"O-O-oh! What a station!"

Down here in Baltimore, we teach 'em pretty young about the BIG audience W-I-T-H supplies its advertisers. Of course, we have to let them grow up before we give them the whole story.

But sooner or later they all learn that W-I-T-H regularly delivers more *home* listeners-per-dollar than any other station in town.

A survey made under the supervision of the Johns Hopkins University showed that of all

radios playing in drug stores, 34.6% were tuned to W-I-T-H. That's a big *plus!*

That means that a *little* money does *big* things on W-I-T-H. Call in your Headley-Reed man today and get the whole W-I-T-H story.

BALTIMORE, MARYLAND

TOM TINSLEY, President • Represented by HEADLEY-REED

Alice in New Wonderland

Alice had a wonderful time.

But think how many more wonderful things could have happened to her in the age of radio and television.

In WMBG-WTVR-WCOD land new adventures happen daily.

And these First Stations of Virginia make them happen.

For instance, WMBG was the first station of Virginia to broadcast during the daylight hours.

First to own recording equipment.

WTVR (now entering its 23rd month of operation) was the South's first television station.

First in the country to sign for an NBC-TV hookup.

Yes, Alice had fun.

But she should have lived in WMBG-WTVR-WCOD land.

FOR SALE:

SPOTS IN ST. LOUIS CARDINAL BASEBALL BROADCASTS

FOR ten years we have handled the broadcast of the St. Louis Cardinal baseball games. These have been broadcast over a large network of mid-west radio stations which last year numbered 69 and will be greater during the 1950 season.

Heretofore our client, Griesedieck Bros. Brewery Company of St. Louis, who hold a three-year exclusive contract for these broadcasts, have shared commercial spots in a limited way. For 1950 a unique new plan in handling the advertising spots on these games has been adopted and five spots of 40 seconds each are being made available to advertisers who see the attractive buy this offers.

With Harry Caray and "Gabby" Street as the announcers, surveys have shown unbelievable high ratings with from 60% to 95% of audience. Figures are available for those interested.

Under this new arrangement you may buy one or more spots on one or all of the following stations at attractive rates for an outstanding live program. For rates, listening figures or further details, call or write the radio stations listed below, or their representatives. Other stations are being added before the season starts and interested advertisers and agencies will be kept advised of these additions.

THAT NEW "Sadowski Bill" realigning FCC procedure is reported ready in draft form but is being kept under lock pending review by Rep. Sadowski (D-Mich.), currently ill. It's supposed to be modeled after model which FCC submitted as answer to pending McFarland Bill (S-1973). Disclosure of FCC proposal [BROADCASTING, March 6] led security-conscious Sadowski staff members to exact promise of probe by FCC to determine source of leak.

FAST TALK about color TV problem being settled any day now, with wide open standards, can be regarded as over-zealous. While FCC thinking is crystallizing, it's obvious to close observers that considerable paper work will be involved even after FCC counts noses. Multitude of questions which must be answered before standards are evolved probably will be recounted by FCC Chairman Wayne Coy in scheduled March 14 speech before Oklahoma Radio Conference in Norman. Related issue of thawing VHF freeze also should come in for Coy treatment.

GEYER, NEWELL & GANGER, New York, preparing radio and television spot announcement campaign for Nash Motors, Detroit, to start April 13 in more than 150 markets. Contract understood to be for four weeks.

FCC STAFF's independent study of transit radio and its status as "broadcasting" service is still perking. Staff has now sent letters to some 45 FM stations asking for copies of their contracts for transitcasting, storecasting, factorycasting.

EDWARD R. MURROW, Mary Margaret McBride and George Denny Jr. reported in running for One World Radio Award. Final selection will be made at a membership meeting in the near future.

WNBT (TV) NEW YORK understood preparing one-hour morning show featuring Ed Herlihy, 10-11 a.m. five times weekly in Tom Brenaman type format, as part of its daytime programming starting in May. Hour long program is Martin Stone production package.

NEWEST NAB convention idea still in discussion stage, is speechless lunches at Management Conference. Delegates would eat in Stevens auditorium, then move through ramp into adjoining theatre to hear two scheduled mid-day speakers—FCC Chairman Wayne Coy and Carlos Romulo, UN General Assembly president.

NEGOTIATIONS to open up Dominion Network in afternoons now nearing completion. Several advertisers interested, General Foods planning two quarter-hour periods on 29 Dominion stations, would pipe in NBC shows *When a Girl Marries* and *Portia Faces Life* to Canadian network.

FURTHER CONSIDERATION of appointment of NAB general manager expected at
(Continued on page 78)

Upcoming

March 18: West Virginia Broadcasters Assn., Chancery Hotel, Parkersburg, W. Va.

March 29-April 1: ANA Convention, Homstead, Hot Springs, Va.

(Other Upcomings on page 30)

Bulletins

STERLING DRUG Inc., through Dancer-Fitzgerald-Sample, New York, begins sponsorship of Monday, Wednesday, Friday broadcasts of *My True Story* ABC, Monday-Friday, 10-10:25 a.m., effective May 1. Libby, McNeill & Libby, through J. Walter Thompson, dropping these periods April 7. Sterling now sponsors Tuesday and Thursday broadcasts.

WTTG (TV) Washington, owned and operated DuMont station, appoints Harrington, Righter & Parsons Inc., New York as national spot representative.

SID SILVERMAN

SID SILVERMAN, 51, publisher of *Variety* and *Daily Variety*, died early Friday morning after long illness at his home in Harrison. Surviving are his son Syd Silverman, 18, and his mother, Mrs. Sime (Hatty) Silverman, widow of founder of *Variety*. Mr. Silverman was one of the youngest theatrical critics when as a child of 7, he wrote reviews under pen name of Skige. He had been publisher of paper since death of his father in 1933.

Plummer Is FCC Chief Engineer

CURTIS B. PLUMMER, 37, chief of FCC Engineering Bureau's Television Division, was named FCC Chief Engineer Friday succeeding John A. Willoughby, who has held position on "acting" basis since January 1948. Mr. Willoughby was named assistant chief engineer.

J. Fred Johnson Jr. of FCC hearing division was appointed Chief Hearing Examiner.

Appointments were among seven announced Friday in followup to staff-wide reorganization commenced by Commission preceding day (story, page 25). Other appointees:

Chief Accountant William J. Norfleet will head new Office of Chief Accountant established in initial reorganization move.

General Counsel Benedict P. Cottone will head new Office of General Counsel.

Harold J. Cohen, assistant general counsel in charge of common carrier division, will head newly created Common Carrier Bureau.

William K. Holl, FCC's acting executive officer, was appointed on permanent basis.

Designation of new Chief Engineer came suddenly, though there has been frequent speculation Mr. Willoughby might be replaced.

Business Briefly

WISE EXTENDS ● William H. Wise & Co., New York (publishers), extends two *Get More Out of Life* programs on CBS, adding 13 weeks for Sat. 2:30-3 p.m. series and four weeks for Sun 2:30-3 p.m. series, both effective March 26. Agency, Huber Hoge & Son, N. Y.

TONI COMMENTARY ● Toni Co., Chicago (home permanents), to sponsor Carol Douglas and Bill Cullen in beauty-fashion commentary on ABC starting March 20, Mon. Fri., 11:25-11:30 a.m. (CST), originating in New York (see page 16). Agency, Foote, Cone & Belding, Chicago.

WERE APPOINTS ● WERE Cleveland names William G. Rambeau Co. as national representative.

GEN. ROMULO TO ADDRESS NAB CHICAGO MEETING

GEN. CARLOS P. ROMULO, president of United Nations General Assembly, to be first guest speaker at NAB Management Conference in Chicago. Gen. Romulo to speak at Monday, April 17, luncheon on "The Broadcaster's Responsibilities in World Affairs." Overall theme of convention is "The American Broadcaster's Responsibility in the World Today."

Gen. Romulo, famed as orator, statesman, soldier and Pulitzer Prize-winning editor, is considered one of world's most eloquent speakers. During World War II he served as Gen. MacArthur's aide on Bataan and Corregidor and in Australia. He went with Gen. MacArthur to Philippines for assault landings at Leyte and took part in recapture of Manila.

This belief grew with his continued retention on "acting" basis.

Mr. Plummer, with FCC since 1940, will head new Office of Chief Engineer. He is Maine native, 1935 graduate of U. of Maine with B.S. in electrical engineering, worked with WHEB and WGAN Portland and Radio Receptor Co., New York, before joining FCC's Boston office. He was transferred to Washington headquarters in 1941, working in AM Division until appointed chief of television unit upon its creation in 1945. He attended 1947 Atlantic City, 1948 Geneva, and 1949 Mexico City high-frequency conferences.

Mr. Johnson, slated to preside in G. A. Richards stations hearings opening in Los Angeles today (Monday), joined FCC in 1935, has extensive experience in both broadcasting and common carrier affairs. He is former first assistant to Attorney General of Alabama and one-time presiding circuit court judge in Alabama. He was named examiner in June 1947 when hearing division was created, and is its first chief.

MONEY-WISE TIME BUYERS

ANALYSE COSTS

You can't lose with these 5 ACES!

● Time and again sales-conscious advertisers who move their goods and sell services in Flint's prosperous trading zone constantly use popular station WFDF to reach its dollar-loaded audience. They know WFDF's listeners prefer it morning, noon and night.

Proof is as near as Hooper's December, 1949-January, 1950 Station audience index which shows WFDF delivers an average of more than two and one-half times the audience, in total rated time periods, as the nearest runner-up station.

There are plenty of blue chips in the prosperous Flint market for the alert advertiser. Get your share with WFDF.

Feature of the Week

WHEN fire swept Spokane's Ridpath Hotel late last month causing an estimated loss of over \$1 million, CBS outlet KXLY played a leading role—one that evoked many words of praise and commendation.

From the time the flames were discovered until it became necessary to vacate the studios because of danger of the wall between the two buildings falling, George McGowan, KXLY program director, gave a flame-by-flame story of the next-door fire. CBS programs were cancelled. Mr. McGowan, from a vantage point in the Symons Bldg., cooperated with the Spokane fire department by telling people to stay home and not come down town and get in the way.

After the fire chief closed the studios and control rooms because of collapse danger, KXLY tied into CBS lines at the transmitter for the rest of the night.

Another contribution by KXLY was use of its "fire door" which had been installed from its main studio into the Ridpath Hotel for

This is how the interior of the Ridpath Hotel looked from the KXLY "fire door."

the purpose of giving an escape to studio guests in case of fire in its Golden Concert Studio. Fire officials credited the door for saving many lives of Ridpath Hotel patrons as it gave them the opportunity to get out of the hotel after elevator serv-

(Continued on page 18)

On All Accounts

PAUL WILLIAM COPELAND is his full name, but he prefers just plain Bill. Born in Columbus, Ohio, Aug. 12, 1917, Bill has by a circuitous route found his way back to Columbus and to Byer & Bowman, advertising agency, where he is presently radio-TV director.

This is Bill's fourth hitch at Byer & Bowman. His first was in 1936 when he came to B&B from The Duplex Printing Co., same city. Prior to that, in 1934, he graduated from East High School, Columbus. During his high school years Bill owned, edited and distributed house-to-house a Kluge-printed shopping news titled *Oak Street Buyers' News*.

He took a short fling at Ohio State U. right after he graduated from high school but discarded it in 1936 for a copy job at B&B. He returned to O. S. U. in '37, '39 and '40 for night schooling, mixing it with some classes at Franklin U. during the same period. He left B&B for a short time to become editor of *The Military Review*, a Fifth Corps area sheet which promptly folded, and so he returned to the B&B fold.

In 1942 young Copeland left the firm again, this time to beat the

pavement for the *Columbus Star*—a tabloid weekly. Three months later he was drafted and spent nearly four years in the service. Two of the four years were spent at Lae, New Guinea, as radio operator and m. c. at the Red Cross Hut. While overseas, Bill wrote a column for the *Columbus Dispatch*, called "Hello Back There." In addition he wrote a weekly short short story for *The Columbus Star*—this for three years without missing a week.

Discharged Jan. 13, 1946, Bill was back at B&B on Jan. 17 same year, with his present title. Among his accounts are The Franklin Brewing Co., with nightly sportscast on WCOL, weekly mystery half-hour on WBNS, film spots on WBNS-TV, and The Ohio Fuel Gas Co. which sponsors nightly newscast on WBNS-TV. Others include Buckeye Foods (Buckeye Potato Chips), film spots on WBNS-TV and WLAC (TV) Columbus; Central Bldg. Loan & Savings Co., spots on WCOL; Ashland Oil & Refining Co., basketball & football on a special network.

Bill got his TV experience by doing his own kid show as "Stony Craig," but bowed out to *Howdy* (Continued on page 18)

Advertising Stays... Where It Pays

3,004 CLASS "A" QUARTER HOURS FOR CHAMPLIN

On July 15, 1940, the Champlin Refining Co. of Enid, Oklahoma, through the Ford Advertising Agency, contracted with WNAX for 312 Class "A" quarter-hours of news. Ten years later, March 1, 1950, marked the 3,004th consecutive Champlin - sponsored newscast on WNAX.

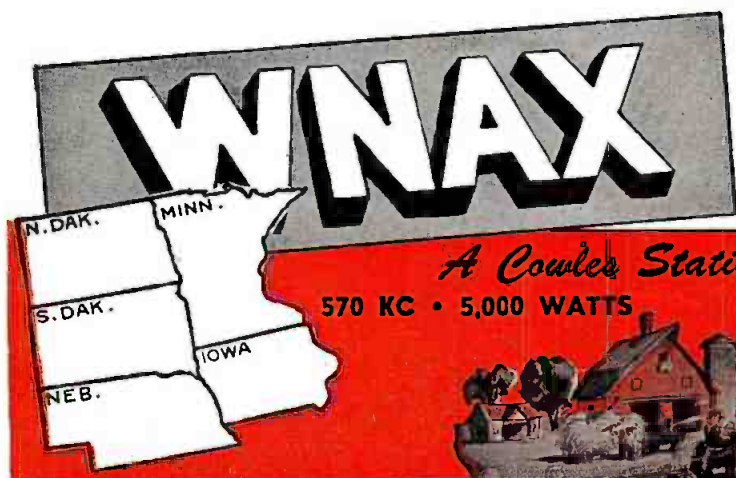

Champlin's is just one of the stories in WNAX's bulging file of advertisers who use WNAX year after year. More than 25 per cent of the national selective accounts now on WNAX were WNAX advertisers in 1940! These advertisers renew again and again because they get a consistent return on every advertising dollar invested with Big Aggie.

Big Aggie Land, a Major Market, served only by WNAX, embraces more than a million radio families in 308 BMB counties of Minnesota, the Dakotas, Nebraska and Iowa.

In 1948, folks in Big Aggie Land with a buying income of nearly \$5-billion—greater than Los Angeles, Washington, D.C., or St. Louis . . . accounted for \$4-billion in retail sales — greater than San Francisco, Philadelphia or Detroit.*

Ask your Katz man to show you how WNAX can produce good will, increase sales of your product or service.

*Compiled from 1949 Sales Management Survey of Buying Power.

SIoux CITY - YANKTON AFFILIATED WITH THE AMERICAN BROADCASTING CO.

*Mutual
delivers
"the game
of the day"*

- LIVE, PLAY-BY-PLAY BROADCASTS**
- FROM MAJOR LEAGUE BALL PARKS**
- DIRECT TO 75,000,000 AMERICANS**
- 6 DAYS A WEEK, ALL SEASON LONG**

BY UNPRECEDENTED ARRANGEMENT with major league baseball, the Mutual Broadcasting System will bring "THE GAME OF THE DAY" throughout the 1950 season, in live action, direct from the top ball parks to a coast-to-coast audience never before within play-by-play earshot of the nation's favorite sport.

Starting April 18 and continuing throughout the full season, Mutual will deliver "THE GAME OF THE DAY," Monday through Saturday, in complete, play-by-play detail. A special network of 350 Mutual stations has been set up to carry these broadcasts to some 75,000,000 people in 31 states.

Al Helfer, Mutual sports ace, will call the action of each day's game, with between-inning color by Art Gleeson, outstanding West Coast sportscaster.

This "GAME OF THE DAY" coup widens still further the Mutual margin as Number One Network for sports—a title earned by its consistent, year-round schedule of championship sports coverage. And, following the regular 1950 baseball season, Mutual will again carry—exclusively for the 12th consecutive year—the World Series, play-by-play, as well as the mid-season All-Star Game.

Advertising opportunities in "THE GAME OF THE DAY" are as broad in scope as the marketing areas it will reach: the 24-week series is available for cooperative sponsorship. For details, call or write the Cooperative Program Department, MBS, 1440 Broadway, New York 18, N. Y., or Tribune Tower, Chicago 11, Ill.

New Business

SHOP BY MAIL, New York, appropriates \$200,000 for television and radio promotion throughout the country. Agency is Scheck Advertising, Newark. Firm chiefly interested in women's participation shows.

PURITY BAKERIES, Chicago, for Taystee bread, to sponsor TV show, *Hopalong Cassidy*, in several major markets. TV spots used now. Agency: Young & Rubicam, Chicago.

MYTELKA & ROSE Inc., distributor of Capehart television in New Jersey, appoints Levy Adv. Agency, Newark, to handle its advertising. Radio is being used.

PARK & TILFORD (All-fabric Tintex tints and dyes), through its agency Storm & Klein, New York, started its annual spot announcement campaign March 6. Contracts are for 10 weeks.

REDDI-WIP Inc., Los Angeles, through William Kester & Co., same city, enters radio for first time with 36 weekly spot test campaign on KFVB Los Angeles, through March. If successful, test will be followed in June with 13 week spot campaign on several Los Angeles stations. Firm currently running two TV spots weekly on KECA-TV Los Angeles, and KFMB-TV San Diego.

BESTE'S PROVISION Co., Wilmington, Del. (bacon, hams, etc.), appoints Kates-Haas Adv., same city, to prepare extensive state-wide campaign starting April 1. Radio will be used.

AXEL BROS., New York (Columbia Diamond Rings Div.), appoints Bayard Adv. Service, New York, to handle its advertising campaign. Firm is considering both radio and television. Definite plans are expected to be announced within a month.

Network Accounts • • •

LIBBY, McNEILL & LIBBY, Chicago (food products), renews sponsorship for an additional 13-week period, of *Auction-Aire* ABC-TV, Fri., 9 p.m. Negotiations also underway to clear time on additional ABC stations. J. Walter Thompson, New York, is agency.

TONI Co., Chicago, will sponsor half-hour video show on CBS and five-minute AM strip on ABC for its home permanent wave during peak seasons, spring and summer. Starting dates are April 5 and March 20. CBS slot is for alternate Wednesdays from 8 to 8:30 p.m. CST with ABC daytimer from 12:15 to 12:30 p.m. CST. Neither format has been set. Agency: Foote, Cone & Belding, Chicago.

GENERAL MILLS, Minneapolis (Wheaties), will sponsor special, one-time broadcast, *Welcome Back Baseball*, MBS, Sunday April 16, 7:30-8 p.m., EST and 8:30-9 p.m. PST. Bob Hope, Bing Crosby and prominent baseball personalities will participate. Knox-Reeves Adv. Inc., Minneapolis, is agency for Wheaties.

CANADA DRY GINGER ALE Inc., Chicago, sponsor of 5-5:30 p.m. portion of *Super Circus*, ABC-TV, Sun., 5 to 6 p.m., adds five stations to line-up now carrying show. Agency: J. M. Mathes Inc., New York.

EQUITABLE LIFE ASSURANCE SOCIETY, New York, renews sponsorship, effective March 31, of *This Is Your FBI*, ABC, Fri. 8:30-9 p.m., for an additional 52-week period. Company has sponsored show since April 1945. Warwick & Leger, New York, is agency for firm.

KAR SEAL Corp., Los Angeles (wax auto polish) April 1 starts weekly sponsorship of *Newspaper of the Air* on 12 Don Lee stations Saturday, 10-10:15 a.m. PST. Contract is for 26 weeks. Agency is Mogge-Privett Inc., Los Angeles.

FLORIDA GREYHOUND LINES, Jacksonville, Fla., renews for 13 weeks, cooperative sponsorship of ABC's quarter-hour news commentary featuring Elmer Davis, three times weekly over four Florida stations: WPDQ Jacksonville, WSUN St. Petersburg, WHOO Orlando and WMFJ Daytona Beach. Agency: Beaumont & Hohman, Atlanta, Ga.

WESTINGHOUSE ELECTRIC Corp., Pittsburgh, which has sponsored *Ted Malone Show* for past five years, will cancel five time weekly, five-minute show, on ABC, effective mid-March.

All-Sweet's Plan

EDITOR, BROADCASTING:

I read with interest your article and editorial in BROADCASTING, Feb. 13, regarding free time. Here is a new twist on an old idea, to get free radio time. Our local hospital called this morning and wanted us to give a lot of free publicity to them, telling this story.

"For each empty carton of All-Sweet margarine that is turned in, the hospital will receive five cents." All-Sweet's advertising executives must have stayed up all night working this out, saying to themselves: "How can local radio refuse? It is all for charity." This is all very nice, and I know that five cents per package is a big

budget for advertising, but where would the poor radio station (who gives and gives and gives) be if each company worked out a plan like this?

I assume there are many radio stations who will go along with this. WSKI did not! I think that radio's record is very good, and all of us give free time to worthy causes, but think of the thousands and thousands spent each day to work out something that radio stations will take free. Everyone gets paid except radio!

Paul H. Martin
General Manager

FM Needs Selling

EDITOR, BROADCASTING:

Our broadcasting industry makes great claims as to its terrific selling power. Some of us would have the advertising world believe that we could sell hot air heaters to the Zulus at high noon. Maybe we could if we'd try! But the shame of it all is that we can't even sell a product in which our own industry has invested millions.

That product is FM and the reason we can't sell it is because any promotional ideas we once had concerning it, we have packed away in mothballs. A product must be advertised in order to be sold. We who have AM outlets have the means, at least we claim we have

Just turn to almost any page in BROADCASTING and glance at the large type. Let's prove ourselves. We have a market surrounding

(Continued on page 42)

(Continued from page 12)

Doody on a competing station. Actual experience he claims gave him more studio know-how than a dozen books.

In 1948 Bill Copeland and Annita Auteri were married. They now have one son, Bobby, eight months old.

Versatile Bill can literally and figuratively "change his tune." He has a fledgling music publishing firm called "My-Bob Music," named after the aforementioned son. With a BMI license the firm's white hopes are in four Copeland tunes, one of which is "If Summer Is Good To Me," a BMI published tune recorded on an old label by the Bus Brown Combo, and backed up by another, "You Gotta Get Up Mighty Early To Be the Early Bird."

Besides working for success in his job at Byer & Bowman, Bill Copeland hopes to build a weekly TV show that packs a wallop, with himself as m. c., "just to keep his hand in."

Feature

(Continued from page 12)

ice stopped and stairways became blocked with flame and smoke. Floor in the KXLY studio was damaged.

Typical of the comments on KXLY's coverage of the fire was a letter received by E. B. Craney, president of Symond Broadcasting Co., owner of KXLY, from R. W. Jones, vice president of The Old National Bank.

"After returning home," said Mr. Jones, "we listened to KXLY until the announcer was obliged to evacuate his quarters. The description of events was given in a most interesting manner and under the circumstances in which the announcer was broadcasting he was not nearly excited as probably one would expect him to be. . . . You are to be highly commended for giving the public this type of service."

SWITCH

CLUTCH
ASSEMBLY

"BRAKE ARM"
ASSEMBLY

The new RCA 45 RPM Conversion Kit, MI-11883—installed. The kit is complete with (a) clutch assembly (speed changer); (b) brake-arm assembly; (c) switch and cam shaft assembly; (d) microswitch; (e) dial plate; (f) shaft coupling; and (g) adapter hub.

The fine-groove tone arm and pick-up for "45 RPM" are available extra.

Play 45 RPM's on 70-series Turntables— with RCA Kit MI-11883

NOW you can handle 45's, 78's or 33-1/3's—fine-groove or standard—
—with this kit, and a second tone arm (available extra).

Easy to install

You install the single-unit, ball-type speed reducer between the two flexible couplings in the main drive shaft of your turntable. You transfer the motor switch leads to the micro-switch—included with the kit. That's all there is.

Easy to operate

A motor-control knob on the deck of the turntable controls the speed. Position No. 1 stops the motor. No. 2 shifts the speed control to the 78-33 1/2

rpm speed-change lever (on turntable deck). No. 3 shifts to "45 rpm" position (speed lever set at 78 rpm). You can shift speeds instantly in either direction while turntable is running.

Same RCA broadcast dependability

Sturdy construction and accurate mechanical alignment assures you the same quiet, trouble-free service for which more than five thousand RCA turntables are famous.

sn't time to read them **all**

Let's not kid ourselves. No advertiser, no account executive, no agency timebuyer has either the hours or the physical stamina to read all the trade publications that stream across his desk.

If you're still flirting with the notion that you need several magazines to surround the men who control the choicest advertising budgets...well, you're just peddling uphill needlessly.

It *doesn't* take five...three...even two publications to woo the attention (and recognition) of the people who really count. You can commune with them through a *single* medium — through the well-thumbed, well-noted pages of **BROADCASTING**.

For almost 20 years now, **BROADCASTING** has been the solid, authoritative reporter of everything significant about its namesake industry. So much so that today virtually anybody who has anything worthwhile to do with radio and TV timebuying decisions is a close reader of **BROADCASTING**. The moral is obvious. While these often-unattainable people are studying the pages of **BROADCASTING**, you have a chance to speak up (through those same pages) about yourself.

You have a chance to speak up before a bigger, more important assemblage of bigger, more important people than any other radio or TV publication can gather together for you. They may not read the others. *They always read BROADCASTING.*

ry these facts on your adding machine:

The largest and oldest publication in its field, with 15,300 weekly paid circulation.

More paid circulation among radio advertisers and agencies than any competing publication.

The highest survey-proven readership of all radio trade journals.

Home subscriptions (in addition to office copies) by key advertiser and agency personnel controlling *more than 85%* of all national radio expenditures.

More advertising lineage annually than all other radio journals combined.

An advertising cost—to reach these decision-making advertiser and agency readers—of *less than one cent per impression!*

LICENSE FEES

Explored by Congress and Treasury

A TWIN MOVEMENT was in progress on Capitol Hill last week which, if successful, would assess license fees on all commercial stations. Although not yet jelled, proposals have been forwarded along two separate paths:

● The Democratic leadership in the House has decided to sound out Treasury Dept. officials on the practicability of assessing license fees on stations and on civil air-lines.

● A Senate committee staff is investigating services performed for radio and communications by the FCC with a view toward possibly assessing fees for licensing and other services rendered.

A meeting last Thursday of Administration leaders including Reps. Robert L. Doughton (D-N. C.), chairman of the House Ways and Means Committee; Jere Cooper, (D-Tenn.); Walter A. Lynch (D-N. Y.), all members of the Doughton committee; House Speaker Sam Rayburn (D-Tex.), and John W. McCormack (D-Mass.), House Majority Leader, reviewed the revenue problems.

It was reported that the session resulted in the naming of Colin F. Stam, chief of staff of the Joint Committee on Internal Revenue, Taxation, to explore with Treasury officials the feasibility of levying fees on stations and also on civil aeronautics services.

Sen. Walter F. George (D-Ga.) is chairman of the joint group, Rep. Doughton is vice chairman.

Stems From White House

Unusual significance attaches to the House move, since it indirectly stems from the White House. President Truman's opposition to cancellation of the so-called luxury excise taxes, and the concerted Congressional drive to eliminate or reduce most of the war-time impost resulted in efforts to develop new sources of revenue.

The high-level conferences of the House leadership followed a session with President Truman during which it is understood he emphasized the need of maintaining most of the excise taxes. He did not suggest the radio and aviation license fee or franchise tax approach, it was learned.

The tax suggestion came from Rep. Cecil R. King (D-Calif.), a Ways and Means Committee mem-

ber, during the closed door discussions on Wednesday, and the study was authorized the following day. He pointed out that in California the state levies a flat fee for oil-drilling permits which must be paid even if the hole eventually proves dry. It is understood he talked about big profits made in radio and the high cost of administration. He also projected the air lines aspects, with discussion centering around the "franchises" which was given by the government in both instances.

Whether this topic was broached to the President following the House leadership discussion was not ascertained. It is known, however, that FCC Chairman Wayne Coy conferred with the President last Wednesday, although he had no listed appointment. Later the same day, CBS President Frank Stanton and House Interstate Commerce Committee Chairman Robert Crosser (D-Ohio) made scheduled calls on the Chief Executive.

For more than a dozen years

proposals intermittently have been made for franchise taxes or license fees for radio. These have ranged from "\$1 per watt" proposals to charges for filing of papers with the Commission to defray its administrative expenses, much in the manner in which the courts charge filing fees. All died aborning, however, because of the obviously discriminatory aspects, and in recognition of the fact that farmers do not defray the cost of the Agriculture Department, nor industry the costs of the Department of Commerce or of other Government agencies which render them service.

Senate Group Probe

Meanwhile, a more long-range investigation, but with the same end in mind, is underway in the Senate by staff members of the Senate Committee on Expenditures in the Executive Departments. The probe, led by Chairman John L. McClellan (D-Ark.), already has resulted in a request that the FCC provide detailed material.

According to a committee spokesman, FCC has been asked to show what services it renders the radio and television industry. The committee seeks to sift out those services which go beyond public benefit. Although the probe has been progressing for some weeks, disclosure came early last week by Sen. McClellan, who stated:

The FCC carries on extensive licensing and inspecting service without which wireless communications in the United States would be a bedlam of confusion. Further, through its inspection service the safety of shipping interests is safeguarded through issuance of adequate wireless transmitting and receiving equipment.

The FCC now has outstanding over 900,000 authorizations for transmitters of all kinds and licenses for more than 600,000 radio operators of all classes. There is essentially no charge whatsoever for these invaluable services from which tremendous benefits accrue to the recipients thereof, and the Committee expects

(Continued on page 76)

'LIGHTNING' IMPACT Debut Reactions Vary

INDUSTRY film, "Lightning That Talks," opened last week in Manhattan and in several other cities with mixed success. On the basis of a painstaking survey by BROADCASTING, it was plain that the film failed to attain a sweeping endorsement among its audiences.

Among 309 representatives of agencies, advertisers, stations, networks and other elements of the industry who gave BROADCASTING their reactions to the film after attending its New York showing Thursday, more thought it was fair than thought it good, and more thought it poor than excellent. The great majority thought it either good or fair.

Reports from other cities where the picture was displayed last week ranged from enthusiastic to cool.

At Canton, Ohio, the picture was reported to have made a "striking impression" on an audience of 63 industrialists, retailers, wholesalers and distributors Thursday.

At Osceola, Ark., 75 business leaders gave it a cool reception. At Hopkinsville, Ky., 240 retailers and other business people viewed it with widely disparate opinions. Equally varied reactions were reported in Minneapolis and St. Paul.

A private screening by WOV

★ New York for a group of clients in the Italian foods field resulted in "tremendously favorable" response.

At the biggest showing last week, before an audience of 500 at a luncheon meeting of the New York Radio Executives Club at New York's Roosevelt Hotel, BROADCASTING distributed questionnaires to get reactions. A total of 309 was returned. Of the total, 78 were from persons associated with advertising agencies, 101 from station and network people, 85 from station representatives firms, 15 from advertisers and 30 from other categories. (Complete tabulation of survey on page 40.)

Majority Liked

Among all respondents, 71.5% thought the film was either good or fair; 11.8% thought it excellent, and 16.7% thought it poor—the least favorable choice given on the questionnaire.

Slightly more than half thought it made a good sales talk for radio. Slightly less than half thought it did not.

As to how "Lightning That Talks" compared with promotion films for other media the audience had seen, 8.1% thought it was tops, 41.4% thought it was better than average, 40% thought it run-of-the-mill, and 10.5% thought it below average.

Among the New York Radio Executives Club audience, the group that appeared to be the most critical of the picture were those from advertising agencies and advertisers.

Only 10.5% of the agency respondents thought the film excellent, while 25% of them thought it poor, and 34.2% of them regarded it as fair while 30.3% thought it good.

More than half (51.5%) of the agency respondents thought it did not make a good sales pitch for broadcasting.

Among advertisers who answered the questionnaire, 20% thought

duPONT AWARDS *Beatty, WNOX, WWJ Cited*

NBC COMMENTATOR Morgan Beatty, WNOX Knoxville and WWJ Detroit received the 1949 Alfred I. duPont memorial awards at a dinner in New York last Saturday (March 11).

In addition to the three awards, made annually since 1942, two special citations were issued to ABC-TV and to WPIX (TV) New York, the first recognition of television by the duPont committee.

Each of the three principal awards includes a cash prize of \$1,000.

The awards and citations were presented at a dinner held at New York's St. Regis Hotel, with ceremonies broadcast by ABC.

The commendations attached to each of the three main awards were like those which have been given since the founding of the prizes, a memorial to the late financier.

Mr. Beatty's commendation was "in recognition of distinguished and meritorious performance of public service by aggressive, consistently excellent and accurate gathering and reporting of news by radio and the presentation of expert, informed and reliable interpretation of news and opinion for the purpose of encouraging initiative, integrity, independence and public service through the medium of radio."

Station Citations

The commendations for both WNOX and WWJ were "for outstanding and meritorious service in encouraging, fostering, promoting and developing American ideals of freedom and for loyal and devoted service to the nation and to the communities served by these stations, respectively."

The special citation to ABC-TV was for its telecasts of the film *Crusade in Europe*, based on Gen. Dwight D. Eisenhower's book. The citation was "in recognition and appreciation of outstanding public service in encouraging, promoting and developing American ideals of freedom and for loyal, devoted service to the nation and to the communities served through the television presentation of the his-

torical documentation, *Crusade in Europe*."

The citation to WPIX (TV) read similarly except that it was for the station's presentation of "current news and events."

The awards and citations were received by Mr. Beatty; Jack R. Howard, president of Scripps-Howard Radio Inc., owner of WNOX; W. E. Scripps, a director of the Evening News Assn., owner of WWJ; Robert E. Kintner, president of ABC, and Richard Clark, executive editor of the New York *Daily News*, owner of WPIX.

Annual Awards

The duPont awards to stations are made annually to one station of more than 5 kw and to another of 5 kw or less. WNOX is a 10 kw outlet. WWJ is 5 kw.

Mr. Beatty is featured Monday through Friday, 7:15-7:30 p.m., on NBC's *News of the World*, sponsored by Miles Labs.

Members of the awards committee are Mrs. Alfred I. duPont, widow of the financier; Dr. Francis P. Gaines, president of Washington and Lee U.; M. H. Aylesworth, radio consultant and first president of NBC; Mrs. J. L. Blair Buck,

president, General Federation of Women's Clubs, and Mark Ethridge, publisher of the *Louisville Courier-Journal* and *Louisville Times* (WHAS). All committee members attended the dinner.

Others in attendance included Mark Woods, ABC vice chairman; Joseph H. McConnell, NBC president; Niles Trammell, NBC chairman of the board; William C. Gittinger, CBS vice president and assistant to the president; Frank White, MBS president; William H. Goodman, secretary of the Alfred I. duPont foundation, and Sol Taishoff, editor and publisher of BROADCASTING-TELECASTING.

Milton Cross announced the program, and music was provided by Paul Lavalle's orchestra.

Rheinstrom to JWT

CHARLES A. RHEINSTROM, former vice president of Erwin, Wasey & Co., New York, has joined J. Walter Thompson. New York, in an executive capacity.

'GAME OF DAY'

MBS Offers to Local Accounts

MBS' BASEBALL "Game of the Day" will be offered to local and regional advertisers over 350 network stations, Frank White, Mutual president, announced last week. Decision to make the broadcasts available exclusively for local sponsors resulted following an "overwhelming" response by Mutual affiliates, he said.

