Big Money in Television

TELEVISION news is coming in thick and fast, with every indication that the experimental services now being operated by a number of stations will be greatly extended in the near future.

That there is "big money" awaiting the perfection of picture service is indicated by the millions of dollars which have already come from the inventions of C. Francis Jenkins, as disclosed in a recent court hearing.

Commercial television within a year is predicted by David Sarnoff, president of Radio Corporation of America, whose statement has given rise to an impression in the radio industry that amateur development is forcing the big companies to speed up their plans that they may be ready to reap the profits which will accrue to the first perfected equipment.

Conservative estimates place the number of television experimenters and fans throughout the country at 25,000. They are doing much to aid in the development of picture transmission, those who are merely "looking on" doing their share by writing in to the stations, telling how the pictures are received and sometimes making suggestions of real value.

Unless some successful inventor is holding back, however, the television sets which first will be offered the public are going to be subject to as many disadvantages as were the crystal sets in the early days of broadcasting. The images will be small, detail will

be indefinite, the pictures will flicker and it will be necessary to stand directly in front of the projector to see them. All these disadvantages are admitted; all must be overcome before television can take the hold which broadcasting has acquired and be considered anything but a novelty.

That there is much money in television is definitely shown by a suit just concluded in the Supreme Court of the District of Columbia, brought by the Radio Service Corporation of America against C. Francis Jenkins, well known motion picture, radio and television inventor, to compel him to make an accounting for huge sums of money realized by the sale of his television patents.

The Radio Service Corporation claimed it held a contract with Jenkins for development and exploitation of his television inventions and that the money received by the inventor from their sale to others should properly go to the corporation.

The court held, however, that the written contract between Jenkins and the corporation had been allowed to expire and that the former was within his legal rights when he disposed of his patents, after which he had turned his rights over to a new company known as the Jenkins Television Corporation.

Testimony during the case developed that Jenkins has realized \$2,000,000 already, and the corporation has received approximately \$15,000,000 from these inventions.

PERSONAL PICKUPS

BY GYPSY

Mrs. T. T., Hollywood. Harold Spaulding (KFI) was born in Creston, Colorado, came to California with his parents at the age of two, attended numerous schools throughout the state and in due time enrolled at the University of California, bent on becoming an electrical engineer. Two years at college and then the war. Returning home he discovered he had lost all incentive to resume his course. Nothing seemed the same.

What was worse, nothing mattered. In a mental inventory one day he arrived at the conclusion that music, always close to his heart but never before pursued, might divert his thoughts, regain for him his former enthusiasm. He insists he could not carry a tune, that the gods had dealt him no gifts; all he knew was that he loved music. In 1925 he was initiated into radio. It has absorbed his every waking hour since. He needs never to be driven to practice. His only regret is the time wasted in the search for happiness.

Mrs. J. H. H., Glendale.—Polly Linden (KFRC) is the wife of Henry Linden, brother to Anthony and Caesar, prominent figures in the musical world. She is a former resident of Chicago, the daughter of an English father and French mother. Her early training in piano was side-stepped when she became interested in interior decorating and at one time she edited a publication in the east known as *Hearthstones*. Polly is an attractive brunette, 5 feet 3 inches in height, weighing 125 pounds, endowed with a luminous complexion, violet-blue eyes and symmetrical features. She is amiable and clever, enriched with an adaptability and indefatigable spirit that surmounts obstacles with no apparent effort.

Jean, San Francisco.—H. C. Connett (NBC) is not Yiddish. Chinese? No. Eurasian? No. He was born in the Hoosier State of American parents with a strain of French blood somewhere in the background. His addiction to McAllister Street and Oriental plays has confused others besides yourself. Now he is doing a Portuguese story.

Mrs. H. J. W., San Francisco.—Julia Hayes (KPO) is in real life Miss Lillian Franck, a native daughter of California, about twenty-five or twenty-six years old. She is 5 feet 10 inches tall, weighs 138 pounds, has lovely brown eyes, gently modeled features and dusky hair that has never been bobbed. She lives with her mother a-top one of San Francisco's hills in a charming chintz-hung apartment with story-book atmosphere where literary folk drop in for a cup o' tea. Lillian's strongest point is her loyalty to her friends. She abhors modern art, the iconoclast and shades of purple. Her favorite color is flame,

her flower, the camellia. She has had several years at the University of Nevada, took some special courses at "Cal," devotes much time to writing, has received checks from well known magazines for her short stories and her ambition is to own an English cottage set back in the trees where she may listen to the singing of a kettle on the crane, bedeck her table with a turkey-red cloth and lavish affection on a black, black cat that purrs very loudly.

