

SOCIETY OF BROADCAST ENGINEERS

2002-03 Membership Directory & Buyers' Guide

Announcing a technological breakthrough: A serial digital interface audio video delay.

Delaying everything for up to 10 seconds is as easy as pushing a button. Delaying everything for as long as an additional 20 seconds is also an option.

The new D1 Pipeline is Prime Image's popular Pipeline audio/video delay device, but with a serial digital interface. D1 Pipeline features 10-bit video processing, with primary as well as an auxiliary/alternate video input. Audio processing is 24-bit, with four channels in and out; select AES/EBU, digital or analog. Four auxiliary/alternate audio channels (also AES/EBU, digital analog) can be switched with, or independent of, auxiliary video. All that, in a rack-mounted unit just 2U high.

D1 Pipeline. It's about time — delaying it, utilizing the latest high-speed computer technology.

Dear SBE Member:

Here it is! The much anticipated *2002-2003 SBE Membership Directory and Buyers' Guide* for your personal use. You are now in possession of a user-friendly and invaluable index of information. This directory can put you in immediate touch with your fellow SBE members or guide you to vendors offering goods and services in our profession. Our members, without hesitation, assist each other by sharing ideas and offering first-hand "fix it" solutions. I refer to this directory almost on a daily basis to contact fellow members for advice, suggestions and thoughts. This directory can help you, as well, tap into this synergy of our membership as a whole. Moreover, it may also serve as a search tool for that long lost colleague.

However, this publication is more than just a directory. It is a reference book containing such information as our SBE history, SBE By-Laws and Canons of Ethics, a listing of SBE Fellows, Life Members and past SBE presidents. It lists local SBE chapters and international affiliates, as well as programs and services offered by our organization. In addition, there is a section listing those individuals and chapters that have received special recognition in recent years.

To bridge providers of broadcast services to potential users in our membership, this directory includes the Buyers' Guide section. This section lists SBE Sustaining Members that offer services and equipment to the broadcast industry. These providers remain committed to the success of this organization, and I encourage you to contact them when in need of a particular service. If you have a project coming up or you are contemplating new equipment purchases, let me suggest that you browse through this section first. We appreciate this great group of SBE supporters, and I know they would appreciate your patronage.

My personal thanks and commendations to the SBE staff for untiring efforts in compiling this directory. As usual, our folks have done another super job with putting together a publication in which all of us can take pride. But, as always, we look for ways to improve. Your ideas and comments are welcomed and may be sent to tpennington@wiai.com or abates@sbe.org.

So, welcome to the new edition of the *SBE Membership Directory and Buyers' Guide*. It is ready for you to put to good use. I know you will find it a valuable resource tool in your day-to-day professional obligations. Feel free to look me up as well. I am always delighted to get phone calls and e-mails from our members.

Sincerely,

Troy Pennington, CSRE, CBNT
SBE National President

A Brief History of the Society of Broadcast Engineers

The Society's roots stretch back to 1961, when the Institute of Radio Engineers (IRE) and American Institute of Electrical Engineers (AIEE) passed a joint resolution calling for a "merger or consolidation... into one organization." The two groups did finally join forces in 1963 forming what is known today as the Institute of Electrical and Electronic Engineers (IEEE).

The new organization was perceived by some as not addressing the needs of broadcast engineers. Because of the interest shown in response to an editorial in *Broadcast Engineering* magazine, written by eventual first SBE President, John Battison, an organizational meeting was held in Chicago during the NAB convention in April 1964. The group formed an organization devoted to the needs and interests of broadcast engineers that now is celebrating its 38th anniversary.

The new organization was originally called the Institute of Broadcast Engineers (IBE). However, because some members feared there might be confusion in the similarity between the names of the IBE and the IBEW (International Brotherhood of Electrical Workers), the name was changed to Society of Broadcast Engineers (SBE) at that very first meeting.

From this original group of approximately 100, the Society has grown to more than 5,600 members. With more than 100 chapters located throughout the United States and internationally, SBE now commands a leadership position in the broadcast industry. Local SBE chapters provide services to members through meetings, technical seminars, certification examinations and fellowship.

The SBE Program of Certification, begun in 1977, helps individuals improve their skills through a national testing program. As the industry's most recognized evaluation service, SBE Certification provides important benefits to both members and employers. Those who have earned SBE Certification are proud of their accomplishment, and rightly so.

SBE also operates a National Frequency Coordination Program. With more than 150 volunteer coordinators, SBE provides a vital service to stations, networks and other users of broadcast spectrum needing information about auxiliary broadcast frequencies. Through the efforts of SBE, this important spectrum is used effectively and interference is minimized.

The Society continually monitors regulatory issues. Frequently, SBE files comments with the FCC and other federal and state agencies. In many cases, SBE is the only organization representing the technical interests of broadcast engineers on regulatory issues.

Approximately 12 SBE Chapters host regional conventions each year. Most of the events combine both technical seminars and an equipment exhibition. At the seminars, expert instructors provide training on a wide variety of technical and managerial topics. The conferences provide attendees with the opportunity to improve their skills, while examining the latest in technology. SBE also offers a six-day intensive seminar on management for broadcast engineers.