Two types of cooperative sponsorships can be arranged—a complete game by one advertiser, or purchase by various advertisers of 30-second announcements after every half inning, and one 60-second spot at the end of the game, according to Mr. White.

The daily broadcasts, which will commence with the opening of the Major League baseball season April 18, will be aired in 31 states from Florida to Oregon, Monday through Saturday, with Al Helfer handling play-by-play [BROADCASTING, March 6.]

HENRY C. KLEIN

BBDO Vice President Dies

FUNERAL services for Henry Clay Klein, 50, vice president of BBDO, New York, were held last Friday in New York. Mr. Klein died suddenly, March 7, enroute to Philadelphia.

Born in Muncie, Ind., Nov. 9, 1899, Mr. Klein joined the Chicago office of BBDO in 1935 as radio director, and in 1940 came to the New York office where he assisted Arthur Pryor Jr., in the development of new program ideas and talent. He was made a vice president on Feb. 21, 1948 and for the past few years served as account group head for the Curtis Publishing Co. account.

Mr. Klein is survived by his wife, Jean Sprinkel Klein, and a son, Henry C. Jr.

Capitol Names Murray

S. W. MURRAY, formerly vice president of RCA, in charge of RCA Victor record division, has been elected vice president of Capitol Records Inc. He will serve in an executive capacity in a new post to be created for him. In the record business since 1928, Mr. Murray has been associated with Okeh Phonograph Co. Inc.; Nipponophone Co. Ltd., Japan; Victor Co. of Japan Ltd., and Columbia Record Co., in addition to RCA.

BAB Retail Folders

BAB LAST WEEK issued two more retail information folders, an automotive industry folder for radio stations, and a TV folder on banking. Each contains a comprehensive review of the industry and its advertising practices, particularly its use of radio and/or TV. Each folder also includes pertinent information reprinted from banking (or automotive) trade papers.

Drawn for BROADCASTING by Sid Hix

"One thing about Jones . . . cabinfever will never get him!"

FCC REORGANIZATION

Common Carrier Bureau Initiated

FCC'S AWAITED staff-wide reorganization [CLOSED CIRCUIT, Dec. 12, 1949; BROADCASTING, Feb. 20] was initiated last week with a realignment of the Commission's common carrier operations which set the pattern for wholesale changes to come in broadcasting and other FCC departments.

As the first step toward complete establishment of its staff on a functional basis, FCC Thursday:

- Created a Common Carrier Bureau which will include law, accounting, and engineering personnel;
- Abolished the existing Bureaus of Law, Accounting and Engineering, which heretofore have comprised the major staff divisions; and
- Created separate offices of General Counsel, Chief Engineer, and Chief Accountant which will serve as major staff units with broad authority and also, pending complete reorganization, assume the jurisdiction of the old law, accounting and engineering bureaus with respect to broadcasting, safety and special services, and field engineering and monitoring.

The changes become effective April 3 and will be followed by the creation of three additional bureaus—Broadcast, Safety and Special Services, and Field Engineering and Monitoring—on a par with the new Common Carrier Bureau. The reorganization, bureau-by-bureau, may take several months.

No Appointments Made

The Commission's announcement and orders gave no hint of likely appointments as heads of the Common Carrier and subsequently established bureaus, except to say all positions "will be filled from within the present staff of the Commission. . . ."

It was expected that the new offices of General Counsel, Chief Accountant, and possibly Chief Engineer would be headed by the men in those positions in the present organization—Benedict P. Cottone, William J. Norfleet, and John A. Willoughby, respectively.

There has been recurrent speculation that a new chief engineer may be appointed to succeed Mr. Willoughby, who has occupied the engineering post on an "acting" basis since George E. Sterling was advanced to Commissioner on Jan. 3, 1948.

Harold J. Cohen, assistant general counsel in charge of the Common Carrier Division of the present Law Bureau, was regarded as FCC's probable choice for chief of the new Common Carrier Bureau.

Plotkin Broadcast Chief?

Harry M. Plotkin, assistant general counsel in charge of broadcasting, was considered among the principal contenders for the same position in the forthcoming Broadcast Bureau.

engineer, was seen as one of the leading candidates for chief of the Field Engineering and Monitoring Bureau, while initial speculation on the ultimate Safety and Special Services post covered several prospects.

Each of the new bureaus will be "responsible to and subject only to the Commissioners themselves," FCC's announcement said. Thus each bureau chief will have to answer only to the Commission for his conduct of the regulatory affairs in his particular field.

Under the realignment, the General Counsel, Chief Engineer, and Chief Accountant are slated to serve as the Commission's top-level technical advisors and representatives. For each the Commission has asked the Civil Service Commission for a \$12,200 to \$13,000 pay rating, as compared with the approximately \$10,000 they now receive.

These three and their "principal assistants" would be disassociated from the prosecutory and investigatory activities of the functional bureaus.

Their duties, FCC has indicated

to the House Interstate and Foreign Commerce radio subcommittee, will include such functions as participation in rule-making, international conferences and litigation, and the making of recommendations to the Commission on proposed legislation [BROADCASTING, March 6]. These and other duties were spelled out for them in connection with common carrier affairs.

Their responsibilities presumably will be organized into divisions, with executives in charge of each. In the Common Carrier Bureau there will be an Office of the Chief, a Telegraph Division, Telephone Division, International Division, and Statistics Division.

New Set-up

The four new bureaus meanwhile will be organized into divisions, with executives in charge of each. In the Common Carrier Bureau there will be an Office of the Chief, a Telegraph Division, Telephone Division, International Division, and Statistics Division.

In addition to a chief of each division, a deputy chief of the entire bureau probably will be chosen. The Office of the Bureau Chief also will include a Field Coordination Unit

and an Administrative Unit.

In abolishing the Bureau of Law and creating the Office of the General Counsel, FCC transferred to the latter the "positions and personnel in the immediate office of the general counsel and the positions and personnel in the Litigation and Administration Division of the Bureau of Law."

The Litigation and Administration Division is headed by Assistant General Counsel Max Goldman, with Richard A. Solomon as chief of the Litigation Branch and A. Harry Becker chief of the Administrative Branch. The "immediate office" of the general counsel includes Joseph M. Kittner, assistant to the general counsel.

The "positions and personnel" of the Law Bureau's Broadcast Division and Safety and Special Services Division were transferred to the Office of the General Counsel "until further order of the Commission." They are slated for eventual inclusion in the new Broadcast Bureau and Safety and Special Services Bureau. As units of
(Continued on page 77)

NUMBER SHOW

Giveaway Stirs Wide Reaction

By J. FRANK BEATTY

ANOTHER program idea with a giveaway gimmick (\$100) has thrown 15 markets into varying stages of excitement and is starting to assume national aspects.

It's a \$100 number-reading program that is giving the humble social security card a significance never conceived by its govern-

mental creators. Within the last fortnight the idea has started to acquire angles:

- The Social Security Administration, not very happy about it, is investigating.
- FCC has heard, and is conducting a "routine inquiry."
- Fifteen areas are going through hourly crises as listeners check up on the latest number.
- Stations in 35 other markets are clamoring for exclusive rights.
- Participating sponsors are delighted, stations report.
- Some stations not in on the plan are said to be having fits about its audience impact.

This attention-getting device, described by one broadcaster as the "biggest thing since the Man From Mars incident," is the creature of H. E. Hudgins, copy chief of Azrael Adv. Agency, Baltimore. The plan was worked out by Mr. Hudgins and Maurice Azrael, head of the agency.

Since the first of the year, the Azrael agency has been working seriously on its brain-child and has taken out copyright protection. One of the first to try the idea was WBMD, Baltimore daytime independent [BROADCASTING, Feb. 6].

The basic format is simple. The Azrael agency selects potential social security numbers for each station, guided by the area formula governing first digits on Social Security Administration cards. Every hour the station reads a number. If a listener has the number on his card, he can call at the station and pick up \$100.

How about potential lottery as-

pects of the scheme? The Azrael agency says it has been advised the plan is legal. More than one participating station has made a separate check and is convinced it's legal.

While chance of winning might appear remote, winners are ap-

Mr. Azrael

Mr. Hudgins

pearing at stations about once a week. Without winners the plan might fold quickly so the number of required digits can be cut from SSA's maximum of nine to five or six, for example, greatly increasing the chance of finding a winner.

WBMD Baltimore had five winners in six weeks and WLEE Richmond, Va., had four winners in eight days, according to Herbert R. Harris, Azrael account executive who finds himself suddenly enmeshed in a fulltime—even overtime—assignment.

The Azrael agency bases its fee on population of the market and the number of programs sold by the station. Since the station pays only on sponsored programs, the plan can be introduced in a market at nominal cost.

And what happens when social

PERPETUAL BANKS ON RADIO Builds Goodwill With WRC

By DAVE BERLYN

FEW OTHER radio advertisers can meet the claim of Perpetual Building Assn., Washington, in patting its competitors on their collective backs with altruistic acumen twice a morning three times a week.

This is precisely what Perpetual, bearing a banner of "the nation's largest saving and loan institution," has dared to do on NBC's network news show, *World News Roundup*, which it sponsors Tuesday, Thursday and Saturday over WRC Washington.

Banking its ideas on a sound program, Perpetual is making its innovation pay off in goodwill dividends. Always traditional and filled with pride of its stability and promise of security to home owners, Perpetual believes in carrying through this spirit to radio listeners.

The seed was planted for the program's different-type commercial—commending the history and accomplishments of a competing bank or loan institution in the capital city's area—a relatively short time ago.

Started in 1949

Perpetual first took to the morning show the beginning of 1949 when its president, Edward C. Baltz, decided the type of institutional-flavored advertising his firm favored should be extended from the printed page to depositors' radio sets. The news program was chosen, it was explained, because it was traditional morning radio fare for a wide audience in a long established time spot and because it was produced with network calibre.

In addition to being proud of its own record, Perpetual believes the entire field of savings, loans and such types of banking has a story to tell. Braving the stigma of spending dollars to advertise the names of competing institutions, the company proceeded to tell the

MR. BALTZ

story of the organizations.

Its first half-dozen months on WRC hewed a straight line of institutional advertising, clinging to the policy of perpetuating the name of Perpetual, time out taken only to promote government savings bonds and other public causes.

Then the competitor service idea, called "know your building associations," engendered by Mr. Baltz, took hold. Conferences with Harry L. Merrick, vice president, and Forest Entwisle, both of Kal, Ehrlich & Merrick, Washington, Perpetual's agency, developed the format. Sol Panitz, agency's radio and TV director, and Dana Dillon, agency's copywriter, ironed out details. Edward Hotze, Washington *Times-Herald* advertising man and Perpetual advisor, was liaison.

Handling of announcements since the new policy's start, Aug. 22,

1949, has been a simple but meticulous process. A competing institution is chosen, research rounded into shape by Mr. Hotze, copy turned out by Mrs. Dillon and the result checked by Mr. Panitz. After the careful selection of material and its assembly, the finished product is tailored to fit a smooth, deliberate delivery which preserves the tonal quality of Perpetual's prestige.

Listeners to the news roundup on that summer's day wondered if their ears played them tricks. An announcer in a quiet, sincere voice described the history of a banking firm other than Perpetual, mentioning resources or assets and praising founders or present officers. No mention was made of Perpetual until the close of the announcement, e. g.: "Perpetual . . . is proud to be a neighbor of the _____ Bldg. Assn., and salute its officers, directors and employes for their faithful assistance in making Washington a city of homes. This message is sponsored by Perpetual, a neighbor association—11th and E Sts. N. W."

Emphasizes Name

As one of the officials concerned with the program puts it, Perpetual thinks of the program as public relations because "it does not sell anything, never asks people to deposit money, but emphasizes the name of Perpetual, inoffensively." The 60 seconds allotted to the announcement may be pared at times on the theory the listener is tuning to the program to get the news quickly. The opening and closing seldom vary in content and are altered only to fit continuity. Perpetual not only is making an

imprint on Washington radio but also is carrying its message to outlying areas where spot, twice daily, Mon.-Fri., is placed on the *Brooke Johns Show* on WBC (Bethesda-Chevy Chase, Md. (Washington suburb). These announcements are the same as those on WRC.

Stacks of mail which fill the Perpetual letter box quite often ask "how come?" These are quickly answered by Mr. Baltz with an explanation of the program's intent. Letters from depositors have expressed thanks. Still other letters, warmly appreciative, are signed by officials of competing firms. One depositor said the program expounds the saying "a chain is no stronger than its weakest link" and that he was sure Perpetual was "doing much to set the industry as a whole to radio listeners." He said: "I have been a shareholder in Perpetual for the last 15 years and feel that my money could not be in a more desirable depository."

W. S. Pratt Jr., president of Equitable Cooperative Building Assn., Washington, said he was "particularly impressed with the unselfishness of your thought and the fairness of its presentation. To us at the Equitable it represents the fine goodwill among our group each striving to serve the community. . . ."

At least for 1950, as in 1949, it can be said Perpetual is allotting 20-25% for radio in a flexible advertising budget. Kal, Ehrlich & Merrick also vouches for this faith in radio—and TV seems to be in the not too distant future for Perpetual—"the nation's largest."

GALE ELECTED

To Be Ad Council Chairman

ELECTION of Samuel C. Gale, of General Mills Inc., Minneapolis, as chairman of the Advertising Council, succeeding Charles G. Mortimer Jr. of General Foods Corp., was announced by the council last Thursday following the annual board of directors meeting.

Mr. Mortimer, vice president in charge of marketing for General Foods and council president for the past three years, was named to head the policy planning committee of the council board. Theodore S. Repplier, council president since 1946, was re-elected.

Mr. Gales, vice president in charge of advertising, home service and public services for General Mills, has been a director in the council for two years. Last year he was chairman of the advertising subcommittee for the Citizens United Nations Committees. He is the first midwest executive to head the council.

Lee H. Bristol, president of Bristol-Myers, was re-elected vice

chairman. Louis N. Brockway, executive vice president of Young & Rubicam Inc., and Philip L. Graham, president of the *Washington Post* and WTOP Inc., were elected new vice chairmen.

THE Advertising Council's new board chairman, Samuel C. Gale (r), vice president and director of advertising, General Mills Inc., chats with his predecessor, Charles G. Mortimer Jr., vice president in charge of marketing, General Foods Corp., chairman for the past three years.

Other elections included Frederick R. Gamble, AAAA president, and Paul B. West, ANA president, secretary and treasurer, respectively. Allan M. Wilson and George P. Ludlam were re-elected vice presidents.

Annual Time Contribution

About a \$100 million worth of advertising is contributed annually by radio and television station newspapers, magazines and outdoor billboards. Because time and space are frequently donated by various companies, it is necessary for the board to get the "fullest" cooperation, Mr. Gale said. He added that the council's progress to date has been "significant" in the east, but that heaviest stress would be laid on western territories.

Any campaigns adopted by the council must have the approval of three-fourths of the policy planning committee. Its newest campaign—the decennial census—operates this month on radio, television, and in other media.

FCC Actions

THIRTEEN new AM stations approved by FCC last week included two new outlets for Hawaii, one of which went to Royal V. Howard at Honolulu and the other at Hilo to owners of KPOA Honolulu. Seven existing AM stations won improved facilities. Four new Class B FM outlets approved for New York metropolitan area, three of which went to existing AM operators. KBTB (TV) Dallas granted transfer for \$575,000 to WFAA-AM-FM there. Six other assignments also approved. Details of these and other FCC actions may be found in Actions of the FCC beginning on page 59 and in FCC Roundup on page 75.

NARBA TURMOIL LESSENS

Cuba Pact Subject to Senate

WORK on the new U. S.-Cuban NARBA treaty [BROADCASTING, March 6] reportedly was near completion in Havana late last week, while industry protests against "secret agreements" subsided under assurances that the document will be subject to Senate scrutiny and ratification.

Barring unanticipated developments, the task of working out final details and drafting the agreement was expected to be completed within a few days—perhaps over the weekend (see channel-by-channel analysis of tentative agreement below and tabulation page 42).

Industry indignation over failure to serve notice of the proposed terms upon the affected stations was calmed by guarantees that the document will not be "final" until it is ratified by the Senate.

It is slated to become a part of the complete NARBA, on which negotiations among all participating nations are scheduled to resume some time after April 1, or to be used as a separate bilateral agreement with Cuba in event no overall NARBA agreement is reached. In either case, it would be subject to Senate ratification.

Chairman Ed C. Johnson of the Senate Interstate and Foreign Commerce Committee, spurred by protests from broadcasters and Senate colleagues alike, was poised early in the week to lodge a stinging protest with FCC and the State Dept. He was dissuaded in a Tuesday-morning conference with FCC Comr. Rosel H. Hyde, chairman of the U. S. NARBA delegation, before Mr. Hyde flew back to Havana for the final round of negotiations.

Without discussing the merits of the proposed agreement, Sen. Johnson told BROADCASTING:

"I can say that I am satisfied with Comr. Hyde's assurance that the Senate would have the chance to ratify either a new NARBA agreement or a treaty worked out between the United States and Cuba."

When that time comes, Sen. Johnson continued, "we can judge the effects of the agreement on its merits."

Tentative terms reported unofficially from Havana indicated Cuba would:

- Give up all operations not authorized by the expired NARBA or the new agreement;

- Receive special rights on the three 1-A clear channels on which she had privileges under NARBA—640 kc (KFI Los Angeles), 670 kc (WMAQ Chicago), and 830 kc (WCCO Minneapolis)—and relinquish unused NARBA rights on 1-A 890 kc (WENR-WLS Chicago).

- Get Class 2 authority on 16 1-B channels.

- Receive rights to use power above 5 kw on the same number of channels on which she had similar rights under NARBA (these would be 550, 570, 590, 630, 790,

910, 920, 950, 980, and 1150 kc).

- Be permitted to increase the limitation to seven existing U. S. regional stations.

- Be accorded "special" protection by future U. S. stations on 11 channels (550, 570, 590, 630, 640, 690, 740, 860, 920, 950, and 980 kc).

- Permit U. S. stations to exceed "normal" protection to Cuban 250-w stations on at least eight regional channels (930, 1250, 1270, 1290, 1360, 1430, 1470, and 1590 kc).

- Be permitted to operate with 1 kw on the 1340 kc local channel.

- Operate a 1-kw part-time station on the 1-A 1160 kc channel, limiting the operations to protect KSL Salt Lake City, the U. S. dominant, in accordance with NARBA.

The granting of "special" protection to Cuban stations on 11 frequencies, authorities reported, would affect no existing U. S. station except KPRC Houston (950 kc). Two Puerto Rican outlets—WIBS Santurce (740 kc) and WNEL San Juan (860 kc)—would also be affected, but it was pointed out that these may be moved in any event. KPRC was reported to have agreed tentatively to make directional antenna changes satisfactory to Cuba.

Additionally it was learned that

insofar as these 11 channels are concerned Cuba is still seeking to have the "special" protection include a ban on further U. S. assignments in Florida and southern portions of Georgia, Alabama, Mississippi, and Louisiana.

The NAB, in a comprehensive study and report on the Havana negotiations, also reported the U. S. has indicated it will consider shifts in frequency or changes in directional systems for WMBM Miami Beach (800 kc daytimer) and WVCG Coral Gables (1070 kc daytimer).

One of the chief points of industry opposition to the agreement, aside from the secrecy in which it was evolved, arose from a fear that Cuban stations would not employ directional antennas that will give U. S. stations the specified degree of protection.

Proponents of the agreement contended it goes comparatively little farther than the expired NARBA in its concessions to Cuba and that, as an instrument for "regulated interference," it is preferable to having "unregulated interference" with no treaty.

They summarized salient features:

1. Cuba relinquishes rights to one of the four U. S. 1-A clear channels she was authorized to use under the

old NARBA.—Proponents of clear-channel breakdown felt this is not a victory for clear channels alone. They argue the U. S. will thus have one more clear channel available which she can "exploit"—that is, break down.

2. Cuban use of U. S. 1-B clear channels.—The agreement, proponents claimed, "merely adds insignificant interference to two or more" U. S. 1-B's. In one case, they said, the U. S. station will suffer "only in an area of about 200 square miles in a locality where hardly anyone lives." In the other the Cuban interference will be "much less than the interference already existing" from U. S. operations.

3. Cuban "high power" on U. S. regionals.—There is no increase in the number of regionals involved (10), and Cuba undertakes to protect the U. S. stations in accordance with U. S. standards. As to Cuban compliance with protection terms, treaty proponents claimed "the vast majority of the Cuban radio industry" are now convinced of the need for cooperation with the U. S. in the interests of the Cuban radio economy. Additionally, it was felt the new NARBA will provide better enforcement procedures.

4. Interference from low-power Cuban stations to U. S. regionals.—Seven instances of increases in the RSS value of interference to U. S. regionals were cited. The amount of
(Continued on page 42)

TENTATIVE U. S.-CUBA TREATY ANALYZED

HOW DOES the tentative new U.S.-Cuba ether treaty [BROADCASTING, March 6; also see story this page] compare with the 1946 NARBA agreement which expired last March 29?

To provide the answer, the following channel-by-channel analysis has been prepared with the assistance of Comdr. T.A.M. Craven, Washington consulting engineer, former FCC Commissioner and one-time FCC chief engineer, a leading figure in the original NARBA sessions, and a member of the U.S. industry advisory delegation at the U.S.-Cuba negotiations in Havana.

The comparison undertakes to show the principal special rights accorded Cuba under the tentative new agreement as against those provided in the 1946 NARBA or Interim Agreement, which expired March 29, 1949. It is broken down according to (1) Cuban use of U.S. 1-A clear channels; (2) use of U.S. 1-B channels by Class 2 stations in Cuba; (3) Cuban use of "high power" on regional channels; (4) instances of new interference to U.S. regionals.

In addition, Cuba would retain her NARBA right to use up to 250 w on any local channel and would abandon operations which she has conducted contrary to her NARBA allocations. The new agreement also would provide for additional protection of Cuban stations in future U.S. grants on 11 channels, and for U.S. to exceed

"normal" protection to Cuban stations on eight other frequencies.

In the following breakdowns, U. S. clear-channel stations listed in parentheses are the dominants on the respective frequencies:

CUBAN USE OF U.S. 1-A CHANNELS

640 kc (KFI Los Angeles)—1946 NARBA authorized 25 kw at Havana; new agreement changes this to 15 kw at Las Villas.

670 kc (WMAQ Chicago)—1946 NARBA authorized 1 kw at Oriente; new agreement directionalizes this operation.

830 kc (WCCO Minneapolis)—1946 NARBA authorized 1 kw at Havana; new agreement makes it 5 kw day and 1 kw night at Havana.

890 kc (WENR-WLS Chicago)—1946 NARBA authorized 1 kw at Camaguey; in new agreement Cuba relinquishes this right.

(Cuba had never exercised her 1946 NARBA rights on 890 kc. Channels which she has used contrary to the 1946 NARBA include 660 kc (WNBC New York) and 760 kc (WJR Detroit) and possibly 780 kc (WBBM Chicago); these would be among those she would relinquish.)

USE OF U.S. 1-B CHANNELS BY CLASS 2 STATIONS IN CUBA

(Comparison is with reported Cuban operations as of the time NARBA expired, some of which

the U. S. had protested on grounds they were contrary to NARBA. Asterisk (*) indicates "some interference.")

680 kc (KNBC San Francisco is U. S. 1-B)—Cuba has had 1 kw day and 500 w night at Santa Clara and 250 w fulltime at Artemisa, which U. S. had protested. Havana Agreement would change this to 1 kw day and 250 w night at Camaguey.

810 kc (KGO San Francisco and WGY Schenectady)—Cuba has had 1 kw day and 250 w night at Las Villas. This would become 1 kw fulltime at Las Villas, using directional antenna.

850 kc (KOA Denver)—Cuba has had 2 kw fulltime at Oriente. Havana Agreement would add 250 w fulltime at Las Villas.

*1000 kc (WCFL Chicago and KOMO Seattle)—Cuba has had 1 kw fulltime in Oriente plus 1 kw at Camaguey, which the U. S. had protested. Havana Agreement would give her 1 kw fulltime at Camaguey and 1 kw day and 250 w night at Oriente.

1030 kc (WBZ Boston)—Cuba has had 250 w daytime at Pinar del Rio. This would be unchanged.

*1060 kc (KYW Philadelphia)—Cuba has had 10 kw directional at Havana, which U. S. had protested, and 250 w at Camaguey, both causing some interference. These are changed to 1 kw day and 250 w night at Las Villas and 250 w full-

(Continued on page 42)

IRE CONVENTION

Over 150 Technical Papers Read

OVER 16,000 visiting engineers from 23 states, Canada and England gathered in New York last week to hear technical papers and inspect over \$7 million worth of equipment on exhibit for the 39th annual convention of the Institute of Radio Engineers.

Session's were held at the Hotel Commodore and Grand Central Palace Monday through Thursday, with 150-technical papers read during some 30 sessions. In addition, a total of 253 exhibits were on display. Seven symposiums, including one television, commanded the attention of IRE members and other visitors.

IRE 1950 Medal of Honor was awarded to Professor Frederick E. Terman, dean of the School of Engineering, Stanford U. Otto H. Schade, research engineer, RCA Victor Div., received the Morris Liebmann Memorial Prize.

Fellowship recipients included A. V. Bedford, research engineer, RCA Labs., and Jack R. Popple, MBS-WOR New York.

Guy Honored

Raymond F. Guy, NBC engineer and new IRE president, was honored at a luncheon Tuesday. Speakers included Maj. Gen. F. L. Ankenbrandt, communications director, Air Force Dept., and Sir Robert Watson-Watt of England, new IRE vice president. Stuart L. Bailey, outgoing IRE president, was toastmaster.

The institute's annual awards for merit in radio-electronics and 30 fellowship awards were given at the annual banquet Wednesday evening. Speaker was Harold B. Richmond, chairman of the board, General Radio Co. Toastmaster was Donald G. Fink, editor of *Electronics* magazine.

* * *

DETAILS of uniform cross-section guyed tower constructed by Truscon Steel Co., Youngstown, Ohio, are pointed out at IRE session by G. F. Bateson (l), of Truscon, to B. A. Proctor, Proctor Soundex, Mt. Vernon, N. Y.

New developments revealed at the exhibit were:

A new circuit design which makes possible a new simplified three-tube receiver giving five-tube performance, and a radio set selling for as little as \$5—by W. K. Volkers, consulting engineer.

An amplifier tube which may improve TV reception, especially on the fringe of a TV station's area, and enable better receivers with fewer tubes—RCA Labs.

RCA high-vacuum tube (Type 5831) capable of 500 kw of continuous output, with power four times that of any previous RCA tube.

Improved radio circuit techniques applicable to standard broadcast receivers, television and other radio receiving systems—Sylvania Electric Products Inc.

Test Equipment—oscillators, frequency meters, and noise generators—for the UHF television band—Polytechnic Research & Development Co.

A flying spot scanner picture generator, for television studio operations, which can carry the program load at certain daily periods, thus freeing an iconoscopic chain for previewing film or for rehearsals. Unit also can be used as a basic picture generator for color TV experiments, and as a compact television camera for industrial television—by Philco Corp.

New transmitting equipment designed for use in UHF channels proposed by FCC for commercial telecasting was described last Wednesday by two RCA engineers. They read papers on the RCA Type TTU-1, a UHF transmitter, and RCA Type TFU-20, a high-gain slot-type antenna and radiating system for TV transmission.

This equipment currently is being operated by NBC under an experimental authorization in the

* * *

ANOTHER piece of equipment shown at IRE meet is examined by D. H. Shallcross Jr. (l), Shallcross Mfg. Co., Collingdale, Pa., and Thomas Aldrich, Presto Recording Corp., Paramus, N. J.

UHF installation at Bridgeport, Conn., in the 529 mc-535 mc band. The transmitter and antenna were described as helpful in the utilization of UHF frequencies for TV, thus relieving the limited channel situation in the present VHF band.

At a Monday session Ralph Bown, Bell Telephone Labs, urged radio and communications engineers to "lead the way" in finding out what the future holds for television. He expressed hope that engineers would be impressed with the thought that television has a "wider destiny and a deeper obligation than merely to serve as mass amusement." He characterized video as a "servant" to each individual.

DuMont Color System

DuMont Labs last Monday unveiled its new color television system for industrial use [TELECASTING, March 6]. System may be installed in medical schools, clinics or hospitals, and now is available commercially. It is designed for 18 mc, 525 lines at 180 fields per second, and is described as affording picture resolution better than that obtained with black-and-white equipment with full color added.

TV broadcasting's problem of narrow bandwidth and compatibility which has restricted picture resolution and color fidelity in other color systems was ignored in the design of the closed circuit system, Dr. Allen B. DuMont, president of DuMont Labs, noted.

* * *

IRE session break finds Jay Quinn (r), of Fairchild Recording Co., explaining operation of a thermo-stylus recording kit to Frank H. McIntosh (center), of Frank H. McIntosh Co., and Blair Foulds, General Precision Corp.

* * *

DuMONT's industrial color television system gets attention from this group at IRE meet (l to r): Seated, R. E. Kessler and Harry R. Smith; standing, Herbert E. Taylor, T. T. Goldsmith and G. R. Tingley, all of DuMont.

Cost of the color system for one camera chain from pickup eye to monitoring scope was set at \$19,985. The system was described as "wired" video rather than "air" television by DuMont engineers.

Among the exhibits at the convention were a 16mm Telecasting projector, a large screen projector (36 inches by 27 inches), film processor and experimental TV camera chain developed in the laboratories of General Precision Equipment Corp. and manufactured by its member companies.

GPE has been eyeing the growing interest in theatre television as well as projection TV for restaurants, bars, and hotels, for which it is prepared to furnish projection equipment. GPE comprises 12 companies, among them the Theatre Equipment Contracts Corp. which handles installment contracts.

Additionally, GPE has a working agreement with Pye Ltd., the British TV firm, for pushing the latter's complete portable TV camera and experimental camera chain.

Also shown was the new trylor TV antenna mast made by Winc Turbine Co. and designed for outdoor television support especially in fringe or non-urban areas. The 40-foot antenna mast also is adaptable to other communications uses.

A new type of transmission line called the "G-String" and having commercial and military applications, also was described during the convention. The line may serve as

(Continued on page 30)

National Safety Council Honors WHO for Fourth Consecutive Year!

WHO'S selection for the National Safety Council's Public Interest Award marks the *fourth consecutive year* in which this 50,000 watt Clear Channel Station has been cited "for distinguished service" . . . "for exceptional service" to safety on the farm.

Proud as we are of this Award, we are more proud of the *people* on our staff who helped us win it—the script writers, music arrangers and producers—the announcers, the guest speakers, the civic organizations who cooperated to make broadcasting *realities* from farm-safety *ideas*.

The Award is further proof of WHO's public-spirited programming, its awareness of community responsibility, its desire

to furnish "Iowa Plus" listeners with the finest radio service in America. For advertisers there's an added significance—*WHO's consistent leadership means greater advertising values for any product, in any season, at any time of the day or night.*

Here's the Sensational
LOW-PRICED WESTERN
That Should Be On Your Station!

INITIAL showing of the new super-power beam triode tube (see page 69), developed by RCA Victor's Tube Dept., was given at IRE show in New York last week. Explaining the tube are (l to r): W. L. Rothenberger, assistant general sales manager; Louis Martin, manager of the equipment field force, and H. C. Vance, manager of industrial tube sales.

IRE Convention

(Continued from page 28)

a means for distributing TV programs on a wired basis, according to Dr. G. Goubau, Signal Corps Engineering Labs.

Principle involves an ordinary wire conductor with a specially treated surface. Where a single unit of the coaxial cable can carry only one TV program at a time, the "G-String" would enable transmission of a number of services, including television with facilities criss-crossing the country.

Additionally, the new transmission system could lead the way to a system of television distribution to homes with telephones enabling callers to see as well as hear themselves.

Standby station generating equipment provided power for hundreds of pieces of technical apparatus during the exhibit, because of the electric power shortage.

RIVERS GRANT

Savannah Outlets Oppose

IN WHAT is believed to be the first such action of its type, the existing stations of Savannah, Ga., last Wednesday filed a formal complaint with FCC against a new station-grantee there, E. D. Rivers Jr. FCC on Monday granted Mr. Rivers 1 kw daytime on 900 kc in Savannah.

The charge, filed by the Savannah Radio Council, is that Mr. Rivers has not operated WEAS Decatur, Ga., in the way he told FCC he would, which raises "serious question as to Mr. Rivers' qualifications to conduct and operate the proposed station at Savannah." The council asks that the non-hearing grant be set aside and the application set for hearing.

The Savannah Radio Council is composed of WCCP WDAR-AM-FM WFRP WSAV-AM-FM and WTOC-AM-FM, all Savannah.

FTC VACANCY

Truman Names Hutchinson

MARTIN A. HUTCHINSON, 57-year-old Richmond attorney, was named last week by President Truman to succeed the late Ewin L. Davis on the Federal Trade Commission. Mr. Hutchinson would fill out a term that expires in September 1953. Senate confirmation would make him fifth commissioner and fill out FTC's remaining vacancy.

Mr. Hutchinson's clients in Richmond have included WMBG and WTVR (TV).

Mr. Hutchinson, a Democrat who has described himself as "liberal" and "independent," ran unsuccessfully against Sen. Harry F. Byrd (D-Va.) for the Democratic nomination for the U. S. Senate in 1946. Sen. Byrd has not indicated whether he will take exception to Mr. Hutchinson's nomination. Chairman Edwin C. Johnson (D-Col.), of the Senate Interstate & Foreign Commerce Committee that will consider the nomination, said hearings have not yet been scheduled.

