**Better Value than Ever**

Maplin MPS has always offered excellent value for money - and now there are volume price breaks on the page, and even more at back of catalogue.

**Business Credit Account**

Maplin MPS offer credit account facilities to Businesses, Educational and Government Establishments. Simply fill in the credit application form at the back of the catalogue.

**Company Purchasing Cards**

Use your Company Credit Cards over the telephone or at any Maplin store and receive FREE delivery on all orders.

**All Other Orders**

We are also pleased to accept American Express, Visa, Access, Mastercard, and Connect, Switch, or you can pay by cheque made payable to Maplin MPS.

All products are selected, tested and despatched under Maplin's fully BSI accredited warehouse systems even though not all of the items are manufactured by a quality assured source. Sales by mail and over the Wombwell trade counter are fully covered by our BS EN ISO 9002 process. The sales process at the regional stores is not audited by BSI however fully compliant supplies can be made by arrangement with the shop manager.

(See 'How to Order' for details)

**Don't forget!**  
Order before 5.00pm  
for same day despatch!

It's easy to place your order 24 hours a day, 365 days a year. It's easier still if you use the order form at the back of this catalogue!

If you don't have a business account, avoid delivery charges by making sure your order is over £30.00 inc. VAT!

Our helpful trained staff are always happy to answer any technical question during normal working hours!

## Easy ways to pay

### INSTANT BUSINESS CREDIT ACCOUNT

All orders from Maplin MPS Business Credit Account customers are DELIVERED FREE and, in most cases – subject to status, of course – an account can be set up and used instantly.

Just send a completed credit application form (at the back of this catalogue) and we'll do the rest.

### COMPANY PURCHASING CARDS

Use your company purchasing card over the phone or at any Maplin store and all orders are DELIVERED FREE.

### CASH, CHEQUE OR CREDIT/DEBIT CARD

All orders over £30.00 inc. VAT are DELIVERED FREE. Smaller orders attract a small order charge of only £2.95 inc. VAT.

### PERSONAL CREDIT FACILITIES

Credit facilities are available for non-account customers on major products priced over £75 (subject to status). Please enquire when ordering.

## Same Day Despatch

All stock items ordered before 5:00pm are despatched the same day. A back ordering system is available should any items be temporarily out of stock.

### FIRST CLASS POST

All despatches under 1kg (apart from datasheets and publications) are sent by first class post so you can enjoy your purchases without delay. Larger parcels are sent by fast courier, with 24-hour service.

## Guaranteed Next Day Delivery

### WEEKDAY DELIVERIES

While our normal service means your goods will usually arrive the following working day, we do offer a guaranteed delivery service for vital consignments. All orders for guaranteed deliveries must be received by 4:00pm (excluding Sundays and public holidays) and attract the following charges in addition to any other charges normally due:

UK Mainland before 12:30pm	£8.30
UK Mainland before 10:30am	£13.00
Northern Ireland before 12:30pm	£15.00
Northern Ireland before 10:30am	£20.00
Channel Islands	£20.00
Scottish Highlands, Offshore Islands, Isle of Man and the Scilly Isles in the following postcode areas: IM1-9, IV40-49, IV51, IV55, IV56, KA27, KA28, KW15-17, PA41-49, PA60-78, PA80-88, PH42-44, TR21-25, ZE1-3	£20.00

## **SATURDAY DELIVERIES**

If we receive your order before 2:00pm Friday we can guarantee that you will receive all items despatched by the next day, normally before noon (except public holidays). Saturday deliveries attract the following charge in addition to any other charge normally due:

UK Mainland	£15.00
Northern Ireland	£22.00
Scottish Highlands, Offshore Islands, Isle of Man and the Scilly Isles	£28.00

*We are sorry, but Saturday deliveries to the Channel Islands are not available.*

## **International Orders**

We are able to despatch Maplin products to most places on Earth. See the back of the catalogue for details.

## **If in Doubt... Call our Technical Helpline**

If you have any query, big or small, just call our Helpline on 01702 556001 – Monday to Friday, 9:00am to 5:00pm – or fax the relevant details to 01702 554001, marking it for the attention of the Technical Services Manager. Don't forget to include your name and address and any contact references.

## **Maplin Nationwide**

With more stores open than ever before and more opening all the time, it's never been easier to visit a Maplin Store or Mondo Superstore to see our superb product range for yourself and talk to our highly trained staff. Or, if you prefer, choose your purchases from our catalogue, telephone your nearest store and call in personally to collect them – even on Saturday (and Sunday too in certain stores). To find your nearest store call 0800 136156 or see pages 8 to 16 of this catalogue.

## **Buy with Confidence**

### **PRODUCT WARRANTY**

Every Maplin MPS product is subjected to rigorous quality control. If, in proper use, any product fails to perform to its specifications owing to faulty materials or workmanship within a year of purchase, we will be glad to replace it, repair it, or provide a refund.

### **EXTENDED WARRANTIES**

Extended warranties are available on an increasing number of products. Please ask for details when ordering.

## HOME/BUSINESS INSTALLATION SERVICE

An installation service for certain products is now available in several regions. Please contact your nearest Maplin Store for details.

## FULL AFTER SALES REPAIR SERVICE

Our highly qualified technicians are available to repair any items outside their guarantee period. Please phone 01702 554000 for details of our competitive prices.

# Business Services

## INSTRUMENT CALIBRATION

Maplin MPS offers a comprehensive range of calibration instruments with two choices of certification – 'Standard Certificate' guarantees full traceability to NPL (National Physical Laboratory) while a NAMAS Certificate offers worldwide recognition and is Crown copyright. Please see Section 38, Test and Measurement Equipment, for full details.

## QUOTATIONS/PRO-FORMA INVOICES

Maplin MPS are always ready to offer business customers quotations for special requirements (such as non-catalogue products and larger volumes) and these are guaranteed for a fixed period. We can also provide pro-forma invoices on request. Please see our full Terms and Conditions, inside the back cover.

## SCHEDULED ORDERS

Tell us when and how many and we'll deliver, subject to a minimum shipment value of £25.00, written confirmation and a maximum contract period of one year.

Scheduling your orders will save you money and storage space.

## CERTIFICATES OF CONFORMITY

Commercial Certificates of Conformity are available on request. Please quote Order Code XL19V when placing your order.

# Maplin Magazine

Why not subscribe to the UK's most widely read specialist electronics magazine, published monthly. Features, news, projects to make and details of our latest products are all here. Simply phone and enquire. It makes a great present!

# How to get the most from your catalogue

## Product Description

The Maplin MPS catalogue is widely regarded as the electronics product bible. Examine the detail in our product descriptions and it's easy to see why.

## Product Photograph

There's a full colour photograph for nearly every product in the catalogue. The original What You See Is What You Get!

## Pack Quantity

Small, commonly used products are supplied in multi-packs to minimise damage and keep prices low. Simply choose the Order Code for the quantity you require.

## Prices

The price for every product is quoted exc. and inc. VAT.

## Volume Discounts

Most products have several columns of prices, showing price breaks (exc. VAT) for volume discounts. Greater discounts for even larger volumes are shown in the Order Code Index at the back of this catalogue.

## NEW PRODUCTS

## New Product Pages

Want to see what's new at a glance? These pages will show you and tell you where you can find them in the catalogue.

## Contact Numbers

Want to speak to us? Every page has a reminder of the contact numbers for Sales, Customer Services and Technical Support.

## Switches

### Snap-in Miniature Rocker Switches

A range of miniature round faced rocker switches which snap-in a 20mm diameter hole. Body has a 2mm wide locating lug for which a slot must be provided in the edge of the board to prevent rotation. Available in SPST, DPST and DPDT configurations with red or black contacts. Connections are 4.8mm push-in terminals. Current rating 20mA max. as measured with insulation resistance 100MΩ strength is > 1,500V AC.

## Section Introductions

Every section has an introduction page with its own alphabetical index – making our products even easier to find.

Maplin Electronics is now a full member of A.F.D.E.C. (Association of Franchised Distributors of Electronic Components).

## Section Header

Every page carries a Section Header. A full Section Index appears on both page 1 and the back cover.

## Section Identifier tabs

There's a numbered tag on the side of every page to correspond with the tabs shown in the Section Index.

## See it...live!

Remember, you can see the vast majority of the products in this catalogue in any Maplin or Maplin Mondo Store. Call 0800 136156 or see the next few pages for details of your nearest store.

## Order Code Index

If you know the Order Code, this index will tell you where you'll find the product and give details of additional volume discounts.

## MPS Business Credit Account

All orders for business account customers are delivered free. To open your account send your completed application form (at the back of this catalogue). You may be asked for additional information if you are not a registered company.

## Order Form

To make ordering even easier, an order form is included at the back of this catalogue. Use either the quoted VAT inclusive or exclusive and look out for non-VAT products (indicated as 'N' in the price panel).

## Now even more **MAPLIN** Stores and **MONDO** Superstores – Nationwide

### **MAPLIN** – First for products, first for service

Never forget that this catalogue, packed with products as it is, is only half the story. Visit any Maplin or Maplin Mondo store and you'll discover that the most exciting product range in the world of electronics and beyond is backed by the highest standards of professional service and advice in the business. It's no wonder that Maplin has been the number one choice for millions of customers over the last 25 years.

Every store carries as many of the products shown in this catalogue as possible but some items may need to be specially ordered for you. If you have made a specific choice from our catalogue it's advisable to ring your nearest store (quoting the product's Order Code) to make sure it's available before calling in to collect it.

### Easy Payment

All stores accept Access, Mastercard, Visa, Barclaycard, Switch, Connect, American Express and crossed cheques up to a value of £5,000 (cheque guarantee card are needed for personal cheques). Business customers can use their Maplin MPS account, although prior arrangements should be made if using them at weekends.

Cheques should not be pre-signed unless by prior arrangement and a contact name and address should be printed on the reverse. Your personal details are guaranteed confidential and will not be used for any other purpose.

 Opening hours: 9am to 6pm  
 Monday to Saturday.  
 Check with store for Public Holiday Opening.

Situated on the A428 about 800m west of the city centre. This Maplin Store is easily reached, being about five miles from junction 16 three miles from junction 15A on the M1 and Ample parking space in a large car park which also provides access to the adjoining Co-op superstore.

## NOTTINGHAM

**86-88 Lower Parliament Street, Nottingham, NG1 1EH.**  
**Tel: 0115 941 0242**  
**Fax: 0115 941 0247**  
 Opening hours: 9am to 5pm  
 Monday to Saturday.  
 Closed till 9am Friday for staff training.

Check with store for Public Holiday Opening. Situated on the north-east corner of the city's ring-road a few minutes walk from the city centre. About 15 minutes drive from the M1, south take J25, north J26. There is good parking outside the Maplin Store or in adjoining streets, alternatively there is a car park nearby in Brook Street alongside Lower Parliament Street.

**NOTTINGHAM**

Unit 3 Castle Retail Park, Radford  
Boulevard, Nottingham NG7 5QT.  
Tel: 0115 979 1028  
Fax: 0115 924 9578

Opening hours: 9am to 8pm  
Monday to Friday.  
9am to 6pm Saturday.  
11am to 5pm Sunday.  
Closed Christmas Day and Easter Sunday.

Located to the North West of the city centre the Mondo Maplin Superstore is well situated for easy access from the city centre or the M1 motorway. Ample free car parking in front of the store.

**PRESTON**

Unit 1, Corporation Street, Preston,  
PR1 2UQ.

Tel: 01772 258484  
Fax: 01772 258686

Opening hours:  
Monday to Friday: 9am to 6pm  
Saturday 9am to 5.30pm, Sunday 10am to 4.00pm  
Check with store for Public Holiday Opening.

Situated immediately beside Office World sited at the Penwortham Bypass/Ring Way junction close to the Com Exchange. Ample free parking.

**PORTSMOUTH**

98-100 Kingston Road, Portsmouth,  
PO2 7PA.

Tel: 01705 654411  
Fax: 01705 654334

Opening hours: 9am to 5.30pm  
Monday to Saturday.

Located within Kingston Road on the corner of Binsteed Road and about 3/4 mile from the M275 with on-street parking both outside the Maplin Store and in adjoining side streets.

Check with store for Public Holiday Opening.

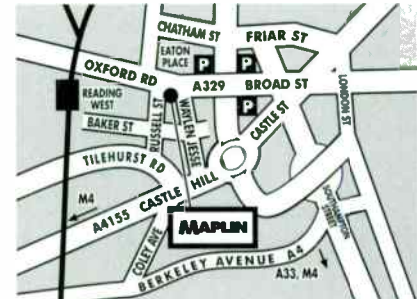

**READING**

129-131 Oxford Road, Reading,  
RG1 7UU.

Tel: 01734 566638  
Fax: 01734 592115

Opening hours: 9am to 5.30pm  
Monday to Saturday.

Located on the Oxford Road a few minutes walk from the centre of town with limited on-street parking but there is a multi-story car park in Eaton Place or at Broad Street shopping mall. Situated west of the town centre, the Maplin Store is within easy reach of the M4.

Check with store for Public Holiday Opening.

**SHEFFIELD**

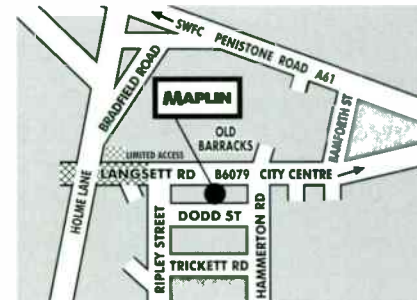

413 Langsett Road, Hillsborough,  
Sheffield, S6 2LL.

Tel: 0114 285 5492  
Fax: 0114 285 4389

Opening hours: 9am to 5.30pm  
Monday to Saturday.

Closed till 9.30am Friday for staff training.  
Check with store for Public Holiday Opening.

Situated on the busy Langsett Road (B6079) opposite the Hillsborough Barracks shopping centre, the Maplin Store can be reached by leaving the M1 at J34, and travelling along the A6102 towards Hillsborough. Parking is excellent, with forecourt parking in front of the Store.

**SLOUGH**

216-218 Farnham Road, Slough,  
SL1 4XE.

Tel: 01753 551419  
Fax: 01753 694393

Opening hours: 9am to 5.30pm Monday to Saturday.

Closed till 9.30am Friday for staff training.  
Check with store for Public Holiday Opening.

Situated on the busy A355, the Maplin Store can easily be found on the Farnham Road at the junction with Edinburgh Avenue and Sheffield Road, with plenty of parking in front or at the side of the Store.

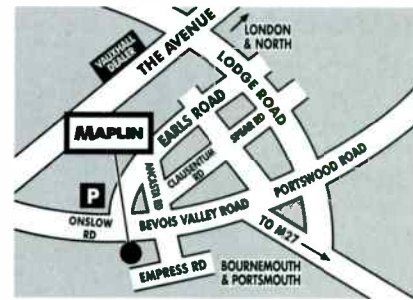

## SOUTHAMPTON

46 - 48 Bevois Valley Road,  
Southampton, SO14 0JR.  
Tel: 01703 225831  
Fax: 01703 339150

Opening hours: 9am to 5.30pm  
Monday to Saturday.  
Closed till 9.30am Friday for  
staff training.

Check with store for Public Holiday Opening.

Situated in the Bevois Valley area our Maplin Store is conveniently placed for easy access from all parts of Hampshire and surrounding areas. From the direction of London follow the A33, and from east or west leave the M27 at J5. There is a small car park in Earls Road opposite the Store.

## SOUTHEND (WESTCLIFF)

233-237 London Road,  
Westcliff-on-Sea, Essex, SS0 7BP.  
Tel: 01702 392000  
Fax: 01702 341013

Opening hours:  
9am to 5.30pm Monday to Saturday.  
9am to 7pm Friday.  
Closed all Public Holidays.

Our Southend Maplin Store is situated on the A13, London Road. We are just 30 minutes by car from J29 on the M25. There is plenty of free parking at the rear of the Store with access from Summercourt Road. There is also a purpose-built wheelchair ramp at the rear entrance to give access to the disabled from the car park.

## STOCKPORT

259-261 Wellington Road South,  
Stockport, SK2 6NG.  
Tel: 0161 480 4900  
Fax: 0161 474 0400

Opening hours: 9am to 6pm Monday to Friday.  
Saturday 9am to 5.30pm. \*Sunday 10am to 4pm  
(\*Check with Store for Sunday opening).  
Closed till 9.30am Friday for staff training.  
Check with store for Public Holiday Opening.

Conveniently located on the busy A6, Wellington Road South, our Stockport Maplin Store is 100m north of the junction with Buxton Road and Bramhall Lane, and a little over 1 1/2 miles from the centre of Stockport. J13 on the M63 is a little more than 1 mile away and there is plenty of parking in the layby in front of the Maplin Store or in our own car park which is accessed from Higher Hillgate at the rear of the Store.

## STOKE-ON-TRENT

39-45 London Road, Stoke-on-Trent,  
ST4 1NB.  
Tel: 01782 749947  
Fax: 01782 749997

Opening hours:  
Monday to Friday 9am to 6pm  
Late night Thursday to 7pm  
Saturday 9am to 5.30pm  
Check with store for Public Holiday Opening.

Located just off the A52, in Stoke Town Center, this Maplin Store is situated opposite the Royal Doulton factory on the London Road at its junction with Fleming Road. There is an adjoining private car park which is accessed via Spark Street.

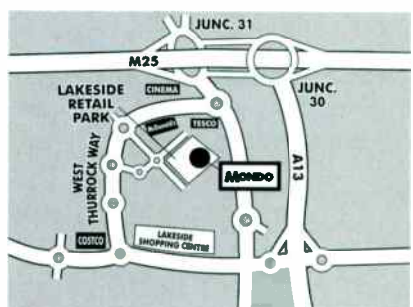

## THURROCK

Unit B3B, Lakeside Retail Park,  
West Thurrock, Grays, Essex RM20 1WN  
Tel: 01708 867976  
Fax: 01708 865517

Opening hours: 9am to 8pm Monday to Friday  
9am to 6pm Saturday.  
11am to 5pm Sunday.  
Opens 8.00am for trade customers.  
Closed Christmas Day and Easter Sunday.

Located on one of the country's premier retail parks, with easy access off the M25. Ample free car parking in front of the store.

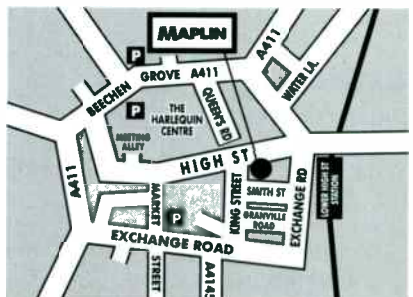

## WATFORD

138 High Street, Watford,  
Herts WD1 2EN  
Tel: 01923 246848  
Fax: 01923 246854

Opening hours: 9am to 5.30pm  
Monday to Saturday.  
11am to 5pm Sunday.  
Closed Christmas Day and Easter Sunday.

The store is located on the main High Street. This is accessible from the A411 Ring Road via Water Lane which is just before the Pyramid Building.

More new Maplin Stores opening soon – call 0800 136156 for the latest details.

Extension Leads	46	Mounting Brackets	39	Telescopic Aerials	38

## AERIALS & AMPLIFIERS SELECTION GUIDE

Put simply, if you want to get the best from your TV or FM radio, invest in a suitable outdoor aerial and install it properly.

Poor results tend to be associated with indoor aerials, the performance of which will vary with passing traffic and even the movement of people in the room. Note that Channel 5 reception requires a high-quality aerial in most cases. This is because it transmits at a fraction of the power levels available to the more established broadcasters. Special 'temporary' caravan aerials, which mount on a window with 'suckers', are available for travellers. These will provide much better performance than an indoor aerial, or the loop built into portable TVs.

With respect to VHF/FM radio reception, many of us rely on the simple wire aerial supplied with the tuner or stereo system. The results speak for themselves - hissy stereo reception, even from the powerful BBC transmitters, and a lack of choice simply because other stations are simply too weak for the tuner to resolve.

This catalogue lists a wide variety of TV and radio aerials for home installation, and the choice is bewildering. However, armed with some basic information, selecting one appropriate to your individual needs is relatively straightforward. So too is installation, which is within the capabilities of any competent DIY enthusiast equipped with the required tools. For best results, the aerial needs to be installed in the highest possible position - which inevitably means the roof of a building. Indeed, raising the height of an aerial by as little as a metre can double the available signal strength.

Although Maplin does sell chimney mounting kits, we would only recommend that roof installation is undertaken by those with the correct roof ladders and experience. However, Maplin also sells brackets for mounting on the side of the house, and with an aluminium pole of the appropriate size, aerials can be elevated to an adequate height. Outdoor installations should be carried out with safety in mind, and all mounting components and surfaces should be up to the job. As an alternative, an aerial could be fitted inside the roof, but the best performance will not be obtained. Reflections from water tanks could cause ghosting, and the roof structure will attenuate the signal. In strong signal areas, however, acceptable results can be achieved.

TV aerials are 'directional', meaning that the greatest signal pick-up is from one direction. As a general rule, the greater the number of elements, the greater the directionality and the greater the signal pick-up. Ten-element aerials are designed for areas of high signal strength - in other words, those relatively close to the transmitter.

Fourteen-element aerials are intended for medium-signal areas, while eighteen-element aerials are designed for 'fringe' locations where the wanted signal is quite weak. Weak reception is characterised by grainy pictures.

There are also specialised types designed to squeeze every last microvolt out of the air - such models are ideal for 'extreme fringe' locations that

are a long distance away from the transmitter. A look at neighbours' TV aerials will provide some indication as to the type that will be required - note, however, that another more suitable transmitter may since have been commissioned. Before purchasing and installing a TV aerial, it may be worth contacting the BBC's engineering department to find out details of the transmitter that serves your region.

Regardless of the aerial you choose, it should be aimed directly at the transmitter, following the 'line of sight'. Professional installers use a signal strength meter, aligning the aerial for maximum signal. DIY installers could use the positioning of neighbours TV aerials as a rough guide, and monitor the picture on a TV set across all five channels for final adjustment. Look to minimise ghosting, which is caused by 'multipath distortion' - the aerial picking up delayed (reflected) versions of the wanted signal - as well as patterning and grain. In some instances, notably installations in built-up areas, a compromise may have to be reached.

Although it is possible to purchase directional VHF aerials for radio reception, the most popular models tend to be omnidirectional models that will pick up radio stations equally from all directions. VHF radio aerials are designed to receive the entire band, although best results tend to occur in the middle of the band (i.e. around 98MHz). Polarisation is also used in VHF/FM radio broadcasting - but the only practical way of installing a large VHF beam aerial is to install it horizontally. These days, however, radio transmitters employ mixed (both vertical and horizontal) polarisation to ensure good results with both horizontally-polarised aerials (homes) and vertically-polarised aerials (cars and portable sets). If a directional (beam) FM aerial is chosen, correct alignment is necessary to prevent distortion caused by multipath reception.

Aerial amplifiers, which 'boost' the signal, are also available. These should only be considered if a picture is poor due to weak signal strength, and not interference. They will not eliminate ghosting either - only correct aerial alignment can help here. If interference is the cause of poor TV reception, an aerial amplifier can sometimes make matters worse.

## AERIALS

### OUTDOOR TV AERIALS

#### DIY TV Aerial

Maxview

A low-cost but high-quality 10-element wideband TV aerial for installation in the loft or outdoors. Includes complete fitting kit comprising universal bracket with adjustable support, and a generous 10 metres (33 feet) of coaxial cable terminated with a UHF plug. Suitable for all TV channels, and equally suitable for main or additional secondary TV sets. Supplied with easy to fit assembly instructions. Fixing kit included.

Gain:	6-0dB

#### 10-Element TV Aerials

Maxview

A range of high quality 10element UHF TV aerials are available in group A(channels 21-34), Group B (Channels 39-53) and Group C/D (Channels 48-68) and are suitable for strong UHF TV signal areas. They are manufactured from high quality corrosion resistant aluminium and come complete with a good quality folded tubular dipole, aerial clamp and reflector.

**Maplin is opening new stores all the time. Call for latest details**

**12-Element TV Aerial Kit**

A complete kit of all parts necessary to install a high quality TV aerial ready for immediate use. The design is of the Quad-X type, having 10 director bays - offering signal gain equivalent to that from at least twice the number of 'standard' dipole directors - preceding a 40cm wide Quad-X dipole antenna backed by a grid plane reflector. All hardware is supplied in a flat pack and requires assembly.

The kit comprises:

1. Antenna parts: 2 section extruded aluminium main spar and jointing hardware; 2 halves of reflector grid plane; integral main antenna dipole with cable connection box; and 10 director bay elements. The elements are elegantly formed from pressed aluminium, and come ready mounted in insulating plastic supports, which require attaching to the main spar with the novel self-locking plastic press-studs provided. The complete assembly is 1.15 metres long but very lightweight, and fetchingly finished in gold with contrasting black plastic components.

2. Mounting hardware, comprising one 25mm dia. right-angled aluminium mounting mast 780mm high with a 200mm long, lower stand-off section; mast fixing bracket including screws and wall plugs for mounting to a vertical wall, loft joist or similar surface; and a universal fitting antenna fixing clamp.

3. Cabling, including 10 metres of white coax cable; one white coax UHF plug; and cable fixing clips. The cable has an air filled insulator and solid centre conductor, and is easily connected into the dipole connector box. To ensure a reliable connection, strip 20mm of outer sleeve and 10mm of inner insulator. Release brass clamp and remove centre screw. Wrap braid screen around remaining insulator and insert under clamp. Wrap centre conductor around screw and replace, tighten clamp (see diagram). At the plug end, it is suggested that the tip of the solid core be soldered at the end of the plug pin after assembly to ensure a good connection. Fixing kit included.

Pictorial assembly instructions are provided on underside of packaging.

**Specification**

## 18 & 10 ELEMENT TRUECOLOUR AERIALS

**Antiference**

The truecolour dipole combines two techniques which give a more even response across the frequency range whilst matching impedance to ensure the maximum signal transfer from aerial to cable. The aerial has high signal rejection from side and back reducing ghosting, a sturdy construction and is supplied assembled and ready to go. Group A,B and E aerials are enhanced to cover Channel 5.

Supplied with a Universal Clamp Type 1 and U support arm.

## Aerial for Difficult Reception Areas

**Antiference**

Suitable for fringe areas, this aerial has eight, nine or ten powerful Quad-X director bays giving near equivalent gain to that provided by 2 standard 18-element aerials of the same group. The aerial has been developed and tuned to give maximum forward gain. It has high signal rejection from side and back to eliminate ghosting. The aerial is available in three channel groups and a wideband version is also available. Groups A,B and E aerials are enhanced to cover channel 37.

Supplied with a three-way clamp for tall mounting, assembled and ready to go.

## Touring Aerial

**Maxview**

A low-cost, high quality 9-element TV aerial for touring. This kit comprises an easily assembled multi-element aerial, an easily assembled mounting pole, two quick-release clamps and 5m of coaxial down lead. The clamps are provided with mounting plates that are designed to be secured to a surface, allowing the clamps and mounting pole to be assembled and removed as and when required. Aerial and mounting pole are 600mm long.

**INDOOR TV AERIALS**

**High Performance Indoor Set-Top Aerials**

Antiference

Two set top aerials, styled to match modern TV sets. The "Toptenna" (XY30H) is a precisely tuned Yagi wideband antenna which outperforms all the competition at this price. Assembly instructions on box.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
XY30H	Toptenna	£8.800	£5.200	£4.600	£7.990

**Multi-Element Hi-Tech TV Aerial**

Antiference

A smart, lightweight UHF TV aerial for indoor use. The aerial features two parallel, staggered 7-element arrays of matt finished aluminium, connected to either side of a 75Ω coaxial feeder and mounted on a square section plastic support. The unusual 'log periodic' design offers up to 6dB of gain at 770MHz, and a minimum 4.5dB at 500MHz. Covers all UHF broadcast TV channels from 21 to 68. The aerial comes in three parts, a triangular base for a plug-in support, and the aerial itself which is normally mounted horizontally but can be inserted vertically for vertically polarised transmitters. Safety isolated to BS5373. Fitted with 1 metre of coaxial cable terminated with a UHF plug.

Retail Unit Price each (inc. VAT).

YM56L	Hi-Tech TV Aerial	£15.310	£10.750	£9.850	£17.990

**TV Top Aerial**

Teleste

A compact TV top aerial with internal amplifier for clearer reception. Battery operation for use anywhere including caravans etc. Internal battery management ensures that the amplifier is only ever on when the TV is in operation, automatically switching on when it senses the TV has been activated. After the TV has been switched off the unit will return to its normal standby state. A manual override facility allows operation when used with VCRs etc. LED indicators show the mode of operation and battery state through an opaque window. Operates from 2 x LR6 (AA) type batteries.

**T-Vision Indoor TV Antenna with Signal Booster**

Maxview

The T-Vision directional antenna with plug-in signal booster represents a breakthrough in aerial technology. The antenna is wideband and suitable for all available UHF TV channels including Channel 5 in predicted coverage areas. The aerial body is 300mm diameter with a 180mm base which hides 5 metres of cable wound inside. The antenna is directional and with the 5 metres of cable, this allows it to be positioned for the optimum reception anywhere in the room. The aerial is then connected to a plug-in signal booster that provides 12.5dB gain.

Group: Wideband  
Channel No.: 21-68

**Contour Indoor TV Aerial**

Maxview

A unique innovative design of indoor aerial that would pass any critical eye test for modern styling. This bi-directional aerial is suitable for all UHF TV signals including Channel 5 in predicted coverage areas. This aerial comes in two forms - the basic Contour aerial for strong signal areas, and an alternative version, the Contour Plus, which includes an integral low noise signal amplifier/booster, for weak signal areas. Both versions are coloured mid-grey and supplied with a flylead 2m long. They are designed for fixing permanently with wall plugs and screws, attaching to a window with two small suction pads or to leave free standing in any convenient position.

## RADIO/FM AERIALS

### VHF FM Omnidirectional Aerial

Maxview

An ingenious solution to the problem of receiving VHF FM broadcasts from a number of different transmitters. The omnidirectional aerial, by virtue of its design, offers the listener the choice to tune to radio stations broadcasting in the VHF FM band from nearby transmitters located in the surrounding area. Omnidirectional aerials are intended for use in good reception areas. This depends upon distance from the transmitter and the power of the transmission. In practice this generally means its performance makes it better suited for use in urban areas where radio stations are more plentiful as opposed to more remote rural areas. Supplied with mast mounting clamp.

Overall Size: 95mm x 515mm (dia.)  
Bandwidth (MHz) 88-108  
Forward Gain (dB) 3  
Front Back Ratio(dB) 0  
Accept. Angle (deg) 360

### Mushkillers

Antiference

New type of 108 Mushkillers, a range of high quality VHF/FM aerials introduced to cover the enlarged Band II frequency range of 88 to 108MHz. The aerials offer VSWRs as low as 1.50:1, have an even response to within 1dB over the band, display high directivity for stereo reception free from multipath distortion, and give up to 1½dB extra gain with patented 'Trumatch' dipole.

### 3-Element

Suitable for good reception areas. It features the 'Trumatch' dipole, one director and one reflector. Supplied complete with Universal Clamp Type 1.

Forward Gain 4-5dB  
Front/Back Ratio 15dB  
Acceptance Angle ±32°  
Overall Size 864mm long x 1.73m wide

Retail Unit Price each (inc. VAT).

Order Code	Type #76	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
XQ23A 3	Mushkiller FM1083	£22.110	£16.800	£15.550	£25.990

### 5-Element

Suitable for outer reception areas. Supplied with Universal Clamp Type 1.

Forward Gain 6-5dB  
Front/Back Ratio 16dB  
Acceptance Angle ±28°  
Overall Size 2.05m long x 1.73m wide

Retail Unit Price each (inc. VAT).

XQ25C 5	Mushkiller FM1085	£34.030	£26.000	£23.750	£39.990

### Radio Rod

Antiference

'Radio Rod' is designed to be omnidirectional and receive national and local transmissions from any direction in the range 88 - 108MHz. Ideal for use with midi systems, it is light and easy to install on the outside of the house or in the loft. Comes complete with 10m of coaxial cable fittings and instructions. A coax plug or coupler will be needed to terminate this lead to the receiver or an extension lead (see connectors section also)

Retail Unit Price each (inc. VAT).

Order Code	Type #73	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
XPO9K 1	Radio Rod	£15.310	£10.950	£9.850	£17.990

### FM Aerials

Two types are available, one has spade terminals, one is terminated in a coax plug. Impedance 300Ω balanced.

Retail Unit Price each (inc. VAT).

Order Code	Type #999	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+

## TELESCOPIC AERIALS

### Low Cost

Union Brothers

Two low-cost telescopic aerials, one six-section and one seven-section. The six-section type is 482mm (19in.) long (105mm retracted), 6mm in diameter at the base and has a threaded hole tapped to M2.5 in the bottom. The seven-section type is 670mm (26.25in.) long (123mm retracted), 7mm in diameter at the base and has a threaded hole tapped to M3 up the centre.

Retail Unit Price each (inc. VAT).

Order Code	Type #62	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JM10L	6-Section Aerial	£1.350	£0.720	£0.580	£1.590
RK49D	7-Section Antenna	£1.350	£0.720	£0.580	£1.590

## High Quality 10-Section

**Union Brothers**

A high quality, heavily chromed, 10-section telescopic aerial (retracted length 166mm) extending to 1.31m (51.5in.). Base section is 9.5mm diameter and a threaded hole is tapped to M4 up the centre.

Retail Unit Price each (inc. VAT).

		1+	25+	100+	1+
LB10L	HQ 10-Section Aerial	£3.390	£1.990	£1.500	£3.990

## Fully Retractable Swivel Base

**Union Brothers**

A low-cost eight-section telescopic aerial with a base that swivels and rotates. This aerial has the advantage that the mast-sections may be pushed down through the swivel base into the equipment in which the aerial is housed. Thus the aerial is fully retractable, leaving only 11mm of aerial tip exposed. The aerial is 1.016m long from the base and 1.04m long including the base. The base requires an 11.35mm diameter cut-out for mounting and 210mm of clearance inside the enclosure for when the aerial is fully retracted.

Retail Unit Price each (inc. VAT).

Order Code	Type 814	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JM11M	Rotable Swivel Aerial	£2.800	£1.750	£1.480	£3.290

## Swivel Base

**Union Brothers**

Low-cost 6-section telescopic aerial with base which swivels and rotates. The aerial extends from 275mm to 980mm. Requires a 9.53mm dia. cut-out for mounting. Base section is 6mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type 868	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
YT20W	6 Sed Swivel Aerial	£2.540	£1.700	£1.500	£2.990

## 144/430MHz Telescopic Aerial & BNC Plug

**Union Brothers**

A good quality, reasonably priced telescopic aerial, designed especially for use with hand-held transceivers operating at 144/430MHz. This 5-section aerial is 535mm long when extended and 187mm long when retracted. The aerial represents 1/4 wavelength at 144MHz when extended and 1/4 wavelength at 430MHz when retracted. The aerial has a pivoted base and is terminated in a BNC connector suitable for direct connection to most hand-held transceivers.

Retail Unit Price each (inc. VAT).

Order Code	Type 870	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JM12N	144/430 BNC Aerial	£5.090	£1.590	£2.990	£5.990

## MOUNTING BRACKETS AND MASTS

### BRACKETS

## Bracket No. 1

A universal clamp for masts up to 51mm (2in.) diameter. Kit includes: 1 bracket assembly, 2 nuts and 2 shakeproof washers.

Retail Unit Price each (inc. VAT).

Order Code	Type 911	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BW42V	Univ. Clamp Type 1	£2.540	£2.250	£1.950	£2.990

## Loft Bracket

A stand-off arm with bracket for mounting aerials in lofts. Size 500 x 25mm diameter.

Retail Unit Price each (inc. VAT).

Order Code	Type 919	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BW45Y	Loft Bracket	£3.390	£2.450	£2.100	£3.990

## Bracket No. 3

A wall-mounting bracket for 25.4 to 32mm diameter mast (1 to 1 1/4 in.) and providing a 102mm (4in.) stand-off. Kit includes: 1 bracket, 2 U bolts and 4 nuts.

Retail Unit Price each (inc. VAT).

Order Code	Type 912	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
XQ53H 2	Mast Bracket Type 3	£4.240	£2.550	£2.150	£4.990

## Bracket No. 8

A heavy duty double wall-mounting bracket for masts from 38mm (1 1/2 in.) to 51mm (2 in.) diameter and providing a 304mm (12 in.) stand-off. Kit includes: 2 brackets, 2 U bolts and 4 nuts.

Retail Unit Price each (inc. VAT).

Order Code	Type 914	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
XQ54J 6	Mast Bracket Type 8	£10.200	£7.050	£6.350	£11.990

## 45cm (18in.) Mast Bracket

Larger version of XQ54J above. Used where there is a large overhang on the eaves of a house. Accepts masts of 38 to 51mm (1 1/2 to 2 in.) diameter. Manufactured from galvanised steel, and supplied complete with 'v' bolts.

Retail Unit Price each (inc. VAT).

Order Code	Type 9140	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
ZF17T 7	18 Inch Mast Bracket	£11.900	£9.400	£8.300	£13.990

## Lashing Kit No.4

A single lashing with bracket to give 152mm (6in.) stand-off for masts up to 25.4mm (1in.) diameter.

Retail Unit Price each (inc. VAT).

Order Code	Type 9890	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
XQ55K 3	Lashing Kit Type 4	£6.800	£5.800	£4.900	£7.990

## Lashing Kit No. 7

A heavy duty double lashing with brackets to give 140mm (5.5in.) stand-off for masts up to 51mm (2in.) dia. Kit includes: 2 brackets, 2 U bolts, 4 U bolt nuts, 4 J bolts, 4 J bolt nuts, 2 eyelets, 2 lengths of lashing cable and cable support guides.

Retail Unit Price each (inc. VAT).

Order Code	Type 915	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
XQ57M6	Lashing Kit Type 7	£12.750	£9.650	£8.600	£14.990

## Lashing Kit No.9

A single lashing with bracket to give 102mm (4in.) stand-off for 25.4 to 32mm diameter masts (1 to 1.25in.). Kit includes: 1 bracket, 2 U bolts, 4 U bolt nuts, 2 J bolts, 4 J bolt nuts, 1 eyelet, 1 length of lashing cable and 3 cable support guides.

Retail Unit Price each (inc. VAT).

Order Code	Type 919A	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
XQ58N5	Lashing Kit Type 9	£9.500	£7.450	£6.500	£9.990

## MASTS

### Mast Type D

A 915 x 25.4mm (3ft. x 1in.) cranked mast giving a 229mm (9in.) stand-off. Manufactured in tubular aluminium, wall thickness 1.2mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 5004	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
XQ60Q	Mast D	£3.390	£2.450	£2.100	£3.990

### Mast Type E

A 1829 x 25.4mm (6ft. x 1in.) straight mast. Manufactured in tubular aluminium, wall thickness 1.2mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 5006	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
XQ61R	Mast E	£5.940	£4.950	£4.500	£6.990

## Mast Type G

A 3048 x 38mm (10ft. x 1.5in.) straight mast. Manufactured in tubular aluminium, wall thickness 1.6mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 915	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
XQ62S3	Mast G	£18.710	£15.200	£12.750	£21.990

## Mast Type M

A 1524 x 25.4mm (5ft. x 1in.) cranked mast giving a 229mm (9in.) stand-off. Manufactured in tubular aluminium, wall thickness 1.2mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 917	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
XQ63T	Mast M	£5.090	£3.400	£2.850	£5.990

## AERIAL AMPLIFIERS

### INDOOR AERIAL AMPLIFIERS

#### Plug-In Aerial Booster

Teleste

A smart and easy to install aerial booster for TV and FM signals, that features a 'piggy back' mains socket for TV, VCR or Hi-Fi. The side entry connections allow for greater stability and a neater installation. Available in two versions - for one (BV39N) or two (BV40T) aerial outputs.

Retail Unit Price each (inc. VAT).

Order Code	Type 9315	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
BV39N	Plug-In Booster 1 OP.	£14.450	£13.300	£12.800	£16.990
BV40T	Plug-In Booster 2 OP.	£17.010	£15.350	£14.650	£19.990

#### Plug-in Signal Boosters

Maxview

A range of fixed gain, plug-in, signal amplifiers for use with TV and FM radios, when fed from a suitable aerial. The amplifiers can also be used to

link a satellite decoder to a TV and/or a video recorder. These units are housed in an attractively styled box fitted with square pins at the rear for plugging directly into a 13A socket. The unit is supplied with one input socket and between one and four output sockets, depending on the model. If the amplifiers are to feed TVs and FM radios simultaneously, then the downloads from the two aerials will have to be connected to the input socket via a diplexer (e.g., FE27E). The outputs can then be fed directly to the equipment or, if in strong signal areas, split again using diplexers. In fact, by using suitable diplexers various combinations are possible, to suit individual requirements.

#### Specification (all units)

Maximum output: 30mV  
 Noise: 3.5dB (typical)  
 Bandwidth: 40MHz to 860MHz,  
 Channels E2 to 69  
 Power requirements: 230V AC < 5W

#### Specification (each unit)

Order Code	Model	No. of Gain to	each outlet
RT67W	PSB1C 1		12.5dB
RT68X	PSB2C 2		9.5 9.5dB
RT69Y	PSB3C 3		9.5,6,6dB
RT70A	PSB4C 4		All 6dB

Retail Unit Price each (inc. VAT).

Order Code	Type 943	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
RT67X	Sig Amp 1 OP	£15.310	£11.850	£11.050	£17.990
RT68Y	Sig Amp 2 OP	£17.010	£13.150	£12.250	£19.990
RT69A	Sig Amp 3 OP	£19.560	£14.650	£13.750	£22.990
RT70M	Sig Amp 4 OP	£22.110	£16.800	£15.750	£25.990

## Indoor Amplifier

Antiference

A selection of indoor amplifiers suitable for UHF TV (colour or black and white) and FM. These amplifiers will improve weak signals, but if the poor signal quality is due to interference the unit may amplify the problem. The choice available includes a power amplifier and 4 ordinary indoor amplifiers with either 1, 2, 3 or 4 outputs so that you can run a number of televisions from one unit. Fitted with approximately 1 metre of cable these units are very simple to install to the mains, and they come complete with instructions. The amplifiers have a very low power consumption, so are safe to leave on indefinitely.

<b>YX73Q - 1 Output</b>	
Freq Range (MHz)	45 - 860MHz
Gain	16dB
Input/Output impedance	75Ω
Noise	3dB
Maximum Output	98dBμV
<b>YQ22Y - 2 Outputs</b>	

**Freq Range (MHz)** 45 to 860MHz

## TV/FM Signal Boosters

Aerial preamplifiers that can be used to boost TV or FM aerial signals. 'MultiSet 2' has inputs and outputs for connecting a single UHF or FM aerial to two TVs or FM stereo tuners. 'MultiSet 4' accepts separate UHF and FM signals and combines and redistributes them on four coax outlets. Both types are designed to be mounted directly onto a wall or similar vertical surface. Fitted with a 0.8m long lead with moulded 3-pin mains plug. Designed for continuous use from a conventional mains outlet socket. Supplied with fitting hardware and instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type 9314	Price each exc. VAT	inc. VAT each
BV41U	MultiSet 2	£17.010	£19.990
BV42V	MultiSet 4	£21.260	£24.990

## TV/FM Variable Signal Amplifiers

**Maxview**

A range of variable gain signal amplifiers for use with TV or FM radio sets fed from a suitable aerial. The amplifiers can also be used to link a satellite receiver to a TV and/or video recorder. These mains powered units are designed for continuous use and

a red LED illuminates when the unit is switched on. The amplifiers can be wall mounted or free standing, a 1m flying lead is included to connect to an FM radio, TV or video recorder. Housed in a very attractive white plastic box, the gain is easily adjusted by a flush mounted control. The amplifiers have one input socket and either 1, 2, 3 or 4 output sockets. All the sockets are flush mounted in the box. If the amplifiers are to feed a TV and an FM radio simultaneously, then the two downloads will have to be connected to the input via a combiner (e.g. FE27E). Alternatively, a masthead combiner (e.g. BW51F) can be used to feed one download. By using a combiner on the input, then a TV aerial can be used with a satellite receiver or computer and the outputs can then feed a video recorder and TVs. In fact, by using a combiner and/or splitters various combinations are possible, to suit individual requirements.

### Specifications

**KC09K**

**Bandwidth (MHz)** 40-860

## Battery Powered TV/FM Variable Signal Amplifier

Maxview

A 12/24V DC powered version of the single output amplifier described above (KC09K). Ideal for use in caravans, caravannettes, boats or long distance lorries, the amplifier has only one output, but a splitter (e.g. FE27E) can be used if necessary. The amplifier has an on/off switch, and is supplied with approx. 1.5m of twin power lead, and a 1m flying lead fitted with coaxial plugs. Dimensions 92 x 85 x 63mm.

Specification	
Bandwidth (MHz)	40-860
No. of Outputs	1
Gain (dB)	21
Gain Control Range (dB)	0-20
Noise Figure (dB)	4.5
Maximum Output (mV)	30

## Pace Channel Shifter

Pace

In areas where Channel 5 is transmitted on channel number 37 some people are still suffering from interference on their VCR's. This device may be the solution.

The pace signal shifter and booster takes the incoming signal which is on channel number 37 and shifts it up the scale to avoid interference. This allows VCR's to play back normal.

But this is not all. It also boosts the signal of the terrestrial channels - BBC, ITV, Channel 4 and Channel 5 - to help improve their picture quality. Channels 1 to 4 are boosted to 5 dB and channel 5 to 7dB.

It is simple to fit. Just attach the VCR cable, plug into the mains you are returned. No technical knowledge is required - anyone can fit it.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
G177J	Pace Channel Shifter	£29.770 1+	£34.990 1+

## DISTRIBUTION AMPLIFIERS

### UHF/VHF Distribution Amplifiers

Antiference

These multiple output amplifiers are designed to provide simply engineered, reliable UHF and VHF distribution systems from a range of plug-in units. Now you can operate more than one receiver from a single antenna using a multi-way splitter with no losses - in fact, these 'splitters' also amplify! The amplifiers will accept two aerial feeds and combine the signals for distribution, and provision is made for powering a masthead amplifier via the UHF aerial download.

All coaxial sockets meet BS3041, IEC 169-2 and DIN 45325 standards. The A260 is an ultra-wide band FM/UHF distribution amplifier for small domestic systems. It features high gain, exceptional output capability, separate FM/UHF aerial input sockets and six 'split' outputs. Provision is included for powering a mast-head amplifier via the UHF download. The A261 is an ultra-wide band VHF/UHF version for larger scale domestic systems, flats, hotels, shops, showrooms and service departments. It is provided with separate UHF and VHF aerial inlets, and these two signals are combined within to share any one of the common outputs. In addition to the features of the A260, the A261 also has a high level output socket as well as the six 'split' outlets. This can be connected to an extra distribution panel, the XP6, providing a further six outlets. In this way a number of XP6 units can be cascaded in series providing a total of 32 outlets, or up to 63 outlets using two A261 amplifiers - full details are provided with each XP6 unit.

The A281 is a wideband FM/UHF distribution amplifier as A260, but with eight 'split' outlets and an additional high level output - and by using two A281 amplifiers up to 67 outlets are possible. An

LED indicates when line power is present on the UHF input.

The distribution amplifiers are enclosed in attractive metal cases providing effective screening, minimising RF radiation and protecting the system from interference, and there is also no need to terminate unused outputs.

The XP6 is a passive, ultra-wide band plug-in 'tee' unit with six padded outputs and a low-loss through line. It has excellent performance characteristics at VHF and UHF, with a high level of isolation between its outputs so that there is no need to terminate unused ones.

A260	FM	UHF
No of Inputs	2	
No of Outputs	6

**MASTHEAD AMPLIFIERS**

**Masthead Amplifier**

A masthead amplifier for UHF in a fully weatherproof housing complete with brackets for either mast or surface mounting. The power to drive the amplifier is 12V DC and is fed to the amplifier from the special power unit BW50E, which must be bought separately, shown below.

Bandwidth: 470 to 860MHz  
Typical Gain: 15dB  
Noise: 3dB

BW46A	Masthead UP1501	£12.750	£9.750	£8.950	£14.990

**Low Noise Masthead Amplifiers**

Antiference

The UP2301 is a two stage, wideband UHF masthead amplifier, proven to be one of the most successful high gain UHF preamplifiers for fringe area reception.

It covers all channels from 21 through to 68. It has a single input and output.

The UP2501 is similar to the UP2301 but having a lower noise figure and a bandwidth limited to channels 21 to 34, useful where strong adjacent transmitters operating on other channels are a problem. It has a single input and output.

The UP3501 is a three stage, ultra-wideband amplifier for both VHF and UHF antennas, and sets a new standard for FM/TV preamplifiers. It features both high gain and output, an even response, excellent matching and very low noise characteristics. It has separate VHF and UHF aerial inputs and one common output.

All these units are housed in a tough, weatherproof plastic moulding featuring a reversible mounting bracket, which can be either surface mounted using a single screw, or tied to a mast using a black nylon tie-wrap (supplied). Cables are very easily connected to internal screw terminals and screen clamps. Each amplifier requires a 12V DC supply provided via the output downlead centre conductor.

**Masthead Amplifier**

Maxview

The Maxview 13db gain UHF Masthead Amplifier features a very low noise figure and is designed to boost UHF TV signals in weak signal areas for improved signal performance. It is designed for either indoor or outdoor use and for mounting close to the aerial, requiring +12V d.c. line powering from either a single output (BV71) or twin output (GT89) Masthead power supply unit. The medium gain amplifier provides excellent performance in smaller systems using relatively short cable runs (<15m).

The MHA13U is unscreened and recommended for domestic use only. It is easy to install and comes complete with cable tie for mast fixing or bracket for fixing to the wall.

**Technical specification**

Bandwidth	470-860MHz

**12dB Gain Masthead Amplified Splitter**

Maxview

The Maxview multi-output UHF Masthead Amplifier is designed to boost UHF TV signals in weak signal areas for improved signal performance to 3 outlets. It is designed for indoor or outdoor use and for mounting close to the aerial, requiring +12V d.c line powering from either a single (BV71) or twin (GT89) Masthead power unit.

The amplifier has built in signal splitting and when used with a single output Masthead power unit can provide UHF signal feeds for up to 3 UHF TV outlets, 4 with a twin.

**UHF & FM Masthead Amplified Diplexer**

Maxview

The Maxview UHF and FM masthead Amplified Diplexer provides separate band-limited UHF and FM inputs. Both inputs have very low noise figure amplifiers designed to provide excellent signal performance in weak UHF TV and FM radio signal areas. The combination of separate amplifiers and high performance output diplexer filtering ensures optimum signal handling characteristics. It is designed for indoor and outdoor use and for mounting close to aerials, requiring 12V d.c. line powering from either a single output (BV71) or twin output (GT89) Masthead power supply unit.

## POWER UNITS

### Masthead Amp Power Unit

Antiference

A power unit for use with our masthead amps UP1501. Supplied with instructions and screws for fixing. It has co-ax sockets for both sides of the aerial head for easy connection, and includes approximately 1 metre of mains cable.

**Specification**

Mains input: 200-250V AC 50Hz  
 Line-power output: +12V DC ±10%  
 @ 60mA max  
 Insertion loss: <1dB (40-1000MHz)  
 Cable connections: Co-ax sockets

Retail Unit Price each (inc. VAT).

		1+	5+	10+	
BW50E	Power Unit PUP1	£14.450	£12.250	£11.150	£16.990

### Single and Twin Power Supply Unit

Maxview

Both Masthead Power Supply units are designed to power any masthead amplifier. They are recommended for indoor domestic use only with a line power voltage of +12 V DC, at 50mA. Due to its design it neatly plugs directly into a socket.

The twin plug-in unit incorporates signal spitting to provide additional wideband (44-860MHz) TV output without the need for either a multi-output masthead amplifier or 2 way splitter.

**Technical Specification**

### Masthead Diplexer

Maxview

A range of three units that are capable of combining 2 grouped UHF TV inputs. These passive diplexers are intended for indoor or outdoor domestic use. Through-line powering from the output to either or both channels is available as an opt on thus allowing low noise amplification to be added for weak UHF TV signal reception areas for installations with longer cable runs. It is easy to install and comes complete with cable tie for mast fixing or bracket for fixing to the wall with two screws diplexers for the following channel groups are available:

	Low Channel	High Channel
BV68Y	21-34	39-68

## Combiner/Splitter

A 'professional' non-resistive, low-loss unit for combining antenna downloads or dividing equally the signals on one download. Supplied in a weatherproof housing, a masthead amplifier can be powered through this unit. Suitable for mast or surface mounting.

Retail Unit Price each (inc. VAT).

Order Code	Type ref	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
BW52G	Splitter CS1000	£11.050	£8.500	£7.900	£12.990

## UHF Aerial Combiners

Antiference

Ideal for use in areas where ITV stations overlap, the combiners allow two aerials in different groups to share one download. Two types are available and should be selected as below.

Aerial receiving stations in group	Aerial receiving stations in group	Use combiner
A	B	A/E
A	C/D	A/E
A	E	A/E
B	C/D	AB/CD

The unit is very easy to install on the aerial mast or a vertical surface and masthead amplifiers can be powered through the unit on either or both inputs. Supplied with full instructions.

**SPLITTERS AND FITTINGS**

**2-Way UHF TV Splitter**

Two good quality, metal shrouded screened UHF TV signal splitters. The splitters are electrically identical but offer different arrangements of plugs/sockets. Type 1 has one input plug and two output sockets. Type 2 has one input socket and two output plugs. Both types have an insertion loss of 4.5dB and are suitable for use with frequencies up to 1GHz. Isolation between the outputs is 22dB.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each

		1+	10+	25+	1+
YN54J	Flush TV/FM Outlet	£7.650	£5.400	£4.950	£8.990

## TV/Satellite Outlet Socket

A flush-mounting dual outlet socket containing one conventional VHF coaxial socket, and one threaded F connector socket for a satellite feeder to connect to a receiver. Screw fixings for both coax cables are provided at the rear. Fits standard conduit and surface boxes (see Electrical Accessories) to BS1363. Screws supplied. Front panel is 85mm square. Depth (from rear of front panel) 15mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 0146	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
LN64U	TV/Sat Outlet	£4.240	£3.850	£3.250	£4.990

## Balun 300/75Ω

A receiver transformer to enable 300Ω balanced feeder (XR31J) to be used when TV or FM receiver has 75Ω unbalanced aerial input. The balanced feeder terminates on screw terminals on the balun which may then be plugged into a standard co-ax socket. By using an in-line co-ax socket and a short piece of 300Ω feeder it is possible to use the balun in reverse. Size of body 38 x 22 x 20mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 0145	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FD78K	300/75 Balun	£1.940	£1.450	£1.250	£2.290

## Attenuators

For in-line connection. Standard coax socket at one end, standard coax plug at other end in bright aluminium alloy bodies and suitable for VHF and UHF. They have low VSWR and are clearly marked. Two types available: 6dB or 12dB. Length 45mm (approx).

Retail Unit Price each (inc. VAT).

## TVI Filter

### Antiference

A high quality filter designed to be inserted in the aerial leads of TV sets suffering from interference from CB transmissions. The filter is peaked to reject signals from transmitters operating on 27 to 28MHz while giving a very low insertion loss to UHF TV signals. The unit plugs directly onto the end of the existing TV aerial lead.

Retail Unit Price each (inc. VAT).

Order Code	Type 066	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
YL43W	TVI Filter	£5.090	£3.900	£3.650	£5.990

## EXTENSION LEADS

### TV Aerial Flylead

Co-axial cable with co-ax plugs connected at both ends. Available in 2m, 5m and 10m lengths.

Retail Unit Price each (inc. VAT).

Order Code	Type 068	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RW36P	Flylead 2m	£1.690	£1.000	£0.750	£1.990
JW39N	Flylead 5m	£2.450	£1.500	£1.250	£2.890
JW40T	Flylead 10m	£3.310	£1.750	£1.500	£3.890

### Aerial Extension Cable

Co-axial extension lead manufactured from 75Ω co-axial cable. Terminated at one end in a co-axial plug and at the other end in a co-axial socket. The terminations are protected with a plastic strain relieving sheath. Length 2m.

Retail Unit Price each (inc. VAT).

Order Code	Type 070	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
GW61R	Aerial Extn Cable	£1.690	£1.000	£0.750	£1.990

## FLAT CABLE

### Flexible link Connector

The Flexible link connector is ideal where it is not possible or convenient to drill a hole through a window frame. The flat flexilink can be moulded to fit the contours of most windows. Available with a coax plug (MY13P) or an F plug (MY12N) on each end.

Retail Unit Price each (inc. VAT).

Order Code	Type 17006	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
MY12N	20mm Flat F-F plug	£2.110			£2.490
MY13P	20mm Flat coax-coax	£2.110			£2.490

## Wrist-Strap / Cord

For use when handling CMOS and other devices that are prone to electrostatic damage. This fabric wrist-strap is comfortable to wear and prevents electrostatic charge building up. The strap is pulled tightly around the wrist and locked in place with a Velcro fastener. Three conductive threads woven into the fabric press against the skin and allow any electrostatic charge to leak away to earth.

### Specification

Material: Acetate fibre  
 Size: 230 x 20mm  
 Fits wrists from: 160 to 200mm circumference  
 Cable length retracted: 430mm (extended: 2m)  
 Current limiting resistor: 1M $\Omega$  moulded into fastener  
 Net weight: 22g

		1+	5+	10+	1+
JA64U	Disposable W. Strap	£1.520	£1.390	£1.290	£1.790

## Straight Earth Cords

Straight earth connectors for use with antistatic protection equipment. Cord AS37S is terminated at one end with a 10mm female press-stud and a 4mm banana plug at the other and includes a fitting crocodile clip. Overall cord resistance is 4.4M $\Omega$ . The cord measures 1.2m in length and is 2.5mm thick. AS49D is similar in construction, but is terminated in 10mm and 4mm press-studs and does not include the crocodile clip. AS07H is 1m long and is terminated at both ends with 10mm studs.

### Retail Unit Price each (inc. VAT).

Account Enquiries: 01702 554187

## Coiled Earth Cords

Extremely flexible coiled ground cords for earthing an operator to an antistatic mat or earth plate. AS04E has 10mm female press-studs at each end which incorporate a 2.2M $\Omega$  resistor and strain relief. The cord measures approximately 560mm relaxed and stretches up to 3m. AS05F is of a similar construction but has a 10mm female press-stud at one end and a 4mm press-stud at the other. AS06G is again similar but has a 10mm press-stud incorporating a 4.4M $\Omega$  resistor at one end and a banana plug at the other, fitted with a removable crocodile clip.

### Retail Unit Price each (inc. VAT).

CH44X	Heel Strap	£4.240	£3.600	£3.500	£4.990

See Stock Code Index For More Price Breaks

**Earthing Plates**

Earth reference plates for use with antistatic products. Available with either 3 x 10mm stud array and a threaded earth connector (AS08J), or with 4 x 10mm stud array (AS09K). The threaded earth connector extends 25mm and is countersunk from below the plate. The plates measure approximately 125 x 75 x 6.5mm (AS09K is 3mm thick).

Retail Unit Price each (inc. VAT).

		1+	5+	10+	
AS08J	Threaded GND Plate	£5.090	£4.990	£4.790	£5.990
AS09K	Sludged GND Plate	£5.090	£4.990	£4.790	£5.990

**Work Mat**

A tough conductive flexible plastic mat which can be used to prevent the build-up of static charges on devices or equipment likely to be at risk. The mat has an earthing strap which may be clamped to a suitable earth by a jubilee clip. The static charge on any item placed on the mat will leak away to earth. Computers placed on the mat will not generate spurious data when touched by someone holding a static charge for example. The mat is also useful for safe handling of CMOS devices etc. Size 500 x 350 x 1mm.

Retail Unit Price each (inc. VAT).

YJ30X	Antistatic Workmat	£21.260	£16.440	£11.770	£24.990

**Antistatic Bench Mats**

- ★ In-built resistance
- ★ Hard-wearing
- ★ Molten solder resistant
- ★ Resistant to most solvents
- ★ Safe non-conductive surface

These worktop antistatic mats are constructed in a two-layer material: a static dissipative surface layer and a conductive backing. Meets European specification (EN100 015). Two sizes are available in grey.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each

**Field Service Engineer's Kit**

A portable static dissipative work station primarily intended for field service engineers - such as computer hardware and telecom engineers, who require a compact, lightweight work surface. The kit is ideal for servicing equipment and/or PCBs which incorporate static-sensitive devices and components.

The mat has three 'Velcro' strips, and when folded forms two large pockets which can hold small tools, components, boards, and the items in the kit. The mat with its contents are then housed in a convenient pouch for storage/travel.

The mat and pouch are constructed from a lightweight hardwearing material finished in dark blue, with a stitched edge. The kit comprise the following:

- 1 x mat and carry pouch
- 1 x adjustable wrist strap

- 1 x coily ground cord AS04E
- 1 x straight earth connector AS07H
- 1 x straight earth connector AS37S
- 1 x ESP bonding plug AS38R
- 1 x conductive tweezers CH43W

**Specification (mat and pouch)**

Surface resistivity: <math><10^9</math>/sq. m.  
 Charge decay: <math><2s</math> (5kV to 37V)  
 Tensile strength: 1.4KN  
 Elongation at break: 20%  
 tear strength: 38N  
 Dimensions  
 mat open: 595 x 595mm  
 mat pocket: 200 x 285mm  
 pouch: 350 x 180mm

JA62S	Field Service Kit	£48.500	£40.950	£31.000	£56.990

**Triple-Ply Static Dissipative Workstation Kit**

A static dissipative workstation kit containing all the necessary items required for the setting up of a static-free environment, for the protection of static sensitive devices. This kit is supplied with heavy duty triple-ply bench matting, suitable for extensive use. The kit comprises the following:

- 1 x Triple Ply Antistatic Bench Mat – dimensions 1200 x 600 x 1.5mm (AS36P)
  - 1 x Conductive Nitrile Floor Matting – dimensions 1200 x 600 x 3mm (AS02C)
  - 1 x Adjustable Wrist Band (AS03D)
  - 1 x Ground Cord – length 1m (AS04E)
  - 3 x Straight Earth Connectors – length 1m (AS07H)
  - 1 x Earth Reference Plate – dimensions 125 x 75 x 3mm (AS09K)
  - 1 x Executive Bonding Plug – 1MΩ (AS38R)
  - 1 x Conductive Plastic Tweezers (CH43W)
- Certain parts can be ordered separately or order AS35Q for the complete kit.

## Conductive Workstation Kit

This kit contains all the necessary items required for the setting up of a conductive static-free environment, for the protection of static sensitive devices. The kit comprises the following:

- 1 x Conductive Nitrile Bench Matting – dimensions 1200 x 600 x 1.5mm (AS01B)
- 1 x Conductive Nitrile Floor Matting – dimensions 1200 x 600 x 3mm (AS02C)
- 1 x Adjustable Wrist Strap (AS03D)
- 1 x Ground Cord – length 1m (AS04E)
- 3 x Straight Earth Connectors – length 1m (AS07H)
- 1 x Earth Reference Plate – dimensions 125 x 75 x 3mm (AS09K)
- 1 x Executive Bonding Plug – 1MΩ (AS38T)
- 1 x Conductive Plastic Tweezers (CH43W)

Also includes a full guide and instructions on how to use the kit and avoiding static related problems. For full kit order AS00A, or alternatively order items separately.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
AS00A	11 Conductive A/S Kit	£97.090	£98.000	£92.740	£114.090

## Electrically Conductive Tweezers

Plastic electrically conductive tweezers designed specifically for the placement of static sensitive devices. The tips are small enough to manoeuvre the smallest of components while the handles fit comfortably into the hand. Serrations on the tips help to securely hold components during placement.

NB. AS THESE TWEEZERS ARE CONDUCTIVE THEY MUST NOT BE USED ON LIVE CIRCUITRY!

Retail Unit Price each (inc. VAT).

		1+	5+	10+	1+
CH43W	Antistatic Tweezers	£2.110	£1.690	£1.380	£2.490

## Conductive Desoldering Pump

Antex

A conductive desoldering pump consisting of a nickel-plated aluminium body with a black conductive Teflon tip. This results in a low 'top-to-tip' resistance. Replacement tip is available.

- Overall length: 195mm
- External diameter: 20mm
- Suction volume: 7-7cc
- 'Top-to-tip' resistance: 10Ω
- Spare tip: BA20W

Retail Unit Price each (inc. VAT).

		1+	12+	36+	1+
YB79L	Antistatic Spray	£3.390	£2.950	£2.700	£3.990

## Triple-Ply & Conductive Matting Systems Checker

This system checker has been designed to meet BT's stringent specifications for both the instrument performance and for the limits imposed within a safe handling area. These specifications exceed those demanded by BS EN 100015.

The unit will test three features of a work station:

- Test 1. Wrist band test - This measures the conducting path of the user, the user's wristband, the cord and the connection between these components.
- Test 2. Cord test - monitors the integrity of the cord in isolation
- Test 3. The unit also has the facility to test the

integrity of the cords, bench and floor covering together, including the connections between.

### Specification

Test	Min Resistance Limit Ω	Max Resistance Limit Ω
Test 1	3.7MΩ ±5%	50MΩ ±10%
Test 2	4MΩ ±2%	4.8MΩ ±2%
Test 3	7.4MΩ ±5%	11.4MΩ ±5%

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	+	+	1+
JAB1R	A/S System Checker	£84.250			£99.000

## Surface Resistance Meter

A simple yet effective meter for checking that antistatic bench and floor matting is working correctly and of the correct quality. Simply place the meter on the surface to test and hold in the button. The electrical conductivity will be indicated by the array of LEDs, which signify resistances in the range 103 to 1012Ω/SQ. This device can also be used to measure the resistance to earth by connecting a lead to the 3-5mm jack socket at the side of the unit. Operation is from a PP3 9V battery (JY49D), not included. Overall dimensions are 145 x 80 x 34mm (L x W x H).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
ASS1F	1 Resistance Meter	£67.230	£64.000	£63.000	£79.000

## Wrist Strap and Heel/Toe Strap Tester

A simple handheld meter for checking the resistance of wrist straps etc. Two manually switched ranges are available for measurements between 0-5MΩ and 10MΩ or 0-9MΩ and 35MΩ. To test a wrist strap or similar, ensure you are wearing the strap correctly then press the silver disc with a finger. If the strap passes then a green LED will illuminate. If the strap is worn incorrectly or does not pass the test a buzzer will sound and a red LED will illuminate. A battery warning circuit constantly monitors the battery condition and lights a yellow LED if the battery is becoming low. Operation from PP3 9V (JY49D) not included, or an optional battery eliminator via a 3-5mm jack socket. Dimensions are 134 x 72 x 28mm (L x W x H).

**Conductive Plastic Trays**

Conductive plastic tray constructed from carbon black filled low-density polyethylene which is resistant to most chemicals. The effectiveness of these trays is unchanged with age or humidity. AS15R is a conductive component tray with a 10mm press stud connector for earth grounding purposes. AS16S is a stackable conductive tray. DT85G is primarily intended for use as a chemical tray for PCB development, having a specially shaped corner to aid the pouring of liquids from the tray.

**Auto-Tuning Miniature Radio Receiver**

A compact and highly portable radio receiver for reception of FM broadcasts. Designed to fit easily into a top pocket, this unit provides high quality mono reception with simple to operate controls. A two level volume control also acts as an on/off control, while tuning is achieved with a single press button. Successive presses of the tuning button steps through the available channels, until the top of the receiver band is reached. A single press of the reset button sets the tuning back to the beginning of the band. Supplied with full operating instructions. Available in transparent blue (BS57M) and transparent red (BS56L).

**Specification**  
 Frequency range 88 - 108MHz  
 Power source 2 x 1.5V 'LR44' button cell  
 Antenna Earphone cable antenna

BS57M 1	Mini FM Radio Blue	£5.940	£6.990

**Miniature FM Radio**

This miniature, auto-tuning, FM radio receiver is a product of state of the art miniaturisation and produces a quality of reception that is normally only expected from radios many times its size. This little radio is provided with an 'on/off' switch, a 'seek' button and a 'reset' button and a pair of earphones, attached to 800mm of cord, that also doubles as the aerial. The 'seek' and 'reset' buttons are used for tuning. To operate, the 'reset' button is pressed once. This sets the frequency at the low-end of the tuning range (i.e. 88MHz). Then the 'seek' button is pressed once for each station that is automatically tuned in to, until the desired station is found. If you have a favourite station, then tuning in is not required every time the radio is switched on, as the last station selected is always remembered when the power is switched off.

Frequency range: 88MHz to 108MHz (FM)  
 Power source: 1 x 3V lithium button cell  
 Type CR2032 or equivalent (supplied)

## WORLD RECEIVERS

### Air/PB/WB/TV1/FM/CB Radio Receiver

3

A compact radio capable of receiving air, private, water, TV, FM and citizen band transmissions. A squelch control helps to eliminate background hiss when stations stop transmitting, and external jack sockets are provided for an earphone and external power supply. The unit is supplied with a fully retractable aerial that also tilts to allow optimum signal reception regardless of the surroundings. Operates from four 'AA' type cells (not supplied, order JY48C). Supplied with full operating instructions.

**Specifications**  
 Frequency range: Airband 108 - 145MHz  
 Private Band 145 - 176MHz  
 Weather Band 162.5MHz  
 TV1 Band 54 - 87MHz  
 FM Band 88 - 108MHz

### Micro Cassette Recorder - TP-35

Casio

- ★ Two speed recording
- ★ Digital tape counter
- ★ Voice activation control
- ★ One-touch recording
- ★ Automatic shut-off
- ★ Built-in speaker

Compact and simple to operate, this stylish micro-recorder is ideal for the office, home and personal use. Main controls include Play, Stop, Record, Fast Forward/Cue, Rewind/Review, Pause, a thumb wheel control for volume, slide switches for Tape

Speed, Voice Activated Recording and a press button for Counter Reset. Records meetings and notes, etc., onto micro-cassettes, which are easy to store, be it in a pocket, briefcase or desk, and are rugged enough to withstand normal office wear and tear. Features Voice Activated Recording whereby the unit will pause when silence is heard for between 2 and 6 seconds, reducing the unnecessary use of valuable recording time. External jack sockets are provided for a microphone and earphone. A built-in speaker allows fast and simple playback without the need for headphones or an earpiece. The tape counter enables the location of sections of speech, etc., giving faster access to information and the ability to create a catalogue of each tape's contents. Operates from two 'AA' type batteries (not supplied, JY48C) and is supplied with full operating instructions.

**Specification**  
Frequency response 300-4000Hz  
Tape speed 2.4/1.2cm/s (switchable)  
Speaker 30mm diameter 4Ω impedance

Maximum power 150mW

## Pioneer NS-1 Mini System

- ★ 'One Touch' Play for easy operation
- ★ Chrono Multi Display
- ★ 35W RMS power with 55W RMS for the subwoofer
- ★ Subwoofer level control
- ★ Bass/Treble control (2-step)
- ★ Stereo wide control
- ★ FM/AM tuner with 36 presets and RDS functions including Radio Text, Program Service and Program Type
- ★ Slot-In CD player
- ★ Horizontal loading single cassette deck with auto direct play
- ★ Dolby B noise reduction

★ **Automatic synchronous recording from CD**  
A stylish and compact system combining the highest in quality components and construction techniques. Slot-In CD loading, a user-friendly remote control, RDS tuner and front-loading cassette deck give easy operation. Space-saving satellite speakers present clear mid and treble ranges, while a powerful subwoofer reaches down to the lowest bass frequencies. Unique horizontal cassette loading with autoplay function and Slot-In CD provides a sleek, stylish feel to the front panel controls with the most complicated dubbing tasks reduced to a single key press. The radio section features the latest in RDS technology with auto-tuning to the strongest frequency when there is a choice of two or more transmission sites. The station name, radio text and programme type are all indicated on the multi-function front panel which also has an in-built clock function. A multi-function VU meter array also gives information about the current setting including balance, volume and tone controls, etc. Supplied with full operating and setting up instructions, and a full remote control to allow 'armchair' control.

FU29W 1	Amplifier HK 610	£153.180	£179.990

**TUNERS**

**Stereo Tuner**

Teac

- ★ Precision quartz PLL tuning system.
- ★ Random-access 20-FM/20-Am station memory.
- ★ Station Name filing function
- ★ FM stereo/mono mode selector
- ★ Timer operation for A-R300
- ★ UR control by the A-300 with cable connection.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC62S	Tuner TR400	£102.110	£119.990

**Tuner - ST-57**

Marantz

- ★ Wide choice of listening clean, low noise reception of FM stereo, Medium Wave and Long Wave bands.

★ High quality design quartz-locked digital tuning for drift free reception, plus low noise signal processing.

★ Advanced RDS displays station name and programme type and radio text; plus tuning by frequency, station name and programme name.

Key Features.

- Metal front panel.
- 59 Station presets.
- Adjustable scan sensitivity.
- Broadcast frequency key-in.
- 'narrow' IF setting for best reception of weaker broadcast among stronger signals.
- dedicated circuit removes birdy whistle (pilot tone) from FM stereo broadcasts.

## SURROUND SOUND

### Goodmans GHC40 Pro-Logic System

NEW LOW PRICE

This superb Dolby Pro-Logic Surround Sound system brings all the features of this sound entertainment system plus the added convenience of being able to accommodate your television and video recorder in one beautiful finished piece of furniture. This six speaker system incorporates a Dolby Pro-Logic decoder plus a 40W rms active subwoofer for improved bass performance and power to deliver the low frequency sounds. The two built-in swivelling front speakers give enhanced stereo imaging, while the two rear satellite speakers, which operate via the Dolby Adaptive Matrix, give the surround effect of the cinema. A centre channel speaker is used to give enhanced definition to dialogue. A complete home cinema system which has been designed for both video and satellite storage and up to a 84cm (33in.) TV set.

#### Specification

Total power: 300W PMPO  
Speakers: 4 x 100mm full range surround  
1 x 125 x 75mm elliptical centre  
1 x 200mm subwoofer with 40W rms amplifier

S/N ratio  
surround: 66dB  
subwoofer: 68dB  
Sensitivity: 300mV

Supplied with all necessary connecting leads (SCART and phono), and remote control.

FN76H 1	Prologic Twin Towers	£212.750	£249.990

### Dolby Pro-Logic Surround Sound Processor

Now you can bring the excitement and enjoyment of 'big film sound' to your home with this superb Dolby Pro-Logic Surround sound processor. Not only will the unit decode the Dolby surround sound information encoded on suitable video tapes and television programmes, but two other synthesis effects can also be selected. 'Hall' will create the 'spaciousness' or reverberation experienced in a concert hall by using digital delay techniques. Matrix will synthesise stereo from a mono source such as old movies, mono TV programmes or VCR tapes. The processor has a 30W stereo amplifier that can be used to power centre front and rear speakers or stereo rear speakers. Line level outputs are provided for various combination including a subwoofer with a crossover frequency of 100Hz. This processor is supplied with remote control, full operating instructions and suggested connecting diagrams.

#### Specification

Power output: 2 x 30W peak either for centre front and rear or left and right rear.

Frequency response matrix:  
hall: 100Hz to 7kHz  
Dolby surround: 100Hz to 7kHz  
S/N ratio: 90dB (surround decoder)  
Delay time: 30ms or 50ms - digital  
Line input: 150mΩ  
Input impedance: 47kΩ  
Max. input voltage: 5V  
Output level: 1.2V (Dolby mode)  
Subwoofer output: 2V  
crossover: 100Hz  
Functions: Dolby Pro-Logic Surround Sound, Hall, Matrix and monitor  
Inputs: line and tape  
Outputs: line out (unprocessed), centre, subwoofer, surround out (processed), tape record  
Display: 5 level LED for surround, left, centre, and right  
Remote control: infra-red using 2 x 'AA' batteries  
Power requirements: 230V AC 50Hz  
Dimensions: 420 x 52 x 232mm  
Weight: 4kg

## MINI SPEAKERS

### Portable Active Speakers

A compact pair of 7W extension speakers, designed for use with personal stereos, portable CD players and multimedia PC systems. Each speaker has a separate volume control and power switch, to allow each speaker to be controlled totally independently. Power can be supplied from a 6V DC mains adaptor (not supplied), or from four AA batteries (JY48C), two in each speaker. A dynamic bass boost system automatically boosts low-frequency audio, giving a

spacious, full sound.  
The speaker dimensions are:  
125 x 85 x 70mm (H x W x D)

## Control Speakers

JBL

The JBL Control Series compact monitors take flexibility to new extremes, putting you in full control. The modest size and rugged, industrial high tech design of the JBL control series make these compact monitors suitable for almost any application. The JBL badge can be rotated to match the orientation of the speaker, standing upright or lying on its side.

The JBL Control Series compact monitors employ large screw terminals for tight, reliable cable connections.

The superior performance, compact dimensions and comprehensive video shielding of the JBL Control series compact monitors also make them suitable for use near TV or computer screens.

## Wharfedale Programme 30D Loudspeakers.

Wharfedale

NEW LOW PRICE

British Loudspeakers are renowned throughout the world for their quality of sound and for their craftsmanship.

The programme 30D has been based on this successful design and stands just 9" high, 7" wide and 8" deep, using new Wharfedale-design drive units for extended and smooth high frequency response. Tight dynamic bass is guaranteed by the use of Wharfedales technology and a large magnet bass/midrange unit. A new crossover features TOP (Tweeter Overload Protection) to prevent accidental damage while allowing a full 75 watts of power handling.

### Specifications

## Valdus Speakers

WHARFEDALE

Building upon 63 years experience in the design and manufacture of loudspeaker drive units Wharfedale have produced a new family of advanced drive units for the valdus range. Built to be tough and to deliver the goods they all have high temperature voice coils and oversize magnets assemblies so that they punch out the levels of bass you need each and every day. Wharfedale have also developed a completely new tweeter for the VALDUS speakers. Designed to push out the highs cleanly and at real levels the Q316T has a super large 28mm plastic dome coupled to a coil kept cool by a special ferrofluid magnetic oil.

The moulded horn shape boosts the sensitivity and directs the sound to where it is needed - at the listener. Choose from the complete range of 5 speakers - see below

## Wharfedale Modulus Vivendi Movies 5 Cinema Sound System

This collection of speakers from one of the most famous and highly regarded British loudspeaker manufacturer offers a well balanced, clean and polished sound performance. Comprising of cuboid satellite and rear speakers, a centre speaker plus a subwoofer, this package sounds big - just as the film dictates. Action packed films are handled with dynamic conviction, which makes this system one of the best at the price. Bass is well balanced and powerful, and the centre speaker is magnetically shielded and can sit close to the television. There is weight and clarity to the centre channel which is kept precisely located to the television screen. This Wharfedale system brings a whole new meaning to Home Cinema Sound.

- \* Satellites 1 x 100mm Fullrange unit
- \* Centre 1 x 100mm Fullrange unit

## HD535 Classic Headphones

Sennheiser

An ideal combination of price and sound quality, the HD 535 opens the door to high end quality sound. Because of its balance and powerful bass response it is equally good coping with the demands of rock and pop music as well as the subtleties of classical recordings. The HD535 carries the ears with comfort-soft circumaural earpads and connects to the hi-fi system via a gold-plated jack plug/adaptor.  
 Frequency Response (Hz) 20-25,000  
 Impedance ( $\Omega$ ) 150  
 Total harmonic distortion (%)  $\leq 0.25$   
 Weight (g) 225  
 Supplied with 6.3mm jack plug.

Retail Unit Price each (inc. VAT).

VC76H	HD535 150ohm Headphon	£89.350	£104.990

## Infra-Red Stereo Headphone System - A085D

A stereo headphone system for use with any AV stereo source. The headphones offer high quality sound, ratchet adjustable headband, soft padded earpieces, individual volume controls and a green LED on indicator. The transmitter is a compact unit that can be free-standing or wall mounted with an integral 1.75m lead terminated in a 3.5mm stereo plug, on/off switch and is powered by a power adapter, supplied.

### Specifications

Wavelength: 940nm  
 Carrier frequency: Left 210kHz, Right 355kHz  
 Frequency response: 30Hz-18kHz  
 Channel separation: >40dB  
 Impedance: 32 $\Omega$   
 Power supply (transmitter): 12V DC (adapter supplied)  
 (headphones): 2 x 1.5V 'AA' type cells (not supplied, order 2 x JY48C)  
 Dimensions: 160 x 105 x 190mm  
 Weight (transmitter): 0.205kg  
 (headphone): 0.195kg

Retail Unit Price each (inc. VAT).

MY15R 1	Stereo RF headphone	£59.560	£69.990

## Stereo Headphones with Boom Microphone

These lightweight stereo headphones feature an adjustable boom microphone, and a tough plastic headband with stainless-steel adjusters. The foam-padded earpieces each contain high-quality rare-earth samarium cobalt transducers for a high standard of sound reproduction. A foam windshield covers the sensitive microphone capsule, which is an omnidirectional dynamic type. The straight screen lead terminates in a 6.3mm stereo plug for the headphones, and a 3.5mm mono plug for the microphone.

### Specifications:

Headphone impedance: 32 ohms  
 Headphone frequency response: 100Hz to 20kHz  
 Headphone power handling: 150mW  
 Microphone impedance: 250 ohms  
 Microphone sensitivity: -78dB @ 1kHz  
 Lead: 2.5m long, straight  
 Microphone plug: 3.5mm mono  
 Headphone plug: 6.3mm stereo  
 Weight: 80g

Retail Unit Price each (inc. VAT).

DU21X	Video/Disco Phones	£11.050	£12.990

## Fully-Enclosed Mono Headphones with Boom Microphone

3

Ideal for use by DJs, these mono headphones incorporate a uni-directional dynamic microphone mounted on an adjustable sprung-steel boom. The earpieces are fully enclosed to cut down ambient sound, and are mounted on an adjustable headband with chrome wire adjusters. For clarity of sound, high-quality mylar transducers are fitted to each earpiece. The straight screen lead is terminated in colour-coded plugs.

### Specification:

Headphone impedance:	600 ohms
Headphone frequency response:	100Hz to 20kHz
Headphone power handling:	200mW
Microphone impedance:	200 ohms
Microphone sensitivity:	-80dB @ 1kHz
Lead:	1.75m long, straight

## Stereo Headphone with Microphone

A stereo headphone with an adjustable leather effect headband, and a 19mm diameter dynamic microphone on a bendable PVC sleeved boom. The boom is mounted on a swivel base on the left-hand ear pad shell. The 40mm diameter mylar speakers are mounted in black plastic shells with leather effect foam filled ear pads. The phones have 2.2m of flat cable terminated in a 3.5mm stereo jack plug for the ear phones, and a 3.5mm mono plug for the microphone. The microphone is a low impedance dynamic type as opposed to an electret type, so no energising battery is required. However, a suitable low impedance microphone preamplifier will be required.

### Headphones

Impedance:	32Ω ±15%
Rated power input:	30mW
Maximum power input:	100mW
Frequency response:	40Hz to 12kHz

## VIDEO EDITING EQUIPMENT

### 'Mix As You Shoot' Camcorder Audio Mixer

If you're fairly new to the wonderful world of the camcorder, you will probably recognise the need for an audio mixer during the editing stage. With one of these, you can mix in commentary and background music with the camcorder's audio channel, and lend a much more professional feel to your production. This mono 3-input device is different in that you can mix sounds while you shoot, and so is useful for recordings where no editing is required, such as videotaped transcripts of meetings. There are inputs for a pair of microphones (handy for interviews) and a line-level source, such as a CD player. Each input has its own slider level control, and the mixed output is fed into the camcorder via its external mike jack. An advantage is that it is a passive device - in other words, no batteries are required. The compact mixer (85 x 53 x 18mm) attaches to the camcorder, handstrap or belt. Supplied with two stereo leads with 3.5mm jacks and one stereo to mono lead with 3.5mm jacks.

CB78K	Camcorder Mixer	£34.030	£39.990

## Camcorder Audio Mixer

A 4 channel stereo mixer intended for editing and dubbing audio soundtracks on video recordings, i.e. at the camcorder to domestic VCR transcription stage. Inputs are provided for L/R microphones, tape/tuner/CD, turntable and camcorder audio soundtrack. Each channel can be faded in and out using the slide fader level controls. The turntable input is switchable between magnetic and ceramic pick-ups. A master fader controls the output level. With the exception of the 6.35mm (1/4 in.) jack socket microphone inputs, all signal inputs and outputs are via phono connectors. Requires a 9V PP3 battery to operate, alternatively an external 9V DC supply may be used.

### Specification

Power requirements: 9V PP3 battery or 9V DC supply  
 Mic input: 1mV/600Ω  
 Phono (mag): 3mV/50kΩ (RIAA equalised)  
 Tape/CD/tuner input: 150mV/50kΩ  
 Camcorder input: 150mV/50kΩ  
 Output level: 500mV  
 Distortion: <0.5%  
 S/N ratio: >55dB  
 Frequency response: 20Hz to 20kHz ±2dB  
 Dimensions: 267 x 68 x 192mm

## Automatic Video Editor

Take all of the frustration and guesswork out of your video editing with this high quality automatic video editor. The VP-274 allows you to manually or automatically cut and splice scenes on the run, make simple cuts and fades and use sophisticated sound mixing from multiple audio sources to create a richer and more involving soundtrack.

The editor has basic image enhancement capabilities to help sharpen and clean up your copies and features a choice of fades (to colour or black and white) and wipes, a 192 scene memory and the ability to 'learn' your current system's infra-red codes so that you can control the action from your video's remote control. The VP-274 video editor is compatible with VHS, S-VHS, S-VHS-C, Hi8, VHS-C and Video 8 and is supplied with a mains adaptor, infra-red remote control and full instructions.

### Specification

Video:  
 Input impedance: 75Ω

## Video Special Effects Processor

Make your videos more watchable and involving by adding special effects from the choice offered by this sophisticated special effects processor. The VP-275 gives you automatic or manual access to more than 50 different wipe patterns, eight background colours for fade and wipe effects and a range of halo effects and borders. Controlled by a digital computer, it also features eight pages of memory for custom wipe effects, all available at the touch of a button.

The VP-275 special effects console is compatible with VHS, S-VHS, S-VHS-C, Hi8, VHS-C and Video 8. Supplied with full instructions.

### Specification

**Video Processor**

Add professional editing effects and stereo sound (with DNRTM noise reduction) to your videos with this easy to use and flexible video processing console. It's easy to use and provides access to a wide range of fades and image enhancements, including colour gain correction, detail enhancement and colour correction. The VP-265 even has a very handy split screen feature to enable you to make instant 'before and after' comparisons of the image as you make your changes. The VP-265 video processing console is compatible with VHS, S-VHS, S-VHS-C, Hi8, VHS-C and Video 8 and is supplied with a mains adaptor, headphones with integral microphone and full instructions.

**Video Editor**

The VP-272 is a manually controlled video editing console that will make editing your camcorder footage much more straightforward and rewarding. It allows you to cut and splice scenes on the run, make simple cuts and fades to make your 'story-line' flow more freely and help you to sharpen and clean up the image on your copies. The console also offers basic audio mixing capabilities to allow the addition of narration/voiceover and music to replace or supplement your existing soundtrack. The video editor features the ability to 'learn' your

current system's infra-red codes so that you can control the action from your video's remote control. The VP-272 video editor is compatible with VHS, S-VHS, S-VHS-C, Hi8, VHS-C and Video 8 and is supplied with a microphone and full instructions. Suitable mains adaptor is BZ83E.

**Specification**

Video:  
Input impedance: 75Ω

BJ95G 1	Video Editor	£93.600	£109.990

**Video Processor with Special Effects**

Now you can create exciting home videos with this superb video editing processor. The processor has a wide range of diverse video effects including fade in/out and over 30 wipe patterns which allow you to cut and mix images from two different sources (i.e. a video recorder and camcorder) to enhance your videos. The fade in/out can be from a black and white or colour background. The borders of the wipe pattern can have a 'halo' effect which can be varied from sharp to a very soft focus. Similarly, the pattern angle can be varied from horizontal to vertical. In addition, there is a built-in stereo audio mixer which features three stereo inputs. This allows the audio output from the camcorder to be mixed with background music and a voice over. The audio master volume adjusts the volume of the overall mix - an LED stereo bargraph is provided to assist in setting the master volume control. The video master control adjusts the fade under 'fade' mode, or the wipe pattern position on screen under 'wipe' mode. A microphone jack socket is provided for an external microphone for commentaries and voice overs. A headphone output allows the audio mix to be monitored via headphones. A black and burst output provides synchronising pulses to cameras, VCRs and time base correctors (TBC) that can accept such information. A 'genlock' switch is provided to select operation with a genlock source. For normal use this will be operated in the normal position. Dimensions 380 x 250 x 65mm. Requires an external 12V DC supply.

## High Resolution Video Processor

Videotech Design

This processor is fully compatible with all formats, including SVHS and Hi8. It will also convert 'S' video to composite video and vice versa. Designed to enhance original footage this unit offers push button selection of picture processing providing adjustment of detail enhancement, brightness, contrast and colour. The VEC1070 features split screen processing and a versatile 3 channel mono/stereo audio mixer with master fader, microphone and headphone socket. Supplied complete with mains adaptor and starter pack of leads. Guaranteed for two years.

## VCC3010 High Resolution Video Corrector

This high specification video processor, designed and manufactured in the UK, is compatible with all types of UK standard PAL video equipment – including ALL formats of camcorders and video recorders (S-VHS, VHS, Hi8, 8mm etc), photo-CD players, computers with genlock, photo-slide copiers and TV tuners (terrestrial or satellite). It is equally at home as the front end to a home entertainment system or in a studio correcting and balancing multiple video sources into a vision mixer. Although specifically designed for tape to tape copying, the VCC3010 is ideal for any situation where a/v switching or picture correction is needed and offers a degree of fine control and enhancement that's hard to match on other processors. It even includes a split screen option for the comparison of images before and after corrections.

In addition to colour correction and picture processing (detail, brightness, contrast, colour separation) it's capable of a range of special effects including positive/negative switching and picture tinting (including a sepia effect). Colour correction makes use of a specially developed 'synchronised

colour mixing' system that adjusts the individual RGB signals – eliminating filter and delay lines and giving fine control over the colours themselves as brightness and contrast are unaffected by the adjustment. Each of the 4 video and 4 audio inputs can be individually selected and the unit will automatically switch the video input between 'S' and composite according to the connections. The 2 x 's' and 2 x composite video outputs are fully buffered. Connections include an XCON external control socket, phono sockets for composite video and audio and standard 4 pin 'S' sockets for SVHS and Hi8. The VCC3010's slimline shape make it ideal for rack/shelf mounting.

The VCC3010 is supplied complete with mains adaptor, starter pack of leads and comprehensive user guide. Guaranteed for two years.

### Specification

Bandwidth/resolution: S/S 6db @ 8.5MHz=700 lines

## Colour Video Title Generator-VTG288Plus

Videotech Design

The VTG288Plus superimposes titles and sub-titles over live pictures. Titles are created either by using a simple on-screen cursor/grid system or by modifying the built in demonstration pages. The unit has 4 superb high resolution fonts with 126 characters including upper and lower case letters, numbers, punctuation and many useful symbols and graphics. Each line of text can be of a different font, height or colour and the width of the characters is variable. Titles can be dissolved in and out of the picture and displayed professionally using the ultra-smooth 2-speed vertical scrolling facility. Short animated sequences can also be created. Supplied with mains adaptor, starter pack of leads and comprehensive user guide. Guaranteed for two years.

## Vision Mixer / Digital Timebase Corrector-VMX400

Videotech Design

The VMX400 has digital frame store which enables a number of digital effects to be performed on the picture, such as picture in picture effects, chroma key and perfect still frames. The unit offers an amazing range of 60 automatically or manually controlled wipe masking patterns with hard and soft edges. A special digital picture processing facility provides adjustments of positive/negative, detail,

brightness, contrast and colour saturation. the VMX400 can also re-register the colour horizontally and vertically to minimise colour smearing. The unit also has the chroma key facility that enables and selected colour in one picture to be replaced by another picture. Any one of 5 sizes of picture in picture (PIP) can be selected and moved to anywhere on the screen. The digital store also enables the capture of perfect and recordable still frames. Supplied complete with mains adaptor and starter pack of leads. Guaranteed for 2 years.

PDR3E	Vision Mixer	£468.070	£549.990

**Vision Mixer/Timebase Corrector - VMX410**

Videotech Design

The VMX410 uses the very latest digital techniques to stabilise and synchronise video signals so they can be timebase corrected or mixed together. A special digital picture processing memory provides adjustment like positive/negative, detail, brightness, contrast and colour saturation. The unit can also re-register the colour horizontally and vertically to minimise colour smearing.

Chroma key is one of the most common special effects seen on TV and the VMX410 put this facility at your fingertips with its simple cursor system to select the key colour. 5 sizes of picture-in-picture (PIP) are available and can be positioned anywhere on the screen. The unit has a full 4-channel stereo sound mixer together with audio fader, microphone and headphone socket, and VU meter. Supplied complete with mains adaptor, starter pack of leads. Guaranteed for two years.

**Specification**

## LNB'S

### Low-Noise Enhanced LNB

A high-quality Astra 1D-ready LNB with an ultra-low noise figure of 0.8dB. A feed and voltage-operated polarity selector is incorporated for compatibility with the majority of Astra receivers. The standard 40mm throat can be accommodated by most dishes, making this LNB a superior replacement for those normally supplied. A quieter LNB should lead to improved performance where marginal conditions – e.g., a heavy downpour on the edge of the satellite footprint – are experienced. This LNB converts the 10.7GHz to 11.7GHz band to an IF range of 950MHz to 1950MHz. If used with an modern extended-IF receiver (one with a tuning range of between 950MHz and 2050MHz), coverage of all Astra services is possible. It is important to seal the cable connection from the outside world using self-amalgamating tape. The output connector is a standard 'F' socket.

Retail Unit Price each (inc. VAT).

## Cambridge Universal LNB

There are many channels outside the 10.7GHz to 11.7GHz band (known as FSS) occupied by Astra. The satellites that use these higher frequencies are within the scope of a motorised dish (or fixed dish with Satwalker). 11.7GHz to 12.5GHz, a band known as DBS, is popular among Scandinavian and French satellite broadcasters. The area between 12.5GHz and 12.75GHz, meanwhile, is called the Telecom band. French channels on the Telecom satellites use these frequencies. Collectively, the FSS, DBS and Telecom frequency ranges are known as the Ku band. With a universal LNB, all channels on Ku-band satellites – from Astra 1D to Telecom – are within your grasp. To maintain compatibility with the tuning range of satellite receivers, the Cambridge Universal LNB splits the Ku band into two sections. The first corresponds to the FSS band (10.7GHz to 11.7GHz), the second the DBS and Telecom bands (11.7GHz to 12.75GHz). The upper frequency section is selected by a 22kHz tone, which is supplied by the receiver via the coaxial cable (together with supply voltage). Any receiver with 22kHz tone switching is compatible. Channel polarity is selected by the LNB supply voltage (13V/18V), as per standard Astra LNBs. Noise figure: 1-5dB (max, lower section), 1-3dB (max, upper section). Standard 40mm throat for ease of fixing to standard dishes.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BS88V	Universal LNB	£36.580	£42.990

## Twin LNB

This twin enhanced LNB is just that – two independent LNBs in the same package. Each high-quality LNB has its own output 'F' socket for feeding a receiver. Now, both receivers can select channels of either polarity regardless of what the other is watching. It is worth purchasing one of these LNBs at the outset if two-receiver operation is likely – simply seal off the unused output terminal with self-amalgamating tape. Please note that each connected receiver will need a frequency extender to view channels below 10.95GHz (Astra 1D, etc.). Designed to fit standard dish, with 40mm throat. Frequency coverage: 10.95GHz to 11.7GHz. Noise figure: 1dB. Please note this LNB is not suitable for old type receivers with restricted tuning range.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BS86T 1	Twin LNB	£34.030	£39.990

## Universal twin LNB

The universal twin LNB offers a polariser and low noise converter in a single assembly. The channels that output from either of the connectors will be determined by the control voltage applied to the output and whether a 22kHz tone is present. The signals from each output are independent of the signals selected on the other output. This universal LNB will cover from 10.7ghz to 12.75ghz.

## ACCESSORIES

### 10dB In-Line Amplifier for Satellite TV

If coax cable runs of 40 to 50m are required between dish/LNB and receiver, it is likely that the signal will be attenuated enough to impair performance. By installing this in-line amplifier at the receiver end, the cable losses are compensated for. It must be stressed that an in-line amplifier will not reduce sparklies if the dish is too small for the required channel, or the LNB is too noisy! Indeed, in-line amplifiers (which are powered by the LNB supply voltage sent up the coax) introduce noise themselves, and could make matters even worse under such circumstances! Power consumption is a minimal 50mA, and the amplifier works over the full 950MHz to 2050MHz IF range. Input and output connections are made via F connectors (not included). All connections should be sealed with self-amalgamating tape (not included) to keep out moisture.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BM94C	Sat TV Amp 10dB	£12.750	£14.990

## 20dB In-Line Amplifier for Satellite TV

A higher-gain version of the above. Designed to compensate for cable losses in runs that exceed 80m.

		1+	10+	25+	1+
BM96E	Sat Decoder Selector	£8.500			£9.990

## Satellite Finder Kit

A compact, battery powered meter to help align your satellite dish for best reception. The output from the satellite LNB is fed directly into the unit, via 1.8m (6ft.) of RF cable provided, and by adjusting the gain and sensitivity of the unit, the best position for the dish can be found. The kit includes a compass to help in the initial positioning of the dish. The PVC case has a covered compartment for the battery holder, which takes 10 x 'AA' type batteries (not included).

### Specification

Frequency range:	950 to 1550MHz
Gain:	10dB + 4dB
Sensitivity control:	12dB + 4dB (LNB gain = 55dB, C/N = 15dB) +12V to +18V
Power supply:	+12V to +18V
DC Supply current:	60mA
Operating range (input):	62 to 80dB (LNB gain = 55 to 60dB)
Impedance:	75Ω

Connections: 'F' type female (input/output)  
Case size: 245 x 125 x 55mm

## Frequency Extender

This device, which sits between the LNB and the receiver, enables the new Astra 1D satellite to be received by systems currently unable to. Older receivers and LNBs will only allow tuning between 10.95GHz and 11.7GHz. Astra 1D and the lower Astra 1C channels, however, range between 10.7GHz and 10.95GHz, which lies just beneath. Most LNBs do in fact cover the Astra 1D band, but the 700MHz to 950MHz range to which it is converted is not within the scope of the tuners used in most satellite receivers. This frequency extender, however, gets round the problem by shifting the entire band upwards by 250MHz, so that the Astra 1D channels appear at the bottom of the receiver's tuning range. For example, RTL is replaced by NBC Super Channel. So that the Astra 1B channels at the top of the band can still be received, a bypass facility is included.

## SPEAKER WALL BRACKETS

### Speaker Wall Brackets

This is a simple but effective pair of speaker wall brackets that take virtually no time to install. Simply screw a speaker to each base with the four short screws provided and fix the assembled units to the wall. Once fitted, your speakers can be turned through 360° allowing you to set them up in the optimum position.

Solidly constructed in black painted metal, the pair of brackets feature foam pads to help dampen unwanted vibration and are supplied with all necessary fixing screws.

CN37S	Speak Wall Bracks A	£9.350	£10.990

## Call and Collect

Maplin has more stores Nationwide than ever before. See the maps at the front of the catalogue for the nearest one to you.

## Speaker Wall Bracket

This pair of heavy duty Speaker Wall Brackets is robust, solidly constructed and very adjustable. Once your speaker is fitted to the bracket, you can use the bracket's ball and socket joint to rotate it through 360° in the vertical plane and up to 90° in the horizontal. When your speaker is set up at the exact angle that you want for it, simply tighten the allen key to safely lock it into place. Supplied with screws and washers suitable for fixing a pair of speakers to the brackets. Maximum depth from wall: 130mm. Wall fitting 100 x 100mm. Maximum load 5kg / bracket.

Retail Unit Price each (inc. VAT).

CN38R	Speak Wall Bracks B	£12.750	£14.990

## Battery Operated Stereo Mixer

A high quality low-cost battery powered stereo mixer incorporating sophisticated solid-state circuitry to ensure low-noise performance. The unit is enclosed in an attractive black case designed to eliminate hum while allowing the switch-control panel to be operated with ease. This mixer's range of facilities includes an input for a microphone (600Ω), a headphone socket, two phono inputs (RIAA compensated for magnetic pick-ups), and one auxiliary input for tuner/tape etc. Slide type gain controls on the front panel enable fingertip control for complete mixing and fading. All the input/output phono sockets are at the rear of the unit with the exception of the 6.35mm (1/4in.) mono jack socket for the microphone and the 6.35mm (1/4in.) jack socket for the headphones, which are positioned on the front panel. A PP3 9V battery (JY49D) provides the power to run this unit or alternatively a 9V DC battery eliminator, such as our XX09K may be used. The battery is fitted inside the mixer case and access is via a removable cover in the base. The battery eliminator connection is a 2.1mm power socket on the rear panel.

### Specification:

Frequency response:	20Hz to 20kHz ±1dB
Distortion:	<0.5%
Signal to noise ratio:	>55dB
Output:	220mV (max 2V) at 50kΩ
Mic input:	0.3mV at 600Ω
Phono inputs:	3mV at 50kΩ
Aux input:	120mV at 50kΩ

Current consumption: 12mA  
Overall dimensions: 228 x 178 x 80mm  
Weight: 1176g

XJ14Q 3	Sound Mixer	£25.520	£29.990

## Speaker Wall Brackets

A pair of high quality, adjustable loudspeaker wall brackets that are quick and easy to assemble and will support speakers weighing up to 16kg (35lb.). The brackets feature a swivel facility with variable tilt (±15°) and security pins to clamp the speakers (no screws into enclosures) and adjust to accept speakers from 114 to 229mm. Functionally styled to suit all domestic and commercial environments and finished in black. Fixing screws supplied.

Retail Unit Price each (inc. VAT).

Order Code	Type 9018	Price each exc. VAT	inc. VAT each
BV91Y	Speaker Wall Bracket	£17.010	£19.990

## Corner Speaker Bracket

This speaker bracket offers the upmost flexibility in the choice of mounting positions. The two way swivel plate at the wall end of the bracket allows it to be mounted not only on a flat surface, but also into the corner of the room or on an outside corner. The wall mounting plate adjusts to any angle between 90° and 270°.

The arm which extends from 16-23 cm, swivels horizontally and can be locked into any position.

The speaker mounting plate swivels vertically, allowing the speaker to be attached from the top, the bottom of the back and to be adjusted to any angle.

The bracket will support speakers up to 15kg in weight. It is available in black (KM64) and white (KM63) and is packed in pairs.

Fixing holes: 0.7 mm

**SPEAKER CABLE**

**Micro Flat Speaker Cable**

This high performance micro flat speaker cable is perfect for connecting your speakers invisibly.

At only 0.5mm thick this oxygen free speaker cable has a high strength adhesive back that will stick to most surfaces and, a paintable jacket, meaning that it can be painted or wallpapered over or run under carpet for invisible installation. Or, the off white colour of the jacket blends quite easily with most decors. Hookup is simple - all you need are scissors and a small screwdriver.

