TEXAS is bounded north by New Mexico, the Indian Territory, and Arkansas, east by the Indian Territory, Arkansas, and Louisiana, southeast by the Gulf of Mexico, southwest by Mexico, and west by New Mexico; greatest length about 825 miles; greatest breadth about 740 miles; land area, 262,200 square miles. From the Sabine River to the Trinity River is the great timber region, generally level and sandy in the south, rolling and fertile in the north. From the Trinity to the Colorado is prairie, timbered along streams, with an extensive forest in the north called the "Cross Timbers." Western Texas embraces the counties between the Colorado and Rio Grande; four-fifths of it is prairie; timber generally confined to banks of streams. Between the Colorado and the Brazos Rivers are the Comanche and Leon River Mountain ranges. In the north and northwest are the Church and Double Mountains, and the surface is generally broken until the Llano Estacado, or Staked Plain, is reached, when the surface is gently undulating, and vegetation scanty. Between the Pecos and Rio Grande are several ranges, sometimes attaining an elevation of 5,000 feet: The chief crops are cotton, corn, and wheat. The former two may be grown in nearly any part of the State, but especially in the eastern and central sections; the latter chiefly in the north and centre. Sea island cotton is grown on the coast. Sugar cane is raised chiefly on the Brazos and other rivers, near their mouths, and rice in the southeast. Oats, barley, tobacco, and sweet and white potatoes are grown to a moderate extent. Swine thrive on the abundant mast of the forests. The chief occupation westward is stock-raising and wool-growing. Figs and oranges thrive in the south. Manufacturing interests are increasing. The number of manufacturing establishments in the State in 1880, was 2,996; amount of capital invested in them, \$9,245,561; total number of hands employed, 12,159; amount paid in wages, \$3,343,087; value of materials used, \$12,356,269; value of products, \$20,719,828. There are immense deposits of copper along the line of the Texas Pacific Railroad; coal, timber, limestone, soapstone and iron are found in the same region. Argentiferous galena is found in large quantities in northwestern Texas; immense quantities of magnetic iron in Mason, Llano, and the western counties. There is a field of bituminous coal about 6,000 square miles in extent, and a field of anthracite in Brown, Coleman, Comanche, and Hamilton Counties. Salt is produced in large quantities from springs in El Paso, Lampasas, and Llano Counties; asphaltum is abundant. Large quantities of salt-petre are found in Blanco and Burnet Counties; marble and roofing-slate, grindstones, pott and fire-clays, marl, and other fertilizers are found in great quantities.

There are 225 Counties in Texas. Newspapers are published in 137.—Cities, towns, and villages in which papers are published number 194, of which 127 designated by a dagger (†) are county-seats. Of the 356 papers which insert advertisements published in the State, 38 are daily, 1 tri-weekly, 2 semi-weekly, 200 weekly, 5 semi-monthly, 19 monthly, and 1 quarterly.

ARKANSAS.

Population 802,525.....Dem. Plur. 18,828

Colored, 210,666.

Gbk. vote, 4,079

STATE CAPITAL, LITTLE ROCK.

ARKANSAS is bounded north by Missouri, east by Missouri, Tennessee, and Mississippi, south by Louisiana, southwest by Texas, and west by the Indian Territory; greatest length from north to south, 240 miles, and breadth from 170 to 250 miles; land area, 53,045 square miles. The eastern part is low and level, with dense forests and many swamps and lakes, and is frequently more or less inundated by the Mississippi, Arkansas, and other rivers. The surface rises toward the centre, where it is hilly and diversified with forests and rolling prairies. Further west are branches of the Ozark Mountains, comprising the Black Hills in the north, Cane Hills in the northwest, and the Ouachita Hills in the south. The Valley of the St. Francis, in the northeast, is nearly all swamp; the soil is very varied. The river bottoms are very fertile, and yield large crops of cotton, corn, sweet potatoes, tobacco, and fruit. The soil is less productive on the uplands, but in many places, especially north, produces good crops of wheat, oats, etc. Cotton is the chief staple; corn next. Hay is an important crop. The principal manufactures are flour and grist-mill products, cotton-gins, leather, wool-carding, and lumber. The number of manufacturing establishments in the State in 1880, was 1,202; amount of capital invested in them, \$2,953,130; total number of hands employed, 4,557; amount paid in wages, \$925,358; value of materials used, \$4,392,080; value of products, \$6,756,159. Coal, argentiferous galena, zinc, copper, and iron, marble, grindstone, granite, and kaolin are among the minerals. Good coal is mined in Crawford, Conway, Franklin, Johnson, Perry, Pope, Pulaski, Sebastian, Scott, Washington, White, and Yell Counties. Silver is found in connection with galena in Pulaski and Sevier Counties, and with lead in Benton, Carroll, Independence, Izard, Lawrence, Madison, Marion, Newton, Randolph, Searcy, and Washington Counties; excellent marble, especially in Madison County. Slate for all purposes is quarried in Pike, Pulaski, Polk, and Sevier Counties; Grant and Hot Springs Counties have extensive quarries of Arkansas bone or oil-stone. Among the mineral springs, the "Hot Springs of Arkansas," at Hot Springs, Garland County, are the most renowned.

There are 75 Counties in Arkansas. Newspapers are published in 64.—Cities, towns and villages in which papers are published number 87, of which 59 designated by a dagger (†) are county-seats. Of the 134 papers which insert advertisements published in the State, 7 are daily, 124 weekly, 1 semi-weekly, and 2 monthly.

KENTUCKY.

Population 1,648,690.....Dem. Plur. 43,449

Colored, 271,451.

Gbk. vote, 11,498.

STATE CAPITAL, FRANKFORT.

KENTUCKY is bounded north by Ohio and Indiana, northwest by Illinois, east by West Virginia and Virginia, south by Tennessee, and west by Missouri; greatest length from east to west, 350 miles; greatest breadth, 178 miles; land area, 40,000 square miles. The surface in the east and southeast is mountainous, being broken by numerous parallel ranges of the Alleghany system, with deep valleys. Northwest of this section is the famous Blue Grass Region, with a gently undulating upland surface, with deep valleys at the rivers. Between the Green and Cumberland Rivers the surface is level and known as the "Barrens," with occasional low round-topped hills, which are covered with oaks. The western part is generally level, varied by slight undulations. The soil is generally fertile, that portion between Lexington and the Ohio River especially so, being commonly known as the "Garden of Kentucky." The chief products are tobacco, corn, wheat, oats, rye, barley, potatoes, and hemp. Kentucky has acquired a world-wide fame for its thoroughbred horses and short-horn cattle. The wool clip is very large, and immense numbers of swine are raised. Dairy products are very extensive; also sorghum-molasses, maple-sugar, honey, and wax; some cotton is raised in the southwest, near the Tennessee, Cumberland, and Mississippi rivers. The manufacturing interests are varied and important, and are carried on chiefly in the towns on the Ohio River; the most extensive industry is the smelting and working of iron. The number of manufacturing establishments in the State in 1880, was 5,328; amount of capital invested in them, \$45,813,039; total number of hands employed, 37,391; amount paid in wages, \$11,657,844; value of materials used, \$47,461,890; value of products, \$75,483,377. Whisky is an important product of the central counties. Salt is made in large quantities from the springs of Clay and other counties. Coal and iron deposits are the most valuable minerals of this State; it has excellent building-stone; silver-ore is found near Cumberland Falls.

There are 117 Counties in Kentucky. Newspapers are published in 83.—Cities, towns, and villages in which papers are published number 94, of which 76 designated by a dagger (†) are county-seats. Of the 199 papers which insert advertisements published in the State, 13 are daily, 4 tri-weekly, 7 semi-weekly, 153 weekly, 5 semi-monthly, and 17 monthly.

TENNESSEE is bounded north by Kentucky and Virginia; southeast by North Carolina; south by Georgia, Alabama, and Mississippi; west by Arkansas and Missouri; greatest length from east to west 432 miles, breadth 109 miles; land area, 41,750 square miles. Middle Tennessee reaches from about the center of the plateau to the Tennessee River, and is a region of fertile terraces, including the vast elliptical basin of nearly 5,000 square miles, known as the Garden of Kentucky. West Tennessee extends from the Tennessee River to the Mississippi, and is somewhat broken in the east, succeeded by a rolling plain descending to the latter river. The Mississippi bottom is a low, flat, alluvial plain, covered with forests and abounding with lakes and swamps. West Tennessee is extremely fertile, and produces corn and cotton in large quantities. Middle Tennessee is generally fertile, giving excellent grain, tobacco, and much cotton, especially toward the south. East Tennessee valley lands are fertile, producing corn, cotton, and winter-wheat; potatoes, oats, hay, and hemp are extensively produced; great numbers of stock are raised, and the wool-clip is large and excellent. Tennessee is rich in marble of various kinds, limestone and other building-stone; valuable copper mines exist in Polk County; coal and iron-ore are very abundant. OHIO.

Population 3,198,062.....Rep. Plur. 34,227
Gbk. vote, 6,456.

STATE CAPITAL, COLUMBUS.

OHIO is bounded north by Michigan and Lake Erie, east by Pennsylvania and West Virginia, south by West Virginia and Kentucky, and west by Indiana; greatest length from east to west 225 miles; greatest breadth 200 miles; land area, 40,700 square miles. The general character of the surface is that of a plateau from about 800 to 1,000 feet above the sea. The most prominent feature is the great divide which separates the drainage of Lake Erie from that of the Ohio River. This passes diagonally across the State from Trumbull County in the northeast to Mercer and Darke Counties in the west. Its average height is about 600 feet above the lake; and from it the surface slopes gradually northward toward the lake and southward toward the River. The rivers and streams have excavated deep valleys, which give to the surface its distinctive undulating or rolling character. The soil is universally fertile; and Ohio holds a leading position in every branch of agriculture. The uplands are well suited to wheat, the southern slope of the water-shed to grain generally, the northern slope for grazing and dairying, and the northeast section or Western Reserve especially so. The bottom lands of the Miami, Muskingum, and Scioto rivers are very rich in corn; the Western Reserve and Miami regions are famous for apples. Flax and linned are staple products, and tobacco is largely grown in most of the southern counties. The fishing interests of Lake Erie are important. The manufactures of the State are very numerous and valuable. Iron, pork-packing, farm implements, clothing, flouring and grist mill products, lumber, malt and distilled liquors being among the most important. The number of manufacturing establishments in the State in 1880, was 20,699; amount of capital invested in them, \$188,939,614; total number of hands employed, 173,609; amount paid in wages \$62,103,800; value of materials used, \$215,334,258; value of products, \$348,298,300. Coal underlies a greater part of the State; iron-ore is abundant, especially in the south; salt is very largely produced from springs; petroleum is an important product, also lime and cement. Good grindstones and building-stones are obtained at Amherst, Berea (Berea grit), Buena Vista, and Independence. There are excellent qualities of limestone and sandstone for building, especially at Massillon and Dayton. Marl deposits abound in the Maumee Valley and other points. There are good pottery and fire-clays, the fire-bricks of Mineral Point being among the best in the United States. Cleveland, Massillon, Youngstown, and the towns on the Ohio River are the chief seats of the iron manufacture, which includes pig, forged, and rolled; iron castings and sheet iron works, rails, Bessemer steel rails, etc.

There are 88 Counties in Ohio. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 303, of which 88 designated by a dagger (†) are county-seats. Of the 832 papers which insert advertisements published in the State, 71 are daily, 5 tri-weekly, 15 semi-weekly, 626 weekly, 3 bi-weekly, 15 semi-monthly, 1 every three weeks, 89 monthly, and 7 quarterly.

INDIANA.

Population 1,978,301.....Rep. Plur. 6,642

Gbk. vote, 12,986.

STATE CAPITAL, INDIANAPOLIS.

