The complete AMP BNC crimp tool kit is designed for use by the professional network engineer. The kit is recommended for fast and secure crimping of 10Base2 BNC connectors. The kit is supplied complete with AMP PRO crimp tool and BNC connectors (58/59/62), T-connectors, and straight socket-to-socket connectors. All connectors feature Teflon insulation between contacts and gold plated centre contacts. Supplied in a convenient carrying case.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CF68Y 1	LAN BNC Kit	£204.240	£239.990

## AMP Termination Tool Kit

This termination tool kit is perfect to crimp almost any kind of crimp connector, including fibre-optic connectors. The kit is complete with RJ-45 crimping tool which uses interchangeable die sets. Using the die sets included, the unique Pro-Crimper can crimp XTC, FSMA, FSD, BNC and N-series connectors.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CF67X 1	Termination Tool Kit	£561.690	£659.990

## Data Cable Stripper

An effective and easy to use single step stripper that safely removes the outer sheath (PVC and Plenum types) from all twisted pair (UTP and STP) and multicore cables up to 11mm in diameter.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CW34M	Sheath Stripper	1+ 4+ 20+	1+
		£9.670 £8.170 £7.600	£10.190

## Maxim Cable Stripper

A quality, universal stripper ideal for any round or flat data cable – once the length of cut is set no further adjustment is needed, making it very easy to use.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN61R 1	Maxim Cable Stripper	1+ 4+ 20+	1+
		£35.280	£41.990

## Coaxial Cable Stripping Tools

A choice of two dedicated coaxial cable preparation tools capable of performing 2- and 3-level strips on the dielectric, braid and outer insulations. The tools require no adjustment, and incorporate a unique measuring device to determine the correct strip length to suit a particular connector. The suitable tool for each cable type is shown below.

Toggle Tools Code	Cable Type	Maplin Code
10030	RG58	CW36P
10040	RG59	CW38R

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CW36P	Stripper RG58	£10.030	£11.790
CW38R	Stripper RG59	£11.880	£13.950

## Thinnet Stripper

A simple and effective two/three stage stripper for sheath, braid and dielectric on typical Thinnet cables. The stripper is factory set to ensure accurate cutting every time.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DNS9P	Thinnet Cable Strip	£11.050	£12.990

## Ethernet Stripper

A simple and effective two/three stage stripper for sheath, braid and dielectric on typical Ethernet cables. The stripper is factory set to ensure accurate cutting every time.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN60Q	Ethernet Cable Strip	£11.050	£12.990

## AMP Sub-D HD 20 Kit

This complete kit offers you a fast way to assemble HD 20 connectors and includes HD 20 pins, sockets, connector and shell crimp, Snap In housings and Quick Snap hoods. The high quality crimp tool for HD 20 contacts (it firmly attaches the HD pin or socket contacts to the cable with the right crimp-force) completes the kit. It's adjustable for different type of cable - from AWG 32 to 20 (0.03 to 0.5) - is easy to calibrate and very durable. The kit comes complete with a handy case

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CU48C	AMP Sub-D HD20 Kit	£199.650	£234.600

## Sub-D HD 20 Crimp Tool

This tool makes HD 20 (standard Sub-D) contacts quick and easy to install - the HD pin or socket contacts are firmly tightened onto the cable with the right crimp force, resulting in a pull resistance of 2kg. The crimp tool is adjustable for different types of cable from 0.03 to 0.5 and is easy to calibrate.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CU46A	Sub D HD20 Crimp Tool	£101.550	£119.330

## HDD 22 Crimp Tool

This tool makes HD 22 (SVGA) contacts quick and easy to install - the HD pin or socket contacts are firmly tightened onto the cable with the right crimp force, resulting in a pull resistance of 2kg. The crimp tool is adjustable for different types of cable from 0.09 to 0.08 and is easy to calibrate.

Retail Unit Price each (inc. VAT).

## Transceivers

### Transceivers

D-Link

A range of transceivers that are designed to connect directly to the host system's AUI connectors without the need for extra transceiver cables. D-Link's transceivers are compact in size and offer a cost effective solution to your connectivity needs. SQE is supported with a user selectable switch to match operation to the host system. Diagnostic LEDs are supplied for diagnostic monitoring. There are 4 versions available:

- BNC to AUI Transceiver for Thin Coax
- RJ45 to AUI Transceiver for UTP
- ST to AUI Transceiver for Fibre Optics
- RJ45 to BNC Transceiver for Media Conversion.

Retail Unit Price each (inc. VAT).

## Projects

### Projects & Modules

#### Programmable PC I/O Card 1

- ★ For use with IBM PC, PC-XT, PC-AT and compatible clones
- ★ 24 programmable input/output lines
- ★ Fully programmable from BASIC
- ★ Base address selectable
- ★ Uses industry standard 8255 PPI IC

A 24-line digital I/O (Input/Output) card for use on many IBM PCs and clones. The card is based around the industry standard 8255 PPI (Programmable Peripheral Interface) IC. A 37-pin D-type connector is integral to the card and protrudes from the expansion board. The 8255 PPI IC provides the necessary control, latching, buffering and handshaking of data to and from the card. A number of TTL chips provide access to the 8255 from the host computer. Both CMOS and TTL logic can be read, but only TTL +5V can be written. Extensions to the card can enable the device to write to CMOS levels. This card is not able to handle large current devices directly, however, circuits supporting the card are shown in the magazine. A GW BASIC program is supplied in the

article for testing the card, producing a square wave at all the ports. Full operating procedures using GW BASIC commands are also shown in the leaflet.

#### Optional Items

The following items, not included in the kit, may also be required.

D-Connector Jack Post	1 Pr	(FP31J)
8255 Data Book	1	(XK97F)

#### Kit and Special Parts

A complete kit is available and the pcb is also available separately, as well as the 8255 Data Book. Full construction details may be found in Maplin Magazine/Projects Book 43 XA43W, and instruction leaflet XK29G.

A ready assembled version is also available.

PCB dimensions: 286 x 40mm.

#### Applications Information

Further applications information on using the Programmable PC I/O Card may be found in the following issues of *Electronics - The Maplin Magazine*:

*Using Temperature Modules - Issue 71 (XA71N):* Gives details of how to measure temperature.

*Requires Temperature Module Expansion Converter Kit (LM36P) and Temperature Module (FE33L) - article includes BASIC program listing.*

*IBM PC Centronics Input Port - Issue 77 (XA77J):* Gives details of how to receive data from another computer's centronics parallel printer port - useful when transferring data from an old computer system where disc or file formats, etc., are incompatible - article includes BASIC program listing.

*Rugby Clock Receiver - Issue 47 (XA47A):* Gives details of how to receive and decode Rugby MSF Clock data. Requires Rugby Clock Receiver Kit (LP70M) - article includes BASIC program listing.

*Practical Robotics - Issues 42 (XA42V), 43 (XA43W), 44 1991 (XA44X), 59 (XA59P):* Gives details of how to build and control robots from a computer - Issue 59 gives specific information relating to the Programmable PC I/O Card which can be directly applied to the articles in Issues 42 to 44 - articles include BASIC program listings.

#### PC Relay Card 2

#### Features

- ★ For use with IBM PC, PC-XT, PC-AT and compatible clones
- ★ Eight relay changeover contacts
- ★ Switches up to 24V DC/50V AC @ 2A resistive/1A inductive
- ★ Fused 5V output to power external circuits
- ★ Base address selectable
- ★ Multiple cards can be used
- ★ Fully programmable from BASIC

#### Applications

- ★ Robotics
- ★ Process control
- ★ Time control
- ★ Home automation
- ★ Controlling lamps, motors, solenoids

This project is a versatile relay card for use with the IBM PC, PC-XT, PC-AT and compatible clones. Each relay, of which there are eight on the card, has one set of change-over contacts. The relay contacts are able to switch 'moderate' loads, such as low voltage lamps, motors and solenoids. The card slots into any one of the vacant expansion slots provided on the host computer. Power, control, address and data signals are obtained from the computer's expansion bus. The relays' contacts are brought out, together with a fuse-protected +5V supply, on a 37-way female D-type connector. The D-type connector protrudes through the expansion card slot facilitating easy connection with the outside world.

The card is based around discrete logic, as opposed to a fully programmable input/output IC, this has the advantage that the card does not need to be configured or initialised before use. Data can simply be written to the appropriate address to set or reset the relevant relays. To simplify programming, it is possible to 'read back' from the card which relay outputs are set or reset, this avoids having to set or reset software flags to keep track of the current relay states. A further advantage is that a self-diagnostic routine could be written into the software to check the presence of the card at the correct input/output map location and whether the card is functioning correctly. Details are given in the kit on how to access the PC Relay Card using GW-BASIC.

#### Kit and Special Parts

A complete kit of parts (including the PCB and instruction leaflet) is available. The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 65 XA65V, and instruction leaflet XT88V.

Retail Unit Price each (inc. VAT).

		1+	1+	
LT16S	PC Relay O/P Card	£25.520		£29.990
GH22Y	PC Relay O/P PCB	£8.500		£9.990
XT88V	PC Relay Card Lft	£0.400		£0.400 NV

#### PC Opto-Isolator Card 2

#### Features

- ★ For use with IBM PC, PC-XT, PC-AT and compatible clones
- ★ 100% galvanic isolation
- ★ Eight 'double buffered', opto-isolated inputs with strobe
- ★ Eight opto-isolated transistor switch outputs
- ★ High isolation voltage
- ★ Fused 5V output to power external circuits
- ★ Selectable base address

#### Applications

- ★ Isolated data links
- ★ Connection of switches, tachos, pulse devices and detectors
- ★ Robotics
- ★ Process control
- ★ Timer control
- ★ Home automation
- ★ Control of lamps, motors, solenoids

This project is a versatile interface card for use with the IBM PC, PC-XT, PC-AT and compatible clones, featuring electrical isolation of both inputs and outputs using opto-coupling techniques. There are separate, 8-bit parallel input and output connections on the card, with an additional strobe input being provided for the 8-bit parallel input. This strobe can be disabled if required, improving

the flexibility of the card.

The card slots into any one of the vacant expansion slots provided on the host PC, and the power, control, address and data signals are obtained from the computer's expansion bus. The opto-isolated inputs and outputs are brought out to a rear panel mounted, 37-way, female D-range connector, together with a fuse-protected +5V supply, allowing easy connection with the outside world.

The card uses discrete logic, as opposed to a fully programmable input/output IC, and therefore has the advantage that it does not need to be configured or initialised before use. Data can simply be written and read to, and from, the appropriate address. A further advantage is that a simple self-diagnostic function could be included in the software to check the presence of the card at the correct input/output map location, and whether the card is functioning correctly.

### Kit and Special Parts

A complete kit of parts (including the PCB and instruction leaflet) is available. The PCB and 37-way D-Type bracket are available separately. Full construction details may be found in Maplin Magazine/Projects Book 66 XA66W, and instruction leaflet XT87U.

Retail Unit Price each (inc. VAT).

CR45Y	PC Bracket 37 Way D	£2.540	£2.960
XT87U	PC Opto-Iso Card Lft	£0.500	£0.500 NV

## PC Prototyping Card

### Features

- ★ For use with IBM PC, PC-XT, PC-AT and compatible clones
- ★ Matrix of DIL IC spaced solder pads and power rails
- ★ Buffered address and data lines
- ★ On-board address decoder
- ★ Selectable base address

### Applications

- ★ Prototype development of PC I/O cards
- ★ Constructing custom 'one-off' adaptor cards

This versatile project is an interface card for use with the IBM PC, PC-XT, PC-AT and compatible clones, specifically designed to allow the home constructor and experimenter to develop a custom-built expansion card for his or her PC, to perform a specific hardware interfacing task which is not catered for by any normally available cards. It will be particularly useful in the field of electronics where some special interface is needed, and equivalent industrial I/O cards are expensive. The card plugs into any one of the vacant expansion slots provided on the host PC's motherboard, and the power, control, address and data signals are made available from the computer's expansion bus. External connections can be brought out to a rear panel mounted, 37-way, female D-range connector. This connector is optional however, and other more specific connectors can be used instead if the application demands.

Flexibility is also increased from the software point of view, by the provision of the MEMR and MEMW lines, allowing configuration of the card as memory (therefore addressed in the memory map), or alternatively the IOR and IOW lines are available, allowing the card to be configured as an I/O device of some sort, as are all the IRQ lines.

The remainder of open space over the rest of the component side of the card has matrices of plated through holes organised to a 2.54mm (0.1in.) grid.

Those above the buffering circuitry have pads interconnected in favour of transistor circuits and resistor networks, while those occupying the front half are essentially configured for DIL ICs. Five bus bars are provided down the centre of the card carrying 0V, +5V, -5V, +12V and -12V supply rails. If the 37-way, rear panel connector is used, then all the connections (which are open-ended, i.e. not connected to anything) are brought to separate pads, contained in the rectangular legend marked 'SK1', with pin identification.

### Optional Items

The following items, not included in the kit, may also be required.

RA Socket 37-Way D-Range	1	(JB38R)
PC Bracket 37-Way D-Type	1	(CR45Y)

### Kit and Special Parts

A complete kit of parts (including the PCB) is available (excluding optional items). The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 67 XA67X, and instruction leaflet XU20W.

Retail Unit Price each (inc. VAT).

Order Code	Type 3328	Price each exc. VAT	inc. VAT each
LT14Q	PC Proto Card Kit	£29.770	£34.990
GH39N	PC Prototyping Card	£25.520	£29.990
XU20W	PC Proto Card Lft	£0.400	£0.400 NV

## Video Digitiser

### Features

- ★ Black and white (monochrome) or colour digitising
  - ★ Simple to construct and operate
- ### Applications
- ★ Home video storage and processing
  - ★ Closed circuit TV (CCTV) security camera systems
  - ★ Presentations

This superb project is a real time Video Digitiser card intended for use with IBM compatible PCs fitted with a VGA or higher grade monitor. The system converts video signals into digital data that can be processed by the PC. Therefore you can view and store pictures sourced from either a video camera, composite black and white (monochrome) video, or a colour RGB signal, on a PC. This then allows you to use or modify the stored images as you require. Software is included in the kit, which operates under Windows 3.1 or higher operating systems. The software incorporates operating and construction details for the kit, in a choice of four languages - English, Dutch, French, and German, and in addition, conventional written instructions are provided. Pictures may be digitised in black and white or RGB colour from either TV, camera, or tape sources. The Video Digitiser card is capable of capturing frames from live composite video signals with 256 grey levels, and 24-bit full colour pictures from still image RGB signals. The output file is in the form of TIFF (Tagged Image File Format) files. The output files may be processed further by almost any graphics program that runs under MS-DOSTM or WindowsTM, the recommended graphics program being 'Paint Shop Pro', which is shareware. You can then print out a hardcopy onto paper if a suitable printer is connected to your PC. The project can have more serious uses, such as in security monitoring systems. The project will work with the Maplin range of charge-coupled device (CCD) subminiature video cameras. In the case of the monochrome version (AY16S/DN48C), images

can be seen in the dark, thanks to the camera being infra-red sensitive and incorporating built-in infra-red illumination of the scene. Video Processor K4600 (VF74R) can be used to provide RGB signals for colour digitising.

### Specification

System requirements: IBM-compatible PC with 286 or higher processor  
VGA or higher video card  
Spare expansion slot  
Windows 3.1TM or higher

### Black and white images

Resolution: 512 x 512 pixels  
Grey levels: 256  
Sampling rate: 10MHz  
Input signal: Composite PAL video (15.625kHz line frequency)

### Video input level:

1V pk-to-pk

### Output file format:

TIFF (8-bit)

### Colour images

Resolution: 512 x 512 pixels  
Colour input signal: RGB (1V pk-to-pk)

### Number of colours:

16.7 million

### Output file format:

TIFF (24-bit)

### Kit and Special Parts

A complete kit of parts is available, including the PCB. Full constructional details may be found in Maplin Magazine/Projects Book 96 XA96E, and instruction leaflet XV84F.

## RS232 Serial Line Tester 3

### Features

- ★ Easy to build
- ★ Versatile, pocket-sized unit
- ★ Multiple function
- ★ Four different baud rates
- ★ 8-bit PIC microcontroller-based
- ★ Low current consumption

### Applications

- ★ Terminals
- ★ Printers
- ★ Modems
- ★ Multiplexers
- ★ RS232 cabling

The RS232 Serial Line Tester is an extremely handy, pocket-sized device for rapidly testing serial terminals, printers and other communications equipment using RS232 data cabling. For example, where a multi-user computer system has a large number of terminals and printers distributed around one or more sites, they are often connected via simple asynchronous RS232 data cabling for a cost-effective and flexible installation. However, when a device fails to operate correctly, usually at the furthest point of the system (!), a way of testing the equipment quickly and independently of the host system can save a great deal of time in isolating the fault. This tester is a low-cost, portable, and easy to use instrument, based on the PIC16C84 Microcontroller and is capable of providing several useful test functions to enable rapid troubleshooting. It also provides a painless introduction to the world of PIC microcontroller-based projects, as no programming is required.

### Specification

DC Power Supply: 9V PP3 cell  
 Supply current: 14mA  
 Typical battery life: >30 hours  
 Visual indicators: Two miniature LEDs

provide power on/battery state and data flow indication

Test facilities: 80- and 132-column test modes  
 Choice of three test patterns  
 1200, 2400, 4800, and 9600 BAUD rate  
 7-bit Odd/Even/Mark/Space, 8-bit None data formats  
 Visible confirmation of software flow control (X-on/X-off)  
 Printer carriage mechanism tabbing test

### Optional Items

The following items, not included in the kit, may also be required.

Alkaline PP3 Battery	1	(ZB52G)
4prs 1in Velcro Sqrs	1	(FE45Y)
RS232 Mini Tester	1	(YP80B)
Null Modem RS232	1	(YP85G)
25W M-M Gender Changer	1	(JM48C)
25W F-F Gender Changer	1	(JM49D)
25-way M-F Serial Cable	1	(JC13P)
9-way F to 25-way M Adaptor	1	(JM08J)
Carrying Case B	1	(ZF04E)

### Kit and Special Parts

A complete kit if parts (including the PCB and front panel label) is available (excluding optional items). The PCB, front panel label, and pre-programmed microcontroller are available separately. Full constructional details may be found in Maplin Magazine/Projects Book 100 XD00A, and instruction leaflet XV93B.

**Printing Portable HR8-L**

Casio

A compact printing calculator with a 10-digit LCD display. In addition to the four basic functions the calculator has a memory and percentage key for add-ons, discounts, mark-ups etc. There is a switch for floating decimal point, cut off or round off at 2 decimal places. The calculator has a flip-out print roll which enables you to switch from internal to external roll, and uses standard 58mm plain paper rolls and operates from an AC adaptor 4.5V DC, available separately, or four AA cells (supplied).  
 Size: 188 x 98 x 40mm excluding roll holder.  
 Weight: 298g including batteries.

**Scientific FX-82 SX**

Casio

A 78-function scientific calculator with true algebraic logic (i.e. the formula can be entered in the same sequence as it is written) and up to six levels of parentheses. Other features include a single key for display of kilo, mega, micro etc, fluent conversion between polar and rectangular coordinates, easy statistics through standard deviation function, and 3- mode angular measurements (degree, radian and grad). The calculator can perform fraction calculations, has keys for trigonometric and hyperbolic functions, logarithms, square and cube roots, squares, reciprocals and factorials, and there is a random number generator. There are 6 constant memories as well as the normal memory. The liquid crystal display shows 8 digits with a

2 digit exponent. The calculator gives 9000 hours continuous operation from two alkaline AA cells supplied.

**Scientific C-Power FX-570HB**

Casio

A 129-function scientific calculator with true algebraic logic (i.e. the formula can be entered in the same sequence as it is written) and up to six levels of parentheses. Other features include a single key for display of kilo, mega, micro etc, fluent conversion between polar and rectangular coordinates, easy statistics through standard deviation and regression analysis, and 3-mode angular measurements (degree, radian and grad). The calculator can perform fraction calculations, has trigonometric and hyperbolic functions, logarithms, square and cube roots, squares, reciprocals and factorials, and there is a random number generator. There are 6 constant memories as well as the normal memory. The liquid crystal display shows 8 digits with a 2 digit exponent. The C-Power system combines solar power with battery back-up, allowing full operation (including memory retention) in any lighting conditions. Battery life is around 7 years in normal use (lithium battery GR927 included).

## Scientific C-Power FX115HB

Casio

The latest version of this 252 function, scientific calculator operates at speeds up to 2.5 times faster than previous models. Binary, octal and hexadecimal calculations and conversions can be performed. The calculator uses true algebraic logic, where the formula can be entered in the same sequence as it would be written. Recall is possible from an independent memory and six constant memories, plus fast compounding and direct acceptance of all four basic functions. Parenthesis calculations up to six levels can be handled with ease. Also possible is fluent calculation between polar and rectangular co-ordinates, statistics from standard deviation function and regression analysis, and 3-mode angular measurements in degrees, radians and grads. The calculator can also produce a display in kilo, mega, micro etc. Unlike conventional solar calculators, C-Power models can be used even in total darkness. While solar powered in sunlight, a 6-year lithium battery GR927 is used where light is insufficient.

Size: 24 x 77 x 153mm

## Scientific Calculators FX-992S

Casio

- ★ 12-digit display
- ★ 383 functions
- ★ Base N operations
- ★ Logic functions
- ★ Standard deviation and linear regression functions
- ★ 18 levels of parentheses

- ★ Memory retention with power off
- ★ Solar/battery operation

A high specification scientific calculator designed for office, home and college use. Ideal for use up to and beyond 'A' level standards. Packed with functions, this unit is able to handle almost all the problems you're likely to need for everyday problems. A large, clear 12-digit display provides a high level of accuracy while facilitating viewing in most lighting conditions. Standard deviation and linear regression functions are provided for data analysis.

## Programmable Scientific Calculator FX-3900P

Casio

The FX-3900P is a powerful programmable scientific calculator that allows the user to perform calculations many times over with a range of values, by recording the keystrokes that are necessary to make up the calculation. The calculator has a two line dot matrix screen that allows programming, and editing of previously entered programs, to be viewed. Thus, previously entered formulae, stored in the six constant memories, can be recalled after execution for viewing and editing and re-used at any time or programmed to be repeated over and over as often as is required. This is a full function unit with operators shown on the display and will calculate averages and standard deviation, logarithms, polar and rectangular conversions and register exchange, using engineering notation to display results. All trigonometric functions are supported, including hyperbolic and arc of all functions, operating in degrees, radians or gradients. The results can be converted to and from decimal, degrees, minutes and seconds. The unit supports calculations using up to 18 sets of parentheses over six levels with permutations and combinations; maths functions include square, square root, cube root, reciprocal, sign change, factorial and powers with  $P_i(p)$  held as a constant. Other features include: Linear regression; numerical integration using Simpson's rule; conditional jumps; memory retention when power is switched off; generation of random numbers; a rounding function that allows the fixing of the number of significant digits.

Specification  
Power supply: 1 x CR2025 lithium battery (supplied)  
Battery life: 6,000 hours average

## Student Graphic Scientific Calculator FX-6300G

Casio

This model contains basic scientific functions and graphing capabilities that were selected to meet the needs of students. It provides students with the means to view actual graphs of formulas and equations, and additionally comes with fraction, Base-n and statistical capabilities. The calculator can be programmed to perform complex calculations at the touch of a key and once a calculation is performed, it can be recalled at the press of a key for modification or for input of new values. Formulas and functions can be entered just as they are written - the calculator automatically assigns priority according to the locations of arithmetic operations, exponents, functions and parentheses. The calculator comes complete with 20 built-in scientific graphs that can be drawn at the touch of a key and user generated graphs can be drawn simply by entering the function (formula) after pressing the 'graph' key. Four graphic analysis tools (trace, zoom, plot/line and graph scroll), help to pinpoint exactly the required information, right on the graph itself. Bar graphs and normal distribution curves for single-variable statistical calculations, and regression lines for paired-variable statistical can also be displayed. A 400-step program area provides plenty of room for storage of often repeated programs. Formulas are input just as they are written, without any special programming language. Up to 10 programs can be stored in memory simultaneously. The basic functions include negative numbers, exponents, parenthetical additional/subtraction/multiplication/division, trigonometric/inverse trigonometric functions (units of angular measurement: degrees, radians, grads), hyperbolic/inverse hyperbolic functions, logarithmic/exponential functions, reciprocals, factorials, square roots, cube roots, powers, roots, squares, decimal-sexagesimal,  $\pi$  random numbers, absolute values, integers and fractions.

### General Specification

Power supply: 2 x lithium batteries (CR2032)  
Battery life: 350 hours approx.  
Auto power off: 6 mins approx. after last key operation  
Dimensions: 142 x 73 x 10mm  
Weight: 84g  
Supplied with a slide-on hard case that fits over the back or front, for protection.

## Graphic FX7400G

Casio

- ★ Advanced graphic functions
- ★ Zoom in facility
- ★ Fraction Key
- ★ 13 Character, 6 line display
- ★ On screen icon driven menu
- ★ 4 way scrolling

The FX7400G has been specifically designed for use throughout GCSE mathematics courses and beyond. Exceptional value for money the FX7400G is the ideal entry level graphic calculator combining a wide range of features with 7 kb memory. It's on screen icon driven menu makes it extremely user friendly and easy to use.

## AUDIO CONNECTOR SELECTION GUIDE

There is a variety of different connectors used to interface audio equipment.

### XLR

XLR 'barrel' plugs and sockets are normally used where microphones or balanced audio signals are encountered. Balanced audio - in which antiphase (differential) signals and ground are employed to reject hum over long cable lengths - tend to be found in professional and semi-professional audio equipment, such as mixers and amplifiers. The 3-pin connectors are robust, having been designed to withstand the rigours of 'on the road' use. A mechanical interlock prevents the plug from accidentally disengaging from the socket.

### Pinout:

Pin 1: Ground/shield  
Pin 2: In-phase  
Pin 3: Out-of-phase

### Phono

For many of use, the phono connector is the de facto audio connector, since it was originally designed for interfacing domestic audio equipment. Phono connectors have two conductors, and are intended for 'single-ended' (unbalanced) signals. In the world of high-fidelity, they are specified for both line-level (tape, tuner and CD), and low-level (turntable) connections. Nowadays, phono connectors are also used for composite video, the coaxial digital outputs of CD players, and the AC-3 RF outputs of laserdisc players. When wiring leads, note that the barrel for signal ground, and an inner pin for the signal. We recommend that gold-plated phono connectors should be used for high-quality applications, and that metal-shielded plugs be used wherever low-level signals (such as those from turntable cartridges) are present.

### DIN (Deutsche Industrie Normen)

DIN connectors, which were highly popular in 1970s audio equipment, are now rarely seen. Despite their near-disappearance, knowing about DIN wiring conventions is important if equipment of this vintage is still in use; some early VCRs also used them for audio inputs and outputs.

The most commonly-encountered 5-pin 'A' type lives on as a common PC keyboard connector, and a standard way of interconnecting electronic musical instruments, thanks to the MIDI (Musical Instrument Digital Interface) standard. The 5-pin 'A' connector is one of an extensive range that ranges from 2 to 14 pins, and there are also 'mini' variants that are common in the world of computer interconnections. Most plugs are plastic, although some pin configurations are available with metal casing. These shielded variants are ideal for low-signal applications. Some 'latching' plugs and sockets are also available from Maplin.

Although there are equipment-specific exceptions, most DIN audio applications follow a standard pin-out, which is listed below. Maplin does, however, sell multi-core cables with individually-screened wires. We recommend that such cable should be used to make custom cables for hi-fi applications.

2-pin: Flat pin, ground; round pin, signal  
5-pin A (tape): Pin 2, ground; Pin 3, input L; Pin 5, input R; Pin 1, output L; Pin 4, output R

5-pin A (turntable): Pin 2, ground; Pin 3, input L; Pin 5, input R

5-pin A (line input, e.g., tuner): Pin 2, ground; Pin 1, input L; Pin 4, input R

5-pin A (mic, low impedance): Pin 2, ground; Pin 3, input R/mono; Pin 5, input L

5-pin A (mic, high impedance): Pin 2, ground; Pin 1, input R/mono; Pin 4, input L

5-pin A (MIDI data): Pin 2, ground; Pin 3, Thru loop; Pin 5, loop return; Pin 1 TxD Thru return; Pin 4, TxD

5-pin A (PC keyboard): Pin 2, data; Pin 3, reset (active low); Pin 5, +5V; Pin 1, clock; Pin 4, ground

### 3.5mm/2.5mm/6.3mm 'jacks'

3.5mm 'stereo' jack plugs and sockets are commonly used as headphone and line-outputs on portable audio equipment, such as personal stereos and 'ghetto blasters'. They are also used for audio inputs and outputs on PC soundcards and Apple Macintoshes. The mono variant is often specified as a microphone connector with such equipment. The more established 6.3mm connector has a wider range of applications. It is a common microphone connector for domestic, and even some semi-professional audio equipment. 6.3mm connectors are also used for musical instruments, such as guitars (low-level) and keyboards (line-level). In domestic hi-fi and professional audio equipment (such as mixers), the stereo 6.3mm connector is often used as a headphone socket. A smaller 'subminiature' connector, which has a pin diameter of 2.5mm, is less common. Standardised connections across all three types are identical. Screened plugs and sockets should be employed wherever low-level signals, such as those from microphones, are involved. Some sockets have a break-action contact to (an) extra pin(s); this allows constructors to facilitate automatic source selection. It is also possible to implement a system whereby the connection of only one of a pair of microphones automatically switches the mike channel to mono.

Mono: barrel, ground; tip, signal

Stereo: barrel, ground; ring, right channel; tip, left channel

### SCART

Although the 21-pin SCART (also known as the Euroconnector or Peritel) is primarily designed as an AV connector, knowing which pins carry the audio signal is very useful. Not all AV equipment has phono audio outputs, although it is beneficial to route the sound from a satellite receiver, VCR or TV set to a stereo system or AV amplifier. In particular, NICAM TVs are capable of excellent stereo sound, which is seldom realised through the poor-quality and inadequately-spaced speakers that such sets tend to incorporate. Although 'standard' Scart-to-phono leads are available, they tend to be relatively short. A custom cable of the appropriate length will allow the TV and hi-fi - which tend to be separated in the average living room - to be bridged.

Pin 1: Output R  
Pin 2: Input R  
Pin 3: Output L  
Pin 4: Ground  
Pin 6: Input L

## AUDIO / VIDEO

### AUDIO

## Audio Locking Connectors Chassis Plug / Line Socket

A range of high quality audio connectors with die-cast metal housings and plated brass contacts. Connectors are keyed and a screw locking mechanism locks the connector into place. Line socket has an integral cable clamp. Chassis mounting plug requires a 16mm diameter panel cutout. Line socket overall length: 37mm, diameter 18mm. Current rating: 5A at 50V AC. Plugs and sockets supplied separately. Available in 2, 3, 4, 5, 6, 7 and 8-way. Please note that socket type connectors are required for microphone connections to mobile transceivers.

## XLR CONNECTORS

### 3-Pin Plug

Low cost connectors for use on audio and test equipment etc. The strong metal housings are sandblasted die-cast zinc then copper and nickel plated. Contacts are brass, mercury dipped then silver-plated. Self-adjusting strain-relief sleeves on line plug and socket will accommodate cables from 4 to 7mm dia., preventing damage to cable sheath

up to 50kg stress.

**Specification**  
Current rating: 15A at 120V AC  
Contact resistance: 5mΩ max  
Overall length: 70mm  
Diameter: 19mm  
All parts are latching and will mate with other 3-pin XLR connectors.

Retail Unit Price each (inc. VAT).

### Low Cost XLR-Type Connectors

Cliff

A range of low cost plugs and sockets moulded from tough nylon. Metal fittings are silver-plated brass. Sockets may be mounted to the front or rear of a chassis, and rear mounting may utilise the PC type. The sockets are panel air-tight construction and secured by two diagonal M3 countersunk screws. Matching male and female plugs are available, and incorporate integral cable/strain relief.

#### Specification

Current rating: 3-pin 16A/250V AC  
Contact resistance: <3mΩ  
Insulation resistance: 1600V AC between contacts and housing  
Mounting hole: 21.5mm  
Fixing centres: 24 x 18mm

### Professional Quality XLR-Type Chassis Mounting Connectors

Neutrik

A range of professional quality XLR plugs and sockets for chassis and panel mounting. Suitable for audio applications such as cable connectors, microphone stage boxes, professional public address systems, recording studio applications and audio mixer connections. The range

includes 3, 4 and 5-pin plugs and sockets. The shell of the connector is of rugged die cast Zn/Al/Cu alloy construction with Cu/Sn alloy contacts and a contact surface of Ag/Au hard alloy. The contacts of the connector comply with solderability specification IEC 68-2-20 and can accommodate wire sizes up to 14AWG (1.63mm). The socket incorporates a locking mechanism to prevent the associated plug from being accidentally disconnected. The locking mechanism is released when the button is pressed, the plug simultaneously being pulled from the socket. The NC-FP1/NC-MP series is only suitable for mounting externally.

The NC-FDL/NC-MDL series has a raised edge surrounding the socket allowing mounting on the inside of a panel or chassis, reducing the amount of panel finishing work required. Also this 'DL' series is RF protected. These connectors will also mate with the Neutrik NC-FX/NC-MX series of in-line plug and socket connectors.

## Professional Quality XLR-Type Connectors: In-Line

Neutrik

Type NC-FX

A range of professional quality XLR plugs and sockets for in-line cable connection. Suitable for audio applications such as microphone cable connectors and audio mixer connections. The range includes 3, 4 and 5-pin plugs and sockets. Assembling the in-line plugs and sockets does not require a screwdriver. The connectors contain four easy to assemble parts including the chuck type strain relief assembly. The shell of the connector is of rugged die cast Zn/Al/Cu alloy construction with Cu/Sn contacts that comply with solderability specification IEC 68-2-20 and can accommodate wire sizes up to 16AWG (1.29mm). These connectors will also mate with the Neutrik series of chassis mounting plug and socket connectors.

## Black Finish Gold Contact XLR Type Connectors

Neutrik

Designed for professional, industrial and commercial applications with minimal parts for straightforward assembly (no assembly screws). These connectors have solder bucket connections and the standard self adjusting cable strain relief. With the same specification and features as other Neutrik XLR ranges these connectors feature the non reflective black chrome finish together with the gold plated contacts.

## Heavy Duty Professional Quality XLR Type Connectors

Neutrik

Extremely rugged 3 pole free plug and socket connectors developed for outdoor use, offering dust and water protection to IP65 when mated. The plug shell is manufactured in stainless steel and the socket has a rubber jacket. Sealing is completed with an internal 'O' ring seal and polyurethane strain relief. The connectors provide minimum IP54 sealing when mated with most other 3 pole XLR's. Electrical specifications are the same as the standard Neutrik NC3MX/NC3FX.

## MINIATURE XLR CONNECTORS

### Tini 'Q-G' Miniature Audio Connectors

Switchcraft

These high quality miniature XLR style connectors give very reliable performance in a compact size. They are ideal for portable instruments, radio communications and miniature microphones. Precision machined nickel plated brass body with polarised positive latching available in 3,4 and 5 pole configuration.

## Professional Phono-Plug

Neutrik

These high quality audio connectors with gold contacts feature the Neutrik chuck-principle cable protection, and also make ground before signal contact and break signal before ground. The outer shell element is spring loaded. The plugs are packaged as a pair (one black and one red banded) with a black housing, and each has two strain relief chucks, black and blue. The blue chuck accepts cables of 3 to 5.5mm diameter and the black chuck 5.5 to 7.3mm diameter.

Retail Unit Price each (inc. VAT).

## Metal Barrel Gold-Plated Phono Plugs For Large Diameter Cables

A range of high quality metal barrelled phono plugs with gold plated contact surfaces for minimum contact resistance and maximum reliability. These plugs are designed for use with large diameter cables, often encountered in semi-professional and professional applications. Suffix 70 types have 27 x 12mm dia. bodies finished in black with knurled grip rings, an 18mm-long coil spring strain relief and are suitable for cables up to 7mm diameter. Suffix 85 types have 36 x 14mm dia. black knurled bodies, a 34mm-long coil spring strain relief and are suitable for cables up to 8.5mm diameter, a substantial tubular cable clamp will ensure cable retention. Both types are available with red or white identifier bands around the plug body; for left/right identification in stereo applications.

Retail Unit Price each (inc. VAT).

Order Code	Type 1006	Price each exc. VAT			inc. VAT each

## Plastic Barrel Line Socket

A standard 6.35mm (1/4in.) mono line socket with plastic barrel and strain relief sleeve.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HH19V	Line Jack Plas	£0.468	£0.300	£0.260	£0.550

## Screened Line Socket

Standard 6.35mm (1/4in.) mono line socket with metal barrel and coiled spring strain relief sleeve.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HH20W	Scr Line Jack	£0.944	£0.660	£0.565	£1.110

## 6.35mm (1/4in.) Jack Coupler

A heavy-duty plastic-barrelled coupler for joining two mono 6.35mm (1/4in.) jack plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RK80B	Mono 0.25in. Jk Cplr	£0.927	£0.640	£0.535	£1.090

## 6.35mm (1/4in.) Plug to 3.5mm Mono Socket Adaptor

Allows a 3.5mm mono jack plug to be used with a 6.35mm (1/4in.) mono jack socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RW00A	Adaptor A	£0.595	£0.380	£0.310	£0.700

## 3.5mm Plug to 6.35mm (1/4in.) Mono Socket

Allows a 6.35mm (1/4in.) mono jack plug to be used with a 3.5mm mono socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RW02C	3.5mm-6.35mm Adptr	£0.595	£0.390	£0.285	£0.700

## 6.35mm (1/4in.) Plug to 6.35mm (1/4in.) Stereo Socket Adaptor

Allows a 6.35mm (1/4in.) stereo jack plug to be used with a 6.35mm (1/4in.) mono jack socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FK11M	Adaptor L	£0.510	£0.360	£0.290	£0.600

## 6.35mm (1/4in.) Plug to Phono Socket Adaptors

Allows a phono plug to be used with a 6.35mm (1/4in.) mono jack socket. Available with plastic body or high quality gold-plated metal body.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
KW36P	Mtl 6.35 to Phono	£0.842	£0.630	£0.520	£0.990
RW01B	6.35mm to Phono Adptr	£0.689	£0.400	£0.300	£0.810

## Patch Lead Set

Six short colour coded screened leads terminated with right-angled 6.35mm (1/4in.) mono jack plugs for chaining several items of audio or stage equipment together. Supplied as a set. Length 300mm each. Colours: Black, Blue, Green, Yellow, Red, White.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
YZ32K	300mm Patch Lead Set	£5.090	£3.750	£3.240	£5.990

## Coiled Right-Angled Mono 6.35mm (1/4in.) Jack Lead

A coiled extension lead terminated with a right-angled mono 6.35mm (1/4in.) jack plug and a straight 6.35mm (1/4in.) jack plug. Coiled length 1.2m. Extended length 3.5m.

Retail Unit Price each (inc. VAT).

## Straight 6.35mm Audio Jack Plugs

Switchcraft

The stereo or mono straight audio jack plugs are designed for OEMs and users of commercial jack plugs. They are easily assembled using three pieces; handle, insulator and finger/housing. They have large terminals that accept up to 16AWG wiring (cables up to 6.35mm dia.).

Retail Unit Price each (inc. VAT).

Order Code	Type 11833	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
GU13P	Prof Mono Straight	£1.890	£1.800	£1.710	£2.230
GU14Q	Prof Stereo Straight	£2.900	£2.750	£2.610	£3.410

## Gold-Plated Jack Plug

A gold-plated stereo 6.35mm (1/4in.) jack plug, having a plated barrel in addition to plated contact areas, plus a coil spring strain relief sleeve.

Retail Unit Price each (inc. VAT).

Order Code	Type 978	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FM12N	Gold Stereo 1/4in Jk	£1.480	£1.050	£0.830	£1.750

## Screened Side-Entry Plug

Standard 6.35mm (1/4in.) right-angled side-entry stereo jack plug with a metal body.

Retail Unit Price each (inc. VAT).

Order Code	Type 975	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JK01B	Stereo R/A 1/4in Scr	£0.595	£0.425	£0.340	£0.700

## Right-Angled 6.35mm Audio Jack Plugs

Switchcraft

The stereo or mono right-angle audio jack plugs are designed for OEMs and users of commercial jack plugs. The robust slimline construction, 12.7mm body diameter, allows close stacking in adjacent jack sockets. They are easily assembled using three pieces; handle, insulator and finger/housing. They have large terminals that accept up to 16AWG wiring (cables up to 6.35mm dia.).

Retail Unit Price each (inc. VAT).

Order Code	Type 11840	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
GU15R	Prof Mono R/Angle	£3.600	£3.420	£3.240	£4.230
GU16S	Prof Stereo R/Angle	£4.290	£4.080	£3.870	£5.050

## Open Socket

Standard 6.35mm (1/4in.) open-type 3-pole stereo jack socket. Mounting hole: 9.5mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type 980	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HF93B	Stereo Open Skt	£0.587	£0.400	£0.340	£0.690

## Moulded Chassis Socket with Plastic Bezel

Dimensions in mm  
Holes #1.2mm  
Viewed from above

Standard 6.35mm (1/4in.) moulded stereo jack socket with 3 break contacts. Mounting hole: 11mm dia. Available with solder tags or PCB mounting pins.

Retail Unit Price each (inc. VAT).

Order Code	Type 981	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HF92A	Jack Skt Sto	£0.595	£0.430	£0.350	£0.700
FJ05F	Stereo PCB 1/4in Skt	£0.595	£0.430	£0.350	£0.700

## Moulded Chassis Socket with Chromed Bezel

Cliff

Standard 6.35mm (1/4in.) moulded stereo jack socket with 3 break contacts. Bezel is domed and chromed and contacts are nickel silver. Mounting hole: 11mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type 982	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BW79L	Chro Stereo Jack Skt	£0.774	£0.550	£0.460	£0.910

## DPDT Jack Socket

A standard 6.3mm (1/4in.) stereo jack socket with two changeover contacts which are not connected to the plug when it is inserted, 9 contacts. Ideally suited as headphone outlet on amplifier, with switches used to change main output from speakers to dummy loads. Mounting hole: 9.5mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type 983	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BW90B	DPDT Jack Socket	£0.944	£0.720	£0.650	£1.110

## DPDT PCB Jack Socket

Dimensions in mm  
Holes #2.5mm  
Viewed from above

A standard 6.35mm (1/4in.) stereo PCB mounting jack socket with internal DPDT contacts.

Retail Unit Price each (inc. VAT).

Order Code	Type 984	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FJ87U	Sw PCB Stereo Jk Skt	£1.370	£1.050	£0.940	£1.620

## Compact Stereo PCB Jack Sockets

Cliff

FC 6792

FC 6794

4 Holes #2.4

Two types of compact PC mounting 6.35mm (1/4in.) stereo jack sockets, with either one switched contact or unswitched. Supplied with mounting nuts and washers.

Retail Unit Price each (inc. VAT).

Order Code	Type 985	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CX88V	PCB Skt UnSw Stereo	£0.689	£0.530	£0.465	£0.810
CX90X	PCB Skt Sw Stereo	£0.689	£0.530	£0.465	£0.810

## Plastic Barrel Line Socket

A standard 6.35mm (1/4in.) stereo line socket with plastic barrel and strain relief sleeve.

Retail Unit Price each (inc. VAT).

Order Code	Type 986	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HH21X	Stereo Line Skt	£0.595	£0.450	£0.400	£0.700

### Screened Line Socket

A standard 6.35mm (1/4in.) stereo line socket with a metal barrel and coiled spring cable relief sleeve.

Retail Unit Price each (inc. VAT).

Order Code	Type 987	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HH22Y	Scr Stereo Line Skt	£0.842	£0.660	£0.540	£0.990

### 6.35mm (1/4in.) Jack Coupler

A heavy-duty plastic-barrelled coupler for joining two stereo 6.35mm (1/4in.) jack plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type 998	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JK04E	Stereo 1/4in. Jk Cplr	£0.842	£0.660	£0.550	£0.990

### Two-Into-One Adaptor

Allows two 6.35mm (1/4in.) stereo jack plugs to be used with one 6.35mm stereo jack socket.

Retail Unit Price each (inc. VAT).

Order Code	Type 988	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JB17T	2 Into 1 Stereo Jk	£0.944	£0.720	£0.540	£1.110

### 6.35mm (1/4in.) Stereo Plug to 5-Pin A DIN Socket Adaptor

Allows a 5-pin A (180°) DIN plug to be used with a 6.35mm (1/4in.) stereo jack socket.

Retail Unit Price each (inc. VAT).

Order Code	Type 984	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FK12N	6.35mm to Din Adptr	£0.944	£0.730	£0.660	£1.110

### 5-pin A DIN Plug to Stereo 6.35mm (1/4in.) Socket Adaptor

Allows a 6.35mm (1/4in.) stereo jack plug to be connected to a 5-pin A (180°) DIN socket.

Retail Unit Price each (inc. VAT).

Order Code	Type 1085	Price each exc. VAT			inc. VAT each

## LOUDSPEAKER CONNECTORS

### Quick Connection Lever Terminals

Spring loaded, lever action, quick connection terminals which will hold wires in a vice-like grip. These terminals, originally intended for terminating loudspeaker leads, have many uses.

The 2-way lever terminal on a round escutcheon has one red and one black lever marked '+' and '-', and 'INPUT'. Escutcheon diameter 74mm. Requires 50mm diameter panel cut-out. Fixing centres 43.5 x 43.5mm x 3mm clear. Overall depth 28mm.

The 2-way lever terminal on a rectangular escutcheon has one red and one black lever. Escutcheon size 55 x 24mm. Fixing centres 43.5mm x 3mm clear. Max depth 22mm. The two solder tags are 4mm from one edge and 19mm apart. The 4-way type has two black and two red levers on a base 65 x 17.5mm. Fixing centres 58mm x 3mm clear. Max depth 22mm. The four solder tags are 4mm from one edge and 13mm apart.

Retail Unit Price each (inc. VAT).

Order Code	Type 1385	Price each exc. VAT	inc. VAT each
CC72P	L/S Cable Plug 4Pole	£3.140	£3.690
CC73C	L/S Chassis Connector	£1.690	£1.990

### Speaker Terminal

A spring loaded terminal for gripping speaker wires etc. The terminal is attached to a base panel with a threaded M3 stud and nut. In use, simply depress plunger and insert wire into sidehole. Available in red and black.

Retail Unit Price each (inc. VAT).

Order Code	Type 1387	Price each exc. VAT	inc. VAT each
JY89W	Spkr Term Bk	£0.468	£0.550
JY90X	Spkr Term Red	£0.468	£0.550

### Loudspeaker Amplifier Connectors

Neutrik

An extremely robust four pole cable plug and mating chassis loudspeaker connector configuration. The chassis connector is suitable for airtight speaker

cabinets. A 'latch lock' action mates the cable plug with the chassis socket and is locked by a securing ring mechanism. This ensures that leads are reliably secured. The cable plug dismantles into 4 separate parts and the cable is secured by screw terminals and clamped by the Neutrik chuck-type strain relief. The chassis socket terminals provide soldering points for internal wiring.

(Dimensions in mm)

NL4FC Cable plug 4 pole  
NL4MP X1 Chassis connector 4 pole

Retail Unit Price each (inc. VAT).

### Four-Pole Touch-Proof Connector

CIFF

Panel cut-out (Front view)  
Dimensions in mm

A high quality four-pole connector featuring touch-proof contacts, polarised locking mechanism, built-in cable clamp, gold-plated contacts, fits standard XLR cut-outs and offers a low-cost solution to interconnection problems.

**Specification**  
Voltage rating 250V RMS max.  
Contact rating 30A RMS at 20°C (20A RMS at 80°C)  
Insulation resistance >20MΩ @ 4000V

Retail Unit Price each (inc. VAT).

Order Code	Type 8518	Price each exc. VAT	inc. VAT each
BN32K	4 Pole TchProof Plug	£2.940	£3.460
BN33L	4 Pole TchProof Skt	£1.690	£1.990

## 8 Pole Touchproof Connector

CIFF

A tough, lightweight and economical solution to multi circuit connections. Particularly useful in instrumentation, system interconnections and lighting as well as speaker systems and amplifier outputs. The 10A rating together with touchproof contacts and a polarized locking system deliver high standards of safety and reliability. Contacts are touchproof to IEC65/IEC348 and IEC1010-1. For speaker systems the chassis connector is panel airtight.

## OPTICAL FIBRE

### Digital Optical Fibre Lead

An optical fibre lead specifically designed for use with CD equipment, to link the CD player to an external D to A converter unit and convert the digital data into analogue information. The lead is 1m long and manufactured from high quality, flexible, fibre optic light guide material. It is covered in a black protective sheath and terminated with standard couplings to fit most CDs.

Retail Unit Price each (inc. VAT).

Order Code	Type 1332E	Price each exc. VAT	inc. VAT each
CC40T	Fibre Optic Lead Dig	£13.600	£15.990

**VIDEO CONNECTORS**

**Round 10-Way**

A high quality set of plugs and sockets, mainly for use as video camera connectors. Connectors are keyed and a screw locking mechanism locks them tightly in place. Line socket overall length is 66.5mm, diameter 20mm. Line plug overall length is 70mm, diameter 23mm. Chassis mounting socket length is 18mm, and requires a 16.5mm diameter panel cut-out.

Retail Unit Price each (inc. VAT).

**Peritel (SCART) Plug to Plug Connecting Cable (Composite Video & Audio)**

Peritel (SCART) plug to plug composite video, stereo audio and function switching unused pins : 5, 7, 9-18, 18.

A 21-way Peritel (SCART) plug to plug connecting cable for interconnecting video equipment, such as TV's and VCR's. This cable provides connection for composite video, stereo audio and function switching. Length (approx.) 1.5m. The diagram below shows the connections between the plugs. Please Note: this cable does not provide connections for Data Communication, RGB Video and Blanking signals, for applications requiring these connections use Universal Cable (JW37S).

## Scart Extension Leads

Three approximately 50cm long extension leads with 1 to 2-way, 1 to 3-way or 1 to 5-way adaptors, connecting a SCART plug at one end to two, three or five SCART sockets in a box 98 x 70 x 30mm, or 125 x 70 x 30mm, or 188 x 70 x 30mm respectively. The cable is a sleeved loom 10mm in diameter containing individually screened conductors where required. The lead is merely an extension and does not include any in/out line reversals; all pins on the plug connect directly to all equivalent pins in all sockets simultaneously. Use to connect two TVs to one VCR, etc., with the aid of twin plug connection leads (as above). Note that contention from more than one audio/video, etc., outputs sharing one conductor must be avoided, but one output to two or more inputs is allowable. Colour black.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
BM61C	2Way Scart Skt Strip	£7.220	£5.750	£5.000	£8.490

## Peritel (SCART) Plug to Phono & BNC Plugs

A 21-way Peritel (SCART) plug to standard phono and BNC plug connecting cable for interconnecting audio/video equipment fitted with mating phono plugs and BNC connectors. This cable provides connection to audio pins (left/right audio input and left/right audio output) and composite video pins (video input and video output). Length 1.4m. Please note that this cable does not provide any connections for Function Switching, Data communication, RGB Video and Blanking Signals.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	25+	
CC04E	Scart - Phono Cable	£8.920	£6.990	£4.750	£10.490

## Stereo Video Copying Kit

A universal connector kit for audio/video equipment that includes Peritel and camcorder plugs. The kit includes the following items:  
 Peritel (SCART) to 6-pin DIN socket (150mm) 2 off  
 6-pin DIN socket to 3 x phono plugs (200mm) 2 off  
 5-pin DIN plug to 2 x phono sockets (200mm) 2 off  
 6-pin DIN plug to 6-pin DIN plug (2m) 1 off  
 Phono plug to 2 x phono sockets (150mm) 1 off  
 BNC plug to phono socket adaptor 2 off  
 UHF plug to phono socket adaptor 2 off  
 3.5mm plug to phono socket adaptor 2 off

Please note that this cable does not provide connections for function switching, data communications, RGB video or blanking signals.

## TV Aerial Flylead

Co-axial cable with co-ax plugs connected at both ends. Available in 2m, 5m and 10m length.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
JW39N	Flylead 5m	£2.450	£1.500	£1.250	£2.890
JW40T	Flylead 10m	£3.310	£1.750	£1.500	£3.890

## Free Plug

Nickel-plated brass plug with silver-plated centre pin and ferrule. Available in 50Ω and 75Ω impedance.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
HH17T	BNC Plug 50	£1.690	£1.300	£1.150	£1.990
FE99H	BNC Plug 75	£1.690	£1.300	£1.150	£1.990

## BNC Boot

An insulating boot for use with crimp plug JC23A. The boot is cut to suit the diameter of the cable if necessary, and then pushed on to the cable, before crimping. The hood is then forced over the crimp, and with the matching hood, the plug is now insulated. Colour black.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
CK06J	BNC Boot	£0.187	£0.112	£0.092	£0.220

## Aerial Extension Cable

Coaxial extension lead manufactured from 75Ω coaxial cable and terminated at one end in a coaxial plug and at the other end in a coaxial socket. The terminations are protected with a plastic strain relieving sheath. Length 2m.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
GW61R	Aerial Extn Cable	£1.690	£1.000	£0.750	£1.990

## LOW COST BNC

### RF CONNECTORS How to Assemble BNC/TNC and Other RF Connectors

1. Connector parts.
2. Cut the cable to the specified lengths as indicated in the diagram. Take care not to nick the braid or centre conductor.
3. Slide the Hex nut, washer and grommet over the cable before soldering the pin on the centre conductor. Tin end of conductor prior to soldering. Place the top hat over the braid and push back against cable jacket., then pull the braid back over the top hat as shown.
4. Insert cable and parts into the connector body and screw home the hex nut until it is tightened.

## BNC Connectors

A range of BNC series connectors with 50Ω and 75Ω impedances. Both types will mate with one another. Peak working voltage 500V. Max frequency 5GHz

**Maplin is opening new stores all the time. Call for latest details**

## Crimp Plugs

Nickel plated brass plug with gold-plated centre pin. The plug is suitable for use with any 50Ω & 75Ω cable. 50Ω UR76, RG58 (our XR19V/XS51F), 75Ω RG59 (XS52G). See Tools section for suitable crimp tool (ZF41U).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
JC23A	BNC Crimp Plug 50	£0.842	£0.750	£0.700	£0.990
CL06G	Crimp Plug RG59 75	£0.953			£1.120

## Coax Connector Crimping Tool

A coax crimping tool that has five separate sections to accept 1-72, 2-5, 5-4, 6-48 and 8-2mm connectors for crimping. The pressure necessary for crimping can be adjusted for individual requirements, and is made easy with the aid of long contoured, plastic covered handles.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
ZF41U	Coax Crimper	£19.080	£16.650	£15.140	£22.430

## BNC Hood

An insulating hood for use with crimp plug JC23A. The hood is pushed over the plug before the cable is crimped on. Colour black.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
CK07H	BNC Hood	£0.161	£0.112	£0.092	£0.190

## Twist-on Plugs

Nickel-plated brass plugs suitable for use with 75Ω and 50Ω cable. 50Ω UR76, RG58 (XS51F), 75Ω RG59 (XS52G). To fit, strip outer sheath then fold the screen back over the outer sheath, then strip the inner sheath and screw the plug on.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
JK21X	Twist-On BNC Plug	£1.290	£1.020	£0.820	£1.520
CL03D	Twist Plug 75 Ohm	£1.200	£0.990	£0.850	£1.410

## Right-Angled Free Plug

A right-angled BNC plug with plastic body and strain relief sleeve, and solderless cable connections.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FJ72P	BNC R/A Plug	£1.230	£0.850	£0.635	£1.450

## Round Chassis Socket

Nickel-plated brass chassis socket with gold-plated centre pin and earth tag. Available in 50Ω and 75Ω impedance. Requires 9-7mm diameter panel cut-out.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
HH18U	BNC Round Skt 50	£1.020	£0.860	£0.700	£1.200
FE31J	BNC Round Skt 75	£1.020	£0.860	£0.700	£1.200

### Insulated Chassis Socket

An insulated earth version of the round chassis socket with gold-plated centre pin. Requires a 9.7mm diameter panel cut-out.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CK05F	Insulated BNC Skt	£1.290	£0.940	£0.750	£1.520

### Square Chassis Socket

Nickel-plated brass chassis socket with silver-plated centre pin. Square base 17 x 17mm with four holes on 12.7mm centres.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
YW00A	BNC Square Socket	£1.100	£0.830	£0.690	£1.304

### Free Socket

A BNC socket for cable mounting.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
YW01B	BNC Line Socket	£1.230	£0.900	£0.620	£1.450

### BNC Terminator

A termination plug fitted with an encapsulated 50Ω resistor, and gold plated centre pin. Suitably for end termination on network computer installations.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CK06G	BNC Terminator Plug	£1.370	£0.918	£0.765	£1.620

### Straight Female Adaptor

Two Free Plugs may be connected together with this adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
YW02C	BNC Straight Adaptor	£1.690	£1.350	£1.230	£1.990

### Straight Male Adaptor

Back-to-back male plugs in nickel-plated brass with silver-plated centre pin.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE96T	BNC Double Male	£2.080	£1.250	£0.850	£2.450

### 'T' Adaptor

Two Free Plugs may be connected together then connected to one socket with this adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
YW03D	BNC T Adaptor	£2.540	£2.350	£1.150	£2.990

### 'Y' Adaptor

Fitted with a gold-plated pin, this adaptor connects two cables with BNC plugs to one socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CK01B	BNC Y Adaptor	£3.310	£2.490	£1.820	£3.990

### BNC Male to Phono Socket Adaptor

A BNC plug to phono socket adaptor enabling a phono plug to be used with a BNC socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FA11M	Phono Skt/BNC Plg	£1.570	£1.040	£0.580	£1.850

### BNC Female to Phono Plug Adaptor

A BNC socket to phono plug adaptor enabling a BNC plug to be used with a phono socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE88V	BNC Fem/Phono Plug	£1.480	£1.000	£0.600	£1.750

### BNC Connectors Mini UHF Male to BNC Female Adaptor

Allows a standard male BNC cable to be connected to a mini UHF female socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BZ21X	BNC Fem/Mini UHF Male	£1.400	£1.040	£0.880	£1.650

### Mini UHF Female to BNC Male

Allows a mini UHF cable with a male connector to be connected to a standard BNC female socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BZ22Y	BNC Male/Mini UHF Fem	£1.400	£1.040	£0.880	£1.650

### PCB Mount BNC Series Sockets

Vitelec

Two in this series of BNC sockets are standard or low profile PC mounting sockets. The other two are the same with the addition that they are EMC shielded. They are nominally 50Ω impedance with an operating frequency range of 0 to 4GHz.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
KE15R	Std PC Mnt Skt	£1.940	£1.510	£1.440	£2.290
KE16S	L/P PC Mnt Skt	£1.940	£1.610	£1.440	£2.290
KE17T	Std Shld PC Mnt Skt	£2.280	£1.910	£1.710	£2.690
KE18U	L/P Shld PC Mnt Skt	£2.280	£1.910	£1.710	£2.690

## PCB Straddle Mount BNC Series Sockets

VITELEC

These 50 ohm BNC panel mounting sockets sit straddle mounted on the PCB enabling closer packing density of PCB's. Signal contact is made centrally above the board and the ground is made adjacent above the board (same side = CT70M) or in line below the board (alternate side = CT69A) Recommended PCB thickness 1.6mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 12055	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
CT69A	Saddle Mnt BNC Alt	£2.620	£2.130	£2.030	£3.090
CT70M	Saddle Mnt BNC S/S	£2.620	£2.130	£2.030	£3.090

## BNC SERIES

### BNC Plug

VITELEC

A high quality BNC plug with gold plated contacts. This connector is suitable for use with 50Ω screened cable RG58, Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type 1513	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV14Q	Clamp Plug (RG58)	£1.540	£1.420	£1.270	£1.810

### BNC Line Socket

VITELEC

A high quality BNC line socket with gold plated contacts. This connector is suitable for use with 50Ω screened cable RG58, Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type 1524	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV16S	Clamp Jack (RG58)	£1.880	£1.730	£1.550	£2.210

### BNC Isolated Chassis Socket

VITELEC

A high quality BNC isolated chassis socket with gold plated contacts and solder pins.

Retail Unit Price each (inc. VAT).

Order Code	Type 1523	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV28F	ISOL Pnt Jack	£1.780	£1.650	£1.470	£2.100

**Business Account Holders**  
No Delivery Charges for any order

## BNC Line Socket

VITELEC

A high quality BNC line socket with captive centre pin and gold plated contacts. This connector is suitable for use with 75Ω screened cable RG59, Order Code XS52G.

Retail Unit Price each (inc. VAT).

Order Code	Type 1524	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV17T	Clamp Jack (RG59)	£1.880	£1.730	£1.550	£2.210

## BNC Plug to UHF Socket Adaptor

VITELEC

A high quality BNC plug to UHF socket adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type 1525	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV35Q	BNC to UHF Adaptor	£2.740	£2.530	£2.260	£3.220

## BNC Chassis Socket

VITELEC

A high quality BNC chassis socket with gold plated contacts.

Retail Unit Price each (inc. VAT).

Order Code	Type 1526	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV29G	Flange Mnt Jack	£1.760	£1.620	£1.450	£2.070

## BNC 'T' Adaptor

VITELEC

A high quality BNC 'T' adaptor with gold plated contacts.

Retail Unit Price each (inc. VAT).

Order Code	Type 1527	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV34M	BNC T Adaptor	£3.470	£3.210	£2.860	£4.080

## BNC Plug Clamp Type

VITELEC

A high quality BNC plug with gold plated contacts and cable clamp fixing. This connector is suitable for use with 75Ω screened cable RG59, Order Code XS52G.

Retail Unit Price each (inc. VAT).

Order Code	Type 1528	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV15R	Clamp Plug (RG59)	£1.470	£1.360	£1.210	£1.730

## BNC Plug to N Socket Adaptor

VITELEC

A high quality BNC plug to N-type socket adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type 1529	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV36P	BNC to N Adaptor	£3.660	£3.390	£3.020	£4.310

## BNC Plug to BNC Plug Adaptor

VITELEC

A high quality BNC plug to BNC plug adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type 1531	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV31J	Plug to Plug Adaptor	£2.800	£2.590	£2.310	£3.290

## BNC Socket to BNC Socket Adaptor

VITELEC

A high quality BNC socket to BNC socket adaptor with gold plated contacts.

Retail Unit Price each (inc. VAT).

Order Code	Type 1532	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV32K	Jack to Jack Adaptor	£1.930	£1.780	£1.590	£2.270

## Chassis Mounting BNC Socket to BNC Socket Adaptor

VITELEC

A high quality adaptor with gold plated contacts for chassis mounting to connect an internal signal lead to a conventional front panel plug.

Retail Unit Price each (inc. VAT).

Order Code	Type 1533	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV33L	BHd Plug To Plug	£2.620	£2.430	£2.170	£3.090

## BNC Chassis Socket

VITELEC

A high quality BNC chassis socket with solder connections and gold plated contacts.

Retail Unit Price each (inc. VAT).

Order Code	Type 1534	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV30H	Panel Mnt Jack	£0.961	£0.888	£0.792	£1.130

**BNC Crimp Plug 58**

VITELEC

A high quality crimp plug with gold plated contacts. This connector is suitable for use with 50Ω screened cable RG58, Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type 1536	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV18U	Crimp Plug (RG58)	£1.030	£0.962	£0.858	£1.220

**BNC Crimp Plug 59**

VITELEC

A high quality crimp plug with gold plated contacts. This connector is suitable for use with 75Ω screened cable RG59, Order Code XS52G.

Retail Unit Price each (inc. VAT).

Order Code	Type 1537	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV19V	Crimp Plug (RG59)	£1.030	£0.962	£0.858	£1.220

**BNC Right-Angled Crimp Plug**

VITELEC

A high quality BNC right-angled crimp plug with gold plated contacts. This connector is suitable for use with 50Ω screened cable RG58, Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type 1538	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV20W	Crimp Plg R/A (RG58)	£3.670	£3.400	£3.030	£4.310

**BNC Crimp Chassis Socket**

VITELEC

A high quality BNC crimp-on chassis mounting socket with gold plated contacts. This connector is suitable for use with 50Ω screened cable RG58, Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type 1539	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV21X	Crimp Bhd Jck (RG58)	£2.660	£2.460	£2.190	£3.130

**BNC Crimp Plug 59**

Amphenol RFX

A high quality BNC crimp-on plug with gold plated contacts. This connector is suitable for use with 75Ω screened cable RG59, Order Code XS52G, see Tools section.

Retail Unit Price each (inc. VAT).

Order Code	Type 1540	Price each exc. VAT			inc. VAT each
		1+	10+	50+	1+
AJ13P	31-71008-RFX	£1.350	£1.130	£0.970	£1.590

**BNC Crimp Line Socket 59**

Vitellic

A high quality BNC crimp-on line socket with gold plated contacts. This connector is suitable for use with 75Ω screened cable RG59, Order Code XS52G.

Retail Unit Price each (inc. VAT).

Order Code	Type 1541	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV23A	Crimp Jack RG59	£1.760	£1.620	£1.450	£2.070

**BNC Crimp Chassis Socket 59**

VITELEC

A high quality BNC crimp chassis socket with gold plated contacts. This connector is suitable for use with 75Ω screened cable RG59, Order Code XS52G.

Retail Unit Price each (inc. VAT).

Order Code	Type 1542	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV22Y	Crimp Bhd Jck (RG59)	£2.660	£2.460	£2.190	£3.130

**BNC Crimp Line Socket 58**

Vitellic

A high quality BNC line socket with gold plated contacts and crimp connections. This connector is suitable for use with 50Ω screened cable RG58, Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type 1543	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV24B	Crimp Jack RG58	£1.760	£1.620	£1.450	£2.070

**BNC 50Ω Terminator**

Vitellic

A high quality BNC plug with gold plated contacts and internal 50Ω load for terminating networks, etc.

Retail Unit Price each (inc. VAT).

Order Code	Type 1550	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV25C	50 Ohm Terminator	£2.570	£2.380	£2.120	£3.030

**BNC 75Ω Terminator**

Vitellic

A high quality BNC plug with gold plated contacts and internal 75Ω load for terminating networks, etc.

Retail Unit Price each (inc. VAT).

Order Code	Type 1552	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV26D	75 Ohm Terminator	£2.570	£2.380	£2.120	£3.030

**BNC 93Ω Terminator**

Vitellic

A high quality BNC plug with gold plated contacts and internal 93Ω load for terminating networks, etc.

Retail Unit Price each (inc. VAT).

Order Code	Type 1554	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV27E	93 Ohm Terminator	£2.570	£2.380	£2.120	£3.030

**UHF Plug to BNC Socket Adaptor**

Amphenol RFX

A high quality adaptor with gold plated contacts for connecting a UHF plug to a BNC socket.

Price each shown, but sold only in multiples of 1.

Order Code	Type 1555	Price each exc. VAT			inc. VAT each
		1+	10+	50+	1+
AJ11M	31-2900-RFX	£7.820	£7.050	£5.480	£9.190

**LOW COST TNC**

**Plug**

Nickel-plated brass plug with silver-plated centre pin and ferrule. 50Ω impedance. See BNC plug for assembly details.

Retail Unit Price each (inc. VAT).

Order Code	Type 1571	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE80B	TNC Plug	£1.350	£0.970	£0.840	£1.590

**Crimp Plug**

Nickel-plated brass plug with silver-plated centre pin. The plug is suitable for use with any 50Ω cable where the outside diameter of the sheath of the inner conductor is approx. 3mm, and the outside diameter of the outer sheath is 5mm e.g. UR76, RG58 (our XR19V/XS51F).

Retail Unit Price each (inc. VAT).

Order Code	Type 1573	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JC22Y	TNC Crimp Plug	£1.020	£0.690	£0.550	£1.200

**All Customers**  
No additional freight  
charges for heavy items

## Twist-on Plug

Nickel-plated brass plug suitable for use with any 50Ω cable having a 5mm overall diameter e.g. UR76, RG58C (XR19V, XS51F). To fit, strip about 8mm of outer sheath then fold the screen back over the outer sheath, then strip 6mm of the inner sheath and screw the plug on.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JK22Y	Twist-On TNC Plug	£0.836	£0.660	£0.560	£1.100

## TNC Male to BNC Female Adaptor

Allows a BNC plug to be used with a TNC socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE83E	TNC Male/BNC Fem	£1.290	£0.850	£0.720	£1.520

## BNC Male to TNC Female Adaptor

Allows a TNC plug to be used with a BNC socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FS45Y	TNC Fem/BNC Male	£1.020	£0.790	£0.690	£1.200

## TNC Male to UHF Female Adaptor

Allows a UHF plug PL239 to be used with a TNC socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE84F	TNC Male/UHF Fem	£1.180	£0.860	£0.740	£1.390

## UHF Male to TNC Female Adaptor

Allows a TNC plug to be used with a UHF socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FS47B	TNC Fem/UHF Male	£1.740	£1.080	£0.850	£2.050

## TNC SERIES

### TNC Crimp Plug 58

A high quality TNC crimp plug with gold plated contacts. This connector is suitable for use with 50Ω screened cable RG58, Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV37S	TNC Crimp Plug RG58	£1.320	£1.230	£1.090	£1.560

## TNC Crimp Plug 59

A high quality TNC crimp plug with gold plated contacts. This connector is suitable for use with 75Ω screened cable RG59, Order Code XS52G.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV38R	TNC Crimp Plug RG59	£1.320	£1.230	£1.090	£1.560

## TNC Crimp Chassis Socket 58

A high quality TNC crimp chassis socket with gold plated contacts. This connector is suitable for use with 50Ω screened cable RG58, Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV40T	TNC Crimp B/H Jck RG58	£2.790	£2.580	£2.300	£3.280

## TNC Plug to TNC Plug Adaptor

A high quality adaptor with gold plated contacts for chassis mounting to connect together two TNC line plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV41U	TNC Jck to Jck Adptr	£1.760	£1.620	£1.450	£2.070

## TNC Chassis Adaptor

A high quality adaptor with gold plated contacts for chassis mounting to connect an internal signal lead with plug to a conventional TNC front panel socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV42V	TNC Bhd J to J Adptr	£3.320	£3.080	£2.740	£3.910

## TNC Plug 58

A high quality TNC plug with gold plated contacts and clamp fixings. This connector is suitable for use with 50Ω screened cable RG58, Order Code XS51F.

Price each shown, but sold only in multiples of 0.

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV39R	TNC Clamp Plug	£3.170	£2.930	£2.620	£3.720

10

## Chassis Socket

Nickel-plated brass chassis socket with silver-plated centre pin and earth tag. 50Ω impedance. Requires 9.7mm diameter panel cut-out.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE81C	TNC Socket 50	£0.757	£0.490	£0.430	£0.890

## Free Socket

A TNC in-line socket for cable mounting.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FS44X	TNC In-Line Socket	£0.893	£0.645	£0.580	£1.050

## Straight Female Adaptor

An in-line adaptor for joining two TNC plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE82D	TNC Fem/Fem Adaptor	£0.893	£0.620	£0.530	£1.050

## Straight Male Adaptor

An in-line adaptor for joining two TNC sockets.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FS46A	TNC Male/Male Adptr	£1.230	£0.865	£0.770	£1.450

**Business Account Holders**  
No Delivery Charges for any order

## LOW COST N SERIES

### Plugs

Two N-type coaxial plugs, to suit two sizes of coaxial cable.  
Plug N-050 is compatible with coaxial cable of 5mm diameter, such as the Low C Cable/UR76.  
Plug N-011 is compatible with heavy duty RF cable of 10/11mm dia., such as the UR67 RF Cable.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FJ77J	Plug N-050	£2.420	£1.700	£1.350	£2.160
FJ78K	Plug N-011	£2.420	£1.700	£1.350	£2.160

### Chassis Socket

A single hole fixing N-type chassis mounting socket, requires 16mm dia. cutout. Earth tag included.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FJ79L	N Type Chassis Skt	£1.570	£1.150	£0.960	£1.850

### Square Chassis Socket

Requires 16mm round cutout. Fixing centres: 18 x 18mm x 6BA (M3) clear.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FJ80B	N Type Chass Skt Sq	£1.650	£1.170	£0.960	£1.950

### Free Socket

Two N-type free sockets to suit two sizes of coaxial cable. Socket N-050 fits cables of 5mm diameter, such as UR76, while socket N-011 suits cables 10 to 11mm diameter such as UR67. For assembly details see BNC plug.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FP00A	Socket N-050	£2.170	£1.450	£1.180	£2.550
FP01B	Socket N-011	£2.250	£1.550	£1.240	£2.650

### Straight Female Adaptor

An in-line adaptor for joining two N-type plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FJ81C	N Double Female	£2.170	£1.450	£1.180	£2.550

### Straight Male Adaptor

Back-to-back male plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE96E	N Double Male	£2.590	£1.780	£1.420	£3.050

### N Male to BNC Female Adaptor

Allows a BNC plug to be used with an N-type socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FJ82D	N Male to BNC Adapt	£2.590	£1.800	£1.450	£3.050

### N Female to BNC Male Adaptor

Allows an N-type plug to be used with a BNC socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FJ83E	N Fem to BNC Male	£2.590	£1.800	£1.450	£3.050

### N Female to BNC Female Adaptor

Allows a BNC plug to be connected in-line with an N-type plug.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FJ84F	N Fem to BNC Fem	£2.590	£1.750	£1.400	£3.050

### N Male to UHF Female Adaptor

Allows a UHF plug PL259 to be used with an N-type socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE97F	N Male/UHF Fem	£2.420	£1.540	£1.220	£2.850

### N Female to UHF Male Adaptor

Allows an N-type plug to be used with a UHF socket SO239.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE94C	N Fem/UHF Male	£2.340	£1.540	£1.250	£2.750

## N SERIES

### N Plug 58

**VITELIC**  
A high quality N type line plug with gold plated contacts and clamp assembly method. This connector is suitable for use with 50Ω screened cable RG58 Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV43W	N Clamp Plug RG58	£3.500	£3.240	£2.890	£4.120

### N Plug 59

**VITELIC**  
A high quality N line plug with gold plated contacts. This connector is suitable for use with 75Ω screened cable RG59, Order Code XS52G.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV44X	N Clamp Plug RG59	£3.500	£3.240	£2.890	£4.120

See Stock Code Index For More Price Breaks

## N Line Socket 58

**VITELIC**

A high quality N type line socket with gold plated contacts and clamp assembly. This connector is suitable for use with 50Ω screened cable RG58, Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type 1848	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DV47B	N Line Socket RG58	£3.490	£3.230	£2.680	£4.110

10

## N Line Socket 59

**VITELIC**

A high quality N type line socket with gold plated contacts. This connector is suitable for use with 75Ω screened cable RG59, Order Code XS52G.

Retail Unit Price each (inc. VAT).

Order Code	Type 1848	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DV48C	N Line Socket RG59	£3.490	£3.230	£2.680	£4.110

## N Line Socket

**VITELIC**

A high quality clamp type N line socket with gold plated contacts.

Retail Unit Price each (inc. VAT).

Order Code	Type 1850	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DV49D	N Line Socket	£4.610	£4.260	£3.800	£5.420

## N Chassis Socket

**VITELIC**

A high quality N chassis socket with gold plated contacts and solder tags.

Retail Unit Price each (inc. VAT).

Order Code	Type 1851	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DV51F	N Flange Mnt Jack	£2.620	£2.430	£2.170	£3.090

## N Socket to N Socket Adaptor

**VITELIC**

A high quality adaptor with gold plated contacts to connect together two N style sockets.

Retail Unit Price each (inc. VAT).

Order Code	Type 1852	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DV52G	N Adaptor Plug-Plug	£5.250	£4.650	£4.330	£6.170

## N Plug to N Plug Adaptor

**VITELIC**

A high quality adaptor with gold plated contacts to connect together two N style plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type 1853	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DV53H	N Adaptor Jack-Jack	£3.210	£2.970	£2.650	£3.780

## N Plug

**VITELIC**

A high quality N plug with gold plated contacts and clamp fixing.

Retail Unit Price each (inc. VAT).

Order Code	Type 1855	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DV45Y	N Clamp Plug RG213	£4.200	£3.880	£3.460	£4.940

## N Crimp Plug 58

**VITELIC**

A high quality N type crimp-on plug with gold plated contacts. This connector is suitable for use with 50Ω screened cable RG58, Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type 1858	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DV46A	N Crimp Plug RG58	£3.140	£2.910	£2.590	£3.700

## N Crimp Line Socket 58

**VITELIC**

A high quality N type crimp-on line socket with gold plated contacts. This connector is suitable for use with 50Ω screened cable RG58, Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type 1859	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DV50E	N Crimp Line Sld 58	£3.140	£2.910	£2.590	£3.700

## N Plug to N Plug Adaptor

**Amphenol RFX**

A high quality adaptor with gold plated contacts for connecting together two N type plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type 1860	Price each exc. VAT			inc. VAT each
		1+	10+	50+	
AJ38R	82-5588-RFX	£5.480	£4.930	£3.840	£6.440

## N Twin Plug

**Amphenol RFX**

A high quality N type twin plug.

Retail Unit Price each (inc. VAT).

Order Code	Type 1861	Price each exc. VAT			inc. VAT each
		1+	10+	50+	
AJ39N	82-5589-RFX	£4.290	£3.850	£3.410	£5.050

## N Twin Chassis Socket

**Amphenol RFX**

A high quality N type twin centre contact chassis socket with gold plated contacts and solder terminals.

Retail Unit Price each (inc. VAT).

Order Code	Type 1862	Price each exc. VAT			inc. VAT each
		1+	10+	50+	
AJ40T	82-5590-RFX	£4.290	£3.850	£3.520	£5.050

## N 50Ω Terminator

**Amphenol RFX**

A high quality N-type terminator plug with gold plated contacts and 50Ω impedance.

Retail Unit Price each (inc. VAT).

Order Code	Type 1815	Price each exc. VAT			inc. VAT each
		1+	10+	50+	
AJ42V	82-5721-10-RFX	£8.410	£7.100	£5.490	£9.890

## F SERIES

### Plug

A plug for use with solid centre conductor cables. Plug simply pushes onto cable between inner sheath and screen. The centre wire of the cable takes the place of the centre pin of the plug. Two types are available: 4mm type suits RG58/RG59 cable. (Order Code XS51F/XS52G.) 5mm type suits our low loss co-ax cable (XR29G etc.). The crimping ring is supplied with both types.

Retail Unit Price each (inc. VAT).

Order Code	Type 5342	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
JL62S	F Plug 4mm	£0.280	£0.220	£0.180	£0.330
FE90X	F Plug 5mm	£0.280	£0.170	£0.140	£0.330

### Chassis Socket

A single-hole fixing socket. Requires a 9.5mm diameter panel cut-out.

Retail Unit Price each (inc. VAT).

Order Code	Type 1836	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FE98G	F Socket	£0.340	£0.265	£0.220	£0.400

## Screw-On F Connectors

A selection of screw-on F connectors for a variety of different cables including RG58, RG59 and CT100, etc.

Cable Type	Part Number	Order Code
RG6, CT100, 3/X/289	TOF 56	FU04E
RG58, 309 EP	TOF 58	FU05F
RG59, H109F	TOF 59	FU06G
H47, RA521, CT125	TOF 5C2V	GV17T

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FU04E	RG6 F Plug	£0.842	£0.680	£0.520	£0.960
FU05F	RG58 F Plug	£0.842	£0.680	£0.520	£0.960
FU06G	RG59 F Plug	£0.842	£0.680	£0.520	£0.960
GV17T	CT125 F Plug	£0.842	£0.680	£0.520	£0.960

## F Series Connectors

Vitelec

Two additional sockets from the F Series range. A Panel Mounting Socket suitable for panel mounting with a flat sided oval cut-out of 7.87mm (side) by 9.65mm oval. The other is the PC Board Mounting Socket with a D shape panel cut-out of 8.8mm (side) by 9.65mm oval. They are a compatible connector interface for CATV, MATV and Satellite TV installations.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
KE11M	F Panel Mt Skt	£0.382	£0.325	£0.295	£0.450
KE12N	F PC Mt Sht	£0.953	£0.820	£0.740	£1.120

## Straight Female Adaptor

Adaptor to couple two F plugs together.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE92A	F Double Fem	£0.348	£0.295	£0.220	£0.410

## F Male to BNC Female Adaptor

Allows a BNC plug to be used with an F socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE87U	BNC Fem/F Male	£1.110	£0.850	£0.620	£1.310

## F Series Adaptor Connectors

Vitelec

A new addition to our F Series range. A plug to plug adaptor and a right-angle plug to jack adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
KE13P	F Plg To Plg Adptr	£0.757	£0.650	£0.600	£0.890
KE14Q	F RA Plg To Jk Adap	£1.140	£0.980	£0.890	£1.350

## LOW COST UHF Plug (PL259)

Suits cable UR67. Size 38 x 19mm dia. Cable entry hole: 11mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BW81C	Plug PL259	£1.200	£0.800	£0.650	£1.410

## Reducer Small

Screws into plug PL259 to enable it to be used with cables around 5-3mm dia. e.g. UR76.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BW82D	UHF Reducer Small	£0.297	£0.200	£0.165	£0.350

## Reducer Large

Screws into plug PL259 to enable it to be used with cables around 6-4mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BW83E	UHF Reducer Large	£0.297	£0.200	£0.165	£0.350

## Right-Angled UHF Plug (PL259)

A right-angled UHF plug in a plastic body with strain relief sleeve, and solderless cable connections.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FJ73Q	UHF RA Plug	£1.230	£0.850	£0.720	£1.450

## Right-Angled Plug (PL259)

A twist-on PL259 plug with a right-angled cable input and reducer for connection to RG58/UR76-type cable.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HL95D	RA PL259 Plug	£1.260	£0.980	£0.890	£1.490

## Round Socket

Mounting hole: 16.5mm dia. Earth tag fitted.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BW84F	UHF Socket Round	£1.020	£0.600	£0.500	£1.200

## Square Socket

Cut-out 16.5mm dia. Fixing centres: 18 x 18mm x 6BA (M3) clear.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BW85G	Socket SO239	£1.010	£0.610	£0.470	£1.190

## Elbow Adaptor

A right-angled coupler. PL259 to SO239

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BW86T	UHF Elbow Adaptor	£1.740	£1.250	£1.080	£2.050

## Straight Female Adaptor

Adaptor to couple two PL259 plugs together.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BW87U	UHF Straight Adaptor	£1.020	£0.600	£0.500	£1.200

## Straight Male Adaptor

Back-to-back male plugs PL259 to PL259.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE91Y	UHF Double Male	£1.090	£0.690	£0.600	£1.290

## 'T' Adaptor

Adaptor to couple two PL259 plugs and then join them to an SO239 socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BW88V	UHF T Adaptor	£2.000	£1.500	£1.290	£2.360

## Female/Female

A straight through adaptor for connecting two PL259 plugs together with provision for connecting an earth wire.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RK01B	UHF Adaptor FFLA	£2.170	£1.760	£1.610	£2.550

## Male/Female

A straight through adaptor for connecting a PL259 plug to an SO239 socket, but with provision for connecting an earth wire.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RK02C	UHF Adaptor FMLA	£2.510	£2.080	£1.910	£2.960

## UHF Female to BNC Male Adaptor

A BNC plug internally connected to a UHF SO239 socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
YW04E	Adaptor 239	£1.820	£1.120	£0.900	£2.150

## UHF Male to BNC Female Adaptor

A BNC socket internally connected to a UHF PL259 plug.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
YW05F	Adaptor 259	£1.820	£1.120	£0.900	£2.150

## UHF Female to Phono Plug Adaptor

A UHF socket SO239 internally connected to a phono plug.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE89W	UHF FemPhono Plug	£0.893	£0.600	£0.520	£1.050

## UHF Male to Phono Socket Adaptor

A UHF plug PL259 internally connected to a phono socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE85G	UHF Plug/Phono Skt	£0.893	£0.600	£0.520	£1.050

## UHF SERIES

### M UHF Crimp Plug

VITELIC

A high quality M UHF crimp plug with gold plated contacts.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV54J	UHF Mini Plug RG58	£1.500	£1.390	£1.240	£1.770

### UHF Reducing Adaptor

VITELIC

For use with 83 1SP-15 and cable RG58.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV55K	UHF Reducer RG58/59	£0.417	£0.389	£0.347	£0.490

### UHF Chassis Socket

Amphenol RFX

A high quality UHF chassis socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	50+	1+
AJ44X	83-0878-RFX	£2.340	£2.100	£1.670	£2.750

### UHF Plug to UHF Plug Adaptor

Amphenol RFX

A high quality adaptor for connecting together two UHF plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	50+	1+
AJ45Y	83-1J-RFX	£4.500	£3.390	£3.100	£5.290

**UHF Chassis Socket**

Amphenol RFX

A high quality UHF chassis socket.

Retail Unit Price each (inc. VAT).

Order Code	Type 1587	Price each exc. VAT			inc. VAT each
		1+	10+	50+	
AJ46A	83-1R-RFX	£2.290	£1.930	£1.650	£2.700

**UHF Plug**

Amphenol RFX

A high quality UHF plug with clamp type assembly.

Retail Unit Price each (inc. VAT).

Order Code	Type 1650	Price each exc. VAT			inc. VAT each
		1+	10+	50+	
AJ47B	83-ISP-15-RFX	£2.280	£1.950	£1.770	£2.640

**UHF Plug to BNC Socket Adaptor**

Amphenol RFX

A high quality adaptor with gold plated contacts for connecting a UHF plug to a BNC socket.

Retail Unit Price each (inc. VAT).

Order Code	Type 1555	Price each exc. VAT			inc. VAT each
		1+	10+	50+	
AJ11M	31-2900-RFX	£7.820	£7.050	£5.480	£9.490

**TWIN AX CONNECTORS**

**Plug**

Cable entry hole 9mm diameter. See BNC plug for assembly details.

Retail Unit Price each (inc. VAT).

Order Code	Type 1643	Price each exc. VAT			inc. VAT each
		1+	10+	50+	
JB07H	Twinax Plug	£3.140	£2.200	£1.750	£3.690

**Chassis Socket**

Requires a 19mm diameter panel cut-out.

Retail Unit Price each (inc. VAT).

Order Code	Type 1644	Price each exc. VAT			inc. VAT each
		1+	10+	50+	
JB09K	Twinax Chassis Skt	£4.890	£2.300	£1.820	£5.750

**CAR AERIAL CONNECTORS**

**Skeleton Plug**

A skeleton-type plug which fits the aerial sockets fitted to most car radios.

Retail Unit Price each (inc. VAT).

Order Code	Type 1049	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
HH13P	Skeleton Car Plug	£0.297	£0.200	£0.165	£0.350

**Plastic Plug**

A car aerial plug similar to the skeleton plug above, but with plastic body and screw-on cap.

Retail Unit Price each (inc. VAT).

Order Code	Type 1050	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
HH12N	Car AE Plug Plas	£0.808	£0.600	£0.530	£0.950

**Line Socket**

A line socket for extending a car aerial lead.

Retail Unit Price each (inc. VAT).

Order Code	Type 1051	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FJ76H	Car AE Line Skt	£0.774	£0.660	£0.575	£0.910

**Socket**

A chassis mounting socket to suit above car plugs. As fitted on many car radios. Panel cut-out: 12.7mm. Fixing centres: 20mm x 6BA clear.

Retail Unit Price each (inc. VAT).

Order Code	Type 1052	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
HH14Q	Chassis Car Socket	£0.331	£0.245	£0.200	£0.390

**FM Aerial Plug**

Moulded plugs for connecting aeriels to radiograms etc.

Retail Unit Price each (inc. VAT).

Order Code	Type 1052	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
HH16S	FM Aerial Plug	£0.340	£0.300	£0.260	£0.400

**POWER CONNECTORS**

**UK MAINS PLUGS**

**13 Amp Rubber Plug**

A 13A mains plug moulded in unbreakable tough white rubber. Fitted with a 13A fuse and cord-grip. Conforms to BS1363A.

Retail Unit Price each (inc. VAT).

Order Code	Type 1181	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
HL58N	Rubber 13A Plug	£2.110	£1.310	£1.170	£2.490

**13 Amp Mains Plug**

A Rough Service 13A mains plug. Supplied fitted with 13A fuse and cord-grip. Conforms to BS1363A.

Retail Unit Price each (inc. VAT).

Order Code	Type 1158	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
RW67X	13 Amp Mains Plug	£0.638	£0.606	£0.545	£0.750

**Super Grip Plug**

A 13A mains plug moulded in tough white nylon with an integral handle for easier insertion and removal for people with arthritic fingers and similar problems of impaired gripping ability. Ideal for appliances which need frequent connection and disconnection, e.g. electric kettles, vacuum cleaners, toasters etc., and some power tools. The effort required to insert/remove this type of plug is considerably reduced compared with the normal type. Fitted with ASTA approved 13A fuse to BS1362. Manufactured to BS1363/A and ASTA approved. Maximum distance of handle from socket is 50mm (2in.).

Retail Unit Price each (inc. VAT).

Order Code	Type 1159	Price each exc. VAT			inc. VAT each
		1+	10+	100+	
ZB88V	Super Grip Plug	£2.030	£1.780	£1.550	£2.390

**5 Amp**

A 5A mains plug moulded in hard wearing heat-resistant bakelite. Fitted with cordgrip. Not fused. Conforms to BS546A.

Retail Unit Price each (inc. VAT).

Order Code	Type 1156	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
HL57M	5 Amp Plug Bakelite	£1.090	£0.909	£0.808	£1.290

**Business Account Holders**  
**No Delivery Charges for any order**

## Shaver Adaptor

Standard 13A 3-pin plug internally connected to a 2-pin socket rated at 1A suitable for accepting the plugs fitted to electric shavers. Sockets are shuttered. Fitted with 1A fuse. White. Imported type. This adaptor is suitable for use with standard 2-pin continental mains plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type 1188	Price each exc. VAT	inc. VAT each
HL64U	Shaver Adaptor	1+ 25+ 100+	1+ 1+ 1+
		£1.350 £0.990 £0.770	£1.590

## Travel Plug

A one-piece earthed adaptor suitable for use worldwide. No need to change plugs when you travel abroad, just use this neat adaptor. Suitable for hairdryers, heated curlers, shavers, travel irons, and in fact almost anything that does not exceed 110/220V AC 5A rating of the adaptor. Complete with instructions and a list of all the countries where it can be used.

Retail Unit Price each (inc. VAT).

Order Code	Type 1188	Price each exc. VAT	inc. VAT each
RZ36P	Travel Plug	1+	1+
		£4.240	£4.990

## Universal Travel Plug

Travel round the world and plug into worldwide power. The Continental Adaptor connects earthed or non-earthed appliances rated up to 1.5W. The Intercontinental Adaptor connects non-earthed (2 wire) appliances rated up to 1.5W. Both adaptors are retained in a single cylindrical holder which is easily slipped into the suitcase.

Retail Unit Price each (inc. VAT).

Order Code	Type 11845	Price each exc. VAT	inc. VAT each
BN30H	Universal Adaptor	1+	1+
		£2.970	£3.490

Order £30 or above?

Account holder or not, your order will be sent carriage paid.

(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)

## CEE MAINS

### CEE Type Plugs and Sockets

A range of high quality 3-way CEE industrial type connectors rated at 16A that comply to BS 4343, where applicable, and IEC 309/1 + 2. The range includes a surface mounting socket, an in-line coupler (socket) and a plug. These are available in both 110/130V AC (colour coded yellow) and 230V AC (colour coded blue) versions. The socket and coupler have a spring loaded cap to protect the contacts, and when a plug is connected, the cap locks on to the plug and has to be lifted before the plug can be removed. This prevents the plug being removed by pulling on the cable. A keyway, and a larger diameter earth pin/socket make it impossible for a plug and socket/coupler to be incorrectly connected. Three CEE inlets (plugs) are available in a choice of configurations - straight flush (WD52G), angled flush (WD50E) and angled surface (WD51F) mounting - all three are for 230V AC supplies. The angled surface inlet is supplied with a protective cap for use when de-mated. The connectors are the standard type used on caravans etc. for connecting to mains supplies, and being splashproof are suitable for outside use.

Retail Unit Price each (inc. VAT).

Order Code	Type 1183	Price each exc. VAT	inc. VAT each
KC76H	110V Plug	1+ 10+ 25+	1+ 1+ 1+

## Euro Fused Mains Chassis Plug Inlet

Bulgin

A chassis mounting, Euro style, moulded nylon, mains inlet plug with integral fuseholder, or magazine that partially withdraws to accept a 5 x 20mm cartridge fuse. The fuse magazine is connected in the Live line only and the mains connector cannot be inserted unless the magazine is closed. When the fuse magazine is opened the fuse is disconnected and remains loose in the drawer. Changing the fuse is then just a matter of lifting out the old and inserting the new. The magazine has storage space for one spare fuse.

(Fuses are not included.) Maximum rating is 10A at 250V AC. Connections are tin-plated brass 6.35mm (1/4in.) blades and may be soldered, or a quick-fit receptacle used (e.g., HF10L). The chassis plug is a snap fit, into an aperture of 27.3 x 31.12mm, in a panel of 1.5mm thickness and has an overall depth of 27.6mm. An insulation cover is available for protecting the rear of this item. UL, CSA, VDE, IMQ and SEMKO approved.

Retail Unit Price each (inc. VAT).

## Fused Euro Mains Inlet/Outlet Socket

Bulgin

This is a panel mounting snap-in Euro mains inlet/outlet. This 10A rated mains combined plug/socket has a fuseholder for a 20mm fuse. Chassis cut-out is 34.4 x 76.5mm. Unit is UL, CSA, VDE, SEMKO, IMQ & SEV approved.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
KE06G	Euro In/Out Fused	£2.570	£2.440	£2.320	£3.030

## Fused Mains Inlet Chassis Plug

CIFF

A chassis mounting Euro style mains inlet connector with a built-in fuseholder that accepts a 5 x 20mm cartridge fuse. The fuse is connected in the Live line only. The fuseholder consists of a small 'drawer' which cannot be withdrawn unless the input lead line socket is removed first. The fuse is automatically disconnected and remains loose in the 'drawer'; changing the fuse is merely a matter of lifting out the old and dropping in the new. Additional space is provided at the front of the 'drawer' to carry a spare fuse. (Fuses are not included.) The line socket cannot be inserted without closing the 'drawer'.

An insulation cover for the rear of this plug is also available. (Manufactured by Bulgin.)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+

## Euro Mains Power Fused Switches

Bulgin

These are chassis snap-in, 3-pin Euro 10A mains power plugs. They come with a single pole or double pole rocker switch. The plugs are available with or without an illuminated neon switch. Chassis cut-out is 21.3 x 45.9mm, for single pole and 21.3 x 54.9mm, for double pole making this ideal for fitting in 1U height racking panels. UL, CSA, and VDE approved.

Retail Unit Price each (inc. VAT).

## Filtered Mains Inlet

**Bulgin**

A flange mounting Euro style mains power inlet which has an integral interference filter for the exclusion of unwanted noise from the mains supply, or to prevent equipment introducing noise spikes into the mains circuit. The filter circuit includes the Earth connection together with the Line and Neutral to cover all possible interference sources. UL, CSA, VDE & SEMKO approved.

Working Voltage 250VAC 50Hz

## Fused Mains Inlet Filter

**Bulgin**

A flange mounting Euro style mains power inlet with built-in fuseholder and RF filter. The fuseholder accepts 5 x 20mm fuse cartridge. The rated current is 6A. Connections are by 6.3mm solder tags. UL, CSA & VDE approved.

## Vertical Snap Fit Switched & Fused Mains Inlet Filter

**Bulgin**

Vertical snap fit panel mounting Euro style RF filtered mains inlets, available with built-in fuseholder and choice of single or double pole switch. Each item is individually terminated giving flexibility of interconnection by 6.3mm solder tags. Rated current 6A. Fuseholder accepts 20 x 5mm fuse UL, CSA & VDE approved.

		1+	25+	100+	
JK19V	USA 3-Pin Socket	£0.893	£0.580	£0.450	£1.050

## American Line Socket

A two pin 7.5A line socket to suit our USA Mains Plug. For 110V use only.

Retail Unit Price each (inc. VAT).

Order Code	Type 1476	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
HL19V	Flat Pin Conn	£0.842	£0.670	£0.600	£0.990

## FIGURE EIGHT

### Figure 8 Power Inlets

Bulgin

High quality miniature figure of eight two pin mains power inlets. Manufactured in UL94V-0 flammability nylon these inlets are available in flange fitting (front or rear fixing) and snap fit. Designed for EN60 320 (BS4491) they have UL, CSA and VDE approval.

Rating 2.5A 250VAC  
Terminations 2.8mm solder

#### Cut Outs:

Flange 19.8 x 11.7mm, 28.0mm centres  
Snap Fit 23.7 x 11.7mm  
1, 1.5, 2.0mm panel thickness.

Retail Unit Price each (inc. VAT).

		1+	25+	100+	
FT98G	Telefunken Plug	£1.090	£0.890	£0.800	£1.290

## DISTRIBUTION UNITS

### 2-way & 4-way Plug Adaptors

An ingenious way of providing a mains supply to Hi-Fi, computer equipment etc. These units allow either 2 or 4 miniature mains connectors to be connected to one mains socket safely and neatly. The main unit has integral 13A plug pins and sockets to take the miniature connectors. Supplied with miniature connectors.

Retail Unit Price each (inc. VAT).

Order Code	Type 1363	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
YZ13P	Plug Connector 2 Way	£8.500	£7.250	£6.750	£9.990
YZ12N	Plug Connector 4 Way	£11.050	£9.650	£9.250	£12.990

### 4-Way and 6-Way Mains Distribution Units

A safe and tidy way of connecting up to four or six mains appliances to a single mains socket, ideally suited to Hi-Fi and computer equipment, etc. The unit may be used either 'trailing' or fixed to a wall. The unit has the following features: Neon 'on' indicator, sockets are fully shuttered for safety, internally fused, labelling system to identify appliance plug, unbreakable polycarbonate construction. Current capacity 13A (240V AC mains) overall, maximum current per socket 10A. Conforms to BS5733. Supplied complete with miniature connectors.

Retail Unit Price each (inc. VAT).

Order Code	Type 1364	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
YZ10L	4 Way Mains Conn	£11.900	£10.000	£9.250	£13.990

See Stock Code Index For More Price Breaks

## 5-Way IEC Mains Outlet

Bulgin

A European plug multi-way mains outlet. The unit is moulded in rugged thermoplastic with 5 shuttered IEC outlets, a 20x5 fuseholder and neon indicator. Supplied fitted with a 2m cable and BS1363 plug the unit has a maximum current rating of 10A. Overall dimensions 226 x 58.5 x 40 mm

Retail Unit Price each (inc. VAT).

Order Code	Type 2026	Price each exc. VAT			inc. VAT each
		1+	10+	50+	
RY14Q	5 Wy IEC Mains Outlet	£20.400	£19.390	£18.360	£23.960

## IP68 SEALED

### IP68 Sealed In-Line Connector

Bulgin

A threaded-coupling IP68 sealed in-line connector, suitable for repairing or extending 3-core circular mains cables. The plastic sealed two-piece black housing is fitted with cable glands and retained together with a screwed ring. Supplied with 3-way terminal block, rated at 6A 250V AC, and fitting instructions. Conforms to BS5490: 1977.

Retail Unit Price each (inc. VAT).

Order Code	Type 1366	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
MK33L	In-Line Connector	£5.210	£4.950	£4.690	£6.130

### Buccaneer IP68 Sealed Coupling Connectors

Bulgin

A range of plastic moulded in-line and chassis mounting 3-way interchangeable plug and socket connectors. The threaded-coupling housings are supplied with interchangeable polarised plug and socket inserts to cater for mains inlet or outlet application and cable glands for circular mains cable. Two types of insert/extraction tools are available, for ease of assembly of plugs and sockets, that also double as sealing covers. Rated at 10A 250V AC. Sealed to IP68. BS5490: 1977, UL, CSA & VDE approved.

## LOW CURRENT

### Please Note:

Connectors marked \* are unsuitable for use on domestic equipment at voltages over 50V; unless contact with the connector or terminals is impossible without the use of a tool defined in the Electrical Equipment (Safety) Regulations 1975. Connectors marked \*\* are suitable for use on domestic equipment at voltages over 50V, provided they are NOT live when unmated and are used in conjunction with a connector NOT marked with a \*. Or alternatively, if contact with the connector or terminals is impossible without the use of a tool as defined in the Electrical Equipment (Safety) Regulations 1975.

### 3-Pin Low Current Range P429 \*\*

Bulgin

A three pin chassis plug. Overall depth: 21mm. Mounting hole: 19mm dia. Bezel diameter: 24.7mm. Rated: 1.5A at 250V, 2A at 110V, 3A at 6V AC and DC. Mates with sockets P631, P646 and P430SE. See note below.

Retail Unit Price each (inc. VAT).

Order Code	Type 1368	Price each exc. VAT			inc. VAT each

HL37S	50V Socket P636	£1.920	£1.820	£1.720	£2.260

## SA2403

**Bulgin**

A 3-pin line plug with shielded pins and cord grip. Plug is side entry type. Rated: 2A at 250V, 3A at 110V and 4A at 6V AC and DC. Mates with socket SA2404.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HL47B	Mains Plug SA2403	£2.000	£1.890	£1.790	£2.350

## SA2111

**Bulgin**

A 3-pin line socket; side entry version of SA2597. With cord grip. Fits plug SA1861, and the pair are suitable for use at 250V AC in domestic applications, otherwise rated as SA1861.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HL48D	250V Socket SA2111	£2.880	£2.740	£2.590	£3.390

## P551

**Bulgin**

An eight-pin line plug with cord grip. Side entry type. Will accept up to eight full size insulated conductors or two to three mains cables simultaneously. Rated (per pin): 6A at 250V, 10A at 2.5V AC. Mates with socket P552.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HL39N	Mains Plug P551	£4.360	£4.150	£3.930	£5.130

## SA2404

**Bulgin**

A 3-pin chassis socket. Mounting hole: 19mm dia. Rated (as SA2403). Mates with plug SA2403.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HL48C	Mains Socket SA2404	£1.210	£1.150	£1.060	£1.430

## Four Pole Connector SA2367

**Bulgin**

A 4-pin line plug with shielded pins and cord grip. Plug is side entry type. Rated 2A at 250V, 3A at 110V and 4A at 6V AC and DC. Mates with socket SA2368. Plug is keyed so that it can only be inserted one way.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HL33L	Mains Plug SA2367	£2.340	£2.230	£2.110	£2.760

## P552

**Bulgin**

An eight-pin chassis socket available with solder tags P552, or PCB pins PX0552. Overall depth: 23mm. Mounting hole: 38mm dia. Bezel: 41 x 41mm. Fixing centres: 33 x 33mm x 6BA (M3) countersunk. Rated as P551. Mates with plug P551.

Retail Unit Price each (inc. VAT).

## SCREW TERMINAL BLOCKS

### Modular Fused Terminal Blocks

Camden

One, three, and five-way terminal blocks complete with inline fuseholder. The three and five way blocks are fitted with rear mounting screws through the second (earth) terminal and have an anti rotation spigot. The one way fused block (or any multiple) can be interlocked with the three and five way for additional fused circuits. The 20 x 5 fuse (not supplied) is housed in the pull up latch making it easy to replace.

Moulded in flame retardant UL94-V0 Polyamide 66 the blocks have a maximum working temperature of 125°C.

Rating Fuseholder 13A Terminal 13A

		1+	25+	100+	
FE42V	Car Accessory Skt	£0.927	£0.550	£0.450	£1.090

### 12N Plastic Plug

A 12V plastic plug to complete the circuit, used with the 12N Plastic Socket (WD75S). DIY, easy fit, supplied with wiring diagram. Suitable for all makes and models, complies with all UK legal and safety requirements.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
WD76H	12N Plastic Plug	£2.590			£3.050

### 12S Plastic Plug Assembly

A 12V plastic plug to complete the circuit with the 12S Plastic Socket (WD77J). DIY easy fit, supplied

with wiring diagram. Suitable for all makes and models, and complies with all UK legal and safety requirements.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
WD78K	12S Plastic Plug	£2.590			£3.050

### 13-Pin Multicon Plug

This versatile 13-pin plug makes it possible to feed both your 12N obligatory and 12S supplementary 12V electrical circuits through one plug (but only when used in conjunction with the Multicon Socket WE07H). All couplings must be made with the correctly coloured 13-pin core cable. Easy DIY, a wiring diagram is included. Made to original equipment specifications, the Multicon conforms to all international standards.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
WE06G	13Pin Multicon Plug	£19.950			£23.450

### 13-Pin Plug

A top quality 12V 13-pin plug, complete with a rubber seal.

Price each shown, but sold only in multiples of 1.

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
WE12N	13 Pin Plug	£17.350			£20.390

### 12N Line Socket

A handy, quality made, socket that is ideal for creating extension leads and auxiliary leads for your 12V power supply. Supplied with a hanging D-ring and a hinged protective cover for the connections (colour coded to avoid confusing a 12N socket with a 12S socket). Easy DIY, supplied with wiring instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
WE08J	12N Line Socket	£5.200			£6.110

## 12S Line Socket

A handy, quality made, socket that is ideal for creating extension leads and auxiliary leads for your 12V power supply. Supplied with a hanging D-ring and a hinged protective cover for the connections (colour coded to avoid confusing a 12N socket with a 12S socket). Easy DIY, supplied with wiring instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WE09K	12S Line Socket	£5.200	£6.110

## 12N Plastic Socket

This tough plastic 12V 7-pin connecting socket for obligatory lighting circuits is the ideal connection for your caravan or trailer indicators, side lights, plate lamps and stop lamps. Features a rear fog cut-out (requires 8-core cable). Connections are protected by a tough plastic cover when not in use. DIY, easy fit, supplied with wiring diagram. Suitable for all makes and models, complies with all UK legal and safety requirements.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD75S	12N Plastic Socket	£2.590	£3.050

## 12S Plastic Socket

This tough plastic 7-pin connecting socket is specifically designed to supply your caravan's supplementary electrical circuits (e.g. fridge, auxiliary battery). Connections are protected by a tough plastic cover when not in use. Obligatory and supplementary circuits must never be combined so, to help avoid accidental mis-connection, 12N plugs and sockets and 12S plugs and sockets are colour coded. DIY easy fit, supplied with wiring diagram. Suitable for all makes and models, and complies with all UK legal and safety requirements.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD77J	12S Plastic Socket	£2.590	£3.050

**All Customers**  
No additional freight charges for heavy items

## 13-Pin Multicon Socket

This versatile 13-pin socket makes it possible to feed both your 12N obligatory and 12S supplementary 12V electrical circuits through one socket (but only when used in conjunction with the Multicon Plug, WE06G). All couplings must be made with the correctly coloured 13-pin core cable. Easy DIY, a wiring diagram is included. Made to original equipment specifications, the Multicon conforms to all international standards. Has an advantage that a standard 12N connector can still be plugged in.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WE07H	13Pin Multicon Skt	£23.420	£27.530

## 13-Pin Socket

A top quality 12V 13-pin socket, complete with spring loaded lid with rubber seal to protect the connections when not in use and a rubber seal to prevent water ingress at the mounting point.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WE13P	13 Pin Socket	£17.350	£20.390

## 12N Socket Assembly

A complete quick-fit prewired professional single socket assembly for all of the obligatory lighting circuits for your caravan or trailer. The socket features a rear fog cut-out that automatically switches off the rear fog lamps on your car when towing. Connections are protected by a tough plastic cover when not in use. Suitable for all makes and models, and complies with all UK legal and safety requirements. 12N socket assembly is supplied ready assembled with corrosion-resistant mounting plate, socket seal, cable connectors, 1.5m of 8-core heavy duty cable, nuts, bolts and washers, and plastic cable clips.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD79L	12N Socket Assembly	£9.540	£11.210

## 12S Socket Assembly

A complete quick-fit prewired professional single socket assembly for all of the supplementary circuits (e.g. fridge, auxiliary battery) for your caravan or trailer. Connections are protected by a tough plastic cover when not in use. Obligatory and supplementary circuits must never be combined so, to help avoid accidental mis-connection, 12N plugs and sockets and 12S plugs and sockets are colour coded. Suitable for all makes and models, and complies with all UK legal and safety requirements. 12S socket assembly is supplied ready assembled with corrosion-resistant mounting plate, socket seal, 1.5m of 7-core heavy duty cable, nuts, bolts and washers, and plastic cable clips.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD80B	12S Socket Assembly	£9.540	£11.210

## 12N and 12S Socket Assembly

A complete prewired professional double socket assembly for all of your obligatory lighting and supplementary circuits. The assembly includes a rear fog cut-out that automatically switches off the rear fog lamps on your car when towing and the 12N and 12S sockets are colour coded to help avoid accidental mis-connections. Connections are protected by a tough plastic cover when not in use. Suitable for all makes and models, and complies with all UK legal and safety requirements. The twin sockets are supplied ready assembled with corrosion-resistant mounting plate, socket seals, 1.5m of 8-core cable and 1.5m of 7-core heavy duty cable, nuts bolts and washers and plastic cable clips.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD81C†	12N & 12S Socket Ass	£16.480	£19.370

## Single Mounting Plate

A solidly constructed metal mounting plate for a single 12N or 12S socket, protected by a 'cathodic' corrosion resistant plating for extended life. Salt spray tested.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD86T†	Single Mntg Plate	£1.720	£2.030

### Double Mounting Plate

A solidly constructed metal mounting plate for a twin 12N and 12S Socket, protected by a "CATHODIC" corrosion resistant plating for extended life. Salt spray tested.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD87U†	Double Mntg Plate	£2.590	£3.050

### Socket Cover

A handy socket cover to protect your 12N and 12S sockets when not in use.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD89W	Socket Cover	£2.160	£2.540

### Socket Seal

A safe, weatherproof seal specifically designed to prevent water ingress into the connections of 12N and 12S sockets. Supplied complete with fixing nuts, bolts and washers.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD91Y	Socket Seal Kit	£1.290	£1.520

### 12N Extension Lead

A top quality, ready assembled 6m long 12N extension lead for the obligatory 12V lighting circuits on your trailer or caravan. Complete with colour coded plug and socket to avoid confusing a 12N lead with a 12S lead.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WE10L	12N Extension Lead	£14.740	£17.330

### 12S Extension Lead

A top quality, ready assembled 6m long 12S extension lead for the supplementary 12V electrical circuits on your trailer or caravan. Complete with colour coded plug and socket to avoid confusing a 12S lead with a 12N lead.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WE11M	12S Extension Lead	£14.740	£17.330

### Ring Coiled Cable Kits

Coiled cable means no more trailing cable when towing, no more damaged plugs and leads when on site and the added security feature of removable 12N and 12S leads, leaving would-be thieves with no way of connecting road lights. 12N plugs and sockets are used for obligatory lighting circuits only, while 12S are used for supplementary electrical circuits (serving a fridge or internal lighting in the towed vehicle, for example). These circuits must be kept separate - if both obligatory and supplementary circuits are to be powered, both kits are required. Each kit includes a prewired coiled cable with two plugs, a socket (with socket seal) for wiring to the caravan 'A' frame, fixing kit and full instructions. 12N kit (WD26D), 12S kit (WD27E).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD26D	12N Coiled Cable Kit	£21.690	£25.490
WD27E	12S Coiled Cable Kit	£21.690	£25.490

### 12V Car Accessory Panel Socket

This 12V panel socket is ideal for those occasions when you want to use equipment with a car cigar lighter type plug inside your caravan. The high quality flush mounting socket is manufactured in a non-corrosive, marine quality material. Twin pole, 16A.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD68Y	Car Acc Panel Socket	£4.330	£5.090

### Lift Off Battery Clamps

Two very strong battery connector clamps (red=positive, blue=negative). Simply snap down the plastic cover for a strong and safe electrical connection, and lift the plastic cover for safe and instant disconnection.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD15R	Battery Clamps	£8.230	£9.680

## BATTERY CONNECTORS

### Battery Connector

A non-reversible, mirror image plug and socket assembly for quick and simple battery coupling.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FK96E	Batt Plt/Skt Pair	£0.842	£0.990

### 3-Pin Connector

A 3-pin plug and socket assembly for interconnections where three wires are required. Note the connectors are not polarised. The socket is designed for PCB mounting.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FK97F	GP Plt/Skt Pair	£0.672	£0.790

## Call and Collect

At all our stores nationwide.  
See the maps at the front of the catalogue for the nearest one to you.

## 3-Way Polarised Plug

A 3-pin plug having one pin offset in order to prevent accidental reversal. Such connectors are ideal for interconnecting the receiver to a servo control circuit, providing power on two pins and a signal on the other.

Retail Unit Price each (inc. VAT).

Order Code	Type 1303	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FK99H	3-Pin Offset Plug	£0.417	£0.290	£0.260	£0.490

10

## 3-Way Polarised Socket

A non-reversible 3-pin socket that mates to the above plug.

Retail Unit Price each (inc. VAT).

Order Code	Type 1304	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FK98G	3P Offset Skt	£0.417	£0.315	£0.270	£0.490

## 7-Way PCB Socket

A PCB mounting socket providing for up to seven 3-way outlets from receiver board etc. Pins are spaced 2mm apart in each row of 3 pins, with 3mm spacing between rows. Overall length of block: 22mm. Overall width: 7mm.

Note these connectors are non-polarised.

Retail Unit Price each (inc. VAT).

Order Code	Type 1305	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
FM01B	7-Way Skt Bloc	£2.110	£1.850	£1.750	£2.490

## Small 3-Way Plugs

Miniature 3-pin plugs to fit the above 7-way socket block. Plugs are sold singly.

Retail Unit Price each (inc. VAT).

Order Code	Type 1306	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FM00A	3-Pin Plug	£0.331	£0.280	£0.250	£0.390

Order £30 or above?

Account holder or not, your order will be sent carriage paid.

(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)

## Battery Connectors

Male Female

For making your own battery packs and chargers, the standard racing pack plugs and sockets are available pre-assembled to 150mm (6in.) lengths of red and black high-temperature silicone insulated wires. The part with the pins inside the connector housing is the male part and normally connected to the battery, and the part with the sockets inside the housing which also has the latch mechanism is the female part and normally connected to the model or charger.

Retail Unit Price each (inc. VAT).

Order Code	Type 1307	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
JG04E	Race Pk Lead Male	£1.090	£0.640	£0.530	£1.290
JG05F	Race Pk Lead Female	£1.090	£0.640	£0.530	£1.290

## DIN RAIL TERMINALS

### TOP HAT & G TYPE

## Feed Through DIN Rail Terminals

Entrelec

Available in five sizes from a cable capacity of 2.5mm<sup>2</sup> to 16mm<sup>2</sup>, in a choice of colours to aid circuit identification. The range has a VDE voltage rating of 750V. A pre-assembled 10-way jumper bar is available, as is end sections and end stops. See 'DIN Rail and Accessories' for DIN rail, pre-assembled jumper bar, markers, end sections and end stops.

- ★ Fits both top hat and 'G' rails
- ★ Range of colours
- ★ Easy installation

**Fuse Terminals**

Entelec

A range of fuse terminals available in either 'pull-up' or 'lever' action, that accept various fuse types. A suitable end section is available separately for the 'pull-up' type.

**DIN Rail and Accessories**

Entelec

DIN rail in 1m lengths available in either 'G' type asymmetric, (BS55825, DIN46277-1, CENELEC EN50-035), standard 'Top Hat' (BS5584, DIN46277-3, CENELEC 50-022), and miniature 'Top Hat', (BS6273, DIN46277-2, CENELEC 50-045).

Accessories

MB35Q - end cover for 2.5 - 10mm<sup>2</sup> standard,

4mm<sup>2</sup> isolation and earth

MB36P - end cover for 10mm<sup>2</sup>.

MB37S - end stop for fitting at each end of an assembled rail.

Pe-assembled jumper bars for transverse connections up to 10 terminals but can easily be cut for less terminals.

MB38R - for 2.5/5mm<sup>2</sup> 25A rating.

MB39N - for 4/6mm<sup>2</sup> 32A rating.

MB40T - for 6/8mm<sup>2</sup> 41A rating.

Marker cards for standard range DIN rail terminals

MC10L - 5mm terminal pitch

MC11M - 6mm terminal pitch.

Retail Unit Price each (inc. VAT).

**COMPUTER CONNECTORS**

**CENTRONICS - TYPE IEEE488**

**Centronics-Type**

(See also IDC connectors)

A multi-way connection system commonly used for connecting data interface cables to computers and their peripherals. Cable conductors insert into the hollow solder terminals of the gold-plated, double row contacts. The plugs have ears for the spring clips of the socket to secure them in position.

**Screened Plug**

A double row plug in a metal body with oval cable entry and clamp. The body is in two parts secured by two screws, this being all that is required to retain the thermoplastic contact block. Available in 14, 24, 36 and 50 ways.

Retail Unit Price each (inc. VAT).

### Shells

Standard D connector shells with separate gold-plated pins for plugs and sockets enabling connectors to be constructed with pins only in the positions where a connection is required. Plug housings and socket housings are available and plug-pins or sockets simply snap in from the rear after soldering or crimping wires to them. Both plug pins and socket pins are sold in strips of 10.

### Filtered D Subminiature Solder Bucket Connectors

A filtered range of solder bucket termination 'D' subminiature connectors, incorporating turned contacts, bright tin finish and grounding indents to guarantee full shielding integrity for protection against RFI/EMI. Signal filtration is achieved via a 1nF capacitor from each contact to ground. Feed-through technology in the capacitor elements enhances rejection levels in the VHF and UHF bands. Fully potted construction ensures maximum resistance to hazardous environments. Intermateable with all 'D' subminiature connectors of comparable pin count and complying dimensionally with BS 9523, MIL-C-24308 or HE 501.

Mating cycles: 250  
Wire accommodation: ≤0.5mm (20AWG)  
Contact material: Copper alloy  
Current rating: 5A  
Working voltage: 200V DC or AC peak  
Contact resistance: 5 x 103Ω max  
Insulation resistance: ≥5 x 104Ω  
Insulation Material: High impact epoxy and GF polyester

For More Price Breaks

### Covers

A thermoplastic cover to fit both the plugs and the sockets described previously. The connector is wired and the cover fitted afterwards. A removable side plate allows subsequent inspection without dismantling the assembly. The cable can enter from the side or top by removing the appropriate knock-out. Supplied with cable clamp & self tapping screws; the shorter one holds the side plate to the cover.

Retail Unit Price each (inc. VAT).

JB67X	D Hood 50 Way	£1.200	£0.880	£0.590	£1.410

## Snap-Lock 25-Way D-Type Plastic Hood

A snap-lock plastic hood that may be used with standard 25-way D-type connectors but not D-type IDC connectors. Assembly of the hood is very quick and easy, the hood simply snaps shut and locks by means of plastic clips. A flat bladed screwdriver can be used to re-open the hood if necessary. Supplied complete with thumbscrews and cable clamp.

Retail Unit Price each (inc. VAT).

Order Code	Type 1127	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
KE94C	9W Snap-Lock Hood	£0.893	£0.570	£0.440	£1.050

## Locking Hood Metal Type

A chrome plated solid metal hood for standard 25-way D connectors supplied with jack screws.

Retail Unit Price each (inc. VAT).

Order Code	Type 1130	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
JB02C	Metal D Hood 25W	£2.080	£1.450	£1.100	£2.450

## Shielding 'D' Connector Hoods

MH

Metal backshells for 'D' connectors manufactured in a zinc die cast material with a nickel plate finish. Supplied complete with full assembly instructions and finger operated jackscrews. With its unique cable clamping arrangement of conductive plastic strain relief inserts and sprung steel shielding support for both braid and foil shielded cable types, attenuation is better than 40dB over 30MHz to 1GHz. This meets VDE 0871, FCC 20780 and 89/336/EEC requirements when part of an approved system.

Dimensions mm

Hood Size	L	W	D
9 Way	40	32	15
15 Way	42	40	15

## 'Ribbon Cable' Plastic Hood for 25-Way D-type Connectors

A plastic hood designed for use with ribbon cables terminated in 25-way D-type connectors. Please note the cover is not suitable for use with IDC D-type connectors. Supplied complete with one pair of jack posts.

Retail Unit Price each (inc. VAT).

Order Code	Type 1131	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
JW87T	Ribbon 25W D Hood	£0.680	£0.490	£0.330	£0.800

## Jack Posts

For use with locking hoods these jack posts have 8mm long screws and hexagonal spacers centred with a 4-40UNC thread. Sold in pairs.

Retail Unit Price each (inc. VAT).

Order Code	Type 1134	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
FP31J	D Connectr Jack Post	£0.672	£0.410	£0.310	£0.790

## Extension Jack Posts

A pair of hexagonal extension jack posts, tapped with 4-40UNC threads, for use with D-type connectors, 5-03mm A/F x 5-93mm. The extension jack posts when fitted to a panel mounted or free connector allow a mating connector fitted with jack screws to be secured. Bright plated finish over brass.

Retail Unit Price each (inc. VAT).

Order Code	Type 1135	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
JW82A	Jack Post Set	£0.246	£0.190	£0.150	£0.290

## Captive Jack Screws with Retainers

A pair of captive jack screws (4-40UNC thread) with retainers for use on standard D-type connectors. The jack screws allow connectors to be secured to a mating connector fitted with jack posts (for jack posts see below). Made from steel with chromate over zinc plating.

Retail Unit Price each (inc. VAT).

Order Code	Type 1204	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
JW83B	Jack Screw Set	£0.340	£0.240	£0.175	£0.400

## Bail-Lock Mechanism for D-type Connectors

A bail-lock mechanism for use with standard D-type connectors. Set contains male and female bail-lock pairs, bail-arms, four nuts and four bolts. Bail-arm pair is attached to one connector (usually socket) and receptacle pair is attached to other connector (usually plug). Bright plated finish over steel.

Retail Unit Price each (inc. VAT).

Order Code	Type 1206	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
JW94C	Bail-Lock Set	£0.561	£0.410	£0.360	£0.660

## 25-Way D Outlet

A flush mounting 25-way D female socket mounted on a white front plate. Fits standard conduit and surface boxes (see Electrical Accessories) to BS1363. Screws supplied. Depth from rear of plate 6mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1209	Price each exc. VAT			inc. VAT each 1+
		1+	10+	25+	
FP14Q	25W D Outlet	£2.650	£1.990	£1.830	£3.360

## High Density 15-way D-type Connectors

High density 15-way D-type connectors that fit 15 pins into the same size shell as a 9-way standard D-type connector. Termination is by solder bucket. Contacts are copper alloy with gold plating over nickel. Shells are steel with chromate plating over zinc. Insulator is glass reinforced PBT plastic to UL-94-V0.

Retail Unit Price each (inc. VAT).

## Flat Cable IDC Series D Connectors

Of the range of the D series plugs and sockets described elsewhere in this section, 9-way, 15-way, 25-way and 37-way plugs and sockets are now available in IDC form, greatly simplifying the task of terminating many wires. In addition, many plugs or sockets can share the same cable harness for looping to several destinations. These metal and plastic bodied connectors will mate with the other D range connectors shown elsewhere in this section.

Retail Unit Price each (inc. VAT).

Order Code	Type 1483	Price each exc. VAT			inc. VAT each

## FCC68 CONNECTORS

### FCC68 Modular Plugs

A range of modular plugs that are used on computer equipment and American telephones. Available in the following contact configurations: Four contacts in a four position shell (4C4P), four contacts in a six position shell (4C6P), six contacts in a six position shell (6C6P) and eight contacts in an eight position shell (8C8P).

Retail Unit Price each (inc. VAT).

Order Code	Type 423	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
JW42V	FCC68 Plg 4C4P	£0.340	£0.270	£0.185	£0.400

JW41U	FCC68 Plg 6C6P	£0.425	£0.330	£0.240	£0.500
JW44X	FCC68 Plg 8C8P	£0.808	£0.580	£0.360	£0.950

### Crimping Tools for Modular FCC68 Connectors

Crimping tools for use with FCC68 modular connectors which are used on computers and American telephones. Simply place the plug with the cable in the tool and squeeze the grips together, thus causing the plug to bite into the cable. The handles are spring loaded for automatic opening. Wire can be cut with blades built into the handle. All made from toughened plastic. Overall length 190mm.

The following types are available:

#### Plastic Crimp 4C4P

This model is used on plugs with 4 contacts in a 4 position shell.

#### Plastic Crimp 4C6P

This model is used on plugs with 4 contacts in 6 position shell.

#### Plastic Crimp 6C6P

This model is used on plugs with 6 contacts in a 6 position shell.

Retail Unit Price each (inc. VAT).

## PCB & GENERAL CONNECTORS

## EDGE CONNECTORS

### 2.54mm (0.1in.) Double-Sided Low-Cost

A range of good quality low-cost edge connectors primarily for use with double-sided pcbs. Moulded in glass-fibre reinforced polyester UL94-V0, the connectors have gold-plated phosphor bronze contacts. All types have closed ends and overall width of pcb tongue should be 5.08mm (0.2in.) wider than measurement between centres of end contacts. Connectors available in 36, 46, 50, 56, and 62-way.

Retail Unit Price each (inc. VAT).

Order Code	Type 1414	Price each exc. VAT			inc. VAT each

## EUROCARD LOW CURRENT

### DIN 41612 Indirect Cardframe Connectors

A range of DIN 41612 cardframe connectors, for use in cardframe and rackmounted assemblies. These connectors are ideal for use with our modular sub-rack system and eurocard prototyping boards. Other applications include mother board/daughter board interconnections. The connectors comprise of one multiway socket with PCB pins on a 2.54mm (0.1in.) pitch for fixing to a mother board or backplane. The mating plug has right-angled PCB pins for fixing to a daughter board or plug-in card. Socket contacts are gold plated phosphor bronze, plug contacts are gold plated brass, termination area of each pin is tin plated. Connectors have locking keys to prevent accidental reversal on insertion. Available in 32, 64 and 96-way. 32-way version is available in 64-way and 96-way shells. 64-way version is available in both 64 and 96-way shells (middle row unused). Shells are made from glass reinforced-PBT to UL94-V0.

## Shell Housings and Accessories

### Harting

Two sizes of shell housing are available for use with certain types of Harting connectors. Type B is suitable for 3-row types and measures 103mm wide x 60mm deep. Type C is suitable for 2-row and 3-row female types and has fixing centres at 97.5mm, and 61.5mm deep.

Matching locking levers are available for both types of housing. Left and right fixing brackets are available for male 2 and 3 row connectors.

## 21-Pin Connectors

### Harting

A low-cost quality range of connectors that have 21 pins and meet DIN 41617 and VG 95323 standards. The male connector is available with either right-angled solder pins (AP) with a contact spacing of 2.5 x 2.5mm, or straight solder pins (SP), 2.5 x 5mm. The female connector has solder lugs (2.5 x 5mm). Overall width of connector: male 64.8mm, female 64.8mm.

### General Specification

Working current: 6A maximum  
 Test voltage: 1kV  
 Contact resistance: <12mΩ  
 Insulation resistance: ≥1011Ω  
 Capacity: <1pF  
 Temperature range: -65°C to +125°C

### Electrical terminations

male connector: Solder pins 0.8mm for PCB  
 female connector: Solder lugs 0.5mm2

### Materials

mouldings: Thermoplastic resin  
 glass fibre filled  
 contacts: Copper alloy  
 Contact surface: Selectively gold-plated  
 contact zone: Tinned  
 termination zone: Tinned

## IDC CONNECTORS

### 26-Way PCB Mounting Header

A 26-way male header for PCB mounting without a locking device. Available with either straight terminals or right-angled terminations.

Manufacturer's Code MPS Code  
 G80D26P9BBBL-DIN2 CX69A  
 G80D26P9BEEL-DIN2E CX70A (right-angled type)

Retail Unit Price each (inc. VAT).

Order Code	Type 1439	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CX69A	26W Straight Plug	£1.520	£1.210	£1.120	£1.790
CX70M	26W R/Angle Plug	£1.700	£1.480	£1.260	£2.000

### Double Row Cable Connector Socket

A range of double row IDC connectors moulded in 30% glass fibre reinforced PBT (UL94-V0). Contacts are gold-plated phosphor bronze. Cable strain-relief clamps are supplied. Connectors conform to BS9525.

Retail Unit Price each (inc. VAT).

Order Code	Type 1449	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JB59P	2x5 DIN IDC Socket	£0.757	£0.510	£0.340	£0.890

FA00T	2x25 DIN IDC Socket	£2.280	£1.670	£0.860	£2.690

## IDC Connectors With Cables Fitted

A range of assembled Flat Cables and IDC Connectors conforming to BS9525 with pins on 2.54mm (0.1in.) spacing. All connectors are moulded in thermoplastic, glass-fibre filled resin. Max working voltage: 750V DC. Max working current: 2A. Fitted with 1/4 metre (10in. approx) of cable and other end unterminated. Available in 16-way, 20-way, 26-way, 34-way and 40-way.

Retail Unit Price each (inc. VAT).

Order Code	Type 1450	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
FJ01B	16 Way IDC Skt+Cable	£1.260	£0.990	£0.790	£1.490

### IDC PCB Header Plugs

A range of pcb mounting header plugs to BS9525, matching the Double Row Cable Connectors. Plugs are available with straight and right-angled pins and types marked R/A have right-angled pins and types marked N/L (non-latching) are without locking ears. Moulded in 30%

glass fibre reinforced PBT (UL94-V0) with gold-plated contacts. Types marked R/A have right-angled pins and types marked N/L (non-latching) are without locking ears.

All dimensions in mm

## PCB SHORTING LINKS

### 1mm Insulated Plug

Harwin

All dimensions in mm

A precision 1mm diameter gold-plated brass shorting plug that is moulded into a black polyacetal thermoplastic insulator. The plug is rated at 10A at 20°C, and is available in two sizes. The matching PCB socket has a tinned brass socket with a gold-plated beryllium copper contact with a contact resistance of 10mΩ. The socket is rated at 10A.

## 2.54mm (0.1in.)

### Miniature Pin Jumpers

Miniature jumpers for bridging 'option pins' on computers, disk drives and other electronic hardware. Used in conjunction with 2.54mm (0.1in.) pin strips, these jumpers provide an easy means of being able to select various firmware options. Two versions are available, with or without extraction handle.

