HEADQUARTERS: 325 SHIRLEY AVENUE, BUFFALO 15, NEW YORK

PAT. REPLEY, PRESIDENT RAY B. EDGE, EXECUTIVE SECY. ERNEST R. COOPER, EDITOR
ISSUED WEEKLY—\$2.00 PER YEAR

VOL. 14 No. #3 October 5 1946

We welcome Sr. David C. Mireles, Manager of XEFI, Chihuahua, Chih. as a new member. Nothing has been received on other new members or on renewals from our Executive Secretary, so to any others, please wait until next week when your names will be published here.

DX CALENDAR

Oct. 20	WJOL	1340	Joliet, Illinois	N R C	3:30 - 4:30 AM, EST
29	WATN	1330	Watertown, New York	All Veterans	2:00 - 4:30 AM
Nov. 4 or 5	5KRES	1230	St. Joseph, Missouri	N R C	3:30 - 4:30 AM
5	WPKY	1490	Frankfort, Kentucky	N.N.R.C.	4:00 - 4:30 AM
12	WDSR	1340	Lake City, Florida	N R C	3:30 - 4:30 AM
20	XEFI	1440	Chihuahua, Chih., Mexico	N R C	4:00 - 5:00 AM
21	WDFN	1470	Casper, Wyoming	N R C	3:30 - 4:30 AM
Dec. 6	KCVR	1570	Lodi, California	N R C	4:00 - 5:00 AM

WATN - Watertown, N.Y. It is suggested that all you World War II Veterans write to our good friend and member, Mr. Harry Righter of WATN, and give him your name, branch of service, brief summary of duties, areas in which you served, one or two humorous incidents you experienced while you were in the Service, and three selections you'd like to hear. Harry will play at least one of them for you, if possible. Remember, boys, Harry Righter is a member of our club and other clubs, and is really a swell fellow. You will undoubtedly remember his very comical program of last year, on the 29th of each month. It is good to know he will continue again this year. (Copied from NNRC)

KRES - St. Joseph, Mo. Keep watching this page for definite date. Gene Allen of Vallejo, Cal. writes to suggest we stage our 1230 Kc/s. DX programs on Mondays, as on that date the channel is clear of both KOOS and KGFI out on the West Coast, and that would be the only opportunity the members out that way would have of hearing anything to the East on that channel. WCPO in Cincinnati is also off on Monday mornings, and the only other station that would be on would be WITH, Baltimore. We frankly feel that you Eastern members will be able to hear mid-western stations just as easily through WITH as through WCPO on Tuesdays when WITH is off. We'd like to know, of course, how you all feel about this, and please write to Dick Cooper, 956 Orr Avenue, Kittanning, Penna., our CPC Chairman, as your ideas will serve as a yard-stick for him.

New Log Book. Remember, members, that our new member, Art Foerster, a veteran DXer, is going to a great deal of trouble and expense to get this log book up, and we want to remind you once again that you may have a copy of it, plus frequent additions as additional stations take the air. It will be printed on standard size loose-leaf paper for your convenience as well. The cost of this log, plus the additional leaves, is only \$1.00 for a year. Send that dollar AT ONCE to our Executive Secretary, Mr. Ray B. Edge, 325 Shirley Avenue, Buffalo 15, N.Y. Ray wants to have all the dollars in by October 8, so please co-operate with him.

Remember also to send in your entry fee of 25¢ for the new BCB DX contest to the Manager of the contest, Mr. Sidney Steele, 3815 Michigan Drive, Louisville 12, Kentucky. It must be in by October 31, except for new members who have a month after joining NRC.

And don't forget to have your reports in to our new Editor, Ernest R. Cooper, 438 East 21 Street, Brooklyn 26, N.Y. by Tuesday of each week which is his dead-line. Not too many came in this week, but everything received here through October 1 is in this issue.

