcast materials provided by the AFRTS Broadcast Center in Sun Valley, CA and from their own local productions. Some outlets are over-the-air broadcast operations and some are carried on closed-circuit systems of various types. Domestic and Intelsat satellite service is leased on a 24 hour-a-day basis, providing real-time stateside radio and TV to overseas locations.

Broadcast Television Locations: Belgium, Cuba (Guantanamo Bay), Diego Garcia, Federal Republic of Germany, Greece, Italy, Japan, Republic of Korea, Netherlands, Panama, Portugal, Philippines, Turkey and USA (Alaska, Kwajalein Atoll, Puerto Rico).

Cable Television Locations: Australia, Bermuda, Canada (Newfoundland), Greece, Greenland, Iceland, Japan, New Zealand and Spain.

INDEPENDENT BROADCASTING

AUTHORITY—70 Brompton Road, London, SW3 1EY. Telephone: 01-584-7011. Telex: 24345. The Authority was created by Parliament in 1954 as Independent Television Authority to provide a comprehensive television service additional to that of BBC. In 1972, it was renamed the Independent Broadcasting Authority and its functions were extended to provide an Independent Local Radio service.

The Authority selects and appoints the program companies; supervises programs provided by the contractors and their scheduling; controls the advertising; builds, owns & operates the transmitting stations. Fifteen companies provide programs in fourteen independent television regions of the United Kingdom (2 companies share the contract for London). As part of its review of the ITV system, the Authority, in Dec. 1980, offered a contract to broadcast a new national breakfast-time television service, which started in May 1983, to TV-am. In addition, changes were made to some ITV companies. Both Independent Television & Independent Local Radio services are financed mainly by the sale of advertising time.

Members of the Authority: George Russell, chmn.; The Rt. Hon. The Lord Chalfont, deputy chmn.; G. R. Peregrine, member for Wales; Professor J. F. Fulton, member for Northern Ireland; J. R. Television Digest With Consumer Electronics

Television Digest has been keeping leading communications executives informed since 1945 and is published for all those decision-makers—like you—who have a big stake in the ever-changing broadcasting, cable and consumer electronics industries.

Television Digest goes beyond the scope of any other publication by bringing into sharp focus all the conflicting forces at work—broadcast, cable, home video, MDS, DBS, SMATV and others. It provides experienced, authoritative coverage. The Los Angeles Times recently referred to **Television Digest** as “a publication considered the bible of the TV industry.” Tack Nail, covering broadcasting, and Dave Lachenbruch, covering consumer electronics, are known and respected throughout the entire industry.

And each issue of **TVD** provides thorough coverage of government activities—the FCC, Capitol Hill, the White House. **Television Digest** also gives you the latest news on marketing strategies . . . programming ploys . . . personnel shifts . . . and current standings on the volatile revenue and ratings picture.

Television Digest regularly includes a host of industry surveys and statistics that cannot be found anywhere else. And because conventions, professional meetings and trade shows are of such vital importance to the communications industry, **TVD** provides complete pre- and post-meeting coverage of virtually every major professional meeting and trade show, whether in the U.S. or abroad.

Television Digest gives you the information you need, delivered in a fast-paced style and clear format that always respects your busy schedule. **TVD** is designed to be read quickly . . . to help you spend less time gathering information and more time using what you've found.

SIX GOOD REASONS TO CHOOSE BLACKBURN

CREATIVE FINANCING We have our own financing experts with Blackburn Capital Markets. We get the top price for your station and we can help structure the best financing package.

STATION VALUE EXPERTISE We have been in the market every day for the past 40 years. Nobody knows station values like Blackburn & Company.

CONFIDENTIALITY We know that rumors can hurt your station's value in the marketplace. We pride ourselves on being able to bring you the top price quickly and quietly. Our confidential approach lets you maximize your station's value... not waste your time fighting rumors.

RESEARCH Blackburn & Company has purchased the exclusive rights to "Radio Econometrics." We can give you a complete profile on any station in any Arbitron rated market in minutes.

