ENCOURAGING HIM ENCOURAGES US

"It is with a great deal of pleasure that I apply for membership into the NEC. Having logged radio stations for about a year now, I feel that this club will encourage me to continue on DXing as long as I have the "DX News" as a guide. I find it very fascinating reading what others have to say and what they are doing. As an example, I caught GKSL in Matane, Quebec this morning at 3:35 a.m. with the aid of "DX News"."

A NATURAL SEVENW A T S - Sayre, Pennsylvania. Benjamin A. Franklin, C. E.

This will be a combination Test and Frequency Check program, coming from WATS. The first 15 minutes will consist of tone, with frequent station identities given, and following that regular frequency check, WATS will continue with their test by playing a few musical selections, between each of which station identification will also be given. We appreciate this special test from WATS, and we hope that all of you will be able to hear them clearly. Be sure to listen and report. SID ROSENBAUM

K M Y C - Marysville, California. Joe D. Carroll, Manager

This station has just recently graduated to regional status, and they are anxious to put on this DX program, for it will certainly help them to determine how they can get out with their new one kilowatt of power. They are looking forward to a big response, and Mr. Carroll promises to verify every correct report he gets. So it's up to us to make sure he gets a goodly lot of them, fellows, so let's not miss tuning in this special DX show now being prepared for our good old NRC. SID ROSENBAUM

K V E N - Ventura, California. Donald C. Brown, C. E.

This is the first DX program ever broadcast by this station, and we are hoping once again for a clear channel coast to coast for this big special DX program. Remember, the date was changed to December 14, a Sunday morning, and the time was moved to 5:00 to 5:30 E.S.T. Conditions are getting very good these cold mornings, and we hope that KVEN's signal will cross the nation, and cross the Pacific, and be heard thousands of miles in each direction. Be sure to try for KVEN! LEN KRUSE

W H D L - Olean, New York. Otis L. Atherton, C. E.

This 25-year-old station is one very desired by many DX fans around the country as the station does not have any early-morning f/c programs. This station was originally scheduled for Dec. 7 but kindly consented to change to Dec. 14 in order not to conflict with WWSA's all-night DX on Dec. 7. This program will immediately follow KVEN's on the same frequency so please do not turn off the 1450 spot. You probably heard WWSA mention this program at 5:30 last Sunday morning. LEN KRUSE

K G W A - Enid, Oklahoma. William Teitzel, C. E.

"Thanks a lot for your letter of Nov. 11 and we will be glad to conduct a test for your membership. We will be on the air the morning of Dec. 15 from 1:00 to 5:00 a. m., CST. We greatly appreciate the service rendered by members of your club and would appreciate receiving reception reports from all members." Here is another chief engineer who has praise for us NRC DXers, fellows, so let's remember his kindness towards us and be on hand for this 4-hour marathon DX show! DON KASKEY

W I N R - Binghamton, New York. Adelbert A. Kelley, C. E.

This station, which incidentally has a most attractive letterhead, is coming on for us on what is a clear channel normally on Mondays, with a DX program, to consist of music with frequent station identification. WINR has seldom been reported by our DX clan, so we feel a lot of you need this station, which you may remember from its 1490 days for several years. Now, with 1,000 watts, WINR is anxious to see how well they can do early in the morning on a clear channel. Help by reporting. DON KASKEY

W E A N - Providence, Rhode Island. Harry H. Tilley, C. E.

"For many years I was a DX listener and got a great kick out of hearing distant stations. I was glad to cooperate for the last test and certainly will be glad to do the same for the December test. I hope WEAN is heard all over the country." That's what Mr. Tilley thinks of DX, boys, and that is the spirit which we all admire in a chief engineer, so be sure to support Mr. Tilley and WEAN by listening in and submitting that much-desired report of reception, on a hoped-for clear spot. LEN KRUSE

WE AGAIN REMIND YOU THAT WITH THE CHRISTMAS RUSH IT WOULD BE EXPEDIENT FOR YOU TO SEND 15¢ IN COIN OR STAMPS TO HQ TO GET "DX NEWS" FIRST CLASS DURING THE RUSH TIME.

Musings of the MembersSid Rosenbaum - 806 Market Street - Wheeling, W. Va.

DX remains slow here due to local QRN. Veries in are letters from WOTW and KCRB. On 11/29, WKLV DX on top of QRN all the way. A swell show, the kind the DXer really goes for - plenty of publicity for the DX clubs. The comment of GE Ted Bonn on reception reports was a big feature. WVMW DX in 100% although difficult to report as no titles announced for waltz numbers. The musical numbers were quality listening. 11/30 - Missed WDSG and WBUY because of being stranded in a snow storm and had to spend the night in Ohio. Cards sent to both these fine stations. 12/1 - WCAU 1210 s/off 1:00, s/on 5:00. WAPL 1570 Appleton, Wis., on ET 2:30 on through XERF. WJRI DX (1340) in 100% at 4:00, KTFY (1300) DX in with moderate signal, tone and music and QRN at intervals. WVOV (1290) s/on 5:00. KBND (1110) failed to show here. A swell letter from WOCM for DX of 11/8. Mr. W. B. Williams says in part: "We did not get as many reports as we would have liked, but we certainly appreciated the courtesy of several like yourself who expressed ~~the~~ appreciation of the program even when they failed to hear us or could not listen." Yes gang, these courtesy cards really mean something, so please don't fail to send cards if you can't hear these courtesy programs. For those who failed on the recent CFAR DX, keep your fingers crossed for our good friend C. H. Witney, mgr., says he'll do it again for us in January, so keep your eyes on the DX Calendar. Isn't Mr. Witney grand? Letter from KWGB (730) Goodland, Kans. says f/c is last Wednesday 6:15-8:30 with FT and ID throughout. Clifton Lane is Tech. Supr. That does it from here.

Pete Taylor - Box 5068 Duke Station - Durham, N. C.

So much DXing lately I don't know where to start. Veries in this week are cards from CJCA CKOV & WCKY, and letters from WMIE WFMC & CJGX. 11/26 - WCRL*1570 heard at 5:45 s/off. WMIE-1140 heard over WRVA 5-5:30 on 11/23. WCKY 12:30-1 p.m. 11/24. WTRC* 1340 f/c 11/27. XEPH-590 2:30-3 11/27. WING-1410 1:14-1:36 on 11/28; also on same a.m., WTUS*580 Tuskegee, Ala. ETing around 2 a.m., WRCO*1450 f/c; WIL-1430 1:36-2; WWRM-710 NRC DX 2-3; WGBS-710 in the clear 4:30-5 p.m., CMHU*720 with no WGN QRN, 7:55 p.m., CMCU-660 with Freddy Martin records 8 p.m.; XEG-1050 8:30-9:30, WVJS-1420 records 9:03-9:30. 11/29 - KFJZ-1270 RS 1:35; KHBL-1290 RS 2:15; KROP 1300 RS 2:37; WVMW-1470 NRC DX 3-5; WPRE*1280 Prairie du Chien, Wis. ETing; KYNO*1300 RS 3:15; KPOA RS 3:37-4:05; KALE*960 RS 4:35. Also KMYC*1410 RS, KWON*1400 f/c, KOL*1300 RS, KRED* 1460 RS. WGTM-590 RS 1:05-1:30 p.m., WPTL-870 RS 2-2:30 p.m. 11/30 - WBAP-570 RS 12:50; WBRC-960 RS 1:30; WEBR-970 RS 1:35; WLC3-910 RS 1:40; KFRE-940 RS 2:30; WKEI* 1450 fund raising 3:07; KHJ-930 RS 2:50; XEAO*910 RS 1:55-2:30; KVOE-1480 RS 3:30; WAPL*1570 Appleton, Wis. ETing 3:55; KFOX-1280 RS 3:30; WATL-1380 RS 4:12; KVAN*910 RS 4:15; CMBQ-1010 RS 4:35; WDSG*1450 NRC DX 4:50; WBUY-1450 NRC DX 5:30; WDEF-1370 RS 6:45; WPTF harmonic on 1020 RS 7:15 (thought it was KFVD). Also KDSH-950 s/off around 2; KMYR*1340 through WEMP 3:05; KORE*1450 RS; 2WL-1430 nearly non-existent RS. KFMA-1580 ETing 6:45. Now, backwards! WTUS was really cutting through WCHS. WVMW with Andre Kostelanetz music; no mention of club (not while I listened, anyway). KPOA doing very well for a Hawaiian; not there on 11/30. Glad to get, finally, Washington's 2 1,000 watt all-nighters, KVAN & KALE. Took me 50 minutes to identify WLC3; plenty of XEAO QRN throughout, KPFO QRN till 2. CMBQ has me wondering, both Weyrich and International ECB log list address as Industria, 266; on station's transcribed announcement, aired every 1/2 hour in English, it gives CMCU address, so I sent it there. Unidentified music from 5:15-6 on 1410 kc/s., 11/30. WBUY very pleasant DX show. To sum it all up, in last week, new stations heard: WCRL WTRC WTUS WRCO CMHU KMYC KWON KOL KALE KRED XEAO KDSH KTYR KORE KVAN 2WL WDSG WKEI WAPL KYNO. Reports sent to: WMIE WCKY XEPH WING WIL WTUS WWRM WGBS CMCU XEG WVJS KFJZ KHBL KROP WVMW WPRE KYNO KPOA KALE WGTM WFLO WRAP WBRC WEBR WLC3 KFRE WKEI KHJ XEAO KVOE WAPL KFOX WATL KVAN CMBQ WDSG WBUY WDEF & WPTF. What a week!

