Chairman's guide

New Democratic FCC chairman, whoever he may be, will have available specially prepared status portfolio of pending policy matters and indicated solutions, prepared under direction of incumbent Republican Chairman Fred Ford. In process for past three weeks, detailed report includes explanation of problems by division chiefs and department heads, and was developed in keeping with the "whole spirit of the change-over."

NBC-TV's option

NBC-TV has picked 8:30-11 p.m. EST as its new evening option-time base—same as CBS-TV and ABC-TV, except that CBS-TV's advances to 8-10:30 on Saturday and Sunday (BROADCASTING, Dec. 12). In other day-parts NBC-TV's EST affiliates will have 10:30 a.m. to 1 p.m. and 2:30-5 p.m. as network option time Monday through Friday and 10-12:30 p.m. and 3:30-6 p.m. on Saturday and Sunday. As usual there's some variation among time zones. NBC officials hoped to get contract amendments incorporating new hours in mail to affiliates over past weekend. Changes at all networks, shortening option time in each day-part by one half-hour, become effective Jan. 1, also effective date of FCC rule requiring them.

Inside story

Despite news reports, Dr. Frank Stanton's 45-minute session with President-elect Kennedy last Thursday (story page 28) had little to do with USIA and who should head it. Fact is that there had been strained feelings growing out of incidents associated with network's coverage of pre-convention campaign for Democratic nomination and election campaign, too. Dr. Stanton sought session which reportedly proved most amicable. There was no discussion of administration post for Dr. Stanton.

Petry addition

KVOO-TV Tulsa has appointed Edward Petry & Co. as exclusive national representative, effective Jan. 1. Station, headed by Harold C. Stuart, whose appointment as Secretary of Air Force is regarded imminent, is on ch. 2, with full power of 100 kw. Mr. Stuart recently announced appointment of John Devine, station manager, as general manager, succeeding C. B. (Brownie) Akers, resigned. Sister station, KVOO-AM, has been represented by Petry.

CLOSED CIRCUIT®

Chairmanship sweepstakes

Sen. J. Allen Frear Jr. (D-Del.) who lost to his GOP opponent by razor-edge vote, is being strongly supported by Democratic colleagues for FCC vacancy and for chairmanship too. Sen. Frear, 57, has been formidable behind-scenes worker and is regarded as good friend of broadcasters with more than casual knowledge of communications. He served two six-year terms and lost out because of eleventh-hour switch in labor support.

Commissioner John S. Cross, Arkansas Democrat, has let it be known that he will accept chairmanship if offered. Others previously mentioned: Commissioner Robert T. Bartley, who still may get sub-cabinet post; Commissioner T. A. M. Craven, who isn't candidate but is being urged for interim chairmanship, and Seattle attorney and former special counsel of Senate Commerce Committee Kenneth A. Cox. Also mentioned if more than one vacancy develops through shift of Commissioner Bartley is Reggie Schuebel, New York vice president of Guild, Bascom & Bonfigli, San Francisco agency which handled Democratic national campaign. She is veteran specialist in radio-tv agency work and has been active in last two presidential campaigns.

No damage

How would station brokers fare under FCC proposal to require broadcasters to hold onto their properties for at least three years before commission would approve sale (BROADCASTING, Dec. 12)? One broker did quick check of business this past year, discovered that 95% of his dollar volume came from station transactions involving broadcasters who owned stations for more than three years. So feeling is regulation won't affect him badly, although he opposes move on principle.

Shapp to State?

Expected to show up in Washington in important administration post (not FCC), is Milton J. Shapp, president of Jerrold Electronics and pioneer in catv development. Mr. Shapp was ardent supporter of Senator Kennedy, had purchased full pages displays in New York newspapers espousing Kennedy election. He spent in excess of \$50,000 in campaign. Mr. Shapp's interest is in international

affairs and relief. It wouldn't surprise associates to find him in State Department, in ambassadorial post, or in External Welfare activities.

Lecture towns

Both NBC and CBS expect to get lot of extra mileage from their foreign correspondents this year-end. Bringing them home for annual news wrapups (CBS-TV: *Years of Crisis*, Dec. 29, 10-11 p.m. EST; NBC-TV: *Projection '61*, Dec. 30, 9-10 p.m.), they've scheduled their respective teams for major personal appearances more widely than ever before. CBS news team is set for forums in New York (Dec. 30), Dallas (Jan. 3), Los Angeles (Jan. 5), San Francisco (Jan. 6) and Chicago and Washington (dates not yet firm). NBC group will conduct similar forums in Boston (Jan. 4), Philadelphia (Jan. 5), Detroit (Jan. 9), New York (Jan. 10) and Chicago (Jan. 13). ABC correspondents, not coming in for special news wrapup, will forego chicken-and-peas circuit.

Efficiency expert

Fledgling—and outgoing—FCC Commissioner Charles H. King has several ideas about how agency could improve its service to public and broadcasters and has prevailed upon fellow commissioners to accept at least one. In past, commission has acted on uncontested initial decisions by examiners. Commissioner King maintains, through numerous dissents, that this is waste of manpower, time and money. As consequence, FCC plans to do away with procedural step of "granting" uncontested initial decisions through administrative action. It was felt no rulemaking is required to incorporate this procedure.

Not ready

Florida Gov. LeRoy Collins, who takes over NAB presidency next month, turned down invitation to speak for broadcasters before House Campaign Expenditures committee last week, explaining he's too tied up with state's affairs and adding he'd be glad to do so on future date. But committee closes its record with last week's hearings (page 27). Invitation was sent to Gov. Collins at NAB's Washington headquarters, which suggested it be forwarded to governor at Tallahassee.

OVERSIGHT REPORT

Final staff recommendations, criticism of agencies mild

Lame-duck House Legislative Oversight Subcommittee met in Washington Friday (Dec. 16) to work on final official act—windup report and recommendations to full House. Committee, chaired by Rep. Oren Harris (D-Ark.), ceases to exist on day Congress reconvenes—Jan. 3. Report is due that date and second meeting is scheduled Jan. 2.

At Friday's session, committee pored over 200-plus-page staff document which is mild in its recommendations and criticisms of FCC and other agencies. Staff report, due for public release late this week, does hit agencies for lack of long-range planning for future. Cited is need for direction in space allocations. Final committee recommendations, it was reported, also will be much milder than many Oversight proposals of past.

Staff document also points up need for clearly-defined national policy with respect to all federal regulatory agencies. While it does not say so, feeling is that initiative in this respect should be taken by White House and that most of guidance can be given administratively without need for legislation. Report also recommends further congressional hearings on network regulation and/or licensing without specifying form such regulation should take.

Survey on rating services, being made independently for subcommittee by American Statistical Assn., is not due until mid-January. Study is based on statistical validity of ratings and methods used in surveys and does not cover accuracy or truth of ratings. Many complaints, however, have been received by subcommittee from radio stations that ratings cause downgrading in program service.

Radio-tv cover N. Y. air crash disaster

Network and local radio-tv news teams Friday morning (Dec. 16) sped to crash scenes in New York where mid-air collision of United Airlines' DC-8 jet liner and TWA Constellation took estimated 128 lives. Eyewitness reports were on air minutes after planes plunged to ground and spread wreckage and fire in residential area of Brooklyn and on Staten Island.

ABC Radio and ABC-TV aired 11 bulletins between 10:55 a.m.-12:30

Let it snow

No matter what else they thought of snowstorm that crippled much of eastern U. S. last week, television advertisers had one reason to be thankful: As usual when people can't get away from home (or have excuse not to), tv audiences were bigger than normal. Nielsen's Instant Audimeter showed prime-time sets-in-use in New York zoomed. On Sunday night (Dec. 11), shortly after storm struck, homes using tv were up 6.7% from preceding week; Monday night they were up 28.7%, and Tuesday night, after city had begun to dig out, were still up 18.5%.

p.m. with reports broadcast from then on from crash units on scene. Tv news film reports started at 2:15 p.m. while WABC New York aired 25-minute documentary at 6 p.m. as part of station's "first person news" policy.

CBS-TV's special coverage was climaxed with film and tape report on Firestone Tire & Rubber Co.'s *Eyewitness to History* series (10:30-11 p.m.), which scrapped plans for scheduled report on President-elect John Kennedy's new cabinet. In addition to scores of bulletins, CBS-TV carried quarter-hour report at 1 p.m., half-hour follow-up at 2 p.m. and another half-hour special at 5 p.m. CBS Radio's daytime and nighttime news shows featured eyewitness accounts.

'Hot Line' Busy ■ NBC Radio and NBC-TV had 30-man team split among two crash sites. Equipment included two mobile radio units, six film cameras and one live mobile tv unit. Special programs, aside from bulletins which began at 10:45 a.m., included quarter-hour show at 5 p.m. and half-hour show at 8 p.m. NBC Radio carried roundups approximately every seven minutes, lasting from six to seven minutes each during early afternoon hours. Network's "hot-line" signal system to affiliates was kept busy throughout day. Extended reports were aired at 4:35 p.m. and 6:10 p.m. All *News on the Hour* programs concentrated on disaster news.

Mutual began bulletins at 11 a.m. Six network newsmen in field worked in cooperation with WOR New York newsmen. Special 25-minute show at 3:35 p.m. featured interview with chaplain who was with one survivor of plane crashes (Stephen Baltz, 11, identified as

son of W. S. Baltz, vice president and general counsel of Admiral Radio Corp., who was not aboard plane).

WNTA-TV New York picked up CBS-TV five-minute reports on hourly basis. WNTA (AM) aired feeds from station newsman aboard UPI helicopter flying over crash scenes. WNEW New York kicked off radio fund drive to aid crash victims with \$1,000 donation at 6 p.m. Friday. WNEW said it fed some 100 other stations in other parts of U. S. during day.

Networks planning inaugural pickups

As networks draw near wire on inaugural coverage, it's apparent they have more salable commodity than four years ago. Number of active prospects were looking at coverage availabilities at end of last week and while only two had signed dotted line, that pair alone represented better than 100% improvement over 1957.

CBS-TV sold 45-minute pickup from inaugural ball to Hanes Hosiery Inc. (placing order through J. R. Flanagan Adv. Agency, N. Y.). Earlier Purex (through Edward H. Weiss Co., Chicago) had bought NBC-TV's entire inauguration day package (BROADCASTING, Dec. 5).

Report circulated last week that Ford Motor was interested in inaugural sponsorship, but this could not be substantiated.

Networks are going ahead with plans to throw unprecedented resources into Jan. 20 job. ABC Radio and ABC-TV have appointed John Rolfsen and Bill Shadel respectively as anchormen on job. ABC-TV is spotting 22 cameras along parade route and will cover ball inaugural night. CBS News will begin its Washington coverage at 8 a.m. with Edward R. Murrow on inaugural platform as in years past. Mutual is making special plans, assigning upward of 30 men to Washington.

NBC Radio is planning extensive job beginning at 9:30 a.m., utilizing dozen men at Capitol and others along parade route and Kennedy Georgetown home. Russ Tournabene is producer. NBC-TV will do 5-6 hour job, featuring Chet Huntley-David Brinkley team. Purex order for commercial portions of day was placed before election and must have cost client upward of \$250,000 for time and production, according to estimate made by outside source.

In 1957 seven networks estimated pre-emption losses exceeded \$380,000

WEEK'S HEADLINERS

Wilson A. Shelton, senior vice president and director of all creative services at Compton Adv., N. Y., elected executive vp of agency. Mr. Shelton joined Compton in 1956 as vp and assistant creative director. In April 1959 he became creative director and senior vp. He was prime mover in establishing integrated group system in Compton's creative department. Earlier Mr. Shelton had been senior vp and creative director of Biow Co., N. Y.; vp of Dancer-Fitzgerald-Sample, N. Y., and vp and group head at Kenyon & Eckhardt, N. Y.

Harmon O. (Ham) Nelson, formerly broadcast director, Fuller & Smith & Ross, Los Angeles, joins MacManus, John & Adams, that city, as broadcast director—western division. Mr. Nelson had previously worked in various phases of radio-tv at Young & Rubicam, C. J. La Roche, Williams & Cleary and Kenyon & Eckhardt. He was broadcast director of Stromberger, LaVene & McKenzie prior to merger of this agency with Fuller & Smith & Ross.

Sidney M. Robards, director of press relations for RCA since 1957, promoted

to director of public affairs for company. Mr. Robards has been with RCA since 1938 and from 1947-57 served as manager of information department. In his new post, Mr. Robards will have overall responsibility for corporate press relations, editorial and publication services, product news and field relations and presentations and exhibits.

Kendrick R. Wilson Jr. elected chairman of board and chief executive officer of Avco Corp., succeeding Victor Emanuel, who headed company for 22 years until his death Nov. 26. Mr. Wilson joined Avco as vp in 1950 and was named president in 1957. Earlier he had been associated with Lehman Bros. and U. S. Trust Co. Since 1955 he has been member of both board of directors and executive committee. **James R. Kerr**, Avco executive vp in charge of defense and industrial products group, becomes firm president, while **Col. Earl H. Blaik** moves up to chairman of executive committee. Avco Corp. owns Crosley Broadcasting Corp., licensee of WLW (AM) and WLWT (TV) Cincinnati, WLWC (TV) Columbus and WLWD (TV) Dayton, all Ohio; WLWA (TV) Atlanta, Ga., and WLWI (TV) Indianapolis.

For other personnel changes of the week see FATES & FORTUNES

AT DEADLINE continued

for inaugural coverage. Only sale then was Maybelline sponsorship of ball pickup on CBS-TV.

Tavern cannot 'bootleg' sports tv, court rules

Telecasts of professional football games cannot be "bootlegged"—not even by taverns—when there are agreements setting up geographical limits to such coverage.

That was import of injunction signed Friday (Dec. 16) by Judge John Grimshaw of Superior Court of New Jersey against Circle Bar & Grill Inc., Wayne, N. J., on complaint of CBS and New York Giants football team. CBS said injunction established "legal precedent" in that it recognized property rights in tv broadcast which contains no material protected by statutory copyright.

Circle Bar & Grill installed special tv equipment, complaint said, and picked up Nov. 20 game of Giants and Philadelphia Eagles from New York and Giants-Eagles contest in Philadelphia on Nov. 27. Tavern patrons had to pay admission charge to

watch telecasts, complaint noted. It further pointed out that CBS and Giants have agreement that games may not be broadcast into area within 75 miles of city where such game is played and charged that Circle Bar & Grill caused agreement to be violated.

Landis agencies report to Kennedy due tomorrow

Recommendations to President-elect on organization and administration of federal regulatory agencies are due to be submitted by James M. Landis to Sen. Kennedy tomorrow (Dec. 20), it was learned Friday.

Report, originally due Dec. 15, contains specific recommendations for FCC and other independent agencies, it's understood, although no details have been divulged. This is switch from original intent which was to submit generalized document on philosophy and organization of agencies. Mr. Landis, former New Deal administrator and Harvard Law School dean now in private practice, was appointed to survey operation of regulatory offices for incoming administration last month (BROADCASTING, Nov. 21).

Fisher favored by FCC for Portland ch. 2

FCC Friday (Dec. 16) announced staff has been instructed to prepare document to grant ch. 2 Portland, Ore., to Fisher Broadcasting Co. and deny competing application of Tribune Publishing Co. Action went along with December 1959 initial decision.

Principal owner is O. D. Fisher and family (60%), who own KOMO-AM-TV Seattle. Losing applicant publishes *Tacoma News-Tribune* and owns KTNT-TV Tacoma.

Also Friday, Hearing Examiner Elizabeth C. Smith issued initial decision recommending grant of ch. 13 Panama City, Fla., to Bay Video Inc. Competing applicant TBC Inc. (T. H. Chapman Jr. and associates) dismissed application. Bay Video principals hold interlocking ownerships in WALA-AM-TV Mobile, Ala. (W. B. Pape, Frank H. Pape) and in WPCF Panama City, Fla. (C. D. Lewis and E. L. DuKate).

In second initial decision Friday, Examiner Herbert Sharfman recommended affirming Feb. 17 transfer of WJPB-TV Weston, W. Va., by J. P. Beacom to Thomas P. Johnson, George W. Eby and Mr. Beacom. Examiner proposed to deny protest filed by WBOY-TV Clarksburg, W. Va.

Sportscasters' fees up

Network television sportscasters who will be calling play-by-play on major football bowl games within next few weeks have reason for rejoicing. It is understood that under new contract agreed upon (but not signed) by tv networks and American Federation of Television & Radio Artists, sportscasters will receive substantial boosts in fees, retroactive to cover holiday bowl games. Fees also apply to pro championship, World Series and championship boxing events. Sportscasters' fee per game will go up from present \$275 to \$400 (up 45%), while assistant sportscasters' fees rise from \$175 to \$250 (up 43%). Network rates in other program areas are not expected to rise so sharply (BROADCASTING, Dec. 12).

Business briefly...

Chock Full O'Nuts Corp., N. Y., will sponsor Guy Lombardo Orchestra in live CBS-TV telecast from Roosevelt Hotel, N. Y., New Year's Eve, 11:15 p.m.-12:15 a.m. EST. Program will be in 25 markets where advertiser's coffee is sold and will be largest live network tv show yet purchased by firm. Grey Adv., N. Y. is agency.

Nestle Co. (through McCann-Erickson) has bought *Roy Rogers Show* weekly on CBS-TV, Saturday 11:30 a.m.-noon, beginning Jan. 7. Western dramas will be "selected rebroadcasts," network said.

part of the profile of a great radio station . . .

MORE WFBR LISTENERS OWN NEWER AUTOMOBILES

In the WFBR audience, there are proportionately 20% more car owners of 1956 or newer model cars than in the total sample, which includes listeners to all Baltimore stations.*

When you advertise on WFBR, you reach the people who have the spendable income and who spend it.

* In a recent Qualitative Survey in the metropolitan Baltimore area, The Pulse, Incorporated, matched certain socio-economic factors with radio station listening habits.

BALTIMORE, MARYLAND

BROADCASTING, DECEMBER 19, 1960

wapi makes the headlines

The experienced, alert and aggressive news department which makes WAPI the South's leading radio news media not only *covers* the news for its listeners superbly, but it *makes* news by its very coverage of that news. Here is a case (a page one case!) in point.

When word came that Hurricane Donna might hit Alabama WAPI's News Department went into action. News Director Clancy Lake literally flew into the eye of the hurricane to cover the story for WAPI listeners. Aboard a U. S. Navy hurricane hunter plane he flew for ten hours into the actual "eye" of Hurricane Donna and was the *only* radio reporter to give the exclusive inside story of the storm from inside the storm itself.

One of the great newspapers of the South, the Birmingham News, recognized what WAPI proudly says about its crack news operation: That in its thorough and exciting coverage of the news, WAPI's

News Department makes news itself. The Birmingham News carried Clancy Lake's story from inside Hurricane Donna as a page one feature, under Clancy Lake's by-line, and demonstrated once again the truth that, "WAPI not only *covers* the news; it *makes* news."

There is no substitute for experience, initiative, alertness and even personal courage in a great radio news operation. Those are the qualities WAPI News possesses. That is why WAPI News has such impact and authority in the rich Birmingham market.

EDWARDS AIR FORCE BASE, Calif., Sept. 10—Flying higher than the U-2 "spy plane" and more than three times as fast, the X-15 Saturday reached through many reporters it would make to re-enter the atmosphere safely from the fringes of space.

Scottish bank robbed

Eye-witness

Clancy Lake, WAPI-TV news director and former Birmingham News staffer, flew into the eye of hurricane Donna Saturday.

He has written a vivid description of how Donna looked from the inside as she raked Florida's coastline. The hurricane swept the behind death and destruction.

when I hitched a ride aboard a Navy hurricane hunter. My doubts intensified as the big Super Constellation roared closer to the eye.

THE ENGINE, designated J-4, may be used in clusters to provide second and third stage propulsion for advanced versions of the Saturn—nearly this country's largest space vehicle.

DATEBOOK

A calendar of important meetings and events in the field of communications

*Indicates first or revised listing.

DECEMBER

Dec. 19—Broadcasting Executives Club of New England annual Christmas party. Grand Ballroom, Sheraton-Plaza Hotel, Boston, 5 p.m.

Dec. 30—Deadline for reply comments on FCC's proposal regarding assignment of vhf channels at less than present minimum mileage separations. Docket 13,340.

Dec. 31—Deadline for entries in first International Broadcast Awards competition of Hollywood Advertising Club.

Dec. 31—Deadline for submitting nominations for the Alfred I. duPont Awards. The categories are: a large station for outstanding programming; a small station for similar excellence, and an outstanding news commentator. Awards are for radio or tv. Submit entries to Prof. O. W. Riegel, head of the Dept. of Journalism and Communications, Washington and Lee U., Lexington, Va.

JANUARY 1961

Jan. 6—Comments due on FCC's proposal to add ch. 9 to Syracuse and ch. 13 to Rochester, both New York, and make other changes to bring this about.

Jan. 8-12—National Retail Merchants Assn. 50th anniversary convention. W. Maxey Jarman, board chairman of Genesco Corp., will speak at the opening-day luncheon. Grand Ballroom, Statler-Hilton Hotel, New York.

*Jan. 9—Eastern Regional Management Seminar, sponsored by National Community Television Assn. Speakers: Frederick W. Ford, FCC chairman; Herbert Jacobs, Tv Stations Inc.; Hamilton Shea, WSVA-AM-TV Harrisonburg, Va.; E. Stratford Smith, NCTA counsel. William Dalton, new NCTA president, will preside. Statler-Hilton Hotel, Washington, D. C.

Jan. 10—Deadline for entries for the George Foster Peabody Radio & Television Awards. The awards give recognition to programs, stations, networks and individuals. Categories for both radio and tv are: news, entertainment, education, youth or children's programs, promotion of international understanding and public service. Entry blanks and further information may be obtained from the Dean, Henry W. Grady School of Journalism, U of Georgia, Athens.

Jan. 10—Radio & Television Executives Society's timebuying and selling luncheon-seminar. Johnny Carson will discuss what show business people think of the broadcast media. Hawaiian Room, Hotel Lexington, New York, 12:15 p.m.

*Jan. 12-13—NAB Radio Code Board meeting at NAB headquarters, Washington. Board will review progress of code enforcement since last summer's shift from honor system to enforcement provisions with paid subscriptions.

Jan. 13—New York Chapter, Academy of Television Arts & Sciences "Close-Up" 1961 dinner. Grand Ballroom, Waldorf-Astoria Hotel.

*Jan. 16—Academy of Television Arts & Sciences, Los Angeles Chapter, meeting on foreign films, with top pictures from England, France, Germany, Japan and Latin America being shown to demonstrate what our American product is up against in foreign markets. Beverly Hilton, Beverly Hills, Calif., 8 p.m.

*Jan. 16—Comments due on FCC rulemaking which would relax multiple-ownership restrictions (exempting less than 5% holdings) for stockholders or corporations with 50 or less stockholders. Replies due Jan. 31.

*Jan. 16—Comments due on FCC rulemaking which would prohibit the sale of a broadcast station, except in certain instances, where licensee has outlet less than three years. Reply comments due Jan. 26.

Jan. 17—Radio & Television Executives Society's timebuying and selling luncheon-

seminar. Robert (Bucky) Buchanan, radio-tv group head of J. Walter Thompson, N. Y., is featured in a case history of Ford's broadcast use. Hawaiian Room, Hotel Lexington, New York, 12:15 p.m.

*Jan. 18—Hollywood Ad Club in-depth clinic on "Advertising's Responsibility to the Food Broker." D. V. Brown of Brown-Massie & Assoc. will chair the panel discussion. Hollywood Roosevelt Hotel, 11 a.m.-2 p.m.

*Jan. 18—North Carolina AP Broadcasters Assn. Sir Walter Hotel, Raleigh, N. C.

Jan. 20-22—Advertising Assn. of the West mid-winter conference. Pioneer Hotel, Tucson, Ariz. James Proud, president of Advertising Federation of America, will report on plans for Feb. 1 meeting with members of Congress.

Jan. 21-22—Ninth annual Retail Advertising Conference, Palmer House, Chicago.

*Jan. 23—Hollywood Ad Club luncheon meeting Hollywood Roosevelt Hotel. Dr. Sydney Roslow, director, The Pulse Inc., will discuss the latest developments in media research.

Jan. 23-24—Oklahoma Broadcasters Assn. Biltmore Hotel, Oklahoma City. Members of the Oklahoma Legislature will attend luncheon meeting at which FCC Commissioner John S. Cross will be featured speaker.

Jan. 24—Radio & Television Executives Society's timebuying and selling luncheon-seminar. Harry Renfro, in charge of radio-tv at D'Arcy, St. Louis, talks about use of local programs and/or syndication as compared to spot announcements. Hawaiian Room, Hotel Lexington, New York, 12:15 p.m.

Jan. 24-26—Georgia Radio & Television Institute, sponsored by The Georgia Assn. of Broadcasters and Henry W. Grady School of Journalism, U. of Georgia, Athens. Maurice B. Mitchell, president of Encyclopedia Britannica Films Inc., and Arthur Hull Hayes, president of CBS Radio, will be among the featured speakers.

Jan. 27—Educational Foundation of American Women in Radio & Television, Board of Trustees meeting. Belmont Plaza Hotel, New York City.

Jan. 27-29—American Women in Radio & Television, board of directors meeting. Belmont Plaza Hotel, New York City.

Jan. 30-Feb. 4—National Retail Merchants Week sponsored by 11,500 stores of National Retail Merchants Assn. with slogan, "Retailing Serves America."

FEBRUARY

Feb. 1—Deadline for entries in National Safety Council's non-competitive public interest awards to radio-tv and other public information media entries will be accepted for radio-tv stations and networks, advertisers, daily and weekly newspapers, national news services and syndicates, and labor organizations; consumer and trade magazines and outdoor advertising companies. NSC also will administer Alfred P. Sloan Radio-Tv Awards for Highway Safety from among recipients of council's public interest awards in radio-tv and advertiser categories. Two new awards of \$1,000 each will be presented to producer and writer of radio or tv programs selected from Sloan Award winners. Official blanks may be obtained from the Council at 425 N. Michigan Ave., Chicago, Ill.

Feb. 1—Deadline for entries in 38th annual Better Copy Contest of Public Utilities Advertising Assn. Twenty classifications to be judged include separate categories for radio and television. Not restricted to PUAA-affiliated companies. Further information available from W. L. Perdue, contest chairman, Kansas City Power & Light Co., 800 Kansas Ave., Topeka, Kan.

Feb. 1—New deadline for comments on FCC proposal to revise annual financial report (Form 324) due from all broadcast stations, including condensed balance sheet, analysis of notes payable, a new income statement and a new breakdown of revenues. Docket 13,842.

Feb. 1-3—Winter Military Electronics convention, sponsored by National Professional

April 26-29—Institute for Education by Radio-Television, Deshler-Hilton Hotel, Columbus, Ohio.

OPEN MIKE ®

JFK's news secretary

EDITOR: Congratulations on your editorial (Dec. 5, page 118) about [Pierre] Salinger's position as news secretary.

Your suggestion [careful attention to use of word "news" conference or secretary instead of "press"] is only one of many answers to the people who have been thrashing around in search of a panacea for the promotion of radio and television via radio and television. If every broadcaster would check carefully for such subtleties of semantics the air media would not have to worry about fighting for stature and prestige.—*Lawrence H. Rogers II, Vice President, Taft Broadcasting Co., Cincinnati*

3M 'first' in video tape

EDITOR: Knowing that a magazine with as much influence on industry opinion as BROADCASTING is conscientious about the accuracy of its reporting, we would like to call your attention to an erroneous statement in the otherwise fine article on video tape in your Dec. 5 issue.