Retail Unit Price each (inc. VAT).

## PIN SOCKET STRIPS

### Modular Connectors

Single row modular 2.54mm pitch sockets, and matching plugs, which are intended for mother-daughter board applications. The shrouded socket is fitted with a highly reliable four leaf gold on beryllium copper contact, and is also suitable for use with ICs. The unshrouded tin/lead finished brass plugs are also suitable for cable wiring applications. The 32-way connector strip can be easily cut to size using suitable hand tools. Insulator material: glass filled polyester UL94V-0.

Retail Unit Price each (inc. VAT).

Order £30 or above?

Account holder or not, your order will be sent carriage paid.

(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)

## 2.54mm (0.1in.) Pin Strips

Pin strips which are used in conjunction with pin jumpers to provide 'option pins' on computers, disk drives and other electronic hardware. These pin strips provide an easy means of being able to select various firmware options. Four versions are available, single row of 36 straight pins (1x36ST) single row of 36 right angle pins (1x36RA), double row of 72 straight pins (2x36ST) and double row of 72 right angle pins (2x36RA). Strips may be shortened by cutting at V-notches so any required length may be formed.

Retail Unit Price each (inc. VAT).

Order Code	Type 1500	Price each exc. VAT			inc. VAT each
		1+	25+	100+

JW62S	Pin Strip 2x36ST	£0.936	£0.670	£0.580	£1.100

## 2.54mm (0.1in.) Strip Socket

Harwin

20-way strip socket with a body made from glass reinforced thermoplastic polyester to UL94-V0, contacts are beryllium copper with tin on nickel-plating, rated at 100V RMS/150V DC @ 1A. Strips may be shortened by means of 'V notches'.

For mating strip see DC18U which can be cut to size.

Retail Unit Price each (inc. VAT).

**SCREW TERMINAL BLOCKS**

**Quick Connecting PCB Terminal Blocks**

CIFF

PCB mounting terminal blocks for attaching wires to a board, but using spring-loaded wire grips instead of a screw clamp. Facilitates very fast connection and disconnection of cables from a PCB, ideal for prototyping, after which the board can become a permanent installation with the same connectors. Available in 2-way and 3-way versions. The release buttons on top are shrouded to prevent accidental

disconnection and the wire entry behind the button, which is vertical, will accept up to 1mm diameter solid core wire. Clamps can resist pulling force on the wire of up to 5.1kg. Buttons and body are made from grey nylon with 15% glass fibre content, and terminals are tin-plated brass. Requires 1.6mm dia. PCB holes spaced 7.6mm apart (0.3in.).

**Specification**  
 Contact rating: 7A @ 250V AC 50Hz  
 Contact resistance: <10mΩ  
 Contact heating: up to 30°C over ambient temperature at max. rating >100mΩ  
 Insulation resistance: 1.5kV AC @ 50Hz for 1 minute  
 Withstand voltage:  
 Operating temperature range: -10°C to +80°C

Retail Unit Price each (inc. VAT).

**PCB Terminal Blocks**

Terminal blocks which mount directly onto a printed circuit board or stripboard and provide a quick, easy means of connecting conventional wiring to the board. There are basically four ranges. Types 300, 301 and 320 are soldered to the board while type 332 acts as a free socket, being quickly removable from soldered PCB plug pins. Furthermore the blocks are modular, consisting of 2 and 3-way sections which can be stacked lengthwise with their dovetail joints to make any number of ways in one length of each type. In all cases the body material is flame retardant glass filled polyester to UL94 V0, designed to withstand operating temperatures in the range -33°C to +120°C. Most types feature 'wire guards' (metal leaves) under each screw to protect the wire against any twisting or cutting action by the screw. All types are available with 5mm (0.197in.) and some with 10mm (0.394in.) pitch between pins. The 10mm pitch is achieved by leaving every even numbered position blank or empty. These pitches are very close to 0.2in. and 0.4in. respectively for stripboard etc, but be aware that blocks will only sit comfortably in 0.1in. stripboard for a maximum of 4 x 5mm pitches (1 x 4-way block). Longer lengths are best made with separate short blocks end to end with the dovetailing removed (soldered types only). Contacts are tin-plated brass bodies with galvanised and chromatised steel screws and tin-plated solder pins.

**Business Account Holders  
 No Delivery Charges for  
 any order**

**Standard 300 Series**

Soldered type PCB terminal block with 4.5mm long PCB pins requiring 1.2 to 1.4mm holes. Wire insertion direction is 90° to vertical (side entry), screws heads at top. Screw size: M3 x 5.8mm. Current rating: 16A max. Will accept wires up to 2mm thick. This type incorporates test probe holes behind the clamping screws which will hold standard sized (1.75mm dia.) multimeter type test probes or pins in contact with wire below. Height above PCB, 12.5mm. Width, 9mm. Tracking resistance between contacts conforms to VDE0110 Group B (250V @ 5mm, 500V @ 10mm). 2, 3, 4, 5 and 6-way versions available.

Retail Unit Price each (inc. VAT).

## Angled 320 Series

Soldered type PCB terminal block with wire entry at screw access offset at 45° from vertical. Particularly useful on a crowded PCB or in a restricted space. A 1-3 to 1.5mm PCB hole is recommended. Unlike the 300 and 301 types, wire gripping is achieved through a rising clamp method. When tightened the screw raises a block which traps the wire beneath a ribbed upper contact. The technique provides a more reliable and rugged method of anchoring the wire compared with the conventional screw pressure method, with or without wire guards. Pins are 4.5mm long. Both height and width are 12.5mm and front face is chamfered at 45°. Screw size, M2.6 x 4.5mm. Current rating, 16A max. Wire capacity up to 2.5mm thick. Tracking resistance between contacts conforms to VDE0110 Group B (60V @ 5mm). Only available in 5mm pitch 2-way and 3-way.

Dielectric strength: >5kV  
 Insulation resistance: >40MΩ  
 Working temperature: 110°C  
 Moulding: UL94-VO flame retardant  
 Lexan Pin/terminal: 5 micron tinned nickel-plated brass  
 Rising clamp: Tinned nickel-plated steel

## Pluggable 332 Series

A system which combines the ease of wire connection via terminal blocks with the speedy access to equipment, provided by on board plugs and sockets for cables and looms. Allows for swift disconnection of wires from a board during testing, servicing or replacement. An added advantage is that, unlike fixed terminal blocks, wires will not be replaced wrongly. While the actual blocks are attached to the wires, the PCB has rows of pins soldered in position over which the blocks are plugged. The blocks can connect two different ways, with the wires exiting either vertically or horizontally. The pins are provided on a 24-way strip, which is broken down by hand into shorter lengths as required. The blocks then simply plug onto it and may be connected and disconnected up to 30 times. Wires are retained in the usual way as with types 300 and 301, again protected by wire guards. Larger numbers of ways can be made up by joining blocks together with the dovetailed jointing system. Blocks are 11mm high and 13mm wide (screw heads at top). Screw size is M2.6 x 4.8mm. Current rating, 10A max.; wire capacity 1.75mm thick. Tracking resistance between contacts conforms to VDE0110 Group B (125V @ 5mm). Only available in 5mm pitch as 2-way, 3-way, 4-way and 6-way. Strip(s) of 24 PCB pins need ordering separately.

## Terminal Block (Cuttable)

Comes as a 36-way, 5mm pitch plug-in terminal block that can be cut to the required number of ways. The female block is fitted to the PCB and the male can then be fitted either vertically or horizontally to the female. This allows the cables to be positioned in the most convenient way.

## 36-Pole Snap-Off Connectors or PCBs

A 36-pole 5mm pitch professional connector that can easily be cut to the required size. Made from flame retardant material with a rising clamp, the connector will accept wire up to 3.5mm<sup>2</sup>. Two versions are available, vertical or horizontal mounting. Overall length of 36-way strip is 180mm.

### Specification

Rating: 13A 380V

## PCB Connectors with Screw Terminals

A range of two part PCB connectors with screw terminals that can accommodate cables up to 2.5mm<sup>2</sup> (12 AWG), and have a rating of 250V AC 10A. The PCB part is available either as vertical or horizontal mounting type. The pin strips are available with either open or closed ends, and the rising clamp cable trap system gives a rugged and reliable connection where frequent rewiring is

expected, and will not damage the wire by transmitting screw torque. The connectors meet VDE standards and are UL, CSA and SEMKO approved. Available in 2,3,4,5,6,8,10 and 12-way.

### Specification

Moulding material: UL94VO polyamide 6.6  
 Metal parts: Phosphor bronze contact nickel-plated-steel  
 M3 screw, Zinc passivated

**STANDARD PCB TYPES**  
**Low Cost Types**

These connectors are intended as a simple and inexpensive method of making cable to printed circuit board connections. Available with pins on a 2.54mm (0.1in.) pitch.

**0.1in. Series (2.54mm)**

A range of connectors for pcb mounting that allow circuit boards to be plugged together at right angles or end-to-end, or cables to be plugged onto circuit boards at right angles or end-on at the edge of the pcb. Both plugs and sockets may be butted up end-to-end to form connectors with any number of ways from 2 upwards. Rated: 2.5A, 250V AC.

**Straight Polarised Locking Plug Assembly**

A wafer into which square, tin-plated brass pins have been inserted. These pins protrude 3.4mm on one side, and these should be soldered flat to the PCB. The nylon wafer sits flat on the PCB and is 3.3mm thick, and the back wafer provides the locking and polarising. The plug pins are 7.5mm long. Wafers are 2.3mm wide, and the pins require a 1mm dia. PCB hole.

Type	Length (mm)	Type	Length (mm)

#### Miniature Spade Connectors

A miniature female spade connector (AS34M) for use with speakers and PCBs where space is at a premium. Tinned copper terminals with an insulated plastic shroud enclosing the cable crimp section. Suitable for cables between 26AWG (0.4mm dia.) and 22AWG (0.64mm dia.). Overall length 16.7mm and width 3.7mm. Also, a miniature male spade connector (AS32K) is available for use on speakers etc. Suitable for PCB mounting, with 1.5mm holes. Overall tab length 12.6mm, width 5mm and thickness 0.5mm. Solder spill extends 4mm from the connector and is therefore suitable for a wide range of PCB thicknesses. Sold in packs of ten.

Retail Unit Price each (inc. VAT).

## Snap-Lock Automotive Cable Connector

A very quick and reliable way of connecting additional cables to existing wiring in automotive applications, for example fitting car alarms, radio-cassette units, etc. The cables to be joined are placed inside the snap-lock connector, the cover is pushed home with a pair of pliers and locks shut, thus completing the connection. Available singly or in packs of 10.

Retail Unit Price each (inc. VAT).

## Spade Connectors

A tin-plated brass male spade connector (AS33L) with a tab width of 7.75mm and a tab length of 16.25mm. Ideally suited to vertical PCB mounting in 1.5mm holes pitched at 5.08mm. The mounting pins project 3.4mm and are therefore suitable for a wide variety of PCB thicknesses. There is a horizontal version (BP88V) for PCB mounting. The associated tin-plated female spade connector (AS30H) mates with male connectors with a width of 6mm and a thickness of 0.5mm. Accepts cables from 17AWG (1.5mm dia.) to 13AWG (1.83mm dia.). Cables can be inserted into the connectors at 90° to the direction of insertion and crimped with a suitable tool. Overall length of connector is 16.7mm. Insulated plastic covers (AS31J) are available for use with the above spade connectors. After the cable has been crimped to the connector, thread the cable through the insulated cover and slide it down so that it locates over the connector. Overall length 17.2mm, width 14.2mm and thickness 6.2mm. Sold in packs of ten.

## Crimp Connector Sets

A choice of three kits, one containing 100 and one 300 assorted insulated crimp terminals and connectors and the other containing 50 and a crimping tool. The crimp tool has bolt cutters for M2.5, M3, M3.5, M4 and M5 bolts, wire strippers for wires and cables of conductor area 0.75, 1.0, 1.5, 2.5, 4.0 and 6.0mm<sup>2</sup>, a wire cutter and it can crimp red, blue and yellow insulated crimp connectors. Terminals are tin-plated copper with PVC insulation. Types with red sleeves suit cables from 0.4mm<sup>2</sup> to 1.0mm<sup>2</sup>, with blue sleeves from 1.1mm<sup>2</sup> to 2.6mm<sup>2</sup> and with yellow sleeves from 2.7mm<sup>2</sup> to 6.6mm<sup>2</sup>.

		1+	10+	25+	1+
FY31J	Crimp Tool	£3.020	£2.230	£1.830	£3.560

## Heavy Duty Crimping Tool

A crimping tool for use with red, yellow and blue insulated crimp terminals. Simply place the connector to be crimped in the appropriate die in the jaws and squeeze the handles together, until the tool re-opens. A ratchet prevents the tool opening until the crimp is complete. A latch is provided so that the tool can be opened manually after the ratchet has engaged and before the crimp is complete if necessary. Manufactured from 3mm steel plate with plastic handles. Overall length 225mm.

Retail Unit Price each (inc. VAT).

BW69A	Croc Lead Kit	£3.310	£2.750	£2.550	£3.890

## SCREW TERMINALS

### Screw Terminals

#### Mounting Detail

#### Mounting Detail

These two low profile screw terminals are for PC mounting; one is a horizontal type and the other is a vertical type. They are easy to mount and will accommodate 14 to 22 AWG solid or stranded wire, crimp-type terminals or lugs. A brass binding head screw is the securing terminal. They are rated at 15A.

Retail Unit Price each (inc. VAT).

Order Code	Type 1063	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
GU63T	PC Mnt Screw Term V	£0.212	£0.185	£0.170	£0.250
GU64U	PC Mnt Screw Term H	£0.212	£0.185	£0.170	£0.250

## Screw Terminals

A paxolin strip having a pair of solder tags for terminating wires to a pair of screw terminals. The strip can be attached to a panel or instrument case within a suitably shaped cutout to provide a basic, simple method of connecting cables to the instrument or equipment in question. Bare wires can be wrapped around the screws before tightening, or spade terminals can be used; the screw terminals have ears to positively locate the spades. The screws are M4 size, and suitable for use with 4BA spades and tag washers. Overall size 42 x 18mm. Fixing centres 33mm. Screw/tag spacing 14.5mm.

A four way version of the above. Overall size 72 x 18mm. Fixing centres 62mm. Screw/tag spacing 14.5mm.

Retail Unit Price each (inc. VAT).

**Terminal Post with Large Handle**

CIFF

Nickel-plated brass terminal post with insulation moulded in polypropylene. Rated 15A at 240V. It has a 4mm top socket and 2.3mm dia. hole in post. Knob size: 17mm x 12.5mm dia. Fits panels up to 3mm (12swg) thickness. Available in the following colours: Black, Blue, Green, Red and Yellow.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
HF02C	Large Term Post Blk	£0.672	£0.530	£0.450	£0.790

**Twin Terminal Post**

Gold-plated brass terminal posts, one with a red and one with a black knob on a twin base having one part red and one part black, so that the part on the outside of the chassis can be either red or black. Rated 15A at 240V. Each post has a 4mm top socket and a 2.1mm dia. hole in post. Knob size 16 x 15mm dia. Fits panels from 1.2mm dia. to 7mm thick. Panel cut-out requires two 12.7mm holes on 18.5mm centres. Bezel size 35mm x 16mm.

Retail Unit Price each (inc. VAT).

		1+	25+	100+	
JK24B	Pair Terminal Posts	£1.740	£1.330	£1.150	£2.050

**30A Terminal Post**

CIFF

A 30A terminal (binding) post that will accept a 4mm plug-in front or through a cross hole in the post. Available in red and black. Mounting hole: 7mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
CX83E	30A Post Red	£1.260	£1.080	£0.950	£1.490
CX84F	30A Post Black	£1.260	£1.080	£0.950	£1.490

**Amplifier and Speaker Terminals**

A fully touch-proof connector assembly, ideal for use in speaker to amplifier connections and for use with banana plugs. Features one red and one black terminal to ensure polarity is easily maintained. Bared cables can be gripped by tightening each terminal down, once the cable has been inserted into an aperture at the side of each terminal. Rated at 30A, with solderable or solder tag connections on the equipment side. Fixing holes are required with a pitch of 19mm and each with a diameter of 13mm.

**Specification**

Contact ratings: 30A  
Fixings: Same as standard XLR connectors

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each

BN34M	Term Post TouchProof	£2.970	£2.750	£2.400	£3.490

## Recess Terminal Mounting Plate

**CHIT**

A mounting plate for two 30A terminals that replaces the top insulators of those terminals.

Available in black.

Retail Unit Price each (inc. VAT).

Order Code	Type 1380	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
CX85G	Mounting Plate	£0.170	£0.135	£0.110	£0.200

## Grounding Post with 4mm Socket

A grounding (terminal) post for use on equipment where a connection needs to be made to the earthed case, e.g. power supplies and measurement equipment. The post is made of chromed brass. It has a central hole to accept a 4mm plug and a 2mm hole in the post. Requires a 5-5mm mounting hole. Overall size 21mm x 10mm dia. Supplied with locking washer, solder tag and two nuts.

Retail Unit Price each (inc. VAT).

Order Code	Type 1381	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
JL39H	Grounding Post	£0.595	£0.380	£0.330	£0.700

## Spade Terminals Solder Type

A spade terminal with insulated handle for use with our terminal posts. Wire is soldered to spade. Spade has 6-3mm (1/4in.) opening. Overall length 36mm. Overall width 12mm. Available in red and black.

Retail Unit Price each (inc. VAT).

Order Code	Type 1082	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FS90X	Solder Spade Red	£0.553	£0.450	£0.410	£0.650
FS91Y	Solder Spade Black	£0.587	£0.450	£0.410	£0.690

## Spade Terminals Screw Type

**CHIT**

A spade terminal with insulated handle forming a 4mm socket, for use with our terminal posts. Grub screw in handle clamps wire to spade. Spade has 6-3mm (1/4in.) opening. Overall length 42mm. Overall width 15mm. Available in red and black.

Retail Unit Price each (inc. VAT).

Order Code	Type 1083	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
JC20W	Screw Spade Red	£0.502	£0.355	£0.300	£0.590

## TEST CONNECTORS & LEADS

### PLUGS, SOCKETS & PROBES

## Miniature 1mm Size

**Plug**

1mm plug suitable for low voltage circuits. Strong acetal moulding and silver-plated pin. Available in red and black. Overall length: 16mm. Pin length: 6mm. Overall diameter: 6mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1423	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
WL57M	1mm Plug Black	£0.212	£0.201	£0.196	£0.250
WL58N	1mm Plug Red	£0.212	£0.201	£0.196	£0.250

## Socket

1mm socket suitable for low voltage circuits. Strong acetal moulding and silver-plated contact. Available in red and black. Overall length: 16mm. Bezel diameter: 6mm. Mounting hole: 5mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type 1425	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
WL59P	1mm Socket Black	£0.212	£0.200	£0.194	£0.250
WL60Q	1mm Socket Red	£0.212	£0.200	£0.194	£0.250

## 2mm Size

**Plug**

2mm plug with silver-plated pin rated at 10A. Available in black and red. Note that to unscrew body, hold in one hand and turn plastic body clockwise with other hand. Overall length: 32mm. Pin length: 9mm. Overall dia: 6mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1427	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
HF38R	2mm Plug Black	£0.331	£0.240	£0.210	£0.390
HF41U	2mm Plug Red	£0.331	£0.240	£0.210	£0.390

## Socket

2mm socket with silver-plated contact, rated at 10A. Available in Black and Red. Overall length: 19.5mm. Bezel: 6 x 6mm. Mounting hole: 5mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type 1429	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
HF44X	2mm Socket Black	£0.331	£0.240	£0.210	£0.390
HF47B	2mm Socket Red	£0.331	£0.240	£0.210	£0.390

## 2mm Stackable Plugs

**Multi-Contact**

A touch-proof 2mm stackable plug with gold plated brass centre pins, and beryllium copper spring contacts rated at 600V/10A. Will accept cable up to 0.5mm<sup>2</sup>. Available in black (MF21X) or red (MF22Y).

- ★ Touch-proof
- ★ Rated at 600V/10A
- ★ Stackable

Retail Unit Price each (inc. VAT).

Order Code	Type 17391	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
MF62S	2mm Stackable Black	£1.140	£1.090	£1.030	£1.350
MF63T	2mm Stackable Red	£1.140	£1.090	£1.030	£1.350

## 2mm Stackable Hollow Pin Plug

**Multi-Contact**

A laboratory standard 2mm stackable plug with gold plated hard-drawn copper alloy contacts, rated at 600V/10A. Available in red (MF64U) or black (MF65V).

- ★ Hollow pin
- ★ Rated at 600V/10A
- ★ Stackable

Retail Unit Price each (inc. VAT).

Order Code	Type 17393	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
MF64U	2mm+insulator Red	£0.800	£0.760	£0.720	£0.940
MF65V	2mm+insulator black	£0.800	£0.760	£0.720	£0.940

## 2mm Safety Socket

**Multi-Contact**

A fully insulated safety socket for 2mm safety plugs and any similar 2mm spring-loaded plug. The socket is designed for screw, or push-fit mounting in to a suitable pre-drilled plastic or metal panel. The socket is gold-plated copper, and the 1.9mm dia. connecting pin is gold-plated brass.

- ★ Rated at 600V/10A
- ★ Easy panel mounting
- ★ Gold-plated connections

A spacing sleeve is supplied for panels below 5mm thickness which allows the socket to be either proud or flush mounted. For panels 5 to 9mm thickness

HF74R	4mm Socket White	£0.374	£0.440
HF75S	4mm Socket Yellow	£0.374	£0.440

### PCB Mounting 4mm Sockets

Single 4mm PCB mounting sockets, ideal for use in test and measurement equipment. Sockets are provided with interlocking slots/ridges which allow groups of sockets to be butted together. Pins are rectangular (1 x 1.5mm) and are arranged on a 2.54mm (0.1in.) matrix. Single sockets measure 10 x 12 x 23.5mm. Sockets are available in red and black. Fixing centres are 15.24mm (0.6in.)

Retail Unit Price each (inc. VAT).

Order Code	Type 1440	Price each exc. VAT	inc. VAT each
JP20W	4mm PCB Slt Sngl Bk	£0.417	£0.490
JP22Y	4mm PCB Slt Sngl Red	£0.417	£0.490

### Stackable 4mm Plugs

A range of 4mm banana plugs which have an integral 4mm socket allowing plugs to be stacked one into another. The sprung contact ensures good electrical connection with the socket. Available in black, blue, green, red and yellow.

Retail Unit Price each (inc. VAT).

Order Code	Type 1442	Price each exc. VAT	inc. VAT each
JM00A	Stack Pig 4mm Black	£0.587	£0.690
JM43W	Stack Pig 4mm Blue	£0.587	£0.690

JM46A	Stack Pig 4mm Yel	£0.587	£0.690

### 4mm Stackable Hollow Pin Plug

Multi-Contact

A 4mm stackable hollow pin plug with gold-plated hard-drawn contacts rated at 19A. The plug is very easy to assemble, and is available in red (MF68Y) or black (MF69A).

- ★ Contacts rated at 19A
- ★ Gold-plated contacts
- ★ Easy to assemble

Retail Unit Price each (inc. VAT).

Order Code	Type 17396	Price each exc. VAT	inc. VAT each
MF68Y	4mm+Insulator Red	£1.090	£1.290
MF69A	4mm+Insulator Black	£1.090	£1.290

### Touchproof 4mm Socket

CIFF

A touchproof 4mm polypropylene socket with gold-plated contact that will accept both touchproof and non-touchproof 4mm plugs. Panel isolation of 3kV AC makes it suitable

for use in test instruments, and educational equipment. Fixing is by a nylon nut. The socket complies with BS4743 and is rated at 30A max. Overall length: 29mm. Bezel diameter: 14mm. Mounting hole: 12.1 x 9.6mm. Available in red and black.

Retail Unit Price each (inc. VAT).

Order Code	Type 1444	Price each exc. VAT	inc. VAT each
KC49D	Shroud Slt Black	£0.331	£0.390
CK66W	Shroud Socket Red	£0.331	£0.390

## Touchproof 4mm Plug and Unshrouded 4mm Plug

CIFF

A touchproof stackable 4mm plug, designed to be used with the touchproof socket, but fits most similar style sockets. The standard contact finish is gold-plated and connection is by soldering. The contact is pushed into the case moulding and locked in place by the rear case moulding. Thick wires should be preformed into an 'S' shape to fit into the built-in cable restraint. Rated at 30A max. (with appropriate cable). Available in red and black. The unshrouded (touchable) version is similar and fits all standard 4mm sockets and terminals. Note: The contact has to be purchased separately.

Retail Unit Price each (inc. VAT).

Order Code	Type 1445	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
KC50E	Shroud Cov Black	£0.187	£0.140	£0.120	£0.220

## 4mm Retractable Plug

Multi-Contact

A 4mm plug with nickel plated contacts and a protection guard to prevent accidental contact to the 'live' part. The transparent guard sleeve is spring-loaded and retracts when the plug is inserted into a socket. Rated at 500V/32A with a contact resistance of 0.8Ω. Available in red (MF70M), and black (MF71N).

Retail Unit Price each (inc. VAT).

Order Code	Type 17648	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+

MF71N	4mm Retract Black	£2.840	£2.700	£2.560	£3.340

## Plug/Socket Adaptor

Multi-Contact

A range of plug/socket adaptors with either a 2mm plug and 4mm socket, or a 4mm plug and 2mm socket. Contacts made from gold-plated machined brass, and rated at 25A. Each type available in red or black.

Type - 2mm plug with 4mm socket

Colour	Contact Resistance	Order Code
Red	0.6mΩ	MF73Q
Black	0.6mΩ	MF74R

Type - 4mm plug with 2mm socket

Colour	Contact Resistance	Order Code
Red	<1.0mΩ	MF75S
Black	<1.0mΩ	MF76H

Retail Unit Price each (inc. VAT).

Order Code	Type 17407	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+

MF76H	2mm Plug-4mm Skt Blk	£1.290	£1.230	£1.170	£1.520

## Insulated Right-Angled Plug/Socket Adaptor

Multi-Contact

An insulated right-angled adaptor with a 4mm plug and 2mm socket, ideal for connecting a 2mm system to a 4mm shrouded system such as multimeters and test equipment. Contacts are gold-plated machined brass, and rated at 600V/25A. Available in black (MF77J) or red (MF78K).

Retail Unit Price each (inc. VAT).

Order Code	Type 17408	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+

## Safety Right-Angled Plug/Socket Adaptor

Multi-Contact

This 1000V/25A adaptor has a 4mm plug and 4mm socket, configured at right-angles in a fully insulated body. The adaptor is designed to allow 90° entry to safety sockets where there is restricted access. Available in black (MF79L) or red (MF80B).

Retail Unit Price each (inc. VAT).

Order Code	Type 17409	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+

## Miniature Test Clip

Multi-Contact

A miniature test clip with revolving grapper and spring-loaded 1mm dia. socket, suitable for 1mm test leads. Available in red (MF81C), or black (MG02C).

Retail Unit Price each (inc. VAT).

Order Code	Type 17412	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
MF81C	Min Test Clip Red	£7.240	£6.880	£6.520	£8.510
MG02C	Min Test Clip Black	£7.240	£6.880	£6.520	£8.510

## Miniature Probe Clips

Ideally suited for use with our extra flexible wire, these probe clips feature a spring-loaded wire hooked probe which retracts into the probe moulding. Two types are available. The 43mm type is available in black, blue, green, red, white or yellow and the 57mm type in black, green or red. Probe material is phosphor bronze plate 0.3mm thick on small and 0.4mm thick on larger type. Housing is nylon. Sold individually.

Dielectric strength: 2kV for 1 minute  
Insulation resistance: >100MΩ at 50V DC

Dimensions

Length	43mm	57mm

## Probe Clip

Deltron

Probe with a positive spring-loaded hook grip for use in confined spaces. Fully insulated, with acetel mouldings and gold-plated contact. Screw or soldered connections. One red and one black. Supplied in pairs only. Overall length 83mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 5882	Price each exc. VAT			inc. VAT each 1+
		1+	2+	5+	
HF21X	Probe Clips	£2.110	£1.370	£0.990	£2.490

## Hook Clip for IC Pins

Multi-Contact

This clip, which has a solder terminal for wires of 0.5mm total diameter (insulation diameter 2mm), is ideal for monitoring signals from IC pins, wires, terminals and test points. The spring-loaded hook is made from copper-beryllium. The low weight of 1.3g allows contact even with fragile components. Voltage rating: 30V AC (60V DC). Available in red or black colours.

Retail Unit Price each (inc. VAT).

## 2mm Minigrip Probe

Multi-Contact

A safety minigrip probe with hardened spring wire grapper and gold-plated contact areas. Designed to accept 2mm safety leads or any spring-loaded 2mm plug. Rated at 300V/1A. Clamping limit 2mm max. Available in black (MG05F) or red (MG06G).

Retail Unit Price each (inc. VAT).

Order Code	Type 1741E	Price each exc. VAT			inc. VAT each
		1+	5+	10+

## Hook Grabber for 4mm Safety Test Leads

Multi-Contact

A fully-enclosed test probe for use with 4mm test leads. Squeezing the spring-loaded pistol-type grip reveals a pair of stainless-steel wire clamps for hooking onto the test conductor. The shaft is 50mm in length, flexible and coated in silicone rubber. Voltage rating: 1000V. Current rating: 1A. Available in red and black colours.

Retail Unit Price each (inc. VAT).

Order Code	Type 1027E	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DN30H	Flexible Probe Red	£5.090			£5.990
DN31J	Flexible Probe Black	£5.090			£5.990

## Solderable Test Prods

A pair of test probes with plastic body, one red and one black, which can be unscrewed so that a cable can be soldered into the threaded well of the tip. Together with the required wander plugs or crocodile clips, and using preferably extra-flexible wire, it is possible to make up your own test leads to your own specifications. The prods have 27mm long tips with 100mm long x 10mm diameter handles.

Retail Unit Price each (inc. VAT).

Order Code	Type 5063	Price each exc. VAT			inc. VAT each
		1+	2+	5+	
FK32K	Solder Test Prods	£2.110	£1.370	£0.990	£2.490

## Rigid Test Probe for Safety Test Leads

Multi-Contact

A 122mm long test probe with a refined non-slip steel tip, which is covered with a removable transparent cap for safely working on densely-populated circuit boards. A 4mm socket is built into the handle for the test lead. Available in red and black colours.

Specification

Length:	122mm
Shank:	70mm
Rated voltage:	1000V
Insulation co-ordination:	6kV/2 (only applies to handling part between guard collar and socket)
Test voltage:	3250V
Operating temperature:	-40°C to 80°C

Retail Unit Price each (inc. VAT).

Order Code	Type 1029E	Price each exc. VAT		inc. VAT each
		1+	5+	
DN46A	Rigid Test Probe Red	£2.540		£2.990
DN47B	Rigid Test Probe Bk	£2.540		£2.990

## GS38 Fused Test Probes

Multi-Contact

A pair of novel test probes that accommodate a fuse, and so are ideal for working on delicate or potentially-dangerous equipment. To access the fuseholder, the bayonet-fitting top section of the probe is removed from the base. The fuse section is transparent, so that the state of the fuse can be readily seen. To access the pointed test tip, the probe's handles are squeezed. Designed for use with high-power fuses of up to 20A (Isc = 100kA). Available in red and black. Fuses suitable 15A (UL73Q), 20A (GW90X) (not supplied).

Retail Unit Price each (inc. VAT).

		1+	5+	
DN44X	Fused Test Probe Red	£14.880		£17.490
DN45Y	Fused Test Probe Bk	£14.880		£17.490

## 2mm Crocodile Clip

Multi-Contact

A fully insulated safety crocodile clip with toothed gripping jaws and a special fine-wire clamping surface. Designed to accept 2mm safety leads or an spring-loaded 2mm plug. Rated at 600V/10A. Clamping limit 6mm max. Available in black (MG03D), or red (MG04E).

Retail Unit Price each (inc. VAT).

Order Code	Type 1741A	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
MG03D	2mm Croc Clip Black	£2.890	£2.750	£2.610	£3.400
MG04E	2mm Croc Clip Red	£2.890	£2.750	£2.610	£3.400

## Small Crocodile Clip for Safety Test Leads

Multi-Contact

Designed for a good contact on small conductors – both round and rectangular. The spring-loaded clip has an ergonomically-designed insulated handle, which accommodates a 4mm socket for the test lead. The jaws, which will open out to accept cables of up to 11mm in diameter, are nickel-plated, have a flat clamping area for very fine wires. Available in red and black.

Specification

Clamping limit:	11mm (max)
Length:	53mm
Operating temperature:	-40°C to 80°C
Rated voltage:	300V
Rated current:	15A (max, depends on cross-sectional area of connecting lead and the clamped conductor)
Insulation co-ordination:	2.5kV/2 (applies only to handling part and safety socket)
Test voltage:	1350V

Retail Unit Price each (inc. VAT).

Order Code	Type 1026E	Price each exc. VAT		inc. VAT each
		1+	5+	
DN24B	Small Croc Clip Red	£2.330		£2.740

## Large Crocodile Clip for Safety Test Leads

Multi-Contact

Designed for a good contact on conducting surfaces – large and small, round and rectangular. The spring-loaded clip has an ergonomically-designed insulated handle, which accommodates a 4mm socket for the test lead. The jaws, which will open out to accept cables of up to 30mm in diameter, are nickel-plated, have a flat clamping area for very fine wires. Available in red and black.

Specification

Clamping limit:	30mm (max)
Length:	80mm
Rated voltage:	1000V
Rated current:	32A (max, depends on cross-sectional area of connecting lead and the clamped conductor)
Insulation co-ordination:	6kV/2 (applies only to handling part and safety socket)
Test voltage:	3250V

Retail Unit Price each (inc. VAT).

Order Code	Type 1028E	Price each exc. VAT		inc. VAT each

## Adaptor for 4mm Safety Test Leads

### Multi-Contact

This insulated adaptor is designed for the attachment of safety test leads to all kinds of conventional 4mm sockets. The spined shaft is made from gold-plated machined brass. Buried in the shaft is an Allen screw, which is tightened for a secure fit in the socket (a suitable Allen key (DN29G) is available separately). Available in red, black and green/yellow colours.

### Specification

Rated voltage: 1000V  
Insulation co-ordination: 6kV/2  
Test voltage: 3250V

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN26D	Safety Adaptor Red	£2.800	£3.290
DN27E	Safety Adaptor Black	£2.800	£3.290
DN28F	Safety Adaptor Gr/Yl	£2.800	£3.290

## Allen Key for 4mm Safety Adaptors

### Multi-Contact

A STS 1.5mm Allen key designed for installing the above items in a 4mm socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN29G	Socket Screw Wrench	£0.340	£0.400

## Safety Plug Adaptor

### Multi-Contact

Designed to connect 4mm safety plugs, with a rigid insulating sleeve, to conventional 4mm sockets, binding posts, etc. The adaptor's plug has a relatively high plug-in force and is protected by a retractable insulating sleeve. Once the adaptor has been inserted into a socket, considerable force is required to withdraw it – since the safety plug requires a weaker withdrawal force, the adaptor will remain in place. Contact parts nickel-plated. Available in red only.

### Specification

Rated current: 25A  
Contact resistance: 0.8mΩ  
Rated voltage: 1000V (plugged in only, plug side)  
Insulation co-ordination: 6kV/2  
Test voltage: 3250V  
Operating temperature: -40°C to 80°C

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN59N	Die Socket Adaptor	£1.870	£2.200

## Concave Type

The CSP-2A contact probe has a non-slip concave conical tip, ideal for use on solder joints and similar surfaces.

**1m 20A Safety Test Lead with 4mm Shrouded Plug/Socket**

Multi-Contact

A highly flexible safety 1 metre connecting lead with a 4mm banana plug (with integrated 4mm socket) at either end. The integral socket means that the lead can be 'stacked' - in other words, multiple connections can be made to a piece of equipment.

The plug/socket conductor is formed from gold-plated brass for low contact resistance and long life, and the lead is insulated with high-temperature PVC. Rated current: 20A. Rated voltage: 1000V. Available in red and black colours.

Retail Unit Price each (inc. VAT).

Order Code	Type 10279	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+

### Glow Plug Clip

This is the 'crocodile clip' for glow plugs. The clip has an insulated handle, making it the safe and convenient way to achieve a fast connection to your battery when you want to get your glow plugs started. Supplied with cable securing screws.

Retail Unit Price each (inc. VAT).

Order Code	Type 11769	Price each exc. VAT	inc. VAT each
DX95D	Glow Plug Clip	1+ £0.944	1+ £1.110

### HIGH CURRENT, LOW VOLTAGE

#### 4mm Contacts

Multi Contact

A pair of high quality, gold-plated connectors for use with motors, battery packs and speed controllers in model cars, etc. The plug (BJ39N) has an M3 internal thread to enhance mechanical strength when soldering wire to connector (suitable for conductors up to 2mm in diameter), but will accept an M3 bolt if a mechanical fixing is required. The socket (BJ37S) has a solder tag. The connectors can be used for high current applications (up to 25A), and high current wire must

be used. Silicone extra flexible cable (BJ40T, BJ41U) is recommended for model car applications. When the wire is soldered to the connector, the joint should be covered with 6.4mm heat-shrink sleeving (BF90X) or for a more reliable connection use 6mm adhesive lined heat-shrink sleeving (KC46A). Plug has a withdrawal force of 5N approx. Socket requires a hole 4.8mm diameter.

Retail Unit Price each (inc. VAT).

Order Code	Type 2911	Price each exc. VAT	inc. VAT each
BJ39N	4mm HQ Plug Contact	1+ £0.859	1+ £1.010
BJ37S	4mm HQ Skt Contact	1+ £1.290	1+ £1.520

### 2mm 2-Pole Connector

A high quality polarised connector with gold-plated contacts, ideal for modelling applications (battery packs, motors and speed controllers), low voltage halogen lighting, automotive applications etc. Two connectors are used to make a plug/socket pair which can be used for high current applications, but ensure to use high current wire. Silicone extra flexible cable (BJ40T, BJ41U) is recommended for model car applications. Connection is by means of screw terminals, but wires can be soldered, if preferred. The contacts lock into the connector body and are non-removable when locked. Meets all European CEE specifications and conforms to IEC 598-1 EDIN/VDE 0711 part 1/08.80, DIN/VDE 0627/06.86 and TUV-GEMI-EL-10.2/2/497/91.

#### Specification

Contact rating: 25A 25V AC/60V DC  
Contact resistance: 0.5Ω  
Cable size: 0.5mm<sup>2</sup> to 1.5mm<sup>2</sup>  
screw: 0.5mm<sup>2</sup> to 2.5mm<sup>2</sup>  
solder: 0.5mm<sup>2</sup> to 2.5mm<sup>2</sup>  
Parts supplied: 1 x black insulated body, 1 x plug, 1 x socket, 2 x screws

## SERVO CONNECTORS

### Futaba Servo Connectors

Available in both in-line plug (as fitted to servos) and in-line socket types; comprising three crimp/solder terminals and housing (photo shows in-line socket components). Ideal for assembly of custom cables (use three cores stripped from ribbon cable, e.g. XR06G – see Cables Section) and replacement of broken/damaged connectors on radio gear, servos, speed controllers, etc. Sold singly.

Retail Unit Price each (inc. VAT).

## MOULDED ENCLOSURES

### D' TYPE AND CENTRONICS BOXES

#### 9-Way D-type Box

A small plastic box designed to house two 9-way D-type connectors. Small circuits may be built into the box, there is a 27.5 x 14.5mm area between the connectors which can accommodate items up to 12mm high. The box is in two parts that clip together. Both parts of the case have 16 x 9.5mm recesses, through which LEDs etc may be mounted. The box is supplied with two pairs of jack screws and posts. Connectors type RK60Q, RK61R, JB39N and JB42V from our range of connectors will fit this box. Dimensions: 53 x 34 x 17mm.

Retail Unit Price each (inc. VAT).

#### 9-Way D-type to 25-Way D-type Box

A small plastic box designed to house one 9-way D-type connector and one 25-way D-type connector. Small circuits may be built into the box, items up to 12mm high can be accommodated. The box is in two parts that clip together. The box is supplied complete with two pairs of jack screws. Connectors type RK60Q, RK61R, JB39N, JB42V, YQ48C, YQ49D, FS82D and FS84F will fit this box.

Retail Unit Price each (inc. VAT).

		1+	25+	100+	1+
JW55K	9W/25W Plastic D Box	£0.782	£0.634	£0.396	£0.920

#### 25-Way D-type Boxes

A novel plastic case designed so that a 25-way D connector will fit in each end. Small circuits may be built into the box which has a useful internal size of 38mm between connectors, 36mm wide and 11mm deep. Boxes snap together with interlocking clips. Two types of box are available.

One has a 33 x 21.5mm window cut in one side for access to wiring panel, switches, LEDs or whatever. The boxes are a very versatile means of making small in-line testers or projects on RS232 circuits. The boxes are supplied with two pairs of screws and washers which will mate with standard jack posts. Connectors type YQ48C, YQ49D, FS82D and FS84F from our range will fit in these boxes.

#### 25-Way D-type to 36-Way Centronics Box

A small plastic box designed to house one 25-way D-type connector and one 36-way centronics connector. Small circuits may be built into the box, there is a 33.5 x 35.5mm area between the connectors which can accommodate items up to 12mm high. The box is in two parts that clip together. Both parts of the case have 32.8 x 21.8mm recesses through which LEDs etc. may be mounted. The box is supplied complete with one pair of jack screws. Connectors type FV87U, YQ48C, YQ49D, FS82D and FS84F from our range of connectors will fit this box.

**ABS Boxes with Polished Finish**

A range of three moulded ABS plastic boxes with a polished finish. Each box is rectangular and consists of two halves. The lid is retained by 4 x 3.5mm countersunk plated screws. The upper part of the box has a lip running internally around the edge, this is to ensure that both parts slot together. Due to the construction of the boxes the maximum size of a rectangular PCB board fitted horizontally is less than the internal dimensions (see dimensions below). Type BM12 is provided with slots in the base for holding vertically either three or five (depending on orientation) 2mm thick PCBs. Type BM22 has slots in both halves.

Type	External (mm)			Internal (mm)			PCB (mm)

## Miniature Sloping Case

A highly adaptable miniature case ergonomically designed for desk, dashboard, pocket etc. that can be used either way up for the desired application. The case is made from high-impact ABS with a matt finish on all surfaces except for a polished recessed panel on the largest flat surface. The two halves of the case are held together by a single self-tapping screw and a cable knock-out is provided for flying lead applications.  
Overall dimensions (mm): 71 x 44 x 28 at highest, 22mm and 17mm at the ends.

## Boxes with Base and Matrix Board

A range of neat black plastic boxes with aluminium base plates. Boxes are supplied with 2.54mm (0.1in.) pitch matrix board for circuit assembly. The boxes have extra mounting pillars for fixing the board in place. Supplied complete with screws for base plate and board. The matrix board has rows of circular copper pads, to which component leads are soldered, connection between components may be made using the wiring system described in the PCB Equipment Section of this catalogue. Clearance from the wiring side of the board is 5mm, care should be taken to ensure that there are no protruding wires to short against the base plate.

## Plain Hand-Held Boxes

Retex

Injection moulded black rectangular boxes ready to be drilled or cut to your own design, having no preformed apertures or panels unlike many other boxes of this type. Each comprises top and bottom halves with lipped joint. Each includes a battery compartment which can contain one PP3 battery, with a removable door with quick release catch and lipped edges.

### Type HH1

Type HH1 has four PCB mounting pillars in the base and the two halves are attached with just two screws. Supplied with four short and two long self-tap screws. Outer dimensions: 105 x 61 x 28mm. PCB space (absolute max.): 66 x 50mm x height 15mm. Battery space: 55 x 29 x 19mm.

### Type HH2

Type HH2 has five PCB mounting pillars in the base and the two halves are attached with four screws. Supplied with five short and four long self-tap screws. Outer dimensions: 145 x 80 x 34mm. PCB space (absolute max.): 94 x 74mm x height 18.5mm. Battery space: 74 x 30 x 28mm.

## Hand-Held Case with Pocket Clip Option

A moulded, high-impact ABS case with integral PP3 battery compartment that is accessible by a separate removable cover. Clip-in battery terminals are supplied as standard, and the pocket clip, if required, can be easily fixed to the case by the two self-tapping screws supplied. The two main halves of the case are held together by the two self-tapping screws supplied, which are concealed by the battery cover. Four integral location pegs and sockets will hold a PCB in place without further fixing. The overall finish of the case is matt with highlighted feature panels making it ideal for personalised products. Overall dimensions: 103 x 62 x 23mm (without clip).

Retail Unit Price each (inc. VAT).

		1+	25+	100+	1+
KC15D	Pocket Clip Case	£3.29	£2.75	£2.18	£3.67

## Calculator-Style Hand-Held Box

An attractive calculator-style hand-held box moulded in black ABS plastic with a textured finish. A battery compartment is moulded into the case and has its own clip-on cover. The compartment will accept two PP3 batteries. Three pillars are provided in the base to which a PCB measuring 105 x 56mm may be fixed using No. 4 self-tapping screws. A PCB (107 x 71mm) can also be mounted in the top section using the pillar next to the battery compartment. The box is supplied with four self-tapping screws for holding the two parts together. In the top section of the case (window end) there is a removable insert to facilitate cable entry.

Overall size: 154 x 81 x 37.5/33mm.  
Window size: 49 x 20mm.

## ABS Plastic Box

A pair of well-constructed project boxes in ABS plastic with built-in mounting columns for PCBs, etc., one of which incorporates a battery compartment for a 9V PP3 type battery. The back and sides are finished in a matt black, mottled surface while the front is smooth, shiny black and is removable. These two-part boxes are grooved to ensure a safe and tight fit when secured by the four self-tapping fixing screws supplied.

Dimensions: BP97F 115 x 68 x 22mm

## Handheld Switch-Pacs

These packs contain everything you need to assemble your project into a high quality rugged enclosure, complete with a standard membrane switch panel. They are ideal for prototypes or small production runs. Constructed in tough ABS plastic in a matt black mottled finish, the front panel features a standard matrix steel dome tactile membrane switch panel, complete with ribbon cable and connector. The box interior includes a built in battery compartment (complete with PP3 type battery connector) and mounting columns for a PCB, etc. Each pack includes top and bottom covers, a built in battery compartment, PP3 type battery connector, a tactile membrane switch panel with ribbon cable and connector, full sized polyester overlay on which you can print, type or write your own control legend and four self tapping assembly screws. The Switch-Pac is available in two sizes, the standard 4 x 6 matrix switch panel measuring 142 x 90 x 35mm (BP90X) and a medium 3 x 5 matrix switch panel measuring 115 x 70 x 25mm (BP89W).

Retail Unit Price each (inc. VAT).

## Small Remote Control Box

A small, flat box with a smart recessed panel and surround at one end, readily suitable as a handheld transmitter/sender as part of a remote control system. The box includes a battery compartment with removable slide-on lid, particularly suitable for PP3 etc. The box is split in two halves using a tongue and groove type joint, secured by two screws. The 'front panel' surround is removable as a unit, allowing access to the plastic panel itself, which is then free to allow hole-cutting for ultrasonic/infra-red transmitting devices, cables etc. The box is 119mm long x 67mm wide x 32.5mm deep. Front panel area is 62 x 27mm. The box is moulded in matt black finish plastic. Two fixing screws supplied.

## INSTRUMENT CASES

### Plastic Two-Tone ABS Boxes

A range of plastic boxes featuring clip together design and runners for PCBs. Clip on plastic end caps finish each box, producing a quality enclosure ideal for circuitry, remote control applications and electronic equipment. Available in 5 sizes.

Box Code	Dimensions	Order Code
DB1	25 x 53 x 103	BN51F

BN55K	Clip Case Size 5	£9.350	£10.990

### Plastic Project Boxes

Two-tone grey plastic project boxes in three different sizes. Each box has PCB mounting pillars with M3 brass inserts on the base. The lid and base are held together using four M3 screws for the smaller sizes,

M4 screws for the large sizes.

Each box has a removable plastic panel at each end which can be entirely removed to make a window for displays, I/R senders/receivers, or for easy working while drilling holes for cable entry or exit, switches or controls. Tongue and groove joints are used throughout. Both lid and base include raised ribs at the midway position to support the longest sides of a PCB.

### Veroboxes

#### Vero

A range of high quality moulded boxes featuring a tongue and groove construction to ensure a perfect fit.

#### 200 Series

Type 200 boxes are moulded in two-tone grey high impact ABS. Top and bottom sections which include fixing points for circuit boards or chassis plates are held together by four screws entering through the base concealed by plastic feet through which they pass. Anodised aluminium front and rear panels are automatically retained in position when the two halves of the box are screwed together. Moulded guide slots are provided to allow circuit boards to be mounted vertically. On 210 types, the boxes clip together and therefore have no screws, though four self-adhesive feet are provided. Type 217 is different in that the front panel is fixed with four screws and vertical guide slots are not provided.

#### 300 Series

These boxes are moulded in high impact ABS and are supplied with lid and four self-tapping screws. All types are black.

#### 401 Box

This box is moulded in white high impact ABS. It is designed as a hand-held plastic control box and will find many applications including model control, car racing controllers, ultrasonic controllers etc.

#### 601 Box

A sloping front box with hinged snap-shut lid. Moulded in black matt finish polypropylene. A clear anodised aluminium alloy front panel is supplied which clips into box. Pillars are moulded into base and a PCB may be mounted on these using self-tapping screws (supplied). A flat area is located at the back of the box, designed for mounting sockets etc.

## Veronex EMC Cases

Vero

- ★ Durable Cu/Si EMC coating
- ★ UL94-V0 durable ABS
- ★ Good attenuation characteristics
- ★ Oxidation and corrosion resistance

The tongue and groove joint design and end panel retention method ensures good EMC performance from this stylish range of cases. The mouldings have been coated with copper/silver paint which is resistant to atmospheric oxidation and corrosion.

## Plastic LAN Housings

These two-tone grey plastic enclosures are purpose built for local area networks. Each kit includes top and bottom covers, removable front and rear panels, assembly screws, rubber feet and instructions. Available in medium and small sizes measuring 129 x 129 x 38mm and 108 x 205 x 38mm respectively.

Retail Unit Price each (inc. VAT).

## Modem/Test Instrument Case

A compact plastic housing ideally designed for use as a modem or test equipment enclosure. With overall dimensions of 241 x 161 x 35mm, relatively large PCBs can be installed with enough back and front panel space for most types of connection, switch and indicator arrays. Supplied in two-tone durable plastic.

Retail Unit Price each (inc. VAT).

## Two Part ABS Plastic Boxes

Two boxes are available, the smaller has a mottled black finish including the front and back panels. The larger box has the top and bottom parts in a light grey mottled finish and the front and back panels in a black mottled finish. The top and bottom sections are held together by two screws. Both boxes have slotted sections inside to accept PCBs etc., and numerous mounting pillars for fixing boards in place. It is possible to have a combination of vertical and horizontally mounted boards. The larger box has ventilation slots along the edges of the top and bottom sections, the bottom section also has a circular slotted area that would be suitable for a small loudspeaker.

### Dimensions:

Type	Internal	External
Small	197 x 145 x 55mm	203 x 158 x 65mm

## ABS Instrument Cases

West Hyde

A range of low-cost, two-piece, cases moulded in textured, black ABS, with aluminium front and rear panels. Each half has bosses to support a PCB or chassis, together with slots for vertical boards. The aluminium panels are 1mm thick and have a silver-grey lacquered finish. When assembled, no screw heads are visible.

## Instrument Cases

Boss

A range of instrument cases with built-in fixing points for various size Eurocards. The boxes have pre-punched metal side-chassis supports to which are screwed 1mm thick brushed satin-finish aluminium front and rear panels. Dark grey ABS top and bottom covers screw together around the chassis and front and rear panel assembly ensuring a very stylish and rigid unit.

On the larger unit, tilt legs are supplied which can be fitted to the front or rear of the bottom cover, the rubber feet supplied being used in the alternative positions. Both the rear and base panels have ventilation slots.

## Instrument Cases

A range of rugged plastic instrument cases and boxes for a wide range of applications. AR88V is a V110 shell type plastic box with integral battery compartment, suitable for 9V PP3 type batteries. The front face of the box is blanked with a silver brushed aluminium panel and the box slots together easily and is secured with four screws. Inside the box there is enough space for a PCB approximately 57 x 43mm, with four pillars for fixings. Rubber feet are also provided to prevent scratching of delicate surfaces.

AR89W is a V190 shell type box with integral battery compartment suitable for four AA type cells or two 9V PP3 cells. Slots and mounting pillars are provided for PCB fixing.

AR90X is ideal for applications such as keypads etc. as it has a sloping front and room inside for a PCB (100 x 175mm max.) to be mounted either on pillars or in slots. The height of the box slopes from 32 to 54mm, making keypads easy to operate with one hand.

## ALUMINIUM FRONT PANEL

### Desk Console Style 1

Boss

Glossy black finish boxes moulded in ABS with brass inserts and having a sloping aluminium front panel that sits recessed into the top of the box. The box has guide slots for holding 1.5mm thick PCBs and 3mm high stand-off bosses in the base (for use with self-tappers No. 4). The aluminium front panel is finished in a matt light grey on one side and is 1mm thick. Front panel fixing screws and stick-on feet are supplied.

## Desk Console Style 2

Boss

Glossy black finish boxes moulded in ABS with brass inserts and having an aluminium front panel flat at the rear then sloping down to the front. The box has 3mm high stand-off bosses in the base (for use with No. 4 self-tapping screws). The aluminium front panel is finished in a matt light grey and is 1mm thick. Front panel fixing screws and stick-on feet are supplied.

## Desk Console Style 3

Boss

A three-part construction box moulded in grey ABS with brass inserts, a sloping aluminium front panel and a separate ABS base. The base has 3mm high stand-off bosses for use with No. 4 self-tapping screws and the main part has slotted sides for PCB mounting. The aluminium front panel is finished in a matt light grey and is 1mm thick. Front panel and base fixing screws and four stick-on feet are supplied.

## PCB Guide Adaptor

### Boss

A plastic moulding that can be slid into the PCB guide slots on Desk console style boxes types M1005-6, M6006-7 and M8005-7. The adaptor grips the board horizontally and with one adaptor on each of the four corners of a PCB the whole assembly may be slid into a box. PCBs may be stacked using the adaptor then finally the adaptor cut so that the box lid holds it in place. Adaptors are 52mm long.

Retail Unit Price each (inc. VAT).

## PSU BOXES

### Free Standing PSU Box

A neatly styled black plastic box, moulded in two parts and held together by four screws. The box is primarily intended to house a free standing power supply. Both case parts have ventilation slots to facilitate cooling of transformer/regulator etc. For cable entry grommet use JM16S. External dimensions: 129.5 x 91.5 x 70mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1007	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
YU32K	Free Strding PSU Box	£3.390	£2.880	£2.540	£3.990

### PSU Box

A power supply style case with an attractive rugged appearance, moulded in black ABS. The case will house E154, S35 or S147 size transformers with space for other components. The top and base are held together by four fixing screws (supplied). The inside of the box is moulded to hold the specified transformer and our types YJ50E and WB11M fit quite snugly. Overall dimensions: 117 x 63 x 62mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1008	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
YN38R	Power Supply Case	£1.550	£1.240	£1.040	£1.830

### Small PSU Box with Plug

A moulded plastic case in a matt stone-colour finish designed to house power supplies for low voltage equipment. The case has a plastic earth pin and brass live and neutral pins so that it plugs directly into a 13A socket. An extra moulding is provided to separate the mains and low-voltage parts of the circuit. A shallow recess in the lid is provided for a label. The two parts of the box fit tightly together and two screws are supplied for firm fixing.

External dimensions: 76 x 49 x 43mm.

Retail Unit Price each (inc. VAT).

		1+	25+	100+	
YN18U	Small PSU Box	£1.990	£1.610	£1.410	£2.340

## PSU Box with Plug

### West Hyde

A moulded black plastic case specifically designed to house power supplies for low voltage equipment. The case features a plastic earth pin and brass live and neutral pins to allow the unit to plug directly into a 13A socket. It will accommodate the components of a power supply including the transformer, and safety is assured with the inclusion of a special internal moulding which, as well as retaining the earth pin, separates the mains input from the low voltage output circuitry and transformer laminations. The case is in impact resistant ABS in two screw together sections and incorporates a shallow recess intended for a label. External dimensions: 56.5 x 92 x 62.5mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1700	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FG41U	PSU Box and Plug	£2.850	£2.280	£1.380	£3.360

## PSU Boxes with Plug

A range of three plastic boxes with integral plug pins to suit a 13A 240V AC mains socket. The boxes are intended to house power supplies for low voltage equipment. The matt black plastic case is in two parts which should be glued together after the components have been fitted. The base part houses the plug pins; the earth is plastic and the live and neutral are brass. The live and neutral pins also incorporate plastic shrouds for safety. The top part has a shallow recess provided for a label. Dimensions are given excluding pins, which protrude 23mm from the base.

## GENERAL PURPOSE

### Small Plastic Boxes

Small plastic box available in black or white. Size: 114 x 76 x 38mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LF01B	Box PB1 White	1+ £1.550 25+ £1.120 100+ £0.926	1+ £1.830
LH14Q	Box PB1 Black	1+ £1.550 25+ £1.120 100+ £0.926	1+ £1.830

### Small Narrow Box

This small box conveniently fills the gap between matchbox sized plastic cases and the more 'conventionally' sized hand-held boxes where the

latter may be too unwieldy for certain uses. The moulded black plastic box is 124mm long by 33mm wide by 30mm deep, internal; 120mm long by 30mm wide by 25mm deep. It has a removable lid which forms a good seal, and is secured with four self-tapping screws, supplied. Ideal for small, hand-held probes, miniature circuits or even as a housing for the protection of a block of screw terminals serving as a junction box for a number of cables etc.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FT31J	Small Narrow Box	1+ £0.808 25+ £0.645 100+ £0.530	1+ £0.950

### Probe Box

A small box designed for use as logic probes etc. The black injection moulded box comes in a total of seven parts, comprising left and right shell halves, a top panel, a pair of internal fixing pillars which join both shells together, and a moulded probe boss and fixing grommet. A metal probe is included. The top panel includes a rectangular cutout 17 x 10mm, 33mm from one end, which has recessed edges on the underside into which a piece of coloured display filter or celluloid can be glued. The shell halves have a central hole in each end, 5mm diameter for the probe boss, and 4mm for cable entry. Four countersunk screws are provided for fitting. The box has rounded edges and corners. External dimensions, 130 x 34 x 30mm. Internal, 126 x 26 x 26mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JX57M	Logic Probe Box	1+ £1.720 25+ £1.510 100+ £1.140	1+ £2.030

### Transparent Box

A transparent box manufactured in smoked plastic. The two halves of the box slide together and guides are provided to hold a PCB in place. There is sufficient room for a 9V PP3 type battery. Additionally the two halves may be cut-down lengthways to make the box shorter. Ideal for hand held devices such as infra-red remote controls and other similar projects.

External Dimensions (mm)  
141.5 x 57 x 23.5

Retail Unit Price each (inc. VAT).

YU94C	Transparent Box	1+ £5.020 10+ £4.680 25+ £4.310	1+ £5.910

### Panel Mounted DIN Cases

Bowthorpe

A range of glass fibre reinforced black plastic cases that have excellent mechanical and electrical properties. The cases are moulded in one piece and have a rear matching black panel that is secured by four M2 screws. The front of the case has a removable bezel that can be used to hold in place a red filter screen, which is supplied with the kit. Alternatively an aluminium panel can be used (supplied with kit) which is held in place by four M2 screws. Internally the cases are lined with guiding grooves to take PCBs, cards etc. The kit includes two clamps that are attached to the sides of the case, and are used to provide a secure fixture in a panel cut-out.

## METAL ENCLOSURES

### INSTRUMENT CASES

## Aluminium Instrument Cases

A range of superbly finished instrument cases having a two-part construction and including a chassis. The cases have a visor-shaped top with ventilation slots punched in the sides. Top and sides section is finished in glossy grey/blue hammertone and the base, front and rear section is finished in cream gloss. The base is fitted with self-adhesive feet. The chassis which fits into the base of the box is 10mm high.

The following sizes are available (mm)

Model	Width	Depth	Height
235	100	150	100

## Steel Instrument Cases

A very attractive range of superbly finished instrument cases with a 1mm thick galvanised steel base which has ventilation slots and 4 fixing holes for mounting a PCB. The 1mm thick steel cover is powdercoated and baked in an attractive dark grey leatherette polyester finish. There are ventilation slots in the top rear of the cover. A 1mm thick front panel in anodised aluminium is supplied along with a 1mm thick zinc-passivated steel rear panel. A set of screws and 4 self adhesive feet are provided.

The following sizes are available (mm)

## Sloping Front Cases

High quality sloping front all-aluminium construction cases. Top is finished in a matt black stove enamel with a narrow brushed aluminium trim at the front

(which could be lettered with a name for example). Base is finished in a textured light stone colour. The control area slopes at 15° from the horizontal. Self-adhesive feet are supplied. The following sizes are available (mm).

Model	Width	Height		Length	Length Base	
		Rear	Front		of Front	of Top

## Steel Sloping Front Case

A sloping front case with a 1mm thick steel base epoxy painted in dark grey and baked at 190°C. The top part is made in 1mm thick anodised aluminium. The control area slopes at 15° from the horizontal. The box is supplied with aluminium handles and self-adhesive feet. An internal chassis is also available and must be ordered separately. The chassis is 0.8mm thick galvanised steel and supplied with fixing screws.

Dimensions (mm)	
Width	300

## G-Range Cases

Vero

A range of beautifully finished cases featuring a black PVC clad aluminium alloy upright front panel surrounded by a sloping visor. The case top which slides on over the front and rear panels and is fixed by four screws through the feet on the base is 14swg (2mm thick) solid aluminium alloy etched and anodised to give a superb hard glistening silver finish. The front and rear panels are also removable and although the working surfaces, front, rear and base are totally accessible for drilling and component assembly, the fastenings that hold the box together are completely hidden when the box is assembled.

The boxes are available in two sizes:

Overall dimensions (mm)			
Type	Width	Depth	Height
3G	224	176	64

## Steel Instrument Cases with Handles

Very attractive, high quality instrument cases manufactured in 1mm thick sheet steel. The case is made as two half-cases, with ventilation holes punched in each half, then painted in dark grey epoxy and baked at 190°C. The front panel is 1mm thick anodised aluminium and the rear panel is 1mm thick zinc passivated steel. All models are supplied with natural-finish aluminium handles and self-adhesive feet. Chassis are also available and must be ordered separately. They are manufactured in 0.8mm galvanised steel and are supplied with fixing screws.

The following sizes are available (mm).

## Extruded Aluminium Interlocking Boxes

A very versatile range of boxes which can interlock with one another to form racks of separately cased and screened circuits. PCBs slide into grooves inside the boxes and power transistors may be fitted to the special heatsinks and the pcb, and both then slide into the box together in their own slots. The special heatsink then dissipates the heat through the outer box.

Five different size boxes are available and any side on one will interlock with any side on any other size. Accessories available include the slide-in heatsinks in two widths, angle brackets which slide onto the sides of the boxes for permanent fixing, rubber foot in continuous lengths which slides into the grooves in the boxes, and gaskets to make the boxes waterproof.

## Boxes

The CAN style box is available in two lengths 40mm for circuit boards 55 x 40mm and 80mm for circuit boards 55 x 80mm. The CCN style box is available in three lengths, 80mm, 160mm and 220mm, to suit circuit boards 100 x 80mm, 100 x 160mm and 100 x 220mm. Up to 30mm space above circuit board gives room for transformers etc. Supplied in natural aluminium with two end plates and eight self-tapping screws.

Thermal resistance case to air:

CAN40	8.3°C/W
CAN80	6.5°C/W
CCN80	3.7°C/W
CCN160	2.9°C/W
CCN220	2.2°C/W

Retail Unit Price each (inc. VAT).

Order Code	Type 1757	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
YN53H	Box CAN40	£3.720	£3.170	£2.810	£4.380
YN49D	Box CAN80	£4.590	£3.960	£3.540	£5.400
YN50E	Box CCN80	£6.760	£5.770	£5.250	£7.950

YN52G 1	Box CCN220	£13.440	£11.080	£10.080	£15.800

## Mounting Lugs

Extruded aluminium mounting bracket for fixing housings to walls, panels etc. The bracket slides into any external slot on the boxes and is retained by the end plates. Supplied in natural aluminium in two lengths: 40mm and 80mm. A 5.2mm diameter hole is drilled in the middle of one face.

Retail Unit Price each (inc. VAT).

Order Code	Type 1752	Price each exc. VAT			inc. VAT each
		1+	25+	100+

FE37S	Lug 80	£0.689	£0.510	£0.448	£0.810

## Heatsinks

Extruded aluminium heatsink bracket for mounting power semiconductors, including those with T03, T0220 cases (but not high-top T03 types - in our range these are: 2SJ48-50 and 2SK133-135). The heatsink slides into the special receiving slots on the inside of every box. It can be both pcb mounted and in thermal contact with the box if correctly mounted. Heatsink is drilled to suit T03 case. Fix transistor with mounting kit and 6BA bolts. Supplied in natural aluminium in two lengths: 20mm and 40mm (note 20mm is not wide enough to seat whole T03 transistor).

Retail Unit Price each (inc. VAT).

**Wallbox**

A large, plain undrilled case, measuring 250mm square by 100mm deep. The flanged lid is hinged along the length of one side, and is secured in the closed position by two 2BA round-head screws, not supplied. Although primarily intended to be mounted on a wall, the case may find applications in many other areas where a tough, durable enclosure is required, but it is not really suitable for use outdoors. The case is finished in grey enamel.

- ★ Ventilated or unventilated versions
- ★ Part assembled
- ★ Styled handle design
- ★ Steel construction with durable paint finish
- ★ Clear anodised front panels

These cases offer a flexible approach to 19in. mounting solutions. A choice of vented or unvented top covers, with only two cover release screws allows easy access and cooling capability. The ergonomically designed handles fitted to clear anodised front panels ensures a stylish finish to the units. The top covers and handles are available separately.

**Standard Rack Mounting Instrument Cases**

A range of high quality rack mounting cases, fabricated mild steel and finished in a hard wearing semi-matt black epoxy coating. The base plate is punched with a matrix of holes for securing PCBs, transformers etc, and the top cover is provided with ventilation slots to assist cooling. The black anodised aluminium front panel has two handles and there are four holes punched to facilitate fixing the case in a rack. The cases are supplied flat packed and are easy to assemble.

Available in 1U, 2U, 3U and 4U standard sizes.

**Standard Rack Style Instrument Cases**

A range of high quality heavy-duty instrument cases for mounting in 483mm (19in.) equipment racks, with fixing slots pre-punched in the ends of the front panel. The case is manufactured from 1mm thick sheet steel painted with high grade black epoxy and baked at 190°C. Ventilation holes are punched in the front and rear of the top and base panels. The front panel is 3mm thick anodised aluminium to which natural-finish aluminium handles are fitted. A 1mm thick galvanised steel sub-panel is fitted approx. 9mm behind the rear of the aluminium front panel to provide extra rigidity, and for fixing front panel components so that fixing-nuts and bushes do not show. The top and base panels can be removed separately for easy access to the interior.

Three sizes available (dimensions in mm).

Type	Width	Depth	Height	Front panel	
				Width	Height

**Standard Rack Mounting Rail**

A 1.5m long, plain steel rail which is punched to accept the mounting 'ears' of standard rack frames.

Rails may be fitted into an enclosure or attached to a frame, producing a free standing assembly which can contain up to eleven 3U racks. The front rails should have the special captive nuts attached for anchoring the front panels at their edges.

Additional adaptor brackets are available which will enable non-standard items to be included in the structure, such as cassette tape decks and similar equipment, or shelves made for these.

Fitting hardware comprising 4 x M6 caged nuts, 4 x M6 x 12mm zinc plated pan-head slotted bolts, and 4 x nylon safety washers, are also required for fitting 483mm (19in.) style cases.

Retail Unit Price each (inc. VAT).

## EUROCARD SUB-RACK SYSTEMS (DIN 41494)

### VERO KM6EC SYSTEM

#### KM6EC Cardframes

- ★ EMC conversion
- ★ Lightweight accurate assembly
- ★ Backplane or DIN41612 mounting

This lightweight range of IEC297-3 cardframes provides an economic solution for backplane or DIN 41612 connector mounting. Options include EMC conversion with the addition of top and bottom covers, and copper fingers fitted to the conductively finished frame.

#### Specification

Type	L x W x H mm	Part No.	Order Code

#### KM6EC Front Panels

VERO

- ★ IEC 297-3 and DIN 41494 compatible
- ★ Includes handle and idents (not on 84bp type)
- ★ Horizontal grain and plastic screw retainer
- ★ Conductive edges

These 3U front panels are available in a number of widths and can be mixed within the 84bp aperture, for blanking or PCB retention (see accessories).

## KM6EC Accessories

VERO

- ★ 84bp tapped and insulation strips
- ★ EMC conversion kits and closing angles
- ★ PCB mounting brackets

These accessories allow a very flexible approach to cardframe packaging solutions. Insulating strips can be used in conjunction with the backplane cardframes and tapped strips are required to retain the front panels. EMC conversion kits and EMC copper fingers offer high levels of attenuation when used with the EMC front panel and rear closing panel.

Description	Part No.	Order Code

## FRAMES & ENCLOSURES

### Eurocard Sub-Rack Systems (Din 41494)

A very high quality modular sub-rack system (conforming to DIN 41494) for housing Eurocard modules and cards. The user can tailor the layout of the sub-rack to suit a particular application. As well as the sub-rack units themselves, a wide range of accessories are available, including mounting plates for DIN 41612 connectors.

### Sub-Rack Frames & Enclosures

A range of standard 483mm (19in.), 84E, 3U/single height eurocard sub-racks. All three types are modular and are constructed from anodised aluminium panels and extrusion. A wide range of accessories, such as guide rails, handles, plates,

covers, etc. are available separately. The basic version is a 'skeleton sub-rack', which has four horizontal fixing bars, two side plates and standard rack mounting 'ears'. The 'free standing sub-rack' is as the 'skeleton sub-rack', but also has two rear panel fixing bars, two extra mounting 'ears' and two carrying handle/end cheeks.

The 'enclosed sub-rack' is as the 'free standing sub-rack', but also has top and bottom panels. These panels are punched to assist ventilation.

Type	Dimensions (mm):
Skeleton Sub-rack	483 x 132 x 237
Free Standing Sub-rack	486 x 136 x 243
Enclosed Sub-rack	486 x 136 x 243

Sub-racks are supplied flat packed and assembly fixings are supplied.

Retail Unit Price each (inc. VAT).

Order Code	Type 17304	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
XM74R	2 19in Skeleton Rack	£24.290	£22.790	£20.910	£26.550
XM76H	3 19in Free Std Rack	£34.710	£30.690	£29.080	£40.790
XM75S	5 19in Enclosed Rack	£63.360	£57.170	£55.140	£74.450

## Sub-rack Accessories

The following sub-rack accessories are available, as indicated in the exploded drawings.

#### Item

1. Horizontal Mounting Rail, 84E/17 inch extruded anodised aluminium, punched with 84 holes, for use as an extra mounting rail, to allow extra panels, etc, to be fitted to the sub-rack.
2. Connector Mounting Plate, 84E/17 inch punched anodised aluminium plate, for mounting DIN 41612 connectors on horizontal support rails. Two are required.

3. Case Handles, manufactured from silver/grey ABS plastic, these handles, which may be fitted to

the sub-rack mounting 'ears', provide a convenient way to lift the sub-rack or remove it from an enclosure. Supplied in pairs with fixing screws.

4. Front Panel 4E (20-3mm) wide x 3U high anodised aluminium panel.

5. Front Panel 5E (25-4mm) wide x 3U high anodised aluminium panel.

6. Front Panel 10E (50-8mm) wide x 3U high anodised aluminium panel.

13..Plastic Fixing Attachment, fixing bracket for attaching eurocards to front panels.

14. Panel Locking Posts, metal locking posts for use with front panels as a quick release panel fixing. Post is fitted to panel and engages with a slot in the horizontal mounting rail, the outer collar is then tightened to secure the panel. Supplied in pairs. One pair required for 4E and 5E panels, two pairs required for 10E and 20E panels.

7. Front Panel 20E (102mm) wide x 3U high anodised aluminium panel.

8. Front/Rear Panel 84E (432mm) wide x 3U high anodised aluminium panel.  
9. M3 Square Nut, zinc coated square nut tapped to accept M3 bolts, intended to fit the aperture in horizontal mounting rail. Supplied in packs of 100.

10. Eurocard Guide Rail, black plastic eurocard guide rails which clip into the assembled sub-rack. Sub-racks are supplied without guides, therefore must be ordered separately. Guides are supplied in pairs.

11. Threaded Panel Mounting Rail, 84E/432mm steel rail with 84 holes tapped to accept M3 bolts, may be used in place of individual M3 square nuts. Panel mounting rail slides into the aperture on horizontal mounting rail.

12. Metal Fixing Attachment, fixing bracket for attaching eurocards to front panels. Supplied in pairs.

15. Sub-rack Tilt Leg, plastic folding leg (front) and rubber foot (rear). Intended for use with enclosed sub-rack to ensure good airflow through sub-rack and to allow front of sub-rack to be tilted upward at a convenient angle. Two required per sub-rack.

## Conduit Racking

Plastic slotted conduit which is useful for forming wiring around rack type applications quickly and easily without the prolific use of cable ties. Each cable slot is approximately 8mm wide and 36mm deep (60mm depth conduit). As supplied the conduit can be used with cables up to 8mm in diameter. Larger cables may be accommodated by snapping

out sections of the conduit. The conduit has additional slots in the base of the channel for fixing purposes. Fixing slots are two sizes: Large slots – 6mm x 14mm; Small slots – 4mm x 8mm approx. Available in two sizes: 25 x 60mm and 25 x 30mm. Sold in 2m lengths.

We endeavour to hold stocks at all Maplin and Maplin Mondo stores, but to be sure, please phone before travelling. See front of catalogue for addresses and telephone numbers

## Heavy-Duty Strap Handle with Recess Plate

Cliff

This is a high quality all-plastic assembly designed for use on all types of portable instrumentation. The design and materials give a breaking strength above 200kg. Fixing is by four woodscrews or suitable nuts and bolts. The recess plate permits flush mounting so cabinets can be stacked. Supplied in black matt only. Fits recess size 210 x 85mm, 15mm deep. Overall size is 250 x 110mm. Comes as four pieces, screws are not supplied.

Retail Unit Price each (inc. VAT).

Order Code	Type 1872	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
BK29G	HD Strap + Recess	£4.500	£3.650	£3.100	£5.290

**Carrying Handle**

Strap-type carrying handle, with chrome end pieces and fixing bolts and black plastic handle. Overall length with handle fully retracted 165mm approx.

Retail Unit Price each (inc. VAT).

Order Code	Type 1875	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FW81C	Handle	£1.690	£1.260	£1.120	£1.950

**Heavy-Duty Strap Handle**

A heavy duty strap-type flexible carrying handle. Moulded in a smart, ribbed black flexible plastic with an internal steel reinforcement strip. The end pieces are moulded in a tough black plastic and each should be fixed with two 5mm diameter countersunk screws or bolts. Rectangular snap-in covers are supplied to hide the screw heads for a nice clean appearance. Provided that the fixing method chosen - taking care to select suitably large wood screws or nuts and washers as appropriate - is adequate, the handle will lift up to 15kg. Overall length when fitted, 280mm. Overall width 30.3mm.

**Large Cabinet Handle**

Cliff

A heavy duty bar handle, which is designed for use on large, heavy, wood or metal cabinets. It comprises a front and back-plate which are snapped together prior to fixing into the cabinet. The mounting flange is provided with a moulded sealing rib which will give a reasonable airtight seal on cloth or plastic covered cabinets. If a watertight seal is required, then a sealing compound should be used under the flange. A moulded recess in the bar can accept a name plate or trade logo. Overall size 210 x 165mm. Cut-out 164 x 122mm. Depth 50mm maximum. Nameplate 73 x 16mm approx., and 1.5mm deep. Manufacturer's Code CH-2

**FANS**

**PAPST FANS & ACCESSORIES**

**Equipment Fans**

Papst

A range of high quality axial fans that are available in both AC and DC versions. The DC versions have a fibreglass reinforced plastic housing with a plastic impeller and are equipped with a precision ball-bearing system for higher ambient temperature operation and a long service life. The motor has an electronically commutated external rotor with electronic protection against blocking and reverse polarity. The AC versions are of all-metal construction for proven strength and durability. Aluminium alloy is used for the external housing. All metal surfaces, that may be subjected to corrosion, are permanently protected by electrophorescent baked enamel that is impervious to impact and abrasion. The shaded-pole motor, with external rotor, is fitted with either precision ball-bearings or a sleeve type bearing. The sleeve type is very insensitive to vibrational and shock loading, and features sintered metal bearings for quiet operation and a long service life.

For all models, air exhaust is over the struts, rotational direction is clockwise looking at the rotor. The fans have CSA, UL, and VDE approvals. A range of suitable finger guards are also available.

## Thermal Controller Module PCM 001

The thermal controller module continuously monitors temperature and provides speed control for 12V or 24V DC fans and blowers, resulting in lower noise and power savings. The unit can service several fans, in fact up to six where the distribution control module is also used. Up to 15W of power can be distributed by this unit. Temperature sensing is a remote thermistor on a twin core wire lead, attached to the controller by screw terminals, as are the power input and fan output connections. The controller is extremely small and measures only 65 x 30 x 17mm. Fixing is by 2 x M3 holes 57mm apart at the end flanges.

There are two possible operating temperature ranges of 20 to 40°C, and 35 to 55°C, and this is chosen by connecting the sensor leads to the appropriate terminals on the controller module. The controller module will have a wire link between terminals 3 and 4, which is only necessary for one of the two ranges:

### Range 1 – 20 to 40°C

Remove wire link from between terminals 3 and 4, and connect sensor leads between terminals 2 and 4.

### Range 2 – 35 to 55°C

Leave link between terminals 3 and 4, and connect sensor between 1 and 4.

Fan speed will be regulated over the chosen range to obtain the airflow required to keep temperature near or below the minimum end of the range. The fan will run at half speed at or below the minimum temperature setting and at full speed at or above the maximum, the speed will increase and decrease in a linear fashion between the two settings. Please note: Thermistor CR05F will also be required.

## Noise Reduction Kit For Computer PSUs

A noise reduction kit which uses a PCM 001 thermal controller, with 12V power lead terminated in a 2-pin PCB plug, remote thermistor assembly with lead, miniature 60mm 12V DC fan and sundry fittings (tie-wraps and tie-bases) to replace the existing power supply unit fan in a computer's PSU module. Once fitted, the system will reduce fan noise by maintaining a fan speed to that only necessary to remove the heat generated in the case. Fitting instructions are supplied for installation in Amstrad 2286 and 2386 machines. Ideal for the home or office environment where fan noise can be annoying.

**230V Mains**

A 230V ac mains axial fan for cooling, extraction, intake, ventilation etc. Available in two standard sizes 80mm (3in.) and 120mm (4 1/2in.). The fans feature an impedance protected shaded-pole motor with a sintered iron sleeve bearing. The frame is diecast aluminium with steel impeller all finished in black epoxy paint. The 120mm unit has five blades and the 80mm has nine blades. The 120mm fan has solder tag connections and one fixing hole is 2BA (M5) clear for earth connection. The 80mm fan has 280mm flying leads for connection inside equipment only, and a hole in the chassis is tapped M4 for earth connection.

## IP Ratings

FIRST NUMBER Protection against solid objects	SECOND NUMBER Protection against liquids	THIRD NUMBER Protection against mechanical shock
0 No Protection	0 No Protection	0 No Protection
1 Protected against solid objects over 50 mm, eg accidental touch by hands	1 Protected against vertically falling drops of water	1 Impact 0.225 joule
2 Protected against solid objects over 12mm , eg fingers	2 Protected against direct sprays of water up to 15° from the vertical	2 Impact 0.375 joule
3 Protected against solid objects over 2.5mm (tools + wires)	3 Protected against sprays 60° from the vertical	3 Impact 0.50 joule
4 Protected against solid objects over 1mm (tools + small wires)	4 Protected against water sprayed from all directions - limited ingress permitted	5 Impact 2.00 joules
5 Protected against dust - limited ingress (no harmful deposit) permitted	5 Protected against low pressure jets of water from all directions -	7 Impact 6.00 joules
6 Totally protected against dust	6 Protected against strong jets of water, eg for use on shipdecks - limited ingress permitted	9 Impact 20.000 joules
	7 Protected against the effects of immersion between 15cm and 1m	<b>Note;</b> The third digit is not specified by the British Standards Institute but is used by some International Standards to indicate resistance to impact
	8 Protected against long periods of immersion under pressure

## Filters, Suppression & EMC Products

### Mains Protection

#### 13A Pulse Protector

Bowthorpe

These single way 13A surge protectors are ideal for use with electrical and electronic equipment that is now being supplied fitted with moulded plugs. When plugged into a standard socket the units will provide protection against transients on the mains electrical supply thus preventing electronic equipment from malfunctioning. PP1 is fitted with a multipurpose neon that verifies that the protection unit is intact, power is 'ON' and operation is normal, and that vital earth connection is present.

In the rare event of a high energy strike destroying the internal surge protection, Model PP1 will disconnect power to the associated equipment. Should the light go out, the unit must be replaced to restore power and full protection. This model is ideal for non-essential equipment such as computer games, TVs, VCRs, photocopiers, test equipment, electronic scales, etc.

Model PP3 has an audible alarm to announce when the unit needs replacing, when the internal surge protection is overloaded due to severe surge. In such an event, the unit must be replaced to restore surge protection. However, power to the associated equipment will continue WITHOUT surge protection. The unit is ideal for business computers, telephone exchanges, fax machines, modems, or any equipment that must be continually powered. In both models, the internal three mode surge/spike suppressors, have a response time of less than 10ns with a maximum surge rating of 4-5kA. Both models commence clamping below 600V, are noise free in operation and automatically reset after a transient has passed. Incoming and outgoing surges are dissipated so 'no fault found' service calls are reduced and equipment performance improved.

Protection: L-N, L-E, N-E  
 Voltage rating: 220 to 240V AC 50Hz  
 Maximum current: 13A  
 Maximum current surge handling B/20µs: 4500A  
 Response time: <10ns  
 Thermal fuse: Operates @ 100°C  
 Housing: Flame retardant  
 ABS rating UL94 V-O  
 Plug and socket connections: Conforms to BS1363

#### Spike Protectors

Bowthorpe

Over 80% of unexplainable equipment problems occur as a result of power surges or radio frequency interference. This is the easy way to make sure that your electronic equipment always receives a clean power supply.

The Spike Protector provides you with fully protected outlets with intersocket protection and an earth connector, all encased in a flame retardant housing. The protector comes in three versions - 4 sockets with power switch and filter strip and a choice of 4 sockets or 6 sockets without power switch. All are fitted with a neon lamp that, when lit, indicates that the protection unit is intact and that the supply fuse is not ruptured.

It protects all types of electronic equipment - including computers and modems, fax machines, electronic cash registers and EPOS systems, medical equipment, and telephone exchanges - from power surges and RFI noise from sources such as lightning, fluorescent lights, vacuum cleaners, lifts, power tools, etc. The spike protector is supplied with 2m of cable and a fitted 13A fused plug. It meets BS6651 1992 Appendix C and allows the user to comply with BS6396 by fitting a 7A fuse.

**Specification**  
 Working voltage: 230V AC  
 Max current: 13A (13A fuse fitted)  
 Max surge current handling: 6500A  
 RFI average attenuation (BJ84F only): -50dB (1 to 30MHz)

Retail Unit Price each (inc. VAT).

		1+	5+	10+	1+
CH65V	Multi M Surge Prot	£68.070	£65.000	£62.500	£79.990

#### 4 Way Surge Protected Extension Lead

A 4 way distribution board fitted with 2m of cable and a 13A mains plug. This unit is fitted with anti surge protection designed to safeguard sensitive electrical equipment such as computers, Hi-Fi equipment, etc. For added protection this unit has thermal fusing.

Caution: The protection circuit includes double pole/neutral fusing which makes this product unsuitable for use in some rural areas where the supply has an earthed neutral conductor (PEN). If in doubt, please consult your local electricity supplier.

Retail Unit Price each (inc. VAT).

#### PCB Mounting Mains Filters

Bulgin

PCB mounting mains filter modules containing mains inlet filters which incorporate an interference filter for the exclusion of unwanted noise from the mains supply or to prevent equipment introducing noise spikes into the mains circuit. The combined capacitive and inductive filter is sealed for board washing and includes the Earth connection together with the Line and Neutral to cover all possible interference sources.

Overall Dimensions 40.0 x 35.0 x 20mm high  
 Working Voltage 250VAC  
 Current Rating 1A and 6A  
 UL, CSA, VDE & SEMKO approved.

## Vertical Snap Fit Switched & Fused Mains Inlet Filter

Bulgin

Vertical snap fit panel mounting Euro style RF filtered mains inlets, available with built in fuseholder and choice of single or double pole switch. Each item is individually terminated giving flexibility of interconnection by 6.3 mm solder tags. Rated current 6A. Fuseholder accepts 20 x 5mm fuse UL, CSA & VDE approved.

## Connectors

### Filtered D Subminiature Solder Bucket Connectors

A filtered range of solder bucket termination 'D' subminiature connectors, incorporating turned contacts, bright tin finish and grounding indents to guarantee full shielding integrity for protection against RF/EMI. Signal filtration is achieved via a 1nF capacitor from each contact to ground. Feed-through technology in the capacitor elements enhances rejection levels in the VHF and UHF bands. Fully potted construction ensures maximum resistance to hazardous environments. Interchangeable with all 'D' subminiature connectors of comparable pin count and complying dimensionally with BS 9523, MIL-C-24308 or HE 501.

Mating cycles: 250  
Wire accommodation: ≤0.5mm (20AWG)  
Contact material: Copper alloy  
Current rating: 5A  
Working voltage: 200V DC or AC peak  
Contact resistance: 5 x 103Ω max  
Insulation resistance: ≥5 x 104Ω  
Insulation Material: High impact epoxy and GF polyester

## Probe Kit

### EMI Sniffer Probe Kit

The kit comes with two probes; one detects the electric component of an electro-magnetic field, ScanEM-E, the second, ScanEM-H, reacts to the magnetic component. The ScanEM can pin-point the exact source of the offending radiation differentiating between electric and magnetic components. These two near-field probes only provide relative measurements. The LEDs on the probes are spaced 1dB (on dBV scale) apart. This gives a window of 5dB that moves up and down with the level dial. The ScanEM-E has a total voltage range of 5mV/m to 500mV/m while with ScanEM-H it is more complex and frequency dependent.

#### Specification

	ScanEM-E	ScanEM-H
Field:	Electric	Magnetic
Frequency Range:	10MHz to 1GHz	100kHz to 100MHz

## Metallised Class X2 Film

Arcotronics

A metallised film PETP (polyethylene terephthalate) and impregnated paper dual dielectric moulded in flame-retardant polypropylene. The capacitors are designed to suppress electrical interference from domestic appliances and should be connected directly across the mains (class X2). Approved to EN132 400 with IMQ approval (275V AC). Fully approved to UL1414, UL1283 and CSA C22.2 No.1 (250V AC).

The following values are available:

Value ( $\mu\text{F}$ )	Length (mm)	Height (mm)	Thickness (mm)	Voltage (V)

## Class Y Suppression - Metallised Polypropylene

A range of Class Y metallised polypropylene film capacitors for 275V AC, and housed in a thermoplastic self-extinguishing case to UL94, class V-0. Approved to VDS, SEMKO, OVE, NEMKO, DEMKO, FI, UL, CSA, EN132400 (pending).

**Specification**  
 Tolerance:  $\pm 20\%$   
 Temperature range: -25°C to +85°C  
 Test voltage: 2700V for 2 seconds  
 Insulation resistance: 15,000M $\Omega$  @ 20°C 100V DC

Value	Dimensions L x H x W mm	Pitch mm	Order Code
1000pF	13 x 9.5 x 4.3	10	JA93B

## Metallised Polypropylene

ICW

A high quality metallised polypropylene capacitor for use at very high continuous AC or DC voltages. They meet the requirements of BS2135 for Class X or Class Y use at 250V AC mains.

Tolerance:  $\pm 10\%$  (K)  
 Working voltage: 1000V DC, 500V AC  
 Power factor:  $< 1.5 \times 10^{-3}$  at 1kHz  
 Pulse rating: 0-1 $\mu\text{F}$  and 0-22 $\mu\text{F}$  70V/ $\Omega\text{s}$  max  
 0-47 $\mu\text{F}$  and 1 $\mu\text{F}$  40V/ $\Omega\text{s}$  max

The following values are available:

Value	Length (mm)	Dia. max (mm)
0-1 $\mu\text{F}$	28	15
0-22 $\mu\text{F}$	28	18
0-47 $\mu\text{F}$	45	19
1 $\mu\text{F}$	45	28

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 382	Price each exc. VAT			inc. VAT each

FA24B	HV Cap 1 $\mu\text{F}$	£3.475	£3.159	£2.673	£5.388

## Motor Suppressor

For radio suppression of small electric motors and domestic appliances. 250V AC. Connect as close as possible to the source of interference. 100nF + 4.7nF + 4.7nF.

Retail Unit Price each (inc. VAT).

Order Code	Type 501	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HW07H	Delta Cap	£1.320	£0.796	£0.663	£1.560

## Contact Suppressor

A 120Ω resistor (±30% tolerance) and 0.1μF (±20% tolerance) capacitor connected in series. Connect directly across switch or relay contacts etc. to suppress interference when switching reactive loads. Also useful as a snubber network in SCR and triac protection. Max voltage 250V AC.

Retail Unit Price each (inc. VAT).

Order Code	Type 496	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
YR90X	R-C Network	£2.560	£2.140	£1.790	£3.010

## Transient Suppressors

These devices are simply connected directly across the power supply. They have a very high resistance up to the  $V_m$  voltage shown in the table below and therefore usually may be ignored, but the moment a transient spike appears on the supply line which exceeds  $V_m$ , the impedance of the device drops immediately to a very low level while it dissipates the unwanted energy. Choose the suppressor to have a  $V_m$  voltage equal to or above the voltage of the power supply it is to be connected across. For example, Suppressor 5-5V DC is ideal for 5V logic power supplies, while both Suppressor 250V AC and Suppressor 275V AC can be connected directly across the UK mains supply.

Type	Device marking	Continuous voltage (max)	Peak current*	Clamping voltage*
		$V_m$ AC	$V_m$ DC	
5-5V DC	0821	4V	5-5V	100A
14V DC	1821	10V	14V	250A
18V DC	2221	14V	18V	250A
22V DC	2721	17V	22V	250A
26V DC	3321	20V	26V	250A
31V DC	3921	25V	31V	250A
38V DC	4721	30V	38V	250A
56V DC	6822	40V	56V	250A
130V AC	1305	130V	175V	2500A
250V AC	250L	250V	330V	2500A
275V AC	275L	275V	369V	2500A

DC types: Average power dissipation 0-25W max  
Diameter 8-25mm ±0.75mm  
Lead pitch 4-5mm ±1.5mm

AC types: Average power dissipation 0-4W max  
Diameter 11-25mm ±1.25mm  
Lead pitch 7-5mm ±1mm

Please note that the use of DC and AC in the description is simply an indication of its most likely use. All types can be used equally in AC or DC circuits up to the  $V_m$  stated.

\* Current ratings are for a typical transient pulse where peak current is reached in 8μs and the pulse has decayed to 50% of its peak value after a further 12μs. It is a standard method of rating these devices and is usually described as an 8/20μs current wave rating.

For voltage transient suppressors with low clamping voltages, and near instantaneous response times see Table 21 in Semiconductors Section.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## Chokes

### RF Suppressor Chokes

Designed for use at 250V AC these small heavy current rf chokes are ideal for the suppression of motor-driven appliances and in input circuits of power units. Inductance is approximately 6μH. PVC sleeve is colour coded. Three types are available.

Rating	Length	Diameter	Colour code
1 Amp	15mm	5.1mm	White
2 Amp	19mm	5.1mm	Yellow
3 Amp	23mm	7.6mm	Black

Retail Unit Price each (inc. VAT).

## Bobbin Type Inductors

Newport Components

These inductors use a novel bobbin core manufactured from a material with a high saturation flux density. The high current capability makes these devices suitable for power-line applications, and they are ideal for use in switching regulators and filters. They have low temperature dependence and can be used at high currents. Each component is finished with a flame retardant heat shrink sleeve. For additional mechanical stability, these inductors may be mounted using an M4 non-magnetic bolt (e.g. nylon).

Type	A (mm)	B (mm)
14-104-54	24	14.5
14-224-35	24	14.5

AH23A	14-334-28	£2.800	£1.920	£1.600	£3.300

## High Current Toroids

High current chokes wound on toroids designed primarily for use in switched mode power supplies. Two types are available:  
Inductance: 150μH. Max current: 5A intermittent, 3A continuous.  
Inductance: 300μH. Max current: 8A intermittent, 5A continuous.

Retail Unit Price each (inc. VAT).

Order Code	Type 3631	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JL72P	5A 150μH Choke	£3.550	£2.780	£2.310	£4.180
JL73Q	8A 300μH Choke	£5.940	£4.420	£3.680	£6.980

## High Current Toroidal Inductors

Newport Components

A range of high current vertically mounted toroidal inductors, designed for use in switching power supply and power line filtering circuits. Suitable for any application requiring high current handling with minimal EMI emissions.

The inductors are mounted on a plastic base having UL94-V0 rating and secured by a cable tie.

Type	Inductance (@ 1kHz) (μH ±10%)	DC Resistance (mΩ max.)	DC Current (Continuous) (A max.)

## Ferrites

### EMC/RF Ferrite Kit

A kit comprising a selection of the cable EMI suppressors, toroidal cores, bead cores, anti-parasitic beads and wide band choke cores described in this section. Housed in a transparent component box, and offering a considerable saving compared to individual prices.

Order Code	Quantity	Type
AN83E	1	Component Box
AF92A	2	Flat Cable Suppressor 25.4mm
AG94C	2	Flat Cable Suppressor 33.5mm

## FX4054 Ferrite Toroid

A general purpose nylon coated toroid made from 3E2 grade high permeability manganese-zinc ferrite material; suitable for use in a wide range of applications, including interference suppression, inductors, transformers, etc.

## Mechanical Specification

Inside diameter:	13.4mm
Outside diameter:	23.6mm
Thickness:	7.6mm

## Magnetic Specification

Initial inductance factor:	3472nH
Residual plus eddy loss factor:	<15 x 10 <sup>-6</sup>
Curie point:	>130°C
Effective length of magnetic path:	57.0mm
Core factor:	1.81mm <sup>-1</sup>
Effective volume of core:	1790mm <sup>3</sup>
Effective area of core:	31.5mm <sup>2</sup>
$\mu_{tor}$ at +25 to +70°C:	>5000

Retail Unit Price each (inc. VAT).

JR84F	FX 4054	1+ 25+ 100+ £2.050 £1.290 £0.970	1+ £2.420

## Ferrite EMC Filters

### Cure Radio Interference

One of the easiest ways of curing interference is with these special ferrite rings selected for the purpose. Simply wind a few turns of any hi-fi lead, TV down lead, or mains lead, around the ring. Interfering radio signals are then prevented from travelling into the equipment. As supplied by

us to BBC, DTI and TV rental companies etc.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
AM35Q	Ferrite Filter	1+ 10+ 25+ £2.540 £2.490 £2.290	1+ £2.990

## EMI Suppressor For Flat Cables

A coice of two EMI ferrite suppressors for flat cables, designed to have a practical frequency range of 100kHz to 2MHz. The suppressor comes in two halves which are clamp round the cable by two supplied spring clips

AF92A is for 25.4mm flat cables  
AG94C is for 33.5mm flat cables

### Dimensions

	AF92A	AG94C
Cores	38 x 25.4 x 6.35mm	45 x 28.5 x 6.35mm

## FIXINGS

### NUTS & BOLTS

#### SCREW SIZES

The size of a metric screw is defined by the numbers M5, M4, M3, M2.5 etc, where the number after the M is the overall diameter of the thread in mm., and by the length in mm.  
 6mm = 1/4in. approx, 9mm = 3/8in. approx,  
 12mm = 1/2in. approx and 40mm = 1 1/2in. approx.  
 For comparison the overall diameter of the thread in BA sizes is as follows:  
 8BA = 2.25mm, 6BA = 2.85mm,  
 4BA = 3.68mm, 2BA = 4.78mm,  
 0BA = 6.12mm.  
 In No. screws:  
 No.8 = 4-25mm, No.6 = 3-6mm,  
 No.4 = 3mm, No.2 = 2-25mm.

#### Countersunk Head Metric Steel Bolts

Zinc plated steel countersunk-head bolts with Pozidrive head available in the following sizes. All sizes in mm. All types in packs of ten.

		1+	25+	100+	
FB88G	Rubber Coupling	£1.460	£1.180	£0.988	£1.720

**Snap Rivets**

Small plastic rivets which may be used as a quick and cheap alternative to screws and nuts for holding together panels, pcbs onto brackets and chassis etc, providing the fixture is reasonably permanent. The rivet comes in two parts, the head and sleeve. The sleeve pushes through holes in the items to be attached, and the pin is pushed into the sleeve. The insertion of the pin makes the sides of

the sleeve splay out, providing a secure grip. Requires 3mm minimum hole diameter. Supplied in packs of ten.

Retail Unit Price each (inc. VAT).

Order Code	Type 1800	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
BK67U	Snap Rivet	£0.774	£0.624	£0.500	£0.910

**Stand-Offs**

A range of plastic snap-in stand-offs which eliminate the need for nuts and bolts when mounting printed circuit boards etc. The bottom snaps permanently into a chassis hole 5mm dia. in any chassis with a thickness 1mm to 2.5mm. The top snaps into a 4mm dia. hole in the circuit board which can be removed and re-fitted as required. These stand-offs provide mechanically secure, insulated mounting, yet boards can be quickly removed. Short and medium types are also available in packs of 40.

Type	Dimension X (mm)	Overall length (mm)

**All Customers**  
No additional freight charges for heavy items

## GROMMETS

### Waterproof Cable Glands

**Gewiss**

A range of four high quality cable glands which offer both mechanical anchorage and environmental sealing. Fixing is by means of a hexagonal nut fitted on the inside of the enclosure. The gland is tightened externally and facilitates cable removal/fitting when the gland is fitted. The two bigger sizes feature a dual-sized gland so that two ranges of cable diameter can be accommodated. (For the larger sizes, the inner gland is removed, but for smaller cables it is left in place.) The body is manufactured from a very tough grey nylon.

**Comparison chart for cable glands**

**All Dimensions in mm:**

Order Code	Panel Cut-out	Max. Panel Thickness	Hex Nut Size
JR76H	15.2	5	19 A/F
JZ40T	20.4	6	24 A/F
JZ41U	28.3	7	32 A/F
JZ42V	37	7	41 A/F

	Cable dia. range	Overall length (before tightening)
JR76H	5 to 8mm	30mm
JZ40T	9 to 12.5mm	40mm
JZ41U	8 to 10mm (S) 17 to 20mm (L)	50mm
JZ42V	13.5mm to 15mm (S) 21 to 26mm (L)	55mm

S-smaller gland within larger gland; L-larger gland only.

## Cable Exit Grommet with Sleeve

A cable exit grommet with protective sleeve, ideal to prevent chafing when cables exit an enclosure. The grommet will accept cables up to 5.1mm diameter. Panel hole diameter 8.7mm, panel thickness 1.6mm. Sleeve length 42.9mm. Supplied in packs of ten.

Retail Unit Price each (inc. VAT).

Order Code	Type 1790	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JX71N	Sv Grommet 5.1mm	£0.953	£0.728	£0.614	£1.120

## Cable Exit Gland with Sleeve

A sealed cable exit gland combined with a coiled strain relief sleeve designed to prevent chafing when cables exit an enclosure. The gland contains a rubber grommet which will accept cables up to 5mm diameter, but this may be removed so that the whole gland will accommodate a 10mm diameter loom. The threaded sleeve part screws into the gland and squeezes a separate plastic collet ring to grip the cable. The gland body has a 12mm long thread and is attached to the enclosure with a nut, and includes a neoprene sealing washer. Requires a panel hole diameter of 15mm (5/8in.). Maximum panel thickness is 4mm. Sleeve length is 50mm. Colour black.

Retail Unit Price each (inc. VAT).

Order Code	Type 1792	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JZ43W	Cable Exit Gland	£0.859	£0.676	£0.572	£1.010

## Cable Exit Grommet Large

A cable exit grommet for use with large diameter cables. The grommet is tapered and should be trimmed to accommodate the cable it is protecting. Suitable for cable diameters 8 to 16mm. Panel hole diameter 20mm, panel thickness 1.8mm. Supplied in packs of ten.

Retail Unit Price each (inc. VAT).

Order Code	Type 1793	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JX70M	Lrg Grommet 8-16mm	£0.953	£0.676	£0.582	£1.120

## Hole Plugs

Moulded nylon plugs which snap-lock with finger pressure into holes in chassis which are to be blanked off. Two sizes are available. Colour: black.

Dimensions in mm:

Type	Fits hole dia.	Head dia.	Overall height	Max chassis thickness
1/4in.	6.35	7.94	7.94	1.57
3/8in.	9.53	11.91	10.32	3.18

Supplied in packs of ten.

Retail Unit Price each (inc. VAT).

### PLASTIC

## Matt Finish Knob For 3mm Spindle

An attractive matt black finish grub screw secured knob with serrated finger-grip sides and a narrow skirt. It is similar in style to the K14 range but is designed to fit 3mm shafts, and makes an excellent replacement for knobs fitted to some types of manufactured equipment. External diameter 12mm max., height 12mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1799	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JZ86T	Knob 3mm Spindle	£0.280	£0.218	£0.188	£0.330

## Low-Height Knob

Small knob with serrated sides and spun aluminium insert with arrow-head pointer. Diameter: 21mm. Height: 13mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1802	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FX99H	Knob RN82	£0.365	£0.297	£0.240	£0.430

## Small Ridged Knobs

Two knobs with white pointer line and a skirt. Sides have narrow raised ridges for a firm grip. Fitted with a spun aluminium insert. KB3 has recess for control fixing nut. KB4: Diameter 20mm. Height 17mm. KB3: Diameter 35mm. Height 22mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1803	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RW87U	Knob KB4	£0.476	£0.396	£0.302	£0.560
RW86T	Knob KB3	£0.561	£0.468	£0.416	£0.660

## Recessed Knob

A knob with a deeply recessed spun aluminium insert marked with a black line. Side is serrated. Knob has a recess for control fixing nut. Diameter 24mm. Height 16mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1805	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FC34M	Knob 41001	£0.485	£0.391	£0.354	£0.570

## Skirted and Unskirted Pair

An identical pair of knobs except that one has a skirt and one has not. Both are fitted with a spun aluminium cap and have serrated sides. They have a recess for control fixing nut. Skirted M2 version has a white indicator spot on the skirt.

M1: Diameter 19mm. Height 16mm.  
M2: Diameter 25mm. Height 16mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1807	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RW88V	Knob M1	£0.655	£0.510	£0.406	£0.770
RW89W	Knob M2	£0.655	£0.510	£0.406	£0.770

## Heavy Duty Pointer Knob

A pointer knob with white line giving a very firm grip for heavy switches etc. Diameter: 27mm. Height: 16mm. Has recess for control fixing nut.

Retail Unit Price each (inc. VAT).

Order Code	Type 1812	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FD76H	Knob HDP	£0.476	£0.344	£0.281	£0.560

## Mirror Finished Pair

cliff

A matching pair of knobs with a mirror-finish chrome insert and white pointer spot on the skirt. Sides are wide ridged and both types have a recess for control fixing nuts.

M3: Diameter 26mm. Height 15mm.  
M4: Diameter 36mm. Height 17mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1809	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
RW90X	Knob M3	£0.510	£0.391	£0.322	£0.600
RX00A	Knob M4	£0.859	£0.708	£0.614	£1.010

## Calibrated and Pointer Pair

A matching pair of knobs with a spun aluminium insert and a wide aluminium skirt. Sides are serrated. Type F11 has a black indicator line on the skirt and type F10 is calibrated 0 to 9-8. Both types have recess for control fixing nut.

Retail Unit Price each (inc. VAT).

Order Code	Type 1818	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
RW78K	Knob F10	£0.859	£0.708	£0.572	£1.010
HB26D	Knob F11	£0.859	£0.708	£0.572	£1.010

## Pointer Knob

Standard pointer knob with white line. Length 32mm. Width (max) 19mm. Height 13mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1809	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
RW75S	Knob BK12	£0.365	£0.292	£0.240	£0.430

## Type A

A matt finish, black knob with white line. Knob will only fit with line at right angles to the length of the pot. Flared sides. Size of base: 20 x 14mm. Size at top: 16 x 8mm.

Height: 13-5mm. Shaft depth: 8mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1847	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
RX22Y	Slide Knob A	£0.280	£0.218	£0.171	£0.330

## Calibrated and Pointer Pair

A matching pair of knobs with a spun aluminium skirt. Sides are serrated. Type PK2 has a black arrowhead on the skirt and type NK2 is numbered 0 to 10 on the skirt. Both types have recess for control fixing nut.

Both types: Diameter 37mm. Height 15mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1810	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
RX01B	Knob NK2	£0.740	£0.624	£0.468	£0.870

**Numbered Skirts and Stator for 15mm Collet Knobs**

Re-An

These plug into the base of the knob, and have on them black numerals set against a clear background. There are two versions available: one is numbered from 1 to 10 (JZ54J); the other 1 to 12 (JZ53H). A stator is also available (JZ55K). This is a black, adhesive-backed disc with one white segment which is fitted to the panel, allowing the figure dial to rotate over it. Thus only one of the numbers on the figure dial stands out clearly against the white segment of the stator whilst the remaining numbers 'disappear' against the black background.

Retail Unit Price each (inc. VAT).

## Low Cost 'Collet' Knobs

Re-An

An attractive black silk-finish plastic knob in a style similar to true collet knobs, but having grub-screw fixing for standard 6-35mm (1/4in.) shaft. The knob has an integral nut-cover, and seven different colour caps are available separately to plug in the top of the knob body. Has recess for control fixing nut.

Diameter: 19mm. Height: 21mm (with cap). Caps are engraved with white indicator line. (White cap has black line.)

Retail Unit Price each (inc. VAT).

## Aluminium Dial

Jackson

Dial incorporates a ball drive type 4511F. Output shaft fits standard 6-3mm (1/4in.) shaft. Unit has an aluminium scale printed 0 to 100 in 180° and a 25-4mm (1in.) solid aluminium diamond knurled knob. Dial diameter: 44mm (1 3/4in.)

Retail Unit Price each (inc. VAT).

Order Code	Type 1856	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
HB45Y	Aluminium Dial	£13.010	£11.710	£10.920	£15.290

## Vernier Dials

Heavy black phenolic base and black printed aluminium scale. Moulded knob has fluted grips and internal parts are phosphor bronze and brass for long life. No backlash, positive logging, 'large' dial can be read to a tenth of each scale division. Planetary slow motion drive. Fits standard 6-3mm (1/4in.) shaft. Scale marked 0 to 100 in 180°. Please note that only the 'large' dial has a true vernier scale.

Type	Dial diameter	Reduction ratio (approx.)
Vernier Dial Small	36mm	6-3:1
Vernier Dial Medium	50mm	7-5:1
Vernier Dial Large	70mm	8-1:1

Retail Unit Price each (inc. VAT).

## MISCELLANEOUS

### Spindle Coupler

Brass spindle coupling. Precision turned from brass rod for extending all types of 6-35mm (1/4in.) spindles. Four flush-fitting grub screws ensure non-slip trouble-free operation. Length 15mm. Outer diameter 9-5mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1855	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RX29G	Spindle Coupler	£2.160	£1.830	£1.510	£2.540

### Extension Spindle

Brass extension spindle that fits all 6-35mm (1/4in.) spindles. Spindle retainer has two 6BA screws and extension spindle is 64mm long x 6-35mm (1/4in.).

Retail Unit Price each (inc. VAT).

Order Code	Type 1854	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RX30H	Ext Spindle	£1.720	£1.530	£1.410	£2.030

### Nylon Rod

6-35mm (1/4in.) dia. rod for extending spindles. Strong and slightly flexible. It is supplied in 152mm (6in.) lengths (nominal).

Retail Unit Price each (inc. VAT).

Order Code	Type 1852	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RX38R	Nylon Rod	£0.510	£0.374	£0.275	£0.600

### Steel Cord Drive

Jackson

A brass bush (panel cut-out 9-53mm.) through which a standard 6-35mm (1/4in.) shaft revolves in a ball race. Spindle extends at rear of bush to allow flywheel to be fitted. Total length: 62mm. Length from front of bush: 36mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1853	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RX46A	Cord Drive Steel	£4.760	£3.910	£3.490	£5.600

## Brass Bush

Jackson

A brass bush (panel cut-out 9-53mm) to support long spindle in front panel or guide spindle fixed in sub-chassis through front panel. Suits standard 6-35mm (1/4in.) spindles. Overall length: 13-5mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1854	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RX31J	Brass Bush	£0.689	£0.552	£0.448	£0.810

## Drive Cord

A nylon covered spunglass-cored drive cord. Non-stretch and non-slip. Diameter: 0-56mm. Breaking strain: 4-54kg Sold per metre.

Retail Unit Price each (inc. VAT).

Order Code	Type 1855	Price each exc. VAT			inc. VAT each
		1+	25+	200+	1+
BL73Q	Drive Cord	£0.161	£0.104	£0.084	£0.190

## Epicyclic Ball Drive Type 4511F

Jackson

A powerful friction drive with a reduction ratio of approx 6:1. Fits standard 6-3mm (1/4in.) shafts and knobs. Two grub screws for fixing shaft. Base of shaft tapped with two 8BA threaded holes for direct fixing of Rotary Pointer. Shaft length: 26-7mm. Overall length: 47mm. Output torque: 1-8kgm.cm. (26oz.in.) to 2-7kgm.cm. (38oz.in.). Input torque: <216gm.cm. (3oz.in.)

Retail Unit Price each (inc. VAT).

		1+	10+	25+	1+
RX42V	Ball Drive	£4.590	£3.910	£3.550	£5.400

## Miniature Type Ball Drive

Jackson

A small friction drive with a reduction ratio of approx. 10:1. Fits standard 6-3mm (1/4in.) shafts and knobs. Two grub screws for fixing shaft. Mounting bracket has two 8BA clearance holes on 20mm centres. Shaft length: 17mm. Overall length: 32-5mm. Output torque: 570gm.cm. (8oz.in.) minimum.

Retail Unit Price each (inc. VAT).

Order Code	Type 1866	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
HB42V	Mini Ball Drive	£3.290	£2.750	£2.500	£3.870

Maplin is opening new stores all the time. Call for latest details

## Ball Drive Pointer

Jackson

A perspex pointer, transparent with a crimson hair line. Fits the ball drive type 4511F. Length of pointer: 86mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1855	Price each exc. VAT	inc. VAT each
HB47B	Ball Drive Pointer	1+ 22.160 10+ 22.030 25+ 21.710	1+ 22.540

## Cord Tension Springs

Jackson

Springs have 3-2mm (1/16in.) inside diameter loops at each end. Three sizes are available.

Length (between loop centres)	Number of coils
8mm	6
12-7mm	14
21-4mm	26

Retail Unit Price each (inc. VAT).

JX74R	Modesty Block White	1+ 20.774 10+ 20.624 100+ 20.520	1+ 20.910

## Metal 'L' Bracket

A plated, right-angled steel 'L' shaped bracket which can be used in a variety of different roles including that of a cabinet corner protector. Each side is 31mm long with a 5mm dia. hole at 21-5mm away from the angle, and a half-round end. Width is 18mm. Colour silver.

Retail Unit Price each (inc. VAT).

Order Code	Type 1876	Price each exc. VAT	inc. VAT each
JP12N	L Corner	1+ 20.246 25+ 19.8 100+ 19.156	1+ 20.290

## Cabinet Shelf Support

A white plastic shelf support, as used with self-assembly furniture. Spigot diameter, 5.9mm. Spigot length, 6.9mm. Supplied in packs of ten.

Retail Unit Price each (inc. VAT).

Order Code	Type 1878	Price each exc. VAT	inc. VAT each
JX75S	Shelf Support	1+ 20.510 25+ 20.344 100+ 20.270	1+ 20.600

## Geiger Sponge Block

A handy block of hygroscopic sponge (90 x 14 x 12mm approx) with one self-adhesive long edge, ideal for use as safe packing - to stop batteries moving around in their compartment, for example.

Retail Unit Price each (inc. VAT).

Order Code	Type 11685	Price each exc. VAT	inc. VAT each
FS04E	Sponge Block	1+ 20.246	1+ 20.290

## Self-Adhesive Pads

A small foam pad 25 x 12mm (1mm thick) with a strong adhesive coating on both sides. Adhesive will bond to most materials. Supplied in strips of ten pads.

Retail Unit Price each (inc. VAT).

Order Code	Type 1897	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HB22Y	Quickstick Pads	£0.221	£0.136	£0.109	£0.260

## Velcromounts

A versatile self-adhesive mounting and fixing system consisting of two nylon tapes, one covered in thousands of tiny loops, the other in thousands of tiny hooks. When pressed together, the hooks grip the loops forming a tight secure closure capable of resisting very strong lateral pulls. Yet to separate the strips, you simply peel them apart. The strips have a strong pressure-sensitive adhesive backing and are ideal for securing the grille in front-loading loudspeaker cabinets for example. The strips are 25mm (1in. approx.) wide and sold in separate 1m lengths of hooks and loops or in packs of four pairs of 25mm squares. Colour of both parts is black.

Retail Unit Price each (inc. VAT).

Order Code	Type 1903	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FE45Y	4prs 1in. Velcro	£0.340	£0.260	£0.193	£0.400

FE47B	Velcro Loops 1m	£1.020	£0.884	£0.749	£1.210

## Cam Lock

A quality product containing parts manufactured from brass, steel and alloy materials. The body is finished in chrome with a polished bezel. Suitable for use with metal cabinets, tool boxes and drawers with a panel thickness of up to 4mm. The body is 12.5mm diameter across the threads and 10mm across the flat surfaces. Diameter of bezel is 15mm. The blade is 19mm long from the centre line by 10mm wide. Overall length of lock is 22mm. Two keys provided.

Retail Unit Price each (inc. VAT).

Order Code	Type 3026	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CJ13P	Cam Lock	£1.990	£1.510	£1.310	£2.340

## Tumbler Lock

A quality product containing parts manufactured from brass, steel and alloy materials. The barrel is finished in chrome with a polished bezel. The lock is a separate item with a chrome finished body that fits into the barrel, after mounting, in any one of four positions. The tumblers of the lock are made from brass, steel and bronze. Suitable for use with metal cabinets, tool boxes and drawers with a panel thickness of up to 5mm. The barrel is 19.5mm diameter across the threads and 16mm across the flat surfaces. Diameter of bezel is 21.5mm. The blade is 32mm long from the centreline by 15.5mm wide. Overall length of lock when assembled is 29mm. Two keys provided.

Retail Unit Price each (inc. VAT).

Order Code	Type 3029	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CJ14Q	Tumbler Lock	£1.720	£1.410	£1.190	£2.030

## LABELLING

### PRINTED LABELS

## Mains Warning Label

A self-adhesive label bearing the legend "WARNING Disconnect the mains supply before removing this cover" printed in black on a yellow background. Size 50 x 25mm.

**LABELLING MACHINES**

**Kroy DuraType 240 Labelling Machine**

Marking personal property, floppy disks or producing control panel legends for prototype equipment are examples of where the ability to generate high-quality labels would be essential. The DuraType 240, is an easy-to-use text editor and thermal label printer, which can be powered 'in the field' by 4 'D' cells (alkaline recommended, not included) or a 9V DC mains adaptor (supplied). Text (upper and lower case), numbers and a large range of special symbols are entered via a moisture-resistant rubber membrane keyboard. As the legend is typed in, it is displayed on a 16-character LCD dot matrix screen. Up to 255 characters can be held in the machine's print buffer at any one time. Multi-language prompts are possible. There is one font built into the machine (Helvetica), which is available in two sizes (10 and 24 point). Other fonts are available in 'Typestyle' memory cards, which slot into the machine.

Once entered text can be edited, arrow keys guide the cursor to the screen text which may be deleted, typed over or inserted. Print features include adjustable density, bold, underline, mirror-image, boxing, vertical columnar (90° rotation) and repeat printing. The DuraType 240 uses recyclable 'supply cartridges', which each contain a reel of 12.7mm wide self-adhesive labelling. Once the cartridge of the desired background colour has been loaded and locked into position, a press of the 'print' key starts the 240dpi thermal printer. Once the legend has been printed, it can be spooled on by the 'feed' button and cut by means of a lever built into the print cartridge. The black text produced by the DuraType 240 does not fade or rub away, and is designed to last in a punishing office or development lab environment. Housed in a robust white console housing, DuraType 240 is designed to be maintenance free. The unit is supplied with a 7.5m black-on-clear supply cartridge for immediate use.

Dimensions: 200mm (w) x 230mm (d) x 130mm (h)  
Weight: 2.1kg (with batteries), 1.5kg (without)

Retail Unit Price each (inc. VAT).

BP19V	Tape Black On Yellow	£17.010	£15.160	£14.500	£19.990

**Kroy 240ST Shrink Tubing Labelling System**

A very similar unit to BP16S above, except that it can be used to print onto heatshrink sleeving. Cables can now be professionally labelled with considerable ease. Only upper-case characters are available, since these are the most used for labelling wires, and the boxing and mirror-image functions have been excluded for similar reasons. The cabinet colour in this instance is grey. In other respects, including feature provision, the machines are identical. Tubing supply cartridges of 3.2mm, 4.8mm and 6.2mm are available, in addition to 12mm-wide black-on-white and black-on-yellow tape cartridges similar to those available for BP16S.

**Specification**

Character size: 8, 10, 12 and 16 point medium-weight font  
Nominal tubing diameter: 3.2mm, 4.8mm and 6.2mm  
Print tape: 12.7mm wide  
Dimensions: 200mm (w) x 230mm(d) x 130mm (h)

	1+		1+
GY72P	Cont Horns SmI 2Pk	£0.595	£0.700
GY73Q	Cont Horns Lge 2Pk	£0.595	£0.700

**90° Nylon Bellcrank**

Great Planes

This pack contains two complete bellcrank assemblies, comprising 90° nylon bellcrank, metal bush, steel bolt and hex nut, split ring and metal washer.

Retail Unit Price each (inc. VAT).

Order Code	Type 11691	Price each exc. VAT	inc. VAT each
	1+		1+
GY74R	Nylon Bellcrank 2Pk	£0.859	£1.010

**Bell Crank Type 1**

Pack contains 2 bell cranks (arms approx 23mm long) with bushes.

Retail Unit Price each (inc. VAT).

Order Code	Type 11693	Price each exc. VAT	inc. VAT each
	1+		1+
DX96E	Bell Crank Type 1	£0.510	£0.600

**Bell Crank Type 2**

Pack contains 8 bell cranks (arms approx 17mm long) with bushes.

Retail Unit Price each (inc. VAT).

Order Code	Type 11684	Price each exc. VAT	inc. VAT each
	1+		1+
DX97F	Bell Crank Type 2	£0.510	£0.600

**Crank Set**

T cranks are ideal for use in elevators in radio controlled aircraft or any situation where two control surfaces are working in opposition. Pack contains 2 large T cranks and 2 straight cranks with 4 bushes.

Retail Unit Price each (inc. VAT).

Order Code	Type 11682	Price each exc. VAT	inc. VAT each
	1+		1+
DX88V	Large T Crank	£0.510	£0.600

**Strap Eye Bolt**

This plastic eyelet on a thread is a very handy little item if you want to create a small anchor-point. Simply drill a hole approx 5mm in diameter, push in the eyelet and screw on the supplied nut to hold it firmly in place.

Retail Unit Price each (inc. VAT).

Order Code	Type 11685	Price each exc. VAT	inc. VAT each
	1+		1+
DX96T	Strap Eye Bolt	£0.340	£0.400

## HINGES

### Ultra Grip CA Hinges

Great Planes

Lightweight but durable fibre hinges specifically designed to be slotted into the control surfaces and leading edges of model aircraft and fixed with a thin cyanoacrylate adhesive. Simple to install – cut appropriately sized slots into the trailing edge and control surface, apply slow drying cyanoacrylate adhesive to the hinge and slide into place. Available in two sizes.

control surface, apply slow drying cyanoacrylate or epoxy adhesive to the hinge and slide into place. Available in two sizes.

**CARAVAN FITTINGS**

**Pair of Nuts, Bolts and Washers**

A pair of high tensile zinc plated towball fittings including nut, bolt and washer, in either 55mm, 65mm, 75mm or 100mm.

Order Code	Type
WD92A	2 x 55mm Nut, Bolt & Washer
WD93B	2 x 65mm Nut, Bolt & Washer
WE04E	2 x 75mm Nut, Bolt & Washer
WE05F	2 x 100mm Nut, Bolt & Washer

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD92A	2x55mm Tow Fittings	£3.020	£3.560
WD93B	2x65mm Tow Fittings	£3.020	£3.560
WE04E	2x75mm Tow Fittings	£3.020	£3.560
WE05F	2x100mm Tow Fittings	£3.020	£3.560

**50mm Tow Ball**

A heavy duty UK forged metal 50mm tow ball.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD97F	50mm Towball	£5.200	£6.110

**Tow Ball Cover**

It is important that the tow ball is covered whenever it is not in use. This lightweight and tough black plastic tow ball cover is just the job for all 50mm tow balls.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD88V	Towball Cover	£1.720	£2.030

**Tow Ball Boot**

This top quality moulded protective tow ball boot completely encloses any 50mm tow ball and features an integral red hazard reflector.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD90X	Tow Ball Boot	£3.020	£3.560

**Tow-Tekta**

Don't damage your car by reversing into your caravan's tow hitch – use the Tow-Tekta to guide the tow hitch safely and easily into position over your towball. This strong metal plate has a high quality paint finish and incorporates heavy duty socket mountings that will keep your sockets safely out of harm's way. Easy to fit, simply use your existing towball mounting to place the Tow-Tekta between your car and its towball.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD98G	Tow-Tekta	£7.800	£9.170

**Breakaway Safety Cable**

Put safety first with this small but essential piece of equipment. If your caravan or trailer should become unhitched while you're on the move, the breakaway safety cable will apply the brake and bring it to a halt.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD94C	Breakaway Cable	£3.020	£3.560

**Warning Triangles**

A pair of top quality plastic rear trailer reflectors that can be screwed to the tail board. Complete with a contrasting white surround for increased visibility.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD05G	Warning Triangles	£2.590	£3.050

**Drop Plates**

It's vital that your caravan or trailer has a safe horizontal connection with your car when it's on the move, but cars come in different heights. The solution is a drop plate – a strong metal plate that allows you to offset the towball from your car's mounting point to compensate for the difference in height. Available in three sizes: 50mm, 75mm or 100mm.

Order code	Type
WD99H	50mm Drop Plate
WE00A	75mm Drop Plate
WE01B	100mm Drop Plate

## Fuseholders

### Modular Fused Terminal Blocks

Camden

One, three, and five-way terminal blocks complete with inline fuseholder. The three and five way blocks are fitted with rear mounting screws through the second (earth) terminal and have an anti rotation spigot. The one way fused block (or any multiple) can be interlocked with the three and five way for additional fused circuits. The 20 x 5 fuse (not supplied) is housed in the pull up latch making it easy to replace.

Moulded in flame retardant UL94-V0 Polymide 66 the blocks have a maximum working temperature of 125°C.

Rating Fuseholder 13A Terminal 13A  
Voltage Fuseholder 250VAC Terminal 450VAC

## 6A 31mm (1 1/4in.) Type

A panel mounting 31mm fuseholder with a flush fitting, square red coloured cap bearing the legend 'FUSE' in black. Fuse cartridge is simply inserted into the cap which pushes into the body, but the latch must align with slot in bevel. Only a small narrow screwdriver or similar tool can be pushed down into the slot to release the latch in order to gain access to the fuse. Restrain the cap to prevent it flying out of the body. Complies with BS standards. Max rating 6A @ 250V AC. Length: 50mm. Bezel 16mm x 16mm square. Panel cut-out 15mm (3/8in.).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FA39N	1.1/4 Clickcatch F.H	£0.757	£0.545	£0.384	£0.899

## 10A 31mm (1 1/4in.) Type

A panel mounting 31mm fuseholder with screwdriver release to meet the latest safety regulations. Rated 10A at 250V AC. Contact resistance 10mΩ at 1A. Insulation resistance 100MΩ at 500V DC. Insulation will withstand 1500V AC for 1 minute between terminals. Overall length 48mm (plus 6mm tag). Bezel diameter 18mm. Panel cut-out 15mm diameter flattened to 13.5mm on opposing sides to provide anti-twisting lock.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FD77J	10A Fuseholder 1.1/4	£0.842	£0.626	£0.515	£0.930

## 31mm (1 1/4in.) Panel Mount Fuseholders

**Bussmann**

A panel mounting 31-175mm (1 1/4in.) fuseholder with screwdriver release, that has VDE and SEMKO approvals. Two types are available: HTB 341 is held in place by a hex nut; HTB 941 is a snap-in mount.

### General Specification

Rating: 250V at 10A  
 Insulation resistance: 10,000MΩ  
 Contact resistance: 0.005Ω maximum at 1A  
 Standoff voltage: 480V/mil at 3-175mm (0.125in.) thickness  
 Terminals: Tin-plated brass  
 Moulded components: High temperature, flame retardant, thermoplastic; UL component recognised; 94VO; mounting nut, spacer – black polycarbonate 45mm  
 Overall length: 45mm  
 Panel thickness: 7-62mm (0.3in.) maximum  
 Cut-out HTB-341: 12.8mm diameter, flattened to 11.7mm on opposing sides.  
 HTB-941: 14.3mm diameter, flattened to 12.7mm on opposing sides.

**Plug-in In-Line Fuse Holder**

A black nylon in-line fuseholder suitable for use with the plug-in type fuses becoming increasingly common in vehicle electrical systems. To use, cut the red wire connected between both terminals to give lead-outs to each terminal. Access to the fuse is by means of a snap-fit lid on the top of the holder, and several of these holders can be fitted together by virtue of a tongue and groove moulded into opposite sides of the casing. Suitable for currents up to 15A. Dimensions of body (lid closed): 27mm long, 37.5mm high, 18mm wide.

Retail Unit Price each (inc. VAT).

		1+	25+	100+	
KU34M	Plug-In Fuseholder	£0.842	£0.525	£0.444	£0.990

**In-Line Type**

Bayonet-action in-line car type fuseholder with moulded body, suitable for 31mm (1 1/4in.) fuses. Length 52mm, diameter 14mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 443	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
DR79L	Car Fuseholder	£0.331	£0.170	£0.150	£0.390

**Panel Mounting Voltage Selectors**

Belgin

Two panel mounting voltage selectors with either a round face or a square face. Panel cut-out is 13mm diameter. Use a small bladed screwdriver to change the voltage settings.

Retail Unit Price each (inc. VAT).

**38mm DIN Mounting Fuse Holder**

Gould

A single pole fuseholder, DIN rail mounting to fit 10 x 38mm fuses. With UR (UL recognised), CSA, Bureau Veritas and Lloyds Register of Shipping approvals. Can carry up to 25A at 500Vac (32A at 400Vac). Cable size 16mm.

Dimensions: Height 78mm  
Width 17.5mm  
Depth 59mm (incl lever)

Retail Unit Price each (inc. VAT).

		1+	10+	50+	
VJ46A	38mm Din Fuse Hld	£2.540	£2.110	£1.840	£2.990

**Fuse Tester Continuity Tester**

An ingenious screwdriver tester that can be used to detect continuity and therefore used for checking fuses or lamps. Continuity tests can be made by holding the tip of the screwdriver on a fuse then touching the cap of the screwdriver and the cap of the fuse with your hand. If the fuse is OK, the screwdriver will light. The same principle can be used with lamps, leads and anything else that is conductive.

Other uses include short circuit tests, tracking broken cables, microwave oven radiation testing and television emission tests. The device uses two silver or alkaline batteries (supplied), with a battery life of approximately 5 hours continuous use.

Dimensions 136 x 20mm (L x W) including clip. NB Not suitable for direct connection with live circuitry.

Retail Unit Price each (inc. VAT).

## Standard Glass

### 20mm Quickblow Type

Glass tube fuses with nickel-finish brass end caps overall size 20 x 5mm diameter. Fuses rupture within 2 minutes max (1s typical) at 25°C at twice the rated current. Rupture capacity 35A or 20 times the rated current whichever is greater.

Available in the following ratings:

50mA, 63mA, 80mA, 100mA, 125mA, 160mA, 200mA, 250mA, 315mA, 400mA, 500mA, 630mA, 800mA, 1A, 1.25A, 1.6A, 2A, 2.5A, 3.15A, 4A, 5A, 6.3A, 10A.

**PLEASE NOTE : THESE FUSES ARE ONLY AVAILABLE IN MULTIPLES OF 10**

Price each shown, but sold only in multiples of 10.

### Fuse Kit

A handy fuse kit containing 18 of the most popular fuse types. Ideal for the person who requires convenient access to a range of fuses, such as maintenance or repair technicians. Each compartment is clearly labeled with the type and size of fuse it contains. The robust plastic container prevents fragile fuses from being damaged and has a close fitting lid to prevent spillage. Contains 10 each of the following fuses:

20mm QB 500mA, 1A, 1.6A, 2A, 2.5A, 3.15A, 4A, 5A, 6.3A, 10A  
 20mm TD 1A, 2A, 3.15A, 5A  
 1 1/4in QB 1A, 2A, 5A, 10A

Retail Unit Price each (inc. VAT).

## Professional Glass

### 20mm Fast Acting Glass Fuses

**Bussmann**

A range of glass body, fast acting 5mm x 20mm fuses with electroplated end caps. The fuses are designated to IEC (pub. 127) Sheet II, BS4265, and have SEMKO and VDE approval, except 8A and 10A (ratings outside Standard requirements). Rated at 250V AC, with a breaking capacity of 35A (maximum) (250V AC) or 10x rated current.

