### CPC Test Calendar

KGEZ ..... MT ..... 600 ..... Dec. 1 .... 0200-0300  
KTFI ..... ID ... 1270 ..... Dec. 13 .... 0200-0300

KGEZ-600 - P. O. Box 169 - Kalispell, MT 59903 will conduct a DX test at 5,000 watts directional daytime pattern between 2:00 and 3:00 am EST. The test will include code ID's. Reception reports may be sent to Mr. Tony Mulligan, CE. Note: KGEZ requests an SASE be included with QSL requests; add one IRC for overseas DX'ers. E-Mail: mulligan@cyberport.net; Web: <http://www.cyberport.net/kgez/>. Test arranged by J. D. Stephens.

*From the publisher ...* We received notice that NRC member John F. Peterson, Minot, ME passed away recently. Our sincerest condolences are with his family.

We also have receive requests from three Long Island DX'ers (so far) to replace their #5 DXN. What's going on? Mail truck hijack? Perhaps someone there can file a complaint with the local USPS (which will do no good, nor no harm, but will annoy them as much as our LI members have been annoyed). Might even get them to look for the missing DXN's. We've also received feedback from Lance Thomas to the effect that increasing the postage to 51c, the correct AO rate, has speeded up delivery to his Canadian address by as much as a week. On the other hand, the impending postal strike in Canada may nullify that effect for some time ...

E-mail recently seems not to be 100% reliable, either. Remember, if you're sending an item for DXN to Topeka via E-mail and don't receive a confirmation from the publisher, I probably didn't get it and you need to re-send.

I might mention here that if you haven't received your order for the NRC AM Log, don't despair; Ken is wrapping and shipping a record number of orders as quick as he can. But after a reasonable interval, say five weeks, if you haven't received your order, a postcard inquiry to Ken might be in order.

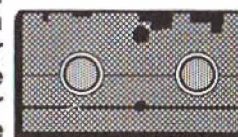

*Welcome to these new members ...* Lenny Goldberg, Ashland, OR (rejoins); Frederick J. Trescher, Philadelphia, PA; Bill Brubaker, Washington, DC (rejoins); Louis Buehler, Winfield, MO (rejoins); and Stephen R. Gaughan, Alexandria, VA.

1400	WGIL IL Galesburg: 740/740 U1

### OTHERNESS

550	WPNW RI Pawtucket: for over three weeks this station has been IDing as WLKW, but as of this date (11-7) the FCC Database still shows WPNW as the licensed call, and no Public Notice of this call change has been issued. The station is evidently using "WLKW" as a slogan and may eventually make a legal change to this call (see 790 below)
600	KNVA AZ Flagstaff: CP to relocate transmitter is on
790	WLBE FL Leesburg: CP to relocate transmitter is on
790	WLKW RI Providence: station began using the call WLJW when WPNW-550 began using WLKW, again no record of this change being official (see 550 above)
840	KRKL CA Yountville: CP CANCELLED, call DELETED
900	WCER OH Canton: CP for 500/75 U1 from new transmitter site is on
920	WTRS FL Dunellon: license CANCELLED, call DELETED
1030	WBGS WV Point Pleasant: power is 10000 (2900 CH) D5; evidently the FCC listed the

CH power as the primary power in its original Public Notice as both the NRC Log and MSJ Directory show WBGS as 2900 D3; FCC on-line database confirms 10000 watts as daytime power

1090	WNVY FL Cantonment: silent station is ON THE AIR
1270	WCKN SC Surfside Beach: license CANCELLED, call DELETED
1340	WNHC CT New Haven: CP to relocate transmitter is on
1380	WCOO NC New Bern: license CANCELLED, call DELETED
1400	KQMS CA Redding: CP to relocate transmitter is on
1470	WLQR OH Toledo: CP to relocate transmitter is on
1640	KKJC OR Lake Oswego: FCC issued these calls to KKSL's X-Band station in error. Somehow the FCC had entered this station in their database as a new FM station, rather than an X-Band station. The FCC has stated they are "not yet equipped to grant call letters to expanded band stations". This calls into question the recently reported "grant" of KGXL to 1650 Costa Mesa, CA (see AMS Issue 6)

