C K T R - Trois Rivières, Quebec

CKTR advised Hal Williams and Ray Edge of this special DX program which they wish to run on the occasion of their going to 5,000 watts. This is a Sunday morning, and there will be a couple other 1150 stations on, like KRKD and WCOF, but we hope this brand new transmitter will get through to you. They will appreciate reports on this new equipment. Mr. Charles Couture, Commercial Manager, says the program will be in French and English. So, please tune for this new CKTR transmitter and frequency and be sure to get those DX reports in to Mr. Couture, whom we thank very ardently for the DX Test.

W T S L * Hanover, New Hampshire

WTSL will broadcast their first DX program for us, on, alas, a channel where there are a few all-nighters to buck, like WHET and CKFH and perhaps one in Texas. To make identity a bit easier, WTSL is going to play band music and hillbilly music, and identify after each selection. As WTSL signs off at 11:15 p.m. each night and does not come on until 6:30 a.m., and has no regular time for its frequency check, this station is a MUST to almost all our members. So, our thanks to Mr. Ronald R. DeMatteo, Traffic Manager of WTSL, for his wonderful co-operation. WTSL is affiliated with WTSV, WTSN and WKBR, forming the Granite State Network. Arr: Lefty Cooper.

Info on "Special Programs" above came from (KBRX* Len Kruse, and (CFNS), Fran Hittler.

DX fair when I do DX. First a big Welcome to all the new members and wish you the best of DX. Veries two new ones after ten days without any. They are from WISH-1310 AN QSL card and a letter from WTIG, NNRC DX. Total 1,759. About 30 reports still out since 9/1. DX since last report: 11/22- I DXed three hours and heard the test from WKXY which came in fairly good soncidering WKY/AN. Anyone know who the Spanish one is on 1600, doubt if WVRL. Seems AN. WISH-1310AN. WYRN-1480 RS 4:45-5 when WRMM s/on RS. WEZE-1260 heard on 800 kc/s. and announcer said after midnight tune to 1260 and 800 via CKLW so 800 is blocked now. WRBL-1420 s/on 5, WRQL-620 s/on 5, also Spanish on 1560 at 5:10 Monday. 11/24 brought me three new ones: WMOA-dx KT00-1280 r/c-TT 5:50-5:45 fourth Monday, has changed from last f/c list, and WPRP-910 s/on 4:44, the Voice of Puerto Rico. Others heard but not needed were CFAC-960 which I believe AN as heard several AMs, WPOA-630 in clear at 4, WPNX-1460 s/on 4:56, WINN-1240 AN and Monday, KXEL 1540 test most AN, and on Thanksgiving Day I caught no new ones but did hear WAMP-1320 s/off 2:05. KLIC-1230 s/off 2:07. WNAU-1470 f-cTT fourth Thursday 2:30-2:45. WICK-1480 with r/c at 2:15 on. Someone on EST on 1370 behind WSPD AN but could not catch ID. Hope to DX Sat-Sun-Mon so hope more to report. Best DX to all and a vote of thanks to all arranging those fine DXes, all needed here but CKJL CHEY KWMP and CHRC. Calendar looks great. 73s.

Send all items in E.S.T. to Ray B Edge-325 Shirley Ave-Buffalo 15, N.Y.

1.590	WATM	Atmore, Ala F/C on 2nd WED starting at 0215 (Johanns)
1.600	WWRL	Woodside, N Y is your Spanish speaking station Ev. (Edge)

Definitely knowing that RCA will be discontinuing their monitoring service as of Dec 31 1958, it is suggested that those who happen to hear and report a station that will be testing for RCA this month, to include in your report if and to whom they will conduct their future tests with. WRVM says they are negotiating with Cambridge Crystals of Cambridge, Mass. At present do not know if this pretains to all the RCA monitoring stations throughout the country or just the Riverhead, L.I. station. If new monitoring service is obtained by other stations, the times and dates of their F/Cs might be changed. Any changes noted would be appreciated.

MUSINGS OF THE MEMBERSDan K. Phillips - 445 Eagle Bend Road - Clinton, Tennessee

DX is pretty good here at the present time. I have averaged two new stations every day. I have been getting mostly Mississippi stations. Veries in from WFAA WBT WCNT KFWB WAKR WFTL WRCV KFI WSAI WRBL WGBS WMAQ. Here is jy log since November 9. WATM 11/9 RS at 3 a.m., WLCS 910 RS at 3:05. KEYS 1410 RS at 3:15. WBML 1240 RS 11/10, WRBL 11/10, WJRD 1150, WBKH 950 RS, WLAU 1600, WESY 1590 at 5:45 p.m. KLCM 910 11/13 s/off 6:00 p.m. 11/15- WKOZ 1350 RS, WCIL 1030 8:00 a.m. WMBI 1110 RS 3:00 a.m., 11/17- KOAM 830 RS 6:45 a.m., KFAL 900 s/on 7:00 a.m. EST. 11/18- WMT 600 RS 7:00 a.m. WACT 1420 RS 7:00, KFVS 960 RS 6:35 p.m. 11/19- KWMT 540 RS 5:45 p.m. WOOF 560 5:45 p.m. and KBOA at 5:40 on 11/21. Could anyone in the NRC solve this problem? WBT 1110 in Charlotte N.C. and WSB 750 in Atlanta, Ga. both claim that they are the oldest stations in the South. Can anyone tell me which is the older?

Len Kruse - 816 Euclid Street - Dubuque, Iowa

Five new loggings the past week at this DX den. On 11/16 I was happy to log Station WHSM-910, Hayward, Wisc. on s/on with RS at 9 a.m. on this Sunday morning. The 910 spot is controlled at this location Monday through Saturday by semi-local WSDI, but on Sundays they are silent, so we latched onto WHSM. On 11/18 I logged a test from Station WREN-1430, Lafayette, Tenn. from 1:19 to 2:10 a.m., topping the frequency. I did miss the ETs of this new station when they used the WMMM call letters. On November 19, I heard a f/c from WXLH-1440, Dublin, Ga. from 1:30-1:45 a.m., with QRM from AN WWHY. Then at 1:43 a.m. I heard the first "on the air" ET of the O'Neill, Neb. station KVHC, which is changing from 1400 to 1350 kc/s. and increasing their power from 250 to 1,000 watts. It was news, though, to find they had changed calls from KVHC to KBRK. I had not seen this in any of the late FCC releases, but sure sounded like the calls I heard on this test on 11/19. Station WYRM-1480, Louisburg, N.C. was heard with its RS 4:00-4:30 a.m. on 11/20, for a new logging; QRM had from AN KBOX. On 11/18 I also sent another more complete reception report to the new WONA-1570, Winona, Miss. on ETs from 1:51 a.m. to 2:24, and actually topping the powerful ANer XERF. Four verifications received the past week, coming from: KQEO WHSM WMFT KBLR.

Alan Herriman - 7504 Montrose Street - Alexandria, Virginia

Since I am a new member of the National Radio Club, this is my first report to Musings. I hope to send in many more reports. Here are the new stations heard in the last week: WWHY-1440, KALK-820, WKIS-940, WSUN-620, WLAQ-1410, WBSM-1420, WKNX-1210, WFAA-1370 (first New Hampshire) WKNE-1290, WWBZ-1360, WREN-930, WINS-1010, WBNX-1380, KRMG-740 (first Oklahoma) WCNG-540, WMBG-1380, WBIM-1330, CKOY-1310, CKNX-920, CBO-910, CBR-690, XEWA-540, CHQ-330, CMBL-860. The verifications received are from KYW KDKA CFOR CBM WHAM WKBW WBZ and WOWO. Is there a station in or around New York City on 1230 or 1240 which signs off at 10:04 EST with the National Anthem? I would appreciate help in identifying it. Thank you. (Welcome to the Club, Alan, and glad to have you aboard! Sounds like WGBB-1240, Freeport, L.I. N.Y. to me now using experimental call KLEXXS-Ed.)

