# Radio Formats Defined

*Broadcasting & Cable Yearbook* defines a radio format as programming broadcast over 20 hours weekly. Programming broadcast from one to 20 hours weekly is defined as special programming. This is not a hard and fast rule, however. Some stations may report programming unique to their main programming format(s) as "special" programming regardless of the number of broadcast hours.

Most stations broadcast one format, though some stations report having two or more formats. A station that lists four or more formats is categorized as "Variety/Diverse" or "Diverse." Formats that did not fit into a specific category are listed as "Other."

At present, *Broadcasting & Cable Yearbook* recognizes 91 different formats. These formats are listed below with appropriate definitions.

This listing is followed by a breakdown of formats by state and by province. The chart on page D-631 gives a breakdown of radio programming by AM/FM and commercial/noncommercial stations in the U.S. and Canada.

**AAA (or Triple A)**—Adult Album Alternative. Eclectic choice of music ranging from hard rock to folk music.

**Adult Contemporary**—Recent popular songs, with a few oldies. The songs tend to be upbeat and soft. News and talk segments are prominent during rush hour "drive times." Also known as **Light Rock**.

**Agriculture & Farm**—News, weather and features of interest to farmers and others involved in agriculture.

**Albanian.**

**Album-Oriented Rock**—Popular rock music from past and present rock albums. Also see **Rock/AOR**.

**Alternative**—Rock music first popularized in the late 80s and early 90s. Also known as **Prograaalva**.

**American Indian**—Programming for North American Indians; includes native language (i.e. Navajo) broadcasts.

**Arabic.**

**Armanian.**

**Beautiful Muic**—Uninterrupted, instrumental soft music. There is usually very little talk and few commercials. Also known as **Easy Listening**.

**Big Band**—Popular music from the 30s and 40s. Primarily instrumental works by bands such as Glen Miller's Orchestra and Tommy Dorsey. Also see **Nostalgia**.

**Black**—Music, talk and news targeted at Black listeners. Music at these stations is similar to **Urban Contemporary** stations, but this format caters more directly to the interests and tastes of Black audiences.

**Bluegrass**—Related formats are **Country** and **Folk**.

**Blues**—Some **Jazz** and **Progressiva** stations also program blues music.

**Children**—Programming for children, usually for educational purposes. Includes music, informational programming, and news presented for young people.

**Chinese.**

**Christian.**

**Classical Rock**—Popular rock music of the 60s, 70s and 80s. Also see **Rock/AOR**.

**Classical**—Classical music, often long pieces played without interruption. Announcers provide extended commentary and criticism on the pieces. Special features, such as live concerts, are common. Primarily a noncommercial FM format.

**Comedy**—Recorded stand-up comics and/or old radio comedy series. A rare format.

**Contemporary Hit/Top-40**—Current hot selling records. Usually a playlist of 20 to 40 songs continuously played throughout the day. DJs are often upbeat "personalities." News and information are given light coverage.

**Country**—Country music, ranging from older traditional country and western to today's "Hit Country" sounds. The amount of news and talk on country stations varies widely from station to station.

**Croatian.**

**Czech.**

**Disco**—High-energy dance music first popular in the 70s. Also see **Black** and **Urban Contemporary**.

**Discaasion.**

**Divaralfiad**—See **Variety/Diverse**.

**Drama/Literature**—Dramatic readings, poetry, and broadcasts of live dramatic performances. A rare format in the U.S. and Canada.

**Easy Listening**—Similar to **Beautiful Muic**, but may include some soft rock.

**Educational**—Informative and instructional programming, such as over-the-air college courses. Primarily a noncommercial format.

**Eakimo.**

**Ethnic**—Programming for ethnic minorities, mostly in foreign languages.

**Farsi.**

**Fillpino.**

**Finnish.**

**Folk**—Played full-time on very few stations, American folk music is also heard on noncommercial **Variety** stations. Also see **Bluegrass**.