Mrs. M. R., Los Angeles.—Billy Page (NBC) celebrated this 13th birthday on April 18. How he has grown since he first appeared in Memory Lane! He is 5 feet 3 inches tall now and weighs 105 pounds. Track at junior high is of especial interest to him at present and he spends much time at riding school. He might become a dashing West Pointer and then again he might dedicate himself to radio. He isn't quite sure. Meanwhile he collects bullets and gadgets for his armoury and reads all manner of war material. Drawing and dancing are fun, too. He specializes in pencil sketches of horses and golfers and as for dancing partners—you'd be amazed by dear—the lad has taste.

Lois, Oakland.—Hazel Warner returned to KFRC on the 19th of May. Sidney Dixon is now western representative for the Northwest Broadcasting System and is heard in occasional concerts over KJR, KGA and KEX. John and Ned are with KOIL.

Helen, San Francisco.—Harold Peary (NBC) really does smoke El Sidelos. Tom Mitchell demands the product of his sponsor wherever he goes. Harold Dana swears by S. & W. and Ted Maxwell tells me he has walked a mile for Associated gas.

Mrs. R. D., Seattle.—Al Schuss (KJR) is 5 feet 10½ inches tall, weighs 190 pounds, has hazel eyes and is copiously supplied with chestnut locks that of Nature's will, arrange themselves in orderly waves. His age is twenty-six, his birthplace New York City, his ancestry German. He studied law, turned to sports and then went radio. Still clings to sports, however, for in addition to his broadcasting he is assistant basketball coach at the University of Washington and head coach at O'Dea high school. Al (he doesn't like being called Albert) has an aversion to artichokes, plays the zither, rides a horse like a descendent of Ixion, prefers classical music to jazz and buys lilies-of-the-valley for his wife.

W. G. S., Paso Robles.—Rod Neal (KPO) hails from St. Joseph, Mo., celebrates his birthday on the 11th of April, is twenty-four years old and has not as yet stepped into the sea of matrimony. He began singing before he ceased to believe in Santa Claus or attended Sunday School regularly. The musical instruments he plays are bass violin, saxophone and ukelele. He prefers the classics, but derives much enjoyment from popular numbers, and while he greatly admires the famous soloists and goes to their concerts, he would rather listen to a good trio. Rod is 5 feet 10 inches tall, weighs 135 pounds, has brown eyes, dark hair and is of Scotch-Irish origin.

Suggests Station Coöperation

It is only natural that everyone's taste in music should not be the same. In my family we detest crooning and jazz, but we feel that such programs should be on the air for those who enjoy them.

What we would suggest is that the program directors on the different stations cooperate and see to it that they do not all have jazz programs or all classical programs at the same hour the same night. There are nights when we find jazz and nothing but jazz on every station, so we turn off the radio. On other nights we find so many programs to our liking that we have to decide between them, thus missing some good ones. If these were distributed through the week everyone would be able to get something to his taste each night.

But why should anyone complain at all? We get everything on the air for nothing.

Your little magazine is a gem, and we could not do without it.

Mrs. Gertrude B., San Francisco, May 22

It Had to Be You, Charles

As I wrote before, I am trying my luck again at getting something published. We all take it for granted that it is needless to say that BROADCAST WEEKLY is as perfect a little magazine that was ever given away. (It IS practically giving it away for the small sum we pay for it.)

First of all, I wish to compliment Gypsy and the interesting little department which is conducted by her. After all, it's the "little things in the radio artists' lives" that the fans delight in knowing, such as their favorite hobbies, sports and so on. Countless others, as well as myself, would most heartily welcome a large photograph of her at the nearest possible date.

But, to get to the point—in a recent edition of BROADCAST WEEKLY there was a page given over to pictures of the Happy-Go-Lucky artists. All very well, but just why wasn't Charlie Cartier among them? Without him that hour wouldn't be the same. I should think he would consider it an insult. I don't like to say such things, but I feel lots better now that that's out.