Bus Boatman - 207 North Hayden Road - Scottsdale, Arizona

Very little to report this time. On the evening of 11/22, I took a log on the semi-local KGO-810 San Francisco. Then later that same night, logs were taken on KDON-1460 Salinas, Cal. s/off at 2:06 EST, KEGL-1570 Navajo, Son. s/off at 2:06 EST, and KCOK-1270 Tulare, Cal. on RS. Reports out to all but KCOK as they were verified from Stillwater. Haven't done much DXing recently due to a rather heavy load in school. This is my last year and I want to make it one of the best, grade-wise. I should make Honor Roll this six-weeks. Rather be at the radio than the homework, but---. Only one new verie, KSDO San Diego which completes 1130 kc/s. for me. All U.S. stations, excluding KSDO, were veried back in Oklahoma as was CKWX, Vancouver. That's it for this time. ^{Good DX.}

Joe Brauner - Box 22 - Valier, Pennsylvania

Nothing new to report this week but a few tips that might be of interest. Some Sunday morning s/ons: WNRG, Grunly, Va. on at 5:30 and with only WERP-1250 QRM, very good here. WCPC, 1320 strong and clear at 6:00 a.m. WCRK on top of 1150 at 6:30. Colder WX has brought poorer DX as usual here. WAKY 790 definitely still (or again) AN, being heard every morning but Monday this week. On 11/27 tried for KBLR-730 f/c tip listed some time ago but probably not on. WCRR 1330 strong with tone/voice, at sked 2:45-3 period. Station going off 690 with "Dixie" medley at 5:30 was probably WAPE; they use it and went off at 5:50 in November. Two nice v/l's, WSPT and KSIR. That's it for this week. Overslept on needed WKXY and WTIG and couldn't hear WRNB. 73.

Marvin E. Robbins - 7805 Woolworth - Omaha 14 (Convention City) Nebraska

Today is Thanksgiving, and we're getting our first snowfall of the season. DX has been fair this past week, but seemed the best this morning, 11/27. Shortly after midnight here logged XEJP-1150 Mexico City around 1:15-1:45 a.m., with slogan of "Radio Variedades." Good signal. The big surprise came around 2:35 a.m. when WMCA-370 New York City was logged; surprisingly good level, and now wonder why I have never heard them before. Nothing heard of KLUB; WMCA's "Night Watch" 100% in the clear. Heard the final portion of WSJC-1280 Magee, Miss. on their f/c from 3:00 to 3:30 a.m., good signal but strong KTLN QRM. The final logging of the morning was CFAC-960 Calgary, Alta. which was 100% in the clear here. Tried a little sunset DXing this evening too and found KCLW-900 Hamilton, Tex. in the clear at 6:20 p.m. On 1570 got a good logging on KTER-1570 for f/up report at 6:30 p.m., and then at 6:45 p.m. heard KZOL-1570 Muleshoe, Tex. with their s/off, all behind XERF. Several new veries here were from "Radio Montserrat" B.W.I. KGAN-1340 and WDAL-1330. WLCL-1330 sent a printed card in black and silver, but I verified them two years ago; they must have thought my report was never answered. Come on, guys and gals, let's enter the two fine contests. 73.

Elbert Tewell - 228 South Lake Street - Carey, Ohio

Hi DXers. DX continues good at this location so far. I don't listen in too often but when I do it seems there is a new one to reward me for my efforts. By the way Ohio's newest one WERT in Van Wert, took the air on November 27th. They are on 1220 kc/s. with 250 watts, about 50 miles away and are very hard to hear, due to WGAR QRM. With no antenna they are good. I note that KFMB is on till 4 - don't know if longer or not as the noise gets too strong on 540 after that. For the past few evenings from about 4:30 on, have noticed WACT on 1420 covering WHK. WMOA-dx came in very well here as did the one from WKXY. Some other stations heard were: WYRN-1480, KBSF-1460, WOMA-1570, WMBL-920, WBLT-1550, WHUB-1400, CJET-630, WHMI-1350, WKHM-970, WPON-1560, WOIA-1290 along with many others which I will not list. If veries would come in as fast as new stations can be heard DXing would be a little more interesting. Just last week I received a verie from a station for a report that was five years old. I never did send them a f/up. Most stations I do after one year has gone by. In fact just today I sent out f/ups to four stations I heard last November. As this will be the last report this year I would like at this time to wish one and all the very best during the coming Christmas season. I would like to send all whom we have met a personal greeting card but I just can't due to the limited time I am working. See you all next year.

Mark Ward - 404 North 14th - Ponca City, Oklahoma

DX listening continues great at this location with the following added since last report to DX NEWS: 11/12- KWKY 960, KFDF 1580, KQEO 920, WPDQ 600, WANY 1390, WLEO-1480 ex-KANS. 11/15- WEBC-560, WGUS 1600, KBSF-1460. 11/16- WINX-1600. 11/18- WEMM 1460 ex-WMMN. 11/20- WMBA 1460, WBAR 1460, KCFI 1250, WPBB 1290, WMTN 1300, WZOK 1320, WAMP 1320. 11/21- KAPI-690, WPHK 1430. 11/22- WQSN 1450. 11/23- KBCL and WERT 1220. 11/24- KARI 690, WPHK 1430, WQSN 1450. 11/24- KLYD 1350, WACT 1420. 11/26- KBCL 730. 11/27- WCRN 1330, WBCR 1260 and WINS 1010. Veries in from WBKN ex-WEGA, WELB WEBC KQEO WARY WGUS WLOH and KCFI. It is of interest to me to note that all of the 70 reports sent so far this season are daytimers. WGUS took over from 1,000 watters KLAQ WGIV WBLV and for a bit their 500 watts ruled the roost on 1600. KAPI drowned out WTIK. 500 watt WERT was audible behind 1,000 watt KBCL who are a powerhouse here. And WMBA and WBAR drifting through KYSN-KENO on 1460! Of the first 40 reports out, 28 have verified to date for a 70% return. Mort Meehan: "K-" Color Radio" is CKY 580, Winnipeg. Carl Huffaker: Thanks for WISK address, Len and Stan gave me one, different from yours, which I used. To date, 11/27, no reply. My congratulations too, to Bill Prater. Doggone it, hope to hear WCLC one of these days, ha. Seems like at the moment we have many broadcasters on the NRC membership roll and active in BCB DX. I've no doubt that the "NRC Story" is getting into many areas of broadcasting where heretofore it was unknown which is a healthy condition for the NRC. 73s.

Herbert H. Rhoads Jr. - 122 Carlisle Street - Gettysburg, Pennsylvania

This is my first report since joining the Club. Heard WBAP 820 kc/s. Ft. Worth, Texas at 10:45 p.m., also WFAA 820 Dallas at 11 p.m. New veries are WAMP 1320 Pittsburgh Pa. testing; sent letter. KSL 1160, Salt Lake City nice card. Have logged 149 and verified 64. I use a Hammarlund HQ-140-A, antenna is straight wire hooked onto a vertical outside. I am trying six position directional switch indoor TV antenna. It works well. I enjoy reading about what other members are hearing on the band. 73. (Welcome to you Herbert, and glad to hear from you! -El.)

Harold S. Williams - 50 Third Avenue - Seymour, Connecticut

DX by dateline: 11/23- WCNG-540 Canonsburg, Pa. again the 250 watt was heard S-7 from 4:45 to 5 o'clock s/off. From 5:45-6 WHOO-990 Orlando, Fla. completely covered WIBG, Philadelphia. Strange but true, which reminds me that twilight DX is sometimes very good. 11/24- Letters of inquiry sent to WFHR, Wisconsin Rapids Wis. and KDLL, Detroit Lakes, Minn., both 1340, as portions of their respective f/cs heard 1:45-2:00 and 2:00-2:15. KOMO-1000 Seattle, Wash. heard with semi-classical music 2:45-3:15 s/off. WMOA-1490 Marietta, O. on as per sked for NRC DX but not needed. WBED-1310 Bedford, Pa. ET-M 4:30-4:40 and later but not needed. Thanks to the DX Down the Dial tip by Dick Morris, Bridgeport, Conn. I logged WIRC-630 Hickory, N.C. on their 5 a.m. s/on and in the clear for six minutes. North Carolina now the third state with 100 or more reports. Pennsylvania with 146 and New York with 133 top the list. Thanks to Ralph Johanns' tip I logged WCOY-1580 Columbia, Pa. at 6 a.m. s/on and in the clear for six to eight minutes. 11/26- WOKO-1460 Albany, N.Y. again testing. 11/27- WFBF-1570 Fernandina Beach, Fla. r/c-TT 3:00-3:15 except TT and no music. Easy through KXRF. 11/29- CKJL-900 St. Jerome, P.Q. on long three hour DX for NNRC but also not needed. Veries: PP cards returned OK by WPVA-1290; WDEW-1570; WFGN-1570 and WMSR-1580 (now 1320). V/1 from CJMT-1430 for first NRC DX verie of the season. WTIG-900 for NNRC DX and WEAY-970 for AN RS. The WTIG letter in longhand. WX permitting my next "musings" will be delivered to Lefty in person at the DX gabfest at Duffy's on 12/7. Veries now 1,934. Sixteen more needed to hit my 2,000 goal. 73.

