CONVENTION DATES:- The JOINT IDA-NRC Convention (Midwestern) to be held
under the Auspices of the WORLD WIDE DIAL CLUB of Chicago with all DX-
ers welcome and invited. Will be held in Chicago JULY 27th 1940. Mark
this Date in your Calender...(The Annual National Radio Convention will
be held in Erie Pa. August 31-September 1 and 2nd. Mark down these two
Convention Dates and plan on attending one or both.))

SOS-SOS-From Ray Sahlbach-3239 Liberty, St Louis Mo. Who was on 1200 kcs
at 3:45 to 4:00am 3/19/40 signing with "3 oclock in the Morning"and pro-
mising to be back 3/20 but didnt come on. Who was on behind WEDC -4:00-
4:15 am 3/20/40 with recordings,call sounded to end with ??IL.

JACK GOODRICH-Southgate Ky.I would like to submit my 1st report as I
just started DXing Feb.13 1940. I guess I
wont be considered so good compared to you other guys. Heres one heard
on Mar.18,that some of you guys might try, who have a set like mine,JSK
Tokyo Japan heard them for 35 minutes on Mar.18. Veries recd today,Mar.
18 are WRTD KGW KEX CBL CBR KNEL KMBC WCOA KFBK KOIN KANS KOCA WJLS
WHLB KGKO KARK WCOS KFVB WREN WOPI WKBZ WPAX & WSAU, 23 in one day aint
bad, I now have hrd 276 & 126 verified.

We will have to put out a SOS to you members, a few weeks ago a couple
of us smart guys figured out a new Department we call it the "Internation-
al Division" this Dept works on one item alone, it takes care of the
"Worlds Station List" we gather information direct from the Governments
of the different countries, now we have ran into this we find we have
so many stations to list its impossible to get them all in the bulletin,
what method shall we set these up, would you members be willing to help
in the "cost" to make up a Mineograph booklet that would be "Correct"
with Calls, Owners, Location, address's and ect. This will be one of the
biggest jobs the club has ever undertaken, but personally beleive it
would make the DXing for "Foreign" stations easier. We could issue these
booklets, four times a year, and then keep the "CORRECTIONS" if any in
the regular bulletin, in this way we could keep a "accurate" Worlds list.
I said two smart guys, we didntfigure on the work Hi.

TIPS AND LPO REPORTS

1281 Ramona Ave.,

Erie Penna

Lakewood Ohio

RICHARD DANEKER-Lansdale Pa. Having just enclosed my fee of \$2.00 for 1 yr membership, I think it fitting to introduce myself and tell a bit about my DX activities. I am 27 yrs old married and belong to the NNRC IDA WDXA and Radex club, at the present writing I have a log of almost 900 BCB stations and about 300 SW, making a total of close to 1200 stations heard. I have 718 BCB veries from 19 countries (OM check the NRC VIS/VIC rating, and enter yours. Ed) on SW I have 166 veries from 54 countries making a total of 58 different countries verified. Have been DXing since the spring of 1936. Operate a 6 tube Grunow receiver untill last October when I bought a Hallicrafter SX-24 Man! What a fine receiver, works beautifully on both SW and BCB. Take it from me Hallicrafters SX 24 is the buy. I have all the states in the USA verified Europe, North and South America, Central America and New Zealand verified on the BCB. The antenna I use is a 100 ft Marconi, 30 feet high running approximately NE by SW. This seasons best reports (or I should say catches) are 1YA 2YA 3YA 4YA 2YC 2YH in New Zealand. Underlined are verified. 6WA and 6WF in Australia, EIAR in Tripoli, FQN (verified) in Miquelon; Toulouse, Lyons PTT; Paris Ptt; Bordeaux; Radio Normandy; North Regional; LR6 LR3 LR4 LS11 LS2 (last two are verified) YV1RF YV3RA TIX TILS TIEP HJBJ HJAH HJAA XEAG HOK HJAN EIAR in Milan Italy, XEAO CKMO CKWX TGI TGQ and Riga Latvia all on the BCB. (All underlined are verified)

ED FEICHTNER-Erie Pa. I thought I had better get a report in or else some one might think H.M.G. cut my aerials down. (Thats a joke, someone else did that job. H.M.G.) Nothing much to report managed to get a few veries in KWFT TILS KVFD WSAI WORL CJCS KHSL WENY and CFRN. I was up sunday AM and managed to hear HOK WLPM and WFIG. I was also up on the 19th and hrd WDLF, I also was up On the 20th but was unable to log HOC too much WHOM. One of these days I'll fool you guys who I owe letters to and answer them. It seems here in Erie we have some difficulty in answering letter, ask Harry he knows Hi. (Your trouble is different than mine OM. Ed Has the Wagner trouble, you know what I mean. Ed.)