Paragraph No. 3, page 31, begins: "Agency executives agreed that tape, first introduced by Ampex less than five years ago . . ."

This is false.

Video tape was first introduced by Minnesota Mining and Manufacturing Co. This was in April 1957, in time to be used for the networks' changeover to daylight saving time.

To date, the company's "Scotch" Brand video tape No. 179 still is the only video tape available in commercial quantities . . .—*Richard A. Enger, Division Publicist, Minnesota Mining and Manufacturing Co., St. Paul, Minn.*

EDITOR: . . . It is true that Ampex introduced the video tape recorder; however, without "Scotch" Brand video tape their fine machine would be of little more functional value than a fine automobile without gasoline. . . .—*W. A. Mara Jr., Account Executive,*

McManus, John & Adams, Bloomfield Hills, Mich.

[We appreciate 3M's position on our reference to video tape. Actually, of course, the story was referring throughout to the entire process of video taping and not to the tape itself.—THE EDITORS.]

Nielsen rebuttal

EDITOR: The "Playback" column Dec. 5 (page 24) quoted Len O'Conner in some bold nonsense about television ratings. His theme: for radio and tv to achieve their real potential the ratings got to go. Bold? It get wearier: "Sponsors are spending millions . . . on the basis of ratings that are based on the so-called opinion of one-tenth of one percent."

The value of a sample lies more in its representativeness than its size. The difference between fact and "so-called opinion" is obvious also. Nielsen bases its ratings on the fact of sets actually tuned to a program. I don't know what Mr. O'Conner bases his opinion on.

The points raised against sampling techniques are consistently incorrect. [The recent] *Esquire* article by Martin Mayer on this same subject . . . shows that the facts are available.

If BROADCASTING hadn't reprinted Mr. O'Conner's statements they might have gone unchallenged, but beyond that, did his remarks deserve repeating at all?—*Erwin H. Ephron, Director of Press Relations, A. C. Nielsen Co., New York*

[We would have little news in our magazine if we printed only those opinions with which we agreed.—THE EDITORS.]

Right bower is right

EDITOR: I see that our old friend, the right-hand bower, is back with us in the Dec. 12 issue of BROADCASTING (page 104, "Washington scuttlebutt").

As I have pointed out to you folks before, there is no such thing as a right-hand bower; right bower is a term in the card game euchre. You might as well refer to a baseball player as a right-hand fielder.—*John W. Willis, Pike & Fischer Inc., Washington, D.C.*

In Buffalo and Western New York for product

identification use the station most

closely identified with the market

A minor point, perhaps, but even WBEN-TV station ID's picture the Buffalo-Western New York market.

Never-ending is the WBEN-TV effort to be the station most closely identified with the likes and the loyalties of this important area. Since 1948, when Ch. 4 pioneered television on the Niagara Frontier, good public service programming and quality local programming were the standards set and followed to build loyal audiences.

Today, to best identify your product with the shopping habits of the more than 2,000,000 people in this metropolitan market, *use the station they watch most often*. Make your TV dollars count for more — on Ch. 4, the station identified with top coverage, penetration and sales in Western New York.

BOOK NOTES

■ "Confessions of a Happy Man" by Art Linkletter with Dean Jennings, Bernard Geis Assoc., 130 E. 56 St., New York; distributed by Random House, 250 pp.; \$3.95.

The private life of an entertainer who seemingly spends most of his life in public before the camera and microphone is recited out in this homespun volume. It combines personal history with comic anecdotes, but somewhat surprisingly, Mr. Linkletter is unhappy to the point of outright bitterness about a number of things, from parents who deserted him at birth (his real name is Kelly) to "the phonies and the slick operators and the unctuous promoters" who prey upon Hollywood stars. Since everybody (at least everybody likely to read this book) knows of the successful Art Linkletter, he devotes most of the volume to accounts of his poverty-stricken childhood, his struggles to get an education and a foothold in radio and the pitfalls that beset his path to fame and fortune. This is a Horatio Alger type story which proves that truth is stranger than fiction rather than the equally popular notion that people are funny.

■ "Radio and Television, A Selected Bibliography" prepared by Patricia Beall Hamill, professorial lecturer, The American U., under the direction of Gertrude G. Broderick, radio-tv education specialist, Office of Education, U. S. Dept. of Health, Education and Welfare; OE-34004, Bulletin 1960, No. 25, U. S. Government Printing Office, Washington 25, D. C.; 25¢.

The growing awareness of the importance to education of media such as radio, tv and film, reflected in a significant increase in the published literature in the field, has prompted the preparation of this 46-page annotated bibliography. It is the first revision in four years. Books and periodicals reporting on research, new developments in the professional skills of broadcasting and important contributions to the educational use of mass media are included.

A selection of technical books also is given, as well as a list of organizations and groups where helpful pamphlets and booklets are available.

■ "The 1961 Madison Ave. Handbook" by Peter Glenn, 444 East 52 St., New York 22; \$4.

This is the fifth annual edition of a reference volume designed for use by advertising art directors and other executives. It contains listings of advertising agencies, photographers, illustrators, tv producers, talent agencies, publications and other helpful information.

GOING PLACES! Year-round, round-the-clock, WBBM-TV newsmen are going places... and Chicago audiences are seeing people, places and events shaping the destiny of nations.

In the past year, reporters Frank Reynolds, Carter Davidson and Fahey Flynn have traveled far — the Congo, Japan, Korea, Formosa, Austria, Germany, Italy, France, England — to score major news viewers have seen either as one-time news “specials” (“Orient in Ferment,” “Anatomy of a Crisis Nation” and “Africa Marching”), or as part of WBBM-TV’s regular day-in, day-out news cover

Clearly, Television 2 Chicago goes to great lengths to bring the world closer to home. Why WBBM-TV’s clear-cut leadership goes on and on... why Nielsen has reported WBBM-TV the vision station in Chicago for the past 66 consecutive reports! **WBBM-TV** CBS Owned, T

Instructive, informative advertising: a good will ambassador for south of the border

An important opportunity awaits broadcast advertisers in Mexico.

For that matter it similarly exists in all the countries of the world where peoples are struggling to rise out of poverty and illiteracy. Advertising can help win this struggle. It can also help the United States cement its relationship with Mexico and other countries.

In a broad sense advertising is a major export of the U.S. In Mexico City we have a number of U.S. agencies that are preparing advertising for U.S. products. In addition there is a larger group of Mexican agencies pursuing similar goals.

Down in Mexico ■ In a recent three-week motor tour of Mexico, I was able to observe advertising at work and to discuss some of its implications with the heads of agencies and commercial enterprises in Mexico City. It seemed evident that while many superficial differences do exist, Mexican advertising is trying to ape current U.S. advertising. I think this is regrettable—for them and for us.

The differences mainly involve such matters as stacking 8 or 10 commercials in a row or frequently placing competitive products, such as our two most famous soft drinks, back to back. Beyond this, the commercial content is pretty much like our worst examples of repetitious jingles and screaming superlatives.

In our industry we lay claim to having stimulated much of the economic progress of the U.S. over the past 100 years. We know advertising as a force which has sold more than merchandise. Among other things, it has sold sanitation and health. It has encouraged better care of homes and children and equipment. We take all this for granted in the U.S., and we are past the stage of such elemental objectives.

But aren't these the things we need most? Isn't it necessary to learn new ways before we can reach a great market? Isn't it necessary to learn on productivity and on learning new

intelligent self-interest
American companies ad-

vertising in Mexico to spend a more substantial share of their advertising dollars on such matters? Instead of selling toothpaste, shouldn't we first sell the importance of using it? Shouldn't we assist in the development of programming, as well as commercials, which is aimed at the needs of the people and which is not just a poor stereotype of U.S. broadcast fare?

Obviously, the broadcast medium is the one which can best accomplish such an end in a country with a literacy factor of 79%, and where every town and village has a radio blaring at an incredible volume.

True Story ■ I was told an amazing story by the president of a large cement company in Mexico. His Mexican advertising agency had recommended the use of television to sell a product we know as "Sakcrete," a bag of pre-mixed cement and aggregate for do-it-yourself construction projects. The product had not been selling well, but he was skeptical of television because of the low number of sets in use. Nevertheless he went along with the recommendation.

The results were immediate and astonishingly successful. He couldn't understand it until he discovered how television works in the small villages of the interior. Several families buy a television set together and then charge admission to the neighbors. The viewers-

per-set figures are fantastic.

What a powerful tool this is in a country which is just developing a middle class, a country where you will find as many wooden plows as steel ones; where disease and pestilence still take far too many. Yet, Mexico is a country eager to learn, a country of fine craftsmen and a land of skillful, intelligent people held back through centuries of Spanish feudalism.

These are the people who created the incredible cities and works of art of Chichen Itza and Teotihuacan and who developed a calendar far in advance of anything comparable at the time.

Opportunity ■ Here is an opportunity to demonstrate the force for progress that advertising can be. Here is a way for American companies to create new markets by selling new ways of living and working. Here is an opportunity to test and experiment and evaluate advertising in a manner that is no longer economically feasible in the U.S.

Isn't this also a less patronizing way to sell our own country than through some federal agency projects and hand-outs?

Isn't it also a way for American companies to offset the inordinate fear of exploitation which continues strong in Mexico? I think it is. And from what I saw, the opportunity is largely being missed.

Norval LaVene is vice president and manager of the Los Angeles office of Fuller & Smith & Ross. He was one of the founders of Stromberger, LaVene, McKenzie, which merged with FSR last January 1. Mr. LaVene has had experience with a wide variety of products and services. Previously he was a senior account executive with West-Marquis Inc. A graduate of UCLA, his activities include Community Chest, American Assn. of Advertising Agencies and American Management Assn.

That's "Rebound Tumbling"

These children are enjoying America's fastest growing recreation and sport — *rebound tumbling*. They are bouncing at one of the thousands of *rebound tumbling centers* which have sprung up around the country.

The word "Trampoline" is actually a brand name referring exclusively to products of the Nissen Trampoline* Company, originator of standardized rebound tumbling equipment, which has held a U.S. Patent Office Registration covering this trademark since 1943.

Interestingly, the word "Trampoline" did appear in dictionaries as much as 30 years ago, meaning primarily "walking on stilts" or referring to a home-made net for acrobats. The word derives from the Spanish "trampolin" meaning a wooden diving board. Some 25 years ago George Nissen designed and mass-produced an efficient, folding type of rebound tumbling equipment now used in more than 10,000 schools and colleges, and thousands of homes and centers in more than 30 countries. Nissen popularized the sport and his trade-mark.

The Amateur Athletic Union, NCAA, and other official bodies recognize the sport as "rebound tumbling." In the interest of accurate reporting, we urge you to refer to it always by that name.

Please follow this correct wording:

The name of the recreation and sport is *rebound tumbling*.

The name of the product is *rebound tumbling equipment, unit net or bed*.

The name of an outdoor bouncing center is a *rebound tumbling center, bounce center or jump center*.

If "Trampoline" is ever used, it should be followed by the word "Brand", be capitalized, and be identified with Nissen equipment. Our sincere appreciation to you for proper use of these terms.

PETERS, GRIFFIN, WOODWARD-REPS.

REQUEST: FULL SEC. 315 REPEAL

- House campaign hearing gets Sarnoff, Stanton appeals
- NBC, CBS assert broadcasters have earned political freedom
- ABC urges suspension at least during presidential races

Two of the networks entered their white-hot hope in the preliminaries last week and thus let it be known to all concerned what they expect to win in the main bout: outright repeal of Sec. 315 by the 87th Congress next year.

Fresh from the triumphs of television's "Great Debates" in the 1960 presidential campaign, NBC and CBS urged the House Campaign Expenditures Committee to help erase the Sec. 315 obstacle permanently—for all elective offices.

As NBC Board Chairman Robert W. Sarnoff put it Thursday in a personal appearance before the special House committee: "It would be the most appropriate mark of recognition that the new Congress could bestow on a distinguished public service."

And from CBS President Frank Stanton, in a letter entered in the committee hearing record, came a prediction: "We are confident that if the broadcasters are permitted to present candidates in debates, in face-to-face discussions and in similar appearances, they will do so wherever feasible."

AB-PT & ABC President Leonard Goldenson in a statement filed Friday didn't ask for across-the-board repeal, but thought the 1960 suspension should be made permanent for presidential election years.

Cost and Length ■ Although Dr. Stanton confined his remarks to the two issues the committee is studying—the high costs of modern political campaigning and whether campaigns should be shortened—Messrs. Sarnoff and Goldenson emphasized the networks' exercise of journalistic responsibility in bringing the simulcast Kennedy-Nixon appearances to the electorate.

Mr. Sarnoff said NBC's presentation of candidates at no cost to them should not be regarded as "free time," but as an exercise of broadcasting's "journalistic right—the freedom to cover the men and issues of the campaign in accordance with our editorial judgment, and within suitable formats of our own choosing, designed to inform

the public as effectively and fairly as possible."

During the campaign, NBC-TV, aside from regular news segments, devoted twice as much time to presenting the major presidential and vice presidential candidates as was devoted to paid political broadcasts on the network, the NBC chairman said. The time and production charges for this unpaid time would have been \$1,686,000, or 66% more than that spent by both major parties on NBC-TV.

The major parties spent \$1,380,000 on NBC Radio, NBC-TV and NBC owned stations, \$50,000 less than in 1956, he said, despite steady increases in tv costs due to the rise in circulation. They really didn't need to spend

more, he said, because for the first time the parties were concerned about possible overexposure. But the important thing is that the voters were informed, not that the parties had to spend less, he said.

Progress ■ Mr. Sarnoff cited other network efforts since 1952 to make political broadcasting less costly for the parties. He took note of other results beneficial to candidates from 1959 amendments exempting news and interview programs from equal time requirements.

The NBC board chairman said he realizes congressmen have reservations about exempting Sec. 315 for all offices and he hopes hearings will be held as soon as possible to examine "the case

The "free time" given candidates more properly should be considered an exercise of broadcasting's "journalistic right," NBC Board Chairman Robert

Sarnoff told the House Campaign Expenditures Committee. That right means free editorial judgment, he indicated, and freedom of format.

The busiest spot in Washington is the Georgetown home of the next President. Chilled newsmen spend the day in front of the Kennedy residence, checking guests on arrival and plying them with queries as they leave. His trip south Friday finally brought relief.

This is network row, across N St. from the Kennedy home. CBS has leased the vacant house at the right for its newsmen. Two doors down is NBC, which also will use the white house at extreme left on Inaugural Day. Of ancient vintage, the houses are high-priced.

Stanton visits the house in Georgetown

Dr. Frank Stanton, president of CBS Inc., spent 45 minutes with President-designate John F. Kennedy in Washington last Thursday.

Afterward he easily rode out a reportorial attack on the sidewalk in front of Mr. Kennedy's home (see above) without spilling any secrets or giving any indication of a possible official or advisory role in the next administration. But his pat answers left newsmen wondering what was discussed besides the announced topic—the U. S. Information Agency.

The job to be done and the prob-

lems facing USIA as propaganda arm of the government were discussed, but Dr. Stanton said he had not been asked to take the job of USIA director. He said, in reply to queries, he had not discussed names of CBS personnel (Edward R. Murrow and Howard K. Smith had been mentioned for USIA roles), nor had he been asked to recommend names of personnel for USIA.

Dr. Stanton conceded he had discussed the campaign debates but thought the next President should answer a question about their impact on the election or about pro-

posals for live telecasts of news conferences.

Later in the day Sen. Kennedy told newsmen he was not close to appointment of a USIA director. He added that he would be glad to talk to other network heads about the USIA.

For more than a decade Dr. Stanton has held important advisory roles in connection with top government operations.

Pierre Salinger, news secretary to the next President, was asked if Dr. Stanton is in line for a cabinet post. "I wouldn't speculate," he replied,

for freedom of political coverage across the board."

He termed a bill in the 86th Congress to require networks to give free time to candidates "an attempt to achieve by compulsion what broadcasters were eager to do voluntarily if given the chance." It's clear, he said, that they've "passed the test," and that broadcasters are "entitled to keep this freedom." This shows such a law is both unwise and unnecessary, he added.

Mr. Sarnoff suggested political leaders shorten the presidential campaign by six weeks and expressed assurance this would cut costs of campaigning if Sec. 315 is eliminated, since tele-

vision operating in freedom, along with jet transportation, can give the candidates far greater exposure without sacrificing any of the dissemination of information needed for an informed and responsible electorate. Shorter campaigns also would cut down repetition and overexposure, he testified.

Noting the first national political convention in 1831 was held about a year before election and that the conventions by the time of the McKinley-Bryan campaign had been moved up to July preceding the election, he said the conventions should be moved up again, closer to election day. But broadcaster freedom from Sec. 315 should be given, regardless of whether

the campaign is shortened, he said.

Expenditures ■ Mr. Sarnoff said the Democrats spent \$513,313 on NBC-TV for three half-hour, two 15-minute and 36 five-minute time periods; \$11,262 on NBC Radio for one 25-minute and three 15-minute periods; and \$172,362 for 440 time periods (10 seconds to 30 minutes) on NBC's owned stations. Republicans spent \$491,142 on NBC-TV for five half-hours, one 15-minute period and 12 five-minute periods; \$191,888 for 852 time periods (10 seconds to 30 minutes) on NBC owned stations.

Questioning came from Chairman Clifford Davis (D-Tenn.), Robert E. Jones (D-Ala.), Leo W. O'Brien (D-

On-rushing news contingent after interview with next President brought smiles from Dr. Frank Stanton, CBS, and Sen. Kennedy in the background.

adding that prospective cabinet appointees were not on the day's appointment list.

On the Scene ■ Two antique but expensive row houses in swanky Georgetown, D. C., have become temporary news headquarters for NBC and CBS newsmen.

Opposite the home of President-designate John F. Kennedy, the vacant houses have been leased to provide network correspondents with communications facilities, a good view of the parade of Kennedy visitors and a chance to get warm.

These bare but cozy facilities draw snide cracks from wire service and print media newsmen, who share a room provided by Helen Louise Montgomery, the hospitable occu-

pant of a nearby house. Miss Montgomery provides coffee, telephones and snacks for the reporters.

CBS occupies an elderly bay-window house at 3314 N St. NBC is two doors down the hill at 3310. In addition NBC has leased space at 3304 for Inauguration Day. This house is directly opposite the Kennedy residence at 3307 N whereas the present network houses are a few steps up the street though commanding a good view of the home.

Up to 50 newsmen swarm around the Kennedy home when he is headquartering there. The street and sidewalk are roped off, providing room for cameras and audio gear.

Washington police and the Secret Service are cooperating to give reporters and cameramen quick access to the President-designate and his visitors. And the next President is cooperating by making frequent appearances on the front step and by letting technicians and cameramen tap off the electric meter in his basement.

A Frigid Watch ■ Last week was the worst yet experienced by the assembled news crews. Washington was knee-deep with snow, and the Kennedy guest list was long day after day. Big-name correspondents stomped their feet on the icy sidewalk and huddled in heavy jackets, ear muffs and assorted arctic garments.

Electric lights, also using Sen. Kennedy's electricity, were clustered around newsreel cameras to keep mechanisms from freezing. Cameras, seven in all, are stationed at the site by NBC, CBS, ABC, Movietone and Telenews.

After his 45-minute session with Sen. Kennedy last Thursday, Dr. Frank Stanton was asked by a reporter if he had visited the CBS house. "No, I haven't seen it," he said, "but I've heard about it."

N. Y.), William C. Cramer (R-Fla.) and Samuel L. Devine (R-Ohio).

Their main concern, as expressed by Rep. Cramer, was that one presidential candidate or both may not approve of the format offered by the network (debate, for example). Mr. Sarnoff ventured the prediction that the "Great Debates" were so popular a candidate might be forced to participate in this format by public pressure or demand in the future.

He felt a network should have the say-so about its format as a journalistic medium, but acknowledged that the format probably would be a result of agreement among the candidates and the networks, as in this year's cam-

paign for the presidency.

He told the congressmen he didn't think the candidates should have the right on interview programs—and those such as the Kennedy-Nixon joint appearances—to select the questions that might be asked, but he felt a candidate might have the right to restrict questions to a given area.

To Rep. O'Brien's expressed concern that individual station managers might not exercise the impartiality shown by networks, Mr. Sarnoff said broadcasters welcome a "long, hard look" by Congress before any action to repeal Sec. 315.

Outmoded ■ Dr. Stanton in his letter to the committee enclosed a copy of a

1953 Philadelphia speech made by CBS Inc. Board Chairman William S. Paley in which the latter put forth the suggestion that television has outmoded the lengthy election campaign.

With the 1959 exemptions of news and interview programs from equal time requirements and the pioneering "Great Debates," Mr. Paley's conclusion is "immeasurably re-enforced," Dr. Stanton said.

The 1960 suspension in the presidential campaign, he said, resulted in an average of 71 million viewers seeing the two candidates in each of four one-hour, face-to-face discussions and this "undoubtedly played a decisive role in the election."

Radio and tv in the 1960 campaign "clearly permitted, and perhaps even demanded, a shorter campaign period," Dr. Stanton held. And, he said, shortened campaigns would be less costly ones.

The 1959 amendment and the 1960 suspension made it possible for CBS-TV and CBS Radio to make available to candidates programs valued at \$1,425,000 in time and production charges. Permanent suspension of Sec. 315 for all offices can serve to reduce the necessity for campaign expenditures in general, the CBS president thought.

Local Problem ■ But Dr. Stanton also had some cautioning words: Repeal of Sec. 315 may be of small help to those candidates seeking other than nationwide, statewide or other broad area offices. In New York, for instance, there are 48 congressional districts within New York stations' coverage area. Even if there were only Democratic and Republican candidates in each district—and there are often others—it would involve 96 candidates. And if a New York station did no more than present each of the two opposing candidates for a half-hour, it would require 24 hours of station time, or three hours weekly for an eight-week campaign for the House of Representatives alone. A similar situation exists in Chicago and in other highly concentrated population centers, he said, and CBS sees no immediately apparent solution to this problem.

AB-PT and ABC President Golden-son expressed the hope that this year's temporary suspension of Sec. 315 would be made permanent for presidential election years.

He said the Democrats spent slightly less on ABC this year than in 1956, while Republicans spent "substantially more" than four years ago.

Mr. Golden-son estimated that in carrying the four Kennedy-Nixon debates ABC incurred costs and loss of revenue totaling about \$250,000. In addition, he said, election night and convention coverage costs and loss of revenue

amounted to about \$1 million.

He said ABC is not sure that the campaign period should be shortened. Television, radio, and jet transportation have made it possible for candidates to reach the people quicker, he noted, but he wondered whether the time thus saved should not be spent in making

election issues clear to the people rather than "capsulizing" the campaign or putting an arbitrary time limit on it. The length of the campaign, he felt, should not be measured so much in days and weeks as in whether or not the time was used effectively. Thus he thought the question of campaign dura-

tion was one that should be decided by the candidates who were running for office.

The role of broadcasters, he said, is to exercise journalistic judgment in keeping the public informed about the men and the issues being discussed in the campaign.

BROADCAST ADVERTISING

SAG to vote on new commercials pact

JOINT SAG-AFTRA NEGOTIATORS GET EQUAL RATES FOR FILM, TAPE

Screen Actors Guild over the weekend mailed to its 14,000 members a summary of the new contract for actors, singers and announcers in commercials for a nation-wide referendum seeking approval of the terms and conditions won by SAG and the American Federation of Radio & Television Artists in joint negotiations (BROADCASTING, Oct. 3 *et seq.*).

Each ballot was accompanied by the new contract, whose complexities are dramatically illustrated by the fact that the summary (not the complete contract) fills seven printed pages. There was also a letter from the SAG board strongly urging a vote of approval for this "vastly improved contract," which gives actors their long-held wish for equal rates of pay for film and tape commercials. Another major accomplishment of the new pact is a formula weighing cities by population units and a structure of unit fees which "provides a method of compensation based on the degree of exposure to an extent

never before achieved," the SAG board stated.

The board also hailed the method of joint negotiations "in the field where we have common employers" as having "proved to be highly successful" in improving wages "substantially" in all areas of the contract and in resolving previously troublesome conditions "in provisions most beneficial to players in the commercial field."

Runs three years ■ The new contract has a three-year retroactive clause to Nov. 16. SAG, recognizing the delay in mail deliveries during the holidays, has set Jan. 16 as the date when ballots must be postmarked to be counted.

AFTRA, whose contracts cover radio and tv networks as well as commercials, will present the new contract to its members at regional membership meetings.

"Employer contribution equal to an amount equal to 5% of all compensation including use and re-use fees," heads the SAG summary of the com-

mercials contract. In its letters the guild's board notes that in 1960 SAG completed its objective "pension and welfare plans under all its contracts." Fees of principals in commercials are raised from \$80 for an eight-hour on-camera session to \$95 in the new contract and from \$55 to \$70 for a two-hour, off-camera session. Duos, previously included in a 2-4 grouping, are now classed as principals. Group rates for on-camera work remain at \$80 for 3-4 and come down from \$80 to \$72 for five or more. Off-camera groups from 3-4 are raised from \$35 to \$47 and groups of five or more from \$30 to \$40 for a four-hour session.

The major change comes in wildspot compensation for 13-week-use cycles of commercials, based on a new formula of population units multiplied by unit fees. Each city is given a unit place of one for each million population in its metropolitan area; each city with a population of less than one million is rated as one unit. Examples given are:

A comparison of the new rates with the old

Principals—on camera;

Use of New York, Chicago and Los Angeles	Old Rates
any one city: \$125	\$ 72.50
(For additional units use formula commencing at 26 units, i.e. \$1.00 per unit).	
any two cities: \$190	\$105
(plus additional units at 20¢ each)	
all three cities: \$227	\$150
(plus additional units at 20¢ each).	

*For simplicity, comparison is made of unit under the new formula with cities under the old formula. Weighting adds units and further increases the new rates.

**Figures are cumulative at the end of the unit group.

Here's why 50,000-watt WHO RADIO belongs on any list of 14 or more largest radio markets!

RETAIL spending in Metropolitan Des Moines accounts for only 11% of Iowa's total. All eight of Iowa's Metro Areas, combined, account for only 36% of retail sales.

75% of Iowa's total retail spending is done in areas in which WHO Radio has an NCS No. 2 circulation of more than 10%.

This circulation covers 800,000 Iowa homes. There are only 13 markets in America in which any radio station gives you larger circulation. Or more buying power.

We know you know these facts. What about the less experienced people who may help (or hurt) your station-selections? We would be delighted to have the name of anybody who should know the realities about radio-listening in Iowa. Write us, or PGW!

IOWA POPULATION-DOLLAR DISTRIBUTION						
	Population	% of State Population	CSI	% of State's CSI	Retail Sales (\$000)	% of State's Sales
Des Moines Metro Areas	284,200	9%	581,160	12%	401,903	11%
Iowa's 8 Leading Metro Areas including Des Moines	943,600	33%	1,832,792	38%	1,259,097	36%
Remainder of Iowa	1,704,400	67%	2,975,489	62%	2,286,754	64%

WHO

Peters, Griffin, Woodward, Inc., Representatives

Baltimore, 2; Boston, 3; Cleveland, 2; Detroit, 4; Philadelphia, 4; Pittsburgh, 2; St. Louis, 2; San Francisco, 3; Washington, D. C., 2. New York, Los Angeles and Chicago are treated separately. The old and new contracts are compared in the adjacent tables of wild-spot payment formula.

