

1983 BROADCAST ENGINEERING CONFERENCE PROCEEDINGS

CONTENTS

UHF TRANSMISSION SYSTEMS

Reducing Operator Costs and Improving Performance in Older UHF Transmitters, David C. Danielsons.....	1
UHF TV Transmitter Plant Economies, John H. Battison.....	17
New Developments in High Efficiency High Power UHF-TV Klystrons, Dr. R. Heppinstall.....	23
Increased Efficiency From 5 Cavity Klystrons, Robert S. Symons.....	31
A Dual Channel Symmetrical Waveguide System, Richard E. Fiore and Mark A. Aitken.....	35
Analytical and Experimental Data on Circular Waveguide for UHF-TV, A.G. Holtum, T.H. Greenway and T.J. Vaughan.....	61

SATELLITE SYSTEMS

Comparison of C Band and Ku Band for Broadcast Quality Television Transmission by Satellite, Norman P. Weinhouse.....	79
An Analysis of Interference in Satellite Transmission of Video Systems, A.G. Uyttendaele.....	93

TRANSMITTERS AND ANTENNAS

Design Criteria for Multi-Station Combining Systems, Spencer J. Smith and Robert R. Weirather.....	125
Use of Sectionalized Antennas for AM, John R. Furr.....	145
Solid State Transmitter Techniques Developed for Critical Aerobeacon Applications May Be Used for AM Broadcasting With Significant Advantages, Dennis H. Covill.....	161
Electrical and Mechanical Analysis of Synthetic Tower Guys, Leopold Gregorac and Gregory F. Bowen.....	171

AM-FM ALLOCATIONS AND FM SCA

Impact of Reduced Mileage Separations on FM Broadcasting: A Technical Report on Docket 80-90, Michael C. Rau.....	183
Report on SCA Operation, Robert W. Denney, Jr.....	187
The Effect of Additional SCA Subcarriers on FM Stereo Performance and RF Protection Ratios, John Kean.....	197
Issues Concerning Modulation Levels During FM SCA Operation, Harrison Klein.....	229

TELEVISION AUDIO

Television Multichannel Sound Tests - Chicago '83, James J. Gibson and James Zook.....	241
Intercarrier Buzz in Television Receivers, Carl G. Eilers.....	251
The Transmission of Television Multichannel Sound Through Cable Systems, Alex Best.....	267
Visual and Aural Exciter Design for Multi-Channel Sound, Robert M. Unetich... 	275
An Update on Technology of Loud Commercial Control, Ralph A. Haller.....	281
Broadcasting and Loudness: NAB Status Report, Michael C. Rau.....	313

NON-IONIZING RADIATION

RF Radiation in Broadcasting, Jules Cohen.....	325
---	-----

ADVANCED TELEVISION SYSTEMS

Improving Picture Quality in the NTSC System, Kerns H. Powers.....	329
NTSC High Quality Television Receiver, Richard S. Prodan.....	335
Compatible Transmission of High Definition Television Using Bandwidth Reduction, W.E. Glenn, Ph.D., Karen Glenn, Ph.D., R.L. Dhein and I.C. Abrahams.....	341

RADIO NEW TECHNOLOGY

A Single RF Channel Stereo Remote Pick-up Transmitter, Bradley Dick.....	351
A New Type of Information Delivery Network, Jack R. Taub.....	373
Improving the Signal-to-Noise Ratio and Coverage of FM Stereophonic Broadcasting, Emil Torick.....	387
Satellite Digital Audio Transmission: An Overview, Edmund A. Williams.....	399
Low Power Applications of SCPC Technology, William A. Check.....	417

AM STEREO: USERS REPORTS

AM Stereo System Transmission and Reception, Leonard R. Kahn.....	423
The Harris Linear AM Stereo System, David Hershberger.....	431
Technical Performance of the Magnavox PMX AM Stereo System, J.S. Sellmeyer, P.E.....	437
Motorola C-Quam AM Stereo System, Chris Payne.....	443
Belar AM Stereo System, Arno M. Meyer.....	449

SPECTRUM MANAGEMENT

How International Spectrum Decisions Affect Broadcasting in the United States A. James Ebel.....	451
---	------------