Albert G. Shinton - 2961 East Octagon Road - Camden 4, N. J.

Hi there. Things are going fine here. Along the DX line except for some good ones I let slip through my fingers. Veries are coming in slowly but you can expect that during the DX season. I was listening to WNOR (1230) & behind it I heard a station talking like to ham radio operators & I heard the call letters WCK4F so long W. Va. This was at 2:22. Veries still out for this month are WHPK (1450) WHPA (1240) WAIN (1270) WNOR (1230) CHSL (900) WAKR (1590). Expect a few for a few that put out DX programs which I expect this week. Veries in from WGR 550, WHAS 840, WSRS 1490 WOKK 1350, WCVI 1340 WVOM 1600 CKOY 1310. Verie out 11/26, WTAL (1380). 73a.

Misings of the MembersJoe Brauner - 23 Howard Avenue - Williamsville, 21, N.Y.

Outside of a drive on slow verifiers, not much to report this week. On 11/23 heard WHEV s/on 1430 at 8 a.m., not new, but interesting. Later in the day took verie data on WPEO, 1020, through KDKA for another try for a verie. 11/24 KLIL, 1340, heard with all-morning ET, very good at times. And a surprise logging of KCID on his f/c, heard surprisingly well through WRSR for my first Idaho station since 1949. On the DXes, WHEB was very well heard, but no sign of WVOH here. Overslept on both WROM & WKLV, but heard WMAW with a strong signal for my second reception of that station. 11/30, both of those nice DXes from WDSG and WBUY perfectly heard here. Also KRMS, 1150, heard concluding its ETs at about 4 a.m. And for anyone needing them, WMYR, 1410, signs on RS at 5 a.m. and was in the clear here (Sunday). Same for WLTC on 1370. And WSAP, Portsmouth on 1350, all easy at 6 on Sundays. No chance to tune WIST here at 6:00 weekdays; WREY on 930 at 5:30, so tried 7 a.m. Sunday time, but no luck. WETO on 930 at 5 a.m. and someone else signed on at 5:30 but no luck on who it was, WSAZ on at 5:58, WIST for a lone call and good morning at 7 just as WJAX hit the deck covering everything. WTRD was going strong on 920 at this time. Verie this week largely on f/ups, KBUN-DX, WKIN WICE-DX, WMAW WUST, WAKN WGLC. WMAW & WAKN f/ thanks to verie signers in "DX News."

John Pohl - 469 N.E. 51 Street - Miami, Florida

Miami Edison 21 - Miami High 7. What has that got to do with DX, you say? Answer-nothing. I go to Miami Edison Senior High School. For 28 years now (31 games, though) we have been playing a Thanksgiving night football game with Miami High. For 27 years, we lost that game. This time it was different. A Miami High team that was rated as the best in Florida by state sports writers was held to a net 21 yards gain. Edison gained 264 yards. For about the last 15 years we (Edison) have been taking out a parade permit for after the game, just in case we won. Well, 27 years of football supremacy ended at 10:05 p.m. Nov. 27, but the parade (right through the middle of Miami) didn't end till midnight. Edison took both goal posts (steel pipe) and a bunch of fellows carried them from the Orange Bowl for about 4 miles to the school. Then about midnight, we started a big bonfire in the middle of a main intersection in front of Edison. The cops blocked off the traffic and the fire department was there (just in case) but no one tried to stop the celebration. I am a senior at Edison, so that was a swell graduation present. Maybe I'm still a widdle boy, and maybe I should get in earlier but I missed the WROM DX on account of celebration. Remember? That was from 2 to 3 a.m., but I wasn't home! WHOOPEE! Oh yes, The attendance for the game was 31,391. This, remember, was a high school game, but the news made the main front page headlines of the Miami Herald the next day. DX was kinda slow this week. WMOG heard on 11/27 as per f/c list. Also 11/27, WBIP heard as per f/c list. 11/27 p.m. heard WJAT-800 s/off at 5:32. This morning I heard Kruse's 2 swell DXes, one from WDSG and the other from WBUY. This week, I got a letter stating that WLEW, 1420, 1000 w., Toccoa, Ga. would honor the NRC with a DX at 4 a.m. EST on Jan. 5, 1952. I surmise he means 4 to 5, but I will check with him about it. Now for some questions. Who played intermittent music from 3:15 to 3:25 on 11/27 on 1240? Who played music from 4 to 4:25 on 11/30 on 1450? Who was on all night on 1420 on 11/30? EKOL seems to have quit all-nigating. WINZ not noted as yet with 50,000 watts. I have probably run way over 30 lines by now so I gotta go. WHOOPEE!

Hal Williams - 50 Third Avenue - Seymour, Conn.

Only 2 new veries this week, WVKO (1580) letter signed by GE. He is a ham and his name is Hammett, hi! And a swell full-page letter from GE of WDMG (860) who writes in part, "Your program listings are absolutely correct and we really appreciate this fine report, wish they were all like this. We welcome all correct reports." Quite a contrast to some veries received, WOOK-WINX for example. How about it, Pop and Joe? Also a dup card from WHEB. The only new DX for the week was WROM (710) on DX but again I was at work and had to sneak out to the garage and tune in on the car radio to listen. Got 'em 10 minutes at s/on and 10 before s/off. WMAW (1470) heard the same way but I did not need them. I couldn't get a relief man so I could not try for WKLV, and I need them. I sent 'em a report and a f/up in 1949 but no soap. WDSG (1450) in like a local for NRC DX, nice going. He sure gave the good old NRC some nice plugs and WBUY also came in with a bang and that's one I needed. I could have used some of those Denitte Doughnuts and Coffee while Bob Morrow was talking about them. 73.

Mustings of the MembersBen Patch, 530 Sunset Road - Winnetka, Illinois

First thing on the agenda is to report that KIRE may put on a special as soon as their new 1 kw. transmitter is installed. When it is expected to arrive I don't know. Recent loggings were WDEA WTRY WATC KTRY WEW WFAW KRVN WPGH KWBC & WTRB, also WCAL. Of these only 2 reports could be sent; WTRY & WEW. Other requests out are KEWL KRCO (for f/c as listed) KNEA WKRA WPIT WNAD WOTW OKNW KVLH KVAN KUBA WHIT KPOC KALE WPAC WBUT WGBI WKXL KDLN KIKC WBHF WTVG KFMA WSPT WEML f/up WDYE f/up WSSA f/up WQAN KQWT WNBZ WSBC WMON WODT f/up WATO KQPH WKEE WJLE KOA WGEZ & KFAM. Those from WBHF down are delinquent. Veries in are CJOB WEDH WMLK WHTW WHBS (new on 1550) WJLS WBIS KURV KPET KVOA KSIB (swell letter) KIBE KVOB & KSCB. Was unable to get up for the WHEB and KVLH specials which makes me sick! Didn't need WVOW. Have managed to get 11 specials including WOTW's which everybody missed because of XEW. Well, fellows, you should have been on 900 when GERM s/on. GERM broke XEW's strength and WOTW pushed its way in and I managed to get a log on it, very poor though. How come KRVC's special is for 1450? They are now on 1410. Keep up the good work on the 1450 specials. I need all of those listed except for KIMX. WDSG has had a report out since August, so I guess they couldn't verify because it was so poor. It was heard during Tennessee primary elections amid much QRM. It seems that WKXL in Concord N.H. s/on early ruining the frequency after 4:00 on weekdays. Almost forgot, WPHS, Prairie du Chien, Wis. was heard on 11/25 with ET. Also heard then were WFTL, 1340, and KDRS, 1490, both f/c as listed. Can't understand why I hear CJOB every AM over WEMP's signal. Have been listening on 1340 for 3 years and never heard them, then all of a sudden I can't get rid of them. They've been 24 hours for the last five years which makes it more baffling. How's WABG, Lefty? 73... (Boo - Ed.)

Pat Reilly - 11 Irving Place - Jamestown, N. Y.

