## FLASH PoP TESTS

January 6, 7, or 20th 810 WGY, Schenectady, NY will be doing their Proof of Performance tests between Midnight and 0500 ELT.

January 6 1090 WBAL, Baltimore, MD will be doing their Proof of Performance Tests between Midnight and 0400 ELT. Mr. Bob Van Buhler, CE would like to know if you hear them.

All of the above courtesy of Dan Bartek.

**Radio Earth Program Schedule Update** Effective tonight, January 6th, Radio Earth can be heard on WHBI, World Harvest Broadcast International, with their 100,000 watt SW transmitter. "The World" one hour program from Radio Earth will be heard starting at 0300 UTC (10pm ELT) on either 6155 KHz or try 6095 kHz. [WHBI may be changing freq due to interference from Radio Austria on 6155] They will be heard Monday thru Sunday on WHBI. Yep, daily once again!! Radio Earth can still be heard on KCBI, 11790KHz, 1900 - 2200 UTC (1400 - 1700 ELT) on Sundays. [This info provided to us via Radio Earth General Manager Jeff White and "International Radio" magazine, formerly "The SW Guide".]

Page 6 of this issue is a little dark due to the light typing on the page. Also NO DDXD section this week, due to trouble with Dave's printer.

Fred Vobbe is looking for Airchecks from AM stns from the 50's and 60's. If you have some get in touch with Fred. Address: 706 MacKenzie, Lima, OH 45805-1835.

Freq. Check list being compiled by Dave Schmidt could use some help from you the midwest members. If you have some Freq. Checks drop your info to him ASAP, same goes for everyone else.

**From Grove Enterprises** "The Listener's Handbook", an updated version of Bob Grove's Communications Monitoring book and Behind the Dial book. Bob combined these 2 books and updated the information and placed it all under one title. The book contains over 100 illustrations, charts, tables, etc. And covers subjects ranging from choosing a receiver, selecting the best antenna for your installation and all about coax cable, just to name a few. The book sells for US\$12.95 plus US\$1.50 for shipping. The book is 94 pages thick in a 8 1/2 x 11 inch softbound package. Order from: Grove Enterprises, Bo 98, Brasstown, NC 28902.

Need to know who to send those reception reports off to. Then what you need are the lists offered by the Publication Center. "Veri Signers 83" is 9 pages thick and covers all signers of verifications published in Volume 51 of DXN. Cost for "Veri Signers 83" is 90 cents. "Master 85" is 23 pages thick and this covers all signers of veries published in Volume 52 of DXN. Cost of "Master 85" is \$2.30. Order yours today from the Publication Center, address located on the back cover.

Also available as a new product is the "you design it yourself" labels. Check out page 23 for info on this one.

## CPC TESTS --- Times listed are EASTERN Local Time

Jan 14 WIFX-1000, Jenkins, KY 0130-0200(0230), Program will consist of tones, music, Tuesday IDs. Reports to: Mr. Don Mussell, CE, P.O. Box 312, Jenkins, KY 41537.

Arranged by John (Bandscan) Malicky for the NRC.

## LETTER CHANGES

Old call:	New call:	Old call:	New call:
820 WSTL FL Largo	WRFA	1330 KSKI ID Halley	KNRR
990 WCFI NC Southern Pines	WEFB	1410 WAMK MA Brockton	WATL
1070 WJJK WV Beckley	WCIR	1450 *New UT St. George	KATL
1120 *New TX Manor	KTCO	1470 KOLI CA Coalinga	KKFO
1190 WXTO PR San Juan	WBMJ	1500 KCIG WA Tumwater	KCIR
1260 KWFI ID Weiser	KUZN	1560 KAJN LA Crowley	KPWS
1320 KKCC OK Clinton	KXOL		

Several issues ago in DXN a member reported that KAJN had never changed over KPWS as reported nearly two years ago in AM Switch, we then passed this info on to you. Since then several members who hear this station on a daily basis and the editor of one industry newsletter with whom we trade information all wrote or called to say that KAJN-AM did indeed switch to KPWS over a year ago. The latest (11/85) FCC Database also continues to show the AM calls here as KPWS. So we called the station, manager confirms that it's KPWS-AM/KAJN-FM. Strange how info gets mixed up from time to time.

## APPLICATIONS FOR NEW STATIONS

670 TN Farragut: 500 D1 (second application)  
 700 OR Hazelwood: 50000/1000 U4  
 890 CA Rosamond: 25000/1000 U4 (second application)  
 MO Gladstone: 1500 D3  
 MO Smithville: 1000 D3  
 1040 NY Delmar: 25000/1000 U4  
 NY Oweso: 10000/250 U4  
 1050 NV Winchester: 5000 D3  
 1060 CA Templeton: 1000 D1  
 1090 MN Fergus Falls: 1000 D1  
 1490 SD Custer: 819.5/819.5 U1

## GRANTS FOR NEW STATIONS

760 FL Brandon: 10000/1000 U4  
 1020 PR Adjuntas: 1000/1000 U1  
 1440 AR Lowell: 1000 D1  
 1450 UT St. George: 1000/1000 U1 (application to operate on this frequency was granted as soon as KDXU vacated to move to 890 kHz)

## APPLICATIONS FROM EXISTING FACILITIES

750 WRGE PA Olyphant: reduce power to 400  
 940 WKGM VA Smithfield: antenna mode of fulltime CP from U4 to U2  
 1070 WNTG MI Stanwood: powers to 10000/1000  
 1140 WONQ FL Orlando: power to 5000 (reapplication)  
 1330 KLBS CA Los Banos: 5000/5000 U2  
 1350 WINY CT Putnam: power to 5000  
 1360 WBLC TN Lenoir City: to 670 kHz 1000 D1  
 1480 WPWC VA Quantico-Triangle: day power to 1000

## GRANTS TO EXISTING FACILITIES

550 KUZC CA Bakersfield: changes in antenna system  
 570 WPLP FL Pinellas Park: relocate XR, changes in antenna system  
 710 WTPR TN Paris: changes in antenna system  
 790 KXTC CA Clovis: changes in antenna system  
 870 WMTL KY Leitchfield: antenna mode for CP on 870 from D3 to D1 (still operating on 1580 kHz)  
 880 WRFD OH Worthington: 50000 D3  
 950 KKIC ID Meridian: antenna mode of fulltime CP from U2 to U4, relocate daytime XR site  
 1100 KELM MN Madison Lake: relocate XR (CP, not on yet)  
 1140 WONQ FL Pine Hills: change city-of-license to Orlando  
 1260 KQSA TX San Angelo: changes in antenna system  
 1420 WINI IL Murphysboro: powers to 420/420, consolidate XRs by relocating daytime XR at site of nighttime XR

## OTHERNESS

690 WNZK MI Westland: "fulltime license" mentioned by several members is actually only the nighttime power authorized in the Canadian Clear agreement, very low, useless to reach any audience, will probably never be used  
 730 KTOX ID Boise: application for power increase to 1000 DISMISSED  
 760 WURL AL Moody: reported by a member in Musings as being heard with the call WCCX. We phoned the owner and he tells us that this station is and always has been WURL. By the way, WCCX is already licensed to an FM station in WI (104.5)  
 830 WMMI MI Marshall: construction delayed due to inability to locate land for XR, don't expect this anytime soon  
 930 KRZD CO Granby: requests extension of CP for new station  
 1000 KKJB TX Marion: requests extension of CP for new station  
 1020 \*App MI Mount Pleasant: application for new station DISMISSED  
 1050 WISM WI Eau Claire: granted extension of CP for move to Altoona, WI  
 1160 WFEN MI Fenton: despite previous statement that they had a target date of mid-1986, this new station is now on the air  
 1070 WANM FL Tallahassee: lost antenna in hurricane, presently using longwire antenna  
 1170 WHZI AL Hanceville: requests extension of CP for new station  
 1280 WITX VA Appomattox: fulltime CP CANCELLED  
 1440 \*App AR Pea Ridge: application for new station DISMISSED  
 1550 WRHC FL Coral Gables: application for 50000/5000 on 1560 returned  
 1560 KARP WA Sumner: requests extension of CP for new station

## ADDRESSES

1160 WFEN MI Fenton: Box 381 48430  
 1440 WMER ME Westbrook: 583 Warren Avenue Portland, ME 04103

## CANADIAN INFO

540 \*CP\* BC Vancouver: frequency changes to 1040 kHz 50000/25000 U4  
 590 VOICM NF St. Johns: power to 25000  
 740 CBX AB Edmonton: change nighttime DA pattern  
 1010 CFRB ON Toronto: change nighttime DA pattern  
 1140 CKXL AB Calgary: changes in day and night antenna pattern  
 1230 CBKD AB High Level: to 1560 kHz (LPRT)  
 1240 CKBX BC Hundred Mile House: to 840 kHz 1000/500 U1  
 1420 CJMT PQ Chicoutimi: night power to 5000, believe this is already on as CJMT is suddenly being heard here in Youngstown nightly  
 1490 CKOA ON Arnprior: new station is on, CHR format

Please note that the occasional Canadian information in AMS is in no way a substitute or replacement for John Oldfield's Canadian Korner. But since AMS appears each issue and since we have a source of CRTC information, we are including HIGHLIGHTS of Canadian actions, it is by no means complete and John's column should be carefully studied whenever it appears, it is a much more extensive and comprehensive look at what's going on in Canada.

73 and Good DX in 1986,

*Jerry & BKF*

## AM Stereo Cos. Should Swallow Competition, Sez FCC's McKinney

Washington, Dec. 10. An FCC official said last week the two remaining companies selling AM stereo systems should consider asking the government to approve a buyout so only one firm will be left in the market.

Mass Media Bureau chieftain James McKinney made his remarks at a National Assn. of Broadcasters luncheon attended by AM radio station toppers.

Many AMers have been hesitant to purchase stereo broadcasting

equipment after the commission refused to select a single, industrywide standard. Motorola and Kahn are the only firms still left in the business. McKinney said the commission "erred greatly" by not selecting a single standard.