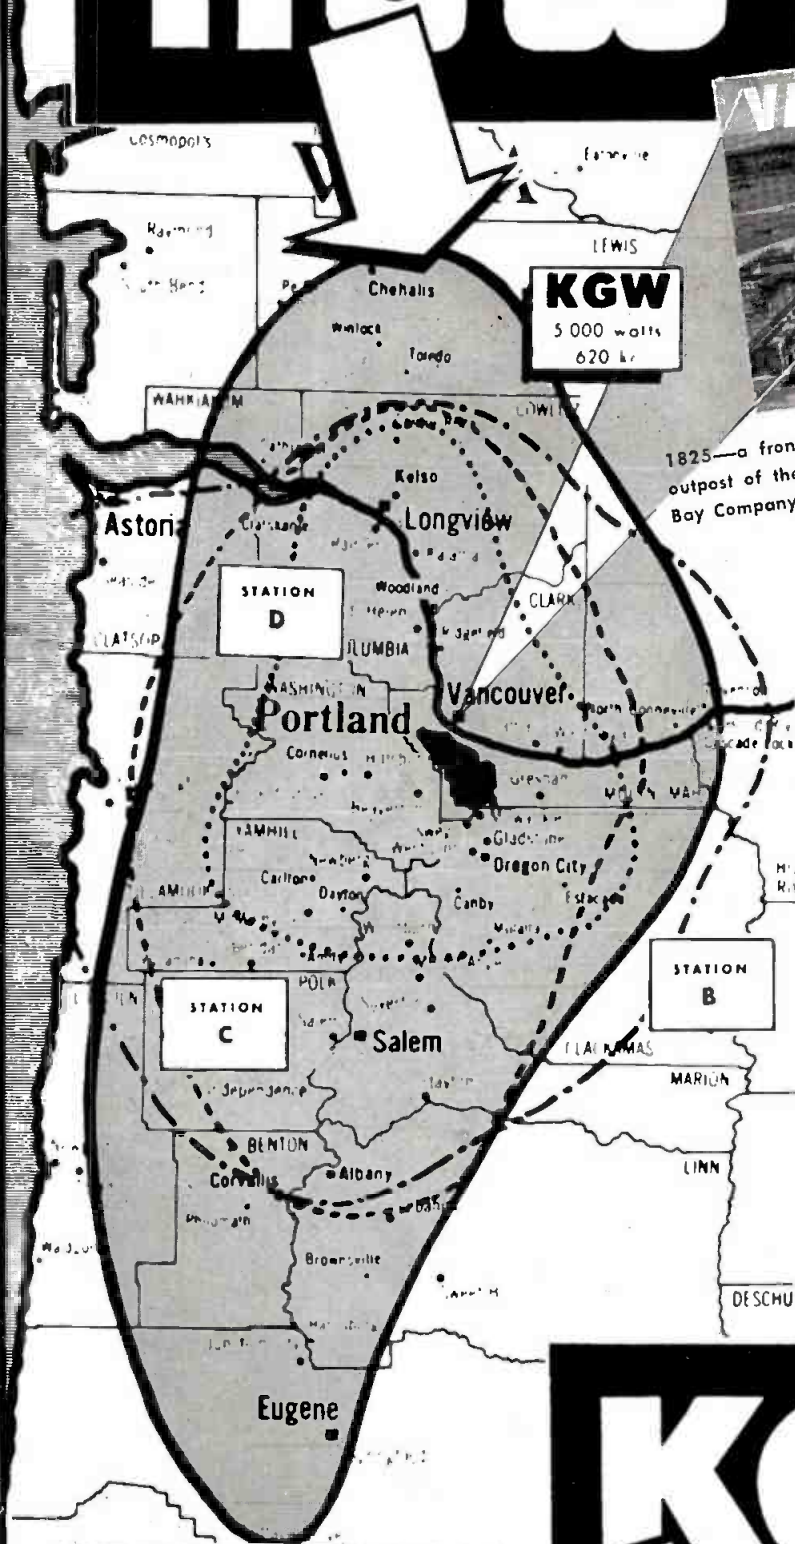

In recent years, Mr. Hutchinson directed political activities in opposition to the Democratic organization headed by Sen. Byrd in Virginia. Posts held in the state by Mr. Hutchinson included secretary to the Democratic Central Committee and secretary of the Commonwealth.

Upcoming

- March 24: San Francisco Chapter, Academy of Television Arts and Sciences, first annual award banquet, San Francisco.
- March 28-31: National Premium Buyers' Exposition, Stevens Hotel, Chicago
- April 4: Radio Pioneers Club annual dinner, Ritz Carlton Hotel, New York.
- April 12-19: NAB convention, Stevens Hotel, Chicago:
- Engineering Conference, April 12-15;
- Unaffiliated Stations Conference, April 16;
- FM Stations Conference, April 17;
- Management Conference, April 17-19.

KGW

Delivers...
**COMPREHENSIVE
 COVERAGE of**

1950—a choice industrial area, site of the Alcoa aluminum plant.

1825—a frontier fort, outpost of the Hudson Bay Company.

This year Vancouver observes the 125th anniversary of its founding. The first settlement in Washington, the "cradle of Northwest industry", is in 1950 heart of southwestern Washington's industry, agriculture, hydro-electric distribution. Separated from Portland's metropolitan area only by the width of the power-laden Columbia River, Vancouver shares with its sister city a new-found prosperity — through an influx of multi-million dollar industry and a new generation of modern pioneers that has given the KGW coverage area the nation's greatest population increase during the last decade.

Through Comprehensive Coverage KGW DELIVERS VANCOUVER... as it delivers the rest of the fastest-growing market in the nation.

This chart, compiled from official, half-mile contour maps filed with the FCC in Washington, D. C., or from field intensity surveys, tells the story of KGW's Comprehensive Coverage of the fastest-growing market in the nation.

*WMMN Reaps Commercial Harvest
Every Sunday Afternoon, via Lang-Worth*

Says Allen (Dutch) Haid:

“Sunday afternoon, in many communities, is not too productive of commercial radio time. To combat this situation in Fairmont, West Virginia, WMMN came up with its ‘Sunday Showcase.’

“The enclosed log (Sunday, March 5, 1950) speaks for itself. Note that 17 of the 19 quarter-hour commercials are programmed from the Lang-Worth Library. We are now entering the second 26-week flight of the ‘Showcase’ with every quarter hour re-sold! This proves conclusively that both our idea and your talent are commercially solid.

“We take off our hats to Lang-Worth! The flexibility of the library, together with its personalized openings and closings, makes possible this very satisfying revenue, every Sunday afternoon.

“WMMN, with 5000 watts power, has been doing a big job in North-Central West Virginia for the past 22 years. With CBS, Lang-Worth, and a red hot staff with plenty of ‘savvy,’ WMMN keeps in the number one spot by a large margin.”

(Signed) Allen L. Haid,

Operating VP, WMMN, Fairmont, W. Va.

Editorial

... and There Was Light

A WEEK AGO there were portents of another conflagration in the inter-American ether waves. Today the torch is being carried by both the United States and Cuba for peace, justice and radio tranquility. These nations now have tacitly agreed to allocations which the experts say will result in a minimum upsetting of the service in both nations.

Most significant is the fact that the agreement, in one fashion or another, entails ratification by the Senate and does not become operative until it receives full diplomatic treatment. Thus, it can be used as a model in devising the new NARBA treaty which would embrace Mexico, Canada, and other signatory Latin nations. It will be integrated in NARBA if an accord is reached. If not, then through a bilateral arrangement, subject to Senate ratification, Cuba and the United States will make its terms effective.

In the interim, steps will be taken to eliminate existing make-shift allocations, outside the original treaty terms, whereby Cuban stations are operating on U. S. assignments without essential protective safeguards. Under the agreement, Cuba gets special rights on 10 regional and three 1-A clear channels and certain other concessions, with provisions for directional installations adequate to protect mutually the assignments in both countries.

This situation was resolved last week when FCC Comr. Rosel H. Hyde, chairman of the U. S. Delegation, returned from Havana for hurried sessions with the State Department, the FCC and Chairman Ed Johnson of the Senate Interstate Commerce Committee. It is an open secret that the Senator was primed to blast with more of his rhetorical T. N. T. because many of his colleagues had complained about the "secret" negotiations which would "sell out" constituent independent stations. When it was ascertained that there would be a full dress treaty and that the allocations would not become operative until Senate ratification, hostilities properly were called off.

Broadcasters who protested had learned of the scope of the proposed agreement by radio's vaunted underground. They fought back, particularly against the secrecy element. Once they learned that there would be no agreement until ratified by the Senate, their main objections were withdrawn.

The new Cuban communications ministry is responsible, and it is generally felt it will live up to its commitments. Provisions for directional arrays would give strongest possible protection, our delegation reports. Because this has not been so in the past, those broadcasters who had not been apprised of the agreement, understandably sought more information. Chairman Johnson's interest, engendered by inquiries from his colleagues, has cleared the atmosphere.

The solution to one of radio's knottiest problems appears to have been achieved despite the momentary confusion which obviously stemmed from lack of information. The U. S. always has championed open covenants openly arrived at. The wisdom of this precept is reflected in this current incident. As soon as there was freedom of access to the information, the fire of unrest and confusion was snuffed out.

Merited Merits

THERE ARE few in radio—or outside of it—who will challenge the wisdom of the duPont Awards for 1949. Morgan Beatty, recipient of the commentator's citation, has long been distinguished in his field. He is more than a commentator; he's a foot-reporter with an insatiable thirst for the news behind the news.

WWJ Detroit and WNOX Knoxville are distinguished stations under distinguished ownership and management. Each has had more than a quarter-century of operation—WWJ since 1920 and WNOX since 1921.

The surprise came in special citations for television, marking duPont's recognition of that kaleidoscopic medium. It was done without drum-beating or press-agentry, in the traditional duPont manner. The winners are ABC-TV for its challenging telecasts of Eisenhower's *Crusade in Europe*, and WPIX (TV) New York for its current news and events.

It is significant that neither of these TV ventures brought monetary profits to their telecasting entrepreneurs. The rewards come in recognition of jobs well done, and of building prestige that pays its dividends in public acceptance and eventual economic return, in the time-tested American way.

Budgeteering

IF APPROPRIATIONS determine the amount of work which will be done, President Truman's FCC budget proposal, now under House Committee scrutiny, leads us to expect a 2.7% increase in FCC accomplishments during the next fiscal year. This seems little enough to expect. The obvious conclusion would be that FCC should have more money.

But if increments are based not only on work to be done but also on past attainments, then there is an equally obvious suspicion that 2.7% is amply if not too much. Thus Mr. Truman's FCC budget leaves us with what FCC would call mutually exclusive conclusions.

There can be little dispute that the past year has not seen many FCC missions completed. That applies whether "past year" is fiscal or calendar.

In the past calendar year, FCC made some changes in its procedures; revised its Mayflower Decision (14 months after hearings were completed); repealed the Avco Rule; adopted special rules relating to time-reservation contracts (11 months after they were first proposed); and adopted anti-giveaway rules (now in suspension). To get the fiscal-year total, take the calendar-year list and subtract the giveaway rules.

To be sure, FCC did a lot of other things during the year, including a great deal of work on television. These are the major policy accomplishments. Many other policy questions were left unanswered—for the second year in a row, in the case of the vitally important clear-channel case. There are also the NARSR-networks fight (awaiting decision for a year); proposed new multiple-ownership rules (heard in January 1949); qualifications of anti-trust law violators; minimum hours for FM; and theatre TV. Meanwhile, new controversial "policy" proceedings have been instituted, multiplying the demands on time, talents and tempers.

Some of FCC's pending business was FCC-proposed, and some of it has been hanging fire so long that we begin to suspect the Commission regulates not only by the lifted eyebrow, but also by the proposed rule. It would be in the interests of good administration and orderly process, we submit, if the Commission would concentrate on the business already at hand. Thus will the public interest—and the budget dollar—be served most sensibly.

Our Respects To —

JOSEPH ALBERT McDONALD

IF ABC ever has to call in haste for the services of an office boy, bowling alley pin boy, engine room wiper, coal passer, ship carpenter's helper, deckhand, dishwasher, elevator operator, an axeman or rodman or transitman in a surveying crew, a draftsman, naval architect or salesman of heavy machinery, it has but to summon Joseph Albert McDonald.

Mr. McDonald is now fully occupied as vice president, general attorney and secretary of ABC, but in an emergency he could fall back on the wild assortment of jobs embraced in his disparate experience.

The network would be well advised, however, to refrain from adding duties to those already performed by Mr. McDonald; he has enough to do.

In addition to coping with the routine intricacies of keeping the network legal—not an easy job with federal regulations as tricky as they are today—and of officership in the company, Mr. McDonald finds time to be an expert in labor relations and copyright law.

At the moment ABC has 48 different labor contracts with 11 different union groups. Mr. McDonald has negotiated all of them. When not embroiled in a labor negotiation, he is apt to be delving into the obscurities of copyrights. His is a toilsome job.

The wonder is that Mr. McDonald today is a broadcasting attorney and not a shipbuilder. His early schooling fitted him to be a naval architect. Between then and now he was blown off his course.

Born in New York City June 8, 1903, Mr. McDonald attended grade and high school in the Bronx. He received a scholarship at Webb Institute of Naval Architecture, graduating with honors.

Part of the Webb training obliged students to go to sea during summer vacations from classes. It was during those periods that Mr. McDonald ran through some of the less desirable stations he has held.

In the third summer at Webb, he took a lubber's job with a marine insurance firm. In the course of his work he occasionally was assigned to accompany admiralty lawyers on inspections of ships the company insured.

The comparison between the lot of a deckhand, a function to which he had been indentured the summer before, and that of a lawyer skilled in admiralty law, roused in Mr. McDonald a desire to attend law school. After graduating from Webb in 1924, he decided to enter Fordham for legal training.

Mr. McDonald, whose admiration for hard

Business is always better in Washington, D.C.

Washington was the only major market in the U. S. to show an increase in retail sales in 1949.

This rich market established an all-time retail sales high. And WTOP delivers the largest audience in this rich market—36.4% greater than any other station.

WASHINGTON'S ONLY 50,000 WATT STATION • REPRESENTED BY RADIO SALES

ENGINEER MEET

Tentative NAB Agenda Set

PROGRESS of aural and visual broadcast engineering, along with economic aspects of the industry's technology, will be covered by top-flight figures during the fourth annual NAB Engineering Conference April 12-15. The conference will be held at the Stevens Hotel, Chicago, as the opening feature of NAB's annual convention week.

List of papers to be read at the meeting was about complete at the weekend. They run about 60% television, conforming to results of a station survey conducted by Neal McNaughten, director of the NAB Engineering Dept.

Last of the formal events on the agenda will be the annual FCC-Industry Roundtable. This forum, which gets wide open and frank as government and private industry leaders attack common problems, will be moderated by Stuart L. Bailey, of Jansky & Bailey, Washington consulting firm.

Effort will be made this year to confine the discussion to "answerable questions" instead of letting it bog down on issues for which no definite answer can be given by government participants.

Appearing on the panel for FCC will be John A. Willoughby, acting chief engineer; James E. Barr, chief, Standard Broadcast Div.; Cyril M. Braum, chief, FM Broadcast Div.; Curtis B. Plummer, chief, TV Broadcast Div.; Edward W. Allen, chief, Technical Research Div.; Edward W. Chapin, chief, Laboratory Div.

Industry Panel Unnamed

Mr. McNaughten was not yet ready to announce members of the industry side of the panel.

Though TV will appear on a considerable portion of the program, little emphasis is placed on color aside from results of interference tests.

New wrinkle planned for the conference is serving of coffee and doughnuts during intermissions, a move designed to keep delegates from scattering to the equipment exhibits or other attractions.

Two more exhibitors asked NAB for space last week. They are Fairchild Recording Equipment Corp., New York, and Wincharger Corp., Sioux City, Iowa. Both will exhibit on the "Magical Fifth" floor. Last year the two firms were exhibitors.

The Exposition Hall exhibits are to open officially at 9 a.m. Wednesday, April 12. The day's events include registration in the Exposition Hall; 10 a.m. meeting of the NAB Engineering Committee, headed by A. James Ebel, WMBD Peoria, Ill.; 6:30-8:30 p.m. reception for delegates.

Jack R. Poppele, WOR New York, member of the committee, will preside at the first formal session Thursday morning. Meetings will be held in the North Ballroom, on the third floor of the Stevens. Morn-

ing topics will include TV transmitters, NBC's UHF installation, camera lenses and TV projectors.

Mr. McNaughten will preside at the lunch, with NAB President Justin Miller delivering the welcoming address. Luncheon speaker will be Raymond F. Guy, NBC manager of radio and allocation engineering, and president, Institute of Radio Engineers. He will give a history of broadcasting. The afternoon agenda covers sound duplexing, moderate-sized TV studio and transmitter installation, networking, antennas and studio lighting. Oscar C. Hirsch, KFVS Cape Girardeau, Mo., member of the Engineering Committee, will preside.

DeWitt to Preside

The Friday morning meeting will open with John H. DeWitt, WSM Nashville, another committee member, in the chair. Topics will be synchronizing generators, UHF propagation, selection of site, theatre control, miniature microphones, power amplifiers, TV economics.

Mr. Ebel will preside at the Friday luncheon. Speaker will be G. Emerson Markham, NAB tele-

vision director. Presiding Friday afternoon will be K. W. Pyle, KFBI Wichita, Kan., alternate member of the NAB committee. This meeting will cover transit radio, facsimile, 1 kw AM broadcast transmitters, progress in magnetic recording and FCC audio proof of performance tests.

Mr. McNaughten will preside Saturday morning. Prior to the FCC-Industry Roundtable the group will hear papers on a small FM transmitter and engineering employment problems.

The tentative agenda follows:

WEDNESDAY, April 12

9 a.m.-5 p.m. Registration, Exposition Hall.
9 a.m. Exhibits officially open.
10 a.m. NAB Engineering Committee.
6:30-8:30 p.m. Reception for delegates.

THURSDAY, April 13

9 a.m. Presiding, Jack R. Poppele, WOR New York, member NAB Engineering Committee.
9-9:30 a.m. "Five KW Air-cooled Television Transmitters for VHF," E. Bradburg, Federal Telecommunication Labs.
9:30-10 a.m. "Adjacent and Co-channel Television Interference," J. W. Wright, CBS.
10-10:30 a.m. "Objectives of the NBC Bridgeport Conn., UHF Installation," Raymond F. Guy, NBC.

NIELSEN

A. C. NIELSEN and Co. reports that reaction to its purchase of C. E. Hooper's National Rating Services is "extremely good".

Orders for NRI and requests from prospective clients for interviews with representatives of the Nielsen Company are "rolling in at an unprecedented rate", according to a company spokesman.

Charles A. Wolcott, vice president and sales manager at the company's New York office, reports that he is besieged with calls for appointments indicating that broadcasters, agencies and advertisers in the New York metropolitan area are interested in bringing themselves up-to-date on what the Nielsen service offers.

Active Promotion

Meanwhile, the Nielsen company has flooded the industry, including Hooper subscribers, with literature giving a quick grasp of what may be expected from NRI.

"All Nielsen network services are now available to you," says a special bulletin to Hooper subscribers. "National Nielsen-ratings will be furnished for prior months to facilitate the changeover and to provide national rating trends. Complete NRI analysis data for current and back months also can be provided."

A letter from Mr. Nielsen to the "broadcasting industry" cited the company's "mighty tough job" in creating a "mechanized audience research service of unmatched accuracy, reliability and usefulness—a service on which a great industry could safely rely in reaching its most vital decisions."

Mr. Nielsen paid tribute to adver-

tisers, agencies, networks and stations for encouraging him to "persevere," but he noted that his acquisition of the Hooper services was also the acquisition of "serious responsibilities as the sole source of network audience research."

"The broadcasting industry, too, has certain responsibilities: To recognize sound research techniques, to keep clear of unsound methods, to strive for increased skill in the application of research and to cooperate in efforts to create an equitable sharing of costs among all who enjoy the benefits of research," he wrote.

Charts Mailed

The Nielsen company mailed out charts supporting its contentions that national NRI facts provide the basis for "sound appraisal and action." One display states that national NRI is needed to fully appraise national radio usage trends—"the long-term growth . . . the current changes . . . the significant shifts in radio listening habits by city sizes, time zones, market areas . . . the complete picture for advertisers, agencies and networks." Another points up NRI's appraisal of program coverage—"the number of homes reached . . . the actual circulation . . . not only circula-

Hooper Purchase Spurs Interest

tion per broadcast but the number of different homes reached by a series of broadcasts . . . the variations in coverage obtained by different radio programs, in total and by city sizes, time zones, market areas."

A third stresses Nielsen's claim that its special studies highlight the fact that when television enters a home, it greatly increases the total time spent with broadcast medium.

New York Area

"In the New York TV area, for example, the average TV home does nearly three hours of viewing per evening—and TV represents around 91% of combined hours of listening and viewing," it states. "On the overall basis TV's share of combined listening and viewing is fairly constant throughout the evening hours."

This exhibit, however, also points to radio's potency as a "national" advertising medium.

"Nationally (among the some 40 million radio homes) radio accounts for about 93% of the total hours of listening and viewing for the entire day," it states. "During evening hours radio's share drops to 85%. Television's share is increasing steadily, having moved up from 9% of the combined radio-TV total during the evening hours in September to 15% at yearend."

— how many?

Transit radio

is your most

ACCURATELY MEASURABLE

advertising medium with GUARANTEED Low Cost!

FOR EXAMPLE, YOU GET

- ★ A counted audience, by half-hour periods. You know exactly how many people your advertising reaches. No "guesstimates," no surveys necessary.
- ★ A selected audience. Breakdowns of men and women riders, inbound and outbound. Audience composition breakdowns, by hours of the day—you can choose exactly the type of audience you want.
- ★ Low cost. With this precise audience information and transit radio's low rates, you can see at a glance your guaranteed cost-per-thousand.

McConnell at a reception for the McConnells given in Washington's Carlton Hotel by NBC Washington Vice President and Mrs. Frank M. Russell. In the background, Mrs. Russell chats with RCA Vice President Edward McGrady.

COMBINED meeting of the Cleveland Convention and Visitors Bureau and the Cleveland Advertising Club finds John F. Patt (r), WGAR vice president and general manager, receiving the groups' silver plaque for civic leadership and community service from Frank J. Ryan, bureau vice president.

TRADITION is broken as Philadelphia's Fourth Estate Square Club award for leadership in the news field for the first time goes to a radio newsman, John Facenda (center), WIP commentator-news analyst. Benedict Gimbel Jr. (l), WIP president, receives duplicate plaque for WIP from Mayor Bernard Samuel.

MEL BAILEY (l), program manager, and C. S. Young, general manager of KEX Portland, Ore., may not need reminders of their station's power and frequency but if they should, they can find both on their 1950 Oregon license plates, 50,000 and 1190. KEX is assigned 50,000 w on 1190 kc.

WBAL-AM-TV Baltimore's public service counselor, Dr. David Weglein (l), accepts National Conference of Christians and Jews award for contribution to racial understanding, at Baltimore dinner, from Sen. Leverett Saltonstall (R-Mass.) and John Dickman (r), of the conference.

GLENN CONDON (seated), KRMG Tulsa news editor, and Perry Ward, prog. dir., inspect the new typewriter Mr. Condon won on ABC's Gentlemen of the Press. He told how, as editor of the defunct New York Vaudeville News, he got ABC Commentator Walter Winchell to take his first daily paper job.

RADIO-TV COUNT

'50 Census Begins April 1

NATIONWIDE count of radio and television sets will get under way April 1 when 140,000 enumerators begin the biggest statistical job in the world's history—collection of the 1950 decennial census figures.

Individual stations and networks are participating in pre-census activities by carrying program material and announcements dealing with the census and designed to prepare the occupants of the nation's homes for the arrival of the enumerator.

The data collected will provide a complete statistical picture of the nation's people, dwellings and farms. More than 450 field offices of the Census Bureau are completing preparations for the decennial count, according to Frank R. Wilson, information assistant to Roy Victor Peel, new bureau director who was sworn in Thursday afternoon.

NAB sent a notice to stations Thursday advising them to avoid use of the word "census" in any private audience or set ownership studies. A suggested technique for FM set measurement, based on a formula suggested in 1948 by the FM Executive Committee, has been used in a number of cities. NAB asked stations to check up on any studies they are conducting to make certain there is no possible use of the term "census." This word, it was felt, could cause confusion in the minds of homeowners who naturally associate "census" with the government's decennial count.

Actual taking of the census is to be completed by the end of April. Population data are to be in the hands of the President by Dec. 1, and have priority in the long computation process. Radio and tele-

vision set figures for the nation as a whole may be available before the yearend via the Census Bureau's sample technique but county breakdowns may not become available until early next year.

Audience contacts through broadcast and TV stations on behalf of the census already are running far into multi-million figures. Top network programs have been built around the census, references have been placed in scripts of all types and the number of announcements has run into record figures.

Seay Joins Law Firm

TEMPLE W. SEAY has joined the Washington law firm of Dow, Lohnes & Albertson the firm has announced. A former attorney for the U. S. Board of Tax Appeals, now the Tax Court of the United States, Mr. Seay also served as vice chairman of the Processing Tax Board of Review. Meredith M. Daubin will continue his association with the law firm as tax counsel.

WHAT Philadelphia increases power to 250 w on 1340 kc, and ups programming to 18½ hours daily. WHAT-FM now has continuous operation of 18½ hours per day.

'Lightning' Impact

(Continued from page 23)

"Lightning" was excellent, 13.4% good, 33.3% fair, and 33.3% poor. More than half (57.1%) of the advertisers said they did not think it was a good sales pitch.

BROADCASTING'S questionnaire also invited respondents to make general remarks about the film. One comment made repeatedly was that the sound and the quality of the film itself were poor.

This attitude was confirmed by members of the All-Radio Presentation Committee and the production staff of the film. Whether because of inadequacies in the film projection system, or in the film itself, or quirks of acoustics in the ballroom of the hotel where it was shown, the "Lightning" presentation in New York was undeniably not up to professional cinema projection.

A similar report of poor sound quality came from Osceola, Ark., where the picture was shown in a local theater.

Other comments ranged widely. One agency respondent said, briefly and to the point: "Try again."

Another agency comment: "It's embarrassing."

A broadcaster said: "Write it off as a bad investment."

A station representative who thought the film good, said: "I believe the film will induce most skeptics to try a test broadcast schedule."

Another station representative, however, summed up his reaction more succinctly: "Ugh."

One advertiser said: "Wonderful job."

An agency respondent said: "Twenty-five years ago this might have meant something to the prospective advertiser. Today it's got nothing—says nothing."

A comment made by respondents in several categories was critical of the singling out of newspapers for a competitive sales talk. One agency respondent, who was otherwise favorable to the film, said: "The anti-newspaper pitch—bitter. One bad apple in a mighty appetizing barrel."

A station representative, commenting on the question as to whether the film was a useful sales tool, said: "Lacked conviction and sell. The impression it leaves is—too little, too late."

To get non-New York reactions to "Lightning," BROADCASTING queried broadcasters in other cities where the film was shown last week.

Ted Woods, manager of KOSE Osceola, Ark., said that the picture "received a cool reception in this Arkansas town of 5,000 population Wednesday, March 8."

"KOSE was host to about 75 businessmen and women at a luncheon preceding the showing in a local theatre," Mr. Woods said. "The sound was not of the best quality, and the story was slow in getting started, dragging in spots. . . . Too, many of those attending thought the newspaper angle

might have been handled with a little more tact."

F. E. Lackey, president and general manager of WHOP Hopkinsville, Ky., said that at the local showing, before 240 persons, "comments ran from 'best sales film I ever saw' to non-favorable toward the portion of the picture devoted to a comparison with newspapers."

"On the whole," said Mr. Lackey, "I would say the film was well received. We have secured two unsolicited contracts as a direct result of the showing. Personally I would have preferred omitting the portion attacking newspapers since ours is a small one-newspaper, one-station town. We attend the same clubs and church with the publisher and sell our time on the basis of positive results, not against the paper's failures."

'Nice Party'

Mr. Lackey said he was favorably disposed toward the film "if for no other reason (that) the picture gave us an excuse for a nice party that most everyone enjoyed."

Tony Moe, sales promotion manager of WCCO Minneapolis, said that the film was shown before the St. Paul Advertising Club on Tuesday and before the Minneapolis Advertising Club the next day and that in both cities it attracted "almost the entire club membership."

"Reactions to the film were mixed," said Mr. Moe, "and ranged from 'very good' and 'not strong enough' to the other extreme of 'unfair to newspapers'."

Julius Glass, promotion manager of WHBC Canton, Ohio, said that 63 industrialists, retailers, wholesalers and distributors were shown the film at a luncheon sponsored by the station in the Onesto Hotel, March 9. The picture made a "striking impression" in Canton, he said.

Provokes Thought

"Comments ranging from 'a thought provoking vehicle' to 'a realization of what radio does not only as an advertising medium but what it does for and means to the consumer' were among the opinions voiced," Mr. Glass said.

He reported "the general consensus was favorable."

"But more definite reactions are expected to be formulated when WHBC's sales staff make personal follow-up calls on those invited," Mr. Glass said.

Ralph Weil, general manager of WOV New York, said that at a showing of the film before a group of clients and prospects in the Italian food field the picture got a "tremendously favorable" reception.

"The film is right down our al-

ley," Mr. Weil said. "It's especially valuable to us in our dealings with advertisers on the local level, clients and prospects to whom we want to show how radio moves products off the merchant's shelves."

"We followed the showing with a five-minute talk on the use of Italian food products in the New York market, applying the general principles of the film to the specific situation in which both we and our guests are primarily interested."

The BROADCASTING survey, conducted at the Radio Executives Club showing last Thursday, elicited a response of 309 out of about 500 total attendance. No questionnaires were distributed to the press.

The three questions asked by the BROADCASTING survey were:

(1) What was your over-all reaction to "Lightning That Talks?" To this, respondents were given a choice among four answers: excellent, good, fair and poor.

(2) Do you think it makes a convincing sales pitch for radio? The choice of replies to this was: yes and no.

(3) How does it compare with presentation of other media you have seen? Four choices in answers were offered to this: tops, better than average, run-of-mill and below standard.

A breakdown of answers appears in the tables below.

Here's The Reaction Following N. Y. Showing . . .

BUYS UNIVERSAL

Hogan Now Sole Owner

ARTHUR B. HOGAN, secretary-treasurer, has become sole owner of Universal Recorder Inc., Hollywood, having purchased 140,000 shares in that company from Wesley I. Dumm, his former partner. Purchase price was not revealed. Negotiations were handled by Blackburn-Hamilton Co., media broker, with the deal closed last Monday (March 6).

Capitalized at \$500,000 with \$250,000 issued in capital stock, Universal Recorders was established during World War II for Army work. Since that time it has greatly expanded. It is now one of the largest magnetic recording studios in the West.

With full control of the firm, Mr. Hogan plans active expansion into television, engaging in 16 and 35mm film as well as TV sound work, it was said. Mr. Hogan became financially interested in the firm in 1946, shortly after he went to California from Atlanta, Ga. In addition to owning Universal Re-

Mr. Hogan (seated) completes the contract in the Universal Recorders sale with approval of Mr. Dumm.

corders, he is also senior partner in Hogan, Price & Co., Beverly Hills, Calif., investment firm.

Mr. Dumm, pioneer in West Coast radio and television, will devote full time to his four San Francisco stations—KPIX (TV)

KSFO and shortwave outlets KWID KWIX. He also holds the Muzak wired music franchise in that area. New officers of Universal Recorders will be elected shortly,

RICHARDS CASE

Postponement Again Denied

LAST-MINUTE petition of attorneys representing the G. A. Richards stations for postponement of the FCC hearing scheduled to open in Los Angeles today (Monday) was denied Thursday by FCC Examiner J. Fred Johnson, who will preside at the hearing. The proceedings will review news policies of Mr. Richards' stations—KMPC Los Angeles, WJR Detroit and WGAR Cleveland.

Examiner Johnson had previously denied an informal request for postponement [BROADCASTING, March 6].

PULSE REPORT

Jack Benny Tops Ratings

JACK BENNY led the list of most popular nighttime programs in the Pulse Inc. radio report for the Jan. 3-9—Feb. 1-7 period in eight metropolitan areas released last week.

The report was for New York, Philadelphia, Boston, Chicago, Cincinnati, Washington, Los Angeles and San Francisco.

Ratings were:

Evening	Program Av. Rating	
	Jan. Feb.	Nov. Dec.
Jack Benny (CBS)	21.9	21.0
Lux Radio Theatre (CBS)	17.3	18.5
Walter Winchell (ABC)	14.9	15.7
Amos 'n' Andy (CBS)	14.6	15.0
Fibber McGee & Molly (NBC)	14.6	12.1
Daytime 5-a-week		
	Jan. Feb.	Nov. Dec.
Arthur Godfrey (CBS)	9.9	10.0
Rosemary (CBS)	8.0	8.3
Grand Slam (CBS)	7.9	8.4
Our Gal Sunday (CBS)	7.9	7.5
Ma Perkins (CBS)	7.8	7.6

SATURDAY, April 15

- 9 a.m. Presiding, Mr. McNaughten.
- 9-9:30 a.m. "Five KW AM Transmitter," representative of Gates Radio Co.
- 9:30-10 a.m. "Recording Developments," Howard Chinn, CBS.
- 10-10:30 a.m. "Ten Watt FM," Thane E. McConnell, Collins Radio Co.
- 10:30-11 a.m. "Engineers and Management," Richard P. Doherty, NAB employe-employer relations director.
- 11-12:30 noon. FCC-Industry Roundtable. Presiding, Stuart L. Bailey, Jansky & Bailey.
- No afternoon technical session.
- 3 p.m. NAB Recording & Reproducing Standards Committee.

WIBW is heard  most...
 ..where  **herds mean most**

Out here in Kansas, herds of dairy and beef cattle mean big profits. The farmers who raise these herds prefer WIBW to any other station.

Dr. F. L. Whan's statewide interviews analyzing the Kansas Radio Audience for 1949, show WIBW the outstanding favorite in farm homes. WIBW led its nearest competitor by a 3 to 1 margin.

It's so easy to make your product first choice among these prosperous Kansas families. Just use the station that's their first choice—WIBW.

Treaty Analyzed

(Continued from page 27)

time at Oriente. Some interference still involved.

1070 kc (KNX Los Angeles)—Not assigned under NARBA. Havana Agreement would provide for 5 kw directional at Pinar del Rio and 250 w fulltime at Camaguey.

*1080 kc (KRLD Dallas and WTIC Hartford)—Not assigned under NARBA. Havana Agreement would grant 250 w day and 100 w night at Havana, resulting in slight interference to KRLD.

*1090 kc (KTHS Hot Springs and WBAL Baltimore)—Cuba has had 250 w day at Oriente and 250 w day and 100 w night at Havana. She would have 250 w fulltime at Oriente and 250 w day and 100 w night at Los Villas, both causing some interference.

1110 kc (WBT Charlotte and KFAB Omaha)—Cuba has had 5 kw at Havana (directional at night). This would become 250 w daytimer.

*1130 kc (KWKH Shreveport and WNEW New York)—Cuba has had 250 w fulltime at Oriente, causing some interference. No change in assignment.

*1170 kc (KVOO Tulsa and WWVA Wheeling)—Cuba has had 250 w at Pinar del Rio (directional at night), with no interference indicated. New agreement would add 1 kw day and 250 w night at Oriente, causing slight interference to WWVA.

*1190 kc (WOWO Ft. Wayne

and KEX Portland)—Cuba has had 5 kw at Havana, causing some interference. This would become 5 kw directional or 250 w non-directional, still resulting in some interference. Additionally, 250 w fulltime would be added at Camaguey.

1520 kc (WKBW Buffalo and KOMA Oklahoma City)—No NARBA assignment. Would be used at Havana with 250 w daytime only, or fulltime with directional.

1550 kc (no 1-B assignment in U. S.)—No NARBA assignment. Would be used at Camaguey with 500 w.

1560 kc (Cuban 1-B channel under NARBA)—Cuba has had 5 kw at Havana and 250 w at Caibarien. Havana Agreement would provide for 10 to 50 kw directional at Havana, and 250 w at Oriente.

TOTALS—As of last March 29 Cuba had 17 stations on 12 channels, with interference to U. S. stations on five channels. Under Havana Agreement, total is 23 stations on 16 channels, with interference to U. S. stations on seven.

CUBAN HIGH POWER ON REGIONAL CHANNELS

(These are the regional channels on which Cuba would have rights to use power in excess of the normally permitted 5 kw.)

550 kc—Cuba had no high-power rights under expired NARBA. Havana Agreement provides for station at Havana using 10 kw direc-

tional or 2.5 kw non-directional.

570 kc—NARBA authorized 15 kw directional at Las Villas, whereas Cuba reportedly used 10 kw. Havana Agreement would put limit at 10 kw directional, also at Las Villas.

590 kc—25 kw directional at Havana under NARBA. Unchanged by new agreement.

600 kc—10 kw directional authorized by NARBA, 1 kw used. Under new agreement Cuba would give up high-power rights on this channel.

630 kc—25 kw directional authorized by NARBA, 15 kw used. New agreement retains 25 kw directional authorization, station to be at Havana instead of Las Villas.

790 kc—10 kw directional authorized by NARBA, 5 kw used. New agreement authorizes 10 kw directional, station to be at Havana.

910 kc—Same as 790 kc above.

920 kc—10 kw directional authorized by NARBA, 5 kw used. New agreement provides 10 kw directional or 5 kw non-directional at Camaguey, and 1 kw at Pinar del Rio.