Group rates ■ For groups of 3-4, on camera rates start with the \$80 minimum, rise by diminishing steps: \$7 a unit for 6-10 units, \$4.20 each for 11-20 units, \$1.45 for 21-60 units, \$1.00

each for 61-125, \$0.50 for 126-175 and \$0.20 from there on with no cutoff. Adding one city—New York-Chicago-Los Angeles—would cost \$164. (with additional units priced according to the formula commencing at 26 units); two cities—\$235. (additional units at 15¢ each); all three cities—\$280 (additional units at 15¢ each).

For groups of 5 or more, on-camera rates begin at a minimum of \$71 for 1-5 units, wind up at a total of \$261 for 175 units plus 20¢ apiece for all

additional units. One city of the top-market trio costs \$145 (additional units are priced in accordance with the formula, commencing at 26 units); two cities — \$195 (additional units cost 15¢); three cities—\$240 (additional units at 15¢ each). Rates for groups off-camera also are spelled out in the SAG summary.

For program commercials the wild-spot method of complication does not apply. Instead these commercials are classified by A (in more than 20 cities),

A 20-year track record for KMPC's market reports

Each weekday morning for nearly 20 years at 8:15 a.m. Pacific Time KMPC Los Angeles listeners have heard a telephone ring and a friendly but businesslike feminine voice say: "E. F. Hutton & Co. The market? Just a moment."

After a short pause a man's voice takes over with "This is Charles Stone" and continues with a detailed rundown of opening prices on the New York Stock Exchange, which has been active for an hour by that time, and the changes from the closing prices of the previous day. Then comes an assortment of financial and business news items received "over the private wires of E. F. Hutton & Co." The 10-minute program closes with significant quotations from the New York board as of 11 a.m. EST.

The Hutton financial newscast is sandwiched between 15 minutes of general news and five minutes of sports talk in an 8-8:30 a.m. half-hour interlude in KMPC's early morning disc jockey programming. The pattern was established in 1941 when Leigh Crosby of Barton A. Stebbins Advertising, agency for Hutton's Los Angeles operation at that time, first suggested the use of radio by the brokerage firm. When Hutton agreed to try the broadcast medium, Mr. Crosby persuaded KMPC to adopt the half-hour news format. It has remained that way ever since.

Q & A ■ But isn't the number of morning radio listeners who are interested in stock market news too small to be of value to either sponsor or station? Doesn't KMPC lose the major part of its audience to other stations at 8:15?

The nearly 20-year uninterrupted run of the financial newscasts indicates that the answer to those questions is no. And that reply is underlined by the rating figures. The September-October Pulse shows KMPC with a Monday-Friday, 8:15-8:30 a.m., average rating of 5.6, higher than any other Los

Angeles radio station at the time.

Who listens? "Our own customers," replies Murray Ward, senior partner of Hutton's southwest division, "and prospects who tell our salesmen they have heard and enjoyed the broadcasts. And our competitors say that their switchboards go dead from 8:15 to 8:25 each morning, so it looks as if their customers listen to us too. Women listen as well as men. Originally, the telephone girl opening announcement concluded '... just a moment, sir,' but we got so many complaints from women that we knocked the word 'sir' off."

In New York or other large cities where businessmen commute by train or other public transportation, an 8:15 a.m. broadcast would probably not pay, Mr. Ward observes. But in Los Angeles, it's ideal, because most of the city's executives are on the way to their offices in their own automobiles at that time. They are in no position to read the morning newspaper, but are readily available to whatever comes to them through their car radios.

Action ■ "We get more action out of a radio announcement than

from a newspaper ad on the same subject," Mr. Ward states, "two to three times the response. When we make an offer on the air, such as one of our monthly economic surveys, the calls start pouring in the minute the announcement is finished and they keep up all day, with mail requests coming in for several days afterwards."

Since the Hutton broadcasts began on KMPC on Aug. 25, 1941, the company has changed agencies several times (Lennen & Newell, Beverly Hills, Calif., now handles the account with Ted Huston as account executive). There was also a swift-changing succession of announcers until, some 15 years ago, a KMPC staff announcer named Charles Stone auditioned for the job and has had it ever since. Today, the Hutton broadcast is the only one he makes. He is now a registered representative with the New York Stock Exchange (which means he is licensed to sell securities) and the rest of his time is spent actively handling accounts.

The program's format has changed slightly from time to time, but the commercials are essentially the same today as they were in 1941, emphasizing the numerous offices Hutton maintains for its customers' convenience and the numerous services it offers for their security and profit. Up to seven years ago, the broadcasts originated in KMPC's studios. Since then they have been made from the floor of the boardroom, where Mr. Stone keeps a microphone and the necessary technical apparatus in the drawers of his desk.

Following the success of the broadcasts in Los Angeles, the firm has inaugurated similar series, all Monday-Friday, in the morning in San Francisco and San Diego, at noon in Fresno and in the early evening in the resort city of Palm Springs. There are two broadcasts a day in Phoenix, morning and noon, and in Tucson, morning and evening.

Four department stores share fashion previews

WNBC-TV New York has been hammering away at the retail market the past few years, working out formats all the time to suit the situation. The latest evolutionary step brings together four department stores in a weekly "fashion preview" programmed within an existing daily morning show, *Family*.

Participants are R. H. Macy & Sons (through Grey Adv.), Stern's (Ash & Engleman), Abraham & Strauss (Tele-Sales Inc.) and Bamberger's (Grey). The first two have main stores in New York, A & S in Brooklyn and Bamberger's in Newark, a division of R. H. Macy & Sons.

Family, an entertainment-service show on daily 9-10 a.m., presents the "Fashion Preview" every Thursday in two short segments, one each half-hour. The stores get live-model demonstration with the commentator services of Carol Knox, who is a featured personality with Paul and Mary Ritts, puppeteer team who are

host and hostess of *Family*. Once during each half-hour, Miss Knox describes two garments shown in appropriate settings by the models and at the end of the commentary gives a 10-second commercial identifying the store where each dress may be bought and the price. It amounts to something like 70 seconds for each store at a participating commercial fee that includes time, talent and all production charges yet is below the announcement rate.

George Pitt, WNBC-TV salesman who has put in a good bit of time the past two years on retail assignments, thinks this plan has a big potential for other stores and other types of merchandise if it clicks. Last week's show was only the second "Fashion Preview" and station and clients are checking results now. The first schedule runs six weeks, with each Thursday's "Preview" devoted to a specific type of garment—holiday wraps, party dresses, furs, etc.

Possibilities ■ The "Family" for-

mat itself may perhaps give clues to extensions of the "Preview" idea in one show alone. The program includes daily weather reports, features on cooking, sewing, furnishing and other all-family topics, as well as performances of the Ritts family of sophisticated "adult" puppets. "Family" has a variety of participating accounts.

WNBC-TV has a number of retail accounts in the house and has worked out innovations for clients from time to time, including occasional local specials. One pioneered by the station and Macy's last spring, a half-hour introduction of the season's new fashions, caught fire the following fall in New York and around the country. Macy's has a continuing daytime campaign on WNBC-TV to sell specific merchandise. This, too, has had imitators locally and in other markets. Established retail clients of WNBC-TV include several menswear stores, a record store, appliance store and many others.

B (6-20 cities) and C (1-5 cities), with New York weighed at 11 cities and L.A. and Chicago at 7 cities each.

Class A ■ Class A program commercial rates for principals on-camera start at \$95 for the first use within a 13-week cycle under the new contract compared to \$80 formerly). The second use pays the principal \$70 (formerly \$55); the third use \$60 (formerly \$55); fourth to 13th uses \$57 each (formerly \$55), 14th to 20th uses \$15 (formerly \$9.62); all over 20 are \$10 each (formerly \$9.62). Class A program commercial rates for principals off camera start with \$70 for a single use (up from \$55) and like the on-camera rate are less for each successive use to \$7.50 for all above 20 (formerly \$7.43). For 13 uses in 13 weeks the new rate for principals on camera is \$615, compared to \$580 previously, with additional uses at \$51 apiece. Off camera, it's \$485 vs. \$425, with additional uses at \$36.60 each. The SAG summary also details group on-camera and off-camera class A program commercial rates.

For class B program commercials the new rate for principals on-camera is \$210 (formerly \$170); for principals off-camera the rate is now \$150 (formerly \$125); groups from 3-4 on camera now get \$178.50 each; of 5 or more, \$157.50; off-camera group rates are \$57.50 each for 3-4; \$50 for 5 or more.

New rates for class C program commercials principals on camera \$145 (formerly \$120); principals off camera,

\$95 (formerly \$80); groups on camera, 3-4, \$123.25, 5 or more, \$108.75; groups off camera, 3-4, \$50, 5 or more, \$50.

Six-month rates ■ For dealer commercials the old one-year contract rates are eliminated with six-month rates substituted: principals on camera, now \$450 (formerly \$375); principals off camera, \$410 (formerly \$250); groups of three or more on camera, \$450; groups off camera, 3-4 \$145, (5 or

Cruel, cruel KOOL

Timebuyers in New York fighting slush and transportation difficulties, due to the 17-inch snowfall, could think of sunny Phoenix last week. Starting last Thursday (Dec. 15) and to run for three more days, a spot was aired during the morning stint of Jack Sterling on WCBS radio. The 30-second announcement, placed directly by KOOL-AM-TV Phoenix, mentioned the snow and cold weather in the East, gave the temperature in Phoenix "in the sun beside all those swimming pools" and mentioned: "I'll bet all the timebuyers in New York are trying to get out there right now. But if you are a timebuyer and cannot get to Phoenix you can get the full Phoenix market story" by calling the station.

more, \$125). Cost of off-camera signatures now ranges from \$45 for members of groups of 5 or more on class C program commercials to \$235 for individuals for class A program commercials; the range was formerly from \$35 to \$170.

The final section of the SAG summary of the new contract, added "important improvements in conditions," includes:

■ New limits imposed on exclusivity. Scaled players may now be required to give exclusivity only for competitive products. "Only players receiving double scale for session and use payment required to grant complete exclusivity." Players receiving scale plus 10% may be required to grant exclusivity beyond a competitive product but short of complete exclusivity. SAG points out that formerly there was no limitation on exclusivity requirements.

■ The use and re-use fees covered Canadian and Mexican as well as U. S. showings but a new provision requires other foreign showings of the commercial to "be the subject of individual bargaining with the player at not less than an additional session fee."

■ The maximum of use for seasonal commercials is reduced from 39 months to two consecutive seasons.

■ The maximum period of use and re-use off camera is reduced from 30 months to 24 months.

■ Time of payment is set at 10 days after service rendered for session fees,

Everybody
talks
about
the
weather...

..But WDSU-TV does

most about it!

WDSU-TV employs the full-time services of a private weather forecasting firm, headed by nationally known meteorologist Nash Roberts. And in New Orleans only WDSU-TV uses its own weather radar.

No wonder more New Orleanians depend on WDSU-TV for authoritative weather information than any other source.

For in New Orleans, where recreation and industry are substantially outdoors, weather is especially important.

FORECAST:

Good sales climate and continued fair weather —when you advertise on WDSU-TV.

In New Orleans, only WDSU-TV gives you the complete weather picture.

**“Our people jumped
at the chance when
we offered the
Payroll Savings Plan”**

“We invited every employee in the company to come along with us on the Payroll Savings Plan and invest in U.S. Savings Bonds regularly. The response was excellent. People appreciate having the tough job of saving done for them—and a lot of them took time to thank us for it. And besides feeling good about building a nest-egg, they’re proud to be part of an effort that helps keep our country strong. This Plan makes them feel they ‘belong,’ and that’s the best kind of personnel relations.”

If your company hasn’t gotten around to putting in the Payroll Savings Plan, contact your State Savings Bonds Director and let him show you how simple the Plan really is. Get his experienced help in presenting the Plan to your organization. Or write Savings Bonds Division, U.S. Treasury Department, Washington, D.C.

21 days after commencement of cycle for wildspots, 21 days after each use for class A program commercials and 14 days after commencement of cycle class B and C program commercials. Penalties for late payment are set at \$1.50 a day for the first five days and \$2.50 a day thereafter up to a maximum of \$25.

▪ Dealer identifications and tags: on camera—\$25 each; off camera—\$15 each.

▪ Singers' contracts now call for a five-minute rest period in each hour of recording.

▪ Female players now will be given an allowance of \$7.50 per garment for evening wear.

Ad Council support cited as answer to tv critics

Some 300 top echelon Hollywood broadcasting, advertising and production executives were thanked Dec. 7 for supporting a total of 14 major campaigns of The Advertising Council and giving some help to 63 other council public service campaigns. The thanks were expressed by Edwin Ebel, advertising vice president of General Foods, vice chairman of the council and chairman of its national television and radio committee, at the council's annual Hollywood luncheon.

In the last year, almost \$182 million worth of advertising—time, space and talent—were contributed to council campaigns by the nation's communications services, he said. Network commercials alone, Mr. Ebel stated, delivered over 17 billion tv-radio home impressions last year. He cited this as an effective answer to the "unwarranted criticism of television in its role as a public servant."

James Aubrey, president, CBS-TV, said that it had been relatively easy to obtain cooperation of sponsors of full programs in using council campaign announcements on their shows, but the hour-long multi-sponsored programs had presented a more difficult problem. He said CBS-TV has solved the problem by ordering all of these shows clipped by 10 seconds for a council message, beginning in January. Walter Scott, executive vice president, NBC-TV, said that all producers of programs for this network had been told to cooperate fully with the council. Oliver Treyz, president, ABC-TV, said that this network had ordered the inclusion of a 10-second council spot in all programs.

ENDORSEMENT FOR PUBLIC AFFAIRS

Three tv advertisers relate sales and audience impact

Public affairs programming received a strong endorsement from three network tv advertisers—each of them a regular sponsor of a public affairs series this season—at an Academy of Television Arts & Sciences discussion Dec. 13 in New York.

Increased sales and an influx of viewers' letters point up audience approval of public affairs sponsorship, agreed Peter Peterson, executive vice president, Bell & Howell Co.; David Burke, manager, institutional programs, General Electric Corp., and Thomas Adams, supervisor, television programs, Young & Rubicam, agency for Gulf Oil Co.

Seated with the sponsor representatives on the ATAS panel moderated by Robert L. Foreman, executive vice president, BBDO, were: Irving Gitlin, executive producer, creative projects, NBC News & Public Affairs; Robert Lang, vice president, administration, CBS News, and Alfred Schneider, vice president, administration, ABC-TV. They discussed the increased attention being given public affairs programming by advertisers, networks and agencies.

Among the public affairs sponsorship motivations cited by advertisers:

▪ There is a buyers' market for the programs, advertisers are able to secure the most advantageous purchase arrangement.

▪ Controversial programs tend to stimulate greater sponsor identification than the run-of-the-mill format of most

entertainment programs.

▪ These programs provide advertisers with the opportunity to appeal to the growing maturity of the American audience.

Now in its third year of public affairs sponsorship, Bell & Howell's policy, as stated by Mr. Peterson, is: "It's good for business. Sponsor identification is higher . . . brand image goes up . . . and Bell & Howell must focus on what is good for us."

He continued: "All our studies show that the vast majority of the total audience approves of Bell & Howell's public affairs programming." As for the opposition elements of the audience, it was Mr. Peterson's contention that "universal approval is not altogether an advantage" as when programs get to the point where it's a case of "the bland leading the bland."

Fan Mail ▪ Mr. Burke said GE gets its greatest encouragement to continue public affairs sponsorship from the amount of mail received from viewers. GE was particularly impressed with the more than 10,000 letters received after its recent "Influential Americans" special program on CBS-TV. Mr. Schneider cited the heavy mail received by ABC-TV's Ralston Purina-sponsored *Expedition* series.

Questions as to whether the networks should buy public affairs programs from outside producers provoked heated discussion among the network executives. Mr. Gitlin climaxed his argument against non-network programs with a statement that a network staff operates under management's mandate and that this involves "the freedom to make mistakes." Mr. Gitlin also asserted that because the public affairs area is new and "staffs are just learning how to do these things [shows] . . . the networks must do their own to provide feedback into the organization."

Mr. Schneider countered that it's ABC's policy to develop wherever it can toward building a "vigorous" public affairs department even if it means hiring outside producers. The latter people, if competent, can create "incentive" among network people, he noted, adding that the network will continue to hold the responsibility for editing.

Mr. Lang asserted the "initiative" must lie with the network: "Either we accept the responsibility, or we farm it out."

Mr. Peterson said he agrees the networks do not have to make money on public affairs. He said, "It is a service they should provide . . . like a public utility . . . and they have a responsi-

It isn't stereo, but . . .

In an inter-media arrangement as novel as the New Year, KTTV (TV) Los Angeles will sponsor the Jan. 2 Spanish language radio broadcast of the Tournament of Roses Parade on KWKW Pasadena. Concurrently, KTTV will be telecasting the event, with Pacific Telephone as its sponsor. KWKW will tell its audience to tune their tv sets to KTTV, then turn out the sound and replace it with the Spanish description of the parade on KWKW. The KTTV commercials on KWKW, which will promote the tv station's nighttime programming, will be placed at different times than the Pacific Telephone spots on KTTV to prevent any conflict between video and audio. The unique cross-media set-up was arranged by Jack O'Mara, advertising vice president of KTTV, and William J. Beaton, general manager of KWKW.

bility" to carry these programs. "Why can't a network afford to lose \$1-2 million a year," he asked, pointing out that Bell & Howell spends 6 or 7% of its income on development and research each year. Mr. Lang said "no network makes money on public affairs. We kid ourselves if we think they do." However, Mr. Lang added that Firestone's *Eyewitness to History* series "is now paying its way."

The overall importance of public affairs presentations on television seemed to be summed up by Mr. Gitlin's remark that "anyone who participates in a pervasive medium like television has a responsibility to the part that tv plays in the safety of this nation."

Inaugural tv coverage to follow '57 pattern

Sponsorship of the Presidential Inaugural Day ceremonies Jan. 20 will follow the same general basic rules that applied to coverage of the major party conventions last summer.

Network and Inaugural Committee representatives agreed on procedure for the ceremonies at a Dec. 15 meeting in Washington. In general the coverage will follow the pattern of the 1957 inauguration.

NBC-TV has announced that Purex Corp., South Gate, Calif. (bleach, cleansers) will sponsor the five to six hours of coverage of the Capitol-to-White House parade up to the inaugural ball (BROADCASTING, Dec. 5). Actual swearing-in of President Kennedy and his inaugural address will be carried by all radio and tv networks on a public service basis.

Hanes Hosiery Inc., New York, has bought the 45-minute CBS-TV inaugural ball coverage through J. R. Flanagan Adv. Agency, New York.

Representatives of the networks agreed they would prefer to pick up only one of the two inaugural balls, to be held at the Washington Armory and Sheraton Park Hotel. They said their preference would be 11:15-12 midnight at the Armory, provided the new President makes an appearance at that time.

An early recommendation that networks pay part of the cost of erecting stands where cameras are placed appears to have been laid aside. The networks are participating in inaugural financing as guarantors.

Sponsor copy-content material will be submitted to the inaugural committee on a courtesy basis, following the method that prevailed at the Democratic convention. Good taste will be the usual criterion.

Among those who conferred Dec. 15 were J. Leonard Reinsch, Cox stations, assistant to General Chairman Edward H. Foley of the inaugural

Madison Ave. courier makes appointed rounds

Desperate situations require desperate measures. On the agency front in New York last Monday (Dec. 12), Madison Ave. and its environs shivered under a 17-inch snow blanket, stopping all wheels. But one agency executive could not be stopped from his appointed rounds. Bruce M. Dodge (standing, l), executive vice president of North (what else?) Adv., rented a horse, sleigh and driver from one of a few remaining Manhattan stables to call

on clients. His first stop was at Lanvin Parfums Inc., located in the Savoy-Hilton Hotel on Fifth Ave., where Edouard Courmand (standing, r), president of Lanvin, told his plight about missing scheduled Christmas deliveries. Agency-client services reached a notably warm point as Messrs. Dodge and Courmand loaded the sleigh with scented parcels and glided off to Saks Fifth Avenue and other stores.

group in charge of radio-tv; Sam Brightman, publicity director for the inauguration; Jack Christie, radio-tv director of the inauguration; Lewis W. Shollenberger, CBS; Robert Fleming, ABC, and Elmer Lower, NBC.

The Purex buy on NBC-TV was placed early in the autumn but not announced until late November. The cost of time and production has been estimated at \$250,000. Purex agency is Edward H. Weiss Co., Chicago.

'McCall's' tries for more tv use of its 'tag'

McCall's magazine is revving up its "use-tested" tag merchandising and has retained a broadcast commercial spokeswoman for qualified advertisers. Miss Duncan MacDonald, national and regional network personality, will be *McCall's* "Katherine Austin," assigned to appear in radio-tv commercials for advertisers that want to promote the *McCall's* use-tested tag. She also will cooperate in advertisers' sales and promotion campaigns.

Although the use-tested program is

about five years old, the tag has had little exposure on the air. The Katherine Austin broadcast program will be used to bring in more blue-chips. Since inception of the testing, 237 products have been tested in *McCall's* laboratory and received the tag, which gives the consumer detailed product information. Current use-tested advertisers include makers of large appliances, home furnishings, rugs, cosmetics and other merchandise. The magazine publishes occasional articles about the tests.

Miss MacDonald has been in tv since 1950, serving with the old DuMont network, NBC-TV's *Home*, more recently the Yankee Network and during the past year the Women's Broadcasting Syndicate. She also is a writer and cookbook author.

Red Skelton visits his sponsor's 'home'

Comic Red Skelton, now recuperating from a diaphragm hernia operation in Hollywood, packed his luggage and cameras last month for his taped telecast on CBS-TV Dec. 27. The tv personality originated his post-Christmas program from the "home" of his sponsor—in this case, the Racine (Wis.) headquarters of S. C. Johnson & Son.

In addition, the show represents a zenith in sponsor identification, since the entire show will be built around the sponsor's plant and its executives.

Mr. Skelton and his crew jour-

neyed to Racine several weeks ago to tape the program. The telecast is designed to kick off Johnson's 75th anniversary celebration, to be observed in 1961. The taping session lasted four days and included a crew of 50 people from the comic's regular cast, plus H. F. Johnson, board chairman; Howard M. Packard, president, and William N. Connolly, vice president, all Johnson executives.

The wax product firm recently picked up the remaining alternate-week sponsorship of *The Red Skelton Show*, with the departure of Pet Milk Co. in January.

No, this isn't the aftermath of Hurricane Donna. It's the aftermath of Hurricane Kadiddlehopper (alias Red Skelton)—and his efforts as a

mail boy in Johnson's Wax plant in Racine, Wis., where the Dec. 27 "Red Skelton Show" was taped for showing on CBS-TV.

and \$250 will be made during 1961. He reported that rules of the contest will be circulated among the nation's advertisers and agencies during the next few months. This marks the first time that RAB is offering cash awards. Golden record plaques are presented every year by RAB to the agencies and advertisers responsible for the "most effective" radio commercials.

Agency appointments...

▪ Candy-Gram, Chicago, (Western Union's candy-with-telegram service) appoints Cole, Fischer & Rogow, N. Y., as its advertising agency. A nationwide radio campaign is being launched immediately to reach Christmas shoppers, the agency reported. Arthur A. Fischer, chairman of CF&R's executive commit-

tee, will personally handle the account and will make all time and space buys.

▪ Arnold Bakers Inc., Port Chester, N. Y., appoints Donahue & Coe, N. Y., as advertising agency for full line of breads, rolls, cookies, and specialty items.

▪ The Endicott Johnson Corp., Endicott, N. Y., shoe manufacturers, appoints Hicks & Greist, N. Y., as advertising agency.

▪ The Pearson Candy Co., Minneapolis, manufacturer of nationally distributed candies, appoints Knox Reeves, that city, as its advertising agency, effective Jan. 1, 1961.

▪ Bowman Dairy Co., Chicago, appoints North Adv., that city, to handle advertising for Bow-Cal new 900 calorie dietary weight reduction food. Product will be introduced in Chicago market shortly.

▪ Elanco Products Co., Indianapolis, a division of Eli Lilly & Co., appoints Henderson Advertising Agency Inc., Greenville, S. C., to handle advertising for a new line of lawn and garden chemical products to be introduced this spring.

Deadline nearing for radio-tv ad contest

H. M. Packard, president, S. C. Johnson & Son, and Harry Ackerman, president, Academy of Television Arts & Sciences, have accepted invitations of the Hollywood Advertising Club to serve as final judges for the HAC International Broadcasting Awards competition. A first in tv-radio history, the contest is open to advertising agencies, broadcasters, commercial producers or anyone else wishing to submit radio and television commercials broadcast anywhere in the world during the calendar year of 1960. Television commercials may be in any language. Radio commercials must be in English.

In announcing the first two of the final judges, Don Estey, IBA chairman, pointed out that the deadline for the receipt of entries in Hollywood is Dec. 31. He urged prospective contestants who have put off sending in their checks to do so immediately and promised that the kits which the club has prepared for the entries (discs for radio, film for tv) will be sent airmail to enable the entries to reach the club by the deadline date. Anyone who has not yet requested the brochure containing the entry blank should do so by airmail or preferably telegram or radiogram, Mr. Estey said.

About 400 entries had been received as of last Wednesday (Dec. 14), Mr. Estey reported, noting that those from countries overseas were just starting to

Us WDAY cave men sure get the WIMMIN!

Every audience survey *ever* made around Fargo shows that WDAY Radio has always had far more listeners than any other station. Now the latest survey — a 55-county Pulse Area Report made March 1-28, 1960 — repeats the story.

Monday thru Friday, WDAY Radio has 166,400 women listeners—45% more women than Station B. Also 114,660 men listeners—67% more men than Station B!

The reasons? Well, it can't be our glamorous *youth*, because we are one of the oldest radio stations in the U.S.A. So maybe it's our cave-man strength and beauty. We dunno. Why don't you ask PGW?

970 KILOCYCLES

PETERS, GRIFFIN, WOODWARD, INC.,
Exclusive National Representatives

arrive. Great Britain, with 22 entries to date, leads the foreign nations in number of commercials submitted in the competition.

Final judging by Messrs. Ackerman and Packard and other top echelon executives from broadcasting and advertising will occur Feb. 6, 1961, in Hollywood. The following evening, Feb. 7, the first IBA winners will be announced and the awards presented to the winners at a banquet, to be held at the Moulin Rouge in Hollywood. The final judges will make their selections from the top 10 entries in each of nine categories of television commercials and seven classes of radio spots. These top 10 in each class will be chosen by committees of preliminary judges, producers for tv, radio station executives for radio. The judges will also make two special awards for the best commercial of all local tv and radio entries regardless of category, and a sweepstakes award for the best commercial entered in the competition, radio or tv, local or national (or international).

The television awards are broken down by length of spot and whether they are live action or animation or a combination of the two techniques. The radio awards are also classified by length and into musical or spoken spots. In addition, six technical awards will be made for tv, for the best direction, editing and camera work in both live action or animation.

Civil War data aid

A committee on advertising has been formed on a volunteer basis to aid advertisers and agencies on observance of the 100th anniversary of the Civil War, in cooperation with the Civil War Centennial Commission.

The committee will prepare a pam-

ARBITRON'S DAILY CHOICES

phlet suggesting tie-ins with the centennial for radio, tv, newspapers and magazines. Another function will be to direct interested advertisers to Civil War experts who can provide them with historically accurate information. In the past incorrect and objectionable statements have caused sectional resentment, the commission said.

Kermit V. Sloan, Curtis Pub. Co., Philadelphia, is chairman of the group. Vice chairman is Lloyd Howard, head of his own New York advertising agency. R. C. (Jim) Brown and George C. Whipple Jr., both of BBDO, New York, are secretary and publicity director, respectively.