**Foreign Language/Ethnic**—In addition to the specific language categories (i.e. French, German), this format denotes multilingual stations and others catering to ethnic minorities.

**Franch.**

**Full Service**—Mixture of music, news and talk with a general target audience.

**German.**

**Golden Oldies**—Hit songs of the 50s. Also see **Oldiea**.

**Gospel**—Especially popular in the South, evangelical music is programmed on many **Religioua** format stations.

**Graek.**

**Hardcore.**

**Hebrew.**

**Hindl.**

**Hungarian.**

**Inspirational.**

**Irish.**

**Italian.**

**Japsneae.**

**Jazz**—Primarily a noncommercial FM format. Some Classical stations program jazz music features.

**Jewiah.**

**Korean.**

**Light Rock**—See **Adult Contemporary**.

**Lithuanian.**

**MOR (Middle-of-the-Road)**—Traditional AM format featuring a balanced mix of music, news and talk. Songs are usually popular standards. Announcers are often personalities who try to keep the listener interested and informed. News, both local and national, plays an important role at most MOR stations; coverage of sporting events and other features of interest to the community is common.

**Native Americans.**

**Nav Age**—Soft "fusion" (a form mixing elements of jazz and rock), often played as background entertainment. As the name implies, this format is a recent development.

# U.S. Radio Markets

The following is the Arbitron population ranking for Fall 1997, based on market definitions at that time. It is based on the 1990 U.S. Bureau of Census estimates updated and projected to January 1, 1998.

The MSA number is the population of all persons aged 12 or older in the Metro Survey Area. The TSA number is the population total of all persons 12 or older in the Total Survey Area. Following that are the call letters of stations that fall within the market as defined by Arbitron.

Certain market population totals are also embedded in larger nearby markets. It is therefore possible for a station to be listed in more than one market.

# U.S. Radio Markets: Arbitron Metro Survey Area Ranking

This chart ranks the 267 radio markets by Metro Survey Area population (see also the following chart of rankings by Total Survey Area). Figures include all persons aged 12 or older and are based on 1990 U.S. Bureau of Census estimates updated and projected to January 1, 1998. Data reflects the Fall 1997 Arbitron market definitions.

A single asterisk (\*) following a market name indicates that the market is embedded in a larger nearby market. See *U.S. Radio Markets* beginning on pg. D-688 for details. The double asterisk (\*\*) following the Monmouth-Ocean, NJ, market indicates that Monmouth County is included in both the Monmouth-Ocean, NJ, and New York Metro markets. The triple asterisk (\*\*\*) following the Manchester, NH, market indicates that a portion of Rockingham County is included in both the Manchester, NH, and Portsmouth-Dover-Rochester, NH, markets.

# U.S. Radio Markets: Population Ranking

This chart ranks the 267 radio markets by Total Survey Area population (see also the preceding chart of markets ranked by Metro Survey Area). Population figures include all persons aged 12 or older and are based on 1990 U.S. Bureau of Census estimates updated and projected to January 1, 1998. Data reflects the Fall 1997 Arbitron market definitions.

A single asterisk (\*) following a market name indicates that the market is embedded in a larger nearby market. See *U.S. Radio Markets* beginning on pg. D-688 for details. The double asterisk (\*\*) following the Monmouth-Ocean, NJ, market indicates that Monmouth County is included in both the Monmouth-Ocean, NJ, and New York Metro markets. The triple asterisk (\*\*\*) following the Manchester, NH, market indicates that a portion of Rockingham County is included in both the Manchester, NH, and Portsmouth-Dover-Rochester, NH, markets.

Prior to 1971, data reflects factory sales by U.S. manufacturers plus those products imported directly by distributors or dealers for resale. All import statistics are based upon average value as published by the U.S. Department of Commerce, which is F.O.B. and therefore excludes U.S. import duties, freight charged from the foreign country to the United States, and insurance.
