Our humble apologies for the mix up on WITZ. Somehow between Vol. 57 No. 30 and Vol. 58 No. 3 this test inadvertently was moved from Monday the 5th to Sunday the 4th and the station switched frequencies from 990 to 940! Hopefully our new tracking system will prevent that from happening. The Colorado CPC Machine (and the Topeka crew, too!)

We are still in need of targets to continue sending letters for January through March... Send them to Jeff Tynan, 10359 Severance Dr. Parker CO 80134!

**WARU-1600**, P.O. BOX A, Peru, IN 46970 will conduct a **DX TEST** on November 12, 1990 from 0200 to 0230 EST. This test will consist of voice ID's, code ID's and march music. We would like to thank Chief Engineer Mr. James L. Swearingen for this test. Arranged by the Colorado CPC Machine for the National Radio Club.

**KRXY-1600**, 7075 W. Hampden Ave. Denver, CO 80227 will conduct a **SPECIAL DX TEST** on November 12, 1990 from 0230-0300 EST using 5000 non-directional. The test will contain both Morse Code and voice ID's. KRXY will be silent for the preceding 1/2 hour and will be conducting routine maintenance. Our thanks to Girard M. Westerberg Chief Engineer. Arranged by the Colorado CPC Machine for the National Radio Club.

**KORN-1490**, 319 North Main, Mitchell SD 57301 will conduct a **Special DX Test** on Friday Morning November 16th from 0500 to 0530 EST.

Test details will follow. Our thanks to Mr. Joseph R. Shields for this test. Arranged by the Colorado CPC Machine for the National Radio Club.

**KSTL-690**, 814 N. Third St. St. Louis, MO 63102 will conduct a special DX Test on Sunday Morning November 25, 1990 beginning at 0101 ELT. This test will be combined with KSTL's Proof of Performance testing and will contain tones, possibly music and station ID's. Our thanks to Mr. Chris Davis Sales Manager for this fine opportunity. Arranged by the Colorado CPC Machine for the National Radio Club.

**KLER-1300**, P.O. BOX 32, Orofino, ID 83544 will conduct a special DX Test on Saturday morning December 1, 1990 beginning at 0645 to 0700 EST. The test will contain tones voice and Morse code ID's. Our thanks to Mr. Jeff Jones Station Manager. Arranged by Colorado CPC Machine for the National Radio Club.

**KATL-770**, BOX 770, Miles City, MT 59301 will conduct a special DX Test on Sunday Morning December 2, 1990 from 0700 to 0730 ELT. This test will be their regularly scheduled programming (believed to be Adult Contemporary) but, KATL will switch to Day power and antenna and give test announcements during this time period. A special NRC Promo tape will also be used which

### CALL LETTER CHANGES

None

### APPLICATIONS / GRANTS FOR NEW STATIONS

None

### APPLICATIONS FROM EXISTING FACILITIES

1580 WMTI PR Morovis: day power to 10000 watts (reapplication)

### GRANTS TO EXISTING FACILITIES

730 KKDA TX Grand Prairie: changes in antenna system  
1240 CKBS PQ St. Hyacinthe: changes in antenna system  
1600 KWOM MN Watertown: relocate XR (new station not yet on the air)

### OTHERNESS

650 KMTI UT Manti: station is now here, ex-1590  
680 WNZK MI Dearborn Heights-Westland: as you recall this station was granted split frequency operation using their present 690 kHz daytime and 680 kHz at night. Now they are operating on 680 during the daytime and airing the following announcement: "During the next few days WNZK Radio will be making certain changes which may affect our reception on 690 on your radio dial. Should this happen, please adjust your radio dial to 680. We're WNZK Westland. We're growing to serve more even better." Station officials claim that the regular night operation will be on the air "in about a month." At that time they will be 690 daytime and 680 at nights, a US first.

KLDY WA Lacey: station is SILENT  
940 KTON TX Belton: station is SILENT  
950 XERTA BC Tijuana: silent station is back ON THE AIR programming to the San Diego, CA market

1160 WTYN NC Tryon: silent station is back ON THE AIR. This was reported to have returned a few months ago but according to the station they didn't return until October 8th, could have possibly been testing prior to that, originates some local newscasts but otherwise carries programming of WHKP Hendersonville, NC-1450.

1170 WARW NY Cornwall-on-Hudson: silent station is back ON THE AIR  
1180 KLAY WA Lakewood: station is testing here (ex-1480 kHz) and expects to begin regular operation on this frequency by the time this reaches you.

1220 KRG0 CA Fowler: station is SILENT following a seven-year bankruptcy proceeding. CP to move to 1210 kHz was CANCELLED when their option on transmitter land was abandoned.

1450 KMHT TX Marshall: station is SILENT  
WLPM VA Suffolk: station is SILENT but will return following move  
1490 WKVL FL Bradenton: station is SILENT and may be gone for good, a financial reorganization plan filed by the owners has been dismissed leaving the station's landlord free to sell their equipment to pay off past-due rent, a sad ending to a station whose studios have been a landmark on the famous Memorial Pier for 46 years! Studios may become a banquet room.