INDIANA is bounded north by Michigan and Lake Michigan, east by Ohio, south by Kentucky, and west by Illinois. Its extreme length north and south is 276 miles; average breadth 140 miles; land area, 35,910 square miles. About two thirds of the surface is undulating or level prairie; near the Ohio and other streams the surface is hilly and often abrupt and rugged. In the extreme northwest there is a sandy tract, with considerable marsh-land. The northeast abounds in oak-opeungs and prairie land, interspersed with many small lakes. The soil is generally fertile, much of it exceedingly so; the richest is found along the Wabash, White, and White Water Rivers. There is abundance of coal of good quality. The iron manufacture is extensive, Indiana coal being particularly suited to its manufacture, but the ores used come mainly from the Lake Superior region, Missouri, and Tennessee. Indiana has some bog-ore and local deposits of better grades which have been worked to some extent. There are some salt-springs, good sandstone, limestone, fire-brick, potter's clays, and kaolin. Indiana ranks high as a grain-producing and stock-raising State. Corn, wheat, oats, tobacco, and potatoes are raised in large quantities. Butter, wool, hay, maple-sugar, and sorghum-molasses also, are important products; timber is largely exported. Manufactures are numerous and extensive, the chief industries being flouring and grist-mill products, lumber, woolen goods, furniture, carriages and wagons, iron and iron-ware, machinery, agricultural implements, pork-packing, liquors, metallic wares, leather, boots, shoes, and clothing. The number of manufacturing establishments in the State in 1880, was 11,138; amount of capital invested in them, \$65,742,962; total number of hands employed, 69,508; amount paid in wages, \$21,960,888; value of materials used, \$100,262,917; value of products, \$148,006,411.

There are 92 Counties in Indiana. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 193, of which 92 designated by a dagger (†) are county-seats. Of the 534 papers which insert advertisements published in the State, 68 are daily, 2 tri-weekly, 1 semi-weekly, 411 weekly, 8 semi-monthly, 42 monthly, and 2 quarterly.

ILLINOIS.

Population 3,077,871.....Rep. Plur. 40,716

Gbk. vote, 23,358.

STATE CAPITAL, SPRINGFIELD.

ILLINOIS is bounded north by Wisconsin, northeast by Lake Michigan, east by Indiana, southeast and south by Kentucky, and west by Missouri and Iowa; extreme length north and south 385 miles; extreme breadth 218 miles; land area, 56,000 square miles. The surface is mostly level table-land, inclining gently toward the south, with bluffs along the principal rivers. A small tract in the northwest, around Galena, is somewhat broken, and a low mountain ridge extends across the southern end from Grand Tower, on the Mississippi River, to Shawneetown, on the Ohio, about 850 feet above sea-level. This is a great fruit region. The prairies are sometimes level, but generally undulating. More than two-thirds of the State is a productive bituminous coal-field. The iron-ore is good only when mixed with Michigan and Missouri ores. Lead and zinc are mined extensively in the northwest. Copper-ore, gypsum, and marble are found in various places. Limestone and freestone abound. The prairie soils are deep and fertile; that of the river bottoms is often inexhaustible. A tract called the American Bottom, extending along the Mississippi River a length of ninety miles by about five in breadth, has an alluvial soil about twenty-five feet in depth. Illinois is unexcelled as an agricultural State, and is among the first in manufactures. Spring and winter wheat, corn, and other cereals, dairy produce, wool, and hay, are leading products. The industrial pursuits embrace a wide range of articles, and the seats of manufacture are distributed generally throughout the State. The number of manufacturing establishments in the State in 1880, was 14,549; amount of capital invested in them, \$140,652,066; total number of hands employed, 144,727; amount paid in wages, \$57,429,085; value of material used, \$289,843,907; value of products, \$414,864,673. Fishing interests center chiefly at Chicago.

There are 102 Counties in Illinois. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 397, of which 102 designated by a dagger (†) are county-seats. Of the 1,067 papers which insert advertisements published in the State, 89 are daily, 2 tri-weekly, 15 semi-weekly, 782 weekly, 3 bi-weekly, 25 semi-monthly, 111 monthly, 2 bi-monthly, and 8 quarterly.

MICHIGAN.

Population 1,636,937.....Rep. Plur. 53,890

Gbk. vote, 24,795.

STATE CAPITAL, LANSING.

MICHIGAN is bounded north by Lake Superior, east by Lakes Huron, St. Clair, and Erie, and their connecting rivers, south by Ohio and Indiana, and west by Lake Michigan; land area, 57,430 square miles. It consists of two peninsulas, of which the southern is the principal seat of wealth and population. It is a very level region, abounding in lakes and streams, with very extensive forests of pine and other timber in the north, oak-openings or natural parks in the south, and prairies in the southwest. The soil contains sufficient sand to make it easily tilled, and few sections excel this part of the State as a farming region. In the west and southwest is the great fruit-belt. Winter wheat, oats, and potatoes are abundant and of excellent quality; corn and other cereals are largely grown. Dairy products are very valuable. Wool is raised in very large quantities; live-stock is plentiful. Peppermint is raised extensively in the southwest, and grapes in the south. The surface of the northern peninsula is generally rough and mountainous, with a severe climate and poor soil; but its mineral wealth is very great, especially in copper, iron and silver. Large quantities of iron-ore are mined and shipped to Pennsylvania, Ohio, Indiana, and Illinois to be smelted either alone or with the inferior ores found in those States. Marquette, Ishpeming, Negannee, and Escanaba are the points of shipment. By far the most important copper mines of the country are in this State. There is a large quantity of coal, used chiefly for local and railroad purposes. The salt-producing territory covers about 8,000 square miles, and the value of the product in 1880 was more than double that of New York State; it is procured from artesian wells, and the Saginaw River is the chief centre of manufacture. Michigan ranks first among the States in the value and extent of its lumber product. Gypsum, fire-clay, and glass-sand are also found. Manufactures are important and varied in extent. Among the leading are iron, lumber, salt, woodenware, furniture, farm implements, leather, cotton and woolen goods, machinery, castings, and hollow-ware. The number of manufacturing establishments in the State in 1880, was 8,873; amount of capital invested in them, \$93,930,959; total number of hands employed, 77,591; amount paid in wages, \$25,313,682; value of materials used, \$92,900,289; value of products, \$150,715,025.

There are 80 Counties in Michigan. Newspapers are published in 76.—Cities, towns, and villages in which papers are published number 268, of which 72 designated by a dagger (†) are county-seats. Of the 531 papers which insert advertisements published in the States, 41 are daily, 2 tri-weekly, 8 semi-weekly, 413 weekly, 2 bi-weekly, 10 semi-monthly, 24 monthly, and 1 quarterly.

POPULATION: § Estimated. Unmarked—Census of 1880.

MISSOURI.

Population 2,168,380.....Dem. Plur. 55,042.

Colored, 145,350.

Ghk. vote, 35,045.

STATE CAPITAL, JEFFERSON CITY.

MISSOURI is bounded north by Iowa, east by Illinois, Kentucky, and Tennessee, south by Arkansas, west by Indian Territory, Kansas, and Nebraska; length, north to south, 277 miles; average breadth, about 244 miles, ranging from 208 miles in the north to 312 miles in the south; land area 68,735 square miles. The Missouri River divides the State into two distinct parts. The surface north of the river is generally nearly level, while that south of it is undulating, becoming rougher and somewhat mountainous as it approaches the Ozark Mountains. There are also here open, treeless plains, an extension of those in Kansas, and in the southeast, bordering on the Mississippi River, is an extensive marshy tract, called the "Sunk Country," the result of the earthquake of 1811-12. It contains every variety of soil. Corn, wheat, oats, and tobacco are the staple products, but barley, rye, bay, fruit, white and sweet potatoes, dairy and market-garden products, wool, cattle, and pork are raised largely in excess of home needs. Sorghum and castor-oil beans are largely produced. Cotton, hemp, and flax are cultivated to some degree in the southern counties; so are grapes, and much wine is made. The principal live-stock are sheep and swine. Iron and lead ore are mined and manufactured in very large quantities, and the supply is inexhaustible. Many other minerals abound; also marble, limestone, glass-sand, kaolin, fire-clay, etc. Beside iron and lead, there are important manufactures in many branches of trade. The number of manufacturing establishments in the State in 1880, was 8,592; amount of capital invested in them, \$72,507,844; total number of hands employed, 63,995; amount paid in wages, \$24,309,716; value of materials used, \$110,798,392; value of products, \$165,386,205.

There are 114 Counties in Missouri. Newspapers are published in 113.—Cities, towns, and villages in which papers are published number 258, of which 112 designated by a dagger (†) are county-seats. Of the 604 papers which insert advertisements published in the State, 51 are daily, 2 tri-weekly, 3 semi-weekly, 475 weekly, 1 bi-weekly, 3 semi-monthly, 55 monthly, 2 bi-monthly, and 2 quarterly.

IOWA.

Population 1,624,615.....Rep. Plur. 78,059

Gbk. vote, 32,327.

STATE CAPITAL, DES MOINES.

Iowa is bounded north by Minnesota, east by Wisconsin and Illinois, south by Missouri, and west by Nebraska and Dakota. Its greatest length from east to west is 300 miles, and breadth 208 miles; land area, 55,475 square miles. The surface is generally rolling prairie, with no mountains nor even high hills, but with frequent bluffs along streams; and in places near large rivers it presents a broken appearance, caused by erosion from torrents. The southern part is the most level, beautifully diversified with prairies, groves, and the numerous affluents of the two great rivers. In the northeast the surface is more elevated, with numerous low hills with tops covered with oaks, and abounding in lead and other ore; but the distinguishing feature of Iowa is its beautiful diversified prairies, which are everywhere fertile and easily tilled, and having few stones or stumps, are especially adapted for the use of agricultural machinery. The valleys of the Red Cedar, Iowa, and Des Moines rivers contain the richest soils; northward of these the soil becomes less fertile, but still productive and remunerative. Building-stone is abundant; coal and lead are very extensively worked. Iron-ore and other minerals are found. The cereals generally, dairy and market-garden products, wool, linseed, sorghum, and live-stock of all kinds are very largely produced. Grapes grow well in the south, and fruit-culture is increasing. The manufacturing interests are rapidly developing, the leading branches being flour, lumber, wood-working, carriages, woolen goods, boots and shoes, pork-packing, saddlery, furniture, malt liquors, and farm implements. The number of manufacturing establishments in the State in 1880, was 6,921; amount of capital invested in them, \$33,957,886; total number of hands employed, 28,372; amount paid in wages, \$9,725,962; value of materials used, \$13,704,311; value of products, \$71,045,926.

There are 99 Counties in Iowa. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 334, of which 96 designated by a dagger (†) are county-seats. Of the 659 papers which insert advertisements published in the State, 40 are daily, 1 tri-weekly, 9 semi-weekly, 573 weekly, 2 bi-weekly, 4 semi-monthly, 1 every third week, and 31 monthly.

KANSAS.

Population 996,096.....Rep. Plur. 61,731
Colored, 43,107. Gbk. vote, 19,710.

STATE CAPITAL, TOPEKA.

KANSAS is bounded north by Nebraska, east by Missouri, south by the Indian Territory, and west by Colorado. Its length from east to west is 410 miles, and from north to south 210 miles; land area, 81,700 square miles. The surface is chiefly undulating in the east, while the western part has a rolling and varied surface, with every requisite for grazing. There are no mountains, very few lakes, and those small and shallow; no marshes but salt marshes, and these are valuable; probably only five per cent. of the area is forest, and this distributed mainly along streams and in occasional groves and small tracts. The western half, however, is very scantily supplied with timber, but there is an abundance of coal, which is used for domestic purposes, but not for export, and several varieties of good building-stone. The bottom and table lands are chiefly a rich black loam, and highly productive. Winter and spring wheat, corn, rye, oats, and potatoes are the chief products, while broom-corn, sorghum, flax, hemp, castor beans, tobacco, and hay are also largely produced. Cattle-raising is a prominent industry, and sheep farming is becoming frequent in the western part. Dairy products are increasing rapidly, and progress is also being made in fruit-growing and wine-making. Manufactures are being developed, and the number of establishments is rapidly increasing, but at present the chief industries are agriculture, stock-raising, and fruit-culture. The number of manufacturing establishments in the State in 1880, was 2,803; amount of capital invested in them, \$11,192,315; total number of hands employed, 12,062; amount paid in wages, \$3,995,010; value of materials used, \$21,453,141; value of products, \$30,843,777.

