Miscellaneous Radio Services

Armed Forces Radio and Television Service (AFRTS)

AFRTS operates over 800 radio and television outlets located in 134 foreign countries. AFRTS facilities are located with major concentrations of U.S. forces overseas as well as in remote areas of Alaska, U.S. trusts, territories and possessions, aboard 446 Navy ships and as closed-circuit facilities at 250 isolated locations. Most of the land-based stations are grouped into regional AFRTS networks to serve specific geographical areas, i.e. American Forces Network-Europe in Europe and Far East Network in the Pacific. AFRTS networks and independent stations overseas create their own individual radio and television program schedules from broadcast materials provided by the AFRTS Broadcast Center in Sun Valley, Calif., and from their own local productions. Some outlets are broadcast ops and some are carried on closed circuit systems of various types. Domestic and Intelsat satellite services are leased on a 24 hour-a-day basis, providing real-time stateside radio and TV to overseas locations.

Headquarters, AFRTS. AFRTS is the broadcast arm of DOD's American Forces Info Service located at 601 N. Fairfax St., Alexandria, Va. 22314. (703) 274-4856. Melvin Russell, deputy dir; Colonel Joe Cook, chief of staff; Lieutenant Colonel Glen Brady, plans/ops.

AFRTS broadcast Center. 10888 La Tuna Canyon Rd., Sun Valley, Calif. 91352. (818) 504-1201. Captain Connie Haney, commander; Gerry Fry, dir progmg; Bill Houk, industry liaison.

Voice of America

Headquarters: 330 Independence Ave. S.W., Washington 20547. (202) 619-2538. FAX: (202) 619-1241. Joseph B. Bruns, actg dir; Robert T. Coonrod, deputy dir; Sid Davis, dir office of prog; Bob Kamosa, dir office engr; Joe O'Connell, dir pub affrs; Beth Knisley, dir media rel.

Policy: The Voice of America (VOA), the international broadcasting service of the U.S. Information Agency, is governed by its Charter (Public Law 94-350) which stipulates VOA will: (1) serve as a consistently reliable and authoritative source of news and that its news will be accurate, objective and comprehensive; (2) represent America, not any single segment of American society, and will therefore present a balanced and comprehensive projection of significant American thought and institutions; (3) present policies of the United States clearly and effectively, and will also present responsible discussion and opinion on these policies.

Facilities: VOA has 112 medium wave and shortwave transmitters which collectively have a total power in excess of 26 million watts. The power of individual transmitters in VOA's worldwide network ranges from 35 kw to 1000 kw. The VOA standard is to use three transmitters for each broadcast. The transmitters are located at 18 relay stations in the U.S. and abroad in Antigua, Belize, Botswana, Costa Rica, England, Greece, Liberia, Morocco, the Philippines, Sri Lanka, Thailand and West Germany. Programs originate in the studio complex at VOA headquarters. A 150-channel master control panel is used to route them onto appropriate satellite circuits for delivery to the relay stations.

Programming: U.S. and world events are reported accurately and fully in VOA newscasts and news programs. Features, backgrounders, interviews, on-the-scene coverage of special events and documentaries provide listeners around the world with an accurate, comprehensive portrayal of American life and opinion. Information on U.S. policies is reflected in editorials.

Program placement: VOA progmg is also made available to, and extensively used by, foreign media in more than 100 countries. Radio stations in some countries simply relay VOA's direct broadcasts or tape program segments from them for rebroadcast at prime local listening times. Satellite or high frequency feeds, dial-up systems, and airmail tapes are also used to provide VOA progmg in 20 languages to stations in Africa, the American Republics, East and South Asia, the Middle East and Western Europe.

Program hour end language: The 1,300 hours of progmg produced at VOA each week include two special services: VOA Europe and Radio Marti. VOA Europe is an around-the-clock radio service in English which is delivered to Western Europe by satellite for broadcast on FM and cable radio stations in 10 countries; 70 hours wkly of the VOA Europe broadcast are originated by the VOA staff and the balance is syndicated music programs. The Radio Marti program is beamed to Cuba 168 hours each week by a 50 kw medium wave transmitter in Florida. All other progmg (1,129 hours weekly) is trans-

Miscellaneous Radio Services

mitted on shortwave and/or medium wave in the following 43 languages:

Voice of America wkly Language Broadcasts (hours and minutes per week). U.S. AM Stations by Frequency

Editor's Note: Clear stations appear in boldface type. Refer to the frequency heading to determine if the station is a class I-A or I-B. All other stations operating on these frequencies are class II. For an explanation of AM station classes, see the FCC Rules and Regulations in Section A.