1530 WXPQ FL Babson Park: silent station is back ON THE AIR

## MEDIUM WAVE rAmblings.

- Back here from a quick, brief trip to Wisconsin. And I actually have something to contribute this week. My mailbox was brimming with reports, two days worth of what should have been in last week's Issue. But circumstances as they were, the trip couldn't be avoided. All reports are included here.
- Anyone out there either have or know of the availability of DX-related computer programs written in MS-DOS (IBM compatible)? Don't say "write to ANARC"! I have, twice, included return postage (so I'm out a buck so far), and have gotten nothing from them. So...help me out, gang.
- When reporting, PLEASE indicate city and state info. Especially with regard to unIDs and TIS stations. Many loggings sent in this week did not include the state, and I haven't got the foggiest idea where some of these National Park TIS stations are. And don't have time to look them up, s-o-o-o-o...
- The vote was 19 to one in favor of leaving the time reporting as we have it now. So, let's get on to other stuff. Amen, and amen.

## SPECIAL

**84 WHAS**  
AM STEREO

- 770 **KPBC TX GARLAND** - the question was raised last issue whether these were the call letters or not...since **KGGR** is listed in Log...well I'm here to tell you they are; I passed by Dallas twice (10/26 & 11/1) and tuned to 770 specifically to garner this info; definitely heard **KPBC** given as part of their legal call; also see 1040 [Ed.-driving past Dallas]
- KPBC TX GARLAND** - 10/27 2000 ID as **KPBC**, not **KGGR** as a past AMS said (MH-NE)
- 840 **KVJY TX PHARR** - is 50 kw days, not 5 kw as in Log, per conversation with stn personnel [Ed.-TX]
- 870 **WWL LA NEW ORLEANS** - 10/28 off air at tune in 0604 with unID (I assume **WKZN** with news interview pgm on nuclear arms treaty); **WWL** back on at 0606 with mentions of possibly being off/on air throughout period of this morning (RCW-MI)
- 930 **WAUR IL SANDWICH** - 10/26 noted with **OLD** on drive-by, sted **C&W** as is in new Log [Ed.-driving thru IL]
- 1040 **KGGR TX DALLAS** - 10/23 1936 with *Great Gospel Radio, 1040 AM, KGGR* call ID and slogan - message from the **KGGR GM** mentioning *Broadcasting from the heart of Dallas to the heart of the people in the Metroplex* and asking ministries to buy time on the station; good signal, but mushy audio; not listed in Log (REH-ON) [Yup, heard that during drive-by, too - Ed.]
- 1060 **KHYM TX GILMER** - 10/26 1945 not **KTLG** as past AMS said; heard **KHYM** during sign-off (MH-NE)
- 1150 **WYRS SC ROCK HILL** - 10/18 2147 in the clear for a few minutes with ad for **US Sprint** - promo by *Charlotte Knights* (minor league BB) prez **Roland Gabriel** for *The Carl Gillespie Show on AM-1150 WYRS - Hooked on a Feeling* by **R.L. Thomas**; format appears to be **OLD**; ex:**WXLF** and **REL**; SC #85 (REH-ON)
- 1160 **WYRU NC RED SPRINGS** - per phone call, sked is 0545-2300, format is **B:GOS** and nite power is 250 watts (not 5000 as in Log); phone #s are: office 919-843-5946 and requests 919-843-5981 (REH-ON)
- WTYN NC TRYON** - 10/18 1920 good and alone with *The Carolina Blue Line*, a call-in-and-talk-to-the-coach thing - net ad cluster for NC businesses; lost to sudden appearances of **WAMB/WACY/WJJD** before ID; with two NCs on 1160, I went to the phone; **WYRU** sed not them and **WTYN's** phone is disconnected, so called **WHKP-1450** who sed it was **WTYN**; sed both stations are 24 hrs and simulcast except for 0800-1100; format is **AC/SPT**; also sed FCC approval to take over **WPNE-1240** has not yet been granted; if approved, would simulcast with them as well; **WHKP/WTYN** phone # is 704-693-9061 (REH-ON)
- 1180 **KGOL TX HUMBLE** - is 50 kw days, sted 10 kw as per Log; learned in call to station [Ed.-TX]
- 1310 **WGH VA NEWPORT NEWS** - 10/18 2225 with **CNN** *Headline News*; several **WGH** call IDs on half hour; listed as **WRAP** in Log; either this call was never used or didn't last too long (REH-ON)
- 1360 **WBNK NY BINGHAMTON** - 10/30 1642-1706 frequent **WBNK, 1360 Radio** IDs during pgm of *financial, world and local nx, sports and wx*; ex:**WRSG** (KG-PA)
- 1450 **WHKP NC HENDERSONVILLE** - see **WTYN-1160** for stuff (REH-ON)

- 1460 **WUFI IL RANTOUL** - noted silent, on drive thru 10/26, and subsequent drive back-thru on 10/31; recent **CL** change may mean they've been sold and will return; ex:**WRTL** [Ed.-driving Miss Daisy]
- 1520 **WKBW NY BUFFALO** - simulcasts channel 2's 6 O'Clock news (PRM-NJ)
- WITM TN ELIZABETHTON** - 10/19 1901 sign-off, no \$\$\$; sed to send comments to **WITM**, Box 711, Elizabethton, TN 37644, differing from Log listing (REH-ON)
- 1550 **WTYN TN SODDY DAISY - CHATTANOOGA** - interesting note in verie from 10/7 logging says *I am pleased to hear from you and also very surprised. WTYN is a 1kw daytimer that must have been left on that night. We do have post sunset authority at a reduced power. The week prior to October 7 we were off the air due to a shorted transmission line. After drying the line with a tank of nitrogen and retuning the antenna tuning unit we were able to get back to full power. Having just looked at my calendar we were not at full power until October 10. So what you heard was about 150 watts. I had to lift the ground on both ends of the transmission line so as not to present a short to the transmitter. The signal must have been going straight up because I could not hear it at the studio...After hearing from you I do believe my antenna tuned to maximum efficiency.* (RCW-MI)
- 1590 **WERA NJ PLAINFIELD** - recent QSL says sked is 0600 to 2400 weekdays & 24 hours on weekends; format is **OLD** with some **REL** and **ETH** on weekends (DT-ON)