Jim Critchett - 1119 West Arbor Drive - San Diego 3, California

Between November 12 and 25 reports have been sent to 990 KRIS for 3:22 to 4:35 Saturday 11/15; but they are not AN every night; to 590 KTEC for AN Sunday 11/16; 980 KEWB for an ET 11/17 and 1290 KTRN from 8 to 8:15 Saturday 11/22. KCUB did not seem to be on the air then. Veries are in from 630 WIRC for 5 a.m. s/on; 800 KIKK, Hagersfield's newest; 980 KEWB QSL card; said 1,000 watt auxiliary tye were testing 11/17; 1340 KAKE for 6/1 AN report and 1310 KWBR-AN 11/8. No special DX programs for either Club have been heard here 11/12-25. The December 1 lineup is the most promising so far for us Westerners; hoping. Other DX notes of possible value; 1490 KDB said AN, but off at 3:30 on Monday 11/17 to return at 9 EST. Most of AM Monday 11/24 1590 XEHC, Radio Bahia, Ensenada, B.C. was S-9 plus 10 decibils; apparently moved from 1240; Spanish language only heard, so no report from here. In agreeing with Mort Meehan, what is your secret, Hank W.? I had thought of more DXing this week, with Thursday off, but guess bed too good, and receiver too poor. Back to shop with it next Monday; hope it improves. Pete Taylor: How about a Special from 1240 KANI? Only unverified Hawaiian on the air. Vane Jones: Please don't reduce size of type; just increase number of pages and raise price. In your listing of AM stations by frequencies, alphabetical arrangement by call would be considerably more helpful than present listing alphabetically by states; just a hint. Seems to be all the news. Do your Christmas shopping early, and 73.

David E. Roys - 5121 Radnor Road - Indianapolis 26, Indiana

Have been DXing for about a year now, and just joined the Club, so this is my first report. On 11/27, KRUX KFIV and KEMO came in fairly well to bring my total of states to 40. The rest will probably be tougher, though. A good thing to do if you want a certain station on a certain night and have to sleep is to set up a timer to turn on your receiver to which is hooked a tape recorder. By doing this I got KGEM KRAK and HJAT, all quite clearly. Does anyone know if WCBS WABC and WOR ever s/off? I get them so strong here I couldn't get anything else. Also what about WCKY? Does WHAS ever cut their carrier off when they s/off every day? Well, that's all this time. (Welcome to you, Dave, and hope to hear much more from you. WCKY and WOR never sign off, WABC silent Sundays, WCBS Mondays, WHAS carrier off Tuesday/Wednesday. -Ed.)

Raleigh Biss - 484 Marcus Road - Palm Springs, California

My lack of reports is for good reason - no DX and nothing to report. This AM I broke the ice and picked up a little data so here it is: XEHC, Ensenada, B.C. 1590 on with what must have been a test program. I heard them from 3:40-4:15 a.m. EST (Frequent announcements and no vocal orchestra music, slogan, Radio Bahia, address, Calle Primera) F/cs - KRPL-1490 and KTIP as listed fourth Monday, also heard KNOT-1450 4:15-4:30 and KELY-1230 4:15-5 fourth Monday. Heard WINS-1010 and CJCA-930 with AN Monday sked but didn't need either one. Recent veries: WBML 1240 on AN, WTMP 1150 Monday AM 5:30 a.m. s/on, WLQL 1330 surprise from a 1955 report. Best wishes.

December 1, 1955

DX NEWS

Andrew Thusing - 3676 Sunset - Markham, Illinois

This is my second report. I have been a DXer for one year and have 110 veries from five countries. Could anyone tell me how to stop TV from interfering with my DXing? 11/20- WREC 600, 4:40 p.m. CST - 5:05. KARK 920 8:00-8:10 CST. KFI-640 8:30-9 p.m. CST. 11/21- KSEB, 1500, 4:30-4:45 p.m. KVOO-1170, 6:00-6:15; KIMN-950, 7:15-7:30 p.m. WKCT-930, 10:00-10:15 p.m. WZOK 1320, 10:15-10:20 p.m.; KTBC 590 10-11 p.m. and a station that's brand new and I am probably the first DXer to hear and report to it. It is WESY 1580 Leland, Miss. on 11/22 I heard it, and also KTER-1570 5-5:15 p.m., KEAC 630 kc/s. 5:30-5:45 p.m. KRBC 1470 5:03-5:15 p.m. CHAB 800 11:45-12 p.m. 11/25- WILS 1320, 12-1 a.m. WTCN 1280 12:35-12:50. WHK 1420 1:05-1:25 a.m. WSPD 1370 1:00-1:25 a.m. Veries from Nov. 20 to 25 are KNX KHER WDAF KWK CKRC CBM KSOO WABC. 73s now.

Stan Morss - R.R. 3 - Bradford, Massachusetts

11/20 - WTRB 1570 f/c to 2:30. WMSJ 1480 testing 2:49, for a report. Couldn't get a verie out of 'em last year. WAGF 1320 f/c 3:05. TT on 900 at 3:15, no ID. A little PM DX - WVKO 1580 5:02-5:15 for a report - didn't verify in the past. WCNT 1210 over WCAU 5:30, and a surprise, KFOA at 5:40, not needed, though. Verie in from Radio Montserrat for Special of last March - a form letter, so probably all have one by now. 11/21- KQWO (ex-LQUE) using new call, 920, Albuquerque, under WOKY 2:15. CMBW 1370 evidently AN and mentioning Radio Caribe, Havana, Cuba. CMCX 1080 AM. XEAI 1320 s/off 3 a.m. CSB-5 1578 3:35 a.m. 11/22- No DX - no power, courtesy of four teenagers who snapped off pole in front of house at 11 p.m. 11/24- KFLJ 1380 Walsenburg, Colo. 2:00 a.m. f/c, a new one. KXEL AN, also KENT and WBEC this AM. WAKR 1590 off 2:35 but s/on at 2:45 again. WBBF 950 carrier and TT to 3 a.m. WMOA dx 1490 Marietta, O. very good with strong carrier also. Nice show of old time tunes 4 a.m. '90, a tester at 4:41 mentioned Arkansas at 4:45 s/off but someone fouled up ID. WTAR testing also. Hope it was KOSY. WRKH 580 Rockwood, Tenn. 5:19 a.m. over CKKY. WCOY 1580 Columbia Pa. 6:03 a.m. for fifth new of AM. Veries, WFDR and WYRN. 11/26- Two new ones at once - KADY St. Charles Mo. and WPVL Painesville O. 1:20 a.m. on 1460, also KSO testing. WONA 1570 ET 1:49 to return at 6:30 for RS. WJHB 1580 Talladega, Ala. 1:55 a.m. WAFE 690 test 2:19 a.m. LWEM 990 military band at 2:46 over WHOO. WHHY on AN show, 3:00. PM DX- WJDY Salisbury, Md. for a new one to 4:45 p.m. s/off over WLAM and through WSAN. 11/27- WBBF 1570 TT 3:10. KTLN over CJMS on AN show plugging Stereophonic Show with KHOW.

Bill Wicklund - 54 Pine Street South - Port Hope, Ontario

DXing this week has been the best this den has experienced for quite some time. Following are the stations logged here in one week. 21/11- Logged WCFL-1000 to catch up on the powerful stations that I didn't copy when I first started to DX. 21/11, with much surprise logged WHWB-1000 at 4:45 p.m. s/off under WCFL. 23/11, took a logging on CKCR-1490 from 1:29 a.m. to 1:54, and WCOP-1150 on AN sked. CJOY was also heard on AN sked, along with KILO-1440 at 2 a.m. s/off not enough for a report though. 24/11- WMOA-1490 DX came in here S-6 with a swell program, also WJOY-1230 Burlington Vt. between 5:08 and 5:25. I believe WJOY s/on is 5:00. At 5:30 logged WJTN-1240 at s/on on 24/11. 25/11 logged WTCR-1420 Ashland Ky. TTing for a f/c between 12:03 and 12:15 a.m. 25/11- WLSI-900 Pikeville Ky. with a f/c-TT at 12:15. WAKU-1570 Latrobe Pa. with r/c-TT in last year's list. Finally got enough to report to KILO-1440 at 2 s/off 25/11. Also heard on 25/11 were WIRE-1430 at 1:30 s/off, WHHH-1440 at 12 p.m. s/off ar and WKBR 1240 at 1:05 s/off. KIOA-940 was weakly heard for no report. No veries have been received here now for over two weeks. 19/11- CHUC-1500 opened studios in Port Hope. CHUC s/on is 7:15 and s/off is 4:45 p.m. in November. 73s for now.