M-E gets NBC ad business

NBC last week appointed McCann-Erickson, New York, to handle its advertising, effective March 1961, replacing Grey Adv., New York, which has had the account for seven years. Billing is estimated at \$2 million. Emerson Foote, M-E president, will supervise the NBC account.

Grey circulated a memorandum to its staff, announcing that it had resigned the NBC account but gave no reason for the

action. The memo stressed that Grey will continue to handle the business of the RCA Victor division, which, like NBC, is a unit of RCA.

C.E. Frank affiliates with Weekley & Valenti

An affiliation agreement with Weekley & Valenti, Houston agency, has been announced by Clinton E. Frank in a move designed to coordinate advertising for its newly-acquired \$3.5 million Continental Oil Co. account.

Though each agency will continue to operate autonomously they have evolved a coordinated operational procedure geared for "maximum efficiency and creativity" on behalf of the broadcast-minded Conoco account. Frank inherited the account from Benton & Bowles effective Dec. 1. W & V has been handling sales promotion and collateral material for Continental in its 27 state area and its co-partners, Weldon T. Weekley and Jack J. Valenti, have had wide experience in the petroleum business (both formerly were associated with Humble Oil Co.).

Radio and tv timebuying will be handled primarily out of Frank's Chicago headquarters office where the account will be serviced.

AFA plans ahead

The Advertising Federation of America is looking ahead. The 1964 convention will be held in St. Louis, it was announced last week by AFA Board Chairman James S. Fish, advertising vice president of General Mills, Minneapolis. The 1963 meeting will be in Atlanta, 1962 in Denver and 1961 Washington, D. C.

The 1963 and 1964 locations are based on decisions made at the AFA board's last meeting, with details presumably to be worked out later. Washington convention dates are May 27-31 and the following year in Denver it will be June 24-27 for a joint meeting between the AFA and Advertising Assn. of the West. Last spring's AFA convention was in the organization's headquarters city, New York.

The emotional impact of words on women

"For generous savings, hurry to your neighborhood grocery and get some of Blugg's rich, magic instant heavy whipped cream, ladies!" This approach to women customers, occasionally used by radio copywriters, is low in "emotional impact," according to a survey conducted by KOL Seattle.

The station sent printed questionnaires to a random sample of women listeners who had been in contact with them for some purpose. Of the 250 sent, 138 were filled in and returned.

Popular radio copy words such as "saving," "economical," "rich," "generous," "sophisticated," and "magic" had little emotional impact on the distaff audience. "Rhythm," "excite-

ment," "relax," and "lovable" were the words most women associated with fun or enjoyment. The term "masculine" struck a responsive chord with 35.5% of the ladies while "feminine" appealed to 28.3%, but words with male connotation such as "heavy," "strong," and "powerful" drew low ratings. The word "color" ranked relatively high (39.9%) and the colors that meant fun to the housewife were: red (19.6%); green (18.8%); blue (17.4%) and yellow (9.4%).

Copies of the condensed results of the station's word-impact survey are offered free to agencies, copywriters and other interested parties. Write Robert Ward, KOL, Harbor Island, Seattle 4, Wash.

Broker group studies national grocery ads

An almost plaintive plea for greater cooperation among food brokers, grocery manufacturers and advertising agencies, in the preparation of advertising campaigns, issues from the pages of an exhaustive survey of food brokers across the nation.

The survey was conducted by the National Food Brokers Assn. and Ketchum, MacLeod & Grove Inc. in an effort to learn why some national grocery advertising is not successful at the local level. More than 1,000 food brokers, or 53% of those queried, returned fully completed questionnaires.

The report reveals that brokers accept the importance of national advertising. But, it also shows that brokers feel there is "a lack of communication between the market planners at headquarters—or in the advertising agency—and the sales force in the field."

Brokers are demonstrated as believing that their knowledge of local areas—gained through years of living and working in them—is not being utilized.

The complete report, which together with associated material, runs to 82 pages, is being mailed to all NFBA members.

Creativity held vital in all agency areas

Creativity extends beyond copy and art to other agency activities and creative ability is just as important in the hiring of personnel as a knowledge of media statistics, according to a mid-west agency executive.

Addressing consumer media representatives in Minneapolis, Ralph Klapperich, vice president and media director of Knox Reeves Adv., pointed out that words and pictures are merely tools

for expressing creativity. Production, research, account and media people all can and should have ideas which can be translated into a creative approach for solving media problems, he told the representatives attending an agency open house Nov. 29-30. Mr. Klapperich cited Knox Reeves' management policy encouraging creativity at all department levels.

Howard Jones, another Knox Reeves vice president and speaker, challenged the sameness of too many products and advertising messages, particularly commercials, and called for more creativity in building a distinctive product image.

Business briefly ...

Philip Morris Inc. (Leo Burnett) and **Hygrade Products Corp.** (W. B. Doner) bought national sponsorship of NBC-TV's coverage of the National Football League championship game in Philadelphia Dec. 26 (Monday), which also will be sponsored on a regional basis by the following advertisers: **National Brewing Co.** (W. B. Doner); **Liebmann Breweries** (Foote, Cone & Belding); **Falstaff Brewing** (Dancer-Fitzgerald-Sample); **Standard Oil of Indiana** (D'Arcy); **Standard Oil of Ohio** (McCann-Marschalk); **Hills Brothers Coffee** (N. W. Ayer & Son), and **Theo F. Hamm Brewing** (Campbell-Mithun).

Stephen F. Whitman & Sons (candy), Philadelphia, has signed to sponsor the Feb. 7 special program in NBC-TV's *Story of Love* series (Tue., 10-11 p.m. EST). Whitman will sponsor a tv adaptation of W. Somerset Maugham's *A String of Beads*. Agency: N. W. Ayer & Son, Philadelphia.

Procter & Gamble Co., Cincinnati, has picked up one-half of ABC-TV's telecast of the Academy of Motion Pictures Arts & Sciences' annual Oscar awards ceremonies slated for next April 17. Program starts at 10:30 p.m. EST

and runs about two hours. Agency: Grey Adv., N. Y.

Studebaker-Lark has expanded the lineup of stations that will carry the new *Mr. Ed* half-hour tv film series from 106 to 115. Several additional stations may be added before the show goes on the air in early January. Studebaker-Lark estimates that its total costs for the program will run more than \$3 million. Agency: D'Arcy Adv., St. Louis and New York.

Joseph Schlitz Brewing (J. Walter Thompson), **Liggett & Myers Tobacco** (Dancer-Fitzgerald-Sample), **Carter Products** (Sullivan, Stauffer, Colwell & Bayles) and **Bristol-Myers** (Doherty, Clifford, Steers & Shenfield) have signed to sponsor CBS-TV's *Sunday Sports Spectacular*, a 13-week series spotlighting many sports events not frequently carried on tv. The series starts on Jan. 8 (Sun., 2:30-4 p.m. EST). Among the events to be carried are an air show, the world bobsled championships, auto racing and golf and billiards (the latter two sports will feature comedian Jackie Gleason competing with golfer Arnold Palmer and billiard player Willie Mosconi).

Hanes Hosiery Inc., N. Y., has bought a 45-minute CBS-TV pickup of the Presidential Inaugural Ball from Washington and at the same time is shopping stations for a 10-15 week tv spot campaign, through J. R. Flanagan Adv. Agency, N. Y. Earlier NBC-TV announced sale of complete inaugural coverage to **Purex Corp.** (through Edward H. Weiss Co., Chicago).

Sylvania Electric Products (Kudner), **Sofskin** (Kastor, Hilton, Chesley, Clifford & Atherton) and **American Sheep Producers Council** (Potts-Woodbury) begin participation next month in ABC Radio's *Breakfast Club*. Other new participants in the weekday morning show include **A. E. Staley Mfg.** (Erwin Wasey, Ruthrauff & Ryan) and **Food Specialties** (Charles F. Hutchinson), both starting before the end of the year and continuing through first quarter of 1961, and an additional schedule ordered by **Red Book Magazine** (Lawrence C. Gumbinner).

Goodyear Tire & Rubber Co., Akron, Ohio, will sponsor *The Man and the Challenge*, a weekly half-hour film series, for 52 weeks on the five-station Central American Television Network, starting in early January. The Goodyear buy follows closely a similar purchase on same network by distributors of Nestle products (BROADCASTING, Nov. 7). Both orders were placed through ABC International Div. of American Broadcasting - Paramount Theatres.

Pepsi-Cola Co., N. Y., will join the sponsor list of ABC Radio's new daily

A strengthener' for woman's nails

Following up on a fast west coast start, Lanolin Plus next month will break a national campaign for the new Color Plus polish with nail strengthener. Buying day and night tv minutes in the top 30 markets, the client is emphasizing tv in media plans and expects to expand the market list as distribution is completed. The "beauty shot" at right is a frame from a series of commercials prepared by Daniel & Charles, New York, agency for Lanolin Plus. Morton Edell, president of the Newark, N.J., cosmetic company, and Joseph Chira, advertising director, said results of test marketing in California, supported heavily by tv minutes, were

"unprecedented." Color Plus sells for \$1 plus tax in stores and also is in use in beauty shops.

feature, *Flair*, on Feb. 20, 1961. The 17-week order is in addition to the soft drink company's sponsorship of ABC Radio's weekday news. Agency: BBDO, N. Y.

B. F. Goodrich (BBDO), American Tobacco (Sullivan, Stauffer, Colwell & Bayles), Colgate-Palmolive (Ted Bates), Ebonite Co. (John C. Dowd), Schick Safety Razor (Compton) and Whitehall Labs (Ted Bates) will sponsor NBC-TV's colorcast on the 12th annual Senior Bowl football game from Mobile, Ala., Jan. 7.

Also in advertising...

Greetings from RAB ■ The Radio Advertising Bureau has sent its member stations a series of 10 Christmas cards for distribution to retail advertisers. The cards, designed in traditional hues of hollyberry and evergreen, combine sentiment and sound selling advice. They offer retailers tested promotion or service ideas that are likely to increase Christmas sales—and each of the suggestions can be keyed to radio advertising. Some of the pointers: "One retailer sent his Santa to homes in underprivileged areas where the old boy distributed free gifts. This makes a fine subject for radio copy." "To give Yule shoppers a special treat, offer a 'treatment' for tired feet." All the cards contain this message from the station: "Ideas like this one are our stock in trade. When can we discuss them with you?"

Awards competition ■ Plans are being made for the Sixth Annual Advertising Awards competition of the Assn. of Industrial Advertisers. The competition will give awards in 10 different advertising and promotional categories. More information is available from Jerry Holtz, AIA awards chairman.

Daytime record ■ With \$7.5 million in new and renewed business signed in the four-week period ending Dec. 9, ABC-TV's Monday through Friday daytime schedule (11 a.m.-5 p.m.) is 84% sold out for the month of December and the first quarter of 1961. The sales figure represents the highest four-week sales record in ABC-TV's daytime history, since 1958, according to Edward Bleier, vice president in charge of daytime sales. In the past six months, ABC-TV increased the number of different sponsors for its daytime schedule by 110%, with the current total at 77 advertisers.

Learn while you work ■ The League of Advertising Agencies will co-sponsor an advertising work-in-training course at New York City College's Bernard M. Baruch School of Business and Public Administration. A liaison committee has been formed by the league to obtain part-time employment in advertis-

Doc gets tv RX

A Georgia veterinarian, who wants to advertise on tv but is prohibited by his profession's code of ethics from using any media, admittedly has a doggone problem on his hands. But the Television Bureau of Advertising indicated in a letter to the veterinarian there are more ways than one to skin a cat. The bureau suggested that he might elect to sponsor a suitable program on a local station, and he might film or tape a series of one-minute announcements, titled perhaps, "Critter Corner," that could relate some interesting facts about animals and birds. A courtesy announcement could be included in the one-minute spot stating: "The preceding was brought to you by Dr. as a service to all people who love pets." TvB observed: "No 'sell' would be required . . . by using this technique. You will be selling a point of view to viewers—here is a man who by his very conduct and manner must surely love animals. The next time I need someone to take care of my pet, I want that man to do it."

ing for students enrolled in the course. The committee will interview and evaluate job candidates, recommend areas of job training in which each student's talents can best be utilized, and arrange placement interviews.

Keep senior citizens productive, admen told

Serving the senior citizen will present the major challenge to advertising and merchandising during the decade ahead, Tyler MacDonald, senior vice president and director of marketing, Hixson & Jorgensen, of Los Angeles, told a workshop session of the Hollywood Ad Club.

Over the past 30 years, Mr. MacDonald recalled, the challenge to advertising-sales has changed from "depression" to "war and scarcity" to "postwar and more scarcity" and to the "togetherness," "suburbia" and "breeding" of the 1950's. Now, he said, the challenge is to meet the age of abundance of goods, resources and people, especially older people. "We must keep our senior citizens productive, keep them interested in travelling, in using, and enjoying," whatever goods and services the American economy has to offer.

Mr. MacDonald also foresaw the death of the wholesaler in the distribution pattern as a phenomenon of the

1960's. The sheer logistics are too complicated for today's fast service requirements, he said, and a more direct contact between retailer and provider is desirable and inevitable.

Dr. Raymond Jessen, project director at Corp. for Economic & Industrial Research (CEIR) and member of three-man statistical committee studying broadcasting ratings for the House Legislative Oversight Subcommittee, called for more analysis, more fundamental research, more experimentation to produce new market research techniques to meet the demand of the 60's for measurements of present conditions rather than historical data.

Record billing high seen from baseball

The American League's long-awaited and controversial expansion movement likely will produce an all-time high baseball radio-tv billing for 1961, if early indications are a gauge.

New franchises in Washington and Los Angeles and a new territory in Minneapolis-St. Paul have triggered an early surge which should easily surpass baseball's \$70 million record established during the 1960 season (BROADCASTING, March 14).

The new Washington operation, headed by Gen. Elwood (Pete) Quesada, chief of the Federal Aviation Agency, already has signed a contract with WTOP-AM-TV Washington which calls for more televised games (from 24 to 30) than last year in addition to radio broadcasts of the entire schedule (increased from 154 to 162 games). A reliable source in the team's front office describes the contract for radio-tv rights as substantially higher than the estimated \$200,000 figure in 1960.

In Minneapolis, the Theo Hamm Brewing Co. (Hamms beer) baseball's newest and largest advertiser in 1960, has boosted its tab with a three year contract to broadcast and telecast the new Minneapolis Twins' (formerly the Washington Senators) games on a seven state regional network. The agreement is said to at least triple the Senators' old contract in Washington.

Broadcasters Gene Autry, Robert O. Reynolds and Kenyon Brown who are heading the new Los Angeles operation have announced a similar broadcast setup to that employed by the rival National League's Dodgers of that city. Early indications (BROADCASTING, Dec. 12) revealed that a regional hookup keyed from KMPC would spearhead play-by-play of the new Angels' games. Although television would be limited, the Angels are said to be taking strides forward with telecasts of a few home games, a reversal of the Dodgers' policy which permits only 11 televised games, all away with the San Francisco Giants.

FCC FIELD GROUP CHECKS PROGRAMMING AS WELL AS TECHNICAL LAPSES

"Inspections in depth," which include the monitoring and taping of programming by radio stations, now is the established practice of the FCC's 380-man Field Engineering & Monitoring Bureau, it was learned last week.

Among the reasons for the tape recordings are to check for administrative and programming practices contrary to the public interest of broadcast licensees and to match performance vs. promise. In this connection, the Field Engineering & Monitoring Bureau is working closely with the FCC's new intelligence arm, the Complaints & Compliance Div. of the Broadcast Bureau.

This type of activity, however, constitutes a "relatively small fraction" of the workload of his bureau, FE&M Chief George Turner stressed last week. He said the bureau's field engineers are primarily concerned with technical violations but that when they find undesirable administrative or programming activities, such information is turned over to the Complaints & Compliance Div.

When such violations are discovered, evidence given the G-2 unit generally will include a tape recording of the alleged violation. John Harrington, chief of the commission's investigative arm, said that on occasion his men will visit a station concurrently with field bureau personnel to check for activities counter to the Communications Act and FCC rules.

Mr. Turner's office has been monitoring stations for years—as its name implies—for technical violations. Occasionally in the past, it was pointed out, the bureau referred non-technical violations to the Broadcast Bureau. It will in the future, however, concern itself more and more with administrative and programming practices.

\$50,000 Kitty ■ Mr. Turner's bureau has been allocated an additional \$50,000 from the \$150,000 appropriated by Congress for the G-2 unit, Mr. Harrington said. The field office has added only six new men since its duties were increased and now has about 300 men in the field, equally divided among engineers and monitors.

The taping of stations' programming began on a minor scale soon after Mr. Harrington's unit was established in August. However, taping of each station inspected by the field bureau has been of even more recent origin. The intensive monitoring is part of the field bureau's "inspection in depth" policy, also recently inaugurated. Mr. Turner

stressed that his office's primary responsibility still is checking for technical violations.

"We are concerned with anything that is contrary to the public interest," it was pointed out by an FCC official last week. "Administrative or programming violations" cited as prime targets for the tape recorders are (1) improper identification; (2) indecent or obscene language; (3) playing the same song repeatedly; (4) incorrect log entries, and (5) responsibility for violations.

Taping of a station's programming is very helpful in checking accuracy of logs, it was pointed out. It works this way: Before going to a station to inspect, the engineer will have the benefit of a taped programming. He hears a commercial at 3:57 p.m. for "X Brand." He then will check the station's log to see if the commercial is logged correctly. Some instances have been found where a station prepared its program log hours in advance with several discrepancies found.

More Detail ■ Mr. Turner said his bureau now is making inspections in more depth and is concerned with greater detail than in the past. Previously, depth inspections were made only on a sample basis but in the future each broadcast station will receive a "depth inspection" by the FCC at least once during its three-year license period. Normally, this inspection will take place shortly before the station's license expires.

For example, it was pointed out, Florida stations now are being thoroughly scrutinized—including program monitoring—as their licenses expire Feb. 1, 1961. During the past two months, emphasis was placed on stations in the Carolinas, whose licenses expired Dec. 1. Next in line probably will be Alabama and Georgia, with an April 1 renewal date.

As it was explained last week, The Field Engineering & Monitoring Bureau has broadened its "baseline" of operations in line with what the FCC feels is its responsibilities and mandate from Congress. Again it was stressed, however, that the increased programming activity is a minor phase of the bureau's operation with emphasis still placed on technical violations. Also, broadcasting is just one of the many communications activities policed by the agency. Safety and special services, marine, navigation and aeronautical were cited as other time consuming activities.

A Violation Is Found ■ When the

field engineers uncover a violation which falls under the jurisdiction of Mr. Harrington, it immediately is turned over to the G-2 unit—along with tape. Mr. Harrington said that he actually receives a minimal number of programming tapes from the field bureau. A huge percentage are immediately erased with the tapes used to monitor the next station.

Length of the individual station programming put on tape varies. Originally, only a small portion of a day's programming is taped. However, if a violation is found and the tape goes to the G-2 unit, Mr. Harrington probably will ask for a more extensive monitoring of the station in question, maybe as much as a whole day's programming. A field investigation by the Complaints & Compliance Div. then will follow if warranted.

A charge that the FCC's field crew is using rough tactics in dealing with stations (CLOSED CIRCUIT, Dec. 12) was emphatically denied last week by a commission official. An unidentified station has accused FCC investigators of trying to induce employes to tell them secretly of administrative and programming violations with promises that the employes would be protected.

"We have looked into that complaint with the people involved [for FCC] and we deny it categorically," the official said. Signed statements have been taken on the case, it was pointed out. The field engineers and G-2 investigators are instructed to ask station staffers questions that will permit a determination that a station is operating according to the FCC's rules and in the public interest. For example, if a violation is found in the program log employes will be quizzed in an effort to fix the blame and to determine if it constituted a wilful violation, it was stated.

Mr. Harrington said that most stations where his investigators have been sent have written the commission praising the conduct and actions of the FCC men. One broadcaster, he said, called the commission immediately after the investigators had left.

A Sound Philosophy ■ Mr. Turner said that his field men operate under this philosophy in issuing citations for violations: "When in doubt, don't." He said they are told to never start an action which they are not sure they can make stand up in court. "This has kept us out of a lot of trouble," he said.

Most technical violations are called

to the attention of the station management on the spot, he said. The inspecting engineer then will issue a citation, if called for. Non-technical violations, however, are turned over to Mr. Harrington for any further action. The field engineers are "observing and reporting" and in most instances are beneficial to the stations inspected, it was pointed out. "We are doing what the commission wants us to do . . . limited only by the people we have available to us," Mr. Turner said.

Radical Departure — The programming monitoring and taping activities of the FE&M office constitute a radical departure from the bureau's accepted purposes and activities of the past. The word "monitoring" in the title has thrown many members of congress in the past.

Countless times during congressional hearings, commissioners have been asked about the agency's program monitoring activities. In each instance, it was explained that the "monitoring" referred to had to do with a search for technical violations only and that the bureau was not charged with policing any other type of violations.

All this, apparently, has been changed by the new program of "inspections in depth" and close liaison with the Complaints & Compliance Div. And, it was pointed out last week, the FE&M Bureau has only engineers and technical people in the field, with only one attorney in the entire bureau and he is stationed in Washington. The bureau has no investigators on its staff.

Working closely with Mr. Turner under the program taping policy are Frank Kratokvil, assistant bureau chief and head of the inspections and examination division; Paul H. Herndon Jr., chief of the monitoring division, and Irving L. Weston, engineering chief.

Examiner questions dismissal money

Laurel Broadcasting Co., competing with Interurban Broadcasting Co. for a new am station on 900 kc at Laurel, Md., was ordered last week to show under oath that a proposed \$10,000 payment in return for dismissal of its application is "legitimate and prudent."

FCC Chief Hearing Examiner James D. Cunningham asked for "factual and other data . . . in connection with a determination of whether the expenditures made in preparing, filing and advocating . . ." the Laurel application are in compliance with September 1960 amendments to the Communications Act. Laurel, equally owned by Milton Grant and James R. Bonfils, had asked the commission to dismiss its application. In return, Mr. Grant, personality on WTTG (TV) Washington, was to receive \$10,000 from Interurban and

A leather-bound copy for the President

President Eisenhower last week accepted an engrossed leather-bound copy of more than 70 B.M.I. radio scripts titled *The Abraham Lincoln Story—1809-1959* and the companion book, *Lincoln for the Ages*.

The presentation was made at a White House ceremony by Carl Haverlin (third from rt), president of Broadcast Music Inc. and a well-known Lincoln scholar. Others shown are Mrs. DeWitt C. Mower, of Richards Associates, the Washington, D.C. public relations firm which represented the Lincoln Sequicentennial Commission; and three of the authors who contributed to the script series—Ralph Newman

(next to Mrs. Mower), president of the Illinois State Historical Society; Dr. David C. Mearns, chief of the Manuscript Division of the Library of Congress (second from right); and Rep. Fred C. Schwengel of Iowa, president of the Lincoln Group of the District of Columbia.

BMI, the music-licensing firm which sponsors special events in fields other than music, prepared and distributed the radio series as a contribution to the Lincoln Sequicentennial Year (February 1959-February 1960). President Eisenhower was named honorary chairman of the Lincoln Sequicentennial Commission.

Mr. Bonfils, former WTTG general manager, \$10.

Last October, Hearing Examiner Thomas H. Donahue turned down the dismissal petition on the grounds such an agreement needed prior approval of the FCC under amended Sec. 311 of the act (BROADCASTING, Oct. 24). Mr. Cunningham was acting last week on a new petition, filed Nov. 25, for dismissal of the Laurel application. Messrs. Grant and Bonfils were given 10 days to reply.

Among provisions of Public Law 86-752, signed by the President last fall, was an amendment to Sec. 311 designed to prohibit "payoffs" by one applicant to another for competing facilities (BROADCASTING, Sept. 19). Under the law, the commission can approve such an agreement only if the sum paid is not in excess of actual expenses of the applicant in prosecuting his application.

FTC issues payola complaint

The first payola complaint for a long time by the Federal Trade Commission was issued last week against three Holly-

wood, Calif., record makers. The complaint was issued against the now defunct Era Records Co. owned until May 1959 by Herbert Newman, Max Newman and Louis J. Bedell. They now manufacture records under separate corporate entities. The FTC charged that the Era firm paid disc jockeys and other broadcast personnel to play its records on the air without disclosing this fact. The respondents were given 30 days to file an answer. This makes the 103rd payola complaint issued by the FTC. Consent judgments have been entered in 88 cases.

Pay tv combatants in another round

Pay tv proponents and opponents were given the right to another round "on the record" last week, when the FCC said it would accept reply comments by the parties in the Hartford, Conn., pay tv test.

The commission took the action when it turned down a request for oral argument by the Connecticut Committee

Even an idle tv station is expensive, L. B. Wilson finds

It's costing L. B. Wilson Inc. \$8,000 a week to maintain a tv station and staff in readiness to go on the air on ch. 10 in Miami. And the heir to the Miami channel (now operated by National Airlines' WPST-TV there) has committed itself for \$800,000.

This is what L. B. Wilson told the U. S. Court of Appeals last week in a motion to expedite consideration of the request by National Airlines to stay the FCC's July 14 order.

The motion was filed in response to a pre-hearing conference order which was scheduled for last Monday (Dec. 12) at court. This conference was postponed to Dec. 19 due to the snowfall which blanketed Washington over the weekend of Dec. 11.

In its July 14 order the FCC revoked the 1957 ch. 10 grant to Na-

tional Airlines. It found that National Airlines and two other applicants has engaged in off-the-record contacts with FCC commissioners, and were disqualified to receive a license. The commission granted ch. 10 to the remaining applicant, L. B. Wilson, which it found untarred by the *ex parte* brush. It also authorized Wilson to commence construction.

The commission's revocation order has been taken to the appellate court by National Airlines. In addition to attacking the FCC's order, National Airlines has challenged the commission's authority to issue a final decision while the remanded case was still under the court's jurisdiction. It has also asked for a stay of the commission's order. It is this motion that L. B. Wilson asks be expedited. Also before the court

is an appeal by North Dade Video Inc. challenging the FCC's finding that it used off-the-record approaches during the 1957 Miami ch. 10 case.

L. B. Wilson has over 20 employees on the payroll, with some having been sent on paid vacations, the motion reported. There are approximately 60 prospective employees from the WPST-TV operation who will come over to WLBW-TV, (the Wilson call letters for its Miami station) when it commences operation, it noted.

The company built a complete station in 42 days, the pleading stated, and is ready to begin operating as soon as permission is granted. The FCC has maintained the *status quo* in the whole matter until 15 days after the appeals court acts on National Airlines' request for a stay.

Against Pay Tv. The FCC said the replies—which actually would be rebuttals to the proposed findings and conclusions filed last month by the Connecticut group opposing and by RKO General Inc. favoring the three-year Hartford subscription tv try out—must be filed within 15 days after the official order was issued.

Also denied was another request by the anti-pay tv exhibitors' group to correct the answer by Charles H. Tower, NAB television vice president to a question put by FCC Chairman Frederick W. Ford. The question had to do with the impact of pay tv on existing tv stations (BROADCASTING, Dec. 5).

In favor of permitting the test was the commission's Broadcast Bureau. It stated it could see no objection to authorizing the test. Opposing the RKO General application, which proposes to use its owned ch. 18 WHCT (TV) in Hartford as the toll-tv transmission station, was the Hartford theatre owner group. Proposed findings were filed following a five-day hearing before the FCC *en banc* last October (BROADCASTING, Oct. 31).