Oh, yes; how about giving us pictures of Ted Osborne, KHJ; Clarence Hayes, KGO,

and John Mayall or Mayo (I don't know which) coming from back east through KFRC? Will be eagerly looking forward to see these pictures within the covers of the most popular radio magazine to be had anywhere.

Jane D., Sacramento, May 18

Your Chances Are Good

Let me add my compliments and appreciation of your fine magazine, to the many others that are published in the Open Circuit. The different departments and articles are all interesting and well written. I like the way that you arrange the programs; but I'd like to see a list of all the stations on the Pacific Coast, giving call letters, kilocycles, meters, power and location, listed in the order of their wave length.

I certainly cannot see anything to complain about in our program fare on the Coast here. It is seldom that one cannot find what one wants, somewhere in range of one's set. As a rule it is very little trouble to turn the dial to another station, when one is dissatisfied with what is coming in. I have no favorite station—I like any station that presents high quality entertainment, with good artists IN PERSON, and tries to please those who are listening in. I appreciate the fact that the programs of the more important stations at least are of the type that one is willing to have heard in the home. I have very seldom heard any indecent or obscene language on the radio. I am very glad to be able to say that.

Now that's off my chest. I enjoyed seeing the pictures of the KFRC announcers. Now how about the KPO and NBC announcers? Then I'd like to see the Hank Simmons and Seth Parker groups. Any chance? Question Box is a valuable feature, one that can be very useful to your readers. Your Program Popularity Contest certainly should prove interesting. However, the fact that a certain program is the most popular at a given time does not mean that no others at that time are popular. At some times there are several programs—all equally good—that are on simultaneously.

That's about enough.

Harrison B., Berkeley, Calif., May 23

Where's the Hawaiian Music Gone?

One can always tune out undesirable programs, but we cannot always get our favorite music, at any time, for the reason that they don't have it.

How is it that Hawaiian music isn't given a break? KGO used to have some fine programs, namely the "Entertainers," KTAB had "Kane's Hawaiians," and KFI "Paul's Hawaiians." Now they've all vanished into thin air. 'Tis true some appear on the smaller stations, but we cannot always get them. What a hopeless case! As for Frank Watanabe and Amos 'n' Andy, I agree with Mrs. A. V. Why not change the time?

W. G. F., Paso Robles, Calif., May 19.

Be More Tolerant, says Vera M.

Many times I have felt like suggesting that your WEEKLY exclude from its pages the letters of those who criticize their fellow-subscribers for venturing to express their likes or dislikes. And the latest uncalculated onslaught finds me making the suggestion. Some time ago a young woman expressed a wish for more organ music. Immediately she was pounced upon by some half-dozen writers.

The whole thing is well analyzed by the radio editor of a great international daily, who said that you couldn't sell jazz to class, and vice versa, and that is what the radio stations are attempting to do. He makes reference to the policy followed by periodicals, who publish a certain class of advertisements, articles, etc., only, enabling the reader to buy the periodical suited to his taste.

A person's musical tastes are not altered by any amount of letter-writing; in fact, if any prejudice exists, it is apt to be intensified by such methods.

It seems to me a greater spirit of tolerance for one another's views would greatly improve the Open Circuit.

Miss Vera M., Healdsburg, Calif., May 24

Why Jazz Is Objectionable

I think that those people who, like C. R. C. of Santa Maria, argue the appeal of jazz because of its "red-blooded" rhythm, utterly fail to appreciate the objections of M. B. of Pasadena and thousands of others have to this form of so-called music.

Rhythm has been with us for countless ages; is in all forms of music from Rameau to Ravel, from Gluck to Tschaikowsky; and syncopation can hardly be called the exclusive property of "red-blooded" savages. It is not the jazz rhythm to which we object, but we do not like or enjoy the cacophony of squawks, wails and through-the-nose

sounds which form the bulk of this so-called music. We do not like the silly words which form the vocal portion of these offerings; we do not like the abominable voices which sing these silly phrases; and we do object to a so-called composer taking a phrase or melody which has been accepted as a classic or as good music for years, and giving it jazz treatment in lieu of ideas which his own brain should supply.

As for the argument that if we don't like it we can tune in somewhere else—there are many half hours when it is practically impossible for most of us to get anything but jazz. Thank heaven for KGO with its NBC features, KPO for many hours of good music, and KFI and KHJ in Los Angeles.

