Mon Dec 4	CKXR	Salmon Arm, British Columbia	580	1000	0200-0300	IRCA
	CKCR	Revelstoke, British Columbia	1340	250	0200-0300	IRCA
Mon Jan 8	WRKD	Rockland, Maine	1450	1000	0130-0300	NNRC
Mon Jan 22	WILI	Willimantic, Conn.	1400	1000	0130-0300	NNRC

Writeups for KNEI, YSF (arranged by Larry Godwin), and WVAR appear last issue.

WAAB signer is Dan Dunnigan, Engineer. Format is not known, but cycle tones and/or March music or CW music has been suggested. (Marc DeLorenzo)

WNPT test is arranged by Boz Zwier.

NEW MEMBERS

Jim Aker	6828 Westcott Road	Falls Church, Virginia	22042
Robert Dykes	9230 Kenilworth	Houston, Texas	77024
Lester Kauffman	4218 Hazlewood Ave.	Louisville, Kentucky	40214
John J. Long	73 Dorchester Ave.	Waterbury, Connecticut	06714
Paul Rahfield	2 Crabtree Road	Montawan, New Jersey	07747
Carl Serres, Jr.	1339 Stanton Ave.	Whiting, Indiana	46394

We hope NRC members will write the newcomers and offer them words of welcome, to help them get acquainted with our club ... and we hope the new members will write to the various club

sections to allow everyone to get acquainted with them.

PRINTING FOR PHASE THREE ...

Of the "New Look" is incomplete, though Ernie left space for a portion of it. Also, we hold off on convention write-up due to size of sections.

1967-68 DOMESTIC DX CONTESTS RULES!

CONTEST MANAGER: Donald Kaskey, Hotel El Rancho, P.O. Box 235, West Sacramento, Calif. 95691

CONTEST NUMBER ONE (STATES AND PROVINCES): 1. Starts 12:01 a.m. local time on 10/1/67 and ends at 11:59 p.m. local time on 6/30/68. Contestant's final entries must be reported to contest manager by 7/15/68.

2. THREE stations from each of the 50 states, D.C. & the 10 Canadian provinces are eligible. First station logged (heard only) from state, province or D.C. will count one (1) point; second station counts two (2) points; and third station counts three (3) points, thus making a possible total of six (6) points in each geographical division.

3. Any domestic Special TEST or DX for the NRC will count as an additional three (3) points. It may be 1st, 2d or 3d station from any area, or added on after area is completed. There will be no limit to the amount of Specials that can be entered. However, DX TESTS must be VERIFIED to count for bonus score.

4. No 50,000 watt station within 1,000 miles of DXer's home address may be counted in contest.

5. All NRC members in good standing are eligible and must submit their entry fee of 25¢ to the Contest 12/1/67. New members may enter within one (1) month after becoming a member.

6. Final standings will be posted in DX News, or they will be announced at the 1968 Boston Convention and then posted.

7. Any station, no matter if previously logged or not, may be counted.

8. Contestants must bring their totals up to date at least once a month, or they will be dropped from the contest at the end of that month, following a postcard warning from the contest manager.

9. List of entries must include location, call, frequency, date heard, time logged, date verified (for special bonus only) and Verie Signer (for special bonus only.)

10. Prizes will be issued according to the number of contestants.

11. All stations may be logged within a 10-mile radius of the DX'er's home base. If the DX'er moves during duration of contest, the manager will decide how to continue scoring.

12. Any judgement as to interpretation of the rules or disqualification of contestants rests solely with the contest manager.

CONTEST NUMBER TWO (LETTERAMA):

OBJECT: To build tiers of call letters by logging U.S. and Canadian Stations.

FORMAT: The fourth (or last) letter in each call is the letter used in building a tier. A tier is completed by logging 26 stations representing each letter in the alphabet. One tier must be complete before another is begun. CFCF, for example, would be an "F". Contest is scored 1 point per letter.

RULES: Rules 1, 4, 5, 6, 7, 8, 9, 10, 11, and 12 from Contest #1 apply (except no need to verify specials).

CONTEST NUMBER THREE (STATE CAPITALS):

OBJECT: To log one station from each of the state and provincial capitals, plus Washington, and Ottawa.

FORMAT: Each station logged counts one (1) point. Greatest possible score, thus, is 62.

RULES: Rules 1, 5, 6, 7, 8, 9, 10, 11, & 12 in Contest #1 (except no need to verify specials).

CONTEST NUMBER FOUR (GRAVEYARDERS):

OBJECT: To log as many stations on the "Graveyard" frequencies (1230, 1240, 1340, 1400, 1450, 1490) as possible.

FORMAT: Each station logged counts (1) point. An additional five (5) points will be awarded for each NRC special program verified.

RULES: Rules 1, 3, 4, 5, 6, 7, 8, 9, 10, 11, and 12 from Contest #1 apply.

CONTEST NUMBER FIVE (250-watters)

OBJECT: To log as many 250-watt stations on the NON-GRAVEYARD frequencies as possible.

FORMAT: Each station logged counts one (1) point. Verified Domestic tests from 250-watt non-graveyard stations count five (5) points.

RULES: Rules 1, 3, 5, 6, 7, 8, 9, 10, 11, and 12 from contest #1 apply.

O K A Y, G A N G I

There they are, the 1967-68 NRC domestic contests. Don Kaskey, at the Eugene convention, promises they'll be fun-filled ... and reported regularly. You can enter one or five, or as many as you want... in any combination. And we hope that those of you who may not be too active at the outset will consider entering anyway ... just to make the prizes bigger; if nothing else! This is a contest for everybody ... but we would suggest that, even though verifications aren't required, you keep track of two or three verifiable items, because the contest manager will have the right to question your loggings. For the most part, though, this contest is based upon the H O N O R S Y S T E M ! ! !

MUSINGS OF THE MEMBERS

EDITOR-ERNEST R. COOPER - 438 E. 21ST ST.
BROOKLYN, N.Y. 11226

3

Ralph M. Johanns - 501 Ellicott Street - Apt. 2 - Buffalo, N.Y. 14203
No doubt the 'Ore-gunners' enjoyed their gathering very much & I'm anxious to hear Maslen's (he's a bank teller here, but used his own \$\$, hi) resumes, as he flew there. I got a giant card from Eugene & 20 signed it, even JAC, but no ERC (was you there, Ernie?) (No -ERC) Ruth Nelson was. Interesting was the NRC Member List. Thanks, JAC. I find a few 'missing' now, but wonder WHY some of those other 300 NRC-ers stay in the NON-Musing side of the fence? I do wish they'd send in a Mini-Muse once in a while, even if they're not active. Most K stations send a nicer v/l than the Ws, but I'm after v/qs now, as they can be displayed better & take less travel room. WCBS-880 sent a picture v/q of the XR on High Island, NY. I have a WCBS-1450 (for Springfield, Ill.) v/l of 4/19/45 & they were NBC then. v/l from WHVW, Channel 95 (950k) Hyde Park, NY & v/l, CM, WEGS Radio, Space City, USA, 1560k at 3401 Pent-chartrain Dr., Slidell, La. 70458. Heard 8/28- f/c-mx 2-2:23 EST through an SS QRMer, a Charter Membership card (#11356) for County Club & a WWOL-1120 bumper sticker came this week. Little DXing, as I've now increased my roof antenna to some 100' & use mostly the old '45 Army Compass RX for 1500-1600k listing, but WWRL/WAKR/CBE are PESTS in MMS & CFBC ANs now on 930 & eats WPAT up, even in Welland, Ont. (F.P. got a v/l for 7/26). I get an ait beacon on 965k (-... , -... , -...) now often in AM & nights & heard WFEA-1370 Manchester, NH ANing 9/9. On 9/4 WRDW-1480 was AN RS & a 1520 f/c-mx 2:32-3 gave a couple ET/c calls but I was unable to understand him. Then maybe another station came w/OC. 9/7 heard WFBR-1300 1:30-2 w/f/c/mx & WTIL, San Juan, on RS to 03:02, then a US ANer took it, all through WERE's phone talks. 9/8- WERE & WAVZ only them @ 12:59am. The bdst one was 8/22, when WRRZ-880 came w/a test call @ 2:15am while WCBS paused a few seconds for a new cl number. Ft. Lauderdale, Fla. 1580, WSRF, tested OC 3:15-3:35am, no reply yet. Looks like this Fall '11 be more DXkey WX, so get your ears in condition. 73.

Don & Len Boselovic - 620 Butler Street - Pittsburgh, Pennsylvania - 15223
Hi all! DX has been fair to good w/32 new loggings made at this den since the last Muse. Better ones: 7/24- WPAT-930 @ 12:48am EST, WBSM-1420 @ 2:05. 8/2- WDEL-1150 @ 11:28pm. 8/8- WROV-1240 @ 12:32am. 8/9- WROK-1440 @ 12:17am. 9/3- WFBM-1260 @ 10:59pm. 9/4- ZBML-1235 @ 12:51am, KARK-920 @ 2:30, WCGC-1270 @ s/on @ 3:28am, & the following (all on 680)- WCAW @ 7:16pm, WCBM @ 7:34, & WCTT @ 7:39pm. Since our last Muse reports have been made out to the following stations: WFBC WHP WBBW ZBML WOKO WPDX WFAW WCUE KOMA & WINW. And the mailman has filled our box w/the following veries: v/q- WKRC CFCE WDBJ WMCA WHN WBZ WOAI R. Americas (country #3) PJB (#4) & WFBM. v/l- CKFH WPAT WINY WDEL WCAW WLEE CKCY & CJOE. v/f- WERE WKAZ & SFGM. Present totals stand at 285/144 w/countries being 7/4 w/ZBML hopefully making it five. Well, that's about it from here so here's the best of the new DX season to everyone.

Steve Long - 111 Marlin Drive East - Pittsburgh, Pennsylvania - 15216
Greetings gang. DX has been quite slow here, but things should improve. For the past three months, I have been working on a loop of my own. When it is completed, I will give further details, but for now it is all very hush-hush. Veries in this Summer from WHAM WOIO WSPD & finally WKYC. 8/29- WLIL-930 w/s/off @ 7:30pm, WKAR-870 s/off @ 7:45pm. 9/4- WSIR-1350, WSPD-1370. 9/13- CHML-900 w/heavy static. 9/15- WFNC-940 w/ditto. Walt LaRoche & I plan about 50 to 60 CPC TESTS (providing they all answer). There was a little get-together here in Pittsburgh, about a week ago. I planned to attend but circumstances made me cancel at the last moment. I'll get to one if it kills me. 73s & good DX.

DX NEWS

4

Joe Fela - 167 Goodwin Avenue - Newark, New Jersey - 07112

Hi again. After a very successful Summer at TV DXing, I'm back at BCB DXing. A few veries have already come in, namely a v/q from WIQT-1000, v/1 from WSNY-1240, & a verie typed on an oversize CM-rate card from WRRZ-880. So far nothing really good has been heard at the dHals this season but here's what has been noted: 8/25- 7:10pm, a few TAs in, most notable being West German 7-1586 @ an S-6 level & quite readable; 7:15 s/off WIQT-1000; 7:16 s/off WKBA-1550; 7:30 WCAW-680 atop all, good signal; 10:55 CJEM-570 quite noticable in FF u/WMCA; Red Sox BB noted @ 11:00 on the following frequencies: 1230 1250 (WARE) 1380 atop WBNX (WSYB?) 1490 1480 (WSAR) & 1490. I followed the one on 1490 which I believe was WKVT but when they game ended they suddenly disappeared as if they went off the air; 11:06 s/off WSNY-1240; 11:16 WMTR-1250 ET/CC; 11:17 WENE-1430 in the mess w/WNJR off, last heard in 1962; 11:59 s/off WLIH-1400. 8/26- 12:10am; s/off WHMP-1400; 12:16, WRKO-680. 8/27- Thanks to that plane crash, I noted WRRZ-880 to its 7:59pm s/off & WRFD-880 to its 8:29 s/off. 8:30 ZNS-1540 just u/WPTR; 10:59 WNAV-1430 s/off (w/WNJR off); 11pm, WHHH-1440 s/off; 11:59, ZBM2-1340 atop everything. 8/28- 12:01am, FF-1230 but I couldn't ID. 6:50pm, WTYM-1600 I&C w/WWRL nulled; 6:58 s/off WGHQ-920; 6:59 s/off WTUX-1290; 7:01 s/off WEGO-1330 equal to WEVD; 7:05 WVSC-990 way o/WIBG. 9/2- 11:22pm, WEMJ-1490 noted, saying on till midnight (1am local time). 9/3- 12:30am, WFEA-1370 seemed to be AN, are they AN-6 again? (Yes -ERC) 12:31 s/off WJOY-1230. 11:40pm, station on 1260 playing old rr, NOT WNDR, WIXY perhaps? 9/4- 12:01am, ID WFEM-1260; 12:03 s/off WRBC-1300; WSLR-1350 very weak this AM, only QRM/being a CBC relay, who? 12:36, WZKY-1580 r/c; 1:00 WARK-1490; 1:09 WJRZ-970 off leaving CBZ way o/WWSW. Local WNJR-1430 seems to be off AN, perhaps due to labor difficulties. Present s/off is 11pm. Going into my seventh year w/the NRC my totals are now up to 828 stations QSLed, 1530 heard. 73 for now. PS- I enjoyed seeing Wes Boyd, Jerry Starr, Steve Weinstein & Mike Tilbrook, & Dick & Joe Cooper in late August on a trip to Youngstown.

Jeff Ross - 125-12 Cronston Avenue - Rockaway Park, New York - 11694

Ernie, I see you've finally educated your typewriter, hi. Veries: v/q- WVOX-1460 NY, pp WTHB-1550 Ga. & v/1 WROV-1240 Va. Recent DX is as follows: 9/7- WJZ-1460 Mount Holly, NJ u/WVOX @ 4:23pm. 9/9- WJVA-1580 Ind. @ 6:53pm. 9/10- WEND-1580 Ebensburg, Pa. @ 6:28pm, tentative WZKY-1580 NC @ 6:30. 9/13- WSAO-1550 Senatobia, Miss. blasting CBE to pieces from 6:45-7:15pm s/off. 9/14- WFLO-870 Farmville, Va. @ 6:21pm, & MM 9/18- WCOL-1230 Columbus, O. @ 2:07am, new WSLV-1520 Box 96, Ardmore, Tenn. testing @ 2:26 w/30db o/S-9 signal, no kiddin'! WJMO-1490 Cleveland Heights, O. testing @ 3:05, WBTS-1480 Bridgeport, Ala. testing @ 3:16, WKMF-1470 Flint, Mich. @ 3:31, & WDOL-1470 Athens, Ga. @ 3:49. Now let's see if they all verify. At present I am almost in the final stages of completing an effective 10 1/2" loop. I'll let you know when it's ready; & has all the bugs ironed out. Right now, you lose 20db o/a good longwire. However, I have an almost positive solution to that worked out. As it stands though, the nulls are quite sharp, & the loop is quite effective overall. Yesterday, I nulled local WINS-1010 from a peak of 30db o/S-9 to S-8, & was able to hear CFRB Toronto quite well. More about it next time.

