Vol.6 No.14

NATIONAL RADIO CLUB DX NEWS Headquarters

WS January 9 1939

Foreign Membership \$1.75 Per Year

317 East 10th St., Erie Penna

Issued Weekly \$1.75 Per Year

THIS ISSUE DEDICATED TO:-

UNLIMITED TIME SERVING 250,000 PEOPLE

KPAB-1500 kc will will start a special DX program January 15th and continue through February 7th, from 2:00am to 3:00am or later CST.(3:00 to 4:00am EST) Each broadcast will be at least an hour or more long.

Ill DX writing to KPAB and reporting their program on this DX will receive in addition to the regular verification a very worthwhile souvenir of Mexico., these souvenirs will consist of such items as Mexican sombreros, Mexican carapes, pottery, feather pictures, dressed fleas, and other characteristic Mexican handiwork pieces. QRA:-M.M.Valentine, General Manager, Laredo Texas.

Remember when ordering your RADEX, please place your order through the National Radio Club, your subscription this way is only \$1.40 a saving of $\phi.35$. This is a special club plan.

WARREN_ROUTZAHN-York Penn. I received a card from WTMA stating they expect to start broadcasting March 15th, at 2:00 A.M. EST.Their address-P.O.Box 92, Station A, Charleston S.C..Signed by E.C.Powers, Com, Manager

A card from Arthur Brackbill and Jack Horner saying that they have been on a 4 day trip, over the Holidays, They paid a visit to Joe Becker in Hamilton, also visited WLW Transmitter and was over to see WCKY Covington Ky.

RAY EDGE-Buffalo N.Y. Rays says that his DXing is suffering, because he is attending a school two days a week prepairing for the Lieutenants examination which is coming up the 25th of Febuary 1939. Ray is one of the Buffalo Policemen. And OM all the NRC wish that you make that Lieutenants examination 100 per cent.

A letter arrived this AM (January 7th) from KSL Salt Lake City stating that KSL will be on a DX tip period every Thursday from 2:45-3:00 AM with BCB news SW news and other interesting DX news, the program started their broadcast January 5th, and it was one of the best Tip periods Ive heard for a long time. If you havent heard KSL try for them next Thursday at 2:45 AM EST. And drop a letter of thanks to Lennox Murdock-Program Director.

To all you members that sent in STAMPS for first class mail service over the Holidays, we were notified at the Postoffice that we would make as good as time as we have been doing the past few months so we did not use the stamps, a few members received theirs by first class, but all unused stamps will be returned this week.

BOB BOTZUM-Reading Penna Reports that the Eastern GET-To-GATHER will be held in Philadelphia Penna, in June the Date has not been set a as yet but it will be on a Saturday and Sunday, all DXers are invited to attend this Gathering. It will be held at George Brode's home.

Now the National Radio Convention will be held here in Erie September 2-3 and 4th, these Dates was picked do to being a hoiday's, and it will give the boys that live at a distance and wants to attend a chance to drive down on a Saturday and return on Monday. We welcome any suggestions about the NRC Convention and the Dates. So lets hear from you all. But we are tring to lay all plains early this year so there will be no last minute arrangements to be made,.

Once again it's time to grind out a little DX news. Somehow or other youse guys have been beating us to all the "hot" news, so we have to resort to foolishness to make up a column. Befor we go into the DX news, we want to pass on a Chronology of 1938... JANUARY. Auto refused to start. FEBRUARY .. Furnace went haywire... MARCH. Bot water heater burned up. APRIL. Basement flooded with spring rains... MAY. Late sleet storm ruined garden plants... JUNE. Screens rusted to pieces, needed new ones... JULY Burned hand severely showing kids how to Right firecrackers... AUGUST. Refrigerator wentscrewy, electric fan too... SEPTEMBER. Pet antenna fell down and busted... OCTOBER . Caught influenza... NOVEMBER. Had five teeth pulled day befor Thanksgiving... DECEMBER. Sant Claus got his beard caught in the gears. Good thing I have this DX hoboy to occupy my spare time.

Judging from the reports in the past several issues, many Mexicans stations are audible in the early mornings and are causing considerable comment. WE've gone over all reports carefully and believe the following are the stations heard by most of our members.