FAA hearing set for January

The date for the public hearing to be held by the Federal Aviation Agency on tall tv towers and other tall structures that might interfere with aircraft (AT DEADLINE, Dec. 12) is Jan. 10, 1961, according to the office of Charles Tower, NAB tv vice president. An FAA spokesman said that plans for the hearing had not been finalized but that interested groups, in addition to broadcasters (through the NAB) were the National Real Estate Board and the National Truckers Assn. He said he

had not received comments on the proposed FAA rulemaking from any individual broadcast stations.

FTC drops effort to get p.r. records

The Federal Trade Commission has abandoned its attempt to get a court order to force Los Angeles public relations firms to produce records and give testimony regarding their efforts to secure air plugs for their clients. On the motion of FTC attorneys, Judge Harry C. Westover, of the U. S. District Court in Los Angeles dismissed the action against Dick Fishell & Assoc., Mary Rothschild and Vicki Raaf, doing business as Promotions Unlimited.

The FTC had served subpoenas on those firms, particularly seeking lists of advertisers who have used their services to obtain name mention or product display on radio or tv or in motion pictures. On advice of Oliver B. Schwab, their attorney, Fishell & Assoc. and Miss Rothschild refused either to testify or to provide the lists of names on the grounds that the investigations were being conducted in violation of statutory and constitutional guarantees of effective legal representation, when Mr. Schwab was barred from actively participating in the proceedings.

The same individuals and companies rejected similar FCC subpoenas on the same grounds during Los Angeles hearings on the influences of tv film producers and others on network programming (BROADCASTING, Oct. 31), joining MCA in asserting that the ruling that attorneys take no further part in the

hearing than to consult with their clients off the record violated the clients rights to have proper legal presentation. Petitions filed by MCA and the public relations firms asking a review of the ruling of James D. Cunningham, FCC chief hearing examiner, and the reply of the FCC Broadcast Bureau upholding the ruling, are now before the full FCC (BROADCASTING, Dec. 12).

Ex-KIMO owner gets \$4 in antitrust suit

An ex-broadcaster who sued the *Kansas City Star* for over \$7 million received an award of \$4 in federal court last week.

Craig Siegfried, former owner of KIMO Independence, Mo., filed a treble damage antitrust suit against the *Kansas City newspaper*, charging the *Star's* alleged monopolistic practices had injured his radio station and two suburban newspapers he published. He asked for a total of \$7,350,000 in damages.

In 1957 the *Star* signed a consent judgment whereby it agreed to cease purported unfair practices challenged by the Dept. of Justice. The decree also required the newspaper to sell its WDAF-AM-FM-TV Kansas City. These were sold in 1958 to National Theatres, and subsequently to Transcontinent Television Corp.

The *Star* challenged Mr. Siegfried's contention that he was injured financially. Mr. Siegfried acknowledged he made several hundred thousand dollars when he sold KIMO and his newspapers in 1958.

A jury awarded Mr. Siegfried \$1 on each of four counts.

"It opened up new territories for us in sales and production. Not only the obvious ones, such as increasing the number of spots, but we find that it becomes much more advantageous for the small agency at the local level to buy (taped) spots on a plan basis because these spots can be repeated with little extra charge. I cannot single out the most important function of our *Videotape** Television Recorders—all their functions are important. We have made better use of our personnel and facilities. And we have cut down the cost of spot announcement production. We have been able to sell the machine and its capabilities along with our own programming and production standards....We certainly need the recorders and they, in turn, need us. Now tape places at our fingertips—and pocketbooks—another tool for creative broadcasting....Why we bought Ampex? I think the reasons are obvious. Ampex invented *Videotape* and it's proved itself to the entire industry. You can't ask for more than that." A postal card in the mail to Ampex, today, will bring you the complete story from other TV stations about tape as a money-making proposition and why they are sold on Ampex as a basic component of any complete TV facility.

Commercial space satellite service

AT&T ASKS FCC TO HASTEN PERMISSION, AVOID DELAYS

A plea that the FCC act "with all possible speed" to permit AT&T to institute limited commercial space satellite service, was made to the FCC last week.

AT&T told the commission that there are "strong and pressing" reasons for moving forward rapidly. Inauguration of space satellite service should not be delayed "until all conceivable problems concerning use of satellites are resolved here and abroad."

The telephone company's observations were made to the FCC in a reply to objections to AT&T's request to use 6425-6925 mc for space relaying (BROADCASTING, Dec. 5).

Not only are these the best frequencies for use in space relaying, AT&T said, but the FCC said that most of these frequencies should be used for space communications on a share basis with mobile microwave users.

AT&T filed an application last October to establish an experimental radio service between its laboratory at Holmdel, N. J., and active space satellites. At the same time it asked that the FCC authorize the use of 6425-6925 mc for the research project on a shared basis.

One of the prime objectives of the research, AT&T said, was to investigate the feasibility of sharing frequencies by space communications systems and ground users. Many of those objecting, the Bell company pointed out, urged this dual usage when the FCC

was considering space allocations. They cannot now object to this, it stated.

Common carrier bands most suitable for space communications are 3700-4200 mc, 5925-6425 mc and 6425-6575 mc.

The first two are being used to capacity, AT&T said. The 3700-4200 mc area is being used for the nationwide TD-2 microwave system and totals 34,000 route miles. AT&T has invested \$450 million in the TD-2 system. The 5925-6425 mc band is used by the Bell System for its TH microwave circuits. This occupies the entire band, and will furnish about 18,000 broadband channel miles and over 5 million telephone circuit miles, AT&T noted.

To require that space communications systems be required to share in the use of these common carrier frequencies "would result in the imposition of limitations on the use and capacities of those microwave radio systems."

International Agreement Needed

In another area of the fast-stepping space field, a Brookings Institution study recommended that one of the most important needs is to learn the requirements and attitudes of foreign governments to such questions as frequency allocations, privileges and priorities, receiver antenna control and sharing, access to audiences, and program content control. The latter covers propaganda, advertising, entertainment, information and education, the

report stated.

The Brookings study is on long range problems to be faced by the U.S. in its goal of the peaceful uses of space.

The study, submitted to the National Aeronautics & Space Administration, was under the direction of Dr. Donald N. Michael.

The section on space communications is premised on the general belief that "in a relative few years the world will be wrapped into a communications net based on several advantages of communication satellites—either active or passive."

In discussing the need for international agreements, the report said:

"The United States' role in developing and using a satellite communications system is complexly bound up with questions covering the relationships of our national (government) interests and private profit motives."

The use of satellite-based, multi-channel tv for teaching in underdeveloped areas has been much discussed, the report stated. Unless this development is accelerated, it went on, "other more conventional teaching means may develop to a degree that would challenge the advantages of education via telecommunications . . ."

The Brookings group also raised doubt as to the efficacy of tv in changing attitudes.

"In already advanced nations," the report observed, "the immediacy of exposure to worldwide events and ideas via radio and tv could affect general educational levels. However, important changes in perspective that might lead to greater tolerance and understanding merely on the basis of this exposure are not guaranteed by the evidence so far available. . ."

Serious impact of the use of satellite based conferences via closed circuit tv was also mentioned in the report. The savings in time, inconvenience and physical energy was acknowledged, but if this becomes routine, the report stated, it might become serious for the travel and hotel industries.

FCC okays tv station for P. R. naval base

A low-power, noncommercial military tv channel has been authorized on ch. 8 to provide tv service to personnel of the Roosevelt Roads Naval Station, Puerto Rico. The FCC last week informed the Office of Civil and Defense Mobilization that it will offer no objection to a Dept. of the Navy proposal to establish a 10-watt tv station there if it meets certain provisions.

Vertically polarized directional antennas are planned to restrict coverage to the naval station area. The commission specified that the new outlet must

FCC rectifies an administrative oversight

Eight stations were "listed due to inadvertence" by the FCC as having failed to answer the agency's payola questionnaire, the commission said last week in clearing the stations involved. Earlier this month, the FCC had publicly warned 37 stations (BROADCASTING, Dec. 5) which it said had not answered the questionnaire, which was issued in December 1959.

That notice was corrected last week to give the following stations credit for answering satisfactorily the payola questions: KFUF-FM Clayton, Mo.; KKAS Silsbee, Tex.; WAND Canton, Ohio; WCBQ Whitehall, Mich.; WDIX Orangeburg, S. C.; WLAQ Rome, Ga.; WORX-FM Madison, Ind., and WNCO-FM Ashland, Ohio.

Another station which was listed in the FCC's public notice, KEYT (TV) Santa Barbara, Calif., last week said that it had not received the commis-

sion's Sept. 20 request for further information. KEYT vice president and manager, Robert C. Burris, stated that the first knowledge the station or its counsel had that the FCC considered its reply to the payola questionnaire inadequate was upon reading the public notice.

KEYT has never broadcast any matter for which money or anything of value was received and not so identified, Mr. Burris said last week, and that this was the "sum and substance" of the station's original reply. "Key Tv Inc. [KEYT licensee] deeply regrets the commission's public announcement implying that KEYT has been derelict in its duties, especially since the commission has done so without any opportunity being afforded KEYT to show that the letter in question had never been received," Mr. Burris said. He pointed out an investigation showed that the letter was addressed incorrectly.

not interfere with non-government operations nor with the orderly development of private television broadcasting. Tv stations currently operating in Puerto Rico are: WOLE-TV Arecibo (ch. 12); WKBM-TV Caguas (ch. 11); WORA-TV Mayaguez (ch. 5); WRIK-TV (ch. 7) and WSUR-TV (ch. 9), both Ponce; WAPA-TV (ch. 4), *WIPR-TV (ch. 6), and WKAQ-TV (ch. 2), all San Juan.

The commission's decision was partly based on studies showing that satisfactory reception of commercial tv with adequate English-language programming is not available in the base area. Programs on the newly granted channel will contain no advertising.

Cease and desist, FCC orders in payola case

Two southern radio stations under common ownership were directed by the FCC to show cause why they should not be ordered to "cease and desist" from accepting payola—a practice both stations already have stopped voluntarily, the commission admitted. The move was a formal step to prevent recurrence of the practice.

The stations, WRMA Montgomery, Ala., and WAOK Atlanta are equally owned by Stan Raymond, Zenas Sears and Dorothy Lester. The commission pointed out that in their reply to the December 1959 payola questionnaire, both stations admitted accepting money from certain record manufacturing companies for distribution to on-the-air personnel.

In issuing last week's order, the FCC said that the acceptance of money from record manufacturers by WRMA and WAOK is "incompatible with allegations by the licensee . . . that said payments had little or no effect on the selection of records broadcast . . ." Consequently, the commission ordered, a hearing will be held in Washington within 30 days after the cease and desist show cause order is received by the stations.

The commission's hearing order was based on the payola reply by WAOK, "substantially similar" to that of WRMA. It was pointed out that Mr. Raymond, president of WAOK, signed an affidavit dated Dec. 30, 1959, acknowledging that payola had been received by Mr. Sears and distributed, with the knowledge and consent of officers and directors of the station, to all disc jockeys in accordance with the amount of broadcast time allotted to each member of the staff.

Payments for Three Years — A second statement by Mr. Sears, vice president, treasurer, program director and disc jockey of WAOK, confirmed the Raymond affidavit and acknowledged receiving money in 1957, 1958 and

1959, the commission said. Part of this money, it was stated, Mr. Sears kept for himself. Also, Mr. Sears was quoted as saying the money was distributed to on-the-air personnel "most apt to have played records made by the contributing company."

It appears, the commission alleged, that such payments constitute a valuable consideration to insure or induce the playing of records produced by the companies making such payments. Failure to make the required sponsor identification announcements that payment had been received from the record companies ". . . constitutes willful and repeated violations of Sec. 317 of the Communications Act and Sec. 3.119 of the Commission's rules," the FCC charged.

Although the stations have discontinued the acceptance of payola, the commission continued, "the public interest requires the imposition of sanctions to prevent a recurrence in the future." The FCC gave no indication of what "sanctions" it had in mind but Chairman Frederick W. Ford voted for inclusion of revocation proceedings in the show cause order instead of the less serious cease and desist order.

THAT INVISIBLE SHIELD

FTC hears oral argument on Colgate's Gardol tv ads

Maybe Colgate should have fired three coconuts at the "invisible shield" used in its Gardol dental cream tv commercials—and allowed one of them to penetrate.

This was the observation by one member of the Federal Trade Commission last week during oral argument before the FTC.

The observation was made after Mathias F. Correa, Colgate attorney, told the five-man FTC that scientific tests showed that Gardol gives 65% protection against cavities.

The trade commission last year challenged the Colgate tv commercials which used the shield idea. They were found to be misleading by FTC Examiner Leon R. Cross. In an initial decision issued last summer, Mr. Cross said the challenged advertisements implied that Colgate Dental Cream with Gardol gave "complete" protection against tooth decay (BROADCASTING, Aug. 8).

In the argument last week, which was an attempt to persuade the FTC to reverse the examiner's ruling, Mr. Correa charged that the examiner had not made a finding to support his decision that the advertisements claimed "complete" protection. Mr. Correa also said that Colgate-Palmolive Co. eliminated claims that one brushing a day with Colgate would protect the teeth, after

the FTC staff questioned this claim. He said the Colgate-Palmolive company dropped the "invisible" shield theme immediately after the FTC complaint was filed.

Always Cooperates ■ Colgate-Palmolive, Mr. Correa emphasized, has a specific policy of cooperating with the FTC on advertising, whether or not it agrees with the views of the trade agency's staff.

Commission counsel, Anthony J. Kennedy Jr., rebutted Mr. Correa by showing commission films of the challenged commercials. His point, he said, was to back up the examiner's finding that there was "visual innuendo" claiming complete protection against tooth decay.

One of the commercials showed the "invisible shield" effect in a tropical setting, with one actor throwing a coconut at the announcer. It was this scene which prompted Commissioner Sigurd Anderson to remark that three coconuts should have been thrown, with one being permitted to go through the barrier. The other commercial was a "Mighty Mouse" cartoon, and pictured a shield around a tooth, impervious to attack.

A final decision will be made by the FTC.

Thomas urges more care in agency appointments

The federal regulatory agencies could be improved if the President would exercise more care in the selection of members and if the members themselves would work harder and rely less on their staffs in making decisions, according to Rep. Albert Thomas (D-Tex.), chairman of the House Independent Offices Appropriations Subcommittee, which has jurisdiction over agency appropriations.

Rep. Thomas discussed agency problems last week with President-elect Kennedy. He also thinks amendments to the Administrative Procedure Act could help reduce agency backlogs. Rep. Thomas said he feels his subcommittee can work with the new Democratic administration next year to improve the agencies. He doesn't feel they need more manpower and doesn't believe more control of the agencies should be turned over to the President from Congress.

Set makers, FTC reach accord

Nine tv-radio-phonograph manufacturers have signed stipulations agreeing to disclose clearly the true nature of cabinet materials finished to simulate wood, the Federal Trade Commission announced last week.

The stipulation stated that all nine of the companies have failed to label cabinets adequately to disclose the true

composition of the cabinets finished to look like wood. Eight of the companies, Zenith Radio Corp. being the exception, used such terms as "mahogany grained finish," or "blond oak grained finish" to describe cabinets made of hardboard or metal, it stated.

The stipulations do not constitute admissions of violations.

In addition to Zenith, the eight companies involved are:

Admiral, GE, RCA, Motorola, Westinghouse, Emerson, Philco, and SYLVANIA.

FTC cracks whip on tv tube deceptions

"All we want is for the public to know they're buying second-hand goods."

This is the explanation by a Federal Trade Commission spokesman for the FTC's current campaign against tv tube makers who sell old picture tubes without identifying them as used.

The problem has been under investigation at the FTC for almost a year. It began last May when the first complaint was issued against Budco Inc., Pittsburgh, Pa.

In all there have been 14 complaints to date. They have been issued against tube makers, mostly small businesses. Two have signed consent judgments, and one had a stop order issued against it by default.

The FTC has charged that the tube makers fail to reveal that their picture tubes are reconditioned, contain used parts or have known defects. Some of the makers reactivate old tubes without inserting any new material on the phosphor screen or the gun assembly. Some also advertise these tubes as "brand" new.

This failure, the trade agency maintains, misleads purchasers into believing the tubes are entirely new and free from defects. It gives uninformed and unscrupulous dealers the means to deceive the public, the FTC claimed.

In the consent judgments signed so far, the firms are required to disclose clearly the true nature of their tubes—in advertising, on invoices, on cartons and on the tubes themselves. The settlements do not constitute an admission that the law has been violated.

Small Business, Large Volume ■ Tube companies engaged in this business—it is estimated that they put out about 3.3 million such tubes a year—run the gamut from completely equipped factories to garages and store property. In its best form, the used tube is completely washed, a new phosphor is placed on the face and a new gun assembly is inserted. In its poorest form the old phosphor is retained on the screen and only a few elements of the gun are replaced. Most are used for

the replacement market.

There is a difference of opinion about the reuse of the glass envelopes. Some elements in the radio-tv manufacturing industry claim that the glass envelope does not deteriorate and that where a completely new screen and gun assembly is inserted this is the equivalent of a new tube. Others insist that where the envelope has been used once the entire reactivated tube must be considered used.

Consent judgments have been signed by Budco, Theta Electronics Inc., Greensburg, Pa. and Tube Manufacturing Corp., Philadelphia.

A final order by default was adopted early last week against Televideo Corp. of America, Culver City, Calif.

The latest complaint was against Parliament Tv Tube Sales Inc., Chicago.

Still outstanding are complaints against:

Electronic Video Inc., Brooklyn, N. Y.; Hi-Glo Electronics Corp., Goodrich, Mich.; Mercury Tube Corp., Newark, N. J.; National Tv Tube Inc., Saddle Brook, N. J.; Wells Electronics Co., Cedarhurst, N. Y.; Kriss Electronics Co., Newark, N. J.; American Standard Tv Tube Corp., Jamaica, N. Y.; Ultravision Manufacturing Corp., Hawthorne, N. J., and Liberty Electronics Inc., Union, N. J.

KGEM PROTEST DENIED

FCC rejects charges aimed at blocking sale of KEST

Protest of the sale of KEST Boise, Idaho, on grounds that the real owners were not identified in an attempt to subvert the FCC's licensing policy was turned down by the commission last week (BROADCASTING, Nov. 21, Dec. 5). In essence, the FCC decision agreed with the reply of Reid W. Dennis and John M. Bryant, KEST purchasers, to KGEM Boise's charges.

The FCC said it had conducted investigations earlier this year and had cleared the ownership interests and character qualifications of George I. Norman and Robert Sherman, the two men accused in the KGEM protest of attempting to foil the FCC ownership rules. The inquiry had been instituted after similar charges were leveled against them on March 23, 1960, when Mr. Norman applied for half ownership of KXXI Golden, Colo. This protest, withdrawn six days later, was filed by KIMN Denver, which has ownership interests in common with KGEM.

The commission dismissed the protest for three reasons, all of them stated in KEST's reply: (1) KGEM had failed to prove itself "a party in interest" in the case and consequently did not have standing to protest; (2) KGEM did not specify in sufficiently particular terms how the sale would adversely affect it;

(3) KGEM had not proved that Messrs. Norman and Sherman held any ownership interest in KEST.

Decision's Points ■ The decision went into detail on each of the above points.

KGEM had stated that the grant of KEST would permit that station to compete with KGEM for advertising revenues and audience interest and thus do it financial damage.

The commission decided this claim was speculative and that the cases cited as precedent by KGEM did not apply. It also ruled that no particular facts had been given to prove how this grant would directly affect KGEM.

KGEM had charged that Messrs. Norman and Sherman had ownership interests in more stations than the commission would allow if aware of the fact and cited among its evidence that Mr. Sherman's name appeared as part owner of six existing or proposed stations and as author of the programming section of the applications of 18 other stations. It further charged that he and Mr. Norman had not been candid with the commission in listing the number of stations in which they had interests.

KEST had replied that Messrs. Norman and Sherman did not have any ownership interest in the station and that the owners did not contemplate selling them any.

Earlier Investigation ■ The commission said that an investigation into the charges against Mr. Norman had been held in March 1960 in connection with his application for KXXI. It indicated that the reason he was connected with the authorship of many applications was that he had developed a format called "Downbeat," which he sold stations for which he was program consultant and supervisor of operations. But he did not set station policies and his recommendations were subject to the review of the stations' owners.

A similar investigation into the activities of Mr. Sherman, held in 1958 but subsequently reviewed this year, showed him to be a consultant to several stations (about 14) but holding ownership interest in only four. He would assist in the preparation of license applications for qualified parties for a fee, conducting market surveys, recommending programming schedules and taking part in arranging engineer services, etc. The commission's inquiry had not found him disqualified for station ownership nor having an illegal number of station interests.

Suit against Newhouse again is dismissed

For the third time a \$1 million treble damage antitrust suit against S. I. Newhouse and his Syracuse, N. Y., broadcast stations and newspapers in that city has been dismissed.

Federal Judge Stephan W. Brennan dismissed the suit brought originally in 1952 by Syracuse Broadcasting Corp. (WNDR Syracuse). He said the broadcaster failed to establish proof of its charges.

WNDR claimed that it found it difficult to compete for advertising because the Newhouse-owned *Syracuse Post-Standard* and *Herald-Journal* had a combination rate and the newspapers never published anything favorable to WNDR. In addition to the newspapers, the Newhouse interests include WSYR-AM-FM-TV Syracuse.

Judge Brennan dismissed the suit twice; each time an appeals court ordered further consideration.

RISE ON FTC HOT SEAT Hearing begins on deceptive advertising charge in N. Y.

Carter Products Inc. acknowledged last Thursday (Dec. 15) that its Rise shave lather could have been compared against an actual competitive product instead of a mixture produced in a Carter lab for a series of filmed tv commercials.

This statement by Philip Richardson, vice president in charge of sales and advertising, Carter Products, came during the opening session of a Federal Trade Commission hearing in New York on a complaint of deceptive tv advertising against Carter Products, its agency, Sullivan, Stauffer, Colwell & Bayles Inc., New York, and S. Heagan Bayles, board chairman of SSC&B.

Mr. Richardson testified: "The way it turned out, it would have been much better to use another commercial lather" rather than the specially prepared formula. Edward F. Downs, FTC attorney, asked if the tv presentation "was a true comparison of Rise with another shaving cream." Mr. Richardson replied: "It was not, using this formula." He referred to a formula described in a letter introduced as evidence that was written by Carter's lawyers to the FTC.

The FTC hearing had been scheduled to continue through Friday (Dec. 16), but Examiner John B. Poindexter called for a recess until Jan. 12, 1961, at which time attorney Downs said he will run off the five films in dispute, and will call Dr. Edwin Brewster, who prepared the special formula, to testify. Respondents Carter and SSC&B are represented in the hearing by William L. Hannaway and John J. Campbell, both from the New York firm of Breed, Abbott & Morgan.

Mr. Richardson's testimony included statements that annual sales of Rise exceed \$1 million; that Rise is sold in competition with shaving lathers, and that a series of storyboards introduced as evidence were the ones on which the

tv commercials were based. Mr. Hannaway said the commercials were discontinued on Feb. 9, 1960. The FTC's complaint was issued last June (BROADCASTING, June 27).

Class IV stations win 10% rule exemptions

The 1,000 local broadcasters—those who operate on Class IV frequencies with 250 w—received a little relief last week: a "minor irritation" was removed.

The FCC issued a report and order which revised its rules to provide that the so-called 10% rule would not be applied to them.

The 10% provision is the regulation which prohibits a grant if the proposed station receives interference from existing stations which affects more than 10% of the potential audience to its protected .5 mv/m contour. It is Sec. 3.28 (c) (3) of the commission regulations.

The commission said that in the case of Class IV stations seeking a power boost (mostly to 1 kw) they would have nothing to fear if interference from other stations impinge on more than 10% of their audience. The rule change was first proposed last July, but was only to apply to existing stations. Last week's order extended this to all Class IV stations, existing or new.

The move is not expected to make much difference in the 200-odd Class IV applications for power boosts or for new stations in hearings. All of them are in hearing because of interference their proposed powers may cause to others.

Actually the FCC has been winking at the 10% rule ever since the first batch of grants to 1 kw power for local stations was approved. Last week's order just makes it legal now, it was explained.

The order spells out that the 10% rule will not apply to the area outside a Class IV station's .5 mv/m contour based on 250 w power, no matter what higher power it is requesting. This also holds true for applicants asking for new stations with powers higher than 250 w, it was pointed out.

The amendment becomes effective Jan. 23, 1961, the FCC said.

Still under consideration, the commission said, were other "possible improvements" affecting Class IV stations. Among these, it pointed out, were suggestions recommending that the normally protected contour (.5 mv/m) of local stations be determined on the basis of 250 w power with regard to other Class IV stations regardless of what power is utilized; that the interfering daytime signal of Class IV stations be calculated on the basis of 250 w regardless of what power is being used, and a plan, submitted by the Community Broadcasters Assn., to expedite the processing of applications for higher powers by local stations.

CBS NEWS 'COMMITTEE' SET

Dick Salant is chosen to head presidential-level policy group that will guide news operations

A presidential-level committee took over the operation of CBS News last week in a move to end inter-divisional bickering over the scheduling of information programs and restore prestige—and rating points—lost to NBC News during the past year.

Richard S. Salant, the only committeeman with less than presidential rank, was named fulltime, operating chairman of the new group, which was given authority for the policies and operation of CBS News and the scheduling of the tv and radio programs it produces. Mr. Salant was empowered to act for the committee when it is not in session.

The new CBS News executive committee consists of Board Chairman William S. Paley and President Frank Stanton of CBS Inc. and divisional presidents Sig Mickelson of CBS News, Arthur Hull Hayes of CBS Radio, James T. Aubrey Jr. of the CBS-TV network and Merle S. Jones of the CBS-TV Stations Div., in addition to Mr. Salant.

Mr. Salant, a corporate vice president, will continue to hold that office but his corporate responsibilities will be assigned to "appropriate divisional officers" so that he may concentrate on the news job. His duties in the past have cut across the broad range of CBS interests, including news, but have been especially heavy in government affairs, particularly in FCC and congressional hearings. He has been a member of the CBS editorial board, and among the offices which have reported to him are those of the CBS economic advisor, the secretary and the general counsel.

For several months there have been recurrent reports of impending changes in the CBS News operation. These have been especially insistent since NBC News walked off with ratings honors in the coverage of the Democratic and Republican nominating conventions and, more recently, the election coverage last month.

But the reports were uniformly de-

CBS' Dick Salant

nied or dismissed my CBS authorities.

Differences ■ Also linked with this speculation have been reports — confirmed by CBS sources—of strong and persistent differences between President Aubrey of the CBS-TV Network and President Mickelson of CBS News relating to information programs bought from CBS News by the television network. CBS sources explained these differences as those that might be expected to arise between a "buyer," Mr. Aubrey, and a "seller," Mr. Mickelson, or between a man responsible for keeping overall sales and ratings as high as possible and one responsible for producing programming which, no matter what its importance, is expensive, more selective in its audience appeal and therefore less easily sold than entertainment programs.

These sources thought the upshot of the new move would be to make it easier to schedule information programs on CBS-TV than has been the case in the past. Mr. Salant will have authority to act quickly, if necessary, to pre-empt an entertainment show for a fast-breaking news program.

Despite the fact that there are fewer advertisers willing to invest in information programming as distinguished from straight entertainment, it was estimated only a few weeks ago that programs of the CBS News Division already can account for close to \$46 million in CBS-TV billings for 1961 (CLOSED CIRCUIT, Nov. 28).

CBS authorities emphasized that the committee arrangement did not minimize Mr. Mickelson's position as head of CBS News but rather put full executive weight behind the news division.