950 kc—10 kw directional authorized by NARBA, 5 kw used (later notification indicated use of 5 kw day and 1 kw night). New agreement provides for 10 kw directional or 2 kw non-directional, station to be at Havana.

960 kc—10 kw directional authorized by NARBA, 1 kw used. High-power rights on this channel to be relinquished.

980 kc—No high-power rights under NARBA (permitted power of 5 kw was used). New agreement provides for 10 kw directional at Havana.

1150 kc—Same as 980 kc above.

1270 kc—10 kw directional authorized by NARBA, but not used. High-power rights to be relinquished.

TOTALS — 10 channels under NARBA; 10 under new agreement. (Directional antennas would be designed to avoid interference to U. S. stations having priority.)

NEW INTERFERENCE TO U. S. REGIONALS

(Work reportedly was still in progress on this phase of negotiations late last week. Information shown below, therefore, is tentative.)

WDBO Orlando (580 kc)—Present RSS 2.37; new limit 2.80; increase 0.43.

WSUN St. Petersburg (620 kc)—Present 2.13; new 2.70; increase 0.57.

WJAX Jacksonville (930 kc)—Present 2.61; new 2.85; increase 0.24.

WDSU New Orleans (1280 kc)—Present 2.54; new 3.10; increase 0.56.

WCOA Pensacola (1370 kc)—Information not definitely ascertained.

WCSC Charleston, S. C. (1390 kc)—Present 2.73; new 3.26; increase 0.53.

WALA Mobile (1410 kc)—Present 3.04; new 3.22; increase 0.18.

NARBA Turmoil Lessens

(Continued from page 27)

increase ranges from 0.18 to 0.57 millivolts, which treaty advocates felt "is insignificant and probably could not be measured." To fight over this portion of the treaty, they maintained, would risk "undue chaotic interference to a relatively large number of stations in the entire southern, southeastern and eastern part of the U. S."

5. Interference with U. S. local channels.—Supporters of the agreement said there is only one instance of Cuban use of local channels with more than 250 w. The lone case involves 1 kw on 1340 kc. They felt "there would be no harm whatsoever to any local channel stations in the U. S."

6. Modification of U. S. operations to accommodate Cuban stations.—Such cases, it was reported, are relatively few in number. Advocates claimed one U. S. station stands to gain and that two Puerto Rican stations affected are, in any event, required to move transmitter locations because of the construction of U. S. air stations.

7. Protection to Cuban stations.—The agreement provides that certain Cuban operations be protected from interference created by future U. S. grants. Advocates felt that "in most instances this works no hardship on existing U. S. licensees and has but a minor effect on future assignments," although "in a few instances existing licensees would be handicapped in proceeding with presently planned improvements." Protection requirements imposed on Cuba would balance out, "to some extent at least," the increases in interference which the seven regionals would receive from Cuba.

Open Mike

(Continued from page 18)

every one of us, just outside our AM primary service areas, and let's do it now—summer is coming when fading and atmospherics are a source of grief to us all. In short, let's plug our FM outlets and get back a return on our investments.

Joseph W. Doherty

Engineer

WTRI-FM Troy, N. Y.

LEOPARD HUNT

WKY Reports Coverage

WHEN the Oklahoma City zoo's leopard escaped from his pit a fortnight ago [BROADCASTING, March 6], WKY-AM-FM-TV reports it gave the story the most intensive spot and public service coverage.

WKY said thousands of calls flooded its switchboard at the time.

In addition, the station's news bureau fed telephone interviews twice to NBC, three times to KRNT Des Moines, and once each to KPO San Francisco, KDKA Pittsburgh, WIOD Miami, KITE San Antonio, and KRMG Tulsa.

NAB NARBA Tabulation

THIS TABULATION prepared by NAB provides an at-a-glance comparison of the overall channel rights which Cuba had when NARBA expired last March 29, the final list of her demands at the Montreal conference early last winter, and the rights she will have under the agreement reached "in principle" at Havana (story page 27).

Some inconsistencies will be noted between some of the overall totals shown here and those noted with the channel-by-channel breakdown presented herewith, insofar as past (or present) Cuban operations are concerned. They apparently are due to the use of different data on this seemingly elusive subject. Thus the two analyses are not directly comparable in this respect. On the point of the tentative new agreement there is general unanimity between the two.

McNaughten Direction

The NAB table is part of an exhaustive analysis of the agreement, its background, and its effects, as prepared under the direction of Neal McNaughten, NAB engineering director. He was a member of the industry advisory delegation at the U. S.-Cuba negotiations before he was recalled 10 days ago by NAB because the official U. S. delegation failed to notify affected stations of the terms of the imminent agreement. The table:

	3-29-49	Mont. Hav. List	Hav. List
Channels involved	68	79	78
Stations	91	111	114
Cuban Stations by Province			
Pinar del Rio	9	8	10
Havana	32 ¹	31	29
Matanzas	4	7	8
Las Villas	15	18	17
Camaguey	14	20	22
Oriente	21	27	28
Number of U. S. Class I-a Channels involved	4 ²	6 ³	3
U. S. I-B involved	8	14	13 ⁴
Regional Channels Involved	35	38	38
Regionals on which Cuba Permitted to use more than 5000 w. (All with DA)	10	9	10
Stations on Local Channels	9 ⁵	12	21
1-kw's on Local Channels	0	3	1
Da's involved	11	25	29
Maximum Power ⁶	232.45 Kw	403.5 Kw	404.25 Kw
¹ Eight are shared-time stations.			
² According to 1946 NARBA Interim Agreement.			
³ Does not include limited use of 1160 kc.			
⁴ Includes 2 daytime only.			
⁵ Six stations on three channels.			
⁶ Includes highest power listed for all alternates.

TV'S RISING COSTS

Mulled at Annual Chicago Council

TELECASTERS will have to reconcile costs of television, destined to increase, with stepped up agitation by advertisers and their agencies for more and better sales effectiveness. This was the consensus of some 50 speakers at the second annual National Television Conference sponsored in Chicago last week by the city's Television Council.

More than 225 video executives met March 6-8 at the Palmer House for panel discussions and speeches on all phases of the medium. Although the cost problems were recurrent in meetings and conversation, interest centered also on:

- Lack of availabilities and agencies, with little prospect for relief because of the "freeze" and possible reconstruction of time slots to allow more commercial time.

- Development of a code of conduct, with emphasis on good taste, decency and dignity.

- Double-spotting, which gains added revenue for the telecaster but sets precedents in commercialism which will be hard to break.

- Original programming, outside the realm of Hollywood and New York with their high-budgeted shows and top-rated personalities, along simple lines and patterned to the local scene.

- Rapid development of daytime programming, termed the difference between making a profit and breaking even.

- Need for comprehensive TV measurements in coverage, sponsor-identification and impact.

- Establishment of uniform standards, technical and production, among stations, with special reference to TV film producers who find requirements incompatible.

- More intimate knowledge among agencies, stations and clients about how to move goods from shelves.

Costs were surveyed from every angle, but conferees were most concerned about the average or small budget advertiser who finds TV's doors closed because of prices.

Spots and participations, at this point, seem to be his only out, many speakers agreed. Station men agreed also that there is not much of an actual sales problem, but profitable sales are hard to achieve. Progress has been made, but little profit.

Advertisers, realigning and scrutinizing budgets, want to correlate more effectively expenditures with results. Merchandising, a necessary follow-up to video advertising,

is an extra heavy expense item.

Some suggestions for the future which came out of the conference: (1) purchase of the coaxial cable by the networks on a spot basis, when needed; (2) shift to mood and suggestion selling in commercials; (3) installation of TV film networks; (4) exploitation of side rights, to defray expenses of TV production; (5) cut back of AM costs on networks so that the money differential can be allocated to TV; (6) large-screen TV, with 30-inch screens in the home and theatre TV, and networking with programming different from that seen in the home.

Maintenance of quality programs is video's first need, in the opinion of John B. McLaughlin, advertising and sales promotion manager of Kraft Foods Co., Chicago, a keynote speaker at the opening luncheon.

"More important in maintaining the industry," Mr. McLaughlin said, "is whether spot advertisers are to be allowed to coast along in the wake of large commercial sponsors and reap benefits they don't pay for. Often, because of his greatly lowered time cost, the spot buyer can spend more money on dramatic commercials than we can. He really gets a greater impact on

AGENCY BILLINGS 11 Exceed \$1 Million in '49

By FLORENCE SMALL
ELEVEN advertising agencies in New York registered television network billings, including time, talent and production costs, of more than \$1 million during 1949, with one agency tabulating as high as \$8 million and three others exceeding \$3 million.

These were the salient facts uncovered in a special survey by TELECASTING last week.

Basing its figures on both production (including talent) and time costs, TELECASTING learned that the lead agency by a wide margin is J. Walter Thompson Co. Its \$8 million outlay outstrips by \$3 million its two closest competitors, Young & Rubicam and Kudner Agency, both of which had yearly totals of \$5 million.

William Esty ranks third in annual television expenditures with \$3 million followed by Cunningham & Walsh (then Newell-Emmett) with \$2,800,000 spent in 1949.

Those New York agencies which spent more than \$1 million but less than \$3 million for television billing in 1949 are Lennen & Mitchell, \$2 million; McCann-Erickson, \$2 million; Benton & Bowles, \$1,700,000; N. W. Ayer, \$1,500,000; Campbell-Ewald, \$1 million and Kenyon & Eckhardt, \$1 million.

J. Walter Thompson's production costs for 1949 were approximately \$5 million for the following shows: *Tournament of Champions, International Boxing Club, Through the Crystal Ball, Kay Kyser's College of Musical Knowledge, The Clock, Auction-Aire, Kraft Televi-*

sion Theatre, Kukla, Fran & Ollie, Dione Lucas, and The Hartmans.

Young & Rubicam devoted an estimated \$2,500,000 to production costs for the following shows: *Bigelow Show, Phil Silvers Arrow Show, The Fred Waring Show, Author meets the Critics, The Meredith Willson Show, The Goldbergs, Paul Whiteman Goodyear Revue, We, the People, Arthur Godfrey's Talent Scouts, Gulf Road Show with Bob Smith, Silver Theatre and Crusade in Europe.*

Kudner Agency allocated an estimated \$2,500,000 for production costs of the following programs: *Martin Kane, Private Eye, Texaco Star Theatre, Opening Night at the Metropolitan Opera, Fireball Fun for All, Stop the Music, Admiral Broadway Revue.*

William Esty's Costs

William Esty & Co. designated an estimated \$1,500,000 to production costs for the following: *The Colgate Theatre, Golden Gloves Boxing, Madison Square Garden, Man Against Crime, Camel Sports Caravan, Camel Newsreel and the International Finals of the Golden Gloves.*

Cunningham & Walsh spent an estimated \$1,700,000 for production costs on the following: *Arthur Godfrey and His Friends, Chesterfield Supper Club, and The Dog Show.*

Lennen & Mitchell allotted an estimated \$1 million for production costs on the following: *Original Amateur Hour and Stop the*

Music. McCann-Erickson expended an estimated \$1 million in production for the following 1949 shows: *Roller Derby, Greatest Fights of the Century, Navy-Notre Dame Game, U. S. Army Championship Boxing Bouts, The Wayne King Show, The Swift Show and Studio One.*

Benton & Bowles outlayed an estimated \$850,000 in production costs for the following: *This is Show Business, Who Said That, Meet The Press and Mama.*

N. W. Ayer spent approximately \$750,000 for production costs on the following: *Your Showtime, football games, Singing Lady and Kukla, Fran & Ollie.*

Campbell-Ewald production costs during 1949 were an estimated \$500,000 for the following programs: *Inside USA, football games; Chevrolet Teletheatre, Chevrolet on Broadway, and Roller Derby.*

Kenyon & Eckhardt, expended approximately \$600,000 in production for: *United Nations, Toast of The Town and Ford Theatre.*

The breakdown of the relation between production and time costs would seem to indicate that during most of 1949 television tended toward the broad economic philosophy of radio wherein time and production incline generally to equal each other. However, toward the latter part of the year and early in 1950 production costs rose, and are rising, according to agency sources in a ratio of three to one, with production costs almost tripling the cost of time.

AMONG those attending Monday night's TV conference banquet were (l to r): Reynold Kraft, Paul H. Raymer Co., New York; John McPartlin, WNBQ (TV) Chicago sales manager; Robert D. Swezey, WDSU-TV New Orleans; Joy Shepard, WGN-TV Chicago; I. E. Showerman, NBC vice president, Chicago; Jack Russell, Mutual Entertainment Agency; Jules Herbeveaux, WNBQ manager; Earl Thomas, TV Inc., New York

THIS head table group at the Chicago Television Conference luncheon Tuesday includes (l to r) Richard Graver, vice president, Admiral Corp.; Carl J. Meyers, chief engineer, WGN Inc., Chicago; Robert J. Burton, vice president, BMI; Hugh Davis, executive vice president, Foote, Cone & Belding, Chicago; J. A. Frye, Stromberg Carlson, and E. Y. Flanigan, general manager of WSPD-TV Toledo.

our audiences than we do. At the moment they are spending their money more wisely than we are. This problem is even more serious in TV than it ever was in radio, where it is no longer profitable to carry a one-hour show."

Tracing Kraft's TV history, Mr. McLaughlin said his firm in 1948 spent \$1 for every TV set in the U. S. Early in '49, this went down to 50c, and to 28c late in the year. His 1950 estimate—between 15 and 18c. "That represents real progress," he said.

Denny for McConnell

Charles R. Denny Jr., NBC executive vice president, substituted for President Joseph H. McConnell in delivering the second keynote speech. Outlining TV's dimensions, Mr. Denny said the audience today which sees one dramatic TV performance outnumbers all those who see all of Broadway's dramas in an entire season. Chicago TV circulation is double that of *Life* magazine, he pointed out.

New concepts of programming, as in the "Chicago approach," were defined by Ted Mills, executive TV producer at NBC Chicago, and Beulah Zachary, producer of NBC's *Kukla, Fran & Ollie*. The panel was conducted by Fred Killian, program director, ABC-TV Chicago, who introduced also Fred Bolton, art director, J. Walter Thompson Co., and Steve Hatos, manager of James L. Saphier Talent Agency, both Chicago.

Mr. Mills, producer of *Garroway*

at Large, said: "Whatever good things are coming out of Chicago are good because we are poor financially. This forces us into production and conception techniques which can make our lack of money a blessing, and these things apply to stations anywhere outside New York and Hollywood."

Color came in for a hearing at the Tuesday luncheon, when NBC Chicago Commentator Clifton Utley sparked discussion by Martin Codel, editor of a Washington newsletter, *Television Digest and FM Reports*, Richard Graver, vice president, Admiral Corp.; Carl Meyers, chief engineer, WGN-TV Chicago, and J. Hugh E. Davis, executive vice president, Foote, Cone & Belding.

Color Question

Mr. Utley read messages to conferees from color experts. President R. C. Cosgrove of the Radio Mfrs. Assn. reaffirmed the group's position that color is not ready. Sen. Edwin C. Johnson decried the "pessimistic approach and reluctance to push forward." Program-wise, color TV won't cost a nickel more, and the impact will be 10 to 1 over black-and-white. Color television is a commercial reality today, he charged.

RCA President Frank Folsom pointed up the "little or no effect" color talk has had on black-and-white set sales. CBS President Frank Stanton said color TV is an "accomplished fact, irrespective of FCC hearings." Dr. Allen B. Du-

Mont of DuMont Labs, said that because of the incompatibility of the CBS system, introduction would cause a turmoil. RCA and Color Television Inc., in his opinion, have promise for future developments.

Color has been delayed because (1) almost no one can afford to broadcast color on a substantial scale, and (2) even if it were perfected and ready, it would come slowly because gadgets would be needed for reception and transmission, according to Mr. Codel. It will be a long time before advertisers think it worth while. Nobody's color is ready or even in early prospect, he said. "To promise color any time soon might stymie progress being made in black-and-white.

"Compatibility is the key, because you can't build a new audience from scratch. Colorcasts must be received on the black-and-white sets."

Admiral Position

Admiral favors compatibility, Mr. Graver asserted. When asked about possible costs, he said it depends on the additional number of tubes needed, the picture tube and the expensive cabinet. Color sets may cost "several hundred dollars more" than black-and-white. "There is no evidence of color hampering in any way the keen desire for black-and-white sets today. The industry can't and isn't meeting current demand. Customers mention color but are not waiting for it," he said.

Mr. Meyers of WGN-TV charged

CBS with making no progress in its color system since 1940, and said RCA and CTI have made great progress since October. He pointed out that there are 170 lines in the CBS picture, 230 CTI, and 250 RCA, with 275 lines now used in black-and-white transmission.

Film must get the quality of live shows, and will be under a stigma until then, George Harvey, president of the Chicago Television Council, said at the Wednesday luncheon when introducing Russ Johnston, vice president of Jerry Fairbanks Films, New York.

Coverage vs. Costs

Sooner or later we will have to measure TV as any other medium, Mr. Johnston said, referring to coverage, sponsor identification and impressions, all of which will be related to cost.

Shows without an element of immediacy can be circulated on film to avoid high cable costs, he said.

He outlined the firm's new Multi-cam system, with motion pictures being shot by multiple cameras synchronized to a sound track and an optical system which follows the focus. "We have the flexibility of an electronic camera, can take long, medium and close shots at the same time, and can film a half hour show in a half hour."

Gil Berry, western sales manager for DuMont TV Network, read a speech slated to be given by Chris Witting, general manager of the network. He pointed out that

Good Local Programming for New York, Plus Service As the ABC-TV Key, Is the Dual Role of WJZ-TV

IN THE 18 months since New York's Mayor William O'Dwyer welcomed WJZ-TV to the air (for the benefit of TV historians, the date was Aug. 10, 1948), it has served a two-fold function. That of originating a general program service for the nationwide audience of the ABC video network which it serves as key station and of providing good local programming for its own viewers in the New York metropolitan area.

Actually, there has been little conflict between the two sides of this dual service, according to Murray B. Grabhorn, ABC vice president and general manager of WJZ-AM-TV. "If we create a program of network quality—and we have to if we're going to compete successfully for the New York television audience with the six other TV stations on the air here—it would make little sense to put it on the air here in New York but to withhold it from the rest of the network," he said.

WJZ-TV's local operation is completely integrated with that of the ABC-TV network. There is only one employe whose salary is charged exclusively to WJZ-TV, Harold Day, who serves as liaison

between the program department and the spot and local salesmen. This sales staff serves not only the five TV stations owned by ABC but its AM stations as well, differing from network sales, where AM and TV are separated and a salesman handles one or the other but not both.

"The reason for different procedures for network sales and spot and local sales, is really very simple," Mr. Grabhorn explained. "The network salesman is normally presenting a plan to a client, a particular program which fits into or can be made the basis of a complete advertising campaign for a particular product. That's creative selling, and if the salesman tried to work in two media at once, he'd be selling against himself.

"It's different in the spot and local level; here selling is competitive not creative. When an agency starts to buy spots the nature of the campaign is set; the salesman's job is to deliver information about rates and availabilities and to try to get his stations on the list. Since the same timebuyer usually buys both radio and TV, our experience has been that having the same salesman for both is more effective than assigning different men to AM and TV. We tried that, but it didn't work."

Although other sales executives may not agree with this theory, it's hard to quarrel with its results. ABC-TV's spot and local sales in the opening months of

1950 are running about three times the volume of the same months of 1949, with a substantial month-to-month increase, Mr. Grabhorn reported.

WJZ-TV's nighttime announcements are completely sold out, even the sign-on and sign-off, he stated. The station's daytime operation, which is entirely local in contrast to the evening hours which are largely devoted to network programming, is "away in the black," he reported, with revenue substantially higher than operating expenses and gaining every month.

The WJZ-TV daytime operation, which was launched last May, is made up of two programs, *Market Melodies*, a women's participation show, 2-4 p.m., and *TV Telephone Game*, a video bingo type show, 4-4:30 p.m. Both are telecast Wednesday through Saturday (WJZ-TV is not on the air Monday and Tuesday).

FOUR of the five advertisers who started with *Market Melodies* are still on its sponsor list, which has now expanded. They are Stahl-Meyer (meats), Hills Brothers (Dromedary Mix), Brooklyn Union Gas Co. (ranges, refrigerators), Snow Corp Marketers (frozen orange juice). The only original sponsor to drop out was Foremost Dairies (ice cream), a hot weather advertiser who contracted for a summer campaign only.

The fact that these accounts continue to sponsor *Market Melodies* at a cost of roughly \$500 a week indicates that the program must be doing a satisfactory sales job. More specifically, WJZ-TV cites such direct sales results as 284 orders from one announcement of a \$15 reconditioned vacuum cleaner; over 700 sales of a \$2.95 set of Christmas tree ornaments from

five announcements; over 300 sales of a \$1 set of toy balloons from one announcement; an average of \$600 worth of sales apiece from a series of announcements for a \$2.95 Jiffy Stitcher.

Outstanding success of the *Telephone Game*, which averages 1,000 calls a day, is for Swift & Co., one of its four sponsors. Swift gives the program entire credit for opening up the New York market for its peanut butter, reporting that sales have mounted so steadily the company has had to appoint two additional brokers to handle the new retail accounts.

Last fall WJZ-TV experimented with a pre-Christmas *Holiday Hints* series, Friday evening half-hour telecast demonstrations of holiday gift or service ideas, presented by Anne Russell and Walter Herlihy, co-conductors of *Market Melodies*. This series of straight commercial demonstrations and sales talks, without any entertainment in the usual sense, was so successful that the station is planning to repeat it this year, possibly for other holidays as well as Christmas.

The Fitzgeralds, veteran radio husband-and-wife "breakfast table" team, do two half-hour shows a week on WJZ-TV in the early evening hours and are numbered among the station's "sold out" local programs. A similar happy fate is anticipated for the *Ray Heatherton Show*, a sidewalk superintendent program filmed at various spots around New York, which recently has been added to the WJZ-TV early evening schedule.

These programs, plus most of the station's network originations, are telecast from the ABC Television Center, three connecting buildings on West 66th St., just

ABC PRESIDENT Robert E. Kintner (l) shakes hands with William Zeckendorf, now a member of the network's board of directors and also a president of Webb & Knapp, following completion of the ABC acquisition of its Television Center. Webb & Knapp handled the real estate deal.

off Central Park. Five live studios, the largest 100 feet square with a 45-foot ceiling, a film projection room, paint and carpentry shops, scenery warehouses and prop store-rooms, film laboratory, kinescope recording room, plus offices, dressing rooms, etc., occupy more than two million cubic feet of space.

By housing all the various elements needed for a video program together, the Center saves time and manpower, eliminates warehouse and trucking charges and altogether lowers production costs by 20% to 25%, say ABC executives, who expect this saving to swing many top video programs to ABC in preference to other TV networks. Two theatres, the Ritz and the 58th St. Playhouse, accommodate programs with studio audiences. There also are two mobile units for remote pickups.

Equipment includes 18 studio cameras (one mounted on a Houston crane), six field cameras, seven microphone booms, four film cameras, six motion picture projectors (two 35mm, four 16mm), two microwave units, four video recorders. All of the equipment is RCA except for three DuMont studio cameras.

The WJZ-TV transmitter, an RCA TT 5A 5 kw unit, was transferred last month from its original location on the 43d floor of the Pierre Hotel to the 85th floor of the Empire State Bldg. In moving the transmitter 26 blocks, downtown, and that much farther from the ABC-TV Center, the station more than doubled the height of its transmitting antenna.

* * *

ABOUT 300 persons work for WJZ-TV and the ABC network in New York, including some 60 engineers and technicians, 80 in programming and six in sales, plus about 150 assigned to TV duties in continuity acceptance, news, publicity, accounting, and other departments of the network organization.

Top executives include Mr. Grabhorn; Clarence L. Doty, sales manager of WJZ-AM-TV; Frank Marx, ABC vice president and chief engineer of WJZ-TV; Alexander Stronach, ABC's national director of television program operations and program manager of WJZ-TV.

Facilities of WJZ-TV and the ABC video operation in New York have cost the network some \$3,700,000 of a total of \$8,500,000 capital investment in video plant and equipment in Detroit, Chicago, Los Angeles, and San Francisco as well as New York. Amortization of this sum, plus heavy operating costs which the network's TV revenue does not yet offset, caused ABC last fall to cut the air time of WJZ-TV from seven to five days a week, coincidentally dropping some of the network's more expensive sustaining programs.

Robert Kintner, ABC president, said at that time that the curtailment was a temporary expedient to allow ABC to strengthen its video programming on the other

Mr. STRONACH

Mr. DOTY

Mr. GRABHORN

Mr. MARX

five nights without unduly tapping the network's resources. ABC's net revenue for the first nine months of 1949 showed a net loss of several hundred thousand dollars, attributable to expenditures for TV. Even with the curtailed schedule, Mr. Kintner said that the network was spending at the rate of \$1,200,000 a year for TV sustaining shows.

WJZ-TV's current five-day, 33-hour weekly program schedule may be divided a number of ways; 12½ hours of local programs and 20¼ hours of network shows; 29¼ hours of live program and 3¾ hours of films, including two hours of kinescope recordings of programs originating at other ABC TV stations; 18 hours and 55 minutes of commercial programs, including 11 hours of local participation shows but omitting WJZ-TV's extensive line-up of sponsored spots, and 14 hours and 5 minutes of sustainers.

Roughly classified into program types, the WJZ-TV schedule for the week of February 12-18 contained: 2½ hours of kid shows, 1½ hours of comedy, 1½ hours of drama, 7¼ hours of sports (chiefly the Roller Derby), 5 hours of quiz shows, 3 hours of musical variety, 8 hours of *Market Melodies*, 3¼ hours of talk program (discussions, forums, interviews, etc.), 30 minutes of documentary and 30 minutes of religious programming.

* * *

THE list of outstanding programs WJZ-TV has originated for the ABC-TV network begins with the all-star variety show from New York's Palace Theater, the Mecca of vaudeville, which inaugurated the station's program service on Aug. 10, 1948.

On election night, WJZ-TV fed returns to the network under the sponsorship of Kaiser-Frazer Sales Co., with commentaries by Walter Winchell, Drew Pearson and the rest of the ABC news corps, aided by George Gallup who, as the evening wore on, swallowed his own predictions in full view of the ABC-TV audience. Later that month, WJZ-TV telecast the opening of the opera season at the New York Metropolitan Opera House, covering the full performance of Verdi's "Otello" plus between-the-act interviews with opera stars and notables from the audience. This

opera telecast, a first in video history, was sponsored by the Texas Co., which repeated its sponsorship of ABC telecast opera a year later at the Met's 1949 opening.

In the sports realm, WJZ-TV early realized the viewing appeal of the Roller Derby's fast, furious, and frantic action, and for the second year is feeding an hour or more of this sport to the network most weekday nights, with Blatz Brewing Co., Chesebrough Mfg. Co. and Chevrolet Dealers Assn. currently sponsoring these programs.

Another notable WJZ-TV network origination is the video version of *Stop the Music*, mystery melody jackpot program, sponsored by Admiral Corp. and P. Lorillard Co. Paul Whiteman's variety show for Goodyear Tire & Rubber Co. and Kellogg's *Singing Lady* series are other top ABC TV shows fed to the network by WJZ-TV.

The World War II documentary film series, *Crusade in Europe*, first telecast from WJZ-TV to the network with Time Inc. as sponsor is now being repeated as a local series on WJZ-TV and other ABC video affiliate stations. Bowery Savings Bank is sponsoring this second run on WJZ-TV.

WJZ-TV operates on Channel 7. Its base rate for an hour of Class A time (7-10:30 p.m., Monday through Saturday, 6-10:30 p.m., Sunday) is \$2,000. For an hour of Class B time (5-7 p.m., Monday through Saturday; 10:30-11 p.m., Monday through Sunday; 1-6 p.m., Sunday) the base rate is \$1,500. The Class C rate (all other time) is \$750 an hour. Discounts run from 2½% for 13 or more broadcasts to 20% for 260 or more.

While its primary role will always be that of a network key station. WJZ-TV will continue to expand its local operations, particularly in the daytime hours.

"Programs such as *Market Melodies* have clearly demonstrated that television fits into the retail sales picture in a way that radio

* * *

INTEGRAL parts of Television Center are (top photo) the film laboratory, several rooms in a special section of the basement area which have been set apart for film editing, storage, kinescope recording, etc., and (lower photo) the master control from which all ABC telecasts are controlled.

never has," Mr. Grabhorn said, reporting that plans are nearing completion for a new daytime program to be sponsored by a New York department store. "We do not plan on all-day sustaining programming," he added, "but we do expect to expand our daytime operations as we find programs that will fill a need for our viewers and our sponsors."

FLORIDA FIRM

Pelican Productions Formed

ORGANIZATION of Pelican Productions, firm specializing in filming sporting events in Florida for television use, has been announced. The firm's address is P. O. Box 839, St. Petersburg, Fla.

Officers are Phillip Dana Boose, president; Lyman E. Rogers, vice president; Raymond I. Whitely, secretary and treasurer. Mr. Boose has been in television and radio in Philadelphia and the New Jersey area. Prior to that, he was a sportscaster for WTSP St. Petersburg.

Tavern TV Ban

BAN on the use of television in city taverns and off-sale liquor establishments was voted by a split ballot of three to two by the Duluth City Council last Monday (March 6).

Hurry, Hurry... Television Has Its Own Big Top

It's 'Super-Circus' For Canada Dry

By JANE PINKERTON

APTLY NAMED is *Super Circus*, for it begins with super audiences and ends with super sales. Such is the conviction of ABC television, the Canada Dry Ginger Ale Co., New York, and J. M. Mathes Agency, New York.

Sponsored by Canada Dry on the network from Chicago each Sunday since last April, *Super Circus* occupies a five-ring stage in the minds of network, agency and

client personnel. The format lends itself to successful merchandising tie-ins with retailers, gives distributors a conversational subject with a universal, family appeal, and proves that video cameras are adroit enough to catch the multifarious maneuverings of 40 dogs and three trained seals at one time.

The hour-long (4 to 5 p.m. CST) show, presenting only circus performers conditioned to big-top operations, is a blend of skillful

direction, a sawdust and tent atmosphere, unpredictable animals, blatant band music and a beautiful girl. All these add up to entertainment popularity and more and more Canada Dry sales. Bubbling is the byword.

Although *Super Circus* originated at WENR-TV Chicago for the network Sept. 17, 1948, it remained unsponsored until April of last year, when the beverage firm decided to try a medium new to the soft drink industry. ABC signed Canada Dry for the first half hour and conducted in March what is believed to be the industry's first closed circuit TV meeting.

Canada Dry President Roy W. Moore; William M. Collings, vice president in charge of company-owned operations; William S. Brown, vice president and advertising manager; and Ralph O. Nims, manager of the sales and merchandising department, spoke directly to regional and district personnel in the eight cities originally comprising the ABC-TV network. Mr. Moore and Charles C. Barry, ABC vice president in charge of TV, outlined the firm's promotion and sales plans for the circus show.

That initial 13-week contract has been renewed three times, and J. M. Mathes officials hope to continue sponsorship indefinitely.

Phil Patton and Greg Garrison, producer and director, have worked together as a team on the circus epic since it went commercial. Mr. Patton began working for ABC Chicago on a freelance basis (he used to do *Ladies Be Seated* on AM), and recently was named executive producer for ABC television there. He and Mr. Garrison also produced the televersion of *Ladies Be Seated* with Tom Moore, telecast as a sustainer on the network for 10 weeks early last year.

They coordinate duties of 34 persons, excluding talent, at ABC's Civic Studio, the former Chicago Civic Theatre, in the Civic Opera Bldg. It is on the western fringe

of the loop at the Chicago River. The 34 men and women assigned include—on stage and in the control room—eight stage hands, two floor managers (Grover Allen and John Fitzpatrick), Assistant Director Dick Ortner, three cameramen, a dolly pusher, two microphone boom operators, an audio engineer, Technical Director Frank Koerner, two video control operators and a switcher.

Working in the Penthouse Studio atop the building are a man for slides, a girl giving slide cues, technical director, switcher and video control operator. These are in addition to two girls for inside and outside props, a girl who selects children for special stunts, Scene Designer John Boyt, Artist Robert Moak, Makeup Artist Carol Castle and Dan Schiffman, author of children's stunts.

Mr. Patton supervises overall production and auditions most of the acts. Mr. Garrison takes over in the control room and handles rehearsals. Originator and owner of the package *Stand by for Crime*, formerly telecast via ABC, he was a motion picture producer and writer and studio production director at WFIL-TV Philadelphia. In 1947, Greg Garrison, then scarcely 24 years old, directed the ABC portion of both national political conventions for the Republicans and Democrats.

TELEVISION has proved such a happy medium for Canada Dry that the firm plans soon to expand its present 16-station network to include St. Louis and Milwaukee. Canada Dry's first year has been "a very exciting one, and a profitable one from the standpoint of experience and actual leadership. We are the only beverage sponsoring a network program, and we consider that important," said Read H. Wight, radio and television director for Mathes agency.

Canada Dry has used radio every year of the 16 it has been in business, buying shows such as *Jack*

* * *

BLONDE AND BEAUTEOUS Mary Hartline, bandleader who doubles on the trumpet, relaxes backstage with Cliff the Clown (Cliff Soubier). In the background are (l to r): James L. Stirton, general manager of ABC's Central Division; Horst W. Roder, manager of Canada Dry's Chicago division; Ringmaster Claude Kirchner, and Allen R. Schaedel, regional manager for Canada Dry.

Benny, Information Please and Meredith Willson. The first TV experiment took place about two years ago when *Sports Sparkles*, minute films about sports, was telecast in Syracuse and Milwaukee for franchised bottlers. Although the company maintains 29 of its own plants, it also issues bottling franchises to more than 90 local firms.

Super Circus time charges are paid for by the parent company in company-owned distribution areas. In other non-company plant markets, the local bottler chips in on time costs. Talent and production fees are absorbed by the national company. Its weekly share of costs adds up to less than \$5,000, including time charges.

The company is thus spending about \$250,000 of a reported \$3 million advertising budget on its network television show. Most of the media allocations go to local rather than national advertising, however, because of the need to merchandise locally to build mass market sales with direct deliveries. This is why stress is placed on the local franchise-holder, the distributor and the salesman. "Because Canada Dry salesmen go into retail outlets more than most other salesmen, we have a fine talking point with *Super Circus*," Mr. Wight explained.

Super Circus is bolstering the sponsor's three-way objectives to create and develop mass markets for ginger ale, sparkling water and its other products, Spur Cola and Hi-Spot. It reportedly now has about 20% of the ginger ale business in the country. Working on a 50-50 arrangement with bottlers, Canada Dry gives them promotion packets at cost, including transcribed radio commercials. TV spots are aired occasionally, but usually only in areas out of *Super Circus* range.

A CRASH of Cliff the Clown through a paper hoop announces the opening of *Super Circus*, as the 18-piece band blares and Ringmaster Claude Kirchner steps to the center of the stage. From there, for an hour, he introduces the acts, smooths over gaps when donkeys balk at coming on stage and intrigues children in the studio with his long red coat and white, fitted trousers.

Five acts, ranging from four to 14 minutes, are packed tightly into a fast format that includes several band selections, kid stunts, clown routines and commercials. As the first half closes at 4:29:40, Mr. Garrison and his staff have 20 seconds before the second portion to reset the large stage, remove commercial props for the sustaining period, open the traveler, set

SCAMPY THE CLOWN, in non-*Super Circus* life 11-year-old Phillip Bardwell Patton, ogles a bottle of Canada Dry enthusiastically with TV Announcer Charlie Flynn, who has hawked the soft drink since the show started. With them are William S. Brown (l), Canada Dry vice president and advertising manager, and Carl G. Suber, J. M. Mathes account executive on company-owned plant and national advertising.

