Erie Penna.

 We welcome the following new member: Gilbert L. Harris - No. Adams
 Mass.

Purchase your RADEX through the National Radio Club, in this way you save money. One year subscription only \$1.40.

A PERSONAL WORD FROM HQ:--With this issue we will try the white paper this is due to the price in paper going "sky high" our old reliable blue paper is going so high that its impossible to pay that much for it. So lets hope that we can work the white paper...To all you members that I owe letters to "please" give me a little more time as I am so busy here the past month, that its been just impossible for me to get after them, for the past few weeks I have been doing some mimeograph work, and have been running of several 1000's peice's every day, believe I will have this work caught up with in the next week, I hope. So excuse me for a few days more. All Official Club work I have been able to take care of, but my personal mail its just impossible.

(NOTE PLEASE) ALL AMATUER MEMBERS:--Starting next week our Amatuer section will appear "weekly" as usual, sorry that we had to skip the past two issue's but we are changing this section and will have a "new plan" in our method of laying up this section. So watch for the Amateur News next issue, I believe that each and every one will appreciate the new plans we have for the Amatuer section.

--SWL NEWS--

ONR357-Luc.J.L.H.D'HELft-Lafere, Sulferbergstraat 8, Bruges, West Flandres, Belgium:-- Sends the following letter to NRC HQ:--I am sending you a list of SWL 100% of 100 different countries, of which I received cards..This list may be published or passed on. I will also send it to everyone sending me an international reply coupon. Some SWL may wondered why they have not yet received my card after they have send their card a few months ago. I am very sorry I cannot reply sooner but I send every month 100 cards and I always stay or rest with a stock of 400 till 500 cards addressed and ready to be sent. So every SWL must wait 4 or 5 months befor I am able to reply. If some of you have not received my card after a delay of 8 months, he may be sure his own or my card is lost by mail. (If his own card is lost by mail he will not appear on this list) (EDITORS NOTE) The list that I have here carries 754 SWL names from all over the world; from this list I have selected the NRC members names and will publish them in this bulletin, so in case you have not received your SWL card and its past 8 months drop a line to the above QRA and you will receive your card at once.....Please note if any of you SWL members hears of complaints about our "friend" not answering his SWL cards, write direct to the NRC HQ sending their name and I will check my list to see if their card was received. Heres a list of the NRC members appearing on this list:--Ernest Law, Nick Woytan, Stuart Kressner, John DeBosa, Sergio Gonzalez, Jack Gardner, Merton Hiatt, Merlin Steen, Harold Burstrom, Pete Clarius, Cyrus Will Bob Botzum, Jack Siringer, Stan Brus, Sydney Lashley, Leo Herz, Dick Cahill, Carl Forestieri, Olive Johnson, Joe Lippincott, Cliff Tavener, Jack Quintrell, Joe Becker, Larry Lundberg and Fred Alfred.

PICTURES OF THE CONVENTION ARE GOING OUT SLOW BUT SURE:--More will be printed this week so if you have not received yours yet you will in a day or so. And to all the other members that wants one of the convention "group" pictures lets hear from you at once. They are worth hav-

---BCB "VIS" RATINGS---

Jack Siringer--VIS 95.....Harry M Gordon--VIS 89.....

Elmer Wokaty-- VIS 72.....Stephen Mann ---VIS 58.....

Send all you "ratings" to Steve Mann the Asst Editor, if you have any questions about this "VIS" rating drop a card or letter to Steve at once. (A SPECIAL prize will be offered to the MEMBER with the Highest "RATING" by January 1940, the prize will be a "one years subscription" to the National Radio Club bulletin.)