 XELO-670
 XEPN-730
 XEAA-750
 XEQ--710
 XEBG--820
 XERA--840

 XEMO-860
 XEV--890
 XEV--910
 XEBH--930
 XEFO--945
 XEAV--960

 XEDA-1220
 XEAI-1240
 XEFC-1340
 XEM--1390
 XEFI-- 1440
 XEQK--1460

WARREN ROUTZAHN: "You know, my wife fooled me when we became engaged." HAROLD CRISWELL: "Why, what do you mean?"

WARREN ROUTZAHN: "Well, when I asked her to marry me, she said she was agreeable!"

A verie from KDFN.1440 kcs., Casper Wyoming advises that they have a frequency check each first Friday of the month from 3:00-3:15 EST. They are monitored by the station at San Francisco. Reports are welcomed.

According to a Youngstown, Ohio correspondent, WFMJ.1420 kc., of that city is to start regular programs shortly. Construction that was started about August 1st is nearly completed. Watch for test.

Application has been made to the FCC for a change in call letters for KTOH, Lihue Hawwaii. They request the letters KOWY. The management of this new station (not yet under construction) promise to co-operate with DX fans.

CMJW, Camaguey, Cuba will honor the NRC by presenting a special DX program on the morning of February 11th from 2:00-4:00am EST. The management advise that all reports will be verified and that they would be pleased to hear from all of our members. They do not state the frequency on which this program will be broadcast but we presume it to be 1070 kc since they have been heard on that frequency lately. Any change in frequency will be printed in the bulletin.

Dont forget to drop KPAB a report on one or two of their special DX programs that start on January 15th. You may earn a ten gallon Mexican hat, or some other caluable souvenir and you positively will get some special trinket of the Mexican border.

Our thanks to all the stations presenting programs for the club during the past several weeks. We trust that you received many reports Also to WJBO WPAY KSL CJCJ WTAR and other stations that carry our tips, thanks for this favor. That winds things up here. Hope that you continue to add many new stations and that you continue to send in reports. Good DX'til next week.

L.P.O.REPORTS

Editor Peter Clarius 11 Marianne St., Port Richmond N.Y.

RANDOLPH HUNT-Leucadia, Calif. Sending in Money Order for another year in NRC, this will make five years as member (Thanks Randolph OM for the money order, and sure hope that we can serve you in some small way this year. HWG.) Stations such as WGN WLW WBT WSB WENR WTAM are received QSA5-R9 from local sunset and then on for about two hours, then things go haywire, all these stations are around two thousands miles and over. Nly stations over 5000 miles that is always 100% readable is 1YA Auckland. Visited Hollywood and took in Burns & Allen broadcast and that of Joe E.Brown, VFB having a look to see the way these programs are put on, all very informal, just like in theatre, no glass between audience and stage.Last summer I twisted, hi the dials while staying in U.S.Grant Hotel right under KFSD, strong harmonic on 1200 kc., but otherwise nothing noted such as broad tuning which might be expected. Baton Rouge WJBO twice monthly for NRC DX blocked by local KRKD.