Ernest W. G., San Diego, Cal., May 24

Jazz—Like Two Cats Quarreling

I would like to get in a word in your valuable little magazine about jazz. To my mind it is a misnomer to call it music. Speaking of "red-blooded," I think all real "red-blooded" people like real music, which to my mind is exemplified only in classics. One correspondent claims that those who argue against jazz will keep time with their head, hands or feet, whenever jazz is played. Here is one who does not. I abhor the very mention of jazz. To me the soul-sickening wailing of jazz is like two cats quarreling on a back-alley fence.

NORMAN NIELSEN, the bad boy of the Happy Go Lucky Hour, who also has that devastatingly tender tenor voice, once sang sentimental songs for colored slides in the early moving picture shows.

NORMAN NIELSEN

He was born, raised, and schooled in the Quaker City, his father being an official in the Police Department.

Father and mother came West to California for a visit and decided to remain. A little later, Norman followed for a visit and he too decided to remain.

His first job out here was in the music publishing business, managing the Watterson Berlin & Snyder office in San Francisco. While promoting songs for his firm, he at the same time studied voice. After several years of that he went into comic opera, playing second lead in such productions as the "Chocolate Soldier," "Irene," "Maytime," and the Gilbert and Sullivan opera. That was with Hartman and Steindorf.

Norman's next move was to go into the show business for himself. He organized a musical stock company, managed it, produced all of the shows, and played the juvenile leads. The company played all over California. While stationed down in the San Joaquin Valley, he met Vivian Dunn, the young lady who later became his wife. But a number of things happened before they were married, in San Francisco, in February, 1929.

Norman left musical stock because there was too much work in it, and too little fun. With the chief comic, an eccentric comedian named Maurice Harding, he formed a partnership, and they played three seasons on the Orpheum circuit, Norman playing a straight part and doing most of the singing.

Then, in 1928, when the theatrical business went into a tail-spin, the partnership broke up, the comedian joining another show,

and Norman coming to San Francisco for a visit. The understanding was that they were to meet again in the fall in New York City. However, fate decided otherwise. He "tried out" on KFRC, just to obtain a little work before returning to New York, was accepted and put on the air that very night. He decided radio work was more to his liking than the stage, and has been one of KFRC's most valued staff members ever since.

MAURICE H. H. Joachim has joined the staff of KNX, Hollywood, as sales promotion director. In joining the program department of KNX, Mr. Joachim will continue to create and produce the splendid class of programs with which his name has been synonymous over a long period of time.

Born in Calcutta, India, Joachim came to the United States from England in 1921 and after about two years spent as a writer and as a lecturer on tours which took him through thirty-nine states of the Union, he undertook his first radio venture in 1923 at WEAF, one of the outstanding stations of the nation, and a key broadcaster for NBC. Later Joachim was on the staffs of WJZ and WOR, where he continued his successful career.

In addition to his work "behind the scenes" Joachim has been a featured artist of NBC in New York.

He is perhaps best known on the Pacific Coast as the creator, writer and producer of such programs as "Vignettes in Symphony," "The Play's the Thing," "The Queen of Sheba" and others, not forgetting "Bob and Harriett."

Prior to coming to the United States Joachim wrote and produced thirty-seven successful plays for the stage. Some of these ran in India and others in London. Among the latter is "Taj Mahal," which enjoyed enviable success at Albert Hall.

New creations of Mr. Joachim will shortly be heard from KNX's transmitter, announcement of which will be made as soon as his schedule is arranged.

MAURICE JOACHIM

A GIRL smiled up into the face of her khaki-clad sweetheart and said "Good-bye." A man stood at the speaker's table of a war-time banquet and thought: "In contrast to that smile I just saw, these ones seem blue." He put this thoughts into the opening words of his speech.

"There are smiles that make me happy, there are smiles that make me blue." And then, a second later, he realized that he was in possession of a spark which might blaze into music. Twenty minutes later, on the inside of a cigarette wrapper, Lee S. Roberts had finished the melody of a song which was to be sung, hummed and played in all parts of the world.

"Smiles" was written at a time when people were looking for a song of cheer, but it has continued to appeal to the sentiments of every time since then. Now its gay and wistful tune introduces a radio program conceived and built by the man who wrote it, and "Sperry Smiles" entertains NBC network listeners Tuesday, Thursday and Saturday nights. Its composer appears before the microphone again on Sunday morning, in "Breakfast with Sperry," also broadcast through the NBC network.

