SENSATIONAL PRICE REDUCTIONS

SAVE 40 to 80%

In this issue of the Radio Bargain News, you will find listed some of the SEASON'S MOST POPULAR and best selling items which every radio jobber, dealer and set builder who is at all familiar with HIGH QUALITY RADIO merchandise will instantly recognize as extraordinary values. We invite comparison between our low prices and the prices which you can buy similar high grade merchandise elsewhere. They present savings to you of from 40 to 80% from the list prices.

PROMPT SERVICE

We have been in business for 13 years. Our steady growth is the result of HONEST EFFORT and a strict policy that solicits your business on the basis of PRICE, PLUS QUALITY, PLUS SERVICE. The merchandise listed here is in stock for immediate shipment. All merchandise offered subject to stock on hand—and while any of the items are available in UNLIMITED QUANTITIES, we urge our many customers to order early for assurance of complete selection. Our prompt shipping service assures you of QUICK DELIVERY of your orders.

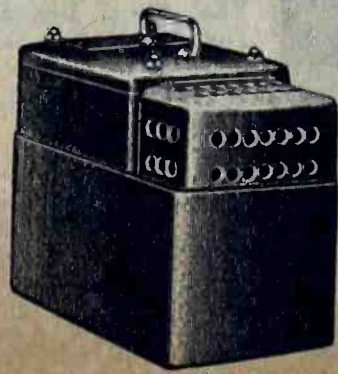

ALL NEW STOCK

The merchandise offered in this catalog is ALL NEW MERCHANDISE—in original factory cartons, unless otherwise stated. Just because our prices are EXTREMELY LOW, don't get the impression that our merchandise is not of the HIGHEST quality. Many of the items listed here are the products of prominent manufacturers—backed by NATIONAL ADVERTISING and manufacturers' guarantees.

BUY FOR CASH

In operating our business on a CASH OR C. O. D. BASIS, we have eliminated our credit and bookkeeping departments effecting SAVINGS that we are glad to pass on to our customers in the way of LOWER PRICES. Hundreds of well-rated items buy from us for cash because of our EXTREMELY LOW PRICES.

GENUINE \$35⁰⁰ ABOX

More than 60% Off

A mammoth purchase under EXCEPTIONALLY FAVORABLE TERMS enables us to offer these new genuine ABOX "A" eliminators at an UNHEARD OF PRICE. Dealers are urged to put in a large stock while they are available at this extremely low price. They offer a practical solution to the "A" Battery problem at a price that is only SLIGHTLY HIGHER than a high-grade storage battery.

ABOX—THE PERFECT "A" ELIMINATOR

Abox provides a output of 2 1/2 AMPERES AT 6 VOLTS—steady, dependable and free from hum. Rectification is secured through a high capacity condenser along with a large OVER-SIZE transformer eliminating mechanical noises and hum. NO BATTERY. Works only when set is in operation. For use with sets employing standard five-volt D. C. tubes—201-A and power tubes.

EXTRA VALUES

Our tremendous carload-lot CASH BUYING POWER enables us to go into the open market and buy for less. We felt certain that in offering our customers GREATER VALUES than they could secure elsewhere, they would snap them up quickly, and build up our volume of sales on a cash with order basis. Our expectations have BEEN MORE THAN REALIZED, as we have received orders from some of the country's LARGEST JOBBERS and dealers. It is bargains such as these that have made the CHICAGO SALVAGE STOCK STORE, the world's largest radio store and the great central clearing house for manufacturers, jobbers, dealers and set builders.

ALL PRICES CUT

Every item listed in this catalog is offered below its REGULAR SELLING PRICE. Because of our large buying power and DIRECT FACTORY connections, we are able to buy at extremely low prices. That is why we are able to offer standard, nationally advertised merchandise to the radio trade at prices that represent such TREMENDOUS SAVINGS. We are recognized headquarters for practically everything in the radio line. We number among our customers some of the LARGEST jobbers and dealers in the country, many of whom have been buying from us for several years. We could not retain the trade of these large buyers without giving them GOOD SERVICE and good quality as well. To those dealers and set builders who have never done business with us we pledge the SAME HIGH CHARACTER OF SERVICE and merchandise that has won for us the steady trade of hundreds of dealers and set builders throughout the country.

HOW TO ORDER

Use the enclosed order blank for your first order. Fill it out carefully. Additional order blanks will be supplied on request. Our terms are net cash or C. O. D. Orders from new customers to be shipped C. O. D. should be accompanied by a reasonable cash deposit. ALL PRICES QUOTED IN THIS CATALOG ARE NET. All discounts have been deducted. All merchandise offered is subject to prior sale. You are urged to ORDER EARLY for complete selection.

ABOX "A" POWER UNITS

ELIMINATE THE "A" BATTERY

**NO HUM—
Dependable
A POWER**

MODERNIZE YOUR SET WITH ABOX

**A Genuine \$35.00 Value
At A New Low Price**

A complete self-contained "A" eliminator representing the foremost engineering advance in rectification of A.C. current for use in the "A" circuit of radio receivers. It eliminates the old "A" battery and offers in its place a clean, **DEPENDABLE AND HIGHLY EFFICIENT SOURCE OF "A" CURRENT**. It is not a battery charger combination, but a new principle of rectification through a high capacity condenser.

A REAL "A" POWER UNIT

This Super Power Abox can be depended upon for years of constant unflinching service. It provides an output of 2½ amperes at six volts—that is steady, dependable and **FREE FROM HUM**. It puts a definite end to your "A" battery troubles. It is adaptable to all sets employing the standard type five volt D.C. Tubes—201-A and power tubes.

Provides ELECTRIC Operation FOR ALL TYPES OF D.C. SETS

The Abox, because of its large oversize transformer and its highly perfected filter system, is entirely free from mechanical noises and hum. It works only when the set is in operation and it does not store up current like a storage battery. These genuine Abox eliminators are offered you at a price **FAR BELOW** their actual value. Each unit is factory tested and in original factory containers. Our tremendous sales volume makes possible this low price to our dealers.

IMPROVES RECEPTION

There are no batteries in the Abox "A" unit. It places in the discard the old troublesome battery and offers in its place a clean **TROUBLE-FREE UNIT** that can be depended upon for years of satisfactory service. It is a complete **SELF-CONTAINED** unit employing no tubes to burn out or deteriorate.

The Abox unit is provided with an "off and on" switch for controlling the flow of current to both A and B units assuring real convenience in operation. The Abox connects to your set just like an "A" battery. No changes in the wiring of the set are necessary. Once installed, it provides a clean, free A current—**AND IMPROVED RECEPTION**.

4 VOLT SIZE

The four volt Abox Unit is designed for all sets where a four volt A Battery is specified—and on practically all sets employing tubes of the 199 type. Better stock up now at this low price.

