

This section lists the **M Street RADIO MARKETS** in the United States. In general, a station is included in a market if it is licensed to a city in that market or if the market is a primary focus of its marketing activities.

For each listing, the market name is followed by all states served, Metro and Total Survey Area populations (TSA), the M Street 1998 market rank (MST), the Arbitron 1997 market rank (ARB), the Willhight survey dates (if any), followed by AM and FM stations, in dial order.

Metro and Total Survey Area population figures are based on the 12+ population estimates of Arbitron, if an Arbitron-rated market; Willhight, if the market is rated by Willhight but not Arbitron; or M Street, if the market is not rated. M Street rank is based on population estimates for the M Street-defined market area, which is defined by postal zip codes, rather than counties. The market definitions of Arbitron and Willhight are influenced by stations purchasing each company's ratings services, and do not necessarily coincide with each other or with M Street.

Audience estimates are for persons 12+ Monday-Sunday, 6 a.m. to midnight, average quarter hour shares and persons from the Metro Survey Area. Ratings for each Arbitron market are from the most recent ratings period for that market. Willhight survey dates are given separately for each market.

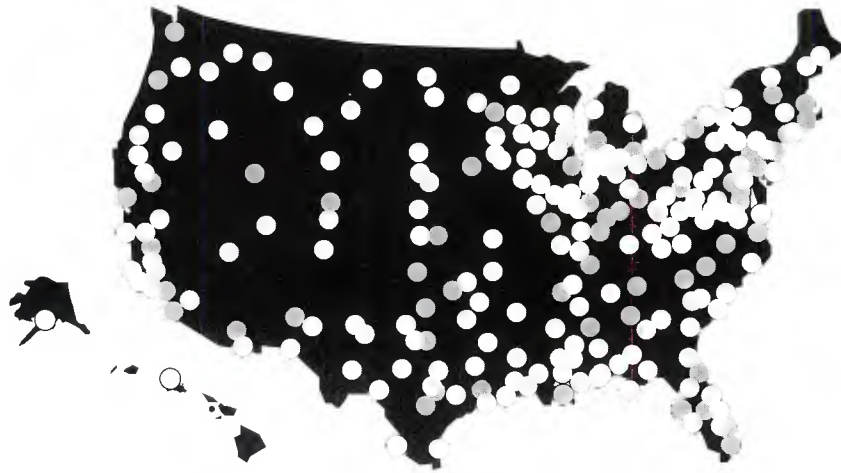

This year's directory includes Arbitron trend information. The column headers indicate the rating period, or "book," from which the numbers came. Here are our abbreviations, as well as the survey dates for each book:

"F97"	Fall '97 Arbitron	Sep. 18 - Dec. 10, 1997
"U97"	Summer '97 Arbitron	Jun. 26 - Sep. 17, 1997
"S97"	Spring '97 Arbitron	Mar. 27 - Jun. 18, 1997
"W97"	Winter '97 Arbitron	Jan. 2 - Mar. 26, 1997

If the market is measured by both Willhight and Arbitron, the Willhight share is listed in the last column as "Will." Trend data may not be available for all stations. Arbitron does not release rating information for non-commercial stations.

For more information on ratings and copyright information, see the **ABOUT RATINGS** section at the front of the book. Estimates are Copyrighted and may not be quoted or reproduced without prior written permission of the Copyright owner. For more information on the format descriptions for each station, see the **FORMAT CLASSIFICATIONS** section at the front of the book.

As with other sections of the book, **M Street RADIO MARKETS** are a condensation of data collected and are revised on an ongoing basis by M Street. Please call or write us with updates, corrections, or inquiries for customized applications of our market data.

Arbitron Covers the Country with Qualitative

Today, advertisers want to know what type of listeners you have, not just how many. Do you have the tools to describe your listeners? If not, Arbitron can help.

We cover the country with qualitative. Our Scarborough, RetailDirectSM and Qualitative Diary services allow us to offer qualitative information for just about every market.

Call your Arbitron representative today to find out how Arbitron's qualitative service can help you grow your station's revenue!

ARBITRON

Key to markets section:

For each listing, the market name is followed by Metro and Total Survey Area (TSA) populations, the M Street 1998 market rank (MST), the Arbitron 1997 market rank (ARB), the Willight survey dates (if any), followed by AM and FM stations in dial order. All current Arbitron ratings are from the most recent ratings period for that market, which are shown in the first column.

Estimates are for persons 12+ Monday-Sunday, 6am to midnight, average quarter hour shares from the Metro Survey area. For more information on ratings and copyright information, see the **ABOUT RATINGS** section at the front of the book. Estimates are copyrighted and may not be quoted or reproduced without prior written permission of the copyright owner. Trend data may not be available for all stations. Arbitron does not release ratings information for non-commercial stations. For more information on the format descriptions for each station, see the **FORMAT CLASSIFICATIONS** section at the front of the book.
