ENTHUSIASTIC MEMBERS WRITE:

"basic principles unforgettably learned" . . .

It is only after having completed the experiments in your kits that I can say I have truly and unforgettably learned the basic principles of electronics. JOHN R. KANIA, 2 Berkeley Ave., Yonkers 5, N. Y.

"your kits are interesting and rewarding" . . .

I am an electronics student in the Air Force and find your kits interesting and rewarding. We have not covered anything in the school that you have not covered in the kits. JOHN G. DILL, Keesler Air Force Base, Biloxi, Miss.

"far ahead of friend taking another course" . . .

A friend of mine is taking a correspondence course in electronics, and I have learned more from your first two kits than he has in twenty lessons. RAY P. BILODEAU, 139 Exchange St., Leominster, Mass.

"the number of concepts presented is amazing" . . .

Your kits offer a range of experiments usually performed only in the better high school and college laboratories. The number of concepts presented, and the clarity and concreteness of their development is amazing. R. M. HELM, Professor of Physics, East Carolina College, Greenville, N. C.