MOGUL HIVOULT 450 VOLT UNIT

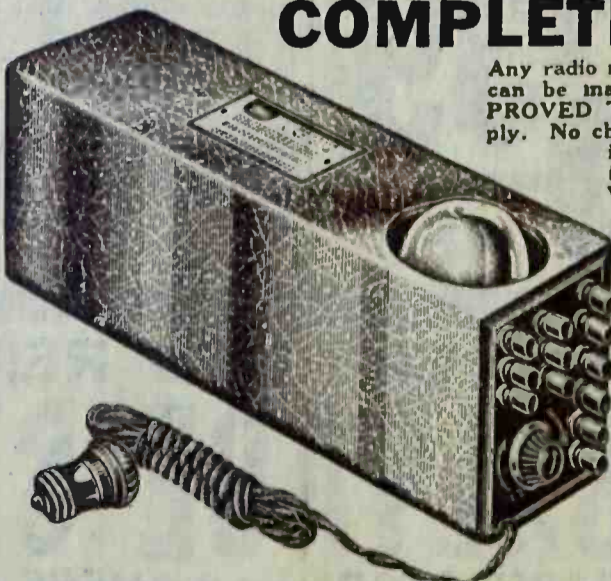

COMPLETE "B" ELIMINATOR

For 210 and 250 Tubes

The new type 250 and 210 power amplifying tubes have practically revolutionized the popular conception of **REALISTIC REPRODUCTION** by their remarkable performance. The high "B" voltages required for the proper operation of these tubes has, until now, stood in the way of general public acceptance of the wonderful tone quality and volume these tubes make possible.

New Tone and Volume

In the Knight Hivolt power supply, using one type 281 tube "B" voltages are supplied for any receiver at 425, 135, 90, 22 and 22-90 variable, as well as "A" and "C" voltages for a type 210 or 250 power tube. Any receiver using A.C. tubes may derive all "A", "B" and "C" power from the Knight Hivolt, including all "B" voltages as above and 4 amperes at 1½ volts, 3.5 amperes at 2¼ volts, 2½ amperes at 7½ volts and all necessary "C" bias for the A.C. tubes. Supplied with an adapter that is inserted in the last tube socket of the set, and a 210 or 250 is inserted in the adapter.

Any radio receiver that is equipped with good audio transformers can be made to give **SUPER POWER VOLUME AND IMPROVED TONE QUALITY** with the Knight Hivolt power supply. No changes are necessary in the radio receiver. Furnished in crackle-finished metal case 3 5/16 inches wide, 5 1/4 inches high and 17 inches long. Less tube. A **REAL VALUE**.

THE MOGUL 7 ^{A/C} 'ORCHESTRIC'

THE IDEAL ELECTRIC RADIO FOR POWER, TONE, VOLUME

A-C ALL ELECTRIC

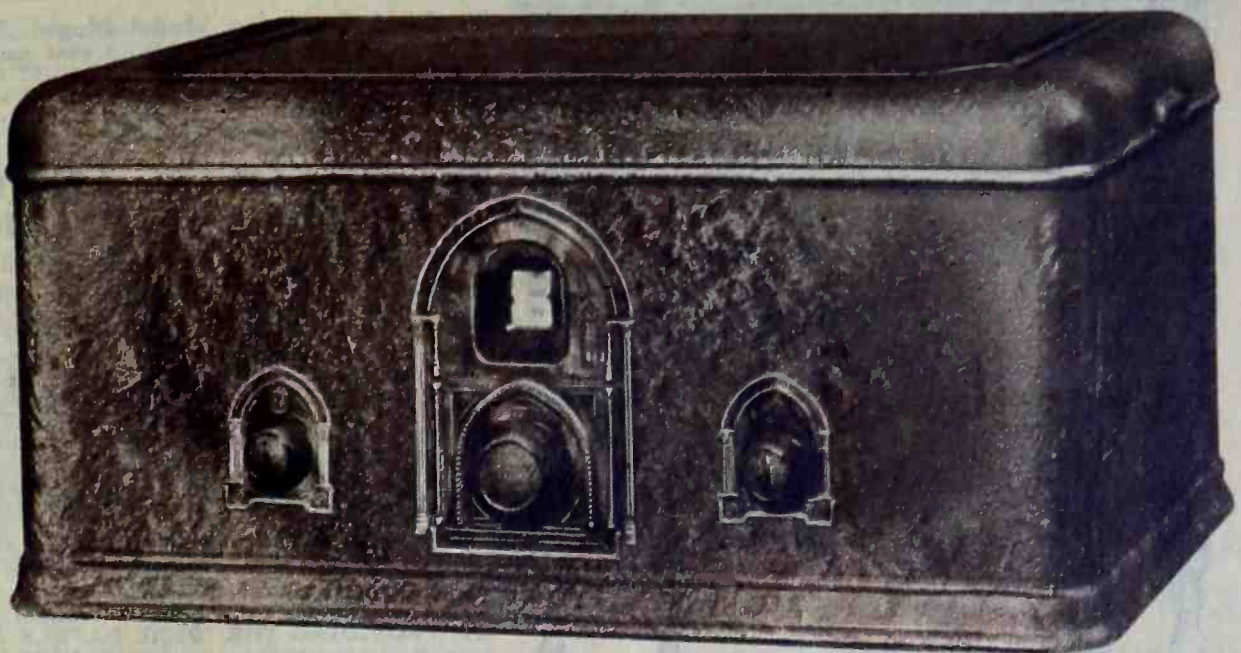

The tremendous popularity of the A C receiver assures a ready market for the MOGUL 7 "ORCHESTRIC" receiver. It offers the real convenience of all electric operation, requiring only to be plugged into the ELECTRIC LIGHT SOCKET for all its power.

MARVELOUS TONE

In the design of the Mogul 7, tone quality was considered foremost, resulting in the IMPROVED AUDIO AMPLIFYING SYSTEM that places the "Orchestric" well out to the front in tone quality and volume. Efficient transformer design covers an EXCEPTIONALLY WIDE FREQUENCY RANGE and results in a soft mellow modulation entirely free from distortion. Power tube equipment makes possible a volume FAR IN EXCESS of normal home requirements.