Rick Marr - 352 High Point Road - Ellicott City, Maryland - 21043

Hi everyone. Although I was not fortunate enough to travel to California & the WC this Summer as I had previously planned, I was able to journey to the New England states for about one week w/a friend from college, Roland Pearson. Before driving to New England, we stopped by Syracuse for a couple of days to visit NRCer Russ Edmonds. While in the area on 8/29, we toured two radio stations w/Russ, one of which was WSEN-1050, in Baldwinsville, NY, a NW Suburb of Syracuse. This daytimer transmits on 250w & broadcasts c/w mx. We also toured WSOQ-1220 in North Syracuse. This 1,000w station, also a daytimer, plays "good mx," appealing to the adult audience. After leaving Syracuse we visited Vt, NH, Me. Mass. RI & Conn. as well as NYC before returning home to Md. Then on 9/5 I was taken through the facilities of WSMD-1560 in the town of La Plata, Md. I found their personnel extremely friendly & cooperative. A secretary there told me that although WSMD has not received many distant reports in the past, she was nevertheless very familiar w/NRC. Well, I'm now entering my third year at U. of Md. As in the past I'll be commuting t/from college so if anyone cares to write me, you may simply use my home address, printed above. Hopefully DX will pick up once again this coming season. C I when it does. 73 for now, & stick w/those NY Yankees in the World Series, hi ERC. (Yecch -ERC)

Clarence Freeman - 1338 Lincoln Way - Auburn, California - 95603

After my first Convention experience I must write to express appreciation to Bart & the crew who did so much to make the Eugene event a success. We were saddened w/Gene Allen when word came that his mother had passed away & he had to leave so soon after arrival. But it was great to meet so many fine fellows that make up the NRC. Special thanks to the crew from California whom we got to know on the trip. With my special interest in foreign reception it was a real joy to meet Gordon & Ruthie as well as John from Boston. To listen to Gordon & try & absorb a bit of his wealth of information makes one appreciate the fact that we have in the NRC all the resources to make DXing both a science & an art. I have a little info to share. The Roseville, Cal. station w/a CP on 1110 is now nearly constructed. They expect to start tests very shortly. The GM tells me they are required to test without modulation except IDs each half hour. Better get the wording precise, as there will be little else to use for verifying. They expect to be ready to begin RS in early November. The owners are required to sell KAHJ-950 first but a deal is nearly complete for that. They will be non-directional days & protect KFAB nights. Surprisingly they are not required to protect either WC station. The non-reported KQCY-1370 that the FCC says is on was finally heard here between daytime KEEN domination of the channel & KGEN's rise in early evening. But still not enough for a report. The vacation trip to B.C. netted several IPRTs as we went up the Fraser Canyon. Hope-860 was followed by Ashcroft-860. There is nothing on yet in Cache Creek so that CP is not yet active. Clinton-1070, Hundred-Mile-House-990, & Lac La Hache-1370 seemed to reach further than the stations in the canyon towns. One learns the need for these repeaters on a trip that saw the dials bare most of the time, apart from them, Bdst catch was CKCQ0570 in Quesnel (pronounced w/the 's' completely silent). None of these is in the logbook back home but it makes you want to try harder. The rugged beauty of the hot dry canyon is surpassed by the delights of the lovely lakes one finds up on the Cariboo Plateau. I recommend the trip. May everyone have a great DX season. 73.

Richard L. Coday - Box 5584 - Oildale, California - 93308

Here's the latest DX action from here. RX, HQ-140X, antenna 100' LW, all times EST. Subtract two hours for PDT. 9/8- 5:45am, KSKY logged w/QRM 5:51am. WRFD logged and report sent, S-6 & fading, 6am. UnID-1550 w/two stanzas of SSB, WMCO? 9/11- 4am, KVI report sent (#2), 4:05am, CJOB logged. 4:15, someone unID testing on 890. 4:20, logged & report sent to WRDW w/extreme QRM. 5am, logged WOR. 5:50am, I logged & sent report to KGNC. 6am, same two-stanza SSB on 1550 as on 9/8. Logged & report sent to CKDM. 6:40, logged & report sent to KIKX. 7:22am, logged & report sent to KUBC. 9/16-7:20am, sent report to KSKY. 9/19- 7:10am, logged & report sent to CBR. 9:30am heard WX report on KCAD-1560, 500w. Abilene again but still no QSL from them. Thanks ERC for info in last newsletter. Veries have been drifting in slowly but steadily. More recent ones include: KFMB KVON CHUB KERG KGNC KSVN, the latter w/nice fullpage letter. KSVN is in Ogden & Ken Felt, the v/s could not quite believe that his station could reach out that far of a day. They began s/off @ 7:25pm PDT & would probably welcome more reports from West. Reply from KICY-850 Nome a few days ago, but no verie - they said I failed to include date of report. Thirty minutes from receipt I put their letter back in mail w/the date, so I should have Alaska verified shortly. I got my copy of DX NEWS today & have read all of it through twice. I'll have to lose a little sleep when the TESTs listed on DX Calendar come up. I have only four on those stations & need two of the states (SD & Ark). Somebody wanted to know about the CBC station on 730k - I have both CKIG & CKDM logged & one or both may join CCBC at times. My day off is tomorrow so I just might DX AN. 73s & good DX.

Dave Schmidt - 44 Green Lane - Green Ridge - Chester, Pennsylvania - 19014

Hi! I thought I'd drop a short one im. I got a v/f from of all things, KXLF-1370 to bring the total up to 471, state #44. Now all I need is WSME & that'll make it 100% (where have we heard that before, hi). HQ-180 went to the shop on 9/20, should be back on 10/1. DX: 9/20- WCSC-640, West Chester State College @ 4:19pm, S-7 & very loud 21 miles away. So far I've reported the following college stations: WSPRN-638 Swarthmore; WXPW-775 U. of Pa., & now WCSC-640. Only WSRN verified, WXPW never answered. Joe Jones tipped me off on that one, also he mentioned WKSB-930 is gone. It's now WTHD-930 directional days, two towers, still nothing of it here. Just listen for "The Big Thud" hi. c/w fans, WRCP-1540 is now all c/w w/"Good Guys" hi. It's better than WEEZ nonetheless. hi. That'll be all for now.

October 7, 1967

DX NEWS

6

Joe Kureth - 190 Midland Road - Southern Pines, North Carolina - 28387

It's been a long time since I've hit these pages so I thought I'd muse from the QTH where I joined the NRC, the South! I'm attending school here & travelled down through Miss Doria, the hurricane, hi! One of the first things I unpacked, natch, the RX, & a V-shaped longwire went up soon afterwards. DX has been fair w/many new locals logged since I've been here the last time. The include: WORG-1580 WKYK-1540 NC w/7:15 s/on on 9/18. Also new WKYB-1000 SC, WTTI-1530 Ga. WAAO-1530 Ala. WOKJ-1550 Miss. WYNA-1550 NC WBZB-1090 on new frequency, WWDR-1080 o/WEWO. WKSP-1090 new in Kingstree, SC 9/24, & the following MM was heavy w/static but I still managed WEEZ somehow (hi Schmidt). XERH-1500 after WTOP s/off & many Cubans per the fine list. Also a good help to this DXer is the SRS/SSS maps - well worth the \$1. The schoolwork doesn't look too heavy but DX again will probably suffer. Steve Weinstein: Are Con-tests 4 & 5 being run this season? Don Eggert - do I owe you a letter or vice-versa? SCers, I have a WEYE-Chart for a CM. This looks like a good season for the NRC, and watch for SAs. CU (hopefully) N 7. (Do send the postcards, Joe, & thanks much!-ERC)

Bruce Reynolds - Route 2 - Warrensburg, Missouri - 64093

Hi. School has slowed down DX somewhat, but I'm beginning to get back into the groove again now. DX: MM 9/11- KIKX-580 AN/rr @ 3:08am w/CKY looped. Then CKWV-580 came in briefly as KIKX faded @ 3:15. WFDF-910 @ 3:45am s/on & much-wanted KGNC through WEB w/loop @ 5:48am. MM 9/18- The noise was terrible, so I went back to bed. KIMP-960 @ 7:30pm s/off that evening. 9/21- WMIX-940 in briefly @ 7pm w/KIOA looped, & CMGA finally heard @ 9pm w/WCCO looped. Previously closest unheard KTOP through KIRO w/ads @ 6:53pm. 9/24- KBHM-1220 7:04-7:14pm s/off, KBCL-1220 7:20-7:29pm s/off, KJAN-1220 u/KBCL @ 7:29 s/off, KZEE-1220 w/church services 7:30-7:41pm s/off, & KFSC-1220 in SS from 8-8:15pm s/off in EE. Five new stations on one frequency in one hour! I can't say enough for the NRC Loop. It's great! MM 9/25- KFRE-940 in surprisingly well w/c/w & NE 1:45-2am s/off. CBM not heard. QRM from another c/w, presumably unnn KHOS. WIUP-1490 @ 3:30am. Neither IRCA DX heard. 1580 was all Mexican & 1340 all Tenn. rr. Veries: v/q- WSWA (also v/l & CM) KGNC (NRC Convention card) WKZO & WIND. v/l- CJDV WFMW WTYC WCRK KNBY KSIS KXOX KCLJ & KSIL. Total: 451. It looks like another "Conventionless" year in '68. Well, maybe next year, ad the Mets say (Hi, ERC) I hope WRYT is included in the station tour & someone can talk 'em out of some veries. 73.

Bill Cheatham - 6900 Westmoreland Road - Falls Church, Virginia - 22042

Hi one & all. I just got #1 of Vol. 35 of DX NEWS. Sorry I didn't get a Musing in there but I accidentally let the deadline date slip by. New DX: 8/13- WRBC-1300 at 5:18am, WBFJ-1310 @ 5:20am w/report taken. 8/14- WMBS-590 @ 8pm w/WARM looped out. 8/17- WMSG-1050 @ 7pm w/loop. 8/27- CKPC-1380 @ 11:06pm. CMBC-690 finally IDed, thanks to Ron Schatz" Cuban list after reception last Winter of R. Progreso IDs. 8/31- WIRE-1430 heard @ 11:30pm. 9/2- WIRV-1550 heard testing u/CBE @ 3am - ended @ 3:06 UnID TT-1450 @ 4:11, WAJR-1440 @ 5:30am RS. 9/3- WPVA-1290 @ 5:40am w/c/w mx. MM 9/4- WOOD-1300 on TT @ 12:15am w/voice ID, coded IDs heard at times, though. 9/6- WEAD-1570 @ 6:29pm s/off. 9/8- WAAY-1550 @ 7:35pm w/CBE. 9/10- WWOE-1390 heard @ 6:25pm w/WEAM looped out by the nine-transistor RX. 9/16- WSUX-1280 heard @ 7:40am w/WHVR off due to technical difficulties. MM 9/18- WICE-1290 heard @ midnight w/rr & slight QRM from WOOD/TT. CJRS-1510 @ 12:15am w/excellent signals in FF. It sounded as if it was on RS although I noted in ERC's Musing that it had ET/mx on 9/11 & announced RS would begin 9/15. Sorry but "yo no comprendo Frances." All I could understand were the IDs & the Kentucky Fried Chicken spots, hi. Finally to end MM was WSLV-1520 on test from 2-2:30. Location is Ardmore, Tenn. but I couldn't find them on the map. (Giles Co., on Alabama line, Bill -ERC) Reports are out to WKBN WSUX WCOL CJRS WSLV & KOMA FOR THE THIRD TRY. All return postage except for CJRS. Veries: v/q- CKPC WILA CHOW WTCB & WOOD. v/l- WVAM. I forgot to mention that WICE was my first RI! Total stations received now stances at 422, veried is nearly 180. Percentages of verie returns - 74.3%. WCBS is much weaker in the daytime now, presumably because of 10kw. They're weaker than WHNC Henderson, NC & that's pretty weak (around S-2). I've run out of space. CU next time. 73.

Jeff Kadet - 8047 Park Overlook Drive - Bethesda, Maryland - 20034

Veries: v/l- WWGM WMCC. DX: 9/11 brought two loggings: WMOC-1450 from 1:31-2:05am, & CJRS-1510 from 12:54-1:21am.

Bernie Duffy - 1100 Clove Road - Apt. 6H - Staten Island, New York - 10301

Thanks to a tip from ERC I got CJRS 1510 @ 1:21am

Curtis Engberg - 80 Concord Road - Wayland, Massachusetts - 01778

Already the season promises great things. The TAs are in regularly even in the late evening congestion. I'll skip those since there is nothing new at this den, & only mention the very recent few domestics. 9/17- CJRS-1510 dominating WMEX even at this close location w/loop, of course, & noted well into the AM. At lam 9/18 I caught the s/off of ET from WCOK-1060, new in Sparta, NC. Then at 1:18 WGOC-1090, Kingsport, Tenn. unlisted in VJ, for three new ones in 24 hours. 9/21- At 10:30pm, TIFC-1075 "The Lighthouse of the Carribean" blasting through semi-local WTIC. 9/23- I caught solid s/off announcement of 4VEF-1035 through WBZ. 9/24- This was LA night as I have never heard so many SS signals so clearly. I wish I understood the language, so it would be easier to ID them. The only positive newcomer for me was @ 11:30pm when CMHT-990 gave call ID & location as Sancti Spiritus. However, I know that some of the others I heard have never been officially logged here; 840 & 875 definitely would be new in my log & those on 995 1060 & 1140 did not sound familiar. TIFC was #2,200 here & my log is restricted to currently operating stations, so there are no duplicates due to call changes, etc. 73.

Bob Karchevski - 8B Riverdale Street - Watertown, Massachusetts - 02172

9/10. Hi. I guess I'm still alive, just forgotten. So I'll correct that. DXing is almost non-existent. I intend trying for KABH-1510 MM 9/11 but my RX (NC-183D) needs a new set of tubes. MM 9/4 (Labor Day)- I tried for anything on 1190 after WOWO s/off @ 12:06am. All I could hear was CBC net station, I assume it was CBNC & CBAR in parallel. Last season totals were: 53/44 (83%), 23/20, 3/3, 6/6. This issue of DX NEWS should contain all outstanding membership cards - if you are owed a membership card & have not received one, drop a postcard to NRC, Box 99, Cambridge 02138. I was very pleased w/the technical articles by GPN, Foxy, & Dave Fischer. Also congrats to Bart Cronin on his new job at WCAS & to Bob Foxworth on his new job at WCBS! Whom do we have at WCCS? Sorry I couldn't make the Convention at Eugene. Fortunately HAC had some bread & was able to make it at the last minute. Anyway, I think I'll be able to make it to BOSTON in '68! Does any SCer know of a BCB station which programs all "psychedelic" mx (a la KMPX San Francisco) that I might be able to receive here?

Stan Morss - Route 3 - Bradford, Massachusetts - 01830

9/18- WGOC-1090 Kingsport, Tenn. testing 1:55am, c/w. KFJZ really knocking off 1270 about S-9. WSLV-1520 Ardmore, Tenn. ETing to 2:40am. 1530 CBCer like 10kw. this AM. So Gene DeLorenzo was in Boxford! Well well - I've lived there all my life (in spite of the mail address) & never knew there was a Basketball Camp! Glad he like Boxford DX. 9/25- CJRS-1510 Sherbrooke, Que. w/super signal on what sounded like another AN FF Canadian. TT on 680 most of AM but WRKO put on OC at the hour & half hour to kill any possible ID. TT @ 2:43 on 1260, no ID heard. WEEX-1230 Easton, Pa. w/TT 2:49. Many Cubans strong - 1090 & 790 best. No sign of U.S. on 790 - just Cuba.