This brilliant cable has 18 AWG oxygen free copper conductors and comes complete with 8 corrosion resistant gold plated pins maximising signal transfer and minimising signal loss.

Available in two lengths 30ft (Order code - MX99H) and 50ft (Order code - MX83E)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MX99H	flat spkr cab 30ft	£34.030	£39.990
MX83E	flat spkr cab 50ft	£51.050	£59.990

**TV AND VIDEO BRACKETS**

**Monitor/TV Wall Mount**

Allows you to mount your TV or monitor on a wall anywhere in the home or office. The platform will take a set of up to 49cm screen size and weight up to 12kg in complete safety. The platform can be tilted using a knurled adjuster screw, and swivelled horizontally in any direction. The support comprises a double jointed extension arm for total versatility; can be turned round completely and even around corners. Ideal for alcoves and through rooms, etc. Also ideal for computer monitors. Quickly and easily installed using the full instructions provided. Six 50mm screws, a spanner and wall plugs may be required for wall fixing.

**Warning:** This installation depends on a strong and sturdy attachment to a solid brick or block wall.

Attaching to board partitioning is not recommended, unless fixing directly to an underlying, vertical timber support. In any event, if in doubt, consult an experienced person.

Made in high grade steel, painted white. Dimensions of platform, 305mm wide x 280mm deep. 20mm raised lip at front. Distance from wall: fully retracted, 305mm; fully extended, 580mm.

Retail Unit Price each (inc. VAT).

**AUDIO SWITCHING**

**Combined Stereo Input and Speaker Output Switch Control Box**

A combination switch control box comprising stereo phono inputs for CD and Tuner, which can be sent to a common stereo output for an amplifier not possessing enough line level inputs to include a CD player. In addition, up to two pairs of speakers can be connected to the amplifier's output either separately or simultaneously (provided the amplifier is able to drive two loads at once, e.g., down to 4Ω so that 8Ω/2 is acceptable). Switching is by rocker switches on a sloping front panel. Speaker connections are via spring-loaded terminals.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CN42V	Combo Audi Switch Box	£10.200 £9.000 £8.670	£11.990

**Audio Switch Box**

An extremely compact audio selector unit that allows switching between one of four stereo audio inputs. All connections to inputs and outputs are via standard phono sockets mounted on the rear of the unit, except input 1 where connection is via a front-mounted 3.5mm stereo jack socket, thus allowing 'personal stereo' type units to be connected to normal Hi-Fi equipment. Selection is by means of four top-mounted switches. Recesses above the switches allow identification labels to be neatly positioned. The unit is supplied with one stereo phono to phono cable, one stereo 3.5mm to 3.5mm jack cable, a self-adhesive double-sided fixing pad and five identification labels. Dimensions: 138 x 28 x 37mm. Colour: Silver.

## 2-Way Speaker Control

A neat, black metal, loudspeaker switch box that allows two pairs of loudspeakers to be used with one pair of amplifier loudspeaker terminals. The switch can select either pair of loudspeakers, or all four together. The internal wiring of this unit is such that the load presented to the amplifier will not fall below that of the lowest impedance speakers. Thus if 4Ω speakers are used, the minimum load will be 4Ω. The unit is for four speakers maximum and is NOT recommended for valve amplifiers.

## AUDIO CASSETTES

### TDK Ferric

Using a high grade ferric-oxide coating, these cassettes promise high quality and sensitive recording with minimum tape noise. The D type is a great value for

money choice – they'll thrive on repeated recording and playback and are suitable for all types of cassette deck. AR type is TDK's premium super ferric grade and are ideal for digital sources. They record at higher levels without distortion and play your recordings back with powerful bass and low tape hiss. Available in D90 5 pack (BV04E) and AR90 3 pack (BV05F).

BV04E	D90x5 Audio Tapes	£4.240		£4.990
BV05F	AR90x3 Audio Tapes	£4.240		£4.990

### CrO<sub>2</sub>

Chrome dioxide tapes provide a higher frequency response, dynamic range and signal-to-noise ratio than normal ferric-oxide tapes and they're ideal for all CD, digital and analogue sources. The CrDing type promises amazingly realistic sound that's full of power. The tape has a wide dynamic range with extremely low tape noise. The award winning SA type has high output characteristics that have set a new benchmark for CrO<sub>2</sub> tape. Available in CrDing – I190 3 pack (BV06G) and SA90 3 pack (BV07H).

## Compact Disc Laser Lens Cleaner

This laser lens cleaner is a special encoded cleaning disc provided with a cleverly designed unique brush system that ensures thorough and reliable cleaning without causing any harm to the sensitive, coated lens - it even plays music while it is cleaning. This disc is easy to use and has been designed to be played like a standard CD and work effectively with all CD players. Regular use will prevent the mistracking and distortion which would otherwise be caused by a dirty laser lens. Supplied in a storage case.

Retail Unit Price each (inc. VAT).

Order Code	Type 3123	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+

## CD Hydrobath

The Cd Hydrobath is a unique NON CONTACT cleaning system developed to clean all types of compact discs. It combines the scientific principles of hydrodynamic technologies and the newly developed CD6+ surfactant cleaning solution, that is both a wetting agent, emulsifier and dryer, with a unique specially developed high speed rotation platform.

The CD6+ solution is pressure directed into the playing surface as the disc spins at a high rate of speed. After the cleaning cycle the disc spins in the other direction, completely drying the disc for use.

The CD Hydrobath is the ultimate cleaning system for all types of compact discs.

Replacement CD6+ cleaning solution is available. Order code MY01

## Sound Check Audio Reference standard alignment CD

Sound Check 2

Sound Check 2 plus spectrum analyser

Sound check has become the international reference standard for sound designers, musicians and producers.

Sound Check 2 contains all the original Sound Check tracks for audio assessment, with the

addition of some new tracks, which really make sound check 2 the most valuable tool for anyone involved in the audio and music industry. These new tracks include extra dry vocal recordings from the spoken word, rock vocal, soprano and a unique live recording of Luciano Pavarotti. As well as extra tones, sound check 2 contains additional music tracks both classical and rock including "Luv 4 Luv" the ultimate test for bass loudspeaker and their amplifiers. Also incorporated in the sound check 2 analyser are complete instructions for instant frequency response measurement and graph paper for permanent records. The double CD case has a built-in microphone and sound level meter calibrated from -15dB to +12dB to form an instant system response analysis.

Sound check 2 - Similar to Sound Check 1 but with 99 tracks instead of the original 92.

Sound Check 2 plus spectrum analyser - This double CD case includes the sound check 2 Audio test CD and has a built in spectrum analyser with calibrated meter to measure the third octave frequency.

## CAMCORDER ACCESSORIES

### Camcorder Audio Mixer

A simple yet effective audio mixer for use with camcorder applications. Allows the mixing of live and background audio, such as music from cassettes, to be adjusted to the correct levels prior to mastering to video cassette. Phono sockets are provided for connection of camcorder and auxiliary audio signals and outputs to video cassette. Slider controls allow separate adjustment of each input channel, with a smooth controllable action. Ideal for the home enthusiast. Supplied with full operating instructions and phono to SCART socket adaptor.

Retail Unit Price each (inc. VAT).

CB87U	Cam. Aud./Stereo Mixer	£13.600 1+ £12.500 10+ £10.850 25+	£15.990 1+

### Dual Function Camcorder Battery Charger/Discharger

Uniross

This multi-function charger/discharger is suitable for a wide range of camcorder battery packs. It will charge 4-8V, 6V and 9-6V Ni-Cad packs of 800mA or higher capacity, and various physical shapes, e.g. Sony 6V and JVC 9-6V types. It can be used from the cigar lighter socket of your car or from the mains adaptor included. The charger stops automatically when charging is complete to prevent batteries from overcharging; a 4 LED status indicator decreases in brightness as charging proceeds and extinguishes when charging is completed. It takes about 5 to 6 hours to completely charge a 1000mA battery. A plug and lead to connect to a car's cigar lighter socket is included. The charger comes complete with operating instructions.

Dimensions of charger: 152 x 68 x 53mm  
Weight: 175g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
EM05F	Camcharger/Discharger	£25.520 1+ £23.650 5+ £22.950 10+	£29.990 1+

### Camcorder Battery Discharger

If you use your camcorder frequently, you may find that the battery life is gradually getting shorter. These effects are due to the memory effect of the Ni-Cd cells used in the battery pack. Memory effect occurs when the battery is recharged before it has run out. Battery packs can be rejuvenated by plugging them into the discharger featured here before recharging. This discharger is a universal type suitable for most 8mm and VHS-C camcorder 6V (check) batteries. It is designed to discharge the battery to an optimum discharge potential of 4-5V, sounding an alarm when this level has been reached. A 3 LED bargraph indicates the state of discharge. The unit also makes a handy battery tester.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CB70M	Camcorder Discharger	£11.050 1+	£12.990 1+

### Uniross Camcorder Battery Discharger

Uniross

A fully automatic, simple to use discharger that is suitable for 90% of the NiCds currently in use. The unit will accept 6V and 9-6V batteries, and is supplied as a main discharger base with a 6V multi-batteries adaptor plate. Both items are housed in black plastic mouldings.

#### Specification

Discharge current: Constant current 500mA  
Discharge cut-off level: At 1V per 1-2V NiCd cell  
Suitable for battery types: Sony NP55/77  
Panasonic/JVC VBS1  
Canon BPE722/77  
Hitachi BP83  
Panasonic/JVC/Sharp 9-6V grip

VA30H	2 to 1 Remote	£13.600 £13.000 £12.500	£15.990

## 8 Way Remote Control

The 8 way has proved the most popular remote control. This single remote is preprogrammed to replace existing handsets for TVs, Videos, Satellite Receivers and cable TV systems.

- ★ Replaces up to 8 remote controls.
- ★ Covers 1000s of models.
- ★ Easy 4 digit set up.
- ★ Simple to operate
- ★ Teletext and Fasttext functions.
- ★ Clear large key layout.
- ★ Auto code search.
- ★ Freephone helpline.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VA31J	4/8 Way Remote	£21.260 £20.500 £19.500	£24.990

## Visual 8 Remote Control

Top of the range the Visual 8 is not only preprogrammed but also has a learning capability. The liquid crystal display shows time, date, mode and step by step instructions making this remote even easier to use.

This single remote is preprogrammed to replace

existing handsets for TVs, Videos, Satellite Receivers 7 cable TV systems and the learning facility extends the coverage to almost any infra red remote including Cd/hifi.

- ★ Preprogrammed with learning capability (permanent memory).
- ★ Controls 1000s of models.
- ★ Easy to set up and operate.
- ★ Teletext functions with fastext.
- ★ Replaces up to 8 remotes.
- ★ Replaces broken and lost remotes.
- ★ Freephone helpline.

DU15R 1	Remote Control	£32.330 £31.500 £30.500	£37.990

## The Angel Remote Control

**NEW**

The user friendly Remote Angel allows control of your home electronics systems and can replace up to 8 existing remotes.

The remote Angel LCD Touch control programmable learning remote allows one to program all the appliances to turn on and off in sequence, or even to turn on a system and start your favourite title.

Eliminates the need for having numerous remotes and the confusion as to which one to use. Programming the angel remote with commands is simple to accomplish with the instruction manual provided. The remote has 28 programmable visual keys for each system.

- ★ Back-up battery prevents memory loss
- ★ Full sized touch liquid crystal display.
- ★ Learns the functions of eight remote controls
- ★ Step by step instructions and easy to use set up routine.
- ★ 8 visual screens customised according to your requirements.
- ★ LCD panel lights up in the dark.
- ★ Customised screens for TV, VCR, CD, TAPE/TUNER & AMP
- ★ Macro function - program up to ten functions to operate at the touch of one button.

VA11M	Scart to 3 Phono	£5.940	£5.650	£5.350	£6.990

**Gold Scart plug to 3 Gold Phono Plugs + SVHS 1.5M**

High quality connecting lead with gold plated connectors. Useful when a piece of equipment such as a camcorder, mixing deck or television is fitted with an SVHS outlet.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	25+	1+
VA12N	Scart-3 Phono+SVHS	£5.940	£5.650	£5.350	£6.990

**SCART to 6-Pin DIN Adaptor**

A versatile adaptor, ideal for converting a SCART type socket to a female 6-pin DIN socket. Built-in 2-position switches allow selection of in/out signals between the source and destination device. Designed for use with camcorders and other devices requiring SCART to 6-pin conversion.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BM80B †	Scart/6-Pin Din I/O	£2.540	£2.390	£2.250	£2.990

See Stock Code Index For More Price Breaks

**SCART to 6-Pin AV Adaptors**

Two simple plug-in adaptors to enable signals from SCART and 6-pin DIN sources to be connected easily and efficiently. Simply plug the male SCART connector into your VCR or TV, and your camcorder, etc. into the 6-pin socket to allow playback and recording with the minimum of effort. Two versions are available, providing either IN or OUT signal configurations. BM78K is an IN adaptor and BM79L is for use as an OUT adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BM78K	Scart To 6-Pin Din I	£2.540	£2.390	£2.250	£2.990
BM79L	Scart To 6-Pin Din O	£2.540	£2.390	£2.250	£2.990

**Peritel (SCART) to 6 Pin DIN**

A 21-way Peritel (SCART) connector with an in-built 6 pin DIN socket. The connector can be set to IN or OUT at the flick of a switch.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BH84F †	Scart To 6 Pin Din	£2.540	£2.390	£2.250	£2.990

**21-way Peritel (SCART) Switchable 'T' Adaptor**

This clever switched adaptor removes the need to keep unplugging and reconnecting your video recorder, satellite receiver, computer, video game and TV, depending on which you are using or watching, or want to record. The unit consists of a box which has two interconnected 21-way Peritel (SCART) sockets mounted on it, and a 45cm long output cable terminated in a 21-way plug, which can be switched to either of the two sockets, by means of a latching push-button switch, also mounted on the box. The adaptor is suitable for Composite Video and Stereo Audio, and internal diodes prevent function control conflicts. Uses include connecting a satellite receiver and a video recorder to a single TV, or viewing a video recorder/satellite receiver on two TVs simultaneously.

Please note if one of the video sources has 12V on the switching line and the other source does not, then certain unwanted effects can result. A suitable plug to plug cable for use with this adaptor is Peritel Connecting Cable, JW36P. Extension leads ZB29G and JZ26D are also suitable.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CC00A	SCART T-Adaptor	£8.500	£5.800	£4.600	£9.990

**2-Way SCART Switch Box**

A simple and effective switch box for use with SCART compatible equipment, providing simple and effective two-way device switching. Just connect your two source devices to the switch box and your TV to the output for simple, fast and efficient signal source swapping. Ideal for use with a VCR and satellite receiver, eliminating the need for aggravating cable swapping when you want to view or record.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BM84F	2Way Scart Ext W/Sw†	£8.500	£6.500	£5.750	£9.990

**2-Way SCART Switch – TC24**

A compact SCART switch ideal for use with two VCRs or a single VCR and a satellite receiver. Allows simple switching between two input sources, without the need to grapple with cables at the back of your TV. The simple press button selection adds simplicity to the whole affair. Simply connect the TV's SCART interface with the output from this switch, then plug in your accessories on inputs 1 and 2. Note that the input connectors are configured so that recording from either source is possible when the second source is placed in record mode. This allows recording from satellite when a video recorder is connected as a second source device. Video output, stereo audio output and RGB output signals are all switched when the front panel button is operated. The status voltages from pins 8 and 16 are connected directly with diode protection, allowing a degree of automatic operation, i.e. the TV will be automatically connected to its SCART input signal when a device sends it a signal.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BM86T	2 Way Scart Selector	£8.500	£6.500	£5.750	£9.990

## Peritel (SCART) Switching Unit

A switch box providing an easy method of coupling a TV up to three separate items of ancillary video equipment using Peritel (SCART) video and audio connectors. With the TV plugged into the 'TELEVISION' outlet socket and set to the A/V or SCART input mode, any one of three inputs can be selected for viewing using the latch-button selector bank on the right-hand side of the front panel ('1', '2', '3'). These can be VCRs, satellite receivers, camcorders or computers having SCART standard composite video and sound output. The first two input sockets on the switch box are labelled 'VCR-1' and 'VCR-2', while the third is labelled 'VCR-3 / SATELLITE/ COMPUTER'. In addition signals from either input socket 2 or 3 can be recorded by a VCR on socket 1 using the left-hand switch bank if required. Left and right audio output for Hi-Fi or stereo from the selected channel is also available via two output phono sockets. The unit is housed in a black steel case with a non-slip foam base. Overall dimensions: 145(W) x 130(D) x 45(H)mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
MK36P 1	Scart Switching Unit	£20.410	£14.450	£13.100	£23.990

## Scart Extension Leads

Three approximately 50cm long extension leads with 1 to 2-way, 1 to 3-way or 1 to 5-way adaptors, connecting a SCART plug at one end to two, three or five SCART sockets in a box 98 x 70 x 30mm, or 125 x 70 x 30mm, or 188 x 70 x 30mm respectively. The cable is a sleeved loom 10mm in diameter containing individually screened conductors where required. The lead is merely an extension and does not include any in/out line reversals, all pins on the plug connect directly to all equivalent pins in all sockets simultaneously. Use to connect two TVs to one VCR, etc., with the aid of twin plug connection leads (as above). Note that contention from more

than one audio/video, etc., outputs sharing one conductor must be avoided, but one output to two or more inputs is allowable. Colour black.

Retail Unit Price each (inc. VAT).

**Scart plug to 2 phono plugs (Gold Connectors and oxygen free cable).**

Ideal for connecting any TV or Video to a Hi-Fi audio system as the high quality oxygen free cable ensures very signal loss. Suitable for home cinema. Available in three lengths:

VA17T	5m
VA18U	10m

Retail Unit Price each (inc. VAT).

Order Code	Type 13382	Price each exc. VAT			inc. VAT each
		1+	5+	25+	1+
VA17T	Scrt-2 Phono 5m	£11.050	£10.500	£9.950	£12.690
VA18U	Scrt-2 Phono 10m	£13.600	£12.920	£12.240	£15.690

**Scart to mono audio**

Switchable scart plug to mono audio connectors. Length 1.5m.

Retail Unit Price each (inc. VAT).

Order Code	Type 17719	Price each exc. VAT		inc. VAT each
		1+	25+	1+
G188V	Scrt-Vid+audmono 1.5m	£5.520		£6.490

**Scart Switched plug to 3 Phono Plugs.**

Oxygen free connecting cable with gold connectors for interconnecting equipment with scart and phono sockets. Transfers both video and audio signal, which with built in scart switch allows signal to be Bi-directional. Suitable for home cinema. Available in two lengths:

VA19V	1.5m
VA20W	5m

Retail Unit Price each (inc. VAT).

Order Code	Type 13384	Price each exc. VAT			inc. VAT each

**21 Pin Gold Scart Plug to 6 Gold Phono Plugs**

This low loss oxygen free cable provides high quality connection of audio/video equipment fitted with phono connectors via 5 gold phono plugs. Particularly suitable for home cinema. Note: this cable does not provide connections for function switching, data communication, RGB Video and blanking signals.

available in two lengths.  
VA21X - 5m  
KM65V - 1.5m.

Retail Unit Price each (inc. VAT).

## HEADPHONE LEADS

### Mini-Headphone Splitter (stereo)

Headphone adaptor lead. Stereo 3.5mm jack plug to two stereo 3.5mm line sockets (so that two sets of headphones can be connected to one outlet). Length: 0.2m.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RK58N	Mini HPhone Split	£1.690	£1.250	£1.100	£1.990

### Standard Headphone Splitter

A standard 6.5mm jack socket split to 2 single mono, left and right, 6.5mm jack plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CN75S	2 Plug To 1 Ste Jack	£1.690	£1.180	£0.980	£1.990

### Headphone Accessory Pack

This is a Personal Portable Stereo Kit that contains a coiled expandable stereo lead terminated in a stereo 3.5mm jack plug and socket. Other accessories include a 6.5mm stereo socket to 6.5mm jack plug adaptor; a 3.5mm mono socket to 2.5mm jack plug adaptor; a 3.5mm mono socket to 3.5mm jack plug adaptor; a 2 times 3.5mm mono sockets to a stereo 3.5mm jack plug adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BH88V	Headphone Access Pak	£4.240	£4.000	£3.500	£4.990

## DIN LEADS

### 5-Pin DIN Plug to 3.5mm Plugs

5-pin A DIN plug (pins 1 & 4 and pins 3 & 5) to two 3.5mm jack plugs. Length: 1.5m.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RW24B	Spin Din-3.5mm Plgs	£1.260	£0.890	£0.740	£1.490

### 5-Pin Plug to Mirror-Image Lead

5-pin DIN plug to 5-pin DIN plug with reversal (mirror image) connections. Length: 1.2m.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RW43W	Spin Din Mirror Ld	£1.520	£0.980	£0.840	£1.790

### 5-Pin DIN Plug to Plug Lead

A 5-pin A DIN plug to 5-pin A DIN plug. Length 1.5m.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CN76H	5 Pin Din Plg/Plg Ld	£1.690	£1.370	£1.200	£1.990

### 5-Pin Plug to 5-Pin Socket Mirror-Image Lead

5-pin A DIN plug to 5-pin A DIN socket with reversal (mirror image) connections. Length 1.5m.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CN77J	5 Pin Din Plg/Skt Ld	£1.690	£1.180	£0.980	£1.990

## JACK LEADS

### 3.5mm Stereo Plug to Socket Lead

A miniature 3.5mm stereo plug to socket lead. Length 2.5m.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CN79L	3.5mm Ste Plg/Skt Ld	£1.690	£1.290	£1.100	£1.990

### 3.5 to 3.5mm Stereo Jack Lead

Approximately 1.2m stereo jack lead with 3.5mm stereo jack plugs at each end.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CK27E	3.5mm Stereo Ext Ld	£1.430	£0.790	£0.620	£1.690

### Coiled Stereo Jack Plug to Socket Lead

An expandable stereo jack plug to socket lead with a standard 6.35mm stereo jack plug and socket. Ideal for extending the length of a headset for easy listening.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CN78K	Ste Jack Plug/Skt Ld	£1.940	£1.390	£1.110	£2.290

### Gold Phono to gold phono

Gold phono plug to gold phono plug lead. Length 2.5m.

NEW EXTENDED RANGE

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+			1+
KS43W	3.5mm gld st jk lead	£2.540			£2.990

### Isolation/Damping Pads

Do you want to protect your Hi-Fi, video or computer equipment from vibration or listen to your Hi-Fi's true sound without resonance from the surface your speakers are standing on? These damping pads are the perfect solution.

Simply place one of these high performance vibration absorbing supports under each corner of the equipment in question and the advanced polymer material will absorb all of the shocks. Designed using computer modelling techniques, the precisely moulded spherical surface of the pads always provide even contact and uniform energy distribution. Four pads are supplied in each pack.

#### Specification

Material: Advanced polymer  
 Colour: Dark grey  
 Overall diameter: 50mm  
 Overall height: 20mm  
 Max load per pad: 2.5kg

Retail Unit Price each (inc. VAT).

## Standard Battery Sizes

### BATTERIES

#### ALKALINE BATTERIES

#### Duracell Alkaline Batteries

A range of alkaline batteries by Duracell. The alkaline battery excels at powering continuous, heavy loads. There is no distinct upper load limit, and the chemistry is typically capable of supplying, intermittently, loads up to 2A at normal room temperature.

Duracell batteries are leak-proof under all normal conditions of operation and storage, however, the following should be avoided to prevent damage and possible leaks: wrong polarity; short circuit; reversed drive of series cells; or attempts at recharging. The alkaline system operates efficiently over a temperature range of  $-30^{\circ}\text{C}$  to  $+70^{\circ}\text{C}$ , subject to load and duty cycle regimes. Available individually or in packs.

#### Characteristics

Type	Mass	Nominal capacity
Size N	8.3g	0.91Ah at 100 $\Omega$ for 70 hrs to 0.8V
Size AAA	11g	1.1Ah at 10 $\Omega$ for 8.5 hrs to 0.8V
Size AA	22g	2.6Ah at 10 $\Omega$ for 20.2 hrs to 0.8V
Size C	67g	6.5Ah at 10 $\Omega$ for 50 hrs to 0.8V
Size D	141g	15.6Ah at 10 $\Omega$ for 120 hrs to 0.8V
Size PP3	45g	0.55Ah at 470 $\Omega$ for 36 hrs to 4.8V

### Alkaline

Panasonic

Recent progress in the complexity, performance and miniaturisation of electronic products of all types now demands more compact power supplies. Such products requiring greater battery capacity have increased in number, requiring the development of more advanced batteries. Alkaline batteries are now more widely used in place of other types for their high current and high capacity performance with minimum supply degradation for modern electronic circuitry. Available in packs only. 'AAA' and 'AA' sizes are sold in packs of four, 'C' and 'D' sizes sold in packs of two, PP3 and N sizes, singularly only.

#### Characteristics

Type	Mass	Nominal capacity
Alk N	9g	0.7Ah at 300 $\Omega$ for 12hrs/day to 0.9V
Alk AAA	12g	0.96Ah at 300 $\Omega$ for 12hrs/day to 1.0V
Alk AA	24g	2Ah at 75 $\Omega$ for 4hrs/day to 0.9V
Alk C	65g	6.2Ah at 39 $\Omega$ for 4hrs/day to 0.9V
Alk D	135g	12.4Ah at 39 $\Omega$ for 4hrs/day to 0.9V

## Rechargeable Alkaline Battery System

Pure Energy

- ★ Supplied charged - recharge up to 25 Times
- ★ Environmentally friendly - non toxic
- ★ High capacity - 1400 to 1600mAh
- ★ Full 1.5V
- ★ Long shelf life up to 5 years
- ★ Batteries out perform NiCd
- ★ Fully automatic charger

Pure Energy batteries are ideally suited for low to medium drain applications. Their higher capacity allows them to out perform NiCd batteries on a charge-by-charge basis, and their rechargeability provides a significant cost saving compared to single-use alkalines.

The EnviroCharger is a sleek, automatic, plug-in type charger for either 4 x AA or 4 x AAA batteries. Charging time varies up to a maximum of 12-14 hours for heavily discharged cells. Indicators show charging and when batteries are charged. The charger is supplied with 4 AA size batteries. Additional packs of AA and AAA batteries are available separately.

## 4.5V Alkaline Battery

Varta

\* Type 3LR12 / 4012

A longlife alkaline battery commonly used in torches and many other applications, offering a greatly extended life over it's zinc-carbon counterpart.

**Technical information**

Nominal voltage: 4.5V.  
Dimensions: 62 x 22 x 67mm  
Weight: 160g  
Typical Capacity: 4400mAh

Retail Unit Price each (inc. VAT).

		1+	20+	50+	1+
JC94C	4.5V Alkaline Batt.	£2.540	£2.250	£2.100	£2.990

## ZINC CHLORIDE

### Zinc Chloride

Panasonic

A range of batteries with an electrolyte of zinc chloride used with manganese dioxide and zinc electrodes. Suited to heavier duty, high drain applications and are also 'environmentally friendlier'.

**Characteristics**

Type	Mass	Nominal capacity
Ultra AAA	9.7g	568mAh at 75Ω for 4h/day to 0.9V
Ultra AA	19g	1.0Ah at 75Ω for 4h/day to 0.9V
Ultra C	51.5g	2.8Ah at 75Ω for 4h/day to 0.8V
Ultra D	100g	7.2Ah at 39Ω for 4h/day to 0.8V
PP3	38g	0.38Ah at 900Ω for 4h/day to 5.5V

## ZINC CARBON

### Zinc Carbon General Purpose

Panasonic

A basic form of zinc carbon battery, having a positive electrode of manganese dioxide and a negative electrode of zinc. Offers value for money performance in not too demanding applications.

**Characteristics**

Type	Mass	Nominal capacity
AA	18g	1Ah at 75Ω for 4h/day to 0.7V
C	48g	1.9Ah at 75Ω for 4h/day to 0.8V
D	98g	5.2Ah at 39Ω for 4h/day to 0.8V

Retail Unit Price each (inc. VAT).

## SEALED LEAD-ACID BATTERIES

## Rechargeable Lead-Acid Batteries

Yuasa

A range of maintenance free, sealed construction lead-acid batteries combining small size with high output and long life, in 6V and 12V versions from 1Ah to 38Ah. The batteries are classified as 'non-spillable', having unique sealing techniques to guarantee that no electrolyte leakage can occur. The batteries are provided with a means of recombining gas internally during normal usage, and in the event that a build-up of gas at excessive pressure should occur, a low pressure venting

Code	Type	Dimensions	Weight	Voltage	Capacity	Short duration max. discharge
YJ66W	NP 1-6	51 x 55 x 42mm	250g	6V	1Ah	45A

## Titan 12V Sealed Lead-Acid Batteries

MFA

A high quality, high capacity sealed lead-acid battery available in either 3Ah (DX35Q) or 6Ah (WE91Y) capacities. Intended for electric powered boats and starters, but also suitable for power panels, mini-drills, alarm systems etc. Although supplied partially charged, the battery should be given a full charge before initial use (recommended charger, DX20W), at a charge of 0.5A for 7h for the 3Ah type and 13h for the 6Ah type. Connection is via 5mm 'lucar' style blade terminals.

Dimensions (L x W x H): 133 x 65 x 60mm, 3Ah  
150 x 65 x 95mm, 6Ah

Retail Unit Price each (inc. VAT).

Order Code	Type 11514	Price each exc. VAT		inc. VAT each
		1+	1+	
DX35Q	12V 3Ah SLA Battery	£17.010		£19.990
WE91Y	12V 6Ah SLA Battery	£18.710		£21.990

system, operating at 7 to 10 psi, will disperse the excess and reseal itself. The 'non-spillable' feature of these batteries means that they can be operated in any position, unlike the usual form of vented lead-acid battery which is strictly 'one-way-up'. A service life of 5 years should be expected if the batteries are used most often in the 'floating' or 'standby' modes of operation, where top-up trickle charging is regular and discharge is infrequent. The batteries also feature a low 'self discharge' rate of only 3% of rated capacity per month, allowing the battery to be left unused for some time without loss of efficiency or any appreciable deterioration of performance.

## Charging

Because these lead-acid batteries are sealed, some care has to be exercised whilst charging, and it is recommended that a stabilised, constant voltage source should be used, with current limiting proportional to the battery's Ah rating. Car battery type chargers must never be used. Battery performance and service life will be directly affected by the choice and efficiency of the charging circuit used. Constant voltage charging is the most suitable method, and the output must be within 2.25 to 2.30 volts per cell for trickle charging, or in the case of 'cyclic' use (regular discharging) 2.40 to

## Rechargeable Lead-Acid Battery for Cyclic Operations

Yuasa

A rechargeable lead-acid battery similar in construction to the Yuasa 'NP' series but specifically designed for cyclic operations.

The battery has been designed to withstand 500 charge/discharge cycles but, with care, should handle many more. As with the 'NP' series this battery is classed as 'non-spillable', having the same unique sealing properties and gas recombinant system. It is recommended that a stabilised, constant voltage charger is used with current limiting to restrict the current flow to the permitted maximum. Car battery type chargers must never be used. This battery should never be left in a severely discharged condition. Optimum charging time for this battery is 9 hours with a maximum charging time not exceeding 20 hours.

'SEE PAGE OPPOSITE'

2.50 volts per cell. It is also recommended that the current output be normally limited to a maximum of 0.25 x rated capacity of the battery (where Ah represents a ratio of current output versus time, e.g. 10Ah = 1 ampere discharge over 10 hours, or 10 amperes over 1 hour). Charging outside these limits will seriously damage the battery. These batteries, unlike some other makes, can recover full capacity even after they have been subjected to extreme overdischarge unless left standing in a totally discharged state for a long period.

## Terminations

The 6V and 12V batteries YJ66W to XG77J have a pair of moulded-in blade terminals which can accept the 6-35mm (1/4in.) push-on connectors shown in the Connectors section. XG78K to XG80B have terminals with which M5 bolts and nuts are used. These are supplied. Suitably sized metric solder tags for use with these fittings may be found in the Hardware & Sundries section - though note that neither of these methods of termination may be able to adequately cope with the maximum short duration discharge current from any battery.

All batteries are encased in grey high impact ABS plastic resin, with black sealed top covers.

## LIQUID ELECTROLYTE LEAD-ACID BATTERIES

### Lead Acid Leisure Batteries

A range of top quality leisure batteries. The BSX Powerdrive range features a unique venting system and deep cycle capability. All batteries are supplied with a carry handle and a two year guarantee. Available in 60A, 75A, 100A capacities.

NOTE: These batteries are not available by mail order, selected stores only, call Customer Services for details.

Dimensions (mm): 60A and 75A 260W x 180D x 220H  
100A 350W x 180D x 230H

Retail Unit Price each (inc. VAT).

We endeavour to hold stocks at all Maplin and Maplin Mondo stores, but to be sure, please phone before travelling. See front of catalogue for addresses and telephone numbers

## LITHIUM BATTERIES

### 1.5V Lithium AA Battery

**Ever Ready**

- ★ The World's Longest Lasting AA Cell
- ★ Lasts 3 Times Longer Than Long Life Alkaline batteries
- ★ Mercury and Cadmium Free

The L91 lithium battery is the world's longest lasting AA size battery. It lasts 3 times longer and is 30% lighter than long life alkaline batteries. It is mercury and cadmium free with a 10 year shelf life. Available in packs of 2.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
UG02C	Lithium 1.5V AA 2-Pk	£8.500	£9.990

### Smoke Detector/PIR Battery

**Ultralife**

Now there's no need to change batteries every year to keep your home and family protected by working detectors.

Ultralife uses the latest Lithium technology to produce a 9V battery which has been designed especially for low-energy equipment like smoke detectors and wireless alarm PIRs. Enjoy years of peace of mind with the longest lasting 9V battery in the world today, backed by the manufacturers 6-year warranty if used in a typical UL smoke detector.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FC35Q	Lithium 9V	£6.800	£7.990

## Camera Batteries

**Panasonic**

Long-life, 3V and 6V lithium manganese dioxide batteries (except 4LR61, which is alkaline). Suitable for use with many automatic cameras.

Voltage	Dimensions (mm)	Type
3V	15.6 dia. x 27	CR2
3V	17 dia. x 34-2	CR123A
6V	34 x 19.5 x 36	CR-P2

## Lithium Backup Batteries

Non-rechargeable, lithium poly-carbonmonofluoride 3V backup batteries. Recommended for use in calculators, hand-held instruments, and other high capacity, low current drain applications.

Two types are available:

BR1216: Capacity 25mAh; Dims: 12.5 dia. x 1.6mm  
BR2325: Capacity 165mAh; Dims: 22.7 dia. x 2mm

Price each shown, but sold only in multiples of 1.

Order Code	Type 7247	Price each exc. VAT			inc. VAT each
		1+	10+	50+	
AP91Y	BR1216 Battery	£1.430	£1.150	£0.890	£1.690
AS45Y	CR2325 Battery	£1.620	£1.260	£1.110	£1.910

## Lithium Backup Battery

A non-rechargeable lithium 6V battery for use in computers and electronic equipment to maintain memory contents. Red and black leads from the battery terminate in a standard plug suitable for direct connection with computer motherboards etc. The battery may be fixed in place by means of a velcro pad, provided.

Nominal capacity 1.9Ah (200µA to 3V).  
Battery dimensions: 59 x 38.5 x 20mm (L x W x H).

**WARNING: Do not incinerate.**

Retail Unit Price each (inc. VAT).

Order Code	Type 7248	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
AS44X	6V Lithium Battery	£12.880	£10.350	£9.490	£15.140

## Lithium Backup Battery

A non-rechargeable 3.6V high-energy lithium battery for use in computers and electrical equipment for memory retention. Two leads approximately 22cm long allow the battery to be connected easily to a motherboard etc, while a velcro pad facilitates fixing. The red and black colour coded cables are terminated in a standard socket. Nominal capacity 1.9Ah (200µA to 3V). Dimensions are 60 x 15 x 18mm (L x W x H).

**WARNING: Do not incinerate.**

Retail Unit Price each (inc. VAT).

Order Code	Type 7246	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
AS46A	3.6V Battery	£12.020	£9.090	£8.330	£14.130

Order £30 or above?

Account holder or not, your order will be sent carriage paid.

(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)

## Lithium/Thionyl Chloride 1/2AA 3.6V Cell

- ★ 3.6V for Memory Backup
- ★ Suitable for Apple Macintosh Computers
- ★ 850mAh Capacity

An untagged 1/2AA size Lithium Thionyl Chloride Cell with a voltage of 3.6V for memory backup applications, including Apple Macintosh computers. Nominal capacity 850mAh. Approximate dimensions: 25 x 14.5mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type 13516	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
GS99H	1/2AA 3.6V Lith Batt	£4.240	£3.800	£3.500	£4.990

## MERCURY BATTERIES

### High Capacity Mercuric Oxide Batteries

High capacity zinc mercuric oxide cylindrical cells designed for use in calculators, electronic toys, cameras and other photographic equipment. Available only whilst stocks last.

Voltage	Dimensions (mm)	Type
5-6V	15.3 dia. x 20	23PX
5-6V	12.9 dia. x 20.5	27PX

## MERCURY EQUIVALENT

### Mercury Equivalent Cells

A range of alkaline cells with a voltage of 1.5V and a stable output making them suitable as equivalents to popular mercuric oxide cells in many applications. The cells contain no mercury and there are no special disposal requirements. Three types are available:

Stock Code	Replaces Types	Dimensions (mm)	Capacity (mAh)
VQ74R	PX1, MR50	16 dia x 16.5	650
VQ76H	PX625, HD625, 4625, MR9, H-D RM625	16 dia x 6.2	190
VQ77J	PX640, MR52, V640PX, EPX640	16 dia x 11.1	335

Retail Unit Price each (inc. VAT).

## ZINC-AIR BATTERIES

### Zinc-Air Top Batteries

Varta

A battery system specifically designed for use in hearing aids, where it will give twice the life of mercury types. These new style batteries give higher voltage levels for distortion free operation. A zinc-air battery is interchangeable with any similarly numbered mercuric oxide battery, and is activated by removing the sealing tab on the base immediately prior to use.

Type	Voltage	Dimensions (mm)
V10AT	1.4V	5.8 dia x 3.55 high
V312AT	1.4V	7.8 dia. x 3.56 high
V13AT	1.4V	7.8 dia. x 5.33 high
V675AT	1.4V	11.56 dia. x 5.33 high

Type	Mass	Nominal capacity
V10AT	0.3g	60mAh
V312AT	0.8g	90mAh
V13AT	0.9g	200mAh

## NICKEL CADMIUM BATTERIES

### Sealed Nickel Cadmium Rechargeable Batteries

Unloss

Nickel cadmium (NiCd) cells will replace dry batteries in most medium and high current applications. They are very economical in applications where dry batteries constantly need replacing. They must be recharged using special constant current chargers but, even if the cost of the charger is added to the cost of the batteries, they still show a considerable saving over dry batteries after just a few changes. NiCd cells are not suitable for use in very low-power applications such as clocks, or any similar application where a dry cell would only need replacing infrequently.

All the batteries in the range should have a minimum life of at least 500 full charge/discharge cycles. Providing that the charge rate never exceeds the maximum current stated and the discharge rate never exceeds twice the current, the life should be around 3,000 full charge/discharge cycles. Cells may be charged at any current up to the maximum stated, but will take progressively longer to charge at lower currents. No harm will result if the cells are charged for longer periods.

Cell size	Nominal capacity (mAh)	Dimensions Dia. x Height (mm)	Weight (g)	Standard charge for 14 hours (mA)
AAA	240	10.5 x 44.5	10	24
AA	500	14.6 x 50.0	19	50
AA	650	14.6 x 50.0	22	65
C	1500	26.2 x 50.0	40	150
D	1500	34.2 x 61.5	50	160
PP3	110	48 x 25 x 16	45	12

Note: The 500mAh AA size is available singly or in a pack of four.

### Nickel Cadmium Button Cells

Rechargeable button cell batteries with a life expectancy of 500 to 1000 charge/discharge cycles, much above the requirement of IEC standard. They have a high charge retention, and at 20°C the cells still retain 40% of the nominal capacity after 12 months of idleness, thus they are suitable for portable instruments that are used infrequently. A voltage level of 1.2V or more is maintained during 80% of the discharge cycle. Built-in chemical protection is provided if cell polarity is reversed, or the cell is otherwise misused. These cells exhibit no 'memory effect' and are suitable for continuous trickle charging, they will not experience voltage drop or lowered capacity during discharge.

Order Code	Nominal capacity (mAh)	Dimensions Dia. x Hght (mm)	Weight (g)	Standard charge for 14 hours (mA)

## NICKEL METAL HYDRIDE BATTERIES

### High Capacity NiMH AA Cell

Uniros

- ★ 1200mAh Capacity
- ★ 'Green' Technology
- ★ No 'Memory' Effect

RECENTLY INTRODUCED

These 'NiMH' or Nickel Metal Hydride cells, are free of toxic or hazardous elements such as cadmium, lead, mercury or lithium and can be used repeatedly and disposed of safely when finally thrown away. A service life of 500 to 1000 charge/discharge cycles can be expected, and the capacity related performance is normally 30 to 50% better than that of equivalent NiCd cells. The absence of cadmium in the formulation means that NiMH cells are free of the undesirable 'memory' effect which can reduce the capacity of NiCd cells. A resealing safety vent guards against accidental misuse.

Nominal voltage: 1.2V  
 Nominal capacity: 1200mAh.  
 Dimensions: 14.6 dia x 50mm  
 Std charge for 14 hrs 120mA  
 Sold in packs of 2.

Retail Unit Price each (inc. VAT).

### Nickel Metal Hydride Batteries - Standard Sizes

★ Available With or Without Tags

The new generation of rechargeable 'NiMH' or Nickel Metal Hydride cells, free of toxic or hazardous elements such as cadmium, lead, mercury or lithium, which can be used repeatedly and disposed of safely when finally thrown away. A service life of 500 to 1000 charge/discharge cycles can be expected, and the capacity related performance is normally 30 to 50% better than that of equivalent NiCd cells. (approx. 15% for PP3) Moreover, the absence of cadmium in the formulation means that NiMH cells are free of the undesirable memory effect. Voltage level is maintained at 1.2V or more during 80% of the discharge cycle, and up to 100% of the nominal capacity at a rate of 3C10A is possible. A resealing safety vent guards against possible misuse.

Nominal capacity (mAh)	Cell size	Dimensions Dia. x Height (mm)	Weight (g)	Standard charge for 14 hours (mA)

### Prismatic NiMH Rechargeable Cells

Varta

A range of prism-shaped, Nickel Metal Hydride cells offering high-capacity in a low-profile package. The cells are fitted with tags and are ideal for making up into battery packs which offer higher capacity-versus-space than similar cylindrical cells. The VH types have a sealed construction, while the CB type has a resealable pressure relief vent. All of the cells have a nominal voltage of 1.2V.

Type	Nominal Capacity (mAh)	Dimensions HxWxD (mm)	Standard Charge for 14-16hrs (mA)

### PCB Mounting Batteries

Univercell

Viewed from top

0.1 inch modtz. Hole ø1.2mm

Specially designed as a cost-effective power back-up, these batteries offer extended working life combined with a sealed leak-proof construction. With high nominal capacity and excellent charge-retention characteristics they offer good protection against extended supply interruption. Their lower internal resistance also makes them suitable for high-current power back-up applications. Charge may be maintained by a trickle current with no requirement for regulation or smoothing. VP22Y and VP23A are Nickel Metal Hydride (NiMH) versions of RK46A and VP21X, offering higher capacity and no special disposal requirements.

Stock Code	Nom. Vltg (V)	Nom. Cpcy (mAh)	Max. Trickle (mA)	Max. Dschrg (mA)	Dimensions Dia. x Height (mm)
VP20W	2.4	110	1.0	40	23.5 x 8.6
RK46A	3.6	110	1.0	165	23.5 x 13.5
VP21X	4.8	110	1.0	165	23.5 x 16.5
VP22Y	3.6	130	1.5-3.0	26	23.5 x 12.7
VP23A	4.8	130	1.5-3.0	26	23.5 x 16.1

14-hour charge current is 11mA (all types).

## PCB Mounted NiCd/NiMH Batteries

Varta

- ★ Long life
- ★ Requires no maintenance
- ★ Withstands constant trickle charge
- ★ PCB mounting
- ★ Low self discharge
- ★ Fully charged in approx. 14 hours

A range of rechargeable nickel cadmium and nickel metal hydride batteries for battery backup applications and memory preservation during power fluctuations. Particularly suitable for backing up CMOS and NMOS memories.

### NiCd

## Call and Collect

Maplin has more stores Nationwide than ever before. See the maps at the front of the catalogue for the nearest one to you.

## PCB Mounted NiMH Rechargeable Battery

Varta

A Nickel Metal Hydride replacement for the popular 3V111R, offering typically 10-15% improved capacity, a wider operational temperature range and no special disposal requirements. Typical applications include memory back-up and clock support for VCRs, PCs, car stereos, etc.

Type No.	3V11H
Nominal Voltage	3.6V
Capacity (mAh)	11(Nom.), 12(Typ.)
Charge Rate	1.2mA for 14 hours (Cyclic) 0.3 - 0.5mA (Trickle)
Charge Retention	50% after 12 months
Diameter	12.4mm
Mounting Pitch	10.2mm

Retail Unit Price each (inc. VAT).

## CAMCORDER BATTERIES

### Camcorder Batteries

A range of camcorder battery packs to suit most popular camcorders. Type D601-N is an economy 6V two-way design suitable for Sony, Panasonic, Sharp and most others, equivalent to Sony NP55 and NP77, etc. The C602-N is an economy equivalent to the Canon BPE77. The D605 is a higher capacity version of the D601-N. The C602-N includes an extension strap to allow you to extend the length of your hand strap if the battery mount is located in the grip of your camcorder. In this event replacement packs may protrude more than the original packs, requiring a longer hand strap. The H601-N and H605 are economy packs to fit Hitachi, RCA, Minolta, etc. The D608 is an extended capacity version of the 6V D601 or D605. The J961 is a 9-6V pack equivalent to JVC NBP6U or NPB8U.

#### D Models

Capacities			
Type	Voltage	Capacity	Notes
D601-N	6V	1700mAh	Economy
H601-N	6V	1700mAh	Economy
H605	6V	2400mAh	Economy
C602-N	6V	1700mAh	Economy with strap
D605	6V	2400mAh	High capacity
D608	6V	3200mAh	Extended capacity
J961	9-6V	1400mAh	VHS-C battery

#### C Models

#### H Models

There is one drawback with the Ni-Cd battery which is familiarly known as the 'memory effect'. If a Ni-Cd is charged frequently from a condition other than fully discharged, the capacity will be significantly reduced. It is therefore always recommended to refresh a Ni-Cd battery by discharging it fully before recharging.

Retail Unit Price each (inc. VAT).

## Camcorder Batteries

### Uniros

Rechargeable replacement batteries compatible with original equipment portable VCRs and Camcorders. The batteries are supplied discharged for transit and must be charged before use. Each battery (except type VP77) includes a 'charge marker' beneath a small sliding cover which indicates the battery's state of charge and which can be red (discharged) or black (fully charged) and may be switched over after use to indicate that the pack is discharged. Five types are available as follows:

#### VP66

6V 1800mAh. Replacement for Fisher FVC901, Fuji F610, Nikon VN9000, Pentax PVC840, PVC840E, Ricoh R610, R630, Sanyo VMD3, VMD5, Sony CCDV88, CCDV90, CCDV95, CCDF330, CCDF335, CCDF340, SP5, Tamron CX7. Equivalent replacement for Sony NP55, NP77, Fuji NP55, NP77, Sanyo NP55, NP77, Tamron NP77, Pentax PVBT810, PVBT820, Ricoh NP55.

#### VP10

6V 1200mAh. Replacement for Panasonic MS70, NV-S1, NV-G1, NV-G2, NV-G3, VBS1E, VBS2E, PV-10, NVM10, PV-BP15, PV-20, PV-40, MS70, NV-MS70E, Ferguson FC31, JVC GR-AX2, GR-AX7, GR-SX9, GR65, Minolta C-606, C-660, Philips VKR6847, VKR6875. Equivalent replacement for battery models Panasonic VW, and others.

#### VP77

6V 1200mAh. Replacement for Canon A1, A-1H1, A1-H1B, A-2-H, A-9, A-10, A-11, BP-E77, BP-E77K, BP-E718, BP-E722, E6, E30, E51, E57, E60, E70, E77, E80, E90, E440, E640, E660, E680, E708, E800H1, E808, EX1H1, H460, Bauer/Bosch C81, VCC810, and others. Equivalent replacement for battery models Canon BPE77.

#### VP962

9-6V 1300mAh. Replacement for Bauer Bosch VCC606AF, VCC616AF, VCC656AF, Ferguson FC05, FC06, FC07, FC08, FC15, JVC GRC9, GRC11, GRC30, GRC45, GRC60, GRS77E, Minolta C50, Nordmende 2201, RP3000, Philips VKR6835, VKR6841, Panasonic VMC6, VMC10, MS50, Telefunken VM2895, VM2892, VM4000, VM4100, Toshiba A1420BK. Equivalent replacement for Bauer Bosch, Ferguson VA314, VA315, JVC BNV6GU, Telefunken V2932, Nordmende AC1100, Minolta VBP501, VBP500.

## NiMH Camcorder Batteries

Duracell

A range of multi-fit camcorder batteries which use Nickel Hydride (NiMH) technology to offer a capacity increase of up to 40% over Nickel Cadmium (NiCd) and with no necessity to discharge before topping-up.

DR10 is a 6V battery with a capacity of 1500mAh and is compatible with most VHS-C and 8mm camcorders, except Canon models. Makes catered for include JVC (and clones), Sony (and clones), Panasonic, Fujix, Minolta, Mitsubishi, Philips, Samsung and Sanyo.

DR11 is a 3000mAh version of DR10.

DR12 is a 6V battery with a capacity of 3000mAh for Canon camcorders.

DR14 is a 4.8V, 3200mAh version for Blaupunkt, Grundig, Metz, Panasonic, Philips, and Seimens machines.

## RACE PACKS

### Sanyo Cadnica Race Packs

High-quality sealed 7.2V SCR racing packs with a capacity of, 1400mAh or 1700mAh. The 50mm temperature-resistant output leads are terminated in a standard Tamiya type connector.

Charging information

1400mAh (DX04E): 140mA for 14 to 16 hours  
1700mAh (DX05F): 170mA for 14 to 16 hours

Dimensions: 45 x 135 x 23mm

Weight: 327g (DX04E)  
337g (DX05F)

Retail Unit Price each (inc. VAT).

DX05F	7.2V 1.7Ah Pro Pack	£25.520	£21.650	£19.100	£29.990

## Racing Packs

Top quality, economically priced, nickel-cadmium racing packs available in four sizes/capacities. All packs are shrink-wrapped and supplied with silicone coated, high temperature leads and standard

'Tamiya-style' racing pack plug. The packs must be charged as indicated in the table below, charging time is 14hrs.

Stock Code	Voltage	Number of Cells & Type	Capacity
BN05F	4.8V	4 x 'AA'	700mAh
BN03D	7.2V	6 x 'C'	1300mAh

## Heatshrink Sleeving for Radio Control Models

A heat-shrinkable crosslinked polyolefin material that will shrink to 50% of its original diameter when heated to over 121°C. For more rapid shrinking, higher temperatures may be used without detrimental effect. Shrinkage can be achieved by hot air guns, gas flame etc. The sleeving is self-extinguishing and has a high tensile strength and is resistant to solvents, acids, alkalis, fuel and oil. Breakdown voltage 11kV. Colour is black. Size as supplied 50-8mm diameter. Minimum diameter after shrinkage 25-4mm. Minimum wall thickness after shrinkage 1-14mm. Supplied in 200mm lengths.

Retail Unit Price each (inc. VAT).

## Battery Connectors

Male

Female

For making your own battery packs and chargers, the standard racing pack plugs and sockets are available pre-assembled to 150mm (6in.) lengths of red and black high-temperature silicone insulated wires. The part with the pins inside the connector housing is the male part and normally connected to the battery, and the part with the sockets inside the housing which also has the latch mechanism is the female part and normally connected to the model or charger.

## CHARGERS

### SEALED LEAD ACID BATTERIES

## Sealed Lead Acid Battery Charger

Yuasa

A 12V 4A 3-stage battery charger specifically intended for sealed lead acid batteries types 12V 24Ah cyclic battery (RT77J), 12V 24Ah (XG79L) and 12V 38Ah (XG80B), but suitable for sealed lead acid batteries in the range 15Ah to 38Ah. The charger has LED indication of float and bulk charge (float indicates 95% approx charge), reverse polarity protection with LED indication, short circuit and over voltage protection. Manufactured to BS 415, BS 3456, IEC 335, UL 1236.

Specification

Input:	100, 110, 220, 240V AC ±10%, 50/60Hz ±5%
Output:	13.8V ±1% temperature compensated float charge 14.5V nominal bulk charge <600mV (resistive load)
Ripple:	
Bulk to float transition current:	900mA ±20%

Overvoltage protection: operates >16V  
Dimensions: 200 x 96 x 173mm  
Weight: 2.15kg

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
AQ19V 5	SLA Lead Acid Batt Chg	£73.050	£85.840

## Sealed Lead-Acid Battery Charger

Yuasa

A constant voltage battery charger which takes stepped down AC on the input and provides regulated and accurate DC at the output for charging our range of sealed lead acid batteries. For use in float charge applications, providing the battery with regulated DC even under fluctuating load conditions, which should ensure maximum battery life. Available in both 6V and 12V output versions. Input must be in the range 11 to 13V AC or 12 to 15V DC and for 12V version 17 to 19V AC. Output is 6-9V DC with a max. current of 700mA and 13-6V DC with a max current of 500mA. This charger is only suitable for batteries up to 8Ah, Size 71 x 45 x 25mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JY65V †	SLA Charger 6V	£24.910	£29.280
JY64U	SLA Charger 12V	£24.910	£29.280

## 6V/12V Sealed Lead-Acid Battery Chargers (to 4Ah)

Specifically designed for 6V and 12V sealed lead-acid batteries in the capacity range 1 to 4Ah, these two stage chargers will bulk charge to 90% then automatically switch to float charging. These plug-in chargers have approximately 1.8m of flying lead with insulated colour coded push-on spade connectors. The chargers are very rugged with reverse polarity, short-circuit and over voltage protection.

**Specification**  
Input voltage: 220V/240V AC  
Output voltages 12V (GU07H): 14.5V DC bulk, 13.8V DC float.  
6V (GU08J): 7.2V DC bulk, 6.9V DC float.  
Output current: 300mA ±10%

Indicators  
bulk: red LED  
float: green LED  
fault: both LEDs extinguished

Retail Unit Price each (inc. VAT).

GU07H	12V 4Ah SLA Charger	£25.520	£29.390
GU08J	6V 4Ah SLA Charger	£25.520	£29.390

## 6V/12V Sealed Lead-Acid Battery Chargers (to 15Ah)

Available in 6V and 12V versions, these high quality constant voltage units are suitable for sealed lead-acid type batteries up to 15Ah. The chargers first Bulk charge the battery to 90% of its capacity, then automatically switch to Float charging, (temperature compensated) for the remainder of the charging process. The chargers are Reverse Polarity, Short Circuit and Over Voltage Protected.

**Technical Specification**

Input Voltage 220/240 VAC  
Output Voltages 12V (JC87U) Bulk 14.4 to 15.0 VDC, Float 13.6 to 13.8 VDC, Bulk 7.2 to 7.5 VDC, Float 6.75 to 6.9 VDC, 1.5A ± 10%  
6V (JC88V)  
Output Current Bulk to Float 180mA ± 10%  
Transition Current 180mA ± 10%  
Transition Voltage 12V 12.6 VDC ± 5%, 6V 6.3 VDC ± 5%  
Indicators Bulk Red LED, Float Green LED  
Fault i.e. Polarity Both LEDs extinguished

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JC87U †	12V 15Ah SLA Charger	£34.030	£39.990
JC88V †	6V 15Ah SLA Charger	£34.030	£39.990

## Sealed Lead-Acid Battery Multi-Charger

MFA

Suitable for trickle-charging Sealed lead-acid batteries of 2V, 6V and 12V capacity, selectable by a rotary switch. The charger is regulated to approximately 500mA, the recommended charge rate for most model size batteries. LEDs show that mains power is on (Red), and that the output is charging (Green). Includes internal fuse for overload protection and a thermal cut-out in the transformer

(self-resetting). Dimensions of unit: 128 x 97 x 54mm. In addition to a 1.9m long mains lead and plug, unit also has an output lead terminated with 5mm 'lucar' style connectors.

Retail Unit Price each (inc. VAT).

DX20W	Lead-Acid Charger	£21.260	£24.99†

## LEAD ACID BATTERIES

### 10A Transformer Charger Unit

Designed for use with liquid electrolyte lead-acid batteries. Suitable for charging 12V marine & leisure batteries such as WD12N, WD13P & WD14Q. This fully automatic transformer/charger features protection against over-current, short circuit and reverse polarity (battery).

**Specification**  
Mains Input: 230V AC  
Frequency: 50Hz  
Output Voltage: 12V DC  
Output Current: 13V 0.5A, 12.6V 10A  
Fuses: 10A max (15A quick blow for DC output)  
Dimensions: 175 x 150 x 65mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD36P1	10A Charger	£69.430	£81.590

### Switched Mode Charger x7

Zig

This powerful charger uses switched mode technology, offering maximum power output and fast and efficient charging from a compact, lightweight unit operating automatically from any input voltage between 198 to 264V AC (making it ideal for use in Ireland and on the continent). The output is regulated and stabilised at 13.8V to eliminate overcharging. Other safety features include automatic reset and protection from short circuits, reverse battery connection and overheating. As the output is stable, battery charging time is significantly reduced and on-board accessories can be run without a battery in circuit. This is certified to EN 60335-2-9 (safety); EN 60555-2; EN 60555-3; EN 55014 and EN 50082-1 (EMC and power factor correction).

**Specification**  
Input range: 198 - 264V AC  
Output: 13.8V (±100mV)  
Maximum output: 12.5A  
Weight: 1kg  
Safety protection: Input fuse (non accessible), 5 x 20mm time delay fuse 2A, over voltage protection 15.4V (±0.6V)  
Dimensions: 104 x 70 x 200mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD31J1	X7 SM Charger	£82.450	£96.990

## Active Line Booster

Antares

The Antares system electronically 'pumps' power into your caravan battery, on demand and at high rates without the risk of damage. This active line booster allows you to recharge at a continuous rate of 5A (equivalent to 10-12A rms chargers) whilst towing, even when the caravan fridge is on. It quickly replaces on-site electricity usage and provides effective power from the towing vehicle when there is no mains available. It's fully automatic, very compact, easy to install and built to the highest standards.

It substantially improves your battery's life expectancy by constantly monitoring its load and keeping it continually charged up to 100% and, unlike passive systems, there's no risk of over- or undercharge and no acid spray due to excess gassing!

Supplied with fitting kit and full instructions.

### Specification

DC supply:	12V DC (nominal) from towing socket
Output voltage:	13.8 - 15V DC, Auto controlled over a wide temperature range
Output power:	75W continuous during charging
Indicators:	Green active charging light
Dimensions:	140 x 67 x 37mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD72P1	Line Booster	£86.800	£101.990

## Active Line Booster with Mains Input

Antares

This unit has all the advantages of WD72P, but can also be operated from the mains (anywhere in Europe) or from generators to give overnight and long term overwinter charging without any tiresome maintenance. It can also be used as a high performance standalone power supply equivalent to 10A rms! Supplied with fitting kit and full instructions.

### Specification

AC supply:	Mains or generators anywhere in Europe (180 to 260V AC 50/60Hz)
DC supply:	12V DC (nominal) from towing socket
Output voltage:	13.8 to 15V DC, Auto controlled over a wide temperature range
Output power:	75W continuous during charging
Indicators:	Mains on, active boost and float charge
Dimensions:	140 x 187 x 37mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WD73Q1	Active Booster Mains	£151.900	£178.480

## TP2 MK VI Trailer Pack

This comprehensive Trailer Pack provides you with everything you need (except the battery) to assemble a portable power supply to give your caravan, trailer, boat or holiday home its own self-contained power source. The pack includes: **Deluxe Battery Box** - constructed in acid-resistant plastic, this strong battery box has been specifically designed for use with the 4A battery charger supplied. The charger is secured inside the box with its sockets protruding through purpose-cut holes in the side of the box. The box also features an internal divider to prevent any spill acid contacting electrical equipment and fully complies with the latest British Standard (BS6765 part 2). Supplied complete with strap and ventilation kit.

**4A Battery Charger** - an electronically controlled battery charger, suitable for mounting in the TP2 battery box or for use as a free-standing unit.

### Three way recharging facility

1. Direct from mains (electronically controlled).
2. Trickle charge in caravan or trailer whilst towing.
3. Boost charge in car boot when connected to car circuit (up to 8A).

Whichever method you select, charging is electronically controlled to prevent over- or undercharging and the circuits are protected against accidental overload. For extra safety, external indicators provide continuous monitoring of battery condition, mains status and charge condition. The charger has the following features: An electronic control switches the charger on when battery volts reduce to approximately 10.8V and switches the charger off when the battery is fully charged. Indicators show mains on/off, charging status and battery state - high or low. Fuses to give extra protection against overload or misconnection. Mounting brackets for use when free standing. Easily installed in the TP2 Trailer Pack with one single screw fixing.

Price each shown, but sold only in multiples of 1.

Order Code	Type	Price each exc. VAT	inc. VAT each
WD71N1	TP2 Trailer Pack	£78.110	£91.790

## Charging and Distribution Panels

Zig

The complete charging and power distribution system, this unit offers battery charging and 230V AC to 12V DC conversion, supplying up to 4.5A continuously. The panel is supplied complete with 25A in-line battery fuse and no less than 8 protection devices to eliminate overheating or overcurrent problems.

### Features include:

- ★ Switched selection of source - car or auxiliary battery
- ★ Double pole illuminated mains switch
- ★ Three 10A switched and fused outlets for the vehicle's accessories
- ★ Battery condition monitor
- ★ Automatic self resetting, current overload and thermal trip
- ★ Certified to British Standard NCC & SMMT safety regulations

### Specification

Input:	230V AC 50/60Hz
Output:	4.5A continuous, 7A maximum 10 to 14.2V (depending on battery state)
Dimensions:	205 x 160 x 100mm

## CAMCORDER BATTERIES

### Dual Function Camcorder Battery Charger/Discharger

Uniros

This multi-function charger/discharger is suitable for a wide range of camcorder battery packs. It will charge 4.8V, 6V and 9.6V Ni-Cad packs of 800mA

ORDER BEFORE 5PM FOR SAME DAY DESPATCH

Tel: 01702 554000

Fax: 01702 554001

e-mail: Sales@maplin.co.uk

or higher capacity, and various physical shapes, e.g. Sony 6V and JVC 9-6V types. It can be used from the cigar lighter socket of your car or from the mains adaptor included. The charger stops automatically when charging is complete to prevent batteries from overcharging; a 4 LED status indicator decreases in brightness as charging proceeds and extinguishes when charging is completed. It takes about 5 to 6 hours to completely charge a 1000mA battery. A plug and lead to connect to a car's cigar lighter socket is included. The charger comes complete with operating instructions.

Dimensions of charger: 152 x 68 x 53mm  
Weight: 175g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
EM05F	Camcharger/Discharger	£25.520 £23.650 £22.950	£29.990

## Camcorder Battery Discharger

If you use your camcorder frequently, you may find that the battery life is gradually getting shorter. These effects are due to the memory effect of the Ni-Cd cells used in the battery pack. Memory effect occurs when the battery is recharged before it has run out. Battery packs can be rejuvenated by plugging them into the discharger featured here before recharging. This discharger is a universal type suitable for most 8mm and VHS-C camcorder 6V (check) batteries. It is designed to discharge the battery to an optimum discharge potential of 4.5V, sounding an alarm when this level has been reached. A 3 LED bargraph indicates the state of discharge. The unit also makes a handy battery tester.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CB70M	Camcorder Discharger	£11.050	£12.530

## Uniross Camcorder Battery Discharger

Uniross

A fully automatic, simple to use discharger that is suitable for 90% of the NiCds currently in use. The unit will accept 6V and 9-6V batteries, and is supplied as a main discharger base with a 6V multi-batteries adaptor plate. Both items are housed in black plastic mouldings.

**Specification**  
Discharge current: Constant current 500mA  
Discharge cut-off level: At 1V per 1-2V NiCd cell

Suitable for battery types: Sony NP55/77  
Panasonic/JVC VBS1  
Canon BPE722/77  
Hitachi BP83  
Panasonic/JVC/Sharp 9-6V grip

## UNIVERSAL Battery Manager Ultra

- ★ Get extra-ordinary life out of ordinary batteries
- ★ Recharges Zinc Chloride, Alkaline, Alkaline or Ni-Cad Rechargeables and Nickel Hydride battery types
- ★ Charges AAA, AA, C or D Sizes

Over 12 billion ordinary batteries are used and disposed of worldwide every year. Any home which regularly consumes batteries will immediately benefit from the Battery Manager Ultra. Users of products such as hand-held games, portable cassette and CD players, portable TVs and electronic toys will find the Ultra indispensable. Best results are obtained by careful and regular recharging of good quality batteries. The Ultra is fully automatic and therefore very easy and safe to use. It automatically recognises which size and type of battery is fitted and can charge any mixture of types and sizes. Defective batteries are automatically rejected. Charging time is normally between 8-12 hours. The battery voltage is updated at regular intervals and displayed on the LCD display. When charging is complete, a tick is shown on the display and an indication of the expected life of the recharged battery is shown. Supplied with comprehensive instruction leaflet.

Retail Unit Price each (inc. VAT).

## NiCd BATTERIES

### Automatic NiCd Charger and Discharger

A compact automatic charger/discharger for AAA and AA NiCd batteries. A slide switch on the base of the unit selects the charge rate and battery type. The batteries are discharged first before being fast charged. A built-in timer automatically changes from fast charge to trickle charge. This discharge/charge cycle helps to prevent 'memory' effect. Each cell has an LED which indicates the state of the charge/discharge process. The unit will accept one to four batteries. Dimensions: 125 x 85 x 50mm.

**Specification**  
Charge Time Battery Type and Capacity

Charge Time	AAA	AA
3h:	—	500mAh
3h 45m:	180mAh	600mAh
4h 15m:	220mAh	700mAh

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RZ14Q	Auto Chrg/Discharge	£12.880 £10.100 £9.190	£15.140

### Fast NiCd Charger with Discharger

A fast, compact NiCd charger that will charge 2 or 4 AAA or AA type batteries in 2h. A slide switch selects either the charge or discharge function. After the batteries have been discharged, they are fast charged for 2h and then automatically switched to a trickle charge mode. This sequence will prevent the 'memory' effect that is often found in NiCd batteries. The unit will automatically adjust for AA or AAA type batteries - 380mA for AA, and 100mA for AAA with a trickle charge of 20mA. LEDs indicate when the unit is in the fast, trickle or discharge mode. Dimensions 125 x 85 x 50mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RZ08J	4xAA Cell Fast Chrg	£10.300 £9.080 £7.170	£12.110

## Fast 8 Cell NiCd Charger

A fast, eight cell NiCd battery charger for 'AAA' or 'AA' type batteries that will fully charge 500mAh batteries in 2h. After this time the batteries are charged at the 20mA trickle rate. Batteries are charged in pairs, and four LEDs indicate that each pair is being charged correctly. A selector switch on the base of the unit selects different battery capacities.

Dimensions 125 x 85 x 50mm.

### Specification

Charge Time	Battery Type and Capacity	
	AAA	AA
2h:	—	500mAh
2h 24m:	180mAh	600mAh
2h 48m:	220mAh	700mAh

Retail Unit Price each (inc. VAT).

		1+	10+	25+	1+
RZ10L 1	V968 Charger	£13.740	£11.360	£9.950	£16.150

## Universal NiCd Battery Charger and Discharger

A very high quality universal automatic NiCd charger that has a discharge cycle built-in. It accepts AAA, AA, C, D and PP3 sizes and automatically selects the correct charge/discharge rate for the different sizes of batteries. Fast charge takes place when all the batteries have been fully discharged, and a built-in timer automatically changes from fast to trickle charge. This process helps to prevent 'memory' effect. The unit will accept just one, or a group of cells. Either one or two PP3 size batteries can be charged at the standard rate. Each charging position (except PP3) has an LED which indicates the state of the charge/discharge process. This charger is designed for NiCd batteries only and is not recommended for other types of cells. Please note that the discharge facility does not operate on the PP3 positions.

Dimensions: 225 x 65 x 115mm

### Specification

Battery type	Capacity	Charging Time
C/D:	1500mAh	1.5h
AA:	500mAh	2h
AAA:	240mAh	4h
PP3:	110mAh	15h

Please note that the overall discharge/charging time will vary dependant on the level of charge remaining when the battery was first inserted.

Retail Unit Price each (inc. VAT).

		1+	10+	25+	1+
RZ18U 2	V1299 Charger	£20.620	£15.150	£13.230	£24.230

## AA Charger with Fast Charge

A nickel-cadmium battery charger capable of charging 2 or 4 AA cells simultaneously. A switch permits charging at standard rate 14 to 16 hours, or fast rate 3 hours max. Charge current at standard rate is 45mA approx. and at fast rate 150mA. Two LEDs are provided, one for each pair of cells and the LED lights when charging is in progress. The unit has 1.8m mains lead. Overall size: 99 x 72 x 42mm. This charger is ONLY for use with nickel-cadmium rechargeable cells.

Retail Unit Price each (inc. VAT).

## Musicmate Battery Charger

### Uniros

Ideal for use with walkmans, CD players and portable radios, etc. A simple and compact plug-in battery charger suitable for NiCd 'AA' type cells. Provides a 7 hour charge cycle for two or four cells at a time with charging indicators to show correct connection. Full operating instructions.

Supplied with four rechargeable AA cells.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
FC35Q	Lithium PP3	£6.800	£5.710	£5.240	£7.990

## Standard Charger

A nickel-cadmium battery charger capable of charging between 1 and 4 AA, C or D cells singly or simultaneously in any combination. In addition one PP3-size ni-cad can also be charged. Five LEDs are provided which light to show which charge positions are in use. Also one position may be used to test the cells (not PP3). With the cell in this position throw the switch provided to 'test' and the strength of glow of a special lamp shows the cell condition. If the lamp fails to glow or is very dim, charge the cell fully. If the lamp shines strongly the cell is charged. The unit has 1.7m mains lead. Overall size: 214 x 108 x 56mm.

### Charge rates for full charge

AA	14 to 16 hours
C Commercial	20 to 25 hours
C Industrial	35 to 40 hours
D Commercial	20 to 25 hours

D Industrial 70 to 75 hours  
PP3 14 to 16 hours (24 hours max)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
WY22Y 1	Ni-Cad Charger	£6.800	£5.960	£5.250	£7.990

## Universal Charger

A nickel-cadmium battery charger capable of charging AAA, AA, C, D, PP3 and rechargeable button cells singly or simultaneously in numerous combinations. There are two charge sockets for PP3 batteries and either one or two may be charged together. There are two positions where AAA or AA cells may be charged and four positions where AA, C or D cells may be charged. In addition there are two positions for rechargeable button cells, diameters 16mm, 11.6mm or 8mm. All ten charge positions may be used simultaneously or in any combination.

Each of the eight main charge positions (i.e. not the button cells) has an LED associated with it which lights when charging is in progress. In addition three test positions are provided, one for AAA and AA, one for C and D cells and one for PP3 batteries. When the charging switch is off, depressing the test button for the test position in use allows the meter to show if the battery is flat. The unit has 1.7m mains lead. Overall size: 185 x 155 x 56mm.

### Charge rates for full charge

AAA in position marked UM3,4,5	5 to 7 hours
AA in position marked UM3,4,5	13 to 17 hours
AA in position marked UM1,2,3	5 to 7 hours
C Commercial	13 to 17 hours
C Industrial	22 to 28 hours
D Commercial	13 to 17 hours
D Industrial	45 to 55 hours
Button cells	5 to 7 hours
PP3	11 to 13 hours (20 hours max)

Note that of the 6 positions for AA cells, four will give a fast charge and two a standard charge.

## 'AA' Solar Battery Charger

A small, neat solar powered battery charger which will accommodate up to four AA size Ni-Cd cells. Very simple to use; simply place your AA batteries into the battery compartment of the charger, and set the lid, which carries the solar panel, to face the sun rays. A single battery can be charged in 2 to 3 hours; 2 batteries, 4 to 6 hours; 3 batteries, 7 to 10 hours; 4 batteries, 10 to 14 hours. Times will vary depending on the strength of the sunlight and/or the depth of discharge of the batteries. Dimensions of

## Universal Solar Powered Battery Charger

This universal battery charger will accept the most popular battery sizes - 'AAA', 'AA', 'C' and 'D', and charge two of the same size and type simultaneously.

On a good sunny day, two 'AA' batteries will be charged in about three to four hours. There is a built-in blocking diode to protect the solar cells during poor lighting conditions. On the base there is an adjustable stand to help position the charger for optimum charging. Dimensions: 170 x 76 x 56mm.

## RACE PACKS

### Mains and 12V Rapid Ni-Cd Charger for Radio Control Models

A fast charger for recharging 7.2V 1200mAh nickel-cadmium radio control battery packs. The charger can be powered from either 240V AC mains or from 12V DC car accessory socket (the charger must not be plugged into 24V DC sockets found on lorries). The charger incorporates a timer that will fast charge a battery pack for 20 minutes and then switch to trickle charge. This prevents battery packs from being overcharged, yet continues to top up the charge at a low enough rate such that it could be left on indefinitely without harming the battery pack. 90% of full charge will be reached during fast charge, the remaining charge to 100% is obtained by safe trickle charging. To use: connect the charger's connector to the battery pack. Plug the charger into the power source (either 240V AC or 12V DC), the red LED will illuminate indicating fast charging. After 20 minutes the LED will extinguish and the charger switches automatically to trickle charge. When charging is completed, disconnect the charger from the power source and detach the battery pack. It is essential to disconnect the charger before recharging another battery pack to allow the timer to reset. Battery packs should not be recharged when they are warm (i.e. straight after removal from a model after racing) nor should battery packs be recharged whilst still fitted in a model. During charging both battery pack and charger will become warm, this is normal. The charger is fitted with a mains lead (and plug), a 12V DC power lead and suit standard battery packs. Overall dimensions: 81 x 67 x 131mm (excluding lead outs).

Charging current: 2-4A  
Charging voltage: 7-2V

Price each shown, but sold only in multiples of 1.

### NiCd Pack Multi-Charger and Charging Monitor

MFA

A 12V input, rapid NiCd charger incorporating a trickle charge facility. Can be used to rapid charge 500mAh and 1-2Ah NiCds in packs of 5, 6, 7 or 8

cells (includes rotary switch for 6, 7-2, 8-4 and 9-6V). Rapid charging duration is controlled by a timer which can be set between 5 and 30 minutes. An ammeter shows the charging current. After the time has elapsed, the unit shuts-off and goes into trickle-charge mode. The unit is connected to a 12V battery, e.g. a 12V car battery or sealed lead-acid battery WE91Y. Internal fuse for overload protection. Dimensions: 128 x 97 x 54mm. Unit includes power source connection leads, output leads with racing-pack connection socket, battery connection crocodile clips and instructions.

DX19V	Ni-Cd Charger	£21.260		£24.990

### Teamline Ni-Cd Race Pack Charger

This automatic charger, designed to charge Ni-Cd Race Packs from a car battery or similar 12V DC source, is probably the most advanced, lightweight and easy to use on the market. Features include:

- ★ High efficiency Delta Peak charging unit
- ★ Protection for switched polarity or short circuit
- ★ Built-in electronic safety timer
- ★ Alligator clip 12V connection
- ★ Switch for 6 (7-2V) or 7 (8-4V) cells
- ★ Compact, lightweight aluminium heatsink case
- ★ Red/green charging indicators

#### Specification

Constant charging current: 3-2A  
Maximum timer limit: 66 minute auto cut-off  
Charging voltage range: 6 to 7 cells (7-2to 8-4V)  
Input voltage: 12 to 16V DC (3-2A)  
Weight: 185g  
Dimensions: 116 x 62 x 22mm

## 12V CONVERTERS

### LOW VOLTAGE OUTPUT

#### Car Voltage Step-down Converter

An easy-to-use car voltage step-down converter and regulator which simply plugs into any cigar lighter socket and converts the car battery supply to any of seven levels, 1.5V, 3V, 4.5V, 6V, 7.5V, 9V or 12V DC. The output is selected by a 7-way slide switch and max. current rating for each voltage is as follows:

12V	800mA	9.6W
9V	700mA	6.3W
7.5V	500mA	3.75W
6V	400mA	2.4W
4.5V	350mA	1.58W
3V	300mA	900mW
1.5V	250mA	375mW

Fitted with a 1.7m long lead terminated with a moulded 2-pin line socket. To this any one of six little right-angled adaptor plugs can be connected in either polarity. These comprise a 3.5mm jack, then miniature 1.3mm, standard 2.1 and 2.5mm, 'narrow sleeve' 2.1mm (5mm o/d), and 'fat sleeve' 1.3mm (5.5mm o/d) power plugs, one of which should fit nearly all items using these types of connectors. (For 2.5mm use a 3.5/2.5mm adaptor.) A flexible plastic keeper strip has six holes to hold all adaptors. All power plugs are long reach type for both short and long reach sockets. Max. insertion depth of car plug, 55mm; diameter 20mm. Dimensions of regulator unit 80 x 55 x 28mm.

Retail Unit Price each (inc. VAT).

		1+	10+	25+	1+
JY53H	Car Power Adaptor	£7.650	£4.770	£3.520	£8.990

### MAINS VOLTAGE OUTPUT

#### Car Battery to 230V Mains Converter

A very efficient and compact 12V car battery to 230V AC converter, that can be used to power domestic appliances up to 200W. Designed to be permanently installed in the vehicle with direct connections to the battery, by two heavy duty leads. A third low current signal lead taken to the ignition switch turns the unit on and off via an internal

electronic relay. The mains output, indicated by a neon light, is by a standard 13A socket. The unit is fitted with an audible warning that sounds when the battery is becoming discharged. The warning tone gets louder as the battery voltage falls, and if the battery voltage falls below a critical level, the unit will switch off. The unit is designed to operate with the car engine idling when supplying high power continuously. Overcurrent protection is provided, so that if the unit is plugged into unsuitable equipment, for a short time, it will not be damaged.

**Specification**  
 Voltage input: 11V to 15V DC, 12V nominal  
 Input current: 1A approx. for every 10W of load  
 0.3A approx. with no load  
 Output voltage: 230V AC RMS nominal, 216V to 255V RMS over continuous load range up to 1.1A  
 Power output: 200W continuous, 250W short term, 500W surge  
 Size: 141 x 94 x 45mm  
 Weight: 800g

**Mounting Bracket Kit**  
 A mounting bracket kit for permanent installation of the 12V DC to mains converter is also available.

Retail Unit Price each (inc. VAT).

Order Code	Type 218	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
KR64U	12VDC/230VAC PSU	£35.310	£79.750	£71.750	£111.990
KR65V	Fixing Kit	£5.090	£4.550	£4.300	£5.990

#### Handy Mains Inverter

#### CC86T - 12V Handy Mains Inverter

Similar to the Car Battery Converter KR64U but mounted on an alloy base with a pressed steel cover and plugs directly into the cigar lighter socket of cars with negative earth. It converts 11V to 15V DC to 230V AC RMS 48-53Hz 200W continuous, 250W short term and 500W surge. Powers domestic appliances up to 200W continuously by a standard UK 13A socket outlet. There is an audible warning if the battery voltage drops too low (approximately 11V) and the unit turns off when the voltage falls below approximately 10V. The output is a stepped quasi sine wave. A red neon indicator illuminates when an output is present. Over current protection is provided to prevent any damage. If overloaded the output will 'latch off', requiring the load to be removed and the plug withdrawn from the cigar lighter socket to reset it. A 30A fuse in the supply input helps prevent damage should the unit be seriously overloaded or misconnected; this is user replaceable. There is a wiring kit available for a direct connection to a high current source if the in-car lighter wiring is insufficient. Under no circumstances should the cigar lighter fuse be changed for a higher fuse rating as this can result in a fire hazard.

**Specification**  
 Voltage input: 11V to 15V DC, 12V nominal  
 Input current: 1A approx. for every 10W of load  
 0.3A approx. with no load  
 Output voltage: 230V AC RMS nominal, 216V to 255V RMS over continuous load range up to 1.1A  
 Power output: 200W continuous, 250W short term, 500W surge  
 Size: 141 x 94 x 45mm  
 Weight: 739g

**Direct Wiring Kit**  
 A heavy duty wiring kit that can be used in conjunction with this product is available (CC87U).

#### GT82D - 24V Handy Mains Inverter

Similar to CC86 but for use with a 24V battery. Specification

Voltage input: 20V to 36V DC  
 Input Current: 1 amp (at 12V) or 0.5 amp (at 24V) for every 10W of load.  
 Voltage output: 240V AC rms nominal, 216 to 255 V rms over continuous load range up to 1.1amps.  
 Power output: 200 watts continuous, 250 watts short term. Surge capability of 500 W  
 Size: 141 x 94 x 45mm  
 Weight: 739g

GT82D	24V Mains Inverter	£127.650			£149.990

#### Movable Converter Direct Wiring Kit

A heavy duty wiring kit for the movable converter (CC86T). Contains a cigar lighter socket mounted on the end of two metres of heavy duty flex which can be connected to heavy current supply that has a fuse rating in excess of 20A. Used when existing car cigar lighter circuit is not capable of supporting the power requirements of the Movable Converter. It is essential that the supply to the cable is correctly fused. The positive lead should not be connected directly to the battery under any circumstances.

**Specification**  
 Voltage input: 11V to 15V DC  
 Current Rating: 20A  
 Fuse Rating: 30A maximum

Retail Unit Price each (inc. VAT).

### MAINS ADAPTORS

### VARIABLE OUTPUT

#### Regulated Variable PSU

Uniross

These plug-in units are regulated to keep the output voltage constant at all output currents. Two models are available with maximum output currents of 300mA and 500mA. Voltage output is switchable for 3, 4.5, 6, 7.5, 9 and 12V DC, via a front mounted switch with screwdriver slot. A second, similar switch reverses the polarity of the output as

required. A LED indicator shows when the unit is on. Body dimensions: (excluding mains pins)  
300mA version: 70 x 52 x 43mm  
500mA version: 80 x 73 x 58mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YB23A	Mains Adptr Reg 300mA	£8.590 £6.570 £5.910	£10.090

## Regulated Variable 1200mA

Unross

- ★ 1.2A Regulated Output
- ★ Reversible polarity
- ★ Range of Adaptors

A regulated desktop power supply with output voltages of 1.5, 3, 4.5, 6, 7.5, 9 & 12V, selected via a top-mounted switch with a screwdriver slot. Maximum output current is 1200mA. An LED indicator shows when the unit is powered. Dimensions: 77 x 150 x 62mm excluding leads.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VN10L	Var Mains Adptr 1.2A	£11.900 £10.700 £9.850	£13.190

## Unregulated 300mA Variable

This unit has outputs of 3, 4.5, 6, 7.5, 9 and 12V DC at 300mA (max). The unit is not stabilised and therefore at low current drains the voltage rises. At less than 150mA this rise could be considerable. If you wish to use this adaptor at current drains less than 150mA you should increase voltage slowly from the lowest voltage setting until the input is at the required voltage. (A meter placed across any of the 3 spare spider connections will allow you to monitor the voltage.)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
XX09K	AC Adptr Unreg 300mA	£6.000 £3.430 £2.980	£7.060

## Unregulated 800mA Variable

This unit has outputs of 3, 4.5, 6, 7.5, 9 and 12V DC at 800mA (max). There is a power 'on' indicator and a polarity switch. In addition to the four standard output plugs, the unit has a 1.3mm Walkman-type plug as well. Overall size of body 98 x 67 x 57mm. Note that this unit is unbalanced and therefore at low current drains, the voltage can approach double the full load voltage.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YM85G	AC Adptr Unreg 800mA	£8.580 £4.850 £3.690	£10.090

## FIXED OUTPUT

### Fixed Voltage Unregulated Mains Adaptors

A range of high quality fixed-voltage, unregulated mains adaptors for personal computers, radios, calculators, video games, cassette players, small TVs and battery operated equipment, which do not require a regulated power supply. The adaptors feature short circuit protection, plus automatic thermal and overload cut-off. The output is via a flying lead with a multi-type plug featuring 1.3, 2.1 & 2.5mm DC plugs and 2.5 & 3.5mm jack plugs. Polarity is centre positive when the '+' symbols on the output lead are aligned, and is reversible.

## Call and Collect

Maplin has more stores Nationwide than ever before. See the maps at the front of the catalogue for the nearest one to you.

## High Quality Switched-Mode Mains Adaptors

A range of high quality fixed-voltage, switched mode, regulated mains adaptors for personal computers, computer peripherals, radios, calculators, video games, cassette players, TVs and other battery/low voltage operated equipment, requiring higher output currents.

The adaptors feature short-circuit protection, plus automatic thermal and overload recovery. The regulated output ensures a constant DC supply with minimal ripple. Output for the single-voltage types is via a flying lead with a 2.1mm DC plug. Mains input for all models is via an IEC connector, a suitable mains lead for UK use is stock code MK41U. Mains input voltage range is 100-240V, 50/60Hz.

Output voltage	Output current	Dimensions	Order code
5V	4A	110 x 60 x 33mm	GS82D
12V	2.5A	110 x 60 x 33mm	GS83E
15V	2A	110 x 60 x 33mm	GS84F
24V	1.25A	110 x 60 x 33mm	GS85G

A multi-voltage model is also available providing outputs of 5V @ 3A, +12V @ 1.5A, & -12V @ 0.2A. It has a 2m output lead terminated in a 5-pin 180 DIN plug wired as follows:

Dimensions: 140 x 60 x 40mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 1345S	Price each exc. VAT	inc. VAT each
GS82D	5V 4A SMPSU	£29.770 £25.900	£34.990
GS83E	12V 2.5A SMPSU	£29.770 £25.900	£34.990

GS81C	5 & +/-12V SMPSU	£42.540 £36.500	£49.990

## AC/AC Mains Adaptor Plugs

A range of quality mains AC/AC adaptor plugs ideal for electronic keyboards and other AC powered equipment. Power is supplied via a 1.8m lead terminated in a 2.5mm connector.

Overall dimensions: 50 x 65 x 65mm  
Input: 230V AC 50Hz

Code	Output Voltage	Max. Current
GS79L	6V AC	500mA
GU09K	9V AC	500mA
GU10L	12V AC	500mA
GS80B	15V AC	400mA

Retail Unit Price each (inc. VAT).

GS80B	15V 400mA AC/O/P PSU	£9.350 £8.700	£10.990

## BATTERY TESTERS

### Battery Tester Strip

A liquid crystal battery tester for use with 1.5V cells (not Ni-Cad types). The tester is a clear flexible plastic strip which is folded around the battery so that the two silvered spots on the back of the tester make contact with the positive and negative terminals of the battery. The coloured marks on the face of the tester then 'light up' to show the condition of the battery. Full instructions for use are printed on the tester.

Retail Unit Price each (inc. VAT).

Order Code	Type 24	Price each exc. VAT	inc. VAT each
FP60Q	Battery Tester	1+ 5+ 10+	£0.212 £0.180 £0.160

### Battery Tester

A low-cost and compact battery tester suitable for determining the state of both dry and NiCd cells. The state of the cell is shown as 'Replace/Recharge', 'Low' and 'Good' on the integrated moving coil meter. The spring loaded arm is used for testing 'N', 'AAA', 'AA', 'C' and 'D' cells and all similar 1.5V cells, while PP3 batteries are held against two contacts on the side of the unit. In addition, the spring loaded arm can also be used to test button cells from watches and calculators. Please note that the unit draws 220mA; button cells should not be tested regularly.

Retail Unit Price each (inc. VAT).

Order Code	Type 8036	Price each exc. VAT	inc. VAT each
DM75S	Handy Battery Tester	1+ 10+ 20+	£3.820 £3.110 £2.880

## Car Battery Analyzer

A handy device for checking the state of a car's battery and charging circuit. Simply plug the device into the car's cigar lighter socket and read the display. For testing the battery turn the engine off and leave the car with the lights on dipped beam for one minute. Now connect the device and read the display. If the battery is defective the meter will register low. To check the alternator/dynamo state just check the meter scale after driving for more than 15 minutes. A healthy charging circuit will register in the middle of the scale. The legend on the meter is easy to read, and colour coded to show easily which areas of the scale are healthy and which are bad. Suitable for negative ground electrical systems.

Retail Unit Price each (inc. VAT).

Order Code	Type 10042	Price each exc. VAT	inc. VAT each
RJ91Y	Car Battery Analyzer	1+	£4.240

## Battery Condition Meter

Ideal for automotive, marine and caravan applications using 12V battery electrics. Only two connections are needed for accurate and up to date analogue reading of your battery condition. The meter's scale reads from 9 to 16V with warning areas indicated on either side of the optimum voltage.

Dimensions: 82 x 70 x 50mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3004	Price each exc. VAT	inc. VAT each
WD34M	VM Battery Meter	1+	£13.010

## BATTERY HOLDERS

### Coin Cell Battery Holders

Printed Circuit Board mounting holders for common Lithium Coin Cells. Reliable spring tension assures low contact resistance and secure retention to withstand shock and vibration. Clearly marked polarity.

## Snap-in PC Battery Clips

Two battery clips in nickel plated spring steel, giving reliable low contact resistance. The snap-in design gives secure through hole mounting to the PC Board. One size suits 'A' and 'AA' size cells, the other suits 'AAA' and 'N' cells.

Order Code	GU65V	GU66W

## PP3 Battery Holder

A clip-in battery holder moulded in grey polypropylene and designed to accept one PP3 9V battery. Will fit panels from 18swg to 10swg and a 58.5 x 24.5mm cut out is required. The cover, moulded as part of the holder, opens easily for battery changing and snaps shut securely. The holder comes complete with PP3 battery-clip and lead. Overall size 67.5 x 27.5 x 34mm deep. Depth behind front of panel: 29mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 262	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
XX33L	PP3 Battery Holder	£2.000	£1.900	£1.850	£2.350

## PP3 Battery Box

A black plastic battery box that securely holds one PP3 battery. Three countersunk holes in the base allow the box to be screwed to a suitable surface. A suitable battery clip, HF28F is not supplied. Overall size: 49 x 29 x 20mm.

Retail Unit Price each (inc. VAT).

## High Grade PCB Battery Holders for AA and D Cells

Buign

High quality, PCB mounting battery holders for round cells. Both types have solder tags in addition to 1mm wide PCB pins, and are attached to the PCB with countersunk M3 screws. Each type holds one cell only; holders can be stacked for two or more cells.

Cell Code	Type	Standard Battery Voltage	Ni-Cd Battery Voltage	Overall Size (mm)	Fixing Centres
MJ48C	AA PCB Batt Box	1.5V	1.2V	60x18x32	33mm
MJ50E	D PCB Batt Box	1.5V	1.2V	71x38x36	35mm

Retail Unit Price each (inc. VAT).

Order Code	Type 271	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
MJ48C	AA PCB Batt Box	£0.851	£0.808	£0.766	£1.000
MJ50E	D PCB Batt Box	£1.260	£1.200	£1.140	£1.480

## High Grade PP3 Battery Compartments

Buign

Chassis mounting battery holders for PP3 batteries having a removable drawer in which the PP3 is placed; when the drawer is re-inserted an internal spring presses the top contacts of the battery against the contacts at the rear of the compartment. These connections are brought out to solder tags at the rear. The compartment body is designed to be mounted in a rectangular hole in a panel and fixed with two countersunk M3 screws, making battery changing very quick and simple. Single and dual PP3 versions are available, the dual version has separate drawers. All drawers are keyed so accidental reversal is impossible.

### Dimensions

Stock Code	Type	Overall Depth	Panel Cutout	Fixing Centres
MJ45Y	Single	65mm	34.5x24.5mm	43mm
MJ46A	Dual	65mm	67x24.5mm	75mm

Retail Unit Price each (inc. VAT).

## PCB Mounting PP3 Battery Holder

Buign

A PCB mounting battery holder for PP3 9V batteries. Connections are via the PCB pins or solder tags either of which may be easily clipped off if not required. The moulding is clearly marked positive and negative. Moulded in nylon with nickel-silver contacts.

Viewed from below. Dimensions in mm.

2 x PCB pins. Holes in board #1.4

2 x holes. Fit M3 C'SK Hd screws x 10mm

Overall size: 58.7 x 29.8 x 38.5mm high  
Height above pcb: 33.8mm with solder tags.  
26.8mm without solder tags.

Retail Unit Price each (inc. VAT).

Order Code	Type 257	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
JK65V	PP3 PCB Batt Holder	£1.020	£0.969	£0.918	£1.200

## Versatile Battery Holder

Vero

A battery holder in grey polypropylene that will accept two PP3 batteries or four AA cells in a '4AA Battery Box' (HF29G). The holder has a hinged cover (overall size 60.5mm wide x 48mm high) which opens easily for battery change and snaps closed securely. The holder will clip into any panels with a 1.5mm or 3mm gauge or it may be screw fixed (M3) to any thickness panel. A 45.25mm square cut-out is required in the panel. The battery holder (overall depth 70mm) is supplied with two PP3 battery snaps.

Retail Unit Price each (inc. VAT).

Order Code	Type 280	Price each exc. VAT			inc. VAT each
		1+	10+	25+

## 4 x 'AA' Ni-Cd Battery Pack Box

A battery pack box for permanently housing 4 x 'AA' tagged Ni-Cd cells; Comprising two plastic box-halves and a grommet. Tagged cells are hardwired and then fitted into the box-halves, leadout wires pass through the grommet and cable exit hole, the two box halves are then either taped or glued together. Intended for use with radio control receiver equipment, but equally suited for use in other applications.  
Dimensions: 54 x 32 x 32mm.

## LASER POINTER

### Infiniter Laser Pointer

You can really impress the audience at your next presentation and leave them in no doubt where their attention should be with this high quality Class IIIA laser pointer. Gently press the clip and the pointer throws out a powerful beam that places a bright red point of light on the surface you want to draw attention to. This is a very high quality product in a smart satin metal finish, supplied with full instructions and presented in a plush velour-type gift case.

Powered by 2 x AAA cells (included), replacements may be ordered as 2 x JY50E.

**CAUTION:** Do not stare directly into the laser output aperture as retinal damage may occur. Keep out of reach of children.

## Small Rubber Krypton Torch

A black rubber-bodied hand-held torch that is fitted with a high brightness krypton bulb. The lens is made from transparent plastic and the torch is powered by two 'AA' cells (JY48C). Three interchangeable lenses in red, green and yellow are also supplied with the torch. The lens unscrews giving access to the two 'AA' type batteries and the bulb holder. The rubberised body features two flush-mounted 'snap' action switches for 'on' and 'off' which are unlikely to be operated inadvertently. The torch has a wrist strap attached to its body. Supplied with two 'AA' type batteries. Overall dimensions: 165 x 38mm diameter.

Retail Unit Price each (inc. VAT).

		1+			1+
UK90X	Small Rubber Torch	£3.460			£4.070

## Large Rubber Krypton Torch

A large black rubber-bodied hand-held torch that is fitted with a high brightness krypton bulb. The lens is made from transparent plastic and the torch is powered by three 'D' cells (JY46A). The lens unscrews giving access to the three 'D' type batteries and the bulb holder. The rubberised body features two flush-mounted 'snap' action switches for 'on' and 'off' which are unlikely to be operated inadvertently. The torch has a wrist strap attached to its body. Supplied with three 'D' type batteries. Overall dimensions: 260 x 65mm diameter. The Krypton bulb (3-6V, 0-8A) is available separately (KU02C).

Retail Unit Price each (inc. VAT).

KU02C	Krypton 3.6V 0.8A	£0.468	£0.340	£0.220	£0.550

## Rubber Torch

A very high quality durable rubber-bodied torch which represents very good value for money. The lens is made of toughened clear plastic instead of glass for longevity and safety. The water resistant body features two flush-mounted 'snap' action switches for 'on' and 'off' which are unlikely to be operated inadvertently. The base of the torch is unscrewable for simplicity of battery replacement, and features a recessed ring so that the torch may be easily hung up. Batteries supplied (replacement 2 x 'D' type cells (JY46A)).

Overall dimensions: 205mm length, 75mm dia. A replacement 2-4V bulb is available separately (BT66W).

## Water Resistant Torch

A bright, hand-held torch especially designed for outdoor use. It uses a 'krypton' bulb for high efficiency and a light output superior to conventional filament bulbs, with a generous 98mm round reflector. A resilient, plain plastic lens is used instead of glass for safety, and the whole lampholder is removable to gain access to the bulb itself and the battery compartment. This is held in place by a screw-on ring which retains the reflector. The reflector and lens are sealed to the ring with a thick rubber circular bead, and the joint between the screw-on ring and the body is protected by a red synthetic gasket or 'O' ring of square-section. As they stand these render the torch adequately splash-proof, but improvement may be possible by the sensible application of a non-hardening compound to improve the sealing of these joints – such as the Multi-Purpose Grease (FM80B), to be found in the tools section of this catalogue – in the right places. The torch uses four 'D' type cells which preferably should be alkaline (not included, JX50E). The body is a one piece black plastic moulding, with handle and wrist-strap, a security ring for a lanyard and a free-standing base. The on/off switch is a push button on top with a rubber cover. Overall dimensions are 170 x 140 x 120mm. The Krypton bulb is available separately (JX50E).

## Rechargeable Emergency Lamp

Uniros

- ★ Continuously Chargeable For Immediate Use
- ★ Supplied with Mains Adaptor and Car Lead
- ★ Built-in Rechargeable Battery

This handy dual function lamp can be used as a bright spotlight or a flashing emergency light. The light has a convenient 90° swivel head and when attached to its wall-mounting bracket is automatically charged via the plug-in charger adaptor. The rechargeable batteries are built-in to the lamp and take about 16 hours of charging to provide about one hour of continuous spotlight use. In addition, the car cigarette lighter lead allows the torch to be charged and used from a vehicle's electrical system. To avoid discharging the vehicle's battery, the plug should be removed from the lighter socket when the engine is not running. Replacement bulbs available (BT66W).

Retail Unit Price each (inc. VAT).

Order Code	Type 5011	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
VN16S	Rechargeable Torch	£11.900	£10.950	£10.350	£13.990

## LANTERNS

### Mini Fluorescent Lantern

A handy miniature lantern with a bright 150mm 4W fluorescent tube. It is powered by 4 'AA' cells (alkaline recommended JY48C) which are not included. Two self-adhesive sets of Velcro-type pads are supplied, which allow the lantern to be securely fixed to a surface and yet be easily removed. The high brightness offered in such a small size makes this lantern ideal as a pocket torch, or for camping. A replacement tube is available (JX45Y). Dimensions: 160 x 40 x 35mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 5011	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
ZC11M	Mini Fluor Lantern	£4.240	£3.750	£3.150	£4.990
JX45Y	Tube for YT10ZC11	£1.550	£1.080	£0.979	£1.830

### Mini Lantern

A very useful, compact torch and fluorescent tube combined. A switch on the side of the unit switches from off to torch or tube. The torch uses a MES tubular pre-focused bulb and the fluorescent light uses a 150mm 4W tube. It is ideal for use in power cuts, garages, sheds, in the car or for camping, fishing etc. The lamp has a remarkably bright light for such a compact unit and a carry strap so that it can be hung up. The lamp requires four 'AA' cells (alkaline recommended JY48C) not supplied. Replacement bulbs (JX46A) and tubes (JX45Y) are available. Overall size 152 x 53 x 21mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 5011	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
YT10L	Mini Lantern	£4.330	£3.320	£2.810	£5.090

JX45Y	Tube for YT10ZC11	£1.550	£1.080	£0.979	£1.830

### Ultraviolet Mini Lantern

A very useful miniature torch combined with an ultra-violet (UV) fluorescent tube, offering exceptional value for money. A switch on the side of the lantern selects torch beam on, UV tube on, or power off. The torch uses a readily available MES, tubular pre-focused bulb, and a 152mm 4W UV tube. The UV light facility is especially useful to stamp collectors for reading the phosphor dots on postage stamps. It can also be used to detect UV security ink and to check the authenticity of bank notes. The lamp body features a carry strap so that it may be hung up, and the lamp itself requires four 'AA' cells (alkaline recommended JY48C) not supplied. Replacement bulbs (JX46A) and tubes (CR48C) are available separately. Overall size 152 x 53 x 21mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 2040	Price each exc. VAT			inc. VAT each
		1+	10+	25+

CR48C	UV Tube for ZC10	£3.460	£2.500	£2.350	£4.070

### Multi-Purpose Lantern

A slim multi-purpose lantern with three different light sources. A very bright spotlight that uses a krypton bulb, is mounted on a 180° swivel head, while on one side, a fluorescent lamp is fitted, and on the opposite side an amber flashing light is fitted. The lantern can be used as a table lamp by using the swivel head as a stand, or stood on end, to allow use of the spotlight. A belt clip is also provided. The lantern requires four 'AA' type batteries, which are not included (JY48C).

Rechargeable batteries can be used, and a socket is provided for charging the batteries from an AC/DC 6V adaptor (JC90X, not supplied). A red LED indicates that the batteries are charging. Dimensions: 225 x 68 x 32mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 5002	Price each exc. VAT		inc. VAT each
		1+	1+	
BZ63T	MultiPurpose Lantern	£5.200		£6.110

### Multi-Function Emergency Lantern

This compact multifunction lantern features a powerful spotlight, fluorescent light and amber/red emergency flashing lights. Requires six 'C' cells that can be either dry cells (JY47B) or NiCd rechargeable cells (EM24B). Additionally, if a suitable 12V DC mains adaptor is used then the lantern can be operated from the mains, and rechargeable batteries, if used, can be charged. Similarly, a 12V car cigar lighter adaptor can be used to power the lantern and recharge suitable batteries.

## Rechargeable Hand-Held Security Lantern

Unloss

- ★ One or Two Tube Operation
- ★ Rechargeable Lead-Acid Battery
- ★ Can Operate Automatically if Mains Falls

A rechargeable hand-held security lantern with two fluorescent tubes. One or both tubes may be selected depending on the light output required. The unit is designed to stay on constant charge when not in use, and can operate automatically in the event of a mains failure, allowing it to provide automatic emergency lighting. From a discharged state, charging time is approximately 20-24 hours. Operating time is around 3.5 hours using both tubes extending to 4.5 hours using just one tube. Approximate dimensions: 300 x 160 x 87mm. Replacement tubes are available: stock code GS98G.

Retail Unit Price each (inc. VAT).

