Transistor Audio Voltmeter • Make A Car Antenna Double in C-B • Programmed Electron Ray Tester for All "Magic Eyes" • AC-Operated Hearing Aid

New Model 161 UTILITY TESTER[®] FOR REPAIRING ALL ELECTRICAL APPLIANCES MOTORS • AUTOMOBILES • TV TUBES

As an electrical trouble shooter the Model 161:

- Will test Toasters, Irons, Broilers, Heating Pads, Clocks, Fans, Vacuum Cleaners, Refrigerators, Lamps, Fluorescents, Switches, Thermostats, etc.
- Will test all TV tubes (including picture tubes) for open filaments and burned out tubes.
- Measures A.C. and D.C. Voltages, (Both 110 Volt and 220 Volt lines).
- Will measure current consumption (amperes) while the appliance under test is in operation.
- Incorporates a sensitive direct-reading resistance range which will measure all resistances commonly used in electrical appliances, motors, etc.

As an Automotive Tester the Model 161 will test:

- Both 6 Volt and 12 Volt Storage Batteries • Generators • Starters • Distributors • Ignition Coils • Regulators • Relays • Circuit Breakers • Cigarette Lighters • Stop Lights • Condensers • Directional Signal Systems • All Lamps and Bulbs • Fuses • Heating Systems • Horns • Also will locate poor grounds, breaks in wiring, poor connections, etc.

IT'S SO EASY!!

With tester's cord in outlet, current consumption of appliance is read direct on meter when line cord is connected to receptacle on panel. This typical iron takes 7 amperes (Good)

Simply insert tube in appropriate socket then follow procedure as outlined in our manual.

Control circuits of most furnaces use 24 volts obtained from step-down transformer. Here's how to check room thermostat to see if wires to it are live.

Small electric fan motor indicates 50 ohms (normal resistance).

Test Generators

INCLUDED FREE!!

This 56-page-book—practically a condensed course in electricity. Learn by doing.

Just read the following *partial* list of contents:

- What is electricity? • Simplified version of Ohm's Law • What is wattage? • Simplified wattage charts • How to measure voltage, current, resistance and leakage • How to test all electrical appliances and motors using a simplified trouble-shooting technique.
- How to test all TV tubes: also simple procedure for determining which specific tube (or tubes) is causing the trouble.
- How to trace trouble in the electrical circuits and parts in automobiles and trucks.

Model 161 comes complete with above book and test leads. Only **\$22.50**

You don't pay for the Model 161 until AFTER you have examined it in the privacy of your home!

SEND NO MONEY WITH ORDER PAY POSTMAN NOTHING ON DELIVERY

Try it for 10 days before you buy. If completely satisfied then send \$5.00 and pay the balance at the rate of \$5.00 per month until the total price of \$22.50 (plus small P.P. and budget charge) is paid. If not completely satisfied, return to us, no explanation necessary.

ACCURATE INSTRUMENT CO., INC.

Dept. D-258, 911 Faile St., Bronx 59, N. Y.

Please rush me one Model 161. If satisfactory I agree to pay \$5.00 within 10 days and balance at rate of \$5 per month until total price of \$22.50 (plus small P.P. and budget charge) is paid. If not satisfactory, I may return for cancellation of account.

COYNE offers
LOW COST
TELEVISION
RADIO - COLOR TV
Training in
Spare Time AT HOME

The future is YOURS in TELEVISION!
 A fabulous field—good pay—fascinating work—a prosperous future in a good job, or independence in your own business!

Coyne brings you MODERN-QUALITY Television Home Training; training designed to meet Coyne standards at truly lowest cost—you pay for training only—no costly "put together kits." Not an old Radio Course with Television "tacked on." Here is MODERN TELEVISION TRAINING including Radio, UHF and Color TV. No Radio background or previous experience needed. Personal guidance by Coyne Staff. **Practical Job Guides** to show you how to do actual servicing jobs—**make money early in course.** Free Lifetime Employment Service to Graduates.

World-Wide Short-Wave Stations

Most international broadcasting is done within frequency limits agreed upon at international conventions. These frequency ranges are listed here, at the right, expressed both in frequency and by meter bands (wave-length).

Reception in the various bands varies according to the time of day and season of the year. Reception in the 60, 49 and 41 meter bands is best at night during the winter months. Reception in the 31 and 25 M. bands is best at night, but all year. Reception in the 19, 16, 13 and 11 M. bands is best during the day, also at night during the summer in the 16 and 19 M. bands. This listing includes only SWBC often heard in the U.S. and Canada, exclusive of those in the continental U.S.

