93%

**of people who use the
Television & Cable Factbook
are upper-level or mid-level managers.**

The rest are clearly on the way up.

It surprised even us. Frankly, while we knew we had the best organized and the most widely used resource in the industry (*Multichannel News* survey), we lacked the specifics to back up our convictions. Then, a blind survey we conducted this past year showed that, on average, 4.31 different people use each **Television & Cable Factbook** more than 10.18 times each month. Put another way, 23,705 different decision-makers and influencers refer to this important tool over 241,000 times monthly! Over 63% are in upper-level management, and some 30% have mid-level management positions. Corporate managers, programmers, engineers, marketers and financial people had the job responsibilities that most often appeared in our study.

It's hard to imagine that an advertising message that will receive nearly 3 million impressions in the course of a year won't be seen by the people you want to sell your products and services. Where else can people get information and the names and numbers they need quickly, accurately, and in one place? Only the **Television & Cable Factbook** has

Grade A and B contour maps of every commercial station in the U.S. And if you think our *Buyer's Guide* isn't the first place they go to find the products they need each day, maybe you'd better ask some of the thousands of subscribers who write or call us each year to make sure their company is listed.

The **Television & Cable Factbook** is the primary source for information about the total industry. A single ad will be seen all year by the men and women who can say "Yes" when you ask them to buy.

If the **Television & Cable Factbook** isn't part of your advertising plan, it should be. Now is the time to be planning for next year's placement in the industry's most respected resource... with less waste circulation than any other publication in television and cable. For a media kit that contains rates, ad sizes, and details on the research we talked about, call or write Gene Edwards, Advertising Director. It's not too early to start planning for next year...while some good positions are still available!

Television Translators

As of September 4, 1990
VHF and UHF Channels

Star (★) preceding a listing indicates construction permit(s). Asterisk (*) preceding a listing indicates application only. All others are licenses. Transmitter power output (TPO) is given at end of each listing; all translators are one watt (1-watt) unless otherwise indicated. Channel numbers are contained in call letters. For example, Ch. 4 is indicated for Adak, Alaska by K04LY. Call letters and location of station repeated are in parentheses. This listing includes all existing & proposed translator stations, including those which are owned & operated by television stations.

**“...the most
authoritative
source.”**

**Darrel Cunningham
General Manager
KHBS-TV
Fort Smith, AR**

Darrel is one of thousands of engineers, programmers, general managers and financial people who get and regularly use the **Television & Cable Factbook**.

Pictured above (*left*) with news director, Craig Cannon, Darrel told us, “ Since we got our *SKYLINK* satellite news gathering vehicle, we talk to TV stations all over the country.”

Darrel and Craig are two of the most important decision makers in our business because they can say, “*Yes, we’ll buy!*”

KHBS-TV is one of hundreds of stations that use the Factbook. In fact, more than 4.31 different decision-makers and influencers refer to each **Television & Cable Factbook** 10.18 times every month. In other words, 23,705 top-level executives

will see your advertising message more than 241,000 times monthly! Over 63% are in upper-level management, and 30% have mid-level management positions.

Your ad in the **Television & Cable Factbook** costs about the same as those placed in weeklies and monthlies. Yet a single ad will represent your company over and over all year long.

If you want to reach the men and women who can say “*Yes*” to you, plan now to have a space like this in next year’s book while good positions are still available. Contact Gene Edwards, Advertising Director, for our media kit which will have all the details on our rates, availabilities and research. It’s not too soon to be planning for your ad in our next volume!

Armed Forces Television Stations

American Forces Information Service, 601 N. Fairfax St., Suite 360, Alexandria, VA 22314-2007. Phone: 703-274-4856. Melvin W. Russell, asst. dir.

Armed Forces Radio & Television Service Broadcast Center, 10888 La Tuna Canyon Rd., Sun Valley, CA 91352. Phone: 818-504-1260. Capt. Jack Martin, commander.

AFRTS operates radio and television outlets located in 23 foreign countries. AFRTS facilities are established with major concentrations of U.S. forces overseas as well as in remote areas of Alaska, U.S. trusts, territories and possessions, aboard over 500 Navy ships and as closed-circuit facilities in 140 isolated locations. Most of the land-based stations are grouped into regional AFRTS networks to serve specified geographical areas, i.e., American Forces Network-Europe in Western Europe and Far East Network in the Pacific. AFRTS networks and independent stations overseas create their own individual radio and television program schedules from broadcast materials provided by the AFRTS Broadcast Center in Sun Valley, CA and from their own local productions. Some outlets are over-the-air broadcast operations and some are carried on closed-circuit systems of various types. Domestic and Intelsat satellite service is leased on a 24 hour-a-day basis, providing real-time stateside radio and TV to overseas locations.

Broadcast Television Locations: Belgium, Cuba (Guantanamo Bay), Diego Garcia, Federal Republic of Germany, Greece, Italy, Japan, Republic of Korea, Netherlands, Panama, Philippines, Portugal, Turkey and USA (Alaska, Kwajalein Atoll, Puerto Rico).