BEAUTIFUL COLORED CABINETS

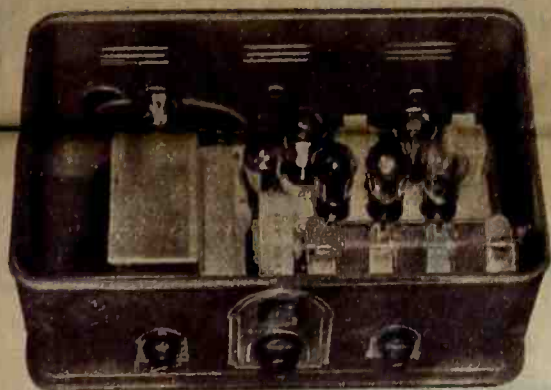

The "Orchestric" model receiver is housed in an all metal cabinet that provides COMPLETE SHIELDING for the receiver proper. These large handsome cabinets measure 19 1/2 inches long by 14 1/2 inches deep and 9 3/4 inches high. Their rigid construction and design makes them good for years of service. They are attractively finished in colors that VIE WITH THE RAINBOW in their brightness. They are available in a beautiful brown bronze finish that matches well with walnut, or in an attractive Chinese Red or Chinese Green. Gothic design and embossed escutcheon plates FURTHER ENHANCE the beautiful appearance of these cabinets.

WONDERFUL DISTANCE RANGE

The careful matching of all parts used in the construction of the MOGUL 7 coupled with the CAREFULLY DESIGNED space wound coils of low loss design provides the highest radio frequency gain obtainable. Each stage is PERFECTLY BALANCED, permitting the receiver to operate at peak efficiency on the high as well as the low wave lengths resulting in EXTREME SENSITIVENESS and extreme distance range. The chassis proper is die formed of one piece HEAVY GAUGE METAL cadmium-plated to increase its conductivity to radio frequency current.

THE MOGUL 7 CHASSIS

USE YOUR OLD CONSOLE

Here the Mogul 7 chassis is offered for those dealers who desire to equip their own consoles with receivers for MARKETING UNDER THEIR OWN TRADE NAME. The circuit employs three stages of radio frequency with tuned detector stage. The audio amplifying system consists of two stages transformer coupled audio employing a power tube in the last or output stage. Designed for operation on 105-120 volt, 50-60 cycle AC current.

STANDARD 8x18" PANEL

Mogul chassis are furnished with a metal front panel measuring 8x18 inches. These panels are finished in an attractive JADE GREEN COLOR and fitted with a beautifully designed GOTHIC TYPE ESCUTCHEON PLATE presenting an unusual rich appearance. The compact dimensions of this chassis adapt it for use in practically all types of consoles. Additional consoles which will accommodate this chassis will be found on other pages of this catalog.

THE PERFECT 7 TUBE MOGUL CIRCUIT

The Mogul 7 employs a total of seven tubes, so designed that each tube OPERATES AT MAXIMUM EFFICIENCY. Equipment requires 4 type 226 A C tubes, 1 type Y-227 detector tube, 1 type X 171-A power tube and 1 type X 280 rectifier tube. Three stages of radio frequency assures extreme distance range. Two stages of audio amplification employing a power tube provides wonderful tone quality and volume. The ample power plant assures FREEDOM FROM BREAK-DOWN and provides A RESERVE POWER far in excess of normal requirements. Circuit is designed for operation on 105-120 volt, 50-60 cycle A C current.

A NEW TREAT IN TONE AND VOLUME

Nothing has been overlooked in the construction and design of the Mogul 7 to make it the PEER OF A C RECEIVERS. Perfect engineering coupled with the careful matching of all parts imparts to the Mogul 7 UNUSUAL EFFICIENCY. The ease with which it brings in DISTANT STATIONS, the remarkable tone and volume will astound you. You will marvel at its ease in handling, the way station after station will come in as you rotate the drum dial. ONLY THREE CONTROLS ARE FOUND ON THE PANEL—One being the main tuning control, one the off and on switch and one the volume control.

SELECTIVITY PLUS REAL POWER

In the Mogul 7, you are offered REAL A C OPERATION as you have always wanted it. No batteries, no chargers. The Mogul power plant is built in as a part of the chassis and requires ONLY TO BE PLUGGED INTO THE ELECTRIC LIGHT MAINS for its power. Careful testing coupled with many rigid inspections during manufacture, ASSURES UNIFORMITY in output of Mogul receivers. All critical adjustments are made at the factory and sealed, assuring PEAK EFFICIENCY with fool-proof construction. Never before have you been able to buy such tremendous radio value at so low a price. The unusual popularity of Mogul receivers resulting in tremendous sales volume has brought about MANUFACTURING ECONOMIES that make this low price possible.

Complete ORCHESTRIC RADIO—Less Accessories

Here the Mogul 7 "Orchestric" all electric radio is offered without accessories. The low price at which it is offered will readily appeal to the live dealer who desires A FEATURE A C RECEIVER for use as a sales leader. These sets were built to sell for much more than the low price we are quoting and our dealers should REALIZE A HANDSOME PROFIT in the sale of this model.

MOGUL "7" ALL ELECTRIC RADIO

A-C Operated -- Powerful -- Selective
THE "JEFFERSONIAN" 7 A-C

In the Jeffersonian Model Mogul 7, all electric radio, you are offered that IDEAL COMBINATION OF FEATURES that make for the utmost in radio convenience. Drawing all of its current direct from the ELECTRIC LIGHT MAINS, it places at your disposal the REAL CONVENIENCE OF AC operation. The wonderful Mogul circuit is a marvel of efficiency. It offers in good measure EXTREME SELECTIVITY and reserve power, WONDERFUL DISTANCE RANGE, remarkable tone and volume. The beautiful walnut console is of unusually rich appearance.

WONDERFUL TONE — TREMENDOUS VOLUME

You will marvel at the wonderful tone quality of the Jeffersonian. It is soft and mellow, yet offering AMPLE VOLUME for all normal requirements. The remarkable ability of this receiver to reach out and bring in the distant stations proves an EVER INCREASING DELIGHT to its proud owner. One dial simplifies tuning, while AC operation assures CONSISTENT PERFORMANCE and makes for the utmost satisfaction in your radio entertainment.

7 TUBE CIRCUIT WITH 9 TUBE EFFICIENCY

In the Mogul 7 AC circuit, you will find incorporated the MOST ADVANCED features in present-day radio engineering. The circuit employs three stages of radio frequency assuring remarkable distance range. The detector circuit is of the tuned type, while the audio end consists of two stages of audio frequency amplification with power tube equipment in the last or output stage. The remarkable design of the audio circuit assures the UTMOST IN TONE QUALITY and volume.

GENUINE WALNUT CONSOLE OF REAL BEAUTY

The beautiful Jeffersonian console stands 43 inches high by 24 inches wide by 13 3/4 inches deep. It is constructed of GENUINE WALNUT PANELS selected for the beauty of their grain. Its walnut varnish finish is hand rubbed to that SOFT SATIN SHEEN always associated with the better class of furniture. The entire front panel of the console is of one piece construction PROVIDING THE IDEAL Baffle arrangement for either Dynamic or Magnetic Speakers. The attractively turned legs are RIGIDLY BRACED with a turned stretcher providing unusual ruggedness.