There are 103 Counties in Kansas. Newspapers are published in 81.—Cities, towns, and villages in which papers are published number 227, of which 78 designated by a dagger (†) are county-seats. Of the 415 papers which insert advertisements published in the State, 21 are daily, 1 semi-weekly, 375 weekly, 1 bi-weekly, 14 monthly, 1 bi-monthly and 2 quarterly.

COLORADO.

Population 194,327.....Rep. Plur. 2,803

Gbk. vote, 1,435.

STATE CAPITAL, DENVER.

COLORADO is bounded north by Nebraska and Wyoming Territory, east by Nebraska and Kansas south by the Indian Territory and New Mexico, and west by Utah. Average length from east to west 380 miles, breadth, 280 miles; land area, 103,645 square miles. The surface consists of three divisions—the mountains and parks, the foot-hills, and the plains. It is intersected near the center by the Sierra Madre Range of the Rocky Mountains, including the highest peaks, among which are Pike's and Long's Peaks, Mts. Torrey, Lincoln, Gray, Yale, Harvard, the Spanish Peaks, etc. The mountains enclose the wonderful valleys or basins known as parks, many of which are small, but others larger than some entire States. These parks are well timbered, and abound with beautiful scenery, being diversified with low hills and ridges, which contain the sources of all the great rivers that rise in the State. The eastern part of Colorado is an immense plain, well adapted to stock-raising. Agriculture is not carried on to any great extent, as extensive irrigation is in most cases necessary to render the soil productive. Where this is resorted to, the yield is very good. Cattle raising and sheep farming are the chief agricultural pursuits. Lumbering is an important industry, but the mining of gold, silver, and other metals is the chief source of wealth. The number of manufacturing establishments in the State in 1880, was 559; amount of capital invested in them, \$4,311,714; total number of hands employed, 5,074; amount paid in wages, \$2,314,427; value of materials used, \$3,808,762; value of products, \$14,260,159.

There are 40 Counties in Colorado. Newspapers are published in 36.—Cities, towns, and villages in which papers are published number 67, of which 27 designated by a dagger (†) are county-seats. Of the 151 papers which insert advertisements published in the State, 24 are daily, 121 weekly, 1 semi-monthly, 4 monthly, and 1 bi-monthly.

NEVADA.

Population 62,266.....Dem. Maj. 879

Chinese, 5,416.

STATE CAPITAL CARSON CITY.

NEVADA is bounded north by Oregon and Idaho, east by Utah and Arizona, and southwest and west by California. Extreme length from north to south, 485 miles in the eastern, and 210 in the western boundary; greatest breadth, 320 miles, decreasing to 310 miles in the north and to a point in the south; land area, 109,740 square miles. Surface generally is a table-land about 4,000 feet above the sea, traversed by nearly parallel mountain ranges, between which are valleys varying in width from 5 to 20 miles, in some cases narrow canyons, and in others broad deserts, covered with sage-brush and other scanty herbage. The soil when irrigated is fertile, and produces spring wheat, barley, oats, potatoes, butter, hay, wool, etc. There is much good pasturage, and cattle fatten readily upon it. Cotton and sub-tropical fruits do well in the south. It has for years been the leading State in the production of the precious metals. The milling and smelting of ore is the leading manufacturing pursuit. The number of manufacturing establishments in the State in 1880, was 184; amount of capital invested in them, \$1,323,300; total number of hands employed, 577; amount paid in wages, \$461,897; value of materials used, \$1,049,794; value of products, \$2,179,626. Lumber sawing, once important, is declining, owing to the rapid disappearance of the forests.

There are 15 Counties in Nevada. Newspapers are published in 13.—Cities, towns, and villages in which papers are published number 18, of which 11 designated by a dagger (†) are county-seats. Of the 32 papers which insert advertisements published in the State, 14 are daily, 1 semi-weekly, and 17 weekly.

STATE CAPITAL, SACRAMENTO CITY.

CALIFORNIA is bounded north by Oregon, east by Nevada and Arizona, south by Lower California, and west by the Pacific Ocean. A line drawn through its center, following the curves of the eastern and western borders, would measure about 770 miles. Its greatest breadth is about 330 miles; least breadth, 150 miles; average breadth, 230 miles; land area, 155,980 square miles. It is the largest State in the Union except Texas. The surface is traversed by two great ranges, the Sierra Nevada in the east and the Coast Range in the west, while between them is the beautiful and fertile valley of the rivers Sacramento and San Joaquin. The Yosemite and other valleys are on the western slope of the Sierra Nevadas, and the eastern slope teems with minerals. The north is an elevated mountain region, with a rugged surface and poor soil. The soil of a large part of the State is very deep and rich, and the yield of agricultural products generally is very great. The wheat crop sometimes amounts to over 13,000,000 bushels, and the wool-clip to 24,000,000 pounds. As many as 5,000,000 gallons of wine and 150,000 gallons of brandy have been made in a single season. Dried fruits are extensively produced; oranges, lemons, and other tropical fruits, and honey, are raised in the south, and tobacco, corn, barley, and hops in various parts of the State. Indeed, California is famous for her wheat, wool, vineyard produce, and agricultural products generally, scarcely less than for her yield of the precious metals. Manufacturing interests are growing rapidly, the principal being lumber, flour, woollens, wine, brandy, tobacco, cigars, machinery, and metallic wares. The number of manufacturing establishments in the State in 1880, was 5,885; amount of capital invested in them, \$61,243,784; total number of hands employed, 43,693; amount paid in wages, \$21,065,905; value of materials used, \$72,607,709; value of products, \$116,218,973. There is considerable fishing and coasting-trade.

There are 52 Counties in California. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 129, of which 51 designated by a dagger (†) are county-seats. Of the 389 papers which insert advertisements published in the State, 61 are daily, 3 tri-weekly, 14 semi-weekly, 270 weekly, 1 bi-weekly, 8 semi-monthly, and 29 monthly.

STATE CAPITAL, SALEM.

OREGON is bounded north by Washington Territory, east by Idaho, south by Nevada and California, and west by the Pacific Ocean; average length from east to west, about 300 miles; average breadth, about 260 miles; land area, 94,560 square miles. It is divided unequally by the Cascade Mountains. East of this range the surface is generally undulating table-land, with high cone-like hills and deep canyons. Between the Cascade and Coast Ranges is the Willamette Valley, 40 miles wide by 140 miles long, and exceedingly fertile; from the Coast Range westward the surface is mountainous, hilly, and broken. This section is suited for wool-growing, stock-raising, and the growth of winter wheat, barley, oats, and hay. The eastern portion does better as a stock-raising region, but good wheat is grown there. In the valley, wheat, hops, tobacco, wool, flax, fruit, linseed, dairy products, and potatoes are raised in large quantities. Corn does not thrive, as the summers are too cool. Manufactures are lumber—the large Douglas spruce affording the best masts and spars in the world; leather, boots and shoes, saddlery, milling and smelting of ores, carriages, furniture, liquors, linseed-oil, etc. The number of manufacturing establishments in the State in 1880, was 1,080; amount of capital invested in them, \$6,812,056; total number of hands employed, 3,473; amount paid in wages, \$1,667,046; value of materials used, \$6,954,436; value of products, \$10,931,232. The packing of beef and pork, and canning of salmon are successfully carried on. Gold and silver are produced, but not in very large amounts; copper and iron-ore are abundant; clay, glass-sand, granite, marble, etc., are plentiful.

There are 25 Counties in Oregon. Newspapers are published in 24.—Cities, towns, and villages in which papers are published number 38, of which 22 designated by a dagger (†) are county-seats. Of the 87 papers which insert advertisements published in the State, 9 are daily, 2 semi-weekly, 66 weekly, 1 semi-monthly, and 9 monthly.

Chinese, 1,630.

TERRITORIAL CAPITAL, PRESCOTT.

ARIZONA is bounded north by Utah and Nevada, south by New Mexico, and west by California and Nevada; land area, 112,920 square miles. It lies entirely within the Valley of the Colorado. The streams generally flow through deeply eroded chasms. The soil is very fertile when irrigated, even on the alkaline plains; and the mountain lands are well adapted to stock-raising and wool-growing. Wheat, barley, and corn appear to be the principal crops; but pastoral occupations are better suited to the country, and more profitable than strictly agricultural pursuits. The chief wealth of the Territory, however, lies in its mineral deposits. Gold, silver, lead, copper, iron, cinnabar, salt, borax, etc., abound, and the mining and working of gold and silver ores is at present the leading industry. The number of manufacturing establishments in the State in 1880, was 66; amount of capital invested in them, \$272,000; total number of hands employed, 220; amount paid in wages, \$111,180; value of materials used, \$340,023; value of products, \$618,365.

DAKOTA.

Population 135,177Rep. Maj. 0,456 (Congressional).

TERRITORIAL CAPITAL, BISMARCK.

DAKOTA is bounded north by Manitoba, east by Minnesota and Iowa, south by Nebraska, and west by Wyoming and Montana; land area, 147,700 square miles. It is intersected by the Missouri River, which is here navigable. Most of the eastern part is dry, rolling prairie, with many lakes and streams. The southwest contains large tracts of the Bad Lands, while to the north and west of this region are the Black Hills. Some of the highlands and river bottoms are well wooded, but the Territory as a whole is rather deficient in timber. The soil is exceedingly varied; that of the Bad Lands and some high land is barren, but the Missouri River bottoms are exceedingly fertile. The northeast or Pembina country is a fine wheat section, as are also the prairie lands along the line of the Northern Pacific Railroad and the smaller river bottoms. Corn and other cereals, potatoes, tobacco, etc., grow well in the south. A great part of the Territory affords every requisite for successful stock-raising. Gold and silver are found in the Black Hills. The number of manufacturing establishments in the State in 1880, was 251; amount of capital invested in them, \$771,428; total number of hands employed, 868; amount paid in wages, \$339,375; value of materials used, \$1,523,761; value of products, \$2,373,970.

There are 126 Counties in Dakota. Newspapers are published in 67. — Cities, towns, and villages in which papers are published number 176, of which 55 are designated by a dagger (†) are county-seats. Of the 269 papers which insert advertisements published in the Territory, 22 are daily, 240 weekly, 1 semi-monthly, and 6 monthly.

IDAHO.

Population 32,610.....Dem. Plur. 1,514 (Congressional).
Chinese, 3,373.

TERRITORIAL CAPITAL, BOISE CITY.

IDAHO is bounded north by British Columbia, east by Montana and Wyoming, south by Utah, and west by Oregon and Washington; land area, 84,290 square miles. The surface is chiefly mountainous, but there are also large tracts of prairie and fertile valleys. In the southeast is a volcanic region, abounding in geysers and saline springs. It is generally better adapted for grazing than for agriculture. Corn is not profitably raised, owing to the shortness of the summer. Barley, wheat, oats, potatoes, dairy products and wool are the staples. There are vast tracts covered with sage-grass, on which cattle fatten readily. Many of these plains, if irrigated, would make excellent wheat-growing districts. Gold and silver are plentiful in all parts of the territory, and are largely produced. The number of manufacturing establishments in the State in 1880, was 162; amount of capital invested in them, \$677,215; total number of hands employed, 883; amount paid in wages, \$136,326; value of materials used, \$844,874; value of products \$1,271,317.

