PUBLIC BROADCASTING REPORT

Public Broadcasting Report is the totally independent information service that covers significant developments on all public broadcasting fronts...from CPB and PBS to NPR and other network programming...from marketing innovations to new technologies... you will follow all the action, *as it develops!*

Public Broadcasting Report will keep you up to date with every important development that affects public broadcasting with:

- key reports on critical local and federal legislative action
- interviews and inside information from top executives at PBS, NPR, CPB and stations nationwide
- coverage of the latest industry studies and research
- in-depth analyses of regulatory developments
- early warnings about grants and awards complete with application deadlines

If you have a stake in public broadcasting, a personal subscription to **PBR** could make a substantial difference in your ability to pursue funding, spot trends, anticipate the impact of developments and make even more informed business decisions.

For subscription information, call collect: (202) 872-9200.

The *latest* volume in the Continuing Series...
 ...from the editors of Television Digest With Consumer Electronics...

The *Eighth* Edition of the...

Consumer Electronics VIDEO DATA BOOK

(covering the period
 July 1988 through July 1989)

NOW...the VIDEO DATA BOOK includes:

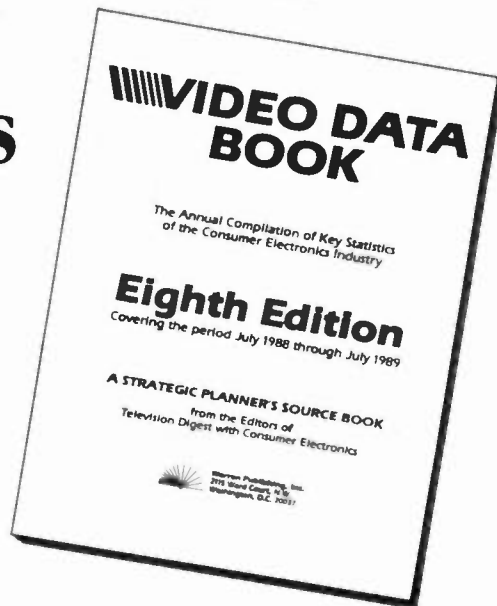

- Brand share-of-market rankings of color television sets by model year from 1968 through 1989
- Brand share-of-market rankings of VCRs by year from 1981 through 1988
- Brand share-of-market rankings of camcorders by year from 1986 through 1988

David Lachenbruch, "recognized by those in the press and at the major hardware companies as the dean of electronics reporters," (Videography) has for an eighth time compiled a year's coverage of key consumer electronics statistics and projections taken from Television Digest With Consumer Electronics to produce a new Eighth Edition of the Consumer Electronics VIDEO DATA BOOK.

The *latest* VIDEO DATA BOOK, covering July 1988/July 1989, gives you the facts, the statistics, the projections, the informed guesstimates to help you better plan your future business endeavors. *In a very real sense, the VIDEO DATA BOOK allows you to rely on Dave Lachenbruch and other savvy Television Digest journalists as your in-house economic experts.*

The Eighth Edition includes...

- Brand share-of-market rankings by year of color television sets, VCRs and camcorders as mentioned above
- Tables of weekly sales to dealers of TVs, VCRs, projection TVs and color cameras for the entire fiscal period
- Monthly sales-to-dealer summaries complete with inventory reviews and perceptive analysis

- Quarterly data on total-market supply of color and black & white TVs, including Television Digest's own breakdown of domestic production and imports
- Average prices, mix, imports and sales by screen sizes (also U.S. exports)
- Monthly summaries of Japanese exports to U.S. and U.S. imports of major video electronic products
- Market studies and reports—including projections—covering many industry products for the U.S. and overseas

If you want to stay ahead of your competition, the VIDEO DATA BOOK offers you the information you need at your fingertips. Take advantage of this powerful tool. Order your copies today.

Russ and Dino are among the thousands of engineers, programmers, general managers and financial people who get and regularly use the **Television & Cable Factbook**.

“Of all the elements that are so integral and important to our operations, the **TV Factbook** is one of our most useful tools.

