YOU'VE ASKED FOR IT...YOU'VE WAITED FOR IT...AND NOW IT'S HERE...

The Cable Systems and Broadcast Television Directories of the authoritative Television & Cable Factbook are now computerized data bases!

At surprisingly low cost, you now can rapidly obtain a virtually unlimited amount of constantly updated video industry data. Through the Market Research & Data Sales division of Warren Publishing, Inc., you may order reports and other services that manipulate this data *exactly the way you need it.*

These data bases offer you electronic data from a vast bank of:

Cable Data

- Operating systems, franchises not yet operating & applications pending
- Multiple system operators
- Programming carriage, basic & tiers
- Basic, tier & security subscribers
- Installation & monthly subscriber fees
- Franchise expiration dates
- Makes of equipment
- Channel capacity, miles of plant & homes passed
- Addresses, telephone numbers, owners, managers & engineers

Broadcast Data

- Operating stations, construction permits awarded & applications pending, both commercial and non-commercial
- Current ownership & pending acquisitions
- Market rankings with TV household shares
- Channel numbers & network affiliations
- Satellite earth station usage
- Broadcast stereo capability

- Installed equipment
 - Technical facilities data
 - Addresses, telephone numbers & all major executives
- And much, much more.*

Take advantage of this unique opportunity to develop the valuable market research you need to:

- Market new products and services
- Pinpoint media acquisitions
- Monitor your competition
- Determine the impact of the 'Syndex' rules on your business
- Or conduct numerous other types of research & analysis.

How can you access the information?

Call us for reports from the Factbook data bases that select only those elements that are important to you, then have the reports sort the data into state, county or regional breakdowns, rank it by size, age or any other variable and screen out systems/stations that do not meet specified criteria.

Here are just a few examples of vital studies Warren Publishing, Inc. has recently provided to its clients:

- Cable system channel capacity studies
- Broadcast TV and cable system ownership studies
- Miniature data bases installed at clients' sites for maintaining important sales and marketing information

- Lists of cable systems carrying programming competitive with proposed new services
- Lists of cable systems using equipment competitive with new products being introduced
- Mailing labels for marketing campaigns targeted to broadcast stations and cable systems with specified characteristics

Warren Publishing, Inc. has been collecting broadcast TV data since 1945 and was the first organization to gather cable TV data. The Factbook data bases are unmatched by anything else in the field and are totally responsive to your individual requirements. They offer you unheard of speed and flexibility using the most complete source of television data available.

Best of all, reports from Warren Publishing, Inc. are available to you in a variety of formats sure to meet your needs. You may opt to receive data . . .

- On 9-track magnetic tape
- On 5¼" floppy diskettes ready to load onto your PC
- Via telecommunications
- In a printed format or
- On mailing labels.

For complete details on these or other research services, call Lynn Levine, Director of Market Research & Data Sales, collect at 202-872-9200.

Program an ad message here next year

Our most recent study of some 4,000 subscribers to the **Television & Cable Factbook** has shown that the programming section of both volumes of our industry resource is the second most used of all. It ranks just behind the sections on station or cable ownership in number of times to which it is referred.

Almost 80% of those responding to the survey were in the top six categories of job responsibilities: Chairman, President, Vice President, General Manager, Manager or Director. Television stations, cable systems and MSOs and equipment manufacturers and distributors comprise the largest segment of buyers of the **Factbook**...in fact, they account for about half the sales each year.

Programmers, advertising and consulting organizations also buy and use the **Factbook** regularly. And they buy it four out of five years. Most have been buying it an average of nearly 10 years.

Point is, if you want your advertising message to reach the key people who refer to this section daily or weekly *every month of the year*, you need to put the **Television & Cable Factbook** at the top of your media list. You'll reach some 23,705 different decision-makers and influencers who will refer to information in the *Program Sources* and *Pay TV* sections as many as 241,000 times every month. Your message will receive nearly 3 million impressions in the course of a year!

It makes sense to plan right now for a position in next year's book. A single page ad, spread, even inserts and specialty packaging can be a part of your media plan to reach the people in our business who say "Yes" and buy!

For a comprehensive media kit, to make reservations or for any information you'd like to have about the survey, contact Gene Edwards, Advertising Sales Director, 202-872-9200.

CORPORATE STRUCTURE

The Canadian Broadcasting Corp. (CBC) is a publicly-owned corporation established on November 2, 1936 by an Act of the Parliament of Canada to provide a national radio and television broadcasting service in the country's two official languages, English & French. Under this legislation, the CBC is responsible to Parliament, to which it reports each year on its operations through the Minister of Communications.

The CBC is financed mainly by public funds voted annually by Parliament. Supplementary revenue is obtained from commercial advertising on CBC Television. CBC Radio is virtually free of commercial advertising.

The CBC operates an English television network; a French television network; English and French AM radio and FM stereo networks; and the National Satellite Channel which delivers to Canadians the proceedings of the House of Commons via satellite & cable. As well, CBC operates Newsweek—a 24-hour national satellite-delivered English language news and information specialty service. The CBC Northern Service, broadcasting in English, French and seven native languages and dialects, serves the special radio and television needs of Dene, Indian, Inuit, Metis and non-native groups in the Yukon, the Northwest Territories and Northern Quebec. Radio Canada International is Canada's voice abroad. Broadcasting on shortwave, RCI's information programming reflects Canada's political, economic, social and cultural spectrum to an international audience. RCI also produces programs for use by leading broadcasters in the world's major radio markets.

CBC transmission methods include leased channels on the Canadian space satellite Anik, plus more than 100,000 kilometres of microwave and landline connections.

Public Broadcasting Service (PBS) is the national membership organization of 174 public television licensees, which operate 341 stations. It serves as the national distributor of public television programming, obtaining its programs from member stations, American independent producers & distributors, and foreign TV systems and distributors; PBS is not a production entity. The member stations support the private, non-profit corporation's service-oriented functions through annual programming and membership assessments. PBS services include: Program acquisition, distribution and scheduling; education services and video marketing; national program promotion; development & fundraising support; broadcast & technical operations; engineering & technology; audience research. PBS is governed by a 35-member Board of Directors, which includes 16 lay directors representing stations' governing boards and 13 professional directors from station management, elected by PBS member stations to three-year terms; five general directors, elected by the lay & professional directors to three-year terms; and the PBS President.