Cable Television Locations: Australia, Bermuda, Canada (Newfoundland), Greece, Greenland, Iceland, Japan, New Zealand and Spain.

Cox, radio correspondent (New York); David McNeil, radio correspondent (Washington).

INDEPENDENT TELEVISION COMMISSION (formerly Independent Broadcasting Authority)—70 Brompton Road, London, SW3 1EY. Telephone: 071-584-7011. Telex: 24345. The independent Broadcasting Authority was created by Parliament in 1954 as the Independent Television Authority to provide a comprehensive television service additional to that of the BBC. In 1972, it was renamed the Independent Broadcasting Authority

and its functions were extended to cover the provisions of independent local radio service.

The Authority selects and appoints the program companies; supervises programs provided by the contractors and their scheduling; controls the advertising; builds, owns & operates the transmitting stations. Fifteen companies provide programs in fourteen independent television regions of the United Kingdom (2 companies share the contract for London). As part of its review of the ITV system, the Authority, in Dec. 1980, offered a contract to broadcast a new national breakfast-time television service, which started in May 1983, to TV-am. In addition, changes were made to some ITV companies. Both Independent Television & Independent Local Radio services are financed mainly by the sale of advertising time. A new Broadcasting Bill is due to receive Royal Assent during 1990, its provisions coming into force at the beginning of 1991. Two new bodies replace the IBA, the Independent Television Commission & the Radio Authority. The ITC will be responsible for licensing & regulating all commercially funded UK television services including cable, satellite & terrestrial service. The Radio Authority will assign frequencies, issue licenses & regulate all independent radio stations. The IBA transmission system will be privatized in early 1991.

Members of the Authority: George Russell, chmn.; The Rt. Hon. The Lord Chalfont, deputy chmn., IBA & chief executive designate, Radio Authority; Professor J. F. Fulton; R. A. Grantham; Mrs. P. Mathias; Lady Margaret Popplewell; P. Sheth.

Permanent Staff: Lady Littler, dir. general; K. W. Blyth, secy.; David Glencross, dir. of television, IBA & chmn. designate, ITC; C. Mulholland, deputy dir. of television; Peter Baldwin, dir. of radio, IBA & chief executive designate, Radio Authority; Sarah Thane, controller of public affairs; M. Melaniphy, head of publications and publicity; Dr. R. Moss, head of educational program services.

YOU'VE ASKED FOR IT...YOU'VE WAITED FOR IT...AND NOW IT'S HERE...

The Cable Systems and Broadcast Television Directories of the authoritative Television & Cable Factbook are now computerized data bases!

At surprisingly low cost, you now can rapidly obtain a virtually unlimited amount of constantly updated video industry data. Through the Market Research & Data Sales division of Warren Publishing, Inc., you may order reports and other services that manipulate this data *exactly the way you need it.*

These data bases offer you electronic data from a vast bank of:

Cable Data

- Operating systems, franchises not yet operating & applications pending
- Multiple system operators
- Programming carriage, basic & tiers
- Basic, tier & security subscribers
- Installation & monthly subscriber fees
- Franchise expiration dates
- Makes of equipment
- Channel capacity, miles of plant & homes passed
- Addresses, telephone numbers, owners, managers & engineers

Broadcast Data

- Operating stations, construction permits awarded & applications pending, both commercial and non-commercial
- Current ownership & pending acquisitions
- Market rankings with TV household shares
- Channel numbers & network affiliations
- Satellite earth station usage
- Broadcast stereo capability

- Installed equipment
 - Technical facilities data
 - Addresses, telephone numbers & all major executives
- And much, much more.*

Take advantage of this unique opportunity to develop the valuable market research you need to:

- Market new products and services
- Pinpoint media acquisitions
- Monitor your competition
- Determine the impact of the 'Syndex' rules on your business
- Or conduct numerous other types of research & analysis.

How can you access the information?

Call us for reports from the Factbook data bases that select only those elements that are important to you, then have the reports sort the data into state, county or regional breakdowns, rank it by size, age or any other variable and screen out systems/stations that do not meet specified criteria.

Here are just a few examples of vital studies Warren Publishing, Inc. has recently provided to its clients:

- Cable system channel capacity studies
- Broadcast TV and cable system ownership studies
- Miniature data bases installed at clients' sites for maintaining important sales and marketing information

- Lists of cable systems carrying programming competitive with proposed new services
- Lists of cable systems using equipment competitive with new products being introduced
- Mailing labels for marketing campaigns targeted to broadcast stations and cable systems with specified characteristics

Warren Publishing, Inc. has been collecting broadcast TV data since 1945 and was the first organization to gather cable TV data. The Factbook data bases are unmatched by anything else in the field and are totally responsive to your individual requirements. They offer you unheard of speed and flexibility using the most complete source of television data available.

Best of all, reports from Warren Publishing, Inc. are available to you in a variety of formats sure to meet your needs. You may opt to receive data . . .

- On 9-track magnetic tape
- On 5¼" floppy diskettes ready to load onto your PC
- Via telecommunications
- In a printed format or
- On mailing labels.

For complete details on these or other research services, call Lynn Levine, Director of Market Research & Data Sales, collect at 202-872-9200.