NICK EVANGELISTA-West Hamburg Pa.Dec.28th, 19 degrees, clear, Heard PTT Toulouse, France on 776 kcs from 2:04 untill 2:22 AM. They were R/4 to 7 and announced call letters after each selection. Could not be heard after 2:22.0 thers same morning were KFEL R6 at 2:45, WGY R9 at 4:05, XEMO R9 at 4:20. Dec.29th, 17 deg., clear. Heard WSTP at 1:20, WCNW at 1:27, WGCM at 2:15, KNX at 2:35, WBNO at 3:00.Plenty of noise so gave it up at 4am.Dec.31, 28 deg., snowing and also plenty of noise. TGl not audible. My brother-in-law transposed LS11 for me. They are testing with CW. KFDY was r8 at 2:15, WCL3 R8 at 2:45, KECA testing with signal at 3:03 R6, XEL at 4:15 R7, CHSJ at 4:58 R8. January 2nd, 38 deg, cloudy. KHQ R6 at 2:45, WHOM R9 at 3:10, WGY R9 at 3:34, WEXL R7 at 4:05.Nothing of CMAB. Jan 3rd, 34 deg, cloudy and plenty of noise. WISN R8 at 2:20, WPAY R6 at 4:15, XLL R7 at 4:50. Heard a station on 1390 kc from 2:35 to 4:10 which sounded like CECN or XECM, Chihuahua Mexico, Box 233, the address heard as they signed off at 4:10. They announced in English and would appreciate reports. Heard a station on 590 kc from 5:00-5:30 very weak but sounded like oriental music. Could it be JOAKI in Japan and did anyone else hear it. New veries KPAB-M.M. Valentine, KGIW-D.L.Allen, KGB-S.W.Fuller and D.R.Young, KLRA, WGY-E.S.Darlington, WSUI-Sylvanus J.Ebert, WDNC-R.A.Dalton, WWNC-Ezra McIntosh, WKAR-R.J. Coleman, WCLS-George M.Ives, WPG-Norman Reed, WDWS-Jack Wainscott, WTEL CMBQ-R.Pazos, CKLW, TIPG-Perry Girton. For 1938 I reported 549 stations that I never hrd befor and received 413 verifications. That leaves 136 out and I expect to hear from half of these. (Nick adds that he would have sent in a Long report if he had more news. Hi. As to the Mex on 1390 OM, that seems to be XEM without the "C")

MERLIN_STEEN-Decorah_Iowa.Dec.31 CJRM CKX and CJRC heard good here this eve, 11-lam EST. Jan. 1. Nothing heard of XET, most stations operating late. No new catches here. Heres something queer. At -3:04 I heard WMC who signed off on 780 kc, they were also heard signing off on 1550 or 60kc can anyone explain this for me. (OM what you heard was the first Harmonic, which is 1560 kc. just multiply 780 by 2 and see what you have. HMG.) Jan. 2. Didnt hear CMAB. Hrd a Spick on 680 kc at 3:20 am EST. Also a police call on 1260 at 3:25am. Hrd some one on 1110 at 3:43 EST, would it be XERB. This evening I had CKAC CBM and CKCR good sig for a while.XEPN is deleted at least for some time.

NATIONAL RADIO CLUB DX NEWS Page: 5 January 9 1939 DICK_COOPER-Kittanning_Pa.Considerable noise the past week due to rising temperatures. I seem to have passed up most of the good catches over the holidays. Reports out to WSTP heard on 30th, and KFDY heard with frequency check on 31st from 2:00 to 2:36 EST. Also got report off to LRA. LS11 very nice signals but they are CW. The new Mexican stations seem to be causing quite a hub-bub. I heard the QRA of XEM, Chihuahua as Box 231, "dos Tres, uno" but I heard this on 1340 I understood the call to be XEM but all the rest of the boys report XEM as 1390 and I too near them on that frequency. Guess I must have been drinking too many milk shakes the morning I heard them on 1340kc.Almost positive that I heard JOAK1 on 590 kcs from 5 to 5:20 on morning of Jan. 2nd.Signal was very weak and noise level high.Suggest a watch for Asiatics.Carrier on 1420 which suggests WFMJ, Youngstown Ohio. New veries are WRGA and letters from WWNC and WKZO.

BOB BCTZUM-Reading Penna. Dec. 31 WSTP testing 2am on., WRGA LRA also on with tests. Jan. 1st. Between 4-5:30am following stations logged, CMK CMBL CMKX XET XEL KMTR WTOC WAIM WCOU KRSC KWSC WHEC WRTD WKBW KRMD WATL. Reception very good this AM Spanish station on 1460 kc and 1390 kc., Jan. 2nd. LRA at 2:25am, KLPM at 2:30 and following heard also KFWB XEL XERB KDYL KVI WGY. Bad buzzing noise after 3:15am ruined reception. At night logged a Spanish station on 1190kc., 10pm on, announcer mention RCA Victor and Colombia, also played "Peanut Vender" pretty sure its KJ1ABN announcer spoke slowly in Spanish and it was positivly no cuban. Jan. 3rd. XEM 1390 kc 2:15am on with American and Spanish recordings. KIDO testing 3am on. Jan. 4th. Reception noisy and poor signals. KWOS at 2:05, WSAU at 2:20, WKBB and KPAB on at same time 2:30am on. LRA at 2:55am. Some station on 780 and 890kc, 2am on, couldn't identify. Also somebody drowning out WEVD on 1300kc Music but no announcement Spick on 1390 again at 2:47am.

