as closed-circuit facilities in over 100 isolated locations. Most of the land-based stations are grouped into regional AFRTS networks to serve specified geographical areas, i.e., American Forces Network-Europe in Europe and Far East Network in the Pacific. AFRTS networks and independent stations overseas create their own individual radio and television program schedules from broadcast materials provided by the AFRTS Broadcast Center in Sun Valley, CA and from their own local productions. Some outlets are over-the-air broadcast operations and some are carried on closed-circuit systems

of various types. Domestic and Intelsat satellite service is leased on a 24 hour-a-day basis, providing real-time stateside radio and TV to overseas locations.

INDEPENDENT TELEVISION COMMISSION—70 Brompton Road, London, SW3 1EY. Telephone: 71-584-7011. Telex: 24345. Fax: 581 3905. The Independent Television Commission was created by Parliament under the terms of the Broadcasting Act 1990 to license and regulate non-BBC television services including Ch. 3 (ITV), Ch. 4 and the proposed Ch. 5, cable satellite services. The ITC replaced the Independent Broadcasting Authority (IBA), responsible for the provision of independent television and radio services and the

Cable Authority, responsible for the provision of cable services. Radio Authority now regulates independent radio services. Early in 1991 the ITC advertised 16 new licenses for Ch. 3 (ITV) including a national breakfast-time license. These will be awarded in late 1991 and the new Ch. 3 companies will begin their services on Jan. 1, 1993, at which point they, rather than the ITC, will become responsible as broadcasters for their output. Ch. 4, currently a wholly owned subsidiary of the ITC whose airtime is sold by the ITV contractors, will also become a corporation and ITC licensee, responsible for selling its own advertising. The license for the proposed Ch. 5 will be advertised by early 1992 with the aim of a new service being launched in 1994. Licenses for Ch. 3 & Ch. 5 will be awarded by competitive tender to the highest bidder who fulfills certain quality criteria, except in exceptional circumstances when the ITC may award a license to a lower bidder. The ITC will also license a number of other services in the following categories: Domestic satellite services using broadcasting frequencies allocated to the UK; non-domestic satellite services; licensable program services, including those program services delivered to cable systems on videotape; cable and local delivery service operations provided by cable and/or microwave (MVDS); additional services, or any form of telecommunications service that can be provided on the spare capacity of a television signal; public teletext, a text service carried on the spare capacity of Ch. 3 & Ch. 4. ITC staff will regulate all services through license conditions and through its various codes on program content, advertising, sponsorship and technical standards.

Video Week is the widely-respected information service that will keep you *informed* about your industry in just 20 minutes per week.

If you have a real stake in any area of the *home video industry*, you literally cannot do *without it!* Subscribe now!

Video Week is a *weekly information service* devoted to the business of program sales and distribution for videocassettes, discs, pay television and allied media.

Video Week is filled with the kind of practical, level-headed information that is invaluable to anyone involved in the home video industry. And let's face it, information is *crucial* to your business success. Markets. Merchandising. Mergers. Finance. Competition. Litigation. Programming. **Video Week** covers it all!

Video Week offers you more content, more scope, more depth and more currency than any other publication in the home video field. And with video, cable, satellite dishes and allied fields growing more interrelated every week, action in any one sector can trigger profound changes throughout the entire industry. **Video Week** allows you to enlarge your perspective . . . to keep up with the entire industry in a single, weekly, authoritative report.

With your weekly subscription to **Video Week**, you'll be the *first* to know all about:

- pre-recorded cassettes and VCRs
- pay TV basic cable
- pay-per-view
- direct broadcast via satellite
- home computers and games

And **Video Week** has an extensive network of correspondents that cover the Congress, the courts and the FCC, to ask the questions that *need* to be answered. These seasoned reporters consult with industry leaders, advertising agencies, producers, manufacturers, distributors, duplicators. They gather information, reaction and speculation about developments from key contacts established in the almost 10 years since **Video Week's** start . . . and in the nearly half a century since the start of Television Digest.

Shouldn't you be taking advantage of all this critical information each and every week? After all, *each issue* of **Video Week** is actually an *early-warning system* about what leaders in the home video industry are thinking and saying about key issues, mergers and acquisitions, antitrust, programming and copyright law.

For subscription information, call collect: **202-872-9200.**

Television Digest With Consumer Electronics

Television Digest has been keeping leading communications executives informed since 1945 and is published for all those decision-makers—like you—who have a big stake in the ever-changing broadcasting, cable and consumer electronics industries.