Bob Shaw - 325 Bashford Hall - Delaware, Ohio - 43015

A last spurt of DX before leaving for OWU has brought my total heard in Elyria to 812. 9/5- WBNO-1520 6:45pm s/off. 9/6- WBBF-950; one of my most-wanted, 12:04am. WBRI-1500 7:01pm s/off-SSB, I think, sung. WIRO-1230 7:37. WKJR-1520 f/c-TT 11:13-11:26. Talk show-970 heard at this time - who is KCAO there? 9/7- WBRC-960 @ midnight. WDXB-1490 @ lam. F/c-TT-1450 s/off 1:15 w/ten seconds of talk but no ID? 11:05pm, WBIG-1470. WTJS-1390 11:35. WPAC-1580 ET/mx 11:40. 9/8- WRKL-910 ET/OC 11:55. SS dominated the frequency this AM w/YL & male DJs, YVRQ? 2am s/off-SSB? MM 9/11- The Philly Dog really outdid itself. CKX-1150 @ midnight. S/off @ 12:4, then I got WJBO s/off-SSB. Two minutes later, came my best catch ever, along w/KFAX-1100, KAYO-1150 for State #44. They quickly left @ were covered by KEJP, unfortunately. WXCO-1230 12:11 ET/TT, making #19 on now my best frequency. Looking for KSYO again brought KWKY concluding ET/TT @ 12:45. CMHK-1210 1:42. Prvince #9 in ID from CHQM-13/20, for what reason I know not. They announced 50kw, although old VJ says 10kw. This was 1:57. WINU-1510 end ET 2:35. KFIN-1280 w/phone show, 2:57. CFCN-1060 3:06. PM, WBIU-1480 6:30 s/off. WJVA-1580 6:45. 9/13- WHIS-1440 11:05pm s/off-NAB-SSB. 9/14- KELO-1320 12:44. WRJW-1320 ET/TT 12:55. WFOY-1240 f/c-TT 11:08-11:17pm. 9/16- WSOG-930 12:10, also a rare appearance from WSAZ. WLIJ-1580 r/c-TT/mx, 12:25-12:35am. WESR-1330 AN for Doria, easy, 12:49. MM 9/18- WBSM-1420 12:21 w/WHK off but too much WING slop. CJRS-1510 apparently RS, 12:25. 12:34, Kingsport, Tenn. CP-1090 ET c/w, call sounded like WQOC but not sure so no report. WPEN-950 12:53. WCOP-1150 ET/OC 12:59. Only verie here is WPMX-1460 v/f, who have ETed the past three & maybe four MMs. Both XR & studios are in Ala., although Ga. enters on their IDs much. 73.

DX NEWS

8

Cesar Obijo - Calle Hostos 38 - Apartamiento 607 - Santo Domingo, Dom. Rep.
Hello everybody. It is a long time since I don't come to this section, I seem to have been awakened by Beulah (pity it is not a woman) & it is time enough. Well, as you can see there is a new address, although really it is my permanent address. I changed it due to the civil war since this one was into the fighting zone which I had to leave, & my address at Bani was safer for the mail. Now I am MW Editor of the West Indian DXers Association. Did any of you know about this club? It is in the West Indies, of course, & because of this I have a little more to do. I have been listening a lot in order to have tips for my column & here are some of my loggings: O, R. Rosario, Argentina, on a MM @ 4:20, WADO-1280 NY IDing as "R. Hispana de Nueva York" @ 12:40am (5kw) as well as WSLR-1350 Akron, O. heard during several evenings, once @ 2:22. A Mexican station IDing as "R. Fiesta" on 1470 @ 12:25-1:05, other Mexican as "R. LZ" (XELZ) (elle-seh-tah) on 1440 @ 1:56. Canadian IDing in FR EE as "Ici Radio Canada" & "This is the CBC Network" on 1550, Windsor, Ont. @ 1:24, CKLW-800, Windsor @ 1:10. Another news are: a shift of frequencies between Moron, YVNM, to 990 (formerly 1000) & R. Tropical YVRT (formerly 990) to 1000, both in Venezuela. A Dominican station from 1190 to 1200, R. Santa Maria, HIDV, now 10kw. There is a new name: HIAK-1440, usually named R. Ronda changed name to R. Aeropuerto & it has been installed on the Punta Caucedo's airport (this is the Santo Domingo airport) in order to give info about arriving & leaving planes, as well as WX report, including interviews to leading personalities arriving by plane, etc. Other stations heard from the US include the usual 50kw. WKYC-1100, WNRW-1130, KMOX-1120, WJWO-1190, WCFL-1000, enough. A good opportunity to hear Dominican stations was from 9/9 to 9/11, since most of them were on the air AN due to the threat of Hurricane Beulah, which was coming directly to Santo Domingo & Civil Defence was working continuously, so if you did not take advantage of this it is a pity, & on MM they were heard. Well, so long for now, 73s, & DX.

Richard Wood - 1740A Mihalala Way - Honolulu, Hawaii - 96816
I hope to one will hesitate to join the Singleton-Eliminator Foreign Contest because of age or inexperience. Age has nothing to do w/a DXer's ability. Some of the leading Swedish DXers are only 14 or 15 years old. No hesitation, how! Once two members have verified a station from one zone, that station is out. So you had better get to work. I know I have. The 17 locals here are quite a problem, but by improving my loop, e/g, making the inductive turn of coaxial, I can reduce the splatter & some of the very numerous spurious signals. DXing in this location is no cake-walk, but I have so far logged nine Aussies, four New Zealand, three China, three USSR, two North Koreans, two Mexico, Philippines, Bonaire, Kwajalein, Japan, & a variety of US & Canadians. Loudest mainlander is XERF, followed by CKWX & CHUB. Loudest US signals are KFI KSL KXL & WOAI. While DU openings have been good lately, I suspect CX to the Far East soon. Ernie, your station w/"A Mighty Fortress is Our God" could also be ETLF, Addis Ababa. (Wanna bet? -ERC) Sorry I missed the Convention. Honolulu to Boston is a long way, but I'll try to make it next year. I did enjoy ANARC Convention, however.

Bob Shaw - 325 Bashford Hall - Delaware, Ohio - 43015
My last spurt of DX before leaving for DWU has brought my total heard in Elyria to 2. 9/5- WBNO-1520 6:45pm s/off. 9/6- WBBF-950, one of my most-wanted, 12:04am. RI-1500 7:01 pm s/off-SSB, I think, sung. WIRO-1230 7:37. WKJR-1520 f/c-TT 11:13-11:26pm. Talk show-970 heard at this time - who is KCAO there? 9/7- WBRC-960 @ midnight. WDXB-1490 @ lam. f/c-TT-1450 s/off 1:15 w/ten seconds of talk but no ID? 11:05pm, WBIG-1470. WTJS-1390 11:35. WPAC-1580 ET/mx 11:40. 9/8- WRKL-910 ET/OC 11:55. SS dominated the frequency this AM w/YL & male DJs - YVRQ? 2am s/off-SSB? MM 9/11- The Philly Dog really outdid itself. CKX-1150 @ midnight, s/off @ 12:04, & then I got WJBO s/off-SSB. Two minutes later, came my best catch ever, along w/KFAX 1100, KAYO for state #44. They quickly left & were covered by XEJP, unfortunately. CC-1230 12:11 ET/TT, making #19 on now my best frequency. Looking for KAYO again ought KWKY concluding ET/TT @ 12:45. CMHK-1210 1:42. Province #9 in ID from CHQM-20, for what reason I know now. They announced 50kw, although "old" VJ says 10kw. This was @1:57. WINT-1510 concluding ET @ 2:35. KTLN-1280 w/phone show, 2:57. CF7CM-1060 3:06. PM, WBLU-1480 6:30 s/off, WJVA-1580 6:45. 9/13- WHIS-1440 11:05pm s/off NAB-SSB. 9/14- KELO-1320 12:44. WRJW-1320 ET/TT 12:55. WFOY-1240 f/c-TT 11:08-11:17 pm. 9/16- WSOC-930 12:10, also a rare appearance from WSAZ. WLIJ-1580 r/c-TT/mx, 12:25-12:35am. WFSR-1330 AN for Donia. very easy copy 12:40. WJVA-1580 6:45. WJVA-1580 6:45.

October 7, 1967

(Bob Shaw) 12:21 w/WHK off, but too much WING slop. CJRS-1510, apparently RS 12:25. 12:34, the Kingsport, Tenn. CP-1090, ET w/c/w, ball sounded like WQOC but I wasn't sure so no report. (W GOD, Bob -ERC) WPEN-950 12:53. WCOF-1150 ET/OC, 12:59, also I think they were the ones w/Robert Goulet from 12:30-12:45 or so, unID. Only verie here is WPNX-1460, f/f, who have Eled the last three, maybe four MMs. Both XR & studios are in Ala. although Ga. enters on their IDs much. 73.

G. Harley Deleurere - Box 233 - Elk Garden, West Virginia - 26717

Greetings from the heart of poverty-stricken Appalachia. At least we are kept reminded in this area that we're still poverty-stricken. When I get settled in Elk Garden, it ought to prove to be a good DX location. We'll have to wait & see. Veries for the Summer were from WLTH-1370 Gary Ind., CJOY-1460, Guelph, Ont, CFTJ-1110 Galt, Ont. & WMPC-1230, Lapeer, Mich. Also I received QSLs or letters from Plymouth 1214, Plymouth, Devon, England; Redruth-1457, Redruth, Cornwall, England; Radio 390-773, England; R. Caroline South-1187, England; Leeds-1546, Farnham, Leeds, England; R. 270-1115 Scarborough, England; Towyn-881, Towyn, Merioneth, Wales; Dundee-1546, Dundee, Angus, Scotland; Marx Radio-1295, Douglas, I.O.M.; R. Caroline North-1169, Isle of Man; Lisnagarvey-1349, Lisnagarvey, Antrim, Northern Ireland; Dublin-1250, Ireland; Montpellier I-1403, Montpellier, Herault, France; Tours-1493, Tours, Indre-et-Loire, France; R. Corse-1493, Ajaccio, Corsica; CSB81-1570, Aeroporto de Santa Maria, Azores; CSB80-1394, Angra, Ilha Terceira, Azores; CSB2-1034, Parede, Portugal; EAJ55-1412, Algeciras, Cadiz, Spain; EAK18-1394, Palma de Mallorca, Balearic Islands; R. Gibraltar-1484, Wellington Front, Gibraltar; BBC-East, editerranean Relay-719, Limassol, Cyprus, & Amman-800, Amman, Jordan. 73s.

Lynn Brooks - 2109 Mary Street - Ponca City, Oklahoma - 74601

Hi guys! It's been quite a while since my last Musing, but I moved twice during the Spring & almost no DXing was done this Summer, so there was nothing to report. BCB listening while on a business trip to Panama this Summer proved fruitless, as I found out how little SS I was able to understand. Latest DX: 9/19- WHBF-1270, Ill. 10:48 pm, WGEM-1440 Ill. 11:27pm. 9/23- XELO-800 9:59pm. 9/24- WNUS-1390, Ill. 12:40am, WXCL-1350, Ill. 12:54. 9/25- KMBZ-980 Mo. 2:51am, KLAQ-1600 Colo. 2:23am. 9/26- WHB-710 Mo. 10:23pm, KFEC-680 Mo. 10:40pm. I tried for IRCA TESTs the last two MMs, but none heard here, as CX were poor. Notice the new address above. I hope to be here for a long time, & have put up a 100' inverted L antenna. I'm still using the S-120, but have hopes of a new RX before long. I had a great get-together on Sat. 9/9 at Houston w/most of the DXers there. Those at Walt Fair's house included Ward, Coles, Shoaf, Campbell, Jennings, & a couple of others. I also met Jack Keene later on the next week at Hank's house. A fine group of DXers, & I certainly hope that the Convention will be there in '69. It looks like the IRCA has another big jump on us this year w/many good TESTs sked. I'm hoping to get out some CPC letters this next week. It sounded like everyone had a good time in Eugene. I wish I could have been there. That's it for now - I hope to have some good DX to report in next issue. 73 & HOUSTON in '69. Newspaper collectors: I have some Panamanian papers. Write if you would like one. (I surely would love some Panama postcards, Lynn & thanks!-ERC)

H. W. "Hank" Ward - 9617 Panola Way - Houston, Texas - 77055

The 9/9 Houston meeting was very enjoyable. We all enjoyed meeting Lynn Brooks from Ponca City & to have as a special guest, Larry Jones, a former NRCer from Stillwater, Oklahoma, now a Houstonian, too. Larry expects to rejoin the NRC soon. All of the Houston DXers were there except John Rumsey. Connections were fouled up, and Jack Keene who was out of town. Matamoros-1310 has been deleted from current VJ; however they were heard 9/10 IDing as R. Ranchito. A few of the Summer f/ups w/PPCs were non-productive. WNUS WIMA WABD WWOK & WEED. These were all good reports w/adequate local identification. New reports which failed to attract a verie went to KLVI KWBC KPBC & KBUY. There verified w/use of PPCs: KELI KAYC WJPR KWAM KZEY KPNG KCCT WEZJ & WBGH. Recent reports have been sent to these new additions: KBBB KMBZ WYSE KFMIC. That is about it from here as the new season gets under way. Good DX to all.

Walter La Roche - 475 Morrison Drive - Pittsburgh, Pennsylvania - 15216

Hi all. DX has been fairly good whenever I get a chance. So far this season the DX is as follows: 8/31- WKAR-870 @ 7:45pm/off. 9/1- CHIR-730 @ 7:15pm, & WFTR-1450 @ 8:15. 9/16- WLAP-630 @ 11:30pm. 9/18- WCOK-1060 f/c & CHNS-960 @ 1:45am. 9/23- St. Maarten-1295 @ 9:35pm s/off. 9/25- WORD-910 @ 8:40pm, XEG-1050 @ 9pm, & WETT-1590 @ 9:32 s/off. Veries, v/q- WSUN KNOX CHIR & TIRICA. v/l- WKAR & WLAP. 73 & best DX.

DX NEWS

10

Bob LaMotte - 1562 Silverwood Drive - Martinez, California - 94533

Well hello, hello, & hello! It's been quite a long while since a report came from here. I am figuring on trying to get back into a routine here where I will maybe beat out a column once a month or so. Before going further here I had an enjoyable trip to Eugene to the Convention. It was nice to meet a lot of fellows who seem to get their kicks out of the same crazy hobby as I do. It was truly a wonderful time. Getting into my DX activities here for the last few years I don't quite know where to begin. At the Convention I displayed a total of 109 veries dating back to Dec. 1958. For the extremely few reports I have sent out in these last 11 years I have gotten a very good return in veries. There always seems to be few who don't reply, no matter how hard you try. Latest DXing: 9/17- KIRV-1510 Fresno, 9am s/on to 9:30. 9/18- WQXR, NYC, 6-6:15am. I have a verie as of today 9/23 from both KIRV & WQXR. Both stations I have been laying for for quite a while. The last two years I have concentrated mainly on 1510 to 1600k w/pretty good success. Total veries on these frequencies are 35. Here they are: 1510- KTIM KGA KTTT KALF KIRV WLAC WINU WMEX. 1520 $\frac{1}{2}$ - KCHP KOMA KUMN WKBW. 1530- KFBK KISM WCKY. 1540- KPOL KXEL. 1550- KQBY KIKI KPIF KQXI. 1560- KPNC WRIN WQXR. 1570- KACE KWAY KLOV CHUB. 1580- KHUM KMRE KYND KWIP KDAY. 1590- KLOV KEPO. No stations veried but four logged on 1600. The rest of my veries are sprinkled sparsely throughout the rest of the dial. Total veries now? Ill. I plan to keep tuning mainly to 1510-1600 this year as I have logged 16 other stations besides the ones I have veries for. Of course I will listen for all the Specials & all. See you all next month now, huh? Bye now.