IT'S NOTHING UNUSUAL for 500 adults, who must be accompanied by children, to stand along Chicago's Wacker Drive outside ABC's Civic Studio waiting to fight the battle of seats for *Super Circus*.

the band, get a new hoop for the clown and set the cameras.

The kid stunts have from four to eight children vying in foot races, balloon-punching contests and pie-eating clashes. The winner gets a dollar, and non-winners—usually elated about their fate—dip eagerly into fish bowls filled with pennies. They keep whatever they can carry away.

The same conviviality and informality applies to commercials, which have been acted by Charlie Flynn since the show started. He wears a tight-jacketed bus boy outfit, wandering in and out of the studio audience where he passes out free bottles of ginger ale. Up on stage, he delivers a casual but solid-sell commercial.

To get a tighter and better camera closeup on the commercial, which is always live, Canada Dry redesigned a bottle label for video use only, removing small and extraneous printed matter to avoid fuzziness.

Acts are booked two or three weeks in advance, usually through two Chicago agents. Price ranges up to \$500, which was paid for Tom Pack and his herd of four baby elephants. Most performers (there have been as many as 15 persons in one act) have never played night club dates, and all have been circus headliners. Many work the show between circus and winter dates.

Along with magicians, trampoline artists, sword swallowers and tumblers have been a menagerie of animals—universally popular. At least one animal act is booked for each show. Animals, because of their inability to take coaching, often provide comic relief to an already funny show. Animal stories in *Super Circus*' private collection include gags about the chimpanzee that threw a

bicycle at the bandleader, a four-minute hole filled with music because a jackass refused to come on stage, the seal that played "How Dry I Am" (not at the sponsor's request) on a horn combination, and the dog (in a troupe of 40 frantic hounds) who sauntered up to a prop fire plug and was ready to sanction same when the screen blacked out and cameras switched.

Thousands of irate viewers wrote in after seeing Umbangi, the Hollywood "gorilla," race across stage, clamber up the back of a dolly pusher into the lens of the camera and tear off through the audience. In the excitement, they hadn't heard Umbangi identified as the best gorilla impersonator in Hollywood.

As a joke on a band man, Director Garrison rented a skunk for \$7.50, thinking this was a new low in expenses. In two days of rehearsal, the skunk (deodorized) bit Star Mary Hartline, a property girl and the assistant director. Doctor bills cost \$25, and a stuffed skunk was finally used. Total cost—\$32.50.

Three cameras are spotted in the studio, one on stage right, one in front of center stage on a platform extension into the audience (per-

mitting dollying in and out), and a third at the back of the 860-seat house. For trapeze acts performing as high as 60 feet, the rear cameraman sits on the floor and shoots almost straight up with a wide angle lens. A Zoomar for extreme closeups was used for the first time in January and is used consistently now.

Elephants and camels are the largest in the circus ark to crowd through the stage doors. The camel was brought in for a quick walk-around when appearing in the Passion Play at the Opera House. Elephants, which always get rave notices from fans, have stomped across the reinforced floors on several occasions.

Because of the scattered camera angles, the men have orders to follow whatever is happening, even if it is not scheduled. As a result, all mikes are covered to blend with the backdrop, and flown by pin rail. Thirteen others are used—three for the audience, three downstage (10 feet apart), three for the orchestra, two upstage and two standby.

THE permanent cast centers around Ringmaster Kirchner, who traversed the talent obstacle course from being Sally Rand's first barker at the Century of Progress in Chicago in 1933 through announcing to successful freelance work in Chicago. He has several radio programs. Sharing the spotlights with him is blonde and lovely, 22-year-old Mary Hartline, who stars on ABC's *Junior Junction*. Miss Hartline, in private life Mrs. Harold Stokes, wife of ABC Chicago's program director, is also a fashion photographic model. She has brought to the show kudos galore, winning such titles as Sweetest Television Star of the Year (1949), Chicago's Number 1 Career Girl (1948) and Miss Television of 1949 (from ardent Phi Gamma Deltas at the U. of Michigan.)

Sharing the bandstand with Bruce Chase, Miss Hartline plays occasional trumpet solos and takes part in the children's portions. Working with her are Cliff the

(Continued on Telecasting 8)

It's Super Circus

(Continued from Telecasting 7)

Clown, veteran radio actor Cliff Soubier, and 11-year-old Scampy, Phillip Bardwell Patton, son of the producer. Scampy was called in at the last minute one day when a midget performer failed to appear.

Although all elements in the show are scheduled two or three weeks in advance, rehearsal takes place on Saturday before and Sunday of the show. On Saturdays, kid stunts, clown gimmicks and commercials are given a thorough going-over. Opens and introductions are set, and one of two hours on the commercial is on camera. Musicians rehearse alone Sunday morning, when music is set with placement and setting of the acts. Dress rehearsal and a complete dry run take place until 3:30, half an hour before the show.

Then the 860-seat house is opened, timings are checked, additions and deletions made, the stage closed and camera levels determined. Eight ushers line-up ticket-holders in front of the studio where, on balmy days, hawkers come over from West Madison St. to sell balloons and popcorn. Children are admitted before adults, and long ago ABC set a precedent by insisting that all adults be accompanied by youngsters.

ELECTRIC POWER for MOBILE TV UNITS

with **ONAN** ELECTRIC PLANTS

Quiet-running, vibration-free Onan Electric Plants are compact, lightweight, easy to install in TV, FM, and AM mobile units. Supply power for transmitting, recording, lights and all other needs. Electric push-button or manual starting. Fully shielded to eliminate radio interference. Air-cooled A.C. models range from 400 to 3,000 watts. Water-cooled electric plants up to 75,000 watts.

ONAN STANDBY ELECTRIC PLANTS for transmitter stations, keep you on the air and protect against loss through failure of highline power. Fully automatic start and stop. 1,000 to 75,000 watts, A.C.

Write for literature

D. W. ONAN & SONS INC.
3155 Royalston Ave., Minneapolis 5, Minn.

St. Louis, will share sponsorship of the second half on alternate weeks starting next month. Respective dates are April 23 and 30, through Lynn Baker, New York and Henri, Hurst and McDonald, Chicago. Derby Foods, for Peter Pan peanut butter, sponsored the same segment for 26 weeks last year until the end of October. Its agency is Needham, Louis and Brorby.

During the first 10 months that Telepulse ratings were available in Chicago, *Super Circus* ranked among the top 10 seven times. Considering TV ratings, "and a 27 Hooper Telerating, we think our program is a happy achievement for both the advertiser and our agency," Mr. Wight said.

As of November 1949, according to an ABC sales report, 455,385 TV sets were tuned in to each quarter hour of the show. Average number of viewers to each portion was 2,368,002, of which 683,078 were men, 819,693 women, and 865,232, children. These figures back up the Mathes and Canada Dry conviction that the show is for the family, not just children. Net talent cost per half hour per 1,000 homes reached was \$3.46 (as of January 1950), and net talent cost per half-hour per thousand viewers was 66 cents.

Studio audiences alone last year totaled 40,000, giving the show the best attendance record among ABC Chicago TV offerings. On Jan. 1, ticket requests were filled through April, and 1,000 more are turned down each week.

Canada Dry, as the only soft drink manufacturer sponsoring a network video show, is finding that the super in *Super Circus* goes much farther than the show itself.

WTAR-TV PREVIEW

RCA Gives Demonstration

PREVIEW of television, heralding the opening of WTAR-TV Norfolk, Va., which is scheduled for April 2, opened today in the Norfolk municipal auditorium and will continue through Thursday. More than 75,000 persons are expected to attend.

The RCA Victor promotions department sent a seven-man production and technical staff and complete studio equipment to the auditorium where a studio and control room have been set up. RCA-produced programs, given from 3 to 5 p.m. and 7 to 10 p.m. daily, are being transmitted to 32 booths in which various manufacturers will show their TV receivers in action. Four TV sets are being given away each day as door prizes.

WTAR-TV has signed an affiliation contract with ABC-TV, bringing that network's number of owned and/or affiliated stations to 51. Forty-eight now are on the air. WTAR-TV is owned by WTAR Radio Corp. and authorized for Channel 4 (66-72 mc). Station also is affiliated with NBC-TV and CBS-TV.

INDUSTRIAL TV

RCA System Shown At IRE Meet

A COMPACT TV system designed especially for industrial and educational black-and-white use but said to be adaptable to commercial color television, was unveiled by RCA last Wednesday at the IRE national convention in New York (see story page 28).

The new RCA system comprises two units—a TV camera similar in size to a 16mm movie camera and a suitcase-sized master control monitor, and is based on RCA's Vidicon tube, which is described as less than one-tenth the size of the image orthicon, and simpler in application.

The system produces black-and-white pictures at normal light levels and can be adapted to produce pictures in natural colors, according to Dr. V. K. Zworykin, vice president and technical consultant of RCA Labs, who directed development of the system.

It also was revealed that RCA engineers are conducting research in development of tubes like the Vidicon for use in RCA's new all-electronic, high-definition color TV system. Additionally, the Vidicon will be developed further to make it a valuable device in commercial monochrome telecasting, and the entire system eventually could serve to replace present studio equipment, it was explained.

Details of the industrial system were revealed in technical papers offered at the convention by Dr. Paul K. Weimer, RCA research scientist, who helped demonstrate the system, and Richard C. Webb,

TECHNICOLOR

Buys Geer Tube Patent

TECHNICOLOR Motion Picture Corp. has bought the patent on a color television tube invented by Dr. Willard Geer, of the U. of Southern California, the company announced last week.

Dr. Herbert T. Kalmus, Technicolor president and general manager, said the company had appropriated more than \$500,000 for its research department and that much of that amount would be spent on development of the tube for professional and commercial uses.

Part of the development of the Geer tube will be done at the Stanford Research Institute, Palo Alto, Calif., and the rest at the Technicolor laboratories in Hollywood. RCA also will contribute to the Stanford research project.

According to the company, the Geer invention consists of "a single television tube in which three electron beams are directed upon a specially-formed phosphor bearing screen made so as to present a separate surface to each beam. There are three such surfaces, and on the face of each such surface is a different phosphor material which, when activated by each of the electron beams, yields an appropriate color, red, green or blue. The combination of the three colors would give a television picture in natural color which is viewed on the surface of the television tube.

of the RCA Labs. Mr. Webb and J. N. Morgan, research engineer, were credited with development of the overall system.

"RCA scientists developed the system so it is almost compatible with standard television broadcasting techniques," Mr. Webb said. "Home television receivers can be adapted to use as monitors by the addition of a single tube, with accompanying resistors and capacitors at a very modest cost."

The two-part TV package probably will be offered at an estimated cost of \$6,600 with delivery in six months, according to M. C. Banca, of RCA Engineering Products Division.

"This service eventually will be available in color, as well as in black-and-white," Dr. Zworykin explained. "While surveys have indicated that black-and-white coverage will meet the requirements in most industrial uses, engineers at RCA Labs. are at the present time working on color equipment to fulfill needs that may arise."

Camera Size

RCA's first color camera probably would be larger than the one in the new compact system but would be "considerably smaller" than existing ones, it was said.

The entire system operates on 110-v, 60-cycle alternating current and consumes only 350 w, according to Mr. Webb. He said it is capable of transmitting a signal 500 feet over a coaxial cable closed circuit, with "enormous flexibility" for a wide range of industrial, scientific and miscellaneous applications.

The Vidicon measures one inch in diameter and is six inches long. The master control unit is 24 inches long, 15 inches high and 1 1/4 inches wide. Weighing 48 pounds, it contains its own seven-inch monitoring kinescope and 44 tubes—about 50% more than the average home TV receiver. Camera is 10 inches long, 3 1/4 inches wide and five inches high.

The RCA system was described as indicating "great promise" for closed circuit television, which Dr. Zworykin said can be a "powerful instrument of education."

WSYR-TV Dedicated

WSYR-TV Syracuse, N. Y., operating on Channel 5 (76-82 mc), was dedicated formally March 5 by Harry C. Wilder, president of WSYR-AM-FM-TV. Dedicatory ceremonies, which followed a limited schedule operation for 17 days, included a film record of the station's construction and pictures showing behind-the-scenes operation. WSYR-TV reports its antenna is 1,666 ft. above mean sea level.

WXEL Excels in TV Service to the populous Western Reserve area

The northeast Ohio area established as the Western Reserve in 1785, is today a nation's center of industrial, agricultural and intellectual advancement. The 17-county area now included in the original government grant has been served on Channel 9 since December 17, 1949, with a widely diversified program for all types of audiences.

CELOMAT UNIT To Participate in Color Hearing

CELOMAT Corp., New York plastics fabricator, has been given permission by FCC to participate in the color television proceeding, which resumes Wednesday, to tell about its \$9.95 color converter for sets adapted to the CBS system. FCC denied participation to Wells-Gardner & Co., Chicago, and Communications Measurements Lab., New York.

The Commission's proceeding is expected to continue with further direct testimony by CBS. This week's session will run Wednesday through Friday, receiving results of field tests and other developments since the color hearing was recessed last Nov. 22.

The hearing resumed Feb. 27 for a three-day session with no meeting scheduled last week because of the 1950 convention and radio engineering show of the Institute of Radio Engineers in New York [TELECASTING, March 6]. The hearing is set also for March 22-24 and 29-31.

New bid to testify was filed last week by Packard-Bell Co., Los Angeles set manufacturer, which expressed concern over the potential "monopoly" situation in the color manufacturing field.

Celomat Corp. informed the Commission that it was ready to manufacture a color converter for use with TV sets adapted to re-

ceive the CBS color system and that the retail cost for the converter would be "about \$9.95." The firm said the unit could be distributed nationally through the same channels which now handle Celomat's TV set magnifier. FCC said it granted the Celomat request to testify since the cost of making color converters was raised during the hearing before it recessed last November.

Wells-Gardner Request

Wells-Gardner requested permission to testify about its test "with regard to the demand by the public for large size pictures in home television receivers" with "probable public reaction to certain features of the three color television systems" and with "the effect of continuation of the VHF freeze and failure to proceed with a VHF-UHF allocation plan upon such small business enterprises as Wells-Gardner." However, the Commission considered this late request as not within the scope of its request for field testing and data on new developments and hence denied it.

FCC rejected the CML request on the ground it proposes a color system not within the scope of the Commission's original issues in the proceeding. CML claims it has an 8-mc dot-sequential color system

which will operate in the UHF band permitting simultaneous transmission and reception of multiple other broadcast and non-broadcast services on the same signal [TELECASTING, Feb. 27]. FCC specified 6-mc band for color, the same as monochrome.

The Commission also noted that the CML system admittedly still was a theoretical system and "has not undergone a program of research and development in the laboratory to determine fundamentals and to explore basic problems."

Packard-Bell Position

Packard-Bell indicated FCC in the public interest should hear the "views of a small, non-diversified manufacturer of television receivers from the West who is concerned about the concentration of monopoly power in the hands of a few manufacturers, who wishes to present facts concerning the television situation in the West, and who is particularly concerned that in the transition from black-and-white to a color system that has not been adequately field tested for commercial development there is a strong likelihood that companies like it might be forced out of business."

The firm indicated its vice president, Robert S. Bell, would be available for testimony. Packard-Bell had gross sales of about \$5,500,000 in 1949, 80% of which was in TV

sets, the firm said. Present sales are running at a \$12,000,000 annual rate.

Meanwhile, two distinct viewpoints were evident last week among color hearing observers. One view—that FCC seriously is considering allowing the double standard, both CBS and "compatible" RCA, at least in the VHF—was stimulated by comments of Comrs. Wayne Coy and Frieda B. Henneck during examination of RCA and other witnesses a fortnight ago [TELECASTING, March 6].

Other View

The other view—that FCC, at least in majority, will hold to its call for a system "compatible" with monochrome—was claimed to be strengthened during the same session by the concern of Comr. George E. Sterling over any system which requires at the present such mechanical parts as a motor-driven color wheel.

CBS witnesses had emphasized that its system and all of the principal color methods fundamentally are all-electronic and that the CBS color wheel was only a device to make color TV practical and inexpensive now.

Comr. Robert F. Jones at one point had observed that all of the systems, in spite of their basic all-electronic characteristics, at present utilize some form of "mechanical" operation to produce the color. He noted the CBS color wheel and the complex optical systems involved in the RCA and Color Television Inc. systems.

Why

FILM EQUITIES Is the No. 1 Distributor of TV Film in the U. S. Today

- Film Equities acceptance and reputation is built on its superior service.
- When stations want film—and when they want it in a hurry—they know that they can pick up the telephone and that Film Equities will be able to deliver what they want when they want it.
- This service, built up over several years, is the fundamental reason for more Film Equities film being used in TV than any other distributor.
- Television stations the nation over know that when they call on Film Equities, Film Equities delivers the film.

Let us show you what we mean.

Film Report

WORLD ARTISTS Inc., Hollywood, has completed two half-hour strips featuring Jascha Heifetz for *World Artists* series. Production underway of first of two half-hour films featuring cellist Gregor Piatigorsky. . . . Marc Cramer, former advertising and publicity director for Julius Wile Sons & Co., has joined staff of Transfilm Inc., New York.

Nassour Studios Inc., Hollywood (independent motion picture producer), going into TV production with series of quarter-hour films starring Sabu as modern-day Aladdin. Seeking national sponsor. Firm plans five additional film series. . . . Jerry Fairbanks Productions, Hollywood, has series of 10 spot commercials underway for Oldsmobile. Agency: D. P. Brother Adv., Detroit.

Filmack Trailer Corp., Chicago, has released one three-minute and two one-half minute commercials to Lerman's Furniture Co., same city. Series feature demonstrations of three rooms of furniture. Agency: Jerome Reese. . . . Robert Stock, formerly on MBS Hollywood promotion staff joins publicity department of TV Ads Inc., that city.

. . . Hampton W. Howard, former president of Special Purpose Films, appointed sales manager for Archer Productions, New York industrial film firm.

Television Screen Productions, New York, producing five-minute animated cartoon TV adventure series for children. Title *Jim and Judy in Teledand*, series can continue indefinitely, according to Charles J. Basch, president of company. . . . Telefilm Inc., Hollywood, producing one-minute animated television commercial for Nesbitt's Orange Drink through Arnold Marquis Productions, that city. Spot for local release.

Russell Day heads new television commercial department set up by Telemount Productions, Los Angeles, at its studios at 5255 Clinton St. Mr. Day formerly was independent TV film producer. Firm also has announced 13-week renewal of its *Magic Lady and Boko* series on KPIX (TV) San Francisco, effective March 4. . . . Series of seven one-minute live action TV spots have been completed for General Controls Corp. by Caston Productions, Los Angeles. Agency: Hixson & Jorgenson Inc.

INTERCONNECTION

Further Hearings Are Held

FURTHER hearing was held before FCC Examiner J. Fred Johnson Jr. last week to decide whether or not the Commission should require interconnection of the inter-city television relay facilities of American Telephone and Telegraph Co. and those of Western Union Telegraph Co.

AT&T has issued a loud "no" to WU's equally vigorous "yes" on the interconnection issue.

The Bell System contended Western Union can't compete with it unless WU furnishes customers with Bell facilities to piece out its own channels, which amounts to a private subsidy by one competitor to another. Western Union stated television is growing rapidly and will need both AT&T and WU facilities, indicating WU can compete with the Bell System.

Held Monday through Wednesday, the FCC hearing last week was recessed until April 10 when it's expected another week will be required to close the case. FCC last December had ordered the common carriers to interconnect their facilities with those of private broadcasters for the present because the common carrier channels are inadequate.

In mid-February FCC requested

AT&T to further amend its tariffs to allow broadcasters to feed programs picked up off the air into the Bell System network for further relaying [TELECASTING, Feb. 20]. AT&T last week, however, in a petition opposing this request, charged that the issues and evidence in the earlier interconnection hearing did not support FCC's conclusion to order AT&T to accept inbound traffic of this nature. The telephone company further contended that such "patchwork" networking would be technically and operatively inefficient and uneconomical in the long run.

A preliminary dispute at last week's proceeding was whether the case involved the question of general interconnection or interconnection only in a specific instance such as the WU New York-Philadelphia link, presently its only existing TV relay facility.

KTTV (TV) MOVES Sets Nassour Studios For Film Making

UNDER a long term lease, with option to buy, KTTV (TV) Los Angeles within next 60 days will move from present quarters to Nassour Studios, 5746 Sunset Blvd., Hollywood.

Deal was worked out by Norman Chandler, Los Angeles Times publisher and president of KTTV Inc., with Edward and William Nassour, owners of Nassour Studios. Under the arrangement, KTTV will go into production of low budget television films, with national distribution to be handled by Television Sales, station subsidiary recently set up for syndicated programs.

Agreement in no way interferes with independent film production of Nassour Bros., it was said.

Under the 10-year lease with options, signed last Tuesday, KTTV will eventually take over the entire film lot consisting of executive offices, four soundstages, and workshops. Station will discon-

tinue use of three sites from which it currently operates.

Station expects to start filming six to eight half-hour programs weekly with move to the new quarters, according to Harrison Dunham, KTTV general manager. First will be the *Buster Keaton Show* and the Stokey-Ebert Enterprises' *Pantomime Quiz*. KTTV also plans to bring in freelance producers, directors and talent to film its own packages.

Stockholders Approve

With CBS a 49% owner of KTTV, Frank Stanton, network president, participated in the stockholders' recent Los Angeles meeting that approved the deal with Nassour Bros.

CBS also will acquire a Hollywood film studio or its equivalent for its rapidly expanding television operations in that city. Several sites have been investigated, but as far as can be learned, no deal has been made.

Looking to the future, ample space, comparable to that occupied by the ABC Television Center in Los Angeles, will be necessary to accommodate the several live and filmed shows that CBS will originate from Hollywood. Adequate quarters acquired now will eliminate future farming out of shows to rental studios as was done in radio, it was pointed out.

Now! - the greatest "FIRST" of all for Memphis and the Mid-South's "FIRST" television station

WMCT JOINS THE CABLE!

the FIRST Television station in the South to bring television's greatest shows direct from New York!

*South of St. Louis and Richmond, from the Atlantic to the Pacific.

On March 1st, WMCT joins the Cable!

This is big television news in the Memphis market area, and even greater significance to advertisers throughout the Nation.

Already television set sales in Memphis and the Mid-South have reached 20,000, according to information received from distributors.

With the coming of the Cable, there will come also, a tremendous new interest and a new and greater audience than ever before.

TV's Rising Cost

(Continued from *Telecasting 3*)

DuMont has pioneered in low-cost production, opened new time periods and developed profitable shows for inland stations and advertisers. Speaking of costs, he charged that prices must be about the same cost per thousand as in other media.

Because there are not enough hours to put TV on a sound and profitable basis even if all hours are sold, DuMont has gone extensively into daytime programming.

TV in movie theatres was discussed by Robert H. O'Brien, secretary-treasurer of United Paramount Theatres, New York. TV will alter but not replace theatre-going, because people will always want to leave their homes for entertainment, Mr. O'Brien said.

An opposing view, asserting that TV is moving the theatre into the home, was expressed by H. C. Bonfig, advertising manager of Zenith Radio Corp., who talked about Phonevision. "Only with it will broadcaster and talent make a living out of TV," he claimed.

Ralph Liddle of Commonwealth Edison, Chicago, was moderator of the theatre TV discussion.

Research Important

Research will play an important role in TV, according to Hugh M. Beville Jr., NBC's director of plans and research. Five leading fields in which research can help TV, he said, are improved set figures by markets, better and more frequent ratings, better measurement of TV audience size among non-set owner families, knowledge of how to build more effective commercials and documentation of TV's sales effectiveness.

He proposed that ratings be made every third rather than every four weeks because of shows aired bi-weekly. Reporting a large bonus for sponsors because of high non-owner viewing, he said a recent NBC New York survey showed the network has a total weekly audience of 20 million viewers five years old and over, 49% of which are outside TV homes.

Appearing with him were Dr. Charles L. Allen, director of research, Northwestern U.; A. C. Nielsen, president of the Chicago market research firm bearing his name; Lawrence Roslow, general manager, The Pulse Inc.; James Sepler, president, American Research Bureau; Charles Callard, vice president of Jay & Graham Organization (Videodex), and Ward Dorrell, vice president, C. E. Hooper Inc. Robert Salk of The Katz Agency, Chicago, was moderator.

Speakers on the opening panel were Robert Swezey, general manager, WDSU-TV New Orleans; Harry Bannister, general manager, WWJ-TV Detroit; Alexander Stronach, director TV program operations, ABC New York; Seymour Mintz, advertising manager, Admiral Corp., Chicago, and Jeff Wade, vice president in charge of radio and television, Wade Adver-

tising, Chicago. James Stirton, general manager of ABC's Central Division, moderated.

Video will support itself in any market because the impact is there, Mr. Swezey said. He is off the cable in a 20,000 set market. "We have a transom business already, and have reached the point where some of our radio advertisers are going into TV. We will be hurt in radio before long." Youth and imagination are prime requisites, he said.

Mr. Bannister, terming TV a constant news story because it has captured the public imagination, said video gives priceless publicity to advertisers. Discussing the 58 TV markets, which will not increase much in the next three years because of the "freeze" and time needed for allocation hearings, he anticipates between 14 million and 16 million sets by the end of next year will still be confined to 58 markets.

Mr. Stronach of ABC said "a tremendous educational job needs to be done before TV is economical. TV will never be cheap, but it will have to be cheaper if we are going to get the average budget client, the backbone of magazine and radio advertising."

Mr. Wade, whose major AM-TV account is Miles Labs. (Alka Seltzer, One-A-Day Vitamins), said TV is almost a must for the radio advertiser. Advertisers, however, are looking for economy in programming and sales effectiveness "like they've never looked before," he said.

Admiral Advertising Manager Mintz pointed up need for more accurate estimates in program costs. "We spent four times the original estimate on the *Admiral Broadway Revue*, for example," he said. An answer he recommended for

profit both ways—inexpensive daytime shows.

Problems of stations in various markets were outlined Tuesday morning by John Mitchell, manager, WBKB, (TV) Chicago, and his panel: Robert Lemon, sales manager, WTTV (TV) Bloomington, Ind.; E. Y. Flanagan, general manager, WSPD-TV Toledo; Roy McLaughlin, manager, WENR-TV Chicago; Hoyt Andres, assistant to the president, WKY-TV Oklahoma City, and F. Van Konynenberg, general manager, WTCN-TV Minneapolis.

"TV pays off—or does it?" was answered by A. L. Johnson, advertising manager, International Shoe Co., St. Louis; Budd Gore, advertising manager, Marshall Field & Co., Chicago; Phil Creedon, advertising manager, Edward Hines Lumber Co., Chicago; L. E. Waddington, radio director, Miles Labs, Elkhart, Ind.; Hal Rorke, radio director, J. Walter Thompson Co., Chicago, William Fisher, TV production director Young & Rubicam, Chicago, and Harry Goodman, president, Harry Goodman Productions, New York.

Holman Faust, account executive at Schwimmer & Scott, moderated.

Ten panelists appearing at the closing session were introduced by Arthur Holland, owner, Malcolm-Howard Agency, Chicago. They were Monte Fassnacht, WENR-TV; Norman Heyne, Ruthrauff & Ryan; Dick Liesendahl, WGN-TV; Jo Betzer, Sarra Inc.; Jerry Campbell, Campbell-Cahill Studio; Robert Knapp, Schwimmer & Scott; Norman Lindquist, Atlas Film Corp., all Chicago, and Arthur Fielden, Campbell-Ewald, Detroit; Carl Haverlin, Broadcast Music Inc., New York, and Gordon Kinney, Advertising Council, New York.

CONNOLLY NAMED

Heads CBS-TV Program Sales

THOMAS D. CONNOLLY, manager of CBS radio program sales since July 1948, last week was appointed manager of CBS-TV program sales.

Mr. Connolly

Mr. Connolly joined CBS as a member of the sales promotion department in 1939 after long service in department store sales and advertising. In 1940 he became director of program promotion of the network. In February 1948, he became assistant manager of program sales and was elevated to the managership the next July. He is a graduate of Harvard U.

WJIM-TV PLANS

Equipment Tests Start

WJIM-TV Lansing, Mich., commenced equipment tests on Thursday (March 9), Harold F. Gross, president and general manager, announced last week.

Owned by WJIM Inc., the new outlet operates on Channel 6 (82-88 mc) with power of 2.5 kw aural, 5 kw visual.

WHAS-TV Joins CBS-TV

WHAS-TV Louisville, Ky., affiliates with CBS-TV network as a full primary affiliate effective March 20. This brings to 57 the number of CBS-TV affiliates. The station replaces WAVE-TV Louisville, a secondary affiliate.

RADIO-TV

Video Survey

Results Show Viewing Habits;

BY MARY WOOD

Mary Wood's Cincinnati Post Survey verifies and confirms PULSE — HOOPER — VIDEODEX that WCPO-TV is Cincinnati's No. 1 TV Station.

We quote from Mary Wood's column of February 24th:

Best Shows on WCPO-TV!

- "two of top 3 shows are on WCPO-TV"

Most Popular Station!

- "WCPO-TV 1st — WLW-TV 2nd — WKRC-TV 3rd"

Enthusiastic TV City!

- "Viewers look 2 hours in afternoon and 4 hours 20 minutes at night in Cincinnati"

TELEVISION advertising in January dropped to 2,153 accounts from the 2,300 recorded in December 1949. The loss of advertisers was reflected in all three classifications—network, spot and local.

This is the first drop in total advertisers since the mid-summer slump of June-July.

Network advertisers dropped from 75 in December to 73 in January although the number of sponsored programs increased from 89 to 93. Spot accounts went from 427 to 393 and local business dropped from 1,800 to 1,687.

This information is based on the Rorabaugh Report on Television Advertising published by the N. C. Rorabaugh Co. December figures are from 89 reporting stations in 53 markets. January information is based on reports from 91 stations in 55 markets.

Network figures are obtained from the network's headquarters in New York and include all stations which were operating during the month. Spot and local figures are supplied by the stations. There were seven stations which did not report for the January 1-7 sample week. A like number were omitted from the December report.

ABC-TV lost two and gained two accounts between the months to retain its total of 15. Two accounts were added by CBS-TV to bring the January total to 33. DuMont, which had eight accounts in December, added one for a total of nine in January. One account also was added by NBC-TV for a January total of 36.

In point of stations used and time purchased, Goodyear Tire and Rubber Co. was the biggest ABC-TV advertiser. The firm placed its Paul Whiteman Goodyear Review on 40 stations for a half hour Sunday night. Young & Rubicam is the agency. On CBS-TV, Crosley Div. of Avco Mfg. Co. backed This

Is Show Business on 53 outlets. The half-hour, weekly show was placed through Benton & Bowles. In amount of time purchased, Westinghouse Electric Corp. was the big CBS-TV advertiser. Through McCann-Erickson, the firm placed Studio One on 41 stations for an hour Monday nights.

Allen B. DuMont Labs sponsored the Morey Amsterdam Show on 31 DuMont stations for a half-hour on Thursday night through Campbell-Ewald. In point of time purchased, Drug Store TV Productions backed Cavalcade of Stars for an hour Saturday night on 19 DuMont stations. S. B. Fisher is the agency. Sponsor using the largest number of NBC-TV stations was RCA Victor. The firm placed Kukla, Fran & Ollie on 56 stations for a half-hour on Monday and Friday nights through J. Walter Thompson. The edge in time purchase went to another advertiser of radio and TV sets, Philco Corp. This sponsor backed Philco TV Playhouse for an hour on Sunday night on 54 NBC-TV stations, according to Rorabaugh. Hutchins placed the business.

49 Agencies Buy

There were 49 agencies that bought network television time in January.

The largest spot account to be added in January, in point of stations used, was the Buick Motor Div. of General Motors Corp. The motor company placed business on 54 stations through Kudner Agency, New York. A special 10 day schedule for Ladies Home Journal was placed by Curtis Publishing Co. on 37 stations through BBDO, New York.

Dodge Division of Chrysler Corp., which had placed business on five stations in December, promoted its new cars heavily in January by increasing the schedule to 52 sta-

tions, according to Rorabaugh. Ruthrauff & Ryan handled the account. Another automotive advertiser, Chevrolet Division of General Motors, upped its spot schedule from one station in December to 26 in January through Campbell-Ewald, Detroit.

There were 283 agency offices which placed television spot accounts during January.

In the local field Los Angeles led all other cities with 17.3 different advertisers on its seven stations. In a poor second, Rorabaugh reports 75 advertisers on the Philadelphia stations and 66 in Columbus. One Columbus station

did not report local business.

Of the stations reported by Rorabaugh for January, KFI-TV Los Angeles led in the local field with 74 advertisers. WTMJ-TV Milwaukee had 54 local accounts and WSPD-TV Toledo showed 53.

In terms of total number of accounts WTMJ-TV led the January report with 137. WBEN-TV Buffalo was second with 128.

There were more advertisers of food and food products using television during January than any other product classification. A total of 367 different firms used the medium on the network, spot and local level (see table).

March 7 Decisions . . .

BY COMMISSION EN BANC

Extension Granted

WSM-TV Nashville, Tenn.—New commercial TV station granted extension of completion date to 9-1-50.

Hearing Designated

Tri-State Bestg. Co., Summerville, Ga.—Designated for hearing application for new station on 910 kc 1 kw D only to be heard with application of Tri-Cities Bestg. Co. to change facilities of WJIG Tullahoma, Tenn. from 740 kc 250 w-D to 910 kc 250 w D 100 w-N and change geographic coordinates, hearing to be in Washington, D. C.

Request Granted

WWOK Cooperative Radio Co., Flint, Mich.—Granted request to continue to remain silent to March 25, 1950, at which time if station is not ready to resume operation it will be deemed to have abandoned its license. Station has been silent since Dec. 24, 1949, pending sale negotiations.

Hearing Designated

WWNR Beckley, W. Va.—Designated for hearing, at Washington application to change facilities from 1450 kc 250 w unl. to 620 kc 1 kw unl. and made **WROL Knoxville, WLBZ Bangor, Me.,** and **WTMJ Milwaukee** parties to proceeding.

KXLA Pasadena, Calif.—Designated for hearing, at Washington application to change DA pattern for day use, change trans. location (geographical coordinates only) and remove license cond. imposed by Commission (1110 kc 10 kw DA-2) afforded KXLA opportunity to show cause why license should not be modified to reduce power to protect KFAB Omaha, and made latter party to proceeding.

KNEB Scottsbluff, Neb.—Designated for hearing at Washington application for CP to change facilities from 970 kc 1 kw D to 960 kc 500 w-N 1 kw-D with DA and made **KMA Shenandoah, Ia.; KGWA Enid, Okla.,** and **KFEL Denver, Col.** parties to proceeding.

KTOW Oklahoma City, Okla.—Designated for hearing at Washington application for CP to change facilities from 800 kc 250 w D to 590 kc 1 kw unl., install new trans. change trans. location and install DA-2, and made **WOW Omaha, Neb.,** and **WBAP Fort Worth, Tex.** parties to proceeding.

Advise Commission

Syndicate Theatres Inc., Columbus, Ind.—By letter requested applicant to advise Commission within 30 days which application for new standard station at Columbus it desires to prosecute—one bearing file no. BP-4179 seeking 1130 kc 500 w D or one tendered Jan. 20, 1950 seeking 1010 kc 1 kw, D.

Condition Removed

WHKK Akron, Ohio—On request removed condition in CP and license to read: "The authority herein is granted subject to cond. that on notice from Commission permittee/licensee shall take appropriate steps immediately through mod. of ant. or reduction in power so as to reduce interference to CBN Newfoundland, to a value not in excess of that caused by WHKC Columbus, with power of 500 w employing non-directional ant."

Extension Denied

WFNS Burlington, N. C.—Denied application for extension of completion date for CP which authorized change in hours of operation and install DA-N operation; advised applicant that if it desires hearing, request should be made within 20 days.