Abbr.: AIR—All India Radio; RAI—Radiotelevisione Italiana; RTF—Radiodiffusion Television Francaise; VOA—Voice of America; RFE—Radio Free Europe. •denotes stations beaming evening (U.S. time) broadcasts to the U.S., †morning or afternoon broadcasts, V—varies.

WHERE You Train is as Important As Your Decision to Train

Electronics is a growing and expanding industry. That's why so many ambitious men are training for careers in this exciting field. They recognize the opportunities to fill in interesting and important positions. But *where* a man trains and *how* the school

of his choice teaches the many fields of Electronics—Automation, Radio-Television . . . how it encourages him to reach his goals and realize his ambitions . . . is most important to his success.

This is a fast changing world. A school offering Electronics courses must keep pace. That's why NRI—with nearly 50 years of specialized experience—now offers eight choices of training. Select the course of most interest to you and receive the kind of home-study training that prepares you for a *specialized career*. NRI's large staff of specialists is always on the job keeping your course material up-to-date . . . helping you earn your way while you train . . . assisting you with job placement. In short, NRI is qualified to help you grow.

Special Training Equipment Included

The NRI "learn-by practice" method is the time-proved way to better pay. It makes training easier, faster, better. Most NRI courses include—at no extra cost—special training equipment to give shop and laboratory experience in your own home. All equipment is yours to keep.

Projects you build, experiments you perform, make NRI lessons come to life. Complex subjects take on real meaning. You measure voltage and current in circuits you build yourself. You use a Vacuum Tube Voltmeter which you construct. Later on, you progress to more involved experiments. If you like working with your hands, you'll enjoy learning Electronics with NRI.

Oldest and largest School of its kind

NRI training of the 60's is based on nearly half a century of experience gained from training thousands of men like yourself for new careers. NRI has earned the confidence of students, graduates and the Electronics industry. They all recognize NRI training material as an outstanding educational value. And as the oldest and largest Radio-Television-Electronics home-study school, NRI can supply training at reasonable cost. Mail the postage-free card today for facts on the school, on opportunities in Electronics, on monthly payment plans and special Trial Enrollment Offer. NRI TRAINING, Washington 16, D. C.

EXPERIENCE TRAINING MEN
FOR SUCCESS BY HOME STUDY

JOIN THE THOUSANDS WHO TRAINED AT HOME FOR NEW CAREERS WITH NRI

"I want to thank NRI for making it all possible," says Robert L. L'Heureux of Needham, Mass., who sought our job consultant's advice in making applications and is now an assistant Field Engineer in the DATAmatic Div. of Minneapolis-Honeywell, working on data systems.

"I have gone ahead financially ever since I enrolled with NRI," writes Gerald W. Kallies, now a chief Instrument Technician of Rio Algom Nordic ore-iron mines and part-time TV engineer for CKSO-TV, Elliott Lake, Ont. He enrolled with NRI on finishing high school.

His own full-time Radio-TV shop has brought steadily rising income to Harlin C. Robertson of Oroville, Calif. In addition to employing a full-time technician, two NRI students work for him part-time. He remarks about NRI training, "I think it's tops!"

NOW 8 WAYS to Assure Advancement or Turn Your Hobby Into a New Career

No matter how much or how little education you have, one of NRI's eight career-training home-study courses can help you toward a better future in the great and growing fields of Automation-Electronics, Radio-Television. There has never been a time when ambitious men with specialized Electronics know-how were as much in demand as today. Industries, businesses, government, the military all need men with practical Electronics training to install, operate, service and supervise equipment. Automation continues to eliminate jobs for unskilled labor as fast as skilled technicians are available to run Electronically-controlled machines.

YOU TRAIN AT HOME WITH THE LEADER 

Good jobs await Communications technicians, since broadcasting now means more than entertainment; becoming an essential in trucks, cars, trains, planes, ships, etc. In the home, Color TV has come of age along with FM stereo multiplexing and increasing popularity of Hi-fi; television and radio means more opportunities for Service Technicians in spare time or full time businesses of their own. NRI training has been tailored to meet present and future needs of Electronics, Communications and Servicing. Check the field of most interest to you and mail the postage-free card now.