Like many another well-known San Franciscans, Lee Roberts was born "south o' the slot" historically the oldest residence section, just one block from the birthplace of Governor "Sunny Jim" Rolph of California.

Circumstances caused Roberts to quit school while he was still in knickerbockers. He went to work in a piano business house, where his natural ability as a pianist proved invaluable, and he rose rapidly. In 1910, he was manager of the Wurlitzer Company's piano department in Chicago, where he became interested in composing for the first time.

LEE S. ROBERTS

it not for the tunes they can understand.

But the same poetry which make his touch on the piano so much his own that thousands of hearers recognized him when he once played under an assumed name over a radio station, creeps into his music, also. "A Little Birch Canoe and You," "Lone-

JOHNNY MURRAY, KFVB's popular tenor, has black hair, blue eyes, and a disarming smile—plus an overwhelming interest in radio, and a deep faith in the future of radio. Johnny knows his racket, too, because he is one of Southern California's popular radio tenors and a valued member of KFVB's staff.

His past experience has been varied, and has certainly prepared him for his present occupation. He attended the Damrosch Institute of Musical Art in New York for three years, and then studied with Frank Carroll Giffin, renowned teacher of voice. After touring nearly every state in the Union and parts

JOHNNY MURRAY

of Europe singing and playing trumpet—yes, that's Johnny's sideline—he came to California as a feature in the "Good News" show. Then came a session with Gus Arnheim at the Cocoanut Grove, and after that a two-year contract with First National Studios. Johnny voice-doubled for Richard Barthelmess in "Weary River" and "Drag," and played in the "Dawn Patrol."

He sang over the radio during most of this time, and then went to the Roosevelt Hotel as master of ceremonies, where he conducted the radio broadcast, among other things. Now he is back at KFVB as staff soloist, dramatic reader, and co-star in the regular Monday night musical comedy program. Johnny likes radio, and, needless to say, radio likes Johnny.

some, That's All," "Mammy's Lullaby" and "Hawaiian Nights" have never dropped from popularity as they passed the "new song" period. The delicacy of his "Chiffonette" and "Valse Parisienne" are typical of this poetic quality of his.

His inventive talent is so great that it is a continual marvel to his associates. One of his many inventions is a recording system for player rolls—the first of these which was ever successful.

Roberts is a member of the Lambs' Club in New York, and the Bohemian Club in San Francisco. Among famous personages who have communicated with Roberts and asked him to play "Smiles" as a special request, is John D. Rockefeller Sr. It is the oil-king's favorite song.

MICROPHONE GOSSIP

• • • For the first time since its founding four years ago, NBC's Rembrandt Trio, hitherto an all-feminine organization, has been invaded by a man. Jascha Veissi, violinist, now plays with Eva Garcia, NBC pianist and director of the trio, and Dorothy Dukes Dimm, the cellist.

• • • Whatever sound effects you hear in broadcasts of Arthur Pryor's Cremona Military Band (CBS) are created by Walter Pryor, brother of the conductor. Walter doubles in the band as sound-effect expert and drummer.

• • • Following Robert's Olsen's recent excursion into Swedish dialect on the Golden State Blue Monday Jamboree a letter arrived at the station, saying: "At last we know who Axel is." Bob doesn't go in for Swedish dialect in a big way, however, and Axel is really "Pete" Barlow, KFRC's versatile drummer.

• • • Colorado radio listeners suffered with Amos in his grief over the serious illness of Ruby Taylor, take it from Miss Mary Peterson, telephone operator at KOA, Denver. Following the Amos 'n' Andy episode in which it was doubtful if Ruby had lived, the KOA telephone switchboard was filled with calls of inquiry regarding the outcome. Many of those who called asked Miss Peterson to read the next day's episode, which, incidentally, had not then been written by the famous comedians 2000 miles away.

• • • Another stage favorite joins the staff of KNX, the "Voice of Hollywood," the station long known for its policy of presenting theatrical and other feature programs. This latest addition is in the person of Miss Bunola Kay, who portrays the character of "Dolly Madison," the hostess of the

nation, on Bill Sharples' Breakfast Party every morning, 6:45 to 8:45. She is one of the famous Kay Sisters who were headliners on the old Orpheum vaudeville circuit and also with the deKoven Opera Company.