WILLARD SUPER "B" UNITS

Now for the first time you are able to buy a really efficient, high grade "B" Eliminator at the same price you would ordinarily pay for a set of "B" Batteries. These Genuine Willard "B" Power Units are good for LONG UNINTERRUPTED SERVICE and they will outlast many sets of "B" Batteries.

COSTS LESS THAN A SET OF "B" BATTERIES

These Willard Standard "B" Units are designed to deliver proper detector, amplifier and power tube voltages. Two variable controls permit UNUSUALLY FINE ADJUSTMENT of all critical voltages. Will develop 150 volts at 30 milliamperes—entirely free from hum. The entire unit is assembled in an attractive metal container finished in a MOSS BROWN CRYSTALLINE color. As a "B" power supply for sets of average current requirements it has no superior.

THEY WON'T LAST LONG AT THIS PRICE

The enviable reputation of Willard in the Power Unit field is due to the HIGH STANDARD OF QUALITY they maintain—and in these Willard Standard "B" Units you may be certain of highest quality—finest materials and expert workmanship and design. Highly recommended as ONE OF THE SEASON'S OUTSTANDING VALUES.

BALKITE "J" CHARGERS

REGULAR \$17.50 LIST **6³⁹** NET

FULL TWO AMPERE AND TRICKLE RATE
EFFICIENT—ECONOMICAL—NOISELESS

GENUINE BALKITE MODEL "J" chargers at a new low price. They offer you everything you would look for in a high grade charger. For all around charging use, they are one of the MOST PRACTICAL and ECONOMICAL CHARGERS of the season. So designed that they provide two charging rates. The low charging rate is for use when it is to be used as a trickle charger for continuous charging, for which purpose its output is sufficient to keep the battery in full power. The high rate charge is for HEAVY DUTY USE and provides sufficient charge to take care of the LARGEST BATTERY SETS.

Designed for operation on 110-120 volt, 50-60 cycle A.C. Its sturdy, compact construction requires a space of only 5 3/8 x 8 1/2 x 7 3/8 inches high. It is ECONOMICAL IN OPERATION, having a watt consumption at high rate of 10 and at low rate only 9. It provides charging rates of 2.5 amperes at high rate and .5 amperes at low rate. A special model for 25-40 cycle with 1.5 ampere rate is available.

PRICED UNDER JOBBER'S WHOLESALE

Never before have we been able to offer our dealers such a remarkable value in a NATIONALLY ADVERTISED, popular type of charger. Our low net price represents a discount of MORE THAN 60% FROM THE LIST PRICE. Dealers are urged to stock up for their season's requirements, while these famous chargers are available at this EXCEPTIONALLY LOW PRICE.

FOR RADIO OR AUTO BATTERIES

The Balkite Model "J" charger can be used on all types of SIX-VOLT STORAGE BATTERIES—including automobile batteries. Being noiseless in operation it can, in many instances, be used during reception. Its large water capacity makes the addition of water necessary ONLY THREE TIMES A YEAR.

ORDER ENOUGH

DRY "A" UNIT

BONE DRY "A" POWER UNIT—THE PRODUCT OF A NATIONALLY KNOWN FACTORY

A highly efficient, practical, HUM-FREE, Dry "A" Eliminator providing an output of 2 1/2 amperes—sufficient for sets employing as many as EIGHT TUBES, including power tube. Puts a definite end to all battery troubles. ENTIRELY DRY. Requires no attention. No water—no acids—no moving parts.

2 1/2 AMPERE OUTPUT — 6 VOLTS

This unit is very economical. Operates from 110 to 115 volt, 50-60 cycle A.C. current. Size of unit, 4x10 1/4 x 7. Will use very little current and is supplied with a METER for PERFECT OPERATION.

Dry electrostatic condenser, a creation of its manufacturer, combined with the EFFICIENT FILTER CHOKES give very excellent filtration. For complete "A" electrification. Replaces battery, charger and relay entirely. Constant quiet "A" power instantly available at the flick of the switch.

This unit has a list price of \$39.50 and is offered to you at this EXTRAORDINARY LOW PRICE because of our volume purchases.

THE MOGUL 9 "SEVILLE"

In the Seville Model Mogul 9 receiver, you are offered the ULTRA-MODERN in today's vogue in radio. The beautiful console OF GENUINE WALNUT CONSTRUCTION is designed along ultra-modern lines. The receiver proper offers you everything you would look for in the highest priced receivers of today. It incorporates PRACTICAL A C OPERATION, one dial control, unusual sensitivity and tone quality and volume that proves the instant delight of all who hear it.

GENUINE WALNUT CONSOLE

The "Seville" console will instantly meet with the approval of the most fastidious furniture buyer. Its design is the work of SKILLED ARTISANS and reflects the trend of MODERN RADIO FURNITURE for the coming season. The beautiful turned and fluted legs are rigidly reinforced with an attractive ornamental stretcher, while the entire console features a ruggedness in construction and a fineness in finish that will make it a permanent addition to the most finely appointed home. The console stands 62 inches high, 28 inches wide and 18 inches deep. The speaker compartment is of SCIENTIFIC CONSTRUCTION embodying all necessary acoustical properties to provide a perfect Baffle Principle for either Magnetic or Dynamic type speakers.

PUSH PULL AUDIO FOR TONE

The remarkable efficiency of the push pull audio system employed in the Mogul 9 receiver is further enhanced by the use of the remarkable speaker equipment with which the SEVILLE is furnished. These speakers are the product of one of the COUNTRY'S FOREMOST SPEAKER MANUFACTURERS and enjoy a coveted reputation for MELLOWNESS OF TONE—extreme frequency range and remarkable volume carrying capacity.

9 TUBES—1 DIAL

In the Mogul 9 circuit practical AC operation is offered requiring only to be PLUGGED INTO THE ELECTRIC LIGHT SOCKET FOR ALL ITS POWER. It employs a total of 9 tubes including the rectifier type yet offers the extreme simplicity of one dial control.

WITH ALL ACCESSORIES

Here the Mogul 9 is offered with ALL ACCESSORIES INCLUDING A GENUINE FARRAND MAGNETIC TYPE CONE SPEAKER. Equipment includes 5 type X226 AC tubes, 1 type Y227 detector tube, 2 type X171-A power tubes, 1 type 280 rectifier tube, along with all necessary aerial and ground equipment. A RECEIVER FOR THOSE WHO

Mogul Receivers have long been known for their quality. They feature a PERFECTIO design that has passed through the most rigorous operating conditions and the most exacting tests, giving universal satisfaction. Their construction and design imparts a STANDARD of radio perfection, PRACTICAL A. C. OPERATION, a trace of hum. Their unusual ease of operation all adds to the OUTSTANDING VALUE.