Available in the following ratings: 200mA, 250mA, 500mA, 1A, 1.6A, 2A, 3.15A, 5A, 6.3A, 8A, 10A

PLEASE NOTE: THESE FUSES ARE ONLY AVAILABLE IN MULTIPLES OF 10

### 20mm Time-Lag (T) Glass Fuses

**Bussmann**

A range of glass body, time-lag (T) 5mm x 20mm fuses with electroplated end caps. The fuses are designated to IEC (pub. 127) Sheet III, BS4265 and have SEMKO, VDE and UL approval. Rated at 250V AC, with a breaking capacity of 35A maximum (250V AC) or 10x rated current.

Available in the following ratings: 50mA, 63mA, 100mA, 125mA, 160mA, 200mA, 250mA, 315mA, 400mA, 500mA, 630mA, 1A, 1.25A, 1.6A, 2A, 2.5A, 3.15A, 5A, 6.3A.

PLEASE NOTE: THESE FUSES ARE ONLY AVAILABLE IN MULTIPLES OF 10

Price each shown, but sold only in multiples of 10.

### 1 1/4in. (31mm) Fast Acting Glass Fuses

**Bussmann**

A range of glass body, fast acting, low breaking capacity 6 x 31mm (1 1/4 x 1 1/4in.) fuses with electroplated end caps, suitable for instruments, electronic circuits and small appliances. The fuses comply to BS2905A.

Available in the following ratings: 250mA, 500mA, 750mA, 1A, 1.25A, 1.5A, 2A, 2.5A, 3A, 5A, 7.5A, 10A, 12A, 15A.

## European 'D' Fused

A range of European style bottle fuses. General purpose high breaking capacity ceramic fuses with VDE approval designed to conform to IEC 269 and VDE 0636. Insulating class VDE0110C. Rated at 500v ac/dc. Characteristic gL (General Line). Available in 2 sizes, Size D11 (E27) or D111 (E33)

Available in the following ratings:  
Size D11 - 2A, 4A, 6A, 10A, 16A, 20A, 25A  
Size D111 - 35A, 50A, 63A

## 'Microtron' Subminiature Axial Lead Fuses

Bussmann

A range of subminiature axial lead fuses that have an excellent short-circuit performance. The fuses are designed to safely interrupt 50A at 125V AC (60V AC for 7A and 10A types). This performance is achieved at power factors as low as 97%. The 0.297 x 0.122 in. (diameter), high-temperature, plastic body fits the standard 0.4in. centreline-to-centreline holes. The body is hermetically sealed to allow the device to be exposed to a wide variety of aqueous and chemical circuit board washing solutions. U.L. recognition and CSA certified. Sold individually.

**General Specification**

Typical opening times: 4hrs minimum at 100%  
5s maximum at 250%

Interrupt capability:

50A at 125V AC,  
300A at 125V DC  
(60V for 7A and 10A)

Body material:

High temperature plastic with a UL94VO rating

**Available in the following ratings:**

125mA, 250mA, 500mA, 1A, 2A, 3A, 5A, 7A, 10A.

Retail Unit Price each (inc. VAT).

## Slow Blow Subminiature Axial Lead Fuses

A range of slow blow axial subminiature fuses (Overall size 7.1 x 3.2mm) for use in applications where space requirements are at a premium. The moulded construction provides mechanical strength. UL recognised and CSA approved. Rated at 125v ac/dc. Sold individually.

Available in the following ratings:  
1A, 2A, 3A, 5A, 7A.

Retail Unit Price each (inc. VAT).

Order Code	Type 13321	Price each exc. VAT			inc. VAT each 1+

**Thermal**

## Thermal Fuses

A range of thermal fuses which will protect any equipment or appliance from excessive temperature rise by cutting off the supply, since they are connected into a circuit in the same way as an 'ordinary' fuse would be. These thermal fuses offer a low impedance when operational, but will go open circuit if their temperature range threshold is exceeded. They will serve to protect equipment from heat damage if the source of excess heat originates within the equipment itself as the result of a fault,

cutting off the power where the ordinary fuse fails to do so because the current load is not great enough, yet there is enough power being converted to heat to start a fire.

These devices are extensively applied in industry in the manufacture of sandwich toasters, water heaters, hair curlers etc. They are not resettable and must be replaced if 'blown'. NOTE: when installing any of these devices never solder directly to the wire leads - you must use screw terminals, terminal blocks or crimped on connectors. Size of body: 14mm long x 4mm dia. Lead length (each end): 34mm. Rating: 240V @ 10A max. Rupture current: 40A (resistive), 20A (inductive). Open circuit breakdown voltage: 1200V AC. Opening threshold temperature tolerance: +0°C -4°C.

**General Purpose Range**

A range of thermal fuses covering a wide range of operating temperatures, available as follows: 91°C, 128°C, 152°C, 167°C, 184°C, 192°C, 229°C, 240°C

**Audio Equipment Range**

Especially formulated for applications in audio equipment, test instruments, etc. Operating temperatures, available as follows: 72°C, 110°C

Retail Unit Price each (inc. VAT).

## Thermal Cut-outs

CITR

A range of low-cost, one-shot, thermal cut-outs for circuit protection applications, that are available with either radial or axial leads. They can be used to prevent overheating of electrical components such as motors, transformers and solenoids, and electronic equipment such as computers, switching power supplies etc. The cut-outs are manufactured using tin/lead-plated soft copper wire leads that are welded to a fusible alloy with a specific melting point. To prevent surface oxidation and to ensure complete cut-off function at melting point, the alloy is coated with special resins. The fusible alloy is completely insulated within the case by sealing the leads and the case with a special resin compound. The radial lead type is available in a PCB/hard wiring (H type) or screw mounting version (H-A type), and the axial lead (V type) is additionally

available in a subminiature version (VS type). Rated at 2A 250V AC (axial subminiature rated at 1A 250V AC). Approved (or in some cases pending) by UL, CSA, VDE and JEANL. A simple plug-in holder for mounting H type cut-outs is available that is made from PBT and does not require an insulation tube. Note: IEC specifications state that thermal cut-outs when conducting the detection current, and subject to the increasing rate of temperature designated by the specification, must function in the tolerance range +0°C to -10°C of the nominal operating temperature.

**Circuit Breakers**

## Auto-Reset Circuit Breaker

A useful range of compact circuit breakers with an auto-reset facility. Designed to withstand overload but to trip quickly on short circuits, the circuit breaker latches into an 'off' state under fault conditions and automatically returns to the 'on' state after a set period of time. If the fault condition still exists the unit will immediately latch 'off' again. This process of checking the circuit will continue until the fault is cleared. The range is suitable for working at voltages up to 250V AC, and offers seven rated 'holding-current' values. Connections are via two solder tags 7mm long. Overall dimensions: 29 x 12.5 x 6mm. Range available: 1.0A, 1.6A, 2.2A, 3.0A, 5.0A, 7.0A, 10.0A.

Retail Unit Price each (inc. VAT).

## Manual Circuit Protector Push Fit

CIFF

A push fit manual reset circuit protector typically used in power supplies, amplifiers, UPS, regulators and generators.

### Specification

**Rating:** From 4 to 16Amps  
**Input Power:** 32VDC/120VAC/240VAC  
**Dielectric Strength:** 1500VAC/1min  
**Interrupt Capacity:** @ 120VAC - 1000A  
 @ 240VAC - 200A  
 @ 25°C 105% of rated current - continuous  
 @ 25°C 106%/134% of rated current may/may not trip  
 @ 25°C 200% of rated current - trip within 1 minute

### Calibration:

@ 25°C 150% of rated current will trip within 60 minutes.  
**Contact Endurance:** @ 120VAC/150% of rated current - 500 cycles

E.g. 4amp model @ 25°C 150% of rated current will trip within 60 minutes.

**Panel cut out:** 23.8mm x 11.3mm

**Available in the following ratings:** 4A, 5A, 6A, 7A, 8A, 10A, 13A, 16A.

Retail Unit Price each (inc. VAT).

Order Code	Type 13850	Price each exc. VAT 1+	inc. VAT each 1+
GF80B	PiFit Protector 4A	£2.540	£2.990
GF81C	PiFit Protector 5A	£2.540	£2.990

GF78K	S/fit Protector 13A	£2.540	£2.990
GF79L	S/fit Protector 16A	£2.540	£2.990

## Electronic Fuses

An overcurrent protection device offering significant advantages over normal fuses, PTC resistors, bimetal strips, etc. The device operates in a similar way to a slow-blow fuse yet is solid state and can be simply soldered into the circuit. It latches into a safe high resistance state under overload conditions yet returns to normal operation as soon as the fault is removed.

Dimension D = 3.0mm.  
 Dimension C = 5.1mm.  
 In all versions E = 7.6mm except MFR020 = 12mm.

Type	Vmax	Style	A (mm)	B (mm)
RXE020	60	1	6	12.2
RXE030	60	1	7.4	13.0
RXE050	60	1	7.9	13.7
RXE090	60	1	11.7	15.7
RUE110	30	1	8.9	14.5
RUE160	30	1	11.2	15.5
RUE400	30	2	16.0	21.1

Max operating voltage (rms) @ 20°C.

### Current and resistance ratings

Ratings @ 20°C; I<sub>h</sub> = hold current, fuse will not trip; R<sub>nom</sub> = nominal resistance; I<sub>trip</sub> = typical trip current;

Pd = typical power dissipation in tripped state.

Type	I <sub>h</sub> A rms	R <sub>nom</sub> Ω	I <sub>trip</sub> A rms	Pd W
RXE020	0.20	2.67	0.30	0.40
RXE030	0.30	1.27	0.45	0.50
RXE050	0.50	0.75	0.75	0.75
RXE090	0.90	0.34	1.35	1.00
RUE110	1.10	0.09	1.98	0.70
RUE160	1.60	0.06	2.88	0.90
RUE400	4.00	0.02	7.20	2.50

Absolute maximum interrupt current = 40A rms.  
 Resistance in tripped state = V<sup>2</sup>/PdΩ. Maximum surface temperature in tripped state = +125°C.  
 Typical reset time = <20 seconds @ 20°C.

Retail Unit Price each (inc. VAT).

Order Code	Type 430	Price each exc. VAT 1+	10+	25+	inc. VAT each 1+

CP63T	RUE400	£3.820	£3.080	£2.580	£4.490

## Temperature Indicator Labels

A range of non-reversible temperature labels that are designed for monitoring rises in temperature, operating temperatures, or the failure to reach a particular temperature. Each label has 8 temperature levels which turn from grey/white to black when the indicated temperature has been reached. A black label would clearly indicate that a component or product has failed due to excessive heat, and a white label would indicate that a product has failed due to insufficient heat e.g., a fusing process. Up to 100°C, the label has an accuracy of ±1°C, and ±1% of its rating above 100°C. Sold in packs of 5, the labels are self-adhesive and very easy to use.

### Temperature ranges °C

Level A	40	43	46	49	54	60	66	71
Level B	77	82	88	93	99	104	110	116

## TIMERS

### DIN RAIL MOUNTING

#### DIN Rail Mounting Timers

Crouzet

H. 78.5mm W. 22.5mm D. 103.5mm  
Electronic timers in a standard 22.5mm wide case for mounting onto 35mm symmetric DIN rail to EN50022 (DIN 46277-3).

#### Features

##### ★ Four types available

- TRA - On Delay (Delay on energisation)
- TRL - Assymetrical recycler (Cyclic), pulse or pause start
- TRQ - Star Delta
- TRU - Four function timer, including: On Delay, On Pulse (Timing on impulse), Off Delay (Timing after impulse) and On pulse (Timing on energisation or Interval Timer - one shot)

- ★ Multi time range : 1s, 10s, 1m, 10m, 1h & 10h For Star Delta (TRQ): 2 sub ranges - 20s & 160s

- ★ Time ranges easily set by a front mounted switch (Two in the case of the TRL, one for pulse and one for pause)

- ★ Multi voltage: 24Vac/dc and 115 to 230Vac
- ★ LED indication of power & relay status

- ★ UL and CSA approved

#### Specification

Operating voltage 24Vac/dc & 115-230Vac, 50/60Hz

Contact rating 8A, 250Vac (res)

Contact type SPDT, AgCdO

Mechanical life >5x10<sup>6</sup> operations

Operating temperature -20°C to +60°C

Retail Unit Price each (inc. VAT).

### 4 POLE PLUG IN

#### Miniature On Delay Timers

Crouzet

H. 27mm W. 21mm D. 69mm

On Delay timers with 4 SPDT contacts housed in a compact housing. These timers are designed for mounting into a 14 pin base and are easily set utilising a front mounted analogue dial.

#### Features

- ★ On Delay (Delay on energisation) function
- ★ Simple setting by analogue dial

#### ★ Multiple Time Ranges:

0.1s to 1s, 1s to 10s, 0.1min to 1min, 1min to 10min, 0.1h to 1h, 1h to 10h

#### ★ Available in four voltage versions:

24Vac, 24Vdc, 115Vac & 230Vac

#### ★ LED indication of power and relay status

#### Specification

##### ★ UL and CSA approved

Operating voltage 24Vdc or 24Vac, 50/60Hz or 115Vac, 50/60Hz or 230Vac, 50/60Hz

Contact rating 3A, 250Vac (Res)

Reset time (max) 100ms

Mechanical life 10<sup>7</sup> operations

Operating temperature -20°C to +60°C

### MOTOR DRIVEN

#### Run Back Timers

Crouzet

Motor driven run back timers designed for panel mounting applications. These timers feature a graduated setting knob allowing for quick setting and easy identification of remaining run time

#### Features

- ★ Available in single or double pole versions

- ★ 60 minute or 5 hour versions available

- ★ Operating voltage selectable between 115Vac and 230Vac

#### Specification

Operating voltage 115Vac or 230Vac

Contact rating 16A (Res), 4A (Inductive)

Power consumption 3.1VA

Mechanical life >10<sup>7</sup> operations

Operating temp -5°C to +70°C

## TIMESWITCHES

### ELECTROMECHANICAL

#### 7-Day Tappet Timeswitch With Power Reserve For DIN Rail Mounting

Theben

This 16A, 7-day tappet dial timeswitch comes with a 150 hour power reserve, and a summer/winter changeover switch. Additionally, there is a manual override switch to the next programme. The timer comes in a standard three module wide housing (45 x 52.5 x 60mm), and is designed to snap-on fit a standard 35mm 'top-hat' rail (DIN EN50022).

- ★ 4 hour switching minimum interval which can be increased in 1 hour steps.

- ★ Manual override switch to next programme

- ★ Permanent ON/OFF switching

- ★ Summer/winter changeover switch

#### Specification

Operating voltage: 230V ac 50Hz

Switch rating

cosφ=1: 16A

cosφ=0.6: 2A

Accuracy: ±1 sec/day at 20°C

Operating temperature: -10°C to +50°C

Retail Unit Price each (inc. VAT).

Order Code	Type 17243	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
MB18U	DIN Rail T/sw 7Day	£56.130	£53.330	£50.520	£65.960

#### 24-Hour 20A Electro-Mechanical Time Controller

Smiths Timeguard

This plug-in base surface mount electro-mechanical timer has an 'analogue' type time display, and will control all electrical equipment up to 20A (resistive). Easily set by the captive segment setting dial, the unit has a maximum of 96 switchings per day. Conforms to 73/23/EEC and 89/336/EEC directives.

- ★ Synchronous motor driven

- ★ Manual override

- ★ Permanent ON/OFF

- ★ 15 minute minimum switching interval which can be increased in 15 minute steps

- ★ 12A inductive rating

- ★ Controls electrical appliances up to 4.8kW

- ★ 72 x 72mm plug-in base surface mount

★ **Tamper proof transparent cover**

**Specification**  
Operating voltage: 230V ac 50Hz  
Contact rating: 20A resistive  
12A inductive  
Operating temperature: -10°C to +40°C  
Dimensions: 104 x 72 x 69mm

Retail Unit Price each (inc. VAT).

MB07H	24Hr EMech T/Sw	£35.860 1+ £34.070 5+ £32.270 10+	£42.140 1+

**ELECTRONICS DIN RAIL MOUNT**

**24-Hour/7-Day 10A Timeswitch For DIN Rail Mounting**

Theben

A one channel, 10A, digital timeswitch with 8 memories for 4 ON and 4 OFF switching times. The timer features a built-in gold capacitor that provides approximately 78 hours of power reserve, and a holiday control that can interrupt the programmes for up to 45 days. The timer comes in a standard one module wide housing (45 x 17.5 x 60mm), and is designed to snap-on fit a standard 35mm 'top-hat' rail (DIN EN50022).

- ★ Easy to programme
- ★ 4 ON/OFF programmes
- ★ Minimum switching time 1 minute
- ★ 78 hours power reserve
- ★ 24 hour/7 day or several day 'free block' programming
- ★ Permanent ON/OFF switching
- ★ Override to next programme

**Specification**  
Operating voltage: 230V ac 50Hz  
Switch rating: 10A  
cos φ=1: 10A  
cos φ=0.6: 4A  
Accuracy: ±1 sec/day at 20°C  
Operating temperature: -10°C to +50°C

MB13P	DIN Rail T/Sw-17.5mm	£82.580 1+ £78.460 5+ £74.330 10+	£97.040 1+

**24-Hour/7-Day 16A Timeswitch For DIN Rail Mounting**

Theben

A 16A, digital timeswitch with preset UK time and automatic summer/winter changeover that is suitable for UK, European and USA standards. The timer features an integral Lithium cell power reserve with a 6 year life, and a holiday control that can interrupt the programmes for up to 99 days. The timer comes in a standard two module wide housing (45 x 35 x 60mm), and is designed to snap-on fit a standard 35mm 'top-hat' rail (DIN EN50022).

Available in two versions  
**MB14Q** is a single channel version with 7 ON/OFF programmes  
**MB15R** is a two channel version with 18 ON/OFF programmes which can be distributed as required over the two channels.

- ★ Easy to programme
- ★ Single channel version has 7 ON/OFF programmes
- ★ Dual channel version has 18 ON/OFF programmes
- ★ Minimum switching time 1 minute
- ★ Integral Lithium cell power reserve with 6 years life
- ★ 24 hour/7 day or several day 'free block' programming
- ★ Permanent ON/OFF switching
- ★ Override to next programme

**Specification**  
Operating voltage: 230V ac 50Hz  
Switch rating: 16A

## ELECTRONIC PANEL MOUNT

### 7-Day Electronic Time Controller

Smiths Timeguard

This versatile digital time controller features 7-day programme selections plus holiday suspension of programmes. Easy to use 6-button programming and 1000 hours rechargeable memory back-up allow ultimate control of electrical and electronic appliances. The controller is supplied with a transparent cover to discourage tamper and reduce dust ingress. Conforms to 73/23/EEC and 89/336/EEC directives.

- ★ 72 x 72mm plug-in base surface mount
- ★ 21 ON/OFF commands per week
- ★ Shortest switching time 1 minute
- ★ Manual override and permanently ON/OFF
- ★ ON/OFF times may be repeated over a number of days without using extra memory locations
- ★ Voltage free contacts

#### Specification

Operating voltage: 230V ac 50Hz  
 Contact rating: 16A resistive (3.8kW)  
 6A inductive  
 Operating temperature: -10°C to +40°C  
 Dimensions: 104 x 72 x 69mm

Retail Unit Price each (inc. VAT).

Order Code	Type 17216	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
MB08J	24Hr/Day T/Sw	£64.710	£61.480	£58.250	£76.040

### Electronic Timer Module and Power/Relay PCB

Smiths Timeguard

An electronic timer module for applications in equipment and appliances requiring accurate cost effective time control. The module is housed in an easy fit 72 x 72mm panel mount case giving permanent ON/permanent OFF/ timed selection. It can be mounted in an enclosure or cubicle, and the module can, if required, be built directly into equipment. The module has a factory fitted rechargeable battery for memory back-up (1000 hours), and requires a 24V DC supply for charging. Available in two versions.

MB09K is a 24-hour version.  
 MB10L is a 7-day version with individual day, everyday, every weekday or weekend programme selection.

- ★ 24-hour model has up to 4 ON/OFF programmes per day
- ★ 7-day model has up to 6 ON/OFF programmes per day
- ★ Simple two button programming
- ★ Shortest switch time 1 minute
- ★ Self-cancelling override
- ★ Power/relay PCB will switch up to 16A resistive load

A power supply and relay PCB (MB11M) designed for use with MB09K and MB10L is available separately. It operates from the 230V ac mains and produces the required charge current for the module battery. In addition, it provides single-pole changeover, voltage free contacts. All connections are via 6.35mm/0.25in blades.

#### Specification

Operating voltage  
 timer module: 24V dc and above  
 power/relay PCB: 230V ac 50Hz  
 Switch rating of power/relay PCB  
 resistive: 16A  
 inductive: 6A  
 Operating temperature  
 timer module: -10°C to 55°C  
 power/relay PCB: -10°C to 40°C  
 Dimensions  
 timer module: 39 x 55 x 33mm  
 housing: 72 x 72 x 34mm  
 power/relay PCB: 54 x 54 x 14mm  
 Modules and power/relay PCB conform to 72/23/EEC and 89/336/EEC directives.

Retail Unit Price each (inc. VAT).

Order Code	Type 17211	Price each exc. VAT			inc. VAT each

MB11M	Power & Relay PCB	£11.960	£11.360	£10.760	£14.060

## ELECTRONIC SURFACE MOUNT

### Single Gang Fused Spur Timeswitch

Smiths Timeguard

A fused spur timeswitch with double pole contacts that is built in to a single gang surface mount housing. The timeswitch is ideal for controlling combination boilers, storage heaters, convector heaters, water heaters and lighting. Conforms to 73/23/EEC and 89/336/EEC directives. Available in two versions.

MB01B is a 24 hour model with 4 ON/OFF programmes per day.  
 MB02C is a 7 day model with 6 ON/OFF programmes per day. Additionally, there is individual day, everyday or weekend programme selections This allows up to 42 settings per week.

- ★ Switched and switched timed outputs
- ★ Integral BEAB approved double pole switch and replaceable BS1362 fuse
- ★ Simple two button programming - one recessed
- ★ Front button override facility
- ★ 1000 hours memory back-up from fitted rechargeable battery in case of supply loss or fuse blow
- ★ Minimum switching period of one minute
- ★ Voltage free contacts

#### Specification

Operating voltage: 220/240V AC 50Hz  
 Switch rating (240V AC): 6A inductive  
 13A resistive (3kW)  
 Operating temperature: -10°C to +40°C  
 Dimensions: 85 x 85 x 38mm

Retail Unit Price each (inc. VAT).

### Central Heating Mini Programmer

Smiths Timeguard

This electronic mini programmer is suitable for fully pumped or gravity fed central heating systems, and conveniently fits onto a single gang 25mm deep wall box Conforms to 73/23/EEC and 89/336/EEC directives. Available in two versions.

MB03D is a 24 hour model with up to 4 ON/OFF programmes per day.  
 MB04E is a 7 day model with individual day, everyday, every weekday or weekend programme selection with a total of 6 programmes.

- ★ Integral BEAB approved double pole switch and replaceable BS1362 fuse
- ★ Front button override facility
- ★ 1000 hours memory back-up from fitted rechargeable battery in case of supply loss or fuse blow
- ★ Minimum switching period of one minute

#### Specification

Operating voltage: 220/240V AC 50Hz  
 Switch rating (240V AC): 3A inductive

## COUNTERS

### MECHANICAL

### 4-Digit Tally Counter

Veeder Root

A hand-held, lightweight, thumb or finger activated counter housed in a high-impact, dust and corrosion resistant case - ideal for counting people etc. The counter will tally to 9999 and has a rotary reset knob on the side.

- ★ High contrast display figures.
- ★ Counts to 9999
- ★ Thumb or finger activated

Retail Unit Price each (inc. VAT).

Order Code	Type 17286	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
MC17T	Hand Tally	£12.000	£11.400	£10.800	£14.100

**ELECTROMECHANICAL**

**Magnetically Actuated Counter**

Hengstler

A non-resettable, 6-digit totalising counter that is actuated by an exterior permanent magnet. With suitable magnets it is possible to achieve actuating distances of up to 50mm - the direction of approach of the magnet is not critical.

- ★ Contactless counting
- ★ Miniature size
- ★ Simple installation
- ★ Class IP 66 protection

**Specification**  
 Digit height: 4mm, visual  
 Operating life: 10,000,000 increments adding  
 Counting mode: adding  
 Response flux density: >10mT (100 Gauss)  
 Release flux density: <4mT (40 Gauss)  
 Actuating speed: 2m/s  
 Counting frequency: 20 digits/sec max.  
 Case: Makrolon  
 Weight: 12g approx.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
MC16S	Magnetic Counter	£12.210	£11.600	£10.990	£14.350

**12V DC Non-Resettable Mini Counter**

Hengstler

A miniature 12V dc 6-digit counter offering low power consumption and high shock stability. The counter is designed for horizontal mounting and is available in two versions - PCB mounting (MC18U) with solder pins, and panel mounting (MC19V) with 0.6mm diameter wiring posts.

- H Totalising, non-resettable
- H Low power consumption
- H Two versions - PCB or panel mounting
- H Maintenance-free operation

**Specification**  
 Voltage: 12V dc  
 Power consumption: 78mW  
 Count input: adding  
 Display: 6-digit, 4mm height  
 Operating life: 10,000,000 pulses  
 Pulse length: 50ms min  
 Counting frequency: 10Hz max.  
 Pulse duty factor: 1:1  
 Duty cycle at 25°C: 100%  
 Weight: 10g approx.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
MC18U	PCB Mini Counter 12V	£9.400	£9.940	£8.460	£11.050
MC19V	P.Mnt Mini Counter 12V	£9.400	£9.940	£8.460	£11.050

**ELECTRONIC**

**Lithium Battery-Powered Counter**

Hengstler

A sophisticated pulse counter with a high contrast 8-digit LCD display that is powered by an internal lithium battery. The case is supplied with a mounting frame and is designed to fit a DIN size 24 x 48mm panel cut-out. The reset can be manual (which can be locked) or external input.

- ★ 7mm LCD display
- ★ 7-year nominal data retention
- ★ Programmable count input
- ★ Easy installation

**Specification**  
 Display: 8-digit, LCD, 7mm  
 Amplitude thresholds input: up to 7.5kHz  
 input range: <0.7V and >5V, max 40V dc  
 Active edge: - or + edge programmable  
 Counting frequency: programmable - 7.5kHz or 30Hz (attenuated for contacts)  
 Reset lock: keylock input bridge to 0V  
 Reset: manual (lockable) external, neg active edge attenuated 30Hz  
 Cut-out: 24 x 48mm with 32mm mounting depth

Retail Unit Price each (inc. VAT).

MC21X	TJCO Counter	£27.200	£25.840	£24.480	£31.960

**HOURS RUN**

**Mains Powered Panel Mounting Hour Meter**

Hengstler

This mains powered, non-resettable hour meter is driven by a low-noise synchronous motor for high reliability and long life. The 7-digit, 5mm high contrast display is housed in a rugged polycarbonate case. The meter is supplied with a plastic spring-fit collet for panel mounting installations, and is provided with two bezels for 48 x 24mm and 48 x 48 cut-outs.

- ★ Simple installation
- ★ Highly visible 7-digit display
- ★ Counts to 99999.99 hours
- ★ Accept 2.5mm cable

**Specification**  
 Display: 7-digit, 5mm high counts to 99999.99 hours  
 Supply voltage: 230V ac ±15%  
 Power consumption: 0.5VA  
 Connections: screw terminals for cables 2.5mm<sup>2</sup> max with AMP connector 6.3 x 0.8mm  
 Operating temp: -10°C to +50°C  
 Weight: 50g approx.

**PROGRAMMABLE LOGIC CONTROLLERS**

**PLC Starter Kit - FP1**

Matsushita

A low cost PLC (Programmable Logic Controller) kit consisting of everything the first time user needs to get started.

The PLC is a microprocessor based control system designed to replace timers, counters and relays for the control of complex systems with one compact unit.

This particular PLC is capable of accepting up to 8 inputs and supplying 6 outputs making it ideally suited to small industrial applications such as controlling lighting, machinery, motors etc. Due to its low cost it is also ideal for controlling model railways and other moderately complex systems.

**Kit contents:**  
 FP1-C14 PLC  
 NPST-GR programming software  
 Programming lead with built in RS232C/422 converter  
 Input simulator switches  
 Operation and Application manuals  
 Supply voltage 100-240Vac  
 Max current 200mA @ 200V  
 Input/Outputs (I/O) 8/6  
 Processing speed 1.6ms / logical instruction

Program capacity 900 steps  
 Memory type EEPROM

Number of commands  
 Basic 41  
 Additional 85  
 Timers/counters 128  
 Working temperature range 0°C to +55°C  
 Dimensions 120x81x74mm

### PROXIMITY SWITCHES

#### Proximity Switches

Assemtech

Magnetic proximity switches with reliable hermetically sealed contacts in Normally Open and Changeover styles. Contacts actuate when the magnet is in close proximity to the switch. Suitable for safety systems, position sensing, level sensing, flow sensing, security and anti

tamper applications. The rectangular housing style has two slotted holes to provide easy fixing and adjustment of both switch and actuator. The cylindrical housing style are available in standard and miniature housing.

#### Panel Mounting Proximity Switch

Assemtech

Magnetic proximity switch with highly reliable hermetically sealed contacts encapsulated in an M6 threaded nickel plated brass housing. This construction enables a wide range of adjustment in through panel mounting.

Switching Voltage 470VAC  
Switching Current 0.5A max  
Switching Capacity 10VA max  
Dimensions Length 28.0mm  
Dia M6 thread  
Wire 300mm of 7/0.2 PVC  
Temperature Range -20°C to +85°C

Retail Unit Price each (inc. VAT).

Current consumption without load, max	35mA	35mA	Transmitter: 35mA Receiver: 30mA
Operating voltage	12-24Vdc		
Output transistor, max	100mA		
Response time, max	1ms		
Connection method	Cable, 2m		
Environmental protection	IP67		
Ambient temperature	-25 °C to +55 °C		
Dimensions	33x12x20mm

### PHOTOELECTRIC

#### Compact Photoelectric Sensors - UZA Range

Matsushita

A range of compact photoelectric sensors for use in detecting the presence of objects using light emitted from the sensor. The sensors output a signal to inform other devices of detection. Three versions are offered, with either NPN or PNP transistor output:

#### Diffuse: A23 (NPN) & A235 (PNP)

The sensor emits a constant beam of light and when an object passes in front of the sensor, within 0.8m, it is reflected back to the sensor which then outputs a signal.

#### Retro-reflective: A24 (NPN) & A245 (PNP)

As for the Diffuse type a beam of light is emitted by the sensor but in this case the beam is reflected back to the sensor by a reflector. Only when an object breaks the beam is a signal transmitted. The advantage of the type is a greater detection distance (0.1 to 3.0m) but at a lower cost than a Through beam device.

#### Through beam: A20 (NPN) & A205 (PNP)

For the maximum sensing distance (Up to 10m) a separate transmitter and receiver are utilised. With this type of sensor when the receiver no longer detects a light source it will output a signal. An added advantage of this type of sensor is that the beam can penetrate up to 20 sheets of A4 paper and a typical application would be detecting for contents in a paper bag.

#### Mounting brackets are also available:

UZA811	Vertical mounting bracket
UZA812	Horizontal mounting bracket
UZA813	Protective mounting bracket

	A23/A235	A24/A245	A20/A205
Sensing range	0 - 8m	0.1 - 3m	0 - 10m
Emitting diode	Infrared LED	Red LED	Infrared LED
Detectable object	White paper 10x10cm	Metal, black Δ ≥50mm	Metal, black Δ ≥12mm

#### Cylindrical Photoelectric Sensors - UZC Range

Matsushita

Cylindrical or Barrel photoelectric sensors for industry standard through hole mounting. Housed in a threaded M18 plastic body these sensors are sealed to IP67 allowing use in severe industrial environments.

Three variants are available, with either NPN or PNP transistor output.

#### Diffuse type: A230 (NPN) & A2305 (PNP)

For close range applications (<12cm) the optical beam is reflected back from the object to the sensor giving an output.

#### Retro-reflective type: A250 (NPN) & A2505 (PNP)

Using a reflector the sensor is triggered when the beam is broken by an object. Ideal for applications with a range of up to 3m such as items on a conveyor belt.

#### Through beam type: A200 (NPN) & A2005 (PNP)

Where detection is required over longer distances (Up to 12m) a transmitter and receiver are utilised. When the beam is broken the receiver produces an output.

	A230/A2305	A250/A2505	A200/A2005
Sensing range	12cm	3m	12m

**Miniature Photoelectric Sensors - UZJ Range**

Matsushita

Miniature photoelectric sensors available as Diffuse or Through Beam 'U' shaped types. These sensors use fixed focusing of the light beam enabling precise object detection in a defined sensing range and are ideal for sensing at close ranges (typ <5/8mm). Due to their compact size and different design styles these sensors are also ideal for applications where space is limited. Three different mounting versions are available in both Diffuse and Through Beam 'U' shaped variants. Each version is available with either Light ON or Dark ON output.

**Diffuse types:**

Top Sensing: Light ON (UZJ101), Dark ON (UZJ102)  
Front sensing: Light ON (UZJ111), Dark ON (UZJ112)  
L Type (Top sensing): Light ON (UZJ121), Dark ON (UZJ122)

**Through beam types, 'U' shaped:**

K Type: Light ON, (UZJ251), Dark ON (UZJ252)  
L Type: Light ON (UZJ261), Dark ON (UZJ262)  
T Type: Light ON (UZJ271), Dark ON (UZJ272)

**INDUCTIVE PROXIMITY**

**Miniature Proximity Sensor - UZP Range**

Matsushita

Miniature inductive proximity sensors for use in detecting metal objects at very close range (<1.8mm). Being both compact and lightweight these sensors are ideal for confined spaces. Available in either Top or Front detection housings two variants are offered:

**Approach - ON:** A signal is output when a metal object comes within range.

**Leave - ON:** When an object leaves detection range a signal is output.

**Top detection, Approach - ON: UZP141**

**Top detection, Leave - ON: UZP151**

**Front detection, Approach - ON: UZP101**

**Front detection, Leave - ON: UZP111**

Typical applications include monitoring objects moving past a fixed point (conveyor belt) or monitoring whether a door/window is open or closed, making these sensors ideal for alarm systems.

Operating voltage	12-24Vdc
Output	NPN transistor
Output transistor, max	NPN (Open collector), 100mA
Rated current, max	15mA
Detection frequency	500Hz
Sensing range	0 - 1.8mm
Standard detectable	Steel plate, 15x15x1mm
Environmental protection	IP67
Weight	12g
Ambient temperature	-10°C to +55°C
Dimensions: Front detection	21x8x7.4mm
Top detection	23x8x8mm

**SWITCHES**

**LIMIT SWITCHES**

**Limit Switch - Plastic Body**

Crouzet

Industry standard limit switches to EN50047 housed in a thermoplastic case which is double insulated. These switches are designed for use in industrial applications and have a fail safe action, the contacts being forced apart in the event of welding.

- ★ Snap Action Contact with Positive Break Operation
  - ★ IP66 rated
  - ★ UL/CSA and British Rail approved

## TILT SWITCHES

### Non-Mercury Tilt Switches

A hermetically sealed tilt and motion detector ideal for use with industrial control equipment, household goods and security devices. The CM1300 (DP50E) is designed for low level switching applications which are currently using mercury switches. Enclosed in a metal housing for longer life. Features hermetically sealed contacts and filled with an inert gas for stable resistance and quiet operation.

**Specifications:** **CM1300**  
 Switching current: 450ma (at 1.5V DC)  
 Switching voltage: 120V AC  
 Contact resistance: 0.8Ω

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
DP50E	Mini Tilt Switch	£0.851	£0.684	£0.622	£1.000

### Non-Mercury Tilt Switches

A pair of hermetically sealed tilt and motion detectors ideal for use with industrial control equipment, household goods and security devices. MTA240 (DP48C) and MTC175 (DP49D) are hermetically sealed tilt switches incorporating reed switch contacts featuring non-bouncing contacts and estimated mechanical switching life in excess of 105 operations. The MTA240 has a simple N.O. configuration while the MTC175 incorporates a change-over function. Ideal for use in a wide variety of industrial, household and leisure-time applications.

**Specifications:** **MTA240** **MTC175**  
 Switching current: 500mA 500mA  
 Switching voltage: 240V AC 175V AC  
 Contact resistance: 0.1Ω 0.15Ω

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each

**Business Account Holders**  
**No Delivery Charges for any order**

### Encapsulated Mercury Switch

A surface mounted mercury tilt switch encapsulated in a plastic housing. Slotted screw holes are incorporated in the casing to allow fine adjustments to be made. The switch is supplied with 300mm of 2 core cable.

**Specifications**  
 Included Angle: 25° about the horizontal  
 Contact Rating: 1A @ 240V AC  
 Contact Resistance: 300mΩ  
 Dimensions 47mm long x 12mm wide x 11mm high

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
FS99H	Encap Merc Switch	£4.710	£3.830	£3.510	£5.540

### Tip-Over Safety Switch

Potted in a robust polypropylene housing these sealed mercury tip over switches are designed for level and position sensing as well as safety systems. The switch contacts are closed when vertical and open when tilted beyond the 35° from vertical.

Max Contact Rating 15A 240VAC  
 Terminals 2 x 200mm leads 17awg silicone rubber insulated. Diameter 28.0mm Height 29.0mm  
 Fixing centres 42.0mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CE59P	35deg Tipover Switch	£5.770	£5.000	£4.570	£6.790

### Miniature Tilt Switches

Miniature tilt switches which due to their low cost are ideally suited as position sensors. When mounted horizontally contact is made when the device is tipped up and broken when tipped down. Contact is made / broken when the device is 10° from the horizontal.

**Specifications:**  
 Max switching voltage: 240Vac  
 Max switching current: 300mA  
 Differential angle: 10°  
 Contact resistance: 1Ω

Body length: 10.2mm 5.6mm  
 Body dia.: 4.7mm 3.55mm  
 Lead length: 17mm 3mm

### Vibration Switches

Assemtech

Miniature vibration switches ideal for mobile security units on cars, bikes etc or as a safety device on machinery. The contacts are normally open but when vibrated the switch pulses on and off continuously until movement stops.

**Specifications:**  
 Max switching voltage: 240Vac 120Vac  
 Max switching current: 500mA 150mA  
 Switching capacity: 200VA 3VA  
 Contact resistance: N/A 5Ω  
 Operating temp: -37°C to 100°C  
 Overall length: 20.7mm 7.1mm  
 Body dia.: 8.2mm 4.6mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each

## MICRO SWITCHES

### Sub Miniature

Crouzet

A sub-miniature microswitch of internationally accepted size and operating characteristics. It is manufactured to the highest standards using glass-reinforced thermoplastic with inlaid silver contacts. Switches are single-pole double-throw. BT approved.

**Specification**  
 Contact rating: 5A 250V AC  
 Body size: 19.84 x 6.35 x 9.6mm high  
 Fixing centres: 9.53mm, 2.3mm clear  
 Actuator: 2.4mm above body, 2.26mm square

The switch is also available with an 18mm long lever or with a 16.8mm long lever with roller. Solder tag connections.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FP41U	Min Microswitch	£0.987	£0.842	£0.693	£1.160

FP43W	Min M-Sw With Roller	£1.200	£1.020	£0.840	£1.410

## Call and Collect

At all our stores nationwide.  
 See the maps at the front of the catalogue for the nearest one to you.

**Miniature**

Crouzet

A miniature microswitch of standard size with internationally accepted operating characteristics. Constructed in glass-reinforced thermoplastic to give strength and good temperature performance. Switches are single-pole double-throw.

**Specification**

Contact rating: 16A 250VAC  
Body size: 27.76 x 10.3 x 15.9mm high  
Fixing centres: 22.2 x 10.31mm, 3.16mm clear  
Actuator: 2.76mm above body  
The switch is also available with a 28.3mm long lever, or with a 27mm long lever with roller. Standard 6.35mm (1/4in.) blade connections.

Retail Unit Price each (inc. VAT).

Order Code	Type 2475	Price each exc. VAT			inc. VAT each

MG14Q	Sealed Microswitch	£17.430	£16.560	15.690	£20.490

**Heavy Duty**

Crouzet

A heavy duty microswitch with internationally accepted dimensions and operating characteristics and a particularly rugged construction. Switches are single-pole double-throw.

**Specification**

Contact rating: 16A 250VAC  
Body size: 46.4 x 16.3 x 18.7mm high  
Fixing centres: 25.4mm, 3.78mm clear  
Actuator: 5.26mm above body  
The switch is also available with a 60mm long lever, or a 60mm long lever with roller, or a panel-mounting bush and push-button. Bush requires 9.5mm panel cut-out and is 8mm long, flattened to 8.1mm on opposing sides. Button is 8mm long. Standard 6.35mm (1/4in.) blade connections.

Retail Unit Price each (inc. VAT).

**Protected Microswitch**

Crouzet

A general microswitch housed in a polyamide case, incorporating a double break circuit.

- ★ Ideal for industrial applications
- ★ Double Break Circuit
- ★ Nickel Silver Contacts
- ★ UL and CSA approved

Crouzet Part Number 83 106 022

**Specification**

Contact Rating 5A, 250Vac  
Operating temperature -20°C to +85°C  
Body size 32x19x12.6mm  
Fixing centres 13mm

Retail Unit Price each (inc. VAT).

**SOLID STATE RELAYS**

**Single Phase AC - G Series**

Crouzet

A range of surface mounting, optically coupled solid state relays in the industry standard "hockey puck" housing.

These relays have a sealed construction, with no moving parts, giving a long life and high reliability. The switching is silent and is not affected by vibration. The relays have a N/O output circuit and can be used for switching single phase resistive loads or motors where the power factor is greater than 0.7.

These relays must be mounted on an adequate heat sink to dissipate the heat generated within the relay, caused by internal volt drop across the output circuit. A cut out thermal pad (MG42V) is available to interface between the relay and heatsink to help dissipate excess heat

**Features**

- ★ Surface mounting
- ★ Protection by RC filter
- ★ Zero volt switching
- ★ Back to Back Thyristor
- ★ UL and CSA approved

## DIN RAIL TERMINALS

### TOP HAT & G TYPE

#### Feed Through DIN Rail Terminals

Entelec

Available in five sizes from a cable capacity of 2.5mm<sup>2</sup> to 16mm<sup>2</sup>, in a choice of colours to aid circuit identification. The range has a VDE voltage rating of 750V. A pre-assembled 10-way jumper bar is available, as is end sections and end stops. See 'DIN Rail and Accessories' for DIN rail, pre-assembled jumper bar, markers, end sections and end stops.

- ★ Fits both top hat and 'G' rails
- ★ Range of colours
- ★ Easy installation

Specification	Colour/ cable size, mm <sup>2</sup>	VDE Amps,	Approvals	Part No.	Order Code

## DIN Rail and Accessories

Entelec

DIN rail in 1m lengths available in either 'G' type asymmetric, (BS5825, DIN46277-1, CENELEC EN50-035), standard 'Top Hat' (BS5584, DIN46277-3, CENELEC 50-022), and miniature 'Top Hat', (BS6273, DIN46277-2, CENELEC 50-045).

- Accessories**
- MB35Q - end cover for 2.5 - 10mm<sup>2</sup> standard, 4mm<sup>2</sup> isolation and earth
  - MB36P - end cover for 16mm<sup>2</sup>.
  - MB37S - end stop for fitting at each end of an assembled rail.

Pe-assembled jumper bars for transverse connections up to 10 terminals but can easily be cut

for less terminals.

**MB38R** - for 2.5/5mm<sup>2</sup> 25A rating.

**MB39N** - for 4/6mm<sup>2</sup> 32A rating.

**MB40T** - for 6/8mm<sup>2</sup> 41A rating.

Marker cards for standard range DIN rail terminals supplied blank on cards of 100.

**MC10L** - 5mm terminal pitch

**MC11M** - 6mm terminal pitch.

## MINIATURE

## Miniature DIN Rail Range

Entelec

This compact range of terminals is designed for mounting on a miniature 'top hat' symmetrical rail. The mouldings are manufactured in flame-resistant grey polyamide 6.6 with a working temperature range of -55°C to +130°C. Accessories include end sections, an end stop and symmetrical rail in one metre lengths.

- ★ Space saving
- ★ Low profile
- ★ Easy installation

## IP Ratings

FIRST NUMBER Protection against solid objects	SECOND NUMBER Protection against liquids	THIRD NUMBER Protection against mechanical shock
0 No Protection	0 No Protection	0 No Protection
1 Protected against solid objects over 50 mm, eg accidental touch by hands	1 Protected against vertically falling drops of water	1 Impact 0.225 joule
2 Protected against solid objects over 12mm , eg fingers	2 Protected against direct sprays of water up to 15° from the vertical	2 Impact 0.375 joule
3 Protected against solid objects over 2.5mm (tools + wires)	3 Protected against sprays 60° from the vertical	3 Impact 0.50 joule
4 Protected against solid objects over 1mm (tools + small wires)	4 Protected against water sprayed from all directions - limited ingress permitted	5 Impact 2.00 joules
5 Protected against dust - limited ingress (no harmful deposit) permitted	5 Protected against low pressure jets of water from all directions -	7 Impact 6.00 joules
6 Totally protected against dust	6 Protected against strong jets of water, eg for use on shipdecks - limited ingress permitted	9 Impact 20.000 joules
	7 Protected against the effects of immersion between 15cm and 1m	<b>Note;</b> The third digit is not specified by the British Standards Institute but is used by some International Standards to indicate resistance to impact
	8 Protected against long periods of immersion under pressure

## HI-FI LOUDSPEAKERS

### SPEAKER KITS

#### Speaker Kits

A range of speaker kits that include all the parts you need to make a speakers except the enclosures. The kits comprise both 2, 3 and 4 way designs, cross-overs are included.

##### Specifications:

**VM56L - 130mm 2 way Kit**

**Woofer:** 130mm Polypropylene Laminated  
**Tweeter:** 13mm Dome  
**Cross-over:** 2 way 6dB/Octave  
**Response:** 85-25,000Hz  
**Power Handling:** 30W Nominal  
**Sensitivity:** 90dB  
**Impedance:** 4-8Ω

**VM57M - 165mm 2 way Kit**

**Woofer:** 165mm Polypropylene Laminated  
**Tweeter:** 13mm Dome  
**Cross-over:** 2 way 6dB/Octave  
**Response:** 65-25,000Hz  
**Sensitivity:** 90dB  
**Impedance:** 4-8Ω

**VM58N - 200mm 3 way Kit**

**Woofer:** 200mm Polypropylene Laminated  
**Midrange:** 100mm Polypropylene Laminated  
**Tweeter:** 13mm Dome  
**Cross-over:** 3 way 12/6 dB/Octave  
**Response:** 48-25,000Hz  
**Sensitivity:** 90dB  
**Impedance:** 4-8Ω

**VM59P - 200mm 4 way Kit**

**Woofer:** 2 x 200mm Polypropylene Laminated  
**Midrange:** 130mm Polypropylene Laminated

**Tweeter:** 13mm Dome  
**Cross-over:** 6 dB/Octave  
**Response:** 48-22,000Hz  
**Sensitivity:** 90dB  
**Impedance:** 4-8Ω

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VM56L	130mm 2-Way Spkr Kit	£17.010	£19.990
VM57M	165mm 2-Way Spkr Kit	£25.520	£29.990
VM58N	200mm 3-Way Spkr Kit	£34.030	£39.990
VM59P	200mm 4-Way Spkr Kit	£42.540	£49.990

#### 3-Way Stereo Speaker Kit

Audax

An excellent, classical, 3-way bookshelf system, including a high quality 200mm paper cone woofer, a 100mm mid range and a high efficiency 14mm dome tweeter. A good, lively sounding system at a real budget price. A 3-way cross over is supplied with this kit. All you need to make a single, 3-way shelf speaker. When building the enclosure it is recommended that MDF (medium density fibre board) is used, 20-25mm thick and with the following dimensions:

No. of Pieces	Measurements
2	197 x 262
2	262 x 675
2	235 x 675
2	150 x 197
1	138 x 197

##### Specification

**Impedance:** 8Ω  
**Frequency range:** 35Hz to 20kHz  
**Efficiency:** 91dB W/m  
**Power handling:** 70W RMS  
**Dimensions:** 70 x 23 x 30mm (HxWxD)  
**N.B. Kit includes drive units, crossovers and terminals to make two loudspeakers.**

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BM68Y	113W Speaker Kit	£119.140	£139.990

#### 2-Way Stereo Speaker Kit

Audax

A compact, floor standing system, based on the woven carbon fibre cone technology for the two 130mm drivers designed for tight and dynamic bass performance. Supplied with 2-way crossover. The high frequencies are covered by a 25mm shielded aluminium dome with vented pole piece and tuned cavity. Sound reproduction is firm, dynamic and

enhances the micro information. When building the enclosure it is recommended that MDF (medium density fibreboard) is used, 20-25mm thick and with the following dimensions:

No. of Pieces	Measurements
4	188 x 900
3	125 x 188

##### Specification

**Impedance:** 8Ω  
**Frequency range:** 46Hz to 22kHz  
**Efficiency:** 90dB W/m  
**Power handling:** 60W rms  
**Dimensions:** 70 x 23 x 30mm (HxWxD)  
**N.B. Kit includes drive units, crossovers and terminals to make two loudspeakers.**

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BM69A	2W Speaker Kit	£110.620	£129.990

## LOW COST SPEAKERS

### Miniature

A range of miniature loudspeakers with alnico magnets and paper cones. Various sizes are available with 8Ω voice coils and some with 64Ω voice coils for direct single-transistor drive.

##### 8Ω Types

Type	Dia. (mm)	Depth (mm)	Power (W)	f (Hz)	Frequency range (Hz)

## Mylar Speakers

A range of mylar cone speakers with ferrite magnets designed primarily for use in sirens and buzzers. The mylar cone and plastic centre dome combined with a card gasket around the cone make the units fully weather and splashproof from the front. They are therefore ideal for use as sounders in portable equipment and in external burglar alarm boxes. Four types are available without mounting (round type) and three in a square metal chassis.

## Low-Cost Elliptical Speakers

Low-cost loudspeakers primarily intended as replacements for unit audio equipment and television sets, mounting on the inside surface of the baffle.

Two models are available: A (125 x 77mm) and B (153 x 101mm).

Type	Size (mm)	Baffle cut-out (mm)	Fixing centres (mm)	Depth (mm)
A	125 x 77	117 x 68	90 x 65 x M5	36
B	153 x 101	138 x 91	110 x 73 x M5	44

Type	Power (W)	Z (Ω)	f <sub>o</sub> (Hz)	Frequency range (Hz; -10dB max.)	Sensitivity (dB/W)
A	3	8	145±29	f <sub>o</sub> to 22k	96±3dB
B	6	8	120±24	f <sub>o</sub> to 13	97±3dB

## Low-Cost Round Speakers

A range of low-cost round speakers of good quality that vary in size from a 100mm 1.5W type to a 254mm 50W speaker. They have a variety of applications, such as replacing or up-rating those used in radios and 'ghetto blasters', extension speakers, car systems and music centres/rack systems. The higher powered units, when used with a suitable tweeter and crossover, will form the basis of an excellent low-cost high fidelity speaker system. Type E is fitted with a centrally mounted chromed plastic cone to enhance the treble response.

Type	Overall size (mm)	Baffle cut-out (mm)	Fixing centres (mm)	Depth (mm)
A	100 x 100	95 dia.	85 x 85 x M5	36
B	120 x 120	110 dia.	85 x 85 x M5	42
C	120 x 120	110 dia.	85 x 85 x M5	42
D	165 dia.	144 dia.	110 x 110 x M5	55
E	206 dia.	185 dia.	140 x 140 x M5	69
F	254 dia.	234 dia.	175 x 175 x M5	100

## TWEETERS

### 50mm (2in.) Direct Radiant Tweeter

This tweeter is ideal as the high frequency unit in three-speaker systems. Average harmonic distortion: <0.75% Output sound level at 457mm

from front of speaker with 4V rms pink noise input: 101.5dB  
 Frequency response: 4.8kHz to 20kHz ±3dB  
 Max continuous rms input voltage: 35V  
 Max peak music power: 16W  
 Overall diameter: 51mm  
 Overall depth: 18mm  
 Total width: 70mm  
 Fixing centres: 62mm  
 Panel cut-out: 48mm dia.  
 Weight: 8g

## Audax High Performance Tweeters

Audax have been dedicated to manufacturing high quality speakers for over 50 years, currently manufacture in excess of 4,000,000 a year and display a flair for design and technical innovation that places them as one of the top speaker manufacturers in the world. This range of high quality tweeters offers exceptional clarity and sound quality and features examples of two of the company's finest design concepts:  
**Balanced Drive** – the mass of the one piece polymer diaphragm is symmetrical at the apex and driven by a 10mm formless voice coil. A phase plug is critically aligned with the diaphragm to give excellent dispersion characteristics.  
**Catenary Profile** – the contour of the diaphragm is fine tuned to attain maximum stiffness at the top of the dome. This minimises the break-up of the radiation surface at all frequencies to deliver a smoother, more natural response with low distortion.

## 20W Bullet Tweeter

A high quality-high frequency transducer with a substantially level frequency response from 5kHz to 15kHz, in a cast alloy body with a brushed finish front mounting flange and centre 'bullet'. A high quality tweeter for domestic hi-fi and all other music systems.

Flux density: 11,500 Gauss  
 Freq range: 6kHz to 15kHz  
 System power rating: 100W using HPX2 crossover  
 Unit power rating: 12-15 rms  
 Impedance: 8Ω  
 Acoustic output: 99dB (sensitivity 1W @ 1m)  
 Crossover freq: 5kHz min @ 18dB/octave  
 Overall diameter: 98mm  
 Overall depth: 45.5mm  
 Fixing centres: 4 x 84 x 5mm clear  
 Overall weight: 490g

## 45W Dome Tweeter

Audax

A compact, 14mm diameter polymer dome tweeter with ultra-light moving parts, and with a voice coil directly wound onto the diaphragm according to the 'direct drive' concept. Efficiency is in the order of 94.5dB. The perfect transfer of energy that results produces its excellent musical qualities, with high definition and energy. The voice coil is wound onto the high temperature polymer, which is then cooled by ferrofluid for high power handling.

### Specification

Nominal impedance: 8Ω  
 Resonant frequency: 2,050Hz  
 Frequency response: 2 to 20kHz  
 Nominal power handling: 45W  
 Sensitivity: 94dB  
 Voice coil diameter: 14mm  
 Minimum impedance: 6.9Ω  
 DC resistance: 5-7Ω  
 Voice coil inductance: 34μH  
 Voice coil length: 2mm  
 Former: Polymer  
 Number of coil layers: 2  
 Magnet dimensions: 38 x 8mm  
 Magnet weight: 30-1g  
 Flux density: 1.35T  
 Magnetic gap height: 1.5mm  
 Linear excursion: 0.25mm  
 Dimensions: 80 x 80mm  
 Fixing centres: 4 x 4.2mm dia. holes on 75.8mm dia. circle

Note that the voice coil overhangs the magnetic gap to ensure linear excursion of the dome.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

## 25mm 70W Soft Dome Tweeter

Audax

A 25mm impregnated textile dome tweeter suitable for the most demanding applications such as studio monitoring and Hi-Fi. It combines very high efficiency, high power handling and a wide frequency response that makes a lower than normal crossover frequency point possible.

The critically damped textile dome ensures an exceptionally smooth roll-off, an absence of colouration and is generally responsible for this speaker's ability for highly accurate detail and natural sound. The faceplate is solid aluminium.

### Specification

Nominal impedance: 8Ω  
 Resonant frequency: 1200Hz  
 Frequency response: 1k to 20kHz  
 Nominal power handling: 70W  
 Sensitivity: 91dB  
 Voice coil diameter: 25mm  
 Minimum impedance: 7Ω  
 DC resistance: 5-8Ω  
 Voice coil inductance: 13μH  
 Voice coil length: 1-6mm  
 Former: Aluminium  
 Number of coil layers: 2  
 Magnet dimensions: 75 x 15  
 Flux density: 1-6T  
 Magnetic gap height: 3mm  
 Linear excursion: 0-3mm  
 Dimensions: 100mm diameter  
 Fixing centres: 4 x 5mm dia. holes on 86mm dia. circle

Retail Unit Price each (inc. VAT).

## 1 1/4" - Soft Dome - 34mm

Audax

This textile dome tweeter fits the most demanding applications like studio monitoring. It combines very high efficiency, high power handling and the possibility of low crossover frequency. Features, replaceable voice coil assembly, 1 1/4" impregnated textile dome, solid aluminium face plate, very high efficiency and high power handling capacity.

## CAR TWEETER

### Micro 10mm Neodymium Polymer Dome.

This ultra compact tweeter is ideal for a growing number of applications: automotive, multimedias, telecommunications, HDTV and home theatres.

The unit is ultra light in weight at 10g, has a ferrofluid cooled voice coil, extended frequency response, ultra-light moving parts, encapsulated neodymium magnet and a balanced drive concept design.

### SPECIFICATION

**Primary Application**  
 Nominal Impedance 4Ω  
 Resonance Frequency 3000Hz  
 Nominal Power handling 25W  
 Sensitivity 85dB  
**Voice Coil**  
 DC Resistance 3.4Ω  
 Voice Coil Inductance 0.25μH

### MOUNTING KITS

Two mounting kits available for use with this tweeter:

**MY17T**  
 Flush mounting kit

**MY19V**  
 Surface mounting kit

Retail Unit Price each (inc. VAT).

## HI-FI SPEAKERS

### Audax High Performance Bass/Midrange Speakers

Audax have been dedicated to manufacturing high quality speakers for over 50 years, currently manufacture in excess of 4,000,000 a year and display a flair for design and technical innovation that places the as one of the top speaker manufacturers in the world. Every speaker within this range of high quality bass/midrange drivers features a high temperature voice coil (tailored to the driver's individual performance) for enhanced power handling capability and a stamped steel chassis (electro-statically sprayed for a consistent resistance to abrasion and corrosion) for excellent rigidity.

## 3" - Paper Cone Driver - 80mm

Audax

This compact size, low resonance and long throw capabilities of this driver makes it ideal for use in mini-enclosures, satellite systems or as a full range driver of high quality. Unit features a high loss high compliance rubber surround, coated paper cone, stamped steel chassis, high temperature voice coil, aluminium voice coil, aluminium voice coil former and extended bass response.

**SPECIFICATION**

**Primary Application**

Nominal Impedance 8Ω  
Resonance frequency 80Hz  
Nominal Power Handling 20W  
Sensitivity 86dB

**Voice Coil**

DC Resistance 3.5Ω  
Voice coil inductance 0.21mH

**Parameters**

Suspension compliance  $1.6 \times 10^{-3} \text{mN}^{-1}$   
Mechanical Q factor 1.96  
Electrical Q factor 0.73  
Total Q factor 0.53  
Mechanical resistance  $0.66 \text{kgs}^{-1}$   
Moving mass  $2.7 \times 10^{-3} \text{kg}$   
Effective piston area  $2.9 \times 10^{-2} \text{m}^2$   
VAS  $1.9 \times 10^{-3} \text{M}^3$

MY25C	3in full range	£11.900	£13.990

## 41/2" - Paper Cone Driver - 100mm

Audax

This 4" midrange has been designed for high end systems. It features a state of the art curvilinear paper cone, which is critically damped and coupled to a high-loss rubber surround, stamped steel chassis and a high temperature voice coil.

**SPECIFICATION**

**Primary Application**

Nominal impedance 8Ω  
Resonance Frequency 240Hz  
Nominal power handling 35W  
Sensitivity 89dB  
Cross over Frequency 500 to 800Hz

**Voice Coil**

DC Resistance 7.6Ω  
Voice coil inductance 0.23mH

**Parameters**

Suspension compliance  $0.1 \times 10^{-3} \text{mN}^{-1}$   
Mechanical Q factor 4.16  
Electrical Q factor 2.09  
Total Q factor 1.39  
Mechanical resistance  $1.52 \text{kgs}^{-1}$   
Moving mass  $4.2 \times 10^{-3} \text{kg}$   
Effective piston area  $0.57 \times 10^{-2} \text{m}^2$

MY27E	4 1/2in Midrange	£14.450	£16.990

## 61/2" - Paper Cone -170mm

Audax

Designed for high end compact 2 way systems, this 6 1/2 inch Bass-Midrange driver offers the ultimate in paper cone technology. It features a state of the art curvilinear cone which is critically damped with a visco elastic compound and is coupled to a high loss rubber surround.

**SPECIFICATION**

**Primary Application**

Nominal impedance 8Ω  
Resonance Frequency 42Hz  
Nominal power handling 60W  
Sensitivity 90dB

**Voice Coil**

DC Resistance 6.6Ω  
Voice coil inductance 0.41mH

**Parameters**

Suspension compliance  $1.2 \times 10^{-3} \text{mN}^{-1}$   
Mechanical Q factor 7.83  
Electrical Q factor 0.38  
Total Q factor 0.36  
Mechanical resistance  $0.4 \text{kgs}^{-1}$   
Moving mass  $11.9 \times 10^{-3} \text{kg}$   
Effective piston area  $1.39 \times 10^{-2} \text{m}^2$   
VAS  $32.5 \times 10^{-3}$

## 170mm 35W Bass/Midrange Driver

Audax

Designed for compact 2-way and multi-purpose wide band applications, this 170mm diameter paper cone driver has a corrugated paper surround coated with a rubber based damping compound. Ideal for bass, midrange and wide-band applications, the free air resonance is 65Hz. The high temperature voice coil is wound onto an aluminium former to ensure high power handling capacity. The chassis is stamped steel.

**Specification**

Nominal impedance: 8Ω  
Resonant frequency: 65Hz  
Frequency response: 60Hz to 10kHz  
Nominal power handling: 35W

Sensitivity: 90dB

Voice coil diameter: 25mm

Minimum impedance: 6.5Ω

DC resistance: 5.7Ω

Voice coil inductance: 0.26μH

Voice coil length: 10mm

Former: Aluminium

Number of coil layers: 2

Magnet dimensions: 72 x 15mm

Flux density: 1.0T

Magnetic gap height: 4mm

Linear excursion: ±3mm

Dimensions: 167mm dia. x 64mm deep

Fixing centres: 4 x 5.2mm dia. holes on 157mm dia. circle

Baffle cut-out: 142mm dia.

Total mass of unit: 0.67kg

Note that the voice coil overhangs the magnetic gap to ensure linear excursion of the cone.

Retail Unit Price each (inc. VAT).

Order Code	Type 3011	Price each exc. VAT	inc. VAT each

## 41/2" - Paper Cone Driver - 100mm

Audax

The compact size, low resonance and long throw capabilities of this driver make it ideal for use in mini-enclosures, satellite systems or as a full range driver of high quality. Featuring high loss, high compliance rubber surround, coated paper cone, stamped steel chassis, high temperature voice coil, aluminium voice coil former and extended bass response.

**SPECIFICATION**

**Primary Application**

Nominal impedance 8Ω  
Resonance Frequency 75Hz  
Nominal power handling 30W  
Sensitivity 86dB

**Voice Coil**

DC Resistance 5.7Ω  
Voice coil inductance 0.34mH

**Parameters**

Suspension compliance  $0.83 \times 10^{-3} \text{mN}^{-1}$   
Mechanical Q factor 2.09  
Electrical Q factor 0.61  
Total Q factor 0.47  
Mechanical resistance  $1.2 \text{kgs}^{-1}$   
Moving mass  $5.3 \times 10^{-3} \text{kg}$   
Effective piston area  $0.57 \times 10^{-2} \text{m}^2$   
VAS  $3.8 \times 10^{-3} \text{M}^3$

Retail Unit Price each (inc. VAT).

Order Code	Type 18107	Price each exc. VAT	inc. VAT each
MY26D	4 1/2in full range	£15.310	£17.990

## 61/2" - Paper Cone -170mm

Audax

Designed for compact 2-way high end bookshelf system, or floor standing 2 or 3 way systems, this 6 1/2" Bass-midrange driver features a patented TPX diaphragm coupled to a high loss, high compliance rubber suspension. TPX is an advanced polymer that is extremely rigid, very light and possesses high internal damping. Features, non resonant die cast chassis, ventilated chassis under spider, high loss, high compliance rubber suspension, edgedwood, flat copper wire, gold plated terminals

**SPECIFICATION**

**Primary Application**

Nominal impedance 8Ω  
Resonance Frequency 46Hz  
Nominal power handling 70W  
Sensitivity 90dB

**Voice Coil**

DC Resistance 6Ω  
Voice coil inductance 0.31mH

**Parameters**

Suspension compliance  $1.1 \times 10^{-3} \text{mN}^{-1}$   
Mechanical Q factor 10.62  
Electrical Q factor 0.46  
Total Q factor 0.11  
Mechanical resistance  $0.28 \text{kgs}^{-1}$   
Moving mass  $10.7 \times 10^{-3} \text{kg}$

MY34M1	6 1/2in Bass mid TPX	£36.580	£42.990

## TWEETERS AND HORNS

### Small Square and Rectangular Horns

Piezo electric horn tweeters ideal for medium sized 2-way and even 3-way speaker systems. The high impedance of the piezo electric material means that the unit can simply be connected directly across the terminals of the main driver to add extra treble sparkle. Two different designs are available, a square-faced circular horn and an equivalent rectangular horn offering wider horizontal dispersion.

#### Basic specification

Frequency response: 4kHz to 28kHz  
 Maximum continuous rms input voltage: 20V (= 100W into 4Ω)  
 Maximum pk input voltage: 28V

#### Square type

Overall size: 85 x 85mm  
 Overall depth: 67.7mm  
 Fixing centres: 71 x 71mm  
 Panel cut-out: 80mm dia.

#### Rectangular type

Overall size: 145 x 67.3mm  
 Overall depth: 50.9mm  
 Fixing centres: 132.2 x 54mm  
 Panel cut-out: 125.5 x 47mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
RT60Q	Square Piezo Tweeter	£4.070	£3.100	£2.350	£4.790
CJ83E	Rect Piezo Tweeter	£5.940	£3.450	£2.650	£6.990

### Standard Horn

This tweeter is designed for general purpose use in high fidelity, disco & PA speakers of all sizes.

Average harmonic distortion: 1%  
 Output sound level at 457mm from front of speaker with 4V rms pink noise input: 103dB  
 Frequency response: 3-9kHz to 28kHz ±3dB  
 Max continuous rms input voltage: 16V  
 Max peak music power: 35W  
 Overall size: 85 x 85 x 70mm deep  
 Fixing centres: 71 x 71mm  
 Panel cut-out: 76mm dia.  
 Weight: 63g

Available in two types. With mounting flange flush with front of horn. With mounting flange recessed 12mm so that front of horn may be more nearly flush with front of baffle when mounted.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
WF09K	Piezo Horn Flush	£5.090	£3.750	£3.150	£5.990
WF55K	Piezo Horn Recessed	£5.090	£3.750	£3.150	£5.990

### Wide Dispersion Horn

This tweeter is designed to give a wide dispersion pattern and is therefore ideal in stereo hi-fi systems and in high quality discos etc.

Average harmonic distortion: 0.5%  
 Output sound level at 457mm from front of speaker with 4V rms pink noise input: 104dB  
 Frequency response: 2kHz to 32kHz ±3dB  
 Max continuous rms input voltage: 20V  
 Max peak music power: 35W  
 Overall size: 185 x 83 x 108mm  
 Fixing centres: 86 x 86 x 63.5mm  
 Panel cut-out: 155 x 51mm  
 Weight: 130g

		1+	10+	25+	
WF56L	Wide Angle Piezo	£7.650	£7.450	£6.650	£8.990

### Large Rectangular Horn

A wide dispersion horn tweeter designed to give a wide pattern and therefore ideal for stereo use and does not insist that the listener be exactly on axis with the driver unit itself.

#### Basic specification

Frequency response: 2kHz to 28kHz  
 Max. continuous rms input voltage: 20V (= 100W into 4Ω)  
 Max. pk input voltage: 28V  
 Overall size: 187.3 x 79mm  
 Overall depth: 108.64mm  
 Fixing centres: 86 x 86 x 63.2mm  
 Panel cut-out: 158 x 54mm

Retail Unit Price each (inc. VAT).

		1+	10+	25+	
RT61R	Large Rect Horn	£6.800	£4.750	£4.150	£7.990

### Horn for Compression Drivers

Eminence

A superb quality standard fitting fibreglass horn with a 25mm throat designed for use with compression drivers. This horn offers a radial dispersion pattern, and when combined with such a driver it will be suitable for high-power, high-reliability applications such as PA and disco.

#### Specification

Rolloff: 1-2kHz  
 Lowest recommended crossover point: 1kHz  
 Dispersion: 90 x 40  
 Fitting holes: 3 M6 Holes on a 57mm PCD  
 2 M6 Holes on a 76mm PCD  
 Flanged throat: 25mm (1in.)  
 Overall dimensions: 290 x 160 x 150mm  
 Weight: 500g

Retail Unit Price each (inc. VAT).

ZC43W	Compression Horn	£38.280	£31.000	£28.250	£44.990

### 70W Horn Tweeter

A rectangular horn tweeter having a solid cast body 184 x 76mm, with a six hole fixing. It is a rectangular horn tweeter which disperses its sound output on a lateral plane, and has a horn cut-off frequency fixed at 820Hz, although the lowest input frequency should be double this to maintain efficiency.

#### Specification

Flux density: 9000 Gauss  
 Frequency range: 4 to 10kHz  
 System power rating: 70W using HPX2 crossover  
 Unit power rating: 12W  
 Impedance: 8Ω  
 Acoustic output: 97dB (sensitivity 1W @ 1m)  
 Crossover frequency: 1.7kHz min  
 Overall width x height: 184 x 76mm  
 Overall depth: 160mm  
 Fixing centres: 6 x 86mm + 86mm x 64mm, x 5mm clear  
 Overall weight: 647g

Retail Unit Price each (inc. VAT).

## 600W Wide Angle Horn Tweeter

Eminence

A constantly directive horn with a square section, designed to provide a smooth response up to 20kHz fully over the angles 90° horizontal and 90° vertical. A crossover must be used with this driver and the crossover point must be 3.5kHz or greater. Suitable crossovers can be RC99 depending on the system power handling required.

### Specification

Impedance:	8Ω
Frequency response:	3.5kHz to 20kHz
Sensitivity	105dB
Recommended crossover point >	3.5kHz
Power handling, using 6kHz, 18dB/octave crossover:	600W rms
Dispersion:	100° horizontal x 50° vertical
Dimensions:	190mm wide x 115mm high x 107.2mm deep
Weight:	700g

RC98G3	600W Wide Angle Horn	£34.030	£28.900	£26.000	£39.990

## 600W High Power Horn Tweeter

Eminence

A high power, square faced horn tweeter with circular section horn, suitable as a treble unit in 2-way and 3-way PA, disco, organ and similar sound amplification systems. It offers low distortion and an exceptionally flat frequency response over the range 2kHz to >20kHz, and radiated evenly over 60° horizontal and vertical angles. A crossover must be used with this driver and the crossover point must be 3.5kHz or greater. Suitable crossovers can be RC99 depending on the system power handling required.

### Specification

Impedance:	8Ω
Frequency response:	3.5kHz to 20kHz
Sensitivity:	105dB
Recommended crossover >	3.5kHz
Power handling, using 6kHz, 18dB/octave crossover:	600W rms
Dispersion:	80° conical
Dimensions:	87 x 87mm x 73.5mm deep
Weight:	700g

## Horn Driver

A tough, rugged mid-range compression driver featuring a 50mm (2in.) phenolic diaphragm and voice coil. When attached to a horn of the appropriate size, this highly-efficient 100W rms driver will provide clear audio reproduction over the 2kHz to 10kHz range. Must be used with a suitable crossover. Standard 35mm (1<sup>3</sup>/<sub>8</sub>in.) 18TPI thread coupling.

### Specification

Impedance:	8Ω
Power handling (rms):	100W
Power handling (peak programme):	200W
Frequency response:	2kHz to 10kHz
Output (SPL):	105dB
Dimensions:	160mm dia. x 88mm

## POWERLINE PIEZO HORNS

### Ceramic Tweeters

Motorola

CB22Y      CB23A      CB24B      CB26D      CB27E      CB28F

A range of Powerline piezo horns, unique in that they contain a built-in protection circuit consisting of a PTC resistor and tungsten bulb wired in parallel. When the amplifier output reaches several hundred watts continuous the PTC heats up and increases its resistance dramatically, immediately lowering the power to the driver. In order to avoid a sudden drop in sound pressure level a tungsten lamp, wired in parallel to the PTC, allows the driver to draw current whilst the PTC is in operation. The audible effect is similar to that produced by a level compressor. Below 400W the driver behaves normally (even during transients above 400W).

## HIGH POWER

### McKenzie Loudspeakers

CB18U

CB19V

CB20W

**CB18U 260mm 100W:** A high compliance, die-cast frame loudspeaker incorporating a rubber roll cone edge for low resonance. Good low frequency and low distortion performance in very compact 2- and 3-way systems for home, car or studio.

**CB19V 320mm 100W:** A versatile die-cast frame, bass/midrange loudspeaker with linen cone edge and rigid ribbed cone assembly. Ideal for use singly or in pairs in 2-way reflex systems.

**CB20W 320mm 200W:** A high power, die-cast frame, low resonant frequency loudspeaker suitable for all high quality studio type bass applications. The unit features a 65mm coil and neoprene cone edge.

Specification	260mm 100W CB18U	320mm 100W CB19V	320mm 200W CB20W
Impedance	8Ω	8Ω	8Ω

## HIGH POWER PROFESSIONAL

### 200mm (8in.) 100W Midrange Driver

Eminence

A paper cone driver with corrugated surround optimised for midrange use over a bandwidth of 600Hz to 4kHz in 3-way systems. Because of the specialised nature of this driver it is not suitable for use on its own or as a bass unit. In a 3-way system it can be used with any of the other bass and treble drivers in the same range.

#### Specification

Nominal impedance:	8Ω
Resonant frequency:	547.4Hz
Usable frequency response:	548Hz to 5kHz
Nominal power handling:	100W rms
Sensitivity:	102dB
Voice coil diameter:	38.1mm
Magnet weight:	1080g
Dimensions:	203mm dia. x 89mm deep
Fixing centres:	8 x 7mm dia. holes
on 197mm dia. circle	
Baffle cutout:	187.3mm dia.

#### Thiele-Small Parameters

Resonant frequency	$f_s$ : 547.40Hz
Impedance	$R_e$ : 7.08Ω
Coil inductance	$L_e$ : 0.14mH
Electromagnetic Q	$Q_{es}$ : 2.060
Mechanical Q	$Q_{ms}$ : 6.83
Total Q	$Q_{ts}$ : 1.580
Compliance equivalent volume	$V_{as}$ :

## 200mm (8in.) 100W Power Speaker

Eminence

A paper cone driver with plasticised linen surround that is suitable for general purpose use such as vocal PA, keyboards, discotheques, stage monitors and bass guitar.

### Specification

Nominal impedance: 8Ω  
Resonant frequency: 72Hz  
Usable frequency response: 72Hz to 4kHz  
Nominal power handling: 100W rms  
Sensitivity: 97dB  
Voice coil diameter: 50.8mm  
Magnet weight: 1080g  
Dimensions: 203mm dia. x 82mm deep

Fixing centres: 197mm dia. circle  
Baffle cutout: 187.3mm dia.

### Thiele-Small Parameters

Resonant frequency  $f_s$ : 72.5Hz  
Impedance  $R_e$ : 7.21Ω  
Coil inductance  $L_e$ : 0.73mH  
Electromagnetic Q  $Q_{es}$ : 0.27

## 250mm (10in.) 100W Power Speaker

Eminence

A loudspeaker optimised for lead guitar, also suitable for bass guitar, vocal PA, keyboards, discotheques, club music systems and stage monitors. Chassis is pressed steel.

### Specification

Nominal impedance: 8Ω  
Resonant frequency: 55Hz  
Usable frequency response: 55Hz to 7kHz  
Nominal power handling: 100W rms  
Sensitivity: 97dB  
Voice coil diameter: 50.8mm  
Magnet weight: 1080g  
Dimensions: 254mm dia x 101mm deep

Fixing centres: 8x7mm on 244.5mm dia. circle  
Baffle cutout: 235mm dia.

### Thiele-Small Parameters

Resonant frequency  $f_s$ : 55.04Hz  
Impedance  $R_e$ : 7.12Ω  
Electromagnetic Q  $Q_{es}$ : 0.38

Mechanical Q  $Q_{ms}$ : 6.55  
Total Q  $Q_{ts}$ : 0.36  
Compliance equivalent volume  $V_{as}$ : 69.91L/2.74cu.ft  
Peak diaphragm displacement volume  $V_d$ : 31.73cc

## 250mm (10in.) 200W PA Driver

Eminence

A 200W paper cone driver with corrugated surround with a performance optimised for lead guitar. Also suitable for bass guitar, vocal PA, keyboards, discotheques, club music systems and stage monitors. Chassis is pressed steel.

### Specification

Nominal impedance: 8Ω  
Resonant frequency: 65Hz  
Usable frequency response: 65Hz to 3.5kHz  
Nominal power handling: 200W rms  
Sensitivity: 99dB  
Voice coil diameter: 63.5mm  
Magnet weight: 1590g  
Dimensions: 254mm dia. x 108mm deep  
Fixing centres: 8 x 7mm on 244.5mm dia. circle  
Baffle cutout: 235mm dia.

### Thiele-Small Parameters

Resonant frequency  $f_s$ : 65.4Hz  
Impedance  $R_e$ : 5.67Ω  
Electromagnetic Q  $Q_{es}$ : 0.35  
Mechanical Q  $Q_{ms}$ : 8.34  
Total Q  $Q_{ts}$ : 0.33  
Compliance equivalent volume  $V_{as}$ : 35.53L/1.24cu.ft

## 300mm (12in.) 100W General Purpose Power Speaker

Eminence

A general purpose loudspeaker suitable for use in sound reinforcement systems, bass and lead guitar, keyboards, guitar combos, club music systems and stage monitors. The loudspeaker has a paper cone with a plasticised linen surround and a pressed steel chassis.

### Specification

Nominal impedance: 8Ω  
Resonant frequency: 49Hz  
Usable frequency response: 49Hz to 6kHz  
Nominal power handling: 100W rms  
Sensitivity: 100dB  
Voice coil diameter: 50.8mm  
Magnet weight: 1080g  
Dimensions: 309mm dia. x 113.5mm deep

Fixing centres: 8 x 7mm on 293.7mm dia. circle  
Baffle cutout: 284.2mm dia.

### Thiele-Small Parameters

Resonant frequency  $f_s$ : 49.50Hz  
Impedance  $R_e$ : 7.08Ω  
Electromagnetic Q  $Q_{es}$ : 0.45  
Mechanical Q  $Q_{ms}$ : 7.89  
Total Q  $Q_{ts}$ : 0.41  
Compliance equivalent volume  $V_{as}$ : 128.86L/4.55cu.ft

## 300mm (12in.) 100W Twin Cone Power Speaker

Eminence

A general purpose loudspeaker that features a twin cone to provide extended high frequency response. Ideal for use in full range PA systems, keyboard combos, club music systems and stage monitors. Available in 8Ω and 16Ω versions with a paper cone and plasticised linen surround. Steel chassis.

### Specification

Nominal impedance:	8Ω or 16Ω
Resonant frequency:	42Hz
Usable frequency response:	42Hz to 10kHz
Nominal power handling:	100W rms
Sensitivity:	98dB
Voice coil diameter:	50.8mm
Magnet weight:	1080g
Dimensions:	309mm dia. x 113.5mm deep
Fixing centres:	8 x 7mm on 293.7mm dia. circle
Baffle cutout:	284.2mm dia.

### Thiele-Small Parameters

Resonant frequency	$f_s$ : 42.21Hz
Impedance	$R_e$ : 7.14Ω

## 300mm (12in.) 100W Rock Speaker

Eminence

A loudspeaker specifically intended for use with lead guitar. The paper cone and surround help to recreate the legendary sound of the sixties rock scene, so providing a subtle mix of tonal and overdrive characteristics.

### Specification

Nominal impedance:	8Ω
Resonant frequency:	94Hz
Usable frequency response:	95Hz to 6kHz
Nominal power handling:	100W rms
Sensitivity:	99dB
Voice coil diameter:	50.8mm
Magnet weight:	1590g
Dimensions:	309mm dia. x 18.3mm deep
Fixing centres:	8 x 7mm on 293mm dia. circle
Baffle cutout:	284mm dia.

### Thiele-Small Parameters

## 300mm (12in.) 200W Power Speaker

Eminence

A 300mm (12in.) 200W paper cone driver with corrugated surround, optimised for sound reinforcement systems. Also suitable for lead and bass guitar, keyboards, guitar combos, club music systems and stage monitors. Chassis is pressed steel.

### Specification

Nominal impedance:	8Ω
Resonant frequency:	58Hz
Usable frequency response:	55Hz to 6kHz
Nominal power handling:	200W rms
Sensitivity:	98dB
Voice coil diameter:	63.5mm
Magnet weight:	1590g
Dimensions:	309mm dia. x 118.3mm deep
Fixing centres:	8 x 7mm on 293mm dia. circle
Baffle cutout:	284.2mm dia.

Baffle cutout:

## 380mm (15in.) 200W Bass Power Speaker

Eminence

A higher power version of the 380mm (15in.) 100W (XG52G) featuring an extended low frequency response. This loudspeaker is specifically intended as a bass driver in multiway systems and for bass guitar. The loudspeaker has a paper cone with plasticised linen surround and pressed steel chassis.

### Specification

Nominal impedance:	8Ω
Resonant frequency:	41Hz
Usable frequency response:	41Hz to 5kHz
Nominal power handling:	200W rms
Sensitivity:	99dB
Voice coil diameter:	63.5mm

## 300mm (12in.) 200W PA Speaker

Eminence

This high performance, rugged, loudspeaker features a cast aluminium chassis with a paper cone and plasticised linen surround. Designed for the professional user with performance optimised for studio monitoring and sound reinforcement systems. Also suitable for vocal PA keyboards, lead and bass guitar and combos, club music systems, discos and stage monitoring.

### Specification

Nominal impedance: 8Ω  
 Resonant frequency: 56Hz  
 Usable frequency response: 50Hz to 6kHz  
 Nominal power handling: 200W rms  
 Sensitivity: 99dB  
 Voice coil diameter: 76.2mm  
 Magnet weight: 2690g  
 Dimensions: 314.3mm dia. x 139.1mm deep

Fixing centres: 8 x 7mm dia. holes on 293.7 dia. circle

## 380mm (15in.) 500W PA Driver

Eminence

A precision engineered loudspeaker for the discerning professional user and musician, that has been designed, engineered and manufactured to astonishing tolerances to produce a loudspeaker offering outstanding sound quality and reliability. The paper cone is supported by a corrugated plasticised cloth surround, and the huge 100mm diameter voice coil is made from polyamide-imide coated copper wound on a kapton former. Magnet composition is APS ferrite. Chassis is diecast aluminium.

### Specification

Nominal impedance: 8Ω  
 Resonant frequency: 38Hz  
 Usable frequency response: 38Hz to 2kHz  
 Nominal power handling: 500W rms  
 Sensitivity: 98dB

## 450mm (18in.) 600W PA Driver

Emlence

A precision engineered loudspeaker for the discerning professional user and musician, combining unrivalled engineering accuracy with good value and outstanding reliability. A loudspeaker that combines high power handling with the sound quality needed in digital recordings with the strength and reliability needed for touring. The paper cone is supported by a corrugated plasticised cloth surround, and the huge 100mm diameter voice coil is made from polyamide-imide coated copper wound on a kapton former. Magnet composition is APS ferrite. Chassis is diecast aluminium.

### Specification

Nominal impedance:	8Ω
Resonant frequency:	28Hz
Usable frequency response:	28Hz to 2kHz
Nominal power handling:	600W rms

We endeavour to hold stocks at all Maplin and Maplin Mondo stores, but to be sure, please phone before travelling. See front of catalogue for addresses and telephone numbers

## CROSSOVERS

### HPX2

A two-way crossover with a 12dB/octave high pass filter operating at 5kHz. Power handling capability up to 200W. Ideal for use with our 50W Bullet and 70W Horn Tweeters.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	4+	10+	1+
YJ03D	Crossover HPX2	£11.900	£9.200	£8.300	£13.990

## Two-way 6dB/Octave

A crossover network enclosed in a small plastic box. The crossover allows a woofer and tweeter to work together. Overall size (excluding solder tags) 85 x 51 x 30mm high. Impedance 8Ω. Power handling 40W. Crossover frequency approximately 2.5kHz at 6dB/octave.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	4+	10+	1+
YT47B	X-Over 2-Way 6dB	£3.990	£2.500	£2.250	£4.690

## Two-way 12dB/Octave

A crossover network for operating a woofer and a tweeter together. Components are mounted on a plastic panel (100 x 60mm) for fixing inside a cabinet. Power handling: 40W rms. Crossover is at approximately 3kHz (12dB/octave).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	4+	10+	1+
WF02C	Crossover 2-Way	£6.450	£4.100	£3.500	£7.590

## Three-way 6dB/Octave

A crossover network for operating a woofer, tweeter and mid-range speaker together. Components are mounted on a paxolin pcb 100 x 60mm, for fixing inside a cabinet. Power handling 60W. Impedance 8Ω. Crossover frequencies approximately 1kHz and 5kHz at 6dB/octave. Overall height 30mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3385	Price each exc. VAT			inc. VAT each
		1+	4+	10+	
YT46A	X-Over 3-Way 6dB	£4.240	£3.400	£3.050	£4.990

## Three-way 12dB/Octave

A crossover network for operating a woofer, tweeter and mid-range speaker together. Components are mounted on a plastic panel (100 x 60mm) for fixing inside a cabinet. Power handling 60W rms. Crossovers are at approximately 700Hz (6dB/octave) and 3kHz (12dB/octave).

Retail Unit Price each (inc. VAT).

Order Code	Type 3387	Price each exc. VAT			inc. VAT each
		1+	4+	10+	
WF03D	Crossover 3-Way	£6.800	£4.750	£4.000	£7.990

## Three-way 100W

A crossover network for operating a woofer, tweeter and mid-range speaker together. Components are mounted on a paxolin pcb 115 x 95mm, for fixing inside a cabinet. Power handling 100W. Impedance 8Ω. Crossover frequencies approximately 1kHz and 4kHz at 12dB/octave. Overall height 30mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3388	Price each exc. VAT			inc. VAT each
		1+	4+	10+	
YT44X	X-Over 3-Way 100W	£7.310	£5.900	£5.200	£8.590

## Three-way 150W

A crossover network for operating a woofer, tweeter and mid-range speaker together. Components are mounted on a paxolin PCB 151 x 90mm, for fixing inside a cabinet. Power handling 150W. Impedance 8Ω. Crossover frequencies approximately 1.2kHz and 5kHz at 12dB/octave. Overall height 30mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3389	Price each exc. VAT			inc. VAT each
		1+	4+	10+	
YT45Y	X-Over 3-Way 150W	£8.500	£6.250	£5.750	£9.990

## HPX7 Crossover

The HPX7 is primarily designed for use with the 50W Compression Driver and suitable bass drivers but is suitable for any use requiring a 2.2kHz crossover. The HPX7 crossover is of the LC type with a crossover operating at 2.2kHz. The bass section rolls off from 2.2kHz at 12dB/octave and the high-pass section operates at the same frequency but at 18dB/octave. The maximum power handling capacity is 400W with no attenuation and when using the attenuators the power rating is 250W. It should be noted that the power distribution at 2kHz for normal music programme is 80% to the bass and 20% to the HF units. Also incorporated in the design is the opportunity for the user to select or vary the amount of HF brilliance/loudness by attenuating or reducing the HF output in 1dB steps to -6dB to achieve a perfect sound balance between the bass and the treble units. This is done by a constant impedance technique which keeps the HF section matched to its stated impedance of 8Ω.

Retail Unit Price each (inc. VAT).

Order Code	Type 3391	Price each exc. VAT			inc. VAT each
		1+	4+	10+	
XJ56L	X-Over 2.2kHz 400W	£33.180	£28.900	£26.400	£38.990

## HPX8 Crossover

The HPX8 is an 18dB/octave high pass filter operating at 5kHz in systems with power handling up to 250W. This crossover is designed specifically for use with the 40W Compression Driver (RC97F).

An attenuator resistor is supplied with the network and may be connected if required to decrease the sensitivity or increase power handling.

Retail Unit Price each (inc. VAT).

Order Code	Type 3392	Price each exc. VAT			inc. VAT each
		1+	4+	10+	
XJ57M	X-Over 5kHz 250W	£15.310	£13.600	£12.400	£17.990

## HPX9 Crossover

The HPX9 designed for use with the Big Cat loudspeaker range. The HPX9 crossover is of an LC type 3-way four section crossover operating at 500Hz and 6.5kHz. The bass and mid sections roll off at 12dB/octave and the mid and tweeter sections roll off at 12dB/octave. The maximum power handling capacity is 400W with no attenuation and when using the attenuators the power rating is 250W. It should be noted that the power distribution at 500Hz for normal music programme is 60% to bass and 40% to midrange. Also incorporated in the design is the opportunity for the user to select or vary the amount of HF and midrange unit loudness by attenuating these sections by -2dB or -4dB to achieve the best sound balance between the selected loudspeakers. This is done by a constant impedance technique which keeps each section matched to its stated impedance of 8Ω.

Retail Unit Price each (inc. VAT).

XJ58N	X-Over 500Hz/6.5kHz	£55.310	£45.950	£41.000	£64.990

## BINDING POSTS

### Twin Terminal Post

Gold-plated brass terminal posts, one with a red and one with a black knob on a twin base having one part red and one part black, so that the part on the outside of the chassis can be either red or black. Rated 15A at 240V. Each post has a 4mm top socket and a 2.1mm dia. hole in post. Knob size 16 x 15mm dia. Fits panels from 1.2mm dia. to 7mm thick. Panel cut-out requires two 12.7mm holes on 18.5mm centres. Bezel size 35mm x 16mm.

Retail Unit Price each (inc. VAT).

CX84F	30A Post Black	£1.260	£1.080	£0.950	£1.490

## Amplifier and Speaker Terminals

A fully touch-proof connector assembly, ideal for use in speaker to amplifier connections and for use with banana plugs. Features one red and one black terminal to ensure polarity is easily maintained. Bared cables can be gripped by tightening each terminal down, once the cable has been inserted into an aperture at the side of each terminal. Rated at 30A, with solderable or solder tag connections on the equipment side. Fixing holes are required with a pitch of 19mm and each with a diameter of 13mm.

### Specification

Contact ratings: 30A  
Fixings: Same as standard XLR connectors

See Section 8, Car Products for our full range of Gold-Plated Connectors

## Speaker Terminal Posts

**Shark**

Both versions of these speaker terminal posts have 7.3mm cable holes. The longer terminal post (VM51F) is ideal for use with wooden cabinets while the shorter version (VM52G) is for use in metal cases.

**EACH PACK CONTAINS 2 RED AND 2 BLACK SPEAKER TERMINAL POSTS**

Retail Unit Price each (inc. VAT).

Order Code	Type 13402	Price each exc. VAT			inc. VAT each
		1+	4+	10+	1+
VM51F	Long Speaker Posts	£17.010	£16.250	£15.000	£19.990

## Quick Connection Lever Terminals

Spring loaded, lever action, quick connection terminals which will hold wires in a vice-like grip. These terminals, originally intended for terminating loudspeaker leads, have many uses.

The 2-way lever terminal on a round escutcheon has one red and one black lever marked '+' and '-', and 'INPUT'. Escutcheon diameter 74mm. Requires 50mm diameter panel cut-out. Fixing centres 43.5 x 43.5mm x 3mm clear. Overall depth 28mm.

The 2-way lever terminal on a rectangular escutcheon has one red and one black lever. Escutcheon size 55 x 24mm. Fixing centres 43.5mm x 3mm clear. Max depth 22mm. The two solder tags are 4mm from one edge and 19mm apart. The 4-way type has two black and two red levers on a base 65 x 17.5mm. Fixing centres 58mm x 3mm clear. Max depth 22mm. The four solder tags are 4mm from one edge and 13mm apart.

Retail Unit Price each (inc. VAT).

## Loudspeaker Amplifier Connectors

**Neutrik**

An extremely robust four pole cable plug and mating chassis loudspeaker connector configuration. The chassis connector is suitable for airtight speaker cabinets. A 'latch lock' action mates the cable plug with the chassis socket and is locked by a securing ring mechanism. This ensures that leads are reliably secured. The cable plug dismantles into 4 separate parts and the cable is secured by screw terminals and clamped by the Neutrik chuck-type strain relief. The chassis socket terminals provide soldering points for internal wiring.

(Dimensions in mm)

## Gold Plated Binding Posts

A pair of speaker connection posts available for either standard (FR66W) or bi-wiring (FR67X) techniques. Both versions use gold plated binding posts mounted on plastic recessed escutcheons. The posts will accept connections made via 4mm banana plugs, spade terminals or bare wire to a diameter of up to 5mm. The bi-wiring version has 4 posts connected by two sets of gold plated jumpers.  
Standard Plate:  
Overall dimensions: 93 x 79 x 24mm  
Mounting hole: 73 x 53mm

## FLAT SPEAKER CABLE

### Micro Flat Speaker Cable

This high performance micro flat speaker cable is perfect for connecting your speakers invisibly.

At only 0.5mm thick this oxygen free speaker cable has a high strength adhesive back that will stick to most surfaces and, a paintable jacket, meaning that it can be painted or wallpapered over or run under carpet for invisible installation. Or, the off white colour of the jacket blends quite easily with most decors. Hookup is simple - all you need are scissors and a small screwdriver.

This brilliant cable has 18 AWG oxygen free copper conductors and comes complete with 8 corrosion resistant gold plated pins maximising signal transfer and minimising signal loss.

Available in two lengths 30ft (Order code - MX99H) and 50ft (Order code - MX83E)

Retail Unit Price each (inc. VAT).

MX83E 1	flat spkr cab 50ft	£51.050			£59.990

## ACOUSTIC PADS

### Acoustic Pads

Spectra Dynamics

A selection of acoustically absorptive panels for use on the back of stage and monitor loudspeaker enclosures. Constructed from an advanced polymer, these pads absorb most of the energy from the incident plane, dissipating the rest at right angles. The effect is a much clearer, less coloured sound quality, that will provide spatial depth and sharper imaging. Available in two types, spherical concave segment (CB37S), sold in pairs, and linear segment (CB41U), sold singly.

#### Specification

Colour: Charcoal  
Surface emulations: Spherical concave segment/linear segment  
Defined radius: 200mm (Spher. concave)  
Focal point: 100mm (Spher. concave)  
Overall dimensions: 280 x 210mm (L x W)  
Density/hardness: 1.36/<15°-A  
Rebound resilience: <15%.

Retail Unit Price each (inc. VAT).

Order Code	Type 9910	Price each exc. VAT			inc. VAT each
		1+	10+	100+	
CB37S	Spher/Concave Panel	£17.010			£19.990

## Acoustic Speaker Pads

Spectra Dynamics

A range of circular 'Magnapad' acoustic absorption pads to be placed on the back of the cone for use with professional stage and monitor speakers. Specially designed to absorb unwanted vibrations directed at the speaker chassis, coils and magnets, and to prevent further sound reflections off the flat surfaces. Constructed from an advanced polymer material with a spherical segment surface emulation to provide maximum sound dissipation away from the incident plane. Available in various diameters and colours to suit different sized speaker enclosures. Each pack contains two items.

Type	Defined Radius (mm)	Focal Point (mm)	Overall Diameter (mm)	Order Code
Magnapad Gold 3	45	22.5	75	CB38R
Magnapad Gold 5	75	38.5	125	CB39N
Magnapad Gold 7	105	52.5	175	CB40T

NOTE: Maximum edge thickness = 12.5mm, density/hardness = 1.36 / <15° A and rebound resilience <15% for all types.

Retail Unit Price each (inc. VAT).

Order Code	Type 9679	Price each exc. VAT			inc. VAT each

CB39N	Speaker Pads 125mm	£6.800			£7.990
CB40T	Speaker Pads 175mm	£9.350			£10.990

## CABINETS

### Professional Type

A range of very robust, high quality speaker cabinets designed for disco or PA use. Each is finished in hard wearing black vynide, and has carrying handles inset into both sides. All models have a removable grille covered in a smart black cloth. Speaker drivers are loaded from the front of the front baffle to ensure a perfect seal once they have been fitted. The cabinets are not lined internally, and the sound quality can be greatly improved by lining the cabinets with our Acoustic Wadding (RY06G) shown elsewhere in this section. Cutouts for speakers are provided on the baffle (see table below). Each cabinet is supplied with four clamps to hold the large bass speakers in place, and 8mm holes have been drilled at 90° intervals around the bass cutout of each cabinet, and threads have been fitted which accept the clamp bolts. The tweeters are held in place by screws (not included). There are three models in the range: Type 1 (GL23A) will accommodate a single 300mm bass unit and two bullet-type tweeters; Type 2 (XB28F) will accommodate two 300mm bass units and two bullet-type tweeters; and Type 3 (GL24B) will accommodate a single 380mm bass unit, two bullet-type tweeters and a horn tweeter. All cabinets are provided with two 35mm holes on the rear for installing flush-mounting sockets. A part-drilled hole, which has been sunk into the inside of the bottom panel, is included, which can be opened fully with a keyhole saw or similar, so that a tripod mount (such as our KU54J) can be fitted, by using the minimum of necessary woodworking.

Model	Overall dimensions (mm)	Approx. internal volume (cm <sup>3</sup> )	Cutouts provided
Type 1	H: 526mm W: 450mm	51,000	284mm (bass) 2 x 70mm (treble)
Type 2	D: 287mm H: 786mm W: 450mm	71,000	2 x 284mm (bass) 2 x 70mm (treble)
Type 3	D: 280mm H: 725mm W: 512mm	111,000	354mm (bass) 2 x 70mm (treble) 53mm x

154mm\* (horn treble)  
\* Please note that the vertical dimension of the horn tweeter cut out on the Type 3 cabinet increases to 70mm towards one end. This is to enable the magnet assembly to be inserted through the cut out.

Retail Unit Price each (inc. VAT).

See Section 10, Connectors for our full range of Audio Connectors.

## BOX COVERING

### Close Weave Loudspeaker Grille Cloth

A needle punched, carpet style, heavy duty covering cloth for stage equipment such as speakers guitar amplifiers etc. Available in dark grey with either thin or thick pile or in a dappled grey with thin pile. extremely tough and hard wearing.

KS56 is plain grey thick pile.

KS45Y is plain grey thin pile

KS47B is dappled grey thin pile.

Note: The carpet is sold in multiples of 1/4m in a width of approximately 1.5m (60in). We will cut to length required in multiples of 1/4m only. Maximum length in one piece approx 45m.

Please order in multiples of 1/4m e.g. to order 1m of KS45Y, order 4 KS45Y; to order 3 3/4m order 15 x KS45Y.

Retail Unit Price each (inc. VAT).

Order Code	Type 1721	Price each exc. VAT			inc. VAT each
		1+	10+	100+	
KS48C 1	strndd spkr cloth	£1.690			£1.990
KS49D 1	hrd wearing spkr cloth	£1.940			£2.290
KS50E 1	thick weave spkr cloth	£1.690			£1.990

## Vynide Covering Cloth

A high-quality embossed black vynide for covering cabinets. Very hard-wearing. Available in two widths: 1.3m (51in.) and 0.6m (23<sup>1</sup>/<sub>2</sub>in.) and sold per 1/4m length (9.8in.). Note: Price shown is for 1/4m length. We will cut to length required in multiples of 1/4m only. Maximum length in one piece 24m. Please order in multiples of 1/4m, i.e. to order 1m of XR95D, order 4 XR95D; to order 33/4m of XR95D order 15 XR95D. Shops only stock pre-cut length.

Retail Unit Price each (inc. VAT).

Order Code	Type 3307	Price each exc. VAT			inc. VAT each
		1+	96+	192+	1+
XR95D	Vynide 51m.	£2.800	£1.220	£1.130	£3.290
XS05F	Vynide 23.5in.	£1.690			£1.990

## Buffalo Covering Cloth

A high-quality heavily-embossed shiny black plastic material with a 'buffalo-skin' design. Very hard wearing. Available in two widths: 1.27m (50in.) and 0.6m (23.5in.) and sold per 1/4m length (9.8in.). Note: Price shown is for 1/4m length. We will cut to length required in multiples of 1/4m only. Maximum length in one piece 25m. Please order in multiples of 1/4m, i.e. to order 1m of XR96E, order 4 XR96E; to order 33/4m of XR96E, order 15 XR96E. Shops only stock pre-cut length.

Retail Unit Price each (inc. VAT).

		1+	96+	192+	1+
XR96E	Buffalo 50in.	£2.800	£1.150	£1.030	£3.290
XS06G	Buffalo 23.5in.	£1.690			£1.990

## SPEAKER CLOTH

### Close Weave Loudspeaker Grille Cloth

An acoustically transparent loudspeaker grille cloth. All types are plain black in three thicknesses KS48C the thinnest and KS50E the thickest (KS50E is like felt in texture and therefore ideal for hiding speakers under your parcel shelf). All types are made from non flammable 100% polyester. Note: The cloth is sold in multiples of 1/2m in a width of approximately 1.5m(60in). We will cut to length required in multiples of 1/2m only. Maximum length in one piece 64m (KS50E 59m) for example to order 1m of KS48C, order 2 x KS48C; to order 2 1/2m of KS50E, order 5 KS50E.

Retail Unit Price each (inc. VAT).

Order Code	Type 1775	Price each exc. VAT			inc. VAT each
		1+			1+
KS48C	standard spkr cloth	£1.690			£1.990
KS49D	hd wearing spkr cloth	£1.940			£2.290
KS50E	thick weave spkr cloth	£1.690			£1.990

### Diamond Pattern

Loudspeaker Grille Cloth A high quality black plastic fibre cloth woven into a small diamond pattern, for use as grille cloths on loudspeaker cabinets. The material is acoustically highly transparent. It is

available in two widths: 1.32m (52in.) and 0.61m (24in.) and is sold per 1/4m (9.8in.) length. Note: Price shown is for 1/4m length. We will cut to length required in multiples of 1/4m only. Max length in one piece 24m. Please order in multiples of 1/4m, i.e. to order 1m of XS14Q, order 4 XS14Q; to order 33/4m of XS14Q, order 15 XS14Q. Shops only stock pre-cut lengths.

Retail Unit Price each (inc. VAT).

Order Code	Type 3401	Price each exc. VAT			inc. VAT each
		1+	96+	192+	1+
XS14Q	Diamond Cloth 1.32m	£4.070	£2.800	£2.500	£4.790
XS15R	Diamond Cloth 0.61m	£2.620			£3.090

### Stripe Pattern Loudspeaker Grille Cloth

A black plastic fibre cloth woven into an attractive stripe pattern and suitable for use as grille cloths on loudspeaker cabinets etc. The material is available in two widths: 1.49m (58.7in.) and 0.72m (28.3in.) and is sold per 1/4m (9.8in.) length. Note: Price shown is for 1/4m length. We will cut to length required in multiples of 1/4m only. Max length in one piece 40m. Please order in multiples of 1/4m, i.e. to order 1m of XS07H, order 4 XS07H; to order 33/4m of XS07H, order 15 XS07H. Shops only stock pre-cut lengths.

Retail Unit Price each (inc. VAT).

Order Code	Type 3402	Price each exc. VAT			inc. VAT each
		1+	96+	192+	1+
XS07H	Stripe Cloth 1.49m	£3.900	£2.750	£2.450	£4.590
XS09K	Stripe Cloth 0.72m	£2.370			£2.790

### Loudspeaker Grille

A solid black nylon grille material for loudspeaker cabinets. Available only 0.61m (24in.) wide and sold per 1/4m (9.8in.) length. Note: Price shown is for 1/4m length. We will cut to length required in multiples of 1/4m only. Max length in one piece 15m. Please order in multiples of 1/4m, i.e. to order 1m of XR94C, order 4 XR94C; to order 33/4m of XR94C, order 15 XR94C. Shops only stock pre-cut lengths.

Retail Unit Price each (inc. VAT).

Order Code	Type 3403	Price each exc. VAT			inc. VAT each
		1+	96+	192+	1+
XR94C	Black Nylon Grille	£1.360	£1.200	£1.150	£2.190

### Open Weave Loudspeaker Grille Cloth

An acoustically transparent loudspeaker grille cloth in black with either a fine open weave pattern or a large 'diamond' pattern. Note: The cloth is sold in multiples of 1/2m in a width of approximately 40in. We will cut to length required in multiples of 1/2m only. To order 1m of AB60Q quote 2 AB60Q. To order 2 1/2m of AB70M quote 5 AB70M. Shops only stock pre-cut lengths.

Retail Unit Price each (inc. VAT).

Order Code	Type 4773	Price each exc. VAT			inc. VAT each
		1+			1+
AB60Q	Fine Weave Cloth	£1.940			£2.290
AB70M	Large Weave Cloth	£1.690			£1.990

## Loudspeaker Cabinet Wadding

A high quality polyester wadding, acoustically designed for use in loudspeaker cabinets. The material is approximately 19mm (approx. 3/4in.) thick, but may be layered to make up greater thicknesses. Available in 0.61m (24in.) widths only, and is sold per 1/2m (19 1/2in.). Note: Price shown is for 1/2m length. We will cut to length required in multiples of 1/2m only. Maximum length in one piece: 20m. Please order in multiples of 1/2m, i.e. to order 1m of RY06G, order 2 RY06G; to order 31/2m order 7 RY06G.

Retail Unit Price each (inc. VAT).

Order Code	Type 3400	Price each exc. VAT			inc. VAT each
		1+	96+	192+	1+
RY06G	Acoustic Wadding	£1.350	£0.720	£0.690	£1.590

## SPEAKER GRILLS

### Round Loudspeaker Grilles

A range of protective, circular metal grilles. The grilles are finished in matt black and have a PVC covering strip around the edge. Fitting is by loudspeaker fixing clamps, (e.g. FJ40T). Available in the following sizes: 127, 203, 254, 305, 381 and 457mm (5, 8, 10, 12, 15 and 18in.) diameter.

Retail Unit Price each (inc. VAT).

Order Code	Type 3405	Price each exc. VAT			inc. VAT each
		1+	10+	24+	1+
FJ38R	5in Speaker Grille	£1.260	£1.090	£0.980	£1.490
FJ39N	8in Speaker Grille	£1.690	£1.450	£1.280	£1.990
YK71N	10in Speaker Grille	£2.540	£2.000	£1.800	£2.990
YK72P	12in Speaker Grille	£3.390	£2.600	£2.400	£3.990
YJ04E	15in Speaker Grille	£3.820	£3.300	£3.000	£4.490
YJ05F	18in Speaker Grille	£6.370	£5.500	£5.100	£7.490

### Fine Speaker Grills

Speaker grills are available in 3 diameters, 8"(KS74), 10"(KS75), 12"(KS76).

Retail Unit Price each (inc. VAT).

Order Code	Type 1772	Price each exc. VAT			inc. VAT each
		1+			1+
KS74R	Speaker grill 8	£1.690			£1.990
KS75S	Speaker grill 10	£2.540			£2.990
KS76H	Speaker grill 12	£3.390			£3.990

## ACCESSORIES

### Loudspeaker Fixing Clamp

A fixing clamp suitable for speakers of 254, 305 and 381mm (10, 12 and 15in.) diameter. Made from tough moulded plastic, fixing is by nut and bolt. When clamping down, the fixing clamp bends slightly to give the fixture a high degree of resilience.

Retail Unit Price each (inc. VAT).

Order Code	Type 3405	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
BK30H	Spir Fixing Clamp	£0.417	£0.260	£0.180	£0.490

### Loudspeaker Stand

A very sturdy, heavy duty, tubular loudspeaker stand that extends to a height of 1.98m. The stand is supported by three legs which are 36mm diameter. The main stem is also 36mm diameter, the telescopic section is 33mm diameter. Strong handed bolts are used to clamp the movable parts in position. A wide removable loudspeaker plate is provided to fix the stand to the loudspeaker. Finished in hard wearing black paint. Supplied with fixing screws. Max. weight on stand 32kg.

Retail Unit Price each (inc. VAT).

Order Code	Type 3408	Price each exc. VAT			inc. VAT each
		1+	4+	10+	
XM28F	HD Speaker Stand	£39.140	£32.000	£29.000	£45.950

### 'Top Hat' Speaker Stand

A heavy-duty pole mounting speaker stand which has been designed to be recessed in a speaker cabinet. This system is intended for use with PA and mobile disco speakers which need to be transported often and set up quickly. In particular, it is suitable for our GL23A, GL24B and XB28F cabinets which already have a hole part-drilled for this purpose. To fit, a 44mm diameter hole is drilled in the bottom of the cabinet, the top hat is inserted and its flange is secured in place by 4 screws (9mm holes being provided for this purpose). A 105mm long 'hollow' with a diameter of 35mm is then available which will safely accommodate poles or tripods of between 25mm and 33mm in diameter. The maximum weight that the overall support system can carry is limited by the stand used and the cabinet. However, it must not exceed 150kg. The top hat is made from aluminium, weighs 380g and is black in colour. The flange, which is 3mm tall and 110mm in diameter, could be flush-mounted on the cabinet bottom if a suitable recess is provided. Overall height: 115mm. Mounting: 4 equally spaced 9mm holes on an 80mm PCD.

Retail Unit Price each (inc. VAT).

Order Code	Type 3410	Price each exc. VAT			inc. VAT each
		1+	4+	10+	
KU54J	Top Hat Speaker Stand	£5.090	£4.500	£4.100	£5.990

Account Enquiries: 01702 554187

## Bass Reflex Tubes

KS84F KS85G

KS86T KS87U

For home constructors of speaker cabinets, these plastic tubes are essential. Manufactured in a black ABS material, these tubes are required as the ports in reflex design.

Four types are available for different cabinet sizes. All sizes in mm.

Code	KS85G	KS84F	KS86T	KS87U
Port dia	35.5	52.5	40.5	54.7
Cut out dia	39.7	56.8	45.0	59.6
Flange dia	58.7	75	61.8	71.5
length	81.3	81.1	121.5	129.0

Retail Unit Price each (inc. VAT).

Order Code	Type 17002	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
KS84F	Bass reflex tube	£0.842	£0.758	£0.674	£0.990
KS85G	Bass reflex tube	£0.757	£0.682	£0.606	£0.890
KS86T	Bass reflex tube	£1.260	£1.140	£1.010	£1.490
KS87U	Bass reflex tube	£1.690	£1.520	£1.350	£1.990

## Metal Speaker Clamping Kit

A sturdy loudspeaker clamping kit comprising 108mm (4 1/4in.) Whitworth bolts 38mm long, 4 T-nuts, 4 star washers and 4 clamps in 3mm thick black finish steel. The kit may be used without the clamps to fix 254mm (10in.) or 305mm (12in.) speakers to the front or the rear of a baffle using the holes in the speaker chassis. If rear mounting, the bolts may have to be cut short with a hacksaw if they protrude too much through to the front. Put a nut or first before sawing, then removing the nut will clean up the end of the thread as it is unscrewed. The T-nuts require holes in the baffle of 9.5mm (3/8in.) clearance into which they can be tapped home lightly with a hammer. Alternatively the speaker chassis can be gripped on four points around the edge by the right angled clamps, using the bolts and T-nuts in a 'stand off' position from the chassis. The clamps are 42mm long x 25mm wide, and have a 10.5mm deep fulcrum.

Retail Unit Price each (inc. VAT).

Order Code	Type 3402	Price each exc. VAT			inc. VAT each
		1+	10+	24+	
FJ40T	Speaker Clamp Kit	£1.860	£1.750	£1.650	£2.190

## SOUNDERS

### TRANSDUCERS

#### Ultrasonic Transducers

A high sensitivity ultrasonic transmitter and receiver, sold only in pairs, for sending and receiving ultrasonic sound through the air, either as a continuous wave or pulses. Applications include burglar alarm systems, proximity switches, liquid level meters, anti-collision devices, counters for moving objects, TV remote control systems etc.

#### Characteristics

	T40-16 Transmitter	R40-16 Receiver
Sensitivity (dB)	17±6*	-56±6†
Resonant freq. (kHz)	40±1	40±1
Max. input (Vrms)	7	—
Impedance (Ω) approx	200	70k
Capacitance (pF) ±20%	1400	1400
Pulse rise time (msec)	2	0.5
Max input voltage, pulse operation:	60V p-p	—
* 0dB = 1µBarV/m		
† 0dB = 1V/µBar with 47kΩ shunt.		
Overall size 15mm dia x 12mm deep (connecting pins protrude a further 9mm) Pins are 10mm apart.

## Piezo Transducers

Sting

These ceramic piezo transducer elements generate a range of audible tones and frequencies when energised by 3V peak square wave. They can be driven direct from CMOS ICs with low power consumption. They are supplied unmounted and with wires attached. Provided they are mounted rigidly in the prescribed manner, outputs of up to 90dB can be achieved. In addition to a wide range of applications where audible warnings or indications are preferred to visual, other uses include toys, clocks and watches, calculators and electronic games, using the transducer in place of a speaker. Because there are no moving parts to wear out, these elements are reliable for use in professional, commercial and industrial applications. They withstand severe environmental conditions and prove durable in domestic appliances without causing r.f. interference. A range of different sizes is available.

### Specifications

#### Piezo Transducer 27mm/1.8kHz

Resonant frequency: 1.8kHz  $\pm 0.5$ kHz  
 Impedance at resonance: 800 $\Omega$   
 Capacitance: 25nF  $\pm 30\%$   
 Maximum input voltage: 30V p-p  
 Operating temperature: -20°C to +70°C

#### Piezo Transducer 27mm/4.2kHz

Resonant frequency: 4.2kHz  $\pm 0.5$ kHz  
 Impedance at resonance: 500 $\Omega$   
 Capacitance: 14nF  $\pm 30\%$   
 Maximum input voltage: 30V p-p  
 Operating temperature: -20°C to +70°C

#### Piezo Transducer 35mm/2.8kHz

Resonant frequency: 2.8kHz  $\pm 0.5$ kHz  
 Impedance at resonance: 450 $\Omega$   
 Capacitance: 20nF  $\pm 30\%$   
 Maximum input voltage: 30V p-p  
 Operating temperature: -20°C to +70°C

#### Piezo Transducer 35mm/2.8kHz with feedback electrode

Resonant frequency: 2.8kHz  $\pm 0.5$ kHz  
 Impedance at resonance: 450 $\Omega$   
 Capacitance: 19nF  $\pm 30\%$   
 Maximum input voltage: 30V p-p  
 Operating temperature: -20°C to +70°C

#### Piezo Transducer 41mm/2.0kHz for speech

Resonant frequency: 2.0kHz  $\pm 0.5$ kHz  
 Frequency range: 750Hz to 20kHz  
 Impedance at resonance: 600 $\Omega$   
 Capacitance: 40nF  $\pm 30\%$   
 Maximum input voltage: 15V p-p  
 Operating temperature: -20°C to +70°C

#### Piezo Transducer 50mm/2.8kHz

Resonant frequency: 2.8kHz  $\pm 0.5$ kHz  
 Impedance at resonance: 500 $\Omega$   
 Capacitance: 20nF  $\pm 30\%$   
 Maximum input voltage: 30V p-p  
 Operating temperature: -20°C to +70°C  
 Nodal ring diameter: 34mm

Note: These transducers are supplied unmounted and with wires attached. If it is required to remove/reattach wires this must be carried out extremely carefully. Soldering to the silvered electrode must be done with the minimum of heat for a fraction of a second, or destruction of the silvering begins to occur. The brass rim of the transducer acts as a heatsink and will require more heat, but the minimum of solder should be used. The transducers may be mounted to a surface using any suitable adhesive.

Retail Unit Price each (inc. VAT).

## PIEZO SOUNDERS

### PCB Mounting

A piezo electric sounder for direct mounting on pcbs. Two 1mm dia. holes are required 10mm apart.

Resonant frequency: 4kHz  $\pm 500$ Hz  
 Resonant resistance: 300 $\Omega$  max.  
 Electrostatic capacitance: 17nF  $\pm 30\%$   
 Max. input voltage: 30V p-p  
 Nominal drive voltage: 10V p-p  
 Output at 10V p-p: 95dB @ 30cm  
 Size: 24mm dia. 5.5mm thick

Retail Unit Price each (inc. VAT).

JH24B	PCB Piezo Sounder	£0.757	£0.500	£0.430	£1.890

## Very Low Profile Piezo Sounder

A piezoelectric sounder which can supply levels of over 100dB at a distance of 30cm, yet is only 4mm high. It can therefore be used wherever space is at an absolute premium. It requires an external driver which should operate on, or as near as possible to, the buzzer's resonant frequency of 5500Hz. This source should present a maximum drive voltage of 30V peak-to-peak to the buzzer. 100mm lead-out wires with tinned ends are provided. Mounting lugs with 2.5mm holes are moulded into the buzzer's cream-coloured case.

Resonant frequency: 5500Hz  $\pm 500$ Hz  
 Resonant resistance: 300 $\Omega$  max.  
 Electrostatic capacitance: 12000 pF ( $\pm 30\%$ )  
 Sound output at 30cm: 103dB max.  
 Height: 4mm  
 Diameter: 23mm  
 Length (lug tip to tip): 35mm  
 Fixing centres: 29mm x 8BA/M2

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
KUJ57M	Low Profile Sounder	£0.672	£0.490	£0.400	£0.790

We endeavour to hold stocks at all Maplin and Maplin Mondo stores, but to be sure, please phone before travelling. See front of catalogue for addresses and telephone numbers

## Wire-Ended Piezo Sounder

A piezo electric sounder ideal for use in applications where space is at a premium owing to its small size.

Resonant frequency: 4.6kHz  
 Electrostatic capacitance: 20nF  
 Nominal drive voltage: 3 to 30V p-p  
 Output at 10V p-p: 80dB @ 30cm  
 Size: 31mm dia. x 8mm thick  
 Fixing centres: 35mm x 8BA/M2

Retail Unit Price each (inc. VAT).

FM59P	Min Piezo Sounder	£0.757	£0.530	£0.460	£0.890

## BUZZERS

### Miniature Buzzer

A miniature solid state buzzer featuring long life, high reliability, low current drain, no moving contacts, no arcing, no r.f. noise. It is small but with a clear penetrating sound.

Dimensions: 23 x 16.5 x 15.5mm deep.  
 Fixing centres: 27.5mm x 8BA  
 Overall length: 33.5mm.

Finished in cream plastic.

Two types are available:

Type	Voltage range	Impedance	Frequency	Output at 30cm
6V	4 to 9V	240 $\Omega$	400Hz	75dB
12V	9 to 20V	480 $\Omega$	400Hz	75dB

Buzzers are for DC operation only and approx 100mm of lead attached is colour coded: Red - positive; Black - negative.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FL39N	Buzzer 6V	£1.010	£0.750	£0.630	£1.190
FL40T	Buzzer 12V	£1.010	£0.750	£0.630	£1.190

## Round Buzzers

Small, round electronic buzzers similar in principle to the miniature solid state buzzers above, but louder. 6V and 12V types are available. Each buzzer measures 41mm across mounting lugs, 26.4mm diameter and 17.6mm high. Fixing centres 32mm.

Type	Voltage range	Current	Frequency	Output at 30cm
6V	4 to 9V	35mA	450Hz	80dB
12V	9 to 20V	35mA	450Hz	80dB

Retail Unit Price each (inc. VAT).

		1+	25+	100+	1+
FK81C	6V Buzzer	£1.350	£0.900	£0.740	£1.590
FK82D	12V Buzzer	£1.350	£0.900	£0.740	£1.590

## Low-Profile PCB-Mounting Buzzer

A miniature solid state, PCB mounting buzzer having a loud but pleasant 75dB tone and operating from a 12V DC supply. It is only 7mm high when mounted on the PCB. It will work with supply voltages ranging from 3 to 24V DC. Supply polarity is marked on the bottom of the case as an aid to installation. Two 2mm dia. holes are required 18mm apart. The case is finished in a cream colour.

Resonant frequency: 3.5kHz  
 Operating voltage: 3 to 24V DC  
 Current consumption at 12V: 5mA  
 Sound output at 12V DC: 75dB at 30cm  
 Temperature range: -20 to 70°C  
 Diameter: 23mm  
 Height (without leads): 7mm  
 Lead length: 8mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
KU58N	PCB Buzzer	£1.090	£0.730	£0.610	£1.290

## DC-Operated Piezo Buzzer

An extremely loud PCB-mounting, piezoelectric buzzer designed to operate over a wide range of supply voltages. It has a built-in driver circuit and requires only a DC voltage to drive it. Working with a 24V DC supply voltage, this tiny unit can supply sound levels of over 95dB at a 30cm distance. The unit will operate well with 5V TTL voltages drawing only around 2mA. It will therefore make an excellent 'bell' or warning alarm for digital systems. Two 1.5mm dia. holes are required 16mm apart. The case is finished in a cream colour, and features a dot to indicate the side with the positive terminal.

Resonant frequency: 2700Hz ±500Hz  
 Operating voltage: 3 to 24V DC  
 Current at 12V DC: 10mA max.  
 Sound output at 30cm: 90dB typical (12V DC)  
 Operating temperature: -10 to 60°C  
 Size, excluding pins: 16mm high x 24mm dia.  
 Length of pins: 5mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
KU56L	DC Piezo Buzzer	£1.520	£0.970	£0.820	£1.790

## Wire-Ended Piezo Buzzer

A buzzer with a loud, clear, penetrating tone for use where direct PCB mounting is not convenient. The buzzer has two 3.5mm clear mounting holes 38mm apart, and two wires are provided for making the connection.

Resonant frequency: 2kHz ±500Hz  
 Operating voltage: 3 to 15V DC  
 Current at 12V DC: 10mA  
 Sound output at 30cm: 90dB typical (12V DC)  
 Size: 30mm dia., 22mm high  
 46mm across mounting ears

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CR34M	DC Piezo Buzzer Wire	£1.180	£0.790	£0.680	£1.390

## 3-Tone Piezo Buzzer

A loud and compact buzzer which will operate with DC voltages in the range 6 to 12V. In addition to the red positive and black negative supply leads, there are three other leads which, if connected in certain combinations, will determine the sound that the buzzer will produce. If the green and yellow wires are connected together a two-tone siren sound is produced; if the green and orange wires are connected together the unit emits a pulsed tone, and if all wires are left unconnected, the output is a continuous tone. Two lugs with 3mm holes are provided for mounting purposes.

Supply voltage range: 6 to 15V DC  
 Recommended operating voltage: 12V DC  
 Current consumption at 12V DC: 95mA  
 Sound pressure level (at 1m): 107dB (with 12V supply)  
 Overall frequency: 2-8kHz  
 Operating temperature: -20°C to +70°C  
 Overall dimensions: 39mm dia. x 22mm height  
 Mounting lugs: 55mm tip to tip; 3mm holes  
 Lead length: power (red, black): 150mm (approx)  
 tone select (org, grn, yell): 60mm (approx)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
KU60Q	3-Tone Piezo Siren	£2.800	£2.050	£1.600	£3.290

## High Power Buzzer

An extremely loud piezo electric buzzer with integral drive circuit and a very wide operating voltage range.

Resonant frequency: 3kHz  
 Impedance: 1kΩ approx.  
 Voltage range: 3V to 24V DC  
 Output at 12V: 103dB at 1m  
 Size: 39mm dia. 26mm high  
 Fixing centres: 50mm x slots 5 x 3mm  
 Overall width: 60mm  
 For DC operation only. Approx 100mm leads are attached, red is positive, black negative.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FK84F	HP Buzzer	£1.940	£1.200	£0.980	£2.290

## Two-Tone Mini-Siren

An extremely loud two-tone piezo-electric siren mounted in a sturdy cream plastic case. The electronics which drive the piezo element, and give the siren its characteristic sound, are contained within the unit on a PCB, and the overall frequency range can be varied by means of a preset on this board. Two links, A and B, are also present which, if

bridged with solder, determine the mode of operation (see table). The board is accessible by removing the bottom mounting plate (secured by four screws) from the main body.

### Operating Modes

Both links open: Single tone operation  
 Link A bridged: Pulsed high tone  
 Link B bridged: Two-tone (as supplied)  
 Both links bridged: Pulsed low tone

The unit will work with supply voltages between 6 and 15V DC and is connected to the supply with the two colour-coded 150mm long leads (red: +V; black: 0V) provided. At 12V DC, the unit will supply 110dB of sound level (at 30cm) while drawing only 90mA. Two mounting lugs are moulded onto the bottom mounting plate, which will accommodate M3 screws, and are spaced 58mm apart. Overall case dimensions, 52 x 42 x 27.5mm. The mounting lugs are 68mm from tip to tip.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
KU65V	Two-Tone Mini Siren	£2.800	£2.050	£1.650	£3.290

## Twin-Unit Piezo Siren

A very piercing two-tone siren housed in a very tough cream plastic housing. It is essentially the same as KU65V, except that two piezo elements have been incorporated into the larger case. As a result this unit offers an extremely high sound pressure level (105dB at 1m). Connection to the unit is by two colour-coded leads (red: +V; black: 0V). Two mounting lugs spaced 97mm apart are moulded into the case which allow the unit to be secured to a surface using M3 size screws.

### Specification

Supply voltage range: 6 to 15V DC  
 Recommended operating voltage: 12V DC  
 Current consumption at 12V DC: 85mA max.  
 Sound pressure level (at 1m): 105dB (with 12V supply)  
 Frequency: 2.5 to 2.8kHz (Preset provided for adjustment)  
 Operating temperature range: -20°C to 70°C  
 Overall dimensions: 84 x 55 x 32mm  
 Mounting lugs: 106mm tip to tip; 3mm holes  
 Leads: Approx. 150mm long  
**Operating Modes**  
 Both links open: Single tone operation  
 Link A bridged: Pulsed high tone  
 Link B bridged: Two-tone (as supplied)  
 Both links bridged: Pulsed low tone

## Call and Collect

Maplin has more stores Nationwide than ever before. See the maps at the front of the catalogue for the nearest one to you.

## Multi-Tone Piezo Buzzer

An extremely loud piezo electric buzzer in a cream housing. Removing the back carefully with a screwdriver reveals screw terminal connections for the positive and negative DC power supply. A further three screw terminals if left open circuit make the buzzer emit a continuous tone. If screws 1 and 2 are connected together the buzzer emits a pulse tone and if screws 1 and 3 are connected together the buzzer emits a siren-like sound.

Resonant frequency: 2-8kHz  
 Impedance: 40Ω approx.  
 Voltage range: 6V to 15V  
 Output at 12V: 115dB at 1m  
 Size: 92 x 92 x 34mm high  
 Fixing centres: 72 x 72 x 4mm clear

Retail Unit Price each (inc. VAT).

Order Code	Type 3229	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
JH25C	Multi-Tone Buzzer	£5.520	£4.250	£3.750	£6.490

## Musical Buzzer

A musical buzzer which plays seven traditional American tunes. Two 100mm wires red for positive and black for negative are provided for connection to the power supply. Two additional red wires are provided which when shorted, trigger the next tune in the sequence. If the wires are permanently connected, the tunes play continuously. If the battery is removed, on reconnection the first tune to play is always the first in the sequence.

The tunes are:

Yellow Rose of Texas  
 Dixieland  
 Red River Valley  
 American Patrol  
 Oh My Darling Clementine  
 When The Saints Go Marching In  
 She Wore A Yellow Ribbon

Voltage range: 6V to 12V  
 Current at 9V: 6mA  
 Output at 9V: 85dB at 1m  
 Size: 32.2mm dia. 13.9mm high  
 Fixing centres: 38mm x slots 3.5 x 4.5mm  
 Overall width: 44.6mm

Retail Unit Price each (inc. VAT).

Order Code	Type 3231	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FK80B	Musical Buzzer	£2.540	£1.750	£1.400	£2.990

## Panel Mounting Buzzers

A range of three panel mounting buzzers in a black plastic housing, differing only in the tone produced by the 'door bell', pulse, or continuous tone. The positive and negative connections are standard 'Lucar' style 6-35mm (1/4in.) receptacles (HF10L). A M28 plastic screw ring is used to secure the buzzer to a suitable panel with a 29mm diameter hole. The buzzers can operate over a wide voltage range and have a low power consumption. The 'door bell' version, in particular, produces a very distinctive and noticeable output.

**Specification**  
 Supply voltage range: 8 to 12V DC  
 Frequency: 2600Hz  
 Current consumption (@ 12V): 20mA  
 Sound output (@ 12V): 90dB (@ 30cm)  
 Size: 45 x 36mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type 3232	Price each exc. VAT			inc. VAT each
		1+	25+	100+

## 12V AC Buzzer

A miniature 12V mechanical buzzer that works from an AC supply. Single hole fixing.

**Specification**  
 Voltage range (AC): 8V to 28V  
 Current @ 12V: 60mA  
 @ 24V: 130mA  
 Sound output: 80dB @ 30cm  
 AC resistance: 120Ω ± 20%

Retail Unit Price each (inc. VAT).

BZ57M	12V AC Buzzer	£0.842	£0.670	£0.555	£0.990

## SIRENS

### Miniature Siren

A compact but very loud low cost siren. This micro piezo siren is self-contained within a black ABS plastic case with counter-sunk holes for screw fixing.

Operating voltage: 12V DC  
 Voltage range: 8V to 12V  
 Current: 150mA  
 Sound output: 110dB at 1m  
 Frequency: 2kHz to 2.8kHz  
 Size: 62 x 36 x 34mm

Retail Unit Price each (inc. VAT).

Order Code	Type 11729	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
MB00A	Miniature Siren	£4.240	£3.540	£2.980	£4.990

## Micro Siren

A miniature, but very loud siren housed in a white ABS case fixed to a swivel mounting bracket. The siren has a rapid rising and falling tone.

**Specification**  
 Operating voltage: 12V DC  
 Voltage range: 6V to 12V  
 Current: 150mA  
 Sound output: 110dB at 1m  
 Frequency: 2kHz to 2.8kHz  
 Size: 43 x 39 x 59mm long

Retail Unit Price each (inc. VAT).

