... Behind our war effort is a vast organization known as "Our Government". This government is composed of many federal agencies and officials reflecting the policies of the President and Congress. These various agencies and individuals have important missions to accomplish which require widespread understanding and cooperation.

... In a Democracy - even at war - there is a limit to the effectiveness of regulations. In most instances, public acceptance must be secured. To reach our large population of 130,000,000, no medium is more effective than radio.

... And radio, alert to its vital role in this part of the war effort, is generously contributing its facilities, its time, and its trained personnel to serve the government and our people.

tions BY RADIO

OUR fighting forces throughout the world are linked to Command Headquarters in Washington by a vast network of military communication. Messages are necessarily sent in code -- for in them are the secrets of our future military operations. Our system of radio stations in the United States has been a reservoir which provided our Army and Navy with thousands of skilled specialists who now maintain our important lines of military radio communication. Meanwhile, the services are training thousands of additional men for radio duty on land, on the sea, and in the air. Today, radio is the nerve system of our military might. Crackling messages over the airways will carry the signal of the last great offensive and the first news of the final defeat of our enemies.

AMERICAN WOMEN IN UNIFORM

The figures presented on this page show American women in the uniforms authorized for their various types of war work. Never before in the history of the country have women played such important parts on the war front and the home front and enlisted in such numbers as today. This wholesale volunteering for war work releases large numbers of men for the actual business of fighting.

RIGHT! WRITE RIGHT!

Don't be discouraged by long delays in receiving replies to your letters to men in Uncle Sam's fighting forces. This is a World Wide War. The seas are wide and rough sailing. Regular mail travels in convoys and there are many unpredictable factors that may unavoidably delay the delivery of mail to men overseas. Be patient.

Don't be discouraged by necessary military restrictions. Write often to your servicemen; write long letters, but, remember, your letter may fall into enemy hands. Don't make it valuable reading for them.

The government considers your mail important—every ship that leaves this country carries mail.

The marines receive an assigned unit number and designation which he sends to the postmaster, either at New York or San Francisco, upon safe arrival overseas. The cards are then mailed to designated friends and relatives, who address mail according to the instructions on the cards.

If a soldier is located outside the United States address:

Private John Doe (Serial No.)
Company X, 535th Infantry
Army Post Office No. -----
C/O Postmaster
City, State - (As instructed by
soldier or War Dept.)

There are only two post office addresses that should be used for naval forces afloat and overseas. They are: C/o Postmaster, New York or C/o Postmaster, San Francisco, depending on which is nearer the man addressed. Address:

John Doe, Seaman Second Class,
USS CHARLESTON
C/O Postmaster
San Francisco

ON THE AIR

When they are not too busy learning the methods of warfare, the Army, Navy and Marine Corps can present radio programs with a professional flavor, designed to entertain and inform the folks back home. Hundreds of radio entertainers, musicians, writers, announcers, production men and specialists are in the service, and they welcome the opportunity to resume association with their former civilian pursuits. Meanwhile, radio listeners, they make it possible for friends and relatives to visit camps and training stations, without moving away from the loud-speaker. Through this medium, radio can claim special distinction for building and maintaining our strong morale.

Harry Heilmann

Four-time American League batting champ. Harry knows baseball from the inside out. Few baseball narrators possess either his knack of anticipating the action on the field or his inexhaustible fund of baseball anecdotes. The Detroit Tigers games are broadcast exclusively by Harry Heilmann for WXYZ and the Michigan Radio Network.

Harry Heilmann -- first-ranking newscaster in Detroit and the finest baseball play-by-play reporter in the nation. Heilmann has an instinctive sense for the highlights in news, accenting only the meat of the bulletin. His "Day in Review" at 6:00 P.M. (Mon.thru Sat.) has the largest radio audience on any news program broadcast in Detroit.

Harry Wismer

Harry Wismer -- Blue Network sports broadcaster, who recently received the "Sporting News" award as "the top radio reporter of sports events" for the second consecutive year. Mary Small, the vivacious and popular song-bird now has her own variety show on a coast to coast network, and featured as "Mary Small Revue". It's good too. every Sunday at 5 PM.

