DX CALENDAR

DATE	CALL	LOCATION	KCS	CLUB	TIME	ALL EST
MAY 1	CB-138	Santiago	1380	N R C	3:00 -	4:00 AM

CB-138 SANTIAGO, CHILI The write up for this DX appeared in last issue but we want to remind you again that all reports should be addressed as follows L.E. Brain, Gerente, Radio Estacion El Mercurio CB-138, Santiago, Chili. In case you are not able to hear this DX remember send a Thank you Card.

At this time it should also be remembered that if you did not send a Thank You card to Station WWSW for staying off the air from 4:15-4:30 on for our KWOR DX, do it now. KWOR had clear channel from 4-4:30 by this.

KGFL

The following information was received from S/SGT Al Maley regarding the new policy of verifying by station KGFL. Mr. Unger has finally attained Mr Whitmore's consent to verify reports on his frequency check signal, provided the following provisions are complied with. Please do not send any reports that do not come up to specifications for they will not be acknowledged and may later result in some unsavory correspondence, that will in turn once again revert KGFL back to the ranks of "NON-Verifiers". The provisions are admittedly rather difficult to meet as it would require practically 100% reception to meet them, but at least we do have KGFL turning in the right direction. I would suggest sending a letter of thanks to Mr Unger for his efforts in making a verification from KGFL something more than an impossibility. The provisions are;—

1. All requests for verification must give the following; a A general idea of the content of the announcements, particularly the first and last.
- b A description of the "fill" between announcements.
- c The program identification number.
- 2 A reply card prepared for signature, should be sent.
- 3 Reports must be postmarked not later than midnight of day following the frequency check.
- 4 Reports should be addressed as follows; Melvin E Unger—511 West 16th Street, Roswell, New Mexico.
- 5 A special DX Frequency Check will be designated as the next regular check at 2 AM Mountain Standard Time, SUNDAY MAY 5 1946. (\$ AM EST or 5 AM EBT)

In letter from Norman F Kriebel to Maley, The station CMJM in Ciego de Avila has been deleted an according to notification CMJC at Camaguey is licensed on 1270 kcs at the increase power of one KW, however the usual accompanying notification of the prior frequency(1340) being deleted was not given. Hence the dual entry. I am unable to check by actual listening on which freq CMJC is really transmitting but would imagine it is 1270 kcs. Altho CMCQ is transmitting on 1460 kcs, no notice has been received that it has abandoned 760 kcs. Many times these have been expermental and they after a time gone back to previous channel. A Cuban on 720 kc, no info here.

HILDING GUSTAFSON-ROCKFORD ILL Many thanks for the kind words of sympathy from the Officers and Members of NRC. The passing of my Mother was about the worse shock I've had in my life. Doing no DX not but veries are coming in good now. Latest are KSAI, Saipan-BLA 1-1ZB-HCJB Ecuador and Radio Algerie Algiers. Radio Algerie operates on 941 kcs from 10:30-AM-12:45 PM and from 4:45-6:30 PM and 10:30 PM-4:00 AM EST. The Algiers verie made my 2nd African and still have one more African report out.

JACK QUINTRELL-WASHINGTON D C Was discharged last Tuesday from Uncle Sams Army.. Will send a complete report soon. (OK Jack and next issue May 18th) Wonder if veries from WCMA-WKRZ-WGKV-WFOY-WLAT have been coming thru? Last 3 are my worse offenders. Have verified a few new ones, WAGC-WMLT-WTON-WMOX-WCMA-KVNE-KTHT-WNVA etc. My worst 2 offenders are WLAT-WBAD cant get a reply out of any of them. Trying to buy a good receiver--any ideas Boys??? Best of DX and will try to make Labor Day Convention. (OK Jack and make a good try as we expect it to be the biggest yet-Pop) QRA 1912 "G" St N.W.

ARNOLD GERRARD-MIAMISBURG O Veries not in yet from KENO-WWPG, KDTH yes. WHIT-WRLC others this week. No WGOR-WNVA here either. Watch KGVL, are still on after 3, also watch 1490 for WFKY, Frankfort, Ky, hrd 3/2 and on 1450 kc for WXLK (guess you mean KXLK Arnold) 7 Rpts out since Mon, all new to log. Glad to get list of new stations.

TED SALING-ESTCADA ORE The list of new stations is swell. I have 10 of em so it looks more like a full years DX than just a summer job for me. I do look the band over most every week thru the summer and find some good DX especially from the North. I'll let you know of it. Pleased to hear CMHK verified as I have a report out to them on their 1/28 DX. Was unable to pull in WWPG DX, did hear KVAK now and then when the Northern Lights would permit. KINY was testing and asking for rpts at the same time. Will be interesting to note who heard them. May be well to note that they were on 4/1 or first MON. Out here Alaska reception best in Spring and Fall and good in summer too, but seldom hrd in winter. Have not hrd KFQD since last fall and KFAR only once this winter. I now have a total of 229 veries with 35 rpts out. Some of them with whiskers but I get a surprise from an old one now and then. KVMV testing at 4AM on 4/4 and KFLW testing and asking for rpts since 3/25.

NORM MAGUIRE-STAMFORD CONN. DXing has been at a stand still for some time. But a few veries have trickled in, some of them are Algiers-WNVA-Hilversum-WSTC-CJAD-WFIN-KDTH-CJCA-WRHI. Got WFIN and KDTH on Specials. Hrd CMKY with difficulty over week end, also KFUO. However have been listening mostly to 10 meters/ We are planning to be on hand for that Labor Day Convention. (OK Norm and we will be looking for you two, so be on hand-Pop)

STAN MORSS-BRADFORD MASS Veries from WPOR-KMAC-CMHK for NRC DX and a letter a swell one from Emisora Nacional I Lisbon, Portugal and signed by Manuel Bivar, Technical Director, also sent sked of stations. (They are in Freq Frolics) The letter was in Portugeese and was for a January report.