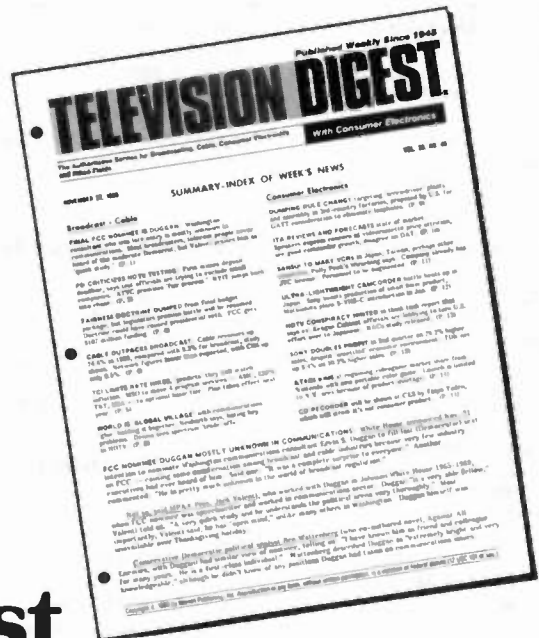

Television Digest goes beyond the scope of any other publication by bringing into sharp focus all the conflicting forces at work—broadcast, cable, home video, MDS, DBS, SMATV and others. It provides experienced, authoritative coverage. The Los Angeles Times recently referred to **Television Digest** as “a publication considered the bible of the TV industry.” Tack Nail, covering broadcasting, and Dave Lachenbruch, covering consumer electronics, are known and respected throughout the entire industry.

And each issue of **TVD** provides thorough coverage of government activities—the FCC, Capitol Hill, the White House. **Television Digest** also gives you the latest news on marketing strategies . . . programming plays . . . personnel shifts . . . and current standings on the volatile revenue and ratings picture.

Television Digest regularly includes a host of industry surveys and statistics that cannot be found anywhere else. And because conventions, professional meetings and trade shows are of such vital importance to the communications industry, **TVD** provides complete pre- and post-meeting coverage of virtually every major professional meeting and trade show, whether in the U.S. or abroad.

Television Digest gives you the information you need, delivered in a fast-paced style and clear format that always respects your busy schedule. **TVD** is designed to be read quickly . . . to help you spend less time gathering information and more time using what you've found.

Managers Programmers Engineers Financial wizards

...have one thing in common.

It's been around so long most people take it for granted. But all 23,705 of them refer to it over 241,000 times on average each month! Where else can the people you want to sell your products or services get the names and numbers and data that are so important to decision-makers and influencers?

If your advertising program is suffering from a weak budget, maybe you should be in the 'bible of the business'...the **Television & Cable Factbook**. A single ad in this important industry resource is a 'year-round campaign' that will continue to showcase your message.

Remember, the **Television & Cable**

Factbook is not a 'shelf item'. It's used monthly, weekly, daily, even hourly by mostly upper-level and mid-level managers. It's used *regularly* more than twice as often as Broadcasting's *Yearbook*. And for television and cable needs, there's less waste circulation.

If you want them to *buy*....you'd better *sell* them...in the **Television & Cable Factbook**. Contact Gene Edwards, Advertising Director, for space reservations and rates. Our media kit will tell you even more about us. The time to plan for next year is now!

From the publishers of the Television & Cable Factbook...

... a new, up-to-the-minute, breakthrough information service providing the *latest* TV station and Cable system **OWNERSHIP** information...

(... that is of *particular* interest to Factbook buyers and priced at an *exclusively low price* for 1990 Factbook buyers!)

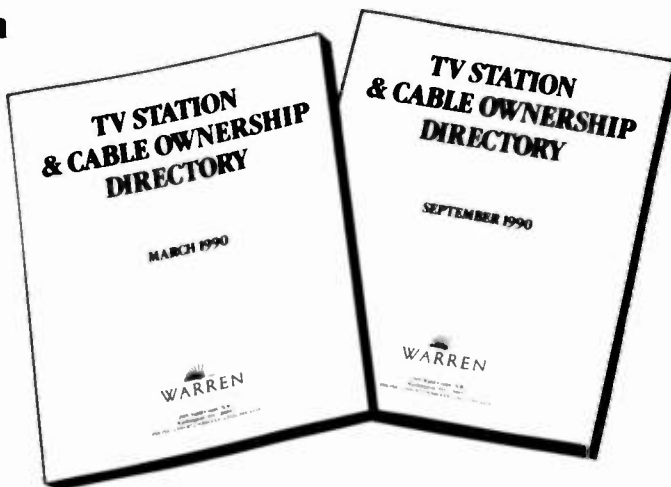

If television station and cable system *ownership* information—especially **GROUP** ownership data—is important to you, your life has just gotten a whole lot easier. We happily announce publication of the **NEW 1990 TV Station & Cable Ownership Directory**. Printed and mailed in March 1990 and September 1990, each 200-page issue (approx.) of this *2-Part Annual Service* provides you with the *latest* possible ownership data (85% of which is *group* ownership data) *straight from our Television & Cable Factbook database*... which is updated every business day.

