and VFO V-107**

**EICO Model 888
Universal Engine Analyzer**

**Kaar Model 335
Skyhawk CB Transceiver**

Introducing EICO's New "Cortina Series"!

Today's electro-technology makes possible near-perfect stereo at moderate manufacturing cost; that's the design concept behind the new EICO "Cortina" all solid-state stereo components. All are 100% professional, conveniently compact (3 1/8" H, 12" W, 8" D), in an esthetically striking "low silhouette." Yes, you can pay more for high quality stereo. But now there's no need to. The refinements will be marginal and probably inaudible. Each is \$89.95 kit, \$119.95 wired.

Model 3070 All-Silicon Solid-State 70-Watt Stereo

Amplifier: Distortionless, natural sound with unrestricted bass and perfect transient response (no inter-stage or output transformers); complete input, filter and control facilities; failure-proof rugged all-silicon transistor circuitry.

Model 3200 Solid-State FM/MPX Automatic Stereo Tuner: Driftless, noiseless performance; 2.4uV for 30db quieting; RF, IF, MX are pre-wired and pre-tuned on printed circuit boards — you wire only non-critical power supply.

7 New Ways to make Electronics more Fun!

Save up to 50% with EICO Kits and Wired Equipment.

You hear all the action-packed capitals of the world with the NEW EICO 711 "Space Ranger" 4-Band Short Wave Communications Receiver — plus ham operators, ship-to-shore, aircraft, Coast Guard, and the full AM band, 550KC to 30MC in four bands. Selective, sensitive super-het, modern printed circuit board construction. Easy, -fast pinpoint tuning; illuminated slide-rule dials, logging scale; "S" meter, electrical bandspread tuning, variable BFO for CW and SSB reception, automatic noise limiter, 4" speaker. Headphone jack. Kit \$49.95. Wired \$69.95.

More "ham" for your dollar than ever — with the one and only SSB/AM/CW 3-Band Transceiver Kit, new Model 753 — "the best ham transceiver buy for 1966" — Radio TV Experimenter Magazine, 200 watts PEP on 80, 40 and 20 meters. Receiver offset tuning, built-in VOX, high level dynamic ALC, silicon solid-state VFO. Unequaled performance, features and appearance. Sensionally priced at \$189.95 kit, \$299.95 wired.

NEW EICO 888 Solid-State Engine Analyzer

Now you can tune-up, troubleshoot and test your own car or boat.

Keep your car or boat engine in tip-top shape with this completely portable, self-contained, self-powered universal engine analyzer. Completely tests your total ignition/electrical system. The first time you use it — just to tune for peak performance — it'll have paid for itself. (No tune-up charges, better gas consumption, longer wear) 7 instruments in one, the EICO 888 does all these for 6V and 12V systems; 4, 6 & 8 cylinder engines.

The EICO 888 comes complete with a comprehensive Tune-up and Trouble-shooting Manual including RPM and Dwell angle for over 40 models of American and Foreign cars. The Model 888 is an outstanding value at \$44.95 kit, \$59.95 wired.

New EICOCRAFT™ easy-to-build solid-state electronic TruKits: a great for beginners and sophisticates alike. As professional as the standard EICO line — only the complexity is reduced to make kit-building faster, easier, lower cost. Features: pre-drilled copper-plated etched printed

circuit boards; finest parts; step-by-step instructions; no technical experience needed — just soldering iron and pliers. Choose from: Fire Alarm; Intercom; Burglar Alarm; Light Flasher; "Mystifier"; Siren; Code Oscillator; Metronome; Tremolo; Audio Power Amplifier; AC Power Supply. From \$2.50 per kit.

There's more PUNCH in the new EICO "Sentinel-Pro" 23-channel Dual Conversion 5-watt CB Transceiver. New advanced Big-Reach "Range Plus" circuitry lengthens "talk-power" reach. Automatic noise limiter super-sensitizes for weak signals. "Finger Tip" antenna loading and transmitter tuning controls. 23 crystal-controlled transmit and receive channels — all crystals supplied. Rear-illuminated S/RF meter. Transistorized 12VDC and 117VAC dual power supply. Wired only, \$169.95. Positive-Negative Ground/Mobile Marine Modification Kit (optional \$5.95).