Gordon Gray - South 3310 Division - Spokane, Washington - 99203

After a great MRC Convention, I'm back at the old grind here at Wash. State Univ. in Pullman. It was a pleasure meeting everyone, & I hope I can attend many more Conventions. My DX is now limited to a 2 $\frac{1}{2}$ x4 $\frac{1}{2}$ x7 $\frac{1}{2}$ " transistor RX hooked to a longwire. I also have a car radio which is no doubt better, but it's just too awkward to listen for DX in a car around 3 or 4am. Hi. DX since last Musing w/all times AM: 8/17- KWCO-1560 5:23. 8/22- KWWL-1330 @ 5:30, KIME-1490 strong @ 6:53 s/on. 8/28- WRDW-1480 testing from 2:00 till??, KGPC-1340 on f/c, 3am. 9/11- KIRS-1230 ID during f/c, WOKO-1460 w/AN show 3:30-4, KGFV-1340 4:48 ID on f/c. 9/14- KODI-1400 7am s/on-SSB. On MM 9/18, just after a windstorm the static seemed almost unbearable. Later, I found that two wires had crossed causing the disturbance. Even w/the local interference I heard CKFH-1430 booming in on its AN show, as the EC seemed excellent that AM: 9/21- Aurora was present & found KTAR-620 on HI AN show, KMVI-550 easily topping frequency @ 4:02 s/off-SSB. 9/23- KRAE-1480 6am s/on for a much wanted city. MM 9/25- Aurora type CX again w/KNEW-910 @ 1:20 w/phone-in show, XEOR-1390 all alone @ 2:57 II unID SS s/off-1370 3am. Call sounded like XEAC?? Much-wanted KAFY-550 finally in u/SS 3:05-3:25, KROE-930 6:50, & new KWSR-810 7:00 u/CHQR. 9/26- KYET-1450 6:57 s/on-SSB. 9/27- KONG-1400 atop @ 2:07 s/off, also this AM, a very curious situation on 1510. From about 2:37-2:52 I had a station there at a very good level. Format was good listening mx, but no IDs, time checks, etc. were given. At 2:52 it magically disappeared right in the middle of a selection. Was someone mistakenly on its day-time pattern? Who was this - KASK maybe? That's about it. Due to school no more MM DX till December. 73. PS- A couple of notes on the AN Situation: 1230- KRDR. Because of KSPQ, 1230 is only open MM & Tuesday AM in Spokane. KRDR is probably AN MM only or maybe also on weekends. 1430- KARM - Don Kaskey said off Wed. AM only. 1060- CFCN is not CBC, but HI last I heard them. 950- KBOI in Boise was still here as of 9/29; not yet on 670. On MM 9/21 KSL-1160 & KSTN-1420 were noted on past 2am their time.

Ronald F. Schatz - FIM3 - USN - FTA- WP6706 - USNSC - Mare I. - Vallejo, Cal. 94592

Greetings! I have a lot to say & little space to say it in. Eugene Convention was outstanding, whether you win all the Scotch or lose by a minus 465 score, I dare JAC to tell everything! Will I get that trip to Boston '68 on the publisher? Anyway, some DX: KCRL-650 every AM, KIKI-850 testing 7:45am 9/18, Peking-1040 in fair 5:30-6:30 9/25, /w/JJ, then Mandarin. XEDX-1010 to 2:30 s/off 9/28. Also CMQ-640 u/KFT AMs. Re Convention dates: They should be at a time that demands inconvenience for the least, & Labour Day has proven it so far. I will push for a Christmas-New Years Convention in Miami in '74 as it looks now though. 73s, & give that Watertown Hippy a bath!

AS THEY SAY IN INDIANAPOLIS, "WFBM." "WALK, FLY, BUS, to MASSACHUSETTS! BOSTON '68!"

Fred Nordquist - 411 Dart - White Sands Missile Range - New Mexico - 88002
 DXing has been limited mostly to N.M. & adjacent states. All N.M. stations logged except KQEO KRIK KDCE KMIN KYVA KCLV KSYX KGFL KENM KHIP & KLMX. Not sure if 950-Bayard, NM or 1190 Albuquerque are on air yet. Closest unheard are KRIK & KGFL Roswell, 130 miles, what gives? Totals for one month: 217 logged, w/report out to new KRSP-1060 Utah. Many SS stations hog dials every PM. However, PJB-800 heard o/u XELO each night, w/new 55" loop that really works! No locals to bother me here on the Range either. RX is SX-110, w/50' longwire antenna, strung N/S along w/loop hung in garage. Here is better DX: 8/20- KFWB-980 1am, KPIK-1580 8:08pm. 8/24- KVLK-1240 NX 7:05am. 8/25- KIUB-570 12:31am, KBUZ-1310 9:01am. 8/26- KIOA-940 pop mx @ 1:50am. 8/27- KFDI-1070 c/w before antenna direction switch, 8:30pm. 8/29- KBUY-1540 WX w/pattern change @ 8:15pm. 8/30- KDJI-1270 s/off-SSB @ 9:13pm, KECS-1290 s/off w/mx 9:15. 9/4- WFLA-970 pop mx 1:32am, KDB-1490 s/off-SSB 1:59, KNOW-1490 NX w/Paul Harris 2:00, KARM-1430 pop mx I&C 2:12, WGEM-1440 w/Mike Master, DJ, 2:18am, XEXX-1420 EE I&C 2:21; KMEN-1290 rr 2:30, WMC-790 HI 2:52. 9/5- KGER-1390 religious program 12:19am, KBTN-1490 o/u KRSN w/NX 7:23pm. 9/9- XERB-1090 rr 12:22am. 9/11- KCBQ-740 NX 7:43am. 9/14- Loop in operation. WHAM/VOA-1180 8:30pm, KKIT-1340 w/Tags Tigers FB, NM #41; KOCA-1240 w/Kilgore FB 9:07pm. 9/15- KLOS-1580 w/KTUF nulled w/SS mx, NM #42. 9/16- WBZ WCBS WNBC I&C 9:20pm. 9/17- KFUN-1230 NX midnight, NM #43. CBM CBK CBL CBW w/CBC cl mx 1:10am, KPR0-1440 rr 1:39am. 9/18- KULY-1420 w/Evening Serenade 8:01pm. 9/19- KVEL-1250 s/off-SSB. 9/20- KTOD-1590 AB-Beulah storm. 9/21- KIBE-1220 s/off w/no SSB. 9/24- KRSP-1060 pop mx 8:15pm. That's it/ 73.

Dave Carlson - 516 Hickory Hollow - St. Louis, Missouri - 63122
 Good Morning, World! Right down to DX. MM 9/4- WOOD-1300 r/c @ 12-12:15am w/code IDs, TT-1510 unIDed but probably WJCO f/c, WGEM-1440 noted AN. MM 9/11- WIMJ-620 finally made it u/KXOK slop around 5:10am. 9/16- WPIT-730 @ 6am s/on-SSB, WNES-1050 Ky. @ 6:40. MM 9/18- Newie WGOC-1090 Kingsport, Tenn. w/EP in real good w/c/w show & frequent IDs. 9/22- KAMD-910 Ark. in briefly @ 6:01am until KGLC s/on, WINZ-940 Miami heard w/NX @ 6:03. WFMW-730 first time @ 6:40, & KSTA-1000 Texas in o/WCFL @ 6:44-6:47 w/local NX. 9/23- WENC-1220 s/on @ 6am. Veries: v/1- KRCB-1560 (thanks, Ernie W.), WRMS-790, WAOV-1450, WDAY-970, & KSOO-1140 (state #37 verified). v/f- WDAE-1250 & WPNX-1460. v/q- KLZ-560 KOIL-1290 WOOD-1300. I'm still waiting for KELO & KGHL to come through. Totals 675/196 & states 40/37. Nice meeting Jerry Bond in September - thanks for all the SCs! The Calendar of Specials looks pretty good this year - I hope those Westerners show! I'm planning to arrange a DX TEST w/KFUO-850 & maybe some of the other St. Louis stations. DX NEWS 9/16 got here on 9/20 - I hope it's an indication of things to come. 73s for now & hope y'all have a jolly DXseason.

"Fish" - Dave Fischer - 5039 Sputh - Lincoln, Nebraska - 68505
 (KOAKK) I got loop 2'x2' & 40' high, 100' longwire into good HQ-120. New season, new location, so I plan to fill bit of space in DX NEWS. I am a first-class mailman now. EJW's SSS/SRS maps excellent. Presently I am hunting down daytimers. I logged all 0-50 milers from Lincoln & working on 50-100 milers. Bad one is KICS-1550 since 3k2. KKJO hard to null! 0-50 milers are: (locals) KFOR-1240 KLIN-1400 KIMS-1480 KL0L-1530 (others) KHUB-1340 KAWL-1370 KWBE-1450, KNCY-1600. Brautiful loop separation on 1600 KMCY/KRFS. There ate only 175 BCB stations in a 250 mile radius of Lincoln - how's that grab you ECers? Daytime w/loop shows some goodies. More later. Answers to my questions last issue of DX NEWS have been favorable. I understand membershi $\frac{1}{2}$ list now available from NRC HQ. A request of NRC: Please indicate in Musings the ham radio call letters of any BCB people, CEs, etc., you know. Thanks! Hams: CE KIUB-1340 w/NOVE, CE KMMO-1300 w/ESL. Announcement: To all NRC/BCB hams. BCB QSO party each Sunday beginning @ 7:30am EST on 7160k plus/minus 5kc/s. Send your calls & operating modes/frequencies to me please. Above skew perhaps temporary. A number of non-ham NRCers want to evesdrop on us? I will try to get BCB staff hams (CEs, etc) on BCB QSO party. Please help. BCB/NRC hams that I know of are: KSGU Dick Truax, WAMIA Robert S. Duggan Jr., Ralph I. Irace Jr. WNLGEM, Alan Morrison K4GUU; Sheldon Remington WNLHED, Fish - KOAKK. You can always find me on 3525 kc/s. daily at 8pm, 9:30, 11pm EST (EDT, summer). See you SMs! 73.

Tom Mann - 1805 East Elmdale Court - Milwaukee, Wisconsin - 53211
 Last night, 10:30-12pm instead of hearing WLAC-1510 I heard XERH-1510 w/a good signal. There was little fading. XERH was playing their regular format. Was WLAC off the air last night, 9/24? XERH was heard on my Zenith table model 0730. 73s.

October 7, 1967

DX NEWS

12

Charles R. Rader - 22 Robert Street - Hamburg, New York - 14075

Well, in a moment of weakness I promised Ralphie that I'd send in a report to DX NEWS. So, here it is. 9/13, UnID TT noted u/KYW-1060 12:18-12:33 $\frac{1}{2}$ off. @SAN-1470 caught ID & s/off of their TT, @ 1:03. 9/15, TT 12:04-12:16 o/u WAKR-1590, was maybe WERA, w/f/c, but no IDs. WJUN-1220 heard w/TT-f/c 12:30-12:43 off. 9/16- WESR-1330 was on AN this AM w/'hurricane watch' for Doria. Used mx by Jerry Murad & Johnny Mann Singers, & gave frequent bulletins about the approaching hurricane., heard well here o/WEVD & no sign of WHOT, hi. 9/18- WCOK-1060 r/c heard as per bulletin w/weak signals 12:38-lam s/off using instrumental mx. WDIC-1430 r/c noted weakly u/CKFH @ 12:26-12:35 off. 9/25- WMEX-1510 copied for a report on the ET/OC/TT/mx, which was on 12:02-12:53 (& longer). Also noted was WCKY-1530 testing at about the same time. Nothing much else heard that AM, including the WPUV & KCAP TESTs. I doubt that WPUV was on, unless they came on at 2am EDT instead of EST. Some station was heard weakly on 1530 from 1:25-1:35 & longer, testing w/TT & mx, but I couldn't get an ID on them. Not WCKY who had gone off. Only one verie to report, a "home brew" v/q from WNKY. And I really haven't been sending out reports lately, WPNX has been oted on AN several MME lately, so maybe a new pest on 1460? I've joined the CPC again, & already have set up one Special, w/WAGL-1560. They'll be on for TEST-NRC on 11/6, 2-2:30. probably w/mx & frequent IDs. How about some more of you NRCers doing some CPC work for your Club? Contact Alan Merriman. And while we're at it, with all of these NRCers in the Boston area, you'd think someone would check up on the problem of no veries from last season's WRYT TEST. Maybe a f/up report would be in order after all. 73s & good luck.

Jerry Starr - WHOT Radio - Youngstown, Ohio - 44505

Hello group. DX has been as slow as ever the last few months, but a few veries are still trickling in, the most interesting of which is a verie from WSME-1220 for the TEST of 12/12/66. They still have all the reports from the TEST & will be attempting to answer them as time permits. So if you reported WSME, don't give up hope yet. Other recent mailbox action: v/l- KXOK- WMPO WDXN WENE KRIH WCOW WBCM WWHY KTTT WPAT WNPV WJER KSGM KGVUL. v/q- KSUB WJLS WHIO WBIR WPFB WSWV. Also v/l from CMCA-830 for country #32 verified. The new CHIR-CHYR have v/qs printed now w/info for both stations on it & a place to check off which ever station was reported. Meager DX from Sept. 9/3- WANB-1580 4:26pm. 9/4- WRPM-1530 w/ET, 2:50am. 9/8- KWOC-930 f/c 1:07 am. WWOD-1390 s/on @ 4:01. 9/11- New CJFS-1510 Sherbrooke FF w/AN mx (will their BS be AN, I wonder?) (Stop wondering, Jerry -ERC) WLEN-1590 ET 12:45am, WPNX-1460 w/AN ET first noted @ 12:50am. 9/12- WEMB-1420 ET/TT 12:39am. 73s.

Pvt. S. Simmons - US-51591904 - HQ Co. 1st Bn, 19th Inf. APO 09112, N.Y. N.Y.

This is my second Musing from German? - a truly beautiful & modern country. We went to Munich recently to sop suds in their big annual festival "Oktoberfest" & managed to lose the one stripe I had to my name. Munich has tri-lingual NX- in GG, FF & EE on 791k weekdays @ 5am EST. They ID as the Bavarian B.S. (Bayerischer Rundfunk). Cologne has EE 6:10-6:30pm EST o/Westdeutscher Rundfunk on 1538. Also R. Caroline International-1187 was still going strong as of 9/23, operates 6am-3am local time weekdays & NSP on Sunday. The only local here, AFN-1394, has mucho trouble w/ R. Tirana, Albania after dark. Where is AFN-1502? Heard here weakly u/Poland nights. Best wishes und 73s.

Ralph Vatalaro Jr. - 97 REAR Franklin Street - East Somerville, Mass. 02145

Greetings from the 1968 NRC Convention site. I'm a bit disappointed that the joint IRCA/NRC Convention didn't work out but we're gonna get enough DXers to make up for it. A lot of members think they can make it, why don't you think of attending? I'd like to meet as many DXers as possible. I'm sure Boston will be the largest DX Convention to date. No DX yet, last verie being WKYC w/its regular v/q. Welcome to the many new NRCers. Also welcome back to Rick Evans. Present antenna is my window screen. Longwire fell down & I'm too lazy to climb the phone pole, hi! I think any station like R. Caroline that is willing to take the consequences & penalties should be allowed to stay on the air. The EBC may be friendly to us but, boy are they wild at the pirates. We're trying to do something w/WRYT but we are unsuccessful. I will make a personal visit there this week. Anybody want any WMRX WBZ WRKO SCs? Just ask! Also take a few hundred French travel folders, hi. I'll again be concentrating on TA DX this Winter & maybe some LA & SA. My efforts will be aimed at beating Bill Raczko in veries & especially countries verified. Start saving your money for the big blast here next Summer. That's it from me so 73 & best of luck to the incoming DXers.

Ralph M. Johanns - 501 Ellicott Street - Apt. 2 - Buffalo, New York - 14203
 Phone call to WKBW-1520 a week ago confirmed NSP starting 10/2. A glossy v/q (IRCA '65 Convention WRIT-1340 for 9/18 3:20am f/c-TT included CM SC & program. After CE of WRRZ-880 wrote a verification for 8/22 on a half/CM I wrote to GM & got v/1, info & a full CM. 8/25- No WPUV-1580 TEST @ 2am EST noted, KCAP-1340 is for WC, not here. 9/18- WCOK r/c-mx & new WSLV-1520 ET/mx 2:15-2:37 s/off, Box 96, Ardmore, Tenn. 9/17, report to WISZ-1590, who announced AN. 9/16- Reported WDXR-1560 RS 12-1 am, Randy K has info. DX NG this week & I did other material necessary. ERC, I didn't know that Cooper-Trent gave you NO station ownership in their info, but believe it is an NRC Infok that should be added as soon as received. Len K's CP page is helpful, but later station info (as WSLV etc.) should get mentioned PDQ. I enjoyed a visit by Jerry Bond & Chris Maslen two weeks ago. 73.