In recent years, SBE has continued to provide services that benefit members and the industry. SBE has released several publications, some of those in conjunction with the Ennes Educational Foundation Trust. These include *Introduction to DTV RF*, *The SBE Guide to Writing Broadcast Station Operations Manuals*, *Chief Radio Operators Handbook* and *Television Operator's Handbook*. SBE maintains its own website at www.sbe.org that is visited by thousands of people every month.

Throughout its history, SBE has strived to advance the field of Broadcast Engineering and the professional development of the broadcast engineer by being in the forefront as changes in technology have taken place. SBE will continue to help its members stay on the leading edge of the broadcast industry by providing leadership, information, education and opportunities for recognition.

The national office of the Society of Broadcast Engineers is located in Indianapolis, Indiana, USA, where a small full-time staff provides membership, certification and frequency coordination services and support. Additional information on membership in the Society is available at the SBE website, www.sbe.org, or by writing, e-mailing or calling the SBE National Office.

PROGRAMS & SERVICES

AWARDS PROGRAM The Annual Awards Program recognizes those who have contributed to SBE, the industry or their chapters in a number of categories. Winners are presented their awards at the annual Awards Dinner at the Annual SBE National Meeting.

BOOK STORE SBE members can buy broadcast engineering-related books at discounts of up to 20 percent off of the retail price. The resources are authored by an outstanding group of experts in the industry.

CANONS OF ETHICS Developed by SBE, the Canons defines the standard for the industry of how all broadcast engineers should practice their profession.

CHAPTERS There are more than 100 active chapters of SBE throughout the United States. Chapters meet on a regular basis, giving members the opportunity to network with peers, learn about new and existing technologies and share their knowledge.

COMPANY STORE Logo items such as hats, golf shirts, mugs and pens are available through the SBE Company Store.

CONTRACT ENGINEER SERVICES For SBE members involved in contract engineering work, SBE provides two services designed to aid them in their work. A sample contract, written by Legal Counsel with input from contract engineers, is available at no charge to members electronically or on paper or disk and covers most of the issues that concern contract engineers. In addition, Contract Engineers can be listed, for a small fee, in the *Membership Directory & Buyers' Guide* and on the SBE website at www.sbe.org.

CREDIT CARD PROGRAM SBE offers the official SBE MasterCard through MBNA. The SBE MasterCard has no annual fee and is available by calling MBNA at (800) 523-7666.

EDUCATION Throughout the year, SBE, in conjunction with the Ennes Educational Foundation Trust, sponsors educational seminars to help keep broadcast engineers up-to-date on emerging technologies and issues facing the broadcast industry. SBE also sponsors a two-part Leader-Skills Series, designed to train broadcast engineers who have or aspire to have management responsibilities.

EMERGENCY ALERT SYSTEM (EAS) SBE has been involved from the beginning with the EAS. Through its EAS Committee, the Society continues to work with the FCC and manufacturers to develop, implement and troubleshoot the system.

FREQUENCY COORDINATION Volunteers from across the country provide information regarding frequency assignments to qualified Part 74 frequency users. Coordinators cover a specific area and can be contacted to receive information on available frequencies.

GOVERNMENT REPRESENTATION The Society represents broadcast engineers and their interests to legislators and government agencies through the FCC Liaison Committee, SBE's General Counsel and various filings.

HAMNET SBE's "Chapter of the Air" provides up-to-date SBE information and a forum for members who are HAM radio operators, especially those not in close proximity to a local SBE chapter. HAMnet, hosted by Hal Hostetler, CPBE, WA7BGX, takes place on the second Sunday of every month at 0000 GMT. The published frequency is 14.205 MHz.

HOTEL DISCOUNTS SBE Members can receive discounted rates for themselves, their associates and family members at Club Quarters, which has hotels located in seven major cities in the United States and in London.

INSURANCE Various insurance programs are available to SBE members at group rates. Life insurance, major medical, disability, commercial liability and professional liability plans are all available. For life, accident and health insurance, contact Marsh/Seabury & Smith at (800) 424-9883. For commercial liability or professional liability insurance needs, contact MIMS International at (800) 899-1399 or at www.mimsintl.com.

JOBSONLINE Access to SBE JobsOnline is available to members only. JobsOnline is updated weekly and can be accessed on the Society's website at www.sbe.org. Broadcast engineering positions across the United States are listed on the service.

MEMBERSHIP SBE offers several levels of membership to meet the diverse needs of individuals involved with or interested in broadcast engineering. From the high school youth to the seasoned professional to the broadcast manufacturer, SBE has something for everyone. For a description of these levels, read Article II, Section 2 of the SBE By-Laws, printed on page 14 of this publication.

PROFESSIONAL CERTIFICATION SBE maintains a comprehensive Certification Program with six levels of engineering certification, one operator certification and one computer networking certification. SBE Certification has become recognized in the industry as the primary method of verifying the attainment of educational standards. For more information about certification and how to apply to take an exam, please contact the Certification Department at the SBE National Office. More than 4,700 individuals are currently SBE certified.

PUBLICATIONS *The SIGNAL*, SBE's quarterly newsletter, provides members with timely articles on various broadcast-related topics, information on upcoming events, recognition of members' activities and achievements and details of SBE services. The *SBE Membership Directory & Buyers' Guide* is published annually to provide a quick reference to all members and Sustaining Members' services. *Short Circuits* is published monthly on the SBE website and provides updates on SBE activities.