---BROADCAST BAND DX---

As copied from the IDA:--LRL (1070), LR3 (950) LR5 (830) LR6 (870) and LS2 (1190) have been coming in very strong 9-10pm. LRL has been better than its S.W. outlet LRX many nights (Skyten-Mass) Most recent veri' is 2YC which gives me 11 TP stations verified with 100 veri's of 2000 miles or more. (Lippincott) ZJV (920) heard signing-off at 4 am EST (Tarr) Aussies coming in quite well, Volume from 2NZ (1170) and 2NC (1280) is extraordinary. Signals are best from 1:30 to 3:30am (PST) Those well received include 4BH (1380) 4AK (1220) 2NR (700) 3GI (830) and sometimes 2BL (740). Those received fairly well are 3GL (1350) 3SR (1260) 2SM (1270) 2CH (1190) 3LK (1090) 2FC (610) 2CO (670) 2GB (870). The principal ZL's 2YA (570) 1YA (650) 3YA (720) 4YA (790) 2YC (840) and 1ZB (1070) are very good. Sometimes JOAK2 (870) is heard 3-5am and JOIK (810) 5am. (Walcott-Cal)

VIA UP PAUL KNIGHT:-- KOVO took the air formerly Sept. 21st. Ditto for KFAR on October 1st.. WCNC also on the air lanes. WSAV due the latter part of October and WSPB about the first of November. KTOH must be on by February 1940 according to the conditions of their construction permit. WKRC sold to Times-Star Publishers. KIT granted power boost to 5 kw. V.O. Stamps seeks new station for Dallas, Texas since KFJZ has merged with KTAT. Work on construction of KHAS will start shortly since KMMJ have withdraw their objections. University of Wisconsin seeks a 50 kw station and will scrap WHA and WLBL if grant is made, but ~~Harold Engel assures us that any change will not be for quite some time~~ as these applications move slowly in the FCC. WMCA still in "hot water" over alleged broadcast of illegally intercepted war news.. End of the 100 watter is in sight with the granting by the FCC of full time operation with 250 watts to the following stations: KALB KAST KBND KCMC KELO KFAM KFVS KGHI KGKL KLUF KMLB KNOW KOBH KOCY KPFA KPLC KPQ KRBC KRE KRIC KRMC KRMD LSRO KTEM KVEC KVOX KWOS KWYO KXRO WABI WABY WAML WATL WAYX WBBZ WBEQ WBRE WCAX WCBM WCHV WCMJ WCOU WCPO WDAN WDAS WDNC WEBQ WEED WEOA WEST WFTC WGAL WGH WGL WGNC WHFC WHLB WHLS WIBM WIBU WIL WJAC WJBC WJBY WJHL WJIM WJNO WJTN WKAT WMAS WMBC WMBH WMBO WMBS WMFG WMIN WMPC WNPC WNBC WNOE WOMI WOPI WPAX WRAK WRAL WRBL WRDW WRGA WRJN WSAU WSIX WSLI WSNJ WSTP WIMA WIMV WIRC WWSW. Additional applications are befor the FCC and probably the end of the 100 watters here.

John Tate, the "Old Dominion Nite Owl" is purchasing a new Sky Champion Hope we get lots of reports from you, John. Mike Fern is now issuing a bulletin to his corries instead of writing individual letters. Pretty good idea, Mike.

NRCers will be pleased to learn that Mike Fern, our member in Lihue, Hawaii, will have charge of the DX department at KTOH whose opening is schedule sometime this winter. (Cont next page*)

(Cont from last page)..We hope Mike will keep us posted on developments and we expect many NRC dedications. Take note of the additional dope on this in the members reports.

--LPO REPORTS--

C.J. "MIKE" FERN, Kauai Hawaii. Summer DX here has been quite good considering. In August I landed KPAB KROY KFJZ and VK4BH which is sorta going to town from here. T'other day I landed WLB on the freq checks and 3YA, on their regular schedule. Latest are CKOK and WKY. All this on the Patterson which is not as good as should be on the BCB. KTKC is to go 1 kw day and nite on 880 kc. WSPB comes on about November 1. WTAG up to 5 kw days same date. I wonder if anyone heard the special from KFYZ at 2:15 AM Aug. 10? 'Twas planned to reach former North Dakotans informing them of activities the states Golden Jubilee celebration. WELI full-timed Sept. 4. Tell Pat Reilly to send me S&E contest rating for this part of the world.