New veries are WICE KGAE KSEM WPHG KBUN WBIS for total of 2,319 veries so far. 11/25, no DX. Some of this all-night company that doesn't know enough to go home. KGAE is in Hotel Marion. KSEM P.O. Box 276. KGAE said it was a f/c - don't know if it was regular but off at 4:46 on second Thursday, try for them. 11/26 - WPHG, 960, test at 3:26 for new one. WIRB, 1230 at 4:24. KTOE, 1420, behind KSTN at 4:53 and other western stations on with storm broadcasts. 11/27 - Very bad DXing as all I heard was tone testers and no calls. 11/28 - WTVH was finally caught on 1590, badly QEMed by KWVC on cellar wire. WROM good on DX for club. KSD, 550, test at 2:55. KLAC on top of WMCA on 570 at 2:58. KFEL on top of WWJ, 950, after 3:00. 1280 had unknown on ET and off at 3:17 to be back at midnight tonight, 500 watts, 1280 kc/s. It sounded like WPRE call, then ran into TT's until 4:50 when I quit and to bed. 11/29, heard several announcements and one selection from WKLV's DX, WMMW was good on DX for 2 new ones. WIL, test, 3:43 to 3:57 when they announced. 18°, snowing and high noise level here. 11/30 - Unknown at 4:01 to time WDSG came on at 4:29 on 1450. WDSG was a new one for me. WBUY not heard at 5:07 and to bed for me (5:30-6! -Ed.)

Bernie Duffy - 94 Lander Avenue - Staten Island 14, N.Y.

DXing the past week netted me 6 additions to my heard log, for a total of 2071. They are long-sought KPOF WROM & WJRI's DXes, KFEE WKEI and new ETEr, WAPL 1670 kc/s. Results of my latest dials is as follows: 11/28, WROM DX well received @ 2:15 on, KPOF pleased and surprised me by booming in @ 4-4:30 with its f/c. 11/29, WKLV's DX topped the 1490 kc/s. mess easily 1:55 An. WMMW's DX didn't show. 11/30 - KFEE 940 @ 2:55 was a new Californian for me, WAPL fairly loud behind XERF @ 3 a.m., and needed, 100 watt WKEI heard well with a charity appeal program till its s/off @ 3:45. WDSG & WBUY's DX came in like locals @ 4:30 and 5:30 respectively. WACL's weekly 5 a.m. s/on came in equally well. 12/1, WJRI's DX was like a local @ 4:15 on. I couldn't hear KITY's DX @ 4:30, as strong open carrier on 1300 kc/s. probably blocked them. KXEO's letter is my only new verie.

Tom Johnson - 766 Glendora Avenue - Akron 20, Ohio

This will let you know what I've been doing this past week. All of these are 11/23. KLO-1430 Ogden, U. thanks to JJ for s/off in "DX Down the Dial." KECA-790 Los Angeles s/off 3:15; WKRG-710 Mobile on RS at 3:17; KYNO-1300 Fresno, Cal on RS at 3:35; CKOY-1310 on RS at 5 AM with QRM from WDOD & others; WITB-1230 Baltimore on RS 5:05. WITB makes a station logged on every BCE frequency for me. I along with Pat Reilly wonder what the s/off on 1590 at 3:02 is. In my radio above 1500 the dial is a little bit off. I have to chance the angle that I look at it from. At about 3:02 on 11/23 I received station on 1590 with s/off. They said, "Putting southern (con'd, P. 7)

Musings of the Members

(Tom Johnson, con'd.) California's 1,000 watt voice to rest." I thought this was 1580, but no California 1 kw/ on 1580. Probably 1590 and KVVC. Not sure. Can any one help? Veries received for 11/19 to date are WRVA CFOR, long awaited verie from KSID for report of 9/28, CBO WNLK verie for report of NEC DX, CBJ, nice letter from WOKE and card from KNBC. Got WOKE in time as I see they are moving to 1000 and would be ruined by WOFL. Best DXing and 73. (WOKE is going to 1290 with 1000 watts -Ed.)

Charley Conley - 358 Market Street - Lemoyne, Penna.

Well, the kids 'n' the grandchildren 'n' the turkey 'n' stuffin' 'n' Thanksgiving have left us, so, while Grandma is straightening up the shambles that once was our home, I ducked out to get this written. My Thanksgiving was ruined by receiving on the 28th, what I consider the poorest reply yet for the better part of an hour of ear-bending. Namely, my report to WOTW on their DX. After gleaning 10 identifiable items through XEW's stuff, I received a letter with, other than salutation and signature contained "Thank you for your signal report of November 15, 1952, 73." So I'm writing Mr. Handfield a second letter in which I will point out that broadminded as I am, I cannot by any stretch of the imagination consider that a verification, and asking please, lemme have a verification. Reports to WHKB and WBUY on DXes, and WALB, 1590, f/c as per list, 11/30. No trace of WBAW and only one short break of a portion of out NEC plug from WDSG, thanks to WQMB's spill-over. Reports also to WROM and WKLV both very weak here. WBUY placed a fine signal and program, along with his commercials for the donut Binette and Kruse. Didn't say what Len was promoting! Seems as though the Light Company has placed their QRN machine in operation again. Very bad the past 3 nights, so I guess I'll have to get after them once more. But I won't lug a portable around as an excuse to get in a tavern! For 2 reasons, ain't got no portable, and besides I don't dr---- Hey! How ya doin', Lefty?

C. M. "Stan" Stanbury - Box 218, Crystal Beach, Ont.

First of all reports have gone to WICE-1290, KDLA-1360, WOTW-900, WNLK-1350, KVLH-1470, WVOW-1290, WROM-710, WWDC-1260, WHLL-1600, KDDD-800, WSOO-1230, WSSO-1230, WWL 370 (Before I am disgraced, that is now new, hi) WWNR-620, CBW-990, CX14-810, KOFO-1450, XELZ-1440, KRNO-1240, XERB-1090, KPOA-630, KALE-960, WKAQ-580, KR0D-600, KEFO-690, Rome I-845, WITA7-1400, CBN-640, 2NR-700, XEDF-960, AHD-780, KOBE-1450, WRIA-1450, La Coruna-710, 5CL-730, YVLD-841?, EJKO-830, XELA-830. Verifications are still trickling in here. Recent ones are KEX WWNY WHLL Rabat II, PRG3. Some Marine Band catches of note are YDW-2350 kc/s, in Pontianak, Borneo (this is my best catch, Maring or broadcast band and I certainly hope they verify). The harmonic of YVWK on 2360, KIEG (this is an American boat and when I heard them the position was approximately 4° N. and either 3° W or 30° W. I am writing to the U.S. Government to try to find out the name and address of the owner of this ship so that I might send a report and possibly get this catch verified. Some of you may recall the new phonetic alphabet (a-alpha, B-bravo, etc.) that the United States Air Force introduced a couple of months ago. Well, it is rapidly on its way to being tossed right out the window where it belongs. I know for a fact that the civil air patrol boys are raising heck over it and that several commercial air lines have refused to use it. It is absolutely impossible to use under any adverse conditions as the words are unfamiliar and worse, they don't suggest the letters for which they stand e/g., Q-Quebec. You certainly do hear some interesting things down on the Marine Band. That's it for now.

Everett Johnson - 504 16th Street - Meridote, Ill.

DXing not too bad considering the poor conditions here. New ones added to my log are 11/23 CKRM-980 s/off at 4:12. CKFI-800 RS with Lombardo records. 11/24 heard KLIL new one in Katherville Iowa 1340 kc/s. Tting. Sent report to them 4-5 a.m. WKIN-1320 f/c. WAIM s/on at 6:25. Heard WVOW DX-1290 for NEC, came in very good here. 11/25, WORZ-740 s/on with Lord's Prayer, KLPR-1140 RS at 6:30 PM. 11/26, WBSR-1450 f/c. WJEB f/c 1230. 11/27 finally caught that WBBB in N.C. 5,000 watter now. Have been trying for them a long time, 920. 11/28 heard our DX from WROM-710, came in good for ½ hour, WGN-WLW really ruined it here but enough for a report. Thanks, Kaskey. WPRE-1280 ETing at midnight till 1:45 a.m. on again tonight he said. Not on the air as yet. WLES-1540 s/on at 7, WFRX-1300 RS at 4:45 p.m. WJRD-1150 RS at 5 PM Reception very good here tonight so should get some more in the wee hours of AM, 2 DXes this AM. Veries are KYQU-1450 nice QSL, WNLK-DX WCCP-4450 for contest. WKCT-930. WSSO-1230 contest again over 50 reports out, 185 verified. I think I should get 15 more by 1/1. 46 new stations heard this month. Am going to get 50 with 2 more days left. Hi. 25 veries in this month and Saturday left to get more. All for now.

