## NETWORKS

*...a major selling force in* **CANADA**

### **RADIO**

CBC Radio Networks reach markets large and small in all parts of Canada, with a diversity of news, sports, entertainment and public service features.

To millions of listeners at home . . . and to countless thousands on Canadian highways . . . they bring top-flight program service, both in English and in French.

To advertisers, they provide mass coverage at unusually low cost.

### **TELEVISION**

Through the CBC Television Network . . . now grown to 33 stations . . . the tremendous impact of TV is available to advertisers in 31 important market areas from Vancouver, B. C., to St. John's, Newfoundland.

Via Network Television, advertisers can reach a total audience in Canada of almost half the population . . . over 1,900,000 TV homes . . . at surprisingly low cost per home.

The Canadian Broadcasting Corporation extends to advertising agencies and their clients the fullest possible cooperation in the effective use of CBC Networks . . . Radio and Television . . . and in the creation and production of Canadian programs, in both French and English. For complete information, get in touch with CBC.

# The grassroots grow dollars in Canada ... get in on the pickings now!

Looking for a spending customer? Then let your sales message be heard in the market where money *does* grow on trees! We're talking about Canada. Did you know that John Canuck pocketed over \$2 billion from his tall timber alone in 1954? But wood, pulp and paper isn't all! He's cashing in on the black gold of his Alberta oil fields . . . his rich uranium developments . . . swelling grain elevators . . . and his iron ore deposits south of Ungava Bay. Even in Ontario and Quebec the dollars double as heavy industry gets heavier. Look to the north and you'll see 4,000 miles of bulging pocket book. This is *your* market!

Yes, here is a dollar market with cash customers . . . Canadians! Canadians that are approachable . . . they like the same things you like. Their wives follow the same fashion fads as your wives . . . their kids read the same comics as your kids. They *want* to buy more and they can afford it. All you have to do is tell them about your product and tell them through the

voice they know and trust . . . their local radio station.

Local radio will carry your sales message into 95% of all the homes in Canada in a language familiar to each home, English and French. You'll be heard and welcomed as a friend in the company of big network shows *plus* the close-to-home intimacy of news, farm reports and mining broadcasts that only local radio can provide for a community.

What's more, in Canada local radio has a limitless advantage . . . "everywhereness"! This "everywhereness" will set your sales message down in the cities, towns and villages . . . and in the flourishing backwoods. Yes, the backwoods is important. Take Kitimat, for example. Here, locked in the forest, is the world's largest aluminum plant employing thousands of workers and their families . . . all dreaming of things to buy. Local radio is the answer when it comes to penetration, hard-sell and economy. Come into Canada over local radio.

## *and what about TV?*

North of the border the impact of TV is still fresh, new and increasing in intensity. In 1954 the sale of TV sets almost doubled the 1953 sales record. In 1954 a total of 18 new independent

TV stations brought a new, curious and enthusiastic audience to Canada's already eager TV viewers. We urge you to cash in on this unique sales opportunity NOW!

## Functions

The Canadian Association of Radio and Television Broadcasters is a voluntary trade organization of 137 privately owned (independent) radio broadcasting stations, and 25 television stations in Canada.

# IN CANADA RADIO EMPTIED THIS SHELF!

In Ontario, Canada's richest market, \$728,630,500\* per year is spent on groceries. On CFRB in one month, 91 hours 20 minutes and 30 seconds\*\* were sponsored by people selling grocery items.

Why do the grocery people in Canada buy so much time on CFRB? Because they get results on CFRB.

Other media bring results too. But radio selling messages have a unique persistence, an unescapable quality. Today you find radio selling messages emanating from everywhere, indoors and out, cars, homes, offices.

In Canada to have this "everywhere-ness" in Ontario—the market where 1/3 of the Canadian population lives, and where 40% of all retail sales are made, is everything!

Why not give the CFRB representatives a call and let them show you what CFRB can do for you in Canada?

Canada's most powerful independent radio station, gives you:

- 1 complete coverage of over 1/2 million radio homes every week
- 2 your key to Canada's richest dollar market where five million people live—where 40% of Canada's total retail sales are made
- 3 complete coverage of 44 counties spending \$66,283,699.00 every week
- 4 over twenty-seven years of skill, experience and success in radio showmanship and salesmanship

Call in a CFRB representative today. Let him show you without obligation, how you can augment your sales through the result-getting medium of radio.

# Famous First Facts In American Radio

By  
**JOSEPH N. KANE**

## THE FIRST:

**A**DVERTISING or commercial radio broadcast was sponsored by the Queensboro Realty Corporation, Jackson Heights, New York City, on August 28, 1922 over station WEAF, the experimental station of the American Telephone and Telegraph Company, New York City. The commercial rate was ten minutes for one hundred dollars.

**Baseball (world series) broadcast** was effected by WJZ of the Westinghouse Electric and Manufacturing Company, Newark, N. J., which broadcast the National League New York Giants-American League New York Yankees series October 5, 1921 to October 13, 1921. The pennant was won by the Giants who won five of the scheduled nine games. The Yankees won three games.

**Chain broadcast** was accomplished October 7, 1922 by WJZ and WGY of the 1922 World Series baseball game from the field. Ordinary telegraph lines from Newark, N. J., and Schenectady, N. Y., were connected with the Polo Grounds, New York City, where a single microphone connected to these lines completed the requirements. It was not possible to transmit highest and lowest frequencies. Graham McNamee was the announcer. On January 4, 1923, WEAF of New York City and WNAC of Boston, Mass., had repeater points, and amplifiers were provided for faithful reproduction and transmission of both music and speech.

**Debate over the radio** was held May 23, 1922, over station WJH of the White and Boyer Company, Washington, D. C. The affirmative "Resolved That daylight saving is an advantage" was taken by Calvin Ira Kephart representing the Miller Debating Society and the negative by Thomas E. Rhodes representing the Alvey Debating Society, both of the National University Law

School, Washington, D. C. The audience was requested to act as the judge.

**Election returns broadcast** was on August 31, 1920, when WWJ of Detroit, Mich., broadcast the results on congressional and county primaries. On November 2, 1920, Leo H. Rosenberg of KDKA of Pittsburgh, Pa., broadcast the results of the Harding-Cox presidential election.

**Football (collegiate) game broadcast** was presented November 25, 1920 by radio station WTAW of College Station, Texas. The game was played on Thanksgiving Day between Texas University and the Agricultural and Mechanical College of Texas at College Station, Texas. At that time, the station was operating under an experimental license and had the call letters 5XB. A spark transmitter was used and the transmission was in code. This was the first play by play broadcast of a football game.

**Foreign language course broadcast** was March 21, 1924, when WJZ, New York City, operating on a 455 wave length, offered French lessons in cooperation with the Beritz School of Languages.

**Musical comedy broadcast** with especially composed music, was "The Gibson Family," sponsored by Proctor and Gamble Company of Cincinnati, Ohio, and introduced over the National Broadcasting Company network, September 15, 1934. The comedy was composed by Arthur Schwartz and the lyrics were written by Howard Dietz. The musical comedy was booked for a thirty-nine week period and was broadcast from WEAF, New York City.

**Police broadcast** was made by Station WIL, St. Louis, Mo., September 4, 1921.

**Political convention broadcast** was June 10, 1924 when the Republican convention assembled at Cleveland, Ohio, nominated Calvin Coolidge of Massachusetts and Charles Gates Dawes of Illinois for President and Vice President respectively. Graham McNamee was the announcer for the program which was carried by fifteen stations of the National Broadcasting Company from Boston, Mass., to Kansas City, Mo.

**Presidential message broadcast** was on December 6, 1923, when President Calvin Coolidge delivered his message to a joint session of Congress held in the House of Representatives, Washington, D. C. It was broadcast by KSD, St. Louis, Mo., WCAP, Washington, D. C., WDAF, Kansas City, Mo.,

# Famous First Facts In American Radio

Continued from Preceding Page

WEAF, New York City, WFAA, Dallas, Texas and WJAR, Providence, R. I., which received his voice over telephone wires. On March 4, 1925, he broadcast his inaugural address.

**Radio coast to coast broadcast** was made May 6, 1937 by Herbert Morrison about the dirigible Hindenburg explosion at Lakehurst, N. J. It was broadcast over both the Red and Blue networks of the National Broadcasting Company, from New York City.

**Radio program simultaneously broadcast over AM and FM (24) stations, and telecast (5),** was on March 20, 1948, when the sustaining feature, the NBC Symphony, was presented. The first commercial program similarly aired was "The Voice of Firestone" on March 22, 1948. The New York City outlet was WNBC.

**Religious service broadcast** was made January 2, 1921 when the Calvary Episcopal Church of Pittsburgh, Pa., broadcast its services through KDKA. The preacher was the Reverend Edwin Ian Van Ethen.

**Round the world broadcast** was accomplished in one-eighth of a second on June 30, 1930 by a series of radio relays. Clyde Decker Waqoner spoke into the shortwave microphone from W2XAD, Schenectady, N. Y. His voice was relayed from Holland, to Java, to Australia, across the Pacific Ocean to North America, and back to Schenectady.

**Transatlantic broadcast (not experimental),** was sent in code January 19, 1903, between Cape Cod, Mass., and Cornwall, England, when greetings were exchanged between King Edward VII and President Theodore Roosevelt.

**Transatlantic radio signal** was sent from Poldhu, Cornwall, by Guglielmo Marconi and was received at St. Johns, Newfoundland. The letter "S" was repeatedly sent by Morse code at stated time intervals and was faintly received by Percy Wright Paget, and by G. S. Kempton, December 11, 1901, and again on December 12, 1901.

**Two-way radio in an automobile** was installed by the Chalmers-Detroit Company in an automobile of their manufacture in March 1910 at New York City. The sending set contained two storage cells, a ten inch spark coil, two Leyden jars and a high and low voltage battery, a seven foot aerial, etc. Successful demonstrations were made from the moving automobile in Central Park, N. Y., to the Terminal Building, 42nd Street and Park Avenue, New York City, at distances varying from one to three miles. (*Scientific American* May 14, 1910)

**Radio set advertised for sale** was the Telimco, (a contraction of The Electro Importing Company) a \$7.50 outfit announced in a one inch advertisement in the January 13, 1906 issue of the *Scientific American* inserted by Hugo Gernsback of the Electro Importing Company of New York. It offered a "complete outfit comprising one inch spark coil, balls, key, coherer with auto coherer and scunder, 50 ohm relay, 4 cell dry battery, send and catch wires and connections with instructions and drawings. Will work up to one mile. Unprecedented introduction prices. Agents wanted. Illustrated pamphlet."

**Radio Society** was the Wireless Association of America formed at New York City, November 1908 with Dr. Lee de Forest as president, Dr. John Stone Stone, vice president, William Mauver, Jr., secretary, and Hugo Gernsback, chairman and business manager. There were no dues and no obligations. Within a few months, more than three thousand members were enrolled.

**Radio station. Commercial radio station** was 8MK (now WWJ), Detroit, Mich.) which instituted a daily service on August 20, 1920, with the program "Tonight's Dinner." Local election returns were broadcast August 31, 1920. KDKA offered a semi-weekly broadcast from November 2, 1920 to December 1, 1920. KDKA was licensed October 27, 1920.

**Radio tube** made of metal was announced April 1, 1935, by the General Electric Company, Schenectady, N. Y. The tubes were smaller than the conventional less sturdy glass tubes and provided their own shielding. They are particularly advantageous in the field of shortwave reception as the metal shell is a better heat conductor and radiator than glass.

**Three-element vacuum tube** was announced to the public by Dr. Lee de Forest at the October 20, 1906, meeting of the American Institute of Electrical Engineers held at New York City. The first three-element tube (filament and two plate electrodes), described as an amplifier of feeble electrical currents, was patented by Dr. de Forest, January 15, 1907, No. 841,387. The first public description of the grid electrode tube was contained in his patent, No. 879,532, February 18, 1908. The name "audion" was given to the tube by Clifford D. Babcock. (*Georgette Carneal—A Conqueror of Space. An Authorized Biography of the Life and Work of Lee de Forest*)

# HOW TO APPLY FOR FCC LICENSE

## Official FCC Procedure for AM, FM and TV Licenses

**A**NY qualified citizen, firm, or group may apply to the Federal Communications Commission for authority to construct a commercial standard (AM), frequency modulation (FM), or television (TV) broadcast station.

Licensing of these facilities is prescribed by the Communications Act of 1934, as amended, which sets up certain basic requirements. In general, applicants must satisfy the Commission that they are legally, technically and financially qualified, and that operation of the proposed station would serve the public convenience, interest or necessity. The Communications Act also recognizes broadcasting as a competitive industry and invests the Commission with the responsibility of allocating facilities so as to provide a fair, efficient, and equitable distribution of radio service.

The licensing procedure is detailed in Part 1 of the Commission's "Rules Relating to Practice and Procedure," while station operation is covered by Part 3, "Rules Governing Radio Broadcast Services," and "Standards of Good Engineering Practice" for AM stations.

Following is a summary of the consecutive steps required in applying for authorization to build and operate a commercial broadcast station. The application procedure is substantially the same whether the facility sought is for AM, FM, or TV broadcast.

### Selecting a Frequency

Standard (AM) broadcast stations operate on "local," "regional," or "clear" chan-

nels. Local stations are of 100 to 250 watts power and serve smaller communities; stations of 500 watts to 5 kilowatts power cover larger centers of population and surrounding areas; stations of 10 to 50 kilowatt maximum power are for large area coverage, particularly at night.

To determine whether an AM frequency is available for assignment in a particular area, it is necessary for the applicant to have a frequency search made by a competent engineer. The Commission's engineering personnel cannot undertake to make such studies for prospective applicants.

An applicant for a commercial FM station must specify a frequency available to the area to be served. The Commission has tentatively allocated geographic blocks of frequencies to accommodate Class A stations (community) and Class B stations (metropolitan and rural) throughout the United States. The demand for FM stations has not yet exceeded the supply of available frequencies. (The Noncommercial Educational FM Broadcast Service is a separate category with its own rules.)

An applicant for a new television station must request a channel assigned in the Table of Assignments to the community involved. However, a channel assigned to any community listed in the table can be requested for operation in any unlisted community within 15 miles of the listed community. Commercial TV stations are authorized for unlimited hours of operation and are of a single class with minimum power determined by the size of the

principal city and maximum power dependent on antenna height and allocation zone. Channels are reserved for noncommercial educational TV operation.

### Applying for a Construction Permit

Once a prospective licensee has decided upon the type of station he wishes to apply for, the next step is to make application for a construction permit. This application must be in writing on a form supplied by the Commission (Form 301, "Application for Authority to Construct a New Broadcast Station or Make Changes in an Existing Broadcast Station," which covers AM, FM, and TV broadcast). This form requires information about the citizenship and character of the applicant, as well as his financial, technical, and other qualifications to construct and operate a station, plus details about the transmitting apparatus to be used, and the proposed new service. Triplicate copies are required, one of which must be executed under oath or affirmation.

### Application Processing

Applications are reviewed in their engineering, legal, and financial aspects by the Broadcast Bureau, which makes recommendations to the Commission.

Applications are, in general, processed in the order in which accepted for filing. There is a Temporary Processing Procedure for TV applications.

If, upon examination of an application, the Commission determines that there are no engineering conflicts, that the applicant is qualified, and that all other requirements are met, the application is granted without hearing and a construction permit is issued.

Any grant made by the Commission without a hearing is subject to protest within a period of 30 days, during which the protesting party may request a hearing. Within 15 days thereafter the Commission must determine whether the objection merits a hearing.

The law requires that, in general, final decision on noncontested applications be rendered within three months from the

date of the original filing, and within six months from the conclusion of a hearing in those cases which go through a hearing.

### Hearings

Where it appears that an application violates provisions of the Commission's rules and regulations; that interference would be caused to another AM or FM broadcast station; or that the minimum separation requirements for TV stations are not met; or if other serious questions of a technical, legal, or financial character are involved, a hearing usually is required before a final decision on the application can be made. Often a hearing is necessary because two or more applicants seek to use the same frequency or immediately adjacent frequencies with such a proximity of stations that excessive interference would result. In such instances, the Commission is compelled by law to accord a hearing to the competing applicants and to make a comparative judgment as to which, if either, should be granted.

If unable to grant an application, the Commission is required to notify the applicant and other known parties of interest as to the reason. The applicant usually is given 30 days in which to reply. After that, if the Commission is still unable to make a grant, a hearing is ordered.

In designating an application for hearing, the Commission gives public notice of the issues for the information of the applicant and other parties who may be concerned. The hearing notice generally allows the applicant a period of 30 days or more in which to prepare. Even after being designated for hearing, an applicant may sometimes find it possible to satisfy the issues by amending his application, especially if the apparent deficiencies are of an engineering nature.

All competing applications for the same facility are required to be on file at least 60 days before the start of the scheduled hearing. Hearings start with a conference for the purpose of working out stipulations of fact so as to reduce the hearing to bare essentials.

Hearings are customarily conducted by an examiner. The hearing examiner has authority to administer oaths, examine witnesses and rule upon the admission of evidence.

Within 20 days after the close of a record by the hearing examiner, each party and the Chief of the Broadcast Bureau of the Commission has the privilege of filing proposed findings of fact and conclusions in support of their contentions. After review of the evidence and statements, the hearing examiner issues an initial decision.

In the event he wishes to contest the initial decision, the applicant or any other interested party has 20 days from the date on which the initial decision was announced to file exceptions and to request oral argument before the Commission. In all cases heard by an examiner, the Commission will hear oral argument on request of either party. After oral argument, the Commission may adopt, modify, or reverse the hearing examiner's initial decision. Within 30 days thereafter, any party involved may petition for rehearing.

If no exceptions are filed, and the Commission does not initiate a review of the hearing examiner's initial decision, the latter becomes effective 40 days after the issuance of the initial decision, unless otherwise ordered by the Commission.

### Construction Permit

When and if an application meets statutory and other requirements, it is granted and a construction permit is issued. A maximum of 60 days from date of grant is provided in which construction shall begin, and a maximum of 6 months thereafter as the time for completion (or 8 months in all). Application to modify a broadcast construction authorization, or to make changes in an existing station, or to modify a license, is made on the same form (301) used in seeking initial construction authorization. If the permittee is unable to build his station within the time specified, he can apply for extension of time on Form 701 ("Application for Ad-

ditional Time to Construct a Radio Station"), giving the reasons. Upon completion of construction the permittee can engage in equipment tests.

### License

The final step is to apply for the actual license. All applicants for broadcast license are required to fill out Form 302 ("Application for New Broadcast Station License"). Applicants must show compliance with all terms, conditions, and obligations set forth in the original application and the construction permit. After applying for a license and receiving authority from the Commission, the holder of a construction permit can conduct program tests. A station license is then issued if no new cause or circumstance has come to the attention of the Commission that would make operation of the station contrary to public interest.

AM, FM and TV broadcast stations are licensed for the statutory limit of three years. Applications for renewal of license are made on Form 303, which is "Application for Renewal of Broadcast Station License."

If the holder of a construction permit or license desires to assign the same to someone else, he makes application on form 314 ("Application for Consent to Assignment of Radio Broadcast Station Construction Permit or License").

Should the permittee or the licensee wish to transfer corporate control, he applies on Form 315 ("Application for Consent to Transfer Control of Corporation Holding Radio Broadcast Station Construction Permit or License").

In certain cases a permittee or licensee can apply for a transfer of corporate control or an assignment of license by using form 316 ("Application for Assignment or Transfer—Short Form"). This form may only be used when the transfer or assignment is *pro forma* or technical in nature; i.e., where no substantial changes in interest occur.

# STATE BROADCASTER ASSOCIATIONS

## **Alabama Broadcasters Association**

P. O. Box 477, University, Alabama

Meetings: March and October  
Elections: March meeting  
Members: 71  
President.....Richard B. Biddle, WOWO,

# Color's Place In Local Television

---

By  
**A. B. SAMBROOK**

Manager  
RCA Recorded Program  
Services

---

**L**OCAL color TV is here. Trade paper headlines recently proclaimed that WNBQ, in Chicago, is getting into full swing on local color programming. This station will have color on the air from sign in to sign off. In other localities color has been a fact for some time.

In Philadelphia, WFIL-TV has "Rainbow Theater," a regularly scheduled local color show. One of the features of this program is "Foy Willing and the Riders of the Purple Sage," a series our RCA Recorded Program Services has made available in both black and white and color for some time.

"Foy Willing" is not the only color filmed programming we've been offering to local stations. There's "Town and Country Time," fifty-two quarter-hours in color and black and white; "The Sam Snead Show," thirty-nine five minute shows in color and black and white; "The World Around Us," a new quarter-hour series of exciting looks into the realm of nature. The first twenty-six of this series was recently announced to stations and agencies.

RCA Recorded Program Services is in color and intends to get into it even further. We're out to make ourselves known as "Headquarters for Color Film Programming." Every property we consider for distribution stands a better chance of getting the nod if it's available in color as well as black and white.

Why do we feel so strongly about color? Because it's the future of local as well as network television. After all, the same reasons for network color also apply to local color:

more variety in programming; more entertainment for viewers; better opportunities for advertisers to show off their products.

In local color, TV means more than ever. After all, in how many local stations are there facilities for truly spectacular color? This is where top color filmed programming comes in.

Besides the colors in the spectrum, there's another kind of color in which we're very much interested. This is the color of variety, of change-of-pace. Let's take another look at our list of programs: "Foy Willing," that's pure country and western music, mixed with beautiful scenic shots; "The Sam Snead Show," golf lessons by the top, all-time great of golf; "The World Around Us," a series that takes the world of nature and shows how the battle for existence is continually going on; "Town and Country Time," a real country-western variety program, complete with singing, three different dance groups, comedy and guest stars. We also offer packages of feature length movies.

For still a further splash of color, we'll be adding at least two new, high budget series to our list in 1956 - one will be an adventure series with a new twist; another will be a children's program with emphasis on sports.

We'll be announcing this new show, "Junior Sports League," at about the time this gets into print. Phil Rizzuto is the Sports-master (emcee). Each half-hour program salutes a different boys' or girls' club like the Boy and Girl Scouts, the PAL, the Madison Square Boys Club. Viewers who want to accept Rizzuto's invitation to join "Junior Sports League," must first belong to a recognized club. Features of the show include sports lessons and interviews with guests like Tom Gola, Frankie Frisch, Kyle Rote, Tom Landry, Wes Westrum; a quiz with big prizes going to the club being saluted; local tie-in participation and merchandising.

"Junior Sports League" is colorful in more ways than one. So is every other show from RCA Recorded Program Services, "Headquarters for Color Film Programming."

 Services Offered: The Keystone Broadcasting System is a transcription network which services local radio stations in their programming with transcriptions, with KBS making their time available to national advertisers and their agencies at an attractive network package rate.

At the present, there are more than 800 Keystone affiliates, located in towns with 10,000 to 250,000 population where they reach both the small town and rural markets. For the most part, these Keystone stations serve those areas which are beyond clear reception areas of the large metropolitan radio stations or other high power stations. The number of radio homes in the Keystone Primary Coverage Area total more than 25,000,000 based on Nielson Reports, or one-half millivolt where the Nielson Report is not available.

# Radio-Television Daily's Almanac of Holidays and Special Events 1956

## January

- 1: New Year's Day (In all States, Territories, District of Columbia and Possessions). Paul Revere born (1735). Emancipation Proclamation (1863). Blue Network organized (1927).
- 2: Georgia admitted (1778).
- 3: Battle of Princeton (1777). William S. Paley is elected president of CBS (1929).
- 4: Utah admitted (1896).
- 5: Stephen Decatur born (1779). George Washington Carver died (1943). Week of Prayer, first week in January.
- 6: Carl Sandburg born (1878). New Mexico admitted (1912).
- 7: Millard Fillmore, 13th President born (1800). Electronic system for television, including a dissector tube to scan the image for transmission patented by Philo Taylor Farnsworth (1927).
- 8: Anniversary of the Battle of New Orleans (Louisiana).
- 9: Connecticut ratified the U. S. Constitution (1778). Connecticut admitted (1788).
- 10: Ethan Allen born (1737).
- 11: Alexander Hamilton born (1757).
- 12: John Singer Sargent born (1856).
- 13: Salmon Portland Chase born (1808).
- 14: First Written Constitution adopted at Hartford, Conn. (1639).
- 15: Mathew B. Brady died (1896).
- 17: Benjamin Franklin born (1706). Feast of St. Anthony.
- 18: Daniel Webster born (1782).
- 19: Robert E. Lee's birthday (1807) (Alabama, Arkansas, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia). Edgar Allen Poe born (1809).
- 20: Inauguration Day. Begun in 1937. To be observed every fourth year from that date by the 20th Amendment to the Constitution. Return of POW's from Korea began (1954).
- 21: Foundation Day. In the Canal Zone. Thomas Jonathan (Stonewall) Jackson born (1824).
- 23: S. S. Republic collides with S. S. Florida off N. Y. harbor and flashes CQD signal, summoning rescuers, proving value of Marconi apparatus in time of disaster at sea (1909).
- 24: Gold discovered in Calif. (1848).

- 25: Weather Signs. It is an old belief that the weather of the whole year depends upon this day. "Sun on St. Paul's Day means a good year, rain or snow foretells indifferent weather, a mist means want, while thunder predicts 12 months of wind and death." (Shepherd's Almanack, 1676). Scottish poet Robert Burns born (1759).
- 26: Michigan admitted (1837). General Douglas MacArthur born (1880). A.E.F. landed in Ireland (1942). FM Broadcasters, Inc., holds first annual meeting in N. Y. with attendance of 750 (1944).
- 27: Wolfgang Amadeus Mozart born (1756). Lewis Carroll, pen name of Charles Lutwidge Dodgson, born (1832).
- 28: Thomas Edison granted patent on his incandescent light (1880).
- 29: William McKinley born (1843). Kansas admitted (1861).
- 30: Franklin D. Roosevelt born (1882).
- 31: Franz Schubert born (1797). Child Labor Day. Last Sunday in January, also the Saturday preceding and the Monday following.

## February

- 1: Victor Herbert born (1859). Supreme Court of the U. S., Chief Justice John Jay presiding, held its first meeting (1790). CQD is adopted as wireless distress call by Marconi Co. (1904).
- 2: Fritz Kreisler born (1875). Ground Hog Day. Candlemas. Treaty of Guadalupe Hidalgo signed by U. S. and Mexico (1848).
- 3: Horace Greeley born (1811).
- 6: Massachusetts admitted (1788). Aaron Burr born (1756). American Forces recapture Manila from Japan (1945). George Herman ("Babe") Ruth born (1895).
- 7: Charles Dickens born (1812).
- 8: Boy Scout Day.
- 9: William Henry Harrison, 9th President, born (1773). Nebraska Admitted (1867).
- 10: Peace Treaty signed with Spain, ending Spanish-American War (1899).