ERNIE COOPER-Brooklyn N.Y. There's lots of interest between 2500 and 2900 kcs. Do any of our members DX on this band. Also wonder if the coast guard stations will verify? I heard NMN at Norfolk on 2662 kc (8/14/39) at 10:56 PM and NM(B)? in Cleveland a moment later on 2572. Private tanker "Reilly" with call WOHH or N on 2750 kc at 10:50 PM. I have verified KIPI Beatrice Neb, and KAYG Rock Springs Wyo last season on 2726. They are owned by a natural gas company (KIPI) and the pipe line (KAYG) are used to patrol the pipe lines when land wires fail. Would appreciate tips on KGGF and KGFY. WKBH is possible under WING on Sundays from 12 until 12:30 EST Hearing CMHI on 830. CBK hrd first part of August. CBA pounds in every night. (Sorry your report went astray befor Ernie. Will expect more from you now and also your entry in the S&E contest)

CLIFF TAVENER-Rosenberg Texas. KTOH Lihue Kauai Hawaii plans to start tests about Feb 1 1940 and C.J. Fern, JR. will be in charge of DX reports. Will appreciate any suggestions as to musical content, Spatari, special prizes, veries, etc. Send all suggestions to C.J. Fern Jr., Radio Station KTOH, Box 1748, Lihue Hawaii. (Tx Cliff, and we hope that Mike will get a lot of suggestions from the members.)

FRANK SCHMIDT-Pittsburgh Pa. Am now operating on 1835 kc. in the 160 meter band with 18 watts input. Call is W8TUD "Transmitting Under Difficulties" Have a nice QSL card that I'll send any fellow NRCer that reports me correctly. Schedule is usually evening up until 11 or 12 PM EST.

DICK COOPER-Kittanning Pa. Conditions very poor past several weeks with noisr level very high. Only bow catch was WC NC on Sept. 24th. Recent veries WFMJ CBK WING KTAT WJSV and WLLH (Lawrence zmtr) letters and cards from KEX and KFPY. Went down into the duplicate files for a report to KTAT that was never answered and received a nice verification promptly. WFMJ have a very nice letterhead. Reports out the past week to KPMC WBBM KFAB and WBIL. A letter from KPAB advises that they are contining the all night programs indefinitely and will continue to send souvenirs for each report; different souvenir each time. They sign at 3 AM EST during the frequency checks. Programs are being sponsored by Hotel Mountain View and Resturant Royal, both located in old Mexico. (Hope to have a gang of the NRCers down in early November and any DXers will be welcome. Watch bulletin for exact date and drop me a card if you figure on coming. Probable date will be Nov. 12th.

October 9 1939

STEVE MANN-Lakewood Ohio. Have sent reports to CMX CMBH WFBM XEB KSAM WING CMBH badly QRM'ed by police stations. XEB on the 8th and 9th after 4 AM when CKLW signed off. Have also heard TGW very well (up to R8) in the evening. Also LR5 back of KOA, but couldn't get a log on him. HJAN (ex-HJLABN) heard weakly back of WOAI. Static here is terrible but I've tried to concentrate on the signals and have managed to log a few weak ones. Sure enjoyed the convention. There sure are a bunch of swell boys in the NRC. KTAT has changed call to KFJC and are now on 24 hour schedule. They were heard R9 this morning, CMQ was testing also (8/11/39)

RANDOLPH HUNT-Leucadia Calif. Today Oct. 3rd checked KGMB Honolulu and found them on 1320 kc., the move to 590 has not taken place. KTKC Visalia Calif has been a full time station using 1000 watts on 890 kcs. since Aug. 24th old frequency was 1190 kc. KVOB Denver is now heard on 630 kcs. instead of 920 kcs. In a previous report I said "I think that a lot of JO veries held in the U.S. are for reports on the five minutes of news in English from 1:55 to 2:00 AM P.S.T." I forgot to mention that this is a chain program with a possible SW relay, sometime ago a prominent "Radexer" wrote that this program offered a good chance to get a Japanese BCB verie, I wonder if this is the way he got his? No veries in or reports out for some month have a Hammarlund HQ-120-X and it is plenty good on BCB.