COMPLEMENTS THE PUBLICATION SCHEDULE OF THE FACTBOOK...

Part I of the **NEW TV Station & Cable Ownership Directory** is available March 1990; Part II is available September 1990—(each subscription automatically includes both Parts).

OFFERS YOU ACCESS TO MORE TIMELY TV & CABLE OWNERSHIP INFORMATION...

As Television & Cable Factbook buyers know, the first Factbook volume (Stations) comes out at the beginning of each calendar

year and the second volume (Cable & Services) comes out in the middle of that year. *The March/September schedule of the NEW TV Station & Cable Ownership Directory—IN COMBINATION WITH THE FACTBOOK*—allows the presentation of **NEW** ownership data 4 times each year, with only about a 3-month interval between the various volumes.

This is certainly the kind of up-to-date service that *many* Factbook buyers told us they would like to have. And with the **NEW Ownership Directory**, *even non-Factbook buyers will be able to receive comprehensive, updated ownership information twice yearly.*

MASTER INDEX...

Each issue of the **NEW TV Station & Cable Ownership Directory** is made up of a Master Index of all companies included, listed in alphabetical order by company name over a detailed listing of address, phone and fax numbers, personnel, station & cable system ownership and much more. Smaller sub-indexes are also included that display an alphabetical list of company names with specific types of ownership including... Cable...TV...MDS...MMDS...LPTV...ETV...Telcos... and more.

1990 Television & Cable Factbook buyers may purchase the 1990 TV Station & Cable Ownership Directory for only \$95 complete! ORDER TODAY!

(detach and mail the Order Certificate below)

93%

**of people who use the
Television & Cable Factbook
are upper-level or mid-level managers.**

The rest are clearly on the way up.

It surprised even us. Frankly, while we knew we had the best organized and the most widely used resource in the industry (*Multichannel News* survey), we lacked the specifics to back up our convictions. Then, a blind survey we conducted this past year showed that, on average, 4.31 different people use each **Television & Cable Factbook** more than 10.18 times each month. Put another way, 23,705 different decision-makers and influencers refer to this important tool over 241,000 times monthly! Over 63% are in upper-level management, and some 30% have mid-level management positions. Corporate managers, programmers, engineers, marketers and financial people had the job responsibilities that most often appeared in our study.

It's hard to imagine that an advertising message that will receive nearly 3 million impressions in the course of a year won't be seen by the people you want to sell your products and services. Where else can people get information and the names and numbers they need quickly, accurately, and in one place? Only the **Television & Cable Factbook** has

Grade A and B contour maps of every commercial station in the U.S. And if you think our *Buyer's Guide* isn't the first place they go to find the products they need each day, maybe you'd better ask some of the thousands of subscribers who write or call us each year to make sure their company is listed.

The **Television & Cable Factbook** is the primary source for information about the total industry. A single ad will be seen all year by the men and women who can say "Yes" when you ask them to buy.

If the **Television & Cable Factbook** isn't part of your advertising plan, it should be. Now is the time to be planning for next year's placement in the industry's most respected resource... with less waste circulation than any other publication in television and cable. For a media kit that contains rates, ad sizes, and details on the research we talked about, call or write Gene Edwards, Advertising Director. It's not too early to start planning for next year...while some good positions are still available!

Buyers Guide

that helps you find products faster!

Instructions

1. Turn to the yellow pages **Buyers Guide Product Index** to find an alphabetical listing of all products and services listed in the Buyers Guide. Following each entry is a Buyers Guide page reference number where a list of companies involved in that specific industry can be found in the Buyers Guide.

— OR —

You can use the Buyers Guide Questionnaire (see following pages) to find the NUMBER assigned to a particular product and then find it by number within the Buyers Guide.

Listed after the name of each product category is a product NUMBER that will help you find the product categories even faster than before! This 8 digit number contains a PRIMARY number (the first 4 digits) followed by a SECONDARY number (the last 4 digits). The product numbers correspond exactly to those on the Buyers Guide Questionnaire (see following pages) sent to each company listed in the BUYERS GUIDE.

The Buyers Guide Questionnaire lists product categories IN THE SAME ORDER that the products are listed in the BUYERS GUIDE.