REGIONAL CONVENTIONS A number of SBE Chapters host regional conventions each year. Most of the conventions include engineering seminars and trade shows to get the latest information, comparison shop and view current technology.

RENTAL CAR DISCOUNTS Hertz and National Car Rental offer discounts to SBE members on rental car rates. For more information or to use the discount, contact Hertz at (800) 654-2210 or www.hertz.com or National Car Rental at (800) CAR-RENT or www.nationalcar.com.

RESUME SERVICE The Resume Service is offered to current SBE Members at no charge. The service features an online posting of anonymous resume profiles for prospective employers to view. For a small fee, these employers can then request the member resumes of their choice from the National Office.

SUSTAINING MEMBERSHIP SBE's corporate level of membership provides organizations with a place to promote themselves on the SBE website, in every issue of *The SIGNAL* and in the Buyers' Guide section of the annual *Membership Directory*. In addition, Sustaining Members have access to the SBE mailing list one time per year, receive discounted advertising rates and can request local chapter contacts to schedule product/service presentations at monthly chapter meetings.

VIDEO LIBRARY A number of videos are available for loan for personal viewing, training or use at local chapter meetings. Topics include prior Ennes Workshops, a tour of an antenna farm, vectorscopes, regulators roundtable and FCC inspections. There is no charge to borrow a video.

WEBSITE Information about SBE and its programs, activities, benefits and services can be obtained through SBE's website at www.sbe.org. The site is updated regularly. Messages can also be sent to the National Office and elected Board of Directors via e-mail from the website.

YOUTH PROGRAM SBE's youth program seeks to encourage high school students with an interest in the technical side of broadcasting to consider the field as a career. Youth Members and adult instructors at high schools with radio or television stations receive a newsletter three times per year called *The Connector*, and local chapters are encouraged to hold Youth Nights in order to help students network and foster mentoring relationships.

BY-LAWS

(as amended November 2001)

ARTICLE I. NAME AND PURPOSES

SECTION 1. Name. The name of this organization shall be the Society of Broadcast Engineers, Inc., a corporation pursuant to the District of Columbia Non-Profit Corporation Act.

SECTION 2. Purposes. The purposes for which the corporation is organized are as follows:

(a) The diffusion and increase of knowledge about broadcast engineering, and the promotion and advancement of this profession and its companion fields for both theoretical and practical applications necessary to advance the art.

(b) The establishment of professional education, training and competence for persons engaged in the profession of broadcast engineering and its allied fields; and to afford professional recognition to its practitioners signifying the achievement of these standards.

(c) The stimulation of interest in broadcast engineering and its allied fields to sustain the profession, encouragement of the interplay and intercourse of ideas to advance the art, and the promotion and maintenance of the highest professional standards among its members to allow them to conduct their professional actions in the scale of exemplary ethical standards.

(d) The creation of working alliances and meeting of minds with all elements of the broadcast and communications industry, including the FCC and the ultimate recipient of that which we practice, the viewers and listeners.

(e) To these ends, it shall be the purpose of the Society to hold meetings for the reading and discussion of professional papers, publications, communications, or such other professional activities as shall properly fulfill the objectives of the Society and advance the art of broadcast engineering.

ARTICLE II. MEMBERSHIP

SECTION 1. (a) As shall be deemed necessary, geographical grouping of Chapters may be authorized by the Board of Directors to alleviate attendee hardship regarding regular Chapter participation.

(b) Student Chapters may be established either as a part of a regular Chapter, or may be established on a state-accredited university

campus under the sponsorship and guidance of the SBE.

SECTION 2. Membership Types.

(a) **Honorary Member:** A person of outstanding repute and eminence in the Art and Science of Broadcast engineering or any of its allied professions may be elected to Honorary Membership by the Board of Directors and thus become entitled to all the rights and privileges of the Society.

Candidates for election to Honorary Membership shall be proposed in writing by a voting member. Such proposal shall include a biography of the candidate and the endorsement of 15 voting members and shall be submitted to the Board of Directors for consideration. If elected, the candidate shall be notified by the Secretary. The Board of Directors shall confer the Honorary Membership in such a manner as they deem appropriate.

(b) **Fellow:** A member who has rendered conspicuous service, or is recognized as having made valuable contribution to the advancement of broadcast engineering or its allied professions, dissemination of knowledge thereof, the promotion of its application in practice, may be elected a fellow of the Society.

Candidates for election to Fellowship shall be proposed in writing by a voting member. Such proposal shall include a biography of the candidate and the endorsement of 5 voting members and shall be submitted to the Board of Directors for consideration. If elected, the candidate shall be notified by the Secretary. The Board of Directors shall confer the Fellowship in such a manner as they deem appropriate.

(c) **Senior Member:** Any member of the Society for at least 5 consecutive years, with at least 15 years active participation in broadcast engineering or its allied fields who has demonstrated professional responsibility in the area of supervision, equipment design, physical plant design, marketing and/or equipment-systems integration. Candidates for election to Senior Member shall make application to the Membership Committee on forms provided by the National Office.