### MEDIUM WAVE RAMBLINGS

- I cannot stress this enough . . . PLEASE format your loggings as seen in this column. I had a couple of reports this week that were real time consuming to change around, and that is no fun. I don't care if it's OK with other clubs, but I cannot spend time rearranging your loggings if you are too lazy to comply! And those of you who report via E-Mail and insist on using spaces to make the logging appear like it does here, send yourself the same message and see what it looks like after delivery. Not a pleasant sight, hi. So just keep typing and let the word wrap do its thing. Thanks. (Please do not annoy DXN editors. If you do, I'll hunt you down and make you type up the column just once as they have to do with bad submissions -pls)
- Patrick M. Griffith, N0NNK of Federal Heights, Colorado writes: "Just wanted to pass on some info on local station (to me) KOA-850. They use a 665-foot guyed monopole tower for an antenna, located near Parker, CO southeast of Denver. The transmitter is a Continental 317C-2 and the backup is a GE BT50. The mailing address in the 16th edition of the NRC AM Radio Log is still current. The CE is Jan Chadwell." Immediately prior to stoking the fire one last time, Shawn was heard to say: "Now that was a great night/morning! The wether [sic] was darn near perfect and the little snow that was on the ground was great for dragging in toboggans full of equipment and wood for the stove. We managed to lay down 12 long wires or beverages in about 4 hours. Lots of walking on that farm field. Sore legs were the order of the day. But as you can see the DX was well worth every step. We weather permitting are planning a trip every 3-4 weeks. Only disappointment was no TAs or TPs. Usually haul in a few this time of year. Oh well 7 new domestics will do just fine thanks. The Mexicans were in big time all over the place some of them dominating the frequency on several wires at a time. Have to love it!!!" It's good to hear from Gary Houdek of Kansas again. He says he's been busy with farm work. But still cranked up the ol' Superadio to hear a couple of good ones.
- Gary Jackson has tried all other help, and now has come to the "knowers-of-all-things", hi. See TIS below. He also writes: "Noticed in Volume 65 - #5 that JS-AZ had heard Culver City, California TIS. Their verie address is: Randi Joseph, Public Information Officer, City of Culver City, Culver City, CA 90232. Have a nice verie from Bryce Canyon National Park."
- o A great turnout, with some great loggings and tips!!

### SPECIAL

- 610 KSKE CO Vail - 10/28 1945 - Noted with new, all-talk format, much of it local and state-oriented. Runs SS on Saturday mornings. They often "forget" to power down at LSS, ruining my chances for SSS on channel. (JW-CO)
- 870 KLSQ NV Laughlin - 11/4 0600 - Looks like this is the most dominant station (in the mess) now in SS as Super Q. ID on hour in EE, KLSQ Las Vegas/Laughlin. (FA-ID)
- 950 WZDB IL Chicago - 11/8 2100 - Fair signal in CFAM null, with a sports talk program and a WZDB ID on the hour. NEW!! (VAL-DX)
- 1220 KMIA CA Pomona - 10/12 1300 - Call change (ex: KWPA) and now all-SS. Slogan is Radio Mia. Good signal days. (MS-CA)
- 1360 WKYO MI Caro - 11/13 0300 - In poor, but clear. Silent station has returned to the air! Was reported silent recently. Phone call from me to station confirms station was silent and returned to the air on 11-07. (JJR-WI)
- 1540 KPAD TX Fort Worth - As mentioned last week, KPAD has switched to a SS format with Jones Z Spanish Radio Network off the bird. Slogan is La Z1540. I wonder how long this will last. [Ed.-TX]
- 1650 KGXL? CA Costa Mesa - 10/29 0945 - Loud 1 kHz tone noted this morning. There has been a solid OC here for the past week or so. Signal seems to come from east/west (KLTx towers?). They've stated they'll be on the air by the end of the year with KGXL call letters instead of KBTL. (MS-CA) [The FCC's database shows this X-band application to be a two-site operation, with daytime tower at N33-53-30 W118-11-03 (KLTx) and night tower at N33-45-06 W117-54-38. There are a couple more stations in the Expanded Band where two tower sites are designated. My theory is that with the 10 kW days, they can possibly cover a large, nearby metropolitan market, as well as their city-of-license, if the tower were closer to the former. But with only 1 kW at night, they must locate the tower near the city-of-license. By the way, this application shows only 930 watts at night - Ed.]
- 1700 WCMQ FL Miami Springs - 11/3 2128 - With talks, commentaries, phone-ins, many political ads. All in SS, of course. Best ID I heard was CMQ, Doce Diez AM. Had news at 2200, weather for Florida and Cuba at 2206, then off without fanfare at 2207. Fair, at best, with long fades. (JW-CO)
- WCMQ FL Miami Springs - 11/4 2250 - Good, with Spanish sportscast, ID in English & Spanish at 2300: This is WCMQ Miami Springs, anchor Raoul Anercon (???) radio station. Fair-to-good every evening since. (RS-MO)
- WCMQ FL Miami Springs - 11/6 0600 - Fair, in SS. (GJ-CA)
- WCMQ FL Miami - 11/7 - Has been pretty weak but as of right now, 0100, is solid! SS with some kind of very fast mention of This is a ?? Station in EE. (FA-ID)
- WCMQ FL Miami Springs - 11/8 - Weak, with some complete fades to noise. 2030 with SS music format. CMQ La Gran Cadena slogans. 2053 spot for concert in Miami. 2059 EE ID WCMQ Miami Springs plus two other (FM) calls mentioned. 2100 news. Nice to log Florida again. (Jcj-MT)
- WCMQ FL Miami Springs - 11/8 2040 - Good signal, with Latin music program and non-IDs as CMQ. (VAL-DX)
- 1700 WCMQ FL Miami Springs - 11/8 2200 - Fair, with full ID. Male/female announcers with news. NEW. (JJR-WI)