JOE BRAUNER-Williamsville N.Y. Dx has been pretty good, but nothing very startling has been tuned in. Note that WEDC is on some mornings agin; the new rig shows an R8 signal here and what will happen when they get their permit to use 250 watts at night!!!! Another good channel ruined. On the other hand, WIL seems to have eased up on the all night programs, as has WJBW. I've found 1200 fairly clear at hours formerly used by these stations: New DX as follows August. WGBR, first test, on 8th. Verified with printed card signed by H.H. Lance CE.. WING 12th FCC test, No reply as yet.. WSKB first test, 18th Veri, letter, signed by Robert L. Sanders, C.E.... September KELO 1st, late war news program, Veri, letter signed by Les Froke... WDSM 7th lest, veri, letter signed by John Wilcox, Continuity Mgr. & Announcer. XERH, heard 3 to 4 AM on 23, 22 and 25th. Some English announcing. No reply yet.. WCNC, 23rd, first test, veri, letter signed by Lewis Hiland CE, Ham, W9OCX. All veries received by return mail except WGBR who took about a month, also have a very nice letter from WNOE, by Raymond F. Hufft, Mgr. Heard, but nor reported untill recently.

ROBERT BLANCHARD-Brooklyn N.Y. (I hope, as there was no name on this report. Hi. HMG) DX picking up here. Since July logged CBK WATR WSFA WRAW KATE WHLB WGNC WNOE WJBW KLCN KOCA KVOL WGBR WLNH WJHL WKST WBAX XEW WCNC WTAD and CMHI. Veries from CBK KATE WHLB WNOE WGBR WLNH WJHL WKST WCNC... WELI heard on new frequency of 930kc/s... WTBO WBIG heard testing, WTAL heard on Sept frequency test using new vertical radiator 187 feet high.

MERLIN STEEN-Decorah Iowa. Am on another trip, will go to Omaha, Council Bluffs, Shenandoah, Des Moines, Marshalltown and Watrelou. (HQ received a card from Merlin in Sioux Falls S.D) XEAW KBST and WBOA latest veries.. (Now I am wondering how many veries Merlin gets on his trips, Hi. Ed)

((KSL**SALT LAKE CITY-Will DX EACH THURSDAY MORNING, 2:45 to 3:00 AM on 1130 kcs. 50 kw. Watch this station for late tips....

RAY EDGE-Buffalo N.Y. First to all those I meet at the convention, a very good DX season to them all and I want all of them to know that I had a very swell time and hope to meet them all again next fall. A swell bunch of fellows. Here are my activities since the last report. (April 26th) Have sent out 44 reports and have 33 veries back which are, cards from WLAC WSAJ WKOK WJBC WAVE KOMA CKCR KGLO CFCO WGAR WLAP WHAT WEST WMBD WCFL CFRB WWJ and KOA and letters from, WTAM WBBL WBNF WIL WOAI WPEN WSPD WHK WPAD WCBS WFBG KFJZ (on 1240 kc) WCBA and from CKPC which I had to go to Brantford Ont to get also a letter from WADC to which I went to Akron Ohio to get. WJNO finally sent theirs out since Mar. 14 1939, the other late ones are letters from KFJM WSMB WBRB KOIL and WGBB and cards from WJNO WALR. Tried the last few mornings for some of the new ones but could not catch any I did get some that I did not have, after getting a verie out of WBNO I sent a report ~~to WNOE and see if they will take as long to send as they did when they were WBNO..~~ We have had a few real good nights for signals, on the 3rd I heard 4 west coast stations of 1000 watts but I could send reports to only one as I have the other 3. I have tried to log WCCO on 810 but all I get is some Spick, WGY on 790 is as weak as some of the west coast stations, also on KOA's frequency there is a spick that dominates all evening, most of the time. Got the new frequency check sked from the F.C.C. and its OK. All set to get the ones I lack. Well that is all for this time and am glad the time for the weekly bulletins is here, missed them this summer and I will try to have at least a small report in every one of them.