JOE BECKER-Hamilton Ohio. WDLF was hrd on 3/18/40 on their initial test program they completely drowned out WIL. KTW hrd on 1220 kc dedicating to the NRC. WGBR had a nice program for our club, and said entire program dedicated to the NRC. WSAJ sent me a verie card marked 4th consecutive freq check report. I have very little trouble getting veries from the USA stations, have no delinquent USA stations. Believe it or not, with delinquent USA Stations and active stations hrd since I began DXing I have the nice total of 1000 USA stations verified. Only USA reports out are KHUB WLPM WDLF. I all wvas said I never give up once I hrd a radio Station, I keep after them untill I verify them, but it is a different story now, because I have entered these on my Black list page, TIXD XEAI XEAU XESM XEBZ XMKH CMKZ LR6, I have sent each of these 8 at least 3 follow up letters to some I have sent at least 6 follow ups, some of them have received at least 3-4 or 5 dimes. No sign of HOC or TIRS on the 20th, I tried from 3:15 untill nearly 4:30 AM (OM there was some last minutes "Interruption" on the HOC program, and I was notified to late to get word to them. Word arrived Saturday, program was suppose to be 20th., so it was to late, to notify them More later on this. Ed.)

PETE LANDRY-Montreal P.Q. Well I have pulled in quite a number of good catches since my last report to boost my total hrd to 596 and hope to reach 600 mark this week. I have made the following catches-Canadians: CFLC CKPC CFCN (though CKLW) CFJC CJAT (Though XENT) CFAC. West Coast KVI KOMO KSFO KMO KOL KYA KFSB KOIN KQW KTW (Club special). Special DX's WLPM WHOP KVGB KTRI WFIG WBAB WTMA.- FCC checks: KGIN WEMP KEUB WOLS.-Others: KGNO KOIL WDAY WBBF KTFI and W8XO (which I hrd last evening from midnight till 12:30 broadcasting the regular program of WLW). I am hoping that the elections coming up next week in Canada will have the stations staying on late but I have my doubts as the results are generally out very quickly...SOS---What was the station on 1370 kcs Sunday morning March 10 broadcasting a request program from 5:21 till 5:57 and probably longer. Was this WATL Atlanta. Hrd KCNO testing 2/17 at 2:40 EST. On 2/18 I hrd KTW broadcasting for the club. Luckily they continued after 4:00 because from 3:00-4:00 they were about R2 and as KWSC was testing with an R9 signal. But after 4:00 KTW went up to R6 at times.

JESSE STRAWN-Whiting Kansas. Veries coming in very slow. Only new ones last week were WHOP WHBY and WGTM. Only sent out 8 reports the last week. The best one being WNBC which was a new one for me. I couldnt get either HOC or TIRS on March 20, and darn it I wanted and needed both. Will someone please tell me who to address WRAW report too. The last FCC the announcer gave his name as Tommy Davis (I thought) and I addressed the report to him, but it came back as Not Found Hi,.) From the look of the Tip Page this month the URDXC must have the Mexican stations. Veries now total 236.

JIM WALKER-Cass W.Va. Here is a list of the N.Z. Stations from the Govt Office, from a friend of mine. It was mailed out Feb. 10th so is quite late and must be correct. (Will carry this list next week Ed) New veries XEZ KCKN signer C.E. Safer. New ones hrd WLPM KTW and WDLP. WLPM 3/15 4:30/ KTW & WDLP this AM. KTW QRMED by KWSC, WDLP Q5/R5-7. 3/15 WTSP testing nearly all AM. WCNC test 5:15 AM. 3/16 WJBW 2:50 testing new transmitter. WTSP 2:45/KGNO 3:18/WCSC 3:40/WRGA 2:58, another new one WPT, Ft Myers, very weak under WEDC at 2:30am/ total log now 951 heard, 890 verified. 3/16/40 4QS 1YA 2YC 2YA 4YA all good also if 5RM has moved from 850 kc what TP is there now it is in Australia. Please let me know as soon as possible as I have a report to send. 3/19/40 WDLP off 4AM/WFOR test 3:50/ who tested on 1120 at 4am/It was KSAL testing on 1120 with 500 watts, will use 1000 daytime power/WNBC test 4:30.