## UNIDS AND UNID HELP

WKXI AM / WTYX FM  
Tab Broadcasting Company, Incorporated  
P. O. Box 9446 • Jackson, MS 39206

- 780 **UNID ??** - 10/28 1909 poor - good in **WBBM** null with motivational-type pgm, 1914 pseudo-ID for **WNN - The Motivational Station**, 1918 **WNN** and the *psychology of selling*, 1920 **WNN --?-- Miami and coast to coast**, **Charles Schwab** ad; weird! is **WNN** some kinda satellite-fed network? (RF-OH) [What little I know about **WNN** (Winners Network, or something like that)...I believe it's fed outta Florida (thus the "Miami" mention), is just what you heard. A motivational thing with confidence-building and-the-like-programming. Don't know where they're on 780, tho...good luck - Ed.]
- 910 **UNID ??** - 10/20 2015 strong with *Cruisin' In The USA, your oldies station...*; just as **CLs** were said, a buzz came and I didn't leave (MH-NE)
- 930 **UNID ??** - 10/18 2306 with **Black Hawks vs Maple Leafs** **HKY** (MH-NE)
- UNID ??** - 10/21 0805 with wx for Aurora; **OLD mx** (MH-NE) [C'mon Mike, **WAUR** in Sandwich, IL is listed in Log as having a mailing address of Aurora. And see 930, in **SPECIAL** above - Ed.-TX]
- 940 **WMIX IL MT VERNON** - is unID by MH-NE (Issue 1) (TH-CA)
- 1010 **UNID ??** - 10/28 1809 ID as the *Sun Radio Network* (MH-NE)
- 1160 **WACY MI FENTON** - possibly **Rick Dau's** unID of 9/23 (Issue 3); they have dropped **C&W** for **OLD**; still non-IDs as *Wacky Radio* and is **NSP** (REH-ON)
- 1230 **KFPW AR FT SMITH** - is probably unID by MH-NE (Issue 1); also possibles are **KCON-AR, KBTM-AR, KVAS-MO, KLWT-MO** (TH-CA)
- 1280 **UNID ??** - 10/27 0007 with *Q-93* ID; is this **WQUE-LA?** (MH-NE)
- 1330 **KTOD? AR? ??????** - unID by MH-NE (Issue 1) instead of **KVOC** is possible, they're **MBS** (TH-CA) [I couldn't find a **KTOD** on 1330 or in Arkansas as you wrote Tim, thus the ?????? - Ed.]
- 1360 **KNGN NE McCOOK** - "KNTN" unID by MH-NE (Issue 2) may be this; sounds like a format change for them (TH-CA)
- 1480 **KZSN KS WICHITA** - best bet for MH-NE's unID (Issue 1) is either this, or **WTDY**, Madison (TH-CA)
- 1520 **UNID ??** - 10/15 0540-0600 Who broadcasts the lengthy repetition of the *Catholic Hail, Mary* during this time? **WWKB** on **SP** (KG-PA)
- 1550 **UNID ??** - 10/19 0245 with **TalkNet** under **WCCZ** and **KBLK**; by the way, **KBLK** no longer simulcasts **AN** with **KXOJ(FM)**; is **B:SOUL** and non-IDs as *Power-1550 Jams* (REH-ON)

## DX AND EQUIPMENT TESTS

- 870 **WWL LA NEW ORLEANS** - 10/28 0545-0606 off the air for equipment maintenance; during their absence, **WKZN** was logged for the 1st time, in **WHCU's** null (KG-PA)
- 940 **WFAW WI FT ATKINSON** - 10/14 0500-0600 two **CLDs** were hrd clearly and taped during this **TX** test; **QRM** from **WXXX, WINX, & Cuba** (KG-PA)
- WFAW WI FT ATKINSON** - 10/14 not heard, too much Cuban (WPT-DC)
- 1550 **WLUX LA BATON ROUGE** - 10/13 not heard, too much **CBE** (WPT-DC)
- 1520 **WWKB NY BUFFALO** - 10/15 0455-0555 off the air for equipment maintenance; **KVOO** [Don't you mean **KOMA**, Kermit? -Ed.] and **KDRA** were hrd during their absence (KG-PA)
- 1600 **WINX? MD ROCKVILLE** - 10/22 0021-0023 probably them with 1000 Hz **TT** for regular frequency ✓; no ID hrd so don't know they're still **WINX** or have changed to **WTKZ** (REH-ON)

**Facts About NRC's DX Audio Service**

The DX Audio Service, now in its third year of operation, provides the ONLY monthly broadcast news cassette service to the DX community.

The DX Audio Service, available to anyone anywhere, is designed to inform the radio listener in a way that is pleasing and informative. Many of the announcers on the service are professional broadcasters giving their free time to give the listener the finest service available.

DXAS was started to provide broadcast information, both AM and FM to the blind DX listener. It has evolved into a service which provides useful material to all types of listeners. Many of our subscribers listen to the tape to and from their place of work while driving down the road.