(d) **Member:** Any person actively engaged in broadcast engineering or its allied fields, or who has an academic degree in Electrical Engineering, or its equivalent, or has scientific or professional experience in the communications field, including the design or marketing of

broadcast related products shall be eligible for election to membership in the Society. Upon election, he shall be entitled all the rights and privileges of the Society. Equivalent scientific or professional experience shall require at least 4 years active participation in broadcast engineering or its allied fields which demonstrates acceptable technical proficiency to the satisfaction of the Admissions Committee.

(e) **Associate and Student:** Any person engaged in the objectives of the Society, not meeting the qualifications of a Member, or above, may be eligible for election to the grade of Associate Member. Any person actively engaged in the study of companion Engineering fields shall be eligible for election to the grade of Student Member. Associate and Student Members do not qualify for voting privileges in national elections, nor are they eligible to hold offices in other than Student Chapters of the Society. Candidates for election to Associate Membership shall make proper application to the Admissions Committee on forms provided by the National Office. Candidates for election to Student Membership shall make proper application to the Admissions Committee on forms provided by the National Office. Students must provide the endorsement of their College or University Advisor to certify their student status. Student membership shall not exceed the member's term in college or university and shall be convertible to Member status with no further action other than presentation of upgrade request to the Admissions Committee, provided that all membership requirements are met upon satisfactory completion of education.

(f) **Lifetime Membership:** Any membership classification of Member, Senior, Fellow or Honorary shall be eligible for Lifetime Membership. Application for Lifetime Membership shall be made on forms provided by the National Office. Conditions of payment shall be determined by the Board of Directors. Upon completion of conditions, the member will be provided a plaque and membership card indicating Lifetime Membership status.

(g) **Life Membership:** Any Member or Fellow in good standing who has retired from full employment and who has been a member in good standing for 10 or more consecutive years immediately preceding application, may, at his request, be placed on the Life Membership list.

(h) **Sustaining Member:** Any person, corporation, or organization meeting the requirements determined by the Board of Directors shall be eligible to election to Sustaining Membership in the Society. Individual Sustaining Members, and individuals representing organizations which are Sustaining Members, shall be allowed voting privileges. Individuals representing organizations who are Sustaining Members shall be authorized by the Sustaining Member to cast the vote of the Sustaining Member and shall receive all communications on behalf of the Sustaining Member, pursuant to procedures established by the Society.

(i) **Youth Member:** Any high school student active in the technical operation of a high school or career center broadcast station, school club or community organization such as an amateur radio club, with the purpose of learning about the field of broadcast engineering, or who has a general interest in broadcast engineering. Youth members do not qualify for voting privileges in national elections nor are eligible to hold elected or appointed office.

(j) The right to wear the Emblem of the Society is given to Members of any classification.

SECTION 3. Termination of Membership.

(a) Any Member may be suspended for a period or expelled for cause, such as violation of any of the By-Laws or Canons of Ethics of the Society or for conduct prejudicial to the best interests of the Society. Such suspension or expulsion shall be at the unanimous vote of the full membership of the Board of Directors, with the exception of the vote of the person proposed for suspension or expulsion if he be a Member of the Board of Directors. At least 15 days before a vote may be taken for the suspension or expulsion of a Member, a statement of the charges against him and a notice of the time when and place where the Board of Directors proposes to take action must be sent to such Member by registered mail at his last recorded address; such Member shall be given an opportunity to present a defense at the time and place mentioned in the aforesaid notice.

(b) Any Member may be suspended or expelled for failure to pay dues, as outlined in Article V.

(c) Any Member may withdraw from the Society by presenting to the Secretary a written resignation, which resignation shall be presented to the Board of Directors by the Secretary.

(d) Each Member shall have one vote only.

(e) The rights of any person as a Member of this Society, including his right to vote, shall

cease immediately upon suspension, expulsion, or termination of membership.

ARTICLE III. BOARD OF DIRECTORS

SECTION 1. The governing body of the Society shall be known as the Board of Directors, which shall consist of the President, Vice President, Secretary, Treasurer, Immediate Past President and not less than six nor more than 12 Directors.

SECTION 2. All members of the Board of Directors and all nominees therefore must be members in good standing of the Society and hold a valid SBE Engineering Certification at the time of nomination and throughout all terms of office.

SECTION 3. The term of the Directors shall be for two years.

SECTION 4. A Director may be elected to not more than two consecutive terms after which that person must not hold a directorship for two years.

SECTION 5. All terms of office shall begin and end with the Annual Membership Meeting, the time of which shall be determined by the Board of Directors. The Board of Directors shall meet following the Annual Meeting, as soon as practicable.

SECTION 6. The Board of Directors shall have the power to hold meetings at such times and places as it deems necessary; to appoint committees; to employ staff and consultants; to authorize expenditures, establish policies and procedures, and to take such actions as may be necessary or desirable to carry out the purposes of the Society. Meetings of the Board of Directors may be called by the President whenever he deems necessary. Other meetings shall be called by the President upon written request of any four Directors or officers. Notification of all meetings of the Board of Directors shall be served personally, by regular United States Mail or receipted electronic mail, or by telephone conference call. Such notices shall not be made less than 21 normal working calendar days.