NICK EVANGELISTA-west Hamberg Penna. I thought it was about time I sent you a report for the bulletin Hi. I started to use my new electric set and it sure works swell. on the 16 I hrd 11 TP's with great speaker volume. The first time I ever could get enough dope on 2YA they came in here so good that I could not use all the volume on 1 2 3 4YA I could hardly beleive it. There was very little fading on their signals. KGU was also hrd but they had a very deep fade out. I cant kick on this set as my battery set never had the volume this set has this is a 11 tube set, there is only one feature that I dont like about it. That is the way they have the kilocycles marked off. They only have it marked off at every hundred. But I am going to mark it off myself. I have not done very much DXing here of late. Not feeling so very good. My latest veries are WADC WFTM WFIG WENY WHAZ WCOA KCKN KRBW XEZ WBAO this XBAO verie sure has me puzzled my report to them

(CONT ON Page 5 BCB)

BROADCAST BAND NEWS

(Nick Evangelista report cont)-- and they said they were on 660 keys (Could have been a Harmonic OM, the first Harmonic should show on 1320 kc, but could have skipped to 1330 kc., Ed.) but my report was correct now how can that happen??. My XEBZ report was returned to me with post marks all over the letter do you know the address. And ZP15 sent me their Short Wave veric and that sure burns me up as that would have given me another country for my VIC/VIS They sent me ZP14. Will be seeing you in September. Hi, Hope so pal.

MERLIN STEEN-Decorah Iowa. (OM I will never say I am out of news here at HQ again, we will have 40 reporters in this weeks bulletin. Ed.) Mar. 7 Never hrd West Coast stations so good CKMO KSLM came rolling in as did KRE and KARM. WFIG on equip test. WHOP on test, KVGB on test at 3am, Mar. 8 WNBZ WSVS WLEU WTOL and WOL reports off. Harry sounded fine on WLEU. Mar. 9 No DX due to my being at KWLC for FCC test. Mar. 10-13 no DX Low "B" batteries. Mar. 14 What West Coast Station signed off 3:04 EST after giving program resume for next day. SOS to Randolph Hunt: Mar. 15 KGDE off 3:21am, WBNS off 2:04am, KVOX off 3am. Mar. 17 Montana Network still on. SOS who went off 1310 kc at 4:33am EST with no announcement? they had been playing "I have a Rhondeview" twice in succession. Mar. 18 KTW on for NRC 3-4:20 am EST. They were QRM'd by KWSC for about 1/2 hour. WDLP on 1200 with test going off at 4am. Faintly hrd KHBC but too much QRM. KVNU R7 on test 4-4:30am. Mar. 19 WISE off 3:06 KFRC R6 off 3am, KVEC good 3:15, WEED entirely drowned out WNOE at 3:08 WDLP test 3:15, WFIG on test at 2:30am, WBRK at 3:04-Latest veries:- Letters from WBAW WOC WBAL WHAZ XERA WBAB WSAV and WOL. Cards from:- CFRC (Note Bill Stone CFRC hrd good one nite) WNOE KCKN FB card from XEAW (send reports to Dallas) WISE KGU KARM WHDH WADC (WBRK prepared card signed by Norman H. Blake Ch. Eng Note Pete Clarius.) and WCOS (new card) (Eldon Addy: try for WEAN and WPRO at 5am CST I note you need R.I.) To Ray Edge: Whats the matter with WSVS, Dont they verify anymore.) Since March 11 1939 when I had only 391 veries. I now have 712. My log on Mar 11 1939 was 788, now on Mar. 20 it is 883. I have 27 reports out.