A TREAT IN TONE

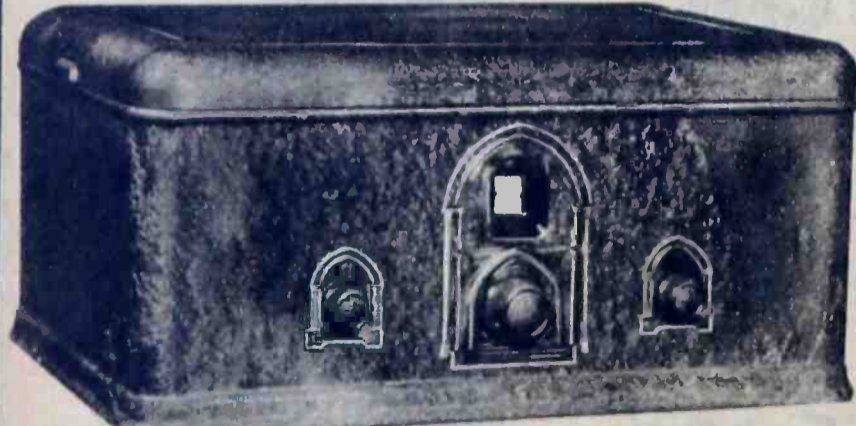

In the Mogul 9 Line of receivers, the clarity and volume awaits you. A HIGHLY DEVELOPED SYSTEM of amplification employing power tubes. This system enables them to cover the COMPLETE range of frequencies to the highest notes bringing about a reproduction that is positively free from distortion. Instruments in an orchestra are readily reproduced. The use of two power tubes in this system gives an excess of all normal home requirements. The result is a FINE ADJUSTMENT in volume and of this remarkable amplifying system.

SELECTIVITY

Three stages of radio frequency tuning imparts to the Mogul 9 such a reception of far distant stations. The engineering of this circuit imparts to it a selectivity that is not found in the average tuned radio frequency receiver. All parts used in the construction of the Mogul 9 are of the highest quality. The used in the proper balancing of each receiver with its accompanying accessories. The EXTREME SENSITIVENESS of the Mogul 9 operating just under the point of oscillation.

POSITIVE ONE DIAL TUNING

In the Mogul 9 line of receivers, the clarity and volume would look for in the highest priced receivers. The chassis is finished in a way that harmonizes perfectly with the walnut panels are FURTHER EMBELLISHED with escutcheon plates attractively finished. While the calibrated drum dial is attached, one dial control provides UTMOST SIMPLICITY. Construction makes possible the most CRISP reproduction. The power pack employed in these receivers is of the highest CONSTRUCTION with an ample filter to break down. These features found in all Mogul receivers are a guarantee of OF SERVICING and lasting satisfaction.

METAL CABINETS IN AN ARRAY OF BEAUTIFUL COLORS

The "Lyric" model Mogul 9 receivers are attractively finished in beautiful colors. They may be had in a beautiful brown bronze (gold dusted) finish or in an attractive CHINESE RED Cracked lacquer, or a CHINESE GREEN lacquer finish. They reflect the modern trend of colors in the home.

A-C ELECTRIC OPERATION

In the Mogul circuit you are offered REAL AC OPERATION drawing all its power from the electric light socket. The advent of the new AC tubes, whose filaments are actuated by raw AC current, makes possible real AC operation in the Mogul 9. It requires no batteries, no chargers, no eliminators as it draws all its power DIRECT FROM THE ELECTRIC LIGHT MAINS assuring consistent performance. It is the utmost in radio convenience. Designed for operation on 105-120 volt, 50-60 cycle AC current.

THE MOGUL "9" LYRIC

The famous Mogul 9, all electric circuit, is here offered in a BEAUTIFUL TABLE MODEL CABINET of metal construction; large handsome cabinets 19 1/2 inches long, 12 1/2 inches wide and 8 3/4 inches high. It offers you the utmost in radio efficiency at a price FAR BELOW its actual value. The remarkable distance range and UNUSUAL SELECTIVITY of the Mogul 9 are found only in the highest priced receivers. Push pull amplification employing power tubes makes possible remarkable FIDELITY AND MELLOWNESS of tone and ample volume for all requirements. Only the finest parts are used in its construction.

AN ASTOUNDING VALUE AT THESE PRICES

The Mogul 9 circuit presents the ideal combination of features for perfect radio reception. The circuit employs a total of 9 tubes in one stage of untuned radio frequency, two stages of tuned radio frequency, one tuned radio frequency detector stage, two stages of transformer coupled audio frequency, one stage of bass reproducing push-pull power amplification, employing power tubes. The over-sized power plant employs one type X280 rectifier tube and SUPPLIES ALL NECESSARY CURRENT FOR THE OPERATION OF THE RECEIVER. The perfect matching of parts and the perfect balancing on completion assures UNUSUAL PERFECTIO in the Mogul 9 all electric circuit. These receivers because of their remarkable selectivity are well adapted for use in the most congested broadcasting districts. Their simplified ONE DIAL TUNING along with their remarkable DISTANCE RANGE and freedom from critical adjustments establishes A NEW STANDARD in radio performance.

SET ONLY AS ILLUSTRATED

Here the "Lyric" model Mogul 9 is offered as illustrated, but without tubes or accessories. The cabinets are available in colors as specified. The low price of the "Lyric" should not be confused with its quality. Everything entering into its construction is of the finest. A SPLENDID VALUE.

ON IN THE A-C MOGUL "9"

EFFICIENCY — DISTANCE — BEAUTIFUL CABINETS

DESIGNED FOR AT THE BEST

and the experimental stage. ENGINEERING and circuit tests under the most trying conditions of them are now in use. Recent improvements in construction. A NEW AND HIGHER standard of the Mogul line of receivers has been secured without loss of sensitivity—selectivity—volume to make Mogul Receivers the best of their kind this season.

AND VOLUME

A new treat in TONE QUALITY is incorporated in their circuit design. Push pull audio amplifiers and design of these audio amplifiers provide a TONAL REPRODUCTION that is REALISTIC that all of the intricacies of the listening ear. The system provides a volume far in excess of what is provided PER-CEIVED from a whisper to the full capacity.

WITH POWER

Equipped with a tuned detector circuit and EQUAL SENSITIVITY that is assured. The perfect tuning and LIKE SELECTIVITY assuring the receiver. The perfect matching of the Mogul 9 along with the extreme care in the design of the receiver avoids OSCILLATION in the tuning, and offers you in its place a tuned radio frequency circuit.

CONTROL

You will find features that you will appreciate in our receivers. The front panel is finished in a JADE GREEN COLOR that is attractive. These attractive features include a beautiful embossed and etched Gothic Cathedral Design, illuminated from the rear. The ease of TUNING, while its vernier frequency ADJUSTMENT without effort. The ease of substantial OVER-SIZED tuning knob that assures freedom from the receiver assures a MINIMUM of user.