Phil Jacobs - 6097 Macdonald Avenue - Montreal, Quebec

Hi! I have been DXing only on the weekends. Newest loggings are: Nov. 15- WMLJ-620 at 12:20 a.m.; WMMI-920 at 1:02 s/off; KFI-640 at 1:15 a.m. for my first West Coast station. Nov. 22- WPFB-910 at 1:15 s/off. Nov. 23- CHVC-1600 at 12:03 s/off. WKY-930 at 4:02 a.m.; WWJ-950 at 4:10 a.m.; WIP-610 at 4:16 a.m.; CFCN-1060 at 4:59 a.m.; KNX-1070 at 4:50 a.m. and WKIS-740 at 5:05 a.m. for my best catch of the season. That new aerial sure helps reception. Thanks to Bernie Duffy for the nice letter. Those stations will really help me. Only new veries are from WORK WJOY CBL WKOP WAWY WIAS WIMJ and WIL. For the first time since I started DX, I noted local CFCF-600 off the air at 4:30 a.m. and earlier. Fluorescent lights are a nuisance here. Almost every AM until 1:30. Good DX and 73s to all.

Ken Murphy - 60 Plymouth Road - Glenbrook, Connecticut

As of December 1 I will be doing all of my DXing from the new address in Connecticut. Will be real glad to get at least 35 miles away from the New York ANs but still will have a lot of commuting to do as I am still employed at Muzak. Glenbrook is on the outskirts of Stamford and I will be glad to see any DXers drop in but would appreciate knowing ahead of time if possible as I am often away from home. The only verie in of late came from WCHR 1270, Paul Deck, Station Manager signing the nice letter of verification. Haven't had too much luck with DX Specials so far but hope to do better in Connecticut. Have DXed from my brother's only a mile from where I am moving and the reception seems to be very good from that vicinity. Stations in New York area not yet sure of how they check frequency after January 1. GE at WBFM getting together with others to try to work out the best solution. Will let you know when they come up with a solution, most of them against buying their own frequency monitor apparently. The new WSNO in Barre, Vt. owned by WTKN and WJKE. 73s. (Are they on yet, Ken? -Ed.)

Hart Wilkinson - 6620 Beeman Avenue - North Hollywood, California

Still working six long nights a week so DX time has been cut quite a bit. From the looks of the last several bulletins I'd say that 80% of the NRC membership is out Christmas shopping or something. By this time of the season there should be at least 50% more reports in the musings section plus an increase in the Foreign DX section. DX ~~thix~~ CX this season are much better than last so I feel that the bulletins should show the increase. That seems to be the only way to measure our activity in the field of DX. There are very few bulletins published where Lefty Cooper doesn't ask for more reports for his section of the DX NEWS. I recently saw a list of members, broken down into three voting areas of the U.S.A. and was surprised to see names of members with five consecutive years of membership who haven't reported to the various sections of DX NEWS for many months. Sure would like to see some reports from these fellows. It could make a lot of difference. My only good news in past week is a verie from VOA, 1140 kc/s., San Fernando, Philippine Islands on a report of October 27, 1958. My first station in the P.I. so another new country. I lived in the Islands when I was a kid. Haven't heard the new Hawaiian yet on 990 kc/s. By the way, many Aussie stations are increasing their power so perhaps next spring will bring additional loggings and veries from "Down Under" stations for the newer members as well as the "old-timers." Japanese, Chinese and Korean signals have dropped considerably in signal strength in past two weeks. Still haven't seen Carroll Weyrich's Log for which I'm patiently waiting. Also, the WRH hasn't made its appearance either. I have nice reports out to WJAI, 1015 kc/s., YVKU, 880 kc/s. and my annual report to PJA-10 655 kc/s. I'll be at the dials Wednesday morn. (11/26) trying to pick up several Alaskans that I need. I think that the fellows on the West Coast haven't been DXing because it's been too cold, hi.73

Dan Phillips - 445 Eagle Bend Road - Clinton, Tennessee

DX is getting better and better here in my den. I have logged 22 new stations in the last week. This brings my total to 370 with 85 verified. I received a very nice letter from Stan Horss today. Thank you very much for the welcome to the Club, Stan. Here is my log for the past week: Friday Nov. 11 - CKEY-580 at 6:29 RS; WKZO-590 at 6:30. 11/22- I received my Jore's Radio Log today and it is well worth the 50¢ price. New stations are KFH-1330 RS at 3:43 a.m. EST. WFHK-1430 at 3:49 testing behind WIL. WNDR-1230 RS 4:00. KOIL-1290 RS 4:05, WLOX-1490 RS at 4:07, KTLN-1280 at 4:15, AN, WHHY-1440 at 4:31, WTHE-1400 at 4:41. Tonight I received WVLK-590 at 4:45 p.m. EST. WMAZ-940 5:04, KLEO-1480 4:30 - must be a new call, WDIA-1070 at 5:50, KFSB-1310 RS at 6:00 and 8LBZ-830 at 7:50. 11/2- I wook up at 4:23 to see if I could catch the WMOA DX. And as soon as I could tune to 1490 the announcer said "This is WMOA in Marietta, Ohio," and this gave me a big thrill. There was a lot of interference coming in on it. There was some station testing with a tone and another an AN I reckon, playing popular music. I couldn't get the call. At 4:55 WDXB knocked them all out with a fine signal here in Clinton. I started to fool around and also got WQIK-1280 at 4:41, WJET-1400 at 4:45, WRIT-1340 at 4:51 and WBCM-1440 at 4:58. Tonight, November 26, I have gotten KOKY-1440 at 5:52 with a good signal until KMLB knocked it out at about 5:57; WKYB-570 at 5:59 and KSO-1460 at 6:00. My latest veries are WMAQ WHO KOAI WRVA WSGN and KSL. Reports are out to WKIS WGTG WCCO KLEO WKZO WSWA and WSPD. I'll be seeing everyone soon, maybe next week.

TIP FROM CLIP (sent in by Bernie Duffy). Watch for tests soon from WMM-1260, Westport Conn., 1,000 watts directional daytime, expected to begin RS on January 1 or so.

Francis H. Nittler - 2305 South Lincoln Street - Denver 10, Colorado

I had a pretty active DX week here for a change with 13 reports sent out and received nine veries. On 11/23 new catches were XETX-1010 Nuevo Casas Grandes on AM with some type of special show and KAKI-550 on their AN show. Guess I got them just in time as I note they are changing back to their old calls KTSA, effective 11/27. Also finally got enough on CHUM-1050 through XEG to send a report. Only listened for a half hour on Monday morning 11/24 and sent a report to WONE-980 Dayton from 5:30 s/on and RS. Then at sunset sent report to KOPY-1070 Alice, Texas on RS in Spanish from 5:25-5:45 and a real powerhouse here and a new catch too. Also reported to KSIR-900 and XEJ-970, Mexicans on about every frequency but most of them not too good. Did log XERP-660 for first time but no report sent. Also at 11:30 p.m. heard KLEO-1480, ex-KAIS on their RS. On 11/25 sent reports to WBAP-820 and WFAA-820 and on 11/26 to KRLD-1080. On 11/27 reported KOLO-920 for third report and a report to KQEO also 920 for their AN show. Veries are in from KHOT-1250 KAPI-690 WAKY-790 KMMT-540 KSTR-620 KWOR-1340 KWIV-1050 KPOL-1340 and last but not least CFNS-1170 which gives me 1,505 so finally reached the 1,500 mark. I hope everyone is having good luck with the DX Specials. 73s.

William B. Feidt - 474 The Fenway - River Edge, New Jersey

Two DX dates this week with fairly good results. 11/23- WSNV-930 came through at 6:00 s/on. WPRE-960 at 6:02 s/on. CKDM-730 at 6:30 for a surprise and a real good signal too. WBBF-950 at 6:33 topping that channel. WTAC-740 at 6:45 s/on for a long sought one. WBAN-740 at 7:30 on top. WLEZ-620 at 7:33 before WVNJ s/on and this was remarkably strong. WGNL-870 at 7:45 with WCBS QPM. WBTG-790 at 7:45. WAMO-860 at 8:00 s/on, but weak. WIPS-1250 a real surprise under WMTR at 4 p.m. 11/24- KERN-1410 at 3:00 was on top. CJVI-900 at 3:00 for a new one. WYRL-1480 at least at 4:00 s/on. WMOA-1490 at 4:00-4:52 with a fine DX program and a good signal, but still a TT on Monday mornings on this frequency. No ID. WIDU-1600 at 5:00 s/on just a hair before the WWRL s/on. Actually I probably could have copied them with the loop even if WWRL had been on. WBAC-1340 at 5:00 s/on on top of WOOK. WEBB-920 at 5:30 s/on and is new for me. CKJL-900 at 5:55 s/on in French. WMFD-630 at 6:00 topping this frequency where WIRC, I believe, usually "hangs out." Now have 1,156 stations in the log. No verification from WPCF as yet and report out to WMOA. Bernie Duffy: Your station s/off with "Dixie" on 690 is probably WAPE. Lefty: Rasnhora-1000 is CMCX. Nothing definite on 1580 s/off Lefty, but sounds like WAMY. Anthony Lagatutta: Was listening to Jean Sheppard on WOR a week or so ago and heard him mention something about a public school broadcast band station, as I remember, which reminded me of WNYR. He said it was operated by the students. He didn't go into any detail. This might help some. 73s and best DX.