### UNIDs and UNID HELP

- 750 UNID ?? - 11/8 1720 - Poor signal, with East Indian music. (VAL-DX)
- 860 WGOM IN Marion - (see issue 5) - CR-IL's unID of 10/5 is probably this. They use the phrase Welcome to Prime Sports and is a daytime here. (RP-IN)
- 890 UNID ?? - 11/9 0815 - Fair-to-poor signal for about 5 minutes, with classical music. (VAL-DX)
- 1110 UNID ?? - 10/26 1900 - SS ID, then a song in EE. Very weak. KFAB off due to snow storm. (GH-KS) [Maybe XEWR Ciudad Juarez. They play US oldies and get out very good - Ed.]

- 1140 UNID AB - 11/11 1926 - Fair-to-good, mixing with KSCX, WRVA and XEMR. *News and weather for southern Alberta throughout the day on AM 1140. Into inspirational programming (The Voice of Victory, etc.). No calls, didn't hear a legal ID at 2000, just AM 1140. Still haven't received NRC LOG #18 (!), but 17th Ed. lists CFXL Calgary as moving to FM soon, and CHRIB in nearby High River with application pending to move here from 1280. So I don't know which one I had. (RS-MO) [New Log says CHRIB is there now - Ed.] (#18 is shipping; be patient; but if you feel that it may have been lost in the mail, send Ken a postcard -pls)*
- 1670 UNID ?? - 11/1 & 11/2 0600 - Strong carrier, but no audio. (GJ-CA)

### TIS & OTHER STUFF

- 530 WMWM881 ND West Fargo - 11/8 1614 - Poor-to-fair signal, with travel and shopping information by woman. (VAL-DX)

## DDXD-East

Deadlines for DDXD-East are weekly on Tuesdays.

## STATION NEWS

- 1700 WCMQ FL Miami Springs - 11/12 1629+ - Didn't take too long for Fidel to get a jammer here, noted today right on 1700 kHz, very slightly warbling buzzer-type,

similar to the old 1141 jammer of yesterday. CMQ overall atop it way up here. (TLK-FL) [And see more WCMQ loggings below. - DY]

## UNID and UNID HELP

- 710 UNID - --- - 10/29 2252-2307 - SS behind WOR, upbeat music following several musical "beeps" on the hour, short sound effect used between news items. Is this WAQI or Cuba? Also FF man's voice briefly 2252-2254. (MW-CT) [SS sounds like Cuba's Radio Rebelde, FF is probably CKVN. - DY]
- 890 UNID - --- - 11/10 1815 - Talk by woman in SS, poor in WLS null. Is this WBPS? No strong Cubans on 890 that would be likely so early in the evening. (MB-ON) [Cuba or Colombia is quite possible. - DY]
- 1110 UNID - --- - 11/11 1650-1700 - SS, nothing IDable heard. Could be either WNNZ or WPMZ on PSSA. (RJE-PA) [WPMZ has been heard a lot here the last couple weeks. - DY]
- 1270 UNID - --- - 10/31 2120 - High school football game, one team was Norwood. Ad for Wicks Electric and Plumbing, 690 E. Monroe St. in Lickdale, announcers had light southern accents. Could be unneeded WLJK. Getting pounded by station in Asian language. (SK-PA) [WLJK is likely. - DY]
- 1440 UNID - --- - 11/10 1710 - C&W music, ID as "*Real Country*." (WM-MD)
- 1570 UNID - --- - 11/1 2200 - "*Solid gospel 1470 and 1570*" heard several times through the night, but no other clues. Big mix. (SK-PA) [WXLN, probably, listed as // WBUL-1470. - DY]

## LOGGINGS: 0000-0800

- 540 WDAK GA Columbus - 11/3 0240 - "*Call 544-???? ... sponsored by ... WDAK*," return to One on One Sports. Over, under WWCS in a big mix. (SK-PA)
- WZER WI Jackson - 10/27 0344 - Mention of upcoming Christian concert coming to Milwaukee, followed by what sounded like Christian rock music. Fair but much noise. (RCP-IN)