Dr. Stanton, announcing the change

Outstanding Values in Broadcast Properties

Powerful fulltime facility with a good cash flow. Medium sized multiple station market. 29% down.

FLORIDA
\$230,000

Excellent daytimer in a good metropolitan market. Top rated and operating in the black. 29% down and good terms.

NEW ENGLAND
\$175,000

Fulltime station in a single station market. Making a small profit but needs an owner-operator. 29% down and liberal terms.

MOUNTAIN STATES
\$85,000

in an executive memo, pointed out that CBS News "produces approximately 55% of the new CBS Radio Network schedule and approximately 15% of the CBS Television Network schedule." The memo continued:

"Because of the unique status of the CBS News Division as creator and supplier of news and public affairs programs to our broadcasting divisions, and in order to effect a closer working relationship between CBS News and these divisions, we are establishing the CBS News Executive Committee." This group, it was noted, "shall have authority over the networks' scheduling of programs produced by the CBS News Division and be responsible for policies and operation of the division . . ."

Changing hands

ANNOUNCED ■ *The following sales of station interests were reported last week, subject to FCC approval:*

■ KCFI Cedar Falls, Iowa: Sold by Jane A. Roberts to Donald Blanchard and Harry Campbell for \$100,000. Messrs. Blanchard and Campbell own KSMN Mason City, Iowa. KSMN will, at the beginning, originate programs to be used on both stations. KCFI is 500 w daytime on 1250 kc. Broker was Hamilton-Landis & Assoc.

■ KBLT Big Lake, Texas: Sold by Don Renault to Brown Morris for a total consideration of \$29,000. Mr. Morris has interests in KTEN (TV) and KADA both Ada and KWSH Wenoka, Oklahoma. KBLT is a 1 kw daytimer on 1290 kc. Broker was Patt McDonald Co.

APPROVED ■ *The following transfers of station interests were among those approved by the FCC last week (for other commission activities see FOR THE RECORD, page 96).*

■ KGUN-TV Tucson, Ariz.: Sold by H. U. Garrett and associates to KGUN-TV Inc. for \$1.44 million. KGUN-TV Inc. is owned by Edwin G. Richter Jr. and associates who own WEOA and WEHT (TV) Evansville, Ind.

■ KIMN Denver, Colo.: Sold by Cecil

WAAT's igloo

By coincidence WAAT Trenton was broadcasting from a fall-out shelter (part of a civil defense experiment) when last week's snow blizzard covered the New Jersey capital city. As a result, WAAT handled emergency calls and aired more than 100 bulletins within a five-hour period. Other station signals in the area were silent in the wee hours of Monday (Dec. 12). When it began to snow, station program executives already had been holed in at the shelter for more than 100 hours in an experiment conducted in cooperation with CD officials in New Jersey to determine procedure on normal broadcasting in emergency conditions.

L. Heftel and associates to KIMN Broadcasting Co. for \$402,000 plus \$155,000 to Mr. Heftel for agreement not to compete within 50 miles for seven years. KIMN Broadcasting Co. comprises John C. Hunter, Robert Donner Jr. and Kenneth E. Palmer. This group owns KYSN Colorado Springs, Colo. Mr. Hunter also has interests in WCMP Pine City, Minn., and KOWB Laramie, Wyo. Commissioner Robert T. Bartley dissented.

■ WPAP Fernandina Beach, Fla.: Sold by Robert T. Rowland to Denver T. Brannen for \$31,800. Mr. Brannen has interests in KCIL Houma, La., and in WDLF Panama City, WCOA Pensacola and WMRA Marianna, all Florida.

Collins to address FCBA

Florida Gov. LeRoy Collins, NAB president-designate, will be the featured speaker at the annual banquet of the Federal Communications Bar Assn. Jan. 13, 1961 at the Statler Hilton Hotel in Washington. Reservations can be made through Earl R. Stanley, Dow, Lohnes & Albertson law firm, Washington. Tickets are \$12.50 a piece.

WTTW(TV) to relay etv airplane shows

WTTW (TV) Chicago, non-commercial outlet, will serve as the originating station for the midwest airborne tv instruction program to be launched Jan. 30.

According to plans announced jointly by WTTW and the Tri-County Educational Television Council, the station will cooperate by receiving the uhf signals from the experimental plane transmitter and rebroadcasting the videotaped lessons to conventional tv sets in hundreds of area school classrooms. The programs also will be carried daily on WTTW as part of the first experimental phase of the Midwest Program on Airborne Television Instruction. The program officially commences with the start of the academic year in September 1961.

Among the scheduled subjects are 6th grade arithmetic, beginning French and elementary art and music for elementary students; biology, American and world history, geography and American government and civics for senior high school students; and mathematics and chemistry at the junior college level. The telecasts will come from two uhf channels simultaneously.

Only a minimum number of tv receivers is needed during the trial period, with school board contributions helping to pay actual costs of WTTW rebroadcast operations. In time, it's noted, additional school districts are expected to contribute funds and participate in the selection of courses.

Involved in the \$7 million project are the Ford Foundation, which is underwriting \$4.55 million; Purdue U. which will produce the educational courses; Westinghouse Electric Corp., which is supplying a DC-6B aircraft that will operate over Indiana along the lines of Stratovision, and CBS Labs, which helped develop the technique.

CBS Foundations names grants to universities

CBS Foundations Inc., New York, last week announced grants totaling \$5,500 to six privately supported universities and colleges from which women graduates later went on to careers in the various departments of CBS. The foundation's plan provides for grants of \$1,000 on the completion of 15 years of service by women employees, and \$500 on the completion of each additional five years.

The new list of recipient institutions, employees for whom grants were made, and dates they began service with CBS and its divisions:

Bryn Mawr College (\$1,000)—Alice

Weel, tv news writer, CBS News (1944); Columbia U. Teachers College (\$1,500)—May M. Dowell, manager special projects, CBS News (1935); Connecticut College for Women—Emma Schaumann, supervisor of accounts payable, Columbia Records, Bridgeport, Conn. (1940); Eastern Nazarene College (\$500)—Olive Tracy, graphics presentation specialist, CBS Radio (1939); Long Island U. (\$1,000)—Sherley Abrams, librarian, special projects, CBS News (1943), and Russell Sage College (\$1,000)—Winifred Williams, secretary to the president, CBS Inc. (1945).

Directors Guild to begin informal network talks

The Directors Guild of America will hold an informal meeting Wednesday (Dec. 21) with representatives of the networks to decide on an extension of the present contract which expires on Dec. 31. Negotiating sessions had to be delayed because of prolonged meetings between the networks and the Screen Actors Guild and the American Federation of Television and Radio Artists.

A spokesman for DGA indicated the first formal negotiating meeting will be held early in January. It is believed that one of DGA's demands will be parity in fees for directors working on film, tape or live programs. At present, the initial fee on film program work is said to be substantially higher than live or tape.

Golden Quill awards given in Pittsburgh

Three Pittsburgh radio and tv stations were honored for "distinguished achievement in journalism" in western Pennsylvania at the first annual Golden Quill awards banquet at the Pittsburgh Hilton Dec. 7.

KDKA-TV Pittsburgh won top honors in three categories—editorial writing (a piece by Jerome R. Reeves, the station's general manager, was cited), tv-radio spot reporting and public service by newspaper, radio or tv.

WTAE (TV) Pittsburgh won first prize in the tv-radio feature or documentary category, and WIIC (TV) Pittsburgh received a runner-up award in the tv-radio spot-reporting category.

Besides its first place awards KDKA-TV received runner-up prizes in the public service and the feature or documentary categories. KDKA Radio and WTAE (TV) also were runners-up in the public service classification.

In all, western Pennsylvania newspapers and radio and television stations received awards in 21 categories at the dinner, which was co-sponsored by the Pittsburgh Chapter of Sigma Delta Chi, professional journalism society, and the

Pittsburgh Press Club.

Western Pennsylvania's broadcasters received high praise from the state's chief executive, David L. Lawrence. "This area is indeed fortunate in the quality of its broadcasting," the governor said. "From the very beginning, western Pennsylvania's radio and television stations have regarded their responsibility to inform and enlighten—as well as entertain—with a high degree of seriousness."

Then, underlining the importance of local programming, he said: "The finest network programs do not, in the last analysis, make a radio or television station great. It is still local coverage of the news and documentation of local events which determine a station's claim on its audience."

WICO studios destroyed

Studios of WICO Salisbury, Md., late Thursday night (Dec. 15) burned to the ground following a gas explosion, according to Robert Doyle, president and general manager of the Delmarva Broadcasting Co. station. Mr. Doyle said that estimate of the damage could not be immediately ascertained but that temporary studios were set up in a nearby motel in time for sign-on Friday morning.

Media reports...

The big switch - California Governor Edmund G. Brown, chairman of the Los Angeles Board of Supervisors, Ernest Debs and Los Angeles Mayor Norris Poulson participated Tuesday (Dec. 13) in on-the-air ceremonies when KNX Los Angeles switched from its 1938 50 kw transmitter to a new 50 kw General Electric transmitter. Aired were instructions of Fred Ruegg, CBS Radio vice president and general manager of KNX, to Harold G. Peery, station's transmitter engineer, to complete the switchover. Also taking part was Thomas Freebairn-Smith, Los Angeles executive secretary, National Academy of Television Arts & Sciences, KNX announcer of the inaugural broadcast of the 1938 transmitter.

Status report - WABC-TV New York budgeted \$25,000 and ordered full pages in newspapers and trade publications to trumpet fall ratings. Joseph Stampler, vice president and general manager of the station, said it was the second full-page schedule in WABC-TV's history. The message to consumers and trade is basically the same, citing A. C. Nielsen ratings for 10 ABC shows for the four weeks ended Nov. 6 and a prime-time audience gain of 16% over the past year. WABC-TV's first full-page campaign was one last June, costing \$32,000, to tell the New York market of its growth in the New York market.

New
RCA-7513
gives you
BETTER
"PHOTOGRAPHIC"
QUALITY
in Color and
Black-White
TV

Registration is achieved more easily. Dark corners in the picture area are reduced. Glaring "halo effects" are eliminated. The signal current has good purity and low noise. These are some of the important advantages you can obtain with the new RCA-7513—the remarkable Image Orthicon that offers better "photographic" quality.

RCA-7513 precision construction includes accurate coaxial alignment of all sections of the tube and accurate interelectrode spacings. As a result, the three images produced within a three-image-orthicon type color camera can be practically identical in geometry. However, to take full advantage of the 7513's precision capabilities, the color camera should employ

deflecting yokes and focusing coils having precision construction and precision axial alignment with respect to each 7513.

A major design feature of the 7513...field mesh... assures that the scanning beam will strike the target perpendicularly at all points. This means improved corner resolution as well as reduced halo and edge effects. Moreover, the field-mesh defocuses the return beam, eliminating dynode spots from the picture.

Discover for yourself the new possibilities in color and black-white quality opened up by RCA-7513. Get in touch with your local RCA Distributor of broadcast tubes today for full details...or write RCA Commercial Engineering, Section L-13-0, Harrison, N. J.

PROGRAM DEATH RATE OFF

Tv network schedules are more stable this year as CBS, NBC drop but two each, ABC drops none

The number of "failure" marks on the television networks may be down this year when the 13-week nighttime report cards come in next month. Re-scheduling is going on at about the same rate as last year, but it looks as if the hour total of casualties may be a bit improved. The score so far:

Four shows scrubbed, for a total of three hours re-programmed. The changes are all on Monday, Thursday and Friday. This time a year ago there were half a dozen marked for banishment and four hours of re-programming.

Gone from the schedules will be *Person to Person* and *The Garlund Touch* from CBS-TV, *Riverboat* and *Dan Raven* from NBC. ABC's entire class will move into the new semester intact, although *Asphalt Jungle* will go in later for *The Islanders* at the 26-week point in April.

Switches by CBS ■ In a general Thursday night shakeup by CBS, *Person to Person* this week (Dec. 22) will wind up a seven-year run after languishing all fall in the 10 p.m. half-hour with partial and short-term sponsorship. *The Du Pont Show with June Allyson* will move Jan. 2 from 10:30 to Monday at the same hour, opening the Thursday 10-11 period for an alternate bill of *CBS Reports* and *Face the Nation*. The latter will return to stations the 10:30-11 final half every other edition for local public service programming. Philip Morris' *CBS Reports* has been on a special basis heretofore. *Face the Nation* (Esquire and Schick) has been slotted in the Monday night 10:30 half-hour.

With *The Witness* now moved to 9-10 (BROADCASTING, Dec. 12), CBS hopes this show will recover from a tentative beginning, although it will end the 13 weeks only a quarter sponsored. While the network has faith in *The Witness*, still, if all else fails, there is an hour western, *The Gunslinger*, ready to go before CBS cameras, but there's nothing on celluloid yet.

On Friday, Liggett & Myers and Plymouth are holding onto the CBS 9:30-10 period but substituting the new Jackie Gleason panel show, *You're in the Picture*, Jan. 20 for *The Garlund Touch*.

And on NBC ■ The opening hour of Monday and much of Friday will have a new look on NBC, although one of the new half-hours was scheduled at the start of the season and a new

alternate-week hour represents found money in a catch-as-catch-can special slot.

The anchor-hour casualties are *Riverboat* on Monday and *Dan Raven* Friday. *The Americans*, Civil War drama about brothers in opposing armies, is the *Riverboat* replacement, sold so far to Dow, Pepsi-Cola, Pan American Coffee Bureau, Block Drug and *Reader's Digest*. This is being filmed for the network at MGM studios in Hollywood. Continuation of another Monday show, the 9-9:30 *Klondike*, two-thirds sponsored by R. J. Reynolds (the rest is co-op with affiliates), has been a subject of outside speculation, but NBC has not acknowledged the talk.

Two half-hours go into the 7:30-8:30 period Friday beginning Jan. 13. They are respectively *Happy*, a Roncom filmed situation about a talking baby seen on NBC last summer (Brown & Williamson is the first to sign for *Happy*) and a new Goodson-Todman series, *One Happy Family*, which bases its comedy on a three-generation situation (it still is being shown to prospective sponsors).

The Westerner, being displaced in the Friday 8:30-9 time by *Westinghouse Playhouse Starring Nanette Fabray and Wendell Corey*, cannot fairly be called a casualty, since the Westinghouse deal was made long ago with a Jan. 6 starting date.

The 9 p.m. Friday time alternating with *Bell Telephone Hour* has been programmed with specials, but now there's a "verbal order" (not quite official) for a regular *Sing Along with Mitch* beginning Jan. 27. This has been sold in the East to P. Ballantine & Sons and the rest of the alternate-week lineup was being offered last week to other prospects. The new hour grows out of a Mitch Miller *Ford Startime* special program that was telecast on the network last season.

MGM-TV sets two more series under NBC deal

MGM-TV has raised its tv production sights two program notches higher. The firm has announced a co-production arrangement with NBC-TV for the series, each of hour length for fall, 1961 season. Programs are *Cain's 100* (conceived and created by Paul Monash) and *Women in the Case* (also

Oles and maletas

The hour-long *Bullfight* show on KTLA (TV) Los Angeles (9:30-10:30 p.m., Nov. 28) was preceded by a barrage of phone calls and letters of protest, largely stimulated by a bulletin of the Society for the Prevention of Cruelty to Animals, which charged that the showing was a violation of the California criminal code as well as an outrage to the humanitarian feelings of SPCA adherents. But, reports KTLA, the program, taped by Banner Films and sponsored by Mennen Co., drew top audience among the city's seven tv stations at the time with a rating of 14.0, according to a special ARB survey made for the sponsor. Furthermore, the post-broadcast calls and letters fell far short of the pre-program total and were distributed half-and-half for and against the program, with a slight edge in favor: 41 cards and letters and 42 phone calls hailing the show as great, 35 pieces of mail and 32 calls denouncing it.

developed by Mr. Monash, who will be executive producer on both series). *Cain's* is about a government law enforcement agent battling syndicate crime; *Woman* is an anthology about the woman as motivating force in each crime or adventure. MGM-TV is also preparing the pilot of *Father of the Bride* for General Mills via BBDO while currently producing *National Velvet* (NBC-TV) and *The Islanders* (ABC-TV), both on the air for the first time this season.

Unemployment series

A series of 26 quarter-hour taped documentaries on the broad spectrum of this country's unemployment problem is attracting increasing attention from both commercial and educational radio stations.

Titled *Situation Wanted*, the series seeks to get at the story behind the unemployment statistics through interviews with the jobless themselves, job counselors and labor experts, along with in-depth reporting that includes excerpts from hearings of congressional committees dealing with the unemployment problem.

The project is the work of WKAR, the Michigan State U. station, which had the assistance of the university's Labor and Industrial Relations Center. To date, 70 stations—30 commercial and 40 educational—in 26 states are carrying the series as a public service feature.

'Twas

the month before

Christmas at ARB, when someone
asked what our greeting would be . . .

to all of the friends we've accumulated,
from sponsors to stations whose programs
we've rated. We thought about cards or the
usual gift, but none of the ideas gave us a lift.
So, after discussion of good and of bad, we
decided to settle on this little ad. It isn't
the best in copy and art, but the feeling
behind it is the greatest part. We
sincerely extend to all those
who may see . . . these
large . . .

Season's Greetings from ARB

An 'answer man' panel for insurance

A weekly program designed to inform listeners about the complicated subject of insurance has been inaugurated by KEX Portland, Ore. Listeners are asked to phone questions dealing with property insurance and including fire, automobile, theft, liability, ocean and inland marine and dwelling coverage to a panel of insurance experts appearing on *Insurance Clinic*. The series is scheduled for Monday nights 8-9 p.m. through July 1961.

The panel is composed of professional insurance men, members of the Portland Assn. of Insurance Agents. Three members appear on each program in a live and unrehearsed session answering listeners' queries on insurance. George McGowan of KEX is moderator. A similar series, dealing with legal problems and the citizen's responsibility to the law, was a prizewinning feature of KEX last year, the station reported.

Students seek return of 'College News Conference'

Students are out to get a million signatures on a petition to return *College News Conference* to the air. Meanwhile, Ruth Hagy, producer-moderator of the half-hour panel program which signed off ABC-TV Nov. 20, has talked to another network and a syndicator but is trying to hold the door open for reconsideration by ABC-TV when James C. Hagerty reports for work as the network's news vice president.

ABC-TV, which replaced *College*

News Conference with Issues and Answers, news panel show utilizing some features of the presidential debates, said protests over the college show departure had not reached any appreciable extent. The students have hundreds of protests in hand, they say, including some by Washington legislators, officials and representatives of a broad range of national organizations. Henry J. Boitel, student at St. John's U., Brooklyn, and chairman of the Metropolitan New York region of the National Student Assn., is chief spokesman of the Committee of Student Leaders for College

News Conference. His organization has written to Leonard Goldenson, president of American Broadcasting-Paramount Theatres, and contacted 1,500 student leaders across the country to circulate the petition.

Berwell Productions formed

Irving Cummings Jr., creator-producer of the *Fury* tv series, Arthur (Dagwood) Lake, actor-writer, and Ray Berwick, writer-director, have formed Berwell Productions and taken space at Desilu to film the first episode of a new tv series, *Jimmy and Me*. *Jimmy* is a nine-year-old boy; "Mike" is his dog, a \$1.50 mutt recruited from the city pound, who narrates the stories, expressing a dog's point of view with a human voice supplied by Mr. Lake. Mr. Cummings and Mr. Berwick wrote the pilot, which Mr. Lake produced. Mr. Cummings will be executive producer of the series; Mr. Lake, producer; Mr. Berwick, director; Emil Newman, musical director; with various writers, including Charles R. Marion and Nat Tanchuck. Berwell is hopeful of an early start for the series on a network in early evening time to reach an all-family audience, Mr. Cummings said. *Jimmy and Me* should be attractive to advertisers because of its unusual dog's-eye nature and because it can be delivered for about half the cost of the average tv half-hour series, or less than \$20,000 an episode.

OCDM prepares documentary

The Office of Civil and Defense Mobilization is readying a documentary series which will be available to commercial television stations at no charge.

Titled *Retrospect* and narrated by Douglas Edwards, the series consists of thirteen 15-minute filmed shows dealing with historic events of critical importance, as well as significant and famous personalities. Details of how *Retrospect* will be released will be announced "sometime after Jan. 1," the OCDM said.

Gov. Davis replies

Representatives of Louisiana Gov. Jimmie Davis reportedly were shopping for television time in major northern markets last week. The time would be used to present a selected series of Gov. Davis' speeches on the school integration problem and to present his case against what he calls "federal court encroachments against states' rights." The governor has ordered copies of some of his Louisiana-wide telecasts made during the past month. Officials aiding him are reported to have said these will stress the overall federal-state conflict rather than the racial issue alone and that the broadcasts will bypass angry blasts by segregationist extremists.

Dec. 25 (7-8 p.m.) *The Shirley Temple Show*, RCA through J. Walter Thompson.

Beechnut through Young & Rubicam.

Dec. 25 (9-10 p.m.) *The Chevy Show*, Chevrolet through Campbell-Ewald.

Dec. 28 (8:30-9 p.m.) *The Price Is Right*, Lever through Ogilvy, Benson & Mather; Speidel through Norman, Craig & Kummel

Another GATES Success Story in TV...

Says Rex Howell, president, KREX-TV, Grand Junction, Colorado about the Gates BT-5C 5KW TV Transmitter:

"I must take time to let you know how happy we are with the color performance of the Gates BT-5C transmitter. We had Studio A filled with guests last Sunday night to watch a color demonstration and their response was most enthusiastic. The color definition was as good or better than any I have seen. Needless to say, this Gates television transmitter is a great source of satisfaction to all of us at KREX."

Under development for more than two years, the Gates BT-5C 5 kilowatt VHF television transmitter provides the most exacting color and monochrome transmission.

For detailed technical information, write today for Bulletin 115-L—yours for the asking.

Offices in: HOUSTON, WASHINGTON, D.C.

In Canada: CANADIAN MARCONI COMPANY

Export Sales: ROCKE INTERNATIONAL CO., 13 EAST 40th STREET, NEW YORK CITY

it has scheduled repeat presentations of two *Project 20* documentaries—"The Twisted Cross," a study of the rise and fall of Adolf Hitler, and "Life in the 30's"—because of "popular demand." Both programs have been shown four times in the past. "The Twisted Cross" is now set for Jan. 3 (10-11 p.m. EST) and "Life in the 30's" for Jan. 24 (10-11 p.m. EST).

For the deaf ■ *The Dave Garroway Today Show* (NBC-TV, Mon.-Fri., 7-9 a.m. EST) devoted the entire 2 hours of last Friday's program to an examination of the problems of the deaf and hard-of-hearing, and what is being done to help them. Guests included: Broadway star Anne Bancroft; singer Johnnie Ray, and Mrs. Evelyn D. Seide, present companion of Helen Keller.

Hands off ■ The head of the Police Juvenile Bureau of Huntington, W. Va., has credited WSAZ-TV, that city, with helping the department wrap up a child-molesting case. On Aug. 30 WSAZ-TV telecast *The Child Molester*, which was designed to acquaint parents and children with the methods and dangers of this type of criminal. A 13-year-old girl who had been instructed by her mother after viewing the program was able to give complete identification of a molester including the license number of his car.

Extra dividend ■ Universal Pictures Inc., N. Y., will pay a quarterly dividend of 25 cents per share and an extra dividend of 25 cents per share on the common stock of the company, payable Dec. 28 to stockholders of record at

the close of business on Dec. 19.

After dinner specialists ■ A short film now in production for syndication and nontheatrical distribution by Emerson Yorke, independent producer, outlines the origin and growth of Toastmasters International. The nonprofit group has a membership of 3,200 toastmaster clubs, of which there are some 80,000 after-dinner-speaker members. There are branches in 40 countries and territories. The film will be based on the *Reader's Digest* article "Accustomed as I Am."

New series for ABC-TV ■ A new half-hour series produced by Ziv-United Artists Inc., titled *Small Town D. A.*, has been acquired by ABC-TV for presentation on the network during the 1961-62 season. It is based on a book

VIDEO TAPE is the shape of QUALITY TV commercials TODAY

The tremendous impact of the tape revolution on the creation, production and economics of TV is being felt increasingly in all areas—from network and spot commercials to dramatic shows and other programming, at both national and local levels. Here, on the next page, are some of the pleasantly surprising things you can expect when you turn to tape to shoot your next commercials . . .

6 proved ways "SCOTCH" BRAND LIVE-ACTION VIDEO TAPE brings new quality and savings to your TV commercials!

The picture "lives" on "SCOTCH" BRAND Video Tape . . . says to the viewer, "It's happening right now!" The extraordinary visual presence of video tape, its real authenticity of sounds, provide a new dimension of believability to commercial or show.

Immediate playback—in a matter of seconds—tells the producer, director, performers, camera crew whether this "take" is the one to keep, or whether a second will add worthwhile values of lighting, focus, panning and delivery. No processing wait.

Tape saves days because of the uninterrupted work schedules it makes possible. You complete assignments in less time, then go on to the next without the distraction of unfinished business. It helps schedule talent, studios, crews efficiently.

Fast editing is a video tape feature. Its amazing flexibility lets you make last-minute changes. Sight or sound tracks can be erased and redone speedily. New scenes can be inserted and complete rearrangement of elements effected at the last moment.

Special effects machines used in video tape recording make possible an unlimited selection of effects. Wipes, match dissolves, pixie and giant people, combination of animated cartoons and live-action people, zooms, supers—video tape does them all.

Speeds up approvals. Client approval of commercials can be had the same day taping is made! When tape is the medium, the men who make the client's decision can be on the scene to give their approval when enthusiasm is high. No processing delay!

"SCOTCH" BRAND Video Tape has ushered in a new TV age! Along with audible range and instrumentation tapes, it was originated and pioneered by 3M. And it is through continuing and pioneering research that 3M is known and recognized as world leader in the development, manufacture and distribution of quality magnetic tapes.

Send for: "The Show Is on Video Tape,"

a new booklet of case studies on the taping of network commercials, drama programs, and local "spectaculars." Enclose 25¢ in coin to cover mailing and handling costs. Write 3M Co., Box 3500, St. Paul 6, Minnesota.

"SCOTCH" and the plaid design are reg. T.M.'s of 3M Co., St. Paul 6, Minn. Export: 99 Park Ave., New York. Canada: London, Ontario. © 1960 3M Co.

Wanted: college composers ■ Broadcast Music Inc. reports that a prize of \$1,000 will be awarded to the composer and lyricist of the best college musical comedy or revue presented in the U. S. and Canada during the 1960-61 academic year. An additional award of \$500 will be made to the drama or music department, or to the student dramatic club sponsoring the production. Rules for the competition, which closes May 15, 1961, are available from Robert Sour, BMI, 589 Fifth Ave., New York 17.

Upbeat up North ■ The Canadian Office of International Television Programs, foreign distributor for Ziv-UA products, reports that in its year of operation, 142 sales were concluded involving 27 separate shows. Included were the sale of *Aquanauts* to the CBC and a regional sale for the second year run of *Lock Up* in 33 Canadian markets.

Time change ■ *Rocky and His Friends* will be presented in a new time slot on Sundays on ABC-TV, beginning Dec. 25 (5:30-6 p.m. EST). The program

was formerly seen at 12:30-1 p.m. EST.

Ready for stripping ■ Two NTA properties—*Sheriff of Cochise*, and *U. S. Marshal*—are being offered to tv stations as strip programming under the title *Man From Cochise*. The new series combines 78 episodes of *Sheriff* and similar number of *Marshal* segments.