Mailings of the MembersMike Ferguson - 3337 Prospect Street - Houston 4, Texas

Well, here I am again. Really am outdoing myself with 4 reports in 4 weeks. Anyhow, with my mid-term exams over with, I'm getting down to the serious business of DX. Have logged an even 40 new ones since 11/16 which is the most productive week I've ever had. Incidentally, when I joined the club I had 407 stations in 40 states. That was February. Now my total is 706 in 43 states and many foreign countries. The NRC is the best thing that ever happened to me, that's for sure. 11/19 - CKCK in the clear and like a local at 2:07 - best Canadian I've ever heard, even better than CEW, etc. KVI-570 with mail order, WKRM f/c 3:30-3 on 1340 kc/s., WTYS 1340 f/c 3-3:15, WCDT regular f/c, WKRG-730 f/c 4:45-5. 11/21, alarm didn't sound off and I awoke at 6 CST and got 4 more - WEN-770 RS in the clear, KIOA-940, WPEO-1020, and an old friend of mine from my St. Louis days, WCIL-1020 s/off 7:31. 11/22 - CJOB-1340 first Canadian graveyard station, and at dusk, WOI-640 and WNAD-640 together with Guatemala City at 6:00. 11/23, very disgusted to learn that they other station on 550 kc/s. besides KMVI is KPMB after 3:00. KMVI is actually stronger. And I thought I had Alaska or something! Also KHQ-590 under the Mexican, CPOC 600 s/off 3:07, WCRB-1460 very weak on a good DX night, WPAB s/on 5:57 in English, then right into Spanish. Also many others, among them WHKC-310, KPRM-550 announcing as originating from KMBC studios, why?? WPDQ-600, KTRB-600 and WRD-880. Cubans all over the place, never heard so many before. 11/24, WKDA-1240, KGIW f/c per schedule, KDON-1460, WHITE Barry Kay show or something like that, really pretty good listening, s/off 3:30. KLIL-1340 Estherville, Iowa testing with Emile Cote Glee Club, KNOG 1340 f/c regular, KGLN 1340 f/c as per list, WAIN-1270 f/c 4:30-4:45. And a strange one on 800 kc/s. at about 2:45, very strong music, then a complete fade, then very strong again, but didn't hear a voice. Dial just one big series of squeaks, knocks, rattles, buzzes, and hms this AM. One veris is all this week, KSID for 9/23 report on their old frequency of 1540 kc/s. Well, that's my 30 lines, so best of DX to all.

Len Kruse - 816 Euclid Street - Dubuque, Iowa

The latest DX loggings at this den included WCVI (1340) Connelleville, Pa. on 11/12 with an NRC DX, having had QRM from WEMP, and 10 minutes of KMYR till they signed off. Also on 11/12 WFTR (1450) Front Royal, Va. on its f/c-TP program 4:45-5 a.m. The NRC DX special from WNLK (1350) Norwalk, Conn. was heard well on 11/16, but the KAHU (920) DX on the same morning was impossible with WOKY going strong with its all-night program. The morning of 11/23 profitted my DX log with 3 additions: WMYR(1410) Fort Myers, Fla. on its regular programs 6-6:30 a.m., and completely in the clear. Then at 7:20 a.m., WIFM (1540) Elkin, N.C. signed on with their regular programs, and heard for the first 10 minutes, with some QRM from two Texan stations. Then at 7:30 a.m., WBNL (1540) Boonville, Ind. on its regular s/on and program for 1/2 hour. The latest verifications were letters from: WFTR WBIS-DX WNLK-DX KVNC WLDY, and a duplicate card from WAIR-DX. Verifications now total 2147.

Stan Morse - R-3, Bradford, Massachusetts

11/18 - WPAB test 2:33. KGHP with what sounded like a City Council Meeting to about 2:54 a.m. WJPS, Evansville, Ind. f/c 2:55. KYNO RS 3:30. A station on 1560 sounded like an airport station at 3:40. QRM from KPAC. Very distorted. WINT f/c 3:40, too weak for report, a new one, too. KALE 4:06, QRM by TP, 4:17 on. Veris WAIR, KGDE. 11/19 - XEDM after 2:30 with sucker offers. Who at 3 on 1370, 2 musical selections and tone? Off at 3:10. QRM by KEEN. WKHF f/c, 3:15. KYNO RS good at 3:20. WFER s/off test 3:50. KPOX s/off 4 a.m., WFUN f/c 4:05. 1560 announced "98 miles from 7" at 4:25, S-7 and less distortion today. 11/20 - WABI test 3:06. KRGO f/c 3:18. AHD f/c 3:30. Veris from WDYK. 11/24 - WLEA s/off test, 3:10. WYOW DX OK. Veris card from WMYR. WEMP heard at 4 a.m. Monday - maybe a test but didn't sound like it. 11/25, WSYB test 3:37. YVKY "La Voz de la Patria" to about 3:30, QRM by KIRO, all voice from 3:12 on. Mentioned slogan often: WBUD at 3:57, TP. WPEE-1280 Prairie du Chien Wis. on ET, heard at 4. WTYO f.c as listed, 4:28-4:45. Veris, WICE & WTVH.

Roger Anderson - 835 South Greenbrier Street - Arlington 4, Va.

DX here this season has been poor from the U.S., adding specials from WBIS WICE KGDE KDIM and ET from KBWL. This is fine location for foreign DX. Have reported to Australia, El Salvador, Guatemala, Costa Rica, Colombia, France, Germany, Belgium, Italy, Monaco, Spain, Portugal, Holland and Algeria. Have heard in addition, Switzerland, Luxembourg, Sweden and Yugoslavia. Now have 991 veris in 34 countries. ONE SINGLE-SPACED REPORT THIS WEEK. THANKS TO ALL THE REST OF YOU FOR DOUBLING!

Musings of the MembersFrank S. Johnson - Concord, New Hampshire

Have received a few nice veries lately. CJCA-930, card, no signer, CFNB, 500, large card, showing picture of transmitter building and at long last, my old-time favorite from N.C., WBIG-1470. They have as beautiful a transmitter building as I have ever seen anywhere. I visited them in '46 while stationed at Greensboro. It is on the same road that leads to the Guilford Cemetery, where Gen. Nathaniel Greene fought the battle of the Guilford Court House. There is a large beautiful monument of him there, astride his stallion. I really like North Carolina. To get back at DX, one more card received, WMMB-1240, no signer. WSFC-1240, verie states that their best DX report is from Dunedin, New Zealand. 11/28 - WROM, 710, DX heard here in part. Was one of the livliest and peppiest DX programs I've ever heard - really enjoyed it. 11/29 - WKLV-1490 DX much QRM'd but received enough for a report. 11/30 - WDSG 1450 DX and WBUY-1450 DX both heard well here. Also 11/30, KXYZ-1320, 2:30 to 3:00 for a new one from Texas, and a 3-minute report on KPRO-1440, at 4:30. In case I have to send a follow-up, I would appreciate a little more information on this station at that time. All I heard was the station call, and the announcer said, "We are on the air at this time----". They signed off at 4:30 EST. DX has been terrible here for the whole month of November until today, 11/30. I have verified 101 stations to date since last August. I haven't my entire collection here, but believe it is nearly or over 300. Am hoping for all 3 NRC DXes tomorrow, Dec. 1. So long.

Roy H. Millar - 857 South 128 Street - Seattle 98, Wash.

The local 1230 all-nighter (except Monday) changes call Dec. 1 from KXRN to KLAN. Noted the call KLEM-KRED/FM for Eureka, Cal., 1480. This sounds to me like KLEM is still the BCB call. Say, did any of you heard the recorded f/c of KCID on Nov. 24 at 4-4:15? The complete cycle of identification, location and ownership was repeated at just about 25 second intervals! Note from KENI-550 might be of interest. "We do not log the individual musical pieces but log titles of programs against the time of broadcast.. Several catch phrases are regularly used which we desire the receiver to use in order to be absolutely sure of reception." Well, well. Must give 'em another go some Sunday AM when they're in the clear here! Missed my best DX report of the week in my last report somehow - here 'tis: WSAP-1350 Portsmouth, Va. at 6:30 a.m. with news and WX. 3 more s/ons at 7 a.m., but no could catchum - this on Nov. 16. WSAP is my first Va. seaboard station (getting closer to ye, Relfe!) and my most easterly 5 kw. DX, about 2480 miles. My best DX in that group (5 kw.) is TILS, San Jose, C.R.; CMBZ, Havana, Cuba; then the several Honolulu stations. Thanks Lefty for lead on KLOU, and say, aren't those Red Cross Commemoratives beautes? If WHEB DXed the 23rd, I didn't hear 'em. All there was on 750 was WSB, but no better on the 24th, then JOIB had the charnell! Heavy QRM that AM too, so WVOH didn't even get through to me I'm sorry to say. Cream of the DX here has been: 11/23- KDET-930 Center, Tex. s/off ET 4:04; WETO-930 Gadsden, Ala. on RS 5:30. 11/24- WGAC-580 Augusta, Ga. news at 5; WDEF-1370 Chattanooga, Tenn. s/on 5:30; WHBS-1550 Huntsville, Ala. s/on 6. So finally Alabama is logged - WETO & WHBS! 11/25- KFAR-660 Fairbanks Alaska heard for the first time this season 4:30; KDRS-1490 Paragould, Ark. f/c as listed; my first Arkansas 250-watter) WATL-1380 Atlanta at 5:30; WWJ-950, Detroit at 6. 11/27 - KOJM-610 Havre, Mont. easily overrode much closer all-nighter KWRE on regular f/c; CJAV-1240 Port Alberni, B.C. in the clear(!) a few minutes before s/off at 3:08. 11/28- CKWJ-730 Holguin, Ote. at 6:05 to supplant CMBZ as 2nd best 5kw. DX as above noted. Several other new ones logged during the week, but these are of most interest. Only veries of interest are KAHU (NRC DX) KIPA & AFRS-Sandal. Say, why don't some more of you Far West DXers get reports in to "DX News?" Guys like yours truly need PLENTY of help to roll up these good DX catches that thamoie experienced ones are making- hi! 73s to all.

