WATN-WATERTOWN N Y Here it is, kiddies, another fine show on tap from our good friend and member, Mr. Righter of WATN. Be sure to listen and have another enjoyable half hour or so. Remember Harry will dedicate selections to those who report. So be in there listening to LONG & SHORT HAIR on the receiving end of it. Mr. Righter now wants to know what NO HAIR is??

WASK-LAFAYETTE IND Mr. J Spring, Chief Engineer of this station is a real friend to the DXers and he has volunteered this program for all of us to listen to. WWDC will bother them for many of us, but WASK should cut thru them so dont forget to give them a good try and a report. Dont forget to mention that you are a member of the N.R.C.

CFQC-SASKATOON SASK Here is a station that most of us still need, and this will be a grand opportunity to hear them in the clear. We appreciate this dedication and hope all the members will be up and tuned in. Mr. L.C. Hoskins, Chief Engineer agreed to the broadcast of this special show so be sure to address your report to him. So, heres hoping for good reception Mr. Hoskins and plenty of reports to come your way. Arranged by Bill Stone.

WXLS-NARSASSAUK GREENLAND WXLS promised to do three shows for us if the first two were not heard well and we feel that they will be with us again, either from 3-4 or 4-5, probably the former, 3-4; So far the luck has been all bad in respect to conditions on their dates-lets try once more--our luck is due to a change soon. S/SGT Lyle E. Fenner is now the station manager, so send your reports to him. % WXLS, APO 858 Postmaster, New York NY If you dont hear them PLEASE send a THANK YOU CARD.

Word has been received that CKLN will be on January 28th 3:15-4:15 AM EST as listed in last weeks issue of "DX NEWS" A short write up appeared in that issue and was sent to Miss Joan Orr, so this issue will not be mailed to her as it would not reach there in time. However to those receiving the bulletin 1st class be sure to tune in and report, send them to Miss Orr.

Also word from CFRN that its impossible to DX but glad to next season. Plans for a 5KW job and staff shortage reasons for no DX now. Bill Stone.

Remember listen to all DX Programs. If impossible send that THANK YOU CARD.

PETE CLARIUS-STATEN IS N Y Well I have logged a few new stations since my last report WNEK-CFOR-CFAB. Veries have come in from KPRO-WNEK. This brings log to 949 with 836 verified. To REILLEY-"BROADCASTING" can be bought for 15¢ at most newstands or can be had for \$5 per year, you get the magazine every week plus a giant yearbook which itself is worth \$5. The QRA is--- Broadcasting Magazine 870 National Press Bldg Washington 4, D.C. To LEFTY COOPER-Please do not think that I have forgotten about your DX get together because I have not written you, but I want to try and make it for a Sat night so as far as I know I will not be working Feb 9th but will write you in a week and let you know definitely and give you directions to get out to Staten Island-Ni. (Yep boys these DX gatherings are swell)

BOB SPENCER-BUFFALO N Y Wow 4 veries in 1 day, copper sheet KGIR-card from KFVB and letters from WDSU-KEX. Today letter from KSL; Rec airmail letter from CMHK about the DXes on 1/28 & 2/24 but they did not verify my rpt. Said on DXes will have English announcements. So wrote them I would be listening and asked them to include data to verify reports, and my 12/20 one. No go on Algires, KCOK was tough but sent rpt, KFXM interfered. CFAB was swell and CKRM too much noise to hear them so went to bed. Heard KWSC s/off on 1250 kcs same AM. (OK Bob and maby a little later time will be plentiful)

