

RADIO STATIONS DON'T COME OUT OF THIN AIR

From start to finish, there are a definite number of steps that *must* be taken to put a radio station on the air. Costly delays can be avoided in advance by sound engineering planning from conception to construction. Ours is an organization geared to handle the whole job from start to finish. Our method of undivided responsibility assures time-saving, money-saving professional follow-through on every project under our direction. Drop by our suite in the Hotel Ambassador and see these steps for yourself.

"Saw the heavens fill with commerce . . ."

Locksley Hall—TENNYSON

RADIO is "commerce" through the air. But behind the invisible waves which start raw materials endlessly journeying to visible sales, is sound consulting engineering.

RING & CLARK's reputation for sound consulting engineering is founded on twenty-five years of experience in all phases of radio—AM, FM, Television and Facsimile. The RING & CLARK staff welcomes your inquiries.