THE MOGUL 9 "CONSORT"

The tremendous popularity of the sliding door console in radio furniture assures a ready reception for the "Consort" Model of the Mogul 9 receiver. Real AC operation requiring only to be plugged into the electric light socket for ALL ITS POWER coupled with the WONDERFUL DISTANCE RANGE of this remarkable circuit makes it an OUTSTANDING VALUE at the LOW PRICES we are quoting. Where can you buy a 9 tube AC operated receiver housed in a beautiful console complete with speaker at anywhere near these low prices? The "Consort" model offers you EVERYTHING YOU WOULD LOOK FOR and expect to find in the ideal receiver. Its wonderful tone quality and volume—its remarkable selectivity and unusual sensitivity adapts it for use in CITY OR COUNTRY while its BEAUTIFUL OVER-ALL APPEARANCE will win for it a place in any home.

SLIDING DOOR CONSOLE

The "Consort" console with its SLIDING DOORS reflects real art in the design of practical radio furniture. The sliding doors run in well finished and fitted grooves. Only the finest WALNUT PANELS are used in its construction. It is attractively finished in walnut, highly varnished and hand rubbed to a SOFT SATIN-LIKE TEXTURE. The console stands 41 inches high, while its top measures 25 1/2 inches wide and 16 1/2 inches deep. The turned and fluted legs are RIGIDLY REINFORCED with an attractive cross stretcher enhancing the appearance of the console.

A-C ALL ELECTRIC OPERATION

In the Mogul 9 "Consort" receiver, you are offered the season's GREATEST ACHIEVEMENT in practical AC receiver design. The power plant in the Mogul 9 receiver is built-in as a part of the chassis ELIMINATING ALL EXTERNAL PACKS, etc. and offering in their place a COMPACTLY DESIGNED RECEIVER that requires no additional parts or external packs for its operation. Three stages of radio frequency assures REMARKABLE DISTANCE RANGE while perfect engineering and balancing of the circuit imparts real selectivity and power. A more complete description of this remarkable chassis will be found below.

SUPERB TONE—REAL VOLUME

Push pull power amplification in the "Consort" Mogul 9 provides tremendous volume without distortion. A Convenient VOLUME CONTROL permits perfect adjustment of volume from a SOFT WHISPER to the FULL ROUND BLARE of an orchestra. Genuine Farrand Speaker equipment tends to FURTHER ENHANCE the remarkable output of the receiver. These speakers cover with remarkable fidelity the ENTIRE AUDIBLE SCALE from the lowest to the highest notes without blasts at the high frequencies.

SET AS ILLUSTRATED

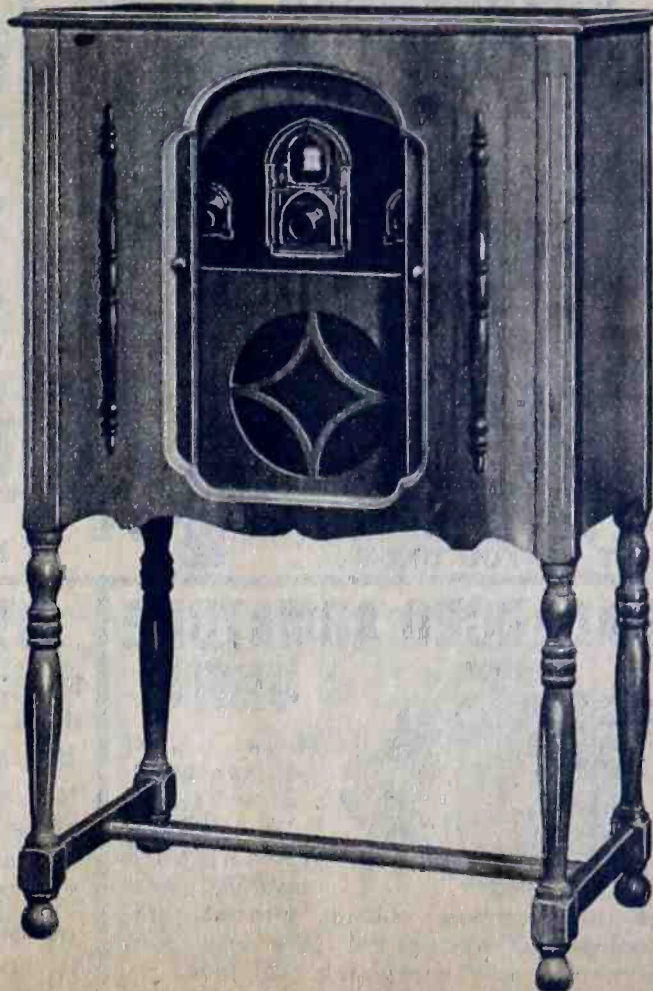

Here the Mogul 9 "Consort" receiver is offered with a Genuine Farrand Magnetic Type Cone Speaker along with the BEAUTIFUL SLIDING DOOR CONSOLE and the FAMOUS MOGUL 9 CHASSIS. Accessories are not included. Dealers who desire a feature receiver for use as a sales leader will find the "Consort" well adapted for this purpose. Its modern design and construction coupled with the UNUSUAL ATTRACTIVENESS of its console assures for it a ready market while its LOW PRICE enables you to sell it under competition for a receiver of this quality.

THE MOGUL "9" CHASSIS

The Mogul 9 chassis offers the radio dealer a PRACTICAL MEANS OF MEETING LOW PRICED COMPETITION, and at the same time, it offers his trade a real receiver as regards performance, selectivity and all modern features. Dealers who are not familiar with these receivers are urged to order a sample chassis for use as a demonstrator. MOGUL RECEIVERS ARE BUILT FOR SERVICE. They offer maximum performance at a minimum price and stand forth as one of the season's greatest values in A C receivers. Fitted with a standard 8x18 inch metal front panel and adaptable to practically all types of consoles.

A-C ELECTRIC—POWERFUL—SELECTIVE

In the Mogul 9 AC all electric receiver, you will find your ideal in performance. Unusually selective, it assures extreme distance range. Perfect balancing of the radio frequency circuit, coupled with EFFICIENT SHIELDING, assures unusual selectivity. The use of push-pull power audio amplification in the audio circuit ASSURES REMARKABLE TONE QUALITY and tremendous volume. The all metal velvety green finished panel, with its BEAUTIFUL CATHEDRAL ESCUTCHEON PLATES contains only three knobs. The beautiful illuminated drum dial provides perfect control and permits unusually fine tuning, due to its vernier construction. The chassis proper is DIE FORMED in one piece of 16 gauge metal, heavily cadmium plated. Designed for operation on 105-120, 50-60 cycle AC current.

FIT IT TO YOUR OWN CONSOLE

Offering the Mogul chassis in this form to our dealers, we are placing before them a means of disposing of any surplus console stock they may have or putting them in a position where they may buy a console of their own selection with which they may use the Mogul chassis. The radio enthusiast who now owns an obsolete set, yet feels that the console is too good to do away with is enabled to purchase this chassis for installation in his own console.