NATIONAL RADIO CLUB DX NEWS

"DX DOWN THE DIAL"

October 1944

Page 2

Kc/s.	Call	Location	Remarks
550	KTSA	San Antonio, Tex.	rather weak 3:30 a.m. 9/27 - Spcl flood broadcast (Kennedy)

Page 4

LEO HERZ-CHICAGO, ILL. First some notes on my antenna system. Am fixing up my listening post. Put up a Utility Antenna System, an odd-looking piece of equipment, 2 sections of tubing mounted on a piece of wood with little insulators connected to the antenna switching system with 20 feet of wire. Put it up so that I can use it if anything happens to my other 2 antennas - the 12' vertical & the 100' NE-SW single-throw double-pull knife switches to use either one of the antennas, or I can use the 100' & one of the 20' together, or the 12' vertical with the 20' or only the one. I have noted at times it is better to use both. My location is not the best and am still looking for something better as I have lots of local QRM, as I am close to the automatic stokers. If and when I move Derick Wharton will help me put up a first-class antenna system. Bought one of the new Direct Reading Clocks - it's a great help in making out reports. Since my last report to the bulletin I sent reports out to WKLY-WEXL (Oh no! -Ed), WCSC, & WJLB. Veries in from WDOJ-WFOX-WHFC-WJOL. Not too many new reports as conditions were not too good and besides, blew 2 tubes last Sunday morning.

BILL WELLS-HAMILTON, ONT. Many of the boys have reported code signals on the BCB and I have been of late checking up on some of them. On 1230 Kc/s. is a code station which repeats the letter "R" 3 times. Its location is unknown here, but it is definitely an Air Navigation station. Also on 930 Kc/s. is a station using the code call "NRRR" which is listed as a USCG Patrol Boat in N.Y. Harbor (#190). On 880 & 920 are heard 2 CW stations WCI & WSS and are listed as follows with their correct frequencies - WSS-Rocky Point, N.Y. 18.8 Kc/s, using 250 Kw. WCI-Tuckerton, N.J., 18.4 Kc/s., using 250 Kw. (Wouldn't that be 'Megacycles,' Bill? -Ed) I believe Lefty mentioned hearing NSC, well, this one is listed right in his own back-yard at Floyd Bennett Field, Brooklyn, hi. Had a good time at the NRC Convention and hope to be there next year. Heard a ham in Casablanca, near Morocco say that he worked at an AFRS station there on 1036 Kc/s, but don't find such a station listed.

GRANT BATSON-WESTFIELD, N.Y. Veries are scarcer than the ice-bergs in Lake Erie - WMVG for 3/23 report. WPOR & WKXL in 4 days. Ten reports - WCCP on 1450 testing 4:00-4:15 on 9/9 also WKXL at 4:15-4:29 and WPOR S/on 4:28-4:45 reg. sked, and again on 9/23 at 4:30, asked for DX reports from NRC and other clubs. (no verie here yet.) 9/13 WBEJ special broadcast 4:21-4:36. 9/15 WKLY on 1300 testing 5:01-5:23 and ~~KMMJ~~ on 750 at S/on 7:15-7:30 for daytime report. How I needed this one - tried for 10 years. 9/16 KBIO on 1400 testing 4:17-4:30. 9/18 - WDAR on 1400 at 4:31-4:38. 9/20 - WMFT on 1240 testing 4:31-4:46 and bad QRM from WATT. To Stone - is CHOK in your verie collection - not mine!

BOB GORSUCH-2509 "D" AVE. N.E.-CEDAR RAPIDS, IA. Well boys note my change of QRA. Not much DX but heard WBSR on equipment test 9/22 along with WKAY. KHOZ heard 9/23 on equipment test and KFUN on F/G the 24th. Have 14 reports out. Watch for these testing - transmitters will be shipped to WJOR-1230 Kc/s. on 9/13; WQUA on 9/27; to Muscatine, Iowa 9/27, WBET on 9/12 and KAKC on 9/20. These stations should be testing soon. Veries now 1199 and number 1200 just won't come along.

RAY MOORE-MANCHESTER, MASS. Reports out at present to TIPG, HJAN and ZNS(1540). Received a verie this week from LR-1, sked from 0800 to 2400, Argentine time, QRA: Calle Maipu 555, Buenos Aires.