Len Kruse - 816 Euclid Street - Dubuque, Iowa

The past week five new stations were added to my DX Log. On Sunday 11/23 I was happy to log four-month-old WGUS-1600 North Augusta, S.C. as they s/on with RS at 5:58 a.m. and heard fair until 6 a.m. when WEUP yook the air and covered them. A short time later that AM I logged the brand new WANY-1390, Albany, Ky. with its RS 6:20-6:45 a.m. and their signal came in sprurisingly well at this den. On Monday 11/24 three-month-old WKTC-1310 Charlotte, N.C. was heard s/on at 4:55 a.m. with its RS, and heard till 5 a.m. when 5 hr. VTOD s/cn with its RS. With severe cold temperatures in Canada in the evening of 11/28, I found reception from the North was exceptional, and logged Station CKPR-580 Fort, William, Ont. during RS 6:15-6:45 p.m. and on top of this frequency for most of this half hour. I've been after CKPR as long as I've been DXing, and that's since 1941. Then on 11/29 I heard the NNRC DX from CKJL-900, St. Jerome, Que. for a new logging. Interfernece was had from CKBI, Prince Albert, Sask. till they s/off at 3:08 a.m., then CKJL topping the frequency till about 3:30 a.m. when AM CJVI began breaking through. Latest verifications were letters from: WEEN KBRX WGUS KOBH.

J. Warren Routzahn - 231 South West Street - York, Pennsylvania

Boost in morale this week from receiving the verie from Radio Nonsetrat. Others were WYRB WRBC KRAK CHUM. Copied CHUM Nov. 20 when KWIV f/c didn't get through. 11/22- Copied some ANs needed but dislike sending them reports, afraid it might encourage them. The WKXY Special for NNRC through good, WGAR-1220 testing to 3:30. 11/23- Sounded like a Cuban on 900 at 5:20, WQXR-1360 testing at 5:30, WORD-910 had f/c 5:30-5:45. Then at 5 a.m. hurried across the dial to check Sunday s/ons and found CHML-900, WETZ-1350, WBRF-930, WMAZ-940, CKSO-790. Later realized I needed WETZ so will camp there this Sunday to get a report. Checked 1330 at 5:02 p.m. but found WDBM on top. 11/24- Tried KDMS-1290 f/c but not heard through WBBF WHIO and others there. WWHG (continued P.10)

(Warren Routzahn, con'd from P. 9) was tops on 1320, WOAI on 1200 and CHEL-900 all 6 a.m. 11/26, tried KBLR f/c, no luck, then for KQEO but only WOKY and noise on 920. KUSD-690 seemed to be going AN, WPVL-1460 testing 3:00-3:30. 11/27- Copied f/c from WCRR-1330 r/c fourth Thursday 2:45-3 is correct on the NRC list. Then copied ANs WMAY-970 with WWSV trying to ruin my ears, and WAKY-790. Reception was good and I heard a lot I didn't need. Will close now, 73s, about time to attack the turkey and hope you all had a good time doing the same.

Sam A. McLaughlan - 309 Frontenac Street - Kingston, Ontario

DX has improved here with the coming of the first snowfall and temperatures in the 20s. WISH, Indianapolis heard at 5:15 p.m. on Nov 20, same day WBEV, Beaver Dam, Wisc. was heard with s/off at 5:30 p.m. The next day WNAV, Annapolis, Md. was heard with s/off at 12:01 a.m. and WAVZ, New Haven, Conn. was heard at 12:30 a.m. Went home to Gatineau for the weekend and CKBB, Barrie, Ont. was tuned in at 9:45 p.m. WGIR, Manchester, 610 was heard at 8 a.m. on Nov. 23 with WIP in the background. Back at Kingston the surprise of the week was KNOX in Grand Forks, N.D. the loudest on 1310 at 9 p.m. CKOY, 110 miles away with the same power was not to be heard. On Monday AM, WLEU-1450 was heard with AN program. WSPA, Spartanburg, S.C. was heard with s/on at 5 a.m. but quickly lost in QRM. No sign of WMOA. Only veries in are cards from CBJ and CBI. I hope to catch a few of the numerous DX programs arranged. Many thanks to the arrangers and the stations - it is a real thrill when a DX program from a weak station is logged.

Bernie Duffy - 77 Livermore Avenue - Staten Island 2, New York

Twilight DXing brought me the following additions: WJSO 1590, Jonesboro, Tenn. s/off, atop WBRV Connecticut and WAKR Ohio and others, @ 5:15 p.m. WAMY 1580, Amory, Miss. in the clear as they shut down at 5:45 p.m., and WCOY, the same channel, Columbia, Pa. as they cut off at 4:50 p.m., all on Nov. 29. Dec. 1, the only DXcast I got was WIRB 1490 Greenville, S.C. However I got these unneeded ones that AM: WETU 1250, when looking for (not evident) WHNY; a weak AN on 1290 @ 3-4 instead of CFAM, XERF instead of WNET @ 4:30, CKNX instead of KRAM on 920 @ 4:15, WTIV Titusville, Pa. caught s/on "A Hunters' Program" @ 4:00 a.m. on 1290, and WPRW, Manassas, Va. with a mail order program at 4:20 a.m. I consider V. Jones' log a very worthwhile, compact listing of stations, for its nominal cost of 50¢.

Pat Reilly - 226 Crossman Street - Jamestown, New York

Veries back, WAIW and CKDM after third try but still have 29 report out. Maybe Santa will bring a few. 11/23- CBK, 540, off after 2:00. WERT, 1220, test at 2:10 for new call. KBOH, 1270, 2:54. KOPY, 1550, steady S-6 here at 3:11. TT on 1200 after 3:30 but no call heard. 11/24- Bad static seemed to quit about 3:30. TIRS, 920, S-3 at 3:37. KNBC, 680, atop others at 3:44. A very weak voice on 640 but a TT also here on and off, 3:45 to 4:00 but couldn't catch ID of weak one. WMOA-ix very nice here atop KTOP. KYRN, 1480, came on for day's broadcasting, both new calls for me. 11/25- Nothing but squeals over dial, perhaps Marv Robbins' town was killing pigs for Thanksgiving. 11/26- An unknown on test on 1220, 3:30 to 3:39, sounded like WFIW. KUSD, 690, test at 3:50. At 7:52 p.m. tuned XEDM, 1580, atop all others and pushed in by S-7 signals. 11/27- No DX, went to bed for early rising visit to eat turkey at wife's relatives. 11/28- 24° today here, DX very good today. KGO, 810, S-6. Tone on 1440 atop mess at 3:53 but no voice used. Heard funny one on 730 at 4:15 to 4:33. They gave frequency in meters at 4:29 but static burst drowned out any other ID. HJAT atop KRLD, 1080, at 3:35. 11/29- Bad blizzard for past 20 hours, very noisy, and to bed.

Robert E. Brock Jr. - 506 East Iris Drive - Nashville 4, Tennessee

It is always nice to receive a friendly verie from one of the older stations. Such was the case with a recent letter from WWNC. The Chief Engineer was most complimentary of the National Radio Club and its members. Have missed several DX Specials because of a broken alarm clock. WTIG was covered by WHOO; WKXY had a good signal over WKY, WMOA was quite weak under KTOP, and CKJL was not heard at all. December 1 looks quite promising with seven Specials lined up. Has anyone verified both halves of a stereo-honic broadcast yet? This has become possible with the introduction of two channel AM broadcasts. KAREK-920 and KLRA-1610 are on from 10:30 to 11:00 p.m. E.S.T. Monday through Friday with such a broadcast. WCOV-1170 and WHEY-1440 will begin a similar broadcast on Tuesday nights next week. Recent veries/are from KNOE WADE WAPO WDAF WFRG WGGH WHOO WOHO WWNC WYTH WZOK and ZNS. I believe WOHO has a new Chief Engineer as the verie signer is different from that listed in August issue.