GRANT BATSON-Westfield N.Y. More veries came in from Mar. 12 to Mar. 13 than reports out. 11 veries rec'd. Letter WGBB WHAZ WPAD WCBS WDOE and KFBK. Cards KLCN WMSD KFPY with Ekko stamp KARR WLNH. Reports sent out Mar. 12 tried for freq checks but static the worst I ever hrd so went back to bed. Mar. 13 freq checks WPAR KDAL WCBS WPAD. Mar. 14 freq checks so noisy I gave up, on March 15 logged WLPM for a new one on test 3:20-3:46 Q5 R9. Mar. 16 WRGA logged thru WWSW and WJBK Q4 R8, also reports to WSAI WEVD, FQN and WSAJ not hrd because of heavy static. WGBR NRC special reported and well heard. KTW not hrd here. I forgot to mention in my last report, I reported WLEU, NRC special Hi. To Peter Clarius:-KLCN veri came in 4 days, signed by J.E. Harrington C.E. incidently I had very poor reception of it but sent a self addressed Govt Post Card. To Eldon Addy:-who needs R.I. Nevada and Delaware, R.I. stations dont as a rule have F.C but sign on at 6am EST. WEAN on 780 kc., letter veri 11 days. MOH of heno s/o about 3am EST, on a clear channel and for Delaware WILM tests 2nd Monday 1:45 to 2:00 AM EST and 4th Mon same. WILM tip for Jesse Strawn too, might be rather hard to pull WILM thru but try both times. To Merlin Steen, Cowboy program on 1260 probable is Lew Wainkle gang 6:30-7am have heard them, but not for a month or so; WHIO. What time does KID test on the 2nd Sunday of Month (Grant they test from 3:00-3:30 AM EST. HMG) Also when does KIDO test. I have all but Idaho and Arizona verified, report to KPOF and KOA for Col. WCBS letter veri signed Richard L. Ashenfelter C.E....

J. WARREN ROUTZAHN-York Penna. Since last report I logged WDLF and KTW. Received veries from WNYC WDMJ WFIG KFWB KTSM WRUF and WCOS. Mar. 12th KFVS R6 5:10, KOCY R7 5:20, KDLR R6 5:30 to noisy too Dx. Mar. 13 WPAR R7 4:30, KROC R7 4:44, KDAL R7 4:45 noisy reception. Mar. 14 WMFG R7 5:50, KCRJ 5:55 behind interference, WSJS R7 WROL R8. WFBC R9 all starting at 6:00 for the day. WAWZ 6:15 starting, WDOE on at 6:30. Mar. 15th tried for KGFV but WEXL covered up another station I couldnt identify. Nothing of WDLF and WOLF, but lots of noise. Mar. 17th KXYZ R8 and clear right after 3:00 so went to 640 and found HOK there instead of HOC on 1440. All nighters on 1200 and 1500 so nothing now on there yet. WFMJ R6 behind WNOE around 4:00. WESX R8 4:10 testing, and nothing hrd of XEDS after 4:30. Mar 18th. Found WDLF opening up and good signal 3:00 AM on. KTW R7 3:00 to 4:00 on their DX with KWSC riding just over them the entire hour. KWSC off at 4:00 and KTW remained on in the clear at least 15 more minutes.

PAT REILLEY-Jamestown N.Y. Radio still noisy, after years of preying and fishing I finally landed KTW and will I appreciate that verie. WDLF hrd on their initial test also on the 18th. KSAL heard testing (March 19th) on 1120 kc/s with 100 watts. ZNS hrd Saturday night from 9:40 to sign off overriding WGY and WGY sounded as faint as a west coaster behind ZNS. March 16 also good for Zedders and Aussies but a little too much noise to hear a new one. By the mail received here for the S & E contest I beleive not many veries are coming thru for any of the boys. WLVA signed by A.E. Heiser after 443 days waiting, so wait awhile Grant. Hi.

FRED VAN VOORHEES-Grove City, Penna. SOS---SOS... Who was the station on 1130 kcs. March 20 from about 4:25 to at least 4:38. Played semi classics some on organ. No announcements, but played the numbers in succession with a pause between. Q4/R4 reception on fones here... Some notes. WLPM Suffolk Va tested for first time on 3/15/40. Logged R5 thru WNOE and WCBS. WSAI Cincinnati with a late program 3/16/40. Not hrd since tho so I dont beleive that they are an all-nighter. WMBI 1080 heard 3/16/40 with special program. WGES 1360 easily logged on a program of recordings 1-1:30 AM on 3/18/40. WRAL presented a DX program on 1210 3/20/40. Logged R7 over WEDC. WGY 790kc tested equipment from 4:15-4:20 AM 3/20/40. Put ina poor signal here. Suggest members try WTAG and WICC in the evenings. Both have been hrd here in Grove City thru their respectful messes. WTAG verified. WELI broadcasts recordings from 8-9 nearly every evening. WERY recordings 8-9 most any evening.