LEFTY COOPER-BROOKLYN, N.Y. Veries in from WFTL-CMKJ-CHOK-WMGR & WMOA, letters, and a card from WARD with rubber stamp and typing, bringing the total to 1153. 9/20 - Heard WABI with "Night-Rider Revue" about R-6 here, and landed KHOZ for a new one testing on 1240. Sent out a report to CMAN of the Cadena Azul heard around midnight with the Aurora out in force. WGBR was testing at 2:00 on 1400. WKLY was testing from 2:00 to 4:00 or longer. WABI at 4:13 was talking on phone to Buffalo - I wonder to whom, Ralphie? 9/25 Reported CMJL on top on 920 kc/s., in late evening. 9/30 - WKLY was at it again most of the morning. WMON was heard on a check, signed at 2:35, may be 2:20-2:35 on Mondays. WBHB was tough to hear here, and during their couple of hours on the air, I managed to hear the calls only once, but I got a bunch of selections they played. Speech was much weaker than the music. WMOX covered him from 3:40 to 3:50. WBSR on check 3:30-3:45, like a ton of bricks for a report. KVET on top of WKLY here after 4:00 and reported. I'm still trying to hear WNHC and WMOG on regular schedule here - give 'em a push, will you, Phil? Well, boys - keep sending those reports in, and we'll knock 'em out here and I hope that you will like this issue of "DX News" as well as you have liked it in the past. With much help from Ray in the line of instructions, I managed to cut these stencils.

October 5, 1946

Page 5

RALPH JOHANNIS-BUFFALO N.Y. - A belated TNX to all, for electing me as a Board Member - Still have only pleasant memories from the NRC Convention, with 11 states and Canada represented & over 50 members. Am happy now that we're not strangers anymore. Also noted that not ALL nice people are in N.Y. State. Glad to meet that "Irish Setter" Pat Reilly, who edits the "Hair News" (Harry Righter of WATN said he's sorry, but unable to attend, done tole me the sicrutt. Harry also hrd his station via Phil Nichols phone-hi.) Leo Herz, our VP now, an unforgettable fellow, Steve Mann, the fellow who got my KSAI verie, direct, H. Jacobson one of the "silent" (but OK) members; Mr. and Mrs. Ken Page (who has double my amount of veries); my last year's "Single" friends Norm Maguire and his lovely Mrs. (she said 'OK to write me again!'); Mel Oliver and his charming wife from Houston, Tex. & many other swell people. Fred Van Voorhees at the banquet eulogized the members who gave their lives for their country and for the others departed, & we all paid them a silent tribute. Space keeps my reminiscing limited, but it was a grand gathering & hope for an even bigger one next year, for as you know, anyone else can attend besides NRCers. Pop Edge sure did an outstanding ONE-man job, deserving our full tn timer, & so lets give "Lefty" Cooper, our new Editor (& one grand fellow) (Tnx Ralphie) our full support, for the NRC "DX News" is still an outstanding DX bulletin, if nothing to report, then a little fat-chewing is still a nice "Hello." - G. Laliberte of CHEF, Granby (which by the way is a nice city at that) says Hello to all & to come there next time, as plenty BEER there also sent me some swell photos etc. Dennis Ryan, that jovial amcor of WABI who tested several a.m.s (Walter Dickson, CE) came in so good that I phoned 'em (Tnx Dennis) he's been at WLW-WSAI-WKRC-WCPO-KOY & KXYZ (Fla. is better in winter!) a nice letter and signed program by Ryan and a V/1tr by CE. WWR, H. Kinkead, CE, says a station photo verie card is in the making. WCMW sends me 1st day (9/11) lon signed by all 9 of staff. KSTT, 2 veries CE finally got the reports & will answer all. KSJB, Alfred G. Berry, Com'l Dep't., the "broken down ole cml man" sends pgm & nice V/1tr. WBUY, Ruth Hilton, sec'y, sends my verie on plain paper! (Why Be Unkind, You?) WKAT (V/Cd with cat) in env by A.P. Smith Jr., CE. KDNT (via air-mail) card. old V.cds. from WHAT (blue on orange) WRAW-WGEF. Vltrs fm KCHS (City of Healing Waters) WIBA-WMOA-WFCI-WLWL-CHOK. Veries hanging at 670 (Pop 970, Barth. 1470) If they'd all answer, they'd be more sociable, eh? Harry, did U know ur competition & new member Ray Bates CE of WMOX is 22 yrs old but 6'3"? (Herz, 5'3" take note.) Chivalrous rivalry by Wyman-Quintrell-Duggan-Carberry etc. for DX repts should be OK, I have NOT so much time anymore, as owner will tear house down next spring so we (the family) will have to change over, somewhere, somehow! Don't let the "Sun-Spots" & EST change stop youse, for air-mail is only 5¢ an ounce now (domestic). XEDN was nil here both days. (Ye Ed would like to see a cat in an envelope, Ralphie!)