McKinney said without government permission, the suggested buyout probably would violate federal antitrust laws. Similar antitrust waivers have been granted in other industries by the Federal Trade Commission and the Dept. of Jus-

McKinney claimed.

Such a takeover would presumably spur sales and improve AM sound quality.

Some 350 Motorola AM stereo systems have been purchased in small- and medium-sized markets, while about 60 Kahn systems are being used in mostly the larger markets, according to the FCC.

Times are GMT

For ELT subtract 5 hours.

Deadline: Monday

- 155 USSR Khabarovsk 11/26 1325 classical mx // 191. (Vernon)
- 164 UNID 11/26 band mx, 1500 pips, woman anncr then Moscow program one type news sounder. Couldn't find any program one parallel. 155, 191 and 272 in with a different program. Mongolia on 227 years ago had same news sounder on the hour so... (Vernon)
- 182 USSR Petropavlovsk 11/26 1312 male singer, fair signal // 236. (Vernon)
- 191 USSR Blagoveshchensk 11/26 1409 female anncr, fair sig // 155. (Vernon)
- 236 USSR Arkhangelsk 11/25 2124 female singer // 263. (Vernon)
- 236 USSR Magadan 11/26 noted w/Mayak IS 1430 // 182. (Vernon)
- 263 USSR Moscow 11/25 female singer and anncr 2127 // 236. (Vernon)
- 272 USSR Khabarovsk 11/26 male anncr, 1415 // 155 same city same program!! Program One. (Vernon) Maybe had medium wave parallels too!! Chuck
- 530 COSTA RICA TICAL Cartago 0150 12/15 man in SS; fair signal but heavy QRN/QRM. (Stutterheim)
- 531t ALGERIA 12/15 0153 Middle Eastern music; QRM from TICAL. (Stutterheim)
- 535 GRENADA 12/15 0155 sports event in EE. (Stutterheim) 12/2 2353 fair-good w/piano mx, EE anncr reading along list of four digit numbers at 2357, ID and news top of the hour. (Baskind)
- 550 CUBA La Habana R. Rebelde CMBA 12/5 0119 w/hard rocking US pop at usual local level. Cuban radio has certainly changed since the advent of Marti and friends. (Baskind) I knew changes were happening in Cuba too when Angulo started signing on with an excerpt from a McCartney tune...Chuck
- 580 JAMAICA Gallina RJR 12/3 2357 assumed the one w/accented EE nx w/various domestics. (Baskind)
- 580 PUERTO RICO WKAQ 12/1 0740 good SID through mess: WKAQ con las gran noticias...Radio Reloj. (Renfrew)
- 585 SPAIN 11/29 2132 Madrid man in SS. (Stutterheim)
- 630 PUERTO RICO W085 12/1 0800 heard "QBS" ID w/WMAL, then salsa. (Renfrew)
- 640 ALASKA KYUK Bethel 11/11 noted w/folk mx 1554, "Devotion" religious program, 1600 ID then NPR's Morning Edition. Xint sig. Did not OSL my reports when on 580. (Vernon)
- 640 VENEZUELA Ondas Portenas 12/3 2305 "Las Noticias de Venezuela" and ads for Puerto la Cruz. Door chimes. All alone, but much noise. (Renfrew)
- 655 EL SALVADOR YSS 12/15 0314 typical Latin mx; very strong tonight. (Stutterheim)
- 670 VENEZUELA R. Rumbos, 12/4 0210 ID's, mx and ads, door chimes. Parallel 9660 SW. (Renfrew)
- 670 VENEZUELA Caracas R. Rumbos YULL 12/2 0238 poor w/"La Musica Latina en Radio Rumbos" w/Cuban, domestics, etc. (Baskind)
- 684 FUJI Labasa 11/9 1513 half time rugby game (Wales vs. Fiji). Good signal. (Vernon)
- 690 COLOMBIA 0832 12/15 La Voz de Colombia ID's, jingle "La Voz esta Romantica" then into Latin crooner. So strong I thought it was Cuba. (Stutterheim)
- 693 UNID 12/15 0857 female vocal but unable to get ID; suspect it was a romance lang but not sure. (Stutterheim)
- 700 JAMAICA JBC 12/1 0810 good w/phone-in program. (Renfrew)
- 710 CUBA R. Rebelde 11/15 0110 loud and clear with rock and roll // 5025 SW. New frequency here. (Renfrew)
- 720 JAMAICA RJR 12/1 0815 peeked through w/ID "This is Aah-Jay-Aah". (Renfrew) Must like Mark Connelly would say it...Chuck
- 720 USSR Yuzhno-Sakhalinsk 11/26 1410 male w/JJ type talk, tinney audio, noted also 1721 with male anncr // 155 which is program one, only noted with program two before, when not on FS. (Vernon)
- 730 DOMINICAN REPUBLIC -12 Santo Domingo LA mx with man and woman talking; repeated mention of Santo Domingo. (Stutterheim)
- 750 NICARAGUA R. Sandino 12/5 0235 "Radio Sandino, la radio de la revolucion" then live sports. (Renfrew)
- 765 SENEGAL 12/15 2156 man in African sounding lang; guttural voice quality; strongest ever heard here; about same as WABC and about 6 dB stronger than WJR. Harp like instrumt IS; woman anncr with ID at 2200 and time gone. (Stutterheim)
- 765 SWITZERLAND Sottens 11/13 0341-0425 noted w/various classical mx pieces w/female FF anncr, no pips 0400, maybe this is 24 hours now. (Vernon)
- 770 COLOMBIA Bogota HJKH 12/3 RCN ID, sports promo, Bogota bank spot at fair level. (Baskind)
- 770 JAMAICA RJR 12/1 0820 heard // to 720. (Renfrew)

- 774 UNID 12/16 0228 musical program; male singing in unid lang; lot of splatter. (Stutterheim)
- 790 CUBA 11/30 0803 Cuba American and LA mx in nice mixture. (Stutterheim)
- 825 ST. KITTS Basseterre R. Paradise 12/3 0023 in like gangbusters w/EE religious programming. I wonder if this sort of operation is profitable? (Baskind)
- 830 BELIZE R. Belize 12/5 0006 at good level w/local garage sale announcements, GMT-6 TC's in SS and EE, US pop mx. (Baskind)
- 837t AZORES man in unid lang; second TA under; then quite good on recheck at 0031. (Stutterheim)
- 837 FRANCE R. France Nancy 11/4 0623 nice ID by male anncr then SID. 0624 Radio France Nancy, catchy, xint sig. (Vernon)
- 860 DOMINICAN REPUBLIC 11/30 0243 R. Clarin; repeated R. Clarin ID's, typical programming. (Stutterheim)
- 870 ARGENTINA R. Nacional, time pips here but under everything else. (Stutterheim)
- 870 COLOMBIA 11/29 2355 SS programinf, repeated mention of Barranquilla, strong. (Stutterheim)
- 882t USSR Kirghizian SSR Naryn 11/26 2132 to 2147 Hindi type mx w/male anncr, a friend here from India figures this is from a Soviet republic, only this listed in WRTH though times don't match. Heard this also two years ago, similar mx, report to Ceylon TWR netted a letter saying it was not them, talk was not Arabic. Also noted with band mx, then carrier cut seconds before 1800. (Vernon)
- 885 MONTSERKAT Plymouth, JBR 12/5 0103 w/woman reading nx, man with "2ed-J-B" ID over record intro. Poor-fair level, plenty of splatter from the Cuban on 880 and the Mighty 890. (Baskind)
- 895 COLOMBIA R. Galeon, 12/1 0840 what sounded like salsa and good ID. (Renfrew) 12/15 0205 man shouting in SS; has become the most regular of Latin stations except Cuba. In nightly. (Stutterheim)
- 900 MEXICO XEW 12/4 0330 several XEW ID's followed commentary. (Renfrew)
- 909 ENGLAND R. Two Moorside Edge 11/26 2037 soccer game with Liverpool versus Manchester United, good game but United lost. (Vernon) So what is Manchester United, England's Team or something??
- 930 CUBA R. Reloj 11/30 0827 R. R. format with pips and man and woman. Only listed (WRTH) is Matanzas, but listed at 250 w; this was not too strong but more like 5 kw, based on other DX this night. (Stutterheim)
- 940 COLOMBIA 11/30 0900 R. Eco, Cali with typical LA pgm, several ID's with 3 chimes. (Stutterheim)
- 950 VENEZUELA YVKG Caracas 0901 11/30 R. Vision ID on top of channel. (Stutterheim)
- 950 UNID 12/2 0917 one of the LA's playing VOA's "Yankee Doodle" IS. Possibly a sneaky Cuban plot to confuse imperialist DX'ers. (Baskind) Or possibly the flying R. Swan xmtr again....Chuck
- 963 INTERNATIONAL WATERS R. Monique 10/31 has a Dutch evangelist program now 0529-0559, address Joe Han Masba, Box 44, The Hague, Holland. (Vernon) 11/9 noted announcing frequency of 558 and 963 at 0142, checked again at 0245, same freqs announced so maybe Laser is no more. (Vernon) This is true..Chuck
- 981t ALGERIA Alger 11/26 2117 female w/FF talk, then EE nr mx, good signal. (Vernon)
- 999.5 UNID strong carrier with no audio; gone 0335 11/30. (Stutterheim)
- 999 MOLDAVIAN SSR Kishinev et al 10/28 0315 noted w/Moldavian anthem following nx and organ IS. (Vernon)
- 1008 AUSTRALIA 410 Brisbane 11/11 1624 male anncr between nr mx, ID only as "Stereo Ten". (Vernon)
- 1020 VENEZUELA YURS R. Mundial Margarita fighting it out with R. Calendario. (Stutterheim)
- 1026 AUSTRALIA 4MK Mackay 11/11 1626 noted w/a contest promo, free trip to Sydney, maybe I should enter that. (Vernon) And while you are at it, don't forget to enter me too....Chuck
- 1026 BYELORUSSIAN SSR Moglev 11/13 0359 Mayak IS, 0400 pips, male anncr, poor sig. (Vernon)
- 1026 UNID 11/9 0709 male Irish accent w/end of nx story then previous days N.Y. stock market, only in briefly through WBZ splash. (Vernon)
- 1026 UNID 11/21 0704 male anncr, EE nx item w/Irish accent noted 0711, female anncr w/request, seems like two EE stns here, plus the SS and Austrian stns here, around this time only Austria is a definite ID. (Vernon)
- 1053 ROMANIA Radio Iasi 11/18 0452 children singing, 0500 no pips, male anncr. Good signal but too much TV! for report. (Vernon)
- 1080 CUBA R. Cadena Habana 12/4 0400 good ID on the hour between musical programs. Light music and soft spoken female DJ. New here. (Renfrew)
- 1107 AUSTRALIA 2UM Sydney 11/11 1531 female w/"All time Favorites, all the