Order Code	Type 43157	Price each exc. VAT			inc. VAT each

KR34M	Cupboard Light	£3.720	£2.600	£2.280	£4.380

## DESK/BENCH LIGHTING

### Fluorescent Reader's Light

A compact, black, portable battery powered lamp fitted with a 14mm fluorescent tube mounted on a flexible neck. It features a sturdy clip which enables it to be secured to a shelf, panel edge, headboard etc. It can be used as a 'hands free' source of illumination for situations where you need a torch but require the use of both hands. The lamp itself requires 4 'AA' type cells (JY48C, not included) which should preferably be of the alkaline type, particularly if the unit is to be left on continuously for prolonged periods. The integral clamp will open to a maximum of 40mm and is capable of gripping shelves, table edges etc. up to 30mm thick. The lamp body features an on/off slider switch and a reflector mounted behind the tube.

Retail Unit Price each (inc. VAT).

Order Code	Type 5099	Price each exc. VAT		inc. VAT each
		1+	5+	
ZC12N	Fluor Reading Lamp	£6.800		£7.990

### Reader's Light

A small, portable battery powered lamp that may be either free standing or clipped to a shelf or the edge of a panel etc. Can be used to help illuminate the interior of an instrument case or similar confined space to provide close-up, on the spot lighting for fiddly soldering jobs, or in any situation where you need a small torch, but at the same time need both hands free. The lamp uses four 'AA' size batteries (JY48C, not supplied) contained in the base and providing stability in the free-standing mode. The integral clamp will open to 40mm maximum and is capable of gripping shelves, edges of tables etc. up to 30mm thick. A flush on-off slide switch is provided plus a 2.5mm jack socket for an external 6V supply (BZ81C, not supplied). The lamp proper is mounted at the end of a jointed arm which has a rotatable hood, and uses an easily replaceable MES bulb (RZ39N). Overall dimensions, folded - 120 x 45 x 60mm. Maximum reach of arm - 208mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 5111	Price each exc. VAT			inc. VAT each

FM99H	Reader's Light	£3.390			£3.990
RZ39N	Replacement Bulb	£0.417	£0.295	£0.265	£0.490

## Illuminated Glass Magnifier

An illuminated x 2.5 glass magnifier that is ideal as an aid for fine inspection of electronic components and circuit boards, but equally suited for reading fine print, maps etc. The handle incorporates an on/off slide switch for the lamp, which is powered by 4 x AA size batteries (not supplied JY48C). Magnifier 90mm dia., handle length 135mm. A replacement bulb is available (RZ39N).

Retail Unit Price each (inc. VAT).

Order Code	Type 4023	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
BZ53H	Illuminated Glass	£3.460	£2.350	£1.990	£4.070
RZ39N	Replacement Bulb	£0.417	£0.295	£0.265	£0.490

## INSPECTION LIGHTING

### Auto Hand Lamp

An extremely useful hand lamp with a 12V, 6W bulb and 4.55m cord terminated in a standard car cigarette lighter plug. The main body is constructed from sturdy black plastic and features an on/off switch. The top grille is orange in colour and features a hook from which the lamp can be suspended. It incorporates a safe plastic lens to protect the bulb and is detachable from the main body to facilitate bulb replacement. Replacement bulbs are available from most auto part suppliers. Overall dimensions: 166mm x 50mm dia.

Retail Unit Price each (inc. VAT).

## Cyclops Bendy Torch

- ★ Convenient hands-free design
- ★ Flexible neck bends as required
- ★ Illuminates hard-to-see areas
- ★ Versatile and easy-to-use
- ★ Portable, practical and durable
- ★ A must in every home and work area
- ★ Great value for money

This ingenious torch will prove invaluable to DIYers, hobbyists, engineers, installers and mechanics. Using a bright krypton bulb, it provides light conveniently where you want it and still leaves you with two hands free to work with! Simply snake the torch around any convenient support point, or use it free-standing. Powered by 2 x Alkaline 'C' Cells (supplied), order replacement cells as 2 x JY47B. Replacement bulb krypton 2.4V 0.7A pre-focused (KU00A).

## VersaBrite

Pell Products

This is a real workman's torch, producing a 6,000 candlepower xenon laser spot beam from a directable swivel head (through 180°) and with all the attachments you need to clip, stick or attach it to virtually any surface for hands-free operation. The powerful beam will penetrate water, smoke and dust and the unit's unbreakable and water-resistant polycarbonate casing is backed by an unconditional lifetime guarantee. Pack includes a detachable 'Bugsaway' night vision lens. Replacement lamp module available (Order Code EL09K). Powered by two 2 x AA (Order Code JY48C) batteries (supplied). Pack quantity: 1 (all items).

## Powerlite 6V

Lago

A novel, extremely robust and dependable headtorch, as supplied to the Ministry of Defence, BR and UK electricity companies. It consists of a bright 6V lamp with an adjustable 56mm parabolic lens to cover the field of view. This is fitted to a comfortable, adjustable and elasticated 30mm wide headband, which can be used with a safety helmet if the optional clips are used. A pair of battery packs, which between them take four 'AA' cells (alkaline recommended, not included JY48C) are strapped to the sides of the headband. A fresh set of batteries will yield between 6 and 7 hours of continuous operation. The bulb is a lens-ended brilliant type, and provides a 30m beam of illumination. For convenience, the lens also acts as the on/off switch, and has three operating modes: off, wide and spot beam. A compartment just under the lamp provides storage for spare bulbs. Weight (without batteries): 105g. Please note: this product is not waterproof, but will continue to work if immersed in water. It can be quickly opened up and dried, when convenient. The electrical contacts are rustproof and the lens varnished, for long service life under moisture-rich environmental conditions. A spare 3.5V 200mA lens-ended MES bulb (BP86T) is available for the above, as is a pouch (BN78K) and helmet clips (BN80B).

Retail Unit Price each (inc. VAT).

BN80B	Helmet Clips	£1.650			£1.950

## Halogen Headtorch

Lago

A robust general-purpose head-torch, with all of the features of BN79X above. Instead of the prefocused bulb, though, a superbright halogen bulb is used to provide up to 100m of illumination. A fresh LR12 battery (not included ZB63T), will power the torch for between 6 and 7 hours. For longer battery life, an alkaline battery is available, JC94C. In this case, the battery pack is mounted on the back of the headband. Weight (without batteries): 135g. A pouch is available (BN78K). Helmet clips (BN80B) and a replacement bulb (BP87U) are also available.

Retail Unit Price each (inc. VAT).

BN80B	Helmet Clips	£1.650			£1.950

## SAFETY LIGHTING

### Electroluminescent Harness

Reflective harnesses for wearing on the body have been on the market for some time. While useful for areas where there is light to reflect, they are not quite so handy for the occasions when you are in pitch darkness. If you have hiked across a field in the dead of night with a companion, you will know how difficult it is to keep track of each other. All of this is a thing of the past, thanks to a new innovation. The electroluminescent harness has bands of a special chemically-coated material running through its straps. When energised by a high-voltage (but tiny current) electricity source derived from an inverter circuit, these bands will flash with a cold green glow. In darkness, this glow can be seen from a distance of 300m. The harness accommodates an inverter/battery pack with an on/off switch. Since little or no wasteful heat is generated, a pair of alkaline 'AA' batteries (JY48C, not included) will power the harness for around 50 hours. Cheaper to run than a torch, this ingenious bodywear will find numerous applications amongst workmen, cyclists, campers, dog-walkers and hikers.

Retail Unit Price each (inc. VAT).

WC64U	Xenon Strobe Clear	£17.010	£19.990

**LED Safety Lamp**

A compact, lightweight lamp that is ideal for mounting on a cycle or as a red warning lamp when walking, running, or roller skating, clipped onto a belt. The high-brightness, triple-LED lamp can be switched to steady or flashing mode. Requires two 'AA' size batteries (JY48C). Dimensions: 66 x 47 x 26mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GW52G	LED Safety Lamp	£3.390	£3.990

**LiteBand KL175 Reflective Armband with LEDs**

A fluorescent yellow reflective armband with a difference – it provides its own light source if there is nothing to reflect. Over the surface of the 425mm (fully extended) band are four equally-spaced superbright LEDs. Powered by a single CR2032 battery (ZB74R, supplied) for up to 50 hours, the KL175 will ensure that you can be seen even when all around is inky black. Ideal for all outdoor activities, the weatherproof KL175 is lightweight, Velcro-fastening and elasticated for a snug fit. The reflective armband is also available without the LEDs, model KL150 (order code BM19V).

Retail Unit Price each (inc. VAT).

BM19V	KL150 KnightBand	£3.020	£3.560

**12V LIGHTING**

**High Power Halogen Spotlight**

A robust, powerful, hand-held halogen 55W spotlight that plugs into the 12V DC cigarette lighter socket fitted to most motor vehicles. The high light output makes this a very useful spotlight for mobile and emergency lighting. A metal hanger is provided in the top of the spotlight which also houses an on/off switch. The spotlight is provided with three metres of coiled cord and a protective cover. Please note that, in use, the lamp will get very hot and will draw a very high current from the vehicle's battery. Care should be taken to avoid discharging the battery. Overall dimensions: 160 x 117 x 90mm. Replacement bulb available: KP62S

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CJ50E	Halogen Spotlight	£8.500	£10.000
KP62S	Bulb for AG90/CJ50	£1.690	£1.990

**Halogen Spotlight**

A 12V DC, hand held halogen lamp with a glass lens which is designed to plug into a car cigarette lighter socket. The lamp produces light equivalent to 300,000 candle power. The on/off switch is located on the handle of the unit and a pull-out metal hanger is provided at the base. When in use the lamp becomes very hot and may exceed 90°C; for this reason caution should be exercised to avoid touching the glass when the unit is in use. Also, the lamp should not be operated with the lens covered as this may lead to excessive heat build up. The lamp is supplied with a coiled lead approximately 3m long terminated with a car cigarette lighter plug, and a wall mounting bracket. Spare bulbs (KP62S) available separately. Please note: The unit should always be operated from a suitably fused supply. If the unit is operated from a car cigarette lighter socket, this will normally be fused.

Retail Unit Price each (inc. VAT).

## Slimfit 12V 16W Fluorescent Lamp

Alexander

- ★ Plastic construction with attractive fluted diffuser
- ★ Easy to install/maintain with clip-on diffuser
- ★ Can be easily fitted horizontally or vertically
- ★ 2 x 8W fluorescent tubes
- ★ 12V DC operation
- ★ Reverse polarity protected
- ★ Integral end-mounted on/off rocker switch
- ★ CE marked for EMC compliance to BS EN 55015:1993

An attractive, modern styled, slimline 12V 16W fluorescent lamp with numerous uses: automotive, camper, caravan, marine, etc. Light output is provided by two 8W 300mm fluorescent tubes driven by an integral DC inverter. An on/off rocker switch is located in one end of the lamp.

Fitting of the lamp is achieved by removing the diffuser and securing the base to the desired surface by means of M5 bolts (or other suitable 5mm diameter fastener) through the 4 fixing holes in the base. An additional hole will need to be drilled through which a fuse-protected 12V supply should be provided to the lamp - 90mm leadout wires are fitted to the lamp to facilitate connection of the supply. Leadout wires are coloured red (positive) and black (negative). The diffuser must be re-fitted prior to use.

Tubes should be replaced when they show signs of ageing - replacement tubes are available. Do not use the lamp with a faulty tube fitted or a tube missing.

**Caution:** Hazardous voltage will be present on the tube terminals when the lamp is switched on, therefore to avoid risk of electric shock:

- Do not operate the lamp with the diffuser removed or if the diffuser is broken
- Always disconnect the supply when changing fluorescent tubes

### Specifications

Dimensions:	76mm (W) x 23mm (D) x 380mm (L)
Fixings:	4 x 5mm (centres 36mm x 367mm)

## CYCLE LIGHTING

### Cateye HL-NC210 Single Daylite

Where bright light is essential, so is the Cateye Single Daylite. Powered by a slimline rechargeable lead-acid battery, the Single Daylite will produce 5000 candlepower from its halogen bulb for up to 8 hours continuously (when used with an optional 2.4W bulb). Other bulbs will increase light output, but at the expense of battery life. The vibration-proof offset lamp mounting bracket is adjustable both horizontally and vertically, while the battery pack attaches to the top tube of the frame. Single Daylite has been designed to be water-resistant. Combined weight: 1kg. Supplied with mains charger, Single Daylite has many applications other than cycle use. Spare halogen bulbs also available: 2.4W (WC38R), 6W (WC39N) and 10W (WC40T).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WC37S1	HL-NC210 Singl Daylit	£59.560	£69.990
WC38R	2.4W Bulb	£8.670	£10.190
WC39N	6W Bulb	£8.670	£10.190
WC40T	10W Bulb	£8.670	£10.190

### Cateye HL-NC200 Double Daylite

If Single Daylite is not powerful enough for you, then Double Daylite - with its dual halogen beams - will be. A versatile rechargeable lighting system with the same design philosophy as the Single Daylite, up to 22,000 candlepower of illumination can be produced. The two lamps supplied are 2.4W broad-beam and 10W spot-beam types, although different combinations can be used to improve performance or battery life. Supplied with a vibration-proof centre-mounting bracket, Double Daylite is water-resistant. The battery pack is fastened to the top tube. Combined weight: 1.1kg. Supplied with mains charger, Double Daylite has many applications other than cycle use. Spare halogen bulbs are also available: 2.4W (WC38R), 6W (WC39N) and 10W (WC40T).

Retail Unit Price each (inc. VAT).

## Cateye HL-500 Halogen Front Cycle Lamp

Compact yet powerful, this front lamp will illuminate your path with greater brightness than conventional types. A 1.2W halogen bulb and computer-designed lens provide wide-angle coverage. A large positive-action switch aids operation in the dark. The lamp, when powered by 2 alkaline 'C' cells (JY47B, not included) provides up to 8 hours of illumination. Supplied with a fixed quick-release handlebar bracket. Complements the halogen rear lamp (BM06G). Pack of two replacement halogen bulbs available (WC41U).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BM05F	Cateye HL500 FLight	£12.750	£14.990

## Cateye Dual-Mode LED Front and Rear Lights

BM08J

BM09K

With its three LEDs, these water-resistant safety lamps are capable of producing light levels of 6000mcd. Since LEDs are considerably more efficient than conventional filament bulbs, a pair of

'AAA' alkaline cells (JY50E, not included) will power the lamps for 50 hours. If the lamps are used in the attention-grabbing 'flashing' mode, battery life is doubled to 100 hours. Each light is supplied with a vibration-proof quick-release mounting bracket and a belt clip. Each light is sold separately.

Retail Unit Price each (inc. VAT).

## Duracell Lockable Front and Rear Cycle Light Set

A complete bicycle light solution from this well-known manufacturer. With their unique key-operated locks, these are the only pillar-proof cycle lamps available. Each stylish BS-approved lamp is supplied with a universal bracket, which allows it to fit all sizes of bike. The lamp clicks onto the bracket, and is firmly secured when the key is removed. With the key in place, the lamp can be removed and used as a torch. The casings are shockproof, water resistant and contain a powerful krypton bulb, efficient lens and reflector. For each lamp, the power is supplied from two 'D' cells (JY46A, included). Replacement bulbs sets (pair) are available (WC45Y).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BM20W†	Duracell Lockable Set	£25.520	£29.990
WC45Y	Bulb Set-Lockable Set	£2.160	£2.540

## Duracell Compact Front and Rear Bike Light Set

Ideal for general recreational use or travelling to and from work, the stylish Duracell Compact lamp set makes an ideal gift. The front lamp has a powerful halogen bulb for maximum visibility, while the rear lamp uses a krypton rear bulb for providing 70% more light output than standard types. Made from tough ABS plastic, the casing is shockproof and water resistant, and has a lifetime guarantee. Thanks to the universal brackets supplied, the lights will fit all sizes of bicycle. Each lamp requires 2 'C' cells (JY47B, supplied). Replacement halogen and krypton bulb sets (pair) are available (WC46A).

Retail Unit Price each (inc. VAT).

BM21X†	Duracell Compact Set	£17.010	£19.990
WC46A†	Bulb Set-Compact Set	£4.330	£5.090

## Knightlite 5-LED Front and Rear Lights

A pair of high-quality LED lamps with a variety of mounting options and operation modes. A pair of press buttons on the rear of the lamp select between flash rate (slow, fast, permanently on, off) and LED brightness. In darkness, the lamps are visible from a distance of upto 900m (3000ft.). A total of five high-brightness 5mm LEDs form the light source, which is powered by two 'AAA' batteries (JY50E, included). In steady mode, up to 100 hours of continuous operation, or 200 hours in pulse mode, are possible from one set of batteries. The clear lens (front version) also acts as a reflector, and is joined to the main body with a weatherproof silicone gasket. Also suitable for walking, jogging and all other outdoor activities, the lamps are supplied with adjustable bracket fixings for bike frames, and solid/fabric surfaces with a thickness of up to 10mm. The lamps are sold separately.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BM24B	KL251 KnightLite Front	£11.050	£12.990
BM25C	KL250 KnightLite Rear	£11.050	£12.990

## KnightFly KL50 Clip-on Spoke Light/Reflector

For maximum side-on visibility, it is worth fitting your bike wheels with reflector discs, which clip onto the spokes. The KL50 consists of an amber reflector, and an amber single-LED lamp that fits onto the base of the reflector on the other side of the wheel. Together, the two only weigh 12g – two reflector/lamp pairs are supplied for fitting to both front and rear wheels. The weatherproof lamp, which also has a reflective surface, has flashing and permanently-on modes, which are selected by a push button. The lamp is powered by a pair of SG13 button cells (FM28G, supplied). Intended to supplement, rather than replace, approved reflectors.

Retail Unit Price each (inc. VAT).

## CYCLE COMPUTERS

# Cyclist Performance Computers

If you're a dedicated cyclist, you will want some method of assessing your speed and distance so that you can improve on your performance. All of the items on this page have a large LCD display, and mount on the handlebars for visibility. Each is supplied with a RPM sensor that clips onto the cycle's front forks.

BM03D

### Vetta C5 (BM03D)

The C5 is a simple cycle computer from a leading manufacturer. The black case accommodates a large and readable single-function display. The four functions – speed, trip distance, odometer and clock – are cyclically accessed with a large, single button. Requires SG13 battery (FM28F).

BM01B

### Cateye Mity 2 (BM01B)

The Cateye Mity 2 comes in a functional black housing, with a two-functional LCD information panel. Any two of the following parameters can be monitored - current speed, elapsed time, trip distance, total distance, maximum and average speed. The clock is a 12-hour type with auto stop/start. Requires CR1620 battery (GU11M) included.

BM02C

### Tri-Pro TP5 (BM02C)

The compact TP5 is dominated by a large single-function display is very light in weight and unobtrusive, and will appeal to 'purists' who wouldn't normally consider a cyclocomputer. Functions include current speed, trip odometer, trip elapsed time, cumulative odometer and auto stop/start. Requires SG12 battery (FM29G).

### Tri-Pro TP8 (BJ34M)

An expanded version of the TP5, the TP8 includes three additional functions – average speed, maximum speed and 12/24 hour clock. Two large anti-slip function buttons aid operation in wet weather. Requires CR2032 battery (ZB74R). Another top quality product in this extensive range.

Problem Solver

## Year 2000 Problem Solver

Bryce Ragland  
McGraw-Hill

The year 2000 date conversion crisis is not a small problem - and if you use computers, it's probably your problem, too. News sources from Forbes to Infoworld say businesses will spend more than \$300 billion to remedy their computers' inability to tell the difference between 1900 and 2000. And this issue affects nearly everyone who uses computers! If you don't know where your business stands with this problem, it's time to find out! This book gives you a simple introduction to the far-reaching consequences of the decision made years ago to code years as two-digit numbers, helps you construct the needed remedies, validate your solution and apply the cure. This is the one manual that all businesses need to get started on defusing the year 2000 time bomb!

## Audio Hi Fi & Loudspeaker

### Killer Car Stereo on a Budget

by Daniel L. Ferguson  
Car stereo systems have come a long way in the last few years, particularly in the field of electronics. However, what the driver and passengers hear has remained largely unchanged, normally due to the severe limitations posed by the loudspeaker systems installed by the car manufacturer. The purpose of this handy little book is to describe in detail how to build and install a high-powered, biamped in-car loudspeaker system.

Although an American book, there are many suggestions and ideas that can be adapted by anyone with enthusiasm and a reasonable understanding of electronics and loudspeakers. The book includes circuit and construction details for an electronic filter-crossover designed for use with a sub-woofer, that can be made from readily available components. There are suggested systems for saloon, hatchback and pickups, with in-depth guides on installation. 1989. 126 pages. 216 x 152mm, illustrated. American book.

AA77J	Budget Car Stereo	£7.990	£7.990 NV

## In-Car Entertainment Manual

Second Edition  
by Dave Pollard  
In-Car Entertainment (ICE) is a sure-fire way to relieve the stress and frustrations of motoring today, which is why many people are now installing sophisticated stereo systems in their vehicles, with a sound quality that matches, or even exceeds, their home Hi-Fi equipment. This book shows every step of the way, of how to go about creating your own, customised ICE system, that may even make those traffic queues enjoyable, or at least, bearable! Described is how to make your choice of equipment, effective installation techniques, dealing with interference, upgrading the system, fitting in-car telephones, and a security section on how to protect your investment, with plenty of photographs to support the informative text. 1993. 192 pages. 280 x 214mm, illustrated.

WS96E	The ICE Manual	£12.990	£12.990 NV

## Auto Audio

by Andrew Yoder  
Choosing a stereo system for a car can be intimidating. With the vast range of components to choose from many audiophiles and enthusiasts just pick what they can afford and hope for the best - or rely on a dealer. However with this guide, you can arm yourself with the information necessary to make an intelligent choice. As well as offering practical advice on how to select and install in-car systems, it also shows you how to maintain and keep your system sounding great. There are complete chapters on amplifiers; speakers and speaker enclosures; filters and crossovers; antennas; wire, cabling, connectors and transmission systems; installations; maintenance. A wealth of information in an easy to read and follow style. 1995. 360 pages. 233 x 187mm, illustrated. American book.

LA09K	Auto Audio	£23.990	£23.990 NV

## Loudspeaker Enclosure Design and Construction

Selection of cabinet designs and enclosures for the chassis loudspeaker units in Maplin's BIG CAT range of loudspeakers and many others. Comprehensive guidelines are given for tackling construction, stressing important points such as the care needed and details to consider in selecting materials, making joints, sealing, baffle mounting the driver units, wadding the cabinet and paying proper attention to electrical connections to guarantee a worthwhile finished product. Twenty-nine designs are described, from small-sized bass reflex cabinets using 305mm (12in.) dia. full range drivers, through folded horns, to monster multi-way

high power systems. 1991. 165 pages. 298 x 210mm, illustrated.

WM82D	Splr Cabinet Designs	£9.950	£9.950 NV

## Loudspeakers for Musicians

Vivian Capel  
Babani  
Have you ever seen the response of a bass loudspeaker given as from G#3 to F#4? More likely it will appear as 50Hz to 3,000Hz. This illustrates the terminology gap between the technician and the musician, both have their own terms for the same thing. In this book we set out to narrow the gap by relating technical expressions to musical terms. It contains all that a working musician needs to know about loudspeakers; the different types, how they work, the most suitable for different instruments, for cabaret work, and for vocals. It gives tips on constructing, cabinets, wiring up, when and where to use wadding, and when not to, what fittings are available, finishing, how to ensure they travel well, how to connect multi-speaker arrays and much more. Ten practical enclosure designs with plans and comments are given in the last chapter, but by the time you've read that far you should be able to design your own!

Retail Unit Price each (inc. VAT).

## An Introduction to Loudspeakers and Enclosure Design

Bernard Babani  
by V. Capel  
There is more to building a loudspeaker enclosure than just fitting a couple of speaker units into a box. There are many types of enclosure and drive units, each having their own features, good points and snags. This book explores these, and in particular examines the whys and wherefores so that the reader can understand the principles involved and so make an informed choice of design, or even design loudspeaker enclosures for him or herself. Crossover units are also explained, the various types, how they work, the distortions they produce and how to avoid them. Finally, there is a step-by-step description of the construction of the Kapellmeister loudspeaker enclosure, a design that involves novel features which overcome many of the disadvantages of more conventional types. It is a transmission line speaker that has remarkable stereo imaging, an uncoloured musical sound, occupies minimal floor space and is inexpensive to build. 1988. 160 pages, 178 x 111mm, illustrated.

## The Loudspeaker Design Cookbook – Fifth Edition

by Vance Dickason

This latest edition of this highly regarded book provides a comprehensive listing of the most widely accepted engineering procedure that can be used to construct a pair of high quality loudspeakers – with the minimum of test gear. Additionally, the text describes the science of loudspeaker design and, using all this information, will yield numerous possible variations in loudspeaker design, with a wide range of subtle and not so subtle differences.

The opening chapter gives a very detailed but easily understandable insight into how loudspeakers work. The following chapters delve into closed box, vented-box, passive radiator and transmission-line low frequency systems. These chapters are followed by cabinet construction, mid and high frequency drivers, passive and active crossover networks and loudspeaker testing. This latest edition includes chapters on home theatre and in-car audio speakers. A highly recommended book for all those who wish to build a pair of high quality loudspeakers to be proud of. 1995. 218 pages. 279 x 214mm, illustrated. American book.

AA75S 1	Loudspeaker Cookbook	£22.990	£22.990 NV

## Bullock on Boxes

by Robert M. Bullock III

This book is a compilation of a series of articles written by the author for the highly regarded magazine Speaker Builder. It is an easy to read guide to designing and building vented-box systems based on Thiele-Small models. In addition to the background theory and descriptions of the models, the text covers a host of related information drawn from a variety of sources. By far the best way to tackle the design of a loudspeaker box is to use a computer program of the model to investigate the various options. The use of computer programs is explained in clear detail with programs supplied and developed by the author.

Filled with tables, graphs and design tables this book is a must for the serious home loudspeaker constructor.

1991. 79 pages. 279 x 215mm, illustrated. American book.

## Designing, Building and Testing Your Own Loudspeaker System

by D. B. Weems

The book contains many detailed plans for speaker-box construction, for one, two or three-way systems. Simplified design charts are provided so that it is easy to design your own system. Full circuit details of many different types of crossover networks are given and much of the theory is explained, and includes

much background theory with useful mathematical formulae. The appendix even includes a speaker design program listing to run on IBM compatible computers.

1990. 222 pages. 236 x 186mm, illustrated. American book.

WG82D	Loudspeaker Systems	£18.990	£18.990 NV

## How to Set Up a Home Recording Studio

by David Mellor

For musicians, recording enthusiasts and students, this book explains how to set up a home recording studio with practical details on equipment, wiring, acoustics and sound-proofing, with a useful glossary of terms and lists of useful addresses. The book describes the setting up of an eight to sixteen track studio with an outline of the musical and recording equipment needed, but concentrates on the techniques of putting that equipment together into an efficient and productive recording studio in the home. Includes invaluable but hard to come by advice on patchbay wiring schemes, and describes how to custom build a rack to suit your own particular requirements. If you already have a studio at home or are thinking about setting one up, there's something in this book for you. 1990. 124 pages. 215 x 136mm, illustrated.

## Maplin Approach to Professional Audio

By Tim Wilkinson

Newnes

This is an introduction to the sound industry from a technical point of view. It provides not only a fascinating tour of the state of the art, but also will encourage anyone with an interest in audio to examine best practice and improve their own skills.

Defining 'professional' is professional audio is no easy task, as there is no single parameter that categorises a piece of equipment as being particularly suited for use in a professional environment. It is more a case of taking a look at the way in which certain types of equipment are used in a certain environment, and to what standards they have to conform.

Based on the acclaimed series of articles published in *Electronics - The Maplin Magazine* this book will give audio enthusiasts of all levels a view of the future of audio, and ideas as to how to achieve the highest standards of sound.

## Troubleshooting and Repairing Audio Equipment

3rd Edition 1996

Homer L Davidson

This book is written in an easy-to-understand style with clear illustrations and test readings. It is packed with more than 500 practical how-to photos, circuit schematics, and illustrations. It is a must, not only for the professional, but for the aspiring trainee. The book has 13 chapters dealing with repairs on pocket-size cassette stereo players, compact stereo tape decks, boom-box players, deluxe AM/FM/MPX tuners, deluxe amplifiers, car stereo cassette players, turntables, CD players, car cassette/disc players, telephone answering machines, stereo speakers and high-power car radios.

## Audio Amplifier Construction

by R. A. Penfold

Bernard Babani

Circuits of a wide range of preamplifier and power amplifier designs, from low noise microphone and tape head preamps to 100W MOSFET amps, are provided in this book. The projects are relatively easy to construct using the PCB or stripboard designs given. Setting up and testing procedures are described, although in most cases no test gear is required.

1997. 128 pages. 178 x 110mm, illustrated.

## High Power Audio Amplifier Construction

by R. A. Penfold

**Bernard Babani Books**

This book provides background information on high power audio amplifiers, together with some practical designs capable of output powers up to around 300 to 400 watts rms.

the high power amplifier designs include type having power MOSFETs in the output stage. These give excellent performance over the full audio range, and offer good reliability for what are relatively simple circuits. Printed circuit designs are included for these power MOSFET circuits, as are suitable mains power supply designs.

Using one of the MOSFET amplifiers it is possible to obtain powers of up to 50 to 200 watts rms, depending on the load impedance and the number of output devices used. By using two amplifiers (one inverting and the other non-inverting) a bridge amplifier is produced, enabling very high output powers to be achieved (300 to 400 watts rms into a standard 8 ohm impedance load).

For those who prefer to use bipolar output transistors, inverting and non-inverting circuits are provided. These can be used in single-ended or bridge configurations, and provide comparable output powers to the power MOSFET designs. 1991. 76 pages. 178 x 111mm, illustrated. British book.

AN64U	High Power Amp Const	£3.950	£3.950 NV

## Audio Electronics

by John Linsley Hood

The author is one of the most highly regarded and authoritative writers in the field of audio engineering. He is responsible for numerous amplifier designs that have appeared over many years, which have set many standards. This book represents a wide-ranging survey of the field of audio and is presented in the author's typical no-nonsense analytical approach that has become so well respected by the audio world. All aspects are covered including CD and digital technology. Highly recommended. 1995. 364 pages. 233 x 155mm, illustrated.

## Audio Anthology – Volume 6

When Audio was Young

This is a compilation of important articles that appeared in the American magazine Audio in the early 60s. Two of the most significant milestones in the field of high fidelity are covered by various articles in the book – FM stereo and transistors in audio equipment. This book will provide a meaningful and historical reference for everyone in the diverse fields of audio engineering as well as the amateur enthusiast, who have made the hi-fi business what it is today.

## Acoustic Feedback – How to Avoid It

by Vivian Capel

**Bernard Babani**

While feedback cannot be completely eliminated, there are certain things that can be done to reduce it to a level at which it is no longer a problem. Some types of microphones and certain loudspeaker systems can affect feedback, as well as the way the units are positioned. Additionally, live concerts have special requirements which can affect feedback. All these matters are fully explored, as well as electronic aids such as equalisers, frequency shifters and notch filters. Also includes a circuit and layout for an inexpensive, but highly successful, twin-notch filter, with instructions on use. 1991. 96 pages. 178 x 111mm, illustrated.

Retail Unit Price each (inc. VAT).

## Audio and Hi-Fi Engineer's Pocket Book

Third Edition

by Vivian Capel

A concise collection of practical and relevant data for anyone working on sound systems. The topics covered include microphones, gramophones, compact discs, tape recording, high quality radio, amplifiers, loudspeakers and public address. Acoustics is not often dealt with in audio books, so a section has been included dealing with most aspects the technician is likely to encounter, from human hearing to sound insulation. 1994. 334 pages. 196 x 95mm, illustrated.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WP90X	Audio/Hi-Fi Pocket Bk	£12.990	£12.990 NV

## The Master Handbook of Acoustics

3rd Edition

by F. Alton Everest

This is a good reference book for the serious minded who want to understand the theoretical and practical side of acoustics. The applied side of acoustics is well covered for those who desire to build their own sound and control rooms.

This 3rd edition is completely updated and expanded to include new chapters on computer-aided acoustical room design, digital and analogue sound processing, and synthesizer/midi studio acoustics. Other subjects covered include: frequency; octaves; comb-filter effects; the Schroeder diffusor; digital recording systems; setting up your home listening room; multitrack recording; recording studio design and setting up the control room of a sound studio. 1994. 455 pages. 187 x 234mm. Illustrated. American book.

LA07H	Master Acoustics	£19.990	£19.990 NV

## An Approach to Audio Frequency Amplifier Design

An original publication of GEC Ltd.

This book will appeal to all valve enthusiasts, young or old. It contains 17 high quality designs covering 5W to 1100W, that originated from the research laboratories of GEC Ltd. (UK). Many of the designs are based on the KT66 and KT88 tetrodes, which were, and still are, probably the most highly regarded valves ever produced for audio amplification. The designs include a simple amplifier for home use, to a very large amplifier for public address in auditoriums and stadiums. Two high quality preamplifiers are included, one being a simple minimal one and the other a more sophisticated design with full bass and treble controls. Each circuit includes a comprehensive parts list and specifications allowing the reader to construct their own version of the designs. Ratings for all the valves used are provided in tabular form, and include both European and US equivalents, wherever possible. 1994. 140 pages. 227 x 150mm, illustrated. American book.

WG46A	Book BP90	£2.500	£2.500 NV

## Maplin Series – Audio IC Projects

Each of the circuits in this book is based on those appearing in the popular 'Data Files' feature in Electronics – The Maplin Magazine. 'Data Files' are building blocks which constructors can use to experiment with components and use as a starting point for further development. Each of the circuits is based around readily available chips, and provide an excellent way to become familiar with the characteristics of the chip as well as providing constructional details of useful projects. Each project includes pinouts and pin designations, output waveforms, parts lists, circuit diagrams, PCB layouts and photographs of the boards. This book will provide a useful toolkit for building audio systems and circuits based on readily available components using straight forward techniques. 1994. 200 pages. 216 x 138mm, illustrated.

## Preamplifier and Filter Circuits

by R. A. Penfold  
**Bernard Babani**

This book provides both circuits and background information for a range of preamplifiers, together with tone controls, filters and mixers etc. to go with the amplifiers. The use of modern, low noise operational amplifiers and a specialist, high performance audio preamplifier IC results in designs having excellent performance but which are still quite simple. All the circuits featured can be built at quite low cost, in most cases, for just a few pounds. In fact, everything you need to put together your own, custom preamplifier system is in this book. 1991. 96 pages. 178 x 111mm, illustrated.

WZ19V	Preamps & Filters	£3.950	£3.950 NV

## Public Address Loudspeaker Systems

by Vivian Capel  
**Bernard Babani**

The loudspeaker system is a critical part of any public address installation. All too often, it is woefully inadequate, resulting in poor intelligibility and unnatural reproduction. This book examines the various systems and their drawbacks, describing LISCA, the LIne Source Ceiling Array. This gives astonishing clarity, coverage and reduced feedback, natural source location and even a pseudo-stereo effect. It promises to be the ultimate system for small to medium sized halls. Full step-by-step constructional and installation details are given. Also included: low impedance matching, 100V line systems, transmission lines, and how to design and install inductive hearing-aid loops. Few public address systems could not be improved from the information supplied in this book. 1997. 128 pages, 178 x 111mm, illustrated.

Retail Unit Price each (inc. VAT).

## Computer Books

### PC Handbooks

## The PC & MAC Handbook - Systems, Upgrades & Troubleshooting

By Steve Heath

This handbook is a compendium of information about PCs and Macs that is not normally available, or supplied with manufacturers' documentation. It combines practical experience and guidance with reference material to provide help and information for anyone using, upgrading, fault finding, or just interested in computers. The book has chapters dedicated to both types of computers and chapters on common components such as memory, disk drives etc. Each chapter starts with an explanation of the technology involved and gradually moves through technical detail and finishes with explanations and examples. Screen shots from both Macs and PCs have been used to illustrate these points. Also, the guide can be used by those who are considering switching from one machine to the other, as it provides valuable information as to what may or may not be re-usable. Additionally, there is a whole chapter devoted to explaining how to move data from one machine to the other using serial links, floppy disks and other methods. 1995. 591 pages. 247 x 189mm, illustrated.

Retail Unit Price each (inc. VAT).

JJ51F	PC & Mac Handbook	£35.000	£35.000 NV

## How to Expand, Modify and Repair PCs and Compatibles

by R. A. Penfold  
**Bernard Babani**

Not only are PCs and compatibles very expandable, but before long many users actually wish to take advantage of that expandability and upgrade their PC systems. Some aspects of this can be a bit confusing, but this book provides advice and guidance on the popular forms of internal PC expansion, and should help to make things reasonably straightforward and painless, and little knowledge of computing or computer hardware is assumed. All you need is to have and be able to operate a PC of some description. Topics include a PC overview, memory upgrades, how to add a hard drive, how to add an extra floppy drive, display adaptors and monitors, fitting a maths co-processor, keyboards, ports, mice and digitisers. All are covered in detail with emphasis on practical advice rather than theory. The final two chapters deal with maintenance (including the preventive kind) and repairs, and the increasingly popular subject of DIY PCs. 1994, Revised Edition. 176 pages. 198 x 130mm, illustrated.

Retail Unit Price each (inc. VAT).

## The PC Support Handbook

by David Dick

This British book was written by a senior lecturer who specialises in microcomputer technical support. The A4 spiral-bound book offers a more general approach and covers a wide range of material, that includes basic DOS commands (up to DOS 6) to advanced subjects such as disk organisation and memory management techniques. This well written, illustrated book brings together material not normally found in one volume and covers the latest techniques such as clock-doubling, local bus systems, PCMCIA, etc. The book is filled with numerous facts, diagrams and explanations and is divided into 15 chapters with each chapter having its own contents page. 1995. 400 pages. 298 x 230mm, illustrated.

## Upgrading PC's Illustrated

Jim Boyce

### Que

So it's time to upgrade your PC but you aren't quite sure how to do it. Well look no further! This one-of-a-kind book from Que shows you how to successfully install or upgrade any part of your system in an easy, step-by-step, illustrated format. You don't have to be an expert to upgrade your PC. Instead, rely on our expert author, Jim Boyce, to explain each step and tell you exactly which upgrades will and won't work with your system and how to save money by installing parts yourself. Add sound cards, modems, memory, hard drives, CD-ROM drives, and more to your system - everything you need to know about upgrading is included in this handy guide.

## Upgrading & Fixing PCs for Dummies

2nd Edition

by Andy Rathbone

As with the other books in this series, this book is not really for dummies, but for those people who are short of time and are not really interested in becoming a PC whiz-kid. With the help of this book and suitable screwdrivers, you should be able to repair or upgrade your PC and you will not need to learn anything during the process. This book is more a reference that provides a host of little gems of information. By following the step-by-step instructions and pictures, you can upgrade your computer to run today's most powerful software by adding memory, or a new or bigger hard drive. 1995. 360 pages. 235 x 188mm, illustrated. American book.

## Pocket PC Ref

5th Edition

by Thomas J. Glover and Millie M. Young

### Sequoia Publishing

This incredible little book is an absolute mine of information, containing information on just about everything you ever wanted or needed to know about IBM PCs and compatibles, and all in a handy pocket sized format!

Sections cover:

- ASCII Codes and Numerics
- PC Hardware - video standards; keyboard scan codes; CPU processor and co-processor types; resistor colour codes; paper size tables; port pinouts and cabling; memory map, I/O map, interrupts, errors; audio error codes; IBM PC/XT error codes
- Printer Control Codes
- Modems and Bulletin Boards- modem standards; UARTs; Hayes modem AT command set; top 100 BBS
- MS-DOS - commands and history
- Windows 3.1 Keyboard Shortcuts
- Hard Drive Specifications - standard 286/386/486 hard drive types and manufacturers directory
- Floppy Drive - specifications and manufacturers directory
- PC Industry Phone Book

This is one book that no PC user, systems administrator, installer or service engineer should be without! 1996. 543 pages. 136 x 80mm, illustrated. American book.

## Why Not Personalise Your PC?

by P. R. M. Oliver and N. Kantaris

### Bernard Babani Books

Are you a PC user who would like to customise and maintain your PC without spending hours doing so? This book explains how to do this

in both Windows and DOS formats. Windows format shows: How to set-up and organise groups of programs and data files and how to change the opening logo; How to use the Control Panel to personalise your working environment, use screen savers and wall paper files; How to manage the DOS prompt and how to transfer your customisation files to a new Windows installation.

The DOS format shows: How to write specialised batch files and create specialist programs with the use of the debug program; How to design and set-up your own professional looking menus, so you or others can run program applications and packages easily. Now covers Windows 95. 1997. 83 pages. 198 x 130mm, illustrated.

## The PC Configuration Handbook

A Complete Guide to Troubleshooting, Enhancing and Maintaining Your PC

Second Edition by John Woram

Newly revised and updated, this is the only book you'll need to keep your PC, XT, AT, or state-of-the-art 386 or 486 machine running trouble-free. The handbook gathers into one place all the relevant facts hidden in the manufacturers' technical reference manuals and translates them in to simple English. The result is a problem-solving book that's essential reading for anyone trying to configure, reconfigure or troubleshoot a PC. Even if you would prefer not to make any repairs yourself, your ability to make a well-informed diagnosis will go a very long way toward helping to get your computer back up and running quickly. Whatever diagnostics you can do yourself will likely save a service engineer's time and your money. Packed full of detailed information, including DOS 6, this book is recommended. 1990. 744 pages. 235 x 175mm, illustrated. American book.

## Understanding PC Specifications

by R. A. Penfold

### Bernard Babani

If you require a microcomputer for business applications or a high quality home computer, an IBM PC or compatible is often the obvious choice. They are competitively priced and are backed up by an enormous number of applications programs, hardware additions, etc.

The main difficulty for the uninitiated is deciding on the specification that will best suit his or her needs.

It would be very easy to choose a PC system that is inadequate to run your particular applications efficiently, or one which goes beyond your needs and consequently represents poor value for money. While explaining PC specifications in detail, subjects covered include: differences between types of PC (XT, AT, 80386 etc.); maths co-processors; input devices (keyboards, mice, and digitisers); memory, including both expanded (EMS) and extended RAM; RAM disks and disk drives caches; floppy disk drive formats and compatibility; hard disk drives (including interleave factors and access times); display adaptors, including all standard PC types (CGA, Hercules, Super VGA, etc.). Contains everything you need to know if you cannot tell your EMS from your EGA!

1994, Revised Edition. 128 pages. 198 x 130mm, illustrated.

**Inside the IBM PC**

Sixth Edition  
by P. Norton

This best-seller has been thoroughly updated to include every model of the IBM microcomputer family! Detailed in content yet brisk in style. The book reviews fundamentals and then moves on to discover new ways of using your microcomputer to its fullest potential. Definitive in all respects. Includes a detailed look at all of the special features of the IBM PC family, its 'clones' and their compatibility; the fundamentals of the 80286, 386 and 486 microprocessors, plus the DOS operating system and BIOS. Programming examples to show how each feature works in BASIC, Pascal, and Assembly Language are included, plus disk drive operation and data storage techniques, how ROM is allocated and much more. This latest edition includes coverage of plug-n-play, RISC architecture, Windows 95 and Multimedia. 1995. 653 pages. 233 x 188mm, illustrated. American book.

## Interfacing Standards for Computers

Second Edition  
by D. J. Marnham

This monograph is a revision of the same title first published by the Institution of Electronics and Electrical Incorporated Engineers in 1986.

The publication has been updated to include relevant additional information on current standards. The book serves as an introduction to the interfacing techniques and standards used by computers. It is invaluable to anyone who requires a basic understanding of the common computer interfaces in use today. The author discusses the various interfacing techniques and standards in ten clearly defined chapters. Some of the interfaces looked at are the RS-232 serial interface; serial interface standards; parallel interfaces; IEEE-488 general purpose parallel interface bus; VME bus; the small computer system interface (SCSI); wiring systems and character code standards.

1994. 105 pages. 210 x 147mm. Illustrated.

JJ42V	Interface Standards	£9.500	£9.500 NV

## The SCSI Bus and IDE Interface

by Friedhelm Schmidt

The SCSI bus and the IDE interface are without question the two most important interfaces for computer peripherals in use today. The IDE hard disk interface is found almost exclusively in the world of IBM PC compatibles.

However, the SCSI bus is designed to interface to hard drives, tape drives, CD-ROM, scanners and printers. Almost all modern computers from PCs, workstations and Macs to mainframes are equipped with an SCSI interface. This book provides a thorough description of both interfaces, including an explanation of essential technology together with a breakdown of commands and protocols. Includes software supplied on 88mm disk.

1995. 310 pages. 234 x 170mm, illustrated. American book.

ZD00A	SCSI & IDE Interface	£24.340	£28.600

## Interfacing PCs and Compatibles

by R. A. Penfold

Bernard Babani Books

With many of the popular eight-bit computers now obsolete and no longer on sale, the PC is the clear choice for anyone who requires a computer that can take their own add-on projects. Its expansion bus, in the form of the internal expansion slots, represents a reasonably easy means of adding your own temperature sensors, relay drivers, or whatever. Utilizing the expansion slots for do-it-yourself projects is more straightforward than you might think. Once you know, PC interfacing is less involved than interfacing to many eight-bit machines, which have tended to use some unusual interfacing methods.

This book gives you:

- A detailed description of the lines present on the PC expansion bus
  - A detailed discussion of the physical characteristics of PC expansion cards
  - The I/O map and details of the areas where your add-ons can be fitted
  - A discussion of address decoding techniques
  - Practical address decoder circuits
  - Simple TTL 8-bit input and output ports
  - Details on using the 8255 parallel interface adaptor IC
  - Digital to analogue convertor circuits
  - Analogue to digital convertor circuits
  - Everything you need to know in order to produce successful PC add-ons
1992. 96 pages. 178 x 111mm, illustrated. British book.

ANS1F	Interfacing PCs	£4.990	£4.990 NV

## Easy PC Interfacing

by R. A. Penfold

Bernard Babani Books

PCs and compatibles are the 'standard' choice for anyone who is interested in practically any aspect of computing, including those who like to experiment with do-it-yourself hardware add-ons. Although the internal expansion slots provide full access to the computer's buses, and are suitable for user add-ons, making your own expansion cards requires a fair amount of expertise and equipment. The built-in ports provide what is often a much easier and hassle-free way of interfacing your own circuits to a PC. In particular, a PC printer port plus a small amount of external hardware provides a surprisingly versatile input/output port. The PC 'game' port is less useful for general interfacing purposes, but it can be used in some applications.

This book provides a number of useful PC add-on circuits including the following:

- Digital input/output ports
- Analogue to digital convertor
- Digital to analogue convertor
- Voltage and current measurement circuits
- Resistance meter
- Capacitance meter
- Temperature measurement interface
- Biofeedback monitor
- Constant voltage model train controller
- Pulsed model train controllers
- Position sensors (optical, Hall effect, etc.)
- Stepper motor interface

- Relay and LED drivers
- Triac mains switching interface

A useful range of interesting projects that can be used with any PC or compatible that has a parallel printer port and a 'game' port.

1995. 179 pages. 178 x 111mm, illustrated. British book.

## Electronic Projects for Your PC

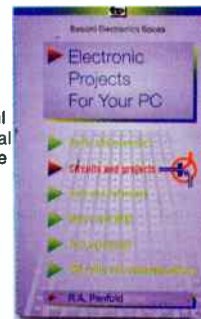

by R. A. Penfold

Bernard Babani Books

This handy little book provides a number of useful PC add-ons including: digital input/output ports, analogue to digital and digital to analogue converters, voltage and current measurement circuits, resistance meter, capacitance meters, temperature measurement interface, constant voltage model train controller, pulsed model train controller, position sensors, stepper motor interface, relay and LED drivers and triac mains switching interface. The ports and projects featured utilise the basic eight bit PC expansion bus, and are therefore suitable for use with any PC or compatible which has the standard ISA or EISA expansion bus. In practice, this means anything from the original PC through to the modern 386 and 486 PCs.

The book assumes that the reader has a certain knowledge of PC computer interfacing.

## Why not personalise your PC?

P R M Oliver and N Kantaris

Babani

Are you a PC user who would like to customise and maintain your working environment without spending hours doing so? Then this book is for you. We show you how to do just this, with Windows 95, with older versions of Windows, or with just DOS. In the Windows 95 environment, we show you:

- ★ how to customise the desktop with shortcuts and how to change the background.
  - ★ how to change the Taskbar and START menus.
  - ★ how to use the Control Panel to personalise your setup.
  - ★ how to rename the Recycle Bin in the Registry, and 'activate' DOS 7.
- In the Windows 3.xx environment, we show you:
- ★ how to set up and organise groups of programs and data files and how to change the opening logo.
  - ★ how to use the Control Panel and use screen savers and wallpaper files.
- In the DOS environment, we show you:
- ★ how to write customised batch files and use ANSI.SYS commands to set up your own professional looking menu system.

**Networks**

**Networking for Dummies**

by **Doug Lowe**

This book breaks down all the excessively technical language and helps the reader to really understand what networks are all about. Those mysterious phrases such as print queues, queuing, redirection, as well as software selection and management are tackled in an enjoyable and friendly way.

The book does not specialise in any one system and deals with Novell's NetWare, NetWare Lite, LANtastic and Windows for Workgroups. There is also coverage of Macintosh networking basics. Explanations of printer networking, Ethernet, types of network cable, coaxial cable, twisted pair cables, installation adaptor cards and other networking paraphernalia are all covered in detail. In fact everything you need to know to select, set up, use and manage a small computer network, in a plain English style. 1994. 382 pages, 232 x 188mm, illustrated. American book.

**Essentials of computer security**

by **Ian Sinclair Babani**

Security of computers and their files in these days has become more and more of a problem, and not only for the large scale commercial user of computers. Security embraces all the hazards that endanger your precious data, from power supply failure through hard drive failure to theft of computers or files, and some users are more at risk than others from particular hazards. This book deals with the problems of security for the small to medium size business or the home user of computers, and emphasises throughout that the

main hazards are not the ones that provide newspaper headlines, but are the often forgotten points such as limited life of a hard drive or the risks from fire or flood. The use of Windows 95 is assumed, but descriptions of important methods applicable to Windows 3.1 are also included because of the large numbers of computer users who have not yet changed to the later version.

**Netscape Internet Navigator Assistant**

by **Ian Sinclair Babani**

Whether you are a novice Internet user or are accustomed to other software, this is the book that offers the assistance that you need with Netscape Internet Navigator, together with its Mail and News sections. What makes this book so different and so useful, is the way in which the information is organised. The book provides:

- ★ Concise descriptions of the most-needed actions.
  - ★ A cross-reference index and list of newsgroups.
  - ★ Clear topic identification.
  - ★ Hints and tips about common requirements.
  - ★ Tables of items (such as key shortcuts) that are not easy to find.
  - ★ Clear instructions for the most difficult tasks.
  - ★ Quicker access to assistance.
  - ★ Help even when the computer is switched off!
- This invaluable reference work is ideal for all Navigator users be they novice or more experienced.

## Local Area Networks – Making the Right Choices

by Phillip Hunter

Local area networks (LANs) are now an indispensable part of computer installations in small and medium size businesses being the only practical way to share applications and resources such as printers. Without a LAN, it is extremely difficult for companies to exploit information technology (IT) efficiently or competitively. For those who are about to install a LAN, or upgrade or expand an existing one, then this book will help you choose a LAN system that is compatible with your business requirements and objectives. The book has been written in a non-technical style and is intended to help you to select the most suitable LAN components for your particular requirements or installations. 1993. 340 pages. 233 x 173mm, illustrated.

## An Introduction to Networks for PC and Mac Users

by D. C. and O. Bishop

Bernard Babani Books

This book is for the PC or Macintosh user, who may be considering linking their computer to a computer network, or may have already done so, and wants to know what networks are, what they can offer, and how to get the best from the 'net'. Networks can be used for business, research or leisure.

Topics covered include how to:

- Make the most of your network
- Keep on the right side of your network systems administrator
- Access the many thousands of shareware and freeware games and other programs available in archives around the world.
- Avoid computer viruses
- Exchange messages, mail, faxes, programs and pictures with friends and colleagues on the network
- Use other computers remotely from your own
- Join the global community of network news readers
- Access the vast resources of the information archives all over the world

With its extensive glossary, this book will guide you through the quagmire of jargon which surrounds the subject of networks. Popular network computer programs such as those from Novell and Microsoft are explained as examples. Useful network addresses are given to get you started on your journey through the Internet. Now is the time to connect to the evolving 'Information Superhighway' which is revolutionising the world in which we live - don't be left behind! 1995. 169 pages. 198 x 130mm, illustrated. British book.

## NetWare Answers: Certified Tech Support

by James Naider and Don Guarneri

If you are a user of Novell NetWare 3.x or 4.x then there is a distinct possibility that you have many technical questions or are in need of troubleshooting advice! If so, then this book may well be the answer, for it is based on actual technical support calls fielded by Corporate Software Inc. in the US, who are one of the world's largest providers of third-party technical support. Organised by topic, this book includes answers to all areas of Novell NetWare including system start-up, network management, printing, server configurations, utilities, error messages, and much more. You no longer have to spend time on the phone waiting for someone to answer your technical question, for this single volume is the most authoritative collection of answers to your Novell NetWare questions. 1994. 251 pages. 231 x 186mm, illustrated. American book.

## LAN Times Guide to Networking Windows '95

by Brad Shimmin and Eric Harper

Windows '95 contains an assortment of networking challenges, such as how to utilise its built-in peer-to-peer networking environment and simplified user interface to meet particular networking requirements? The authors are networking experts and show the reader how to take advantage of Windows '95s powerful features to create a state-of-the-art network.

Written in straight-forward language, the book begins with the basics, such as installation procedures and troubleshooting, and goes on to discuss Windows '95 in a networking environment and on its own. Helpful tips are provided for using its tools to implement e-mail and other networking functions. Advanced features discussed include using Windows '95 with other major networking platforms such as Windows NT, NetWare and Unix, and a look at the communications facilities including TCP/IP, Mail, and the Network Neighbourhood. 1995. 335 pages. 230 x 186mm, illustrated. American book.

## Inside TCP/IP

Second Edition  
from New Riders

This book is designed for system administrators who plan to work with the TCP/IP protocol suite, and is not specifically aimed at a particular major operating system, but strives to address as many different versions and flavours as possible. This all-in-one reference teaches you how to successfully implement TCP/IP on Netware, Windows, OS/2, DOS, Windows NT and Unix. A detailed troubleshooting section helps you to keep your network up and running to its fullest capacity. Network administrators will be able to explore frame relay, ATM, Domain Name Systems, Internet addressing, security and much more. In addition, the book will provide a detailed understanding of IPng, and provide information on how to create and successfully maintain a system that accesses the Internet, and learn how to officially register your site. 1995. 608 pages. 232 x 188mm, illustrated. American book.

## Internet & WWW Web

### An Introduction to the World Wide Web for PC and Mac Users

D., C. & O. Bishop  
Bernard Babani Books

The Internet, a computer network linking over 30 million people in more than 80 countries, is rapidly becoming part of everyday life for many of us. It provides a high-speed channel for exchange of information and ideas, with a myriad of applications in commerce, education, leisure and entertainment. the World Wide Web, also known simply as the Web, is a true multimedia tool for interacting with the Internet, providing not just text, but also full colour graphics, pictures, and video, and CD-quality digital audio. With a Web program installed in your PC or Mac, and an Internet connection; you can access a huge variety of information, such as news weather, business reports, science, and the latest in art and fashion. You can get software for your computer, images, sound and video clips; browse through on-line libraries, encyclopedias and dictionaries; or indulge in mail-order shopping. Thousands of companies in the UK and elsewhere are now offering Web services, including such well known names as Apple Computers, IBM, Microsoft, the BBC, The Times, Time Magazine, Virgin and Maplin Electronics. This book is ideal for the PC or Mac user who wants to find out more about the World Wide Web and the Internet. It explains how the Web has developed, how it works, how to use it, and shows you how to get quickly to the best sources of information and entertainment on the Web. A guide to some of the very best sources is provided. throughout the book there are hints and tips on getting the most from Netscape Navigator, probably the world's most popular program for 'surfing' the Web, available free to most PC and MAC users. Includes a full glossary. 1996. 220 pages. 131 x 198mm, illustrated. British/Australian book.

### How to Create Pages for the Web Using HTML

by J. Shelly  
Bernard Babani Books

Companies, organisations and institutions around the world, as well as many PC users, are fast becoming aware of the World Wide Web (WWW) as a means of publishing information over the internet.

HTML is the language used to create documents for Web browsers such as Mosaic, Netscape and the Internet Explorer. These programs recognise this language as the method used to format the text, insert images, create hypertext and fill-in forms. Today, more and more people are learning HTML in order to create their own Web page documents or to amend existing pages. Fortunately, HTML is easy to learn and use. This book explains the main features of the language and suggests some principles of style and design. Within a few hours, anyone could create a personal Home Page, research paper, company profile, questionnaire,

etc., for world wide publication on the Web. 1996. 144 pages. 131 x 198mm, illustrated. British book.

### Using Netscape on the Internet

by P. R. M. Oliver & N. Kantaris  
Bernard Babani Books

If you want to get to grips with the Internet in general and with surfing, or browsing, the World Wide Web with Netscape Navigator in particular, then this is the book for you. It was written with Netscape running under different versions of Windows, but should also be useful for Mac or UNIX based systems.

The book explains:

- The Internet and how the World Wide Web fits into the general scenario
  - How to go about getting an internet connection of your own
  - How to download and install the various versions of Netscape browsing software that are available
  - How to use Netscape Navigator to surf the Web, to find and maintain lists of useful sites, how to save pictures, and how to print out Web pages
  - How to use the program's very powerful e-mail features
  - How to find your way through the thousands of newsgroups that have proliferated on the Internet
  - How to steer clear of some of the Internet's more peculiar users.
- A glossary of Web and general computer terms is included along with appendices of menu and manual keyboard command and details of the most common file formats used on the Internet. 1996. 152 pages. 130 x 198mm, illustrated. British book.

## PC Hardware Assistant

Ian Sinclair

**Babani**

All software nowadays offers you Help screens, but it is unusual to get help with your hardware, often struggling with meaningless computer-speak and abbreviations. You often have to decide on necessary upgrades and install them yourself. If things go wrong, can you fix them yourself or do you have to seek expensive outside assistance. Help is now at hand within the covers of this unique book, hopefully helping to solve your hardware problems. The book provides:

- ★ Concise descriptions of the hardware items and actions.
- ★ A cross-reference index of terms to help you find what you are looking for.
- ★ Clear topic identification.
- ★ Hints and tips about common requirements.
- ★ Tables of items (such as pin connections) that are not easy to find.
- ★ Clear instructions for the more difficult tasks.
- ★ Quicker access to assistance.
- ★ Help even when the computer is switched off!
- ★ An essential reference guide for all PC users.

### Java How to Program with an Introduction to Visual J++

Dettel & Dettel  
Prentice Hall

Java is revolutionising software development with platform-independent, object-oriented code for conventional, Internet - and Intranet-based applets and applications. This is the first Java textbook to include Microsoft's Visual J++ Publisher's Edition integrated development environment on CD-ROM. With hundreds of "live-code" programs with screen captures that show exact outputs, extensive exercises (many with answers) accompanying every chapter and hundreds of tips, recommended practices, and cautions, - all with marked icons. It is the centrepiece of a family of resources for teaching and learning Java and Visual J++, including a World Wide Web site. Includes source-code examples and other information for faculty, students and professional programmers; an optional interactive CD-ROM for Windows 95/Windows NT and e-mail access to the authors.

### Internet UK

by Ivan Pope

Internet is literally a network of networks, that is not owned or controlled by any company, government or organisation. It is an example of co-operation and communal provision that spans the globe, respecting no borders or political divisions. Information can be moved around the globe from site-to-site and from individual-to-individual, and when access is gained there are no time charges, but access to a huge range of organisations, individuals, companies and institutions who have made access to the Internet a vital part of their operating methods. This book is not intended to be an in-depth guide to Internet, but it will provide a good starting point. The author gives details on how to get started, where to find information, what you need, how to use it, who is on it, what is available, the future - in fact, everything you need to know about Internet in the UK. Additionally there is information on the Internet in Europe, which is essential for anybody interested in Internet.

## The Internet and World Wide Web Explained

by J. Shelly

**Bernard Babani Books**

Whenever the media get hold of something new, they make a meal of it, hyping it up out of all recognition. This book explains what the Information Superhighway really is and how it relates to the Internet and the World Wide Web. However, whether we wish to find out information or to 'converse' with others on the Internet who share our particular interest, we come face to face with the jargon: protocols, ftp, gopher, TCP, hypertext, http, URL, home pages, threads, HTML, FAQs, domains, etc. These and other terms are explained in plain simple English. Once you understand them, then you too can talk to, and at the same level as, the gurus who dreamed them up. But of more importance, you will have the knowledge and expertise to use the Internet.

Major topics include:

- Where did the Internet come from and what can I get from it?
  - How do I contact others with similar interests?
  - How do I send e-mail and other things over the Internet?
  - What will it cost and what do I need to connect to the Internet?
  - \* Will my machine be violated by hackers and infected with viruses?
  - Where is the Internet going?
- 198 x 130mm, illustrated. British book.

## Modems & Communications

### Modems for Dummies

by Tina Rathbone

With modems finding more use in business and homes, a lot more people are hooking up these devices for communications, research or just plain fun. Modems for Dummies will show DOS, Windows and Macintosh users how to choose, install and use modems and modem software, and then how to squelch the urge to call everyone you know. Covers setting up a modem and software; all about file transfer protocols and other modem terminology; enables users to reap the benefits of e-mail, downloading and sending files; and explains how connection to the Internet works, together with discussion on bulletin board systems, on-line services and what they can do for you!

## Understanding Data Communications

Fourth Edition

by Gilbert Held

Data communications – the transmission of words or symbols from a source to a destination – is no longer exclusive to the business world. You can learn the basic principles in this easy-to-understand book, and a whole lot more. Ten chapters cover basic concepts and fundamentals of transmission and reception, asynchronous and synchronous, protocols, error control and networking. Subjects include two wire and coaxial cable communication, waveguides, modems, fibre optics and satellite communication to name a few.

## Data Communications Pocket Book

Second Edition

by Michael Tooley

Presenting, in as succinct a manner as possible, information of everyday relevance to the world of data communications. Despite the apparent complexity of the subject, care has been taken to ensure that the book is meaningful to as wide a range of readers as possible. Tabulated reference material has been interspersed with brief explanatory text and relevant diagrams. Invaluable to anyone involved with the interconnection of computer systems: technicians and engineers involved with the installation, commissioning and maintenance of data communications equipment; executives and clerical staff as the 'end users' of data communications related products; and managers involved with the specification and purchasing of such products and systems. Similarly the book should also appeal to the growing number of enthusiasts using data communications for home management and leisure pursuits.

**MS-DOS Explained**

N Kantaris and PRM Oliver  
Babani

If you have a PC and want to get the most out of it in terms of efficiency and productivity, then you must learn the intricacies of its operating system. With the help of this book, you will learn to do just that in the shortest and most cost effective way. The book covers all versions of DOS particularly those from 6 to 7. The book explains:-  
How the DOS operating system is structured so that you can understand what happens when you first switch on your computer.

★ **How directories and subdirectories can be employed to structure your hard disc for maximum efficiency.**

★ **How to manage disc files and how to use the MS-DOS Editor to fully configure your system by writing your own CONFIG.SYS and AUTOEXEC.BAT files.**

★ **How to optimise your system by either increasing its conventional memory manually or automatically with the use of MemMaker, or increasing its speed.**

★ **How to write batch files to automate the operation of your system, and how to write and implement multiple configurations.**

★ **How to use the Microsoft Utilities, such as DoubleSpace, MsBackup, Undelete and Anti-Virus.**

★ **How to resurrect MS-DOS 97 which is buried under Windows 95.**

## Windows 95 Assistant

by Ian Sinclair

Bernard Babani Books

The Windows 95 Assistant is a new concept, a way of getting help whether you have the computer switched on or not. What makes this book different and so useful is the way in which the information is organised and presented. This book provides:

- Concise descriptions of the most needed actions
- A cross-reference index
- Clear topic identification
- Hints and tips about common requirements
- Tables of items (such as languages) that are not easy to find
- Clear instructions for the more difficult tasks
- Quicker access to assistance
- Help even when the computer is switched off

Ideal for all Windows 95 users be they novice or more experienced. Also extremely useful for those people who are upgrading from earlier versions of Windows. 1997. 176 pages. 130 x 198mm, illustrated. British book.

## More Windows for Dummies

by Andy Rathbone

While the companion book 'Windows 3.11 for Dummies' helps the complete novice to start moving around in Windows for the first time, this book is perfect for people that have used Windows 3.1 for a while and had time to come across the type of problems that it just loves to throw your way when you think you have everything pegged. Topics include software installation, drivers, working with DOS, personalised desktops, PIF files, Windows on a laptop, multimedia, INI files, working with modems and much more. Like the other books in the series, 'More Windows for Dummies' is designed to be dipped into for easy reference when you come across something new and it's full of useful tips and hints. The book does not cover the new features in Windows 95. 1994. 378 pages. 235 x 188mm, illustrated. American book.

## A Concise User's Guide to Windows 3.1

by N. Kantaris  
Bernard Babani

This book was written to help the newcomer to Windows 3.1, consequently the material is presented on the 'what you need to know first, appears first' basis. Each section of the book has been designed to be self-contained, so the more experienced user can start at any section. Windows not only acts as a graphical front-end to your PC's disc operating system (DOS), but also contains its own word processor, database, communications, and electronic calendar modules, to name but a few, all of which are examined in this book. An understanding of Windows cuts down the learning curve on other available packages specifically

designed to run under the Windows environment. 1992. 160 pages. 198 x 130mm. illustrated.

## Windows 3.1 Simplified

by Ruth Maran

Windows 3.1 is currently the most popular version of Microsoft's user-friendly mouse-driven user interface for MS-DOS. Designed to make PCs less intimidating, Windows is now supplied with virtually all PCs sold, and many thousands of programs that run under it are available. Although Windows 3.1 - and the application programs bundled with it - are easy to use, there is much capability lurking under that user interface. Windows 3.1 Simplified explains in full colour, using an ingenious mix of screen displays, plain English and cartoon graphics, how to make the best of the program. Beginners can find their way round easily and quickly, and discover Windows features that help them to work more efficiently. The subjects covered include the user interface, applications management, file and directory housekeeping, the accessories (Write, Cardfile, Paintbrush and Calendar), printing, running DOS programs, customisation and enhancing performance. 1994. 233 pages, 254 x 216mm, illustrated. American book.

## DOS for Dummies

A Reference Book for the Rest of Us!  
2nd Edition  
by Dan Gookin

The basic idea of this book is very simple - you are an intelligent person, but don't know anything about DOS. What's more, you have absolutely no intention of becoming a DOS wizard. If you just want to be using your PC, then this is the book for you. It covers 100% of all the things you will be doing with your computer. All the common activities, the daily chores, the painful things that go with living with a computer are all described in plain English. The book is meant to be treated like a reference and not read from cover to cover. The book is essentially written for DOS 5 and 6, but is also relevant for earlier versions 4.0/1 and 3.3.

Highly recommended, and amusing. 1993. 340 pages. 234 x 188mm, illustrated. American book.

## A Concise Introduction to MS-DOS

by N. Kantaris

**Bernard Babani Books**

PC users who want to get the best out of their computer in terms of efficiency and productivity must learn its PC/MS-DOS operating system. This book will help you to do just that in the shortest and most effective way. The book provides enlightenment about such things as what happens when the computer is first switched on, and the files it uses as it 'auto-boots' from a system disk, how to use 'EDLIN.COM' to write your own 'CONFIG.SYS' and 'AUTOEXEC.BAT' files (and also what to write!), and how to organise your disk storage using sub-directories. Covers all versions of 3.x and 4.x of both PC-DOS and MS-DOS as implemented by IBM and other manufacturers of 'compatibles' including Amstrad. Now covers DOS 6.2.

1995, Revised Edition. 160 pages. 198 x 130mm, illustrated.

## MS-DOS 7 Explained

by N. Kantaris & P. R. M. Oliver

**Bernard Babani Books**

This book deals with the latest version of the PC operating system MS-DOS version 6 and includes the very latest 6.2 update. No previous knowledge of DOS is assumed, and each section is self-contained, so that the more experienced user will also find this book very useful. The book is not intended to replace the documentation that is supplied with MS-DOS 6 but to supplement and explain it. Additionally, the book covers the enhancements to be found in versions 6.0 and 6.2 of MS-DOS, several aspects of which are new. As with other books in this series, it is not necessary to read several hundred pages that cover every aspect of the subject, when a few selected pages are more than adequate. The book seeks to highlight the simplicity of the MS-DOS operating system by presenting with examples, the principle of what you need to know, when you need to know it. Also includes DOS7

## DOS - One Step at a Time

by P. R. M. Oliver and N. Kantaris

**Bernard Babani Books**

This book covers all versions and varieties of DOS. It is written for those who want to use DOS to carry out certain 'housekeeping' functions. The book explains the structure of the DOS operating system, how to use a formatted disk, how directories and subdirectories enable your hard disk to be managed effectively. A couple of chapters deal with System Configuration and Controlling Your System.

## A Concise Introduction To UNIX

by N. Kantaris  
(Revised Edition)  
Bernard Babeni

UNIX is a multi-user operating system and to use it efficiently and effectively, this book is a must. The sections are written as standalone items which enable anyone to go to a particular section to solve a problem. Some of the topics covered include: How the UNIX operating system is structured; how directories and subdirectories can be employed to organise the way files are kept on your disk; the use of UNIX commands to perform various housekeeping operations on your disk files. The book covers both the command-line mode and the shell mode of processing under UNIX. 1995. 83 pages. 198 x 130mm. Illustrated.

## Programming

### C: The Complete Reference

Third Edition  
by Herbert Schildt

C is the most popular professional programming language in the world and the environments in which C is being extensively used continues to expand such as DOS, Windows, OS/2 and UNIX, to name a few. This book covers in detail all aspects of the C language and its libraries. Its main emphasis is on ANSI standard C. However, the older 'K & R' standard is also discussed when appropriate. The book is divided into five parts covering the C language, the C libraries, common algorithms and applications, the C programming environment and the creation of a C interpreter. The many and varied examples that clarify each major concept set this compendium apart from any other C reference book. Whether you are a beginner to C programming or a seasoned professional, the answers to all your C questions can be found in this one-step resource. 1995. 859 pages. 230 x 186mm, illustrated. American book.

## DOS - one step at a time

P R M Oliver and N Kantaris  
Babeni

If you want to know enough about DOS so that you do not panic when confronted with the DOS prompt, can keep your system running efficiently and keep your programs and data secure, then this book is for you. The book was written with the non-expert, busy person in mind. It starts with an overview of the history of DOS and lays the foundations for later chapters which cover *One Step at a Time* the commands for handling discs, directories and files. The book explains:-

- ★ How the DOS operating system is structured so that you can understand what happens when you first switch on your PC.
  - ★ How to format a floppy disc so that it can be recognised and used by your PC, how to list a disc's directory, copy a disc, and compare the contents of two discs.
  - ★ How directories and subdirectories can be employed to structure your hard disc for maximum efficiency, view a directory structure and its contents by using filters and pipes, redirect output, save a structure to disc, and how to create, delete and rename a directory.
  - ★ How to manage disc files by using different copying techniques, how to find, delete, rename, protect and undelete files, read the contents of a file, and back-up and restore files on to your hard disc.
  - ★ How to use the system configuration files CONFIG.SYS and AUTOEXEC.BAT, and how to write simple batch files to automate the operation of your system.
- Covers all versions and varieties of DOS.

## Not Just Java

Peter van der Linden  
Prentice Hall

The book for everybody who needs to understand why Java and other Internet technologies are taking the software industry by storm. Peter van der Linden, author of the best-selling *Just Java*, carefully explains each of the key technologies driving the Internet revolution and provides a much-needed perspective on critical topics including:

- ★ Java and its libraries - present and future
- ★ Security on intranets and the internet
- ★ Thin clients, network computers, and webtops
- ★ Multi-tier client/server systems
- ★ Software components, objects, and CORBA
- ★ The evolution and role of intranets
- ★ JavaBeans versus ActiveX

Also included are case studies of leading-edge companies that show how to avoid the pitfalls and how to leverage Java and related technologies for maximum payoff.

## C++ The Complete Reference

Second Edition

by Herbert Schildt

This book covers both the C-like aspects of C++ and its C++ specific features, with emphasis placed on those features unique to C++, and is intended as a reference for all C++ programmers regardless of their experience level. The book covers in detail all aspects of this popular programming language

and is divided in to three parts - the C language foundation, the C++ language and sample C++ applications. In this expanded edition there is new information about templates (which support generic functions and classes), exception handling, class libraries and new features added by the proposed ANSI C++ standard. With the aid of numerous programming examples, this comprehensive guide with its attention to detail will provide the definitive answers to all your C++ questions. 1995. 704 pages. 232 x 185mm, illustrated. American book.

## PASCAL Programming

The Complete Course Text  
by B. J. Holmes

The aim of this book is to help the reader acquire and develop the skill of computer programming in a block-structured language and foster an understanding of the related topics of data structures and data processing. It can be regarded as a complete text on programming and the use of data structures. The contents are sufficient to give confidence to any reader who is taking Computer Studies to GCE A, BTEC National and higher national awards, first year undergraduate level and British Computer Society Part 1 examinations. The book is also ideally suited to those requiring a knowledge of programming, yet whose major course of study is not computing. All programs have been compiled and tested, using Borland's Turbo Pascal 5.5, on an IBM compatible PC. However, the reader is directed throughout the text to differences between this dialect and that of Sheffield Pascal, which conforms more to Standard Pascal. 1991. 463 pages. 243 x 190mm, illustrated.

## Delphi Programming For Dummies

by Nell Rubenking

Borlands Delphi is a visual programming language that is a descendant of Pascal. However, Delphi does not have many of the limitations of its main rival, Visual Basic, such as the inability to create new DLLs. Not only can Delphi use or create DLLs, its programmes can respond to and initiate absolutely any Windows event. Additionally, Delphi does a complete job of compiling programs into machine code, and so is a lot faster than Visual Basic. This addition to the Dummies range is your easy solution to writing Windows applications with Delphi. This fun, results-orientated book jumps straight into creating working programs by collecting and connecting Delphi's powerful components - and no programming experience is necessary to start

producing working programs. 1995. 400 pages. 234 x 187mm, illustrated. American book.

## The Visual Basic 4 for Windows 95 Handbook

by Gary Cornell

Osbourne

With this latest version of Visual Basic comes support for 32-bit development, and begins the process of turning Visual Basic into a full object orientated programming language. Additionally, this version allows you to effortlessly add in third-party tools to make your development easier. This tutorial is a comprehensive, hands-on guide to all the ins and outs of Visual Basic 4 programming, and assumes no previous programming knowledge. In this book you will discover many things that most introductory books leave out, including a chapter on recursion and an introduction to fractals, and an extensive discussion of sorting and searching techniques. There is a survey of third-party tools and resources, and the best of the Internet's frequently asked questions. 1996. 1054 pages. 232 x 186mm, illustrated. American book. ## Visual Basic 3 for Dummies

by Wallace Wang

Microsoft's Visual Basic has been around for over four years, and is now the leading choice for programmers working in the Windows environment more than any other development language. Microsoft have made Visual Basic the cornerstone of Windows programming. Within the near future the Visual Basic language will be embedded in all of Microsoft's major Windows applications. Written in plain English, this book provides interesting programming trivia, example programs and step-by-step instructions for writing programs in Visual Basic. Programming does not have to be difficult, and can actually be fun, which is the style in which this book is written. This book will show you all the steps needed to write a Visual Basic program, and give you all the confidence to do it without the need for technical details and elaborate explanations. You will learn the fundamentals of writing Basic code; the crucial differences between Visual Basic and other languages; to design a user interface; to write subprograms; how your program can retrieve data from a user interface, and much more. 1994. 477 pages. 235 x 187mm, illustrated. ## Programming In QuickBASIC

by N. Kantaris

Bernard Babani Books

QuickBASIC is one of the two most popular structured dialects of BASIC. The user, with help of simple programs, is introduced to QuickBASIC statements together with their explanation. The book explains how to use the QuickBASIC environment and editor, how to control the program flow with the FOR...NEXT, DO, WHILE...WEND Loops, and the use of the block IF set of statements. It also explains how to write a general program that can create and retrieve any random file which becomes the basis of database design. 1996. 168 pages. 198 x 128mm. Illustrated. British book.

## IBM PC Assembly Language and Programming

3rd Edition

by Peter Abel

The spread of microprocessors has also caused a renewed interest in assembly language, because a program written in assembly requires considerably less memory space and execution time. Secondly, a knowledge of assembly language and its resulting machine code provides an understanding of the machine's architecture that no high level language, even such

as Pascal or C, can possibly provide. This third edition book can act as both a tutorial and a permanent reference, including DOS feature through to version 4.01, information unique to the IBM PS/2 series, features of Borland's turbo assembler, features of Intel's 80386 and 80486 processors, the use of simplified segment (addressing) directives and later additional interrupts, memory management, program overlays and keyboard buffer details. 1995. 560 pages. 234 x 176mm, illustrated. American book.

## Programming the Z80

by Rodney Zaks

A thorough introduction to machine language programming from basic concepts to advanced data structures and techniques. With detailed examples and numerous programs, the reader will gain not only an understanding of the Z80 programming language, but also a detailed understanding of the way a microprocessor actually executes instructions. 1982. 626 pages. 228 x 150mm, illustrated.

## An Introduction to 68000 Assembly Language

by R. A. & J. W. Penfold

The 68000 series microprocessor is currently in use in the Commodore Amiga, Atari ST, Apple Macintosh and Sinclair QL etc. This book explains the operation of the 68000 and its associated hardware and then details how to write its assembly language. Once learned, your programs will run at greatly enhanced speeds over high-level languages like BASIC. 1986. 112 pages. 178 x 111mm, illustrated.

### MS-Office 97 explained

N Kantaris and P R M Oliver

Babani

If you are a PC user and want to get started with MS-Office 97's applications for Windows 95; Outlook, Word, Excel, Powerpoint and Access as quickly as possible, then this book is for you - no previous knowledge is assumed. The book explains:-

- ★ How to benefit from the built-in Answer Wizard and Help system, and how to become familiar with the Office environment and its applications.
- ★ How to use Outlook to organise your time effectively.
- ★ How to use Word to enter, edit and enhance text and how to use document page layouts, paragraph styles, and document templates to format your work.
- ★ How to use Excel to build up simple spreadsheet examples, format your work, generate 3-D worksheets, generate and add graphs to a workbook.
- ★ How to use PowerPoint to design a presentation in the shortest possible time.
- ★ How to use Access to create a relational database, design forms, queries and reports.
- ★ How to share information between the various office applications by linking and embedding and using hyperlinks.

## Special Edition: Using Microsoft Access 97

**Roger Jennings**

**Que**

Que's *Special Edition Using Microsoft Access 97* teaches you how to master the new features of 32-bit Access 97 and the Jet 3.5 database engine. From step-by-step instructions for creating relational tables to programming with VBA 5.0 and the Jet 3.5 Data Access Object, you'll quickly learn how to achieve professional results with this powerful database development platform. The author guides you through the fundamentals of working with Access tables and queries, then leads you into the details of form and report design, writing Jet SQL, and Automation programming with VBA 5.0. You'll discover how to publish your own databases on the Web, find expert advice for replicating your databases, use Access across a network with multiuser databases, and learn how to create high-performance client/server applications using ODBCDirect. You'll also explore VBA 5.0 event-handling procedures and use ActiveX controls to customise your Access applications.

## MS Access 97 one step at a time

**N Kantaris and P R M Oliver**

**Babani**

If you are a PC user and want to get started with Microsoft's Access 97 for Windows 95, as quickly as possible, then this book is for you - no previous knowledge of database design is assumed. We do discuss the main features of the package using simple examples that the user is encouraged to type in, save and modify as more advanced features of the package are introduced. The book explains:

- ★ How to install and start the Access package, and what the various elements are that make up a database management system.
- ★ How to use the Table Wizard to automatically design an example database.
- ★ How to use the Form Wizard to create input masks to facilitate data entry.
- ★ How to use Query Wizard to create complex queries to help manage your data.
- ★ How to link together database tables to form a relational database management system.
- ★ How to design forms and reports to display and print information in a professional manner.
- ★ How to import data from other packages and build tables by removing duplicate information, and rebuild calculated fields so that you can benefit from Access' superior handling capacity.

## MS Word 95 Explained

by N. Kantaris and P. R. M. Oliver

Bernard Babani Books

If you are a PC user and want to get to grips with Microsoft's Word for Windows 95 word processor as quickly as possible, then this book is for you; no previous knowledge is assumed.

The book explains:

- What hardware specification you need to run the package, and how to install it onto your system
  - How to benefit from the Help system, and how to become familiar with the Word environment
  - How to enter, edit and enhance text and how to become comfortable working with document page layouts, paragraph styles, document templates and frames
  - How to use some of the program's more advanced features, including Drawing, Tables, Graphing and how to manage large documents with Outlining
  - How to manage your files, import, embed or link information from other packages and how to create simple recorded macros
1996. 192 pages. 198 x 130mm, illustrated. British book.

## Word 95 Assistant

by Ian Sinclair

Bernard Babani Books

The Word 95 assistant is a new concept, a way of getting help whether or not you have your computer switched on or not. What makes this book different and so useful, is the way in which the information is organised and presented.

This book provides:

- Concise descriptions of the most needed actions, arranged in alphabetical order
- A cross-reference index
- Clear topic identification
- Hints and tips about common requirements
- Tables of items (such as field names) that are not available readily elsewhere
- Clear instructions for difficult tasks
- Quicker access to assistance

The text has been written for both new and more experienced Word 7 users, and will serve as an easy-to-follow reference guide long after you have mastered the program.  
1996. 241 pages. 130 x 198mm, illustrated. British book.

## A Concise User's Guide to Lotus 1-2-3 for Windows

by N. Kantaris & P. R. M. Oliver

**Bernard Babani Books**

Written for the newcomer to spreadsheets, as well as the experienced spreadsheet user, this book aims to cover all the basics necessary to get the most out of Lotus 1-2-3. The material in this book is helpfully arranged so that the novice can start using the software right from the onset. Detailed screen dumps act as a guide to help you through the basics as well as the complex operations of a spreadsheet. The book always builds on what you already know, so you don't keep going over the same explanations repeatedly. Topics covered by the book include all the basic aspects of a spreadsheet; 3-D worksheets and applications, linking sheets and punching data through from one sheet to another, and graphing facilities. Even if you already know how to create spreadsheets and use them effectively, with the aid of this book you will be able to increase your productivity, and enhance your spreadsheet's usefulness and versatility. 1994. 176 pages. 198 x 130mm, illustrated.

**Access 95 One Step at a Time**

by N. Kantaris and P. R. M. Oliver

Bernard Babani Books

If you are a PC user and want to get started with Microsoft's Access for Windows 95, as quickly as possible, then this book is for you - no previous knowledge of database design is assumed. The book does discuss the main features of the package using simple examples that the user is encouraged to type in, save and modify as more advanced features of the package are introduced.

The book explains:

- How to install and start the Access package and what the various elements are that make up a database management system
  - How to use the Table Wizard to automatically design an example database
  - How to use the Form Wizard to create input masks to facilitate data entry
  - How to use the Query Wizard to create complex queries to help manage your data
  - How to link together database tables to form a relational database management system
  - How to design forms and reports to display and print information in a professional manner
  - How to import data from other packages and build tables by removing duplicate information, and rebuild calculated fields so that you can benefit from Access' superior handling capability

## CorelDRAW! 5 for Dummies

by Deke McClelland

CorelDRAW is the most popular graphics software for the PC, and now includes 12 separate programs, each of which can be used independently or in conjunction with one of the other supplied programs. There are several important enhancements to all of the programs which now includes the new CorelVENTURA! (also known as Ventura Publisher, a comprehensive desktop publishing program). As with all Dummies books, the reader is taken on an informative and humorous tour of this comprehensive package, providing the information needed to create professional quality logos, illustrations and special effects very quickly. The reader will be able to integrate the powerful programs: DRAW!, PHOTO-PAINT!, CHART!, MOVE! and VENTURA! and learn professional techniques for designing documents, editing scanned photos, and creating on-screen presentations. Additionally, you are shown how to combine text and graphics to create impressive documents, along with simple time-saving ideas for creating special effects such as rotating and stretching graphics. 1994. 432 pages. 234 x 188mm, illustrated. ## CorelDRAW! 5 Made Easy

by Martin S. Matthews and Carole Boggs Matthews

CorelDraw! 5 has become one of the most widely used graphics software packages for the PC, as probably no other drawing package offers so many powerful drawing, text handling, autotracing, colour separation, and special effects facilities in one package. Version 5 adds a new range of desktop publishing features in the form of CorelVENTURA, and includes other superb features such as CorelCHART, CorelPHOTO-PAINT, CorelMOVE and CorelSHOW. This profusely illustrated book takes the reader from an elementary skill through to more complex ones. Each of the detailed chapters contains hands-on exercises to follow on your computer screen. No graphics experience is required, as the earlier exercises are designed for the beginner - it is not even necessary to have used a mouse or worked with a drawing package. The book is primarily designed to let the reader learn skills by doing exercises, and is not dependent on past experience, as you begin to draw straight away. As you work through the book you build on the skills you have learned in previous chapters. A highly recommended book. 1994. 826 pages. 231 x 187mm, illustrated. American book.

## Sage Instant Accounting Explained

by D. Weale

Bernard Babani Books

This book is intended to make the learning and use of Sage instant accounting a quicker, easier and more effective process.

It combines:

- An explanation of the features of the program
- Hints and tips on how to use the program to best advantage
- Explanations of the basic concepts of accounts for those who lack the background knowledge
- A step through section of practical work with specimen data for you to enter (for practice if you want to)
- Advice on setting up a computerised accounting system

This book is intended for those who are thinking of

buying the program and want to know if it is suitable for their purposes. It is also for those who have the program already and need a simple explanation to help them actually use it. 198 x 130mm, illustrated. British book.

## Virtual Reality / Multimedia

### The Virtual Reality Construction Kit

by Joe Gradecki  
This is a 'nuts-and-bolts' project book which will introduce the reader to the fascinating world of Virtual Reality (VR). VR technology allows a user to explore and manipulate objects in a virtual world, which exists only in the memory of a computer. The author gives clear, step-by-step instructions, with numerous illustrations, for building 18 inexpensive items of virtual reality equipment, including a 3-D mouse, a head-mounted display, a 3-D sound system, and an arm-based head tracker. No experience in programming or electronics is assumed, or required! The book comes complete with all of the software required to test and use any equipment that you make, as well as various virtual worlds including a virtual park, a virtual squash court game, a two-player combat game that can be played over modems, and you can even build your own (virtua) ancient Greek temple.  
All software can be run using a conventional mouse/joystick as well as any equipment built, and is supplied on an 89mm (3 1/2in.) disk.  
1994. 340 pages. 232 x 190mm, illustrated.

### The Virtual Reality Programmer's Kit

by Joe Gradecki

If you have ever wanted to create your own virtual worlds, then this kit will show you how! This book is a natural sequel to The Virtual Reality Construction Kit, and provides all of the information and software necessary to design and build your own virtual worlds.

The REND386 programming environment allows novice programmers to create simple VR worlds, and the book has been packed with numerous hints and tips that allow more advanced C programmers to add 3-D sound, animation, and other advanced features to their VR worlds.  
Included in the kit are 4 complete virtual worlds, software to test and calibrate equipment, and previously unrealised utilities that make VR object drawing easier. All software is supplied on an 89mm (3 1/2in.) disk.

### Multimedia & CD-ROMs for Dummies

by Andy Rathbone

For many years, computers and sound did not mix - in fact, sound often signalled an impending catastrophe! However, with today's new multimedia computers, sound has taken on a whole new meaning, adding a refreshing novelty to computing. All aspects of multimedia are discussed in an enjoyable and amusing way that has become a hallmark of the 'Dummy' series of books. From the basics to selecting a sound card; installing cards and CD players; adding sound and video to Windows; putting photographs and films on your computer; all are discussed with the usual style. Additionally, budding musicians can discover how to set up an inexpensive recording studio in their garage. Children and adults can find out how to make the ultimate games machine, and business people can learn about computerised presentations. Included with this volume is a CD-ROM, The Guided Tour of Multimedia, the first CD-ROM that uses multimedia to teach multimedia. It contains over 20 hours of interactive multimedia information for both beginners and professionals.

## Multimedia on the PC - An Introduction

by Ian R. Sinclair

Multimedia is a major growth area of PC computing, and as the variety of CD ROMs expands, so its importance will increase. This book sets out to explain what a CD ROM is, how it works, and why it is the perfect add-on for a PC, allowing you to buy programs, text, graphics and sound on a CD. The book starts with the installation of a CD ROM drive and sound card, and typical problems that are encountered, and goes on to show you how to create a complete multimedia presentation. Such presentations can include text, photos, a sound track with your own voice recorded as a commentary, and even animation and edited video. It is possible to type in text and hear it spoken by your computer. The book will change your ideas about presentations, and shows how the use of multimedia can revolutionise educational and business applications as well as the more obvious aspects of game playing and other types of leisure computing.

## Miscellaneous

### Computing for the Terrified!

by Steve Greenwood

This handy and inexpensive book is not designed to teach you how to operate a wordprocessor or spreadsheet, but it is intended to make the reader feel more comfortable using a machine that is running such applications. The book will provide you with an insight into the many and varied uses such a machine can be put to, as well as a detailed explanation of computer jargon. This well-written book that should be of great benefit and reassurance to the computer novice.

## The Robot Builder's Bonanza

99 Inexpensive Robotics Projects

by Gordon McComb

This book offers you a complete and unique collection of tested and proven project modules that you can mix and match to create an almost endless variety of highly intelligent and workable robots. By using the modular approach there is plenty of leeway for your imagination. 99 different experiments are provided which, in different combinations, enable you to create robots of all shapes and sizes and abilities. There are rolling robots, walking robots, talking robots, robots which can vacuum the floor, serve drinks, teach the kids, protect the family against fire and intruders, in fact almost anything is possible using these modules and a little ingenuity, as none of the projects are very expensive. The book is aimed at both the novice and intermediate robotics enthusiast; the projects include all the necessary information you need to construct the essential building blocks that go into the typical personal robot. In addition to the abundance of illustrations, schematics, diagrams and parts lists, there is also a listing of tools and equipment required, and computer programs for supplying your creation with more than switches for control.

1987. 335 pages. 234 x 187mm, illustrated. American book.

## Essentials of computer security

Ian Sinclair

Babani

Security of computers and their files in these days has become more and more of a problem, and not only for the large scale commercial user of computers. Security embraces all the hazards that endanger your precious data, from power supply failure through hard drive failure to theft of computers or files, and some users are more at risk than others from particular hazards. This book deals with the problems of security for the small to medium size business or the home user of computers, and emphasises throughout that the main hazards are not the ones that provide newspaper headlines, but are the often forgotten points such as limited life of a hard drive or the risks from fire or flood. The use of Windows 95 is assumed, but descriptions of important methods applicable to Windows 3.1 are also included because of the large numbers of computer users who have not yet changed to the later version.

## Teach Yourself Perl 5 for Windows NT in 21 Days

Tony Zhang & David Till

Sams Publishing

This is the ideal book for beginning - and intermediate - level users who want to gain a basic understanding of Perl programming for Windows NT. Using step-by-step tutorials and an easy-to-follow approach, this hands-on book provides you with a solid foundation of Perl programming skills. No previous Perl programming experience is required, as each lesson contains complete instructions and definitions for every step. Each of the book's tutorials illustrate how to maximise Perl's power in the Windows NT environment. Whether you have NT experience and need to develop Perl programming skills, or need to tailor your Perl programs for Windows NT, you will master Perl functions and concepts and be developing robust NT programs in no time.

## Data & Equivalents

### Pocket Ref

2nd Edition

by Thomas J. Glover  
Sequola Publishing

This incredible little book is an absolute mine of information, containing an incredible amount of information on just about everything you ever wanted to know, and all in a handy pocket sized format!

- Sections cover:
- Air and Gases • Automotive
  - Carpentry and Construction
  - Chemistry and Physics • Computers • Constants - physical, chemical and mathematical
  - Electrical - wire, motors and frames
  - Electronics • General Information
  - General Science • Geology • Glue, Solvents, Paints and Finishes • Hardware • Mathematics
  - Mine, Mill and Aggregate • Money • Plumbing and Pipe • Rope, Cable and Chain • Steel and Metals • Surveying and Mapping • Tools • Weights and Properties of Materials • Welding • Conversion Tables • 12 Year Perpetual Calendar

Although this is a American data book, much of the information has international relevance. The book will prove indispensable for anyone dealing with American equipment, technical books, data sheets, instruction manuals, servicing information, installation information, etc., in ascertaining 'local' equivalents to American sizes, ratings, gauges, etc. It is a 'must have' for design engineers, installers, service engineers and hobbyists.

This book will prove particularly useful to those embarking on electronics projects based on designs published in American electronics books, such as those featured in this catalogue.

## Electronic Circuits Pocket Book

Volume 1

by Ray Marston

This information packed book is a single-volume applications guide to the most popular and useful linear ICs, and presents a total of 625 diagrams, tables, and carefully selected practical circuits, backed up by over 50,000 words of highly informative text. It deals with many strictly linear ICs such as op-amps, audio preamplifiers, power amplifiers, signal conditioners and power supply regulators, etc., as well as various 'hybrid' configurations, which use a mixture of linear and digital devices, such as the 555 timer IC, bargraph display drivers, CCD delay lines, function and waveform generators, phase-locked-loops (PLLs), and power control ICs. Each subject is treated in an easy-to-read, concise, highly practical and non-mathematical manner. Great emphasis is placed on practical 'user' information and circuitry throughout, and most of the ICs and other devices used in the practical circuits are modestly priced and readily available, with universally recognised type numbers.

1991. 336 pages. 197 x 95mm, hard cover, illustrated.

## Electronic Circuits Pocket Book - Volume 2

by Ray Marston

#### Newnes

This volume complements the best-selling volume one, and is produced in the same informative style. Covering passive electrical components, transducers and simple discrete semiconductor devices, this book has a total of 670 diagrams, tables and carefully selected practical circuits. The informative text explains the basic features and important details of modern passive components such as resistors, capacitors, inductors, switches etc., as well as relays, loudspeakers, phones, diodes, transistors, SCRs and TRIACs etc. These devices form the basic building blocks on which modern electronics circuits are based. The text is non-mathematical and highly practical, and is aimed at engineers, technicians, students and experimenters who can build a design directly from a circuit diagram.

## Transistor Data Tables

by Hans-Gunther Steldie  
Bernard Babani Books

The continually growing number and variety of semiconductor components mean ever greater problems for the user. It is difficult to gain an overall picture of the types which may be suitable for a particular application, from those currently available. However, as a starting point, the electrical parameters of a device are usually sufficient.

The tables in this book contain information about the package shape, pin connections and basic electrical data for each of the many thousands of transistors listed. The data includes maximum reverse voltage, forward current and power dissipation, current gain and forward transmittance and resistance, cut-off frequency and details of applications.

A book of this size is of necessity restricted in its scope, and the individual transistor types cannot therefore be described in the sort of detail that maybe found in some larger and considerably more expensive data books. However, the list of manufacturer's addresses will make it easier for the prospective user to obtain further information, if necessary.

This book, which is the UK edition of a work recently published in Germany, should be of considerable assistance to anyone involved in the design or repair of electronic and radio equipment, regardless of whether this may be a professional level or as a hobbyist or experimenter. 1995. 178 pages. 198 x 130mm, illustrated. ## The Master IC Cookbook

Delton T Horn  
McGraw-Hill

In the latest edition of this best-selling reference, America's master technical writer is back with the latest technical information on the most popular types of integrated circuits (IC's). Whether you're a novice or mid-level electronics technician, or even a hobbyist, you'll discover a wealth of useful IC data in this easy-to-use book. The Master IC Cook book couldn't be easier to use. You'll find all the material arranged into sections by area of application, then listed alphanumerically within each section by IC industry standard number. So it's a snap to pinpoint exactly what you're looking for. A handy directory of manufacturers' addresses rounds out this invaluable sourcebook.

## PIC Cookbook - Volume 1

by Nigel Gardner and Peter Birnie

This collection of working application ideas is a natural progression from the Beginner's Guide to the Microchip PIC (order code AD31J), and includes a wide range of practical suggestions for using the Microchip PIC - 38 in all. Each idea includes a general description, circuit diagram and a flow chart, with all source code supplied on a 89mm (3.5mm) disk. All the applications have been graded from relatively simple (1) to more advanced (3). The authors are well versed in the use of PIC chips and this book will be a valuable addition to the PIC user and developers library. 1996. 210 x 155mm. 170 pages, illustrated.

## Experiments with EPROM's

by Dave Prochnow

This book provides fifteen fascinating hands-on 'EPROM experiments'. Each experiment comprises building different devices to use the EPROMs. These include a 'Boole's box', used for determining the logic levels present on digital IC pins; a keyboard encoder which generates a digit and displays the character of the key

## PIC Cookbook Volume 2

by Nigel Gardner and Peter Birnie

The second book in the series of working applications, provides the reader with a general description of the application, circuit diagrams and flowcharts. The source code for all of the applications is provided on a 89mm/3.5in. disk that accompanies the book. The book covers in detail: square and pulse generator, 1200 baud modem, greenhouse watering system, electronic look using the 16C84, program conversion between the 16C5x and the 16Cxx families and interfacing to DTMF encoders and decoders. Continuing the style of Volume 1, each application is graded for complexity. 1997, 150 ringbound pages approx., illustrated.

## A Beginner's Guide to the Microchip PIC - Revised Edition

by Nigel Gardner

This book describes how to get to grips with PIC devices and is intended for somebody who has never used such a device before. The reader is guided through the rudiments of selecting the correct device for a job, and how to begin programming it; together with a basic knowledge of how to debug source code, and a guide to the instruction set. The use of headers, look-up tables, reset vectors, real-time clock, watchdog timer, interrupts and development practices are covered with examples and diagrams along the way. This edition provides additional information on the A/D, E<sup>2</sup> and other devices in the 16Cxx family. The book is accompanied with an IBM/compatible 89mm (3.5in.) DSHD disk (with compressed files) containing an assembler, simulator and various source code examples.

## The Greatest Little PIC Book

by Gordon MacNee

This informative work covers the PIC12C5xx 8-pin microcontroller family from Microchip, and centres around applications requiring limited I/O. The book has been written to guide the reader through the device architecture and software modes, to show the benefits from using this family. Additionally, development tools device options and worked examples are covered and include: timers, sound generators, water descaler project, data logger, motor controls and light controls. Written by a very experienced design engineer who has worked with Microchip for many years, this book is an ideal training aid for any design engineer just starting to use the PIC12C5xx family. 1997. Ringbound pages, illustrated.

## Education & Science

### The Usborne Book of Science Activities - Volume 1

by Helen Edom & Kate Woodward

This bright, visually stimulating book responds to the growing emphasis on scientific exploration for young children. Its appealing scientific activities are clearly designed to help children investigate the intriguing properties of water, light, mirrors and magnets. Youngsters can

find out how to make a magnet float in mid-air, how to use mirrors to see around corners, and how to produce their own rainbows. All the activities are safely and easy to do using readily available household items. 1992. 76 pages. 210 x 210mm, illustrated. Only available while stocks last

## The Usborne Young Scientist - Electricity

by Philip Chapman

Do you know why an electric light bulb shines, or how a battery works? Have you ever wondered how electricity is made in a power station, or how an electric motor works? This book explains in a clear visual style, with straightforward text, what electricity is and how we use it. A series of safe and simple experiments show you how to construct simple circuits, including working models of an electromagnet, an electric motor and a 2-way telegraph system. 1976. 32 pages. 270 x 215mm, illustrated.

## The Usborne Book of Batteries & Magnets

by Paula Barton & Vicky Cave

For all budding scientists, this excellent booklet provides a fascinating insight into batteries and magnetism. With a few simple pieces of readily available equipment you can make things that glow or buzz and flash. A whizzing plane, a lighting-up T-shirt are just a few of the projects included in this book - have lots of fun with these activities and discover all the amazing things that magnets and batteries can do.

1994. 32 pages. 250 x 200mm, illustrated.

WC06GB	Batteries & Magnets	£3.990	£3.990 NV

## 200 Illustrated Science Experiments for Children

by Robert J. Brown

This book is a fascinating collection of science experiments suitable for children of all ages. An ideal source book for parents, teachers and anyone who is fascinated with the wonders of science. The experiments cover air, sound, vibration, water, mechanics, chemistry, light, heat, biology, electricity and magnetism. The book is designed to make learning basic scientific principles exciting and fun - a good way to introduce youngsters of all ages to the world of science.

N.B. Many of the experiments MUST be performed under strict adult supervision since electricity, chemicals and heat are involved.

1987. 190 pages. 210 x 130mm, illustrated.

## Basic Skills - Electronics

by Tom Duncan

This book is suitable for anyone taking an introductory course in electronics, at school, college, or by study at home, or for anyone who wants to gain a knowledge and understanding of some of the basic principles of electronics. This book will meet the needs of those working for the Associated Examining Board's Basic Test in Electronics. Theory is covered in Part 1, while Part 2 provides practical course work in the form of experiments and projects, and provides an opportunity to become familiar with some basic components.

1988. 120 pages. 245 x 188mm, illustrated.

W554J	Basic Skills Elect	£6.990	£6.990 NV

## Introduction to Electronics

by Pam Beasant

This book is an introduction to the basic principles of electronics, and ideal for the younger beginner. The bulk of the book comprises many simple, practical experiments. Each experiment is designed to illustrate an important principle of electronics and demonstrate how each different component works. This ranges from the very basic through transistors, use of tools and soldering.

1990. 48 pages. 240 x 170mm, illustrated in colour.

## Electronics - Build and Learn

2nd Edition

by R. A. Penfold

Electronics is a practical subject, but a certain amount of theoretical knowledge is necessary if you are to become proficient in it. This book combines theory and practice so that you can 'learn by doing'. Full constructional details of a circuit demonstrator unit are given which is used in subsequent chapters to introduce common electronic components. Later chapters describe how these components are built into useful circuits, oscillators, bistables and logic circuits. At every stage there are practical tests and experiments that you can carry out to investigate the points described and to help you understand the principles involved.

988. 110 pages. 216 x 138mm, illustrated.

WP97F	Elec Build/Learn	£6.950	£6.950 NV

## Adventures with Electronics

by Tom Duncan

To start you don't need to know anything about electronics. But by the end of this book, you will find that you have learned quite a bit about this vital area of modern science and industry. The 'bits and pieces' needed for making all these models can be bought inexpensively as a complete kit, or you can search for them separately at radio hobby shops. Full details are given of both methods. And no soldering is required, which will be especially good news for beginners. Projects include a parking light, rain detector, fire alarm, flashing lamp, Morse buzzer, burglar alarm, electronic organ, electronic metronome, wailing siren, intercom, three types of radio, electronic timer, and a (binary) 'computer counter'.

1978. 64 pages. 246 x 190mm, illustrated.