One-year subscription, subscriber keeps the cassette each month: \$25 Sample copy, back Issues of DXAS: \$3 Cassettes are mailed by First Class mail, on or about the 20th of the month. Information, subscriptions, renewals, sample copies: write to NRC DX Audio Service - P. O. Box 24 - Cambridge, WI 53523-0024. For back issues: NRC Publications.

## Pete Kemp (KZ1Z)

P. O. Box 73  
Bethel, CT 06801

Greetings all...For quite a while now radio stations have been learning the value of cellular telephone technology to enhance their station's on-air work. Well, now Tri-Tech of Tulsa, OK has entered the equipment field with a cellular telephone remote broadcast studio link. The unit consists of a 2/4 channel microphone mixer and cellular telephone in one neat package. Ah, gone are the days when I would have to show up at a remote site two hours ahead of time to test the lines for on-air broadcasts...KNHN's morning team of Jerry Fogel and Doug Owen have moved out of the studio in the mornings, doing their weekday show from Curio's Restaurant in the Marriott Plaza Hotel...So much for now.

Foreign DX Catches. Times are UTC; for ELT, subtract 5 hours

Please submit all loggings by zones, in order of frequency. All times UTC (EST + 5). I type on Sundays for Monday mail.

Some of Dale's September loggings were submitted late (glad you found them Dale!). Brian Vernon notes that conditions to Europe and the Orient have been "O.K. ... but only the big stations seem to make it." 20 countries heard this week. We'll include your loggings next week!

I'm going on my first DX camp experience this coming weekend in Letchworth State Park, and event organized by some members of the Ontario DX Association. I hope to have a lengthy report!

### SOUTH/CENTRAL/NORTH AMERICA/CARIBBEAN

- 640 GUADELOUPE Point-A-Pitre (tent) 0900-0937 10/21. Time signal on hr, FF programming, a lot of talking and laughing, pop mx, rooster crowing. QRM at times from WHLO. Cuban not on yet. Hrd both 10/20 & 21. Pretty good signal. Tentative report sent, as no ID. [HH]

- 660 MEXICO UNID 1135 10/27. Way under KTNN. Mumbly M anncr mentioned Jalisco a few times, "Radio Cadena ???" (not Crystal or Nacional), garbled ID "... desde Ciudad E-----ante, con 5KW de potencia ..." UTC-6 TCs. Doesn't match anything I have listed. This frequency definitely bears watching! [TH-CA]

- 660 MEXICO XEACB, Cd. Delicias 1240 10/27. Fair w/XE anthem and s/on. Ads for local businesses in nearby Meoqui. New, XE #202. [TH-CA]

- 660 MEXICO XEEY, Jalpa 1106 10/28. Fair, w/partially nulled KTNN. Ads mentioned cities all over Mexico. Slogans include "Radio Rama" (network) and "6-60 La Consentida." Mentioned 10KW (used to be 1KW - correct your Mexican lists), also gave IDs for a new FM station, XHJRZ 96.5. Heard some 24 hr mentions, but don't think they were referring to the station itself. I was on this frequency before 1100 this morning and noted nothing -- s/on time probably 1100. Format is ranchera. New, XE #203. [TH] (power claim may be for AM + FM combined - Jim)

- 670 MEXICO XETOR, Tonpoo 1231 10/28. Fair/good w/KBRA w/ads and "R. Ranchito me gusta mas" slogans. [TH-CA]

- 680 MEXICO XEORT, Guasave 0417 10/24. Fair/good w/winter BB coverage. Sure seems like I hear the team's games on more than one station in each city. [TH-CA]

- 690 MEXICO UNID 1103 10/24. 2 stns poking through XETRA, one w/talk and other w/lively ranchera. XET would not be on at this hour. [TH-CA]

- 690 MEXICO UNID 1137 10/28. Stn mixing w/XEST poking through XETRA. Didn't get any easier after XEST s/off at 0500. [TH-CA]

- 690 MEXICO UNID 1137 10/28. Interesting stn through XETRA w/mariachi mx, UTC-6 TCs, mentions of Hidalgo by M, and talk by W about Univ. of Hidalgo. Nothing listed is even close. [TH-CA]

- 700 MEXICO XEGD, Hidalgo del Parral 1240 10/28. Weak and somewhat distorted through KFAM. Lively mx w/local mentions between songs. [TH-CA]

- 700 JAMAICA JBC, Montego Bay 0440 10/28. Presumed to be them w/accented call-in show w/LW. [JR-NY]

- 740 VENEZUELA Radio Caroni, Puerto Ordaz 0601 10/28. Thought I heard "Caroni" after s/off of Cuban stn, u/WDFZ.