- time\* slogan. (Vernon)
- 1107 LITHUANIAN SSR Kaunas et al 11/9 0306 end of Lithuanian anthem, then woman anncr, was // 666 for at least a few minutes till 1107 faded. (Vernon)
- 1165 ANTIGUA St. John's Caribbean Radio Lighthouse 12/5 0024 louded than it had a right to be w/Christmas mx. (Baskind)
- 1179 SWEDEN Solvesborg 10/21 0617 male w/exercise program, stn is a pest here now, about equal in strength w/Denmark-1062. Not noted at all last season, what a difference a xmtr makes. (Vernon) 11/15 0610 male via phone with talk to studio male, signal in longer and is a little better than Denmark-1062. 11/25 2104 male w/EE nx, 2106 headlines again and Radio Sweden International ID, is listed w/Swedish at this time in WRTH. (Vernon)
- 1197 AUSTRALIA 466 Gold Coast 11/11 noted w/McQuarie national net nx, 1603 4 double G ID, wx, woman anncr, SID, ID, re mx. Good signal. (Vernon)
- 1205 CAYMAN ISLANDS R. Georgetown 12/2 0852 w/OC at good level. (Baskind)
- 1206 FRANCE R. Gironde-Bordeaux 10/28 0615 male anncr, many mentions of Bordeaux, xlt sig. (Vernon)
- 1215 ALBANIA Lushnje 11/13 0442 sounded like AA type singing, listed w/Albanian lingo, maybe they sing very poorly also. (Vernon) No comment from the editor on that...Chuck
- 1215 CANARY ISLANDS R. Cadena, Las Palmas, 11/5 0604-0631 male anncr, MoR type SS mx, seemed to get stronger, good ID at 0631. Maybe on earlier now, tried since to make sure but have Albanian problem here. (Vernon)
- 1215 ENGLAND R. Three Moonside Edge, 11/18 0548 brief electronic gong sound every 10 seconds, 0551 classical mx, 0555 male with sign-on, 0555:30 detailed weather forecast. Still best signal from the U.K. (Vernon)
- 1224 AUSTRALIA 2WS Sydney 11/11 1604 noted w/slogan "More of your greatest memories with James Stewart on 2WS", sounded more like an oldies stn. (Vernon)
- 1278 EIRE RTE2 Dublin/Cork 11/26 0101 woman w/nx, 0102 male w/weather, poor signal. (Vernon)
- 1305 EIRE E.R.I. Cork 10/28 0359 w/end of nx mostly international, 0400 brief wx, SID "E.R.I." then mx. Seems continuous mx AN w/nx just before the hour. Noted often of late. Good E.C. tip? (Vernon)
- 1323 CYPRUS BBC Zyyi 11/9 1612 male w/talk about Star Wars weapons, thought maybe Moscow EE service, 1615 BBC WS Saturday Special sports program, went into soccer game Manchester United versus Sheffield Wednesday, good signal for short time. Never noted before. (Vernon)
- 1350 LATVIAN SSR Cesvaine 11/15 female and male w/RR Moscow nx, 0315 Latvian anthem, 0319 IS then female with talk. Stn seems to sign on at 0300 w/USSR anthem, then Moscow program one news. (Vernon)
- 1386 USSR Kaliningrad 11/18 0503 female w/FF talk, similar FF service noted 0501 on 11/22. (Vernon)
- 1395 ALBANIA R. Tirana Lushnje 11/25 2209 woman w/EE service, talk about shops and houses in the country. (Vernon)
- 1413 OMAN BBC Masirah Isles 11/23 1759 male anncr w/EE sports results, poor signal. (Vernon) Probably not beaming to Elsa, I'd guess. I can't seem to remember when the Elsa service starts...Chuck
- 1440 SAUDI ARABIA Ras-as-Zawr 11/11 1503 male w/AA talk, good signal. (Vernon)
- 1449 USSR unid 11/13 0429 weak Mayak IS, much stronger last season. (Vernon)
- 1458 ENGLAND BBC Radio Newcastle 10/31 0700 pips, woman w/ID mentioned "Northeastern station", "Radio Newcastle" then local nx. Report sent plus usual cassette, netted a phone call and interview 11/22, most distant report to date. Will write my autograph for you Chuck at the end of this page. (Vernon) This is one of the many side benefits from typing this column.....I shall treasure it forever. Brian Chuck
- 1458 ENGLAND BBC R. Manchester 11/25 0629 male w/Manchester sign-on, after Radio Two program, Newcastle noted very weak with sign-on, just after Manchester. Only the BBC R. Devon stn needed on 1458 now, fat chance, hi. (Vernon)
- 1481 UNITED ARAB EMIRATES Dubai 11/23 1749 female w/AA type wailing, good signal. (Vernon)
- 1485 ENGLAND BBC Merseyside, Liverpool 10/31 0733 coastal wx forecast, SID then road cx, good signal. (Vernon)
- 1485 NORWAY NRK Longyearben, Svalbard 11/13 0627 male w/Norwegian type talk between mx, was not // 1314. (Vernon)
- 1512 BELGIUM Wolvenstem 11/25 2203 female w/EE service about survey of workers in EEC then talk about commercial advertising in Belgium, was very interesting. (Vernon)
- 1521 SAUDI ARABIA Duba 12/8 2202-2207 fair in peaks w/AA vocals w/WKWB phased; good het on 1512 at the time possibly from the other big Saudi

- outlet. (DeLorenzo)
- 1521 UNID 11/26 1656 noted w/Chinese opera type pgm, xlt sig, stn probably CBS Taiwan. (Vernon)
- 1530 VATICAN Vatican City 11/15 0602 woman w/EE pgm, talk by man, audio a bit distorted here, poor signal. (Vernon)
- 1548 SCOTLAND R. Forth Edinburgh 11/28 0142 promo about teaming up with a US stn, missed call but was a W, stn must have signed off around 0200, was dozing off when anncr said "and you can switch off your radio now, good night", the volume of this woke me up, seemed to be testing later, 0218 male anncr mentioned 1548, also 96.8 FM along with a jingle. Poor signal. (Vernon)
- 1566 SOUTH KOREA HLAZ Cheju 11/26 1903 male Oriental type talk, probably KK, 1904 western type orchestral mx, obviously on longer now than listed in WRTH. (Vernon)
- 1610 ANGUILLA Caribbean Beacon 12/3 0106 blasting away w/nx about offshore money laundering by Barbadian drug dealers. (Baskind) Every island says the other islands are doing it...Chuck
- 1613 GUATEMALA Rabinal RAB 12/3 0108 really strong tonight w/Morse marker. (Baskind)

Marc DeLorenzo-Holliston, MA HQ100, phased LW's  
 Jim Renfrew-Rochester, NY HQ150, SM1  
 Matt Stutterheim-Montauk, NY ????

Brian Vernon-Elsa, Yukon R7A, FRG7000, DX160, 3 Beverages

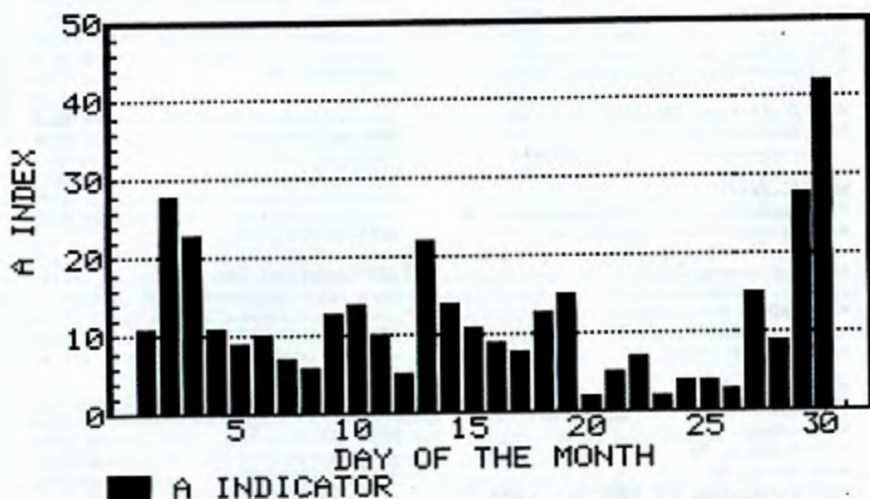

Not a bad column this time, thanks to the old regulars and thanks to the 2 weeks between columns this time....

Lastly, thanks to those who sent Christmas cards or greetings-I appreciate the thought.....