Bill Whitman - 2727 Prairie Avenue - Evanston, Ill.

Not too much to report this week. Log stands at 495 verified with 75 out. KLEI (1280 heard well at 8:15 s/off, WTEC (1340) f/c 3-3:15 and WBIP (1400) 3:15-3:30 f/c both on 11/27; on 11/28 heard KHIS (1150) with ET 1:35-2. This is a new one listed as being in Eldon, Mo. but the announcer said they were in Osage Beach, Mo. They requested reports. Also heard WROM & WMMB on their DX, both heard well. On 11/28 hrd WAPX s/off 1; KCOG (1400) f/c 2-2:15, KERN (1410) s/off 3, KGER (1390) 2:45-3 s/off over KCBC. In the DX special contest I now have 4 stations verified with a total of 25 points & 7 reports with a possible total of 55, still out. Veries in this week, KOPO WNLK WNAG KJES KIXL KTBC & WGAU. 73. WAMI 860 & WAPL 1570 hrd 11/30 by Patch.

Musings of the MembersHal Stein - 432 Sutter Street - San Francisco 8, California

Hi gang. Just a brief note of good will to all my old friends and a belated welcome to the newer blood of the NRC. As usual listening time is limited since I am putting in 24 hours a week of school and 27 hours a week at work. Hence please excuse this poor-appearing list of loggings from a once-active West Coast DXer. Recent verifications have been WREC KNPT & KSPA all on f/ups, KIAMO and WMJU. I've been limiting my reports to weak stations or new states or new countries. Recent stations heard this week have been KUGN 3 a.m., KDLA 3:45 a.m., KXGN f/c 4:05 a.m. 2nd Monday, KTUC f/c 5:05 a.m. on 2nd Thursday, WING WROW KMLB KCLX f/c 4th Monday heard 4:05-6:15 a.m., KCID heard 4th Monday s/off of f/c at 4:18 a.m. KTKN 930 kc/s. heard 4:50 to 5 a.m. on f/c on 4th Monday. KXRN f/c heard 5:20 to 5:30 a.m., 4th Monday. WDVA, and that's all. I'd like to take this opportunity to congratulate the entire staff of editors, officers, CPC, and all the many unpublicized helpers in the NRC for the steady improvement that has been quite obvious through the last few years. The contests this year are the fairest and most practical I've seen, and the Foreign Section has been excellently managed. The newer members to the bulletin, the TV Section, and Verie Signers are losing no time in proving themselves to me to being important structures in our bulletin. To Lefty goes my usual congratulations, for like the Rock of Gibraltar, World Series to World Series, he keeps on plugging. Thanks to you all, from yours truly. (Thanks for the report & kind words, Hall - Ed.)

Don Kaskey - 908 South 25 Street - Omaha, Nebraska

DX a bit better lately. Last 2 weeks has seen 10 new ones added to my log. First was CBU-590 on 11/20 from 2-3:03 on RS, topping KULA most every night now. On 11/21 KVLH-1470 Pauls Valley, Okla. on their test-DX from 4:15-5 good here but a bit distorted, as he mentioned. Also heard that AM was KPUY-1450 Puyallup, Wash. on f/c 5-5:15 with marches, weak here but audible. On 11/25 WPBE in Prairie du Chien, Wisc. heard on ET from 4:08-4:50. Heard same several nights since, also. On 11/27 an all night DX session netted only WMOG-1490 Brunswick, Ga. on f/c 3-3:15 through heavy QRM. On 11/28, WROM-710 Rome, Ga. was heard well on their fine DX program. Bits of WLW-WGN sidewash but still WROM was heard well throughout the show. 11/29 saw WMAW 1470 Meriden, Conn. squeaking through on their test-DX. Vary weak until 4:39 when they perked up and were fair until 4:51 when somebody turned on his carrier. On 11/30 WICC-600 in Bridgeport, Conn. was finally logged with a fair signal from 5-5:30 on their all-night show. Other new one was WBUY-1450, Lexington, N.C. with a terrific DX program with plenty of well-deserved laurels going to Len. Also heard well that AM was DX of WDSG. This AM 12/1 I heard WJRI with DX from 3-5. Rather 3:15-5. Good here first hour despite XEAA QRM, faded out during last hour on clear channel though with reception taking a dip all over the dials. Heard only fair from 4:30 on. Was disappointed that KFAB put on carrier at 4:57 which ruined KBND-DX out here. Tried to call them but no transmitter number listed and information didn't have the number, either. KTEY also heard on DX this AM. Out of 26 DXes I have logged 14. Veries in past 2 weeks are from WJKN-1450, WFTR-1450, WGRO-1260, KXRO-1320, KROG-1450, WBIG-1470, WMYR-1410, WBIS-1440, KSID-1540, WCVI-1340, WNLK-1350, & WHAW-1450. Log now reads 1738 heard & 1396 verified. That's it from here. 73s.

Tom Johnson - 766 Glenora Avenue - Akron 20, Ohio

Here's this week's report on DX. 11/28, WHBS-1550, Huntsville, Ala. at 10:15 p.m. They are now at RS on 1550. Plenty of QRM from CBE on this one. 11/29, WJEK-1500 at 11:45 a.m., now RS on 1500. 11/30, XEDM-1580 at 2:01, KHJ-930 at 2:15 was just readable. When they faded out there was nothing. Still 11/30, KIMS-1480 in Lincoln Neb. at 2:20; WTVH-1590 s/off at 3; CJOB-1340 in Winnipeg with 250 watts was putting in a fair signal even with plenty of QRM; WSTR-1460 in Sturgis, Mich with s/on at 7:30. Here's a mystery. Station on 1450 carrying a special marathon program to raise money for a children's home. The announcer answered the phone saying WKEI. I couldn't find it in my log or "DX News." Can anyone help on WKEI? (Kewanee, Ill. 100 w. -Ed.) Here's something on the verie situation. Perhaps you have noticed the average station in Canada is faster in sending veries than those in the U.S. I have never had to send a f/up to a Canadian. Some stations in Canada just send a printed card which could be filled out & used by any station. I like veries that are a bit different from these plain cards. Veries are WJLB CBW WBIG CBK CECCO KCBS KLAC, who used KLAC letterhead & KLAC-TV envelope. Wind blew down a few TV antennas here, 2nd time for people diagonally back of our house. Each time man put it up he put antenna up high & bands around chimney only little more than a foot apart. No guy likes either. Thanks to members who sent me letters welcoming me to NRC 73 & back of DXing.

Meetings of the MembersRelfe Luton - Route #1 - Elizabeth City, North Carolina

What we DXers used is National Verification Week. Think I'll write my local Chamber of Commerce! A few have drifted in: WQHP for DX, KGDE WAIR WNLK WBIS WICE KDIM VOGM for DX. WCVI and WKXL for NNRC. WJLW RS near s/off. All received well with exception of VOGM who was steady but weak. Reports to KBRZ WBHF WFMP RS CBU WLNH KWCB KFOJ KEFA WIFM WPAC WCOJ WVOU WHEB KFI WJR WHO, some catches, these last three! WMAW WDSG WBUY on DX, and WABZ RS. Still DXing with the ugly shoe box-like AEB. The Hallicrafters is still out for repairs. Hope now to get it by next season. ZEM now s/ on 5 a.m. should be heard in the mid-west. (1235). Work has been heavy here and not much chance to DX other than mornings when specials are on. Aussies still heard here on the 30th, near sun-up. 4QG and 3LO 790 & 770 were the better ones. The DX Calendar sure looks good. Hats off to the boys of the CPC. No trace of WKLV on DX. Suppose I was in the dead zone. To all, my heartiest wishes for a Merry Christmas and a prosperous New Year.

