DUNCAN'S COMMENTS

Green Bay has been an excellent small radio market. However, due to the number of new entrants into the market in the last decade, this market may well fade somewhat. Viable stations have increased by 57% since 1993.

One station that has not faded is WIXX which I think is one of the best small market CHR's around. I estimated WIXX's revenue at over \$5 million in 2001. That is a huge number for a market of this size. I believe that the 2002 and 2003 revenue estimates for WIXX are way too low.