## AfR GRAPH

Russ Edmunds, 753 Valley Road, Blue Bell, PA 19422

AFR GRAPH/NOVEMBER 1985

This graph shows the daily variations in AfR, the Fredericksburg (VA) index of geomagnetic activity in the earth's magnetic field. High values (above 20) indicate that medium wave signals in upper latitude paths will likely be absorbed, thus resulting in "auroral conditions", with signals from the South and from local stations predominating due to this absorption of the more northerly signals. Low values over a period of time indicate a likelihood of more receptions of the higher-latitude paths --- more, and more northerly TA's and TP's. Several days of low values following higher ones are needed for conditions to return to "normal", due to residual absorption. Long periods of extremely low values (6 or less) are necessary to raise the possibility of good high-latitude conditions throughout the entire MW band, although this is not the only requirement. For additional information on the use of the AfR and related indices as a DX tool, consult the NRC Reprints List for relevant articles. (The Reprint List can be obtained from the NRC Publication Center, whose address is located on the back cover). ---RJE

# BANDSCAN

John R. Malicky, 995 Shadycrest Rd., Pittsburgh, PA 15216

HO-HO-HO!! Did Santa bring you what you wanted.....some veries, a new receiver, an endless supply of stamps!!! Here in the States, we're almost at the end of the college bowl season, well they forgot one, the Soup Bowl!.....This week the scanning dial travels to "deep in the heart of Georgia" Macon, then to "I left my heart in San Francisco", and finally the "Great Frontier" Alaska...Nearly 20 hours of time was put into the Macon scan as conditions varied each day and is much different than a scan done 1/2 years ago(just having moved there) when 560 had WIS and WOOF, 740 had WLWI, and 810 had WQIZ. A couple of days at noon WDDO-1510 and WDBP-1370(both of Chattanooga) were noted. Omitted from the list, but also noted were WMAQ-670, WJR-760, WBAF-820, WWL-870, WLS-890, and WRD-1040, plus an Unid on 1200. The Strongest/Sloppiest Station Award goes to dual Ider WKAS Gordon-Macon.....the San Francisco scan is quote "from my location in the heart of S.F., high up the side of the tallest hill in town, facing east right into the gun-barrels of every (censored) transmitter from Vallejo to San Jose. Splatter/slop is the worst I've ever noted from any location".....and finally a short scan from Alaska with distance miles and characteristic noted. For your enjoyment.....

Well, that concludes Macon and San Francisco by day as I'm sorry about 1550, that should read WYXK. Also, along with some help from our scanners, I determined from state maps most of the locals. PLEASE, when sending in your daytime scans, note your locale in CAPS. I'm always interested in which stations your locals are, as I'm sure other members when traveling to your area would be, too!..FLASH!! Special Delivery from the MAC Dodo Bird, I'm handed 2 more scans! First, a day scan from Saugerties, New York, then S.F. by night, but let's finish Alaska first.

FREQ	(RO-AK)Day(10/17/85)	(Distance-Characteristic)	(distance in miles)
550	AENI-Anchorage, AK	(250)barely readable due to local KVOK-560	.....
560	AVON-KODIAK, AK	(1)local neighbor, produces second harmonic on 1120	.....
590	AHAN-Anchorage, AK	(250)moderate through KVOA splatter	.....
620	AGTL-Homer, AK	(125)semi-local, loud and clear	.....
650	AYAK-Anchorage, AK	(250)tied with AFQD-750 for second strongest Anchorage station	.....
670	ADLS-Billingham, AK	(245)very weak during the day, very strong at night	.....
700	ABYR-Anchorage, AK	(250)weak during days, gone at night	.....
750	AFQD-Anchorage, AK	(250)strong signal, tied with AYAK	.....
830	KABN-Long Island, AK	(275)weak, but readable	.....
920	ASRX-Soldotna, AK	(195)moderate signal	.....
960	AFRN-KODIAK, AK	(6)local, very strong for only 50 watts	.....
980	KZEN-Aenai, AK	(190)weak, not bad for only 1kw, gone nights, slightly stronger than ABYR-700	.....
1080	ATNX-Anchorage, AK	(250)moderate signal	.....
1140	KDSY-Soldotna, AK	(190)weak, especially for 10kw, ASRX stronger, KZEN slightly stronger	.....
1230	KVLD-Valdez, AK	(210)very weak signal, barely readable	.....
1250	KEBI-Homer, AK	(120)much weaker than AGTL-620, but still not bad	.....
1450	KLAK-Cordova, AK	(300)very weak	.....

to Saugerties, New York "Hudson Valley Radio" and "San Francisco Bay Area Radio". Those  
 tions were noted for Saugerties: temperature was 46 degrees with a slow rain, reception  
 of Canadian stations quite common along with Chicago stations (though weak), no "J" meter read-  
 ing as the AVC was in the off position, and an Unid on 1530. These conditions for S.F.: this  
 marking "\*" indicated heavy slope from locals on noted frequencies, dominant stations listed  
 first, a jumble of stations on 1150, 1230, 1240, 1340, & 1490, an off frequency het(1210) caused  
 by KRSV-Afton, Wyoming which is often dominant, and a concluding summary with a word to the  
 wise, quote, "...what can be heard from one of the worst DX locations in the country...always  
 check out the DX aspects of the new location BEFORE you move!" Now to "Hudson Valley Radio",  
 some of the locals I determined myself, and "San Francisco Bay Area Radio" Part II.....

1570	CFOR-Orillia, ON		KDAY-Santa Monica, CA/ ANIX-Toupe, AZ	
1580	.....		KLIV-SAN JOSE, CA	
1590	WQQW-Waterbury, CT		KGST-Fresno, CA/ KUSA-Yuba City, CA/	
1600	WWRL-New York		KMON-Pomona, CA	

For "Hudson Valley Radio", you could probably also include New York City stations as locals.  
 Anyway, sorry I couldn't figure out the unidentified. Thanks to everyone for their kind com-  
 ments and now, a thank you to our contributors, Gary, Don, Rod, and R.V. Henninger!

- (GA-2) Gary Atkins, Macon, GA (R-592, Radio West Loop)
- (DK-CA) Don Askey, San Francisco, CA (Hammarlund HQ-140X, SM-2 antenna)
- (RC-AZ) Rod O'Connor, Spruce Cape, Kodiak Island, AK (GE Superadio, no antenna)
- (RVH-NY) R.V. Henninger, Saugerties, NY (Hammarlund HQ-180, 100 foot longwire)

ritt(er) Fatter....Shortness of Breathe Department-in case any of you happened to catch the  
 last 5 minutes of the December 7th Talkradio Special, I was the last caller on the air for all  
 of 22 SECONDS!!! Talk about "in a hurry", I should have asked to speak to Paul or Dr. Wood, a  
 mistake on my part....anyway, hope your holidays are going well and a Happy New Year 1986 to  
 all....in the coming weeks, you'll have more fine entertainment of DAY and NIGHT scans from  
 such places as Hamilton, Ontario; Winnipeg, Manitoba; and St. Louis, plus a sun-rise twist of  
 the dials during the height of Alaska winter...so 75¢ to all and to all, a Good Night!

*John*

## Too much aspirin changes her tune

The Washington Post

A Minneapolis woman claims that too much aspirin caused her to hear the song *When Irish Eyes Are Smiling* and other hits, mostly from the 1930s and '40s, for three weeks.

"At first she thought it was coming from another apartment, but friends and neighbors could not hear it," Dr. James R. Allen writes in *The New England Journal of Medicine*. Allen treated the 70-year-old patient at the Minneapolis Clinic of Psychiatry and Neurology after other doctors failed to stop the constant tunes.

At first, doctors thought the problem was caused by her hearing aids picking up radio waves, but no stations were playing what she was hearing.

The woman had been taking 12 aspirin tablets a day. Aspirin is known to aggravate tinnitus, or ringing in the ears, but had never been known to cause melodies to be heard. When she cut the dosage in half, however, the music stopped.

# STATION PROFILE

Tony Fitzherbert, 356 Jackman Avenue, Fairfield, CT 06430

STATION PROFILE - WOHO, 1470, Toledo

At 2965 Pickle Road, in Southeast Toledo, is a most unusually decorated pair of buildings. Here, the "Pink Palace" is the home of Toledo's "1470 AM - WOHO, All Music, All Memories". The bright pink decor springs from the imagination of one of the former rock station's most colorful, and notorious alumni, the Mojo Man.

Mojo Man was Toledo's foremost rock DJ - at night, every teen's radio was tuned to this performer. He accompanied the adolescent set at their studies, in the soda shops and drive in restaurants, and as an invited third party in Toledo's lovers' lanes. Mojo was so popular, and so much of a show that on any given summer night up to 200 people would gather on the lawn of the Pink Palace to watch him broadcast through the station's windows. This Pied Piper of Toledo's youth convinced station management to paint the studio building pink, which lives on next to Pickle Road, although Mojo Man is long gone from the WOHO microphones. Some staffers think that he is in Florida.

WOHO-1470 initially signed on the air in 1955, at its present location. WOHO, the original call, of course stands for "OHIO". In its early years, it carried feed from various networks, and in the early 60's challenged by television, decided to emulate the 50kw rockers in major markets in a successful bid to become Toledo's #1 station.

Many rock DJ's worked at WOHO as they developed their careers. Along with Mojo Man, another noteworthy personality was the more conventional Don Armstrong, today a DJ on the Transtar Satellite Network.

As the years passed, WOHO modified its rock format to a more mellow adult contemporary sound, "narrowcasting", according to Program Director Terry Sullivan to target the 35-49 year old market. Today, the station entertains Toledo with a delightful stream of oldies and mellow contemporary songs, hosted by live personalities. However, from midnight to 6:00AM, the station carries Transtar programming. On Sunday evenings, WOHO offers some public affairs programming. No ethnic or religion broadcasts are heard on WOHO.

From 6:00AM to 6:00PM, WOHO broadcasts locally prepared news every half hour. During morning drive, 1470 airs Accu-Traffic, and transmits reports from TARTA, the local bus operator. Drivers radio delays and service disruptions to their dispatchers who, in turn relay the information to WOHO. The station also carries Toledo Gold Digger hockey games. WOHO operates 24 hours daily, with no silent period.

WOHO is owned by Lew Dickey, and is operated by the Midwestern Broadcasting Company. Sister FM station 3WM (WVWM), 105 FM, airing adult contemporary music shares the Pink Palace.