Len Kruse - 815 Euclid Street - Dubuque, Iowa

The past week's DXing profited my DX Log with seven new stations, an average of one each day. On 11/24 WIST (930) Charlotte, N.C. was logged on its regular schedule of programs, following its s/on 5:30-6 a.m., having WSAZ interference. Then the new WPRE (1280) Prairie du Dism, Wisc. was heard on an ET on 11/25 from 3:59-4:40 a.m., and asking for reports of reception. WPRE will be a new "local daytimer" for me when they begin regular programming. The following AM another new station also on with ETs 2:30-3:05 a.m., namely KGKO (1480) Dallas, Texas, having QRM from KANS on all-night with special storm broadcast. On 11/27 Station WMOG (1490) Brunswick, Ga. was logged with its last Thursday of the month f/c-TP 3-3:15 a.m., topping both WJBK & WSRS. The special DX Test from WROM, Rome, Ga. was enjoyed and reported on 11/28, although not needed at this den. The swell DX Test on 11/29 from WMBW (1470) Meriden Conn. was logged fairly well, after the first 13 minutes of QRM from KXDA who signed off the air at 3:13 a.m. The other NEC DX on 11/29 from WKLV (1490) Blackstone, Va. was also reported, but only because of a special NRC DX, as has been verified some time past. The first two DX specials I've arranged this season from stations WDSG & WBUY on 11/30 both came in surprisingly well, and completely in the clear. Both of these were new additions to my DX Log. We can't urge you too strongly to always support our club's special DXes, as the stations DXing are looking for many reports of reception from the DXers. I'm looking forward to many of the fine DX Specials coming up. Again may we compliment Sid on a terrific job as CPC Chairman. The 4 latest verifications came from WICE-DX WOTW-DX WCVI & KEAA.

Douglas Kenney - 150 Lincoln Street - Melrose 76, Mass.

Since the last issue of the "DX News" I have picked up 20 new stations, making my total number 344 stations. Two of these I received, thanks to the "DX News." I hit the jackpot on 11/30 at 3:48 a.m. I pulled in my first 100 watt station! Believe it's a new one - WKEL, Kewanee, Ill. on 1450. They had a special program for the raising of funds for the Andover Children's Home in Andover, Ill., about 10-20 miles northwest of Kewanee. Another amazing thing happened on 11/28 at 6 p.m. EST. I was on 1060 kc/s. thinking I was listening to KYW, Philadelphia. At six the announcer identified their station as WNOE, New Orleans. Never did hear from KYW! What happened? It is very rare that I even have difficulty getting KYW. It might have been off for repairs. I received also the station from Ohio State University in Columbus, WOSU on 820 kc/s. with 5000 watts. This also happened on 11/28. I picked 7 stations on 1450 kc/s. since the last issue of "DX News." WPAN, Pottsville, Pa.; WKEL, Kewanee Ill., WDSG, Dyersburg, Tenn., WBUY, Lexington, N.C.; WGET-Gettysburg, Pa., WNEZ, Saranac Lake, N.Y., and WASK, Lafayette, Ind. I increased my number of N.Y. stations considerably. WTIP on 1240 Charleston, W. Va., and WJAC on 1400, Johnstown, Pa. came in as clear as a bell! Received about 8 more acknowledgements or varies this week including KFI, Los Angeles. I now have 22 states in the union verified and about 10 others coming. Well, that's about all for now. 73a.

Jack Hathaway - 44 Garden Manor - Rantoul, Ill.

Just heard WWNC, 570, Asheville, N.C. s/off 12:05 a.m. Mon., 11/24. Heard WOR, 710, N.Y.C. s/off 2 EST. Heard WROM on DX program 11/28 Q5 S9. Received QSL from KGDE for DX program. Had KEEN, 1410 s/off 3:00, 11/28, Bakersfield, Cal. Had WJAX, 930, Jacksonville, Fla. s/off 12:05, 11/29. Couldn't get enough of WKLV to varie - just heard mention of DXers and call letters. WSRS too loud. 73. (Welcome to NRC, Jack!)

FRANK WHEELER-KWEI PENN. Here's how I faired with the NRC Specials since my last report. Too much WOOD for WAIR. Not assound of KBRZ-VOCM. Too much interference for KPHU-CKBL-KVLH and WHEB, also CFAR and KWEI. I received WICE-R8; WOTW-R9; WBHF R9; KOIM R5; WNLK R9. WOTW through a bad mess of QHM from XEW and another station testing. Other new stations I received were as follows. WPNX-1270 Phoenix Ala 0430 AM EST start of broadcast for the day, Nov 4. WRUN Nov 5 - 0301 S/off from giving election returns. WCOM Nov 16 F/C 0105; WCVI-1340 Nov 12 NNHC Special; KOWH 660 kcs Nov 26 - 0409 AM on with 5 min spot blizzard reports. New veries WCOM-WNLK-WICE.

WALTER I. GOLDY-518 JACKSON AVE-RIVER FOREST ILL Recent NRC-DX programs have been received here quite well, among them WAIR-WAHM-KBRZ-WICE-WNLK KVLH. However those badly needed VOCM-KWEI-KAHU-WOIW-CKBL did not show up on my dial. I tried very hard to bring in KWEI while WEDC was off, but no luck and at that some unidentified tone tester came on 15 minutes after WEDC S/off. Better luck next time.

LEFTY COOPER-438 E 21st STREET-BROOKLYN 26 NY Well, I finally gotten in a few licks at DX and came up with WAPL-1570 on Monday battling KERF and doing a pretty fair job of it too, and on 12/2 I heard KBMY-1240 kc on F/C giving WEDC a run for the cars until WFTM came on and wiped them out altogether. KTFY's channel was absolutely barren here, and I am surprised to learn that they were on as scheduled. Erick and Bernie also drew a blank on this one which must be allergic to New York City (Getting mail out of NYC must also be allergic) I heard WJRI's DX and was wondering when Don Kaskey fell into that fortune he must have presented to the Telephone Company after his long talk with them over Alexander Graham. I was away for the week end and thus had to miss the fun of hearing WDSG and WBUY, neither of which would be new to me. WOL was heard on 1450 at 0435 on 12/2-are they an alnighter? (Yep and Yep) I sent them a fast letter begging them to pick Sunday morning as their silent morning and I suggest others do the same thing, otherwise all those 1450 specials are going to be ruined. (Hope it works as they were silent Mon AM 12/1) If they only stay off 0400-0600 it would be a God-send to DXers. You might be able to help. So I'm tired and I'm going to get in my little Murphy bed. Move over murph.

/ues- LEFTY)

REMEMBER BOYS TUESDAYS WILL BE THE DEADLINE FOR THE DEC 27th & 1/3 is-

"A Word About Mailing DX News"

As you lads noticed last weeks issue was mailed using Pre-cancelled stamps. This was done because there can be no more cancelling of DX News is mailed Saturdays at the Kensington P.O. Reason is that the business they do on Saturday AMs has become too great and they are swamped right up till noon closing time. In fact they have to work until about 1 PM to get the lines cleaned up. So when your DX News has to be mailed on Saturdays its a must that pre-cancelled stamps be used. If we just let them send them to the main P.O. then it will be 10 days or more before they are received as was witnessed with the first 2 issues from Buffalo. However dont feel too bad about the way your DX News arrives. This week your DX News will not be mailed until Monday Dec 8th. Reason. Fred's Stencils were postmarked Lemoyne xx Correction, Harrisburg at 10 AM on Dec 4th, Leftys were P.O. New York at 11 AM Dec 4th, yet Freds did not arrive until Sat AM and Leftys Sat at 11:30 AM, both being mailed first class. so 48 hours from both NYC and Harrisburgh shows just how lousy our mail service is. So my suggestion is to send in 15¢ in stamps or coin for your Dec 13th-20 and 27th issues. And if you will be patient I will try to have something worked out in early Jan 1953 so as to insure better service. Last week DX News was mailed Sat AM and Wagner received his Tuesday, so they did get out of Bflo Monday which would not have happened had they been sent to our main P.O. uncanceled. Thanks.

Heard as listed in NEW F/C list;- WBEL-WKLY-KWBW-WHSC-WTMV (Rosenbaum)

FROM ROY MILLAR;- Since Alan Arnold has been so good as to give us another F/C list I wonder if we cant all be of assistance to him by submitting through this column, information as to the F/Cs that we're hearing. Perhaps those that are on as in the new list could be set up something along this line, and not take up so much valuable space in the main column, what say??? An example;

FREQUENCY CHECKS HEARD AS IN NEW F/C LIST-with additional or correctional key shown after call.

- 4th SUN KUGN; K~~MI~~VI (not KVMI); KILA; KNEW.
4th MON KELK; K~~MI~~X; KCID(V); KBIO; KOOK(m); KGLN; KTKN.
4th TUE KTIP; K~~MI~~0; KFDR; KDR3; 4th WED KBLI(m); KUKI; KGW.
4th THUR KOJM(m); K~~MI~~A(T); KAST(m); KBRC.