HAROLD CRISWELL-Spring Grove Pa. Havent done much dxing of late pretty busy over Christmas. Veries recd since last report-KFAM. WTOL WGIL KALD WSLI WLLH WPG WHK KYSM XERA KWJB KDNT WSAY KUTA WNAD WWNC WNEL WCOU the latter sent two cards, WCOU is the 5th station that has sent me two cards exactly alike at the same time. WSAY verie is a membership card in the WSAY DX Club, a nice card, further reports will be greatly appreciate says Mr. Green. For fast verification's I will have to give it to the Minnesota stations for quick verie service KFAM verified in 4 days and KYSM 5 days. Too many stations on this Morn to DX Jan 1st, WJBO Dedicated their N.BC New Years dance program to us could only hear them part of the time as WISM blanketed them at time WTOC after 4:00 with DX Program. (Harold sent in a nice list of signatures which will appear next week. Ed)

ED FEICHTNER-Erie Penna. New stations heard XET XEAI XEM CBO CBV CJBR an CBR. New veries WAGA CMKM KCMO.I heard XET XEAI New years am. CBO CBV CJBR CKSO an CBR on regular broadcast and the Northeastern station came in well in the evenings the North west stations came in well in the am's, the high powered ones not the small ones. On New Years am Iheard a Hockey game on 960 could this have been CFRN at 1:00. I heard a Spick on 1160 on the 2nd at 1:15. TGV came in R8 on New years night the best I ever heard him.

HARRY M GORDON-Eric Penna. Hi boys Ive found a little corner for my report. Jan. 2nd 810 kc., 1:55am Italian Speaking station with very good signal. 760kc., KYA R7 QSA4.745kc., Marseilles France at 2:05am. 775kc., Toulouse France at 2:15 which I logged for 45 minutes, but signal could still be heard at 3:30am. (Thats all no more room)

Broadcast Band News

CYRUS WILL-Kenilworth IllHere's my report for the past two weeks.DX has not been so goog here considering the cold weather we have been having.Stations heard here Dec.18, WLW on DX at 2:30am, WJBO on DX at 3:10, KTRH on at 3:30am, Dec.20th XEMO signing off at 3:00am, WHMA on Dec.22 at 3:20am with DX program, Dec.23 KUSD on special at 3:20am, WCLS on freq test at 3:45am. ec.24 WCLS again at 3:40 am requesting reports. WGY testing at 4:10. Dec.31 WCLS again at 3:13 adjusting transmitter. Geo M.Ives., Chief Eng of WCLS in Joliet wrote me as follows: "Our regular broadcasting schedule is from 7:00 am to 8:30pm CST., and we would appreciate reports from you during this period. There are stations on the same frequency (1310kc) in Milwaukee, and Elkart Ind so you may expect some difficulty. (Cy has a nice list of signatures, we will get these all togather and place them on one page, in the near future.Ed)

PAT REILLEY-Jamestown N.Y.Pat says it was to noisy to DX Dec.29 30 or 31.Jan.lst 24 above, very noisy.HJlABN on 1190 XET still on at 5:30. Jan.2 Too noisy. Jan.3, 28 above, very noisy.LRA at 2:31, XERB on 1090 at 2:35, KMO on till 3:15 from Swiss Village, every Tuesday and Thursday at this time. XERB gives QRA as P.O.Box 508 San Diego. WPAY did not mention NRC once. New Veries are 3GI-WCOU out since Sept.13th for total of 1J29 veried log.