To enter the FM market, Mr. Dickey bought WGLN, licensed to Berkeley, and moved it to the Pickle Road facility, broadcasting as WXEZ, a beautiful music station. To appeal to a wider range of listeners, the format was changed to the present music, and the call WVWM was obtained.

WOHO's Pink Palace contains the control room, production studio, news room, plus facilities for 3WM, and space for the sales staff, and management, as well as the transmitter, a Gates model. Adjacent to the building is a similarly painted building, being renovated into production studios, and more office space. The station employs 35 personnel in its sales, traffic, accounting, programming, news, and engineering departments.

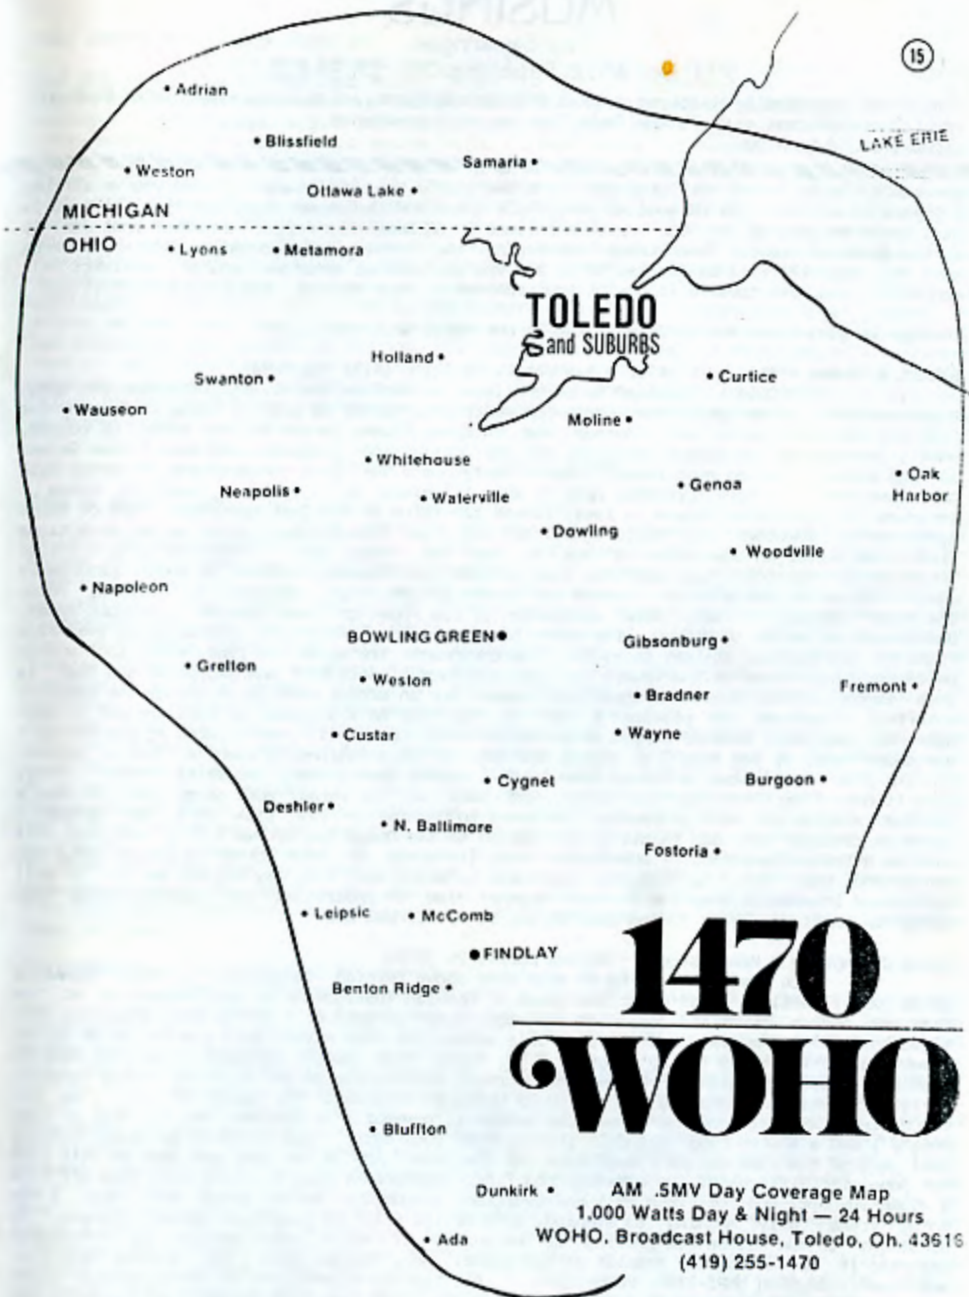

In back of the studio facilities is the station's diamond-shaped four tower array, which carries WOHO's 1000 watt signal over an area from north of the Michigan boundary line south to Dunkirk. The night signal resembles a clover, protecting many other broadcasters on 1470kh. WOHO reduces power to 500 watts Pre sunrise.

The editor thanks WOHO Program Director Terry Sullivan for his assistance in the preparation of the WOHO profile. Terry began his career at WOHO, and returned to Toledo and WOHO after working in radio in Fresno, CA., and WIOT-FM, Philadelphia. In addition to PD duties, Terry is the 2:00PM to 7:00 WOHO DJ, bringing Toledo home every afternoon.

The opinions expressed in this column are those of the individual writer and do not necessarily reflect those of the Editors, Publishers, or the National Radio Club, Inc., or its subsidiaries.  
Times are local per Muse.

Greetings, all, as we roll into the first new year's Musings column. I hope you've all had a chance to try out the DX goodies Santy left under the Christmas tree, and that the results will begin to show up in the various columns in *DX News* this month. Remember that Jan. 10 is the deadline for our theme issue concerning the ladies and married couples who both DX ... #17 (Jan. 17) will be devoted to DX'ers who use unusual antennas and/or receivers ... and #18's (Jan. 24) theme will be "DX Achievements". Your choice! And now, on with it ...

Foreign languages and how used in DX'ing is our topic this week ...

**Albert S. Lobel** - P. O. Box 26762 - San Diego, CA 92126 (619) 566-0092

This is supposed to be the issue to include the foreign languages you speak and/or write. I can speak some German and write a little of it too. I lived in Germany for five and one half years and learned how to speak fluent German at that time. Of course, what I learned was the spoken language, not the grammatical language, and when I took German in high school I failed even though I could carry on a very good conversation in German with the instructor. I have forgotten most of what I learned as I haven't used it since I returned to the United States in 1964; except for twice in the last ten years. One of those times was in downtown San Diego when I noticed a man from Germany trying to get directions from a bus driver on how to go by bus to the San Diego Zoo. I offered to do a little translating. The other time was when some friends from Germany visited me about three years ago. There is not much of a demand for German in San Diego. Spanish, sí; German, nein. The other language I have some knowledge of is how to read Hebrew. I cannot speak, understand, or write in Hebrew. For those of you who have never seen Hebrew it is read from right to left instead of left to right. The consonants are above the line with the vowels below the line. Most of the vowels are just a series of dots with one exception and that is when there is a dot above the upper left corner for an accent mark or to change the sound of a letter. Instead of placing a dot at the end of a sentence to mark the end of that sentence, two small diamond-shaped dots similar to a colon (:) are placed at the end of a sentence. Most of you know I am Jewish and that is why I learned to read a little Hebrew. I can also understand a little French but I cannot speak, read, or write French. A very good friend of mine here in San Diego who does all the repair work on my cars and owns a service station was born in France. He moved to Quebec in his late 20's and became a Canadian citizen and then in his 30's he moved to San Diego and became a U. S. citizen. His wife is a French Canadian. Sometimes they'll speak to each other in French and I can understand what they are saying; they have to watch what they say around me or I will understand it even if they don't want anyone else to understand; but I cannot answer them except in English. Well, 73 and good DX in '86 to all NRC'ers.

**Harry J. Hayes** - 9 Henry Street - Wilkes-Barre, PA 18702

In answer to the topic this week about foreign languages, I don't speak or write any fluently. I had about two years of Spanish instruction in high school but at the time was not a DX'er and looked at the requirement as more of a bother than something that might have helped me later in life. This season has been a very good one for me as far as receiving verifications for my reports. I think just about everyone that I've sent to answered except for WKLB-KY. CX have been pretty interesting so far also but as of tonight, 12-14, cx seem to be heading for the usual December doldrums. The amount of time I've had for DX'ing this season hasn't been the greatest, however. In October, and for most of that month, I had a severe and painful infection of both ears. This rendered me almost totally deaf part of the time and half deaf most of the time. Any DX'ing that was done at this time was done with difficulty. By November and into December my home business here took off from a slump in Sept. and Oct. into full and overtime production which meant most days I was going from early morning to evening, eliminating a lot of potential sunset sessions. My highlight of the season was picking up WKLB-1290 KY until John Malicky of Pittsburgh reported it as a sunset regular at his place. Gee, thanks, John - hi. Another highlight was finally logging WNRI-1380 Woonsocket. All the new allocations on the previously clear channels makes for many new DX catches but it's too bad that long distance AM listening for entertainment purposes may become a thing of the past. All the new stations may seem great to us now, but how long before we consider them all just pesty regulars? It's sort of like chewing gum: nice and sweet at first, then it becomes a flavorless lump in your mouth. WARD, formerly 1540, is on 1550 now, but it continues to s/off at sunset. Earlier in the year they had intended to be nighttime in September, advising that they would be carrying local h. s. football. Wilkes-Barre finally has its very own pirate, but on PM. Announces itself as 99.7 but is closer to 99.55. It is on very irregularly with non-ID K-100 and "official" call WLKR. Sounds very professional with high hyper r&r mx. I hope you won't mind too much if I jump the gun a week, Paul since I won't be checking in next week. (No sweat, hi! -pls) I keep warm by DX'ing in bed. Also, some advice if you are the owner of an HQ-180 or similar rx. Try DX'ing slumped over the set; you will not only get a very warm tummy but it you are a northpaw like me, your tuning control will be on the proper side. More as it comes in.