- 1190 WLIB NY New York - 11/12 0727 - Good over usually-dominant WOWO with ad for Mortgage Acceptance Corporation, local traffic report, promo for WLIB's "Caribbean Connection" program. Despite WLIB's power boost, WOWO is still top dog here. (MB-ON) [I don't think WLIB's power increase, or WOWO's power cut, have happened yet. - DY]
- 1290 WHGR MI Houghton Lake - 11/6 0709 - Poor under CJBK with local sports, announcement "*when you see news happening, call WHGR at 517-...*" Phone number killed, but at least the area code was heard, which fits this part of Michigan. (MB-ON)
- 1360 WKMI MI Kalamazoo - 11/1 0730 - Fair with PSA for United Way of Greater Kalamazoo, promo for Imus in the Morning on "*the big 1360, WKMI*." (MB-ON)
- 1370 WMJT WV Moundsville - 11/13 0700 - Fair with ID "*The one bright spot on your AM dial, the all-new WMJT ... call us at 845-3048*," into UPI news. QSLED as WEIF in 1979. (MB-ON)
- 1390 WKDR VT Burlington - 11/3 0706 - Fair over WDCW with local news, ID "*WKDR news time is 8 past 7:00*," into ad for Bart Home Decorating Center and "*WKDR Weather Watch*" local weather. (MB-ON)
- 1540 WMYF NH Exeter - 11/12 0631 - In briefly after power/pattern change, state and local news over, under WDCW, KXEL not heard. Gone by 0635 with KXEL back up. (RJE-PA)
- 1600 WPDC PA Elizabethtown - 11/1 0050 - Jingle "*WPDC*" and ad for Clearview Lanes in Mount Joy. Atop for this, but mostly under WWRL and mixing with NOS, C&W stations. (SK-PA) [This is turning into a real pest here; the jingle sounds just like the one on WQTW-1570. - DY]
- 1700 WCMQ FL Miami Springs - 11/7 0344 - SS talk and weather report for Havana and other Cuban cities as well as Miami. CMQ call ID's per Hispanic co-worker who translated tape I made. Signal was almost local-like with no fading whatsoever. Per tip from Mark Burns. (RCP-IN)
- + 11/9 0000 - Music and announcements in SS, very weak in QRN. (MH-NY)

## LOGGINGS: 0800-1600

1130 WDFN MI Detroit - 11/13 0808-0813 - Weather and ads, ID "Sports Radio 1130, WDFN, the Fan." Good with WBBR nulled. (MW-CT)

## LOGGINGS: 1600-2400

530 CIAO ON Brampton - 11/3 2017 - Ads for Best Diamonds, Canadian Armed Forces recruiting. "You're listening to Hot AM 530." Rare since R. Vision Cristiana moved here. (SK-PA)

## DX Digest

**Foreign DX Catches. Times are UTC; for ELI, subtract 5 hrs.**

This week we welcome Pat Griffith and Gary Jackson as new reporters, for a grand total of ten. Let's make it twenty reporters next time!