The group undoubtedly will be Charles Marshall, Johnny Toffoli, Johnny O'Brien, Virgil Ward and Fred Heward, NBC's Hill Bil'y Boys, on their way to broadcast. All five of the music-makers are fond of outdoor sports, and so feel at ease in the Hill Billy costumes they now wear in the studio—"It's easier to play old-time tunes in regular Hill Bil'y clothes than in tuxedos and stiff collars," explains Charlie Marshall.

• • • Radio artists are great people for having animals named after them. Recently, Robert Olsen, of KFRC, was informed in a letter that a canary with a very beautiful voice had been named after him. Eb and Zeb of the KFRC Jamboree have been honored by having two parakeets christened Eb and Zeb. And the gang at the stables of Troop Eleventh Cavalry, Presidio of Monterey, have named a horse Lord Bilgewater.

• • • Noel Archer, KFI-KECA veteran pianist and production man who left the Los Angeles stations two years ago to work for Anne Nichols in her New York productions, is back at his old desk. Noel was re-engaged by the Anthony stations in his old capacity. During his absence he acquired a pair of spats, a hair-line mustache, much worldly wisdom and sixteen forty-candle-power neckties. He remains single and deplores that no attempts have been made on his liberty.

• • • Kenneth Ormiston, widely known technical adviser and radio expert, has been appointed technical supervisor of KNX, Hollywood, according to an announcement made today by Naylor Rogers, vice-president and general manager. Ormiston succeeds Deane Garver, who has resigned after many years' service with KNX, to go into other fields in sound reproduction work. Ormiston has long been recognized as one of the best informed and capable radio men on the Pacific Coast. For years he has conducted columns of advice to set owners in various publications and is in constant demand by those seeking technical advice in broadcasting, short-wave work, talking picture work and transcription recordings.

That is what happened to Edna O'Keefe, KFRC's popular singer of popular songs. The ladies didn't know Edna was behind them, however, and went on to explain that the reason for their homicidal desires lay in Edna's popularity with their husbands. It seems as though their mates are loyal and docile up to the point Edna comes on the air, but after that they must listen to her, even if the dishes go unwiped. What is that power Edna has over husbands?

Victor is equally efficient with the violin, piano and not yet satisfied, Rodman is now studying voice. He aims to be a baritone.

To amuse himself, Ross Sr. reports, young David writes radio scripts in which he enacts all roles. His audience is limited to two people: Mr. and Mrs. Ross.

Questions & Answers

By N. EARL BORCH

Consulting Engineer of the California Electrical Construction Company

All questions should be put in clear, simple form, and should ask directly what is wanted. Give full name and address. Personal replies or diagram will be supplied for a fee of one dollar each.

QUESTION: For some time I have wondered about these points: (a) I live about due east of the Golden Gate, about halfway up the Berkeley hills. Why is it that on my radio, a Crosley model 54, using a bed spring has half again as much power? The bed spring has been as satisfactory as an aerial. (b) Just below KRE there is a station that completely overlaps KRE. Although the latter is not completely drowned out, the interference is very annoying. How can it be cut out. I've noticed it on a set with a 75-foot aerial just as bad as with this. (c) Today, throughout the full range of my radio, I heard a man giving weather conditions for aviators. It was not very loud, but clearly audible. Where did it come from?—H. B., Berkeley, Calif., May 23.

ANSWER: Just because one station is operating at a higher power than another does not necessarily mean that their waves will reach any given point with corresponding strength. The strength of the wave for any location depends upon so many factors that it is impossible to definitely state what it will be a certain distance away from the transmitter. The chief causes for this variance are the shielding and reflection effects. The amount of effects depends upon the surrounding conditions of earth and metallic building structures. Thus, a hill interposed between the broadcast station and the receiver may materially reduce the received signal. A building of metallic frame will have the same effect. The direction of the receiving antenna also determines, to some extent, the amount of pick-up.

At the present time a new higher power transmitter is being installed at KRE. This installation requires considerable test work before final adjustment. I believe your trouble in receiving this station without interference will be corrected when final adjustments have been made.

The station giving weather reports was probably KCV, the Department of Commerce station, located close to the Oakland

airport. This station operates on a frequency of 326 k.c. Two harmonics are, therefore, present in the broadcast band—one at 652 k.c. and the other at 972 k.c.

Question: Some years ago all the broadcast stations were listed by their wavelengths and the dials were graduated accordingly. Nowadays all receivers are using kilocycle markings on the dials. If possible, will you please give me the reason for the change and also the advantage of one over the other?