RALPH JOHANNIS-BUFFALO N Y TO MALEY I hrd KABC on 1/14 distinctly with 4 calls 5:41-5:50 on 1450 kcs and also hrd them already on 680 1/10; Like test dope on WWPG; Getting tired of listening to same stations test, only itsqa different day or time and miss those I could use. 1/17 WMSL test 3; WBRE 2:34-2:44 for another f-up; 1/18 KRIS test off 4:30; CKGB for NZDXA till 4:02; KWIL 4:19½ off; WRHI at 2:15 QRMd by WEXL; 1/19 WSSV for NZDXA till 4:01. On 1320 hrd a spec brdg also Spanish talk after 4; 1/20 No calls carrier comes out, WNEK s/on at 6; KQRS F/C 4:15-4:30; KFXM s/off at 4 AM after keeping KCOK DX company; 1/21 KMJ gave WDBO a backseat as CKEY off MON AMs till 4:45, guess because it snowed here then; KDDM-1140 s/off 3:15 KODY F/C as sked; KIUL got the WINK at 2:38 and WASK had KOAL put on but WGL spoiled it at 3:34; CFOR on tis 3rd MON test made poor start but ended better, s/off 4:50; CFAB on DX and Mr Bishop dedicated to Walt Bishop in NY State; 1/22 Yes WSMB on again; WATT till 3:14 test; WDAD till 2:15 unmodulated; CKRM DA not easy altho KFVB hrd good at 4:02 s/off. Hrd carrier harmonic on 990 kc till 4:35 and WAAT on 970; 1/23 WEXL went off till 4:30 so WLAV played unmodulated from 3-3:41 s/of Ann said on only 15 min but gave 2 calls before. KWOC & KBOC battled a F/C while WKVM gave out hopes for a verie as s/off; CKFI for NZDXA had a tough job espec after WEXL was back. Then out pops WORD s/on at 5, NEW TIME? WTRC F/C till 5:15 saved the day. 1/20 1195 kc French station had sitting up excercises till 2:15 s/off after giving 4 band sked. WHATS THEIR QRA?? You TP-TA fellows have any? Correct WSAJ-1340 F/C ends 3:30 also 100 watts; WNEL sends pict card not signed; WKVM letter for 1/9; WAGC by CE; WHA letter & program; KTSW, letter and YL on Pro was Maxae Graham; WKBB fast rply by CE nice letter and Pop got a card; Tnx Steve Mann, I always keep "Mexican" hopes (same as Lefty) LARRY YARNS has swell idea in his VRC column. Where is Bill Stone ?????

Jim McGregor-Dick Justavick are both home, Good luck to you both.

LEFTY COOPER-BROOKLYN N.Y. Rpt to CMKY, verie from KPRO)swell card) making total 1084. While reading "DX NEWS" on subway station @ dropped 2 pages of it down onto the tracks just as the train was coming in. Can anybody top that one? Not much DX this week-I couldnt get CJOR and KCOK showed up as a carrier only. 1/16 Tuned CMKY and hrd WSMB on top and fell asleep, when WSMB went off, that woke me up and I logged CMKY a good R-7 till he signed at 3:12; To SAHLBACH, is that WJEF testing time EST or CST?? Tnx for tip on KPKW. The CE of WPAT wrote me that their program director had written me on 12/23 and they were wondering what happened to me. That letter never did get here. I cant figure it out. They had to get special permission from FCC to DX, being a daytime station and this has been granted, so here's a good chance for you boys to log a tough one. No KALL verie here as yet. To KIRK; Your station on 600 was not KFJB in Marshalltown, but ~~KXK~~ KSJB in Jamestown--tut tut Doc your radio must lisp.

DOC KIRK's PREDICTIONS (Was supposed to be in last issue but the boys did a swell job of swamping your editor, so it was left out) Since others are trying a bit of prediction on DX conditions here attempt me. This will hold true for my own section, but would be glad to have comments from others on how it checks out for them. For week of Jan 27th-Feb 2nd Continued falling off of TA sigs accompanied by a slight falling off of TP sigs. CA & SA sig will continue to increase in strength during this week. Reception of stations to the north will be especially good; WEEK FEB 3-9; TA & TP signals will continue weak. Some falling off of CA & SA signals will be noted. Toward end of week northern signals will drop considerably. Considerable local interference will be noted during this week, rendering unusable many signals which ordinarily will be fairly good. WEEK FEB 10-16 TA signals will improve considerably. TPs will remain at about the same level as in previous week. Signals from CA & SA will fall off considerably. Noise level will increase causing interference on weak signals.---Would appreciate how accurate this prediction turns out to be. It was based on the same general sort of considerations that the Armed services used in predicting their long range radio circuits.

SID STEELE-LOUISVILLE KY Rather slim pickings this week. 1/18 found CJRL on for NZDXA at 3:20; KYUM on check 3:30-3:45; KWJB also on check 3:45-4 CKGB on DX for NZDXA off at 4; Only new one was KYUM; 1/20 Reported KGIR on "Future Unlimited" program on till 3 SUN AMS. Hope to get one of those Copper Veries. Mine is a postal card; KNAK for a new one 3-3:30; KCOK on DX for club was quite difficult due to KFXM being on also till 4; These band selections are fine when you can recognize them, but I usually cant. The Cuban I hrd on 1060 was CMCM and not CMCK as listed in bulletin. Only veries back this week were from WLIB-WHNC. WHNC expects to put on some DX programs soon, according to the CE Lewis E Hiland. Hope everyone reports to the dedication from WINN on the 27th, especially you DXers in the west, Northwest and Southwest as their CE is very interested in reports from these areas and it also will count double for your fellows in the contest.