BOB BROWN-GOSHEN IND Received card veries from KVFD-KRBC-WCHS-KDTH-KSL who say they now verify and no restrictions are on. Signed by Rollow C Kimball (Operations Eng), also send a book put out by the State of Utah and on their new studios. Letters by KDTH-KNAK-WINK-WWRL-WJAG-WMC-KIGD-CMKY-KSCJ- Reports out to WMYG-KBIX-WHKY-KFJM-KODY-XEBZ-XELO-KHAS. 3/25 WMYG at 2:30 AM WINK 2:40; KBIX 3:05 and WHKY 5:05, this is my 3rd rpt to WHKY-3/28 KFJM at 4:30; Unknown on 1570 kc 4:40; WJHO 5:05; 4/1 KODY 2:10; XEBZ 2:20; XELO 2:35 and KHAS 5:35.

S HENRY FRANKEL-BROOKLYN N Y now have veries from CKRM-WSTC-WTOP with reports to WGBB-WFBL-WIP-WWVA. Built myself a doublet antenna on roof with 2 conductor shielded leadin wire for my S-41. Getting excellent results on SW and bcb also shows great promise, been too lazy to try for early AM reception. And keep those trigger fingers off shotgun, I'll find Lefty soon

JACK FORBES-ALBERNI B.C. Was to the studios of CJAV and chatted with the owner, Harold Warren, seems quite a few of the boys have been in contact with them for a test but they never got around to it during the construction period in which they only tested with tones, except on one occasion when Portland Ore was their farthest report on a recorded test. Rpts should be sent to Station CJAV-Box 1140 Port Alberni, BC and they sign off 4 AM EST. Mr. Frank Eckersley is chief engineer. They may broadcast a test next fall and if I am around this part of the country will try to arrange date. (OK Jack and your bulletins will be coming to your new QRA-Good luck-Pop)

BOB HETZEL-MILWAUKEE WISC Not much DXing account of not receiving my new receiver, dont expect it till early part of June. In meantime I am using a small 5 tube set to log some of the local stations and than will have more time for real DX next season. Now have rpts out to WGES-WLAC-WEMP-WRJN-WHBQ-KLPM-WORD-WWDC-XEG-WNEW-KPO-WDSU-WJBK. Also hrd station on 1450 using 250 watts which I believe said located in New Mexico, however dont see any station listed in log boog there. (Yes a new one in Albuquerque but call not yet known) Veries rec from CKEY-KFUO on DX-KXOK-CFPL-WKZO-WAKR. This gives me about 90 veries on bcb from 6 countries. Incidentally want to thank Johanns for info on WSIV-WDSR. My receiver ordered is a Hammarlund Super-Pro and hope it works on bcb like SW. (Think you'll find it OK Bob-Pop)

BOB SPENCER-BUFFALO N Y Almost a month since last rpt and still not too much DX. Rpts to WGKV-KDTH-WOI-KSCJ-KFUO. KFUE came thru good-CMKY was hrd but were jammed even after WSMB s/off from station on both sides of band. WOI came back with a card-KDTH a nice letter. 2 Cards verifying 12/20 and 2/24 and I have letter for 1/28 from CMHK. Guess they were waiting for the cards to be printed. The cancellation over stamps says in Sp and Eng "Buy Cuban Sugar" I would be glad to buy 10 pounds, but who's got the stamps? Nice letter from HCJB and verie for SW program. Sent out 65 rpts and rec 48 veries, a lot less than last year in both columns. Hold outs are TGW-CMZ-KGHL-WDWS-KECA-XERB-SW TGOA-WLBS-WKRZ-WGKV-KSCJ-KFUO last 2 are later ones, also WKLA-KOTA but I dont need them. (OK Bob and still havent got those Canadians, stamps, Joe Brauner will be scalping me if I dont get some out his way, OK Joe will do it this week without fail-Pop)

GRANT BATSON-WESTFIELD N Y Just enough DX to keep things going. 4/6 CMKY fairly well hrd 3-4:16, hope Senor Lopez friend gets to Bridgeport OK. 4/7 Just about 2 minutes of KGVV test 5:44 for rpt tho meager; 4/9 KMAC-1240 test 5-5:15 and hope they verify this rpt fairly good and some badly needed. WCOC-WFEB-CMHK-WWPG for DX and KGVV in 6 days for one of the shortest rpts yet. 4/14 at 5:50 Station in Nevada s/off test wonder who? (Grant it was KENO who came in here swell even thru KGVV and it was daylight here for quite a while-Pop) At 6AM KRSC on 1150 over XEJP, wish I had been up as it was one of best nights yet. KWOR DX show QRMed by a western-WWSW was off tho at 3:45-4:30-WMRN tested 3:45-4. Static plus QRM nettwd a poor rpt. No WHIZ-WCMA-WBBB-CJOR veries yet.

(Yep Sully CHEF is your 1200 kc statinn-Pop) If you boys need any Penna stations try for them on election day in May, think its May 14th. WJPA will run overtime then and WKRZ will go MBC April 15th. WKRZ says cards not yet received from printers and they have been ordered. Gave up on the 1580 mystery station. I would appreciate all data on stations broadcasting Baseball games this year, any help will be appreciated. (Rex Howell, Managing Director signed my KFXJ letter verie Sully)

RAY EDGE-BUFFALO N Y Not much DX here rpts out to KXLR-WSIV-WJMC-KMAC-KWOR-KTUC. Veries from WHA-WATN-KXLR WSIV-KMAC, underlined are new to make total 941.