WKAT Miami Beach, Fla.—Denied application for extension of completion date for CP which authorized new vertical standard broadcast ant. for station WKAT, and install combined TV-FM ant. advised applicant that, if it desires hearing, request should be made within 20 days.

CP Granted to Replace CP

Louisiana Bestg. Co., New Orleans, La.—Granted CP to replace CP which authorized new AM station on 1540 kc 25 kw-N 50 kw-D DA-2; eng. cond.

Hearing Designated

KPLW Floydada, Tex. and Tul'e Bestg. Co., Tulia, Tex.—Designated for consolidated hearing at Washington, application KPLW for mod. CP which authorized new station on 1570 kc 250 w D at Plainview, Tex. to change to 900 kc and move to Floydada, and application of Tul'e Bestg. Co. for CP for new station at Tulia, Tex. on 900 kc 250 w D.

KPRS Olathe, Kan. and KRES St. Joseph, Mo.—Designated for consolidated hearing application of KPRS to change from 1590 kc 500 w day to 1550 kc 1 kw D and application of KRES to change from 1230 kc 250 w unl. to 1550 kc 5 kw unl. DA-N. It was further ordered that, if, as a result of consolidated proceeding, it appears that, were it not for issues pending in hearings regarding Clear Channels and Daytime Skywave Transmissions and Commission's policy pertaining thereto of Aug. 9, 1946 and May 9, 1947, public interest would be best served by grant of application of Johnson County Bestg. Co. Inc., then said application shall be returned to pending file until after conclusion of said hearings, at which time it will be considered in connection with any other pending applications with which it may then be in conflict.

Alvin E. O'Konski, Menominee, Mich. and Door County Radio Co., Sturgeon Bay, Wis.—Designated for consolidated hearing at Washington mutually exclusive applications for each to construct new station on 1490 kc 250 w unl.; **WOSH Oshkosh, Wis.,** was made party to proceeding.

WTVL Waterville, Me. and WGUY

Bangor, Me.—Designated for consolidated hearing at Washington application of WTVL to change frequency from 1490 kc to 1230 kc and WGUY to change from 1450 kc to 1230 kc.

Petition Granted

Central Ohio Bestg. Co., Galion, Ohio—Waived Sec. 1.389 of rules and granted joint petition by WIND WJLS WCPM WKRC and WKBN to enlarge issues by amending hearing order of Oct. 21, 1949 to include determination of financial qualifications of applicant to construct new station on 580 kc 1 kw D.

Issues Enlarged

WDZ Decatur, Ill.—On motion of American Bestg. Station Inc., licensee of WMT Cedar Rapids, Ia., enlarged issues in hearing on application of WDZ for mod. CP to include issue to determine overlap, if any, which will exist between service areas of WDZ as proposed at Decatur and of WMBD Peoria, and whether such overlap, if any, violates Sec. 3.35 of Commission rules.

Petition Denied

KGMI Denver, Col.—Denied petition for reconsideration and grant without hearing of extension of completion date to construct station KGMI now in hearing.

BY THE SECRETARY

WTJH East Point, Ga.—Granted request for voluntary assignment of license from individual licensee James S. Rivers to partnership, Radio Station WTJH; transferor will own 90% interest and his wife Doris R. Rivers will own 10% interest. No monetary consideration.

Radio Electronic Television School—FM Division, Detroit—Granted CP for reinstatement of CP which authorized new experimental TV station KQ2XBB.

Paramount Television Productions Inc., Los Angeles—Granted CP for new remote pickups KA-5986-7. Subject to condition it is without prejudice to any action Commission may take with respect to outstanding authorizations or applications of grantee in light of Supreme Court's decision in United States v. Paramount Pictures Inc. et al. 334 U. S. 131.

WHCU-FM Ithaca, N. Y.—Granted CP to use aux. trans.

Durham Radio Corp., Durham, N. C.—Granted CP and license for new STL KIB-70.

Following granted mod. CPs for extension of completion dates as shown: **WCPO-TV Cincinnati, to 5-9-50; WBCR-TV Birmingham, Ala. to 10-1-50; WSYR-TV Syracuse, N. Y. to 9-12-50; WBTW Charlotte, N. C. to 9-30-50; WRFD-FM Worthington, Ohio to 6-7-50; KRIC-FM Beaumont, Tex. to 9-6-50; KFVS-FM Cape Girardeau, Mo. to 9-25-50; WHO-FM Des Moines, Ia. to 9-1-50.**

KRCC Prineville, Ore.—Granted license for new AM station; 690 kc 1 kw D.

KJAY Topeka, Kan.—Granted license for new AM station and specify studio location: 1440 kc 5 kw-D 1 kw-N DA.

KWBG Boone, Ia.—Granted license for new AM station; 1590 kc 1 kw D. **WMVA-FM Martinsville, Va.**—Granted license new FM station, Chan. 242; (96.3 mc) 2.7 kw, 380 ft.

E. E. Krebsbach, Sidney, Mont.—Granted license for new remote pickup KA-4546.

Frank E. Hurt & Son, Inc., Nampa, Idaho—Granted license for new remote pickup KA-3199.

United Bestg. Co., Akron, Ohio—Granted licenses for new remote pickups KA-5411-2-3-4.

Triangle Publications Inc., Philadelphia—Granted license new experimental TV relay KA-5035.

WHAS, Inc., Louisville, Ky.—Granted license for changes in existing remote pickup KIB-367.

Following granted CPs and licenses for new remote pickups: **KA-3889 Ogden, Utah; KGA-897 Philadelphia; KA-2026 Philadelphia; KA-3499 Twin Falls, Ida; KA-3157 San Francisco;**

WAKR UPHELD

Disc Jockey Held To Contract

ALAN FREED, former WAKR Akron, Ohio, disc jockey, has been ordered by Summit County Common Pleas Court not to broadcast in the Akron area.

Judge B. J. Roetzel, handing down a decision in favor of WAKR Akron, granted the station's plea to prevent Mr. Freed from broadcasting over any station within 75 miles of Akron. This follows terms of a contract between Mr. Freed and the station and covers a one-year period.

Mr. Freed left WAKR Feb. 11. Three days later, it was testified, he started a disc show over WADC Akron, as an employe of a local advertising agency. After the first broadcast the court granted WAKR a temporary injunction and made it permanent Feb. 28.

Mr. Freed declared he would appeal the ruling.

The WAKR-Freed contract, dated Feb. 11, 1948 and expiring Feb. 11, 1950, included this provision:

It is further understood and agreed by the parties hereto that the employe (Alan Freed) will not accept employment directly or indirectly from any other radio station in Akron or within a radius of 75 miles of Akron, nor will employe directly or indirectly broad-

* cast over or through any other radio station in Akron or within a radius of 75 miles of Akron, for a period of one year from the date of the termination of his said employment, whether said employment terminates or is cancelled pursuant to the terms of this contract during or at the end of the first, or during or at the end of the second year covered by this contract.

It is the intention of the parties hereto that since the employer has expended large sums of money in training, directing, and publicizing employe in order to increase his popularity among the listening audience, that the parties hereto agree that the employer is entitled to protection following and subsequent to the period of employment of the employe by this employer, and to that end the employe agrees to the restrictions provided for in this paragraph. The protection referred to herein is to the end that other radio stations in Akron or within a radius of 75 miles of Akron shall not have the right nor be entitled to capitalize upon any popularity or following acquired by the employe while in the employment of the employer.

request 980 kc 1 kw unl. and change name to Fort Bend Bcstg. Co. instead of Julius E. Junker, trustee for Fort Bend Bcstg. Co.

Management

JONES EVANS appointed general manager of WHWL Nanticoke, Pa., succeeding **MILTON LAUGHLIN**, resigned. Mr. Evans entered radio in 1927 at WBRE Wilkes-Barre, Pa., later moving to WBAX same city as commercial manager. For past three years he has freelanced. Mr. Laughlin moves to WAEB Allentown, Pa.

HUGH M. SMITH, formerly manager of WGWC Selma, Ala., and before that general manager and part owner of W L A U Laurel, Miss., appointed general manager of Covington Stations, WCOV - AM - FM Montgomery, and WGWC Selma, Ala.

Mr. Smith

DAVID H. BROWN, previously partner in legal firm representing WOR New York, and MBS, opens his own law office for general practice at 70 Pine St., New York. He will give special attention to radio and related matters.

ELMER J. and **JOHN G. BUCKNUM**, owners, assume active management of KBUC Corona, Calif., following

resignation of **JOHN PIERSON**, station manager. **MARY BUCKNUM** is commercial manager.

EARL H. GAMMONS, CBS Washington vice president, is confined to his apartment at the Wardman Park Hotel with a mild case of virus pneumonia.

JOHN J. A. MICHEL, recently retired U. S. Navy lieutenant commander, appointed supervisor of Employee Services Section of NBC. He succeeds **DONALD BOGART**, resigned.

EUGENE P. WEIL, supervisor of sales for WGY, WRGB (TV) and WGFM (FM) Schenectady, N. Y., is winner of Toastmasters International contest, held in Schenectady. **H. H. SOLOMON**, also of the same stations, placed third in contest.

HARRY SEDGEWICK, president of CFRB Toronto, and director of Canadian Assn. of Broadcasters, is in England negotiating with British advertisers to use radio in Canada to promote their export sales.

JOHN H. POOLE, owner of KSMA-KRJM-FM Santa Maria, Calif., and **KALI** Pasadena, is the father of a boy, John Jr.

SKYWRITER...

DULUTH, MINN.—“Had to get way up here with my rearocket to read the zooming Retail Food Sales figures for the Duluth-Superior Market,” gasps Otto Mattick. “And to add a note about KDAL helping them get this high.” Otto’s right on both counts. Food sales are higher here. This is now America’s 51st Food Market. And KDAL has helped attain this position. Ask our food accounts. They’ll tell you how we dominate the audience in the nation’s 51st Food Market. And how we’ve zoomed sales for them. We can do it for you, too.

Now is the time to put KDAL on the list for your next food campaign. Avery-Knodel will be glad to give you availabilities.

BUYING POWER

Johnson Cites Rise In 1950

EACH “listener that U. S. advertising reaches in 1950 will have on the average 39% more purchasing power than in the ‘good’ pre-war year 1940.”

That was the statement made by Arno H. Johnson, vice president and director of media and research, J. Walter Thompson Co., as he summed up facts on the existing economy for the Advertising Club of Washington at a luncheon last Tuesday.

Pointing out that this means “real” purchasing power, after full correction for both higher taxes and higher prices, the agency executive cited as one important factor the impending maturity of U. S. Savings Bonds—bond maturity begins this year at the rate of \$1 billion and increases steadily for three years to a peak of over \$8 billion, then levels off to an average yearly redemption of over \$5 billion.

Saying that many business men underestimated buying power during 1949, he cited as an example cut-backs on television set production by manufacturers and on their inventories by retailers. Before the end of 1949 television sets were in such great demand that one major New York retailer suspended advertising because he didn’t like to encourage buying when sets couldn’t be delivered, Mr. Johnson said.

Giving a quick run-down of the facts, Mr. Johnson said:

- Total real consumer purchasing power can be 6% above 1949 (which would be 60% over 1940).

- In 1950 real purchasing power per capita can be 3½% above 1949 (which would be 39% increase over 1940).

- In 1950 surplus income over basic living standards can be 6% over 1949 (or four times as large as 1940).

- In 1950 markets for “goods and services” can be \$10 billion greater than 1949.

- Consumer debt is unusually low in relation to disposable income or individual savings.

- Consumer holdings of liquid assets are 3½ times 1940, with

double the purchasing power.

Mr. Johnson pointed out that “we need a recognition of the opportunities that exist for increased markets.” The delicate balance between recession and prosperity can be kept safely on the side of prosperity in 1950, he said.

OKLAHOMA MEET

Coy Scheduled To Speak

FCC CHAIRMAN WAYNE COY is scheduled to give the principal address at tomorrow night’s (March 14) closing session of the fifth annual U. of Oklahoma radio conference which opened Sunday in Norman. Richard P. Doherty, director of NAB’s Employee-Employer Relations Dept., is set to address tonight’s meeting. His subject will be “Economic Trends and the Broadcasting Business.”

Theme of the Oklahoma meet is “Great Expectations,” according to Dr. Sherman P. Lawton, conference chairman and coordinator of radio instruction at Oklahoma. In attendance are station managers and personnel, advertising agents and radio students from the southwest.

Sessions are scheduled on sales and market problems, news television, FM and problems of getting started in the industry. Opening day of the conference was largely devoted to demonstration broadcasts by students from southwestern colleges and universities. Meetings are being held at the extension study center on the north campus and in the radio instruction laboratories on the main campus.

FIFTH Annual National Gagwriters Convention will be held in New York March 31. The National Laugh Foundation will present its seven “Comedy World Awards” during convention.

HOWARD CHAPIN

Aids McCloy in Germany

HOWARD M. CHAPIN, advertising director of General Foods, is slated to return to the United States in about two weeks to complete a special 45-day assignment as a consultant to U. S. High Commissioner for Germany John J. McCloy, the State Dept. said last week.

Mr. Chapin’s activities centered at Frankfurt where he has been advising Commissioner McCloy. The State Dept. said Mr. McCloy, who also acts as ECA administrator for Germany, requested Mr. Chapin’s aid. Comr. McCloy, the State Dept. added, is authorized to make requests for consultants from time to time.

Respects

(Continued from page 84)

work is appalling, rejected parental offers to stake him to a legal education. He took a fulltime job as a draftsman with the New York City Board of Transportation to pay his way in Fordham Law School at night.

Despite the fact he was working at a fulltime job, he finished law school in par—three years. That was 1928. He had a degree in naval architecture, a bachelor's degree in law, and a furious desire to marry a girl he had met four years before at a Webb school dance. But he still felt uneducated and too impoverished to wed.

He took a job with a New York law firm, Hunt, Hill & Betts, and transferred to New York U. Law School to take his Master of Laws degree, again confining his academics to the night.

Today Mr. McDonald's recollection of the period of his Fordham and New York U. legal studies is featured by a feeling of vast relief that it is over.

"I still feel naked whenever I find myself on the Third Ave. El without a stack of law books," he said recently. The Third Ave. El was his transportation between work and law school.

He obtained his master's degree in one year and continued with Hunt, Hill & Betts until Jan. 1, 1932.

Joined NBC in 1932

Until a friend, who had joined the NBC legal department, pointed out the wonders of radio, Mr. McDonald was still bent on a career of admiralty law. He scuttled that notion when, on Jan. 1, 1932, he accepted a position as staff attorney at NBC.

Meanwhile, believing that his mind was trained enough to keep him from starving, Mr. McDonald married Louise Cruger Muth, the girl he had met at the Webb dance in 1924.

It is a testimonial to his talents for conciliation that one of Mr. McDonald's good friends today is the fellow student who was the date of Miss Muth at the dance and who incautiously introduced her to Mr. McDonald.

The McDonalds now have three children, Joseph F., 13, Louise, 10, and Ruth, 6. They live in suburban Pelham, N. Y.

After Mr. McDonald had served on the New York legal staff of NBC for five years, he was transferred to the network's Central Division in Chicago as attorney. It was during his service there that he first became involved in labor negotiations. This was the period

in which AFRA was organizing in Chicago, and Mr. McDonald was influential in the broadcasters' negotiations with the talent union.

When he was reassigned to the network's New York headquarters as assistant general counsel in 1943, he was counted at least a fledgling expert in labor matters. Accordingly, he found himself handling NBC's interests in the then raging jurisdictional dispute between the AFM and NABET over representation of turntable operators.

In February 1945 he joined ABC as general attorney. He was appointed secretary of the corporation soon afterward and was elected a vice president Nov. 15, 1946.

Mr. McDonald is a member of the New York and Illinois bars, a member of the Copyright Committee of the Bar Assn. of the City of New York, the Communications Committee of the American Bar Assn., the Communications Committee of the New York County Lawyers, the FCC Bar Assn., the Illinois and Chicago Bar Assns., and the Employer-Employee Relations Committee, the Legislative Committee and the Music Advisory Committee of the NAB.

BMI Director

He is a director of Broadcast Music Inc. and of Television Broadcasters Assn. He belongs to the Pelham Country Club and is president of the Webb Institute Alumni Assn.

He is one of the few high executives in radio who regularly keep office hours on Saturdays. What with his ABC responsibilities and industry-wide activities, he has little time for recreation.

One avocational hope entertained by him and Mrs. McDonald is the acquisition of a boat. They owned a sloop when they were first married but sold it when he was transferred to Chicago. They are at the stage now of shopping for another. Meanwhile, Mr. McDonald's principal recreation is bowling.

KRND Los Angeles has received special award from Greater Los Angeles Chapter, National Safety Council for its recent weekly program on home safety.

McANDREW NAMED

Heads Radio Correspondents

WILLIAM R. McANDREW, general manager of NBC's WRC and WNBW (TV) Washington, was elected president of the Radio Correspondents' Assn. at a meeting in Washington last Tuesday. Mr. McAndrew succeeds Elmer Davis of ABC who becomes ex-officio member of the board.

Others named were: Vice president, Francis W. Tully Jr., Washington Reporters Inc.; secretary, Bill Shadel, CBS; treasurer, Hollis Seavey, MBS; members at large, George Marder

of United Press Radio, George Reedy of Arrowhead Network, and Rex Goad of Transradio Press.

Mr. McAndrew is one of the 32 charter members of the Radio Correspondents' Assn. and is one of four members of the original executive board which activated the Senate Radio Gallery in 1940. He formerly served as Washington director of news and special events for the NBC network. Mr. McAndrew joined NBC in 1936 and was executive news editor of BROADCASTING from 1940 to 1942. He returned to NBC in 1944.

Guild Cites Two Stations

CITATIONS for outstanding achievement in radio were voted fortnight ago by New York Newspaper Guild to two New York stations, WMGM for *Books on Trial*, and WQXR for outstanding music programs.

WILLIAM D. SHAW, former assistant sales manager for CBS Pacific Network, and KNX Los Angeles, Columbia-owned station, will join CBS Radio Sales New York, effective April 1. He replaces **MILTON F. ALLISON**, now assistant sales manager of WBBM [BROADCASTING, Feb. 20].

ARNOLD JACK GREGORY, formerly salesman with KOOL Phoenix, Ariz., appointed head of national sales for station. Before joining KOOL he was with KOY and KPHO that city.

WOV New York appoints **John E. Pearson Co.** as national representative.

JOHN P. ROHRS, Pearson Co. employe in Chicago, will concentrate exclusively on selling WOV business in the midwest. Appointment was effective March 8.

JOHN SCHMULBACH, formerly with sales staff of WABY Albany, N. Y., joins sales staff of WGY Schenectady as account executive.

CECIL RICHARDS appointed senior sales representative of WQQW-AM-FM Washington. He formerly was commercial manager of WBCC Bethesda, Md.

TOM FRANSEN, formerly account

executive at KMPC Hollywood, named sales manager.

BERT LIBIN, formerly with WOL Washington and before that radio and TV director of Bert Sarazen Adv., New York, joins commercial staff of WWDC Washington, as account executive.

WBBM Chicago issues rate card #23, which was effective March 1.

JACQUELINE M. DODGE, formerly with NBC, ABC and Booth, Vickery & Schwinn, New York, joins WDTV (TV) Pittsburgh, as account executive.

WALLACE BRAZEAL, formerly with KXLY Spokane, joins KYA San Francisco as salesman.

DAN CARR, formerly manager of Guild Radio Features Ltd., Toronto, appointed commercial manager of CKOY Ottawa.

ROGER S. UNDERHILL, formerly general manager and sales manager of WICU (TV) Erie, Pa., appointed director of sales for WJIM-AM-TV Lansing, Mich.

DICK PARKER, former account executive and disc jockey with WBBM Miami Beach, Fla., appointed commercial manager of station.

DANIEL F. GREENHOUS, formerly California factory representative for nationally advertised products, named director of Television Sales, subsidiary of KTTV (TV) Inc., Hollywood. He will direct TV program production and distribution nationally for firm. Subsidiary was formerly titled Television Recordings Ltd.

JOHN H. SLAYTON joins sales staff of KXOK-FM, St. Louis Transit Radio station.

GUSTAVE NATHAN, former salesman at WWCO Waterbury, Conn., appointed commercial manager, succeeding **FORD BILLINGS**, resigned.

SCOTT DONAHUE Jr., acting sales manager of WPIX (TV) New York since last October, joins New York television sales staff of The Katz Agency Inc., station representatives.

THE KATZ AGENCY, national advertising representative, moves its San Francisco office from Monadnock Bldg. to new quarters in Russ Bldg.

HENDERSON MOVES

WFBC Airs Dedication Show

LOCAL, state and national dignitaries were heard in a broadcast originating from WFBC Greenville, S. C., when new quarters of the Henderson Advertising Agency in Greenville were dedicated.

The agency, established some three years ago by Jim Henderson, was congratulated by Gov. J. Strom Thurmond, Senators Burnet Maybank (D-S. C.) and Olin D. Johnston (D-S. C.), Rep. Joseph R. Bryson (D-S. C.) and Mayor J. Kenneth Cass of Greenville. The Feb. 26 broadcast was transcribed for delayed broadcast by WKIK Columbia, S. C.; WAYS Charlotte, N. C., and WCOG Greensboro, N. C.

LOCKE RETIRES

Hite Heads Tracy-Locke

RAYMOND P. LOCKE, president of Tracy-Locke Co. Inc., Dallas advertising agency, last week announced his retirement from the firm which he founded in 1913. His stock interests in the company have been purchased by his Tracy-Locke associates, Mr. Locke said.

Morris L. Hite, executive vice president who has been with the company since 1937, succeeds Mr. Locke as president. **Clay W. Stephenson**, with the firm since 1948, has been elected to the board of directors and will serve as executive vice president. In another organizational change, **John H. Wellenkamp**, in addition to his duties as vice president and treasurer, becomes general manager of service operations, a newly created post.

Two additions to the staff also have been announced. **Philip McHugh**, formerly with CBS in New York and Brown Radio Productions Inc., Nashville, was appointed head of the radio and television department. **Herbert Lehman**, formerly with the Bruce B. Brewer Advertising Agency's Minneapolis office, will serve as account executive.

In announcing his retirement, Mr. Locke also stated: "My retirement is according to long-range plan, as projected in 1913 when I first entered the advertising agency business on my own. I have worked hard and conscientiously; always our clients have been first. For all these 37 years, we have subscribed to the philosophy that 'advertising must pay its way and pay a profit'."

Leonard D. Taylor

LEONARD D. TAYLOR, 51, former account executive for WNJR Newark and WJZ-TV New York, died of virus pneumonia March 2 in Montclair, N. J., after a brief illness. Mr. Taylor also served with the Hearst papers in Chicago for 10 years. In recent months, he had been associated with Video Varieties Corp., New York.

ROY THOMPSON

W 25 years of radio experience and personal participation in his community's projects and services have made Roy Thompson a household word in industrially-rich Altoona. **WRTA**, the Roy Thompson Station, will assure you a loyal, buying audience throughout the listening hours.

NIGHTTIME BIDS FCC Turns Down 4 Daytimers

BIDS of four daytime-only stations requesting special night operation authority were turned down by FCC last week as being contrary to the North American Regional Broadcasting Agreement, now being renegotiated. Meanwhile, WKSR Pulaski, Tenn., has asked for night operation on grounds NARBA is no longer legally effective.

In a memorandum opinion and order, the Commission denied the requests of WPIT Pittsburgh, WKYW Louisville, WACE Chicago, Mass., and WIVY Jacksonville, Fla., stating the frequencies involved are clear channels assigned to Mexico for Class I-A outlets under NARBA and according to the "gentlemen's agreement" with Mexico the U. S. has agreed to assign only Class II stations on these channels.

FCC said since both Mexico and the U. S. have "continued to abide by the terms" of the agreement, "we are unwilling to embark upon a course of action which will violate heretofore well-established basic principles and regulations which have governed and continue to govern the use of the standard broadcast band as between countries of North America." FCC noted also that NARBA is being renegotiated.

WKSR, assigned 250 w daytime

on 730 kc, has asked for 100 w night operation. The station said NARBA is no longer law and likewise the "gentlemen's agreement." WKSR wished to provide Pulaski its first local night service. WPIT, also on 730 kc with 1 kw day, had requested 250 w at night while WACE, on that channel with 1 kw day, wanted 1 kw directional operation at night. WKYW, on 900 kc with 1 kw day, sought 100 w at night and WIVY, on 1050 kc with 1 kw day, wished to operate additionally from 6 a.m. to local sunrise.

Suspension Denied

WGNB (FM) Chicago, companion operation of WGN there, was denied permission by FCC last week to go off the air as a power conservation measure. WGNB said it wished to cooperate with the blanket order of the Illinois Commerce Commission requiring all commercial users of electricity to cut consumption 25% during the coal shortage. FCC's wire to WGNB said in part:

"The Commission is concerned with proposal to completely curtail FM service. If the emergency justifies you in keeping your FM station silent, the same considerations would seem to require you to curtail operations of your AM and television stations."

CJGX Yorkton is to increase power from 1 kw to 5 kw early in the spring. Northern Electric transmitter will be installed.

News

ROBERT KNOUSE, formerly news editor KTSA San Antonio, Tex., joins KWKW Pasadena, Calif., in same capacity.

RICK WEAVER, formerly sports director at WCAV Norfolk, Va., WPDQ Jacksonville, Fla., and KSJO San Jose, Calif., joins WGCM Gulfport, Miss., as sports director.

HARRISON WOOD, former Don Lee Network news analyst, joins MBS, effective March 20, with new series of programs, Mon.-Fri., 11-11:15 p.m.

NELSON BAKER, formerly staff announcer with WFBR Baltimore, joins WBAL same city, to do *Sports Page of the Air*, daily, 11:05-11:15 p.m., sponsored for 52 weeks by Isaac Hamburger & Sons, Baltimore.

TOM KOCH, member of WBBM Chicago news staff, is author of *Tournament Trial*, novel about Indiana State Basketball Tournament, published last week by Lothrop, Lee & Shepard, New York.

FCC BAR ASSN.

By-Passes Applicant Policy

EXECUTIVE committee of the Federal Communications Bar Assn. has decided not to participate or file any comments in the FCC proceedings relating to a uniform policy for applicants who have violated U. S. laws other than the Communications Act [BROADCASTING, Jan. 30, Feb. 6, 20]. FCBA President Neville Miller last week said this action was because the case relates to substantive questions of law rather than procedural ones.

Percy H. Russell Jr., chairman of the FCBA's committee on practices and procedure, which recommended the bar group not take part, observed that the Commission has not instituted a rule-making proceeding but proposes in lieu thereof to enunciate a policy statement which cannot have the same effect and force as a rule. FCC has postponed its hearing in the case until April 24, with comments accepted by April 10.

WVSH Dedicated

DEDICATION of WVSH Huntington, Ind., 10 w educational FM station, has been announced by the Huntington school system. Operating on 88.1 mc, WVSH now has a regular broadcast schedule of one hour each school day. Programs include participation by pupils from both grade schools and high school, transcribed shows containing material for classroom use, and broadcast of a sectional basketball tournament. M. McCabe Day is director of WVSH.

TV stole what PM audience from what AM?

In Radio's 3rd year of TV, the evening share of audience for "90, TV and all others" soared from 23% in 1948 to 32% in 1950. Many of the TV, of course, and probably had to come from AM during evening hours.

But what station?

Apply the answer to WGNB's 1949 figures with the comparable report of 1948. All unaffiliated stations individually lost from 7% to 5.9%. And the total, inevitably, showed a corresponding loss for "90, TV and others."

On the other hand, one station rather held its evening audience — and even gained before TV competition. The independent station — the Herald-Examiner station WJXD — demonstrated the power of non-commercial programming in competition with fare in the house.

Here with TV in the picture, Radio's evening audience continues to be your friend, but try to listen early.

Station	1948	1949	1950	1951	1952
WGNB	23.0	21.0	22.0	21.0	21.0
WJXD	2.0	2.0	2.0	2.0	2.0

COMMUNITY COVERAGE

WTAG Wins Praise From Its City Government

WTAG-AM-FM Worcester, Mass., has been cited officially for its efforts to tell the public about the city's new council-manager form of government. In passing a unanimous vote of thanks, the Worcester city council specifically cited the current *Your City Government* show, a weekly presentation Sunday at 12:50 p.m.

Giving city officials a chance to inform the public on what is going on at City Hall, the program each week features two councilmen who discuss problems being tackled under the recently established "Plan E" form of government. The last program each month is taken over by the city manager who reports on progress for that month.

WTAG-AM-FM has been providing this type of coverage since last fall when the city started to vote under a new form of city government. Instead of the old mayor-council system, the voters now faced rule under proportional representation, a system with which they were unfamiliar.

Hess Series

Realizing the necessity for public education, WTAG introduced a weekly series done by Clyde Hess, the station's news analyst. Figuring that the best way to get information on the new government was to ask the cities that already had it, Mr. Hess questioned authorities in five cities already operating under council-manager government. General theme of his questions was, "How is this council-manager form of government working for you folks? Do you like it? Is it practical?"

The answers were recorded by respondents and air-mailed back to WTAG. Then Mr. Hess took the discs, wove them into "interviews" which were filled out with his own

comments and interpretations of the answers in terms of Worcester's problems. This series ran for the five Sundays preceding the elections.

The show, *A Plan of Two Cities*, so impressed the Massachusetts Committee for the George Foster Peabody Radio Awards that it was given first award for public service in the Bay State.

Several other programs of this type were used, including the question-and-answer series, *The ABC's of Plan E*, done by Newsman Dick Jacobs and also running up to election time.

The *Your City Government Show*, planned for a limited run, proved so popular that the program is now a permanent part of the WTAG-AM-FM schedule.

DECCA RECORDS Inc., New York, declared quarterly dividend of 12½ cents per share on capital stock, payable March 28 to stockholders of record at close of business March 14.

TAB SESSION

All Officers Are Re-elected

OFFICERS and directors of Tennessee Assn. of Broadcasters were re-elected Feb. 24 at the annual TAB meeting held in Nashville; with 125 delegates attending an all-day session.

President F. C. Sowell, WLAC Nashville, said TAB now has 40 station members. He reported the "Let's Sell Optimism" promotion campaign had proved successful, with stations in a dozen states now conducting drives based on the TAB format.

An agency panel stressed importance of setting rate and coverage policies and sticking to them. Taking part were Hugh Murphy, Lake-Spiro-Shurman, Memphis; Albert Noble, Noble-Dury & Assoc., Nashville; John Fontaine, Nelson Chesman Co., Chattanooga.

Maurice B. Mitchell, director of Broadcast Advertising Bureau, took over the afternoon. Henry W. Slavick, WMCT (TV) Memphis and a retiring NAB director, reviewed the growth of TV in Memphis and said it has not reduced the volume of AM advertising. Harry Stone, WSM Nashville, described his recent trip to Germany with a *Grand Ole Opry* troupe.

Officers of TAB are Mr. Sowell, president; Earl W. Winger, WDOD Chattanooga, vice president; Jack M. Draughon, WSIX Nashville, secretary-treasurer. Board members are T. B. Baker, WKDA Nashville; John P. Hart, WBIR Knoxville; Marshall H. Pengra, WATO Oak Ridge.

KOCS Shuffle

CARLTON R. APPLEBY, manager of Ontario (Calif.) *Daily Reporter*, in a reorganization has in addition assumed supervising management of the newspaper-owned KOCS. He takes over duties of Stanley Davis, assistant manager, who resigned. Active department heads are Floyd Hall, business manager and chief engineer; George Crofford, program director, and James Rennie, commercial manager.

Promotion

SMOOTHLY running activities between station executives and school officials resulted in "High School Day" on KVOR Colorado Springs, Col. Between 6:45 a.m. and 11 p.m. Feb. 28, virtually every job on staff was taken over by 60 high school students, chosen from 100 who applied. Students had been practicing during previous week and were able to handle news writing and announcing chores with comparative ease. Staff members supervised all activities, but none of their work appeared on the air. Even selling activities were handled by students. Unprecedented number of calls were received commenting on day, station reports.

Pictured Promotion

SINGLE-page bulletin, with pictures of live studio shows featured on WAAM (TV) Baltimore, illustrating station's program line-up, sent to trade by WAAM. In center of page, surrounded by pictures which bear short outlines describing show's format, is statement concerning number of hours devoted to local live and network shows. Bottom of page carries caption noting station's ABC-TV and DuMont affiliation.

'Cool, Clear Water'

PLAN originated on *Great Gildersleeve* show on NBC, calls for sending if water canteen to 16 different cities, where ounce of water is added by each local water commissioner. Canteen is sent to NBC affiliates in cities from Los Angeles to Washington, and bears large tag remarking that it will eventually be sent to water commissioner of New York City. Mr. Gildersleeve, if show, is water commissioner of fictional town.

Descriptive Booklet

BROCHURE, which includes pertinent data concerning WDTV (TV) Pittsburgh's growth in that area, sent to trade by station. Rate card, coverage map, line-ups of station equipment and market statistics are given on mimeographed sheets which have been stapled to folder. Excerpts from let-

ters, in original handwriting also are given.

Bulletin Announces

LARGE white bulletin from WFMJ Youngstown, Ohio, sent to trade bearing announcement of station's new facilities. WFMJ now broadcasts on 1390 kc with 5 kw. Brief text remarks that city is nation's "fourth largest steel center and Ohio's third market." Facts on ABC affiliation and other data conclude bulletin.

Shamrock Green

SHAMROCK GREEN ink on white paper make up latest promotion from WOV New York. Head reads, "The Irish Will Love It and So Will Everyone Else." Announcement of show, *A Ramble in Erin*, hour of Irish music, folk songs and guest stars, is made. Show is aired Mon.-Fri., 11 p.m.

Religious Spots

TAPPING a usually unsuspected classification of business, KSMO San Mateo, Calif., is making religious broadcasts pay off by selling spot announcements before and after its Sunday Catholic sermon, to church goods stores in two neighboring communities.

KRAM's Neighbors

UNSUSPECTED revenue source in retailers of communities scattered 10 to 300 miles away uncovered by KRAM Las Vegas, Nev. Utilizing half-hour program music and commentary slanted to specific community, under title *Know Your Neighbor*, broadcast is sold in quarter hour segments to merchants in drug, general merchandise, grocery and gasoline categories.

Free Blotters

BLOTTERS sent to Canadian advertisers and agencies by CKAC Montreal bear message "The good things in life are free—enterprise." Promotion bears call letters of CKAC, signing itself "a free enterprise station since 1922."

Maps Mailed

AMONG first stations to put its new BMB study map into mail is KDAL Duluth, Minn. Maps were sent with additional data showing station's increases to complete agency and client lists in station's files.

Personnel

RAY C. HUFFER, formerly on public affairs staff of WFAA Dallas, appointed sales promotion manager for station. **H**ARRY L. KOENIGSBERG, formerly with station's continuity department, named publicity director.

RONNIE MANDERS, formerly publicity manager for Standard Radio Transcriptions and West Coast representative for *Music Business* magazine, joins KFI-AM-TV Los Angeles as assistant to promotion and publicity director.

SAM PARNAS, formerly news writer with KMOX St. Louis, appointed director of press information.

SELVIN DONNISON, with sales staff of WWRL Woodside, N. Y., for past three years, appointed to newly created post of sales promotion manager.

'BACKGROUND' MUSIC Not Violation, WFMF Says

WFMF (FM) Chicago, sister operation of WJJD there, has told FCC that Muzak Corp. was wrong in its charge that some FM stations are violating the Commission rules by supplying "background" music programs—with all announcements deleted by means of a supersonic signal—to local business establishments [BROADCASTING, Jan. 23].