BILL STONE-Toronto Canada. (Will be back in Camp Saturday March 23.) Since my last report, I have been succesful in listening to, and sending reports to:-WFIG XEL WLPM WDLF KTW ans WISE, veries since last report are:-KVFD WMSD and KNET. In regards to KVFD, their Chief Engineer advises me, that they will be on the air testing on the First, Second and third Mondays from 1:30-2:00) AM, CST; so you can put that in the bulletin, for the boys who have not got them yet. Still no verie from WING, Harold Criswell tells me they have not verified a report to them in January, used to bang right back when they were WSMK. I want you to convey to the members, that in my five years of membership in the NRC, I never have met a finer bunch of lads, and hope that they will push the club to hogher levels than what it is at now. The club gets better every season, and that can only be done, by perfect co-operation amongst the members. Tell the boys I will be gald to hear from any of them at [unclear] but when I get answers the replies will be few and far between.

CLARENCE BURNHAM-Gloucester Mass. This is the first chance I've had to write you lately as I've been in bed with a rotten cold for about a week. New stations here lately are WEED WCHV WGRC WDNC WBRK WFTM WRGA and WKNY. Reports sent out to WEED WDNC WFTM WRGA WKNY WBNY LR2 and PRH8 (2nd report) Veries in from WSLL (crd) WCHV WMAFF WGRC and PRH8 all letters. WDNC was logged on freq check 3/12. On 3/16 WRGA swell DX program from 2:10-3:45 am. WFTM testing 2:55-3:12 am. WHBY testing (new location in Appleton Wis) signed at 2:56am. SOS-- SOS--who was on 1370kc 3:05-3:40am playing records--no announcements, played "Penny Serenade" and "I promise you" at 3:30am. Who was on 1210 kc at same time testing. (all the above was on March 16) WGRC is on till 2:05am EST, daily on 1370kc., WMB0 1310 hrd testing for RCA in Riverhead L.I. WBZ-WBZA will inaugurate soon their new 600 ft vertical antenna and new transmitter at Hull Mass. WORL has replaced their present 500w transmitter with a new one. WEEF is now using 5kw nites under special permit. Letter from PRH8 gives positive verification of my report of Feb.1 They are on 1130kc and not 1120 (as listed in Radex) This is my 16 verie from S.A. and my 6 in Brazil. Friday 3/15 they were heard again (4-5/R6-9 from 8:26 PM to 10PM and so I sent them another report. Cant understand why Hunt doesn't get a verie from LS2. They are so courteous and generous with their veries "that 4 reports to LS2 brought 4 veries hi. I cant get a verie from LR2. Joe Becker may have hrd HJAK on 1140 but I have positively hrd "HJBJ La Voz de Santa Marta" on 1140kc too.

BOB BOTZUM-Reading Penna. Yeap I caught WLPM the 15th- KYUM the 16th- WDLF on the 18th. WLPM verified in 3 1/2 days. Abt that HOK guy, yes I heard them again. I couldnt figure that HOC DX arrangement the. (Bob I was notified Saturday by "Wire" that HOK would be on the 17th., Ed.) On the 20th wed. I couldnt hear TIRS or HOC once in awhile I just barely hrd some faint signal on 640 kc., near 4AM. But it is a ????. On the 19th I landed 3AR OK But on 810kc heard some station for abt 10 min & at 5am heard abt 4 different call letters given. Wonder who I really heard there. (OM you heard a Australian station there, as there are several chains down there now, we are waiting for the ifo on them now. Ed.) (On these Aussie chains all carry about 4 stations each) Veries still growing, now up to 1134.

ELWOOD BOROWSKI-Brooklyn N.Y. Mar.15 WLPM equip test 2:03 am on; KWK 3:28am testing, Mar.16 WJBW equip test 4:12am; WGBR DX 4:05am. Mar.17 WFIG 2:45am; WGY off test 2:54am; WTSP 3:11 am. Mar.18 WJBW 2:15am; WFIG 2:30am; KTW DX 3:20 QRMed by KWSC testing. Mar.19 WGR testing 2:10am; WISE 2:20am; WNBC 3:02am; KSAL testing on 1120kcs with 1kw; WDLF 3:31 am; WFOR testing 3:56am; WEED 3-4am; ??580kcs about 3:15 am, classical music; KLS 4:28 am... --ATTENTION ALL MEMBERS--

Something is happening to our grand hobby of SW DXing. More and more stations are ceasing to verify everyday. More and more clubs are going out of existance every minth. Just today I received notice that the DXIEC has went out of business. What is causing this ? Is some Radio Club the fault of this change ?. Can it be the QRC ? Are DXers sending poor reports to the stations or sarcastic letters ? Are the stations sick of getting reports ? Surely something is happening to make this change in our hobby. More and more old time DXers are giving up our hobby because of the above situation. Something MUST be done and HAS TO BE DONE SOON! Your Editor is willing to cooperate in anyway, whether it be money, Time or effort to bring back our hobby to the level it once knew. I would like to have your ideas and comments on this article. I would like to hear from everyone of you DXers. No other hobby can be found anywhere that can be more interesting or instructive than our hobby of radio DX. Lets do something to bring it back befor its to late! I am willing to co-operate. Are YOU ? (Larry Lundberg)