ED WYMAN-HORNELL NY - This will be my last report for awhile anyway as I am leaving for school in Baltimore this Sunday and until I get settled and things humming like they should I am not going to do any DXing to speak of so I will not bother to report. I have recd veries from WOL, WGL, KMAC, KDNT, WSAZ, WBUY, WRR, CHOK. Since my last rept I have heard & rptd the following: 9/17 - WJNC testing at 2:08. 9/18 - WDAR testing equip, QRMd by WTON 9/19 - WISE S/off & WSAZ & WEAFF BOTH testing. You guys had better get WEAFF because I hrd them say they were going to change to WNBC in the near future. 9/20- WATT & KHOZ both testing. 9/24 - WHHM S/off & WSTV, WWL, & WJHO all testing. 9/26- S/off's of WFTL & CJOB & later WHSC testing equip. I hrd an MBS broadcast today that mentioned WKRG joined Mutual today so they must be on the air. Boy that WBUY card is lousy, they didn't even say anything about verifying only that I was now a member of their 'First Nighter Club Phocie. KDNT sent a very nice personal letter from the owner Harwell V. Shepard. The following are all out over 3 mos. and all have been sent follow-ups and duplicate repts. WAIT, TGO, WBHP, WBYN, WEED, WBNY, WBAX, WCOG, WKBV, WXYZ, WCAZ, WFAA. Other repts out I still have hopes of receiving here are WWDC, WEVD, WIOD, WSAM, KFH, WHUM, WWGP, WCCP, WOHS, WILM, WFBR, WJOY, WNOG(2), WHEB, CHML, WCTA, KCHS. Incidentally if anybody has any info that may help me in getting veries out of the long delinquents I'd appreciate it vy much, my add. will be in next bulletin. (Good luck, Ed!)

"PAT" REILLEY, JAMESTOWN NY (The Truant Officer)- WEDO, WWR, WBSR are new veries, nothing hrd since 23d as everything seems to skip over my location for nearly a week now. New ones hrd here are WEDO (daylight reception) WWR, WCCP, WKXL, WKLX, WKTM, WFTL, WKRG, WIRA, KHOZ & WBSR. Greetings to Art Foerster in becoming new member & how are the Indianapolis type lice? Pop Edge welcome visitor 9/28. WBSR Hd on 17th, WKRG over WOR 23d, 2:40-3:03 a.m.

October 5, 1946

Page 6

BRUCE KENNEDY - TORONTO ONT. - DX is rapidly here now. Veries only total 297 - that's 140 since April & still have some 70 repts out, one-third now overdue. Hope to catch XEFTI tonite as per previous NRC note but have my doubts if sun spots keep us the pressure. Seem to be clearing a little last nite tho & maybe tonight will be OK. (Bruce is moving to Palermo, Ont. in another month.)