		1+	25+	100+	
JK43W	Min Piezo Siren	£7.650	£5.810	£5.300	£8.990

## Low-Cost Electronic Siren

A compact electronic alarm siren, self-contained in a plastic housing with swivel mounting. Offers a low current drain.

**Specification**  
 Voltage: 12V DC  
 Current: 300mA  
 Impedance: 8 ohms  
 Sound output: 98dB at 1m  
 Case: Plastic with metal bracket  
 Size: 98mm dia x 60mm  
 Weight: 175g

Retail Unit Price each (inc. VAT).

Order Code	Type 3238	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
YK60Q	Low-Cost Electronic Siren	£5.520			£6.490

## Mini Siren

A compact yet powerful siren capable of generating a piercing sound pressure level of 113dB (at 1m) while drawing a maximum of 700mA. The siren's robust black plastic case is sealed and therefore suitable for vehicle or exterior use. It is mounted on a metal swivel bracket. The supply voltage is connected to the unit by means of a colour-coded trailing lead (red: +V; black/red: 0V)

**Specification**  
Supply voltage: 6 to 12V DC  
Current drain: 700mA max.  
Sound output: 113dB (at 1m)  
Dimensions: 97 x 110 x 88mm  
Net weight: 367g  
Lead length: 400mm (approx.)

Retail Unit Price each (inc. VAT).

Order Code	Type 3241	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
ZC45Y	Mini Siren	£6.800	£5.150	£4.550	£7.990

## Staccato Electronic Sounder

A weatherproof electronic siren which is completely self contained. The unit has a genuinely high output of up to 116dB combined with a low current consumption, making it ideal for use with intruder and automotive alarm systems and external bell housings. The finish is in black plastic with a metal fixing bracket. The reliability of the unit is improved with the design of the connection between the speaker head and the electronics.

**Specification**  
Voltage: 6 to 16V DC (12V nominal)  
Current: 300mA  
Sound output: 116 dBA  
Frequency range: 0.6 to 1.2kHz  
Size: 90mm dia. x 110mm long

Retail Unit Price each (inc. VAT).

Order Code	Type 3243	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
YZ23D	Electronic Sounder	£9.350	£6.310	£5.150	£10.990

## Power Siren

A very powerful alarm siren built round a rectangular horn speaker, capable of sound pressure levels of 118dB (at 1m). The unit has some limited weather resistance but is not sealed. The siren is not suitable for exterior use unless installed under cover. The case is made from high impact black plastic and is supplied with an adjustable, swivel mounting bracket. Power is connected by a 250mm colour-coded cable (red: +V). NB. It is advisable to cover and protect ears when powering up this siren as very high sound levels are produced.

**Specification**  
Supply voltage: 12V  
Current drain: 1.6A to 1.8A  
Sound output: 118dB ±3dB at 1m  
Output frequency: 1800 to 2000Hz  
Overall size: 125 x 115 x 80mm  
Weight: 707g

Retail Unit Price each (inc. VAT).

Order Code	Type 3244	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
ZC46A	Power Siren	£17.010	£12.220	£10.660	£19.990

## HORN SPEAKERS

### 10W

A weatherproofed 10W horn speaker with standard 3-point mounting bracket for fixing to car roof or to a bracket across a car roof, etc. For maximum sound effect, four of these units mounted at right angles to each other will be found to be more efficient than one large speaker, since they are fairly directional. The mounting bracket is adjustable with 10mm (AF) clamping bolt and nut, and the whole unit is moulded in black ABS.

**Specification**  
Nominal power handling: 10W (15W max.)  
Impedance: 8Ω  
Usable frequency response: 1.4kHz to 4kHz  
Horn diameter: 136mm  
Overall depth of horn: 120mm

Retail Unit Price each (inc. VAT).

Order Code	Type 3245	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
XQ73Q	Plastic Horn 5in	£6.800	£4.950	£3.950	£7.990

## 15W Horn Speaker

A weather-proofed horn speaker with bracket for bolting to car roof or to a bracket across car roof etc. For maximum dispersion two or more of these units mounted in opposing directions will be found far more efficient than one large speaker since they are fairly directional. The mounting bracket is adjustable and the horn is finished in grey.

**Specification**  
Nominal power: 15W  
Impedance: 8Ω  
Horn diameter: 152mm

Retail Unit Price each (inc. VAT).

Order Code	Type 3246	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
XQ74R	Car PA 15W	£17.010	£13.250	£12.000	£19.990

### 20W

A weather-proof black plastic rectangular horn speaker with an adjustable bracket for bolting to a car roof or to a bracket across the car roof etc.

**Specification**  
Maximum power: 20W  
Impedance: 4Ω  
Frequency response: 600Hz to 8kHz  
Overall size: 125 x 115 x 80mm  
Weight: 680g  
Supplied with approx 290mm of connecting lead.

Retail Unit Price each (inc. VAT).

Order Code	Type 3247	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BZ66W	20W Horn	£11.900	£8.500	£7.200	£13.990

## 30W

A weather-proof white plastic, rectangular horn speaker with heavy rectangular plastic mounting base on which the horn tilts up and down.

### Specification

Nominal power: 30W  
 Impedance: 8Ω  
 Frequency response: 200Hz to 8kHz  
 Horn size: 200 x 106mm  
 Horn length: 234mm  
 Bracket base: 100 x 60mm with six 5mm clear fixing holes.

Supplied with approx. 250mm of connecting lead.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
XG97F 2	5 x 8 Horn Speaker	£15.310	£12.070	£10.910	£17.990

## DOOR BELLS & ACCESSORIES

### Bell

3 to 8V AC or DC bell with white case and polished chrome 70mm dia. gong. Overall size 147 x 75 x 36mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FL38R	AC Bell	£4.920	£3.850	£3.350	£5.790

### Bell Transformer

A transformer housed in a white plastic case. Primary 240V AC, secondary 4, 8 and 12V AC at 1A. Internally fused primary winding with Fuse 20 63mA. Overall size excluding case fixing nut 74 x 54 x 38mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	24+	120+	
FL37S	Bell Xformer	£7.650	£5.000	£5.300	£8.990

### Bell Push Switch

A rectangular push-to-make doorbell switch. The switch has a plastic base plate housing the electrical contacts and terminals. The base plate is fixed into position with the screws provided and after the necessary connections have been made the outer cover with the push button is snapped into position. The push-button is of white plastic with a matt black or creamy white housing. Overall size: 46 x 28 x 18mm deep. Button size: 20 x 15mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FS17T	Bell Push	£0.757	£0.550	£0.440	£0.890

## EARPIECES

### Magnetic

A standard magnetic earpiece having an 8Ω impedance and 950mm of lead terminated in either a 2.5mm or 3.5mm jack plug. The 3.5mm type is also available with a 4m lead.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
LB23A	Mag Earpiece 2.5mm	£0.502	£0.350	£0.300	£0.590

## Plugs

### 5 Amp

A 5A mains plug moulded in hard wearing heat-resistant bakelite. Fitted with cordgrip. Not fused. Conforms to BS546A.

Retail Unit Price each (inc. VAT).

Order Code	Type 1186	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HL57M	5 Amp Plug Bakelite	£1.090	£0.909	£0.808	£1.290

### 13 Amp Mains Plug

A Rough Service 13A mains plug. Supplied fitted with 13A fuse and cord-grip. Conforms to BS1363A.

Retail Unit Price each (inc. VAT).

Order Code	Type 1188	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RW67X	13 Amp Mains Plug	£0.638	£0.606	£0.545	£0.750

### Super Grip Plug

A 13A mains plug moulded in tough white nylon with an integral handle for easier insertion and removal for people with arthritic fingers and similar problems of impaired gripping ability. Ideal for appliances which need frequent connection and disconnection, e.g. electric kettles, vacuum cleaners, toasters etc., and some power tools. The effort required to insert/remove this type of plug is considerably reduced compared with the normal type. Fitted with ASTA approved 13A fuse to BS1362. Manufactured to BS1363/A and ASTA approved. Maximum distance of handle from socket is 50mm (2in.).

Retail Unit Price each (inc. VAT).

Order Code	Type 1189	Price each exc. VAT			inc. VAT each
		1+	10+	100+	1+
ZB88V	Super Grip Plug	£2.030	£1.780	£1.550	£2.390

### 13A Rubber Plugs

A 13A mains plug moulded in unbreakable rubber and fitted with a 13A fuse and cord grip. Available in black or white. Conforms to BS1363A.

Retail Unit Price each (inc. VAT).

Order Code	Type 13133	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HL58N	Rubber 13A Plug	£2.110	£1.310	£1.170	£2.490
VJ75S	13A Rubber Plug Bk	£1.690	£1.450	£1.290	£1.990

### Heavy Duty 13A Plug

This heavy duty plug is made from a robust, resilient compound which makes it virtually indestructible in normal working conditions. Available in orange and fitted with a 13A fuse.

Retail Unit Price each (inc. VAT).

Order Code	Type 13131	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
VJ76H	13A Rubber Plug Orn	£2.110	£1.890	£1.690	£2.490

### Mains Tester

This is the quick and easy way to test every new mains supply that you connect to your caravan or boat. The Mains Tester is designed for use in your internal sockets to test that your power is correct after hook up to the mains supply provided by the site – a particularly important test on continental holidays. If everything is as it should be, all three lights will come on. If it isn't, other light combinations will help you to find out what may be wrong.

Retail Unit Price each (inc. VAT).

Order Code	Type 9800	Price each exc. VAT		inc. VAT each
		1+	10+	1+
WD53H	Mains Tester Plug	£11.900	£9.990	£13.990

### Continuity Tester

An ingenious screwdriver tester that can be used to detect continuity and therefore used for checking fuses or lamps. Continuity tests can be made by holding the tip of the screwdriver on a fuse then touching the cap of the screwdriver and the cap of the fuse with your hand. If the fuse is OK, the screwdriver will light. The same principle can be used with lamps, leads and anything else that is conductive.

Other uses include short circuit tests, tracking broken cables, microwave oven radiation testing and television emission tests. The device uses two silver or alkaline batteries (supplied), with a battery life of approximately 5 hours continuous use.

Dimensions 136 x 20mm (L x W) including clip. NB Not suitable for direct connection with live circuitry.

Retail Unit Price each (inc. VAT).

Order Code	Type 7777	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
AS260	Continuity Tester	£6.380	£5.750	£5.250	£7.500

### Switch Guard

A simple yet very effective way of ensuring household appliances are never inadvertently switched off. If you've ever accidentally switched off your refrigerator, freezer or video recorder you'll know how inconvenient and costly your mistakes can be. To guarantee against accidental switch off, simply insert the earth pin of the plug through the hole in the Switch Guard and insert the plug into the socket in the normal manner. The whole of the switch will now be blanked off, so not even a conscious switch off is possible. Supplied with stickers for labelling the appliance connected, and full instructions for use. Each pack contains four Switch Guards.

Retail Unit Price each (inc. VAT).

Order Code	Type 8213	Price each exc. VAT		inc. VAT each
		1+	1+	1+
BN31J	Switch Guard	£2.540		£2.990

### Plug Mate

A pull strap attachment for 13A plugs, as an aid for easy removal. Easy to fit and safe to use. Ideal for use in kitchens, workshops and around the home, or where access is difficult. Perfect for the elderly or disabled. Supplied in packs of three.

Retail Unit Price each (inc. VAT).

Order Code	Type 8064	Price each exc. VAT		inc. VAT each
		1+	1+	1+
RZ37S	Plug Mate	£1.270		£1.500

### Plugsafe

- ★ Avoid appliances being accidentally unplugged
- ★ Stop children playing with plugs
- ★ Easy to install
- ★ Compact and inexpensive

This is an inexpensive yet effective way of protecting appliances from being accidentally

unplugged or preventing children from playing with plugs/sockets. The unit is easy to install, just loosen off electrical socket and clip on. Once the socket has been tightened up again the Plugsafe is ready to use. Plug in the required appliance and simply press the Plugsafe lid down until it clicks shut. The cover will not open again until the two tabs (one on each side) are pressed simultaneously. The Plugsafe comes in both single (VD32K) and double (VD33L) socket versions.

Retail Unit Price each (inc. VAT).

Order Code	Type 1077	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
VD32K	Plugsafe Single	£1.690	£1.240	£1.060	£1.990
VD33L	Plugsafe Double	£2.540	£1.850	£1.570	£2.990

## CEE Type Plugs and Sockets

A range of high quality 3-way CEE industrial type connectors rated at 16A that comply to BS 4343, where applicable, and IEC 309/1 + 2. The range includes a surface mounting socket, an in-line coupler (socket) and a plug. These are available in both 110/130V AC (colour coded yellow) and 230V AC (colour coded blue) versions. The socket and coupler have a spring loaded cap to protect the contacts, and when a plug is connected, the cap locks on to the plug and has to be lifted before the plug can be removed. This prevents the plug being removed by pulling on the cable. A keyway, and a larger diameter earth pin/socket make it impossible for a plug and socket/coupler to be incorrectly connected. Three CEE inlets (plugs) are available in a choice of configurations - straight flush (WD52G), angled flush (WD50E) and angled surface (WD51F) mounting - all three are for 230V AC supplies. The angled surface inlet is supplied with a protective cap for use when de-mated. The connectors are the standard type used on caravans etc. for connecting to mains supplies, and being splashproof are suitable for outside use.

Retail Unit Price each (inc. VAT).

Order Code	Type 1140	Price each exc. VAT			inc. VAT each

WD52G †	Str Flush CEE Inlet	£15.270			£17.950

## Industrial Isolation Transformers

Industrial specification isolation step-down transformers, especially designed for use with 110V power tools, for outdoor use. Two types are available, rated at 2000VA or 3000VA output respectively. Both types are enclosed in a tough, yellow plastic case with carrying handle and are fitted with a pair of CEE, industrial pattern, 3-pin outlet sockets with 16A contacts and spring-loaded protective caps. These conform to BS4343 and are interchangeable with various types of 110V plugs. A suitable plug is KC76H (see Electrical Accessories). The secondary is of CTE arrangement (Centre-Tapped Earth), ensuring that the absolute maximum voltage available from either side of the output is not more than 55V with reference to earth.

Specification	DH22Y	DH23A
Colour code:	Yellow (110 to 130V)	
Input:	240V AC @ 50Hz	
Phases:	Single	
Output:	110V CTE	
Tool rating, intermittent:	2000VA	3000VA
Dimensions, H x W x D:	220 x 200 x 240mm	
Weight:	13kg	13.6kg
Overall depth includes depth of outlet sockets, these being 50mm approx.

WD45Y †	Cont Hook-Up Adaptor	£3.060		£7.130

## Mains Leads

### Cassette Mains Lead

A mains lead with moulded socket which will fit the mains plugs on many battery/mains cassette players, radios etc. For manufacturers' use only.

Retail Unit Price each (inc. VAT).

Order Code	Type 1107	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
RW66W	Cas Lead Telefunken	£1.010	£0.660	£0.560	£1.190

### Mains Lead

A non-rewirable mains lead with Telefunken style moulded two-pin socket at one end and a 13A moulded plug at the other. The Telefunken style socket is suitable for use with most mains/battery radios, cassette recorders, etc. The lead is 2m long, coloured black and rated at 250V AC, 2.5A. The 13A plug carries a 3A fuse.

Retail Unit Price each (inc. VAT).

FE79L	R/A Eurocorn Lead	£2.970	£2.820	£2.670	£3.490

## Moulded Mains Plug and Lead

This integrally moulded 5A mains plug with 2m of 0.75mm diameter 3-core cable is supplied prepared for fitting to an electrical appliance. The plug features double insulation, and wire connections that have been crimped on by specialised semi-automatic equipment, to ensure consistent safety and reliability. The plug is supplied with solid brass semi-insulated pins and is approved to BS1363. Supplied fitted with a 5A fuse; cable end stripped 40mm, and cores bared 10mm. Available in either black or white. For manufacturers' use only.

Retail Unit Price each (inc. VAT).

### 3-Way Multiplug

A 13A adaptor that plugs into a standard 13A socket and allows up to three appliances to be plugged into it.

Maximum total load: 13A. Fused. Sockets are shuttered. White.

Retail Unit Price each (inc. VAT).

Order Code	Type 118E	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
HL63T	Mains Adaptor 3-Way	£2.540	£2.020	£1.720	£2.990

### Three Way Mains Adaptor

This three-way adaptor has built-in overload protection and is designed to BSEN 60730 (1992) to allow you to convert a single 13A socket outlet, safely into three sockets. The adaptor can support a maximum load of 3.1kW and has an indicator to show that power is present at the output. If the socket is overloaded, the in-built protection cuts the supply to all three adaptor sockets and sounds an audible alarm. After the overload has been removed the adaptor can be reset by pressing the reset button. As an extra precaution, the adaptor is also provided with a 13A fuse. Correct use of this adaptor will prevent the cable serving the socket from overheating and causing a fire risk. Please Note: This adaptor is not intended to be used as a substitute for safe wiring and good electrical practices.

Retail Unit Price each (inc. VAT).

Order Code	Type 4520	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
RZ86T †	3-Way Converter	£9.350	£8.400	£8.030	£10.160

### Multiway Plug / Surge Plug

- ★ Eliminates untidy and potentially unsafe wiring.
- ★ Eliminates the need for adaptors.
- ★ As easy to wire as a standard plug.

- ★ Enables 4 items up to a total load of 3000 Watts to be connected into one plug.
- ★ Same width as a standard 13A plug.

The Incept Multiway Plug is ideal for the office or home where multiples of electrical appliances are used together and are not usually disconnected from their power sockets. It is neater than using adaptors and extension sockets. Easy to wire up and a tool is not needed to change its fuse.

#### Surge protected multiway plug

Has all the benefits of the multiway plug but with the added advantage of a built in device to protect the items connected to it from any spike or surges that may occur on the live, neutral or earth electricity mains. The built in surge protector also has a light to indicate that it is working properly. Both units conform to BS5733 and the 1994 British Plug and Socket Safety Regulations. Multiway Plug - VD02C  
Surge Protected Multiway Plug - VD03D

Retail Unit Price each (inc. VAT).

## Extension Leads

### 5-Metre Extension Lead

An extension lead having a 13A plug at one end and a trailing socket at the other. The plug and socket are not moulded on types and so can be easily replaced or changed. Rated at 13A and suitable for appliances up to 3kW. Colour white.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
ZB82D	5m Lead	£5.940	£5.610	£5.050	£6.990

### 10-Metre Extension Lead

An extension lead with a 13A plug (fitted with a 5A fuse) at one end and a trailing socket at the other. The 3-core cable is rated at 5A and the maximum load is 1200W. Colour white.

Retail Unit Price each (inc. VAT).

### 3m Extension Reel

A 3m extension reel that is suitable for all domestic household appliances with a maximum combined total capacity of 3120W. Light to carry, the reel is fitted with two childproof sockets and a 13A fused plug. Finished in white. Not for use in wet conditions.

#### Specification

Cable length: 3m (10 feet approx.)  
Capacity: 8A (1920 watts) fully wound  
13A (3120 watts) fully unwound  
Weight: 600g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
KR25C	3M Mains Cable Reel	£7.650	£6.820	£6.410	£8.990

## 10m Extension Reel

JoJo

A 10m extension reel with a maximum combined capacity of 1200W. Suitable for use with DIY power tools, Hi-Fi, video, lighting and most domestic electrical appliances. A convenient finger-shaped recess in the base and a small handle on the front make winding in the cable fast and easy - no more tangled cable. Fitted with two childproof sockets and a 5A fused plug. Finished in black. Not for use in wet conditions.

### Specification

Cable length: 10m (33 feet approx.)  
Capacity: 3A (720 watts) fully wound  
5A (1200 watts) fully unwound  
Weight: 850g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KP24B 2	10M Mains Cable Reel	£10.200	£11.990

## 12m Extension Reel

A versatile extension lead that retracts into its own handy carrying reel. When fully extended the cord measures 12m, providing power to the most inaccessible of places with minimum hassle. A built-in overload cut-out limits the power drawn through the cord, should somebody accidentally plug in additional items. Capable of supplying 6A continuously (when fully unwound), this unit is suitable for household and DIY appliances up to approximately 1.5kW of loading. Ideal for drills, lighting, lawn mowers and most household items.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FC03D	12m ExtLead + Oload	£14.450	£16.990

## 15m Extension Reel

JoJo

Manufactured with safety in mind, this extension reel is suitable for use with power tools, lighting, various household appliances and gardening equipment such as trimmers, lawn mowers etc. The maximum load is 2400W. The reel is fitted with a convenient carry handle and an additional handle is provided for easy winding of the cable. Fitted with two childproof sockets, the extension reel conforms to BS6500, BS61363/A and BS5733. Colour black and red. Not for use in wet conditions.

### Specification

Cable length: 15m (50 feet approx.)  
Capacity: 4A (960W) Wound, 10A (2400W)  
Fully unwound  
Weight: 1.5kg

Retail Unit Price each (inc. VAT).

VJ96E	10m 13A Quadro Reel	£22.970	£26.990

## 25m Heavy Duty Extension Lead

JoJo

A 25 Metre heavy duty extension reel on a robust rotating drum with metal stand and carrying handle. Designed for the professional, this lead has two sockets and is rated at 13A. Supplied in red and black finish.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VJ97F	25m 13A Ind.Reel	£42.540	£49.990

## Mains Wiring

### Books

## Wiring and Lighting

by Albert Jackson and David Day

This book will help anyone wanting to undertake household electrical tasks. It covers things as diverse as mending fuses and changing plugs through to good advice on complete rewiring. The diagrams and instructions here are full, many are step by step, and a lot of the matters left hanging in the small book are explained.

There are also a number of extended special sections which discuss the wiring of fixed appliances, the basic home electricians toolkit and how to reduce the cost of electricity - legally!

A short glossary explains some of the more basic terms as well as covering such matters as PME and ELCB.

This is the book for the serious

home electrician.

1995. 64 pages, 258 x 212mm, full colour illustrations.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WT56L	Wiring & Lighting	£5.990	£6.990 NV

## IEE Wiring Regulations

Regulations for Electrical Installations - 16th Edition

This edition supersedes the fifteenth edition from the 1st January 1993, and is based on the plan agreed internationally for the agreement of safety rules for electrical installations. Also, the technical substance of the parts of the IEC Publications 364 so far published, and of the corresponding agreements reached in CENELEC, have been taken into account. The opportunity has also been taken to revise certain regulations for greater clarity or to take account of technical developments. Considerable reference is made throughout the Regulations to publications of the British Standards Institute, both specifications and codes of practice. These publications are conveniently listed in Appendix 1 with their full titles, whereas throughout the Regulations they are referred to only by their numbers. The book is divided into seven parts. Part one details the scope, object and fundamental requirements for safety; part two covers definitions; part three the assessment of general characteristics; part four covers protection for safety; part five details selection and erection of equipment; part six covers special installations or locations and part seven covers inspection and testing. 1991. 266 pages. 296 x 210mm, illustrated.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WZ90X 1	IEE Wiring Regs	£38.000	£38.000 NV

## Modern Wiring Practice

12th Edition

by W. E. Steward and T. A. Stubbs

A completely revised edition of Modern Wiring Practice taking into account the requirements of the 16th edition of the IEE Regulations for Electrical Installations. Includes new procedures developed since the ninth edition was published. Both the design of electrical installation systems and the practical work itself are covered, and the authors have many years' experience of electrical installation. An absolute must for all electrical engineers, apprentices, contractors and architects etc., and an invaluable reference for DIY wiring at home. 1992. 318 pages. 215 x 138mm, illustrated.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WP64U	Mod Wiring Practice	£15.990	£16.990 NV

### Double RCD Wall Socket

**RECENTLY INTRODUCED**

A double pole protected safety socket designed to protect against the danger of electrocution from severed or damaged cables. Can be used as a direct replacement for standard double sockets. Supplied with fixing screws.

The use of a RCD socket should not be regarded as a substitute for basic electrical safety precautions. Always unplug equipment to achieve isolation before any inspection or repair is attempted. If the RCD repeatedly trips with an appliance connected, contact the manufacturer or seek expert advice. Complies to BS7071 & BS1363

Retail Unit Price each (inc. VAT).

Order Code	Type 13216	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
VJ99H	RCD Twin Socket	£29.770	£26.900	£24.790	£34.990

### RCD Protected Sockets - Unlatched

**NEW**

A comprehensive range of 'un-latched' RCD socket outlets

\*Trips out when the power supply is temporarily lost. A safety must for machine tool applications.

- ★ Eliminates the need for plug-in circuit breakers.
- ★ Protects appliances from possible fire hazard.
- ★ Manual reset.
- ★ Extra fast action - trips out within 40 milliseconds!
- ★ Automatically disconnects both Live and Neutral connections leaving Earth connection intact.
- ★ Test button for safety checks.
- ★ Still protects with lost neutral.
- ★ Still protects with pulsating DC earth fault currents.
- ★ Complies with BS7288 and BS1363.
- ★ Switched for convenience & extra safety.

MS76H is a white single socket RCD circuit breaker. It simply replaces an existing double socket MS77J is the metal version of the above, ideal for use in factories and other industrial environments. MS78K is a double white socket that provides two protected socket outlets, making the unit ideal for multi-product applications eg. computers and printers. MS79L is the metal version of the above.

Retail Unit Price each (inc. VAT).

## Shaver Socket for Bathrooms

A dual voltage shaver socket complying with BS3052. A dual-voltage socket is employed with one side providing 115V and the other 240V.

Each is keyed to prevent insertion of the wrong style plug. Insertion of a plug automatically switches the sockets on, which are connected via a double wound safety isolating transformer, itself protected by a self-resetting overload device. Designed for use in bathrooms where it meets the relevant IEE regulations. Supplied with fixing screws. Colour White.

Retail Unit Price each (inc. VAT).

## RCD Protected Fused Spur

Smiths

Two RCD protected fused spurs. One offers 'unlatched' operation, the other 'latched' operation.

- ★ Full protection against electric shocks and fire risk for equipment permanently connected to the mains
- ★ Extra fast action - trips out within 40 milliseconds!
- ★ Automatically disconnects both Live and Neutral connections leaving Earth connection intact.
- ★ Complies with BS7288 and BS1363.

**MS30H:** In addition to the RCD protection, this 'unlatched' version trips out if the power supply is temporarily lost. A safety must for machine tool applications.

**MS35Q:** This 'latched' version shares all the features and benefits of the MS30H and the unit will remain latched if the power supply is temporarily lost and then restored.

Retail Unit Price each (inc. VAT).

## Switches

### Single Light Switch 1-Way

A single one-way switch rated at 5A and also suitable for fluorescent fittings. White. Fixing screws supplied. BS3676.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
HL89W	Light Swch ST Single	£0.842	£0.700	£0.645	£0.990

### Single Light Switch 2-Way

A single 2-way switch rated at 5A and also suitable for fluorescent fittings. For use where two switches are used to operate the light/s, e.g. in hall and stairways. White. Fixing screws supplied. BS3676.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
HL90X	Light Swch DT Single	£1.010	£0.850	£0.770	£1.190

### Illuminated Switch

This attractively styled switch is designed so that the switch button surround is illuminated when the light is off. A gentle green glow indicates the location of the switch. This switch can be used for one way lighting or, at the flick of a small toggle switch for two way lighting.

The illuminated switch can be used as a direct replacement for most standard light switches. Supplied with fixing screws.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
VK06G	Illuminated Switch	£4.240	£3.950	£3.650	£4.990

### Metal-Clad Single Light Switch 2-Way

A single 2-way switch rated at 5A and also suitable for fluorescent fittings. Also for use where two switches are used to operate one light. Completely enclosed in smart hammertone grey finish box. BS3676.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
JG39N	Mtl Light Sw DT	£4.670	£4.160	£3.810	£5.490

### Intermediate Single Light Switch

A single 2-way switch specifically for 'three way' lighting control, where one light can be controlled from three different places. For example, where one lighting circuit covers the front hall and upstairs landing, there can be three switches, one near the front door, one at the end of the hallway and another on the upstairs landing. Two of these need to be 2-way type (HL90X), and the third must be an intermediate type as shown here. It serves to interrupt the three-core cable linking the other two switches, and has two 'L1' and two 'L2' terminals.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
ZB61R	Intermediate Switch	£5.090	£4.620	£4.270	£5.990

### Double Light Switch

Two separate two-way switches rated at 5A and also suitable for fluorescent fittings. White. Fixing screws supplied. BS3676.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
HL91Y	Light Swch Dual	£1.690	£1.410	£1.300	£1.990

### Metal-Clad Light Switches

A metal-clad switch rated at 6A and suitable for conventional and fluorescent lighting. This switch is 2 way working and completely enclosed in a grey finish metal box with a choice of knockout entries on all sides. Available in one gang (JG39N) and two gang (VK10L) versions. BS3676.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
JG39N	Mtl Light Sw DT	£4.670	£4.160	£3.810	£5.490
VK10L	2G/2W Metal Switch	£5.940	£5.180	£4.670	£6.990

### Triple Light Switch

Three separate two-way switches rated at 5A and also suitable for fluorescent fittings. White. Fixing screws supplied. BS3676.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
HL92A	Light Switch Triple	£2.110	£1.860	£1.730	£2.490

## 20A Switch

A plain white plate switch with a single double pole switch rated 20A. Fixing screws supplied. BS3676. Available with or without neon indicator.

Retail Unit Price each (inc. VAT).

Order Code	Type 1243	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
HL87U	20A Plateswitch	£3.820	£3.450	£3.170	£4.490

**Brass Dimmers**

NEW

A range of Georgian, rope edge style brass dimmer switches in either 1, 2 or 3 gang. Dimmer switches must not be overloaded or underloaded. Please refer to the fitting instruction for max/min loads per dimmer switch. Dimmer switches cannot be used for low voltage lighting, fans, fluorescent bulbs or energy saving bulbs as this will cause the switch to burn out. Switching is by push-on, push-off so that light may be switched on or off at any brightness setting. Designed for either 1 or 2 way switching

**Maximum load:**

- 1 Gang: 400W
- 2 Gang: 250W
- 3 Gang: 250W

Supplied with fixing screws and protective gasket.

Retail Unit Price each (inc. VAT).

## Cable

### 1mm<sup>2</sup> Twin and Earth 6242Y

**BASEC APPROVED / BS6004**

A twin core and earth flat domestic wiring cable for use on lighting circuits. Three 1/1-13mm copper conductors, 300/500V.

**Sheath:** Red and Black PVC plus unsheathed earth-continuity conductor, in an overall white PVC sheath.

**Overall size:** 7.5 x 4mm  
**Nom. conductor area:** 1mm<sup>2</sup>  
**Max current surface:** 15A  
**Max current enclosed:** 11A  
 Sold per metre (max. length in one piece 100m). Also available on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 105	Price each exc. VAT			inc. VAT each
		1+	5+	10+

**Switched BC Lampholder**

A standard T1 (60W) BC lampholder to BS5042 with on/off switch.

*Retail Unit Price each (inc. VAT).*

Order Code	Type 17880	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
GC44X	T1 Switched Bulb-Hld	£0.842	£0.784	£0.729	£0.990

## Ceiling Pendant

Lampholder type FQ02C and ceiling rose type FQ05F pre-wired together with 150mm approx. of white flex.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JG37S	Rose and Pendant 6in	£2.540	£2.990

## Safety Autoswitch Batten Holder

Automatically switches off 'live' contacts when the bulb is removed. Provides added protection against the possibility of electrocution while changing the lamp or left without a bulb in the socket. Suitable for use with standard bayonet type bulbs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KE90X	Safety Batten Hldr	£4.240 £3.620 £3.520	£4.990

## Battenholder

A standard BC lampholder to BS5042 in a plastic mount with wide skirt. This battenholder has sprung plungers and is finished in white. Diameter of base 63.5mm. Fixing centres 51mm. Overall height 47mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LB63T	Bayonet L-Hldr	£1.010	£1.190

## Force Fit Switched BC Lampholder

A standard BC lampholder to BS5042 with integral on/off switch and 2m of white flex. The base of the lampholder has a plastic adaptor to force fit into a suitable opening e.g. a bottle, to make an attractive and individual lamp. The flex is side entry into the lampholder so it is not necessary to drill holes in the bottle for the flex. The lampholder is screwed onto the plastic adaptor, so it can be removed for maintenance. A 60W lamp is the maximum

permissible, depending on the shade used and adequate ventilation. Suitable for an opening 17mm to 23mm approx.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KR35Q	Force Fit Lamp Hldr	£2.540 £2.120 £1.920	£2.990

## Clip-on Light

A handy 240V AC mains lamp that is ideal for temporary lighting at home, in the office or studio. The standard white BC lampholder has an on/off switch and is attached to a large spring loaded clip for fixing to the edge of a desk, picture rail etc. The lampholder comes complete with 2m of white twin flex and a 13A plug (fitted with a 3A fuse). The lampholder must be used with a suitable shade, and a lamp not exceeding 60W (neither supplied). NB. This item is not recommended as an inspection lamp.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KR36P	Clip-On Lamp Holder	£3.050 £2.580 £2.220	£3.590

## Ceiling Rose

A white satin-finish ceiling rose that does not need a separate backplate or pattress. Designed to BS67 1969 with three separate terminals with captive screws housed in a transparent shield providing individual loop-in facilities. A separate earth terminal is also provided. Positive cable restraint. Diameter of base 82.5mm. Fixing centres 51mm.

Retail Unit Price each (inc. VAT).

## 150W Halogen Tube

A halogen tube rated at 250V AC, 150W, as used with the mini halogen lamp, DM50E, etc.

Retail Unit Price each (inc. VAT).

Order Code	Type 4837	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
DM51F	150W Halogen Tube	£2.540	£1.440	£1.160	£2.990

## 240V 300W and 500W Halogen Lamps

High-powered halogen tubes with a brilliant white light (colour temp. 2900°K) which can provide 9000 lumens of illumination for 500W tube and 5000 lumens for 300W tube. To fit standard R7S base, these tubes are suitable for any application where a very bright light is required (for example, video work). Also suitable as replacement bulbs for our Security Light (GK05F). Important note: please avoid touching the glass itself with bare fingers as the grease will reduce the life of the tube. Average life 2000 hours. Overall dimensions: 119.6mm long x 10mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type 4839	Price each exc. VAT			inc. VAT each 1+

## Low Voltage Dichroic Lamps

A range of 12V low voltage dichroic lamps in a variety of wattages and beam angles with bi-pin single ended GX 5.3 caps. The dichroic reflector has the advantage that it radiates the majority of the heat in the opposite direction to the light beam, meaning that little infra-red is radiated forward. This makes the lamps particularly suitable for illumination of heat sensitive material, such as transparencies in slide projectors for example. Further advantages of using dichroic lamps are the higher light output (a 50W lamp has the same light intensity of a 150W PAR lamp), longer life and superior colour rendition when compared to standard PAR lamps.

Available in the following wattages and beam angles:

Part No.	Watts	Beam Angle	Order Code
ESX/CG	20W	13°	AB73Q
BAB/CG	20W	40°	AB74R

## Lamps

## Desk Lights

### Desk Lamps

Ledu

Reading/work lamps suitable for use with incandescent bulbs. Ideal for desk-work, at the drawing board and work bench, anywhere, in fact, where a substantial light is required. The shade has a functionally correct design and distributes the light evenly over a large area. The lamp is supported on a jointed, articulated arm with sprung suspension and table clamp, to position the light precisely

where needed. Bulb not included. Two models are available, of max. 60W and 100W bulbs.

**60W Model:**

**Dimensions:** Arm length 75cm; shade diameter 18cm.

**100W Model: (illustrated)**

**Dimensions:** Arm length 105cm; shade diameter 20cm; shade height 18.2cm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3999	Price each exc. VAT			inc. VAT each
		1+	5+	10+

2 Way	60A	No
4 Way	100A	Yes
6 Way	100A	Yes
8 Way	100A	Yes
12 Way	100A	Yes

Only suitable for indoor use. Conditional short-circuit capacity is 16kA, based on the assumption that short-circuits are unlikely to occur in the first three metres of the cable connected to the over-current devices. Supplied with full instructions. MCBs must be ordered separately.

Retail Unit Price each (inc. VAT).

Order Code	Type 1348	Price each exc. VAT	inc. VAT each
BN35Q 1	Consumer Unit 1 Way	£14.710	£17.290
BN36P 1	Consumer Unit 2 Way	£17.010	£19.990
BN38R	Consumer Unit 4 Way	£21.260	£24.990
GT76H	6 Way Consumer Unit	£25.520	£29.990
BN39N 1	Consumer Unit 8 Way	£28.070	£32.990
GV39N 1	12 Way Consumer Unit	£35.730	£41.990

## 63A RCD Protected Consumer Units

Protus

A range of fully insulated consumer units manufactured in accordance with BS 5486 Part 13. Similar to the standard range above, these units have the additional protection of a 63A RCD incorporated into the main double-pole isolating switch. This safety device trips out if there is a discrepancy between Live and Neutral of  $\pm 30\text{mA}$ ; i.e. a current flow to Earth of 30mA or more.

Available in 4, 6, 8 and 12 ways. The MCBs and RCD are protected by a smoked perspex cover. Supplied with instructions. MCBs must be ordered separately.

Retail Unit Price each (inc. VAT).

Order Code	Type 17589	Price each exc. VAT	inc. VAT each
GV40T 1	4 WAY INS CON UNIT	£68.070	£79.990
GV41U 1	6 WAY INS CON UNIT	£81.690	£95.990
GV42V 1	8 WAY INS CON UNIT	£85.090	£99.990
GV43W 1	12 WAY INS CON UNIT	£94.450	£110.990

## Split Load Consumer Units

Protus

Fully insulated consumer units, manufactured to BS 5486 Part 13. The units include a smoked perspex front cover over the isolator, RCD and

MCBs. A 100A isolator switch is at the right-hand end and a 63A RCD is at the centre. Each switch controls half of the MCBs. The advantage of this type of split distribution system is that relatively hazardous circuits can be connected to the RCD-controlled MCBs (such as ring mains with washing machines, electric cookers, outdoor circuits etc.) whilst circuits where it can be more hazardous if they fail when the RCD trips (such as indoor lighting circuits), or relatively non-hazardous circuits where it's important that power is maintained at all times (such as circuits connected to freezers) can be connected to the isolator-controlled MCBs. The RCD trips out if there is a discrepancy between live and neutral of  $\pm 30\text{mA}$ , e.g. a current flow to earth of 30mA or more. Both RCD and isolator are double pole. Only suitable for indoor use. Conditional short-circuit capacity is 16kA, based on the assumption that short-circuits are unlikely to occur in the first three metres of the cable connected to the over-current devices. Supplied with instructions.

Two models are available: 6 Way (3+3) and 10 Way (5+5)

MCBs must be ordered separately.

Retail Unit Price each (inc. VAT).

Order Code	Type 1354	Price each exc. VAT	inc. VAT each
GV44X1	3 Way SLoad Con Unit	£93.600	£109.990
GV45Y1	5 Way SLoad Con Unit	£110.620	£129.990

## HRC Fuse Carriers for Consumer Units

Proteus

A range of DIN rail mounting fuse carriers that offer a low cost alternative to MCBs for use in our consumer units. BS 1361 fuses fitted. Each carrier comes complete with a fuse and incorporates a position for a spare fuse (not supplied). Replacement HRC fuses are widely available. Available in 5A, 15A, 20A and 30A

Retail Unit Price each (inc. VAT).

Order Code	Type 17595	Price each exc. VAT	inc. VAT each
GV70M	5 AMP FUSE CARRIER	£3.390	£3.990
GV71N	15 AMP FUSE CARRIER	£3.390	£3.990
GV72P	20 AMP FUSE CARRIER	£3.390	£3.990
GV73Q	30 AMP FUSE CARRIER	£3.390	£3.990

## HRC Fuses BS1361

A range of HRC fuses to BS1361. Suitable as replacement fuses in our range of consumer unit fuse carriers. Available in the following values: 5A, 15A, 20A and 30A

Retail Unit Price each (inc. VAT).

Order Code	Type 18113	Price each exc. VAT	inc. VAT each
MU79L	5A HRC Fuse	£0.621 £0.572	£0.730
MU80B	15A HRC Fuse	£0.723 £0.666	£0.850
MU81C	20A HRC Fuse	£0.723 £0.666	£0.850
MU82D	30A HRC Fuse	£0.808 £0.744	£0.950

## Henley Blocks

Single pole and double pole versions available. Used for connection of meter tails to consumer unit.

Retail Unit Price each (inc. VAT).

Order Code	Type 12158	Price each exc. VAT	inc. VAT each
VK29G	Henley Block S/Pole	£5.940 £5.570	£6.990
VK30H	Henley Block D/Pole	£11.050 £10.280	£12.990

## Stand Alone 63A RCD

Proteus

Upgrade your existing consumer unit by adding RCD protection with this 63A RCD. The RCD will trip if there is a discrepancy between Live and Neutral of  $\pm 30\text{mA}$ ; i.e. a current flow to Earth of 30mA or more. A separate housing is available for mounting the RCD.

Retail Unit Price each (inc. VAT).

Order Code	Type 17328	Price each exc. VAT	inc. VAT each
MS80B1	Stand Alone RCD 63A	£63.820	£74.990
MS81C	Enclosure for RCD	£5.940	£6.990

## MCBs

Proteus

A range of miniature circuit breakers (MCBs) with type 2 time/current characteristics to BS3871 Part 1 for use with Consumer Units.

The following types are available:

- 6A for lighting circuits.
  - 10A for power spurs etc.
  - 16A for immersion heaters etc.
  - 20A for radial circuits etc.
  - 32A for ring mains.
  - 40A for cookers and showers up to 9.6kW etc.
- The MCB breaks when the current exceeds its rating and can be reset as soon as the overload is removed, and eliminates the need for fuses and fuse wire.

Retail Unit Price each (inc. VAT).

Order Code	Type 1351	Price each exc. VAT	inc. VAT each
BN42V	6A MCB Din Rail	£6.800 £6.060	£7.990
BN43W	10A MCB Din Rail	£6.800 £6.060	£7.990
BN44X	16A MCB Din Rail	£6.800 £6.060	£7.990
BN45Y	20A MCB Din Rail	£6.800 £6.060	£7.990
BN46A	32A MCB Din Rail	£6.800 £6.060	£7.990
BN47B	40A MCB Din Rail	£6.800 £6.060	£7.990
BN49D	Blanking Plate	£0.672 £0.505	£0.790

## Safety Electrical Earthing Straps

Electrical earthing straps specifically intended to connect system earths to real earth via a grounding rod or to provide for crossbonding to metal gas and water pipes as required by IEE regulations. Type A-E is intended as a main earth connection to a grounding rod and has a wire clamp which can take a single conductor up to 7mm thick (e.g. 68A earth bonding wire XS13P). Type A-D is for close coupled applications. It has a single screw terminal around which the wire is wrapped. Will take high current wire up to 4mm thick, e.g. XR57M etc. Both are fitted by wrapping the strap around the earthed member, passing the free end through the clamp body and pulling tight with strong pliers. Then a clamping screw is used to lock the strap in place, a locknut is attached to secure the screw and prevent tampering. Will take a tube or rod from 20 to 30mm diameter. Strap carries an alloy 'Do not remove' label. Constructed from brass and other non-ferrous alloys and will not rust.

Retail Unit Price each (inc. VAT).

Order Code	Type 1352	Price each exc. VAT	inc. VAT each
JZ27E	Earth Strap A-D	£1.430 £1.190	£1.690
JZ28F	Earth Strap A-E	£1.690 £1.550	£1.990

## Circuit Breakers

### RCD Protected Plug

JoJo

An RCD protected plug which can be used as a replacement for any standard 13A mains plug. The use of a RCD plug should not be regarded as a substitute for basic electrical safety precautions. Always unplug equipment to achieve isolation before any inspection or repair is attempted. If the RCD repeatedly trips with an appliance connected, contact the manufacturer or seek expert advice. Complies to BS7071 & BS1363

Retail Unit Price each (inc. VAT).

Order Code	Type 1321	Price each exc. VAT	inc. VAT each
VK01B	RCD Plug	£15.310 £14.660	£17.990

## Power Breaker

- ★ Easy to use one button operation
- ★ Large clear indicator window
- ★ No need to unplug to reset
- ★ Instructions on front of unit
- ★ No wiring needed

Ideal for protection when used with lawn mowers, hedge trimmers and household appliances that are used around water, like kettles, etc, for use with a normal 3-pin socket. If you accidentally mow your lawn mower cable, for example, the power will immediately be switched off by the Power Breaker, rendering the dangerous cable harmless. Any leakage of current to earth will trigger this device into tripped mode, with the ability to perform a self test by pressing the On/Test button. Ideal for use with power tools including circular saws, jigsaws and drills. Full instructions for use are given on the front of the device in addition to the printed material supplied with the unit. Complies with BS7071.

### Specification

Rated voltage	230V 50Hz AC
Maximum current	13A
Maximum load	3kW
Rated trip current	30mA
Trip speed	40ms (typical)
Contact break type	Double-pole RCD
Dimensions	103 x 51 x 43mm (L x W x D)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BNS0E	RCD Adaptor	£14.880	£17.490

## Portable RCD Adaptor

Jolo

A portable and easy to use circuit breaker for use in the home, at work, in the garden or garage. Simple to use and ideal for protecting operators of all types of power-tools.

Simply plug the circuit breaker into the wall and press the 'RESET' switch. Any attached equipment can now be operated safely. Should a fault develop, then the supply to the equipment will be cut, protecting the operator from shock. Being portable this unit can be moved

around the house as necessary. A test button is also provided, to make sure that the circuit breaker is functioning properly. This unit will protect the user by isolating the supply when a leakage of 30mA or more occurs. Rated at 13A.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VK00A	RCD Adaptor	£14.450	£16.990

## Power Breaker

This is a new safety RCD Fused Spur. It will cut the power for added protection against electrocution. It has double pole protection and will fit a standard 25mm back box. Operating instructions are stamped on the front face. It has a 30mA trip current. Full instructions for installation and use are on the rear of the box; do not throw away.

### Specification

Rated voltage:	230V 50Hz
Current rating:	13A maximum
Rated trip speed:	40mS (Typical)
Rated trip current:	30mA
Terminal capacity:	6mm <sup>2</sup>
Mechanical latching	
RCD contact break:	Double pole

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KEB7U	RCD Spur Unit	£34.030	£39.990

## Thermostats

### Room Thermostat

A room thermostat with an easy-to-use control for all kinds of heating systems. Mounted on the wall, this thermostat, once set to the required temperature, will automatically trigger the heating system to come on and go off in order to maintain that temperature. Can be linked to any pump to control gas, solid fuel or oil fired central heating, warm-air and electric underfloor or ceiling systems. Includes an 'accelerator' which reacts quickly to changes in room temperature so as to maintain an even level. Fits a standard pattress. Knob marked 5° to 30°C. Rated 20A resistive, 4A inductive, 240V AC. Switch SPST. Supplied with instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YB20W	Room Thermostat	£11.050	£12.990

See Sockets Sub-Section for our full range of RCD protected sockets

### Frost Thermostat

A wall mounting, pattress style frost thermostat designed to operate remotely from the heat source. A bi-metal strip is the sensing element and trips at approx 0°C to switch on the heating or other appliances before the temperature falls below freezing. Thermal 'feed forward' is provided by low powered heating resistors adjacent to the thermostat and switched with the load. Maximum switching capacity is 16A @ 250V AC. Connections are to heavy duty copper screw terminals. Both earth and neutral must be connected. Grills in the

top and bottom of the cover ensure air circulation over the thermostat for realistic room temperature sensing, and the cover has two break-outs provided in the bottom left-hand corner if required. Attached to wall by four 3mm screws in base (not provided). Overall dimensions 86mm square x 38mm deep.

top and bottom of the cover ensure air circulation over the thermostat for realistic room temperature sensing, and the cover has two break-outs provided in the bottom left-hand corner if required. Attached to wall by four 3mm screws in base (not provided). Overall dimensions 86mm square x 38mm deep.

ZB86T	Frost Thermostat	£18.710	£21.990

## 7-Day Programmable Thermostat Timer

A 7-day programmable room thermostat that features presettable comfort and economy temperatures plus a defrost setting (7°C). Suitable for use with heating or cooling systems. Requires 2 x AA alkaline batteries (JY48C).

### Specification

Control range:	5 to 30°C
Temp accuracy:	±1°C
Programs:	6 preset, 3 user defined
Switching:	230V AC 50Hz, 5A resistive
Dimensions:	154 x 80 x 30mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DK62S	7 Day Thermo Timer	£28.070	£32.990

## Plug-In Thermostat

A thermostat that will plug straight into a 13A socket outlet and will provide thermostatically controlled power to its 13A mains into which a heater or fire can be plugged. The unit can supply a load up to 13A and thermostatically switch at eight temperature settings from frost to 35°C. The unit has two neon indicators; one illuminates when the mains power is supplied to the unit, and the other when the power is being supplied to the load.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
AQ20W	Plug-In Thermostat	£16.160	£18.990

**Time Switches**

**Immersion Heater Timer**

A 24-hour immersion heater timer that is designed to provide programmable on/off times, and fit directly to a suitable wall surface. Each switching 'rider' provides an on period of 15 minutes minimum, so that the heater can be on for as long as desired, and as often as required, during the course of a day. If 'Economy 7' is available, this enables consumers to make use of cheap rate electricity overnight. A three position switch enables the immersion heater to be on continuously, timed, or off. The timeswitch must be used with a localised isolation point (fused spur). Supplied with full mounting hardware and fitting instructions. Size: 86 x 86 x 84mm. Rated at 240V 50Hz 13A.

Retail Unit Price each (inc. VAT).

CY35Q	Heater Timer	£22.970 1+ £19.950 5+ £18.790 10+	£26.950 1+

**24-Hour Immersion Heater Time Controller**

Smiths-Timeguard

- ★ Easy to install
- ★ Simple to operate
- ★ Manual override
- ★ Thermal fuse included
- ★ Minimum setting time 15 minutes
- ★ Minimum on/off period 30 minutes

This unit is designed for installation with both new and existing immersion heater systems. It has a maximum of a 3kw switching load with a switching current of 13A resistive and 2A inductive. Rated at 240V 50Hz

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VJ60Q	24Hr Immersion Timer	£19.560 1+ £18.800 5+ £17.750 10+	£22.990 1+

**24-Hour Segment Immersion Heater Timer Controller**

Smiths Timeguard

Economical and convenient to use, this controller has been specially designed for easy installation with both new and existing immersion heater systems. The controller has a captive segment setting dial with a 15 minute minimum switching interval which can be increased in 15 minute steps. Conforms to 73/23/EEC and 89/336/EEC directives.

- ★ Switches ON and OFF at preset times
- ★ Easy setting captive segment dial

- ★ 15 minute minimum switching interval
- ★ Integral thermal fuse for extra protection
- ★ Manual override

**Specification**  
Operating voltage: 230Vac 50Hz

**Electronic Immersion Heater Time Controller'**

Smiths Timeguard

This timer has the facility to be used permanently on, permanently off or with timed programmes. Its 24 hour digital clock/timer display enables a shortest switching time of 1 minute.

An integral memory back up battery retains programmes in the event of a power failure. Two versions available. VJ61R - is a 24 - hour version MB05F - is a 7- day version with individual day, everyday, every weekday or weekend programme selections for six programmes Conforms to 73/23/EEC and 89/336/EEC directives.

- ★ Easily Programmable - 2 button system.
- ★ 24-hour model has 4 ON/OFF 7-day model has up to 6 ON/OFF switching programmes every 24 Hours.
- ★ Shortest switching time of 1 minute
- ★ 24-hour model has 1 or 2 hour boost facility
- ★ Integral thermal fuse for extra protection
- ★ Self cancelling override for instant ON/OFF control

**Specification**  
Operating voltage: 230V ac 50Hz  
Switch rating: 230V ac 13A resistive or 6A inductive

**Single Gang Fused Spur Timeswitch**

Smiths Timeguard

A fused spur timeswitch with double pole contacts that is built in to a single gang surface mount housing. The timeswitch is ideal for controlling combination boilers, storage heaters, convector heaters, water heaters and lighting. Conforms to

73/23/EEC and 89/336/EEC directives. Available in two versions. MB01B is a 24 hour model with 4 ON/OFF programmes per day. MB02C is a 7 day model with 6 ON/OFF programmes per day. Additionally, there is individual day, everyday or weekend programme selections This allows up to 42 settings per week.

- ★ Switched and switched timed outputs
- ★ Integral BEAB approved double pole switch and replaceable BS1362 fuse
- ★ Simple two button programming - one recessed
- ★ Front button override facility
- ★ 1000 hours memory back-up from fitted rechargeable battery in case of supply loss or fuse blow
- ★ Minimum switching period of one minute
- ★ Voltage free contacts

**Specification**  
Operating voltage: 220/240V AC 50Hz  
Switch rating (240V AC): 6A inductive 13A resistive (3kW)

## Programmable Security Light Switch

Smiths Timeguard

**NEW**

- ★ Easy to install
- ★ Replaces standard lightswitch
- ★ Concealed programming panel
- ★ Easily programmed
- ★ Light sensor prevents operation during day light hours

Designed to operate when you are away from home, this light switch will turn a light on automatically when it gets dark and can be programmed to turn off again up to 8 hours later. It can also act as a normal on/off or 2 way light switch.

Bulb size 40W minimum, 300W maximum. Rated at 240V AC 50Hz

Can only be used with Fluorescent lighting if used in conjunction with the Strip Light Adaptor -VJ65V. Not suitable for low energy bulbs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
VJ62S	Programmable Switch	£19.560	£18.800	£17.750	£22.990

## Programmable Lightswitch

Smiths Timeguard

This unit is designed to replace a conventional lightswitch and can be programmed to copy up to 9 switch settings of the previous 24 hours' switching pattern and repeat the programme daily until it is altered. The unit can be used as a normal lightswitch and is able to switch a minimum load of 40W and a maximum load of 200W. Please note: Unit not designed for switching fluorescent lighting.

Retail Unit Price each (inc. VAT).

## Passive Infra Red Lightswitch

Smiths Timeguard

**RECENTLY INTRODUCED**

- ★ Simple to use
- ★ Replaces existing lightswitch.
- ★ Turns light on when movement is detected.
- ★ Light level control for dusk-till-dawn switching.
- ★ Light on time adjustable.
- ★ Full instructions included.

This Passive Infra-Red Lightswitch is for indoor use and designed to automatically switch on when it detects body heat turning off again after a preset length of time from 5 seconds to 5 minutes. The lightswitch works in conjunction with a light level control which provides a dusk-till-dawn switching operation in response to body movement.

It can also act as a normal On/Off or 2-way lightswitch.

Bulb size : 40W minimum / 300W maximum.

Retail Unit Price each (inc. VAT).

## 24-Hour 20A Electro-Mechanical Time Controller

Smiths Timeguard

**NEW**

This plug-in base surface mount electro-mechanical timer has an 'analogue' type time display, and will control all electrical equipment up to 20A (resistive). Easily set by the captive segment setting dial, the unit has a maximum of 96 switchings per day. Conforms to 73/23/EEC and 89/336/EEC directives.

- ★ Synchronous motor driven
- ★ Manual override
- ★ Permanent ON/OFF
- ★ 15 minute minimum switching interval which can be increased in 15 minute steps
- ★ 12A inductive rating
- ★ Controls electrical appliances up to 4.8kW
- ★ 72 x 72mm plug-in base surface mount
- ★ Tamper proof transparent cover

Specification

Operating voltage: 230V ac 50Hz

Contact rating: 20A resistive

12A inductive

Operating temperature: -10°C to +40°C

Dimensions: 104 x 72 x 69mm

## 7-Day Electronic Time Controller

Smiths Timeguard

**NEW**

This versatile digital time controller features 7-day programme selections plus holiday suspension of programmes. Easy to use 6-button programming and 1000 hours rechargeable memory back-up allow ultimate control of electrical and electronic appliances. The controller is supplied with a transparent cover to discourage tamper and reduce dust ingress. Conforms to 73/23/EEC and 89/336/EEC directives.

- ★ 72 x 72mm plug-in base surface mount
- ★ 21 ON/OFF commands per week
- ★ Shortest switching time 1 minute
- ★ Manual override and permanently ON/OFF
- ★ ON/OFF times may be repeated over a number of days without using extra memory locations

★ Voltage free contacts

Specification

Operating voltage: 230V ac 50Hz

Contact rating: 16A resistive (3.8kW)

6A inductive

Operating temperature: -10°C to +40°C

Dimensions: 104 x 72 x 69mm

Retail Unit Price each (inc. VAT).

		1+	5+	10+	1+
MB06U	24Hr/Day T/Sw	£64.710	£61.48*	£58.250	£76.040

## 24-Hour Segment Timeswitch

Smiths Timeguard

- ★ Simple to program & operate
- ★ Plug in control for all 13A appliances and lamps
- ★ Switches on and off at preset times.
- ★ Manual override.

Easily set by its captive segment dial this 24Hour plug in time controller will automatically switch appliances On and Off at preset times during the day over a 24-Hour cycle. With a minimum On/Off switching of 15 minutes the unit can switch up to 96 times per day. You can switch your appliance On and Off at any time by using the self cancelling switching rider on the top left of the unit. Rated at 240V AC 50Hz.

## 24-Hour Plug-In Timer

Smiths Timeguard

Plugging this timer into your existing 13A socket outlet gives automatic control over a 24-hour period to any electrical appliance. Simply plug the appliance that you wish to be controlled, up to 13A resistive or 2A inductive loading, into the 13A socket outlet of the unit and set the time interval. The unit is switchable in 15-minute intervals with a minimum time between settings of 30 minutes. Available singly (RZ81C), or as a twin pack (RZ83E).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+

## 7-Day Plug-In Timer

Smiths Timeguard

This timer can be plugged into your existing 13A socket outlet and gives automatic control of an electrical appliance over a 7-day period. The time controller can switch up to 13A resistive or 2A inductive loads. The minimum time interval is 2 hours with a minimum time between settings of 4 hours. The timer can be extremely useful as a security device turning on such appliances as radios and table lamps to give a potential intruder an impression that your home is occupied.

## 24-Hour Slimline Digital Timer

This timer is a slimline digital controller that can be plugged straight into your existing 13A socket outlet and can be programmed to switch loads of up to 13A resistive or 2A inductive. The timer can switch up to 4 ON/OFF programmes per day, with a minimum of 1 minute between switch settings, each of which can be manually overridden. The override function is cancelled at the next automatic ON or OFF switching time. The unit has a back up battery in order that timing is kept accurately, even during a power cut.

## Countdown Switch

Technotrend

This ingenious device requires no programming and is quite different from ordinary timers. It simply plugs into any 13 Amp socket. Pressing the clearly marked On button switches on the power and starts the countdown. The red illuminated display indicates time remaining. The time-on period can be simply adjusted by pressing the clock button.

- ★ Controls almost any appliance
- ★ Improves safety
- ★ Cuts electricity bills
- ★ Convenient and labour-saving
- ★ Easy to use

Typical uses include heaters, irons, kitchen appliances, power tools, soldering irons, televisions, electric blankets, etc.

## Time Switches

### Security Lampholders

Smiths Timeguard

- ★ As simple as fitting an existing light bulb.
- ★ Requires no wiring or adaptors.
- ★ Light level control for dusk-till-dawn switching.
- ★ Microchip controlled.

Dusk-till-Dawn -VJ66W- has a light level sensor that turns the light on at dusk and off at dawn.  
Random -VJ67X- has the same features and benefits but will switch the light on and off at completely different times between dusk and dawn.  
Sound Activated -VJ68Y- will turn the light on in response to sound and will remain lit for between 10 & 20 minutes, the duration varying with each activation between dusk and dawn.

Retail Unit Price each (inc. VAT).

### Staircase Timeswitch For DIN Rail Mounting

Smiths Timeguard

A 16A delay timeswitch for staircase lighting that has an ON time adjustable from 1 to 7 minutes in 15 second steps. The timer comes in a standard

one module wide housing (45 x 17.5 x 68mm), and is designed to snap-on fit a standard 35mm 'top-hat' rail (DIN EN50022).

H Can switch up to 2000W of incandescent or fluorescent lighting

H Permanent ON switch

H Very reliable synchronous motor drive

H Simple to set with direct indication of delay time

#### Specification

Operating voltage: 230V ac 50Hz  
Switching capacity: 16A

2000W for incandescent, fluorescent lamps

Switching: resettable after 30s approx.  
Operating temperature: -10°C to +50°C

**Extractor Fans**

**100mm Extractor Fan Kit**

Two 100mm diameter extractor fan kits for bathrooms, toilets, kitchens etc. Each kit includes the interior fan housing and grille, a 400mm long, flexible aluminium wall ducting and an external wall grille with gravity controlled non-return shutters. The interior housing surround is 160 x 160 x 30mm deep. The cover is removable to reveal the synchronous fan motor and connecting terminal block. Requires only mains Live and Neutral since assembly is double insulated. The motor is rated at 20W and the fan is a positive displacement airscrew type shifting up to 90m<sup>3</sup> per hour. Colour of interior side is white, exterior shutter grille is light grey. Can be fitted in walls up to 115mm thick, partition walls and ceilings. Needs eight additional wall fixing screws (not supplied).

Two types are available. The first is a basic extractor fan remotely switched by either a separate switch or by splicing into the lighting supply. The second can be connected to a permanent supply and energised by a control wire connection to the lighting circuit such that when the light is switched off, a built in electronic delay timer system will keep the fan running for several minutes. Fitting instructions included.

**Air Purifier**

- ★ Clears air of smoke, pollen, dust and other airborne pollutants
- ★ Removes and neutralises unpleasant odours
- ★ Two speed settings
- ★ Costs less than 5p per day to run
- ★ Five stage filtering system
- ★ Quiet running
- ★ Supplied with two filters

For use in the home or office, this compact air purifier filters the air removing smoke and other pollutants, trapping them in the fine filter layers. Ideal to help alleviate symptoms of Asthma, Hay Fever, Bronchitis and a wide range of allergies, as well as helping to protect sensitive equipment and materials from airborne dust. Air is forced through the filter medium by a powerful two speed fan. Odours are removed from the air and trapped in an activated carbon layer, neutralising cooking and food smells quickly and efficiently. When a filter becomes clogged or loses its fragrance it can easily be replaced by twisting it from the base of the unit and replacing with a new one. Supplied complete with one apple and one citrus fragrance filter and full operating instructions. Filters are available separately with apple (WC14Q), citrus (WC15R) and lavender (WC16S) fragrance or unscented (WC17T).

**Specification**  
Operating voltage: 230V 50Hz AC  
Power consumption: 12W  
Output settings: Off/Lo/Hi  
Flow rates: 294 l/h (Lo), 425 l/h (Hi)

## Insect Killer

Automatically destroy flying insects, mosquitoes, bugs, flies, wasps, gnats, etc. This flying insect trap utilizes ultra-violet light of a wave-length proven to be the most effective lure for light sensitive flying insects. Mains powered, this forms a practical, efficient, hygienic and automatic electronic insect extermination system. Placing a tiny amount of meat, fish or syrup in the bottom tray will make the unit more effective at exterminating daytime flying insects. Suitable for domestic and commercial use.. Spare tubes available.

## Home Automation

### X-10 Technology

X-10 is the USA's leading Electrical Home Automation technology with over 3 million users in American and Europe. Control signals are passed along your existing mains wiring to be received by special modules which are used to control any electrical device. An appliance module can be switched on and off whilst a lamp module can be dimmed as well as being switched on and off.

A variety of controllers are available, including radio-controlled handsets, a plug-in timer and a computer interface controller. The handset transmits a specially coded radio signal to a transceiver that can be plugged in anywhere in your home. This in turn sends the X-10 signals to the specified module. This means that you can dim the table lamp, switch off the hi-fi in the other room, turn all the lights off upstairs and switch on your electric blanket in the bedroom; all without moving from the comfort of your armchair!

### 8-in-1 Universal Remote Control Kit

Homotech

- ★ The kit comprises an 8-in-1 remote controller and an X-10 transceiver.
- ★ Replaces upto 8 remote controls.
- ★ Extensive range of pre-programmed codes cover most popular TVs, VCRs, Satellite Receivers and Cable Boxes, etc.
- ★ Learning function to record commands from existing remotes.
- ★ Backlit keys
- ★ X-10 technology controller.

In addition to all the functions one would expect from a top of the range 8-in-1 Universal Remote, this controller has a radio transmitter that sends control signals to the X-10 transceiver module. This module can be plugged in anywhere in the home and in turn will transmit the special X-10 signals along your mains wiring to control any X-10 modules that you have connected. In addition, the receiver is itself an appliance module and will switch full mains loads (upto 13 Amp) on and off. Therefore, this makes the ideal starter pack that allows control of a single appliance. Additional appliance modules and lamp modules can then be

added at will, only the one transceiver is required to individually control upto 255 different modules. The transceiver is also available as a separate item (MS20).

Retail Unit Price each (inc. VAT).

Order Code	Type 18026	Price each exc. VAT	inc. VAT each
MS15R	8in1 Remote Control	£76.580	£89.990
MS20W	Transceiver	£90.850	£71.500

### Control Modules

Homotech

These easily installed modules contain X-10 technology which means they respond to the special signals sent down the mains wiring by the X-10 transceiver or other X-10 control device. Just plug in to any standard 13A mains socket and plug your appliance into the module.

#### Appliance Module

The Appliance Module can switch upto 13A on and off. A manual override allows you to switch on an appliance even if the module has been turned off. (Manual override may not work on certain appliances).

#### Lamp Module

The lamp module can dim incandescent (normal) lamps as well as switch on and off loads upto 300W. A manual override allows you to switch on a lamp even if the module has been turned off. (Cannot be used with fluorescent or low-voltage lamps).

Retail Unit Price each (inc. VAT).

Order Code	Type 18027	Price each exc. VAT	inc. VAT each
MS18U	Lamp Module	£42.540	£49.990
MS19V	Appliance Module	£42.540	£49.990

### Timer for X-10

Homotech

The timer controller allows individual, groups or all modules to be switched on and off at pre-determined times. The controller can also dim lamp modules. The unit can be programmed to turn on and off up to four modules twice a day. The unit also has switches that allow the modules to be manually switched. As well as convenience, this controller has security applications. Your home can be given that "lived in" appearance with a facility to automatically vary the times programmed into it.

Retail Unit Price each (inc. VAT).

Order Code	Type 18048	Price each exc. VAT	inc. VAT each
MU50E	Timer	£42.540	£49.990

### 16 Channel X-10 Remote

Homotech

An easy to use remote controller that can switch on and off 16 separate modules using the X-10 system. There is room on the controller to write the name of the appliance that is being controlled next to each rocker style switch.

Retail Unit Price each (inc. VAT).

Order Code	Type 18029	Price each exc. VAT	inc. VAT each
MS22Y	16 Channel Remote	£42.540	£49.990

### Computer Interface Controller

Homotech

- ★ Stand alone operation even when unplugged from PC
- ★ Easy to use Windows 3.1 and Windows 95 compatible software on CD ROM
- ★ Battery-backed for up to 1 week

A serial cable with RJ11 connector at the interface end and a 9 pin D connector at the other end is provided to connect the interface to the serial port of your PC. The interface is 2 way, both generating and receiving X-10 commands. The point-and-click software provides graphical representations of switches and modules. The versatile software allows timed events to be programmed to occur at a particular time every day, on chosen days only, between chosen dates, etc. Another use is to enable macro commands from standard controllers. Normally when a controller sends a signal only one event occurs. With the computer interface installed this command can be intercepted and a whole sequence of events actioned. An example might be to turn on the landing lights then after 20 minutes dim the bedroom lights and turn off the landing lights.

Retail Unit Price each (inc. VAT).

Order Code	Type 18028	Price each exc. VAT	inc. VAT each
MS21X	Computer Interface	£74.680	£87.990

## Wireless Security

### Home Security & Automation Kit

Homotech

- ★ Wire-free system means easy installation and no unsightly wiring.
- ★ Intelligent central controller uses X-10 technology to communicate with home automation modules.
- ★ In-built auto-dialler and microphone relays alarm information to up to 4 friends or neighbours and allows them to 'listen in' to events in your home.
- ★ Extra sensors and accessories available.
- ★ UK telephone technical support line.

This advanced alarm system is extremely sophisticated yet simple to install and use. The system, as supplied, monitors your property on two important fronts. Door and Window Sensors detect any unauthorised opening of any two doors or windows. The PIR Movement Sensor detects movement in a room, hall, kitchen, garage, etc. The system also has three distinctive alerts to protect your property. Firstly, a 95 dB siren built into the Control Unit. Secondly, the Lamp Module will flash any lamp plugged into it and finally, a built-in dialler sends out your own 15 second message to up to 4 different telephone numbers which you select. There are two remote controls supplied. The Keyfob Remote simply arms and disarms the system from inside or outside the property. It also lets you turn on and off any lamp plugged into the Lamp Module. The Hand-held Remote does the same but may also be used to sound the alarm and operate other X-10 modules that you might have installed.

#### Contains:

- 1 Central Control Unit
- 1 Power Supply Unit
- 1 Wireless PIR Movement Sensor
- 2 Wireless Contact Sensors with magnetic switches
- 1 Lamp Module
- 1 Hand-held Remote Control
- 1 Keyfob Remote Control
- 1 Telephone connection lead
- 1 Telephone socket doubler
- 4 PP3 type Batteries
- 4 AAA type batteries
- Comprehensive instructions

## MICROPHONE INSERTS

### Dynamic Microphone Inserts

Two dynamic coil microphone inserts, DU-3 is omnidirectional and is fitted in a round plastic case 23mm diameter x 11mm thick. Two solder pads provide means for connection to a screened cable. The screen should be soldered to the pad that is one end of the large circular band underneath. Type UF-27 is unidirectional and contained in a black plastic body 30mm long x 27mm diameter overall. The rear of the body is stepped to facilitate insertion into some sort of rubber grommet or suspension. Connects via two solder pads.

#### Specification

	DU3	UF27
Frequency response:	100Hz to 10kHz	50Hz to 14kHz
Impedance:	500Ω	600Ω ±30% @ 1kHz
Sensitivity:	-80dB ±2dB @ 1kHz	-82dB ±3dB @ 1kHz
Weight:	13g	22g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FK43W	Omni Insert Dyn DU3	£2.540	£2.990
FK44X	Uni Insert Dyn UF27	£5.090	£5.990

### Omni-directional Sub-Miniature

Type EM-60B is a sub-miniature omni-directional electret condenser microphone only 9.8mm diameter and 7mm thick.

#### Specification

Response: Omni-directional  
 Frequency response: 50Hz to 13kHz  
 Sensitivity: -60dB ±3dB  
 (0dB = 1V/μbar at 1kHz, V<sub>CC</sub> = 4-5V, R<sub>I</sub> = 1kΩ)  
 Impedance: 1kΩ maximum  
 S/N ratio: >40dB  
 Sound pressure level: 120dB maximum  
 Power supply: 1.5V to 10V DC  
 Recommended voltage: 4-5V (optimum performance)  
 Current drain: <0.4mA  
 A 3-pin version is available (CN80B) featuring a separate earth shield. Looking at the base, pin 1 is to the left of the indent and pin 3 is to the right. Pin 3 is supply, pin 2 is output, and pin 1 is ground.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CN80B	Elec Mic Ins 3 Terms	£1.690	£1.990
FS43W	Submin Omni Insert	£1.260	£1.490

### Electret Microphone Inserts

#### Omnidirectional Ultra Miniature

Type EM-10B is an ultra-miniature omnidirectional electret condenser microphone only 6mm diameter and 5.2mm thick.

#### Specification

Response: Omni-directional  
 Frequency response: 50Hz to 13kHz  
 Sensitivity: -60dB ±3dB  
 (0dB = 1V/μbar at 1kHz, V<sub>CC</sub> = 4-5V, R<sub>I</sub> = 1kΩ)  
 Impedance: 1kΩ maximum  
 S/N ratio: >40dB  
 Sound pressure level: 120dB maximum  
 Power supply: 1.5V to 10V DC  
 Recommended voltage: 4-5V (optimum performance)  
 Current drain: <0.5mA

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
QY62S	Ultramin Omni Insert	£2.030	£2.390

## TELEPHONE PICK UP

### Telephone Pick-up Coil

Small pick-up coil in black plastic moulding with rubber suction pad to attach to telephone. Will pick up conversations for recording. Connected to approx. 1m of lead terminated in a 3.5mm jack plug.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LB92A	Phone Coil	£2.540	£2.990

## LOW COST MICROPHONES

### Low-Cost Dynamic Microphone

A budget priced omni-directional dynamic microphone that makes an ideal replacement for the type supplied with portable cassette recorders. It has a black plastic body and it features a remote switch, the contacts of which are terminated in a 2.5mm jack plug. Connection to the microphone itself is by means of a 1.5m lead with 3.5mm plug. A stand bracket is incorporated for desktop use.

#### Specification

Frequency response: 200Hz to 10kHz  
 Impedance: 250Ω ±30% at 1kHz  
 Sensitivity: -78dB ±3dB at 1kHz  
 Size: 115 x 30mm dia.  
 Weight: 50g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
ZA31J	Low Cost Dynamic	£3.390	£3.990

### Crystal Microphone Inserts

Two small crystal microphone inserts, one in a plastic box and one with a metal body. Size 25mm diameter x 10mm (11mm with plastic). Both require amplifier input impedance ≥1MΩ.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LB93B	Crystal Mic In Plas	£1.260	£1.490
HY33L	Crystal Mic In Metal	£1.690	£1.990

## MICROPHONES

### LAPEL MICROPHONES

#### Lapel Microphone

A low-cost crystal lapel microphone with lapel clasp and 900mm long lead terminated with a 3.5mm jack plug.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LB68Y	Lapel Mic	£3.390	£3.990

### Vocal Dynamic Microphone

A stylish low impedance unidirectional dynamic microphone with built-in on/off switch and a spherical mesh windshield. The microphone has a rugged black plastic body and is supplied with approximately 3m of cable, terminated in a mono 6.35mm (1/4in.) jack plug. The cable is not detachable.

#### Specification

Frequency response: 80Hz to 12kHz  
 Impedance: 600Ω  
 Sensitivity: -76dB ±3dB at 1kHz  
 Size: 220 x 56mm  
 Weight: 116g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CJ15R	Voc Dynamic Mic Blac	£5.090	£5.990

## General-Purpose Dynamic Microphone

A quality microphone with a body formed from heavy diecast zinc and a light gunmetal finish. The transducer has a 500Ω balanced output, the output of which is made available via an XLR plug at the base of the body. An on/off switch is also built into the body. The microphone is supplied with a holder, and a 5m cable lead terminated in a 6.3mm jack plug.

### Specification

Type:	Uni-directional dynamic
Impedance:	500Ω, balanced
Frequency response:	60Hz to 12kHz
Sensitivity:	-72dB @ 1kHz
Head diameter:	42mm
Length:	175mm (excluding connector)

Retail Unit Price each (inc. VAT).

Order Code	Type 9077	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DW73Q	Magic Mic	£25.520			£29.990

## Magic Mic

An electronic voice effects mic with a host of impressive features including a digital voice changer, 4 drum pads, 4 preset voices, laughter and applause functions. Ideal for use with Karaoke machines, music systems with mic mixing and audio dubbing on camcorders. Bypass switch allows normal microphone use, and an LED indicates when the voice functions are enabled. Requires 4 x 'AAA' cells (JY51F, not supplied) and connects to systems with a 6.5mm jack and a 3.5mm jack with the supplied adaptor. Ideal for professional and home use.

Retail Unit Price each (inc. VAT).

		1+	5+	10+	1+
DW73Q	Magic Mic	£25.520			£29.990

## SHURE MICROPHONES

### Shure Dynamic Microphone

Shure

The BG1.0 (PD91Y) dynamic microphone is ideal in a variety of settings and applications. The BG1.0 is the perfect choice to handle almost any miking application, yet at an affordable price. Suitable for instruments as well as vocals, the BG1.0 can be customised for either high or low-impedance operation, making it compatible with almost any microphone input found on a mixer or portable studio. Includes strand adaptor and vinyl carrying case. Cardioid dynamic.

Frequency response: 80 to 12,000 Hz.

The BG2.0 (PD92A) dynamic vocal microphone employs a neodymium magnet, which provides the maximum output and sensitivity giving you the high output needed to cut through crowd noise and background clutter in active environments. Like all BetaGreen vocal microphones, the BG2.0 has a specially shaped frequency response to make vocals sound their best. Includes strand adaptor and deluxe, foam padded, nylon carrying case. cardioid dynamic.

Frequency response: 70 to 13,000 Hz.

Retail Unit Price each (inc. VAT).

Order Code	Type 13398	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
PD91Y	Shure BG1.0 Mic	£39.990			£46.990
PD92A	Shure BG2.0 Mic	£63.820			£74.990

## Quality Professional Dynamic Microphone

Shure

A superb quality dynamic microphone at an affordable price, that delivers a crisp, detailed performance with good power and punch. This ruggedly built microphone is ideally suited for singers who are 'on the way up'. Features a built-in windscreen/pop filter for noise-free use, and supplied with a slip-in swivel adaptor.

### Specification

Type:	Dynamic
Polar pattern:	Cardioid (unidirectional)
Frequency response:	55Hz to 14kHz
Impedance:	150Ω (270Ω actual)
Output level at 1kHz	
open circuit voltage*	-77.5dB (0.13mV)

## Professional Quality XLR-Type Connectors: In-Line

Neutrik

Type NC-FX

A range of professional quality XLR plugs and sockets for in-line cable connection. Suitable for audio applications such as microphone cable connectors and audio mixer connections. The range includes 3, 4 and 5-pin plugs and sockets.

Assembling the in-line plugs and sockets does not require a screwdriver. The connectors contain four easy to assemble parts including the chuck type strain relief assembly. The shell of the connector is of rugged die cast Zn/Al/Cu alloy construction with Cu/Sn contacts that comply with solderability specification IEC 68-2-20 and can accommodate wire sizes up to 16AWG (1.29mm). These connectors will also mate with the Neutrik series of chassis mounting plug and socket connectors.

## Black Finish Gold Contact XLR Type Connectors

Neutrik

Designed for professional, industrial and commercial applications with minimal parts for straightforward assembly (no assembly screws). These connectors have solder bucket connections and the standard self adjusting cable strain relief. With the same specification and features as other Neutrik XLR ranges these connectors feature the non reflective black chromate finish together with the gold plated contacts.

## Heavy Duty Professional Quality XLR Type Connectors

Neutrik

Extremely rugged 3 pole free plug and socket connectors developed for outdoor use, offering dust and water protection to IP65 when mated. The plug shell is manufactured in stainless steel and the socket has a rubber jacket. Sealing is completed with an internal 'O' ring seal and polyurethane strain relief. The connectors provide minimum IP54 sealing when mated with most other 3 pole XLR's. Electrical specifications are the same as the standard Neutrik NC3MX/NC3FX.

JH58N	Surface Gsnk Flange	£1.690	£1.200	£0.860	£1.990

## Anti-Vibration Microphone Holder

If environmental vibrations are picked up by a microphone, they may be amplified through a PA system (possibly causing damage to the speakers), or can ruin an otherwise-perfect recording. In discos, the vibrations can originate from the music being played. An answer to these ills is an anti-vibration microphone holder. This version consists of a central holder that is suspended from a steel frame by eight elasticated bands. The holder, which will hold standard-sized dynamic microphones in any position, fits to the stand by means of a standard thread.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BS24B	Mic Holder	£5.520	£4.090	£3.500	£5.490

## Microphone Adaptors

Solid metal adaptors which enable microphone holders threaded to 16mm (5/8in.) to be used with accessories having 8mm (5/16in.) or 9.5mm (3/8in.) threads. FV11 has 8mm (5/16in.) outer thread and 6-35mm (1/4in.) inner thread. FV12 has 9.5mm (3/8in.) outer thread and 8mm (5/16in.) inner thread.

		1+	10+	25+	1+
YW75S	Cast Base Mic Stand	£4.670	£3.550	£2.900	£5.490

## Microphone Stand

A novel and compact floor/desk microphone stand that can be used in many situations. It consists of a heavy cast-iron base and a telescopic arm that terminates in the standard mounting thread. The length of the arm is adjustable and gives, when vertically-orientated, a total height of between 440mm and 690mm. The arm can be placed at any angle between 15 and 90 degrees, and the heavy base prevents the stand from toppling over – even if a heavy microphone is used. Weight: 2.6kg.

Retail Unit Price each (inc. VAT).

Account holder or not, your order will be sent carriage paid.

(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)

## BMW 318i STW

Tamiya

The Tamiya BMW 318i STW uses high tech components, just like its full-sized counterparts, to achieve high performances. Designed for fast on-road running this car utilises 4 Wheel drive for high performance cornering. The impact resistant chassis is more than capable of holding its own, even on the toughest of circuits. Compact oil filled coil sprung shock absorbers and independent suspension ensure superb handling. Comes equipped with slick tyres. Speed controller and 540 type stock motor are included as standard. Requires 2 Channel Radio (MS98), Power Pack (MT01), Mains Charger (MS99) and 8 AA Batteries (JY48) to complete. Save money by buying the complete package at a special deal price (MV02).

Retail Unit Price each (inc. VAT).

## Martini Alfa Romeo

Tamiya

The Martini Alfa Romeo is based around the race proven TA03F chassis. The TA03 boasts a bathtub chassis with a low center of gravity for stable handling. The belt driven 4WD configuration gives superb cornering capabilities. Suspension is handled by four vertically aligned coil-over oil-filled shock absorbers and the overall setup is further strengthened by a FRP backbone. Being the latest addition to Tamiya's saloon car range this car utilises the most up-to-date technology. Requires 2 Channel Radio (MS98), Power Pack (MT01), Mains Charger (MS99) and 8 AA Batteries (JY48) to complete. Save money by buying the complete package at a special deal price (MV05).

## Engine Powered

### Sandmaster MKII

Kyosho

The Sandmaster MKII is ready to run in next to no time because the engine, gearbox and long travel suspension arms are factory assembled. The tub-type chassis is made from impact resistant glass filled nylon and is very strong and light. The sealed gearbox assembly helps to keep out dust and dirt and contains a geared differential for improved cornering and handling.

The long travel suspension arms are connected to independent oil filled sprung dampers to soak up the bumps without affecting directional control. GT-12 pull start engine delivers quick acceleration and high speeds through turns and over rough ground. A very competitively priced gas powered car. Requires 2 Channel Radio (DX00), Glow Start (GZ96), 8 AA Batteries (JY48) and Quickfire Fuel (MU38) to complete. Fuel not available through mail order.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DP56L	SMaster II Buggy GP	£127.650	£149.990

### Sandmaster ST-2

Kyosho

Kyosho's Sandmaster ST-2 is a 2WD engine powered racing stadium truck. It incorporates elegant body styling and uses high grip rib and pin spike tyres for maximum traction and handling on the roughest tracks. Features include four extra long sprung dampers, front and rear double wishbone suspension, sealed differential gearbox - all bolted to a lightweight, one-piece glass filled nylon chassis.

Sandmaster ST-2 is supplied 90% assembled so you'll be up and running in next to no time. Powered by the GT-12 pull start engine which is factory fitted to the chassis. Requires 2 Channel Radio (DX00), Glow Start (GZ96), 8 AA Batteries (JY48) and Quickfire Fuel (MU38) to complete. Fuel not available through mail order.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MT45Y 1	Sandmaster ST	£140.420	£165.000

### Volvo 850 / Audi A4

Kyosho

Both the Volvo 850 and Audi A4 engine powered 2WD touring cars utilise the latest 2WD chassis from Kyosho, the Mantis. This chassis type features shaft driven 2WD, running through sealed and super quiet transmission. A geared differential is included for smooth cornering. Four wheel independent, double wishbone suspension is connected to torsion springs to soak up the bumps. The main chassis is formed from strong and lightweight glass filled nylon. A three speed forward, one speed reverse speed controller is included. The finishing touches are provided by Kyosho's outstanding and highly detailed body shells. The cars are powered by a ballraced GX-12 engine which delivers fantastic speeds. Supplied 90% pre-built. Require 2 Channel Radio (DX00), Glow Start (GZ96), 8 AA Batteries (JY48) and Quickfire Fuel (MU38) to complete. Fuel not available through mail order.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MT46A 1	Volvo 850 GP	£153.180	£179.990
MT47B 1	Audi A4 GP	£153.180	£179.990

### Renault Megane / Peugeot 306 Rally Racers

Kyosho

The Renault Megane and Peugeot 306 from Kyosho are designed for use on rough roads. They are the first two cars to utilise the new Mantis FF chassis. FF stands for front wheel drive, and that's what these cars feature to give them superior handling characteristics on bumpy and unprepared tracks. A geared differential is also fitted to aid cornering and improve handling. Power is supplied by Kyosho's latest GX-12 recoil start ballraced engine. Both cars are supplied 90% pre-built with engine installed. Body shells are made from polycarbonate plastic with full sponsor decals included. Scale wheels and rally pattern tyres round off the package. Require 2 Channel Radio (DX00), Glow Start (GZ96), 8 AA Batteries (JY48) and Quickfire Fuel (MU38) to complete. Fuel not available through mail order.

Retail Unit Price each (inc. VAT).

### Porsche 911 GT2 / Harrods McLaren

Kyosho

The Porsche 911 GT2 and the Harrods McLaren offer the best combination of performance and scale good looks that Kyosho is famous for. Kyosho have created a new chassis, combining all the best elements to make one of the finest road-running engine powered 4WDs available today. Supplied in kit form the cars feature a full time belt driven 4WD system coupled to twin geared differentials, a 2mm thick aluminium upper deck for increased structural strength and is supplied complete with a GS-11X pull start engine. Each car uses double wishbone suspension front and rear coupled to friction, sprung shock absorbers for effective damping over bumpy surfaces. A highly detailed polycarbonate body shell is included for each car, complete with detail parts and full sponsor decals. Require 2 Channel Radio (DX00), Glow Start (GZ96), 8 AA Batteries (JY48) and Quickfire Fuel (MU38) to complete. Fuel not available through mail order.

Retail Unit Price each (inc. VAT).

### Nitro 10 Storm Truck & Nitro 10 Calibra

Schumacher

Incredible high speed power and performance with the sound and smells of the high revving engine give unforgettable excitement and fun. The Nitro 10 comes pre built and requires only the installation of the fuel tank & radio control equipment and finishing of the bodyshell. The Storm has massive monster truck tyres for real off road performance while the Calibra is perfect on smooth surfaces. Quick refuelling pit stops allow the Nitro 10 to run and run. Manufactured in the U.K. Very high specification includes a FREE set of ball bearings. Features - Powerful 12cu 2.0cc Nitro engine, Alloy chassis, full independent wishbone suspension, heavy duty ball differential, sealed transmission, twin pad disc brake system, clear lexan bodyshell, high quality engineering plastics throughout. Unbeatable combination of specification, performance and price.  
 ★ Standard Kit Speed - 35mph 56kph  
 ★ Maximum Speed - 50mph 80kph (with option)

- ★ Maximum Speed - 50mph 80kph (with option parts)
- ★ Length & Width: Calibra 18"x10" Storm 15"x11.5"
- ★ Power - 12cu 2.0cc Internal Combustion engine
- ★ Control - Centrifugal clutch for smooth acceleration, forwards only. Disc brakes.

Features - Powerful 12cu 2.0cc Nitro engine, Alloy chassis, full independent wishbone suspension, heavy duty ball differential, sealed transmission, twin pad disc brake system, clear lexan bodyshell, high quality engineering plastics throughout. Unbeatable combination of specification, performance and price. Require 2 Channel Radio (DX00), 8 AA Batteries (JY48), Glow Start (GZ96) and Fuel (MU38). Fuel not available mail order.

## Radio Controlled Helicopters

### Sport 500 Helicopter Kit

MFA

- ★ A truly affordable radio controlled helicopter
- ★ Fine engineering with precision alloy and steel parts
- ★ Uses large 40 or 46 engines
- ★ Superb performance with stable hover
- ★ Unrivalled structural strength
- ★ Simple fixed pitch rotor assembly

The Sport 500 is ideal for beginners and general sport flying, is strong, resilient and lightweight. Fully adjustable engine mounts enable almost any engine to be used in the 40 to 46 size range. Cooling isn't a problem because the injection moulded air ducting provides an excellent engine temperature gradient under full load conditions. Pre-shaped and drilled composite hardwood and balsa-wood rotor and tail blades supplied in matched pairs. A centrifugal clutch provides a method of drive disengagement and features fully replaceable parts with proper pivoting shoes and springs. Unrivalled spares and technical backup service provided. Supplied with full operating and assembly instructions. Requires IC engine, either size 40 (WE42V) or size 46 (WE43W), Glow Plugs (MT94), 6 Channel Radio (DX03), 2 pack AA batteries (AR43), Glow Start (GZ96), Eezeestarter (WE34), V Belt (WE94) and fuel (MU40). Fuel not available mail order.

### Sport 500 Collective MkII Helicopter

MFA

- ★ A truly affordable radio controlled helicopter
- ★ Fine engineering with precision alloy and steel parts
- ★ Uses large 40 or 46 engines

- ★ **Superb performance with stable hover**
- ★ **Unrivalled structural strength**
- ★ **Simple fixed pitch rotor assembly**

The Sport 500 Collective is similar to the Sport 500, but has the added advantages of collective pitch blade feathering. Ideal for beginners and general sport flying with its strong, resilient and lightweight construction. Fully adjustable engine mounts enable almost any engine to be used in the 40 to 46 size range. Pre-shaped and drilled composite hardwood and balsa wood rotor and tail blades supplied in matched pairs. A centrifugal clutch provides a method of drive disengagement and features fully replaceable parts with proper pivoting shoes and springs. Cooling isn't a problem because the injection moulded air ducting provides an excellent engine temperature gradient under full load conditions. ### Nexus 30 SS Helicopter

Kyosho

The Nexus is the latest in a long line of excellent helicopter designs from Kyosho. The Nexus exhibits superior balance due to the newly designed engine/clutch set-up. The head assembly has an under-slung flybar and convenient main rotor head button whilst the main frames modular layout gives unparalleled access to the engine. The SR-X style servo frames provide the most direct linkage layout with a minimum flex to give superb agility and precision. This stylish helicopter has been designed with greater ground clearance and integral boom supports to give greater crash resistance when learning, making it suitable for the beginner. Features a sleek and stylish moulded body shell and decal set. Requires Engine (MT73), 6 Channel Radio (DX03), 2 pack AA batteries (AR43), Glow Start (GZ96), Eezeestarter (WE34), V Belt (WE94) and fuel (MU40). Fuel not available mail order.

## Radio Controlled Gliders

### High Sierra Glider Kit

MFA

- ★ Sleek, strong fibreglass fuselage
- ★ Plug-in pre-veneered wings
- ★ Two channel operation (rudder)
- ★ Injection moulded wing root ribs
- ★ Comprehensive hardware
- ★ Full size plan and illustrated instructions

A well designed 2m glider for performance on slope, thermal or auxiliary power. Two channel radio operation is used to control the elevator and rudder flaps. Supplied with full and comprehensive instructions explaining all the steps up to final assembly. Eeze Launch Bungee also available (WE40T). Requires Futaba Attack 4 radio gear (DX01B). Electric conversion kit available (WE19V) which will also require NiCd Charger (DX19V).

### Mistral 2500 Glider

MFA

- ★ White fibreglass fuselage pre-drilled for wing dowels
  - ★ Veneered foam wings with ailerons, pre-cut injection moulded root ribs, tailplane bellcrank assembly, tinted moulded canopy with pilot figure
  - ★ Optional spoilers with pre-installed linkage tubes
  - ★ Die-cut ply and balsa parts
  - ★ Full size plan and instructions
- This kit contains all the parts needed to construct the Mistral 2500 Glider, a high performance 2.5m thermal and slope soarer. Features super fast construction design, facilitating transportation and storage. The kit contains all ply and balsa parts pre-cut, veneered foam wings with ailerons fitted, fibreglass fuselage, moulded canopy with pilot figure and full instructions for assembly. Requires a 4 Channel Radio and 8 AA Batteries to complete. Save money by purchasing the complete package at a special deal price, order code (MV20). Optional parts available include an electric conversion kit (DX47B) to power the glider and an Eeze Launch Bungee (DX52G) which allows simple and easy Ni-Cd Charger (DX19V) required for electric conversion.

### Skyhawk Aeroplane Kit

MFA

- ★ Precision hand crafted fuselage
- ★ Reinforced high stress areas
- ★ Economic flying with small engines
- ★ Separate moulded cowl
- ★ Pre-veneered foam wings and pre-fitted aileron tubes

Designed for use as a compact size trainer and sport model, the Skyhawk is easy to build and provides a very economical yet stylish aircraft. Kit comes complete with fibreglass fuselage, pre-veneered foam wings, aileron tubes ready fitted, dihedral angle pre-cut, moulded wheel fairings, pre-drilled aluminium undercarriage, fixed sprung noseleg, all necessary balsa and ply parts, full size span and fully comprehensive instructions. Requires 4 Channel Radio (MT68), 8 AA Batteries (AR43), Glow Start (GZ96), IC Engine (WE41), Glow Plugs (MT94), Propeller (LJ13), Spinner (MW06) and fuel (MU39). Fuel not available mail order.

**Specification**

## Yamamoto Aeroplane

MFA

- ★ Scale-like intermediate trainer/sport model
- ★ Quick and simple to build
- ★ Ready made wings and fuselage
- ★ Roomy 180mm depth fuselage for easy radio installation/access
- ★ Suitable for rough field operation
- ★ Easy engine access

This low-cost kit contains all the parts you'll need to make your own radio controlled aircraft with pre-moulded fin, window and door cut lines. All that is required is an RC system with servos and engine. Kit contains fibreglass fuselage with pre-moulded fin, window and door cut lines, hardware mounting points and push rod exits, pre-moulded fire wall, 225g fuel tank, engine mount, aluminium main undercarriage, all servo linkages, wood parts, pre-veneered foam wings with ready-installed aileron linkages, full size plan and fully illustrated assembly diagrams. A tough and rugged design, ideal for the beginner or as a training machine. Spares are available separately including fuselage, cowl and wings. Requires 4 Channel Radio (MT68), 8 AA Batteries (AR43), Glow Start (GZ96), IC Engine (WE42), Glow Plugs (MT94), Propeller (LJ24), Spinner (MW06) and fuel (MU39). Fuel not available mail order. **Specification**

## 40 Trainer

Kyosho

The new 40 size trainer is supplied in ARTF (almost-ready-to-fly) format and pre-covered in a highly attractive, multi coloured film finish, so you can be up in the air after just a few evening construction. It's ease of construction and smooth stable flight make this plane ideal for the beginner. Whilst its aerobatic capabilities will allow the user to progress as their skills improve. Length: 1250mm, Wingspan: 1600mm, Total Weight (approx): 2680g, Wing Area: 41.6cm<sup>2</sup>, Airfoil: Clark Y, Dihedral : 3.5°. Requires 4 Channel Radio (MT68), Glow Start (GZ96), Glow Plug (MT94), .40 Engine (MT72) 2 packs AA batteries (AR43), Propeller (LJ24), Spinner (MW06) and Duraglo Fuel (MU39), fuel not available mail order.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MT42V †	ARC 40 Trainer	£93.600	£109.990

## Ready Trainer

The Ready was designed to be a quick and easy to build trainer. This kit is predominantly moulded from quality ABS plastic which makes it stronger and more resistant to crash damage than traditional wooden models. Every moulded part is a perfect fit so that absolute beginners can produce a great looking model with excellent flight performance, very easily and within a short period of time. And, unlike wooden models the Ready does not even require finishing or painting. Its superior aerobatic capabilities make this trainer even more rewarding as the pilots skills improve. High wing, .40 size trainer - suit .40 to .53 engine, Wing Span: 157 cm, Length: 109 cm. Requires 4 Channel Radio (MT68), Glow Start (GZ96), Glow Plug (MT94), .40 Engine (MT72) 2 packs AA batteries (AR43), Propeller (LJ24), Spinner (MW06) and Duraglo Fuel (MU39), fuel not available mail order.

## Golden Eagle Aeroplane

MFA

- ★ Hand crafted high precision moulded fuselage
- ★ Pre-moulded fabric effect rear fuselage
- ★ Pre-moulded strut mounts
- ★ Pre-formed, pre-drilled wing struts to

**give foolproof wing alignment**  
★ **Pre-veneered foam wings with external aileron fittings**

A high quality kit containing all the parts required to build this beautiful aerobatic biplane. The kit contains fibreglass fuselage, veneered foam wings, pre-cut balsa and ply parts, all servo linkages including horns and hinges, fibreglass tape, engine mount, fuel tank, nuts and bolts, aluminium undercarriage, wing struts, full size plan and comprehensive instructions on assembly. Excludes engine, propeller, radio control gear and finishing materials. Spare parts are available including fuselage, upper and lower wings and a spare strut-set. Requires 4 Channel Radio (MT68), 8 AA Batteries (AR43), Glow Start (GZ96), IC Engine (WE42), Glow Plugs (MT94), Propeller (LJ24), Spinner (MW06) and fuel (MU39). Fuel not available mail order.

## Viper

Kyosho

If you're looking for the perfect introduction to R/C boat modelling, then Kyosho's Viper is the model for you. Made from a factory joined two piece ABS hull that's 640mm long, the Viper comes supplied with a powerful Le Mans 360 ST motor and micro speed controller which are pre-fitted to the hull to reduce build time to a minimum. The top deck is held in place by a screw cap that allows easy access to the interior of the model for battery changes and maintenance. The radio control compartment is made from moulded ABS with a clear top to help protect the radio equipment from water damage. Requires 2 Channel Radio (DX00), 2 Pack AA batteries (AR43), Power Pack (MU48) and Mains Charger (MU47) to complete. Save money by purchasing the complete package at a special deal price, order code (MV27).

### Futaba Attack-II

The Attack-II is the ideal beginner's 2-channel digital proportional radio-control system, and contains everything that is required – radio control

unit, receiver and a pair of servos. The 27MHz AM transmitter has been ergonomically designed to make the control of boats and cars a truly pleasurable experience. Its mini-sticks and offset trim levers are precisely placed – for even the smallest racer. The deep-sunk on/off switch is placed out of harm's way to stop that accidental loss of power. Two bright LEDs advise battery status, and hidden under a front cover are key features such as servo-reversing switches (for both channels) and a crystal holder for two spare crystals. The batteries (8 x 'AA', alkaline recommended, JY48C not included) are also accessed via the front, for ease of changing. Conversion to NiCd operation is a two-minute job using the optional conversion kit. Supplied with the transmitter is the dry cell-powered Futaba R122J mini receiver, which features Futaba's proven surface mount technology and a single custom IC for secure control, low weight and high reliability. An impact-resistant snap-shut case gives superb protection to the receiver and crystal, and the unit has built-in BEC (battery eliminator circuit). Completing the package is a pair of Futaba S3003 servos, a high-performance economy design with Futaba's proven reliability. Both receiver and servo are powered by four 'AA' cells (alkaline recommended, not included), or from the car or boat's battery pack (up to 8.4V DC) if BEC is used. The Attack-II, featuring Futaba's world-renowned technical quality and production techniques, gives you the security that you need to purchase in confidence. It's sensational value, too! The receiver is available separately, so that more than one model can be controlled from one transmitter.

#### Specification

##### Transmitter (FP-T2CR)

Operating system: 2-stick  
 Transmitting frequency: 27MHz  
 Modulation system: AM  
 Power requirement: 12V DC @ 160mA (8 'AA' cells, alkaline recommended, not included)

##### Receiver (FP-R122JE)

Receiving frequency: 27MHz  
 Modulation system: AM  
 Power supply voltage: 4.8 to 8.4V DC (BEC built in)

Current drain (no signal): 30mA (4-8V), 10mA (8.4V)

Dimensions: 47.2 x 33.3 x 17.3mm  
 Weight: 16.6g

##### Servo

Control system: Pulse width control  
 Power supply voltage: 4.8V or 6V DC (shared with receiver)  
 Current drain: 8mA (idle, 6V supply)  
 Output torque: 3.2kg/cm  
 Operating speed: 0.23 sec/60o  
 Dimensions: 40.4 x 19.8 x 36mm  
 Weight: 37.2g

Retail Unit Price each (inc. VAT).

## 2 Channel Radio Control Handset

Acorns

The AP-201 R/C handset is an excellent digital proportional 2 channel 27 MHz set ideal for operating R/C Cars and Boats. The pack includes a transmitter, BEC receiver, 2 servos, a BEC switch

harness, and accessories. Recommended specifically for use with all Tamiya cars / buggies, features neutral pre-set levers, Ni-Cd battery charging jack, servo reverse switch. Requires 8 AA batteries, order code (JY48).

Retail Unit Price each (inc. VAT).

MS98G 1	2 Ch Radio	£41.690	£48.990

## Skysport 4

Futaba

The Futaba Skysport 4 35 MHz is the ideal entry level four channel system. Simple and easy to use it will take you through the early stages of learning to fly. This handset features Futaba's trainer function. By simply linking two transmitters together using a dedicated trainer lead the instructor can pass control of the model to the student during flight. More importantly, if the student gets into trouble, the instructor simply releases a button on his transmitter and takes over.

Other features include:

- ★ Four Channel Servo Reverse
- ★ Supplied with 3 servos
- ★ Supplied complete with charging socket.

Retail Unit Price each (inc. VAT).

MT68Y 1	Skysport 4	£110.620	£129.990

## Futaba Skysport 6A

Designed for use with model aircraft, the Skysport 6A digital proportional radio control system consists of a high-quality and easy-to-use 6-channel Ni-Cd powered transmitter and receiver that work on the 35MHz FM band, a battery charger and four servos. The latter are designed to operate the aileron, elevator, throttle and rudder, and are controlled by the usual twin sticks (with trim levers). The Skysport 6A has dedicated controls for elevator/flap mixing, flap trimming, aileron and elevator dual-rate (D/R) and landing gear activation. The sticks are high-quality types with adjustable tension and length. All servos are reversible, and a number of pre-sets in the battery compartment allow the elevator/flap mixing, aileron/elevator D/R, throttle AST (adjustable servo travel)/ATV (adjustable travel volume) high side, rudder (AST/ATV) low side, aileron differential and flap trimming to be fine-tuned. The battery compartment also conceals switches for activating elevation/flap mixing, flap/aileron mixing and rudder ATV/AST. Other features

include a battery level meter, an integral carrying handle, a hook for optional neck strap and a 'trainer' socket for use with another Skysport 6A transmitter.

**Specification**

**Transmitter (FP-T6VA)**

**System:** 6-channel, 2 x 2-function joysticks, with airplane functions. Servo reverse per channel  
**Frequency:** 35MHz  
**Power supply:** 9.6V @ 180mA, from Ni-Cd battery pack (supplied)

**Receiver (FP-R138DF)**

**System:** 6-channel, six servo outputs  
**Frequency:** 35MHz FM  
**IF:** 10.7MHz, 455kHz (dual conversion)  
**Supply voltage:** 4.8V Ni-Cd battery (supplied, shared with servos)  
**Current drain:** 12mA  
**Dimensions:** 65 x 36 x 21.5mm  
**Weight:** 39g

**Servo (FP-S148)**

**Control system:** Pulse width control  
**Operating angle:** One side 45° min. (including trim)

**Operating voltage:** 4.8V DC from Ni-Cd battery pack (shared with receiver)

**Current drain:** 8mA (at idle)  
**Torque:** 3kg-cm  
**Operating speed:** 0.22 sec/60°  
**Dimensions:** 40.4 x 19.8 x 36mm  
**Weight:** 44.4g

**Ni-Cd battery for receiver/servo (NR-4J)**

**Voltage:** 4.8V DC  
**Capacity:** 500mAh  
**Dimensions:** 51 x 58 x 15mm  
**Weight:** 95g  
**Accessories supplied:** charger, receiver switch, servo horns, flat screwdriver, 2 x crystals

*Retail Unit Price each (inc. VAT).*

Order Code	Type	Price each exc. VAT	inc. VAT each
DX02C1	Skysport 6A	£217.010	£254.990

**Futaba Skysport 6H**

Futaba's Skysport 6H is an easy-to-use six-channel digital proportional radio control system designed specifically for use with helicopters. Working on the 35MHz FM band, it consists of a control unit/transmitter, receiver, five servos (for pitch, rudder, throttle, elevator and aileron) gyro and control amp for stabilising the helicopter, NiCd batteries for the helicopter electronics and transmitter, and a charger. Apart from the usual twin sticks with trim levers (for rudder, aileron, throttle and elevator) the Skysport 6H has dedicated controls for idle-up, elevator dual-rate (D/R), hovering pitch, landing gear, throttle hold and aileron D/R. The sticks are high-quality types with adjustable tension and length. All servos are reversible, and a number of pre-sets under a flap allow the aileron/elevator D/R, throttle ATV (adjustable travel volume) high/low side, throttle hold, idle-up, revolution and pitch curve to be fine-tuned. The flap also conceals switches for activating throttle hold, idle-up, revolution mixing, rotor direction, and pitch channel (5 or 6, depending on whether landing gear is to be used). Other features include a battery level meter, an integral carrying handle, a hook for optional neck strap and a 'trainer' socket for use with another Skysport 6H transmitter.

**Specification**

**Transmitter (FP-T6VH)**

**System:** 6-channel, 2 x 2-function joysticks, with helicopter functions. Servo reverse per channel  
**Frequency:** 35MHz  
**Power supply:** 9.6V @ 180mA, from NiCd battery pack (supplied)

**Receiver (FP-R138DF)**

**System:** 6-channel, six servo outputs  
**Frequency:** 35MHz FM  
**IF:** 10.7MHz, 455kHz (dual conversion)  
**Supply voltage:** 4.8V NiCd battery (supplied, shared with servos)  
**Current drain:** 12mA  
**Dimensions:** 65 x 36 x 21.5mm  
**Weight:** 39g

**Servo (FP-S148)**

**Control system:** Pulse width control  
**Operating angle:** One side 45o min. (including trim)  
**Operating voltage:** 4.8V DC from NiCd battery pack (shared with receiver)

**Current drain:** 8mA (at idle)  
**Torque:** 3kg/cm  
**Operating speed:** 0.22 sec/60o  
**Dimensions:** 40.4 x 19.8 x 36mm  
**Weight:** 44.4g

**Gyro (FP-G154)**

**Power requirement:** 4.8V DC (shared with receiver/servos)  
**Current drain:** Motor 100mA, amp 20mA (motor can be switched off)

**Dimensions (gyro):** 42 x 34 x 39mm  
**Dimensions (amp):** 27 x 48 x 16mm  
**Weight (combined):** 102g

**NiCd battery for receiver/servo/gyro (NR-4J)**

**Voltage:** 4.8V DC  
**Capacity:** 500mAh  
**Dimensions:** 51 x 58 x 15mm  
**Weight:** 95g  
**Accessories supplied:** charger, receiver switch, servo horns, flat screwdriver, 2 x crystals.

**Field Force 6X**

Futaba

Designed to suit Sport pilots needing a first computer system, the new Field Force 6 has a staggering array of computing options combined with easy operation. With its large format LCD and touch key data input system, PCM or PPM output and three model memory, the Field Force 6 meets the needs of fixed wing and helicopter pilots alike. Supplied with dual conversion receiver, four servos, and fully nicaded with charger.

**General features:**

- ★ 6 Channels, 35 MHz
- ★ PPM/PCM Selectable
- ★ Aircraft & Helicopter Programming
- ★ Aileron and Elevator Dual Rate
- ★ 3 Model Memory
- ★ Trainer Facility
- ★ Trim Memory
- ★ ATVs on all Channels

## Servos

See Capacitors Section  
for our full range of Crystals

### Economy Servo

An economy servo complete with motor and electronics. The servo is supplied with actuator horns. The three wire system requires 5V DC on the red wire, 0V on the black wire and a 3V to 5V pulse on the white wire between 0.75 and 2.25ms long every 18ms approx.

#### Specification

Supply voltage:	5V DC
Current drain:	Standby 8mA Max 550mA
Speed:	0.26sec/60°
Torque:	2.3kg/cm
Input pulse:	0.75ms to 2.25ms
Rotation:	170° ±10°
Operating temp:	-35° to +65°
Life (approx.):	1 million operations
Size:	39 x 38 x 19mm
Fixing centres:	47 x 10mm
Spline:	6mm diameter

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FS35Q	Economy Servo	1+ 10+ 25+ £10.400 £8.670 £7.550	1+ £12.230

### Standard and Ball Race Servos

Futaba

A standard replacement servo as supplied with Futaba radio control systems. A superior ball raced version is also available (DX99H).

### Futaba S3302 High Torque Servo

A large, high-torque power servo, designed for activating systems requiring a lot of force, such as aircraft landing gear. Sealed for moisture and dust resistance, and built using metal gears, this heavy-duty servo is built to last. Supplied with horns and mounting kit.

#### Specification

Speed:	60° in 0.19 seconds
Torque:	8kg/cm (111oz./in.)
Dimensions:	59 x 29 x 50mm
Weight:	103g

Price each shown, but sold only in multiples of 1.

Order Code	Type	Price each exc. VAT	inc. VAT each
DX08J	S3302 Servo	1+ £47.730	1+ £56.090

### Futaba FP-S143 Micro-Servo

A high-quality micro-servo for small models, suitable for use with the Futaba J, M, SG, PG, 4N and 6N series digital proportional radio control systems. Features include a high level of shock and vibration resistance and neutral position, easy installation, a high torque/size ratio, and a mechanically strong case that is invulnerable to glow fuel. Supplied with horns – a splined shaft here aids neutral adjustment.

#### Specification

Control system:	+pulse width control (1520µs neutral)
Operating angle:	Rotary type, one side 40° or greater (including trim)
Power supply:	4-8V or 6V (shared with receiver)
Power consumption:	6V, 8mA (idle)
Output torque:	1.9kg/cm
Operating speed:	0.18 sec/60°
Dimensions:	28mm x 13mm x 29mm
Weight:	19g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX10L	S3101 Micro Servo	1+ £39.050	1+ £45.890

### Servo Accessory Pack

Futaba

The pack contains 3 servo horns. Each horn has an internal splined socket for neutral adjustment. The circular disc which is usually used on petrol cars, is pierced for use. The other two starfish shaped horns (four and six arms) can be cut to suit your requirements.

The Servo Accessory Pack comes complete with the following mounting kit:

- 4 x Screws
- 4 x Rubber mounts
- 4 x Brass screw guide

Retail Unit Price each (inc. VAT).

GZ82D	Single Servo Tray	1+ £2.070	1+ £2.440

### Triple Servo Tray

Futaba

This complete assembly is the ideal way to simply and neatly mount a triple servo arrangement within a large model (e.g. remote control aircraft). The kit contains a black plastic servo tray with integral mounting position for an on/off switch and all the necessary screws and fixings.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GZ83E	Triple Servo Tray	1+ £3.020	1+ £3.580

**'Marlin' Marine Power Pack**

MFA

Electric power pack for the Avenger, Seahawk, and Fantome model boats. Note that two are required for the Fantome model. Includes motor and mounting, reversible speed controller, wiring and connectors and universal coupling. Features high torque and is ready to go after simple installation. The motor has twin output shafts (one at each end) and has interference suppression. Powered by MFA Titan 12V battery (WE91Y), not included.

**Specification of motor**  
 Typical maximum speed: 5,100rpm  
 Torque: 253mNm  
 Power consumption: 68W  
 No load current: 0.97A  
 Typical load current: 5A  
 Length of body: 75mm  
 Diameter: 50mm  
 Shaft diameter: 6.35mm  
 Shaft length, each end: 17mm  
 Weight: 543g

WE90X 1	Marlin Power Pack	£38.280	£44.990

**Batteries**

**Ni-Cd Battery 7.2V-1400mAh**

Tamiya

**NEW**

A Ni-Cd 7.2V 1400mAh racing pack for use with battery powered models. The Tamiya Ni-Cd 7.2V 1400mAh consists of six 1.2V 1400mAh cells connected in series, and can be recharged over 500 times if used correctly. Incorrect handling will shorten the life of the battery considerably. Specifically recommended for use with all Tamiya model cars and buggies.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MT01B	NiCad 7.2V Race Pack	£17.010	£19.990

**Sanyo Cadnica Race Packs**

High-quality sealed 7.2V SCR racing packs with a capacity of 1400mAh or 1700mAh. The 50mm temperature-resistant output leads are terminated in a standard Tamiya type connector.

Charging information  
 1400mAh (DX04E): 140mA for 14 to 16 hours  
 1700mAh (DX05F): 170mA for 14 to 16 hours  
 Dimensions: 45 x 135 x 23mm  
 Weight: 327g (DX04E)  
 337g (DX05F)

BN04E	9.6V 0.7Ah Race Pack	£16.670	£19.190

**Chargers**

**Ni-Cd Mains Charger**

A mains charger recommended for charging 1400mAh Ni-Cd battery packs. Input: 230/240v AC 50Hz. Output: DC 150mA into 7.2v packs. Maximum charge time: 14 hours from fully discharged state only.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MS99H	Mains Charger	£6.800	£7.990

**Call and Collect**

At all our stores nationwide. See the maps at the front of the catalogue for the nearest one to you.

**Mains and 12V Rapid Ni-Cd Charger for Radio Control Models**

A fast charger for recharging 7.2V 1200mAh nickel-cadmium radio control battery packs. The charger can be powered from either 240V AC mains or from 12V DC car accessory socket (the charger must not be plugged into 24V DC sockets found on lorries). The charger incorporates a timer that will fast charge a battery pack for 20 minutes and then switch to trickle charge. This prevents battery packs from being overcharged, yet continues to top up the charge at a low enough rate such that it could be left on indefinitely without harming the battery pack. 90% of full charge will be reached during fast charge, the remaining charge to 100% is obtained by safe trickle charging. To use: connect the charger's connector to the battery pack. Plug the charger into the power source (either 240V AC or 12V DC), the red LED will illuminate indicating fast charging. After 20 minutes the LED will extinguish and the charger switches automatically to trickle charge. When charging is completed, disconnect the charger from the power source and detach the battery pack. It is essential to disconnect the charger before recharging another battery pack to allow the timer to reset. Battery packs should not be recharged when they are warm (i.e. straight after removal from a model after racing) nor should battery packs be recharged whilst still fitted in a model. During charging both battery pack and charger will become warm, this is normal. The charger is fitted with a mains lead (and plug), a 12V DC power lead and accessory plug, and a battery connector lead to suit standard battery packs. Overall dimensions: 81 x 67 x 131mm (excluding lead outs). Charging current: 2.4A. Charging voltage: 7.2V.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YP89W 2	Rapid Charger	£30.370	£35.690

## NiCd Pack Multi-Charger and Charging Monitor

MFA

A 12V input, rapid NiCd charger incorporating a trickle charge facility. Can be used to rapid charge 500mAh and 1.2Ah NiCds in packs of 5, 6, 7 or 8 cells (includes rotary switch for 6, 7-2, 8-4 and 9-6V). Rapid charging duration is controlled by a timer which can be set between 5 and 30 minutes. An ammeter shows the charging current. After the time has elapsed, the unit shuts-off and goes into trickle-charge mode. The unit is connected to a 12V battery, e.g. a 12V car battery or sealed lead-acid battery WE91Y. Internal fuse for overload protection. Dimensions: 128 x 97 x 54mm. Unit includes power source connection leads, output leads with racing-pack connection socket, battery connection crocodile clips and instructions.

Retail Unit Price each (inc. VAT).

DX19V	Ni-Cd Charger	£21.260	£24.990

## Teamline Ni-Cd Race Pack Charger

This automatic charger, designed to charge Ni-Cd Race Packs from a car battery or similar 12V DC source, is probably the most advanced, lightweight and easy to use on the market. Features include:

- ★ High efficiency Delta Peak charging unit
- ★ Protection for switched polarity or short circuit
- ★ Built-in electronic safety timer
- ★ Alligator clip 12V connection
- ★ Switch for 6 (7-2V) or 7 (8-4V) cells
- ★ Compact, lightweight aluminium heatsink case
- ★ Red/green charging indicators

### Specification

Constant charging current:	3-2A
Maximum timer limit:	66 minute auto cut-off
Charging voltage range:	6 to 7 cells (7-2to 8-4V)
Input voltage:	12 to 16V DC (3-2A)
Weight:	185g
Dimensions:	116 x 62 x 22mm

## Electric-Flight Power Pack 15

MFA

Offers extra power for model aeroplanes utilising 1-2Ah 9-6V NiCd pack. For use with 6 x 6, 7 x 4 or 7 x 6 propellers. Suitable for lightweight models of approximately 127cm wing-span. Includes double 4-8V NiCd battery packs with interconnecting leads, microswitch, fuseholder and motor with propeller fitting kit.

### Specification

Total weight:	600g
Motor weight:	170g
Motor dimensions:	57 x 35-5mm (excluding shaft)
NiCd capacity:	8 cells, 1-4Ah
Average current consumption:	14A
Full power duration:	5 minutes, approximate
Motor includes RF suppression.	To recharge NiCds, use the Multi-Charger and Charging Monitor DX19V.
Recommended charging time is 30 minutes from 12V lead-acid battery.

## MRI Motors

This range of high performance motors are produced by MRI. Available in a range of permutations, these motors are make an ideal more highly powered replacement for any standard RS540-type motor.

Order Code	Description	No of Turns	Winding
GZ18U	MRI 13/65 Motor	13	Double
GZ19V	MRI 15/65 Motor	15	Double
GZ20W	MRI 15/65 Motor	15	Triple
DX14Q	MRI 17/65 Motor	17	Double
GZ21X	MRI 17/65 Motor	17	Triple
DX13P	MRI 19/65 Motor	19	Double
GZ22Y	MRI 19/65 Motor	19	Triple
GZ23A	MRI 21/65 Motor	21	Single
GZ24B	MRI 27/65 Motor	27	Single

Price each shown, but sold only in multiples of 1.

## Accessories

### Switch Harness

Futaba

Standard ON/OFF switch harness providing a single female keyed socket input switching to two keyed outputs; one female and one male.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT 1+	inc. VAT each 1+
GZ79L	Switch Harness	£4.760	£5.600

### External Charge Socket

Futaba

The easy and convenient solution; this plastic assembly fits neatly into the side of the model plane's fuselage and connects to the charge plug from the switch. Can be easily removed for transfer to other models. Pack contains charge socket, back plate, screws and fitting instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT 1+	inc. VAT each 1+
GZ80B	Charge Jack	£2.590	£3.050

See Stock Code Index For More Price Breaks

## Switch and Charge Jack Mounting Set

Great Planes

This top quality kit provides a thoroughly professional fuselage mounted charge jack and integral switch assembly with an external switch pushrod for remote switching. Pack includes a face plate with charge jack cover, switch pushrod and slide block, securing bolt for charge plug (charge plug not included), fixing screws and full instructions. Switch not included.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
G071N	SwCh Jack Set	£3.460	£4.070

## Speed Controllers

### Futaba P-MC210CB FET Speed Controller with BEC

A compact, high-performance speed controller ideal for use with cars and boats being operated with 7.2V or 8.4V supplies (6 or 7 NiCd cells respectively). Features include thermal protection, forward, brake and reverse. A BEC (battery eliminator circuit) powers the receiver from the racing pack. Adjustments for high point and neutral (screwdriver and instructions supplied). Trailing on-off switch for convenient mounting.

#### Specification

Functions: Forward, electronic brake, reverse  
 Input voltage range: 7.2V to 8.4V  
 Controller output (BEC): 6V at 3A (max.)  
 Thermal overload protection: Current reduction  
 Continuous current: 30A  
 Brief current: 142A  
 Surge current: 568A  
 Internal resistance: 0.0062Ω x 2  
 Dimensions: 45.5 x 41.5 x 26mm (excluding wires and protruding parts)

Weight: 72.5g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX06G	MC210CB FET Control	£47.730	£56.090

### Futaba P-MC310CB High Current FET Speed Controller with BEC

An improved-performance version of the above, with up-rated FETs for working with the higher currents demanded by modified motor.

#### Specification

Functions: Forward, electronic brake, reverse  
 Input voltage range: 7.2V to 8.4V  
 Controller output (BEC): 6V at 1A (max. 7.2V battery); 6V at 0.5A (max. 8.4V battery)

Thermal overload protection: Cuts power to motor, auto-resetting  
 Continuous current: 35A (fuse capacity)  
 Brief current: 180A  
 Surge current: 720A  
 Internal resistance: 0.0037Ω x 2  
 Dimensions: 45.5 x 41.5 x 26mm (excluding wires and protruding parts)

Weight: 78g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX07H	MC310 FET Controller	£60.750	£71.390

## Engines

### HOW TO INTERPRET GLOW-PLUG ENGINE SIZES

The size or capacity of glow-plug engines is usually referenced by a single number, e.g. 25, 40, 46, etc. The number corresponds to the displacement, or capacity, of the motor specified in fractions of an inch. For instance, if the motor is a number '25', then its capacity is 0.25cu.in., or 0.07cc. The sizes of motors described in this catalogue and their equivalent sizes are listed below.

Size No.	cu.in.	cc
12	0.12	3.46
25	0.25	4.07
40	0.40	6.55
46	0.46	7.54

### Glow-Plug Engines

MFA

High quality, high specification engines that give MFA models a sparkling performance. Three sizes are available for model aircraft and helicopter usage. All three feature high silicone content, aluminium piston, chromed aluminium or brass cylinder liner, 'Schneurle' 2-stroke porting for maximum efficiency, forged aluminium conrod with bronze bushes, twin ball-race crankshaft and bushed glow-plug thread. 40 and 46 sizes have identical mounting dimensions. Each set includes high efficiency carburettor, silencer and instructions. Require Glow Plugs (MT94).

#### Specifications

Type	Displacement	Operating Range	Output Power	Weight
BB25AAC	4.07cc/0.25cu.in.	2500-18000rpm	0.8PS @ 17000rpm	200g

BB40AAC	6.47cc/0.40cu.in.	2500-18500rpm	1.4PS @ 17500rpm	340g
BB46AAC	7.45cc/0.46cu.in.	2500-18000rpm	1.6PS @ 17000rpm	345g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WE41U	25AAC IC Engine	£49.470	£58.130
WE42V	40AAC IC Engine	£57.860	£67.990
WE43W	46AAC IC Engine	£59.590	£69.990
MT94C	Enya Glow Plug	£33.950	£39.900

### Aircraft Engine

MDS

The new MDS Pro 40 is destined to lead its market class. A smooth throttling, free revving, hassle free powerhouse, perfect for all 40 sized trainers and sports models. Complete with its Ultra-Quiet

silencer the Pro 40 is the perfect choice for the discerning beginner or established enthusiast.

Features:

- ★ 'Aeromix', polished aluminium, twin needled carburettor with separate idle adjust
- ★ Low throat, 'O'-ring carburettor seal
- ★ Split pinch-bolt carb retention
- ★ High precision, one piece, extended length crankshaft
- ★ ABC piston and liner, hand matched
- ★ 8mm front Bearings, for increased crankshaft stability
- ★ 'O'-ring sealed Backplate
- ★ 3 Year Manufacturer Warranty

Require Glow Plugs (MT94).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MT72P	MDS 40	£42.540	£49.990
MT94C	Enya Glow Plug	£33.950	£39.900

### Helicopter Engines

MDS

In helicopters, where power, performance and throttling are critical, the MDS Pro 38H and 48H come into their own. Probably the most powerful out of the box .30 sized heli engines on the market today. The MDS 38 Heli and the MDS 48 Heli come complete with special helicopter length crankshaft, tophat and extra extended throttle arm. Fitted with helicopter style cooling head. 3 Year Manufacturer Warranty. Require Glow Plugs (MT94).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MT73Q	MDS 38 Heli	£51.050	£59.990
MT74R	MDS 48 Heli	£59.560	£69.990
MT94C	Enya Glow Plug	£33.950	£39.900

## Engine Accessories

### Glow Plugs

Enya Glow Plugs are one of the most popular ranges of plugs and originally designed for Enya engines, these are perfect for just about any sport or competition engine.

**NEW**

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MT94C 1	Enya Glow Plug	£33.950	£39.900

### Glow-Start

This is the essential piece of equipment for a hassle-free day's flying or racing – a quality glow-plug clip with integral 1200mAh Ni-cd battery. Simply charge using the 230V AC mains charger supplied before leaving home, then you have power source free starting in the field or pit-lane!

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GZ96E	Glo Starter	£11.270	£13.250

### Ripmax Glo-Plug Grip-Tite

This ingenious glow plug clip is a must for all modellers using IC engines. Easy connection and release is made possible by thumb-grip release mechanism. Supplied with connecting cable and crocodile clips pre attached.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX12N	Glo-Plug Clip	£3.890	£4.580
MT85G	Glow Plug Clip Long	£4.680	£5.500

### Glow Plug Clip

This is the 'crocodile clip' for glow plugs. The clip has an insulated handle, making it the safe and convenient way to achieve a fast connection to your battery when you want to get your glow plugs started. Supplied with cable securing screws.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX95D	Glow Plug Clip	£0.944	£1.110

### Power Panel

MFA

Supplies all your glow-plug engine starting requirements from a single 12V lead-acid battery, such as WE91Y, or a car battery. Includes a high quality fill-and-drain fuel pump, and an ammeter to show glow-plug operation. There is a high current glow-plug position option for the main control switch, as well as 'normal' for certain 'cold' type plugs. Includes connectors for an electric starter motor and instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX18U	Power Panel	£18.710	£21.990

### Eezee Starter

MFA

This powerful and tough starter is the safe and easy way to start model aeroplanes, helicopters and boats without putting fingers at risk from rogue propellers etc. Simply connect the crocodile clips to a suitable 12V DC power source – such as a car battery – and press the button. An optional Starter V Belt is available (Order Code WE94C) for use when starting model helicopters.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WE34M	Eezee Starter	£22.110	£25.990
WE94C	Starter V Belt	£3.390	£3.990

### Fuel Tanks

Great Planes

A quality made semi-opaque nylon fuel tank, designed for use with glow fuel. The fuel tank design incorporates nipples for a vent line and overflow line, a screw on cap for easy assembly and a built-in grabber flange to make the fuel tank easier to remove (using a 1/16in. hooked wire, not included). Each pack contains a fuel tank, screw on cap, stopper, pick up tube, clunk and a straight and 90° nipple. Available in seven sizes.

### Precision Fuel Filter

Great Planes

A top quality precision-ground fuel filter. Easy to clean and maintain – simply unscrew the two halves of the filter unit and remove the filter element for inspection and, when it needs cleaning, flush with fuel before reinstalling.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GY86T	Ultra Fuel Filter	£2.590	£3.050

### Pressure Fitting

Great Planes

Improve the performance of your remote control aircraft or helicopter by pressurising the fuel system with this quality, easy to install pressure fitting. Pack contains 6 3/2 bolt-on pressure fitting, retaining nut and washer.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GY87U	Pres. Fitting 6-3/2	£1.120	£1.320

### Fuel Can Fittings Set

Great Planes

The Filling Station™ Fuel Can Fittings Set includes everything needed (except the fuel lines) to convert a conventional fuel bottle into a fully filtered refillable fuel tank. Both the fuel probe and clunk have a removable filter for ease of inspection and cleaning. Pack contains filtered fuel probe with 'O' ring, probe receptacle, filtered clunk/pickup, fuel intake fitting, retaining nuts and full instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GQ72P	Fill Fitting Set	£4.330	£5.090

## Silicone Tube

Silicone tubing is tough, durable and resistant to fuel and chemicals. Ideal for fuel lines, etc. Supplied in approx 1m lengths in two sizes.

Order Code	Internal bore
GZ64U	2.4mm
GZ65V	3.2mm

## Fuel Tube

This quality silicone Fuel Tube has a telephone cable type coil that extends from 255mm to a maximum of 1.5 metres (approx). Fluorescent orange in colour.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GZ97F	Orange Fuel Tube	£3.460	£4.070

## Aeroplane Accessories

### Propellers

*Graupner*

A range of high quality, glass fibre reinforced super nylon clockwise propellers. Ideal for most aircraft modelling applications, these propellers should not be used if the velocity of the propeller tip is likely to exceed 180m/s.

The stepped bore on propellers with a smaller pitch than 8 x 4 inch/ 20 x 10cm is 4.8 x 6.1mm and 6.5 x 10mm for all larger blades.

Order Code	Pitch inch	cm (approx)

## Fingertip Prop Balancer

*Great Planes*

This is the quick and easy way to check the balance of your new propeller or spinner back plate. Simply place the propeller or back plate onto the metal shaft and screw the balancer cones into place at either side, then hold the shaft between thumb and finger applying light pressure. The propeller blade or part of the back plate that drops is the heaviest and can be lightly sanded until properly balanced. Pack contains threaded shaft and two balancer cones.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
HZ08J	Prop Balancer	£3.460	£4.070

## Spinner

A large spinner/nose cone for radio control aircraft, supplied complete with back plate and fixing screws.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MW06G	MC	£0.851	£1.000

**Business Account Holders**  
**No Delivery Charges for any order**

## Tail Wheel Assembly

This complete tail wheel assembly for model planes can be fixed in any of four different ways - floating, self-centring, steerable or fixed. The assembly includes a metal tailwheel with rubber tyre mounted on a wire that can be cut and bent for the desired fixing, a nylon bracket, aluminium collet, two fixing screws and full instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LJ61R	Tail Wheel Assembly	£1.460	£1.720

## Tail Wheel Bracket

A nylon tail wheel bracket for model aircraft. Held in place by two small screws, the bracket has a 10mm supported collar, suitable for a tail wheel mounted on up to 16g wire.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GY92A	Tailwheel Bracket	£0.859	£1.010

## Aircraft Wheels

Gone are the days of unrealistic stamped foam rubber 'doughnuts' - these lightweight, high quality nylon wheels have perfectly round foam tyres.

This not only makes them look more realistic, it also prevents them from 'wandering' on take-off and landing. The material used for the tyres is a very high density foam rubber which gives good durability and fuel resistance and prevents the flat spots normally associated with foam wheels. Available in six sizes. Supplied in packs of two wheels with tyres.

## Solarfilm

Solarfilm is a light, tough shrink-on covering material specially developed for flying models. Made from an ultra thin, super light polymer coated film, it is backed with a special low heat-sensitive adhesive to make it safe and easy to apply. Solarfilm is quick and clean, durable, tough and flexible – it won't slacken, crack or become brittle and resists punctures and scratches. Available in 14 colours, sheet size: 685mm x 1270mm (approx 4 feet).