**YOU\*** will be using

# the **DU MONT** **ELECTRONICAM**

**THE REVOLUTIONARY NEW SYSTEM  
THAT SAVES FILM PRODUCTION TIME AND DOLLARS**

- **Swift, easy production**
- **Top-quality black and white or color film**
- **A complete production in the time it takes to view it**
- **The spontaneity of live TV—on film**
- **Savings of 40% or more on production costs**

Advertisers, agencies, producers and performers are already breaking production records with quality results:

- **Jackie Gleason—"The Honeymooners"**—average shooting time of 42 minutes for half-hour show!
- **George Jessel—3 one-half hour shows in 4½ hours!†**

The next time *you* plan a filmed television show, motion picture, filmed commercial series, pilot or audition, use the ELECTRONICAM to shoot it "live" on film and cut your costs.

## « 1956 »

**T**ELEVISION forges ahead in this year of 1956 and **Television Year Book** keeps stride with another comprehensive volume of facts, figures and forecasts on the progress of this most important new industry.

**T**HE progress report on television since the post-war years is one of dramatic achievements. The number of stations have grown tremendously and the quality of programs and transmissions have exceeded all expectations.

**T**HIS year's volume is replete with information on the advancements of the sight and sound medium. The impact of color, progress of closed circuit TV, and prospects of some form of pay-as-you-see TV are only a few of the subjects covered. In addition there is data on networks, advertising, agencies, VHF and UHF channels and many mighty informative articles.

**W**E are proud of this volume for it mirrors the work of individuals and organizations in the advancement of this electronic miracle. To all our contributors we are deeply grateful.

**JACK ALICOATE**  
Editor-in-Chief

# Speaking of chain reactions...

**1** Excellent monochrome slides, opaques, and 16 mm film.

**2** Superior color slides, opaques and 16 mm film, as well as monochrome.

**3** Limited live color in addition to slides, opaques, and 16 mm film. Unlimited Live Color.

**4** UNLIMITED LIVE COLOR

And now, the biggest news of all... the Vitascan camera, a portable light source for live color TV broadcasting. The light source is a simple, portable camera assembly that provides unlimited live programming at a cost far below other color systems. Again, Du Mont shows the way for simple, practical television broadcasting.

Here's one you can control!

# the vitascan

Start your scanner operations at any point you need! If you need a source for only monochrome film, opaques, and slides choose the Monochrome Multi-Scanner. If you plan color for later on, you can always convert at minimum expense. At any time, you can add live color with either the fixed or portable light sources. Here is television broadcasting equipment tailored to your exact needs!

## Use of TV by President Heralds New Era

---

"I'm going directly to the American people and tell them the full facts." With these words President Dwight D. Eisenhower announced his plan to use commercial television to inform the whole nation of the reasons for his decision to run for renomination. And with these words commercial television was accorded its rightful place as the only true medium for vital news in the twentieth century.

The right—and the duty—of every American citizen to hear immediately his elected officials speak their minds on important issues was performed more than ever before in the President's dramatic telecast of February 29, 1956. Sixty-five million people—more than voted in the last election—saw and heard the President on both radio and television. By watching his face for twenty minutes they were able to form their own decision on the essential problem—the President's health.

The impact of the President's preference for television as the medium to reach all the people at once will be felt strongly on the coming presidential election—and most likely on all future elections. He has announced that observation car barnstorming—at least for him—is as outmoded as the era of the big city "bosses." Television and radio will be the primary weapons of the campaign. The hitherto traditional and old-fashioned methods will be used only to supplement his appearances on television.

The President has long been an advocate of television. He was the first President to address the annual convention of the National Association of Radio and Television Broadcasters, and at that time expressed his high regard for the medium.

Shown here is a view of President Eisenhower at his news conference as he made public his "affirmative" decision to seek re-election.

# Pay TV Starts Greatest Controversy of '55

By  
**EDWARD J. LOWE**  
Equipment Editor  
Radio-Television Daily

**A** CLOUD no bigger than the palm of a man's hand appeared on the horizon of American television in 1955, a cloud that can conceivably transform our time-honored concept of broadcasting, and will certainly cause the most violent controversy in the industry's third of a century. That cloud is subscription television, or toll TV, the future of which the Federal Communications Commission has been considering since September 9. The advocates of this new system claim that it will make possible hitherto unreachable fields of culture and entertainment, side by side with the sponsored programs of today. Those opposed say that toll TV will destroy free television, and drive the medium out of range of those that rely on it most.

Three major forms have been advanced, but the underlying principle of all is to make a program available only to those willing and able to pay for it. The broadcaster would transmit his program in a coded, or scrambled, form. The ability to unscramble the signal would be available, for a fee, to those with the required electronic attachment on their set.

Phonevision, the product of the Zenith Radio Corporation, generally held to be the pioneer in the field, would attach to the set a device with five dials, each with seven numbers. Turning the dials to a previously assigned code number for a particular program would unscramble the signal. The viewer would get the numbers by punching out an insert on a card beside the listing for a specific show. The card would be a record of programs seen, which he would return to the company, and would then be billed.

The method of Skiatron, Inc., provides for the insertion of an IBM card with a printed electronic circuit. Pressing a button would simultaneously unscramble the picture and punch the card, making it also a record of shows seen.

The third system, Telemeter, proposed by a

subsidiary of Paramount Pictures, differs from the others in two important respects. First, two signals would be transmitted on one channel. An advertisement for the show would be received on existing sets, the show itself for those who wished to pay for it. Secondly, coins inserted before the show into an attached device would directly activate the unscrambler.

September 9 was the closing date for the submission of rebuttals to arguments already submitted to the FCC. The crux of the legal aspect of their problem is contained in Section 3 of the Federal Communications Act of 1934, which defines broadcasting as "the dissemination of radio communications intended to be received by the public." If the Commission finds that the recipients of toll TV are not "the public," but the paying public, then it is debatable if the Commission has the power to decide the issue. In that case the problem would be referred to Congress, and perhaps eventually to the Supreme Court. In addition, the Commission must decide which system is most desirable. In view of all these problems, and the fact that 1956 is an election year, no speedy action is expected. It may in fact take several years.

The controversy made many strange bedfellows. The motion picture exhibitors, organized as the Joint Committee on Toll TV, aligned themselves with their rivals for public favor, the broadcasting networks and the National Association of Radio and Television Broadcasters, who were in turn aligned with the American Federation of Radio and Television Artists. All came out unequivocally against toll TV, the NARTB stating that it is "completely repugnant to the historical concept of public ownership of the air waves." Those in favor are composed mainly of motion picture producers and sporting interests, in addition to the developers of the system.

The most effective action taken by either side during 1955 was in answer to the contention that toll TV will provide to the public many programs that sponsors are unable to afford, among which were cited recent Hollywood features. General Teleradio's purchase of \$25,000,000 worth of feature pictures, which the public will see without charge, effectively answered this argument, and showed the vitality of the sponsored medium.

Of one thing we can be sure—the controversy is not over, probably has not really started. Through its purchase of Hollywood features the young, free, medium has struck a strong blow for itself. We can be sure that 1956 will see much more of the same.

You have to see it to believe it!

## FLASH-MATIC TUNING by **ZENITH**

*Shoot off annoying commercials  
with a flash of magic light...  
picture remains on screen while  
commercial is silent so you can  
tell when to turn on sound again.*

*The flash of light also turns  
set on, off, changes channels—  
you remain in your easy chair.*

Just imagine! You can tune your Flash-Matic television set from across the room with a "magic" flash of light (no wires, no cords). Flash-Matic Tuning is a built-in part of several new 1956 Zenith television sets. See it at your Zenith dealer's. Only Zenith has it!

**The Touraine.** 24-inch screen, Flash-Matic Tuning, new Royal "X" Chassis, Cinébeam<sup>®</sup>, Ciné-Lens, high fidelity sound system, removable protective glass. Also push-button tuning. In grained blond oak color (X2674EQ), \$325.\* In mahogany color (X2674RQ), \$499.95\*.

Zenith Quality... the best of everything  
in everything Zenith makes.

Backed by 36 years of experience  
in radionics exclusively

# HOW THEY WATCH AND LISTEN

Here in table form is how people in Videotown (actually New Brunswick, New Jersey) have watched television and listened to radio. This is the eighth Videotown report by Cunningham & Walsh, New York advertising agency, which since 1948 has been conducting the study of trends in TV sales and set usage and the impact of television on family life in Videotown. Statistics pertain to television homes.

	WATCH TV					LISTEN TO RADIO				
	1951	1952	1953	1954	1955	1951	1952	1953	1954	1955
<b>Wives</b>										
Morning	2%	10%	12%	22%	17%	25%	33%	42%	45%	43%
Afternoon	10	18	19	25	27	15	19	16	17	13
Evening	71	73	78	79	89	7	13	12	15	14
All Day	72	76	80	83	92	34	42	50	52	52
<b>All People—Average</b>										
Morning	1	5	8	14	11	10	15	12	23	25
Afternoon	7	15	14	16	20	6	9	8	8	8
Evening	68	70	73	74	85	5	8	9	10	10
All Day	70	72	76	77	87	16	22	28	30	33

## REPORT ALSO REVEALED:

- Reading and movie attendance are up.
- People backward about color at present prices.
- Radio listening remains high.

# Reports Over 22,000 Women In Radio-TV

By  
**JEAN GIBSON**  
Editorial Researcher,  
Radio Annual,  
Television Yearbook

**W**OMEN are as essential to the broadcasting industry today as the television camera or the studio clock.

The feminine set may have first entered broadcasting as secretaries at radio stations. Then they progressed to become traffic managers and continuity writers. Later, women became commentators on their own programs. Gradually, women in radio were joined by colleagues in television. Women in TV worked up, as in radio, often remaining behind the scenes to help produce or direct. Many women have made the grade in the management end of radio and television.

According to a July, 1955, Survey of Current Business, published by the Office of Business Economics, U. S. Dept. of Commerce, there were 76,000 people employed in radio and television in 1954. An FCC financial statement reports that in this same year, of this total, 29,412 people were employed in television. In other words, although television was barely seven years old, (say it actually got underway in 1947), a little over a third of the employees in the broadcasting industry were in this new media of communication.

Figures aren't available for the number of women employed in radio and television in 1954. But in 1950, the Census revealed that a total of 15,690 women were working in the broadcasting field. Of these 7,980 were clerical; 4,590 were professional, and 1,770 held jobs as salaried managers or officers. Since in 1950, there were 104 television stations and 2,144 radio stations on the air, each station averaged about 7 women employees. Assuming the fairer sex was sprinkled evenly among individual TV and radio stations, women in radio outnumbered their TV sisters by about 21 to 1. In round numbers, there may have been about 15,000 women in radio, and 725 or so in TV.

The story is different today. Television has grown steadily, leap-frogging into big business. The 104 stations in 1950 have jumped to approximately 450 on the air with many others pending FCC approval. If the figure of 7 women per TV station is used here, which is undoubtedly conservative, we find that there are now 3,150 women employed in TV. Women in radio currently lead by only 6 to 1.

This is not to say that opportunities in radio have lessened, however. Even though television has become a competitor to radio for the listening ear, radio is still enjoying growth. Many more stations are going on the air, and other stations are expanding. Radio Advertising Bureau has estimated that the total number of radio sets in the U. S. was 121 million as of July, 1955. Eighty million of these sets are in homes where women can and do listen to some 2,800 radio stations, where about 19,600 women have a part in the operations.

Taking radio and TV together, there are currently about 22,750 women employed in the broadcasting industry. They serve their industry as traffic managers, researchers, continuity writers, commentators, record librarians, secretaries, receptionists and managers, to name a few.

It was mentioned before that television was becoming big business. This holds true for the whole broadcasting industry. In 1954, the U. S. Department of Commerce reported that national income originating in TV and radio amounted to \$551,000,000. In contrast to this, automobiles and equipment, a subdivision of manufacturing, showed a total of \$6,472,000,000 that year. Utilities, both electric and gas, contributed \$5,709,000,000. (National Income Number of the Survey of Current Business, July, 1955.) But women in the broadcasting industry, as well as the men, can take satisfaction in having helped to keep our country prosperous. The huge income of other businesses would not be so impressive without the selling job that broadcasting does.

With the addition of television to broadcasting, and the expansion of radio, more jobs have opened for women, either "behind the mike" or "before the camera." Every indication points toward more women in broadcasting. Wherever women are, it is certain that the broadcasting industry is better for having the help of a feminine hand.

# **BMI** *For Service in TV*

Service continues to be one of the basic theme songs at BMI. Not only are its facilities offered to its TV licensees, but to producers, advertising agencies and their clients, TV film distributors, music conductors, directors, and everyone in TV concerned with music and programming.

This service is apparent in the day to day activities of BMI and is provided in many forms, such as:

- Assistance in the selection or creation of music for theme, background, bridge, cue or incidental mood music
- Aid in music clearance
- Help in protecting music ownership rights
- Answers to questions concerning copyrights, music rights for future residual usage and help in solving all other problems concerning the use of music in TV

# 1956 TV's Greatest Political Role

By JOHN DALY

ABC Vice President  
in Charge of News,  
Special Events, Sports  
& Public Affairs

**T**HROUGHOUT the length and breadth of our land, on the farm and in the city, the attention of the country this Summer and Fall will focus on two separate weeks and one day that will make history.

Like Topsy, Television has "grewed and grewed," and our citizenry almost as a whole will witness the exciting, significant and dramatic political conventions and elections of 1956.

As a prelude to these events will come the various tests of strength by opposing candidates in state primary balloting. In August, with battle lines drawn, will follow the conventions of Democratic and Republican parties to select their standard bearers.

Thereafter in rapid succession will take place the campaigns by the nominees and the climactic Election Day on November 6.

Television, serving with older and more familiar media, will find itself cast in its greatest role to date. It can and will bring the public the facts, issues and candidates of the conventions and campaigns with the new dimension and greater impact inherent in its visual factor.

Radio with its swiftness and mobility will spread the news to every corner of the country. But television personal and penetrating will make it possible for everyone to be on the scene, to interpret and decide on the basis of first hand information. Honored and acknowledged for its influence and impact in 1952, television will be unrivaled in 1956.

The audience this year will probably include four out of every five TV-equipped homes, or a total of more than 28 million living rooms, almost double that of the 1952

TV audience. Wherever TV goes, it will profoundly influence those who watch. It will have vast influence on their votes and the outcome of the election.

There is little doubt that radio, newspapers, magazines and other means of reaching the people have been able to exert an influence over segments of the population. But never has one media, in the control of comparatively few, been able to affect so many throughout the breadth of the land in such proportions.

This challenge, I am sure, will be met with the highest of standards by television's trained personnel. In planning and execution, the men and women, who have added to the talents with which they served so effectively in the great tradition of radio convention and election coverage, are dedicated to objectivity, depth and breadth of reporting.

Unfettered by government controls as exist in many totalitarian countries, the television industry will be able to present all shades of opinion—an unbiased report of political developments when they happen, exactly as they take place.

ABC's team, of which I can speak personally, provides a typical example of the balance provided. Such veteran and capable newsmen as Erwin D. Canham, George Sokolsky, John W. Vandercock, Edward P. Morgan, Martin Agronsky, Paul Harvey, Quincy Howe, Bryson Rash, John MacVane, Gunnar Back, Don Goddard and Ted Malone will report for both ABC Radio and television at these conventions and on election night.

Each in his own way will contribute new chapters to the glowing history of journalism in the United States. The long line of traditions which have established the freedoms of press and speech in our country have prepared them well.

In future years, their achievements will likewise aid those faced with even greater responsibility in the continuance of democratic processes.

As our economy and size have expanded, so too have our skills in the field of reporting. Television is the beneficiary of this heritage, and we are determined that the newest medium shall be worthy of its great heritage.

☆☆☆  
**JOHN H. MITCHELL**

**Vice President in Charge of ABC Television Network**

John H. Mitchell, vice president in charge of the American Broadcasting Company Television Network, was elected to the position on November 1, 1954. He joined ABC in February 1953 as vice president in charge of WBKB, ABC's owned television station in Chicago. In July 1953 he became vice president and general manager of WABC-TV, New York. Before joining the network, Mitchell was with Balaban & Katz Corporation which he joined in 1931. In 1939 he moved to South Bend, Indiana, in charge of Indiana theatres owned by Great States Theatres, Inc., a subsidiary of Balaban & Katz. In 1946, Mitchell was placed in charge of the Central Division of Great States Theatres, Inc., making his headquarters in Peoria, Illinois. Two years later he was transferred to Chicago in charge of the Balaban & Katz television station there, as general manager, which he left to join ABC. A native of Indianapolis, Mitchell now lives in Manhattan.

---

**SLOCUM CHAPIN**

**Vice President in Charge of Sales for ABC-TV**

Slocum Chapin, vice president in charge of sales for the ABC-TV network, joined WJZ (now WABC) in 1942 as Sales Manager. He had served in sales promotion for the World Broadcasting System, Inc., in sales with WOC, Davenport, Iowa, as Sales Manager of WKBN, Youngstown, Ohio, and as General Manager of WSTC, Stamford, Conn. In 1944 Mr. Chapin moved to the radio network sales department, and in 1948 was appointed Eastern Sales Manager for ABC-TV when that department was created in June, 1948. In May, 1951, he was named vice president in charge of owned and operated stations for ABC, which he held until named to his present post in 1954. Mr. Chapin is a native of Quincy, Mass., but was brought up in Vermont. He is married, and a graduate of Dartmouth College.

---

**ROBERT F. LEWINE**

**Vice President in Charge of Programming and Talent for ABC-TV**

Robert F. Lewine, vice president in charge of programming and talent for ABC television, was elected to the post in January, 1956. Mr. Lewine joined the American Broadcasting Company in February, 1953, as Eastern Program Director. He was named director of the ABC-TV Network's Program Department in Sept., 1954. Prior to joining ABC, he was the director of radio and TV for Hirshon-Garfield, Inc. Previously he had organized Rockhill Productions, was an independent motion picture producer and TV consultant, and the eastern representative for Dudley Pictures Corporation. From 1945 to 1947 he was associated with Cine-Television Studios, Inc., as production manager, and later as vice president in charge of operations. Mr. Lewine is a graduate of Swarthmore College, and served in the Navy during World War II.

This  
will be  
our  
second  
leap year  
in  
a row

*Last year was leap year at ABC Television. Business leapt with the Disneyland and Mickey Mouse Club sell-outs. Bounded up when Hollywood came to TV on the MGM Parade and Warner Bros. shows. Shot higher with the new *adult* Western concept of*

“Wyatt Earp.” And wound up with plans for the new Afternoon Film Festival, the daytime show with the big-time, nighttime look.

Advice to advertisers and their agencies: if you want to get the jump on competition, hop to it – get on ABC-TV.

**ABC TELEVISION NETWORK**

# TV "Greatest New Force In American Life"

By  
**J. L. VAN  
VOLKENBURG**  
President  
CBS Television

**T**ELEVISION in 1956 gives every evidence of living up to its recent description by U. S. News and World Report as "the greatest new force in American life."

And I do not think it is presumptuous to suggest that advertisers, and we at CBS Television, as broadcasters, have together played a major role in developing this force and, by extension, the vitality of the American system of broadcasting.

We at CBS Television believe that three basic ingredients nourishing this "greatest new force in American life" are: advertising investment; audience interest; and creative activity - in a well-balanced mixture.

Advertising investment in television has grown from \$57.8 millions in 1949 to an estimated \$1 billion 49.5 millions in 1955. CBS Television leads the industry as the largest single advertising medium in the world, with an estimated gross billings in 1955 of better than \$190,000,000. And there is evidence to believe that in 1956 CBS Television will increase this leadership.

Audience interest in U. S. television is one of the truly amazing developments of modern times. The number of stations in the United States has grown from 48 in 1949, to 425 in September of 1955. According to the Bureau of the Census last June, there were more than 32 million television homes in this country, with the number growing daily. This is 67.2 of all the nation's households.

But of even greater significance than the numerical increase in stations and television homes is the fact that in America television has become a national habit, with the average family spending nearly five hours a day in

front of its television set. This is an incredible statistic. It means that they are devoting more time to watching television than they spend on anything else except working and sleeping. And what's more, there seems to be no indication that they intend to stop, since they are watching television today more than ever before.

At this stage, I am sure I don't have to convince anyone of television's impact. No advertising medium in the world can approach it. No advertising medium in the world so closely associates an advertiser's goods or services with entertainment and information which is absolutely free to the viewer beyond the investment in a television receiver. And part and parcel of our national habit of watching television programs is, I believe, the habit of also watching the sponsor's message.

The tremendous increase in set ownership, and the firmly rooted national habit of television watching is of course one of the key factors influencing advertising investment. But we at CBS Television have every reason to believe that behind it all is creative activity, our incessant preoccupation with the problem of providing the best in entertainment, information, and public service programming it is possible for money, talent and brains to create. That we have succeeded in doing so is quite evident: We are broadcasting the majority of the most popular programs day and night. A recent Trendex report gave CBS Television 9 out of the 10 top shows, and in the Nielsen rating CBS Television had 6 out of 10.

In short, we at CBS Television believe that our industry leadership has resulted from the fact that we have built the best program structure in the country, which in turn has earned loyal audiences, who in turn are buying our advertisers' goods and services.

All of us who participate in the advertising process play a crucial role in the economic health of the nation. For this health is contingent as much on the effectiveness of our activity as it is on any other single factor. The more expertly we employ our knowledge and skills in helping stimulate production and distribution of goods and services, the greater will be our contribution toward making a stronger America.

---

---

## HUBBELL ROBINSON, JR.

**Executive Vice President in Charge of Network Programs**

Hubbell Robinson, Jr. was named vice president and director of CBS Television network programs in 1951 when CBS was reorganized into separate network operations for television and radio. Robinson joined CBS in July, 1947 as vice president in charge of network programs. Prior to his affiliation with CBS, Robinson was vice president and director of radio for Young & Rubicam, for 16 years, from 1928 to 1944. He joined the Blue Network, now ABC, in 1944, as vice president and director of programs. Robinson moved to Foote, Cone and Belding as vice president in charge of radio in 1945. Born in Schenectady, N. Y. on Oct. 16, 1905, he was graduated from Brown University. Following his graduation he was a reporter on the Schenectady Union Star and the Knickerbocker Press in Albany. In 1928, he moved to New York and entered advertising.

---

## SIG MICKELSON

**Vice President in Charge of CBS News and Public Affairs**

Sig Mickelson, was appointed Vice President in Charge of CBS News and Public Affairs in 1954, when the Radio and Television News and Public Affairs Departments were combined. He had served as Director of News and Public Affairs for television, prior to that. Mickelson's entire career has been devoted to journalism, first on newspapers and then in radio and television. He was reporter, then editor of the Sioux Falls, S. Dak., Argus Leader and newscaster for Station KSOO, Sioux Falls. He instructed journalism at Louisiana State University and was an assistant professor of journalism at Kansas University and the University of Minnesota. In 1943, Mickelson joined CBS as news editor of Station WCCO, Minneapolis, an outlet then owned by CBS. He was successively director of news and special events, director of public affairs and production manager there. In December, 1949, he transferred to New York to be CBS Director of Public Affairs. Two years later he headed News and Public Affairs for Television. Mickelson was graduated from Augustana College, S. Dak., in 1934 and later obtained his master's degree at the University of Minnesota.

---

## WILLIAM H. HYLAN

**Vice President in Charge of Network Sales**

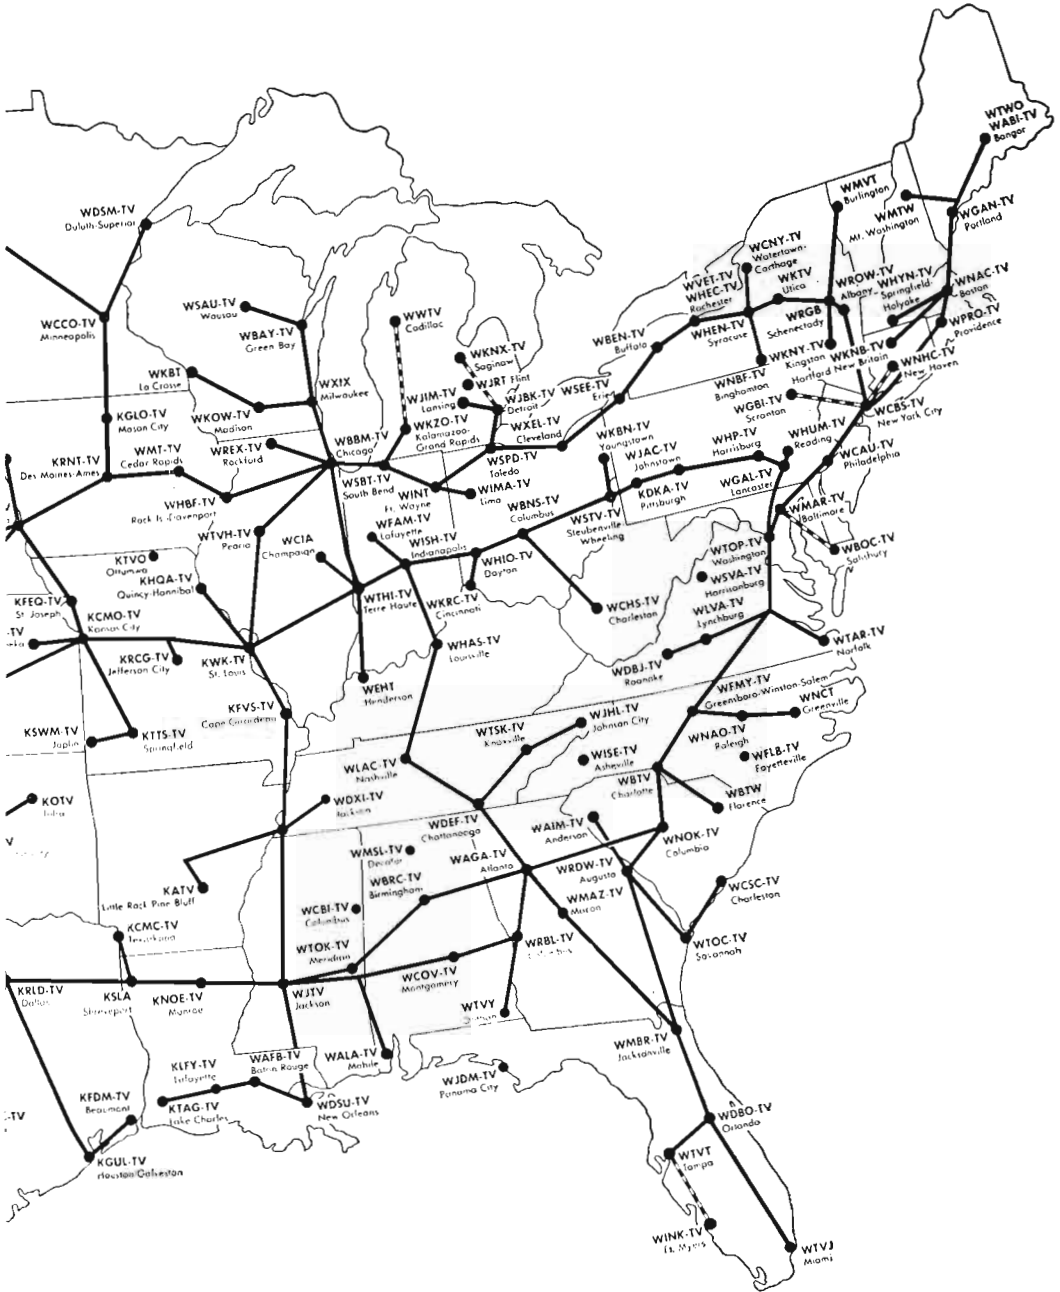

William H. Hylan, who has been associated with CBS for eighteen years, was named vice president in charge of network sales for CBS Television in 1952. Hylan entered military service with the army after four years as an account executive with CBS Radio Sales, from 1937 to 1941. In 1945, he returned to CBS Radio and was appointed assistant to the director of station administration. He switched to the network's new TV sales staff as an account executive in 1948. In 1951, he was named assistant sales manager. Early the next year he was appointed eastern sales manager. Hylan was born in New York City in 1905. He spent a good part of his youth as a resident of the Island of Puerto Rico. Hylan was graduated from Yale University.