--THE VOICE OF THE ASSNT SHORT WAVE EDITOR--

What are YOU doing to help your club ? Ask this of yourself! Are you an active member by sending in reports ? Remember this is your club, for the members and by the members. I did not realize this so much, but after a visit to HQ last summer, I have come to the conclusion that every member should be as active as possible to the extent of reporting his or her DX as often as possible. 73s and DX--Leo Herz.(VFB article Leo OT but from the looks of this bulletin the NRC members sure are doing their share for their club)(Larry).

--1940 SHORT WAVE CONTEST STANDINGS--

Did you guys and gals notice who entered our SW contest 2 weeks ago ? Hi! None other than OM Harry Gordon! VFB Harry OT and I see where we are going to have some real competition from HQ this year. Looks like the rest of we mugs will really have to buckle down if we plan on winning a prize now.Hi!

<u>MEMBER</u>	<u>Points</u>	<u>Veries Entered</u>
Larry Lundberg	15	OAX1A OAX4Z HP5H H11G H11N CHNX
John H.DeRosa	4	K4FOW K4ELR XE2JK K6MXM
Stephen A.Mann	4	HP1A HP5K
Leo Herz	4	YV5RM
Harry M Gordon	(7)	COCY HP5A

Welcome John DeRoas & Steve Mann to our contest. Nick Woytan and many of the other lads plan entering as soon as they receive veries. This shows real interest in the contest.

--SPECIAL FLASH! FLASH!--

On April 14th, 1940 the Hungarian Short Wave radio stations will change call letters, Frequencies and direction of antennas. At your earliest convenience tune to station HAT4 9.125 megs from 7:00-8:30 pm EST for further information. HAT5 will be heard April 14th on 9.625 megs or 31.17 meters from 6:35pm-8:00 PM EST and HAD 11.830 megs or 32.22 meters I could not copy all the changes being made fast enough so tune in on HAT4 for first hand information. (Larry Lundberg)

SHORT WAVE NEWS

--REPORTERS FOR THIS ISSUE--

We take pleasure in assigning Jack Welsh as NOLPO # 33 and Nick Cannata of Chicago as NOLPO # 34. Welcome fellows to our ranks.

NOLPO # 6 Carl Forestieri 2224 Adams Place, Bronx New York
 NOLPO # 7 Merton Hiatt-Box 7, Dryden Washington
 NOLPO # 9 Fred Alfred-748 Little Grey St., London Ontario
 NOLPO # 10 Nick Woytan-309 S. Wilbur Ave., Syracuse N.Y.
 NOLPO # 16 Mel Oliver-804 National Standard Bldg., Houston Texas
 NOLPO # 18 John H. DeRosa-661 Ovington Ave., Brooklyn N.Y.

 NOLPO # 32 Gail T. Beyer-3226 Sunnyside Ave., Chicago Illinois
 NOLPO # 34 Nick Cannata-1003 South Halsted, Chicago Illinois
 Leo Herz, Assnt Editor

WOW! Hooray! Whoopee! And other quaint expressions of joy, mirth and enthusiasm! Will you look at all the reporters this week! Who said the NRC didnt have active members ey what? Thanks a million you loyal members. With reporters such as you fellows supporting me we are bound to go places with the NRC. Next Bulletin comes to you April 6th. Have all reports in to your Editor no later than March 30th 1940.

KC4USC 14.248 megs, The Byrd Expedition being hrd from 10pm-1am EST may verify reports. All cards should be sent to the ARRL but no veries shall be sent till 1941. This information is not verified as yet but there is plenty of time to send reports anyway. However we wanted to pass this info on to the NRC members so that they will be on the look-out for this information in a future bulletin, K4USE & KC4USA is not in operation. They will operate on both the 20 & 75 meter band (C. Forestier)

TUNE FOR K7HCX, Whitney Lewis, Fairbanks Alaska on 14.154 megs every evening. He signs off at 9:55 PM EST. (Forestieri)

Tune for CP2AC, La Paz Bolivia on 14.315 megs from 11:00 PM to Midnight EST. The call is not listed in the call book but his QRA is P.O. Box 268 Hâ is free from interference. (Forestieri)

--QUESTIONS & ANSWER DEPARTMENT--

Merton Hiatt: "What SWBCB station is operating on 36.000 megs.??"

