DUNCAN'S COMMENTS:

Raleigh is one of the best radio markets in the country. In the last thirty years Raleigh has grown from a small market to a medium market (1990) and now is on the verge of becoming a large market (more than 1.3 million in population). Radio revenues have kept pace with about a 700% increase between 1980 and 2000. The number of viable stations has remained steady even though the gross number of stations has increased substantially. I have to believe that anyone who has a shot at moving into Raleigh has already done so by now. One serious negative for the market (at least for the commercial stations) is the large amount of listening devoted to unlisted stations. At nearly 25% this is one of the highest figures anywhere in the nation.

Jim Goodman's WRAL-F has been a consistent and excellent AC station over the decades. I also admire the group which the Curtis family has put together. Between these two families, Raleigh has an unusually high level of local ownership.
