DUNCAN'S COMMENTS:

Many times during my career I have been asked to name the best and worst markets in the country. Unfortunately Shreveport has to be the worst radio market. Shreveport was badly hurt by the "oil patch" bust of the late 1980's. Beginning in 1986 four of the next five years the radio revenue of the market declined. It took thirteen years for revenues to climb out of that deep hole.

KRMD has been a successful station in a bad market although it has slipped in the last few years. KDKS may be the station of the future in the market.