W553H	Adventures Electrics	£7.990	£7.990 NV

## Adventures with Digital Electronics

by Tom Duncan

This book of entertaining and instructive projects is designed for students in schools and colleges, and also for hobbyists and electronics club enthusiasts. It is a follow-up to Adventures with Microelectronics and provides a stepping-stone to the microprocessor.

A first part deals with the properties of some basic 'chips' used in digital electronics such as logic gates, multivibrators, flip-flops, counters, shift registers, memories, adders, magnitude comparators, code converters and displays. The second part gives details of how to build eight devices - an electronic shooting gallery, quiz-game switches, an electronic fruit machine, computer space invaders game, two types of two-way traffic lights, pedestrian crossing signals and an electronic adder. For each project there is an explanation of 'how it works' and also suggestions for 'things to try'. Construction is on two standard circuit boards (no soldering required), using a 9V battery as the power supply.

1982. 64 pages. 245 x 188mm, illustrated.

WS55K	Advent Dig Electrics	£7.990	£7.990 NV

## Teach Yourself Electricity and Electronics

by Stan Gibilisco

This book has primarily been written for those people who want to learn basic electricity and electronics without taking a formal course, but it can also serve as an introductory classroom text. The book is easy to follow as nothing is very advanced, starting with simple, general concepts and moves to more specialised topics.

It is not necessary to have a mathematical or scientific background to make use of the book, as secondary school level mathematics and physical science should suffice. The style of the book does require a certain amount of self-discipline on the part of the reader, but the book is easy to read and follow, and the reader can set his/her own pace.

A highly recommended book. 1993. 678 pages. 234 x 188mm, illustrated.

## Modern Electronics Manual

Wimbome Publishing

This professionally written, revised edition of the Modern Electronics Manual contains practical, easy to follow information. The Manual comprises two parts.

### Base Manual

The Base Manual contains information on the following subjects:

- Basic Principles - symbols; components and their characteristics; active & passive component circuits; power supplies; acoustics & electroacoustics; the workshop, principles of metrology; measuring instruments; digital electronics; analogue electronics; physics for electronics.
- Circuits to Build - from basic principles to circuit building, the Modern Electronics Manual describes how to assemble radios, loudspeakers, amplifiers, car projects, computer interfaces, measuring instruments, workshop equipment, security systems, etc.
- Essential Data - extensive tables on diodes, transistors, thyristors & triacs, digital & linear ICs, and microprocessors
- Safety
- Specialist Vocabulary with Abbreviations

Information is presented clearly and simply, with a comprehensive subject range, component checklists and extensive data tables. Most projects have ready-to-transfer PCB designs and detailed assembly instructions.

This is probably the most comprehensive reference work ever produced at such an affordable price! Providing you with over 1,000 A4 pages of all the essential information you will need to really get the best out of electronics.

Each Base Manual is supplied complete with an attractive and durable ring-binder. A free copy of a recent Supplement is also included.

### Supplements

As if all the information in the Base Manual wasn't enough, regular Supplements continuously extend the Modern Electronics Manual with new material! Each Supplement contains a wealth of information. These Supplements are sent to you directly, on approval (UK only), from the publisher approximately four times a year. If you do not wish to keep a Supplement, simply return it within ten days. If you wish to keep the Supplement, simply remit the appropriate amount, as advised, to the publisher.

You can cancel the Supplements at any time by writing to the publisher. Supplements are priced at £23.50 plus postage and packing.

You are under no obligation to purchase any of the Supplements. Neither are you obliged to accept the offer of the Supplements being sent on approval - see **Important Ordering Information** below.

If you want to receive the Supplements, we have to provided your name and address to the publisher (no other information will be passed onto the publisher in connection with the Modern Electronics Manual).

### Important Ordering Information

If you do not want to be sent the Supplements, please order **AN46A MEM No Supplements** - we will not provide your name and address to the publisher. You will, however, still receive a free recent Supplement with the Modern Electronics Manual. You can of course contact the publisher at a later date if you decide that you want to be sent the Supplements after all.

If you do want to be sent the Supplements, please order **GS46A MEM + Supplements** - we will provided your name and address to the publisher. You will receive a free recent Supplement with the Modern Electronics Manual. You will be sent further

Supplements, on approval, from the publisher. You can cancel the Supplements at any time, by writing to the publisher.  
**Please note:** customers outside the UK will only be sent details of the Supplements and a *pro forma* invoice, not the actual Supplements.

## Mastering Electronics

3rd Edition

by John Watson

A comprehensive handbook containing all the essential information required to learn and master the principles of electronics. Arranged as a complete self-contained course, for individual or classroom use, it includes basic theory as well as more advanced subjects such as Radio & TV, computers, etc. Tested projects are featured to provide the reader with practical experience. This reasonably priced book is recommended for the beginner in electronics. 1990. 441 pages. 215 x 135mm, illustrated.

## Digital and Analogue Electronics for HNC

by G. C. Loveday

This book primarily covers the required BTEC syllabus topics for electronic engineering at HNC/HND level, and in particular for BTEC units Analogue Electronics 13768B and Digital Electronics 13679B. Undergraduate students on electronic engineering degree courses will also find this book very useful as supplementary reading to their main course texts. The author has adopted an engineering approach to text presentation, providing the student with many analysis and design examples, as well as exercises and solutions to consolidate the theory discussed in the text. Emphasis is placed on the fundamental principles of electronic theory. 1993. 238 pages. 246 x 187mm, illustrated.

## Electronics for Engineers Second Edition

by R. J. Maddock & D. M. Calcutt

This book provides a comprehensive course in electronics for engineering students to higher technician and first degree level. Emphasis on new technology and analytical methods mean that this book will be of most use to those wishing to bridge the gap between old and present-day integrated circuit technology. The book has summaries at the ends of chapters and features learning objectives like worked examples and problem solving exercises. In-depth discussions of circuit theory and operation help to impart exactly how a particular circuit will operate. The book covers most of the modern digital and analogue syllabus material covered in courses like ONC and HNC electronics, together with a great deal aimed at first degree level. A good source of information for students, with numerous diagrams and illustrations. 1994. 719 pages. 240 x 190mm, illustrated.

Retail Unit Price each (inc. VAT).

AN04E	Elects For Engineers	£21.990	£21.990 NV

## Electronic Devices - A Text and Software Problems Manual

by Mitchel E. Schultz

This book is intended to be used as a supplement to accompany most of the textbooks devoted to electronics devices. The student should have completed a basic course in DC and AC theory. The book includes numerous practice problems that are included on a 133mm (5.25in.) disk that is supplied with the book. These problems are designed to reinforce the understanding of the basic concepts presented in the text. An additional benefit is that students are given an immediate feedback on the problem they are solving. 1994. 290 pages. 264 x 190mm, illustrated and includes software. American book.

## An Introduction to the Electromagnetic Wave

by F. A. Wilson

Bernard Babani Books

The electromagnetic wave has been on and around the earth (and everywhere else) since time immemorial. We cannot expect to cover all of its antics in such a small book, but we can at least make some inroads on the subject and certainly gain an appreciation of this inexplicable wonder.

Our subject is a complicated one so the first chapters are needed to discuss its' nature and how it behaves. Then in a more practical way the

later chapters centre on radio waves in their freedom in ground, sky and satellite applications, followed by waves not so free in waveguides, optical fibres and heating.

Altogether a round-up of the better known escapades of the electromagnetic wave requiring no more than elementary mathematics, but presuming that the reader has some basic knowledge of electronics.

## The Illustrated Dictionary of Electronics – Sixth Edition

by Stan Gibilisco

This collection of terms is the most comprehensive dictionary available. Including all practical electronics and computer terms. Tables and data on subjects most often consulted for projects and experiments are included. Other conversion tables include English/metric and metric/English conversions for units of measure of energy, power, and volume, and Fahrenheit/Celsius temperature conversion charts.

Setting this edition apart from other electronic dictionaries is its emphasis on illustration. Featuring more than complete definitions, this sixth edition is packed with over 450 detailed drawings and diagrams. It's all here – more than 27,000 terms used in electronics today!

1994. 766 pages. 234 x 188mm, illustrated. American book.

## Lasers: Principles and Applications

by J. Wilson and J. F. B. Hawkes

Prentice Hall

A clearly written introduction to a rapidly developing subject, this book provides the reader with a grounding in laser physics, an analysis of laser technology and a wide survey of laser applications. Suitable for professional engineers wishing to increase their knowledge of laser applications and for students seeking an up-to-date introductory text which includes working examples and end-of-chapter problems.

## Build Your Own Working Fibre-Optic Infra-red and Laser Space-Age Projects

by Robert E. Iannini

This American book contains many do-it-yourself projects for exploring the possibilities of the current laser technology, by building a variety of lasers including the gallium arsenide infra-red, optical helium-neon and ruby rod types, through to the carbon dioxide laser, complete with its collection of somewhat involved support equipment. Also included are designs for 'plasma tornado' special effects generators, but bear in mind that any special items mentioned may not be available in the UK and suppliers mentioned are USA only.

1987. 264 pages. 233 x 187mm, illustrated.

## The Laser Cookbook

by Gordon McComb

This book gives you the opportunity to investigate, first hand, a relatively new and evolving science. With this book you can create and experiment with simple to advanced level lasers that have real, practical applications! The 88 laser based projects presented here are geared toward the workshop experimenter on a limited budget. Spanning a wide range of disciplines, the projects vary from experimenting with laser optics and constructing a laser optical bench to using lasers for light shows, gunnery practice, even beginning and advanced holography. Warning: This is an American book and references to mains voltages do not apply in the UK. 1988. 404 pages. 234 x 189mm, illustrated. American book.

## Wiring and Lighting

by Albert Jackson and David Day

This book will help anyone wanting to undertake household electrical tasks. It covers things as diverse as mending fuses and changing plugs through to good advice on complete rewiring. The diagrams and instructions here are full, many are step by step, and a lot of the matters left hanging in the small book are explained. There are also a number of extended special sections which discuss the wiring of fixed appliances, the basic home electricians toolkit and how to reduce the cost of electricity – legally! A short glossary explains some of the more basic terms as well as covering such matters as PME and ELCB. This is the book for the serious home electrician.

1995. 64 pages, 258 x 212mm, full colour illustrations.

## IEE Wiring Regulations

*Regulations for Electrical Installations - 16th Edition*

This edition supersedes the fifteenth edition from the 1st January 1993, and is based on the plan agreed internationally for the agreement of safety rules for electrical installations. Also, the technical substance of the parts of the IEC Publications 364 so far published, and of the corresponding agreements reached in CENELEC, have been taken into account. The opportunity has also been taken to revise certain regulations for greater clarity or to take account of technical developments. Considerable reference is made throughout the Regulations to publications of the British Standards Institute, both specifications and codes of practice. These publications are conveniently listed in Appendix 1 with their full titles, whereas throughout the Regulations they are referred to only by their numbers. The book is divided into seven parts. Part one details the scope, object and fundamental requirements for safety; part two covers definitions; part three the assessment of general characteristics; part four covers protection for safety; part five details selection and erection of equipment; part six covers special installations or locations and part seven covers inspection and testing.

1991. 266 pages. 296 x 210mm, illustrated.

*Retail Unit Price each (inc. VAT).*

Order Code	Type	Price each exc. VAT	inc. VAT each
WZ90X 1	IEE Wiring Regs	£38.000	£38.000 NV

## Guidance Notes to the 16th Edition IEE Wiring Regulations

A series of guidance notes that have been issued by the Wiring Regulations Committee of the Institute of Electrical Engineers (IEE). These booklets are designed to enlarge upon and amplify some of the requirements in the 16th Edition of the IEE Wiring Regulations (WZ90X). The principle section numbers that each guide relates to, are shown in the left hand margin, with the relevant Regulations and Appendices noted in the right hand margin. The Notes may also include material that was included in earlier editions, but may not be in the 16th Edition. Additionally, the Guidance Notes contain references to other relevant information. A very useful range of booklets that all electricians in the electrical installation and maintenance industries should find extremely useful.

## On-Site Guide

This Guide is concerned with limited application of the Regulations in accordance with '1.1 Scope'. The booklet is split into 11 sections which include: introduction, the service position, protection, bonding and earthing, isolation and switching, labelling, conventional final circuits, special locations giving rise to increased risk of electric shock, inspection and testing, guidance notes on initial testing of installations, operation of residual current operated devices. The appendices covers a variety of related topics, including: cable capacities of conduit and trunking, resistance of copper and aluminium conductors under fault conditions, current-carrying capacities and voltage drop for copper conductors, etc. This version includes Amendment 1 to BS7671: 1992 requirements for electrical installations.

1995. 150 pages. 216 x 155mm, illustrated.

Order Code	Type	Price each exc. VAT	inc. VAT each
WZ97F	IEE On Site Guide	£12.000 NV	£12.000 NV

## Number 1 - Selection and Erection

Number One in the series is concerned with Part 5 - Selection and Erection. The eight sections cover the topics: selection and erection of equipment; protection against electric shock; external influences; installation of cables; the sizing of cables; other influences; installation of equipment.

A comprehensive appendix covers related topics. 1992. 122 pages. 97 x 210mm, illustrated.

*Retail Unit Price each (inc. VAT).*

Order Code	Type	Price each exc. VAT	inc. VAT each
WZ98G	Selection & Erection	£14.000	£14.000 NV

## Number 2 - Isolation and Switching

2nd Edition  
Number Two in the series is concerned with Chapter 46 - Isolation and Switching. The six sections in this booklet cover: statutory requirements; the regulations for electrical installations, definitions and principles; isolation; switching off for mechanical maintenance; emergency switching and emergency stopping; and fireman's switches. This edition includes Amendment No. 1 to BS7671.

1995. 67 pages. 297 x 210mm, illustrated.

## Modern Wiring Practice

12th Edition

by W. E. Steward  
and T. A. Stubbs

A completely revised edition of Modern Wiring Practice taking into account the requirements of the 16th edition of the IEE Regulations for Electrical Installations. Includes new procedures developed since the ninth edition was published. Both the design of electrical installation systems and the practical work itself are covered, and the authors have many years' experience of electrical installation. An absolute must for all electrical engineers, apprentices, contractors and architects etc., and an invaluable reference for DIY wiring at home.

1992. 318 pages. 215 x 138mm, illustrated.

Retail Unit Price each (inc. VAT).

## Snags and Solutions – Electrical Installation Practice

4th Edition  
NICEIC

This handy little book, now in its 4th edition, has been prepared by members of the National Inspection Council for Electrical Installation Contracting (NICEIC) and is intended to provide practical advice on the application of the 16th edition of the IEE Wiring Regulations (WZ90X). The answers to the many problems that are encountered daily by electricians and electrical installation contractors are provided, also emphasises the wiring problems found by NICEIC inspecting engineers in the course of their visits to various establishments throughout the country. An invaluable aid for all electricians and electrical installations contractors.

1992. 146 pages. 208 x 145mm, illustrated.

## ISO9000 Quality Systems Handbook – Second Edition

by David Hoyle

This essential and comprehensive guide to implementing the Quality System Standard has now been updated to include the latest revisions, making it the only complete guide to ISO9000 currently available. This standard has come about as a result of harmonising the national numbering conventions, and the end of BS 5750. The UK version of ISO9000 bears the number BS EN ISO 9000. The book provides a line-by-line set of instructions for putting quality to work and becoming certified to the new international quality system standard, and includes all the requirements of the 1994 version of the standard. Each individual requirement of every clause is analysed – the purpose and scope of each requirement is explained, and practical guidance in meeting them is offered. The book is divided into two parts. The

first part provides general background information on the standard, its origin, composition, application, the strategies for registration and other preparatory aspects. The second part is divided into chapters that correspond to the subsections of section 4 of the standard, both in title and scope.

1994. 510 pages. 234 x 156mm, illustrated.

## Electric Motors

by Jim Cox

This book sets out in simple terms the essential characteristics and operating limitations of the principle motor and generator types. The approach is essentially practical in nature with few calculations needing anything more than simple arithmetic, giving basic operation and installation information to the first time user. The book shows you how to apply automotive, industrial and domestic motors in home-made applications, and identify their ratings; less common motor and generator types such as servo and stepper motors are included. Readily available in the surplus market, the unusual types can be extremely useful in special applications. The book includes data about motor starting systems, electronic speed control and motor braking.

1990. 134 pages. 209 x 148mm, illustrated.

WT32A	Electric Motors	£6.950	£6.950 NV

## Electric Motors and Drives

by Austin Hughes

This book explores most of the widely-used up-to-date types of motor and electronic driving methods, including conventional and brushless DC, mains and inverter fed induction motors, stepping motors, mains and converter fed synchronous motors, and reluctance motors.

Applications are deliberately spread throughout the text in order to emphasise the fact that there is no longer any automatic correlation between motor type and application.

1990. 320 pages. 203 x 135mm, illustrated.

## Electrical Appliances

by Graham Dixon

Haynes

This Haynes Home DIY book deals comprehensively with all aspects of the use, maintenance and repair of electrical appliances around the home. It is divided into seven main sections:

- Introduction - Includes a detailed safety guide and the tools & equipment needed for the job
- Understanding Electricity - An essential guide to plugs and sockets, heating elements, temperature control devices and electrical circuit testing
- Kitchen Appliances - How to repair and maintain refrigerators & freezers, hobs & ovens and most other kitchen appliances
- Personal Equipment - Shavers and hairdriers
- Living Room Appliances - Portable heaters, video and audio equipment
- Cleaners and Power Tools - Vacuum cleaners, power tools and garden power tools
- Further Information - Using a flowchart, buying spare parts, low insulation, rechargeable batteries and glossary

Photographs and diagrams accompany the clearly presented text and the easy-to-follow fault finder charts help pinpoint the cause of a problem and the action to be taken.

The repair of commonly occurring faults is explained in detail which includes - a list of all the tools required and replacement parts and captioned step-by-step photographs to show precisely what to do.

Altogether, this book is a 'must have' for the DIYer interested in undertaking electrical maintenance/repair work.

1995. 186 pages. 270 x 210mm, illustrated. British book.

## Washing Machines, Washer Driers and Tumble Driers

by Graham Dixon

Haynes

This Haynes Home DIY book deals comprehensively with all aspects of care, maintenance and repair of washing machines, washer driers and tumble driers in a clear accessible manner. It is divided into six sections:

- Introduction - Includes a safety guide with emergency procedures and a complete guide to tools and equipment
- Understanding Electricity - All the basics, plugs & sockets and using a test meter
- Installation - Plumbing instructions, venting and programme testing
- Care and Repair - The importance of regular maintenance and how to overcome the common causes of poor washing results
- Fault Finding - What to do about leaks and why the machine is not emptying. Replacing door seals, times and programmers. How to deal with motors, belts, suppressors, bearings and electrics. What can go wrong with dry only machines and how to put it right.
- Further Information - Full of useful tips on knowing your machine, buying spare parts and how to use a flow chart. There is a glossary for quick and easy reference.

Photographs and diagrams accompany the clearly presented text and all methods of prevention and repair are fully explained in a non-technical manner.

Each component part is photographed and explained in full detail, with a thorough explanation of the way it works, what can go wrong, and how to maintain, repair and replace it.

Altogether, this book is essential reading for anyone wishing to carry out washing machine maintenance or repair work.

## Motorcycle Electrical Manual

Second Edition

by Tony Tranter

Haynes

This comprehensive manual explains how the electrical systems work, troubleshooting, and how to fix electrical gremlins quickly and effectively when faults develop, so that your motorbike retains a reliable temperament. And you do not need to have prior experience in electrics, for this book begins with a description of the basic principles before launching into the deep end of magnetos, electronic ignition, ABS brakes, traction control and three-phase alternators! These parts, and all others of a motorcycle's electrical system, are catered for by this manual, together with sections on wiring, tools, testing and theft deterrents.

1993. 204 pages. 270 x 210mm, illustrated.

## Solar Electricity

by Simon Roberts

A Practical Guide to Designing and Installing Small Photovoltaic System. Whether you are interested in solar power for a lamp, radio, workshop application or whatever, this guide provides you with the methods you need to design solar electric systems and components. The non-technical language makes this book suitable for the lay person, but it is also suitable for students on undergraduate courses in power systems and solar electricity. The book is divided into three parts. Part one gives an introduction to solar electricity, describes solar modules, battery storage of electricity, control units, distribution at low voltage and electrical appliances, inverters and lighting. Part two covers planning, installation, operation and maintenance. Part three describes the building of electronic units associated with solar electric power. The first chapter gives an introduction to electronic components and circuit building, and is followed by chapters dealing with the construction of expanded scale voltmeters, voltage adaptors, charge regulators for nickel-cadmium cells and control units for appliance circuits. The Maplin Catalogue contains a wide range of solar cells and panels that may be suitable for projects described in this book. 1991. 440 pages. 234 x 173mm, illustrated.

## Electronic Music

### Mixing & Sequencing

## Advanced MIDI User's Guide

2nd Edition

by R. A. Penfold

This book is for those who wish to go beyond the very basic slaving and sequencer set-ups, and who wish to exploit MIDI to the full.

The topics covered include: MIDI modes and codes; MIDI signal routing and patch bays; System exclusive messages and their practical uses; MIDI trouble-shooting including, using a computer as a diagnostic tool; MIDI gadgets, channelisers, filters, merge units, pedals etc.; synchronisation using MIDI time code, SMPTE etc.; the basics of MIDI programming; and MIDI hardware specification. Anything within reason can be accomplished with MIDI - this book shows you how.

1995. 192 pages. 216 x 138mm, illustrated.

WT52G	Adv Midi User Guide	£19.950	£19.950 NV

## A Beginners Guide to MIDI

by R. A. Penfold

Bernard Babani Books

After a slow start in the early 1980s, MIDI (Musical Instrument Digital Interface) has progressed to the point where it now dominates some aspects of electronic music making. It is now an area of electronic music that few can afford to ignore. Many potential users are put off by the technicalities associated with MIDI, but it is not essential to understand the precise way in which MIDI functions in order to use it effectively. In fact many everyday users of MIDI have little idea of how it does what it does.

With the aid of this book, those with no previous knowledge of MIDI will learn how to:

- Connect up a MIDI system that will suit their exact requirements
- Exploit MIDI modes and channels, for both 'live' performances and sequencing
- Use the various messages types the provide communications between units in their MIDI system
- Distinguish between MIDI messages that are worth exploiting and those which are of no real value to them
- Use the basic MIDI timing and synchronisation facilities
- Exploit MIDI filtering, transposition, and other 'extras' that are built into many instruments
- Interpret a MIDI implementation chart
- Avoid problems with MIDI 'choke', and how to troubleshoot when minor problems occur.

In fact this book covers everything you need to know in order to put together a MIDI system and use it effectively. 1993. 95 pages. 178 x 111mm, illustrated. British book.

## Practical MIDI Handbook

by R. A. Penfold

Second Edition

The Musical Instrument Digital Interface (MIDI) is surrounded by a great deal of misunderstanding, and many of the user manuals that accompany MIDI equipment are quite incomprehensible to the reader. This book is aimed at musicians, technicians and enthusiasts. It explains what MIDI can do and how you can exploit it to the full, with practical advice on connecting up a MIDI system and getting it to work, as well as deciphering the technical information in those equipment manuals. It covers all the MIDI based equipment you can use: keyboards, drum machines, sequencers, effects units, mixers, drum pads and guitars. There's also a section on computer music that covers software, real and step time sequencing, notation/score writing programs, voice filters, etc. And for those of you who want to do your own MIDI programming there are details of the MIDI code numbers.

1990. 160 pages. 216 x 138mm, illustrated.

## MIDI Projects

by R. A. Penfold

MIDI interfacing enables any so equipped instruments, regardless of manufacturer, to be easily interconnected and used as a complete, sophisticated system. This book provides details of how to interface most of the popular home computers with MIDI systems, including all circuit diagrams with operational detail, plus examples of programming used to drive the interface. Machines catered for include the Amstrad CPC464 and 6128, CBM 64 and VIC-20, BBC Model B, MTX and MSX computers, and the Sinclair QL, Spectrum and ZX81.

The book also includes examples of interfacing MIDI equipment to analogue and percussion synthesizers. 1986. 112 pages. 178 x 111mm, illustrated.

Order Code	Type	Price each exc. VAT	inc. VAT each
WP49D	MIDI Projects	£2.950	£2.950 NV

## Practical Electronic Music Projects

by R. A. Penfold

This handy book provides a number of circuits for electronic music projects of various types, including guitar effects units, and other guitar related projects, as well as general projects such as metronomes, audio mixers and preamplifiers. The final chapters describe several MIDI related projects including MIDI testers, a MIDI pedal, noise gates and a THRU box. The circuits cover a wide range of complexities but are not beyond the average electronics constructor. As with other projects books from this well-known author, the circuits are based on relatively inexpensive, and readily available components. Construction notes and parts lists are provided, and to help make construction easy, no test equipment is required in order to get any of the circuits set-up correctly. All musically orientated electronics hobbyists will find this book a must for their collection. 1994. 128 pages, 178 x 111mm, illustrated.

## Electronic Projects for Guitar

by R. A. Penfold

Whether you wish to save money or simply have fun building some electronic music gadgets, the designs featured in this book should suit your needs. The projects are all easy to build and include a guitar preamplifier, headphone amplifier, soft distortion effects unit, compressor, auto-waa, waa-waa pedal, phaser, dual tracking effects unit, expander, treble booster, dynamic treble booster, dynamic injection box, improved distortion unit, thin distortion unit and a guitar tuner. Several projects are so simple that even complete beginners at electronic project construction can tackle them with ease. Each project has an introduction, an explanation of how it works, a circuit diagram and complete instructions on stripboard layout and assembly. All the designs

are suitable for any normal guitar pick-ups, both high or low output types. None of the designs requires the use of any test equipment in order to get them set up properly. Where any setting up is required, the procedures are very straightforward, and they are described in detail. 1992. 113 pages. 246 x 190mm, illustrated.

WZ61R	Guitar Projects	£8.950	£8.950 NV

## Practical Electronic Musical Effects Units

by R. A. Penfold

Bernard Babani Books

While many facets of electronic project construction have waxed and waned over the years, musical effects have remained as popular as ever. This is perhaps not surprising, since many of the standard effects units can be home constructed for much less than the cost of an equivalent ready made product. Also, some of the more weird and wonderful effects units for the home constructor have no true commercial equivalents.

This book provides practical circuits for a number of electronic musical effects units. All can be built at relatively low cost, and use standard, readily available components. The projects covered include:

- Wah-Wah units
- Distortion units
- Phaser
- Guitar envelope shaper
- Compressor
- Tremolo unit
- Metal effects unit
- Bass and treble boosters
- Graphic equaliser
- Parametric equaliser

The projects cover a range of complexities, but most are well within the capabilities of the average electronics hobbyist. None of the projects require the use of test equipment in order to get them set up correctly, and several of the projects are suitable for near beginners. 1994. 98 pages. 178 x 111mm, illustrated. British book.

AN55K	Electr Musical FX	£4.950	£4.950 NV

## Guitar

## Projects for the Electric Guitar

by J. Chatwin

Bernard Babani Books

This book is for anyone interested in the electric guitar. It explains how the electronic functions of the instrument work together, and includes information on the various pickups and transducers that can be fitted. There are complete circuit diagrams for the major types of instrument, as well as a selection of wiring modifications and pickup switching circuits. These can be used to help you create your own custom wiring. Along with the electric guitar, sections are also included relating to acoustic instruments. The function of specialised piezoelectric pickups is

explained and there are detailed instructions on how to make your own contact and bridge transducers.

The electronic projects in the book range from simple preamps and tone boosters to complete active controls and equaliser units. These can be used with both bass and six-string guitars. Most of the circuits can be fitted inside instruments, or could form the basis of external effects and processing units. There are sections on noise reduction and screening, as well as plans for a complete dynamic noise gate. The book also contains a step-by-step guide to setting up a guitar after customisation. 1995. 92 pages. 178 x 111mm, illustrated. British Book.

AN57M	Guitar Projects	£4.950	£4.950 NV

## Advanced Projects for the Electric Guitar

by J. Chatwin

Bernard Babani Books

This highly recommended book contains details on how to build a number of electronic effects that can be used with the electric guitar and other electronic musical instruments.

The book is divided into four chapters covering:

- Effects Pedals (distortion unit, tremolo, volume pedal, wah-wah, compressor and instrument selector)
- Delay Lines (analogue delay, digital delay and noise reduction circuit)
- Headphone Practice Amplification (input and amplifier stages)
- Electronic Controls (electronic pickup switching, phase reversal and bypass switch).

Each chapter starts with a general introduction to the subject area being covered.

This book should be of great interest to musicians as well as those into home recording and audio electronics.

The projects vary in complexity; ranging from simple single IC circuits to relatively complex multi-IC circuits using mixed analogue and digital technology. Some of the projects include complete PCB layouts and overlays. The projects are supported with relevant background information so the reader can understand how the circuits work and modify them for their own specific needs. 1996. 87 pages. 178 x 111mm, illustrated. British book.

## Projects

### Maplin Series – Music Projects

by R. A. Penfold  
The author's reputation for innovative circuit designs and well-thought out projects is firmly established. His work has been regularly featured in the popular 'Bob's Mini Circuits' section of Electronics – The Maplin Magazine. This is a collection of his best ideas from the magazine and features projects based on music applications. Components are widely available and the circuits form the basis for further experiments. Circuit diagrams are shown and include parts lists along with photographs of the main circuits. Projects include an accented metronome, a tremolo unit, a guitar compressor, a bass fuzz, a chorus unit and many more. 1994. 155 pages. 216 x 138mm, illustrated.

## Dance Music

### Dance Music Programming Secrets

Roger Brown  
Prentice Hall

Drum 'n' bass, techno, house, garage and ambient hip-hop are all introduced within the context of Cubase's powerful commands and features. But you don't necessarily need Cubase to learn from this amazing book: many of the sequencing tips here can be used with any sequencer. The free CD is packed with MIDI files, audio samples for drum 'n' bass, groove templates, mixer maps and demos of leading music software. *Dance Music Programming Secrets* is organised so you can simply dip into those areas of dance music you're most interested in. But because of the stylistic links between the genres, this book will lead you to explore all the possibilities and help you evolve your own original flavour.

## Electronics

### Construction

### The Art of Soldering

by R. Brewster  
**Bernard Babani**  
This book is an attempt to dissolve the mysteries that surround a subject that's increasingly becoming a part of so many hobbies. Despite its reputation for being a difficult skill to acquire, soldering can be both easy and pleasurable once the basic principles and techniques are properly understood. The author explains how to choose the correct soldering iron, solder and materials and, with the aid of diagrams, the techniques needed to achieve the best results in a range of hobbies including electronics, model railways and stained glass. 1992. 84 pages. 178 x 110mm. Illustrated.

### Getting Started in Practical Electronics

by Owen Bishop  
**Bernard Babani Books**  
Owen Bishop is the author of over 60 books, mostly about electronics, and this is his guide for the absolute beginner who wants to get a good grasp of electronics and begin to competently build their own projects. The book is in two sections: The first takes you through the theories, components and techniques that you'll need to be able to build the 30 electronics projects of increasing complexity – including such items as a moisture detector, glittering party wear, a fire alarm, night light, lie detector and mini organ – that make up the book's second section. 1994. 198 pages. 178 x 110mm. Illustrated.

### The TAB Electronics Technician's On-line Resource Reference

Stephen J Bigelow  
**McGraw-Hill**  
The TAB Electronics Technician's On-line Resource Reference deals exclusively with on-line electronics and computer resources, and cuts through the mass of data on the Internet. Quickly and efficiently, it connects technicians, students of electronics, and enthusiasts with sites for major manufacturers and other suppliers, complete with actual access strings. Much more than a directory, this incomparable guide also surveys the types of resources available at every site. With traditional telephone-based technical support functions being phased out as more

companies go on-line, this reference will be required reading for professional electronics technicians and hobbyists alike.

### Electronics Constructors Guide

by Paul Cuthbertson  
Written for anyone intending to convert their ideas into products or their electronics skills into a profitable business, this book will be of interest to students, enthusiasts and professionals alike. It gives a practical introduction to common design problems, provides hints on design, presents classic circuit examples and explains how decisions are made, put into practice and checked out. Examples of good practice are given throughout to provide the reader with a feel for the methods and ideas that contribute to excellent design and construction. 1995. 278 pages. 198 x 130mm.

### A Practical Introduction to Surface Mount Devices

by Bill Mooney  
**Bernard Babani Books**  
This book takes you from the simplest possible starting point to a high level of competence in handworking with Surface Mount Devices (SMD's). The wider subjects of SM technology is also introduced, so giving a feeling for its depth and fascination. SM construction is easier, faster and cheaper for modern mass production, making it simpler to manufacture reliable electronic products at low prices.

Fortunately, the technology is also ideal for constructing small projects. therefore, hobbyists, students and anyone producing one-off circuits can use SMDs to advantage. Just a few very basic skills are all you need to get started. Subjects such as PCB design, chip control, soldering techniques and specialist tools for SM are fully explained and developed as the book progresses. Some useful constructional projects are also included. Whilst the book is mainly intended as an introduction, it is also an invaluable reference book, and the browser should find it engrossing. 1996. 113 pages. 178 x 111mm, illustrated. British book.

## Maplin Series - Starting Electronics

by **Keith Brindley**  
This text provides an important introduction for the newcomer to the fascinating world of electronics. Essentially practical, all the bits and pieces that an experimenter will meet when tackling projects and building circuits are introduced and explained. Detailed and practical explanations of components are combined with clear descriptions and methods to give a thorough grounding in the basics. This is the essential primer for all electronics enthusiasts and a valuable guide for students. 1994. 234 pages. 216 x 138mm, illustrated.

## General Theory & Practice Modern Electronics Manual

by **Wimbome Publishing**  
**RECENTLY INTRODUCED**  
This professionally written, revised edition of the Modern Electronics Manual contains practical, easy to follow information. The Manual comprises two parts. **Base Manual**  
The Base Manual contains information on the following subjects:  
• Basic Principles - symbols; components and their characteristics; active & passive component circuits; power supplies; acoustics & electroacoustics; the workshop, principles of metrology; measuring instruments; digital electronics; analogue electronics; physics for electronics.  
• Circuits to Build - from basic principles to circuit building, the Modern Electronics Manual describes how to assemble radios, loudspeakers, amplifiers, car projects, computer interfaces, measuring instruments, workshop equipment, security systems, etc.  
• Essential Data - extensive tables on diodes, transistors, thyristors & triacs, digital & linear ICs, and microprocessors  
• Safety  
• Specialist Vocabulary with Abbreviations  
Information is presented clearly and simply, with a comprehensive subject range, component checklists and extensive data tables. Most projects have ready-to-transfer PCB designs and detailed assembly instructions.

This is probably the most comprehensive reference work ever produced at such an affordable price! Providing you with over 1,000 A4 pages of all the essential information you will need to really get the best out of electronics. Each Base Manual is supplied complete with an attractive and durable ring-binder. A free copy of a recent Supplement is also included.

**Supplements**  
As if all the information in the Base Manual wasn't enough, regular Supplements continuously extend the Modern Electronics Manual with new material! Each Supplement contains a wealth of information. These Supplements are sent to you directly, on approval (UK only), from the publisher approximately four times a year. If you do not wish to keep a Supplement, simply return it within ten days. If you wish to keep the Supplement, simply remit the appropriate amount, as advised, to the publisher. You can cancel the Supplements at any time by

writing to the publisher. Supplements are priced at £23.50 plus postage and packing. You are under no obligation to purchase any of the Supplements. Neither are you obliged to accept the offer of the Supplements being sent on approval - see **Important Ordering Information** below.

If you want to receive the Supplements, we have to provide your name and address to the publisher (no other information will be passed onto the publisher in connection with the Modern Electronics Manual).

### Important Ordering Information

If you do not want to be sent the Supplements, please order **AN46A MEM No Supplements** - we will not provide your name and address to the publisher. You will, however, still receive a free recent Supplement with the Modern Electronics Manual. You can of course contact the publisher at a later date if you decide that you want to be sent the Supplements after all.

If you do want to be sent the Supplements, please order **GS46A MEM + Supplements** - we will provide your name and address to the publisher. You will receive a free recent Supplement with the Modern Electronics Manual. You will be sent further Supplements, on approval, from the publisher. You can cancel the Supplements at any time, by writing to the publisher.

**Please note:** customers outside the UK will only be sent details of the Supplements and a pro forma invoice, not the actual Supplements.

## The Illustrated Dictionary of Electronics - Sixth Edition

by **Stan Giblisco**  
This collection of terms is the most comprehensive dictionary available. Including all practical electronics and computer terms. Tables and data on subjects most often consulted for projects and experiments are included. Other conversion tables include English/metric and metric/English conversions for units of measure of energy, power, and volume, and Fahrenheit/Celsius temperature conversion charts. Setting this edition apart from other electronic dictionaries is its emphasis on illustration. Featuring more than complete definitions, this sixth edition is packed with over 450 detailed drawings and diagrams. It's all here - more than 27,000 terms used in electronics today! 1994. 766 pages. 234 x 188mm, illustrated. American book.

## A Beginners Guide to Modern Electronic Components

R A Penfold

**Babani**

It is easy for newcomers to electronics to become confused by the wide range of components currently available. There are now a great many different types of components on offer in shops and catalogues, often with numerous variations on each type. It can be difficult to know your carbon compositions from your metal films, and your diacs from triacs! This book covers a wide range of modern components including:-

- ★ **Resistors (Including Potentiometers)**
- ★ **Capacitors (of various types)**
- ★ **Inductors**
- ★ **Diodes (Including Zeners and Varicaps)**
- ★ **Transistors (silicon and germanium)**
- ★ **Thyristors (Including Triacs and Diacs)**
- ★ **Opto Electronic Devices**
- ★ **Operational Amplifiers**
- ★ **Logic Integrated Circuits**
- ★ **Loudspeakers and Microphones**
- ★ **Meters**

The basic functions of the components are described, but this is not a book on electronic theory, and does not assume that the reader has an in-depth knowledge of electronics. The main thrust of the book is concerned with practical aspects, such as colour codes, deciphering code numbers, and the suitability of components for given applications. Essential reading for all electronic enthusiasts.

## Basic Skills – Electronics

by **Tom Duncan**

This book is suitable for anyone taking an introductory course in electronics, at school, college, or by study at home, or for anyone who wants to gain a knowledge and understanding of some of the basic principles of electronics. This book will meet the needs of those working for the Associated

Examining Board's Basic Test in Electronics. Theory is covered in Part 1, while Part 2 provides practical course work in the form of experiments and projects, and provides an opportunity to become familiar with some basic components. 1988. 120 pages. 245 x 188mm, illustrated.

## Practical Electronic Design Data

by **Owen Blishop**

**Babani**

This book is a comprehensive reference manual for electronics enthusiasts of all levels, be they hobbyists, students or professional electronic engineers. A major section of the book covers the main types of components, including surface-mounted devices. For each component, the book lists the most useful and readily available types, complete with details of their electronic characteristics, pin-outs and other useful information. A special feature of this section is the easily followed charts and tables which suggest how to select the best type of component for any particular purpose. Basic electronic units are defined, backed up by a fully explained compendium of the most often required formulae. 1992. 336 pages. 178 x 111mm, illustrated.

## A Reference Guide to Practical Electronics Terms

by **F. A. Willson**

**Babani**

This book is in effect more than just a dictionary of practical electronics terms, it goes a stage further in also getting down to fundamentals. Accordingly the number of terms may be limited but the explanations, of the many which are included, are designed to leave the reader more competent and satisfied. Complicated mathematics has been avoided as this can be confusing on first reading. The entries are in alphabetical order, and where necessary, entries have references for further reading. The references are no more than enlightened suggestions, and the reader can choose which, if any, should be explored further. This practical reference guide is ideal for everybody concerned with electronics. 1992. 448 pages. 198 x 130mm, illustrated.

## A Beginners Guide to Modern Electronic Components

by **R. A. Penfold**

**Babani**

This book describes the basic functions of components but is not an electronics text book. Instead it deals with the practical aspects such as colour codes, deciphering code numbers and the suitability of components for given applications. Some of the components covered include Resistors (including Potentiometers), various types of capacitors, inductors, diodes (including Zeners and Varicaps). Transistors both silicon and germanium, opto electronic devices, operational amplifiers, logic integrated circuits, loudspeakers and microphones and meters. The book cleverly divides the components into Passive, semiconductors integrated circuits and The Rest which includes connectors, switches and multiway components. A useful index has to be used in conjunction with the contents pages, but does enable much of the detail about components to be tracked down. 1990. 176 pages. 178 x 111mm, illustrated.

Retail Unit Price each (inc. VAT).

## The Art of Electronics

by **Paul Horowitz and Winfield Hill**

This is a text/reference book that emphasises electronic circuit design techniques and scientific measurement. Written in a down-to-earth manner it takes the reader from basic principles through to a reasonable degree of proficiency in circuit design. Included in the chapters are; transistors, feedback, operational amplifiers, active filters, regulators, digital/analogue techniques, computing and measurement, active filter designs, switched-capacitor filters, quadrature oscillators, low-dropout regulators, switching

supplies, crowbars, isolation amplifiers, SCR latchup, 'ground bounce', dynamic power dissipation, optoelectronics, RS-232 interfacing, modems, memory chips, schematic capture, AM detection, battery characteristics, sensor linearization.

## Simple Sensor Terminal Block Projects

R Bebbington

**Babani!**  
Sensors are like the 'eyes, ears and nose' of an electronic system. They come in many forms including contact, light, heat, sound, magnetic, motion, resistance and voltage-operated sensors. all of which are covered by projects in this book. These constructional projects cover a diverse range of topics, so whatever your interests the 'pick-and-mix' arrangement between the various types of sensor and circuits offers plenty of flexibility for the adventurous constructor. As with the other 'Terminal Block' books in this series, the easy-to-build and

virtually no soldering construction technique makes the projects particularly suitable for schools and young beginners.

## Handbook of Technology Management

Gerard H Gaynor

**McGraw-Hill**  
Drawing on the expertise of 46 contributors, the Handbook presents the latest thinking, research results, and practices related to integrated technology management. Rich in real-world examples, it contains industry-specific information for companies that produce goods, provide services, or manage processes. The continued viability of an enterprise requires the effective integration of resources, infrastructure, and activities. Managing these components requires an understanding of the fundamental principles and all related issues. The Handbook of Technology Management presents new ways to optimise investments in technology and ensure company growth.

## Electronic Packing and Interconnection

Charles A Harper

**McGraw-Hill**  
Here is the latest practical insight into such vital new areas as advanced single and multichip packaging, ball grid array, flip chip packaging, chip scale packaging, and packaging microwave, high-speed and high-voltage electronics, in addition to cutting-edge analysis of advances in surface mount and soldering technologies. Distinguished specialists come together to cover all the fundamentals - from design to testing - as well as all connector and interconnection technologies and all types of electronics systems, providing - for the first time in any book - an integrated set of data and guidelines for packagers to use.

## Homemade Lightning 2nd Edition

R A Ford

McGraw-Hill

If you're searching for an electrostatics book that doesn't insult your intelligence and isn't over your head, look no further. Entertaining, instructive, and challenging, *Homemade lightning* is the only comprehensive electrostatics book filled with useful projects for serious hobbyists, students, inventors and experimentors. Updated and expanded, this edition provides you with newly discovered information on electrostatic generators and complete, step-by-step instructions for building different types of generators, including Wimshurst and Van de Graaff. Featuring beautiful illustrations from turn-of-the-century patent applications, the book also discusses Victorian era electrostatic generator design and provides hard-to-find information on electrical anomalies.

## Microchip Fabrication

Peter Van Zant

McGraw-Hill

This one-step guide covers the entire process of microchip fabrication, from semiconductor material preparation to shipment of the finished and packaged device, using a plain English, low-math approach that avoids complex engineering theory. The new 3rd Edition details all the current issues, science, processes and materials involved. It proceeds from basic materials and process chemicals to chip packaging procedures, with more than 500 drawings and figures to make the material crystal clear. For anyone involved in semiconductor operations, marketing, quality control, training, education, or technical services, this easy-to-use guide is basic equipment.

## TAB Encyclopedia of Electronics For Technicians and Hobbyists

Gibllisco

McGraw-Hill

How do you set up a satellite TV system in your home? What should you know before buying a VCR or camcorder? How does a fax machine work? You'll find the answers to these and hundreds of other questions inside this information-packed volume. It covers virtually every aspect of hobby and consumer electronics in a language that is exceptionally clear, and offers just the right amount of detail while featuring an abundance of illustrations and real-world examples. It is, quite simply, the easiest-to-use and most complete popular electronics reference ever compiled.

## Electronics

by G. Waterworth

This book is primarily intended as a text for electrical engineering students, but is equally useful for the amateur hobbyist and is a companion volume to 'Electric Circuits', WZ07H. It describes all the common semiconductor devices, how they work and how they are used in various circuit schemes. The topics are arranged in the traditional order for semiconductor devices: diodes, BJTs, FETs and op-amps, followed by their applications in a variety of electronic subsystems such as amplifiers, oscillators, non-linear circuits, power amplifiers, regulated power supplies, power electronics systems, combinational and sequential logic circuits. The book uses up-to-date techniques and devices and includes questions on mirror, bootstrapping, the constant current source, the Miller effect, the cascade circuit, feedback amplifiers, differential amplifiers, instrumentation amplifiers, IC regulators, switch mode regulators, chopper control, programmable logic arrays, synchronous counter design, and logic hazard detection. 1991. 257 pages. 275 x 210mm, illustrated.

WZ17T 1	Electronics	£10.990	£10.990 NV

## Circuit Source Book 2

R A Penfold

Babani

This book will help you to create and experiment with your own electronic designs by combining and using the various standard "building block" circuits provided. Where applicable, advice on how to alter the circuit parameters is provided. The circuits covered are mainly concerned with signal generation, power supplies, and digital electronics, please refer to CIRCUIT SOURCE BOOK

1 for details of filters, amplifiers, voltage comparators etc. The topics covered in this book include:-

- ★ 555 oscillators
- ★ Sinewave oscillators
- ★ Function generators
- ★ CMOS oscillators
- ★ Voltage controlled oscillators
- ★ Radio frequency oscillators
- ★ 555 monostables
- ★ CMOS monostables
- ★ TTL monostables
- ★ Precision long timers
- ★ Power supply and regulator circuits
- ★ Negative supply generators and voltage boosters
- ★ Digital dividers, decoders, etc.
- ★ Counters and display drivers
- ★ D/A and A/D converters
- ★ Opto-isolators, flip/flops, noise generators and tone decoders, etc.

Over 170 circuits are provided, which it is hoped will be useful to all those involved in circuit design and application, be they professionals, students or hobbyists.

NP68A	Circuit Source 2	£4.990	£4.990 NV

## Practical Electronics Handbook

Third Edition by Ian Sinclair

This book has been designed to include, within a reasonable space, most of the information which is useful in electronics together with brief explanations which are intended to serve as reminders rather than instructions. The book is not, of course, intended as a beginner's guide to the whole of electronics, but the beginner will find much of interest, as well as a compact reminder of electronic principles and circuits. The constructor of electronic circuits and the service engineer should find the data in this book of considerable assistance. The professional design engineer will also find items of frequent use, which are usually only available in collected form in much larger volumes. 1992. 340 pages. 216 x 138mm, illustrated.

WG01B	Book NB447	£14.990	£14.990 NV

## Newnes Electronic Engineer's Pocket Book

by Keith Brindley

This pocket book now includes the latest aspects of semiconductor technology, namely LSI integrated circuits and microprocessors and their support chips, as well as operational amplifiers and communications devices. Commencing with electron theory, semiconductors, manufacture of semiconductor devices and ICs, the book goes on to illustrate essential circuit design for amplifiers and oscillators for most applications, AF and RF. A large proportion of the book is given over to digital techniques and computer systems and their

construction, optoelectronics, servo and control mechanisms and power supplies. 1993. 315 pages. 196 x 95mm, illustrated.

## Understanding Electrical & Electronics Maths

Second Edition by Owen Bishop

People who find maths difficult often have problems grasping electrical and electronics theory. This book has been written for enthusiasts and students taking electronics or electrical engineering courses up to and including HNC/HND and first year degree level, and explains the mathematical principles underlying their subject. The first part of the book deals with elementary maths, filling the 'gaps' between basic school maths and more intensive study while the second part deals with more advanced topics. 'Test yourself' questions are provided at each stage to reinforce the lessons learned. 1994. 316 pages. 245 x 190mm, illustrated.

Retail Unit Price each (inc. VAT).

## Understanding the Mathematics Of Electronics

by F. A. Wilson

Bernard Babani Books

A book for all those interested in or having a need for mathematics. It is biased slightly towards electronic engineering in the worked examples, but this need not deter those who have other interests. The text starts in a very elementary way on the assumption that many of us, equipped as we are with electronic calculators, may have forgotten how even the simplest of calculations are carried out. Progress is then through general mathematics up to a short skirmish with calculus. To some, mathematics is the most enjoyable of subjects, accordingly the text has been designed for the greatest ease and interest, and hopefully help to the reader. 1996. 160 pages. 178 x 111mm, illustrated. British book.

RQ23A	Pract Elec Calcs	£3.950	£3.950 NV

## Further Practical Electronics Calculations and Formulae

by F. A. Wilson

**Bernard Babani Books**

A companion volume to the original reference book Practical Electronics Calculations and Formulae, this version continues on from where the other finishes. Where the first book deals with components, elementary circuit analysis, networks and measurements, this book encompasses many aspects of electronics where a knowledge and familiarity of the appropriate formulae is essential for a fuller understanding of the subject, in order to achieve the desired results. Written in the same style as the first volume, but which it does not replace, this is a practical workshop manual. 1986. 464 pages. 178 x 111mm, illustrated.

## Electronic Circuits Pocket Book

Volume 1

by Ray Marston

This information packed book is a single-volume applications guide to the most popular and useful linear ICs, and presents a total of 625 diagrams, tables, and carefully selected practical circuits, backed up by over 50,000 words of highly informative text. It deals with many strictly linear ICs such as op-amps, audio preamplifiers, power amplifiers, signal conditioners and power supply regulators, etc., as well as various 'hybrid' configurations, which use a mixture of linear and digital devices, such as the 555 timer IC, bargraph display drivers, CCD delay lines, function and waveform generators, phase-locked-loops (PLLs), and power control ICs. Each subject is treated in an easy-to-read, concise, highly practical and non-mathematical manner. Great emphasis is placed on practical 'user' information and circuitry throughout.

and most of the ICs and other devices used in the practical circuits are modestly priced and readily available, with universally recognised type numbers. 1991. 336 pages. 197 x 95mm, hard cover, illustrated.

## Electronic Circuits Pocket Book - Volume 2

by Ray Marston

**Newnes**

This volume complements the best-selling volume one, and is produced in the same informative style. Covering passive electrical components, transducers and simple discrete semiconductor devices, this book has a total of 670 diagrams, tables and carefully selected practical circuits. The informative text explains the basic features and important details of modern passive components such as resistors, capacitors, inductors, switches etc., as well as relays, loudspeakers, 'phones, diodes, transistors, SCRs and TRIACs etc. These devices form the basic building blocks on which modern electronics circuits are based. The text is non-mathematical and highly practical, and is aimed at engineers, technicians, students and experimenters who can build a design directly from a circuit diagram. 1993. 375 pages. 197 x 95mm, illustrated.

## Newnes Electronics Toolkit

by Geoff Phillips

If you've ever wished for a concise and comprehensive guide to electronics concepts and rules of thumb, look no further. You've just found it! In this book the author makes use of his 30 years in the industry to draw together the basic information that's constantly in demand. The result is a handy 'workmate' that presents the basic facts, tips, data and examples of best practice in a practical guide that'll act as memory jogger, tutor and reference source. 1993. 158 pages. 234 x 155mm. Illustrated.

## The Circuit Designer's Companion

Second Edition

by Tim Williams

Electronic circuit design can be divided into two areas: designing a circuit that will fulfill its specified function and designing the same circuit so that every production model will fulfill its specified function reliably over its lifetime. This book is aimed at helping those people responsible for, or with an interest in, the second area. It covers grounding, PCB design and layout, the characteristics of passive and active components, linear ICs, logic circuits, power supplies and much more, all with the stress on keeping within production and costs constraints.

## Principles of Transistor Circuits

by S. W. Amos

Although integrated circuits (ICs) have widespread applications, the role of the discrete transistor is undiminished whether used in building blocks or as practical solutions to design problems. This is particularly relevant when appreciable power output or high voltage is required. The book is written in a clear and detailed way, and includes the very latest devices such as laser diodes, Trapat diodes, optocouplers and GaAs transistors, as well as the latest techniques for line output stages and switch mode power supplies. This latest edition includes circuit techniques covering current-dumping amplifiers, bridge output stages, dielectric resonator oscillators, crowbar protection circuits, SHF amplifiers in satellite receivers, video clamps, picture enhancement circuits, motor drive circuits in video recorders and camcorders etc., and much more. 1994. 400 pages. 215 x 134mm, illustrated.

## Motorcycle Electrical Manual

Second Edition

by Tony Tranter

Haynes

This comprehensive manual explains how the electrical systems work, troubleshooting, and how to fix electrical gremlins quickly and effectively when faults develop, so that your motorbike retains a reliable temperament. And you do not need to have prior experience in electrics, for this book begins with a description of the basic principles before launching into the deep end of magnetos, electronic ignition, ABS brakes, traction control and three-phase alternators! These parts, and all others of a motorcycle's electrical system, are catered for by this manual, together with sections on wiring, tools, testing and theft deterrents. 1993. 204 pages. 270 x 210mm, illustrated.

## Electronic Testing and Inspection

by Keith Brindley

This book has been produced in association with the Engineering Training Authority, and can be used as a reference for trainees and students, or as a back-up reference for more experienced staff. The book details many aspects of test engineers' everyday tasks, including sections on tools and equipment, basic tools, meters, practical use of meters, insulation test meters, bridges, signal generators, oscilloscopes, timer counters, AF power meters and power supply units. On the inspection side there are details given for inspection techniques, final inspection and component identification. In addition to all the information that is provided on testing and inspection, there are sections on CEN, ISO, IEC and CENELEC specifications and standards, in order for the test engineer to keep within the appropriate guidelines for quality, safety, and for working practices. The book is packed full of hints, tips and precautions to allow the electronic test engineer to do his job with the highest level of safety and accuracy. 1994. 289 pages. 198 x 90mm, illustrated.

## Reliability of Electronic Packages and Semiconductor Devices

Giulio Di Giacomo

McGraw-Hill

Learn the latest methods for dealing effectively with the failure mechanisms that greatly reduce the useful life of semiconductor components in microelectronic packages. This first-of-its-kind guide cuts across different technologies and materials to give you a practical and reliable model for predicting and extending component lifetimes. Written by one of the top experts in the field, this

book offers you in-depth coverage of empirical modelling for a wide range of failure mechanisms, including interconnection fatigue, solder creep, electromigration, thermomigration, current leakage, and more.

## An Introduction to Microwaves

by F. A. Wilson

Bernard Babani Books

This is an introductory book and no background in microwave technology is needed, although some elementary electronics experience is assumed. The mathematics required are little more than ordinary algebra. Organisation of the book is straightforward. Brief reminders and technical explanations of those facets of electronics important for an appreciation of microwaves are followed by chapters on microwave generators and amplifiers. This leads on to the practical uses of microwaves in communications generally, mobile communication and television. The book ends with a look at radar and heating, and includes notes on the domestic microwave cooker. 1992. 160 pages. 178 x 111mm, illustrated.

## An Introduction to the Electromagnetic Wave

by F. A. Wilson

Bernard Babani Books

The electromagnetic wave has been on and around the earth (and everywhere else) since time immemorial. We cannot expect to cover all of its antics in such a small book, but we can at least make some inroads on the subject and certainly gain an appreciation of this inexplicable wonder. Our subject is a complicated one so the first chapters are needed to discuss its' nature and how it behaves. Then in a more practical way the later chapters centre on radio waves in their freedom in ground, sky and satellite applications, followed by waves not so free in waveguides, optical fibres and heating. Altogether a round-up of the better known escapades of the electromagnetic wave requiring no more than elementary mathematics, but presuming that the reader has some basic knowledge of electronics. 1993. 120 pages, 178 x 111mm, illustrated. British book.

### Analogue

## Analog Circuit Design, Art, Science and Personalities

Second Edition

Edited by Jim Williams

This is a collection of essays from 24 contributors (all experts in their field in the USA), brought together to provide a tour through the world of analogue design and combining theory and applications with the philosophies behind the design process. The topics covered include the definition of analogue design, the making of an analogue designer, design intuitions and insights and a section for techniques, tips and applications. The book provides a wealth of practical working circuits together with anecdotes from each author's experience. 1993. 390 pages. 250 x 175mm. Illustrated. American book.

## Oscillator Design and Computer Simulation

Randell W Rhea

McGraw-Hill

Here is an essential tool for keeping up with the rapid growth in communications technology. You'll find a clear, step-by-step approach to the design of oscillators for a variety of applications, including wireless voice and data communication, instrument, consumer, satellite, and other RF and microwave systems. Filled with real-life examples and case studies, the Second Edition of this vital resource offers you the basic skills needed to develop your own state-of-the-art designs - instead of merely modifying previous circuits.

## Operational Amplifier User's Handbook

by R. A. Penfold

Bernard Babani Books

This book deals with the properties and applications of modern operational amplifiers. Chapter one covers the standard operational amplifier building blocks, with the emphasis on the improvements that can be made by using modern devices. Chapter two deals with practical applications using the devices, such as very low noise, precision DC, high output current and wide bandwidth types. Many practical circuits are included such as low noise tape and RIAA preamplifiers, audio power amplifiers, DC power controllers, the audio millivolt meter, temperature monitor and many more. A useful and invaluable book for all those involved in electronics.

1994. 128 pages. 178 x 111mm, illustrated.

## Analog Electronics Analog Circuitry Explained

by Ian Hickman

Many young designers are lured away from fundamental electronics to the more 'glamorous' digital work. Yet there are still many simple requirements for which a purely analogue realisation is cheaper and more reliable than a microprocessor based solution. The author includes many examples from his large collection of circuits built up over many years, selected for their usefulness in a wide range of applications. They are practical analogue circuits, complete with component values in many cases, representing over a quarter of a century of working experience packed into a single volume. But the book is also completely up-to-date and with the latest developments and techniques, and will enable the reader to acquire an easy familiarity with the circuitry and how it works - and also why it fails, if it should do so. The book is intended for anyone already involved in electronics, either as a hobby or professionally - amateurs, students, technicians,

graduates and even chartered engineers will all benefit from reading this book. 1993. 342 pages. 245 x 189mm, illustrated.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WT07H2	Analog Electronics	£18.990	£18.990 NV

## Practical Electronic Filters

by Owen Bishop

Bernard Babani Books

Filters play a vital part in almost all electronic circuits, this book deals with the subject in a non-mathematical way. It reviews the main types of filter, explaining in simple terms how each type works and how it is used. The book also presents a dozen filter-based, practical projects with applications in and around the home or in the constructor's workshop. These include a number of audio projects such as a rhythm sequencer and a multi-voiced electronic organ. Project descriptions include circuit diagrams, explanations of their operation, and detailed instructions for building them. The book is a practical step-by-step guide to designing simple filters for a wide range of purposes, with circuit diagrams and worked examples. 1991. 208 pages. 178 x 111mm, illustrated. British book.

Retail Unit Price each (inc. VAT).

## Digital

### Understanding Digital Technology

by F. A. Wilson

Bernard Babani Products

Initially, digital technology looks relatively simple, but there is more to it than at first might be imagined; and we have come to accept that it is here to stay, and to some extent is taking us over! This probably happened with the arrival of the computer several years ago. But at the same time, digital technology was also creeping into the telecommunications world, to such an extent that thousands of digital channels are accommodated on a single hair-width glass fibre. This book first examines what this technology has to offer, and then considers its arithmetic and how it can be arranged for making decisions in so many processes. This is followed by a look at the part played in IT, especially in modern transmission systems and television. The mathematics at all times is kept to a minimum. An interesting delve into the digital world both for the beginner and those who need some revision or updating. 1996. 150 pages. 178 x 111mm, illustrated.

### Digital Systems Reference Book

Edited by B. Holdsworth and G. R. Martin

The Digital Systems Reference Book has been designed to provide comprehensive coverage of digital systems for everyone working in the digital field, including engineers, academics and scientists. It has five sections - Fundamentals, Devices for Digital Systems, System Design & Techniques, System Development, and Applications - each made up of self-contained chapters written by an acknowledged expert from within industry or academia.

### Practical Digital Electronics for Technicians

by Will Kimber

For engineers, for whom 'practice' is a way of life, the current emphasis on course work seems an obvious and natural feature of effective training. With this in mind, this book gives an explanation of the basic theory of digital techniques reinforced by 40 practical exercises. These exercises can be carried out with equipment that is normally readily available in education departments running electronics courses. The book is primarily aimed at students studying for BTEC Electronics at levels NII/NIII, but it will also be applicable to those students studying the optional Electronics unit of the GNVQ in engineering at intermediate and advanced levels. The exercises are laid out in a 'cookbook' style, and are intended to provide the opportunity to become familiar with a wide range of digital integrated circuits, and to gain a thorough understanding of the way digital systems work.

### Digital Logic Gates and Flip-Flops

by Ian R. Sinclair

This book is intended for enthusiasts, students and technicians, and seeks to establish a firm foundation in digital electronics by treating the topics of gates and flip-flops thoroughly. This is not a constructor's book in the sense of presenting circuits to build and use, it is for the user who wants to design and troubleshoot digital circuitry with considerably more understanding of principles than the constructor, and who wants to know more than a few rules of thumb about digital circuits. Topics such as Boolean algebra and Karnaugh mapping are explained, demonstrated and used extensively, and more attention is paid to the subject of synchronous counters than to the simple but less important ripple counters. No background other than a basic knowledge of electronics is assumed, and the more theoretical topics are explained from the beginning, as also are many working practices. The book concludes with an explanation of microprocessor techniques as applied to digital logic.

1989. 198 pages. 216 x 138mm, illustrated.

### Circuit Source Books

#### Diode, Transistor and FET Circuits Manual

by R. M. Marston

This is primarily a manual of circuits based on 'discrete' semiconductor components such as diodes, transistors, FETs and associated devices, and as such it presents a total of over 340 carefully selected and outstandingly useful practical circuits, diagrams, graphs and tables. It deals with its subject in an easy-to-read, down-to-earth, non-mathematical but very comprehensive style. The manual is specifically aimed at the practical design engineer, technician and experimenter, but will also be of interest to the electronics student and the amateur.

#### Practical Electronic Sensors

by Owen Bishop

Bernard Babani Books

This book describes various types of sensors and the ways in which they are used to monitor almost every aspect of the environment, how each type works and how its signals are processed electronically to produce a meaningful result. A dozen constructional projects, with functions which apply to the domestic environment in and around the home, and include: sunshine duration meter; temperature alarm; passive infra-red intruder; car/bicycle alarm; wind direction indicator; inductive proximity detector; sound level meter; sound controlled switch; tachometer; gas alarm; water level controller; and model speed controller.

1991. 192 pages. 178 x 111mm, illustrated.

#### Instrumentation and Test Gear Circuits Manual

by R. M. Marston

Primarily, this book is a manual of modern instrumentation and test gear circuits that will be of immense value to the industrial, commercial, or amateur electronics engineer or designer. This book is filled with nearly 500 varied and extremely useful, carefully selected practical circuits, diagrams, graphs and tables. The diverse range of practical circuits covers: attenuator and filter circuits; basic meter and multimeter circuits; electronic analogue meter circuits; digital panel meter circuits; waveform generator circuits; scope trace doubles; timebases; digital frequency meters; power supply circuits; and

many more. The majority of the semiconductors specified in the designs are reasonably priced and readily available.

## Circuit Source – Book 1

by R. A. Penfold

Bernard Babani Books

This book has been written to help the reader create and experiment with their own electronic designs by combining, and using, the various standard building block circuits described in the book. To widen the possible use of some circuits, advice is given on how to alter the circuit parameters. Many simple projects can be built up from standard circuit blocks, and this book will be invaluable to those who are embarking on an electronic project design. To the more experienced circuit designer, it will be a very useful reference source, for all the circuits are tried and tested, and are not just theoretical circuits. Example values are given, together with advice on how to alter the values of components so as to alter the circuit parameters, e.g., to vary the value of a filter frequency, or amplifier gain etc. Explanation of circuit block functions and what they do, is not given in great detail, for the book is only intended for those who have some knowledge of electronics. However, no advanced mathematics is required in order to make use of this book.  
A very useful and handy book for all professionals, students and hobbyists to have in their book collection.  
1993. 192 pages. 178 x 111mm, illustrated. British book.

† = While Stocks Last

## Circuit Source – Book 2

by R. A. Penfold

Bernard Babani Books

This book provides a number of electronic circuits which make useful 'building blocks' for designers of electronic projects. The book is divided into four chapters with the first chapter covering oscillators and includes 555 astables, op amp oscillators, sinewave and function generators, VCOs, CMOS oscillators and RF oscillators. Chapter two covers monostables and timers, and includes precision timers. Chapter three discusses digital circuits and covers A-to-D, and D-to-A circuits as well as many other types of digital circuits. Finally, chapter four describes power supplies. The book is really only intended for those that have some background knowledge in electronics. However, no advanced mathematics is required in order to make use of this book.

Over 170 circuits are provided which should provide a useful reference source for those involved in circuit design and applications, whether they are professional, student or a keen hobbyist.  
1993. 192 pages. 178 x 111mm, illustrated.

## Power Control Circuits Manual

by R. M. Marston

Newnes

Electronic Power Control techniques are used to control (either manually or automatically) the brilliance of lamps, the speed of electric motors, the temperature of heating elements, the loudness of audio signals and so on. This control can be achieved using electro-mechanical means via switches and relays, or by electronic components such as transistors, SCR's, TRIAC's and power IC's. This book takes an in-depth look at the whole subject of electronic power control, and presents the reader with a vast range of useful circuits and diagrams. Subjects covered include basic principles, switch and relay circuits, CMOS switches and selectors, AC power control and DC power supply methods, and including audio power amplifiers and some used for in-car systems. The manual is primarily aimed at the practical design engineer, technician and experimenter as well as the electronics amateur enthusiast.  
1990. 206 pages. 214 x 136mm, illustrated.

## Power Electronics Handbook – Components, Circuits and Applications

by F. F. Mazda

The aim of this book is to provide the power electronics engineer with all the information to design power circuits for a variety of applications. It describes the characteristics of power semiconductor devices, and how they are used in power circuits.

The book sets out to give the maximum amount of information in a concise form, with the emphasis being on the practical rather than the theoretical. The book is conveniently divided into three parts. Part One, components, covers power semiconductor devices, thermal design, power semiconductor components, EMC, and power semiconductor protection. Part Two, circuits, discusses static switches, AC line control, phase-controlled rectification and inversion, direct AC frequency converters, forced commutation techniques, DC to DC converters and DC link frequency converters. Part Three describes some of the applications of power semiconductor circuits, such as power supplies, electrical machine control, heating and lighting and electromechanical applications. A list of symbols used, a glossary of terms and a bibliography are provided in the book. The book is profusely illustrated and will be of great interest to the power electronics engineer and student.  
1993. 418 pages. 231 x 154mm, illustrated.

## Electronic Modules and Systems for Beginners

by Owen Bishop

Bernard Babani Books

Forget having to 'reinvent the wheel' as it were, and design electronic systems using already established and developed circuit designs. Many oscillators, bistables, monostables and amplifier stages use time honoured techniques that are known to work. This book describes over 60 electronic circuit modules; how they work, how to build them and how to use them. In the process of working with these 'building blocks' you will learn the basic fundamentals of many established designs. Many modern electronics engineers are systems, not circuit, designers. Become such a systems designer and combine the modules together to make hundreds of different electronic systems, both analogue and digital. To show you how over 25 actual electronic systems are described in detail, covering such diverse applications as timing, home security, measurement, audio, including a simple radio receiver; games and remote control. Although a book aimed at beginners, introducing the principles and practice of electronics, there are plenty of circuit ideas for the more experienced constructor too.  
1989. 208 pages. 178 x 111mm, illustrated.

## The Maplin Electronic Circuits Handbook

by Michael Tooley

This book contains a unique collection of practical working circuits together with supporting information so that circuits can be produced in the shortest possible time and without recourse to theory. The circuits have been thoroughly tested and, wherever possible, a range of commonly available, low-cost components is used. The circuits can be readily modified and extended by the reader to meet his or her own application. Related circuits are grouped together and cross referenced within the text and an index, identifying which common types can be interconnected and produce more complex systems. As far as is possible a common range of supply voltages, signal levels and impedances have been adopted. The book assumes that the reader has an elementary understanding of electrical principles and is familiar with common units and quantities. A selection of Maplin projects is included. 1990. 288 pages. 246 x 189mm, illustrated.

## Simplified Design of Micropower and Battery Circuits

by John Lenk

This book provides a simplified, step-by-step approach to micropower and supply cell circuit design. No previous experience in design is required to use the techniques described, thus making the book well suited for the beginner, student, or experimenter as well as the design professional. The book concentrates on the use of commercial micropower ICs by discussing selections of external components that modify the IC-package characteristics. The basic approach is to start design problems with approximations for trial-value components in experimental circuits, then to vary the component values until the desired values are produced. Although theory and mathematics are kept to a minimum, operation of all circuits is described in full. 1995. 240 pages. 234 x 152mm, illustrated.

## Practical Oscillator Circuits

by A. Flind

Bernard Babani Books

One of the most frequently used electronic 'building blocks' is the oscillator, and the aim of this book is to provide a rich source of these for enthusiasts to experiment with and perhaps use in their own designs.

Extensive coverage is given to circuits using capacitors and resistors to control frequency. Designs using CMOS, timer ICs and Op-amps are all described in details, with a special chapter on 'waveform generator' ICs. Reliable 'white' and 'pink' noise generator circuits are also included. Various circuits using inductors and capacitors are covered, with emphasis on stable low frequency generation. Some of these are amazingly simple, but are still very useful signal sources. Crystal oscillators have their own chapter. Many of the circuits shown use readily available special ICs for simplicity and reliability, and offer several output frequencies. Finally, complete constructional details are given for an audio sinewave generator, which will prove to be a most useful piece of test equipment for any enthusiast's workshop. 1996. 133 pages. 178 x 111mm, illustrated. British book.

## Timer/Generator Circuits Manual

by R. M. Marston

This book is mainly concerned with waveform generator techniques and circuits. Waveform generators are used somewhere or other in most types of electronic equipment, and thus form one of the most widely used classes of circuit. They may be designed to produce outputs with sine, square, triangular, ramp, pulse, staircase, or a variety of other forms. The generators may produce modulated or unmodulated outputs, and the outputs may be of single or multiple form. The book is divided into 11 chapters presenting over 300 practical circuits, diagrams and tables. These comprise basic principles; sine wave generators; pulse generators; 'timer IC' generator circuits; triangular and sawtooth generators; multiple waveform generation; waveform synthesiser ICs; special waveform generators; phase-locked loop circuits; and miscellaneous '555' circuits. 1990. 278 pages. 215 x 138mm, illustrated.

## A Beginner's Guide to CMOS Digital ICs

by R. A. Penfold

Bernard Babani Books

This handy, inexpensive little book introduces the reader to the basics of simple logic circuits and then progresses to specific CMOS logic integrated circuits. No previous knowledge of logic circuits is assumed, but an understanding of general electronics is necessary. The circuits described in the book are practical applications of CMOS logic, and cover such applications as oscillators, monostables, flip/flops, binary counters, binary dividers, decade counters and display drivers. 1993. 128 pages. 178 x 111mm, illustrated.

## Modern CMOS Circuits Manual

by R. M. Marston

This manual examines operating principles and practical applications of modern medium-speed and 'fast' CMOS digital ICs. 470 carefully selected circuits, diagrams, graphs and tables are supported by the informative 'how to' text and by detailed descriptions of more than 120 modern CMOS ICs and their practical applications. Using clear and comprehensive language, each chapter begins with an explanation of the basic principles of the subject followed by the presentation of circuits and useful data. Although ideal for practical design engineers and technicians, this book will doubtless also be of great interest to hobbyists and students of electronics. 1995. 288 pages. 233 x 153mm, illustrated.

## Modern TTL Circuits Manual

by R. M. Marston

Today, digital electronics is dominated by two basic logic technologies - TTL and CMOS - both of which are used in the most widely used range of high-speed, general-purpose digital ICs, the '74' series. This handy and unique book takes an in-depth look at the 74 series of ICs, with particular reference to the TTL range of devices, but mentioning modern CMOS types where they are more advantageous to use. Packed with over 360 useful and carefully selected circuits, diagrams, graphs and tables, this book will become an indispensable aid to all practical design engineers, technicians, and experimenters. However, the comprehensive text is easy to read and mainly non-mathematical, and so will be of great interest to all amateurs and students of electronics. 1994. 227 pages. 215 x 138mm, illustrated.

## A Beginners Guide to TTL Digital ICs

by R. A. Penfold  
**Bernard Babani**

Logic circuits are now a part of everyday life with practically every household equipped with numerous gadgets that contain TTL Digital ICs. Getting to grips with logic circuits, though, can be difficult as many of the fundamental concepts can seem rather abstract. This book takes the beginner through the basic concepts of logic circuits and explains the functions, characteristics and uses of TTL Digital ICs. The emphasis is on the practical treatment of the subject and all of the circuits are based on real world TTL ICs and have been chosen to demonstrate their use in practical applications. 1993. 150 pages. 178 x 110mm. Illustrated.

## Optoelectronics

### The Laser Cookbook

by Gordon McComb

This book gives you the opportunity to investigate, first hand, a relatively new and evolving science. With this book you can create and experiment with simple to advanced level lasers that have real, practical applications! The 88 laser based projects presented here are geared toward the workshop experimenter on a limited budget. Spanning a wide range of disciplines, the projects vary from experimenting with laser optics and constructing a laser optical bench to using lasers for light shows, gunnery practice, even beginning and advanced holography. **Warning:** This is an American book and references to mains voltages do not apply in the UK. 1988. 404 pages. 234 x 189mm, illustrated. American book.

### Lasers, Ray Guns, and Light Cannons

Gordon McComb

**McGraw-Hill**

Put on a professional-level laser light show, create holograms, and perform dozens of other fascinating and fun experiments with the simple instructions in this magic-packed book. Renowned electronics writer Gordon McComb shows you how to build more than 88 exciting projects with inexpensive, easily obtained components and step-by-step instructions. Laced with fascinating scientific history, this book of field-tested projects is organised to facilitate your own creative construction! Module organisation makes it easy to invent and construct new projects galore. Full appendices give you parts sources, suggested reading, and a glossary.

### 35 Opto-Display Terminal Block Projects

R Bebbington

**Babani**

Electrical and electronic projects that respond to light, or produce it, have always been popular with constructors. However, the development of multi-coloured light-emitting diodes (LEDs) with lower power consumption than bulbs, has opened up a fascinating new opto-display field, particularly suited to beginners in electronics. To encourage newcomers, and anxious parents, none of the projects require hot soldering irons or high voltages. So even young children can screw the components together on terminal blocks, apply a low-voltage battery and get things working. After an introductory chapter on opto-devices and components, the projects are graded so that even a newcomer to electronics can score successes with

a light telegraph, flashing lapel badge, magnetic detector, etc., before tackling more ambitious projects such as a dusk detector, novel games, suspenseful electronic dice, or twinkling Christmas decorations. Many of the projects serve to provide invaluable practical experience to complement the theory of the GCSE Electronics course. Finally, the projects have been designed, using discrete components and popular ICs in a variety of circuits that will hopefully widen the constructors experience.

### An Introduction to Light in Electronics

F A Wilson

**Babani**

Taken for granted by us all perhaps, yet this book could not be read without it, light plays such an impressive role in daily life that we may be tempted to consider just how much we understand it. We most certainly appreciate its existence and although it has been around for a long time and now is the subject of much research, there is further to go if all the ifs and buts are to be eradicated. The book has been written with the general electronics enthusiast in mind, not the expert, although many of these dedicated people may enjoy some light refreshment.

## Projects

### Fault-finding Electronic Projects

by R. A. Penfold  
**Bernard Babani Books**  
We have all built circuits from magazines and books only to find that they did not work correctly, or at all, when first switched on. The aim of this book is to help the reader overcome just these problems, by showing how and where to start looking for the common faults that are responsible for most project failures. Advice on 'weeding out' the more difficult faults is also provided. Chapter 1 deals with mechanical faults such as tracing 'dry' joints, short circuits, broken PCB tracks, etc. The construction and use of a tristate continuity tester is also covered. Chapter 2 deals with linear circuits, and includes a detailed look at using a multimeter to make voltage checks. Signal tracing techniques are also covered, and a practical signal tracer design is included. Chapter 3 covers the construction of a logic probe, and fault finding methods for projects that are based on CMOS or TTL logic devices. Chapter 4 covers ways of testing a wide range of electronic components, such as resistors, capacitors, operational amplifiers, diodes, transistors, SCRs and triacs, with the aid of only a limited amount of test equipment. A useful logic integrated circuit tester project is also featured. 1997. 160 pages. 178 x 111mm, illustrated. British book

## Practical Opto-Electronics Projects

By R.A.Penfold  
**Bernard Babani Books**  
Opto-electronics represents one of the most fascinating aspects of modern electronics and in recent years the range of opto devices available to the electronics enthusiast has expanded and changed considerably. This book provides practical designs which use a wide range of opto-electric devices, from the old cadmium sulphide cells and torch bulbs to modern high power infra-red emitters, fibre-optic devices and pyro sensors. The designs are all within the capabilities of the average electronic project constructor, with a few designs suitable for the absolute beginner. The projects are divided into three main types - photographic; those that use infra-red devices; and those that are based on modulated light transmission. Each project includes a circuit description, parts list and construction details where applicable. 1994. 160 pages, 178 x 111mm, illustrated.

## 45 Simple Electronic Terminal Block Projects

by R. Bebbington  
**Bernard Babani Books**  
This book offers a wonderful easy way for all newcomers to get started in the fascinating hobby of electronics, by using 45 easy-to-build electronic projects that can be constructed by an absolute beginner. The projects are build-on terminal blocks using only a screwdriver and other simple hand tools - no soldering is required. In minutes the projects can be screwed together by following the layout diagrams and then unscrewed if desired to make new circuits. A theoretical circuit diagram is also included with each project to help broaden the constructors' experience and knowledge. The projects cover a wide range of interests including sound and music, entertainment, security devices, communications, and test and measurement. 1995. 150 pages. 178 x 111mm, illustrated

## 30 Simple IC Terminal Block Projects

by R. Bebbington  
**Bernard Babani Books**  
Constructors in electronics, particularly youngsters and beginners, may think that the step from discrete components to integrated circuits is a 'bridge to far'. Here are 30 easy-to-build IC projects that will prove otherwise! Continuing the minimal soldering, screwdriver technique of 45 Simple Electronic Terminal Block Projects, this IC version forms a natural sequel. A glance through circuit and layout diagrams included with each project should convince beginners that most of the circuit complexity has been taken care of by the ICs. Requiring few additional components, this 'black-box' technique enables and encourages the constructor to progress to more advanced projects. In an attempt to cover a wide range of interests with a restricted number of ICs and components, subject titles for the chapters include:  
• Timer projects  
• Op-amp projects  
• Counter projects  
• Nand-gate projects  
• Miscellaneous projects  
Provides a safe and simple integrated circuit solutions for games, security, communications, music and other projects. 1996. 128 pages. 178 x 111mm, illustrated. British book.

## Maplin Auto Electronics Projects

by Maplin Contributors

**Newnes**

Many car owners find the mechanics of their vehicle relatively familiar ground, but struggle when faced with the electronics. Increasingly vehicle design depends on a bewildering array of more advanced electronics. This book helps the reader to understand more about car electronics and its workings, and therefore should help with fault diagnosis. It includes the recent developments such as electronic ignition, described in a way that is accessible to anyone with a basic grasp of electricity.

In addition this book contains a collection of projects, each a practical, useful and proven design. These projects provide an array of affordable solutions from a digital tachometer, a lights-on warning indicator and some basic alarm and audio designs.

## Practical Electronic Model Railway Projects

by R. A. Penfold

Bernard Babani Books

Electronic projects for use with model railways are a relatively modern development, but these fascinating circuits have now developed to such a degree that it is possible to produce layouts that have an amazing degree of realism in both appearance and sound. The aim of this book is to provide the model railway enthusiast with a number of useful but reasonable simple projects that are easily constructed from readily available components. Stripboard layouts and wiring diagrams are provided for each project. The projects covered include: Constant voltage controller; Pulsed controller; Push-button pulsed controller; Pulsed controller with simulated inertia, momentum and braking; Automatic signals; Steam-whistle sound effect; Two-tone horn sound effect; Automatic two-tone horn effect; Automatic chuffer. The final chapter covers the increasingly popular subject of using a computer to control a model railway layout, including circuits for computer based controllers and signalling systems. 1996. 192 pages. 178 x 111mm, illustrated. British book.

## Simple Sensor Terminal Block Projects

R Bebbington

Babani

Sensors are like the 'eyes, ears and nose' of an electronic system. They come in many forms including contact, light, heat, sound, magnetic, motion, resistance and voltage-operated sensors, all of which are covered by projects in this book. These constructional projects cover a diverse range of topics, so whatever your interests the 'pick-and-mix' arrangement between the various types of sensor and circuits offers plenty of flexibility for the adventurous constructor. As with the other 'Terminal Block' books in this series, the easy-to-build and virtually no soldering construction technique makes the projects particularly suitable for schools and young beginners.

## Electronic Projects for the Garden

by R. Bebbington

Bernard Babani Books

Gardening books will tell you all you need to know about the care of plants but you'll find very little about the increasing role that electronics can play in your garden. This book gives easy to follow instructions (with good, clear diagrams) for the construction of a wide variety of devices - covering 19 different applications from simple moisture and temperature monitors to security systems for outhouses, automatic plant waterers and electronic scarecrows. For those with more interest in gardening than electronics, it starts with a welcome layman's guide that takes you gently through the basics. 1995. 146 pages. 178 x 110mm. Illustrated.

## Digital Electronics Projects for Beginners

by Owen Bishop

Contains 12 digital electronics projects suitable for the beginner to build with the minimum of equipment. The projects cover a wide range of topics from instrumentation to home security, and a few 'fun' projects as well. With just one exception, all the projects are battery powered, and so are completely safe for the beginner. The introductory chapter and the detailed explanations of the workings of each project make this not just a book of practical, useful projects, but also an Introduction of the simplest basic theory and applications of digital electronics. Each project is provided with a circuit diagram, a drawing of the stripboard layout and full construction details complete with instructions for testing the circuit at each stage. The appendix explains how to solder and how to build circuits on stripboard. 1990. 120 pages. 216 x 138mm, illustrated.

## Electronic Board Games

by R. Bebbington

A selection of 20 of the most popular novelty electronic board games are included in this handy little book. The nature of the electronic components means anybody from young to old can enjoy constructing circuits, testing and finally using them to play games. Simple components like LEDs, resistors, transistors and integrated circuits can be linked together either on strip or breadboard to produce working circuits in just minutes. By using safe components and voltages these projects are suitable and safe for the young. Some of the games involve skill while others involve decision making and leadership. As well as home use, these projects could be adapted for use in schools and colleges, where groups or teams could work together in building and testing them. The book is easy to read, and each separate game project is in a different chapter to keep all the relevant information together. A full component listing details all the required components, their values and circuit references. A great book for introducing first-timers to electronics, and providing fun for other constructors. 1994. 144 pages. 178 x 111mm, illustrated.

## Magic Electronic Projects

by R. Bebbington

Bernard Babani Books

The top hat and magic wand are familiar trademarks of the magician, but throw in a few electronic components and you have the ingredients for a 'magician extraordinaire'. This book offers some simple circuits that will add an electronic flavour to some of the basic tricks up the performer's sleeve as well as adding a few more. As light and sound are obvious manifestations of electrical and electronic circuits, these feature widely under such chapter headings as 'Light Fantastic', 'LED Astronomy' and 'Sound Stunts'. Most of the circuits are easy to construct and introduce the reader to series and parallel circuits; sensors, such as reed switches and light-dependent resistors; LEDs; multivibrator and Hartley oscillators; monostables, bistables and schmitt triggers; NAND-gates and decade counters. All the circuits are idea for beginners in electronics and/or magic, and as a very practical approach has

AN22G	Magic Electr Projcts	£4.950	£4.950 NV

## Practical Electronic Control Projects

by O. Bishop  
**Bernard Babani Books**

Explains electronic control theory in simple, non-mathematical terms and is illustrated by many practical projects suitable for the student or hobbyist to build. Shows how to use sensors as input to the control system, and how to provide output to lamps, heaters, solenoids, relays and motors. Also shows how to use control circuits to link input to output including signal processing, control loops and feedback.

Computer based control is explained by practical examples that can be run on a PC. For stand-alone systems, the projects use microcontrollers, such as the inexpensive and easy-to-use BASIC Stamp microcontroller. These projects are chosen to introduce and demonstrate as many aspects as possible of the programming language and techniques.

Containing 30 practical projects, this book is of interest to students and lecturers in technology departments of schools colleges and universities, as well as the home constructor.

1996. 198 pages. 178 x 111mm, illustrated. British book.

## Practical Electronic Timing

by Owen Bishop

This book is essentially a project book of practical electronic timing circuits, that employ several different types of specialised IC. Each group of projects has an introductory discussion highlighting the problems of timekeeping and the methods of solving such problems by using electronics.

There are projects that are suitable for beginners as well as the more experienced electronics constructor - the projects being suitably identified as either beginners, average or advanced. All the projects will operate from batteries, making them safe to build and operate - especially important for young beginners. In fact, there are several low-cost projects, that are specifically aimed at the beginner and younger enthusiast.

1993. 192 pages. 178 x 111mm, illustrated.

## 50 Circuits Using Germanium, Silicon & Zener Diodes

by R. N. Soar

**Bernard Babani Books**

This fascinating book contains 50 interesting and useful circuits, covering many different branches of electronics - using one of the simplest and inexpensive of components: the diode.

The book covers applications for germanium and silicon signal diodes, silicon rectifier diodes, and zener diodes. Ideal as a source of 'building block' circuits, around which complete designs can evolve. Where appropriate, easy-to-use formulae are provided to allow the user to calculate component values for their own application. A highly recommended addition for every engineer's and hobbyist's bookshelf. 1977. 62 pages. 178 x 111mm, illustrated. British book.

XW52G	Book BP76	£3.990	£3.990 NV

## More Advanced Power Supply Projects

by R. A. Penfold

This book is the companion volume to 'Power Supply Projects' and should be of interest to anyone who has a reasonable knowledge of power supply basics and would like to learn about recent developments and more advanced designs. The practical and theoretical aspects of the circuits are covered in some detail, and the reader is not assumed to have an in-depth knowledge of electronic circuit design. However it is recommended that any one who is not familiar with the fundamentals of power supply design and operation should obtain the introductory book first. Topics covered include switched mode power supplies, precision regulators, dual tracking regulators and computer controlled supplies. 1988. 96 pages. 178 x 111mm, illustrated.

Retail Unit Price each (inc. VAT).

## 50 Simple LED Circuits Book 2

R N Soar

**Babani**

Following the tremendous success of book number BP 42, 50 SIMPLE LED CIRCUITS, the author Mr R N Soar has devised and developed a further series of useful applications and circuits, covering many different branches of electronics, using the simple Light Emitting Diode (LED) and these are now published as Book 2. Book 2 in no way supersedes or replaces the original book but complements it, offering many more ideas and circuits to the reader. A useful book for the library of both beginner and more advanced enthusiasts alike.

## Practical Alarm Projects

R A Penfold

**Babani**

This book provides details of inexpensive but effective burglar alarms for the home constructor. Stripboard layouts and notes on construction are provided for all the circuits, so you do not have to be an electronics wizard in order to build them, in fact most of the projects are suitable for novices.

Included are:-

- ★ Switch activated alarm having exit and entry delays.
  - ★ Switch activated alarm with infra-red remote control.
  - ★ FM audio alarm generator.
  - ★ Portable alarm for protecting cases and bags.
  - ★ DC fibre-optic loop alarm.
  - ★ Ultrasonic breaking window sensor.
  - ★ Doppler shift ultrasonic sensor.
  - ★ Passive infra-red sensor.
  - ★ Twin beam infra-red broken beam detector.
  - ★ Mains power supply units.
- Contains all the information you need to build an effective alarm system to protect your home and valuables, in addition some of the projects are also suitable for use in boats and caravans.

## Hobby Books

### The Bike Book

by John Stevenson

With the resurgence of interest in the bicycle and, in particular, the emergence of the mountain bike, there is an increased demand for manuals explaining the best techniques to use for choosing, buying, riding and maintaining cycles. This book aims to cover every facet of all things biking, and you will quickly recoup the cover price as you learn how to

repair and upgrade your machine without having to resort to taking it to the bike shop. Having the knowledge to competently work on your cycle is a great boon, particularly if the machine suffers a mechanical malady during a cycle trip into deepest countryside, miles from anywhere! This book shows you how, and offers many useful tips to the novice and experienced cyclist alike.

1994. 240 pages. 269 x 210mm, illustrated

## Getting Started in Model Car Building

by Dennis Doty

While this book has nothing to do with electronics directly, it would however, be very useful for anyone interested in building radio controlled models for example. While concentrating on static model cars, the chapters constitute a complete guide to the materials and tools you will need, descriptions of various painting methods, and details on realistic finishing applications for both plastic and metal components, and includes hints and tips from an author having many years experience behind him, enabling you to produce authentically detailed models.

1989. 128 pages. 233 x 188mm, illustrated. American book.

Order Code	Type	Price each exc. VAT	inc. VAT each
W224B	Model Cars	£10.950	£10.950 NV

## Introducing Radio Control Model Boats

by Vic Smeed

The book covers all aspects - including radio control equipment, boats and competition classes, construction, power options, equipment installation, pre-launch checks and operation. A useful discussion of maintenance and fault finding concludes the book, which should ensure that the modeller does not have to wade out too far to deal with equipment failure. The existence of 33 classes of models for competition means that the scope for getting involved in this long-established but popular sport is vast. Certainly the experience passed on in this book should mean the transition from the modelling bench and bathtub trials, to an enjoyable afternoon boating, is a quick one.

1995. 96 pages, 210 x 145mm, illustrated.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WT68Y	Model Boats	£5.950	£5.950 NV

## The Model Railway Manual

by C. J. Freezer

This profusely illustrated handbook shows how to build a complete model railway from scratch. The book starts with the design and construction of a baseboard, then planning and constructing the layout including the laying of track, adding the scenery and buildings, and finally the electrical wiring and adding the finishing touches to enhance the realism of the layout. This comprehensive step-by-step guide takes the reader through all the necessary stages, pointing out potential pitfalls on the way. Highly recommended.

1994. 194 pages. 280 x 214mm, illustrated. Hardback.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WC00A	Model Railway Manual	£14.990	£14.990 NV

## Complete Book of Model Railway Electronics

by Roger Amos

The author successfully introduces the novice to the subject of electronics in railways by means of simple projects which can then be followed by more advanced projects. The projects deal with basic control and detection of trains through signal systems of increasing complexity and the automatic operation of the layout, to such additional touches of realism as train lighting and sound effects. The comprehensive appendices are both practical and theoretical, and the 36 projects are supported by almost 150 diagrams.

1990. 256 pages, 240 x 160mm, illustrated. Hardback.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WC02C	Model Railway Electr	£16.990	£16.990 NV

## Introducing Radio Control Model Aircraft

by Bill Burkinshaw

This book from the former editor of RCM&E magazine knows the areas which may bemuse or baffle the newcomer. He therefore takes us step by step through the theory of flight, how aircraft will be controlled, into radio equipment, through engines, construction finishing and installation, and finally into the flying of powered aircraft. He also describes flying helicopters and flying gliders to complete the book. Model aircraft flying can be a rewarding hobby producing superb working scale models. This book will enable the reader either to construct from scratch or buy a ready made model and get straight onto the flying field. Wherever you start, this book is an invaluable guide of hints and tips.

1989. 95 pages, 210 x 145mm, illustrated.

**Radio & Communication Books**

**Short Wave International Frequency Handbook**

by Bill Laver

Intended to be of particular interest to the European short wave listener, this guide covers all the stations that are capable of being heard in the Northern hemisphere. Some stations are low powered and will need good aerials and receivers, but under favourable conditions even modest set-ups will 'pull them in'.

The guide's main objective is to quickly direct the listener to the frequency or band most likely to provide him with the kind of station that he is seeking. To many the SW band presents something of a mystery, pouring out a wide range of strange noises which at first convey no intelligible information whatsoever. Indeed, the newcomer can be excused for being somewhat overwhelmed at the wide range of signals to be heard, all apparently fighting for space. In fact the SW band is full of surprises and even the most experienced listener is frequently rewarded with a new station that he or she has never heard before. It helps to know where to start looking and so there is a real need for a guide such as this to the utility stations on the SW band, and to this end this book should more than fill the gap.

1994. 188 pages. 298 x 210mm, illustrated.

YEB4F	Scanning Secrets	£16.950	£16.950 NV

**Scanners – a VHF/UHF Listener's Guide**

by Peter Rouse GU1DKD

The first complete British guide to VHF/UHF listening. Subjects covered include the equipment, accessories and aerials, and explains basic radio theory, modes, and simplex and duplex transmission, installation and use.

A most useful feature is the inclusion of full British waveband charts from 26MHz to 1300MHz, including aviation, marine, amateur, emergency services, satellites

(amateur, military, communication, navigation, weather, including the COSMOS and NASA Space Shuttle frequencies), cordless telephones, cellular radio, beacons, pagers, message handling, private mobile radio (PMR), radio microphones, telemetry, industrial, scientific and medical etc. Also explained is how to interpret what is being said when 'RT procedure' is being used.

1994. 253 pages. 234 x 154mm, illustrated.

WP47B	Scanners	£9.950	£9.950 NV

**An Introduction to Scanners and Scanning**

by I. D. Poole

Radio scanners are rapidly increasing in popularity, opening a whole new realm to short wave listening. This book aims to cater for the new breed of scanner listener. Scanners are specifically designed for modern listening. They can be programmed to tune or scan over a number of preset frequencies and stop when they find a signal. By using this facility the receiver can be made to monitor several frequencies of interest. Topics covered in the book include: radio wave propagation, types of transmission which can be heard, how a scanner operates, aerials, the radio frequency spectrum (including a frequency list), operating procedures, broadcast bands, amateur radio, and citizen's band.

In addition to this there is an appendix which includes a glossary of essential terminology and call-sign prefix lists. This book will provide a useful reference to scanner listeners, those who own World Band Radios and anyone with an interest in short wave listening of any description.

1996. 152 pages. 178 x 111mm, illustrated.

WZ62S	Intro To Scanners	£4.990	£4.990 NV

**The VHF/UHF Scanning Frequency Guide**

Compiled by Bill Laver

The pressure on frequency space in the VHF/UHF bands, together with technological improvements, results in almost endless changes and amendments that have recently occurred.

These include 25kHz channel stepping in both bands, requiring that many civil and RAF frequencies be reallocated. Similarly private mobile radio, due to increasing use which is now causing major overcrowding problems in the VHF band. The removal of 3 TV services in the UK has now made the area centred around 200MHz available to many PMR users, and clearly the use of UHF will also be actively promoted by the DTI who will be anxious that the pressure be taken off the frequencies below 200MHz. And newly launched public telephone and satellite services will require more airwave space. Consequently the bands have gone through a major re-shuffle making it difficult to find some transmissions again because they have moved. Covers equipment requirements including aerials, the future of VHF/UHF communications, frequency guide to 26 to 225MHz, military aeronautical band

of 225 to 399MHz, and a frequency guide from 399.9MHz to 47.2GHz.

## Amateur Radio for Beginners – How to Discover the Hobby

by Victor Brand G3JNB

Amateur Radio is a hobby which is enjoyed by over one and a half million people. These people are on air from their homes, clubs and schools worldwide.

Designed for the absolute beginner, this book could easily be enjoyed by another million. As well as extolling the virtues of 'Ham' radio, the book goes on to explain how to make your first receiver and progress through to the acquisition of a licence. The grades of Novice (class A or B) licence are described, as is the help provided by R.S.G.B. to obtain the licence. The support and benefits derived from being in a club are described. Hopefully, this will go some way to shattering the common fallacy that 'Ham' radio is some kind of lonely attic hobby. For many people the discovery of amateur radio has been the beginning of an entirely new and unique hobby. They have derived much from its pursuit and have gained knowledge of electronics in the process.

Whatever the age, or reason, this book will ensure the absolute beginner has all the information needed to join the worldwide amateur radio family. 1991. 65 pages, 210 x 145mm, illustrated.

## An Introduction to Amateur Radio

by I. D. Poole

Amateur radio is a unique and fascinating hobby which has attracted thousands of people since it began at the turn of the century.

It encompasses a wide variety of subjects from the historical to the latest technology, and from operating to construction. In fact there is always some aspect of the hobby to interest people.

This book gives the newcomer a comprehensive and easy to understand guide through the subject so that the reader can gain the most from the hobby. It then remains an essential reference volume to be used over and over. Topics include the basic aspect of the hobby, such as operating procedures, jargon and setting up a station. Technical topics covered include propagation, receivers, transmitters and aerials etc.

## Build Your Own Intelligent Amateur Radio Transceiver

Randy L. Henderson

McGraw-Hill

With the help of this sure-fire instruction guide, you can learn how to build a sophisticated, yet low-cost microprocessor-controlled radio transceiver as well as smaller devices such as a simple frequency synthesiser and a spectrum analyser. Filled with tested, hands-on projects that really work, this great reference features single-sided circuit boards that are easy to build, and includes detailed circuit-board layouts and extensive parts lists.

NQ41U	Amateur Radio Build	£22.990	£22.990 NV

## Communications Receivers 2nd Edition

Ulrich L. Rohde, Jerry Whitaker & T T N B

McGraw-Hill

Revised and updated to cover state-of-the-art digital and cellular technology, the new edition of this classic work remains the ideal guide to the theory and design of all types of communications receivers - including shortwave, military, broadcast, and direction-finding. This sure-fire resource takes you through the leading-edge technologies being used in receiver design today... explains the basic principles of operation... and shows how to apply those basics to produce a working communications system. Supporting mathematics is provided where appropriate, and extensive technical illustrations and schematic drawings are used throughout to give you a solid grasp of fundamental principles.

## Setting Up an Amateur Radio Station

by I. D. Poole

The aim of this book is to give guidance on the decisions which have to be made when setting up any amateur radio or short wave listening station. Often, the experience which is needed is learned by making mistakes, but this can be expensive. To help overcome this, the book gives advice on many aspects of setting up and running an efficient station, and then proceeds by discussing the steps that need to be taken in gaining a full

transmitting licence. The topics covered include: the equipment needed; setting up the station; which aerials to use; methods of construction; test equipment; and preparing for the licence.

1991. 96 pages. 178 x 111mm, illustrated.

Retail Unit Price each (inc. VAT).

WT74R	Set Up Radio Station	£3.950	£3.950 NV

## The Superhet Radio Handbook

by I. D. Poole

Bernard Babani Books

Virtually all modern radios use the superhet principle. It offers many advantages over other types of radio receiver. However, these radios can be fairly complicated, as can the specifications used to define their performance.

This book explains the operation of the superhet in understandable terms. It also explains the specifications likely to be encountered so that anyone looking to buy a radio can assess its performance, be it a shortwave communications receiver, a world band radio, or a scanner.

Topics covered in this book include:

- Introduction and historical perspective
- Basic concepts
- Sensitivity and overload
- Selectivity
- Local oscillator
- Demodulation
- Operation

1995. 101 pages. 178 x 111mm, illustrated. British book.

## Radio Communication Handbook

6th Edition  
Radio Society of Great Britain

The most authoritative reference manual for the radio amateur. Completely revised and up-dated, often in parts entirely re-written, its many pages cover all aspects of radio from the fundamentals of Ohm's Law to design and construction of high powered transmitters. Tending towards those who have an interest in low frequencies, i.e. under 30MHz, it also has practical information on VHF technology and equipment. Chapters include; principles, HF and VHF receivers, HF and VHF transmitters, RTTY, propagation, HF and VHF aerials, mobile and portable equipment, satellites, noise, interference and measurement.

1994. 808 pages. 248 x 182mm, illustrated.

THE WORLD OF ELECTRONICS AND BEYOND

## The Novice Radio Amateurs Examination Handbook

by I. Poole

**Bernard Babani Books**

Amateur radio has long captivated the interests of many thousands of people. The enjoyment of talking to people all over the world, together with the challenge of learning about today's technology and building your own equipment all go together to make amateur radio one of the most interesting and absorbing hobbies.

To help more people into the hobby, a novice licence has been introduced into the UK. The entry requirements for this are less than the full licence which is also available. This makes the novice licence an ideal start, but even so it is still necessary to have a basic understanding of the subject and to complete a course and pass the Novice Radio Amateurs Examination.

This book covers the basic syllabus for the examination, and is designed to supplement the associated course. It also provides a basic introduction into amateur radio and the technology behind it for anyone wanting to learn more. Topics included in the book cover basic electronics, radio receivers, transmitters, operating practices and much more.

1996. 144 pages. 178 x 111mm, illustrated. British book.

## Newnes Practical RF Handbook

by Ian Hickman

This book is primarily intended to help both the amateur and professional increase their knowledge and expertise in the field of RF engineering. The book is not intended to be a text book, and lengthy derivation of formulae have been omitted.

Text covers the portion of the RF spectrum up to 1000MHz. This is used for a wide variety of services, including sound broadcasting and television, commercial, professional, government and military communications, telemetry and telecontrol, radio telex and facsimile, and amateur radio.

1993. 280 pages. 232 x 155mm, illustrated.

AA15R	RF Handbook	£18.990	£18.990 NV

## Projects for Radio Amateurs and S.W.L.s

by R. A. Penfold

This book describes a number of electronic circuits, most of which are quite simple, which can be used to enhance the performance of most short wave radio systems.

Even those who are not interested in building receivers and transmitters are often keen to experiment with home built aerials, and to construct some accessories for their ready-made equipment.

The circuits include an aerial tuning unit, audio filters (notch and a high performance bandpass type), a volume expander, add-on B.F.O., simple active aerial, a C.W./RTTY decoder and other useful projects. Where appropriate there are details of how to set up and use the equipment, plus notes on any unusual aspects of construction. No precise constructional details are provided, as some experience of electronic construction is assumed. Some of the projects are very simple, and should be within the capabilities of practically anyone who has previously built one or two simple projects, and providing the experience to progress to the more complex circuits.

1992. 96 pages. 178 x 111mm, illustrated.

## An Introduction to VHF/UHF for Radio Amateurs

by I. D. Poole

The increase in the use of the VHF and UHF bands is now one of the largest growth areas within amateur radio. In fact, most radio amateurs have equipment for use on these bands, either for local contacts or simply to exploit some of the many interesting and challenging aspects of so doing. This book covers the essentials required to gain the most from using the VHF and UHF bands. As such it will be of use to both the newcomer and the more experienced enthusiast alike.

Topics include propagation, the bands and channels, aerials, receivers, transmitters, and a special chapter on scanners. In addition, operation of repeaters and mobiles is included together with DXing and data modes, and a section on packet radio.