TED SALING-ESTACADA ORE Veries in since last rpt from WHIS-WJJD-KOOS for a total of 196. KTSW is the only Special that I have been able to pick up. DX not so good here, but most of them covered up by local stations. Rpts out to KROD on F/C 3:10-3:20 AM on 1/7, also KBNE testing 4:08-4:26 AM; 1/8 KOOS F/C 3:30-3:45; WVUR on reg sked 4:30-5AM 1/10 KVOA hrd 3:30-3:45 1/11 KRIC F/C 3:33-3:46 and WKBH hrd 4:05-4:15; WXLs verified my ~~WXLs~~ unable to hear letter. Sure a swell verie too. DX spotty but interesting with many stations heard but, to weak to identify.

BOB DUGGAN-MACON GA Veries from KVOP-WJHP-WGTC-KWAT-XEK-WAJR-WBTM-CBR-CMHK-WDNC. Rpts to XEBG-KADA-WAGC-CMKY-XEF-WBHP-KOCA-WELL-KGLO-KFPY-WKPT. CMKY was good after WSMB s?off 3AM. Who was Spick on 1230 kc from 3-3:30 on 1/16 Verie signers WGTC Jim Mayo, CE; WDNC Walter S Hill, CE.

NOTE- Remember have your BCB Contest to Sid Steele not later than Feb 2nd.

TIPS and LPO REPORTS

Page 5

ED WYMAN-HORNELL N Y Havent been doing too much DX since last rpt. Still troubled with too many Spicks. But when it comes to those I want, namely HOK, no soap, too much KFI who were R-9 plus here. Also CMHB, no soap, an awful whistle there so I got mad and went to 1380 and reported CMHK who were R-9 plus also, but havent heard from them yet either. Rpts to CFNB-WASK-CMHK-WJLD-WGBR-WMFD-WCPO-KGER-WHOT-WGAC-WSOO-WIBU-WPAD-WATN-WDAD-WHIT-WKAT-WOSU-WAIT-WNBF-WSSV-WKST-CFAB. Veries in from YV6RE-CFNB-CFCY-WMFD-WASK-WGBR-WGAC-WIBU-WPAD-KGER-WJLD-WATN-WKAT-WDAD-WOSH. Now about that YV6RE. If you guys will remember back a few years ago to 1/13/42 and you will recall they put on a special DX for us from 3-4AM. I rpted them at that time and they sent back this card postmarked Sept 11 1942 and it was held by censor until Sept 12 1945 and I received it the day before Christmas. Was signed by L J Arreaza Almenar, Director. There is no QRA of the station on the card. My one and only foreign verie and to heck with the rest of em. Did anyone else receive a verie from YV6RE?? 12/12 CFNB R-9 plus; 12/14 CFCY-had quite a job on this one; 12/15 KG CX, no soap; 12/20 CMHB no soap 12/29 WATN R-9, fell asleep on WAZL-Hi Pop. Didnt try for KTSW or KOTA due to change in working hours; 1/8 No soap on HOK too much KFI and to think I have hrd every Cuban except one which is CMKY, am I burned up; 1/10 WHIT R-9 here; 1/4 Didnt wake up for KTSW or CJCJ or WXL S, boy I'm slipping; 1/12 WKAT 6:34-6:57 on top everybody; 1/13 WOSU; 1/14 WAIT, these last 2 have quite a time fighting it out all day long till s/off at 6:15PM; 1/15 No go on Algiers but I did hear someone and it sounded like an awful lot like these Indians that I used to hear out in the Pacific. Who in heck was it?? 1/19 WSSV & WKST on for NZDXA; 1/20 No soap on KCOK because of overlap of WCPO and I wish WCPO would verify; 1/21 CFAB R-9 plus and quite interesting Would like to congratulate Bill Stone on that very fine parade of Canadians boy they sure do look OK to me and going to try to get them all if alarm continues to work. Boy what a guy this Johans must be. I dont believe there is a single thing that he misses. What does he do? CLIMB INTO THE FINAL STAGE AND LIVE THERE? so he wont miss anything. Got to meet him when I get to Buffalo Sunday. (OK Ed and we will be looking for you-Pop)