Model 460 Wideband Direct-Coupled 5" Oscilloscope. DC-4.5mc for color and B&W TV service and lab use. Push-pull DC vertical amp. bal. or unbal. input. Automatic sync limiter and amp. \$99.95 kit, \$139.50 wired.

Model 232 Peak-to-Peak VTVM. A must for color or B&W TV and industrial use. 7 non-skip ranges on all 4 functions. With exclusive Uni-Probe.® \$29.95 kit, \$49.95 wired.

Let I.C.S. equip you for success in radio-TV-electronics—

with professional equipment!

Brand-new "Electronic Laboratory," now being offered for the first time, can help you land in this big money-making field—FAST!

Here's an opportunity for you to turn spare time into cold cash, or begin a whole new career—in a field where the rewards have never been greater. And you *don't* need previous experience to do it!

International Correspondence Schools has just developed a new I.C.S. Electronic Laboratory you can construct in your own home. Includes series of training kits, plus the new I.C.S. VTVM—the professional quality vacuum tube voltmeter shown here. With it comes complete course instruction combining all the fundamentals with practical knowledge you can apply at once. And best of all, you build your own professional test instrument!

I.C.S. instruction gets you going with equipment you can really use!

A famous manufacturer of nationally known electronic testing equipment worked closely with I.C.S. to develop the Electronic Laboratory and the VTVM itself. Everything you get is geared to increase your skill and knowledge step by step. Until finally, you've completed a precision testing

unit you can use for practically any kind of experimentation, design or servicing work.

Here's how I.C.S. instruction works. You begin with basic study lessons. Texts are clearly worded and easy to follow. At the same time, you "act out" what you learn with simple experiments. Then, in 3 easy stages, you assemble your own precision testing unit. Throughout, your instructor gives you expert, professional help. You learn at home, in spare time, as fast as ability permits.

Coupon brings full details on your future in this fast-growing field!

Make up your mind right now to find out how I.C.S. training in Radio-TV-Electronics can pay off for *you*. See how it can help you cash in on the tremendous demand for men skilled in installation, maintenance and servicing of radios, TV sets, hi-fis, computers, automation systems and a host of other space-age devices. Clip and mail the coupon below. You'll receive 3 valuable *free* booklets—including sample lesson. They'll show how you can land in this big-money field *fast!*

Coupon brings 3 valuable FREE booklets. MAIL IT TODAY!

Model 1101 TUBE TESTER
NOW in a wire-
it-yourself
KIT!

Model 1101K... Kit
only \$39⁹⁵

Model 1101 \$69⁹⁵
 ...Wired

Illustrated step-by-step instructions make the Model 1101 extremely easy to build

Nothing has been spared, engineering-wise or production-wise in making the Model 1101 your best tube tester buy. Tests more tubes for dynamic cathode emission, shorts, grid leakage and gas than many testers costing hundreds of dollars. Tests new Decals, Magnavols, 7-pin Nuvisors, Novars, Compactrons, 10-pin types, battery type, auto radio hybrid tubes, foreign and hi-fi tubes and industrial types. Employs brilliant 2-point test principle—greatest safeguard against obsolescence. Modern airplane luggage design, case... weighs only 4 lbs.

• Also tests all popular picture tubes

KITS

★42. Here's a colorful 108-page catalog containing a wide assortment of electronic kits. You'll find something for any interest, any budget. And *Heath Co.* will happily send you a copy.

★44. *EICO's* new 48-page 2-color pocket-size short form catalog is just off the press. Over 250 products: Ham radio, CB, hi-fi—in kit and wired form—are illustrated. Get your copy today.