1990. 112 pages. 178 x 111mm, illustrated.

## All About VHF Amateur Radio

by William Orr

This handy, inexpensive VHF handbook has been written for the non-technical and ham enthusiast who wants to work on the 6m and above bands. The text, illustrations and general information is presented in an enjoyable and easily understood style, and provides valuable information covering all aspects of VHF radio.

The book covers VHF bands and propagation; VHF repeaters; VHF moonbounce communication; amateur satellite communication; coaxial lines; VHF vertical and mobile antennas; VHF beam antennas; VHF interference. There are many suggestions for the DIYer for building vertical, mobile and beam antennas.

1988. 162 pages. 228 x 125mm, illustrated. American book.

## An Introduction to Satellite Communications

by F. A. Wilson

Satellites are here to stay and they're rapidly playing an ever increasing part in everyday life. This book, aimed at the electronics engineer or enthusiast wishing to get to grips with the basic technology (with a wealth of technical detail in the appendices for the more expert), explains what they are, how they get up there and what they

## The VHF/UHF DX Book

Edited by Ian White

Contacting stations in far-away places – 'working DX' – is one of amateur radio's greatest challenges, especially if you choose to do it on the VHF and UHF bands. The VHF and UHF bands can produce some truly exotic signals. These bands offer many different modes of propagation, and activity has increased so much that almost every DX opening is recognised and exploited. From the UK, amateurs have worked all over western and central Europe on 144MHz and 432MHz. Additionally 50MHz can cover the world at the height of the sunspot cycle. The aim of the book is to bring together the operating and the technical sides of VHF/UHF DX, as each needs the other. A station assembled with no technical knowledge can never be operated at full efficiency, and a technically good station is pointless if it is never used.

1993. 444 pages. 241 x 187mm, illustrated.

## Mobile Radio Servicing Handbook

by Roger Belcher, Mike Fitch, David Ogley and Geoff Varrall

An authoritative and practical information source-book on the servicing and repair of VHF and UHF mobile radios and base stations, together with the maintenance and support requirements of the overall radio system, including antenna and mast installations. The book covers the impact of data over radio, cellular radio, and trunking technologies on servicing, diagnosis and repair procedures. Essential background topics covered include radio theory, amplitude (AM) and frequency (FM) modulation, radio wave propagation, reception and demodulation, fundamentals of receiver and transmitter systems, principles of transmitter and receiver design, synthesiser techniques, selective tone signalling and the digital signalling control and access protocols of cellular and trunked radio. 1989. 298 pages. 240 x 160mm hard-cover, illustrated.

## The Complete Shortwave Listener's Handbook

Andrew Yoder  
McGraw-Hill

Shortwave radio may be the most fun you can have sitting down, and this A-to-Z guide for everyone from absolute beginners to advanced hobbyists is your all-in-one partner in listening. It gives you complete, up-to-date information on equipment, worldwide stations, clubs, satellites, computers and much more!

## Air Band Radio Handbook

Sixth Edition  
by David J. Smith

Air band radio listening allows you to eavesdrop on the conversations between aircraft and those on the ground who control them, and is an increasingly popular and fascinating hobby. It not only assists in the recognition of aircraft flying overhead, but also provides an insight into the complex world of air-traffic control. The author, who is an air-traffic controller by profession, describes the types of air band radio available and how to use them. With the intricacies of air-traffic control and its jargon explained, you will be able to translate what you hear into what's actually going on over your head. The book also includes full appendices containing comprehensive, up-to-date lists of VHF, UHF and HF frequencies, call-signs etc. This extensively revised and updated edition

maintains the book's position as the indispensable guide to the hobby, and the essential companion for every air band radio enthusiast. 1994. 212 pages. 215 x 157mm, illustrated.

Retail Unit Price each (inc. VAT).

## The Morse Code for Radio Amateurs

Eighth Edition by George Benbow G3HB

It is an international requirement that every person holding a radio amateur licence shall have satisfied the licence-issuing authority of their country that they have a sound knowledge of the Morse Code. Slow morse practice transmissions are radiated daily on frequencies in the amateur bands. The book shows the morse alphabet, procedures and includes 9 do-it-yourself exercises. 1992. 28 pages, 244 x 183mm, illustrated.

Retail Unit Price each (inc. VAT).

WT36P	Morse Code AM Radio	£3.990	£3.990 NV

## The Secret of Learning Morse Code

by Mark Francis

Morse code is the oldest means of radio communication and yet is also one of the most reliable. It is not until you come to study the code that you begin to realise just how effective it can be. When voice communication fails, owing to weak signals or interference, morse code invariably gets through. Yet the equipment required is the most basic of all. There are many circumstances, both at professional and amateur levels where these advantages are of paramount importance. Several amateur radio operators are still 100% morse code users. Not only do they find it ideal for long distance contacts with modest power and aerial systems, but they also enjoy the satisfaction and pleasure obtained from practising their skills as CW operators. 1989. 93 pages. 210 x 148mm, illustrated.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WT72P	Learn Morse	£4.950	£4.950 NV

## The Setmakers

by Keith Geddes in collaboration with Gordon Bussey

This very enjoyable book tells of the British involvement in the development of radio and television, the colourful characters involved, which led to the enormous growth in radio in the 30s, and television in the 50s. This rapid growth was soon followed by an equally rapid fall, with the subsequent loss of famous household names in manufacturing. This change in fortunes left many in its wake and witnessed some hugely expensive casualties. The book discusses the interdependence of setmakers and broadcasting, and in particular the very close liaison between the setmakers and the BBC. This liaison led to major technological developments in Britain, not least of all, television, which by 1937, Britain was showing to the world. The book is very much up to date, as it goes on to tell the story of the chaos surrounding the introduction of satellite TV in the UK. This profusely illustrated hardback book is highly recommended to anyone, young or old, who has an interest in radio or television, as it provides a detailed history of setmaking in the UK. 1991. 464 pages. 250 x 180mm, illustrated.

## Simple Short Wave Receiver Construction

by Robert Penfold

Short Wave Radio is a fascinating hobby, and can be pursued for a minimal monetary outlay if you are prepared to undertake a bit of DIY, and the receivers described in this book can all be built at low cost. All the sets are easy to construct, full wiring diagrams, etc. are provided, and they are suitable for complete beginners. The receivers only require simple aerials, and do not need any complex alignment or other difficult setting up procedures. Topics covered include: the broadcast bands and their characteristics; the amateur bands and their characteristics; the propagation of radio signals; simple aerials; making an earth connection; short wave crystal set; simple t.r.f. receivers; single sideband reception; and a direct conversion receiver. Contains everything you need to know in order to get started in this absorbing hobby. 1990. 96 pages, 178 x 111mm, illustrated.

## Short Wave Superhet Receiver Construction

by R. A. Penfold

The basic short wave receiver described in this book is a superhet with separate mixer and oscillator stages, a ceramic filter for good selectivity and a simple audio amplifier which drives headphones. An optional BFO permits reception of CW and SSB, the main operating modes used for the amateur short wave bands. The receiver also includes AGC. The remainder of the book describes a number of 'add on' enhancements. These consist of: input filter to improve image rejection; RF amplifier to boost sensitivity and image rejection; product detector for improved CW and SSB reception; higher powered audio output amplifier for loudspeaker; signal strength ('S') meter; audio CW filter; stabilised mains power supply. The fully expanded receiver provides excellent results from the broadcast and amateur bands, but remains relatively inexpensive to build.

## Experimental Antenna Topics

by H. C. Wright

Although more than a century has passed since Marconi's first demonstrations of radio communication, there is still research and experiment to be carried out in the field of antenna design and behaviour. The aim of the experimenter will be to make a measurement or confirm a principle, and this can be done with relatively fragile, short-lived apparatus. Because of this, devices described in this book make liberal use of cardboard, cooking foil, plastic bottles, cat food tins, etc. These materials are, in general, cheap to obtain and easily worked with simple tools, encouraging the trial-and-error philosophy which leads to innovation and discovery. Although primarily a practical book with text closely supported by diagrams, some formulae which can be used by straightforward substitution and some simple graphs have also been included.

## 25 Simple Indoor and Window Aerials

by E. M. Noll

For the short wave listening enthusiast who may be living in a flat or similar accommodation where the use of external aerials is impossible, this book describes how one can install aerials in or around the room, ceiling, windows, attic, etc. - twenty-five different permutations are shown in detail. The book also shows how simple variations can be improved for optimum performance. Much information is given on the short wave bands, aerial directivity, time zones, working dimensions etc.

## Radio Systems for Technicians

by D. C. Green

This book provides a comprehensive coverage of the circuits and techniques used in modern radio communication systems and equipment. The BTEC scheme for the education of telecommunication technicians introduces the basic principles of radio systems in a unit intended for inclusion in certificate/diploma courses. This book has been written to provide a complete coverage of this unit. All the important aspects of radio engineering are covered from amplitude and frequency modulation, r.f. transmission lines, aerials and radio wave propagation, to the circuits and techniques used in modern radio receivers and transmitters and communication systems.

A comprehensive text on radio communication systems is provided that should be eminently suitable for all non-advanced students of radio engineering.

1985. 288 pages, 246 x 190mm, illustrated.

## Practical Wire Antennas

Effective H.F. Designs for the Radio Amateur

by John D. Heys G3BDQ

Wire antennas offer one of the most cost-effective ways of putting out a good signal on the HF bands, and this practical guide to their construction has something to interest every amateur on a budget. Many different types are covered, ranging from simple dipoles to ingenious multi-wire systems, even underground antennas! Full details about feeding and matching are included, making each antenna easy to set up and use successfully. Theory has been kept to a minimum - instead, the author has shared his years of experience in this field, offering down-to-earth advice that will be appreciated by beginners and enthusiasts alike. No-one who builds and uses wire antennas can afford to be without this handy guide.

## HF Antennas for All Locations

2nd edition

by Les Moxon

The introduction of the 10, 18, and 24MHz bands in recent years has brought a lot of opportunities for amateur radio enthusiasts, as well as many problems. The worsening problem of interference, as well as the demand for smaller, less visible, antennas has resulted in an interest in small transmitting loops.

The aerial designer is faced with the dilemma of whether to maximise gain or minimise interference. This second edition has been revised, updated and expanded and includes more novel antenna designs, including beams which cover more bands with fewer problems, no trap losses and better rejection of interference. A chapter provides a comprehensive review of ways to make antennas smaller, with particular emphasis on small transmitting loops.

The book provides a wealth of practical information on the choice and construction of antennas to suit most locations and requirements, and will be an indispensable reference for the antenna experimenter and enthusiast.

1993. 322 pages, 245 x 186mm, illustrated.

## 25 Simple Amateur Band Aerials

by E. M. Noll

Bernard Babani Books

This concise book describes how to build 25 amateur band aerials that are simple, inexpensive to construct and perform well. The designs start with the simple dipole and proceed to beam, triangle and even a mini-rhombic made from four TV masts and about 400 feet of wire.

After the aerial discussion the reader will find a complete set of dimension tables that will assist aerial frequency identification. Dimensions are given for various style aerials and other data needed for spacing and cutting phasing lengths.

## Practical Antennas Handbook Second Edition

by Joseph J. Carr

All the basic types of radio antenna are covered by this book including: high-frequency dipoles; multiband and tunable wires; hidden and limited space; directional phased-vertical and directional beam; VHF/UHF transmitting and receiving antennas; shortwave antennas; microwave; mobile and marine. They are all covered, in this in-depth book, with all the relevant theory necessary for the successful building of such antennas, including examples and construction diagrams. Radio wave propagation, transmission lines, Smith charts and matching theory are included and will prove useful when matching antennas, and working out delay and phasing problems. Sections on wave propagation and electromagnetic fields explain why an antenna works in the way it does. Sections on microwave and waveguide techniques will be particularly useful to those interested in frequencies between 900MHz and 300GHz. Dubbed the 'Antenna Builders' Bible', and containing many additions, this book will show you how the best results can be obtained from any antenna, whether you plan to make it, buy it or repair it. 1994. 560 pages. 230 x 190mm, illustrated. American book.

AN03D 2	Pract Antenna H/Book	£26.990	£26.990 NV

## Beam Antenna Handbook

by William I. Orr and Stuart D. Cowan

This handbook covers all aspects of HF and VHF Yagi antenna design. Information on construction, installation, testing and operation of these aerials is included along with the effects of element taper, mounting hardware and matching systems. The twelve chapters cover topics ranging from radiation and propagation antenna, transmission lines, matching the antenna to the line through to antenna test instruments. This is in addition to the many antenna designs that are featured in this book including computer derived designs for high gain antenna for the HF and VHF bands. Dimensions are conveniently provided in both English and metric measurements, along with scaling information that permits many designs to be used on frequencies outside the amateur bands. This attractively priced book is a must for all amateur radio enthusiasts. 1990. 272 pages. 233 x 186mm, illustrated. American book.

## Antennas for VHF and UHF

by I. D. Poole

Covers installing and setting up of TV and FM aerials, to multi-aerial arrays for short wave listening. This book gives all the essential information required in order to obtain the best possible results from an aerial. All the explanations are in easy to read terminology, enabling the reader to understand the technical reasons for installation practices and selection of a particular aerial without the clutter of theory. Advantages of different types of aerial are discussed to ensure you never buy the wrong aerial for the job. Users of scanning receivers and radio amateurs will also find this book useful, as there is also information covering specific aerial types designed for communications equipment. Practical and helpful hints on erecting an aerial will help you to get the most from your set-up, with the minimum of trouble. In addition to helping with the positioning, selection and optimisation of aerials, the book contains enough detail to enable the enthusiast to start building their own aerials. Information on frequency allocations, how to work out the wavelength, and how this applies to aerials in practice will allow you to make dipole, folded dipole, Yagi, and numerous vertical mobile communication antennas. 1994. 112 pages. 178 x 111mm, illustrated.

## Security

### Home Security

by Vivian Capel

The purpose of this book is to provide practical, independent advice and guidance on securing the home. It shows the burglar's preferred methods of entry, the weak points he looks out for, many of the tricks he uses, and what you can do to thwart him. This book explains the pros and cons of an alarm system, discusses which features are important, and clears away the mystery surrounding those technical terms and expressions. It shows how to install a system, how to prevent faults, and what to do if any occur. Other security devices are given a critical scrutiny along with further measures to avoid becoming a victim of crime. 1994. 186 pages. 234 x 150mm, illustrated.

Order Code	Type	Price each exc. VAT	inc. VAT each
AA86T	Home Security	£14.990	£14.990 NV

### Security Systems and Intruder Alarms

by Vivian Capel

This book is divided into two sections; a general section showing how alarm systems work, what they do, how they can be planned, and how proposed systems can be checked. It also describes countermeasures against other hazards such as shoplifting, employee theft, fire, fraud, liability claims etc., examining control equipment, various types of sensors, going up to closed-circuit TV monitoring and domestic systems. The technical section is more specific dealing with installing and testing intruder and fire alarms, fault-finding and maintenance and the British Standards. Primarily written for managers and business people and installation engineers but will be of interest as a general reference to anyone planning to install a security system. 1989. 280 pages. 240 x 190mm hardcover, illustrated.

## Electronic Projects for Home Security

by Owen Bishop

This book deals with many aspects of home security, covering intruder, fire and flood protection, with the emphasis on how to make the best use of electronic devices that you can build yourself. There are 25 constructional projects, ranging in complexity from a single-door protection circuit that can be built in an hour or two, to a sophisticated, multi-channel security system, that most intruders will find very difficult to beat. The projects can be readily undertaken by the beginner. Even the multi-channel system starts at a simple level and is expandable later as the constructor's experience grows.

1991. 141 pages. 216 x 135mm, illustrated.

## Servicing, Test & Measurement

### How to Use Oscilloscopes and Other Test Equipment

by R. A. Penfold

Advances in electronics over recent years have brought some quite advanced pieces of test equipment within the scope of many electronics hobbyists. This book explains the basic functions of an oscilloscope giving a detailed explanation of all the standard controls, with advice on choosing an oscilloscope.

A separate chapter deals with using the instrument for fault-finding both linear and logic circuits, with plenty of example waveforms. The function and use of other pieces of test gear are also covered, including signal generators, logic probes, logic pulsers, and crystal calibrators.

1989. 112 pages. 178 x 111mm, illustrated.

## Oscilloscopes

How to Use Them, How They Work  
Fourth Edition

by Ian Hickman

An enormous range of different models is available, and choosing an instrument suitable for your needs has never been easy, particularly for the hobbyist beginner. Includes new material on storage CRTs, DSOs (Digital Storage Oscilloscopes), sampling oscilloscopes, oscillographs, X/Y, X/T and X/Y/T plotters, both stand-alone and as existing oscilloscope accessories; UV recorders, laser recorders, and use of dot matrix printers as output devices. In this case PCs are used with 'plug-in' oscilloscope and logic analyser cards. There is also additional material on network analysers, intrinsically safe oscilloscopes, display oscilloscopes and fibre-optic TDRs. A new appendix covers the considerations relating to achievable measurement accuracy in various types

of oscilloscope voltage, time, frequency, rise-time etc.; electronic cursors, coupled DVMS etc. 1990. 255 pages. 215 x 138mm, illustrated.

WT75S	How Scopes Work	£16.990	£16.990 NV

## Hands-On Guide to Oscilloscopes

by Barry Ross

This book is for anyone who wants to learn about oscilloscopes, and all the topics covered assume that the reader has no previous knowledge or experience of how an oscilloscope works. Although the chapters follow a sequence, each chapter is treated as independently as possible, and can be read separately for quick reference. The book allows the novice to become familiar with oscilloscope circuitry and the correct operation of the equipment in a wide range of applications. It then goes on to explain more complex functions such as digital storage circuitry and the correct use of digital storage oscilloscopes (DSOs). Other topics covered include probes and their use, choosing oscilloscopes and what to do when things go wrong. Practical application examples are included at the end of each chapter.

1994. 245 pages. 245 x 174mm, illustrated.

## Getting the Most From Your Multimeter

by R. A. Penfold

The first piece of test equipment that most electronics hobbyists normally buy is a multimeter. The basics of analogue and digital multimeters are covered, discussing their relative merits and limitations. Various methods of component checking are described, including tests for transistors, thyristors, resistors, capacitors and diodes. Circuit testing is also covered with subjects such as voltage, current and continuity checks. Using these simple techniques the reader should be able to confidently tackle servicing of most equipment.

1988. 112 pages. 178 x 111mm, illustrated.

See Stock Code Index For More Price Breaks

## More Advanced Uses of the Multimeter

by R. A. Penfold

This book is primarily intended as a follow-up to "Getting The Most From Your Multimeter" and also anyone who already understands the basics of voltage testing and simple component testing. Thoroughly testing some components requires specialised and expensive equipment. In some cases there would not seem to be equipment of the right type available at any price. By using the techniques described, you can test and analyse the performance of a range of components. Designs for simple add-ons are given to make the multimeter even more useful:

An active RF probe, a high resistance probe, an AC sensitivity booster and a current tracer.  
1989. 96 pages, 178 x 111mm, illustrated.

## Electronic Testing and Fault Diagnosis

Third Edition

by George Loveday

The ability to rapidly diagnose the causes of faults in electronic equipment and circuits is one of the important skills that can be acquired by the electronics technician. The exercises throughout this book are designed to assist the student in acquiring this ability. The text mainly concentrates on component failure occurring in particular types of circuit. Techniques for localising faults in complete electronic instruments or systems, is covered briefly. This edition includes programmable logic devices (PLDs) and CAD software tools.  
1995. 295 pages. 245 x 185mm, illustrated.

## Electronic Fault Diagnosis

Third Edition

by G. C. Loveday

The ability to rapidly diagnose the causes of faults in electronic equipment and circuits is one of the important skills that can be acquired by the electronic technician or mechanic, including the hobbyist. The text concentrates mainly on component faults occurring in particular types of circuit rather than the fault-finding techniques used for localising faults in complete electronic equipment or systems. However, there is a section that deals briefly with system fault-finding methods. A basic introduction to fault-finding microprocessor based systems is included, showing an example designed around an 8-bit microprocessor using readily available chips. The book also reflects other important trends in the field of electronics, and includes notes and

exercises on optoisolators, timer ICs, SMPU designs and power FETs.  
1988. 131 pages. 245 x 189mm, illustrated.

## Electronics Service Manual

Wimbome Publishing

This authoritatively written and clearly presented Electronics Service Manual is highly readable and contains down to earth advice and vital information on how to service, maintain and repair a wide range of electronic and computer equipment. Step by step, the Electronics Service Manual explains how equipment works, how to test it, how to take it apart, how to find faults and how to fix it. The manual comprises two parts:

### Base Manual

The Base Manual contains information on the following subjects:

- Safety - safety practices, life-saving techniques, legal requirements
- Underpinning Knowledge - electronics theory, component theory & functions, circuit techniques, fault diagnosis, detailed equipment principles
- Practical Skills - component identification, avoiding static, soldering & component replacement techniques
- Tools & Equipment - choosing tools & test gear, workshop practice, optimising test gear
- Technical Notes - detailed examination of how specific types of electronic equipment work
- Reference Data - detailed tables of specifications for semiconductors, including pinouts

This is probably the most comprehensive guide to electronics servicing ever produced at such an affordable price! Providing you with over 850 A4 pages of the essential information you will need to find faults and fix them.

Each Base Manual is supplied complete with an attractive and durable ring-binder. A free copy of a recent Supplement is also included.

### Supplements

As if all the information in the Base Manual wasn't enough, regular Supplements continuously extend the Electronics Service Manual with equipment-specific technical servicing notes and other valuable information!

These Supplements are sent to you directly, on approval (UK only), from the publisher approximately four times a year. If you do not wish to keep a Supplement, simply return it within ten days. If you wish to keep the Supplement, simply remit the appropriate amount, as advised, to the publisher. Supplements are priced at £23.50 plus postage and packing.

You can cancel the Supplements at any time by writing to the publisher.

You are under no obligation to purchase any of the Supplements. Neither are you obliged to accept the offer of the Supplements being sent on approval - see **Important Ordering Information** below.

If you want to receive the Supplements, we have to provided your name and address to the publisher (no other information will be passed onto the publisher in connection with the Electronics Service Manual).

### Important Ordering Information

If you do not want to be sent the Supplements,

please order AN45Y ESM No Supplements - we will not provide your name and address to the publisher. You will, however, still receive a free recent Supplement with the Electronics Service Manual. You can of course contact the publisher at a later date if you decide that you want to be sent the Supplements after all.

If you do want to be sent the Supplements, please order GS45Y ESM + Supplements - we will provided your name and address to the publisher. You will receive a free recent Supplement with the Electronics Service Manual. You will be sent further Supplements, on approval, from the publisher. **Please note:** customers outside the UK will only be sent details of the Supplements and a pro forma invoice, not the actual Supplements.

## Maplin Test Gear & Measurements

by Danny Stewart

Newnes

This book is a clear introduction to test gear in the field of electronics. As well as being a first guide to test gear and its use, the book includes much practical information and reference material for the more experienced electronics enthusiast or student.

Based on a collection of feature articles originally published in *Electronics* - *The Maplin Magazine*, this book is sure to be of great value. Details are included of all the common (and not-so-common) items of test gear, alongside information regarding its use in various measurement situations. 166 pages. 213 x 134mm, illustrated. British book.

## Troubleshooting & Repairing Consumer Electronics without a Schematic

Homer L Davidson

McGraw-Hill

In this thoroughly updated new edition of his best-selling guide, Homer Davidson, one of the most respected and prolific authors in the field of consumer electronics, provides experienced, hands-on information and advice on how to troubleshoot and repair a wide range of electronic units - when you don't have the benefit of schematic diagrams. Davidson, who actually ran his own successful radio and TV repair business for more than 40 years, shows you how to diagnose and solve the circuit problems that commonly occur in audio amps, auto receivers, TV chassis, cassette decks, CD players, AM/FM receivers, VCRs, car radios, stereos, boom-boxes and more. Included are more than 400 detailed drawings and photographs that illustrate the most efficient methods for locating, testing, and repairing defective components.

## Bigelow's Computer Repair Toolkit

Stephen J Bigelow  
McGraw-Hill

There are many freeware and shareware programs that can help you pinpoint PC problems more quickly and reliably, but they're not always easy to find - and many of them include minimal documentation, or presume a level of expertise that you may not have. This unique book/CD-ROM set gives you instant access to more than 100 freeware and shareware programs on the companion CD-ROM and explains exactly why, when, and how to use them. These programs do essentially the same job as commercially available applications costing many hundreds of pounds more, but are provided here for you far more conveniently, economically, and, above all, usefully. With its terrific set of ready-to-use-tools, expert guidance regarding the purpose and use of each, time-saving tips and practical "symptom-oriented" approach, *Bigelow's Computer Repair Toolkit* is an essential addition to any PC repair technician's troubleshooting "bag of tricks".

## Instrumentation and Test Gear Circuits Manual

by R. M. Marston

Primarily, this book is a manual of modern instrumentation and test gear circuits that will be of immense value to the industrial, commercial, or amateur electronics engineer or designer. This book is filled with nearly 500 varied and extremely useful, carefully selected practical circuits, diagrams, graphs and tables. The diverse range of practical circuits covers: attenuator and filter circuits; basic meter and multimeter circuits; electronic analogue meter circuits; digital panel meter circuits; waveform generator circuits; scope trace doubles; timebases; digital frequency meters; power supply circuits; and many more. The majority of the semiconductors specified in the designs are reasonably priced and readily available.

## Test Equipment Construction

by R. A. Penfold

This book describes in detail how to construct some simple and inexpensive, but extremely useful, pieces of test equipment. Stripboard layouts are provided for all designs, together with wiring diagrams where appropriate, plus notes on their construction and use. The following designs are included:

AF Generator, Test Bench Amplifier, Audio Millivoltmeter, High Resistance Voltmeter, Transistor Tester, Capacitance Meter, AF Frequency Meter, Analogue Probe, CMOS Probe, TTL Probe. Apart from providing the home constructor with a useful range of test gear, building these projects should also be an interesting and rewarding exercise in its own right. The designs are suitable for both newcomers and more experienced hobbyists alike.

## Build Your Own Test Equipment

by Homer L. Davidson

Learn how to build and use instruments for troubleshooting TVs, stereos, computers, CD players, 'ham' radios, microwave ovens, camcorders, electric motors, power supplies, cables and more. The book tells you all you need to know about constructing inexpensive, high-capacity, troubleshooting equipment for almost any purpose, leading you step-by-step through the entire process of finding and buying components, designing PCBs, substituting components, building and testing projects and finally putting your completed instruments to work. There are projects for everyone, from the beginner to the seasoned professional, all accompanied by simple, easy to follow instructions, photographs and diagrams. American book. Warning: references may be made to the American standard 110V AC mains supply. You should translate these into the English 240V AC mains standard and take

## More Advanced Test Equipment Construction

by R. A. Penfold

Describing some slightly more advanced test equipment projects for readers who have some amount of experience at project building. Full circuit diagrams plus notes on construction are provided. Detailed notes on any necessary setting up are also provided, together with information on using the projects to best effect. Projects included are:

digital voltmeter, digital capacitance meter, digital transistor tester, digital heatsink thermometer, bench power supply, dynamic transistor tester, A.F. digital frequency meter, digital resistance meter, digital current tracer, crystal calibrator and pulse generator. When finished the projects provide a very useful range of test gear for future project development and servicing, and the building of them should prove an interesting and rewarding pastime in its own right. The projects are not strictly suitable for complete beginners, but anyone possessing a modicum of hands-on construction experience should have little difficulty.

## Mobile Radio Servicing Handbook

by Roger Belcher, Mike Fitch, David Ogley and Geoff Varrall

An authoritative and practical information source-book on the servicing and repair of VHF and UHF mobile radios and base stations, together with the maintenance and support requirements of the overall radio system, including antenna and mast installations. The book covers the impact of data over radio, cellular radio, and trunking technologies on servicing, diagnosis and repair procedures. Essential background topics covered include radio theory, amplitude (AM) and frequency (FM) modulation, radio wave propagation, reception and demodulation, fundamentals of receiver and transmitter systems, principles of transmitter and receiver design, synthesiser techniques, selective tone signalling and the digital signalling control and access protocols of cellular and trunked radio.

## How to Expand, Modify and Repair PCs and Compatibles

by R. A. Penfold  
Bernard Babani

Not only are PCs and compatibles very expandable, but before long many users actually wish to take advantage of that expandability and upgrade their PC systems. Some aspects of this can be a bit confusing, but this book provides advice and guidance on the popular forms of internal PC expansion, and should help to make things reasonably straightforward and painless, and little knowledge of computing or computer hardware is assumed. All you need is to have and be able to operate a PC of some description. Topics include a PC overview, memory upgrades, how to add a hard drive, how to add an extra floppy drive, display adaptors and monitors, fitting a maths co-processor, keyboards, ports, mice and digitisers. All are covered in detail with emphasis on practical advice rather than theory. The final two chapters deal with maintenance (including the preventive kind) and repairs, and the increasingly popular subject of DIY PCs. 1994, Revised Edition. 176 pages. 198 x 130mm, illustrated.

WS95D	Mod & Repair PCs	£5.990	£5.990 NV

## Electrical Appliances

by Graham Dixon  
Haynes

This Haynes Home DIY book deals comprehensively with all aspects of the use, maintenance and repair of electrical appliances around the home. It is divided into seven main sections:

- Introduction - Includes a detailed safety guide and the tools & equipment needed for the job
- Understanding Electricity - An essential guide to plugs and sockets, heating elements, temperature control devices and electrical circuit testing
- Kitchen Appliances - How to repair and maintain refrigerators & freezers, hobs & ovens and most other kitchen appliances
- Personal Equipment - Shavers and hairdriers
- Living Room Appliances - Portable heaters, video and audio equipment
- Cleaners and Power Tools - Vacuum cleaners, power tools and garden power tools
- Further Information - Using a flowchart, buying spare parts, low insulation, rechargeable batteries and glossary

Photographs and diagrams accompany the clearly presented text and the easy-to-follow fault finder charts help pinpoint the cause of a problem and the action to be taken.

The repair of commonly occurring faults is explained in detail which includes - a list of all the tools required and replacement parts and captioned step-by-step photographs to show precisely what to do.

Altogether, this book is a 'must have' for the DIYer interested in undertaking electrical maintenance/repair work. 1995. 186 pages. 270 x 210mm, illustrated. British book.

## Washing Machines, Washer Driers and Tumble Driers

by Graham Dixon  
Haynes

This Haynes Home DIY book deals comprehensively with all aspects of care, maintenance and repair of washing machines, washer driers and tumble driers in a clear accessible manner. It is divided into six sections:

- Introduction - Includes a safety guide with emergency procedures and a complete guide to tools and equipment
- Understanding Electricity - All the basics, plugs & sockets and using a test meter
- Installation - Plumbing instructions, venting and programme testing
- Care and Repair - The importance of regular maintenance and how to overcome the common causes of poor washing results
- Fault Finding - What to do about leaks and why the machine is not emptying. Replacing door seals, times and programmers. How to deal with motors, belts, suppressors, bearings and electrics. What can go wrong with dry only machines and how to put it right.
- Further Information - Full of useful tips on knowing your machine, buying spare parts and how to use a flow chart. There is a glossary for quick and easy reference.

Photographs and diagrams accompany the clearly presented text and all methods of prevention and repair are fully explained in a non-technical manner.

Each component part is photographed and explained in full detail, with a thorough explanation of the way it works, what can go wrong, and how to maintain, repair and replace it.

Altogether, this book is essential reading for anyone wishing to carry out washing machine maintenance or repair work. 1995. 186 pages. 270 x 210mm, illustrated. British book.

## Troubleshooting and Repairing Audio Equipment

Third Edition 1996

Homer L Davidson

This book is written in an easy-to-understand style with clear illustrations and test readings. It is packed with more than 500 practical how-to photos, circuit schematics, and illustrations. It is a must, not only for the professional, but for the aspiring trainee. The book has 13 chapters dealing with repairs on pocket-size cassette stereo players, compact stereo tape decks, boom-box players, deluxe AM/FM/MPX tuners, deluxe amplifiers, car stereo cassette players, turntables, CD players, car cassette/disc players, telephone answering machines, stereo speakers and high-power car radios. 1993. 482 pages. 187 x 234mm, illustrated. American book.

## Servicing Audio and Hi-Fi Equipment - Second Edition

by Nick Beer

Written specially for service technicians and engineers, this book is designed as a bench-side companion and guide. Its purpose is to ease and speed up the process of fault-diagnosis, repair and testing of all classes of home audio equipment.

This latest edition has been expanded to include Mini Disc and DCC, ICE systems, RDS, Photo-CD, MASH and single-bit DACS. Fully illustrated with photographs, diagrams, fault-finding charts and circuits, the book also includes a comprehensive guide to manufacturers and suppliers, and a 'symptom index' for quick access to specific advice and suggestions in particular areas. The book is especially notable for offering some advice, as part of the section on repair techniques, about handling SMDs (Surface Mounted Devices), and how to remove and replace these tiny components and what to watch out for. 1994. 263 pages. 252 x 194mm, hard cover, illustrated.

## Understanding and Servicing CD Players

by Ken Clements

The book provides a very readable understanding of CD technology, and will supplement the relevant service manual for a CD that requires servicing.

The text takes a problem solving approach with numerous examples, circuit diagrams and line drawings. Engineers who need to achieve a better understanding of CD technology will find this book an essential tool for fault diagnosis, adjustment and repair. The profusely illustrated text covers both the mechanical design and the ICs used within a CD player, and gives a thorough grounding in the basic principles of CD technology. All the various servo systems are discussed as are the decoder, system control and power supplies. Written specifically with service technicians and engineers in mind, the book will also be invaluable to the audio enthusiast, as it is designed to be a bench-side companion and guide to the principles involved, in repairing and adjusting CD players. 1994. 210 pages. 253 x 193mm, illustrated. Hardback.

## Servicing TV & Video Equipment

by Eugene Trundle

This 'hands-on' servicing book is specifically aimed at repair and service technicians and engineers, but students and laypeople should also find it useful. It guides its readers in test and diagnostic procedures for quick fault-finding in domestic video products, namely TVs, VCRs, cameras and camcorders. Based on many years of practical bench and field experience, the book has a minimum of regard to theoretical principles and circuit explanations, which are well covered elsewhere. Here the emphasis is on the practical nuts-and-bolts business of fault diagnosis and repair. Seventeen chapters are individually targeted on separate aspects of the equipment, dwelling longest on the most troublesome sections: TV power supplies, line timebases, intermittent faults and repair techniques. Of the 225 illustrations, fifty-four are off-screen photographs, and thirteen are fault-finding charts. A symptom index is included for easy reference to this storehouse of practical advice straight from the repair bench. 1989. 209 pages. 253 x 194mm, illustrated.

Order Code	Type	Price each exc. VAT	inc. VAT each
WS76H1	Servicing TV & Video	£25.000	£25.000 NV

## Servicing Video Cassette Recorder Equipment

Fourth edition

by Steve Beeching

The book covers VHS and Betamax machines as well as the Philips N1500/N1700 and V2000 systems. Long play machines and hi-fi sound systems are included as well as the digital techniques applying to servos and signal processing circuits. Common faults on many machines are discussed with possible solutions. A very comprehensive book which will prove invaluable to all owners of modern video recorders. The latest edition includes details of Video 8, VHS HQ, S-VHS, VHS-C, Camcorders etc. 1993. 245 pages. 252 x 198mm, illustrated.

WP56L	Service Vid Recorders	£25.000	£25.000 NV

## Home VCR Repair Illustrated

by Richard Wilkins & Cheryl A. Hubbard

This book was based on an accumulation of ideas and the experience of the author gained in VCR repair. The methods described are simple and safe to use on any VCR, if you follow the instructions carefully. The book is designed to teach you how to do-it-yourself in your own home, using household items and basic tools and step-by-step instructions. No test equipment is involved. The book is broken down into sections that correspond to each particular section of a VCR, so you can

easily proceed to the relevant section. Most chapters contain a review section, providing step-by-step instructions to assist in diagnosis and repair. This also acts as a checklist so you don't miss any important steps when carrying out repairs. The examples discussed and shown in the photographs try to cover every commercial possibility and at no time is any example a specific make or model of VCR. **Warning:** references may be made to the American standard 110V AC mains supply. You should translate these into the English 240V AC mains standard and take the appropriate precautions with the higher voltage level. 1991. 398 pages. 234 x 188mm, illustrated. American book.

### Special Effects in Television

Third Edition

by Bernard Wilkie

Special effects are an essential part of programme making, and this authoritative book is the most comprehensive work on practical television special effects written - from the most simple to the most sophisticated electronic equipment installed in modern studios. There is guidance on the correct procedure and safety considerations for those engaged in dangerous sequences. The author has endeavoured to strike a balance between the new and old effects, retaining ideas that would be helpful to small production units, freelance workers and amateur video makers, but includes processes that are available to those working in major studios. Special Effects in Television covers every aspect and craft involved in this area of television production. 1995. 295 pages. 244 x 189mm, illustrated.

## Newnes Guide to TV and Video Technology

by Eugene Trundle

This book represents a breakthrough in terms of value-for-money technical information. Based on two of the most popular Technical Guides, this new edition brings together in depth accounts of television and VCR technology. In twenty one chapters, over 250 illustrations and 400 odd pages, the technicalities of television, video and allied equipment are lucidly and concisely explained for the benefit of technicians, students, laymen and others. Coverage is wide and deep, extending from the camera lens via videotape signal processing and deck management to the very latest TV screen technology. Along the way we look at space satellites, microcomputers and such practical matters as videorecorder servicing and maintenance. Eugene Trundle, a practising video and TV engineer, has a knack of conveying highly technical information in the form of a 'good read'. It is well demonstrated here. 1988. 432 pages. 185 x 128mm, illustrated.

WS34M	Guide TV-Vid Tech	£14.990	£14.990 NV

## Television Receivers

by K. F. Ibrahim

This book sets out to comprehensively explain the use of discrete and IC components in modern TV receivers. The text is profusely illustrated with diagrams, many of which are practical circuits currently used by TV receiver manufacturers. The book provides a thorough coverage of TV receiver theory and practice, starting from basic principles of monochrome and colour reception through to digital processing of TV signals. A full explanation of NICAM digital stereo and computer controlled TV receivers is included, as well as comprehensive coverage of digital techniques, that are used in modern TV receivers. The book will be particularly useful for students studying BTEC level II, III, IV, City and Guilds courses and anyone involved in courses with television reception as a subsidiary topic. The TV servicing engineer will find this book a useful source of reference reading. 1992. 230 pages. 245 x 189mm, illustrated.

## Lenk's Television Handbook – Operation and Troubleshooting

by John D. Lenk

From basic TV circuits to advanced digital systems, this essential handbook is the authoritative volume on how it works and how to fix it for all types of television equipment. The author offers proven troubleshooting tips and techniques for every TV set and monitor in common use. Also included is an in-depth coverage of emerging technologies such as surround sound, digital TV, RGB interface, and on-screen display (OSD). 1995. 332 pages. 236 x 155mm, illustrated. Hardback.

## Interactive Television

by Winston William Hodge

TV and computing are becoming one, and with this comprehensive reference, the reader will soon be knowledgeable in the fast developing fields of video-on-demand (VOD), pay-per-view TV, interactive TV and advanced multimedia. In the highly evolved global telecommunications networks that are being developed we will soon have access to an unlimited number of channels of video, telephony, switched data, wide area networks, business data links and much more. This book gives an excellent insight into these interconnected high performance networks that are often referred to as the Information Superhighway. 1995. 235 pages. 241 x 190mm, illustrated. American hardback book.

Price each shown, but sold only in multiples of 1.

## Guide to Satellite TV

Installation, Reception and Repair

Third Edition

by D.J. Stephenson

A practical guide, without excessive theory mathematics, to the installation and servicing of satellite TV receiving equipment, primarily for those involved in the aerial installation and TV trades. The book includes computer programs, written in the simplest Microsoft dialect of BASIC to run on any PC or 8-bit micro, for the calculation of elevation, azimuth, polar and declination angles from any point in Europe for any current or future satellite. Among the many practical matters covered are the problems of 'sparklies', rain, trees, and vandals (the latter solved by the 'two-drunks high' dish-mounting rule!). Contents include an overview of satellite TV, antennæ, head units, cables, line amplifiers and connectors, satellite receivers, the 'linked budget' calculation; installation and alignment of antennæ and

cabling, indoor wiring up, repairs and appendices and glossary. 1991. 381 pages. 240 x 160mm hard cover, illustrated.

WT06G 1	Guide To Sat TV	£18.990	£18.990 NV

## World Satellite TV and Scrambling Methods

The Technicians' Handbook – 3rd Edition from Frank Baylin, Richard Maddox and John McCormac

The purpose of this book is two-fold; to provide a technical training and reference source on home satellite systems, and to provide a troubleshooting manual that can be used on almost any satellite receiving system. Although satellite systems have become a commonplace consumer product, their installation and service are certainly more complex than, for example, stereo or other video entertainment components. This profusely illustrated book assumes that the reader already has an understanding of basic electronics, as well as some knowledge of TV and FM broadcasting. It is indispensable for satellite television system installers, technician engineers or anyone who is interested in acquiring detailed knowledge of satellite systems. 1993. 371 pages. 277 x 214mm, illustrated. American book.

## The Satellite Book

A Complete Guide to Satellite TV Theory and Practice

Third Edition

John Breeds

This book provides a broad yet fairly in-depth introduction to satellite related subjects for both technicians and enthusiasts. The chapters are organised into two broad sections; practical, and theoretical. The topic for each chapter was carefully chosen, and the text written by a recognised expert in this particular field. The result is a handbook that is both comprehensive and authoritative. Contains lots of really interesting information about the satellites, signal protocols, scrambling, signal distribution and much more. 1994. 297 pages. 295 x 210mm, illustrated.

WT46A 2	The Satellite Book	£32.000	£32.000 NV

## Satellite Television Installation Guide

Fifth Edition

by John Breeds

The purpose of this booklet is to help newcomers to correctly align both azimuth/elevation and polar mount dish types. If a polar mount assembly is accurately set up then the dish will be able to automatically track the satellites available now, and those launched in the future. The usual knowledge and skills normally associated with installing terrestrial UHF aerials are assumed. The booklet provides detailed guidelines on how to install a dish and receive satellite pictures. There are no mathematical explanations or complex formulae involved. The notes and procedures given are based on practical experience. They provide readers with hints and tips, tricks of the trade and other quick but accurate methods of aligning a dish. The challenge of the changing technology must be continually met by all of the support services, and this guide is designed to help installation technicians achieve this, and so is equally useful to the competent home DIY enthusiast. 1994. 80 pages. 297 x 210mm, illustrated.

## Electronic Projects for Video Enthusiasts

by R. A. Penfold

At some stage most video enthusiasts try their hand at producing a tape of recorded highlights, and there are many ready made accessories which enable the enthusiast to undertake more professional editing. Many of these accessories can be constructed for a fraction of the cost and this book provides ten designs for video accessories – five circuits for audio processing including mixers, faders and dynamic noise limiters, and five for video processing which include faders, sideways wiper and video crispener. All the projects can be either battery powered or powered from a suitable mains power supply – a suggested circuit is included. All the projects use cheap and readily available components, and full construction details are provided, including stripboard layouts and wiring diagrams. No elaborate test equipment is required, and where appropriate, simple setting up procedures are included. 1994. 128 pages. 178 x 111mm, illustrated.

## Practical Photojournalism – A Professional Guide

**Second Edition**  
by **Martin Keene**  
Written by a very competent and experienced photojournalist, this manual opens up the way for those who want to understand more about the subject, or even contemplate entering the profession. Not only will it enable the reader to improve their photographic skills, but will also help develop their journalistic

talent.

The author takes the reader through the subject of camera lenses, cameras and camera accessories. Film types and film processing together with printing are also covered. He spends three chapters on 'The Working Photographer' dealing with the practical aspects of the type of incidents required to be covered, the technical aspects of actual picture composition and studio work. One chapter deals with the *LAW* and how it affects the photojournalist and his response to delicate situations. Other subjects covered include the picture desk, using pictures, electronic picture transmission and digital cameras, and careers.

1995. 255 pages, 244 x 190mm. Illustrated.

## Troubleshooting and Repairing Camcorders

Homer L Davidson

**McGraw-Hill**

Aimed at technicians who need up-to-the-minute information on new camcorder technology, this best-selling manual puts practical, hands-on troubleshooting and repair techniques and advice at your fingertips. Now thoroughly updated to cover new makes and models, it also provides you with vital information about technological

advances, including fuzzy logic circuits, image stabilisation, the new mini-camcorders, and much more. Another important new feature of this extensively illustrated guide is the addition of numerous flowcharts throughout the book. And if you're a novice at camcorder repair, you'll appreciate the helpful chapter on electronic components and test equipment and techniques.

## Troubleshooting and Repairing Solid-State TVs

Homer L Davidson

**McGraw-Hill**

If you need accurate, thorough information on solid-state television repair, this unparalleled field guide from trusted electronics author Homer L Davidson is the most comprehensive and useful book you can buy. Now even better than its predecessors, this extensively revised edition is completely up-to-date. You'll also find exclusive new features - including flowcharts throughout - to

make finding answers even easier and faster. If you're new to TV repair or need to refresh your skills, Davidson gives you a handy overview of the basics of maintenance and repair. You will find detailed troubleshooting guidance on low-voltage power supplies; vertical, colour, sound, and picture tube circuits; practical convergence circuits; and more.

## Video Engineering

Andrew F Inglis and Arch C Luther

**McGraw-Hill**

Vastly expanded to provide full coverage of the many growing nonbroadcast applications of video such as computer display systems and multimedia applications, this Second Edition is an invaluable all-in-one reference for video professionals and a useful textbook for anyone studying video engineering. Particular attention is given to pathbreaking HDTV technology that will revolutionise television broadcasting, as well as uses of digital video technology in the generation and display of computer images. Other key sections address fundamentals of both analog and digital video systems...basic criteria for specifying image quality...and application of colorimetric theory to video systems.

## Equipment Wire

### Wire-Wrapping Wire (1/0.25)

A solid-core single silver-plated copper conductor designed especially for wire-wrapping. Insulation resists shrinkage when soldering

#### Specification

Single core: 1/0.25mm silver plated 30AWG. (33SWG)  
Sheath: 0.125mm Kynar  
Overall diameter: 0.5mm  
Nom. conductor area: 0.5mm<sup>2</sup>  
Max. working voltage: 300V RMS  
Max. current: 0.4A  
Colours: Black, red and white  
On 25m reels only

Retail Unit Price each (inc. VAT).

### Light-Duty Connection Wire (10/0-1)

A flexible wire, which is ideal for signal interconnections within apparatus where it is necessary to pack a large number of wires into a small space.

Stranded core, single: 10/0-1mm copper  
Sheath: 0.3mm PVC  
Overall diameter: 0.9mm  
Nom. conductor area: 0.0785mm<sup>2</sup>  
Max. working voltage: 1000V RMS  
Max. current: 0.5A  
Colours available: Black, Blue, Green, Orange, Red, White, Yellow.  
On 25m reels only.

### Solid Core Wire (1/0-6)

A wire having a single solid core ideal for plate-wiring (running wires across a chassis with all wires straight or at right-angles to one another) because wire stays exactly in formed shape without ties.

Single core: 1/0-6mm copper 22AWG (23SWG)  
Sheath: 0.3mm PVC - conforms to DEF61-12 (part 6) Type 2  
Overall diameter: 1.2mm  
Nom. conductor area: 0.28mm<sup>2</sup>  
Max. working voltage: 1000V rms

Colours: Black, Blue, Green, Orange, Red, White, Yellow.  
In 10m approx packs and on 100m drums.

**Power Connection Wire (32/0-2)**

A flexible wire, for earth and power interconnections within apparatus.

Stranded core, single: 32/0-2mm copper  
Sheath: 0-6mm PVC - conforms to DEF61-12 (Part 6) Type 3 2-5mm  
Overall diameter: 2-5mm  
Nom. conductor area: 1-0mm<sup>2</sup>  
Max. working voltage: 1500V rms  
Max. current: 6A (commercial rating 10A)  
Colours: Black, Blue, Brown, Green, Red, White, Green/Yellow.

Sold per metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

**Switchgear Cable to BS6231**

**Heat Resisting PVC Equipment Wire to BS7646**

A range of equipment wire to BS7646 that is suitable for operating temperatures beyond the normal PVC range of -5°C to +70°C. The special grade of high temperature PVC, used for the insulation, meets the demands of operating temperatures up to 105°C and is resistant to a wide range of oils, impregnating varnishes and chemical solutions. Ideal for connections on motor-windings, transformers and other components that undergo encapsulation, or other finishing and drying operations. The insulation is to BS7646 Type 4 and the wire is suitable for continuous operation at conductor temperatures not exceeding 105°C for periods up to five years, without embrittlement. The insulation material will withstand temperatures up to 150°C for periods up to 6 hours after immersion in a variety of finishing and encapsulation varnishes. The conductor is tinned annealed high conductivity copper wire to BS 6360. Available in two sizes and two colours, red and black, on 25m reels only.

**High Current Wire (50/0-25)**

A flexible wire for high current applications.  
Stranded core, single: 50/0-25mm copper  
Sheath: 0-8mm PVC - conforms to BS6231 (Table 6) Type B 3-81mm  
Overall diameter: 2-5mm  
Nom. conductor area: 2-5mm<sup>2</sup>  
Max. working voltage: 600V  
Max. current: 30A  
Colours: Black, Green, Red  
Sold per metre (max. length in one piece 50m) and on 50m reels.

**Silicone Extra Flexible Wire**

A high quality silicone-insulated wire that has outstanding electrical and mechanical properties, with a very small bend radius. The wire will operate over the temperature range -50° to +180°C and will withstand temperatures up to 300°C for 10 seconds. The wire is ideal for high current, low voltage applications such as battery powered models and test leads.

**Specification**

Cross-section: 2.5mm<sup>2</sup> (13AWG)  
Number of wires: 462 x 0.08mm (dia.)  
Thickness of insulation: 0.75mm  
Lead diameter: 3.5mm  
Rated voltage: 500V  
Rated current: 32A  
Test voltage: 2000V  
Sold per metre and on 25m reels. Available in red and black.

## Loudspeaker Cables

### Miniature Loudspeaker Cable

A flexible twin cable having a 'figure 8' shape. Ideal for loudspeaker connections etc.

Stranded core, twin: 7/0.2mm copper  
Sheath: White PVC with one side ribbed or traced for identification of polarity

Overall size: 4-0 x 2-0mm  
Nom. conductor area: 0.22mm<sup>2</sup>  
Max. working voltage: 60V RMS  
Max. current: 1A  
Sold per metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 46	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+

### Loudspeaker Cable

Flexible figure-8 section twin cable for loudspeaker connections.

Stranded core, twin: 13/0.2mm copper  
Sheath: White PVC with one side marked with black stripe for identification of polarity

Overall size: 4-0 x 2-0mm  
Max. current: 2-5A  
Sold per metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

### Heavy Duty Loudspeaker Cable

A flexible twin cable having a 'figure 8' shape. The cable will carry up to 15A, suitable for amplifiers up to 500W output.

Stranded core, twin: 42/0.2mm copper  
Sheath: White PVC with one side marked with black line for identification of polarity

Overall size: 6 x 3mm  
Nom. conductor area: 1-32mm<sup>2</sup>  
Max. working voltage: 60V RMS  
Max. current: 15A

Sold per metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 48	Price each exc. VAT			inc. VAT each 1+

**Hi-Fi Loudspeaker Cable**

A flexible twin cable having a 'figure 8' shape. The cable will carry up to 18A. Recommended by hi-fi experts. Stranded core, twin: 79/0.2mm copper Sheath: White PVC with one side marked with a black stripe for polarity identification.

Overall size: 6 x 3mm  
Nom. conductor area: 2.48mm<sup>2</sup>  
Max. working voltage: 100V RMS  
Max. current: 18A  
Sold per metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

**High Quality OFC Loudspeaker Connection Cable**

An exceptionally high quality speaker connection wire. Each cable contains hundreds of extremely thin, single strands to improve electron flow at high frequencies. Each cable has a larger than normal overall diameter for absolute minimum impedance, thus ensuring good response at bass frequencies. The strands are made from 100% Oxygen Free Copper (OFC), a process which completely removes any trace of oxygen from the wire surface during manufacture and so preventing subsequent oxidation of same, will interfere with the efficiency of the surface electron flow. The extra-flexible, transparent, figure-8 sheathing has one side marked with '+' symbols for polarity identification.

**Specification**

**Type S12**

Strands: 413 strands x 0.1mm dia.  
Nominal conductor area: 3.24mm<sup>2</sup>  
Sheath outer diameter: 4.4mm  
Total sheath width: 9.2mm  
Max. working voltage: 300V peak  
Working temperature range: -10°C to 105°C

**Type S10**

Strands: 1,050 strands x 0.08mm dia.  
Nominal conductor area: 5.28mm<sup>2</sup>  
Sheath outer diameter: 5.5mm  
Total sheath width: 11.5mm  
Max. working voltage: 300V peak  
Working temperature range: -10°C to 105°C  
Sold per metre. Maximum length in one piece, 50m. Also available on 50m reels.

Retail Unit Price each (inc. VAT).

**High Quality Audio Speaker Cable**

A high quality cable ideal for use with speaker systems where sound quality is of the utmost importance. Colour coded cable insulation ensures

polarity sensitive connections are easy to implement. Supporting filaments provide a method of stripping back the outer insulation, and guarantee uniform surface contour. Sold per metre and 50m reels.

**Specification**

Conductor type: 100 x 0.1mm x 2 cables  
Insulation type: Polyethylene  
Overall diameter: 10mm  
Capacitance: 63pF/m

**Silver-Plated OFC Speaker Cable**

Flat 2-core loudspeaker cable featuring silver-plated, OFC (Oxygen Free Copper) conductors. Silver plating is to a thickness of 100µ (microns, or 40µin.). Two different gauges of cable are available as medium capacity (0.70mm<sup>2</sup> total cross section), and high capacity (1.45mm<sup>2</sup>), and in each case, each core is organised as three bundles of twisted strands, the three bundles are again twisted together and insulated in a 3-channel sleeve. For the medium capacity cable, the sleeve forms a figure of eight cross section with its opposite partner, and can be easily separated.

The high capacity type encloses the inner sleeve with a clear flexible outer sheath. The outer sheath is joined to its opposite partner by a narrow flat strip which has reduced thickness at its join with each sheath, making it easy to 'unzip', or pull apart, the individual wires for connection to speaker terminals. (The centre strip can then be trimmed back with wire cutters.) The centre strip has a red stripe on one side for polarity identification purposes. Note: Silver Solder DP52G must be used to solder silver wires.

Each type sold by the metre.

**Flat High Quality Speaker Cable**

A flat 4-core high quality speaker cable made from high purity OFC bare copper conductor, stranded tightly into a rectangular cross-section for perfect sound transmission. Each core is made from 620 strands of 0.07mm copper and covered in a very high quality anti-oxidation clear PVC. The cores can easily be separated and the outer cores are colour

coded for identification of positive, and left and right. Maximum working voltage 300V. Sold by the metre (max. length in one piece 50m) and on 50m reels.

**ICE Cables**

**Car Battery Power Cable**

High quality OFC 4AWG copper cable made from 1050 strands of 0.16mm diameter copper. Intended for use in cars, with high power in-car entertainment systems, especially CD players (see entertainment section), to ensure the very best sound quality output. A range of gold-plated accessories, i.e. battery clamp, connector block etc., will also be found in the entertainment section. The cable is intended to be used with the distribution block and fuse holders, it is NOT intended to supply starter motors or other car electrical accessories. Available in red and black and sold by the 1/2m and on 50m reels.

## Signal/Alarm Cables

### Signal/Burglar Alarm Cable to BS6360/BS6746

General purpose 4-core, 6-core and 8-core signal cables to BS6360 and BS6746 ideal for use with security alarms and other applications where low voltages and low currents are being used. The cable contains flexible wires each having seven strands of 0.2mm tinned annealed copper insulated wire.

#### Specification

Max. working voltage: 60V RMS  
 Max. current per core: 1A  
 Max. conductor resistance: 92.4Ω/km 20°C  
 Max. operating temperature: 70°C  
 Conductors: 7/0.2mm strands of annealed copper wire conforming to BS6360

#### Insulation:

PVC to radial thickness of 0.2mm nominal conforming to BS6746

#### Sheath:

PVC nominal wall thickness 0.5mm

#### Nominal overall diameter

4-core: 3.5mm  
 6-core: 4.1mm  
 8-core: 4.5mm

#### Wire insulation colours

4-core: Red, blue, yellow, black  
 6-core: Red, blue, yellow, black, white, green  
 8-core: Red, blue, yellow, black, white, green, orange, brown

Sold per metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

## Telephone Cables

### Telephone Cable Type CW1308

A high quality cable complying with British Telecom specification CW1308 for use in wiring telephones in customers' premises. It is also ideal for use in other low voltage, low current applications. The cable contains four solid tinned annealed copper conductors each 0.5mm diameter insulated with PVC. Insulation colours are blue-white, white-blue, orange-white and white-orange.

Also available in 6-way, with extra green-white and white-green conductors.

Overall insulation is in white PVC. 6-way is also available with black PVC insulation.

Nom. conductor area: 0.2mm<sup>2</sup>

Max. working voltage: 80V

Max. current per core: 0.25A

Overall diameter: 4-wire 3.6mm

6-wire 4.5mm

Sold per metre (max. length in one piece 100m) and on 100m reels.

Note: 'British Telecommunications requires of any person who connects subscribers' apparatus directly or indirectly to any telecommunication system, that it runs to comply with the terms and conditions relating to the attachment of subscribers' apparatus under which service is provided by B.T.

### Flat IPC Telephone Line Cord CW1311

Four-way flat D section telephone line cord specifically designed for use with the latest style 4 and 6-way IPC (Insulation Piercing Connector) jack plugs, see Telecommunications Section.

The stranded wires are 7 x 0.15mm, and colour

coded Red, Blue, Green, White, Black and Orange, and are sheathed overall in a light grey PVC sheath.

Sold per metre (max. length in one piece 100m).

Retail Unit Price each (inc. VAT).

## Trailer Cables

### 7-Core Trailer Cables

A range of 7-core cables primarily intended for low-voltage (max. 50V DC) trailer connections.

The cables have six cores coloured coded brown, blue, yellow, green, red and black with the same nominal conductor area, and a white core with a larger conductor area.

Each core is made from stranded copper with a PVC sheath. Standard 12N (XR55K) cable is suitable for obligatory lighting circuits supplied through 12N series connectors (coloured black). Heavy duty 12S (WE15R) cable is suitable for supplementary circuits supplied through 12S series connectors (coloured grey). Sold per metre and by the reel (see table).

Specification

Standard 12N (XR55K) HD 12S (WE15R)

**Towing Connectors**  
See Connectors Section for our range of Towing Connectors and Accessories

**Ribbon Cables**

**Ribbon Cables**

A flat ribbon-type cable which facilitates wiring in confined spaces. Stranded core 7 x 0.2mm tinned copper conductors sheathed in PVC, colour coded in like manner to the standard resistor colour code, and bonded together to form a flat 'ribbon'.

Nom. conductor area: 0.25mm<sup>2</sup>  
Max. working voltage: 900V DC,  
Max. current per core: 1.4A  
Core colours: 1 Brown, 2 Red, 3 Orange, 4 Yellow, 5 Green, 6 Blue, 7 Violet, 8 Grey, 9 White, 10 Black, then repeated.

Three types available:  
10-way (overall size 13 x 1.3mm)  
20-way (overall size 26 x 1.3mm)  
30-way (overall size 39 x 1.3mm)  
Sold per metre (max. length in one piece 30m) and on 30m reels.

Retail Unit Price each (inc. VAT).

**Flat Cable Cutter**

Xcelite

A handy cutting tool for flat cables, that gives an even, undistorted cut across all conductors (up to 64 conductors). A built-in guide guarantees a square cut, reefered to the edge of the cable. The cutter has a one-piece solid blade for increased durability and accuracy. The cutter is capable of cutting under-carpet electrical cable (up to 4 conductors).

Retail Unit Price each (inc. VAT).

DF91Y	Flat Cable Cutter	£64.500	£56.620	£53.050	£75.790

**Networking Cables**

**4-Pair LAN Data Cable Category 4 (20Mbits/s)**

This 4-pair cable is intended for use on high-speed LAN applications up to 16Mbits/s. The cable complies with the electrical characteristics of EIA/TIA TSB 36 Category 4, Nov. 1991. Each solid 0.51mm conductor has a polyolefin insulation, with all the pairs housed in a PVC jacket (4.8mm OD). There is no screening.

## 4-Pair LAN Data Cable Category 5 (100Mbps/s)

This 4-pair cable is intended for use on high-speed LAN applications up to 100Mbps/s. The cable complies with the electrical characteristics of EIA/TIA TSB 36 Category 5, Nov. 1991. Each solid 0.51mm conductor has a polyolefin insulation, with all the pairs housed in a PVC jacket (4.8mm OD). There is no screening.

**Manufacturer's Code 703108**

Electrical Properties @ 20°C		
MHz	Attenuation dB/100m	Near end crosstalk dB
1	2-1	62
4	4-3	53
10	6-6	47
16	8-2	44
20	9-2	42
31-25	11-8	40
62-5	17-1	35
100	22-0	32

Characteristic impedance: 100Ω ± 15  
Mutual capacitance: 46pF/m  
Available per metre or on 100m reels.

*Retail Unit Price each (inc. VAT).*

Order Code	Type 75	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
CW45Y	100Mb LAN Cabl Metre	£0.451			£0.530
PB75S 5	100Mb LAN Cabl 100m	£37.310	£32.000	£28.750	£43.650

## RS232 Multi-Pair Network Cable

A range of flexible (stranded), multi-pair cables that are suitable for the interconnection of peripheral equipment and host computers, where local area networks are not in use, e.g., low-speed data transfer.

**Electrical Properties at 20°C**

Pair conductance: 98pF/m @ 1kHz  
Capacitance @ 1kHz: 164pF/m (between 1 cond. and other cond. connected to screen)

Attenuation 100kHz: 1.3dB/100m  
Attenuation 1MHz: 7.3dB/100m

**Mechanical Properties**

Conductors stranded: 0.22mm<sup>2</sup> TC  
Insulation type: SR-PVC  
Overall screening: Foil  
Drainwire stranded: 0.22mm<sup>2</sup> TC  
Jacket type: PVC  
Temperature range: -20°C to +80°C  
Minimum bending radius: 8 x ODmm

Maplin Code	No. of pairs	OD (mm)	Length

## Thin Ethernet

A thin Ethernet cable that conforms to IEEE 802.3, and is equivalent to Belden 9907.

® Ethernet is a registered trade mark of Xerox Corp.

**Specification**

Conductor: Copper stranded tinned AWG 21/19  
Core insulation: Foamed polyethylene  
Taping: Polyesterfoil on both sides laminated with silver  
Braiding: 36AWG tinned copper wires, optical cover 93%  
Impedance: 50Ω  
Attenuation (maximum): 3-3dB/100m @ 5MHz  
4-6dB/100m @ 10MHz  
Capacity: 81pF/m @ 1kHz  
Resistance: 36Ω/km @ 20°C maximum  
Operating temperature: -10°C to +70°C  
Sold on 100m reels.

*Retail Unit Price each (inc. VAT).*

Order Code	Type 75	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
AP16S 7	Thin Ethernet	£39.050	£36.750	£34.500	£45.890

## Sheath Stripper

**TTI (Thurby-Thander)**

A self-adjusting sheath stripper that is designed for removing the outer insulation from data/signal cables up to 11mm diameter, e.g., twisted pairs (UTP and STP), 'Belden' cables, multicore cables (screened and unscreened), instrumentation and telephone cables. The device is easy to use and has no open blades. It adjusts automatically to sever PVC or low smoke (plenum) insulation without damaging the braid, foil or conductors.

**Manufacturer's Code 20020**

*Retail Unit Price each (inc. VAT).*

Order Code	Type 75	Price each exc. VAT			inc. VAT each
		1+	4+	20+	1+
CW34M	Sheath Stripper	£8.670	£8.170	£7.600	£10.190

## Mains Cable

### 2-Core 3A Mains Cable 2192Y

A 2-core mains cable with double insulation suitable for low power use, lighting etc. Stranded core, two 16/0.2mm copper conductors.

Sheath: Brown and blue PVC in an oval PVC overall sheath — conforms to BS6500 1990 Table 15.

Overall size: 5.4 x 3.4mm  
Nom. conductor area: 0.5mm<sup>2</sup>  
Max. current: 3A  
Colours: Black or White.

Sold per metre (max. length in one piece 100m). Also available on 100m reels.

*Retail Unit Price each (inc. VAT).*

Order Code	Type 80	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
XP47B	Twn Mains DS Black	£0.246			£0.290

### 2-Core 6A Mains Cable 3182Y

A 2-core mains cable with double insulation suitable for use with medium power double insulated appliances. Stranded core, two 24/0.2mm copper conductors.

Sheath: Brown and blue PVC in a round PVC overall sheath — conforms to BS6500 1990 Table 16.

Overall diameter: 6.5mm  
Nom. conductor area: 0.75mm<sup>2</sup>  
Max. current: 6A  
Colours: Orange, White or Black

Sold per metre (max. length in one piece 100m). Also available on 50m and 100m reels

*Retail Unit Price each (inc. VAT).*

### 3-Core 3A Mains Cable 2183Y

A 3-core mains cable ideal for equipment having power ratings up to 750W. Stranded core, three 16/0.2mm copper conductors.

Sheath: Brown, Blue and Green/Yellow PVC in overall PVC sheath — conforms to BS6500 1990 Table 15.

Overall dia.: 5.6mm  
Nom. conductor area: 0.5mm<sup>2</sup>  
Max. current: 3A  
Colours: Black or White  
Sold per metre (max. length in one piece 100m). Also available on 100m reels.

*Retail Unit Price each (inc. VAT).*

Order Code	Type 86	Price each exc. VAT			inc. VAT each

### 3-Core 6A Mains Cable 3183Y

A three-core mains cable with a thick outer sheath available also in orange for added safety when used as a trailing lead, e.g. on power tools. Stranded core, three 24/0.2mm copper conductors.

Sheath: Brown, Blue and Green/Yellow PVC in a substantial overall

PVC sheath – Conforms to BS6500 1990 Table 16.  
6.9mm  
Overall dia.: 0.75mm<sup>2</sup>  
Nom. conductor area: 6A  
Max. current: Black, White or Orange  
Colours:  
Sold per metre (max. length one piece 100m).  
Also available on 50m and 100m reels.

Retail Unit Price each (inc. VAT).

### Coiled Mains Cables

3-core extendible mains cable for use with tools, instruments etc. Two types are available; 1A type and 6A type.

#### 1A Type

Stranded core: Three 17/0.122mm copper conductors

Sheath: Brown, Blue and Green/Yellow PVC in a coiled black PVC sheath.

Max. current: 1A

Extended length: 1.8m max.

#### 6A Type

Stranded core: Three 42/0.2mm copper conductors

Sheath: Brown, Blue and Green/Yellow PVC in a coiled black PVC sheath.

Max. current: 6A

Extended length: 2.9m max.

Retail Unit Price each (inc. VAT).

### 4-Core 6A Mains Cable 3184

A 4-core flexible mains cable for use in mains controlled applications. Available in 6 and 13 amp types available:

Sheath: Brown, Blue, Black and Green/Yellow rubber in a hard-wearing overall black rubber sheath to BS6500 1990 Table 6.

XR48 Overall diameter: 8.35mm  
Nom. conductor area: 0.75mm<sup>2</sup>  
Max. current: 6A

GF71 Overall diameter: 12.5mm  
Nom. conductor area: 1.5mm<sup>2</sup>  
Max. current: 13A

Sold per metre (max. length in one piece 50m).

Retail Unit Price each (inc. VAT).

Order Code	Type 102	Price each exc. VAT		inc. VAT each 1+

XR48C	4-Core Mains	£1.060		£1.250
GF71N	1.5mm 4-Core Mains	£1.690		£1.990

### Flex and Wire Stripper

TTI (Thurby-Thandar)

A unique, compact, self-adjusting cable stripper capable of preparing both the inner and outer insulations of round cables, up to 8.5mm diameter.

Retail Unit Price each (inc. VAT).

Order Code	Type 104	Price each exc. VAT			inc. VAT each 1+
		1+	4+	20+	
CW33L	Flex & Wire Stripper	£6.060	£5.670	£5.150	£7.130

### House Wiring Cables

#### 1mm<sup>2</sup> Twin and Earth 6242Y

BASEC APPROVED / BS6004

A twin core and earth flat domestic wiring cable for use on lighting circuits. Three 1/1.13mm copper conductors, 300/500V.

Sheath: Red and Black PVC plus unsheathed earth-continuity conductor, in an overall white PVC sheath.

Overall size: 7.5 x 4mm  
Nom. conductor area: 1mm<sup>2</sup>  
Max current surface: 15A  
Max current enclosed: 11A  
Sold per metre (max. length in one piece 100m).  
Also available on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 105	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
XR49D	1.0mm TE Cable	£0.331			£0.390

#### 1.5mm<sup>2</sup> Twin and Earth 6242Y

BASEC APPROVED / BS6004

A twin core and earth flat domestic wiring cable for use on separately fused spurs from ring main circuits. Two 1/1.38mm copper conductors, 300/500V and earth.

Sheath: Red and Black PVC plus unsheathed earth-continuity conductor, in an overall white PVC sheath.

Overall size: 8.5 x 4.75mm  
Nom. conductor area: 1.5mm<sup>2</sup>  
Max. current surface: 20A  
Max. current enclosed: 14.5A  
Sold per metre (max. length in one piece 100m).  
Also available on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 106	Price each exc. VAT			inc. VAT each 1+

PA83E 14	100m TE Cable 1.5mm	£30.620	£28.600	£26.600	£35.990

## 2.5mm<sup>2</sup> Twin and Earth 6242Y

### BASEC Approved / BS6004

A twin core and earth flat domestic wiring cable for use on ring mains and unfused spurs. Two 1/1.78mm copper conductors and earth 300/500V.

Sheath: Red and Black PVC plus unsheathed earth-continuity conductor, in an overall white PVC sheath.

Overall size: 9.5 x 5.25mm  
 Nom. conductor area: 2.5mm<sup>2</sup>  
 Max. current surface: 27A  
 Max. current enclosed: 19.5A  
 Sold per metre (max. length in one piece 100m).  
 Also available on 100m reels.

#### Retail Unit Price each (inc. VAT).

## 4mm<sup>2</sup> Twin and Earth 6242Y

### BASEC Approved / BS6004

A twin core and earth flat wiring cable for domestic use on ring mains. Two 7/0.85mm copper conductors and earth, 300/500V.

Sheath: Red and Black PVC plus unsheathed earth continuity conductor in an overall white PVC sheath.

Overall size: 11.8 x 6.1mm  
 Nom. Conductor area: 4mm<sup>2</sup>  
 Max. current surface: 36A  
 Max. current enclosed: 25A  
 Sold per metre (max. length in one piece 100m)  
 Also available on 100m reels

## 6mm<sup>2</sup> Twin and Earth 6242Y

### BASEC Approved / BS6004

A twin core and earth flat wiring cable for use on cooker points. Two 7/1.04mm copper conductors and earth 300/500V.

Sheath: Red and Black PVC plus unsheathed earth-continuity conductor, in an overall white PVC sheath.

Overall size: 14 x 7.5mm  
 Nom. conductor area: 6mm<sup>2</sup>

Max. current surface: 47A  
 Max. current enclosed: 34A  
 Sold per metre (max. length in one piece 100m).  
 Also available on 100m reels.

#### Retail Unit Price each (inc. VAT).

## 1mm<sup>2</sup> Three Core and Earth 6243Y

### BASEC Approved / BS6004

A three-core and earth flat domestic wiring cable for use on lighting circuits requiring double switching. Three 1/1.13mm copper conductors and earth 300/500V.

Sheath: Blue, Red and Yellow PVC plus unsheathed earth-continuity conductor in an overall white PVC sheath.

Overall size: 10.5 x 4.6mm  
 Nom. conductor area: 1mm<sup>2</sup>  
 Max. current surface: 14A  
 Max. current enclosed: 10.5A  
 Sold per metre (max. length in one piece 100m).  
 Also available on 100m reels.

#### Retail Unit Price each (inc. VAT).

## 2.5mm<sup>2</sup> Twin and Earth 6242Y

### BASEC Approved / BS6004

A twin core and earth flat domestic wiring cable for use on ring mains and unfused spurs.

Two 1/1.75mm copper conductors and earth, 300/500V.

Sheath: Red and Black PVC plus unsheathed earth continuity conductor in an overall grey PVC sheath.

Overall size: 9.5 x 5.25mm  
 Nom. conductor area: 2.5mm<sup>2</sup>  
 Max. current surface: 27A  
 Max. current enclosed: 19.5A  
 Sold per metre (max. length in one piece 50m)  
 Also available on 50m reels.

#### Retail Unit Price each (inc. VAT).

## 4mm<sup>2</sup> Twin and Earth 6242Y

### BASEC Approved / BS6004

A twin core and earth flat wiring cable for domestic use on ring mains. Two 7/0.85mm copper conductors and earth, 300/500V

Sheath: Red and Black PVC plus unsheathed earth continuity conductor in an overall grey PVC sheath.

Overall size: 11.8 x 6.1mm  
 Nom. conductor area: 4mm<sup>2</sup>  
 Max. current surface: 36A  
 Max. current enclosed: 25A  
 Sold per metre (max. length in one piece 50m)  
 Also available on 50m reels

## 6mm<sup>2</sup> Twin and Earth 6242Y

### BASEC Approved / BS6004

A twin core and earth flat wiring cable for use on cooker points and showers where 6mm cable is specified. Two 7/1.04mm copper conductors and earth, 300/500V.

**Sheath:** Red and Black PVC plus an unsheathed earth continuity conductor in an overall grey PVC sheath.

**Overall size:** 14 x 7.5mm

**Nom. conductor area:** 6mm<sup>2</sup>

**Max. current surface:** 47A

**Max. current enclosed:** 34A

**Sold per metre (max length in one piece 50m)**

Also available on 50m reels.

## 1mm<sup>2</sup> Twin Red and Earth 6242Y

### BASEC APPROVED / BS6004

A twin core and earth flat domestic wiring cable for use on lighting circuits. Three 1/1.13mm copper conductors. Rated at 300/500V.

**Sheath:** Two red PVC plus unsheathed earth-continuity conductor, in an overall grey PVC sheath.

**Overall size:** 7.5 x 4mm

**Nom. conductor area:** 1mm<sup>2</sup>

**Max current surface:** 15A

**Max current enclosed:** 11A

**Sold per metre (max. length in one piece 100m).**

Also available on 100m reels.

*Retail Unit Price each (inc. VAT).*

Order Code	Type 4522	Price each exc. VAT			inc. VAT each 1+

## 1mm<sup>2</sup> Red and Earth 6241Y

### BASEC Approved / BS6004

A single red core and earth flat domestic wiring cable for use on lighting circuits. One 1.13mm copper conductor and earth, 300/500V.

**Sheath:** Red PVC plus unsheathed earth continuity conductor in an overall grey PVC sheath.

**Overall size:** 5 x 4mm

**Max. current surface:** 15A

**Max. current enclosed:** 11A

Sold per metre (max. length in one piece 50m)  
Also available on 50m reels.

## 1mm<sup>2</sup> Single Black 6181Y

### BASEC Approved / BS6004

A single core black round domestic wiring cable for use on lighting circuits. One 1.13mm copper conductor, 300/500V.

**Sheath:** Black PVC in an overall grey PVC sheath.

**Diameter:** 4mm

**Nom. conductor area:** 1mm<sup>2</sup>

**Max. current surface:** 15A

**Max. current enclosed:** 11A

**Sold per metre (max. length in one piece 50m)**

Also available on 50m reels.

## Meter Cable

### BASEC Approved / BS6004

A double-insulated plain annealed copper conductor with a PVC insulation and PVC sheath, for connecting the meter to the consumer unit. Two sizes available 16mm<sup>2</sup> and 25mm<sup>2</sup>. Rated at 300/500V.

**Specification**

	16mm <sup>2</sup>	25mm <sup>2</sup>
Stranding:	7/1-7	7/2-14
Diameter over conductor:	5-10mm	6-42mm
Nominal overall diameter:	9-1mm	11-2mm
Max. current surface:	87A	114A
Max. current enclosed:	61A	80A

Available in red and black.  
Sold per metre (max. length in one piece is 50m).

*Retail Unit Price each (inc. VAT).*

Order Code	Type 112	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+

		1+	25+	100+	
XS12N	Earth Sleeve	£0.161	£0.120	£0.105	£0.190

## Earth Bonding Wire to BS6004

A rigid stranded wire for earth bonding applications. Available in 6mm<sup>2</sup>, 10mm<sup>2</sup> and 16mm<sup>2</sup>. Conforms to BS6004.

**Specification**

	6mm <sup>2</sup>	10mm <sup>2</sup>	16mm <sup>2</sup>
Stranding:	7/1.04	7/1.35mm	7/1.7mm
Overall dia.:	5.4mm	6.1mm	7.1mm

**Nom. conductor area:** 6mm<sup>2</sup> 10mm<sup>2</sup> 16mm<sup>2</sup>

**Maximum current**

	6mm <sup>2</sup>	10mm <sup>2</sup>	16mm <sup>2</sup>
surface:	47A	65A	85A
enclosed:	31A	43A	57A

**Voltage rating:** 450/750V

**Sheath:** 1-0mm PVC

**Colour:** Green/Yellow

Sold per metre (max. length in one piece 50m).

*Retail Unit Price each (inc. VAT).*

Order Code	Type 115	Price each exc. VAT			inc. VAT each 1+
		1+	10+	25+

CW71N	Earthing Wire 16mm	£1.690	£1.400	£1.280	£1.990

## Conduit & Trunking

### Conduit

High impact light gauge uPVC conduit manufactured to comply with BS 4607 and BS 6099. Available in 20mm and 25mm diameter, sold in 2m lengths. 20mm and 25mm couplings allow simple joining to create longer lengths. A range of fittings are also available.

*Retail Unit Price each (inc. VAT).*

Order Code	Type 1738E	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
MS36P	20mm PVC Conduit	£1.180	£1.120	£1.060	£1.390
MS60Q	25mm PVC Conduit	£2.110	£2.010	£1.910	£2.490
MS63T	20mm Coupling	£0.417	£0.396	£0.376	£0.490
MS41U	25mm Coupling	£0.672	£0.639	£0.607	£0.790

### Spacer Bar Saddles

Spacer Bar Saddles for fixing 20mm and 25mm conduit to walls, etc. Allows fixing position to be set before putting conduit in place.

*Retail Unit Price each (inc. VAT).*

Order Code	Type 1740Z	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
MS44X	20mm Saddle	£0.672	£0.639	£0.607	£0.790
MS45Y	25mm Saddle	£0.842	£0.800	£0.760	£0.990

### Inspection Elbows & Bends

A range of elbows and bends for turning conduit through 90. Inspection elbow only available for 20mm conduit. Insetion bends available to fit 20mm and 25mm conduit. Bend allows a greater thickness of cable to be passed through the conduit.

*Retail Unit Price each (inc. VAT).*

Order Code	Type 1740Z	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
MS46A	20mm Elbow	£1.520	£1.440	£1.370	£1.790
MS47B	20mm Bend	£2.110	£2.010	£1.910	£2.490
MS48C	25mm Bend	£4.240	£4.030	£3.830	£4.990

## Conduit Adaptors

Male and female conduit adaptors designed for fixing conduit to pattresses, etc. Come complete with locking, spares available.

Retail Unit Price each (inc. VAT).

Order Code	Type 17308	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
MS61R	20mm Male Adaptor	£0.672	£0.639	£0.607	£0.790
MS62S	25mm Male Adaptor	£1.000	£0.960	£0.912	£1.180
MS69D	20mm Female Adaptor	£0.757	£0.720	£0.684	£0.890
MS50E	25mm Female Adaptor	£1.000	£0.960	£0.912	£1.180

## Waterproof Plastic Conduit and End Fittings

A flexible, ribbed plastic conduit for carrying cable looms and protecting them against physical damage and ingress of water or other fluids. Ideal for outdoor wiring, the conduit can be routed over walls, in walls, beneath floors or below ground. Two sizes are available with inner bores of 13.8 or 17.2mm. Matching plastic end fittings for terminating conduit at junction boxes, etc. are also available; each comprises a main inner portion with threaded boss and securing ring for mounting in a panel hole, while the conduit is pressed into the other end. It is retained in position by sprung, hooked outer jaws which locate over the ribs and are clamped by a threaded outer ring. The fitting can be installed in panels up to 2.5mm thick. Conduit is sold per metre.

Bore	Minimum recommended radius bend	Panel hole clearance for end fitting
13.8mm	25mm	17.2mm
17.2mm	35mm	20.6mm

Retail Unit Price each (inc. VAT).

Order Code	Type 1386	Price each exc. VAT			inc. VAT each 1+
		1+	10+	25+	
CC26D	Plastic Conduit 13.8	£1.090	£0.918	£0.760	£1.290
CC27E	Plastic Conduit 17.2	£1.350	£1.000	£0.851	£1.590
CC28F	End Fitting 13.8	£1.430	£1.210	£1.050	£1.690
CC29G	End Fitting 17.2	£1.600	£1.440	£1.270	£1.890

## Flexible Conduit Kit

- ★ Made from Flexible PVC
- ★ Rigid PVC Re-inforced spiral
- ★ Smooth inner bore
- ★ Crush resistant
- ★ Excellent flexibility

This flexible PVC conduit kit comes complete with a pack of 10 glands and locknuts.

It has a temperature range of -10°C to +75°C intermittent to 85°C with a protection rating of IEC529 / IP55.

The PVC has a flammability rating to CEI23-14/V (1971) with 10 seconds flame resistance and meets the requirements of BS4607 and BS6099 part 1. It is resistant to most oils, mild acids and saline atmospheres.

Supplied on 10m coils with 10 glands. Available in : 20mm and 25mm

Retail Unit Price each (inc. VAT).

VK31J	Mini Trunking 10mm	£5.940	£5.450	£5.050	£6.990

**Conduit Racking**

Plastic slotted conduit which is useful for forming wiring around rack type applications quickly and easily

without the prolific use of cable ties. Each cable slot is approximately 8mm wide and 36mm deep (60mm depth conduit). As supplied the conduit can be used with cables up to 8mm in diameter. Larger cables may be accommodated by snapping out sections of the conduit. The conduit has additional slots in the base of the channel for fixing purposes. Fixing slots are two sizes: Large slots – 6mm x 14mm; Small slots – 4mm x 8mm approx. Available in two sizes: 25 x 60mm and 25 x 30mm. Sold in 2m lengths.

Dimensions in mm:

Size	A	B	C	D	E
25 x 60	25	60	12	8	36
25 x 30	25	30	12	8	13.5

**Armoured Cables**

**Insulated Steel Wire Armoured Cable to BS6346**

A PVC insulated steel wire armoured cable that is manufactured to BS6346 and is available with either two or three, single stranded, 1.5mm<sup>2</sup>, cores. Outer sheath is black. A cable termination gland is available for use with this cable.

Specification	2-core	3-core
Voltage rating:	600V/1000V	
Maximum sustained voltage:	1100V AC	
Maximum current (clip fixing):	18A	21A
Core diameter:	1.5mm	
Insulation thickness:	0.6mm	
Bedding thickness:	0.8mm	
Nominal wire armour diameter:	0.9mm	
Oversheath thickness:	1.3mm	1.4mm
Approximate overall diameter:	11.7mm	12.3mm
Core colours:	Red, black	Red, yellow, blue

Sold by the metre (max. length in one piece 100m), and on 100m reels.

Maplin has more stores Nationwide than ever before. See the maps at the front of the catalogue for the nearest one to you.

**Cable Glands for Armoured Cable to BS6121**

A kit of brass cable glands sufficient to terminate both ends of an armoured cable. The quality brass glands have a body thread of M20 with a thread length of 10mm and internal bore diameter of 11.8mm. They are manufactured to the requirements of BS6121 – Part 1. The kit comprises two brass glands, two galvanised locknuts, two brass earth tags and two shrouds. Suitable for use with our armoured cables DM09K and CW67X.

**Heatshrinkable Armoured Cable Jointing Kit**

This kit contains all the necessary components to make a successful waterproof joint for Steel Wired Armoured Cable.

Each kit contains:-

- 4 x Heatshrink Butt Connectors.
- 4 x 65mm Internal Insulating Heatshrink Tubes.
- 1 x Strip of Tinned Copper Braid.
- 1 x Sterile Surface Wipe.
- 2 x Spring Clips.
- 1 x Abrasive Strip.
- 1 x 350mm External Heatshrink Tube.
- 1 x 1m Strip of Insulating Tape.

Full fitting instructions supplied.

## Professional Microphone Cable

Van Damme

A range of high spec. multi purpose heavy duty Oxygen Free Copper microphone cables. The jacket is a special matt non reflective anti-kink PVC composite which remains flexible even in sub zero use the tightly lapped OFC screen coupled with the natural cotton filler prevents capacitance changes and provides constant shielding under the roughest of handling thus eliminating internally generated noise.

The construction consists of twin conductors of plain (non tinned) OFC with cross linked polyethylene (XLPE) insulation twisted together with natural cotton fillers underneath a tightly lapped spiral OFC screen. Oversheathed with a very flexible matt PVC Neoprene anti-kink outer.

### Specification:

**Pair conductor:** 28 x 0.10mm (0.22mm sq) 24AWG high purity OFC.  
**Pair Insulation:** Cross linked polyethylene. (XLPE)  
**Pair colours:** 1xRed/1xBlue-1.0mm Dia.  
**Screen:** 80 x 0.10mm close lap spiral high purity OFC.  
**Overall jacket:** Abrasion resistant anti-kink PVC/Neoprene composite.  
**D.C. Resistance:** <84 ohms per km.  
**Capacitance:** <100pF per metre Core to core <165pF per metre cores to screen.  
**Overall diameter:** 6.35mm +/- 0.15mm.  
**Colours:** Black,Blue,Red,Green Grey, Yellow.  
 Sold per metre(max. length in one piece 100m) Also available on 100m reels.

## Van Damme Professional Audio Cable

Van Damme cable is a high quality professional audio cable designed and manufactured to the highest specifications, made evident by the look, feel and performance of the cable range. Van Damme cable is used mainly by professional recording studios and touring companies. Also name any successful UK band and they will have either recorded or played live through Van Damme OFC professional cable. The Van Damme range consists of Microphone, Instrument, Patch, Speaker, Installation and Multicore cable.

## Starquad Professional Microphone Cable

Van Damme

Starquad cable is usually used when necessary as a replacement for standard microphone cable. It is most commonly found in broadcast applications where it was originally employed because of its excellent signal to noise ratio capabilities, especially over longer cable runs.

The noise reduction is achieved by minimising the loop area between twists of conductors thus reducing the susceptibility to electromagnetic interference. Tests have shown the interference can be as little as 1/10th the level found in standard two core microphone cable.

Construction is of four conductors of plain (non tinned) OFC with cross linked polyethylene (XLPE) insulation cabled together as a 4-core starquad. Laid up with natural cotton fillers and a paper separator to reduce electrostatic build up. Screened with a dense tinned OFC braid giving 98% optical coverage. Oversheathed with a very flexible matt PVC/Neoprene anti-kink outer jacket.

### Specification

**Quad conductor:** 40/0.10mm (0.21mmsq) 24AWG high purity tinned OFC  
**Pair insulation:** Cross linked polyethylene (XLPE)  
**Pair colours:** 2xBlue/2xWhite-1.0mm Dia.  
**Braid screen:** 128/0.1mm-98% coverage high purity tinned OFC  
**Overall sheath:** Abrasion resistant anti-kink PVC/Neoprene composite.  
**D.C. resistance:** <95 ohms/km per core.  
**Capacitance:** <90pF per metre core to core <195pF per metre cores to screen.  
**Voltage rating:** 250V.  
**Overall Diameter:** 6.0mm +/- 0.2mm.  
**Colours:** Black,Blue,Red.  
 Sold per metre (max. length in one piece 100m) Also available in 100m reels.

## Instrument/Guitar Cable

Van Damme

This cable has been developed as a high grade unbalanced signal cable for use with 2-pole connectors such as mono jacks and phonos. It achieves excellent RF rejection and a very low capacitance by using an overall close lap OFC spiral screen combined with a conductive carbon thermoplastic layer. This provides exceptional screening and very low noise when in use.

Construction is of a single conductor of plain (non-tinned) OFC with foamed polyethylene insulation and tubed thermoplastic conductive carbon inner screen. The outer screen consists of a close lap spiral OFC. The overall jacket is a special soft matt PVC composite for reduced reflection, excellent flexibility and anti-kink characteristics even at low

temperatures.

### Specifications

**Centre Conductor:** 7/0.2mm (0.22mm sq) 24AWG high purity OFC  
**Insulation:** Foamed polyethylene 1.2mm diameter  
**Screen 1:** Tubed thermoplastic conductive carbon  
**Screen 2:** 80/0.1mm close lap spiral high purity OFC  
**Overall sheath:** Abrasion resistant anti-kink PVC/Neoprene composite.  
**Temp. range:** -25°C - +70°C  
**D.C. resistance:** <78 ohms per km  
**Screen resistance:** <33ohms per km  
**Capacitance:** <110pF per metre.  
**Voltage rating:** 250V  
**Overall Diameter:** 6.0mm +/- 0.15mm  
**Colours:** Black,Blue,Red  
 Sold per metre (max. length in one piece 100m) Also available in 100m reels.

## Unbalanced Phono Patch Cable

Van Damme

This cable is specifically designed to cater for 2-pole connectors which cannot accommodate Van Damme Instrument cable with a diameter of 6mm or more. This cable is typically used with phono, mono jack or mono mini jack connectors which have a back shell entry of no more than 4.8mm. It is usually terminated in the form of short unbalanced patch cables commonly found in home studios.

Construction is of a plain (non tinned) single OFC conductor with foamed polyethylene insulation and tubed thermoplastic conductive carbon inner screen. The outer screen consists of close lap spiral OFC. The overall sheath is a special soft matt PVC composite for reduced reflection, excellent flexibility and anti-kink characteristics even at low temperatures.

### Specification

**Centre Conductor:** 7/0.2mm(0.22mm sq) 24AWG high purity OFC  
**Insulation:** Foamed polyethylene 1.2mm diameter.  
**Screen 1:** Tubed thermoplastic conductive carbon.  
**Screen 2:** 80/0.1mm close lap spiral high purity OFC.  
**Overall sheath:** Abrasion resistant anti-kink PVC/Neoprene composite.  
**Temp. range:** -25°C - +70°C  
**D.C. resistance:** <78ohms per km.  
**Screen resistance:** <33 ohms per km.  
**Capacitance:** <110pF per metre.  
**Voltage rating:** 250V.  
**Overall Diameter:** 4.8mm +/-0.1mm  
**Colours:** Black,Blue,Red

## Balanced Patch Cable

Van Damme

The idea for this range of cables is to use in the application of patch leads using bantam plugs. In order to be terminated correctly an O.D. of exactly 4.85mm is needed to anchor the cable into the back of the bantam plug by either crimping on a ferrule (Neutrik type) or screwing into the threaded back part of the body (switchcraft or ADC type). This cable is ideal for use with midi/DIN plugs such as Preh or Deltron as these connector types will only accept cables with diameters of 5.0mm or smaller.

### Specifications

Pair Conductor: 28/0.1mm(0.22mm sq)  
24AWG high purity OFC.  
Pair Insulation: Cross linked polyethylene (XLPE)

## Overall Braided Multicore

Van Damme

The Black Series Multicore is specifically designed as a tour grade multicore to handle very tough and demanding applications. The conductors are not individually jacketed but have a mylar aluminium / polyester Z fold screen which is then laid up beneath a tinned copper overall braid, the Z fold screen is designed to overlap on each conductor to give 150% complete protection for each pair. This also prevents the screen from unravelling thus avoiding any shorting between adjacent earths. Construction consists of twin plain (non tinned) OFC conductors with cross linked polyethylene (XLPE) insulation twisted together with a tinned OFC drain wire. Individually shielded with aluminium/polyester Z-fold tape. Pairs cabled with flexible fillers and cloth holding tape. Over screened with tinned copper braid. Oversheathed with highly

flexible abrasion resistant PVC composite jacket.

### Specification

Pair Conductor: 28/0.01mm(0.22mm sq)  
24AWG high purity tinned OFC.

Pair insulation: Cross linked polyethylene (XLPE) - 1.2mm Diameter.  
Screen: Aluminium polyester foil tape - Z fold 150% coverage.

Overall screen: Tinned copper braid 90% optical coverage.

Drain wire: 19/0.12mm(0.22mm sq)  
24AWG high purity tinned OFC.

Overall Jacket: Abrasion resistant special PVC composite.

Temp. range: -25°C - +70°C

D.C. resistance: <85 ohms per km

Capacitance: <70pF per metre core to core + screen  
<125pF per metre core to core + screen

Inductance: 0.45uH per metre.

Voltage rating: 250V

Colour: Matt black - RAL 9005

Sold per metre (max. length in one piece 50m)

Also available in 50m reels.

## Pre-Jacketed Multicore

Van Damme

This Blue Series OFC Multicore has each individual core pre-jacketed, colour coded and pre-numbered. This eliminates the need to heatshrink, number & continuity test each conductor. Construction consists of twin plain (non tinned) OFC conductors with cross linked polyethylene (XLPE) insulation twisted together with a tinned OFC drain wire. Individually shielded with aluminium/polyester free edge foil tape. Each individual pair oversheathed in flexible PVC and numbered. Pairs cabled with flexible fillers and talc lubricant. All cores oversheathed with highly flexible PVC abrasion resistant outer jacket.

### Specifications

Pair Conductor: 28/0.1mm(0.22mm sq)  
24AWG high purity plain OFC.

Pair insulation: Cross linked polyethylene (XLPE) - 1mm Dia.  
Screen: Aluminium polyester foil tape - free edge foil (FEF)

Drain wire: 19/0.12mm(0.22mm sq)  
24AWG high purity tinned OFC.

Pair jacket: Highly flexible PVC numbered cores - 2.7mm diameter (RAL 5001)

Overall Jacket: Abrasion resistant special PVC Composite.

Temp. range: -25°C - +70°C

D.C. resistance: <85 ohms/km

Capacitance: <100pF per metre core to core.  
<200pF per metre core to core + screen.

Inductance: 0.5uH per metre.

Voltage rating: 250V

Colour: Matt petrol blue (RAL 5001)

Sold per metre (max. length in one piece 50m)

Also available in 50m reels.

## Pre-Jacketed Monocore

Van Damme

The Van Damme monocore range is so called because it is designed for unbalanced applications.

These are normally found in home studio situations where mono jack and phono connectors are commonly used to interface equipment.

Construction consists of a single tinned OFC conductor with cross linked polyethylene (XLPE) insulation and lap spiral screen. Each line pre-jacketed with flexible fillers and black PVC numbered sub jacket. All cores are oversheathed with highly flexible PVC abrasion resistant outer jacket.

### Specification

Centre conductor: 14/0.15mm(0.25mm sq)  
23AWG high purity tinned OFC.

Insulation: Cross linked polyethylene (XLPE) 1.45mm Diameter  
Screen: 48/0.1mm (0.38mm sq)  
22AWG high purity tinned OFC.

Core jacket: Black flexible PVC numbered in white 2.35mm diameter.

Overall Jacket: Abrasion resistant special PVC composite.

Temp. range: -25°C - +70°C

D.C. resistance: <90 ohms per km

Capacitance: <300pF per metre.

Voltage rating: 250v

Colour: Matt grey (RAL 7031)

Sold per metre (max. length in one piece 50m)

Also available in 50m reels.

## Professional Loudspeaker Cable

Van Damme

This range of durable and heavy duty speaker cable is remarkably flexible and easy to handle in spite of its toughness. They have been intelligently designed to suit the various connectors used for different speaker applications.

### Specification

**Conductor:** 1.5mm 30/0.25mm (1.5mm sq) high purity non tinned OFC.  
2.5mm 50/0.25mm (2.5mm sq) high purity non tinned OFC.  
4mm 56/0.3mm (4mm sq) high purity non tinned OFC.

**D.C. Resistance:** 1.5mm 11.2 ohms per km  
2.5mm 6.8 ohms per km  
4mm 4.3ohms per km

**Conductor insulation:** PVC

**Overall Sheath:** Abrasion resistant soft matt anti-kink PVC/Neoprene composite.

**Conductor colour:** Twin-ax - Red/Blue

**Jacket colour:** Matt petrol blue (RAL 5001)

**Working Voltage:** 250v

**Temp. range:** -30°C - +80°C

Sold per metre (max. length in one piece 1.5/2.5 100m, 4mm/50m)  
Also available on 100m reels (1.5mm + 2.5mm) 50m reel (4mm).

## Installation Cable 1 Pair

Van Damme

The function of this cable is to carry a balanced line in a small overall diameter cable with very efficient shielding and since this cable is most commonly used in the wiring of patchfields or patchpanels the flexibility for forming and handling the cable is also of the utmost importance.

The construction consists of twin plain(non tinned) OFC conductors with cross linked polyethylene insulation twisted together with a tinned OFC drain wire. Shielded with an aluminium/polyester foil tape.

### Specification

**Pair conductor:** 7/0.2mm(0.22mm sq)  
24AWG high purity OFC.

**Pair insulation:** Cross linked polyethylene (XLPE)

**Pair colours:** White/Blue 1.0mm Dia.

**Screen:** Aluminium/polyester foil tape

**Drain wire:** 7/0.2mm(0.22mm sq)  
24AWG high purity OFC.

**Overall sheath:** Abrasion resistant anti-kink PVC/Neoprene composite.

**Temp. range:** -25°C - +70°C

**D.C. resistance:** <78 ohms per km

**Capacitance:** <90pF per metre core to core.  
<189pF per metre cores to screen.

**Voltage rating:** 250V

**Overall diameter:** 3.5mm +/-0.1mm

**Colours:** Black,Blue,Red,Green,  
Violet,Orange.

Sold per metre (max. length in one piece 100m)  
Also available in 100m reels.

Retail Unit Price each (inc. VAT).

## Digital Audio Installation Cable 1 Pair

Van Damme

This stranded small diameter cable was designed specifically for patchpanel and rackwiring for digital audio signals. Special insulation materials and tight tolerances have been applied to the design and construction of the cable to achieve very low capacitance figures and the required 110 ohm characteristic impedance. It can also be used for MIDI and timecode purposes where cable capacitance can be a problem.

Construction is of twin plain copper conductors with foamed polyolefin insulation twisted together with a short lay length with tinned copper drain wire. Shielded with bonded aluminium/polyester foil. Oversheathed with PVC outer jacket.

### Specification

**Pair conductor:** 7/0.2mm (0.22mm sq)  
24AWG plain copper

**Pair Insulation:** Low capacitance foamed polyolefin.

**Screen:** Aluminium/polyester bonded tape.

**Drain Wire:** 7/0.2mm (0.22mm sq)  
24AWG tinned copper.

**Temp. range:** -20°C - +70°C

**Capacitance:** <38pF per metre core to core.  
<78pF per metre core to core + screen.

**Impedance:** 110 +/- 10 ohm

**Attenuation:** 2.156dB/100m@1MHz  
4.347dB/100m@4MHz  
7.241dB/100m@10MHz  
8.838dB/100m@16MHz  
10.236dB/100m@20MHz

**Voltage rating:** 250V

**Overall diameter:** 3.9mm

**Jacket colour:** Light grey PVC

Sold per metre (max. length in one piece 100m)  
Also available in 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 13307	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+

## Single Audio Cables

### Miniature Single-Core Lapped Screen

A single screened cable ideal for general audio connections especially in equipment where a large number of cables have to be packed into a small area. Stranded core, 7/0.1mm copper conductor with PVC insulation, lap screened and sheathed overall in grey PVC.

**Overall diameter:** 2mm

**Nom. conductor area:** 0.055m<sup>2</sup>

**Capacitance (core to screen):** 320pF/m

Sold per metre (max. length in one piece 100m).  
Also available on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 1119	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
XR15R	Min Screened	£0.246			£0.290
PB13P 1	100m Min Screened	£13.600	£10.750	£9.600	£15.990

**Single-Core Lapped Screen**

A single screened cable ideal for general audio connections. Stranded core, 7/0-12mm copper conductor with PVC insulation, lap screened and sheathed overall in PVC.

Overall diameter: 3.0mm  
Nom. conductor area: 0.22mm<sup>2</sup>  
Capacitance (core to screen): 320pF/m  
Available sheathed overall in Black, Grey or White.  
Sold per metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 120	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
XR12N	Cable Single Black	£0.204			£0.240
PA79L 3	100m Cable Singl Blk	£12.750	£10.250	£9.150	£14.990

PA81C 4	100m Cable Singl Wht	£12.750	£10.350	£9.350	£14.990

**Single-Core Braided Screen**

A single screened cable ideal for connections to microphones. Stranded core, 16/0-2mm copper conductor with PVC insulation, braided screen and sheathed overall in black PVC.

Overall dia: 3.75mm  
Nom. conductor area: 0.5mm<sup>2</sup>  
Capacitance (core to screen): 360pF/m  
Sold per metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 124	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
XR16S	Single Mic Cable	£0.382			£0.450
PA16S 6	100m Singl Mic Cable	£23.820	£19.500	£17.250	£27.990

**Low Noise Screened Cable**

A very low noise single screened cable ideal for use with low-level signals. Stranded core, 10/0-1mm copper conductor with polythene insulation over which there is a layer of semi-conducting polythene. This is covered with a braided screen and sheathed overall in black PVC.

Overall dia.: 3.0mm  
Nom. conductor area: 0.0785mm<sup>2</sup>  
Capacitance (core to screen): 102pF/m  
Nominal impedance: 50Ω

**IMPORTANT NOTE**

It is most important when connected that the semi-conducting sheath should not be able to come into contact with the centre conductor or anything connected to the centre conductor, but that it should be stripped back to the braiding. The cable is only suitable for use at audio frequencies. Sold per metre (max. length in one piece 25m). Also available on 25m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 128	Price each exc. VAT			inc. VAT each 1+

PB14Q	25m Low Noise Snd	£10.300	£9.030	£8.510	£12.110

**Single Screened Cable with Semiconducting Sheath and Double Layer Insulation**

A single screened cable which has 20 x 0.12mm copper conductors with PVC insulation, a semiconducting layer, lapped screen and two layers of PVC outer insulation (outer black).

Overall diameter: 6mm  
Nom. conductor area: 0.23mm<sup>2</sup>  
Capacitance (core to screen): 135pF/m  
Sold per metre (Max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

XS24B	Single Scrn Dble Lyr	£0.672			£0.790
PB50E 8	Sgl Scr Dbl Lyr 100m	£42.970	£38.500	£35.250	£50.490

**High Grade Shielded Audio Cable**

High quality coax cable for use in no-compromise audio applications. It features high purity, Oxygen Free Copper (OFC) conductors where each strand is bound tightly for maximum contact area and best electron flow. OFC conductors are completely oxygen free in order to eliminate surface oxidation, which will interfere with the efficiency of the conductor especially at high frequencies, where electron flow tends to be more concentrated at the surface.