# Trial and Risk—A Network's Inherent Duty

By  
**THOMAS A.  
McAVITY**  
Vice-President  
in Charge of NBC-TV

**H**OW many people are using television as a major source of information and entertainment?

This question is far more vital to the future of television than any hassle over day-to-day ratings.

Television can claim success only if it attracts the entire public—the light, finicky viewers as well as the heavy, habit viewers.

And if we are to appeal to this entire audience, we must have fresh vital programming—the kind of programming no one can afford to miss.

But this implies a risk—the risk of new and untried formats, personalities, concepts. It also implies overall planning to insure a balanced viewing diet. For these reasons, fresh programming must be the responsibility of the network.

For only a network can afford the risk necessary to gamble on shows, talent and projects required for providing this type programming to all viewers and as a useful selling medium for every advertiser—big and small.

We must refresh and rebuild our programs from year to year, for we know that any known schedule of attractions begins to lose audience and our medium falls short.

The conventional so-called "hit" half-hour shows are great for many types of personalities and for story-telling. But this form can be limiting.

The form that television can do so well is the one-shot or the occasional show—"idea television." First of all, such a show can be

worked on longer than the regular series show. It also saves the artist from over-exposure and enables the artists from all fields to meet the challenge of television on an occasional basis.

This irregular "idea" television is spearheaded by our firm belief that a network is its programming, and sets the responsibility for influencing the minds of its viewers by offering something for everyone.

This means not only presenting a Sid Caesar, a Bob Hope, a Groucho Marx, a "Hit Parade," but also a "Richard III," a "Magic Flute," a Maurice Evans in "The Devil's Disciple," a "Caesar and Cleopatra," an "Assignment: Indio," a "Twisted Cross," a Wanda Landowska, plus a "Peter Pan" and a "Sleeping Beauty."

But television must have all forms. We should not choose between them. We want them all. In order to do this, we must fight anything that would restrict television, that would limit its usefulness for over 160,000,000 people. We must keep it so that it programs for everyone. And when we find a large segment of women who do not want soap operas in the daytime, then we must create a "Matinee Theatre" or a "Home."

We believe that the television industry must have significance in a time of world crisis. With the talent development projects and the searching programming that we and others have and must continuously enlarge, we believe we will find a great increase in the number of talented people available to us and from them an intelligent direction will come excellence in one-shots and specials as well as hits.

NBC, which pioneered in bringing excitement and expectancy through its Spectaculars, has been joined now by the other networks in 90-minute "specials."

NBC believes this seasoning of programming by means of great cultural events—based by a large amount of hit TV and guided by the network's policy of enlightenment through exposure will keep the network the rich national service it deserves to be and not merely a product of universal expediency.

## DAVID SARNOFF Chairman of the Board of RCA

Elected president of RCA in 1930 at the age of 39, Brig. Gen. David Sarnoff, chairman of the board of RCA and director of NBC, was named commercial manager of RCA when it was formed in 1919. He had first entered the communications field at 15 as a messenger boy. As radio grew increasingly more important, he became Chief Inspector, Assistant Traffic Manager and in 1917, Commercial Manager of the Marconi Wireless Telegraph Company of America. When RCA was formed, it acquired the Marconi Company. During the following eleven years with RCA, he moved from commercial to general manager and then vice president and executive vice president. General Sarnoff was elected chairman of the board and chief executive officer of RCA in 1947. After the promotion of Sylvester L. Weaver, Jr. to Chairman of the Board of NBC, General Sarnoff continues as a member of the board of directors. During World War II, he served as Special Consultant on Communications to General Dwight D. Eisenhower at SHAEF in Europe.

---

## SYLVESTER L. WEAVER, JR. Chairman of the Board of NBC

Sylvester L. Weaver, Jr. was named Chairman of the Board of NBC in December, 1955, replacing Brig. Gen. David Sarnoff, who became a director. Weaver joined NBC in 1949 to head the television network. He was a veteran of 18 years in the broadcasting and advertising fields, including such positions as Vice President in Charge of Radio and Television for Young & Rubicam and Advertising Manager for the American Tobacco Company. In 1952, Weaver was made Vice President in Charge of Radio and Television for NBC and later that year was elected Vice Chairman of the Board. He was named President in 1953 and Chairman of the Board two years later. The concept of the Spectaculars, which began a regular series in the Fall of 1954, and the magazine concept of the Today, Home and Tonight shows, were first outlined by him. Weaver entered broadcasting as a writer, and later became program manager of the Don Lee network. He was graduated magna cum laude from Dartmouth, where he was elected to Phi Beta Kappa.

---

## ROBERT W. SARNOFF President of NBC

Robert W. Sarnoff, who at 37 can look back on a career that already includes service in the newspaper and magazine media and almost eight years with NBC in executive positions in programming, production and sales, was elected President of NBC in December, 1955. Sarnoff joined NBC in 1948 as an account executive in the Sales Department. After serving in various capacities including programming, production and program sales, he was appointed director of Unit Productions in 1951, where he launched "Victory at Sea," the famous NBC-Navy documentary of the Navy's role in World War II. For this he was awarded the Navy's Distinguished Public Service Award. Sarnoff was elected Vice President in 1951 and a year later was placed in charge of the NBC Film Division. He was named executive assistant to Sylvester L. Weaver, Jr. in 1953 and in the same year was elected to the Board of Directors and named Executive Vice President. In the early Spring of 1955, Sarnoff announced plans for a new radio programming service called "Monitor." This was followed in the Fall by "Weekday."

During the first nine months of 1955, 51 new advertisers entered network television.

44 of these new advertisers were on NBC  
42 of them were on NBC *exclusively*

Getting new advertisers, keeping old ones, NBC served 195 satisfied sponsors during this period...*more advertisers than the next two networks combined.*

NBC has proved itself the *pioneer network*, with its new programming patterns and sales plans; the *creative network*, with its Wide Wide World, Project 20 and the exciting and universally-imitated Spectaculars; the *follow-through network*, with its extensive merchandising support and extensive promotion.

Why not join up? *Exciting things are happening on* **NBC** television

new members!

# UHF Death Total Now Numbers Fifty-Three

By  
**HAROLD H.  
THOMS**  
Former Chairman  
UHF Industry  
Coordinating Committee

**T**HE UHF-ICC, composed of 70 contributing UHF stations and permittees, was the outgrowth of an enthusiastic effort by UHF broadcasters throughout the country to organize for the purpose of making a vigorous presentation for a solution to the UHF problem in the hearings before the Senate Subcommittee then headed by Senator Potter. Its objective has been the revision of the existing geographic television assignment plan upon a basis which would eliminate the gross competitive disparities inherent in the two spectrum assignments made under that plan and thereby to remove the obstacles inherent in that plan to a nationwide competitive television system. The magnitude of the efforts of UHF broadcasters who came from all over the country to testify in those hearings is now well known history. No immediate results were then achieved but those efforts were continued throughout the remainder of 1954 before the Congress and the FCC and were renewed and redoubled by UHF broadcasters, individually and through the UHF-ICC throughout the year 1955.

In the past year, the UHF-ICC made several recommendations for remedial measures. These included deintermixture, confinement of TV stations to their own markets, private micro-relay facilities for TV broadcasters, refusal of antenna and power increases in Zone 1, revision of the present TV plan to provide for additional VHF assignments, on a case-to-case basis, at reduced separations and power, with use of directionals, a broad network investigation, and a liberal policy of extension of outstanding UHF permits. It is now an active participant in the pending TV rule making proceedings before the FCC.

Despite the tremendous efforts of UHF broadcasters, the year 1955 will go down as

a year when UHF broadcasting and the cause of nationwide competitive television service were dealt a bitter blow. It was in the past year that hope for early and effective governmental measures to solve the critical problem caused by the intermixture of VHF and UHF stations, were dashed to the ground as a result of governmental refusal to pass upon the outstanding proposals for selective deintermixture. UHF broadcasters had been led to believe that remedial measures were on the way and their disappointment was all the more bitter because many of them had kept their stations going at continuing heavy financial loss only by the hope that such measures would be forthcoming soon.

So far as UHF is concerned, the accounting for the year 1955 is a dismal one indeed: 21 more UHF stations ceased operations. The total of UHF deaths now stands at 53 at a cost to the public and investors of staggering sums of money. Although over 125 UHF permits have been outstanding during the course of the year 1955, only 4 commercial UHF stations were constructed during the year. 111 other UHF permits, which were granted since the lifting of the freeze, have been surrendered for cancellation. Grim evidence of the consequences of the present mixed up television situation was provided by the financial data released by the FCC during the course of the year. The UHF stations in operation sustained a loss of 10 million dollars; 104 UHF stations showed overall losses. Only 18 showed a profit. The losses of at least 31 stations were at the rate of more than \$10,000 a month. Despite such discouraging developments, at year's end, no remedial plan had been proposed by the FCC itself; but the FCC had invited and received an infinite number of proposals from interested parties all of which recognized the critical need for remedial action.

The year 1955 has therefore figuratively produced a scrambled television picture indeed. It is the fervent hope of UHF broadcasters throughout the country that 1956 will bring forth governmental action which will unscramble the picture by attacking the problem at the core, namely, by revision of the mixed up television allocation. The UHF-ICC will continue to dedicate itself to this end throughout 1956 and for as long as there may be surviving UHF operators with a will to continue the fight.

## POWER TOWER

*High atop Mount Wilson, in the Angeles National Forest, stands the tallest television tower in Southern California.*

*This tower, operating at maximum power from a point 6,169 feet above mean sea level, was designed and engineered by RCA to give optimum performance to the 6,000,000 viewers within its range.*

## PENETRATING PERFORMANCE

*High power alone will not cover the unique terrain surrounding the area . . . high mountains, deep canyons and flat plains require height, power and "down-tilted" antenna.*

*RCA developed a specially designed antenna to meet all the requirements necessary for penetrating coverage . . . and after an exhaustive electronic measurement survey has found the KRCA signal to be the finest in the Los Angeles market.*

*In laymen's language . . . maximum power sends out a far reaching, clear signal . . . tall tower and special antenna saturate the close in areas with peak performance.*

*From this great tower, KRCA beams its local programs and those of the NBC network to millions of viewers in Southern California.*

*Advertisers are assured of penetrating electronic performance, top programming and outstanding promotion support when they buy KRCA-4 in Los Angeles.*

for lasting impressions in the **SOUTHERN CALIFORNIA** market

**KRCA-4** LOS ANGELES  
represented by NBC spot sales

**CALIFORNIA'S LARGEST SINGLE STATION TV MARKET**

The primary KEY-T coverage area includes Ventura, Santa Barbara and San Luis Obispo counties, plus the western portion of Kern County.

**IN TOTAL AREA:**

The KEY-T coverage area is larger than the combined states of Massachusetts, Connecticut and Rhode Island.

**IN POPULATION:**

The KEY-T coverage area is larger than the state of Delaware.

**IN TOTAL RETAIL SALES:**

Three of the counties—Ventura, Santa Barbara and Kern—rank in the top 200 of the 3,070 counties in the U.S.

The only TV station that completely and effectively covers this rich area is KEY-T . . . Channel 3.

**KNOE-TV OPENS DOORS  
 TO 280,000 HOMES**

Your cost-per-viewer is extremely low in the tri-state coverage of KNOE-TV. Of the 280,000 sets we 'boom into' in North Louisiana, West Mississippi and South Arkansas 145,000 of them are unable to get any other station. Set count is growing all the time, too, as more and more industry moves into this area where income has always been high from oil, natural gas, agriculture, cattle and industry.

**Top Shows From 3 Networks**

Check the survey reports for the top shows on all three networks . . . then check our program schedules. You'll find the first 25 in the industry on KNOE-TV . . . plus the best from the syndicated film field.

**Powerful Local Programming**

Name your product and we have a strong local participation show to sell it. . . . News, weather, sports, music, variety, farm or cooking and homemaking.

\*145,000 Homes Unduplicated Coverage

BISMARCK, N. DAK.

**FULL POWER  
 100,000 WATTS**

Represented Nationally by Hoag-Blair TV, Inc.

**Kfyrtv  
 entertains and  
 sells some of  
 the nation's  
 spendigest  
 families!**

North Dakota families know a bargain when they see it . . . and they see it on KFYR-tv. Top-rated shows from the three major networks blend with carefully prepared local programming — sports, news and special events — to produce picture pleasure enjoyed by thousands of loyal KFYR-tv viewers.  
 And KFYR-tv satisfies some of the buying-est folks in the nation. North Dakota ranks 10th in the nation in retail sales per house-

hold . . . and Bursleigh, KFYR-tv's home county, clinched 26th place among the nation's counties with a whopping retail buying spree of \$5,748 per household last year.\*  
 No matter how you look at it . . . set saturation, mail pull or local account loyalty, KFYR-tv delivers MORE for your advertising dollar — where dollars mean dividends!

The "MARKET MAKERS" made

**Now . . . ONE CALL BUYS THE NORTH DAKOTA MARKET**

They're spread out in booming North Dakota, but they've got Cadillac buying power from oil, wheat, farming and distribution jobs—a population equal to Seattle, Minneapolis, New Orleans or Providence (and more buying power than most of them.)

What's the easiest, most impressive, most economical way to reach this boom baby? Buy television on the "Market Maker Stations"—the perfect case of *one* television operation taking over 700,000 people scattered over 75,000 sq. miles and making a single market of them.

Here's how economically you can cover North Dakota with the "Market Maker Stations." The open rates below include a 15% discount for using all 3 "Market Makers." (Use two, and get a 10% discount):

	10 sec.	1 min.
AA (7:30-9:30 PM)	\$64.00	\$127.50
A TIME	48.00	96.00
B TIME	35.00	70.00
C TIME	23.00	47.00

Additional frequency discounts to 25%.

market out of North Dakota!

**ONE CALL . . . ONE CONTACT . . . ONE CONTRACT**

Delivers 80% of North Dakota and plenty of gravy in Minnesota and South Dakota, too!

ONLY POSSIBLE BY BUYING THE . . .

**MARKET MAKER STATIONS!**

• CBS Primary • N. D. Broadcasting Co. • 4000 Front St. • Fargo 4461

**CLEVELAND'S  
NEW  
SIGHT AND  
SOUND**

**KYW 3 TV**

There's excitement in the air in Cleveland and all of Northern Ohio. KYW-TV, the newest member of the WBC family, is taking the town.

KYW-TV's audience is watching new and outstanding local shows! Popular NBC network shows! Color spectaculars! Drama, sports, comedy—the best of everything in sight and sound.

To you this means audience action in the nation's 7th largest market . . . 1,217,000 TV homes and the highest per-capita income in the country!

Put KYW-TV to work for you in these 27 rich counties. Call Albert Krivin, Sales Manager at CHerry 1-0942, or Alexander W. "Bink" Dannenbaum, Jr., WBC National Sales Manager, MURray Hill 7-0808, New York.

## A NEW NAME...AND A NEW HOME

A change is being made in WXEL, Channel 8 in Cleveland. A change in name that has a logical association, that makes for easier identity. Sharing the Storer Broadcasting Company banner with veteran radio station WJW, Cleveland's WXEL becomes WJW-TV. And along with the change in call letters comes a change in the home of these two sister stations. In the heart of downtown Cleveland is a handsome new Williamsburg colonial structure—better-than-ever able to serve its clients and the public. Come visit us soon—there's a hospitable welcome awaiting you!

*in Cleveland, keep your eye on channel 8*

# WORLDS OF EXTRA COVERAGE!

In the rich trading area of Lima, Ohio, there are 45,000 TV families for a saturation of 81.1 percent . . . and here more people watch WHIO-TV than all the other TV stations combined. Outside of the primary area, LIMA IS 80 MILES FROM DAYTON. It's just one of the MANY outside bonus areas in WHIO-TV's coverage of 511,310 families. Here are the ARB facts and figures:

## CHANNELS VIEWED MOST IN LIMA, OHIO

Channel	City	Station Viewed Most Before 6 P.M.	Station Viewed Most After 6 P.M.
WHIO-TV	Dayton	66	66
Station B (UHF)		7	24
Station C		5	5
Station D		3	3

These figures prove the eyes and ears of this world are tuned to WHIO-TV, one of America's great AREA stations, using one of the world's tallest towers (1104 ft.) and the equivalent of 316,000 watts. It's America's best buy in TV—and if you don't believe it ask our world representative George P. Hollingbery.

ONE OF  
AMERICA'S  
GREATEST  
AREA  
STATIONS

# Pittsburgh-TV means...

## KDKA TV

Any moment, day or night, KDKA-TV's share of local audience is better than 94%. This is the country's eighth market! The KDKA signal area holds 4,235,994 people — 1,200,000 TV families — retail sales over \$4½ billion.

Nothing can sway this market like KDKA-TV. Not over-many availabilities, naturally, but some good ones. Get the facts. Call Lloyd Chapman, KDKA-TV Sales Manager, at EXpress 1-3000 in Pittsburgh, or Alexander W. "Bink" Dannenbaum, Jr., WBC National Sales Manager, MURray Hill 7-0808, New York.

In Pittsburgh . . . no selling campaign is complete without the *WBC* station —

## KDKA TV

### **OLD TEXAS TEST FOR COFFEE**

Drop a branding iron into the pot.  
When it floats, coffee's strong enough.

### **PANHANDLE TEST**

Drop a spot schedule into KGNC.  
Market's already tested: Amarillo is  
first (again) in the nation in retail  
sales per household.

# WBAP-TV

NOW IN ITS

## FIRST

- ★ On the air in the Southwest
- ★ With COLOR, in Texas
- ★ With full power, tall tower (1113 ft.)
- ★ With city grade service in both cities

## DAILY COLORCASTING

"TEXAS LIVING" — attractive Margret McDonald gives latest fashion, food, beauty tips — a top-ranking women's show!

"THE JONES PLACE" — a tremendously popular western-style show, starring Neal Jones. Just two examples of local color programming for introducing and testing new products in dramatic color presentation.

"NBC MATINEE" — full hour of top dramatic entertainment each day, in vivid network color! Available only on WBAP-TV, Channel 5 — now in its 3rd year of colorcasting!

The above map is charted in proportion to the net effective buying income for the counties included in the new kgul-tv coverage area

# You buy $\frac{1}{4}$ of Texas with kgul-tv

kgul's area coverage encompasses Galveston, Houston and the entire Gulf Coast market. The buying power of this area represents over 25% of the total buying power for the whole state of Texas. Here's a real Texas-size buy for your advertising dollars: one-fourth of Texas with kgul-tv.

	State of Texas	Gulf Coast TV Market	%
Families	2,510,500	611,600	24.36
Effective Buying Income	\$12,622,592	\$3,258,444	25.81

# First in Houston

## radio and television

### KPRC and KPRC-TV Dominate the Houston Market

KPRC RADIO has been the first choice of Houston Gulf Coast listeners for more than 30 years. KPRC-TV, now over five years old, is also first choice with these same people. More than a time-honored habit, this loyalty is indisputable proof of KPRC's experienced leadership and consistent fine quality.

**KOSA-TV . . . . . A CBS**

KOSA-TV, a CBS primary affiliate, is the home television for Odessa, Texas and the OIL RICH PERMIAN BASIN of West Texas and Eastern New Mexico.

KOSA-TV has an effective radiated power of OVER 102,000 watts, MORE power than any other TV station in our market area. This power is acquired thru the use of a 10 kilowatt GE Transmitter and a 12 bay GE Antenna. KOSA-TV's tower rises 1,000 feet over Odessa's average terrain. A snow free picture is delivered within a 100 mile circle of the tower site. To name a few of the cities included in KOSA-TV's coverage: Snyder, Big Spring, Colorado City, Seagraves, Fort Stockton, Crane, Midland, Andrews, Wink, Alpine, Pecos, McCamey, Seminole, Rankin, Lamesa: Also Hobbs, New Mexico and Carlsbad, New Mexico.

# IAAB Details Television-Radio Activities

By  
**JULIO MENADIER**

Director General  
Inter-American Assn.  
of Broadcasters

**T**HE Inter-American Association of Broadcasters, whose seat at present is Santiago, Chile, is about to complete ten years of work. It gathers together practically all the associations of the American countries which in their turn congregate most of the radio and television stations of their countries. This means the representation of over 3,000 radio stations and 400 television stations united around the same ideals and objectives.

Fundamentally the IAAB upholds the principle that private radio broadcasting is based on free enterprise, on the system of free and loyal competition, on private initiative and on freedom for the legitimate exercise of their activities. It is, therefore, the most powerful and effective stronghold against government interference with radio and television. Also, it is the best check to avoid the establishment of any policy not in accordance with the democratic ideals of the free and democratic broadcasting system prevailing on our continent.

Among the achievements of our institution are:

It was the first to denounce publicly and officially the attachment of the radio stations of Argentina by the government.

It promoted the organization of National Broadcasting Associations in Guatemala, El Salvador, Honduras and Paraguay.

It gave the fundamental bases for a common legislation of broadcasting in the Americas.

It operates in close cooperation with the United Nations, the UNESCO, the Organization of American States and the Inter-American Union of Telecommunications. It has received from the U.N. the status of non-governmental consultant organization.

In 1948 it successfully officiated the petition to the Puerto Rican government for a non-commercial policy in their official radio station.

In the same year it obtained for Guatemala the resumption of the radio broadcasts through station "The Voice of Guatemala."

It has distributed scholarships from the Lincoln Institute of New York and the North-

westerns Radio and Television School among the personnel of broadcasting stations. Some of the grantees have already completed their technical studies on broadcasting, and others are doing so at present.

In collaboration with the NARTB it obtained the revocation of the decision of the Organizing Committees for the 1954 football competition to collect dues from the stations for broadcasting the football games.

It sent a mission to Guatemala to confer with their President, who promised a legislation for the radio, and the abolishment of commercial ads in the official broadcastings.

It sent a mission to Bolivia to ask the authorities for better working conditions for the radio stations and to promote the reorganization of their National Broadcasting Association.

At the last convention it proclaimed a Declaration of Ethical Principles, which apart from being of extraordinary value in itself, will serve as the basis for the Code of Ethics of each National Association.

It requested and obtained recently from His Excellency, Pedro Aramburu, Provisional President of the Argentine Republic, the declaration that the radio stations of that country could be run by private concerns working under a system of absolute liberty.

This is only part of what the IAAB has achieved through constant efforts as shown throughout the bulk of correspondence addressed mainly to the President and high officials of the different countries and to the executives of the National Broadcasting Associations among whom the IAAB steadily keeps exalting the right principles and striving for their respectful observance. We can safely say, with the certainty acquired through actual facts and the experience of years, that the IAAB is in itself a symbol for the protection of rights and that it contributes powerfully to the fact that thousands of men in America may work at ease and with the necessary freedom, in broadcasting activities.

As to the immediate projects which the IAAB has in mind, besides others related with the exchange of programs, the establishment of uniform types of fees throughout the continent and the improvement of equipments, we can mention these:

To cooperate with the governments of the various countries in order to pass a law setting norms for the broadcasting activities, so as to insure that the necessary intervention may not be subject exclusively to the opinions of officials or to changing circumstances.

To promote the award of scholarships for the improvement of the technical personnel of the various specialties on radio and similar branches.

# ***Fastest-moving film***

# *in television!*

They don't sit around long on the shipping-room shelves at CBS Television Film Sales. For here are the stand-out shows in the syndicated film field... the audience-proven programs of the sparkling variety and dramatic impact that gave CBS Television Film Sales *the biggest year of its life* in 1955.

Whatever your program choice may be—adventure, comedy, drama, Westerns or news—here you'll find the big-name, top-quality productions... every one a time-tested audience-winner.

And there's more to come, because expansion is the word for '56. *Nearly a dozen major new properties* are being readied. Merchandising and promotion departments are being enlarged. Sales service and distribution facilities are better than ever. There's expansion and excitement everywhere you turn, from story conference to shipping room!

And there's a show for *your* needs at fast-moving CBS Television Film Sales. Take a look at the list below, then call our nearest office—New York, Chicago, Los Angeles, Detroit, Boston, St. Louis, San Francisco, Dallas, Atlanta. In Canada: S. W. Caldwell, Ltd., Toronto.

## ***CBS Television Film Sales, Inc.***

# TV FILM BUYER'S GUIDE

Check Here	Program Title	Length	Number Available	Description
	Confidential File	½-hr.	39	Paul Coates' new and exciting presentation of dramatized journalism . . . behind-the-scenes reports on vital problems. The show all America is talking about!
	I Spy	½-hr.	39	Raymond Massey brings you true and exciting stories behind history's most famous spies.
	Molly (The Goldbergs)	½-hr.	39	The Goldbergs have moved to a small town, and a new series of heart-warming adventures.
	Liberace Show	½-hr.	117	TV's most widely acclaimed musical series for third consecutive year.
	Life With Elizabeth	½-hr.	65	Each show contains three hilarious incidents starring delightful Betty White.
	Joe Palooka	½-hr.	26	The whole family will love the "champ's" adventures. Thrills, action and viewer-impact!
	Frankie Laine Show	½-hr. or ¼-hr.	39	It's Mr. Rhythm himself . . . with vivacious Connie Haines in his own fast-moving musical revue.
	Florian Zabach Show	½-hr.	39	The thrilling music and vibrant personality of Florian ZaBach. Lavishly produced.
	Conrad Nagel Theatre	½-hr.	26	A prestige dramatic anthology series with Conrad Nagel as host.
	It's Fun To Reduce	¼-hr.	65	Margaret Firth shows how easy it is to reduce with a series of carefully coordinated exercises.
	Popcorn Theatre	1-hr.	39	Poppo The Clown brings youngsters 60 minutes of fun, magic tricks, jokes and old-time movies.

**JOHN L. SINN**, president of Ziv Television Programs, Inc., and World Broadcasting System, and executive vice president of Frederick W. Ziv Co., guides the destiny of the firms in the production of filmed television shows. He is responsible for everything from the original idea to the picture on the viewer's set. John set out in life to become a lawyer, but after a year at the University of Chicago, he decided that his true vocation was in the entertainment field, and switched to Cincinnati University. After graduation, he gained a solid foundation in his chosen field by a stint at WLW, where he put in an eighteen-hour day, seven days a week. After a short career as a free-lance writer, John joined the Ziv Agency, where he has been ever since.

**CARL STANTON**, vice-president of NBC, of NBC's subsidiary, the Kagan Corporation, and head of NBC Television Films, came to the network as director of the Television Talent and New Programs department in 1949. He had gained experience with the advertising department of Sears, Roebuck & Co., on the West Coast. In 1934 the Stanford U. graduate joined the Lord & Thomas advertising agency as radio-producer-director. Among the programs for which he was responsible were the memorable "Amos 'n' Andy," "Lum 'n' Abner," and "Bob Hope" shows. After being named account executive for the American Tobacco account, he was named radio director when the firm became Foote, Cone & Belding. After six years with Dancer-Fitzgerald-Sample and its predecessors, Bob joined NBC, and within three years was named national program manager for the TV network programs. He was subsequently appointed director of the Film Division, and elected VP in 1953.

**RALPH M. COHN**, vice-president and general manager of Screen Gems, Inc., television subsidiary of Columbia Pictures, was born into show business, and has served apprenticeships in all its branches. Ralph is the son of Jack Cohn, executive vice-president of Columbia Pictures Corp., and was born in New York on May 1, 1914. After attending Cornell, he spent a year and a half in the legitimate theatre, and then headed for Hollywood, where he shortly became a producer. In 1941 he became executive producer of Darmour Productions, and turned out the "Ellery Queen" and "Crime Doctor" feature films. After service in the Signal Corps during the war, he formed Triangle Productions with Mary Pickford and Charles Rogers, and later Pioneer Telefilms, which became the Columbia subsidiary, Screen Gems, in 1951.

**MICHAEL M. (MICKEY) SILLERMAN**, executive vice-president of Television Programs of America, Inc., was founder, and president, from 1938 to 1949 of the Keystone Broadcasting System, a network of more than four hundred stations. From that position Mickey, a native Baltimorean, joined the Frederic W. Ziv Company as a radio programs account executive, and a year later was appointed director of station relations of the World Broadcasting System, Inc., the Ziv affiliate. Prior to founding KBS, he was in the advertising agency field for five years. In addition to his heavy schedule with TPA, Mickey finds time to conduct the Sillerman "Sales Clinic."

**MERLE S. JONES**, executive vice-president of Columbia Broadcasting System Television, had the unique distinction of being one of the nation's busiest commuters a few years ago. As general manager of two CBS owned and operated stations in Los Angeles, he was constantly shuttling between headquarters in New York and the coast. In addition to these duties, he was head of the Columbia Pacific Network. With his appointment as vice-president, Merle assumed the varied duties of manager of the CBS owned stations, department handling of national spot advertising for a selected list of network stations, and became head of the Television Film Sales Unit before becoming executive V.P.

**DAVID V. SUTTON**, vice-president of MCA-TV Ltd. in charge of film division, is a lawyer turned broadcaster. A graduate of the University of Virginia and the University of West Virginia Law School, Dave never practiced law. Instead, he entered broadcasting with WBBM, Chicago, in 1940, as a salesman. He became Eastern sales manager in 1942, but was interrupted by a stint in the Marines. Doffing his uniform, he joined KMOX, St. Louis, as Commercial Manager, and then moved to CBS Radio Sales, after which he was in rapid succession general sales manager and vice-president in charge of sales of CBS-TV. The 43-year-old West Virginia native then moved to MCA as VP and member of the board of directors.

**REUB KAUFMAN**, president of Guild Films, is the man who gave *Liberace* to the American public. Reub, an alumnus of the University of Chicago, saw the possibilities in the unknown piano player, and in 1952 personally toured the country selling a film of *Liberace* to local stations. The rest of the story is history. Born in Russia in 1903, Reub's family moved to Tulsa before he entered school, and after graduation from college, he formed his own agency, Kaufman & Associates, and was responsible for the success of Jay's Potato Chips, with the slogan "A Pip of a Chip." In 1952 he formed Guild Films, and today has acquired a library of almost 700 Hollywood features and shorts, and almost 200 Looney Tunes cartoons.

**GEORGE T. SHUPERT**, president of the American Broadcasting Company Film Syndication, Inc., the subsidiary of American Broadcasting-Paramount Theatres, Inc., entered the visual media field in 1938 working for Industrial Pictures, Inc. In 1940 he suggested to Paramount Pictures that they create their own industrial film division, and was hired to organize it and handle sales. In 1943, he entered the television field as assistant to Paul Raibourn, president of Paramount TV Productions. Eight years later, in 1951, he joined producer Edward Small in organizing Peerless Television Productions, Inc., taking the post of vice-president in charge of sales. A year later he became vice-president and general manager of United Artists Television Corporation, the position he resigned in August 1953, to establish ABC Film Syndication.

**MICKEY SCHWARZ**, president of ATV Film Productions, Inc., started his film careers at the age 14, working summers in the film laboratories. By the time he had finished college he had been through the stages of printing, developing, negative cutting, printing, and editing. His first professional job was with the Meyer Reiger Film Laboratory in New York. Mickey moved back to the coast as an assistant cutter at the RKO Pathe studios, and in 1937 he became a charter member of the Society of Motion Picture Film Editors. He also worked with the Major Picture Studios, and Universal. During the war he served in the Air Force, and returned to produce live television programs, edited TV film shows, and in 1952 entered the film commercial field by forming his own company, the ATV Film Productions.

**ELY A. LANDAU**, president of National Telefilm Associates, has a long record of achievement for a young man of 35. A native New Yorker, and only nine years in the broadcasting field, Ely did a three year stint in the Army Air Force during the hostilities, and in 1947 joined the production staff for television of Raymond E. Nelson. Two years later he became the TV director of Moss Advertising, and later assumed a similar position for the Emil Mogul Co., Inc., where he was instrumental in building the video department to its present formidable proportions. In January 1954, he formed NTA. In his spare time, Ely authored the booklet, "Television Story."

**EARL COLLINS**, president and general manager of Hollywood Television Service, Inc., is a veteran of 26 years of experience in the sales and distribution end of the motion picture industry. He brings to TV a first-hand knowledge of how to deliver what audiences want and how to properly service clients, stations and networks. The HTS organization today has a sales representation in 32 key cities across the nation. In addition to the large assortment of features, dramas and mysteries handled by HTS, Earl has also made it known that the company is planning to produce many series of pictures, made expressly for TV, edited to meet the needs of local sponsors. Some of these are now in production and an announcement on the company's plans for these films will be made in the near future.

**HAROLD L. HACKETT**, chairman of the board, and president of Official Films, Inc., started his career as a sailor in the merchant marine, and is still traveling in his position with Official Films. This year alone he has made seven round trips to Europe, due to stepped-up production demands. After his stint at sea, Harold spent four years with NBC before joining MCA. In his twenty years with the firm, he rose to the position of vice president of radio and television, and gained the experience and background for his present position. He joined Official Films in 1953 in the capacity of president, and in 1955 became chairman of the board. Harold is a member of the NAITB, and of the Association of TV Film Distributors.

**DWIGHT W. MARTIN**, vice president of General Teleradio, Inc., came to the firm in June 1952, after six years as assistant general manager of the Crosley Broadcasting Corp. A graduate of the University of Cincinnati College of Law, he started his business career as a practicing attorney with the firm of Dinsmore, Shohl, Sawyer, & Dinsmore in 1934 and remained with them as an associate until 1943, when he entered the Navy. He returned to the firm as a general partner in 1945, but left to join Crosley the following year, ultimately becoming a vice president. After Dwight came to General Teleradio, he organized the Film Division, and his present assignment is as a member of the staff, which is concerned with operation of all divisions of the company.

**WILLIAM J. GERMAN**, distributor of Eastman professional motion picture films, organized two companies, W. J. German, Inc., one chartered in Delaware, the other in California, to handle the firm's trade. Bill's initial association with Eastman was in 1906 in Rochester. After filling several posts he came to N. Y. in 1921 as manager of the G.M. Labs. in Long Island City as well as of the Paragon studios and labs and San Jacq Film Printing Corp. at Fort Lee, N. J. One year later Bill became associated with Jules E. Brulatour and in two years he organized and became V.P. and general manager of J. E. Brulatour, Inc., which took over the sole distribution of Eastman films for movies and T.V. At Brulatour's death, Bill became president of the two Brulatour corporations, and completed purchase of the latter's assets in 1951.

**PAUL RAIBOURN**, vice president and member of the Board of Directors of Paramount Pictures Corporation, is also Chairman of the Board of International Telemeter Corporation, of Chromatic Television Laboratories, member of the board of the NARTE, treasurer and director of the Allen B. DuMont Laboratories, Inc., and President of TV station KTLA, Los Angeles. Associated with Paramount since 1921, his duties include supervision of budgets and planning, and of all of the firm's TV interests. A native of Illinois and a graduate of the University of Illinois, Paul spent four years with Bell Telephone as a design engineer. In 1937-8 he conducted a survey of TV developments here and abroad that gave Paramount an early edge in the field.

**MAURICE J. RIFKIN**, vice-president in charge of sales for Ziv TV Programs, Inc., was born in Marinette, Wisc., on July 12, 1914. His family moved to Youngstown, O., when he was one year old. It was there he stayed through his graduation from Rayen High School in 1930. He received a B.A. in 1935 and an M.A. in 1936 from the University of Southern California. At that time, he returned to Youngstown where he worked as an account executive with WKBN. In 1938, he moved to Cincinnati, where he joined the Frederick W. Ziv Co. In 1949, Rifkin came to New York City to be sales manager for Ziv TV Programs, Inc. He was appointed to his present position in 1952. He and his wife, the former Theodora Levin, have one child, Joan, and they live in Great Neck, Long Island.

**MARK GOODSON**, partner with Bill Todman in Goodson-Todman Productions, was born in Sacramento, Calif., and began his career in show business as a child actor in stock companies. Goodson entered radio at KJBS, San Francisco, as a disc jockey in 1936. He moved on to the Don Lee Network Headquarters in 1937, where he began as an announcer, switched to special events, then production, in which capacity he developed a group of shows. He came to New York in June, 1942, where he began as emcee of "Battle of the Boroughs" and the "Jack Dempsey Sports Quiz." This led to his directing soap operas. He wrote and directed dramatic spots on the "Kate Smith Show" and co-produced the first of the "Stop the Music" series before he and Todman became associated.

**MILTON GORDON**, president of Television Programs of America, Inc., is the third member of the triumvirate of Edward Small and Michael Sillerman, who guide the fortune of the flourishing TPA. A financial wizard associated with multi-million dollar investments in television, Milt left active supervision of the Walter E. Heller Company, the Chicago banking firm where he had been vice-president, to enter the infant industry of TV. In 1946 he pulled the frozen food business out of the red, and later launched a new program for Capehart-Farnsworth. Milt also inaugurated the first split hemisphere financial deal between an American banking firm and English investors to produce the Academy Award winning motion picture, "The African Queen."

**JEROME S. HYAMS**, president of Hygo Television Films, Inc., and Unity Television Corp., spent 18 years with Commonwealth Films before founding his own firm in 1952. Starting in 1934 as an office boy, his first promotion came when they established their 16 mm motion picture department, when Jerry became a salesman. During World War II he served in the OSS film department, where he worked with John Ford. After the war he went back to Commonwealth as sales manager of 16 mm films. With the coming of television, Jerry helped establish and manage the sales activity. A resident of Great Neck, and a do-it-yourself gardener, Jerry held that position until he formed the Hygo firm.

**FRED J. MAHLSTEDT**, director of operations for CBS-TV Film Sales, is not only a pioneer in the television film industry, but has the unique distinction of having been a practicing architect for four years. Educated at the Pratt Institute's School of Architecture, he started in broadcasting with Erwin, Wasey, and the Kudner Agency. In 1939 he joined Columbia, where he has been ever since. He started as the chief of sales development for the research department, and moved to radio sales promotion, and then to spot sales. In June, 1950, he was given the job of organizing a film syndication unit, and has handled it ever since.

**SHAMUS CULHANE**, president and founder of the animation studios that bear his name, established the firm in 1945, after a long and meritorious association with RKO, Universal, Paramount, and MGM studios. Shamus worked on more than 250 animated pictures, and won six national prizes for his cartoons. For a period of five years he was with the Walt Disney Studios, working as a pantomime specialist on such pictures as "Snow White," "Pinocchio," and the "Pluto" series. He has produced animated telecommercial for Ajax Cleaner, Muriel Cigars, Halo Shampoo, and others. Since his start as a 15-year-old errand boy for the old Lantz Studios in New York, Shamus has come a long way, working at every job in the industry en route.

**SAUL JEFFEE**, president of Moviellab Film Laboratories, started in the industry over a quarter of a century ago. Always mechanically inclined, Saul has combined business and pleasure in his hobby of tinkering in his home machine shop, and has developed many modifications which have contributed to the advancement of film processing. Saul's firm is finishing up an expansion program that will have increased the firm, 80 per cent of whose clients are television accounts, threefold. Saul is completely wrapped up in his work, but does find time to pursue a second hobby, tropical fish.

**WILLIAM J. GANZ**, president of the William J. Ganz Co., Inc., has produced over 1,000 films on a tremendous range of subjects for practically all major industries. At 20, Bill was a free-lance cameraman, and served as Universal Newsreel's Philadelphia representative, back in the early days of the news short. In 1919 he came to New York and started his own film business, specializing in the production of sponsored films for industry. Ganz films evolved as quickly as the industry, shifting from silent to sound in the late 1920's, and ten years later from black and white to color. In 1943 he formed the Institute of Visual Training, Inc., for the specific purpose of offering "planned distribution" to clients.

**JACK WRATHER**, president of Wrather Television Productions, Inc., and part owner of station WNEW, New York, has business interests ranging from the oil industry to the resort field. In television, his firm is the producer of "The Boss Lady," and the owner of all rights to the "Lone Ranger," acquired from Trendle & Associates for a reported \$3,000,000. Jack started out in the then new field of TV with the purchase of KOTV Tulsa, and a year later, in association with Mrs. Helen Alvarez, KFMB and KFMB-TV, San Diego. At the present time he has applications before the FCC for a TV channel in Corpus Christi and a UHF channel in Boston. The Tulsa property was sold recently. Wrather's fortune was founded in the oil industry, and in addition to TV, has expanded to resorts in California and Nevada.

**PAUL TALBOT**, president of Fremantle Overseas Radio & Television, Inc., the largest distributors of radio and television material for the international market, got in on the ground floor of television with CBS in 1941. Following Army service during the war, he became American representative for the Italian Radio Network, and for Radio Andorra, which was the first European station to get back on a commercial basis after the war. Today, as one of the youngest executives in the field, Paul heads a firm with a program on the air somewhere in the world every minute in the year. The firm has recently acquired two wholly owned branch offices in London, and Mexico City. Paul was the American representative to the recent UNESCO conference on international television and movies.

**JAMES L. CADDIGAN**, director of the Electronicam Division of the Allen B. DuMont Laboratories, Inc., is a veteran in the entertainment field, and a pioneer in TV network programming. His background includes radio, the legitimate theatre, and 15 years with Paramount Pictures and Paramount News. In 1947, Jim began supervision of programming and production for the DuMont Television Network, and led the way for the first full daytime operation by a television station, WABD, in New York. He was also responsible for the first science fiction series, "Captain Video," and the first big amateur show, "The Original Amateur Hour." In June, 1955, Jim was named director of marketing for Electronicam, and in January of this year became overall director of the division.

**ARMAND L. SCHAEFER**, president in charge of production for Flying A Productions, Inc., was born in Tavistock, Ontario. Following service in the U. S. Army tank corps during World War I, he entered pictures in 1924 as property man with Mack Sennett comedies. Following a career there where he also functioned as electrician, actor, etc., Armand became property man for Mary Pickford Productions and later functioned as assistant director and production manager for various independents. Becoming a director in 1932, Armand directed 13 serials, including Gene Autry's first. When Gene Autry Productions was formed in 1947, Armand resigned from Republic to become president of the company and in 1950, became president of Flying A Productions.

**MARTIN N. LEEDS**, executive vice-president of production at Desilu Productions, Inc., has been with Desi and Lucy since 1953. Marty holds one of the most responsible jobs in TV while still in his thirties. A graduate of New York University with the degree of bachelor of science and bachelor of laws, he was admitted to the California bar upon his arrival there. Desi Arnaz, Desilu prexy, was so impressed with the former CBS-TV business affairs director, that he brought Leeds into the Desilu picture in the second highest position in the firm. Leeds is also a vice-president of Motion Picture Center Studios, and chairman of the code committee for the TV industry. A veteran of the U. S. Army, he is married to the former Doris T. Segal and is the father of two sons.

**GEORGE S. GLADDEN**, executive vice-president for Academy Pictures, Inc., the commercial film production organization, joined the firm in November of 1954 after a varied career in the motion picture and radio fields. In 1931 he joined General Motors and rose to become the head of the Public Relations Motion Picture Department. He designed and established the format of the firm's first major road show, "The Parade of Progress," which has been seen throughout the nation since 1936. In 1938 he joined Audio Productions as a writer-director and simultaneously acted as Eastern color director for Technicolor, Inc. Starting in 1940, George served for 14 years as the head of the motion picture and film TV department of the J. Walter Thompson Agency. A graduate of both Cornell and M.I.T., he is married and the father of three children.

**CHARLES E. RYND**, president and chairman of the board of Audio & Video Products Corporation, was instrumental in solving one of the major headaches of network radio. Back in 1946 Charlie's efforts in behalf of "Operation Rynd" resulted in the technique of delayed network broadcasting via Ampex Tape Recordings, which solved the problems resulting from daylight saving time, and was quickly adopted by all networks. A graduate of Massachusetts Institute of Technology, and Hamilton College, Charlie entered radio with NBC. From 1935 to 1942 he was with the network's sales and traffic, later moving over to ABC as sales service manager. He rose to become vice-president and assistant secretary of the company before leaving to form his own firm.

**JOHN W. LOVETON**, president of John Loveton Productions, West Coast TV film firm, started his broadcasting career handling the General Foods "Show Boat" radio program for Benton and Bowles. In 1937, he moved to Ruthrauff & Ryan, where he supervised 17 shows and directed some of their top radio productions. From there, he went to Foote, Cone and Belding, where he was placed in charge of all Lucky Strike radio. After a brief term as co-director of radio for Geyer, Cornell, and Newell, he joined Lennen and Mitchell, where he began his long association with the "Mr. and Mrs. North" property. He resigned from the agency in 1947 and has since produced and directed this show from his own office. When he moved into TV, he transferred his production set-up to the West Coast.

**CHARLES J. BASCH, JR.**, president of Television Screen Productions, and in partnership with his wife Frances Scott, Basch Radio-TV Productions, has been a producer of radio shows and commercials for 21 years, and has been in television for ten. Born in Newark, New Jersey, Charlie spent his early career in the manufacturing field, leaving it in 1929 for a Wall St. job. He spent two years in the financial world, before teaming up with his wife in show business. His wife, "Scottie," was radio's first woman roving reporter at the time they formed their own firm. Charlie conceived and directed many of the nationally known spots on the air, and have handled live shows and commercials for many clients. They formed Television Screen Productions in 1949.

**GUY V. THAYER**, vice-president and general manager of Rowland Reed Productions, Hollywood TV film firm, entered the motion picture field, while a senior at Hollywood High School, working at an after-school job in the Paramount film laboratory. He moved up through the ranks as senior film editor at Paramount, RKO and Universal-International, then became associate producer for PRC. He left the latter position for service in the U. S. Navy, serving in a photographic unit. At the United Nations conference in San Francisco, he was coordinator between the military and government crews of all countries, and he also set up the photographing of the war crimes trials in Nuremberg, Germany. Guy was discharged from the Navy in 1945 and he immediately joined Roland Reed Productions.

**TOM VALENTINO**, head of T. J. Valentino, Inc., has been supplying the radio, theatre, and television world with sound effects and mood music for the past 20 years. He broke into radio on what must have been one of the first P.I. deals on record. At the time Tom was a piano and organ tuner and tuned station pianos in return for two-minute pitches advertising his services. While working around the studios he noticed the first crude attempts at sound effects—which led him to form his present company. From a modest beginning, Tom has gone on to create sounds for practically all the shows on Broadway, not to mention little theatres all over the country.

**JOSEPH PLUNKETT**, vice president of North American Television Productions, Inc., has had a varied career as an executive in show business. In the legitimate theatre, he was associated with Liebler & Co., and George Tyler, producing many Broadway hit plays. He was managing director of the Century Theatre (formerly the New Theatre) and also produced plays under his own management, then was appointed managing director of the Strand Theatre in New York. He produced pictures for Paramount Pictures Corporation, then became director, vice president, and general manager of the RKO Corporation. Later, he served as vice president of Select Attractions, Inc., distributing special pictures. It was in 1954 that Plunkett entered the TV film field, assuming his present post with NATP.

**WILLIAM F. BROIDY**, president of Wm. F. Broidy Productions, Inc., is a native of Chelsea, Mass. He spent two years in the business school of Northeastern University but was forced to leave due to illness. Bill first entered the textile business then interior decorating before discovering a lifetime career in the distribution of motion picture films. In March, 1946, Bill went to California and spent three and a half years learning all phases of motion picture production. In 1950, he organized Wm. F. Broidy Productions for the purpose of producing films, especially for TV. Headlining his current schedule is "Wild Bill Hickok," co-starring Guy Madison and Andy Devine, a series which enjoys great popularity with the children's audience.

**EDGAR G. (TED) SISSON**, director of the NBC Film Division, is responsible for the sale, advertising, and kinescoping of the vast NBC film library. Ten years service as a mechanical and radio engineer, in a consulting capacity for radio set manufacturers, preceded his directing-producing positions. He joined NBC's radio production staff, and directed "The Jack Benny Show," and "Your Hit Parade," among others. A Princeton graduate, where he helped start an experimental station, Ed became head of the radio department at the New York office of Lord & Thomas. He then spent nine years with Pedlar & Ryan, ultimately as VP in charge of radio, and then four years with N. W. Ayer. In December, 1953 he joined NBC as an associate producer, and the following month became director of the Film Division.

**CHESTER ERSKINE**, President of Chester Erskine Productions, producer of the Reader's Digest series of TV films, has had a long and varied background in the producing, directing, and writing of plays and motion pictures. He abandoned the law career for which he studied at Union University, Schenectady, N. Y., in order to study for the theatre at the American Academy for Dramatic Arts. In 1929, he began directing Broadway plays. At one time, he was head of Charles Frohman, Inc., and also served as director for the Theatre Guild, and the Erlanger and Shubert interests. Starting in 1944 he wrote and directed a number of screenplays. First venture under Chester Erskine Productions was "Witness to Murder," starring Barbara Stanwyck, George Sanders, and Gary Merrill.

**NORMAN GLUCK**, vice-president and general sales manager of United World Films, Inc., started up the ladder of the film business as an usher in his hometown of Racine, Wisconsin. From this beginning Norm went ahead to become the manager of many theatres throughout the East for both RKO and Skouras. Between 1936 and 1947 he managed movie theatres in Schenectady and Albany as well as several cities in New Jersey and New York. Following the end of World War II, in which Norm served in the army, he became affiliated with Universal Pictures and for two years managed the Park Avenue theatre. Later he moved to United World Television, the Universal subsidiary, in 1949. Two years later he assumed his present post.

**BASIL GRILLO**, executive vice president of Bing Crosby Enterprises, is described by industry associates as an account with imagination. His financial and management background is both wide and varied. He has managed all of the Crosby financial interests and has organized all Crosby packages for the past ten years, including acting as executive producer of the "Fireside Theatre" series. He is also acting in the same capacity for the dramatic series which the firm is producing for the Studebaker-Packard Motor Car Company. Basil has an active hand in such allied organizations as Decros Corporation, the Crosby-Jayson Corporation, Bings Things, Inc., and Crosby Research Foundation. He is president of the Namso Enterprises Inc., merchandising firm serving the Crosby interests.

**WILLIAM VAN PRAGG**, head of Van Pragg Productions, produces and directs both film commercials and features for television. From a start in the industry as manager of a theatre, Van Pragg got into advertising via a promotional scheme for theatres. He worked on advertising films for theatrical distribution, and from there became a free-lance film editor, doing stints for some of the top film companies. His creative talent drew the notice of Uncle Sam, who contracted him to set up the first film unit for the OWI. After a three-year hitch in the Army, he went back to free lancing on a large scale. Prior to forming his own company, he did some pioneer film work for NBC-TV, was on the production staff for several features released through United Artists, and worked for Bray Studios.

**HENRY "DOC" BROWN**, president of Atlas Television Corp., has been in the motion picture business for over 25 years, and has experience as an exhibitor, owner of a chain of theatres, producer of motion pictures, and head of an international distributing organization. "Doc," a graduate of both CUNY and Columbia, founded Atlas in 1948, and collected more than 350 film comedies, editing them to quarter-hour lengths so that program managers could use them freely. Since then Atlas has gone into new production, and has several filmed program projects under way. "Doc" is a member of the board of the National Television Film Council, a director of the Allied Theatre Owners of New Jersey, and a Motion Picture Pioneer.

**ISIDORE LINDENBAUM**, president of Filmcraft Productions, is one of Hollywood's leading makers of filmed TV productions. He attended UCLA and Harvard Law School and has long been recognized as one of the top experts in the television film field. He entered the TV medium in 1949, when he formed a corporation to explore Doctor Ferenz Fodor's inventions, which since have been responsible for many advances in TV. While always feeling that TV was his medium, "Lindy" still maintains a large practice at law and at one time he was a pharmacist, and is still licensed. His Filmcraft company is on a par with the biggest in Hollywood and at present owns its own large studio and took over the first motion picture theatre in Hollywood for exclusive use for filmed TV productions.

**LOUIS HUOT**, vice-president in charge of client relations for Five Star Productions of Hollywood, has had wide experience both in newspaper work and film production. For five years he was vice president and European manager for Press Wireless, Inc. He represented the Chicago Tribune in Europe for two years, headquartering in Paris, and has worked for numerous other papers, including the Montreal Gazette. In film production, Louis has produced public relations movies for such clients as the Prudential Insurance Co., Pontiac Motors, and the Block Drug Co. of New Jersey. He has made movies on new weapons and techniques for the Army Signal Corps. In his position at Five Star Productions of Hollywood, he supervises the production of both TV commercials and institutionals.

**EDWARD HOCHHAUSER, JR.**, vice-president of Muzak Corporation, vice-president and general manager of its Associated Program Service Division, and vice-president and director of merchandising for Muzak Corporation Franchise Division, initially joined APS as a field representative in 1951. He started in local radio in 1941, and in '46 joined the newly formed Transcriptions Sales, Inc., where he was successively account executive, sales manager, Eastern Division manager, and vice-president. After joining APS he was rapidly made sales manager, general manager, and in January of 1953, he was elected vice-president of Muzak. The 37-year-old Mr. Hochhauser is an alumnus of the University of Virginia, and a resident of Merrick, Long Island.

**MARTIN P. HENRY**, president of Video Pictures and West Coast Sound Studios, was born in Lebanon, Indiana on June 4, 1904. He was educated at the University of Florida. He began his career as an assistant director in 1924 and worked for Famous Players, Lasky, Paramount and Fox. He opened West Coast Sound Studios in 1932, with George Goman and Al Manchee. Martin serviced West Coast Productions, shooting screen tests, second units, and backgrounds. He later branched into short subjects, documentaries, sales training and educational pictures. From 1942 to 1946 he was a Major in the U. S. Army Signal Corps, Chief of Army Ground Force Training Films. He returned to West Coast Sound Studios and Video Pictures as vice-president and production manager. Martin is now making pilot films for TV.

**JAY BONAFIELD**, general manager of RKO Pathe, a division of the RKO Radio Pictures, Inc., entered the motion picture field as a reel boy in the cutting department of Fox Movietone News. A native of Tunnelton, West Virginia, he was soon promoted to assistant editor, and then film editor, working on newsreels. In 1931 he joined Pathe as newsreel film editor, and in his years in that capacity personally edited such outstanding news stories as the Hindenburg disaster, the Lindbergh case, the Morro Castle fire, and presidential inaugurations. He was transferred to the short subjects department, where he became head of the editing department, and then to production manager.

**W. WALLACE ORR**, president, Tel Ra Productions, Philadelphia, is believed to be one of the largest producers of TV sports film. Tel Ra Productions, which he founded in 1948, produces "Telesports Digest," "Sports Spotlight," "Touchdown," "Greatest Pro Football Plays of the Week," and "Post Time, U.S.A." During the past eight years, his firm has produced more than 700 sports shows for TV use. Presently, along with its established sports programs and some TV commercials, Tel Ra Productions is placing emphasis upon color films. Thus far color is being used extensively in filming thoroughbred racing and major league baseball. Orr was an advertising executive for 27 years, being vice-president of N. W. Ayer & Son, Inc., 1944-48.

**KERN MOYSE**, president of Peerless Film Processing Corporation, has a wide variety of experience in his business background. He was born in Columbus, Georgia, graduated from Harvard, and then from St. Lawrence Law School. He went to work in the Texas oil fields, and spent a period in the banking business in New York, where he became the managing director of National Coal Company of Cuba, and followed this experience with 11 years as an insurance broker. In 1934 Kern became vice-president of Peerless, and in 1946, president. He is a director of the Association of Cinema Laboratories, and of the National TV Film Counsel, as well as a member of the Motion Picture and TV Engineers Society, and of the Radio and Television Executives Society.

**SAM HERSH**, president of Family Films, Inc., a prominent figure in the production and distribution of religious pictures, is no stranger to show business. For some time prior to 1948, Sam was a well-known film sales executive, handling his own pictures as well as features for several studios. Traveling extensively, it was meeting the actual buyer of films that catapulted Sam Hersh into the production of motion pictures. Noting that the film industry produced relatively few inspirational pictures, Sam decided to go into this type of production. In 1948, Sam formed Family Films, Inc. The company's prowess since has been illustrious. Family Films, Inc. has produced to date over 200 inspirational films for both the TV and church markets.

**FRANK BRODOCK**, general manager of Reela Films, Inc., Miami, moved to Florida in 1951 after 17 years as an account executive with the Jam Handy Organization, where he handled the Chevrolet and Lucky Strike accounts, with the thought of retiring. But Reela Films, then in its infancy, asked Brodock to take a position as sales manager. In two years, he increased Reela's billings three-fold and was greatly influential in getting the film company to the position where it now calls itself the "most complete film studio in the South." Upped to general manager in 1953, Brodock hired personnel for his executive staff in Hollywood, New York, and Chicago. Reela Films has produced TV and industrial films for a number of major cities in both North and South America.

**HERBERT SCHEFTEL**, chairman of the board of Telenews Productions, Inc., started his career as a member of the New York Stock Exchange, but soon became interested in the production of visual news. In 1938 the first theater television projectors were being demonstrated, and he foresaw the possibilities immediately. He became involved in a chain of newsreel theatres, but the war, in which Herb served as a major in the Air Force, intervened. After V-J day, he went to work in earnest producing spot news films for television. A graduate of St. Paul's School and Oxford University, Herb is a devotee of golf and bridge.

**TOM LEWIS**, president of Lewislor Enterprises, Inc., entered TV production after a brilliant career in advertising, radio and motion pictures. An advertising executive with Young & Rubicam, Inc. before the war, Lewis was vice president of radio production in charge of that organization's Hollywood office when he entered the Army in 1942. During World War II he created the Armed Forces Radio Service, of which he was commandant, and rose to the rank of full colonel. Following his return to civilian status, Tom was associated with a long list of radio's top-ranking favorites before entering the field of motion pictures to produce MGM's "Cause For Alarm." In 1953, he formed Lewislor Enterprises, Inc. and produced "The Loretta Young Show."

**WILBUR J. STREECH**, president of Wilbur Streech Productions, the TV commercial and animated film production firm, received early training as an animation artist for the Walt Disney studios. After Pearl Harbor, Wilbur served as a Captain in the Signal Corps photographic center in charge of the organization of production animation. Right after the war he became a partner in Triangle Films, when that firm was making a series of one reel musicals for Universal. In 1951, the UCLA graduate formed the present company on his own, some of whose clients include Cities Service, Brylcreem, Eno, and Kleenex.

**SAUL J. TURELL**, president of Sterling Television Co., Inc., has brought a merchandising approach to low budget shows and stand-by films that has made Sterling one of the largest distributors in the field. Saul is a native New Yorker. He attended CCNY and the University of Chicago. From 1942 to 1946 he was in the Army and spent most of his time, according to his own testimony, on KP. Serving in the South Pacific, New Guinea and the Philippines, Saul emerged from the service as Sgt. Turell. After the war he went to work for Official Films and after watching volume sales of home movie films, such as Castle and Official, he decided to launch Sterling Films in 1946, in partnership with Robert Rhoades. In 1949, when Bernice Coe joined the company, a TV department was inaugurated.

**WALTER SCHWIMMER**, president of Walter Schwimmer Productions, Inc., Chicago, is a Northwestern University graduate who has worked as a publicist, songwriter, radio station manager. He was a founder and partner of the Schwimmer and Scott Advertising Agency, from which he left on an indefinite "sabbatical" leave to set up and guide his radio and television program packaging company. Schwimmer bridged the gap from AM radio, with "Foto-Test," which went on the air over TV stations. His packaging firm has been well represented on some 250 AM markets with "Tello-Test," "Tune-Test," and the "Deems Taylor Concert." One of his principal innovations for TV was the inauguration of the "Miss U. S. Television" contest which made its debut in 1950.

**CHARLES E. SKINNER**, president and executive producer of Charles E. Skinner Productions, Inc., was surrounded by show business almost from birth. He attended school on Hollywood motion picture lots, and acted as an assistant director on feature pictures at the age of fifteen. A long-time member of the Screen Directors Guild, Charlie used his Hollywood know-how in positions with the Jam Handy Company, and first transferred his talent from Hollywood to television when he converted the original "Big Story" series from radio to television. His film credits, besides seventy-three "Big Story" films, include "Murder in 'A' Flat," and "Les Paul and Mary Ford." His latest production is "Sgt. Preston of the Yukon."

**CHARLES Z. WICK**, president of Telefilm Enterprises, formed that distributing organization after an exhaustive study which enabled him to present detailed plans to a prominent group of investors. Charlie has always made use of his talents for both music and commerce. While an undergraduate at the University of Michigan, he formed orchestras which made him \$26,000 in one year. He later studied law at Western Reserve University, was admitted to the bar in 1943, then organized a band to play in a Cleveland hotel at night, and set up a day time law practice. In 1943 Tommy Dorsey engaged him to handle legal and business affairs for his orchestra, and to write musical arrangements. Charlie is married to the former Mary Jane Woods and they have two sons, Charlie, Jr., and Douglas.

**FLETCHER SMITH**, president of Fletcher Smith Studios, Inc., producer of TV films, commercials and industrial films, started his business career at the age of 18, with a graphic art enterprise based on a capital of \$200. He entered the animation field through doing special effects for M-G-M studios, then began developing industrial accounts. In 1938, he set up his own sales organization and branched into live action films, first on location, then on sound stages. During World War II, he devoted himself exclusively to shooting educational films for the government. With the end of the war and the advent of TV, he went into production of filmed TV commercials. Fletcher relaxes from his duties through hobbies of woodworking and amateur painting, and learning to play the Hammond organ.

**HERBERT R. PILZER**, president of Circle Film Laboratories, Inc., is the son of a prominent Viennese film producer, and has an extremely broad technical and business background. Born in Vienna, he was educated at the Theresianische Academy in that city, and continued his studies at the Marigny Institute, and at the Sorbonne in Paris. During 1941-42 Herb produced a number of films for the war effort in association with the Harmon Foundation. The following year he joined Circle Films, and three years later, in 1946, was elevated to the position of general manager. Quickly realizing the future of film on television, he oriented the firm toward that objective. In 1953 Herb was elected president of the firm.

**HENRY MORLEY**, president of Dynamic Films, Inc., a graduate of Yale University with a degree in economics, also did post-graduate work at NYU and CCNY in engineering. His business career in the movie industry began with J. A. Maurer, Inc., designers and manufacturers of sound equipment. He started in sales but quickly moved himself into production and he was made general manager of the firm. Post-war, Henry, along with Nathan Zucker, a Yale classmate, formed Dynamic Films, Inc. From the beginning they concentrated on films for TV when not turning out industrial and sponsored films. They handled every phase from script writing through photography, sound recording and editing. Today, as president, Henry brings to the job the technical and engineering background which has spelled success for Dynamic.

**MILTON J. SALZBURG**, president of Cornell Films, Inc., and of Pictorial Films, Inc., has been actively engaged in some form of show business since he was 17 years old. He launched his career at the Roxy Theatre in New York and from that springboard went on to the production end of films as an assistant film editor, then on to the production of his own films, making many outstanding documentaries. Three of them which established him firmly in this field were "Pattern for Survival," "Target, U. S. A.," and "FDR-Hyde Park." In 1953, he formed Award Television Corporation, of which he is president, to produce package film programs for use on television stations around the country. One of his TV film innovations is a series on golf, featuring the champion golfer, Jimmy Demaret.

**BURT BALABAN**, president of Princess Pictures, Inc., received his first experience with Paramount Television in 1946, after a tour of duty with the Marine Corps as a combat photographer. A native of Chicago, Burt attended Roanoke College, Virginia, and summers worked for the National Screen and Photographic Studio. He spent fourteen months in the Pacific, making D-day landings in the Marshalls, Saipan, and Guam, along with extensive aerial photography on bombing missions. His first work with Paramount TV was obtaining film programs for KTLA and WBKB, Chicago. Later, he managed the firm's film department, and was in charge of film programming, and the company's syndicated program distribution.

**JERRY FAIRBANKS**, head of Jerry Fairbanks Productions, started his career as a cameraman in the movie industry, then began producing films and short subjects. Winner of two Motion Picture Academy Awards, he was the first to take the plunge into the filmed TV field. Under contract to NBC, he made the first series seen on video: "Public Prosecutor," "Crusader Rabbit," "Jackson and Jill," "Bigelow Theatre," "Silver Theatre," and others. Fairbanks also developed the MultiCam System which permits filming and sound recording by two or more cameras. Fairbanks is now one of the leading commercial film makers in the business and at present is doing television commercials, industrial telefilms and feature length films for both television and motion picture projection.

**MOE KERMAN**, president of Regal TV Pictures, Inc., has had a long and varied background in the motion picture business. His father was one of the first motion picture exhibitors in the borough of Brooklyn, and the son followed in his footsteps as an exhibitor when he was 14 years old. Not long after that, he set up his own independent film outfit called "The Kerman Film Exchange." He once produced movies under the Mutual Production Corp. banner, and these movies are now being shown on TV. He started in TV movie distribution in 1948, when he bought the entire Hal Roach Studio Library for TV.

**CHARLES DAND**, Director of the Films and Publications Division of British Information Services in New York City, was born in Dundee, Scotland, on April 24, 1902. After he received his education at Glasgow University, he was in newspaper work from 1922-29, during which time he contributed to many British and American journals. From 1929-35, he worked as a scenario editor for London's Associated Sound-Film Industries, and as a writer and director of documentary and instructional films. He returned to journalism for two years, after which—in 1937—he entered British government services as Public Relations Office, Edinburgh. During the war, he was with the Scottish Education Dept., Edinburgh. He returned to London in 1949 with the Central Office of Information and came to New York in 1952.

**VINCENT J. NOLA**, head of Nola Studios, Inc., was born in Italy and came to the U. S. at the age of ten. With money saved from a paper route he studied voice in Buffalo and later transferred to New York where he resumed his studies and later established himself as a vocal coach. Realizing the pressing need for rehearsal studios he established 16 of them in Steinway Hall, and equipped most of them with recording facilities. Needing more space, he brought his total number up to 32 with rooms in the WMCA building, six of which are equipped for making tape and disc transcriptions as well as for making TV films.

**CHARLES B. BROWN**, vice-president in charge of sales and program procurement for Bing Crosby Enterprises, has a background which ranges through all phases of selling, merchandising, promotion, and management. Much of his experience and "know-how" was gained as program manager of KFJ, director of advertising, promotion, and research at NBC, and director of advertising at RCA Victor. While at RCA, Brown originated National Radio Week. His first film venture was an assignment from John Royal at NBC to film Admiral Halsey's return from the Pacific which was later televised over NBC-TV. Brown is also a vice-president of NAMSCO (North American Merchandising and Sales Corporation) Enterprises, Inc., which is the merchandising and sales promotion arm of Bing Crosby Enterprises, Inc.

**GEORGE BAGNALL**, president of George Bagnall and Associates, Inc., became identified with the motion picture industry after a long experience in the financial field. He joined the Fox Film Company in 1928 as comptroller of its West Coast Studios and later was placed in charge of all finances. He joined Paramount Studios in 1935 as studio treasurer and later was named executive studio manager. In 1937, he was named vice-president of the company. He resigned in 1941 to join the Alexander Korda producing organization, serving as vice-president and general manager until 1942, when he was designated vice-president of United Artists. In 1952, he formed his present company, establishing offices in various leading cities, including New York and Chicago, and acquiring new product for distribution.

**CHARLES MICHELSON**, president of Charles Michelson, Inc., is one of the principal contacts between Australian and American television. He is the buying agent for much of the TV programming planned for "down under," and has purchased many radio scripts for Australian use. U. S. shows using his library include the "Hallmark Hall of Fame," "GE Theatre" and "Studio One." Mickey, a Columbia graduate, worked in the stock exchange and the family export firm before turning to the entertainment field. He began selling radio transcriptions in the early thirties, and through the years his operations expanded to a world-wide scale. Lately, the firm has included domestic TV distribution in its operations.

**JACK J. GROSS**, a native New Yorker, had his first taste of the entertainment field as a movie-house usher. This led to a job as cinema theatre projectionist in St. Joseph, Mo., and from there he joined Maupin's Chatauqua Concert Orchestra—a road show which toured the country performing under the auspices of churches, clubs, etc. Following many years of managing theatres, Jack finally settled as manager of the West Coast RKO Hill-Street theatre in Los Angeles, later becoming Western Division manager of RKO theatres. In 1939, he became a producer at Universal in Hollywood until 1943, then he became executive producer at RKO. After a series of outstanding movie successes, Jack joined with Philip Krasne to form Gross-Krasne, Inc.

**HAROLD R. LIPMAN**, television film manager at Audio Productions, Inc., New York, is a graduate in Mechanical Engineering at Rutgers University. He has been engaged in motion picture production for nearly 20 years, with experience in animation, special effects, optical printing, live action direction and production, processing and design of special equipment. He joined Audio Productions, Inc., in 1936. During the war years he was with the Army's First Motion Picture Unit at Culver City, Calif., and later was assigned to the film production unit covering the Burma campaign at South East Asia Command headquarters in Ceylon, where he spent nearly two years. In 1946 he returned to Audio Productions, where he has specialized in the production of films for TV.

**EMANUEL H. DEMBY**, president of Demby Productions, Inc., is a spare-time writer, and author of "My Forty-Year Fight For Korea," published by A. A. Winn & Co., in 1952. His first break into radio came at 15 when he did a news program on WMCA. Before the war Manny was an independent producer and writer, and was also a director for the Winer Co., and Arthur Rosenberg agencies. He wrote and produced "One Year Ago Today," and "It Takes a Woman." After discharge at the end of the war, during which he did a wire recorded show from Paris, "The Rainbow Corner," he organized the present firm. Plan—to shift to feature films for theatre showings, present productions include "Hollywood to Broadway," "What's Playing," and "How To Be a Cowboy," all produced in New York.

**HELEN "BIJOU" KELLEHER**, president of the Empire Broadcasting Corporation, one of the oldest recording studios, was catapulted into the recording business following the death of her husband, Gerald. "Bijou" had received early preparation for her duties due to her early association with the financial and commercial world through her banker father and shipbuilder brothers in Kingston, New York. Further business acumen was gained at Marymount College, and by the receipt of a Masters degree from Fordham University. Since she took over the helm of Empire in 1943, the firm has grown from four recording machines to 30. Empire does chiefly the mechanical work for ad agencies and stations, on transcription, spots, and jingles.

**WILLIAM SELDEN TODMAN**, partner with Mark Goodson in Goodson-Todman Productions, was born in New York City on July 31, 1916. He received degrees from Johns Hopkins University and from N. Y. U. Following his first job as a copy writer for a New York advertising agency, he became a freelance radio director and a writer for Red Book Magazine. This was followed by writing and directing for a number of BBD&O radio shows. Later, he joined the Biow Company as N. Y. Producer for "The Philip Morris Playhouse," "Crime Doctor," and "Take It Or Leave It." Joining with Mark Goodson, Todman and his partner have inaugurated the following TV successes: "What's My Line?" "I've Got a Secret," "Two for the Money," "It's News to Me," "The Name's the Same," "The Web," and "Beat the Clock."

**JIM JEWELL**, president of Jewell Radio and Television Productions, Chicago, began his radio career in New York in 1926 with Channon Collinge. Two years later he moved to Detroit, becoming drama director of WXYZ and the Michigan Radio Network. In 1939, Jim moved to WWJ as program and production director where he held the title of "original producer-director" of such Detroit originations as "The Lone Ranger," "The Green Hornet" and "Challenge of the Yukon." In Hollywood he was director and writer to Warner Brothers. In 1941, Jim went to Chicago as vice president of Stack-Globe Advertising Agency, and later joined MacFarland-Aveyard & Company as vice president in charge of radio. In 1945, convinced that Chicago was ideal for TV and radio shows as an origination point, Jim founded his own business.

**PETER M. ROBECK**, sales manager of the film division of General Teleradio, possesses a well rounded background in merchandising and sales. Born in Wisconsin but raised in California, Pete had his first position with CBS interrupted by five years in the Air Force. After V-J day he became merchandising manager of KTTV and of the Columbia Pacific Network. The young graduate of the University of California advanced to become sales manager of the station, followed by a position as sales manager of Consolidated Television Sales. After a series of merger agreements with Jerry Fairbanks, Inc., the firm altered its name to Consolidated Television Sales. Pete later joined General Teleradio.

**JACK ASHER** of Lab-TV has been a photographic salesman in 46 of the 48 states, missing only Washington and Oregon. In the industry for over a quarter of a century, Jack has been associated with the Gevaert Co., and for eight years with the photographic advertising page of the old New York Sun. He has also been a photographic buyer and consultant for U. S. Navy Ships Stores, and advertising manager of Photo Trade News. Jack has been an active Mason for many years, and is a member of the Society of Motion Picture and Television Engineers.

**ED THORGERSEN**, veteran news and sports commentator, opened his own offices in 1953 to produce and participate as a TV personality in live and filmed programs, for both sports and industrial exploitation and sales promotion. Ed's microphone career began back in 1927 as an announcer with NBC, broadcasting news, sports, and special events. Six years later Ed joined the expanding editorial staff of Movietone News where his face and by-line acquired national prominence via the newsreel screen. With broad experience in the field of film shorts, Ed projected his talent into many award-winning pictures in the short subject field, and ultimately became identified with the production of "Ed Thorgeresen's Sports Review."

**DAVID A. BADER**, vice president and general manager of Atlantic Television Corporation, has a rich background gained in careers both here and abroad. He joined Universal Pictures in 1920, and was with them until 1935 as manager of press campaigns, and as personal representative for Carl Laemmle. In 1936 he formed a literary firm in London, David A. Bader, Ltd., and in 1938 became president of Literary Corporation Ltd. He worked with George Pal Productions from 1940 to 1942. After handling the trade relations department for Twentieth Century-Fox, he entered the 16 mm. field, editing and publishing trade periodicals. In 1952 Dave joined Commonwealth TV as executive assistant to Mort Sackett, and in 1954 joined Atlantic as executive vice president in charge of sales. He is also VP of the parent company, Astor Pictures Corporation.

**DAVID PIEL**, independent producer of commercial productions, TV spots, sales training films, slide films; creator-producer-director of the new "Story Films" now running on "Captain Kangaroo" over CBS-TV. During Piel's days at Yale, he conducted a radio program called "Gullible's Travels." His children's "spectacular," "Golden Time," (in color) was produced for NBC-TV with Simon & Schuster for Christmas-time viewing. He got his first start in theatrical and commercial films with Louis de Rochemont's "Your World and Mine" series—36 geography films aimed at children. Has to his credit many documentaries, two of which won awards at the Venice Film Festival; one of his training films was awarded first prize by N.A.V.P.

**DON L. KEARNEY**, vice-president in charge of sales for the American Broadcasting Company film syndication division, was assistant manager of ABC-TV before taking his present post. A native New Yorker and a graduate of Fordham University, Don was a sports reporter and commentator on several local stations before World War II. After Pearl Harbor he served in the European Theatre as an infantry and public relations officer, and returned to civilian life with the Katz Agency, and later with the Mutual Network as sales manager for cooperative programs. In 1951, Don moved over to ABC as manager of TV spot sales, and soon moved up to become national sales manager of ABC owned TV stations.

**MAX ALEXANDER**, vice-president and secretary of M. and A. Alexander Productions, was born in Cassell, Germany, and first entered the motion picture industry in Berlin in a production capacity. Among other producing organizations he was associated with were UFA Studios and Universal. After gaining a reputation in several European capitals, he came to Hollywood and joined Abe and Julian Stern, the pioneer producers. In 1931-32 he was associated with Phil Goldstone in several producing ventures. Max then formed his own firm and made more than 100 pictures, many in association with his brother, Arthur Alexander, for release through PRC, Grand National, and other independents. In 1949 he and Arthur formed M. and A. Alexander Productions.

**G. RALPH BRANTON**, president of Interstate Television Corp., TV film producers and distributors, has an extensive background in theatre management which led to his entry in the TV field. He served as supervisor for F & R Theatres in Minneapolis, as director of operations for the Publix New England circuit, and later general manager with partnership status in the Tri-States chain in Iowa and Nebraska. He later moved to the West Coast as vice-president of Allied Artists, a post he held during the wide expansion of that company's activities. He formed Interstate TV in 1952. Branton believes "Mass audience, like mass merchandising is a product of this mid-century. Neither the theatre nor television has yet remotely realized the full audience potential within its grasp."

**AL STAHL**, president of Animated Productions, had his first cartoon strip nationally syndicated when he was only 17 years old. He became, in succession, an animator for Max Fleischer and story-gag editor for Terrytoons, then continued in technical animation work for the Army Signal Corps during World War II. He opened his own studios after V-J Day, and produced his first animated cartoon show in 1946. A pioneer in the television field, his firm has created and produced TV animated and live advertising for leading agencies and has made great strides in photography of stylized animation. Al developed slide-motion and multi-plane animation for NBC-TV. He is a member of the board of National Television Film Council.

**PHILIP N. KRASNE**, partner with Jack Gross in Gross-Krasne, Inc. is a native of Norfolk, Nebraska. A graduate of the University of Michigan, Phil obtained his law degree from the University of Southern California in 1929 and engaged in the practice of law, specializing in motion picture matters. In 1936, he became engaged in independent motion picture production and began to produce the famous "Charlie Chan" series. This he followed up quickly with production of "The Falcon" series and then, with Fred Ziv, acquired the rights and began filming the famous stories, "The Cisco Kid." In 1950, Phil switched his production activities to TV. As president of Cisco Kid Pictures, Inc., he produced 39 Cisco Kid TV films, all made in color. Thereafter, Phil sold his interest to Ziv, and in 1952 joined with Jack Gross.

**JAMES A. LOVE**, president of Lally and Love, film producers, has been in one form of show business or another all his life. His family travelled as a vaudeville team in his early years. When his father became a motion picture theatre manager, Jim's first theatre job was bicycling features to his father's theatres. He then became assistant projectionist and worked part time throughout his school years. Jim joined Warner Brothers in their booking department upon leaving school. While doing military service in The Coast Guard, he entered the production field as a film editor. Later, he was the founder of Cineffects Productions for Nat Sobol. When that organization was disbanded, he formed the company which he now heads. Jim is married, and has one child, James Allen, Jr., who is three.

**WESLEY GIBBS** of Lab-TV started in the Kodak Research Laboratory in 1918 and has been engaged in many lines of technical photography, as well as being a noted writer on photographic subjects for over 35 years. His experience includes time as a cameraman in the old days at Fort Lee, chief physicist of the Fleischman Yeast Laboratory, chief photographer of Liberty Magazine, and for over 12 years in charge of the technical work at the Gevaert Co. During World War II, Wesley was on the War Production Board in charge of photo equipment production and allocation, later handling surplus photo property through the Treasury Department. Wesley is a well-known film exhibitor in salons throughout the country, and an Associate of the Royal Photographic Society of London.

**ROBERT M. SAVINI**, president of Atlantic Television Corp., started in the film industry in 1900 when he invested in a penny arcade in New Orleans, when he was only 16. He has been connected with the film industry ever since. In 1904 he formed Dixie Films, a distribution company, and later owned a chain of theatres. In 1926 he came to New York and founded Astor Pictures, the first company to distribute major re-issues. When television was just starting, he was among the first to rent pictures to the new medium, supplying RCA and DuMont's early experiments. He formed Atlantic Television in 1950.

**ARTHUR ALEXANDER**, president of M. and A. Alexander Productions, and a member of the board of directors, began his career in the department store field in Germany, where he was born and educated. When he switched to motion pictures he joined the Universal Studios in Frankfurt, Germany, and in 1929 came to Hollywood as an assistant director, and a year later joined his brother Max in organizing a new firm. The company produced over 100 features in the independent market, and later for PRC and Grand National. In 1949 they entered the television distribution field, and now handle more than 200 properties. The brothers Alexander also handle the production of television commercials and spots.

**LLOYD L. LIND**, vice president and general sales manager of Interstate TV Corporation has been with Allied Artists Pictures, Corp., Interstate's parent organization for over 21 years. He served as assistant to the president, Steve Broidy, for several years and was supervisor of all Allied Artists exchange operations. In 1939, Lind made his first feature sale for TV, and NBC purchased a full length feature for telecasting in New York. With this in his background, it was a natural for him to take over the reign of interstate's sales department. Among the products currently distributed by Interstate are the "Ethel Barrymore Theatre," "The Amazing Tales of Hans Christian Andersen" and a group of features and westerns. Their "Little Rascals" series is now playing in top national markets.

**MANNY REINER**, general sales manager for IFE Releasing Corporation, joined the firm in October of 1955. Manny has had extensive experience in motion pictures, radio, television and domestic and foreign film sales. Prior to his present position he was vice president of Guild Films, Inc., and had also been vice president in charge of sales at PSI-TV, Inc. He joined Warner Bros. back in 1933, and then was associated with MGM, Monogram Pictures and Paramount. From 1942 to 1946 Manny was film officer in Europe for the OWI and from 1946-50 he was general manager in Latin America and Australia for David O. Selznick. A stint as foreign manager for Sam Goldwyn added further experience to Manny's already full career.

**WILLIAM MIESEGAES**, president of Transfilm Inc., was born in London of Dutch parentage. He entered film production by way of Indonesia where, as an exporter of rubber and sugar, he took advantage of the local scene and turned to amateur photography. Many years later, still an amateur, he produced a travelogue, "On the Road to Acapulco," which was booked into the Guild Theatre in New York. In 1941, he turned professional and, with Walter Lowendahl, founded Transfilm. First productions were civil defense films. By 1946, the firm was operating at capacity and facing further expansion. As of today, more than 100 full-time technicians staff the company which, in the Transfilm Building, operates complete motion picture, animation and slidefilm production facilities.

**ARTHUR A. "ARCHIE" MAYERS**, general manager of Standard TV, was at one time general manager of Colorfilm and while in that post helped establish the present Cinecolor. Archie's next move was sales manager of Atlas Cinephone and then sales manager of World Pictures Corp., a position he held for 12 years. In 1942 Archie became assistant to Jules Levy, president of Mayfair Productions. In 1950 he organized and headed, as president, Unity Television Corporation, and also served as general manager. Five years later he disposed of all his interests in Unity, and in the latter part of '55 became general manager of Standard. Archie has served as president of the National Television Film Council and is currently vice president in charge of distribution for the council.

**EDWARD SMALL**, co-founder and chairman of the board of Television Programs of America, ran away from his Savannah, Georgia, home at 15 to go into vaudeville, first as a performer, and later as a producer and manager. In 1942 he went to Hollywood for a brief stay, but instead soon established himself as the leading manager in Hollywood, representing as many as 300 leading names. Ed has been closely identified with launching and developing the careers of some of the all time film greats, including John Gilbert, Corinne Griffith, Norma Shearer and Robert Donat, who was an unknown when Small chose him for the lead in "The Count of Monte Cristo." Still under contract to United Artists as an independent feature producer, Small has made over 150 feature films, 27 of which make up the Edward Small Feature package.

**ROBERT SANDE**, president of Song Ad Film-Radio Productions, Hollywood, founded the firm in 1950. A native Californian and a graduate of the University of California's Santa Barbara campus with majors in both speech and music, Sande pioneered the merchandising with music technique for TV and radio commercials. His earlier background as both a top professional musician and an advertising agency executive are probably unique in the film-radio production world. Sande's talents, together with those of Don Estey, Del Porter and Larry Greene, his partners, have built Song Ad Film-Radio Productions into one of the largest producers in the business, serving many of the nation's top agencies and advertisers. Their specialty: fully integrated film-radio merchandising campaigns that give sponsors extra mileage per dollar.

**FRANK FERRIN**, owner of the production company bearing his name, produces, writes and directs "Andy's Gang," the TV film series starring Andy Devine and Nino Marcel. Ferrin created the property for radio in 1940 as "Smilin' Ed's Gang" with the late Ed McConnell. It began on TV in 1950. After McConnell's death in 1954, Ferrin discontinued the radio show and changed the TV film version to "Andy's Gang." Ferrin entered radio via WTCN in his native Minneapolis, some thirty years ago, with the comedy act "Nels and Ole." Later he organized Midwest Recordings, Inc., radio transcription firm, and then joined Henri, Hurst and McDonald in Chicago as VP in charge of radio. In 1942 Ferrin moved to the Leo Burnett Agency in the same capacity. In 1946 he formed the Frank Ferrin Co.

**SIDNEY PAUL SOLOW**, vice president and general manager of Consolidated Film Industries, has been affiliated with CFI since he graduated from New York University in 1930. Advancing from chief chemist to plant superintendent to his present position as head of the Hollywood lab, Sid Solow has been instrumental in the growth of CFI to its current status as one of the top TV film laboratories in the nation. In addition to directing a company that processes some 70% of all west coast produced film for TV, Sid is active in the Academy of Television Arts and Sciences, Academy of Motion Picture Arts and Sciences, the Society of Motion Picture and Television Engineers, and virtually every charity involving the motion picture industry. He has been a lecturer in Cinema Arts at the University of Southern California since 1947.

**MAURICE BECK**, together with Ed E. McLemore produced a film series entitled "Texas Rasslin'" which has proven to be one of the highest rated sports shows on TV. This film started when they realized that wrestling in other states lacked color, speed and roughness so desired by the spectators. A native Texan, Maurice aspired to be an attorney, but after two years of legal study, changed to banking by accepting a job at the Federal Reserve Bank in Dallas, where he graduated from the American Institute of Banking. Leaving banking he acquired an interest in one of the largest power laundry and dry cleaning plants in Texas and operated this business for seven years, before entering the entertainment field.

**MAURICE UNGER**, vice president in charge of West Coast operations for Ziv Television Programs, Inc., was born and raised in Cincinnati. After completing his education, he joined Grandpa Brands Inc., a liquor firm in 1934, and remained there until 1947, working with its affiliated firms as general manager. He also served as president of its Tom Collins Corp. From 1947 to 1950, he was president of the Charles A. Maish Company. Then, in 1950, he joined the Frederic W. Ziv Co. When the firm went into TV production five years later he moved to the West Coast, where he now heads up the firm's TV film operations. Expansion of these operations has included the acquisition of the American National Studios, to accommodate the widened scope of Ziv production schedules.

**MARCEL LEDUC**, president of Inter-TV Films Ltd., Montreal, and International TV Film Services, Ltd., New York, producers and distributors of television film, had a wide variety of experience in his business background before he became identified with the television film industry. For many years he was active in the export, import and financial fields. In 1953 he formed TV Cooperative Film Sales Co., Inc., distributors of television film. This company was dissolved when International TV Film Services was organized in 1954. In 1955 Inter-TV Films Ltd. was formed in Montreal, P. Q., Canada, with offices in many leading cities, including New York, Los Angeles, Montreal, Toronto, London, Paris, and Rome.

**G. CARLETON HUNT**, president of General Film Laboratories Corporation, has been connected with the entertainment industry since 1923. He started out with the Hunt theatre chain, moved in 1929 to the Warner Theatres, spent several years as production and stage manager with various stage groups, and was associated for 10 years with RKO Studios as assistant head of the editorial department. Mr. Hunt was elected Governor of the Academy of Motion Picture Arts and Sciences, and has recently been made a Fellow of the Society of Motion Picture and TV Engineers. He entered the TV field in 1951 through the acquisition of Paramount Picture's film laboratory. In allied fields, he is an officer of the Fonda Corporation, builders of motion picture processing equipment, and is vice-president of Unicorn Engineering Corporation.

**DANIEL HERBERT KAHN**, treasurer and sales manager of Olympia Film Productions, Inc., has a broad and unique background in film and television. A graduate engineer, he has served a rough apprenticeship in practically every phase of the advertising and film business. The second World War interrupted his engineering studies at Bucknell University, and after serving in the Navy, he entered the United States Naval Academy at Annapolis. He was graduated an Ensign in 1949, in time to serve through the Korean War. On leaving the service, he joined the New York Port Authority where he specialized in preparing manuals on handling electronic equipment. In 1953, he became Media Director and account executive at the Lester Harrison Advertising Agency. He joined the staff of Olympia Films early in 1955. His Hobbies? Three: Sailing in the summertime; skiing in the winter; music at all times.

**MELVIN GOLD**, president of Mel Gold Productions, Inc., started his film career with MGM in Chicago in 1931 as assistant office manager, soon moving to the Reinheimer circuit to manage theatres in Hammond, Indiana. His later experience includes the operation of his own advertising agency, advertising manager of Filmack Trailer, and manager of the Vogue Theatre, Hollywood. In 1943 he joined National Screen Service and served as director of advertising, and later as east coast film production and TV manager. In June, 1954, he formed the Mel Gold Productions. In 1948 Mel founded the National Television Film Council, and has served as both president and chairman of the board. In February, 1955, he was elected an honorary lifetime president. Mel is a member of the Academy of Television Arts and Sciences, of the Variety Club, and of Cinema Lodge.

**JOSEPH S. SALZBURG** heads the motion picture and TV film service company bearing his name. The firm supervises the production and editing of theatrical, non-theatrical, commercial, and TV films for producers. Joe has been associated in executive and managerial positions with Pictorial Films, Pathe, Associated Artists Productions and Motion Pictures for Television, Inc., before organizing his own firm. During World War II, Joe was a G. I. production supervisor with the first motion picture unit of the Army Air Forces. He has been called in for special film projects of the Department of Defense from time to time. Known and liked by all in the film business since his knee pants days, Joe is a native New Yorker and a member of the Motion Picture Pioneers.

**JOHN H. MITCHELL**, vice-president and sales manager of Screen Gems, Inc., started his career by way of the mail room of Erwin, Wasey, & Co., and was quickly promoted to the radio department. A native of Rochester, New York, Jack then spent six years with the Mutual Network, organizing and managing the first sales service department. Following his war service, he joined the Honel Corp., and was instrumental in obtaining exclusive area distribution for a number of American products. In 1948, as United Artists television vice-president and general manager, John helped organized UA's TV department. In 1952, he joined Screen Gems, Inc., the TV production and sales subsidiary of Columbia Pictures.

**DON FEDDERSON** is the creator and producer of the phenomenally popular CBS teleseries, "The Millionaire," and "Do You Trust Your Wife?," as well as the long-running program "Life With Elizabeth." Fedderson is also readying three new video series for coast to coast presentation this coming season. Don came to television after an eminently successful career in radio, and was immediately outstanding as a showman in the new medium. He was the original producer of the Liberace shows on TV, and today he heads one of the biggest production organizations in Hollywood. He was born in Beresford, S. D., and grew up in Kansas City, where he began his business career as a newspaper advertising salesman. From ad selling in San Francisco, he drifted into radio, graduating from jobs as station manager into the production end of the industry in Hollywood.

**EDWARD NASSOUR**, vice president and treasurer of the Nassour Pictures, Inc., producers of feature films, television films, and television commercials, in association with his brother, William, built the Consolidated Studios in 1945. Five years later the property was sold to the Los Angeles Times, and at the present time station KTTV is on the site. Ed is the producer of the television film series, "Sheena, Queen of the Jungle." He has invented and developed many technical processes for the motion picture industry, including Regiscope. As a producer and director, he just completed "Beast of Hollow Mountain" starring Patricia Medina and Guy Madison, in Technicolor Cinemascope for United Artists.

**HARRY FLEISCHMAN**, president of Louis G. Cowan, Inc., producers of 1955's greatest hit, and one of television's all-time greats, "The \$64,000 Question," is a native New Yorker, but grew up "down east," to wit, in Portsmouth, New Hampshire. The popular Cowan prexy, an ardent golfer, received his degree from Boston University, following which he was associated with Gilbert Miller for over a decade and a half, mostly as general manager. Harry devoted the greater part of a two year sabbatical to bringing his game score into the low seventies, and is still trying to improve his game. In April, 1951, he joined the Louis G. Cowan, Inc., organization, and four years later, in August of 1955, became president of the production firm.

**KENNETH HYMAN**, executive vice-president of Associated Artists Productions, Inc., entered the television field in 1947, when the industry was just getting started. As a member of the sales staff of Associated Artists Productions, Ltd., one of television's pioneer feature film distributors, he was an early advocate of the programming strength of Hollywood's feature product in the television picture. He left AAP to serve in the United States Marine Corps. After two and a half years in service, he joined a production unit of Monogram Pictures, working as an assistant director. With actual production experience behind him, he returned to AAP in 1953 on a sales mission to take up once again the use of feature film on TV.

# TV Film Production Abroad

**L**AYMEN looking at film production abroad by American companies, for distribution here in the United States, are of the general opinion that it is cheaper to produce overseas than in the U. S. Most of them base their opinions on the cheaper labor that is accessible outside of this country, but the consensus of opinion of film producers, who are producing films abroad for distribution here, is that in the long run, costs are equal. This is primarily due to the facts of importing actors to foreign countries, and the longer period of time it takes to make pictures there.

The European continent, mainly France and Italy, as well of course, as England, have been the locations that have primarily been used up to the present time. The Asiatic countries have been virtually left untouched, and according to Julien Bryan, head of the International Film Foundation, Japan would be a likely place to produce films, due to the comparatively low cost of labor and rental of equipment, as well as the industriousness of the Japanese, and the fine color reproductions made there. As far as actors are concerned, the producers can employ Americans, as well as other English speaking peoples, and their families living there.

The real boom in foreign film production by Americans, for distribution here, is over. The boom was a boom only when it was new. It has settled down now due to the equalization of costs, but the industry can look forward to seeing more films produced abroad by Sheldon Reynolds, as well as such companies as Official Films, Guild Films and ABC Films.

## LIST OF FILM SERIES, COMPANIES WHICH PRODUCED THEM AND WHERE SHOT

### ABC Films - current

1. "Douglas Fairbanks, Jr. Presents" - England, Italy, Germany
2. "Sheena, Queen of the Jungle" - Mexico
3. "Three Musketeers" - Italy

### Outlook - Company will start:

1. "The Americans" - half-hour series - Spain

### Guild Films

1. To co-produce 39 half-hour films in England.

Outlook: Company is expanding internationally. It is in the process of determining what countries to expand in.

### Official Films

1. "The Adventures of the Scarlet Pimpernell" - England
2. "Robin Hood" - England
3. "The Buckaneer" - England
4. "A Knight of the Round Table" - England (tentative title)
5. "Mr. Pastry" (shooting pilot) - England

Outlook: Official Films will do three series yearly abroad.

### NBC Film Division

1. "Crunch and Des" - Bermuda

Outlook: NBC Film Division has no plans for continued production abroad.

### National Telefilm Associates, Inc. distributing:

1. "Lilli Palmer Show" - London, England
2. "Television Playhouse" - England (one hour dramas - current)

Both NTA shows produced by Harry Alan Towers.

### Television Programs of America

Approximately 10 or 15 "Count of Monte Cristo" episodes shot in England.

Outlook: If renewed, "Captain Gallant" will be shot in Africa.

### Ziv TV

Shooting background material for "Man Called X," in Paris, West Germany, Rome, Mexico City, and Latin America.

# Commercial Television in Great Britain

APPARENTLY, British commercial TV is having an easier time with its growing pains than even optimists expected. Losses at the end of the first quarter of operation were reported as slightly below those calculated by the two program contractors handling the programming in the London area. Based on first quarter figures, cost of airing programs during the first year of operation will run at between \$22,500,000 and \$25,000,000, while revenue from advertisers will total somewhere between \$20,000,000 and \$22,500,000, leaving a deficit of from \$2,500,000 to \$3,000,000.

The ITA (Independent Television Authority) required program contractors to show financial resources of \$3,525,000 before receiving a franchise, this requirement being based on the assumption that British commercial TV would follow the American pattern, showing a loss for three years before it began to pay off.

Estimates are that in order to break even this year, with production costs running at current high levels, 90 per cent of commercial availabilities would have to be sold out. At present, about 70 per cent of the commercial positions have been sold.

The two contracting companies, Associated Redifusion and Associated Television, provide all programming in the London area, the former producing all weekday shows and the latter all weekend programs.

Extension of the ITA service into Birmingham and Manchester may brighten this picture for them with added revenue and less production cost. The Birmingham schedule uses Associated Redifusion shows on the weekend and Associated Television programs during the weekdays.

Both companies initially originated seven hours of shows per day but withdrew from the morning hours when they found this time unsalable. This was one of the several sad factors commercial TV in Britain learned the hard way. There were many lessons thus learned. A much heralded concert program which did not come through with an audience and caused a quick retreat from cultural type programming. The pace at which TV gobbles up time and talent, in spite of the much publicized findings in America, was underestimated and this was reflected particularly in drama shows which achieved a high level during the first few weeks of operation but suffered an abrupt decline immediately thereafter.

There are reports that the contractor companies found cutbacks in staffing necessary

once operations got underway. The matter of personnel left BBC positions for the more lucrative offers held out by program contractors.

The impact of commercial TV on the BBC TV operation apparently has been a healthy one though it did put a premium on some programming through competitive bidding. BBC had to up the ante in bidding for such events as sports. BBC has signed contracts to televise some of the most important sports events to be available to the medium during this year.

Estimates of the commercial TV audience in the London area during the last week of January were based on 600,000 of the 1,500,000 TV homes in the area owning all-channel sets. A little under 8,000 all-channel sets were being sold per week, and a like number were estimated as being converted to receive both BBC and ITA telecasts. Potential audience in Birmingham is estimated at one-half that of the London peak, 400,000 sets having been converted as of January 31.

As a market for American TV film fare, law puts strict limit on the amount of programming which can be bought, stipulations requiring that 75 per cent of the programming must be British product.

However, this aspect of the scene has already brought added revenue to U. S. TV film producers, substantial sales having been consummated on several American series. This is a two-way lane, American advertisers provide a substantial chunk of the advertising revenue now being collected for ITA programming.

The rate structure for advertising has required revision and probably will undergo further readjustment. In approximate dollar amounts, a minute of advertising on a weekday costs \$900 in off-peak hours and about \$2800 in the peak period (7:55-10:05 p.m.).

Advertisers have no actual voice in the placing of commercials but program contractors are co-operative in spotting them to reach the type of audience an advertiser is attempting to reach. There is no such thing as program sponsorship permitted in Britain.

Phenomenal results have been reported by some American firms using commercial TV in England, several cases of 100 per cent increases due to TV advertising being listed.

Most rating services report an even division of audience in the London area, reports in January running approximately 60 to 40 in favor of BBC on weekdays and the opposite on weekends.

# U. S. Educational Radio And Television

By  
**MATTHEW  
SEIDMAN**

Staff Writer

**E**ducational radio has had a fierce and fluctuating history since radio came into its own some 30 odd years ago. In a 15 year period, up to 1936, 168 different educational institutions were granted 202 broadcasting licenses, with 73 being taken out in 1922 alone. With the inception of broadcasting license grants for educational institutions, came the inception of loss or abandonment of licenses, so that by January 1, 1937, 38 institutions held licenses. Only 20 of the total 202 licenses granted from 1921 to 1936 were held for the entire period. All 38 educational stations holding licenses in 1937 were AM.

Immediately after 1945, FM channels became available for educational stations, and by 1951, more than 100 educational stations were on the air. Most of them transmitted on FM. Institutions rushed to get FM broadcasting licenses, since FM was supposed to be the future of the broadcasting medium, until television came into being.

Coverage via educational radio stations was spotty, and only Alabama, California, Florida, Illinois, Indiana, Iowa, Kansas, Louisiana, Michigan, Ohio, and Wisconsin had anything that resembled statewide coverage, with Wisconsin being the only state with a statewide network. In 1950, Seymour N. Siegel of WNYC, initiated the development of the Tape Network, in an effort to link up stations. As the development grew, it became a cooperative enterprise of the National Association of Educational Broadcasters.

With the coming of commercial television, came the rush for grants for educational TV stations. Primarily due to lack of funds, number of grants for educational TV stations greatly outnumbered the stations on the air. Radio has a history. Television is making one now.

Many people have argued that educational television is useless, because commercial TV outlets can accomplish what is being done by the educational stations. Programwise, educational outlets beam not only to adults, but to school children of various ages. Aside from classroom TV being used as a supplement to the teacher, and courses taught on television, programs include cultural type shows like some seen on the BBC and CBC. Shows which some advocates of American television, as opposed to BBC type TV programs, feel would be forced down the throats of viewers if beamed on regular commercial outlets. Various discussions, like "Talk O' The Teens," in which teenagers quiz civic leaders and officials on youth problems; music shows, such as "Music For Moderns," which programs contemporary music giving a brief history about the music and composer whose music is being aired that day, and programs designed for in school listening and viewing which aid the teacher in her daily tasks, are some of the programs which educational stations transmit.

Regular commercial stations also transmit "culture," but it is argued that they do not do so on such a comprehensive scale. In the five year period television has come into being for class-room and home-study use, more than 400 college-level courses have been given by TV.

As far as education itself is concerned, relating to the broadcasting medium, Franklin Dunham, chief of radio and television, U. S. Office of Education, states, "Education is slow to accept new methods until they justify themselves under trial. Today we have a healthy record of achievement with radio over 25 years experience." Amount of achievement is debatable, with many saying there has been failure if the criterion is the gap between potentiality and actuality.

## LIST OF EDUCATIONAL STATIONS ON THE AIR IN THE U. S.

- 22 non-commercial AM stations operating
- 10 commercial AM stations operating
- 125 non-commercial FM stations operating
- 3 commercial FM stations operating
- 18 TV stations licensed and operating
- 3 TV stations operating on a non-reserved channel
- 248 TV channels have been assigned to U. S. cities, 80 on VHF
- 24 cities have construction permits, or applications pending for TV stations.

# Famous First Facts In U. S. Television

## THE FIRST:

**A**UDIENCE participation telecast was charedes presented on August 7, 1941, and telecast by Station WNBT, New York City.

**Baseball game (collegiate) telecast** was the Columbia University Princeton University game, played May 17, 1939, at Baker Field, New York City. The game lasted ten innings and was won by Princeton 2-1. It was telecast by Station W2XBS, New York City, and was announced by Bill Stern.

**Baseball game (major league) telecast** was the National League game played at Ebbets Field, Brooklyn, N. Y., August 26, 1939, between the Cincinnati "Reds" and the Brooklyn "Dodgers." Two cameras were used alternately by Station W2XBS, New York City, according to the play. Leo Durocher, manager of the "Dodgers," William McKechnie, manager of the "Reds," and close-ups of several players were telecast during the intermission of the double-header game.

**Basketball game telecast** was played February 28, 1940, at Madison Square Garden, and telecast by Station W2XBS, New York City. Fordham University played the University of Pittsburgh (Fordham 37-Pittsburgh 50) followed by Georgetown University versus New York University (Georgetown 27-New York University 50).

**Book review telecast** was Ernest Boyd's review on May 3, 1938, over Station W2XBS, New York City, of Sidney Spencers **The Greatest Show on Earth**. It combined photographs and text to explain the economic problems of mankind. While Boyd was talking, the review opened with a telecast of the reviewer followed by numerous pick-ups of photographs from the book.

**Circus telecast** was the Ringling Brothers Barnum and Bailey circus whose three hour show was telecast April 25, 1940 from Madison Square Garden, New York City by Station W2XBS, New York City.

**Color television (high definition electronically scanned)** demonstration was given September 3, 1940, for the press over Television Station W2XAB of the Columbia Broadcasting System, New York City. The telecast was from the high-power transmitter atop the Chrysler Building, New York City. It had a 343-line quality and used a 4.5 megacycle band, the same frequency required for ordinary black and white images. The telecasts were received in black and white, but a color disc placed in front of the receiver tube enabled the audience at the station to view the picture in color. The apparatus was invented by Dr.

Peter Carl Goldmark, Columbia Broadcasting Systems chief television engineer.

**Construction permit** for a commercial television station was granted June 17, 1941 to WNBT of the National Broadcasting Company, Inc., New York City to operate on 50,000-56,000 kilocycles. A license to cover this construction permit was also granted June 17, 1941 effective July 1, 1941.

**Electronic television system** using the pick-up device known as the Iconoscope, which displaced the mechanical system by means of motordriven scanning discs, was invented by Vladimir Kosma Zworykin of Wilkinsburg, Pa., who obtained patent No. 2,141,059 on December 20, 1938. The patent covered forty claims and was assigned to the Westinghouse Electric and Manufacturing Company, East Pittsburgh, Pa. His application was filed December 29, 1923.

**Football game telecast** was played at Randsalls Island, New York City, September 30, 1939, between Fordham University and Waynesburg College and telecast by Station W2XBS, New York City. Fordham won 34 to 7.

**Hockey game telecast** was played February 25, 1940, at Madison Square Garden, New York City, between the New York "Rangers" and "Les Canadiens" of Montreal and telecast by Station W2XBS, New York City. The "Rangers" won 6 to 2.

**King and Queen to be televised** were King George VI and Queen Elizabeth of England who, on June 10, 1939, visited the New York World's Fair, New York City during "British Week."

**Moving picture premiere telecast** was a two-reel short "Patrolling the Ether," which was telecast April 10, 1944, simultaneously by WNBT of New York City, WRGB of Schenectady, N. Y., and WPTZ of Philadelphia, Pa. It depicted the wartime activities of the radio-intelligence division of the Federal Communication Commission in tracing illegal and espionage radio transmitters. It was produced by Metro-Goldwyn-Mayer and released April 22, 1944, twelve days after its premiere by television.

**Opera (complete) telecast** was presented December 23, 1943, by Station WRGB of the General Electric Company, Schenectady, N. Y. The presentation was Humperdinck's "Hansel and Gretel."

*Reprinted with consent of "Famous First Facts" published by H. W. Wilson Company.*

# Famous First Facts In U. S. Television

**Political campaign telecast** was on October 11, 1932, when the Democratic National Committee broadcast a television show from the studios of the Columbia Broadcasting System, 485 Madison Avenue, New York City.

**Political convention telecast** was the twenty second Republican Convention, June 24-29, 1940, at Philadelphia, Pa., when Wendell Lewis Willkie of New York and Charles Linza McNary of Oregon were nominated for President and Vice President respectively. The telecast was made by W2XBS of the National Broadcasting Company, New York City, 49.75 megacycles.

**Presidential address telecast from the White House** was on October 5, 1947, when President Harry S. Truman's speech about food conservation and the world food crisis was telecast from Washington, D. C., and relayed to New York City, Philadelphia and Schenectady. He proposed meatless Tuesdays, and eggless and poultryless Thursdays.

**Programs regularly telecast** were begun May 11, 1928, on a three times a week schedule from the General Electric Station, WGY, Schenectady, N. Y. The image consisted of 24 scanning lines repeated 20 times a second.

**Pugilistic telecast** was the Lou Nova-Max Baer fight, June 1, 1939, at the Yankee Stadium, New York City. Sam Taub was the announcer. Referee Frank Fullam halted the bout in the eleventh round and awarded the decision to Nova.

**Pugilistic telecast of a championship heavy-weight fight** was June 19, 1946 when Joe Louis defended his title against Billy Conn at the Yankee Stadium, New York City. Louis won by a knockout in the eighth round.

**Stratovision world series telecast** was made October 11, 1948, when the sixth game of the world series between the Boston "Braves" of the National League and the Cleveland "Indians" of the American League, played at Boston, Mass., was transmitted from the stratovision plane flying at 25,000 feet over the Pittsburgh area.

**Television commercial license** was granted to Station W2XBS of the National Broadcasting Company, New York City on July 1, 1941. It is now WNBT. Operations were required

four hours a week, but approximately fifteen hours a week were presented.

**Television demonstration** (public, large-scale, infra-store) was staged at Gimbel Brothers, Philadelphia, Pa., from October 24 to November 14, 1945, inclusive using RCA-Victor equipment. A preview was held October 23, 1945. Approximately 25,000 people viewed the demonstrations at the auditorium and at twenty telesites scattered at strategic locations on the seven floors of the department store. Eleven daily demonstrations of about ten minutes each were given showing millinery, home furnishings, shoes, scarves, furs, nursery furniture, toys, curtains, interior decorating and hair styling.

**Television image (transoceanic)** was received February 8, 1928 at Hartsdale, N. Y., by Robert M. Hart, owner of short wave station W2CVJ. The sound vision, a picture of Mrs. Mia Howe, was sent across the ocean from Station 2 KZ, Purley, England, two kilowatt power, by John Logie Baird of the Baird Television Development Company of London, England, using short radio waves.

**Television network demonstration (distant)** was held on February 1, 1940, when members of the Federal Communications Commission at General Electric Station W2XB, Schenectady, N. Y., witnessed a program telecast from New York City, approximately 130 miles distant. It was received at a relay station on the 44-50 megacycle band by means of a rhombic antenna, supported by four 128 foot towers, and rebroadcast to the Schenectady-Albany district.

**Track meet (intercollegiate) telecast** was the 19th annual Intercollegiate A.A.A.A. track and field championship meet at Madison Square Garden, New York City, telecast March 2, 1940, by W2XBS. Twenty-three colleges participated in the various dashes, runs, relays, high hurdles, shot put, pole vault, weight throwing, broad jumps and high jumps. New York University won with twenty-seven points.

**Weather map telecast** from a land sending station to a land receiving station was sent August 18, 1926, from Radio Station NAA, Arlington, Va., and received at the Weather Bureau Office, Washington, D. C. The demonstration was arranged by the Jenkins Laboratory, Washington, D. C.

<sup>1</sup> Stations with less than \$25,000 time sales report only total revenues and total expenses.

<sup>2</sup> Before commissions to agencies, representatives and others.

<sup>3</sup> Total revenues consist of time sales less commissions plus talent and program material sales.

<sup>4</sup> Includes Hampton, Virginia.

<sup>5</sup> Not all stations in this market operated a full year during 1954.

<sup>6</sup> Data not published for group of less than three stations.

# Radio's Future Is Local Program Building

---

By  
**PIERRE WEIS**  
General Manager  
World Broadcasting  
System

---

**T**AKE a good look at radio's values today, and you'll see that radio is surviving the toughest competition it has faced, particularly at the local level where radio is closest to the audience and the advertisers it serves.

Radio's future, at the local level, is indeed splendid. Mature broadcasters have shaped and reshaped their program schedules until now they can point to solid successes for spot and program advertisers, and large loyal audiences.

We at World have been part of that success, and are proud of our role. We have made tremendous changes in our service in the past year, and designed it to be of greater help than ever to the program and sales departments of our 1,000-plus subscribers. The secret is simple -- more and more new ideas, and more and more talent.

For example, we are constantly exploring new avenues in bringing the finest recording talent into our service. Our 1956 talent budget, which we recently announced, will be 23% higher than last year's, and our marquee sparkles with such new stars at World as Doris Day, Victor Young, Eddie Bush, Bobbie Hackett and Mimi Martel, joining World's popular artists like David Rose, Lyn Murray, Ray Bloch, Sauter-Finnegan, Helen O'Connell, Ken Griffin, The Sportsmen, Three Suns and a host of others. Musical selections by these talented artists, presented on local radio stations at times designed to reach top audiences, thus becomes top sales vehicles.

Radio stations are also learning that they compete best when the station has developed its own individual "personality" -- a sort of corporate identity in the minds of radio listeners. This is developed through the amount of programs and airings of a "service" nature that a station carries. With this in mind, we have developed a whole series of recorded Time Signals, Weather Jingles, Tune-In Jingles, Feature Program Signatures -- all designed to help stations in building themselves into a

familiar, tuned-to source of entertainment and information.

The local and regional advertiser is also establishing himself as the dominant source of income to radio outlets. He now finds a wide choice of programming available to him. But his advertising must be able to match the high calibre of his program selections. World plans for 1956 a series of campaigns built around special jingles and other attention-getting devices for local beauty shops, bakers, restaurants, taxi cabs, drug stores, grocers, supermarkets, furniture stores, apparel shops, jewelers and even diaper services. With the aid of such jingles, local advertisers can build selling campaigns with the same tool used by the leading advertisers in the country.

There is another phase of the radio business whereby stations are gaining radio strength. Since we service a huge list of stations and employ top people on our staff, we have at our disposal a very large promotion department. And, we are in a position not only to come up with sound new ideas and new promotions but to do a most thorough job in the preparation of exciting sales and production tools to insure success. We are able to produce these merchandising aids -- which range from multi-colored posters and store display materials to station promotion jingles -- with tremendous impact because of our resources which would be impossible and uneconomic for an individual station to attempt to duplicate.

No doubt you have seen our nationwide radio promotion campaign, "Radio's Big Little Man," in action.

We announced it to the radio industry at last year's NARTB Convention. Since then, nearly 500 stations have joined in the campaign to focus advertiser and audience attention on local-level radio, and have intensified their local sales campaigns. Many top broadcasters have told us that "Radio's Big Little Man" is just what was needed to give radio new status and a new surge of audience attention.

The campaign -- which, with its list of prizes and top-notch merchandising drives, for World, stations and their advertisers an investment of more than \$1,500,000 -- is designed to bring many additional values to local radio advertisers, such as increased store traffic, larger sales volume, and the advantages of being part of a community-wide promotion.

The basic idea, of course, is good. But what is really putting it across with radio stations is the tremendous assortment of merchandising and promotion materials made available to our stations, which not only has made it easy for them to sell their sponsors but has also given them the tools to make the promotion a success with listeners.

# ASCAP

## *the music of America*

For more than forty years the members of the American Society of Composers, Authors and Publishers have supplied our nation's tremendous entertainment world with its basic ingredient—the music of America.

An **ASCAP** license grants the commercial user of music the right to perform the Society's entire repertory in one complete package. The top tunes of television, radio and records, tomorrow's song hits, yesterday's favorites, hits from Broadway and Hollywood, as well as the best in the field of classical and religious music are always available through an **ASCAP** license.

**The American Society of Composers, Authors and Publishers**

# A . S . C . A . P .

By STANLEY ADAMS

President

**T**HE clearance of music copyrights for commercial performance is a major responsibility of television and radio program builders. The large and increasing use of music in these programs would impose almost impossible tasks upon the music users were it not for the facilities developed by the American Society of Composers, Authors and Publishers (ASCAP) to meet the questions of copyright clearance. This great American performing right society, and similar societies in other countries, reflect in their operations the tremendous growth of radio and television.

Through the simple machinery of a blanket agreement between a licensee and a performing right society, the licensee obtains complete clearance of the Society's complete catalog. ASCAP spends more than three million dollars annually in its maintenance of program service to its licensees. Without the overall service obtainable through the Society, the individual operators would face a host of problems of research and other costly details of day to day operation.

ASCAP now is in its 42nd year of service to its members and its licensees. With a membership now in excess of 4,000, its repertory covering two generations of composers, authors and publishers embraces American music of every conceivable sort. In addition, foreign societies grant to ASCAP the right to license their repertories, so that the ASCAP license opens to its holder vast stores of music the world over.

ASCAP maintains headquarters at 575 Madison Ave., New York City, with 25 branches throughout the country. Officers as of Jan. 1, 1956, are:

<i>Stanley Adams</i> .....	<i>President</i>
<i>Otto A. Harbach</i> .....	<i>Vice President</i>
<i>Louis Bernstein</i> .....	<i>Vice President</i>
<i>John Tasker Howard</i> .....	<i>Secretary</i>
<i>Saul H. Bourne</i> .....	<i>Treasurer</i>
<i>George W. Meyer</i> .....	<i>Asst. Secretary</i>
<i>Frank H. Connor</i> .....	<i>Asst. Treasurer</i>

The Board of Directors comprises 12 writers and 12 publisher-members, elected biennially, the writers by writer-members, the publishers by publisher-members, for two year terms. The directors are: Writers: Stanley Adams, Gene Buck, Paul Cunningham, L. Wolfe Gilbert, Oscar Hammerstein II, Otto A. Harbach, John Tasker Howard, Alex C. Kramer, A. Walter Kramer, George W. Meyer, Deems Taylor, Jack Yellen; publishers: Louis Bernstein, Saul H. Bourne, Irving Caesar, Frank H. Connor, Max Dreyfus, Bernard Goodwin, Donald Gray, Jack Mills, Abe Olman, J. J. Robbins, Gustave Schirmer, Herman Starr.

# ASSOCIATED MUSIC PUBLISHERS, INC.

By CHARLES A. WALL  
President and Treasurer

---

**A**SSOCIATED MUSIC PUBLISHERS, INC., a wholly owned subsidiary of Broadcast Music, Inc., serves the radio and television industry in the field of serious music. It is recognized at the present time as one of the principal publishers and exploiters of contemporary music in the United States and controls a very extensive and expanding catalog of orchestral, band, chamber, instrumental and choral works by foremost American and foreign composers. In addition AMP also represents exclusively in the United States many of the most famous serious music catalogs of Europe such as Breitkopf & Haertel and Schott of Germany, Schott and Universal Edition of England, Universal Edition of Austria and Switzerland, Eschig and Enoch of France, Union Musical Espanol of Spain, Suvini Zerboni and Sonzogno of Italy, and many others.

AMP is also the sole selling and exploitation agent in the United States for serious works published by Broadcast Music, Inc., and BMI Canada, Ltd. All performing rights are cleared through BMI.

The Board of Directors of the company are as follows:

Sydney M. Kaye, Chairman of BMI Board, Chairman; Carl Haverlin, President of BMI; William S. Hedges; Paul W. Morency; J. Harold Ryan; Charles A. Wall, President and Treasurer.

Officers of the company are: Charles A. Wall, President and Treasurer; Karl Bauer, Vice President; Richard French, Vice President; Benjamin V. Grasso, Vice President; Robert J. Burton, Secretary.

Foreign and domestic music catalogs represented.

# BROADCAST MUSIC, INC.

By CARL HAVERLIN

President

---

**D**URING each day of the sixteen years of its existence Broadcast Music, Inc., has adhered steadfastly to one basic principle—competition is healthy and necessary. Because of this credo, BMI operates as a competitive force in the field of performing rights. Because it believes in competition, BMI operates in a manner intended to benefit all composers, all writers, all music publishers, all users of music.

The result has been to establish an open door and an open market place for all creators of music and for all publishers of music. Benefits of the BMI policy continue to flow not only to well established publishers and writers but to the newcomers who have come into the field since the creation of BMI.

In order to maintain a constantly growing source of music and to provide a steady challenge to the progressive composer, writer, and publisher, BMI has devoted its attention to all types of music. As a result, national, indeed world-wide, interest has been focused on fields of music once considered geographically limited or intellectually esoteric. The resultant democratization of musical elements has developed a truly American music, one which is made up of many forces, popular, country and Western, rhythm and blues, concert. Because of this, the creators and the developers of these musical forces have found new opportunities.

Today, BMI is proud of the fact that so many publishers, composers and writers have found inspiration and remuneration in the open market place.

BMI begins its seventeenth year of existence as it did its first . . . dedicated to the one basic principle—competition in music is as healthy and necessary as in any other field of American endeavor.

**OFFICERS OF BMI:** Carl Haverlin, President; Sydney M. Kaye, Vice-president and General Counsel; Robert J. Burton, Vice-president in charge of Publisher and Writers Relations, Secretary; Charles A. Wall, Vice-president in charge of Finance; Roy Harlow, Vice-president in charge of Station Service; Glenn Dolberg, Vice-president in charge of Station Relations; Jean Geiringer, Vice-president, Foreign Relations; Harry P. Somerville, Vice-president, Non-Radio Licensing; Robert Sour, Assistant Vice-president, Publisher Relations.

**DIRECTORS:** (elected annually): Sydney M. Kaye, Chairman; Herbert V. Akerberg, John Elmer, Joseph E. Baudino, Carl Haverlin, William S. Hedges, Herbert Hollister, Leonard Kapner, Paul W. Morency, Ernest Lee Jahncke, Jr., J. Leonard Reinsch, J. Harold Ryan, G. Richard Shafto and James E. Wallen.

25<sup>TH</sup>

CELEBRATING OUR

ANNIVERSARY

**SESAC**

**PAUL HEINECKE, PRESIDENT**

LICENSING THE PERFORMANCE,  
MECHANICAL OR SYNCHRONIZATION RIGHTS IN  
"THE BEST MUSIC IN AMERICA"  
TO THE ENTIRE ENTERTAINMENT INDUSTRY,  
RADIO, TELEVISION, MOTION PICTURE, TRANSCRIPTION,  
AND PHONOGRAPH RECORD COMPANIES, THEATRES,  
CONCERT HALLS, HOTELS, ETC.

PRODUCERS OF THE FAMOUS

**SESAC TRANSCRIBED LIBRARY**

A REPERTORY OF DISTINCTION

---

# SESAC, INC.

By PAUL HEINECKE

President

**I**N February, 1956, SESAC celebrates its 25th year of service to the entire entertainment industry, and so I'd like this to be a salute to all SESAC's business associates: radio and television stations, affiliated publishers, phonograph record and transcription companies, the producers of transcribed programs, film companies, opera houses, orchestral societies, ballrooms and hotels.

I'm aware that our mutual growth and success could not have been possible without the complete faith we have in each other, and a bright, burning hope that each succeeding day and year would bring about even greater achievement to music publisher and music user alike.

I have always been an unflinching advocate of the performance licensing organization, and along with all SESAC's employees, I am dedicated to our purposes and proud of our accomplishments. It is gratifying, indeed, to realize that the contents of SESAC's 284 different publishers' catalogs are found on hundreds of thousands of phonograph records, transcription libraries, transcribed programs, live talent, radio and television shows, filmed commercials, feature films; also in the legitimate theatre, motion pictures, symphony orchestras, ballet theatre, choral societies, and throughout the schools and churches of America.

It is also exciting to share in the enthusiasm of our affiliated publishers in their drive to develop and promote their catalogs, and for me to realize conclusively that SESAC music performances on over 3,500 AM and TV stations due to increased use in all programs media are on a greater upswing than ever before.

Here then, on our 25th anniversary, it is heartwarming to see the fruits of our combined efforts—essential, in-demand publishers whose catalogs make satisfied music users of our licensees. As to the future, we shall continue to use as our buckler and our shield the eternal qualities of faith and hope, knowing full well that these, coupled with diligent and honest effort, shall inure to the benefit of all music producers and users everywhere.

Zimmerman, Barbara H., WMVA, Martinsville, Va.

an Ampex can keep your  
accountant happy too!

**it can cost less  
per hour  
than any other  
recorder  
you can buy**

A few cents per hour is all it costs in the long run . . . because year after year an Ampex continues to perform within original specifications (18,000 known hours of service in one actual instance). Inevitably it requires fewer adjustments and parts replacements than machines of lesser quality. And because an Ampex is the recorder that everyone wants, it maintains the highest percentage of its original value. For lasting economy, buy the best — buy Ampex.

For further information, write to Dept. MM 2290

**SIGNATURE OF PERFECTION IN SOUND**

# Industry Faces Excellent 1956 Prospects

By  
**HENRY C. BONFIG**

President  
CBS-Columbia

A Division of the  
Columbia Broadcasting  
System

**I**N 1956 the television-electronics industry enters its tenth post-war year with an impressive record behind it and excellent future prospects. The industry can look forward to continued heavy volume in black-and-white set sales, a radio sales year, equal at least to 1955, and a marked increase in color production and sales.

Television's past record certainly can be pointed to with pride. Since 1946 some 46 million video receivers have been sold. This record for a decade compares most favorably with the forty years the automobile industry needed to roll up 32 million car and truck registrations.

All signs point to good 1956 economic health for the nation. Gross national product, employment, housing starts, marriages and subsequent new home units, personal incomes rising, capital outlays by business and construction all are up. The keynote of the nation is strong confidence. The television-electronics industry will be well able to keep pace with the country's prosperity.

In 1956, the industry should be able to make and sell seven million black-and-white television sets and between 200-300,000 color sets. The radio set industry can sell upwards of fourteen million receivers in 1956, including automobile radios.

At this time, approximately 67% of American households have television. Conversely, this also means that one-third of the nation's households do not have video—a sizable market, indeed.

The black-and-white prospects grow increasingly good with each passing day due to the replacement and multiple set markets. Replacement figures for 1955 key the trend. In January, 1955 one out of every five sets sold was a replacement; by the year's end

the ratio was close to one to three. At the start of 1955 only 4% of the sets in use were second sets; by the end of the year, according to RETMA figures, that ratio jumped to nearly 10%.

With 38.8% of the nation's television sets three years or older, and close to 11% having screens under 17-inches, a wonderful re-sell opportunity exists for alert dealers.

Retail prices of black-and-white sets should remain fairly steady in 1956 as the industry will find it difficult to pass further production, component and labor cost increases on to the consumer.

There was increasing interest in color television all during the 1955 Fall selling season. This interest was piqued by greater top quality programming and various color promotions which took place, largely during the month of December. These promotions proved that, if it is merchandised properly, color TV can be moved.

However, in 1956 the industry still must face, realistically, several problems before it can "get off the ground." These problems include overall production techniques, high sales costs, increasing dealer education on color selling and promotion, service education, more consumer excitement.

One more important point must be brought up. That is, if color is to get started as a mass medium it must be stimulated by all-industry all-out effort - - and not the work of but a small group. If the industry makes a concerted drive in all phases of production, sales, merchandising and promotion, color television can really get started in 1956!

Prospects for radio loom their brightest in years, with transistors as the chief stimulant. Transistors can be classified as the first really new sales stimulant in radio since the tuning refinements and original miniaturization efforts that characterized the 1930's. Indeed, the advent of television has accelerated the trend toward flexible, tailored use radios, and the sales curve has certainly reflected this since 1946.

On the broad fronts of black-and-white, and color television, radio and the government-industrial apparatus fields, CBS-Columbia plans to keep pace with anticipated overall industry growth. This will be accomplished in an orderly manner, with an accompanying increase in industry position. The progress that we have charted will be a steady process of building, and one of teamwork with our distributors and retail outlets.

A List of Important Radio, Television and FM

# EQUIPMENT FIRMS

## Adler Communications Laboratories

1 Le Fevre Lane, New Rochelle, N. Y.

Phone: New Rochelle 6-1620

Owner, Gen. Mgr. . . . . Ben Adler

PRODUCTS: Designs and constructs TV station control and studio systems, Manufactures ACL vacuum tube operated video switchers, audio switchers, video amplifiers, control consoles, monitors.

## Admiral Corporation

3800 W. Cortland St., Chicago 47, Ill.

Phone: Spaulding 2-0100

N. Y. Phone: PLaza 7-7500

Pres., Chairman . . . . . Ross D. Siragusa  
 Exec. Vice-Pres.-Treas. . . . . John B. Huarisa  
 Vice-Pres., Gov't Labs. . . . . J. F. Gilbarte  
 Vice-Pres., Sales. . . . . Wallace C. Johnson  
 Vice-Pres., Purchasing. . . . . Frank J. Kazda  
 Vice-Pres., Prod. . . . . Cy S. Rossate  
 Vice-Pres., Operations . . . . . V. Barreca  
 Secretary, Ass't Treas. . . . . George E. Driscoll  
 Vice-Pres., Gen. Counsel. . . . . F. H. Uricl  
 Vice-Pres., Adv. . . . . Edmond I. Eger  
 Public Relations Dir. . . . . Martin Sheridan

PRODUCTS: Television receivers, television consoles and combinations, table radios,

clock radios, portable radios, radio-phonographs, high fidelity phonographs.

## Aero Electronics Co.

1512 N. Wells St., Chicago 10, Ill.

Phone: WHitemhall 3-0401

President . . . . . B. S. Maximoff  
 General Manager . . . . . T. A. Beresney

PRODUCTS: Custom built equipment, engineering services.

## Affiliated Electronics Co.

21 W. 45th St., N. Y. 36, N. Y.

Phone: JUDson 2-0522

Manager, TV Division . . . . . T. Meyer  
 PRODUCTS—Slides, Telpos, balops, flip-cards.

## Airtron Inc.

103 W. Elizabeth Ave., Linden, N. J.

Phone: HUNter 6-1000

President . . . . . David Ingalls  
 Vice-Presidents . . . . . J. W. Anderson,  
 T. N. Anderson, Robert Carr, J. W. Hamilton

PRODUCERS: Duplexers, mixers, direction couplers, flexible waveguides.

## “BODDE”

Background projection Equipment. Hi-intensity 4" x 5" slide projectors for television and motion picture studios.

Hi-quality seamless translucent rear-projection screens.

**BODDE SCREEN AND PROJECTOR COMPANY**  
 11541 BRADLEY AVE., SAN FERNANDO, CALIFORNIA  
 Telephone EMpire 5-2551

**Allied Radio Corp.**

# THE TELEVISION CODE OF THE NARTB

---

## PREAMBLE

**T**ELEVISION is seen and heard in every type of American home. These homes include children and adults of all ages, embrace all races and all varieties of religious faith, and reach those of every educational background. It is the responsibility of television to bear constantly in mind that the audience is primarily a home audience, and consequently that television's relationship to the viewers is that between guest and host.

**T**HE REVENUES from advertising support the free, competitive American system of telecasting, and make available to the eyes and ears of the American people the finest programs of information, education, culture and entertainment. By law the television broadcaster is responsible for the programming of his station. He, however, is obligated to bring his positive responsibility for excellence and good taste in programming to bear upon all who have a hand in the production of programs, including networks, sponsors, producers of film and of live programs, advertising agencies, and talent agencies.

**T**HE AMERICAN businesses which utilize television for conveying their advertising messages to the home by pictures with sound, seen free-of-charge on the home screen, are reminded that their responsibilities are not limited to the sale of goods and the creation of a favorable attitude toward the sponsor by the presentation of entertainment. They include, as well, responsibility for utilizing television to bring the best programs, regardless of kind, into American homes.

**T**ELEVISION, and all who participate in it are jointly accountable to the American public for respect for the special needs of children, for community responsibility, for advancement of education and culture, for the acceptability of the program materials chosen, for decency and decorum in production, and for propriety in advertising. This responsibility cannot be discharged by any given group of programs, but can be discharged only through the highest standards of respect for the American home, applied to every moment of every program presented by television.

**I**N ORDER that television programming may best serve the public interest, viewers should be encouraged to make their criticisms and positive suggestions known to the television broadcasters. Parents in particular should be urged to see to it that out of the richness of television fare, the best programs are brought to the attention of their children.

### ADVANCEMENT OF EDUCATION AND CULTURE

1. Commercial television provides a valuable means of augmenting the educational and cultural influences of schools, institutions of higher learning, the home, the church, museums, foundations, and other institutions devoted to education and culture.

2. It is the responsibility of a television broadcaster to call upon such institutions for counsel and co-operation and to work with them on the best methods of presenting educational and cultural materials by television. It is further the responsibility of stations, networks, advertising agencies and sponsors consciously to seek opportunities for introducing into telecasts factual materials which will aid in the enlightenment of the American public.

3. Education via television may be taken to mean that process by which the individual is brought toward informed adjustment to his society. Television is also responsible for the presentation of overtly instructional and cultural programs, scheduled so as to reach the viewers who are naturally drawn to such programs, and produced so as to attract the largest possible audience.

4. In furthering this realization, the television broadcaster:

a) Should be thoroughly conversant with the educational and cultural needs and desires of the community served.

b) Should affirmatively seek out responsible and accountable educational and cultural institutions of the community with a view toward providing opportunities for the instruction and enlightenment of the viewers.

c) Should provide for reasonable experimentation in the development of programs specifically directed to the advancement of the community's culture and education.

### ACCEPTABILITY OF PROGRAM MATERIAL

Program material should enlarge the horizons of the viewer, provide him with wholesome entertainment, afford helpful stimulation, and remind him of the responsibilities which the citizen has toward his society. Furthermore:

a) (i) Profanity, obscenity, smut and vulgarity are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.

(ii) Words (especially slang) derisive of any race, color, creed, nationality or national derivation, except wherein such usage would be for the specific purpose of effective dramatization such as combatting prejudice, are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.

(iii) The Television Code Review board shall maintain and issue to subscribers, from time to time, a continuing list of specific words and phrases, which should not be used in keeping with this subsection. This list, however, shall not be considered as all-inclusive.

b) (i) Attacks on religion and religious faiths are not allowed.