Full speed ahead ■ Four Star Television is filming a record total of 17 segments for 11 tv series in the two weeks prior to Christmas, affecting all the studio's product except *The Westener* and *The Corrupters*, which are both currently taking a lay-off in production.

Big league show ■ Desilu Productions has set a new half-hour situation comedy series, *You Can't Win 'em All*, for production for airing during the 1961-62 season. Bob Weiskopf and Bob Schiller wrote the pilot for the series, to chronicle the home life of a big league ballplayer, based on the book, *The Long Season*, by Cincinnati Redlegs pitcher Jim Brosnan.

A growing industry ■ Teletalent Inc., N. Y., tv producing company, predicted

Time-saving device for animated cartoons

Title roles in a new cartoon series of 26 seven-minute episodes, entitled *Snip and Snap*, are played by a pair of scissors and a paper cut-out dog (above). Produced by Halas & Batchelor and distributed by Interstate Television Corp., New York, *Snip and Snap* presents a new form of three-dimensional animation in which the characters move in a world of paper fantasy. The series was awarded first prize in the children's films category at the 1960 Venice International Film Festival.

A second new animated series, *Foo Foo*, is also available and may be purchased separately or in com-

bination with *Snip and Snap*. Halas & Batchelor's *Foo Foo* (see picture) is drawn with a specially developed drawing pencil called Cell-graph, which reduces drawing time of a seven-minute film to six weeks, using only a key animator and one skilled assistant. Previously it took a team of 15 artists as much as 16 weeks to complete the thousands of individual drawings. *Foo Foo* is reported to be the first series of films made by the new process. Interstate, subsidiary of Allied Artists Pictures, reports that WGN-TV Chicago is the first station to purchase both of the animated series.

Buick blows its horn on 'Factory Whistle'

Early risers within listening range of WKMF Flint, Mich., are getting an earful these mornings of things they never knew before about the 18,000 employes of Buick Motor Div., which is located in Flint.

The reason is *The Factory Whistle*, a program sponsored by Buick and dedicated to the proposition that the community in which its employes work should know more about them. It is carried daily, Monday through Friday, from 6 to 7 a.m.

"*The Factory Whistle* is designed specifically to give public recognition to the important role Buick employes play in the community," explains G. H. Rideout, director of public relations for Buick. "It will recognize specific employes for their accomplishments in community work." Mr. Rideout is shown (1 above) with Bill Lamb, Flint d.j., who is conducting the program.

Besides items about Buick workers and their families, *The Factory Whistle* carries a budget of local and national news, sports and weather. It also will be used, says Mr. Rideout, to promote civic projects which benefit the entire community.

Mr. Lamb, a Flint air personality for a number of years, is enthusiastic about his new assignment, in which he is known as "the voice of

Messrs. Rideout and Lamb

the men of Buick."

"This is the kind of program people dream of," he says—music, news, sports, time and weather. "And best of all, no commercials."

In the vast Buick organization, populated as it is by ex-stunt flyers, ballplayers, singers, artists and cowboys, Mr. Lamb sees a gold mine of stories and anecdotes. Uncovering the nuggets, he says, "should be exciting."

At present, *The Factory Whistle* is scheduled for a 13-week tryout. If the men of Buick like its sound, Buick will sign up for the show for one year.

last week that more than five times more money will be spent in 1965 on "special audience tv" than was spent in 1959. Teletalent said a survey showed that about \$7 million was spent in "special audience" tv in 1959 and this figure should grow to more than \$35 million in 1965. Included in "special audience" tv, according to Teletalent, are closed-circuit telecasts, broadcast tv beamed to special groups like school children, the making of medical films on tape and consulting on tv technology with groups that lack technical personnel.

Living sales ■ C. F. Productions Inc., N. Y., reports six additional sales of Carlton Fredericks' *Living Should Be Fun* radio program, bringing to 35 the number of markets for the 25-minute stripped show. The six stations are WLAV Grand Rapids, Mich.; WRTA Altoona, Pa.; WMAL Washington, D. C.; WENY Elmira, N. Y.; WJOY Burlington Vt., and KXYZ Houston, Tex.

Fitzpatrick film ■ The editorial cartoons and comment of Pulitzer Prize-winning cartoonist Daniel R. Fitzpatrick have been recorded in a new National Edu-

cational Television series, *Forty-Five Years with Fitzpatrick*. The film series consists of 16 half-hour episodes which recreate important national events and problems the U. S. faced during Mr. Fitzpatrick's long career with the *St. Louis Post-Dispatch* (1913-1958).

Tv rights ■ Filmaster Inc. has purchased tv rights to *Nightside*, radio series originated at KMPC Los Angeles, and has produced three five-minute episodes with Donn Reed, reporter-commentator on the series since its inception on KMPC last January, serving in a like capacity for the tv series. Fritz Goodwin produced and Richard Cunha directed the first tv shows, with a total of 260 to be filmed, resuming after the holidays. *Nightside* presents the unusual, off-beat side of Los Angeles after dark. Series was developed from an idea of Robert Forward, KMPC vice president in charge of programs.

Wide selection ■ Allied Radio Corp. has issued a stereo record and tape catalog which includes detailed, informative listings of over 1,000 of the latest stereo records as well as over 400 two- and four-track stereo tapes. The cata-

When the Indians crossed the Kansas prairies, they utilized the first advertising. Probably the squaw who lugged the load was most adroit at deciphering smoke signals that spelled out "INDIAN PONY FOR SALE AT NEXT TRADING POST." A broken tree branch or twigs stripped from a bush might indicate the nearest source of papoose blankets, tomahawks, and headdresses. But unless you were another Indian, chances are you wouldn't catch the sales message.

Totem Poles gave way to transmitting towers... and Kansas prairies today are being crossed by the KTVH television signal, beaming messages that spell GOODS and SERVICES to customers and WAMPUM for producers and manufacturers. And you don't have to be an Indian to understand the language. When you buy KTVH, your message reaches prospective customers in the heart of the oil, cattle, agriculture, and aircraft production area. To sell this scalp-tingling Kansas Market, buy KTVH with unduplicated CBS-TV coverage in Wichita and 14 other important Kansas Communities.

BLAIR TELEVISION ASSOCIATES
National Representatives

log lists classical records and tapes alphabetically by composer and jazz and popular selections by performing artist, group, orchestra or title. In almost every case a complete rundown of selections included in albums are listed. Most of the major labels engaged in stereo recording are represented. Copies of the catalog are free on request from Allied Radio Corp., 100 N. Western Ave., Chicago 80. As for Stock No. 26 RR 999.

Acquisition ■ Boothe Leasing Corp. of San Francisco and New York has acquired the assets of Producers Service Co., Burbank, Calif., engaged in leasing specialized photographic equipment and

accessories to theatrical and tv film producers for an undisclosed amount. E. B. (Mike) McGreal, for many years a photographic executive with Warner Bros. and 20th Century-Fox, will be a vice president of Boothe and general manager of the Producers Service operation.

Sing-alongs ■ Commercial Recording Corp., Dallas, has borrowed the popular record-album idea typified by the "Sing Along with Mitch Miller" albums and converted it to use for radio station IDs. Each ID is based upon a traditional melody with which most of the audience will be familiar.

Tel Ra's make-them-yourself title cards

An office photocopying machine, added to regular in-shop film production gear, has been found by one production firm as useful in cutting sharply the cost and time factors involved in the making of tv title cards. The firm is Tel Ra Productions, an affiliate of W. Wallace Orr Inc., Philadelphia advertising agency.

Tel Ra specializes in the production and distribution of sports programs for tv in all fields. Raw films are rushed to the firm for fast processing, editing, titling and duplicating, then rushed on to stations. The titling innovation cuts time for that function from a day or more to mere minutes since outside service is eliminated. Cost per title card also is reduced from the usual \$5-7.50 to about \$1. The annual saving is estimated at more than \$3,000.

The "work tools" which Tel Ra is using include Anken Many-Copy paper and Anklor F film; a Fotowriter; an Ampto "14" Photocopier, and an Anken "12" Processor. The technique was worked out by Lou Cesarone, head of Tel Ra's reproduction services, and Poly-Graphic Duplicator Corp., Philadelphia. The title cards are used for screen credits, superimposed scores, sequence bridges and other printed material which is dubbed into the film. The cards are durable and can be filed for later re-use.

How does it work? The lettering to be used on a card first is set up and developed in a Fotowriter film type copying unit, utilizing Anklor F (Anken) film. Next, the developed strips of photo type (black letters on a clear film background) are attached by Scotch tape, properly spaced, on a piece of clear film, usually 8½ by 11 inches (see picture). The phototype pasteup then is placed in contact with a piece of

Mr. Cesarone composes title

Many-Copy paper so that a right-reading image will result. After being put through the exposing section of the Ampto photo-copier, the Many-Copy paper then is processed in the developing section.

"We achieve a remarkable blackness in the background and crisp whiteness in the lettering by putting the paper through the developing solution twice," Dan Wise, Tel Ra production manager, said. "This usually eliminates all pin holes or blemishes that might show up in the enlarged tv screen image."

Finally, the Many-Copy title card is run through a fixative. The sheet then is ready for use in stripping into the final film. For convenience, Tel Ra acquired an Anken "12" Processor for this operation.

Occasionally there is need for a black-on-white copy of a title card. To obtain this, the finished white-on-black Many-Copy title sheet is backed by an unexposed sheet; the light setting on the Ampto "14" exposing unit is stepped up, and the additional copies are exposed and processed in exactly the same manner as above.

You roll it...let ASC ride it!

RCA Vidicon Chain, with Automatic Sensitivity Control, Assures Uniform Picture Quality...Automatically

To show the "Film of the Day" at its very best, use the RCA Vidicon Camera Chain, Type TK-21C—now with Automatic Sensitivity Control. By electronically controlling sensitivity of the camera tube, the TK-21C automatically rides gain for you... assuring superior reproduction of films with little or no operator attention. The operating convenience and uniform picture quality will add new spark to your film programming... give better service to your clients.

This improved camera chain with Automatic Sensitivity Control senses variations in camera output level, and compensates for wide transitions in highlight density. Reaction time is rapid—less than $\frac{1}{2}$ second for a 10 to 1 change in highlight brightness. Even under the worst conditions, a transition from extremely dense to very

light film (100 to 1 change) can be accomplished in less than one second. Automatic Sensitivity Control is supplied as part of new RCA TK-21C Vidicon Film Chains. Previous TK-21 models can be converted.

An integral part of a matched line of RCA TV equipment, the vidicon film system has been established as the standard of the industry. Continued improvements, such as automatic sensitivity control, make RCA vidicon chains one of your best equipment buys. Remember when you buy RCA you get the most advanced equipment... plus the kind of service before and after the sale that only RCA with its broad background in broadcasting can provide.

3M, WARNER-LAMBERT DELAY MERGER

They're waiting for go-ahead from Justice Dept.

Minnesota Mining & Mfg. Co. and Warner Lambert Pharmaceutical Co. have applied the brakes to their proposed merger plans (BROADCASTING, Aug. 29) pending a green light from the Justice Dept.

The action came in a joint announcement that said the two firms had asked the government to look into possible antitrust implications "some time ago" and that the probe "may continue for some time." As a result, 3M and W-L reported, "The only wise course remaining open is to postpone completion of the proposed action until clearance has been obtained."

The move also was interpreted as reflecting a "wait and see" attitude in connection with the policies of new democratic administration.

Last Wednesday's statement signed by William L. McKnight, 3M board chairman, and Elmer H. Bobst, Warner Lambert chairman, hinted at this conjecture. "When the combination was first proposed [last Aug. 22] it was our

opinion based on the advice of our respective attorneys, that it could be effected within the framework of the antitrust laws," they stated. "However recognizing that the Dept. of Justice may have a different point of view and realizing that any action by the department subsequent to the actual joining of the two firms could result in lengthy litigation, we decided to ask the department for clearance before taking final action."

Under terms of the proposal, to which officials of both companies already had agreed 3M would expand from magnetic tape production, home recording systems and MBS network ownership into the proprietary field combining resources with those of a leading broadcast advertiser. The proposal has not been submitted to stockholders yet though their respective boards "passed on the combination in principle" it was reported.

The negotiations which came to light last summer called for an exchange of stock with some phases of 3M research to be applied to medicinal and pharmaceutical products. The two companies had combined sales of nearly \$700 million and earnings of about \$80 million in 1959. Warner Lambert is acknowledged to be a \$30 million advertiser with perhaps half in broadcast media.

EIA head reports set sales up 5% in 1960

L. Berkley Davis, president of Electronics Industries Assn., in a year-end statement reported a 5% increase in factory sales of consumer products, including radio and tv sets, over 1959. He predicted a similar rise for 1961.

Figures for the past year were \$2.1 billion compared with \$2 billion in 1959. He ventured consumer product sales would reach \$2.2 billion in 1961. Replacement component sales held steady at \$900 million.

The electronics industry will have established an all-time high of \$9.75 billion in factory sales by the end of 1960, the EIA president said. Pointing out that electronics was running contrary to the trend of decline in the national economy, he said, "We believe the business will advance another 6% [overall] during 1961 to a \$10.3 billion total."

Other trends spotted by Mr. Davis were:

- "Extremely tough competition"—"The day is disappearing when a bright young scientist or engineer with a new

idea can enter the electronics business in a major way."

- The prospect for consumer goods sales "substantially brightened if the FCC, as expected, soon establishes transmission standards for fm stereo radio broadcasting."

- "Most promising opportunities" in the development of non-entertainment electronic products (such as safety devices, home-improvement facilities) now on the verge of being mass-produced at mass-market prices.

Technical topics...

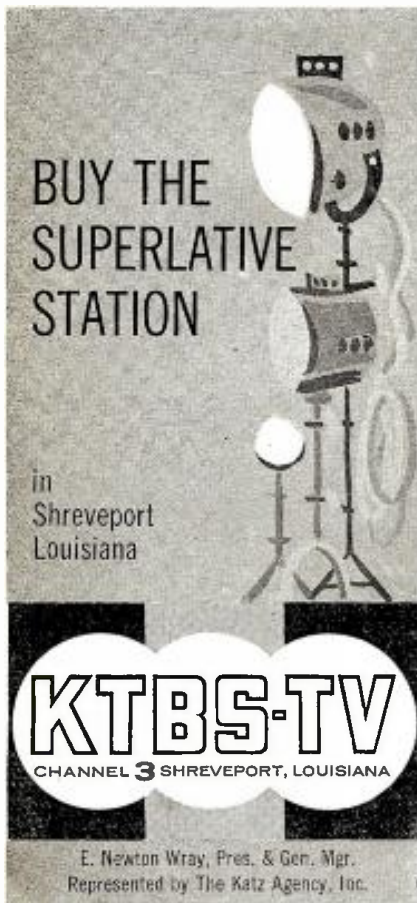

New models ■ RCA Victor introduced 12 new color tv receivers, each equipped with the exclusive "new vista" tuner and chassis refinements, at a West Coast distributors' meeting Dec. 14 in San Francisco. The new models range in suggested retail price from \$495 to \$775. Distributors also were shown 15 new black-and-white models with 23-inch picture tubes. Their suggested retail prices ranged from \$199.95 to \$359.95.

New office ■ Raytheon Co. has opened a new regional commercial office at 3110 Maple Drive N.E., Atlanta. Robert A. Chalmers, district manager for the Distributor Products Div., and John S. Barber, sales representative for the Communications and Data Processing Operations will make their headquarters there.

Sets up quarters ■ Morgan Engineering Co., which has offices in Lake Charles, La., Montgomery, Ala., Gulfport, Miss., and Houston, has now opened an office in Beaumont, Tex., at 2232 North St. Emanuel Morgan, senior partner and a consulting engineer since 1927, will be in personal charge of the branch.

New amplifier ■ Dynair Electronics Inc., San Diego, Calif., has announced development of a Video Line Driving Amplifier (Model LDA-1A), capable of sending a high resolution, 600-line television signal through 5,000 feet of RG 11/U coaxial cable—or longer distances when lower-loss cables are used. E. G. Gramman, company president, says the new amplifier will extend the usefulness of industrial and closed circuit television by extending the distance between cameras and monitors.

Step forward ■ RCA announced last week that the company has achieved a "major advance" in the distribution of educational signals to classrooms through the development of an RCA bi-directional distribution system. It makes possible the sending of tv signals in two directions simultaneously over

the same cable arrangement. RCA officials said it permits closed-circuit material to be introduced into the system from any classroom while enabling reception of off-the-air tv signals.

Movin' again ■ Foto-Video Electronics Inc., Cedar Grove, N. J., reports that ground-breaking ceremonies were held last week for a new plant containing 30,000 square feet of work area. The company produces a complete line of electronic equipment in the tv broadcast, closed circuit, and current-voltage related power supply field, including cameras, video monitors, and sync generators. The six-year-old company has outgrown three plant locations.

Versatile triode ■ The Machlett Laboratories Inc., Springdale, Conn., (a subsidiary of Raytheon Co.) has developed an extremely rugged triode designed as an oscillator, frequency multiplier or power amplifier in radio trans-

mitting service. The ML-7698 is a high-mu, planar triode with a frequency range up to 3,000 mc. Featuring low inter-electrode capacitance, high transconductance and high mechanical strength, the tube has a compact metal and ceramic coaxial construction making it well suited for operation in line-type circuits at lower frequencies as well as in cavity resonators at the higher frequencies, the company reports.

Adds space ■ Sylvania Electric Products Inc., Woburn, Mass., has announced plans for a 17,000-sq. ft. addition to its semiconductor plant at Hillsboro, N. H. According to William J. Pietenpol, vice president and general manager of Semiconductor Div., the addition is needed "to accommodate advanced manufacturing and testing equipment to meet the growing demand for crystal diodes and transistors."

SMPTE tape standards ■ The Society of Motion Picture & Television Engi-

neers reports it now has available four proposed American standards on video tape recording. The first specifies dimensions for the width, thickness and curvature of 2-inch video magnetic tape; the second pertains to the audio records for the tape recordings; the third specifies the locations and dimensions of the video, audio and control records on the tape and the fourth specifies the rate of travel of tape in video tape recorders. Copies of the four proposed standards are available from the SMPTE headquarters, 55 W. 42nd St., New York 36, N. Y.

Music in the air ■ Johnson Electronics Inc., Casselberry, Fla., has developed a fully transistorized tuner for the background-music industry. The firm also manufactures transistorized amplifiers for this specialized market. The tuner, Model JE 6 MA I, is a universal type for use with other Johnson tuners, telephone line input or tube type tuners. Price: \$49.95.

INTERNATIONAL

CALDWELL'S SUCCESSFUL BID

Gets okay for second Canadian television network which plans to start operations next September

Spencer W. Caldwell, who unsuccessfully tried for a television station license at Toronto last March, will head the first independently-owned Canadian broadcasting network. The Board of Broadcast Governors at its Ottawa meeting on Dec. 9 approved formation of the privately-financed television network.

Mr. Caldwell and prominent Toronto businessmen will form Canadian Television Network Ltd., and will be ready to start feeding programs to the trans-continental network by September 1961.

Conditions of the award include supplying a minimum of 10 hours programming each week and having a minimum of six affiliated stations, not

affiliated with the Canadian Broadcasting Corp. Affiliated stations will be the recently-licensed second stations in Vancouver, Edmonton, Calgary, Winnipeg, Toronto, Montreal, Ottawa and Halifax.

Mr. Caldwell was the only applicant for a network franchise. He has been in radio since 1927, when he was 18 years old, and sold and serviced radio receivers in department stores at Winnipeg. He has been with Canadian Marconi Co., the station management and representative firm of Taylor-Pearson-Carson, commercial manager of CKWX Vancouver, manager of CJBC Toronto, and program division manager of All-Canada Radio Facilities. He formed his own firm about a decade ago, han-

dling broadcast studio equipment, distributing films for CBS and others, and serving as Canadian distributor of TelePrompTer, and as advertising agency for Canadian Westinghouse.

Other Actions ■ The Board of Broadcast Governors sanctioned the sale of CJAD Montreal, to Standard Radio Ltd., owners of CFRB Toronto; sale of CJNR Blind River, Ont., from Thomas Nash to Gino Marcon; sale of CJET Smiths Falls, Ont., from Hugh Gibson to R. W. Pollie; and sale of CJSS-AM-FM-TV Cornwall, Ont., from Cornwall Broadcasting Ltd., to a syndicate of Canadian Marconi Ltd., Montreal; Bushnell Broadcasting Associates Ltd., Ottawa, Ont.; Granada Tv Network Ltd., London, England; and Beaver Film Productions, Toronto. BBG also sanctioned the sale of CHFI-FM Toronto from E. J. Pigott to Aldred Rogers Ltd., Toronto, minority shareholders in CFTO-TV Toronto.

The BBG recommended granting a new class of temporary tv station licenses to unmanned very low power satellites to transmit signals from United States stations into areas which are not now served by Canadian tv stations. First such licenses go to Horace M. Card on ch. 4 at Saddle Mountain, B.C., to rebroadcast programs of KXLY-TV Spokane, Wash.; Mount Sentinel Television Co-Operative on ch. 5 at Mount Sentinel, B.C., to rebroadcast KXLY-TV Spokane, Wash.; and Sioux Lookout Chamber of Commerce, for two satellites to rebroadcast at Sioux Lookout, Ont., programs on ch. 6 of WDSM-TV Superior, Wis., and on ch. 3 of KDAL-TV Duluth, Minn. These licenses will be withdrawn when a Canadian video signal

Al d'Eon named sales representative of Trans-Ocean Radio & Television Representatives Ltd., Toronto.

Ken Page, general sales manager of S. W. Caldwell Ltd., Toronto, to vp of sales for film distributor and producing company.

The 'sotto voce' noise for silent records RADIO SPOTS AVAILABLE FOR 'SILENT RECORD WEEK'

With an appropriate lack of fanfare, the makers of Hush Silent Records have announced plans to assist radio stations observe the U. of Detroit International Silent Record Week—which comprises the first seven days after New Year's Eve.

As devoted non-listeners of musical records well know, silent records materialized out of the yearning of two U. of Detroit students whose attempts to study in the campus student union building two years ago were frustrated by a blasting juke box.

Hush Label was organized, and silent records were pressed and installed on the campus juke box. The attention the gag received, in screaming headlines in this country and abroad, while somewhat raucous for the tender ears of Hush Label personnel, was nonetheless gratifying. Silence, it seemed, had its adherents.

Hush Label would have been content to let the upcoming International Silent Record Week come and go in absolute silence but for a letter it received from the Bureau of Advertising of the Ameri-

can Newspaper Publishers Assn. Inc. It wanted to tip newspaper advertising managers on how to promote tie-in advertisements for Hush with their clients for silent record week.

According to Bill Rabe, who serves as press representative for Hush Label when he isn't busy as U. of D.'s public relations man, the "Week" is highlighted by nothing being done. However, Hush has prepared a thick sales promotion kit for the "Week" (its subtitle, "A 'Natural' for Mother's Day," indicates its tone), along with spot announcements for radio use.

The spots—10 seconds, 30 seconds and one minute—indicate that when Hush's mouth isn't shut, its tongue is invariably in its cheek. The minute spot, which closes with 10 seconds of eloquent silence, lists Hush's proposed records: Significant pauses from great political speeches of the past, candidates not facing issues, the best silences of Calvin Coolidge, and (its favorite Christmas special), Silent Night.

Broadcasters may obtain spot announcements, plus the brochure on how

A Madison Ave. Christmas in Montana

Gifts for about 400 children of the St. Labre Mission, Ashland, Mont., are being checked by the house committee of Kudner Adv., New York (above), for shipment this Christmas to the youngsters. Each year Kudner employes and their friends either make clothing or

donate money for the purchase of Christmas gifts for children in a needy school, orphanage or other institution. This year Kudner Adv. selected the St. Labre Mission for Cheyenne Indians, which has more than 300 children in school and about 100 pre-school children.

WTVJ(TV) seeks toys for Cuban refugees

WTVJ (TV) Miami this week climaxes a month-long round-the-clock campaign to make Christmas a joyous one for the 10,000 Cuban refugee children in the area. "Toys for Cuban Refugee Children," brainchild of Manolo Reyes and Mike Alonso who appear on WTVJ's daily Spanish language news program, *News en Espanol*, already has brought in nearly 3,000 toys.

The campaign is being backed by all of the station's facilities using tie-ins with all of the area's major department stores and chains which are acting as collecting points.

A toy for each child is the hope of the station and WTVJ officials feel they will succeed.

UCLA band salutes ABC and football sponsors

A new twist was added to a familiar activity Dec. 3, during the final game of the U. of California at Los Angeles 1960 football season, when the UCLA band made between-the-halves salutes to ABC-TV (network carrying the play-by-play telecast of the UCLA-Duke game as part of the NCAA season) and to the tv sponsors—L & M, Humble Oil and Gillette. Marching smartly, the UCLA bandsmen spelled out the organizations' initials while playing their theme songs using ABC's radio theme as ABC-TV lacks one).

The stunt began when a band alumnus asked Joe Santley, public relations representative of Liggett & Myers on the Pacific Coast, how the band could get a plug on the nationwide telecast that might help it raise funds for a trip abroad next summer. Mr. Santley dreamed up the salute-to-sponsors plan, took it to Cliff Dektar of the ABC-TV Hollywood publicity department (for

clearance with the network officials) and they worked out the details with Bill Bennington, director of the football broadcast, Dr. Clarence Sawhill, director of the band, and Kelly James, assistant band manager.

ABC was easy. So were L & M and H H Oil (Humble's symbol). But Gillette proved a stickler until Mr. Dektar came up with a marching razor which opened and closed to the strains of "Look Sharp, Be Sharp."

So, on Dec. 3, the UCLA band got its plug coast-to-coast; the network and advertisers got their salutes; and the audience—at home and in the stands—got an unprogrammed extra.

A colorful press kit

KPIX (TV) San Francisco has something bright and cheerful this holiday season for the tired old eyes of television columnists. It's an "ad release" series, in which advertising techniques are used for publicity purposes.

Highlight of the series is a colorful press kit, whose cover features Santa Claus and his reindeer in an abstract design, with "KPIX 5 CBS Holiday Programs" silk-screened onto gold-paper. The 40 holiday releases contained in the kit are themselves adorned with a colorful masthead.

Frank Murakimi of the KPIX art department was responsible for silk-screening the covers as well as designing the masthead on the news releases.

Drumbeats...

Toy ambassador - Fred Scott, WNEW-TV New York personality, was in South America last week as Ideal Toy Co.'s ambassador of goodwill to the underprivileged children of Panama, Ecuador and Peru, where he handed out hundreds of toys donated by the toy manufacturer. Mr. Scott was joined in the Santa Claus mission by Panagra Airways, which flew him to the various airports. He is the third WNEW-TV personality to be named by Ideal Toy for its annual toy airlift to South American cities. Last year's representative

The 'risks' in charity promotion

For the last six months, disc jockeys of WKY Oklahoma City, Oklahoma, have been playing donkey basketball, engaging in sack races with shapely models and competing on the basketball court with girls' teams.

The purpose of these carryings-on is to benefit charity. So far, the YMCA World Service Organization has been enriched \$400; the Oklahoma Medical Research, Red Cross and Mental Health organizations, a

total of \$350; and the Noble High School senior class, \$1,300.

While the charity promotions sound like fun, they are not without their risks to pride (the Oklahoma Publishing Co. All Stars beat the disc jockey donkey basketball team 6-4), male vanity (the Noble Girls basketball team ran the WKY Record Ramblers off the court, defeating them 38-24, before 1,300 fans) and even health (Don Wallace of the Ramblers suffered broken foot).

While the East shivered and shoveled...