WILL WE SEE A REPORT FROM YOU IN THE NEXT ISSUE? WE HOPE SO - WHY NOT WRITE IT NOW?

Henry T. Tyndall Jr. - 225 North Street - Burlington, Vermont

OK, Lefty, here's one of your worst procrastinators. Feeble alibi coming up. My right hand man, worked for me 20 years, suffered a heart attack on Sept. 5. Less paper work but more work in general, for me. Pretty rough on this old guy, but in spite of all the extra jobs around the place, buttoning up for winter, I still managed to get off to the start of my 36th year of DXing. We have no TV, Hi-Fi, tape recorder nor do I ever tune anything but the good old BCB. Veries total 5,170 and with the recent Monserrat verie, countries total 120. Without the tremendous list of Specials arranged by the CPC lads, the total would be far less. As proof, the following were all Specials verified last season and would never be heard otherwise. Most will agree that these are good catches here in the East: KTUT-990 KUEN-1410 KTRC-1230 KBBB-1600 CKSA-1150 KOZE-1460 WLEO-1170 VOWR-800 KRNS-1230 KYES-950 KOKO-1450 KUPI-980 CKEK-570, KBLM-1290 WEFH-1420 KSPL-1280 Monserrat-1550. There were many other W calls but take up too much space. I valued the VOWR verie far above any other received in years as I have WJMC verified in 1930 and they changed to VOWR in 1932, so for 25 years I have wanted them. In spite of WLEO's scheduled time, they were definitely on later, as a few others testified. CKSA's DX was the toughest to copy, good thing they had organ music. To get up to date, I note some of the boys wondered about the QRM on WTIG's 990 DX. WKIS, the new calls for KATT, Pittsburg, Cal. almost drowned out WTIG at times. At 3:09 they told how you could win a free ticket to the cinerama in San Francisco. During the summer, Virginia became my 13th state to go over the 100 mark. Texas leads with 276, California 234 and New York with 207 but Pennsylvania is nearing the 200 mark with 194. Maybe they will make it some day. Well, with a good DX season coming up, new by-laws and guys like Lefty, Hal and Edge, plus the CPC and many staunch reporters and Fred's International DX Column, the Club is more closely knit than ever. We even have Seth, our poet laureate and Konley's Cold Cabinet. We fondly hope that with all these we can't go wrong!

Richard Morris - 218 Virginia Avenue - Bridgeport 10, Connecticut

DX here has continued to be tops since the last report to Masings. DX by dateline! I think I left off with WQXT so I will continue from there. 11/11: WRRF-950 and WELC 1150 were both received. The WRRF verie states their r/c is second Friday 12:30-12:45. No more DXing the rest of the week. 11/17- A fine day with seven new ones: CJMT-dx (MOX-1490 on AN RS; WSIP 1490 on a f/c while looking for the WRNB DX, CKBL 1250 on their 5:00 s/on; CKEN 1350 on their 5:27 s/on. Also logged at 5 p.m. was WILA 1580 on their s/off. 11/18- Decided to try stations on clear channels with the following received: WABL 730 over WBBM on RS at 7:15 a.m.; WHEB 750 on top of the frequency. Already received WILD 1090 was about even with WBAL. 11/19- KWK on their AN RS, WBHC 1270 on their 5:00 s/on over WKYR. It seems strange that a daytimer is allowed to s/on at 5 when the sun rises around 7. Also received was WIPS 1350 on their s/on. No report was sent though. 11/21- DX CX were very bad today with large amounts of static. Two new ones added today though - WKXY 930 DX extremely poorly and I don't think I have enough of a report to send. Also logged over HJAT was KRLD Dallas. 11/23- Four new stations were added to the log today - WRUM 790 7:57 Sunday s/on; WSIG 790 on RS at 7:35, and two new stations on clear channels: WUST 1120 over KMOX and WADE 1210 under WCAU! 11/24- Another hammer AM with ten new stations heard: WMOA-dx about even with the S-9 TT. KENT 1550 on AN RS. Hard to log here with much slopover from WPTR. WATE 620 was logged at 5 s/on; long-wanted WJBK RS 5:20; WKBR 1240 5:30 s/on, WRAD 1460 RS 5:45 but not enough for a report. CHRC 800 was heard at 5:40 RS, CJAD s/on 5:45 so I couldn't get a report. CKR8pe to get one though on their DX next month. WLOA 1550 on their 7 s/on (no anthem) and WPTS 1540 s/on 7 and to top it off WTOD 1560 logged under local WQXR, RS, 7:05. 11/26- WTAO 740 8:45 s/on in the clear. Today, 11/27- A station behind KDKA on English using CST, sounded like WTEL, a mixture between WPEO and WCIL, hi. I think it's WPEO though. I will try to ID it by next report. The thing that puzzles me is they are daytimers and heard here at 7:15 EST, 6:15 CST. 11/22- WNBT 1490 and YIN 935 were heard on RS at 7:50-10 p.m. YIN using "Radio Mundial". On 1060 I hear an AN Cuban, uses Radi-ora as the slogan. Also hear a SS AN on 1070 over WIBC. Anybody have any ideas? Will list the veries in my next letter. 73s.

WELL, THE REPORTS ARE A BIT MORE PLENTIFUL THIS TIME. LET'S MAKE EVERY ISSUE OF DX NEWS JUST LIKE THIS! WE CAN AND WILL - IF - AND IT'S A BIG IF - IF YOU WILL JUST SEND IN THE DX DOINGS AT YOUR LOCALE. DX IS VERY EXCELLENT OF LATE, SO IT IS TO BE ASSUMED THAT ALL OF YOU ARE HAVING A WHALE OF A TIME AT THE DIALS. ONLY LET US KNOW ABOUT IT!

John Callarman - 300 West 6 Street - Hereford, Texas

I don't believe there's a DXer in the world beset by more cross talk, ANs, noise level and any other difficulty encountered on the broadcast band than one Lefty Cooper, yet a look at the verification totals would certainly belie that. URDXC's August Balbi sums up DX succinctly. No matter how good equipment you have, "It's the Man Behind the Gun that Counts." Lefty, you prove the old adage about the "Power of Positive Thinking." Nobody's gonna log any DX if they're defeated before they start. A location like New York (or Los Angeles) offers a real challenge to a DXer, and I'd be willing to bet that a patient DXer could verify anywhere from 750 to 1,000 stations during the course of a season from New York without even listening after midnight or before 6:00. A little clarification on 11/20 Foreign section. Only HJAG, TGUX and TGJ are directly attributable to my listening sessions. All others from Rafael Rodriguez, with the exception of Madagascar and Lebanon items which came from an FBIS monitor in Cyprus, whose SW reports are among the best in the world. For purposes of security, he wishes to remain anonymous. These items come to me in the course of my URDXC editorship, and I pass them on. By the way, Rafael R. has translated a six-page glossary of Spanish terms for me, and I hope to have stencils on these to Hal soon. Will be mucho completo. 73. (Thanks for the kind words, John, and a card off to you pronto -Ed.)

Jim Ernest - 563 Park Avenue - Scotch Plains, New Jersey.

A few new ones have been heard here and are as follows: 11/15, 1:10-1:30, WJGI-960 heard on r/c; WHBQ-560 on AN RS. 11/16, 4:30-4:40 p.m. CHOK-1070 was logged at sunset; WJJD-1160 was finally logged and report sent at 6:50 p.m. CMQ-630 was logged at 10:50-11 p.m. through a mess; WMAL-630 at 11. 11/17, 4:15-4:25; WQSN-1450 on AN RS; WCAR-1130 at sunset through WNEW. Before they change their day pattern, they sure mess up WNEW. 11/22- 2:00-2:15, WKIS-740 on RS; WSUN-620, from 2:30-3:01 on AN RS. 11/24- 11:34-11:45 p.m., CKOY-1310 through a mess of WCAM and some others. 11/26, CMCA-4730 from 10:20-10:30 p.m.; KFAB-1110 on AN RS after WBT went off; CHUM-1050 under XEG in Monterrey; WSVA-550 at 4:00 s/on. Announcer said that all reports will be verified, so I hope for no f/up, hi. 11/28- WMPS-680, 1:45-2:00 on AN RS; WHOO-990 was heard with a very weak signal from 2:00-2:05 but report sent anyway. 11/29, CKJL-90 on NRC DX, not needed. Veries are coming in slowly: KOA CBM WHBQ WKIS CHOK CHAB CMQ CERN from a f/up, WJCM CKVL CJMS and WOAI. CHOK and CHAB had nice letterheads. CMQ sent standard CMQ network card, making no note that it was CMQ they were verifying. I hope that everyone does well in hearing ZEM-1 DX. I asked the Program Manager that he publicize both Clubs - the DXRC and the NRC. Receive HJED-820 here every night, but I don't know how to log it, as all I have heard are two people gabbing in Spanish. ID as "Radio Lenti" on Cali, Colombia. If I can figure out a way to log it, I'll have five countries and two continents. 73s everyone.