There are 14 Counties in Idaho. Newspapers are published in 10.—Cities, towns, and villages in which papers are published number 17, of which 7 designated by a dagger (†) are county-seats. Of the 25 papers which insert advertisements published in the Territory, 3 are daily, 2 tri-weekly, 2 semi-weekly, and 18 weekly.

MONTANA.

Population 39,150.....Dem. Maj. 1,428 (Congressional).
Chinese, 1,765.

TERRITORIAL CAPITAL, HELENA.

MONTANA is bounded north by British America, east by Dakota, south by Wyoming and Idaho, and west by Idaho; land area, 145,310 square miles. Surface generally mountainous, especially in the west along the three forks of the Missouri River, as well as elsewhere through the Territory, there is much undulating prairie, with a fertile soil. The Missouri River is navigable to Fort Benton; the Yellowstone is also navigable. Perhaps nowhere else are such advantages offered to the stock-raiser and wool-grower as are here found. Very little hay or winter foddering is needed, the stock feeding on the rich grasses and ranging all winter in the sheltered valleys. Of agricultural staples, spring wheat, potatoes, butter, barley, oats, and vegetables are the most prominent. The chief minerals are gold and silver, of which large quantities are obtained. Leading manufacturing interests are lumber-sawing, quartz-milling and stamping, flour, etc. The number of manufacturing establishments in the State in 1880, was 196; amount of capital invested in them, \$899,390; total number of hands employed, 578; amount paid in wages, \$313,759; value of materials used, \$1,006,442; value of products, \$1,835,867.

There are 13 Counties in Montana. Newspapers are published in 12.—Cities, towns, and villages in which papers are published number 17, of which 11 designated by a dagger (†) are county-seats. NEW MEXICO.

Population 119,565.....Rep. Maj. 1,273 (Congressional).

TERRITORIAL CAPITAL, SANTA FE.

NEW MEXICO is bounded north by Colorado; east by the Indian Territory and Texas, south by Texas and Mexico, and west by Arizona; land area, 122,460 square miles. Its general surface is a region of high plateaus, traversed by mountain ranges with isolated peaks. The valleys are generally nearly level, and their soil fertile when irrigated. In the east is a part of the barren "Llano Estacado" or "Staked Plain." Stock-raising and wool-growing are the leading occupations, the bunch-grass affording rich pasturage, and neither band-feeding nor shelter is ever necessary for the herds and flocks. Agriculture is successful only when irrigation is resorted to, and wheat, corn, beans, and onions are the chief crops. Of fruits, the apple, peach, melon, fig, apricot, pomegranate, and especially grapes, flourish. Gold, silver, copper, iron, and lead exist, and all are being extensively worked. Manufactures are confined principally to grain, quartz, and lumber milling, manufacturing wines and brandies, the making of blankets by the Navajo Indians, and coarse pottery by the Pueblos. The number of manufacturing establishments in the State in 1880, was 144; amount of capital invested in them, \$463,275; total number of hands employed 557; amount paid in wages, \$218,731; value of materials used, \$871,352; value of products, \$1,284,846.

There are 13 Counties in New Mexico. Newspapers are published in 11.—Cities, towns, and villages in which papers are published number 29, of which 6 designated by a dagger (†) are county-seats. Of the 36 papers which insert advertisements published in the Territory, 8 are daily, 25 weekly, 1 semi-monthly, 2 monthly.

UTAH.

Population 143,063.....Mormon Maj. 17,203 (Congressional).

TERRITORIAL CAPITAL, SALT LAKE CITY.

UTAH is bounded north by Idaho and Wyoming, east by Wyoming and Colorado, south by Arizona; and west by Nevada; land area, 82,190 square miles. The surface is very mountainous, interspersed with arid plains, valleys, and basins; much of it is utterly sterile. Irrigation is nearly everywhere necessary but if a perfect system were adopted, much of the soil now worthless would produce good crops, as it contains most if not all of the elements of fertility. Wheat, oats, barley, corn, potatoes, dairy produce, hay, and wool are the chief products. Cattle-raising is a profitable industry, and is often successfully carried on where farming is impracticable. The chief wealth of the territory, however, is in its minerals. Gold and silver are largely produced, as are also lead, iron, copper, coal, and salt. Manufactures are chiefly those of goods needed for home consumption, but of late extensive works for the mining and smelting of ores have been established. The number of manufacturing establishments in the State, in 1880, was 640; amount of capital invested in them, \$2,656,657; total number of hands employed, 2,495; amount paid in wages, \$858,563; value of materials used, \$2,561,737; value of products, \$4,324,992.

There are 23 Counties in Utah. Newspapers are published in 7.—Cities, towns, and villages in which papers are published number 8, of which 6 designated by a dagger (†) are county-seats. Of the 29 papers which insert advertisements published in the Territory, 6 are daily, 6 semi-weekly, 8 weekly, 3 semi-monthly, and 6 monthly.

WASHINGTON.

Population 75,116.....Rep. Maj. 1,797 (Congressional).

(Chinese, 3,186.)

TERRITORIAL CAPITAL, OLYMPIA.

WASHINGTON is bounded north by British Columbia, east by Idaho, south by Oregon and west by the Pacific Ocean; land area, 66,880 square miles. It is divided by the Cascade Mountains into two distinct sections. The western is a heavily timbered country, rugged and broken, with a few fertile prairies. The eastern has extensive plains, although it has also some broken surface; timber, as a rule, much less abundant. This section is admirably adapted to stock-raising, the soil of its prairies well suited for agriculture; but the chief agricultural region, however, is in the western section, although corn does not thrive so well there, because the summers are too cool. Wheat, barley, oats, hay, and butter are the chief crops; a little gold and silver are mined; salt abounds on the Spokane Plain, and there is good coal. The chief article of export is lumber; some ship-building is carried on. There is considerable fishing, especially salmon, the canning and salting of which is a prominent industry. The number of manufacturing establishments in the State, in 1880, was 261; amount of capital invested in them, \$3,302,497; total number of hands employed, 1,147; amount paid in wages, \$532,226; value of materials used, \$1,967,469; value of products, \$3,250,134.

There are 30 Counties in Washington. Newspapers are published in 21.—Cities, towns, and villages in which papers are published number 29, of which 18 designated by a dagger (†) are county-seats. Of the 62 papers which insert advertisements published in the Territory, 11 are daily, 1 semi-weekly, 49 weekly and 1 monthly.

Gypsum, salt, soda, sulphur, copper, and other minerals are found. In manufactures, the sawing of lumber and railroad ties, milling of quartz, and railroad repair and machine shops in the towns on the line of the Union Pacific Railroad, occupy the leading place. CAPITAL, ST. JOHN'S.

NEWFOUNDLAND is in the Atlantic Ocean, at the mouth of the Gulf of St. Lawrence; bounded north and northeast by Labrador (Belle Isle Straits intervening); Cape Breton is off its southwest point; east by the Atlantic Ocean, and west by the Gulf of St. Lawrence. Its extreme length is 419 miles; extreme breadth 300 miles. Surface generally rugged, with numerous lakes and rivers; not much timber, except along the streams and on the western side of the island. Soil is fertile near many of the lakes and rivers, and in many places farming is profitable. Wheat grows well; so do potatoes and green crops generally; apples and small fruits are profitable. The timber lands are unsettled, and lumbering is not carried on. The fisheries, both on the Grand Banks and in-shore, are very extensive and valuable. The seal fishery employs many vessels and steamers. Principal exports are fish and fish-oils, seal-oil and skins.

There are 12 papers which insert advertisements published in Newfoundland, 3 daily, 1 tri-weekly 2 semi-weekly, and 6 weekly.

We claim for the papers comprising our Lists, that they are not excelled in point of size and circulation by those of any other list. We make NO exception, and we are prepared to prove what we claim. OUR

I notice that my advertisement has been omitted from your paper. Why is this? In view of the fact that I have always said that I wanted my "ad" to run as long as I am in business, I wish you would insert it again, and keep it there without any further orders from me.

153,000 Copies. What Does it Mean?

It is almost impossible for any one to get a proper idea of the enormous number of papers meant by 153,000 copies. It represents 125 miles of paper, and if the sheets were piled on top of each other it would make a monument almost three times as high as ordinary four-story buildings.

It would cost to print and mail 153,000 circulars about three thousand dollars (\$3,000), while a column advertisement in FARM AND FIRESIDE will cost only about \$160, and an inch card would cost only \$14.

The circular would cost about two cents for each person reached. A column in FARM AND FIRESIDE would cost only one tenth of a cent for each person reached, and an inch card will cost only one hundredth of a cent for each person.

The circular will be thrown away. FARM AND FIRESIDE will be preserved for at least two weeks, and a large portion of them filed away for future reference.

FARM AND FIRESIDE has paid-in-advance subscribers at **20,674** Post-offices (numbering from 1 to 305 Subscribers at each Post Office), as follows:

Alabama	236	Kentucky	437	Ohio	2177

THE CHRONICLE

BIRMINGHAM, ALABAMA.

EVANS, CRUIKSHANK & GRACE, PUBLISHERS.

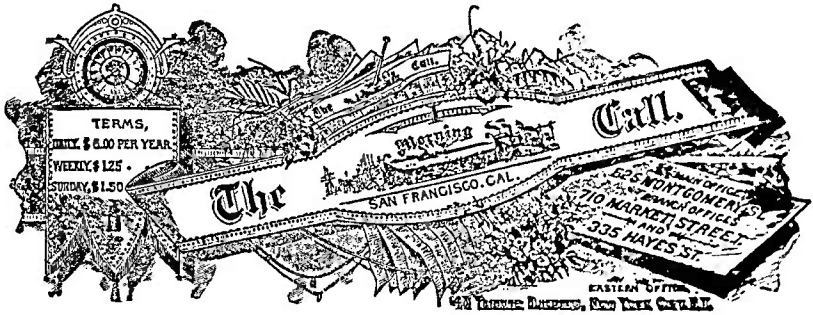

The **EVENING CHRONICLE** and the **SUNDAY MORNING CHRONICLE** are published in the most thriving city of the "New South." The rapid progress which Birmingham has made as a manufacturing city in so short a time, is something remarkable. The city was founded in 1871, and now has a population of 14,000.

Five blast furnaces, large rolling mills, foundries, boiler-works and grist mills, variety-works, a cotton factory, railroad shops, and numerous smaller enterprises make our hazy home of industry. This city is reached by the Louisville and Nashville Railroad, the Cincinnati, New Orleans and Texas Pacific Railroad, the Georgia Pacific, the Pratt Mines Branch, and the Mineral Road, and is headquarters for the South and North Alabama Division of the Louisville and Nashville, and of the Georgia Pacific.

Mr. C. A. PAGE, Treasurer Beacon Publishing Co.: Dear Sir:—It may be of interest to you to learn that from a single advertisement in THE BEACON I received more letters and inquiries than I ever obtained from the same amount of advertising in any paper during my business experience. The letters came from Parkersburg, West Va.; Springfield, Ohio; Braidwood, Ill.; Wells River, Vt.; Norwich, Conn.; Edina, Mo.; Belfast, Me.; Delphia, Ind.; Campbellsville, Ky.; Hanna, Ill.; Belvidere, Ill.; Creston, Iowa; Joliet, Ill.; Oshkosh, Wis.; Chicago, Ill.; and more than a hundred others from nearly every section of the country, and from Boston and vicinity.

My term of office will expire Nov. 27th, 1884.

What advertisers say who have tried the JOURNAL OF AGRICULTURE AND AMERICAN STOCK BREEDER as an advertising medium.
OFFICE NATIONAL PUBLISHING COMPANY.

We have advertised in the JOURNAL OF AGRICULTURE regularly for a number of years, and regard it as one of the best mediums for reaching the people of the Southwest. Yours truly,
ST. LOUIS, Mo., March 2, 1884.

NATIONAL PUBLISHING CO., 420 Market St.
SMITH, MYERS & SCHNIER,
CINCINNATI, March 5, 1884.