Muzak wants the Commission to amend its regulations to allow the firm to distribute its functional music services via regular FM stations in lieu of telephone lines. These special programs would be "carried" on the regular program transmission of an FM station, using a supersonic signal multiplexed to provide several types of special music service such as now programmed by Muzak. The supersonic signal would not affect the regular FM program and it would be picked up in the establishment of the Muzak client on a special receiver.

The piped-music firm believes the FCC's rules must be amended to allow this type of transmission and to allow broadcasting of program material without identifying announcements as now required by the rules.

Muzak told FCC that some FM stations are supplying such a service, indicating they were using their regular programs but eliminating reception of all voice announcements in establishments buying the service by means of the supersonic signal. This high audio-frequency signal causes the special receivers in such establishments to shut off when voice trans-

mission occurs. Muzak contended this procedure violates FCC's FM rules because these rules do not provide for the unique type of transmission.

WFMF contended that according to scientific and dictionary definition the supersonic signal of 20,000 to 25,000 cycles is within the same category as the audible program signal and may be construed program-wise the same as sound effects or other non-music or non-voice material. WFMF held no additional equipment would be required at the transmitter, as Muzak indicated, and no rules amendment would be needed. The station explained that so long as the intensity of the modulation level is limited for signals above 15,000 cycles, no emission would occur outside the authorized channel.

WFMF explained that with even slight limitations on the intensity of the modulation level for frequencies of 20,000 and 25,000 cycles, the emission band width can be held within the same band width that would result from 100% modulation with a 15,000 cycle signal.

NEED MORE COVERAGE?

KFJR
550 KC 5000 WATTS
NBC AFFILIATE
BISMARCK, N. DAK.

For a nice piece of business, aim at North Dakota's multi-million dollar market, where cash and bond holdings of a billion dollars have consumers ready and willing to buy. To tap this market, you'll need KFJR's coverage, based on 25 years of listener loyalty. Ask any John Blair man for the facts.

PRIZE of \$1,000 scholarship awarded to Glen Holt, high school senior from Smithfield, N. C., as winner of statewide *Student Forum for Safety* quiz series. American Mutual Liability Insurance Co. of Boston sponsored contest on WBIG Greensboro, WPTF Raleigh and WBT Charlotte, latter as key station. Sixty students were chosen from area of each station to participate in series of 10 shows, in which they were quizzed, six each week, on safety problems. Eleventh show pitted winners of previous contests against one another to determine six finalists who were quizzed in final show on WBT, which was fed to state-wide network.

Weather Facts

TWO shows on KOY Phoenix, Ariz., utilize weather reports in different circumstances. At 6 a.m. daily, News Editor Paul Gribben airs his phone calls from police, sheriff and state patrol headquarters. Highway and road conditions, as well as weather reports are given in calls. Daily comparison of temperatures between Phoenix and Eastern U. S. areas is given by George Graham on his *Record Matinee* show. Purpose of this feature is to heighten the enjoyment of eastern vacationers in Arizona.

'Alcoholism in Washington'

SERIES of eight broadcasts, *Alcoholism in Washington*, aired over WMAL Washington will discuss new Washington Alcoholic Clinic, work of Alcoholics Anonymous, alcohol as problem to courts and penal institutions and one program devoted to advice to family of an alcoholic. During another broadcast, new drug, Antibuse, will be commented upon. Alcoholics of all kinds and circumstances will appear

MAJOR LEAGUE BASEBALL *Rings the Bell for* LIBERTY!

on shows via tape-recordings. Series was written, narrated and tape-recorded by Gunnar Back, and is sponsored by D. C. Health Dept., Alcoholic Clinic, Washington Committee for Education on Alcoholism, Washington *Evening Star* and its WMAL.

Fire Covered

NEAR million dollar fire which razed Hargrave Military Academy, Chatham, Va., was covered by WDVA Danville, Va., via battery operated Mini-tape recorder. Announcer Dick Campbell described inferno and one incident, in which Mr. Campbell stood on steps of building while explosion occurred inside, necessitating a quick trip to safety, was forwarded to *Mutual Newsreel* and used as feature Feb. 22. Recordings of fire were aired on WDVA at 11 p.m. of day on which it took place.

Comedy Series

DOMESTIC comedy series, titled *That Young Couple*, reportedly first full-scale dramatic program attempted by New England video, debuts March 19 on WBZ-TV Boston. Show is live, half-hour production aired Sunday at 4:30 p.m. from station's studios and featuring members of Brattle Theatre Co. Program is sponsored by Boston Gas Co., written by Ruppert Pray and production is handled by Al Hartigan of WBZ-TV and Albert Marre of Brattle.

Blowing Its Stack

SEVEN THOUSAND ton smelter stack in Denver, Col., was blown up because it constituted a hazard. Four spectacular dynamite blasts which reduced it to rubble were described to listeners by KOA Denver, Feb. 25. Three special broadcasts, all live from scene, were aired by Starr Yelland, announcer, Special Events Director Bill Day and Al McClelland, engineer.

Production Event

WHEN first production model of XB47, jet bomber, moved off production line at Boeing Wichita plant, KANS Wichita was there to witness and relate spectacle to listeners. Special interview with J. Earl Schaefer, vice president and general manager of plant, was conducted by George Gow, news chief of KANS and Ted Heithecker, promotion manager. Interview, together with short story of event was aired nation-wide on NBC's *News of the World* that evening.

Disc Panel

PANEL of three well-known personalities in music world comment on new releases aired over *The Record Forum* on KRON-TV San Francisco. Experts vary from show to show and confer with Disc Jockey Arch LeRoux about each record's quality and chances of success before it is played. Program has participating sponsors.

New Sports Angle

STORIES and interviews with players, coaches and other National League team members are featured on new sports show, *Here Come the Phillies*, on WPEN Philadelphia. Show is heard directly from team's training camp in Clearwater, Fla., and is aired by Gene

Kelly, play-by-play announcer for all Phillies games. After training session, show will originate at WPEN.

Program Highlights

ONE-TIME show on WKTY LaCrosse, Wis., featured George Briggs, U. of Wisconsin agronomist and weed control specialist, in interview concerning all phases of weed control. Also guest on show was Tom Burgess, *LaCrosse Tribune* farm editor. New series on WKTY is 13 school music broadcasts with bands, orchestras and glee clubs of 27 local high, junior high and grade schools featured. Weekly programs are sponsored by Consolidated Dairies of LaCrosse.

Drawing Fun

NEW addition to line-up of programs on WBAL-TV Baltimore is *Fun With Freedy*, audience participation feature. Show is conducted by Edward Freedman, artist, advertising executive and author. Mr. Freedman tells well-known story while viewers, draw along with him pictures illustrating narration. Prizes are given for best drawing in studio audience. Show is aired Saturday, 5:30-6 p.m.

Memorial Program

SPECIAL show was aired Feb. 27 at 9 p.m. on WCOP Boston commemorating the death of Harry Lauder, entertainer. Called *Harry Lauder Memorial Show*, program was made up of Lauder recordings from personal collection of Program Manager Gene King and script was written by Ed Sullivan, continuity director. Another one-time show on WCOP, *Junior Press Conference*, in which four high school students quizzed their governor on matters of local and state government, proved so popular with audience and local civic and educational organizations, that it will become regular program feature of WCOP.

Polo Telecasts

WHAT is believed to be first telecasting of polo match was started recently with telecasting of first of series of 12 matches from Beverly Hills Polo Club on KNBH (TV) Hollywood. Competing in series from week to week will be top polo teams from

U. S. and Mexico. Frank Roche, polo writer and authority, is announcing games; Frank Barton does color, Packard-Bell Co., Los Angeles is sponsoring series through Elwood J. Robinson Adv., same city.

Spot Reports Aired

EXCLUSIVE news reports from cities all over world will be aired on WFIL Philadelphia in next few weeks. Reporter will be Alvah B. Adam, president of Philadelphia Junior Chamber of Commerce, who has gone to the Philippines as delegate at annual J. C. of C. convention. From there he will visit cities in Asia and Europe where he will make tape and wire recordings of news developments of international interest and interview prominent persons. Shows will be presented on WFIL as special programs or segments of regularly-scheduled newscasts, according to their length and significance.

Geared for Women

INTERVIEWS with industrial executives who are introducing products of special interest to women are feature of *What's New In Industry* show on KFI-TV Los Angeles. Demonstrations of new products are made during hour long telecasts with Ted Meyers handling interviews and Paul Knight as producer.

ANTI-GAMBLING

Sen. Wiley Lauds ABC Show

ABC COMMENTATOR Robert Montgomery's radio campaign spotlighting Frank Costello's activities has drawn congressional praise from Sen. Alexander Wiley (R-Wis.) in connection with a Capitol Hill movement to probe interstate crime and gambling activities.

Sen. Wiley congratulated Mr. Montgomery, who also is an NBC-TV producer, for bringing to his listeners the "whole question" of Mr. Costello's citizenship rights in view of repeated denunciation of his alleged racketeering.

Mr. Montgomery for the past three months has devoted most of his broadcasts (ABC, Thursday 8:45-9 p.m. EST) to phases of Mr. Costello's career, and urged an investigation of interstate gambling. The congressional resolution was proposed by the Senate Judiciary Committee. Sen. Wiley's comments, urging Justice Dept. action were inserted in the *Congressional Record* March 2 issue.

WBT-IBEW CASE

Grand Jury Indicts Hicks

A GRAND JURY in Mecklenburg County, N. C., has indicted Sterling L. Hicks, business manager of the IBEW local in Charlotte, on charges of conspiracy in the attempted dynamiting of WBT Charlotte's 429-foot radio tower on Jan. 22, according to news accounts.

The case, it was reported, will be placed on the county's criminal court docket for March 20, opening date of the court's sitting. Following the blast attempt [BROADCASTING, Jan. 26] Mr. Hicks was charged by Charlotte police on two counts of conspiracy. Police said at that time they had intercepted a Columbia, S. C., man as he reportedly lit the fuses of the dynamite sticks which had been detonated. They said subsequent questioning of the man had led them to the arrest of Mr. Hicks.

AFA CONVENTION

Cone To Address 1950 Meet

FAIRFAX M. CONE, chairman of Foote, Cone & Belding, will be one of several prominent advertising and industry figures who will address the 46th annual convention of the Advertising Federation of America, to be held at the Statler Hotel in Detroit May 31-June 2.

Built around the general theme, "Advertising's Responsibilities in a Dynamic Market," the three-day program will cover the field from the standpoint of advertisers, media, agencies and creators. Featured speaker at an opening general luncheon session May 31 will be Eric Johnston, president of the Motion Picture Assn. of America. He will discuss "Challenges in a World of Propaganda."

A varied program is being prepared by Detroit host clubs headed by Charles B. Lord, retail advertising manager of the *Detroit Times*, and Edythe Fern Melrose, radio personality and member of the Women's Advertising Club of Detroit. Ted Little, vice president and general manager, Campbell-Ewald Co., is chairman of the convention's steering committee.

Initial list of speakers was announced jointly by Elliott Shumaker, Detroit general chairman for the convention and advertising manager, *Detroit Free Press*, and Elon G. Borton, president and general manager of the federation.

James A. Nassau

JAMES A. NASSAU, 51, radio pioneer, died Feb. 23 in the home of friends in Glenside, Pa. He entered radio in 1915 as a staff member of 3XJ, first licensed experimental station in the country, at Glenside. In 1923 he joined the former WLIT Philadelphia, as an announcer, remaining there until going to WFIL Philadelphia in 1935. He at one time owned WIBG Philadelphia and served as its program director until 1939. In 1949 he joined WAEB Allentown as program director, holding that position until his death. He is survived by a brother, Joseph M. Nassau, and an aunt, Sister St. Maurice, S.T.D., of Philadelphia.

Carrier Current

JOINT government-industry committee named by FCC last summer to obtain field intensity measurements of line radiating devices and systems is to meet June 6 at FCC's Washington headquarters, the Commission announced last week. Meeting date earlier had been set for March 21. Six working groups are now obtaining field data, FCC said, and are expected to complete their reports by June 6. FCC has invited all interested persons to attend the meeting. Among the groups affected in the proceeding are college "wired-wireless" stations.

Technical

JACK MILLER, formerly with WMBM Miami Beach, Fla., rejoins station as chief engineer.

HARVEY FRITCH, formerly KAGH Pasadena, Calif., engineer, joins KALI same city, as chief engineer.

WILLIAM deDUFOR, named chief engineer of WFUV (FM), New York, Fordham U.'s station. Recent graduate of the university, Mr. deDufour worked on WFUV staff while a student.

RCA VICTOR, Camden, N. J., announces Carfone station unit "15," new portable transmitter-receiver, smaller than overnight case, for use as headquarters station equipment in mobile communications systems operating in 152-174 m.c. range.

BOB FISHER, formerly of KNOB Long Beach, Calif., and DONALD WILSON join KWKW Pasadena, Calif., as engineers.

HENRY NIELAND, formerly student at Television Workshop, New York, joins camera crew of WAAM (TV) Baltimore.

HAROLD E. BEDDINGFIELD, JAMES W. EDWARDS, BYRON L. FRIEND and CHARLES M. EINING join engineering operations staff at WNBQ

(TV) Chicago, under supervision of Howard Luttgens, chief engineer. Mr. Eining was transferred from KOA Denver.

ELECTRO-VOICE, Buchanan, Mich., announces new E-V Model 335 Blast Filter, designed for use with company's Models 630, 635 and 605 moving-coil dynamic microphones. Filter effectively stops breath blasts, company reports.

ANDREW Corp., Chicago, announces production of 7/8 inch rigid transmission line (Type 450) for AM and FM systems.

MARVIN DOERING, transmitter engineer at KWK St. Louis is the father of a boy, Dennis.

BOB STONE, KTSL (TV) Los Angeles cameraman, is the father of a girl, Sheldra.

CHUCK OSTLER, of WLS Chicago engineering staff, is the father of a girl, Colleen.

MAURICE J. WYNN, engineer with WWL New Orleans, is the father of a girl.

CHARLES RILEY, NBC Chicago maintenance engineer, is the father of a girl.

KRLD MOVES

AM-FM-TV Now in One Bldg.

KRLD Dallas moved its AM and FM studio operations March 3 from the Hotel Adolphus to the new KRLD Bldg. on Herald Square at Pacific, Griffin and Camp Sts., which has been the home of KRLD-TV since Dec. 3. Station had maintained studios in the Hotel Adolphus since 1926.

Station staff members made the switch in the hours between midnight and dawn, when office records, furniture, recordings and miscellaneous equipment were hauled to the recently completed new headquarters. Clyde Rembert, KRLD managing director, attributed a smooth changeover to careful advance planning dating back several months.

The KRLD Bldg., over which towers the TV antenna, is across the street from the *Dallas Times Herald* building, publishing affiliate of KRLD.

CAB Plans Meeting

PLANS now are nearing completion for the annual meeting of Canadian Assn. of Broadcasters at Niagara Falls, Ont., March 27-30. Guest speaker at the annual dinner on March 28 at General Brock Hotel, will be Dr. Robert Stanforth, liaison officer of UNESCO, New York.

Mr. Joe Field
Compton Advertising
New York City

Dear Joe:

Noticed sumthin' t'other day thet's real important ter folks like you. Did you know thet WCHS local bizness was UP in 1949 over what hit was in 1948? Yes, sir Joe, WCHS sold more time ter local merchants last year than durin' th' big year uv 1948! Merchants here in Charleston, West Virginny, is smart, an' they know thet this ain't no time ter pull in yer advertisin' horns! An' hit's mighty significant thet when they looked 'round fer a way ter git their message ter th' peepul, they chose WCHS! Now we allus feels thet what th' home folks thinks uv yuh is what really counts, an' we knows thet you national fellers feels th' same way. After all, you wants ter use th' station local folks turns to most ter keep their bizness goin' strong, 'cause thet's bound ter be th' one most peepul lissens to, an' in Charleston hit's WCHS!

Yrs.

Production

JOHN SINCLAIR appointed program director of WXGI Richmond, Va., succeeding **ROBERT J. JENKINS**, appointed promotion and production manager of station. Mr. Sinclair entered radio as an actor at KOA and KLZ Denver. He has been associated as production manager, announcer, program director or station manager with KSL KUTA, Salt Lake City, KID Idaho Falls, Idaho, KLO Ogden, Utah, WNOX Knoxville, Tenn., and WBRW Welch, W. Va. He was production director for WXGI before his recent appointment.

GUNNAR BACK, formerly member of news staff of CBS, and author of prize-winning series, *The Undiscovered*, and another series, *The Lonesome Road*, starts new series, *Alcoholism in Washington*, on WMAL that city [see Programs].

JERRY SPERLING, formerly announcer with KFRO Longview, Tex., KALB Alexandria, La., and WSRB Cleveland, joins announcing staff of WERE Cleveland.

MALCOLM RICHARDS, formerly disc jockey for WCPO Cincinnati, joins WJBK Detroit in similar capacity.

ED VIEHMAN, member of WCCO Minneapolis announcing staff since 1944, joins production staff. **BILL WIGGINTON** rejoins station as announcer.

ROBERT L. CARROLL, formerly with WHAP Hopewell, Va., and WTOM Bloomington, Ind., joins WCTW New Castle, Ind., as announcer and newscaster.

CHARLOTTE GARNER, formerly with WSAZ Huntington, W. Va., joins cast of *Mary Monroe* show on WCKY Cincinnati, Ohio.

ROBERT C. MICHEL, formerly program director for WKRT Cortland, N. Y., joins announcing staff of WSYR Syracuse, N. Y.

FRANK SHAPLER, formerly with KFQD Anchorage, Alaska, and KBYR same city joins KRMD Shreveport, La., as staff announcer and continuity writer.

EARL WITHROW, formerly with WJJD Chicago as program director, and WAIT same city as general manager, appointed coordinator of program and sales departments at KOOL Phoenix, Ariz.

JUNE JENKINS, new to radio, joins KWKW Pasadena, Calif., as copy writer.

LOUIS BREault, formerly public affairs director for WFAA Dallas, Tex., appointed head of continuity department.

HELEN BOYLE FREDERICK, formerly of WIBC Indianapolis, joins WLS Chicago copy staff.

JOE FRANKLIN, former technical advisor for ABC's Paul Whiteman disc jockey program, signed by WPAT Paterson, N. J., as program consultant. Mr. Franklin, who currently is producing half-hour show on WJZ New York, and owns collection of more

than 20,000 records, will produce and be m.c. for his own recorded show, *Joe Franklin's Matinee*. He also will work with station's other disc jockeys. **SCOTT YOUNG**, former studio director at WTMJ-TV Milwaukee and production assistant at KNBH (TV) Hollywood, joins WBKB (TV) Chicago as director. He is former radio actor, announcer and newscaster.

ROBERT E. HOLT, formerly with KICD Spencer, Iowa, and KGFW Kearney, Neb., in various capacities, joins WDTV (TV) Pittsburgh, as assistant coordinator.

JO STAFFORD March 28 joins CBS *Club 15* for Tuesday and Thursday singing sessions. She replaces **EVELYN KNIGHT**.

JOHN PONDFIELD, film editor and chief projectionist for WAAM (TV) Baltimore, is the father of a girl, born Feb. 24.

BEN ALEXANDER, Hollywood and San Francisco freelancer, and **LESLIE SPURGEON**, formerly *Queen for a Day* writer now with KRON-TV San Francisco, have announced their marriage.

HAL MOORE, disc jockey for WCAU Philadelphia, is author of book of poems to be published by Andrew Walker Co., Philadelphia. Poems were written for Mr. Moore's show, *The Bugle Call*.

FRED HENRY, program director, KLCB-AM-TV Hollywood, is the father of a girl.

JACK McELROY, m.c. of ABC *Breakfast in Hollywood*, is the father of a girl, Marilyn Lucille.

WJBK Gets Menjous

FREDERIC W. ZIV CO. has announced sale of its 15-minute "Mr. and Mrs." show, *Meet the Menjous*, for sponsorship to the Awrey Bakery chain in Detroit. Ziv said the Awrey-sponsored show will be heard for the next three years on WJBK Detroit. Agency is Ralph W. Sharpe & Assoc.

KGVO FIRE

Damage Estimated at \$50,000

KGVO Missoula, Mont., found itself without a home when an early morning fire gutted the station's downtown studios Feb. 19. Station was back on the air eight hours after the flames broke out.

Firemen were still pouring water into the ruins when the station took the air from its transmitter on schedule at 8 a.m. Manager A. J. Mosby had KGVO staffers at work as soon as possible, salvaging what could be saved from the ruins. Staffer Marion Dixon was able to rescue program logs and some transcriptions. Another control board, soundproofing, desks, typewriters and whatever equipment could be collected were installed in a nearby office building.

Though reported to be slightly cramped, KGVO was operating from its temporary headquarters by the next morning.

Mr. Mosby estimated loss from the fire at over \$50,000. The fire is believed to have started in the record library room to the rear of the two-story structure. About 85% of the records and transcriptions were destroyed—a loss of about \$10,000—Mr. Mosby said.

The building, owned by Mosby's Inc., was covered by insurance, according to Mr. Mosby. He immediately announced plans for rebuilding and estimated that work will not be completed for about six months. In the meantime, he added, KGVO will operate from its temporary studios.

Hearings Rescheduled

RESCHEDULE of hearings on fiscal 1951 funds for FCC and other independent offices tentatively has been set for March 21, a Senate Appropriations subcommittee spokesman said last week. Order of testimony to be taken has not yet been completed. A House Appropriations subcommittee already has concluded its sessions on 1950-51 funds. FCC officials testified before that group on President Truman's budget request for an approximate 2½% increase in the agency's appropriations.

AUDIENCE REPORTS

BMB Mails Sets to Stations

BMB LAST WEEK mailed complete sets of Station Audience Reports—630 individual reports, a bundle of some 50 pounds—to members of the American Assn. of Advertising Agencies and Assn. of National Advertisers requesting them, Dr. Kenneth H. Baker, BMB acting president, reported.

He noted that in addition to these reports on BMB subscribing stations, advertisers and agencies may get reports on non-subscribers by requesting them through subscribers serving the same areas, provided that the subscribing stations are willing to pay the cost of tabulating these data. Dr. Baker added that BMB's millions of punch cards are available through Statistical Tabulating Co., which handled the study, for any special tabulations which stations, advertisers and agencies want to order.

WHHH BARRED

Broadcast of Hearing Denied

WHHH Warren, Ohio, *Tribune* station, was barred by the Civil Service Commission March 1 from recording Police Chief William Johnson's suspension hearing.

Transcribing equipment being installed in the court room was ordered removed by commission members after they had rejected WHHH's request to record the session.

Although no official vote was taken among the three commission members on the subject, all three objected to the broadcast, WHHH reported. H. R. Farrall, WHHH manager, was told by Commissioner Mark Williams that broadcasting the hearing would prevent a fair trial. Mr. Williams gave no specific reason as to how a fair trial would be prevented, Mr. Farrall said.

Robert Meermans, WHHH attorney, argued that there was precedent for recorded broadcasts from this type of session. "Congressional committee hearings customarily permit wire tape recordings and newsreel photographing during their sessions," he declared. "In this area, it is customary. Tape recordings are made of Youngstown City Council sessions and the same has been done in the past here at Warren City Council meetings."

Mr. Meermans told commission members that he contacted Chief Johnson's defense attorney and the Warren safety-service director before the hearing and that neither lodged any objections.

Allied Arts

ALLEN BUCKLEY, formerly KFI-TV Los Angeles producer, joins The Bogerts (merchandising and advertising consultant), as director of television department.

S. W. CALDWELL Ltd., Toronto, distributor of U. S. transcribed programs, buys Guild Radio Features Ltd., Toronto, and plans expansion of its operations. Caldwell, now also is recognized radio advertising agency and program agent for 12 Canadian live radio programs.

RUTHRAUFF & RYAN signs two-year agreement for A. C. Nielsen Co.'s National Radio Index, Class A service, including non-network feature.

MAYBELLE CALLAWAY, songstress for WMC Memphis, transcribes series of 13 weekly shows through Frederic W. Ziv. Co. for Hamilton Watch Co.

EDD ROUTT, formerly with KLIF Dallas, Tex., sets up publicity and public relations firm, Edd Routt Co., 6334 1/2 Gaston Ave., Dallas. Phone: Victor 4-2225.

JOSEPH P. HIGGINS, with Columbia Records Inc., New York, for over

RWG CONTRACT

Set With CBS Hollywood

NEW contract between Radio Writers Guild and CBS Hollywood for staff continuity writers was "satisfactorily concluded" March 1, according to joint statement by the union and network.

Terms agreed upon provide for a 12 1/2% increase for all staff writers and establishment of a new rate for newly-hired writers and those assigned to transcontinental sustaining programs. Changes were also made in clauses of previous contract pertaining to duties of staff writers, hours and grievances.

Increases are retroactive to date of expiration of old contract, May 1, 1949. New contract is for 2 1/2 years from that date.

Negotiations between RWG and CBS started last April. During January Federal Mediation and Conciliation Service were called upon to break a deadlock which developed in late 1949.

CKLD Thetford Mines, Que., has begun operations with 250 w on 1230 kc., according to radio branch Dept. of Transport, Ottawa.

10 years, appointed associate director of Popular Records Div. Concurrently, **PERCY FAITH**, orchestra conductor and composer, named musical director of division.

Equipment

ARTHUR CHAPMAN named general manager of Colonial Radio & Television Div. of Sylvania Electric. Mr. Chapman has been with Sylvania since 1933 in various capacities.

Mr. Chapman

JOHN F. HERBST, former buyer and manager of radio, television and appliance division of W. & J. Sloane Stores. West Coast branch, appointed western regional manager of receiver sales division of Allen B. DuMont Labs.

POLARAD ELECTRONICS Corp. moves to new and larger quarters at 100 Metropolitan Ave., Brooklyn 11, New York.

JOSHUA SIEGER elected vice president in charge of engineering by Freed Radio Corp., New York.

Program director who can announce, sell and do M.C. for California network station. Living and working conditions excellent. Box 429E, BROADCASTING.

Continuity writer, experience necessary. WWCA, Gary, Indiana. Starting \$150 per month.

Situations Wanted

Managerial

Manager: Forget your management problems. Present manager of 5000 watt western station tired of cold weather and plans to locate in California. Twenty unusually successful years of management in both radio and newspaper. Best of qualifications in economical operation, sales, promotion, programming, plus an outstanding record in employee relations, public relations and a leader in civic affairs. My first concern is not size of station but rather location and community opportunities for myself and family. Available anytime plus immediate personal interview. Box 412E, BROADCASTING.

Topflight station manager considering change for good sound reasons. Currently managing a midwestern network station. Previously, a commercial manager. Experienced in all phases of operations. Prefer Gulf Coast area, will appreciate and consider all inquiries. Box 415E, BROADCASTING.

Successful manager desires change. Aggressive, experienced, civic-minded; 17 years in radio, past 10 as manager; completely competent in programming, promotion, especially sales. Interested in operating station only as a dominant substantial business, not as a sideline or hobby. Can increase prestige and profit; prefer midwest local or regional. Your chance to engage a hard working executive before the business honeymoon ends. Complete details on request. Write Box 430E, BROADCASTING.

Manager—commercial manager: Outstanding record as salesman, commercial manager and manager in small and metropolitan markets for independent and network stations. Middle aged. Married. Applicant with my qualifications seldom available. Salary secondary. Box 436E, BROADCASTING.

Background and knowhow. Successful network station manager, transcription and network program sales and station representative business. I am interested in sales executive work in midwest or east where I could use the contacts in Chicago, Detroit and New York. Family man, now employed. Box 454E, BROADCASTING.

Attention! Station owners and top executives. Want a man who gets things done—experience in personnel relations, advertising and promotions with a background of success in selling. Station manager experience plus years of selling. Minimum \$10,000 per year. Complete resume and photo on request. Have tax and can go anywhere. Box 466E, BROADCASTING.

Don't lose your CP! Let me plan, build or remodel your station. Results, not excuses. Excellent references. Consider interest in station. Will save you money and mistakes, Kidd, Salida, Colorado.

Salesmen

Time salesman, several years experience with agencies and direct selling. desires change to topnotch station, prefer southern states. Can handle promotion, can definitely sell. Highest references available. Reply Box 421E, BROADCASTING.

Experienced salesman desires position in upper midwest states. Know programming, announcing and writing. Ambitious and not a floater. Box 427E, BROADCASTING.

Announcers

Combination, announcer-board operator. Thoroughly trained all phases. Desires position small station to gain experience. Married, no children, 27. Sober, reliable and willing to work hard for reasonable salary. Go anywhere. Disc and photo. Box 68E, BROADCASTING.

Experienced morning team. Hillbilly jockey mail-pull personality teams with local news man (also sports play-by-play). Will travel. Disc, photos, references. Box 270E, BROADCASTING.

Situations Wanted (Cont'd)

Excellent sportscaster. Desires baseball 1950. Single or team. Present 50 kw staff and sports. College. Married. Box 324E, BROADCASTING.

baseball play-by-play. Experienced. College graduate. Box 325E, BROADCASTING.

Triple threat combo man offers five years staff, play-by-play and first class phone, for responsible position with accent on sports. Salary commensurate with ability and experience. Married, 26, and sober. Write Box 328E, BROADCASTING.

Sports director. Play-by-play baseball, basketball, football, boxing. College graduate. Married. Top references. Presently employed, seek security with TV future. Box 340E, BROADCASTING.

Versatile announcer, dj. Ambitious, young, commercial. New York radio background. 3 years experience. Intelligent salesmanship, programming and ad-lib ability. Outstanding success selling national accounts personally disc shows. Broad musical education. Substantial station northeast area. Box 343E, BROADCASTING.

Announcer, graduate oldest broadcasting school in country. Produced, sang, emceed amateur shows in Chicago night clubs. Two years college. Former staff 5000 watt NBC affiliate. Consider all offers. Box 351E, BROADCASTING.

Announcer—Good staff man. Two years experience. College background, music major. Speech and dramatics at Columbia University. Presently employed metropolitan New York station which anticipates cutting staff. Excellent dj, authoritative news reporting, straight commercial announcing. Imagination, versatility; warm, sincere style. Best of references. Age 29, married, one child. Disc on request. Box 362E, BROADCASTING.

Announcer—College grad, vet, over 1 year experience as chief announcer for Armed Forces Radio Service. Extensive knowledge of music, both popular and classical. Disc and photo on request. Will travel. Box 379E, BROADCASTING.

Combo man, independent, network experience. Heavy play-by-play in major sports. Capable DJ, announcer. Reorganization of stock holders eliminated my job. Manager confirmation and recommendation. State minimum salary. Box 385E, BROADCASTING.

Top sportscaster, excellent play-by-play, listener appeal, employed, available immediately, references. Box 388E, BROADCASTING.

Announcer, eng.—emphasis on announcing. Experienced, conscientious newscaster, congenial, competent, DJ. Now with net affiliate, 29, will travel. Box 400E, BROADCASTING.

Competent, dependable, versatile announcer, 4 years solid experience staff, sports, including play-by-play, special events, disc, participation shows; won NRPGA Award. Continuity, copy, news writing. Married, finest references. Seeking permanence east of Mississippi. Box 401E, BROADCASTING.

Announcer with first phone. 3 years combination experience, but prefer programming and production to engineering. Know programming and can write live copy. Presently employed 250 w Mutual in combo capacity. Commercial announcing, news, DJ shows and some sports. Will travel. Box 402E, BROADCASTING.

Experienced announcer, 5 years all phases. Live shows and news man 25, single, excellent background. Prefer midwest but will consider any reasonable offer anywhere. Disc available. Box 403E, BROADCASTING.

Announcer, single, 24. Thoroughly trained. Lack of experience exceeded only by ambition and honest endeavor to do a job well done. Have car. Will travel. All I ask is a chance. Disc on request. Box 409E, BROADCASTING.

Sportscaster and commercial announcer, 3 years experience, all phases, age 25, married, college. Personal interview, prefer midwest, consider all answers. Box 414E, BROADCASTING.

Sports director, experienced all sports. Promotively active. Looking for combination job. Sports-staff, promotion, publicity. Single, College grad. Will travel. Let disc and background tell story. Box 416E, BROADCASTING.

Announcer, 3 years all phases. Also: news and edit, traffic, program and continuity. Present job good but seek better future. \$75 minimum with higher potential. Anywhere. Box 417E, BROADCASTING.

Announcer, experienced, neat appearance, reliable, desires summer work. References, disc, photo. Box 431E, BROADCASTING.

Situations Wanted (Cont'd)

NOBODY LOVES THE DISC JOCKEY!

Nobody but us, that is. We're a talent agency specializing in disc jockeys. In fact, far as we know—we're the *only* D. J. talent agency in the business.

If you feel, as we do, that D. J.'s will be here for a long, long time—maybe we should get together. We can do two things for you—(1) If you have a D. J. job open, we can find the right man for it—(2) If you have a time-slot that isn't doing right by you, we can provide a complete D. J. package—an experienced man plus a show-format that has been dollar-tested in stations like your own.

Just drop us a note. Tell us what you want, how much you want to pay. We'll do the rest. No ads for you to run, no wasted interviews, no transcriptions to return, no false alarms to chase after. We do everything for you. You pay us nothing.

BANK RADIO

Survey Finds Rising Use

MORE than 3,000 commercial banks—or about one out of every four banking firms in the U. S.—are expected to use radio this year, according to a survey of 1950 bank advertising completed by the American Banking Assn.

Out of a total of 3,800 banks responding to the survey, about 862 said they planned to use radio advertising, ABA said. Projecting this proportion to the total of 14,500 commercial banks in the country, about 3,200 excluding mutual savings banks, will allocate a portion of their advertising budget to radio.

Banks are expected to push such services as regular checking and savings accounts and auto mortgage and personal loans in that order.

Radio executives desiring to obtain a detailed analysis of 1950 bank advertising plans should write to ABA's public relations council, 12 E. 36th St., New York 16, N. Y.

An allocation of \$39 million will be set aside this year for advertising purposes, falling under the \$40 million mark set in 1949. Radio ranks fifth in use of media, according to ABA's survey.

BAB SALES DATA Women's Shows Value Is Stressed

AN elaborate sales presentation on "Radio's Feminine Touch," first of a series designed by Broadcast Advertising Bureau to stress the value of particular types of programs, has been mailed by BAB to over 300 member stations.

The 32-page desk-top brochure will be distributed to national advertisers and agencies, along with a new directory compiling facts on over 700 women's programs now on the air. Directory was compiled by BAB cooperating with Assn. of Women Broadcasters, in response to requests from agencies and advertisers. About 1,000 copies of the brochure will be mailed.

Stations will be charged \$7.50 per copy for the presentation in order to defray partially the bureau's expenses in connection with the project.

Measuring 11 by 14 inches and containing headline copy and bold illustrations, presentation provides case histories and other documentary data for advertisers. Pages are doubled and by unfolding the inner pages the sales presentation becomes a promotion piece.

Front cover of the new 32-page sales presentation.

Cites Advantages

Copy points out eight specific advertising advantages in women's programs. Program ads (1) reach a responsive group of women; (2) get immediate results; (3) bring rapid acceptance of advertising claims and quick demand for goods; (4) register believable, lasting impressions; (5) increase and broaden the advertising budget; (6) add human interest sales power; (7) turn loyal listeners into loyal customers; (8) deliver influence and impact on buying minds of women.

Other types of programs slated for future treatment in the copy series are news, sports, farm and transcribed shows. Copy was written by Lee Hart, retail specialist now on leave from BAB, as a cooperative project under supervision of BAB Director Maurice Mitchell.