AMATEUR RADIO

46. A long-time builder of ham equipment, *Hallicrafters* will send you lots of info on the ham, CB and commercial radio-equipment.

SCHOOLS AND EDUCATIONAL

★61. *ICS (International Correspondence Schools)* offers 236 courses including many in the fields of radio, TV, and electronics. Send for free booklet "It's Your Future."

74. How to get an F.C.C. license, plus a description of the complete electronic courses offered by *Cleveland Institute of Electronics* are in their free catalog.

105. Get the low-down on the latest in educational electronic kits from *Trans-Tek*. Build light dimmers, amplifiers, metronomes, and many more. *Trans-Tek* helps you to learn while building.

56. *Bailey Institute of Technology* offers courses in electronics, basic electricity and drafting as well as refrigeration. More information in their informative pamphlet.

★59. For a complete rundown on curriculum, lesson outlines, and full details from a leading electronic school, ask for this brochure from the *Indiana Home Study Institute*.

94. *Intercontinental Electronics School* offers three great courses: stereo radio & electronics; basic electricity; transistors. They are all described in *Inesco's* 1966, 16-page booklet.

TOOLS

★78. Learn about *Xcelite's* line of pliers and snips, specialized for radio, TV and electronic work. *Xcelite's* hand tools offer many advantages worth looking into. Bulletin N464 and N664.

TELEVISION

★70. *Heath Co.* now has a 21" round and 25" rectangular-tube color TV kit in addition to their highly successful 23" B&W model. All sets can be installed in a wall or cabinet; all are money-saving musts!

72. Get your 1966 catalog of *Cisin's* TV, radio, and hi-fi service books. Bonus—TV tube substitution guide and trouble-chaser chart is yours for the asking.

29. Install your own TV or FM antenna! *Jefferson-King's* exclusive free booklet reveals secrets of installation, orientation; how to get TV-FM transmission data.

97. Interesting, helpful brochures describing the TV antenna discovery of the decade—the log periodic antenna for UHF and UHF-TV, and FM stereo. From *JFD Electronics Corporation*.

ELECTRONIC PARTS

★1. *Allied's* catalog is so widely used as a reference book, that it's regarded as a standard by people in the electronics industry. Don't you have the latest *Allied Radio* catalog? The surprising thing is that it's free!

★2. The new 1967 Edition of *Lafayette's* catalog features sections on stereo hi-fi, CB, ham gear, test equipment, cameras, optics, tools and much more. Get your copy today.

★3. Bargains galore! Parts, tools, test equipment, radios and many more shoppers' specials at ultra-low prices. *Progressive Edu-Kits* will send latest catalog.

★4. *Olson's* catalog is a multi-colored newspaper that's packed with more bargains than a phone book has names. Don't believe us? Get a copy.

★5. Unusual scientific, optical, and mathematical values—that's what *Edmund Scientific* has for you. Surplus equipment as well as other hard-to-get educational items are included.

★106. With 70 million TV's and 240 million radios somebody somewhere will need a vacuum tube replacement at the rate of one a second! Get *Universal Tube Co.'s* Troubleshooting Chart and facts on their \$1 flat rate per tube.

★7. Whether you buy surplus or new, you will be interested in *Fair Radio Sales Co.'s* latest catalog—chuck full of surplus buys for every experimenter.

★8. Want a colorful catalog of goodies? *John Meshna, Jr.* has one that covers everything from assemblies to zener diodes. Listed are government surplus radio, radar, parts, etc. All at unbelievable prices.

★23. No electronics bargain hunter should be caught without the 1967 copy of *Radio Shack's* catalog. Some equipment and kit offers are so low, they look like misprints. Buying is believing.

★6. Bargains galore, that's what's in store! *Poly-Paks Co.* will send you their latest eight-page flyer listing the latest in merchandise available, including a giant \$1 special sale.

10. *Burstein-Applebee* offers a new giant catalog containing 100's of big pages crammed with savings including hundreds of bargains on hi-fi kits, power tools, tubes, and parts.