### TRANS-ATLANTIC DX

- 162 FRANCE NOV 1 0348 - noted with male announcer playing Bob Dylan's "Lay Lady Lay"; fair to poor. [Wolfish-ON]
- 171 SP. MOROCCO Medi-Un, OCT 31 2234 - noted in passing with Meatloaf's "I Would Do Anything For Love, But I Won't Do That"; poor. [Wolfish-ON]
- 183 GERMANY Europe Un, NOV 1 0307 - French announcer playing music by Natalie Cole and The Gypsy Kings; fair. [Wolfish-ON]
- 189 ICELAND RUV, OCT 31 2139-2200 - with a mix of 1970s pop and rock by Hamilton Joe, Frank & Reynolds, Eric Clapton, Andy Gibb, The Carpenters, Lynyrd Skynyrd and Frankie Valli; presumed ID and newscast by man at top of the hour; best LW signal at this time. [Wolfish-ON]
- 252 ALGERIA OCT 31 2252 - noted with jazzy music; male announcer talking to a woman in French; poor with no sign of Ireland's Atlantic 252 yet. [Wolfish-ON]
- 531 ALGERIA, Ain-El-Beida, NOV 9 0013 - // 549 with AA female vocal; fair, in mix with Spain & Madeira. [Connelly\*H-MA]
- 531 MADEIRA, RDP, Porto Santo, NOV 8 2352 - PP talk; fair, somewhat over Spain / Algeria. [Connelly\*H-MA]
- 549 ALGERIA, Les Trembles, NOV 8 2318 - good with woman in AA. NOV 8 2355 - AA woman on phone & man in the studio; piling in. NOV 9 0012 - wild flutes & electronic organ / violin sounds, reverberated female vocal; blasting in at S9+40 (!): about 15 to 20 dB stronger than the 550 kHz domestics. [Connelly\*H-MA]
- 576 ALGERIA, Bechar, NOV 9 0015 - // (local-like) 549 with piercing flutes & vocal; poor to fair in a mix with apparent Spain & Portugal. [Connelly\*H-MA]
- 585 SPAIN, RNE1, Madrid, NOV 8 2322 - SS teletalk fair through static. Up to HUGE level when re-checked at 2351. [Connelly\*H-MA]
- 594 MOROCCO, Oujda, NOV 8 2350 - // 612 with AA male vocal, drums; fair. [Connelly\*H-MA]
- 603 SPAIN, RNE5, Sevilla / Palencia, NOV 8 2348 - SS teletalk; fair. [Connelly\*H-MA]
- 612 MOROCCO, Sebaa-Aioun, NOV 8 2347 - bombing in at local-like strength with AA female vocal & instrumentation. This was at least 15 dB stronger than WGR/WIP on adjacent 610. [Connelly\*H-MA]
- 621 CANARY ISLANDS // SPAIN, RNE1 synchros, NOV 8 2324 - SS teletalk // 585; fair. [Connelly\*H-MA]
- 639 SPAIN, RNE1, La Coruna et al., NOV 8 2325 - SS teletalk; poor to fair. [Connelly\*H-MA]
- 684 SPAIN, RNE1, Sevilla, NOV 8 2357 - fast SS talk by man; loud. [Connelly\*H-MA]
- 693 AZORES, RDP, Santa Barbara, NOV 8 2358 - PP talk; atop an apparent UK / Spain mix. [Connelly\*H-MA]
- 729 SPAIN, RNE1, Oviedo et al., NOV 9 0023 - piano, female nightclub-type vocal // 738; good, over others. [Connelly\*H-MA]
- 738 SPAIN, RNE1, Barcelona, NOV 8 2204 - SS teletalk with man & woman; to good peaks through static crashes. [Connelly\*H-MA]
- 792 SPAIN, SER, Sevilla, NOV 8 2254 - man with SS newstalk & teletalk; good punchy audio. [Connelly\*H-MA]
- 819 MOROCCO, Rabat, NOV 9 0005 - // 612 with group AA vocal, flutes, drums; to good peak. [Connelly\*H-MA]
- 836 AZORES, RDP, Pico da Barossa, NOV 8 2159 - back on this frequency (after a short-lived move to 837). PP talk by woman; slight 1 kHz het from Canaries- Spain-837. [Connelly\*H-MA]
- 855 SPAIN, RNE1, Murcia et al., NOV 8 2250 - SS talk with interspersed bits of music; good. [Connelly\*H-MA]
- 891 ALGERIA, Algiers, NOV 8 2150 - woman in AA; to good peak. [Connelly\*H-MA]
- 918 SPAIN, R. Intercontinental, Madrid, NOV 9 0006 - announcer mentioned "música en la noche", then dance music (that was talked over several times) followed; good, about equal in

- strength to the 920 jumble. [Connelly\*H-MA]
- 954 SPAIN, R. España, Madrid, NOV 8 2243 - man & woman in SS mentioned Valencia; excellent. [Connelly\*H-MA]
- 981 ALGERIA, Algiers, NOV 8 2242 - shrill AA vocal at light audio level on fat carrier. [Connelly\*H-MA]
- 999 SPAIN, COPE, Madrid, NOV 8 2307 - excited SS talk by woman; good. [Connelly\*H-MA]
- 1044 MOROCCO, Sebaa-Aioun, NOV 8 2337 - lingering here with an open carrier after normal programming concluded. Signal was at "monster" level with Spain audible well under. The carrier abruptly went off the air at 2339 UTC. [Connelly\*H-MA]
- 1044 SPAIN, SER synchros, NOV 9 0027 - SS talk mixed with a weaker second station (Morocco off at the time). [Connelly\*H-MA]
- 1053 MOROCCO, Tanger, NOV 8 2337 - // 612 with AA male a cappella vocal; LOUD and totally dominant. [Connelly\*H-MA]
- 1062 DENMARK Danmarks R., Kalundborg, NOV 2 0517-0523 - Only fair with man in Danish and "Avalon" by Roxy Music. Unstable signal with peaks lasting less than a minute. [DeLorenzo-MA]
- 1251 LIBYA, Tripoli, NOV 8 2216 - AA female vocal; very good. [Connelly\*H-MA]
- 1296 SPAIN, COPE, Valencia, NOV 8 2236 - man & woman with SS teletalk; poor to fair with some T-storm QRN. [Connelly\*H-MA]
- 1314 SPAIN, RNE5 synchros, NOV 8 2234 - SS newstalk & part of a speech; to good peak, some static. Norway was completely blocked off by high absorption on northern paths. [Connelly\*H-MA]
- 1314 NORWAY 02 NOV 0326-0345 - Het noted here up and down in strength during this time, no audio but may be hint of things to come! No other hets noted on other TA freqs. Nothing heard since but hope springs eternal! [Winkelman-OK]
- 1349 MAURITANIA, R. Mauritanie, Nouakchott, NOV 8 2230 - fast group vocal & percussion; to fair peak. [Connelly\*H-MA]
- 1548 KUWAIT VOA Kuwait City(?), NOV 2 2230 - fair with VOA programming. Distinctively heard "I'm \_\_\_ in Studio 4, and this is VOA Today", then news. Was about an S4...the domestics were still weak enough to allow intelligible reception. [Hawk-VA]
- Mark speaks:* "Just a few logs here this time from a quick 2.5 hour session at Harwich on Saturday night. It was pouring with rain at the time and there were gale force winds. Static crashes were hitting over S9 (more like July than November). Lightning strikes must have been within 200 miles, although I noted none within visible range. It made for some noisy DXing. There must have been a bit of auroral-zone extension since northerly TA's were at a big disadvantage compared to those from Spain, Morocco, and Algeria. The best signals were on the low end of the dial. Algeria-549 and Morocco-612 were the two strongest TA's: both were virtually local-like. It would be interesting to compare my DX observations with those from the active European DXpeditions and any other US/Canadian loggings made at the time."