The centre conductors are multi-strand bare OFC sheathed in a coax insulator sleeve made of high density polyethylene, which is very resistant to deformation and therefore maintains the optimum distance required between the inner and screen throughout the length of the cable. The single bare OFC braided screen is sheathed in transparent extra flexible PVC, overall diameter 5mm. Strands of inner, 156/0-0.6mm. Max. working voltage, 200V peak. Working temperature, -10°C to 105°C. Suitable connectors are JZ07H or JZ08J. Sold per metre (max. length in one piece 50m) and on 50m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 125	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
XS38R	Audio Cable	£0.859	£1.010	£1.190	£1.010
PB62S 4	Audio Cable 50m	£38.280	£33.950	£31.200	£44.990

**High Quality AV Signal Cable**

A very high quality signal cable for use with audio/visual equipment ideal for conveying audio and/or video signal information. Constructed with OFC cable, this high performance cable offers very good electrical characteristics while remaining economical. Suitable for use with RCA P185A and T185A connectors.

**Specification**

Conductor construction: 80 x 0.1mm OFC  
Insulation: Foamed polyethylene  
Shielded: Mylar foil + bare OFC braid

Overall diameter: 8mm  
Capacitance: 62pF/m  
Impedance: 75Ω nominal

Sold per metre (max. length in one piece 75m)  
Also available in 75m reels.

Retail Unit Price each (inc. VAT).

		1+	10+	
FN74R	Audio/Vid Cable 1 M	£1.690		£1.990
CN53H 1	Aud/Vid Cable 75m	£85.090		£99.990

**Silver-Plated Screened Cable**

High quality screened cable having a single 0.8mm centre conductor, silver-plated to a thickness of 100μ (microns, or 40μin.), in a polyethylene inner insulator. This is surrounded by a copper braid over foil screen, and sleeved overall in a brown sheath. Overall diameter is 8mm, and capacitance between conductor and screen is 53pF/m. Note: Silver Solder DP52G should be used to solder silver wires. This solder requires a separate flux. Sold by the metre.

Retail Unit Price each (inc. VAT).

		1+	10+	
XS56L	1/4m Silver Scr Cable	£4.240		£4.990

**Twin Audio Cables**

**Twin Individually Screened**

A twin screened cable having each core individually screened and laid side by side in a figure '8' outer sheath thus keeping crosstalk problems to a minimum, but maintaining the advantages of a single cable. Stranded cores, 10/0-12mm copper conductor with PVC insulation, lap screened and sheathed overall in grey PVC.

Overall size: 2.8 x 5.6mm  
Nom. conductor area: 0.0785mm<sup>2</sup>  
Capacitance (core to screen): 350pF/m  
Sold per metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

## High Grade Shielded Audio Pair

A dual figure '8', individually screened pair, where the entire screen of each cable is composed from a layer of metallised mylar film under two layers of OFC (Oxygen Free Copper) braid, providing the most complete prevention against interference, and having a blue outer sleeve, diameter 6mm. The centre conductors are multi-strand bare OFC sheathed in a coax insulator sleeve made of high density polyethylene. Strands are 91/0-08mm. Max. working voltage, 200V peak. Working temperature, -10°C to 105°C. Suitable connectors are JZ11M or JZ12N.

Sold per 1/4 metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 131	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
XS39N	Audio Pair	£2.970			£3.490
PB63T 13	Audio Pair 50m	£121.690	£109.000	£102.000	£142.990

## High Quality Silver Car Cable

Ideal for use with in-car entertainment systems for audio linkages between items of hardware. Double screened silver cable ensures that interference and noise are kept to a minimum. Siamese design ensures simple installation for stereo signal sources. Sold per 25cm and 50m reels.

### Specification

Cable construction: 5 x 0.28mm x 2 cables  
 Insulation type: Polyethylene  
 Shield type: Mylar foil OFC inner, Silver plated OFC outer  
 Overall diameter: 6 x 12.5mm  
 Capacitance: 90pF/m  
 Impedance: 53Ω nominal

Retail Unit Price each (inc. VAT).

CN54J 1	50m Silv Audio Cable	£1,105.530			£1,299.000

## Twin Overall Lapped Screen

A twin screened cable ideal for general audio connections where crosstalk is not a problem. Stranded cores, 7/0-1mm copper conductors with red and blue PVC insulation, lap screened and sheathed overall in grey PVC. Cores are laid side by side in the cable such that the cable is oval in shape.

Overall size: 2 x 2.8mm  
 Nom. conductor area: 0.055mm<sup>2</sup>  
 Capacitance (core to screen): 305pF/m  
 (core to core): 170pF/m

Sold per metre (max. length in one piece 100m). Also available on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 127	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
XR20W	Lapped Pair	£0.246			£0.290

## Twin Individually Screened Cable with Semiconducting Sheaths

A twin individually screened cable which has 20 x 0.12mm copper conductors in each core, with colour coded PVC insulation, individual semiconducting layers, individual lapped screen and black PVC outer insulation.

Overall Diameter: 6.5mm  
 Nominal Conductor Area: 0.23mm<sup>2</sup>  
 Capacitance (core to screen): 135pF/m  
 Sold per metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 135	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+

PB62G 8	Twin Sgl Scm SS 100m	£58.710	£52.000	£48.000	£68.990

## High Grade Overall Screened Pair

An overall screened pair of conductors within one round screen. The two inners are identified as red and white and are also screened with metallised mylar film under one braided OFC layer. The centre conductors are stranded 41/0-12mm bare OFC sheathed in a coax insulator sleeve made of high density polyethylene. The outer sleeve is blue, overall diameter 7.3mm. Max. working voltage, 200V peak. Working temperature: -10°C to 105°C. Sold per metre (max. length in one piece 50m) and on 50m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 132	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
XS40T	Common Pair	£1.230			£1.450
PB66W7	Common Pair 50m	£45.090	£39.500	£35.500	£52.990

**High Grade Audio Cable**

A very high quality screened audio OFC cable with excellent electrical characteristics. Ideal for balanced line feeds in noise environments and professional studio equipment. Braid and silver shield ensure that interference and cross-talk are kept to a bare minimum. Sold per metre and 50m reels.

**Specification**  
 Conductors: 130 x 0.07mm x 2 cables  
 Insulation colour: Red/White  
 Core construction: 2 cables + 2 supporting strands  
 Shielding: Mylar foil + bare OFC braid (coverage 85% min.)  
 Overall diameter: 8mm  
 Capacitance: 58.2pF/m  
 Impedance: 81Ω at 1MHz

Retail Unit Price each (inc. VAT).

**Multi-Core Screened Cable**

A range of multi-core cables having overall screens. Stranded cores 7/0.1mm tinned copper conductors with PVC insulation wrapped overall in Melinex tape then covered with a braided screen and sheathed in grey PVC.

Cables conform to DEF STAN 61-12 parts 4 and 5.  
 Nominal conductor area: 0.055mm<sup>2</sup>  
 Maximum working voltage: 250V RMS  
 Maximum current per core: 0.25A  
 Capacitance (core to screen): 190pF/m

**Screened Multi-Core Cable 1A Type**

High quality multi-core cables having stranded 7/0.2mm tinned copper conductors with PVC insulation, wrapped overall in Melinex tape and screened with a tinned copper wire braid, and sheathed in black PVC. Current carrying capacity of each core is 1A and the cable is ideal for low power applications with a noise suppression screen. All cables except MJ79L, MJ82D, MJ83E, MJ85G and MJ87U conform to DEF STAN 61-12 parts 4 and 5. These cables are, however, manufactured in accordance with the parameters listed within this specification.

**Specification**

Nominal conductor area: 0.22mm<sup>2</sup>  
 Maximum working voltage: 440V AC rms  
 Maximum current per core: 1A  
 Capacitance, core to screen: 130pF/m

**Core colours:**

1 Red, 2 Blue, 3 Green, 4 Yellow, 5 White, 6 Black.

Available sizes and overall diameters:

- 2-core 4.1mm
  - 3-core 4.3mm
  - 4-core 4.6mm
  - 6-core 5.9mm
- Sold per 100m reel.

## Overall Foil and Braided Screen Multi-Core Cable

A range of double screened (foil and braid) multi-core cables; which are ideal as computer data cables, e.g. RS232 & Centronics interface standards. Each core is 7/0.2mm tinned copper, covered with colour coded PVC insulation. The cores are double screened in overlapping metal foil (inner screen) and braided wire screen (outer screen). Outer insulation is grey PVC. Available in 4, 8, 12, 20 and 36-way.

### Core colours:

- |                 |                      |
|-----------------|----------------------|
| 1 White         | 19 Blue/Black        |
| 2 Yellow        | 20 Purple/Black      |
| 3 Orange        | 21 Brown/Black       |
| 4 Green         | 22 Grey/Black        |
| 5 Red           | 23 Light Green/Black |
| 6 Blue          | 24 Pink/Black        |
| 7 Purple        | 25 Light Blue/Black  |
| 8 Brown         | 26 Black/White       |
| 9 Grey          | 27 Yellow/White      |
| 10 Light Green  | 28 Orange/White      |
| 11 Pink         | 29 Green/White       |
| 12 Light Blue   | 30 Red/White         |
| 13 Black        | 31 Blue/White        |
| 14 White/Black  | 32 Purple/White      |
| 15 Yellow/Black | 33 Brown/White       |
| 16 Orange/Black | 34 Grey/White        |
| 17 Green/Black  | 35 Light Green/White |
| 18 Red/Black    | 36 Pink/White        |

Note: where two colours are shown; the first is the main colour and the second is the stripe colour.

### Specification

Voltage rating: 440V RMS  
 Maximum current per core: 1A  
 Nominal conductor area: 0.22mm<sup>2</sup>  
 Operating temperature: 70°C max.  
 Overall diameter:  
 4-core: 4.3mm  
 8-core: 6.3mm  
 12-core: 6.9mm  
 20-core: 8.6mm  
 36-core: 10.8mm  
 Sold per metre (max. length in one piece 100m).  
 Also available on 100m reels.

## Non-Screened Multi-Core Cable 1A Type

A range of non-screened multi-core cables having stranded cores of 7/0.2mm tinned copper wire in 2 to 36-way. The conductors have colour coded PVC insulation, wrapped overall in Melinex tape and sheathed in black PVC. The cable is suitable for low power applications where the current does not exceed 1A.

All cables except MJ73Q conform to DEF STAN 61-12 parts 4 and 5. Cable MJ73Q is, however, manufactured in accordance with the parameters listed with this specification.

### Specification

Nominal conductor area: 0.22mm<sup>2</sup>  
 Maximum working voltage: 440V AC r.m.s.  
 Maximum current per core: 1A  
 Capacitance, core to core: 75pF/m

### Core colours:

- 1 Red, 2 Blue, 3 Green, 4 Yellow, 5 White, 6 Black,

7 Brown, 8 Violet.  
 Available sizes and overall diameters:  
 2-core 3.6mm  
 3-core 3.8mm  
 4-core 4.1mm  
 6-core 4.8mm  
 8-core 5.8mm  
 Sold per 100m reel.

## Non-Screened Multi-Core Cable 2.5A Type

Higher current multi-core cable having 16/0.2mm stranded tinned copper cores with PVC insulation wrapped overall in Melinex tape, then sheathed in black PVC. Current carrying capacity is 2.5A. All cables except MJ90X conform to DEF STAN 61-12 parts 4 and 5. Cable MJ90X is, however, manufactured in accordance with the parameters listed within this specification.

### Specifications

Nominal conductor area: 0.5mm<sup>2</sup>  
 Maximum working voltage: 440V AC r.m.s.  
 Maximum current per core: 2.5A  
 Capacitance, core to core: 95pF

### Core colours:

- 1 Red, 2 Blue, 3 Green, 4 Yellow, 5 White, 6 Black, 7 Brown, 8 Violet.

### Available sizes and overall diameters:

HQ49D	Twin Stretchflex	£6.170	£5.550	£5.200	£7.250

## RF Cables

### 50Ω Screened Cable RG58

A screened RF cable having a stranded core 17/0.19mm tinned copper conductor with a solid polyethylene insulator and a braided copper screen. Sheathed overall in black PVC.

Overall diameter: 5mm  
 Centre conductor: 17/0.19mm  
 Nominal impedance: 50Ω  
 Attenuation per 10m: 2dB at 100MHz  
 7.6dB at 1000MHz

Sold per metre (max. length in one piece 100m).  
 Also available on 100m reels.

### Retail Unit Price each (inc. VAT).

Order Code	Type 256	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
XS51F	50 Ohm Cable	£0.357			£0.420
PB64U	5 100m 50 Ohm Cable	£21.690	£17.750	£15.950	£25.490

## Low Capacitance Screened Cable/URM76

A high quality screened cable for high performance audio connections. Stranded core, 7/0.32mm plain copper conductor with polythene insulation, braided screen and sheathed overall in black PVC.

Overall diameter: 5mm  
 Capacitance (core to screen): 100pF/m  
 Maximum voltage: 2.0kV  
 Nominal impedance: 50Ω  
 This cable is also suitable for use at RF and has characteristics superior to UniRadio UR76/RG58C.  
 Attenuation per 10m: 2.0dB at 100 MHz  
 7.6dB at 1000 MHz

Sold per metre (max. length in one piece 100m).  
 Also available on 100m reels.

### Retail Unit Price each (inc. VAT).

Order Code	Type 254	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
XR19V	Low C Cable URM76	£0.417			£0.490
PB15R	8 100m Low C Cable	£31.480	£29.750	£28.250	£36.990

## Heavy Duty RF Cable/URM67

A high quality co-axial cable ideal for use as a transmitter up-lead. Stranded core, 7/0.77mm copper conductor with solid polythene insulation, braided screen and sheathed overall in black PVC.

Overall diameter: 10.3mm  
Capacitance (core to screen): 100pF/m  
Max. voltage: 6.5kV  
Nominal impedance: 50Ω  
Attenuation per 10m: 0.68dB at 100MHz  
2.52dB at 1000MHz

Sold per metre (max. length in one piece 50m). Also available on 50m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
XR63T	URM67 RF Cable	£1.350			£1.590

## 75Ω Screened Cable RG59B/U

A screened cable having an impedance of 75Ω, single solid centre conductor, high density polyethylene insulator and braided copper screen. Sheathed overall in black PVC.

Overall dia.: 6mm  
Centre conductor: 1/0.65mm  
Nominal impedance: 75Ω  
Attenuation per 10m: 1.3dB at 100MHz  
4.6dB at 1000MHz

Sold per metre (max. length in one piece, 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
XSS2G	75 Ohm Cable	£0.382			£0.450
PB65V	75 Ohm Cable 100m	£24.240	£19.250	£17.000	£28.490

## Low Loss RF Cable URM70

High quality coaxial cable suitable for general VHF and UHF use. Stranded core, 7/0.19mm plain copper conductor with high density polyethylene insulation. Screen is braided plain copper sheathed overall in black PVC.

Overall diameter: 5.8mm  
Impedance: 75Ω  
Capacitance (core to screen): 67pF/metre  
Max. voltage: 14kV DC, 1.8kV peak RF  
Attenuation per 10m: 1.5dB at 100MHz  
5.2dB at 1000MHz

Sold per metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+

PB57M	URM70 Cable 100m	£24.670	£20.100	£18.500	£28.990

## RG-11A/U Coaxial Cable

High quality co-ax cable to industry standard MIL-C-17/6B

Overall dia: 7.2mm  
Inner Conductor: 7/0.404mm  
Nominal impedance: 75Ω  
Attenuation: 21 dB/Km at 10MHz

Sold per metre (max. length in one piece 100m)  
Also available on 100m reels

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT		inc. VAT each
		1+	5+	1+

## RG62A/U Coaxial Cable

High quality coax cable to industry standard MIL-C-17/30D.

Overall dia: 3.71mm  
Inner conductor: 1/0.65mm  
Nominal impedance: 90Ω  
Attenuation: 33db/Km at 10MHz

Sold per metre (max. length in one piece 100m)  
Also available on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT		inc. VAT each
		1+	5+	1+
GG32K	49060 RG62A/U Black	£0.502		£0.590
GG33L	RG62A/U 100m Black	£32.330		£37.990

## Radio, TV & Satellite

### Miniature Co-ax

A very high quality miniature co-ax cable suitable for short interconnections between, for example, computer and monitor or TV, video recorders and similar applications. The cable has a 1/0.4mm tinned copper conductor with expanded foam insulation, a good quality braided screen and a thin outer grey sheath.

Overall dia. 2.8mm  
Nominal impedance: 75Ω  
Sold per metre (max. length in one piece 100m).  
Also available on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
XR88V	Miniature Coax	£0.357			£0.420
PB19V	100m Miniature Coax	£23.820	£19.750	£17.950	£27.990

## Low-Loss Co-ax

A low-loss co-axial cable intended for use as aerial downleads for UHF television sets. Solid core, 1/1.0mm copper conductor with cellular polythene insulation, braided screen and sheathed overall in brown and white PVC.

Overall dia: 6.6mm  
Nom. conductor area: 0.786mm<sup>2</sup>

Capacitance (core to screen): 56pF/m  
Nominal impedance: 75Ω  
Attenuation per 10m: 0.75dB at 100MHz  
2.6dB at 900MHz

Sold per metre (max. length in one piece 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
XR29G	Brown Low-Loss Coax	£0.289			£0.340
PA21X	100m Low Loss Coax	£18.710	£17.250	£15.990	£21.990
XR67U	White Low-Loss Coax	£0.289			£0.340
PA78K	100m L.Loss Coax Wht	£18.710	£17.250	£15.990	£21.990

## Satellite TV Cable FT100

Superior quality double-screened, ultra low loss coaxial cable where screening comprises a continuous copper-mylar foil beneath a conventional braided copper screen. 5-celled polyethylene insulator. Sheathed overall in black, or white PVC. Compatible with CT100 cable and connectors

Overall dia.: 6.6mm  
Nom. conductor area: 1mm<sup>2</sup>  
Nominal impedance: 75Ω  
Attenuation per 100m: 6.4dB at 100MHz  
21dB at 1000MHz

Sold per metre (max. length in one piece, 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

PB43W	12 100m Sat Coax White	£35.730	£31.750	£28.750	£41.990

## Low Loss Satellite Cable FT125

Upated version of XS16S. 5-celled polyethylene insulator. Sheathed overall in black PVC. Compatible with CT125 cable and connectors.

Overall dia.: 7.8mm  
Nom. conductor area: 1.25mm<sup>2</sup>  
Nominal impedance: 75Ω  
Attenuation per 100m: 4.9dB at 100MHz  
18.74dB at 1000MHz

Sold per metre (max. length in one piece, 100m) and on 100m reels. A 6mm F plug fits this cable.

Retail Unit Price each (inc. VAT).

## 300Ω Feeder

A balanced feeder cable intended for use as aerial downloads on European, Japanese and American tuners having no 75Ω input. Stranded cores, 7/0.23mm copper conductors with clear polythene insulation.

Overall size: 9.8 x 2mm

Nom. conductor area: 0.34mm<sup>2</sup>

Capacitance

(core to core): 13.2pF/m

Nominal impedance: 300Ω

Attenuation per 10m: 0.12dB at 100MHz

1.68dB at 1000MHz

Sold per metre (max. length in one piece 100m). Also available on 100m reels.

## Video Cables

### 9-Way Overall Screened

Contains a bundle of 9 wires colour coded Black, Brown, Red, Orange, Green, Yellow, Blue, Purple and Grey. Each conductor has 7/0.12mm tinned strands. The whole group is wrapped with a metallised mylar film acting as the screen, which is in contact with a single uninsulated tinned stranded earth conductor with 7/0.155mm strands. Ideal for multi-way audio signals where crosstalk is not a problem. Outer sheath is soft matt black PVC to an overall diameter of 6mm. A cable suitable for making up 'Composite Video and Audio' Peritel cables. This cable should be used for short runs only, otherwise crosstalk between conductors may become a problem. Sold per metre (max. length in one piece, 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 297	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
XS42V	9 Way Cable	£0.587			£0.690
PB66Y	10 9 Way Cable 100m	£29.770	£25.750	£23.500	£34.990

### 20-Way Overall Screened

Comprising a bundle of 20 insulated wires colour coded Black, Brown, Red, Orange, Yellow, Green, Blue, Violet, Grey, White, Brown/Black, Red/Black, Orange/Black, Yellow/Black, Grey/Black, Blue/Black, Violet/Black, Pink, Sky Blue and Cyan. Each wire has 7/0.12mm tinned strands. The whole group is wrapped with a metallised mylar film acting as the screen, which is in contact with a single uninsulated tinned stranded earth conductor of 7/0.155mm strands. Outer sheath is soft matt black PVC to an overall diameter of 9mm.

A cable suitable for making up 'Universal' Peritel cables, where all 21 pins are to be connected. This cable should be used for short runs only, otherwise

crosstalk between conductors may become a problem. Sold per metre (max. length in one piece, 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 299	Price each exc. VAT			inc. VAT each

### 2 Screened Cables, One 4-Way Screened, One Single Wire

Contains one red and one blue individually lap-screened, stranded conductor, with high density polyethylene insulators which resist deformation, suitable for two-way video signal traffic. Centre cores are 10/0.115mm strands, and are untinned bare copper as are the screens. Another separate bundle comprises single Red, Blue, Yellow and White insulated, bare copper 10/0.11mm stranded wires, sheathed overall with a metallised film screen in contact with an uninsulated stranded conductor which is soldered together into a solid core, and then in grey PVC. The whole cable is completed by one other isolated, single white 10/0.115mm stranded bare copper wire. The whole group is then wrapped in metallised mylar film, which again includes an uninsulated and soldered, stranded conductor as an earth wire. Outer sheath is soft matt black PVC to an overall diameter of 8mm. A cable suitable for making up 'Composite Video and Audio' Peritel cables, where composite Video, Audio and Function Switching connections are to be provided. Individually screened conductors should be used for video in and out signals. 4-way screened conductors should be used for L+R Audio in and out signals. The remaining single conductor should be used for function switching.

Sold per metre (max. length in one piece, 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 298	Price each exc. VAT			inc. VAT each
		1+	5+	10+

### 6 Screened Cables, One 4-Way Screened, Four Single Wires

An expanded version of XS41U having Black, Red, Yellow, Green, Blue and White individually lap-screened, stranded cores. Two of the cores with high density polyethylene insulators, also suitable for video signals, the rest with PVC. Centre cores are 10/0.115mm strands, and are untinned bare copper as are the screens. Similarly a separate bundle is also provided comprising single Red, Black, Yellow and White insulated, bare copper 7/0.12mm stranded wires, sheathed overall with a metallised film screen in contact with an uninsulated stranded conductor soldered into a solid core, and then in grey PVC. Four independent insulated Blue, Red, Yellow and White 10/0.115mm stranded bare copper wires are also provided. The whole bundle is then wrapped in metallised mylar film, which again contacts an uninsulated and soldered, stranded conductor. Outer sheath is soft matt black PVC to an overall diameter of 10.5mm. A cable suitable for making up 'Universal' Peritel cables, where all inputs and outputs are to be connected. The additional individually screened conductors should be used for

R, G, B and blanking signals, whilst the additional individual single conductors should be used for data communication signals. Other conductors should be connected as type 3 above. Sold per metre (max. length in one piece, 100m) and on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 293	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
XS43W	6 x Screen Cable	£1.560			£1.840

## Sleeving

### Binding Sleeves

Hellermann

Helsyn binding sleeves for uses including insulating wire joints, pin connections soldered to wires and insulating the screen on coaxial cables. In order to fix the sleeves to the wire, the Sleeve Fitting Tool and Hellerine Oil are required. The sleeves are available in four different colours: black, white, pink and green and in four sizes. Sold in packs of 100. Int.

### Sleeve Fitting Tool

Hellermann

The tool for applying sleeving to cable ends. It uses three fixed prongs to open the sleeve. It is used in conjunction with the sleeve oil. The tool is available

in two sizes, type SS (CC80B) for sleeving up to 2.0mm and type S(CJ02C) for sleeving up to 5.0mm diameter.

Retail Unit Price each (inc. VAT).

		1+	4+	8+	
CJ01B	Sleeve Oil	£2.460	£2.390	£2.330	£2.900

**Heat-Shrinkable Sleeving**

A heat-shrinkable crosslinked polyolefin material which will shrink to 50% of its original diameter when heated over 121°C. Sleeving has high tensile strength (12MPa). It is resistant to solvents, acids, alkalis, fuel and oil. The continuous operating temperature should be between -55°C and +125°C. Self-extinguishing. Breakdown voltage >7kV. Colour is black.

Type	Size as supplied (bore)	Size after shrinkage (min)	Wall thickness (mm)	Break-down voltage

**Coloured Heat Shrink**

Canusa

Commercial grade, general purpose heat-shrinkable polyolefin tubing. Ideal for lightweight cable harnessing, insulating, identification and colour coding. This flame retardant tubing offers good physical, chemical and electrical properties. Continuous operating temperature range -55°C to 125°C

- ★ Standard shrink ratio 2:1
- ★ Flame retardant
- ★ Diameter range 1.6mm to 12.7mm
- ★ 5 Standard colours
- ★ Approved to Standard: UL 224

**Low Temperature Heatshrink Tubing**

A range of flexible low temperature shrink polyolefin tubing that is easy to use and is suitable for both electrical and mechanical protection. Ideal for high volume production lines in automotive, domestic appliance and all cable harness manufacture. When heated above 80°C the tubing will shrink, unrestricted, to a minimum of 50% of its supplied diameter. The tubing is resistant to common fluids and solvents. Colour black.

- Specification**  
 Operating temperature: -55°C to +125°C  
 Minimum shrink temperature: 80°C  
 Dielectric strength: 20kV/mm  
 Flammability: non-flame retardant

**'Earthing' Heatshrink Tubing**

A high performance, flexible multi-purpose, yellow/green, striped heat-shrinkable tubing that is made from a specially formulated polyolefin material, offering excellent electrical, chemical and physical properties. Particularly recommended where the international electrical ground designation is intended. When heated above 120°C the tubing will shrink, unrestricted, to a minimum of 50% of its supplied diameter. The tubing is resistant to common fluids and solvents.

- Specification**  
 Operating temperature: -55°C to +135°C

## High Shrink Ratio Tubing

A flexible, flame retardant, heat-shrinkable polyolefin tubing with a 3:1 shrink ratio. The tubing has a thin wall and good resistance to common fluids and solvents. When heated above 120°C the tubing will shrink unrestricted to a minimum of 33% of its supplied diameter. The tubing has an operating temperature range of -55°C to +135°C and a dielectric strength of 20kV/mm minimum. Colour is black. Sold per metre and in 5m lengths.

## Heat-Shrinkable Tubing with Adhesive Inner Liner

A semi-flexible tubing with a meltable adhesive inner liner which flows when heated. After shrinkage and upon cooling this provides a moisture proof seal over the product covered. Suitable for a wide range of applications, such as encapsulation of cables, wires, splices, breakouts and components. The tubing has a continuous operating temperature range of -55°C to +110°C and when heated above 120°C will shrink unrestricted to 33% of its supplied diameter. The tubing is flame retardant and has a dielectric strength of 20kV/mm minimum. Supplied in lengths of 1.2m only and colour is black.

Type	Internal diameter as supplied	Internal diameter maximum	Total wall thickness nominal	Meltable wall only thickness

## Lay Flat Heat-Shrinkable Tubing

A multi-purpose polyvinylchloride heat-shrinkable tubing supplied in lay flat form. The tubing has an ultra thin wall, is semi-rigid and is ideal for covering batteries, capacitors and other components. When heated above 80°C the tubing will shrink unrestricted to a minimum of 45% of its supplied diameter. The tubing has a continuous operating temperature range of -20°C to +85°C, and a dielectric strength of 20kV/mm.

Type	Lay flat width	Wall thickness
CHT16.5	16.5mm	0.07mm
CHT24	24mm	0.1mm

## Insulating Sleeve

A PVC insulating sleeve suitable for use up to 85°C. Available in the following sizes and colours:

- 1mm bore: Black, Green and Red
  - 2mm bore: Black, Green and Red
  - 4mm bore: Black, Green and Red
  - 6mm bore: Black
  - 10mm bore: Black
- Available in one metre lengths and on 25m reels.

**Cable Splicers**

A range of heat shrinkable cable splicers for use on cables up to 6mm in diameter. Place the cable in the metallic barrel and crimp firmly, then shrink the plastic cover by heating in the usual way. An adhesive on the inside of the plastic cover bonds to the cable, securing and splash proofing the connection. Three different sized crimp connectors are available to suit a wide range of cables. Sold in packs of 10 pieces.

Heat Shrink Colour	Dimensions (mm)	Wire Size (mm <sup>2</sup> )	Max. Cable Diameter (mm)	Order Code
Red	5.3 x 34.5	0.5 to 1.5	4.5	AR60Q

AR62S	Cable Splicer Yellow	£1.940	£1.900	£1.830	£2.290

**Cable Blanking Caps**

Canusa

Insulating end caps for covering the exposed ends of multi-way cables and wiring looms which have been cut or where installation of equipment is not yet complete, but in the meantime power needs to be restored. The cap is a plastic tube closed at one end, and having a shallow constriction near the open end to help grip wires or sleeving. On fitting the cap is shrunk onto the cables by heating it to 120°C, and has the capacity to shrink down to less than half its original diameter.

Three sizes are available as follows:

Code	Expanded diameter (as supplied)	Fully shrunken diameter	For cable diameter
MK00A	10mm	4mm	4 to 8mm
MK01B	20mm	7.5mm	8 to 16mm
MK02C	40mm	15mm	14 to 32mm

**Specification**

Tensile strength: 11MPa minimum  
 Ultimate elongation: 300% minimum  
 Continuous operating temperature: -55°C to +100°C  
 Minimum shrink temperature: 120°C  
 Dielectric strength: 8kV/mm minimum  
 Volume resistivity: 1013Ω/cm minimum  
 Low temperature flexibility: Does not crack at -50°C  
 High temperature resistance: Does not crack or soften  
 Water absorption: 2% maximum  
 The caps are resistant to fungus formation, do not contain elements that are corrosive to copper and are self-extinguishing.

Retail Unit Price each (inc. VAT).

MK02C	End Cap 40/15	£1.870	£1.720	£1.620	£2.200

**Cable Markers**

**Wire Markers**

A range of wire markers used for identifying cables, in the form of a 'C' shaped ring which is simply pushed onto the wire required. Fast and easy to fit. The chevron shaped marker is flexible and the tongue arrangement adjusts itself to fit cable insulation between 1.3 to 3mm diameter without sliding. The material is finest, soft grade, durable PVC that will resist oil, grease, acid abrasion and other chemicals. The maximum in-service temperature is 85°C. Bold, black print on a yellow background shows your codes plainly, and any combination of numbers can be composed,

including letters if desired, in any sequence by using several markers together side-by-side. 10 different legends are available: all numbers '0' to '9'. Sold in strips of 20 of each legend. If ordering a quantity of 1,000, supplied in one length on a reel.

Retail Unit Price each (inc. VAT).

**Self Laminating Write-On Markers**

Brady

These booklets contain labels that provide protected identification for cables. Part of each label may be written on, the label is then affixed to the cable and the transparent remainder is wound over the legend. The self-laminating film provides a protected marking with good solvent and abrasion resistance.

Part No	Label Size (mm)	Write-On Area (mm)	Labels Per Book	Order Code

### Marker Cable Ties

Cable ties having a flat rectangular area which can be labelled or written on with an indelible marker to identify particular bundles of wires, looms or various other items which need to be marked. CC24B has a rectangular extension at one end, at right angles to the strap direction and beyond the securing clip end, which will protrude beyond the loom and be easily noticeable.

Tie CC25C has a similar right-angled area across the strap direction, but located inside the securing clip, so will lie flush with the loom.

Ties RT82D/83E/84F have a flat area incorporated into and inline with the strap portion near the securing clip, and which will also wrap around the loom out of the way.

Code	Length mm	Maximum diameter mm	Width mm	Minimum tensile strength kg
CC24B	110	25	2.5	8
CC25C	100	18	2.5	8.1

### Cable Tie Pack

A packet of 75 self-locking cable ties for tidying wire and cable forms. The pack consists of 25 pieces of each of 3 different sizes. These are:

Large: 188mm(L) x 5mm(W) x 45mm(Max Dia)  
Medium: 120mm(L) x 5mm(W) x 25mm(Max Dia)  
Small: 91mm(L) x 2.5mm(W) x 20mm(Max Dia)

Retail Unit Price each (inc. VAT).

Order Code	Type 4165	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
DK27E	75pc Cable Tie Pack	£2.540	£2.060	£1.850	£2.990

### Professional Cable Tie Gun

This tie-wrap gun will tension and cut plastic cable ties. To use the tool the cable tie should be placed in position and the tail of the cable tie inserted into the mouth of the tool. The tool is operated by squeezing the lever; this tensions and removes any excess cable tie. The tension at which the cutting edge operates can be adjusted using a rotary control on the handle of the tool.

The cutting edge is 7mm wide and is suitable for cable tie sizes from 2.2mm to 4.8mm. A hard-wearing and long-lasting tool suitable for production environments where quick, accurate assembly is essential.

Retail Unit Price each (inc. VAT).

Order Code	Type 336	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
AP99H	Metal Tie Gun	£32.630	£26.500	£23.250	£38.350

### Economy Cable Tie Gun

A cable tie-wrap gun that tensions and cuts cable ties. The cable tie is simply placed around the cables in the normal way and the 'tail' is inserted into the cable tie gun. Operating the trigger tensions the cable tie and automatically cuts the tail off, all in one fast, simple, action. Ideal for production environments where quick, accurate assembly is important.

Retail Unit Price each (inc. VAT).

Order Code	Type 338	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
JU29G	Cable Tie Gun	£5.890	£5.100	£4.710	£6.930

## Lacing Cord

A high grade tubular nylon-cored cord covered with a flexible PVC coating. Suitable for lacing wire and cable forms. Conforming to DEF5020.

Outside diameter: 1-1mm  
Working load: 4-54kg  
Breaking strain: 7-71kg  
Sold on 25m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 347	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
BL65V	Lacing Cord	£2.200	£2.000	£1.920	£2.590

## Spiral Cable Wrap

An expandable polythene spiral binding which simply wraps around the cable-form gripping it tightly. It will follow any route taken by the cableform and wires can be easily led out from the form. Resistant to chemical attack and has a high electrical resistance. Available in three sizes.

Type	Unexpanded outside dia.	Wall thickness
3-18mm (1/8in.)	3-18mm	0-79mm
6-35mm (1/4in.)	6-35mm	1-15mm
12-7mm (1/2in.)	12-7mm	1-58mm

Type	Pitch between lead out points	Suitable for cable forms of diameter
3-18mm (1/8in.)	5-56mm	1-59 to 12-7mm
6-35mm (1/4in.)	9-53mm	4-76 to 50-8mm
12-7mm (1/2in.)	12-7mm	9-53 to 101-6mm

Supplied per metre (max. length in one piece 30m).

Retail Unit Price each (inc. VAT).

Order Code	Type 348	Price each exc. VAT			inc. VAT each
		1+	30+	90+

## Cable Clips

### Cable 'P' Clips

A range of nylon cable clamps moulded in natural colour nylon to UL94V-2. Nylon thickness 1-4mm. The following sizes are available to suit cables diameter:

3-2 to 4-8mm  
4-8 to 6-4mm  
6-4 to 7-9mm  
7-9 to 9-5mm  
9-5mm to 12-7mm  
12-7 to 15-8mm

Cable P Clip 1/8in.  
Cable P Clip 3/16in.  
Cable P Clip 1/4in.  
Cable P Clip 5/16in.  
Cable P Clip 3/8in.  
Cable P Clip 1/2in.

Type	Fixing hole		
	dia. (mm)	Width (mm)	Length (mm)
1/8in.	5-0	9-6	19-8
3/16in.	4-6	9-6	19-8

## Self Adhesive Cable Clips

This range of nylon self adhesive cable clips is designed for heavy duty harnessing applications. It provides a fast, strong mounting system for securing cables where fixing holes would be impractical or unsightly.

The range covers cable diameter from 4.5mm to 18mm.

VK Code	Cable Diameter	Width	Height
VK41U	4.5mm	16mm	4.5mm
VK42V	11mm	25mm	7.5mm
VK43W	18mm	25mm	14.5mm

Supplied in packs of 20.

Retail Unit Price each (inc. VAT).

## Self-Adhesive Cable Fixings

Makes cabling simplicity itself. No more hammering nails into concrete, plaster etc. Just wipe the fixing surface to ensure that it is free from moisture, dust, oil or grease, peel off the clip's protective backing and press firmly into place on the surface. An average workman can fix 20 per minute - an enormous saving in labour time over conventional fixings. Also there is no noise - a further valuable advantage if cabling in occupied premises, hospitals etc.

The fixings are manufactured in 26swg zinc-finished electro-galvanised mild steel with cross-linked, acrylic adhesive coating on a cushion of closed cell polyethylene foam. The fixings will adhere to any clean flat surface; the foam cushion taking up any slight unevenness in the fixing surface giving maximum adhesion area.

Four types are available to suit different cable weights and sizes:

Type	Width (mm)	Size Height (mm)	Maximum Cable Diameter (mm)
Mini 4	15	20	4
4	20	30	4
8	25	38	8
12	38	42	12

Sold individually and in packs of 20.

Retail Unit Price each (inc. VAT).

## Plastic Cable Clips

A range of plastic cable clips manufactured from high impact white polystyrene which is weatherproof and shatterproof. All of the round clips push fit onto the cable and grip it firmly leaving both hands free for positioning and fixing. Plated long life masonry nails are supplied with all clips except Round 2-75mm and Flat 4mm and 5mm which have carbon steel nails, blued for extra resilience.

The following sizes are available:

2.75mm 3-5mm 4mm 5mm 6mm

7mm 8mm 9mm Flat 4mm Flat 5mm

Flat 9mm Flat 10mm Flat 14mm

Type (mm)	Pin Length (mm)	Pin diameter (mm)	Suits Cable of overall size (mm)
Round 2.75	15	1	2 to 3
Round 3.5	15	1.5	3 to 3.75

Round 4	15	1.5	3.75 to 4.5
Round 5	20	1.5	4.5 to 5.5
Round 6	22	1.5	5.5 to 6.5
Round 7	22	1.5	6.5 to 7.5
Round 8	25	2	7.5 to 8.5
Round 9	25	2	8.5 to 9.5
Flat 4	15	1	Zip Wire
Flat 5	15	1	Twin Mains DS
Flat 9	25	2	1.5mm <sup>2</sup> TE
Flat 10	25	2	2.5mm <sup>2</sup> TE and 1mm <sup>2</sup> Triple ECC
Flat 14	25	2	6mm <sup>2</sup> TE

The following sizes are also available in black:  
Round 5mm, 6mm and 7mm.

Sold in packs of 20 and boxes of 100.

### Releasable Self-Adhesive Cable Clip

Black plastic cable clip with a 25 x 18mm base with self-adhesive pad. The clip can accommodate a cable or wire bundle up to 8mm diameter, and is unlocked by simply pressing down the lower finger tab which releases the teeth of the upper movable part.

Retail Unit Price each (inc. VAT).

Order Code	Type 301	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
JY73Q	Releasable Clip	£0.280	£0.210	£0.180	£0.330

### Cable Protector

A simple, effective and economical way to protect loose cables around the skirting, across the floor and up and around the workstation. The Snap Top Range is ideal for carrying small diameter cables safely. Simply "snap" open - push in the cables - apply the foam fixing tape to the rebate in the base - fit into position for a neat flush finish. Use Type P - for vertical or horizontal applications to carry cables up or along a desk or work station. Type K will carry cables across the office floor, for an island site or electrical wall socket. Type L has a micro profile designed to run parallel to a wall or skirting surface.

In the event of fire all these cable protectors have a low smoke, non toxic and a low fume emission level and will not release harmful chlorine gases. Produced from a fire retardant compound conforming to BS 476 Part 7 Class 3, and its European equivalent DIN 4102 Part 1 Class B1, they have been UV stabilised for an extended life.

Sold per meter (max. length in 1 piece 9m)

Retail Unit Price each (inc. VAT).

Order Code	Type 17251	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
GC87U	K Cable Guard Gry	£5.940			£6.990
GC88V	L Cable Guard Gry	£5.520			£6.490
GC90X	P Cable Guard Gry	£5.090			£5.990

### Cable Protector

The Snap Fit Range is ideal for carrying one or more cables in many combinations depending on application, allowing the user total flexibility to locate and fix any loose cable regardless of direction. Simply "snap" open - push in the cables and lay the protector on the floor. Gently sloped edges allow feet, chairs or trolleys to pass over in complete safety. 3 different profiles are available depending on application.

In the event of fire all these cable protectors have a low smoke, non toxic and a low fume emission level and will not release harmful chlorine gases. Produced from a fire retardant compound

conforming to BS 476 Part 7 Class 3, and its European equivalent DIN 4102 Part 1 Class B1, they have been UV stabilised for an extended life.

## Capacitors

### Capacitor Pack

#### Electrolytic Capacitor Pack

Save money with this handy pack of the most commonly used radial electrolytics - 66 in total.

Pack includes the following values:

Value	Voltage	Quantity	Order Code
1µF	100V	10	FF01B
2.2µF	100V	5	FF02C
4.7µF	63V	5	FF03D
10µF	50V	10	FF04E
22µF	25V	5	FF06G
47µF	25V	5	FF08J
100µF	10V	5	FF10L
100µF	25V	5	FF11M
220µF	35V	5	JL22Y
470µF	16V	5	FF15R
470µF	35V	2	FF16S
1000µF	16V	2	FF17T
1000µF	100V	2	JL27E

Order Code	Type	Price each exc. VAT	inc. VAT each
RJ32K	Capacitor Pack 1	£12.750	£14.990

### Surface Mount Capacitors

#### Ceramic Chip

A range of multilayer ceramic chip surface-mounted capacitors that are packaged in a standard 1206 format (3.45 x 1.85 x 1.52mm). The terminations are metallised silver with a tin-coated nickel barrier layer.

Value	Operating Voltage	Dielectric Type	Tolerance	Temperature Range
10pF	100V	Very stable	±10%	-55°C to +125°C
22pF	100V	Very stable	±10%	-55°C to +125°C
33pF	100V	Very stable	±10%	-55°C to +125°C
47pF	100V	Very stable	±10%	-55°C to +125°C
100pF	100V	Very stable	±10%	-55°C to +125°C
220pF	100V	Very stable	±10%	-55°C to +125°C
330pF	100V	Very stable	±10%	-55°C to +125°C
470pF	100V	Very stable	±10%	-55°C to +125°C
0.001µF	100V	Very stable	±10%	-55°C to +125°C
0.0022µF	100V	Very stable	±10%	-55°C to +125°C
0.0047µF	100V	High permittivity	±10%	-55°C to +125°C
0.01µF	100V	High permittivity	±10%	-55°C to +125°C
0.022µF	100V	High permittivity	±10%	-55°C to +125°C
0.047µF	100V	High permittivity	±10%	-55°C to +125°C
0.1µF	63V	General purpose	±20%	-25°C to +85°C
0.22µF	63V	General purpose	±20%	-25°C to +85°C

Supplied in multiples of 25 pieces (price per 25)  
Available on reels please phone for prices.

Price each is shown. Order quantities less than 4 will be sold at the one off inc. VAT price.

### Ceramic Capacitors

#### Metallised Ceramic Plate Capacitors

A miniature ceramic capacitor with a cement-coated case. Values up to and including 220pF are suitable for temperature compensation in tuned circuits where low losses, close tolerance and high stability are required. Values from 270pF to 4700pF are for use in coupling and decoupling applications, where a non-linear change of capacitance with temperature is permissible. Values 10,000pF and 22,000pF are suitable for use in coupling and decoupling applications, where capacitance stability is not critical.

#### Specification

Tolerance:	
1.8pF to 4.7pF:	±0.25pF
5.6pF to 330pF:	±5%
390pF to 4700pF:	±10%
10,000pF and 22,000pF:	-20% +80%
Working voltage:	
1.8pF to 4700pF:	100V DC
10,000pF and 22,000pF:	63V DC
Insulation resistance:	>1000MΩ
Temperature coefficient:	
1.8pF to 220pF:	Zero
270pF to 390pF:	+350 to -1000ppm/°C
470pF to 4700pF:	medium K (±10%)
10,000pF to 20,000pF:	high K (+22% -82%)
Power factor:	
1.8pF to 390pF:	<10x10 <sup>-4</sup>
470pF to 4700pF:	<25x10 <sup>-3</sup>
10,000pF:	<50x10 <sup>-2</sup>
22,000pF:	<25x10 <sup>-2</sup>

## Resin-Dipped

A high quality multilayer resin-dipped plate ceramic capacitor, offering a very high capacitance in a very small case at a very economical price. Applications include coupling, decoupling and filtering.

### Specification

**Tolerance**  
10pF to 220pF: ±5%  
470pF to 0.1µF: ±10%  
0.22µF to 0.47µF: ±20%  
Insulation resistance: >10<sup>11</sup> or 10<sup>9</sup> divided by µF (whichever is less)

**Temperature coefficient:**  
10pF to 220pF: ±30ppm/°C (COG)  
470pF to 0.1µF: ±15% (X7R) max from -55°C to +125°C  
0.22µF to 0.47µF: +22% -56% (Z5U) max from -25°C to +85°C

**Power factor:**  
10pF to 220pF: <0.1%  
470pF to 0.1µF: <2.5%  
0.22µF to 0.47µF: <3%

**Case size:** (H x W x T) mm      Lead pitch mm  
10pF to 0.0047µF: 4.2 x 4.2 x 3.0      2.5  
0.0068µF to 0.033µF: 5.0 x 5.0 x 3.0      2.5  
0.047µF to 0.47µF: 5.5 x 5.5 x 3.0      5.0

The following values are available:

Value	Voltage	Marking
10pF	100V	100J1C
22pF	100V	220J1C

### Axial Lead Polystyrene

A range of high quality axial lead polystyrene capacitors. Aluminium foil electrodes and welded terminal wires ensure good performance at low and high frequencies. Suitable for use in IFTs, tuned circuits, pulse networks, timing circuits, etc.

Tolerance:  $\pm 5\%$   
 Working voltage: 160V DC (22pF to 3,300pF)  
 63V DC (22,000pF to 47,000pF)

Insulation resistance:  $>10^9\text{M}\Omega$   
 Power factor:  $<0.0005$   
 The following values are available:

Value (pF)	Diameter	Length
22	4.0	10.0
47	4.0	10.0

### Close Tolerance Polystyrene

Phillips

A polystyrene film and tin/lead foil capacitor using extended techniques, resulting in low inherent inductance and low series resistance. This combined with low temperature coefficient, makes these capacitors suitable for use in professional and general purpose applications where precision, reliability, stability and low losses are of prime importance, e.g. in tuned circuits, filter networks, discriminators etc.

Tolerance:  $\pm 1\%$   
 Working voltage: 100pF to 470pF: 500V DC, 220V AC 50Hz  
 560pF to 8200pF: 125V DC, 63V AC 50Hz  
 10,000pF and 22,000pF: 63V DC  
 Insulation resistance:  $>10^{11}\Omega$   
 Temperature coefficient:  $-150\pm 60\text{ppm}/^{\circ}\text{C}$   
 Power factor:  $<2 \times 10^{-4}$  at 1kHz  
 $<5 \times 10^{-4}$  at 1MHz

### Miniature Polycarbonate Film and Foil

Wima

A range of polycarbonate film capacitors with metal foil electrodes that are designed for reservoir and decoupling applications in high-speed digital circuits. The capacitors feature low induction and low damping with an almost linear capacitance temperature coefficient. Housed in a yellow flame-retardant

plastic case (UL 94 V-O) with an epoxy resin seal.

Tolerance:  $\pm 10\%$   
 Temperature range:  $-55^{\circ}\text{C}$  to  $+100^{\circ}\text{C}$   
 Insulation resistance: 50V:  $\pm 3.75 \times 10^9\text{M}\Omega$   
 63V:  $\pm 1 \times 10^4\text{M}\Omega$   
 Dissipation factors (tan $\delta$ ) at: 1kHz:  $\pm 2 \times 10^{-3}$   
 10kHz:  $\pm 4 \times 10^{-3}$   
 100kHz:  $\pm 8 \times 10^{-3}$

**Polyester**

**Multilayer Metallised Polyester Film**

A range of multilayer metallised polyester film capacitors that are epoxy resin sealed in a flame-retardant thermoplastic case (UL94VO).

These low-cost capacitors have a high CV to volume ratio and are highly reliable and stable over a very wide temperature range (-5°C to +100°C). The capacitors are non-inductive with a standard 5mm lead spacing and are primarily intended for PCB mounting. Conform to IEC 384-1/384-2 and CECC 30000/30400.

**Specification**  
Voltage working: 63V DC  
Tolerance: ±10%  
Dissipation factor:  $\tan\delta \leq 0.01/1\text{kHz}$   
typical  $50 \times 10^{-4}$

**Polyester Layer**

Siemens

A self-healing layer capacitor with a polyethylene-terephthalate dielectric. Designed specifically for use on printed circuit boards, they offer high values of capacitance in extremely small case sizes and they have low inductance and low loss characteristics.

Tolerance: 0.001µF to 0.01µF: ±10%  
0.015µF to 1µF: ±5%  
Working voltage: 0.001µF to 0.01µF: 400V DC  
160V AC rms 50Hz  
0.015µF to 0.18µF: 250V DC  
100V AC rms 50Hz  
0.22µF to 1µF 100V DC  
55V AC rms 50Hz

Insulation resistance  
0.001µF to 0.33µF: >7.5x10<sup>10</sup>Ω ave.  
0.39µF to 1µF: >2.5x10<sup>10</sup>Ω ave.  
Temp coefficient: 200ppm/°C ave.  
Self-inductance: 6nH approx.  
Power factor: <8 x 10<sup>-3</sup> at 1kHz

## High Voltage Metallised Polyester Film

A range of high voltage, metallised polyester film capacitors that are suitable for a wide range of applications including supply decoupling, filter, integrator and audio circuits etc. These low-cost, non-inductive, self-healing capacitors conform to IEC 384-1/384-2.

## Metallised Polyester Film

Wima

A range of high quality polyester film capacitors with vacuum-deposited aluminium electrodes that are designed for the most stringent requirements. The capacitors have CECC approval Certificate Number 30 401-030 and are in accordance with DIN 44 122. The capacitors are encapsulated in a red flame-retardant plastic case (UL 94 V-O) with an epoxy resin seal.

## Metallised Polyester Film

Philips

These capacitors consist of a low-inductive wound cell of metallised (PETP) film. This is protected by a hard, water repellent, solvent resistant and flame retardant orange epoxy. Designed for use on PCBs for coupling and decoupling applications, the radial leads are solder-dipped copper wire 5mm long. Capacitors have a tolerance of 10% except those marked with \* (20%). Rated voltage (DC) and code for dielectric material (MKT = metallised PETP film). Operating temperature range -40°C to +100°C

Insulation resistance:	0.01μF to 0.33μF: >3x10 <sup>10</sup> Ω		
	0.47μF to 2.2μF: >5 x 10 <sup>9</sup> Ω

## Miniature Polyester and Foil

Wima

A range of polyester film capacitors with metal foil electrodes that are designed for reservoir and decoupling applications in high-speed digital circuits. The capacitors feature low inductance and low damping and are encapsulated in a blue flame-retardant plastic case (UL 94 V-O) with an epoxy resin seal.

## High Voltage / Polypropylene

### High Grade, Low Loss 160V Range

**Audiophile quality**  
**Ideal for crossovers**  
**High stability**  
**Special construction**

General purpose, axial polypropylene capacitors rated at 160V DC working. Constructed from metallised polypropylene film and encapsulated using the 'wrap and seal' method, where the wound elements are wrapped in heavy duty insulation film wider than the element, and the end cavities sealed with high grade epoxy resin. This method results in a cost effective yet high quality construction. Ideal for a wide range of applications, in particular those requiring a low loss and/or low dielectric absorption component in such applications as sample and hold circuits and Hi-Fi including crossover networks. Not to be used for mains voltage filtering applications. Eight values available: 1 $\mu\text{F}$ , 1.5 $\mu\text{F}$ , 2.2 $\mu\text{F}$ , 3.3 $\mu\text{F}$ , 4.7 $\mu\text{F}$ , 22 $\mu\text{F}$ , 33 $\mu\text{F}$  and 47 $\mu\text{F}$ .

**Specification**  
Tolerance:  $\pm 10\%$   
Max. working voltage: 160V DC  
Max. survivable peak-voltage: 240V for 30s, not to be repeated.  
Dissipation factor:  $\leq 0.001$  at 1kHz &  $20 \pm 3^\circ\text{C}$   
Insulation resistance:  $\geq 10^4 \text{M}\Omega$  per  $\mu\text{F}$

Operating temp. range:  $-40$  to  $+85^\circ\text{C}$   
Vibration proof to BS2011 in the frequency range of 10 to 500Hz, where displacement of component not to exceed 0.75mm in any direction.

**Dimensions**

Value ( $\mu\text{F}$ )	L (mm)	W (mm)	T (mm)	t (mm)

## Audio-Grade Polypropylene Axial Capacitors

ICW

- ★ Audiophile quality
- ★ Ideal for high power crossovers
- ★ High stability
- ★ Special construction

A range of capacitors that have been specially developed to be used in very high quality loudspeaker crossover networks in domestic and studio monitoring systems and in the finest valve amplifiers- when only the very best will do. The inherently low dissipation and dielectric absorption factors of polypropylene, allied with an excellent mechanical stability, result in an extremely detailed and pure sound. The construction results in a low self-inductance and ESR, and the devices are highly stable with respect to temperature and frequency plus the added bonus of a high voltage device.

Tolerance:  $\pm 5\%$   
Rated voltage: 630V DC  
Insulation resistance:  $\geq 1 \times 10^4 \text{M}\Omega/\mu\text{F}$  @ rated voltage and  $20 \pm 3^\circ\text{C}$   
Dissipation factor:  $\leq 0.001$  @ 1kHz &  $20 \pm 3^\circ\text{C}$   
Dielectric absorption:  $\leq 0.1\%$  @  $20 \pm 3^\circ\text{C}$

## Metallised Polypropylene

ICW

A high quality metallised polypropylene capacitor for use at very high continuous AC or DC voltages. They meet the requirements of BS2135 for Class X or Class Y use at 250V AC mains.

Tolerance:  $\pm 10\%$  (K)  
Working voltage: 1000V DC, 500V AC  
Power factor:  $< 1.5 \times 10^{-3}$  at 1kHz  
Pulse rating: 0.1 $\mu\text{F}$  and 0.22 $\mu\text{F}$  70V/ $\Omega\text{s}$  max  
0.47 $\mu\text{F}$  and 1 $\mu\text{F}$  40V/ $\Omega\text{s}$  max

The following values are available:

Value	Length (mm)	Dia. max (mm)
0.1 $\mu\text{F}$	28	15
0.22 $\mu\text{F}$	28	18
0.47 $\mu\text{F}$	45	19
1 $\mu\text{F}$	45	28

## Metallised Class X2 Film

Arcotronics

A metallised film PETP (polyethylene terephthalate) and impregnated paper dual dielectric moulded in flame-retardant polypropylene. The capacitors are

designed to suppress electrical interference from domestic appliances and should be connected directly across the mains (class X2). Approved to EN132 400 with IMQ approval (275V AC). Fully approved to UL1414, UL1283 and CSA C22.2 No.1 (250V AC).

The following values are available:

Value (µF)	Length (mm)	Height (mm)	Thickness (mm)	Voltage (V)

## Motor Start / Power Factor Correction Capacitors for 250V/400V

A range of 250/400V AC working high capacity metallised polypropylene capacitors in a plastic case with standard 6.35mm (0.25in.) 'Lucar' style tags terminals (HF10L is suitable receptacle). These light weight, self-healing capacitors are very stable and provide high capacity in a small case. Suitable for use with single-phase induction motors; single phase supply to three-phase motors; serial and parallel power factor correction in fluorescent and gas discharge lamps etc. The capacitors meet the requirements of IEC 252/566, VDE 0560-8/0560-6, and contain no PCB or other impregnating materials. Tolerance ±10%.

## ERC Radial Capacitors

A range of polarised epoxy resin coated capacitors that are ideal replacements, or alternatives, for tantalums. They offer low leakage, excellent stability and extended life in a well sealed, moisture and leak-proof package that is also resistant to acid and alkali.

**Specification**  
 Tolerance: ±20%  
 Leakage current: <0.0022CV or 0.5µA (whichever is larger)  
 Temperature range: -40°C to +105°C

Tan δ @ 120Hz

0.1µF to 1µF:	0.06
1.5µF to 6.8µF:	0.08
10µF to 68µF:	0.09
100µF to 470µF:	0.12

**Tantalum Bead**

**Tantalum Bead**

**Kemet**  
A range of resin-dipped solid tantalum bead capacitors featuring very high values of capacitance in an extremely small package. Manufactured to ISO9001 standards. Tolerance: ±20%. Reverse voltage must not exceed: 0.5V.

Leakage current: 0.02µA/µFV or 1µA whichever is greater.  
Power factor: <0.1 except 100µF which is <0.2.  
Lead pitch: 5mm.

The following values are available:

**Electrolytics**

**SE Series Low Profile Radial Electrolytic**

**Samwha**

A range of aluminium cased electrolytic capacitors with values ranging from 0.1 to 100µF with voltages from 6.3 to 63V. Suitable for operation between -40 and +85°C. Load life rating of 1000h at 85°C. Low profile 5mm high design makes this capacitor ideal for applications where space is at a premium, and offers a viable alternative to dipped tantalum types. Leakage current of 0.01CV or 3µA (whichever is greater after 1 minute).

**Order £30 or above?**  
Account holder or not, your order will be sent carriage paid.  
(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)

## Radial Electrolytics

**Dubilier**

A range of small long life (2000H) electrolytic capacitors designed for direct mounting on PCBs.

Tolerance: ±20%  
Temperature range: -40°C to +85°C

Cap current (µF)	Working Voltage (DC)	Case Size (mm)	Leakage	Power	Ripple (mA max) at 120Hz @ 85°C

## Electrolytic Capacitor Pack

Save money with this handy pack of the most commonly used radial electrolytics - 66 in total.

Pack includes the following values:

Value	Voltage	Quantity	Order Code
1µF	100V	10	FF01B
2.2µF	100V	5	FF02C
4.7µF	63V	5	FF03D
10µF	50V	10	FF04E
22µF	25V	5	FF06G
47µF	25V	5	FF08J
100µF	10V	5	FF10L
100µF	25V	5	FF11M
220µF	35V	5	JL22Y
470µF	16V	5	FF15R
470µF	35V	2	FF16S
1000µF	16V	2	FF17T
1000µF	100V	2	JL27E

Order Code	Type 12717	Price each exc. VAT	inc. VAT each
RJ32K	Capacitor Pack 1	£12.750	£14.990

## GCSE Component Pack

An assortment of electronic components housed in a quality storage box intended for students following the GCSE courses in Electronics. The pack includes a wide selection of capacitors, resistors, transistors, diodes ICs, LEDs and a stripboard for assembling

projects. It is also suitable for any beginner to electronics who requires a good selection of components, as the pack represent excellent value, offering a considerable saving over individual prices.

GT66W	GCSE Component Kit	£18.720	£17.190	£15.970	£23.490

## High Temperature Radial Electrolytics

**Dublier**  
A range of high temperature, miniature radial electrolytics offering excellent reliability and long life - up to 2000 hours at 1050C. The capacitors are ideal for use in the output circuits of switching power

supplies and other high temperature environments such as monitors and automotive applications. At lower operating temperatures, life expectancy is well over 10 to 15 years.

### Specification

Temperature:	-400C to +1050C
Tolerance:	±20%
Leakage current:	<0.01CV or 3µA whichever is larger (>2 mins)
Washability:	% mins in Freon TE, Arklone AM or equivalents

## Low Impedance High Temperature Radial Electrolytics

### Dublier

A range of low impedance, high temperature, miniature radial electrolytics offering excellent reliability and long life - up to 2000 hours (>8mm) for diameter (5000 hours for diameter > 8mm) at 105°C. The capacitors are ideal for use in the output circuits of switching power supplies and other high temperature environments. and audio circuits where the low impedance makes them excellent for high frequency applications

### Specification

Temperature: -40°C to +105°C  
Tolerance: ±20%  
Leakage current: <math>\le 0.01CV</math> or <math>2\mu A</math> whichever is larger (>1 mins)

Value $\mu F$	Voltage	Imp $\Omega$	Ripple mA	Dimensions mm Dia	Length

## VX Series Axial Electrolytic

### Nichicon

A range of axial leaded capacitors with values from 1 to 4700 $\mu F$  at voltages of 10 to 450V. Load life of 2000h at 85°C. Operating temperatures of -40 to +85°C. Leakage current not more than 0.03CV or 4 $\mu A$  (whichever is greater).

## Axial Lead Electrolytic

A range of miniature, general purpose aluminium electrolytic capacitors, using high etch factor foils to enable wide operating temperatures and high capacitance to be achieved in a miniature can size.

For new designs we recommend the use of radial

### types.

## High Temperature Axial Electrolytics

Dubilier

A range of high temperature, miniature axial electrolytics offering excellent reliability and long life - up to 2000 hours at 105°C, and high ripple current. The capacitors are ideal for use in the most demanding applications and environments such as automotive applications.

### Specification

Temperature: -40°C to +105°C  
Tolerance: ±20%  
Leakage current: <0.01CV or 3µA whichever is larger (>5 mins)

Value	Voltage	Dimensions mm		Lead dia mm
		Dia	Length	
4.7µF	63V	6.3	12.5	0.6
10µF	50V	6.3	12.5	0.6

## High Frequency Electrolytics

Nichicon

Radial lead electrolytic capacitors having very low impedances at high frequencies, designed primarily for use in switch mode power supplies, but suitable for use in many applications where a high grade capacitor is required.

### Specification

Tolerance: ±20%  
Temperature range: -55°C to +105°C  
Leakage current: 0.03CV  
Load Life: 5000h@105°C  
Power factor: <0.08 (0.1 for 1000µF types)

Cap (µF)	Working Voltage (DC)	Case Size (mm)			Ripple current (mA)	ESR (mΩ)	Impedance m:1 @ 1kHz

## Non-Polarised Electrolytics

Samwha

A range of non-polarised electrolytic capacitors primarily intended for use in loudspeaker crossover networks, but also suitable for use in applications where a large capacitance is required in a compact case with a large bipolar signal.

### Specification

Tolerance: ±20%  
Temperature range: -40°C to +85°C  
Leakage current: 0.03CV or 3µA whichever is greater after 5 mins

## HC Series Snap-In Radial Electrolytic

Samwha

A range of aluminium cased electrolytic capacitors with values ranging from 47 to 22,000µF with voltages from 16 to 450V. Suitable for operation between -25 and +85°C (-40°C for working voltages <350V). Load life rating of 2000h at 85°C. Leakage current of 0.03CV or 3µA (whichever is smaller after 5 minutes).

Part Number **HC 4700 M 16 Y**

## Low Profile Can Solder Tagged Electrolytics

Samwha

A range of low-profile, can-type electrolytic capacitors offering long life and stability.

The capacitors feature etched aluminium foil, non-inductively wound with impregnated electrolytic tissue.

Vertical mounting clips are available separately.

Value µF	Working V DC	Ripple current (max)	Leakage current (max)	Power factor (max)
2200	63	2.75A	5mA	0.35
4700	63	5.25A	8.9mA	0.5
10000	35	5.1A	10.5mA	0.5
10000	63	8.25A	18.9mA	0.5

Order Code	Value µF/V DC	Case size (mm max) L x D
LE01B	2200/63	30 x 25.4

## Can-Type Electrolytic Mounting Clips

Vertical mounting clips for the standard range can type electrolytics. Available for 25mm (LE05F) and 30mm (LE80B) diameter capacitors. Requires M3 x 10mm nut and bolt.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		10+	25+	100+	
LE05F	25mm Clip	£0.220	£0.165	£0.092	£0.432
LE80B	30mm Clip	£0.350	£0.265	£0.154	£0.708

## Standard Range Can-Type Electrolytics with Clips

A range of can-type electrolytic capacitors employing high gain etched aluminium foil non-inductively wound with electrolytic tissue impregnated with long life electrolyte.

All dimensions in mm.

30 to 40mm dia. types

Tolerance:	-10+30%				
Temperature range:	-40°C to +85°C

## High-Grade Can-Type Electrolytic Capacitors

**Elna**

A very high grade capacitor designed for use in the power supplies and outputs of high power audio amplifiers. The capacitor's excellent response is obtained by lowering the equivalent circuit series resistance to half that of ordinary capacitors. The high grade materials used in the capacitor are chosen to give superior aging and stable tonal quality over the audio range. In addition, particular care has been taken to ensure very low distortion levels, for example third harmonic distortion at 10kHz, 0.1A is 150dB or less.

Tolerance: ±20%.  
Temperature range: -40 to +85°C.

50.8mm dia.type

Value (µF)	Working V (DC)	Case size L mm	Case size D mm	Ripple current (max) at 100Hz 55°C	Leakage current (max)	Power factor (max)
4700	63	80	35-5	7-7A	5mA	0-20
10,000	63	80	50-8	13-2A	6-3mA	0-20

**+** This symbol beside an order code in the price block indicates **WHILE STOCKS LAST**

## Memory Retention Capacitors

**Elna**

A range of very compact, high value polarised memory retention capacitors. Primarily intended for use with 5V CMOS low power static memory devices to provide a back-up supply so that data is retained when power is switched off. Three values are available; 0.22F, 0.47F and 1F (1F = 1 x 10<sup>6</sup> µF).

### Specification

Tolerance:	-20/+80%
Working voltage:	5.5V DC (max)
Leakage current 0.22F:	135µA
Leakage current 0.47F:	216µA
Leakage current 1.0F:	315µA
Internal resistance 0.22F:	75Ω
Internal resistance 0.47F:	30Ω
Internal resistance 1.0F:	30Ω
Operating temperature range:	-25 to +70°C
Size 0.22F:	7.5mm x 13.5mm dia.
Size 0.47F:	8.0mm x 21.5mm dia.
Size 1.0F:	8.0mm x 21.5mm dia.
Lead pitch:	5mm

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 435	Price each exc. VAT			inc. VAT each

## Variable Capacitors

### Miniature Film Dielectric Trimmers

A miniature trimmer sturdily constructed on a plastic frame. The dielectric is arranged so as to support the vanes giving a very high degree of stability. Adjustment is by means of a screwdriver slot in the upper face.

Working voltage: 100V DC  
Insulation resistance: >10,000MΩ  
Power factor: <10x10<sup>-4</sup> at 1MHz;  
<25x10<sup>-4</sup> at 100MHz

The following values are available:

Max value:	10pF	22pF	65pF
Range:	2 to 10pF	2 to 22pF	5.5 to 65pF
Body colour:	Yellow	Green	Yellow
*Temp. coef:	-200	-350	-200
Hgt above board:	10	10	11 (max)
Max diameter:	8.8	8.8	11.5
Max dissipation:	0.35W	0.35W	0.9W
*Temperature coefficient is in ppm/°C with a tolerance of ±300.			

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 410	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	
WL68A	Trimmer 10pF	£0.290	£0.250	£0.230	£0.990
WL70M	Trimmer 22pF	£0.340	£0.300	£0.280	£1.090
WL72P	Trimmer 65pF	£0.385	£0.287	£0.287	£1.190

## AM/FM Miniature Tuning Capacitors

Drawing of FT78K

Miniature tuning capacitors for radios, ZN416 circuits and crystal sets. Each has an antenna section and an oscillator section for each band, and a trimmer for each section. The control shaft is a flatted 6mm dia. brass spindle, tapped down the centre with an M2.5 thread. Fixing is either direct pcb or by two M2.5 screws on 14mm centres on same face as shaft. (Note: Thread length is 3mm. If using long screws, take care that they do not foul the vanes.)

Drawing of AB11M

### Specifications:

For stock code:	AB11M	FT78K
Capacity AM sections:	126pF	141.6/59.2pF*
Capacity FM sections:	20pF	-
Q AM sections:	<500	500
Q FM sections:	<150	-
Total rotation:	180°	180°
Max voltage:	100V	100V
Dimensions mm:	20x20x13	20x20x13

\*Antenna/Oscillator gang.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## Colour TV Crystals

Crystals for use in colour TV receivers, TV games, home computers etc. Frequencies available operate at the colour sub-carrier frequency in American standard NTSC receivers (3.579545MHz), standard British PAL TV receivers (4.433619MHz), and at twice that frequency (8.867238MHz).

Can style	HC-49/U
Adjustment tolerance	±30ppm
Temperature stability	±30ppm

**Business Account Holders**  
No Delivery Charges for any order

Temperature range -10°C +60°C  
Load capacitor 20pF (30pF for 8.867238MHz)

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 479	Price each exc. VAT	25+	100+	inc. VAT each 1+
UJ03D	Crystal 3.5794MHz	£0.725	£0.580	£0.483	£1.308

LH85G	Crystal 8.867238 MHz	£0.800	£0.640	£0.533	£1.428

## Timing Crystals

Three crystals for time keeping purposes, counters etc., using simple flip-flop divider stages. Two crystals generate 1Hz and one generates 50Hz when divided by 2n. The 32.768kHz crystal is suitable for use as a replacement in most digital watches, and the crystal for generating 50Hz can be used to drive mains operated clocks from a battery when mains fails or in portable applications.

Frequency	Application
32.768kHz	Divide by 215 for 1Hz (digital watch crystal)
3.2768MHz	Divide by 216 for 50Hz
4.194304MHz	Divide by 222 for 1Hz

Freq	Can Style	Adjust Tol	Temp Stability	Temp Range	Load Cap
32.768kHz	3 x 8	±15ppm	±200ppm	210°C to 160°C	12.5pF
3.2768MHz	HC-49U	±30ppm	±30ppm	210°C to 160°C	12pF
4.194304MHz	HC-49U	±30ppm	±30ppm	210°C to 160°C	12pF

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 480	Price each exc. VAT	25+	100+	inc. VAT each 1+
UJ02C	Crystal 32.768kHz	£0.661	£0.529	£0.441	£1.546

## Radio Control Crystals

A range of third overtone crystals for radio controlled models etc. All are plug-in with 6mm pins on 4.9mm centres and are directly interchangeable.

Can style: HC-25/U Solder weld.  
Adjustment tole 13.5 x 11.1 x 4.7mm.  
Available only in matched pairs as follows:

Channel	Transmitter frequency	Receiver frequency
Brown	26.995MHz	26.540MHz
Red	27.045MHz	26.590MHz
Orange	27.095MHz	26.640MHz
Yellow	27.145MHz	26.690MHz
Green	27.195MHz	26.740MHz
Blue	27.245MHz	26.790MHz

Suitable for use with 455kHz i.f.s.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 481	Price each exc. VAT	25+	100+	1000+	inc. VAT each 1+

## Radio Control Crystal Holder

Keep track of your RC crystals with this holder

which will securely hold five pairs of crystals (Tx/Rx). Can be held to a suitable surface. Dimensions: 79 x 18 x 8mm.

Price each is shown. Order quantities less than 0 will be sold at the one off inc. VAT price.

Order Code	Type 11904	Price each exc. VAT	inc. VAT each 1+
DX93B	Crystal Holder	£0.510	£0.600

## TTL Oscillators

Euroquartz

A range of TTL oscillators that are housed in a standard 14-pin DIL package and have a universal output. The oscillators have a HCMOS output buffer capable of driving the usual 10 TTL loads. Therefore, the devices are both CMOS and TTL compatible.

### Specification (EQXO-1000U series)

Overall tolerance: ±100ppm (0.1%)  
Operating temperature range: 0°C to +70°C  
Supply voltage: 5V ±10%  
Maximum supply current: 13mA to 3.5MHz (7mA typical) 47mA to 64.0MHz (37mA typical)  
Logic levels: '0' +0.5V max '1' +4.5V min  
Duty cycle: 40% to 60% to 2.5V (45% to 5% typical)  
Rise/fall times: 6ns max., 10% to 90% @ 15pF load  
Start up times: 50ms for first full cycle to within 1% of nominal frequency  
Output: Universal - HCMOS or 10 TTL loads  
Packaging: Hermetically sealed resistance weld package

## Filters/Resonators

### Ceramic Resonators

Murata

A range of ceramic resonators that offer an alternative to quartz crystals in clock generation circuits. Both the CSA and CSB series are very stable (±0.5%), and have a high mechanical Q making them ideal for use in microprocessors and remote control units.

Murata Code	MPS Code	Frequency
CSB455E	UL61R	455kHz
CSB500E	DJ28F	500kHz
CSB1000J	CP91Y	1MHz

## TV Sound IF Filters

Murata

Two TV F.M. sound I.F. bandpass filters, the 5.5MHz version follows the European TV I.F. standard, the other is for the U.K. standard of 6MHz.

### Specification

	UL54J	UL53H
Centre freq.	5.5MHz	6MHz
Bandwidth	-3dB @ ±50kHz	-3dB @ ±50kHz
	-20dB @ ±400kHz	-20dB @ ±420kHz
Insertion loss	-8dB	-8dB
Temperature range	-20°C to +180°C	-20°C to +180°C
Rated voltage	50V DC	50V DC

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## Ceramic Filter

**Toko**

A ceramic filter designed primarily for use in FM receivers using a 10.7MHz i.f.

The filters are small in size with high selectivity, good temperature stability and low distortion.

### Specification

Bandwidth:	280kHz (-3dB) 600kHz max (-20dB)
Spurious peaks:	(9 to 12MHz): <40dB (typical)
Insertion loss:	6dB
Input-Output Impedance:	330Ω±15%
Breakdown voltage:	50V DC max
Ripple:	<1dB

Owing to the way ceramic filters are manufactured they do not all have an exact 10.7MHz centre frequency.

All designers should be aware of this fact and all commercial designs usually allow the i.f. to be used to at least 10.58 to 10.82. The fact that the i.f. is not exactly 10.7MHz has no effect whatsoever on any other parameter and the overall quality of the tuner is not affected in any way. However, it is absolutely vital that all the ceramic filters in one tuner have the same nominal centre frequency. Therefore, during manufacture they are tested and colour coded into matched groups as follows:

- 10.64MHz ±30kHz Black
- 10.67MHz ±30kHz Blue
- 10.70MHz ±30kHz Red
- 10.73MHz ±30kHz Orange
- 10.76MHz ±30kHz White

Therefore, if you are ordering ceramic filters for more than one tuner please indicate how many filters are required per tuner so that we can supply them in sets if we do not have enough of one colour to fulfil the whole order.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 490	Price each exc. VAT	inc. VAT each
HX99H	Ceramic Filt 10.7MHz	25+ £0.727 100+ £0.667 500+ £0.571	1+ £1.188

## 50kHz Scan Filter

**Murata**

A ceramic filter with a centre operating frequency of 10.7MHz, and an especially narrow bandwidth.

### Specification

Bandwidth:	50kHz
Input-output impedance:	330Ω
Breakdown voltage:	50V DC max
Dimensions:	width 8mm x height 7mm x 3mm thick.
Pin spacing:	2.5mm.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 492	Price each exc. VAT	inc. VAT each
UF71N	Filt 10.7MHz/50kHz	25+ £1.364 100+ £1.250 500+ £1.071	1+ £2.148

## SAW TV IF Filter

A NICAM compatible Surface Acoustic Wave (SAW) IF filter for PAL TV. Passes vision carrier at 39.50 MHz, FM sound carrier at 39.50 and NICAM at 32.95 MHz. Plastic DIP 10 package.

### Features

- ★ TV IF filter for quasi/parallel sound (separate picture and sound suppression)
- ★ Picture channel with Nyquist slope and sound suppression
- ★ Constant group delay
- ★ Sound channel with two passbands for picture and sound carrier
- ★ Tinned copper terminals

### Pin configuration

- 1 Input
- 2 Input-Ground
- 3,8 Chip Carrier-ground
- 4,5 Output-Sound channel
- 6,7 Output-Picture channel
- 9 Free
- 10 Not connected

### Specification

	MHz	Typical
Rated insertion loss:	38.50	19.0 dB
Relative attenuation		
Picture carrier:	39.50	5.4 dB
Colour carrier:	35.07	3.2 dB
Sound carrier:	33.50	59.0 dB
NICAM stereo sound carrier:	32.95	46.0 dB
Adjacent picture carrier:	31.50	54.0 dB
Adjacent NICAM sound carrier:	40.95	43.0 dB
Adjacent sound carrier:	41.50	49.0 dB
Lower sidelobe:	25.00-33.50	45.0 dB
Upper sidelobe:	41.50-45.00	40.0 dB
Group delay ripple:		±20ns

### Impedance at 38.00 MHz

Input: $Z_{in} = R_{in}    C_{in}$	2.2    17.2	kΩ    pF
Output: $Z_{out} = R_{out}    C_{out}$	1.4    4.2	kΩ    pF

**CD Car Conversion Kit**

Goodmans

This kit will convert your existing personal CD player for use in the car. Included in the kit is an anti vibration platform on a flexible mounting arm. An audio converter cassette is used to 'connect' the output from the CD to your in-car radio cassette player. A power supply is provided to connect to your CD player which plugs into the car cigar lighter, and can be set to the required voltage. Supplied with six sizes of connecting plugs to accommodate almost all popular models.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

## CD to Cassette Player Adaptor

An adaptor in the form of a 'dummy' cassette, enabling the stereo headphones output of a portable personal CD player to be directly played by an in-car stereo cassette player. The adaptor has a magnetic play head in the position normally occupied by the tape. Includes connecting lead with moulded 3.5mm stereo jack plug.

Retail Unit Price each (inc. VAT).

		1+	10+	25+	
DU09K	CD Adaptor	£11.050			£12.990

## AMPLIFIERS

### 50W Car Booster Amplifier

A compact booster amplifier for in-car audio systems offering 25W maximum output per channel (50W total). This high definition amplifier will accept line level inputs, via gold plated phono sockets, or from the loudspeaker outputs from radio cassettes. A gain control is provided to match the amplifier to the source equipment. The amplifier features fully complimentary audio stages, an excellent signal-to-noise ratio thermal shut down and short circuit protection. Generally, the amplifier is mounted in the boot, but it can be mounted in other locations such as under a seat. It is advisable to keep all wiring to a minimum, where possible.

Supplied with a detailed instruction book and fixing screws.

#### Specification

Maximum power output: 10W rms per channel into 4Ω  
0.06% at 10W

THD with 4Ω load: 95%

S/N ratio: 100

Damping factor: 60dB

Channel separation: 200mV to 1.2V

Input sensitivity: 20kΩ

Input impedance: 11.5V to 14.4V DC negative earth

Supply Voltage: 140 x 49 x 120mm

Dimensions: 140 x 49 x 120mm

### 100W In-Car Booster Amplifier

A 4-channel high definition amplifier rated at 10W rms per channel. The unit is intended for use as the output power amplifier for in-car stereo systems, offering four stereo sound sources. Two pairs of stereo phono line level inputs are provided for connection to a main radio/cassette unit having compatible low-level outputs, and input sensitivity controls and a power on LED are included. The input sensitivity can be adjusted to accommodate input levels from 200mV to 1.2V. This unit must be mounted securely to the vehicle before it is used.

#### Specification, each channel

Mean power output: 10W rms into 4Ω

Total harmonic distortion: 1% nominal

Power bandwidth: ±0.7dB 20Hz to 20kHz (-3dB @ 60kHz)

Signal to noise ratio: 60dB nominal

Channel separation: 45dB nominal

Input sensitivity: 200mV to 1.2V, adjustable

Input impedance: 10kΩ

Quiescent current drain: 740mA

Full power current drain: 8.2A rms into 4Ω load, 11.5A peak

Please note: colour of case may vary.

AQ24B	100W Car Booster Amp	£40.840	£34.850	£31.350	£47.990

### 120W In-Car Booster Amplifier

A 4-channel stereo high-power amplifier with outputs of up to 15W rms per channel. The unit is intended for use as the output power amplifier for

in-car stereo systems, offering four stereo sound sources. Two pairs of stereo phono line level inputs are provided for connection to a main radio/cassette unit having compatible low-level outputs, and input sensitivity controls are included. Screw terminals are mounted at both ends for supply and speaker wire connections, including a remote power on/off control line which can be connected to the automatic antenna drive output of the main stereo unit. Protection includes thermal shutdown and integral 20A fuse and a mode switch can select 2-channel stereo operation if required. Fixing screws supplied.

#### Specification, each channel

Mean power output: 15W rms into 4Ω, 4 channels; 25W rms into 4Ω, 2 channels.

Total harmonic distortion: 0.06% nominal

Power bandwidth: ±0.7dB 20Hz to 20kHz (23dB @ 60kHz)

Signal to noise ratio: 65dB nominal

Channel separation: 48dB nominal

Input sensitivity: 200mV to 2V, adjustable

Input impedance: low: 10kΩ high: 100Ω

Quiescent current drain: 740mA

Full power current drain: 8.2A rms into 4Ω load, 11.5A peak

Dimensions: 175 x 56 x 140mm

Please note: colour of case may vary.

### 180W Bridgeable Booster Amplifier

A 45W rms per channel booster amplifier which will accept both line level inputs, via gold speaker sockets, and high level inputs from the speaker outputs of your head unit. This amplifier can be used as a single channel bridged amplifier if both inputs are provided with a common signal and the speaker is connected between the '+L' and '+R' outputs.

#### Specification

Supply voltage range: 11.5V to 14.4V

Fuse rating: 20A

Maximum power output: 45W rms into 4Ω

Output power, bridged: 90W into 8Ω

Peak current output: 10A

Speaker/amplifier protection schemes: Internal failure (DC), short circuit, overheating

Total harmonic distortion: 0.05% into 4Ω

Frequency response: 20Hz to 30kHz ±0dB

Signal to noise ratio: 100dB

Channel separation: 60dB

Sub woofer boost: 10dB @ 40Hz

Damping factor: 200

Input sensitivity: 100mV to 1V, variable

Input impedance: 20kΩ

Dimensions, inches: 8.2W x 2.1H x 8.5D

Please note: Colour of case may vary.

## Stereo 360W Per Channel Booster Amplifier

A 90W rms per channel booster module which includes an integral fuse in series with the +12V supply line. The module can be used as a single channel bridged amplifier if both inputs are provided with a common signal and the speaker is connected between the '+L' and '+R' outputs.

### Specification

Supply voltage range:	11.5V to 14.4V
Fuse rating:	40A
Maximum power output:	90W rms per channel max., into 4Ω
Output power, bridged:	180W rms into 4Ω
Peak current output:	20A
Speaker/amplifier protection schemes:	Internal failure (DC), short circuit, overheating
Total harmonic distortion:	0.05% into 4Ω
Frequency response:	20Hz to 30kHz ±0dB
Signal to noise ratio:	100dB
Channel separation:	60dB
Sub woofer boost:	6dB @ 80Hz
Damping factor:	400
Input sensitivity:	100mV to 1V, variable
Input impedance:	20kΩ
Dimensions:	208 x 53 x 305mm

## HLX AMPLIFIERS

HLX amplifiers are fitted with a three position selectable low pass filter which eliminates the need for an external crossover, reduces distortion and extends the loudspeaker's life.

Mosfet stages have been used to give better sound reproduction to dynamic peaks which are indispensable for digital sound sources. Mosfet transistors also allow the amplifier to operate at much lower temperatures than traditional transistors would normally allow.

Common features of the range

- ★ Selectable high/flat/low pass filter
- ★ Blue anodised heat sink
- ★ MOSFET power supply
- ★ 2 ohms operation for maximum efficiency
- ★ Bridgeable stereo amplifier
- ★ Phantom channel for powering centre speaker of subwoofer
- ★ Gold plated low level inputs
- ★ Gold plated screw terminal connections
- ★ High and low level inputs
- ★ Input sensitivity control
- ★ Circuit and thermal overload protection
- ★ Remote on/off sensor turns amp on and off with car stereo

KM76H - A222HLX

## JBL Amplifiers

JBL

GV67X - JBL GTS100X

A two channel power amplifier rated at 35 Watts rms per channel into 4 ohms stereo. Bridgeable to 1 x 100 watts rms. This amplifier is designed to recover a high quality sound signal from factory fitted OEM head units. Additional features include built in 12dB crossover, line level inputs and pre amp outputs. Made in the USA.

### Specification

Power 4 ohms stereo:	35Wx2
2 ohms stereo:	50Wx2
4 ohms bridged:	100Wx1
Signal to noise ratio:	100dB

Dimensions: (136(L)x196(W)x49(H))mm

GV68Y - JBL GTS180x

A two channel power amplifier rated at 60 watts rms per channel into 4 ohms stereo. Bridgeable to 1 x 180 watts rms. Built in variable crossover can be configured for high-pass or low-pass operation and eliminates the need for external crossover. Use with any factory fitted OEM head unit. Additional features include line level inputs, preamp outputs and remote out. Made in the USA.

### Specifications

Power 4 ohms stereo:	60Wx2
2 ohms stereo:	90Wx2
4 ohms bridged:	180Wx1
Signal to noise ratio:	100dB

Dimensions: 136(L)x196(W)x49(H)mm

GV69A - JBL GTQ190

A four channel amplifier rated at 35 watts rms per channel into 4 ohms stereo. Can be configured to operate as a 4,3 or 2 channel amplifier. Bridgeable to 2 x 100 watts rms. Designed to recover a high quality signal from factory fitted or OEM head units. Built in variable crossover can be configured for high pass or low pass operation. Additional features include mute in which can be triggered by a cellular phone or relay to mute amplifier output, line level inputs, preamp outputs and remote out. Made in the USA.

### Specification

Power 4 ohms stereo:	35Wx4
2 ohms stereo:	50Wx4
4 ohms bridged:	100Wx2
Signal to noise ratio:	100dB

Dimensions: 245(L)x196(W)x49(H)mm

## CROSSOVERS

### Passive Mono Crossover

A 2-way mono crossover which splits the power amplifier's output signal into treble and bass frequencies, for feeding to a woofer and tweeter. It is easy to mount, and features gold-plated connectors for purity of signal.

**Specification:**  
 Type: 2-way mono  
 Power(max): 200W  
 Crossover frequency: 3kHz, 12dB/octave  
 Impedance: 4Ω  
 Dimensions: 120 x 65 x 30mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DR59P	Mono 2 Way Xover	£11.050	£9.750	£8.950	£12.990

### Stereo 2 and 3-way Crossover Networks

200W per channel maximum through-put crossover networks for more sophisticated systems. Each channel is separated two ways (DR00A) or three ways (DR01B) for bass and treble or bass, midrange and treble. Type DR00A provides an additional sub-bass output for frequencies below 150Hz. Connections to amplifier are via flying leads, connections to speakers are by spring terminals.

**Specification**

	DR00A	DR01B
Type:	2 x 2-way	2 x 3-way
Power (max.):	200W	200W
Crossover frequencies:	3kHz	800Hz & 5kHz
	6dB/octave	6dB/octave
Sub-woofer point:	150Hz	N/A
Dimensions:	240 x 155 x 55mm	200 x 135 x 55mm

Retail Unit Price each (inc. VAT).

### Car Stereo 3-Way Active Electronic Crossovers

Two examples of a high quality active crossover which are as near as possible universal, and so can be set up to suit many differing, multi-way speaker systems. Both units are common in having essentially three bands forming a 3-way crossover deriving separate bass, midrange and treble channels. In addition the advanced version has preset controls for adding bass boost or cut by up to ±12dB to improve the response of the driver used, depending on where its resonant frequency lies. Level controls for conventional bass, midrange and treble outputs are also included on the advanced unit. Each complete unit is housed in a matt black steel case having 15mm wide fixing flanges at both ends, and hardware is supplied for screwing to a panel or bulkhead or under the dashboard. The basic unit measures 150 x 120 x 40mm, while the advanced unit is 170 x 130 x 40mm.

#### Specification

	Basic unit (CJ06G)	Advanced unit (GK10L)
Power supply:	+12V DC @ 250mA max.	+12V DC @ 90 to 150mA
Gain, all channels:	0dB	0dB ±2dB
Maximum bass boost/cut:	N/A	12dB ±2dB @ 40Hz
Crossover roll-off, all:	12dB/octave	12dB/octave
Signal to noise ratio:	70dB	100dB
Total harmonic distortion:	0-03%	0-01%
Maximum input level:	>6V r.m.s.	6V r.m.s.
<b>Crossover points:</b>		
Bass:	50 80 120 180Hz	
Lower midrange:	80 120 180Hz	flat
Upper midrange:	2.4 3.5 5kHz	flat
Treble:	2.4 3.5 5 7kHz	

Retail Unit Price each (inc. VAT).

### Multichannel Electronic Crossover

A superb car stereo active crossover that offers a wide range of functions. The compact unit offers two outputs for feeding two sets of subwoofers (normal and boost), a rear 3-way crossover, and a front 3-way crossover, with each section having an output level control (7 in total). All the connectors are gold plated, and are marked inputs for subwoofer, rear and front; outputs for front - low, mid, high; rear - low, mid, high; subwoofer - normal and boost. The subwoofer section has a normal low-pass, frequency selectable output with a 12dB or 18dB/octave slope, and the added facility of a switchable 0 or 180° phase change. With the boost output, all the controls are common to normal output with the addition of 45Hz or 80Hz boost switch and boost level control. A rear input on/off switch is provided. The front and rear sections feature a comprehensive

selection of crossover points to tailor the sound output for individual tastes and vehicles. The high frequency crossover features a 0 or 180° phase change switch. Additionally, the rear section has an input on/off switch. Screw terminals are provided for connection to the vehicle's 12V supply and include a remote on/off facility. There are no fuses in the unit, therefore it is essential that the unit is powered from a fused supply. The unit is finished in a pleasing graphite grey colour with light grey legend.

#### Specification

Crossover range	
Subwoofer	
normal output:	60Hz, 80Hz, 120Hz, 180Hz
boost output:	as normal with 45Hz or 80Hz boost
Front and rear outputs	
low bandpass:	50Hz, 80Hz, 120Hz, flat - high pass 1.5kHz, 2.4kHz, 3.5kHz, flat - low pass
mid bandpass:	50Hz, 80Hz, 120Hz, flat - high pass 5kHz, 6.8kHz, 8kHz, flat - low pass
high:	2.4kHz, 3.5kHz, 5kHz, 7kHz with 0 or 180° phase change
Crossover slope rate	
subwoofer:	12dB or 18dB/octave (±3dB), selectable
rear/front:	12dB/octave (±3dB)
Input impedance:	10kΩ
Output impedance:	1kΩ
Output gain:	0dB
S/N ratio:	>98dB
THD:	0-01%
Power requirements:	12V DC, 0-5A max. negative ground
Size:	264 x 50 x 180mm
Weight:	1.23kg

RZ98G 3	Multichannel X-Over	£93.600	£79.000	£72.000	£109.990

### Two Way Crossover

Dramatically improve the sound performance of your in-car multispeaker system with this electronic two way active crossover system (suitable for use with two power amplifiers or equaliser/amplifiers). The crossover works by directing a specific range of audio frequencies to each of your amplifiers, resulting in cleaner, more dynamic sound, an improved transient response, lower distortion and greater efficiency.

The high and low channel selectors can be tuned to any point between 50Hz and 500Hz and each has a multiplier switch that boosts the output by a factor of 10 (500Hz to 5000Hz). Other controls include a phase shift selector that allows you to change the phase of your subwoofers from 0 to 180° (to help compensate for timing differences between drivers), a stereo/mono selector (to switch subwoofer output from stereo to mono for single subwoofer installations) and gain controls for each channel. A single LED power indicator lights up when the unit is properly powered and the remote power is turned on.

Supplied with 4 self-tapping screws and washers for mounting in a suitable location and full instructions.

#### Specification

Input current:	0-5A max
Power supply:	10-16V DC negative earth
S/N ratio:	100dB
Frequency response:	20Hz-30kHz
Input impedance:	>10kΩ
Output impedance:	<1kΩ
Dimensions:	180 x 132 x 40mm

DR66W	2 Way Crossover	£25.520	£23.000	£21.600	£29.990

## Car Stereo High and Subwoofer Crossover Units

This crossover unit accepts either high or low level stereo inputs from a car stereo, where the high level originates from loudspeaker outputs, and low level originates from a line level signal for feeding power amplifiers, equalisers, etc. The low level inputs are via phono sockets, whereas the high level inputs are via a 300mm long, 4-way wiring loom terminated with a special plug which is keyed to prevent accidental reversal. Similarly, the power supply, earth and the 'remote' on/off switching control line are connected via a 300mm long, 3-way loom with connector. The main supply wire includes an in-line fuse. All loom wires are colour-coded and identified with labels.

The subwoofer electronic crossover has left and right input level presets, a phase switch, and a crossover frequency point selectable at 50, 90 or 180Hz. In addition  $\pm 12$ dB of bass boost or cut can be added, operating at 45, 80 or 120Hz, with left and right presets. Stereo output to a following stereo power amplifier is via phono sockets. The unit is contained in a steel case with 8mm wide mounting flanges at the sides for fixing to a panel or bulkhead or under the dashboard.

**Specification**  
Crossover frequency: 50, 90 or 180Hz switchable  
Crossover slope: 12dB/octave  
Maximum signal level: 2.5V r.m.s.  
Total harmonic distortion: 0.05% maximum  
Gain: 0dB  
Bass boost:  $\pm 12$ dB adjustable  
Bass boost operating point: 45, 80 or 120Hz switchable  
Signal to noise ratio: 100dB  
Channel separation: 70dB  
Power supply range: 9 to 16V DC  
Overall dimensions: 98 x 130 x 23mm high including sockets

CJ07H	Sub-Wool Crossover	£28.500	£22.950	£20.100	£34.490

## Two/Three/Four and Five Way Crossover

A high quality electronic crossover network for use with in-car hi-fi equipment giving improved bass and treble response with the inherent clarity of separate bass, mid and high frequency amplifiers. Ideal for multi-speaker systems where a specific range of audio frequencies needs to be directed to a specific amplifier and speaker group. Among the many improvements you'll hear clarity like never before due to the greater flexibility, better transient response, lower distortion, and greater efficiency.

Other features include input for sub-bass; mid-bass and rear fill from sound source; input for front stage and highs; choice from an infinite number of crossover points from 40Hz to 90Hz, 90Hz to 1kHz and 1kHz to 8kHz for both front and rear speakers; a phase invert selector, stereo mono selector SINGLE/DUAL input switch; gain controls for each channel level; use of RCA phono type connectors throughout; outputs (for all the corresponding input channels); an LED power indicator and a power connector port with BATTERY, GROUND and REMOTE connections. Simply connect up according to your system configuration and apply the power for excellent frequency response, power handling and sound quality. Supplied with full operating and installation instructions.

**Specification**  
Input current: 0.5A  
Power supply: 10-16V DC  
Signal/noise ratio: 100dB  
Distortion: 0.01%  
Frequency response: 20Hz-30kHz  
Input impedance:  $>10k\Omega$   
Output impedance:  $<1k\Omega$   
Output voltage level: 6V maximum

## 40W Shelf Speakers

Compact high quality double cone rear shelf speakers. Unique design gunmetal plastic pod with gold trim. 40W maximum power handling per pod.

Maximum power: 40W  
 Frequency response: 100Hz to 18kHz  
 Speaker size: 75mm double cone  
 Impedance: 4Ω  
 Dimensions: 114 x 105 x 113mm

Retail Unit Price each (inc. VAT).

## Car Tweeter

DR28F

A pair of high quality, in-car tweeters that can be flush mounted or pod mounted (DR28F). Built-in high bass filtering allows direct connection across existing car speakers.

Maximum power: 40W  
 Frequency response: 3kHz to 20kHz  
 Sensitivity: 93dB, 1W @ 1m  
 Impedance: 4Ω  
 Dimensions: 75 x 60 x 50mm

FR65V

A round, 1 inch, high power version (FR65V) is available for surface mounting only, supplied with easy fit brackets.

Maximum power: 100W  
 Frequency response: 2.5kHz to 23kHz  
 Sensitivity: 91dB, 1W @ 1m  
 Impedance: 4Ω  
 Dimensions: 45 x 22mm

## CAR SPEAKERS

### JBL In Car Speakers

JBL

4", 5", and 6" Two Way Round Co-axial.

GTO402

GTO502

GTO602

These co-axial two way models have a unique textured polypropylene bass cone, designed to ensure smooth response by breaking up harmonics that normally travel along the cone edge. This material is also stronger and stiffer than conventional polypropylene cones, allowing it to hold its shape at higher output levels. The titanium composite tweeter selected for these speakers is more compact than most, and rated to 21 kHz. Its combination of stiffness and polymer damping greatly reduces high frequency distortion. In all models the surround material is Butyl rubber and the tweeter is 1 1/2"

CODE	VC94C	PD84F	VC95D
	GTO402	GTO502	GTO602
Freq Response (Hz)	85-21k	65-21k	55-21k
Sensitivity (dB)	90	90	91
Recommended input power range (W RMS)	6-75	5-90	5-125
Mounting depth:	1 7/8	2 7/16	2 7/16

5 1/2" Two Way Round Co-axial  
 VC92A - GTO522

This two way co-axial model has a titanium composite injection moulded cone which is extremely strong, stiff and light, resulting in increased bass response and power handling capabilities. The titanium composite tweeter is rated at 22kHz and uses an off axial mounting system. This equalises the signal path length between the mid-range and the tweeter and ensures correct alignment of the frequencies. Optimum imaging is achieved by simply rotating the speaker in the speaker opening prior to mounting.

Surround material: Butyl rubber.  
 Tweeter size: 3/4"  
 Frequency Response: 55Hz - 22kHz.  
 Sensitivity: 90dB  
 Recommended input

power range: 5 to 160 watts RMS.  
 Mounting depth: 2 7/8"

6" x 9" Three Way Elliptical Co-axial.  
 VC96E - GTO963

This three way co-axial model has a unique textured polypropylene bass cone. Designed for smooth response, it is stronger and stiffer than conventional cones and so holds its shape even at high output. The titanium composite mid-range and titanium composite solid state balanced dome super tweeter both provide a smooth response at high outputs.

Surround material: Butyl rubber.  
 Tweeter size: 1/2"  
 Midrange size: 1 3/4"  
 Frequency Response: 45Hz - 21kHz.  
 Sensitivity: 92dB  
 Recommended input power range: 5 to 175 watts RMS.  
 Mounting depth: 3 1/8"

VC93B - GTO923

This three way co-axial model features a titanium composite injection moulded curvilinear bass cone, which is extremely strong, stiff and light for increased bass response and power handling. The titanium composite mid-range and titanium composite solid state balanced dome super tweeter provide smooth, clear response at high output levels. The tweeter is mounted off-axis. This equalises the signal path length between the mid range and the tweeter, ensuring correct alignment of all frequencies while simplifying installation.

Surround material: Butyl rubber.  
 Tweeter size: 3/4"  
 Midrange size: 1 3/4"  
 Frequency Response: 45Hz - 21kHz.  
 Sensitivity: 92dB  
 Recommended input power range: 5 to 175 watts RMS.  
 Mounting depth: 3 1/8"

4", 5 1/4" and 6 1/2" Two-Way Component Systems  
 GT4.0c, GT5.0c, GT6.0c

These three two way component systems have a textured polypropylene bass cone which is stronger and stiffer than conventional poly cones, allowing it to handle more power. The titanium composite, balanced dome tweeter offers a combination of stiffness and polymer damping which greatly reduces distortion even at high output. To simplify installation and save space, the crossover for the tweeter, which has a slope rate of 12dB per octave is mounted in line. Installation accessories include the surface mounting kits. In all component sets the surround material is Butyl rubber and the tweeter is 1" balanced dome.

## 3-Chamber Dual 10" Woofer Bandpass System

Jenson

**NEW**

This high performance dual 10" driver 4th order bandpass subwoofer system brings thundering bass into your car.

- ★ Designed for in boot or hatchback area
- ★ Left and right channel inputs (4 ohms x 2)
- ★ High mass conc subwoofers
- ★ Black carpeted enclosure
- ★ Acrylic viewing window into 3rd chamber
- ★ Requires nominal amplification for thunderous bass output
- ★ No crossover needed so easy to install.
- ★ Easy to add onto existing sound system
- ★ Computer tuned acoustic chambers
- ★ High SPL efficiency: 97.5dB (1W@1M)
- ★ Quad port design for deeper bass
- ★ Dual 4th order bandpass subwoofer system
- ★ Utilises dual 10" drivers
- ★ Usable frequency response: 20Hz-140Hz
- ★ Dimensions (HxWxD): 30x58x40.2cm

## IN CAR ENTERTAINMENT ACCESSORIES

### High Power In-Car Entertainment Accessories

A range of the finest quality accessories for use with your high power car audio equipment. The accessories are manufactured from solid brass, precision machined and hand finished. They are then plated with 24 carat pure gold to ensure the very best audio performance in a demanding environment.

## GOLD PLATED BATTERY CLAMPS

### Screw Type

These gold-plated battery clamps (one for the positive terminal only and one for the negative) are specifically designed for high quality, high power in-car entertainment systems. Suitable only for use on lead acid batteries with round connecting terminals, both clamps are suitable for use with 4AWG and 8AWG lugs. For added protection, a clear silicone cover is available (DN12N).

Retail Unit Price each (inc. VAT)

See Stock Code Index For More Price Breaks

## Multiway Type

These top quality multiway battery clamps, one for the positive and one for the negative, have outlets for two 4AWG cables and two 8AWG cables. Typically, they could be used for the starter lead, a high power amplifier, and two other auxiliary feeds. The clamps require 3, 4 and 5mm Hex keys (MX09K, MX10L and MX11M) to fix the cables. Please note that these clamps are only suitable for use on lead acid batteries with round connecting terminals. For added protection, a clear silicone cover is available

Retail Unit Price each (inc. VAT)

Order Code	Type	Price each exc. VAT	inc. VAT each
DN00A	Multiway Batt Clamp Pos	£12.750	£14.990
MX03D	Multiway negative	£8.500	£9.990
DN13P	Rub Cover For Term L	£2.970	£3.490

See Section 10, Connectors for our full range of Audio connectors

## Battery Terminal Lugs

Gold plated lugs for use with the above battery clamp. They are available for use with either 4AWG (DN09K) or 8AWG (DN10L) cable. For added protection, a clear silicone cover is available.

Retail Unit Price each (inc. VAT)

Order Code	Type	Price each exc. VAT	inc. VAT each
DN09K	Batt Term Lug 4AWG	£5.690	£6.690
DN10L	Batt Term Lug 8AWG	£3.390	£3.990
DR85G	Term Lug	£3.390	£3.990
MX04E	Cover for DN09/10	£0.842	£0.990

## Cable connectors

Gold plated in-line cable connectors for 4AWG and 8AWG cable.

Retail Unit Price each (inc. VAT)

Order Code	Type	Price each exc. VAT	inc. VAT each
MX06F	4AWG in-line connectors	£3.390	£3.990
MX06G	8AWG in-line connectors	£3.390	£3.990

## Gold Terminals Lug

Gold-plated grounding terminal for use with 8AWG cable.