- 790 CUBA R. Reloj, Pinar del Rio 0445 10/31. Heard with ticks and cw IDs o/domestics. [JR-NY]

- 840 MEXICO XEIO Tuxtla Gutierrez 1130 10/27. Poor/fair s/on followed by nice marimba mx. Mixing w/KVJY/WHAS. Easiest deep south XE by far. [TH-CA]

- 890 ECUADOR HCRS6, Machala 0735 10/27. Very good at first with nice HC mx, then faded. If you need this one, log it now while KDXU is taking nightly SPs. [TH]

- 930 MEXICO (tent) UNID 0102 10/29, and several other times. Weak SS talk u/KKHJ. Unsure if it is domestic or XE stn. [TH-CA]

- 930 CUBA R. Reloj (4 sites) 0406 12/28. Those ticking sounds w/ "RR" code IDs right over WBEN. [JR-NY]

- 950 MEXICO XEAM, Tijuana 2100 10/24. Completely off. Stn has been off and on all week, and the signal has been distorted at all times. Still not as bad as before, though. Format is still Sun Network talk, some of which is also carried on KCED-1000. [TH-CA]

VENUUS RADIAS - RADIO VIENUS

- 1000 MEXICO UNID 1045 10/28. Believe XEMIL is the one which is now NSP here, still waiting for an ID. [TH-CA]

- 1180 CUBA R. Taine 0728 10/27. "Esta es Mi Musica" program o/KER. [TH-CA]

1610 **ANGUILLA** Caribbean Beacon 0119 10/29. Pretty good signal through local WNP405 w/REL programs and full ID. Rarely noted at sunset in the past. Tried for Turks and Caicos 1570, which has been occasionally noted at SSS, but no sign of them. [TH-CA]

#### EUROPE/AFRICA/

180 **USSR** (many locations listed) 1337 10/21. Oriental type mx, then M & W RR annrcs. [BV-NWT]

783 **USSR** many sites 1113 10/20. Noted w/Michael Jackson's "I'm Bad" 1115, M & W RR annrcs. Dominant usually at this time. [BV-NWT]

1386 **USSR** Kaliningrad 0030 10/20. M w/Peace and Progress ID, after EE program. Good signal. [BV-NWT]

#### ASIA/OCEANIA/PACIFIC

576 **AUSTRALIA** 2FC, Sydney 1615 9/23. R. Australia relay w/"Int'l Report" on RSA political situation // 729 & 9580 SW. Fair to poor, KONG aplatter, local QRN. [DP-HI]

630 **USSR** Primorsk 0030 10/21. W CC talk // 720; first time. [BV-NWT]

648 **AMERICAN SAMOA** WUVU, Pago Pago (tent) 1556-1608 9/23. Inspirational mx and hymns by mixed chorus backed by piano, some tunes ending w/"Amen" ("Amen" in Samoan or Hawaiian); @ 1601 very soft W w/talk, more mx. Fair to poor, local QRN/QRN. [DP-HI]

666 **UZBEK SSR** Tashkent no time 10/21. W w/EE nx concerning Soviet politicians and Iraq. This location seems to be all that fits, not sure if R. Tashkent/R. Moscow or R. Peace and Progress. [BV-NWT] (There are no EE broadcasts from Uzbekistan on 666, but there are EE broadcasts from R. Vilnius on 666/6100 each day 2300-2330 according to WRTH and 2130-2200 according to schedule I just rec'd from Vilnius - Jim)

The history of radio in Ontario's southwesternmost metropolitan area - Windsor - has been influenced by the evolution of this medium in this city of 190,000's huge northern neighbor - Detroit. Many people visiting Windsor for the first time are surprised to learn that they are actually south of the USA's eighth largest city. The mile wide Detroit River separates the two cities, linked only by an ancient, two lane, privately owned vehicle tunnel, and the

Ambassador Bridge, commonly the scene of half mile long lines awaiting entrance to customs.

While the Detroit News - owned WWJ-950 in Detroit, one of the USA's first radio stations, began regular programming on August 30, 1920, Windsor did not get its own radio station until June 1, 1932. This facility, CKOK, later became the 50,000 watt, famous CKLW (and will be the topic of another profile), Essex County did not get its own locally oriented station until March 29, 1964. On this day, broadcaster Geoff Stirling of Montreal, owner of several Canadian radio stations, put CKWW on the air, on 580 khz., with 500 watts power. The call stood for "Wonderful Windsor" - an appropriate call, as the station's business philosophy was to concentrate on Windsor and Essex County. CKWW management has not digressed from this credo in the station's entire 26 year life.

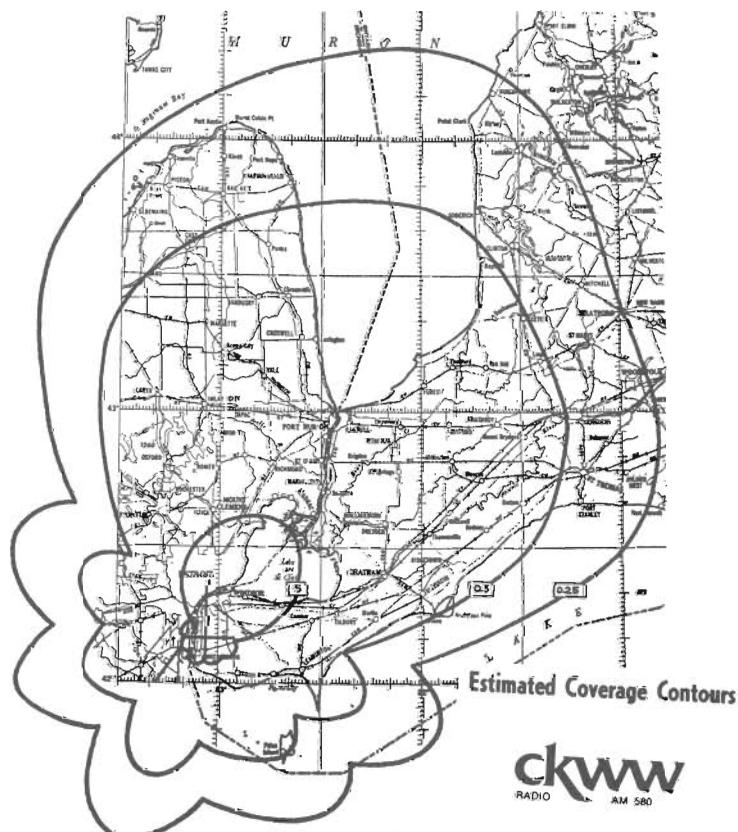

On August 17, 1985, CHUM Limited, owner of several radio stations, including the Toronto rock station of the same name, purchased the station, and its FM counterpart as part of a \$12.5 million package, which also included CKGM and CHOM-FM, in Montreal. Today, CHUM Limited owns eleven radio stations and six television outlets, including CKWW, and CKWX, its FM sister station.