John A. Callarman - Box 99 - Cambridge, Massachusetts - 02138
 Contrary to previous report, I kept my Convention slate clean, making it four in a row. It was a pleasure to meet a lot of new faces, & see some old friends. And I'll look forward to greeting many more in Boston '68. Some loggings: Sunday night 9/10 & MM 9/11, but I hesitate to call it DX. Routine logs on WJR-760 CKLW-800 & CBW-990, never reported from anywhere before, hi. On Sunday night then WSPD-1370 strong AN w/no sign of IRCA TEST from KAWL; CKPM-1440 holding forth on AN show; new CJRS-1510 Sherbrooke, Que. logged 2:18-2:41, w/announcements in FF after every other record, w/QRM from WINU, Highland, Ill w/TT to s/off 2:36 (said return 6:45); XEDM-1580 XEQR-1030 noted good. KIMN-950 very strong to 3:02 s/off, QRM'd by WPEI s/on, plus non-IDSing XBCer. Back to 1510 @ 3:07 to find different TTer w/CJRS, tone on steady till 3:25½ w/no ID - fco. Who has dreamy mx w/female announcer on 1060? KYW 3?30 s/on ruined it. Well, so much for my first MM of season. 73.

Paul Montefusco

Hi NRCers! DX CX have been great, & I have gotten a few new ones to report. New scores are: 24 states, four provinces, seven countries, 116 stations in all. Down to DX: WIP-610 WNHC-1340 WOAI-1200 (weakie) WIBX-950 WACE-730 WCFR-1480 CJCH-920 WGLI-1290 WGCH-1490 w/250w, WMTR-1250 WPTR-1540 WWL-870 KMOX-1120 CKCY-920 @ 11:06 from Sault Ste. Marie, Ont. w/2.5kw, WEAN-790 WGAR-1220 CMQ-640 @ 8:48pm from Havana, WFAS-1230. Here's one I found very interesting. When WEVD NYCs/off @ 4pm, WPOW NYC came on. When WPOW s/off @ 8pm, WEVD comes back on. Both stations have programmes in German. About QSLs from WNJK, well, you can forget them. This time I went directly to the CE & he does not want reports, & says they don't have the time or staff to verify these reports. He doesn't seem to have a nice attitude towards DXers either; he thinks the hobby is annoying. We got the same treatment, in other words, as Walt Breville mentioned as getting from KSD's STAFF IN THE *?L(ISSUE. QSLs: WCCO WMCA KYW & I am awaiting card QSL from TWR Bonaire & Circuito CMQ card. Is CMQ a good verifier? I hope so, I sent report out 1½ weeks ago. (Are you kidding? -ERC) I couldn't listen all weekend due to "Three Day Virus", but tried to make uO for it today. ERC, what's AN? (All-Nighter -ERC) Same puzzlement w/DUs, TA, SS, EE, FF. (DU- Down Under. TA - Trans-Atlantic. SS - Spanish. EE - English. FF - French.) I don't know whether I'll ever go back to SW, hi. Keep up the good work & 73s & best

Tom Hartloff - 179 Denew Avenue - Nyack, New York - 10960

Another attempt to Muse. Heard: 8/31- CBO-910 Ottawa @ 7:06pm w/same program on CBF. 9/6- WPLB-1310, Utica @ 6:05 after WRRC off, WBNF-1290 Binghamton @ 6:10, WTUX-1290 Wilmington s/off @ 6:15-SSB, WAVZ-1300 New Haven @ 6:16 w/WFBR, WRCH-910 New Britain @ 6:48. 9/17- WTAG-580 Worcester @ 10:28 w/NBC Monitor program on 13 minutes off sked, that is, at 10:30 TX was given as 17 after the hour. Not only that, but this was Sun. w/Sat. Monitor program. Also 9/17, WARM-590 Scranton @ 10:06pm. 9/17- VJRS-1510, Sherbrooke @ 11:08 for a while & permanently @ 11:34. KOMA-1520 Oklahoma City (new stare & first K of season) @ 11:19. 9/18- WDIC-1430 Clintwood, Va. @ 12:25 w/TT w/CKFH & WBSM there too. KXEL-1540 Waterloo @ 1:03am. 9/18- WLAC-1510 Nashville @ 11:08pm, WFEA-1370 Manchester @ 11:33, midnight, WCOK w/ID. 9/19- WLEE-1480 Richmond @ 12:23 & WRDW-1480 Augusta @ 12:20. 9/23- WHIS-1440, Bluefield, WVa @ 11:05. Verified: v/f- WFIF. v/q- WAKE WOOD. MW Ghide lists a WNJZ-1590 for Port Chester, NY, but I haven't heard them. Do they exist? (This was a CP which was never built, I believe it is officially deleted -ERC) WPCW broadcasts in both Czech & Slovak Tues & Wed 6-7EST, 305 E.40 St. NYC 10016. There's talk of Egypt getting a Pirate off its coast. Fly w/WOWO. 73 from Russ Edmunds' Phantom DXer. As they say on Grand Falls, Nfld.. "CBI" - "Congratulations Boston man!"

October 7, 1967

DX NEWS

14

Roger W. Winsor - 739 Juniper Drive - Valparaiso, Indiana - 46383

Hats off to JAC for the New Look on DX NEWS. Looks great! DX still has not really started rolling here, although I have been up several nights, but nothing new heard. As kt stands, here goes: 9/11- WLTH-1370 Ind. testing 12-12:15/w/mx. SS on 770 might have been HIBK AN for Hurricane, but was badly garbled. Was it they, as I need D.R.? CJRS-1510 on what sounded like ET all AM, IDs in FF. I hope just an ET & not RS! S-9 WJOB-1230 TT 12:45 & on. New catch in the form of KWAD-920 Minn. on late for Minn. Class-B BB logged from 1:10 to 1:30 s/pff w/KARK nulled. 9/12- WATW-1400 Wis. heard w/f-CTT 1:30-1:45 w/IDs every minute. That completers Wis. 1400s. WONE-980 noted off @ 2:00, but WITY on RS. I hope they aren't AN. 9/13- WACY r/c-DT heard faintly u/WENS w/str ady tone to 1:15, then faint ID. Reported. WONE off again. 9/23- WMIL-1290 logged RS 5:40-5:52 w/WNII nulled. Only WOKY to log to complete BEER city. WPMB-1500 heard @ 6pm s/off u/local WAKE for a report. 9/27- TT on 1280 heard at 12:11 unID. 9/28- DT on 1480 IDed @ 1:03, then off at 1:05, could be WJFC? Veries have been coming in well as follows: v/1- WKRO WOSH KSIM w/mention of r/c first Sat. 2:45-3 daylight time w/TT. Also KSCO WRAY WATW WBCH KWAD KLIC & WMIL for 569 total. Tidbit: While visiting WBCH in Hastings, Mich. while keeping Rick Evans's mind off the wedding 9/16, we were talking to a jock who used to work at WMRR in Marsahll, Mich. & he said they are now off the air permanently, so scratch that one off. Heard here once at s/off two years ago. Also, WROZ noted AN w/c/w mx now.

Bob Zwier - 383 West 17 Street - Holland, Michigan - 49423

Some DX has finally filtered through to this den in the past couple of weeks. Here is how it goes. 9/11- WIRC-630 heard @ 5:01am, WHEN-620 @ 5:15, CJRS-1510 all AM w/FF, & CKAC-730 also AN. 9/25- CMKV-600 @ 2am, CMCA-830 @ 2:05, CMHW-840 @ 2:10, WYND-1280 @ 2:37 w/ET/mx, WHUN-1150 w/f/c @ 3:42 (IDs every minute) & WCAY-620 @ 5am. Also one new berie from WRDW. Totals now are 637/193. Four reports sent out this week, so these totals should be rising this year. Now a couple of questions. Who was the SS on 660 on 9/25 w/mx & talking? They went off suddenly @ 2:57am. (Sounds like XERFM -ERC) Also what is the call for the 1480 Charlotte station? VJ has it as WAD, but it was listed in the last DX NEWS as WWOK. (I think they are to change to WAAD, but haven't done so yet -ERC) Also another correction for the VJ - WXTW is no longer operating on 1150, but on 1000. Tjat about does it for this time, 73 & DX.

Len Kruse - 1675 Glen Oak Street - Dubuque, Iowa - 52001

The latest loggings at this DX Den included these: 9/17- Station KPQR-1530 Bowling Green, Mo. logged on RS, about even w/WCKY's signal, for the first time to log this ten-month-old station. It was on 9/18 that Station WCMF changed its call letters to WILY-1210 1,000d, in Centralia, Ill. & copied them on their first day of the use of the new calls, during their RS from 6:30-6:45pm, w/slight trace of WEAU's signal. On SM 9/24 the 5,000 watt KVII-1010 in Amarillo, Tex. topping th4 frequency at this den from 6:30-6:45am; it was last January that KBUY changed to these calls, & this was the first time I heard KVII. Late Sunday afternoon 9/24 I logged a 5-watt carrier-current radio station serving the campus of the University of Dubuque, which is approximately one air-mile distant from my den. The calls of WGVU-790 stands for "The Wonderful Golden Voice of the University." A prompt v/1 w/a very nice letterheard, & one would think it was a regular commercial station. The letter began "It is seldom that a pure;y campus radio station gets mail from someone outside our domain, but it was nice to hear from you." Other recent verifications came from two Canadian stations, a nice v/1 from CHSC, St. Catherines, Ont. & a mimeo postal from CHIR in Leamington, Ont. The AN station situation is getting more congested than ever, if that is possible. Several of the latest 24-hour-a-day stations are: KXLR-1150 North Little Rock, Ark, w/c/w mx; WDUZ-1400 Green Bay, Wis., & WTAQ-1300 LaGrange, Ill w. "Night Time" in which Dolly Holliday plays $\frac{1}{2}$ cp mx till 5am daily.

Walter Fair Jr. - 12022 Palmy - Houston, Texas - 77034

I haven't had much time for DX, since school started, so not much to say in this Muse but I did get a type of v/c from WHIO-1290. They made it in here fine for about six minutes on 9/11, so I sent them a report. I received the card on 9/29. I hope everybody is doing more DX than I am, because without DX there would be no NRC, & that would reallu be a catastrophe! 73s for now, & remember, HOUSTON in '68! (Walter, it's BOSTON in '68 - better hold out for '69, hi -ERC)

CONGRATULATIONS!

To RICK EVANS, who was married on Saturday, September 16th, & our sincere best wishes

Marc DeLorenzo - 35 Sylvan Drive - Hyannis, Massachusetts - 02601

Veries in from WJBO & WBNB-1000. Now to DX: MM 9/4- WROK-1440 u/CKPM @ midnight; WFTC-960 strong on r/c-TT 12:05-12:15; CMHW-840 AN; WARK-1490 Md. dominant @ 2:14; KIMN-950 weak through heavy static 2:32; WDIX-1150 s/on-SSB @ 3:57; WJCW-910 s/on, then SSB @ 4:33. 9/5- WBNB-1000 all alone 6:26-6:41pm; WGNV-1220 6:12-6:15 s/off. 9/10- WJBO-1150 11:43-11:48pm. WIOD-1560 weak u/WQXR @ 6:31pm, only the second station ever heard u/WQXR! 9/27- WOWW-860 s/off 6pm; WGHQ-920 6pm s/off, WGT0-540 Fla. S-3 w/sports 6:12. I'll close w/my 800th logging, HLJP-1020 weak 6:57pm. 73.

Philip L. Sullivan - 152 Third Street - Leominster, Massachusetts
 meetings everybody. I am still alive, kicking & DXing. Sorry I couldn't make it to Orygun for the Convention, but I'm glad to see it coming this way next year. I came across an interesting fact the other day: Seems there were experiments conducted during the past year to try to develop an emergency communications system (supposedly for natural disasters) using BCB stations & frequency shift keying their carriers by about 20 cycles, such as is now being done on some VOA SW stations. Experiments were carried out on WGY-810 & possibly other stations. For the trivia section of your scrapbook. CX have been very favorable for LA & Caribbean stations lately - very good signals from Barbados, Jamaica, Nicaragua, Haiti, etc. Details in IDXD. I may have use of a phase-locked receiver system (a modified SP-600, coupled in a phase-locking loop w/a frequency counter) later on & w/it I will be able to get exact frequencies of many BCB stations. Good DX everyone, & BOSTON (Home of the RED SOX) '68.

Chris Lucas - Box 411 - RPI - E Dorms - Troy, New York - 12181

Hi. Locally, WIAZ-1330 is now owned by WPCW, Inc. & is run as a religious station, daytime only. During s/off they mention WPOW Inc. & since WPCW is also 1330 this may cause some problems in IDing WHAZ. Also 1600 is still vacant, no sign of WCWE, & I don't think there ever will be. Reception in this dorm is noisy, but I have attached an antenna to a long fence outside & some good signals can be received when the guy in the next room has his TV off. No real serious DXing yet, but new loggings so far: 9/24- WADR-1480 11am. 9/25-MM- WLOB-1310 Portland, Me. @ 2:49am, WTID-1270 Va. @ 3:14 am. 9/26- WKOP-1360 6:45pm. Last previous logging was at end of Freshman year, May 23, 1966. Total heard here now 456. I now live very close to WHAZ (a few hundred feet) & they make daylight DX just about impossible between 1200-1460k. w/some splatter being heard throughout most of the dial, & between 1300-WEEE & 1370 WBIN nothing is audible except WHAZ, & even these two stations receive objectionable QRM%. Veries for Connecticut reception: WLEA-1480 v/1 & CM, WSKI-1240 v/q, WLKW-990 v/f. DX MM 10/2- KDDA-1560 TEST @ 2:11; WEEZ-1590 Pa. @ 2 18, WPNX-1460 ET @ 2:35, WPET-950 NC s/on 2:58, & WINZ-940 Fla. @ 3am w/CBM oiff. All are unnn at home in Conn., but are new loggings in Troy. 73.

AS THEY SAY IN WORCESTER, MASS., "WNEB." "WE'RE NEW ENGLAND-BOUND." Next Labor Day!

DX NEWS

16

Stewart Drake - 2108 South Simpson Street - Philadelphia, Pennsylvania - 19142
September turned out to be a very good month w/several new catches added. 9/2- UnID
DT tester on 1460 @ 12:04. 9/3- UnID f/con 1240 12:10-12:15. 9/4- UnID f/c on 1060
12:06-12:10. These are all AM, EST. At 11:35pm WTCS-1490 WVa. w/Indians BB so I
lobbed in on 1400 & got a possible WMAN Ohio carrying same game. On 9/5 a much-wanted
WKYR-1270 RS @ 7:25pm. WTID, Va. knocks them out in the mornings. 9/6- WKOL-1570 NY
RS for last four minutes of program day. 9/7- WJLK-1310 f/cing @ 11:05pm & cutting
my needed NJs down to two. On 9/8 I have a mystery as I heard a FB game on 1240 w/
one of the teams being Allegheny College. A fellow worker's two sons are AC Grads,
& they say AC doesn't play pre-season games & season opener is 9/30. AC is in Mead-
ville, Pa. Any help here would be appreciated. 9/9- A relog for QSL try on WRCH-910
@ 3:22am, & citto on WLLH-1400 @ 4:18. 9/11 saw CJRS-1510 Que. booming in here I&C
on ET @ 2:55am. 9/12, a real surprise w/CFJR-1450 Ont. ~~xxxxxxx~~ u/WILM w/Roughriders/
Stampeders FB @ 10:28pm (250w.) 9/17- A relog of WKAL-1450 for QSL try, s/off 10:15
pm. 9/18- WGOC-1090 in the clear testing new facility @ 12:20. CE says he got a
load of reports from all over. Then WCOK-1060 w/last couple minutes of test @ 12:58
am. Down to KERFM-660 w/US pop tunes @ 1:10. 9/20- WFCM-1550 NCs/off @ 6:30pm.
9/24- YNSC-700 Nicaragua in the clear @ 1:15pm w/US pop tunes. 9/25- a TT on 1500
unk. from 12:16-12:30 ?? 9/25- An unID trster on 1260 w/c/w mx & TT 1:12-1:15.
9/26- WFSP-1560 s/off @ 6:29pm. 9/29- WTOW-1570 NX & WX @ 5pm. Veries in are WAAO
1530, CHIR-730, WTCS-1490, WJLK-1310, WKOL-1570, WJRZ-970, WHAZ-1330, WLLH-1400, WKYR
-1270, WGOC-1090 WKAL-1450 CFJR-1450 WFCM-1550. Totals are 2,349/2,219. The band
seems to be opening up pretty well & I hope all the gang has a very good season. 73.

