

M STREET RADIO MARKETS

THE ULTIMATE RADIO STATION DESKTOP REFERENCE!
the RadioBook
2010-2011

This section lists the **M Street RADIO MARKETS** in the United States followed by those in Canada. In general, a station is included in a market if it is licensed to a city in that market or if the market is a primary focus of its marketing activities.

For each listing, the market name is followed by, Metro populations, the M Street 2010 market rank (MST), and the Arbitron Spring 2010 market rank (ARB), followed by AM and FM stations in dial order.

Metro population figures are based on the 12+ population estimates of Arbitron, if an Arbitron-rated market; or M Street, if the market is not rated. M Street rank is based on population estimates for the M Street-defined market area which is defined by postal zip codes, rather than counties. The market definitions of Arbitron are influenced by stations purchasing each company's rating services, and do not necessarily coincide with each other or with M Street.

Audience estimates are for persons 12+ Monday-Sunday, 6am to midnight, average quarter hour shares and persons from the Metro Survey Area. Ratings for each Arbitron market are from the most recent ratings period for that market. Personal People Meter (PPM) markets will be shown with the latest monthly share and come as opposed to AQH.

This year's directory includes Arbitron trend information. The column headers indicate the rating period, or "book" from which the numbers came. Here are our abbreviations, as well as the survey dates for each book:

"W10"	Winter 2010 Arbitron	January 7 - March 31 1, 2010
"F09"	Fall 2009 Arbitron	September 17 - December 9, 2009
"U09"	Summer 2009 Arbitron	June 25 - September 16, 2009
"S09"	Spring 2009 Arbitron	April 2 - June 24, 2009

Trend data may not be available for all stations. Arbitron does not release rating information for non-commercial stations except in the case of the markets which are now designated as Personal People Meter (PPM) rather than diary markets.

For more information on ratings and copyright information, see the **ABOUT RATINGS** section at the front of the book. Estimates are Copyrighted and may not be quoted or reproduced without prior written permission of the Copyright owner. For more information on the format descriptions for each station, see the **FORMAT CLASSIFICATIONS** section at the front of the book.

As with other sections of the book, **M Street RADIO MARKETS** are a condensation of data collected and are revised on an ongoing basis by M Street. Please call or write us with updates, corrections, or inquiries for customized applications of our market data.

Precision means that you avoid the time consuming errors resulting from unfounded data such as these listed below...

- ✘ Called a person who no longer holds that position at the station
- ✘ Emailed someone at a station and had it bounce back
- ✘ Called the desired contact and the number didn't work
- ✘ Placed a buy on a station with good intentions, but the format had changed
- ✘ Were frustrated that you were using data that was out of date!