11. Now available from *EDI (Electronic Distributors, Inc.)* a catalog containing hundreds of electronic items. *EDI* will be happy to place you on their mailing list.

12. VHF listeners will want the latest catalog from *Kuhn Electronics*. All types and forms of complete receivers and converters.

WHITE'S RADIO LOG

An up-to-date Broadcasting Directory of North American AM, FM and TV Stations. Including a Special Section on World-Wide Shortwave Stations

This is the third and last part of *White's Radio Log*, published in three parts twice each year. This format presentation enables the Editors of RADIO-TV EXPERIMENTER to offer its readers two complete volumes of *White's Radio Log* each year, while increasing the scope of the *Log* and its accuracy.

In this issue of *White's Radio Log* we have included the following listings: U. S. AM Stations by Call Letters, U. S. FM Stations by Call Letters, Canadian AM Stations by Call Letters, Canadian FM Stations by Call Letters and the World-Wide Shortwave Stations section.

In the February-March, 1967 issue of RADIO-TV EXPERIMENTER the *Log* will contain the following listings: U. S. AM Stations by Frequency, Canadian AM Stations

by Frequency, U. S. Television Stations by States, Canadian Television Stations by Cities and the World-Wide Shortwave Stations section. In the event you missed a part of the *Log* published during 1966, you will have a complete volume of *White's Radio Log* by collecting any three consecutive issues of RADIO-TV EXPERIMENTER published during 1966. The three consecutive issues are an entire volume of *White's Radio Log* that offers complete listings with up-to-the minute station change data that are not offered in any other magazine or book.

If you are a broadcast band DX'er, FM station logger, like to photograph distant TV test patterns, or tune the shortwave bands, you will find the new *White's* format an unbeatable and up-to-date handy reference.

World-Wide Shortwave Stations

■ In response to many inquiries regarding DX Central and the compilation of the shortwave section of *White's Radio Log*, we thought that a few words of explanation might be in order at this point.

DX Central is a completely equipped, professionally-manned DX monitoring station in New York City and one sub-station near the top of Long Island, New York. We are always abreast of current trends in international broadcasting as well as the latest activities of "utilities"-stations. Whenever we hear a station we enter it in a master log-book. Shortly after the station is entered in the log, it is checked against published statistics for the station so that the information in the log might be as complete as possible. Frequently, we will monitor stations on frequencies which differ from those announced, and at hours during which the station is on record as being silent—our listings in *White's Radio Log*, however, indicate *actual* loggings rather than announced schedules and frequencies.

Readers are invited to send in reports of their own loggings to be combined with ours so that the shortwave section of *White's Radio Log* will not only be as complete as possible but will also reflect a survey of stations heard throughout North America. When sending reports for listing here please include the following data: station name/callsign, time heard (in GMT), approximate frequency. Address your reports to: DX Central, WHITE'S RADIO LOG, RADIO-TV EXPERI-

MENTER, 505 Park Avenue, New York, N. Y. 10022, U.S.A.

Stations in our listings which are indicated with an asterisk (*) are "utilities" (non-broadcast) stations. The following abbreviations are used in our listings: BC—Broadcasting Company, Corporation, or System; E—Emissora; R—Radio; V—Voz or Voice.

TNX from DX Central

We wish to thank the following reporters for their cooperation in sending in their logs for the listing in this issue:

Bill Harvey, New London, Conn.
 Art Sturges, Chicago, Ill.
 George Sprout, Reading, Pa.
 Mitchell Hyman, Brooklyn, N. Y.
 Tom Kneitel, K2AES, Port Washington, N. Y.
 Michael L. Dale, Butler, Ala.
 Dale Koby, New York, N. Y.
 Robert L. Menn, Sr., Hialeah, Fla.
 Jay Ramsey, Birchwood, Wisc.
 Paul Dusome, Toronto, Ont.
 Craig Headman, Daly City, Calif.
 Julian M. Sienkiewicz, Brooklyn, N. Y.
 Randall Bradford, La Fargeville, N. Y.
 American DX Society, Nashville, Tenn.
 Walter L. Read, North Bend, Ore.
 Paul Pieri, Cliffside Park, N. J.
 Bob Eckel, Metuchen, N. J.
 Jimmy Eppright, Dallas, Tex.
 Richard A. Flanagan, New York, N. Y.
 Bill Migley, Lancaster, Ohio
 Eugene Purdom, Jr., Westminster, Md.
 Elmer Carlson, Long Island, N. Y.
 Robert Fuchs, Brooklyn, N. Y.
 B. B. Biggs, Los Angeles, Cal.