## Solartrim

Customise your aeroplane by cutting your own trim – stripes, checks, sunbursts, insignia, letters etc – from these sheets of ultra-thin, self adhesive opaque colour trim. Very easy to use (just cut out your shape, peel off the backing and press on), this sheet is as thin as a coat of paint and won't bubble. Solartrim is durable, fuel resistant and has an extra strong grip, even on smooth, glossy surfaces. Available in 13 colours, sheet size: 330mm x 910mm (approx 1 yard).

## Smart Cut

Top Flite

This totally unique trimming tool is the perfect way to cut and trim model film (such as the Solarfilm and Solartrim ranges shown in this catalogue) and fabrics. It allows smooth, straight cuts and consistent overlaps in traditionally difficult areas – such as the inside corners where fuselage and tailfin meet, fuselage sides and wing leading and trailing edges – and can quickly and evenly trim edges, curves and inside corners. A detachable spacer plate easily produces a uniform 32mm or 16mm overlap for perfect seams. Uses two standard, replaceable number 11 hobby knife blades (included).

**Please note that under the Offensive Weapons Act 1996 this product cannot be sold to anyone under the age of 16.**

Retail Unit Price each (inc. VAT).

GZ62S	Smart Cut	£6.930	£8.150

## Trimline

Model Technics

Trimline is the self-adhesive coach line that makes those essential 'go faster' stripes so fast and easy to apply!

Made from an ultra thin self-coloured opaque high-tech film that's durable, fuel resistant and highly resistant to peeling and creeping. It can be confidently applied around complex shapes or tight curves without lifting or shrinking.

Each handy pack contains approx 2.5 metres of Trimline in 8 different widths – 0.5, 0.8, 1.3, 2.1, 3.3, 5.0, 7.0 and 10.0mm. Available in 10 colours.

Retail Unit Price each (inc. VAT).

## Global Positioning Units

### Garmin GPS Units

#### GPS 38

Garmin

- ★ **Multitrac8** operating system continuously tracks and uses up to 8 satellites for fast, accurate positioning
- ★ **User-friendly rocker/keypad system** allows room for large, backlit LCD display with easy-to-read characters and full-featured graphic plotting.
- ★ **Innovative TracBack** feature lets you quickly navigate your track log back home without manually storing waypoints.
- ★ **Resettable trip odometer** keeps track of your distance travelled.
- ★ **User-selectable navigation screens** for compass or graphic highway steering guidance.
- ★ **Ultrasonically welded, dry nitrogen filled case** with antenna.
- ★ **EZInit** feature allows fast point and shoot initialisation.

The GPS 38 is the one navigational tool for the great outdoors that offers big features in a small, lightweight package. Mark your favourite fishing spot, tree stand or camp site, or retrace your steps back to the safety of your starting point using the TracBack feature. The GPS 38 features easy, one-thumb operation and weighs only 255g. The unit features a resettable odometer, graphic compass and highway steering guidance. Uses 4 AA type batteries to provide up to 20 hours of continuous use. Includes Lat/Long, UTM, Ordnance Survey, Irish, Swiss, Swedish and German Grids.

Retail Unit Price each (inc. VAT).

#### GPS 12

Garmin

**NEW**

- ★ **12 Parallel channel receiver** tracks and uses up to 12 individual satellites for fast acquisition and a tight lock on satellites.
- ★ **User-selectable waypoint symbols and comments** enhance map display information.
- ★ **Proximity waypoint** feature warns you of approaching hazardous areas.
- ★ **Innovative Tracback** function turns your track log into an instant breadcrumb trail to quickly navigate back home.
- ★ **User-definable map datums and UTM grids** let you customise the data used for positioning.
- ★ **User-friendly rocker-keypad system** allows room for a large backlit display with easy-to-read characters and full-featured graphic plotting.
- ★ **Position averaging** feature helps reduce effects of selective availability.
- ★ **Up to 500 waypoints and 20 routes** of up to 30 waypoints each.

The Garmin GPS 12 Personal Navigator is an affordable 12 parallel channel GPS receiver packed with features and user-friendly operation. Featuring fast satellite acquisition and performance that stays locked on in the toughest conditions, the unit is housed in a rugged, waterproof case. The rocker keypad design provides true one-hand operation for the advanced navigation features that include a moving map plotter that displays waypoint names, symbols or comments, proximity waypoint alarms, average and maximum speed data and trip timers. Requires 4 AA type batteries to give up to 12 hours performance. Includes Lat/Long, UTM, Ordnance Survey, Irish, Swiss, Swedish, German and Maidenhead Grids.

LQ77J 1	Garmin GPS12	£170.200	£199.980

#### GPS 12XL

Garmin

**NEW**

- ★ **PhaseTrac12** receiver tracks and uses up to 12 individual satellites for fast acquisition and a tight lock on satellites.
- ★ **Proximity waypoint** feature warns you of approaching hazardous areas.

- ★ **Innovative TracBack** function turns your track log into an instant breadcrumb trail so you quickly navigate back home, even if you haven't stored waypoints.
- ★ **User-definable map datums and UTM grids** let you customise the data used for positioning.
- ★ **User-friendly rocker-keypad system** allows room for large backlit display with easy-to-read characters and full-featured graphic plotting.
- ★ **Position averaging** feature helps reduce the effects of Selective Availability.
- ★ **Large memory** holds 500 waypoints or 20 routes of up to 30 waypoints each.

Featuring a 12 parallel-channel receiver for amazingly fast satellite acquisition and tight satellite lock, even under tree cover, The GPS 12XL unit is loaded with navigation information including 106 pre defined map datums and 7 grid formats, plus advanced orienteering features like position averaging, UTM and user grid formats to define your own map parameters. Store your tree stands and fishing spots among 500 waypoints or add them to any of 20 routes. The proximity waypoint feature gives advanced warning or nearby hazards, while the TracBack function helps you find your way home. The GPS 12XL is packed in a rugged case that features military tough construction. Its rocker keypad design provides true one-hand operation, while user-friendly operating system keeps you on the move day or night. Uses four AA type batteries for up to 12 hours use. Includes Lat/Long, UTM, Ordnance Survey, Irish, Swiss, Swedish, German and Maidenhead Grids.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KQ10L	Garmin 12XL GPS	£255.310	£298.980

#### GPS II Plus

Garmin

**NEW**

- ★ **Powerful PhaseTrac12** twelve parallel channel receiver, tracks and uses up to twelve satellites for fast, accurate positioning.
- ★ **Versatile screen** switches from horizontal to vertical orientation (and back again) with the press of a button.
- ★ **User-friendly rocker keypad** with diagonal movement, and sophisticated FTN LCD display with easy-to-read black pixel characters, full-featured moving map plotting and backlighting.
- ★ **Adaptable navigation page** with either compass or highway steering guidance, and user-selectable data fields.
- ★ **User-selectable waypoint symbols** enhance map display information.
- ★ **Patented TracBack** feature lets you quickly navigate your track log back home without manually storing waypoints.
- ★ **Trip odometer, average and maximum speed, and auto start/stop trip timer.**
- ★ **Dedicated keys** for zooming map display from 0.2 to 320 miles.
- ★ **Rugged construction** with locking rubber battery cover

Featuring a 12 parallel channel receiver for quick satellite acquisition and enhanced reception even in dense foliage, the GPS II Plus is designed for any over-the-road journey or offroad adventure you have in mind. Garmin's latest GPS unit utilises a state-of-the-art two-way screen display for vertical or horizontal orientation - which makes it easy to go from your vehicle to the hiking trail. With an external antenna for impressive reception, the GPS II Plus

also boasts dedicated zoom keys, waypoint symbols, diagonal planning, auto start/stop trip timer, and average and maximum speed recordings. Uses 4 AA batteries to provide up to 22 hours of accurate tracking and precise navigation. Includes Lat/Long, UTM, Ordnance Survey, Irish, Swiss, Swedish, German and Maidenhead Grids.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KX38R 1	Garmin GPS II Plus	£299.990	£299.990 NV

**GPS 120XL**

Garmin

- ★ MultiTrac operating system continuously tracks and uses up to 8 satellites for fast, accurate positioning.
- ★ Large, backlit LCD display with easy-to-read characters and moving map plotting with dedicated zoom keys for straightforward, intuitive operation.
- ★ User-selectable highway or compass navigation pages provide graphic steering guidance to your destination.
- ★ TracBack navigation lets you retrace your track log back home, compete with steering guidance to every waypoint.
- ★ Differential compatible.
- ★ 250 alphanumeric waypoints. 20 reversible routes, one-touch MOB and GOTO functions.

With a large 4.25in (10.8 cm) diagonal backlit display, the GPS 120XL is an ideal navigation solution for mariners who want more than a handheld - without the cost, complexity and large footprint found in typical fixed-mount units. The EZInit feature allows quick initialisation of the unit, while user-selectable highway or compass navigation pages guide you to your destination. Dedicated zoom keys give a larger usable map display whilst the TracBack feature allows you to navigate your track log back home without making a single waypoint. Includes power/data cable, remote antenna with 30 foot cable and surface/flush mount bracket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LF99E	Garmin GPS 120XL	£314.880	£369.990

**GPS 30 PC & GPS 35 PC**

Garmin

- ★ 8-Channel (GPS 30 PC) or 12-Channel (GPS 35 PC) GPS navigation ready to plug into a PC by means of a pre-fitted 9-way D-type serial COM port connector.
- ★ Pre-attached cigarette lighter adaptor for use in vehicles.
- ★ Wide +10 to +30V DC supply voltage range.
- ★ Interfaces with most PC-based navigational software.
- ★ Outputs standard NMEA 0183 sentences and has dual RS232 output capability.

Plug into the accuracy and performance of GPS navigation with the Garmin GPS 30 PC and GPS 35 PC. These units offer an integrated antenna/GPS engine that provides accurate GPS position, speed and heading information to any compatible device. The GPS 30 PC offers tracking based on up to 8 satellites and the GPS 35 PC offers tracking based on up to 12 satellites for fastest possible fix times and greatest accuracy.

Packed into the low profile, waterproof housing, both units run on +10 to +30V DC and draw just 110mA (GPS 30 PC) or 150mA (GPS 35 PC). The units are small (57 x 97 x 26mm) and light-weight too (124.5g).

Both units are pre-fitted with a standard 9-way D-type serial port connector, as fitted to most PCs, and a cigarette lighter adaptor for vehicle use.

### Meridian XL

Magellan Systems Corporation

- ★ Wide-screen display shows 6 easy-to-understand, graphic navigation screens.
- ★ Full-featured track plotter with adjustable scale, pan & scan, waypoint information and 'Go To' features
- ★ Customisable navigation screens
- ★ Ultra-large characters for easy viewing
- ★ Displays: Distance to Go, Bearing, Course Over Ground, Time to Go, Speed Over Ground, Cross Track Error and more
- ★ 'Go To' key with 'Man Over Board' function
- ★ 200 user-defined waypoints
- ★ 9 icons to attach to waypoint names for easy reference
- ★ Waypoint projection and nearest waypoint search
- ★ 5 reversible routes with 15 legs each

- ★ Sunrise/sunset and lunar calculations
- ★ Shows position in LAT/LON, TD, UTM, OSGB, Irish or Swedish grid coordinates
- ★ Back-lit display for night-time use
- ★ Large, well-spaced keys
- ★ Up to 6 hours continuous/24 hours standby operation from 3 x AA Alkaline Cells

The rugged, weather-resistant Meridian XL is lightweight, pocket-sized and puts the power of GPS in the palm of your hand. The incredible accuracy of GPS - 24 hours a day, anywhere in the world in any kind of weather - is ideal for all types navigation, whether travelling by land or sea.

The Meridian XL has all of the advanced navigation features that experienced navigators expect, yet is simple enough for the novice. All of the information is shown on a large and very readable LCD screen.

Track plotter (a scalable overhead view of the current position, planned/past course and stored waypoints), course deviation and marine compass-like steering displays are presented in an easy-to-understand graphical format. Recalling your route and how to get to your destination has never been easier. Continuing the ease-of-use theme, functions are accessed via a menu system from the keypad.

The aerial, which can be rotated through 360°, is a compact quadrifilar helix type that demonstrates remarkable sensitivity. It can be removed to reveal a BNC socket. Using an optional extension cable and suction cup (BM63T), the aerial can be temporarily mounted on any convenient surface, e.g. when used in a vehicle or on a boat. For permanent installations, a low profile active antenna (BM66W) and mounting bracket (BM64U) are also available. 200 waypoints (position fixes) can be stored, and any of these can be used within five reversible routes. Routes and waypoints can be easily changed. Positions are entered using the selected coordinate system, or by storing the current position fix. Once the route has been stored, navigation can be achieved graphically, or via an informative navigation screen that warns you of course deviation. A 'nearest waypoint' facility is useful if an emergency occurs and you want to find the nearest base or port that has previously been stored. 72 map datums are catered for to suit the map or chart being used, along with sunrise/sunset and lunar calculations.

The Meridian XL can be used with a differential beacon receiver (requires Power and Data Interface - AV79L), this overcomes the random error in the SPS code, deliberately introduced by the US Department of Defense.

A power and data interface (AV79L) is available: this allows the unit to be powered by an external supply of between +10V and 16V DC; provides a NMEA-0183 serial data output, so that other navigation devices, lap-top computer, etc. can be attached; and provides an input for differential correction.

The Meridian XL is supplied with a nylon carrying case and lanyard strap. The Meridian XL is powered from 3 x AA alkaline cells (JY48C, not included).

Magellan Product Brochure

A brochure on the Magellan product range is available free of charge, subject to availability (CH16S).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

## Meridian XL Accessories

### Meridian XL Antenna Extension Kit

**Magellan Systems Corporation**

This kit consists of a 2m BNC male-to-female cable, which allows the Meridian XL's aerial to be removed and repositioned so that it has a better view of the GPS satellites. A suction mount is provided for temporary installation to a car roof or boat wheelhouse, for example.

Retail Unit Price each (inc. VAT).

Order Code	Type 3403	Price each exc. VAT	inc. VAT each
BM63T	Ant Extension Kit	1+ 3+ 5+ £17.010 £15.500 £14.750	1+ £19.990

### Meridian XL Power and Data Interface Cables

**Magellan Systems Corporation**

Accepts a supply voltage of between +10V and +16V DC and provides an output suitable to power the Meridian XL. This power and data interface allows the Meridian XL to be powered from the electrical system of a car or boat, thus conserving internal battery power. The same unit has a separate data output, for interfacing the unit to external NMEA-0183 compatible navigation equipment, lap-top computers, etc., and a RTCM-104 input for use with a differential beacon receiver, allowing DGPS operation.

#### Important Information

There are two versions of this Power and Data Interface available, which one you need depends on which version of the Meridian XL it is to be used with.

If you have purchased a Meridian XL from Maplin under stock code AV78K, or if your Meridian XL has **five pins** on the power/data connector, you will require Power and Data Interface stock code AV79L.

If you have purchased a Meridian XL from Maplin under stock code BM62S, or if your Meridian XL has **six pins** on the power/data connector, you will require Power and Data Interface stock code BM65V.

In addition to the Meridian XL, these power/data interface cables can also be used with the following other Magellan GPS receivers: Meridian, Trailblazer and Trailblazer XL. Follow the 'number of pins' rules above to select the correct interface cable. If you are in any doubt, please obtain help by calling the Maplin Technical Sales Helpline or by visiting your nearest Maplin Regional Centre.

Retail Unit Price each (inc. VAT).

Order Code	Type 3405	Price each exc. VAT	inc. VAT each
AV79L	Pwr & Data Cable	1+ £17.860	1+ £20.990
BM65V	Pwr & Data Interface	1+ £17.860	1+ £20.990

### Meridian XL Low Profile Active Antenna

**Magellan Systems Corporation**

A high-sensitivity low-profile weather-proof active GPS antenna which can be mounted on a surface or fitted to a marine antenna pole. The antenna is supplied with 9m of pre-fitted coax, terminated in a BNC plug. Mounting hardware is included.

Retail Unit Price each (inc. VAT).

Order Code	Type 3406	Price each exc. VAT	inc. VAT each
BM66W1	GPS External Antenna	1+ £85.090	1+ £99.990

## Silva GPS

### XL1000 GPS Compass

**Silva**

For pin-pointing your position, GPS (Global Positioning System) has become the de facto standard. The remarkably compact Silva GPS Compass is unlike any other GPS receiver - which perhaps is not surprising, since its manufacturer has considerable experience in the fields of land and marine navigation. The unit is based around the same system of 24 satellites circling Earth, but has a built-in electronic compass that shows you in which direction you should travel to reach your destination. The ergonomically-designed hand-held unit can be held and operated in one hand. Easy to operate, the GPS Compass has a high contrast LCD panel and a logically-designed menu system. In full recognition of its potentially harsh outdoor applications, the British-made GPS Compass is completely waterproof, and floats in water. Full 3-D (vertical, horizontal and height) navigation can be carried out with five satellites in view, even with the device mounted on the dash of a car.

The Silva GPS Compass is the only GPS receiver with a built-in electronic compass. Working with GPS-derived information, the user can be guided straight to the desired destination - regardless of the current position. Direction is shown via arrows on the large LCD panel - unlike other GPS units, you don't have to interpret longitude/latitude figures. To maintain accurate readings, the compass can be calibrated to compensate for ferrous surroundings (e.g., car or boat bodywork). If desired, the compass can be used with the GPS receiver turned off to conserve power.

1000 waypoints (location bearings) can be stored in the GPS Compass' memory. A waypoint can be shown in any one of 100 geodetic datums, including the UK's Ordnance Survey system, nine grid systems are understood by the GPS system. A unique function is 'ORIGO', in which any position stored can be treated as a reference point. After travel, the new position can be shown as a range and bearing relative to this reference. GPS Compass interfaces with the Silva Nexus network system for power and sailing boats. Differential correction (to overcome SA accuracy restrictions) is also possible if the optional RTCM-104 module is connected up. Supplied with cigarette lighter power adaptor, nylon carrying case and car bracket. For portable use, the GPS Compass runs from 6 'AA' cells (JY48C, not included). A free information leaflet is available, subject to availability (GS95D).

Retail Unit Price each (inc. VAT).

Order Code	Type 3472	Price each exc. VAT	inc. VAT each

GS95D	Silva XL1000 Ltr	£0.000	£0.000

## GPS Compass Computer Interface

**Silva**

For use with the Silva XL1000 GPS Compass, comprising of an interface unit and software for IBM PC compatible computers on 3.5-in. disk. It allows the user to connect the XL1000 to a PC and allow data to be transferred. Position information can be saved in both OSGB and Lat/Lon coordinate systems and waypoints can be edited. By default the interface is configured to communicate in Silva NEXUS BUS for the XL1000 and RS232 for the PC, however the unit can also be configured to operate in NMEA-0183 and RS422 modes should these be required. The unit is powered by a 9V Alkaline PP3 battery (not included), the unit powers down when communication is not taking place to extend battery life. PC connector for serial COM port is a 9-way D-type. A free information leaflet is available, subject to availability (GS95D).

Retail Unit Price each (inc. VAT).

## GPS Accessories

### Personal Navigator

**Softair**

- ★ Uses Ordnance Survey raster maps of Great Britain (1997 update)
- ★ Route planning using Ordnance Survey (1996 update) database of 140,000 miles of Britain's roads
- ★ Comprehensive place name gazetteer containing more than 220,000 locations
- ★ Royal Mail Postcode database containing more than 1.6 million Postcodes and 800,000 street names
- ★ The Good Pub Guide 1997
- ★ The Good Guide to Britain 1997
- ★ Egon Ronay's 1997 guides: Hotels & Restaurants, Pubs & Inns and Bars, Bistros and Cafes
- ★ With the addition of a GPS receiver your position can be displayed anywhere in the country to within 25m

Personal Navigator offers route planning, satellite navigation, high quality raster maps and a postcode/street and location finder in one package. Calculate either the shortest, quickest, cheapest or 'delivery road' route with up to 30 stopovers. Print out your itinerary and maps to take with you OR connect a GPS receiver to your portable computer and you will never be lost! The unique postcode/street finder means that every address in Great Britain can be found. Alternatively

**Inspect Before You Buy**

## Navimap

Silva/Yeoman

The Navimap has revolutionised and simplified the art of finding one's way in strange and unfamiliar terrain. A high-performance plotter that links to the Silva GPS Compass, it can show your present position on any map, even if the latitude/longitude reading or grid system is not shown on the map. As a result, any map can be used – including tourist, hotel, military maps, road guides and sea charts. Consisting of a intuitive single-key puck with detachable slide scale and a carvas base for the map, Navimap can be used as a simple and user-friendly way of entering waypoints (i.e. desired locations) into the GPS Compass. To travel to the desired destination, simply follow the flashing red guide LEDs on the puck. A free information leaflet is available, subject to availability (GS95D).

GS95D	Silva XL1000 Lft	£0.000	£0.000

## Route Planning & Traffic Information Systems

### Freeway

TrafficMaster

The Freeway provides accurate live information concerning motorway congestion in spoken form. The unit is battery powered and requires no wiring. The unit simply attaches to the top of the dashboard by means of two self-adhesive Velcro strips (supplied), to allow easy attachment and removal (for security). Single button operation to activate the unit. The Freeway will automatically power down after 20 minutes to conserve battery power. The unit can be operated in automatic (default) and manual modes. A demonstration mode is also available so that you can familiarise yourself with the format and content of the spoken information. Supplied with 1 year's airtime pre-enable (year starts from receipt of first transmission after power-up), unit provides 14 days warning prior to air-time expiry. Additional airtime after the first year is purchased direct from TrafficMaster through their customer services hotline, and enabled on the unit by means of a PIN.

Information on traffic flow is gathered from a network of over 2,400 infra-red sensors, which monitor the speed of traffic passing below. When

the speed drops below 30 mph for an average of 3 minutes, the sensors alert the TrafficMaster National Traffic Data Centre in Milton Keynes. From here information is continuously sent out to over 1,500 transmitter stations located along the country's motorway network.

Each transmitter filters out all the motorway traffic information relevant to that particular site (to within a minimum range of 10 miles or 2 motorway junctions in either direction) and translates it into coded messages. These messages are transmitted to the Freeway unit in your car, which converts the messages into speech.

The Freeway will identify the direction in which you are travelling on receipt of the second transmission. Prior to this transmission, the Freeway will announce all locally relevant motorway information, in all directions, to within 10 miles or two motorway junctions.

Requires 4 x Alkaline AA Cells (JY48C), not included.

## Trafficmaster YQ Traffic Information System and Message Pager

Trafficmaster

Have you ever turned onto a motorway, and then wished you hadn't as soon as that line of red brake lights, stretching to the horizon, becomes apparent? Regular road users are only too familiar with this scenario. As such people know to their cost; teletext and radio reports are fine after a fashion, but are out of date by the time that you receive them.

Trafficmaster YQ is a practical and affordable alternative to this, the 20th century's biggest waste of time. Introduced in 1992, it is the country's first traffic information system to provide continuous and up-to-date live information on congestion, 24 hours a day and 365 days a year.

The Trafficmaster YQ is a British product that enables you to plan routes, minimising delays due to accidents and busy periods, and making most cost-efficient use of the motorways and major roads. For company executives and salespeople, Trafficmaster YQ will pay for itself very quickly.

It works by monitoring traffic flow at strategic points with devices that resemble speed cameras. Information from these is passed to Trafficmaster's headquarters in Milton Keynes, and then disseminated via a series of paging transmitters located at cellular telephone sites.

Currently, the Trafficmaster YQ system covers the entire network of national motorways, plus some 400 miles of trunk roads. Additional coverage is constantly being added. The Trafficmaster YQ receives these signals via a built-in aerial, and displays the information on a large and very readable map display.

A smartly-styled and ergonomically-designed unit, the Trafficmaster YQ can be mounted on the dashboard, and derives its power from the cigarette lighter adaptor supplied, or can be wired up directly to the car's electrical system. When out of the car, the Trafficmaster YQ derives its power from an internal Ni-Cd battery pack, which will last for 3 hours' continuous use (8 hours in standby mode). A desk stand and charger is available as an optional extra.

When powered up, icons flash at trouble spots, warning the user where average traffic speeds are less than 30mph. Extremely easy to use via an on-screen menu system, areas of interest can be 'zoomed' into.

Traffic information apart, the Trafficmaster YQ will also handle news headlines, weather forecasts - and paged messages. Those wishing to contact you call a premium-rate number, and leave a preset message and contact number.

The Trafficmaster YQ can store 50 such messages in memory. The unit is supplied with a month's free airtime, in the form of an intelligent chip-based 'information key'. Thereafter, information keys with 6 or 12 month blocks of usage must be bought. At around £10 per month, The Trafficmaster YQ represents excellent value for money - indeed, for one trip alone the time saving could pay for a month's usage.

Information key apart, the Trafficmaster YQ is supplied with a cigarette lighter power cord, a dashboard mount with extension piece, adhesive pads and mounting surface cleaners. A free information leaflet is available, subject to availability (GZ25C).

## Compasses

### Car Compass

Silva

A gimbal type car compass also suitable for use in boats, with built-in magnetic compensation and internal lighting, which can be connected to the vehicle lighting circuit with the wires supplied. The removable base can be fitted to a dashboard with four screws and rubber insulation pad supplied. In use, the instrument shows the direction of travel of the vehicle with a fixed black pointer against a red and white moving scale. Maximum tilt angle is 20° in any direction.

Magnetic compensation of up to ±45° is provided in the form of two 'E/W' and 'N/S' adjuster screws in the body, which can be operated with the trimmer tool supplied. These are designed to offset the effects of magnetic components nearby such as windshield wiper motors. Adjustment is only really necessary if the error is more than 5°.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WC55K1	Car Compass	£34.710	£32.980

## Wayfinder Outback Electronic Compass

Precision Navigation Inc.

- ★ Tilt compensation provides accuracy of 2° even when tilted by up to ±15°
- ★ Heading is displayed in digits, cardinal points and on the compass rose
- ★ Heading is easily referenced to magnetic or

- ★ true north
  - ★ Multiple declination angles can be stored
  - ★ Trail Blazing memorises your course as you travel
  - ★ Multi-leg stores a pre-planned route to follow later
  - ★ Day and Night Navigation keep you on a chosen course
  - ★ Automatic return reverses a route and guides you back to your starting point
  - ★ Bearings are stored with the press of a button
  - ★ Timer counts up or down and stores a time
  - ★ Damping reduces errors caused by movement of the compass
  - ★ Magnetic distortion alarm warns when outside magnetic interference is causing errors in the compass heading
  - ★ Water resistant in up to 3m (10ft) of water
- Probably the most sophisticated hand-held compass on the market, it incorporates technology developed for the U.S. military. The Wayfinder Outback has been designed with a variety of options. For the novice outdoor enthusiast, the Basic Option has all the features of a traditional compass, plus a few more. The advanced options of Trail Blazing, Multi-Leg, Bearing, Timer, Declination and Damping offer the serious & professional user features not found in traditional compasses such as storing courses and bearing points. This electronic compass is the ideal companion to a hand-held GPS receiver; together, these instruments provide the user with navigational facilities and information unheard of a few years ago. Powered by 2 x 3V CR2032 lithium coin cells (ZB74R), included.

### Silva Model 4-360 Baseplate Compass

Silva

A compass ideal for use by hillwalkers and mountaineers. In use a map. In use, the compass base is placed on the map with the edge along the desired line of travel. The compass capsule is rotated until 'N' on the compass aligns with magnetic North on the map. When both the map and compass are turned until the needle lines up with 'N', the arrow in the base now points to the destination. You then choose a landmark in this direction, and repeat the procedure until you reach your destination. The transparent base includes inch and metric linear scales, 1:25,000, 1:50,000 and 1:63,360 romer scales, magnifier, luminous direction markers and a neck cord.

Overall size: 125 x 60 x 10mm.

## Navigation Accessories

### Combined Altimeter and Barometer

Chamonix

A barometer indicating between 750 and 1050 HPA on the inner blue scale. It can be adjusted by turning a recessed screw on the back, and should be set to the actual local air pressure value, which can be obtained from the weather station or local radio announcement.

The instrument doubles as an altimeter, showing altitude on an outer black scale, having a resolution of 20m per division. Again this is adjustable using a recessed thumbwheel on the side, and should be set according to a known local reference altitude above sea level. Supplied with neck cord.

Retail Unit Price each (inc. VAT).

### Electronic Diagram and Map Measuring Device

- ★ Any type of scale can be individually selected and stored to 9 memory locations
- ★ Easy to read LCD readout
- ★ Auto-off function to save batteries
- ★ Automatic subtraction when reverse rolling

An electronic device for precisely measuring distances on maps and diagrams for professional and leisure time use. This high-tech chart meter is suited to all construction and site plans as well as hiking and road maps. There are 5 modes of operation making this unit a truly versatile device. The following measuring modes are included: metric; inches-miles/cm-km; inches-miles/cm-km with scale bar; 1cm/1 inch system and inch-feet measurements. Supplied with case and full operating instructions. Powered by 3 x SR44 button cells (FM28F, supplied).

- ★ Real-time clock
- ★ Last memory hold
- ★ Data accumulation for your fitness control programme

A multi-function pedometer designed to help you maintain a training record, measuring the number of steps, distance covered, calories burnt while also providing a stopwatch and real-time clock. The built-in sensitivity adjuster allows the unit to be set precisely for maximum accuracy, depending on the type of use. Clips onto a belt and features a fold down front to access the display and main controls. Operation is from an SR44 cell (FM28F, supplied).

**Walk Time Calculator**

Silva

The Walk Time Calculator enables the walker to measure three important factors, the exact length of the proposed walk, the time that the walk will take and the extra time required for height gain while ascending hills.

There is always a time limit – nightfall, weather conditions, rendezvous with transport and the physical limits of the participants. The ETA (Estimated Time of Arrival) at the final destination is vital. All too often mountain rescue teams are called out to parties and individuals who have failed to predict accurately the actual walking time required for a particular route.

The calculator enables the user to measure the exact distance of the walk on the map using the scale for 1:50,000 or 1:25,000. This is printed on the straight and curved edges of the calculator. Once the distance has been established, the user will then identify the walking speed of the participants, generally 10 minutes per kilometre for fit regular walkers, 12 minutes for average walkers and 15 minutes for a group. Terrain and weather conditions must also be taken into account. The estimated time is then simply read from the magenta scale. A hole at one corner is included for a neck cord.

**Nightvision**

**An Introduction to Night Vision Equipment from Moonlight Products**

Ideal for:

- ★ Wildlife Observation
- ★ Boating
- ★ Camping
- ★ Hiking
- ★ Fishing
- ★ Home & Commercial Security
- ★ Surveillance
- ★ Farming
- ★ Search & Rescue

Maplin stocks four models from Moonlight Products range of night vision equipment; these models have been carefully chosen to offer you the best performance and value for money. Each model is fully backed-up by a one-year guarantee from both Maplin and Moonlight Products. The following explanation will assist those unfamiliar with night vision equipment.

Moonlight night vision scopes and binoculars utilise electro-optical techniques which intensify existing light. These units will pick up a very broad spectrum of light, from visible through to near infra-red. The use of an infra-red illuminator throws out a beam of light outside the visible spectrum of the human eye, but to which these units are very sensitive.

You do not look through these units but instead at an intensified electronic image on a phosphor screen. This is how the image intensification process works:

Light (in the form of photons) enters the scope (or binocular) through the objective lens and strikes a photo cathode. The photo cathode, highly charged by the batteries in the unit, converts the photons into electrons. The electrons then accelerate through a vacuum inside the intensifier tube and strike a phosphor screen (much like a B&W TV screen) where the image is focussed. It is this image that the user sees.

The phosphor screen is green, specifically chosen because the human eye can differentiate more shades of green than other phosphor colours.

The models stocked by Maplin offer levels of magnification of between 1.7 and 2.5 times depending on the model.

For more information, please contact the Technical Sales Helpline or your nearest Maplin Regional Store.

**Budget Night Vision Scope**

Moonlight Products Inc.

Great value, entry level night vision scope. Provides 1.7 times magnification and viewing range of up to approximately 68m (200ft.). The objective lens is interchangeable. Does not include an infra-red illuminator. Requires 1 x 9V Alkaline PP3 (JY49D), not supplied.

**Specifications:**

Model No:	MPN-1400 Compact
Dimensions (LWH):	178 x 76 x 64mm approx
Magnification:	1.7 times
Lens:	58mm f2.0
Tripod Mount:	1/4in.
Operating Temperature:	-20°C to +45°C
Battery:	9V Alkaline PP3
Weight:	590g (1.3lb)
Field of View:	23°
Focusing:	300mm to ∞
Eyepiece:	±4 diopters
Humidity:	80% RH @20°C

Retail Unit Price each (inc. VAT).

VP28F	MPN-1400 Compct Scope	£152.340		£179.000

**Mini Night Vision Scope**

This mini scope is sleek, lightweight and very compact. Being palm-sized it is very comfortable to use, even for extended viewing. Small enough to fit in a coat pocket, briefcase etc. Built-in infrared illuminator for use in complete darkness. Provides 1.7 times magnification and viewing range of approximately 50 metres (150ft). The objective lens is not interchangeable. Requires 2 x AAA alkaline cells (JY50E), not supplied.

**Specifications:**

Model No:	Mini
Dimensions (LWH):	140 x 44 x 76mm approx
Magnification:	1.7 times
Lens:	26mm f1.2
Battery:	2 x AAA alkaline cells
Weight:	240g (8.6oz)
Field of View:	37° min
Focusing:	2.43m to ∞
Eyepiece:	±5 diopters

## Compact Night Vision Scope

Moonlight Products Inc.

Tremendous night vision performance at a reasonable price. Clear optics with wide field of view, good for close-range viewing. Optimum blend of light amplification, magnification and compact size. Includes side-on infra-red illuminator for bright viewing in complete darkness. Provides 2.4 times magnification and viewing range of up to approximately 90m (300ft.). The objective lens is interchangeable. Requires 2 x AA Alkaline cells (JY48C), not supplied.

### Specifications:

Model No: NV-100 Compact  
 Dimensions (LWH): 193 x 89 x 71mm approx  
 Magnification: 2.4 times  
 Lens: 58mm f2.0  
 Battery: 2 x AA Alkaline cells  
 Weight: 860g (1.9lb)  
 Field of View: 15° min  
 Focusing: 335mm to ∞  
 Eyepiece: ±4 diopters

RX80B	Domd LES Lhdtr Yellow	£0.621	£0.510	£0.470	£0.730

#### Flat Top Type

A panel lampholder with smart chromed bezel and flat topped, transparent red polycarbonate cap. Panel fixing requires 11mm dia. cut-out and, when fixed, lamp can be removed from either side of panel. Dia. of bezel: 14mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1169	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RX69A	Flat-Top LES Lhdtr Red	£0.612	£0.515	£0.480	£0.720

#### LES Lamp Covers

High temperature, coloured translucent, silicone rubber covers for 5mm diameter bulbs. The covers stretch over the glass bulb on LES types and our Wire Bulb and will withstand the

high temperature reached by the bulb. The covers also offer a very inexpensive method of mounting the bulb to a panel (up to 18swg thickness). Panel cut-out required 6.3mm (1/4in.). Overall size 12.5 x 9mm dia. Available in Amber, Blue, Green, Red and Yellow.

Retail Unit Price each (inc. VAT).

Order Code	Type 1160	Price each exc. VAT			inc. VAT each

BT68Y	Bulb 6V Prefocus	£0.289	£0.215	£0.190	£0.340

## Krypton Bulbs

These offer a much increased light output and greater efficiency when compared to standard types. As a result, they make enhanced substitute bulbs for applications such as cycle lamps, torches and security products. However, because they are much brighter than standard bulbs, life is reduced to between 15 and 20 hours. Available only with a miniature flanged (P9) base. There are 6 bulbs in the range: 2.4V 0.7A (KU00A), 2.4V 0.95A (KU01B), 3.6V 0.8A (KU02C), 4.8V 0.7A (KU03D), 6V 0.65A (KU04E) and 7.2V 0.7A (KU05F). Overall dimensions: length 30mm, dia. 13mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1999	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
KU00A	Krypton 2.4V 0.7A	£0.468	£0.340	£0.220	£0.550

KU02C	Krypton 3.6V 0.8A	£0.468	£0.340	£0.220	£0.550
KU03D	Krypton 4.8V 0.7A	£0.468	£0.340	£0.220	£0.550
KU04E	Krypton 6V 0.65A	£0.468	£0.340	£0.220	£0.550
KU05F	Krypton 7.2V 0.7A	£0.468	£0.340	£0.220	£0.550

## Lilliput Type Telephone Lamps

Three voltages available with T5-5 end, size 5 x 30mm approx.

Volts	mA	Lumens	Av. life (hours)
12	100	4	5000
24	50	3-3	6000
60	20	2	5000

Retail Unit Price each (inc. VAT).

Order Code	Type 2008	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BT54J	Lilliput Lamp 12V	£0.519	£0.415	£0.380	£0.610
BT55K	Lilliput Lamp 24V	£0.561	£0.445	£0.395	£0.660
BT56L	Lilliput Lamp 60V	£0.629	£0.510	£0.460	£0.740

## Wedge Base Capless Type

Two versions available, both rated at 24 to 30V, current either 30mA or 42mA. Average life 1000 hours.

Retail Unit Price each (inc. VAT).

Order Code	Type 1967	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BT47B	Capless Wedge 30mA	£0.365	£0.285	£0.260	£0.430
BT48C	Capless Wedge 42mA	£0.365	£0.285	£0.260	£0.430

## Backlighting Lamps

Lamps which will fit into standard 31.8 x 6.35mm (1 1/4 x 1/4 in.) chassis fuseholders and clips and which give a bright light over the length of the filament. The lamps have the appearance of standard fuses. Two voltages are available.

Volts	Watts	Amps
6.3V	0.6	0.1
12V	3.0	0.3

Retail Unit Price each (inc. VAT).

Order Code	Type 1985	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
UJ70M	Lamp Fuse-Shape 6V	£0.570	£0.490	£0.460	£0.670
UJ71N	Lamp Fuse-Shape 12V	£0.570	£0.490	£0.460	£0.670

## Wire Terminal Type

A small wire terminal type, 3.17mm dia. and 6.35mm long (excl. wire), two voltages available; 12V, 60mA average life 16000 hours and 28V, 24mA average life 5000 hours.

Retail Unit Price each (inc. VAT).

Order Code	Type 1955	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BT43W	Wire Lamp 12V	£0.297	£0.270	£0.250	£0.350
BT44X	Wire Lamp 28V	£0.468	£0.420	£0.400	£0.550

## Bi-Pin Type

This 28V bulb has a pin spacing of 2.54mm. Current consumption is 24mA with a light output of 1.8 lumens, size is 3.8 x 9.65mm approx. (excl. pins).

Retail Unit Price each (inc. VAT).

Order Code	Type 1958	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
BT46A	Bi-Pin Bulb Wide	£0.842	£0.665	£0.570	£0.990

## Miniature Krypton Bulbs

A miniature 'krypton' bulb with 4mm leadouts, producing a bright light for its size. Rated at 3V and 310mA.

Retail Unit Price each (inc. VAT).

Order Code	Type 1997	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JX48C	Krypton 3V 310mA	£0.417	£0.285	£0.185	£0.490

## Wire-Ended Filament Type

A wire-ended filament type bulb, dia. 5mm, 12V, 0.08A, 0.96W, 2 Lumens (nom). Nominal life: 5000 hours.

Retail Unit Price each (inc. VAT).

Order Code	Type 1954	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
WQ13P	Wire Bulb 12V	£0.485	£0.420	£0.370	£0.570

## Wire-Ended Neon Type

Wire-ended neon indicator lamp. For 250V operation use a series 270kΩ 1/4W resistor. Bulb diameter 5.95mm. Bulb length 21.5mm (max).

Retail Unit Price each (inc. VAT).

Order Code	Type 1992	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RX70M	Wire Neon	£0.170	£0.120	£0.100	£0.200

**Pygmy Lamps**

Two types are available; a bayonet fitting B22d (BC), size 29 x 59mm and a screw cap type E27 (ES), size 29 x 61mm. Both types are rated 200 to 250V 15W and have an average life of 1000 hours. Note: Switch off/isolate power before changing bulb.

Retail Unit Price each (inc. VAT).

Order Code	Type 2003	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
BT60G	Pygmy Bayonet	£0.757	£0.590	£0.520	£0.690
BT61R	Pygmy Screw Cap	£1.010	£0.820	£0.730	£1.190

**Microwave Oven Lamps**

Two types of lamp to suit Japanese microwave ovens with non-standard 17mm diameter screw cap. The tubular type is 22 x 57mm 250V 15W, the round type is 35 x 60mm 250V 25W.

Retail Unit Price each (inc. VAT).

Order Code	Type 2004	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
BT62S	Microwave Tubular	£1.260	£0.970	£0.860	£1.430
BT63T	Microwave Round	£1.260	£0.970	£0.860	£1.430

**Oven Lamps**

Two types of lamp specially constructed to withstand the high temperatures (300°C) found in ovens. The smaller type is 26 x 66mm 240V 25W, and the larger version is 45 x 78mm 240V 40W, both versions are E14 screw cap.

Retail Unit Price each (inc. VAT).

Order Code	Type 2005	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
BT64U	Oven Lamp 25W	£1.430	£1.130	£1.000	£1.690
BT65V	Oven Lamp 40W	£1.860	£1.450	£1.290	£2.190

**Low Voltage Dichroic Lamps**

A range of 12V low voltage dichroic lamps in a variety of wattages and beam angles with bi-pin single ended GX 5.3 caps. The dichroic reflector has the advantage that it radiates the majority of the heat in the opposite direction to the light beam,

meaning that little infra-red is radiated forward. This makes the lamps particularly suitable for illumination of heat sensitive material, such as transparencies in slide projectors for example. Further advantages of using dichroic lamps are the higher light output (a 50W lamp has the same light intensity of a 150W PAR lamp), longer life and superior colour rendition when compared to standard PAR lamps.

Available in the following wattages and beam angles:

Part No.	Watts	Beam Angle	Order Code
ESX/CG	20W	13°	AB73Q
BAB/CG	20W	40°	AB74R
EXT/CG	50W	12°	AB75S
EXZ/CG	50W	26°	AB76H
EXN/CG	50W	40°	AB77J
FNV/CG	50W	55°	AB78K
EYF/CG	75W	14°	AB79L
EYC/CG	75W	42°	AB81C

Diameter: 50mm  
Length: 45mm

Retail Unit Price each (inc. VAT).

Order Code	Type 5433	Price each exc. VAT			
		1+	5+	10+	1+

AB81C	EYC/CG	£3.390	£3.250	£3.150	£3.990

**Electronic Safety Converter**

This very compact and safe electronic converter is the ideal way to convert mains power for low voltage (12V) dichroic lamps of up to 50W (order codes AB73Q, AB74R, AB75S, AB76H, AB77J and AB78K). The converter stays cool in use, is quick and easy to fit and produces a controlled power flow that will help to prolong bulb life. Can be used with dimmer switches. Dimensions: 75 x 33 x 25mm.

Retail Unit Price each (inc. VAT).

		1+	10+	25+	
KE85G	Lighting Transformer	£9.350	£7.500	£6.950	£10.990

**150W Halogen Tube**

A halogen tube rated at 250V AC, 150W, as used with the mini halogen lamp, DM50E, etc.

Retail Unit Price each (inc. VAT).

Order Code	Type 4837	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
DM51F	150W Halogen Tube	£2.540	£1.440	£1.160	£2.950

**240V 300W and 500W Halogen Lamps**

High-powered halogen tubes with a brilliant white light (colour temp. 2900°K) which can provide 9000 lumens of illumination for 500W tube and 5000 lumens for 300W tube. To fit standard R7S base, these tubes are suitable for any application where a very bright light is required (for example, video work). Also suitable as replacement bulbs for our Security Light (GK05F). Important note: please avoid touching the glass itself with bare fingers as the grease will reduce the life of the tube. Average life 2000 hours. Overall dimensions: 119.6mm long x 10mm dia.

Retail Unit Price each (inc. VAT).

### Xenon Beacons

## Low Profile Xenon Flasher Unit

Weatherproofed xenon tube-based flasher designed primarily as an alarm beacon. Gives off two bright, attention-grabbing pulses of light every second. The translucent acrylic cover lens of the unit is marked with Fresnel rings and the sides are striated to maximise light dispersal. Flashers with lenses in four different colours are available; red, clear, amber and blue. The body itself is manufactured from durable black ABS plastic. This unit is not suitable for continuous flashing use. Tube life approx. 1 million flashes.

Working voltage: 12V DC  
Supply current: 180mA  
Power Output: 1W  
Flash Rate: 2Hz (approx)  
Overall size: 70mm dia. x 44mm high  
Fixing: 1 x 6mm dia. centre fixing  
Supplied with approx 0.5m red and black cable and mounting gasket.

Retail Unit Price each (inc. VAT).

Order Code	Type 2041	Price each exc. VAT			inc. VAT each
		1+	10+	25+

ZC16S	Xenon Flasher Clear	£8.500	£6.820	£5.350	£9.990
ZC17T	Xenon Flasher Red	£8.500	£6.820	£5.350	£9.990

## Xenon Tube

### Linear

Two general purpose high quality flash tubes with straight sealed glass envelopes. One tube is designed to give high energy flashes at a low rate and the other to give low energy flashes at a fast rate. (On both types, faster flash rates are possible with lower energy and life will be considerably extended).

#### Specification

	High energy	Fast rate
Minimum anode voltage:	220V	180V
Maximum anode voltage:	350V	400V
Nominal anode voltage:	320V	350V
Maximum energy input per flash:	25Ws*	0.3Ws*
Maximum flash rate at maximum input power:	6/min	60/min
Life with max energy and max flash rate:	5000 flashes	1 million flashes
Minimum trigger voltage:	4kV	4kV
Dimensions:	35mm long x	3.7mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type 2294	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
YQ62S	Xnn Tube High Energy	£1.350	£0.940	£0.830	£1.590
FS77J	Xnn Tube Fast Flash	£1.520	£1.000	£0.850	£1.790

## Strobe

### Optum

A U-shaped high quality flash tube designed for use in stroboscopic applications. Flash rates up to 100 flashes per second are possible at maximum energy. At lower energies the life of the tube will be considerably extended.

#### Specification

Minimum anode voltage:	200V
Maximum anode voltage:	400V
Nominal anode voltage:	300V
Maximum energy input per flash:	4 Watt seconds
Maximum flash rate at maximum input power:	6000/min
Life with max energy and max flash rate:	1 million flashes
Minimum trigger voltage:	4kV
Diameter of tube:	6mm
Width of whole unit:	16mm
Length of unit (excl. glass seal):	32mm plus 15mm pins

Retail Unit Price each (inc. VAT).

Order Code	Type 2295	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FS78K	Xenon Tube Strobe	£2.030	£1.380	£1.200	£2.390

## Beacon

A U-shaped high quality flash tube designed for use in warning and alarm beacons. Flash rates up to 100 flashes per minute are possible at high energy. At lower energies the life of the tube will be considerably extended.

#### Specification

Minimum anode voltage:	250V
Maximum anode voltage:	500V
Nominal anode voltage:	400V
Maximum energy input per flash:	45W seconds
Maximum flash rate at maximum input power:	100/min
Life with max energy and max flash rate:	2 million flashes
Minimum trigger voltage:	6kV
Diameter of tube:	6mm
Width of whole unit:	22mm
Length of unit (excl. glass seal):	53mm plus 40mm pins

Retail Unit Price each (inc. VAT).

Order Code	Type 2297	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FS79L	Xenon Tube Beacon	£2.280	£1.650	£1.370	£2.690

## Trigger Transformers

Trigger transformers for use with our xenon tubes. The 6kV type is for use with the Beacon tube.

#### Specification

Secondary volts	4kV	6kV
Primary volts nominal	170V	190V

Trigger capacitor	0.033µF	0.047µF
Energy	0.6mj	0.9mj
Primary turns	10	15.5
Secondary turns	500	700
Primary inductance	2.5µH ±25%	4µH±25%
Secondary inductance	3mH±20%	6.5mH±20%
Primary resistance	80mΩ	85mΩ
Secondary resistance	70Ω	90Ω
Dimensions	14.5 x 8-3mm dia.	11 x 13mm cia.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YQ63T	4kV Trigger Transmtr	£0.672	£0.790
JE15R	6kV Trigger Transmtr	£0.842	£0.960

**Lasers**

**Laser Diodes & Modules**

**5mW Laser Diode with Photodiode**

This low cost, compact but powerful laser diode has a built-in photodiode to provide optical feedback and monitoring to your external drive circuit. This means that only six external components are required to regulate the laser drive current. Always use anti-static precautions when handling the device.

**Specification:**

Dimensions:	10mm (dia) x 5mm (L)
Beam aperture:	1mm (dia)
Wavelength:	650nm
Power supply:	3V
Operating current:	65mA
Output power:	5mW

1. Laser Diode Cathode.
2. Laser Diode Anode and Photodiode Cathode.
3. Photodiode Anode.

R1,R2 = 1k2 V=3V DC  
C1 = 10uF  
TR1 = 2N3906  
TR2 = 2N3904

R1,2 are Min Res (M1K2), RV can be a small preset 4.7k (UH02C). C1 can be a small tantalum (WW68Y). TR1 is order code QR42V, and TR2 is (QR40T).  
**CAUTION:** This device generates a visible beam of

red light that will not burn or cut. However, it is moderately hazardous and should not be viewed by the naked eye on the same axis as the beam.

Price each is shown. Order quantities less than 2 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
LE09K 1	650nm Diode	£36.990	£49.990

**1mW 3V Laser Module**

A laser diode which features built-in power stabilisation, built-in slow start and heatsink. The device is complete with optics and electronics, yet is only 27.5mm long and 10.5mm in diameter. Operating mode is continuous wave with small beam divergence and excellent far-field beam quality. Most popular commercial applications for this device include laser pointers, bar-code readers and laboratory and educational uses. So simple to use, it only requires a 3V DC supply to operate - maximum input current should be restricted to 70mA

**Specification:**

Diode laser type:	Index-guided LD
Operating mode:	Continuous wave
Beam divergence:	<0.5mrad
Wavelength:	670 ±10nm (red)
Output power:	1mW
Operating temperature range:	-10°C to +50°C
Power supply:	+3V DC (2.5V to 4.5V)
Dimensions:	27.5mm long x 10.5mm dia.
Weight:	15g

**CAUTION:** This device generates a visible beam of red light that will not burn or cut. However, it is moderately hazardous and should not be viewed by the naked eye on the same axis as the beam. CJ51F conforms to Class II for laser products. Suitable warning labels to this effect should be attached to any equipment using this device.

Price each is shown. Order quantities less than 2 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
CJ51F 1	1mW Diode Laser	£29.990	£39.990

**5mW 3V Laser Module**

A small laser module capable of delivering a powerful 5mW visible red (670nm wavelength) beam from a low voltage. Suitable for a wide range of general laboratory and field applications.

**Specification:**

Dimensions:	10mm (dia) x 20mm (L)
Beam aperture:	3mm (dia)
Wavelength:	670nm
Power supply:	3V
Operating current:	85mA
Output power:	5mW

**CAUTION:** This device generates a visible beam of red light that will not burn or cut. However, it is moderately hazardous and should not be viewed by the naked eye on the same axis as the beam.

**N.B:** PCB 11.5 x 8mm, protrudes from the back of the module. Care must be taken when handling this device.

Price each is shown. Order quantities less than 2 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
LE07H 1	5mW 670nm 3V Mod	£29.990	£39.990

**5mW 6-12V Laser Module**

A class IIIa laser diode capable of delivering an output power of 5mW (nominal), at 670nm (red). The beam is index guided, which gives a clearer spot than gain guided devices, and can operate from a battery. These devices are suitable for general purpose laboratory and field applications.

**Specification:**

Dimensions:	10.5mm(dia) x 42.5mm(L)
Wavelength:	670nm
Power supply:	6-12V DC
Operating current:	80mA
Output power:	<5mW
Angular divergence:	1 minute
Beam divergence:	1m rad

**CAUTION:** This device generates a visible beam of red light that will not burn or cut. However, it is moderately hazardous and should not be viewed by the naked eye on the same axis as the beam.

Price each is shown. Order quantities less than 2 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
AQ27E	5mW 670nm Laser Di	£49.990	£69.990

**High Brightness 3mW Laser Module**

A Class IIIA laser product capable of delivering an output of 3mW at a wavelength of 635nm (bright red), supplied complete with its own built-in regulator. Easy to set up, this module is ideal for general purpose laboratory and field operations or educational use.

**Specification:**

Dimensions:	11mm (dia) x 37mm (L)
Beam aperture:	5mm (dia)
Wavelength:	635nm (bright red)
Power supply:	3V
Operating current:	40 to 70 mA
Output power:	3mW

**CAUTION:** This device generates a visible beam of red light that will not burn or cut. However, it is moderately hazardous and should not be viewed by the naked eye on the same axis as the beam.

Price each is shown. Order quantities less than 2 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
LE09G 1	3mW 635nm Module	£69.990	£99.000

## Alignment Laser

A powerful and convenient 3mW (nominal) laser, that has uses in surveying, machine alignment, and other similar applications. The laser is class IIIa and features an index guided laser structure, and can operate from a battery. The laser has built-in slow start, and is internally regulated, which means it can operate from a mains adaptor supplying 6-12V DC. Due to the 633nm wavelength, the output will look considerably brighter, when compared with 670nm types. An adjustable lens allows the beam to be accurately focused. The power supply leads to this unit should not be extended more than 1m in length in order to conform to the EMC Directive. **N.B.** This unit may require heatsinking when used continuously, or for long periods.

### Specification:

Dimensions:	10.5mm(dia) x 42.5mm(L)
Wavelength:	633nm (bright red)
Power supply:	6 to 12V DC
Current consumption:	100mA
Power consumption:	1200mW
Output power:	<3mW
Beam divergence:	1.5m rad

**CAUTION:** This device generates a visible beam of red light that will not burn or cut. However, it is moderately hazardous and should not be viewed by the naked eye on the same axis as the beam.

Price each is shown. Order quantities less than 2 will be sold at the one off inc. VAT price.

## Laser Tubes

### Helium Neon Laser Tube

A helium-neon laser tube having a typical output power of 2mW. A complete kit including this laser and power supply is also available (order code LM72P). The laser is capable of making small holograms and is ideal for use in school physics laboratories as the laser can be used to demonstrate many of the properties of light. The laser emits randomly polarised red light at 632.8nm wavelengths and at a power which makes it completely safe provided that you do not stare directly into the beam, when retinal damage may result. Therefore never use in the presence of children unless a diverging lens is fitted to the beam. The laser is incapable of burning, cutting or drilling and may be directed at the skin when no harm whatsoever will result.

### Specification:

Typical power:	2mW
Overall size:	260 x 37mm dia.
Beam exit diameter:	0.75mm
Full angle divergence:	1.43mRad
Starting voltage:	8kV
Supply voltage:	1.5kV
Tube voltage drop:	1.15kV ±100V
Ballast resistor:	68kΩ 4W
Operating current:	5mA

Wavelength: 632.8nm (red light at 4.741 x 10<sup>14</sup> Hz)  
 Operating mode: TEM<sub>00</sub> (Gaussian intensity distribution)

Price each is shown. Order quantities less than 2 will be sold at the one off inc. VAT price.

## Light Emitting Diodes

### Introduction

### Calculation of Series Resistors For LEDs

Connect a resistor in series with the LED. The correct resistance value is given by the formula:  $R_L = (V_S - V_F) \div I_F \Omega$  where  $I_F$  is in amps,  $V_S$  is the applied voltage,  $V_F$  is the forward voltage shown in the tables above, and  $I_F$  is the forward current which gives the highest brightness at a safe dissipation and is approximately equal to 20mA (0.02A). For AC operation connect a diode 1N4148 etc. in inverse parallel with the LED and halve the value of the resistor determined by the above formula.

### Surface Mount

### Low Profile SMD LED Lamps

Kingbright

A miniature 3mm x 2mm (1mm high) LED specifically for direct surface mounting to a PCB. Viewing angle is 90° for all colour types. Available as translucent orange, green and yellow, and clear super-bright red. A marker bar at one end of the ceramic base identifies the cathode, except for the super-bright red type where it identifies the anode. **Sold in multiples of 25 (price per 25):**

Type	Luminous intensity @ 20mA
Orange	12.5 to 32mcd
Green	12.5 to 20mcd
Yellow	12.5 to 20mcd
Super red	20 to 60mcd
Clear green	20 to 60mcd

Price per pack is shown. Order quantities less than 4 packs will be sold at the one off inc. VAT price.

## Specialised LED's

### Axial Leaded LEDs

A range of leaded LEDs in a package similar to surface mount, allowing a very small indicator footprint which may be soldered without the use of special SMD handling equipment. Available in high efficiency red and standard amber, yellow and green. All types are transparent and have a viewing angle of 90° with a maximum reverse voltage of 5V.

NOTE: Outline is for CH08J, with cathode lead 0.4mm thick. For other colours in the range polarity is reversed i.e. anode is lead 0.4mm

**Specification**    **Yellow**    **Green**    **Orange**    **Red**  
 Max. light output: 20mcd    20mcd    20mcd    20mcd

CH15R	2mm Cer LED Red	£0.325	£0.390
CH17T	2mm Cer LED Grn	£0.325	£0.390

### Standard LED's

### 5mm Diameter Types

**Toshiba**

A range of high quality, bright, 5mm LEDs available in red, green and yellow. And with diffused lens. The optical construction ensures the LEDs have a superior light output, low drive current and a fast response time - ideal for pulse operation. The viewing angle is 80° (50% light output). The recommended forward current is 15 to 20mA. Cathode has shortest lead.

Specification (I <sub>F</sub> =15mA)	Red	Green	Yellow
Light output typical at:	3mcd	8-0mcd	6-0mcd
Forward voltage at I <sub>F</sub> =20mA:	2-15V	2-15V	2-05V
Forward current (maximum):	20mA	25mA	25mA
Reverse voltage (maximum):	4V	4V	4V
Power dissipation (maximum):	90mW	100mW	100mW
Peak wavelength:	700nm	565nm	585nm

### 3mm Diameter Type

**Toshiba**

A range of high quality, bright, 3mm LEDs available in red, green and yellow. And with diffused lens. The optical construction ensures the LEDs have a superior light output, low drive current and a fast response time - ideal for pulse operation. The viewing angle is 70° (50% light output). The recommended forward current is 5 to 10mA. Cathode has shortest lead.

Specification (I <sub>F</sub> =10mA)	Red	Green	Yellow
Light output typical at:	2-5mcd	5-0mcd	4-0mcd
Forward voltage at I <sub>F</sub> =20mA:	2-8V	2-8V	2-8V

## 5mm Diameter Types

**Hewlett-Packard**

A range of high quality, bright, 5mm LEDs available in red, green and yellow. These optically well designed LEDs have a wide viewing angle of 60°. Cathode denoted by flat on body and short lead.

Specification:	Red	Green	Yellow
Light output typical at $I_F=10\text{mA}$ :	7.0mcd	5.2mcd	8.0mcd
Forward voltage at $I_F=10\text{mA}$ :	2.2V	2.3V	2.2V
Forward current (maximum):	90mA	90mA	60mA
Reverse voltage (maximum):	5V	5V	5V
Power dissipation (maximum):	135mW	135mW	85mW
Peak wavelength:	635nm	565nm	583nm
<b>Manufacturer's Code</b>	<b>MPS Code</b>		
HLMP-3301	CZ25C		
HLMP-3507	CZ26D		
HLMP-3401	CZ27E		

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2048	Price each exc. VAT		
		25+	100+	1000+
CZ25C	HP LED Red	£0.150	£0.140	£0.130
CZ26D	HP LED Green	£0.150	£0.140	£0.130
CZ27E	HP LED Yellow	£0.150	£0.140	£0.130

## 3mm Blue LED

A low-cost blue LED available with either a blue or water clear package.

### Specification

Luminous intensity  $I_F=30\text{mA}$ :

0.6mcd typical  
Peak wavelength: 470nm  
Forward voltage: 3.3V max.  
Forward current: 50mA max.  
**Type Order Code**  
Blue JA27E  
Water Clear JA28F

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 12707	Price each exc. VAT		
		25+	100+	500+
JA27E	3mm LED Tint Blue	£0.990	£0.940	£0.657
JA28F	3mm LED Clear Blue	£0.990	£0.940	£0.657

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 12708	Price each exc. VAT		
		25+	100+	500+
JA29G	5mm LED Tint Blue	£1.080	£0.950	£0.689
JA30H	5mm LED Clear Blue	£1.080	£0.950	£0.689

## 3mm High Brightness Blue Types

**Kingbright**

A 3mm high quality, high brightness blue LED available with either a blue-diffused, blue-transparent or water clear casing.

Specification ( $I_F=20\text{mA}$ )	Diffused (JA20W)	Transparent (JA19V)	Clear (JA22Y)
Light output:	40mcd	60mcd	90mcd
Viewing angle:	60°	20°	20°
Peak wavelength:	430nm		
DC forward current:	30mA max.		
Forward voltage:	5.5V max.		
Operating temperature:	-20°C to +80°C		
Reverse voltage:	5V		

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 12703	Price each exc. VAT		
		10+	25+	100+
JA20W	3mm LED Diffuse Blue	£1.490	£1.290	£1.090
JA19V	3mm LED Trans Blue	£1.490	£1.290	£1.090
JA22Y	3mm LED Clear Blue	£1.490	£1.290	£1.090
JA23A	5mm LED Trans Blue	£1.490	£1.290	£1.090
JA24B	5mm LED Diffuse Blue	£1.490	£1.290	£1.090
JA25C	5mm LED Clear Blue	£1.490	£1.290	£1.090

## Direct Connection LED's

### 5V and 12V LED Types

**Kingbright**

A range of standard sized 3mm and 5mm coloured LEDs which are designed to connect directly across 5V DC and 12V DC power supply rails, having a built-in resistor thus greatly simplifying design and assembly. The encapsulations are also standard and will fit LED front panel clips (see LED clips). The cathode of each is denoted by the flat on the body and the shorter of the two leads. Viewing angle of all types is 120°.

3mm types	Wavelength	Luminous intensity
		$I_F = 10\text{mA}$
3mm 5V red	625nm	2 to 8mcd
3mm 5V green	565nm	2 to 8mcd
3mm 12V red	625nm	2 to 8mcd
3mm 12V green	565nm	2 to 8mcd
3mm 12V yellow	590nm	2 to 8mcd
5mm types	Wavelength	Luminous intensity
		$I_F = 10\text{mA}$
5mm 5V red	625nm	2 to 8mcd
5mm 5V green	565nm	2 to 8mcd
5mm 12V red	625nm	2 to 8mcd
5mm 12V green	565nm	2 to 8mcd
5mm 12V yellow	590nm	2 to 8mcd

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2054	Price each exc. VAT		
		25+	100+	1000+

CJ61R	LED 12V Yellow	£0.149	£0.119	£0.108

## Low Current LED's

### 3mm Low Current Types

**Hewlett-Packard**

A range of tinted, diffused, LEDs designed and optimised especially for low DC current operation. Luminous intensity and forward voltage are tested at 2mA to assure consistent brightness at TTL output current levels. Available in high intensity red, green and yellow with a viewing angle of 50°. The cathode is denoted by the short lead.

Specification:	Red	Green	Yellow
Light output typical at $I_F=2\text{mA}$ :	1.8mcd	1.6mcd	1.6mcd
Forward voltage at $I_F=2\text{mA}$ :	2.2V	2.3V	2.2V
Forward current (maximum):	7mA	7mA	7mA
Reverse voltage (maximum):	5V	5V	5V
Power dissipation (maximum):	24mW	24mW	36mW
Peak wavelength:	626nm	569nm	585nm

CZ30H	HP Mini LED Gm 2mA	£0.360	£0.350	£0.250

### 3mm Low Current Types

A range of 3mm very low current (2mA) LEDs available in four colours. The LEDs will fit the appropriate clips (see LED clips). Packages are diffused with the cathode denoted by the shorter of the two leads. Viewing angle is 60° for all types.

Type	Wavelength	Luminous Intensity	Stock Code
			@ $I_F=2\text{mA}$
Orange	625nm	0.8 to 2mcd	CJ55K

## High Brightness LED's

### High Brightness Red Types

Kingbright

A high brightness red LED available in miniature and standard sizes. The LEDs fit the appropriate clips listed below. The cathode is denoted by the flat on the body and by the short lead.

<b>Specification:</b>	Min	Std
Case size (dia.)	3mm	5mm
Light output typical at IF = 20mA	20mcd	30mcd
Forward voltage at IF = 20mA	2V	2V
Forward current (max)	30mA	30mA
Reverse voltage (max)	5V	5V
Power dissipation (max)	105mW	105mW
Peak wavelength	625nm	625nm

The LED has a diffused lens which gives a wide viewing angle of 120° for Min and 140° for Std type.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2057	Price each exc. VAT			inc. VAT each 1+

WL84F	Hbrt LED Red Std	£0.051	£0.040	£0.038	£0.370

### 3mm & 5mm High Intensity Red Type

Hewlett-Packard

LEDs that are manufactured from a double heterojunction (DH) AlGaAs material and have an outstanding light output efficiency over a wide range of drive currents. The colour is deep red at the dominant wavelength of 637nm.

The LEDs are suitable for DC, or pulse drive, to produce the desired light output. The 3mm type is untinted and non-diffused with the cathode denoted by a short lead. The 5mm type is tinted and diffused with the cathode denoted by a flat on the body and a short lead.

<b>Specification:</b>	3mm	5mm
Viewing angle:	45°	65°
Light output typical at IF=20mA:	65mcd	70mcd
Peak wavelength:	645nm	
Forward voltage at IF=20mA:	2.2V maximum	300mA peak
Forward current:	20mA	30mA
Average forward current:	20mA	
DC forward current:	30mA	
Transient forward current (10µS pulse):	500mA	
Reverse voltage:	5V typical	
Power dissipation:	87mW	

<b>Manufacturer's Code</b>	<b>MPS Code</b>
HLMP-D101	CZ38R
HLMP-K105	CZ39N

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

### High Brightness Green Types

Kingbright

A high brightness green LED available in standard (5mm) size, with either a water clear or diffused lens. The LEDs fit the appropriate clips listed below. The cathode is denoted by the flat on the body and by the short lead.

	Clear	Diffused
Light output typical at IF=20mA:	300	50
Forward voltage at IF=20mA:	2.2V	2.2V
Forward current (max):	25mA	25mA
Reverse voltage (max):	5V	5V
Power dissipation (max):	105mW	105mW
Peak wavelength:	565nm	565nm
The water clear lens has a viewing angle of 30°, and the diffused 120°.		

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2058	Price each exc. VAT			inc. VAT each 1+
		25+	100+	1000+

CK40T	Hbrt LED Grn Dif	£0.077	£0.068	£0.042	£0.400

### High Brightness 8mm Diameter Types

Kingbright

A high brightness 8mm diameter LED available in three colours. A panel mounting clip is available, sold separately. The cathode is denoted by the flat on the body and by the short lead.

<b>Specification:</b>	Red	Green	Yellow
Light output typical at IF = 20mA	32mcd	32mcd	32mcd
Forward voltage at IF = 20mA	2V	2.2V	2.1V
Forward current (max)	30mA	30mA	30mA
Reverse voltage (max)	5V	5V	5V
Power dissipation (max)	105mW	105mW	105mW
Peak wavelength	625nm	565nm	595nm
The LED has a diffused lens which gives a wide viewing angle of 140°.			

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## Super Bright LED's

### 12V Super-Bright LEDs

**Kingbright**

Superbright versions of the 3mm and 5mm red and green LEDs. Package dimensions are standard and will fit 5mm LED panel clips. Cathode is denoted by the flat on the body and the shorter of the two leads. Viewing angle is 120° in all cases. Package material is diffused green or red.

Type	Wavelength	Luminous Intensity @ I <sub>F</sub> = 20mA
3mm green	565nm	50 to 60mcd
3mm red	660nm	70 to 90mcd
5mm green	565nm	40 to 50mcd
5mm red	660nm	90 to 100mcd

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2065	Price each exc. VAT	25+	100+	1000+	inc. VAT each 1+

### Super-Bright Types

**Kingbright**

Super bright red LEDs in four sizes. The LEDs fit the appropriate panel mounting clips listed below. The cathode is denoted by the flat on the body and by the short lead. The LEDs have a diffused lens giving a wide viewing angle.

**Specification:**

Forward voltage at I <sub>F</sub> = 20mA:	1.8V
Forward current (max):	30mA
Reverse voltage (max):	5V
Power dissipation (max):	100mW
Peak wavelength:	660nm

Case size (dia.)	3mm	5mm	8mm	10mm
Light output typical at I <sub>F</sub> = 20mA	80mcd	150mcd	200mcd	200mcd
Viewing angle	100°	120°	140°	140°

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

### Superbright 5mm Types

**Hewlett-Packard**

A range of clear, non-diffused LEDs that have a super bright output and excellent colour performance. Available in red, green and yellow with a viewing angle of 48°. The cathode is denoted by flat on body and short lead.

**Specification:**

	Green	Yellow	
Light output typical at I <sub>F</sub> =20mA:	125mcd	120mcd	140mcd
Forward voltage at I <sub>F</sub> =20mA:	2.2V	2.3V	2.2V

## Ultrabright LED's

### Ultrabright and Hyperbright Types

**Kingbright**

Four sizes of Ultrabright red LEDs are available and two sizes of Hyperbright type. The cathode is denoted by the flat on the body and the short lead. The LEDs have a water-clear lens and a narrow viewing angle.

**Specification:**

Forward voltage at I <sub>F</sub> =20mA:	1.8V
Forward current (max):	30mA
Reverse voltage:	5V
Power dissipation (max):	100mW
Peak wavelength:	660nm

**Ultrabright Types**

Case size (dia)	3mm	5mm	8mm	10mm
Light output typical at I <sub>F</sub> =20mA	500mcd	1cd	1.6cd	1.6cd
Viewing angle	30°	30°	20°	20°

Case size (dia)	5mm	5mm wide
Light output typical at I <sub>F</sub> =20mA	3.5cd	1500mcd
Viewing angle	30°	60°

Please note that the CH22 is a Three Lead device with a common cathode.

Higher Brightness LEDs are available please contact our technical sales desk for more information

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

### 5mm High Power Type

**Hewlett-Packard**

An untinted, non-diffused, LED that uses a 'transparent substrate, aluminium gallium arsenide' (TS AlGaAs) construction. This produces an LED with a very high light output efficiency over a wide range of currents, with a superior high current capability. The design utilises advanced optical methods to produce an extremely

high intensity output with a wide viewing angle (48°). Available in red with a dominant wavelength of 637nm. The cathode is denoted by flat on body and short lead.

**Specification:**

Light output at I <sub>F</sub> =20mA:	0.7cd typical, 2.0cd maximum
Typical radiant intensity I <sub>F</sub> =20mA:	11.8mW/sr
Forward voltage at I <sub>F</sub> =20mA:	2.4V maximum
Forward current:	300mA peak
Average forward current I <sub>PEAK</sub> =300mA:	15mA
DC forward current:	50mA
Reverse voltage (typical):	20V
Power dissipation:	130mW
Peak wavelength:	650nm
<b>Manufacturer's Code</b>	HLMP-8100

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

CZ37S	HP High Power LED	£0.740	£0.660	£0.440	£0.890	

## White LED

### 3mm

### 3mm White LED

A 3mm high quality, high brightness white LED with a spectral output from 450nm to 70nm approx. The cathode is denoted by the the shortest leg.

**Specification (I<sub>F</sub> = 20mA)**

Light output:	400mcd

## Multicolour LED's

### Bi-Colour LED

*Kingbright*

A two-lead 3mm or 5mm LED with a red and green die connected in inverse parallel. The LED fits the appropriate clip. Only one series resistor is required. The long lead denotes the red LED anode, so connect the positive to the short lead and the negative to the long lead for green and vice versa for red. Viewing angle 120°.

Specification:	Red	Green
Light output typical at $I_F = 20\text{mA}$	3mcd	4mcd
Forward voltage at $I_F = 20\text{mA}$	2V	2.2V
Forward current (max)	30mA	30mA
Reverse voltage (max)	5V	5V
Power dissipation (max)	105mW	105mW
Peak wavelength	665nm	565nm

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2118	Price each exc. VAT	inc. VAT each
		25+ 100+ 1000+ 1+	
UF96E	Mini Bi-Colour LED	£0.360	£0.260 £0.090 £0.850
QY83E	Bi-Colour LED	£0.270	£0.190 £0.130 £0.850

### Bi-Colour LED

*Hewlett-Packard*

A package that contains two LED chips, a high efficiency red and a high performance green, mounted on a central common cathode lead. Colours between red and green can be generated by independently pulse modulating the LED chips. The package has a diffused, wide visibility lens, and is available either as a 5mm round or 5 x 2mm rectangular package.

**Specification: Round Rectangular**

Typical light output  
 $I_F = 20\text{mA}$  (round),  $I_F = 10\text{mA}$  (rect)

red:	5.0mcd	3.5mcd
green:	8.0mcd	4.0mcd

Forward voltage at  $I_F = 10\text{mA}$

red:	2.5V maximum
green:	2.7V maximum

Forward current: 90mA peak  
 Average forward current (total): 25mA  
 DC forward current (total): 30mA  
 Reverse voltage (typical): 5V  
 Power dissipation (total): 135mW  
 Peak wavelength

red:	650nm
green:	565nm

Viewing angle: 65°

Manufacturer's Code	Type	MPS Code
HLMP-4000	5mm	CZ45Y
HLMP-0800	2 x 5mm	CZ46A

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

CZ45Y	HP Bi-Colour Round	£1.330	£1.210 £1.090 £1.620
CZ46A	HP Bi-Colour Rect	£1.070	£0.939 £0.626 £1.500

## Flashing LED's

### Flashing LEDs 3mm Types

*Kingbright*

A range of LEDs which flash approximately twice a second when a voltage between 3.5V and 13V is connected to them. Within the supply voltage range no series resistor is required. The cathode is denoted by the flat or chamfer on the body and the short lead.

Voltage range: 3.5V to 12V (13V max)  
 Reverse voltage (max): 0.5V  
 Flash frequency: 2Hz ( $\pm 1\text{Hz}$ ) at 9V

Dimensions in mm

**Specification:**

Red	Green	Yellow	Hibri red	Super red
Light output typical at $V_F = 9\text{V}$	2mcd	8mcd	8mcd	60mcd
Forward current average at 9V	8.5mA	9mA	9.5mA	16.5mA
Power dissipation (max)	200mW	200mW	200mW	240mW
Peak wavelength	660nm	565nm	595nm	625nm

All colours have a diffused package and 100° viewing angle. A panel-mounting clip is not available to suit this LED.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

### Tri-Colour LED

*Kingbright*

A single LED, encapsulated in a diffused white package with three leads, that can be made to emit light of any colour of the spectrum from green through to red. Six types are available, in 3mm, 5mm and 10mm diameter round packages, a 5 x 2mm rectangular package, a 3mm super bright type and a high brightness type in a 5mm round package. All types are common cathode which is the central, longest lead. The red anode is the medium length lead and the green anode is the shortest.

Normal and Super Bright Types	Red	Green
Forward voltage at $I_F = 20\text{mA}$ :	2V	2.2V
Forward current (max):	30mA	30mA
Reverse voltage:	5V	5V
Power dissipation (max):	105mW	105mW
Peak wavelength:	625nm	565nm

Case Size (dia)	3mm	5mm	Rect	10mm	3mm Sup. bright
Typical light output $I_F = 20\text{mA}$ :	20mcd	5mcd	4mcd	9mcd	90 to 300mcd
Viewing angle:	60°	120°	100°	140°	100°

High Brightness Type	Red	Green
Light output at $I_F = 20\text{mA}$ :	100 to 300mcd	40 to 80mcd
Wavelength:	660nm	565nm
Viewing angle:	60°	60°

Panel mounting clips are available for 5mm and 10mm types, see LED clips.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## LED Accessories

### LED Clips

Panel mounting clips to suit 3mm, 5mm, 8mm and 10mm round LEDs. The following types are available:

	Panel cut-out (diameter)	Bezel size (diameter)	Overall length
3mm Clip	4.4mm	6mm	5mm
5mm Clip	6.35mm	8mm	6.8mm
5mm Clip Convex	8mm	9.5mm	12.5mm
5mm Clip Concave	8mm	9.5mm	15mm
8mm Clip	12mm	14mm	16.5mm
10mm Clip	14mm	16mm	18mm

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2071	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
YY39N	LED Clip 3mm	£0.025	£0.020	£0.016	£0.090
YY40T	LED Clip 5mm	£0.056	£0.044	£0.037	£0.120
UK14Q	LED Clip Convex 5mm	£0.090	£0.070	£0.050	£0.190
UK15R	LED Clip Concave 5mm	£0.090	£0.078	£0.076	£0.190

UK17T	LED Clip 10mm	£0.130	£0.120	£0.110	£0.250

### LED Covers

Attractive coloured covers for LEDs which also serve to clip the LED on the front panel. Suitable for use with 3mm and 5mm dia. LEDs, the covers increase the viewing angle up to 180° and give a finished appearance. The cover has a flat top marked with Fresnel rings and striated lines for maximum light dispersion. The 5mm covers simply clip into a 6.35mm (1/4in.) panel cut-out while 3mm types need a 4.4mm (0.171in.) cut-out and the LED then clips in from the rear. Suits panels 1.6mm to 3.2mm thick for 5mm types and 0.8mm to 1.6mm for 3mm types. Overall diameter: 7mm for 5mm types, 5mm for 3mm types. Overall length: 11mm for 5mm types and 7.3mm for 3mm types. Available in three colours: Clear, Green, and Red. 5mm type also available in yellow.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2072	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+

## Panel Mount LED's

### LED Chrome Bezel

A smart, panel mounting chrome bezel for standard 5mm (0.2in.) size round LEDs. The bezel requires a single hole 7.5mm (5/16in.) diameter, and is secured by a nut and lock-washer. The bezel has a removable PVC grommet at the rear which has two holes to take the twin leads of the LED. The grommet is then pushed down onto the base of the LED before soldering, and the assembly pressed into the body of the bezel until the flange of the LED is hard against the internal step with the grommet flush. The bezel is 10mm diameter and 5mm deep. Total length 15.5mm.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2073	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
FM38R	Chrome LED Holder	£0.420	£0.280	£0.190	£0.650

### Panel Mounting LEDs

A very attractive panel-mounting LED available in a large or small chromed bezel or a black bezel. All three types are available with red or green LEDs. Forward voltage 2V at 20mA.

Dimensions	Small	Large	Black
	chrome	chrome	chrome
Panel fixing hole	5mm	8mm	8mm
Bezel dia. front	5mm	8.2mm	9mm
Bezel dia. rear	6mm	9.76mm	10mm
Bezel length	3mm	4mm	5mm
Overall length	18mm	24mm	25mm
Lead length	6mm	6mm	9mm
Cathode denoted by		Thicker wire	Short lead

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

QY49D	Black Bezel LED Grn	£1.200	£0.967	£0.806	£1.660

### Miniature Round Panel Mounting LED

A miniature red or green LED in a red or green polycarbonate package with a flat round display. The front is engraved with Fresnel rings to give maximum dispersion. Cathode is denoted by the thicker wire. Dimensions 21mm long. Front face 6mm diameter. Mounting hole required 5mm diameter. Forward voltage 2.2V at 20mA for red and 2V at 20mA for green.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2075	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
UF79L	Min Pan LED Red	£0.660	£0.610	£0.515	£0.950
UF90B	Min Pan LED Green	£0.760	£0.710	£0.595	£0.990

### Miniature High-Top Panel Mounting LED

A miniature red LED in a red polycarbonate package with a high-top round display. The front is engraved with Fresnel rings and the sides are striated to give maximum dispersion. Cathode is denoted by the thicker wire. Dimensions 22mm long. Front diameter 5mm at front, 5.5mm at rear. Mounting hole required 5mm diameter. Forward voltage 2.2V at 20mA.

Retail Unit Price each (inc. VAT).

Order Code	Type 3076	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
UF81C	Hi-Top Pan LED Red	£0.842	£0.760	£0.710	£0.990

### Panel Mounting 12V LED with Plastic Bezel

A red or green LED in a red or green polycarbonate package with a round slightly domed front face. The package has an internal resistor so that it may be connected directly to 12V. The anode is denoted by a white spot. Dimensions 30.5mm long. Front face 8.5mm diameter. Mounting hole required 7mm diameter. Forward current approx. 15mA at 12V.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 3077	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
UF83E	12V Pan Plas Red LED	£0.845	£0.676	£0.563	£1.180
UF84F	12V Pan Plas Gm LED	£0.920	£0.736	£0.614	£1.500

### Panel Mounting 12V LED with Chrome Bezel

This LED is identical to the one above, but has an attractive chrome bezel around the front face. Dimensions 31mm long. Front face 10mm diameter. Mounting hole required 7mm diameter.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 3078	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+

UF86T	12V Pan Chrm Gm LED	£1.120	£0.897	£0.748	£1.740

### LED Lightbars

#### Rectangular LEDs

##### Hewlett-Packard

Rectangular light bars that consist of an epoxy encapsulated LED lamp surrounded by a rectangular plastic case. The encapsulant is tinted to match the colour of the emitted light. The flat top surface is exceptionally uniform in light emission and the plastic case eliminates light leakage from the sides of the device. Viewing angle 100°. The cathode is denoted by the longest lead. Overall size: 6.22 x 3.68mm.

Specification:	Red	Green	Yellow
Light output typical at I <sub>F</sub> =20mA:	4.8mcd	6.0mcd	6.0mcd
Forward voltage at I <sub>F</sub> =20mA:	2.2V	2.3V	2.2V
Forward current (maximum):	90mA	90mA	60mA
Reverse voltage (maximum):	5V	5V	5V
Power dissipation (maximum):	135mW	135mW	85mW
Peak wavelength:	635nm	565nm	583nm
Manufacturer's Code		MPS Code	
HLMP-T200	Red	CZ42V	
HLMP-T300	Yellow	CZ43W

CZ44X	HP Rect LED Green	£0.655	£0.524	£0.437	£0.900

#### Rectangular Shaped LEDs

A rectangular shaped LED that gives a bright, evenly lit, solid bar of colour over the area 5.6 x 3.2mm. The lamps may be easily stacked to form bargraph meters. Overall dimensions: 6.4 x 3.8 x 6.7mm deep. Available in Red, Green and Yellow.

A panel mounting clip to suit these LEDs is available. Panel cut-out 8 x 6mm (5/16 x 7/32in.). Bezel: 9.4 x 6.9mm. The cathode is the left-hand lead when the package is placed with the indented circle in the package facing you. Forward voltage at I<sub>F</sub> = 20mA is 2V. Light output at I<sub>F</sub> = 20mA is 4mcd for all colours. Viewing angle is 120°.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

### Panel Indicator LEDs

##### Kingbright

A range of panel indicator LEDs with flat tops moulded in various shapes: rectangular, square, cylindrical, triangular and arrowhead. The LEDs are designed to press-fit into panels etc.

All shapes (typical ratings)	Light output at I <sub>F</sub> = 20mA	Forward voltage at I <sub>F</sub> = 20mA	Peak wave-length
Red	6mcd	2V	625nm
Green	4mcd	2.2V	565nm
Yellow	6mcd	2.1V	595nm

##### All colours:

Forward current (max):	30mA
Reverse voltage (max):	5V
Power dissipation (max):	105mW

The LEDs have a diffused top to the lens which gives a viewing angle of 70° for arrowhead and triangular, 100° for cylindrical, and 120° for square and rectangular.

Shapes available:	Code	Size of top
Rectangular	R1	5x2.5mm
Square	S3	5x5mm
Cylindrical	C2	3mm diameter
Triangular (equilateral)	T4	5.6mm per side
Arrowhead (isosceles)	A5	5.1mm long sides 2mm short side

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## Circuit Board Indicators

### PCB Mounting Twin Bi-Colour LEDs

Kingbright

Two 3mm bi-colour LEDs mounted vertically in a black plastic housing and designed for PCB mounting. The LEDs have a viewing angle of 60°, and are available with either two red/green LEDs (PD37S) or two green/yellow LEDs (PD38R) in the package.

Specification:	High Eff. Red	Green	Yellow
Max. light output:	30mcd	8mcd	8mcd
Peak wavelength:	625nm	565nm	590nm
Forward voltage:	2V	2.2V	2.1V
Capacitance:	12pF	45pF	10pF
Power dissipation:	105mW	105mW	105mW
DC forward current:	30mA	25mA	30mA
Reverse voltage:	5V	5V	5V
Reverse current:	10µA	10µA	10µA
Light output and wavelength quoted at IF=20mA.			

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 12011	Price each exc. VAT	inc. VAT each
PD37S	RA BiCol LED Red/Gm	£0.377	£0.302
PD38R	RA BiCol LED Gm/Yel	£0.377	£0.252

### 3mm LED Logic Status Indicators

Kingbright

A range of 3mm logic status LED indicators that are ideal for card edge mounting. They are housed in a black case to enhance contrast ratio and have pre-trimmed leads for PCB mounting. The range are all diffused with a viewing angle of 60°. Available with either one, two or three of the same colour in the package in high efficiency red, super bright red, green or yellow. PD18U is a 'traffic light' arrangement with one each of a high efficiency red (LED1), yellow (LED2) and green (LED3) in the package - ideal for model railways etc.

Specification:	High Red	Super Bright Red	Green	Yellow
Maximum light output	50mcd	300mcd	32mcd	32mcd
Peak wavelength (IF=20mA)	625nm	660nm	565nm	590nm
Forward voltage:	2.0V	1.85V	2.2V	2.1V
Capacitance:	12pF	95pF	45pF	10pF
Power dissipation:	105mW	100mW	105mW	105mW
DC forward current:	30mA	30mA	25mA	30mA
Reverse voltage:	5V	5V	5V	5V
Reverse current:	10µA	10µA	10µA	10µA
Maximum light output is quoted at IF=10mA except for super bright version when IF=20mA.

### PCB Mounting 5mm LEDs

Kingbright

PCB mounting LEDs with diffused coloured lenses giving a very wide viewing angle of 160°. The LEDs are mounted in a black plastic housing and viewed from the front the cathode is the right-hand lead.

	Red	Green	Orange	Yellow
Light output typical at IF = 20mA	20mcd	10mcd	20mcd	20mcd
Forward voltage at IF = 20mA	2V	2.2V	2V	2.1V
Forward current (max)	30mA	30mA	30mA	30mA
Reverse voltage (max)	5V	5V	5V	5V
Power dissipation (max)	105mW	105mW	105mW	105mW
Peak wavelength	625nm	565nm	625nm	595nm

Dimensions:  
Front face: 6 x 6mm. Housing depth: 9mm.  
The LED protrudes by 3.2mm. Lead spacing: 2.5mm.  
Lead length: 3.5mm.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2090	Price each exc. VAT	inc. VAT each
QY86T	PCB LED Red	£0.101	£0.080
QY87U	PCB LED Green	£0.105	£0.084
QY88V	PCB LED Yellow	£0.124	£0.099
QY89W	PCB LED Orange	£0.113	£0.090

### High Brightness PCB Mounting 5mm LEDs

Kingbright

A high brightness PCB mounting range of 5mm LEDs available singly, or in horizontal arrays of two or three LEDs in a choice of four colours. The LEDs are mounted in black plastic cases to enhance the contrast ratio and have pre-trimmed leads for PCB mounting. Viewing angle is 60°. The single LED version can be interlocked to make extra long arrays of single or multiple colours.

Specification:	High Eff. Red	Super Bright Red	Green	Yellow
Maximum light output:	32mcd	300mcd	20mcd	20mcd
Peak wavelength:	625nm	660nm	565nm	590nm
Forward voltage:	2.0V	1.85V	2.2V	2.1V
Capacitance:	12pF	95pF	45pF	10pF
DC forward current:	30mA	30mA	25mA	30mA
Reverse voltage:	5V	5V	5V	5V
Reverse current:	10µA	10µA	10µA	10µA

## PCB Mounting Bi-Colour 5mm LED

Kingbright

A single PCB mounting 5mm LED with three leads offering a choice of either red and green or green and yellow light emission. The LED is housed in a black plastic case to enhance the contrast ratio and has a viewing angle of 60°.

Order Code	Colours	High Eff. Red	Green	Yellow
CP52G	Red/Green	90mcd	70mcd	60mcd
PD20W	Green/Yellow	625nm	565nm	590nm
<b>Specification:</b>	<b>High Eff. Red</b>	2V	2.2V	2.1V
Maximum light output:	12pF	45pF	45pF	10pF
Peak wavelength:	105mW	105mW	105mW	105mW
Forward voltage:	30mA	25mA	30mA	30mA
Capacitance:	5V	5V	5V	5V
Power dissipation:	10µA	10µA	10µA	10µA
DC forward current:	Light output and peak wavelength measured at IF=20mA.			
Reverse voltage:				
Reverse Current:				

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 12026	Price each exc. VAT	inc. VAT each

PD20W	PCB Bi LED Grn/Yel	£0.264	£0.211

## 5mm Right Angled Lamp

Hewlett-Packard

A red LED with a tinted diffused lens that is housed in a right-angled black plastic package. The cathode is the right-hand pin, when viewed from the front, with the pins pointing downwards.

Specification	Value
Luminous intensity @ IF=20mA:	4.0mcd
Maximum current IF:	50mA
Peak wavelength:	655nm
Maximum reverse voltage:	5V
Viewing angle:	90°

Dimensions: 13.3 x 6.22 x 6.22mm overall  
Lead pitch: 2.54mm  
Lead length: 3.7mm  
Manufacturer's Code: HLMP5000

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2096	Price each exc. VAT	inc. VAT each
CZ40T	Right Angle Lamp	£0.470	£0.376

## 5mm LED Housing

Hewlett-Packard

A right-angled housing for standard 5mm LEDs in black plastic.  
Size: 9 x 6.22 x 6.22mm.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2098	Price each exc. VAT	inc. VAT each
CZ41U	RA 5mm LED Housing	£0.310	£0.280

## Dual 5mm LED Logic Status Indicators

Kingbright

A range of dual 5mm logic status LED indicators that are ideal for card edge mounting. They are housed in a black case to enhance contrast ratio and have pre-trimmed leads for PCB mounting. The LEDs are all diffused with a viewing angle of 60°. Available in high efficiency red, super bright red, green or yellow.

Specification:	High Eff. Red	SuperBright Red	Green	Yellow
Maximum light output:	32mcd	300mcd	20mcd	20mcd
Peak wavelength:	625nm	660nm	565nm	590nm
Forward voltage:	2V	1.85V	2.2V	2.1V
Capacitance:	12pF	95pF	45pF	10pF
Power dissipation:	105mW	100mW	105mW	105mW
DC forward current:	30mA	30mA	25mA	30mA
Reverse voltage:	5V	5V	5V	5V
Reverse current:	10µA	10µA	10µA	10µA

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 12004	Price each exc. VAT	inc. VAT each
PD21X	RAV 5mm LED Red x2	£0.237	£0.189
PD22Y	RAV 5mm LED SRd x2	£0.340	£0.272
PD23A	RAV 5mm LED Grn x2	£0.237	£0.189
PD24B	RAV 5mm LED Yel x2	£0.237	£0.189

## 5mm Fixed Height LED Circuit Board Indicators

Kingbright

This range of diffused LEDs have a built-in spacer so that the overall height of the LED is 12.7mm from the circuit board. The LED is firmly held by the spacer and so requires no additional form of support or glue. The range includes super bright red, high efficiency red, green, super bright green and yellow and all types are suitable for back panel illumination. The cathode is clearly marked on the package and all have a viewing angle of 60°.

Specification:	High Eff. Red	Super Bright Red	Green	Super Bright Green	Yellow
Max. light output:	80mcd	300mcd	32mcd	60mcd	32mcd
Peak wavelength (IF=20mA):	625nm	660nm	565nm	565nm	590nm
Forward voltage:	2V	1.85V	2.2V	2.2V	2.1V
Capacitance:	12pF	95pF	45pF	45pF	10pF
Power dissipation:	105mW	100mW	105mW	105mW	105mW
DC forward current:	30mA	30mA	25mA	25mA	30mA
Reverse voltage:	5V	5V	5V	5V	5V
Reverse current:	10µA	10µA	10µA	10µA	10µA
Light output is quoted at IF=20mA, except super bright versions when IF=10mA.					

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 11998	Price each exc. VAT	inc. VAT each
PD02C	5mm LED Red 12.7 Spc	£0.140	£0.112

## Giant Red LED

**Kingbright**

A giant round red LED made up from a group of six LEDs in a matrix with separate anodes and cathodes brought out to 12 PCB pins on a DIL matrix. Pins are placed at 2.54mm (0.1in.) intervals in two rows of 6 pins each, spaced 15.24mm (0.6in.) apart. LED body is 23mm in diameter with a dome 10mm high. Material is diffused red. Luminous intensity is 10 to 21.8mcd @ 10mA for each diode.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
GW65V	Giant Red LED	£0.951	£1.950

## 26mm LED Cluster

**Kingbright**

A 26mm highly visible LED cluster that is housed in a waterproof package with hood, and is suitable for in and outdoor information boards. The cluster has 14 x 5mm LEDs, made up from six superbright red and eight superbright green LEDs. This will also

allow a 'mixed' orange colour to be generated. Red and green cathodes are denoted by matching coloured wires.

**Specification: (red IF=20mA, green IF=40mA)**

Typical luminous intensity  
 red: 2400mcd  
 green: 2800mcd  
 Viewing angle: 40°  
 Typical forward voltage  
 red: 10.5V (12V max.)  
 green: 8.4V (9.4V max.)  
 Peak wavelength  
 red: 660nm  
 green: 570nm  
 Reverse current VR=18V  
 red: 100µA  
 green: 100µA  
 Maximum DC forward current  
 red: 30mA  
 green: 60mA  
 Maximum power dissipation  
 red: 0.4W  
 green: 0.6W  
 Operating temperature range: -25°C to +60°C

Price each is shown. Order quantities less than 5 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
PD00A	Big LED 26mm	£4.410	£8.780

## 52mm Red LED Cluster

**Kingbright**

A high intensity 52mm red LED cluster housed in a waterproof plastic housing that is suitable for large in or outdoor display applications such as sign or message boards. The cluster comprises of an array of superbright GaAlAs LEDs and has a maximum luminous intensity of 23000mcd.

**Specification (IF=200mA)**  
 Maximum luminous intensity: 23000mcd  
 Viewing angle: 40°  
 Typical forward voltage: 9.6V (11.2V)  
 Peak wavelength: 660nm

Maximum reverse current: 100µA @ VR=18V  
 Power dissipation: 2.5W max.  
 DC forward current: 250mA max.  
 Reverse voltage: 5V max.  
 Operating temperature range: -5°C to +65°C

Price each is shown. Order quantities less than 5 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
PD01B	BL0307-50-44	£12.900	£17.610

## Bar Graph Displays

### 10 Segment Display

**Kingbright**

A 10-segment LED ladder encapsulated in a 20-pin DIL package. Designed for use as solid state level indicators, each LED is completely separate from the others in the package. The LEDs may be driven from the LM3914, LM3915 or LM3916 bargraph driver ICs.

The displays are available in red or green and may be stacked end to end.

**Specification:**  
 Max forward current per segment: 30mA  
 per package: 200mA  
 Light output at IF = 20mA: 4.0mcd  
 Forward voltage at IF = 20mA: 2.0V  
 Peak inverse voltage: 5V

Package size: 25 x 10 x 8mm high excluding pins.  
 Pin length: 6mm  
 Pin spacing: 7.26 x 2.54mm (0.3 x 0.1in.) (standard 20-pin DIL IC spacing).

The anodes are denoted by product code marks printed on that side of the package.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
BY65V	Red Bargraph Dsply	£1.260	£2.980
YG33L	Green Bargraph Dsply	£1.090	£2.980

### 10-Segment LED Bar Array

**Kingbright**

An attractively finished 10-segment bar red display which is suitable for either front or rear panel mounting. The LEDs are bright and evenly illuminated. The display is common anode connected to pins 1 and 12 and the board has a gold plated edge connector with 2.54mm (0.1in.).

**Specifications**  
 Light output typical at IF = 10mA: 2mcd  
 Forward voltage at IF = 10mA: 2V  
 Forward current (max): 30mA  
 Reverse voltage (max): 5V  
 Power dissipation (max): 120mW  
 Peak wavelength: 665nm

**Dimensions**  
 Overall size: 68 x 14 x 6.65mm deep  
 Bezel size: 66 x 6 x 2mm deep  
 Fixing holes in PCB: 60mm centres x 2.4mm dia.  
 Fixing holes in bezel: 62.4mm centres x 1.6mm dia.  
 LED size: 5.1 x 1.6mm

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
YH76H	Red 10-Seg Bargraph	£0.810	£2.480

**Multicolour Array**  
Kingbright

An attractively finished 12-segment bargraph array with bright evenly illuminated LEDs in three groups of four LEDs green, yellow and red. Ideal for solid-state VU meters etc. Pins are on 2.54mm (0.1in.) centres. Front is slightly raised and finished in matt black.

Specification:	Green	Yellow	Red
Light output typical at $I_F = 20\text{mA}$	2mcd	4mcd	4mcd
Forward voltage at $I_F = 20\text{mA}$	2.2V	2.1V	2V
Forward current (max)	30mA	30mA	30mA
Reverse voltage (max)	5V	5V	5V
Power dissipation (max)	105mW	105mW	120mW
Peak wavelength	565nm	635nm	665nm

**Dimensions:**  
Overall size: 57.5 x 7 x 8mm.  
Front face protrudes by 0.5mm and is 55.5 x 5mm across.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2130	Price each exc. VAT	inc. VAT each
FE26D	Multicolour Bargraph	£1.510 100+ £1.210 250+ £1.010	1+ £2.980

**Multi-LED Arrays**  
Kingbright

A unique range of 2-way and 3-way end-stackable LED arrays available in red, green and yellow, enabling multiple arrays of any number of segments with the same or various colours to be assembled. The housings are black and designed to push fit into a panel cut-out 4.76mm (3/16in.) high and 7mm per LED long. The LED windows are diffused to give a wide viewing angle. Cathode denoted by short lead.

Specification:	Red	Green	Yellow
Light output typical at $I_F = 20\text{mA}$	1.2mcd	1.1mcd	1.5mcd
Forward voltage at $I_F = 20\text{mA}$	2V	2.2V	2.1V
Forward current (max)	30mA	30mA	30mA
Reverse voltage (max)	5V	5V	5V
Power dissipation (max)	120mW	105mW	105mW
Peak wavelength	665nm	565nm	585nm

Dimensions (mm):	2 segment	3 segment
Type	2 segment	3 segment
Overall size (excl. leads)	14 x 6.13 x 8.6	21 x 6.13 x 8.6
Panel cut-out	14 x 4.76	21 x 4.76
LED window size	5.4 x 1.95	5.4 x 1.95

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

**Alpha-Numeric Displays**

**Dot Matrix**

**Bi-Colour Dot Matrix Display**

Kingbright

A large 8 x 8 LED dot matrix display with an effective illuminated area of 58mm high x 53mm wide. The complete ASCII character set can be shown on it, and the package has slots and tongues in the sides so that rows of displays for moving messages, etc., can be precisely aligned. The display has 64 diffused, circular 5mm windows for the LEDs set into a neutral grey background. Each location actually contains a bi-colour LED and can show red or green or a combination of the two colours. The LEDs are high brightness types, and while the row connections are common to each colour, the column connections are duplicated so that each colour is individually accessible; any single location can be a specific colour. To achieve this the package has 24 PCB pins organised into two rows on a 2.54mm (0.1in.) matrix; each row of 12 is spaced 45.72mm (1.8in.) apart.

It will be seen from the connection diagram that the column pins are arranged in adjacent pairs, where each pin in the pair provides for red and green respectively. All cathodes are connected to the row pins. The display has a wide viewing angle and high, even brightness. The display is the right way up if pin 1 is at bottom left when viewed from the front.

Specification	Red	Green
Luminous intensity:	3600 $\mu\text{cd}$	1800 $\mu\text{cd}$ @ $I_F = 10\text{mA}$

Viewing angle 150° 150°  
Dimensions 60.3 x 50.3 x 9.2mm  
deep not including pins  
Manufacturer's Code TBA23-12E GWA

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

## Large Dot Matrix Display

Kingbright

A 5 x 3 x 7 red dot matrix array on which the complete ASCII character set could be displayed. The package has slots and tongues in the sides so that rows of displays for moving messages etc., may be precisely aligned. The display has 35 diffused round 5mm circles flat with a grey plastic surround. The matrix is shown in the drawing; the cathodes are connected to the column pins. Pins 4/11 and 5/12 are commoned. For example, to light the centre LED connect pin 5 or 12 through a series resistor to +V and pin 4 or 11 to negative. The display has a wide viewing angle and high, even brightness. With the display vertical, pin 1 is at the lower left looking from the front. This is still true even if display is rotated through 180° top to bottom.

### Specification:

Light output typical at  $I_F = 20\text{mA}$ : 1.5mcd  
 Forward voltage at  $I_F = 20\text{mA}$ : 2V  
 Forward current (max): 30mA  
 Forward current peak: 150mA at 10% duty cycle (100Hz to 1kHz)  
 Reverse voltage (max): 5V  
 Power dissipation (max): 100mW  
 Peak wavelength: 635nm  
 Dimensions: 53 x 38 x 8.5mm deep excluding pins.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
FT61R	5 x 7 LED Array	£2.990 25+ £2.390 100+ £1.990 1+	£5.360

## Small Dot Matrix Display

Kingbright

Similar to Large Display, but pins are not symmetrical. LEDs are 2mm diameter and the anodes are connected to the column pins. Overall size: 17.8 x 12.7 x 6.3mm deep. All other specifications as FT61R.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
FE25C	Small 5 x 7 LED Array	£2.160 10+ £1.730 25+ £1.440 100+ £1.140 1+	£4.610

## Large 5 x 7 Dot Matrix Alphanumeric Display

Hewlett Packard

A large 5 x 7 dot matrix alphanumeric display that is available in either 26.5mm (1.04in.) or 17.3mm (0.68in.) character height packages. The devices are bright and very clear; the 26.5mm character can be read up to a distance of 18m (12m for 17.3mm package). The devices are X/Y stackable and have a common bussed anode. Typical applications include electronic instrumentation, computer peripherals, point-of-sale terminals, weighing scales, and industrial electronics. High-efficiency red light output.

**Specification:**

	17.3mm	26.5mm
Luminous intensity per dot (typical):	2800µcd	3500µcd
Peak wavelength:	635nm	635nm
Forward voltage $I_F=50\text{mA}$ :	3.5V typical	3.5V typical
Reverse voltage:	25.0V typical	25.0V typical
Average power per dot:	75mW	75mW
Peak forward current per dot:	90mA	90mA
Average forward current per dot:	15mA	15mA

The 26.5mm font has a 10.2mm (0.4in.) dual-in-line (DIP) configuration, and the 17.3mm font has an industry standard 7.6mm (0.3in.) DIP configuration.

**N.B. Device requires a suitable driver IC to display alphanumeric.**

**Manufacturer's Code** MPS Code

## 4-Character 5.0mm Smart 5 x 7 Alphanumeric Display

Hewlett-Packard

This 5.0mm 4-character, high efficiency red, 5 x 7 dot matrix display is driven by an on-board CMOS IC. The IC stores and decodes 7-bit ASCII data and displays it using a 5 x 7 font. Multiplexing circuitry and drivers are also incorporated in the IC which has fast set-up and hold times which make it easy to interface with a microprocessor.

Dimensions in mm

## Seven Segment Displays

### 7.6mm (0.3in.) Micro Bright 7-Segment Display

Hewlett-Packard

An LED 7-segment display that is designed for viewing distances up to 3m. The device is housed in a standard industry size package and pin-out (2.54mm lead centres). The device features a common anode, a right-hand decimal point, and is available in either high-efficiency red or green. This low current display is ideal for portable applications.

**Specification**

Luminous intensity per segment at  $I_F=20mA$ :  
Peak wavelength:  
Average power per segment:  
Peak forward current per segment:  
DC forward current per segment:  
Reverse voltage per segment maximum:  
3-0V

	Red	Green
Luminous intensity per segment at $I_F=20mA$ :	5390 $\mu$ cd	3400 $\mu$ cd
Peak wavelength:	635nm	566nm
Average power per segment:	105mW	105mW
Peak forward current per segment:	90mA	90mA
DC forward current per segment:	30mA	30mA
Reverse voltage per segment maximum:	3-0V	

## 14.2mm 7-Segment Displays

**Hewlett-Packard**

A range of 14.2mm. (0.56in.) LED 7-segment displays that are designed for viewing distances up to 7m (23ft.). The devices are housed in an industry standard size package and pin-out. The devices are available in high-efficiency red or green and have low current requirements, making them ideal for portable applications.

## 12.7mm Display

**Kingbright**

High brightness 12.7mm (0.5in.) display featuring highly legible, bold, solid segments, fast switching, low power consumption, and compatibility with integrated circuits.

Available in two types in Red only.

Type 1: Common anode: Right-hand decimal point.  
Type 4: Common cathode: Right-hand decimal point.

**Characteristics:**

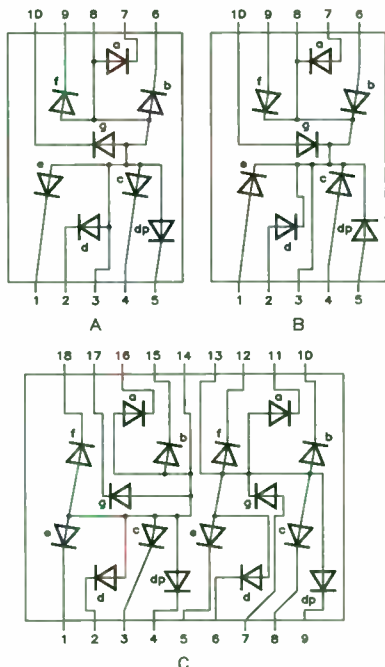

Luminous intensity: 1.3mcd at  $I_F = 20mA$  (per segment).  
Forward voltage: 2V at  $I_F = 20mA$  (per segment)

**Electrical Connections**

## Double Digit Display

**Kingbright**

A 2-digit display available in red or green. Digits are 14.22mm (0.56in.) high with high contrast and wide viewing angles. All types have a right-hand decimal point.

**Ratings per segment:**

Luminous intensity: 1.3mcd at  $I_F = 20mA$   
Forward voltage: 2V at  $I_F = 20mA$   
Max forward current: 30mA

Type 'A': 2-digit (8.8.) Common anode. Type 'AF': 1 1/2-digit ( $\pm 1.8.$ ) Common anode. Type 'C': 2-digit (8.8.) Common cathode. Overall dimensions: 25 x 19 x 8mm. Pin spacing: 15.24 x 2.54mm (0.6 x 0.1in.) (18-pin). These displays may be used with direct drive or multiplexing type drivers.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## 20mm 7-Segment Display

Hewlett-Packard

A 20mm (0.8in.) LED 7-segment display that is designed for viewing distances up to 10m (33ft.). The devices are housed in an industry standard package and pin-out. The device is available in high-efficiency red or green and has low current requirements, making it ideal for portable applications. Configured has common anode with right-hand decimal point.

Specification	Red	Green
Luminous intensity per segment:	4800µcd ( $I_F=20\text{mA}$ )	1500µcd ( $I_F=10\text{mA}$ )

## 26mm (1in.) Display

Kingbright

A very large display with an overall character height of 26mm (1in.). Available with common anode or common cathode in red.

### Specification

Light output typical at  $I_F = 20\text{mA}$ : 2.4mcd  
 Forward voltage: 2.2V per diode (i.e. 4.4V for all segments except DP)  
 Max forward current: 30mA  
 Overall dimensions: 32.9 x 22.4 x 8.5mm  
 Pin length: 6mm  
 Pin spacing: 15.24 x 2.54mm (0.6 x 0.1in.) (14-pin)

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each

FA04E	1in Disply Com Cathd	£1.030	£3.060

## 44.5mm(1.8in.) Bi-Colour Display

Kingbright

A high brightness, 44.5mm high 7-segment display with bold, legible and solid segments which can be lit in either red or green, or a combination of the two.

This is achieved through the use of two common anodes, one for red and the other for green.

The individual segments can be activated by an open collector 7-segment driver in the normal way, and multiplexed displays are also possible, switching the relevant colour's anode pin. The package has 10 PCB pins, two of which are the anodes, and the remainder the segment and decimal point connections, organised into two rows of 5 pins on a 2.54mm matrix, with the rows spaced 48-26mm apart.

Specification: Red Luminous intensity: 30000 µcd @  $I_F 10\text{mA}$   
 Green Luminous intensity: 30000 µcd @  $I_F 10\text{mA}$   
 Dimensions: 56 x 38 x 11mm deep not including pins

Manufacturer's Code

SBA18-11 EGWA

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
GW64U	1.8in. Bi-Colour	£3.190	£6.710

## 100mm (4in.) Display

Kingbright

An extremely large with a display overall character height of 100mm (4in.) Display colour is red. Available with common anode.

### Specification (at $I_F = 20\text{mA}$ )

Typical light output  $V_F$ : 21mcd  
 7.4V segment  
 3.7V decimal point  
 $I_F$  (max.): 60mA segment  
 30mA decimal point  
 Overall dimensions: 122mm x 90mm x 15mm  
 Pin length: approx 9mm  
 Pin Spacing: 5.08mm (0.2in.)

## LCD Character Display Modules

Hitachi

A range of dot matrix LCD modules that contain a HD44780 LSI controller for character display. The modules can be interfaced to 4-bit or 8-bit MPU directly, and can display 192 standard characters plus 8 user programmable symbols. Character generator RAM is also built-in (80 x 8 bits, 80 characters maximum), which can be read from the MPU. The modules feature low power consumption, and are powered from a single +5V supply. Their light weight and compactness make them ideal for a wide range of applications including telephone, typewriters, portable computers, industrial equipment etc. The displays are either of the 'twisted nematic' or 'supertwist' type. Type LM09XMLN features LED backlighting which is also 5V powered.

Optical Specification	'Twisted Nematic'	'Supertwist'
Viewing angle:	20°	40°
Contrast ratio:	2	3
Typical response time (rise):	250ms	400ms
Typical response time (fall):	250ms	450ms

## LM020L 16 Character x 1 Line

## Electroluminescent Panels

### Electroluminescent Panels and Power Supply

Electroluminescent panels available in either rectangle or round format with a distinctive green light output. The panels are lightweight, pliable, and are suitable for a wide range of applications such as warning indicators, safety harnesses etc.

The separate power supply measures only 79 x 36 x 20mm and using two 'AA' batteries (not included, order code JY48C), will power a panel for up to 100 hours. A three position slide switch selects either OFF; ON (constant) or ON (flashing). The 110V AC 700Hz output is supplied via two leads that are soldered directly to the panel. Although the output is high impedance, care must be taken to ensure there is no risk of shock or short circuits. Note the panels are not supplied with a power supply.

Price each is shown. Order quantities less than 5 will be sold at the one off inc. VAT price.

Order Code	Type 1221	Price each exc. VAT			inc. VAT each
		5+	10+	25+	1+

## Optocouplers

### Opto Transistor Isolator

Siemens

Optically coupled infra-red emitting diodes and phototransistors in dual in-line packages. Single type is in a 6-pin DIL package, dual type is in an 8-pin DIL package and quad type is in a 16-pin DIL package.

On the single type, a base lead is provided so that the device may be biased in the conventional manner.

### Absolute maximum ratings

Input to output voltage:	1500V
Collector-base voltage (V <sub>CBO</sub> ):	70V
Collector-emitter voltage (V <sub>CEO</sub> ):	30V (dual and quad 20V)
Emitter-base voltage (V <sub>EB0</sub> ):	7V
Input diode reverse voltage:	3V
Input diode continuous forward current:	100mA
Continuous power dissipation:	
LED:	150mW
Phototransistor:	150mW
Total:	250mW (quad 450mW)

### Electrical characteristics (typical):

Input diode static reverse current (at V <sub>R</sub> = 3V):	<10µA
On state collector current (V <sub>CE</sub> = 0.4V, I <sub>F</sub> = 16mA)	
Phototransistor operation (I <sub>B</sub> = 0):	7mA
Photodiode operation (I <sub>E</sub> = 0):	20µA
Off-state collector current (V <sub>CE</sub> = 10V, I <sub>F</sub> = 0)	
Phototransistor operation (I <sub>B</sub> = 0):	1nA
Photodiode operation (I <sub>E</sub> = 0):	0.1nA
h <sub>FE</sub> (V <sub>CE</sub> = 5V, I <sub>C</sub> = 10mA, I <sub>F</sub> = 0):	300
Input diode V <sub>F</sub> at I <sub>F</sub> = 16mA:	1.2V
Collector-emitter saturation voltage (I <sub>C</sub> = 2mA, I <sub>F</sub> = 16mA, I <sub>B</sub> = 0):	0.25V
Input to output resistance (diode leads shorted to transistor leads shorted at V <sub>in</sub> to V <sub>out</sub> = 1.5kV):	10 <sup>11</sup> Ω
Input to output capacitance:	1pF
Max operating frequency phototransistor operation:	>125kHz
photodiode operation:	>250kHz
Min transfer ratio:	13%

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## Opto Darlington Isolator

An optically coupled gallium arsenide infra-red emitting LED and NPN silicon photo-Darlington transistor in a 6-pin DIL package. A base lead is provided so that the device may be biased in the conventional manner if desired. Pin-out is the same as WL35Q.

### Absolute maximum ratings:

Input to output voltage:	1500V
Collector-base voltage ( $V_{CBO}$ ):	30V
Collector-emitter voltage ( $V_{CEO}$ ):	30V
Emitter-base voltage ( $V_{EBO}$ ):	7V
Input diode reverse voltage:	3V
Input diode continuous forward current:	100mA
Continuous power dissipation	
LED:	150mW
Photo-Darlington:	150mW
Total:	250mW

### Electrical characteristics (typical):

On-state collector current ( $V_{CE} = 1V, I_F = 10mA$ ):	100mA
Off-state collector current ( $V_{CE} = 10V, I_F = 0$ ):	100nA
$h_{FE}$ ( $V_{CE} = 5V, I_C = 10mA, I_F = 0$ ):	15,000
Input diode forward voltage (VF):	1.5V
Collector-emitter saturation voltage ( $I_C = 125mA, I_F = 50mA, I_B = 0$ ):	1V
Input to output resistance (diode leads shorted to transistor leads shorted at $V_{in}$ to $V_{out} = 1.5kV$ ):	$10^{11}\Omega$
Input to output capacitance:	1pF
Max operating frequency:	>10kHz
Min transfer ratio:	300%

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
WQ70M	Darlington Isolator	£0.680	£0.570	£0.530	£1.070

## High Gain Opto Isolator 6N139

Siemens

A high sensitivity, high speed split-Darlington opto isolator. Speeds up to 300kbit/s are possible.

### Specification

Supply voltage ( $V_{CC}$ ):	5V (18V max)
LED input current:	0.5mA (20mA max)
Output current:	60mA max
LED $V_F$ at $I_F = 0.5mA$ :	1.37V
LED reverse voltage:	5V max
Isolation voltage:	3000V DC
Current transfer ratio:	800% at $I_F = 0.5mA$ 900% at $I_F = 1.6mA$ ( $V_F = 1.42V$ )

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each

## High Sensitivity, High Voltage Opto Transistor Isolator Q.T.C.

Q.T.C.

This opto-isolator is similar to WL35Q, except that it has a min transfer ratio of 100% and a 7500V peak isolation voltage (5300V RMS). Pin-out is the same as WL35Q.

### Absolute maximum ratings:

Input to output voltage:	7500V peak, 5300V RMS
Collector-base voltage ( $V_{CBO}$ ):	70V
Collector-emitter voltage ( $V_{CEO}$ ):	70V

Emitter-base voltage ( $V_{EBO}$ ):	7V
Input diode reverse voltage:	3V
Input diode continuous forward current:	90mA
Continuous power dissipation:	
LED:	135mW
Phototransistor:	200mW
Total:	260mW

### Electrical characteristics (typical):

$h_{FE}$ ( $V_{CE} = 5V, I_C = 100\mu A$ ):	500
Input diode $V_F$ at $I_F = 10mA$ :	1.2V
Input to output capacitance:	0.5pF
Max operating frequency:	>100kHz
Min transfer ratio:	100% at $I_F = 10mA$

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
RA57M	Hi-Sensitivity Opto	£0.400	£0.330	£0.310	£0.720

## HCPL-2731 Dual Input, High Gain Optocoupler

Hewlett-Packard

A dual low input current, high gain, optocoupler that provides an extremely high current transfer ratio (CTR) and excellent input-output common mode transient immunity. The device contains a separated pair of GaAsP LEDs optically coupled to a pair of integrated high gain photo detectors. Additional features include: a low input current requirement (0.5mA), low output saturation voltage (0.1V typical) and a minimum CTR of 400% with an input current of 0.5mA. This makes the device ideal for use in low input current applications such as MOS, CMOS and low power logic interfacing or RS232C data transmission systems.

### Specification:

Current transfer ratio	
$I_F = 0.5mA, V_O = 0.4V,$	1800 typical
$V_{CC} = 4.5V:$	Supply and output voltage: 7V maximum
Average input current:	20mA each channel
Reverse input voltage:	5V maximum
Input power dissipation:	35mW max. per channel
Output current:	60mA max. per channel
Output power dissipation:	100mW per channel

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
C264U	HCPL-2731	£2.990	£2.880	£2.210	£3.900

## High Voltage Opto-isolators

General Instruments

Two opto-isolator devices in a 6-pin DIL package comprising a gallium arsenide infra-red emitting diode optically coupled to a monolithic silicon phototransistor. The input to output isolation can be up to 7,500V peak guaranteed, and the device meets or exceeds all JEDEC registered specifications. Of the two versions available, the 4N25 has a faster switching time of 2.8µs and a higher current gain, whereas the 4N36 is 7.5µs.

LED forward voltage:	4N25 1.15V	4N36 1.15V	@ $I_F = 10mA$
Capacitance:	18pF	18pF	
Collector/emitter dark current:	50nA	50nA	@ $V_{CE} = 10V$
$V_{CE}$ maximum:	30V	30V	
$V_{CB}$ maximum:	70V	70V	
$h_{FE}$ :	500	400	

Collector/base capacitance:	19pF	19pF	@ 1MHz
Collector/emitter saturation voltage:	0.15V	0.14V	
Turn-on time:	2.8µs	7.5µs	(LED $I_F = 10mA$ )
Turn-off time:	4.5µs	5.7µs	
Isolation voltage:	7,500	7,500	VAC @ 60Hz
Isolation resistance:	$10^{11}\Omega$	$10^{11}\Omega$	@ 500V
Isolation capacitance:	0.2pF	0.2pF	

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

AY45Y	4N36	£0.336	£0.305	£0.240	£0.460

## Low-Current Optocoupler SFH618-2

Siemens

A transistor optocoupler in a DIP-4 package with a low current input and a very high coupling transfer ratio (CTR), typically 120%. The device has good CTR linearity relative to forward current and a high  $V_{CEO}$  of 55V DC. The device can be 'end stacked' if necessary (2.54mm spacing).

### Specification

Emitter - maximum ratings	
Reverse voltage:	6V
DC forward current:	50mA
Surge forward current ( $\leq 10\mu S$ ):	2.5A
Total power dissipation:	70mW
Detector - maximum ratings	
Voltage	
$V_{CEO}$ :	55V
$V_{ECO}$ :	7V
Collector current:	50mA
Surge collector current ( $\leq 1ms$ ):	100mA
Total power dissipation:	150mW
Coupling capacitance:	0.25pF
Coupling transfer ratio	
$I_F = 1mA, V_{CE} = 0.5V:$	63% to 125%
$I_F = 0.5mA, V_{CE} = 1.5V:$	75% ( $\geq 32\%$ )

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## Low-Current Optocoupler SFH628-2

Siemens

A transistor optocoupler housed in a DIP-4 package with a low current input, and a very high coupling transfer ratio (CTR), typically 160%. Two infra-red GaAs emitters are wired in parallel, but opposite polarity, to allow the device to operate with an AC input. The optocoupler has good CTR linearity relative to forward current and a high  $V_{CEO}$  of 55V DC. The device can be 'end stacked' if necessary (2.54mm spacing).

### Specification

**Emitter** – maximum ratings  
 Forward voltage  $I_F = \pm 5\text{mA}$ :  $\pm 1.1\text{V}$  ( $\leq 1.5\text{V}$ )  
 DC forward current:  $\pm 50\text{mA}$   
 Surge forward current ( $\leq 10\mu\text{s}$ ):  $\pm 2.5\text{A}$   
 Total power dissipation:  $70\text{mW}$

**Detector** – maximum ratings  
 Voltage  $V_{CEO}$ :  $55\text{V}$   
 Voltage  $V_{ECO}$ :  $7\text{V}$   
 Collector current:  $50\text{mA}$   
 Surge collector current ( $\leq 1\text{ms}$ ):  $100\text{mA}$   
 Total power dissipation:  $150\text{mW}$   
 Coupling capacitance:  $0.25\text{pF}$   
 Coupling transfer ratio  
 $I_F = 1\text{mA}, V_{CE} = 0.5\text{V}$ :  $63\%$  to  $200\%$   
 $I_F = 0.5\text{mA}, V_{CE} = 1.5\text{V}$ :  $100\%$  ( $\geq 32\%$ )

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

CY938 S	SFH628-2	£0.740	£0.673	£0.529	£1.100

## HCPL-2631 Dual Channel TTL Compatible Optocoupler

Hewlett-Packard

Dual channel optically coupled logic gates that are housed in a 8-pin DIL package. Each channel combines a GaAsP LED and an integrated high gain photodetector. The photons are collected in the detector by a photodiode and the current is amplified by a high gain linear amplifier that drives a Schottky clamped open collector output transistor. The internal shield guarantees a common mode transient immunity of  $1000\text{V}/\mu\text{s}$ . The design provides maximum AC and DC circuit isolation while achieving LSTTL and TTL compatibility.

### Specification (maximum ratings each channel)

Supply voltage:  $5.5\text{V}$   
 Input current low level:  $250\mu\text{A}$   
 Input current high level:  $15\text{mA}$   
 Fan out TTL load:  $8$   
 Average forward input current:  $15\text{mA}$   
 Reverse input voltage:  $5\text{V}$   
 Output collector current:  $16\text{mA}$   
 Output collector voltage:  $7\text{V}$   
 Output collector power dissipation:  $60\text{mW}$

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

		25+	100+	500+	1+
CZ65V	HCPL-2631	£4.180	£3.760	£3.290	£4.990

## HCPL-7100 High-Speed CMOS Optocoupler

Hewlett-Packard

An optocoupler that combines CMOS IC technology, a high-speed high-efficiency AlGaAs LED and an optimised light coupling system to achieve low power requirements – just  $10\text{mA}$  including the LED. The device requires just two bypass capacitors for complete CMOS/TTL compatibility. A CMOS or TTL logic signal controls the LED driver IC. The detector IC incorporates an integrated photodiode, a high-speed transimpedance amplifier and a voltage comparator with hysteresis. The 3-state output is controlled by the output enable pin  $V_{OE}$ .

TRUTH TABLE (POSITIVE LOGIC)

## 6N137 TLL Compatible Optocoupler

Hewlett-Packard

TRUTH TABLE (POSITIVE LOGIC)

LED	ENABLE	OUTPUT
ON	H	L
OFF	H	H
ON	L	H
OFF	L	H

The 6N137 combines a GaAsP light emitting diode and an integrated high gain photo detector. An enable input is provided that allows the detector to be strobed, and the detector IC output is an open collector Schottky clamped transistor. An internal shield provides a guaranteed common mode transient immunity of  $1000\text{V}/\mu\text{s}$ . The design provides maximum AC and DC circuit isolation while achieving TTL compatibility. Suitable for high-speed logic interfacing, input/output buffering and line receivers.

### Specification: (maximum ratings)

Input current low level:  $250\mu\text{A}$   
 Input current high level:  $15\text{mA}$   
 Supply voltage (output):  $5.5\text{V}$

## Opto Triac Isolator

Motorola

An optically coupled gallium arsenide infra-red emitting LED and triac in a 6-pin DIL package. The triac has a  $400\text{V}$  rating (suitable for  $240\text{V}$  AC mains) and  $I_T$  rms of  $100\text{mA}$  maximum.

### Characteristics:

Forward voltage ( $V_F$ ) at  $I_F = 30\text{mA}$ :  $1.3\text{V}$   
 Continuous forward current:  $60\text{mA}$  max  
 LED current needed to latch output:  $15\text{mA}$   
 Holding current:  $200\mu\text{A}$   
 Reverse voltage:  $3\text{V}$  max  
 PIV triac:  $400\text{V}$   
 $I_T$  (rms) triac:  $100\text{mA}$   
 Isolation voltage:  $7500\text{V}$  peak,  $5300\text{V}$  rms

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## SFH2030 Silicon Photodiode

**Siemens**

A silicon photodiode fabricated in PIN planar technology that can be operated either as a photodiode, with reverse voltage, or as a photovoltaic cell. The device is in a 5mm package and has solder tab terminals with 2.54mm (0.1in.) lead spacing. Typical applications include industrial electronics, measuring and controlling devices, light-activated switches and fibre optic transmission systems. The device features a short switching time, high spectral sensitivity, low capacitance and a clear plastic lens. A daylight filter option SFH2030F is also available. Short lead/flat on body denotes cathode.

Specification:	SFH2030	SFH2030F
Reverse voltage:	30V	30V
Power dissipation:	100mW	100mW
Spectral sensitivity VR=5V	80(±25)nA/lx	—
Spectral sensitivity VR=5V	wavelength= 950nm, Ee=0.5mW/cm2: —	—
25(±15)nA/lx	—	—
Wavelength of max.	—	—
Spectral range of	sensitivity: 850nm 900nm	—

## Light Responsive Devices

### Photodiode

A high speed PIN photodiode designed to operate in the reverse bias mode. It offers low capacitance with high speed and high photosensitivity.

The photodiode chip is moulded in a 5mm half round black infra-red transmissive plastic package. This device is intended for remote control applications. Cathode denoted by shorter lead. Similar to TIL100, in different package.

#### Absolute maximum ratings:

Reverse voltage: 20V  
Power dissipation: 150mW

#### Electrical characteristics:

Dark current: 30nA (max)  $V_R = 10V$   
Light current: 60µA (950nm, 1000Lux)  
Peak spectral response: 950nm

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
YH71N	Infra-Red Photodiode	£0.350	£1.360

## Low Profile Infra-Red Photodiode

**RECENTLY INTRODUCED**

A sensitive infra-red photodiode with high output and fast response designed for a wide range of applications including remote control for TV, VCR, audio; smoke detector; camera; strobe; exposure meter etc. The device has a wide receive angle and is package in a low profile TO5 epoxy resin case.

#### Specification

Open circuit voltage: 0.38V typical  
Short circuit current: 75µA @ 1000lux  
Dark current  $V_R=10V$ : 100nA typical  
Peak wavelength: 900nm  
Angle of view: ±60°  
Operating temperature: -20°C to +80°C

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
JA31J	Lo Profile Ph Diode	£0.798	£1.750

## BPW41N Photodiode Detector

A fast PIN silicon photodiode housed in a compact plastic package. With a peak response at 950nm, and a wide detection angle

**RECENTLY INTRODUCED**

#### Specification

Sensitivity @ L = 85nm: 0.6A/W  
Active area: 7.5mm<sup>2</sup>  
Peak response: 940nm  
Response time: 50ns  
Capacitance: 25pF  
Reverse voltage: 32V max.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
GS26D	BPW41N	£0.700	£0.900

## SFH309 Phototransistor

**Siemens**

A silicon phototransistor in a standard T1 (3mm) size plastic package, ideal for low-cost, high volume applications such as IR remote control etc. The device matches with infra-red emitter SFH409 and has good linearity, and a narrow acceptance angle of 32°.

Lead spacing: 2.54mm.

#### General Specification:

Wavelength of maximum photosensitivity: 880nm

Spectral range of photosensitivity: 380nm to 1125nm  
Half angle: ±16°  
Capacitance: 5.3pF  
Collector emitter voltage: 35V  
Collector current: 15mA  
Collector peak current (<10µs): 75mA  
Power dissipation at 25°C: 165mW  
Photocurrent, collector to emitter (1000 lux,  $V_{CE} = 5V$ ): 5mA typical

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
CY86T	SFH309	£0.390	£0.490

## SFH300-2 Phototransistor

**Siemens**

A highly sensitive, linear NPN silicon phototransistor, enclosed in a tubular 5mm plastic package that can be easily mounted into holes and preformed plastic sleeves, e.g., LED mounting assemblies. The device features a clear plastic lens, a 50° acceptance angle and a very low dark current. The collector has the shortest leg and is next to the flat on the package base.

#### Specification

Wavelength of maximum photosensitivity: 850nm  
Spectral range of photosensitivity: 420nm to 1130nm  
Half angle: ±25°  
Capacitance: 6.5pF  
Collector emitter voltage: 35V  
Collector current: 50mA  
Collector peak current: 100mA (<10µs)  
Power dissipation at 25°C: 200mW  
Dark current: 5nA  
Photocurrent, collector to emitter (1000lux,  $V_{CE} = 5V$ ): 0.63mA to 1.25mA

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
NP64U	SFH300-2	£0.330	£0.490

## Infra-Red Phototransistor

A low cost, high quality NPN silicon phototransistor, having high illumination sensitivity, fast response time and low dark current. Encapsulated in a 3mm water clear resin package. The collector is denoted by a flat on the package and the shorter of the two leads; there is no access to the base terminal. Similar to TIL78.