SECTION 7. The presence of a majority of the Directors plus two Officers shall constitute a quorum for the transaction of any business, and the act of the majority of those present at such a meeting shall be the act of the entire Board of Directors. Each member of the Board of Directors, except the President, (who shall vote only in order to break a tie) shall have one vote. An absentee vote may be cast by any member of the Board of Directors if in writing or by telephone conference call, if such vote pertains

to one specific item of business. The absent members' proxy may not be counted for the purpose of obtaining a quorum.

SECTION 8. Whenever a vacancy shall occur on the Board of Directors of the Society, the Executive Committee will fill the vacancy. The new Board member will serve for the unexpired term of his predecessor.

SECTION 9. In the absence of fraud or bad faith, the Board of Directors shall not be personally liable for the debts, obligations or liabilities of the Society.

SECTION 10. No member of the Board of Directors shall be reimbursed from the Treasury of the Society for expenses in attending any Board of Directors or Committee meeting. Members of the Board of Directors may be reimbursed for reasonable out-of-pocket expenses necessarily incurred in pursuing Society business by any Chapter, should that Chapter so desire.

SECTION 11. Each member of the Board of Directors shall endeavor to represent the views and interests of and maintain the fullest possible contact with the chapters in all regions.

SECTION 12. All members of the Board of Directors will have the right to vote at Board of Directors meetings. The President, or in his absence, the Vice President, will vote only when necessary to break a tie.

SECTION 13. Board members will seek at all times to avoid conflict of interest or actions or circumstances that could create the appearance of a conflict of interest. A conflict of interest shall be deemed to exist where a Board member's business connections are such that he could gain financially through the shaping of the affairs of the Society by the Board; by the improper exploitation of his office for the furtherance of his own aims or those of his employer; where he participates in a decision making process despite business, personal or professional interests that might bias or cause that member to pre-judge the issue; or where his influence in the affairs of the Society could be used for his private benefit. A Board member shall disclose any source of income or other financial interest he or his immediate family members have in any entity with which the Society is dealing or considering conducting business, both at the time of election and at any time during his service when the information is relevant to matters under consideration by the Board. If a conflict of interest arises on the part of any Board member, that Board member will not vote or otherwise participate

in Board or committee deliberations concerning the transaction that is the subject of the conflict, and will excuse himself from the meeting while the matter is under consideration, unless the remaining Board members or directors request that he participate in the discussion. If the nature of the conflict is irreconcilable with the Board member's continued service to the Society, the Board member may, by vote of a two-thirds majority of the Board, be removed from office for the remainder of the term of that member.

ARTICLE IV. GOVERNING OFFICERS

SECTION 1. The membership of the Society shall elect the Officers, which Officers shall consist of the President, Vice President, Secretary and Treasurer for a term of one year.

SECTION 2. The President may serve up to two consecutive terms in that office. The Vice President may serve up to two consecutive terms in that office. The Secretary may serve up to four consecutive terms in that office. The Treasurer may serve up to four consecutive terms in that office. No elected person may serve more than eight consecutive years as a director and/or an officer without a break in tenure of at least two years.

SECTION 3. No officer shall receive any compensation from the Society for services performed in his official capacity, but Officers shall be reimbursed for reasonable expenses in the performance of official duties upon presentation and verification of such expenses.

SECTION 4. The Executive Committee shall consist of the elected Officers and the Immediate Past President, and two Directors as appointed by the President.

SECTION 5. The President shall preside at the regular meetings of the Society or Board of Directors and shall be Chairman of the Executive Committee.

SECTION 6. The Vice President shall assume the duties of the President in his absence or incapacity and shall otherwise assist the President.

SECTION 7. The Secretary shall be responsible for all records and books of account of the Society, and shall record the minutes of all meetings of the Society and the Board of Directors. He shall also conduct the correspondence of the Society and the Board of Directors and records maintained by the Secretary shall be available at the National Office for inspection by members in good standing at all reasonable times. A copy of the minutes of all meetings of

the Board of Directors shall be distributed to each member of the Board of Directors and summaries thereof shall be provided to the Chapter Chairpersons in a timely manner following each meeting.

SECTION 8. The Treasurer shall supervise all accounts and moneys of the Society, under the direction of the Board of Directors and shall establish such accounts as shall be designated by the Board of Directors. He shall have charge of all funds of the Society, and shall be responsible for the prompt collection of dues from the membership. All checks shall require at least two signatures. Those authorized to sign checks shall be nominated by resolution of the Board of Directors. A financial report shall be distributed, by publication to the members of the Board of Directors and, upon written request, made available to Chapter Chairpersons on an annual basis. An audit will be performed by an independent auditor at least every two years and at the time a new Treasurer takes office. This audit will include all moneys administered by the Society.

SECTION 9. The Immediate Past President shall be a member of the Executive Committee, for a term of one year (unless the newly elected President is later elected for a second term, in which case the term of the Immediate Past President shall be for two years) beginning with the commencement of the term of a new President.

SECTION 10. An Executive Director may be employed and assume the duties and responsibilities as designated by the Board of Directors.

SECTION 11. Any officer or director who has accumulated two or more absences from duly-noticed meetings of the Board of Directors and/or of the Executive Committee during a single term of office may be removed upon two-thirds vote of all current members of the Board of Directors, with the exception of the vote of the person proposed to be removed.

ARTICLE V. DUES

SECTION 1. The annual dues shall be established by the elected Board of Directors.