**Paul Swearingen** - Canoga Park, CA

After many rumored and alleged displacements, I have finally moved to the far west end of the San Fernando Valley, where the air is cleaner and the QRM minimal. I'm still sorting out the mess of boxes, of course, and trying to decide what to place in storage. // I do speak, write, and read Spanish fluently, as I taught it in high school for seven years and of course have a degree in it. I was moved to take Spanish in high school after listening to the many Mexican and Cuban stations while I was DX'ing as a kid in Kansas. I didn't really intend to get serious with it; I just wanted to understand what they were saying! Now I use the language almost daily at work, and I correspond with at least two friends, one in Argentina, the other in Mexico, in Spanish, not to mention being able to listen to any Spanish station or watch Spanish-language TV (their musical programs, especially "Siempre en Domingo", tend to be better than U. S. musical programs). I've never regretted the many hours I spent in studying Spanish; the whole point is that I can communicate with nearly any person in the western hemisphere. I also have taken 5 hours of French and can read some French at least on a daily newspaper basis, and by association I can understand some spoken and written Portuguese and Italian. I would heartily recommend that all NRC'ers who are still in school take at least a couple of courses in any foreign language, and those who are not to enroll in a night course at your local community college. Like DX'ing, a foreign language can be an additional window on the world; the two pursuits go hand-in-hand, I believe.

#### \*Notes from the Nutmeg Room\*

**John H. Rose II NJBQ** - 26015 Thomas - Warren, MI 48091

After emptying the shack out completely, things are going back in slowly. No radio gear hooked up yet. After so long "making do" for setups, I went out and bought an office desk with a "follower" to make it "L" shaped. I still need more room (Don't I know it! -pls). It amazes me how soon the collection grew to humongous proportions. The large variety of "institutional colors" would no longer do in the redecorated room, so file cabinets, desks, are all one color, nutmeg. I'd like to see that name as a header and see how I like it. Antenna switching is driving me nuts around here because with so many receivers (and they work) that the opportunities for diversity reception, multiple channel reception, etc., are enticing. That means sophisticated switching. I thought about TV/VCR switchboxes, but the most I can get is 5 in, 3 out, and it need 4 (or more) out. Besides, the boxes have signal splitters with ratings going down only to 5 mcs. and I need 10 kcs. Ponder, ponder, think, think. I saw in "AM Switch" that a new station in Sterling Heights is having trouble finding a site. That I believe, because S. H. is booming. Besides, it's just what I need, another station in my back yard. (John, just a thought about your shack furniture ... I bought two motel-type desk/chest combos for \$50 each at an auction house, and they work super for holding my HQ-180 and other DX equipment. I also managed to pick up a number of cheap, unmatched open stereo stands @ \$5.00 at the department store where I work. I already had a 30-inch door, and I merely cut down the stands to the exact height which is most comfortable for my typing and slapped the door atop them. The whole setup is ugly but very functional, and extremely cheap (my middle name, hi -pls)

**Carl Dabelstein** - 8209 W. 78th Street - Overland Park, KS 66204

Due to the significant reduction of a noise problem that has plagued me for over a year, and being able to cut back on the business travel during the past 7-8 weeks while working on a Wisconsin Bell rate case, I have actually had time to spend a few hours at the dials. So far this season, conditions have been suitable for some new loggings. On 9-2 I was able to log WSKR-1590 and WAGS-1140, both running the hurricane watch from Atmore, AL. On 9-9 I happened to be listening to 1240 when KICD surfaced briefly for a copy of their sign-off announcement at 1:05. For some reason, I never could hear them while DX'ing from Omaha and Lincoln, about 200 miles closer. On 10-10 I added KLLF-1290 (ex-KTRN) from Wichita Falls to my log, with gospel mx at 6:30 pm. Later, KCRB-1580 hrd with s/off. 10-11 brought s/on from WILD-1570, Taylorville, NC at 6, surprisingly clear. On 10-24 I had both KQLX in Lisbon, ND and WQIS in Laurel, MS fighting it out on 890 at 8:15 with no trace of WLS. I thought KQLX was licensed for 720 and don't remember seeing any changes listed in Jerry's column. They ID as "Q-Country 890". On the evening of 10-29 I noticed KEES-1430 Gladewater, TX running football promos completely on top of the frequency at 11:15. 11-6 brought the s/on of WAMJ-1580 South Bend IN at 6. Their verie says they were running only 5 watts at the time! (And if anyone needed proof that true DX on "clear" channels still exists, here it is! Nice catch, Carl -pls) DX test from WNGO on 11-11 with code ID's only - not a trace of audio. Heavy QRM from KSUM. While getting ready for work on 11-14, I heard KATL-1450 Albert Lea atop the frequency at 8:17. This was another one I could never get from either Omaha or Lincoln. Finally, this evening, s/off of WRBH-1570 holmen, WI at 7, quite clear. A few veries have managed to trickle in during the past few weeks: KLLF-1290 (my 200th Texan), WTLK-1570, KQLX-890, KICD-1240, WAGS-1140, WAMJ-1580, KRCR-1570, KEES-1430 (with a T-shirt), KPMN-1560, all v/1's except KICD. Total veries now at 2,229.

That's about it for now - hope everyone has a best holiday season. 73's.

Dick Truax - 3003 Gleason Ln. - Louisville, KY 40299

Greetings again from the Bluegrass State, and hopefully this will see print in time for me to wish all a happy and a safe holiday season. DX has been nil, with the last new addition to the log last April when WHAS was knocked off the air for a few days. But I have been trying for the new stations on the broken-up clears; so far I guess I just don't get home in time in the evening to do much SSS listening. I do note that when listening to Lorenzo Glick on WBZ-1030 most evenings that formerly there was some weak interference from the 1,000-watt station outside of Nashville, TN, but now WJSS-1030 in Memphis is really an annoyance, at times completely overpowering WBZ. So much for the advantages as well as the disadvantages of new stations on the former clears. One thing noted locally as of 11-29, and possible a few days earlier: WDGS-1290 in New Albany, IN (local) is now on fulltime 24 hours, formerly a daytimer. Have seen nothing on this anywhere to date. They are directional to the SW to protect WHIO-OH and are totally nullable at night. But I have never seen them reported anywhere, so maybe now is an opportunity to log a new fulltime on 1290. No signs of WIMT-620 going fulltime yet, now the new station WBUL-1470 replacing former WSAC which is silent. WDGS is soul a la WLOU, so now we have two fulltime stations with that format. Hopefully with the upcoming holidays and a few days at home I'll be able to add a few to the log. More as it happens ...

Jim Hilliker - 1135 N. Mayfair Ave., #2 - Anaheim, CA 92801

(714) 991-3839. Hello everyone, and Merry Christmas and a Happy Hanukah to our Jewish members. Hope you all have a great holiday season and a happy 1986. November was a fairly good month, DX-wise, with 8 new catches. I guess I've told you about 3 of them last time, with KABN-830 in AK being the best and most surprising. KNDD in Grass Valley, CA is now on 830 as of 11-21, ex-1250. Hrd them here 11-22 easily in WOOD null. Called stn. and talked to DJ and CE who happened to be there. Power is 500/1000 U2 with 2 towers. S/off is midnight so far and 10 pm Sundays with 6 am s/on. They hope to be AN soon. On 11-25 I finally got a most-wanted after 3 years, KPOD-1240 in Crescent City, CA with a K-pod ID and wx for the area, but soon lost to KSWA after 4 minutes. 11-27, logged XEHC on 1590 from Ensenada which is usually on top of that channel at SSS, but I never officially logged it till now. The morning of 11-29 was productive with 2 more newies; best was WBBO-1040 Pinellas Park, FL with oldies and legal ID at 3:59 AM. Not bad for 5 kw and fighting the KINQ-1020 slop; the signal was on top of WHO. Then, got a poor signal and 2 weak ID's from KUTR-860 in Salt Lake City. Total now 559. Veries remain the same as last time, but have 4 reports out now. The afternoon of 11-29 was interesting. I logged KXWJ-890 midday with poor signal and faint ID at 20 pm. They were in and out all afternoon since noon. We had a strong storm that day and winds knocked out power in some areas. KFI was off for about an hour. So was XETRA-690. Nothing new heard, but about 4:20 pm XETRA was back on, but off frequency, on 676 kHz. They didn't get back to 690 till Saturday afternoon. I agree with you on counting stations, Paul. I count frequency changes, but not call changes or city of license changes. I log call changes only for the fun of it, if I happen to hear the station again. I believe a station is an entity; the power and frequency may remain the same, even if the calls change 2 or 3 times in 4 years. It's like a person being the same person, even if they change their name. So I believe call changes to be the same station; the physical facilities don't change. However, on frequency changes, many times stations add towers and use other patterns, which is why I count a frequency change as a new station. That's just my opinion; you can do what you want, according to how you feel. Last time I mentioned night power of KBLS-990, but that was wrong. Should be 120 at night, not 500. The person I talked to at the station in Oct. was not informed, I guess. Also, from last time, KQW became KCBS and moved to San Francisco in 1949. A good book with many articles on early radio history and with good documentation is called "American Broadcasting - A Source Book on the History of Radio and Television", by Lawrence W. Lichty and Malachi C. Topping. There are 4 in-depth articles about the history of WBA, KDKA, WJW, and the story of KQW-KCBS. Looks like Laura and I will be moving. I'll be going up to the Monterey area in January to look for work. I passed my test and interview with the county up there for a job as a communications dispatcher for the 911 emergency services. However, I'm on a waiting list for positions to open up, so I have to get some other work in the meantime. Laura will move up in February when her store opens. So, with all that going on with the moving, etc., you may not hear from me for awhile and DX'ing will have to take a back seat. Till then, I hope 1986 brings you all the DX you've been seeking. 73. (We can easily get into a never-ending controversy over how to count stations, but as long as a DX'er is collecting for his own amusement and not reporting to an achievements column, it really doesn't matter as long as he is consistent with his own methods and he is happy. I count frequency changes because each frequency brings new conditions affecting how easily the station is heard; I would have counted XETRA on 676 as a separate station, had I heard 'em, as I counted KRVN when it switched from 1010 to 880 years ago, or the Cuban which operated for a short while on a split frequency in the 600's four or five years ago, or R. Belize's change from 834 to 830. I don't count WDAF-610 or KMBZ-980 as being Kansas stations, however, even though their tx's are on Kansas soil; I stick with city of license. Speaking of that, here's a

good one: in the early '70's, KUDL-1380 used Fairway as its city of license, even though the transmitter/studio site was in Lenexa and the business office was in Merriam; the FM's studio was also in Lenexa, the tx in Merriam, and we ID'ed as "KUDL, Kansas City"! The FCC gave us a hard time when we ID'ed the AM as "KUDL, Fairway, the Rock of Kansas City", as it was too close to being a dual ID. Nowadays, the FCC doesn't care -pls)