I think the above idea is a good one and in this manner each of us can keep his F/C up to date and Alan can keep his master list in order and next season we can be assured of a really up to the minute F/C list. However those F/Cs which are heard and are not listed will be combined in the reg DX down The Dial providing that you know that the information you submit is correct and not a guess. The reason for this last remark can be understood by reading Roy's info on 1230 kc where he says that the F/C he heard on the 4th MON of NOV was a make up check and not the reg F/C. (Pop made an error in that date, it should read 11/24th. Will be looking for more rpts for this column, but we want real DX info. Sid says new dates for CFAR & KWEI soon; Also WIMO 1/5 & CKXL 1/12.

FOREIGN DX DIGEST

Edited by Fred L. VanVoorhees, Box 132, Lemoyne, Pennsylvania.
 Normal deadline is now Tuesday morning. Reports/one side of page pls.

FOREIGN CONTEST STANDINGS.

WEST COAST LEAGUE

1. Roy H. Millar, Seattle, Washington; AFRS, Tokyo-AFRS, Sendai-
 KFQD-KINY-KTKN-KULA-KILA-

It looks like a slow start in the Central League, an average one in the East Coast League, and a fast get-away by Roy Millar in the West Coast League. Next standing will be in the first issue of January, dated January 3, 1953.

DX Supremacy ratings will appear in next week and again the second issue of January. We have listings for 10 DXers so far, How about yours?

HOLIDAY DX

Joe Lippincott suggests that we list the stations which were heard on longer Christmas and New Years mornings last season. Thinking that it isn't too early, here are the ones listed in last year's FOREIGN DX DIGEST. If you know of others, send them in so that we can list them in time for the holidays: TGUX (1025); XEQR (1030); YSABC (1100); YSEB (1075); YSC (1015); TIW (762); WENA (1560); CBL18 (1180); MROW (850); YVRL (1020) to 0328 s/off; TIGPH (605); TIDCR (625); TIRA (735); TICS (855); TIEP (835); and TIRC (995). In addition to this list on Christmas morning, there were quite a few Cubans including: CMKM (560); CMRI (570); CMCY (590); CMKV (600); CMQ (630); CMHQ (640); CMBC (690); CMHB (780); CMCH (790); CMKL (800); CMHW (810); CMBZ (830); CMBL (800); CMJB (880); CMND (890); CMCF (910); CMJL (920); CMJN (960); CMCK (980); CMET (990); CMBQ (1010); CMCX (1060); CMKB (1170); CMCA (1150); CMJD (1190); CMHK (1210); CMCI (1260); CMDC (1290); and CMBX (1390). The only New Year stations were CMJG (1000), CMCY (590), TIHB (683) WIPR (940). If any of you can add to this list, please let us know in time.

FOREIGN DX DIGEST

And now it is time to turn to the DX of the week. To Norm Maguire, your contest entries didn't get here until Wednesday morning, and I had the contest standings done Tuesday night, so they will make it next month. Now for the DX:

NORTH AMERICA

GUATEMALA--Before I forget it, I have something to pass along to all of you. You recall the discussion about the station on 880 Kcs, which has had a Guatemalan program in the late evening. From all of the information at our disposal, this column came to the conclusion that it was TILS with a program for Guatemalan listeners. Now we have a late list from Guatemala, and we offer the following information for what it is worth. Station TGJ 5 Kw., Guatemala City, is now on 880 Kcs. using the slogan "Radio Nuevo Mundo". Schedule is 0800-2400. Those of you who have reported TILS, please check your logs to see if it might not have been TGJ. We are sorry if we passed out wrong information, but it was all we had at the time. JL reports TGUX (1025) on 11/12 from 2216-2307. NM also reports receiving TGN (1180), but says no report was sent.

CUBA--HH reports a veric from CMCY (590) which also states that CMCY would be on the rest of November, possibly longer with test programs. They would not verify his reports to other network stations, but suggested that he write each individual station. His letter was also signed by Benn Jacobsen. HH also confirms the fact that there are two Radio Progreso stations on 680 Kcs. According to late information CMJE, Camaguey (1 Kw), and CMHG, Santa Clara (500 w) both operate on 680 Kcs. However, CMHG won't be synchronized with CMJE until 2/13/52, so CMS was probably only hearing CMJE. RHM reports his best Cuban DX as CMKJ (730) Holguin, logged 0600 on 11/28. JL also reports a lot of Cuban reception as follows; CMCB (1330) 11/16 0524-0532, hard to copy; CMCH (790) 11/19 at 2217; CMCU (660) 11/30, quite strong 1800-1900, frequently through WNBC; CMHB (780) 11/29, news in Spanish at 0018; CMBL (860) 11/28, 1724-1744; Radio Progreso (670) 11/24, very hard; CMJE (680) 11/25, excellent signal; CMBC (690) also with excellent signals; and CMW (550) 11/30 2237-2300, giving time after each selection.

COSTA RICA--JL reports reception from the following Costa Ricans; TIRA (735) 11/28 from 2334-2400 sign-off S-9 Plus signals. TIHB (685) 11/29 from 0010-0014 sign-off. And TIFC (995) 11/12 at 2400.

GUADALOPE--Radio Guadeloupe (655) logged on 11/28 from 1758-2003 with signals 10 db over S-9. (JL)

EL SALVADOR--YSC (1015) heard 11/18 from 2125-2227, but never positively identified. (JL)

MEXICO--JL reports reception of the following Mexicans; XEDM (1580) 11/28 from 0130-0204; XERF (1570) 11/28 from 0209-0215; XEX (730) 11/24 from 0105-0107 sign-off. Joe asks when they are in the clear. XEPH (590) 11/23 from 0329-0357 sign-off; XEBZ (660) 12/1 0311 to 0323. (All above from JL)

DOMINICAN REPUBLIC--JL reports HI3P still on 1040 on 11/30 from 2150 to 2157 20 db over 3-9. He also heard HI3A (1415) from 1820-1908 on 11/20.

ALASKA--Last, but far from least, news from Alaska. RHM reports KFAR in for the first time on 660 Kcs. on 11/25 from 0400-0500. That is first time this season. Also KIBH (1340) Seward, under heavy CJOB QRM recent mornings. Any morning CJOB off before 0500, this should be a good try. (Both from RHM)

SOUTH AMERICA

COLOMBIA--JL reports HJ CZ (710) from 0245-0257 sign-off on Monday morning. FV heard HJKA (675) Bogota, but not good enough for a log the evening of 12/1 around 2130.

SOUTH AMERICA (Cont'd)

TRINIDAD--*VP4RD (790) logged at 0458 sign-on on 11/30 signals 20 db over S-9, so strong he thought it was a local testing. (JL)

PERU--*OAX4A (854) Lima, logged on 11/18 from 1950-2043 with S-9 signals. (JL)

CURACAO--*HH has a verie card from PJC-2 (722) indicating that operating power is 5000 watts. KMU also reports reception of PJC-2 on 722 in the evening. Everyone has heard him now, but ye od. (HI)

EUROPE

U. S. S. R.--*Letter from DM has some interesting information he wants to pass on. He states that a neighbor wrote to Moscow for a short wave verie. The verie came all right, and right after it came an FBI man making a routine investigation. He was cleared all right, but the FBI man suggested that he not send reports behind the iron curtain any more. This is passed on to you for what it is worth. We can't tell you where to send reports, and where not to, but we can let you know what might happen.

ANDORRA--*JL reports what he thinks was Andorra on 824 Kcs. on 11/18 from 1848-1904, a man and woman talking between numbers.

SPAIN--*Madrid Arganda (737) logged on 11/17 from 1741-1810 with excellent signals. (JL)

PORTUGAL--*JL logged CSB-2 (1034) Parede, 11/17 from 1837-1959. HH heard Porto (755) on 11/14 in late afternoon with weak to strong signals. He was able to get enough for a report.

BELGIUM--*HH reports reception of Brussels II (926) quite good signals in the early morning.

FRANCE--*Marseille I, and others on 674 Kcs. often have good signals in the early morning, but WMAQ on 670 splashes over a good bit. (JL/HH). Paris I (865) is often on top of the 860 channel in the early morning. On 11/26 was S-6 at 1648 too. (JL/HH) Station on 1403 heard in the early morning, but too much 1400 QRM for a log. (HH) JL also adds reception from Nancy I (836) on 11/26 at 1642 and at 0256 on 11/19. Toulouse I (944) logged 11/19, at 1729. (JL)

GERMANY--*AFN Frankfurt (872) logged and reported during the evening of 11/20. Signs off at 1900 and are in English for American Forces in Germany. (HH) Logged on 11/26 at 1700. (JL) Voice of America, Munich (1196) heard very well on 11/20 and no jamming was noted. All programs in foreign language with occasional identification in English. Mostly news and commentaries. (HH)

NETHERLANDS--*Report mailed to Hilversum I (1007). Often heard well in early morning and sometimes have American popular music around 0130. (HH) On 11/18 the Dutch stations on 1594 Kcs. were received with very strong signals. Crystal not needed. Far stronger than was Hilversum I. Report sent here also. (HH) Hilversum (746) logged on 11/19 S-9 plus at 0200 with man talking. Logged again on 11/14 at 1634. (JL)

ITALY--*Nice QSL card received from Rome I (846). Reported on October 24th. (HH) On 11/25 received with S-7 signals at 1644 (JL) JL also reports reception of Naples/Florence (655) at 1635 on 11/26 with S-6 signals. Bari/Bologna (1115) logged on 11/19 at 0358, quite late for a TA. (JL)

SWITZERLAND--*Sottens (764) heard both afternoon and morning, but WJR QRM has been too much for a report. (HH) Logged at 1640 on 11/19 with 10 db over S-9 signals. (JL)

GREAT BRITAIN--*JL reports reception of Daventry (647) on 11/20 from 1730-1735 with signals 10 db over S-9.