#### PAN-AMERICAN

- 530 TURKS & CAICOS RVCL, NOV 2 0559 - Very loud and clear with EE ID mentioning WWRV-1330 NYC, followed by SS jingle and announcements in SS. Alone on channel. [DeLorenzo-MA] NOV 4 0500 - Good with full ID in EE then back to SS program - ID included mention of WWRV 1330 New York. [Griffith-CO]
- 540 MEXICO XEW San Luis Potosí, NOV 9 1044 - Very good signals over CBK with a music program. [VAL-MB]
- 730 MEXICO XEX Mexico DF, NOV 9 1147 - Good signals even with or over CKDM with music. [VAL-MB]
- 760 MEXICO XEABC Mexico DF, NOV 9 0038 - Good signals with man reading the news and an ABC ID [VAL-MB]
- 770 COLOMBIA HJX Bogotá, NOV 9 0110 - Good signals on top of everyone with RCN programming and ID's. [VAL-MB]
- 780 MEXICO XEMTS Tampico, NOV 12 0435 - solid with WBBM phased way down, call letter ID and mentions of Tampico, SS too fast for me to get more details. [Winkelman-OK]
- 800 MEXICO XEROK Cd Juarez, NOV 9 0438 - Very Good signals over everyone with ballad music. [VAL-DX]
- 830 MEXICO XELA Mexico DF, NOV 9 0044 - Poor signals with a classical music program. [VAL-DX]
- 840 MEXICO XEIO Tutla Gutierrez, NOV 9 0300 - Good signals with AC type music and Radio RAMA ID's [VAL-DX]
- 900 MEXICO XEW Mexico DF, NOV 15 0350 - Strong in CHML null with talk program, many

- references to Mexico. [Renfrew-NY]
- 940 MEXICO XEQ Mexico DF, NOV 9 0114 - Very good signals dominating the frequency with talk programming. [VAL-DX]
- 1500 MEXICO XESM Mexico DF, NOV 09 0020 - Fair signals with lots of talk under or even with KSTP [VAL-DX]
- 1700 USA WCMQ Miami Springs FL, NOV 5 1044 - SS, two men talking until 1050 then faded, no ID. Thought it might be new Mexican expanded band. [Jackson-CA] (Gary sent a card the next day with the correct ID; this one is reaching California, Germany, and Finland - Jim)
- 1700 CUBA jammer, western Cuba; NOV 12 1629+ - Didn't take too long for Cuba to get a jammer here, noted today right on 1700, very slightly warbling buzzer-type, similar to the old 1141 jammer of yesteryear. CMQ overall atop it way up here. [Krueger-FL]
- Shawn speaks:* "Now that was a great night/morning! The weather was darn near perfect and the little snow that was on the ground was great for dragging in toboggans full of equipment and wood for the stove. We managed to lay down 12 long wires or beverages in about 4 hours. Lots of walking on that farm field. Sore legs were the order of the day. But as you can see the DX was well worth every step. Weather permitting, we are planning a trip every 3-4 weeks. Only disappointment was no TA's or TP's. Usually haul in a few this time of year. Oh well 7 new domestics will do just fine thanks. The Mexicans were in big time all over the place some of them dominating the frequency on several wires at a time. Have to love it!"