Lon J. Berjan - 1511 Dieman Lane - East Meadow, New York - 11554

Greetings DXers. I have started my soph year at the State U. of NY & it looks like
it's going to limit my DX somewhat. Nevertheless, here's what's happened in the past
three weeks. 9/8- WLLH-1400 Mass. midnight s/off, Wbfd-1310 Pa. 6:30pm s/off. 9/9-
WKWK-1400 WVa. 12:01am. SM 9/10- WEST-1400 Pa. midnight, CJOY-1460 Ont. 12:17, WWSL-
1400 NY 12:42, WKOL-1570 NY 6:15pm s/off. MM 9/11- CBW-990 Man. midnight. WFLB-1490
NC TT w/ID 12:20, CBR-1010 Alta. 1:45 u/CFRB, WCHB-1440 Mich. s/on 2:45. 9/12- WIQT-
1000 NY 6:15pm s/off, WZOK-1320 Fla. 8:04 w/White Sox BB. Two unk BB stations were
heard also- one on 920 w/Pirates BB, the other on 1360 w/Indians BB. KOMA was noted
@ 7:45pm u/WKBW but very clear. First time I ever heard them at such an hour. 9/13-
CFJR-1450 Ont. 11pm. 9/14- WHBC-1480 O. 12:30am, CKEC-1320 NS 11:07pm s/off. 9/15-
WGOH-1370 Ky. 6:30pm. 9/16- WESR-1330 noted before midnight & on through the AM on
emergency storm programming clobbering WIEVD. Also on special broadcasts were WICO-
1320 WETT-1590 & WBOC-960. Later that day WTCR-1420 Ky. 6:45pm s/off. Just before
this, an unk-1410 was noted s/off, announcing 6am s/on. It played America the Bdauf-
tiful. 9/17- CFOX-1470 Que. noted AN rr. That's a loss for the c/w side. We also
lost WFLF, but have gained WRCP. Adding up the watts, that gives c/w a gain of
35,000 daytime watts. We're still winning! MM 9/18- WGOC-1290 Kingsport, Tenn., a
brand new spanking station (c/w!) was on w/ET from 12:30-3:30; WKBV-1490 Ind. s/off 1
am; WSLV-1520 Ardmore, Tenn., another nrw one was noted on ETY after KOMA's 2am s/off.
And, yet another c/w! KARK-920, Ark. HI 3:12; WJCH-920 NS rr 3:18; WOKY-920 Wis.. al-
so heard briefly. Wild scene on 620k. Of course, WSUN was AN. At 3:56, WDNC s/on;
At 3:58 WATE s/on. Then at 4, WWRN s/on. Both WDNC & WWRN were logged for reports.
WATE unkn. Both WDNC & WWRN were logged for reports. WHIL-1430 Mass. 4:30 s/on.
9/22- WTAB-1370 NC 6:30pm s/off. 9/30- WSRO-1470 Mass. 6pm s/off, WMPM-1270 NC @
6:04-6:15 s/off; WHLN-1410 6:44 s/off. This was the unk referred to previously. Ver-
ies: v/l- WQVA-1530 WSSB-1490 WJCO-1310 WCCC-1290 CJOY-1460 WICO-1320 WTON-1240 WGH-

Kenneth Chatterton - RFD 2 - Mannsville, New York - 13661

DX in northern NY much improved of late. I met recently w/Jerry Bond of Watertown &
we visited WWNY-790 & WATN-1240. Recent loggings: 7/22- WWRL-1600 @ 10:15; WBRY-1590
@ 10:40, CKLB-1350 @ 11pm. 7/24- WTYM-1600 @ 5:30, WFLF-1500 @ 5:50. 8/20- WIRD-920
4:45, WDOT-1400 5:15, WNBZ-1240 6pm. 9/4- WISM-1480 @ 9. All EST, PM. QSLs since
last Muse are v/l- CKLC WWRL WRUN CKLB WDOT WNBZ WBBF. v/q- WBRY WAKR. v/f- CM- WFLF.
I plan to speak to the owner of WATN-1240 about the possibility of a TEST. He is in-
terested in DXing & answers all good reports. Until next time, 73 to all.

Bill Raczek - 3015 East Lincolnshire Boulevard - Toledo, Ohio - 43606

Time for another Musing. Well, the 9/16 DX NEWS finally came, on 9/29! It's great to have another DXer in Toledo now, namely Tom Little. Welcome back, Tom! DX! WPNX -1460 9/11 @ 1:56am, w/an ET/mx, WRDW-1480 @ 2:54am seemed AN. An unID @ 1:32 IDing as WRFJ, or something like that, & called itself "15 Radio" (frequency was 1490) w/ "Nightwatch" program. Any help much appreciated. 9/12- WEND-1580 @ 6:30pm s/off. 9/18- WSLV-1520 ET/mx 2:08am, offering \$10 for farthest card or letter. WBCB-1490 @ 2:33am. 9/19- WTIG-990 @ 4:47pm. 9/26- WGRT-950 ex-WAAF "Great Radio" @ 7pm. 9/28- KXJK-950 @ 5:56am, HJAC-1135 @ 8:30am. 9/29- WESY-1580 s/off @ 7:13pm. Veries: v/1- WPNX. v/q- XEMO (11½ months). BOSTON in '68, HOUSTON in '69, and TOLEDO in '70! Thanks to Tim Davisson for the visit a few weeks back. I was very pleased to see that there will be another Cincy get-together next June. Count me in, Jerry C.! 73.

Roy H. Millar - Box 851 - Everett, Washington - 98201

Into another DX campaign we head. New loggings since 9/1: 9/10- KZEL-1540 Eugene, Ore. ID 8:54pm. 9/17- KPUR-1440 Amarillo, Tex. ID 6:01am. 9/19- KWSR-810 Rifle, Colo. s/on 7am. That's it - boy, what discouraging CX have been evident on the BCB; both a lack of signals from any distance, & re-occurring local noise plaguing me. Lone verie in since last report is from XEVIP-1560. Above address change reflects only a mailing convenience as I'm now working in Everett. I am almost to the point of considering a move because of noise CX; seems like the local power company (a P.U.D.) couldn't be LESS helpful if they tried! I talked to regional FCC engineer in Seattle, but w/only two men to cover the NW his hands are rather tied as to being of any help. I've wasted enough space, so 73:

Ken Bissinger - Box 5 - Scales Hall - SUC - Oswego, New York - 13126

Notice the new address in the North Country. I'm starting my Freshman year here & DX will suffer in favor of studies. If anyone is interested, I have a limited supply of WRRC & WJRZ SCs for anyone sending an SASE. As they say in Marion, Va., WOLD - Where's Orono's Lost DXer? Well, that's it until next time. 73.

Ernest R. Cooper - 438 East 21 Street - Brooklyn, New York - 11226

V/c in from HISS-620, v/l's from WGOC-1090 & WYND-1280, & v/q, WJAZ-960. DXing for the past three weeks, only MMs & twilight time. YNS-750 is completely in the clear on MMs (until DST ends, that is) from WSB's s/off around 12:05 to lam s/off of YNX. MM 9/18- Two new ones in WGOC-1090 & WSLV-1520 on ETs, both w/c/w mx. Odd combo of call letters on 1520, w/WSLV, WSVL, & WSLT! WCCO-830 was off on a suggestion I made to them when writing them with some ideas in their battle against fulltime 50kw. for WNYC-830. They may be off the MM nearest each equinox, to afford DXers the chance to hear LP-8 and other deep SAs on 830. This time, only a sort-of hetrodyne of about 200 cycles heard there. MM 9/25- WCCO-830 was off again, & the same odd low tone heard, but w/readable signal AN from LP-8, R. Rosario, um, hi! An unID SS on 1020 around 1:20, but soon faded out. XEQR-1030 very strong today, AN. Then, a break, as I happened to hear EE u/CJMS-1280, & it turned out to be WYND in Sarasota, so a report off & verie in in five days, w/SC. First one to ask for it on our annual Brooklyn get-together gets it! WYND is a 500w daytime Top-40 station. MM 10/2- These regular ANs seemed to be off: WHIN-1050 WOKO-1460 QTRY-980 WBAX-1240, but WNOR-1230 was on w/rr; and the worst news we in the East have had for years in WKBW-1520 now on NSP rr sked- don't tell me there's a teenie-bopper audience at 3 a.m.! The cl mx SS on 1060 is only a Castro-Oiler. CBM-940 was also off, & unnn WINZ in S-8 here w/pop 2-2:30 & on. KDDA-1560 TEST in very well, but um. Oh yes - WPAT was also off until around 3am - would that this would happen more often - WPAT & WHN! And they could take WWRL w/them. I'm interested in Jeff's new secret loop - the "little one", & I hope he makes the plans available soon. Anyone know the whereabouts of the XR of WGSM-740? I spent o/an hour looking around Huntington for it, to no avail, and noone knew that I asked, either. The cop on the corner never even heard of GSM, hi! And he was standing only one block from their studio! Popular station! C U N 14.

V/S LIST

We have had remarkable cooperation from you on sending in the v/s of your lateveries. Please don't send out-dated ones in - we got one listing John Callarman, our publisher in Cambridge, Mass., as v/s for KIXZ-940! He's been at WCAS for about ten months now, & he came there from KPDM-1340 in Pampa, Texas, and before that, he was w/KILT-610 in Houston! We have lots on hand, but keep them coming - they'll all appear!

NEXT ISSUE OCTOBER 21

And, then - WEEKLY again through the Winter! Let's hope that the support you have given these Summer issues will carry over into the weekly sked. All Musings are associated - deadline is every Tuesday, with the deadline for the 10/21 issue 10/17.

BIG NEW YEAR'S EVE PLANNED IN NEBRASKA!

A telephone call was received on 10/2 from Ernie Wesolowski, who wishes to get the ball rolling early on his plans for a three-day DXers' get-together over New Year's Weekend, December 30 & 31, & January 1. Part of the plans for this big wing-ding is attendance at the world-famous Grand Ole Opry Show, which will be in Omaha that night (Dec. 31, New Year's Eve). Make your plans now, and help Ernie to make his, by letting him know if you're coming! 1416 Pasadena Avenue, Omaha, Nebraska - 68107!

MUSINGS

Some of us are forgetting a few things - may we review here?

- 1 - Place your name and full address atop your Musing.
- 2 - Double-space your report, whether you hand-write or type it - that is, skip a line between lines - it makes it so much easier to type your words onto stencils!
- 3 - Give Call letters & frequency of all stations mentioned.
- 4 - When reporting f/cs heard, give either start & finish of said f/c, or tune-in & tune-out time, rather than just "heard @ 2:15@ for then we don't know if it began or finished at 2:15! It not only helps others to tune for it next month, but also helps in the preparation of the next NRC f/c list.
- 5 - Use only EST, and a.m. and p.m. When you use other times, or the 24-hour system, you merely add more work to your editor's task; for they will be printed in conversational form - a.m. and p.m., and all EST - please! No EDT, or GMT!
- 6 - Leave out all personal asides to one or two members - and also leave out all DX items on any band other than BCB, unless it pertains to BCB station harmonics.
- 7 - Send along your v/s - on a separate sheet of paper, please, as it is filed separately - with your RECENT v/s only. Use our standard abbreviations.

DX conditions have been highly variable the last few weeks, to put it mildly. Here in the Northeast, we've noticed conditions running the gamut from first-class TA conditions (on 9/19, Dakar-764 readable fully 2 hours and 9 minutes before our local sunset) to "typical auroral conditions" (on 9/28, TA's very weak - IA's very strong, often dominating the domestics). Tom Holmes, Massachusetts, also observed the onset of "auroral conditions" about 9/20, and inquires with quaking voice, "Don't tell me the TA season is over this year already?!" Jerry Conrad, Kentucky, notes "good auroral openings to the south and west, but no TA's so far this season - not even Dakar." International DX'er of the Year, Mike Silvera, Jamaica, notes "a general improvement in conditions." In the West, Mike Northam, Orygun, says "Conditions in general seem quite good. The last two MMs have had very little noise for this time of year." Don Reynolds, California, reports excellent conditions, "This morning, 10/1 was excellent for Asiatics with Communist China and North Korea all over the dial with several new ones logged. The Burmese and Taiwan receptions (see Monitor Reports) have me all 'hepped up' for the season, hi." Although the TA season has fairly just begun, several members have already commented on the fact that the stns in Eastern Europe and the Near East usually heard by now are just not there this year. We've noticed this also - not even such regulars as Egypt-773 & 818, and Beirut-836 have not yet been heard this season, even on nights when reception from more westerly TA's was exceptionally good. While this may well be related to the current elevated sunspot numbers, the exact mechanisms involved are by no means clear. Much more information is needed about longterm reception patterns for the TA stations, and we urge our members to contribute their subjective appraisals of longhaul DX conditions from time-to-time. And remember that information about stations not presently being heard (but which were in the past) can be just as informative. Given sufficient information about such reception patterns, it may well prove possible to determine at least some of the physical and geophysical factors responsible for these patterns. Only then can meaningful work on actual prediction of reception begin.

On Reciprocal Paths. Most information coming from overseas still concerns loggings made during Northern hemisphere summer, but first information in from New Zealand indicates pretty good reception from North America in September. NZDXRA reports many N.A. loggings, including: WBZ-1030 excellent @ 0230 on 8/20; WOAI-1200 very good at 0638 on 8/19; KGER-1390 good @ 0353 on 9/9; KGEN-1450 very good 0135 on 8/20; WLAC-1510 excellent 0230; and WKWF-1600 good 0145. Better summer receptions of N.A. stations in Europe according to Benelux: CBH-860 @ 2215 on 8/7; CHER-950 @ 2055 on 8/7; WLOB-1310 @ 2157 on 7/7; and CKEC-1320 at 2130 on 7/7.

According to press reports, there are some very high-powered MW stations now under construction in the Near and Middle East. For Example, the Iranian Radio is building a 2000 kw transmitter at a place called Qazvin. Unconfirmed press reports also state that in Lebanon, a MW stn of 3000 kw is under construction, while, in the UAR, a MW transmitter of even 5000 kw will soon be under construction. (RNYWWDXC)

That American pirate, Radio Free America, should begin operating in just a few weeks and will be based on a ship off the coast of Catalina Island. The transmitter will be of 100 or 125 kw. (Bruce Henderson, Calif., via RNYWWDXC) Unconfirmed! (Ed)

Saudi Arabia. Riyadh on 647 w/an Arabic program seems to give very good reception from 1400-1600. It must be the new 1200 kw xmitter. (Benelux) Watch this one! (Ed)

A correspondent living near Canton, China, reports that there are hundreds of clandestine stations in China broadcasting anti-Mao propaganda. Also Radio Canton was captured by the anti-maoists, but it was taken back by the Red Guard. In the Canton area, there are 10 clandestine stations operating on about 799, 898, 1180, 1220, 1440, 1480, 1493, 1510, 1525, and 1580 kcs. (SCDX) Note that one on 1525. (Ed) September 30 was an historic day in the development of the "new BBC"; all of their radio services have been renamed: Radio 1 (the new pop service on 1214); Radio 2 (the Light Programme); Radio 3 (the new name for the former light program); and Radio 4 (the former Home Service of the BBC London). (RNYWWDXC) Real imaginative names, those... (Ed)

* * * * *

LOGGING CONTESTS

The Worldwide Monitors Radio Club and the Canadian International DX Club are proud to jointly announce the Worldwide DX Competitions for the 1967-1968 DX season. A unique concept, the WDXC is a series of contests geared to the interests of all types of radio and TV enthusiasts (only MW contests listed here). The schedule:

November 6-12, 1967	Medium Wave (535-1099 kcs)
February 5-11, 1968	Medium Wave (split channels only)
April 1- 7, 1968	Medium Wave (1100-1605 kcs)

All contest entries must be sent to contest central and postmarked no later than one week after closing date. Each entry should be accompanied by three 5¢ postage stamps for handling and mailing. **Contests are open to anyone ... regardless of club affiliation.** All entrants should, however, list club affiliation on their entry, merely for interest... it will have no effect on the outcome. **In addition to the logs, the entrant should list all equipment used and especially the number of tubes of his receiver. Certificates of recognition will be sent to the first, second, and third prize winners... the first prize winner will also receive a suitable prize.** There will also be periodic bonuses to all entrants. **The contest periods will begin at 0000 local time and end at 2400 local time (e.g., the first contest will begin at 0000 November 6, and end at 2400 November 12)**

RECEIVER HANDICAP

Your receiver is given a handicap according to the number of tubes as follows:

4 or less tubes: 2	9 through 12 tubes: 1.1
5 through 8 tubes: 1.5	13 and up: 1.0

(We note that the otherwise very well planned WDXC neglects to consider the DX'er with a transistor receiver - we're sure that the contest managers will rectify this problem soon. We suggest that a one-to-one correspondence between tubes and transistors for MW receivers would not be unrealistic. Admiral Nelson) **The RAW score will then be multiplied by the receiver handicap figure.**

MW SCORING.