Pvt CHUCK R BENDER-33893929 My bulletins arriving again, but in slightly TROOP "E" 24 CAV RCN SQDN haphazard fashion. 12/22 arrived ~~12/15~~ 1/3 APO 777 & P.M. N Y CITY NY 12/15 1/4 and 12/8 hasnt come yet. Still beating the bush for a radio but I cant get one for love of money-cigarets. Will have to try in Linz some Sunday if I can get off guard long enough to make it. Sure would like to have a good receiver and put up an aerial on top of one of these mountains. With an ordinary 5 tube set with a 3 ft aerial of phone wire we can get the Paris-London-Brussels broadcast stations during the daytime with good listening volum. However there is always someone else listening and I can do any DXing. Noticed Nichols reports hearing AFN Munich-Stuttgart. They operate 2 transmitters, 100 miles apart simultaneously, so I would imagine that at a point perpendicular to the axis of the 2 xmtrs, they would reinforce each other and put in a pretty good signal. Their power is 100 KW on 1249 kcs or 240 meters. KOFA in Lenz should be a good target for some of the Scott-Hallicrafter boys. They are a booster station for the main KOFA in Salzburg, and put out a pretty good 1KWx signal. Saw in Stars & Stripes a picture of Buffalo & its light snow.

FRAN BURNHAM-GLOUCESTER MASS Just a few lines to let you know that Algires 1176 kcs hrd Q-5 R 5-7 and some fading. Woman announcer, wonder if it was Miss Reis? Came on at sked time, 12 MDT and logged solid for 1/2 hour playing popular records. Veries in today from WMGA-KWBR-WJNO. (OK FRan but why not let us hear from you more often, your LPObservations must be pretty good. Especially from the TAs.--Pop)

After a couple weeks, I finally remembered to inform you boys that "Junior" Carberry is home, yep discharged. B,t as to "DX" he says whats that? Sooo you can imagine, in a few years he might remember. Anyway Good-Luck Tom.

J WARREN ROUTZAHN-YORK PA Got home to stay 1/12, taking 2 weeks to get things in order, then to work I'll go. 2 veries awaited me from a furlough 2 years ago, KTUC-WTOP. Did my first DXing 1/19, logged and wrote WSSV-XET-XERB. I wonder if Mexicans answer now? WSSV & WKST had programs for the NZDXA. On the 20th logged and reported KCOK on their program for our club which had a nice R-7 here. KFXM interfered very slightly. Logged and wrote WPIK at noon as they come in well all day. This morning I logged CFAB also with a good program of band music and the Mayor on for our club. That is my DX so far but I enjoyed it. After I get to work I'll be probably be needing my sleep but I have a week to go. Got a Stevensons log and sure hope Dick Cooper gets out the log I have been reading about. Also would like to know where I can get some Mexican stamps for sending reports. Guess thats all for now, its good to be back and I sure enjoyed the bulletins and news when I was in the CBI. I'll end with Hello and good luck to everybody. (OK Warren, its swell having you back and lots of real good luck to you-Pop)

JOHN LONG-DALTON GA 1/4 KTSW DX very enjoyable show with a fine signal. Then the AM of KOTA DX, static terrible all morning; 1/8 No go on CJCJ altho I did hear a band selection once or twice but no announcements. WCPO stood by the last 15 min. Sent them a tnx card. 1/8 Also no go on HOK, power line noise and KFI still on. WHIT-New Bern came in good most of time. Overlooking the CJOR DX and card came late so missed them. Heard the F/C of WABY 1/14 at 3AM. 1/15 hrd KAVE with good signal part of the time on F/C, also KEOA testing with 1-2-3-4-5 over WWDC but didnt get location. Hrd WAGC on 1/14 with a test. KFEL hrd with fine signal. Nothing from United Nationa Station due to some static and QRM from WHAM overlap, but will try again 1/15. Certainly hope Dick can get some kind of a log book through as the old DX Almanac is out of date.