BUILD, EXPERIMENT, EXPLORE, DISCOVER WITH NRI CUSTOM-DESIGNED TRAINING KITS

BUILD YOUR OWN PHONE/CODE TRANSMITTER

This is just one of seven training kits programmed into NRI's Complete Communications course. You get actual practice in building your own crystal-controlled, phone/code transmitter and putting it on the air. You experiment with modulation, "clamping" circuits, key filters, other aspects of commercial transmitter operation. Can be put on the air simply by attaching an antenna and complies with FCC regulations. As with all NRI training kits, you get the most modern features and parts.

Join the Thousands Who
Gained Success with NRI

"I am Frequency Coordinator for the 11th Naval District. The course was priceless."
J. J. JENKINS, San Diego, Calif.

"Many thanks to NRI. I hold FCC License, am master control engineer with KXIB-TV."
R. L. WOOD, Fargo, N.D.

"I am a Senior Engineering Aide. Without NRI I would still be working in a factory at a lower standard of living."
D. F. CONRAD, Reseda, Calif.

Available Under NEW GI BILL

If you served since January 31, 1955, or are in service, check GI line in postage-free card.

BUILD ACTUAL ANALOG COMPUTER CIRCUITS

Industry, business offices, the government and military all need trained Electronics Technicians. NRI's Industrial Electronics course prepares you. You progress through 10 carefully designed training kits, topping off your practical experience phase of training by experimenting with feedback control systems, analog computers and digital computer elements. You actually solve problems on this analog computer you build yourself. This is the practical, fast way to a good paying, career position.

BUILD A CUSTOM-ENGINEERED TELEVISION RECEIVER

Want to earn \$3 to \$5 an hour in spare time? Want your own part-time or full-time business? In Radio-TV Servicing you learn to install, maintain, service radios, TV sets, hi-fi and stereo, other home Electronics equipment. In your training are eight training kits, including this complete, modern, slim-line TV receiver. You build it yourself, become familiar with components and circuits, learn servicing procedures . . . and earn extra money as you train. National Radio Institute, Washington, D.C.

GET FAST START WITH NEW ACHIEVEMENT KIT

Delivered to your door—everything you need to make a significant start in the Electronics field of your choice. An outstanding, logical way to introduce you to home-study training. It includes your first set of lesson texts and all the "classroom tools" you need. No other school has anything like the new NRI Achievement Kit.

ELECTRONICS COMES ALIVE WITH NRI TRAINING KITS

Nothing is as effective as learning by doing . . . and NRI pioneered the "home lab" technique of training. NRI invites comparison with training equipment offered by any other school. Begin NOW this exciting program of practical learning. Make the skills of the finest Electronic Technicians your own. Mail card below.

"BITE SIZE" TEXTS PROGRAM YOUR TRAINING

Certainly, lesson texts are necessary. NRI's programmed texts are as simple, direct and well illustrated as 50 years of teaching experience can make them. They are carefully programmed with NRI training kits to make the things you read about come alive. You experience all the excitement of original discovery.

HOBBY? CAREER? MAIL CARD NOW TO NRI

Whatever your need . . . whatever your education . . . there's an NRI training plan to fit your requirements. Choose from three major courses or select one of seven special courses in particular Electronics subjects. Check the postage-free card below, fill in and mail. National Radio Institute, Washington, D.C.