(a) Annual dues shall be payable in advance and shall become due and payable on the first day of April each and every year.

(b) A bill for annual dues plus a membership card shall be mailed to each Member thirty days before due date.

(c) New Members shall receive a diploma-type membership certificate to indicate their grade of Membership and year of joining the

Society. Charter Membership shall be so indicated upon membership certificates. Members, who have been upgraded, shall receive a new diploma-type certificate to indicate their new grade and year of achievement.

(d) When a Member's dues are one month in arrears, a final notice shall be mailed by the National Office. When a Member's dues are three months in arrears, his membership shall be suspended.

(e) Reinstatement and Resignation shall be handled upon a basis to be determined by the Board of Directors.

(f) Military Service: Any Member entering Military Service shall have his dues placed in abeyance, with no further payments necessary until his release from Military Service.

(g) The dues of an individual member other than a student or associate member, may be placed in abeyance, with no further payments necessary during a fixed period of time upon a written showing of financial or other hardship satisfactory to the Membership Committee of the Board of Directors.

SECTION 2. The amount of rebate of dues collected from Members to local and regional chapters shall be determined by action of the Board of Directors and remitted to these chapters.

SECTION 3. Assessments upon Members shall be made only upon resolution of the Board of Directors and approval by a Majority vote of the eligible membership.

SECTION 4. Members holding the Life membership class of membership are exempt from payment of dues.

ARTICLE VI. COMMITTEES

SECTION 1. The Executive Committee shall act on behalf of the Board between Meetings of the Board of Directors. Its actions shall be those of the Corporation and binding upon it, unless overruled by vote of the full Board of Directors. The Committee shall be responsible for the execution of policy established by the Board of Directors, and shall provide policy guidance to the President, Executive Director and staff.

SECTION 2. The following Committees may be appointed by the President with consent and approval of the Board. The chairman of each committee shall be a Regular, Senior, or Life Member, and all officers shall be members ex officio of each committee. Appointees to the committees must be members of the Society.

- (a) Nominations
- (b) Membership
- (c) Finance
- (d) Certification
- (e) Fellowship
- (f) FCC Liaison
- (g) Frequency Coordination
- (h) Chapter Liaison
- (i) Such other Committees as may be deemed necessary

SECTION 3. The duties of these committees shall be defined by the Board of Directors.

ARTICLE VII. ORDER OF BUSINESS

SECTION 1. At each annual meeting of the Society, the general order of business shall be as follows:

- Remarks or address of the President
- Report of the Secretary
- Report of the Treasurer
- Reports of Committees
- Results of Elections
- Unfinished Business
- New Business

SECTION 2. Roberts' Rules of Order, to establish procedure and ensure decorum, shall govern all meetings of the Society and its subdivisions.

ARTICLE VIII. NOMINATIONS AND ELECTIONS

SECTION 1. Nominations.

(a) A nominating committee shall be appointed by the Board consisting of at least three members. At least sixty (60) days prior to the date fixed for the election of Officers, they shall nominate a slate of Officers and notify each member of such nominations by mail or by notice in a regular Society publication which is distributed to all members. The proposed slate of Officers will be sent to all Chapter Chairpersons not less than sixty (60) days prior to the election date, with a request for additional nominations.

(b) Any voting member in good standing, by

letter to the Secretary, not less than forty-five (45) days prior to the election date, may propose and nominate a candidate, and the name of any eligible candidate so proposed by ten (10) members or more shall be entered on the ballot.

(c) The attendance and voting records of Board of Directors members or other elected officers who are nominated to re-election shall be published and mailed to every voting member at least thirty (30) days prior to the election date.

SECTION 2. Elections. Elections shall be by mail Ballot which shall be mailed to every voting Member in good standing at least thirty (30) days prior to election date. The votes shall be canvassed by a Board of Tellers, consisting of not less than five (5) Members in good standing appointed by the Board of Directors.

The results of the Election shall be reported by the Chairman of the Board of Tellers to the President within ten (10) days of the date of the election. The President shall then report the results to the Secretary, who shall notify the membership.

ARTICLE IX. AMENDMENTS

SECTION 1. Proposals for amendment of these By-Laws may be made as follows: By written resolution signed by at least 25 voting members of the Society in good standing; by motion of any three Directors, or of the Executive Committee, or of any officer of the Society, at any regularly scheduled meeting of the Board. Such resolutions and motions shall be submitted to counsel for approval as to legality. Thereafter, such proposed amendments will become effective after two-thirds vote of the entire Board of Directors. Such Board vote shall be taken on such proposed amendments within 180 days of the submission of the resolution or motion to the Board.

The By-Laws may also be amended by a majority vote of the membership at large. A full membership vote shall be held within 120 days

following the first Board of Directors meeting after 5% of all chapter chairpersons, representing the majority of their chapter members in good standing, submit a proposed amendment, addition or deletion, and petition for a full membership vote. The Board of Directors shall then have the option of voting on the proposed amendments, and if affirmed, in their entirety, render the full membership vote unnecessary. The SBE counsel shall be available to assist chapters with any such proposed amendment.

SECTION 2. Copies of the amended By-Laws shall be distributed by mail or published in a Society publication which is distributed to all members in good standing within 60 days after passage and enactment.