Fred Alfred: "Who is the Spanish Station hrd on 11.450 megs around 8pm with R6/Q4 signals and playing a lot of Tango's? ". Who is the Chinese station hrd on 15.190 megs from 9-9:30pm EST with a steady R5/Q4 signal. Native music and talks in Chinese" (XGOX Szechwan China operates on 15.200 megs Fred from 8:30-9:30 PM & 10:00-11:05 PM EST. Editor)

Gail T. Beyer- The station I reported in the last bulletin on 11.840 megs may be the Madras transmitter listed in the IDA as being on 11.875 megs who operates in parallel with VUD2. Dont see how I missed the freq by so much but may have been due to moisture in the air or my receiver being cold. The latter always affect my dial readings.

Any help on the above questions will be greatly appreciated by your Editor and the members.

--AFRICA--

MOZAMBIQUE-CR7BE-Lourenco Marques, Portuguese, East Africa 9.640 megs hrd with good sigs from 3-4pm. They use 10,000 watts power according to Radio Guide. This station is also licensed to operate as CR7BF 11.835 CR7BG 15.285, CR7BI 17.915 and CR7BE 9.640 megs. (Alfred) Hrd R8/Q4 from 2-4pm daily, (Mann) Hrd R6/Q4 with much weaker signals now from 2-4pm. (Herz)

---NEWS OF OUR MEMBERS---

John H. Derosa has been a very sick man for a long time just getting out of bed a short time ago. We all wish him a speedy recovery and hope all members will be patient when waiting for a letter from John as he is swamped with mail.

Mel Oliver also has been feeling bum with the flu and has done very little DXing of late. We also wish him a speedy recovery.

Gail Beyer has sent reports to XYZ VLQ VLW2 & CR7BE this year. Also sent your Editor a VFB shack photo. States that VP2SA took 11 months to verify and that PK2LZ sent a photo of his shack and one of the hotel of which he is manager along with some VFB information about himself and town.

Fred Alfred built himself a record player and is having a lot of fun these days with it. He made it out of an old 8 tube radio taking the Radio part out and left the amplifier stage in and added a dynamic speaker. He claims it works swell. (Hi Fred are you still alive, havent hrd from you in weeks. HMG.)

Steve Mann sent your Editor a VFB check photo for which I want to thank him. Steve is a real dyed in the wool DXer and speaks & write Spanish Fluently which is a great help to him in his Radio reporting and DXing.

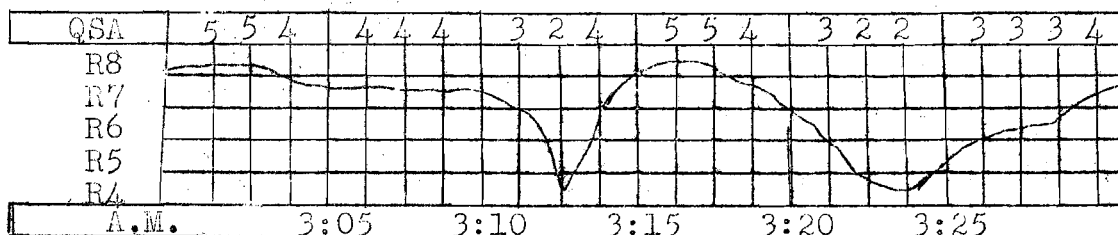

Leo Herz sent two reports to ES5D, one Air Mail and the other regular mail. He dont want to miss this one.Hi! He also hrd your Editors name mentioned over WTAM. Has lots of VFB reports out yet for the 1939 wontest.

Nick Woytan logged CR7BE CXA6 YUC & YNDG for new countries this year. Hasnt DXed much lately but plans on doing a lot in the near future.

Cliff Tavener says the veries are coming in once again and state he has plenty of reports out yet for the contest and for everyone to hold their Hats.Hi!!

Jack Siringer is busy these days DXing on the BCB. Says his idea of a Sw contest is as follows. Contest in which points are awarded for VIC for commercial fone,SWBCB & Amateur. In other words it would be possible to receive only a maximum of 3 pts from a country. For example CO2AM CMA5 & COHI would be the most points (3) one could receive from Cuba ect. (Very good idea and is food for thought for future contest Jack OM.)