Today the 24 hour station prides itself on informing and serving the citizens of Windsor. It is the only one of the city's four AM stations devoted solely to Windsor. While Detroit, with over a million people is but a mile away, CKWW has never solicited nor accepted US advertising.

The station began operations from studios at 176 University Avenue, in the Canadian Trust Building, in downtown Windsor. In 1966, CKWW moved to the Wilscount Hotel at 1150 Ouellette Street. Over the years, this Windsor landmark deteriorated, as visitors sought out the newer motel chains, near the edge of town. In 1983, CKWW moved to its present suburban location in a two story office building at 300 Cabana Road, East, near Windsor Airport.

In 1967, CKWW's sister FM station, CHOM-FM, at 88.7 mhz, signed on the air, providing Windsor with easy listening "elevator" music. In the past few years, FM 88.7 has become CKWX, a mix of rock and adult contemporary music. It shares the CKWW complex.

CKWW has always emphasized information to the Windsor area, mixed with some adult contemporary music. The station formats three solid news and information hours - 0700-0800, 1200-1300, and 1700-1800, at the height of drive times, and during the lunch hour. AM drive features jovial, friendly Program Director Cam Gardner, who has been on the air at CKWW since October, 1966. His wit, and bits of information join thousands of Essex County residents at bedside, as a breakfast and coffee companion, and in their cars en route to work. Cam's sidekick, Lisa Williams, provides Windsor with social news, celebrity gossip, and traffic updates. CKWW News rounds out the morning with almost exclusively local news, and some network feed. According to Cam, if an accident ties up traffic on a local road during rush hour, you will hear about it quickly on CKWW - and nowhere else! The remainder of the day is given over to talk, news, telephone call in shows, and music. CKWW airs soft music on the overnight.

Windsor turns to ITS station for all local happenings, from school closings to weather and local sports results. The station does many local remotes - from store openings and other commercial events. CKWW is proud of its annual Christmas radiothon which raises money for food and clothing for the needy, and its Boxing Day (December 26) Blood Drive.

CKWW is depended upon in emergencies. In July, 1989, a flood, resulting from days of rain, wiped out many farms and homes in Essex County. CKWW was at the flood scene at 3:30 am with solid flood coverage, until the emergency passed. On July 23, 1990, a farm coop fire, threatening tanks containing pesticides, which finally burned, causing the evacuation of 3000 people. CKWW was present, as the residents fled the toxic smoke.

While CKWW shuns advertising from the United States, a Detroit story covered live was Pope John Paul's visit several years ago. CKWW broadcast the event from its studios, with Wayne Stevens hosting, assisted by a priest and a nun, serving as technical experts. The audio was from the pool feed - as Wayne, the priest, and the nun described the scene as the Pope left the cathedral, the audio caught the car door slamming. All Detroit and Windsor radio station cooperated fully in this pool coverage.

CKWW also features Ontario Hockey League play by play. Airing 110 games each winter, listeners enjoy following the Detroit Ambassadors and Windsor Starfires.

In its heyday, CKWW employed 120 people, but the payroll is down to 50 people, including 20 in news and programming. The station, and sister CIMX occupy the entire second floor. CKWW uses one control room (immediately behind the receptionist as one enters the floor), two production studios, and an on-air news room. CKWW remotely feeds its transmitter in River Canard, which, in turn, uses a four tower array to push its pattern toward London.

At a time when AM radio is faced with a tremendous loss of listeners, CKWW serves a large, loyal audience in Windsor and Essex County, which relies upon this station for its news, information, and entertainment.

The editor wants to thank Cam Gardner, CKWW PD and Jim Valvasori, Chief Engineer for their help in preparing this station profile. Virtually all of Cam's broadcasting career has been at CKWW. His show is Windsor's most popular radio program.

## Denon To Make "Super" Radio

by Alan Carter

Washington DC Denon America and the NAB have reached an agreement for the electronic consumer manufacturer to make and sell the NAB "super" AM/FM radio.

The receiver is expected to be on store shelves by early 1991 and retail for \$495.

Among the features the receiver will include are NRS-C audio circuits, C-QUAD AM stereo, FMX stereo extension, expanded AM band reception and an interim AM/FM preset memory.

The "super" radio has been in development by NAB since 1987 and

turned into a long and tedious process with setbacks in design.

But NAB Science and Technology Senior VP Michael Rau wasn't thinking about the problems the association had in getting the receiver into production.

The Denon/NAB radio, marks the first time broadcasters have influenced the development of a radio, Rau said.

"It's never happened before," he said. "It's a start, but it's not the be-all to end-all."

Rau described it as the receiver for the audiophile who wants "to feed their hi-fi systems with the best quality audio signal from AM and FM broadcasts."