The WDXC has developed a new and more fair way to score ... a power times distance basis. To figure out the distance multiplier, find the distance from your shack to the station and round off to the nearest 100, then divide by 100. **Power multipliers are: 50 kw or greater - 1 point; 10 kw - 2 points; 5 kw - 3 points; 1 kw - 5 points; 500 watts - 8 points; 250 watts - 10 points; 100 watts or less - 15 points.** To figure out your RAW score (which will then be multiplied by your receiver handicap),

October 7, 1967.

multiply the two together as follows:

KFAB-1110	Omaha, Neb.	1500 miles;	50 kw	15x1	15 points
KOIL-1290	Omaha, Neb.	1500 miles;	5 kw	15x3	45 points
ZEM1-1235	Bermuda	2000 miles;	1 kw	20x5	100 points

Add all your loggings together (in this case would equal 160 points) and you have your RAW score.

ALL MAIL FOR THIS CONTEST SHOULD BE SENT TO: **Worldwide DX Competitions, 4834 Old York Road, Philadelphia, Pa. 19141.**

* * * * *

RULES FOR 1967-1968 NATIONAL RADIO CLUB FOREIGN DX CONTEST

Manager: Ben Dangerfield, 202 Governor's Dr., - Chester, Pa. 19013

Open: to all members in the NRC in good standing.

Entrance Fee: \$.25 (one quarter) in coin or stamps.

Prizes: Overall high scorer will win a beautifully engraved plaque; other prizes will be announced later. Many join just for the fun of it.

Dates: for loggings and reports: 10-1-67 through 6-30-68.

for verifications: deadline is 7-31-68 (for receipt of verifications)

Scoring: 10 points for each continent*

points for each country (per latest NRC official country list)

1 point for each 1000 miles to station, or fraction thereof

10 points for QSL'ing 5 continents*

15 points for QSL'ing 6 continents* (50 points for all 7 - good luck)

20 points for a country bordering on the Indian Ocean (re Australia: only West Australia counts for this bonus)

*Continents: for contest purposes only: the 7 listed below: North America (foreign); South America; Europe; Africa and Near East Asia (count as only one); Far East Asia; Oceania; Antarctica.

Proof of Reception: all stns must be verified, and all veries must be bonafide. This means that not only must the verie indicate intent on the stn's part to confirm reception (as judged on the basis of other QSL's recently received from the stn in question), but the contestant must be able to supply convincing proof of reception. All members should be prepared to submit carbon copies of reports and/or actual veries (or copies) to the Contest Manager if requested. In some cases, tapes will be acceptable.

Entries from Previous Contests: can be entered again. This contest starts from scratch, but it's usually better to try new stations to avoid placing unreasonable demands on certain stns.

Singleton-Eliminator Contest: NRC members (only) may of course submit veries to each or both contests if applicable - the contests are independent and exclusive.

Distance Rules: All stations outside the continental U.S.A. and Canada are open, with certain exceptions: for example, a person living in Hawaii cannot count stations in Hawaii, etc. HOWEVER, PLEASE NOTE THE FOLLOWING SPECIAL RULES: (1) Contestants on continental U.S. and Canada and the Caribbean areas can count U.S. and Canadian stns over 3000 miles. (2) Contestants in Hawaii can count U.S. and Canadian stns over 5000 miles. (3) Alaska, Hawaii, and Yukon will count as valid countries for non-residents.

Divisions: will be set up later, probably (1) for the East Coast, which will include Hawaii and the Caribbean, and (2) for all other areas, including Central and West Coast. The object is to equalize by possible total points and not just by areas.

Entries: please submit date logged, date QSL received, name-location-frequency of station, and your point count. Do it once a month, at the end of the month. Final decisions are the responsibility of the Contest Manager and the IDXD Editor. Address all communications to Contest Manager. (Ben Dangerfield)

In a recent IDXD, we quoted, verbatim and without comment, an item from Don Jensen's NASWA section about the BEC's relay station in Botswana (602 and 926 kcs). C. M. Stanbury, Editor of Electronics Illustrated's "The Listener" section, seemingly in search of a new "controversy" now that the major part of the DX Community accepts that Radio Americas is indeed on Swan Island, submits the following item via registered mail:

"REGARDING THE VOICE OF AMERICA AND RHODESIA

In the IX/16/67 issue of the NRC's DX NEWS (IDXD section edited by Gordon Nelson) under the heading 'BOTSWANA' and referring to the BEC station, appears the following statement: 'the station was built at a cost of 1.4 million dollars, a fact that by implication seems to refute claims that the relay station uses one of the VOA transmitters on loan' (direct quote from NASWA's FRENEX - A.N.). This statement is credited to NASWA's Don Jensen. In response to it, I submit the following;

1. I hereby (sic) state unequivocally that the BEC's Botswana station was put on the air with the use of American equipment (transmitter or transmitters). This statement is based upon an unimpeachable government source which I am not at liberty to reveal. Let us just say that secret agent T.X.Thrush told us out behing (sic) the U.S.Pavilion at Expo 67.
2. I do not know for a fact the exact nature of this equipment but, based on the other evidence, I presume it includes the VOA's portable 50 KW BCB unit. I do not know what significance, if any, that 1.4 million dollar figure has. Possibly the portable unit has now been replaced with permanent gear although I doubt it.
3. If anyone challenges point 1, I hereby (sic) invite them to write the VOA and ask for themselves. Of course while writing they will also want to ask (A) exactly when the portable unit was secretly removed from Marathon, (B) why was it removed secretly, and (C) why Washington is keeping its part in the Botswana operation secret?

C.H.Stanbury II"

All we can say, Stan, is that we hope you've checked the statements of "T.X.Thrush" more carefully than you checked your spelling, hi. (Admiral Nelson)

* * * * *

Quotation without Comment: from Hank Bennett's SW section in the October, 1967 issue of the Newark News Radio Club bulletin:

"Re Stanbury's comments in the October-November Radio-TV Experimenter on WNYW's fire to be somewhat odd and that they are using a 'secret' transmitter... a lot of hot air!

"I have a source I'd like to keep to myself for the moment that WNYW just didn't feel like telling Stanbury what they were using... hence his assumption that everything was a CIA hush-hush job. WNYW took leases on point-to-point transmitters from RCA in Riverhead, N. Y. and from I. T. & T. in Brentwood, N. Y., with FCC authorization. WNYW did acquire 3 Gates and 1 Continental transmitters, and then cancelled the RCA and ITT&T Leases.

"Somebody ought to clue Stanbury in that he ought not to put his foot in his mouth. This (censored by Hank Bennett) thing about Swan that he hops on all the time, and then got started on the Navassa Island bit all over again is a pain. He's going to ruin the DX hobby to the point no one can trust anyone regarding information." (name of letter-writer withheld by Hank Bennett).

Continues Hank Bennett, "This letter is typical of comments that we've been receiving with increasing frequency in recent months. Many DX'ers, in NNRC and in other clubs - including his own - have been asking me to try to throttle him. This I have deliberately avoided doing for it is no concern of mine or of NNRC's to meddle in the internal affairs of any other club. However, the last line in the above-quoted letter in (sic) exactly the way that many other DX'ers feel.

"This writer has wondered for many months just how it was that ASWLC (American SW Listeners Club - A.N.) managed to let him continue in his capacity as editor for them. We've wondered if the Officials of that otherwise fine club were reluctant - or afraid - to relieve him of his duties. Certainly, no responsible group would find it desirable to have a person of his calibre associated with them.

"We have personally felt over a period of several months that perhaps - just perhaps, C. M. Stanbury would come to his senses and see just what he was doing to the DX'ing hobby as a whole. We have hoped - vainly, I guess - that he would cool it and become the really fine Editor that we know he is capable of becoming.

"As I've already said, it is not our duty to meddle in another club's affairs - unless it is an affair that threatens to undermine DX'ing in general. And this is exactly what we believe Stanbury is doing.

"Stan, as one Editor to another, we'd hate to lose you. But by golly, fella, you have got to do one of two things and you'd best make up your mind what it's going to be - and soon! (1) Change your ways; cool it; wise up; check your ravings before you have them published. (2) Get out of the hobby. It's your choice! We've had our fill!"

* * * * *

Dave Thomas vs Electronics Illustrated/ C. M. Stanbury suit goes to jury. We're sure that many members remember the amusing feature article that C. M. Stanbury wrote about ex-NRC member David Thomas ("The Strange Case of Radio WUMS") in the May, 1963 issue of Electronics Illustrated, the one in which Stanbury accused Thomas of having published a book "notable for its misspelled words, (and) its obscure currents of thought."

Thomas has chosen not to take this lying down, according to our reporter in New York City, and has instituted a suit for \$250,000 damages, plus punitive damages, for alleged character damage resulting from Stanbury's article. Assigned court docket No. 11416/1964, the suit (David F. Thomas vs. Fawcett Publications), will come to trial before a jury of 6 sometime in the future in New York Supreme Court at Foley Square, not far from New York City Hall. The attorney for the Plaintiff will reportedly be Julien and Glaser, of New York City; Attorney for the Defendant will be DeWitt, Nast and Diskin, also of N.Y.C. This, as far as we know, is the first major civil suit arising out of the DX hobby, and the first time that arcane and intangible thing, the individual DX'ers reputation, has come to the attention of the courts. The outcome of this case may well indeed set a precedent of major concern for all DX'ers - especially those concerned with authoring and publishing information of interest to the DX Community. Our reporter in New York promises to keep us informed about any new developments in this case.

* * * * *

"An Israelian business man and former pilot, 40 year old Mr. Abie Nathan, is going to start broadcasts from an old German gunboat 'Schalom' off the Israeli coast, which will be outfitted in Pireus, Greece. Peace messages will be broadcast to the peoples in the Near East." (A German reporter in SCDX) Sounds like another fake. One of the most rarely heard TA's in North America, Radio Sahara, in Spanish Sahara, formerly operating with a poorly constructed 2 kw transmitter on about 650, should now be an easy catch according to SCDX and the Arctic Radio Club, which report that the station is now operating on 656 with 50 kw. Reportedly the station went on July 18th. Note Mike Bugaj's comment about a new RNE stn on this channel in 8/17 IDX. Same station, or...?

Mike Silvera contributes the following corrections to the RFS Cuban List (IDX 8/17):

- 950 CMDL Cadena CMKC, Guantanamo is here, not on 940.
- 1030 CMDW CMQ, Guantanamo is not on the air and has never been hrd here.
- 1550 CMDV Santiago off the air for over 18 months.

With regards to the following, it is just a matter of speculation as to which is where:

- 800 In late June a relay of Cadena CMKC was hrd on this freq; as it is a Provincial network (Oriente prov.) it seemed reasonable to assume that this was CMKL Santiago ex Reloj Nacional.
- 850 On June 7th the main station of the Cadena CMKC was noted off the air and a much stronger signal was hrd on 800. Although both CMKL and CMKC are listed for 2 kw, the latter seemed to be at least 5 kw stronger. On July 24th a weaker "Cadena CMKC" was hrd on 850. The conclusion reached here was that CMKC was on 800 and CMKL was on 850. However, since 8-2 the outlet formerly on 800 has been hrd on 840; this is believed to be a xmtr malfunction since stns in the same town will not be expected to remain 10 kcs apart. -30-

MONITOR REPORTS . . .

The editor calls your attention to a testing KIKI on 830, and to a stateside logging of Burma-955 and Taiwan-1560:

- 550 Hawaii. KMVI, Wailuku. Loud every night (even on car radio) w/pop mx 0100-0200 and later. (Northam, Ore.)
- 570 New Zealand. 2YA, Wellington. All-night mx pgm, noted 9/18 0625. (Wood, Hawaii)
- 600 Cuba. Cuban noted // 720 AM 10/2. (Conrad, Ky.)
- 611 Morocco. Very strong w/Arabic music 1750; alone on channel 9/19. (Ed)
- 630 Australia. 4QN, Townsville, Qld. Feature pgm, ABC ID 9/18 0700. (Wood, Hawaii)
- 655 El Salvador. YSS loud and clear 1903 after RAI s/off on 10/2. (Ed)
North Korea. Quite loud at 0812 10/1 but bad KFI splash. (Reynolds, Calif.)
- 656 Italy. RAI Common Wave has been quite good afternoons lately; first audio 1758 on 9/19; 1720 on 9/30; 1710 on 10/2. No sign of Spanish Sahara here yet. RAI s/off 1900; man and woman announcers, pop mx, all Italian. (Ed)
Unid TA. Weak but clear w/semi-classical mx 1850, 9/18, livlier mx noted at 1855, but then WNBC took over. (DeLorenzo, Mass.) Probably RAI, Marc. (Ed)
- 660 New Zealand. 2YC hrd w/old standard pop records 0345 9/18; weak and noisy! (Reynolds, Calif.)
Unid. Very weak station hrd below a very strong signal from XERPM on 10/2; definitely EE, rock and roll programming 0113-0128. 2YC or spurious mixing product or ?? (Conrad, Ky.) Seems a little early for 2YC, but it's possible. Ed
- 665 Portugal. Lisboa weak at 0100 s/on 9/13. (DeLorenzo, Mass.)
- 670 Cuba. Outlet here // 690 MM 10/2. (Conrad, Ky) WRTVHSS says CMKP, R. Progreso, Holguin w/1 kw // 50 kw on 690. RFS list says CMKP, San German, 50 kw. (Ed)
- 680 Unid Mexican. R. Actualidades again hrd, s/off 2031 9/27, so likely Sonora. But no further ID or QTH given anywhere near s/off; powerful. (Hauser, N.M.)
Australia. 2KP, Kempsey, N.S.W. dual to 630, etc. 0700. (Wood, Hawaii)
Argentina. LV6, R. Nihuil, Mendoza noted at times around 0530. Tried for a QSL, here's hoping. (Slater, England)
- 683 Spain. RNE extremely strong and clear 2355 9/17. (Ed)
- 690 New Zealand. 3YA, Christchurch. AN music pgm hrd 9/18 0650; local KKUA off. (Wood, Hawaii)
- 700 Australia. 2NR, Grafton, N.S.W. fascinating figures on number of registered dog owners in New South Wales 0610. (Wood, Hawaii)
Brazil. ZYR213, R. Eldorado, Sao Paulo for a new Brazilian on 7/3. (Slater, UK)
China. Nanking in w/weak signal and rapid fades 0810 10/1. (Reynolds, Calif.)
- 701 Andorra. Now dominates this channel, nice signal w/woman announcer and pop mx in French 1817 9/17. (Ed)
- 720 China. R. Peking hrd after 0800 // 1040; weak signal. (Reynolds, Calif.)
- 725 Surinam. SRS, Paramarabo in w/very good signals almost all of time from 2020-2230 s/off 9/12. EE ID 2208, otherwise language sounded Dutch. News 2030 and 2130; out of date pop mx. Slight QRM from unid SS. (Sullivan, Mass.)
- 735 North Korea. Very weak signal 0830 10/1 w/man talking in Korean. (Reynolds, Ca.)
- 737 Spain. RNE, Barcelona a regular here nightly. Exceptionally strong 9/19 at 2230; CBL was 35 db over 9, RNE was 50 db over 9 at times. (Ed)
- 740 Cuba. CMAQ extremely strong 10/2; not // anything else I could find. (Conrad)
CMAQ good 0445-0459 9/24, then covered by s/on of unid LA stn. (Holmes, Mass.)
Unid SS. Who s/on 0500 w/elaborate format including several different chorus and band pieces; ID as "Esta es Radio (static crash) ... Cadena Nacional?" (Holmes)
- Australia. 2BL, Sydney. Typical ABC time pips 0600. (Wood, Hawaii)
- 750 Jamaica. Port Maria hrd 2300-2310 about equal to unid SS (HJDK?) and way on top of W3B. News 2300 followed by mx. (Sullivan, Mass.)
- 760 New Zealand. IYA, Auckland. Final news of day, into AN mx 0620. Local KGU off. (Wood, Hawaii)
- 770 Australia. 3LO, Melbourne. Good, though slight KOB, usually // 740. (Wood, Ha.)
- 773 Spain. RNE, San Sebastian clear 1833 on 9/21. (DeLorenzo, Mass.) Not nearly as strong as last season - power change? (Ed)
- 775 Unid Oriental. Unidentified w/strong carrier but weak modulation; man talking (too weak for ID on language - as if I could, hi!). Hrd 0840 10/1. Thailand? Asians good this day. (Reynolds, Calif.)