KERMIT GRAY-WALNUTPORT, PA. - Veries have taken another nose-dive, with only 2 new ones in the past week. They were nice letters from "The new WFTL, radio's unique station - afloat - in the Venice of America." and from WKAY "The Voice of Southern Kentucky" which opened officially on 9/25 at 2 p.m., C.S.T. A duplicate verie was recd from WMGR. I have 14 delinquent reports out since 6/10, together with 15 recent ones, some of which are just coming due. Reception conditions have remained poor due to sun spot disturbances. Repts were sent to the following: 9/22 - KWFT at 12 mdt on reg sked, XEB 12:50 to 1:07am S/off, & HJCN 1:31 to 2:03 am 9/25- WBSR, Pensacola, Fla., 1450 Kc/s. on all a.m. with Equipment tests 9/26 - WBHB, WKLX & WHSC on all a.m. with Equipment tests (who interfered with WBHB on 1240 Kc/s?) 9/27- WONS at 4:58 $\frac{1}{2}$ a.m. s/on for 2d rept - 1st one unanswered after 3 mos. (Mine back in 4 days signed by Rogers B. Holt, CE, Kermit! -Ed) The morning of 9/24 was the worst I believe I have ever experienced in 21 yrs of DXing. In all, only 10 stations were audible (XEMG-WHAT-WITH-WNEW-WAAT-WHAS-WJZ-WOR-WIP-WMCA) all but 2 of which can be classed as locals. Even 1490 Kc/s. was completely dead. The band was vaguely reminiscent of the "good old days" before all-nighters.

FRED VAN VOORHEES - FLUSHING, N.Y. - Still getting reports out to a few stations. Doing quite well on Short Wave, but the BCB is the interest here, so the following reports are out now: WARD-WKEY-WJOY-WBEJ-WCTA-WDAR-XEW-WABI-WHSC-WMOU. Veries in now from WKLX, WBUY, WFTL, WKAY, WAGE. Also received last season veries from WKVM & WVU, Canal Zone. Will also be using WVUB & WVUC this year, but irregularly. Will maintain 5:30 a.m. S/on on 790 as reported by Hal Wagner. Note WARD still on the 2:00-2:15 test. WHSC tested 9/26 2:50 until after 4:30. WFTL on at 4 9/29. Reception has been generally poor here the past week. WABI had Night-Rider Review on every morning for a while, but not heard past 2 mornings. Incidentally XEW now verifies with a rather nice card. Have seen one. Still looking for a Short Wave Editor!

RAY B. "POP" EDGE-BUFFALO, N.Y. Not much DX these days account of working steady days & do not care much about getting out of bed to DX and then have to get off to work. Did get a couple stations lately however and they were WWGP-WBUY-KGHL-WABI-KHOZ. Veries in from WBUY-WIRA-CHOK to make a total of 979. By the way, I would like to thank all of you members for the swell support you gave me as Editor. It is hoped you will give Lefty the same support you gave me as Editor, and please do as asked in submitting your reports as it will make the cutting of the stencils so much easier and also be a help in getting more valuable information in our bulletin. (Thanks, Pop - but cut out those sleeping pills - the DX is fine!)

ART FOERSTER-INDIANAPOLIS, IND. Have had a little luck DXing. Got my boy to string up an outside antenna and believe it will help. This a.m. 9/26 found KSIL had a F/C from 3:30 to 4 a.m. on 1340 Kc/s. Don't know if this is a reg. check on net. Since 9/15 have added WARD-KICD-WKLX-WKWF-WMOA-WGAC-WBEJ-WKAY-KCRT-KFFA-KROP-WINN-WBSR-KSIL-KTTS-WMVG. So it looks like a good season. Now have 1092 heard & 1078 verified. Just heard that my HQ129X may be shipped in about 3 weeks. Hope so, for when I get it, I am really planning on going to town. (Congrats on that log book, Art! Boy, do we need one!)

EICK COOPER-KITTANNING, PA. Since my last report I have received letter veries from KRIG WPUV-WIRA-WBEJ-WPPA-WTIK-WNCA-WDSC-WENC-WJOI-KPDR-WMFT-WHHM-KXLA-WCTA-WEDO-WWNR-WCMW-WCHA WLAN-WHHT-WONS-WBUY-WKNB-WPOR-WKTM-WFTL-CHOK-WMGR-WMOA with a nice card from WDUK and a plain typed card from WNAR. Total veries now 1173 (NOTE-FRANK). Reports are out to WKRG WCCP-WINR-CHEF-WOHS-WKLX-WARD-WMON-KANE-WMGY-WBHF-WJOY-TGO-WCMA & KWOR. Incidentally I sent KWOR verie cards 3 weeks ago and as yet no answer, but I feel sure Joe Ernst won't let us down. Have given up on TGO & WCMA. WMGY & WBHF growing whiskers as are KANE & WMON. See that KANE has verified for some of you & perhaps I had better send a follow-up. WKRG concluded a test at 4:38 9/25 completely over-riding WOR. Caught WINR testing at 1 a.m. briefly on top of 1490 mess. Am looking forward to getting my usual big start in the contest, and maybe I can stick in this time to the finish. Hope a lot of the members will join in the contest just for the fun of it. I think you'll all agree that the NRC contests have been very fair. Believe I forgot to mention that my rcvr here is a shiny new HQ129X. WBHB & KVET on all a.m. tests on 9/30