The idea for the super radio grew out of A.M. committee work within the Na-

tional Radio Systems Committee (NRSC), when broadcasters took the position that receiver manufacturers needed to build radios to complement changes broadcasters were making in transmission standards.

In a prepared statement, NAB President & CEO Eddie Fritts suggested the receiver would "unlock" the new sound of AM and FM for consumers in the 1990s. "It will show consumers that the state of the art, particularly on AM, is much better than they hear on virtually all existing receivers."

**ANDY RUGG (VE2AQP) - 669 DE GASPE #218 - NUNS ISLAND, PQ H3E 1J1**  
BCB DX has been curtailed since my last Muse early this year. My only new catch was WZNN-930. I relogged CFCH-600 during RS when local CFCH-600 was silent for a few days. I really tried hard for the WMM-990 call change but lost out when local CHTX moved to 990. Veries drifted in from CFCH-600, WADN-1120 & WRCA-1330. My limited 'radio time' was devoted to the higher frequencies of SWBC and ham radio mobiling. I expect to resume BCB DX seriously in November. Although I had to leave early, I really enjoyed the Pittsburgh convention. Everything you've read is true! Over the years, I've been to 12 NRC conventions, Pittsburgh was among the Top 3 in my book! Well done gang! In the April 16th DX NEWS, I was intrigued by the tale of Shawn Axelrod & Wayne McRae losing their antenna to a snowplow! In mid May, I had an unusual and unexpected experience with a tree trimming service. There was a happy ending. In the winter, I string up a 130 foot longwire through the trees in the court yard behind my apartment. The area gets snowed in, the wire is almost invisible and nobody notices it or seems to mind. I planned to take it down in mid May, as usual. The scheduled day, I was awakened early by the unexpected sound of chain saws. For the first time in years, my landlord had brought in a tree trimming service to thin out the foliage in the courtyard. They had parked their truck underneath the tree at the far end of my antenna and were eyeing it most inquisitively. I left for work soon after, anticipating the demise of my longwire after 5 years service. Was I surprised when I got back! They had very delicately removed the antenna, coiled it up and left it intact on the ground outside my window. All I had to do was haul it up. The courtyard is much sunnier but there are fewer branches and trees that I can use to string up my winter antenna. I tried out an installation in mid October and it broke twice. I expect to succeed by mid November. Initially there was a problem because my favorite tree was chopped down and all the desirable branches were now 25 feet high instead of a 'reachable' 18 feet. However, I can get ropes 25 to 30 feet up by throwing a heavy fishing sinker attached to fish line. Accordingly, my antenna should be at least 2 yards higher than in prior years, making it more 'invisible' to the few passers-by. By utilizing some different trees, I expect to string up a shorter antenna (say 120 feet) with one slight bend in it. Read my next Muse to see what happens! On 1/1, Canadian postage rates will go up again. The rate from Canada to the USA will become 46¢. At the same time, a new 7% "General Sales Tax" will be added to the purchase price of stamps. A 46¢ stamp will cost 50¢. If you want to stock up before the tax arrives, I can provide Canadian stamps in return for US dollars, as I have been doing for NRC'ers at cost for several years. If you rarely send reports to Canada, may I suggest simply loading up on 50¢ stamps/booklets which should be good for a few years to come. 73's. (Andy sent in one of the BIGGEST reports yet...on a 1 1/2 by 10 sheet of paper! Really big-hi-!-DS)

**PHILIP BOERSMA - 15570 CLEVELAND ST. - SPRING LAKE, MI 49456**  
Greetings! Well, the "this is NOT how you run a radio station" award in these parts goes to WFMZ-640 Zeeland, one of the goofiest operations I've ever heard. They signed on last summer with a B/SOL format (in a town with no blacks, none for miles around). That lasted until Labor Day when they went silent. Around the end of September, the really weird stuff started. Since the end of that month, they've been operating very irregularly, at less than full power, with a variety of automated formats. For most of October, they were CW and on the air only 3 or 4 days a week, lately they've been on almost every day for a few hours, but alternating between CW & EZL. They also have no phone, it was disconnected. I can't figure them out, I wonder why do they even bother? Question for the membership, does anyone out there know what is behind the MTV promotion where they are supposedly giving away a radio station? What station is involved (I suspect a bankrupt AM'er somewhere)? And how does MTV expect FCC approval of this transfer of license to a contest winner? I guess stranger things have been known to happen, but if anyone out there knows the details, please let the rest of us know! 73's

**MIKE HARDESTER - PO BOX 8159 - CAMP LEJEUNE, NC 28542-8159**  
Greetings! Although no DX this past week, I did receive a v/1 from W3SC-1550 which used my return postage, address label and returned my report. The v/s was Ken Harmon, GM. I reported via the address in the NRC LOG but the letterhead and envelope have the following address: Broadcast House, One Radio Road, Bennettsville, SC 29512. Phone # 803-479-7121. This coming week, I hope to start an AM Band Scan which should prove interesting. On the truck radio, there's about 1/2 dozen AM stations audible during the day, and I am anxious to see what the R70 and Radio West Loop come up with. All for now, very 73 and best of DX de Mike.