NOTE--* This should have gone under Portugal above, but I didn't notice it until now. JL reported receiving a TA on 755 Kcs. which he didn't identify. It was probably Porto, reported by HH above. JL also reports a TA on 719 Kcs. at 1602 on 11/19, this one probably Lisbon.

EUROPE (Cont'd)

RHODES--The USS "Courier", floating transmitter of the Voice of America is widely reported on 1394 Kcs. Call given in English and address is; Mr. G. Horrick, Facilities Branch, Voice of America, 251 West 57th Street, New York 19, New York. (NZ)

OCEANIA

BRITISH SOLOMON ISLANDS--Broadcasting service was inaugurated in this country Sept. 23rd on VQO, Honiara, 1030 Kcs. Schedule 0200-0300, Sunday no broadcast. Programs will feature weather and shipping information. (RM)

HAWAII--KPOA (630) logged from 0403-0429 on 11/29, but too weak for a report. (JL)

AUSTRALIA--The following changes are via NZ, but are not necessary if you have the INTERNATIONAL LOG BOOK. If you don't, you may need to make them. Following calls assigned: 2GL (810), 2KS (820), 2KP (840), 5MG (1160), 2NS (1520), 2TF (1530), 7QN (1540), 2AN (1550). The following are added to the MAJOR NETWORK: 7EX (1010), 5DB (1030), 5PI (1040), 7HT (1080), 5LK (1090), 4AK (1220), 4BK (1290), 6TZ (1340), 5SE (1370), 6CI (1430), and 5MU (1460). New station 6---(900) 2 Kw., Bridgetown, W. A. to relay 6IZ (Ready in 6 months). 2CN (1540) Canberra to open in 6 months. 4SO (1590) Southport, now on. 5WM (1580) Woomera, S. A. in about six months. Frequency changes: 4RO (1080) to 1490 (12 months); 5WN (800) to 810 (12 months); 4GM (1540) to 1570 (3 months); 6CI (1430) to 1340 (4 months); 6TZ (1340) to 960 (4 mths); 6GE (1370) to 1010 (4 months); Power changes: 6WN (800) now 6000 w. 2IM (900) 2 Kw Day, 1 Kw Night; 2PK (1400) 500 w; 4BU (1330) 2 Kw, Day and Night; 5AU (1400) 500 w. NM reports reception of 2BL (740) occasionally, and 2WL (1430) as best music of the season.

NEW ZEALAND--2XP (1370) New Plymouth, will be on Sept. 27th as a full X Class station, operating with 2000 watts. This was the former 2YB, operated by the North Taranaki Radio Society, and was founded in 1927, and has remained under the guidance of the society ever since. (NZ) 4AA (780) heard almost daily. 1YC (880) heard occasionally. 1ZB (1070) received quite well. (NM)

ASIA

JAPAN--NZ reports a new commercial station, JOSR (1480) Nagano, 500 watts. NM reports reception of the following stations: JOAK (590) received well frequently; JOBK (670) one of most consistent; JOCK (730) frequently heard with strong signals; JOFK (790) heard well only once; JOBB (830) heard well occasionally; JOQK (850) heard when KOA was off; JOOC (880) overriding 1YC; JOHK (890) one of most consistent and strongest signals; JOAB (950) heard often, but not well enough for a report; JOKP (980) heard occasionally; JOHG (990) one of best signals; JOQB (1030) heard occasionally; JOHB (1070) heard occasionally with QRM from 1ZB; JOKR (1130) heard occasionally through WNEW; JODK (1190) heard well, with English lessons; JOOR (1210) heard occasionally; JOIR (1250), heard frequently before WDVA signs on; JOER (1260) heard occasionally; AFRS (1270) Nagoya, heard frequently with very fine signals; JOFR heard once when KITO was off; AFRS (1390) Osaka, heard occasionally, but not good enough for a report; AFRS (1430) Sendai, heard frequently with 2WL QRM; AFRS (690) Fukuoka, heard, but not reported; AFRS (770) Tokyo, heard frequently.

MALAYA--Radio Kuala Lumpur operates on 875 Kcs. and 696 Kcs. 10 Kw Power with English and Chinese respectively, transmitter at Kajany, opened July 1. Also reported is Penang (650) English with 2 Kw, and 810 Kcs. 2 Kw. in Chinese. (NZ)

CEYLON--Commercial (640) 250 watts. Oriental Home (700) 1 Kw. Western Home (920) 7500 w. Oriental Home (1310) 1000w. (NZ)

INDIA--Jammu, Kashmir (1490) 1000 w operating now.

KOREA--We are advised that Homesteader moved to 1230 from 1240 to avoid interference with a Japanese station. (NZ)

RM reports a mystery station while visiting Evan Roberts and later the same evening at home. Heard 11/21 from 2100-2200 on 1272 Kc with British accented English speaking manner. Could this be the new British Honduras station?

JL reports some mystery stations. One on 1990 Kc on 11/23 at 0413-0428, announcing as "Radio Reloj" after every number. He had one on 1285 Kcs. at 1840 on 11/21 with S-6 signals. (YVMP) One on 700 Kc. 2030-2130 off and on, used 3 chimes to identify, and they possibly mentioned Caracas. Heavy QRM from WLW, but occasionally on top. Sometimes even seemed like two Spanish speakers on the freq. On 11/29 it was in the clear, mentioning "Santa ---". Another one on 650 Kc. from 2035-2315 off and on, said "Cadena Nacional, mentioned "La Contesta Popular" once. Thought he said Maracay. (Can't help you much, Joe, perhaps some of the other fellows can. JJ asks about some he is not sure about. There is one on 544 Kc (Possibly St. Pierre) One on 595 Kcs. with music only. (Maybe Frankfurt). One on 756 Kcs. (Probably Porto, see Portugal above) On at 0400 Sunday morning on 1595 Kcs. (XEMC the only one we can suggest on 1590) One on 825 Kcs. (Maybe Andorra) Also one on 1225 Kc. (No suggestions). One in Spanish on 1245 Kc. with the last letter K. Announced in English. (Probably HJAF, as he has been reported here.) Says there is also one on 1248 after the last one signed off. Hard to separate from WCME. Woman singing, then an announcement, followed by a National Song and left the air just after 2130. One on 1245 went off at 2130.

REPORTERS

JL-Joseph Lippincott, Box 67, R. D. 1, Moorestown, New Jersey.
 HE-Henry Holbrook, 6504 Chestnut Street, Chevy Chase 15, Maryland.
 KMU-Ken Murphy, P. O. Box 861, Lincoln, Nebraska.
 RHM-Roy H. Millar, 857 South 128 Street, Seattle 88, Washington.
 NM-Norman Maguire, 434 North Maple Street, Albuquerque, New Mexico.
 DM-Duane McMurray, 501 South Main Street, Maquoketa, Iowa.
 NZ-New Zealand Radio DX League.
 RM-Ray Moore, P. O. Box 19, Rowley, Massachusetts.
 JJ-John Johnson, 209 Park Avenue, Hoboken, New Jersey
 FV-Your Editor, Box 132, Lemoyne, Pennsylvania.

The section ran a little longer than I was expecting this week. It has been written in several starts, so it may leak something in the way of continuity. We have seen the first few pages of Ray Moore's European section of the International Log. It is really complete, and we know you will like it. Section on the Americas is about done, and mailing of the second section will be in about a week.

Hank Holbrook advises that he has ordered an HQ-129-X, and will be using it along with his NC-183. Looks like he really means to do a lot of DXing.

Norm Maguire notes a slight error in the International Log under Hawaii. The name of the man at KTOH should be Katashi Nose. Nice to hear from Norm and to know that Japanese stations are reaching him.

Roy Millar sends a nice letter commenting on the editorials which we recently wrote. Roy, unsigned veries are OK, just so they are true veries from the station. KAMU is OK, that wording is certainly more than just definite.

Nice letter from Joe Lippincott. Will try to answer it soon. See above on British Honduras. ZFY logged on 1235 Kcs. last season, but with ZBM in Bermuda operating there this season, it may be hard. ZFY signed on at 0445 for a while last season. You might try him there in the morning. Steve Mana had planned on arranging some programs from Latin American stations for this season. I don't know what the status of these programs is at the present time. See you all in another week.