#### STATION NEWS

- BELGIUM: Wolvertem 1512 is used by Deutsche Welle 1600-1800 and by Radio Nederland 2230-0030. RVI programs (including relays) 0830-1900 are 20 kW; from 0700-0830, 1900-0030 are 300 kW. Schedule shown is DEC 1 - MAR 28, one hour earlier until NOV 30. [RVI Brussels via JA Arranz in Medi DX #25 via MWC NOV 1997]
- CHINA: Urumqui 1521 (500 kW) 1400-1600, 1700-1800, 1900-2100. [I Zhurkin via Medi DX #24 in MWC NOV 1997]
- FRANCE: Special event station for the 1998 World Cup will be "98 Radio France" on 162 kHz. To consist of live coverage and related news, in French and three other languages, operating JUN 8 - JUL 12, 0600-0100. [Remy Friess in MWC NOV 1997]
- FRANCE: The programme on 1377 kHz is "Modulation France". The programme provides music for Radio France FM local stations ... and is used to complete local services principally during night time. The name Modulation France is never given, but the local stations have an automatic system to add jingles with the name of their station. Modulation France is also sometimes on Radio Bleue's Paris 864 transmitter. [Thierry Vignaud via BDXC UK in MWC NOV 1997]
- KALININGRAD / IRELAND / ISLE OF MAN: According to information just received from United Christian Broadcasters based in Stoke on Trent, they plan to start broadcasting a night-time Christian radio service to the UK, Scandinavia and Germany via the high-power Kaliningrad 1386 kHz transmitter. Broadcasts are due start at 1700 UTC on 3rd December. UCB also say that they are building a new transmitter facility in Ireland, and add that transmitter developments in Russia and Ireland are overtaking those in the Isle of Man which have been held up by "bureaucracy". [Dave Kenny, British DX Club, via Matt Stutterheim e-mail]
- MEXICO: The 97/11/05 Canadian AM Database lists the following new X-Bander as being on the air: XERE-1700 Salvatierra, GT, MEX with a night power of 1000 watts. If it's actually on, then there's another SS target besides WCMQ. [Bill Hepburn e-mail]
- PORTUGAL: R. Comercial Faro 558 has been reactivated. [Jorge Garzon "Medi-DX" via e-mail]
- RUSSIA: There may be some interesting changes in the not-too-distant future for Russian state broadcasting, according to a brief report on the Voice of Russia recently. President Boris Yeltsin has issued a presidential decree which will mean that Radio 1 will close and Mayak and Radio Yunost will be merged to form a single service. [Introductory paragraph to a longer article from BDXC UK in MWC NOV 1997]

#### DX FILES: TOM SANDERS, OUR MAN IN BERLIN AND PARIS

Network listings for team sports stations

From Bob Pietsch (e-mail) -- The San Jose Lasers (Women's American Basketball League) broadcasts are on 1220 KBPA-CA. There is no mention of a network.

Here is professional hockey information. Most of this comes from the WWW (<http://oz.uc.edu/~rickined/hockey.html>). The web site has been compiled by Eric Rickin (rickined@email.uc.edu); it was last changed on November 2, 1997. Some information came from Steve Phillips (<http://home.att.net/~stevephilips/radioflagship.html>). Ken Onyschuk provided some information from newspapers seen at Barnes and Noble. The Ontario Hockey League information came from Mike Brooker (e-mail). Many hockey teams can be found on the web (RealAudio) at <http://www.audionet.com/hockey/>

Most of these teams have no networks. Small networks (four or less stations) are listed after the flagship station. Large networks (five or more stations) are noted with "+" and listed at the end.

A quick word for my fellow tower-site nerds, about one of my favorite Web Pages; namely, "www.radiostation.com". Just follow the very easy menu in, to the individual page-listing posted for each FCC licensed broadcaster, whether AM or FM. When you get there, click "view location". Depending on the quality of your server, modem, et al, you'll then view a rather detailed map of your desired transmitter location. A good test of your server is to bring up the listings, first of KOY-550 then KSUN-1400. Their respective sites are just a few blocks apart from each other in S Phoenix. I won't name names but some servers are a little more than electronic abacuses! As for this particular web site itself, the quality of info updating is very high, actually excellent, thanks to the folks at Elliott Broadcast Service. If you've ever wondered about that 7-tower array down the road from Uncle Zeke's place outside Bugtussel, this is the site for you! Listening right now to good ol' KCBS-740 at 1350 UTC on 11/2, with Tahiti ripping the shreds out of an otherwise solid signal, even with almost usable audio out of 73z. (Greg, I thought that place Zeke lived was Horsechester!-DWS)

Long time, no muse. Really wanted to get to the Wilmington convention but couldn't rearrange my work schedule. Would have really like to meet some of my fellow NRCers. DX has been slow here lately, believe I did hear the KTGG-1540 Test on 1/4 with code at 0013 and 0028, but only tentative. KXEL was very strong that morning. Also the TAR on 1700 from JFK-NYC often heard. Any calls on this one? Took a short vacation to Bermuda last August. Wanted to see if there was any salt water propagation from the US E Coast, but the only time I got to the beach was on the wrong side of the island. Still think some good daytime DX could be heard from the coast facing the US. Except for the locals, only one noted was RVC-530 with a fair signal. Had no problem hearing the Orioles night games on WBAL & WTOP. Actually, WBAL's signal was better there at night then here! I won (by way of a postcard drawing) a free trip to Cleveland and a visit to the Rock & Roll Hall of Fame from WTAM. The trip was ruined by the airline, and if it were not for the hospitality of former NRCer Tim Davisson, the thing would have been a total bust. Really enjoyed meeting and talking with him. Cleveland is an interesting city; just wish I had more time to see it. Will send a re-intro next time. I've noticed a lot of new/current members in this area. A good DX season to everyone. Keep the hobby alive. 73 (Yeah, too bad you didn't make it Joe; would have been nice to see you again-DWS)