Our advertisement in the JOURNAL has paid us well. We watch our mail very closely and give each paper credit for the number of inquiries it brings, and the JOURNAL need not be ashamed of its position on the list. We consider it one of the best mediums in the country for reaching farmers. Yours, etc.,
SMITH, MYERS & SCHNIER,
Per E. H. MYERS.

OFFICE OF I. S. JOHNSON & CO.,
PROPRIETORS OF JOHNSON'S ANODYNE LINIMENT, PARSONS' PURGATIVE PILLS.

Having in mind the courteous treatment extended to us by your representative who spent a portion of last summer near Boston, and thinking it would be gratifying to you to know the fact, we write to say that our advertisement in the JOURNAL OF AGRICULTURE has, we think, paid us handsomely, and we are entirely satisfied. We think it would be safe to say that we have heard from it more frequently than from any other of the large number we advertise in. Your very truly,
I. S. JOHNSON & CO.,
BOSTON, MASS., March 4, 1884.

WHITMAN AGRICULTURAL CO.,
MANUFACTURERS OF AGRICULTURAL IMPLEMENTS.

We consider your JOURNAL to be a splendid medium through which to reach the public. We are having numerous inquiries from our ad. in your paper, and most cheerfully recommend it to all advertisers. Wishing you success, we are
Yours truly,
WHITMAN AGRICULTURAL CO.,
ST. LOUIS, Mo., March 2, 1884.

D. R. SPERRY & CO.,
MANUFACTURERS OF HOLLOW-WARE, CALDBONS, SUGAR KETTLES, ETC.

We have advertised in your paper several years, and inquiries in regard to our goods and "saw ad. in JOURNAL OF AGRICULTURE" show that reading, thinking farmers read your JOURNAL. We shall continue to advertise in it. Yours,
D. R. SPERRY & CO.,
BATAVIA, ILL., March 2, 1884.

OFFICE OF WM. BARR DRY GOODS CO.

We have spent thousands of dollars advertising, but have seldom seen the direct results. We are, however, so well satisfied with the good your advertising has done us that we shall continue it another year. Yours truly,
WM. BARR DRY GOODS CO.,
ST. LOUIS, March 10, 1884.

Keep my advertising card in your paper. It has aided me in making many sales. I consider the JOURNAL OF AGRICULTURE AND AMERICAN STOCK BREEDER one of the best advertising papers in the United States for stockmen, from the fact that its subscribers are chiefly those interested in all classes of good stock, and are the stock growers and beef producers of the country. Yours truly,
A. A. WALKER,
PLEASANT OREN, Cooper Co., Mo., Jan. 23, 1884.

My card in the JOURNAL AND STOCK BREEDER is giving good satisfaction. Am much pleased with it. Respectfully,
W. J. MILLER,
BELLEVILLE, St. Clair Co., Ill., Feb. 6, 1884.

My advertisement in the JOURNAL OF AGRICULTURE AND AMERICAN STOCK BREEDER I consider one of the best and cheapest means of advertising. The object of the breeder of improved stock is to let the world be purchaser know the kind of stock he is breeding; and for further and correct information they should make personal inspection, in which event we seldom fail to make sale. Yours truly,
CHAS. E. LEONARD,
SEDALIA, Mo., January 25, 1884.

My card in the Breeders' Directory of the JOURNAL OF AGRICULTURE AND AMERICAN STOCK BREEDER I consider one of the best and cheapest means of advertising. The object of the breeder of improved stock is to let the world be purchaser know the kind of stock he is breeding; and for further and correct information they should make personal inspection, in which event we seldom fail to make sale. Yours truly,
CALUMET, Pike Co., Mo., Jan. 7, 1884.

I think my card in the JOURNAL OF AGRICULTURE AND AMERICAN STOCK BREEDER has well paid me. I think your paper one of the best advertising mediums for stock in the United States, as I have received letters of inquiry from most all the States, and have sent fowls to a great many of the Northern, Southern, Eastern and Western States, by the card I have in your paper. KATE GRIFFITH.

This old-established reliable Daily and Weekly Journal has long been known as the most widely circulated newspaper in Western Illinois as well as in Northern Missouri. It is to your interest to insert your notices where they will do the most good, and that is unquestionably in THE HERALD, so far as this section of territory is concerned.

*The only member of the Western Associated Press in Nashville, and
 the only paper issued Every Day.*

Subscription, per annum: Daily, \$12.00. Daily except Sunday, \$10.60. Weekly, \$1.00.

THE AMERICAN, published in Nashville, the Capital of Tennessee, is the result of a consolidation of the two oldest journals of the State, the *Republican Banner* and *The Union and American*, files of which date back to 1812.

The consolidation was effected Sept., 1875, and gave to *The American* the large subscription lists of both its predecessors, which it has steadily increased from date of consolidation to a circulation never before attained by any paper in this section. The publishers now confidently claim the best newspaper published in the South, reaching with its several editions of the Daily and Weekly every village, country town, and small post office in Tennessee; while it is spread broadcast throughout the populous counties of Southern Kentucky, Northern Georgia, Alabama, Mississippi, and going extensively with its regular mails, into Arkansas, Louisiana and Texas. *The American* is a member of the Western Associated Press, giving to every issue the full volume of Associated Press dispatches from all parts of the world, simultaneously with the leading Western journals. It is the leading Daily published at the capital of a State rich in native resources and commerce—the centering point of six important Railway through lines, and within an hour by rail of half a dozen thriving, populous county-seats. It is on sale at all news-stands in this section of the South, and is a welcome visitor at the fireside, in the workshops and business houses all over Tennessee and adjoining states.

THE CINCINNATI DEMOCRAT

THE DEMOCRAT is published on Saturday. It is a complete newspaper; a mirror of all human activity; a compendium of delightful stories, instructive miscellany and pure morality. Politically, it is devoted to the advancement of what it considers the true interests of the Democratic party. It believes that the principles of Thomas Jefferson are as true to-day as when first enunciated; that the Protective Tariff is an infamous robbery of the many by the few; that the Republican party has out-lived its usefulness (if it ever had any); that it is thoroughly disorganizing in its political traditions and tendencies, and is a synonym for political intrigue and rottenness. But while advocating the above principles, it cordially invites free and full discussion of all national issues, from Democrat and Republican alike. THE DEMOCRAT possesses unrivaled facilities in every department essential to a perfect newspaper. The public need not fear retrogression. Its news-gatherers are in every hamlet; its editorial and reportorial corps thoroughly organized, and its telegraphic connections complete. "Why," we are often asked, "are you not Independent? Why prejudice Republicans by declaring your platform?" "Independent" papers are independent frauds. There is no such thing. Any man and any paper worthy of name has decided politics. We respect conscientious Republicans, personally, as highly as Democrats; but we believe they have fallen among thieves and political tricksters. We also realize that the Democracy of to-day has, in too many cases, wandered too far from the traditions of Thomas Jefferson. We aim to promulgate the genuine, not the false. In justice to our Republican readers and to the DEMOCRAT as a complete newspaper, we throw our columns open to our opponents, and they will receive courteous treatment.

Augusta, in Georgia, has a population of 40,000, and is the manufacturing centre of the State, furnishing employment to over five thousand hands in the various branches of manufacture.

Augusta is situated on the Savannah River, the head of navigation, a line of light draught steamers plying between the city and the sea, and is also a great Railway centre—the Georgia, the Macon & Augusta, the Central, the Port Royal, the South Carolina, and the Charlotte, Columbia & Augusta Railroads, with daily trains entering the city, bringing the citizens of the surrounding country in close connection. The Augusta & Knoxville Railroad has recently opened another section of valuable territory with this city, extending from Augusta to Laurens, Spartanburg and Greenville, South Carolina, thus increasing the commercial importance of Augusta. The Augusta, Elberton and Chicago, and the Augusta and Sandersville Railroads have been surveyed and the work of grading is going on.

It is the only newspaper of influence circulating from Augusta to Atlanta; from Augusta to Savannah; from Augusta to Macon; from Augusta to Charleston; from Augusta to Port Royal; from Augusta to Columbus, and from Augusta throughout Georgia and South Carolina, and is the recognized channel for every form of business communication in this section.

The Milwaukee Sentinel

89, 91, and 93 Mason St., MILWAUKEE, WIS.

Circulation Greater than any other Three Dailies in Wisconsin.

WHY
THE
Sentinel
Is Read by Every-body.

The Milwaukee Sentinel is certainly well adapted to the needs of the people of this city. It is the only paper in the city which gives to all of the general news as well as a mixture of political and business news or reports of the various events which occur in the city. It is a paper which will be read by every one who is interested in the progress of the city and the state. It is a paper which is read by every one who is interested in the progress of the city and the state.

While the SENTINEL is Republican in politics, it is independent in its opinions and it is not in favor of either party in such a fair and trustworthy manner that it is an object of respect and confidence to all. It may be inferred from the opinion of the leading Democratic paper of Wisconsin, published in the capital. It also shows again WHY the paper is "read by everybody."

[FROM THE MADISON DEMOCRAT.]

"THE SENTINEL is by far the best newspaper ever published in Wisconsin, and is the equal of the Chicago papers in the quantity of its news, and by far the superior in quality and interest. Politically, the SENTINEL and the Democrat have few points of agreement, but each has a way of a due appreciation of its enterprise as a newspaper; and, as to its political convictions behind it, which is never suspected of a Chicago Republicanism."

The Subscription Price to the WEEKLY SENTINEL during the Present Year is **TWENTY-FIVE CENTS FOR SIX MONTHS**, and has reached over 20,000 in its circulation. Read the next page for additional reasons why THE SENTINEL.

THE CHRISTIAN OBSERVER

LOUISVILLE, KENTUCKY.

IS THE OLDEST RELIGIOUS NEWSPAPER IN THE UNITED STATES, AND THE
MOST WIDELY CIRCULATED PRESBYTERIAN WEEKLY
IN THE SOUTHERN STATES.

ITS CIRCULATION.

The circulation of the CHRISTIAN OBSERVER is about eleven thousand copies week by week. It probably numbers fifty thousand readers every week.

ITS TERRITORY.

Its circulation is so distributed as to make it especially valuable for commanding business from all parts of the South. It is the leading paper in the Southern Presbyterian Church—a denomination which numbers a hundred and twenty thousand communicants, and has two thousand churches, and includes within its congregations a very large proportion of the intelligence and wealth in every community. The OBSERVER is taken in most of these churches, and at over two thousand post-offices, chiefly in Kentucky, Tennessee, West Virginia, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas and Arkansas. No other religious paper covers the entire territory of the Southern States as does the CHRISTIAN OBSERVER.

ITS SUBSCRIBERS.

The intelligent and enterprising people, who are its readers, are the leaders in every community. They are the class that discriminating advertisers are eager to reach. They have means and varied wants and tastes. They have families, houses, farms, factories, stores, Sunday-schools, societies and churches to buy for. Their wants are legion.

ITS INFLUENCE AS AN ADVERTISING MEDIUM.

Advertisements in the OBSERVER carry more influence than in most papers. Unlike many papers, which, in order to exist, are disposed to take all advertisements that will pay them, the CHRISTIAN OBSERVER has an adequate support from its subscription list, and will not take an objectionable advertisement at any price. The OBSERVER was started in Philadelphia seventy-one years ago (on Sept. 4, 1813). For fifty-seven years it has been under its present management (father and sons) and has acquired that influence with its readers, which belongs to a friendship that has extended in many instances over two generations. The advertisements are neatly printed on very superior paper, and the pages being trimmed; none of them are hidden on inside forms, as in the uncut eight-page sheets. The paper is read with care and often filed for future reference.

The testimonials of those who have tested the value of the OBSERVER as an advertising medium are very emphatic.

ITS ADVERTISING RATES

Are low, averaging less than one cent a line for each thousand of circulation.

CONVERSE & CO., Publishers, LOUISVILLE, KENTUCKY.