HAMMOND NAMED

Gets Raytheon Sales Post

CURTIS R. HAMMOND, prominent sales figure in radio and TV receiver manufacturing fields, has been appointed equipment sales manager of Raytheon Mfg. Co.'s Receiving Tube Div., with headquarters in Chicago. He will take charge of sales of radio receiving tubes and cathode ray picture tubes to equipment manufacturers. Direction of tube sales will be centered at Raytheon's Chicago warehouse.

Clifford H. Morse, reporting to Mr. Hammond, will continue to service the radio and television set-makers on the East Coast, with headquarters at Newton, Mass. Mr. Hammond joined the company in 1945 after serving 13 years in sales and sales engineering work with Ken-Rad Tube & Lamp Corp.

KPAB CASE

Injunction Request Denied

REQUEST of KPAB Laredo, Tex. to secure an injunction against FCC's proceeding to revoke the station's license was denied Feb. 28 by Judge Edward A. Tamm of the U. S. District Court for the District of Columbia. Meanwhile the Commission postponed its KPAB hearing from March 6 to March 21. FCC has charged KPAB with transfer without approval.

KPAB contended that FCC's hearing was premature and violates principles of the Administrative Procedure Act. In its request for injunction, KPAB contended it should be notified of the errors FCC alleges it has committed and first be allowed to correct them in good faith before such drastic action as revocation is ordered [BROADCASTING, Feb. 27].

FCC argued the Communications Act's provisions detailing revocation procedure allow adequate judicial relief and hence KPAB's injunction request was out of order. FCC also explained the legislative background of the Administrative Procedure Act shows this act was not intended to set aside administrative and judicial procedures specifically established in older statutes, and in this case the Communications Act.

Miles Renews

MILES Laboratories Inc., Elkhart, Ind. (Alka-Seltzer, One-A-Day Vitamins), has renewed for 52 weeks NBC's *News of the World*, featuring Morgan Beatty Monday through Friday, 7:15 p.m. (EST). Account is handled by Wade Advertising Agency, Chicago.

partners: John D. Keating, head of own Seattle station representative firm, and J. Elroy McCaw, 50% owner KELA Centralia, Wash., one-third owner KYAK Yakima, Wash., and 21.5% owner KLZ Denver, Col. Granted March 7.

Grand Coulee, Wash.—Carl F. Knierim granted 1400 kc, 250 w SH. Estimated construction cost \$10,260. Mr. Knierim sole owner of station is powerhouse operator at Coulee Dam. Granted March 7.

Phoenix, Ariz.—Howard M. Loeb granted 1230 kc, 250 w unlimited. Construction cost \$36,050. Mr. Loeb was formerly one-half owner WFDF Flint, Mich., and now owns Melody Music Shops Inc., music and radio store. Granted March 7.

Roseburg, Ore.—Umpqua Bcstrs. Inc., granted 1240 kc, 250 w unlimited. Estimated construction cost: \$18,250. Principals in corporation include Donn W. Radabaugh, 1/2 owner Umpqua Amusement Co., theatre operator, president 12.5%; Nancy Edith Radabaugh, 12.5%; Lon D. Hunt, acting postmaster at Sutherlin, Ore., 12.5%; Margaret G. Hunt, secretary-treasurer 12.5%; Harold D. McKay Jr., ex-commercial manager KRNR Roseburg, 25%; Donald W. Helliwell, with Lockwood Motors, vice president 12.5%; Iris Rice Helliwell ex-assistant manager KRNR, 12.5%. Granted March 7.

Houlton, Me. — Aroostook Bcstg. Corp., granted 1340 kc, 250 w unlimited. Estimated cost of construction \$26,646. Principals in corporation include: Harry E. Umphrey, Aroostook Potato Growers, president 20.6%; Vaughan P. Currier, branch manager Maine Public Service Co., .004%; Lester E. Hughes, chief engineer Aroostook Bcstg. Corp., technical advisor, .002%; Francis J. Reardon, Reardon Potato Co., Belmont, Mass., 20%; Harold D. Glidden, general manager and salesman Aroostook Bcstg. Corp., secretary - treasurer 39.6%. Granted March 7.

KIKI Honolulu, T. H.—Royal V. Howard, granted 860 kc, 250 w unlimited. Estimated cost of construction \$9,750. Mr. Howard is a consulting engineer and was formerly director of NAB Engineering Dept. Previously granted Jan. 5 [BROADCASTING, Jan. 9, p. 21] and later set aside [BROADCASTING, Jan. 23]. Granted March 7.

Savannah, Ga.—Eurith Dickinson Rivers Jr., granted 900 kc 1 kw daytime. Estimated construction cost: \$26,140. Mr. Rivers is operator of WEAS Decatur, Ga. Granted March 7.

Springfield, Tenn.—The Springfield Bcstg. Co. Inc. granted 1430 kc, 1 kw daytime. Estimated construction cost: \$17,705. Equal owners include: Walter A. Duke, chief engineer WMMT McMinnville, Tenn., president; William N. Locke, chief yeoman U. S. Navy, vice president; Mrs. D. Hoyte Bell, with

General Shoe Corp., Tullahoma, Tenn. Granted March 7.

Carroll, Ia. — Carroll Bcstg. Co., granted 1380 kc, 1 kw unlimited, directional. Estimated construction cost: \$45,874. Principals: Vincent Collinson, farming and cattle feeding, 25%; Milford Collinson, farming and cattle feeding 25%; Marvin Collinson, farming and cattle feeding, 25%; C. Everett Bliss, Bliss Firestone Dealer Store, 25% Granted March 7.

Minot, N. D.—North Dakota Bcstg. Co. Inc. granted 910 kc, 1 kw unlimited directional night. Estimated construction cost: \$41,000. Jamestown Bcstg. Co., licensee K5JB Jamestown, N. D. is 97.40% owner of North Dakota Bcstg. Co. John Boler president of Jamestown Bcstg. presently holds CP for new station at Charlotte Amalie, V. I. Granted March 7.

Midland, Tex.—Jack Cecil, granted 1150 kc, 1 kw daytime. Estimated construction cost: \$18,000. Mr. Cecil is radio engineer and announcer. Granted March 7.

Paris, Tex.—Lamar County Bcstg. Co., granted 1250 kc, 500 w daytime. Estimated construction cost: \$19,550. Principals include: Cecil Hardy, manufacturer of electronics equipment, 60%; Charles L. Cain, 75% owner KCVN San Marcos, 10%; J. T. Smith, mechanical supervisor Southern Pacific Railroad, 10%; O. E. Smith, 10%; and Merl Saxon, 10%. Granted March 7.

Chanute, Kans.—Chanute Bcstg. Co., granted 1460 kc, 1 kw daytime. Estimated cost of construction \$17,750. Principals include: H. Edward Walker, commercial manager KVLH Pauls Valley Okla.; R. Phil Crenshaw, general manager KVLH; George A. Rountree, chief engineer KVLH; James T. Jackson, president KVLH. Granted March 7.

WVEC Hampton, Va.—Granted permit to change from 1050 kc, 250 w day to 1490 kc, 250 w unlimited. Granted March 7.

KBUC Corona, Calif.—Granted modification of license to use directional nighttime only.

KTYL Mesa, Ariz.—Granted switch in facilities from 1450 kc, 250 w unlimited to 1310 kc, 1 kw day, 500 w night DA-N.

WKYB Paducah, Ky.—Granted permit to change from 800 kc, 1 kw day to 570 kc, 1 kw day, 500 w night DA-2.

WEIM Fitchburg, Mass.—Granted permit to change from 1340 kc, 250 w unlimited to 1280 kc 1 kw unlimited DA-2.

KENO Las Vegas, Nev.—Granted permit to change 1400 kc, 250 w unlimited to 1460 kc, 1 kw unlimited DA-N.

WDSM Superior, Wis.—Granted modification of CP to use DA-N instead of DA-2.

FM GRANTS

New York—Crosley Bcstg. Corp., granted new FM station Ch. 286 (105.1 mc), ERP 10.5 kw, ant. 640 ft. Estimated cost of construction \$42,450. Crosley Bcstg. Corp. is licensee of WINS that city. Granted March 7.

New York—Atlantic Bcstg. Co. Inc., granted FM station Ch. 294 (106.7 mc), ERP 10 kw, ant. 640 ft. Estimated construction cost \$61,300. Atlantic Bcstg. Co. is licensee of AM outlet WHOM Jersey City, N. J. Granted March 7.

New York—Debs. Memorial Radio Fund Inc., granted FM station Channel 298 (107.5 mc); ERP 12.5 kw, ant. 610 ft. Estimated construction cost \$166,564. Debs. Memorial Radio Fund Inc., is licensee of AM station WEVD New York. Granted March 7.

New York—Ebbets-McKeever Exhibition Co. Inc., granted FM station Channel 290 (105.9 mc), ERP 19.5 kw, ant. 470 ft. Estimated construction cost \$59,862. Ebbets-McKeever Exhibition Co. owns the Brooklyn Dodgers. Granted March 7.

OPERATIONS SUSPENDED

WMMJ Peoria, Ill.—Granted assignment of license from Mid-State Bcstg. Co. to Julian B. Venezky, receiver. Station authorized to remain silent an additional 60 days from Feb. 21, during which time assignee must file application for consent to assign license to its ultimate purchaser. WMMJ was previously granted request to cease operation from Oct. 23, 1949 to Dec. 29, 1949 [BROADCASTING, Oct. 31, 1949, p. 35]. WMMJ is assigned 1020 kc, 1 kw daytime. Granted March 7.

KGFN Grass Valley, Calif.—Joe D. Carroll, granted authority to remain silent for 30 days from March 1, pending financial reorganization. Granted March 7.

KHBR Hillsboro, Tex.—Hill County Bcstg. Co., granted request to continue to remain silent to April 15. If station is not in a position to resume operation at that time, it will be deemed to have abandoned its license. Station has been inoperative since Dec. 31, 1949, pending financial reorganization [BROADCASTING, Jan. 9].

TRANSFER GRANTS

KBTV (TV) Dallas, Tex.—Granted assignment of license from Tom Potter d/b as Potter Television Bcstg. Co. to A. H. Belo Corp., for a consideration of \$575,000. A. H. Belo Corp., is licensee of WFAA-AM-FM Dallas. Mr. Potter finds his extensive business interests require more of his attention than demands of the television station will allow. KBTV is assigned Ch. 8 (180-186 mc), 13.5 kw aur.; 27 kw vis. Granted March 7.

WLIV (FM) Providence, R. I.—Granted transfer of control in Colonial Bcstg. Co., licensee from Augustus M. Wilson and 11 others to Narragansett Bay Bcstg. Co., licensee of WDEM Channel 299 (107.7 mc). Granted March 7.

WERI Westerly, R. I.—Granted assignment of license from Paul Oury to Radio Westerly Inc., for consideration of \$71,000. Principals in Westerly include: Richard G. Moore, president E. J. Pinney Co., contractors, president 20%; Lee S. Greenwood, in engineering and development, treasurer 10%; Albion W. Warren Jr., industrial editor Brown Pulp & Paper Co., Berlin, N. H., secretary 25%; Warren M. Greenwood, as-

(Continued on page 76)

Beautiful California City

Profitable Independent—\$50,000.00

This attractive independent station making some money is the only station in one of California's most beautiful cities. 1949 retail sales approximately \$50,000.00. Serves adjacent areas with income twice that amount. Beautiful stores, high income groups, ideally located, both climate and living conditions. Approximately one half cash, balance over period of years.

Decisions Cont.:

sistant manager and program director WHAV Haverhill, Mass., and Richard G. Moore and Lee S. Greenwood jointly 19%. WERI is assigned 1230 kc 250 w unlimited. Granted March 7.

KRDU Dinuba, Calif.—Granted acquisition of control by Egon A. and David L. Hofer of Radio Dinuba Inc., from John M. Banks, Donnelly C. Reeves and Troy Banks for \$18,182.78. The Hofers originally held 32.5% and transfer increases their holdings to 50% each. KRDU is assigned 1130 kc, 250 w daytime. Granted March 7.

WSHB Stillwater, Minn.—Granted transfer of control in St. Croix Bestg. Co., licensee, from Nicholas, Victor and Albert S. Tedesco to William F. Johns Sr., 15% owner WOSH Oshkosh, Wis. Mr. Johns pays \$58,000 for 67.5% of stock. William F. Johns Jr., WSHB manager retains his 22.5% interest and James W. Hobbins continues to hold 10%. WSHB is assigned 250 w day on 1220 kc. Granted March 7.

WITA San Juan, P. R.—Granted transfer of control in Electronics Enterprises Inc., licensee, from Virgie H. Meador and Gloria I. Meador to Antonio A. Valdivieso. Mr. Valdivieso prior to transfer held 50% of stock and buys the Meadors 50% for \$12,500 plus responsibility of such debts as Electronics Enterprises may have. WITA operates with 250 w on 1400 kc. Granted March 7.

KPHO Phoenix, Ariz.—Granted relinquishment of control in Phoenix Bestg. Inc., by Rex Shepp to Citizens Pub. Co., Erskine Caldwell and George W. Chambers through issuance of additional shares of stock. Prior to transfer Mr. Shepp held 50% and transfer reduces his holdings to 43%. KPHO is assigned 5 kw on 910 kc directional night. Granted March 7.

Deletions . . .

ONE AM AUTHORIZATION was reported deleted last week by FCC. Total dropouts to-date this year: AM 16; FM 23; TV 1.

KXXL Reno, Nev.—Station KXXL. CP Feb. 28. Renewal of license denied by FCC on grounds of transfer without consent [BROADCASTING, Feb 6, p. 109].

RACE RESULTS

Restrictive Bill Underway

A BILL designed to ban the dissemination of race results for illegal purposes is being drafted by the FCC in cooperation with the Justice Dept.

Authorities said it has not been decided whether the recommended legislation would affect broadcast operations directly or only through restrictions which might be imposed upon the wire services. In any event it was felt the wire services would be more directly concerned.

Benedict P. Cottone, FCC general counsel and one of the speakers at the Attorney General's Conference, has been named to the Conference Legislative Committee. The legislation currently being drafted probably will be considered when the committee meets in Washington March 16-17.

In one of the most recent official rulings by the Commission itself on the question of horse-race information via broadcast stations, FCC held that "the intent or design to assist the carrying on of illegal activities must be reasonably evident." That was the so-called "WWDC Washington decision" of January 1948.

The issue of broadcasts of race results also is raised in pending cases, including one involving WTUX Wilmington, Del. [BROADCASTING, Dec. 26, 1949.]

February Box Score

STATUS of broadcast station authorizations and applications at FCC as of February 28 follows:

	AM	FM	TV
Total authorized	2,254	762	110
Total on the air	2,110	722	100
Licensed (All on air)	2,072	495	35
Construction permits	182	267	75
Conditional grants		5	
Total applications pending	1,095	196	398
Requests for new stations	315	43	348
Request to change existing facilities	289	37	14
Deletion of licensed stations in January	2	5	
Deletion of construction permits	4	3	
Deletion of conditional grants			

License Fees

(Continued from page 23)

to develop fully the facts in relation to the cost of these services and as to proper fees that should be charged therefor.

Sen. McClellan emphasized, however, that it is not the intention of the committee to assess "any charge for ordinary and normal governmental services." On the other hand, he said, costs "over and above services for which the government is essentially responsible (would be) borne by the recipients and beneficiaries thereof."

A good many governmental departments will come under the committee's search. Included are the National Bureau of Standards and the Bureau of the Census. The latter's activities which perform services for any "special interest" would come under Sen. McClellan's category of services liable. The Bureau begins a nationwide count of radio and television sets on April 1 for the 1950 decennial census (see story page 38).

FCC Asked For Data

The FCC has been asked by the committee to provide data on service costs, present charges for any services rendered, the nature of services, how many stations would be affected should fees be recommended, and how large a fee would be applicable, the committee spokesman said. Of particular importance to the committee are FCC inspection services dealing with "transmitter devices and devices and receiving equipment."

The committee, at this point, the spokesman added, believes religious and educational-owned stations would be exempt from any such proposed fee.

Staff investigators have no time limit to their probing. However, it was indicated that complete information may be obtained from departments polled in about "several weeks." It also was pointed out that an attempt to impose license fees on stations was made in 1932 when the House passed a bill embodying such proposals, subsequently killed in the Senate.

The committee said that when hearings are called "industry spokesman will be afforded an opportunity to testify."

CKTB St. Catherines now operating with 1 kw directional antenna on 620 kc, having moved from 1550 kc.

FCC GRANTS

Coast Regionals Set Aside

REGIONAL grants on 970 kc, recommended for Bakersfield and Modesto, Calif., last summer, were set aside by FCC last week upon grounds that new evidence shows they may interfere with one another [BROADCASTING, Aug. 29, 1949]. Further hearing was ordered.

Marmat Radio Co., operator of KMAR (FM) Bakersfield, and Stanislaus County Broadcasting Co., Modesto, are the applicants involved. In the initial decision of Hearing Examiner Leo Resnick, Marmat received proposed grant for 1 kw night, 5 kw day, directional day and night on 970 kc, while Stanislaus received proposed grant on that channel with 1 kw fulltime, directional day and night. FCC denied for default the bid of Central Valley Broadcasters for 1 kw daytime on 980 kc at Merced, Calif.

The initial grants were set aside upon petition by FCC's general counsel, who contended that new soil conductivity measurements in that area show "severe co-channel daytime interference would exist" if both stations were finally granted.

Number Show

(Continued from page 25)

security numbers enter broadcast programming? "Take Birmingham, for example," Mr. Harris said. "Glenn V. Tingley, president of WKAX, phoned the other day. He had 3,000 phone calls the first day. Phones were jammed and the station couldn't do business.

"Then Mr. Tingley had an idea. The station went on the air with a request that listeners call their independent neighborhood grocers if they wanted to check up on numbers that had been read on the air."

Mr. Tingley told BROADCASTING at the weekend that station salesmen had not been able to contact 100 stores that wanted in on the program. "I've never seen business roll in like this," he added. "We have signed 93 new accounts, approved and placed them on the books in the last two weeks. They are given brief, institutional copy,

one sponsor before and one after each program.

"Three operators are assigned to answer telephone queries. They promise inquirers a list of 'approved stores' and suggest the store owners be urged to contact the station if not among the sponsors. Numbers are posted in stores after they are read on the air." WKAX charges \$5 to \$10 a spot, depending on size of sponsor's store, Mr. Tingley said.

Mr. Harris said that in Tulsa employes of many firms insist that company auditors check the numbers off the air hourly and watch for the workers' numbers. Someone has started a number-listening service, charging \$1 (see illustration page 25).

"The impact in one city is so terrific that a competing station manager has approached us to see if he could buy up the contract," Mr. Harris said.

Officials of Social Security Administration in Washington said they had studied a similar idea once before at the request of a large advertiser. They indicated they would rather not have such use made of account numbers since they try to impress holders on the need of keeping cards in safe places and don't like the idea of people carrying their cards around because of radio programs.

Chances Explained

It was explained that since cards are based on a nine-digit formula (999,999,999 possible numbers) and only 90 million are out, the chance of a number representing an active card is one in 11 if the full number is read. Then there is the danger of people getting several cards through deceptive practices. Though SSA has a master index check, deception is possible if phoney names are used. The index has over a million Smiths, for example.

In Baltimore the Better Business Bureau looked into the plan after a Kentucky city had made an inquiry. The bureau indicated it was not interested since it could find no misrepresentation.

Stations listed by the Azrae agency as present users of the plan are:

WIKY Evansville, Ind.; WIBB Macon Ga.; KFMJ Tulsa; KSTL St. Louis WAEB Allentown, Pa.; WBMD Baltimore; WICC Bridgeport, Conn.; WLE' Richmond, Va.; WSRB Cleveland. WJOB Hammond, Ind.; WWSO Springfield, Ohio; WKAX Birmingham; WCUM Cumberland, Md.; KPOA Honolulu; WRIB Providence, R. I.; WWDC Washington (modified version).

Legion Cites WJR

WJR Detroit was presented a distinguished service citation by Detroit's Frederick M. Alger Post No 86, American Legion, last Wednesday for the station's "outstanding support of patriotic projects and Americanism programs." The citation was accepted by William Siebert, WJR director and secretary-treasurer. The post also announced that it had passed a resolution recommending the station for a national Legion award.

FCC Reorganization

(Continued from page 25)

the Law Bureau, these divisions currently are headed by Assistant General Counsel Plotkin and Assistant General Counsel Lester W. Spillane, respectively.

Within the new Office of the Chief Accountant the Commission created an Accounting Systems Division and an Economics Division, each to be headed by a chief of division. The Accounting Systems Division apparently would be concerned primarily with common-carrier affairs, while the Economics Division would also deal with other fields under FCC regulation.

The non-common carrier positions and personnel of the present Accounting Bureau's Broadcast Division (headed by LeRoy Schaaf) and Economics and Statistics Division (headed by H. H. Goldin) were transferred "until further order" to the Office of the Chief Accountant.

Similarly, the new Office of Chief Engineer will take over non-common carrier functions and personnel of the present Engineering Bureau. These are positions and personnel of the immediate office of the chief engineer and those of the Laboratory Division (headed by J. W. Chapin), Technical Research Division (headed by Edward M. Allen), and Frequency Allocation and Treaty Division (headed by L. L. McIntosh).

Chief Engineer's Office

The present office of the chief engineer includes, in addition to acting Chief Willoughby, Virgil L. Simpson as assistant to the chief; Ralph J. Renton, U. S. member of the North American Regional Broadcasting Committee, and Braxton L. Peele, chief of the cartographic and drafting unit. Assistant chief engineers are William N. Krebs, George S. Turner, and Marion H. Woodward, who is in charge of the common carrier division and slated for a key post in the new Common Carrier Bureau.

"Until further order" the positions and personnel of the following also were transferred from the Engineering Bureau to the Office of Chief Engineer: Standard Broadcast Division (headed by James E. Carr); Television Broadcast Division (Curtis B. Plummer); FM Broadcast Division (Cyril M. Raum); Aviation Division (headed by Edwin L. White); Radio Operator and Amateur Division (headed by George K. Rollins); Marine Radio and Safety Division (headed by Mr. Krebs); Public Safety and Special Services Division (headed by Glen E. Nielsen); and Field Engineering and Monitoring Division (headed by Mr. Turner).

Observers felt the functions and duties assigned to the Common Carrier Bureau may be taken to indicate the broad type of responsibility and authority which will be granted the other bureaus in their respective fields when the reorganization is completed.

The Common Carrier Bureau's

functions will consist of "carrying out the common carrier regulatory program of the Commission under applicable statutes, international agreements, and rules and regulations, including the regulation of common carrier rates, services, and accounting, and the licensing of common carrier wire and radio services."

Its duties include "initiation of rules and regulations, except as otherwise specifically provided in the functions of the Offices of the Chief Accountant, Chief Engineer, General Counsel, and the Special Legal and Technical Group." The latter is a review unit composed of a half-dozen staff members who serve as special assistants to the Commissioners, aside from each Commissioner's individual legal assistant.

Other Duties

Other duties of the bureau include participation on behalf of the Commission in international conference work; provision of assistance and recommendations to the Commission, and collaboration with representatives of state regulatory commissions and with the National Assn. of Railroad Utilities Commissioners in making cooperative studies and the like.

The bureau chief's functions will include, aside from administration of bureau affairs, the initiation of policy recommendations to the Commission; the anticipation and analysis of program and policy problems; coordination of bureau activities with those of the other bureaus; maintenance of liaison with other government agencies on common carrier matters; representation of the Commission on Commission-wide and inter-departmental committees; dealing with members of the public and of the industries concerned.

Field offices of the Common Carrier Bureaus will be located at New York, Atlanta, St. Louis, and San Francisco. A chief will be named for each.

The broad overall functions of the General Counsel, Chief Engineer, and Chief Accountant under the new organization will be delineated as the realignment progresses. With respect to common carrier matters their duties are similar in their respective fields. For the General Counsel, these

THIS pre-fabricated building, owned by the Saginaw Broadcasting Co., Saginaw, Mich., houses the transmitter and studios of WLEW Bad Axe, Mich., which went on the air Feb. 11 [BROADCASTING, Feb. 6].

were listed as follows:

1. To advise and represent the Commission in matters of litigation.
2. To advise and represent the Commission, and to coordinate and make recommendations to the Commission on proposed legislation and international agreements with which the Commission is concerned.
3. To interpret the statutes, international agreements, and regulations affecting the Commission and the Commission's regulations and to advise the Commission (including the Common Carrier Bureau) as to the authority and power the Commission possesses under such statutes, agreements, and regulations.
4. To formulate and make recommendations on procedural rules of general applicability; review all rules for consistency with other rules, uniformity, and legal sufficiency.
5. To conduct research in legal matters as directed by the Commission.
6. To participate in and render advice to the Commission in proceedings and matters involving rule-making which concern jointly the common carrier services and any services other than common carrier.
7. To maintain liaison with other agencies of government on common carrier matters.
8. To provide representation for the Commission on Commission-wide and inter-departmental committees.
9. To deal with members of the public and of the industries concerned.
10. To perform such other duties as may be assigned or referred by the Commission.
11. To exercise such authority as may be assigned or referred by the Commission pursuant to Sec. 5(e) of the Communications Act of 1934 as amended.

FRANK McKINNEY

Mentioned as Army Secretary

ANOTHER broadcaster may become Secretary of the Army, with mention of Frank E. McKinney, principal stockholder of WISH Indianapolis, as a prime contender for a place on the President's "little cabinet."

If named to the Army post, Mr. McKinney would succeed Gordon Gray, president and owner of WSJS Winston-Salem and WMIT (FM) Charlotte, N. C., who has resigned to accept the presidency of the U. of North Carolina [BROADCASTING, Feb. 13]. Secretary Gray plans to leave Washington in August or September.

Mr. McKinney's radio holding is one of many interests which includes part ownership of the Pittsburgh Pirates baseball club (other owners are Bing Crosby and John Galbreath of Columbus, Ohio), of which he is president, and also a presidency of an Indianapolis bank. A treasurer of the Democratic Party's organization in Indiana, Mr. McKinney had been beckoned to Washington previously to serve as treasurer of the Democratic National Committee, but he declined. He has served on a commission to study housing shortages at defense establishments, traveling to Alaska and reporting directly to Defense Secretary Louis Johnson.

According to news reports, Mr. McKinney conferred with Washington officials earlier this month, at which time the Army secretaryship offer reportedly was made.

WILLIAM WARE

Named KSTL President

WILLIAM E. WARE, former president of the now-defunct FM Assn., has been elected president of KSTL St. Louis, it was reported last week. He succeeds Frank E. Pellegrin, who becomes vice president. KSTL is assigned 1 kw daytime on 690 kc.

Mr. Ware formerly was general manager, vice president and part owner of KSWI and affiliated KFMX (FM) Council Bluffs, Iowa. It was reported he received option to purchase part interest in KSTL. Mr. Pellegrin, former director of broadcast advertising at NAB, is vice president in charge of sales for Transit Radio Inc., to which he devotes considerable time.

KOH Increases Power

KOH Reno, Nev., outlet of the McClatchy Broadcasting Co., has announced it will increase its daytime power from 1 kw to 5 kw tomorrow (March 14). Nighttime power of 1 kw will remain unchanged, the station said. KOH went on the air in 1928 with 100 w. Power was increased to 500 w when it became a McClatchy station in 1931, and to 1 kw in 1940. KOH frequency is 630 kc.

MEXICO CITY SESSION ON NARBA PROPOSED

CONFERENCE in Mexico City between U. S. and Mexico to work out bi-lateral pact comparable to U. S. - Cuban treaty, in final stages at Havana late last week (story page 27), under consideration at weekend.

Both Cuban and Mexican pacts would be intended for inclusion in new overall NARBA. Suggestion made that all NARBA nations be invited to Mexico City instead of U. S., as originally planned, in effort to draw up overall treaty. It's speculative whether special delegation to Mexico City would be same as Havana delegation, headed by FCC Comr. Hyde, or some new group not identified with Havana sessions.

POLICY BOARD STUDIES FREQUENCY PROBLEMS

INITIAL PROBLEMS of organization canvassed Friday by President Truman's Communications Policy Board in group's first meeting, held at FCC [BROADCASTING, Feb. 20, 27]. Headed by Dr. Irvin L. Stewart, 1934-37 FCC Commissioner and now president of West Virginia U., board is assigned to appraise frequency use and communications problems. FCC Chairman Wayne Coy attended session where informal statements were made by representatives of various government agencies interested in use of radio. Next meeting scheduled April 20.

Before meeting Dr. Stewart met with Sens. Edwin C. Johnson (D-Col.) and E. W. McFarland (D-Ariz.), who had similar communications study underway, and entire board met with latter late Friday afternoon. Whole frequency situation and board objectives were reviewed with emphasis on international communication problems.

IMPROVEMENT CLAIMED IN CTI COLOR SYSTEM

SUBSTANTIAL improvement in operations of Color Television Inc.'s color TV system reported Friday following private showing for FCC members and staff executives. Viewers said quality of pictures—particularly color reproduction—was much better than in two earlier showings, both for official record of FCC's color hearing, though some problems in registration and in monochrome reception of color signals were still evident. CTI, CBS and RCA are competing for FCC approval of their respective systems.

Meanwhile, Theodore A. Wetzel, Milwaukee, told FCC his "compatible" color system "has advanced considerably beyond the theoretical," that he actually has transmission and reception equipment and in a few weeks will be ready to request opportunity to demonstrate. FCC earlier had turned down his bid to appear on indication his system existed only in theory [TELECASTING, Jan. 9, Feb. 27]. Mr. Wetzel said "new color striped filters are being manufactured by precision methods to replace earlier inaccurate fabricated filters" on his equipment. He claims filters do not move and will fit any size screen.

AMERICAN ON CBS

AMERICAN TOBACCO Co., New York (Lucky Strike cigarettes), effective April 2 will sponsor program Sunday, 7:30-8 p.m. on CBS. BBDO, New York, is agency. Show may be *This Is Show Business* currently in that period.

WHOL REORGANIZATION OPPOSED BY EASTON

NEW REORGANIZATION proposed by WHOL Allentown, Pa., was opposed Friday by Easton Pub. Co., operator WEEK (FM) Easton, as being contrary to FCC's rules and unfair in further comparative hearing ordered by Commission on original 1947 grant to WHOL [BROADCASTING, Feb. 27]. Easton Pub., loser in competitive hearing to WHOL for 250 w assignment on 1230 kc, petitioned FCC to dismiss WHOL's transfer bid, filed in early February.

Further hearing was ordered by FCC upon remand of case following court appeal by Easton Pub. Commission among other things indicated it wished to redetermine qualifications of both applicants in view of ownership changes. Easton Pub. in petition explained WHOL ownership change to improve financial condition was approved by FCC while appeal was pending. New transfer of WHOL to group headed by Victor C. Diehm, it was said, also is to improve financial status which was one of original issues in case. Easton Pub. claimed to allow such further change would be to unjustly allow substitution of new applicant and improve competitive position of WHOL.

CHICAGO URGES UNFREEZING OF TV GRANTS TO CITY

ILLINOIS delegation in Congress and FCC notified by Chicago city officials that City Council has called for granting of full seven-station TV quota to which it is entitled under FCC's allocation. Action based on resolution first introduced by Alderman Pacini in January [CLOSED CIRCUIT, Jan. 23].

Council complained that city only has been granted four licenses though it has applications for all seven facilities. FCC freeze will grievously injure Chicago industries and residents and impair city's ability to compete against New York and Los Angeles as TV center, resolution states.

INDUSTRY TV GROUP TO MEET WITH ASCAP

NEGOTIATIONS for per program licenses covering use of ASCAP music on television to be resumed March 15 when committee of TV broadcasters will meet with ASCAP group. This will be first meeting since Christmas as ASCAP officials have been fully occupied with working out details of consent decree to provide clearance at source on motion picture music, with license fees paid by picture producers rather than theatres.

Decree, expected to be filed in New York Federal Court this week, will modify previous consent decree which followed radio's revolt against ASCAP's demands and resulted in reorganization of society.

NAMED ERWIN WASEY V-P

THOMAS ERWIN named vice president and planning board director of Erwin, Wasey & Co.'s Chicago office.

DIAZ PROMOTED

RAY DIAZ, former traffic manager for ABC, promoted to Stations Dept. Friday, and Reginald Willcocks, former supervisor of New York transmissions, elected to Mr. Diaz's former job. Mr. Diaz will be in charge of New York, New England and Ohio territories.

session in New York this week of President Miller's advisory committee (Clair McColough, WGAL Lancaster, chairman; Howard Lane, WJJD Chicago; Harold E. Fellows, WEEI Boston; Robert D. Swezey, WDSU-TV New Orleans; Cal Smith, KFAC Los Angeles). William B. Ryan, KFI Los Angeles, who is seen as foremost prospect, will be in New York as chairman of NAB's BAB Committee, and presumably will be interviewed as to availability.

WHILE NO ANNOUNCEMENT was forthcoming from Chicago meeting of committee on March 4-5, it's understood there was substantial support for Mr. Ryan—if he's available. It wasn't unanimous, however, with indications of 4-1 split. President Miller understood to regard Mr. Ryan as acceptable as his second in command for \$25,000 post.

ACTION OF FCC in WBAL Baltimore renewal case wherein Pearson-Allen seek to wrest 50,000-w facilities from Hearst-owned outlet, may take unusual Commission turn, split 3-3 (Coy, Walker and Webster for Pearson-Allen and Hyde, Sterling and Hennock for WBAL-renewal). Two separate opinions—one written as if to grant WBAL renewal, and other to grant Pearson-Allen—are being prepared. Then exceptions and oral argument would follow prior to "final" decision. Comr. Jones didn't participate because of Pearson vendetta against his confirmation two years ago, in which Mr. Pearson did ignominious prat-fall when Senate unanimously confirmed nomination.

O. L. (Ted) TAYLOR has resigned effective April 1 as executive manager of KGNC Amarillo and KFYO Lubbock, Tex., but Taylor Co. will continue to represent stations in national spot. He will devote energies to Taylor company operations and to his owned-stations.

KBTW (TV) Dallas, acquired by *Dallas News* from Potter Television Co. for \$575,000, approved last week by FCC, will become WFAA-TV about May 1. Plan is to operate station with present call for 60 days, during which two organizations will be integrated and TV programming revamped, and then switch to new call. Overall operations under supervision of Martin B. Campbell, WFFA general manager.

NEW APPROACH indicated in renewal of license proceedings involving G. A. Richards stations (WJR Detroit, WGAR Cleveland and KMPC Los Angeles) scheduled to begin today in Los Angeles. American Jewish Congress and other agencies which figured in pre-hearing interchanges have elected to sit on side-lines as observers, rather than file appearances. I-proceedings warrant, it's presumed headquarters organizations will be alerted and new course considered.

ANOTHER "radio day" at White House last Wednesday. Almost in succession, President Truman had interviews with FCC Chairman Wayne Coy, CBS President Frank Stanton and House Interstate Commerce Committee Chairman Robert Crosser. Following custom, President was not quoted, but it was logically surmised that overall radio-TV pictures were discussed, since Chief Executive has evinced avid interest in subjects of late.

CBS POST TO OMMERLE

HARRY G. OMMERLE, former package producer, appointed manager of program-sales for CBS, effective March 20.

RADIO STATIONS EVERYWHERE

BUT ONLY ONE...

You can't catch a mermaid with grubworms. And you can't land your full share of pretty profits in the booming Central South market unless WSM carries your advertising.

With radio stations everywhere WSM remains unique in its ability to reach—to sell an area. To do this the station operates on a 50,000 watt 1-A Clear Channel. But just as important as the interference free signal is the fact that for 24 years WSM has programmed to please an audience of highly specialized radio tastes. This takes smart local production with a staff of 200 entertainers that include some of America's biggest name stars.

Successful advertisers know—you land the Central South's most desirable sales-fish by using WSM.