Sorry for being incommunicado for so long but Radio Plus+ was virtually shut down from June until September. Late last January, just as production of the Quantum Phaser was beginning, a review of our 'Q Stick' appeared in *Monitoring Times*. This led to a tremendous number of orders which was filled over a 6-8 week period but which almost totally depleted our stock of variable capacitors. These capacitors are used in virtually every product we sell, and when we went to reorder, we discovered that someone had bought out all of our suppliers (US & European) entire stock. None of the suppliers intended to reorder (there was a minimum order of 10000 units) so we were stuck trying to find a substitute. We did eventually find one but it was a different physical size and capacitance, so all of our products would have to be redesigned. Furthermore, these new capacitors didn't arrive until late August, leaving little time to redesign the circuit boards, coils, cabinets, etc. Right in the midst of the redesign effort, we were contacted by a company that had placed the minimum order of 10000 units, so now it looks like we may be able to resume normal production without completely redesigning our product line (but we are stuck with hundreds of substitute capacitors). We have resumed production to fill back orders of the Quantum Loop and Q Stick series but will not be able to accept new orders until late November/early December. (Right now we have just under 50 Quantum Loop orders to fill and even more back orders for Q-Sticks and several LW loopheads to get out so it will take 4-6 weeks to catch up). Our other products will likely not be available until after the first of the year. Obviously, the preceding state of affairs has delayed this seasons catalog; we may just send out an abbreviated product sheet since we will only be offering the Quantum Loop and Q-Stick until the first of the year. Oh yeah, after months of frustration with America OnLine, I have a new Email address: radioplus@gulf.net. This is not a formal website (that may come in the future), just an E-mail site (that I check a couple of times a week). Sometimes I ask myself why I'm doing this radio equipment business stuff; the net profit line is minimal, the hassles sometimes extreme. Right now, I'm just trying to hang on until next summer when I become eligible for an early retirement, then I'm thinking, I can go full blast with Radio Plus+. In the meantime, I deeply appreciate your patience, understanding, business and especially, your kind words regarding our products. 73s

I'm an old/new NRC member. My 1st membership was back in the early to mid 1950's, then for a while in the 1960's. I've been a DX'er since 1951, mostly shortwave. Anyway, with that many years of radio under my belt, its time to start 'slimming down', which is why I've been offering a lot of my radio and radio-related stuff for sale over the past year or so. I have a 9-10 page list which includes books, booklets, magazines, club bulletins, stickers and whatever available for a business size 2 Stamp SASE or \$1. For those with E-Mail, I can also send it as a file attachment. I can be reached at the above address or at gdex@genevaonline.com Thanks!

Now that the DX season has started, it's time for another of my infrequent musings. I'm sorry to have had to miss the convention, but a rather short-notice trip to Maine immediately after Labor Day forced me to rearrange a number of activities. I've finally gotten nearly all of the data transferred from my old index card DX log onto a Lotus spreadsheet file for the computer. I've pulled together everything from my various locations over the past 37 years of DX'ing. Now I'm ironing out discrepancies and translating data from my tape log and veries. Unfortunately, during parts of the first several years of DX'ing, I never recorded the dates and times of loggings, even for some of those I verified earlier on, but that's certainly water over the dam at this point. The season started for me chasing T15 and HAR stations, but has now settled into some new catches and noting some call changes since last season. Anything of note has been passed to DDXD. Caught my first X-bander other than NJ on 1660 with WCMQ-1700 on 11/11 1900. There's lots of noise up there for me - I've had constant difficulties hearing some of the distant T15 and HAR DX others hear - such as Dallas/Fort Worth Airport, JFK Airport, etc, because of that. I suspect that's a big part of why KXBT hasn't visited me yet here. Seems like I have to throw everybody out of the house in order to be able to shut off the dimmers, photosensors, TV and whatever, because I don't really expect to hear any of those I've noted above on a car radio, which is still my primary DX tool. Crazy world, this - two HQ-150's, two loops in the basement, and they don't get a lot of use. Maybe someday I'll have a free bedroom upstairs and can move the shack up. Maybe when I retire in 10 or 15 years! I've received the new log - and, as usual, it's great. Finally, I have a non-business email, so that I can actually circulate the address. Problem is that I don't check it more than a couple of times a week -- seems like when I'm home, I can't get my younger son (now a freshman computer science major at Beaver College) away from the computer long enough. Anyway, the email address is wb2bjh@hotmail.com. That's to stay as long as I don't become disenchanted with Hotmail. 73's