These attractive consoles are shown in this catalog, practically all of which are ADAPTABLE FOR USE with the Mogul circuit. The low price at which we are offering this chassis assures a TREMENDOUS MARKET for it, and we urge all interested dealers to order a SAMPLE FOR DEMONSTRATION purposes and to acquaint themselves with its many merits.

PRICED FAR BELOW ACTUAL VALUE

CHASSIS ONLY

For dealers who desire to feature their own receiver, the Mogul 9 all electric chassis is offered. It is furnished with an 8x18-inch green panel with Cathedral design escutcheon plate. Chassis measures 13 1/2 inches deep. This is a Genuine AC operated 9 tube receiver that has NEVER BEFORE BEEN OFFERED AT THIS LOW PRICE. A real sales leader.

GENUINE NEUTRODYNE CIRCUIT—BUILT-IN SPEAKER—WALNUT CONSOLE

These famous, two-dial, six tube NEUTRODYNE RECEIVERS offer all the dependability and quality for which the name "WORKRITE" has become famous in radio. The high efficiency of the neutrodyne circuit—the wonderful tone quality of the built-in cone speaker and the attractiveness of the BEAUTIFUL WALNUT CONSOLE all combine in making this model an outstanding value. In the neutrodyne circuit UNUSUAL EFFICIENCY is secured through the PERFECT NEUTRALIZATION of each tuned stage, eliminating oscillation and making possible a new standard of reception that is entirely free from all squeals and howls. Two-dial control enables the operator to peak the FULL EFFICIENCY of the receiver to the incoming signal. The built-in speaker is of the free edge, full floating cone type—combining WONDERFUL TONE QUALITY and remarkable volume-carrying capacity.

GENUINE WALNUT CONSOLE WITH BUILT-IN SPEAKER

The attractively TWO-TONED AND HIGHLIGHTED console stands 38 1/2 inches high, 32 1/2 inches long and 14 1/2 inches deep. The front panels are of carefully matched burls—with an ARTISTICALLY DESIGNED GRILL at one side and a drop door on the other. The door is ornamented with an attractive floral design. Gorgeously finished in TWO-TONED WALNUT—highlighted and hand-rubbed.

COMPLETE RECEIVER LESS TUBES

Think of buying a complete Genuine Workrite Neutrodyne Receiver at this low price. A tremendous cash purchase makes this LOW PRICE POSSIBLE and in keeping with our policy, we are passing these low prices RIGHT ON TO OUR DEALERS.

NOW! A NEW SUPER DYNAMIC SPEAKER FOR REAL POWER, TONE & VOLUME

THE FINEST SPEAKER FOR ANY SET

The outstanding value in Dynamic reproducers combines the utmost in OUTWARD BEAUTY with marvelous performance—an entirely new degree of tone response and power reproduction is achieved. Housed in a BEAUTIFUL WALNUT CABINET measuring 13 inches high x 11 1/2 inches wide x 8 1/2 inches deep. The exquisitely finished walnut cabinet is carefully designed and perfectly constructed.

Where the utmost in tone quality and volume is desired, the Dynamic speaker is indispensable. It reproduces perfectly without overloading or chattering and responds to the weakest signal impulses. Its response is equal over the FULL RANGE OF MUSICAL AND AUDIBLE FREQUENCIES, resulting in a degree of natural reproduction surpassing any previous acoustical development.

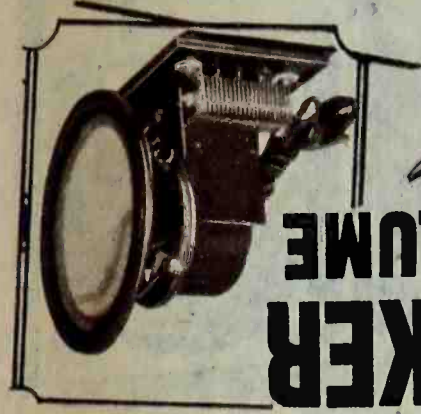

These speakers are designed for operation on 110-VOLT, 50-60-CYCLE AC. They may be used in any receiver having sufficient output to actuate a loud speaker. HIGHLY RECOMMENDED.

The Auditorium receiver places before the radio buying public the ultra modern in radio with built-in speaker. In this model you not only receive WONDERFUL TONE QUALITY, but unusual selectivity and sensitivity as well. This circuit is a CAREFULLY BALANCED AND SYNCHRONIZED ASSEMBLY of parts and the utmost care has been exercised to assure maximum radio efficiency. The beautiful console is attractively finished in a fine HIGH-LIGHTED walnut. Only the finest selected walnut veneers, carefully picked for the beauty of their grain are used in its construction. Its EXCLUSIVE DESIGN and appearance commends it to the buyer of fine furniture. The console stands 41 inches high, top measures 25 inches wide by 14 1/2 inches deep.

—TONE—VOLUME—DISTANCE—SENSITIVITY—

Three stages of radio frequency along with a tuned detector stage imparts to the "Auditorium" receiver extreme sensitivity. It enables you to REACH OUT and bring in the DISTANT STATIONS with surprising ease. Its wonderful audio system consisting of two stages of transformer coupled audio brings in the far distant stations with a volume comparable to locals. The DX enthusiast will find a new treat in store when tuning this marvelous receiver. One dial control SIMPLIFIES THE OPERATION of the receiver and makes for REAL PLEASURE in tuning.

WITH MAGNETIC CONE SPEAKER

Here the "Auditorium" model is offered complete with Genuine Farrand Magnetic Cone Speaker. Accessories are not included. The low price we are quoting on this complete model stamps it out as one of the FOREMOST VALUES of the season.

THE 'SHERMAN' MOGUL 7^A 250

A.C. ALL ELECTRIC—EMPLOYING the NEW '250' SUPER POWER TUBE

THE FINEST will find in the Sherman Model receiver a new conception of radio perfection. It features a popular type of SLIDING DOOR CONSOLE along with the FAMOUS MOGUL 7-250 CIRCUIT employing the new 250 power tube and the genuine Farrand Speaker. The beauty of the "Sherman" console, the remarkable efficiency of the Mogul 250 circuit and the WONDERFUL TONE and volume carrying capacity of the Farrand Speaker all combine to make the "SHERMAN" one of the season's outstanding values.

WONDERFUL TONE—TREMENDOUS VOLUME
The "Sherman" console is of genuine WALNUT CONSTRUCTION featuring beautiful matched butt walnut sliding doors that SLIDE BACK into the console itself out of the way, exposing the receiver and speaker grill for operation. The legs are of genuine black walnut and fine American Gunwood; the front and side panels are of MATCHED BUTT WALNUT, all finished in a fine HIGH-LIGHTED, shaded and rubbed lacquer.