PFC S HENRY FRANKEL Here is a tour of bcb up in Youkon on 1/14  
 \$\$\$ SIG SV BN-US ARMY when the temp is up over Zero, Northern  
WATSON LAKE-YUKON TERR-CANADA Lights not showing and the snow falling  
 gracefully over the already well covered terrain and when radio reception  
 suddenly becomes excellent as compared to the usual results on this band  
 when I am glad to get KIRO and that is usually all I can find on the dial.  
 Using a 7 tube Special Services receiver at exactly 11 PN Yukon time (3AM)  
 EST Tuesday I begun my tour. Hrd KMO s/off at 3:01, KFBK with popular re-  
 cordings, then to 1450 at 3:07 to catch a choral group give out with "Clem-  
 entine", then to 1340 to hear an orchestra with "Atchison Topeka" at 3:08;  
 then to 1290 and heard a band fade out at 3:10, then with good volumn pick  
 ed up a male vocalist singing "Just A Little Fond Affection" at 3:11 over  
 KEX on 1190; then band playing a march on 1150 at 3:12 and at 3:13 I got  
 the Kelly car show on KNX and then couldnt get anything till I got hold  
 of old reliable KIRO with its concert hour just in time for the break at  
 3:15, then a show on 650 at 3:16 and that was that. I missed a couple tho  
 as I discovered on redoing the job and in addition heard a fading program  
 on 680; A hot jam session at 3:19 on 810 and then on to KNX again while I  
 type this report. Looks like another month up here but not much longer.  
 The RCAF is rapidly taking over these installations along the Canadian por-  
 tion of the Alakka Highway and we have at our station now enough personnel  
 to take over all operations. Most of us dont mint it up here. We have most  
 conveniences but we are getting homesick both for home and for people, lots  
 and lots of people. The reports are getting up here and each bulletin bring  
 me nearer home. Even if they do arrive a week later than usual. Couldnt get  
 much DX up here anyway. Its almost Mdt here and KNX is very low and I'll  
 probably revert to KIRO very soon. Hrd KEX s/off 4AM, very strong. (OK Henry  
 and you can be sure that we too will be glad when you are back home, so  
 lots of guod luck from usaall-Pop)

Lefty says he apologizes for the CJCJ program. Your Editor can see no rea-  
 one is needed. And to WINC-WHGB. Joe DeRosa thought he could do us good.

ELWOOD DEIBERT-WALNUTPORT PA OK on the DX program put on by CMKY, Puerto Padre, Cuba, had R-3 sigs till 3 AM when WSMB s/off, then CMKY had R-7 till s/off and used 100 watts. Also rpts out to CMKY-CMCQ-CMBZ-XEW-KILO who had a special F/C 1/16; KERN-WAOV-WFFA-WGGA and also Spick on 920; Brew blanks on 3 latest DXes as I see quite a few more did, was up tho anyway. WGGA F/C 1/15 was dedicated to local Police Force, said DXers fell down on their job last time. Verie in from KOTA-WJNO-WMLT-WNEX-WLEE-WQAN-WGBI-KSD-KGNO-WSSV-WOMI. KTSW on 1/4 DX; WAZL on 12/29 DX and WDAD back after 2nd rpt. XERB verie back in 12 days; Next F/C for WLDS will be Feb 1 2:30-2:45; Radio Salas on 830 kcs s/off Mdt. 1/21 WAOV hrd on F/C as sked 2-2:30 AM.

LEN KRUSE-DUBUQUE IA Well fellows after a busy "Christmas Rush" at the local P.O. followed by a case of Flu my DX activities were greatly hampered. Since my last rpt of a month ago, have added several new ones to my fast growing DX log. WGKV hrd 12/12 with F/C 2nd WED 4-4:15. my 1st added to my log in 46 was WFLA F/C 1st WED 5-5:15, then KTSW on DX to add the 3rd one. WAGC was added on 1/14 with a test and hrd next 4 AMs after this date. The DX from WHIT came in fine, however as usual WWDC interfered. Wonder who the lucky DXer will be to receive the prize as the farthest listener and speaking of prizes, my verie on KTSW DX stated a DXer from New Westminster B C was awarded the candy. The KCOK special on 1/20 could not be hrd, were they on?? (Whats the matter Len, you slipping, KCOK & KFXM both on and logged here-Pop). Congrats to Eldon Addy for logging KGFX which is every DXers dream also KBNE; The DX from WATN 12/29 came in poorly as local weather conditions were bad. KOTA on 1/5 also was below par, but a verie back already signed by Miss Pauline Krebs, receptionist. (Last time Len she was Griffiths, Sec) Verie rec recently were KOVO-Parley Rasmussen, CE; CFNB on DX-KBUR by John Gallino, CE; CKWS on DX; KOWH by R C Corrigan, Mgr; CFBR a picture card and card from WJNC by R M Chamberlain, CE and a long awaited card from KALL by Wilfred Rossberg, Eng; WFLA a letter by J H Mitchell, CE and WGRC by Perry Esten, CE; Glad to see my favorite 250 watter namely WKBB really is getting around, being hrd in Calif as were in Buffalo according to last bulletin. With 60 new stations five final OK by FCC DXers will be busy and how. And from a report of FCC there are still several hundred to act on in future.