James L. S., Berkeley, Calif.

Answer: The wavelength refers to the actual length of the wave from crest to crest of the radio wave traveling over the surface of the earth. An analogy to this is a water wave on a body of water. The distance from the top of the wave to that of the adjacent one is called the wavelength. The number of waves passing any given point per second is the frequency of the waves. There is a very definite relation between the wavelength and the frequency. Thus, if we know that the speed of the radio wave is approximately 186,000 miles per second and we also know the number of waves passing a given point per second, we can determine the wavelength by a slight computation. Thus, for example, if we know the frequency to be 1,000,000 cycles per second, or 1000 kilocycles, and that 186,000 miles are equal to 300,000,000 meters, then $300,000,000 \div 1,000,000$

1,000,000

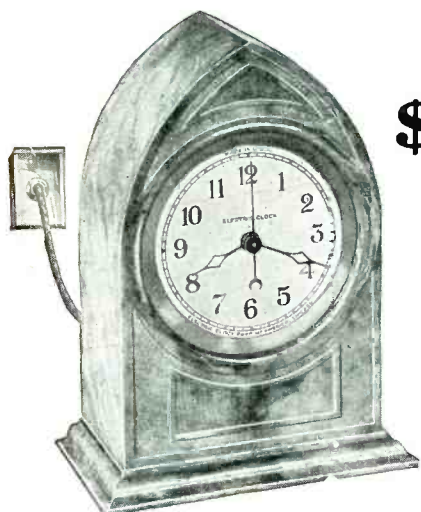

other words, the wavelength is 300 meters. So, by knowing two of the quantities, we can compute the third.

The reason for the change from wavelength to kilocycles is only one of convenience. By arranging the stations in kilocycles they are spaced exactly 10 kilocycles apart and always on a whole number, while, if wavelength and the same separation between station was used, the wavelength would have to be stated in a whole number and a fraction which would cause a great confusion where accuracy is desired.

 The coming wedding of Jessie Logan and Jim Foster will be the principal topic of conversation in the Memory Lane episode which will be presented tonight. Rosemary Smithers will be the hostess at a quilting party in the Smithers' grape arbor. Great-aunt Libby, who came to hear Ezra Higgins sing at the village church, has remained for the party. In order to announce the engagement of the father of Melissa and "Little Jo" Foster to Jessie, the Goshen Center newspaper, The Bugle, will be issued two days early this week. Two scenes in tonight's episode will show Billy Smithers and the editor at work in the Bugle office. Mystery surrounds the exact date of the marriage ceremony.

son, is the NBC Drama Hour,
offering tonight. Revolving around
a widowed woman and her son
and daughter, the play tells of
how they give shelter to a girl
from New York. How death and
love both come with the arrival
and the departure of the girl is
set forth in an interesting man-

A TREAT for MUSIC LOVERS

HENRY STARR
"The 16-40 Boy"

So fine, so facile, so feelingful, the rich, romantic voice of this famous tenor, he seems to be singing to you alone. Laughter, smiles, tears, in the lilt of his song and magic touch of his versatile accompaniment—

KPO—6:45 p.m.

CHEERIO

LORD BILGEWATER'S
LATEST BOOK

It is totally different from anything ever written by this Happy Go Lucky and Jamboree comedian, heard over the Don Lee chain.

Cram full of riddles, funny stories, anecdotes, and humorous poems.

Happy Go Lucky listeners had a hand in writing it, too. Contributions from fans all over the Pacific Coast have been included.

The engaging illustrations are by Frances Montgomery.

All "Bilgy's" fans will want a copy.

will find distinct advantages in Associated Liquid Wax. It is an Associated Oil Company "Sustained Quality" product.

Easy application, smooth, even spreading, economy because no waste—these are advantages you'll appreciate. A small quantity goes a long way.

Sold in one-half pint, pint, quart and gallon cans by Associated service stations and garages and progressive druggists, hardware dealers and grocers.

the FOLGER master detec-a-tives of the air

VACUUM
PACKED
... of course!
Always fresh.

THIS nightly program of laughs is sponsored by the makers of this different kind of coffee which derives its remarkably fine flavor from our selection of the world's choicest crops. These finer coffees come only from the high mountain plantations of Western Central America and Folger depends upon their distinctive richness and famous flavor to maintain the Folger Standard.