This scene might have been viewed anywhere along the eastern seaboard last week, socked in as it was with up to 20 inches of snow. But the actual locale was a Montgomery Ward parking lot in sun-drenched Bakersfield, Calif. A commercial ice company produced the "snow"—eight inches of it—after KERO-TV

Bakersfield conceived the "Snow Party" for Montgomery Ward's sponsorship. With a helicopter-borne Santa Claus as the featured guest, the party attracted some 5,000 children and parents, and was presented to viewers throughout the southern San Joaquin Valley by remote telecast.

was Sonny Fox, and Sandy Becker served in 1958.

Walking on money ■ WAOK Atlanta has launched a successful promotion that has its audience convinced it is walking on money. Using shoe serial numbers, the station read sequence of three figures every half hour until someone brought in the winning shoe and claimed the money jackpot. The first three jackpots were won within three hours at which time WAOK increased the figure from three to four (described as a 10,000-1 shot). That jackpot was claimed by noon. The promotion brought so much response that the station has continued it—but has added a couple more figures, of course.

Santa postmark ■ WFBM Indianapolis is offering its listeners a Santa Claus postmark for those who mail their

Christmas cards at the station's mailbox. WFBM ships the cards twice weekly to Santa Claus, Ind., where they are postmarked and sent to their destinations.

From tv to books ■ J. B. Lippincott Co., N. Y., has signed authors John Pfeiffer and John Ely Burchard to write books based on two recent CBS News and Public Affairs programs which have been seen in CBS-TV's *Tomorrow* series. Both set for publication in 1961, Mr. Pfeiffer's book will be based on "The Thinking Machine," a program about the TX-O digital computer; while Mr. Burchard's book will be based on "Big City—1980," a program that cited the cities of Brasilia and Philadelphia as examples of how large population centers are planning for future growth.

Hail to the queen ■ WOOD-TV Grand Rapids, Mich., went all out to cover the homecoming parade of Miss America, nee Miss Michigan, in Montague, Mich., some 50 miles from Grand Rapids. The parade was covered live by remote and WOOD-TV reports that is the greatest distance it has ever attempted a remote. An 80-foot tower in Montague, a 90-foot tower in Twin Lakes and a 40-foot tower in Conklin were required to send the microwave to the WOOD-TV transmitter. Oldsmobile, Pepsi Cola and Peter Eckrich & Son Meat Co. were sponsors of the telecast.

Mr. Morris, sole owner, is vice president of Tri-Cities Bcstg. Co., licensee of KWSH Wewoka, and Eastern Oklahoma Tv Co., licensee of KTEN (TV) both Ada, Oklahoma. He is president of KADA Bcstg. Inc., licensee of KADA Ada, Okla., and has interest in all three stations. Ann. Dec. 14.

WKYO Sheridan, Wyo.—Seeks involuntary transfer of control of Big Horn Bcstg. Co. from James W. Carroll, deceased, 50%, to Rosalie E. Carroll, executrix of estate of James W. Carroll. Interest held by Donald E. Tannehill, 50%, remains same. Ann. Dec. 9.

Hearing cases

FINAL DECISIONS

■ By memorandum opinion and order, commission denied petition by Guinan Realty Co. for reconsideration and rehearing of April 8 decision which granted application of Louis Adelman for new am station to operate on 1300 kc, 1 kw, DA, D, in Hazleton, Pa., and which denied application of Guinan for like facilities in Mt. Carmel, Pa. Chrm. Ford and Comr. Cross dissented, former with statement; Comr. King not participating. Ann. Dec. 7.

■ Granted renewal of licenses of King Bcstg. Co., KING-AM-FM-TV and Queen City Bcstg. Co., KIRO-AM-FM-TV all Seattle, Wash. Grants were made upon assurance given commission that the Pacific National Bank of Seattle will dispose of its interest in Queen City Bcstg. Co., licensees to advise commission of such disposition within 90 days. Comrs. Lee, Craven and King dissented to condition. Ann. Dec. 8.

■ By order, commission made effective immediately Aug. 15 initial decision and (1) dismissed without prejudice application of Sanford L. Hirschberg and Gerald R. McGuire for new am station to operate on 1300 kc, 1 kw, D, in Cohoes-Watervliet, N. Y., and (2) granted application of Fairview Bcstrs. for new station on same frequency with 5 kw, D, DA, in Rensselaer, N. Y. Comr. Bartley abstained from voting. Ann. Dec. 14.

■ By order, commission made effective immediately Oct. 31 initial decision and granted application of Ionia Bcstg. Co. to change operation of WION Ionia, Mich., on 1430 kc, D, from 500 w non-DA to 5 kw DA. Comr. King dissented and issued statement. Ann. Dec. 14.

■ By order, commission made effective immediately Oct. 31 initial decision and granted application of Radio Station WFCC Inc., to increase power of WFCC Clinton, S. C., from 500 w to 1 kw, continued operation on 1410 kc, D, using ant. site now licensed. Comr. Bartley abstained from voting; Comr. King dissented with statement. Ann. Dec. 14.

■ By order, commission made effective immediately Oct. 27 initial decision and (1) granted application of Morton Bcstg. Co. for

NORTH WALES • PENNSYLVANIA

100 (FOR THE RECORD)

new am station to operate on 1280 kc, 500 w, D, in Morton, Tex., and (2) denied application of Clarence E. Wilson for new station on same frequency with 1 kw, D, in Hobbs, N. M. Comr. Bartley and King dissented, latter with statement. Ann. Dec. 14.

■ By memorandum opinion and order, commission denied petition by Broadcasters Inc., for rehearing and reconsideration of July 27 decision which granted application of Tri-County Bcstg. Corp. for new am station to operate on 1590 kc, 500 w, DA, D, in Plainfield, N. J., and which denied applications of Broadcasters Inc., for same facilities in South Plainfield, N. J., and Eastern Bcstg. Co., to increase daytime power of WDRF Chester, Pa., from 1 kw to 5 kw, continued operation on 1590 kc, 1 kw-N, DA-N. Chrm. Ford, Comr. Bartley and King not participating. Ann. Dec. 14.

■ By order, commission made effective immediately Nov. 1 initial decision and granted application of Babylon-Bay Shore Bcstg. Corp. to increase power of WBAB Babylon, N. Y., from 500 w to 1 kw, continued operation on 1440 kc, D. Comr. King dissented with statement. Ann. Dec. 14.

■ By order, commission cancelled Dec. 15 oral argument and made effective July 6 initial decision and granted application of Coast Ventura Co. to change trans. site of KVEN-FM Ventura, Calif., to 8 miles northwest of Ventura, increase ERP from 12 kw to 38.6 kw, and ant. height from minus 180 ft. to 1,285 ft., continued operation on 100.7 mc. Ann. Dec. 14.

■ Following fm stations were granted SCA to engage in multiplex operations: KFMP Port Arthur, Tex.; WKLS Marietta, Ga.; WBON New Berlin, Wis.; WMEV-FM Marlton, Va.; WDUZ-FM Green Bay, Wis., and WMER Celina, Ohio. Ann. Dec. 14.

■ By memorandum opinion and order, commission dismissed protest and petition for reconsideration by Gem State Bcstg. Corp. (KGEM) Boise, Idaho, directed against Oct. 12 grant of assignment of cp of KEST Boise, from Carl L. and Norma W. Hansen, d/b as Boise Bcstg. Associates, to John M. Bryan and Reid W. Dennis, d/b as KEST Bcstg. Associates. Ann. Dec. 14.

■ By report and order, commission finalized rulemaking in docket 13756 and amended sec. 3.28(c)(3) of broadcast rules to exempt existing class IV am local channel stations applying for increase in power above 250 w from 10 percent limitation on interference to their proposed normally protected primary service areas; also, in case of applications for new class IV stations requesting power in excess of 250 w, 10 percent criterion shall not apply to that area which is located outside of equivalent 250 w 0.5 mv/m contour of proposed operation. While proposed rulemaking did not contemplate extending exemption to any proposals for new class IV stations, commission deems it desirable that all class IV proposals be considered by same criterion for interference received, whether they are for new stations or for changes in existing stations. Amendment will become effective January 23, 1961. Ann. Dec. 14.

INITIAL DECISION

■ Hearing Examiner H. Gifford Irion issued supplemental initial decision looking toward affirming commission's Aug. 6, 1957 decision which granted application of Radio Associates Inc., for new tv station (WVMI-TV) to operate on ch. 13 in Biloxi, Miss., and which denied competing application of WLOX Bcstg. Co. This is remand case. Ann. Dec. 8.

OTHER ACTIONS

■ By opinion and order, commission granted renewal of licenses for about 15 months — to March 1, 1962 — to United Bcstg. Co. of Virginia (WANT) Richmond, Va., United Bcstg. Co., (WFAN-FM), Washington, D. C., Montgomery County Bcstg. Co., (WINK) Rockville, Md., United Bcstg. Co. of Eastern Maryland Inc. (WSID) Baltimore, Md., and United Tv Co. of New Hampshire (WMUR-TV) Manchester, N. H. These stations are wholly owned by Richard Eaton, except WANT and WYOU, in which he has a 98% and 97% interest, respectively. This procedure will permit Commission to review operations as they exist one year hence, by which time licensee will have had sufficient time to demonstrate results of his proposed personal supervision and controls over his stations. These are first short-term renewals granted under Commission revised rules. Comr. Hyde, Craven and King dissented, with statements; favored regular three-year grants.

■ By letter, denied petitions by Inter-Cities Bcstg. Co., applicant for new am station to operate on 1220 kc, 1 kw, DA, D, in Livonia, Mich., to require Peoples Bcstg. Corp. (WGAR) Cleveland, Ohio, to take certain corrective actions or, in alternative,

for modification or revocation of WGAR license, adjust its ant. array to original design or file application to make changes in station. Petitions result from differences between Inter-Cities and Peoples concerning mutual interference. It is anticipated that modified license will be issued WGAR shortly reflecting new operating parameters and monitoring point values based on measurement data contained in its 1960 proof of performance. Ann. Dec. 8.

■ Commission on Dec. 5 granted request of Westinghouse Bcstg. Co., and specified Jan. 16, 1961 for filing comments in reply to original comments filed in matter of inquiry into amendment of part 3 of rules and technical standards to permit standard broadcast stations to operate with full carrier and single sideband. Action Dec. 8.

■ By order, commission granted motion by Suburban Bcstg. Co., and postponed from Dec. 15 to date to be subsequently determined in proceeding on its application to increase power of WVIP Mount Kisco, N. Y., from 1 kw to 5 kw, continued daytime operation on 1310 kc. Chrm. Ford and Comr. Hyde dissented. Ann. Dec. 13.

■ By order, commission granted petition by Broadcast Bureau and accepted exceptions filed late in proceeding on application of WPGC Inc., for mod. of license of WPGC Morningside, Md. Ann. Dec. 14.

■ By memorandum opinion and order, commission (1) denied motion by Connecticut Committee Against Pay TV, et al., to correct record, or, in alternative, to strike portion of page 508 of transcript regarding questioning posed by Chrm. Ford to Charles H. Tower, vice-president for television of National Association of Broadcasters, in proceeding on application of Hartford Phonevision Co. for authority to conduct trial subscription tv operation over WHCT Hartford, Conn.; (2) dismissed as moot motion by Connecticut Committee to set aside order closing record, Comr. Hyde not participating. Ann. Dec. 14.

■ By separate order in above proceeding, commission (1) denied request by Connecticut Committee Against Pay TV, et al., respondents, for oral argument (Comr. Hyde and King dissented, latter with statement); and (2) on own motion, afforded parties opportunity to file reply findings within 10 days from release of order (Comr. Bartley dissented). Ann. Dec. 14.

■ By memorandum opinion and order, commission denied petition by KEED Inc., for stay of grant of cp to Liberty Tv Inc., for new tv station to operate on ch. 9 in Eugene, Ore., pending commission action on KEED petition for reconsideration of July 27 decision which granted Liberty application and denied competing application of KEED. Chrm. Ford and Comr. King not participating. Ann. Dec. 14.

■ By order, commission stayed effective date of Oct. 28 initial decision which looked toward granting application of Tri-State Bcstg. Co. to increase power of WGTA Summerville, Ga., from 1 kw to 5 kw, continued operation on 950 kc, D; engineering condition. Pending further review by commission. Ann. Dec. 14.

■ By order, commission granted petition by M. M. Lawrence and Mrs. Ruel O. Thomas, d/b as Lake Cumberland Bcstg. Co. and affirmed its qualifications as applicant for new am station in Jamestown, Ky., which is in consolidated hearing in dockets 13222, et al. (original partners were Lawrence and Mr. Thomas, deceased). Ann. Dec. 14.

■ Commission directed Atlanta OK Bcstg. Co., (WAOK) Atlanta, Ga., and WRMA Bcstg. Co., (WRMA) Montgomery, Ala., to show cause why they should not be ordered to cease and desist from violating sec. 317 of Communications Act by accepting monies or things of value for broadcasting phonograph records or other program material without appropriate announcement, and to appear at hearing to be held in Washington at time to be designated later. Written statements and affidavit acknowledge payments received by WAOK and response to commission's inquiry of Dec. 2, 1959 on behalf of WRMA was substantially similar. Stations are under common ownership. Chrm. Ford concurred except that he favored including revocation order instead of cease and desist order. Ann. Dec. 14.

■ Continued Dec. 21 hearing to date to be determined at prehearing conference to be held on Dec. 21 in proceeding on application of Maine Radio and Tv Co. (WCSH-TV) Portland, Maine Action Dec. 6.

■ Pursuant to provisions of chief hearing examiner's Dec. 2 order and at suggestion of petitioner, W. R. Frier (WBHF) Cartersville, Ga., that 60 days should be allowed to afford commission opportunity to act upon his petition for reconsideration and grant without hearing, scheduled hearing for Feb. 3, 1961 in proceeding on Frier's am application. Action Dec. 6.

By Hearing Examiner Millard F. French

■ Granted petition by Bay Area Telecasting Corp. for leave to amend its application for new tv station to operate on ch. 10 in Largo, Fla., to substitute estate of Louis Fried as stockholder in place of Louis Fried and to reflect legal qualifications of estate and all parties thereto; reopened record, accepted amendment and closed record in Largo, Fla., tv ch. 10 proceeding. Action Dec. 6.

■ On own motion, scheduled further prehearing conference for Jan. 12, 1961 in proceeding on am applications of Southeastern Bcstg. System Inc. (WMJM) Cordele and Washington Bcstg. Co. (WSNT) Sandersville, both Georgia. Action Dec. 7.

By Commissioner Rosel H. Hyde

■ Granted petition by Broadcast Bureau and extended time to Dec. 16 to respond to petition by First Presbyterian Church of Seattle (KTW) Seattle, Wash., to dismiss application of Washington State University for mod. of license of KWSC Pullman, Wash., which is in consolidated hearing with renewal of license applications of KWSC and KTW. Action Dec. 7.

By Hearing Examiner H. Gifford Irion

■ Granted petition by Des Plaines-Arlington Bcstg. Co., Des Plaines, Ill., and extended from Dec. 7 to Dec. 12 time to file reply findings in proceeding on its am application, et al. Action Dec. 7.

■ Dismissed as moot petition by Northside Bcstg. Co., Jeffersonville, Ind. for continuance of hearing and granted petition for leave to make engineering changes to its am application. Action Dec. 7.

■ Upon request by G. Stuart Nixon, San Jose, Calif., continued second prehearing conference from Dec. 16 to Jan. 9, 1961, and scheduled Jan. 17, 1961 for commencement of hearing in proceeding on Nixon's fm application, et al. Action Dec. 9.

By Hearing Examiner David I. Kraushaar

■ Dismissed as moot comments on petition for leave to amend application filed by Town Radio Inc., Shippensburg, Pa., in proceeding on its am application and that of Frederick County Bcstrs., Winchester, Va. Action Dec. 7.

By Hearing Examiner Jay A. Kyle

■ Due to illness of counsel for trustee (WTVW) cancelled Dec. 7 hearing, and scheduled Dec. 9 for resumption of hearing in matter of order directing Douglas H. McDonald, trustee, permittee of WTVW (TV), ch. 7, Evansville, Ind., to show cause why authorization for WTVW should not be modified to specify operation on ch. 31 in lieu of ch. 7. Action Dec. 7.

By Hearing Examiner Herbert Sharfman

■ Granted petition by Civic Bcstg. Corp. (WOLF) Syracuse, N. Y., for leave to make engineering amendment to its am application in dockets 13010 et al. Action Dec. 7.

By Hearing Examiner Elizabeth C. Smith

TELEVISION

Help Wanted—Management

GERENTE GENERAL

Expanding television station in major South American market seeks dynamic, experienced, mature General Manager.

Fluency in Spanish essential. If you can qualify for this exciting career opportunity, write full resume and salary requirements.

Box 360D, BROADCASTING

Sales

WE'LL INVEST IN A TV SALES EXECUTIVE

This ad isn't directed to the run-of-the-mill salesman. The man we want may not be "seasoned," but he's an aggressive self-starter who will develop into tomorrow's sales executive. He has had TV sales experience; is imaginative, industrious, personable; and is fully equipped to work effectively with agencies, local and regional accounts.

This isn't a ready made job. Given the right man, we'll invest in him—underwrite his activities—and groom him for an important job with one of the country's most respected multiple-property operations.

If you fit the picture, you'll live in a pleasant, medium-sized, midwestern community. You'll start at up to \$7500 depending on your background, and you'll move ahead rapidly with a wide-awake team at a station that's head and shoulders above competition. If you want to build a solid future for your family and yourself, write us a complete resume of your background and experience. An interview can be arranged.

Box 301D, BROADCASTING

FOR SALE

BROADCASTING SCHOOL

In middle Atlantic major market. Doing tremendous business. Great opportunity as owner has other interests. Present management available. Asking \$110,000 with \$50,000 down. Principle.

What is the answer to a mother's prayer?

WHAT mother never looks at her little boy and sees a man . . . never listens to her baby daughter and hears a woman's voice? What mother has never watched her children playing and silently prayed that she will be equal to the needs and problems of their youth and growing up?

She constantly strives to make her prayer come true. She sacrifices for it. She dedicates herself to it. She tries to guide without pushing . . . educate without forcing . . . shelter her children without hiding them from reality . . . love them without smothering. She does her best to set an example from which each child can learn to lead and enjoy a fruitful and happy life.

If she can do all this . . . then a mother's prayer is answered.

A Christmas Message from The Sperry and Hutchinson Company

Distributors of  Green Stamps since 1896

OUR RESPECTS to William Ewart Matthews, vp, Young & Rubicam He got away from the Texas mule, but never the nickname

William E. Matthews, vice president and director of media relations and planning at Young & Rubicam, may be easily pictured by those who know of him by name only.

The trick is just to recall to mind one's favorite professor of college years.

But only the uninitiated in the agency business ever refer to Mr. Matthews by any other name than just plain "Pete" Matthews. None of his friends, business associates or even family recognizes any other. He was dubbed Pete in college and the name stuck. He bemoans its origination as "the sort of thing only friends would do" ("the worst experience I ever had was with an old mule named Pete"), but even his mother calls him by that name and a nephew already has been named Pete in his honor.

But for this former English professor-turned-advertising-man, this everyday nickname seems something out of character.

Moreover, on Madison Avenue Mr. Matthews' appearance is the antithesis of that usually associated with admen. Even his suits are conservative and they're worn jacket open with Phi Beta Kappa key on chain draped across vest.

Mr. Matthews is one of the most erudite and professorial executives in advertising. He's the son of a Texas Baptist clergyman, a descendant of a long line of Matthews who traveled in 1835 (10 years before Texas annexed the Union, as he'll tell you) to the great Lone Star State.

Memphis to Natchitoches ■ The early Matthews were of Virginia stock who migrated to western Tennessee near Memphis (in cotton-growing Haywood County). As the story goes, they then collected livestock, equipment and other belongings, put them on flat boats and floated them down the Mississippi to the mouth of the Red River; thence to Alexandria, La.; then by wagon through Natchitoches Parish and into Texas where the clan cultivated cotton. Pete Matthews was born in Waco.

This is about as far from Young & Rubicam and Madison Avenue as one can get. But William E. of the Matthews' offspring had a sense of history, a command of the English language and a scholarship that landed him eventually in the far north at Cambridge, Mass. From there, it was only a Texas-style leap to Madison Avenue.

As Madison Avenue's media "professor," Mr. Matthews delivers his formal "lectures" on the luncheon circuit whenever industry people manage to snare him.

Facets & facts ■ Whether in private or public, however, Mr. Matthews can

dissect painstakingly each facet of such intricate broadcast subjects as triple-spotting, program clipping, magazine concept, network clearance or minute breaks in the manner he once employed in analyzing the third act of "Macbeth" or in evaluating American literature of the 19th Century.

Mr. Matthews has been with the same agency for the entire 16 years of his advertising career.

He was graduated from Baylor U. with a bachelor of arts degree (majored in English), moved on along the academic route with a U. of Missouri fellowship and a master of arts in English degree and a job teaching writing. In 1923 he was at Yale U. as an assistant instructor. He taught for three years at the U. of Delaware starting in 1925 and then was at Wesleyan U. until 1935. For the next seven years he was in Cambridge, editing business publications for the Harvard Press. The next two years he spent in New York connected with the war effort, and in 1944 joined Young & Rubicam as a media buyer.

How (or why) the switch from educational work to an association with advertising? Aside from being asked to join the agency by Raymond Rubicam, then chairman of the board (now retired), and Tony Geoghegan, director of media (now chairman of plans board and executive vice president), Mr. Matthews places the change in logical perspective: The English language is a means of communication, and advertising is a key communicating medium.

Mr. Matthews finds Y & R's media strength lies in a balanced billing and its experimental use of media (in radio, for example, the agency pioneered the 2½ and 3-minute announcement and

the "paired" or "framed" commercial—more than one spot within a given program period with no other commercial intervening).

Minute man ■ Mr. Matthews is in the forefront as an exponent of a movement to increase the prime-time period between network tv programs from 30 seconds (10-second ID and a 20-second spot) to a full minute.

His tv philosophy is extensive. As a sampling, he urges respect for the medium—"using it in advertising at its natural best." A danger, he warns, is to use television more as a "mass plug or reminder" than for its natural effectiveness in explaining and demonstrating products.

As a way to enhance tv's effectiveness, Mr. Matthews suggests agencies work "with the medium rather than exploit it by engaging in excessive spotting, bartering and under-the-table rate deals."

Mr. Matthews in eight years moved up in successive media posts until in 1952 he became assistant to the director of media relations. In January 1959, he was selected to his present post. He was editor of Y & R's "Evaluation and Use of Advertising Media," co-translator of "Space, Time and Architecture" by Siegfried Giedion (architecture runs second to his interest in advertising) and author of numerous other works relating to advertising.

His architectural and design and painting (oils and sketches) avocations are represented on the wall of his office by a painting he did of the contemporary home he designed and owns in New Canaan, Conn. (see cut). He married the former Louise Mathews in 1928 when he was at Wesleyan. They have a daughter, Mrs. Joan McWherter, and a grandson, Stephen.

Y&R's Matthews
A mixture of art, architecture and advertising

Chairmanships

NOW that President-elect Kennedy has just about completed the appointment of his cabinet it should not be too long before he grapples with the task of converting the political complexions of the independent agencies from Republican to Democratic coloration. The agencies with which we are concerned are the Federal Communications Commission and the Federal Trade Commission.

There is reason to believe that the incoming President will approach the FCC somewhat sympathetically, because of his appreciation of the importance of communications. Greater concern, however, is evinced over the FTC, dealing as it does with advertising and marketing. This concern is evident because among Mr. Kennedy's strategists are economists who deprecate the value of advertising and would impose restrictions on it.

The fortunes of political war augur changes in the chairmanships of these two agencies. The spoils belong to the victors. The fact that FCC Chairman Fred Ford and FTC Chairman Earl Kintner have good records, without regard to party fealty, unfortunately does not alter the prospects.

At the FCC, Chairman Ford is reconciled to a change. He was an FCC member before he became chairman and he will revert to FCC membership even better equipped to vote his conscience and without the onerous time-consuming burdens of the chairmanship. Obviously he does not relish the loss of prestige associated with the relinquishment of the chairmanship, but there is nothing he can or will do about it.

At the FTC the situation is different. Chairman Kintner's term expired last September. The new President is free to nominate his successor or to renominate him. Mr. Kintner has been an aggressive chairman and a man with a plan which even his business adversaries have accepted. He understands advertising and he believes passionately in the free enterprise system. But he is a Republican.

Word has it that Mr. Kintner informally has been asked to stay on as an FTC member—something he is loath to do. But he would accept reappointment as chairman to allow him to implement his program with the same freedom given him by the incumbent administration. Realistically, this isn't likely to happen. If it did, it would be applauded by the businessmen responsible for our economy, Democrats and Republicans alike.

The chairman is the moving force of the independent agency. He sets the tone of its work and he takes the blame or the tribute.

These agencies, while bi-partisan, are not political. They are quasi-judicial and are ostensibly beyond the reach of political influence. Votes rarely are along party lines and when they are it's usually happenstance.

While the FCC had been under fire, we do not recall any recent instance of hanky-panky involving the FTC. Mr. Kintner needs a year or so to complete his program which has done much to stimulate honesty in advertising, initially through suasion and rule of reason. He hasn't hesitated to crack down when necessary.

Mr. Kintner ought to have the opportunity to finish his crusade before returning to law practice a year or so hence.

Journalistic maturity

THERE can no longer be any doubt that television has become a major journalistic force. Events of the past few weeks, capping an unparalleled performance during the election campaign, leave no room for questions.

The accuracy of that statement can be tested in several ways. One is performance. In its handling of the election campaign alone television justified its claim as a first-line

information medium. But forget politics. Entirely aside from that, the three tv networks in 1960 not only have presented more vital informational programming than ever before but also have organized program schedules that promise to double the volume in the year ahead. These statistics relate solely to information programming in prime evening hours; they do not count the many other hours in fringe periods, on Sundays and even in daytime periods, aimed at selective audiences.

Another test is in the executive direction being given to this kind of programming. All three networks have benefitted from top-flight leadership, and yet in one way or another all three have taken steps which they obviously expect to lead to further improvement.

NBC's news team has enjoyed increasing attention from Bob Kintner, an experienced newsman who has become sort of unofficial managing editor as well as official president of NBC. ABC, although the announcement hasn't made it official yet, is bringing in Jim Hagerty to operate a news and public affairs department that promises far more activity than was possible while ABC was busy hauling itself into competition in the entertainment area. CBS, as reported elsewhere in this issue, is making a major rearrangement which retains the present news structure but puts it under a committee of corporate and divisional heads, with Dick Salant as fulltime chairman, for policy, operational and scheduling decisions.

Another test of progress in information programming—a critical test, considering the costs involved—is advertiser acceptance. This support has been slow in coming, but it is gradually building up. The Gulf Oil deal with NBC, in which Gulf put up more than \$1 million for programs to be prepared and scheduled as news developments warrant, is the most dramatic recent example and in itself is a tribute to television's journalistic maturity. And the list continues to grow. There is sound reason to expect that Gulf and the Prudentials, Purexes, Timexes, Texacos, Longines, Norelcos, Schicks, Firestones, Philip Morrises, Bell & Howells, Mead Johnsons and others that have been or are now engaged in information program sponsorship will be joined by more and more as the sense of advertiser responsibility in this area expands.

No medium becomes a force overnight. Television itself, for all the speed with which it established itself, did not start out full-grown. Its journalistic contributions in the future undoubtedly will surpass those of the past, but it is off to a resounding start.