**DON TRELFOED - 3 MUIRBANK BLVD. - SCARBOROUGH, ON M1C 4R8**  
My first Musing to you and congratulations on taking over Musings. Was at the Pittsburgh convention, my first, and had a fine time, and met many members (too many to mention here), but a special mention to Kermit Geary and his wife, and thanks again to him for our 'impromptu' tour of Pittsburgh. Congratulations to John Malicky & Chris Cuomo for a great program. Will definitely attend next year, if at all possible. Seems like the DX season is starting again and I notice a change in the pattern from what regulars were coming in last season. For instance now on 1300 where WERP was coming in, WOOD has taken its place, a trend to the west which will

welcomed, to get some new stations. Worked the Graveyarders most of the summer with some fair results, but the last few nights, they were a mess, invariably they fade or are blocked at ID time. Veries are slow as usual, but had 2 good weeks (7 in one week, 4 the next). Some that I gave up on came in, WAKB after nearly 1 year, CJSB the same, and WFEL from a March report. Up to 182 since Sept. '89. On the subject of IDing stations, the situation came up 10/23 on 1240 where I heard what sounded to be WSCM but on checking the new log, there was no such animal, but with the jumble of signals, the calls came in distorted. I note there is a WFTM and WFTN on 1240 the most likely candidates, but which one? I do not have enough material heard to pinpoint either one, only a local phone number with no area code. I am inclined to go with WFTN (Franklin, NH) as the PQ stations were breaking through that night. I will not send a report to either station and I hope they will surface again another night. I am interested in getting a loop antenna and have heard that Radio West has a good one for AM, but do not have their address. Also saw a review in Pop Comm on the Palomar Channel Cleaner, does anyone have one or tried it? 73's

**DOUG SMITH - 3105 OAKRIDGE AVENUE - MADISON, WI 53704-5848**  
The contests seem to have got me going this year. Managed 218 stations in the "how many can you hear in a week" contest, and heard over 20 new ones in the process. The new ones continue to come in although not quite as quickly. WPDQ is especially appreciated, I've been trying for them (and other PL stations) for a long time. They were excellent for at least 2 1/2 hours, probably on day pattern/power. No ads heard but no mention of emergency operation either (it sounds like a test to me-DS). I don't know what it did for their local coverage but CHTX's frequency change has done wonders for their DX coverage. CHTX is LOUD pretty much from 2000 till 0730, I have to null them to hear CBW at all! Had a couple of 'almosts' this month that I would sure like to ID. On the 12th, there was someone under KFYO with ag news and two mentions of MT, possibly KGH. On the 13th, WJUP was really weak, KTOC owned 1000 but there was a REL station in there also. KTOC & WJUP are the only two stations I've ever logged on 1000. On the 24th, it was WGY's turn to disappear for a few hours, heard one station with Talknet (probably KCMO) and another in Spanish, with a couple of mentions of PR. Would sure like to claim WKVM, but also heard a few ads. WKVM is listed as religious. Also on the 24th, there were two stations under WHAS, but as Murphy would have it, they both faded at ID time. Does anyone collect antenna pattern charts? The CE of KFYO included one with his verification letter. (Better known as Coverage Maps in radio lingo, CM's in club lingo-DS).

**KARL V. JETER - 2115 SCARBROUGH ROAD - STONE MOUNTAIN, GA 30088**  
Greetings! DX has begun to pick up after a summer in the doldrums. Already, I have heard both of the scheduled tests from the CPC, and with many tantalizing tests upcoming, it should be a great DX season. WLUX-1550 made it through the severe interference from WRHC Coral Gables and another Spanish station (presumably a Cuban) with tones, code ID's and even one voice ID. WFRM-940 also made it in here on the strength of a couple of code ID's during the first half of the test, nothing noted during the second half while they were presumably on their night facilities. Other recent DX worth mentioning is excellent copy taken on CHIN-1540 finally on the morning of 10/15 with basically French programming, although the announcer did go back and forth between French and English. The only verie received since spring is a v/1 from WADK-1420 Trenton, GA for a 10/89 report. This verie was a result of a visit to that station a few weeks ago while on one of my frequent sojourns into the N GA mountains. The station is between the town of Trenton and Lookout Mtn in a mobile home, the transmitter/tower is atop Lookout Mtn. I met June Pike, the OpM, who was totally surprised by my playing of the tape of the reception. She recognized the voice on the tape as one of the station announcers and she immediately called the guy and told him jokingly that a 'guy from the FCC was here because his big mouth made it all the way to Atlanta'. I showed her the NRC AM log, left her one of the 'Broadcaster's Guide' pamphlets, and a sample copy of DX News. Despite all of that, I left verie-less, as she was a little unsure and wanted to check with the station manager. But a nice letter did finally arrive, almost a year after the reception! Oh boy, just what the Atlanta area needs, ANOTHER religious broadcaster on AM...re the 830 Smyrna station. What an incredible waste of air space, as most of them are 'shoestring' operations anyway, we can only hope for some kind of shakeout soon where some of these stations start biting the dust. 73's

**DAVE SCHMIDT - PO BOX 11502 - WILMINGTON, DE 19850**  
Due to a very heavy workload this past week, this is going out a day early, this is all that's been received thru 11/2. I hope this copy shows up OK as I'm trying a different pitch for the spacing, even though a few "holes" were showing up in the print face (ie: the ribbon in the machine looks like it was recycled-hi!). Some of the above reports are what we are looking for content-wise, you can be assured that rebashed non-related DX info sent in won't show up here! We lost the contract at WCNZ-1590, the financial state of AM radio took it a toll and they did anyway with the engineering budget. In the meantime, I've picked up some studio install work and work again in South Jersey. That's it for this week; 73's.