THE POST FOR 1884

HOUSTON, TEXAS.

ESTABLISHED 1879. INCORPORATED AND REORGANIZED, 1883.

THE BRIGHTEST, BEST AND CHEAPEST NEWSPAPER IN THE SOUTHWEST. DAILY AND WEEKLY EDITIONS. NEW PROPRIETORS! NEW EDITORS!! NEW LIFE AND BLOOD!!!

Since **THE POST** commenced its new career under new management its growth has been unprecedented. Its wonderful advance in circulation, in advertising, in influence, in popularity, warrants the claim of a leading position in Southern journalism. No expense or effort will be spared until **THE POST** is recognized as the greatest as well as the brightest paper in the South. **THE POST**—as the leading Democratic newspaper in the Southwest—knows no faction, and recognizes no individual ambitions and aspirations aside from the general good of the party and the State of Texas. It seeks the triumph of principles—not men. It upholds great Democratic ideas and ideals—not a faction or a fraction of the party.

What has been already done in the magnificent improvement of **THE POST** is merely the beginning. **THE POST** will continue to be improved during the coming year in all its departments. It proposes to continue to be, above everything else, a journal for the family as well as for the business man; and while it pretends to no portentous dignity, it will be clean and dignified, and at the same time sparkling and vivacious.

THE DAILY POST (8 pages, 48 columns) contains all the news, complete and interesting. Well considered editorials on every subject—political or social. Complete commercial and market reports.

THE WEEKLY POST (8 pages, 64 columns) is made up from the cream of the Daily Editions. It is essentially the paper for the Family, the Merchant, the Farmer, the Mechanic, the Artisan, the Professional Gentleman, and, in fact, for the PEOPLE. It is ably edited, and, all combined, makes

Though only established in March, 1879, it has already become the most popular and best read paper in the district. It is a family paper, a home paper, and a business man's paper, and has already won a circulation second to none in the city, and a popularity greater than that of any of its local contemporaries. As an advertising medium it has no equal in the district, reaching every class of readers, and being appreciated by all.

HEROLD DES GLAUBENS

CATHOLIC GERMAN WEEKLY.

ST. LOUIS, MISSOURI.

GERMAN PRINTING AND PUBLISHING ASSOCIATION, Editors and Proprietors.

L. BLANKEMEIER, Manager Business Department.

Established 1854. Has a circulation of 14,000 copies. Is read by the clergy as well as by almost the entire Catholic German population of the West; is the official organ for several dioceses, and has been endorsed by most of the ecclesiastical dignitaries in the United States. Advertisers will find the HEROLD DES GLAUBENS a sure means of reaching a great consuming class—people who buy all merchandise advertised. The value of religious papers as advertising mediums is conceded by all extensive advertisers. These papers are thoroughly read and not merely glanced over and cast aside like the dailies. Write to the office, 309 Convent Street, for specimen copy.

MIRROR AND FARMER

Published at MANCHESTER, NEW HAMPSHIRE.

Has a larger circulation than any other Weekly agricultural and family paper published in New England, except one; larger than the combined circulation of any other two weeklies published in New Hampshire, having averaged 17,793 copies during the forty-six weeks since its enlargement in December last. It has gained nearly five thousand subscribers during the year, and I have reason to believe the average for 1884 will be over 20,000.

No advertiser can reach the best paying patronage of New Hampshire, Vermont, and Maine so well and so cheaply by any other medium.

For the character and extent of its circulation, the rates are very low—14 cents a line each insertion—or, if continued four times or more, 12½ cents a line, with liberal discounts on large orders. The standard rate for weekly papers is 1 cent a line for each thousand of circulation, while **THE MIRROR AND FARMER** rate is less than three-fourths of a cent.

DAILY MIRROR & AMERICAN

Reaches nearly all the people who have money to spend in a city of about forty thousand inhabitants, and surpasses all other mediums for advertising in Manchester. Rates for a square of seven lines (½ inch), \$2.25 for a week, \$5 a month, \$20 a year.

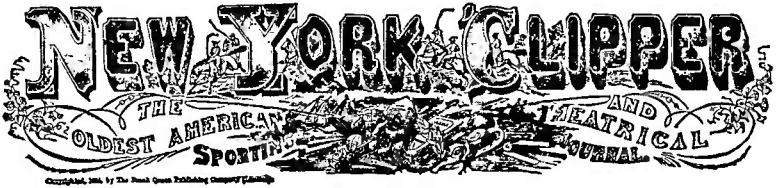

Manchester is a live, prosperous and growing city. A census taken in June, 1882, showed a population of 36,503, and at this date, October, 1883, it is without doubt nearly forty thousand. Several new mills have been built, employing a large number of operatives, and there are manufactured here 221½ miles of cloth per day, fifteen locomotives a month, fifty steam fire-engines a year, and an endless variety of other products of skill and industry. The corporations employ 11,000 operatives, and pay in monthly wages over \$100,000.

A trial advertisement in one or both these papers, it is believed, will induce further orders.

THE LARGEST CIRCULATION.

THE LEADING LADIES' MAGAZINE

DOMESTIC MONTHLY

THE CHEAPEST GOOD MAGAZINE PUBLISHED.

The DOMESTIC MONTHLY is a beautifully illustrated magazine of 60 pages devoted to Fashion and Good Literature.

It has a larger circulation than any other Fashion Magazine.

THE SUBSCRIPTION PRICE IS ONLY ONE DOLLAR A YEAR.

Its FASHION NOTES AND ARTICLES are furnished by London, Paris, and Berlin *special* correspondents and illustrated by a corps of artists whose work is acknowledged to be the best of the kind in America. Articles appear every month upon all the departments of the costume, and every lady who would be well dressed should subscribe to the DOMESTIC MONTHLY. Among others there are articles every month upon WRAPS, STREET COSTUMES, HOUSE OOSTUMES, MILLINERY, EVENING COSTUMES, OARRIAGE COSTUMES, UNDERWEAR, SHOES AND STOCKINGS, OOIF-FURE, LINGERIE, DOMESTIO ART, ETC., ETC., and especial attention is given to Misses' and Children's costumes, a department which is celebrated for its merit and from the fact that it is a subject almost untouched by the other fashion journals.

THE LITERARY DEPARTMENTS.

THE LITERARY CONTENTS of the DOMESTIC MONTHLY are wholly original and written especially for it by many prominent authors. Everything is pure and elevated in tone, and in its excellence compares most favorably with the contents of the purely literary magazines. Serial and short stories and poems appear in every issue, and there are abundant EDITORIAL DEPARTMENTS which treat of noteworthy movements in social, literary and artistic circles. Among notable contributors may be mentioned JUSTIN MC CARTHY, PAUL H. HAYNE, ROSE TERRY COOKER, MARY CECIL HAY, HELEN CAMPBELL, LOUISE STOCKTON, MARY AINGE DEVERE, JOEL BENTON, CARLOTT PRANT, and many others. A very attractive feature of the magazine is the Household Department, edited by Mrs. HENRY WARD BEECHER. In every department the DOMESTIO is as complete as art, money and enterprise can make it, and its large circulation enables it to give, at a small price, what smaller magazines strive to equal at double, triple or quadruple the price of the DOMESTIO.

AS IT HAS THE LARGEST CIRCULATION OF ANY LADIES' MAGAZINE ITS VALUE TO ADVERTISERS WHO WISH TO REACH THIS CLASS OF THE COMMUNITY IS EASILY SEEN.

Almost every newspaper in the country has favorably noticed the DOMESTIC. We give below a few:

The literary contents of the DOMESTIO MONTHLY are always attractive. Some of our most popular writers of fiction contribute to its pages. Its general excellence places it, without question, among the best of our ladies' magazines.—*Home Journal, New York.*

Some of the best writers of the period contribute to its pages. The review of Fashion is always excellent.—*Weekly Witness, New York.*

The cheapest good magazine published.—*Boston Daily Globe.*

Of all the magazines which treat of fashion, there is not one which for completeness of detail, both in description and illustration, can compare with the DOMESTIO MONTHLY.—*Journal, Lowell, Mass.*

An excellent family magazine.—*Stevie's Americaner, Chicago, Ill.*

No magazine for ladies gives as complete and reliable information concerning current and coming styles as does the DOMESTIC.—*Wilkesbarre (Pa.) Free Press.*

ARMY AND NAVY JOURNAL

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

It is well understood in the Services that the commanding position in *service literature* which the ARMY AND NAVY JOURNAL has held for over twenty years, has been still further strengthened this year by an addition to its subscription list, which addition we have reason to think, in itself equals the entire subscription from the Army and Navy to any other paper. This increase being the result of a recent offer of club rates.

The ARMY AND NAVY JOURNAL reaches the classes for which it is intended more universally than any other special paper published in the United States. These classes are:

1. THE OFFICERS AND MEN OF THE ARMY.
2. THE OFFICERS AND SEAMEN OF THE NAVY.
3. THE OFFICERS AND MEN OF THE MARINE CORPS.
4. THE OFFICERS AND MEN OF THE REVENUE MARINE.
5. THE NATIONAL GUARD OR MILITIA OF EVERY STATE.
6. THE FAMILIES AND FRIENDS OF SOLDIERS AND SAILORS.
7. EX-OFFICERS AND STUDENTS OF MILITARY SUBJECTS.
8. THOSE INTERESTED IN MILITARY INVENTIONS.
9. FOREIGN WAR AND MARINE OFFICES, AND FOREIGN OFFICERS, AND OTHERS DESIROUS OF KEEPING UP WITH AMERICAN CONTRIBUTION TO THE ART OF WAR.

These classes comprise a very select body of people, who are able to buy, and whose tastes and wants are multifarious.

Their incomes are large, or at least fixed and certain official incomes. A great part of them, too, live in camps or garrisons, or where they are beyond the reach of shopping facilities and their families must send to a distance for all except their most ordinary supplies.

The Army contains over 30,000 officers and men; the Navy and Marine Corps, 11,500; the Revenue Marine, Coast Survey and allied Services several thousand more. The National Guard of the State of New York alone numbers 12,000.

Besides the copies ordered by officers and soldiers, the War Department subscribes for copies to be sent to camp and garrison reading-rooms.

The Paymaster-General shows in his annual report that \$4,220,626.46 has during the past eleven years been deposited with him by the private soldiers of the Army as Savings, the amount for the year 1872-3 being \$407,544.68, and, as some of our advertisers have learned to their advantage, *the purchases annually made by the enlisted men alone of the Army, from houses advertising in the JOURNAL, amount to a large sum.*

The ARMY AND NAVY JOURNAL is not only regularly read by the classes for which it is intended, but it enjoys their confidence to a peculiar degree as a standard and trustworthy authority.

FOSTER'S MUSICAL JOURNAL

PUBLISHED MONTHLY AT OENEVA, OHIO, U. S. A.

BY STANDARD PUBLISHING HOUSE, PUBLISHERS OF SHEET MUSIC AND MUSIC BOOKS.

Most wonderful terms to composers—A new idea. Send for them.

FOSTER'S MUSICAL JOURNAL now entering upon the fifth year of unprecedented favor, is the only musical periodical that contains the latest productions of the best authors and composers. We claim for it three advantages, viz

1st.—It reaches only the better class of people.

2nd.—It is the first cheap monthly to combine, with a large circulation, merit and respectability.

3rd.—It is not read alone by one family, but passes around an entire neighborhood of musicians, and is thus preserved as a repository of sheet music.

The present circulation of the JOURNAL (February, 1884) is 8,000 copies. Thus, we believe that this publication answers the two requisites of circulation and character.

Advertising rates may be obtained from any leading advertising agent or from the publisher. Specimens sent on application.

No word is printed on its pages that the family should not read. No paragraph in its columns but is pertinent. Current topics and the leading questions agitating public opinion on this Continent and in the Old World are frankly and fearlessly discussed in THE EDITOR'S OWN. Shorter stories, in the lighter vein of Literature, are published complete in each number, and "Health and Hygiene," "The Household," and "Our Young Folks," are departments of merit carefully edited.