#### Absolute maximum ratings:

$V_{CE}$ : 20V  
 $P_{TOT}$ : 75mW

#### Electrical characteristics:

Light current ( $V_{CE} 3V, 880nm, 1000Lux$ )  
Min: 1.0mA  
Max: 20mA  
Dark current ( $V_{CE} 10V$ )  
Max: 0.1µA  
Peak spectral response: 880nm

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
YY66W	Infra-Red Sensor	£0.154	£0.900

## Opto Switches

Two slotted opto switches consisting of a miniature infra red emitter and matching receiver housed in a choice of plastic packages, with or without mounting lugs. Ideal for edge detection or for use with rotating slotted disks for speed or distance measurement or counts. IR diode max  $I_F=60mA$ ,  $V_F=1.5V$  max. Phototransistor  $V_{CEO}=30V$  max. Power dissipation=100mW,  $I_C=0.5mA$  min when coupled, dark current 100nA max.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+

### ratings

#### IR LED ratings:

Forward DC current: 50mA  
 Peak forward current: 3-0A (Pulse width 1µs, 300pps)  
 Reverse voltage: 2-0V  
 Power dissipation: 75mW

#### Phototransistor ratings:

Collector-emitter voltage: 30V  
 Emitter-collector voltage: 5V  
 Collector current: 25mA  
 Power dissipation: 75mW

#### Electrical characteristics

##### IR LED ratings:

Forward voltage: 1.7V,  $I_F = 20mA$   
 Reverse current: 100µA,  $V_F = 2V$

##### Phototransistor ratings:

Dark current: 100nA,  $V_{CE} = 5V$   
 On-state current: 350µA (min) 700µA (typ)  
 $I_F = 20mA$ ,  $V_{CE} = 5V$ ,  $d^* = 1.27mm$   
 Saturation voltage: 0.4V  
 $I_F = 20mA$ ,  $I_C = 100µA$ ,  $d^* = 1.27mm$

\*Note: d = distance of reflective surface from sensor.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	500+	1+
UK81C	Sensor QPB706B	£2.230	£1.780	£1.270	£4.110

## Phototransistor BPX25

### Zetex

A high sensitivity silicon planar NPN phototransistor for general purpose use. Top of package (TO18) is lensed.

### Absolute maximum ratings:

$V_{CBO}$ : 32V  
 $V_{CEO}$ : 32V  
 $V_{EBO}$ : 5V  
 $I_C$ : 100mA  
 $P_{TOT}$ : 300mW

### Electrical characteristics:

(open-circuit base, except for  $h_{FE}$  typical)  
 Light current ( $V_{CE} = 6V @ 1000 lux$ ): 13mA  
 Dark current ( $V_{CE} = 24V$ ): 100nA  
 $h_{FE}$  ( $V_{CE} = 6V$ ,  $I_C = 2mA$ ): 500  
 Peak spectral response: 800nm  
 Cut-off frequency (Note 1): 200kHz  
 Note 1: Improved switching times can be obtained by connecting the base lead to give a quiescent bias current.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each

## Photo Reflector SY-CR102

A photo emitting diode and a phototransistor housed in a compact package that can be used for counting, rotational speed etc. The device has a very fast rise/fall time - just 1ms.

### Specification ( $I_F=20mA$ , $I_{CE}=1mA$ , $V_{CE}=5V$ )

Photocurrent ( $R_L=20k$ ): 230µA min.  
 Saturation ( $R_L=20k$ ): 0.4V  
 Cross talk: 1.0µA  
 Dark current ( $I_F=0mA$ ): 100nA  
 $V_F$ : 1.7V  
 $V_{ECO}$  ( $I_{CE}=1mA$ ): -3V  
 $V_{CEO}$  ( $I_{CE}=1mA$ ): 12V  
 Rise time: 1ms  
 Fall time: 1ms

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	250+	1+
JA26D	Reflective Sensor	£0.387	£0.309	£0.221	£2.180

## Infrared Transmitter/Receiver Diode

An infrared transmitter diode and a matching receiver photo-transistor in side looking packages, ideal for mounting at the edge of a PCB or where beam break detection or data coupling is required. Max forward current for the diode is 100mA continuous, 1A peak (300pps, 1µs pulse). Luminous intensity is 1.8mW at  $I_F=50mA$ , with a 30° viewing angle. Phototransistor  $V_{CEO}$  is 30 Volts, with a max dissipation of 100mW. Light  $I_C = 20mA$  max and dark current is 100nA max, viewing angle 70°, rise/fall times=5µs @  $R_L=1k$ .

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+

## Photo Reflective Infra-Red Sensor

This device consists of an infra-red emitting diode and an NPN silicon phototransistor mounted side by side on parallel axes in a black plastic housing. Both emitting diode and phototransistor are moulded in infra-red

## Call and Collect

Maplin has more stores Nationwide than ever before. See the maps at the front of the catalogue for the nearest one to you.

**Infra-Red Devices**

**Infra-Red Detector PIS201S**

A sensitive, low noise, two element type pyroelectric infra-red detector with a 5µm filter and an internal FET amplifier. The device has a wide field of view of 42° on the Y-axis, and 43° on the X-axis.

**Specification**

Supply voltage range: 2 to 15V DC  
 Output loading: 10kΩ to 100kΩ  
 Operating temperature range: -40°C to +70°C  
 Characteristics at 25°C, supply = 5V, load = 47kΩ.  
 Voltage responsivity: 300mV pk-to-pk (amplified by 40dB)  
 Output balance: (V1-V2)/(V1+V2) x 100 ≤15% (V1, V2 = voltage from each element)  
 High temperature noise: 300mV pk-to-pk @ 45°C (amplified by 73dB)  
 Cut-on wavelength: 5.0 ±0.5µm  
 Light loss: 0.5% max. @ λ<4.5µm  
 Transmittance: 70% min. @ λ7.0 to 13.0µm

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
AJ77J	PIS201S	£2.250	£3.180

**Infra-Red Detector E600ST0**

Murata

This device is a sensitive, low noise, pyroelectric infra-red detector, which uses a ceramic ferroelectric dual sensing element, a silicon optical filter reduces the effect of RF interference.

**Characteristics at 25°C**

Sensitivity (500°K, 1Hz, 1Hz): 3.9mV pt-pk  
 Specific detectivity: 1.0 x 10<sup>9</sup>cmHz<sup>1/2</sup>/W  
 Wavelength range: 5 to 14µm  
 Rise time: <25msec  
 Field of view: 40°  
 Supply voltage: +3 to +15V  
 Operating temperature range: -25 to +55°C

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
UR69A	IR Detector E600ST0	£3.950	£7.860

**Photoconductive Cell**

Silonex

A cadmium sulphide photoconductive cell sensitive to visible light. It has a maximum sensitivity in the green, yellow, orange and red parts of the spectrum (wavelengths: 480-690nm). Resistances quoted are those measured when the cell is illuminated by a lamp

of colour temperature 2854°K. For other light sources the cell resistance should be multiplied by the following approximate factors.

**Source of illumination**

Incandescent radiation at colour temperature of 1500°K: x0.5  
 2000°K (oil-fired burner-yellow flame): x0.66  
 Sunlight: x1.33  
 White fluorescent light: x2  
 Where cell is operated from a 50Hz AC source the resistance values are between 1 and 1.3 times those for DC.

Type	Incidence of illumination	Cell resistance	Min. dark resistance at 50 lux
ORP12	End-on	6000Ω	1MΩ
ORP12	Min bright resistance	80Ω*	Max. power dissipation 250mW
			Max. cell voltage 320V

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
HB10L	LDR ORP12	£0.890	£1.490

**Miniature Light Dependent Resistors**

A range of miniature cadmium sulphide (CdS), light dependent resistors. The cells have a maximum voltage rating of 100V DC and a maximum power dissipation of 50mW

Order Code	Max. Resistance at 10lux	Min. Resistance at darkness (0lux)
AZ81C	11kΩ	0.5MΩ
AZ82D	33kΩ	2MΩ
AZ83E	120kΩ	5MΩ

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

AZ81C	LDR 11K	£0.177	£1.200
AZ82D	LDR33K	£0.177	£1.200
AZ83E	LDR120K	£0.177	£1.200

**SFH409 GaAs Infra-Red Emitting Diode**

Siemens

A GaAs infra-red emitting diode in a standard T1 (3mm) size plastic package, that has been designed for a variety of low-cost, high volume applications, e.g., IR remote control and other consumer and entertainment products. The device is an excellent match with SFH309 phototransistor, and features high pulse power, good long term

stability and a 40° wide beam. Lead spacing: 2.54mm.

**General Specification**

Peak wavelength emission: 850±20nm  
 I<sub>F</sub> = 100mA, t<sub>p</sub> = 20ms:  
 Spectral bandwidth at 50% of I<sub>MAX</sub> at I<sub>F</sub> = 100mA, t<sub>p</sub> = 20ms: 55nm  
 Radiant intensity: ≥16mW/sr  
 I<sub>F</sub> = 1A, t<sub>p</sub> = 100µs: 150mW/sr  
 Total radiant flux: 14mW  
 Half angle: ±20°  
 Switch time I<sub>F</sub> = 100mA: 1µs  
 Forward current: 100mA  
 Reverse voltage: 5V  
 Surge current (t = 10µs): 3A  
 Forward voltage: I<sub>F</sub> = 100mA: 1.3-0V  
 I<sub>F</sub> = 1A t<sub>p</sub> = 100µs: 1.9V  
 Breakdown voltage (I<sub>R</sub> = 100µA): 30V  
 Typical reverse current (V<sub>R</sub> = 5V): 0.01µA  
 Capacity (V<sub>R</sub> = 0V): 25pF  
 Power dissipation at 25°C: 165mW  
 Junction temperature: 100°C

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
CY84F	SFH409	£0.357	£0.580

**SFH487 GaAlAs High Power Infra-Red Emitting Diode**

Siemens

A very high power, high intensity, gallium aluminium arsenide infra-red emitting diode, that emits radiation in the near infra-red range (880nm peak). The emitted radiation, which can be modulated, is generated by forward flowing current. The device is enclosed in a 3mm plastic package with a clear blue plastic lens. Typical applications include IR remote control of colour TV receivers, smoke detectors, and other applications requiring very high power, such as IR touch screens.

**Specification**

Peak wavelength emission: 880nm  
 I<sub>F</sub> = 10mA: 880nm  
 Radiant intensity: I<sub>F</sub> = 100mA, t<sub>p</sub> = 20ms: ≥32mW/sr  
 I<sub>F</sub> = 1A, t<sub>p</sub> = 100µs: 300mW/sr  
 Total radiant flux: I<sub>F</sub> = 100mA, t<sub>p</sub> = 20ms: 25mW  
 Spectral bandwidth I<sub>F</sub> = 10mA: 80nm  
 Half angle: ±20°  
 Reverse voltage: 5V  
 Forward current: 100mA  
 Surge current (t = 10µs): 2.5A  
 Forward voltage: I<sub>F</sub> = 100mA t<sub>p</sub> = 20ms: 1.3-0V  
 I<sub>F</sub> = 1A t<sub>p</sub> = 100µs: 1.9V  
 Breakdown voltage (I<sub>R</sub> = 10µA): 30V  
 Reverse current (V<sub>R</sub> = 5V): 0.10µA  
 Capacity (V<sub>R</sub> = 0V): 25pF  
 Power dissipation at 25°C: 200mW  
 Junction temperature: 100°C

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
CY86V	SFH487	£0.540	£0.960

**We endeavour to hold stocks at all Maplin and Maplin Mondo stores, but to be sure, please phone before travelling. See front of catalogue for addresses and telephone numbers**

## SFH487P GaAlAs High Power Infra-Red Emitting Diode

Siemens

A high power gallium aluminium arsenide infra-red emitting diode, with a very wide beam, that emits radiation in the near infra-red range (880nm peak). The emitted radiation, which can be modulated, is generated by forward flowing current. The device is enclosed in a 3mm plastic package with a flat lens. Typical applications are in digital shaft encoders and light interruptors for DC and AC operation.

### Specification

Peak wavelength emission	
$I_F = 10\text{mA}$ :	880nm

## High Power Infra-Red Emitting Diode

A high power infra-red emitter, intended primarily for remote control applications. Encapsulated in a 5mm water-clear resin package. Cathode denoted by flat on package/shorter lead. Similar to TIL38.

### Absolute maximum ratings:

Power dissipation:	100mW
Forward current:	100mA
Reverse voltage:	5V

### Electrical characteristics:

Forward voltage:	1-7V ( $I_F = 100\text{mA}$ )
Light output:	20mW ( $I_F = 100\text{mA}$ )
Peak wavelength:	940nm

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
YH70M	Infra-Red Emitter	£0.390	£0.890

## Miniature Infra-Red Source

A gallium arsenide infra-red LED. With a peak spectral wavelength of 940nm. Encapsulated in a 3mm water-clear resin package. Cathode denoted by flat on package/shorter lead. Similar to TIL32

### Absolute maximum ratings:

Power dissipation:	80mW
Forward current:	60mA
Reverse voltage:	5V

### Electrical characteristics:

Forward voltage:	1-6V ( $I_F = 40\text{mA}$ )
Light output:	3.5mW ( $I_F = 40\text{mA}$ )
Peak wavelength:	940nm

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
YY65V	Infra-Red Source	£0.156	£0.940

## LD271 Infra-Red Emitter

Siemens

An infra-red emitting diode that emits radiation in the near infra-red range (950nm peak). The emitted radiation, which can be modulated, is generated by forward flowing current. The device is enclosed in a 5mm plastic package and has a lightly diffused grey plastic lens. This high intensity device has excellent long term stability and is designed to match with photodiode BP103B. A typical application is remote control of colour TV receivers.

### Specification

Peak wavelength emission	
$I_F = 100\text{mA}$ , $t_p = 20\text{ms}$ :	950 $\pm$ 20nm

## GaAs Infra-Red Photo Emitter

Temic

A photo emitting diode in the near infra-red range, suitable for remote control, light barrier and telecommunication.

The device features a metal base with a clear plastic lens and extremely high radiation power, and is suitable for pulse operation to 10A. The anode is the leg adjacent to the tag.

### Characteristics (max. ratings):

Reverse voltage:	5V
Forward current:	250mA
Forward peak current:	10A
Power dissipation:	300mW
Junction temperature:	100°C
Forward voltage $I_F = 250\text{mA}$ , $t_p \leq 100\text{ms}$ :	1-2V
Forward voltage (pulse) $I_{FM} = 10\text{A}$ :	4-2V max.
Radiant power $I_F = 250\text{mA}$ , $t_p \leq 100\text{ms}$ :	20mW
Radiant power (pulse) $I_{FM} = 10\text{A}$ :	500mW
Radiant intensity $I_F = 250\text{mA}$ , $t_p \leq 100\text{ms}$ :	40mW/sr
Radiant intensity (pulse) $I_{FM} = 10\text{A}$ :	1W/sr
Peak wavelength emission $I_F = 100\text{mA}$ :	950nm
Spectral half bandwidth $I_F = 100\text{mA}$ :	50nm
Angle of half intensity:	$\pm 20^\circ$

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
KW66W	IR Photo Emitter	£3.400	£6.340

## Fibre Optics

### Light Guide

A rugged polymethyl methacrylate fibre with a polymer cladding and black protective sheath which may be bent and handled in the same way as insulated wires without damage. Ideal for use in equipment to provide several light sources possibly in confined spaces from a single lamp some distance away.

The fibre as supplied has a roughly cut end and this should be cleanly sliced off using a razor blade or a very sharp knife. Light transmission can be increased by typically 33% by polishing the ends of the fibre after cutting.

Overall diameter:	2-2mm (0-1in.)
Fibre diameter:	1mm (0-04in.)
Refractive index:	1-49
Nominal aperture:	0-53
Acceptance angle:	$\pm 32^\circ$ max
Transmission attenuation:	1-2dB/m (20 - 25% per metre)

Spectral response (3dB):	385 to 880nm
Temperature range:	-40°C to +80°C
Flammability:	Supports combustion

Bending:	75mm per minute
Chemical resistance:	Attacked by organic solvents

Sold in continuous lengths in multiples of 1 metre. Max length in one piece 100m.

Price each is shown. Order quantities less than 100 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
XR56L	1mm Light Guide	£0.640	£1.490

## Phototransistor Detector

Siemens

The SFH350V is a NPN silicon phototransistor that is sensitive in the visible and near IR range, with a base lead connection for external biasing.

### Specification

Collector emitter voltage:	50V
Collector current:	50mA
Collector peak current ( $E_{10s}$ ):	100mA
Emitter base voltage:	7V
Power dissipation:	200mW
Storage and operating temperature:	-55°C to +100°C
Wavelength of max. sensitivity:	850nm
Spectral range of photosensitivity:	400 to 1100nm

Capacitance	
CCE:	9pF
CCB:	22pF
CEB:	20pF
Rise and fall time:	15 $\mu\text{s}$
Current gain $V_{CE} = 5\text{V}$ , $I_{CE} = 2\text{mA}$ :	500
Photocurrent at 600nm $V_{CE} = 5\text{V}$ :	0-8mA

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
CZ03D	SFH350V	£2.100	£4.500

## Photodiode Detector

Siemens

The SFH250V is a fast silicon PIN photodiode with very good linearity that is sensitive in the visible and near IR range.

### Specification

Reverse voltage: 30V  
 Operating and storage temperature: -55°C to +100°C  
 Power dissipation: 100mW  
 Wavelength of maximum sensitivity: 850nm  
 Spectral range of photosensitivity: 400nm to 1100nm  
 Dark current ( $V_R=20V$ ): 100nA  
 Rise and fall time of the photocurrent at 880nm, 10% to 90% of peak value: 10ns  
 at 880nm, 90% to 10% of peak value: 10ns  
 Capacitance: 11pF  
 Photocurrent at 660nm ( $V_R=5V$ ): 3.0µA

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
CZ04E	SFH250V	£5.000 100+ £4.000 250+ £3.330	£5.980 1+

## Lenses

### Plastic Lens

A cost effective, red plastic lens made from Oraglas VO52 and suitable for optoelectronic applications. The lens has an effective diameter of 30mm with a flat rim for mounting purposes resulting in an overall diameter of 37mm. Overall thickness 3.6mm. The focal length is approximately 80mm in the infra-red band.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
FA95D	Plastic Lens	£0.564 100+ £0.451 1000+ £0.376	£0.990 1+

### Glass Lens

A 25.4mm (1in.) focal length semi-precision glass lens. Size: 9.5mm diameter.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
HQ63T	Lens	£5.050 100+ £4.040 1000+ £3.360	£5.980 1+

## Lensholder

A black anodised aluminium lensholder, drilled to accept our 9.5mm lens in one end and photo-Darlington MEL12 in the other end. Outside dia. 12.7mm.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
HQ64U	Lensholder	£0.250 25+ £0.200 100+ £0.167 1000+ £2.380	£2.380 1+

## CCD Cameras

### B & W Camera Module with Infra Red LEDs

**NEW**

A small CCD video camera capable of producing a monochrome picture from both normal light and infra-red light with good resolution and detail. The infra-red capability makes the camera ideal for security applications. It includes six IR LEDs which together act as an infra-red lamp for IR illumination in the dark with a range of 2 to 3 metres.

### Specification

Image sensor: 1/3in CCD, 320,000 pixels  
 Scanning system: 2:1 Interlace  
 Resolution: 500(H) x 582(V) pixels  
 Horizontal Resolution: 380 TV lines  
 Scanning Freq.: H: 15.625 KHz±1% V: 50Hz±1%  
 Min Illumination lens: 1 lux, f2.0  
 Power Supply: 12V DC±1V, <160mA  
 Dimension: 54(w) x 38(h) x 25(d)mm  
 Weight: 33g

The Camera PSU and Cable kit, MU45Y, is recommended for easy installation and operation of this camera. The camera comes with a 3 way miniature pre-wired plug and socket with the following connections:

- +12V (denoted by angled corner)
- Video Out
- Gnd

Retail Unit Price each (inc. VAT).

### Monochrome CMOS Camera Module VVL 1043C

This camera module measures just 22 x 22mm and incorporates the latest surface mount CMOS technology to integrate the sensor array, array

circuitry and signal conditioning circuitry. There is an on-board voltage regulator and a video output buffer. Additionally, the camera is supplied with a clip-on lens. The sensor is a 384 x 287 array measuring 4.6mm x 3.4mm, with each pixel measuring 12 x 12µm, and has a sensitivity of 0.5 to 1lux which is comparable to many CCD cameras. The module has a 260 TV line resolution, a 1V pk-to-pk output into 75Ω, automatic exposure control and automatic gain control (18dB). Ideal for a wide range of applications including surveillance, access control, multimedia and teleconferencing.

Retail Unit Price each (inc. VAT).

GZ12N 1	CMOS Camera Module	£102.110 1+	£119.990 1+

### Sub-Miniature Colour CCD Video Camera

A miniature CCD camera capable of producing a superb full-colour picture in normal and reduced lighting conditions. This board replaces our popular AR59P. The fixed focus lens allows the CCD element to show a high degree of detail without the need for any special optics. This is because all the focusing is controlled by the in-built electronic iris. All the electronics of the camera are mounted on three press-out printed circuit boards. The three small sub-assemblies are interconnected by ribbon cable so that the module can be arranged to fit into a small enclosure. These sub-assemblies reduce the overall width to 42mm. The module requires a nominal 12V DC at 200mA and because it has an on-board regulator this voltage can vary from +11V to +13V DC.

### Specification

Area image sensor: 1/4 in interline transfer type CCD, 290,000 pixels  
 Resolution: 752(H) x 582(V) pixels  
 Scanning system: 625 lines, 2:1 interlace  
 Scanning Freq.: H: 15.625 KHz±1% V: 50Hz±1%  
 Horizontal Resolution: 380 TV lines  
 Standard illuminance: 1,000 Lux, f4.0, (3,200°K)  
 Minimum illuminance: 2.5 Lux, f1.4  
 Power supply voltage: 11 to 13V DC  
 Current consumption: 200mA or less  
 Operating temp. range: -10 to +45°C  
 Dimensions  
 Image Board: 42(w) x 42(h) x 33(l)mm  
 Main Board: 42(w) x 42(h) x 44(l)mm  
 Power: 42(w) x 42(h) x 12(l)mm  
 Weight: Approximately 52g

There are several feature connectors that give access to white balance manual over-ride, manual iris shutter speed over-ride and 8 character camera title generator. The Camera PSU and Cable kit, MU45Y, is recommended for easy installation and operation of this camera.

## Solar Power

### Solar Cells

A range of solar cells that develop various voltages and currents and can be easily connected together to suit individual requirements. The output connections are threaded posts with nuts, and a metal strip is provided to connect the cells together. The cells are mounted in a rigid black plastic case. BZ47B includes a small electric motor that can be driven from the solar cell supplied.

#### Specification

All outputs are quoted for full sunlight.

Type	V DC	mA	Size mm
BZ43W	0.45	200	55 x 35 x 12
BZ45Y	0.45	700	95 x 65 x 12
BZ46A	0.9	400	95 x 65 x 12
BZ47B	0.9	400	95 x 65 x 12

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 2307	Price each exc. VAT			inc. VAT each
		10+	25+	100+	
BZ43W	Cell 200mA 0.45V	£1.000	£0.807	£0.672	£2.380

BZ46A	Cell 400mA 0.9V	£2.710	£2.170	£1.800	£4.780
BZ47B	Cell With Motor	£3.360	£2.680	£2.240	£5.960

400mA), a small DC motor, connecting wire, plastic fan spinner and turntables, coloured spinner disks, coloured paper models, screws and nuts. An interesting kit for children to enjoy. A very informative booklet is included describing solar power in detail.

#### Advanced Kit

A more advanced kit that includes eight solar panels that produce 0.4V at 100mA each, and can be configured to produce 0.4V at 800mA or 3.2V at 100mA by connecting the cells in parallel or series, or a combination of both. It is possible to power small appliances, i.e. radios, personal cassettes, calculators from sunlight. A detailed booklet is included in the kit that explains how to connect up the cells. A small electric fan along with connecting straps and wire are included in the kit to demonstrate the use of solar power.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

BZ52G	Advanced Solar Kit	£8.320	£5.990	£4.990	£14.980

### Variable Voltage Charger Panel

A solar battery charger panel which will output 3V, 6V and 9V DC according to the position of a selector slide switch. Output current is up to 100mA at 3V (this position can also be used as 4.5V), and 50mA for both 6 and 9V settings. It has 2m of detachable twin core cable which is terminated in both a 4-way power jack adaptor and a pair of insulated crocodile clips. The 4-way adaptor has 2.5 and 3.5mm jack plugs and 2.5 and 3.5 DC power plugs. The retractable and adjustable stand can also be used as a carry handle or for hanging the panel. It can be used to directly power a personal stereo player which will normally operate from a 3V or 4.5V supply via the power jack or by connecting the clips across the player's main battery terminals. Two AA size rechargeable Ni-Cd batteries can also be charged by fitting them into the battery compartment on the rear of the panel. Charging time will vary depending upon the strength of sunlight available. Two batteries may take 7 to 10 hours to recharge. Overall size of panel 165 x 98 x 20mm including battery compartment. Depth of handle 30mm.

### 3V Solar Charger Panel

A solar battery charger panel which will output approximately 3V DC at up to 80mA. It has 2m of twin core cable attached to the panel terminated in both a 2.3mm DC power jack and insulated crocodile clips. The device can be used to directly power a personal stereo player which will normally operate from a 3V supply (2 x 1.5V batteries), via the power jack or by connecting the clips across the player's main battery terminals. The solar panel has a hinged stand and can be pointed in the direction of sunlight. Size of panel 95 x 65 x 8mm.

Retail Unit Price each (inc. VAT).

		1+	1+	
CJ37S	3V Charger Panel	£7.038		£8.270

### Solar Cell Educational Kits

#### Basic Kit

An educational kit to help you explore solar energy power. The kit includes a solar panel (0.45V

### Solar Panels

A choice of two solar panels configured to give a nominal 12V, that are laminated in special resin with an ultraviolet inhibited polycarbonate surface. The panels are epoxy sealed into an aluminium frame, to withstand the rigours of weather. A suggested use for the solar panels is for charging sealed lead acid batteries, a blocking diode is built into the circuit to prevent the reverse flow of current from the battery to the solar panel during poor lighting conditions. Four hooks are provided on the back of the panels for easy mounting, and 2m of connecting cable with medium size crocodile clips are included, for connecting to a device or circuit. It is recommended that the panels be mounted in a position where they will receive maximum sunlight. The panels can be connected together either in parallel or series to increase the current or voltage output. The smaller panel produces an output current of 200mA approx. and can be configured to

## Waterproof Solar Panels

Two waterproof and corrosion resistant solar panels for outdoor use. The panels are weatherproof and resistant to wind, rain, humidity, snow, ice, sand, sea air and deterioration by ultraviolet light. These panels are intended to be used as battery chargers and lead acid battery trickle chargers. A reverse blocking diode is built in to prevent battery discharge and protect the panel cells. A tilt stand, made up from supplied parts, can be assembled and mounted on a vertical or horizontal surface, or can be free-standing to catch the sun (screws supplied). Each panel is provided with red and black leads terminated in either insulated crocodile clips or car battery style clamps. The mechanical construction is extremely strong and able to withstand heavy weights.

## Solar Charger Size 2

Use the clean, and dependable quiet energy from the sun to help your battery to keep its power. This trickle charger for an RV type battery and small appliances can run any combination of appliances, using up to 140W hours of power during a week. There are no moving parts or fuel to worry about, and the system is virtually maintenance free once it is up and running. Supplied with a comprehensive fitting kit including: 8m cable, mounting kit, line tap and battery hook-ups, connectors and a pre-wired fuse and diode. Five year warranty.

**Specification**

Max output: 300mA  
Typical Power/Wk.: 140W hours

WD37S 1	Solar Charger Size 2	£110.629	£129.990

## Solar Charger Size 3

This larger solar battery charger provides even more power for small appliances. During a week it can run any combination of small appliances using up to 600W total power. For example: a 20W lamp and a 230mm colour TV for 5 hours a week plus a CB radio for 9 hours a week. There are no moving parts or fuel to worry about and the system is virtually maintenance free once it's up and running. Five year warranty.

Supplied with a comprehensive fitting kit including 8m cable, mounting kit, line tap and battery hook-ups, connectors and a prewired fuse and diode.

**Specification**

## Solar Powered Plant Turner

A practical application for solar power, this 'Plant Turner' will support up to 13.6kg (30lb.) weight and slowly turn the plant during the day. This will help to promote healthier, well-developed plants, and no more lopsided plants! The small solar panel is attached to a 1m long flying lead, so the cell can be positioned for maximum sunlight. The turntable is 155mm in diameter and has a raised edge, and is finished in black plastic. Other possible uses include displays in shop windows or to create an eye-catching display inside cabinets. Bright incandescent light will also operate the 'Plant Turner'. Supplied with a multi-angle stand that can be attached to the solar panel to provide flexible mounting.

Dimensions: 161 x 65mm.

## COUNTERS

### TOTALISING COUNTERS

#### Magnetically Actuated Counter

Hengstler

A non-resettable, 6-digit totalising counter that is actuated by an exterior permanent magnet. With suitable magnets it is possible to achieve actuating distances of up to 50mm - the direction of approach of the magnet is not critical.

- ★ Contactless counting
- ★ Miniature size
- ★ Simple installation
- ★ Class IP 66 protection

#### Specification

Digit height:	4mm, visual
Operating life:	10,000,000 increments
Counting mode:	adding
Response flux density:	>10mT (100 Gauss)
Release flux density:	<4mT (40 Gauss)
Actuating speed:	2m/s
Counting frequency:	20 digits/sec max.
Case:	Makrolon
Weight:	12g approx.

Retail Unit Price each (inc. VAT).

Order Code	Type 17294	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
MC16S	Magnetic Counter	£12.210	£11.600	£10.990	£14.350

22

#### 12V DC Non-Resettable Mini Counter

Hengstler

A miniature 12V dc 6-digit counter offering low power consumption and high shock stability. The counter is designed for horizontal mounting and is available in two versions - PCB mounting (MC18U) with solder pins, and panel mounting (MC19V) with 0.6mm diameter wiring posts.

- H Totalising, non-resettable
- H Low power consumption
- H Two versions - PCB or panel mounting
- H Maintenance-free operation

#### Specification

Voltage:	12V dc
Power consumption:	78mW
Count input:	adding
Display:	6-digit, 4mm height
Operating life:	10,000,000 pulses
Pulse length:	50ms min
Counting frequency:	10Hz max.
Pulse duty factor:	1:1
Duty cycle at 25°C:	100%
Weight:	10g approx.

Retail Unit Price each (inc. VAT).

#### Lithium Battery-Powered Counter

Hengstler

A sophisticated pulse counter with a high contrast 8-digit LCD display that is powered by an internal lithium battery. The case is supplied with a mounting frame and is designed to fit a DIN size 24 x 48mm panel cut-out. The reset can be manual (which can be locked) or external input.

- ★ 7mm LCD display
- ★ 7-year nominal data retention
- ★ Programmable count input
- ★ Easy installation

#### Specification

Display:	8-digit, LCD, 7mm
Amplitude thresholds input:	up to 7.5kHz
input range:	<0.7V and >5V, max 40V dc
Active edge:	- or + edge programmable
Counting frequency:	programmable - 7.5kHz or 30Hz (attenuated for contacts)
Reset lock:	keylock input bridge to 0V
Reset:	manual (lockable) external, neg active edge attenuated 30Hz
Cut-out:	24 x 48mm with 32mm mounting depth

## HOURS RUN METERS

#### Mains Powered Panel Mounting Hour Meter

Hengstler

This mains powered, non-resettable hour meter is driven by a low-noise synchronous motor for high reliability and long life. The 7-digit, 5mm high contrast display is housed in a rugged polycarbonate case. The meter is supplied with a plastic spring-fit collet for panel mounting installations, and is provided with two bezels for 48 x 24mm and 48 x 48 cut-outs.

- ★ Simple installation
- ★ Highly visible 7-digit display
- ★ Counts to 99999.99 hours
- ★ Accept 2.5mm cable

#### Specification

Display:	7-digit, 5mm high counts to 99999.99 hours
Supply voltage:	230V ac ±15%
Power consumption:	0.5VA
Connections:	screw terminals for cables 2.5mm <sup>2</sup> max with AMP connector 6.3 x 0.8mm
Operating temp:	-10°C to +50°C
Weight:	50g approx.

## Educational Ammeters and Voltmeters

These benchtop instruments offer exceptional value with their compact size and rugged construction. They provide a range of DC measurement of ±21/2% accuracy (±4% on 0-2A) with uniform scales and high levels of electrical and mechanical stability in the highly visible transparent covers. Dimensions 80 x 120 x 52mm Weight 200gm approx.

## Rectangular Meters

A range of modern styled panel meters with snap-on plastic covers which can be removed to change scales or to fit scale illumination bulbs (please note that we cannot supply alternative scales). Plastic cover has a black lower portion with zero adjuster. The movement is wired to the larger pair of terminals at rear which include solder tags retained by M2.5 screws.

Front face size: 60 x 46mm  
Overall depth: 42mm  
Panel cut-out: 38mm (1.5in.)  
Accuracy: 2%

The following types (full scale deflection: FSD) are available.

FSD	Internal resistance	Scale marked
100-0-100µA DC	2100Ω	In 10µA steps
50µA DC	4300Ω	0 to 50µA in 1µA steps
100µA DC	3750Ω	0 to 100µA in 2µA steps
1mA DC	400Ω	0 to 1mA in 20µA steps
100mA DC	0-8Ω	0 to 100mA in 2mA steps

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
RW98G2	2in. Pan Mt 100-0-100µA	£5.630	£4.890	£4.430	£6.620
FM98G	2in. Pan Meter 50µA	£5.630	£4.890	£4.430	£6.620

## Large Meters

Large moving coil panel micro-ammeters having a 76mm (3in.) scale length. Calibrated 0-50 or 0-100, but front plastic cover unclips to facilitate fitting different scales to your design. (Please note that we do not stock spare scales.) Dimensions: 110 x 82 x 46mm deep. Internal resistance 50µA: 4300Ω; 100µA: 3750Ω. To convert these meters to read larger currents use the following formula:

$$\frac{x}{\text{FSD required (in amps)} - (y \times 10^{-6})} = R$$

To convert this meter to a voltmeter use the following formula:

$$\left( \frac{\text{Full scale voltage required (V)}}{y \times 10^{-6}} \right) - r = R_2$$

where R is the resistance required directly across the meter;  $R_2$  is the resistance required in series with either lead; x is 0.215 for the 50µA meter and 0.375 for the 100µA meter; y is 50 for the 50µA meter and 100 for the 100µA meter; and r is 4300 for the 50µA meter and 3750 for the 100µA meter.

## Moving Iron Meters

A range of modern styled panel meters which have a transparent plastic cover and a white base. The coil is exposed at the rear and a set zero adjustment is not provided. The following types are available.

Range	Internal Resistance	Scale marked
2V to 15V	58Ω	0 to 2V then to 15V in 0.5V steps
0V to 30V		0 to 5V in 0.5V steps then to 30V in 1V steps
0V to 300V		0 to 50V in 1V steps then to 300V in 10V steps
0.1A to 1A		0 to 0.1A then to 1A in 0.02A steps
0.5A to 5A	0.028Ω	0 to 0.5A then to 5A in 0.1A steps
2A to 10A		0 to 2A then to 10A in 0.2A steps
2A to 15A	0.004Ω	0 to 2A then to 15A in 0.5A steps
4A to 25A	0.0018Ω	0 to 4A then to 25A in 0.5A steps

Front face size: 69.4 x 53.4mm  
Overall depth: 38mm  
Depth behind panel: 28mm  
Panel cut-out: 40mm diameter  
Accuracy: ±5%  
Suitable for AC or DC operation.

## Battery Condition Meter

Zig

Ideal for automotive, marine and caravan applications using 12V battery electrics. Only two connections are needed for accurate and up to date analogue reading of your battery condition. The meter's scale reads from 9 to 16V with warning areas indicated on either side of the optimum voltage. Dimensions: 82 x 70 x 50mm.

Retail Unit Price each (inc. VAT).

## Call and Collect

Maplin has more stores Nationwide than ever before. See the maps at the front of the catalogue for the nearest one to you.

## Water Level Gauge

Zig

Ideal for caravans, motor homes, boats and all vehicles with on-board water storage, this versatile gauge is suitable for fresh or waste water, is safe to install in plastic or metal tanks (metal tank adaptor supplied), and can even be fitted to portable water carriers. At the push of a button the gauge provides an accurate reading of the tank's contents, right down to the last few litres. Dial calibration is also possible to accommodate different water conditions. Overall dimensions: 127 x 88 x 35mm. Probe length: 440mm (can be cut to size).

## DIGITAL PANEL METERS

### Digital LCD Panel Meter

A compact, low cost digital panel meter which consists of a PCB based module for mounting in existing equipment, behind a front panel or for making a dedicated voltmeter type instrument. The LCD is 3 1/2 digits with a digit height of 13mm. The input is up to 200mV with a full scale at ±199.9mV with an accuracy of ±0.1% +1 digit. The module is capable of performing both digital voltmeter and ammeter functions, depending on how the input is configured with extra resistor chains (examples are shown in the instructions supplied). Applications can include custom power supply monitoring and other specialised voltmeter and ammeter uses. Input power is in the range of 9 to 12V DC and can be from battery or power supply. The panel meter OV rail must not be the same OV rail as the voltage being measured.

The panel meter uses 7106 IC which is a high performance, low power CMOS device and specifically designed as a 3 1/2-digit analogue to digital converter. Input impedance is extremely high, making it very easy to calculate resistor chain values without any danger of neglected input impedance introducing errors. An on-board preset can be used to precisely calibrate the circuit against incoming voltage levels.

#### Specification

Input impedance: 1,000MΩ  
Accuracy: ±0.1% + 1 digit  
Measurement range: ±199.9mV  
Resolution: 100µV  
Indication method: LCD  
Power supply: 9 to 12V DC  
Current drain: 1mA typical  
Operating temperature range: 0°C to 60°C  
The module measures just 70 x 50 x 15mm high and has four M3 fixing holes at the corners on 58 x 39mm.

Retail Unit Price each (inc. VAT).

## LED Type

A compact low-cost LED Digital Panel Meter having a high brightness display. The meter is fitted with high efficiency 11mm LEDs and is supplied with a circularly polarised red filter and bezel giving a high contrast display. Auto-zero, auto-polarity, programmable decimal points and 200mV fsd are standard features and the meter may be easily programmed by the user to read volts, current etc. May be used in single-ended or differential mode, or to measure floating inputs.

### Specification

Accuracy ( $\pm 1$  count): 0-05% typical (0-1% max.)  
 Linearity:  $\pm 1$  count  
 Sample rate: 3 per second  
 Temp. stability: 150ppm/ $^{\circ}$ C  
 Temp. range: 0 $^{\circ}$ C to 50 $^{\circ}$ C  
 Supply voltage: 5V (5-5V max.)  
 Supply current: 100mA (200mA max.)  
 Max. DC input voltage:  $\pm 20$ V  
 Input impedance: 100M $\Omega$   
 Overall dimensions: 72 x 36 x 27mm deep  
 Panel cut-out: 68 x 33mm  
 Supplied with connectors, bezel, mounting hardware and full instruction sheet.

Retail Unit Price each (inc. VAT).

## 10mm LCD Type

A uniquely compact LCD DPM with pins designed to plug directly into a 28-pin DIL socket. The meter may be panel mounted using the separate snap-in bezel (supplied). The low profile bezel incorporates a flat reverse-printed window giving a superb appearance. The meter features auto-zero, auto-polarity, 200mV FSD, 10mm digit height and programmable decimal points. On board solder pads for essential interconnections make selection of operating mode quick and easy with the minimum of external wiring. Very low current consumption allows long battery life. A whole range of useful annunciators are available on separate pins.

### Specification

Accuracy ( $\pm 1$  count): 0-05% (0-1% max)  
 Linearity:  $\pm 1$  count  
 Sample rate: 3 per second  
 Temperature stability: 100ppm/ $^{\circ}$ C  
 Temperature range: 0 $^{\circ}$ C to 50 $^{\circ}$ C  
 Supply voltage: 7-5V to 15V (9V nom.)  
 Supply current: 150 $\mu$ A  
 Max DC input voltage:  $\pm 20$ V  
 Input leakage current: 1pA (10pA max.) ( $V_{in} = 0$ V)  
 Low battery threshold: 7-5V  
 Overall dimensions: 40 x 20 x 7mm thick  
 Pin length: 4mm  
 Display area: 33 x 13mm  
 Bezel dimensions: 48 x 24mm  
 Panel cut-out: 45 x 22-2mm  
 Supplied with detailed instructions.

FD89W	10mm LCD DPM	£23.390	£22.440	£21.270	£27.490

## 12-5mm LCD Type

A uniquely compact LCD DPM designed to plug directly into a 40-pin DIL socket. The unit is pin-compatible with the 7106/26/36 range of ICs and can be used to directly replace the separate parts otherwise required. The meter may be panel mounted using the separate snap-in bezel supplied. The low profile bezel incorporates a flat reverse-printed window giving a superb appearance. The meter features auto-zero, auto-polarity, 200mV FSD, 12-5mm digit height and programmable decimal points. On-board solder pads for essential interconnections make selection of operating mode quick and easy with the minimum of external wiring. Very low current consumption allows long battery life. A whole range of useful annunciators are available on separate pins.

Electrical specification as 10mm type left except:  
 Overall dimensions: 52 x 25 x 7mm thick  
 Pin length: 4mm  
 Display area: 45 x 16mm  
 Bezel dimensions: 60 x 30mm  
 Panel cut-out: 57 x 27mm  
 Supplied with detailed instructions.

Retail Unit Price each (inc. VAT).

## DISPLAY MODULES

### Counter Module

An electronic Counter Module with 5-digit LCD display. The display increases by 1 every time a positive-going edge is applied to pin 3. A reset is available, and a tone output which can drive a piezo sounder directly and beeps on every count and on reset. Square wave outputs at 512Hz and 32768Hz are also provided.

### Specification

Working voltage: 1-5V DC  
 Current: 2 $\mu$ A standby  
 8 $\mu$ A average when counting  
 00000 to 99999 (resets to 00000 after count 99999)  
 Count range:  
 Max. input frequency: 7Hz  
 Input voltage range: 1V to 1-5V  
 Min. duration pulse: <100 $\mu$ s  
 Overall size: 68 x 35 x 24mm  
 A plastic bezel (FE35Q) is available for use with this module, size 68 x 35mm and increases the overall depth of the module to 27mm. The module requires a 1-5V AA cell (not supplied).

### Small Clock Module FM-882

A compact digital clock module that uses a quartz crystal to provide an accuracy of  $\pm 15$  seconds per month. Four digits show hours and minutes for a 12 hour period with AM and PM indicators. Operates from one GE-13 silver oxide button cell (FM28F) and draws a maximum of

5-5 $\mu$ A, which results in a battery life of approximately one year. The clock has an integral flanged bezel and can be snapped into a panel cut-out of 50 x 25mm. Makes an ideal small, low-cost and accurate digital clock suitable for a wide range of applications.

### Specification

Digit height: 10mm  
 Oscillator frequency: 32-768kHz  
 Accuracy: 15s/month  
 Operating voltage range: 1-2V to 1-8V  
 Battery life: 1 year approx.  
 Dimensions  
 panel cut-out (body): 45 x 25mm  
 depth: 15mm  
 bezel: 49 x 29mm

### Small Temperature Module FM-880LPEX

- ★ 11mm High Digital Temperature Display
- ★ 0-1 $^{\circ}$ C Temperature Resolution
- ★ Low Current Consumption
- ★ Buzzer Output
- ★ External Temperature Sensor Probe

A compact and highly accurate temperature module ideal for use in applications where external/remote temperature sensing is required. The module covers temperatures in the range -40 $^{\circ}$ C to +50 $^{\circ}$ C in 0-1 $^{\circ}$ C steps, sampling period is 15 seconds. The external probe is supplied pre-connected to the module, cable length is 3 metres. Provision is made for either internal (silver oxide watch type battery, provided) or external power supply (nominally 1-5V), current consumption is 10 $\mu$ A. Connections are provided for display/setting enabling maximum and minimum temperature points, which are used to trigger a buzzer output. Connections may be made to the module using a 7-way minicon housing (female) and terminals (not supplied).

### Specification

Temperature measuring range: -40 to +50 $^{\circ}$ C  
 Resolution: 0-1 $^{\circ}$ C  
 Supply current: 10 $\mu$ A (average)  
 Sample period: 15 seconds  
 Operating voltage: Min. 1-25V  
 Nom. 1-5V  
 Max. 1-65V  
 Accuracy: -40 to +25 $^{\circ}$ C,  $\pm 1$ %  
 +25 to +50 $^{\circ}$ C,  $\pm 2$ %  
 External probe length: 3m  
 Battery type: SG13  
 Battery life: 1 year  
 Storage temperature: -20 to +60 $^{\circ}$ C  
 Dimensions: 49 x 29 x 15-2mm

### Pin Functions

Pin 1 - +V (1-5V)  
 Pin 2 - 0V  
 Pin 3 - Buzzer output  
 Pin 4 - Display lower temperature limit  
 Pin 5 - Lower/higher limit set/reset  
 Pin 6 - Advance lower/higher limit  
 Pin 7 - Display higher temperature limit

## Temperature Module

A very versatile digital thermometer module with the LCD display and circuitry on a small pcb with a 16-way solder edge connection.

The pcb is fixed to a small plastic bracket that houses the battery. The module has an on-board temperature sensor or an external probe or probes may be fitted. By making the appropriate connections to the module the following functions are available:

- ★ **Temperature display in °C or °F.**
- ★ **12-hour clock display.**
- ★ **Set minutes and hours of clock.**
- ★ **Temperature sampling rate once per second or once per 10 seconds.**
- ★ **Set high and/or low temperature detector.**
- ★ **Output goes high when high temperature set point exceeded.**
- ★ **Separate output goes high when below low temperature set point.**
- ★ **Pulse output when either set point reached.**
- ★ **4kHz alarm output for 6 seconds after either set point reached.**

The module also has a serial data output and a 13-bit code is sent at every sample-time containing the current temperature in BCD format. A further output transmits the data clock. A comprehensive operations manual is supplied with the module. It shows how to connect relays to the temperature set point outputs, how to connect a buzzer to the alarm output, and how to connect external probes to the module. Full details are also given on the serial data output and how to read it.

### Specification

Range: -19.9°C to 69.8°C  
0°F to 159.8°F

Resolution: 0.1°C, 0.1°F

Accuracy: -10°C to +40°C  
±1°C at 1.5V  
-20°C to -10°C  
±2°C at 1.5V  
+40°C to +70°C  
±2°C at 1.5V

Temperature set points: 1° steps

Display: 3 1/2-digit 12.7mm high LCD display

Clock: 12-hour clock

Clock accuracy: ±0.5s/day

Working voltage: 1.5V (1.25V to 1.65V)

Average current: 15µA approx.

Battery life: >1 year

Overall size: 68 x 35 x 23mm deep

A plastic bezel is also available for use with the module, size 68 x 35mm and increases overall depth of module to 27mm.

External probes are also available:

Probe length: 40mm

Probe diameter: 7mm at base, 4mm at tip.

The probe is supplied connected to 3m approx, of miniature 2 core cable 2mm diameter with open end. Note that the accuracy of the meter decreases by ±2.5°C per 3m of cable and may be unstable with long wires or cable different from that supplied with probe. The meter itself will only operate in the temperature range -5°C to +50°C mainly because of the LCD display so for temperatures outside this range, the external probe will be required. Shortening the cable will improve the accuracy. The module requires a 1.5V AA cell (not supplied).

### Applications Information

Further applications information on using this module may be found in issue 71 of *Electronics - The Maplin Magazine* (XA71N). The article *Using Temperature Modules* gives details of how to interface this module to a PC to measure temperature. Requires Temperature Module Expansion Converter Kit (LM36P) and Programmable PC I/O Card (LP12N) - article includes BASIC program listing. Also, details of how to control relays and a buzzer are included. Requires Temperature Module Relay Card Kit (LM37S).

### Retail Unit Price each (inc. VAT).

## Min/Max Temperature Module

A maximum/minimum digital thermometer module with the LCD display and circuitry on a small pcb with a 16-way solder edge connection. The pcb is fixed to a small plastic bracket that houses the battery. The module has an onboard temperature sensor or an external probe or probes may be fitted. By making the appropriate connections to the module the following functions are available:

- ★ **Temperature display in °C or °F.**
- ★ **Set high or low temperature detector.**
- ★ **Output goes high when set points are exceeded.**
- ★ **Display high or low temperature settings.**
- ★ **Set sample rate to once every second or once per 15 seconds.**
- ★ **Pulse output when either set point is reached.**
- ★ **2kHz alarm output for approximately 1 minute when high or low temperature point is reached.**
- ★ **Recall the lowest or highest temperature reached since last reset.**

A comprehensive manual is supplied with the module, it shows how to connect relays to the temperature set point outputs, how to connect a buzzer to the alarm output, and how to connect external probes to the module.

### Specification

Internal Probe: -5°C to +50°C  
23°F to 122°F

Resolution: 0.1°C (0.1°F)

Accuracy: -5°C to 30°C ±1°C at 1.5V  
+31°C to +50°C ±2°C at 1.5V

External Probe, White (low range): -40°C to +50°C  
-40°F to 122°F

Accuracy

3 metre cable: -40°C to -21°C ±2°C at 1.5V  
-20°C to +25°C ±1°C at 1.5V  
+26°C to +50°C ±2°C at 1.5V

External Probe, Grey (high range): +20°C to +110°C  
68°F to 230°F

Accuracy

3 metre cable: +20°C to +34°C ±2°C at 1.5V  
+35°C to +75°C ±1°C at 1.5V  
+76°C to +110°C ±2°C at 1.5V  
1 second or 15 seconds

Sampling Rate: 1.5V (1.25V to 1.65V)

Working Voltage: 1.5V (1.25V to 1.65V)

Average Current: 10µA approx. (at 15 second sample rate)

Battery Life: >1 year

Overall Size: 68 x 35 x 23mm deep

A plastic bezel (FE35Q) is available for use with the module, size 68 x 35mm and increases the overall depth of the module to 27mm.

External probes are also available:

Probe Length: 40mm.

Probe Diameter: 7mm at base, 4mm at tip.

The probes are supplied connected to approximately 3 metres of miniature 2 core cable 2mm diameter with open end. Note that the accuracy of the meter decreases by ±2.5°C per 3m of cable and may be unstable with long wires or cable different from that supplied with the probes. The meter itself will only operate in the range -5°C to 50°C mainly because of the LCD display so for temperatures outside this range, the external probes will be required. Shortening the cable will improve the accuracy. The module requires a 1.5V AA cell (not supplied).

### Applications Information

Further applications information on using this module may be found in issue 71 of *Electronics - The Maplin Magazine* (XA71N). The article *Using Temperature Modules* gives details of how to control relays and a buzzer. Requires Temperature Module Relay Card Kit (LM37S).

## Wide Range Min/Max Temperature Module

A very versatile minimum/maximum temperature module with the LCD display and circuitry on one small PCB mounted on a battery holder, with a 17-way edge connection. The module uses an external probe to display temperatures in the range -10°C to +110°C with a resolution of one tenth of a degree, in centigrade or fahrenheit. The module records both the highest and lowest temperatures (maximum and minimum) measured by the probe, which are stored and updated in memory, and the max./min. values in memory can be displayed showing the highest lowest temperature reached since the memory was last cleared. The maximum/minimum threshold values are fully programmable. Also included is a 12 hour digital clock, a 4kHz max./min. alarm output, separate outputs for relay drivers or similar which go high for 1 minute if the relevant programmed temperature threshold is reached, and a further output which pulses at 4kHz for 1 minute if either threshold is reached and then remains high until reset. There is a separate connection for a complete system reset. The external probe is included.

### Specification

Range: -10°C to +110°C

Resolution: 0.2°C, 0.2°F

Accuracy: -10°C - 0°C ±1.5°C @ 1.5V  
0°C - 60°C ±1°C @ 1.5V  
60°C - 110°C ±1.5°C @ 1.5V

Sampling rate: 1 or 10 seconds switchable

Alarm output: 4kHz for 1 minute

Temperature set points: 1° steps

Display measuring range: °C or °F

Clock accuracy: ±0.5s/day

Working voltage: 1.5V DC (1.25V to 1.8V)

Average current: 10µA approx.  
@ 10s sample rate

Battery life: >1 year

Overall size: 68 x 35 x 23mm

A comprehensive manual is supplied with the module showing how to connect a buzzer circuit to the alarm output and relay drivers to the high/low threshold outputs, and connections for the various functions and programming modes. The plastic bezel (FE35Q) can be fitted and increases the overall depth of the module to 27mm. Note that the meter itself and mainly the LCD display will only operate in the range of -5°C to +50°C. The module requires a 1.5V AA cell (not supplied).

### Applications Information

Further applications information on using this module may be found in issue 71 of *Electronics - The Maplin Magazine* (XA71N). The article *Using Temperature Modules* gives details of how to control a buzzer and an LED. Requires Temperature Module Relay Card Kit (LM37S).

## Min/Max Dual Display Temperature Module

A minimum/maximum digital thermometer module with the LCD display and circuitry complete on a small pcb with an 11-way solder edge connection and integral battery holder. In operation the module records both the highest and lowest of external temperatures as measured by the module's own external probe. Maximum and minimum temperatures are stored and updated internally until reset. A max./min. temperature alarm function can be set to output a 2kHz tone upon either threshold being reached for external measurements. Especially useful is the module's ability to display both internal and external temperatures at once, ideal for example for providing at a glance a comparison between indoors and outdoors temperature differences. Temperatures displayed in degrees centigrade. The external probe is included.

### Specification

Internal sensor range: -5°C to +50°C  
 External probe range: -40°C to +50°C  
 Resolution: 0.1°C  
 Accuracy: -20°C - +30°C ±1°C @ 1.5V  
 -40°C - -20°C ±2°C @ 1.5V  
 +30°C - +50°C ±2°C @ 1.5V  
 Sampling rate: 15 seconds  
 Alarm output: 2kHz for 1 minute  
 Temp. set points: 1° steps  
 Working voltage: 1.5V (1.25V to 1.65V)  
 Average current: 20µA approx.  
 Battery life: >1 year  
 Overall size: 68 x 35 x 23mm deep

A comprehensive manual is supplied with the module showing how to connect a buzzer circuit to the alarm output and switches for the various functions and programming modes. The plastic bezel (FE35Q) can be fitted and increases the overall depth of the module to 27mm.

Note that the meter itself and mainly the LCD display will only operate in the range of -5°C to +50°C and it is this which limits the range of the internal sensor.

The module requires a 1.5V AA cell (not supplied).

### Applications Information

Further applications information on using this module may be found in issue 71 of *Electronics - The Maplin Magazine* (XA71N). The article *Using Temperature Modules* gives details of how to control a buzzer. Requires Temperature Module Relay Card Kit (LM37S) to control a buzzer.

YU00A	Dual Disp T Module	£11.900	£9.440	£7.750	£13.990

## Min/Max Humidity Module

A small module in the same style as our temperature modules and specifically designed to measure the relative humidity of air and record the minimum and maximum levels reached at any time since last reset. The module covers the range of 25%RH to 95%RH in 1% steps with a sampling rate of 1 second, and can be placed in a fixed location to monitor humidity, but must only be used indoors. The sensor is internal and no external probe is required. The display normally shows the current humidity value continuously, but will show the minimum and maximum values stored through the use of two momentary action push buttons (not supplied), which are identified by the word 'MIN' or 'MAX' in

the display. Both memories can be cleared by holding both buttons down. The display also shows the words, 'DRY' or 'WET' depending on the humidity. 'DRY' is approximately <53% and 'WET', >67%. There are a total of 11 connections to the module, four of which enable the module to output the currently measured value of either of the two stored values in the form of 4-bit parallel, packed BCD (Binary Coded Decimal). Each line of the 4-bit data packet begins with a pair of sync pulses, followed by its part of a bit pattern that informs the destination device whether the data is the current real-time, min. or max. reading, followed by two bits of binary data making up the two digits (most significant first), interleaved with sync pulses. The remaining data trains are specialised manufacturers codes and can be ignored. Similarly the specialised 'K' terminals can be ignored for most normal applications.

### Specification

Measuring range: 25%RH to 95%RH  
 Operating range of module: 32%RH to 90%RH, 0°C to 50°C  
 Resolution: 1%RH  
 Supply current: 20µA (average)  
 Sample rate: 1 second

Operating voltage: Min. 1.25V  
 Nom. 1.5V  
 Max. 1.65V

Accuracy: ±5%RH between 40 to 80%RH @ 25°C  
 ±7%RH below 40% or above 80%RH @ 25°C

Battery type: Single AA cell (not supplied)  
 Battery life: >1 year  
 Dimensions: 67 x 34 x 26mm

### Pin Functions

Pin 1 - display upper humidity limit  
 Pin 2 - display lower humidity limit  
 Pin 3 - +V (1.5V)  
 Pin 4 - BCD output bit 0  
 Pin 5 - BCD output bit 1  
 Pin 6 - BCD output bit 2  
 Pin 7 - BCD output bit 3  
 Pin 8 - K1 Not used  
 Pin 9 - K2 Not used  
 Pin 10 - K3 Not used  
 Pin 11 - 0V

### Price each shown, but sold only in multiples of 1.

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	+	+	
ZA38R	Humidity Module	£13.010			£15.290

## Min/Max Temperature and Humidity Module

This quality built module accurately measures the temperature and relative humidity inside a room or house (the RH is temperature compensated to maintain the best accuracy within the average indoor temperature range).

The module has its own internal sensor so no external probe is required unless an increase in the temperature range (to -58°C to 158°F) is desired. Both the temperature and humidity functions have memories to store the minimum and maximum values recorded since the last reset.

The right-hand side of the display is dedicated to humidity, showing current humidity continuously, min/max values (stored through the use of 2 momentary action push buttons, not supplied) and the words 'COMFORT', 'DRY' and 'WET' depending on the humidity. The left-hand side shows temperature in °C or °F and separate connections on the module's edge connectors are used to display min/max values while in 'MEM' mode.

There are a total of 20 connections to the module, each explained in the supplied manual. Not suitable for outdoor use.

### Specification

Humidity Range: 25%RH to 95%RH  
 Sample rate: 1 second  
 Accuracy: ±5%RH between 40-80%RH @ 25°C  
 ±7%RH below 40%RH or above 80%RH @ 25°C  
 Temperature Range: -50°C to +70°C  
 Sample rate: 1 or 10 seconds  
 Accuracy: ±1°C, 2°F  
 Operating range: 32%RH to 90%RH, 0°C to 50°C  
 Resolution: 1%RH and 1°C/F  
 Operating voltage: 3V DC nominal  
 Batteries: 2 x 'AAA' (not supplied)  
 Battery life: >1 year  
 Dimensions: 72 x 40 x 26mm

## STRIPBOARD

### SRBP Matrix Boards

A range of SRBP boards punched with holes on a 2.54mm (0.1in.) matrix. Plain board and boards with copper strips on one side are available in various sizes.

Type	Overall size (mm)	Number of copper strips	Number of holes in each strip
Plain 3962	160 x 100	none	39 x 62
Plain 3929	100 x 75	none	39 x 29
Plain 39117	300 x 100	none	39 x 117
Strip 1039	100 x 25	10	39
Strip 2939	100 x 74.1	29	39
Strip 2958	150 x 74.1	29	58
Strip 3939	100 x 100	39	39
Strip 3962	160 x 100	39	62
Strip 39117	300 x 100	39	117

All boards have 1mm dia. holes and are 1.6mm thick.

### Tripad Board

This board is specifically designed to mount dual-in-line integrated circuits and a great number of these and any other kind of component may be easily mounted. The board has 39 copper strips each with 62 holes and each strip is divided into 20 3-hole segments so that track cutting is virtually eliminated. The board is punched on a 2.54 x 2.54mm matrix with a 1mm diameter hole. Overall size 160 x 100mm.

Retail Unit Price each (inc. VAT).

Account holder or not, your order will be sent carriage paid.

(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)

### DIP Board

Vero

This board is specifically designed to mount dual-in-line integrated circuits and to assist in this two power rails run between the copper pad format to facilitate easy link-up of ground and voltage rail. Up to 20 14-pin or 28 8-pin DIL packages can be accommodated. A paper layout sheet is included. The board is punched on a 2.54 x 2.54mm matrix with a 1mm dia. hole. Overall size 157 x 114mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1920	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
FL19V	DIP Board	£11.050	£7.990	£6.990	£12.990

### Stripboard

Vero

Suitable for all applications where a conventional tag strip or group board might be used, with the advantage that small or large components are neatly accommodated. Components can be mounted across or along the strips. Copper strips run across the board with a break through the centre equal to the width of one hole (2.54mm (0.1in.)), over the full length of the board.

Overall size:	213 x 38mm
Number of strips:	81
Number of holes in coppered part of each strip:	14
Total number of holes in each strip:	15
Hole size:	1mm dia.

		1+	10+	25+	
FL17T	Stripboard	£3.870	£2.720	£2.030	£4.550

### PC, PC-XT and PC-AT series Prototyping Boards

Prototyping boards for the IBM PC, PC-XT and PC-AT series of computers, which features a large prototyping area of independent 1mm dia. plated-through holes on a 2.54mm matrix. The fibreglass boards incorporate a gold plated 2.54mm edge connector and provision for fitting a 25-way D-type connector. Four versions are available: two are for use with PC and PC-XT machines, having a 2 x 31-way edge connector and either half (JU12N) or full

(JU13P) length card. The other two are for use with PC-AT machines, having 2 x 31-way and 2 x 18-way edge connectors.

#### Dimensions

Full length:	333 x 110 x 1.6mm
Half length:	185 x 115 x 1.6mm

Retail Unit Price each (inc. VAT).

CH20W	Protobd AT1/2	£8.580	£6.820	£6.260	£10.090

### PS Prototyping Board

Prototyping board for the IBM PS/2 series of computers, which features IBM microbus compatibility and a large prototyping area of independent 1mm diameter plated-through holes on a 2.54mm matrix. The fibreglass board incorporates a top-surface groundplane and gold plated 1.27mm edge connector. The +5V contacts are shortened to ensure all other connections are made before power is introduced. 45 x 2-way and 11 x 2-way edge connectors. Suitable for IBM PS/2 Models 50, 60, 70 and 80. (Note: Model 30 uses PC AT type boards.)

Dimensions: 292 x 88 x 1.6mm.

		1+	10+	
JU11M	PS2 Proto-Board	£7.650		£8.990

### Single Eurocard Size VME-Bus Prototyping Card

A fibre-glass prototyping card for use with equipment based on the Eurocard VME-Bus standard. This prototyping board is suitable for use in racks that accept single Eurocard size boards, which includes our Modular Rack System (see Enclosures). The board is single sided and has independent 1mm holes on a 2.54mm matrix. The board will accept a 32, 64 or 96-way DIN 41612 PCB connector and also a 25-way D-type connector (for suitable connectors see Connectors). Dimensions: 100 x 160 x 1.6mm.

**Gold Plated PCB Terminals (Eyelet)**

Miniature gold plated PCB terminals designed to be fitted to circuit boards to provide test points for voltage and waveform measurement. The terminal consists of a gold plated wire eyelet and a coloured heatproof ceramic insulating spacer. The lead-outs from the terminal are sprung and therefore the terminal will not drop out when the PCB is turned over for soldering. The terminal will stand 5mm above the PCB and the eyelet has an inside diameter of 2.6mm. The terminal requires a 1mm diameter hole in the PCB. Terminals are supplied in packs of ten, one each of the following colours; black, brown, red, orange, yellow, green, blue, purple, light-green and white.

Retail Unit Price each (inc. VAT).

		1+	10+	25+	
JM02C	PCB Eyelet Terminal	£1.260	£0.620	£0.572	£1.490

**Gold Plated PCB Terminals (Pin)**

Miniature gold plated PCB terminals designed to be fitted to circuit boards to provide test points for voltage and waveform measurement. The terminal consists of a pin with protruding rings to position the terminal at the correct height and to prevent test clips from dropping off. The terminal is 9mm long overall and will stand 5-5mm above the PCB. The terminal requires a 0.8mm diameter hole in the PCB. Terminals are supplied in packs of ten.

Retail Unit Price each (inc. VAT).

## Through-PCB Pins

Harwin

Pins to provide a connection between tracks on opposite sides of printed circuit boards without the need for through-hole plating. Pins are inserted by hand then soldered on both sides. Pins fit 1mm dia. holes and are suitable for 1.6mm thick board. Pins are brass, tin/lead plated. Overall pin length: 3.5mm. Supplied in packs of 50 approx.

Retail Unit Price each (inc. VAT).

Order Code	Type 1043	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
FL82D	Track Pin	£1.090	£0.589	£0.544	£1.290

## Wirewrapping Pin

Vero

The pin is suitable for wire wrapping and fits holes of 1mm dia. Single-sided Pin 0266 is sold in packs of 100.

Retail Unit Price each (inc. VAT).

Order Code	Type 1045	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
FL80B	Pin 0266 Pk of 100	£5.350	£3.780	£3.490	£6.290

## WIRE WRAPPING SYSTEM

### Wirewrapping System

The wiring system enables fast construction of pcbs etc., requiring large numbers of wire links. It is very simple to use and the end result is neat, even when a large number of wires are packed into a small space. Simply wrap the wire around the terminal pin or component wire, set the tension on the Verowire pen and take the pen to the next component and wrap the wire there. The wire is insulated with a polyurethane coat, which is mechanically tough. Now simply solder the connections: under the extreme heat of the tip of the soldering iron, the polyurethane coat melts and the solder completes the joint.

## Wiring Combs

Vero

Plug-in wiring combs can be fitted to any circuit board that has 1mm diameter holes on a 2.54 x 2.54mm matrix. The combs are fitted to the wiring side of the board between the leads of the integrated circuits. They provide a guide and the pegs control and hold the wire ensuring a neat, stable layout. Sold individually and in packs of 100.

Retail Unit Price each (inc. VAT).

		1+	25+	100+	
FL11M	Tag Board	£1.690	£1.070	£0.990	£1.990

## PLUGBLOCK SOLDERLESS BREADBOARDS

### Plug Block Solderless Breadboards

A system for constructing circuits in such a way that the components can be used over and over again. Component wires are simply pushed into the boards where they are firmly held by double leaf spring contacts. To modify the circuit simply pull the components out and plug in again in the correct position.

## Euro Breadboard

This plugblock has a total of 600 contacts arranged in four blocks of 25 rows of five interconnected sockets on a 2.54 x 2.54mm matrix and four other rows of 25 interconnected sockets arranged around the edges of the main matrix for use as bus-bars. The distance between the two centre rows of sockets is 15.2mm, the spacing between the leads on a 24, 28 or 40-pin IC and the distance between the centre rows of sockets of both end blocks of contacts is 7.62mm, the spacing between leads on an 8, 14 or 16-pin IC package. Thus the block will hold up to six 14-pin and two 24-pin DIL packages for example. A non-slip rubber backing is fixed to the board and fixing is by four holes in the corners of the block into which will screw a No.4 self-tapper. The holes are 8BA clear. Horizontal rows are designated 1 to 25 whilst the four matrixed blocks are labelled A, B, C and D and the four bus-bar rows are labelled X1, X2, Y1 and Y2.

### Specification:

Contacts:	Nickel silver
Contact resistance:	<10mΩ
Contact rating:	1A
Contact life:	>5000 insertions
Accepts wire dia:	0.25 to 0.85mm
Dimensions:	92 x 82 x 10mm
Fixing holes:	78.5 x 68mm

Retail Unit Price each (inc. VAT).

YR83E	Eurobreadboard	£11.050	£8.360	£7.250	£12.990

See Stock Code Index For More Price Breaks

**Breadboard For Microprocessors**

A large version of the Eurobreadboard. In addition this plugblock has 5 large screw terminals -5V, +5V, -12V, +12V and Earth and colour-coded black, red, black, red and green respectively for connection to power supply. The plugblock has a total of 1422 contacts arranged in four blocks of 47 rows of four interconnected sockets, and two blocks of 47 rows of five interconnected sockets on a 2.54 x 2.54mm matrix and six other rows, four of 30 and two of 40 interconnected sockets arranged around the edges of the main matrix for use as bus-bars. A non-slip rubber backing is fixed to the board. Boards may be clipped together horizontally to form larger arrays and they will clip into the Professional Plugblock (YR84F) and the Bus Strip (YR85G).

All contact positions are clearly identified on an alpha-numeric grid.

**Specification:**

Contacts: Nickel silver  
Contact resistance: <10mΩ  
Contact rating: 1A

**Bus-Strip Plugblock**

For use with our Professional Plugblock this block clips on to any side to provide additional bus-bars. The block has a total of 80 contacts arranged in two strips of forty interconnected sockets.

The rear plastic panel unclips to allow the contact arrangement to be seen and any contact strip to be changed should it ever be damaged. Other details as Professional Plugblock.

Retail Unit Price each (inc. VAT).

YR85G	Bus-Strip Plugblock	£5.210	£3.480	£2.980	£6.130

**Silver Plated Plugblock Type RH-10S**

A high quality plugblock with silver-plated contacts for low contact resistance. The plugblock has a total of 640 contacts arranged in two blocks of 64 rows of 5 interconnected sockets on a 2.54 x 2.54mm matrix. The distance between the two centre rows of sockets is 7.62mm and the block will hold up to nine 14-pin DIL packages for example. These boards will clip onto the Silver-Plated Bus Strips described below, and a clip-on component support bracket is also available separately. All contact positions are clearly marked on an alpha-numeric grid. Fixing is by self-adhesive foam insulating strip on the base of the block.

**Specification:**

Body material: ABS polymer  
Contact resistance: <1mΩ  
Contact rating: 1A  
Contacts: Silver-plated nickel-silver  
Contact life: >5000 insertions  
Accepts wires: 0.3 to 0.8mm diameter  
**Dimensions:** 172 x 38.5 x 8mm thick

## Multi-Board

A novel plugblock having four separate strips which may be clipped together to form various configurations. For example the strips can be clipped together to form a 15.2mm or a 7.62mm centre channel for different size ICs. The pack consists of two strips each having 64 rows of 5 interconnected strips and two strips each having 4 rows of 25 interconnected strips. Further boards may be clipped on to make even larger arrays. Sockets are on a 2.54 x 2.54mm matrix. The plugblock provides a total of 840 contacts making this board exceptional value for money. The bracket described below fits onto this board.

**Specification:**  
 Body material: ABS polymer  
 Contact resistance: <10mΩ  
 Contact rating: 1A  
 Contacts: Nickel-silver  
 Contact life: >5000 insertions  
 Accepts wires: 0.3 to 0.8mm diameter  
**Dimensions:**  
 Large block: 172 x 21.5mm  
 Small block: 172 x 12.7mm  
 All plugged together: 172 x 68.5mm  
 Thickness: 8.5mm

		1+	10+	25+	
YU58N	Interface Plugblock	£37.800	£23.960	£20.540	£44.420

## Component Bracket EP-3

A clip-on component support bracket for use with the RH-10S plugblock. It clips onto either edge in place of the RH-5DS bus strip. The bracket has ten 4mm diameter holes, two 4mm x 6mm slots, two 6mm x 15mm slots, one 11mm diameter hole and two tapered holes 4mm to 19mm diameter. This enables potentiometers, rotary and toggle switches, lampholders and other components normally mounted on panels to be used with the plugblock.  
**Dimensions:** 172 x 65 x 1.75mm.

## Advanced Solderless Breadboard System

A range of solderless breadboard modules that can interconnect to suit individual requirements. The basic board AD-01 consists of four blocks of six columns of 28 rows, the sockets in each row being interconnected. The blocks are a standard DIP size apart, although MSI and LSI type chips can be used. At both ends of the blocks, there are two power busses, the 'Red' bus is made up of two separate rows of 12 connecting sockets, and the 'Black' bus is one row of 24 connecting sockets. There is an additional matrix of 30 by 6 sockets for non-dip type components, the six sockets in the vertical plane are interconnected. Each socket will accept solid wire from 20 to 30 swg (0.3 to 0.8mm). The base has a 'sticky' covering to hold the board firm on a workbench or surface. The AD-10 power block has 5 individual screw terminals that will accept 4.5mm Y-terminal, stripped wire or 4mm banana plug. Each terminal is connected to two sockets. The power block will snap lock onto the AD-01 base board to allow connections to the required power bus. The power block has the same 'sticky' base. After use the modules can be unlocked and remade into a different configuration.

AD-10 is 80 x 30mm. AD-01 is 117 x 80mm.  
AD-11 is one AD-01 and one AD-10. Size: 147 x 80mm.  
AD-12 is two AD-01 and one AD-10 mounted on a blue base board. Size: 183 x 168mm.

AD-14 is four AD-01 and one AD-10 mounted on a blue base board. Size: 335 x 168mm.

## Breadboard Module

A universal breadboard module that has been designed for students and professionals who need to perform analogue and digital experiments, and development work. The unit consists of two AD-01 (BZ13P) breadboards which have silver-coated spring terminals, and are designed to accept solid wire of 0.3mm to 0.8mm diameter. A 40-pin ZIF socket allows the breadboard to be used with large ICs such as RAM, ROM etc. Next to the ZIF socket there are two banks of 40 sockets, and every pin of the ZIF socket is connected to two of these sockets. These clearly marked banks of 40 sockets can be used to connect to the breadboards, or for taking measurements etc. The module has six independent 2mm power supply sockets (see Connectors Section for suitable plugs), marked  $\pm 5V$ ,  $\pm 12$  and  $\pm V$ , and a matching 0V socket. The  $\pm 5V$  and  $\pm 12V$  rails have reverse protection diodes and decoupling and filtering capacitors fitted, and the  $\pm V$  rails have reverse protection diodes. All the rails are connected to their own bank of ten sockets for connection to the breadboards or to the ZIF connecting sockets. Each breadboard has four power busses and provision for accepting MSI, LSI, and all DIP size chips in CPU bus connection. The module is housed in a durable, scratch-proof, plastic case with four rubber feet. Size 254 x 164 x 40mm.

## Silver Plated Bus Strip AD-4D

A high-quality silver plated bus strip, type AD-4D. The contacts are arranged in two rows, 24 black and two sets of 12 red. Can be clipped to breadboards

AD-01(BZ13P), AD-10(BZ12N), AD-100(AG08J), AD-101(AG09K) and AD-102(AH10L), or other blocks of AD-4D.  
The blocks can be attached to a suitable clean flat surface with the self-adhesive pad on the base.  
Dimensions: 81 x 12 x 10mm.

## AD-102 Breadboard

This breadboard is constructed from two of AD-4D(AG07H) and one of AD-100(AG08J) in between. A self-adhesive pad is attached to the rear of the breadboard. Can also be connected to AD-01(BZ13P), AD-4D(AG07H), AD-10(BZ12N), AD-100(AG08J), AD-101(AG09K), or other AD-102 blocks.  
Dimensions: 62 x 83 x 10mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
AG10L	AD102 Plugblock	£4.060	£2.010	£1.830	£4.780

AD-13 is three AD-01 and one AD-10 mounted on a blue base board. Size: 265 x 168mm.

## Flexible Jumper Wires

Packs of flexible jumper wires for use with our plugblocks. Wires are terminated in hard pins at each end except Spade pack where each wire has a spade terminal on one end for use with terminal posts such as those on XX42V and FD32K. Wires are insulated 11 strands of 0.16mm copper conductor with a 7mm long, 0.6mm diameter pin.

Type	Colour	Flexible length	Overall length
50	Brown	50mm	75mm
70	Grey	70mm	95mm
100	Orange	100mm	125mm
150	Violet	150mm	175mm
200	Blue	200mm	225mm
Spade	-	100mm	128mm

\*Spade pack contains 4 wires coloured red, yellow, green and black.

All packs except spade pack contain 10 wires.

## Jump Wire Kit

A kit containing 14 different length jumper wires for use with our plugblocks. Wires are stripped and formed at 90° at each end. There are 25 wires of each length:  
 2-54mm (0.1in.) uninsulated, 58mm (0.2in.), 7-62mm (0.3in.), 10-16mm (0.4in.), 12-7mm (0.5in.), 15-24mm (0.6in.), 17-78mm (0.7in.), 20-32mm (0.8in.), 22-86mm (0.9in.), 25-4mm (1in.), 50-8mm (2in.), 76-2mm (3in.), 101-6mm (4in.), 127mm (5in.). Wires are supplied in various colours and are 23swg solid tinned copper wire, and supplied in an attractive plastic case with a blue base and clear hinged lid with each length wire in a separate compartment. Overall size of box 270 x 124 x 30mm high.

## PCB MAKING EQUIPMENT

### Ultra-Violet Light Exposure Unit

An attractive metal case finished in brown and containing two 8W ultra-violet tubes. Case size 406 x 177 x 102mm. The lamps are covered by a 4mm glass sheet masked to give a maximum exposure area of 254 x 157mm. The metal lid is hinged and clips down firmly at the front. A pressure pad fixed to the lid ensures an even and firm pressure on the PCB to keep it in good contact with the glass over the whole exposure area. The box incorporates a mains switch and indicator and is connected to the mains (240V AC) via mains lead supplied. The unit must be used with our Photo-etch board and after exposure the board must be developed using sodium hydroxide solution (caustic soda) available from most chemists (e.g. Boots) before etching in ferric chloride in the normal way. Full instructions for use are supplied with the exposure unit.

Retail Unit Price each (inc. VAT).

Order Code	Type 2026	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
XY10L 5	UV Exposure Box	£84.250	£42.000	£30.000	£99.000

### Replacement UV Tubes

Spare tubes are available should replacements be required, for UV Exposure Box (XY10L).

Retail Unit Price each (inc. VAT).

		1+	4+	12+	
FJ55K	Spare UV Tube Exp Bx	£9.870	£8.000	£6.990	£11.600

### Ultra-Violet Light Exposure Box

A large ultra-violet light exposure box for PCB production work. The exposure box is constructed from anodised aluminium and has a hinged laminated wood lid with side locks. The inside of the lid has a foam pressure pad to ensure the artwork and PCB are held firmly. The exposure box is equipped with four 15W 43cm ultra violet tubes which are controlled by an electronic exposure timer (adjustable via a front panel slot). The tubes are covered by 4mm glass which provides an exposure area of 369 x 241mm. Overall size: 495 x 95 x 320mm. Power requirements 240V AC 50Hz mains.

Retail Unit Price each (inc. VAT).

CH34M	Etching Tray Set	£11.050	£8.250	£12.990

## 110°C Thermometer

A 300mm long glass mercury thermometer with accurate 1° graduations from -10°C to 110°C Ideal for use with etch tanks and similar applications.

Retail Unit Price each (inc. VAT).

Order Code	Type 13413	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
JA60Q	110C Thermometer	£4.860	£3.900	£2.780	£5.720

## Low Cost Etch Tank

A low-cost PCB etching tank that will accept a PCB up to a maximum size of 200 x 250mm (160 x 250mm if heater used). The super slim translucent tank allows a large board to be etched with the minimum of solution. If the optional heater (JU66W) and pump (YZ69A) are used then etching time can be reduced by up to 80%. The graduated tank requires between 1litre and 1.5litres of ferric chloride at a temperature of approximately 50°C, and is suitable for use with double sided PCBs The

optional thermometer (JA60Q) is ideal for monitoring the solution temperature. Supplied with: brackets, air tube, clips and hanging wire.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GZ88V	Ni-Cd Slt & Lead	£2.160	£2.540

## Bubble Etching Tank

An ingenious and easy to use bubble etch tank. Ideal for development work in laboratories, schools, colleges and universities. The bubble etching tank consists of a smoked acrylic plastic tank, with integral air distribution channel, the PCB being etched may be clearly observed whilst in the tank. Supplied with the tank are two supporting feet which simply clip into place on the tank, a thermometer, air-tube, tank lid and lengths of titanium wire to support the PCB during etching (titanium wire will not be attacked by normal ferric chloride etching solution). Pump and heater are not supplied with the tank and must be purchased separately. Suitable pump and heater (YZ69A) and (JU66W) are available.

Retail Unit Price each (inc. VAT)

Order Code	Type	Price each exc. VAT	inc. VAT each
YZ34M	Etch Tank	£37.870	£44.500
YZ69A	Etch Tank Pump	£12.750	£14.890
JU66W	Etch Tank Heater	£9.350	£10.790

## Bubble Etching System

An ingenious and easy to use bubble etch system that will greatly increase the throughput of small scale PCB production. Ideal for development work in laboratories, schools, colleges and universities. The bubble etching system consists of a durable rigid PVC frame to which the component parts are fitted. These are a glass etching tank, a thermostatic heater, a thermometer, an air distribution pipe and a diaphragm pump. A PCB holder, which can accommodate boards up to 180 x 260mm, allows easy insertion and removal of the board to be processed. A drip tray is provided to guard against spillages and a cleaning rod is also supplied to facilitate tank cleaning. The air flow circulates the etchant and this ensures that the temperature is maintained evenly and prevents coldspots. The etchant circulation results in fast and even etching over the surface of the board. The

etching process can be continually monitored through the clear glass tank. The frame has provision for a second identical tank to be added and this could be used for photo-resist developing, washing or as another etching tank. Accessories and spare parts are available separately, see below. Overall dimensions (excluding drip tray) 100 x 340 x 340mm. Power requirements 240V AC 50Hz mains, pump 5W, heater 100W.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
XM67X	Bubble Etch Unit	£126.800	£149.000

## Bubble Etch Spare Parts and Accessories

The following items are available as spare parts and also for adding a second tank to the main unit. A PCB holder; a glass tank; a 100W thermostatic heater; a diaphragm pump and an air distribution pipe.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YZ05F	Bble Etch PCB Holder	£11.840	£13.920
YZ06G	Bble Etch Glass Tank	£44.460	£52.250
YZ07H	Bble Etch Heater	£27.660	£32.510
YZ08J	Bble Etch Pump	£24.220	£28.460
YZ09K	Bble Etch Air Dist	£10.850	£12.780

## PCB Component Mounting and Soldering Frame

An ingenious and flexible solution to component insertion and soldering problems. The extruded aluminium frame will hold a PCB with dimensions up to 185 x 235mm. The first stage of PCB assembly is to clamp the board in position using the adjustable clamp bars. The PCB is held firmly by 8 spring clips and the components can now be inserted. Once insertion is complete, the foam padded lid is fitted, which holds the components in position. The frame is then turned over and the underside of the board can be soldered and leads cropped without components falling out. Overall size 260 x 240 x 50mm. Supplied unassembled.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
XM72P	PCB Assembly Frame	£44.460	£52.250

## Printed Circuit Board Clamps

A plastic moulded clamp for holding printed circuit boards of up to 3mm max. thickness. The clamp can also be screwed onto a board as part of a jig assembly for testing purposes. The clamp has been designed to be used with the various contact probes, so the PCB is sitting on the probes with the clamps holding the board in place. A lever with a thumb platform allows the PCBs to be removed with ease, whilst a wide base enables the user to screw the clamp into the desired position. Base measures: 34 x 25mm Height to PCB level: 12mm Total height: 30mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KU16S	PCB Clamps	£1.320	£1.560

## Conductive Rack for PCBs

CIFF

A modular rack system that has been designed for safely holding PCBs during all stages of assembly, cleaning or testing. The width of each module is easily adjusted from 0 to 290mm, by sliding one side panel along the aluminium extrusion and tightening 2 screws. The module is stackable in all directions so that racks of unlimited height and depth may be constructed. The two front handles are used for holding the assembly, and two back strips are provided which, when fitted, prevent the PCBs from sliding out of the back of the rack. Two moulded hooks are supplied for wall mounting the modules. The plastic sides are antistatic so sensitive devices may be safely stacked in PCBs without special precautions, other than earthing the rack.

### Supplied Parts:

Side assemblies:	2
320mm long aluminium extrusions:	2
Back strip:	2
Wall hooks:	2
Nut holders:	4
Nuts/bolts:	10 sets

Manufacturer's Code	Type	MPS Code
PC-01C	conductive	DH21X

Order Code	Type	Price each exc. VAT	inc. VAT each
DH21X	PCB Conductive Rack	£20.410	£23.990

**Free delivery for all Maplin MPS Business Account Holders!**

(Additional Charge for Guaranteed Next Day Delivery see front of catalogue.)

## ETCHING EQUIPMENT

### Copper-Clad Boards

A range of copper-clad boards suitable for making your own printed-circuit boards.

The following types and sizes are available:

Single-sided SRBP:

- 203 x 102mm (8 x 4in.) (Small single)
- 254 x 152mm (10 x 6in.) (Medium single)
- 305 x 203mm (12 x 8in.) (Large single)

Double-sided SRBP:

- 203 x 102mm (8 x 4in.) (Small double)
- 254 x 152mm (10 x 6in.) (Medium double)
- 305 x 203mm (12 x 8in.) (Large double)

Single-sided Fibreglass:

- 203 x 102mm (8 x 4in.) (Small single)
- 254 x 152mm (10 x 6in.) (Medium single)
- 305 x 203mm (12 x 8in.) (Large single)

Double-sided Fibreglass:

- 203 x 102mm (8 x 4in.) (Small double)
- 254 x 152mm (10 x 6in.) (Medium double)
- 305 x 203mm (12 x 8in.) (Large double)

### Pre-Sensitised Copper-Clad Board

Single and double-sided copper clad SRBP and glass fibre boards coated with a positive photoresist suitable for use with our UV exposure box. The boards are covered with light proof protective film, which should not be removed until the board is used. The PCB should be exposed using our UV exposure box and a circuit overlay transparency. Exposure time will be from 8 to 15 minutes. Mix together 0.5l approx with one teaspoonful of sodium hydroxide (available from most chemists) and pour into a tray (CH38R). Gently rock the exposed PCB in the tray until the unwanted photo resist is dissolved away. Etch the board in a bath of ferric chloride and after rinsing, expose the PCB in the UV box for a further 10 minutes. Wash off all the remaining etch resist in a tray of sodium hydroxide solution.

Sizes Available

### Student Etch Pack

A basic, beginners etching kit that allows the constructor to produce boards in a 'freehand' style, quickly and easily. The kit offers a considerable saving over buying the parts separately.

Contents

PCB etch resist marker pen	1	(HX02C)
FeCl etching fluid 250ml	1	(WF10L)
SRBR board 203 x 102mm	5	(HX00A)
Green etch tray	1	(CH39N)

Retail Unit Price each (inc. VAT).

Order Code	Type 13405	Price each exc. VAT		inc. VAT each 1+
		1+	5+	
GT07H	Student Etch Pack	£11.900	£9.990	£13.990

### PCB Starter Kit

Press-n-Peel

A comprehensive kit of parts to produce professional looking PCBs easy and quickly. The kit includes the 'Press-n-Peel' transfer system for marking out the boards prior to etching. Full instructions included.

Kit contents

1 pack	assorted single-side copper boards (10 x 8, 9 x 6, 8 x 6, 7 x 5, 6 x 4, 5 x 3)
1 off	tray for etching boards
1 off	tray for rinsing boards
1 off	500g SP etchant
1 off	permanent etch resist pen
5 off	sheets of Press-n-Peel
1 off	100ml approx. of Press-n-Peel stripper
1 pack	10 paper wipes
1 pair	safety glasses
2 pairs	latex gloves
1 pack	data sheets inc. Health and Safety

Retail Unit Price each (inc. VAT).

Order Code	Type 17252	Price each exc. VAT			inc. VAT each 1+
		1+	3+	5+	
MC50E1	Starter Kit	£55.310	£52.500	£51.000	£64.990

### PCB Etch Powder

Press-n-Peel

- ★ Safer, and excellent value compared to ferric chloride
- ★ Excellent stability
- ★ Etching time is 5 to 10 minutes at 45°C
- ★ 1kg makes 5l of etch solution

This sodium persulphate based etch powder has been specifically developed for etching copper laminate used in the electronics industry. The product exhibits excellent stability in use leaving surfaces clean, even and free of staining. 1kg will make 5l of etch solution, or 200g per litre. 4.5l of water is heated to between 40 to 50°C and the powder is slow stirred into the water. When dissolved, top up to 5l with water. The solution should last between 4 to 8 weeks, but is dependent upon the volume of copper in solution.

N.B To prevent premature breakdown of the solution, do not operate in excess of 50°C. Supplied in 1kg tubs.

Retail Unit Price each (inc. VAT).

## Ferric Chloride Crystals

Electrolube

A pack of Ferric Chloride (FeCl<sub>3</sub>) crystals for etching copper clad boards. Packet contains sufficient crystals to make one pint of solution. Dissolve in 250ml of warm water. Store and etch in plastic or glass vessels. With regular stirring, etching will take about 20 minutes or longer depending on how many times solution has been used before. One pint will etch about 2260sq.cm. (350sq.in.).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
XX12N	Etch Crystals	1+ £6.110 10+ £3.990 50+ £3.550	1+ £7.180

## Printed Circuit Board Etch Resist Marker Pen

A nylon tipped pen for fast fabrication of perfect printed circuit boards. The ink adheres perfectly to copper and is completely resistant to ferric chloride and other usual etchant solutions. Draw the planned circuit onto a thoroughly cleaned copper laminated board and allow to dry. Then immerse the board in etching fluid until the copper is dissolved. The ink can then be removed with Degreasing Solvent or PCB Cleaner, and the circuit board is then ready to be drilled and assembled. This pen is capable of producing thin, delicate lines allowing for quite a condensed track layout if required. It can also be used as an indelible marker felt tip pen for an enormous range of materials especially metals.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
HX02C	PCB Pen	1+ £1.940 25+ £1.490 100+ £0.990	1+ £2.290

## Dalo Etch Resist Marker Pen

An etch-resist marker pen similar to the one above, but having better adhesion to the board if it is not perfectly clean of grease and oxides.

Retail Unit Price each (inc. VAT).

## Polishing Block

Block is ultrafine non-metallic polishing compound bonded in an elastic material which wears evenly. It cleans, degreases and polishes in one clean simple procedure, totally eliminating the need for abrasive pastes, water washes and solvent washes. It has been designed primarily for cleaning copper-clad boards prior to application of resist inks, or finished circuits prior to tin/silver/gold plating. It is equally useful for cleaning contacts, switch gears, potentiometers, connectors, adjustable transformers etc. Supplied individually.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
HX04E	Polish Block	1+ £2.370 12+ £1.790 120+ £1.310	1+ £2.790

## Positive Photoresist Aerosol Spray

Electrolube

An aerosol can of positive photoresist for coating copper-clad board. To use, first use a fine grade emery cloth or polishing block to remove dust, dirt, grease, fingermarks and oxide from the copper surface. Rinse well and dry thoroughly. The coating must be applied in subdued light. Shake the can, place the board horizontally in a dust-free area, then holding the can at a 30° to 45° angle, from a distance of 20 to 30cm spray with smooth strokes in a zig-zag pattern. Leave in low light for 5 minutes until touch-dry. Move to a dark well-ventilated area and leave for 24 hours (or heat to 80°C for 15 minutes, but do NOT use an open flame or incandescent element). The board may now be used in the normal way, with our UV Light Box. Available in 150g/200ml cans.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YM62S	Pos Photores 150g	1+ £8.500 12+ £5.890 36+ £5.080	1+ £9.990

## Universal PCB Developer

A sodium-hydroxide free PCB developer that is supplied in free flowing odourless granules and is ready for dilution with water. Suitable for single or double sided PCBs, and all applications such as prototype work is 10g of granules with 100ml of water, or the full 250g would make up to 2.5l of developer.

The ideal temperature for dilution and developing is room temperature, i.e. approximately 20°C.

Development time will depend on the complexity of the board design, dilution ratio of the solution and the temperature.

After development, the board should be rinsed thoroughly and dried either in air or an oven. Always wear protective gloves and goggles and avoid contact with the eyes and skin, but in case of contact, flush liberally with water.

Ensure all containers and utensils used with this product are made from strong chemical resistant plastics or glass.

Do not use any equipment made from metal.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
AP01B	PCB Developer	1+ £6.800 12+ £4.290 36+ £3.780	1+ £7.990

## Photoresist Developer

Electrolube

For use with positive photoresist PCBs, the developer must be diluted 4:1 with water before use. Place the prepared board in the solution for 30 to 90 seconds at 20°C. Development is complete when the shiny copper shows through on the non-image areas. Rinse the board thoroughly with water to halt the development process. When the board is dry it is ready for etching. Supplied in 250ml bottle.

Retail Unit Price each (inc. VAT).

## Black Tak Kit

Loctite

A tough instant adhesive for strain relief and mounting larger components to PCBs. Black Tak adhesive with activator cures fast at room temperature and provides tough joints resistant to high temperature. Withstands impact shocks, cleavage loads and stresses caused by thermal shock. Uses include mounting large components to PCB, strain relief large components, elimination of lead stress on high profile components, strain relief on cable connections and reinforcement of terminal wires.

Kit contains:

- ★ 20g adhesive 4105
- ★ 25ml spray activator 7455
- ★ 2 dispensing needles

Retail Unit Price each (inc. VAT).

## Tak Pak Kit

**Loctite**

An instant adhesive for wire tacking and component mounting. Tak Pak Kit gives excellent performance on substrates used in PCB assemblies.

Tak Pak high viscosity instant adhesive with activator cures in seconds at room temperature. Withstands high temperature and thermal cycling. Use for wire tacking and anchoring and component mounting.

**Kit contains:**

- ★ 20g adhesive 382
- ★ 25ml spray activator 7455
- ★ 2 dispensing needles

YC07H	Tak Pak Kit	1+ £19.260 10+ £19.170 25+ £18.430	1+ £22.640

## Output Kit

**Loctite**

A thermally conductive adhesive which cures rapidly at room temperature. It is designed for bonding electronic components to heat sinks or PCBs. The high thermal conductivity provides excellent heat dissipation.

**Kit contains:**

- ★ 25ml adhesive 315 in syringe
- ★ 18ml activator in brush top bottle

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YC06G1	Output Kit	1+ £26.190 10+ £25.200 25+ £24.600	1+ £30.780

## Tempflex Kit

**Loctite**

A completely non-corrosive sealant adhesive paste for use on corrosion sensitive substrates.

The single component translucent paste cures at room temperature to form a high strength flexible rubber. Adhesion to metals, plastics, ceramics and glass is excellent. Tempflex meets MIL A 46146B, Group II, Type 1. The flexible material properties remain constant from -55°C to +300°C and withstand long term exposure at 250°C.

Especially designed for critical applications on military, industrial and automotive electronics under harsh environments. Uses include stress relief, bonding PCBs to housings, sealing and gasketing electrical devices, protecting and encapsulating corrosion sensitive parts and repairing silicone rubber gaskets.

**Kit contains:**

- ★ 40ml adhesive sealant 5145 in tube
- ★ 2 dispensing needles

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YC09K	Tempflex	1+ £6.540 10+ £6.080 25+ £5.850	1+ £7.690

## Peelable Coating Mask

**Electrolube**

A flexible, solvent resistant latex for masking components, connectors and other items prior to applying a conformal coating, to ensure that sensitive items, and areas requiring further processing are not coated. The mask can be applied to adjustable pots, IC sockets etc. to prevent ingress of coating. The high film strength of the mask means that it can be peeled away by hand without breaking or leaving residues. Note that this product contains ammonia and therefore must be applied and allowed to dry in a well-ventilated area. Supplied in 250ml bottles.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YT48C	Peelable Coat 250ml	1+ £5.420 12+ £3.990 36+ £3.550	1+ £6.370

## Bloc'Lube

**Electrolube**

A one part, air drying, tamper evident seal for screws, nuts, tuneable items and other "factory fixed" components where evidence of unauthorised access is required. It is also ideal for application onto rotary controls to ensure that settings do not move under vibration loads etc. Available as 15ml bottle with integral brush in colours red or green.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FC36P	Bloc'lube Red	1+ £2.050 5+ £1.960 10+ £1.860	1+ £2.420

## Clear Protective Lacquer

**Electrolube**

A general purpose convenient coating designed to protect PCB's from environmental attack. Also ideal for protecting ferrous metals from corrosion. Gives a high quality glossy finish, good resistance to humidity, good surface resistivity and circuits can be resoldered through the lacquer. 100% Ozone Friendly. Supplied in 200ml aerosol.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

**All Customers**  
No additional freight charges for heavy items

## Acrylic Conformal Coating

**Electrolube**

A flexible transparent acrylic conformal coating which can be used to protect printed circuit boards and sensitive electronic circuitry from the effects of humidity and corrosion. Ideal for sealing EHT and high voltage conductors, and can be used for additionally insulating automotive HT circuits against the weather, for example. Does not crack or discolour, conforms to international specifications. Disappears quickly and easily on the application of a soldering iron, hence the circuit is not difficult to service or modify afterwards. Supplied in a 400ml aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DM82D	Acrylic Confl Coating	1+ £6.400 12+ £4.690 36+ £3.670	1+ £7.530

## High Performance Acrylic Conformal Coating

**Electrolube**

A flexible transparent acrylic coating specially formulated for the protection of electronic circuitry to meet the highest defence and aerospace industry requirements. Possesses excellent adhesion under all climatic conditions. It is resistant to mould growth and has a temperature range of -60 to +130°C. It has excellent dielectric properties and is fluorescent under ultra-violet light as an aid to inspection. Can be soldered through without fear of highly toxic gases being produced e.g. isocyanates. It is non-corrosive to cadmium and zinc plate (contains no phenols). It can be totally removed with 1.1.1 trichloroethane. Supplied in 200ml aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YT50E	HPA Conformal Coat	1+ £6.700 12+ £5.340 36+ £4.030	1+ £7.880

## Very High Temperature Conformal Coating

**Electrolube**

A flexible, transparent modified silicone resin conformal coating specially formulated for the protection of electronic circuitry to meet the highest defence and aerospace industry requirements. Possesses excellent adhesion under all climatic conditions and is resistant to a wide range of solvents. Excellent resistance to mould growth and ultra-violet light. Wide temperature range from -70 to +200°C.

The coating produces a high gloss finish, exceptionally low oxygen permeability and high surface resistivity. It has good dielectric properties at all frequencies, and is fluorescent under ultraviolet

light as an aid to subsequent inspection. Can be soldered through without fear of highly toxic gases being produced, e.g. isocyanates. Non-corrosive to cadmium and zinc plate (contains no phenol). Supplied in 200ml aerosol can.

## ETCH RESISTANT DRAFTING AIDS

### PCB Transfers

A range of high quality rub-down black symbols suitable for making printed circuit boards. Available as individual sheets or one of each in a starter kit of fourteen sheets. All symbols are acid resistant, have a clear sharp outline and are fully lightproof. The specially designed transparent symbol carrier prevents stresses being imparted to the symbol during application and eliminating symbol edge tearing. The carrier retains its shape even during heavy handed application or the use of unsuitable rub-down tools. The customised symbol adhesive prevents unwanted side-effects and guarantees optimum symbol adhesion. Sheet size 210 x 94mm.

#### How to use:

Rub down the printed circuit board with Polish Block or fine abrasive paper to give a good finish to the copper surface. Do not use liquid cleaners or water and keep the board dry and clean whilst you are working. Mask the unwanted symbols on the transfer card being used, with the release paper backing, or cut out the required symbol place in position on the printed circuit board (tacky side down), then rub the reverse side of the symbol with a ball pen or soft pencil lead. Lift off the clear film and smooth over by rubbing the release paper over the symbol to make sure there is no lift at the edges. The printed circuit board may now be etched to remove the unwanted copper. When complete, wash under water and rub the transfer away with Polish Block, fine wire wool or scouring powder. You will then have a professional looking printed circuit board, ready to drill and assemble.

#### Sheet details:

- Sheet 1 2176 circle pads 1.6 x 0.38mm.
- Sheet 2 20 straight lines 170 x 1.61mm.
- Sheet 3 480 circle pads 2.54 x 0.45mm.
- Sheet 4 351 circle pads 3.6 x 0.79mm.

- Sheet 5 210 transistor pad sets, each circular pad is 2.4 x 0.32mm.
- Sheet 6 45 16 pad DIL ICs spaced at 7.62 x 2.54mm (0.3 x 0.1in.), each circular pad is 2.16 x 0.38mm.
- Sheet 7 90° bend lines, fifteen bends 2.25mm wide, twelve bends 3.0mm wide.

- Sheet 8 8 rows of 68 pairs of pads with 'between-pad' tracks, pads are 2.54mm diameter.
- Sheet 9 77 sets of 8 pads 1.6 x 0.34mm with through tracks for DIL IC's.
- Sheet 10 0.1 inch spaced edge connector fingers, 12 rows of 32 fingers.
- Sheet 11 21 straight lines 170 x 0.65mm.

- Sheet 12 90° bend lines, 24 bends 0.65mm thick, 24 bends 1.61mm thick.
  - Sheet 13 33 sets of DIL IC pads with leads and offset holes.
  - Sheet 14 7 straight lines 170 x 3.0mm, 8 straight lines 170 x 2.25mm.
- The kit contains one each of all of the 14 sheets listed.

### Black Circles

Die-cut circles manufactured in black crepe and supplied in the form of a roll with half of each symbol stuck to a clear carrier tape. To apply, separate the circles from the carrier, release the

film from its protective backing paper and position carrier with circle on the artwork or PCB. Then having applied pressure to the circle, gently pull away the carrier film at an angle leaving the circle securely in position. This method is undoubtedly the most simple, accurate and speedy way to make PCB artwork.

Circles are supplied in rolls of 250 circles.

The following sizes are available.

Outside dia. (in)	Inside dia. (in)	Outside dia. (in)	Inside dia. (in)

### Dual-In-Line IC Clusters

Sixteen circles arranged in a 2.54 x 7.62mm (0.1 x 0.3in.) pitch (1:1) or a 5.08 x 15.2mm (0.2 x 0.6in.) pitch (2:1), to suit ICs up to 16-pin DIL.

Symbols can be laid end to end and/or split to make them wider to suit any size IC package.

These pads offer a considerable time saving over using individual pads. Supplied in rolls of 100 16-pin DIL grouped symbols. These pads are not suitable for use directly on PCBs, only for artwork masters.

Retail Unit Price each (inc. VAT).

### Drafting Template

A clear plastic template to speed the job of placing pads for PCB artworks. Holes are laid out over the template in various patterns and pitches; simply lay the template over the artwork or PCB, put a pin through the appropriate holes to lightly mark the position, remove the template and put the pads down centred on the marks. The following patterns are marked on the template. DIL packages up to 40-pin at 0.3in and 0.6in. pitch as applicable, TO5, TO18 and TO3 transistor packages including fixing holes for TO3, 8-pin, 10-pin and 12-pin round IC packages. In addition there are a series of precision holes to check drill sizes between 0.6mm and 2mm where drills are often too small to be marked on the shank. Manufactured in clear plastic. Overall size: 64 x 51mm.

Retail Unit Price each (inc. VAT).

## Drafting Film Pack

A pack containing 5 sheets of polyester drafting film and one sheet of 2.54 x 2.54mm (0.1 x 0.1in.) grid. Lay one sheet of film on the grid which then assists in exact placing of the tracks and pads that make up the artwork. The piece of film with artwork on it is then placed on the UV exposure unit with the coppered photoresist board on top of it and the lid closed. The artwork may be altered or re-used whenever required. Sheet size: 248 x 150mm.

Retail Unit Price each (inc. VAT).

## Press-n-Peel PCB Transfer System

RECENTLY INTRODUCED

Create high precision professional PCB layouts quickly and easily. These 8 1/2" x 11" ("letter" setting on printers) sheets are designed for use with Laser printers or photocopiers. Print directly from a graphics program or photocopy (after reversing the image as necessary) onto the sheet. Then simply iron onto a copper-clad board using your domestic iron (steam setting not recommended). Leave to cool for a few minutes then peel the sheet from the board leaving the layout ready to be etched as normal. Supplied in a pack of 5 sheets.

Retail Unit Price each (inc. VAT).

## PCB DESIGN SOFTWARE

### PCB Designer for Windows

- ★ Easy to use – you can be up and running in minutes
- ★ Familiar Windows layout and toolbar operation

### ★ Excellent value for money

PCB Designer is an MS Windows application that enables you to design artwork for producing Photoetch PCBs. Its main design goal is to make this process as easy as possible for the user. It is written for Windows 3.1 in enhanced or standard mode, with 2MBytes of extended memory. Since it is a Windows application it will support any printer for which you have a Windows driver. The program emulates a conventional drawing board, onto which you can place pads, tracks, ICs, etc. For example, to add an IC to the board you click on the IC button (there are predefined sizes of 8, 14, 16 and 20 pins and a custom size) on the toolbar, then click on the layout at the point where you want each IC. Tracks are added in a similar way. You can add elbows to a track simply by placing the mouse cursor on a straight section of track, pressing the left mouse button and dragging the new node to where you want it. The track behaves as though it was a piece of elastic. SMT pads are available from a second, floating toolbar. The program will allow you to produce single and double sided PCBs. You can edit each side independently, or both at once. When printing, you have the option to print the layout in colour or monochrome. Export layouts via the Windows clipboard in WMF format. The package is ideally suited to the home, educational and small business user. Available on 3.5in. 720K floppies only.

CH42V	PCB Designer for Win	£51.560			£60.590

## Quickroute - Integrated Schematic & PCB Design System for Windows.

### Quickroute Systems

A totally integrated schematic and PCB design system for Windows 3.1, 95 and NT, containing all the tools necessary for creating great looking schematics and professional PCBs. Two versions of the packages are available with the following common features:

- ★ Metric or imperial measurements with resolution of 0.02mm/0.001in.
- ★ Supports designs upto 600 x 600mm
- ★ Pad/track sizes can be customised
- ★ Support for arcs, polygons, polylines, ellipses, rectangles, filled shapes
- ★ Windows fonts Quickroute vector fonts - suitable for rotation, mirroring, reflection etc.

A range of symbol libraries are supplied which can be edited and added to. Full clipboard support with cut, copy and paste, colours that can be customised, part bins for storing frequently used objects, multiple button bars and tool tips. Comprehensive online help and RouteASSIST technology (assisted PCB track placement) included with all versions of Quickroute. All products are boxed (except libraries) and include a comprehensive printed manual and 89mm/3.5in. disk.

The minimum system requirement is a 386 PC with 4M of RAM, Windows 3.1, NT or 95, 5M hard disk space and a Windows compatible mouse. A 486 PC with 8M of RAM is recommended.

### Quickroute 3.5 Personal

This is the entry level system, that has the above features plus the following:

- ★ PCB design supports 2 copper layers, 2 silk

- screen, through layer and solder mask layers
- ★ RouteASSIST technology automates placement of PCB tracks
- ★ Check Rats function automatically removes redundant rat lines after manual routing, or use of RouteASSIST
- ★ Supports Windows compatible printers and plotters

The package includes a set of symbols for schematic and PCB design (passives, transistors, linear, TTL, etc.).

### Quickroute 3.6 Designer

This a professional product offering all the feature of 3.5 Personal plus:

- ★ Schematic capture - turns a schematic into a PCB rats nest at the touch of a button
- ★ Auto-routing will automatically route PCBs using 1 or 2 copper layers.
- ★ Design rule checking will check to see if any pads or tracks are too close
- ★ Connectivity Checking will compare your PCB with the originating schematic and give a pass or fail if there are any differences schematic and PCB design

### SMARTRoute 1

This a powerful and versatile Windows 32-bit autorouter that 'plugs-in' to Quickroute 3.6 and automatically updates Quickroute's menus with new features and options. QSMARTRoute allows the user to set both global options and group options (associated with groups of nets, e.g. power rails, digital busses etc.). Global options include strategy (normal, No 45°, digital, minimise via, custom etc.), grid size, iterations and max layers (1 or 2). Group options include strategy (no vias, no 45°, custom, etc.), track & via spacing, layers used and priority. Strategies can be fully customised and comprehensive documentation is supplied. SMARTRoute requires at least a 386/486 PC with 8M of RAM, Windows 95, NT or 3.1, 5M of hard disk space, and a Windows compatible mouse. Note more memory may be required for larger boards.

### Library Pack 1 -CMOS & SMT

This library pack contains 114 CMOS 40xxx/45xx series schematic symbols and 95 D/A and A/D converter schematic symbols. Package includes manual and 89mm/3.5in disk.

Retail Unit Price each (inc. VAT).

## Easy-PC with Libraries

### Number One Systems

An extensive Computer-Aided Design (CAD) software package that will produce superb PCB artworks and circuit diagrams. Easy-PC provides very comprehensive features, is very fast and yet using its main features can be learnt within an hour. It is aimed at those who

already own an IBM PC/XT/AT or equivalent, still use manual design methods or have been put off changing to a CAD system by the cost of existing software. Easy-PC permits the design of PCBs of up to 43.2cm (17in.) square, with up to 8 track layers and 2 silk screen layers. Drill templates and solder-resist artwork can also be produced with precision and accuracy. Many major component types (including surface mount) are stored in a 'library' and new symbols can be defined if required. Interconnecting tracks of eight different widths and pads of many different shapes and sizes are stored in the library, and can be extracted at any time. Suitable tracks and pads can be found for all major applications, which include signal, logic and power circuits. Components, pads and edge connectors are 'placed' onto a grid (with a resolution of 0.05mm), and interconnecting tracks are 'laid' between them. Track angles can be fixed at 45°, 90° or any user-defined value. The software is menu-driven and can be used with the cursor keys or a mouse. The final design can be output to a penplotter or a dot-matrix printer, and may be reduced or enlarged in scale. If enlarged, then the artwork can be 'photo-reduced' to the correct size with a great improvement in quality, particularly if a dot-matrix printer is used. This process will also allow image transfer directly to film, the result being artwork that can be used with the standard UV photo-etch process. Multiple copies could be produced so that the simultaneous processing of several boards could be achieved if small batch manufacture is intended. The circuit diagram program is similarly easy to use, and offers superb results of publishable standard, although as with the PCB design software the overall quality would depend on the printing device used. The Easy-PC package includes comprehensive instruction manual/tutorial, 133mm (5 1/4in.) and 89mm (3 1/2in.) program discs, a large symbol library, unlimited free telephone support and any software updates issued within 6 months of the date of purchase.

The two Easy-PC libraries supplied with the package contain between them over 1500 Schematic and PCB layout symbols that can be used with the Easy-PC program. The Schematic program contains a collection of over a thousand drawing symbols covering thirteen logic families and a range of popular microprocessors, memories and support chips. It also has board layout symbols for single and double Eurocards. The Surface-Mount program contains over 500 PCB component land patterns from simple two-pin passive devices through DILs, Quads, Flat-packs, Ceramic and Plastic Chip Carriers, to a 244-pin PLCC. All the symbols in both libraries are fully compatible with Easy-PC, and may be used freely alongside symbols from Easy-PC's own library. Supplied on two 89mm (3 1/2 in.)

### System Requirements:

The hardware required to run this software is an IBM PC/XT/AT/386, or a true compatible, running DOS 2.0 (or later), with a minimum of 512k memory and having at least CGA graphics capability. A maths co-processor is not required. A mouse (Microsoft or equivalent) is not essential but is highly recommended. If a printer is to be used, this can be a laser or a 9 or 24-pin print head that is compatible with IBM graphics systems.

## Easy-PC Professional

### Number One Systems

Easy-PC Professional is a powerful, yet easy to use, second-generation software package for the production of quality Printed Circuit Board Layouts and Schematic Circuit Diagrams. It is a development of the British Design Award-winning Easy-PC. The 'Professional' has the automatic schematic to PCB translation, checking and simulation facilities which do not appear in its predecessor. The Easy-PC Professional will run on any industry standard PC under MS-DOS version 3 or later. A Hard Disk, a VGA or EGA screen and 640K of RAM are required. Easy-PC Professional will accept drawing files from Easy-PC for updating and maintenance purposes.

## Easy-PC Professional 74HC and HCT Libraries

### Number One Systems

This library contains complete components for the 74HC and 74HCT logic families including the DIL PCB patterns. This library is fully compatible with all other EASY-PC Professional libraries and components from all libraries can be freely mixed in a single design.

This library comes with a comprehensive instruction booklet which includes listings of all the available components. Following the listings there is a series of drawings illustrating each of the schematic components, their pin names, and the pin numbers used on the PCB patterns. These are shown actual size, and are followed by the PCB patterns at twice actual size. Accompanying the booklet is an 89mm (3 1/2in.) program disk.

## EASY-PC Professional XM

### Number One Systems

This sophisticated suite of software programs can either be used in stand-alone or as part of an integrated design environment. Integration is built in to each of the programs making them appear to the user as a complete package. If multiple programs are installed, you can simply draw the schematic with **EASYPC Professional XM**, - analogue sections of the circuit can be simulated within **ANALYSER III**. Modifications can be made to the circuit configuration and component values until the simulations give the performance required, at which point the design can be translated directly onto the PCB. The optional multi-pass autorouter, **MultiRouter**, helps produce perfectly routed layouts in record time. The effect of the parasitic components introduced by the printed circuit layout on the analogue performance can be simulated using **LAYAN**.

### EASY-PC Professional XM

This is a powerful, easy to use, software package for the production of quality schematic circuit diagrams and PCB layouts. It also provides schematic capture and an integrated design environment for analogue and digital simulation of the schematic and electro-magnetic simulation of the final PCB layout. After creating your schematic you simply switch to PCB Layout mode and all of your components and connections are waiting for you or the screen. All that remains to be done is to position the components within the board outline and route the connections, either manually or with our fast, powerful autorouter, **MultiRouter**.

### Main Features

- ★ Schematic Diagrams and PCB's up to 812 x 812 mm with 0.0254 mm resolution.
- ★ Up to 16 layers including silk-screen legends, plus solder resist.
- ★ 16 user selectable track sizes from 0.0254 to 812mm.
- ★ 16 user selectable pad sizes from 0.002" to 32.0" (0.0254 to 812 mm) with configurable aspect ratio
- ★ Wide selection of pad shapes, with and without holes, including edge fingers and surface mount pads.
- ★ Design Rule Checking with Auto-zooming graphical error reporting
- ★ Supplied with extensive component libraries for both schematics and layouts plus the ability to create new devices as required.
- ★ Surface mount component support.
- ★ Outputs to 9 and 24 pin dot matrix printers, HP LaserJet compatible laser and Ink-jet Printers and HPGL (A&B) Pen Plotters.
- ★ Creates Gerber and Excellon manufacturing files.
- ★ Parts Lists, Net Lists and Unconnected Pin Reports.

EASY-PC Professional XM requires a 386 DX or better processor, 4MB RAM, MSDOS 4.01 or higher, 6MB hard disk space, VGA display and a mouse.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

## MultiRouter

Number One Systems

MultiRouter is a powerful multi-pass autorouter for EASY-PC Professional XM that can help you produce perfect double-sided layouts in record time. MultiRouter combines the latest routing technologies to ensure that your tracks get through where other routers fail. Gridless routing handles difficult components like D-connectors and surface-mount packages, making the maximum use of available space. 'Shove-aside' ensures that design rules are obeyed, while 'Rip-up' and 'Re-try' keeps trying problem areas until a solution is found. Multi-pass routing refines the layout, mitring corners, removing unnecessary track segments and vias, with the option of fattening tracks wherever possible. MultiRouter will complete most designs in minutes, saving you days of layout design time.

### Main Features

- Single or Double-sided Autorouter
- Advanced Routing - Gridless or On-Grid - this is ideal for surface-mount and optional on-grid vias for is ideal for ATE and allows allows Fine-line Design.
- Controllable.
- Multi-pass Routability check permits fast placement check before routing.
- Mitring - avoids acid-traps.
- Very fast operation - 140 components on a 210 by 100 mm board 100% routed in under 10 mins on a 75 MHz Pentium.
- Force No Vias allows tack change layout at component pins - ideal for prototypes and avoids plated-through holes.
- Memory Router allows fast routing for repetitive connections such as memory planes.

MultiRouter works with and requires EasyPC Professional XM plus an additional 20MB of free disk space and a minimum of 8MB of memory. Extra disk space and memory will enhance performance. Routing capacity is only limited by available memory and disk space. there are no restrictive pin limits.

Retail Unit Price each (inc. VAT).

GS23A	Multi Router	£295.000	£215.000	£346.630

## Analyser III Professional

Number One Systems

A linear circuit simulation program that is ideal for use in the design of audio, IF, RF and microwave amplifiers, matching networks, filter circuits, linear ICs etc. Circuits can be made from bipolar transistors, FETs, op-amps, resistors, capacitors, inductors, simple and tapped transformers, both microstrip and co-axial transmission lines and general two-port blocks characterised by Y-parameters or S-parameters. The software can take

the net list from an EASY-PC Professional schematic and the partial element equivalent circuit from a LAYAN electromagnetic simulation of the PCB, or substrate, and analyse the performance of the complete design. The simulator performs exceptionally fast computation of gain, phase, input/output impedances, S-parameters, Y-parameters, VSWR, stability criteria and group delay over a very wide frequency range and produces results in a clear easy-to-read, graphical or tabular form.

### Main Features

- Super fast simulation speed - over 500 frequency points per node, per second (66MHz 486DX2)
- Frequency range of 0.001Hz to over 20GHz
- Smooth graphical output with up to 100 frequency points per run
- Linear or logarithmic scaling
- Auto scaling of all displays will minimise searching
- for results but scales can be fixed to allow for comparison with previous runs.
- Magnitude and phase, or real and imaginary output components
- Auto set-up on previously simulated circuits saves time and ensures meaningful results
- Direct readout of cursor values from graphical display
- Supplied with a library containing 100 device models

Analyser III Professional requires a 286 or better, 2MB to 16MB RAM, EGA or better and a mouse.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT		inc. VAT each
		1+	2+	
GS24B	Analyser III	£195.000	£142.000	£299.130

## LAYAN

Number One Systems

This is an electromagnetic simulator which takes the PCB layout information from EASY-PC Professional XM and computes the effects of the electrostatic and electromagnetic fields of the metallisation pattern. LAYAN produces a partial element equivalent circuit of the layout including capacitive and inductive couplings, inductance and resistance of the tracks. LAYAN even allows for skin effect, and dielectric losses. The net list of the partial element equivalent circuit is automatically combined with the original net list from the schematic and the whole is fed into ANALYSER III Professional for analysis. When complex PCB structures are involved such as stripline filters, coupler etc., their S-parameters can be saved and then used as design block within the schematic for phenomenally fast stimulations of very complex systems.

### Main Features

- Track, polygon and via resistance including skin effect at high frequencies.
- Self and mutual inductances.
- Capacitances.
- Dielectric losses.
- Close or distant or no ground plane.
- Plated conductor layers (2).
- Distributed coupling effects.
- Transmission line effects.

LAYAN allows accurate simulation of printed couplers, filters, inductors, capacitors, stubs, transformers, transmission lines etc. This software is superb for all analogue AF, IF, RF and microwave design verification in any application where the layout itself can have an effect on the performance of the design. This can lead to a dramatic decrease in the need, or even eliminate, the need for design

iterations.

LAYAN works with and requires EASY-PC Professional XM and ANALYSER III Professional and needs a 386DX or better processor with 4MB to 16MB RAM and 20MB hard disk space. (a faster processor is recommended)

## Seetrax Ranger 1

- ★ Schematic (circuit diagram) entry
- ★ Automatic net list generation
- ★ Optional manual net list entry
- ★ Multi-layer PCB component and track layout
- ★ High resolution component placement
- ★ 16 track widths and pad sizes
- ★ Expandable component outline library
- ★ Autorouter included

Ranger 1 is a powerful software package aimed at designing complex printed circuit boards with the greatest of ease. The package consists of three modules: Schematic Capture, PCB Layout and Autorouter. These three packages are designed to use a consistent database structure, ensuring 100% compatibility for data transfer between modules. The sophistication of this software does demand somewhat more than basic hardware to operate. You will need an IBM XT/AT, PS2 or equivalent, with 640K-bytes of continuous RAM (not separate 512K blocks); and a fixed or hard drive is essential. The software is supplied on 4 x 133mm (51/4in.) discs and 2 x 89mm (31/2in.) disks. The computer also requires the minimum of an EGA graphics card and compatible monitor. A mouse or graphics tablet is also required. The software is designed to operate in an MS/DOS or OS/2 environment. The output device can be a penplotter emulating HP-GL (Hewlett Packard Graphics Language), a disk file, dot-matrix printer, NC drilling and routing machines, Cannon bubblejet printers or Gerber file. Ranger 1 offers the user the means to design printed circuit boards in a way that is both easy to learn and fast to use. Extensive use is made of menus to lead the operator through the design cycle, menu selection being acted on through either the mouse or a graphics tablet. A complete spectrum of designs can be produced, from simple, single-sided boards using leaded components, through to multi-layer designs going as far as 13 copper layers and surface mounted devices on both sides.

### Specification:

#### Schematic Capture Software:

1. Macro generation for commonly used circuits.
2. 2,300 symbols per drawing.
3. Five standard drawing sheet sizes from A5 to A1.
4. Up to 8 drawing sheets per whole drawing.
5. More than 500 symbols per library volume.
6. Up to 100 library volumes.
7. 256 pins per symbol.
8. 3,500 signals per drawing sheet.
9. Signal connectivity retained through all drawing sheets.
10. Automatic generation of net list.
11. Part codes and pin numbers automatically allocated.
12. Up to eight power rails per design.
13. Non-electrical capability for drawing blanks, etc.

#### PCB Design Software:

1. Macro generation for commonly used circuits.
2. 1,400 components per board.
3. Multilayer design up to 16 layers.
4. Extensive component outline library.

5. Complex true component shapes.
6. True track width representation.
7. Component flip for placement on other side of double sided board.
8. Input from ASCII or Futurenet possible.
9. Imperial or metric scales with a resolution to one thousandth of an inch or 0.01mm.
10. Board can be up to 81 x 81cm (32 x 32in.) in size.
11. Automatic clearance checking of space between tracks to one thousandth of an inch resolution.
12. Up to 256 pins per component.
13. Interactive component renaming, back annotated to circuit schematic.
14. Automatic security data dump.
15. Silkscreen legends for both sides of board with part code flip-over can be made.
16. Automatic check of artwork against net list.
17. Automatic net reconnection for minimum connection length.
18. Powerful window function for mass editing.
19. 8,000 connections per board.

**Autorouter Software:**

1. Power routing strategy.
2. Memory routing strategy.
3. Orthogonal routing strategies with user definable costing.

**SPICE SIMULATION PACKAGE**

**B<sup>2</sup> Spice Analogue and B<sup>2</sup> Logic Circuit Analysis Software**

A choice of two sophisticated circuit analysis programs offering exceptional value-for-money, with easy of use and performance.

B<sup>2</sup> Spice - Analogue offers a wealth of features including:

- ★ Fully 32-bit using the 3F5 SPICE engine
- ★ 1000s of models from 11 major manufacturers, including a dedicated model editing package as part of the software
- ★ Set up all simulation options
- ★ Import and export SPICE netlists
- ★ Fourier, noise, sensitivity, distortion, AC sweep, plus much more
- ★ Highly accurate whether testing simple circuits or analysis of complex waveforms
- ★ Customise the display of information in tables and graphs
- ★ No limit on maximum circuit size
- ★ Supplied on CD-ROM, Windows 95/NT compatible

B<sup>2</sup> Logic - Digital has the following features:

- ★ Fully integrated and interactive

## MAINS ADAPTORS

### VARIABLE

#### Regulated Variable PSU

Unlross

These plug-in units are regulated to keep the output voltage constant at all output currents. Two models are available with maximum output currents of 300mA and 500mA. Voltage output is switchable for 3, 4.5, 6, 7.5, 9 and 12V DC, via a front mounted switch with screwdriver slot. A second, similar switch reverses the polarity of the output as required. A LED indicator shows when the unit is on. Body dimensions: (excluding mains pins) 300mA version: 70 x 52 x 43mm  
500mA version: 80 x 73 x 58mm

## Call and Collect

Maplin has more stores Nationwide than ever before.  
See the maps at the front of the catalogue for the nearest one to you.

## Unregulated 300mA Variable

This unit has outputs of 3, 4.5, 6, 7.5, 9 and 12V DC at 300mA (max). The unit is not stabilised and therefore at low current drains the voltage rises. At less than 150mA this rise could be considerable. If you wish to use this adaptor at current drains less than 150mA you should increase voltage slowly from the lowest voltage setting until the input is at the required voltage.  
(A meter placed across any of the 3 spare spider connections will allow you to monitor the voltage.)

XX09K	AC Adptr Unreg 300mA	£6.000	£3.430	£2.980	£7.060

## Unregulated 800mA Variable

This unit has outputs of 3, 4.5, 6, 7.5, 9 and 12V DC at 800mA (max). There is a power 'on' indicator and a polarity switch. In addition to the four standard output plugs, the unit has a 1.3mm Walkman-type plug as well. Overall size of body 98 x 67 x 57mm. Note that this unit is unregulated and therefore at low current drains, the voltage can approach double the full load voltage.

## FIXED

### Fixed Voltage Unregulated Mains Adaptors

A range of high quality fixed-voltage, unregulated mains adaptors for personal computers, radios, calculators, video games, cassette players, small TVs and battery operated equipment, which do not require a regulated power supply. The adaptors feature short circuit protection, plus automatic thermal and overload cut-off. The output is via a flying lead with a multi-type plug featuring 1.3, 2.1 & 2.5mm DC plugs and 2.5 & 3.5mm jack plugs. Polarity is centre positive when the '+' symbols on the output lead are aligned, and is reversible.

## High Quality Switched-Mode Mains Adaptors

A range of high quality fixed-voltage, switched mode, regulated mains adaptors for personal computers, computer peripherals, radios, calculators, video games, cassette players, TVs and other battery/low voltage operated equipment, requiring higher output currents.

The adaptors feature short-circuit protection, plus automatic thermal and overload recovery. The regulated output ensures a constant DC supply with minimal ripple. Output for the single-voltage types is via a flying lead with a 2.1mm DC plug. Mains input for all models is via an IEC connector, a suitable mains lead for UK use is stock code MK41U. Mains input voltage range is 100-240V, 50/60Hz.

Output voltage	Output current	Dimensions	Order code
5V	4A	110 x 60 x 33mm	GS82D
12V	2.5A	110 x 60 x 33mm	GS83E
15V	2A	110 x 60 x 33mm	GS84F
24V	1.25A	110 x 60 x 33mm	GS85G

A multi-voltage model is also available providing outputs of 5V @ 3A, +12V @ 1.5A, & -12V @ 0.2A. It has a 2m output lead terminated in a 5-pin 180 DIN plug.

Dimensions: 140 x 60 x 40mm.

## BENCH POWER SUPPLIES

### HOBBYIST

## 13.8V Regulated Mains Power Units

A range of four power units with a fixed 13.8V output, ideally suited for powering CB radios, communications transceivers and other devices that require a 13.8V supply. The power supplies are available in 3A, 5A, 7A and 10A versions (continuous rated output current). All four power supply units are finished in a smart black steel enclosure, with illuminated rocker-type on/off switch and two terminal posts (black and red) for the 13.8V output. A mains protection fuse is housed in a fuse holder on the rear panel. The power supplies have short-term overload and short-circuit protection to guard against momentary accidental misconnection, but the units can be damaged by prolonged abuse.

### Specification

Input:	240V AC 50Hz
Output voltage:	13.8V
Output current:	3A: 3A continuous, 5A surge 5A: 5A continuous, 7A surge 7A: 7A continuous, 9A surge 10A: 10A continuous, 12A surge

## 30V 2A

A good quality regulated power supply ideal for the hobbyist's work bench. The unit will supply up to 2A at up to 30V, and has a separate ammeter and voltmeter. The ammeter reads 0 to 2.5A and the voltmeter reads 0 to 30V. A rotary control sets the output voltage from 0 to 15V with voltage range switch to the left and 15 to 30V with switch to the right. The output current can be limited to between about 300mA and 2.2A by the rotary control marked 'current'. Three output terminal posts are provided marked '-', 'ground' and '+'. The 'ground' terminal is connected to the chassis and mains earth.

### Specification

Input:	210 to 250V AC
Output:	0 to 30V DC in two ranges
Current:	0 to 2A
Voltage regulation:	Load: <0.1% (30mV) for a no load to full load change Line: <0.15% (45mV) for a 10% line voltage change
Current regulation:	Load: 0.2% max for a 30V DC load voltage change Line: 0.2% max + 3mA for a 10% line voltage change
Ripple and noise:	<250µV rms
Output mode:	Automatic crossover between constant voltage and constant current operation

Overload protection:	By an adjustable electronic current limiting circuit and fuse in AC input
Current limiting:	Adjustable from 1% to 110% of rated load current
Dimensions:	205 x 100 x 195mm deep

Retail Unit Price each (inc. VAT).

Maplin is opening new stores all the time. Call for latest details

## Triple Power Supply

A cost-effective quality power supply, in a strong galvanized steel case, with two fixed outputs and a 0 to 30V DC output up to 2.5A max. The fixed outputs are of 5 and 12V DC, each with a 0.5A max. rating. Overload and short circuit protection is provided. A separate analogue voltmeter and ammeter display the output settings for the adjustable supply; the voltmeter reading 0 to 30V and the ammeter reading 0 to 2.5A. The output voltage is continuously variable over the range using the 'voltage' control, whilst the current can be limited from 0 to 2.5A using the 'current' control. The two fixed outputs are fed out through 'snap-on' terminals and the variable supply is available at a pair of terminal posts. The various terminals are marked '+' and '-' and coloured red and black respectively.

### Specification

Power requirements: 230V AC/50Hz  
 Variable output: 0 to 30V DC  
 Maximum current: 2.5A  
 Fixed output 1: 5V DC/0.5A max.  
 Fixed output 2: 12V DC/0.5A max.  
 Ripple & noise: 5mV  
 Line regulation: 0.05% + 10mV  
 Load regulation: 0.05% + 10mV  
 Dimensions: 200 x 150 x 145mm  
 Weight: 2.8kg

Retail Unit Price each (inc. VAT).

Order Code	Type 5501	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+

consumption and dissipation is reduced by a multiple level power saving system which selects lower ratios of the main supply transformer secondary automatically if the output falls below the relevant threshold. The output is provided via three (+), (-) and chassis ground front panel screw terminal posts which accept 4mm wander plugs, spade terminals or stripped wires. Includes overload and reverse polarity protection.

### Specification

## Single 30V 3A DC Power Supply

Instek

A high quality DC power supply providing 0 to 30V DC at up to 3A max. A separate voltmeter and ammeter are provided for monitoring the output. Voltage output is continuously variable over the range with one 'coarse' rotary control, and is accompanied by an additional 'fine' control which can vary output over 10% of the set value. In addition the voltage level can be remote controlled from an external source and the output can be switched to handle continuous or dynamic loads. Current limiting is provided by further 'coarse' and 'fine' rotary controls, and with these the power supply can be forced to leave 'constant voltage' mode and enter 'constant current' mode. Here the output current is maintained for a given setting of the current control by the output voltage being varied to keep the current constant. A novel feature is a power saving device which selects a lower ratio of the main supply transformer secondary automatically if the output falls below 15V. The output is provided via three (+), (-) and chassis ground front panel screw terminal posts which accept 4mm wander plugs, spade terminals or stripped wires. Includes overload and reverse polarity protection.