- 780 Barbados. Black Rock, R. Barbados in fairly good 9/22 1912-2000, occasionally losing to unid SS. News and hurricane information, then pop mx. (Sullivan, Ma.)
- New Zealand. 4YA, Dunedin. Noted w/European transcription 0430. (Wood, Hawaii)
- 782 South Africa. Bloemfontein hrd w/Springbok all night service at 2140 on 6/29 during Burg silent period. //1268 and 1286. (Slater, England)
- Portugal. CSB9, R. Clube Portuges fair 1834 on 9/21. (DeLorenzo, Mass.) Hrd nightly after 1730, often mixed w/Burg. (Ed)
- 800 Netherlands Antilles. PJB, Bonaire put in local quality signal on portable radio almost every night this week. (9-23 to 30). (Sullivan, Mass.) Spanish gospel pgm noted 0500. (Wood, Hawaii)
- 812 Unid IA. Is this evening SS still HJEW? Difficult to ID so far. (Scrimgeour, Ontario). Yes, Gray. (Ed)
- **830 Hawaii. KIKI was the one w/religious pgms 0250-0320 9/18. Very weak; WCCO started testing 0320 to ruin it. (Northam, Ore.) KIKI testing w/new 10 kw xmitter 0540 tune-in and onwards 9/15; fair to excellent signals. (Wilson, B.C.)
- Australia. 3GI, Sale, Vic., // to various others 0640. (Wood, Hawaii)
- Argentina. LV9, R. Guemes, Salta often hrd under or mixed w/LT8. LT8, R. Rosario fair on several occasions around 0000; hope they come up w/the swell verie that you stateside guys have been getting. (Slater, England)
- 835 China. Nanchang hrd very well 9/25 0715; hrd again 10/1 0525-0710 even better. Report sent. (Reynolds, Calif.)
- Unid. SS eak during auroral conditions 0034 9/25. (DeLorenzo, Mass.)
- 840 Cuba. CMHW, Santa Clara presumably the one w/Castro speech and seemingly dual to other outlets; 0043 on 9/29. (Hauser, N.M.)
- St. Lucia. R. Caribbean, Castres was presumably the FF hrd on 9/6 past 2002 but WHAS too powerful after 2010. (Scrimgeour, Ont.)
- 870 Puerto Rico/Argentina. WHOA, Hato Rey copied for report on two Sunday AMs when AFN-872 s/on late. Still QRM from Argentina and WWL, though. (Slater, England)
- 872 Spain. EAJ101, R. Zaragoza alone w/man reading news 1902 9/20. (Ed)
- 876 North Korea. Pyongyang seems to have slipped down a kc or so from listed 877; hrd very well w/steady S5 signal after 0540 10/1. Good material for rpt so I tried one. Report sent through R. Peking. (Reynolds, Calif.)
- 880 Panama. HON-33, Colon. Hrd as a good daytime catch, usual static and ID's as "Cadena Republicana" or "Cadena Universal"; US and SS rock and roll hrd 1244; Pgm of current rock and roll in EE at 0100 on 9/17. (Silvera, Jamaica)
- 885 Montserrat/Nicaragua. Best signal ever hrd from Montserrat 1912 on 9/20; totally covered by YNKW later, though. (Ed) YNKW a pleasant surprise at 2340 s/off 9/3 w/good signal and a badly needed new country. Report off. (Slater, England)
- YNKW in w/good signals 9/24 2250-2305, also 9/25 around 2235. (Sullivan, Mass.)
- 890 Haiti. Cap Haiten, good reception of 4VEC 9/24 2220-2233 s/off // 4VEF-1035 w/religious mx; no problem from WLS at all. (Sullivan, Mass.)
- 900 Argentina. LV7, R. Tucuman logged for a new Argentinian. (Slater, England)
- 925 Unid SS. Hrd w/two cuts from recent Beatles album 0045-0050 9/25. (DeLorenzo, Ma.)
- 935 Morocco/East Germany/Spain. Usual jumble of audios very weak 1825 in severe auroral conditions 9/23. (Ed)
- **955 Burma. XYZ, Rangoon. After hearing bits of Asiatic talk for the past couple of weeks, I finally caught enough for a meager report on this one. Have been trying for years on this clear frequency, hrd 9/25 at 0819 w/mx and then news at 0830. New country for me. (Reynolds, Calif.)
- **960 Colombia. HJL, R. Sutatenza, Barranquilla; new station noted w/test transmissions with 10kw. Noted 0935 9/24, very good signals and complete ID's and promises a QSL card. (Silvera, Jamaica)
- **971 USSR/Turkey. While searching more or less unsuccessfully for the new 100 kw transmitter at Izmir for a potential new country, I was surprised to note that the USSR transmitter at Smolensk is used in the Radio Moscow Arabic Service. Possible confusions can arise here not only w/Izmir but also w/Marrakesh, Morocco. (Slater, England)
- **990 Venezuela. YVMN, R. Mil. Moron noted here from 1000; believed to be xmitter malfunction. (Silvera, Jamaica) YVMN loud and clear 2200 9/1, ex-1000? (DeLorenzo, Mass.)

- 1000 Virgin Islands. WENB noted around 1830 on 9/5, 9/13, and 9/23, often strong. (DeLorenzo, Mass.)
- 1005 North Korea. Medium strength 0022 9/10 // 655. (Peterson, Japan, IRCA)
- 1010 Argentina. LV16, R. Ranquel, Cordoba logged for a new Argentine. (Slater, UK)
- 1020 Bolivia. CP4, Emisora del Estado, La Paz for a very welcome new one on several occasions. Signs off at 2300 and plays lots of chamber mx - just like the BBC. (Slater, England)
- Dominican Republic. HIJP, R. Commercial fair 1855 on 9/27. (DeLorenzo, Mass.)
- 1035 Haiti. 4VEF hrd very well despite WBZ slop 2220-2233 s/off 9/19 and 9/20. Asked for reception reports; noted again w/religious mx 9/24 around 2230 // 4VEC-890. (Sullivan, Mass.)
- 1075 Costa Rica. TIFC, San Jose fair 9/3 w/EE religious programming. (Slater, UK)
- 1088 Angola/Nigeria. This has been noted as an interesting frequency here. After the BBC Midland Home Service s/off, two stations are left. The most powerful one is Radio Nigeria, Lagos which signs off at 1800 w/EE announcements. The signal then left is CR6RZ, Louanda, "Emisora Oficial" which appears to be a shift from 1295 and a possible power increase. These may be possible for you boys. BBC s/off now is 1750 but when summer time ends at end of October it will revert to 1850. S/off of CR6RZ not known but is at least 1901. (Slater, England)
- (We logged Lagos on this channel two summers ago, Al, and hrd Angola's 872 channel last spring. Supposedly the 10 kw outlet that was on 872 has moved to 1088, no indication of power increase. Ed)
- **1091 Spain. ECS12, R. Atalaya, Cabra noted on this split but seem to vary, worth you boys watching when the band is open to Spain. (Slater, England)
- **1098 Spain. EFE23, Voz de Guipuzcoa, San Sebastian now here just 1 kcs from EFE14. (Slater, England)
- **1100 Venezuela. YVOP, "Radio Occidente", Tovar (ex-R. Tovar) announces freq and gives telephone number, plays nonstop mx, hrd 1806 9/18. (Silvera, Jamaica)
- 1110 Venezuela. YVQT, R. Carupano, loud and clear 1905 on 9/25. (DeLorenzo, Mass.)
- 1120 China. Radio Peking Foreign Service, exceedingly strong in Russian, news at 0500. Hrd even on generally poor Far East night 9/18. // SW and shows no relay characteristics, so I shall count this as Peking location. (Wood, Hawaii) May be a relay via land-line, Richard; see our previous article on Broadcasting in China. (Ed)
- Unid SS. Who's the one here playing mostly NA and European standards, lots of Yves Montand records? (Conrad, Ky.)
- **1140 Spain. EFE22, Voz de Principado, Oviedo now here and well split from 1133; both of these are good daytime signals here. (Slater, England)
- 1150 Asiatic Russia. Vladivostok, in Russian, noted 0500 and 0700. (Wood, Hawaii)
- 1160 Mexico/Unid SS. XER, Monterrey noted along with a second weak SS stn under WRVA on 10/2. (Conrad, Ky.)
- 1180 Colombia. Manizales, HJFX hrd after 0500 9/17 w/chimes and time after each record. ID at 0516 was "Radio X" (eckis). (Reynolds, Calif.)
- Chile. CB-118, R. Portales, Santiago hrd 0540 w/male announcer; QRM from YVOV, covered by HIBE at 0544 on 9/18. (Silvera, Jamaica)
- 1205 France. ORTF, Bordeaux S3 at 0011 on 9/15. (DeLorenzo, Mass.)
- In weakly at 0005 on 9/11, unneeded. (Scrimgeour, Ont.)
- Unid SS. Unidnetified SS speaker very weak some nights, Ecuadorian? (Moore, Mass)
- 1206 Unid SS. A second weak SS stn also noted here some nights, who? (Moore, Mass.)
- 1209 Cuba. Reloj Nacional outlet hrd here w/strong het, gives time in EST, noted 2340 on 9/27. CMHK, Cruces listed. (Hauser, N.M.) Strong with bad het 10/2. (Conrad, Ky.)
- 1214 Albania. Tirana was the first TA hrd from out new location here in Ontario (on 9/6 at 2300 w/French service); stronger on 9/10 w/clear ID. (Scrimgeour, Ont.)
- Wow, what a signal 9/17, like a local in FF 2307-2320, little bit of TT from BBC at times, but barely put a dent in Tirana. Must be some reception of this one in England. (Ed)
- 1220 Cuba. CM--, R. Veintiseis, a rarely hrd Cuban here noted 0415-0440 9/24; signal weak but clear. (Holmes, Mass.)

- 1235 Bermuda. ZFM1, best signal hrd from this one for a while 0015 on 9/30; S9 plus 42 db and rock steady. (Ed)
- 1250 Asiatic Russia. Khabarovsk, R. Moscow Chinese service. Really puzzled me on 9/4 at 0800, after the Chinese pgm there was a strange 6 note IS played on horns 3 times with "Hanoi" mentioned between and no Kremlin chimes were played. It was in very strong w/Kremlin chimes at 0031 9/10 followed by march music and a Chinese program. (Peterson, Japan, IRCA) Maybe Hanoi-1240 in that day? (Ed)
- 1310 Japan. NBS, Tokyo, Japanese light drama 0630, good. (Wood, Hawaii)
- 1329 Unid SS. R. Bonita hrd several evenings, as 9/28 at 0020 giving time in CST. Unable to copy further ID. (Hauser, N.M.)
- 1330 Mexico. XENQ, Moncolva, Coa. s/off 0105 9/28 w/"Cielito Lindo" and mentioning RCN affiliation. (Hauser, N.M.)
- 1376 Asiatic Russia. Vladivostok hrd w/man in Russian 0518 9/18; only S3 w/much fade. QSL'ed last season. (Reynolds, Calif.)
- **1445 Costa Rica. TI--, R. Monumental, location unknown, new stn hrd here w/ID and typical whistle IS at 2300 on 9/11. (Silvera, Jamaica)
- 1550 Australia. 4QN, Emerald, Qld. drama 0500, good. (Wood, Hawaii)
- 1554 France. ORTF, Nice undoubtedly the stn w/mx and FF announcements on 9/10 at 2315. (Scrimgeour, Ont.)
- **1560 Taiwan. BEC-27 hrd w/nx and wx in EE followed by jazz records. This was 9/24 from 0700-0712. Clear ID at 0705 was, "This is the Armed Forces Network - Taiwan". Mostly in clear above heavy QRM muddle underneath from US stations. The only other Asiatic hrd at this time was Peking-1040 which is almost a regular here. (Reynolds, Calif.) A very nice catch, Don. Congrats. (Ed)
- Australia. 2RE, Taree, N.S.W., lovely signal for 2kw, news 0500. (Wood, Hawaii)
- 1570 Mexico. XERF is by far the best mainland signal.; noted nightly around 0300-1000. (Wood, Hawaii)
- 1600 Mexico. XEAE, Cd. Acuña, Coah. Delightful charros 0700. (Wood, Hawaii)

Presstime information:

- 620 Biafra. Radio Biafra, Enugu noted w/2330 s/on 8/30; war news, civil defense instructions, etc. (Slater, England) As we type this, news has just been released that the Enugu capitol of the breakaway territory of Biafra has been captured by Nigerian federal troops. If correct, this means Biafra is now out of existence, and no valid North American loggings were made of the 500 kw stn on 620 during the country's short lifespan. (Ed)
- 650 Uruguay. CX6, R. Sarandi, Montevideo noted 2200 s/off 6/30. (Slater, England)
- 840 Cuba. Very powerful "La Voz de Cuba" outlet noted 0300 on 10/3; so powerful I thought it was the Colombian. Who? (Sullivan, Mass.)

Verifications will have to wait until next issue due to space limitations. Thanks again go to our fine crew of reporters: Philip Sullivan, 152 Third St., Leominster, Mass.; Michael Northam, P.O. Box 605, Beaverton, Ore. 97005; Glenn Hauser, 303 Ash NE, Box E435, Albuquerque, N.M. 87106; Don Reynolds, 19055 Hollyvale St., Glendora, Calif. 91740; Marc DeLorenzo, 35 Sylvan Drive, Hyannis, Mass. 02601; Al Slater, 58b Underdown Road, Southwick, Sussex, England; Michael Silvera, P.O. R A N D O M N E S S . . . Looks like DX conditions will be good and varied this season, and with all of the contests going, some interesting DX is gonna be heard... Nice phone calls from Jerry Conrad and Carlton Lord and Foxy, tnx... Word is that Lafayette is not stocking mechanical filters at the moment, we may have to go to the manufacturer directly in that case, am checking... Good article on grounds in last months Pop'tronics... Good DX to all and keep the reports coming - Admiral Nelson