King of "swing and sway", Sammy Kaye came out of Ohio with one of the most versatile orchestras on the musical horizon. Red-hot rhythm one moment, then sweet-flowing melody, then novelties of the "Daddy" type -- it's all in a day's work, but it's a job well done every Sunday at 1:30 PM, and Friday at 10 PM.

They call him "Pops", presumably because he is the "father" of so many of the country's top musical names (Bing Crosby heading the list). Anyway, Paul Whiteman puts together a beautiful show each Sunday for the full hour of 6 to 7 PM. The Dean of Modern American Music deserves your bow.

Whenever it is, you hear the top bands of the world and the finest individual singers and melody teams...presented in the unique Eddie Chase manner, from requests of Detroit's homes, factories, and servicemen writing from every theatre of war!

“Who is “The Lady of Charm?””

The answer is: Edythe Fern Melrose. In demand for men's and women's banquet speaking all over these United States, she is constantly on the go. Keeping on top of fashion and merchandising developments at the right New York and Hollywood sources, "The Lady Of Charm" brings style ideas to her listeners months before their nationwide appearance. This feature alone has made her broadcasts valuable to stations throughout the country, via electrical transcriptions. She will not accept a sponsor until she has personally tested his product and approves it. Make it a habit to tune in any Monday thru Friday at 1:15 PM.

KEEPING IN TOUCH

Wherever they are, in training or in action, U. S. fighting forces look to radio to maintain their association with "home" -- it may be the voice of a friend, word from the home town or news from the good, old U.S.A. It all serves the same purpose for the service men who have no intentions of losing contact with things that were familiar before the war interrupted their lives. Radio does this job, too.

CIVILIAN

DEFENSE

Every able-bodied citizen has a part in the national defense of the United States. Any attack upon this country must find each citizen assigned to his or her place, trained in the duties involved, and resolute to carry out those duties, regardless of the danger to be faced.

Thousands of United States communities have organized and trained efficient Civilian Defense units and have conducted tests, drills and exhibitions to determine that each cog in the vital machinery of wardens, police, firemen, nurses, etc., will be capable of meeting any emergency.

Only with the complete cooperation and support of those whom Civilian Defense is designed to serve and protect, can it operate smoothly and efficiently. You will recognize the Civilian Defense Workers by these insignia.

HOW TO DISPLAY AND RESPECT THE FLAG OF THE UNITED STATES OF AMERICA

1--When flags of states or cities or pennants of societies are flown on the same halyard with the flag of the United States of America, the latter should always be at the peak. When flown from adjacent staffs the flag of the United States should be hoisted first and lowered last.

2--When displayed with another flag against a wall from crossed staffs, the Flag of the United States should be on the right (the flag's own right), and its staff should be in front of the staff of the other flag.

3--When used on a speaker's platform, whether indoors or out, the flag should never be reduced to the role of a mere decoration by being tied into knots or draped over the stand. For this purpose bunting should be used. The flag, if displayed, should be either on a staff or secured to the wall or back curtain behind the speaker with the union to the flag's right.

4--When flags of two or more nations are displayed together they should be flown from separate staffs of the same height and the flags should be of approximately equal size.

5--When the flag is displayed in the body of the church, it should be from a staff placed in the position of honor at the congregation's right as they face the clergyman. The service flag, the state flag or other flags should be at the left of the congregation. If in the chancel or on the platform, the flag of the United States should be placed on the clergyman's right as he faces the congregation and the other flags at his left.

6--When the flag is displayed

in a manner other than by being flown from a staff, it should be displayed flat, whether indoors or out. When displayed either horizontally or vertically against a wall, the union should be uppermost and to the flag's own right, that is, to the observer's left.

7--Whenever a number of flags of states or cities or pennants of societies are to be arranged in a group and displayed from staffs with the flag of the United States, the latter should be placed at the center of that group and on a staff slightly higher than any of the others.

8--When the flag is displayed from a staff projecting horizontally or at an angle from the window sill, balcony or front of a building, the union of the flag should go to the peak of the staff (unless the flag is to be displayed at half-staff).

9--Whenever the flag of the United States is carried in a procession in company with other flags, it should occupy a position in front of the center of the line of flags or on the right of the marching line.