### Specification

	CV Mode	CC Mode
Input:	230V AC ±10% 50/60Hz	
Output:	0 to 30V DC	0 to 3A DC

## Digital Single 30V 3A DC Power Supply

Instek

A high quality DC power supply providing 0 to 30V DC at up to 3A max. The instrument includes an auto-ranging digital voltmeter (DVM) with front panel LCD display, and which can also function as a digital ammeter, for monitoring voltage or current output as required according to the setting of the front panel VOLTS/AMPS selector switch. Voltage output is continuously variable over the whole range with one 'coarse' rotary control, accompanied by an additional 'fine' control which can vary output over >5% of the set value. In addition the voltage level can be remote controlled from an external source and the output can be switched to handle continuous or dynamic loads. Current limiting is provided by further 'coarse' and 'fine' rotary controls, and with these the power supply can be forced to leave 'constant voltage' mode and enter 'constant current' mode. Here the output current is maintained for a given setting of the current control by the output voltage being varied to keep the current constant. As an aid, green and red front panel LEDs signal either 'CV' (constant voltage) or 'CC' (constant current) mode as active. Power consumption and dissipation is reduced by a multiple level power saving device which selects lower ratios of the main supply transformer secondary automatically if the output falls below the relevant threshold. The output is provided via three (+), (-) and chassis ground front panel screw terminal posts which accept 4mm wander plugs, spade terminals or stripped wires. Includes overload and reverse polarity protection.

### Specification

	CV Mode	CC Mode

## Single 60V 1A DC Power Supply

Instek

A high quality DC power supply with an output of 0 to 60V DC at up to 1A max. A separate voltmeter and ammeter are provided for monitoring the output. Voltage output is continuously variable over the range with one 'coarse' rotary control, and is accompanied by an additional 'fine' control which can vary output over 10% of the set value. In addition the voltage level can be remote controlled from an external source and the output can be switched to handle continuous or dynamic loads. Current limiting is provided by further 'coarse' and 'fine' rotary controls, and with these the power supply can be forced to leave 'constant voltage' mode and enter 'constant current' mode. Here the output current is maintained for a given setting of the current control by the output voltage being varied to keep the current constant. Power

## Dual Tracking 30V 3A DC Power Supply

Instek

A high quality DC power supply featuring two 0 to 30V DC outputs, which can operate either as two entirely independent single ended supplies, or be combined in tracking mode to produce equal dual (+) and (-) supply rails, both continuously variable from one single control, with a central commoned rail. Each supply can deliver up to 3A max. in either mode. Separate voltmeters and ammeters are provided for monitoring each output. Voltage output for each independent supply is continuously variable over the range with one rotary control. In addition the output can be switched to handle continuous or dynamic loads. Similarly, current limiting is provided for each by a further rotary control, and with this either supply can be forced to leave 'constant voltage' mode and enter 'constant current' mode. Here the output current is maintained for a given setting of the current control by the output voltage being varied to keep the current constant. As an aid, red and green front panel LEDs for each channel signal either 'CV' (constant voltage) or 'CC' (constant current) mode as active. Power consumption and dissipation is conserved by a dual level power saving device which selects lower ratios of the main supply transformers' secondaries automatically if the outputs fall below the relevant thresholds. Outputs are presented via two pairs of front panel screw terminal posts which accept 4mm wander plugs, spade terminals or stripped wires and include two chassis earth terminal posts.

Also provided is one fixed, 5V DC 3A maximum output, regulated supply to TTL logic circuit standard. It is overload and reverse polarity protected and has an overload LED, and the output is available on a pair of 4mm terminal posts on the front panel.

### Specification

	CV Mode	CC Mode
Input:	230V AC $\pm 10\%$ 50/60Hz	50/60Hz
Outputs, each:	0 to 30V DC	0 to 3A DC
Load regulation:	0.01% +3-5mV	0.02% +3mA
Line regulation:	0.01% +3mV	0.02% +3mA
Ripple & noise:	<1mV rms	<3mA rms

### 5V DC supply

Deviation limits:	5V $\pm 250$ mV
Load regulation:	<10mV
Line regulation:	<5mV
Output current:	3A DC $\pm 10\%$ max.
Dimensions:	255 x 145 x 335mm
Weight:	11.5kg

## Single 30V 6A DC Power Supply

Instek

A high quality DC power supply providing 0 to 30V DC at up to 6A max. Separate volt and ammeters are provided for monitoring the output. Voltage output is continuously variable over the range with 'coarse' and 'fine' rotary controls. In addition the output can be switched to handle continuous or dynamic loads. Current limiting is provided by further 'coarse' and 'fine' rotary controls, and with these the power supply can be forced to leave 'constant voltage' mode and enter 'constant current' mode. Here the output current is maintained for a given setting of the current control by the output voltage being varied to keep the current constant. As an aid red and green front panel LEDs signal either 'CV' (constant voltage) or 'CC' (constant current) mode as active. Power consumption and dissipation is kept to a minimum by a multiple level power saving device, which selects lower ratios of the main supply transformer secondary automatically if the output falls below the relevant thresholds. The output is via two front panel screw terminal posts which accept 4mm wander plugs, spade terminals or stripped wires. A similar chassis earth terminal post is also provided. Includes overload and reverse polarity protection.

### Specification

	CV Mode	CC Mode

## CONVERTORS

### 12 VOLT

## Car Voltage Step-down Converter

An easy-to-use car voltage step-down converter and regulator which simply plugs into any cigar lighter socket and converts the car battery supply to

any of seven levels, 1.5V, 3V, 4.5V, 6V, 7.5V, 9V or 12V DC. The output is selected by a 7-way slide switch and max. current rating for each voltage is as follows:

12V	800mA	9.6W
9V	700mA	6.3W
7.5V	500mA	3.75W
6V	400mA	2.4W
4.5V	350mA	1.58W
3V	300mA	900mW
1.5V	250mA	375mW

Fitted with a 1.7m long lead terminated with a moulded 2-pin line socket. To this any one of six little right-angled adaptor plugs can be connected in either polarity. These comprise a 3.5mm jack, then miniature 1.3mm, standard 2.1 and 2.5mm, 'narrow sleeve' 2.1mm (5mm o/d), and 'fat sleeve' 1.3mm (5.5mm o/d) power plugs, one of which should fit nearly all items using these types of connectors. (For 2.5mm use a 3.5/2.5mm adaptor.) A flexible plastic keeper strip has six holes to hold all adaptors. All power plugs are long reach type for both short and long reach sockets. Max. insertion depth of car plug, 55mm; diameter 20mm. Dimensions of regulator unit 80 x 55 x 28mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JY53H	Car Power Adaptor	£7.650 £4.770 £3.920	£8.990

## Car Battery to 230V Mains Converter

A very efficient and compact 12V car battery to 230V AC converter, that can be used to power domestic appliances up to 200W. Designed to be permanently installed in the vehicle with direct connections to the battery, by two heavy duty leads. A third low current signal lead taken to the ignition switch turns the unit on and off via an internal electronic relay. The mains output, indicated by a neon light, is by a standard 13A socket. The unit is fitted with an audible warning that sounds when the battery is becoming discharged. The warning tone gets louder as the battery voltage falls, and if the battery voltage falls below a critical level, the unit will switch off. The unit is designed to operate with the car engine idling when supplying high power continuously. Overcurrent protection is provided, so that if the unit is plugged into unsuitable equipment, for a short time, it will not be damaged.

### Specification

Voltage input:	11V to 15V DC, 12V nominal
Input current:	1A approx. for every 10W of load
Output voltage:	0.3A approx. with no load
	230V AC RMS nominal, 216V to 255V RMS over continuous load range up to 1-1A
Power output:	200W continuous, 250W short term, 500W surge
Size:	141 x 94 x 45mm
Weight:	800g

### Mounting Bracket Kit

A mounting bracket kit for permanent installation of the 12V DC to mains converter is also available.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KR64U 1	12VDC/230VAC PSU	£95.310 £79.750 £71.750	£111.990

## Handy Mains Inverter

### CC86T - 12V Handy Mains Inverter

Similar to the Car Battery Converter KR64U but mounted on an alloy base with a pressed steel cover and plugs directly into the cigar lighter socket of cars with negative earth. It converts 11V to 15V DC to 230V AC RMS 48-53Hz 200W continuous, 250W short term and 500W surge. Powers domestic appliances up to 200W continuously by a standard UK 13A socket outlet. There is an audible warning if the battery voltage drops too low (approximately 11V) and the unit turns off when the voltage falls below approximately 10V. The output is a stepped quasi sine wave. A red neon indicator illuminates when an output is present. Over current protection is provided to prevent any damage. If overloaded the output will 'latch off', requiring the load to be removed and the plug withdrawn from the cigar lighter socket to reset it. A 30A fuse in the supply input helps prevent damage should the unit be seriously overloaded or misconnected; this is user replaceable. There is a wiring kit available for a direct connection to a high current source if the in-car lighter wiring is insufficient. Under no circumstances should the cigar lighter fuse be changed for a higher fuse rating as this can result in a fire hazard.

#### Specification

Voltage input: 11V to 15V DC, 12V nominal  
 Input current: 1A approx. for every 10W of load  
 Output voltage: 230V AC RMS nominal, 216V to 255V RMS over continuous load range up to 1.1A  
 Power output: 200W continuous, 250W short term, 500W surge  
 Size: 141 x 94 x 45mm  
 Weight: 739g

#### Direct Wiring Kit

A heavy duty wiring kit that can be used in conjunction with this product is available (CC87U).

### GT82 - 24V Handy Mains Inverter

Similar to CC86 but for use with a 24V battery.

#### Specification

Voltage input: 20V to 36V DC  
 Input Current: 1 amp (at 12V) or 0.5 amp (at 24V) for every 10W of load.  
 Voltage output: 240V AC rms nominal, 216 to 255 V rms over continuous load range up to 1.1amps.  
 Power output: 200 watts continuous, 250 watts short term. Surge capability of 500 W  
 Size: 141 x 94 x 45mm  
 Weight: 739g

Retail Unit Price each (inc. VAT).

GT82D	24V Mains Inverter	£127.650	£149.990

## Movable Converter Direct Wiring Kit

A heavy duty wiring kit for the movable converter (CC86T). Contains a cigar lighter socket mounted on the end of two metres of heavy duty flex which can be connected to heavy current supply that has a fuse rating in excess of 20A. Used when existing car cigar lighter circuit is not capable of supporting the power requirements of the Movable Converter. It is essential that the supply to the cable is correctly fused. The positive lead should not be connected directly to the battery under any circumstances.

#### Specification

Voltage input: 11V to 15V DC  
 Current Rating: 20A  
 Fuse Rating: 30A maximum

Retail Unit Price each (inc. VAT).

CC87U	Direct Wiring Kit	£7.650	£9.990

## Mains Voltage Inverters

Merlin Equipment

Anyone who has access to a rechargeable 12V car battery can operate mains powered equipment without having to depend on a nearby mains supply or a noisy generator. Essential for any equipment which must be operated in a motor vehicle or isolated place, or during a power cut, these inverters simply and silently convert 12V DC power from a vehicle battery into 230V AC mains equivalent power with very accurate voltage and frequency tolerances.

Four models cover almost all conventional, domestic equipment applications ranging from sophisticated devices such as computer equipment, Hi-Fi, TV and VCR through to microwave ovens, power tools, coffee makers and small refrigerators. Each unit draws very little current when offload, and includes low battery, overload and overheating protection. Housed in rugged, lightweight and splashproof diecast cases, they are virtually maintenance free once fitted.

Four modules with different power outputs are available and each type is especially suitable to operate the following:

150W TV, computers, recharging of cordless hand tools, Hi-Fi, communications equipment.  
 Supplied with connectors for laptop computers.  
 Dimensions: (H) 40 x (W) 115 x (L) 115mm.

250W As above plus VCRs and small power tools.  
 Supplied with IEC connector.  
 Dimensions: (H) 40 x (W) 115 x (L) 150mm.

800W As above plus microwaves, small refrigerators, toasters, heavy-duty power tools and small vacuum cleaners.

Dimensions: (H) 76 x (W) 229 x (L) 254mm.  
 1500W All the foregoing and also large

refrigerators, small freezers, large AC motors and high-power or professional radio/Hi-Fi equipment. Dimensions: (H) 76 x (W) 229 x (L) 381mm.

#### Specification

##### General, all units:

Input voltage range: 10 to 15V DC  
 Output voltage: 230V AC rms  $\pm 5\%$   
 Output frequency: 50Hz  $\pm 0.02\%$   
 Output waveform: Phase corrected quasi-sinusoidal  
 Better than 90%

#### Efficiency:

Output power	Continuous	5 min. max.	Surge
150W type	145W	200W	400W
250W type	225W	350W	500W
800W type	800W	1000W	1/2HP*
1500W type	1500W	2000W	3/4HP*

\* i.e. up to starting capacity for AC motor rated as shown

Type	150W	250W	800W	1500W

DC/DC

DC-DC Converter

Astec

A low-cost high-efficiency DC to DC converter for generating an additional, low-current -15V power rail from a main +5V DC supply. Simply supply +5V input and the output will give -15V DC. Power output up to 1W is possible, with perfect regulation due to an in-built filter capacitor.

All dimensions in mm

Specification

Input voltage: +5V DC  $\pm 20\%$   
 Efficiency: 75%  
 Temperature coefficient: 0.08%/°C  
 Line regulation: 0.8%  
 Load regulation: 1%  
 Output ripple: 500mV peak-to-peak

Pin Assignments

Pin 1: V in (common)  
 Pin 2: +V in  
 Pin 3: -V out  
 Pin 4: +V out (common)

For some circuits it may be necessary to connect a series inductor in the region of 1 $\mu$ H, between load and regulator. On the load side of the inductor a filter capacitor of 47 $\mu$ F can be used. Both these precautions help to improve ripple and immunity to noise spikes.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FE59P	DC/DC Conv -15V	£3.990	£3.990

Miniature PCB Mounting DC/DC Converters

Newport Components

A range of miniature and sub-miniature, high-efficiency DC/DC converters, the outputs of which are isolated to 1000V DC relative to the input, made possible through the use of tiny toroidal ferrite transformers. With efficiencies of up to 80% and a physical bulk down to the scale of a logic IC, these devices are ideal for eliminating complex power busses on PCBs, or special (and inconvenient) provisions for extra odd supply lines from the main PSU, by providing them anywhere where the additional or isolated power rail is required locally. Furthermore any number of them can be used together in a system. All converters are 100% 'burned-in' and triple tested. They feature a high power to density ratio equivalent to 1.4W per cm<sup>3</sup>, which is probably the highest currently available. Derating at temperatures above 70°C is required. The operating temperature range is -50°C to +125°C. In all cases a switched mode method is employed at a typical frequency of 100kHz, with a

no-load power consumption of 100mW. This efficiency makes them compatible with battery powered applications.

The packages are SIP (Single Inline Pin) with full epoxy encapsulation rated to UL94-VO within a flame retardant, polyurethane case. Any converter can be soldered into place just like any other IC or SIL array, and no heatsinks are necessary for the rated performance. Input voltages are 5V or 12V DC depending on type. Pin '1' is marked with a dot. Pins are spaced 2.54mm (0.1in.) and are 3mm long on all types.

Single Output Types

The NME range operate from a 5V or 12V DC input, and provide an isolated single positive output of 5V, 12V or 15V DC, depending on type. The delivered power is 1W total and up to 200mA is available from a 5V output, 84mA from a 12V output, and 67mA from a 15V output. Each device is contained in a 4-pin inline package measuring only 11.5 x 6 x 10mm high.

Type	Input voltage	Output voltage	Output current mA	Load regulation
NME0505S5V (7 max.)	5V	5V	200	10%
NME0512S5V (7 max.)	12V	12V	84	10%
NME1205S12V (15 max.)	5V	5V	200	10%
NME1212S12V (15 max.)	12V	12V	84	10%
NME1215S12V (15 max.)	15V	15V	67	10%
NME0515 5V (7 max.)	15V	5V	67	10%

Dual Output Types

Each of the NMA range provides dual  $\pm 5V$ ,  $\pm 12V$  or  $\pm 15V$  DC supply rails with centre-tapped 0V from a single 5V or 12V DC input, depending on type, with a total power throughput of 750mW. Up to 100mA is available from the 5V output type, 42mA from each of the 12V outputs and 25mA from each of the 15V. The device is contained in a 6-pin inline package (pin 3 is excluded, not used) measuring only 19.5 x 7 x 10mm high.

Type	Input voltage	Output voltage	Output current mA	Load regulation
NMA0512S	5V(7 max)	$\pm 12V$	42	10%
NMA0515S	5V(7 max)	$\pm 15V$	34	10%
NMA1205S	12V(15 max)	$\pm 5V$	100	10%
NMA1212S	12V(15 max)	$\pm 12V$	42	10%

## PROJECT CONSTRUCTION RATINGS

All the projects in this section have been rated for ease or difficulty of construction to help you to decide before you buy a kit, whether its construction will be within your capabilities. The projects are rated from 1 to 5, which may be interpreted as follows:

- 1** Projects rated 1 are simple to build and understand and are suitable for absolute beginners. They require only the minimum of tools such as soldering iron, cutters, pliers, wire-strippers and possibly a screwdriver. They do not require any test gear or setting-up.
- 2** Projects rated 2 are easy to build, but not suitable for absolute beginners. They require some test gear, usually a multimeter and may require setting-up or testing.
- 3** Projects rated 3 are average. They require some skill in their construction or more extensive setting-up.
- 4** Projects rated 4 are advanced. They require a fairly high level of skill in construction. They may require some specialised test gear or their setting-up may be quite complex.
- 5** Projects rated 5 are complex. They require a high level of skill or they may require specialised test gear or are complex in construction or require complex wiring. These projects are recommended for skilled constructors only.

**PLEASE NOTE:** Construction details are included in the kits.

## Constructors Guide

A leaflet containing much practical information and advice on the more mechanical aspects of project building. The leaflet is normally included with every kit, and is an essential aid for the beginner. It covers component recognition, how to solder and then how to check for correct solder joints, handling semiconductors etc. The information provided could also be valuable to the more experienced project builder.

## Audio Hi-Fi & Loudspeakers

### Hi-Fi Projects

#### K4040 Stereo Valve Amplifier 3

- ★ Can be used with 4Ω or 8Ω loudspeakers
- ★ 2 x 90W rms output power
- ★ Soft-start and standby
- ★ 230V AC or 115V AC 50/60Hz mains supply selectable
- ★ One main circuit board
- ★ High quality capacitors
- ★ Reduced wiring (compared to K4000)
- ★ Simple bias adjustment

Most of us cannot afford a ready-built high power valve amplifier, but this kit changes all that, so that anyone can enjoy the superb 'valve sound'. To many people, the sound of valves cannot be surpassed either by bi-polar transistors or FETs. In developing this amplifier, special attention was paid to the housing. Indeed, it was decided to not hide the expensive valves, so that your eyes can have something to enjoy. Four EL34s are used in each channel to generate the high power output. Very high quality toroidal core ultra-linear output transformers are employed to provide outstanding sound quality.

The K4040 is a redesigned version of the popular and respected K4000, it includes a number of changes that make the amplifier easier to build and setup, more attractive in appearance and even more pleasing to the ear in use:

#### K4040 Improvements

One main circuit board - a few minor circuit changes have been made to improved stability with different loads.

High quality capacitors are used throughout the circuit, for improved performance and stability.

Less wiring means less connections which could result in added noise and distortion.

Servicing is less cumbersome due to removable bottom cover and front panel.

Restyled enclosure with brushed aluminium front panel and chrome-plated vertical mirror panel.

Chrome rings cover valve bases of all visible valves.

Four attractive chromed feet

Heavy duty gold-plated speaker terminals

Standby circuit keeps the amp up and running between listening sessions, thus improving valve-life.

Softstart circuit enhances valve life.

Input mute during power-up and standby.

Bias adjustment is no longer a cumbersome job.

Behind the removable front panel the bias adjustment trimmers and switches are accessible.

An LED-display eliminates the need for a multimeter - very convenient for regular inspection of correct biasing

#### Specification

Output power:	2 x 90W rms in class AB 2 x 15W in class A
Speaker impedance:	4Ω or 8Ω
Bandwidth:	8Hz to 80kHz
Harmonic distortion:	0.1% @ 1kHz/1W
S/N ratio:	>105B (A-weighted)
Channel separation:	67dB at 90W
Input impedance:	100kΩ
Input sensitivity:	0dB (0.775mV rms) for 90W
Damping factor:	25
Overall feedback:	18dB
Weight:	20kg
Dimensions:	425 x 130 x 350mm

#### Kit and Special Parts

A complete kit of parts is available.

#### Kit Building Service

If you would like to purchase this project, but feel you are unable to construct it, then why not let our trained technicians fully build and test it for you. Please contact our Customer Services department for pricing details.

VFB3E	1	K4040 Valve Amp Kit	£578.710 £520.840 £679.990

#### K4020 300W Stereo/600W Mono MOSFET Amplifier 4

#### Features

- ★ High power
- ★ Low distortion
- ★ Highly efficient
- ★ Comprehensive protection circuitry

#### Applications

- ★ Hi-fi systems
- ★ Disco applications
- ★ Laboratories
- ★ Studio monitoring

Two 300W mono MOSFET amplifier modules (Velleman Kit K4010) can be combined into a superb 300W stereo version, or a bridged 600W mono amplifier. A very special circuit design ensures the output stage always produces a Class A configuration, without loss of unnecessary power. The amplifier requires no adjustment and features speaker switch-on delay and protection, as well as thermal and short-circuit protection. The kit includes transformer, housing and all necessary heatsinks. An optional LED power meter K4021 is available separately.

#### Specification

Power output per channel	
Music power:	300W into 4Ω, 200W into 8Ω (600W bridged operation)
rms power:	150W into 4Ω, 100W into 8Ω (300W bridged operation)
Power output bridged	
Music power:	600W
rms power:	300W into 8Ω
Harmonic distortion:	0.008% @ 1W 1kHz, 90W 1kHz
Damping factor:	>300
Input impedance:	47kΩ
Input sensitivity:	1V rms
Frequency response:	3Hz to 120kHz (-3dB)
Power bandwidth:	5Hz to 50kHz (-1dB)
Signal-to-noise ratio:	112dB (A-weighted at full power)
Protection:	Thermal, DC and short circuit
Speaker switch-on delay:	2 seconds
Speaker DC protection	
trip voltage:	>±1V
Thermal protection	
trip temperature:	90°C
Efficiency:	>70%
Power consumption:	440W maximum
Dimensions:	427 x 95 x 382mm (including connectors and feet)

#### Additional Component Parts List for Kit

Zip Wire	30cm	(XR39N)
Solder Tag M3	1	(LR64U)
Spade Terminal	4	(HF10L)
Spade Terminal Cover	4	(FE65V)
Fuse 20mm 5A	1	(RA12N)
Heatshrink Sleeve CP32	5cm	(BF88V)
Wire 32/0-2 Green/Yellow	5cm	(XR38R)
Double Bubble Epoxy Glue	1	(FL45Y)

#### Optional Items

The following items, not included in the kit, may also be required.

Nylon Mains Plug 13A	1	(RW67X)
Fuse 5A	1	(HQ33L)
IEC Mains Lead	1	(BW99H)

Insulating Boot for Fuseholder 1 (FT35Q)  
Insulating Cover for Mains Connector 1 (JK66W)

**Kit and Special Parts**

A complete kit of parts (including the PCB) is available (excluding optional items). Full construction details may be found in Maplin Magazine/Projects Book 71 XA71N.

VF17T	29 Velleman Kit K4020	£306.370	£359.590

**K4021 Power Meter For 300W/600W MOSFET Amplifiers**

**Features**

- ★ 12-LED display
- ★ LED scale illumination
- ★ Wide range of power indication

**Applications**

- ★ 300W/600W MOSFET amplifier
- ★ Power monitoring for your own amplifier
- ★ In-car audio
- ★ Disco equipment

These power meters are designed to give a visual representation of the output power from amplifiers built around the 300W MOSFET amplifier modules (Velleman Kit K4010). A visual indication of the instantaneous power output of your amplifier is useful in that you can 'see' if you are about to exceed the loudspeakers, maximum input power level, or by running the amplifier into clipping, which can easily damage the tweeters.

Two boards, one board for each channel, are mounted vertically to provide a professional visual display of power output for each channel. If the amplifiers are bridged, the meters are mounted horizontally and connected in series. Each board uses 12 LEDs to indicate the power out, and 16 LEDs for scale illumination. The scales can be 0-001W to 100W/8Ω or 0-002W to 200W/4Ω (mounted vertically) or 0-001W to 400W/8Ω (mounted horizontally, divided over 24 LEDs) for bridged mono. The boards require ±40V DC that is supplied by the amplifier.

**Specification**

Number of LEDs (power indication): 12  
Number of LEDs (scale illumination): 16

Power supply (from amplifier module): ±40V DC at 60mA (maximum)

PCB size: 72 x 78mm

Scale (8Ω load, 300W): 0-001W, 0-005W, 0-01W, 0-05W, 0-1W, 0-5W, 1W, 5W, 10W, 50W, 75W, 100W

Scale (4Ω load, 300W): 0-002W, 0-01W, 0-02W, 0-1W, 0-2W, 1W, 2W, 10W, 20W, 100W, 150W, 200W

Scale (8Ω load, 600W bridge mode): 0-001W, 0-002W, 0-005W, 0-01W, 0-02W, 0-05W, 0-1W, 0-2W, 0-5W, 1W, 2W, 5W, 10W, 15W, 20W, 40W, 60W, 80W, 100W, 150W, 200W, 250W, 300W, 400W

**Kit and Special Parts**

A complete kit of parts (including the PCB) is

available (excluding optional items). Full construction details may be found in Maplin Magazine/Projects Book 72 XA72P, and instruction leaflet XU53H.

Retail Unit Price each (inc. VAT).

**K4100 Digital Controlled Preamplifier**

- ★ Inputs for phono, CD, tuner, and two cassette decks
- ★ Graphic equaliser loop
- ★ LED display of all settings
- ★ Full digital control of all functions
- ★ Switched mains output
- ★ Operational IR remote control

A superb digital preamplifier designed to complement the K4000 Valve Amplifier and the K4020, K4005, K4010 and K4004 high powered MOSFET amplifiers, but equally suited to any high quality amplifier. Digital control eliminates the need for conventional potentiometers, all functions being selected and operated by front panel mounted push-buttons. The K4101 I/R transmitter, which is available separately, is used to remotely control the functions. The preamplifier offers a phono input which is suitable for moving magnet or high output moving coil cartridges. Other inputs include CD and tuner, plus two tape monitor loops and a graphic equaliser loop. A switched mains output allows the rest of the installation to be switched on and off, and the power-up default setting can be programmed to individual requirements.

**Specification**

Input sensitivity/impedance

Phono: 5-5mV/50kΩ  
CD: 500mV/32kΩ  
Tuner: 360mV/22kΩ  
Tape 1 & 2: 360mV/22kΩ

Rated output voltage

Line: 1V  
Tape: 360mV  
Equaliser: 130mV

S/N ratio

Phono: 75dB (A-weighted, rated output)  
Tape/CD/Tuner: 100dB (A-weighted, rated output)

THD:

0-01%

Frequency response(-3dB): 8Hz to 150kHz

Channel separation:

90dB

Crosstalk:

-98dB

RIAA deviation:

±0-5dB (20Hz to 20kHz)

Headphone output:

280mW into 32Ω

Power consumption:

6W maximum

Mains output:

5A switched

Dimensions:

420 x 50 x 350mm

Weight:

5kg

**Kit and Special Parts**

A complete kit of parts (including the PCB) is available (excluding optional items). The optional infra-red remote control is also available separately.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VE46A	15 Velleman Kit K4100	£187.220	£219.990
XT61R	VE46 Mod Sheet	£0.400	£0.400 NV
VE47B	1 Velleman Kit K4101	£39.140	£45.990

**K4500 Digital Synthesizer FM Tuner**

- ★ Superb sound quality
- ★ Remote control facility (when used with VE47B Infra-red transmitter)
- ★ Complements the VE99H stereo valve amplifier and VE46A digitally-controlled preamplifier
- ★ Search tuning - adjustable sensitivity
- ★ 8-LED signal strength indicator
- ★ 40 available presets
- ★ Two selectable aerial inputs
- ★ Preset station naming

This unit is a microprocessor-controlled single-conversion VHF stereo FM phase-locked loop tuner with alphanumeric display and infra-red remote control facility. The tuner has been designed to complement the Digitally-Controlled Preamplifier (Velleman Kit K4100). This tuner offers many features, one of which is the selection between two 75Ω aerial inputs. This would allow two aerials to be pointing in different directions, for the reception of VHF programmes from different transmitters. Even with a decent aerial, mounted on the roof, wall, or in the loft, there will always be stations too weak to be heard. For this reason, an adjustable 'stop' sensitivity is provided on the rear panel; this is adjusted so that only the very weakest stations are overlooked when the tuner is operating in 'seek' mode. The tuner is provided with a total of 40 presets to cope with the growing number of VHF broadcasters. A unique feature of this superb tuner is that each of the 40 channels can be assigned a 4-character 'identification tag', such as the abbreviated station name. Station frequency and identification apart, the unit also stores the selected aerial socket, and can even remember which station it was last tuned to on powering up from either 'stand-by' mode or from the mains.

An infra-red remote receiver is incorporated into the unit; this is compatible with the 15-Channel Infra-Red Transmitter that also controls the Digitally-Controlled Preamplifier.

**Specification**

Tuning range: 87.5 to 108MHz, in 50kHz steps  
Sensitivity: 5-5dBu (1-8μV)  
S/N ratio: 80dB (A-weighted)  
Distortion

mono: 0-08%  
stereo: 0-2%

Channel separation: 40dB (1kHz)  
Frequency response: 5 to 15kHz (-3dB)

Output voltage: 550mV (100% modulation)  
Number of presets: 40

Supply voltage: 220V to 240V AC  
No. of 75Ω aerial inputs: 2

**Optional Items**

The following items, not included in the kit, may also be required.

Heat shrink CP24 1m (BF87U)  
Silicone grease tube 1 (HQ00A)  
Hex trim tool 1 (BR48C)

**Kit and Special Parts**

A complete kit of parts (including the PCB) is available (excluding optional items). Full construction details may be found in Maplin Magazine/Projects 67 XA67X, and instruction leaflet XU29G.

## K4101

2

### Preamplifier Infra-Red Control Transmitter

- ★ 15 channels
- ★ Remote control of preamplifier and tuner
- ★ 21 keys
- ★ 'Click-touch' keypad
- ★ Robust aluminium case

This 15-channel infra-red transmitter is designed to remotely control the digitally controlled preamplifier K4100 (VE46A) and the tuner K4500 (VF20W). In the case of the tuner, a special safety key has been provided which allows you to preserve the memory content for stations to avoid unwanted overwriting. The keypad features a superb 'click-touch' design which has a characteristic responsive feel, unlike other membrane designs which offer no tactile feedback whatsoever. Additionally, 'click-touch' offers a high degree of protection against moisture ingress. A red LED, visible from the keypad, shows that the unit is functioning when a key is pressed and gives some idea as to the condition of the battery. The transmitter is housed in an attractive and robust aluminium case.

#### Specification

Range: 30m maximum  
Tx carrier frequency: 38kHz  
Identification codes: 6  
Independent channels: 15  
Power supply voltage: 9V (PP3 battery)  
Current consumption standby: 0.1µA  
transmit: 10mA average  
Dimensions: 175 x 50 x 23mm

#### Kit and Special Parts

A complete kit of parts (including the PCB) is available (excluding optional items). Full construction details may be found in Maplin Magazine/Projects Book 59 XA59P.

### Millennium 4-20 20W Audio Valve Power Amplifier

4

#### Features

- ★ Class AB1 push-pull output
- ★ Non-hybrid traditional 4-valve design
- ★ Simplified construction using PCBs
- ★ Expandable modular concept
- ★ Mono or stereo options
- ★ No setting up required
- ★ Minimal test equipment needed
- ★ Suitable for UK/Europe and USA Mains

#### Applications

- ★ Domestic hi-fi/stereo music systems
- ★ Small-scale public address
- ★ Musical instrument amplification

An affordable, 20W valve amplifier guaranteed to turn any capable, domestic stereo system into

something a bit special, emitting a wonderfully gutsy bass even at low volume, together with 'an extra something' in the mid and treble ranges. Closely resembling Mullard's '520' design of the early sixties, the amplifier benefits hugely from the superior quality of modern components. Modern materials have produced transformer cores that are half the size of those of 20 years ago, yet with better specification. High-speed capacitors achieve a competent, even sparkly, HF performance, and high stability resistors help push the S/N ratio to nearly 90dB, making a nonsense of the myth that valve circuits are inherently noisy.

The construction concept is modular and there are only two basic kits: the PSU module, and the amplifier module. Each kit contains everything required to build the basic module, including a pre-punched aluminium chassis (203 x 152 x 63mm), and a PCB to simplify construction. The chassis are joined to form either a traditional 'monobloc' (single amplifier and PSU), or a full stereo assembly (having 1 x PSU, 2 x amplifier modules). The PSU is capable of powering a stereo pair of amplifiers. Project rating is 4, but no special setting up is required and initial testing only needs an ordinary multimeter.

#### Specification of Power Supply Unit

Transformer (primary)  
Input voltage: 230V AC 50Hz or 115V AC 60Hz  
Valve heater (secondary)  
Circuit type: Earthed centre-tap balanced AC  
Heater output voltage: 6.3V AC 50Hz (3.15V - 0 - 3.15V)  
7A maximum  
Heater output current:  
HT secondary o/p voltage: 350V AC maximum  
HT secondary o/p current: 250mA maximum  
HT DC output voltages, no load: 480V to 500V DC  
single amplifier powered: 430V to 440V DC (half load)  
two amplifiers powered: 370V to 400V DC (full load)  
HT ripple: <6% of total DC at full load

Power consumption,	HT	Heater	Total	Mains current
single amplifier:	55W	22W	77W	>320mA
two amplifiers:	96W	44W	140W	<700mA

Cold switch-on mains in-rush current at full load: >800mA  
Primary side protection: 1A 'quick-blow' fuse  
Main line DC HT protection: 250mA anti-surge fuse  
Unloaded or open-circuit HT reservoir discharge method: Constant leakage resistor  
Unloaded HT reservoir discharge time: 1 minute approx., 500V to 0V

#### Specification of Amplifier

Amplifier type: Class AB1 'Ultra-Linear'  
Line supply voltage (HT): 400V to 450V DC  
HT current consumption: 125mA nominal (HT = 440V)  
Heater current consumption: 3.5A  
Max. output power: 20W rms (27W absolute maximum., HT = 440V)  
Gain: 30dB  
Input sensitivity: 220mV for 20W Output  
Input impedance: 1MΩ (500kΩ if volume control added)  
Frequency response: 25Hz to 30kHz ±0.5dB at 20W -3dB at 75kHz at 20W <10Hz to <40kHz ±0.5dB at 1W

Signal-to-noise ratio: 89dB  
Output noise (input grounded), hum: <3mV peak  
white noise: <2mV peak  
Harmonic distortion: 0.05% (0.1% at 27W)  
Output impedance: <0.2Ω

#### Output Transformer Details

Primary anode-to-anode impedance (Ra/a): 6-6kΩ  
Screen grid taps: 43% from CT  
Winding distribution: Five sections of interleaved primary and secondary

windings  
Speaker load matching: 8Ω only  
Low frequency cut-off: 25Hz at 20W throughput  
Primary resonant frequency: 80kHz approx.

Valves: 1 x EF86, 1 X ECC83, 2 X EL34  
monobloc, 304 x 203 x 165mm stereo, 457 x 203 x 165mm

#### Optional Items

The following items are not included in the kit, but may also be required.

8-2Ω 25W wire-wound Resistor (dummy-load)	1	(P8R2)
470k single pot log	1	(FW27E)
470k dual pot log (alternative)	1	(FX14Q)
10M (alternative)	1	(M10M)
Gold chassis phono skt red	1	(JZ06G)
Gold chassis phono skt blk	1	(JZ05F)
Stick-on feet square	1 Pkt	(FD75S)
M3 x 10mm steel screw	1 Pkt	(JY22Y)
M3 steel nut	1 Pkt	(JD61R)
M3 shakeproof washer	1 Pkt	(BF44X)

#### Kit and Special Parts

A complete kit for each module, including the PCB and transformer, is available (but excluding optional items) to build one PSU and one mono amplifier. The kits are now supplied with pre-punched boxes for even easier assembly (available separately). In addition, complete monobloc and stereo assembly kits are also available as BJ35Q and BJ36P. Full construction details can be found in Maplin Magazine/Projects Books 73 and 74, XA73Q and XA74R, and instruction leaflets XU45Y, XU46A.

## 'Newton' Stereo Valve Pre-amplifier

4

- ★ Simple PCB construction
- ★ Compact stereo module
- ★ Versatile connection options
- ★ Onboard low-impedance line driver
- ★ Low-noise DC heater supply
- ★ Passive RIAA equalisation
- ★ High output
- ★ Wide dynamic range

### Specification

Phono stage  
 Input impedance: 51kΩ + 330pF\*  
 Line output impedance: 1kΩ  
 Overall gain, phono to line: 48dB @ 1kHz  
 Line output level: 1 to 2V peak (2.5mV @ 1kHz for 5cm/s)  
 Signal to noise ratio: 40 to 60dB (depending on cartridge)

RIAA equalisation network type: Passive optimised

\*Select values to match the requirements of the cartridge used.

### Tone Control Stage

Line input impedance: 1MΩ  
 Main output (to power amp) impedance: <10kΩ  
 Overall gain: 6dB flat  
 Frequency response: 20Hz to 20kHz ±0.5dB, 2dB @ 100kHz

Output noise: <200µV peak max.  
 Signal to noise ratio: 60dB for 100mV input level

Line input signal level: 0dB typical  
 Maximum permissible input level before onset of clipping: 6V pk-to-pk  
 Bass boost and cut: +16dB and -12dB @ 20Hz max.

Treble boost and cut: +18dB and -19dB @ 20kHz max.

Balance offset boost: +3dB max.  
 Tone control network type: Passive Baxandall  
 Power supply: 230 to 240V @ 50Hz or 115 to 120V @ 60Hz  
 Power consumption: 30W approx.

### RIAA Phono Module

Test conditions  
 Input signal level: 2.5mV peak, 1kHz  
 Input source impedance: 600Ω via 1.5m screened lead

HT supply: 300V + 100mV ripple @ 100Hz  
 Input impedance: 51kΩ + 330pF\*  
 Buffered output impedance: <1kΩ

(using V2):  
 Overall gain: 48dB @ 1kHz  
 Output levels, with simulated magnetic cartridge input moving coil, = 2.5mV @ 1kHz/630mV

signal to noise ratio: >39dB  
 moving magnet, = 5.5mV @ 1kHz 1.5V

signal to noise ratio: >43dB

Real conditions (example = Tenorel TMC10 moving coil cartridge, O/P = 2.5mV @ 1kHz for 5cm/s)  
 Output level in use: 2V peak  
 Signal to noise ratio: >52dB (nearer 60dB)  
 V1a & b triode stage gain: 34dB each  
 Equalisation network type: Passive RIAA standard

Power requirements:  
 HT supply: 300 to 350V DC  
 HT current consumption: 15mA incl. bufFer  
 Heater supply #1: 12.6V DC @ 300mA\*\*  
 Heater supply #2: 6.3V AC @ 300mA

\* Select values to match the requirements of the cartridge used.

\*\* DC heater must be regulated and one side connected to signal I/P 0V near V1.

It was only logical that the 'Millennium 4-20' 20W power amplifier should have a valve preamplifier to partner it. It should be noted, however, that the 'Newton' need not be restricted to serving the 'Millennium' alone, and it is easily capable of filling in as the front end for other power amplifiers, valve types or otherwise.

In addition, it is often necessary for a stereo preamplifier to cater for many other items of equipment to be connected to it, and simultaneously be able to provide line level outputs to tape recorders and receive other signal sources, such as from a tuner, CD, etc., even for off-tape monitoring, via multi-way selector switches. This versatility can extend to providing a number of auxiliary mains outlets for the other equipment, thus saving on the number of multiple plugblocks required.

The 'Newton' design exploits polycarbonate and polypropylene capacitors for best sound quality, high-speed electrolytics and very low noise, high stability metal film resistors. The result is a very compact preamplifier, that performs extremely well and is very reliable.

The three basic modules consist of a complete Power Supply Unit, the self-contained RIAA equalised Phono Pre-amplifier PCB, and similarly a Tone Control PCB. Each is available as a separate kit, where the PSU and the Phono Module each includes a suitable aluminium chassis.

### Optional Items

The following items, not included in the kits, may also be required.

Euro Outlet	As Req	(HL42V)
Insulating Cover for Euro Outlet	As Req	(JK69A)
Square Stick-on Feet	1 Pkt	(FD75S)
2-pole 6-way Rotary Switch	As Req	(FF74R)
4-pole 3-way Rotary Switch	As Req	(FF76H)
Twin Phono Socket	As Req	(JK15R)
Quad Phono Socket	As Req	(BW74R)
Octal Phono Socket	As Req	(JK17T)
Gold Phono Socket Black	As Req	(JZ05F)
Gold Phono Socket Red	As Req	(JZ06G)
Grounding Post	As Req	(JL99H)
Aluminium Sheet 16 swg	1 Sht	(LH13P)
Knob K8C	As Req	(YR66V)
15mm Solid Aly Knob K8A	4	(YR64U)
M3 Shakeproof Washer	1 Pkt	(BF44X)
M3 Steel Nut	1 Pkt	(JD61R)
M3 x 10mm Steel Bolt	1 Pkt	(JY22Y)

### Kit and Special Parts

Complete kits of parts (including the PCBs) are available (excluding optional items). The PCBs and front panel label are available separately. Full construction details may be found in Maplin Magazine/Projects Books 85 and 86, XA85G and XA86T, and instruction leaflets XV10L, XV11M and XV12N.

## Velleman Equaliser System

3

A high quality equaliser system comprising the following kits:

K4300: Spectrum analyser display.  
 K4301: Pink noise generator.  
 K4302: 10 band graphic equaliser (two required for stereo).  
 K4303: Power supply and switching module (the switching module mounts onto the front panel).

### Equaliser

Number of bands: 10  
 Centre frequencies: 32,64,125,250,500, 1k,2k,4k,8k,16kHz  
 Bandwidth: 5Hz to 100kHz (-3dB)

Amplification (controls in flat position): 0dB  
 Control range: ±10dB  
 Total harmonic distortion: <0.02% (1kHz/0dB)  
 Signal-to-noise ratio (controls in flat position): >110dB (A-weighted to 0.775mV)

Stereo separation: >95dB (1kHz/0dB)  
 Max. output voltage: 2.5V rms  
 Input impedance: 4.7kΩ  
 Output impedance: 1kΩ

### Pink Noise

Pseudo random digital noise  
 Clock frequency: Adjustable from 30 to 100kHz

Pink noise filter: -3dB/octave (20Hz to 20kHz)  
 Output voltage: 150mV rms  
 Output impedance: 1kΩ

### Spectrum Analyser

Number of bands: 10  
 Centre frequencies: 32,64,125,500, 1k,2k,4k,8k,16kHz  
 Power bandwidth: 20Hz to 20kHz (±2dB)  
 Range: 20dB  
 Resolution: 2dB/LED

Sensitivity: line input: adjustable from 1V to 2V rms  
 microphone input: adjustable from 1mV to 20mV rms

Input impedance: line input: 100kΩ  
 microphone input: 10kΩ

## Front Panel For Graphic Equaliser System

A pre-formed front panel and accompanying panel foil for the modular graphic equaliser system.

### Optional Items

The following item, not included in the system kits, may also be required, to complete the system.  
 48.3cm (19in.) Rack Mounting Case 1 (XJ24B)

### Kits and Special Parts

A complete kit of parts (including the PCB) is available (excluding optional items). Full construction details and a list of additional parts for interconnection of modules will be found in the Maplin Magazine/Projects Book 74 XA74R, and instruction leaflet XU73Q.

### Retail Unit Price each (inc. VAT).

Order Code	Type 2544	Price each exc. VAT 1+	inc. VAT each 1+
VE41U	Velleman Kit F4302	£25.520	£29.990

## K4300 Audio Spectrum Analyser 3

### Features

- ★ 10 frequency bands monitored on 10 linear bargraphs; centre frequencies 32Hz, 64Hz, 125Hz, 250Hz, 500Hz, 1kHz, 2kHz, 4kHz, 8kHz and 16kHz
- ★ 10 LED bargraph for each band; 2dB for each LED, giving 20dB range
- ★ Microphone input
- ★ Single +12V DC power requirement
- ★ High input impedance (100kΩ) – will not load audio system
- ★ Can be used in its own right, or as part of a system

### Applications

- ★ Setting up speaker systems
- ★ Checking adjustment of graphic equaliser
- ★ Assuring a flat frequency response

A spectrum analyser is an invaluable tool for monitoring the composition of audio signals particularly in a sound system that utilises a graphic equaliser. In such a system, control across the spectrum is produced by 'boost' and 'cut' over multiple frequency ranges instead of the standard 'bass' and 'treble' controls. The spectrum analyser then visually displays the results of the graphic equaliser's settings on a group of LEDs arranged in a bank of 10 bands.

The spectrum analyser monitors pink noise from the output of an audio system enabling any corrective adjustment of the graphic equaliser controls to be displayed as a 'flat' response.

This kit can be used on its own or in conjunction with a pink noise generator (kit K4301, order as VE43W), a 10 band graphic equaliser (kit K4302, order as VE44X).

### Specification

Supply current: 0.75A (DC)  
 Power supply: 2 x 9V AC, or 12 to 15V DC  
 Range: 20dB (10 LEDs, 2dB per LED)  
 10 Bands: 32Hz, 64Hz, 125Hz, 250Hz, 500Hz, 1kHz, 2kHz, 4kHz, 8kHz, 16kHz

Line input level: Adjustable, 100mV to 2V rms  
 Line input impedance: 100kΩ  
 Microphone preamplifier gain: 40dB  
 Microphone input impedance: 10kΩ

### Optional Parts

The following items, not included in the kit, may also be required.

Insulated Spacer M3 x 20mm	2 Pkts	(FS38R)
Insulated Spacer M3 x 10mm	1 Pkt	(FS36P)
Screw M3 x 12mm	1 Pkt	(BF52G)
Steel Nut M3	1 Pkt	(JD61R)
Rotary Switch SW4B	1	(FF75S)
Phono Socket	4	(YW06G)
Open Chassis Socket 6.3mm	1	(HF91Y)
Wire 7/0-2 10m Black	1	(BL00A)
Wire 7/0-2 10m Red	1	(BL07H)
Single Core Lapped Screen	1	(XR12N)
Ribbon Cable 20-Way	As Req	(XR07H)

### Kit and Special Parts

A complete kit of parts (including the PCBs) is available (excluding optional items). Full construction details may be found in instruction leaflet XU43W.

Retail Unit Price each (inc. VAT).

Order Code	Type 2364	Price each exc. VAT	inc. VAT each
VE42V	Velleman Kit K4300	£65.520	£76.990
XU43W	Spectrum Analyser Lft	£0.800	£0.800 NV

## K4302 Mono Graphic Equaliser Module 2

### Features

- ★ Compact size
- ★ Low distortion
- ★ Low cost
- ★ 10dB of cut or boost across 10 frequency ranges
- ★ 5V to 12V DC single-rail power requirement

### Applications

- ★ Modular equaliser systems
- ★ Disc and PA equipment
- ★ Updating hi-fi equipment
- ★ In-car applications
- ★ Home recording and electronic music

A graphic equaliser allows you to bring out the best sound from your audio system – room acoustics or speaker coloration problems are brought under control by allowing the audio response to be tailored to personal preference.

The Graphic Equaliser kit allows ten narrow, but overlapping frequency bands across the audio range to be cut or boosted. These bands are arranged around centre frequencies of 32Hz, 64Hz, 125Hz, 250Hz, 500Hz, 1kHz, 2kHz, 4kHz, 8kHz and 16kHz, which are adjustable by moving the sliding potentiometers from the centre flat position, to cut or boost at a specific frequency, or group of frequencies. Note that two kits will be required for stereo. Suitable knobs are available (VX18U).

### Specification

Frequency bands: 32Hz, 64Hz, 125Hz, 250Hz, 500Hz, 1kHz, 2kHz, 4kHz, 8kHz and 16kHz  
 ±10dB per band

Cut/boost: 0dB output, flat  
 Frequency response: 5Hz to 100kHz (-3dB)  
 Signal to noise ratio: 110dB (IHF A-weighted, 0dB output, flat)

Distortion: 0.02% (1kHz, all controls in 'flat' position)  
 Power supply: 5 to 12V DC at 10mA (regulated)

Overall dimensions: 145 x 77 x 35mm (excluding slider shafts)

### Optional Items

The following items, not included in the kit, may also be required.

Slider Knobs	10 or 20	(VX18U)
Screened Cable	As Req	(XR15R)

### Kit and Special Parts

A complete kit of parts (including the PCB) is available (excluding optional items). Full construction details may be found in Maplin Magazine/Project Book 71 XA71N, and in instruction leaflet XU50E.

Retail Unit Price each (inc. VAT).

Order Code	Type 2371	Price each exc. VAT	inc. VAT each
VE44X	Velleman Kit K4302	£30.620	£35.990
VX18U	Velleman KNGGRAPH	£0.842	£0.990
XU50E	10 Band Equ. Leaflet	£0.800	£0.800 NV

## K4301 Pink Noise Generator 2

### Features

- ★ AC or DC supply
- ★ Low cost
- ★ Easily adaptable to produce white noise
- ★ Flexibly designed and small PCB
- ★ Pseudo-random noise generation utilising digital techniques

### Applications

- ★ Calibration of graphic equaliser in conjunction with a spectrum analyser
- ★ Noise generators
- ★ Electronic music

A pink noise generator is a device that produces noise of constant amplitude across the whole audio band. Many pink noise generators utilise a zener diode or reverse-biased transistor, working at a deliberately low current, as a noise source which leads to unpredictable results. By utilising a pseudo-random bit pattern generator, a much more reliable result is obtained.

The Pink Noise Generator Module is intended for use with a graphic equaliser, in conjunction with the Spectrum Analyser (Kit K4300 VE42V).

This system, typically used in a domestic environment, allows compensation for speaker frequency response, the effect of room size on frequency response, soft furnishings, hard walls, and other sources of absorption and reflection.

### Specification

Clock frequency adjustment: 30kHz to 100kHz  
 Output level: 150mV rms (clock running at 40kHz)

Output impedance: 1kΩ  
 Pink noise filter: -3dB/octave (20Hz to 20kHz)

Power supply requirement: 9 to 12V AC, or 12 to 15V DC at 5mA  
 43 x 72mm

### PCB dimensions:

### Optional Items

The following items, not included in the kit, may also be required.

Screw-Cap Phono Plug White	2	(HQ59P)
Screened Cable	As Req	(XR15R)

### Kit and Special Parts

A complete kit of parts (including the PCB) is available (excluding optional items). Full construction details may be found in Maplin Magazine/Projects Book 72 XA72P, and instruction leaflet XU54J.

Retail Unit Price each (inc. VAT).

## K4303 Power Supply and Switching Unit

3

- ★ Input from line or noise generator
- ★ Tape output from lines or equaliser
- ★ Spectrum analyser input from line or microphone

- ★ Line output from line input or equaliser

This Power Supply and Switching Unit module has been designed for use with the Modular Graphic Equaliser System, which is made up from the following modules.

Audio Spectrum Analyser	K4300 (VE42V)
10-Band Graphic Equaliser	K4302 (VE44X)
Pink Noise Generator	K4301 (VE43W)
Front Panel	F4302 (VE41U)

This kit performs three functions. These are:

1. To provide a regulated power supply for the above modules.
2. To provide all the necessary switching functions.
3. Includes a front panel mounted line input sensitivity control.

### Kit and Special Parts

A complete kit of parts (including the PCB) is available. Full construction details may be found in Maplin Magazine/Projects Book 73 XA73Q, and instruction leaflet XU66W.

Retail Unit Price each (inc. VAT).

Order Code	Type 2373	Price each exc. VAT	inc. VAT each
VE45Y	Velleman Kit K4303	£27.220	£31.990
XU66W	Equi PSU/Input Lift	£0.530	£0.500 NV

## Power Amplifiers

### LM386 Amplifier

1

The LM386 is a general purpose power amplifier designed for use in low voltage applications and requires minimal external components to operate. It is ideal for use in applications where a low power amplifier is required, i.e. radio receivers, intercoms, etc. Output power into 8Ω is 325mW.

### Specification (typical)

Supply Voltage (V <sub>S</sub> ):	4V to 12V DC
Quiescent Current:	4mA
Output Power (P <sub>OUT</sub> ):	325mW
Voltage Gain:	46dB
Bandwidth:	300kHz
THD:	0.2%
Input Bias Current:	250nA

Note: As this board is intended as a 'building-block' project it is not eligible for our 'Get-you-working' service.

### Kit and Special Parts

A complete kit of parts to build the basic LM386 amplifier is available (note: kit does not include R1, which has to be selected on test). The high quality fibre-glass PCB is also available separately. PCB dimensions: 29.2 x 29.2mm. Full construction details may be found in Maplin Magazine/Projects Book 29 XA29G, and instruction leaflet XU38R.

Retail Unit Price each (inc. VAT).

Order Code	Type 2700	Price each exc. VAT	inc. VAT each
LM76H	LM386 Kit	£4.240	£4.990
GC96T	LM386 PCB	£1.690	£1.990
XU38R	LM386 Amplifier Lift	£0.500	£0.500 NV

## TDA2822 Stereo Audio Amplifier

1

- ★ Easy to build
- ★ Low quiescent current
- ★ Low crossover distortion
- ★ Supply voltage down to 3V
- ★ Stereo headphone jack socket

The TDA2822 is a monolithic integrated circuit and with the rest of the components on the printed circuit board, it offers a small yet powerful stereo amplifier module. Because of its wide supply voltage range (3V to 15V) it is well suited to portable battery operated applications.

### Specification

Test conditions:	PSU = 9V, Output load = 8Ω
Input sensitivity:	26mV rms
Input impedance:	47kΩ at 1kHz
Quiescent current:	8mA
Maximum current:	260mA
Output power:	650mW rms per channel
Power bandwidth:	40Hz to 150kHz (-3dB)
Distortion:	0.9% thd
Output noise:	40μV

### Kit and Special Parts

A complete kit of parts is available and pcb is also available separately. Full construction details may be found in instruction leaflet XU37S. PCB dimensions: 72.4 x 44.5mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 2702	Price each exc. VAT	inc. VAT each
LP03D	TDA2822 Stereo Pwr Amp	£9.350	£10.990
GE21X	TDA2822 PCB	£2.540	£2.990
XU37S	TDA2822 Amp Leaflet	£0.800	£0.800 NV

## TDA7052 1W Power Amplifier Module

1

- ★ Low Component Count
- ★ Low Power Consumption
- ★ Short Circuit Protected
- ★ No External Heatsink Required

An application circuit using the TDA7052 1W mono power amplifier IC, and ideal for use in low power applications such as portable battery powered equipment, because it requires very little in the way of external components to function. This is entirely a general purpose module and will find uses where simple but effective audio power amplification is needed. Typical uses for the module could include low power audio amplification for portable radios, cassette recorders/players, toys, games, intercoms, and related devices; the high gain capability of the circuit makes it ideal for use in intercoms and baby alarms, where the module may be used to amplify signals from a microphone direct with very little pre-amplification to a suitable level to drive a loudspeaker directly. Provision for a volume control can be made directly on the board.

### Specification

Power supply range:	3 to 15V DC
Supply current:	4mA quiescent @ 6V 340mA max. @ 6V for 1W into 8Ω
Distortion:	0.7% THD @ 1kHz & 0.1W
Output power:	1W rms max. @ 6V
Voltage gain:	39dB
Size:	32 x 32mm

### Kit and Special Parts

A complete kit of parts is available. The pcb is also available separately. Full construction details may be found in the Maplin Magazine/Projects Book 37 XA37S, and instruction leaflet XU36P. PCB dimensions: 31.75 x 31.75mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 2708	Price each exc. VAT	inc. VAT each
LP16S	TDA7052 Kit	£5.940	£6.990
GE41U	TDA7052 PCB	£2.540	£2.990
XU36P	TDA7052 Amp Lift	£0.500	£0.500

## K4001 7W Amplifier

1

This small amplifier is constructed around the TDA2003 IC, capable of delivering 4W rms. The IC is completely thermally and short-circuit protected. A conventional DC supply can be connected as supply. Overload and short-circuit protected.

### Specification

Music power output:	7W/4Ω
RMS output:	3.5 W/4Ω and 2W/8Ω
THD:	0.05% (1W/1kHz)
Frequency response:	20Hz to 20kHz (-3dB)
S/N ratio:	86dB (A weighted)
Input sensitivity:	40mV/150kΩ
Supply voltage:	15V DC (8 to 18V DC possible) at 0.5A
Dimensions:	55 x 35mm

Retail Unit Price each (inc. VAT).

Order Code	Type 10502	Price each exc. VAT	inc. VAT each
VF55K	K4001 7W Amp Kit	£7.650	£8.990

## K2637 Super Mini Mono 2.5W Audio Amplifier

1

Small board complete with both pre- and power amplifier. No adjustment required. Short circuit protected.

Power supply:	4.5 to 15V DC
Input sensitivity:	power amplifier 150mV (12V) pre-amplifier: 20mV (12V)
Output power:	2.5W max. (4Ω, 12V)
Dimensions:	42 x 32 x 27mm

Retail Unit Price each (inc. VAT).

Order Code	Type 2004	Price each exc. VAT	inc. VAT each
VE12N	Velleman Kit K2637	£7.650	£8.990

## 8W Power Amplifier 1

A hi-fi 8W amplifier using the LM383. One of our most popular kits, this amp is offered at a very low price and is an ideal building-block module for use in many audio projects. For more details see the specification of the LM383 in the Semiconductor Section of this catalogue.

- Parts List For Suggested Power Supply**
- Fuse 500mA Anti-surge (A/S) (WR18U)
  - Fuse 1A (A/S) (WR19V)
  - Fuse 1A Additional for Stereo (WR19V)
  - Transformer 2A (YK15R)
  - Bridge Rectifier SO05 (QL09K)
  - 470µF 63V Electrolytic Capacitor (FB74R)
  - 100µF 35V Electrolytic Capacitor (FB49D)
  - Resistor 680Ω (M680R)
  - Zener Diode 22V BZX61C22V (QF61R)
  - Power Transistor 2N3055 or BD711 (YH98G) (WH15R)

Mains switch as required (see switches section).  
Heatsink as required (see end of semiconductor section).

### Kit and Special Parts

A complete kit of all the parts needed to build the 8W amplifier shown above (not including the PSU) is offered at a very competitive price. The PCB is also available separately.

Retail Unit Price each (inc. VAT).

Order Code	Type 2712	Price each exc. VAT	inc. VAT each
LW36P	8W Amp Kit	£8.500	£9.990
BY73Q	8W Amp PCB	£1.260	£1.490

## 12V Public Address System 2

- ★ Two 8W rms Amplifiers
- ★ Maximum of 10 x 8 Ω Speakers can be Driven
- ★ Supplied from 12V Car Battery

A Public Address amplifier that operates from a 12V car battery, and producing up to 10W per channel specifically to drive arrays of public address loudspeakers. Input for a single microphone is provided by a mono 6-35mm (1/4 in.) jack socket. Bandpass limiting of 300Hz to 3kHz neatly excludes very low and high frequency harmonics in speech areas which are unnecessary for PA use, leaving

the bandpass area free of excessive distortion. Megaphone type speaker arrays that would be used have their own similar bandpass characteristics. Without recourse to power bridging designs or power inverter techniques the amplifier can produce 10 to 20W rms of power output, using the robust TDA2005 power amp IC, from a single 12V supply. The IC contains 2 such amplifiers each capable of driving loads down to 1-6Ω, or five 8Ω speakers. A combined total of 16W can be achieved from ten such speakers.

**Specification**

- Supply voltage: 6V to 17V DC
- Min. supply current: 100mA
- Max. supply current: 2-25A
- Rated power output: 8W rms. per ch. (16W pk)
- Both channels running: 16W rms. total at 1kHz
- Input sensitivity: 2mV continuously variable for rated output

- Load impedance: 1-6Ω max. to 8Ω min.
- Power response: 680Hz to 2kHz
- Input: Single 6-35mm mono jack
- Output: Twin 6-35mm jacks

Includes input sensitivity preset and volume control.

### Optional Items

The following items, not included in the kit, may also be required.

- Jack Plug 2 off (HF87U)
- PA Front Panel (FP59P)
- Battery Clip 2 off (HF26D)
- Wire 3202 Red (XR36P)
- Wire 3202 Black (XR32K)

### Kit and Special Parts

A complete kit of all parts for the 12V PA Amplifier excluding the front panel. The pcb (size 144 x 82mm), pre-drilled case, and printed adhesive front panel are also available separately. Full construction details may be found in instruction leaflet XV00A. PCB dimensions: 144-8 x 82-6mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 2718	Price each exc. VAT	inc. VAT each
LM17T	PA Kit	£25.520	£29.990
GD31J	PA Board	£3.820	£4.490
YP12N	Car PA Case Drilled	£13.180	£15.490
FP59P	PA Front Panel	£3.820	£4.490
XV00A	Public Address Lift	£0.800	£0.800 NV

## 15W Power Amplifier 2

### Features

- ★ 15W RMS output power (into 4Ω load)
- ★ Short-circuit protected
- ★ Low distortion
- ★ Amplifier and power supply kits available
- ★ Low-cost

### Applications

- ★ Superior replacement amplifier module for most music centres
- ★ Monitor amplifier
- ★ Bench amplifier

The original Hi-Fi 15W amplifier, using the TDA 2030 IC, has been around for 12 years and has been a consistently good seller. By a careful redesign of the original PCB layout, and a few judicious component changes, the performance has been considerably improved over the original. The total harmonic distortion has been reduced to less than 0-1%, with a very useful increase in output power. All this adds up to an extremely versatile, compact amplifier. The output is short-circuit proof,

and the built-in thermal protection means that the IC is capable of surviving most fault conditions. The IC should be bolted directly to the heatsink bracket after smearing a small amount of heat transfer compound (not supplied in kit) onto the mating surfaces. The tab of the IC is connected internally to pin 3, and is at 0V potential; this pin must always be connected to the most negative part of the amplifier circuit. It may be desirable to isolate the tab from the heatsink by using an insulating bush and greaseless washer and leave pin 7 of the IC unconnected.

A suitable 30V DC unregulated power supply kit is also available (excluding transformer). One kit is required for each amplifier, but only one transformer is required, a toroidal type (YK86T), for either mono or stereo operation. For mono applications, the two secondaries are wired in parallel (red and blue wires to pin 1 of PSU, yellow and grey wires to pin 2 of PSU). For stereo each secondary winding feeds a separate PSU module (red to pin 1 of PSU 1, yellow to pin 2 of PSU 1; blue to pin 1 of PSU 2, grey to pin 2 of PSU 2).

### Specification

(Using LT24B PSU module(s) and YK86T transformer)

Maximum supply voltage: 40V DC

Output short circuit protection: Continuous

Input sensitivity for maximum output

- 4Ω speaker load: 244mV RMS (-10-03dB)
- 8Ω speaker load: 288mV RMS (-8-59dB)

Total harmonic distortion

- mono into 4Ω: 0-05% (15W RMS)
- mono into 8Ω: 0-05% (11W RMS)
- stereo into 4Ω: 0-1% (15W RMS)
- stereo into 8Ω: 0-1% (11W RMS)

Bandwidth

- 4Ω: 20Hz to 100kHz
- 8Ω: 10Hz to 100kHz

### Optional Items

The following items, not included in the kit, may also be required.

### 15W Amplifier

- Heatsink 4Y 1 (FL41U)
- TO220 1 (WR23A)
- Heat Transfer Compound 1 Tube (HQ00A)
- Heavy Duty Speaker Cable As req. (XR60Q)

### PSU

- Neon Switch Red 1 (YR70M)
- Fuse 32mm (11/4in.) 1A 1 (WR11M)
- Toroidal Transformer 120VA 24V 1 (YK86T)
- Fuseholder 1 (FA39N)
- Fuseholder Boot 1 (FT35Q)
- Tie Wrap 102 1 (BF91Y)
- Miniature Mains Cable As req. (XR01B)
- Strain Relief Grommet 5R2 1 (LR48C)
- Push-on Receptacles 1 Pkt (HF10L)
- Push-on Receptacle Covers 1 Pkt (FE65V)
- Tag 2BA Solder 1 Pkt (BF27E)
- Chassis Mounting Phono Skt 2 (YW06G)
- Chassis Mount 2 pin DIN Skt 2 (HH31J)

### Kit and Special Parts

A complete kit of parts (including the PCB and instruction leaflet) is available (excluding optional items) for the 15W amplifier and a separate kit is available for the 30V unregulated PSU. The PCBs and bracket are also available separately. Full construction details may be found in Maplin Magazine/Projects Book 64 XA64U, and instruction leaflet XU07H.

Retail Unit Price each (inc. VAT).

## K4003 30W Stereo Amplifier 2

A small stereo amplifier based round the TDA1521 IC providing 15W rms/channel into 4Ω. The IC is thermally and short-circuit protected and includes suppression during switch on/off. Requires a suitable AC power rail.

### Specification

Output power rms	
into 4Ω:	15W/channel
into 8Ω:	10W/channel
Peak music power:	30W/channel into 4Ω
THD at 1W (1kHz):	0.07%
Channel separation:	70dB
S/N:	98dB A-weighted
Input sensitivity:	300mV/150kΩ
Supply voltage:	2 x 12V AC at 2A (stock code YK15R)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VF53H	Velleman Kit K4003	£17.650	£23.990

## 20W Power Amplifier 2

This low distortion, high quality audio amplifier, based on the LM1875, is capable of delivering 25W into 4Ω to 8Ω loads and can be operated from split or single rail supplies. It also features short circuit and thermal protection. This amplifier is an ideal building-block module for use in many audio projects. Full construction details may be found in Maplin Magazine/Projects Book 30 XA30H.

### Specification

Supply Voltage:	60V(±30V) Max
Supply Current:	70mA (typical), P <sub>OUT</sub> 0W
Output Power (P <sub>OUT</sub> ):	25W, THD = 1%
Load Impedance:	4Ω to 8Ω
THD:	(f = 1kHz) 0.022%
P <sub>OUT</sub> = 20W, 4Ω load	(f = 20kHz) 0.07%
Full Power Bandwidth:	DC to 250kHz (-3dB)
Open Loop Gain (DC):	90dB
Slew Rate:	8V/μs

### Printed Circuit Board

A high quality fibre-glass PCB with printed legend is available for the basic LM1875 audio amplifier application. The board has provision for both single and split rail supply versions of the amplifier.

Note: As this board is intended as a 'building-block' project it is not eligible for our 'Get-you-working' service.

PCB dimensions: 73.7 x 68.6mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GE13P	LM1875 PCB	£2.970	£3.490

## TDA1514A 50W IC Power Amplifier 2

### Features

- ★ Star earthing
- ★ Small size (PCB, 57mm x 76mm)
- ★ Preselectable input sensitivity
- ★ Wide supply voltage range
- ★ Safe operating area (SOAR) protected
- ★ Short circuit protection
- ★ Thermal protection

The TDA1514A power amplifier is a high quality IC based power amplifier combining small size with high power output. The IC features protection against AC and DC short circuits when used with symmetrical supplies. The IC also includes an output mute circuit preventing 'clicks' and 'thumps' during switch on and switch off, thus eliminating the possibility of damage to delicate speakers. The amplifier is protected against thermal runaway and includes SOAR protection making the device almost indestructible. The IC has a wide supply range, the minimum requirements being ±9V to a maximum of ±30V. To deliver an output power of 50 watts the module requires a ±27.5V supply for an 8Ω load and a ±23V for a 4Ω load. Full construction details may be found in Maplin Magazine/Project Book 40 XA40T, and instruction leaflet XK56L.

### Specification

Supply voltage range:	±9V to ±30V DC
Input sensitivity:	300mV to 2V (adjustable)
Output impedance:	0-1Ω
Power output:	(V <sub>s</sub> = ±27.5V)
8Ω	40W RMS
4Ω	60W RMS
HD at -3dB of full output:	0.1%
Full power bandwidth (-3dB):	20Hz to 25kHz
Signal to noise ratio:	82dB
Peak output current:	6.4A
Quiescent current:	60mA
Supply ripple rejection:	(100Hz) 72dB
Slew rate:	10V/μs

### Optional Items

The following optional items are not included in the kit but may also be required.

Heatsink 2E	1	(HQ70M)
Insulator TO218	1	(UL74R)

### Kit and Special Parts

A complete kit of parts is available and the PCB is also available separately.

A ready assembled version is also available.

PCB dimensions: 57.2 x 76.2mm.

Retail Unit Price each (inc. VAT).

## 50W Hi-Fi Power Amplifier 2

### Features

- ★ Very Low Distortion (<0.05% at 1kHz)
- ★ Unconditionally Stable
- ★ Damping Factor 80
- ★ Maximum Output 72W RMS at 1kHz (4Ω load)
- ★ Noise <-100dB
- ★ Easy to Build

### Applications

- ★ Hi-Fi Systems
- ★ Active Loudspeaker Systems
- ★ Sub-Woofer Amplifier
- ★ In-Car Amplifier

The Maplin 50W amplifier has been around for some time, and still sells extremely well - a tribute, no doubt, to the excellent design. The amplifier can readily form the basis of a high quality Hi-Fi system. Because of the low-cost of the kit, the amplifier can be used in an active loudspeaker system, or used to drive a sub-woofer. Such applications will require the amplifier(s) to be fed from suitable filter circuits. Another possible application is in-car amplification. Although if the amplifier(s) is to be used in a car, it would still have to be fed from a ±30V power supply. A suitable switch-mode power supply, that 'converts' the 12 to 14V output from a car battery to a suitable ±30V power supply, was discussed in 'Electronics' Issue 46, which is also available as a kit (LP39N).

### Specification

(With power supplies shown and extra heatsink)  
Power Output at 1kHz

	4Ω Load	8Ω Load
One Channel:	72W RMS	50W RMS
Two Channel:	49W RMS	36W RMS

Input Sensitivity	
For Rated Output:	380mV 450mV
Frequency Response:	Flat from 20Hz to 28kHz
Full Power Bandwidth	
(pulse tested at hf):	3dB down at 95kHz
Noise:	<-100dBu
THD:	<0.05% at 1kHz
Damping Factor:	80
Input Impedance:	15kΩ
Slew Rate:	14V/μs (at 10kHz)

### Kit and Special Parts

A complete kit of parts (including the PCB) is available (excluding optional items). The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 67 XA67X, and instruction leaflet XU21X.

Retail Unit Price each (inc. VAT).

## 150W Bipolar Power Amplifier 2

**NEW**

### Features

- ★ 175W RMS into 4Ω\*
- ★ 100W RMS into 8Ω\*
- ★ Classic Bipolar design throughout
- ★ Wide frequency response
- ★ Low distortion
- ★ Full output at 1V RMS input\*
- ★ Will operate down to ±25V
- (\* Quoted values measured using recommended PSU)

### Applications

- ★ PA Systems
- ★ Disco equipment
- ★ In Car Entertainment using PSU LP39N

A redesign of the popular 150W Power Amp LW32K featuring improved noise and distortion figures. The kit now includes a larger, pre-drilled heatsink and greaseless insulators avoiding the mess of heat transfer compound. Details of the recommended PSU can be found in the magazine article and instruction leaflet. Two modules are required for stereo.

### Specification

Operating voltage: ±25 to ±50V DC  
 Quiescent current: 70mA DC  
 Classification: Bipolar  
 Class B (Push-pull)  
 Frequency response: 15Hz to 37kHz (-3dB)  
 Total harmonic distortion:

less than 0.1% at 1kHz  
 PCB dimensions: 196 x 101mm  
 Height (max): 56mm (including bracket)

### Kit and special parts

A complete kit of parts is available. The PCB and heatsink bracket are available separately. Full construction details may be found in Maplin Magazine/Projects Book 107 XD07H, and instruction leaflet XZ37S.

Retail Unit Price each (inc. VAT).

XZ37S	150W Pwr Amp Lft	£0.500	£0.500 NV

## 150W MOSFET Amplifier 2

- ★ True 100W/150W rms power output
- ★ Drives 4Ω or 8Ω loudspeakers
- ★ High reliability and performance

The MOSFET amp has been revised from its debut in 1981 for guitar use in the Combo Amplifier!!! This best selling project is always in the Top Ten Kits list.

An incredible hi-fi amp that offers high reliability and performance like the best valve amps. It is suitable for use in audio applications where high power levels and excellent frequency response characteristics are required.

A power supply is not included with the kit.

### Specification

Power supply  
 Voltage: ±55V DC max (8Ω)  
 Current: 2.5A (8Ω), 5A (4Ω)  
 Output power rating at 1kHz continuous sine wave: 100W rms into 8Ω load (max)  
 150W rms into 4Ω load (max)  
 Frequency response: 20Hz to 40kHz  
 Slew rate: 20V/μs  
 Damping factor: Fd = 200 (8Ω load)  
 Input impedance: 47kΩ  
 Input sensitivity: 860mV rms (2-43V pk-pk) for rated output

### Optional Items

The following items, are not included in the kit, but may also be required.

Audio Toroidal 160V	1	(YZ23A)
J04	1	(BH46A)
W01	1	(QL38R)
4k7 1W Carbon Film	2	(C4K7)
10,000μF 63V Can	2	(FF32K)
2,200μF 63V Can	2	(FF22Y)
100nF HV	2	(FA21X)
100nF 35V Tantalum	2	(WW54J)
μA78M12UC	1	(QL29G)
μA79M12UC	1	(WQ89W)
Fuse A/S 3-15A	3	(RA11M)
Fuse A/S 630mA	2	(RA08J)
Heatsink 6W-1	1	(FL77J)

### Kit, Ready-Built Module and Special Parts

This project is available as a complete kit or as a ready-built module size 100 x 75 x 25mm. In addition the heatsink mounting bracket and the PCB (size 90 x 85mm) are available separately. Full construction details can be found in Maplin Magazine/Projects Book 41 XA41U, and instruction leaflet XK39N.

Retail Unit Price each (inc. VAT).

## High Quality Power Supply 2

- ★ Audio grade transformer and capacitors
- ★ Multifuse™ protection
- ★ Fast recovery rectifier diodes
- ★ Regulated ±12V auxiliary supply

This project uses high grade components to produce a symmetrical ±50V rms at 2A. A stable tonal balance over the audio bandwidth, keeps second and third harmonic distortion to a minimum. Fast switching rectifier diodes with fast recovery rates are used in conjunction with a high grade transformer to produce a better supply. Large 10000μF capacitors across the DC rails reduce the ripple to 350mV maximum. Protection for the circuit comes in the form of a re-usable fuse that has a high impedance when 'tripped'. The fuse protects the speakers from being overdriven and from large DC offsets due to failed components. A ±15V preamplifier supply and ±17V for a speaker protection device has been included in the circuit, in addition to the main supply. The low voltage winding of the transformer is capable of delivering 160mA

max. This project has been designed for the 150W MOSFET amp, but can be used for any amplifier requiring ±50V DC supply.

### Optional Items

The following items, not included in the kit, may also be required.

A4 Rotary Mains Switch DPST	1	(FH57M)
Fuse 20mm 2A A/S	1	(WR20W)
Fuse Holder 20mm	1	(RX96E)
Fuse Holder Insulating Boot	1	(FT35Q)
M3 Insulated Spacer 10mm	1	(FS36P)
Cable Min. Mains Black	1m	(XR01B)
Cable Three Core and Earth	1m	(XR53H)
SR Grommet 5R2	1	(LR48C)
Zip Cable	1m	(XR39N)

### Kit and Special Parts

A complete kit is available and the PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 42 XA42V, and instruction leaflet XK24B. PCB dimensions 152 x 121mm.

Retail Unit Price each (inc. VAT).

## Bridging Module Makes 400W MOSFET Amp 2

- ★ Increases output to 400W
- ★ Anti-thump at switch-on
- ★ Loudspeaker protection
- ★ Accommodates wide range of input voltages

When used with two Maplin MOSFET Amps, this easy-to-add module will allow them to produce up to 400W RMS audio output!! By connecting the amplifiers to the input and to the speakers via this module many advantages are obtained in addition to the huge power gain. The module completely protects the loudspeakers and amplifiers through the on-board relay from short circuits, overloads, and high voltage offsets. In addition the module stops the audible thump at switch-on by connecting the speakers to the amps after a short delay. The massive power gain is achieved by making the input to one of the power amps out of phase with the input to the other amp and then bridging the speakers between the two amps. The very high output powers achieved will require that speaker connections are carefully chosen to ensure that the high currents can be handled. To achieve 400W a high power PSU will be needed, i.e. 8 to 10 amps at 55-0-55V and it must be well regulated. The MOSFET amps, however, thanks to the special characteristics of MOSFET transistors will give long and reliable service without strain even at this extremely high output.

### Kit and Special Parts

This project is available as a complete kit or as a ready-made module. The pcb is also available separately. Full construction details may be found in instruction leaflet XK85G.

**K4004 200W Mono/Stereo Amplifier Module** 2

**Features**

- ★ 2 x 50W into 4Ω, 2 x 40W into 8Ω
- ★ 100W/200W MUSIC POWER (BRIDGED MODE)
- ★ Overload and short circuit protection
- ★ Thermal protection
- ★ Selectable input level

This neat and compact amplifier module contains two TDA1514A, high quality power amplifier ICs which are compatible with a wide range of source material, including compact disc. A switch selects between stereo and bridged mono use. A ready-built Gold Line version of this amplifier is available which is known as the AMP100 (VF46A). If the amplifier is to be used as a free standing unit, it can be mounted in position by fitting M4 HEX head bolts in the side channel of the heatsink. Includes speaker 'pop' suppression at switch on and switch off, and protection against wrong polarisation by means of fuses.

**Specification**

RMS output power:	2 x 50W/4Ω; 2 x 40W/8Ω
RMS mono-bridged power:	100W/8Ω
Total music output:	200W
Harmonic distortion:	0.01% at 1 kHz
Signal-to-noise ratio:	102dB (A-weighted)
Stereo channel separation:	85dB
Damping factor (at 100Hz):	>1000 nominal
Input impedance:	22kΩ
Input sensitivity:	330mV, 550mV or 1V selectable
Short-circuit and overload protection:	10 minutes maximum
Thermal shut-down protection:	1 hour maximum
Supply voltage:	±28V DC maximum
Consumption 2 x 4Ω or bridged mono 8Ω:	4A maximum
Consumption 2 x 8Ω:	2.5A maximum
Dimensions:	210 x 84 x 64mm

**Kit and Special Parts**

A complete kit of parts (including the PCB) is available. Full construction details may be found in Maplin Magazine/Projects Book 87 XA87U, and instruction leaflet XV34M.

Retail Unit Price each (inc. VAT).

Order Code	Type 2182	Price each exc. VAT	inc. VAT each
VF39N 2	Velleman Kit K4004	£43.390	£50.990
XV34M	200W Mono/Stereo Amp	£0.800	£0.800 NV

**K4010 300W Mono MOSFET Amplifier** 4

**Features**

- ★ High power
- ★ Low distortion
- ★ Highly efficient
- ★ Comprehensive protection circuitry

**Applications**

- ★ Hi-fi systems
- ★ Disco applications
- ★ Laboratories
- ★ Studio monitoring

Some audio applications demand high power levels, such as disco equipment, public address systems, laboratory experiments, and very large living rooms! This amplifier, an 'efficient' Class A design, will provide 300W music power into 4Ω. The amplifier gets around the inefficiency problem by a clever design which incorporates the use of a 'dynamic' (sometimes known as sliding) biasing technique. As a result, it has an efficiency of more than 70%, which is more in keeping with its Class B and AB cousins, but without the problem of crossover distortion.

This amplifier is the mono version of K4020 but without the casing. Ideally suited for use in disco sound installations, PAs and active speaker systems. Two of these amplifiers, can be combined, both physically and electrically, into a 300W per channel stereo amplifier, or a 600W mono bridge amplifier (Velleman Kit K4020 VF17T).

**Specification**

Music power:	300W into 4Ω, 200W into 8Ω
RMS power:	150W into 4Ω, 100W into 8Ω
Harmonic distortion:	0.008% at 1W 1kHz, 0.04% at 90W 1kHz
Damping factor:	>300
Input impedance:	47kΩ
Input sensitivity:	1V rms
Frequency response:	3Hz to 120kHz (-3dB)
Power bandwidth:	5Hz to 50kHz (-1dB)
Signal-to-noise ratio:	112dB (A-weighted at full power)
Protection:	Thermal, DC and short circuit
Speaker switch-on delay:	2 seconds
Speaker DC protection trip voltage:	>±1V
Thermal protection trip temperature:	90°C
Efficiency:	>70%
Power consumption:	220W maximum
Dimensions:	350 x 140 x 90mm (without transformer)

**Optional Items**

The following items, not included in the kit, may also be required.

Nylon Mains Plug 13A	1	(RW67X)
Fuse 5A	1	(HQ33L)
Insulating Boot for Fuseholder	1	(FT35Q)
Heatshrink Sleeving	As Req	
Heat Transfer Compound	1 Syringe	(FL79L)
Double Pole Mains Switch	As Req	
Panel Mounting Fuseholder	As Req	
AA Battery Box	1	(YR59P)
AA Zinc Carbon	1	(FK55K)
3-Core 6A Mains Cable	As Req	(XR03D)

**Kit and Special Parts**

A complete kit of parts (including the PCB) is available (excluding optional items). Full construction details may be found in instruction leaflet XU44X.

Retail Unit Price each (inc. VAT).

Order Code	Type 2184	Price each exc. VAT	inc. VAT each
VF19V 10	Velleman Kit K4010	£121.690	£142.990
XU44X	300W Power Amp Lft	£0.800	£0.800 NV

**K4005 400W Mono/Stereo Amplifier** 2

**Features**

- ★ 2 x 100W rms output power (into 4Ω load)
- ★ Three possible input sensitivities
- ★ Overload and short circuit protection
- ★ Speaker pop suppression
- ★ Thermal protection possible
- ★ Compact and robust design
- ★ Ready-built unit available

**Applications**

- ★ In-car amplifier module
- ★ Domestic use
- ★ PA systems

This superb amplifier is small and compact, and it certainly packs a punch! It is very versatile, being ideal for domestic use, car or caravan, and PA systems. The amplifier is housed in a robust stylish black case, which also doubles as its heatsink. Note that a ready-built Gold-line version of the amplifier is also available (VF45Y). If the amplifier is going to be used for portable applications (in the car/caravan, for example), then the K3508 In-Car PSU kit is required (VF38R). A ready built Gold-line version, the SPS200, is also available (VF47B). For domestic use, the choice of mains powered supply will depend upon the load requirements; the Gold-line APS204 (VF51F) is suitable for stereo mode (2 x 4Ω loads) and bridged mono mode with an 8Ω load. The APS208 (VF52G) is appropriate for stereo use with 2 x 8Ω loads. The Gold-line APS200 (VF49D) is a PSU module (not encased, and without a transformer) which is, primarily, designed to be integrated with the power amplifier into an enclosure of your choice. There are two choices of transformer available for the PSU; the choice is, again, dependent upon the load requirements. The 2 x 30V 225VA (DH72P) is suitable for use with 2 x 8Ω loads, and the 2 x 22V 300VA (DH74R) must be used with 2 x 4Ω loads, or an 8Ω load (bridged mono). Construction is quite easy, even though the component count is fairly high, as no elaborate test equipment is required for setting up the completed module. The amplifier has overload (the main IC even has its own in-built overload current protection!), short circuit protection and speaker 'pop' suppression at switch-on/off, to extend the life of your speakers.

**Specification**

RMS output power:	2 x 100W (4Ω load); 2 x 75W (8Ω load)
RMS mono-bridged power:	200W (8Ω load)
Total music output:	400W
Harmonic distortion:	0.003% at 1kHz
Signal-to-noise ratio:	96dB
Stereo channel separation:	76dB
Damping factor (at 100Hz):	>2000
Input impedance:	22kΩ
Input sensitivity:	150mV; 500mV; or 950mV switchable
Supply voltage	
8Ω load:	±40V to ±45V DC @ 2.5A
4Ω load or mono:	±30V to ±35V DC @ 5A
Dimensions:	350 x 62 x 85mm

## Amplifier/Loudspeaker Protection

### Watt Watcher

1

When running a speaker system it is useful to have an idea of the approximate level of power being used. In particular it is important that the loud speaker manufacturer's specification is not exceeded as this could result in severe damage to the speaker. The Watt Watcher is a simple circuit that may be fitted into a speaker cabinet to provide an indication of the relative power level. It uses three LEDs: a green LED lights when the power is at a relatively low level indicating that the system is running; a second (orange) LED indicates an intermediate level of power and a third (red) indicates an overload condition. The level at which the orange and red LEDs light is set by fitting resistors of selected value, depending on the required power range. The Watt Watcher derives its power from the speaker line and hence requires no external power supply.

#### Kit and Special Parts

A complete kit of parts including the PCB is available. The PCB is also available separately. Full construction details may be found in instruction leaflet XU64U.

Retail Unit Price each (inc. VAT).

### K4700 Loudspeaker Protection

1

This dual-channel protection unit prevents power-on thumps from damaging your stereo speaker system and offers protection from DC components present on the output of any connected amplifier.

Switch-on delay: ±6 sec.  
DC protection: +1V/-1V  
Max. input voltage: 200V pk to pk (71V rms)  
Max. switching current: 10A  
LEDs for 'switch-on-delay' and 'Error'.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VE24B	Velleman Kit K4700	£14.450	£16.990

Order £30 or above?

Account holder or not, your order will be sent carriage paid.

(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)

## Amplifier Monitor

2

- ★ Prevents switch-on/switch-off transients
- ★ Protects loudspeakers against amplifier and power supply faults
- ★ Self resetting or manual reset modes of operation
- ★ Suitable for mono or stereo amplifiers

This amplifier monitor provides loudspeaker protection against such 'nasties' as DC offsets. This can occur when amplifiers and their associated power supplies go faulty. Additionally, the monitor is intended to protect DC coupled loudspeakers – such as bass and mid-range units. At switch-on, the amplifier monitor provides a time delay during which the loudspeakers are 'disconnected' from the amplifier by means of relays. This allows the power supply to stabilise and the amplifier output capacitors, if fitted, to charge. At switch-off, the relays immediately 'drop-out'. Thus the amplifier monitor prevents those nasty 'bangs, pops and thuds' at switch-on and switch-off, which otherwise might damage your delicate and expensive loudspeakers. The amplifier monitor is suitable for use with amplifiers having symmetrical or asymmetrical power supplies up to ±50V or +100V. A facility for adding an external trigger circuit, e.g., a temperature monitor (LP71N), is also included, giving complete protection for both amplifier and loudspeakers. If the amplifier monitor is to be for PA use, then it may be found that the monitor may drop out when a 'miked-up' drum kit is struck. To overcome this problem, two 10µF capacitors (C1 and C101) are replaced by 33µF capacitors of the same type.

#### Specification

Mains power supply: 240V AC 50Hz  
Supply current: 34mA max  
Monitor input voltage: ±50V max  
Monitor trip voltage: ±3V min

Signal requirements to trip

input frequency,  
C1 and C101 = 10µF: <8Hz  
C1 and C101 = 33µF: <2.5Hz

Pulse width at 4Vpk,  
C1 and C101 = 10µF: >70ms  
C1 and C101 = 33µF: >200ms

Output current from -12V: 75mA max.

#### Optional Items

The following items, not included in the kit, may also be required.

M3 x 10mm Insulated Spacer 1 Pkt (FS36P)  
3-Way Minicom Plug 1 (BX96E)  
3-Way Minicom Housing 1 (BX97F)  
Min Mains Black As Req (XR01B)

#### Kit and Special Parts

A complete kit of parts (including the PCB and instruction leaflet) is available (excluding optional items). The PCB is also available separately. Full construction details may be found in instruction leaflet XK41U.

PCB dimension: 130.8 x 75.6mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LP32K	Amplifier Monitor	£17.010	£19.990
GE59P	Amp Monitor PCB	£4.670	£5.490

## Temperature Monitor

2

#### Features

- ★ +39°C to +98°C temperature range
- ★ Active high and low outputs
- ★ Trip temperature easily adjustable
- ★ In-built hysteresis
- ★ LED indicator

#### Applications

- ★ Amplifier protection
- ★ Power supply protection

This versatile Temperature Monitor is an optional 'add on' to the Amplifier Monitor LP32K, thus providing a complete monitoring system for amplifiers. The Temperature Monitor can be used with other protection circuits, providing that they have an external trigger input. Alternatively, the Temperature Monitor may be used in conjunction with the Zero Crossing Optoswitch LP55K, to turn a fan on at a preset temperature. The Temperature Monitor is based around a voltage comparator and a thermistor and the temperature range can easily be adjusted to be higher or lower by changing the value of the variable resistor and two fixed resistors.

#### Specification

Supply voltage: 12V nominal, 15V max. DC  
Quiescent current

① 12V: 3.6mA max.  
① 15V: 3.9mA max.

Operating current

① 12V 45.7mA max.  
① 15V 56.4mA max.

Temperature range:

Low temperature: Trip +39°C, reset +31°C  
High temperature: Trip +98°C, reset +86°C

#### Optional Items

The following optional items, not included in the kit, may also be required.

PCB Latch Plug 3-way 1 (BX96E)  
M3 Insulated Spacer 1 Pkt (FS36P)  
Double Bubble Sachet 1 (FL45Y)  
Minicon Latch Hsng 3-way 1 (BX97F)

#### Kit and Special Parts

A complete kit of parts (including the PCB and instruction leaflet) is available (excluding optional items). The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 48 XA48C, and instruction leaflet XK99H.

## Preamplifiers & Mixers

### SL6270 AGC Microphone Preamp

2

#### Features

- ★ Constant output signal
- ★ Fast attack
- ★ Lower power consumption
- ★ Single-ended or differential input

**Applications**

- ★ **Audio AGC system**
- ★ **Transmitter overmodulation protection**
- ★ **Tape recorders**

The SL6270 is a small 8-pin IC combining the functions of an audio amplifier and Voice Operated Gain Adjusting Device (VOGAD). It is designed to accept small signals from a microphone and to provide an essentially constant output signal from an input covering a range of 50dB. The dynamic range, attack and decay times are controlled by external components. The circuit can be used with either a dynamic or electret microphone. The device will operate over a wide range of power supply voltages between 4.9V to 10V and consumes only 9mA from a 9V battery. Typical applications might include: audio AGC systems, transmitter overmodulation protection, tape recorders and audio surveillance. Because the SL2670 may be used in many varied applications, some of the component values supplied in the basic kit will not be suitable, so alternative values must be calculated to determine the new working parameters.

**Note:** this is intended as a 'building block' project, and not eligible for our 'Get-You-Working' Service.

**Kit and Special Parts**

A complete kit of parts is available, including the PCB and instruction leaflet, but excluding PP3 battery and microphone. The PCB is available separately. Full construction details may be found in instruction leaflet XT26D. PCB dimensions: 33 x 25.4mm.

**Retail Unit Price each (inc. VAT).**

Order Code	Type	Price each exc. VAT	inc. VAT each
LP98G	SL6270 AGC Mic Amp	£9.350	£10.990
GH00A	AGC Preamp PCB	£2.540	£2.990

**SSM2017 Microphone Preamplifier**

**Features**

- ★ **Low noise**
- ★ **Low distortion**
- ★ **Can be configured for use with either balanced or unbalanced microphones**
- ★ **Wide bandwidth**
- ★ **High slew rate**
- ★ **Phantom powering for capacitor-type microphones**
- ★ **High gain (over 70dB) obtainable**

**Applications**

- ★ **Mixers**
- ★ **Tape recorders**
- ★ **Upgrading existing equipment**

The SSM2017 IC, at the heart of this project, is a latest-generation audio preamplifier which is particularly suitable for use as a balanced microphone amplifier. It features an ultra-low noise level (around 2nV/√Hz), wide bandwidth and high slew rate. It requires a dual rail supply of between ±6V and ±22V, and is available in an 8-pin DIL package. Whilst aimed at balanced applications, it can also be used with unbalanced microphones, as well as phantom powered microphones, e.g. electret microphones without an internal power supply.

**Specification**

THD: <0.01dB (gain = 40dB)  
 Noise: 2nV/√Hz (typ.)  
 Bandwidth: 1MHz (gain = 40dB)  
 Slew Rate: 17V/μS (typ.)  
 Power Supply: ±6V to ±22V DC @ 14mA (max) per rail; 48V DC for phantom supply

**Common-Mode Rejection**

Ratio (CMRR): 92dB (typ.)  
 Gain Adjustment: 14dB (x5-5) to 60dB (x1000)

**Optional Items**

The following items, not included in the kit, may also be required.

Twin-core Screened Cable (e.g., XS23A or XR08J)	As Req.	
Single-core Screened Cable (e.g., XR18U or XS14B)	As Req.	
Wire 7/0-2 10m Black	1	(BL00A)
Wire 7/0-2 10m Red	1	(BL07H)
Wire 7/0-2 10m Green	1	(BL03D)

**Kit and Special Parts**

A complete kit of parts (including the PCB) is available (excluding optional items). The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 69 XA69A, and instruction leaflet XU33L.

**EQ2S Mono**

A tiny ready-built pcb suitable for use as a preamplifier for magnetic cartridges (RIAA), tape heads (NAB response) and low level microphones. Two will be required for stereo. Uses two silicon transistors.

**Specification**

Gain (at 1kHz): Phono: 34dB (5mV input to 240mV output)  
 Response curve RIAA  
 Tape: 33dB (5mV input to 220mV output)  
 Response curve NAB (Microphones etc.) 38dB (3mV input to 230mV output)  
 Flat:  
 Max output: 2.5V (with 30mV input)  
 Input impedance: ±50kΩ (approx)  
 Output impedance: ±5kΩ (approx)  
 Power supply: 10V ±2V at 1mA (e.g. 9V battery PP3)  
 Supply range: 8 to 12V DC  
 Size: 60 x 35 x 20mm  
 Fixing centres: 50 x 25mm x 6BA clear.  
 Supplied with connecting instructions.

**Retail Unit Price each (inc. VAT).**

**VU Meters**

**Mono & Stereo 10 LED VU Meters**

**Features**

- ★ **Choice of mono (1 x 10 LED) or stereo (2 x 10 LED) versions**
- ★ **Multi-coloured LED display**
- ★ **Dot or bar display mode**
- ★ **Compatible with line- or speaker-level signals**
- ★ **Supplied with attractive membrane panel**

**Applications**

- ★ **Mixers, amplifiers, cassette decks, CD players - on-stage, in the studio or at home**

These kits are an ideal and economic means of providing signal level VU monitoring in a wide variety of applications. There is a choice of mono 1 x 10 LED or stereo 2 x 10 LED versions. Both versions utilise identical components and PCBs. The stereo version is supplied with two identical sets of components and the membrane panel is laid out for stereo. The membrane panels are attractively designed and can be used horizontally or vertically to suit the application. Signal input is compatible with line-level and speaker-level signals (except high power car stereo systems). The units may be calibrated against a reference by means of an on-board preset potentiometer.

**Specifications**

LEDs: 7 green, 2 yellow, 1 red (per channel)  
 Display: Dot or bar  
 Indication range: -20dB, -10dB, -7dB, -5dB, -3dB, -1dB, +1dB, +2dB, +3dB (0dB = 775mV)  
 Frequency range: 20Hz to 30kHz  
 Input range for 0dB - 150mV to 6V rms (47kΩ)  
 Line: Speaker: 1.5V to 60V rms (470kΩ)  
 Supply voltage: +10 to +15V DC @ 110mA (per channel)  
 PCB dimensions: 68 x 37mm approx.

## Stereo 2 x 15 LED VU Meter

2

### Features

- ★ Multi-coloured LED display
- ★ Dot or bar display mode
- ★ Compatible with line- or speaker-level signals
- ★ Supplied with attractive membrane panel

### Applications

- ★ Mixers, amplifiers, cassette decks, CD players - on-stage, in the studio or at home

This kit is an ideal means of providing signal level VU monitoring in a wide variety of applications, especially in more demanding applications where a greater resolution of signal levels is required. The membrane panel is attractively designed and can be used horizontally or vertically to suit the application. Signal input is compatible with line-level and speaker-level signals (except high power car stereo systems). The unit may be calibrated against a reference by means of on-board preset potentiometers.

### Specifications

LEDs:	10 green, 2 yellow, 3 red (per channel)
Display:	Dot or bar
Indication range:	-23 to +5dB 1dB/LED from -4dB to +5dB (0dB = 775mV)
Frequency range:	20Hz to 30kHz
Accuracy:	±0.5dB
Line:	Input range for 0dB - 150mV to 5V rms (47kΩ) Speaker: 1.5V to 50V rms (470kΩ)
Supply voltage:	+12 to +15V DC @ 300mA
PCB dimensions:	150 x 57mm approx.

## Audio Processing

### SSM2120 Dynamic Range Processor

2

### Features

- ★ Low distortion
- ★ Large VCA dynamic range
- ★ Wide supply voltage range
- ★ Low external parts count

### Applications

- ★ Noise reduction systems
- ★ AGC circuits
- ★ Voltage-controlled filters
- ★ Compressors, expanders, limiters

The SSM2120 is a versatile IC designed for the purpose of expanding, compressing or limiting signals in various analogue systems including audio. Detailed instructions are included with the kit showing how the SSM2120 can be used as a companding noise reduction system, a dynamic noise filter with downward expander, or a dynamic noise filter. Other possible applications include AGC

circuits, voltage-controlled filters and stereo noise gates. Note that, because the module may be used in many different applications, some of the component values supplied in the kit have been assigned an arbitrary value. For this reason minor modifications may be necessary to adapt the circuit to individual purposes. The SSM2120 requires a split-rail supply and will operate over a wide range of voltages between ±3V and ±18V. However, the device can operate from a single rail supply of between 6V and 36V. For optimum performance a regulated power supply should be used. All application circuits with the kit are optimised for use with a ±15V power supply, or a single +30V rail.

Note: The Maplin 'Get-You-Working' Service is not available for this project.

### Kit and Special Parts

A complete kit of parts (including the PCB and instruction leaflet) is available. The PCB is also available separately. Full construction details may be found in instruction leaflet XT18U. PCB dimensions: 104.1 x 53.3mm.

## MSM6322 Speech Pitch Controller

2

### Features

- ★ Built-in microphone preamplifier
- ★ Built-in low-pass filters
- ★ Speech pitch alterable through 17 steps

### Applications

- ★ Voice disguising
- ★ Children's toys
- ★ Stage shows

The MSM6322 is a real time audio pitch controller designed for speech. The IC (only available in surface mount) contains a fourth order low-pass input filter, an 8-bit A to D, and 9-bit D to A converters with a third order low-pass filter output, as well as a microphone preamplifier. Make your voice sound like 'Mickey Mouse' or 'Darth Vader'. The device uses a 4MHz clock, and there is decoupling for both analogue and digital supplies. Gain of the microphone preamp is set to 42dB, whilst the line preamp varies from 0 to 40dB. A supply of 5V, capable of delivering 10mA is needed. Sounds can be created by using the up/down modes and distorting the input signal, producing stunning audio effects.

Note: this is intended as a 'building block' project, and not eligible for our 'Get-you-working' service.

### Kit and Special Parts

A complete kit is available and the PCB (size 51 x 51mm) is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 44 XA44X, and instruction leaflet XK43W. A ready assembled version is also available.

Retail Unit Price each (inc. VAT).

## Voice Vandal

2

### Features

- ★ Digital audio signal delay processor
- ★ 256K DRAM memory
- ★ Low current consumption
- ★ Easy to build and use
- ★ Versatile
- ★ Microphone and line input/output

### Applications

- ★ Sound effects for dramatics or film use
- ★ Echo generator
- ★ DJ/Public address systems
- ★ Party entertainment/general amusement
- ★ Sound effects for models and toys
- ★ Simple mixer

A project to enthral fans of film and TV 'characters' that appeared in series of Dr Who, Metal Mickey, Red Dwarf and others featuring demented, distorted voices. You too can now imitate the sounds of the Daleks, Chewbakka, and others, without undue strain on your vocal chords, by building the Voice Vandal!

The Voice Vandal takes the audio signal from a microphone and/or line input, and by means of digital sound processing, selective clipping and storage and feedback of 'sound bites', alters the original sound. The sound alteration can range from a subtle change in pitch to a barely recognisable, completely altered form. This will be a boon for anyone requiring a wide spectrum of special sound effects from one inexpensive, versatile unit, either for 'serious' use in productions, etc., or just for laughs.

With both microphone and line inputs/outputs, the unit also enables simple mixing of signals from more than one source, so that, for example, sound-tracks from films, music albums, etc., could be altered to suit your requirements. This provides scope for much amusement! The output signal of the unit, via microphone and line outputs, can be fed into a suitable audio amplifier for immediate listening, or into the input of a tape recorder, etc., to allow replaying of your audio creativity.

### Specification

Power supply: Single-rail supply via power socket, 8 to 18V DC, LED indication of supply

Supply current: 19mA typical

Functions: Echo, Delay, Distortion, Chopping level and speed adjustment

DRAM memory: 256K (262,144 x 1 bits)

PCB dimensions: 155 x 120mm

Case dimensions: 175 x 130 x 58mm

### Optional Items

The following items, not included in the kit, may also be required.

ABS Plastic Instrument Case	1	(KC61R)
Small Latchswitch Button, Black	4	(KU75S)
LED Clip 3mm	1	(YY39N)
Knob RN18, Blue	1	(FD65V)
Knob RN18, Green	1	(FD66W)
Knob RN18, Red	1	(FD67X)
Knob RN18, Yellow	1	(FD68Y)
Square Stick-on Feet	1 Pkt	(FD75S)
AC Adaptor Regulated	1	(YB23A)
Low-Cost Dynamic Microphone	1	(ZA31J)

### Kit and Special Parts

A complete kit of parts (including the PCB and the panel labels) is available (excluding optional items). The PCB and the panel labels are available separately. Full construction details may be found in Maplin Magazine/Projects Book 89 XA89W, and instruction leaflet XV29G.

Retail Unit Price each (inc. VAT).

**Voice Modulator**

**1**

- Features**
- ★ Robotised and vibrato effect voice modulation
  - ★ Line and microphone input/output levels
  - ★ Wide operating voltage
  - ★ Low current consumption
  - ★ Peak input modulation LED
  - ★ Compact, snap-off PCB design

- Applications**
- ★ Toys, games and parties
  - ★ Sound effects for amateur dramatics productions, school plays, home videos, etc.
  - ★ PA systems
  - ★ General amusement

This superb, easy to build and use novelty project provides a variety of voice modulation effects, including pitch level shifting and vibrato, which convert your voice, sourced from either a microphone or line level input, into a robotised, metallic sounding output. It also has 'serious' uses, for example, livening up children's toys, games and parties, or for use in theatre productions, or home videos, etc.

The compact design is based around a purpose-made voice modulator chip, which contains sophisticated digital signal processing circuitry for realistic and consistent sound effects. The circuit is very versatile, in that the inputs and outputs may be at either line or microphone (mic) level, with options of either on- or off-board microphones. The project operates from a wide voltage range, with a low current consumption. There are a number of switches that tailor the output sound to your exact requirements.

**Specification**

Operating voltage:	5 to 12V DC
Operating current (quiescent):	4.1mA @ 5V, 4.5mA @ 12V
Operating current (activated):	6.5mA @ 5V, 6.8mA @ 12V (maximum)

Microphone level output impedance:	4k2Ω
Microphone level 0dBV input:	20mV rms
Line level output impedance:	100kΩ
Line level 0dBV input:	775mV rms
PCB dimensions:	98 x 51mm
Visual indicators:	Peak input modulation LED

**Kit and Special Parts**

A complete kit of parts is available, including the PCB. The PCB is also available separately. Full constructional details may be found in Maplin Magazine/Projects Book 96 XA96E, and instruction leaflet XV73Q.

**Speech Storage**

**Memo Pad**

**3**

- Features**
- ★ 16 seconds record time
  - ★ Surface mount miniaturisation
  - ★ Uses new analogue recording technique
  - ★ On-board loudspeaker
  - ★ Single voltage supply
  - ★ Ten year voice retention
  - ★ Excellent record quality
  - ★ Message waiting indication
  - ★ Message overwrite protection

- Applications**
- ★ Personal memo pad
  - ★ Phone message pad
  - ★ Audible reminder

An extremely useful device for the home or office, for recording short voice messages, with instant playback. It can also be used to record tones, but only within the passband of the device. The circuit is relatively simple, and owes much to the ISD1016AG single chip voice record/playback device. Its revolutionary method of recording and storing does away with the need for digital memory, as the IC uses non-volatile EEPROM technology, and allows analogue data to be written directly into the cells without A-to-D or D-to-A conversion, modulators and battery back-up circuits. This means a lower chip count, and a storage density eight times greater than conventional digital memory. Another point is that if just a single cell fails in conventional digital EEPROM memory, this renders the whole memory IC unusable. In the ISD1016AG, a single cell failure during programming will only result in an imperceptible change in distortion, and in fact, many hundreds of random failures would have to occur before recording quality noticeably degrades.

**Specification**

Supply voltage	
maximum:	9.5V
minimum:	6.3V
Supply current	
standby:	194µA
average playback:	65mA
PCB size:	65 x 55mm
Box size:	107 x 60 x 25mm
Weight:	129g (with battery)

**Optional Items**

The following items, not included in the kit, may also be required.

- 9V PP3 Duracell Battery 1 (JY49D)

**Kit and Special Parts**

A complete kit of parts (including the PCB and front panel) is available (excluding optional items). The PCB and front panel are available separately. Full construction details may be found in Maplin Magazine/Projects Book 87 XA87U, and instruction leaflet XV24B.

**K4400 Electronic Record/Playback Module**

**2**

- Features**
- ★ Excellent recording quality
  - ★ Ten year voice retention
  - ★ Loudspeaker output
  - ★ Non-volatile memory
  - ★ Single supply
  - ★ Modules are cascadable
  - ★ Fitting an optional rotary switch, up to five phrases or sounds can be stored

- Applications**
- ★ Answering machine
  - ★ Door bell
  - ★ Speech for toys
  - ★ Sound effects for models
  - ★ Voice annunciator for the blind or partially sighted

**Specification**

Supply:	9 to 12V AC or 6V DC (only 15µA on standby)
Dimensions:	125 x 70 x 25mm
Recording time:	16 seconds per module

In the Electronic Record/Playback Module an ISD1016A IC is used, which features non-volatile EEPROM technology, and allows analogue data to be written directly into the cells without A/D or D/A conversion. It means lower chip count, and the storage density is eight times greater than conventional digital memory. Another point is that if just a single cell fails in conventional digital EEPROM memory, this renders the whole memory IC unusable. In the ISD1016A, a single cell failure during programming, will only result in an imperceptible change in distortion. The device eliminates the need for complex digital conversion, compression or voice synthesis techniques, which often compromise voice quality and are more complicated to use. Signal conditioning circuits and control functions are included as well as a noise cancelling microphone preamplifier with AGC that can record both high and low volume sounds.

**Optional Items**

The following items, not included in the kit, may also be required.

- 2-Pole 6-Way Rotary Switch 1 (FF74R)

**Kit and Special Parts**

A complete kit of parts (including the PCB) is available (excluding optional items). Full construction details may be found in Maplin Magazine/Projects Book 85 XA85G, and instruction leaflet XV18U.

**Retail Unit Price each (inc. VAT).**

## Miscellaneous Audio

### Microsonic Audio Booster 2

- ★ Audio AGC system
- ★ Fast attack
- ★ Battery state indicator
- ★ Minimal wiring

There are several commercially made hearing boosters currently available, but the majority are only simple headphone amplifiers. Because of this the volume control has to be constantly adjusted to suit the audio environment. The Microsonic Audio Booster has a distinct advantage in that it incorporates a Voice Operated Gain Adjustment Device (VOGAD). It is designed to accept small signals from a microphone and provide an essentially constant output signal from an input covering a range of 50dB. In real terms this means that once set to a comfortable listening level, the volume control seldom requires re-adjusting. The Microsonic requires a PP3 battery to operate. The voltage condition of the battery is continuously monitored and displayed by a red LED indicator.

#### Specification

Power supply voltage: +4.5V to +9V DC  
 Power supply current: 100mA (+9V Supply, Max Volume)

Low battery indicator: +6V Threshold  
 Microphone: Electret  
 Preamp gain: 52dB  
 Output impedance: 16Ω (Minimum)  
 Output power: 200mW  
 Frequency bandwidth: 300Hz to 3kHz (-3dB)

#### Optional Items

The following items, not included in the kit, may also be required.

Alkaline Battery 1 (AQ48C)  
 Mini Phones 1 (ZB91Y)

#### Kit and Special Parts

A complete kit of parts (including the PCB, front panel and instruction leaflet) is available (excluding optional items). The PCB and front panel are also available separately. Full construction details may be found in Maplin Magazine/Projects Book 55 XA55K, and instruction leaflet XT46A.

#### Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LP52G	Microsonic Pre-Amp	£17.010	£19.990
GH12N	Microsonic PCB	£2.970	£3.490
KP47B	Microsonic F-Panel	£1.260	£1.490
XT46A	Microsonic Leaflet	£0.800	£0.800 NV

### Ultrasonic Detector 3

Box and knobs not included in kit.

#### Features

- ★ Tunable ultrasonic receiver
- ★ High sensitivity
- ★ Low noise
- ★ Built-in loudspeaker
- ★ Outputs for headphones and tape recording
- ★ Internal battery or external power supply input
- ★ Compact and lightweight

#### Applications

- ★ Detection and location of ultrasonic sources
- ★ Detection and study of bats
- ★ Educational use, in schools and colleges

This super-sensitive listening device will allow you to snoop on the communications between bats and insects that emit high-pitch (ultrasonic) utterances. It can also be used to listen in on other ultrasound sources, enabling checks of alarm and remote control transducers, mechanical system bearings, and as a monitor of noisy equipment. In fact, the unit is so sensitive, that it enables you to hear the crystal vibrating within quartz timepieces! The kit also represents excellent value for money, compared to commercial equivalents, which can cost hundreds of pounds. This project detects and translates the sound of bats into a frequency range that is audible to humans and can convert ultrasonic frequencies across the generous range of 20kHz (beginning of the ultrasonic spectrum) up to 160kHz. This wide range caters for all known species of bat, resident both in Britain and across the globe.

#### Specification

Power supply (internal): 9V DC PP3 battery  
 Power supply (external): 8V to 11V DC  
 Supply current: 25mA (min) 86mA (max)

Frequency range: 20kHz to 160kHz  
 Loudspeaker amplifier: 382mW rms into 64Ω impedance 20mV rms

Tape output signal level: 20mV rms  
 Tape output load impedance: 10kΩ  
 Assembled PCB dimensions: 94 x 73.5 x 17mm  
 Boxed unit dimensions: 145 x 80 x 34mm  
 Boxed unit weight: 285g (including battery)

#### Optional Items

The following items, not included in the kit, may also be required.

M2.5 10mm Pozidrive Screw 1 Pkt (JC68Y)  
 M2.5 Steel Nut 1 Pkt (JD62S)  
 M2.5 Snakeproof Washer 1 Pkt (BF45Y)  
 M3 Spacer 0-125in. 1 Pkt (FG32K)  
 Alkaline PP3 Battery 1 (ZB52G)  
 Car Power Adaptor 1 (JY53H)  
 Plain Black Hand-held Box Type HH2 1 (ZB16S)  
 Matt Black Knob Type K14B 2 (FK39N)

#### Kit and Special Parts

A complete kit of parts (including the PCB, front and rear panels) is available (excluding optional items). The PCB and front and rear panels are available separately. Full construction details may be found in Maplin Magazine/Projects Book 90 XA90X, and instruction leaflet XV35Q.

#### Price each shown, but sold only in multiples of 1.

Order Code	Type	Price each exc. VAT	inc. VAT each
LT85G	U/Sonic Detector Kit	£34.090	£39.990
GH52A	U/Sonic Detector PCB	£3.820	£4.490
KP87U	U/Sonic Dectr Label	£2.110	£2.490
XV35Q	Bat Detector Lift	£1.000	£1.000 NV

### Envirosynth 2

Box and knobs not included in kit.

#### Features

- ★ Simulates a gentle breeze, or surf on the shore
- ★ Can provide pink and white noise outputs
- ★ Sounds can be tailored to users requirements

#### Applications

- ★ Sound effects for theatres, radio shows and video/film productions
- ★ May aid relaxation, insomnia and coping with stress

Do you suffer from insomnia caused by tinnitus, worry, or overtiredness? Or perhaps you need help coping with stress? Then the Envirosynth may be just what you need. The sound of breaking rollers on a pebble beach, or the gentle summer breeze rustling through the trees, are very therapeutic and can help overcome the problems mentioned. These sounds can also be very useful in doctors' or dentists' waiting rooms.

Even white noise has its uses. Sounding as it does like escaping steam, it is completely unvarying and featureless. The Envirosynth can be used to generate sound effects. By varying certain component values the effects can be altered and a range of very interesting sounds produced, i.e. a gale!

#### Optional Items

The following items, not included in the kit, may also be required.

6W Elliptical Speaker	1	(GL17T)
250mA Transformer 6V	1	(YN14Q)
31mm (1.25in.) Clickcatch F/H	1	(FA39N)
Fuse 31mm (1.25in.) A/S 100mA	1	(UK58N)
Dual Rocker Neon Red	1	(YR70M)
Min Mains Black Cbl.	2m	(XR01B)
SR Grommet 5R2	1	(LR48C)

Case and knobs

#### Kit and Special Parts

A complete kit of parts (including the PCB and instruction leaflet) is available (excluding optional items). The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 54 XA54J, and instruction leaflet XT63T.

PCB dimensions: 162.6 x 63.5mm.

#### Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LP67X	Enviro Synth	£17.010	£19.990
GH10L	Enviro Synth PCB	£4.240	£4.990
XT63T	Enviro Synth Leaflet	£0.800	£0.800 NV

## Car Projects

### In-Car Audio

### K3508 In-Car Amplifier Power Supply 2

- ★ Especially designed for use with K4005 and AMP200
- ★ Ground isolated output

- ★ **Attractive modern casing**
- ★ **300W power output**
- ★ **Switched by 12V DC remote control**
- ★ **Ready-built version available**

This module has been especially designed to complement the K4005 400W amplifier (VF40T), and the AMP200 (VF45Y), but it can be used for almost any in-car amplifier requiring a  $\pm 35V$  DC supply. The PSU makes extensive use of decoupling to provide a very 'clean' output, which guarantees that your amplifier will 'pump out' stunning high-quality sound.

There are two main advantages of having a separate amplifier and PSU: First, the PSU can be located near to the vehicle's battery and, therefore, the power leads can be kept as short as possible, reducing power losses to a minimum. The other advantage is that the amplifier can be placed near to the speakers; this helps to maintain an optimal level of damping, resulting in a better reproduction of bass sounds.

The PSU is housed in a sleek, black metal case, very similar to the K4005 400W amplifier, and a ready-built 'Gold Line' version of the PSU, the SPS200, is also available (VF47B).

Construction is quite straightforward as the component count is fairly low, and no elaborate test equipment is required for setting up the completed module.

**Note:** This module is suitable for negative earth vehicles only.

Specification	
Input voltage:	10V to 15V DC (30A maximum)
Output voltage:	$\pm 35V$ (unregulated)
Output power:	300W
Efficiency:	90% maximum
Dimensions:	210 x 84 x 50mm

**Optional Items**

The following items, not included in the kit, may also be required.

Black High Current Wire	As Req.	(XR57M)
Red High Current Wire	As Req.	(XR59P)
Car Audio Fuseholder	1	(BZ95D)
30A Fuse	1	(CK32K)
10A Toggle Switch SPST	1	(JK25C)
Red Car Power Cable	As Req.	(BZ92A)
Black Car Power Cable	As Req.	(BZ93B)
Red Power Connection Cable	As Req.	(XR36P)
Black Power Connection Cable	As Req.	(XR32K)
Green Power Connection Cable	As Req.	(XR35Q)

**Kit and Special Parts**

A complete kit of parts (including the PCB) is available (excluding optional items). Full construction details may be found in Maplin Magazine/Projects Book 84 XA84F, and instruction leaflet XV21X.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VF36R	Velleman Kit K3508	£58.710	£68.990
XV21X	Vell Amp PSU Lift	£0.800	£0.800 NV

**Switching PSU For In-Car Audio System**

5

- ★ **For powering high quality power amplifiers**
- ★ **Polarity protected**
- ★ **Thermal protection**
- ★ **Remote switch on control**

The increasing demand for a better quality in-car hi-fi system has led to several major advances in the field, to the point where superior equipment has been made on the test bench. The attention has turned towards high quality power supplies,

producing low ripple and improved efficiency. This car audio switching power supply unit is able to fulfil the requirements of today's hi-fi buff. No longer are you limited to power amplifiers operating from the only available 12V source.

Primarily designed to power the 50W power amplifier kit LW35Q (see elsewhere in this section), this project can also be used to increase the supply for high power 'booster' type amplifiers as well as other amplifiers requiring a supply voltage of  $\pm 30V$ . The power supply is able to operate under varied temperature conditions, with high temperature shut-down provided if the unit gets too hot. When the temperature drops to 20°C the unit automatically switches itself back on. Additional protection is supplied by fuses to the  $\pm 30V$  output and a fused input. This project requires a degree of expertise and patience to build, and is not recommended for absolute beginners. Construction details must be carefully followed.

**Specification**

Supply voltage:	11V to 15V DC (13.8V Nominal)
Current:	10.7A ( $V_G = 11.3V$ )
Output power:	120W continuous
Outputs	
Main:	$\pm 30V$
Auxiliary:	$\pm 12V$
Continuous output current at:	
$\pm 30V$	2 + 2A
$\pm 12V$	50mA + 50mA
Efficiency:	>90%
Shut-down temp:	80°C
Shut-down hysteresis:	20°C
Standby input:	Active low
Remote switch-on input:	Active high
Thermal shut-down output:	Active low
Input noise ( $P_O = 120W$ ):	140mV
Output Noise ( $P_O = 120W$ )	
Main:	60mV
Auxiliary:	40mV
Switching frequency:	25kHz
Converter mode:	Push-pull

**Optional Items**

The following items, not included in the kit, may also be required.

Car Fuse Holder	1	(RX51F)
15A 1 1/4in AS Fuse	1	(UK13P)
HC Wire Black	As Req	(XR57M)
HC Wire Red	As Req	(XR59P)
32/0.2 Wire Red	As Req	(XR36P)
32/0.2 Wire Black	As Req	(XR32K)
32/0.2 Wire Blue	As Req	(XR33L)
Zip Wire	As Req	(XR39N)
50W Power Amp	2	(LW35Q)
2E Heat Sink	2	(HQ70M)

**Kit and Special Parts**

A complete kit is available, and the pcb is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 46 XA46A, and instruction leaflet XK50E. PCB dimensions: 150 x 150mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LP39N	Car Audio SMPS	£42.540	£49.990

**Charging & Power Distribution**

**Car Battery Charge/Discharge/Idle Monitor**

2

**Features**

- ★ **Simple to build**
- ★ **Tri-colour visual indication**
- ★ **Optional centre zero meter**
- ★ **Easy to install**

**Applications**

- ★ **Avoiding a flat car battery**
- ★ **Detecting alternator faults**
- ★ **Balanced line driver**

Be forewarned of a drained car battery, and so avoid failure to start the engine on a cold and frosty morning, with this easy to build and install project that will indicate the charge/discharge state of the battery. The dashboard of the average family car typically has no more than an ignition warning light, which only illuminates when the alternator is not producing any output. The alternator primarily replaces the energy lost from the battery during starting, and supplies the ancillaries; ignition, lights, radio, etc. Its current output is chosen by the manufacturer to meet these needs, but can be exceeded by the addition of new accessories, or be depleted with wear or as the result of a fault such as a slipping fan belt.

This project gives a visual indication of whether the car battery is being drained or charged on a single tri-colour LED. Discharging is shown as red, while charging is green. A quiescent state, when the battery is neither charged or discharged is shown as yellow. An optional centre-zero meter movement can even be fitted if required. Installing the module is very simple, since there are only three wires to connect.

**Specification**

Operating voltage:	+12V to +25V DC
Current consumption:	15mA (max)
Visual indicators:	Tri-colour LED
	Optional centre zero meter

**Optional Items**

The following items, not included in the kit, may also be required.

Min Res 15k	1	(M15K)
Horizontal Enclosed Preset 22k	2	(UH04E)
Diode 1N4148	2	(QL80B)
Strip Board Type 1039	1	(JP46A)
Insulated Spacer M3 x 10mm	1 Pkt	(FS36P)
Pozi Screw M3 6mm	1 Pkt	(BF36P)
Self-Tapping Screw No.6 x 9.5mm (9/16in.)	1 Pkt	(LR67X)
Single-Ended PCB Pin 1mm	1 Pkt	(FL24B)
Panel Meter 100-0-100µA 50mm (2in.)	1	(RW98G)
Box with Base Type 2	1	(YN36P)
Min Single Core Lapped Screen	As Req	(XR15R)
Burglar Cable 4-wire	As Req	(XR89W)
In-Line Car Type Fuse Holder	1	(RX51F)
Fuse 100mA 31mm (1 1/4in.)	1	(WR08J)
LED Clip Convex 5mm	1	(UK14Q)
PVC Sealing Grommet 16mm	1	(JX77J)
Heat Shrink Sleeving 1.6mm	1	(BF86T)

**Kit and Special Parts**

A complete kit of parts, including the PCB, is available (but excluding optional items). The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 78 XA78K, and instruction leaflet XU68Y.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

## Car Battery Monitor

2

Any number of things from a faulty alternator to left-on headlights can result in a flat car battery – and the first thing you are likely to know about it is when you turn the key one morning and the car won't start! This useful little unit is designed to warn you in advance by displaying the battery's state of charge with a row of ten LEDs. The Monitor costs very little to build, and since it consumes a miserly 20mA, can be left permanently connected to the battery. The Car Battery Monitor will even reveal a slipping fan-belt problem, which prevents the battery charging properly, yet leaves the dashboard battery warning light off, as well as indicate how the battery is handling the strenuous work of starting the car (it takes 20 minutes of running to put back what a five-second start takes out).

### Kit and Special Parts

A complete kit is available, and the pcb is also available separately. Full construction details may be found in the Maplin Magazine/Projects Book 37 XA37S, and instruction leaflet XK10L. PCB dimensions: 55 x 35mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3111	Price each exc. VAT	inc. VAT each
LK42V	Car Batt Monitor	£11.050	£12.990

## Intelligent Split Charge Unit

2

### Features

- ★ Charges auxiliary battery
- ★ Powers refrigerator
- ★ Alternator or ignition switch controlled
- ★ Status indicators
- ★ Easy-to-build
- ★ Easy-to-install
- ★ Can replace existing unit

### Applications

- ★ Cars
- ★ Vans
- ★ Motor-homes
- ★ Trailers
- ★ Caravans

A split-charge unit is employed in a car or other similar vehicle to charge an auxiliary (second) battery. An auxiliary battery is often used to power 12V electrical accessories in a caravan or trailer. The use of such a battery ensures that the towing vehicle's main battery is not discharged. The auxiliary battery can be located in the towing vehicle's boot or in the caravan itself. Modern caravans are often equipped with a multi-supply refrigerator which can be operated from 230V AC mains, 12V DC or liquefied petroleum gas (LPG). The dual split charge unit is able to simultaneously charge an auxiliary battery and supply power to a 12V DC operated refrigerator.

## Remote Power Switch

1

A useful project intended for use in cars, but finding many other applications where remote switching of up to 10A is required. The project is both easy to build and easy to use. Connection to the Remote Power Switch is via on-board screw terminals. An LED is provided to indicate operation. A protection diode suppresses relay coil back emf voltage, thus preventing possible damage to driver circuits. Applications include switching of fog/driving lights, alarms, horns, sirens and high power car amplifiers. The high quality, long life relay requires 45mA of drive current to operate.

### Kit and Special Parts

A complete kit is available and the PCB is also available separately. Full construction details may be found in instruction leaflet XU10L. A ready built version is available (AM26D). PCB dimensions: 36.8 x 45.7mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3159	Price each exc. VAT	inc. VAT each

## Engine/Ignition

### Car Digital Tacho

3

In these days of ever-higher motoring costs the unit described here will help the driver to change gear at the most advantageous point to save fuel and extend engine life. Anyone using a car to tow a trailer or caravan will also benefit by being able to make the best use of the torque available from the engine. Conventional tachometers give a display of engine speed on a milliammeter, usually with a scale of about 270° arc. Pulses produced by the action of the contact breakers are integrated and fed to the meter to give an analogue display of engine revolutions.

The disadvantages are that an average reading is displayed, which can easily lag behind rapid speed changes, and the meters tend to be somewhat fragile. This tachometer overcomes both of these disadvantages by counting pulses and displaying engine revolutions over a very short time, the digital display being continuously updated. Two digits display the number of revolutions x 100. The unit is designed for negative earth cars. The unit can only be used on cars with contact breakers. Construction is very straightforward, using two printed circuit boards which fit directly in the case without the need for mounting bolts, so the project can be tackled by any but the most inexperienced constructor.

### Kit and Special Parts

A kit is available but does not include the case. The pcbs are also available separately. Full construction details may be found in Maplin Magazine/Projects Book 37 XA37S, and instruction leaflet XK03D. Main PCB: 52 x 83mm. Display PCB: 52 x 23mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3150	Price each exc. VAT	inc. VAT each
LK79L	Car Digit Tacho Kit	£25.520	£29.990
GA26D	Dig Tacho Main PCB	£2.110	£2.490

XX03D	Car Dig Tacho Ins	£0.500	£0.500 NV

## Over Rev/Peak Power Indicator

2

### Features

- ★ Wide operating voltage
- ★ Low current consumption
- ★ LED and buzzer indication
- ★ Easy to build, install and calibrate
- ★ Configurable for 2- and 4-stroke engines

### Applications

- ★ Petrol-engined cars and vans
- ★ Race/rally cars

★ **Motorcycles**  
★ **Powered Go-karts**

A great accessory for any petrol-engined vehicle, this unit gives clear audible and visual indication to the driver when the engine reaches or exceeds a preset rpm. It can, therefore, be used to indicate when the engine is in danger of being over-revved, or is producing the maximum power or torque in a particular gear. This helps the driver to carry out gear changes at favourable points in the engine's rev range, for achieving higher levels of acceleration, pulling power or economy from the vehicle being driven.

**Specification**

Operating voltage: 9 to 16V (12V nominal)  
Quiescent current: 8.5mA @ 12V  
Activated current: 17mA @ 12V  
Engine speed range: 1,000 to 10,000 (4-stroke)  
2,000 to 20,000 (2-stroke)  
PCB dimensions: 66 x 56mm (main board)  
37 x 36mm (sensor board)

**Optional Items**

The following items, not included in the kit, may also be required.

Cyanoacrylate Adhesive 3g 1 (FL64A)

**Kit and Special Parts**

A complete kit of parts (including the PCB and front panel label) is available (excluding optional items). The PCB and Front Panel label are also available separately. Full constructional details may be found in Maplin Magazine/Projects Book 102 XD02C, and instruction leaflet XV95D.

**K2625 Digital Tachometer 3**

- ★ **2-digit LED display**
- ★ **Adjustable display brightness**
- ★ **Suitable for 2- and 4-stroke petrol engines**
- ★ **Configurable for engines of between 1 and 12 cylinders**
- ★ **Simple installation and calibration**
- ★ **Front panel included**
- ★ **Contact bounce suppression**

The majority of modern cars, and practically all 'high performance' models, are equipped with a tachometer, or rev counter, which gives an indication of the number of revolutions per minute (rpm) that the engine's crankshaft is turning at. This is a very useful instrument to have, since it enables the driver to maintain the engine turning at its most efficient rate for the maximum production of either power (BHP), or torque (the pulling force being exerted), factors which coincide with specific engine speeds (the values for which may be found in the vehicle handbook, or magazine road test reports). Hence, this can be used to give maximum acceleration, or optimum flexibility, particularly useful when climbing steep inclines or towing caravans, boats, etc. An additional use for a tachometer is as an aid to servicing, since it enables the engine idling speed to be set to the value specified by the manufacturer, in the event of it idling too fast or slow, as is often the case. However, many older, or 'base-spec' vehicles, are not equipped with a tachometer. This situation is easily rectified, by installing the digital version presented here, which is simple to fit, calibrate and use. Furthermore, by using a suitable sensor (i.e., one that simulates the switching action of the contact breaker), the unit allows rpm measurement, or the number of movements per minute, of any

rotating or moving mechanical part - it does not necessarily have to be an engine!

**Specification**

Supply voltage: 10 to 15V DC, un stabilised (built-in regulator)  
Supply current: 200mA (maximum)  
Display range: 100 to 9,900rpm  
Resolution: 100rpm  
Display type: 2 x 0.5in., 7-segment LED (static)  
Input sensitivity: 3V (minimum), 20V (maximum)  
Input impedance: 30kΩ (typical)

**Optional Items**

The following items, not included in the kit, may also be required.  
MB3 Black Plastic Box 1 (LH22Y)

**Kit and Special Parts**

A complete kit of parts is available (excluding optional items). Full construction details may be found in Maplin Magazine/Projects Book 90 XA90X, and instruction leaflet XV38R.

Retail Unit Price each (inc. VAT).