BEST RESULTS

Paul Kagan Associates' exclusive 1988 survey of independent brokers reports that Blackburn & Company is #1 in total transactions and dollar volume. A total of 57 deals totalling \$436,000,000! In the past one thousand days we have exceeded ONE BILLION DOLLARS.

BUYER/SELLER MATCHING

We are specialists in putting the best buyers and sellers together. We know the buyers that are motivated and qualified to close the deal. Given our resources, we can virtually guarantee the best price... quickly and quietly.

**“...the most
authoritative
source.”**

**Darrel Cunningham
General Manager
KHBS-TV
Fort Smith, AR**

Darrel is one of thousands of engineers, programmers, general managers and financial people who get and regularly use the **Television & Cable Factbook**.

Pictured above (*left*) with news director, Craig Cannon, Darrel told us, “ Since we got our *SKYLINK* satellite news gathering vehicle, we talk to TV stations all over the country.”

Darrel and Craig are two of the most important decision makers in our business because they can say, “*Yes, we’ll buy!*”

KHBS-TV is one of hundreds of stations that use the Factbook. In fact, more than 4.31 different decision-makers and influencers refer to each **Television & Cable Factbook** 10.18 times every month. In other words, 23,705 top-level executives

will see your advertising message more than 241,000 times monthly! Over 63% are in upper-level management, and 30% have mid-level management positions.

Your ad in the **Television & Cable Factbook** costs about the same as those placed in weeklies and monthlies. Yet a single ad will represent your company over and over all year long.

If you want to reach the men and women who can say “*Yes*” to you, plan now to have a space like this in next year’s book while good positions are still available. Contact Gene Edwards, Advertising Director, for our media kit which will have all the details on our rates, availabilities and research. It’s not too soon to be planning for your ad in our next volume!

Television & Cable Factbook

2115 Ward Court, NW • Washington, DC 20037 • 202-872-9200

93%

of people who use the Television & Cable Factbook are upper-level or mid-level managers.

The rest are clearly on the way up.

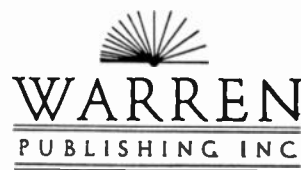

It surprised even us. Frankly, while we knew we had the best organized and the most widely used resource in the industry (*Multichannel News* survey), we lacked the specifics to back up our convictions. Then, a blind survey we conducted this past year showed that, on average, 4.31 different people use each **Television & Cable Factbook** more than 10.18 times each month. Put another way, 23,705 different decision-makers and influencers refer to this important tool over 241,000 times monthly! Over 63% are in upper-level management, and some 30% have mid-level management positions. Corporate managers, programmers, engineers, marketers and financial people had the job responsibilities that most often appeared in our study.

It's hard to imagine that an advertising message that will receive nearly 3 million impressions in the course of a year won't be seen by the people you want to sell your products and services. Where else can people get information and the names and numbers they need quickly, accurately, and in one place? Only the **Television & Cable Factbook** has

Grade A and B contour maps of every commercial station in the U.S. And if you think our *Buyer's Guide* isn't the first place they go to find the products they need each day, maybe you'd better ask some of the thousands of subscribers who write or call us each year to make sure their company is listed.

The **Television & Cable Factbook** is the primary source for information about the total industry. A single ad will be seen all year by the men and women who can say "Yes" when you ask them to buy.

If the **Television & Cable Factbook** isn't part of your advertising plan, it should be. Now is the time to be planning for next year's placement in the industry's most respected resource... with less waste circulation than any other publication in television and cable. For a media kit that contains rates, ad sizes, and details on the research we talked about, call or write Gene Edwards, Advertising Director. It's not too early to start planning for next year...while some good positions are still available!

Buyers Guide

that helps you find products faster!

Instructions

1. Turn to the yellow pages **Buyers Guide Product Index** to find an alphabetical listing of all products and services listed in the Buyers Guide. Following each entry is a Buyers Guide page reference number where a list of companies involved in that specific field can be found in the Buyers Guide.