Radio Formats Defined

Broadcasting & Cable Yearbook defines a radio format as programming broadcast over 20 hours weekly. Programming broadcast from one to 20 hours weekly is defined as special programming. This is not a hard and fast rule, however. Some stations may report programming unique to their main programming format(s) as "special" programming regardless of the number of broadcast hours.

Most stations broadcast one format, though some stations report having two or more formats. A station that lists four or more formats is categorized as "Variety/Diverse." Formats which did not fit into a specific category (such as beach music) are listed as "Other."

At present, *Broadcasting & Cable Yearbook* recognizes 70 different formats. These formats are listed below, with appropriate definitions.

This listing is followed by a breakdown of formats by state and by province. The chart on page B-542 gives a breakdown of radio programming by AM/FM and commercial/noncommercial stations in the U.S. and Canada.

Adult Contemporary—Recent popular songs, with a few oldies. The songs tend to be upbeat and soft. News and talk segments are prominent during rush hour "drive times." Also known as "Lite."

Agriculture & Farm—News, weather and features of interest to farmers and others involved in agriculture.

Albanian.

American Indian—Programming for North American Indians, includes native language (ie. Navajo) broadcasts.

Arabic.

Armenian.

Beautiful Music—Uninterrupted, instrumental soft music. There is usually very little talk, and few commercials. Also known as "Easy Listening."

Big Band—Popular music from the thirties and forties. Primarily instrumental works by bands such as Glen Miller's Orchestra and Tommy Dorsey. Also see **Nostalgic**.

Black—Music, talk and news targeted at Black listeners. Music at these stations is similar to Urban Contemporary stations, but this format caters more directly to the interests and tastes of Black audiences.

Bluegrass—Related formats are Country and Folk.

Blues—Some Jazz and Progressive stations also program blues music.

Children—Programming for children, usually for educational purposes. Includes music, informational programming, and news presented for young people.

Chinese.

Classic Rock—Popular rock music of the seventies and eighties. Also see **Rock/AOR**.

Classical—Classical music, often long pieces played without interruption. Announcers provide extended commentary and criticism on the pieces. Special features, such as live concerts, are common. Primarily a noncommercial FM format.

Comedy—Recorded stand-up comics and/or old radio comedy series. A rare format.

Contemporary Hit/Top 40—Current hot selling records. Usually a playlist of 20 to 40 songs continuously played throughout the day. DJs are often upbeat "personalities." News and information are given light coverage.

Country—Country music, ranging from older traditional country and western to today's "Hit Country" sounds. The amount of news and talk on country stations varies widely from station to station.

Croatian.

Czech.

Disc—High-energy dance music first popular in the seventies. Also see **Black** and **Urban Contemporary**.

Drama/Literature—Dramatic readings, poetry, and broadcasts of live dramatic performances. A rare format in the U.S. and Canada.

Educational—Informative and instructional programming, such as over-the-air college courses. Primarily a noncommercial format.

Farsi.

Filipino.

Finnish.

Folk—Played full-time on very few stations, American folk music is also heard on noncommercial Variety stations. Also see **Bluegrass**.

Foreign Language/Ethnic—In addition to the specific language categories (i.e. French, German), this format denotes multilingual stations and others catering to ethnic minorities.

French.

German.

Gospel—Especially popular in the South, evangelical music is programmed on many Religious format stations.

Greek.

Hebrew.

Hindi.

Hungarian.

Irish.

Italian.

Japanese.

Jazz—Primarily a noncommercial FM format. Some Classical stations program jazz music features.

Jewish.

Korean.

Lithuanian.

MOR (Middle-of-the-Road)—Traditional AM format featuring a balanced mix of music, news and talk. Songs are usually popular standards. Announcers are often personalities who try to keep the listener interested and informed. News, both local and national, plays an important role at most MOR stations; coverage of sporting events and other features of interest to the community is common.

New Age—Soft "fusion" (a form mixing elements of jazz and rock), often played as background entertainment. As the name implies, this format is a recent development.

News—Continuous coverage of local, national and international news, including sports, weather forecasts and features.