Matt Zahner - 7224 Gough Street - Baltimore 24, Maryland

Although John Rouse and I have a little TA Contest, I'll be marking time until the middle of December at which time the three week vacation starts. I believe John is several up on me with his logging of HCLFA, and Nice I. Good work, fella. BBC Scotland on 809; BBC England on 1952; Rennes I on 674; and Bordeaux I on 1205 are fairly regular here. Latest veri is a card from Sottens on 764. Numerous reports are out, and as replies are received here I'll shoot the information along.

Lefty Cooper - 438 East 21 Street - Brooklyn 26, New York

Veries in from WINX-1600 and WAMP-1320, both fine lengthy letters, and a "lovely" COBG verie (SW) for report on Radio Progreso's 670 and 680 stations. If they can't even understand Spanish, what language shall we use when reporting these, hi! DX: 11/26: On NRC Tip, took f/c-M of WJAK-1460 2:45-3:00 behind a strong OC. 11/29- Too late for a report on them, but I caught the s/off. of CJNR-730 in the clear at 1:09 a.m. Should be easy for most of you in the East. Testing this AM were WJHB-1580 at 1:34, WACE-730 at 1:30 and on, and WAVN-1230 (the only new one to me) at 2:30 and on. CKJL's DX heard but since report was sent two weeks ago, I'm hoping John Mann'll verify that one for me, eh John? At 2:50 on 960, a tester on f/c signed off; just too late to catch his ID. Tangier-935 heard but a bit too noisy to log them. They were heard until 2:45 or so. 12/1- If WHNY opened with a banjo selection, I heard em, and if not, I didn't, hi. WATU's BT and WHP blocked anything else. WMRB fought through the S-9 carrier, still there, by the way, with that soft tone on it every Monday, as did unneeded WNB. WPRW now s/on at 4 on 1460. Tester with music on 1380 at 4:18, then OC. WCLE-1570 heard at twilight (5:32 p.m.) not enough. 12/2- On an NRC tip, logged s/on of WKTC-1310, 4:53.

INTERNATIONAL DX DIGEST

Edited by Fred L. VanVoorhees, Box 132, Lemoyne, Pennsylvania, U. S. A.

FOREIGN CONTEST RESULTS

Eastern League

1. Roger Anderson, Virginia. Adds HJAI-----15
 Kermit Geary, Pennsylvania
 Charlie Conley, Pennsylvania
 C. M. Stanbury II, Ontario
 Frank Wheeler, Pennsylvania. No entries-----0

Central League

1. Ed Krejny, Ohio. Adds TGJ, CMBQ-----18
 Following no entries as yet: Maurice Nittler, Colorado; Jack
 Hathaway, Honduras; Everett Johnson, Illinois; Larry B. Godwin,
 Texas; Wells Perkins, Wisconsin; John Callarman, Texas; and Marvin
 Robbins, Nebraska.

WEST COAST LEAGUE

1. Clarence Freeman, California. Adds CKLG, CFAC, CFPL, CEQC, HJKC,
 JOBR, JORR, JOPK, KMTM, TCJ, WPRP, WPRA-----92
 2. Hank Wilkinson, California. Adds HJAT, KBYR, HJED, WPRP, CEQC,
 JOPK, KGMB-----77
 3. Don Reynolds, California. Adds CKWX, JOQB-----32
 4. Roy H. Millar, Washington. Adds XEMC, CBRF-----16
 5. Mort Meehan, California. No entries-----0

NORTH AMERICA

MEXICO--*XEJP (1150) Mexico City, was noted here the AM of 11/27 between 0130 and 0145 running program of orchestra arrangements. Announces time every few minutes between selections, and slogan is "Radio Variedades". This is definite as I have been in their studios twice the past 2 years, the latest being this past August when they began using this slogan. Last I heard studios were still located as Calle de Sevilla #9. Sr. Flores was talking about upping power, so may have already done so. (MER) XEGE (1570) Tijuana, logged for first time at 0107 10/11 through XERF/CHUB. Have been noted in clear on 1570 since from S/on at about 0815 and reported too. (RIM) A very pretty letterhead on verie letter from XPMC (1590) Mexico City. Signer is Ramon Ferreiro, QRA: Apartado 22717, Mexico 8, D. F. Also sent folder of pictures of Mexico City and photo of xntr. (RIM) Plain post-card verie from XERF (1570) replaces old prepared card, but not much better. Signer is Almaiza Martinez. (RIM).

LEEWARD ISLANDS--*Most of the reporters are now reporting letters from Radio Montserrat, some verifying, others not. Veries are reported by SRM, HW who says they added "A special thanks for your letter one of the best received from your end. We appear to have been heard better from your address than even nearer". RBS reports his was a refusal like mine, and he also feels that his report was good. RAA says hchis was good. RIM reports that his was a "Thank you" letter, not verifying his report. IC reports getting one, but didn't say if his was good or not. MER has a good one, and he reports that it is one of his best.

ALASKA--*"AFRS", Alaska Network, ID at 0500 on 10/12 on 790 Kcs. through AN KNEW; verification letter in promptly signed by Antonio Ocampo, 1st Lt., USAF Comm. Officer. QRA: 705th Aircraft Control and Warning Squadron, USAF, APO 948, Seattle, Washington. Location is not given; logs say King Salmon, Alaska. Station is a 250 watter, AFRS satellite relaying Elmendorf AFB. Len call is KL7FAG on 15 & 20 meters. (RIM) KJNO (630) Juneau F/c of 10/27, logged as listed; verie letter at hand replacing old prepared card of early KJNO-BF. Signer is Rod Hughes, CE, and now at KJNO as of 9/20/58. He doesn't understand what ECB DXers are up to; mentions reports from New Zealand. I'll write him a nice letter detailing just what this ECB DX business is all about

December 6, 1958

and see if we can make a ECB DX friend up in the 49th state. Noted KJNO ET with band music during latter part of CJET's DX schedule of 11/10. (RHM) KINY (800) Juneau, ER 11/26 until s/off at 0552; excellent signal here. Am sure others on too, but taped KINY for over 2 hours for detailed report as I'm still trying to replace my old prepared card verie. (RHM)

HONDURAS--HRNQ (775) Tegucigalpa, logged without too much trouble on 11/12 at 1900 thanks to MER's tip. (CMS)

CUBA--CMKV (600) at 2345 on 10/5 under WICC carrying the 590 Cuban's program. (WFF) CMKP (670) at 1900 on 11/19 topping the frequency with the usual network programs. (WFF) CMJB (880) at 1955 on 11/6 under WCBS was heard by rotating my loop to bring the WCBS null to its greatest point. This carries the programs of the 910 station. (WFF) CMCQ (890) at 2000 on 11/6 under the 910 network station below and WLS. (WFF) CMHD (890) at 2143 on 9/27 over WLS on this very good night for LA's. This is a network station of the 910 Cuban. (WFF) CMJN (960) at 2130 on 11/4 on top of the channel. This carries the programs of CMW-590 and is one of the best Cubans I receive. They may have a complete network identification at 2400. (WFF) CMIT (990) at 2130 on 9/27 with only a fair signal and may have been a little off the exact frequency. (WFF) CMHD (890) Santa Clara, believed Cuban CMCF netx station s/on at 0600 11/9. (No WLS Sunday). (RHM)

HAITI--"Radio Caribe" (1145) good signal nights. What is call? (RAA)

COSTA RICA--ETW (755) San Jose, "Radio City", seems to be most frequently heard Central American this fall; failed to answer reports in English and Spanish; tape; prepared card last season. Any help?(RHM)

NICARAGUA--Another holdout from last season despite several efforts to verify is YNDS (665) Managua. Any help on this one? Not heard this season; from DX NEWS I gather has moved to 675 Kcs. (RHM)