A portrait and sketch of some prominent person appears in each number, and Illustrations of a fine character adorn the pages. The Editor and Owner desires to make the Magazine wholesome, and in all respects, THE PEOPLE'S MAGAZINE.

THE POPULAR SCIENCE MONTHLY

CONDUCTED BY E. L. & W. J. YOUNG. D. APPLETON & CO., PUBLISHERS.

Established in May, 1872, has reached a large circulation, and is steadily increasing. The character of the circulation must of necessity be the very best, worth more to advertisers than a circulation of four times the number in a magazine of a miscellaneous character.

THE POPULAR SCIENCE MONTHLY was established to raise the standard of popular reading in this country. Magazines are more and more taking the place of books; first-class minds are devoting themselves with increasing readiness to the work of popular instruction, and when their sterling contributions upon the most important subjects could find no place in our widely circulated periodicals, it became necessary to have a magazine that would give expression to advancing scientific thought for the benefit of the more intelligent classes of the community. In the efficient performance of this service THE POPULAR SCIENCE MONTHLY is now generally recognized as without a competitor. Its object is best explained, perhaps, in the following paragraph by its editors:

"The standard at which we have aimed and to which we have worked will be kept up and improved upon by increasing experience. Our articles will be, first of all, instructive and valuable, but no pains will be spared to make them also entertaining and attractive. While we will not cater to frivolity, we shall do all in our power to make the pages of the MONTHLY agreeable as well as useful."

The same testimony is given by the leading medical professors and publications of the Army and Navy recognized by our own Government, being the official organ of the Medical Department of the Army and Navy of the United States. It therefore becomes one of the very best medium for advertising all articles pertaining to the Medical Profession, and in no better way can advertisements be placed before all those interested in medical practice. Our rates are as low as consistent with circulation. Correspondence solicited, and all information furnished.

ECLECTIC MAGAZINE

OF FOREIGN LITERATURE, SCIENCE AND ART.

E. R. PELTON, PUBLISHER, 25 BOND STREET, NEW YORK.

The ECLECTIC MAGAZINE reproduces from foreign periodicals all those articles which are valuable to American readers. Its field of selection embraces all the leading Foreign Reviews, Magazines, and Journals, and the tastes of all classes of intelligent readers are consulted in the articles presented. Its readers are of the BEST CLASS, and its circulation is largely among those of the highest education and refinement. The numbers of the ECLECTIC are not thrown aside as soon as read, but each number is preserved for at least one month, and advertisers can readily see the importance of this fact to them. As the number of advertising pages is limited, the chances of an advertisement being seen and read in the ECLECTIC are much greater than in any publication which devotes a large space to this purpose. The aim of the ECLECTIC is to be instructive and not sensational, and it commends itself particularly to that class of intelligent readers who desire to keep abreast of the intellectual progress of the age.

TERMS.—Single copies, 46 cents; one copy, one year, \$5; five copies, \$20. Trial Subscription for three months, \$1.00. The ECLECTIC and any \$4.00 magazine to one address, \$8.00.

The Sun.

TO THE BUSINESS PUBLIC.

The subjoined table shows the total circulation of the several editions of THE SUN,

New York, for the year 1883:

DAILY.....	45,396,470
SUNDAY.....	7,809,535
WEEKLY.....	3,295,142
Total.....	56,501,156

The average circulation was:

DAILY.....	145,030
SUNDAY.....	152,106
WEEKLY.....	63,367

If you were to paste end to end all the columns of all THE SUNS printed and sold last year, you would get a continuous strip of interesting information, common sense, wisdom, sound doctrine, and sane wit long enough to reach from Printing House square to the top of Mount Copernicus in the moon, then back to Printing House square, and then three-quarters of the way back to the moon again.

But THE SUN is written for the inhabitants of the earth; this same strip of intelligence would girdle the globe twenty-seven or twenty-eight times.

If every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfather has spent another hour, this newspaper, in 1883, has afforded the human race thirteen thousand years of steady reading, night and day.

It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women.

THE SUN is, and will continue to be, a newspaper which tells the truth without fear of consequences, which gets at the facts no matter how much the process costs, which presents the news of all the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go, and must go in this coming year of our Lord 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in its history. If you do not yet know THE SUN, it is high time to get into the sunshine.

THE DAILY AND WEEKLY DISPATCH

RICHMOND, VIRGINIA.

THE DISPATCH COMPANY, PUBLISHERS.

Advertisers will find that THE DISPATCH is incomparably the best medium in Virginia for reaching buyers amongst merchants, manufacturers, farmers, mechanics, miners, railroad companies, colleges, schools, ministers, lawyers, physicians, State, town and county officials, and all classes of our people. It is the leading Democratic newspaper. Is published at the capital of the State, which has a population of 72,000; Manchester (on the opposite side of the river) has 7,000, and Richmond's suburbs 6,000—total 84,000. Six railroads centre here, two of which control over 6,000 miles of railroads. Its 714 manufactories have an invested capital of \$11,523,453, employ 16,897 workmen, and sold in 1883, \$23,297,061 of products. The jobbing trade of Richmond in 1883 amounted to \$19,500,000. The whole of Virginia is prospering and is an attractive field for advertisers. Within ten years one and a half million acres have been added to the area under cultivation, making over twenty millions of acres of farming lands in use, while the increase in staple farm products has been greater than the increase in acreage. There are over 2,500 miles of railroads on our territory, 600 miles of which were built in the past four years, and there are now 200 miles more under construction. New towns, villages, furnaces, factories and mills have sprung up on these great highways of trade. The value of Virginia manufactures increased from \$51,819,622 in 1880 to \$103,621,834 in 1883. Our foreign and inter-State commerce has quadrupled in the past ten years.

THE DAILY DISPATCH has a larger circulation in Richmond than the combined circulation of all the other daily newspapers of the city. Outside of Richmond its circulation is larger than any daily newspaper in the State. It is served by newsdealers and carriers in all our principal towns and on railroad passenger trains. THE WEEKLY DISPATCH more thoroughly covers all the counties of the State than any newspaper published in Virginia.

Sworn statements of the circulation of the DAILY and WEEKLY DISPATCH will be furnished advertisers. They will thus know how much they get for what they pay.

For schedule of advertising rates address, THE DISPATCH COMPANY, RICHMOND, VA., or any respectable advertising agents.

This is equally true of the SUNDAY ITEM, which has a much larger circulation than any Philadelphia paper, daily or weekly, published on Sunday.

ADVERTISING RECORD FOR DAILY, WEEKLY, SEMI-WEEKLY, AND MONTHLY JOURNALS.

The left hand page registers the Advertiser, Agent obtaining, Commission, Space occupied, Position ordered, Rate, Number of times, Date began, Date ends, Amount and when payable.

The right hand page has the month 188—, wide space ruled for months, with intervening spaces ruled for weeks, adapted to last for several years until the page is filled. It is indexed through so an advertiser can be found instantly.

DAILY PAPERS leave six spaces to the advertiser's name, thereby giving thirty spaces to each month, and require a large size hook.

* * An extra size hook expressly for daily papers, with seven spaces for each day of the week, in full sheet, 11x14 inches. Prices—3 quires, \$4.50; 4 quires, \$6.00; 5 quires, \$7.50.

WEEKLY PAPERS have five spaces and MONTHLY PERIODICALS a wide space for each month on the same line with the advertiser.

E. O. D., E. O. W. or E. O. M. can be checked accordingly.

The same book will register in one book, advertisements of a DAILY and WEEKLY, although many prefer a large book for the daily and a smaller book for the weekly advertisements.

A list of the most liberal General Advertisers in every department of business, alphabetically arranged under classes, uniform in size with the page of the ADVERTISING RECORD, will be sent to every purchaser. It will be worth the price of the book for reference and to increase advertising.

Accompanying each book there will be AN ALPHABETICAL DIRECTORY OF ALL THE PAPERS AND PERIODICALS IN THE UNITED STATES AND CANADA,

Transient, E. O. D., E. O. W. or E. O. M. advertisements are readily entered.

It is indexed so that any contract can at once be referred to, and by changing the year the book will next month filled up. Advertisers pronounce it perfect in every particular. FOR SALE!

Honest Advertising

The CHICAGO DAILY NEWS believes that the advertiser has the same commercial right to know the exact quantity of his purchase when buying newspaper advertising as when buying any other commodity. There is no better reason for a publisher's declining to state the exact quantity of the circulation he proposes to sell an advertiser, than there is for a grocer to refuse to sell eggs by the dozen or sugar by the pound. The grocer counts his eggs and weighs his sugar—let the publisher count out his papers. Why not?

It was in this view of the matter that the CHICAGO DAILY NEWS, on September 1st, 1882, issued its first monthly CIRCULATION BULLETIN, showing the exact number of papers printed by both the DAILY NEWS and the WEEKLY NEWS during the preceding month. It has won a most appreciative recognition from advertisers in general as being the first systematic effort to give purchasers of newspaper advertising an honest, detailed statement of value given in exchange for the advertiser's money. *The Circulation Bulletin has come to stay.*

The CHICAGO DAILY NEWS has advertising space to sell upon terms having a direct relation to the extent and character of its circulation.

HELLO!

HELLO!

HELLO!

I'M PUCK!

I COME FROM PUCKVILLE, PUCK COUNTY, PUCKANSAW,

AND I AM ALL HERE.

Why do I want to take you by your lily-white hand, and lead you away into a corner, and talk with you? Do I want to tell you where you can find a dumb barber, or a landlord who is too bashful to collect his rents?

No, not particularly. I simply wished to corral your attention, and induce you to answer the following questions:

1.—Where do you see PUCK?

Answer.—Everywhere.

2.—Where don't you see PUCK?

Answer.—Nowhere.

You don't see PUCK nowhere? That is not grammar. You mean there is nowhere that you don't see PUCK.

But what are the facts?

Here they are: In the Gilded Halls of Luxury, in the Humble Hovel of Honest Poverty, in the Barber Shop, in the Millionaire's Private Office, in the Establishment of the Dispenser of Spirituous Refreshment, in the Sunday School, in the Library of every Military Post and Man-of-War, in the Workshop, in the Reading Room, in the Cafe,

in the Library, in the Parlor, in the Third story back room in the Legislative Halls, in the Chamber of Commerce, in the Russian Bath, in the hotel, in the Billiard Room, in the Boudoir, in the Sick-room, in the Doctor's Office, in the Palace Car, on the Steamship, in every Club Reading-room, on every respectable Newsdealer's Stand, you see PUCK.

Everybody reads PUCK everybody talks about PUCK.

Have you not observed that in places where no other illustrated paper is to be found, PUCK is always on hand.

Is there ever a political crisis, or a great social event, when people do not say, "Wonder what PUCK will have about it next week?"

Oh, you have noticed these little things? Well, we thought you had. Very well then, what is the logical conclusion to be drawn therefrom?

That PUCK is the best paper to advertise in. Therefore,

ADVERTISE IN PUCK.

HIS RATES ARE \$1.00 PER AGATE LINE FOR EACH INSERTION. Discounts: 5 per cent. on 50 lines, 7½ per cent. on 100, 10 per cent. on 200, 15 per cent. on 300, 20 per cent. on 500, 25 per cent. on 1000.

They are good, healthy rates; but if you want to have a good thing you must pay fairly for it; and you are not overcharged when

PUCK Lends You His Circulation to Benefit Your Business.

Now sit down in your easy-chair and look over the list of the papers you advertise in, and judge for yourself if there is one that gives you so much circulation, of so good a sort, as PUCK gives you for the money.

Listen to my warbling, and set the gray matter in your convoluted brain to work, and if you want more information on this subject you may write to

THE FORT WORTH PUBLISHING COMPANY IS THE PROPRIETOR AND PUBLISHER OF
THE ABOVE PUBLICATIONS.