For example: 0020 is the product number for Amplifiers listed under 0110 Satellite Earth Stations. Using the PRIMARY number listed at the top of each page, find the 0100 section, then 0110 within it, then 0020 under that category.

Listed at the top of each page is the PRIMARY product number to help guide you to the correct category.

2. Once you have found the product category you want and have found the company you want to contact, turn to the page number listed after the company name in the white pages section of the Factbook for detailed information concerning the company.

Key to Abbreviations

- (m) — manufacturer
- (r) — repair
- (d) — distributor
- (s) — service
- (p) — producer (i.e. film, etc.)

INDEX TO PRODUCTS & SERVICES

EXPLANATORY NOTES

The Television & Cable Factbook BUYERS GUIDE is divided into nine primary product categories based on product/service type. Each Primary Category begins a new section in the Buyers Guide. Companies are listed alphabetically under each category. Those appearing in bold type are paid **BOLD-FACE BUYERS GUIDE** advertisers*. All remaining entries are provided free as a service to non-advertising companies listed in the Factbook.

Buyers Guide Product Index

An alphabetical listing of all products and services listed in the **BUYERS GUIDE** that precedes this section. Immediately following each entry is the page number where company listings for that product/service can be found. Also included in each listing contained in this Product Index is an 8 digit number that corresponds to the number assigned to products in the **BUYERS GUIDE**.

The concise, easy-to-digest, well-organized information service that allows you . . . in just minutes each week . . . to keep up with the latest, most accurate, relevant, indispensable information covering the entire telecommunications industry.

COMMON CARRIER WEEK

Common Carrier Week is *the* authoritative weekly news service for the telecommunications industry.

Each issue uncovers proposed regulation changes, looks at successful (and unsuccessful) business strategies, comments on new equipment and services, reports on what the decision-makers in the industry are up to, and provides the key intelligence that busy telecommunications executives *need*.

Common Carrier Week is presented in a way that makes the information you're looking for easy to find. There's a logic to each issue—you can scan the spot you're looking for and find your relevant information instantly.

Common Carrier Week will give *you* the advance intelligence to move quickly to make the management decisions that will help your business move ahead. Each week you'll receive hard-nosed business advice from the award-winning team of journalists who also keep the top leaders of the communications industry informed every day with Communications Daily.

Assignments Affecting Borders

Channel Allocations for Canada and Mexico

Allocations within 250 miles of Canada and Mexican borders are as agreed upon by U.S. and respective countries through exchange of diplomatic notes. Mexico reports VHF within 250 miles, UHF within 200 miles. Plus (+) and Minus (-) symbols designate offset carrier positions of channels. (L) indicates limited allocation under "Working Arrangement" of Canadian-U.S.A. Television Agreement of 1952 as modified.

All we need is a minute of your time.

Just :60 of prime time to get our recruiting message out.

Because more than ever before, it's a message that deserves to be heard.

The National Guard makes up about one-half of our nation's combat forces. And we need men and women to help keep us strong—ready to protect your community and defend your country.

It's a commitment that takes dedication. Guardsmen give at least two weeks a year and two days every month to the Guard—and to you. Is a minute of your time really too much to ask?

Run our spots whenever possible. And if you can't spare a minute, we'll settle for :30. Even :20 or :10.

To obtain free dubs of Air and Army National Guard PSAs write: National Guard Bureau, Advertising Distribution Center, P.O. Box 1776, Edgewood, Maryland 21040, Attn: SMSgt Pat Campbell.

Americans at their best.

the 1992 Business Television Directory

THE Guide to the hottest area of video industry growth . . . *the corporate and educational satellite television industry*

"I love the Business Television Directory. It is accurate, easy to use and comprehensive . . . The Business Television Directory has been an invaluable tool in my business."

Grace E. Leone, President
EFC STARTIME, Los Angeles, CA

The 1992 Business Television Directory is your *single source* for information covering the corporate and educational satellite television industry. The NEW 1992 edition (co-produced by Warren Publishing, Inc. and Irwin Communications, Inc.) is packed with *useful, accurate, specific* information about those firms *already* a part of this mushrooming field, *and* about the exciting new directions being pointed to in business television's future.

The 1992 Business Television Directory has been completely updated and revised. *In addition to including thousands of new pieces of data, the new edition contains . . .*

A completely *NEW SECTION* on Distance Learning & Education Networks, including subscription networks and education networks targeting students kindergarten through graduate school. These expanding networks are, of course, delivering quality course instruction and educational programs to distant schools, universities and business locations. *The* major networks in this hot new area are listed in the 1992 Business Television