JIM WALKER-Romney W.Va. 9/24.39 Veri in from CFCT 9/25 1:55, WPAY test 1 AM, WCNC test 3AM, WGPC on for test, KFSG R6 at 4am, signoff. WHN, WKBO test. KFH and WFBC sign on at 6 AM, program Swing Session. WFVA on 6:30 still putting a fine signal at 11:45am. WHIO WTAR XECL KALE KFAC having a scrap on 1300 2 AM. Apicks on 1240 at 3:10, 1310 3:20, 1420 3:15, KYA off after testing 5:40. XEDH WFVA. Latest veries CMCM. 9/21/38 1:20am R7/WISN on to 2am/ CMBL test 2am/WLAP 2:15 WHIP test 2:25am R9/ WBIG off 2:32 testing new 5,000 watt xmtr. KPRC test on 920 kc 3am/W8X0 on 700 4:25am/ Veri from WCNC signed by Nicholas Pieler ES. 8/30/39 KIDO R6 1:30/KRGV signing off 2:05/KVEC R5 at 3:03 sign off. XEDH testing and asking for reports 3:32 AM on 1340kc/s. Letter from Chief Eng of Canadian B. Corp. He says he talked to a member of the staff of CFCT and he said they were now sending out verie cards to all reporters. Whois the spanisher on 670 kc at 1:45 8/24/39. Think is was a Mex. Station call at 1:50am QRM by WMAQ carrier. What station played "Where are You" at 5:05 an 1310 gave station call and left the air. Will some of you please drop me a card and tell me who it was. WBTH on for test at 4:15 said 3 stamp or no verie under any condition, send reports to Bill Norman. 1/24/39 LR3 QRMd by KFVB 1:15am. WPAR freq check 1:15/ WCPO R8 1:30/ Who was the Mex who signed off at 1:10 on 820 kc/ Is the Mex on 670 til 2am either XELO or XEAO the sign with Laploma. XERC testing on 830 at 2:15 american tunes. KFVD KFAC KLS KWJJ KJBS KSAN KGB KJR KNX KFI KPO KOIN KEX KFPY KFVB Etc all very fine between 3 and 5 AM..

"AROUND THE WORLD WITH THE NRC"

Well, this issue of the bulletin, we start to get down to real DX and the bulletin comes to you here after each week. I am certainly glad to see so many of you fellows sending in reports so regular. It really shows that you are real NRCrs. I still would like to hear from alot more of you, So you chaps that haven't sent a report in for some time how about dropping me a short report for the next column, I am sure that many of your friends would like to see reports from you. To you chaps that sent in reports for this bulletin thanks alot for your splendid reports, and now till next week, Best 73's, to you all: Editor.

The Voice of the Assnt Editor:--This time your Assnt Editor wants to give you a tip. Be careful of the headphones you use, as I burnet out my phone jack by using a pair of phones with one side dead. I was lucky to catch on so quick as it would have ruined the set. So if you get your set checked, get the phones checked to. Leo Herz.

EDITORS CHATTER:- According to Radio Guide, the mystery station on 15.390kc/s is said to be RV-99 of Irkutsk, Siberia. Paris Mondial, are now using 100,000 watts power on short wave transmissions According to announcements from Daventry..GSW-7.230kc/s schedule is 6 A.M. to 12:45 A.M. daily.

A new Polish station has been reported heard on a frequency of 7.280kc giving the call as Niepokalanow, hrd sundays from 1-2 A.M. Radio Guide John H. DeRosa, informs your Editor, Note. Just got back from my very exhaustive search for the missing Mars signals, and for the information of all my good NRC friends, allow me to say that said signals were found QRMing Cliff Tavener, with the results that Cliff went on a bender and the last reports state that he is suffering from a terrific hang over.

Robert Blanchard, tells me that he just received a QSL from Radio Luxembourg and SPW, and that by the way is the last from Poland for a while at lest. Bob says that the NRC News is great as usual. Your Editor just received a QSL from XGOY and XGOX from a report which was sent out last Feb. 25/39 QSL by letter.

Larry Lundberg says that he is going to stay a bachelor, his sister got married on Sept 23rd/and Larry thinks that there is too much fuss and bother.

It is rumored around here that John DeRosa and Bob Blanchard are going to try B.C.B. DXing this coming winter, I wonder why.

Your Editor right now is working till 9 P.M. daily and I will not be able to answer my mail as I would like to, (by letter) I'll have to reply by cards till such time as this over time is over, so please keep reports coming my way. Thank you:
