Weekly Review of Radio News-Thought and Opinion

POSSIBLE EFFECTS OF LEGISLATION ON RADIO ADMINISTRATION

Two definite trends appear apparent in the radio legislation pending in Congress with regard to the Federal Radio Commission. The first is that the autocratic power of the Commission will be limited, and the second that the Federal regulatory body is to become more of a "political football" in the matter of minor appointments.

Provisions of two bills before Congress now specifically broaden the powers of appeal or redress from decisions of the Commission. One is being considered for inclusion in the revised Couzens Communications Commission measure, while the other is embodied in the bill introduced in the House of Representatives by Wallace White, Jr., of Lewiston, Maine.

At present the only resort an applicant for broadcasting facilities has from an unfavorable ruling of the Commission is to the Court of Appeals of the District of Columbia. And the residents of the State, or listeners, as such have no recourse, save, perhaps, the uncertain appeal to their respective Congressmen.

RADIO MAKING FLYING SAFE

As soon as the Airways Division of the Department of Commerce completes its radio communication system along the air routes, an aviator will always be within 100 miles of a radio station, thus virtually eliminating the chances of his getting lost.

In addition to always being able to ascertain his position, the pilot will also obtain complete weather reports along the air route, thus decreasing the untainty of flying.

Ten radio beacons are now in operation and 26 are in the course of construction by the Department of Commerce.

Teletype machines, which transmit weather information, now cover 5,600 miles. Thirty-four communication stations are in use along the airways, and 13 more are being built. There are also 9 range finders in use and 28 being constructed.

GERMANY TO START TELEVISION SERVICE

Germany plans to have commercial television service in operation very soon, according to Gerald C. Gross, Short Wave Engineer of the Federal Radio Commission, who recently made a survey of radio conditions in Europe for the Commission. Television research, which is carried on by the German Post Office Department, is well along, he states, in a report to the Commission, and it is expected that the system will soon be ready for use.

YOUNG HOOVER ASKS LICENSE

Herbert Hoover, Jr., has applied to the Radio Commission for a construction permit for an additional short wave transmitter to continue his experiments at Leland Stanford University. He now has a license for 10 watt portable station and is asking for another station with 2,000 watts.

EIGHT RADIO SETS IN WHITE HOUSE

One of the most completely equipped residences in the country, from the radio salesman's point of view, is the White House. There are eight high-powered receiving sets, some of them custom built, in the home of the President and Mrs. Hoover, according to Lorenz Wolters, radio editor of the Chicago Tribune.

STUDIO NEWS

Opportunity knocks at Will Rogers' door! KHJ has promised that if Will makes good in the series of broadcasts scheduled for 13 weeks, beginning April 6, a permanent place on the KHJ staff will be given him, probably in the capacity of announcer and general utility man. Mr. Rogers will have his big moment Sunday, April 6, from 7 to 7:30 p. m., when he will go on the air from the studios of KHJ over the Columbia Broadcasting System to the east coast. In the West, KFRC, KOL, KFPY and KOIN will release the program.

Another hilarious black-face comedy, with a multitude of new jokes and old songs, will be broadcast by the KOA Koons over KOA on Thursday, April 10, at 9 p. m., P. S. T.

At the time of going to press, KSL is the only western station scheduled to take the Easter Sunrise Services in the Garden Amphitheatre of the Walter Reed General Hospital in Washington, D. C. This beautiful program will reach KSL at 5:30 a. m., M. S. T., Sunday, April 20.

Bob and Monte, whose picture appeared on a recent issue of Radio Doings, are on a tour during which they will sing from the following stations: KOB, April 6 and 20 at 8 p. m.; KFWM, April 7 and 21, at 7:45 p. m.; KLZ, April 10 and 24, at 6:45 p. m.; KDYL, April 10 and 24, at 7:45 p. m.; KFWI, April 11 and 25, at 7:15 p. m.; KGA, April 19, at 7:15 p. m., and KEX, April 12 and 26, at 8:45 p. m.

Tom Mitchell, for many years one of the most popular entertainers in radio, is now appearing before the microphone of KMTR on Monday, Wednesday and Friday evenings from 6:30 to 7:00 o'clock, singing ballads and popular numbers in his pleasant baritone voice.

Thousands of listeners up and down the Pacific Coast sit themselves down

on Monday evenings and give two hours from 8 to 10 over to complete relaxation and enjoyment derived from the Golden State Blue Monday Jamboree which originates in the San Francisco studios of KFRC and is in turn relayed from KHJ, KMJ and KOL. If you haven't discovered this program, tune in next Monday.

Jacques Jou-Jerville, KNX music conductor, directs Gilbert and Sullivan "Patience" next Saturday night from 8 to 9. A series of musical comedies will be given at this time.

KHJ and the Columbia Broadcasting System will carry the Dr. William Henry Welch Dinner Celebration to the Nation on Tuesday, April 8, from 8 to 9 p. m. The affair is in honor of the 80th birthday anniversary of Dr. Welch of Johns Hopkins. Among the speakers will be no less a person than President Hoover.

KNX announces with pleasure that Theodore Kittay, tenor, formerly of the Chicago and Boston Grand Opera Companies and one of the few artists to enjoy the privilege of a close friendship with Puccini, is now a staff member and is heard on many programs over that station. See detailed program of KNX.

KEX presents to listeners a Russian program of music and entertainment on Sunday afternoons from 1 to 1:30.

"Put" and "Jake" offer a theatre logue review and a running fire of chatter in their roles as hotel information clerks. Tune in on KGB every week-day evening at 6:45.

"Java's Thousand Buried Temples" is the intriguing title chosen by Dr. J. C. Hill of the University of Southern California for his radio talk over KMP next Wednesday from 4 to 4:30 p. m.

POWELL

All Electric Radio Receiver

— ◆ —
Dependable!

It is a real joy to have a radio set that is always "there" when you want it.

You want a certain program, you turn the dial, and in it comes, clear, distinct and with all the beauty of tone originally supplied by the artist or artists.

Don't forget that the Cathedral is easily transported, which will allow you to have enjoyable, clear programs at your mountain cabin, at the beach or at the home of a friend.

The Powell is beautiful in appearance and outstanding in performance. It has a sturdy steel chassis, heavy duty power supply, seven A. C. tubes completely shielded, four tuned stages, four gang condensers and drum dial.

Around the Dial

"Around the Dial":

In March 15 issue of Radio Doings, I noticed that one of the readers would like to know if he will be able to hear Honolulu this winter. (Spring is here. —Ed.)

Just returned from Honolulu, where I have lived for the last five years. There are two stations—KGU, 1000 watts, 940 kc., and KGMB, 500 watts, 1320 kc.

I don't think the smaller station could be heard, as I had considerable interference listening to KGU on February 11, their opening night, in their new studio.

KGU signs off at 9:30 p. m., H. S. T. (12 midnight, P. S. T.) each night. KOIN and KFIW sign off at 12 midnight and 1 a. m., P. S. T., respectively. So it can be seen that the 940 kc. channel is not clear till morning, and Honolulu is off the air then.

The only chance for "Island reception" is to have advance information of a late KGU broadcast.

My receiver is a four-tube Roberts, on which I have verifications of reception of stations 5000 miles distant.

J. STANLEY LYNCH.

4319 Proctor Place, San Diego, Calif.

Around the Dial:

I never have seen CFCT in Victoria, British Columbia, mentioned in this interesting page. I should like to say this station can be found on the air at 630 kilocycles as soon as KFI signs off.

Who's the funny talking guy at 750 kilocycles? I thought this was CMK, but I heard CMK at 730 kilocycles. Any news would be a great help in logging this.

WALBERT BROWN.

1122 Victoria Ave., Los Angeles, Calif.

Around the Dial:

I got up Saturday morning, March 15, and report the following reception: KFKB, 3:20; KTSA, 3:35; KCRC, 4:01; KFWM, 4:03; WGY, 3:45; JOHK, 3:30; JOBK, 3:10; KFKA, 3:43; WTAR, 3:00.

I also had a forecast station broadcasting from some airport. This came in at 2:48 a.m. on 990 kilocycles.

I consider this pretty good, when you consider the fact that I am using a 22-foot inside aerial, and the ground is connected to an electric light plug.

Thanking you for the information that I have gained from "The Around the Dial."

BILL CALDWELL.

2027 Wellington Road, Los Angeles.

"Around the Dial":

Last Friday evening, about 9 p. m., Pacific Standard time, I picked up station WKBW, at Buffalo, New York, which, to me, is a new station. Has anyone else reported hearing this one? They are on 1470 kilocycles. I do not know whether this is their regular program hour or not, but the reception was very plain.

I also heard KFBB, at Great Falls, Montana, last Sunday morning, at 3 a. m. They were testing on their new wave-length of 1280 kilocycles, and were coming in very clearly.

Station KFH, at Wichita, Kansas, on a wave-length of 1300 kilocycles, comes in the early morning hours of the week days; and also station KLO, at Ogden, Utah, located on the dial between 1300 and 1400 kilocycles.

Has anyone else reported picking up the Buffalo station? I hope this letter will help someone in locating these stations, as other letters have helped me. I certainly enjoy the "Around the Dial" page, and find it very helpful.

H. E. STEWART,

1301 West 51st St.,

Los Angeles, Calif.

JAPAN PLANS RADIO TO SOUTH SEAS

Direct radio service between Japan and Australia, including the South Seas and Straits Settlements, will be established soon, the Department of Commerce has been informed by Baron Yashshi Togi.

Reports of reception on March 9th of WGY, originating at W2XAG, have been received from Homer G. Gosney, Redondo Beach; Mrs. I. T. Massey, Venice, and others.

Radiette

Licensed under R. C. A., Hazeltine and Latour Patents

A Masterpiece of Expert Engineering and Designing

The New Radiette, beautiful enough for the finest living room. Compact enough to be easily carried from place to place.

\$59.50 You will be amazed that you are able to obtain such outstanding performance at such an unbelievably low cost.

Questions & Answers

A Weekly Department Conducted by K.G. Ormiston, I.R.E.

QUESTION—I have often read of "the ether" in connection with radio, and of "ether waves." And I understand that radio has nothing to do with the air, in spite of our announcers talking about "coming on the air," etc., but would like some information about this "ether" business.

M. L. M., Venice, Calif.

ANSWER—The real fascination in study of radio lies in the fact that we are dealing with the ether, that mysterious and unknown medium of transmission, which we can harness and use for our purpose, and yet, which our five senses cannot detect. We can prove its existence by making it work for us, and yet we cannot see, touch, feel, hear or taste it. We cannot weigh or measure it. We cannot define it, other than that it occupies all space and pervades all matter.

A vast amount of energy reaches us from the Sun in the form of light. Our atmosphere ceases a few miles above the earth's surface, and beyond that there is apparently nothing. Yet some medium must exist throughout those 92,000,000 miles of space which can vibrate and transmit the Sun's light energy to us. Light is a wave motion, a vibration. Hence, there must be something to carry this motion, something to vibrate.

Consider the ordinary electric light. It is obvious that the light which reaches our eye from the incandescent filament does not travel in air, because there is no air between the filament and the glass globe. Therefore, we must assume this strange something called the ether, which is capable of transmitting light and other forms of energy, and which exists everywhere throughout the universe. You and I and our world, and the other worlds and suns live and move in this limitless sea of ether!

Magnetism is another vital force which belongs to the ether. A certain magnet exerts a pull of ten pounds upon a block of iron, let us say. Place the magnet, the block of iron, and the meas-

uring device in an airtight tank, pump out all of the air that can possibly be pumped out, and the scale will still show a ten-pound pull. Demonstrating that the force of magnetism, without which we could have no electricity or electrical devices, is another form of energy which exerts itself through the ether.

In everyday life we transmit millions of horsepower through this medium which we call the ether, yet we do not list it among the seventy-seven forms of matter which compose us and our world.

The ether is the medium of transmission in radio. In the act of transmitting we create a disturbance in the ether, and this sets up a wave motion which travels out in all directions and which can be detected at a distance. The electro-magnetic waves which are employed in radio transmission travel at the same velocity as light waves, and differ from light only in the number of vibrations per second. This velocity is roughly 186,000 miles per second.

If it were possible to reflect a beam of light all the way around the world, it would require but a seventh of a second for the trip. Radio waves, which are, fortunately, reflected around the world by natural means, make the circuit in about a seventh of a second. This has been accurately measured. And so, when we state that radio and light travel at the same speed, we know it for a fact, and when we say that this speed is approximately 186,000 miles per second, we are equally certain. The speed of light has been quite accurately determined.

Radio waves in the ether are produced by a certain kind of an electric current in the antenna or aerial wires of the transmitting station. These waves will, in turn, produce an exactly similar current in the antenna or aerial wire of a receiving station, under certain conditions. This particular type of electric current in the transmitting antenna causes a violent disturbance in the ether at that point. The wave motion starts out in all directions.

DX Club:

This being the third letter and list this winter, I hope this at least will get in the Little Red Book. None of mine has made it so far. Wish to state that I do not log a station unless I get the call letters or the city from which the station is located. Have an A. K. 60, using two aerials, one 60 feet long and the other 15 feet long. Have a switch, which I can operate one or the other. I also made an arrangement whereby I can move the condensers either in unison or separate, which helps on fine tuning. I use no ground. Here, by states, is a list of stations I have logged:

Alabama—WAPI.

Arizona—KOY, KTAR, KGAR.

Arkansas—KUOA, KTHS, KGJF.

California—KRE, KMJ, KFQU, KLX, KFBK, KDB, KSMR and 30 S. F. and locals.

Colorado—KFEL, KLZ, KFXF, KOA, KGIW.

Florida—WRUF, WQAM.

Georgia—WSB.

Idaho—KSEI, KGIQ.

Illinois—WBBM, WCHI, WENR, WGN, WJAZ, WMAQ, KYW.

Indiana—WOWO.

Iowa—WOI, KOIL, WOC, KTNT, WHO.

Kansas—WREN, KSAC, KFKB, WIBW.

Kentucky—WCKY, WFIW, WHAS.

Maryland—WBAL.

Massachusetts—WBZ.

Michigan—WJR.

Minnesota—WCCO, KSTP.

Missouri—WOS, WDAF, KMBC, KFEQ, KMOX, KWK.

Montana—KGIR, KFBB.

Nebraska—KFAB, KMMJ, KGBZ.

Nevada—KGIX, KOH.

New Jersey—WPG, WOR.

New Mexico—KOB.

Louisiana—KWKH, KTBS, WWL.

New York—WABC, WEAf, WHAM, WGY.

North Carolina—WBT.
North Dakota—KFYR.
Ohio—WLW, WHK, WTAM.
Oklahoma—WKY, KFJF, KVOO, KCRC.

Oregon—KOAC, KMED, KEX, KGW, KOIN, KTBR.

Pennsylvania—WCAU, KDKA.

South Dakota—KSOO.

Tennessee—WMC, WLAC, WSM, WTNT.

Texas—KGRS, WFAA, KRLD, KTSM, WBAP, KSAT, KRGV, KPRC, WOAI, K TSA.

Utah—KLO, KDYL, KSL.

Washington—KJR, KOL, KOMO, KPQ, KXA, KFPY, KGA, KHQ, KMO, KVI.

Wisconsin—WTAB, WEBC.

Canada—CNRO, CFCT, CFCN, CKGW, CKCD, CKMO, CKWX, CNRV.

Argentina—LS5, LS7.

Cuba—CMC, CMK, CMW.

Japan—JOAK, JOBK, JOCK, JOGK, JOHK, JOIK, JQAK.

Mexico—XEB, XEN, XFX.

New Zealand—3YA.

Which makes 175 stations in all, while living in the city, I think is fairly good.

In response to D. M. Boozer of Wilmar, Calif.: His foreign station that he speaks of is perhaps LS5, as they come in very close to KNX, and I have had them several times. I have to thank the Call Book and Radio Doings for my list of stations.

As this season is almost over, may we look forward to a better one next winter. Lots of success to fellow DXers.

RALEIGH N. EVANS,

432 S. Avenue 21, Los Angeles, Calif.

SECOND PRIZE

the *FLINT* Big Chief

ACCOUSTICART

Particular attention is being called to this new feature in tone chamber design. On the Pacific Coast it is only used in Flint Products. This speaking device is comparable to the underlying principle of violin construction. Note the trueness of the reproduction, the roundness of tone and sharpness of the now distinguishable instruments of an orchestra, made possible by the Accousticart. The new method is one of the features of the Flint Big Chief.

This Week's Prize Win

Bouldin Cage Antenna

Majestic DX Contest:

During the first part of February I purchased a Model 93, Majestic, the May Company (Serial No. 652). I had seen the ads in the paper announcing the new Majestic, and was interested.

I had a 6-tube—that if I had luck with it, I could get San I so I bought the Majestic. During first couple of weeks I was much disappointed in it, I could get a few tions up and down the coast, could not get much distance, I th the talk about getting distance w sales talk, I had the May company out a service man, and wanted h take the machine apart and ma work. "I wanted distance." He laughed at me, and said we do not antee distance, and did not want t to me. He said you have the bes chine on the market, and left n made up my mind I was going to it back, but my wife liked the and wouldn't let me. She said are good enough, so we didn't s back. Then I began trying some and in the last ten days have ju gun to find out that the Majesti all right, but that it was me tha wrong. I didn't know how to w How to find a faint signal and t in, and I think my log will show for distance in all directions, I done pretty good for this short

RULES

1. Contest open to any Majestic owner living in Southern California or Arizona.
2. Majestic dealers, their relatives or employees are not eligible to enter station logs for prizes.
3. Letters must state Serial number of Majestic radio owned and name of dealer from whom purchased.
4. Station list must show date and time station was heard, record of selections broadcast by station at that time, and be certified by a Notary Public.
5. Prizes will be awarded, not only on a basis of the size of the log but will take into consideration location, interference conditions, time, etc. The longest log from a good location may be of less merit than a shorter one from a more difficult location.
6. Logs entered by contestants early in the contest may be supplemented by subsequent lists later in the "DX" season.

JUDGES:

K. G. Ormiston, Tech. Ed. Radio Doings
Naylor Rogers, Mgr. Radio Station KNX
Al Farquharson, Sec. L. A. Radio Trades Assn.

PRIZES:

WEEKLY PRIZE Bouldin Cage Antenna Value \$15

Majestic DX Contest:

Owing to the fact that I have been
 working night and day, I have neglected
 to write to you before.

You published my letter and log in
 the Feb. 23 to March 1 edition of "Radio
 Doings." in the "DX" Contest. I am
 sincerely thanking you, and also am
 sending in my present log to date.

I purchased my Majestic 91 from C.
 Alexander & Co. of Torrance, Calif.
 Serial No. 0579899.

Being a booster for "Majestic," is
 putting it far too mild.

I am still using a fifty foot aerial and
 a pipe driven in the ground for a
 ground.

I surely would never have gotten the
 more distant stations if I hadn't been
 helped by "Radio Doings."

Here's my present list, and I have
 verifications on ninety per cent of the
 "DX's":

KFOX, KFBR, KFKB, KFEL, KFVD,
 KOA, WLW, WBAP, WFAA, KPO, KFI,

Jackson-Bell

(Continued from Page 16)

son-Bell Co. has been making weekly shipments to practically all of the important radio centers throughout the United States, as well as to Central and South America, Mexico, New Zealand and the Hawaiian Islands.

This company, a pioneer on the Pacific Coast in the manufacture of all-electric receivers, has been compelled, through the increased demands for this Model "59," to double its production facilities so as to enable them to promptly and efficiently take care of its fast growing business. It has recently established an export department in its organization to take care solely of the export business which it is now enjoying.

DAILY EXCEPT SUNDAY

- 7:45 a. m.—Devotional Exercises.

- 8:00 p. m.—International Sunday School Lesson.
- 9:30 p. m.—Penrod Stories.
- 10:00 p. m.—Spotlight Revue.

The Radio Trades Association met Thursday, April 3, for their regular meeting at the Breakfast Club. Mr. Mort Stuart of the Los Angeles Furniture Co. spoke on "Sink or Swim," and the Troubadours furnished delightful music. George Walters spoke on "Home Interference." Next meeting is May 1.

P. F. Wiley, representing the Arcturus Radio Tube Company, announces the appointment of Earl E. Scott as special sales promotion manager in the territory of Southern California and Arizona. We wish Scotty, as he is known to the trade, much success in his new capacity.

Mr. Marshall Borden, founder of the Plymouth Radio Corporation of 2825 North Main Street, who are manufacturing the Plymouth Screen Grid Radio, states that orders are pouring in thick and fast from his announcement in Radio Doings. He goes on to state that business is excellent and that he is fast signing up dealers in different sections of the country and also has one distributor covering seven eastern states.

The National Company of Malden, Mass., has just announced an automobile set which will list for \$89.50 complete with loud speaker. It is a screen grid tube set employing three type 224 and two type 112-A tubes. Mr. W. Cooke, the Southern California representative, states that the Herbert H. Horn Company and the Radio Supply Company will be the Southern California distributors for this set.

Mr. Hayward Powell of the Powell Manufacturing Company of Los Angeles reported last week that they are having to work overtime to fill the orders coming in from their branch offices in Seattle and San Francisco. The compact little Powell Cathedral has apparently caught the fancy of the Northwest, for they are ordering them faster than they can be manufactured,

We welcome a new manufacturer into the field. It is the Davison-Haynes Company of 2044 Venice Blvd.; phone REpublic 4611. Mr. Davison was formerly with the Master Radio Corporation and has been a radio engineer for many years. Mr. Bob Haynes has had wide and varied experience in radio. He started in the game with the Benjamin brothers and he helped very considerably to popularize their set, the Angelus. He has also been connected with Ray Thomas, Inc., and Zaney-Gill. Another old-timer who will be associated with this concern is Mr. Hetzel, who will act in the capacity of production engineer. The new set will be called the Angelus and announcements will be forthcoming within the next two weeks.

Mr. James DePree, sales manager for the Colin B. Kennedy Corporation of South Bend, Indiana, has been on the Coast for the last two weeks. He is out here to survey the territory and to appoint distributors. Mr. DePree has just finished a circuit trip of the United States and says that Kennedy is going so strong in some parts of the country that it has more than regained its former popularity. Kennedy is one of the pioneer radio manufacturers of the country and we wish him the best of luck in his new enterprise.