News/Talk—Combination of news and talk formats. One of these elements may receive more emphasis. Also see **News** and **Talk**.

Nostalgic—Popular tunes from the thirties, forties and fifties. Nostalgia stations often feature on-air personalities, and usually have heavy news and information coverage.

Oldies—Hit songs from the fifties, sixties and seventies. Usually played by upbeat DJs, with news, talk and spe-

cial features (chart countdowns, trivia contests, etc.) playing an important role.

Other—Programming which falls outside the categories listed here.

Polish.

Polka—Music for the traditional dance. Most polka format stations are located in Wisconsin.

Portuguese.

Progressive—Progressive stations play many types of music, often including avant-garde music not played on conventional stations. Primarily a noncommercial format, common among college radio stations. Also known as "alternative."

Public Affairs—Community interest programming (ie: broadcasts of city council meetings.) Many noncommercial, News, and Talk stations cover local issues on news features or talk shows.

Reggae—Jamaican music. Often played on Progressive stations.

Religious—Inspirational/spiritual talk and music. Most religious stations air Christian sermons or songs. Also see **Gospel**.

Rock/AOR—Rock music from the sixties to the present. Album-oriented-rock features music "sweeps," or uninterrupted sets. News plays a secondary role. Also see **Classic Rock**.

Russian.

Scottish.

Serbian.

Slovak.

Slovenian.

Spanish.

Sports - Play by play and taped coverage, sports news, interviews, discussion.

Talk - Topical programs on various subjects. Includes health, finance, and community issues. Listener call-in and interview shows are common, and the host's personality tends to be an important element. Many talk stations air national satellite-delivered talk programs. News, sports and weather are usually emphasized during "drive times." Also see **News** and **News/Talk**.

Ukrenian.

Top 40/Contemporary Hit—See **Contemporary Hit/Top 40**.

Urban Contemporary—Dance music, often from a variety of genres (i.e., rhythm & blues, Rap). Most Urban Contemporary stations emphasize music by black artists. Also see **Black** and **Disco**.

Variety/Diverse—A station listing four or more formats. Typical of noncommercial stations.

Vietnamese.

Women—Programming for women. Emphasis on news and information, pertaining to women's issues.

U.S. Radio Markets

The following is the Arbitron population ranking for Fall 1993, based on market definitions at that time. It is based on the 1990 U.S. Bureau of Census estimates updated and projected to January 1, 1994.

The MSA number is the population of all persons aged 12 or older in the Metro Survey Area. The TSA number is the population total of all persons 12 or older in the Total Survey Area. Following that are the call letters of stations that fall within the market as defined by Arbitron.

Certain market population totals are also embedded in larger nearby markets. It is therefore possible for a station to be listed in more than one market.

Abilena, TX: Rank 219

MSA: 118,500; TSA: 212,900
Stations: KBBA, KBCY-FM, KCDD-FM, KCWS-FM, KEAN, KEAN-FM, KEYJ-FM, KHXS-FM, KKHR-FM, KMXX, KNTS, KORO-FM, KVRP, KVRP-FM, KXOX-FM, KYDD.

U.S. Radio Markets: Arbitron Metro Survey Area Ranking

This chart ranks the 261 radio markets by Metro Survey Area population (see also the following chart of rankings by Total Survey Area). Figures include all persons aged 12 or older and are based on 1990 U.S. Bureau of Census estimates updated and projected to January 1, 1994. Data reflects the Fall 1993 Arbitron market definitions.

A single asterisk (*) following a market name indicates that the market is embedded in a larger nearby market. See *U.S. Radio Markets* beginning on pg. B-591 for details. The double asterisk (**) following the Monmouth-Ocean, NJ, market indicates that Monmouth County is included in both the Monmouth-Ocean, NJ, and New York Metro markets. The triple asterisk (***) following the Manchester, NH, market indicates that a portion of Rockingham County is included in both the Manchester, NH, and Portsmouth-Dover-Rochester, NH, markets.

1. New York	14,033,500	71. Albuquerque	522,100
2. Los Angeles	9,705,900	72. Omaha-Council Bluffs, NE-IA	518,000

U.S. Radio Markets: Population Ranking

This chart ranks the 261 radio markets by Total Survey Area population (see also the preceding chart of markets ranked by Metro Survey Area). Population figures include all persons aged 12 or older and are based on 1990 U.S. Bureau of Census estimates updated and projected to January 1, 1994. Data reflects the Fall 1993 Arbitron market definitions.