ARTICLE X. REGIONAL, LOCAL, CHAPTER CONSTITUTIONS

SECTION 1. Subdivisions of the Society shall be governed by the By-Laws substantially in form and agreement with these By-Laws as set forth in the provisions of the Operating Guide for Chapters.

SECTION 2. The By-Laws of such subsections of the Society shall be approved by counsel, the Executive Committee of the Society, or such subcommittee as they shall designate, and the Board of Directors, before authorization is granted.

SECTION 3. The Executive Committee and the Board of Directors shall have the power to make changes from time to time in the Operating Guide for Chapters as serve the best interests of the Society.

ARTICLE XI. ASSETS AND FUNDS

SECTION 1. No Member, Director, Officer, or employee of the Society shall have any title, rights, or interest in any of the assets and funds of the Society; all assets and funds of the Society shall be held exclusively by the Society.

CANONS OF ETHICS

FOREWORD

Honesty, justice and courtesy form a moral philosophy when associated with mutual interest between human beings. This constitutes the foundation of ethics. Broadcast engineers should recognize such a standard of behavior not in passive observance, but as dynamic principles guiding their conduct and way of life. It is the duty of all broadcast engineers to practice their profession according to this Canon of Ethics.

The Keystone of professional conduct is integrity. Broadcast engineers will discharge their duties with fidelity to the public and to their employers, and with impartiality to all. Broadcast engineers must uphold the dignity of their profession and avoid association with any enterprise of questionable character.

Broadcast engineers will strive to be fair, tolerant, and open minded.

PROFESSIONAL LIFE

SECTION 1. The Broadcast Engineer will cooperate in extending the effectiveness of the engineering profession by interchanging information and experience with other broadcast engineers and students and by contributing to the work of engineering societies, schools and the scientific and engineering press.

SECTION 2. The Broadcast Engineer will avoid all conduct or practice likely to discredit or unfavorably reflect upon the dignity or honor of the profession.

RELATIONS WITH THE PUBLIC

SECTION 3. The Broadcast Engineer will endeavor to extend public knowledge of broadcast engineering and will discourage the spreading of untrue, unfair, and exaggerated statements.

SECTION 4. The Broadcast Engineer will have due regard for the safety of life and health of the public and employees who may be affected by the work for which he or she is responsible.

SECTION 5. The Broadcast Engineer will express an opinion when it is founded on adequate knowledge and honest conviction while he or she is serving as a witness before a court, commission or other tribunal.

SECTION 6. The Broadcast Engineer will not issue ex parte statements, criticisms or arguments on matters connected with the public policy which are inspired or paid for by private interests, unless he or she indicates on whose behalf he or she is making the statement.

SECTION 7. The Broadcast Engineer will refrain from expressing publicly an opinion on an engineering subject unless he or she is informed as to the facts relating hereto.

RELATIONS WITH CLIENTS AND EMPLOYERS

SECTION 8. The Broadcast Engineer will act in professional matters for his employer as a faithful agent or trustee.

SECTION 9. The Broadcast Engineer will act with fairness and justice between his or her employer.

SECTION 10. The Broadcast Engineer will make his or her status clear to his or her employer before undertaking an engagement if he or she may be called upon to decide on the use of inventions, apparatus, or any other thing in which he or she may have a financial interest.

SECTION 11. The Broadcast Engineer will guard against conditions that are dangerous or threatening to life, limb or property on work for which he or she is responsible, or if he or she is not responsible, will promptly call such conditions to the attention of those who are responsible.

SECTION 12. The Broadcast Engineer will present clearly the consequences to be expected from deviations proposed if his or her engineering judgment is overruled by non-technical authority in cases where he or she is responsible for the technical adequacy of engineering work.

SECTION 13. The Broadcast Engineer will engage, or advise his employer to engage, and he or she will cooperate with, other experts and specialists whenever the employer's interests are best served by such service.

SECTION 14. The Broadcast Engineer will not disclose information concerning the business affairs or technical processes of employers without their consent.

SECTION 15. The Broadcast Engineer will not accept compensation, financial or otherwise, from more than one interested party for the same work, without the consent of all interested parties.

SECTION 16. The Broadcast Engineer will not accept commissions or allowances, directly or indirectly, from contractors or other parties dealing with his employer in connection with work for which he or she is responsible.

SECTION 17. The Broadcast Engineer will not be financially interested in the bid as of or

a contractor on competitive work for which he or she is employed as an engineer unless he or she has the consent of his or her employer.

SECTION 18. The Broadcast Engineer will promptly disclose to his or her employer any interest in a business which may compete with or affect the business of his or her employer. He or she will not allow an interest in any decision regarding engineering work for which he or she may be called upon to perform.

RELATIONS WITH ENGINEERS

SECTION 19. The Broadcast Engineer will endeavor to protect the broadcast profession collectively and individually from misrepresentation and misunderstanding.

SECTION 20. The Broadcast Engineer will take care that credit for work is given to those to whom credit is properly due.

SECTION 21. The Broadcast Engineer will uphold the principle of appropriate and adequate compensation for those engaged in broadcast work, including those in subordinate capacities, as being in the public interest and maintaining the standards of the profession.

SECTION 22. The Broadcast Engineer will endeavor to provide opportunity for the professional development and advancement of personnel in his or her employ.