Raymond J. Nemeo - 1424 Heatherton Drive - Naperville, IL 60540

I almost fell off my chair when I read a Muse a few issues back that WBYG-930 is on the air. It is this kind of misinformation that has several members upset. WBYG-930 is a long way from being on the air. The target date is January 15, 1986, but the towers are not up and it can take quite a while to get them tuned in their directional pattern. WBYG-930 (Sandwich, IL) was heard on October 24, 1985, using a portable tower to do some engineering studies for the directional pattern. I talked to Collins Miller, GM of WSPY and WBYG just a week before Thanksgiving, and he hoped within a week they would start digging for the tower foundations. On November 26 I was in Ames, Iowa, and talked to the people at WOI-640. They hope to be on the air fulltime by February 1, 1986. Most of the work is done. They are waiting for a new transmitter. WOI will operate, according to the production director, with 998 watts nights going northeast ... right at Waterloo. They will cover Des Moines at night but their signal is designed to protect KFI and WLS. WKRD-1580 Aurora is fulltime. I can hear them here on the west side of Naperville, but when in my car going east I lose them about middle of town (E/W). That's at night. Daytime they can get into Chicago. On November 26, coming back from Ames, I tuned to WPCF-860, Mascataine (now full-time) after dark ... and listened to them from about Iowa City east to Illinois. I gave up on them at the Mississippi.

Alphonse B. Tobia - 7603 Linden Ct. - Newark, CA 94560

Well, hello, DX'ers ... It's happened ... You may have read about it since. I had sent a note to Paul about it, so he may have included it in Musings recently. What am I talking about, you ask? THE BIG 89, WLS is no more (out here at night). That's right, the frequency is now almost wiped out by guess who, KXWJ; they finally made the move to 890. I kind of stumbled on to this about a month ago; while messing with the TRF I came by 890 and loud as can be someone was playing c&w music (actually turned out to be a c&w album) so I waited (I got to point out that as I waited for an ID from this new station around 6 pm PST, in the background guess who would poke thru the carrier of this new station: THE BIG 89, WLS!) Along comes 6 pm ... no ID from this new station ... so I turned off the TRF. About 10 pm PST turned it back on. Now there's a test tone on 890. Again, no ID. Just before 10, the station went off, not to be heard from till about a week and a half later. At that time I started to hear KXWJ, St. George, UT, now on 890. Oh, they're loud but when they fade or when there's little modulation GOOD OLD WLS POKES THRU GREAT!! I think KXWJ is 10 kW Day non-directional and 10 kW night directional with a 3-tower array. Any members east of this station please let me know if you hear them and how well? Other news ... this am heard KNCO, now on 830. They started on 11-21-85 on this new frequency, from 1250. They operate with 5 kW day non-directional and 1 kW night directional from a two-tower array. Station is in Grass Valley, CA. Again members east of this station, how far do you hear them? As far as 890 ... there's a new station going on out here on that frequency also about 75 miles from here ... none of these stations are going to provide wide nighttime coverage like KRQW or KJWN, since these new stations are all limited to 1 kW night and must accept interference at night from other stations on the frequency. Another member question: members in Washington and Oregon, what does 880 sound like up there day and night. Seems that many stations have been allowed on this former clear in the areas. What's it sound like? It's a mess here. That's it for now. Good DX to all ... 73's.

Radio Roundup

Pete Kemp - P. O. Box 73 - Bethel, CT 06801

Greetings of the season to all ... Radio Laser-558 has pulled the plug ... WFIL has been added to the NBC Talknet roster ... Mike Murphy is leaving KCMO-Kansas City, effective December 20, to move on to Jack Carney's old spot on KNOX-St. Louis ... Joey Reynolds was put on hold by WFIL after pretending to be a game show host and phoning a contestant to say that she had won. The woman then filed a complaint with the FCC. Joey has been going back to the Buffalo area on weekends, doing a show on WNYF-FM. He was formerly with WRBW during its rock heydays ... Dr. Ruth Westheimer continues her romp across the airwaves garnering awards and legions of listeners. One radio station has even been using a promo stating that its spot on the dial is "Dr. Ruth's favorite position." Creativity or bad taste? ... Porky Chedwick is back on AM radio in Pittsburgh, this time on WNRZ (ex-WRCA), and will be in the oldies business doing the 1-4 pm slot. He was most recently with WAMO-FM ... The Houston Oilers has tapped an FM station for their flagship. KODA-FM has replaced KTRH-AM as the local outlet. Switching to a stereo station allows for more realism, the station says, by mixing crowd noises, announcers, and the refs into different channel combinations ... WHAT's morning newsmen Tom Maloney has jumped ship for a

sports director's job on WPEN ... WNYC has been busy trying to eliminate the competition for a proposed 820 dial spot. They paid off their competitors to guarantee the move. Looks like WNYC will switch from the 830 position, hopefully by the end of 1986, pending FCC approvals, etc. A power increase and pattern changes are expected ... The Capital Cities/ABC deal has been approved by the FCC ... The Kansas City Royals are moving from KCMO to KMBZ this season ... I had a most interesting conversation on the amateur radio today with W1VJN. During the course of our QSO, we started to discuss BCB DX'ing. He said that he had lived in Keene, NH and at one time was an engineer for WGBK. Garnet then related how he was approached by a radio group to put on a test, and did so, a number of years ago. I remembered being up for that one, and immediately checked my logs. You guessed it, the group was the NRC and I had in my files a QSL letter, signed by him, for the February 25, 1974 test. We were both quite surprised by this revelation. Upon conclusion, a number of other hams called me to discuss AM Band DX'ing and for the next few hours, on twenty meters, a round-table type discussion evolved. Many of these fellows started their radio hobby with cats whiskers and hand-rolled coils, eventually obtaining their ham licenses, but never forgetting their first thrill with the dials. I mentioned the NRC and many of the publications available, and they seemed interested (Sign 'em up! -pls). Just goes to show you that when you start a conversation on amateur radio, you never know who is listening and where it might lead ... So much for now.

**Tony Fitzherbert** - 356 Jackson Ave. - Fairfield, CT 01432

A belated Merry Christmas to all of you! Also, best wishes for a happy 1986! Next year will be good, work-wise, as I am going back to the training profession - will leave the Metro North Hiring Officer position to handle engineering, supervisory skills, and some customer service training. I spent nine years in training, at Conrail, and Con Edison in NY, and loved it. This move is like going from the rigors of sales manager at a radio station to PD. Veries - good return this year - the latest are from W1NA-1070. The CE is a DX'er who wondered if I was a member of a club - I do hope he joins, after my notifying Mike (Sign him up, too! -pls). Also WOOT-1390, with h/s, v/f, and c/m. DX - nine new catches in the last two weeks - they go to Dave Schmidt for DDXD. Local WJBX-1450 (ex-WNAB) is developing a mixed CHR-oldies format. I think they are doing a good job and hope that they make it. Bridgeport has no really entertaining station. WICC-600 is CHR and WDJZ-1530 is a mixture of everything. The DJ's just push tapes into the machines and no talk - the WJBX DJ's are trying to develop personality images. If anyone has any old veries or other material from CHR-, KLIF, CKLW, or WTAQ, could you please photostat it for me? I am gathering info for some station profiles. By the way, if you have any profiles, please send 'em in! Also, if anyone has any suggestions as to how the profiles can be improved, please let me know! (More of 'em, hi! -pls) Headquarters at this writing has three profiles to be printed, and I have two here that I am preparing. Then the well will be dry. Again, Happy New Year to all. 73's.

**George A. Santulli** - 912 Marshall Drive, N. E. - Leesburg, VA 22075

(703) 777-7055. It has really been some time since I graced these illustrious pages, so I guess I'd better check in. Re-intro probably in order. Joined NRC in 1964 and drifted away during college years 1968-73 and rejoined up to present time. Thirty-eight years old, married, and working for "your" uncle at U. S. Information Agency TV as a producer/director. Equipment includes an HQ-180AC with 4' box loop. Was anxiously awaiting a Kowalski loop, but those plans seem to have been put off for the time being. Just got off the phone with Paul Draisy of my local station in Leesburg, WAGE-1200. Since the move to the new freq., he has been inundated with QSL's as I forewarned him last summer when informed of the channel change. Tonite, 12-5, WAGE extends his hours to 12 mid with 5 kW DA mostly east to protect WQAI TX. Paul is the one to write to at WAGE; he is the General Manager. Leesburg zip is same as mine, 22075-2242. He plans a PoP soon and will alert me to when. I will alert club at same time. Since I travel a good bit for USIA this year my listening time is down, but have caught some new ones, namely CHUR-840 North Bay, ONT and CRSO-790 Sudbury, ONT, two cities I have wanted for a long time, but never any luck. Hopefully travel will slack off for awhile and more times at the dials will produce more results. A very joyous holiday season to one and all and best luck in bagging that big one!