THE FORT WORTH DAILY GAZETTE is a seven-column eight-page paper, published every day in the year, and devoted to the dissemination of intelligence. Politically, the GAZETTE is Democratic, but its mission is to give the news, and to this end the best efforts of the management will be directed. The GAZETTE is admittedly the most interesting newspaper in Texas.

THE FORT WORTH WEEKLY GAZETTE is a seven-column eight-page weekly paper, made up of selections from the Daily. Politically, the WEEKLY GAZETTE takes its coloring from the Daily, but its purpose is the enlightenment of its readers on matters of State and National interest, and to convey information concerning the Empire State of the South and Southwest.

THE TEXAS LIVE STOCK JOURNAL is the first paper published in the world devoted EXCLUSIVELY to the interests of live-stock on the range. It is unique in style and matter, and is indispensable to the ranchman, and has a large circulation from the range to the Gulf of Mexico. THE JOURNAL is an eight-page paper, a most unique feature being four or five pages of cattle brands—inserted by cattle owners to facilitate the recovery of estrayed or "drifted" stock—and these brands indicate the widespread circulation of the paper.

THE TEXAS WOOL GROWER is a paper devoted exclusively to the interests of the sheep and wool growers of the United States, and goes to every sheep ranch in Texas, with a growing circulation in other sheep growing regions. THE TEXAS WOOL GROWER is an eight-page forty-column paper, and has reached a circulation greater than that usually acquired by the ordinary weekly. The great extent of the sheep growing region will explain this marvelous increase; and there does not appear to be any limit to the field in which THE TEXAS WOOL GROWER is working. It is now the organ of several State Associations.

Through these publications advertisers are offered a medium which reaches all classes and professions, and which cannot be excelled in the Southwest.

SATURDAY NIGHT

IMMENSELY POPULAR.

THE LEADING FAMILY PAPER IN THE UNITED STATES.

The hold which this beautiful illustrated weekly retains upon the people's confidence seems astonishing, but it is due entirely to the real worth of its varied contents. The value of the *Horice* is not measured by the enormous sum of money they cost, but by the eagerness of the people who read them.

IT TAKES TEN TONS OF PAPER EVERY WEEK TO PRINT IT.

That is over 20,000 pounds. And ten times twenty thousand people anxiously await its weekly coming.

The advance agent of one of the best patronized traveling shows in America, in speaking of the widespread popularity of this family paper, said that "whenever he found three trees growing, there he found *SATURDAY NIGHT*." He meant to say that all the people, all over the land, in every town and every village, love their favorite paper, and that their liking for it was deep-rooted and permanent, not superficial and temporary, changing as the seasons change, and dying with the year.

WHEREVER IT COMES, IT COMES TO STAY.

Every weekly issue of the *SATURDAY NIGHT* contains a quality and quantity of literary material satisfying to every member of the family, young and old.

Its Stories are of standard excellence. The most gifted authors seek *SATURDAY NIGHT* as the channel by which they may gain reputation.

It commands a large street sale, is delivered by carriers in all parts of Chicago, is the only evening paper for sale on all the lines of railroad leaving Chicago, and is a morning paper to many places in the surrounding States, which are reached in the morning by trains which leave Chicago the previous evening.

It is a carefully edited newspaper, free from all sensational and objectionable literature. Its columns are clean and its tone elevated. CHICAGO WEEKLY JOURNAL

CIRCULATION OVER 23,000.

Unlike many similar publications the WEEKLY JOURNAL is gotten up with a special view to meet the requirements of the Farmer and Live Stock Dealer.

Its advertising columns are closed to *objectionable medical and fraudulent advertisements*, thus protecting legitimate advertisers and promoting the best interests of its patrons.

The paper circulates among the better and wealthier class of farmers, and possesses all the requirements of a valuable advertising medium for reaching those who have money to spend, and who can afford to buy good goods at fair prices.

Estimates on cost of advertising space, and sample copies of the paper, may be had on application to any responsible advertising agent, or to

CHICAGO POPULAR MONTHLY QUERIES.

Have you ever tested a well-edited magazine as an advertising medium? Have you ever thoughtfully considered the value of magazines when making up your list of advertising mediums? Have you ever invited the 23,200 subscribers of the *Chicago Popular Monthly* to favor you with their orders?

CHICAGO POPULAR MONTHLY PROPOSITIONS.

We have a bona fide circulation, to regular annual subscribers, of 23,200—a statement amply fortified by proper affidavits—which covers the best portion of the Great West. We hold that an advertisement in a family magazine like the *Chicago Popular Monthly*, of 23,200 circulation, is equal in value to a paper of double the circulation. Why? Because a magazine is more closely read—each number is preserved, and the volume bound up twice a year, giving it a permanent value as an advertising medium; and because its readers, as a class, are of higher intelligence, and have more money to buy with, than the average weekly newspaper subscriber.

The paper circulates only where it is paid for, and therefore its list is comparatively free from the names of unthrifty people, such as constitute a large proportion of the subscribers of many country papers—the practice of whose publishers is to continue sending the paper to all who will subscribe for it, without regard to their ability or disposition to pay. Every hundred names claimed in our circulation mean a hundred families who are paying their way in the world, who will buy what they want and pay for it, and are therefore of the class to whom every advertiser with a useful article to sell desires to introduce his goods.

In 1882 the vote for Secretary of State was: Hawn (Rep.), 4,280; Myera (Dem.) 4,014; Leonard (Greenback), 485. The county has four Republican, one Greenback, one Prohibition and one German paper. THE WEEKLY REVIEW

BIRMINGHAM, ALABAMA.

E. B. FOSTER, Publisher and Proprietor.

The future of Birmingham as a railroad centre is now established beyond doubt. It has over 11,000
actual population. It has five blast furnaces, a large rolling mill for manufacturing round and square bar iron,
also sheet iron, a cotton factory, foundries, machine shops, wagon factories, &c., in active operation, and lying as
it does, between two large coal fields, the Warrior and Cahaba, its coal supply is almost unlimited, it has no supe-
rior for cheap fuel supply. THE WEEKLY REVIEW is now entering on its second year. It is a Republican paper,
and the only one that is published by a white man in the State; its circulation being mainly among mine and mill
men in the city and adjacent counties, make it a valuable medium for reaching that class by manufacturers of
this class of goods that wish to advertise them.

JOS. E. OSBORN, General Manager.

TO ADVERTISERS: THE SKAFFAREN AND MINNESOTA STATS TIDNING, a secular and religious newspaper published every Wednesday in the Swedish language at 231 East Seventh St., St. Paul, Minnesota, is now running in its eighth volume. From its very start it secured an extensive circulation throughout the Northwestern States which circulation has continually increased until its weekly issues are now being read by over 30,000 people and still it is booming. As an advertising medium to reach the large masses of Swedish people living in the cities and on the farms throughout the Great Northwest it has not its equal. "Over one-fourth of the population of Minnesota is Scandinavian." The advertising rates of the SKAFFAREN AND MINNESOTA STATS TIDNING are unquestionably very low.

IMPORTANT TO ADVERTISERS!

FACTS AND FIGURES RELATIVE TO THE GREAT CIRCULATION OF THE

TOLEDO WEEKLY BLADE

(NASBY'S PAPER.)

CIRCULATION, 135,000!

The statement set forth below speaks more in favor of the great value of the BLADE as an advertising medium, than could be uttered by the tongues of a hundred solicitors, or volumes of printed matter. We transcribe the facts and figures, literally, from the books and records of our business of the past four years, and will at all times be pleased to verify each and every item to advertisers who may find it convenient to call at our office. We challenge comparison with any other large weekly of this country, both as to the circulation and advertising rates. It cannot be disputed that we give larger and more general circulation for less money than any paper or combination of papers in the United States.

Yours truly,
R. & J. BECK, 1016 Chestnut St., Phila., Feb. 6, 1883.

SMITHTOWN, L. I., May 22, 1883.

This is to certify that I inserted an 8-line advertisement in the N. Y. WITNESS last December, from which I received upwards of 400 answers. I certainly never received half that number of answers from a like advertisement inserted in any other paper. I consider the WITNESS one of the best (if not the best) advertising mediums known.

NOTICES FROM THE PRESS.

The JOURNAL OF PROGRESS, in wood-working, appears to be just what is wanted—a first-class technical art magazine. It contains some very carefully executed illustrations and excellent contributed articles.—*The Builder London, England.*

The JOURNAL OF PROGRESS, the wood-workers' magazine, published at 907 Arch St., Philadelphia, with each succeeding issue sustains its reputation of being "one of the daintiest, handsomest and most practical of the strictly first-class illustrated trade journals published."—*Publishers' Weekly.*

JOURNAL OF PROGRESS, the wood-workers' magazine, published in Philadelphia. This is a new aspirant for public favors, and bids fair to secure them. It is edited with ability and by an editor who seems to know what he is writing about. This latter is much in the paper's favor, for, of the many journals now published, how few there are that have conductors who know whereof they write.—*Builder and Wood-worker, N. Y.*

The JOURNAL OF PROGRESS is a new Philadelphia monthly, representing the wood-working industries and their branches. The journal is interesting in its matter and nicely gotten up. It makes excellent selections, and has many practical articles. We trust its success will be as positive as it seems to merit.—*Decorator and Furnisher, N. Y.*

The JOURNAL OF PROGRESS is handsomely printed and contains a variety of well-written matter pertaining to wood and wood-working, also several illustrations of new and improved wood-working machinery, an industry which has within the past few years been brought to a high degree of perfection. The editorial articles are well written, and indicate that the new journal will be a valuable one in its sphere. It also contains a number of handsome engravings of wood-carving.—*National Car Builder, N. Y.*

BEST ADVERTISING MEDIUMS IN ALABAMA.

THE DAILY AGE

THE WEEKLY IRON AGE

BIRMINGHAM, ALABAMA.

The **DAILY AGE** is the only daily that takes the press dispatches, published in the northern half of Alabama, and has a large circulation not only in that section, but also in West central Alabama to which, by reason of railroad connections, it has earlier access than any other daily journal published in the State.

The **WEEKLY IRON AGE** is one of the largest weeklies published in Alabama. It is not merely a local paper, but has a very large general circulation. It goes to over 300 postoffices in Alabama, and has subscribers in every state and territory in America, with but one or two exceptions.

In addition to the regular editions of these publications immense extra editions are frequently issued for gratuitous distributions of which our advertising patrons get the benefit without extra charge.

Birmingham, Alabama, in which the **AGE** is published is the heart of the great southern Coal and Iron fields, and is the liveliest, most progressive and rapidly growing city in the South. In 1880 it had 4,500 inhabitants; to-day it has over 15,000. It is located at the intersection of the two great commercial highways of the South, viz: the Louisville and Nashville and Cincinnati, New Orleans and Texas Pacific Railroads and is also the present terminus of the Georgia Pacific Railway, running from Atlanta, Georgia, to Birmingham, and which is being pushed forward to Greenville on the Mississippi river; to say naught of several other important railroads projected to this point, some of which are now in course of construction. It is surrounded by coal and iron mines and stone quarries, at and around which are engaged thousands of industrious and prosperous people. Its industries consist of a large number of large iron furnaces, rolling mills, a cotton factory, iron and brass foundries, machine and railroad shops, and various other manufacturing enterprises too numerous to mention. The city is situated in the midst of a highly productive agricultural district, which is thickly populated by an intelligent, industrious and thrifty class of white people, which is constantly augmented by valuable accessions from all sections of the Union.

In view of these facts we feel safe in saying that the **DAILY AGE** and **Weekly IRON AGE** are by far the best mediums for general advertising in the State.

Our lowest cash rates on any kind of advertising contract will be furnished upon application.

Address, **THE IRON AGE PUBLISHING COMPANY, BIRMINGHAM, ALABAMA.**