SECTION 23. The Broadcast Engineer will not directly or indirectly injure the professional reputation, prospects or practice of another colleague. However, if he or she considers that an individual is guilty of unethical, illegal or unfair practice, he or she will present the information to the proper authority for action.

SECTION 24. The Broadcast Engineer will exercise due restraint in criticizing another colleague's work in public, recognizing the fact that the engineering societies and engineering press provide the proper forum for technical discussion and criticism.

SECTION 25. The Broadcast Engineer will not try to supplant another engineer in a particular employment after becoming aware that definite steps have been taken toward the other's employment.

SECTION 26. The Broadcast Engineer will not use the advantages of a salaried position to compete unfairly with another engineer.

SECTION 27. The Broadcast Engineer will not become associated in responsibility for work with engineers who do not conform to ethical practices.

**SOMETIMES
TECHNOLOGY
SHOULD BE
INVISIBLE.**

You can't see all the features we've packed into our Kameleon™ Media Processing System. But you'll sure notice a lot of empty rack space once you start using them.

By combining extensive signal conversion, synchronization, and processing capabilities onto one module, the Kameleon system is a perfect fit for multi-channel operations—from digital cable and satellite uplink facilities, network hubs, and broadcaster centers to OB vans, and production trucks.

For instance, one Kameleon multifunction module can automatically detect an incoming analog composite or SDI signal, open the appropriate processing path, then quickly convert the video to your preferred format—as well as process up to eight audio channels and synchronize them to your video and house timing.

And you can combine Kameleon multifunction modules with Thomson Grass Valley single-function modules to create a signal-processing solution that fits your facility with even greater precision.

All without crowding your equipment racks.

Because there are more than a dozen ways to combine the signal-processing capabilities of a single Kameleon multifunction module—enough to handle almost any I/O requirement. And you house up to four of these modules in a single 1 RU frame, cutting your space and cabling requirements even further.

To get a good look for yourself, visit www.thomsongrassvalley.com/kameleon.

Introducing the new 32KD Digital Audio Network from Sierra Automated Systems.

This modular, digital-core routing system processes more audio, routes more signals, and provides more user control than any other system in its class.

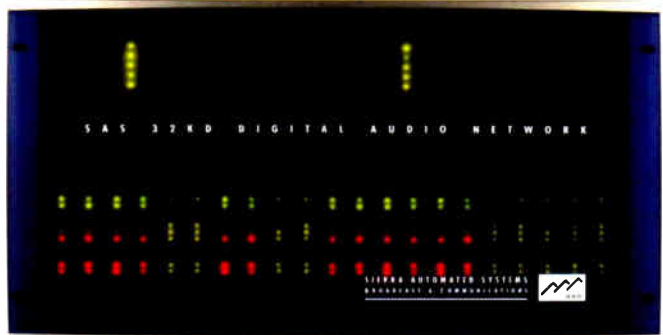

Routing, mixing, signal processing, IFB, mix-minus, and more, run simultaneously without conflict. All this functionality is readily accessible via PC, mixing boards, or dedicated control panels. And the performance? Like music to your ears.

For more details about the impressive capabilities of the 32KD, give us a call or visit our web site.

SAS. Doing more for radio. Again.

THE REVOLUTION HAS BEGUN...

MPEG Encoding and Network Storage Have United...

InfinAttach DV™

The revolutionary combination of a real-time MPEG-2 encoder and a Network Attached Storage (NAS) server, Globalstor Data's InfinAttach DV incorporates the latest in digital video encoding technology and cutting edge jukebox management software.

Supporting from 30 to 60 SCSI devices for virtually unlimited capacity scalability, users can convert raw video footage into professional quality, MPEG-2 digital files incorporating Dolby Digital (AC3) sound.

The InfinAttach DV also serves as a video and data storage appliance for networked video applications providing a unique "turn-key" solution without sacrificing economy. The integrated library management software supports a broad range of library solutions including: Write-Once DVD-R, ReWritable DVD-RAM, as well as Magneto Optical, ensuring optimum digital recording and playback of up to 19 hours of video per double-sided disk.

For added value, the server's expansion slot can be used for Fibre Channel support, FireWire, or gigabit Ethernet card.

InfinAttach DV takes only seconds to connect to any network, without requiring a system administrator. By using Net Meeting or any other remote management utility, users are assured ease-of-use in a native environment for a zero learning curve.

The Coverage Map Store

REALcoverage.com

Control and Monitoring

From Anywhere!

An intelligent, dual, modulation monitor/field strength meter/remote control system designed for FM radio stations. The **FMTEL5** incorporates the **FM Navigator** and IP2 remote device management solutions over standard IP networks or by dialup connections. Store audio, RF and status – or listen, control and monitor in real time via the Internet or your corporate LAN. **REALcoverage.com** introduces the unit that revolutionized control and monitoring in Europe for monitoring with an antenna or direct connection to transmitters.

FMTEL5 is perfect for total market monitoring, can send emails upon alarm conditions, and can record and/or stream audio from its built-in server. It's the ultimate remote control and listen line for programming and engineering!

Rapid email delivery of custom engineering and sales/marketing coverage maps.
Military quality measured and predicted propagation studies for antennas from 30MHz to 100GHz.
Available worldwide.

Call 800 700 4196 or +1 802 758 5000.