XV38R	Digital Tacho Lft	£0.400	£0.400 NV

**K2543 Ignition Amplifier 2**

**Features**

- ★ **Easy to fit, only four wires**
- ★ **Transistor assisted ignition method**
- ★ **Significantly reduces contact breaker wear**
- ★ **Original connections can be easily restored at any time**
- ★ **Improved coil performance returns easier starting and cleaner combustion**

**Applications**

- ★ **For any petrol burning motor vehicle**
- ★ **Suitable for engines of 2 to 8 cylinders**

There are two main types of electronic ignition currently available, the first being that which completely replaces the 'electromechanical' ignition (contact breaker points, condenser, etc.) and the type that can be fitted as an 'up-grade', producing what is commonly called 'transistor assisted ignition'. The latter type still makes use of the 'conventional' mechanical timing switch (the contact breaker points). However, it does provide a faster switching speed and more energy to the spark, so places less wear on the points because the arcing factor is removed, and so keeps the engine in tune for longer periods. Fixing this electronic ignition system will lead to improved starting and smoother running, particularly at very high and very low rpm. Other benefits include lower fuel consumption, less pollution and lower servicing costs.

**Specification**

Switching speed: 1µs  
Firing interval: 2ms minimum  
Coil switching current: 4A nominal  
Supply voltage: 12V to 14V DC  
Polarity: Negative earth only  
Supply current drain: 320mA approx.

**Optional Items**

The following items, not included in the kit, may also be required.

Box DCM5002 1 (LH70M)  
Flexible Rubber Sealant 1 (YJ91Y)  
Wire 3202 Red 2m (XR36P)  
Wire 3202 Black 2m (XR32K)  
Wire 3202 Blue 2m (XR33L)  
Wire 3202 Green 2m (XR35Q)  
Lucar Style Push-On Receptacle 1 Pkt (HF10L)  
Lucar Style Push-On Blade 1 Pkt (HF11M)  
Push-On Blade Covers 1 Pkt (FE66W)  
Push-On Receptacle Covers 1 Pkt (FE65V)

Screw M3 x 40mm 1 Pkt (JF28F)  
Tie Wraps 385 5 (FE00A)  
Heat Transfer Compound 1 (FL79L)

**Kit and Special Parts**

A complete kit of parts (including the PCB) is available (excluding optional items). Full construction details may be found in Maplin Magazine/Projects Book 68 XA68Y.

Retail Unit Price each (inc. VAT).

VED0A	Velleman Kit K2543	£11.050	£12.990

**Lighting**

**Car Interior Light Controller 2**

**Features**

- ★ **Keeps interior light(s) on for 30 seconds after last door is closed**
- ★ **Automatically switches the interior light off if a door is left inadvertently open**
- ★ **Easy to build**
- ★ **Simple to fit**
- ★ **Low power consumption**

This improved version of the Car Interior Light Controller project, previously featured in Maplin Magazine Issue 82, incorporates several modifications that result in superior operation and also a more compact housing.

The unit is very beneficial to add to many older, and base model vehicles, most of which do not have the courtesy light option of the latest upmarket models. Fitting this easily installed project into your vehicle will allow its courtesy light(s) to remain illuminated for approximately 30 seconds after the vehicle's doors have been closed (unless the ignition is switched on, in which case the light will be extinguished immediately), providing sufficient interior lighting time to find the ignition switch and seatbelt buckle slot. The unit also has a few extra features which many top models do not have - in the event of a door being inadvertently left open, the courtesy light will automatically turn off after approximately 10 minutes, to avoid draining of the battery, and a quick open and shut of the door will also turn the light off. In addition, the unit may also be linked to the central locking and/or alarm system so that the courtesy lights are also controlled by the activation and deactivation of these systems!

**Specification**

Supply voltage: 9V to 15.5V DC  
Quiescent current: 2.5mA @ 12V DC  
Operating current: 30mA @ 12V DC  
Box dimensions: 105 x 72 x 32mm

**Optional Items**

The following items, not included in the kit, may also be required:

In-line fuseholder 1 (RX51F)  
1.25in. 100mA Fuse 1 (WR08J)  
Black Connection Wire As Req. (XR32K)  
White Connection Wire As Req. (XR37S)  
Red Connection Wire As Req. (XR36P)  
1N4148 As Req. (QL80B)

**Kit & Special Parts**

A complete kit of parts (including the PCB and label) is available (excluding optional items). The PCB and the Label are also available separately. Full constructional details may be found in Maplin Magazine/Projects Book 100 XD00A, and instruction leaflet XV92A.

## Car Courtesy Light Extender

1

- ★ Requires no external power supply
- ★ Optional Ignition override
- ★ No setting up required
- ★ Low component count

This project keeps the interior light on after the car door is closed, allowing time to find keys, ignition switch or even your way out of the garage! The board has three fly leads, two are fitted across the existing door switch whilst the optional third wire is connected to the ignition switch to cancel the delay when the engine is started. The small PCB allows the unit to be concealed easily within the car. Supplied complete with miniature mounting box.

### Optional Items

The following items, not included in the kit, may also be required.

Hook-up wire 16/0-2 Black	1	(FA26D)
Hook-up wire 16/0-2 Red	1	(FA33L)

### Kit and Special Parts

A complete kit of parts is available, and the pcb is also available separately. Full construction details can be found in Maplin Magazine/Projects Book 44 XA44X, and instruction leaflet XK96E.

Retail Unit Price each (inc. VAT).

## Car Lights-On Warning Indicator

1

- ★ Low cost and small size
- ★ Easily fitted to most negative earth cars
- ★ Buzzer sounds when lights left on

If your car is not fitted with some kind of 'lights-on warning', the chances are that you will leave your lights switched on. Murphy's law dictates that when you do so, your absence from the car will be of sufficient duration to ensure that the battery will be well and truly flat! This small and simple Lights-On Warning Indicator will emit a clearly audible buzzing sound when the car lights are left on, the ignition switch is turned off and the driver's door opened. In this manner the buzzer will only sound when the driver is genuinely about to leave the car. The circuit of the Indicator is very simple, just one transistor, some resistors, diodes and a buzzer.

### Optional Items

The following items, not included in the kit, may also be required.

16/0-2 Wire:	As Req.	(FA26D-FA36P)
Snap lock Cable Connector:	As Req.	(JR88V)
Terminal Block 5A:	As Req.	(HF01B)

### Kit and Special Parts

A complete kit of parts (including the PCB and instruction leaflet) is available (excluding optional items). The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 50 XA50E, and instruction leaflet XT11M.

Retail Unit Price each (inc. VAT).

## Car Headlights Delay

1

### Features

- ★ Compact and easy to install
- ★ Adjustable delay period
- ★ Low current consumption
- ★ Uses automotive application-specific components
- ★ Active high and low inputs

### Applications

- ★ Cars, vans and trucks using 12V electrics
- ★ Suitable for negative and positive-earthed vehicles

This project is such a useful accessory that you will wonder how you ever managed without it! The purpose of the unit is to switch on your vehicle's headlamps for a preset time on exiting the vehicle, thereby illuminating the path to your house! With the ignition switched off, simply flashing the headlamps activates the unit, turning on the vehicles headlamps for between 15 and 60 seconds (pre-settable). If, during the delay period, the vehicles ignition is turned on, or the headlamps are flashed twice in succession, the circuit is immediately reset and the delay action deactivated. The project is compact, easy to build and simple to install, and uses components specifically designed for automotive applications, for maximum dependability.

### Specification

Supply voltage (nominal):	12V
Maximum operating voltage:	16V
Operating current:	30mA @ 12V
Quiescent current:	2.5mA @ 12V
Circuit protection:	10A and 100mA time-delay fuses, reverse-polarity protection

PCB dimensions:	69 x 52.5mm
Maximum board height:	24mm

### Optional Items

The following optional items, not included in the kit, may also be required.

Bulkhead Mounting Box and Base		
Type 2	1	(YN36P)
9.5mm PVC Grommet	1	(JX63T)
M3 x 10mm Steel Screws	1 Pkt	(JY22Y)
M3 Steel Nuts	1 Pkt	(JD61R)
M3 Steel Washers	1 Pkt	(JD76H)
M3 Shakeproof Washers	1 Pkt	(BF44X)
M3 x 1/8in. Spacers	1 Pkt	(FG32K)

### Kit and Special Parts

A complete kit of parts (including the PCB and Front Panel Label) is available (excluding optional items). The PCB and the Front Panel Label are also available separately. Full constructional details may be found in Maplin Magazine/Projects Book 95 XA95D, and instruction leaflet XV80B.

## Car Lamp Monitor

2

### Features

- ★ Easy to build
- ★ Easy to install
- ★ Single or multiple indicators
- ★ Can be interfaced to logic
- ★ Self powered

It is surprising how few people take the trouble to check, on a regular basis, that their car's lights are fully functional. This can be a hazard to the driver of the vehicle itself and other road users. In today's tougher-than-ever driving conditions it is important that a car's lights are operating as they should. Faulty lights can and do contribute to accidents. What is needed is a method of indicating to the driver that a lamp has failed or has become intermittent at the time of the fault developing. The Car Lamp Monitor, will provide an indication of lamp failure and is based around a custom designed IC. The Car Lamp Monitor has been designed to be as flexible as possible, so as to cater for the inevitable differences in electrical wiring between makes and models of cars. However, two basic assumptions have been made: firstly, the car's electrical supply is negative earth; secondly, the car's lights are switched in the positive supply line to the lamp (i.e. one side of the lamp is connected to chassis). The vast majority of cars will satisfy both of these requirements.

A single Car Lamp Monitor module can be used to monitor up to four groups of lamps; a group can comprise a single lamp or a number of lamps connected in parallel. The monitor works by detecting the current drawn by working lamps, if a lamp fails the current drawn will drop (to zero for one lamp).

Fault indication can be in the form of a buzzer, an LED, a filament lamp or by interfacing the Car Lamp Monitor to more complex electronics, such refinements as digitised spoken warnings could be provided. To cover all of a car's lamps will require several modules to be built. The module may also be used to confirm operation of lights on a caravan or trailer.

### Kits and Special Parts

A complete kit of parts (including the PCB) is available (excluding optional items). The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 80 XA80B, and instruction leaflet XU81C.

VE06G	Velleman Kit K3500	£10.200	£11.990

## Security

## Vehicle Intruder Alarm 1

- ★ Entry/exit delay
- ★ Entry/exit sounder
- ★ Two trigger inputs
- ★ Compact design
- ★ Pulsed car horn with time out

There are many alarms available on the market, but none can offer complete protection against theft. Though no alarm will foil the professional thief, it will act as a deterrent to the small time thief or joyrider. This circuit, like most alarms, is triggered off by the door contacts for the courtesy light and will only work when fitted to a 12V negative earth car. The switch to the alarm is fitted on the inside of the car as opposed to the outside, thus ensuring that the switch is not tampered with. The idea is, when leaving the car the alarm switch is turned to the on position and the arm button is pressed. It is now safe to open the doors and get out of the car. After arming the system a timer circuit allows approximately 30 seconds to leave the car and shut the doors. The timing and sequence of events can be modified using the information in the leaflet supplied. If a door is then opened, the horn will sound after 15 seconds. The 15 second delay is sufficient time for the occupant to turn off the alarm, but not enough time for the thief to tamper with the system. The horn will pulse for 30 seconds at a rate of 1 pulse per second, before re-arming itself. If the door is left open the alarm will pulse for 30 seconds, stop for 15 seconds and will continue this cycle until reset. The alarm is capable of driving car horns of up to 10A (120W).

### Optional Items

The following items, not part of the kit, may also be required.

Min Key Switch	1	(FE44X)
Wire 3202 Black	1	(XR32K)
Wire 3202 Red	1	(XR36P)
16/0.2 Wire 10M Green	1	(FA29G)

XK62S	Vehicle Alm Leaflet	£0.800	£0.800 NV

## Ultrasonic Car Alarm 2

This burglar alarm design is basically the same as the ultrasonic movement detector type that is often used to protect homes and other buildings. By detecting movement inside the car using the Doppler shift principle, any method of entry will trigger the alarm. The operating range is approximately 1m extending  $\pm 45^\circ$  from the sensors, which is suitable for the driver and front passenger seat area of most cars.

The circuit incorporates an Exit Delay Timer which prevents the unit from being activated until several seconds after it has been switched on, giving the user an opportunity to leave the car without triggering the alarm. This is an important feature as it enables the on/off switch to be positioned inside the car, rather than having to rely on a concealed switch somewhere on the outside of the car. A short duration Entry Delay is also included so that the user can enter the car and deactivate the alarm before it sounds. Once activated the alarm operates the car horn which is pulsed at approximately 1Hz creating an 'urgent' sound. This will last for approximately 10 minutes and then the unit will reset automatically.

### Kit and Special Parts

A complete kit of parts for this project and the PCB is also available separately. Full construction details may be found in instruction leaflet XK00A.

## Compuguard 3

- ★ Fully programmable
- ★ Low power consumption
- ★ Optional battery backup
- ★ Suitable for all negative earth vehicles
- ★ Microprocessor controlled
- ★ Controls central locking & electric windows and sunroof

In Britain a car is stolen every 30 seconds! Compuguard is a microprocessor controlled programmable semi-intelligent vehicle alarm that aims to make a thief's time as difficult as possible by constantly monitoring and modifying its outlook on the security of the vehicle! Compuguard comes in three kits:

### Compuguard Main Unit

This houses a microcontroller, optional battery backup, shock and voltage drop sensors, control relays and service keyswitch. The unit is impregnable to water and is to be mounted in the engine compartment.

### Optional Items

The following optional items are not included in the kit but may also be required.

Rechargeable Type AA Battery	6	(YG00A)
9V Battery Holder	1	(HQ01B)
PP3 Battery Clip	1	(HF28F)
Motor-Start Press	1	(FH91Y)
Additional Quick Snap Connectors	As Req.	(JR88V)
12V Siren		See Article
Power Connection Wire Black	As Req.	(XR32K)
Power Connection Wire Red	As Req.	(XR36P)
Self Tapper No.8 x 12.7mm (1/2in.)	1 pkt.	(BF69A)
Spirawrap 3-18mm (1/8in.)	As Req.	(BL57M)

### Kit and Special Parts

A complete kit of parts is available. The high quality fibre-glass PCB, an aluminium mounting bracket for attaching the Compuguard main unit to the car body, and a TMS77C82 microcontroller preprogrammed with the Compuguard car alarm software are also available separately. The leaflet supplied with the kit contains the complete installation details (which are not shown in the magazines). This leaflet is also available separately. Full construction details may be found in Maplin Magazine/Projects Books 40 and 41, XA40T and XA41U, and instruction leaflet XK53H.

PCB dimensions: 104 x 127mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3201	Price each exc. VAT	inc. VAT each
LP22Y	Compuguard Main Unit	£25.520	£29.990
GE46A	Compuguard Main PCB	£5.940	£6.990
JR77J	Compuguard Bracket	£3.620	£4.490
UL63T	TMS77C82 MSD1	£17.430	£20.490
XK53H	Compugd Main Leaflet	£1.000	£1.000 NV

## Compuguard Infra-Red Receiver and Control Unit 3

This houses the infra-red receiver/decoder and control switches to select the activated sensors. The unit is to be mounted inside the passenger compartment.

### Optional Items

The following optional items are not included in the kit but may also be required.

Multi-Core 15-way	As Req.	(XR28F)
Multi-Core 4-way Screened	As Req.	(XR25C)
Potting Box Miniature	1	(LH56L)
Potting Compound 50g	1	(FT17T)
Quickstick Pads	1	(HB22Y)

### Kit and Special Parts

A complete kit of parts is available and the pcb and self-adhesive panel are also available separately. PCB dimensions: 88.9 x 69.2mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3005	Price each exc. VAT	inc. VAT each
LP23A †	Compuguard IR Rec/Sw	£10.200	£11.990
GE56L †	Compuguard IR Rx Bd	£2.970	£3.490
JR730 †	Compuguard IR Panel	£1.690	£1.990

## Compuguard Infra-Red Transmitter 3

This is a small hand-held transmitter that can easily be attached to a key-ring. A recessed tactile switch is provided which selects active, inactive, or 'panic' conditions.

### Optional Items

The following optional items are not included in the kit but may also be required.

12V Lighter Battery 23A	1	(ZB56L)
-------------------------	---	---------

### Kit and Special Parts

A complete kit of parts is available. The high quality fibreglass PCB, self-adhesive panel and a key-ring box for housing the infra-red transmitter unit are also available separately. PCB dimensions: 55.5 x 31mm.

Price each shown, but sold only in multiples of 1.

Order Code	Type 3007	Price each exc. VAT	inc. VAT each
LP24B †	Compuguard IR Tx	£11.050	£12.990
GE57M †	Compuguard IR Tx Bd	£1.290	£1.490

JR90X †	Keyring Remote Case	£1.520	£1.790
XK350 †	Compgrd Rx/Tx Leaflet	£1.200	£1,200 NV

**+** This symbol beside an order code in the price block indicates **WHILE STOCKS LAST**

## Remote Control Car Alarm 3

Velleman

- ★ Adjustable voltage drop detector (reaction to interior lighting)
- ★ Internal siren for on/off signal and alarm
- ★ Warning alarm trigger input (2 triggers within 15 seconds = alarm)
- ★ Adjustable shock detector
- ★ Contact switches for bonnet and boot
- ★ Output for external siren and pager (5A)
- ★ Output for hazard lights (2 x 6A max)
- ★ Output for central locking (100mA)
- ★ Selectable code for remote control transmitter and receiver (8,748 codes)
- ★ Automatically resets in the event of accidental switch off (60 seconds)
- ★ Diagnosis facility to identify a triggered sensor at a later time

A very versatile microprocessor controlled car alarm that can be used with a wide range of sensors. The remote control facility allows the door central locking and the alarm to operate together. The alarm has a multi-functional dashboard mounted LED and audio/visual on/off indicators. When triggered the alarm will automatically reset after 30 seconds. For added protection, the alarm has an ignition/diesel fuel interrupt (rated at 15A) and a starter motor interrupt relay (rated at 30A). In standby mode the alarm draws 50mA from a car battery.

Retail Unit Price each (inc. VAT).

Order Code	Type 1173	Price each exc. VAT	inc. VAT each
VF730 †	K3511 Radio Car Alarm	£86.800	£101.990
VF76H †	K3512 IR-Car Alarm	£86.800	£101.990

## K3504 Car Alarm 2

This alarm detects instantaneous voltage drops of the battery caused, for example, by the courtesy light or boot light being switched on. To show you that the alarm is working properly, the kit has the following two control indicators: Flashing LED to indicate that the adjustable exit delay time has expired and that the alarm is armed; Pre-alarm (built-in buzzer) to remind you that the alarm is armed, so that you don't forget to switch it off. The alarm can be switched on and off very easily, either automatically through the ignition lock or remotely controlled by our infra-red code lock K6708 (VF80B) and K6709 (VF81C) for example.

Retail Unit Price each (inc. VAT).

Order Code	Type 3174	Price each exc. VAT	inc. VAT each
VE02C	Velleman Kit K3504	£14.450	£11.880
		£11.220	£16.990

## Glass Break Sensor

- ★ High false alarm immunity
- ★ Adjustable sensitivity
- ★ High intensity flashing 'armed' LED
- ★ Trigger LED indicator
- ★ Window mounted decal/sensor indicates vehicle is protected by an alarm and is active
- ★ Active low trigger output compatible with many alarm systems

This vehicle alarm glass-break sensor uses audio discrimination to detect attacking and breaking of glass. It is packaged in the form of an attractive window mounted decal, which also incorporates a high intensity LED that shows when the vehicle's alarm system is armed.

### Specifications

Operating voltage:	+9 to +15V DC
Quiescent current:	8mA
Trigger output:	Active low

Retail Unit Price each (inc. VAT).

## AM956 Shock Detector

A ready-made electronic shock detector that can be installed anywhere in the car. The unit provides protection if an attempt is made to force entry, to tow or jack the car etc. The detector has adjustable sensitivity, LED indication, is easy to install, and makes a valuable addition to suitable existing car alarms.

Retail Unit Price each (inc. VAT).

## Miscellaneous Car

### K3502 Parking Radar

3

- ★ Audible warning of obstacles
- ★ Easy to install
- ★ Adjustable range

This Sonic Car Parking Radar System is designed to assist you or your partners parking skills by using ultrasonics to measure a distance. A sensor is mounted at the back of the car and gives an indication of the distance between your car, and the car parked behind you, or other obstacles (only at the same height as the sensor). When the preset minimum distance is crossed, an audible signal is generated.

**Specification**  
Measuring range: 5cm to 1.5m  
Transmission frequency: 40kHz  
Power supply: 10V to 15V DC 16mA max.

### Optional Items

The following items, not included in the kit, may also be required.

Plastic Box D-003	1	(ZB01B)
Plastic Box MB8	If Req	(KC90X)
M3 Insulated Spacers	1 Pkt	(FS38R)
6-Core Cable	As Req	(XS54J)
Zip Wire	If Req	(XR39N)

## Wiper Control

### Auto Rear Window Wiper Controller

3

- ★ Single shot and intermittent modes
- ★ Extends wiper blade life
- ★ Reduces the risk of scratches
- ★ Lessens wiper motor and gearbox wear
- ★ Enhanced operation
- ★ Multi-mode operation
- ★ Auto wipes when reversing

Most cars that have a rear wiper usually have the operating switch for it located in some awkward, almost unreachable position, whereas the conventional front screen wiper controls are close at hand. Consequently it is not easy to operate the rear wiper whilst concentrating on your driving, so that for example, should the window dry out and it is not a convenient moment to switch the wiper off, there is a risk of scratching the glass.

The Auto Rear Wiper Controller adds flexibility to the existing simple 'on or off' rear window wiper on the car, making its operation semi-automatic and relieving the driver of the task.

There are three essential modes of operation:

1. Single Shot Mode. The rear wiper will give a single sweep and then stop.
2. Intermittent Mode. The rear wiper will sweep and then wait for a preset time period; this cycle will repeat indefinitely until switched off. The time delay period can be preset according to the value chosen for the timing resistor. In the kit, two alternative values are supplied for 7 and 15 seconds, but other values can be substituted for delay times from 1 second to 1 minute.
3. Auto Wipe on Reverse Mode. The rear wiper is forced into Intermittent Mode whenever reverse gear is selected, regardless of the unit's toggle switch position.

In all cases, the rear wiper will only function while the front windscreen wipers are switched on, so that all wipers can easily be switched off with just one control, whilst the original rear wiper switch can still be used as normal, if required.

### Optional Items

The following items are not included in the kit, but may also be required.

ABS Box MB2	1	(LH21X)
Pozi Screw M3 16mm	1 Pkt	(JC70M)

## K2599 Intermittent Wiper Controller

2

- ★ Timer intervals 5, 10 & 15 seconds
- ★ Relay output: 2 x 5A single pole change over contacts
- ★ LED indicator

This project is ideal for updating the windscreen wiper control installed in older cars. An intermittent setting, featuring three different time intervals of 5, 10 and 15 seconds is provided for matching to weather conditions. The advantages of intermittent wiping are that it extends the working life of the wiper blades and reduces the mechanical wear of the wiper motor and gearbox.

### Specification

Power supply:	12V to 15V DC
Supply current	
output off:	25mA
output on:	100mA
Interval lengths:	5, 10, and 15 seconds
PCB dimensions:	82 x 52 x 40mm

### Optional Items

The following items, not included in the kit, may also be required.

Ribbon Cable 10-way	As Req	(XR06G)
---------------------	--------	---------

### Kit and Special Parts

A complete kit of parts (including the PCB) is available (excluding optional items). Full construction details may be found in Maplin Magazine/Projects Book 75 XA75S, and instruction leaflet XU74R.

## Rear Window Demister Aerial 2

NEW LOW PRICE

### Features

- ★ Turns Rear Window Demisters into radio aerials
- ★ Excellent FM and AM coverage
- ★ Compact, robust design
- ★ Simple to install

### Applications

- ★ Cherished cars and vans
- ★ Customised and classic vehicles

This project is a viable alternative to an automatic aerial when used for FM reception and the rear window aerial amplifier will be just as effective even if the heater element doesn't work. The unit may also be used to receive the Medium and Long Wave AM bands (depending on how well the electrical systems in the vehicle are suppressed). Ideal for discerning motorists who do not wish to damage their car bodywork by drilling a hole in it to fit a conventional extendable rod-type antenna, or those people who are fed up with vandals mangling or even snapping off the aerial when it is inadvertently left extended. There are additional benefits to be gained in not using a conventional aerial: elimination of a potential rust spot and the doing away with an unsightly mast sticking out of the car's body work. This makes the project perfect for painstakingly restored classic cars (which may not have had an aerial fitted originally, but whose owners wish to fit radio equipment), custom cars, or as a neat addition to any (negative-earthed) vehicle. The project is also suitable for vehicles with glassfibre body construction, or even Kevlar/carbon fibre.

### Specification

Supply voltage:	12V DC nominal
Current consumption:	17.4mA nominal 22.6mA @ 15V
Overall gain:	19dB
Spectral response:	All UK AM and FM radio waveband frequencies
Heater element current:	15A maximum, 50% duty cycle rated 8A continuous, 100% duty cycle rated

**Note: This project is suitable for negative-earthed vehicles only.**

### Kit and Special Parts

A complete kit of parts is available, including the PCB and the Front Panel Label.

The PCB and Front Panel Label are also available separately.

Full constructional details may be found in Maplin Magazine/Projects Book 96 XA96E, and instruction leaflet XV77J.

Retail Unit Price each (inc. VAT).

## Rear Window Demister Timer 1

It costs money to buy petrol to fuel the engine to power the alternator to produce the electricity to demist the rear window of a vehicle. When people switch the demister on they, more often than not, forget to turn it off. But don't despair! Equipping your vehicle with this simple to build and install demister timer will ensure that the demister will automatically switch off after a preset period, even if you forget all about it. This will be kinder on the vehicle's hard-suffering battery (and alternator) in cold weather, leaving more power in reserve for the lights, windscreen wipers, the heater blower and, perhaps, your all-important stereo system!

### Specification

Operating voltage:	12V DC nominal
Operating current:	66mA
Standby current:	1.4mA
PCB dimensions:	65 x 72 x 25mm
Box dimensions:	105 x 72 x 33mm
Over-current protection:	100mA fuse

### Optional Items

The following optional items, not included in the kit, may also be required.

Box and Base Type 2	1	(YN36P)
9.5mm Grommet	1	(JX63T)
M3 x 12mm Pozi-drive Screws	1 Pkt	(BF37S)
M3 Steel Nuts	1 Pkt	(JD61R)
M3 Steel Washers	1 Pkt	(JD76H)
M3 Shakeproof Washers	1 Pkt	(BF44X)
M3 x 1/8in. Spacers	1 Pkt	(FG32K)

**Note: This project is suitable for negative-earthed vehicles only.**

### Kit and Special Parts

A complete kit of parts is available, including the PCB, the Instruction Leaflet, and the Constructors' Guide. The PCB and front panel label are available separately. Full constructional details may be found in Maplin Magazine/Projects Book 98 XA98G, and instruction leaflet XV89W.

## Computer Projects

## IBM PC Compatible

## Programmable PC I/O Card 2

- ★ For use with IBM PC, PC-XT, PC-AT and compatible clones
- ★ 24 programmable input/output lines
- ★ Fully programmable from BASIC

- ★ Base address selectable
- ★ Uses industry standard 8255 PPI IC

A 24-line digital I/O (Input/Output) card for use on many IBM PCs and clones. The card is based around the industry standard 8255 PPI (Programmable Peripheral Interface) IC. A 37-pin D-type connector is integral to the card and protrudes from the expansion board. The 8255 PPI IC provides the necessary control, latching, buffering and handshaking of data to and from the card. A number of TTL chips provide access to the 8255 from the host computer. Both CMOS and TTL logic can be read, but only TTL +5V can be written. Extensions to the card can enable the device to write to CMOS levels. This card is not able to handle large current devices directly, however, circuits supporting the card are shown in the magazine. A GW BASIC program is supplied in the article for testing the card, producing a square wave at all the ports. Full operating procedures using GW BASIC commands are also shown in the leaflet.

### Optional Items

The following items, not included in the kit, may also be required.

D-Connector Jack Post	1 Pr	(FP31J)
8255 Data Book	1	(XK97F)

### Kit and Special Parts

A complete kit is available and the pcb is also available separately, as well as the 8255 Data Book. Full construction details may be found in Maplin Magazine/Projects Book 43 XA43W, and instruction leaflet XK29G.

A ready assembled version is also available.

PCB dimensions: 286 x 40mm.

### Applications Information

Further applications information on using the Programmable PC I/O Card may be found in the following issues of *Electronics - The Maplin Magazine*:

- Using Temperature Modules* - Issue 71 (XA71N): Gives details of how to measure temperature. Requires Temperature Module Expansion Converter Kit (LM36P) and Temperature Module (FE33L) - article includes BASIC program listing.
- IBM PC Centronics Input Port* - Issue 77 (XA77J): Gives details of how to receive data from another computer's centronics parallel printer port - useful when transferring data from an old computer system where disc or file formats, etc., are incompatible - article includes BASIC program listing.
- Rugby Clock Receiver* - Issue 47 (XA47A): Gives details of how to receive and decode Rugby MSF Clock data. Requires Rugby Clock Receiver Kit (LP70M) - article includes BASIC program listing.
- Practical Robotics* - Issues 42 (XA42V), 43 (XA43W), 44 1991 (XA44X), 59 (XA59P): Gives details of how to build and control robots from a computer - Issue 59 gives specific information relating to the Programmable PC I/O Card which can be directly applied to the articles in Issues 42 to 44 - articles include BASIC program listings.

**PC Relay Card**

**2**

**Features**

- ★ For use with IBM PC, PC-XT, PC-AT and compatible clones
- ★ Eight relay changeover contacts
- ★ Switches up to 24V DC/50V AC @ 2A resistive/1A inductive
- ★ Fused 5V output to power external circuits
- ★ Base address selectable
- ★ Multiple cards can be used
- ★ Fully programmable from BASIC

**Applications**

- ★ Robotics
- ★ Process control
- ★ Time control
- ★ Home automation
- ★ Controlling lamps, motors, solenoids

This project is a versatile relay card for use with the IBM PC, PC-XT, PC-AT and compatible clones. Each relay, of which there are eight on the card, has one set of change-over contacts. The relay contacts are able to switch 'moderate' loads, such as low voltage lamps, motors and solenoids. The card slots into any one of the vacant expansion slots provided on the host computer. Power, control, address and data signals are obtained from the computer's expansion bus. The relays' contacts are brought out, together with a fuse-protected +5V supply, on a 37-way female D-type connector. The D-type connector protrudes through the expansion card slot facilitating easy connection with the outside world.

The card is based around discrete logic, as opposed to a fully programmable input/output IC, this has the advantage that the card does not need to be configured or initialised before use. Data can simply be written to the appropriate address to set or reset the relevant relays. To simplify programming, it is possible to 'read back' from the card which relay outputs are set or reset, this avoids having to set or reset software flags to keep track of the current relay states. A further advantage is that a self-diagnostic routine could be written into the software to check the presence of the card at the correct input/output map location and whether the card is functioning correctly. Details are given in the kit on how to access the PC Relay Card using GW-BASIC.

**Kit and Special Parts**

A complete kit of parts (including the PCB and instruction leaflet) is available. The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 65 XA65V, and instruction leaflet XT88V.

**Retail Unit Price each (inc. VAT).**

Order Code	Type 3331	Price each exc. VAT 1+	inc. VAT each 1+
LT16S	PC Relay O/P Card	£25.520	£28.990
GH22Y	PC Relay O/P PCB	£8.500	£9.990
XT88V	PC Relay Card Lft	£0.800	£0.800 NV

**PC Opto-Isolator Card**

**2**

**Features**

- ★ For use with IBM PC, PC-XT, PC-AT and compatible clones
- ★ 100% galvanic isolation
- ★ Eight 'double buffered', opto-isolated inputs with strobe
- ★ Eight opto-isolated transistor switch outputs
- ★ High isolation voltage
- ★ Fused 5V output to power external circuits
- ★ Selectable base address

**Applications**

- ★ Isolated data links
- ★ Connection of switches, tachos, pulse devices and detectors
- ★ Robotics
- ★ Process control
- ★ Timer control
- ★ Home automation
- ★ Control of lamps, motors, solenoids

This project is a versatile interface card for use with the IBM PC, PC-XT, PC-AT and compatible clones, featuring electrical isolation of both inputs and outputs using opto-coupling techniques. There are separate, 8-bit parallel input and output connections on the card, with an additional strobe input being provided for the 8-bit parallel input. This strobe can be disabled if required, improving the flexibility of the card.

The card slots into any one of the vacant expansion slots provided on the host PC, and the power, control, address and data signals are obtained from the computer's expansion bus. The opto-isolated inputs and outputs are brought out to a rear panel mounted, 37-way, female D-range connector, together with a fuse-protected +5V supply, allowing easy connection with the outside world.

The card uses discrete logic, as opposed to a fully programmable input/output IC, and therefore has the advantage that it does not need to be configured or initialised before use. Data can simply be written and read to, and from, the appropriate address. A further advantage is that a simple self-diagnostic function could be included in the software to check the presence of the card at the correct input/output map location, and whether the card is functioning correctly.

**Kit and Special Parts**

A complete kit of parts (including the PCB and instruction leaflet) is available. The PCB is available separately. Full construction details may be found in Maplin Magazine/Projects Book 66 XA66W, and instruction leaflet XT87U.

**Retail Unit Price each (inc. VAT).**

Order Code	Type 3324	Price each exc. VAT 1+	inc. VAT each 1+
LT17T	PC Opto-Isol I/O Card	£28.070	£32.990
GH23A	Opto-Isolates I/O PCB	£10.200	£11.990
XT87U	PC Opto-Isol Card Lft	£1.000	£1.000 NV

**PC Prototyping Card**

**3**

**Features**

- ★ For use with IBM PC, PC-XT, PC-AT and compatible clones
- ★ Matrix of DIL IC spaced solder pads and power rails
- ★ Buffered address and data lines
- ★ On-board address decoder
- ★ Selectable base address

**Applications**

- ★ Prototype development of PC I/O cards
- ★ Constructing custom 'one-off' adaptor cards

This versatile project is an interface card for use with the IBM PC, PC-XT, PC-AT and compatible clones, specifically designed to allow the home constructor and experimenter to develop a custom-built expansion card for his or her PC, to perform a specific hardware interfacing task which is not catered for by any normally available cards. It will be particularly useful in the field of electronics where some special interface is needed, and equivalent industrial I/O cards are expensive. The card plugs into any one of the vacant expansion slots provided on the host PC's motherboard, and the power, control, address and data signals are made available from the computer's expansion bus. External connections can be brought out to a rear panel mounted, 37-way, female D-range connector. This connector is optional however, and other, more specific connectors can be used instead if the application demands.

Flexibility is also increased from the software point of view, by the provision of the MEMR and MEMW lines, allowing configuration of the card as memory (therefore addressed in the memory map), or alternatively the IOR and IOW lines are available, allowing the card to be configured as an I/O device of some sort, as are all the IRQ lines.

The remainder of open space over the rest of the component side of the card has matrices of plated through holes organised to a 2.54mm (0.1in.) grid. Those above the buffering circuitry have pads interconnected in favour of transistor circuits and resistor networks, while those occupying the front half are essentially configured for DIL ICs. Five bus bars are provided down the centre of the card carrying 0V, +5V, -5V, +12V and -12V supply rails. If the 37-way, rear panel connector is used, then all the connections (which are open-ended, i.e. not connected to anything) are brought to separate pads, contained in the rectangular legend marked 'SK1', with pin identification.

**Optional Items**

The following items, not included in the kit, may also be required.

RA Socket 37-Way D-Range	1	(JB38R)
PC Bracket 37-Way D-Type	1	(CR45Y)

**Kit and Special Parts**

A complete kit of parts (including the PCB) is available (excluding optional items). The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 67 XA67X, and instruction leaflet XU20W.

## K8000 Computer Interface Board

3

- ★ Interface board for IBM compatible PCs
- ★ Simply connects to the printer port
- ★ Printer by-pass connector on board
- ★ 16 optoisolated input or outputs
- ★ 8 to 6-bit (64 step) analogue outputs
- ★ 1 to 8-bit (256 step) analogue output
- ★ 4 to 8-bit (256 step) analogue inputs
- ★ Full optoisolation to computer

To enable a computer to communicate with the outside world, it is usually fitted with a keyboard, a display and perhaps a mouse. If however, it is to be used in control applications, or certain control functions are to be carried out, then an interface is needed. This Computer Interface Board excels in its simplicity of use and installation.

The connection to the computer is optically isolated, so that damage to the computer is not possible. The interface is controlled using TURBO PASCAL™ procedures – these procedures are preprogrammed and are provided along with a number of tests and example programs on the diskette supplied.

To connect the interface board to the computer, the printer port is used (note that there is no need to install an extra printer port as the printer can be connected directly to the interface board). Although it must be noted that the printer has priority over the interface when connected.

The interface itself has 16 optically isolated digital connections, which can be freely chosen as either inputs or outputs (e.g., 6 inputs and 10 outputs) according to how they are set up by the user. In addition, there are eight analogue outputs with 6-bit resolution, one analogue output with 8-bit resolution, and four analogue inputs of 8-bit resolution. If more digital outputs are required, then the analogue outputs can be used by setting to minimum or maximum output voltage. If there are too few inputs, then the analogue inputs may be used. In this way it is very simple to track the state of a rotating switch by connecting in a different voltage for each switch index position.

Please note that these extra input and output channels are not optically isolated. If this capacity is still not sufficient for a particular application, then up to four interface boards can be connected together (one master and three slaves), such enormous potential exists.

The interface can be used with many other Velleman kits such as:

K6714	16-channel relay card (VF10L).
K6710 and K6711	15-channel remote control (VE72P), (VE73Q).
K2607	Thermometer adaptor (VE65V).
K6700 and K6701	2 wire communication (Max. 16 channels) (VE70M), (VE71N)
K2633	4-channel relay card (VF00A)
K2634	4-channel triac card (VE97F).

### Specification

#### Digital Outputs I/O1 to I/O16:

Optocoupler, open collector output:  
50mA 30V DC maximum  
Minimum conversion time to set 16 outputs: 800µs

#### Digital Inputs I/O1 to I/O16:

Optocoupler input: Min 5V/5mA, max 20V/40mA  
Minimum conversion time to read 16 inputs: 800µs

#### Analogue Outputs:

8 outputs, DAC1 to DAC8; resolution: 64 steps  
Minimum conversion time to set one output: 600µs  
Minimum conversion time to set 8 outputs together: 2ms

Maximum output current: 6mA  
Minimum output voltage (at 2mA): 0.1V  
Maximum output voltage (at 2mA): 11.5V (adjustable)

Resolution per step (from 0.1V to 11.5V): 160mV ±90mV

1 Precision output, DA1 resolution: 256 steps  
Conversion time to set output: 600µs

Maximum output current: 2mA  
Minimum output voltage: 0V

Maximum output voltage (at 500µA): 4.5V (adjustable)  
Resolution per step (from 0V to 4.5V): 17.5mV  
Deviation: 30mV max.

#### Analogue Inputs

4 analogue inputs, AD1 to AD4; resolution: 256 steps  
Minimum conversion time to read one input: 1ms  
Minimum conversion time to read 4 inputs: 1.6ms  
Minimum input voltage: 0V  
Maximum input voltage: 5V  
Input impedance: 50MΩ nominal  
Resolution: 19.5mV  
Deviation: 30mV max.  
Communication protocol: I<sup>2</sup>C bus  
Supply voltage: 220 to 240V AC  
PCB dimensions: 237 x 133mm

**NB:** Conversion speed is dependent on chosen computer.

#### Kit and Special Parts

A complete kit of parts (including the PCB) is available. Full construction details may be found in Maplin Magazine/Projects Book 88 XA88V, and instruction leaflet XV30H.

## K8001 Independent Programmable Control Module

2

This independent programmable control module can be used to replace a computer to control the K8000 computer interface card. The module is easily connected to the K8000 card, and once programmed it can be disconnected from the computer and the system can continue to work as a stand-alone system. Programming is done using its own purposely developed instruction set.

## Video Digitiser

2

#### Features

- ★ Black and white (monochrome) or colour digitising
- ★ Simple to construct and operate

#### Applications

- ★ Home video storage and processing

### ★ Closed circuit TV (CCTV) security camera systems

#### ★ Presentations

This superb project is a real time Video Digitiser card intended for use with IBM compatible PCs fitted with a VGA or higher grade monitor. The system converts video signals into digital data that can be processed by the PC. Therefore you can view and store pictures sourced from either a video camera, composite black and white (monochrome) video, or a colour RGB signal, on a PC. This then allows you to use or modify the stored images as you require. Software is included in the kit, which operates under Windows 3.1 or higher operating systems. The software incorporates operating and construction details for the kit, in a choice of four languages – English, Dutch, French, and German, and in addition, conventional written instructions are provided. Pictures may be digitised in black and white or RGB colour from either TV, camera, or tape sources. The Video Digitiser card is capable of capturing frames from live composite video signals with 256 grey levels, and 24-bit full colour pictures from still image RGB signals. The output file is in the form of TIFF (Tagged Image File Format) files. The output files may be processed further by almost any graphics program that runs under MS-DOS™ or Windows™, the recommended graphics program being 'Paint Shop Pro', which is shareware. You can then print out a hardcopy onto paper if a suitable printer is connected to your PC. The project can have more serious uses, such as in security monitoring systems. The project will work with the Maplin range of charge-coupled device (CCD) subminiature video cameras. In the case of the monochrome version (AY16S/DN48C), images can be seen in the dark, thanks to the camera being infra-red sensitive and incorporating built-in infra-red illumination of the scene. Video Processor K4600 (VF74R) can be used to provide RGB signals for colour digitising.

**Specification**  
System requirements: IBM-compatible PC with 286 or higher processor  
VGA or higher video card  
Spare expansion slot  
Windows 3.1™ or higher

**Black and white images**  
Resolution: 512 x 512 pixels  
Grey levels: 256  
Sampling rate: 10MHz  
Input signal: Composite PAL video (15.625kHz line frequency)

Video input level: 1V pk-to-pk  
Output file format: TIFF (8-bit)

**Colour images**  
Resolution: 512 x 512 pixels  
Colour input signal: RGB (1V pk-to-pk)  
Number of colours: 16.7 million  
Output file format: TIFF (24-bit)

**Kit and Special Parts**  
A complete kit of parts is available, including the PCB. Full constructional details may be found in Maplin Magazine/Projects Book 96 XA96E, and instruction leaflet XV84F.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

**General Computer**  
**RS232 Serial Line Tester** 3

- Features**
- ★ Easy to build
  - ★ Versatile, pocket-sized unit
  - ★ Multiple function
  - ★ Four different baud rates
  - ★ 8-bit PIC microcontroller-based
  - ★ Low current consumption

- Applications**
- ★ Terminals
  - ★ Printers
  - ★ Modems
  - ★ Multiplexers
  - ★ RS232 cabling

The RS232 Serial Line Tester is an extremely handy, pocket-sized device for rapidly testing serial terminals, printers and other communications equipment using RS232 data cabling. For example, where a multi-user computer system has a large number of terminals and printers distributed around one or more sites, they are often connected via simple asynchronous RS232 data cabling for a cost-effective and flexible installation. However, when a device fails to operate correctly, usually at the furthest point of the system (!), a way of testing the equipment quickly and independently of the host system can save a great deal of time in isolating the fault. This tester is a low-cost, portable, and easy to use instrument, based on the PIC16C84 Microcontroller and is capable of providing several useful test functions to enable rapid troubleshooting. It also provides a painless introduction to the world of PIC microcontroller-based projects, as no programming is required.

- Specification**
- DC Power Supply: 9V PP3 cell  
Supply current: 14mA  
Typical battery life: >30 hours  
Visual indicators: Two miniature LEDs provide power on/battery state and data flow indication
- Test facilities: 80- and 132-column test modes  
Choice of three test patterns  
1200, 2400, 4800, and 9600 BAUD rate  
7-bit Odd/Even/Mark/Space, 8-bit None data formats  
Visible confirmation of software flow control (X-on/X-off)  
Printer carriage mechanism tabbing test

- Optional Items**
- The following items, not included in the kit, may also be required.
- Alkaline PP3 Battery 1 (ZB52G)
  - 4prs 1in Velcro Sqrs 1 (FE45Y)
  - RS232 Mini Tester 1 (YP80B)
  - Null Modem RS232 1 (YP85G)
  - 25W M-M Gender Changer 1 (JM48C)
  - 25W F-F Gender Changer 1 (JM49D)
  - 25-way M-F Serial Cable 1 (JC13P)
  - 9-way F to 25-way M Adaptor 1 (JM08J)
  - Carrying Case B 1 (ZF04E)

**Kit and Special Parts**

A complete kit if parts (including the PCB and front panel label) is available (excluding optional items). The PCB, front panel label, and pre-programmed microcontroller are available separately. Full constructional details may be found in Maplin Magazine/Projects Book 100 XD00A, and instruction leaflet XV93B.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LL28F 1	RS232 Line Tester	£34.030	£39.990

XV93B	Serial Line Tstr Lft	£1.000	£1.000 NV

**Parallel Interface Relay Card** 2

- ★ Robotics
- ★ Slide/tape recorder control
- ★ High power relay control
- ★ Programmable low voltage switching

This simple unit will allow up to eight independent relays to be controlled from any computer having a 'Centronics' parallel printer port. The device behaves as a printer, thus avoiding the necessity for special interfacing electronics or low-level software drivers. The relays are controlled simply by 'printing' an ASCII character, chosen to represent the required relay to be switched. The unit has on-board regulators but requires an external power supply. A 12V 800mA unregulated PSU (YM85G) is an ideal power source.

- Specification**
- Power supply: 15V DC regulated or 12V DC 800mA unregulated  
Maximum current: 500mA (all relays 'on')  
Relay contact ratings: 3A DC/AC resistive, 1.5A inductive, 24V DC  
Computer interface: Parallel printer port ('Centronics')

- Optional Items**
- The following items, not included in the kit, may also be required.
- AC Adaptor Unreg. 800mA 1 (YM85G)
  - IBM PC Printer Cable If Req. (JC11M)
  - Male-to-Male Printer Cable If Req. (JC14Q)
  - Male-to-Female Printer Cable If Req. (JC15R)

**Kit and Special Parts**

A complete kit of parts (including the PCB, Front Panel and instruction leaflet) is available (excluding optional items). The PCB and Front Panel are also available separately. Full construction details may be found in Maplin Magazine/Projects Book 57 XA57M, and instruction leaflet XT82D. PCB dimensions: 160 x 109.2mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LT08J 1	Centronics Rly Card	£34.030	£39.990
GH16S	Centronics Relay PCB	£5.940	£6.990
KP46A	F/P Cent Relay Card	£3.390	£3.990
XT82D	Centric Rly Leaflet	£0.800	£0.800 NV

**RS232/TTL Converter** 2

- ★ Operates from single +5V power supply
- ★ Meets all RS232C specifications
- ★ Normal or inverse logic
- ★ Two drivers and two receivers
- ★ Onboard voltage quadrupler
- ★ ±30V input level protection
- ★ ±9V output swing with +5V supply
- ★ Low power consumption

Not all home microcomputers or peripheral devices have serial data signals at RS232C logic levels. A method of converting +5V TTL signals to RS232C levels (and vice versa) is needed and the converter module does just this. The heart of the unit is the MAX232 IC which is a dual RS232 receiver/transmitter that meets all EIA RS232C specifications while only using a +5V power supply. This significantly simplifies the system design by removing the need for power supply voltages of other than +5V. The MAX232 has two onboard charge pump voltage converters which generate +10V and -10V power supplies from the single +5V power input. Output voltage swing is typically ±9V with the nominal 5kΩ input resistance of an RS232 receiver. Maximum data rate is 19,200 baud. An onboard DIP switch allows use of normal or inverse logic for transmitted/received data.

- Optional Items**
- The following items, not included in the kit, may also be required.
- Threaded spacer M3 1 Pkt (FG38R)
  - Isobolt M3 x 6mm 1 Pkt (BF51F)
  - Isoshake M3 1 Pkt (BF44X)

**Kit and Special Parts**

A complete kit is available and the pcb is also available separately. Full construction details may be found in Maplin Magazine Issue 31. A ready assembled version is also available.

## RS232 to 8-Bit Digital I/O Converter Module 1

### Features

- ★ Each I/O line individually configurable as input or output
- ★ Byte or bit read and write
- ★ Configuration can be altered on-line through the RS232 interface
- ★ Single 5V DC supply voltage
- ★ I/O lines are TTL and CMOS compatible
- ★ Auto baud rate selection
- ★ Auto format/parity selection
- ★ On-board CMOS microcontroller

### Applications

- ★ Digital I/O expansion of any computer with an RS232 interface
- ★ Computer-based process control and automation
- ★ Capture of digital signals, switches, detectors, etc.
- ★ Computer control of relays, indicators, motors, pumps, etc.

This single board, PIC microcontroller-based RS232 to 8-bit Input/Output Converter Module finds many applications where a parallel to serial conversion (and vice versa) of digital data is required, making it ideal for use in computer-controlled systems and peripherals, or for experimental and educational purposes. One useful application for the module is in a computer-controlled security system. Several passive infra-red sensors (PIRs), positioned about the premises, can be connected through the Converter Module to a host computer, allowing intruders' movements to be mapped throughout the building.

### Specification

Operating voltage:	5V DC
Maximum current consumption:	100mA
Maximum load per output:	10mA
Operating speed:	600/1,200 Baud
Visual indicator:	Red LED confirming serial data received

PCB dimensions:

80 x 44mm

### Kit and Special Parts

A complete kit of parts is available, including the PCB. The PCB and preprogrammed PIC16C54RC/PIC16C54MS11 Microcontroller are also available separately. A fully assembled kit is also available. Full constructional details may be found in Maplin Magazine/Projects Book 97 XA97F, and instruction leaflet XV85G.

Retail Unit Price each (inc. VAT).

## Z80 Development System 3

### Features

- ★ IBM-compatible PC-based
- ★ Single RS-232 data link
- ★ Built-in power supply regulation
- ★ Neat and strong two-tier board construction

### Applications

- ★ Software development
- ★ Educational purposes
- ★ Control systems
- ★ Programmer for Z80 projects

Many electronics engineers and home constructors will have discovered the advantages that microcontrollers hold in modern design. For low-cost applications, and with a 64K-byte addressing space, I/O space, and a wide-ranging instruction set, the Z80 processor is still a first choice, and the Maplin Z80 card provides an excellent basis for Z80-based control projects. This project, which comprises of a serial interface board, RS-232 data link and associated WindowsTM-based software used in conjunction with the Z80 CPU Module, enables the programming of the ever-popular Z80 microprocessor by means of an IBM-compatible PC. The project is based around the existing Z80 CPU Module (LK67X), which previously, would have to be programmed using the Z80 Keypad (LT15R), in hexadecimal. Therefore, this project facilitates far speedier and more convenient programming of the Z80 in assembly language, in addition to straightforward debugging and compiling of the Z80 programs.

### Specification

Supply voltage:	12V DC regulated supply
Supply current (including Z80 CPU Module):	500mA
PCB dimensions (including snap-off section):	199 x 119mm
Height of completed assembly:	45mm (maximum)
Visual indicators:	Red and green LEDs indicating status of output port 12.

### Optional Items

The following optional items, not included in the kit, may also be required.

M3 x 10mm Insulated Spacers	1 Pkt	(FS36P)
12V Regulated Power Supply	1	(YZ21X)
9-way D-type Plug	1	(RK60Q)
25-way D-type Socket	1	(YQ49D)
Twin Core Lapped Screen Cable	1m	(XR20W)
Z80 CPU Module	1	(LK67X)

### Kit and Special Parts

A complete kit of parts (including the PCB) is available (excluding optional items). The PCB, Z80 EPROM MS12 and the Z80 Development Disk are also available separately. The Z80 CPU Module Kit, although not in this kit, is also available separately. Full constructional details may be found in Maplin Magazine/Projects Book 97 XA97F, and instruction leaflet XV69A.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LX01B	Z80 Development System	£39.140	£45.990
GJ25C	Z80 Dev Sys PCB	£15.730	£18.490
DT03D	Z80 EPROM MS12	£11.480	£13.490
DT04E	Z80 Development Disk	£2.970	£3.490
XV69A	Z80 Dev Sys Lft	£0.800	£0.800 NV

## Z80A CPU Module 3

- ★ Accepts up to 8K of on-board memory
- ★ Has facilities for keyboard and displays
- ★ 4 decoded I/O select lines
- ★ Battery back-up available for CMOS RAMs

The Z80 microprocessor has been with us for many years and is still proving successful, with many new computer developments giving evidence of this fact. Practical applications of the CPU require a module with memory, input/output, clocks and facilities for further expansion.

The Maplin CPU Module can accept up to 8K of memory which is decoded in 2K (2048 bytes) blocks. The first block contains the operating system in ROM or EPROM and the second, third and fourth blocks can be either RAM or ROM. Static or CMOS 2K RAMs may be fitted (totalling 6K) and battery back-up is available, via switches, for CMOS data retention, if required. Both Z80 or Z80A processors can be fitted, and the system clock has facilities for different size crystals to suit, e.g., 1MHz crystal for Z80 or 2.4576MHz crystal for Z80A.

A keyboard/display decoding IC can be fitted allowing for small key or large (64-key) type keyboards (or sensors) for data input. This IC can also drive seven segment LED displays. This interface can scan up to 64 keys - expandable to 128 with suitable decoding - and sensors or strobed keys may be used. Two key lockout and 'N' key rollover can be programmed, and keyboard entries generate an interrupt (NMI) to the Z80. Either four or eight (programmable) 7 segment displays can be added with blanking facilities, and all connections are made via a 26-pin IDC socket. Four decoded I/O select lines are available and all data and address lines are buffered before being brought out to an expansion edge connector. All of the Z80 control lines are available, most of which are buffered, including a system CLOCK output, RESET output, SYSTEM RESET input and a switched NMI input. The NMI can be taken from either the KB/display interface or directly from the expansion connector.

### Optional Items

The following items, not included in the kit, may also be required.

26-Way IDC Header Plug	1	(FJ15R)
2 x 28-way PC Edge Conn	1	(FG23A0)
2.4576MHz Crystal	1	(FY81C)
8279 KB/Display I/Face	1	(YH51F)
2716 2K EPROM	1	(QQ07H)
6116 2K CMOS EPROM	3	(UF33L)
or 2716 2K CMOS EPROM	3	(QQ07H)

### Kit and Special Parts

A complete kit is available and the pcb is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 58 XA58N, and instruction leaflet XT51F. PCB dimensions: 152 x 119mm.

### Controllers/Timers & Counters

### Controllers/Timers

## K6002 Microprocessor Temperature Controller 3

Unlike a normal thermostat this kit has two outputs, one for a 'high' alarm, e.g. to switch on the air conditioning, and one for a 'low' alarm, e.g. to switch on the central heating. Both 'alarms' are adjustable separately, each with its own hysteresis. Several temperature sensors (K6001) can be connected (1 x K6001 supplied with the kit). Separate opto-coupler sensor input (for K6001) is also provided.

Relay outputs: 5A/220V AC changeover contact  
Accuracy:  $\pm 0.1^\circ\text{C}$   
Read out: from  $-40^\circ\text{C}$  to  $+150^\circ\text{C}$  (together with K6001)

24 hour clock (50Hz mains frequency accuracy)  
Alarm setting: from  $-50^\circ\text{C}$  to  $+154^\circ\text{C}$   
Power supply: 9V AC/300mA

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VE69A	Velleman Kit K6002	£52.750	£61.990

## K6001 Temperature Sensor 1

This kit has been developed to be combined with K6002 for building a temperature regulating and control system. The advantage of a separate sensor is that the distance between the controller and the sensor is of no importance (tested up to 50m).  
Temperature range of the transmitter:  $-40^\circ\text{C}$  to  $+150^\circ\text{C}$

Linearity from  $-10^\circ\text{C}$  to  $+50^\circ\text{C}$ : better than 0.5%  
Supply voltage: 12V DC ( $\pm 2\text{V}$ ) unbalanced  
Current consumption: 20mA max.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VE68Y	Velleman Kit K6001	£11.900	£13.990

## K2603C 1 Year Microprocessor Control Timer 4

This powerful timing device allows programming of 4 independent outputs from 1 second to 1 year. The memory can store 336 functions (on-off, sleep, enable-disable). The two independent sleep times are programmable from 1 second to 100 minutes. Extra protection of the memory is provided to avoid accidental erasing or overwriting by unauthorised persons. The kit includes housing, keyboard, 4 relays, full memory, and Ni-Cd back-up battery. Transformer to be built-in can be ordered separately (type TR2603).

Time range: 1 second min. to 1 year max.  
Memory capacity: 336 steps switchable to 560 if no dates required.  
Memory back-up: Ni-Cd battery (incl.)  
Memory protection: clearing requires pressing of two keys simultaneously.

Writing can be disabled internally.  
Membrane keyboard with key beep and LED indication.  
Outputs: 4 relays 240V/3A.  
Power supply: 8V AC/1A or 12V DC/1A unbalanced.  
Dimensions: 242 x 116 x 59mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VE79L	Velleman Kit K2603C	£130.200	£152.990
VF05F	Transformer Kit K2603	£19.560	£22.990

## K6003 Digital Thermometer Sensor with LED Display 4

Although this kit was especially designed to operate in conjunction with our controllers K6000, K6010 or K6002, it is also very well suited for use as a conventional thermometer. The digital display gives the following consecutive information:

- The current temperature
  - The minimum temperature
  - The maximum temperature
- When a 'res't key is pressed the highest and lowest temperatures measured are stored and, if necessary, adjusted.  
An aluminium case is supplied with the kit, to allow the thermometer/sensor to be mounted on a wall.  
Microprocessor technology  
Minimum and maximum temperature  
Temperature range of the sensor:  $-50^\circ\text{C}$  to  $+150^\circ\text{C}$   
Linearity from  $-10^\circ$  to  $+50^\circ$ : better than 0.5%

Full scale accuracy: better than 2%  
Adjustable to degrees Fahrenheit  
Display: 3 1/2 digits (0.1° display accuracy)  
Supply voltage: 12 to 15V DC/150mA  
Dimensions: 144 x 50 x 22mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VF09K	Velleman Kit K6003	£48.500	£56.990

## Temperature Monitor

### Features

- ★  $+39^\circ\text{C}$  to  $+98^\circ\text{C}$  temperature range
- ★ Active high and low outputs
- ★ Trip temperature easily adjustable
- ★ In-built hysteresis
- ★ LED indicator

### Applications

- ★ Amplifier protection
- ★ Power supply protection

This versatile Temperature Monitor is an optional 'add on' to the Amplifier Monitor LP32K, thus providing a complete monitoring system for amplifiers. The Temperature Monitor can be used with other protection circuits, providing that they have an external trigger input. Alternatively, the Temperature Monitor may be used in conjunction with the Zero Crossing Optoswitch LP55K, to turn a fan on at a preset temperature. The Temperature Monitor is based around a voltage comparator and a thermistor and the temperature range can easily be adjusted to be higher or lower by changing the value of the variable resistor and two fixed resistors.

### Specification

Supply voltage: 12V nominal, 15V max. DC  
Quiescent current  
@ 12V: 3.6mA max.  
@ 15V: 3.9mA max.

Operating current  
@ 12V: 45.7mA max.  
@ 15V: 56.4mA max.

Temperature range:  $+39^\circ\text{C}$  to  $+98^\circ\text{C}$   
Low temperature: Trip  $+39^\circ\text{C}$ , reset  $+31^\circ\text{C}$   
High temperature: Trip  $+98^\circ\text{C}$ , reset  $+86^\circ\text{C}$

### Optional Items

The following optional items, not included in the kit, may also be required.

PCB Latch Plug 3-way	1	(BX96E)
M3 Insulated Spacer	1 Pkt	(FS36P)
Double Bubble Sachet	1	(FL45Y)
Minicon Latch Hsng 3-way	1	(BX97F)

### Kit and Special Parts

A complete kit of parts (including the PCB and instruction leaflet) is available (excluding optional items). The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 48 XA48C, and instruction leaflet XK99H.

Retail Unit Price each (inc. VAT).

## 8 Channel Fluid Detector 1

Using the LM1830 fluid detector IC, this module will provide an indication of water level to eight demarcations over whatever range chosen, or water level in eight separate locations, or any combination of the two. Eight LED indicators form a visual display of fluid level, which can be made compatible with the location and meaning of the eight probes. Applications include monitoring level in water tanks, for the automatic switching of electric valves and pumps, car windscreen washer bottle 'low' warning, the watering of greenhouse plants; your imagination is the limit. Requires a 12V DC supply.

### Kit and Special Parts

Complete kit of all parts; pcb also available separately. Full construction details may be found in the Best of Maplin Projects Book 6 XC06G, and instruction leaflet XK71N. PCB dimensions: 79 x 63mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LK48C	8 Ch Fluid Dctr Kit	£17.010	£19.990

## K2639 Liquid Level Controller 2

Did you forget to turn off the tap? Is the washing machine leaking? Will the aquarium level go too low? Has the rainwater-but overflowed? Do you have water in the cellar? Just a minor mishap, or a disaster? You can avoid all this by installing the liquid level controller.

Power supply: 12 to 14V AC or 16 to 18V DC  
 Supply current: 100mA max.  
 Relay output: 50V/3A max.  
 Dimensions: PCB: 104 x 60 x 29mm  
 Sensors: 104 x 25 x 1.5mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VF11M	Velleman Kit K2639	£11.900	£13.990

## 1/300 Timer Module 1

- ★ Adjustable operating period
- ★ Wide supply voltage range
- ★ Low current consumption
- ★ Switches up to 500mA
- ★ LED output state indicator
- ★ Triggerable on negative or positive pulses

Based on the TLC555 timer IC, this 1/300 timer provides a switched output for an adjustable period of between approximately 1 second to 5 minutes. Applications include short duration 'time out' or auto switch off for devices such as lights and sounders after a set period. It can switch currents up to a maximum of 500mA making it ideal for driving relays, sirens, etc. A light emitting diode provides an indication of the output state.

Please note that the 1/300 timer is not a precision device and the operating times stated may vary due to component tolerances.

If in some applications it is necessary to switch higher voltages or currents than are possible directly, the module can be used to switch a relay which is suitable for higher power switching, and the open collector output makes the circuit ideal for operating relays.

Power Supply Voltage: 3V to 15V  
 Power Supply Current with no external load: 12mA Max at 12V  
 Maximum Load current: 500mA  
 Switch-on Period: Adjustable 1s to 310s Approx.  
 Input Trigger Positive & Negative Edge: ± Supply Voltage  
 PCB Dimensions: 57mm x 54mm

### Kit and Special Parts

A complete kit is available and the PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 38 XA38R, and instruction leaflet XU34M. PCB dimensions: 56 x 53.3mm.

Retail Unit Price each (inc. VAT).

XU34M	1/300 Timer Leaflet	£0.500	£0.500 NV

## K2579 Universal Timer 1

### Features

- ★ Push button Start/Stop
- ★ Adjustable time-out period
- ★ Single pole changeover relay (50V AC/DC @ 2A maximum)

### Applications

- ★ Control timer for dedicated equipment
- ★ Safety control timer

Nowadays, there are still many items of electrical and electronic equipment in the home, such as radios, tape recorders and amplifiers that do not

have a built-in timer and yet would benefit from one. For example, some bedside clock radios have a sleep control, which after activation allows the radio to play for a predetermined time, and allows the person to drift off to sleep without worrying about switching the radio off. This project would allow the same facility to be applied to devices that do not have one built in.

There are other applications for the Universal Timer, such as switching on equipment that is required to be left unattended, and yet be automatically, and safely, switched off.

### Specification

Power supply: +12V DC  
 Quiescent current: 11mA  
 Operating current: 40 to 61mA  
 Timer interval: several seconds to 15 minutes

### Mains Warning:

Note that mains voltages should not be directly switched by the relay on the PCB. If it is desired to switch mains, then a suitably rated relay controlled by the relay on the PCB should be used.

### Kit and Special Parts

A complete kit of parts (including the PCB) is available. Full construction details may be found in Maplin Magazine/Projects Book 86 XA86T, and instruction leaflet XV22Y.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VF06G	Velleman Kit K2579	£8.500	£9.990

## Clocks

## Micron III Rugby MSF Radio Controlled Clock 3

- ★ Displays time and date
- ★ Time set by Rugby MSF transmission
- ★ Time/date can be manually set
- ★ Clock will free run
- ★ Microcontroller controlled
- ★ Software calculates leap years
- ★ Tricolour LED status indicators
- ★ Uses Maplin Rugby Clock Receiver modules

With all the clocks in the modern home, on the Hi-Fi, video recorder, microwave oven, etc., probably all displaying slightly different times, it would be useful to have an accurate time reference, that will automatically set the time itself. Micron III, a Rugby MSF radio controlled clock, based on the PIC16C84 microprocessor, will decode the Rugby time signals received by the LP63T Rugby time receiver kit, and display both time and date simultaneously, making it different from the ordinary 'run-of-the-mill' timepiece.

Two tricoloured LEDs are included in the display to indicate the MSF data input and time status, to show if the clock has locked onto the MSF signal. The clock will also 'free run' in the event that the signal is lost due to the transmitter being off the air for maintenance or poor reception conditions, and will calculate all time data including the number of days in the month and leap years.

The MSF signal is a single-frequency transmission of 60kHz, modulated by on/off keying to convey the time information. A description of the code was given in the Rugby Clock Receiver project published in Electronics, Issue 47.

### Specification

Supply voltage: 12V nominal  
 Supply current (including receiver): 130mA approx.  
 Crystal frequency: 3-27696MHz  
 Free running accuracy (crystal frequency set as above): Better than 1 sec. in 24 hours.

**Rugby Clock Superhet Receiver**

**Features**

- ★ Superior superhet design
- ★ Single PCB construction
- ★ Positive- or negative-going standard serial data output
- ★ Integral antenna

**Applications**

- ★ Provides Rugby MSF time signal for synchronizing clocks
- ★ Can be added to the Micron III or practically any application requiring the MSF signal

This receiver module uses superheterodyne (superhet for short) techniques to provide a simple, stable design for the Rugby MSF transmissions. It is constructed on a single small printed circuit board, using partly surface-mount devices, and no screening can is required to maintain stability. The module can be used with the Micron III and similar Rugby Clock kits to provide data for the display electronics, and is a superior alternative to traditional TRF type receivers. The improvements in signal reception mean that this receiver is capable of picking up the Rugby MSF time signal in noisy environments or areas of low signal strength. This enables the use of self-regulating and highly accurate Rugby MSF clocks in locations where they normally would not operate successfully.

**Specification**

Operating voltage:	12V DC regulated
Operating current:	13mA (average)
Output signal:	TTL level, 5V
Bandwidth:	40Hz (Slow Code)/ 120Hz (Fast Code)

Operating range from transmitter (Rugby):	>1,000 miles (Slow Code reception)
---	---------------------------------------

PCB dimensions:	126.5 x 41.5mm
Maximum height of completed board:	20mm

**Optional Items**

The following optional items, not included in the kit, may also be required.

ABS Box Type BM11	1	(CC81C)
Tie-wrap 100	1	(BF91Y)

**'Rugby' MSF Receiver Modules**

**HKW-Electronic**

The following range of modules offers a number of clear benefits: Simple interface options to allow easy integration of accurate timekeeping into computers, test equipment, domestic goods, etc. A low cost solution using dedicated chips designed specifically to receive the Rugby MSF time signal. The advantage of modules over discrete solutions is that the modules include the necessary support electronics, tuned crystals, etc., and are preassembled, tested and in miniature form. Time is accurate to 1 second in 1,000,000. You can be confident that the time is always correct. Automatic correction for summer (BST)/winter (GMT) – no need for manual correction.

**Technical Data**

Full technical data is available on request and is also downloadable in Adobe® Acrobat® PDF format from the technical data archive area of the Maplin website:

<http://www.maplin.co.uk>

**EM2 MSF Receiver Module**

When combined with a suitable MSF Antenna (MK72P) the receiver module acts as a complete MSF time code receiver, providing a serial digital data output stream for external decoding. The receiver module EM2 contains a very sensitive 'straight through' receiver IC. The very tight bandwidth of about 10Hz, which is achieved by using a 60kHz crystal filter, guarantees good rejection of unwanted signals. The high impedance input of the module presents a very small load on the antenna thus maintaining its Q factor. The module has a low-power standby mode with maximum 1µA current consumption. In active mode the current consumption is less than 1mA, typically 500µA. Standby/active switching is under control of the active low PON input – this pin may be permanently tied to GND if continuous active operation is required. The module has a usable supply voltage range of +1.3V to +3.5V DC, typically +3V DC. Supply pins are +UB and GND. To maximise rejection of supply borne noise and minimise 60kHz pick-up, the positive supply to the module should be series connected through a 1kΩ resistor and decoupled with a 10µF electrolytic or tantalum capacitor immediately adjacent to the module. The MSF data output is connected internally with an active low open collector npn transistor – maximum sink current is 15µA, maximum collector voltage is +5.25V. An external 330kΩ pull-up resistor is suitable for use at +3V and 470kΩ at +5V. Full data available.

**EM2 MSF Receiver Module General Specification**

Dimensions:	25mm x 13mm x 12mm approx
Carrier frequency:	60kHz
Nominal operating voltage:	+3V DC
Operating voltage range:	+1.3V to +3.5V DC
Current consumption at	
+3V, active:	<1mA
standby:	<1µA
Operating temperature range:	0°C to +50°C
Settling time:	<3s
Sensitivity:	<1µV

Field strength required with given antenna:

Output:	>30µV.m <sup>-1</sup> Open collector npn transistor, active low
Maximum sink current:	15µA
Maximum collector voltage:	+5.25V
Pulse duration,	
0:	80ms to 135ms
1:	180ms to 235ms

**MSF Antenna**

This prealigned LC tuned ferrite antenna is specifically designed for use with the EM2 MSF Receiver Module (MK68Y). At a distance of 500km from the transmitter, the field strength is likely to be approximately 1mV.m<sup>-1</sup>, giving an output voltage of approx 80µV. The receiver requires only 1µV for good signal demodulation. From this it can be seen that the sensitivity of the antenna-receiver combination depends almost completely on the signal-to-noise ratio at the reception site, not the absolute output voltage from the antenna. Specifically, close proximity to 'radiating' digital equipment, such as desktop PCs, etc., should be avoided as this will degrade the signal-to-noise ratio. Full data available.

**MSF Antenna General Specification**

Dimensions:	60mm x 13mm (max)/10.5mm
Nominal operating frequency:	60kHz
Resonant frequency:	60kHz ± 300Hz
Bandwidth (-3dB):	<700Hz
Sensitivity:	>8µV output voltage with 100µV.m <sup>-1</sup> field strength

**MCM-RS232 Microcontroller Decoder Module**

When combined with the EM2 MSF Receiver Module (MK68Y) and the MSF Antenna (MK72P), this module provides time information in standard RS232 data format via a serial interface. External buffering to full RS232 levels is required and can be achieved using a proprietary RS232 level shifter IC and a handful of discrete devices. The advantage of the module compared to direct host decoding of the receiver output is the presence of exact decoded time information all of the time and no processing overhead. The module also features a switch output. Switch on and off times can be set by the host computer. If the switch output is connected to a suitable mains switch (e.g., Mains Power Switch, LU10L), ancillary equipment can be controlled. The host computer could turn even itself on and off by setting the appropriate switch on and switch off times. Full data available.

**MCM-RS232 General Specification**

Dimensions:	22mm x 13mm x 5mm approx
Nominal operating voltage:	+3V DC
Operating voltage range:	+2.4V DC to +3.6V DC
Current consumption at	
+3V, active:	<1mA
standby:	<50µA
Operating temperature range:	-20°C to +80°C
Inputs:	MSF data input (from EM2), Serial data input (from host PC)
Outputs:	Power control output (for EM2), Switching output (for external time control), Serial data output (to host PC)

## Small Clock Module FM-882

A compact digital clock module that uses a quartz crystal to provide an accuracy of  $\pm 15$  seconds per month. Four digits show hours and minutes for a 12 hour period with AM and PM indicators. Operates from one GE-13 silver oxide button cell (FM28F) and draws a maximum of 5.5 $\mu$ A, which results in a battery life of approximately one year. The clock has an integral flanged bezel and can be snapped into a panel. Makes an ideal small, low-cost and accurate digital clock suitable for a wide range of applications.

### Specification

Digit height:	10mm
Oscillator frequency:	32.768kHz
Accuracy:	15s/month
Operating voltage range:	1.2V to 1.8V
Battery life:	1 year approx.
Dimensions	
panel cut-out (body):	45 x 25mm
depth:	15mm
bezel:	49 x 29mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YU49D	Clock Module	£3.990	£4.690

## Wireless Clock Module

A compact analogue clock movement that incorporates a miniature radio receiver to decode the Rugby MSF time-code transmissions. Once locked to the transmission, the module is extremely accurate. Supplied with hour, minute and second hands. Finished in black. Requires one 'AA' battery (not supplied). Dimensions of module (not including hands) 55 x 55 x 17.5mm.

### Overall length of hands

hour:	77mm
minutes:	120mm
seconds:	120mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RU89W	Wireless Clock Module	£21.260	£24.990

## Quartz Clock Movement

A standard basic quartz clock movement as described above. The movement is supplied without hands but uses the separate hands shown on the

next page. Time is set with a knob on the back. Movement is attached to face with a threaded brass boss having a shouldered brass collar nut.

### Specification

Crystal freq:	32.768kHz
Accuracy @ 22°C:	$\pm 0.45 \pm 0.55$ s/day
Operating voltage:	1.3 - 1.65V DC
Operating temperature:	-10°C to +60°C
Average current:	<150 $\mu$ A @ 1.5V
Battery life:	$\approx 1$ year
Dimensions:	55 x 55 x 17mm

Mounting boss:	8mm dia. clear
Hole dia. for collar:	10mm dia. clear

Retail Unit Price each (inc. VAT).

YU49D	Clock Module	£3.990	£4.690

## Analogue Clock Hand Sets

Three sets of plastic hands of different designs which can be used with both the standard quartz movement and the chimes movement overleaf. The hours and minutes hands are black, the second hand is red for each set.

Length from centre pivot (mm):

	Hour	Minute	Second
Type 1	53.75	80.0	80.0
Type 2	70.0	94.0	94.0
Type 3	45.0	66.0	66.0

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YU74R	Clock Hands Type 1	£0.255	£0.300
YU75S	Clock Hands Type 2	£0.255	£0.300
YU76H	Clock Hands Type 3	£0.255	£0.300

## Table Alarm Clock Movement

As standard quartz movement above but including an alarm function, and a special set of four hands, one of which is a set alarm time indicator. The alarm sounds where the hour hand aligns with the alarm set hand. Separate set time and set alarm knobs are provided on the back with an alarm on/off switch. The separate hands below will not fit this movement as the mounting pivots are of different diameter. Also unlike standard movement, alarm version has no central mounting boss and instead is provided with two mounting holes through the case; fixing centres 49mm x 8BA/M2 clear.

### Specification

As those for standard movement except -	
Operating voltage:	1.3 to 1.7V DC
Operating current:	<85 $\mu$ A @ 1.5V
Alarm current:	<8mA @ 1.5V
Alarm volume:	>80dB @ 10cm
Alarm duration:	35 min. $\pm$ 20 min.
Alarm time accuracy:	$\pm 5$ min.
Operating temperature:	-10°C to +50°C
Dimensions:	52 x 55 x 23mm

Lengths and colours of hands, measured from centre pivot:

Hour (black with a luminous stripe):	19mm
Minute (black with a luminous stripe):	26mm
Second (red):	26mm
Alarm set (yellow):	20mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YU67X	Alarm Clock Module	£4.240	£4.990

## Counters

### Counter Module

An electronic Counter Module with 5-digit LCD display. The display increases by 1 every time a positive-going edge is applied to pin 3. A reset is available, and a tone output which can drive a piezo sounder directly and bleeps on every count and on reset. Square wave outputs at 512Hz and 32768Hz are also provided.

### Specification

Working voltage:	1.5V DC
Current:	2 $\mu$ A standby 8 $\mu$ A average when counting
Count range:	00000 to 99999 (resets to 00000 after count 99999)
Max. input frequency:	7Hz
Input voltage range:	1V to 1.5V
Min. duration pulse:	<100 $\mu$ s
Overall size:	68 x 35 x 24mm

A plastic bezel (FE35Q) is available for use with this module, size 68 x 35mm and increases the overall depth of the module to 27mm. The module requires a 1.5V AA cell (not supplied).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FS13P	Counter Module	£8.500	£9.990

## Development

### Infra-Red Switch

### Features

- ★ Low cost
- ★ High sensitivity
- ★ High immunity to spurious triggering
- ★ Changeover relay output
- ★ Flexible power supply requirement

### Applications

- ★ Alarm systems
- ★ Production lines
- ★ Home automation

Have you ever wondered how the hot-air hand driers in public conveniences work? You place your wet hands under the drier and it starts up - withdraw them and it stops. It's magic - or is it? In

fact, what you are experiencing is yet another application of infra-red energy. Radiation from an infra-red source (generally an LED) is reflected off your wet hands and is picked up by a sensor, which subsequently operates the drier.

Infra-red switches are often found in hot-air hand driers but they can equally be used for operating light switches (with the aid of LP55K opto-switch), or solenoid water valves in scrub rooms, turning on a shower when you step into it, an automatic doorbell, part of a production run counter on assembly lines, or even a reverse-parking radar. The number of applications is endless. The Maplin infra-red switch has three possible modes of operation – toggle, momentary, and only when infra-red energy is being detected. The basic operation of an infra-red proximity switch is quite simple. The energy produced by an infra-red source is reflected, by the object to be detected, to a sensor. The output from the sensor is amplified, filtered and used to drive an external circuit. Many natural and everyday objects emit infra-red radiation, and if the detector circuit was a 'straight' one, spurious triggering from these sources would result. However, this problem is overcome by relying on a 5kHz stream of infra-red pulses (thankfully rare in nature!), rather than the continuous presence of radiation. The 5kHz pulse train is generated by a LM567 tone decoder (a form of phase-locked loop, PLL for short), and is used to drive the infra-red LED. The 5kHz infra-red pulse train, when reflected by an incident object, is received by an infra-red photodiode, and is then amplified and filtered. The processed pulse train is then fed back into the tone decoder, which senses that they are of the same frequency as those it is generating, and flags an output to that effect. This output is used, with additional circuitry, to switch a relay.

**Specification**

Quiescent current: 12mA  
Operating current: 46mA  
Supply voltage: 12V DC, 9V AC or 9V-0-9V AC  
PCB size: 65mm x 50mm

**Optional Items**

The following items, not included in the kit, may also be required.

**Multi-Purpose 555 Timer Card**

**2**

**Features**

- ★ Up to 11 configurations
- ★ Monostable or astable operation
- ★ Single PCB construction
- ★ Uses the popular 555 IC (NE555 supplied)

**Applications**

- ★ Timer circuits
- ★ Pulse width modulation
- ★ Square-wave generation
- ★ Reset pulse generation and watchdog circuits for microprocessors
- ★ Experimentation and circuit development
- ★ Education

The 555 timer IC has been around since the early 1970s, and can be found in many circuits. Configurable as a monostable or an astable multivibrator, it can be used in many applications – for example, precision timing, pulse generation, sequential timing, time delay generation, pulse width modulation, pulse position modulation, missing pulse detection and oscillators. 'Real world' uses for the 555 therefore include logic pulsers, DC-DC converters, alarm systems, servo controllers and remote control systems. This general-purpose 'building block' project allows such circuits to be built up around this versatile 8-pin IC. The PCB is designed to incorporate all of these possible variations, by simply fitting components or wire links where required for a particular configuration.

**Kit and Special Parts**

A complete kit of parts (including the PCB) is available. The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 69 XA69A, and instruction leaflet XU23A.

**LM2917N Frequency to Voltage Converter**

**National Semiconductor**

This 14-pin DIL IC is extremely easy to use since  $V_{OUT} = F_{IN} \times V_{CC} \times VR1 \times C2$  where VR1 is the resistance between pin 3 and ground and C2 is the capacitor (in Farads) between pin 2 and ground. Features include ground referenced tachometer whose input interfaces directly with magnetic

variable reluctance pick-ups; 2917 op-amp comparator with floating relays, solenoids, meters or LEDs etc; frequency doubling with low ripple; tachometer with built-in hysteresis for either differential or ground referenced input; built-in zener for accurate and stable frequency to current conversion and linearity typically  $\pm 0.3\%$ . Applications include over/under speed sensing, tachometers, speedometers, breaker point dwell meters, hand-held tachometers, speed governors, cruise control, touch or sound switches etc.

## Multi-Purpose 741 Op-Amp Card

2

### Features

- ★ Up to 16 op amp configurations
- ★ All the basic op amp functions plus sine and square wave generators
- ★ Single PCB construction
- ★ Uses the popular 741 IC

### Applications

- ★ Any AC or DC analogue processing
- ★ Control signal processing
- ★ Audio applications
- ★ Signal generation
- ★ Adding, summing, integration, etc.

This general-purpose building block project allows for a number of different op-amp configurations, and uses the industry standard 741 device. The accompanying PCB is designed to incorporate all these possible variations, by simply fitting components or wire links where required for a particular configuration. The various configurations which can be achieved with this module are: Buffer, Half Supply Generator, Non-Inverting DC Coupled Amplifier, Non-Inverting AC Coupled Amplifier, Inverting DC Coupled Amplifier, Inverting AC Coupled Amplifier, Inverting Summing Amplifier, Non-Inverting Summing Amplifier, Differential Amplifier, A basic integrator, The differentiator, Sine Wave Wien-bridge Oscillator Basic Schmitt Trigger, Square Wave Schmitt Trigger Oscillator. There is the option to add bandwidth limiting to the inverting and non-inverting amplifiers.

### Kit and Special Parts

A complete kit of parts (including the PCB) is available. The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 68 XA68Y, and instruction leaflet XU22Y.

Retail Unit Price each (inc. VAT).

Order Code	Type 3355	Price each exc. VAT	inc. VAT each
LT33L	Op Amp Proto Card	£8.500	£9.990
GH51F	741 Op Amp Proto PCB	£2.970	£3.490
XU22Y	Op Amp DIF Lft	£0.800	£0.800 NV

## TLC548 8-Bit Analogue-To-Digital Converter

2

### Features

- ★ Cost effective with high performance
- ★ Low power consumption
- ★ Conversion time 17µs (max)
- ★ Differential reference input voltages

### Applications

- ★ Interface sensors to the PC Weather Station
- ★ 8-bit resolution Analogue-to-Digital converter
- ★ Serial interface with tri-state data output

The TLC548 is a very powerful IC, suitable for a multitude of tasks, and is based on an 8-bit, successive approximation sample-and-hold, Analogue-to-Digital (A-to-D) converter, which makes

8-bit A-D conversion easy, cost effective and usable. The device is capable of up to 45,500 conversions per second, and needs only one external control signal. The specially designed PCB can be tailored for any task within the IC's specification, but the module was developed mainly for use with the PC Weather Station project. The IC is a complete data acquisition system on a single chip, designed for serial interfacing with a microprocessor or computer via a tri-state, TTL compatible data output port and an analogue input port. It includes versatile control logic and on-chip sample-and-hold that can operate automatically or under microprocessor control. Voltage requirements for the IC are between +3V and +6V DC with, typically, a low power consumption of 6mW.

The differential high impedance reference inputs provide circuit isolation from logic and supply noise. The analogue input can be any voltage within the range of 0 to 5V DC; the corresponding digital output is a value between 0 and 255, proportional to the input voltage. The kit instructions include details of applications for a light sensor, temperature sensors and potentiometer position sensor. Details for an external clock oscillator circuit, which is required if the module is not used with the PC Weather Station project, is also given. In addition, modules can be cascaded using a 'master/slave' system (the 'master' board has the clock and power supply connected). Up to eight modules can be used in this way, but you will need suitable multi-way inputs, such as the 24-Line I/O Expansion kit (Order Code LP12N). An ABS box type MB1 (Order Code LH20W) can be used to house up to three TLC548I boards.

### Optional Items

300mA Unregulated AC Adaptor	1 (XX09K)
ABS Box MB1	1 (LH20W)

### Kit and Special Parts

A complete kit of parts, including the PCB, is available (but excluding optional items). The PCB is also available separately. Full construction details may be found in Maplin Magazine/Projects Book 75 XA75S, and instruction leaflet XU56L. The Maplin 'Get-You-Working' Service is not available for this project.

XU56L	TLC548I A-to-D Lft	£0.800	£0.800 NV

## ICL8038CCPD Waveform Generator

Harris

A 14-pin DIL IC capable of producing sine, square, triangular, sawtooth and pulse waveforms of high accuracy and stability. The frequency may be selected to be from 0.001Hz to 1MHz, Frequency modulation and sweeping can be accomplished with an external voltage and the frequency can be programmed digitally by resistors or capacitors. Sweep range can be up to 40:1 or 1000:1 with a little less quality.

The circuit shows a sine, triangle and square wave generator. SW1 is the range switch, SW2 sets the waveshape, VR4 sets the output level and VR3 is the frequency control. VR1 and VR2 should be adjusted to give minimum distortion of sine wave.

### Specification

Supply voltage:	5-0.5V to 10-0.10V (e.g. 2 x PP3 batteries)
Output impedance:	600Ω
Output levels max peak-to-peak:	( $V_S = 7.5-0.7-5V$ )
sinewave:	3V
triangle:	5V
square:	12V

### Distortion sinewave

<10kHz:	<1%
10kHz to 100kHz:	<4%
100kHz to 200kHz:	<7%

### Linearity triangle

<40kHz:	<0.1%
40kHz to 100kHz:	<1%
100kHz to 200kHz:	<8%

### Square Wave

	Rise time	Fall time
<100kHz	2µs	2µs
100kHz to 200kHz	1µs	1µs

### Frequency range

Range 1:	10Hz to 400Hz
Range 2:	100Hz to 4kHz
Range 3:	1kHz to 40kHz
Range 4:	6.25kHz to 200kHz

## LM3914/5/6N Bargraph

See Stock Code Index For More Price Breaks

## Displays

### National Semiconductor

An LED driver that will sequentially light ten LEDs when a gradually increasing voltage is applied to pin 5, (dot mode) or in bar mode all LEDs indicating voltages below input are lit. In dot mode there is a slight overlap so that at no point are all LEDs extinguished. A brightness control will set LED current between 2mA and 30mA. The drivers are stackable and displays with 100 or more LEDs are possible. Supply voltage 3V to 18V. The driver that sets the indication points can be referenced to a wide range of voltages.

Three different chips are available:

- LM3914: linear steps
- LM3915: 3dB steps (logarithmic scale)
- LM3916: VU scale (e.g. -10dB, -7dB, -5dB, -3dB, -1dB, 0dB, 1dB, 2dB, 3dB)

A pcb is available for use with these ICs and information on how to construct and set up this pcb along with circuits and applications can be found in the Maplin Best of Projects Book 6 (XC06G) See end of Projects and Modules section for details.

## PIC Project Board Software Pack

- ★ Contains software for five different projects
- ★ Software and flowcharts included
- ★ Possible software modifications explained

The software projects in this pack are intended to be used with the Project Board to assist in the learning process. Each project comprises of a flowchart and ready written software (provided on 3.5in. HD disk only, for PC-AT compatibles and PIC assembler programs). Projects provided are: a timer counting in one second intervals, an A/D converter displaying in binary on LEDs, a two channel A/D based temperature sensor, a signal generator and electronic dice with sound effects. Please note that

the components and PCB shown are not included (See Project Board).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GT03D	PIC Software Pack	£12.720	£14.950

## PIC Starter Kit 54/55

### Bluebird Electronics

- ★ Contains a ready made PCB
- ★ Includes components to get PIC's running
- ★ Kit 54 Works with 16C54/56/58/61/71/84
- ★ Kit 55 Works with 16C55/57

The hardware starter kit is intended to get PIC based projects up and running in a fraction of the time it takes to build a circuit from scratch. Once the board construction is completed, software development can begin in the sure knowledge that the hardware core is functional. A suitable programmer for use with this board is the PICSTART 16B1 (order as DM 79L) and the user will need some reprogrammable version of the chosen PIC for development purposes

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GT01B	PIC Hardware Kit 54	£19.560	£22.990
GT02C	PIC Hardware Kit 55	£21.260	£24.990

## PIC Project Board and Software

### Bluebird Electronics

### Project Board

- ★ Contains circuit diagrams, PCB layout, etc.
- ★ Ready made PCB includes battery holder
- ★ Includes all project components (except PIC)
- ★ PIC programming and pinout date included
- ★ Works with 16C54/56/71/84 Software
- ★ Contains five different projects
- ★ Software and flowcharts included
- ★ Wiring instructions on disk supplied
- ★ Possible software modifications explained

The PIC Project Board is intended to show how the PIC Microcontroller works and how to interface it with the outside world. The board is supplied in a pack containing approximately 50 components including LEDs and a miniature sounder to monitor outputs as well as switch and potentiometer input components. A suitable programmer for use with

this board is the PICSTART 16B1 (order as DM79L). The user will need some reprogrammable versions of the chosen PIC for development purposes.

The software pack supports the Project Board and details five possible applications, which will help to understand PICs. Projects include a timer counting in one second intervals; an A/D converter displaying in binary on LEDs; a two channel A/D based temperature sensor; a signal generator and electronic dice with sound effects. The five projects provide a flowchart, ready written software (provided on 3.5in. HD disk only, for PCs with PIC assembler programs) and wiring information. Please note the Software Pack is not supplied with the Project Board.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GT03D	PIC Software Pack	£12.720	£14.950
GT04E	PIC Project Board	£19.560	£22.990

## PIC 16C84 Programmer

### Features

- ★ Low cost
- ★ Provision for optional ZIF socket
- ★ Visual indicators for power and programming state to PIC chip

### Applications

- ★ Experimenters and hobbyists
- ★ Development of PIC-based projects and circuits
- ★ Educational establishments

This PIC 16C84 Programmer is designed to provide a very low cost introduction to DIY programming of the versatile range of PIC 16C84 microcontrollers (see Semiconductors section for full range), opening up enormous possibilities for the development of PIC-based projects, as well as being highly educational. The programmer uses a standard TTL connection to an available 'Centronics' printer port on the computer, and is supplied complete with programming software on a 3.5in. floppy disk. Further software supporting this design is freely available on the Internet.

### Specification

Operating voltage:	15 to 25V DC unregulated
Average current consumption:	25mA (during programming)
PCB dimensions:	119 x 57mm
Box dimensions:	130 x 68 x 46mm
Minimum host computer specification:	286 IBM-compatible PC

### Optional Items

The following items, not included in the kit, may also be required.

32-pin Turned Pin Socket	1	(KW69A)
Universal ZIF Socket	1	(JK75S)
D25P/D25P Lead	1	(JC12N)
AC Adaptor 300mA	1	(XX09K)
IC Lead Straightening Tool	1	(KU42V)
IC Extraction Tool	1	(FD54J)
IC Insertion Tool	1	(FR25C)
ESD Wrist Strap	1	(FE29G)

### Kit and Special Parts

A complete kit of parts (including the PCB and panel) is available (excluding optional items). The PCB and panel are also available separately. Full constructional details may be found in Maplin Magazine/Projects Book 105 XD05F, and instruction leaflet XZ25C.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LL29G	PIC 16C84 Programmer	£17.010	£19.990
GJ74R	PIC 16C84 Progrmr PCB	£7.650	£8.990
KV22Y	PIC 16C84 Progrmr Lbl	£2.110	£2.490
JP13P	PIC Programmer Disk	£2.540	£2.990
XZ25C	PIC Programmer Ltr	£0.800	£0.800 NV

## Ultrasonic Ranging System

**Polaroid**

An ultrasonic ranging system which uses a unique electrostatic transducer to generate a short burst of high-frequency sound. The sound travels out from the transducer in a narrow cone and reflects back to it from objects in its path. The same transducer is then used to receive this reflected sound energy and convert it into an electrical signal. Separate PCB modules, three various transducers and a 'designer kit' are available separately.

### System and Module

The ranging module contains all the necessary components to generate the drive signal for the transducer, control timing functions, receive, amplify and filter the returned echo, and then process this signal to provide a step function (pulse) output at the time of the received echo. Knowing the speed of sound in air, and the time interval between the transmit signal and the received echo as provided by the ranging module, then the distance between the transducer and the target can be computed with additional circuitry. The system automatically increases the receiving amplifier gain and decreases the bandwidth with time to compensate for signal losses over the distance range of 0.26m to 10.7m (0.9ft. to 35ft.). To minimise the system's susceptibility to noise pick-up, a signal integration scheme is employed before the system locks onto an echo. Once the threshold level is reached, a signal is generated to indicate a received echo. The logic levels for both the transmit signal and the received echo can be used to perform control functions or to calculate distance to the object with a minimum of additional circuitry. Inventors and design engineers are finding that the system provides a flexible, cost-effective addition to a growing list of detection and distance measuring applications. These include level measurement in grain silos and liquid tanks, vehicular proximity detectors for lorries, cars and agricultural machinery, security systems, robotics, industrial controls, electronic 'tape measure', machine safety shut-off if operator comes too close to moving parts, and automatic light switching for energy conservation and aids for the disabled.

**Note:** The module is not supplied with a transducer; this must be purchased separately.

#### Specification

(Instrument grade transducer used)

Distance range: 0.26 to 10.7m (0.9ft. to 25ft.)  
Resolution entire range: ±1% over ±3mm to 3m (±0.12ft. to 10ft.)

Beam angle typical @ 3dB down: 12°

Transducer drive signal, Gated sinewave: 50kHz  
Duration: 1-1ms

Power supply requirements, Voltage: 6V DC (4.8 to 6.8V)  
Current: 150mA quiescent, 2.5A for 1ms max.

Manufacturer's Code: PID 615077

Retail Unit Price each (inc. VAT).

AV59P	PID 603972	£126.800	£149.000

## Electrostatic Transducers Instrument Grade Transducer

This electrostatic transducer is specifically intended for operation in air at ultrasonic frequencies. The assembly comes complete with perforated protective cover.

#### Specification

Usable transmitting frequency range: 50 to 65kHz  
Usable receiving frequency range: 55 to 65kHz  
Minimum transmitting sensitivity @ 50kHz: 110dB (300V AC pk-pk, 150V DC bias)

Minimum receiving sensitivity @ 50kHz: -42dB (150V DC bias)

Recommended bias voltage: 150V DC

Recommended AC driving voltage: 150V peak

Maximum combined voltage: 400V  
Capacitance at 1kHz: 330pF to 410pF (150V DC bias)

Operating conditions Temperature: -30°C to 70°C (-20°F to 160°F)

Relative humidity: 5% to 95%

Standard finish: Gold

Foil: Flat black cold rolled steel

Housing: 8-2g

Weight: 43 dia. x 12mm deep

Manufacturer's Code: PID 604142

## Environmental Grade Transducer

This environmental grade ultrasonic transducer is specifically intended for open air use. The assembly comes complete with an integral protective cover.

#### Specification

Usable transmitting frequency range: 50 to 63kHz  
Usable receiving

frequency range: 55 to 65kHz  
Minimum transmitting sensitivity @ 50kHz: 110dB (300V AC pk-pk, 150V DC bias)

Minimum receiving sensitivity @ 50kHz: -42dB (150V DC bias)

Recommended bias voltage: 150V

Recommended AC driving voltage: 150V peak

Maximum combined voltage: 400V

Capacitance at 1kHz: 400pF (150V DC bias)

Operating conditions Temperature: -30°C to 70°C (-20°F to 160°F)

Relative humidity: 5% to 95%

Standard finish: 24k gold on kapton film

Foil: 304 stainless steel

Housing: 8-2g

Weight: 43 dia. x 12mm deep

Manufacturer's Code: PID 607281

## E7000 Series Transducer

The 7000 electrostatic transducer is specifically intended for operation in air at ultrasonic frequencies. The assembly comes complete with a perforated protective cover.

#### Specification

Usable transmitting frequency range: 45 to 70kHz  
Usable receiving frequency range: 50 to 65kHz  
Minimum transmitting sensitivity @ 50kHz: 106.9dB (300V AC pk-pk, 150V DC bias)

Minimum receiving sensitivity @ 50kHz: -43.4dB

Recommended bias voltage: 150V

Recommended AC driving voltage: 150V peak

Maximum combined voltage: 400V

Capacitance at 1kHz: 410pF (150V DC bias)

Operating conditions Temperature: 0°C to 60°C (32°F to 140°F)

Relative humidity: 5% to 95%

Standard finish: Gold on kapton film

Foil: Flat black plastic

Housing: 4.6g

Weight: 29 dia. x 11mm deep

Dimensions: PID 612366

Retail Unit Price each (inc. VAT).

**GPS Development System 2**

**Features**

- ★ Simple construction
- ★ Robust design
- ★ Inexpensive GPS system
- ★ Direct connection to personal computers and portables
- ★ Simple 12V power requirement for cars and boats
- ★ Direct command and control from BASIC and programs

**Applications**

- ★ Development platform for all mobile GPS
- ★ Car, boat and hand-held applications
- ★ 'One-off' development

**Introduction to GPS**

Since the first GPS satellite was launched in the 1970s, the system is now fully in place. As a result most of the Earth's surface is adequately covered by a 'web' of satellites. This provides accurate positioning by anyone using the right receiving hardware. GPS uses both the hyperbolic time-delay system of ranging, similar to LORAN, combined with the doppler shift system of Transit to give an accurate position based on the range from the satellites to the user. Tracking three satellites gives an accurate two-dimensional position, but when four satellites are in view, an accurate user height can be determined and the fix can be refined to give a few centimetres.

**The Motorola GPS Receiver**

An ideal system for either a hobbyist or a professional developer who wants to use GPS in their own system (hand-held, mobile, etc.) would be a complete receiver and decoder in a small and relatively inexpensive package. Well, Motorola have done all of the hard work and produced a complete GPS receiver on a single-board! Not only that, they have also produced an antenna to complement the system, with mounts for vehicle, boat or fixed use.

**VP Oncore**

The latest offering from the Motorola GPS range is the VP Oncore receiver. It is small (50 x 82 x 12mm), lightweight (51g) and has excellent performance characteristics. The module is ready-built and fully tested. In addition to its superior tracking capability (8 simultaneous satellites) it has superb acquisition and reacquisition capabilities that make it ideal for use in typical mobile and hand-held environments.

**Antenna**

The Active Antenna Module supplied by Motorola is a microstrip patch design and its hemispherical coverage ensures excellent full sky coverage above the horizon whilst alleviating ground-reflected multipath effects.

**GPS Development Kit**

The aim of the Development kit is to provide a protective housing for the VP Oncore receiver board, and to provide a standard power and RS232 serial interface, so that anyone with an interest can link a personal computer to the receiver and develop their own applications – or even just use it as a standalone navigational aid with a laptop computer.

**Specification**

**Electrical characteristics**

(Receiver (Rx) only)

Power supply: 5V ±0.25V DC @ 50mV ripple max.

Power consumption: 1.1W @ 5V

NVR backup power – 15µA typ., 60µA max.

3V on-board battery: 2.5V to 5.25V DC,

External: 15µA typ. 60µA max.

**Physical characteristics**

Dimensions, Rx module: 50.8 x 82.6 x 16.3mm

Active antenna module: 102(dia.) x 22.6mm

Weight, Rx module: 51g

Active antenna module: 136.2g

**Connectors**

Data/Power: 10-pin unshrouded header (on 0.1in. centres)

RF: Right Angle OSX (subminiature snap-on)

Rx to antenna connection: Single coax (for active antenna: 6dB max. loss at L1; 1575-42MHz)

Environmental characteristics

Operating temperature: -30C to +85C

Humidity: 95% non-condensing (+30C to +60C)

Altitude: 60,000ft. (18km) max. or >60,000ft. (18km) for velocities <1000 knots

**General characteristics**

Rx. Architecture: 8-channel

L1: 1575-42MHz

C/A code: 1-023MHz (chip rate), Carrier aided tracking (Code plus carrier Tracking)

Tracking capability: 8 simultaneous satellite vehicles

**Performance characteristics**

Dynamics –

Velocity: 1000kts (515m/s) (>1000 kts @ <60,000ft.)

Acceleration: 4g

Jerk: 5m/s<sup>3</sup>

Acquisition time (TTFF): 20 seconds typical (with current almanac, position, time & ephemeris) 45 seconds typical (with current almanac, position and time) 2.5 seconds typical reacquire

Positioning accuracy: <25m (without SA\*) <100m (SA on\*)

DGPS Accuracy: 1 to 5m typical

Timing Accuracy: 130ns observed (1 sigma) with SA on. In position hold mode: <50ns observed (1 sigma) with SA on.

Antenna: Active Microstrip Patch Antenna Module, powered via coax cable from Rx (5V @ 25mA)

Passive antenna options: 49 standard; 2 user defined.

Datums, default: WGS-84

Serial communication input control and output messages: Latitude, longitude, height, velocity, heading, time, satellite tracking status (Motorola binary protocol).

Selected NMEA-0183 Version 2.00 format outputs available.

S/W selectable output rates (continuous or polled).

Extensive command & control messages.

TTL Interface.

**GPS Development Kit** (with Rx and Active Antenna Module fitted)

Power supply voltage: 8 to 16V DC

Power supply current: 240mA (max.) with active antenna 220mA (max.) without active antenna

Power Connector: 2.1mm power socket

Serial Interface: RS232 9,600 baud (max.)

Serial connector: 9-way D-type (DCE) (baud rate depends on operating mode selected, but power up default using Motorola Binary Format is 9600bd)

1PPS timing signal: +VE DC pulse; measured at leading edge

Timing connector: 3-pin mini-DIN

**Optional Items**

The following optional items, not included in the kit, may also be required.

Motorola Oncore GPS Module (Real Time Clock and Back-up Battery) 1 (DT05F)

GPS Antenna Module 1 (DT06G)

Antenna Vehicle Magnetic Mount Kit 1 (DT07H)

or Antenna Vehicle Fixed Mount Kit 1 (DT08J)

or Antenna Non-Mobile Post Mount Kit 1 (DT09K)

or Antenna Marine Mast Mount Kit 1 (DT10L)

Rubber Feet 1 Pkt (XR93B)

Serial Cable 1 (DD48C)

12V DC Mains Adaptor PSU 1 (YB23A)

GPS Oncore User's Guide 1 (DT11M)

GPS Oncore Software Command Manual 1 (DT12N)

**Kit and Special Parts**

A complete kit of parts (including the PCB and the Front Panel Label) is available (excluding optional items). The PCB and Front Panel Label are also available separately. Full constructional details may be found in Maplin Magazine/Projects Book 97 XA97F, and instruction leaflet XV71N.

## Disco & Stage Lighting

### Lasers

#### Laser Tube and PSU 3

KTE

- ★ Helium-neon laser tube with 2mW output power
- ★ 1.8kV power supply with high ignition voltage
- ★ Protective aluminium case for tube and PSU
- ★ 240V AC operation

Lasers are capable of producing holograms where a recorded pattern of interference fringes produces a three dimensional image. Laser light is also used in discos and displays as well as finding educational and scientific applications in schools and laboratories. The helium-neon laser emits a randomly polarised, 632.8nm wavelength red light, at a low 2mW power output level which makes it completely safe provided the light beam is not directed into the eye. Staring directly into the beam may well result in damage to the retina and must be avoided at all costs. However, the laser is incapable of cutting or drilling and will not burn when directed at the skin. The glass envelope is protected by an aluminium tube and all electrodes are terminated with high voltage insulated cables and plugs. The power supply uses high voltage rated components, transformer and PCB to generate both the ignition strike voltage of 8kV and the continuous running voltage of 1.8kV at 5mA. It is recommended that the PSU be powered up only when fitted with the laser tube and assembled into the metal case provided, otherwise voltages in excess of 10kV may be generated and these are liable to arc over.

#### Kit and Special Parts

A complete kit and the ready-built version are available. Full construction details may be found in Maplin Magazine/Projects Book 29 XA29G.

Retail Unit Price each (inc. VAT).

Order Code	Type 3548	Price each exc. VAT	inc. VAT each
LM72P 4	Laser & PSU Kit	£110.620	£129.990
XM140 4	Laser & PSU Assmbld	£170.200	£199.990

### Stroboscopes

#### Xenon Flash Tube Driver 2

A driver module using the Xenon flash tube described in the Opto-Electrical section of this catalogue. The trigger transformer is energised by the capacitive discharge method, while power for the tube is derived from a variable frequency inverter developing EHT up to 1kV. Applications are varied, including slave flash for photography, warning beacon, strobe and special lighting effects. Trigger source may be either from an on-board clock for strobe, or external switching. A neon indicator lights when the module is ready for the next flash.

#### Kit and Special Parts

A complete kit is available and the PCB is also

available separately. Full construction details may be found in the Best of Maplin Projects Book 6 XC06G, and instruction leaflet XK70M. PCB dimensions: 106 x 68mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3548	Price each exc. VAT	inc. VAT each
LK46A 1	Xenon Tube Drive Kit	£13.600	£15.990
GB61R	Xenon Tube Dr PCB	£2.970	£3.490
XK70M	Xenon Driver Leaflet	£0.500	£0.500 NV

#### K2601 - Stroboscope Module 3

#### Features

- ★ Single PCB module
- ★ Simple construction
- ★ Uses high-speed flash tube

#### Applications

- ★ Discotheque style lighting effects
- ★ Photographic special effects
- ★ The study of fast moving objects
- ★ Lighting effects for theatrical productions

This stroboscope has an adjustable flash rate from 2 to 20Hz. On the practical side this strobe has many fascinating possibilities. With the aid of a strobe light, a falling drop of water becomes 'visible'. This is because it appears to be stationary every time the strobe flashes. The strobe can also be used to imitate the bright flashes of lightning, which would be useful for theatrical productions. For the car enthusiast it could be pressed into service for checking the ignition timing. It would need to be powered from a suitable HT inverter and provided with the necessary input triggering.

#### Specification

Power supply: 220 to 250V AC  
Average current consumption: 60mA at 20Hz, 370mA peak  
Flash frequency: 2 to 20Hz

#### Optional Items

The following items, not included in the kit, may also be required.

Pin 2145	1 Pkt	(FL24B)
Clear Waterproof Box	1	(YM93B)
Insulated Spacer M3 x 25mm	1 Pkt	(FS39N)
Knob K7B	1	(YX02C)
Heat Shrink Sleeving CP32	1	(BF88V)
Fuseholder 32mm (1 1/4 in.)	1	(FA39N)
Fuse 100mA 32mm (1 1/4 in.)	1	(WR08J)
Fuse Holder Insulation Boot	1	(FT35Q)
Grommet F31	1	(LR47B)
Twin Mains DS Cable	As Req	(XR47B)
Conformal Coating	1	(YT50E)
PCB Cleaner	1	(YJ45Y)
Grommet 6-4mm	1	(JX65V)

#### Kit and Special Parts

A complete kit of parts (including the PCB) is available (excluding optional items). Full construction details may be found in Maplin Magazine/Projects Book 68 XA68Y.

#### Multi-Strobe Sequencer 3

#### Features

- ★ 100 preprogrammed strobe patterns
- ★ 8 channels
- ★ Digital display of pattern selected
- ★ LED display of pattern sequence
- ★ 8-bit TTL level input and output
- ★ 25-way D-type I/O connector
- ★ Built-in microphone
- ★ External microphone input
- ★ Line level input

#### Applications

- ★ Entertainment, discos, etc.
- ★ Parties
- ★ Promotional events

This project is designed to complement the Multi-Strobe project (LT90X). The Multi-Strobe Sequencer contains 100 preset pattern programs, and is able to control one or more groups of up to eight Multi-Strobes simultaneously; as many strobes as you wish may be connected to and controlled by the unit. The system enables the easy creation of captivating and spectacular lighting effects to really liven up discos, parties and other fun events!

The unit allows differing configurations of strobes to be controlled; 2 strobes connected allow 10 patterns, 4 strobes allow 20 patterns, 6 strobes allow 30 patterns, while 8 strobes allows 40 patterns. You're also not limited to 8 strobes - the sequencer will accept as many groups of 8 strobes as you wish!

#### Specification

Operating voltage:	230V AC 50Hz Mains
Power consumption:	4W Maximum
Flash rate:	0.5 to 20Hz
Microphone input:	5mV rms
Line level input:	250mV rms
VOGAD output level:	80mV rms
Variable gain audio amplifier output:	1V rms
Low pass audio filter output:	1V rms
Low pass audio filter frequency:	-3dB @ 125Hz
Low pass audio filter type:	4 pole Chebyshev
Audio trigger output:	TTL
Run input:	TTL
Stop input:	TTL
8-bit data input:	TTL
8-bit data output:	TTL
Serial clock/data output:	RS-232
Serial clock/data test loop input:	RS-232
Overload protection:	50mA Fuse
PCB dimensions (before separation):	357 x 193mm
Case dimensions:	435.5 x 40 x 236mm (19in. Rack Case)
Front panel dimensions:	482 x 43.5 (standard 1U dimensions)

NOTE. Electrical statistics above are valid with the 'AUDIO LEVEL' control set to maximum.

#### Optional Items

The following optional items, not included in the kit, may also be required.

Multi-Strobe Kit	As Req. (LT90X)
Strobe Connecting Cable	As Req. (DY56L)

#### Kit and Special Parts

A complete kit of parts is available (excluding the optional items), including the PCB, the Instruction Leaflet, and the Constructors' Guide. The PCB and other item are available separately as listed below. Full construction details may be found in Maplin Magazine/Projects 100 XD00A, and instruction leaflet XV47B.

Retail Unit Price each (inc. VAT).

Order Code	Type 11723	Price each exc. VAT	inc. VAT each
LT92A 1	Multi Strobe-Sequencer	£127.650	£149.990

KV04E	Strobe Seq Membrane	£12.330	£14.490
DT20W	MultiStrb EPROM MS13	£9.770	£11.490
KP91Y 1	Strobe Seq Case	£30.620	£35.990
DY47B	Multi-Strb IDC Cable	£3.390	£3.990
XV47B	The Strobe Pr 2 Litt	£1.400	£1.400 NV

### Multistrobe Kit

3

- ★ Bright light output
- ★ On-board variable speed controller
- ★ External control direct and via RS232 line
- ★ Several strobes can be 'daisy-chained' together
- ★ Group control for selected strobes in a chain
- ★ Metal housing with pan and tilt fixing

This is a complete, self-contained mains powered strobe lamp project, which includes a custom designed metal housing. The housing includes reflector, perspex front window and a universal bracket mounting, allowing the unit to be mounted at any angle, and with all necessary holes pre-punched. Designed primarily for entertainment, discotheques, lighting and special effects, photographic flash, scientific and educational uses, machine diagnostics and industrial applications. The basic module includes the familiar type of variable-rate flasher timer, with controls mounted on the rear panel. In addition, the strobe can be remotely controlled by either a simple active-low voltage input or ground switch (such as from an independently powered timer), or from a more sophisticated type of controller such as a computer or our 'Multi-Strobe Sequencer' LT92A, via an RS232 compatible serial data port. A second port allows further strobes to be connected together in a 'daisy-chain', with the data buffered in each strobe so that, in theory, the total number of strobes connectable is limitless!

**Kit and Special Parts** (excluding optional items)  
A complete kit is available. The PCB and case are also available separately. Full construction details may be found in Maplin Magazine/Projects Book 92 XA92A, and instruction leaflet XV44X.

**Specification**  
Mains supply: 220 to 240V AC  
Maximum current at maximum flash rate: 85mA  
Flash rate: 0.5Hz to 20Hz  
Energy per flash: 0.4W  
Max. power consumption: 20W

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LT90X 1	Multi Strobe-Strobe	£42.540	£49.990
GJ17T	Multi Strobe PCB	£5.520	£6.490
BF97F	Strobe Box	£18.710	£21.990
XV44X	Multi-Strobe Lift	£1.000	£1.000 NV

### Multi-Strobe Interface

3

- Features**
- ★ Constant current trigger output
  - ★ Eight channels
  - ★ Overload protected
- Applications**
- ★ Disco and party lighting
  - ★ Advertising
  - ★ Lighting and special effects
  - ★ Scientific and educational uses

There are many differing makes and models of

strobe lights on the market that have an external trigger input facility, but prior to the development of this project, they could not be used with the Multi-Strobe Sequencer (LT92A), due to different system protocols used. However, using the Sequencer in conjunction with this interface unit allows these previously incompatible variants of strobe lamps to be driven to full effect!

**Specification**

Supply voltage: 230V AC 50Hz  
Power consumption: 2.5W  
Output load: 5A (1,150W) maximum  
Trigger output current: 100mA @ 12V maximum  
Unit dimensions: 125 x 155 x 58mm (WDH)

**Optional Items**

The following optional items, not included in the kit, may also be required.

Multi-Strobe Sequencer	1	(LT92A)
Strobe Connector Lead	1	(DY56L)
Coiled Mono Jack Lead	1	(RW34M)
Plastic Jack Plug	2	(HF85G)
Screened Cable Black	1m	(XR12N)

**Kit and Special Parts**

A complete kit of parts (including the PCB, labels, and pre-punched front and back panels) is available (excluding optional items). The PCB, labels and pre-punched panels are available separately. Full constructional details may be found in Maplin Magazine/Projects Book 104 XD04E, and instruction leaflet XZ19V.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

XZ19V	M/Strobe I/Face Lift	£0.800	£0.800 NV

### Sound to Light Sequencers

#### K5201 Light Computer

3

With 16 different programs and seven outputs, this light computer provides a unique visual experience, and is ideal for party lights, discotheques, advertising displays, signalling etc. Each output has its own LED, allowing easy visual checking of the programmes. Controls and the LED displays can be easily mounted on a front panel display. It is possible to make more spectacular displays by using an unlimited number of circuits, and a programme is included that allows two light computers to be cascaded.

**Specification**

Outputs: 7 via triacs rated at 1.5A max (300W at 220V)  
Board power requirements: 7.5V to 9V AC at 250mA  
Supply voltage for lamps: 24V to 240V AC  
Programs: 16 stored in ROM  
Speed: adjustable between 1Hz and 15Hz  
PCB dimensions: 134 x 79mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VF55K	K4001 7W Amp Kit	£7.650	£8.990

### K5200 4-Channel Multi-function Running Light

3

This circuit does more than an ordinary running light. Apart from running in both directions, it also flashes with two groups of lamps alternately (flip-flop), or with all the lamps at the same time. The four light effects follow each other automatically.

**Multi-function:** running to the right, running to the left, flip-flop, or with all the lamps flashing at the same time.

**Four triac outputs:** max. 2A each (400W at 240V)

**Running speed:** adjustable in asynchronous mode; constant speed in synchronous mode.

Radio noise is suppressed in synchronous mode. Can be synchronised by mains or can work synchronously. Power supply and transformer supplied with the kit.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VE55K	Velleman Kit K5200	£16.160	£18.990

### Partylite

3

The idea of a three channel sound-to-light modulator is obviously not a new one, there being a multitude of units of this type already available, ranging from professional products to the types available at supermarkets for domestic use.

Nevertheless, the Partylite is a worthy addition to the range because of its simplicity. It is fully automatic - no knobs to re-adjust every time the level or tonal content of your music alters. The Partylite also has its own built in microphone eliminating the need for an audio connecting lead, making a completely free-standing unit and also avoiding the possibility of damage to your hi-fi or power amp. The Partylite employs zero voltage triggering of the thyristors. Consequently no interference is generated to produce those annoying clicks through the speakers, so common with cheaper sound-to-light units. It will work effectively on all three levels or in a disco environment. This is achieved by having independent automatic level control circuits for treble, middle and bass frequencies. Please note that a case, lamp fittings and lamps are not supplied. Also caution should be exercised as 240V Mains is present on the PCB.

**Kit and Special Parts**

A complete kit, excluding case, lamp fittings and lamps, is available. The PCB is also available separately. Full construction details are supplied with the kit.

PCB dimensions: 120 x 75mm

Retail Unit Price each (inc. VAT).

LW5GB	Partylite Kit	£12.750	£14.990
GA42V	Partylite PCB	£2.970	£3.490

## Disco Partylite

3

- ★ No direct connection to your sound system required
- ★ Automatic level adjustment
- ★ 3-channel operation
- ★ Zero voltage triggering
- ★ Electret condenser microphone insert

The Disco Partylite expands on the original Partylite design, which proved to be one of the best selling Maplin kits, by offering the following enhancements; improved electrical safety, cooler running circuitry, high quality microphone insert, improved ALC circuitry, better tone filters and triac mains switching. The Disco Partylite has a built-in microphone eliminating the need for direct audio connection, removing the possibility of damage to your hi-fi or power amp and making the unit completely free standing. Automatic Level Control (ALC) circuitry follows the volume of the music over a wide range, obviating the need for a manual level control while zero voltage triggering of the triacs minimises any interference generated by the unit.

### Specification

Supply Voltage: 240V AC 50Hz  
 Supply Current: 5A Maximum  
 Power Handling: 300W per channel maximum  
 Number of Channels: 3 - Bass, Middle, Treble  
 Frequency Response: 10Hz to 20kHz  
 Case Dimensions: Width 150mm, Length 220mm, Height 64mm

### Optional Items

The following items, not included in the kit, may also be required.

Switch Dual Rocker Neon Red	1	(YR70M)
Safuseholder 20mm	1	(RX96E)
Fuse 5A 20mm Anti-Surge	1	(RA12N)
3-core 6A Mains Cable	3m	(XR03D)
Push-on Receptacle	1 Pkt	(HF10L)
Push-on Receptacle Covers	1 Pkt	(FE65V)

## K5202 3 Channel Sound to Light

3

- ★ Interference filter can be added to the PCB
- ★ Control circuit and outputs are optically isolated
- ★ Only suitable for incandescent lamps

This Sound to Light unit contains 3 outputs, that can be separately controlled. Each output reacts to different parts of the music spectrum i.e. bass, medium and treble. A combined control adjusts the overall sensitivity. One big advantage of this unit is a built-in microphone, so no electrical connection to a music source is required (although a line input is provided). The kit comes complete with housing, knobs and connectors.

Triac outputs: 2A (440W at 220V AC or 220W at 100V AC)  
 Supply voltage: Mains  
 Dimensions: 167 x 42 x 140mm.

Retail Unit Price each (inc. VAT).

## Educational

## Videos

## Ucando Electronics Training Video Cassettes

VCR Educational Products

A range of training video cassettes designed to provide instruction on electronics theory. Each video cassette gives a sound introduction and grounding in a specialised area of the subject. The tapes make learning both easier and more enjoyable than pure textbook or magazine study. They have proved particularly useful in schools, colleges, training departments in industry and electronics clubs as well as to general hobbyists and those following distance learning courses etc.

Each video cassette uses a mixture of animated current flow in circuits plus text, plus cartoon instruction, etc., and a very full commentary to get the points across. The tapes originate the USA, however all videos are UK PAL standard on VHS tapes.

## Video Cassette Recorder Repair and Maintenance

Introduction to VCR Repair  
 VT102 (NV16S)

Through the use of block diagrams this video will take you through the various circuits found in the NTSC VHS system. You will follow the signals from the input to the audio/video heads then from the heads back to the output. This tape is not suitable for beginners. Whilst this tape describes the NTSC VHS system (as used in the USA), many of the principles described on this tape apply equally to the PAL VHS system (as used in the UK) and SECAM VHS systems (as used in France), although there are some fundamental differences in the composition/timing of the video signals and associated signals/waveforms.

Approximate running Time: 84 minutes.

VCR Maintenance  
 VT103 (NV17T)

A step-by-step easy to follow procedure for professionally cleaning the tape path and replacing many of the belts used in most VHS VCRs. The viewer will also become familiar with the various parts found in the tape path.

Approximate running Time: 32 minutes.

## Basic Electronics

Video cassettes VT201 to VT206 are a basic electronics course and are designed to be used as a complete series, if required.

Basic Electronics Part One: D.C. Circuits  
 VT201 (NV18U)

This video is an absolute must for the beginner. Series circuits, parallel circuits, Ohm's law, how to use the digital multimeter and much more.

Approximate running Time: 54 minutes.

Basic Electronics Part Two: A.C. Circuits  
 VT202 (NV19V)

This is your next step in understanding the basics of electronics. You will learn about how coils, transformers, capacitors, etc., are used in common circuits.

Approximate running Time: 62 minutes.

Basic Electronics Part Three: Semiconductors  
 VT203 (NV20W)

Gives you an exciting look into the world of semiconductors. With basic semiconductor theory, plus 15 different semiconductor devices explained.

Approximate running Time: 57 minutes.

Basic Electronics Part Four: Power Supplies  
 VT204 (NV21X)

Guides you step-by-step through different sections of a power supply.

Approximate running Time: 56 minutes.

Basic Electronics Part Five: Amplifiers  
 VT205 (NV22Y)

Shows you how amplifiers work as you have never seen them before. Class A, class B, class C, op-amps, etc.

Approximate running Time: 57 minutes.

Basic Electronics Part Six: Oscillators  
 VT206 (NV23A)

Oscillators are found in both linear and digital circuits. Gives a good basic background in oscillator circuits.

Approximate running Time: 54 minutes.

## Digital Electronics

Video cassettes VT301 to VT306 are designed to provide a good grounding in digital and computer technology.

Digital Electronics Part One: Gates  
 VT301 (NV24B)

Begins with the basics as you learn about seven of the most common gates which are used in almost every digital circuit, plus binary notation.

Approximate running Time: 54 minutes.

Digital Electronics Part Two: Flip Flops  
 VT302 (NV25C)

Will further enhance your knowledge of digital electronics. You will learn about octal and hexadecimal notation, flip-flops, counters, etc.

Approximate running Time: 55 minutes.

Digital Electronics Part Three: Registers & Displays  
 VT303 (NV26D)

This is your next step in obtaining a solid understanding of the circuits found in today's digital designs. Describes multiplexers, registers, display devices, etc.

Approximate running Time: 54 minutes.

**Digital Electronics Part Four: DAC & ADC  
VT304 (NV27E)**

Shows you how a computer is able to communicate with the real world. You will learn about digital-to-analogue and analogue-to-digital converter circuits. *Approximate running Time: 59 minutes.*

**Digital Electronics Part Five: Memory Devices  
VT305 (NV28F)**

Introduces you to the technology used in many of today's memory devices. You will learn all about ROM devices and then proceed onto PROM, EPROM, EEPROM, SRAM, DRAM, and MBM devices.

*Approximate running Time: 56 minutes.*

**Digital Electronics Part Six: The CPU  
VT306 (NV29G)**

Gives you a thorough understanding in the basics of the central processing unit and the input/output circuits used to make the system work.

*Approximate running Time: 56 minutes.*

**Radio Theory**

**AM Radio Theory**

**VT401 (NV30H)**

Probably the most complete video ever produced on AM radio! Begins with the basics of AM transmission and proceeds to the five major stages of AM reception. Learn how the signal is detected, converted and reproduced. Also covers the Motorola C-QUAM AM stereo system.

*Approximate running Time: 61 minutes.*

**FM Radio Theory Part One**

**VT402 (NV31J)**

Covers FM basics including the functional blocks of a receiver, plus RF amplifier, mixer oscillator, IF amplifier, limiter and FM decoder stages of a typical FM receiver.

*Approximate running Time: 58 minutes.*

**FM Radio Theory Part Two**

**VT403 (NV32K)**

A continuation of FM technology from Part One. Begins with the detector stage output, proceeds to the 19kHz amplifier, frequency doubler, stereo demultiplexer and audio amplifier stages. Also covers RDS digital data encoding and decoding.

*Approximate running Time: 58 minutes.*

**Fibre Optics**

**Fibre Optics**

**VT501 (NV33L)**

From the fundamentals of fibre optic technology through cable manufacture to connectors, transmitters and receivers.

*Approximate running Time: 58 minutes.*

**Laser Technology**

**Laser Technology**

**VT502 (NV34M)**

A basic introduction covering some of the common uses of laser devices, plus the operation of the Ruby Rod laser, HeNe laser, CO<sub>2</sub> gas laser and semiconductor laser devices. Also covers the basics of compact disc and bar code scanning.

*Approximate running Time: 57 minutes.*

**Software**

**Electronics Principles 3.0**

*EPT Educational Software*

If you are looking for an easy and enjoyable way of studying or improving your knowledge of electronics, then this is the software for you!

Electronics Principles contains around fifty eight windows, which you can open and switch between. Thereby accessing an extended range of nearly 300 fully interactive analogue and digital electronics topics in full colour.

The software is completely self contained, including explanatory text, graphics and calculations. You can see the effect of changing component values one at a time in any given circuit configuration. Colour graphics redraw to scale and are presented along with the calculations, exactly as in a textbook, only this time using the user-input component values.

Screens can be cut and pasted, via the copy to clipboard feature, allowing graphics, text and calculations to be pasted into other Windows applications for print-out or incorporation into teaching or student notes.

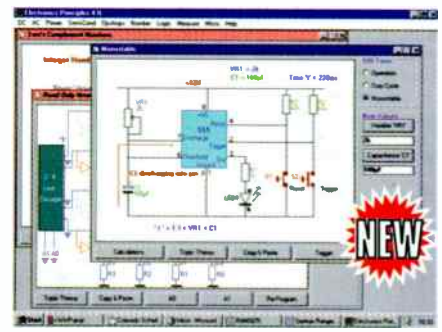

Electronics Principles 3.0 has a comprehensive range of fully interactive analogue and digital topics. From current flow and DC circuits, through switching and transistor operation, to passive and active filters. Logic begins with simple gates, through binary, hex and octal number conversion, addition and subtraction, to Boolean algebra. Currently used in hundreds of UK and overseas schools and colleges to support GCSE, A-level, BTEC, City & Guilds and university foundation courses. Also NVQ's and GNVQ's where students are required to have an understanding of electronics principles. Software runs under Windows™ 3.1, 3.11, '95 and NT and is supplied on 3 1/2in. floppy disks.

**Electronics Principles 4.0**

*EPT Educational Software*

If you are looking for an easy and enjoyable way of studying or improving your knowledge of electronics, then this is the software for you!

Electronics Principles contains around seventy five windows, which you can open and switch between. Thereby accessing an extended range of more than 300 fully interactive analogue and digital electronics topics in full colour, plus microprocessor hardware, instruction and addressing modes all in one easy to use package.

The software is completely self contained, including explanatory text, graphics and calculations. You can see the effect of changing component values one at a time in any given circuit configuration. Colour graphics redraw to scale and are presented along with the calculations, exactly as in a textbook, only this time using the user-input component values.

Screens can be cut and pasted, via the copy to clipboard feature, allowing graphics, text and calculations to be pasted into other Windows applications for print-out or incorporation into teaching or student notes.

Electronics Principles 4.0 now has an even more comprehensive range of fully interactive analogue and digital topics. From current flow and DC circuits, through switching and transistor operation, to passive and active filters. Logic begins with simple gates, through binary, hex and octal number conversion, addition and subtraction, to Boolean algebra. Plus microprocessor and microcomputer operation, registers, arithmetic and logic unit, ROM, RAM. Addressing modes and a full instruction set which can be simulated on the screen. All version 3.0 topics are covered within this program. Currently used in hundreds of UK and overseas schools and colleges to support GCSE, A-level, BTEC, City & Guilds and university foundation courses. Also NVQ's and GNVQ's where students are required to have an understanding of electronics principles. Software runs under Windows™ 3.1, 3.11, '95 and NT and is supplied on 3 1/2in. floppy disks.

## Kits

### Experimenting with Personal Computers

Peter Brunning  
Brunning Software

**NEW**

#### Features

- ★ Ideal for beginners to computer programming
- ★ Requires only basic electronics knowledge
- ★ Shows 'real-world' applications for computers with 'hands-on' experiments
- ★ Teaches the fundamentals of assembly language programming
- ★ Non-theoretical learning through doing approach
- ★ Ideal for colleges, industrial training, private study

A beginner's introduction to assembly language programming, simple circuit design and interfacing to a PC. Written for absolute beginners but also ideal for experienced programmers. The book takes you through 50 experiments which gradually teach the reader how to program in assembly language, how to design simple electronic circuits and how to interface these to a PC. Starting with simple on/off switching of an LED under computer control, the concepts and practical exercises progress through flashing an LED to building a digital-to-analogue converter. To this a comparator is added, this forms an analogue-to-digital converter and the basis of a simple oscilloscope. The reader then experiments with changing curves, producing temperature graphs and digitising audio waveforms.

If you are a beginner wanting to learn how to program, or an experienced programmer wanting ideas about analogue-to-digital converters, oscilloscope software, successive approximation techniques, dynamic temperature measurement, audio digitising and audio analysis, then this is for you.

A kit of parts can be purchased to go with the book which contains a special solderless plugboard for building the circuits, a set of components for the 50 experiments, parts to make three lead assemblies (one for temperature experiments, one for audio experiments and one for a multimeter), and an assembler program that is ideal for beginners (not shareware). The kit is 'unmade' where the plugboard assembly and the leads need to be assembled and soldered. The kit does not include the book which must be purchased separately. The experiments can be run on any IBM compatible PC. Eight experiments require a VGA or SVGA monitor, but can be skipped if an 'old' PC is used. 1996. 300 pages. 240 x 170mm wirebound. British book.

Retail Unit Price each (inc. VAT).

Order £30 or above?

Account holder or not, your order will be sent carriage paid.

(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)

### Watch As You Build Video with Radio Receiver Kit 1

A beginner's starter project which includes a step-by-step construction guide on a VHS video tape. The whole kit is supplied neatly packed into a standard VHS video cassette, together with an accompanying leaflet. By following the instructions on video you will be introduced to the basic techniques of project building, and by the end of the video a simple AM radio receiver circuit will have been constructed, ready to use. Some troubleshooting advice is given at the end. It is recommended that the absolute beginner also purchases a starter tool kit (see tools section) to ensure that they have the correct tools at the outset. Additional kits of parts are also available without the video tape, so that several students can work from one video tape. However, these extra kits cannot be used unless you have at least one video tape.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
SK00A	Start Radio & Video	£17.010	£19.990
SK04E	Start Radio No Video	£11.050	£12.990

### Hobbyists Starter Tool Kit

An easily affordable tool kit for the new electronics hobbyist, packaged to suit the typical needs of the beginner and offering considerable savings over buying the items separately. Presented in a cloth toolroll, the pack contains: side cutters; pair of long-nosed pliers with wire cutter; light-duty flat blade screwdriver 75mm long; No. 1 crosspoint screwdriver 75mm long; desoldering tool; and an Antex soldering kit with a CS iron, stand and 5m pack of 18swg multicore solder. Start as you mean to go on, with the right tools.

Retail Unit Price each (inc. VAT).