WARREN ROUTZAHN-York Pa.Since my last report I received veries from KDNT KOCY PRG2 WHIS KVRS KPAB KFAB WMRO WLB WWNC CMKM WKZO and WJBL. Mon.Dec.26 weather clear-27 Rec.Fair. WHN-R8 2:30, KSL-R6 2:31, XELO R6 2:45 and LRA R5 3:00.First I really tried for LRA and added them to my log.Tues.Dec.27 Rec.Good, weather clear 18.LRA R6 2:35, KGO R6 3:00 sign-off, WHN R8 3:05, KRKD R6 3:10 unknown testing on 1370-R7 3:15 and KGB R5 3:30. Sat.Dec.31 hec Good weather cloudy-29. LRA R6 3:00, WCLS R7 3:16 testing, KGB R3 3:30, KGER R5 3:40.Did not hear TG1 on their DX if they were on. Wed.Jan 4 Rec. noisy, weather clear. WKBB R7 2:33 test, LRA R4 2:50, CMQ R8 3:13 ending test, KNX R8 3:30 and unknown testing R8 on 1360kc.,

MAX DEMULING-Erie Penna. Jan. 1 5:10-5:35 listened to XEAI coming in about R6-7. Tried for CMAB but no success. Joseph Sierra informs us of his DX Jan. 15 1-3:00 1080 kc., CBR can be logged between 1 and 2:00am signing off at 2:00 am EST. Jan. 4th Heard Spanisher on 810 kc., around 1:30

JIM WALKER-Romney W.Va.I think I heard the 810 kc., Italian this AM. What is the QRA (January 6th 1939) YVIRA is causing plenty of QRMing on KFAC at 5:30 AM. Hrd HJIABN on untill abt 4:20 1/1/39 all Spanish announcements. WHMA signs on 7 AM not 6 EST. Only new one added is WORC pulled thru WDOD WTMJ etc. (Jim says thats its possible that XEDR will be on for the NRC Feb. 26 starting at 4:00 AM.OK OM ED)

JOHN CURGAN-Philadelphia Pa. Well DXing in this location has been terrible lately. I have not done much. I logged XEAC XEFL on 1150 and XEL CMKM CMKG CJBR LRA and WSTP. Veries in from CMKM and CJBR also WGRM. Well I guess this is all.

JOE BECKER-Hamilton Ohio. Still no veries as yet from WSLI Or WJHL or CMBF and I have several reports to all 3 of them. Heard TI4NRH yesterday for the first time and sent him a nice report. Heard nary a thing of CMAB this 1.M. WKOK came thru yesterday with a bang as well as KRMD. WSTP signed this AM at 2 minutes past 4:00 am.

Dont forget fellows that we are planning a SW contest for the NRC where all SW tuners on the SWBCB, Ham and CW DX fans will be able to Participate. Although plans have not been finished I will give you the tip that only veries sent from Midnight EST on Jan. 1 1939 will be counted so start sending your reports out now & also send in your suggestions for this contes. We want to make it a good one.

VERIES DEPARTMENT

Fred Alfred. JVH, JVP, JZJ, HVJ & OX2QY. Merton Hiatt-TI4NRH. Let us know what veries you are receiving. One of your Editors friends received a verie from LKC at Jeloy Norway. It is a beatiful card showing the station building on one side & a picture of the Fjord on the other side. They give their freq as 9.530 megs and power of 1kw.

RATINGS OF OUR MEMBERS

Fred Alfred and Leo Herz made gains this week. Although Leo did not receive any veries from SWBCB stations he did manage to get a few Hams .

Member	VAC	VIC	VERIES
Art Johnson	22	89	576
Fred Alfred	10	61	
Leo Herz	6	62	489
C.Forestieri	3	41	197
L.Lundberg	1	31	93
Bob Hoynes	1	13	· 20
Cyrus Will	O	34	80

Keep your Editor informed on any changes on your ratings. If you have as not yet sent in your ratings please do so at once. Just count all your SW veries regardless of Ham or commercial stations.

W9XA RECEIVES PERMISSION FROM FCC TO REBROADCAST KCKN:-W9Xa has added to its program schedule several rebroadcasts of KCKN, the regular broadcast station of the Kansas City.On December 22nd the FCC gave its permission for the rebroadcasting. In addition to this relays of KCKN, W9XA is active in the rebroadcasting of programs from three other well known stationsViz: WLW, KSL and KITE (RELEASED: December 29 1939 By: W9XA to HQ)

IQY is not used.