--HOW TO FILL OUT REPORT FORM--

The above is the graph, if you will note the station signal here fades in an out, the above QSA gives you the readable signal's. QSA-0 Nothing understandable..QSA 1-Just readable enough to decipher whether music or speech is in program, but insufficient to distinguish the type of music whether orchestra, piano, singing, violin, etc...QSA 2-Sufficiently readable to understand whether orchestra, singing, man or woman speaking, but with speech readable only in isolated words...QSA 3-Fairly readable Speech readable in patches thru a background of noise.... QSA 4-Quite readable, although occasionally portions of speech or music are not quite followed... QSA5-Perfectly readable, every word absolutely distinct.(Now you can get the idea of the QSA reading above) As to the minutes marked below, I change these according to the amount of time I log a station, you may count each line as 1 minute, or count each line for 3 minute periods instead of having 3:05 then count your lines to the one that runs clear across the QSA reading you will find you will have, starting at the left 4 blocks over to this line that runs thru the QSA reading, if you are logging three minutes to a line then mark in 3:12, as you note I started this graph at 3:00 AM. As to your R signals mark the peak of the signal at the top and carry the signal down to the bottom, say your peak is R5 start with R5, then mark in R4 R3 R2 R1 regardless if the station would fade to the R1 position allways fill it in this way. Its very easy to get on to fill out this graph after you have worked a few, just make notes every few minutes as to the R reading and QSA reading. (More next week on this form)

EDITOR:-Fred Van Voorhees-33 Memorial Hall, Grove City, Pennsylvania

 Heard on the band:-

2522 kcs. WOX St. George, Staten Island, N.Y. has a Construction permit for a new 400 watt transmitter on this frequency. (FCC)

2670 kcs. USCG surf station at St. Simons Island, Georgia heard at 6:25 PM. (NNRC)

2726 kcs. WRNO Emergency station at Swainboro, Georgia.

2738 Following list of stations heard by Randolph Hunt, Leucadia, Calif

WCWY	Trawler Vampire	WDJS	Trawler "Carefree"
WCPR	"Ohio III"	WDLU	"Pioneer"
WCPN	"Milwaukee"	WFFV	"Bremen"
WCTC	"Canoa Grande"	WNIX	"Petrel"
WCNP	"Western Clipper"	WNNB	"Skylark"
WCOQ	"Western Monark"	WNOG	"Traveler"
WNWQ	"Maude"	WNQK	"Sunshine"
WNZL	"Southland"	WNJK	"Victoria"
WOBH	"Johnnie Boy"	WOUJ	"Dauntless"
WOLI	"Costa Rica"	WOUZ	"Sea Plight"
WOTQ	"St. Joseph"	WOTR	"City of San Pedro"
WPZR	"Argo"	WPRX	"Santa Maria"
WPTO	"Western Star"	WOXX	"Valencia"
WPOP	"Venetian"	WPME	"Donna Joe"
WPKD	"Lucky Star"	WPKU	"Sea Queen"
WPNJ	"Sunset"	WTYE	"Western Chief"
WTXI	"Reno"	WPND	"New Ambassador"
WCNQ	"Bainbridge"		

These stations reported that many were bothered by broadcast band harmonics, and according to Randolph they mentioned KFI and KNX.

COMMENT:-

JACK WILLARD-Denver Colo., reports very nice veries from KYZF, United States Immigration Border Patrol station at Alpine, Texas, 5912 kcs., and from NMF, United States Coast Guard control station at Winthrop, Massachusetts. Jack says that his NMF verie is one of his finest. He learns from it that NMF is glad to verify all reports. We can also add that NMF of Rockway Point, New York, will be glad to verify, as will NMV, Jacksonville Beach, Florida. Jack is a new member from the Rocky Mountains, and we'll be looking for further reports from him.

We are still waiting for the list of changes from W to N in the lighthouse stations. It has not come through yest. Will pass it on when it comes.

See you again soon.

--MORE INFORMATION ON REPORT FORMS--

On Page:-4 of the Report Form you will find the QRM, which refers to "Static" in this space I use this method if there is no static I just write in "NONE" or Slight, Rather bad, and so on under the INTENSITY. Under the Sourse I write Local, or Distant, this can be judged by the way the static is coming in at your location, if its heavy bursting with loud crashes its local, or if its way in the back ground its "Distant" Under the Type you can judge this your self, by Intermittant, Erratic or Steady. This QRM is best judge on reception, sometimes a station will cancell the signal, other times it will build up a signal, and other times they will both be coming in with the same volumn, under the QRM Sourse if the signal is cancelled I write in Destructive.