SOUTH AMERICA

COLOMBIA--EJAQ (1020) Cartagena, "Radio Miramar", logged on several occasions from 11/6 and on, 2200 to about 2358 s/off. By far the best South American signal ever heard here. (RHM) HJAI (1013) Barranquilla, ID at 2245 11/6. I'd better say, heard at that time and date, as not actually ID until some time later through help of HW and JC as well as items in the DIGEST. (RHM) Verie in from HJAI "Radio Kalamary" (1012) signed by Enrique Ariza R, Geronte. (RAA) HJET (820) Cali, "Voice of the Rio Cauca", heard last two nights 11/25 and 11/26 loud and clear over WFAA/WBAP 2000-2300, same network as HJKC (840) also heard with good signal, same hours, over WHAS. (ED) On 11/24 between 2250 and 2305 "Radio Miramar", really poured in here. First good Latin American heard here with new receiver. Featured music from the "Salvador Tropicana" evidently a night club. Announced as "Radio Miramar" and in the "Radio Cadena del Norte en Cartagena". Extremely good signal, well over S-9 and no trace of KDKA or "Radio Panamericana" (usual QRMers). (MER)

BRAZIL--"Radio Guarani", Rua Goias 56, Belo Horizonte PRN6 is on 1340 Kcs. 0500-2300, Monday only to 2200. (WRH) "Radio Dragao do Mar" is a new station in Fortaleza operating on 690 Kcs. with 10 Kw., call ZYH29. Schedule is 0300-2330, slogan "A Voz mais potente do Nordeste". Address Edif. I. A. P. C., Rua Pedro Pereira's/n, Fortaleza. "Radio Tracema de Fortaleza" operates from 0300-2300 on 1300 Kcs. with 10 Kw., call ZYR7. Address Rua 24 de Maio 554, Fortaleza. "Ceara Radio Clube" is on 1200 Kcs. PRE9 from 0300-2300. (WRH)

BRITISH GUIANA--ZFY (660) Georgetown again being heard Mondays 0400-0430 with solid S-6 signal. Easy for verie material. (HJW) Verification received for report of March 10 on 660 Kcs. (RBS)

VENEZUELA--Barquisimeto station on 672 Kcs. believed to be YVMR. (RAA) YVKC (790) Caracas, logged S-3 to S-5 on 11/16 2015-2038 com-

pletely covering WEAN but lost completely at 2038 when WEAN suddenly came alive. Spanish report sent. (HSW) "Radio Central" Caracas, heard 11/6 at 2130 strong and clear on top of WSB. (BD)

EUROPE

ENGLAND-*--BBC European Service transmitter heard 11/7 and 11/14 345 to 0100 very strong and clear 2400 to 0030, news in English, French, Polish, but identified in English. (This is still in West Germany, as far as we can tell here-FV)(BD) West England Regional (1457) Clevedon, heard 11/7 and 11/14 fair signal 0145-0200. (BD)

WEST GERMANY-*--Voice of America (1195) Munich, heard 2315-0130 fair to good signal, broadcasting United Nations news in clear after WOWO signoff at 0100. (ED) Norden-Osterloog (1295) BBC European Service noted at 0040 on 10/20 with a German program. This was the loudest TX yet. (WBF)

LUXEMBOURG-*--Luxembourg (1439) was heard on 10/20 at 0110 with a fair signal and much QRM. (WBF)

BELGIUM-*--Brussels (926) at 0130 on 10/20 with one of the better signals. (WBF)

PORTUGAL-*--CSB-5 (1578) is being heard as early as 1815 and S-5 to 6 at 1830. Should be an easy one, and they verify promptly. (SRM)

MONACO-*--Monte Carlo speaking French logged on 1466 Kcs. with fair signal from 0130-0200 on 11/7. (BD)

AFRICA

MOROCCO-*--From a newspaper clipping we learn that a new radio tower intended to carry the Voice of Morocco to all North Africa was dynamited 11/22. The 1111 ft. tower just completed after six months of work toppled at 0200 under heavy explosive charges at Oujda, in east Morocco, near the Algerian border. Built at a cost of 20 million francs the great pile of steel tubes was to have been part of a new transmitter in the government's radio network. It was to have begun service in a month. (Via HW)

ALGERIA-*--"Radio Algerie" is now using 980 Kcs. in French, 890 Kc., in Arabic, and 1421 Kcs. in Kabyl. (WRH)

FRENCH SOMALILAND-*--According to Mr. J. M. Webber, Information Officer of "Radio Somali", "Radio Djibouti" is currently using 1538 Kcs. (WRH)

NIGER (FRENCH WEST AFRICA)*--"Radio Niger", Niamey, will broadcast on 1511 Kcs. with 1 Kw. power. (WRH)

ASIA (NEAR EAST)

CEYLON-*--The English programs of the National Service of "Radio Ceylon" are scheduled 0630-1200 daily on 920 Kcs. (WRH)

UNITED ARAB REPUBLIC (Syria)*--Damascus' home service program in English at 1100-1200 is now broadcast over 600 Kcs. News from 1200-1220. French program follows. (WRH)

ASIA (FAR EAST)

SARAWAK-*--Latest schedule shows that in addition to their 850 Kc. outlet of 5 Kw., which signs off at 0230 NZT in English, Radio Sarawak also operates a transmitter on 1300 Fcs. running 250 watts and in Chinese language. Off at 0200 NZT. (RA)

PHILIPPINE ISLANDS-*--New station beginning transmission in the 1st week of September with the call sign of DXWW located in Davao City, operating with a power of 500 watts on 570 Kcs. (RA) DXWW is under the same ownership as DXAW on 1180 Kcs. Address P. O. Box 121, Davao City. (RA) Veric in from VOI San Fernando (1140) on a report of 10/27. Another new country for me. (HJW)

SOUTH KOREA-*--According to veric received by a member HEKX (1150) is running 20 Kw., and operated by the Evangelical Alliance Mission, P. O. Box 16, Incheon, Korea. (RA)

JAPAN-*--JOUF (1380) is new Japanese commercial station located in Osaka. (NZ) Several Japs have been noted, but nothing actually new to

December 6, 1958

my logs. Reports out however to JOKP (1190) 10/13; 0400-0630 over WWVA and under KVOO-ET; and to JOIE (750) 10/21 at 0500. (REM)

CHINA-*-"Radio Peking" (720) logged 10/19 intermittently from 0600 until after 0800. "Radio Peking" (840) transmitter believed to be at Nanchang, logged at 0700 11/8, no sign of WLLS. (RIM) Veric in from Radio Peking (840) on a report of 9.29 and also for 1020 Kcs. on a report of 10/11. Signer is Mr. Chao Yi-hoh (Station on 1020 Kcs. actually closer to 1021-22 Kcs.) Came by air mail. New country for me. (HJW) Kansu (1050) weak Chinese off at 0400 NZT with Music Box. (NZ)

OCEANIA

NEW CALEDONIA-*--Noumea heard on 1400 Kcs. July 11 and 12, opening at 0700 NZT with French programmes. Believed to be on for Bastille Day and then off again, but expected to be on permanently by this time. (NZ)

AUSTRALIA-*-"ABC" ID at 0600 on 830 just ahead of WCCO s/on, report sent to 3GI, Sale, Victoria. (RIM) 2GB (870) Sydney, N. S. W., believed station mixed with JOIE at 0600 11/24 when WWL s/on blocking any possible ID; nothing for a report. (RIM)

HAWAII-*--KAIM (870) Honolulu, s/off at 0400 11/24, QRM from Jap. (RIM)

MYSTERY

What is the Spanish behind WFLA (820): Heard around 2230-2400. Could this be HJET (820) in Colombia? I would think this as it is the only high powered Spanish on this frequency in this hemisphere. Does anyone in the NJ, NY, Pa, or Conn areas hear such a station? Would appreciate any help, as this will mean another continent. Too hard to get an ID due to WFLA. (JE) (Jim, HJET is definitely being heard in the PA-NJ area, and I think is definitely your station-FV Listen for Voz de Rio Cauca ID.

GENERAL

I want to say "Thanks" to all of you for a great DIGEST this week. Actually much of the material came in last week but did not get used. There is other material at hand thisweek from other clubs and from other bulletins. However, all material from members has been used.

Special thanks and welcome to four new reporters, Ralph Sperry for this season, and it's a welcome back to him. A brand new welcome is due to Jim Ernst, Ben Dangerfield, and Bill Feidt. Hope you'll all be back again and often. Ben, please one side of the page only, the next time. Forgot to mention the Contest Manager on Page 1. It is, of course, Roger Anderson, address above. Sorry, Roger, and I'll try to get it in right the next time. Keep your notes coming, the limit of 4 pages may force deletion of some non-DX essentials, but we'll use all material when we can do it in the four pages allotted to us. 73