POWER TO SPARE
Just plug the "Sherman" receiver into the ELECTRIC LIGHT SOCKET, and it is ready to operate. Efficient circuit design takes from each tube its full power resulting in PEAK OPERATING EFFICIENCY. Perfect shielding results in HAIR SPLITTING SELECTIVITY adapting the receiver for use in the most congested broadcasting districts.

EASY TO OPERATE
The novice will find real enjoyment in the operation of the "Sherman" receiver. Its all ELECTRIC OPERATION and ONE DIAL CONTROL make for the utmost simplicity in tuning. As the drum dial is rotated, station after station will come in with remarkable tone quality and tremendous volume. The tremendous volume is kept under instant control from a whisper to the full capacity of the powerful 250 tube. It brings to you a new conception of radio efficiency.

THE MOGUL 7-250

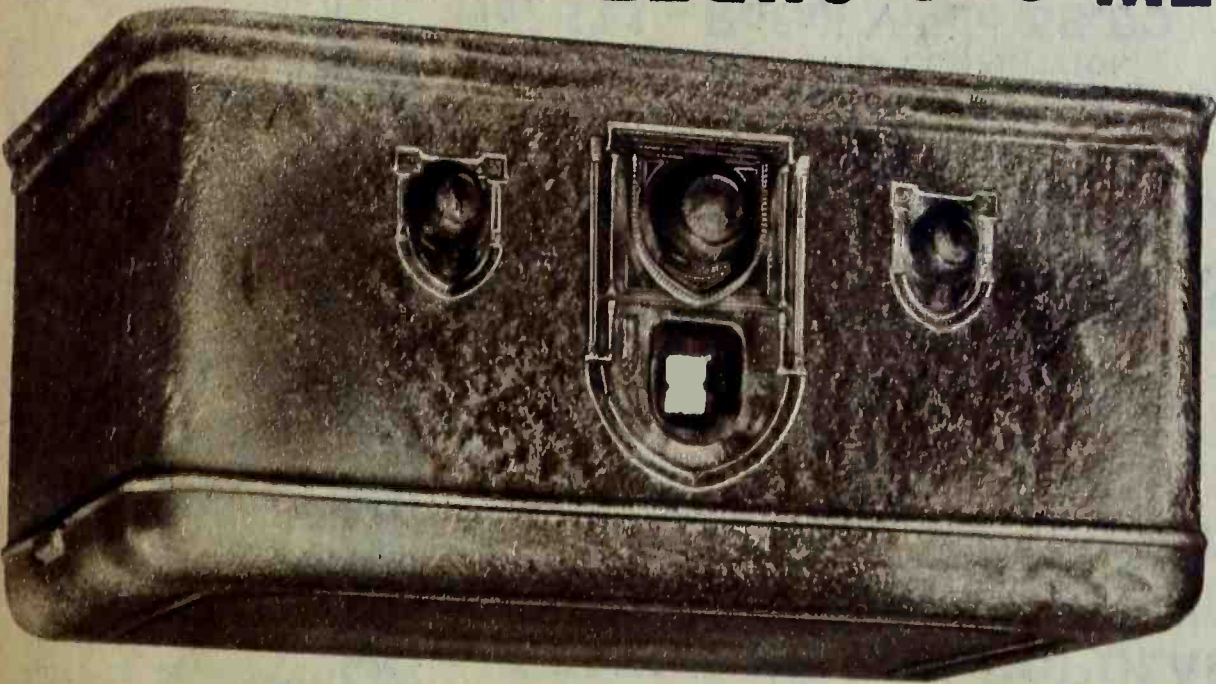

**A POWERFUL
HIGHLY EFFICIENT
RECEIVER—PRICED
FAR BELOW ACTUAL
VALUE—A MARVEL
OF TONE, VOLUME
AND SELECTIVITY**

The new Mogul 7-250 AC ALL ELECTRIC RECEIVER is BLAZING A NEW TRAIL in modern receiver design. The popular demand for utmost in tone quality and volume finds new expression in these receivers due to the use of the new 250 special power tube.

EMPLOYS THE NEW 250 SUPER POWER TUBE!

Here is a NEW TRIUMPH in radio engineering—a perfected AC circuit employing the POWERFUL 250 POWER AMPLIFYING TUBE. Revolutionary in design—astounding in performance. The goal of radio engineers to incorporate this wonderful power tube in a moderately priced home receiver has been realized. You will marvel at the power of its reception—ITS WONDERFUL TONE QUALITY—its selectivity and its tremendous undistorted volume. Today tone quality is the first requisite of the modern receiver and in the Mogul 7-250 tone quality reaches a new standard of perfection.

THE MOGUL CHASSIS
Everything that you look for in the ideal receiver is offered in the Mogul 250. Every part entering into its construction is of the finest. Careful testing before assembly assures BOTH MECHANICAL AND ELECTRICAL PERFECTION in the finished receiver. Perfect shielding coupled with the extreme care used in matching all parts makes for a new standard of sensitivity and selectivity. AC all electric operation is made possible through a SPECIALLY DESIGNED POWER PLANT which is built in as an integral part of the chassis. It makes possible LONG UNINTERRUPTED SERVICE under the trying conditions, and assures freedom from break downs. Housed in handsome cabinets measuring 19 1/2 inches high, 14 1/2 inches deep and 9 3/4 inches wide.

SENSATIONAL VALUES IN CONSOLES

BEAUTIFUL WALNUT MODELS—To Fit Any Set
AN ULTRA-MODERN CONSOLE IN GENUINE WALNUT
FEATURING THE POPULAR OPEN FRONT STYLE

A high grade console that reflects a RICHNESS IN APPEARANCE and a subtle refinement in design that places it in a class with the finest of radio furniture. Its graceful proportions and rigid construction is the work of skilled designers while its attractive WALNUT FINISH bespeaks the extreme care used in its construction. The panel stock is of carefully SELECTED WALNUT VENEERS while the legs and corners are of finest American Gumwood. The legs are attractively turned and rigidly braced with a substantial cross stretcher. A large speaker compartment is provided, measuring 22x9 1/2x12 1/2 inches, providing ample space for either dynamic or magnetic type speakers. The receiver compartment measures 22x9 1/2x12 1/2 inches, adapting it for use with practically all the popular models of receivers. The console proper stands 43 inches high by 24 inches wide by 13 1/2 inches deep.

BUILT TO SELL FOR \$65.00

The low price at which these consoles are offered should not be confused with their quality. Only the FINEST MATERIALS are used in its construction and its appearance is equal to that of consoles selling for many times the price we are asking. All of the chassis listed in this catalog are adapted for use with this console and in combination they place before you an exceptional value in a receiver that will UNDERSELL YOUR COMPETITION.