A single asterisk (*) following a market name indicates that the market is embedded in a larger nearby market. See *U.S. Radio Markets* beginning on pg B-591 for details. The double asterisk (**) following the Monmouth-Ocean, NJ, market indicates that Monmouth County is included in both the Monmouth-Ocean, NJ, and New York Metro markets. The triple asterisk (***) following the Manchester, NH, market indicates that a portion of Rockingham County is included in both the Manchester, NH, and Portsmouth-Dover-Rochester, NH, markets.

1992	21,553	324,000

Prior to 1971, data reflects factory sales by U.S. manufacturers plus those products imported directly by distributors or dealers for resale. All import statistics are based upon average value as published by the U.S. Department of Commerce, which is F.O.B. and therefore excludes U.S. import duties, freight charged from the foreign country to the United States, and insurance.

U.S. Radio Audiences

Radio was in more U.S. homes than ever as 1994 approached. The Radio Advertising Bureau (RAB) estimated that 99% of 96.6 million U.S. homes were radio-equipped as of January 1, 1993. RAB also estimated that the number of working-order radio sets in the United States totaled 576.5 million in 1993; 367.4 million of these were home and personal radio sets; 209.1 million were out-of-home receivers.

WHEN IT COMES TO INTERNATIONAL, WHAT IN THE WORLD WOULD YOU DO WITHOUT US?

What's up with the syndication market Down Under? Who's satellite is on top in the Far East? Where are investors heading, South of the Border? When you need to know what's going on around the globe, you need the information family from Broadcasting & Cable.

Widely accepted as the U.S. industry bible, key executives have counted on Broadcasting & Cable for over 60 years.

With the dynamic growth of the worldwide TV market, you told us you wanted expanded international coverage. That's why we now offer three publications dedicated to serving the rapidly growing audience of executives in international broadcasting and related industries. We have fully staffed editorial bureaus in Hollywood,

London, New York and Washington with twenty-nine correspondents in the Americas, Europe, Asia and Africa.

Every week, you'll find news of domestic and international interest in Broadcasting & Cable, the most respected source of information in the business. Four times a year there's international news, features and special reports from Broadcasting & Cable International. Finally, twice each month you'll get the latest breaking stories plus analysis in our new newsletter, Broadcasting & Cable's TV International.

For global coverage of the industry, no one speaks your language like the information family from Broadcasting & Cable.

OVER 60 YEARS OLD. AND MORE ATTRACTIVE THAN EVER.

This weekly publication has changed a lot in sixty-two years, but one thing remains the same: Broadcasting & Cable is still the most respected, most authoritative, most credible source of news and information available. We think you'll find our recent "facelift" makes us easier and more enjoyable to read than ever before.

To subscribe: +1-310-212-0575. Fax: +1-310-782-7012.

A WORLD OF DIFFERENCE.

Four times a year, we bring you analysis, features and special reports. Broadcasting & Cable International (formerly Broadcasting Abroad) takes you behind the headlines with incisive and reliable reporting you won't find elsewhere.

To subscribe: +1-310-212-0575. Fax: +1-310-782-7012.

THE INSIDE SOURCE THAT KNOWS NO BOUNDARIES.

Our brand new, twice-monthly newsletter brings the business of global television into focus. From Hong Kong to Hollywood, our international team of correspondents and editors are collecting news and market statistics specifically for you. A key decision-maker's tool from Broadcasting & Cable.

To subscribe: +1-805-499-0721. Fax: +1-805-499-0871.

THE FOCAL POINT FOR CONVERGENCE

SCIENTIFIC-ATLANTA

At Scientific-Atlanta, we're developing some of the most advanced interactive multimedia communications products in the industry. From MPEG-based digital set-tops to interactive network systems architectures, Scientific-Atlanta leads new product development efforts for a broad range of exciting, multimedia delivery services.

As a result, we offer a wide array of broadband communications capabilities addressing the following areas:

- MPEG Digital Set-Top Terminals
- MPEG Digital Video Compression
- Integrated Headends
- MPEG Digital Storage and Retrieval
- Fiber Optics
- Distribution Equipment
- Telecommunications
- Interdiction
- Digital Audio

Call (800) 722-2009 or (404) 903-6806 for more information.