Listed after the name of each product category is a product NUMBER that will help you find product categories even faster than before! This 8 digit number contains a PRIMARY number (the first 4 digits) followed by a SECONDARY number (the last 4 digits). The product numbers correspond exactly to those on the Buyers Guide Questionnaire (see following pages) sent to each company listed in the BUYERS GUIDE.

Listed at the top of each page is the PRIMARY product number to help guide you to the correct category.

— OR —

You can use the Buyers Guide Questionnaire (see following pages) to find the NUMBER assigned to a particular product and then find it by number within the Buyers Guide.

The Buyers Guide Questionnaire lists product categories IN THE SAME ORDER that the products are listed in the BUYERS GUIDE.

For example: 0020 is the product number for Amplifiers listed under 0110 Satellite Earth Stations. Using the PRIMARY number listed at the top of each page, find the 0100 section, then 0110 within it, then 0020 under that category.

2. Once you have found the product category you want and have found the company you want to contact, turn to the page number listed after the company name in the white pages section of the Factbook for detailed information concerning the company.

Key to Abbreviations

- (m) — manufacturer
- (r) — repair
- (d) — distributor
- (s) — service
- (p) — producer (i.e. film, etc.)

BUYERS GUIDE EXPLANATORY NOTES

The Television & Cable Factbook BUYERS GUIDE is divided into nine primary product categories based on product/service type. Each Primary Category begins a new section in the Buyers Guide. Companies are listed alphabetically under each category. Those appearing in bold type are paid BOLD-FACE BUYERS GUIDE advertisers*. All remaining entries are provided free as a service to non-advertising companies listed in the Factbook.

BUYERS GUIDE PRODUCT INDEX

An alphabetical listing of all products and services listed in the **BUYERS GUIDE** that precedes this section. Immediately following each entry is the page number where company listings for that product/service can be found. Also included in each listing contained in this Product Index is an 8 digit number that corresponds to the number assigned to products in the **BUYERS GUIDE**.

All we need is a minute of your time.

Just :60 of prime time to get our recruiting message out.

Because more than ever before, it's a message that deserves to be heard.

The National Guard makes up about one-half of our nation's combat forces. And we need men and women to help keep us strong—ready to protect your community and defend your country.

It's a commitment that takes dedication. Guardsmen give at least two weeks a year and two days every month to the Guard—and to you. Is a minute of your time really too much to ask?

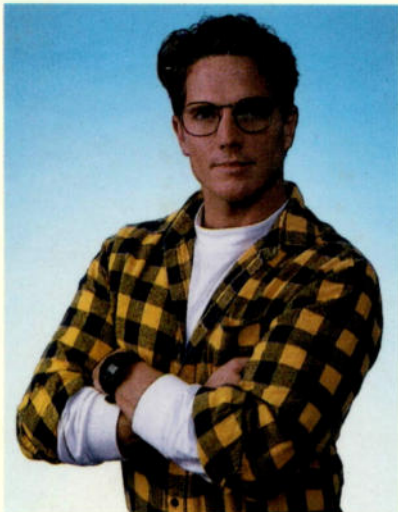

Run our spots whenever possible. And if you can't spare a minute, we'll settle for :30. Even :20 or :10.

To obtain free dubs of Air and Army National Guard PSAs write: National Guard Bureau, Advertising Distribution Center, P.O. Box 1776, Edgewood, Maryland 21040, Attn: SMSgt Pat Campbell.

Americans at their best.

"We've always known JVC makes great cameras..."

...so we were especially interested to hear about their new KY-25U three chip camera. We've been looking for a camera that offers at least 700 lines of resolution, can dock with our component VTR's, and won't eat up our limited budget."

JVC's engineers specifically designed the KY-25U to be a versatile camera, with multiple signal outputs for docking to any component VTR, satisfying all the rigorous demands of field acquisition.