Changes in Station Data.

		1490	KNEL - Brady, Texas to 250U

Delete WPMF, 910 Kc/s., Mayfield, Ky. Owners of this station become junior partners in WKTM, in the same city, already in operation.

Soon, we will publish for you a complete list of Mexican stations. Many of these have changed their assignments in power especially, and we feel it would be better to print the whole list, as sent your Editor from the F.C.C., rather than to list the changes, as some might be missed that way.

Notes by your Editor

Many of the DXers feel that DX during periods of Sun-Spots and the Aurora Borealis, reception isn't worth tuning. However, if you will note in "DX Down the Dial" that our member Bruce Kennedy in Toronto, and Al Maley and Ray Moore in this country, experienced many good catches. On regional channels, Southern stations forge to the fore, and many Spanish-speaking stations can be heard. Several seasons ago, we published a Spanish letter to use in writing to stations which speak that language, and since many have come into the NRC since, we are re-printing that letter on the next page. Good luck with it.

October 5, 1946

Members, here is that letter that our good member and linguist, Steve Mann, prepared for us who do not speak Spanish, to facilitate our sending reports to Stations which use that language, and more than likely have as much trouble with English as we have with Spanish. This was done by Steve originally at the suggestion of Ray Edge and Lefty.

SPANISH LETTER

Muy Senores Mios:

(Date)

Tuve el placer de sintonizar su emisora de onda larga hoy entre las _____ y _____ a.m., (P.M.,) E.S.T. en la frecuencia de _____ kilociclos. Sus senales fueron recibidas (muy buenas - buenas - bastante buenas - malas), QSA __, R __, con (mucha, poca) estatica, y (mucha, poca) interferencia. Mi receptor es _____ de __ tubos. El sistema de antena consiste en (un alambre, dos alambres juntos), _____ metros de longitud, y __ metros de altura. Esta ciudad, _____, esta situada _____ millas al (oeste, este, norte, sur) de _____. He escrito por abajo unas notas de lo escuchado para probar mi recepcion. Si mi reporte es correcto, favor de enviarme una confirmacion de mi recepcion. Incluyo (unas estampillas, un cupon internacional para respuesta) con esta carta para pagar el porte del franqueo de la respuesta.

Detalles para probar mi recepcion.

Hora usada es la usada en Nueve York, E.U.A., durante el invierno (E.S.T.)

ENGLISH TRANSLATION

(Date)

My Dear Sirs,

I had the pleasure today of listening to your BCB station between _____ and _____ A.M., (P.M.,) E.S.T. on a frequency of _____ kilocycles. Your signals were received (very well, well, fair, poorly), QSA __, R __, with (much, little) static and (much, little) interference. My receiver is a _____ of __ tubes. The antenna system is a (single wire, doublet), _____ meters long and _____ meters high. This city, _____, is situated _____ miles (west, east, north, south) of _____. I have written below some notes of what I heard to prove my reception. If my report is correct, please send me a confirmation of my reception. I enclose (some stamps, an International Reply Coupon) with this letter to pay the postage of your reply.

Details to prove my reception.

Time used is that used in New York, U.S.A., during the winter, E.S.T.

I hope that this report will be of interest to you, and that you will verify it. Giving you my best wishes for good luck in your future broadcasts, I remain

Very truly yours,
(signature)

That's it, boys - ye Ed doesn't know how to put in the accent marks - perhaps Ray up in Buffalo might have some way of doing it. How about it, Ray?