QUESTIONS & ANSWERS DEPARTMENT

Leo Herz-found out who his mystery station was on 15.160 megs. It was VUD3 as they have changed their sked now to an hour later than befor.

(SOS) Where is HILH in D.R. located at. They are heard on 6.425 megs. (Fred Alfred)

Despite the fact that TPA3 is announced as being on parallel with TPB7 the latter one is heard nightly R9 but TPA3 is not being heard at all. (Herz)

GOSSIP OF OUR MEMBERS

CARL FORESTIERI:-Has been working late these days and says he has not much to report this week as he has not had much time to DX, but we sure appreciate Carls efforts in keeping in contact with us fellows anyways.

MERTON HIATT:-Says DX conditions have improved considerably up here in Dryden Washington and this is indeed wery fine news.

LEO HERZ:-Must have experienced much better DX conditions up there in Chicago too as he reports sent out to TGWA VK3SG OAX4C VP9R TIEP and WASAE, Leo is still trying to get a verie from a VP9 station. This is his 3rd attemp and we all wish him success. When Leo gets his new Receiver the Howard Communication Receiver we would appreciate his letting us know how it works. Your Editor is especially interested in this set.

By looking in our Verie department you will see what Fred Alfred received from Santa for a Xmas p esent.VFB we call it receiving all these fine veries. Fred says that DX is not bad outside of a little local QRM and it seems to him as if signals are much stronger now. Fred states that Japan QSLed in 7 weeks and that in 44 days he received a fine QSL from VS7GJ which is his 2nd verie from this station. This is what we call fast mail service.

Your Editor has also noted an improvement in reception conditions. Hawever in the 49 meter band many weak stations are having a tough time battling with CW QRM. I wish that all CW stations were put by themselves so that they would not be QRMing voice stations all the time. Hi

--LABRADOR--

Those of you who have not yet added Labrador to your countries heard should be on the lookout for VO6J who has been heard here in the evenings with good signals around 9:00pm.He is on an announced frequency of 14.086. He says he works most evenings and also has a regular schedule on Sunday mornings from 10:00 to noon. The transmitter is run by a gas generator which can be heard in the background. (SLs should be sent via VE2KD in Montreal but do not expect replies untill about July.

--LAAU--EUROPE BOUND--

A station using the call letters LA4U was heard here recently. The Op said the transmitter was located aboard ship and they were headed for Europe. LA4U was heard on about 14.07 meg at 8:50am. The op said that the transmitter only used 11 watts.

--W9ALI--(PORTABLE)--

Earle Hickey-Norwood N.Y. Sens some interesting information on the W9AM (Portable) which has been heard here recently. Earle says, "For the last two evenings W9AM (portable) on the tanker "S.S. California" has been received here with &SA5 R/7 signals. On December 222 he was transmitting from a position off the coast of Butch Guiana and on December 23 he was off the coast of French Guiana. The ship is on its way to the Antarctic to bring back whale oil from a whaler. The ship makes about 250 miles per day. His carrier power is 11 watts. The frequency is approximately 14.000 kc.and he is on nearly every evening from about 11:45-12:30 talking with amateurs in the U.S.A.He will return in April.It will be rather interesting to note the change in signal strength as the ship moves southward and returns.

--CALLS HEARD--

Earle Hickey-Norwood N.Y. Sends in a VFB report. Earle has been kept busy with his studies at Clarkson College of Technology in Potsdam, N.Y. but got a little DXing done over the Christmas recess. His receiver is an ll tube Knight superhetodyne with all metal tubes and machanical band spread covering the range from 13 to 550 meters. Earle reports as follows. On Dec.22 TG9BA in Guatemala City was received here with A QSA5 R8

signal at 9:30pm on 20 mts.

On Dec. 23, ZS2N, ZS6BB and ZS6S were received with rather weak signals around 11:30pm on 20 mts.

There was a very peculiar skip on 20 on Dec.23. The West Coast was in-audible at 11:30 but the W2,3,4,8 and 9th district stations were fine. The South Africans above were audible at this time, However.

The Hawaiian amateur stations have been inaudible for the most part here this month although occasionally one or two of them breaks through.