PHIL NICHOLS-E HARTFORD CONN One verie, a nice letter, short but sweet from WAGC, Chattenoga. The AMs of 14-15 good for TAs. Rpted on 15th to BLAL, tnx to Malays QRA and got Algiers special rather weakly. It was apparently better while WWVA's carrier was on, no doubt boosted by edge of WWVA's carrier. Norm tells me that their 2nd test on 16th had better sig strength but was so mushy he couldnt copy it. ANY HELP ANYONE? SUN 1/20 tuned in agter getting home from work, WNEX S/on 1400 at 6AM and some unidentified US station came on 1395 at same time, had religious program up to at least 6:40, sermon-congregation singing etc, just half way between WNEX-1400 and the station on 1390. No sta ann hrd but believe it was some 1400 kc station off freq. Minister had a slight southern accent. Would appreciate if it anyone else hrd them and identified them, letting me know thru bulletin. 3 in of snow and sleet here MON 1/21. Hope to get the coming Spackals from CKRM-CKFI-WEIM as an off 3 nites. The KPOW Special for NNRC is evidently going to be SUN Jan 27th in spite of previous listings. Rpted Lille-1213 kcs in France this AM 1/22 and sent with it a dup on Toulouse of last Sept rpt. Both to Paris QRA HQ. WATT was caught testing up to 3:15 AM for another new one. CKRM came thru terrific buzz on spec very weakly, only could identify one number towards end of pro but had quite a little dope so sent report and tnx. WHO was testing on 630 kc at 3:49 S/off at 3:56 AM. Am looking forward anxiously to the promised poem by Seth and to him I still claim my aerial is the worlds worse, his may be second.

LEO HERZ-CHICAGO ILL 1st Verie since I got back from KABC a mimeo card. It was my 313th verie and only sent out one rpt this week to WGAR, did not have much time to DX and will not this season. Some real DX with new locat. Added 15 ft to my indoor antenna and it gives me 30 ft works OK.

S/SGT AL MALEY-HIGHLAND FALLS N Y Latest veries from CMKY-BLAI-HJCN-KIEM making total of 989. Also dups from WINK-WPAY-WMFR-WEDC-KTRH-WBLJ; WEDC verie states that their foreign program Lefty and I hrd 1/6 was rebroadcast of Russian Xmas program, not Spanish as rpted in bulletin. I didnt say Spick anyway, said I thought it was Czeck which was closer. They also say their Mdt Flyers program will run from 1-6 AM Starting in Feb, good by 1240 kcs. WINK verie was dup verifying reception at 9:30 PM during period of unusual reception when only south was hrd. Pop listed KTSW as Emporia Kan, cant he forget that KTSW DX dedication-hi. To JOHANNIS-KPOFs 4th FRI check is acc to sked, also hrd your unidentified Spick on 1420 1/4 with National Emblem March and senorita singing "Perfidia" over and over with no ann, too loud for anything but a Cuban so assumed it to be CMBD whm is supposed to move here, no rpt sent. To SAHLBACH Sent me list of checks you need and I'll see what I have on them. HJCN-1335 kc sent long Spick letter, 3 photos of Bogota and sent Columbian dime in return for mine-Hi. Also rec a nice friendly letter verie from KMTR as a result of follow up to Jim Strain, Pro Dir. Says CE was too busy remodeling Xmtr and thats why rpts to him were not answered.

JIM SHUPE-DAYTON O Been revived or something, now a DXer again. My super-superhet is all finished and it is really a good DX radio. Following are some stations that I have heard so far on it. KPRO-KGER-KRMD-KHMO-KARK-WKWF-WRC-WNEX and a lot of stations that I have not hrd since my Delco went pfffffft; It has an R F stage that really works and how. I cant even listen to a local because it overloads the mixer so bad. Showed 2 of my friends some of my veries and I think I have them almost talked into doing some bcb DX. They both have S-20-Rs and have been listening to 10 meters with good results. Veries have been coming in good now that I have been sending out some rpts. My receiver has RF gain-IF gain-AF gain controls and I can change the band width if the IF from about 12 kcs to about 1 kcs so I can separte the stations very easily. All I need now is a good antenna. Now using about 50 ft of wire in the basement for DXing. (OK Jim and lots of stations)