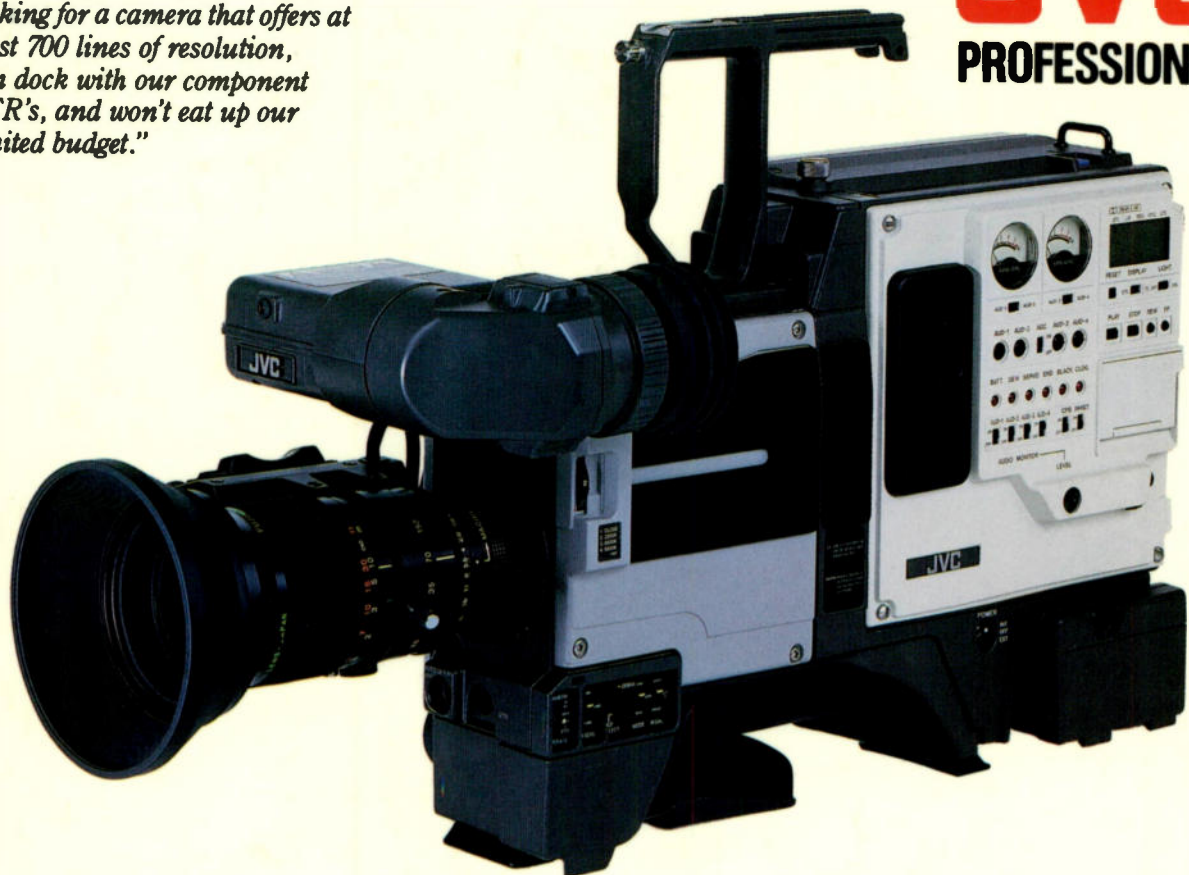

Plus, it's well balanced, comfortable and feels great to use.

It's an outstanding camera that will give you over 700 lines of resolution to take advantage of today's superior recording formats like S-VHS, MII and Betacam. Three $\frac{2}{3}$ " high density CCDs, each with 360,000 effective pixels and a

signal-to-noise ratio of 60dB, ensure exceptional picture quality.

Compare the KY-25U's compact size and advanced features including high speed shutter, stereo audio, advanced circuitry and much more. You'll agree... for price and performance there is just no better camera available today.