“It allows a quick and detailed reference to all aspects of our business from equipment needs to station and market information.”

They are two of the most important people in our business because they can say, “*Yes, we’ll buy!*”

KHSL-TV is one of hundreds of stations that use this important resource. In fact, more than 4.31 different decision-makers and influencers refer to each **Television & Cable Factbook** 10.18 times each month. In other words, 23,705 top-level executives will see your advertising message more than

241,000 times monthly! Over 63% are in upper-level management, and 30% have mid-level management positions.

Your ad in the **Television & Cable Factbook** costs about the same as those placed in weeklies and monthlies. Yet a single ad will represent your company all year long.

If you want to reach the men and women who can say “*Yes*” to you, plan now to have a space like this in next year’s book while good positions are still available. Contact Gene Edwards, Advertising Director, and get our media kit which will have all the details on our rates, availabilities and research.

(If you’re wondering why the VP/Engineering is mentioned before the General Manager, it’s because Dino always puts his people first!)

CORPORATE STRUCTURE

The Canadian Broadcasting Corp. is a Crown (that is, publicly owned) corporation established on November 2, 1936 by an Act of the Canadian Parliament to provide the national broadcasting service in Canada in the two official languages. Under this legislation, the CBC is responsible to Parliament, to which it reports each year on its operations through the Minister of Communications. The CBC is financed mainly by public funds voted annually by Parliament. Supplementary revenue is obtained from commercial advertising on CBC television. CBC radio is virtually free of commercial advertising.

The CBC operates several national services: A French television network; an English television network; English and French AM radio and FM stereo networks, maintaining high levels of Canadian content (in the 80 per cent range for television and even higher for radio). The CBC National Satellite Channel makes available to Canadians via cable the proceedings of the House of Commons and other special national events such as public hearings and provincial election coverage. Radio Canada International is a service of the CBC on shortwave. Broadcasting in 12 languages, RCI's information programming reflects Canada's political, economic, social and cultural spectrum to an international audience. RCI also produces programs for use by leading broadcasters in the world's major radio markets. Northern Service Television began in 1967 as a tape delay rebroadcast service in 14 northern communities. Northern based television production began in 1979 at Yellowknife. Today, Northern Service broadcasts on more than 100 northern television transmitters on two satellite channels across four time zones. Production facilities exist in Yellowknife, Whitehorse, Montreal and Ottawa. The service supplements network programs with shows produced by Northern Service, as well as programs procured from outside the corporation. Northern Service also assists independent native broadcasters operating under the federal "Northern Native Broadcast Access Program" to distribute their programming over its television. Northern Service produces programs in English, Inuktitut, Slavey, Dogrib, Chipewyan, Loucheux and Cree. The Northern Quebec Service provides most of CBC's French and English radio and television programming, as well as some programming in Cree, to residents of Quebec's north.

The CBC operates one of the most extensive distribution systems in the world — providing service across six time zones, using nine

Canadian satellite channels and more than 100,000 kilometres of microwave and land line.

At least 99% of both English-speaking and French-speaking Canadians have direct access to CBC television and mono radio services in their respective languages. Most television programming is in color, and as of January 1, 1988, 94% of Canadian households had color sets.

Public Broadcasting Service (PBS) is the national membership organization of 173 public television licensees, which operate 338 stations. It serves as the national distributor of public television programming, obtaining its programs from member stations, American independent producers & distributors, and foreign TV systems and distributors; PBS is not a production entity. The member stations support the private, non-profit corporation's service-oriented functions through annual membership assessments. Funding for PBS's operation of its satellite program distribution facilities is provided by the member stations, assisted, in part, by the Corporation for Public Broadcasting. PBS services include: Program acquisition, distribution and scheduling; education and video services; national program promotion; development & fundraising support; broadcast & technical operations; engineering & technology development & audience research. PBS is governed by a 35-member Board of Directors, which includes 17 lay directors representing stations' governing boards and 13 professional directors from station management elected by PBS member stations to three-year terms, four general directors elected by the lay & professional directors to three-year terms and the PBS president.