Retail Unit Price each (inc. VAT).

Order Code	Type 17881	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
MX07H	Spade terminal 8AWG	£3.390	£2.980	£2.670	£3.190

## Insulated Terminals

A range of PVC insulated, gold plated terminals for use with 4AWG and 8AWG cables.

Ring terminals with 8mm internal diameter rings are available for 4AWG (CN94C) or 8AWG (CN93B).

Spade terminals are available for 8AWG cables, (MY10L) has the spade stepped for use with 3mm, 4mm, or 5mm studs, and MX08J is for 4mm studs. All types are supplied in pairs of one red and one black.

Retail Unit Price each (inc. VAT).

Order Code	Type 17881	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
MX08J	Insul spde term 4mm	£1.690	£1.520	£1.350	£1.990
MY10L	Ins spd term 3.5-5mm	£1.260	£1.140	£1.010	£1.490
CN94C	Gold-Plated 4AWG Lug	£2.540	£1.630	£1.410	£2.990
CN93B	Gold-Plated 8AWG Lug	£2.540	£1.280	£1.070	£2.990

## Gold Plated Hex Key Wrenches

Gold-plated hex keys to suit the screws fitted to many of the accessories in this range. These high grade keys are tempered and hardened chromo-vanadium steel and then gold plated. Available in 3mm, 4mm or 5mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 17883	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
MX09K	3mm HEX KEY	£0.842	£0.758	£0.674	£0.990
MX10L	4mm HEX KEY	£0.842	£0.758	£0.674	£0.990
MX11M	5mm HEX KEY	£0.842	£0.758	£0.674	£0.990

## Call and Collect

Maplin has more stores Nationwide than ever before. See the maps at the front of the catalogue for the nearest one to you.

## GOLD PLATED POWER DISTRIBUTION BLOCKS

### Single ended Types

Gold plated power distribution blocks with one input for 4AWG cable and four outputs for 8AWG cable. Both types have an acrylic cover and base that snap together. CN95D has a 5mm diameter fixing hole in each corner. The cover of MX12N can interlock with its neighbours so that groups of blocks can be constructed. It has a 5mm diameter fixing hole at each corner.

Retail Unit Price each (inc. VAT).

Order Code	Type 3054	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
CN95D	4-1 Car Connec Block	£7.650	£5.250	£4.540	£8.990
MX12N	4AWG-4 8AWG inlock	£8.500	£7.650	£6.480	£9.990

## Distribution Block for Car Audio Systems

Gold-plated power distribution blocks that can be inserted into a power line for sub-cables to be tapped off. The blocks have an entry hole at both ends for 4 AWG cable. MX13P has four outputs for 8AWG cables and CN97F has eight outputs for 8AWG cables. Both types have an acrylic cover and base that snap together and 5mm diameter fixing holes in each corner.

Retail Unit Price each (inc. VAT).

Order Code	Type 4999	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
CN97F	8Way Power Dis Block	£11.050	£8.670	£7.090	£12.990
MX13P	In-line 4AWG-4 8AWG	£7.650	£7.240	£6.240	£8.990

## 5 AG Types

Four fuseholders for use with standard 5AG fuses, nominal dimensions 10.3mm diameter and 38.1mm long.

DR84F is for a single fuse and comprises a water resistant clear acrylic case with black screw on end caps with rubber seals. It can be used with 4AWG and 8AWG cables. The base has two 4mm diameter fixing holes.

CN89G has two separate fuseholders with cable entry holes for 8AWG cables at each end of both fuses.

CN99H. has a single large block at one end with holes for three 4AWG cables. The hole in the end is for single-ended use, and the two on the sides for in-line use. To this block, two fuseholders are connected, each having an outlet for 8AWG cable at the other end.

MX14Q is similar to CN99H, but has four fuseholders connected to the large block at one end, and each fuseholder has an outlet for 8AWG cable at the other end. All these types have a clear acrylic cover and base with two 5mm diameter fixing holes in the base.

Retail Unit Price each (inc. VAT).

Order Code	Type 10147	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
CN99H	HD Car Aud Fuse Box	£10.200	£7.400	£6.480	£11.990
CN99G	Car Audio Fuse Box	£12.750	£9.130	£7.650	£14.990
DR84F	Fuseholder	£5.940	£3.630	£3.200	£6.990
MX14Q	4 AWG to four 8AWG	£11.050	£8.250	£6.800	£12.990

## Fuseholders for Maxi Fuses

Four fuseholders for use with MAXI blade Fuses which are a larger version of the standard blade fuses used in cars.

MX15R - Waterproof fuseholder

MX15R is not gold-plated, but is waterproof and all plastic and for a single fuse. To use, cut wire loop and connect the ends in series with the circuit. The wire loop is 8AWG and 300mm long.

BV54J and BV55X

BV54J has two separate fuseholders with cable entry holes for 8AWG cables at each end of fuses. MX17S has a single large block at one end with holes for three 4 AWG cables. The hole in the end is for single ended use, and the two on the sides for in-line use. To this block, two fuseholders are connected, each having an outlet for 8AWG cable at the other end. BV55X is similar to MX17S, but has four fuseholders connected to a large block at one end, and each fuseholder has an outlet for 8 AWG cable at the other end. All types have a clear acrylic cover and base with four 4mm diameter fixing holes in the base. The fuse protrudes through the cover for easy identification and replacement.

Retail Unit Price each (inc. VAT).

Order Code	Type 17866	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
MX15R	In-Line fuse	£1.690	£1.520	£1.350	£1.990
MX17T	4 AWG to four 8AWG	£9.350	£8.410	£7.480	£10.990

		1+	5+	10+	
BV55K	Maxi Fuseholder Quad	£22.110	£14.270	£12.730	£25.990
BV54J	Maxi Fuseholder Twin	£13.600	£9.690	£8.670	£15.990

**All Customers**  
No additional freight charges for heavy items

## GOLD PLATED FUSES AND CIRCUIT BREAKERS

### 5AG Types

A standard 5AG fuse (sometimes known as AWG) with gold-plated end caps and glass barrel. Rated 32V for in car use. Overall size 10.3mm diameter, 38.1mm long. The following values are available: 20A, 25A, 30A, 35A, 40A, 50A, 60A, 70A, 80A.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
MX18U	20 A gold plated fuse	£0.757	£0.650	£0.570	£0.890
MX19V	25 A gold plated fuse	£0.757	£0.650	£0.570	£0.890
CK32K	30A Fuse	£0.757	£0.650	£0.570	£0.890

BZ98G	40A Fuse	£0.757	£0.650	£0.570	£0.890
MX20W50A	gold plated fuse	£0.757	£0.650	£0.570	£0.890
MX21X	60A gold plated fuse	£0.757	£0.650	£0.570	£0.890
MX22Y	70A gold plated fuse	£0.757	£0.650	£0.570	£0.890
MX23A	80A gold plated fuse	£0.757	£0.650	£0.570	£0.890

### 5AG Types with Fail Indicator

The 5AG fuse is also available with an indicator lamp inside which lights when the fuse has gold-plated end caps and a glass barrel. Rated 32V for in-car use (18V max for lamp). Overall size 10.3mm diameter, 38.1mm long. The following range is available and the lamp is colour coded as follows: 20A - yellow, 25A - Transparent, 30A - green, 35A - pink, 40A - orange, 50A - Red, 60A - Blue.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
MX24B	20A fuse+fail ind	£0.927	£0.700	£0.620	£1.090

MX26D	30A fuse+fail ind	£0.927	£0.700	£0.620	£1.090
MX27E	35A fuse + fail ind	£0.927	£0.700	£0.620	£1.090
MX28F	40A fuse + fail ind	£0.927	£0.700	£0.620	£1.090
MX29G	50A fuse+fail ind	£0.927	£0.700	£0.620	£1.090
MX30H	60A fuse + fail ind	£0.927	£0.700	£0.620	£1.090

### Maxi Type

The maxi fuse is a large size version of the standard plug-in fuse. It has gold plated blades and is rated 32V for in car use. The following values are available and colour coded as follows: 20A - Yellow, 30A - Light green, 35A - pink, 40A - orange, 50A - Red, 60A - Light Blue.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
MX31J	20A maxi fuse	£0.842	£0.800	£0.750	£0.990
MX32K	30A maxi fuse	£0.842	£0.800	£0.750	£0.990
MX33L	35A maxi fuse	£0.842	£0.800	£0.750	£0.990
MX34M	40A maxi fuse	£0.842	£0.800	£0.750	£0.990
MX35Q	50A maxi fuse	£0.842	£0.800	£0.750	£0.990
MX36P	60A maxi fuse	£0.842	£0.800	£0.750	£0.990

### Wafer types

The wafer fuse (sometimes known as ANL) is especially designed for use with very high power in-car audio systems. The metal parts of the fuse including the element are 24 carat gold plated. The element is visible through the mica window. Rated at 32V. The following values are available: 35A, 60A, 100A, 200A.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
DN11M	35A Wafer Fuse	£2.110	£1.990	£1.730	£2.490
MX37S	60A Wafer fuse	£2.110	£1.900	£1.690	£2.490
MX38R	100A Wafer fuse	£2.110	£1.900	£1.690	£2.490
MX39N	200A Wafer fuse	£2.110	£1.900	£1.690	£2.490

### Circuit Breakers

A range of fast-acting circuit breakers with gold plated terminals marked 'BATT' and 'AUX' for correct insertion in the power feed. There are two 6mm diameter fixing holes in the base. The following values are available: 50A, 70A, 100A, 200A.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
DR91Y	50A Circuit Breaker	£12.750	£9.990	£8.490	£14.990

## HUGE POWER RESERVOIR

### 1 Farad Capacitor

A 1 farad electrolytic capacitor for use with high power in-car entertainment systems. Rated at 20V, it is capable of providing massive instantaneous currents to improve the crispness of heavy bass sounds. The capacitor has a -10% to 50% tolerance and an extremely low ESR of <math>2m\Omega</math>. Terminals are gold-plated. A gold plated fixing clamp is also available as well as a gold plated connecting bar.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
MX40T	One farad capacitor	£55.310	£49.780	£44.240	£64.990
MX41U	Capacitor clamp	£1.690	£1.520	£1.350	£1.990
MX42V	Connecting Bar	£2.970	£2.670	£2.370	£3.490

## CABLES

### Power Cable for In-Car Entertainment Systems

High quality 8AWG flexible copper cable made from 700 strands of 0.12mm diameter copper, intended for connecting power to high quality in-car entertainment systems. A gold-plated 4 into 1 cable connector, fuse blocks and fuses are also available (see entertainment section). This cable is for use with car audio equipment and is NOT intended for connecting to other car electrical accessories. Available in red and black and sold by the metre (max length in one piece 50m) and on 50m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
BZ92A	8AWG Cable Red	£1.600			£1.890
BZ93B	8AWG Cable Black	£1.600			£1.890

CK97F	11 8AWG Cable Black 50m	£59.560	£53.000	£48.000	£69.990

See Section Capacitors  
for our full range of Capacitors

**SHARK CABLE PACKS**

**Shark Cable Packs**

A range of the highest quality pre-cut cable packs for use with the finest hi-fi equipment and in-car entertainment systems. Designed by shark Engineering, one of the worlds leading design houses for audio cables, they offer probably the highest quality available today. Only the highest quality oxygen free copper is used to make these tightly wound multi-stranded cables sheathed with the highest quality PVC for use in the demanding environments found in cars etc.

Loudspeaker Cables  
**KS88V**

**KS89W**

Two types are available. KS88V is a 10m length of Shark 17AWG loudspeaker cable in a clear sheath. KS89W is a 10m length of Shark Hotwires 12AWG loudspeaker cable in a clear sheath.

Interlink Cables

Very high quality twin phono cables for the highest quality audio connections. Types KS91Y (3m long) and KS92A (5m long) have a figure 8 twin-cable construction and each cable contains 156 strands of 0.06mm diameter OFC copper with PE insulation wrapped with an aluminium foil then covered by a OFC braided shield and sheathed in an outer sheath of jewellery blue PVC. The cable is terminated in the finest quality phono plugs constructed of solid brass and plated with 24 carat pure gold. Connections are made with solder containing 10% pure silver.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KS88V	17 Gauge Cable 10m	£11.050	£12.990
KS89W	Hotwires 10M spool	£17.010	£19.990

KS92A	Interlink 101 5M	£24.670	£28.990

See Section Cable and  
Accessories  
for our full range of cables

**GENERAL PURPOSE FUSE-HOLDERS AND FUSES**

**In-Line Type**

Bayonet-action in-line car type fuseholder with moulded body, suitable for 31mm (1 1/4 in.) fuses. Length 52mm, diameter 14mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DR79L	Car Fuseholder	1+ 25+ 100+	1+ 25+ 100+
		£0.331 £0.170 £0.150	£0.390

**Waterproof In-Line Fuseholder**

This high quality 1 1/4" fuseholder, constructed in tough, waterproof thermo plastic, is ideal for use in harsh environments. Designed for use with 6-35mm fuses, the fuseholder is coloured a bright yellow for high visibility.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DR82D	Waterproof Fusehold	1+ 10+ 25+	1+ 10+ 25+
		£2.110 £1.490 £1.200	£2.450

**Nylon In-Line Fuseholder**

This quality 20mm nylon fuseholder is designed for use with 6-35mm fuses and is coloured bright yellow for high visibility.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DR83E	Car Fuseholder	1+ 10+ 25+	1+ 10+ 25+
		£1.090 £0.840 £0.710	£1.290

**Plug-in In-Line Fuse Holder**

A black nylon in-line fuseholder suitable for use with the plug-in type fuses becoming increasingly common in vehicle electrical systems. To use, cut the red wire connected between both terminals to give lead-outs to each terminal. Access to the fuse is by means of a snap-fit lid on the top of the holder, and several of these holders can be fitted together by virtue of a tongue and groove moulded into opposite sides of the casing. Suitable for currents up to 15A. Dimensions of body (lid closed): 27mm long, 37.5mm high, 18mm wide.

Retail Unit Price each (inc. VAT).

## ENCLOSURES

## COVERING CLOTH

### Speaker Box Cover Cloth

A needle punched, carpet style, heavy duty covering cloth for stage equipment such as speakers guitar amplifiers etc. Available in dark grey with either thin or thick pile or in a dappled grey with thin pile. extremely tough and hard wearing.

KS46 is plain grey thick pile.

KS45Y is plain grey thin pile

KS47B is dappled grey thin pile.

Note: The carpet is sold in multiples of 1/4m in a width of approximately 1.5m (60in). We will cut to length required in multiples of 1/4m only. Maximum length in one piece approx 45m.

Please order in multiples of 1/4m e.g. to order 1m of KS45Y, order 4 KS45Y; to order 3 3/4m order 15 x KS45Y.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KS45C	1 plain grey thin	£1.690	£1.990
KS46D	1 plain grey thick	£2.110	£2.490
KS57E	1 dappled grey thin	£1.690	£1.990

Order £30 or above?

Account holder or not, your order will be sent carriage paid.

(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)

## SPEAKER CLOTH

### Close Weave Loudspeaker Grille Cloth

An acoustically transparent loudspeaker grille cloth. All types are plain black in three thicknesses KS48C the thinnest and KS50E the thickest (KS50E is like felt in texture and therefore ideal for hiding speakers under your parcel shelf). All types are made from non flammable 100% polyester.

Note: The cloth is sold in multiples of 1/2m in a width of approximately 1.5m(60in). We will cut to length required in multiples of 1/2m only. Maximum length in one piece 64m (KS50E 59m) For example to order 1m of KS48C, order 2 x KS48C; to order 2 1/2m of KS50E, order 5 KS50E.

Retail Unit Price each (inc. VAT).

## 220 PSI Portable Air Compressor

This easy to use portable air compressor features a compact design, with built-in car cigarette connector, pressure gauge, and a universal valve adaptor.

**Specification**  
 Model number: 6622C  
 Power: DC 12V 10A  
 Pressure gauge: Indicates 1lb/in<sup>2</sup>:kg/cm<sup>2</sup>:kpa

Comes complete with 2 nozzle adaptors and sports needle, 15 inch air hose, and 10 foot cord with on/off switch and cigarette adaptor.

**Not available until November.**

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BV64U	Air Compress 220PSI	£17.010	£19.990

## 12V Mini Car Fan

A mini car fan that will help to keep you cool during the summer. Plugs in to a standard cigarette lighter socket and is fitted with a convenient on/off switch and large suction pad. Supplied with 1.5m of lead. 12V DC.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
AQ26D	12V Mini Car Fan	£6.800	£7.990

## Car Heater Demister

Ideal for motoring, caravanning and marine.  
 ★ **Instant heat/defrost, no waiting for engine to warm up.**  
 ★ **Can be positioned with velcro or clip provided.**  
 ★ **Complete with cigarette lighter plug and 2 meters of cable**  
 ★ **Full adjustable 45° up/down-90° left/right.**  
 ★ **150 watts**

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MX98G	1 car heater demister	£15.310	£17.990

**Car Ioniser**

This compact ioniser is designed to improve the quality of the air in your car. The ioniser generates a copious stream of negative ions into the air that combine with the positively charged pollution particles. Airborne particles and odours are removed from the atmosphere by a process of electrostatic precipitation which results in a 'after a rainstorm freshness'. The device may help to relieve colds and similar respiratory problems, as well as benefiting headache and hayfever sufferers. Easy to install, just connects to a cigarette lighter socket. Supplied with plug and 1m of connecting lead.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RZ54J	Car Ioniser	£11.050	£12.990

**High Power Halogen Spotlight**

A robust, powerful, hand-held halogen 55W spotlight that plugs into the 12V DC cigarette lighter socket fitted to most motor vehicles. The high light output makes this a very useful spotlight for mobile and emergency lighting. A metal hanger is provided in the top of the spotlight which also houses an on/off switch. The spotlight is provided with three metres of coiled cord and a protective cover. Please note that, in use, the lamp will get very hot and will draw a very high current from the vehicle's battery. Care should be taken to avoid discharging the battery. Overall dimensions: 160 x 117 x 90mm. Replacement bulb available: KP62S

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CJ50E	1 Halogen Spotlight	£8.500	£9.990
KP62S	Bulb for AG30/CJ50	£1.690	£1.990

**Be sure – call the store before you travel**

See front of catalogue for your nearest store

**Auto Hand Lamp**

An extremely useful hand lamp with a 12V, 6W bulb and 4.55m cord terminated in a standard car cigarette lighter plug. The main body is constructed from sturdy black plastic and features an on/off switch. The top grille is orange in colour and features a hook from which the lamp can be suspended. It incorporates a safe plastic lens to protect the bulb and is detachable from the main body to facilitate bulb replacement. Replacement bulbs are available from most auto part suppliers. Overall dimensions: 166mm x 50mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
ZC18U	6W Auto Hand Lamp	£2.970	£3.490

**Cigarette Lighter Extension Lead**

An extension lead with plug at one end to fit the cigarette lighter socket in a car and socket at the other end to accept cigarette lighter plug. Approx. 3-7m of lead.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BV47B	Car Lead Fuse/LED	£4.240	£4.990

**Car Accessory Plug**

A plug for connecting car accessories to the vehicle's 12-volt supply via the cigarette lighter socket. The plug has a continuous current rating of 2A (3A at 12V) and a maximum short term rating of 10A. Two versions are available: fused and unfused, both have a LED.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BV46A	Car Plug Fuse/LED	£1.060	£1.250
BV63T	Car Acc Plug	£0.842	£0.990

See Stock Code Index For More Price Breaks

**Car Accessory Socket**

An in-line socket for cigarette lighter plugs.

Retail Unit Price each (inc. VAT).

**Car Cigar Lighter Multi-Socket**

Now you can run up to four appliances from your car cigarette lighter socket (within the cigarette lighter fuse rating) with this handy adaptor. This item is also a battery checker with LED indication to show state of charge. Supplied with approximately 1m of cable and plug, and double-sided sticky tape for securing to dash.

Retail Unit Price each (inc. VAT).

**Fax: 01702 554001**

**e-mail: Sales@maplin.co.uk**

## Mains and 12V Rapid Ni-Cd Charger for Radio Control Models

A fast charger for recharging 7-2V 1200mAh nickel-cadmium radio control battery packs. The charger can be powered from either 240V AC mains or from 12V DC car accessory socket (the charger must not be plugged into 24V DC sockets found on lorries). The charger incorporates a timer that will fast charge a battery pack for 20 minutes and then switch to trickle charge. This prevents battery packs from being overcharged, yet continues to top up the charge at a low enough rate such that it could be left on indefinitely without harming the battery pack. 90% of full charge will be reached during fast charge, the remaining charge to 100% is obtained by safe trickle charging. To use: connect the charger's connector to the battery pack. Plug the charger into the power source (either 240V AC or 12V DC), the red LED will illuminate indicating fast charging. After 20 minutes the LED will extinguish and the charger switches automatically to trickle charge. When charging is completed, disconnect the charger from the power source and detach the battery pack. It is essential to disconnect the charger before recharging another battery pack to allow the timer to reset. Battery packs should not be recharged when they are warm (i.e. straight after removal from a model after racing) nor should battery packs be recharged whilst still fitted in a model. During charging both battery pack and charger will become warm, this is normal. The charger is fitted with a mains lead (and plug), a 12V DC power lead and accessory plug, and a battery connector lead to suit standard battery packs.

Overall dimensions: 81 x 67 x 131mm (excluding lead outs).  
Charging current: 2.4A  
Charging voltage: 7.2V

Retail Unit Price each (inc. VAT).

Order Code	Type 212	Price each exc. VAT	inc. VAT each
YP69W2	Rapid Charger	£30.370	£35.690

## Car Voltage Step-down Converter

An easy-to-use car voltage step-down converter and regulator which simply plugs into any cigar lighter socket and converts the car battery supply to

any of seven levels, 1.5V, 3V, 4.5V, 6V, 7.5V, 9V or 12V DC. The output is selected by a 7-way slide switch and max. current rating for each voltage is as follows:

12V	800mA	9.6W
9V	700mA	6.3W
7.5V	500mA	3.75W
6V	400mA	2.4W
4.5V	350mA	1.58W
3V	300mA	900mW
1.5V	250mA	375mW

Fitted with a 1.7m long lead terminated with a moulded 2-pin line socket. To this any one of six little right-angled adaptor plugs can be connected in either polarity. These comprise a 3.5mm jack, then miniature 1.3mm, standard 2.1 and 2.5mm, 'narrow sleeve' 2.1mm (5mm o/d), and 'fat sleeve' 1.3mm (5.5mm o/d) power plugs, one of which should fit nearly all items using these types of connectors. (For 2.5mm use a 3.5/2.5mm adaptor.) A flexible plastic keeper strip has six holes to hold all adaptors. All power plugs are long reach type for both short and long reach sockets. Max. insertion depth of car plug, 55mm; diameter 20mm. Dimensions of regulator unit 80 x 55 x 28mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 215	Price each exc. VAT	inc. VAT each
JY53H	Car Power Adaptor	£7.650	£8.990

## Handy Mains Inverter

### CC86T - 12V Handy Mains Inverter

Similar to the Car Battery Converter KR64U but mounted on an alloy base with a pressed steel cover and plugs directly into the cigar lighter socket of cars with negative earth. It converts 11V to 15V DC to 230V AC RMS 48-53Hz 200W continuous, 250W short term and 500W surge. Powers domestic appliances up to 200W continuously by a standard UK 13A socket outlet. There is an audible warning if the battery voltage drops too low (approximately 11V) and the unit turns off when the voltage falls below approximately 10V. The output is a stepped quasi sine wave. A red neon indicator illuminates when an output is present. Over current protection is provided to prevent any damage. If overloaded the output will 'latch off', requiring the load to be removed and the plug withdrawn from the cigar lighter socket to reset it. A 30A fuse in the supply input helps prevent damage should the unit be seriously overloaded or misconnected; this is user replaceable. There is a wiring kit available for a direct connection to a high current source if the in-car lighter wiring is insufficient. Under no circumstances should the cigar lighter fuse be changed for a higher fuse rating as this can result in a fire hazard.

#### Specification

Voltage input: 11V to 15V DC, 12V nominal  
Input current: 1A approx. for every 10W of load  
Output voltage: 230V AC RMS nominal, 216V to 255V RMS over continuous load range up to 1.1A  
Power output: 200W continuous, 250W short term, 500W surge  
Size: 141 x 94 x 45mm  
Weight: 739g

#### Direct Wiring Kit

A heavy duty wiring kit that can be used in conjunction with this product is available (CC87U).

### GT82 - 24V Handy Mains inverter

Similar to CC86 but for use with a 24V battery. Specification

Voltage input: 20V to 36V DC

Input Current: 1 amp (at 12V) or 0.5 amp (at 24V) for every 10W of load.  
Voltage output: 240V AC rms nominal, 216 to 255V rms over continuous load range up to 1.1amps.  
Power output: 200 watts continuous, 250 watts short term. Surge capability of 500 W  
Size: 141 x 94 x 45mm  
Weight: 739g

CC86T 1	Mobile Mains Adaptor	£93.600	£109.990

## Dual Function Camcorder Battery Charger/Discharger

Unlross

This multi-function charger/discharger is suitable for a wide range of camcorder battery packs. It will charge 4-8V, 6V and 9-6V Ni-Cad packs of 800mA or higher capacity, and various physical shapes, e.g. Sony 6V and JVC 9-6V types. It can be used from the cigar lighter socket of your car or from the mains adaptor included. The charger stops automatically when charging is complete to prevent batteries from overcharging; a 4 LED status indicator decreases in brightness as charging proceeds and extinguishes when charging is completed. It takes about 5 to 6 hours to completely charge a 1000mAh battery. A plug and lead to connect to a car's cigar lighter socket is included. The charger comes complete with operating instructions.  
Dimensions of charger: 152 x 68 x 53mm  
Weight: 175g

Retail Unit Price each (inc. VAT).

EM05F	Camcharger/Discharger	£25.520	£29.990

## ACCESSORIES

### Indoor/Outdoor Thermometer

This versatile and easy to use digital thermometer will give you an accurate reading of the internal or external temperature of your home or car at the flick

of a switch.

The thermometer features an integral sensor for internal temperature and a separate sensor at the end of approx 3m of cable that can be mounted outside your home or car to test the outside temperature.

Either temperature can be displayed in °C or °F, again at the flick of a switch, and there's an integral back-light that'll ensure you can even read the temperature at night.

Powered by a single 'AAA' type battery (not supplied). The thermometer has an extra wide temperature range (-30°C to +50°C, -58°F to +122°F) and is supplied with double-sided adhesive pads for easy installation.

		1+	10+	25+	1+
CN82D	Thermometer/Light	£8.500	£6.500	£5.750	£9.690

## Digital Tyre Pressure Gauge

Now you can check your tyre pressures anywhere, anytime and get a reliable and accurate reading every time. Operation couldn't be simpler. Just press the on/off switch and wait for the LED display to read '00'. Push the nozzle firmly against the tyre valve stem (ensuring that no air can escape) and wait 2 to 3 seconds for the reading to register. Read off the pressure shown and turn the unit back off again. In fact it's all so simple that once you have one of these gauges, you have no excuse for not checking your tyre pressures every time you drive. It's your key to safer driving and lower motoring costs. The digital tyre pressure gauge features a fully digitalized, microprocessor controlled circuit for low power consumption.

YD78K	Car Door Lock 5W	£6.370	£4.310	£3.950	£7.490

## Battery and Alternator Checker

A handy device for checking the condition of your car battery and alternator charging voltage. Simply connect the tester to a suitable ground point and place the test probe on the positive terminal of the battery while the engine is switched off. A number of LEDs will now light up to show the current state of the battery. One LED shows the battery is discharged, two indicate a slightly discharged state and three indicate a good battery condition. Now with the engine running at about 2000 rpm, connect the test probe to the output of the alternator. Indicators now illuminate to show the state of the alternator. As with the battery condition, combinations of LEDs indicate whether the alternator voltage is low, normal or too high. Ideal for fast and simple diagnostics. Supplied with full operating instructions.

*(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)*

## AERIALS

### Car Aerial

A good quality AM/FM car aerial with a 4 section, approx 72cm (28in.) stainless steel mast. Supplied with two keys and 122cm (48in.) cable.

Retail Unit Price each (inc. VAT).

Order Code	Type 11454	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
DR730	Car Aerial	£1.690	£1.580	£1.480	£1.990

### VHF FM Flexible Car Aerial

A band II VHF FM car aerial with a vertical element 345mm (415mm including base), designed to fit onto bodywork using a 9mm hole. The angle is fully adjustable and the aerial is supplied with a 1.3m lead terminated in a standard 49mm car aerial jack.

Retail Unit Price each (inc. VAT).

Order Code	Type 7034	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
AS28F	Car Aerial 104	£3.390	£3.330	£2.930	£3.990

### Windscreen Mounting Aerial

A crystal clear self-adhesive polypropylene film tape that will not crack, yellow or dry out even in extreme heat or cold. The tape is connected to 1m of coax cable terminated in a car aerial plug. This type of aerial has many advantages over externally fitted aerials.

1. It is much longer, giving an improvement on AM reception and it has vertical and horizontal components giving an improvement on FM reception.
2. As it is internal it cannot be stolen or snapped off (in car washes for example).
3. Easy to install — no holes to drill in car body.
4. Fits any car.

A chrome blanking grommet is supplied to fill hole where wing-mounted aerial was previously fitted.

Retail Unit Price each (inc. VAT).

Order Code	Type 081	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
LH99H	Windscreen Aerial	£4.240	£2.780	£2.120	£4.990

### Windscreen Antenna

Eliminate all of the hassle of dealing with bent and unsightly exterior aerials with this sophisticated windscreen mounted electronic antenna. Simple to install, it will replace your existing antenna and provide excellent reception on all wavebands. Adhesive double sided pads, all necessary cabling and fitting instructions.

#### Specification:

Input voltage: 12V  
Gain: FM: 14dB, AM/LW/SW 18dB

Retail Unit Price each (inc. VAT).

Order Code	Type 10170	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
DR75S	Windscreen Aerial	£8.500	£6.310	£5.000	£9.990

### AM/FM Power Antenna

This universal power antenna can be installed in any car and is fully automatic — the antenna mast will be extended when the car radio is switched on and retracted when it (or the car's engine) is turned off. The unit features an integrated circuit that protects the motor from overloading if an obstruction prevents the antenna from extending fully. Supplied with all necessary cabling, full mounting kit and comprehensive installation instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type 10160	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
DR71N	Electric Car Aerial	£21.260	£14.990	£12.600	£24.990

### Fully Automatic Car Aerial

A good quality fully automatic car aerial that is designed to fit negative earth cars and is electrically operated and powered by the car battery. The aerial will only extend when the radio/cassette is switched on and is retracted when the radio/cassette is off, so greatly reducing the risk of the aerial being damaged by vandals. Power and control connections to the aerial are made by three wires, green and red, which have bullet type connectors, and a black wire which has an eyelet connector. The red must be connected to the positive battery supply via a suitable fuse rated at 5A. Green must be connected to the power antenna lead output of the radio-cassette, or directly to the on/off switch of the radio-cassette. Black is connected to the car

chassis or negative battery terminal. The antenna when fully extended is 0.81m in length, and is supplied with 1.3m of screened cable which is terminated in a standard car aerial plug. The assembly is 335mm in length with the aerial completely retracted.

Retail Unit Price each (inc. VAT).

## NOISE SUPPRESSERS

### Noise Suppressor Isolation Transformer

This noise suppressor has been designed to eliminate the noise in a car audio signal line without affecting the audio quality of the system. The suppressor is housed in a metal tubular case with gold-plated phono connections fitted on flying leads. Dimensions of case: 70 x 35mm dia. Total length is 550mm approximately (with flying leads). Weight 147g.

Retail Unit Price each (inc. VAT).

RZ95D	Noise Suppressor	£10.620	£7.990	£6.060	£12.490

### High Quality Isolation/Noise Suppressor

A very high quality in-line car stereo line level isolation/noise suppression transformer. All the inputs to inputs, inputs to outputs, outputs to outputs and ground to any ground are fully isolated. The connections are via flying leads with the inputs connected to gold-plated phono plugs and the outputs to gold-plated phono sockets. The phono connections have a total length of approximately 650mm. The enclosure is rectangular, with a mounting base 125 x 55mm, and a height of 40mm. Weight 300g. Colour black.

Retail Unit Price each (inc. VAT).

## High/Low Impedance Matching Transformer

A high/low impedance matching transformer designed to convert high level car stereo speaker outputs to line level inputs of a power amplifier.

Housed in a plastic tubular enclosure with flying leads and an overall length (including leads) of 350mm approx. The enclosure is 65mm long with a diameter of 25mm. The device has an extremely flat frequency response from 20Hz to over 100kHz. The input connections are by a male bullet connector (positive) and a female bullet connector (negative). The output is via two female phono sockets.

## TOOLS

### Car Battery Booster/Charger

Clarke

A high quality, powerful battery charger that besides supplying a useful 15A charge is also capable of providing a short boost charge or even starting a car. This compact charger will prove a useful tool to anyone who uses machinery, such as the building and farming industries, or the motor trade. It will also prove valuable to most car owners in winter when engines and batteries are cold and indifferent towards starting, because it can supply a healthy 12V 100A boost for up to 5 seconds. The charger is housed in a robust plastic case with a built-in handle and can be wall mounted. Two sturdy leads, terminating in heavy duty crocodile clips, carry the charge to the battery. Built-in overload protection is provided and reset with a push switch. Overall dimensions: 130 x 173 x 240mm. Weight: 4.0kg.

Retail Unit Price each (inc. VAT).

Order Code	Type #615	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
RJ60Q	Car Bat Boost	£34.030	£32.450	£31.750	£39.990

## Start-Check

Gunson

A compact hand-held LED voltage indicator unit that clips to the battery terminals via a pair of crocodile clips. Start-Check is a valuable accessory that has a range of applications for 12V petrol/diesel cars, vans and motorcycles. It can be used to test the charge state of a battery, whether it is in the vehicle or not, and hence whether it will be able to start an engine. Three LEDs indicate 0% to 25%, 25% to 75% and 75% to 100% of full capacity respectively. Another LED is used for the 'cranking' test, which will indicate if the battery is faulty and should be replaced. Other uses of Start-Check include the prevention of over-charging of sealed ('maintenance-free') batteries, and testing of the vehicle's alternator. A pair of indicators can be used to check overcharging (premature battery failure, frequent top-ups and/or lamp bulb replacements), undercharging (flat battery or frequent poor starting) or no charging at all (flat battery). Supplied with full instructions, Start-Check is a useful addition to any motorist's toolkit.

Retail Unit Price each (inc. VAT).

Order Code	Type 10106	Price each exc. VAT		inc. VAT each
		1+		1+
BP28F	Start-Check	£9.350		£10.990

## Remota-Start

Gunson

It is often necessary to start the engine, or just turn it over a little (i.e. inch or edge it) when working under the bonnet. Such instances include carburettor adjustment, points setting, tappet adjustment, or tests on starters or other electrical components. Remota-Start, a pistol-type trigger device, will allow you to do this from the convenience of the engine compartment, without the assistance of somebody to operate the ignition switch. Remota-Start is supplied with full instructions, and takes only a few moments to connect, and so anybody can benefit from the convenience that it provides. You work alone (saving money in some cases) and do the job better because it is less trouble. If you often tune, test, adjust or check, Remota-Start is a low-priced accessory that you cannot afford to be without.

Retail Unit Price each (inc. VAT).

Order Code	Type 10110	Price each exc. VAT		inc. VAT each
		1+		1+
BP30H	Remota-Start	£5.090		£5.990

## Timelite

Gunson

Ideal for those learning about engine maintenance, the AA-approved Timelite is a high-quality neon stroboscopic timing light that allows basic checks to be made on any type of vehicle ignition system. Timelite, which is built into a tough pistol-grip case, is supplied with instructions that will make the checking and setting of timing straightforward and accurate. You can use Timelite anywhere, as long as the engine area of your vehicle can be darkened. Timelite will pay for itself very quickly in reduced repair costs and fuel bills, while helping to ensure that your car's performance is optimal.

Retail Unit Price each (inc. VAT).

Order Code	Type 10103	Price each exc. VAT		inc. VAT each
		1+		1+
BP33L	Timelite	£8.500		£9.990

## Xenontime DC

Gunson

A compact strobe timing light, for the measurement and adjustment of timing on any petrol-engined vehicle. Xenontime's features include a super-bright xenon flash tube, and a robust and conveniently-shaped ABS case, which incorporates a special focusing lens. The xenon flash tube, powered by the vehicle's 12V battery, is triggered by the No.1 spark plug HT output of any ignition system, whether conventional or electronic. Since its bright flashes are clearly visible in daylight, Xenontime would be a good choice for field mechanics. Supplied with full instructions and a crankshaft pulley timing disc.

Retail Unit Price each (inc. VAT).

Order Code	Type 10108	Price each exc. VAT		inc. VAT each
		1+		1+
BP29G	Xenontime DC	£13.600		£15.990

## Timestrobe Timing Light

Gunson

Timestrobe, approved by the AA, is a cost-effective and simple method of checking whether the ignition timing of your car's engine is within specification, and could pay for itself very quickly through improved performance, lower repair and reduced fuel bills. It can also be used when converting an engine to run on unleaded fuel, since the ignition timing has to be retarded to a new setting recommended by the car manufacturer. Timestrobe is suitable for use with any type of ignition system, and for engines of any number of cylinders. A timing disc for fitting to the engine's fan belt pulley is provided.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BP32K	Timestrobe	£17.010	£19.990

## Timestrobe RPM

Gunson

This allows ignition timing to be checked, adjusted where necessary, and rechecked. Timestrobe's unique 'logic' RPM indicator allows accurate engine speed setting prior to timing measurement and adjustments. Speed setting is advisable for most engines - and essential for some - particularly when basic settings are made at faster than idling speed. Using Timestrobe RPM, you can (with minimal experience) adjust your car's timing dynamically to ensure that the most precise setting is made to take account of wear and other factors, and to make sure that the most economical use is made of that expensive petrol. You will also be able to check for faults in advance/retard mechanisms, saving on garage costs. Timestrobe RPM, which is supplied with full instructions, can be used with confidence on engines of any capacity or ignition system (including electronic).

Price each shown, but sold only in multiples of 1.

Order Code	Type	Price each exc. VAT	inc. VAT each
BP31J	Timestrobe RPM	£19.560	£22.990

## Ratchet Tie Down Belt

A quick and easy way to secure loads on trolleys, roof racks, trailers, pickup trucks and lorries, and even a boat or motorcycle to a trailer. The belt ends have strong 'S' hooks, and the ratchet action very quickly tightens the belt on to the load. A simple press of the release lever slackens off the 4m long belt.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BP84F	Tie Down Ratchet	£4.240	£4.990

## Adjustable Torque Wrench

Quality, precision made torque wrenches available with either a 12.7mm (1/2in., code RJ11M) or 10mm (3/8in., code BP83E) square drive. The required torque is set by turning the knurled handle until the zero mark lines up with the desired setting on the main stem. Both types have a reversible ratchet action and are supplied in a black plastic carry case with instructions and conversion tables.

Specification	12.7mm drive (RJ11M)	10mm drive (BP83E)
Torque range:	2.9kg/m to 21.4kg/m	1.4kg/m to 11.1kg/m
Overall length:	470mm	280mm
Supplied extras:	10mm extension 10mm square converter	- -

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RJ11M	4 Torque Wrench	£16.930	£19.900
BP83E	1 Torque Wrench 3/8	£15.310	£17.990

### Mice & Accessories

#### 3 Button Serial Mouse

- ★ **Opto-Mechanical Accuracy**
- ★ **Variable Resolution, 20-6400 dpi**
- ★ **Dynamic Acceleration**
- ★ **Audible Click form Buttons**

A general purpose 3 button mouse ideal for replacing manufacturer's original equipment. The mouse features a 9 pin serial connector and is supplied with 3.5in driver disk.

**Specification:**

Tracking Speed:	500mm/sec
Switch Life:	1 million cycles
Cable Length:	1.5 metres ± 5%
Total Current:	<8mA
Baud Rate:	1200bps

#### Amiga and Atari Mice

Two versions of a mouse with opto-mechanical encoder having a resolution of 350dpi. Two types are available, one developed for use with Atari computers, and the second specifically for the Amiga. Atari type has three buttons, Amiga type has two buttons, which can be configured according to the capabilities and requirements of the software on the machine in question. Since, for these machines mouse operation is most often software dependent, the mice are NOT supplied with driver software, unlike those for a PC.

RT52G	Atari Mouse	£11.050		£12.990
RT51F	Amiga Mouse	£11.050		£12.990

#### Extra High Resolution Mouse AM5-P

A superb, high quality mouse for use with all IBM PC XT, AT and compatible computers. The mouse produces a serial output, connected to the serial (RS232) port of the host PC, hence no extra hardware is required. Connecting lead is 1.9m long and terminated in a 9-way D-range female connector, and a 9-way to 25-way adaptor is included if your PC does not have a 9-way serial port. The mouse can be configured to use either COM1, COM2, COM3 or COM4 if required. Compatible with 2-button Microsoft and 3-button system mouse modes. The mouse driver supports both modes and you can select between two hardware modes using the mode switch on the left side of the mouse. Most software can use either mode. High resolution is available by 'switch' instructions following typing of the mouse driver's name; resolution can be 1:1 or double, triple, quadruple and quintuple (ranging from 290 to 1,450dpi). In addition a fast tracking speed of 700m/sec. and upwards is possible. Other hardware included comprises (in addition to the serial adaptor) a mouse holder and mouse mat. Supplied software on a 90mm (3.5") disc not only includes the mouse driver and test programs, but also an IMAGE72 graphics painting software. IMAGE72 is designed specifically for use with a mouse or mouse assistance, and has abundant editing tools and useful utilities. It is able to support \*.PCX, \*.TIF, \*.IMG, \*.MSP and \*.PUT file formats and read ASCII files. Editing of scanned images is also possible and Hercules, EGA and VGA high resolution modes are also supported. Images can be processed across EMS and conventional memory with auto-detect functions to improve speed. Supports dot matrix, laser and HP paint jet printers. The numerous editing tools include pencil, lines, circle, rectangle, eraser, airspray, air fill, scissors, text entry, rotate, 'Fabiit' edit, full page edit, retrieve, etc. To use IMAGE72 the host machine can

be an XT, Hercules or EGA or VGA or compatible video card and monitor and DOS 2.1 or higher. Any other mouse can be used. Supplied complete in a pack with software disk and manuals.

RT33L	AMSP Mouse + IMAGE72	£12.750	£12.340	£11.240	£14.990

## 3 Button Serial Track-Ball

A neatly styled track-ball, which provides an ingenious alternative to a mouse when desk space is limited. Designed for use with IBM PC, XT, AT and IBM compatible computers. The track-ball produces a serial output signal, which is connected to the serial (RS232C) port of the host computer, thus no interface card or extra hardware is required. The unit is supplied with 1.5m of cable terminated in a 9-way D-type socket. As some computer serial ports are fitted with a 25-way D-type plug, an adaptor is supplied to facilitate connection. The track-ball is supplied complete with instruction manual and driver software on 133mm (5 1/4 in.) floppy disk. The software consists of a test program, track-ball driver and pop-up menu, driver programs may be invoked from batch files and can also be installed on hard disk. The track-ball is compatible with most software intended to be track-ball or mouse driven and the pop-up menu allows the track-ball to be used with programs that are not normally track-ball or mouse driven.

YU12N	Serial Track-Ball	£34.000	£30.000	£27.500	£39.990

## Hand-Held Trackball Mouse

Primax

A Microsoft and PS/2 compatible device for any IBM PC XT, AT and equivalents, which functions as a mouse, for directing the cursor on-screen, but consists of a miniature trackball device which can be operated by finger or thumb while held in the hand or placed on any surface where space is restricted. As a 'stationary mouse' it can be operated from within your hand or, when operated on a desk, only a minimum of table space is needed with no mouse pad required, so therefore it never 'falls off' the edge of the pad which often happens with ordinary mice. More accurate movement of the cursor is possible, and two keys are provided for left or right-handed use, together with a 'drag button' to facilitate icon dragging operations. As it fits comfortably in either hand it is particularly convenient for demonstrations and ideal for laptop and notebook computers whilst travelling. The device can automatically switch between Microsoft and PS/2 modes, and the latest available, officially licensed driver software on both 89mm (3 1/2 in.) and 133mm (5 1/4 in.) disks. An opto-mechanical encoder

system is used having 200 to 400dpi hardware resolution, and a dynamic software resolution up to 100 times (20,000dpi). Key switches are of 'micro' type and have a life of 1 million operations. Colour may vary from that shown above.

## Mouse Cleaning Kit

The real solution to mouse cleaning. Every mechanical mouse requires some simple maintenance; the three small rollers inside collect dust and grime, and cleaning them is a tedious task with a cotton swab after removing the ball. This mouse cleaner utilises a simple tool, a circular brush on a shaft. One drop of the cleaning solution (supplied) and three twists of the tool is all it takes, (warning: the cleaning solution must not be used to clean the ball). Includes five foam swabs on sticks.

Retail Unit Price each (inc. VAT).

**Disk Drive Cleaners**

Disk drive head cleaners for use with 133mm (5 1/4 in.), 89mm (3 1/2 in.) and 76mm (3 in.) disk drives. The cleaners utilise a 'wet' system to prolong the life of the head and avoid damage to the critical head gap. Each cleaner contains one diskette with fibre 'disk' and a bottle of specially formulated cleaning fluid. The 133mm (5 1/4 in.) kit can be used with either single sided or double sided drives, by inserting the diskette the appropriate way round. The 76mm (3 in.) type is for the 76mm (3 in.) Amstrad drives as featured on the CPC464, 664, 6128 and 8000 and 9000 series word processors etc. Full instructions for use are supplied, and a chart is printed on each disk for you to keep a record of the number of cleaning operations.

## Power Supplies

### Replacement PSUs

A pair of replacement power supplies designed for mounting in standard AT enclosures. Available as either 200W or 230W versions for more demanding applications. Both offer switch mode operation for high reliability and performance.

Retail Unit Price each (inc. VAT).

Order Code	Type 112	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
VL11M	200W Power Supply	£17.010	£16.250	£15.000	£19.990
VL12N	230W Power Supply	£18.710	£17.750	£16.250	£21.990

## Peripheral Cases

### External SCSI Casing

This stylish case can accommodate an internal SCSI device such as a hard drive, CD-ROM drive, back-up device, etc., and can also be used for 5.25in. and 3.5in. floppy drives. It is ideal for portable computers or devices used at more than one location. Easy to install, it can be used with any SCSI controller and is even more versatile when used in conjunction with the Bridge 777 Adaptor (see below). The case comes complete with internal power supply, leads, device Id select, audio outlet and 2 SCSI inlet/outlets. The power supply is multi-voltage and can be connected to 230V or 110V AC.

Retail Unit Price each (inc. VAT).

Order Code	Type 110C	Price each exc. VAT			inc. VAT each
		1+	2+	5+	
CE34M1	External SCSI Case	£51.050	£48.000	£45.500	£59.990

### Portable Parallel Port CD-ROM System

This CD-ROM housing is designed to accept a standard internal ATAPI CD-ROM player. It is ideal for connecting a CD-ROM player to a notebook or laptop. The unit is connected to the printer port. By interconnecting the parallel port a printer can still be connected. Supplied with built-in power supply, instructions, driver disk and cables. The colour and design of the casing may vary.

Retail Unit Price each (inc. VAT).

Order Code	Type 117B	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
CD78K 1	CD External Case	£68.070			£79.990

## Hard Drive Caddy

A pair of removable hard drive caddies for use in 5.25in drive bays for mounting either IDE or SCSI drives dependant on type. The hard drive caddy features both power and activity LEDs and a locking keyswitch to secure the drive carrier. The caddies are particularly useful for security, data transport, backup and multiple operating system requirements. All drive carriers can be used with other caddies of the same type, IDE and SCSI carriers can not be interchanged.

Retail Unit Price each (inc. VAT).

Order Code	Type 17451	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
KX05F	SCSI Drive Caddy LED	£25.520			£29.990
KX06G	IDE Drive Caddy LED	£25.520			£29.990

## Removable Hard Disk Caddy

This ingenious device allows fast removal of a standard 3.5in hard disk drive for transportation and backup purposes. Available for IDE and SCSI hard drives. Simply install the frame in a spare 133mm (5 1/4in.) drive bay and connect the data and power cables. Now mount your disk drive into the removable module and slide into the drive bay. All the connections will automatically be made on insertion. Once in place turn the locking key to supply power to the drive and activate the locking mechanism. Ideal for the transport of data between home and the office, use as a backup drive (especially when disk mirroring on networks). Just plug in, switch on and go! Supplied with installation instructions, fixing screws and two locking keys.

ZH38R	19 Mono Monitor	£59.560	£69.990

## Monitor Accessories

### Glass Screen Filters

A pair of glass screen filters for use with either 14in or 17in monitors depending on the part number. The filters are attached to the monitor by adjustable fixings, an earth drain wire is fitted with a crocodile clip for fastening to a suitable earthing point on your PC.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC13P	Screen Filter 14in	£8.500	£9.990
VB66W	17in Glass Filter	£15.310	£17.990

### Touchscreen

A cost effective method of adding touchscreen capabilities to your monitor, simply overlay the touch screen over your monitor using the velcro fastenings supplied. The touchscreen is powered from the keyboard connector on your system so that no power adapter is required. The touchscreen interfaces with the comms port of the PC and can

be used with or without an additional mouse for direct control of windows applications. Suitable for use where other forms of input may not be suitable or for interactive presentations.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JT29G	Touchscreen	£170.200	£199.990

### Monitor Changers

9 way D type male to 15 way HD type female adapter for connecting monitors with incompatible cables or connectors. Available in two types, either with or without approximately 10cm of cable.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CD67X	9 D Male - 15 HD Fem	£5.090	£5.990
CD68Y	9 D Fem - 15 HD Male	£5.090	£5.990
CD09K	15 HD M-9D F Cable	£5.090	£5.990
CD10L	15 HD F-9D M Cable	£5.090	£5.990

### Apple Monitor Changer

Standard SVGA monitor to Apple Mac converter.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG30H	SVGA - Apple Mac	£4.240	£4.990

### VDU Platform

Ideal for raising your monitor closer to eye level helping to ease tiring and potentially harmful neck strain. Since it clears your desktop of a bulky monitor, the platform restores valuable work space, allowing you to spread out your work. A handy tray underneath the monitor takes advantage of the freed up space and is ideal for storage of paper, pens and small objects like erasers, etc. Supplied with full operating and assembly instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
ZE76H	EasyVue Platform	£17.010	£19.990

### Monitor Arm

A high quality monitor arm providing eye-level viewing with the ability to rotate the monitor to almost any position - ideal for shared computers and terminals, etc. With your monitor raised above your desk you will have more desk space to work on, freeing up the monitor's footprint. Simply fix to your desk with the extra rugged metal clamp and assemble the arm and platform - no tools necessary! Supplied with full operating instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
ZE77J	EasyVue Monitor Arm	£25.520	£29.990

### Heavy Duty Monitor Arm

A very heavy duty platform suitable for supporting a monitor and keyboard on an easily adjustable mount. Ideal for computer sharing and space optimisation - pull forward when working then slide to the back of your desk when you need your desk space!

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
ZE78K	Monitor Ext Arm	£42.540	£49.990

## Monitor/TV Wall Mount

Allows you to mount your TV or monitor on a wall anywhere in the home or office. The platform will take a set of up to 49cm screen size and weight up to 12kg in complete safety. The platform can be tilted using a knurled adjuster screw, and swivelled horizontally in any direction. The support comprises a double jointed extension arm for total versatility; can be turned round completely and even around corners. Ideal for alcoves and through rooms, etc. Also ideal for computer monitors. Quickly and easily installed using the full instructions provided. Six 50mm screws, a spanner and wall plugs may be required for wall fixing.

**Warning:** This installation depends on a strong and sturdy attachment to a solid brick or block wall. Attaching to board partitioning is not recommended, unless fixing directly to an underlying, vertical timber support. In any event, if in doubt, consult an experienced person.

Made in high grade steel, painted white. Dimensions of platform, 305mm wide x 280mm deep, 20mm raised lip at front. Distance from wall: fully retracted, 305mm; fully extended, 580mm.

Retail Unit Price each (inc. VAT).

## Printer Accessories

### Printer Stand

A compact printer stand for 80 column printers which permits the paper to be stacked beneath the printer whilst the print-out is deposited automatically in the tray behind the printer. The stand is made of lightweight durable plastic coated steel wire and folds up for storage. This stand is suitable for use with almost all 80 column printers and can support a maximum weight of 60kg. The stand is 330mm wide, 120mm high and 320mm deep when closed and 610mm deep when opened out.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YT33L 3†	Printer Stand 80	£7.690 £6.450 £5.250	£9.990

### Multi-Purpose Printer Stand

A smart printer stand comprising a base with a transparent cover measuring 380 x 345 x 100mm high, containing a drawer for holding up to 50mm (2in.) of fan-fold paper. The drawer is removable from front or rear for replenishment without disturbing the printer itself. The transparent lid will help to keep dust away from paper in situ while not in use. It includes a central slot for printers which draw paper from underneath. In addition a delivery

tray is provided for collecting the output, which is stowed flush in the bottom of the base when not in use, but extends to 279mm (11in.), supported by a locking cantilever, to overhang the edge of a table. Only suitable for A4 or 279 x 241mm (11 x 9 1/2in.) fan-fold paper. Made in light grey ABS.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GK29G 5	Printer Stand Multi	£11.050 £10.000 £9.000	£12.990

## Security Products

### Equipment Security

#### 3.5in Floppy Drive Lock

A floppy drive lock for preventing access to a 3.5in floppy drive, suitable for use with most 3.5in PC drives. Can be used to prevent unauthorised installation of software, unauthorised saving of software and protection against disks infected by viruses.

**Surge Protection**

**Mains Protection**

**Distribution Surge Protector**

Bowthorpe

The Single Phase 6651C unit provides three mode system protection from mainsborne voltage spikes and surges that can occur between phase and neutral, phase and earth and neutral and earth. The unit has two stages of protection with lights to indicate the status of the unit should the first stage cease to protect. The unit is connected in parallel alongside the incoming electrical supply with no complicated by-pass wiring. Suitable for direct connections on lines up to 60A. Automatic resetting is available for surges up to 10KA.

A Three Phase 6651 is also available for protection of three phase electrical circuits, it features similar electrical characteristics to the single phase unit.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CH71N1	Dist Surge Prot Sng	£102.110	£119.990
VC28F	3Phase Surge Protect	£170.200	£199.990

**Spur Protector**

Bowthorpe

Ideal for industrial and commercial applications the spur protector provides an economic means of preventing damage to sensitive electronic equipment on individual ring mains. Protects from damage due to transients which can occur due to nearby lightning strike or surges caused by the switching of inductive or capacitive loads. The protector can be wired in line with equipment or hardwired into wall mounted conduits. Two LED status lights are provided for indication of operative state. The spur protector features high surge current handling capability under normal conditions. Should a very high current (>6.5KA) appear it will be clamped but further protection will be lost, a red LED will indicate this.

**Specifications:**  
 Operating Voltage: 240 Volts RMS  
 Max Operating Voltage: 280 Volts RMS  
 Max Current Rating: 13A  
 Max Surge Current: 6.5KA 8/20 µs  
 Response Time: <10ns  
 Let Through Voltage at 3KA 8/20µs: 850V L-N, L-E, N-E

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC29G	Spur Protector	£51.050	£59.990

**Single Phase Distribution Surge Protector**

Bowthorpe

The DSP should be installed at the cable entry to the building or at the distribution point for each floor in a multi-storey building. The unit is suitable for connection directly to lines rated at up to 100A. The unit requires no maintenance but the LEDs should be checked regularly to ensure that protection is present.

**Specification:**  
 Voltage Rating: 230V RMS  
 Operating Voltage: 200 - 300V RMS  
 Maximum Current: Unlimited (Parallel Connection)  
 Max Current Surge: 20kA (8/20µs)  
 Joule Rating: 1560  
 Response Time: <10 ns  
 Leakage Current: 200µA  
 Operating Temp: -40° to +70° C  
 Case: Steel - Epoxy Paint  
 Dimensions: 174 x 90 x 62mm (L x W x D)  
 Weight: 750g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC26D	1 Phase Distr Prot	£119.140	£139.990

**Three Phase Distribution Surge Protector**

Bowthorpe

The Three Phase DSP should be installed at the cable entry to the building or at the distribution point for each floor in a multi-storey building. The unit is suitable for connection directly to lines rated at up to 100A. The unit requires no maintenance but the LEDs should be checked regularly to ensure that protection is present.

**Specification:**  
 Voltage Rating: 400V RMS  
 Operating Voltage: 200 - 300V RMS (L-N)  
 350 - 500 V RMS (L-L)  
 Maximum Current: Unlimited (Parallel Connection)  
 Max Current Surge: 20kA (8/20µs)  
 Joule Rating: 4050  
 Response Time: <10 ns  
 Leakage Current: 600µA  
 Operating Temp: -40° to +70° C  
 Case: Steel - Epoxy Paint  
 Dimensions: 174 x 200 x 60 (L x W x D)  
 Weight: 1500g

Retail Unit Price each (inc. VAT).

## Protected Mains Distribution Units for 19 inch Racks

Bowthorpe

Available in two versions these robust units are housed in tough aluminium enclosures suitable for mounting in 19 inch rack cabinets. VC24B offers 10 surge protected IEC outlets while VC23A offers 8 filtered, surge protected IEC outlets. Both versions are equipped with a main on/off switch and are fitted with a 2 metre mains lead terminated with an IEC320 plug.

### Specifications:

#### VC24B

4.5KA surge protection  
10 IEC outlets  
Aluminium 2U enclosure  
Neon power 'on' indicator  
Power switch  
Thermal overload protection  
2 metre mains lead.

#### VC23A

As VC24B with the following exceptions  
RFI filtration  
6.5KA surge protection  
8 IEC outlets

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC24B	IEEE Filter 19in 8W	£85.090	£99.990
VC23A	IEEE Surge 19in 10W	£88.070	£79.990

## Network Protection

### 10 Line Telephone Protector

Bowthorpe

This unit provides a high level of protection for PABX systems situated in high lightning exposure areas and other electrically harsh environments. This model is fitted with gas discharge tubes (GDTs) designed to handle surges of up to 10,000 Amps on each line (or twisted pair) and plugs directly into most PABX distribution frames.

### Specification:

Connectors: LSA-Plus compatible edge connector  
Surge Capacity: 10,000 Amps (8/20µs)  
Clamping Voltage: 80 Volts (10/700µs)  
Clamping Voltage: 40 Volts (1/1µs)  
Max Loop Resistance: 10Ω  
Max Capacitance: 140pF  
Dimensions: 120 x 16 x 44mm (LxDxW)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC30H	10Pair Telecom Prot	£102.110	£119.990

## Telephone Line Protectors

Bowthorpe

A pair of telephone line protectors designed for use as either stand alone units or in conjunction with DIN rail mountings. Each unit will protect a single telephone line and any extensions that are connected past the point of installation. There are two versions available, the first (CH68Y) is fitted with a captive lead terminated with a standard BT style line plug. A BT style socket is fitted to the other side of the unit allowing ease of installation. The second version (CH69A) is fitted with wire clamps for reliable connection to bare wires. Both units must be suitably earthed for correct operation.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CH68Y 1	Tel Line Prot BT	£51.050	£59.990
CH69A 1	Tel Line Prot Bare	£51.050	£59.990

## Network Surge Protectors

Bowthorpe

A range of network surge protectors designed for use as either standalone units or for use with DIN rail mountings for modular installation. Available in BNC (10 Base 2), RJ45 (10 Base T) and Cat 5 RJ45 versions, CH72P, CH73Q and VC25C respectively. Designed to protect your network segment against surges caused by lightning, nearby power systems, power-cross faults, electrical machinery and electro-static discharge.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CH72P 1	BNC Surge Protector	£74.880	£87.990
CH73Q 1	RJ45 Surge Protector	£74.880	£87.990
VC25C	Cat5 Surge Protector	£85.090	£99.990

is a Preferred Supplier to the National Universities Working Party on Electronic Components

## Three Way Surge Protected Adaptor

Bowthorpe

Used in the same way as an ordinary adaptor to supply surge protected power to three appliances. Manufactured from a white flame retardant moulding and fitted with a 13A fuse.

### Specification

Working Voltage: 230V AC  
Max Current: 13A  
Max Surge Current: 2500A

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CH67X	3 Way Surge Adaptor	£17.010	£19.990

## Surge Protecting Mains Plug

A standard 3-pin mains pulse protector plug includes BS6651 Category B surge protection, and a thermal protection unit. A mechanical indicator clearly shows the protection status. Using standard 13A rated pins and connections, the plug is intended to protect computer and other sensitive equipment against voltage spikes and surges on the mains supply. It need not even be fitted onto a cable at all but can simply be inserted into a socket on its own to control the local supply, and has a removable blanking plate to cover the cable entry for this purpose. Fitted with standard size 5A cartridge fuse. Cable connections are identical to those in normal 13A plug. Dimensions: 50 x 33 x 50mm (excluding pins). Weight: 118g.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KU20W	Surge Plug	£13.600	£15.990

**Surge Clock**

A device that counts the number of damaging surges on a mains supply. Surges in excess of 700V can create havoc for electronic equipment such as computers, etc.; this device will register up to nine surges. The clock is operated by simply plugging into the mains; initially the 'clean' green LED will be illuminated. When a potentially damaging surge is detected the clock will change from the 'clean' green LED to a red LED 1, and subsequent surges will cause the indicator to advance one position until '9' is reached. Removal from the mains supply causes the clock to reset. Line-neutral surge voltages that exceed twice the normal peak AC supply will register, surges below 650V will not normally cause damage to electronic equipment; so will not be registered. The unit is housed in a flame retardant plastic case with integral pins. N.B. The Surge Clock does NOT protect equipment from surges.  
Size: 100 x 95 x 70mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 10375	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
KR42V	Surge Clock	£22.970	£22.030	£21.950	£24.990

**3A Filtered Mains Plug**

A mains plug incorporating a comprehensive noise filter for removing unwanted noise and pulses from the mains supply before entering sensitive electronic equipment such as a computer. The filter includes a double wound toroidal choke, 3-way capacitive decoupling including the earth connection, and a pair of metal oxide varistor surge suppressors. Fitted with a standard mains size cartridge fuse rated at 3A which must not be uprated. Cable connections are to a block of three screw terminals. Dimensions 95mm long x 65mm wide x 58mm high not including pins.

Retail Unit Price each (inc. VAT).

Order Code	Type 10384	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
KU19V	Filter Plug	£27.770	£21.330	£18.830	£32.630

**13A Pulse Protector**

These single way 13A surge protectors are ideal for use with electrical and electronic equipment that is now being supplied fitted with moulded plugs. When plugged into a standard socket the units will provide protection against transients on the mains electrical supply thus preventing electronic equipment from malfunctioning. PP1 is fitted with a multipurpose neon that verifies that the protection unit is intact, power is 'ON' and operation is normal, and that vital earth connection is present.

In the rare event of a high energy strike destroying the internal surge protection, Model PP1 will disconnect power to the associated equipment. Should the light go out, the unit must be replaced to restore power and full protection. This model is ideal for non-essential equipment such as computer games, TVs, VCRs, photocopiers, test equipment, electronic scales, etc.

Model PP3 has an audible alarm to announce when the unit needs replacing, should the internal surge protection be overloaded due to severe surge. In such an event, the unit must be replaced to restore surge protection. However, power to the associated equipment will continue WITHOUT surge protection. The unit is ideal for business computers, telephone exchanges, fax machines, modems, or any equipment that must be continually powered. In both models, the internal three mode surge/spike suppressors, have a response time of less than 10ns with a maximum surge rating of 4-5kA. Both models commence clamping below 600V, are noise free in operation and automatically reset after a transient has passed. Incoming and outgoing surges are dissipated so 'no fault found' service calls are reduced and equipment performance improved.

Protection: L-N, L-E, N-E  
Voltage rating: 220 to 240V AC 50Hz  
Maximum current: 13A  
Maximum current surge handling 8/20µs: 4500A  
Response time: <10ns  
Thermal fuse: Operates @ 100°C  
Housing: Flame retardant  
          ABS rating UL94 V-O

Plug and socket connections: Conforms to BS1363

Retail Unit Price each (inc. VAT).

Order Code	Type 10390	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
CX64U	Pulse Protector PP1	£12.750	£10.650	£9.950	£14.990
CX65V	Pulse Protector PP3	£17.010	£14.100	£13.150	£19.990

**Spike Protectors**

Over 80% of unexplainable equipment problems occur as a result of power surges or radio frequency interference. This is the easy way to make sure that your electronic equipment always receives a clean power supply.

The Spike Protector provides you with fully protected outlets with intersocket protection and an earth connector, all encased in a flame retardant housing. The protector comes in three versions - 4 sockets with power switch and filter strip and a choice of 4 sockets or 6 sockets without power switch. All are fitted with a neon lamp that, when lit,

indicates that the protection unit is intact and that the supply fuse is not ruptured.

It protects all types of electronic equipment - including computers and modems, fax machines, electronic cash registers and EPOS systems, medical equipment, and telephone exchanges - from power surges and RFI noise from sources such as lightning, fluorescent lights, vacuum cleaners, lifts, power tools, etc.

The spike protector is supplied with 2m of cable and a fitted 13A fused plug. It meets BS6651 1992 Appendix C and allows the user to comply with BS6396 by fitting a 7A fuse.

**Specification**

Working voltage: 230V AC  
Max current: 13A (13A fuse fitted)  
Max surge current handling: 6500A  
RFI average attenuation (BJ84F only): -50dB (1 to 30MHz)

Retail Unit Price each (inc. VAT).

## Computer Data Line Noise Filters

An ingenious device to help prevent noise being transmitted along interconnecting cables between sensitive computer equipment and peripherals. The principle is successfully based on applying effective common-mode countermeasures locally to the cable. The device is hinged to wrap around and grip the single or multi-way cable or bus, and contains a ferrite core which is inductively coupled to the line or lines, and which in turn couples the separate conductors in a common-mode rejection arrangement. This can even apply to screened conductors since the screen will not exclude a magnetic field. Excellent rejection of transmitted or induced electrical noise is possible, protecting central processors and peripherals from random unwanted pulses which might be misinterpreted as data bits. Ideal for long cables which can have a filter at each end to exclude noise induced along the run. The high performance ferrite core removes RF noise in the range of 300MHz and over, but has negligible effect on transmission waveforms, while providing common-mode noise countermeasures right at the data line. Can even be used on power leads. Manufactured to UL 94V-0. Effective impedance of cable with filter fitted is 125Ω at 25MHz, and 275Ω at 100MHz except round types DK33L and DK34M, which are typically 70Ω at 25MHz and 115Ω at 100MHz. Five types are available for different thicknesses of cable.

Retail Unit Price each (inc. VAT).

## Upgrades

### CPU Coolers

#### 486 CPU Cooler

A clip-on heatsink with accompanying fan for 486 CPUs to prevent overheating. Press fits onto the top of the CPU, with clips to secure the unit at the base. Fitted with piggy-back style power connector.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
VL50E	486 Heatsink/Fan	£3.390	£3.000	£2.500	£3.990

#### Pentium CPU Cooling Fan

A clip-on cooler for Pentium CPUs that is quick and easy to install. Can be used with ZIF sockets. Fitted with piggy-back style power connector.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
VL45Y	Pentium Cooling Fan	£5.090	£4.750	£4.250	£5.990

#### Cyrix 6x86 Cooling Fan

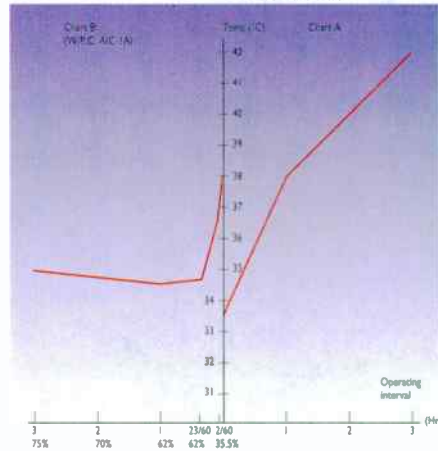

A clip-on CPU cooling fan that is designed for use with Cyrix 6x86 chips, the fan is ball bearing mounted and is very quiet in use. Fitted with piggy-back style power connector.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
GT60Q	Cyrix 686 CPU Cooler	£6.800	£5.650	£5.300	£7.990

## Twin Fan PC Air Conditioner

A PC air conditioner. The best way to cool your PC. Due to the use of faster and more complex integrated circuits, for example on controller cards, high speed hard disks, etc., the temperature of the chips used is increasing. Chips cool down by releasing the heat into the air. Because of that, the air temperature inside a PC is so high within 30 minutes that the temperature of the air in the PC approaches that of the chips. This means that the type of cooling systems currently being used, like a fan in the power supply, is not efficient enough to be effective. The chip can fail with very high temperatures, approximately 85°C. This shortens the life span of a chip by approximately 75%. If the temperature of an operational PC has reached the maximum acceptable temperature, the twin fan air conditioner lowers the temperature by 62% within two minutes. Within 23 minutes the temperature in a PC is at a constant level. This extends the lifetime of valuable chips. The twin fan air conditioner is supplied with two fans which are placed symmetrically or asymmetrically. The symmetrical type is ideal for standard PC systems, the asymmetrical type for servers.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT		inc. VAT each
		1+	1+	1+
ZE42V	Asymmetric PC Fan	£15.310		£17.990
ZE41U	Symmetric PC Fan	£13.600		£15.990
ZE43W	PCI BUS Adapter	£3.460		£4.070

## Multimedia

### Loudspeakers

#### Small Passive Multimedia Loudspeakers

A pair of shielded loudspeakers that are suitable for use near computer monitors. The attractive, light grey plastic case houses a full range 76mm speaker. The wide frequency response and low distortion makes the speakers ideal for use in multimedia applications. The speakers are connected via a 1m length of cable to a 3.5mm stereo jack plug which can be used to plug into a computer sound generator card. The maximum

input power to the speakers is 2W, and the input impedance is 8Ω. Overall dimensions of each case 114 x 95 x 76mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DK32K	Passive MM LSpkrs	£4.240	£3.620	£3.380	£4.990

## Active Multimedia Loudspeakers

A pair of shielded active loudspeakers which are intended for use with computer sound cards etc. and can operate from either batteries or a suitable mains adaptor. Each high quality loudspeaker has a 38mm tweeter and a 76mm bass and mid-range unit. A level control and two boost switches are incorporated, one switch is used to increase the bass output and the other treble. Each speaker has an on/off switch and an LED which illuminates when the loudspeakers are powered. A battery compartment is built in to each speaker which requires 2 x 1.5V 'C' cells (four in total, JY47B). Because the speakers are shielded, they can be mounted near to colour monitors, and the supplied interconnecting cable allows the speakers to be placed up to 1m (approx.) apart. The speakers are connected to the sound source by 1m of cable, which is terminated in a 3.5mm gold plated stereo jack plug. A 6V DC adaptor (YM85G) can be used to power the speakers. Finished in an attractive light beige plastic, overall dimensions of each case: 81 x 104 x 186mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DK31J	Active MM LSpkrs	£11.050	£9.430	£8.830	£12.990

## 240W (PMPO) Speakers

240W (PMPO) mains powered desktop multimedia speakers for use with personal computers.

Driver: 4inch  
Controls: Power On/Off, Volume, Treble, Bass.  
Connectors: RCA Phono type

## ZY-FI Compact Speakers

Zydec

A pair of magnetically shielded stereo speakers which are designed for use with computer sound cards, CD-ROMs etc. Able to operate in either active (via optional PSU), or passive mode to produce high quality sound output. Treble and bass boosters along with separate volume control are located on the front for easy access. The speakers have a built-in stereo amplifier and can produce 16 Watts PMPO (4W RMS). Connection is via a 3.5mm stereo jack plug. The speaker is fitted with a 3in full range cone, overall dimensions are 95mm x 156mm x 105mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
VB71N	Zy-Fi Compact	£12.750			£14.990

## ZY-FI 2 Speakers

Zydec

A pair of mains powered magnetically shielded stereo speakers which are designed for use with computer sound cards, CD-ROMs etc. Operating in active mode using the supplied AC adapter they produce 64 Watts PMPO (12 Watts RMS). Tone and volume controls are located on the front for easy access. Connection is via a 3.5mm stereo jack plug, with an additional headphone socket to the rear. The speaker is fitted with a 3in full range speaker, overall dimensions are 132mm x 193mm x 130mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each

## Zy-FI Bass Speaker System

Zydec

NEW LOW PRICE

A multimedia subwoofer system for adding total realism to your computer system. The speaker system is fully magnetically shielded and is suitable for locating close to the monitor. Operating in active mode using the built-in AC adapter the stereo amplifier produces 80 Watts PMPO (20W RMS) for the subwoofer and 2 x 12 Watts PMPO for the satellites (2 x 3W RMS). The subwoofer is designed to be located under the desk, the satellites on the desk. Separate bass and volume controls are provided on the front of the unit. The subwoofer features a 5.25in drive unit. Overall dimensions, 165mm x 273mm x 275mm for the subwoofer, 120mm x 96mm x 98mm for each satellite speaker.

Retail Unit Price each (inc. VAT).

**Jaz Universal Power Supply**

iomega

An auto-switching universal power supply which allows you to use your Jaz drive worldwide.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LO60Q	Jaz Universal PSU	£25.520	£29.990

**Jaz Centronics Cable**

iomega

SCSI cable for connecting your Jaz to 50way centronics devices.

Connectors: 50way Micro-D  
50way Centronics

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LO61R	Jaz Centronics Cable	£25.520	£29.990

**Jaz Powerbook Cable**

iomega

Direct cable connection between your Jaz drive and an Apple Powerbook computer, approx. length 0.45m.

Connectors: 50way Micro-D  
30HDI

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LO62S	Jaz Powerbook Cable	£25.520	£29.990

**Cross Platform Jaz Jet PCI Card**

iomega

32bit, PCI to SCSI II bus mastering host adapter for Jaz and Jaz Insider drives. Can be configured for use with PC and Apple Macintosh systems.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LO63T	Cross Platform Jet	£97.860	£114.990

**Jaz Traveller**

iomega

Allows connection to any PC via the parallel port, for use with Jaz external drives.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LO64U	Jaz Traveller	£46.800	£54.990

**Jaz Jet ISA Card**

iomega

16bit, ISA SCSI II bus mastering host adapter for Jaz and Jaz Insider Drives.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LO65V	Jaz Jet ISA	£85.090	£99.990

**Jaz Card**

iomega

A PCMCIA to fast SCSI II adapter card for connecting your Jaz drive to laptops with PCMCIA ports.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LO66W	Jaz Card	£125.090	£146.990

**Jaz Media**

iomega

Jaz 1Gb disks are available formatted for PC and Mac systems in packs of 1 and 3 disks.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LO63D	1 Jaz Media PC 3 Pack	£72.330	£84.990
LO67X	1 Jaz Media MAC Single	£212.750	£249.990
LO68Y	1 Jaz Media MAC 3 Pack	£72.330	£84.990
LO69A	1 Jaz Media MAC 3 Pack	£212.750	£249.990

**We will deliver your order with no postal charge!**

Every order £30 or above will be sent with carriage paid.

Approved business account holders are not charged carriage for any order but still pay guaranteed next day delivery.

(Guaranteed next day delivery charges as stated in our Terms & Conditions at the back of the catalogue)

## Ditto Media

omega

Ditto tape cartridges are available for Ditto 800, Ditto 3200 and Ditto 2Gb drives. A 3 pack is available for Ditto 2Gb cartridges.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VR88V	1+ Omega 2Gb Tape	£12.750	£14.990
LQ70M 1	1+ Ditto 2GB Cart 3pack	£34.030	£39.990

## Ditto Cleaning Kit

omega

Head cleaning kit for 250, 420 and 800 drives.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LQ71N	1+ Ditto Cleaning Kit	£21.260	£24.990

## Ditto Dash Card

omega

2 Megabit per second tape drive controller for AT (ISA) bus systems.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LQ72P	1+ Ditto Dash	£25.520	£29.990

## 1-Step Backup Software

omega

Backup software for DOS, Windows 3.1x, and Windows '95.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LQ73Q	1-Step Backup	£25.520	£29.990

## Ditto NT Tools Software

omega

Backup software that includes One-Step, Simple Restore, Simple Copy, The Works, full compression and Windows '95 backward compatible.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LQ74R	1+ Ditto NT Tools	£18.710	£21.990

## Ditto OS/2 Backup Software

omega

Backup software for OS/2 operating system environments. Supports 800 and 3200 drives.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LQ75S 1	1+ Ditto OS/2 Backup	£37.430	£43.990

## Floppy Drives

### Floppy Disk Drives

A range of three different floppy disk drives to cater for all capacities and disk types. Type MF504C is a standard slide-in, half-height 133mm (5 1/4 in.) floppy drive which is able to handle both Double Density (DD, 360K) and High Density (HD, 1-2M) floppy disks.

The 3.5in drive is able to take DD (720K) and HD

(1-44M) disks. A slide-in adaptor frame is available to enable the 89mm (3 1/2 in.) type to be used in a half-height slot, see below.

The MD5501 is a versatile dual floppy drive with two disk slots, packing two disk drives into an unbelievable half-height standard sized unit. It is able to read and write both 133mm (5 1/4 in.) and 89mm (3 1/2 in.) disks of both DD and HD capacities, supporting 360K and 1-2M as well as 89mm (3 1/2 in.) 720K and 1-44M formats. It only utilises one half-height front panel slot and one power connector, leaving the other free.

Please note that this range of floppy drives is designed primarily to fit IBM compatible AT computers. Although it may be possible to fit these drives to some other computer types, we cannot provide support or configuration information for anything other than IBM AT compatibles. We are unable to support expansion of Amstrad PCs and do not recommend the use of these floppy drives in Amstrad machines.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
ZG44X 1	1+ 3.5inch Floppy Drive	£18.710	£21.990
ZG45Y 2	2+ MF504C 5.25 Drive	£43.390	£50.990
ZG46A 2	2+ MD5501 Dual Drive	£85.090	£99.990

## 3.5in Floppy Drive Lock

A floppy drive lock for preventing access to a 3.5in floppy drive, suitable for use with most 3.5in PC drives. Can be used to prevent unauthorised installation of software, unauthorised saving of software and protection against disks infected by viruses.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KQ15R	1+ Floppy Lock	£8.500	£9.990

## SCSI Interface Cards

### Dual Port 16550 Serial Card

A high quality ISA serial card that has two serial ports equipt with 16550 compatible UARTS. The card can be fully configured using the jumpers supplied, full instructions are included for this. The card is particularly suited to use with high speed V34 modems at 28.8 Kbs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CH83E 1	1+ RS232 2 Port 16550	£38.280	£44.990

**Adaptec 2920 AD**

The Adaptec 2920AD offer fast SCSI II performance with an excellent price/performance ratio. The Adaptec controller kit includes comprehensive SCSI software drivers for all well-known CD-ROM drives, hard drives, tapestreamers, flopticals, etc., and provides full support for MS-DOS, Windows, OS/2, UNIX, SCO UNIX, SCO ODT, Windows 95, Windows NT/Advanced Server and LAN Manager. A very comprehensive controller kit for easy use and installation on the PCI bus.

Retail Unit Price each (inc. VAT).

Order Code	Type 11106	Price each exc. VAT	inc. VAT each
CE40T 1	PCI Fast SCSI II Kit	£123.390	£144.990

**Adaptec PCI 2940 Wide SCSI III Kit**

The wide SCSI III kit for PCI provides full support for SCSI I, Fast and Wide SCSI II and the latest SCSI III. The Adaptec AHA 2940 has its own 32-bit Phase Engine RISC processor to control data traffic between the 2 SCSI II and PCI bus and can handle data at 133Mb/s via the 32-bit PCI bus, 10Mb/s for the Fast SCSI II in synchronous mode and 20Mb/s for the Wide SCSI II bus.

Adaptec is one of the largest manufacturers of SCSI controllers, so full support for OS/2, Windows NT, MS-DOS, Windows, Netware and UNIX operation systems is guaranteed. The EZ-SCSI software supports all tapestreamers, CD-ROM drives, scanners, hard drives, DATs, removable, magnetic, optical and floptical drives. CD-ROM software utilities are included plus a photo viewer and Back Basics is also included for backing up your network. A maximum of 15 individual devices can be connected to this Adaptec controller. A 50-pin Sub-D half-pitch connector is built-in. The kit is supplied complete with 8 and 16-bit SCSI cables and a comprehensive user manual.

Retail Unit Price each (inc. VAT).

Order Code	Type 11102	Price each exc. VAT	inc. VAT each
CE36P 1	Wide SCSI III Kit	£228.770	£269.990

**Adaptec PCI 2940 Fast SCSI II Kit**

The Adaptec 2940 Fast SCSI kit fully supports SCSI I and Fast SCSI II. The Adaptec AHA 2940 has its own 32-bit Phase Engine RISC processor to control data traffic between the 2 SCSI II and PCI bus and expected speeds are 133Mb/s via the 32-bit PCI bus and 10Mb/s for the Fast SCSI II in synchronous mode.

Adaptec is one of the biggest manufacturers of SCSI controllers so full support for OS/2, Windows NT, MS-DOS, Windows, Netware and UNIX operation systems is guaranteed. The EZ-SCSI software supports all tapestreamers, CD-ROM drives, scanners, hard drives, DATs, removable, magnetic, optical and floptical drives. CD-ROM software utilities are included plus a photo viewer and Back Basics is also included for backing up your network.

A maximum of 15 individual devices can be connected to this Adaptec controller. A 50-pin Sub-D half-pitch connector is built-in. The kit is supplied complete with 8 and 16-bit SCSI cables and a comprehensive user manual.

Retail Unit Price each (inc. VAT).

Order Code	Type 11103	Price each exc. VAT	inc. VAT each
CE37S 1	Fast SCSI II Kit	£178.710	£209.990

**Adaptec 2842 VLB SCSI II Kit**

The Adaptec AHA 2842A, well-known as the VLB SCSI master, will get the most out of your VESA local bus. Its fast 32-bit Phase Engine RISC processor provides full multi-tasking at a speed of 40Mb/s between the VESA local bus and SCSI bus. In synchronous mode the maximum SCSI II speed is 10Mb/s and the SCSI bus supports simultaneous synchronous and asynchronous data transfer.

Adaptec is one of the biggest manufacturers of SCSI controllers so full support for OS/2, Windows NT, MS-DOS, Windows, Netware and UNIX operation systems is guaranteed. The EZ-SCSI software supports all tapestreamers, CD-ROM drives, scanners, hard drives, DATs, removable, magnetic, optical and floptical drives. CD-ROM software utilities are included plus a photo viewer and Back Basics is also included for backing up your network. A 50-pin Sub-D half-pitch connector is built-in and two floppy drives (2-88Mb) can be supported. The kit is supplied complete with SCSI cables and a clear user manual.

Retail Unit Price each (inc. VAT).

## Adaptec 1640 MCA Kit

Now it is possible to use Fast SCSI II on your IBM (or IBM compatible) computer with MCA slots. The Adaptec 1640 is fully compatible with the well known Adaptec 1542 controller and provides internal and external SCSI connections. The kit provides automatic set up for (removable) hard drives and includes EZ-SCSI software to control SCSI devices such as tapestreamers, Kodak photo CD-ROM drives, scanners, printers, etc., and large capacity gigabyte hard drives. Works under MS-DOS, Windows, Windows NT, UNIX, Novell Netware and OS/2, and can be used with the following IBM PS/2 systems: 50, 55sx, 50z, 60, 70, 80, 90 and 95.

Price each shown, but sold only in multiples of 1.

Order Code	Type	Price each exc. VAT	inc. VAT each
CE46A	Adaptec 1640 MCA Kit	£199.940	£234.940

## EZ-SCSI Driver

This pack contains Adaptec's most recent updates for its DOS and Windows SCSI drivers, providing full support for a comprehensive range of CD-ROM drives, tapestreamers, worm drives, hard drives, DAT streamers and more. With these drivers you'll be able to control the latest SCSI devices - even with an older Adaptec controller. The drivers are suitable for all Adaptec cards in the 1500, 1600, 1700, 2700, 2800, 6200 and 7700 series.

Retail Unit Price each (inc. VAT).

JW58N	L Prtl F/F 9W Gend	£2.970	£2.500	£2.000	£3.490

#### Port Savers

A range of port savers which are available in a number of different configurations. All port savers are male-female low profile units which are designed to be attached to the host computer port while maintaining the original profile to the connecting cable or equipment. By using these port savers expensive repairs can be avoided as repeated connection and dis-connection will wear the port saver as opposed to the port. The port saver can then be replaced at low cost when required. Port savers are especially useful for notebook and portable equipment users who may often connect to numerous devices at different locations. Available in 9 way D-type, 25 way D-type and 15 way high density D-type versions.

Retail Unit Price each (inc. VAT).

## Testers & Adapters

### RS-232 Break-Out Box

This portable, pocket sized test set offers complete control of your RS-232 interface. 10 interface signal powered LEDs allow permanent monitoring of TD, RD, CTS, DSR, CD, TC, RC, DTR, (E)TC and two spare LEDs. 24 switches enable the user to break-out circuits or reconfigure any or all of the 24 active positions. 20 jumper leads are included. The unit has one male and one female RS-232 connector, requires no power or batteries, and comes in a tough, black plastic case with hinged lid. Dimensions closed 92 x 84 x 24mm, excluding cables.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
JY40T	Break Out Box	1+	5+	10+	1+
		£25.520	£24.800	£20.600	£29.990

## Wiring Adaptor

A 25-pin D-type, male to female wiring adaptor, enabling any one or more connections on one side to be connected to any one or more connections on the other side of the adaptor. Each connection is terminated at a pin with which socket-ended jumper leads can be used. In addition, four commoning strips of pins are provided for tying up to four separate connections together, from either side. Supplied with 25 jumper leads 90mm long. The unit has a 25-way D-type plug at one end and a 25-way D-type socket at the other.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
JY39N	Wiring Box	1+	5+	10+	1+
		£9.350	£7.950	£5.800	£10.990

## Jumper Box

Contains a 25-way D plug at one end and a 25-way D socket at the other joined by a fibre glass PCB. Each line is connected to solder pads which may be linked together as required. Pin 1, protective ground, is connected to solder pads and linked through. 25 insulated wire links, each 50mm approx. long with stripped ends, are supplied. The unit is housed in a snap-shut plastic box.

Retail Unit Price each (inc. VAT).

**Data Switches & Extenders**

**Data Switches**

**Compact 2-Way Data Switch Boxes**

A pair of compact, quality, 2-way data switches housed in high impact plastic boxes. The switches allow either two computers to use one device or two devices to use one computer. A typical device may be a printer for instance. The boxes are available with either 25-pin D-type RS232 connectors or 36-pin Centronics connectors. All the connectors on either version are female. The switch boxes feature a high quality PCB, and the change-over switch has a life of more than 15,000 operations and includes a visible in-service indicator.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
BZ39N 1	Switch RS232	£12.750	£10.760	£10.200	£14.990
BZ40T 1	Switch Centronic	£12.750	£11.220	£10.770	£14.990

**9 way D-Type Data Switches**

A range of 9 way D-type data switches for use with serial devices such as mice and modems. The devices are equip with 9 way female D-type sockets. 9 way male-female serial cables are normally used to connect to computers, 9-25 way male-male cables are used to connect to modems. Null-modem cables can be used to connect to other computers for direct cable communications. Available in two versions, 2-to-1 and 4-to-1, both versions can be used in reverse to provide 1-to-2 and 1-to-4 operation respectively.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	3+	5+	1+
VC41U	Switch Box 9D 2 Way	£11.050	£9.050	£8.100	£12.990
VC42V	Switch Box 9D 4 Way	£12.750	£10.350	£9.250	£14.990

**25 way D-Type Data Switches**

A range of 25 way data switch boxes that can be used to connect a range of serial and parallel devices and computers. The units are available in three versions, 2-to-1, 4-to-1 and x-over. All connectors are 25 way D-type female sockets. Generally 25 way male-female cables are used to connect to serial ports on computers, male-male cables are used to connect to parallel ports for printers. Parallel printers can be connected using standard parallel printer cables. Devices requiring null-modem connections can be connected with standard null-modem cables. Modems can be connected using 25 way male-male serial cables. Other permutations are possible, the boxes can also be used as 1-to-2 switch boxes.

Retail Unit Price each (inc. VAT).

VC43W	Switch Box 25D Xover	£17.010	£13.950	£12.500	£19.990

**Centronics Data Switch**

A centronics data switch which is equip with 36 way centronics female sockets for direct connection to computers using standard printer cables. Centronics male-male cables will be required to connect to printers. Three versions are available, 2-to-1, 4-to-1 and x-over for connecting two computers to one printer, four computers to one printer and two computers to two printers. Switch boxes can be used in both directions to supply 1-to-2 operation for connecting two printers to one computer and so on. 25 lines internally switched / connected.

## Palm Printer Switches

This unique palm switch is one of the best in the world for connecting more than one PC to a printer. It uses a very high quality rotary switch. This pin to pin contact gives direct and noise free operation. Due to its very compact and round design, the palm switch can be easily secured to a printer desk or a computer. Comes complete with high quality moulded cables. Available in two types: 2 PCs to 1 Printer (CG62S) and 4 PCs to 1 Printer (CG63T).

Retail Unit Price each (inc. VAT).

CG63T	Printer Switch 4way	£23.820	£21.000	£19.750	£27.990

## Automatic Parallel and Serial Switch Boxes

Add a bidirectional two or four way switch box to your PC system to allow up to four users to share one printer or any other parallel or serial peripheral. Alternatively one user sends data to one of two or four different peripherals. The unit is designed to operate without a special external power supply in most cases, since it can draw power from the host PC's signal lines. A 6V power jack is also provided so that a mains adaptor can be connected in the event that the host computer or peripheral is unable to deliver enough power.

Various built-in functions are accessible via the function control panel at the end of the switch box case. The reset button allows you to reset the unit to its default state. The 'SEL' (SElect) button gives you the option to manually select the connection channel for the specific computer or peripheral (depending on how the box is connected and used), repeated operation of the button will 'poll' around the available ports. A DIP switch sets the basic operating modes. Printer time-out can be set to 5, 10, 20 or 40 seconds, and automatic form-feeding can be enabled or disabled. In addition the data direction can be determined as 2 or 4 PCs to 1 peripheral, or 1 computer to 2 or 4 peripherals. (In this latter mode time-out and form-feed functions are not available.) In auto mode operation the 'AUTO' indicator flashes, and any transmission request from any computer will be accepted following the rule of 'first come, first served'. As soon as one of the computers starts to send data, the control unit will lock into that channel and the corresponding in-service indicator will flash.

After the transmission stops and the time-out period elapses, the in-service indicator will go out and the switch will be ready to accept any other transmission request.

Manual selection mode operation is possible to temporarily lock into a specific input port. To select, the 'SEL' button is pressed repeatedly and the 'AUTO' indicator will go out and each in-service indicator will light in turn until the desired input port indicator is flashing. To return to 'AUTO' mode, the

process is repeated until the 'AUTO' indicator lights once more or the reset button is pressed. Data from each computer can be sent to the common peripheral in exactly the same manner as though the peripheral were directly connected to the PC. If the auto switch box is busy transferring another computer's data at the time a 'busy' signal will be received by the PC, causing it to wait or indicate a busy state if the supplied software is loaded. A 89mm (3 1/2 in.) floppy disk is supplied containing TSR and other programs to interrogate the printer channel to find out if the peripheral is free. Four types are available as 1 into 2-way and 1 into 4-way parallel port switching, and 1 into 2-way and 1 into 4-way serial port switching. Each type has the appropriate 25-way, D-range sockets for conventional serial or parallel connecting cables, and comes with user guide and software.

Retail Unit Price each (inc. VAT).

## Mega Buffer

A compact 1Mbyte parallel printer buffer designed to fit between the end of the printer cable and the printer. The unit plugs directly into the parallel port of the printer and comes with its own separate power supply. Priority is given to data coming from the computer, and the unit adapts itself to the speed of the incoming data and maximises the speed at which the computer can download the data. Data is passed to the printer only if there is no data arriving from the computer. The unit will continue to buffer data until full, whilst the printer is off-line.

Retail Unit Price each (inc. VAT).

## Keyboard & Monitor Switch Boxes

A range of switch boxes that allow the user to switch between a number of monitors and keyboards. This allows one CPU to be shared between a number of users with minimal signal loss. The units can also be used to share a number of CPUs with one monitor and keyboard, however this may result in some loss of signal quality. There are four versions available, 2-to-1 and 4-to-1 with either 5 pin DIN or PS/2 (6 pin Mini-DIN) keyboard connectors. Monitor and CPU connection is available using the 15 way high density female sockets. Monitors can be connected using their standard cables, or if the standard cable is too

short, male-male monitor cables are available, extension cables can be used for captive monitor leads. Male-male PS/2 or 5 pin DIN cables are required to connect the switch box to the CPU. Keyboard extension cables are available for longer cable runs.

Retail Unit Price each (inc. VAT).

## Splitters

### Automatic VGA Monitor Splitter Box

This VGA Monitor Splitter Box is ideal for presentations and demonstrations. It makes it possible to connect 4 or 8 monitors to 1 computer at the same time without losing any signal quality and still retain a very sharp, clear image on every monitor, even in high resolutions. Maximum cable lengths are 60m from splitter box to monitor and 20m between the PC and splitter box.

Maplin is opening new stores all the time. Call for latest details

**Extenders**

**SVGA Monitor Extender**

This compact SVGA active monitor extender allows you to extend the distance between your PC and its monitor beyond 100m without losing any image quality, even in high resolutions. The SVGA Monitor Extender is supplied in a fully shielded metal housing and with 2 HDD 15-pin female connectors. For the optimum quality monitor image we recommend high quality foiled monitor cables (not supplied).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CE32K 1	Monitor SVGA Extend	£51.050	£149.990

**Keyboard Extender**

Using this compact active keyboard extender it is possible to use your keyboard up to 80m away from your PC (ideal for use in conjunction with the SVGA Monitor Extender). The metal housing is fully shielded and includes a DIN and PS/2 port.

Retail Unit Price each (inc. VAT).

CE33L 1	Keyboard Extender	£51.050 £49.980 £46.920	£149.990

**Cables & Accessories**

**Data Transfer Leads**

**Serial Transfer Cable**

A high quality serial lead for use with programs like Laplink, Interlink, FastLynx and other serial transfer programs. Follows the same configuration as a null modem cable and implements all control and handshaking lines. The lead consists of a 9-pin and a 25-pin female connector at each end of a screened cable. Connection to either COM1 or COM2 is possible, even on older machines that only

have two 25-way serial ports. Ideal for linking a laptop computer to a stand-alone machine. Also includes locking screws for secure connection to each serial port.

**Wiring diagram**

VD68Y	Cent Cable M-F 2m	£5.090	£3.410	£3.030	£5.990

## IEEE-1284 Printer Cables

A range of IEEE-1284 printer cables designed specifically for use with IEEE-1284 compliant devices such as the latest laser printers. These cables are fully moulded and shielded and 2m in length.

Retail Unit Price each (inc. VAT).

Order Code	Type 13506	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
VD70M	IEEE 1284 36 HPC 2m	£17.010	£8.840	£7.980	£19.990
VD71N	IEEE 1284 36 C 2m	£12.750	£11.830	£10.550	£14.990

## Standard PC Printer Cable

A top quality standard parallel PC printer cable. Moulded connectors with full foil shielding, used in places where there is a lot of interference. The cable is made of flexible material that easily bends. A partly connected printer cable that can be used for any type of matrix and ink jet printer.  
 Connectors: 25-way sub-D male to 36-way Centronics male.

Number of pins connected: 18.

Retail Unit Price each (inc. VAT).

Order Code	Type 13070	Price each exc. VAT			inc. VAT each 1+

**Fully Occupied Printer Cable**

Top quality, completely moulded printer cable. A printer cable that is fully connected, and is ideal for laser printers or plotters that generate a status report back to the PC. The cables connectors are moulded and fully shielded by foil. The cable is made from flexible material that easily bends. Perfect for use in areas with a lot of environmental noise present.

Retail Unit Price each (inc. VAT).

**Widoshi Male-Female Centronics Cables**

The female connector has 100% shielded connections. The connector is moulded and is protected by a silver foil screen, for use in places where there is a lot of interference. This cable is made from very flexible material that easily bends. Top quality moulded Centronics extension. Ideal for use when an existing cable is too short.

Type of connector: 36-pin Centronics male/  
36-pin Centronics female  
Construction: Moulded connectors, shielded cable  
Number of pins connected: 36  
Shielding: Foil, low capacitance

## HDD 15 RGB 5 x BNC

Monitor cable with two separate syncs and three separate RGB connectors. Ideal for high end graphic monitors. The cable is fully shielded to reduce EM/RFI interference.

Type of connectors: BNC male/  
HDD 15 male  
Number of pins connected: 5  
Length: 2m approx.  
Shielding: High quality foil – low capacitance  
Maximum picture frequency: 200Hz (non-interlaced)  
Video bandwidth: 300MHz  
Maximum resolution: 1536 x 1200

Retail Unit Price each (inc. VAT).

Order Code	Type 10912	Price each exc. VAT			inc. VAT each 1+
		1+	10+	25+	
DG15R	Hdd 15 Rgb 5 X BNC	£19.560	£19.500	£19.000	£22.990

## Monitor Changers

9 way D type male to 15 way HD type female adapter for connecting monitors with incompatible cables or connectors. Available in two types, either with or without approximately 10cm of cable.

Retail Unit Price each (inc. VAT).

Order Code	Type 10242	Price each exc. VAT			inc. VAT each 1+
		1+	3+	10+	
CD67X	9 D Male - 15 HD Fem	£5.090	£3.000	£2.250	£5.990
CD68Y	9 D Fem - 15 HD Male	£5.090	£3.000	£2.250	£5.990
CD08K	15 HD M-9D F Cable	£5.090	£3.000	£2.250	£5.990
CD10L	15 HD F-9D M Cable	£5.090	£3.000	£2.250	£5.990

## Apple Monitor Changer

Standard SVGA monitor to Apple Mac converter.

Retail Unit Price each (inc. VAT).

Order Code	Type 10340	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
DG30H	SVGA -Apple Mac	£4.240	£3.750	£3.450	£4.990

## SCSI Leads

### SCSI Internal Cables

A range of standard 50 way flat cables suitable for use with narrow, 8 bit SCSI I and SCSI II internal drives. Cables are available with 3, 5 or 8 connectors for connecting 2, 4 and 7 devices respectively.

Retail Unit Price each (inc. VAT).

Order Code	Type 10343	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
VC05F	Int SCSI Cable 3 Con	£3.390			£3.990
VC06G	Int SCSI Cable 5 Con	£6.800			£7.990
VC07H	Int SCSI Cable 8 Con	£11.050			£12.990

**SCSI II-III Internal Adapter**

A 50 way to 68 way adapter for attaching SCSI III devices with 68 way micro D-type connectors to an internal 50 way IDC cable.

**Connectors:** 68 way micro D-type female  
50 way female IDC(keyed)

*Retail Unit Price each (inc. VAT).*

Order Code	Type 12991	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
KX13P	SCSI 50-68 Int	£12.750	£9.400	£8.600	£14.990

**SCSI I Flat Cable**

This internal SCSI cable can connect up to five SCSI devices. The flat cable guarantees a faultless data transmission to the connected SCSI devices.

**Connector type:** Flat cable with six 50-pin AMP IDC connectors  
**Length:** 1.4m approx  
**Data transfer rate:** 1.5Mbps - 10Mbps

*Retail Unit Price each (inc. VAT).*

Order Code	Type 10960	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
DG51F	SCSI I Flat Cbl 1.4m	£23.820	£20.750	£18.250	£27.990

**SCSI II Flat Cable**

This flat cable is for high-speed and high capacity fast and wide SCSI II use. Due to the special assembly of this cable, Near End Cross Talk and capacitance are kept to a minimum.

**Connector type:** IDC 50-pin  
**Length:** 0.35m approx.  
**Data transfer rate:** 1.5 Mbps - 40 Mbps

*Retail Unit Price each (inc. VAT).*

Order Code	Type 10957	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DG48C	SCSI II FLT CBL 4m	£21.260	£18.950	£16.250	£24.990

**SCSI Wide III Flat Cable**

With this flat cable the internal connections of the fast SCSI card can easily be brought to the outside of the computer. This cable is provided with two 68-pin Sub-D half pitch connectors and 1 IDC 50-pin connector. Because of the special assembling of the flat cable on the side of the external connectors, near end cross talk and capacitance are minimised. This flat cable can be used for high speed and high capacity fast and wide SCSI II devices.

**Data transfer rate:** 1.5Mops-40Mbps.  
**Type:** Flat cable with 2 x 50-pin IDC-connector and 2 x 68-pin sub-D half pitch connector.

**Material of connectors:** Finished in metal  
**Length:** 1.0m approx.

*Retail Unit Price each (inc. VAT).*

## SCSI I Cable with Hooked Connectors

Type of connector: Centronics 50-way male to Centronics 50-way male  
 Construction: Moulded plastic  
 Shielding: Shielded foil, low capacitance  
 Length: 1.5m or 5m  
 Data transfer rate: 1.5Mbps-5Mbps

Retail Unit Price each (inc. VAT).

Order Code	Type 10955	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DG56L	1† SCSI I Cbl Hookd 5m	£34.030	£30.950	£28.500	£39.990
DG55K	SCSI I Cbl Hookd 1.5	£15.310	£12.750	£10.950	£17.990

## SCSI I Cable with IBM Wiring

Type of connector: Centronics 50-way male to DB 25-way male. IBM wiring  
 Construction: Moulded plastic  
 Length: 1.5m  
 Data transfer rate: 1.5Mbps-5Mbps

Retail Unit Price each (inc. VAT).

Order Code	Type 10967	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DG57M	SCSI I IBM Cable	£17.010	£15.200	£12.950	£19.990

## SCSI I Connection Cable

Type of connector: Centronics 50-way male to Centronics 50-way male.  
 Construction: Right-angled moulded plastic  
 Length: 1.3m  
 Data transfer rate: 1.5Mbps-5Mbps

Retail Unit Price each (inc. VAT).

Order Code	Type 10963	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DG53H	R/A SCSI I Cable	£21.260	£19.200	£17.950	£24.990

## SCSI I Extension Cable

Type of connector: Centronics 50-way male to Centronics 50-way female  
 Construction: Moulded plastic  
 Shielding: Shielded foil, low capacitance  
 Length: 1.5m  
 Data transfer rate: 1.5Mbps-5Mbps

Retail Unit Price each (inc. VAT).

Order Code	Type 10969	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DG58N	SCSI I Ext. M/F Cable	£15.310	£12.750	£10.950	£17.990

## SCSI I Extension Cable

Type of connector: Centronics 50-way female to Centronics 50-way female  
 Construction: Moulded plastic  
 Shielding: Shielded foil, low capacitance  
 Length: 2.0m  
 Data transfer rate: 1.5Mbps-5Mbps

Retail Unit Price each (inc. VAT).