(ii) Reverence is to mark any mention of the name of God, His attributes and powers.

(iii) When religious rites are included in other than religious programs, the rites are accurately presented, and the ministers, priests and rabbis portrayed in their callings are vested with the dignity of their office and under no circumstances are to be held up to ridicule.

c) (i) Contests may not constitute a lottery.

(ii) Any telecasting designed to “buy” the television audience by requiring it to listen and/or view in hope of reward, rather than for the quality of the program, should be avoided.

d) Respect is maintained for the sanctity of marriage and the value of the home. Divorce is not treated casually nor justified as a solution for marital problems.

e) Illicit sex relations are not treated as commendable.

f) Sex crimes and abnormalities are generally unacceptable as program material.

g) Drunkenness and narcotic addiction are never presented as desirable or prevalent.

h) The administration of illegal drugs will not be displayed.

i) The use of liquor in program content shall be de-emphasized. The consumption of liquor in American life, when not required by the plot or for proper characterization, shall not be shown.

j) The use of gambling devices or scenes necessary to the development of plot or as appropriate background is acceptable only when presented with discretion and in moderation, and in a manner which would not excite interest in, or foster, betting nor be instructional in nature. Telecasts of actual sport programs at which on-the-scene betting is permitted by law should be presented in a manner in keeping with Federal, state and local laws, and should concentrate on the subject as a public sporting event.

k) In reference to physical or mental afflictions and deformities, special precautions must be taken to avoid ridiculing sufferers from similar ailments and offending them or members of their families.

l) Exhibitions of fortune-telling, astrology, phrenology, palm-reading, and numerology are acceptable only when required by a plot or the theme of a program, and then the presentation should be developed in a manner designed not to foster superstition or excite interest or belief in these subjects.

m) Television drama shall not simulate news or special events in such a way as to mislead or alarm. Reference is made to the section of the Code on News.

n) Legal, medical and other professional advice, diagnosis and treatment will be permitted only in conformity with law and recognized ethical and professional standards.

o) The presentation of cruelty, greed and selfishness as worthy motivations is to be avoided.

p) Excessive or unfair exploitation of others or of their physical or mental afflictions shall not be presented as praiseworthy.

q) Criminality shall be presented as undesirable and unsympathetic. The condoning of crime and the treatment of the commission of crime in a frivolous, cynical or callous manner is unacceptable.

r) The presentation of techniques of crime in such detail as to invite imitation shall be avoided.

s) The use of horror for its own sake will be eliminated; the use of visual or aural effects which would shock or alarm the viewer, and the detailed presentation of brutality or physical agony by sight or by sound are not permissible.

t) Law enforcement shall be upheld, and the officers of the law are to be portrayed with respect and dignity.

u) The presentation of murder or revenge as a motive for murder shall not be presented as justifiable.

v) Suicide as an acceptable solution for human problems is prohibited.

w) The exposition of sex crimes will be avoided.

x) The appearance or dramatization of persons featured in actual crime news will be permitted only in such light as to aid law enforcement or to report the news event.

y) The use of animals, both in the production of television programs and as a part of television program content, shall, at all times, be in conformity with accepted standards of humane treatment.

### RESPONSIBILITY TOWARD CHILDREN

1. The education of children involves giving them a sense of the world at large. Crime, violence and sex are a part of the world they will be called upon to meet, and a certain amount of proper presentation of such is helpful in orienting the child to his social surroundings. However, violence and illicit sex shall not be presented in an attractive manner, nor to an extent such as will lead a child to believe that they play a greater part in life than they do. They should not be presented without indications of the resultant retribution and punishment.

2. It is not enough that only those programs which are intended for viewing by children shall be suitable to the young and immature. (Attention is called to the general items listed under "Acceptability of Program Materials.") Television is responsible for insuring that programs of all sorts which occur during the times of day when children may normally be expected to have the opportunity of viewing television shall exercise care in the following regards:

a) In affording opportunities for cultural growth as well as for wholesome entertainment.

b) In developing programs to foster and promote the commonly accepted moral, social and ethical ideals characteristic of American life.

c) In reflecting respect for parents, for honorable behavior, and for the constituted authorities of the American community.

d) In eliminating reference to kidnapping of children or threats of kidnapping.

e) In avoiding material which is excessively violent or would create morbid suspense, or other undesirable reactions in children.

f) In exercising particular restraint and care in crime or mystery episodes involving children or minors.

### DECENCY AND DECORUM IN PRODUCTION

1. The costuming of all performers shall be within the bounds of

propriety, and shall avoid such exposure or such emphasis on anatomical detail as would embarrass or offend home viewers.

2. The movements of dancers, actors, or other performers shall be kept within the bounds of decency, and lewdness and impropriety shall not be suggested in the positions assumed by performers.

3. Camera angles shall avoid such views of performers as to emphasize anatomical details indecently.

4. Racial or nationality types shall not be shown in television in such a manner as to ridicule the race or nationality.

5. The use of locations closely associated with sexual life or with sexual sin must be governed by good taste and delicacy.

### COMMUNITY RESPONSIBILITY

A television broadcaster and his staff occupy a position of responsibility in the community and should conscientiously endeavor to be acquainted fully with its needs and characteristics in order better to serve the welfare of its citizens.

### TREATMENT OF NEWS AND PUBLIC EVENTS

#### News

1. A television station's news schedule should be adequate and well-balanced.

2. News reporting should be factual, fair and without bias.

3. Commentary and analysis should be clearly identified as such.

4. Good taste should prevail in the selection handling of news:

Morbid, sensational or alarming details not essential to the factual report, especially in connection with stories of crime or sex, should be avoided. News should be telecast in such a manner as to avoid panic and unnecessary alarm.

5. At all times, pictorial and verbal material for both news and comment should conform to other sections of these standards, wherever such sections are reasonably applicable.

6. Pictorial material should be chosen with care and not presented in a misleading manner.

7. A television broadcaster should exercise due care in his supervision of content format, and presentation of newscasts originated by his station; and in his selection of newscasters, commentators, and analysts.

8. A television broadcaster should exercise particular discrimination in the acceptance, placement and presentation of advertising in news programs so that such advertising should be clearly distinguishable from the news content.

9. A television broadcaster should not present fictional events or other non-news material as authentic news telecasts or announcements, nor should he permit dramatizations in any program which would give the false impression that the dramatized material constitutes news. Expletives, (presented aurally or pictorially) such as "flash" or "bulletin" and statements such as "we interrupt this program to bring you . . ." should be reserved specifically for news room use. However, a television broadcaster may properly exercise discretion in the use in non-news programs of words

or phrases which do not necessarily imply that the material following is a news release.

### Public Events

1. A television broadcaster has an affirmative responsibility at all times to be informed of public events, and to provide coverage consonant with the ends of an informed and enlightened citizenry.

2. Because of the nature of events open to public, the treatment of such events by a television broadcaster should be effected in a manner to provide for adequate and informed coverage as well as good taste in presentation.

### Controversial Public Issues

1. Television provides a valuable forum for the expression of responsible views on public issues of a controversial nature. In keeping therewith the television broadcaster should seek out and develop with accountable individuals, groups and organizations, programs relating to controversial public issues of import to its fellow citizens; and to give fair representation to opposing sides of issues which materially affect the life or welfare of a substantial segment of the public.

2. The provision of time for this purpose should be guided by the following principles:

a) Requests by individuals, groups or organizations for time to discuss their views on controversial public issues, should be considered on the basis of their individual merits, and in the light of the contribution which the use requested would make to the public interest, and to a well-balanced program structure.

b) Programs devoted to the discussion of controversial public issues should be identified as such, and should not be presented in a manner which would mislead listeners or viewers to believe that the program is of entertainment, news or any other character.

### Political Telecasts

Political telecasts should be clearly identified as such, and should not be presented by a television broadcaster in a manner which would mislead listeners or views to believe that the program is of any other character.

### Religious Programs

1. It is the responsibility of a television broadcaster to make available to the community, as part of a well-balanced program schedule, adequate opportunity for religious presentations.

2. The following principles should be followed in the treatment of such programs:

a) Telecasting which reaches men of all creeds simultaneously should avoid attacks upon religion.

b) Religious programs should be presented respectfully and accurately and without prejudice or ridicule.

c) Religious programs should be presented by responsible individuals, groups, and organizations.

d) Religious programs should place emphasis on broad religious

truths, excluding the presentation of controversial or partisan views not directly or necessarily related to religion or morality.

3. In the allocation of time for telecasts of religious programs it is recommended that the television station use its best efforts to apportion such time fairly among the representative faith groups of its community.

### PRESENTATION OF ADVERTISING

1. Ever mindful of the role of television as a guest in the home, a television broadcaster should exercise unceasing care to supervise the form in which advertising material is presented over his facilities. Since television is a developing medium, involving methods and techniques distinct from those of radio, it may be desirable, from time to time, to review and revise the presently suggested practices.

(a) Advertising messages should be presented with courtesy and good taste; disturbing or annoying material should be avoided; every effort should be made to keep the advertising message in harmony with the content and general tone of the program in which it appears.

b) A sponsor's advertising messages should be confined within the framework of the sponsor's program structure. A television broadcaster should avoid the use of commercial announcements which are divorced from the program either by preceding the introduction of the program (as in the case of so-called "cow-catcher" announcements) or by following the apparent sign-off of the program (as in the case of so-called "trailer" announcements). To this end, the program itself should be announced and clearly identified BOTH AUDIO AND VIDEO before the sponsor's advertising material is first used, and should be signed off BOTH AUDIO AND VIDEO after the sponsor's advertising material is last used.

c) Advertising copy should contain no claims intended to disparage competitors, competing products, or other industries, professions or institutions.

d) Since advertising by television is a dynamic technique, a television broadcaster should keep under surveillance new advertising devices so that the spirit and purpose of these standards are fulfilled.

e) Television broadcasters should exercise the utmost care and discrimination with regard to advertising material, including content, placement and presentation, near or adjacent to programs designed for children. No considerations of expediency should be permitted to impinge upon the vital responsibility towards children and adolescents, which is inherent in television, and which must be recognized and accepted by all advertisers employing television.

f) Television advertisers should be encouraged to devote portions of their allotted advertising messages and program time to the support of worthy causes in the public interest in keeping with the highest ideals of the free competitive system.

g) A charge for television time to churches and religious bodies is not recommended.

### ACCEPTABILITY OF ADVERTISERS AND PRODUCTS

#### General

1. A commercial television broadcaster makes his facilities available

for the advertising of products and services and accepts commercial presentations for such advertising. However, a television broadcaster should, in recognition of his responsibility to the public, refuse the facilities of his station to an advertiser where he has good reason to doubt the integrity of the advertiser, the truth of the advertising representations, or the compliance of the advertiser with the spirit and purpose of all applicable legal requirements. Moreover, in consideration of the laws and customs of the communities served, each television broadcaster should refuse his facilities to the advertisement of products and services, or the use of advertising scripts, which the station has good reason to believe would be objectionable to a substantial and responsible segment of the community. The foregoing principles should be applied with judgment and flexibility, taking into consideration the characteristics of the medium and the form and content of the particular presentation. In general, because television broadcast is designed for the home and the family, including children, the following principles should govern the business classifications listed below:

- a) The advertising of hard liquor should not be accepted.
  - b) The advertising of beer and wines is acceptable only when presented in the best of good taste and discretion, and is acceptable subject to federal and local laws.
  - c) Advertising by institutions or enterprises which in their offers of instruction imply promises of employment or make exaggerated claims for the opportunities awaiting those who enroll for courses is generally unacceptable.
  - d) The advertising of firearms and fireworks is acceptable only subject to federal and local laws.
  - e) The advertising of fortune-telling, occultism, spiritualism, astrology, phrenology, palm-reading, numerology, mind-reading or character-reading is not acceptable.
  - f) Because all products of a personal nature create special problems, such products, when accepted, should be treated with especial emphasis on ethics and the canons of good taste; however, the advertising of intimately personal products which are generally regarded as unsuitable conversational topics in mixed social groups is not acceptable.
  - g) The advertising of tip sheets, race track publications, or organizations seeking to advertise for the purpose of giving odds or promoting betting or lotteries is not acceptable.
2. Diligence should be exercised to the end that advertising copy accepted for telecasting complies with pertinent federal, state and local laws.
3. An advertiser who markets more than one product should not be permitted to use advertising copy devoted to an acceptable product for purposes of publicizing the brand name or other identification of a product which is not acceptable.

### ADVERTISING OF MEDICAL PRODUCTS

1. The advertising of medical products presents considerations of intimate and far-reaching importance to the consumer, and the following principles and procedures should apply in the advertising thereof.

a) A television broadcaster should not accept advertising material which in his opinion offensively describes or dramatizes distress or morbid situations involving ailments, by spoken word, sound or visual effects.

b) Because of the personal nature of the advertising of medical products, claims that a product will effect a cure and the indiscriminate use of such words as "safe", "without risk", "harmless", or terms of similar meaning should not be accepted in the advertising of medical products on television stations.

### Contests

1. Contests should offer the opportunity to all contestants to win on the basis of ability and skill, rather than chance.

2. All contest details, including rules, eligibility requirements, opening and termination dates should be clearly and completely announced and/or shown or easily accessible to the viewing public, and the winners' names should be released and prizes awarded as soon as possible after the close of the contest.

3. When advertising is accepted which requests contestants to submit items of product identification or other evidence of purchase of product, reasonable facsimiles thereof should be made acceptable.

4. All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection should be considered a part of and included in the total time allowances as herein provided. (see Time Standards for Advertising Copy.)

### Premiums and Offers

1. Full details of proposed offers should be required by the television broadcaster for investigation and approval before the first announcement of the offer is made to the public.

2. A final date for the termination of an offer should be announced as far in advance as possible.

3. Before accepting for telecast offers involving a monetary consideration, a television broadcaster should satisfy himself as to the integrity of the advertiser and the advertiser's willingness to honor complaints indicating dissatisfaction with the premium by returning the monetary consideration.

4. There should be no misleading descriptions or visual representations of any premiums or gifts which would distort or enlarge their value in the minds of the listeners.

5. Assurances should be obtained from the advertiser that premiums offered are not harmful to person or property.

6. Premiums should not be approved which appeal to superstition on the basis of "luck-bearing" powers or otherwise.

### Time Standards for Advertising Copy

1. In accordance with good telecast advertising practices, the time standards for advertising copy are as follows:

Length of Program (minutes)	Length of Advertising Message (minutes and seconds)		
	News Programs	All Other Programs	
	Day and Night	Class "A" Time	All Other Hrs.
5	1:00	1:00	1:15
10	1:45	2:00	2:10
15	2:15	2:30	3:00
25		2:50	4:00
30		3:00	4:15
45		4:30	5:45
60		6:00	7:00

2. Reasonable and limited identification of prize and statement of the donor's name within formats wherein the presentation of contest awards or prizes is a necessary and integral part of program content shall not be included as commercial time within the meaning of paragraph 1. above; however, any oral or visual presentation concerning the product or its donor, over and beyond such identification and statement, shall be included as commercial time within the meaning of paragraph 1. above.

3. The time standards set forth above do not affect the established practice of reserving for station use the last 30 seconds of each program for station break and spot announcements.

4. Announcement programs are designed to accommodate a designated number of individual live or recorded announcements, generally one minute in length, which are carried within the body of the program and are available for sale to individual advertisers. Normally not more than 3 one-minute announcements (which should not exceed approximately 125 words if presented live) should be scheduled within a 15-minute period and not more than six such announcements should be scheduled within a 30-minute period in local announcement programs; however, fewer announcements of greater individual length may be scheduled, provided that the aggregate length of the announcements approximates three minutes in a 15-minute program or six minutes in a 30-minute program. In announcement programs other than 15 minutes or 30 minutes in length, the proportion of one minute of announcement within every five minutes of programming is normally applied. The announcements must be presented within the framework of the program period designated for their use and kept in harmony with the content of the program in which they are placed.

5. Programs presenting women's services, features, shopping guides, market information, and similar material, provide a special service to the listening and viewing public in which advertising material is an informative and integral part of the program content. Because of these special characteristics the time standards set forth above may be waived to a reasonable extent.

6. Even though the commercial time limitations of the Code do not specifically prohibit back-to-back announcements, such a practice is not recommended for more than two announcements, either at station break or within the framework of a single program.

7. Any casual reference BY TALENT in a program to another's product or service under any trade name or language sufficiently descriptive to identify it should, except for normal guest identifications, be condemned and discouraged.

8. Stationary backdrops or properties in television presentations showing the sponsor's name or product, the name of his product, his trade mark or slogan may be used only incidentally. They should not obtrude on program interest or entertainment. "On Camera" shots of such materials should be fleeting, not too frequent, and mindful of the need of maintaining a proper program balance.

### **Dramatized Appeals and Advertising**

Appeals to help fictitious characters in television programs by purchasing the advertiser's product or service or sending for a premium should not be permitted, and such fictitious characters should not be introduced into the advertising message for such purposes. When dramatized advertising material involves statements by doctors, dentists, nurses or other professional people, the material should be presented by members of such profession reciting actual experience or it should be made apparent from the presentation itself that the portrayal is dramatized.

### **Sponsor Identification**

Identification of sponsorship must be made in all sponsored programs in accordance with the requirements of the Communications Act of 1934, as amended, and the Rules and Regulations of the Federal Communications Commission.

★

## **REGULATIONS AND PROCEDURES**

The following REGULATIONS AND PROCEDURES shall obtain as an integral part of the Television Code of the National Association of Radio and Television Broadcasters:

### **I**

#### **Name**

The Name of this Code shall be the Television Code of the National Association of Radio and Television Broadcasters.\*

### **II**

#### **Purpose of the Code**

The purpose of this Code is cooperatively to maintain a level of television programming which gives full consideration to the educational, informational, cultural, economic, moral and entertainment needs of the American public to the end that more and more people will be better served.

### **III**

#### **Subscribers**

##### **Section 1. Eligibility**

Any individual, firm or corporation which is engaged in the operation of a television broadcast station or network, or which holds a construction permit for a television broadcast station within the United States or its

\* "Television Board. The Television Board is hereby authorized:—(4) to enact, amend and promulgate standards of practice or codes for its Television members, and to establish such methods to secure observance thereof as it may deem advisable; —". *By-Laws of The National Association of Radio and Television Broadcasters, Article VII Section 2, B. (4).*

dependencies, shall, subject to the approval of the Television Board of Directors as hereinafter provided, be eligible to subscribe to the Television Code of the NARTB to the extent of one subscription for each such station and/or network which it operates or for which it holds a construction permit; provided, that a non television-member of NARTB shall not become eligible via code subscription to receive any of the member services or to exercise any of the voting privileges of a member.

### Section 2. Certification of Subscription

Upon subscribing to the Code, subject to the approval of the Television Board of Directors, there shall be granted forthwith to each such subscribing station authority to use the "NARTB Television Seal of Good Practice", a copyrighted and registered seal to be provided in the form of a certificate, a slide and/or film, signifying that the recipient thereof is a subscriber in good standing to the Television Code of NARTB. The seal and its significance shall be appropriately publicized by the NARTB.

### Section 3. Duration of Subscription

Subscription shall continue in full force and effect until thirty days after the first of the month following receipt of notice of written resignation. Subscription to the Code shall be effective from the date of application subject to the approval of the Television Board of Directors; provided, that the subscription of a television station going on the air for the first time shall, for the first six months of such subscription, be probationary, during which time its subscription can be summarily revoked by an affirmative two-thirds vote of the Television Board of Directors without the usual processes specified below.

### Section 4. Suspension of Subscription

Any subscription, and/or the authority to utilize and show the above-noted seal, may be voided, revoked or temporarily suspended for television programming, including commercial copy, which by theme, treatment or incident, in the judgment of the Television Board constitutes a continuing, willful or gross violation of any of the provisions of the Television Code, by an affirmative two-thirds vote of the Television Board of Directors at a regular or special meeting; provided, however, that the following conditions precedent shall apply: (1) The subscriber shall be advised in writing by Registered Mail of the charges preferred; (2) Such subscriber shall have a right to a hearing and may exercise same by filing an answer within 10 days of the date of such notification; (3) Failure to request a hearing shall be deemed a waiver of the subscriber's right thereto; (4) If hearing is requested by the subscriber, it shall be designated as promptly as possible and at such time and place as the Television Board may specify. Oral and written evidence may be introduced by the subscriber and by the Television Code Review Board (hereinafter provided for). Oral argument may be had at the hearing and written memoranda or briefs may be submitted by the subscriber and by the Television Code Review Board. The Television Board of Directors may admit such evidence as it deems relevant, material, and competent and may determine the nature and length of the oral argument and the written argument or briefs to be submitted. The Television Board of Directors shall decide the case as expeditiously as possible and shall notify the subscriber and the Television Code Review Board in writing of the decision.

## Section 5. Additional Procedures

The Television Board of Directors shall, from time to time, establish such additional rules of procedure as, in its opinion, may be necessary for the proper administration of the Code; provided, that special considerations shall be given to the procedures for receipt and processing of complaints and to necessary rules to be adopted from time to time, taking into account the source and nature of such complaints; such rules to include precautionary measures such as the posting of bonds to cover costs and expenses of processing same; and further provided, that the Board of Directors shall take the steps necessary to insure the confidential status of any proceedings before it.

## Section 6. Amendment and Review

Because of the new and dynamic aspects inherent in television broadcast, the Television Code, as a living, flexible and continuing document, may be amended from time to time by the Television Board of Directors; provided that said Board is specifically charged with review and reconsideration of the entire Code, its appendices and procedures, at least once each year.

## Section 7. Termination of Contracts

All subscribers on the air at the time of subscription to the Code shall be permitted that period prior to and including the earliest legal cancellation date to terminate any contracts, then outstanding, calling for program presentations which would not be in conformity with the Television Code, provided, however, that in no event shall such period be longer than fifty-two weeks.

## IV

### Rates

Each subscriber shall pay 'administrative' rates in accordance with such schedule at such time, and under such conditions as may be determined from time to time by the Television Board (see Article VII Section 2.B (3) and (4), *By-Laws of the NARTB*); provided, that appropriate credit shall be afforded to a television member of the NARTB against the regular dues which he or it pays to NARTB-TV.

## V

### The Television Code Review Board

#### \* Section 1. Composition

The Television Board of Directors shall establish a continuing committee entitled the Television Code Review Board, upon the promulgation of the television code. The Review Board shall be composed of five members, all of whom shall be from the Television membership of NARTB. Members of the Television Board of Directors shall not be eligible to serve on the above specified Review Board. Members of the Review Board shall be appointed by the President of the NARTB, subject to confirmation by the Television Board of Directors. Due consideration shall be given, in making such appointments, to factors of diversification of geographical location, company representation and network affiliation. Those members appointed, following promulgation of the Code, shall serve until immediately following

\* Amended February 4, 1953.

the annual NARTB Convention of 1953. Immediately following the end of the meeting in 1953 there shall be appointed three members who shall serve for two years and two members who shall serve for one year starting at the time of appointment.

Starting in 1954 and every even numbered year thereafter, two members shall be appointed for two-year terms; and then in every odd numbered year thereafter, three two-year members shall be appointed.

### Limitation of Service

A person shall not serve consecutively as a member of the Review Board for more than two two-year terms or for more than four years consecutively, after April 30, 1953.

#### Section 2. Quorum

A majority of the membership of the Television Code Review Board shall constitute a quorum for all purposes unless herein otherwise provided.

#### Section 3. Authority and Responsibilities

The Television Code Review Board is authorized and directed:

(1) To maintain a continuing review of all television programming, especially that of subscribers to the television code of the NARTB; (2) to receive, screen and clear complaints concerning television programming; (3) to define and interpret words and phrases in the Television Code; (4) to develop and maintain appropriate liaison with government agencies and with responsible and accountable organizations and institutions; (5) to inform, expeditiously and properly, a subscriber to the Television Code of complaints or commendations, as well as to advise all subscribers concerning the attitude and desires program-wise of accountable organizations and institutions, and of the American public in general; (6) to review and monitor, if necessary, any certain series of programs, daily programming, or any other program presentations of a subscriber, as well as to request recordings, aural or kinescope, or script and copy, with regard to any certain program presented by a subscriber; (7) to reach conclusions, and to make recommendations or prefer charges to the Television Board of Directors concerning violations and breaches of the Television Code by a subscriber; (8) to recommend to the Television Board of Directors, amendments to the Television Code.

#### A. Delegation of Powers and Responsibilities

The Television Code Review Board may delegate, from time to time, such of its above-specified responsibilities, as it may deem necessary and desirable, to a Staff Group of the NARTB-TV.

#### B. Meetings

The Television Code Review Board shall meet regularly once each quarter of the calendar year on a date to be determined by the Chairman. The chairman of the Review Board may at any time on at least five days' written notice call a special meeting of the Board.

# COMMERCIAL AM PROGRAMS OF 1955

(NETWORK)

The following pages contain a complete alphabetical listing of program titles of the four national radio networks' commercial programs heard during the 12-month period ending Dec. 31, 1955. Listing includes program title, sponsor and product, network and the advertising agency handling the account. Compilation has been made through the cooperation of ABC, CBS, MBS, and NBC. Programs are all of 13-week duration or longer.

# COMMERCIAL TV PROGRAMS OF 1955

(NETWORK)

The following pages contain an alphabetical listing by program title of the four national television networks' commercial programs during 1955. The programs listed are for the 12-month period ending Dec. 31, 1955. Listing includes program title, sponsor and product, network and the advertising agency handling the account. Programs are all of 13-week duration or longer. Compilation has been made through the cooperation of ABC, CBS and NBC.

# "Printed Letterpress" ... is like Sterling on Silver

Just as the word Sterling has been used to mean high quality silver since the 12th century, Letterpress is the standard for comparison of printed material.

Sterling quality in printing can be achieved only with the Letterpress process. The Letterpress printed product has clarity, snap, punch and detail. The blacks are truly black. The halftone dots have a firm, sharp outline.

Letterpress methods are mechanical, controllable and, therefore, precise. Letterpress provides true proofs, the greatest flexibility in the use and re-use of plates.

Quality is taken for granted today in national magazines, textbooks, Bibles and manuals, because they are finely printed by Letterpress.

Whatever your next printed piece might be—if it is worth putting ink on paper, it deserves Letterpress printing . . . and you pay no more for its sterling quality.

*Specify it by name: Print it Letterpress!*

In this great land of ours science flourishes under freedom. It is one of the conspicuous dimensions of freedom. But its victories will be empty unless we safeguard our heritage of liberty, unless we protect at every step our freedom to think, to research, to invent and to develop.

A handwritten signature in cursive script, reading 'David Sarnoff'. The signature is written in a dark ink and is positioned above the title 'Chairman of the Board'.

Chairman of the Board