**Benjamin Dangerfield** - 202 Governors Drive - Wallingford, PA 19086

I haven't contributed much lately, but I feel that the "old guard" should occasionally be heard from (You bet! -pls). Haven't any specific DX to report; my comments are mostly at random. When I tune the band it is mainly to see what TA's might be coming through. The domestic channels are such jumbles; even the splits are rather messy. I do enjoy listening to such as CKLW-800, which is like a local here every evening (and destroys WPMR until its s/off; why would they want to stay on so late?). If there is any way that the big bands - and the music of the '30's, '40's, and '50's - will prevail - it is through the blockbusters like CKLW and WJUD. Locally, of course, WPEN does quite well with the same sort of programming. Well, after all, some of us DX'ers were around in the '30's and '40's, and we're still here, and still enjoy radio as it used to be. I've also notice big-band type entertainment on WBF, KMXD, and other high-powered stations. So what better

use for power? So on to another tack. While oystering down in southern Maryland in October (near the tip of the point where the Potomac meets the Chesapeake) I was quite impressed by the extremely good daytime reception. Stations from New York and Philadelphia were like locals; Atlantic City, NJ stations were good, and both WGN and WMAQ were strong at noon! Now, why are those Chicago stations so strong here in the East during the days? Let me change courses again. In late August I was spending a week in Bay City, MI, with my daughter (who is an executive with GM in Saginaw) and while there enjoyed listening to WRN-1210, Frankenth, who play big bands toward the end of their broadcast day. What I found interesting was how WCAU - and their Phillies games - just about overpowered WRN for the half-hour before sunset. WGNX was less than 20 miles away. Earlier in the summer I had been in Lake Placid, NY and enjoyed listening to WNEZ which was one of the pioneer stations there, at one time using only 50 watts. Also got a kick out of hearing WSYB in Rutland, a long time resident of 1500 kcs. And earlier still in the summer of '85 I was DX'ing from Tanzania and Kenya in southeast Africa. Can you imagine the thrill of sitting in a lodge above the Ngorongoro Crater in northwest Tanzania, where the local station is at Arusha, and being able to tune into almost all of East Africa, as well as the Middle East, while looking out into a sky so clear that it looked like a man-made planetarium? And then going down into the crater the next day and driving close-up to rhinos and hippos? But my biggest thrills from Kenya and Tanzania were getting such great signals from Vatican-1530 and Rome-1332, 3500 miles away. But now back home, I can hear, with ease, Spain on 774 and 684; Azores on 837 and 693; Portugal on 1035 and 783; Senegal on 765; and still Saudi Arabia on 1521, which was so strong in Kenya! Oh, the fun of DX'ing! And after all this I am still listening to CKLW, the powerhouse that will bring back the big bands! (Thanks, Ben, for this taste of DX'ing ... as it should be -pls)

**Ken Onyschuk** - 9739 Oak Park Ave. - Oak Lawn, IL 60453

12-9. By the time you read this, "Newstalk 56" WIND, will be "se habla español", and meteorologist Earl Finkle will be looking for another home base station. Gee, the SS people oughta be thrilled with all the attention they're getting. Locally SS stn Ch. 60 WBBS was bought out by its co-owner, and WPMR-TV will be EE 24 hrs any day. They have good syndicated shows. On the radio front, I noticed in DXN #10 that reg. stn WBYG-930 is on. Is the infomer sure? Member Ray Nemec called the stn's owner and WBYG won't be on reg. schedule till 1986! Couldn't be that dir. 12-2, I logged 1610 Caribbean Beacon Anguilla 5-5:30 pm with rel. prog. after tip from blind DX'er Marc Marion. Marc enjoys me reading "AM Switch" to him. Fine job, Jerry Starr. Marc then relays the info to another blind DX'er nr Sacramento. Yeah, the clears are nearly becoming regionals (horrors). I've counted about 110 new stations on clear channels in the last few years. It's crazy and they ain't done yet. But again, serving the local community; many '10 kW stns, like in Canada - any connection, Paul? (Could be -pls) Would you believe the Laughlin, NV CP on 870 licensed to a town of 100 people? A joke. Any others? To continue, on NBA Bulls games on WMAQ, Jim Durham regularly mentions a Bulls network. I've called everywhere - what network? No one knows anything. Have you heard about Tom Joyner's gig? Spends AM at KKDA-FM Dallas and then flies to Chicago for afternoons on WCIC-1390. 12-2 was a nice DX day. Sunday nite, 12-1, we had a 40-degree temp. drop and a whole inch of snow (how lucky). DX cx I used to have 20 miles so. came up here and I enjoyed hearing KC's WDAF and KCMO midday and a few others I can't normally hear. After 7" of rain in November, snow seems normal now. DX cx aren't gd. Dry wx is a pleasure now. Gotta go. Thanks to all who make DX NEWS a pleasure to read in 1985. Seasons Greetings.

**Rod O'Connor** - CG Box 1467 - Kodiak, AK 99619

A quickly jotted-down Muse for you. Big news here was the KSLM-1390 test rcvd well. Report and thanks sent. A well-done test. Will try again this Sunday for the KFJM-1370 test. Also rcvd during KSLM test were KCEY Turlock CA at times over the test. Also heard gospel preacher in background at times, probably KGER Long Beach, CA, which has been heard here previously. KRE-1400 also quite regular. Speaking of 1400, no sign here yet of KVLD Valdez. At least I haven't rcvd it, although KVAK-1230 barely makes it in, so I just may not be able to get them. Still nothing from down under, although I do hear occasional unID voices beneath KGO-810 - Fiji, maybe? Or probably CHQR Calgary. KYUK now 640. Best to all for '86.

**Steve Kennedy KBAPZX** - P. O. Box 402 - Waverly, TN 37185-0402

Howdy to all, and I hope all either got a new receiver or plenty of DX for the holiday season. I am completely inactive on the BCB any more ... but the itch is still there ... and I renewed for the 16th year in the NRC. Most of my time is spent on the 80- or 40-meter CW novice bands, or once in awhile I try for SNEC stuff. Recently, I cleaned out the shack, and am going to let my entire collection of DX News go to anyone who wants it. Also have a complete file of "Review of International Broadcasting" back to #7 (Oct. '77), and FRENCH back to Dec. '73. All are complete. Will sell complete sets, only if you will pay shipping costs to get them off my hands. Since I missed the 12-9 edition of DXChange ... also an AEA CW/RTTY reader is on the block, and other misc. stuff to go cheap. Let me know and I will send a list to check out. I am planning to do a lot of ham-related

work in '86, and I hope to add a 75-A4 receiver to the shack if the \$\$\$ permits it. Still at WPHC/WVRY, but working on a few non-radio leads to finally retire from the broadcasting profession. Before I forget it, I am selling a 15" Radio West Ferrite loop for \$15.00 plus UPS. If you can locate another variable capacitor to replace the one it ... it is a bargain. The tuning capacitor is shot, and replacement would make it back to fine shape ... includes the optional LW and SW coils ... Has anyone heard my old station WKEM/WZOR-1490 in Immokalee, FL? Since I left, the station to the best of my knowledge has never returned to the air; and it is doubtful if even a license is still valid. Maybe it will never return again; but it was a good GY'er in its day. Oh, well, that's radio. By the way, have had a couple of CW contacts with Dick Truax K8GVU ... when we can make contact. I am a volunteer fireman, and we have had a call twice while I was trying to work him. Sorry, Dick. Any NRC'er who has a ham ticket can usually catch me at 1700 to 2100 on the 40-meter novice bands around 7130-7145 kHz, weekdays UTC. 73's.

**Eric Buensman** - 836 Lamplight Lane - Hazelwood, MD 63042-3407  
(314) 895-1436. I hope 1985 has been a DX'ingly excellent year for you. I have been selected by the Worldwide TV-FM DX Association to take over their Southern FM DX column. Whatever happened to ASWLC's FM/TV DX column that I was supposed to do, you say? They cut it in order to go all SW. I resigned from the ASWLC because of this. No wonder why I chose John Malicky, hi! I am now working at KCFV-FM in Ferguson, MO (89.5 mHz) as a production assistant and have a 0900-1000 CLT airshift. Format is New Wave/Top 40. Finally, a most-wanted station came in on 9-12-85 at 0846 CLT. That station: KPIA-1480 Ironton, MO. With 5 kW D3, it could not get beyond Fenton! That's because of WJEM. Speaking of WJEM, the little 500-watter has been sold, along with its FM. WJEM-FM is now WGGX with CW; the AM is still WJEM with the same format. New regulars have been popping up on 1090 (CHEC-AB is KAAY null), 690 (KGGF-KS o/CBF-PQ/WFLX-IA) and 1410 (WIZM-WI replacing WLEJ-KY). WUBS-1100 Harrisburg, IL has not hit the airwaves yet; everything might not be adjusted to perfection yet. Big network changes are in store for St. Louis. NBC will be going from KMOX-630 to WRTH-590 on 12-30, KUSA-550 will become an affiliate of the ABC Direction Network (if not already), taking over from KLTH-FM. Will United Stations or Mutual go to KMOX-630 or the other guys? CBS has sold KMOX-TV in St. Louis to Viacom International, which owns a multitude of cable services and several radio and TV stations, among them WMZQ-1390/98.7 in the Washington, DC area. CBS still retains its hold on KMOX-1120/KHTR-FM. One final note, the Gateway DX Club International has become the Gateway DX Monitor Service. Good DX for now.

**One Last Note** whilst I still have fingers left above the knuckles: This column is a nice long one, an excellent way to start out the new year and, if I'm counting correctly, my fourth year as editor of Musings of the Members. My sincere thanks to all the people who include notes and say nice things; even if I don't have time to answer each of them, I still appreciate your thoughts ... even though they may be classified as constructive criticism, hi. Keep those Musings coming, and let's make the '86 columns the fattest ever. -pls.

## Radio Tasikent

QSL

Dear Mr. Chatterton:

At your request I am pleased to help to your request of radio verification. We transmit as often as possible for recording and in english by staff since we both.