**SCSI II-III Adapter**

A SCSI II-III adapter for converting between 50 way micro D-type and 68 way micro D-type cabling or devices. Housed in a durable fully moulded plastic housing with gold plated contacts.

**Connectors:** 50 way micro D-type female (latching)  
68 way micro D-type male (screw type)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KX12N	SCSI II-III Adapter	£12.750	£14.990

**SCSI II-III Backplane**

A SCSI backplane fitted with an internal 50 way IDC connector, to connect to internal cabling, and a 68 way external micro D-type connector, for external SCSI III cabling.

**Connectors:** 50way IDC male header (keyed)  
68 way micro D-type female (screw type)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KX11M	SCSI III 50-68 Back	£12.750	£14.990

**SCSI III to SCSI II Adaptor Cable**

This cable is suitable for connecting the standard SCSI II peripheral devices to the latest WIDE SCSI III devices.

**Type of connector:** Sub-D 68-way half pitch to Sub-D 50-way half pitch

**Construction:** Plated metal  
**Length:** 1.5m  
**Data transfer rate:** 1.5Mbps-20Mbps

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG65V 1	SCSI III To II Cable	£34.030	£39.990

**SCSI III to SCSI I Adaptor Cable**

This cable is suitable for connecting the standard SCSI I peripheral devices to the latest WIDE SCSI III devices.

**Type of connector:** Centronics 50-way male to Sub-D 68-way half pitch male.

**Construction:** Plated metal.  
**Length:** 0.9m.  
**Data transfer rate:** 1.5Mbps-20Mbps.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG66W	SCSI III To I Cable	£38.280	£44.990

**SCSI III Cable**

**Type of connector:** DB 68-way half pitch male to DB 68-way half pitch male

**Construction:** This connector is made of high quality material and has a squeeze to release coupling

**Length:** 1.5m  
**Data transfer rate:** 1.5Mbps-40Mbps

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

Maplin is opening new stores all the time. Call for latest details

**Apple Powerbook SCSI Cables**

A range of Apple Powerbook cables that allow you to connect your Powerbook to any suitable SCSI device. Available in a number of different configurations. Length approximately 0.5m.

- Type 1** HDI 30 Pin male to 25 Way D male
- Type 2** HDI 30 Pin male to 50 Way Centronics male
- Type 3** HDI 30 Pin male to 50 Way Micro-D male

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CD13P	Apple HDI 30-25DM	£21.260	£24.990
CD14W	Apple HDI 30-50CM	£21.260	£24.990
CD15R	Apple HDI 30-50MD M	£21.260	£24.990

**External SCSI Casing**

This stylish case can accommodate an internal SCSI device such as a hard drive, CD-ROM drive, back-up device, etc., and can also be used for 5.25in. and 3.5in. floppy drives. It is ideal for portable computers or devices used at more than one location. Easy to install, it can be used with any SCSI controller and is even more versatile when used in conjunction with the Bridge 777 Adaptor (see below). The case comes complete with internal power supply, leads, device id select, audio outlet and 2 SCSI inlet/outlets. The power supply is multi-voltage and can be connected to 230V or 110V AC.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CE34M 1	External SCSI Case	£51.050	£59.990

## Gender Changers & Testers

### SCSI Sniffer

This diagnostic terminator provides testing of Fast and Wide SCSI II and SCSI I SCSI Networks. Using the SCSI Sniffer, you can solve all the problems in the SCSI Network by active voltage and impedance control. Problems with the impedance are unavoidable when you use more SCSI devices. The Sniffer saves you a lot of time while troubleshooting by indicating what is wrong. Also EMI & RFI interference on the Network, which is coming from monitors, TL light, electric motors, portable telephones, etc. will be eliminated by the SCSI Sniffer. Because the SCSI Sniffer eliminates all interference and controls the optimal impedance the data transport reaches optimal speed.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG85G 1	SCSI Sniffer Cent	1+ 10+ 25+ £51.050 £48.500 £46.000	1+ £59.990

### SCSI I & II T-Adaptor

With the SCSI T-Adaptor it is easy to arrange another SCSI outlet. This T-Adaptor can be easily connected to the SCSI port, so SCSI devices with one SCSI socket can be connected to two SCSI cables. No special installation is required, and the adaptor provides optimal data transfer.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG88T	SCSI T Adaptor	1+ 10+ 25+ £12.750 £11.500 £10.750	1+ £14.990

### SCSI II-III Adapter

A SCSI II-III adapter for converting between 50 way micro D-type and 68 way micro D-type cabling or devices. Housed in a durable fully moulded plastic housing with gold plated contacts.

Connectors: 50 way micro D-type female

(latching)  
68 way micro D-type male  
(screw type)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KX12N	SCSI II-III Adapter	1+ £12.750	1+ £14.990

### SCSI I to SCSI II Gender Changer

Fully shielded gender changer to be used between SCSI I and SCSI II protocols.

Connectors: DB 25-pin female and 50-pin Centronics half-pitch male

Data transfer rate: 10Mbps

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG87U	SCSI III DB25-Cent	1+ 5+ 10+ £17.010 £15.950 £15.250	1+ £19.990

### SCSI I to SCSI II Gender Changer

Fully shielded gender changer for connection between SCSI I and SCSI II.

Connectors: DB 25-pin female and DB 50-pin half-pitch male.

Data transfer rate: 10Mbps

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG88V	SCSI III DB25-DB50	1+ 5+ 10+ £17.010 £15.950 £15.250	1+ £19.990

### SCSI I to SCSI II Gender Changer

Fully shielded gender changer for connection between SCSI I and SCSI II.

Connectors: 50-pin Centronics female and DB 50-pin half-pitch male

Data transfer rate: 10Mbps

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG89W	SCSI III Cent-DB50	1+ 5+ 10+ £17.010 £15.950 £15.250	1+ £19.990

### SCSI I to SCSI II Gender Changer

Fully shielded gender changer for connection between SCSI I and SCSI II.

Connectors: 50-pin Centronics male to 50-pin Centronics half pitch female.

Data transfer rate: 10Mbps

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG90X	SCSI III Cent-Cent1	1+ 5+ 10+ £17.010 £15.950 £15.250	1+ £19.990

### SCSI I to SCSI II Gender Changer

Fully shielded gender changer for connection between SCSI I and SCSI II.

Connectors: 50-pin Centronics female and 50-pin Centronics half-pitch male.

Data transfer rate: 10Mbps

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG91Y	SCSI III Cent-Cent2	1+ 5+ 10+ £17.010 £15.950 £15.250	1+ £19.990

### SCSI Tester

This SCSI Tester is especially designed for testing SCSI signals, especially for cable shorts and connection problems. Seventeen LEDs show the exact status of data, MSG, Request In/Output, etc. The Tester has a 50-pin Centronics male/female connector so it can easily be connected between the SCSI cable and the device. No specialised installation is required.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG92A	SCSI Tester	1+ 5+ 10+ £17.010 £15.950 £15.250	1+ £19.990

**SCSI Terminators**

**Active Differential SCSI III Terminator**

This active differential SCSI III terminator is for the WIDE SCSI network and is assembled with a DB68-pin half-pitch connector.

Retail Unit Price each (inc. VAT).

Order Code	Type 11023	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
DG93B 1	Differential Term	£29.770	£28.500	£27.250	£34.990

**AMP Differential SCSI II Terminator**

This high end AMP Differential SCSI II Terminator is assembled with a D-range 50-pin, gold-plated half-pitch connector. The metal housing provides full shielding.

Retail Unit Price each (inc. VAT).

Order Code	Type 11028	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
DG76H	Diff SCSI II Term	£22.970	£22.250	£21.750	£26.990

**Active Single-Ended SCSI III Terminator**

This active single-ended terminator is for WIDE SCSI networks and is assembled with a DB68-pin half-pitch connector. A passive terminator version is also available.

Retail Unit Price each (inc. VAT).

Order Code	Type 11024	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
DG94C 1	Single Ended Term	£25.520	£24.750	£24.250	£29.990
DG95D 1	Act Sgl End SCSI Term	£29.770	£28.500	£27.250	£34.990

**Internal Active Terminator**

This internal active terminator is for SCSI cards or internal SCSI devices.  
Connector type: IDC 50-pin male.

Retail Unit Price each (inc. VAT).

Order Code	Type 11025	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
DG96E	Internal Active Term	£17.010	£15.950	£15.250	£19.990

**Internal Through Active Terminator**

This internal active terminator has a 50-pin IDC through connector so that it can be easily installed between the SCSI cable and SCSI cards and devices.

Connector type: IDC 50-pin male/female.

Retail Unit Price each (inc. VAT).

Order Code	Type 11029	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
DG97F	Int Thru Active Term	£21.260	£18.950	£16.750	£24.990

**SCSI Internal/External Adapter**

An internal/external SCSI adapter mounted to a PC backplate which features a SCSI III 68 way half pitch female socket on both sides. This allows external SCSI connections to be made to internal cables, this is especially useful when the host adapter has no external connectors available.

Retail Unit Price each (inc. VAT).

**Miscellaneous Cables**

**Floppy Cable**

This flat cable is used to connect a floppy disk drive to a floppy controller card. This cable can be used for high and extra density drives and is provided with high quality 34pin IDC crimp connectors and 34 way edge connectors. The twisted cable allows for 2 drives to be connected.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG41U	10346 Floppy Cable	1+ 10+ 25+ £3.390 £3.000 £2.500	1+ £3.990

**IDE Hard Disk Cable**

This flat cable offers a perfect connection between a controller card and a hard disk and is suitable for standard and high speed enhanced protocols. Supplied with three high quality 40-pin IDC crimp connectors. It also provides a connector for a second hard disk.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG40T	10345 IDE Hard Disk Cable	1+ 10+ 25+ £3.390 £3.000 £2.500	1+ £3.990

**Power Supply Adaptor Cable Assembly**

Modern devices like 3.5in. drives, tape streamers and flopticals are provided with a small plug for the power supply. This cable is designed to make use of the existing power supply cables in a computer so that the number of connections can be increased.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DG42V	10350 Y Cable 3.5in Drive	1+ 10+ 25+ £2.540 £1.500 £1.250	1+ £2.990

**Power Supply Y-Cable**

This cable provides the solution if you need another power supply connection in your computer. It converts one single power supply connection into a double connection.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

## Midi Interface

Competition Pro

- ★ Two Joystick Ports
- ★ Soundblaster Compatible
- ★ 2 metre extension cable
- ★ MIDI-IN and MIDI-OUT ports

A midi interface for connecting a MIDI device and two joysticks to most PC soundcards including Soundblaster and compatibles. Features opto-isolated circuits, two joystick ports, 2 metre extension cable and MIDI in and MIDI out ports.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KQ14Q	Midi Interface	£17.010	£19.990

## MIDI Adaptor

This MIDI adaptor is designed to link any MIDI equipped device to any PC sound card which has a standard 15-pin 'D' connector and uses the standard MIDI UART (MPU-401 'dumb' mode) operation. This includes Creative Labs, Media Vision and of course Gravis Ultrasound MAX sound cards. The adaptor directs MIDI messages, e.g., files that go in, out through the adaptor to your sound card. MIDI activity indicator LEDs are included for MIDI IN and OUT. Two 15-pin joystick connectors are provided to allow you to use joysticks to play games. The adaptor is connected via approximately 1m of cable to the sound cards joystick/MIDI port. A 2m (approximately) MIDI lead is also included.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DP19V 1	Gravis MIDI IFace	£34.030 £31.500 £29.250	£39.990

## Gold Soundcard Audio Cable

This gold phono cable can be used for a number of multimedia applications including connecting external speakers to your soundcard, connecting

external recording and playback equipment and connecting video equipment.

Connectors: 3.5mm stereo jack plug  
2 male phono plugs

Length: 1.2m

A 2.5m version is also available. (Code VL42V)

Retail Unit Price each (inc. VAT).

## Digital Imaging

### Cameras

#### Digital Camera

Mustek

- ★ Up to 24-bit colour scanning
- ★ Maximum 640 x 480 pixel resolution
- ★ Built in memory stores up to 20 full colour images
- ★ TWAIN compliant
- ★ Macro focus
- ★ LCD indicator
- ★ Power saving automatic shut-off function

The VDC-100 digital camera offers 24-bit colour photo imaging at a realistic price. Images can be taken in low or high resolution and transferred to a PC using the supplied cable. For managing the digital images, the VDC-100 includes iPhotoPlus PC software that allows image editing and photo cataloguing. Supplied with power adaptor, batteries, carry pouch, transfer cable, TWAIN driver, Mustek Photomaster, and iPhotoPlus.

#### Product Specification:

Image Resolution	Standard 320 x 240 High 640 x 480
Colour	24-bit
Image Storage	Standard 20 images High 10 images
Lens	Focus free
Focus distance	9.5cm to infinity
Exposure	Automatic
Shutter Speed	1/60 to 1/16,000 second
Aperture	f8 and f2
Power	4 x AA batteries
Weight	125 grams (without batteries)
Dimensions	132 x 68 x 38 mm
CCD Sensor	250k pixels
Compression Method	JPEG

Retail Unit Price each (inc. VAT).

KV47B	Mustek VDC100 Camera	£127.650	£149.990

## Colour Scanners

#### ScanExpress 6000P

Mustek

The ScanExpress 6000P is an affordable 30-bit flatbed scanner with integrated document management functions. No interface card or disassembly of your PC is necessary. Parallel Port (EPP) technology advances the user interface and makes 30-bit colour scanning easier than ever. The bundled scanning solution comes with a complete set of professional tools for image enhancement and retouching, and an accurate OCR solution to transform papers into editable text.

#### Specification

Scan method:	Single Pass
Scan mode:	30-bit True Colour (1 1 billion colours) B-bit

Grey/Text

Max. scan area:	21.6 x 29.1 cm
Interface:	Parallel Port (EPP)/SPP
Resolution	
optical:	300 x 600 dpi
maximum:	4800 x 4800 dpi
S/W driver:	TWAIN compliant Data Source

Retail Unit Price each (inc. VAT).

## AVerKey 5

AverMedia

The AVerKey 5 boasts all the features of the AVerKey 3 with a number of added features. The AVerKey 5 uses advanced decoding circuitry to clarify text display and extend colour depth to true 24-bit levels. The remote control includes a mouse function to give the user complete control from one handset. A second set of controls are located on the unit itself in the event of losing the remote control function. The AVerKey 5 features a video switching function which allows the user to select between the AVerKey 5 and another permanently connected source such as a VCR to remove the need for recabling the TV every time an alternative source is required. Three types of zoom are incorporated into the unit, Normal Zoom & Pan with a zoom of 200% and free panning, Area Zoom with 9 areas to select from on the screen and Cursor Position Zoom where the picture is magnified 200% and the panning is controlled by the mouse position.

Available only as a PC version.

Retail Unit Price each (inc. VAT).

## Motion Picture Video Capture

ATM

- ★ Captures stills from any video source
- ★ Three different resolution grades up to 1600 x 1040 pix.
- ★ Compatible with Windows 3.1x and Win 95
- ★ True Colour 24 bit per pixel
- ★ 16 bit ISA internal card or external Printer Port version
- ★ Universal PAL video input
- ★ Comprehensive manual and Windows applications
- ★ Compatible with Internet video-conferencing packages
- ★ Can be used in remote camera security and surveillance

Motion Picture and PIC Pocket can run on the following minimum specification; 386DX, 256 colours, Windows, 8Mb RAM (16Mb for 1040-24) with one free 16 bit ISA port (standard or enhanced printer port for PIC Pocket)

## PIC Pocket 1040-24

ATM

The PIC Pocket 1040-24 has all of the superb still image features of its big brother the Motion Picture 1040-24 except that instead of having to install it internally in one PC it can be easily transported between desktop computers and laptops. The PIC Pocket comes in a miniature external casing which plugs directly into the printer port on the back of the PC and derives its power from an adaptor on the keyboard socket.

The PIC Pocket is not supplied with the AVI movie capture application or driver and is not suitable for video conferencing.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	2+	5+	1+
KM80B	PIC Pocket 1040	£99.000			£116.330

## Motion Picture 1040-24

ATM

Motion Picture 1040-24 is the top of the range card whose output is an amazing 1600 x 1040 in 24 bit colour. This incredible resolution is attained by using multi-frame averaging and horizontal oversampling of the PAL video signal. This has the effect of removing any unwanted noise and PAL artifacts to produce stunning images. An example of the output has been printed below. The quality and resolution of this card make it ideal for high quality ink jet printing as well as at medium scale in professional print jobs, such as this catalogue.

The Motion Picture 1040-24 is best used with high quality video cameras and camcorders including the new digital variety. The card allows the user access to the 260 and 520 line resolution modes for situations where this is more appropriate.

Motion Picture 1040-24 is shipped as standard with the AVI capture driver which as well as allowing you to experiment with black and white AVI capture allows you to hook into video conferencing packages on the internet.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	2+	5+	1+
KM75L	Motion Pict 1040 Int	£99.000			£116.330

## Motion Picture 260-24

ATM

Motion Picture 260-24 can capture images at a resolution of 800x260 (800x520 with interpolation) in 24 bit true colour. It is ideal as a cost effective introduction into video capture. The 16 bit ISA card can be upgraded to the higher resolution 520 and 1040 standard at a later date. Images are suitable for electronic publishing on CD-ROM, the world wide web or for sending postcard e-mail.

Motion Picture 260 is shipped as standard with the AVI capture driver which as well as allowing you to experiment with black and white AVI capture allows you to hook into video conferencing packages on the internet.

Retail Unit Price each (inc. VAT).

## Motion Picture 520-24

ATM

Motion Picture 520-24 is a full double interlace capture card producing an image of 800 x 520 in true colour 24 bit without any interpolation. This card is equivalent to the higher specification digital cameras and its output is suitable for printing on inkjet printers and for small scale images on professional printing jobs.

The 16 bit ISA card which forms the basis of the Motion Picture 520-24 package is equipped with 512K of VRAM. This card can be upgraded to the 1040 resolution at a later date.

Motion Picture 520 is shipped as standard with the AVI capture driver which as well as allowing you to experiment with black and white AVI capture allows you to hook into video conferencing packages on the internet.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC15R	MOTION PICT 520 COL	£118.000	£138.650

## Motion Picture Upgrades

ATM

The Motion Picture 260 and 520 cards can be upgraded to increase the resolution of captured images.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LQ21X 1	Motion Pict 260-520	£29.000	£34.080
LQ22Y 1	Motion Pict 520-1040	£29.000	£34.080

## Remote Surveillance Using ATM Video Capture Cards

ATM

Motion Picture and PIC Pocket can be used to provide remote surveillance using standard telephone modems and two computers.

At the camera end you will need a video camera connected to a Motion Picture or PIC Pocket in a low specification PC fitted with a modem. Using a second computer and modem you can take control of the camera PC using communications software such as PC Anywhere. Because the Motion Picture and PIC Pocket cards produce the preview window in the DIB and do not simply overlay it as other cards do you will be able to preview images from the camera remotely.

You are also able to download a special compressed raw file from Motion Picture and PIC Pocket called RVF. This will enable you to process a full resolution 24 bit colour image from the camera on a local PC running a copy of the Motion Picture or PIC Pocket application.

This application is ideal for second homes or workplace security and surveillance.

MAPLIN PROFESSIONAL

is a Preferred Supplier to the National Universities Working Party on Electronic Components

## Soundblaster TV Coder External

Creative Labs

- ★ Ideal for presentations
- ★ Output from your PC to a TV or Video
- ★ Create marketing /training videos
- ★ External design for ease of installation
- ★ Drivers supplied for Windows 3.x and Windows 95
- ★ Connects to RCA phono plugs on your video equipment.

The Creative Labs TV Coder offers affordable output to a TV or VCR for viewing or recording. This allows computer based pictures, films or even games to be watched by people who do not have access to the computer equipment. The external design means that it is easy to move from one computer to another, including laptops.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JN16S 1	SBTV Coder External	£119.140	£139.990

## Soundblaster Videoblaster RT300

Creative Labs

- ★ Capture and edit video
- ★ Up to 30 frames per second capture rate
- ★ Scaleable viewing
- ★ INDEO compression
- ★ Drivers for Windows 3.x and Windows 95

The Creative labs RT300 is the ultimate in PC video capture for home or business letting you capture up to 30 fps using INDEO compression. The RT300 gives compact high quality video that is scaleable, the more powerful the computer the better the quality of video.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JN14Q 1	SB Video-B RT300	£221.269	£259.990

Account Enquiries: 01702 554187

## Industrial Cards

### Serial Communications

#### AT Velocity RS232 FIFO Card

Brain Boxes

- ★ Speeds of upto 1 MEGAUAUD - 921,600 BPS.
- ★ Half sized card
- ★ Two independent 9 way D connector RS232 serial ports.
- ★ Full 16 bit address decode for Windows 95.

The very latest UART - the 16C750, allows speeds of upto 1 MEGAUAUD - 921,600 BPS.

Compatible with Windows 3.x, Windows 95, Windows NT, OS/2 Version 2.x, OS/2 Warp and DOS.

Supplied with Serial Solutions for Windows and DOS driver software, utility disks, sample programs, source code and comprehensive manual including sample wiring diagrams.

Selectable as COM1 - COM8  
Interrupts 2 - 7, 10 - 12, 14 & 15.  
Data Bits: 5, 6, 7 or 8.  
Stop Bits: 1 or 2.  
Parity: Odd, even, mark, none or space.  
CE marked and UL manufactured PCB.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT71N 1	Velocity RS232 AT	£119.140	£139.990

#### AT Velocity RS422/485 FIFO

Brain Boxes

- ★ Speeds of upto 1 MEGAUAUD - 921,600 bps.
- ★ Half sized card
- ★ Two independent 9 way D connector RS422 / 485 serial ports.
- ★ Full 16 bit address decode for Windows 95.

The very latest UART - the 16C750, allows speeds of upto 1 MEGAUAUD - 921,600 bps.

Automatic transmit enable - ideal for multitasking Operating Systems.

Independently configurable as RS422 with and without handshaking or RS485 full or half duplex. RS485 mode configuration of one talker, many listeners and many talkers / listeners are allowed. The RTS line may be set to act as talk enable to prevent bus contention in party line applications.

Compatible with Windows 3.x, Windows 95, Windows NT, OS/2 Version 2.x and OS/2 Warp and DOS.

Supplied with Serial Solutions for Windows and DOS driver software, utility disks, sample programs, source code and comprehensive manual including sample wiring diagrams.

COM1 - COM8 & Interrupts 2 - 7, 10 - 12, 14 & 15.  
Data Bits: 5, 6, 7 or 8.  
Stop Bits: 1 or 2.  
Parity: Odd, even, mark, none or space.  
CE marked and UL manufactured PCB.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT73Q 1	Velocity RS422/485 F	£144.670	£169.990

## 2 Port RS232 Serial Card

Brain Boxes

- ★ Twin Fast 16550 Serial Ports
- ★ Half sized card
- ★ 2 Independent RS232 serial ports
- ★ 9 pin male D connectors.

Compatible with Windows 3.x, Windows 95, Windows NT, OS/2 Version 2.x and OS/2 Warp and DOS. Supplied with utility disk and comprehensive manual including sample wiring diagrams.

16C550 buffered UARTS  
Optional LPT port, configurable as LPT 1, 2, or 3 with IRQ 5 or 7, selectable as bidirectional or unidirectional.

Selectable as: COM1 - COM8  
Interrupts: 2 - 7, 10 - 12, 14 & 15.  
Data Bits: 5, 6, 7 or 8.  
Stop Bits: 1 or 2.  
Parity: Odd, even, mark, none or space.  
CE marked and UL manufactured PCB.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT76H	Dual RS232 FIFO 2x9	£68.070	£79.990

## AT Parallel Port/RS232 Card

Brain Boxes

- ★ Speeds up to 115,200 baud.
- ★ Half sized card
- ★ One Independent RS232 serial port
- ★ One Centronics parallel port.
- ★ 25 way D-Type Parallel Port.
- ★ 9 way D-Type Serial Port

LPT port, configurable as LPT 1, 2, or 3 with IRQ 5 or 7, selectable as bidirectional or unidirectional. For improved performance a 16C550 buffered UART is present - a 16 byte FIFO input and 16 byte FIFO output for each port.

Compatible with Windows 3.x, Windows 95, Windows NT, OS/2 Version 2.x and OS/2 Warp and DOS.

Optional COM port, available via serial adapter cable (included).  
Supplied with utility disk and comprehensive manual including sample wiring diagrams.

Selectable as COM1 - COM8

Interrupts 2 - 7, 10 - 12, 14 & 15.  
Data Bits: 5, 6, 7 or 8.  
Stop Bits: 1 or 2.  
Parity: Odd, even, mark, none or space.  
CE marked and UL manufactured PCB.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT60Q	Parallel RS232 FIFO	£68.070	£79.990

## 2 Port RS422/485 Serial Cards

Brain Boxes  
KT72P - FIFO

KT74R - Opto Isolated FIFO

- ★ Speeds up to 115,200 baud.
- ★ Half sized card
- ★ 2 Independent 9 way D connector RS422/485 serial ports.

16C550 buffered UART (automatically detected and utilised by windows).  
Automatic transmit enable - ideal for multitasking Operating Systems.  
Independently configurable as RS422 with and without handshaking or RS485 full or half duplex. RS485 mode configuration of one talker, many listeners and many talkers / listeners are allowed. The RTS line may be set to act as talk enable to prevent bus contention in party line applications.  
Opto Isolated versions available (KT74R), with: DC Isolation: +/- 1500 Volts DC  
AC Isolation: 1000 Volts AC  
Compatible with Windows 3.x, Windows 95, Windows NT, OS/2 Version 2.x and OS/2 Warp and DOS.

Optional LPT port (opto isolated only), configurable as LPT 1, 2, or 3 with IRQ 5 or 7, (LPT adapter cable required).  
Supplied with utility disk and comprehensive manual including sample wiring diagrams.

COM1 - COM8 & Interrupts 2 - 7, 10 - 12, 14 & 15.  
Data Bits: 5, 6, 7 or 8.  
Stop Bits: 1 or 2.  
Parity: Odd, even, mark, none or space.  
CE marked and UL manufactured PCB.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT72P	Dual RS422/485 FIFO	£110.620	£129.990
KT74R	Opt Dual RS422/485 F	£187.220	£219.990

## 3 Port RS232 Card

Brain Boxes

- ★ Speeds up to 115,200 baud.
- ★ A half sized card
- ★ 3 Independent RS232 serial ports.
- ★ 9 pin D connectors

16C550 buffered UART (automatically detected and utilised by windows). Full 16 bit address decode for Windows 95. Compatible with Windows 3.x, Windows 95, Windows NT, OS/2 Version 2.x and OS/2 Warp and DOS. Supplied with utility disk and comprehensive manual including sample wiring diagrams.

Selectable as COM1 - COM8  
Interrupts 2 - 7, 10 - 12, 14 & 15.  
Data Bits: 5, 6, 7 or 8.  
Stop Bits: 1 or 2.  
Parity: Odd, even, mark, none or space.  
CE marked and UL manufactured PCB.

Retail Unit Price each (inc. VAT).

KT69A	AT 3 Port RS232 FIFO	£110.620	£129.990

## 4 Port RS232 Serial Cards

Brain Boxes

- ★ Speeds up to 115,200 baud.
- ★ Half sized PC card
- ★ Four Independent RS232 serial ports
- ★ 4 male 9 pin D connectors on a quad cable (included).

Optional 16C550 buffered UART (automatically detected and utilised by windows).  
Digiboard PC/4 compatible.  
Compatible with Windows 3.x, Windows 95, Windows NT, OS/2 Version 2.x, OS/2 Warp, DOS and SCO UNIX / XENIX.  
Supplied with Serial Solutions for Windows and DOS driver software, utility disk, cables and comprehensive manual including sample wiring diagrams.

COM1 - COM4 and approximately 100 other bank options.  
Interrupts 2 - 7, 10 - 12 & 15.  
Flexible port address scheme (100h - 3f8h) and shared interrupt mechanism.  
Data Bits: 5, 6, 7 or 8.  
Stop Bits: 1 or 2.  
Parity: Odd, even, mark, none or space.

CE marked and UL manufactured PCB.

Two versions are available: Standard (KT63T)  
FIFO (KT65V)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT63T 1	AT Quad RS232 DOS	£170.200	£199.990
KT65V 1	Quad RS232 DOS FIFO	£212.750	£249.990

## 8 Port RS232 Serial Card

Brain Boxes

Photograph shows cable with 25way D-type connectors, product supplied with 9way D-type connectors.

- ★ **Speeds up to 115,200 baud.**
- ★ **Full sized PC card**
- ★ **Eight independent RS232 serial ports**
- ★ **8 male 9 pin D connectors on an "octopus" cable (included).**

Optional 16C550 buffered UART (automatically detected and utilised by windows). Digiboard PC/8 compatible. Compatible with Windows 3.x, Windows 95, Windows NT, OS/2 Version 2.x, OS/2 Warp and DOS and SCO UNIX / XENIX. Supplied with Serial Solutions for Windows and DOS driver software, utility disk, cables and comprehensive manual including sample wiring diagrams.

Selectable as COM1 - COM4 and approximately 100 other bank options. Interrupts 2 - 7, 10 - 12 & 15. Shared interrupt mechanism. Flexible port address scheme (100h - 3f8h). Data Bits: 5, 6, 7 or 8. Stop Bits: 1 or 2. Parity: Odd, even, mark, none or space. CE marked and UL manufactured PCB. Two versions available: Standard (KT67X) FIFO (KT68Y)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT67X 1	AT LYNX RS232 DOS	£297.860	£349.990
KT68Y 1	LYNX RS232 DOS FIFO	£340.410	£399.990

## Dual RS232 Serial Card

Brain Boxes

KT61R - 16550 UARTS

KT62S - Buffered OPTO Isolated

- ★ **Speeds up to 115,200 baud.**
- ★ **Half sized card**
- ★ **2 independent RS232 serial ports.**
- ★ **25 way and 9 way D connector.**

Compatible with Windows 3.x, Windows 95, Windows NT, OS/2 Version 2.x and OS/2 Warp and DOS.

Optional LPT port, configurable as LPT 1, 2, or 3 with IRQ 5 or 7, selectable as bidirectional or unidirectional.

Supplied with utility disk and comprehensive manual including sample wiring diagrams.

Optional 16C550 buffered UARTS (automatically detected and utilised by windows). (KT61R) Opto Isolated version (KT62S) available, with: DC Isolation: +/- 1500 Volts DC AC Isolation: 1000 Volts AC CE marked and UL manufactured PCB.

Selectable as COM1 - COM8 Interrupts 2 - 7, 10 - 12, 14 & 15. Data Bits: 5, 6, 7 or 8. Stop Bits: 1 or 2. Parity: Odd, even, mark, none or space.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

## Serial Solutions - Utility Software for Serial Ports

Brain Boxes

Drivers for Windows 3.x, Windows 95, Windows NT and DOS, all with the following features:

- ★ Drivers for standard PC UARTs e.g. 8250, 16450.
- ★ Drivers for PC FIFO UARTs e.g. 16550, 16650, 16750.
- ★ Support for all Brain Boxes shared interrupt cards.
- ★ Supports any mix of RS232, RS422 and RS485 handshake schemes.
- ★ Suite of utility programs for use with RS232 / RS422 / RS485 serial communication ports.
- ★ Supported Baud Rates 50 to 115,200.
- ★ Data Bits: 5, 6, 7 or 8.
- ★ Stop Bits: 1 or 2.
- ★ Parity: Odd, even, mark, none or space.

### SERIAL SOLUTIONS FOR DOS

This allows DOS to support up to 32 serial ports, and includes an interrupt handler for enhanced performance with user definable buffer sizes. Extensive sup-port for hardware and software handshaking. Serials Solutions for DOS is

accessible from all DOS languages.

**SERIAL SOLUTIONS FOR WINDOWS 3.X**

This works for Windows 3.0, 3.1, 3.11 and Windows for Workgroups. This allows support for up to 255 ports and easy configuration of these extra serial ports via the Windows control panel. It also supports single as well as multiport cards using shared interrupts. Fully commented C source code is supplied as reference for programmers.

**SERIAL SOLUTIONS FOR WINDOWS 95**

Windows 95 has an improved communication API and directly supports up to 255 ports. This driver supports single as well as multiport cards using shared interrupts. Also includes fully commented C source code, which is Windows NT compatible, as reference for programmers.

**SERIAL SOLUTIONS FOR WINDOWS NT**

Windows NT has an improved communication API and directly supports up to 255 ports. No extra driver is required to drive multiport cards, but a handy setup wizard is supplied for ease of installation. Also includes fully commented C source code.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT75S	Serial Solutions	£68.070	£79.990

**IEEE 488 Cards**

**High Performance IEEE488 Interface**

Brain Boxes  
KT86T - Board Only

- ★ NEC 7210 Intelligent GPIB controller chip.
- ★ Three DMA channels.
- ★ 10 Interrupt lines, 13 Interrupt sources.
- ★ 400 kilo bytes per second DMA transfer.

Easy to program from Windows and ALL DOS languages via PRO488. Allows the PC to manage an IEEE bus controlling up to 14 instruments.

Compatible with Windows 3.x, LOTUS measure, Asyst / Asystant GPIB, all software written for IBM, NI PC2a cards using GPIB.COM driver, all DOS languages and IEEE488.2.

This card enables the best IEEE 488.2 performance to be achieved from a PC. This card is totally IEEE 488.2 compatible and supports many third party data capture and analysis software packages.

**KT87U - Board & Software**

PRO 488 DOS and Windows 3.x DLL's software included allows PCs to manage an IEEE bus controlling up to 14 instruments.

The PRO 488 DLL's included in the hardware and software packages enables high IEEE performance from Windows environments. CE marked and UL manufactured PCB.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT86T	PC ELITE Only	£170.200	£199.990
KT87U	PC ELITE with PRO488	£297.960	£349.990

**IEEE488 Interface with PRO488 Software**

Brain Boxes

- ★ Half sized card.
- ★ Low cost control of IEEE 488 bus Instruments.
- ★ No extra modules or language drivers needed.
- ★ Serial / Parallel redirection.

PRO488 Driver Software and Windows 3.x DLL's supplied.

Worked examples provided in: BASIC, C, Pascal, Assembler, FORTRAN, Visual Basic, Visual C++, C for Windows and Turbo Pascal for Windows. Compatible with Windows 3.x, all DOS languages and IEEE488.2.

CE marked and UL manufactured PCB.

**Converter Boxes**

**PSI BOX & PSI BOX +**

Brain Boxes

A flexible 3 way interface, that converts between IEEE488, RS232 and Centronics Parallel. The PSI Box + (KV38S) allows any computer with an RS232 serial port to become an IEEE bus controller with complete control of a bus up to 14 IEEE instruments, otherwise it is identical to the PSI BOX (KV37R) (functions listed below).

Data may be passed in any combination through the different ports. Acts as an IEEE device or as an IEEE bus controller depending on the operational mode selected.

16 dip switches and 7 LED's allow the user to easily select options and monitor data transfer progress. Dip switch enabled / disabled 32k buffer.

The IEEE port, fully bidirectional uses an industry standard IEEE488 connector, and has an address definable by front panel dip switches in the range of 0 - 15. Listen and Talk Only operation can also be selected for modes 1 & 2 and 5 & 6 respectively. The Centronics Parallel port, using a standard 25 way female D connector, is identical to the standard PC printer port LPT1, and may be set as an input or output port by a front panel dip switch.

The RS232 port, using a standard 25 pin male D screw lock connector, is identical to the standard PC serial port with industry standard +/- 12Volt RS232 signal. Data is exchanged using either DSR, CTS, DCD, DTS and RTS pins (hardware handshake) or by the XON-XOFF software protocol.

**Digital Input / Output Cards**

**PC DIO 24**

Brain Boxes

- ★ Half sized card
- ★ 24 high speed, high current TTL compatible digital input output lines.
- ★ Interrupts on IRQ's 2-7.
- ★ CE marked and UL manufactured PCB.

Fast TTL buffers and drivers provide 3 eight bit ports, arranged as an emulation of mode 0 of the 8255 programmable interface chip.

Twenty four i/o lines with active low interrupt enable and interrupt lines, 6 grounds, two +5 volts and one of each of -5volts, -12volts and +12volts are accessible from the 37 way connector.

Each port can be pulled high or low by optional on board resistor networks.

Choice of 192 i/o base addresses, which are dip switch selectable on an 4 byte boundary in the range of 100h - 3FFh

Interrupt lines accessible from the 37 way connector.

100% Keithley / Metrabyte PIO-24 compatible.

Windows 3.x DLL's, sample software Windows 95 and NT drivers available.

Supplied with comprehensive manual, utility disk, example circuits, fully commented and debugged sample software and 100 page interfacing guide.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT78K	PC DIO24	£68.070	£79.990

## PC DIO 48

Brain Boxes

- ★ Half sized card
- ★ 48 TTL digital input / output lines.
- ★ Interrupts on IRQ's 2 -7, 10 - 12 & 15.
- ★ CE marked and UL manufactured PCB.

Two 8255 programmable interface chips give 6 eight bit ports.

The 48 i/o lines have 1 ground and one +5v / ground selectable output line and are accessible from 50 way D connector / 50 way IDC connector. Each port can be pulled high or low by optional on board resistor networks.

The ports can be programmed in many i/o combinations, with interrupt capability. 64 i/o addresses selectable via dip switches on an 8 byte boundary in the range of 200h - 3FFh.

Windows 3.x DLLs, sample software Windows 95 and NT drivers available

Supplied with comprehensive manual, utility disk, example circuits, fully commented and debugged sample software and 100 page interfacing guide.

All 8255 modes are fully supported.

Modes supported: 0 Simple input / output.

- 1 Strobed input / output with interrupts.
- 2 Strobed bi-directional bus input / output with interrupts.

IDC version shown (KT79L), also available with 50W D-Type Connector (KT80B)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT79L	PC DIO48	£76.540	£89.990
KT80B	PC DIO 48D	£102.110	£119.990

## PC DIO 192

Brain Boxes

Picture shows D-type connector, board supplied with 50way IDC connector.

- ★ A full sized card
- ★ 192 TTL digital output lines.
- ★ Interrupts on IRQ's 2 -7.
- ★ CE marked and UL manufactured PCB.

Eight 8255 programmable interface chips, arranged in 4 pairs, provide 192 i/o lines.

Each 8255 pair has 6 eight bit ports with their own set of IRQ selection circuitry.

The 48 i/o lines have 1 ground and one +5v / ground selectable output line and are accessible from a 50 pin i/o connector.

One connector is accessible from the card edge bracket, the rest from 50 pin headers. Each port can be pulled high or low by optional on board resistor net works.

The ports can be programmed in many i/o combinations, with interrupt capability. All 8255 modes are fully supported.

16 i/o addresses selectable via dip switches on a 32 byte boundary in the range of 200h - 3FFh.

Each pair of 8255's may have up to 4 software enabled interrupt sources, and the combined interrupt from each pair can be separately gated onto any of the IRQ 2 - 7 lines.

Flexible interrupts make this card ideal for critical response, asynchronous i/o or handshaking applications.

Windows 3.x DLLs, sample software Windows 95 and NT drivers available

Supplied with comprehensive manual, utility disk, example circuits, fully commented and debugged sample software and 100 page interfacing guide.

Modes supported: 0 Simple input / output.

- 1 Strobed input / output with interrupts.
- 2 Strobed bi-directional bus input / output with interrupts.

Retail Unit Price each (inc. VAT).

KT81C	PC DIO 192	£170.200	£199.990

## PC Timer DIO

Brain Boxes

- ★ Half sized card adding 24 TTL compatible digital input / output lines.

- ★ Interrupts on IRQ's 2 -7, 10 - 12 & 15.
- ★ CE marked and UL manufactured PCB.
- ★ 5 channel 16 bit counter timer.

An 8255 programmable peripheral interface provides 3 eight bit i/o ports, programmable in many i/o combinations.

All 8255 modes fully supported.

Onboard AMD9513A timer provides: 5 counter inputs

10 gates for start / stop counting

5 TTL counter outputs

1 programmable frequency o/p

Optional master base frequency input.

Cascadable 5 x 16 bit counters can provide 16, 32, 48, 64 or 80 bit wide counters.

All lines selectable from either a 50 way IDC connector or 50 way D connector for greater shielding.

Each i/o line can be pulled high or low by optional on board resistor net works.

The master base frequency input (FIN) can be connected to the users own TTL compatible clock signal.

64 i/o addresses selectable via dip switches on an 8 byte boundary in the range of 200h - 3FFh.

Windows 3.x DLL's, sample software Windows 95 and NT drivers available

Supplied with comprehensive manual, utility disk, example circuits, fully commented and debugged sample software and 100 page interfacing guide.

Available with IDC connector shown (KT82D) or 50way D-type connector (KT83E)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT82D	PC Timer DIO	£136.160	£159.990
KT83E	PC Timer DIO 50D	£153.180	£179.990

## DIO Screw Terminal Board

Brain Boxes

The Screw Terminal Board is the neat and tidy way of wiring up inputs for the DIO range.

Dual 50 way input.

Optional LED logic level indication.

Fused +/-5Volt line.

Power-on LED.

56 screw terminals each taking cable up to 0.1 inch / .254 cm diameter

Screw terminal clearly identified in large type by its IDC pin number and its DIO and Timer-DIO function.

Optional LED and resistor attachment points on screw terminals.

I/O port lines logically grouped.

Each terminal row has +/- 5volt rail provided by the DIO range.

50 way IDC connector or 50 way D connector for greater shielding. The product is now supplied with an additional 37way D-type connector for use with DIO24 (KT78K)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KT84F	Screw Term Board	£42.540	£49.990

## OPTO Isolated DIO Cards

### PC OPTO OUT 24 and 48

BrainBoxes

KT92A - D-type connector shown

KV31J - IDC connector shown

Two cards providing 24 and 48 high voltage, high current output lines with +/-2500Volts optical isolation. The output lines with external power input lines are accessible from either a 50 way IDC connector or 50 way D connector for greater

shielding. These Opto isolated cards require an external power input to supply the isolated part of the Opto circuit. On board regulation allows the use of external unregulated power sources with a range of 17.5 - 35 volts, the input is reverse polarity protected and fused.

Both the PC OPTO OUT 24 and 48 use "Watchdog Timers", these are a fail safe way to ensure that the users program is running correctly. On power up the watchdog is disabled. If the users program enables the watchdog, a interrupt or reset signal refreshes the timer, postponing time-out for another 50 ms. A watch-dog output is available from inside the PC, selectable active high / low or pulsed high / low. DOS Windows 3.x DLL's, sample software Windows 95 and NT drivers available Supplied with comprehensive manual, utility disk, example circuits, fully commented and debugged sample software.

Source drivers: UDN2984.  
Eight source driver outputs per chip.  
Sink drivers: ULN2804  
Max. current : 3A per chip / 0.5A any 1 input.

### PC OPTO OUT 24

24 output lines, arranged as 3 eight bit read / write port registers.  
One read / write watchdog register which occupies one i/o locations at base address in the range of 200-3FFh.

### PC OPTO OUT 48

48 output lines, arranged as 6 eight bit read / write port registers.  
One read / write watchdog register which occupies two i/o locations at base address in the range of 200-3FFh.

Retail Unit Price each (inc. VAT).

## PC Opto DIO 16

Brain Boxes

A half sized card providing 8 input and 8 output high current, high volt-age lines with +/-2500Volts Opto isolation.

The 16 i/o lines, with isolated ground and external power input lines are accessible from the edge connector, either a 50 way D connector (for greater shielding) / 50 way IDC connector.

Fast TTL buffers and Opto isolators allow a maximum throughput of 150KHz. Each input line is current limited and reverse connection protected -ensuring long term use in an industrial environment.

Requires an external power input to supply the isolated side of the Opto circuit range, 17.5 - 35Volts.

The 16 i/o lines, arranged as 2 eight bit port registers occupy 2 i/o locations at base address in the range of 200h - 3FFh. Windows 3.x DLL's, sample software Windows 95 and NT drivers available.

Supplied with comprehensive manual, utility disk, example circuits, fully commented and debugged sample software.

Retail Unit Price each (inc. VAT).

## Relay 16 Board

Brain Boxes

★ This is a half sized card able to switch 16 loads of 0.5 AMP at 150Volts DC.  
★ Fully isolated from the PC.

16 independently controlled single pole, single throw dry reed relays. Relay contact rated at 10Watts maximum. Breakdown voltage between open contacts is 250Volts DC. Breakdown voltage between contact and coil is 2500Volts DC minimum. Maximum operating time is 0.5ms.

The card arrangement is of two 8 bit write only registers, occupying 2 i/o registers in the range 200h - 3FFh.

The first 8 bit port, port 1, controls relays 1 - 8, and the second 8 bit port, port 2, controls relays 9 - 16. Straight forward mapping techniques mean that a relay is closed by writing 1 to that port bit, and to open it a 0 is written to that bit.

Relay lines with +5Volt and ground pins are all accessible from the 37 way female D type edge connector.

Supplied complete with manual, sample circuits, working programs and fully commented source code.

Retail Unit Price each (inc. VAT).

Order Code	Type 17821	Price each exc. VAT 1+	inc. VAT each 1+
KT77J	Relay 16	£170.200	£199.990

## Analogue / Digital Cards

### 12 bit Data Acquisition Cards - AD1200 Series

#### Brain Boxes

The AD1200 series is a range of data acquisition cards for IBM compatible PC's. The analogue input section can be configured as either 16 channels of single ended input, 16 channels of pseudo differential input or 8 channels of differential input. Input voltage is selectable from +/-2.5v & +/-5v & +/-10v bipolar, 0v to +5v and 0v to 10v unipolar. The input channel is software selectable. Cards with a Programmable Gain Amplifier (PGA) have software selectable gains of 1, 2, 4 and 8. (HOR 1-1000(L)).

The analogue section has two independent 12 bit digital to analogue converters. Each output voltage range is selectable from +/-2.5v, +/-5v and +/-10v bipolar, 0v to +5v and 0v to 10v unipolar. D/A throughput is up to 100kHz.

The digital I/O section has one 8 bit TTL input port and one 8 bit TTL output port. Data can be written to these ports at any time. Digital throughput is 1MHz.

The pacer clock is a programmable timer that ensures conversions can take place at precise time intervals. A timer register allows Pacer IRQ's, selecting frequencies of 0.005Hz to 600kHz from an onboard crystal clock or via the users supplied internal clock. A/D and D/A conversion or digital I/O interrupts may take place from 0.005Hz up to 100kHz.

AD1200 series cards are compatible with a wide range of data capture and analysis software packages including ASYST, ASYSTANT, LabTech, Notebook, SIGNALYSIS and others. For those writing their own routines the 250+ page manual describes 30+ routines to drive the cards. Included free with all AD1200 series cards is QUANTA, data acquisition and display software, including Windows 3.x DLL's. Fully debugged and explained sample programs are given in BASIC, Compiled BASIC, Turbo Pascal, C, FORTRAN and Assembler. Card features are as follows:

#### AD1221 - AD1220

AD1221: 30KHZ 12-bit A/D converter. Interrupt on A/D conversion complete.

AD1220: 100KHZ 12-bit A/D converter.

#### AD1211 - AD1210

AD1211: 30KHZ 12-bit A/D converter with PGA. Interrupt on A/D conversion complete.

AD1211H: Programmable gain on A/D input in steps of 1, 2, 4 and 8.

AD1211L: Programmable gain on A/D input in steps of 1, 10, 100, 1000.

AD1210: 100KHZ 12-bit A/D converter with PGA. Interrupt on A/D conversion complete.

AD1210H: (KT55K) Programmable gain on A/D input in steps of 1, 2, 4 and 8.

AD1210L: (KT54J) Programmable gain on A/D input in steps of 1, 10, 100, 1000

#### AD1200

100KHZ 12-bit A/D converter.

2k x 12 bit FIFO on A/D input.  
DMA on A/D in, both DAC outputs and TTL i/o ports.  
DMA to either D/A converter.  
DMA from 8-bit digital input port / output port.  
Programmed interrupt on A/D, DAC0/1 and TTL.  
External clock and trigger interrupts.

AD1200H: Programmable gain on A/D input in steps of 1, 2, 4 and 8.

### Analogue Screw Terminal Board

#### Brain Boxes

★ For use with the AD1200 series cards.

Easily accessible, clearly labelled terminals, grouped according to function.  
85 screw terminals, capable of taking cable up to 0.1 inch / 0.254 cm diameter.  
Clearly identified signal adjacent to each terminal.  
The board is divided into 4 distinct areas showing the position of the analogue / digital positions.  
Provision for bias / shunt resistors - necessary when the AD cards are used in differential or single ended input mode.  
Space for LED's to show the logic state of the digital i/o lines.  
Up to 8 differential channels, with the industrial 4-20mA current loop, are permitted.  
On board thermocouple support - cold junction compensation circuits, open circuit detection to guard against breaks in the thermocouple.  
50 way IDC ribbon connector.  
Available in 3 versions:

Standard Analogue Terminal Board KT57M  
ATB 4 - 20 mA KT59P  
ATB Cold Junction Compensation Board KT58N

## Drivers & Converters

### RS-232 Driver/Converter

An RS232 via RS422 converter and driver that can operate in two modes. Data Only Mode requires just two twisted pairs in the link cable, and Data and Handshake Mode requires four twisted pairs. The GW232 line driver is a full duplex line driver which communicates RS232 signals. The unit operates up to 2km over economical twisted pair cables. At lower signalling speeds (e.g. up to 2400bits/s) it may be possible to communicate over 2km, depending on the quality of the link cable and the local environment. All RS422 signals are internally terminated, and any unused lines may be left unconnected. DCE/DTE switching on the GW232 allows the unit to be configured to match most asynchronous RS232 equipment, including PCs, printers, plotters, etc., without having to make special crossover wiring configurations in the RS232 cables. Hardware handshakes must be used where data flow control is required. Unit supplied with suitable mains adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN87U	RS-232 Data Converter	£59.560	£69.990

### RS-232/IEEE488 Bidirectional Converter

A switchable bidirectional RS-232/IEEE488 converter with baud rates selectable between 150 and 19200 and switchable DCE/DTE. The device is designed to plug into a single IEEE488 device capable of 'Talk Only' or 'Listen Only' and is fitted with a 25-way D-type female connector. Supplied with suitable power supply adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN86T	Data Converter	£68.070	£79.990

See Stock Code Index For More Price Breaks

## RS-232/Centronics Bidirectional Converter

A switchable bidirectional RS-232/Centronics converter with baud rates selectable between 150 and 19200 and switchable DCE/DTE. The parallel port uses standard STROBE, ACK and BUSY and is fitted with a 25-way D-type female connector. Supplied with suitable power supply adaptor.

DN85G 1	IEEE Data Converter	£68.070	£79.990

## RS-232 Fibre-Optic Modem

For interference free, 'secure' communications, this fibre-optic modem provides a low cost, easy solution with the benefit of no radiation. The GO232 is a full duplex to 19200 baud fibre-optic RS232 modem that can link over distances up to 100m using twin core 1mm plastic fibre-optic cable. It supports software handshakes (Xon/Xoff) and is fitted with a standard female 25-way D-type connector. DCE or DTE configuration is switch selectable. Supplied with suitable mains power supply.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN80X 1	GO232F Data Converter	£51.050	£59.990

## Plastic Fibre-Optic Cable

A thin, very flexible, twin plastic fibre-optic cable for use with the RS232 fibre optic modem GO232. The cable can easily be cut with a knife and the pair is marked for easy identification during installation. Finished in black and sold by the metre.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN91Y	Fibre Optic Cable	£1.690	£1.990

## RS-232 to RS-422/RS-485 Interface Converters

Two interface converters which individually provide full duplex interface conversion from RS232 to RS422 or RS485 standards respectively. All baud rates from 1200 up to 115 500 are also supported. Very low power, surface-mount CMOS circuitry is used and is powered entirely from the RS232 (host) interface. An external power supply is not required in most situations.

In use, each unit provides full-duplex (bidirectional) conversion between the conventional RS232 interface on one side, and the RS422 or RS485 interface on the other. Both RS422 and RS485 conventions use a twisted-pair of wires for each signal.

RS422 provides full-duplex communication using two separate twisted pairs. This means that data can flow in both directions simultaneously. However, it is strictly intended for point-to-point communication only and cannot in general be used for interconnecting more than two devices.

RS485 however, makes it possible to interconnect up to 32 devices, but it supports half-duplex communication only, i.e. data can flow in either direction, but only one direction can be used at any instant. It requires only one twisted pair and, to avoid contention, the driver of an RS485 interface must be specially designed to ensure that the driver can be enabled to transmit, or disabled to listen. Any apparatus which controls an RS485 interface must be able to enable the driver only at the correct time.

Conversion between RS232 and RS485 is straightforward with this converter but requires the correct use of the RS232 RTS signal to control the RS485 driver. This means that, in order to properly use the RS485 converter unit, you must have a means of controlling the RTS output signal of your RS232 device.

Each unit will plug directly into an IBM PC 25-way serial port, and presents a 9-way, D-range male socket at the other end for the RS422/RS485 connection. Each unit is no larger than any other gender changer or adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RC06G 1	RS232-RS422 Convtr	£51.050 £49.000 £47.000	£59.990
RC07H 1	RS232-RS485 Convtr	£51.050 £49.000 £47.000	£59.990

## Mega Buffer

A compact 1Mbyte parallel printer buffer designed to fit between the end of the printer cable and the printer. The unit plugs directly into the parallel port of the printer and comes with its own separate power supply. Priority is given to data coming from the computer, and the unit adapts itself to the speed of the incoming data and maximises the speed at which the computer can download the data. Data is passed to the printer only if there is no data arriving

from the computer. The unit will continue to buffer data until full, whilst the printer is off-line.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN84F 1	1 MB Printer Buffer	£119.140	£139.990

## Pocket Computing

## Personal Digital Assistants

## Pilot Organiser

US Robotics

The US Robotics Pilot offers users a wealth of features that have not been available in one unit until now. The Pilot is supplied with a docking station for easy updating and leveling of information with the desktop machine allowing the user to carry all their information in their pocket. Not only does the Pilot allow fast input of data using a desktop PC but it also features handwriting recognition for input on the move. Built-in software includes calculator, diary/scheduler, address book, alarm and notepad. This product is the perfect companion to a desktop machine for those that do not need a cumbersome laptop computer for their personal information.

## Communications

### Modems & Accessories

#### 56K Modems

Motorola

Utilising K56 technology, the Motorola 56k modem is a voice/data/fax solution designed for home and office use. Both internal and external versions provide a powerful integrated PC communications toolbox by combining voice and data technology which provide voicemail / answering machine, fax machine and speaker phone capability in a single package.

#### Specification

**Standards:** ITU-T V.34, V.32bis, V32, V23, V.22bis, V22, V.21; Bell 212 & 103  
**Data rates:** Up to 56 Kbps receive only  
 Up to 33.6 Kbps transmit and receive  
**Fax Modes:** Up to 230.4 Kbps with data compression (desktop version)  
 ITU V.17, V.29, V.27ter, V.21  
 Channel 2, ITU Group III, Class 1 fax software compatible  
**Autorate:** Fall-back / forward from 33,600 bps to 4800 bps  
**Data Compression:** ITU V.42bis  
**Error Correction:** V.42, MNP class 2-4; T.30 fax error correction compatible

To achieve 56K, you must connect to an internet service provider or service that supports K56.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KQ16S 1	Motorola 56K Ext	£153.180	£179.990

#### ISDN Terminal Adapter

Motorola

- ★ 128,000 bps digital connections
- ★ Two analogue device ports
- ★ Simultaneous data and voice on one ISDN line
- ★ Ultra high speed internet connections
- ★ Windows 95 compatible

The BitSURFER Pro ISDN terminal adapter solution provides all the items required to connect to an ISDN line. Supplied with data comms software, internet access software, advanced windows drivers, ISDN cable, interactive instruction disk, power supply, computer cable, two local telephone adapters and file transfer software. **ISDN LINE REQUIRED.**

Price each shown, but sold only in multiples of 0.

Order Code	Type	Price each exc. VAT	inc. VAT each
CK14W	ISDN Terminal Adapt	£297.860	£349.990

#### PCMCIA Modem

Motorola

- ★ PC and Apple Macintosh compatible in one box
- ★ Easy installation
- ★ Type II PCMCIA card
- ★ 300bps-33.6Kbps V.34 transmission speed
- ★ Group III Fax compatible, 14.4Kbps V.17
- ★ Fax/Comms software for PC/Mac included
- ★ 5 Year Warranty

The Motorola PCMCIA Fax Modem offers Mac and PC compatibility from one box, complete with software. With this PC card in your notebook computer it is possible to fax, e-mail or browse the Internet from anywhere with access to a land-line telephone connection.

Order Code	Type	Price each exc. VAT	inc. VAT each
VB67X 1	PCMCIA 33.6 Modem	£127.690 5+ £126.000 10+ £125.000	£149.990

#### PCMCIA Modem

US Robotics

- ★ V34 28.8Kbps data transmission
- ★ V17 14.4Kbps fax transmission
- ★ Auto data/fax selection
- ★ Auto power-down when idle
- ★ Free Lifetime technical support
- ★ Quicklink II software supplied

The US Robotics XJACK PCMCIA modem offers a new solution to the problem of PCMCIA cabling on the move. The unique XJACK connector allows the use of a standard telephone cord for connection to the line. Surf the Internet, send faxes and e-mail from your laptop computer while in the office or at home. The PCMCIA XJACK modem offers the perfect solution for notebook users on the move.

VC58N	SB 3D BLASTER	£161.690	£149.990

## PIC Pocket 1040-24

ATM

The PIC Pocket 1040-24 has all of the superb still image features of its big brother the Motion Picture 1040-24 except that instead of having to install it internally in one PC it can be easily transported between desktop computers and laptops. The PIC Pocket comes in a miniature external casing which plugs directly into the printer port on the back of the PC and derives it's power from an adaptor on the keyboard socket.

The PIC Pocket is not supplied with the AVI movie capture application or driver and is not suitable for video conferencing.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KM80B	PIC Pocket 1040	£99.000	£116.330

## Motion Picture 1040-24

ATM

Motion Picture 1040-24 is the top of the range card whose output is an amazing 1600 x 1040 in 24 bit colour. This incredible resolution is attained by using multi-frame averaging and horizontal oversampling of the PAL video signal. This has the effect of removing any unwanted noise and PAL artifacts to produce stunning images. An example of the output has been printed below. The quality and resolution of this card make it ideal for high quality ink jet printing as well as at medium scale in professional print jobs, such as this catalogue.

The Motion Picture 1040-24 is best used with high quality video cameras and camcorders including the new digital variety. The card allows the user access to the 260 and 520 line resolution modes for situations where this is more appropriate. Motion Picture 1040-24 is shipped as standard with the AVI capture driver which as well as allowing you to experiment with black and white AVI capture allows you to hook into video conferencing packages on the internet.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KM79L	Motion Pict 1040 Int.	£99.000	£116.330

## Motion Picture 260-24

ATM

Motion Picture 260-24 can capture images at a resolution of 800x260 (800x520 with interpolation) in 24 bit true colour. It is ideal as a cost effective introduction into video capture. The 16 bit ISA card can be upgraded to the higher resolution 520 and 1040 standard at a later date. Images are suitable for electronic publishing on CD-ROM, the world wide web or for sending postcard e-mail. Motion Picture 260 is shipped as standard with the AVI capture driver which as well as allowing you to experiment with black and white AVI capture allows you to hook into video conferencing packages on the internet.

## Motion Picture 520-24

**ATM**

Motion Picture 520-24 is a full double interlace capture card producing an image of 800 x 520 in true colour 24 bit without any interpolation. This card is equivalent to the higher specification digital cameras and it's output is suitable for printing on inkjet printers and for small scale images on professional printing jobs.

The 16 bit ISA card which forms the basis of the Motion Picture 520-24 package is equipped with 512K of VRAM. This card can be upgraded to the 1040 resolution at a later date.

Motion Picture 520 is shipped as standard with the AVI capture driver which as well as allowing you to experiment with black and white AVI capture allows you to hook into video conferencing packages on the internet.

## Quickcam Cameras

Connectix

A range of cameras that are designed to connect to the parallel port of a PC to allow the user to take still and moving pictures using a PC. Everything you need is in the box, including software. The B&W version offers a resolution of 320 x 240 pixels in 64 shades of gray. Focus is fixed to give operation from 18in to infinity. The Colour Quickcam offers a resolution of 640 x 480 pixel resolution in millions of colours. The fast, adjustable focus lens provides sharp images from less than 1 in to infinity. Connectix has developed VIDEAC (Video Digitally Enhanced Compression) for the Quickcam to provide faster frame rates at larger frame sizes. There are thousands of uses for the Quickcam, be it at work, at home or on the Internet.

All parts supplied are original and unused from one of the following manufacturers: Samsung (Sam), Texas Instruments (TI), Toshiba (Tosh), Micron (Mic), Alliance (All), Goldstar (LG)

## Memory Modules

A range of DRAM modules for use as memory expansion in computers, including PCs, Apple MAC, Amiga, etc. The range offers the latest high speed technology at the lowest possible cost. SIMMs supplied by Maplin will be original (branded) manufacturers chips on selected third party boards. Modules are available in SIMM (edge connector type) only. The following types are available:

Please note that most modern motherboards require that each memory bank in use is completely filled with SIMMs. Memory banks are usually configured in blocks of one, two or four SIMM sockets. It is not usually possible to fit a single 9-pin SIMM, or an odd number of 9-pin SIMMs, to a motherboard. Many modern motherboards will only accept 72-pin SIMMs, although some of them will also accept the older SIMMs, which have 30 pads on the edge connector. It is advisable to use faster SIMM modules on PCs running at 50MHz or above. Please check your motherboard booklet before ordering SIMMs for memory expansion as various restrictions usually apply to combining SIMM types and sizes on a motherboard.

**Virus Scan**

McAfee

McAfee VirusScan for Windows 95 runs as a true 32-bit, native 95 solution to offer real-time virus protection - before an infected file can be transferred or launched, it is automatically scanned and stopped. Comprehensive features include: NCSA certification, McAfee's award-winning Code Trace and Code Matrix scanning engine for pinpoint detection of file, boot, stealth, polymorphic, encrypted and macro viruses, an intuitive explorer interface for point and click scan configuration, automated virus logging, alerting, cleaning or deleting, immediate and scheduled scanning of all system areas and file types, as well as a host of flexible scanning options to support any needs.

Available in three versions: Electronic, Quarterly and Deluxe.

VirusScan v3.0 Multiplatform for DOS, Windows 3.1 and Windows 95, NT and OS/2 (CD Rom & 3.5 diskettes included) provides the ultimate virus protection for all five popular operating systems, in one box. Available in two packs - Electronic Edition with electronic support only, or Quarterly Edition with quarterly disks by post and electronic support. All McAfee users can download monthly electronic data file updates from the McAfee Website. In addition, McAfee's new SecureCast Web service provides these updates automatically.

VirusScan Deluxe features McAfee's multiplatform CD with versions of VirusScan for DOS, Windows 3.1x, Windows 95, NT and OS/2 (5-in-1) along with QuickBackup - McAfee's innovative and easy to use personal backup utility for Windows 95 and NT.

**PCCrypto**

McAfee

PCCrypto provides undefeatable information privacy for desktop and laptop data. Based in an easy to use Windows interface, users can encrypt and decrypt files or clipboard information to copy and paste into messages and documents. Users can also create secure self-extracting files to send to anyone. PCCrypto is not required on the receiving end. Using encryption with 160-bit and 40-bit keys, users can secure important information to avoid theft, snooping and espionage on their desktop. PCCrypto comes with an optional logfile to audit activity and passwords. The logfile itself has a master pass-phrase for security on the desktop.

**Web Scan**

McAfee

WebScan is a great companion product to add breadth to your anti-virus product armoury to automatically repel electronically distributed viruses. WebScan provides security for internet users, by preventing virus infections that may be hidden inside files transferred from Web or FTP sites, or attached to Email messages. WebScan's document scanning capability supports Pegasus, cc-Mail and NetScape Mail.

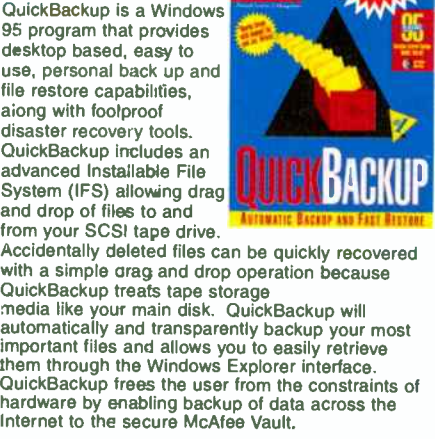

WebScan v2.0 on CD ships with Pegasus Mail (eMail-it!) and includes Microsoft's Internet Explorer browser absolutely free.

## Remote Desktop

Mc Afee

Remote Desktop/32 is a robust remote control product for Windows NT and Windows 95 systems. Remote Desktop/32 allows network administrators to remotely manage distributed 32-bit Windows NT and Windows 95 client or server systems running on Intel based systems. By leveraging the native operating system services, Remote Desktop 32 provides dramatically higher performance and compatibility than traditional remote control products.

While traditional remote control products rely on external software for their remote administration capabilities, Remote Desktop/32 leverages the 32-bit operating system services of Windows NT and Windows 95. These services include native protocol support for TCP/IP and ISDN; native security; and asynchronous RAS (Remote Access Services) for communications over LANs, WANs, asynchronous phone lines and the Internet.

Retail Unit Price each (inc. VAT).

KM88V	Remote Desktop	£68.070	£79.990

## Personal Navigator

Softwaix

Uses Ordnance Survey raster maps of Great Britain (1997 update)  
Route planning using Ordnance Survey (1996 update) database of 140,000 miles of Britain's roads  
Comprehensive place name gazetteer containing more than 220,000 locations  
Royal Mail Postcode database containing more than 1.6 million Postcodes and 800,000 street names  
The Good Pub Guide 1997  
The Good Guide to Britain 1997  
Egon Ronay's 1997 guides: Hotels & Restaurants, Pubs & Inns and Bars, Bistros and Cafes  
With the addition of a GPS receiver your position can be displayed anywhere in the country to within 25m

Personal Navigator offers route planning, satellite navigation, high quality raster maps and a postcode/street and location finder in one package. Calculate either the shortest, quickest, cheapest or

'delivery road' route with up to 30 stopovers. Print out your itinerary and maps to take with you OR connect a GPS receiver to your portable computer and you will never be lost!  
The unique postcode/street finder means that every address in Great Britain can be found. Alternatively use the only electronic form of Ordnance Survey's place name gazetteer to find any town, village or hamlet in Britain. Requires Windows 95 or Windows NT, CD version only.

## Freespirit - V.34 & GSM Modem

Portable Add-ons

The Portable Add-ons PCMCIA Freespirit modem offers all the advantages of a standard PCMCIA modem with the added benefits of a GSM capable card. The Freespirit card will allow you to connect to e-mail, fax machines, the Internet and other computers using a GSM phone or a conventional land line. Three different versions are available to cover the most popular GSM phones.

**VL48C:**

For Ericsson GH337/GH338/GF337, Ascum Discovery, Mannesmann MMO D-4046, Vodaphone Digital, Sharp TG400, Lisa 9242, Beocom 9500

**VL53H:**

For Nokia 2110 & 2140

**VL81C:**

Freespirit V.34 modem and Panasonic connector pack.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VL48C	Ericsson Data Card	£340.410	£399.990
VL53H	Nokia Data Card	£408.500	£479.990

## PCMCIA Modem

Motorola

- ★ PC and Apple Macintosh compatible in one box
  - ★ Easy installation
  - ★ Type II PCMCIA card
  - ★ 300bps-33.6Kbps V.34 transmission speed
  - ★ Group III Fax compatible, 14.4Kbps V.17
  - ★ Fax/Comms software for PC/Mac included
  - ★ 5 Year Warranty
- The Motorola PCMCIA Fax Modem offers Mac and PC compatibility from one box, complete with software. With this PC card in your notebook computer it is possible to fax, e-mail or browse the Internet from anywhere with access to a land-line telephone connection.

Retail Unit Price each (inc. VAT).

## PCMCIA Modem

US Robotics

- ★ V34 28.8Kbps data transmission
- ★ V17 14.4Kbps fax transmission
- ★ Auto data/fax selection
- ★ Auto power-down when idle
- ★ Free Lifetime technical support
- ★ Quicklink II software supplied

The US Robotics XJACK PCMCIA modem offers a new solution to the problem of PCMCIA cabling on the move. The unique XJACK connector allows the use of a standard telephone cord for connection to the line. Surf the Internet, send faxes and e-mail from your laptop computer while in the office or at home. The PCMCIA XJACK modem offers the perfect solution for notebook users on the move

## Networks

### Cabling & Installation

## Cat5 UTP Patch Panels

Net 5

A range of high quality Category 5 UTP patch panels available in 16, 32 and 48 port versions, manufactured in the UK and constructed using Stewart RJ45 connectors and Krone IDCs for guaranteed performance and reliability. Every panel is equipt with cable saddles and hook and loop fasteners for effective cable management. All the panels are designed for use in 19 inch rack systems. A label channel is incorporated into the front panel of each unit and labels can be supplied free of charge to your requirements by the manufacturer. The module and panel PCBs are certified to TSB40A, DIS11801 and pREN50173. These products carry a 15 year manufacturer's warranty.

Retail Unit Price each (inc. VAT).

## Cat5 Modular Wall Plates

Net 5

A range of single and dual gang modular wall plates for structured wiring systems. The Cat 5 modules are constructed using Stewart or AMP RJ45 sockets and Krone or Katt IDC's for guaranteed performance and reliability.

The single gang wall plate will accept two Cat 5 UTP or STP modules or one module and two blanks, which are available separately. The wall plates are designed to give a suitable mounting depth for easy installation when used with all standard 86mm x 86mm UK wall boxes. Modules feature a label carrier for easy marking and identification.

This product carries a 15 year manufacturers warranty as standard.

Retail Unit Price each (inc. VAT).

## BNC Y-Cable

This high quality, high reliability cable is for use in Thin-Net/FG58 cabling systems. The Y-Cable is assembled from dual coax cable which is connected to two high quality insulated BNC plugs at one end and the other end is connected to a single high quality insulated BNC plug. This system eliminates the need for a 'T'-adaptor when connecting computer equipment to wall outlets thus improving reliability and simplifying cable management.

Retail Unit Price each (inc. VAT).

## Category 5 FTP Patch Cable

Draka Cardinal

★ Stranded FTP Patch Cable

★ Category 5 compliant

High specification PVC jacketed FTP Category 5 patch cable for use with Ethernet, Fast Ethernet, Token Ring or ATM. Stranded conductors for maximum flexibility.

Specification:

Inner Conductor: 7 x 0.16mm Plain Copper  
Construction: 4 Twisted Pairs wrapped with PETP PVC  
Jacket: PVC  
Overall Dimensions: 5.70mm ± 0.10mm  
Weight: 35 kg/km  
Temp Range: -20° to +80°  
Min Bending Radius: 50mm

Impedance: 100Ω ± 15Ω  
 Capacitance: 46 pF/m  
 Inner Conductor: 133 Ω/km  
 Velocity Ratio: 66%

## Category 5 FTP Solid Cable

Draka Cardinal

- ★ Solid FTP Cable
- ★ Category 5 compliant

High specification PVC jacketed FTP Category 5 solid cable for use with Ethernet, Fast Ethernet, Token Ring or ATM.

**Specification:**  
 Inner Conductor: 0.52mm Plain Copper  
 Construction: 4 Twisted Pairs wrapped with PETP  
 Jacket: PVC to BS 6746 Type 6  
 Overall Dimensions: 5.80mm ± 0.30mm  
 Weight: 38 kg/km  
 Temp Range: -20° to +70°  
 Impedance: 100Ω ± 15Ω  
 Capacitance: 46 pF/m  
 Inner Conductor: 94 Ω/km  
 Velocity Ratio: 76%

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

## Category 5 UTP Patch Cable

Draka Cardinal

- ★ Highly flexible UTP Patch Cable
- ★ Category 5 compliant
- ★ Available in Grey, Red, Green, Blue and Yellow

High specification PVC jacketed UTP Category 5 patch cable for use with Ethernet, Fast Ethernet, Token Ring or ATM. Stranded conductors for maximum flexibility.

**Specification:**

Inner Conductor: 7 x 0.20mm Plain Copper  
 Construction: 4 Twisted Pairs  
 Jacket: PVC  
 Overall Dimensions: 5.25mm ± 0.30mm  
 Weight: 34 kg/km  
 Temp Range: -20° to +80°  
 Min Bending Radius: 50mm  
 Impedance: 100Ω ± 15Ω  
 Capacitance: 44 pF/m  
 Inner Conductor: 89 Ω/km  
 Velocity Ratio: 77%

Retail Unit Price each (inc. VAT).

## Category 5 UTP Solid Cable

Draka Cardinal

- ★ Category 5 compliant
- ★ Solid conductors

High specification PVC jacketed UTP Category 5 solid cable for use with Ethernet, Fast Ethernet, Token Ring or ATM.

**Specification:**  
 Inner Conductor: 0.52mm Plain Copper  
 Construction: 4 Twisted Pairs  
 Jacket: PVC to BS6746 Type TM2  
 Overall Dimensions: 4.90mm ± 0.20mm  
 Weight: 28 kg/km  
 Temp Range: -20° to +70°  
 Min Bending Radius: 50mm  
 Impedance: 100Ω ± 15Ω

## Ethernet Coax Cable

Maplin offers a wide range of coax network cable to suit all types of network installations. Commercial quality: high quality coax Ethernet network cable which is fully approved by the IEEE 802.3. Military quality: fully approved to the most stringent US Defense (MIL-17) specifications. This cable is particularly suitable for large networks. Shielding 94%, impedance 50Ω capacitance 101pF per metre.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CF09K	RG58 AU Cble 1m	1+ £0.348	£0.410
CF10L	RG58 AU Cble 100m	£21.260	£24.990
CF11M	RG58 AU Mil-17 1m	£0.595	£0.700
CF12N	RG58 AU Mil-17 200m	£96.800	£101.990

## RG58 BNC Patch Cables

A range of RG58 BNC patch cables for use in local area networks for connection between computers and/or wall plates. All cables are assembled using MIL17 specification cable with strain relief boots. Available in 2m, 3m, 5m, 7m and 10m lengths.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KX17T	RG58 Patch Cable 2m	1+ 5+ 10+ £4.240 £3.350 £3.150	£4.990
KX18U	RG58 Patch Cable 3m	£5.090 £3.950 £3.650	£5.990
KX19V	RG58 Patch Cable 5m	£6.370 £4.850 £4.500	£7.490
KX20W	RG58 Patch Cable 7m	£8.500 £6.200 £5.650	£9.990
KX21X	RG58 Patch Cable 10m	£10.200 £7.450 £6.750	£11.990

## 9907' BNC Patch Cables

A range of '9907' equivalent BNC patch cables for use in local area networks for connection between computers and/or wall plates. All cables are assembled using cable that complies to the 'Belden 9907' specification with strain relief boots. Available in 2m, 3m, 5m, 7m and 10m lengths.

Retail Unit Price each (inc. VAT).

Order Code	Type 1790	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
KX22Y	9907 Patch Cable 2m	£5.090	£3.900	£3.650	£5.990
KX23A	9907 Patch Cable 3m	£5.940	£4.550	£4.200	£6.990
KX24B	9907 Patch Cable 5m	£7.220	£5.550	£5.150	£8.490
KX25C	9907 Patch Cable 7m	£9.350	£7.000	£6.400	£10.990
KX26F	9907 Patch Cable 10m	£11.050	£8.350	£7.700	£12.990

## Duplex Coax Cable

This duplex coax cable is fully approved to the Military MIL-17 specifications. 2 x RG58, shielding 94%, impedance 50Ω, capacitance 101pF per metre.

Retail Unit Price each (inc. VAT).

Order Code	Type 10958	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
CF13P	Dup Coax Cable 1m	£1.690			£1.990
CF14Q	Dup Coax Cable 100m	£125.090			£146.990

## RS232 Multi-Pair Network Cable

NEK Cables

A range of flexible (stranded), multi-pair cables that are suitable for the interconnection of peripheral equipment and host computers, where local area networks are not in use, e.g., low-speed data transfer.

### Electrical Properties at 20°C

Pair conductance: 98pF/m @ 1kHz  
 Capacitance @ 1kHz: 164pF/m (between 1 cond. and other cond. connected to screen)  
 Attenuation 100kHz: 1.3dB/100m  
 Attenuation 1MHz: 7.3dB/100m

### Mechanical Properties

Conductors stranded: 0.22mm<sup>2</sup> TC  
 Insulation type: SR-PVC  
 Overall screening: Foil  
 Drainwire stranded: 0.22mm<sup>2</sup> TC  
 Jacket type: PVC  
 Temperature range: -20°C to +80°C  
 Minimum bending radius: 8 x ODmm

Manufacturer's Code	No. of pairs	OD (mm)	Length	Order Code
49520	2	5.5	Metre	CW41U
49520	2	5.5	Reel	PB82D
49530	3	5.8	Metre	CW42V
49530	3	5.8	Reel	PB72P
49540	4	6.5	Metre	CW43W
49540	4	6.5	Reel	PB73Q

Available per metre or on 100m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 77	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
CW41U	2 Pair RS232 Metre	£0.774	£0.600	£0.559	£0.910

PB73Q	4 Pair RS232 100m	£85.090	£79.000	£72.000	£99.990

## ICS Cable Type 6

IBM type 6 office cabling system is mostly used with the AMP 4-position data connectors. This high quality cable is fully shielded by a foil and braid. The cable contains two twisted-pairs. This type 6 cable is fully IBM approved. The cable is highly flexible making it very easy to install.

Retail Unit Price each (inc. VAT).

Order Code	Type 10006	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
CF07H	ICS Cable Type 6 1m	£1.290			£1.520
CF08J	ICS Cable Type 6 100m	£69.430			£81.590

## Secure Networking

### Saferkit

Saferkit is the simple solution to connecting and disconnecting Thinwire Ethernet networks without disruption and promises a cost effective and convenient way to install or upgrade network systems using BNC connectors. Each kit is supplied with a Safeconnect cable assembly (either 2.5m or 5m) for even greater protection and a Safertap wall socket, either flush or wall mounted. The high specification of both products ensures that every installation is successful and secure and guarantees network integrity.

Retail Unit Price each (inc. VAT).

Order Code	Type 10086	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DN98G	Surf Mount Saferkit	£34.030			£39.990

## Safertap 4-Way Extension Port

This 4-way extension port provides a quick and easy solution for LAN systems with insufficient ports or for computer installations that are not conveniently situated to an existing port. Supplied with 5m of twin cable and BNC plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type 10672	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DN94C	Safer Tap 4 User Out	£134.450			£157.990

## Safeconnect Access Leads

Safeconnect is an economical and easy to install BNC adaptor that provides a completely secure and tamper-proof uninterrupted signal path. Not only does it end the danger of Thinwire Ethernet crashes caused by accidental disconnection, its unique design actually helps to make the back of each PC less congested. Safeconnect leads are precision engineered with gold plated contacts.

Retail Unit Price each (inc. VAT).

Order Code	Type 10673	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DN85D	Access Lead 2.5m	£15.310			£17.990
DP20W	5m SafeConn Lead	£17.010			£19.990
DN86E	Right Angle Lead	£25.520			£29.990
DP21X	5m SafeConn R/A Lead	£28.070			£32.990

## Connectors

### Safeconnect BNC Crimp Plug (9907/Ethernet)

Insulated BNC crimp plug for RG58, 141, Belden 9907, URM 43, 76 cables. Available in black or grey.

Retail Unit Price each (inc. VAT).

Order Code	Type 10675	Price each exc. VAT			inc. VAT each
		1+	25+	100+

## Safety Cover

This safety cover is especially useful in protecting T-connectors in busy offices to prevent accidental disconnection of the network. This safety cover can also be used in dusty and damp environments.

Price each shown, but sold only in multiples of 5.

Order Code	Type	Price each exc. VAT	inc. VAT each
CF33L	Insulation Cover	£0.340	£0.400

## Insulated Dust Free BNC Terminators and T-Connectors

These dust free T-connectors and terminators are especially recommended for use in harsh environments. Available in black or grey. The short cover is required when mating the terminator with the T-adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CF34M	Ins BNC Terminator	£8.500	£9.990
CF35Q	Ins BNC Term Long	£7.650	£9.990
CF36P	Ins BNC Term T Piece	£9.350	£10.990

## AMP BNC Chassis Socket

A high quality BNC crimp connector for chassis mounting. With gold plated pins.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CF41U	BNC Chassis Plug	£1.990	£2.340

## AMP Coloured BNC Strain-Reliefs

Strain-reliefs used to cover the crimp and provide colour coding on AMP standard crimp plugs. Available in the following colours: Yellow, Green, Grey, White, Brown, Orange, Black, Red and Blue.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CF42V	BNC Ins Boot Yellow	£0.170	£0.200
CF43W	BNC Ins Boot Green	£0.170	£0.200
CF44X	BNC Ins Boot Grey	£0.170	£0.200
CF45Y	BNC Ins Boot White	£0.170	£0.200
CF46A	BNC Ins Boot Brown	£0.170	£0.200
CF47B	BNC Ins Boot Orange	£0.170	£0.200
CF48C	BNC Ins Boot Black	£0.170	£0.200
CF49D	BNC Ins Boot Red	£0.170	£0.200
CF50E	BNC Ins Boot Blue	£0.170	£0.200

## AMP 1W BNC Terminator

A high quality 50Ω BNC plug with integral resistor for termination of thinnet network segments. With gold plated pins.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CF51F	BNC 1 watt Terminator	£2.160	£2.540

## BNC Terminator

A termination plug fitted with an encapsulated 50Ω resistor, and gold-plated centre pin. Suitably for end termination on network computer installations.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CK06G	BNC Terminator Plug	£1.370	£1.620

## Crimp Plug

Nickel plated brass plug with gold-plated centre pin. The plug is suitable for use with any 50Ω cable where the outside diameter of the sheath of the inner conductor is approx. 3mm and the outside diameter of the outer sheath is 5mm, e.g., UR76, RG58. See Tools section of this catalogue for suitable crimp tool.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JC23A	BNC Crimp Plug 50	£0.842	£0.990

## BNC Boot

An insulating boot for use with crimp plug 71661. The boot is cut to suit the diameter of the cable if necessary, and then pushed on to the cable, before crimping. The hood is then forced over the crimp, and with the matching hood, the plug is now insulated. Colour black.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CK06J	BNC Boot	£0.167	£0.220

## N-Series Terminator

10Base5 N-series male terminator which can be attached directly to the jack-to-jack in-line splice, 1W, 50Ω. With gold plated pins.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CF56L	N Series Term Male	£5.940	£6.990

**RJ45 Cat-5 Shielded Connector**

A high reliability RJ45 crimp connector with gold-plated contacts. UL verified for Cat-5 applications. Maximum frequency: 100MHz. Attenuation: 0-1/0-4dB. Easy to crimp on STP Cat-5 cable.

Available in two types:-

Type 1. For assembly to solid core wire.  
Type 2. For assembly to stranded core wires.

Retail Unit Price each (inc. VAT).

## Plastic D-Type Hood with Thumbscrews

AMP has a large range of universal packages for the speedy assembly of connectors and cables – just click-in and go!

These packages are made of high quality plastic with a straight cable outlet (with cable clamps suitable for a range of cable diameters). The thumbscrews ensure a firm contact while making the plug easily removable and ideal for mobile assembly.

Retail Unit Price each (inc. VAT).

Order Code	Type 10763	Price each exc. VAT		inc. VAT each 1+
		1+	10+	
CU03D	9way D Hood	£5.090	£5.000	£5.990
CU04E	25way D Hood	£4.070	£3.880	£4.790

## Locking Metal Hoods, Completely Protected Against EMI/RFI Interference

High quality with crack resistant chromium plating, ideal for using in offices or places prone to EMI/RFI interference. The hoods guarantee 100% protection when used in combination with double shielded cable. Available as a straight connector or right-angled.

Retail Unit Price each (inc. VAT).

Order Code	Type 10764	Price each exc. VAT		inc. VAT each 1+
		1+	10+	
CU05F	Hood 15p Straight	£4.070	£3.880	£4.790

## Crimp Contacts

HD 20 (standard Sub-D connector) & HDD 22 (SVGA connector) Crimp Snap In contacts. These high quality crimp contacts make it easy and fast to achieve safe connections.

Gold plating ensures very high conductivity and protection from corrosion, so all AMP connector contacts are gold plated. These contacts are available in pin & socket types in packs of 50.

Retail Unit Price each (inc. VAT).

## Plastic Hood With Standard Jack Screws

AMP's Quick Snap Kits allow the fast assembly of connectors to cables in a large assortment of universal Quick Snap housings. Just click in and go! The housings are made of heavy-duty plastic and the cable outlet is adjustable between straight through and 45 degrees. A secure cable clamp is connected to the housing with screws. The standard jack screws ensure a secure connection – a screwdriver is necessary.

## 300MHz EMC Connector

New! This AMP 300MHz EMC Shielded Four-Position Data Connector is suitable for STP-A IBM Cable System types 1A, 2A and 6A. The connector is made with a special shielding which shields every wire in the ICS cable independently in the connector. By using this technique it is possible to transmit data at 300MHz. Prepare your network for the high-speed data transmission of tomorrow. (Equivalent to IBM part No. 73G7500.)

Retail Unit Price each (inc. VAT).

## Tokenring Four-Position Data Connector

The AMP 4-position data connector is designed for use in Tokenring local area network applications. The connector is designed to connect to twisted-pair cables and features easy assembly without the use of special tools. The connector is fully shielded and selective gold plating is used on critical components for optimum data transmission. Internal connections are colour coded for easy identification. The connector is provided with self shorting contacts which make contact after releasing the connector from the wall outlet or patch panel.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG29G	10604 TR 4-Pos DataCon	£4.160	£4.890

## Safertap Access Ports

Safertap (Thin-Ethernet Access Port) has been developed for LAN users and provides a cost effective method of adding or removing workstations without disrupting the network. Each access port is manufactured to the highest standards and complies with the requirements of IEEE 802.3. The ports are very simple to install or retrofit and are available in surface mount or flush versions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

CG29G	10603 Tech's Gde For Optics	£15.990	£15.990 NV

## Lightcrimp XTC No-Epoxy Fibre Connectors

The AMP light crimp connectors are ST compatible and very easy to connect. They can be used for both loose tube cables and strength membered cables. The fibre and buffer are connected to the connector by a special crimp process which eliminates the need for epoxy. The light crimp XTC connector has a very high temperature range and has a rust-proof, ceramic ferrule for multi-mode and single-mode use. Manufactured under quality control to ISO9001.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG32K	10607 ST-Active Device Mnt	£5.940	£6.990

## Widoshi Fibre Optic Cable

The high quality Widoshi 62.5/125 micron graded-index, fibre-optic cable has a high bandwidth, high capacity and low signal loss. The graded index core provides a high light speed in the outer layers to give a low modal dispersion of the order of one nanosecond per km (0.212dB). This multi-mode fibre-optic cable is suitable for crimp as well as epoxy glue assemblies.

Retail Unit Price each (inc. VAT).

## AMP Inspection Microscope Kit

This Inspection Microscope is designed specifically for visual inspection of terminated or cleaved ends of single-mode and multi-mode fibres, in both field and workshop applications.

The portable, hand-held unit provides x100 magnification for optimum detection of flaws, dust and grooves. The unit operates from either an AC adaptor or battery power.

The complete microscope kit includes a handy carrying case, tripod stand, AC adaptor and all adaptors needed to inspect the following connectors: FSMA, FSD, ST, D4 and SC. Full instructions are supplied. Suitable for professional laboratory inspection of glass fibre connections. Manufactured under quality control to ISO9001.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG35Q	10701 Inspect Microscope	£1,011.310	£1,188.300

## Complete ST Style Fibre Optical Lead

High quality, complete, assembled simplex fibre optical cable with both ends terminated in booted ST style connectors. Length: 3m. ISO9001 certified.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG37S	10702 ST/ST Cable Assembly	£34.030	£39.990

## Epoxy Fibre Optic Oven

Suitable for all kinds of epoxy connectors. The oven temperature is variable, and can be precisely controlled between 60 and 120°C. Up to 4 FSD/RSD and 12 single connectors can be heated at the same time. Complete with cable holder and thermometer. ISO9001 certified.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG40T	10707 Epoxy Glass Fibre Oven	£578.710	£679.990

## EFSMA I & II Epoxy Termination Kit

The AMP FSMA I & II Epoxy Termination Kit contains all the materials and tools which are needed to terminate FSMA type I & II fibre-optic connectors. The kit is supplied in a handy case, complete with high quality FSMA I & II crimping tool, polish and enough materials for 60 connectors. ISO9001 certified.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG41U 1	FSMA EpoxyTerm Kit	£646.800	£759.990

## AMP SC Epoxy Termination Kit

The AMP SC termination kit contains all the materials and tools which are needed to connect SC fibre-optic connectors. The kit is supplied in a handy case, complete with SC crimping tool, polish and sufficient materials for 60 connectors. ISO9001 certified.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG42V 1	AMPSC Epoxy Term Kit	£646.800	£759.990

## AMP FSD Epoxy Termination Kit

This termination kit contains all the materials and tools which are needed to connect FSD connectors. The kit is supplied in a handy case and comes complete with FSD crimping tool, polish and sufficient termination materials for 60 connectors. ISO9001 certified.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG43W1	FSD Epoxy Term Kit	£861.050	£999.990

## AMP Hand-Held Microscope

This neat, compact microscope is ideal for simple and fast checking of fibre-optic connectors. The microscope has a built-in light source and has a magnifying power of x100. With optional adaptors, the microscope can be used for FSMA, ST style, FC, D-4, Mini-BNC, Bare fibre, etc. Battery operated. Ideal for use in the field. CG44X is the microscope; ZE66W is the FSMA adaptor and ZE67X is the ST adaptor.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG44X 1	Handheld Microscope	£86.800	£101.990
ZE66W	FSMA Adaptor	£25.520	£29.990
ZE67X	ST Adaptor	£25.520	£29.990

## FSD Patch Cable Assemblies

Using these cables allows you to directly connect FDDI equipment which is supplied with FSD outlets. AMP FSD cable assemblies have a low insertion loss of 5dB maximum, and are fully compatible with IBM systems. The connectors have a removable housing for easy cleaning of the connectors, and can be used with 62-5/125 micron fibre-optic cable. Length 3m. Order code CG46A.

## RSD Patch Cable Assemblies

Using these cables allows you to directly connect FDDI equipment which is supplied with RSD outlets. AMP RSD cable assemblies have a low insertion loss of 5dB maximum, and are fully compatible with IBM systems. The connectors have a removable housing for easy cleaning of the connectors, and can be used with 62-5/125 micron fibre-optic cable. Length 3m. Order code CG47B.

## AMP Complete Cable Assembly FSD to ST

This cable assembly allows you to connect an FSD network to an ST network. The cable has one FSD connector and two ST style connectors and allows

FDDI equipment to be connected to an ST network system. Uses 62-5/125 micron fibre cable. Length 3m. Order code CG45Y.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG45Y 1	FSD/ST Cable Assem	£168.500	£197.990
CG46A 1	FSD/FSD Cable Assem	£125.080	£146.990
CG47B 1	RSD/RSD Cable Assem	£108.070	£126.990

## RSD Connector System

This duplex connector is retractable, ensuring a secure connection. Suitable for 62-5/125 micron multi-mode fibre-optic cable, and fully compatible with IBM fibre optic systems. Ideal for use in the field.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG48C	RSD Retract Shroud	£21.260	£24.990

## FSMA Connector

The FSMA connector is one of the most widely used network connectors. It can be terminated by crimping or by using an epoxy glue process. The body material of the connector is nickelled copper, and the connector is fully compatible with the industry 905 (FSMA-1) standard. For use with 125 micron fibre-optic cable. Connectors are also available for 140, 230, 500 and 1000 micron fibre-optic cables. Complete with boot.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG49D	FSMA Connector	£8.500	£9.990

## FDDI Standard Connector

This AMP standard FDDI connector is supplied with a ceramic tip and an FSD glue connector (2-5mm). The assembly has a dust cover, a colour-coded connector lock, force reduction and is supplied with an installation sheet.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG50E	FDDI Stand Connector	£18.710	£21.990

## FSD Low Loss Loopback Connector

The AMP Low Loss Loopback Connector (1.5Mb max.) connects the transmitting side to the receiving side of the FDDI channel. With this loopback connector it is easy to check the fibre-optic cables and connectors, patch panels, wall outlets and wiring.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG51F 1	FSD LL Loop Back Con	£76.580	£89.990

## Surface Mounted Outlet

This surface mounted outlet is ideal for FSD applications. It has a full metal insert and polarised connector. The outlet has a dust cover to prevent dust and dirt from reaching the fibre contact.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG52G 1	FDDI Outlet	£40.840	£47.990

## Hirschman Fibre RS-232 Fibre Extender

These Hirschmann extenders are fully duplexed and using the RS-232 interface are perfect for high-speed (20Kbps) on line data transmission. Some practical applications are: computer to printer, computer to computer, computer to data terminal or computer to measurement equipment. The kit uses a contact transmitter and receiver which are easily connected to the RS-232 port. The 2451G (CG58N) has a data distance of 2,000m perfect for use with portable computers as it works without a mains adaptor. Operate asynchronous in full duplex mode and has a software handshake (Xon/Xoff). OZDV2451G has a DCE/DTE switch and has one 25-pin D male connector and two ST style outlets for connecting the fibre-optic cable.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CG58N 1	G/Fbr RS232 Ext 02	£265.940	£335.990

## Hubs

### 5 Port STP Hub

- ★ 5 UTP/STP ports
- ★ 10MB per second speed
- ★ Supports all types of ethernet frames
- ★ Faulty segments will be switched off automatically
- ★ LEDs for status information
- ★ Daisy-chain port

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LO96E 1	5 Port Hub	£42.540	£49.990

### 8 Port STP Hub

- ★ 8 UTP/STP ports
- ★ 10MB per second speed
- ★ Supports all types of ethernet frames
- ★ Faulty segments will be switched off automatically
- ★ LEDs for status information
- ★ Daisy-chain port

LO98G 1	16 Port Hub	£110.620	£129.990

## 5 Port 'Hubby'

D-Link

- ★ Pocket Size
- ★ Light Weight
- ★ 5 Ports for 5 Users
- ★ No AC Adapter Required
- ★ Optional AC Adapter Available
- ★ Per-Port Diagnostic LEDs

A portable 5 port hub for connecting 5 users together. Small enough to slip into a pocket the hub can be placed anywhere. 'Hubby' is supplied with a power connection cable for connecting to the keyboard outlet on your computer to negate the need for an external power supply, some users may find the optional mains adapter useful, especially if using a notebook computer. Expansion beyond 5 ports is possible using the flexible uplink port.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VL91Y	Hubby - 5 Port Hub	£51.050	£59.990
JT03D	Hubby - AC Adapter	£12.750	£14.990

## 'Hubby' Bundle

D-Link

- ★ Ideal for Small or Home Offices
- ★ Everything in one Box
- ★ Plug and Play Installation
- ★ Free Lifetime Customer Support

This kit includes everything you need to set up a network for up to 5 users. All you have to do is plug in the cables and run your network software.

Specifications:

10Base-T Hub:

- ★ 5 Twisted Pair Ports
- ★ Pocket Size, Light Weight
- ★ Uses Power from Keyboard Connector

Ethernet Cards:

- ★ Fully Complies with Plug and Play Standard V1.0
- ★ Shielded RJ-45 Connector
- ★ Auto-sense 8 and 16-bit Slots
- ★ Run Windows NT, '95, Netware, IBM LAN Server, TCP/IP and others.
- ★ Compatible with NE-2000 cards

Drivers Supported:

- ★ NE-2000 drivers
- ★ Netware 3.x, 4.x Server
- ★ Netware ODI DOS Client, OS/2 ODI Requester
- ★ Netware Lite, Personal
- ★ Windows NT 3.5 Workstation, Server
- ★ Windows for Workgroups
- ★ Windows 95
- ★ Lan Manager 2.x
- ★ OS/2 LAN Server 3.0, 4.0
- ★ IBM LAN Server
- ★ IBM PC LAN Support Program
- ★ FTP PC/TCP
- ★ SCO TCP/IP for UNIX 1.1x, 1.2x
- ★ AT&T UNIX
- ★ Sun PC-NFS
- ★ WIN/TCP Pathway Access
- ★ Banyan VINES
- ★ DEC Pathworks 4.0, 5.x, 6.x
- ★ Artisoft LANtastic
- ★ D-Link LANsmart
- ★ D-Link TCP/IP for DOS
- ★ NDIS 2.01, NDIS 3.1
- ★ Packet Driver
- ★ 3Com 3+Open

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VL92A	Hubby Starter Bundle	£85.090	£99.990

## 9 Port Desktop Hub

D-Link

- ★ **Compact Size**
- ★ **BNC Port for Backbone Connection**
- ★ **Automatic Port Partition and Collision Detection**
- ★ **Desktop or Wall Mounting**
- ★ **Diagnostic LED's**
- ★ **External AC Power Adapter**

Ideal for connecting a local group of users or a cluster of stations stemming from a central network. The hub can be placed in tight desktop space or can be wall mounted.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VL93B	9 Port Hub	£68.070	£79.990

## Rack Mount Hubs

D-Link

- ★ **Available with 16 or 24 UTP Ports**
  - ★ **Built-in BNC and AUI Ports**
  - ★ **Auto-Partition for each Port**
  - ★ **Data Collision Detection, Jabber Handling**
  - ★ **Extensive Front Panel Diagnostic LED's**
  - ★ **Uplink Port for Expansion**
  - ★ **Auto-Correction of Reverse Polarity for each Port**
- Suitable for growing departmental workgroups where complex security and managements are not required. Designed for fitting into 19in rack enclosures.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VL94C	16 Port Rack Mt Hub	£144.670	£169.990
JT01B	24Pt Rack Mount Hub	£212.750	£249.990

## 12 Port Fast Ethernet Hub

D-Link

- ★ **100BaseTX Operation**
- ★ **Rack Mountable**
- ★ **Stackable**
- ★ **72 Ports per Stack**
- ★ **Internal Power Supply**
- ★ **UTP & STP Support**
- ★ **Utilization %, Collision and Unit LEDs**

A high speed Fast Ethernet hub that offers 12 ports in a 19in rack mountable, stackable enclosure. Suitable for use in situations where high bandwidth is required by demanding applications, or where network bottlenecks need to be removed. Designed for the simpler network where no statistical information is required.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VL95D	12 Pt FEthernet Hub	£565.730	£699.990

Account Enquiries: 01702 554187

## Personal Hubs

A pair of hubs suitable for small networks, equip with RJ45 STP ports to the front panel and a 10base2 port to the rear to allow easy connection to a coax segment if required. The top plate houses indicator lights that show the status of the 10baseT ports, the 10base2 port, collisions, jams and power. The first version is equip with 5 STP ports, the fifth port is a daisy chain port that allows the connection of another hub to expand the network. The second version is similar but is equip with 9 STP ports, the ninth being the daisy chain port. Supplied with mains power adapter, instructions and T-piece.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CH88V1	5 Port Personal Hub	£49.350	£57.990
CH89W1	9 Port Personal Hub	£74.880	£87.990

## Multi-Protocol Print Server

D-Link

- ★ **Three Printer Ports: 2 Parallel and 1 Serial**
- ★ **1 LAN Port with BNC and 10BaseT RJ45**
- ★ **Supports IPX and IP Protocols**
- ★ **Support for Netware and Unix**
- ★ **Simultaneous use of all Printer Ports**
- ★ **Frame Type User Enabled/Disabled**
- ★ **Frame Type Auto-Detection**
- ★ **Easy to Install**
- ★ **Fully Compatible with Netware PCONSOLE**

This print server offers a flexible, cost-effective solution for sharing printers and serial communication devices on a network. Easy to set-up on Netware and Unix networks without the need to buy any PC-based print servers.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JT00A	Dlink Print Server	£255.310	£299.990

## Time Date ARC Receiver

Galleon Systems

- ★ **Accurate and auditable event logging**
- ★ **Battery back-up for continued operation**
- ★ **Automatic correction for Summer/Winter time**
- ★ **Easy installation & setup**
- ★ **Software for MS-DOS, Windows 3.1(1) & Win 95**

This simple and robust device receives the Atomic Rugby Clock signal to automatically update your system clock and simply plugs into a 9 pin D type serial port on the back of your computer. Installation takes only minutes using the software supplied, a signal strength indicator allows for quick and accurate installation

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CH52G1	Time-Date ARC Clock	£59.560	£69.990

## Desktop ARC Clock

Galleon Systems

- ★ **Accurate and auditable event logging**
- ★ **Battery back-up for continued operation**
- ★ **Automatic correction for Summer/Winter time**
- ★ **Easy installation & setup**
- ★ **Software for MS-DOS, Windows 3.1(1) & Windows 95**
- ★ **Time, date & signal display**
- ★ **Alarm functions**

This simple and robust device receives the Atomic Rugby Clock signal to automatically update your system clock and simply plugs into a 9 pin D type serial port on the back of your computer. Installation takes only minutes using the software supplied, the signal strength indicator allows for quick and accurate installation

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CH53H1	Desktop ARC Clock	£85.090	£99.990

## Network Desktop ARC Clock

Galleon Systems

- ★ **Choice of software drivers for Novell, Windows NT, DEC or Unix**
- ★ **Accurate and auditable event logging for your computer network**
- ★ **Battery back-up for continued operation**
- ★ **Automatic correction for Summer/Winter time**
- ★ **Easy installation & setup**
- ★ **Time, date & signal display**
- ★ **Alarm functions**

This simple and robust device receives the Atomic Rugby Clock signal to automatically update your

system clock and simply plugs into a 9 pin D type serial port on the back of your computer. Installation takes only minutes using the software supplied, the signal strength indicator allows for quick and accurate installation

Price each shown, but sold only in multiples of 0.

## Cat5 UTP Patch Panels

Net 5

A range of high quality Category 5 UTP patch panels available in 16, 32 and 48 port versions, manufactured in the UK and constructed using Stewart RJ45 connectors and Krone IDCs for guaranteed performance and reliability. Every panel is equipt with cable saddles and hook and loop fasteners for effective cable management. All the panels are designed for use in 19 inch rack systems. A label channel is incorporated into the front panel of each unit and labels can be supplied

free of charge to your requirements by the manufacturer. The module and panel PCBs are certified to TSB40A, DIS11801 and prEN50173. These products carry a 15 year manufacturer's warranty.

Retail Unit Price each (inc. VAT).

CD43W	Cat 5 48 Port Patch	£165.940	£160.750	£154.000	£194.990

## Cat5 Modular Wall Plates

Net 5

A range of single and dual gang modular wall plates for structured wiring systems. The Cat 5 modules are constructed using Stewart or AMP RJ45 sockets and Krone or Katt IDC's for guaranteed performance and reliability. The single gang wall plate will accept two Cat 5 UTP or STP modules or one module and two blanks, which are available separately. The wall plates are designed to give a suitable mounting depth for easy installation when used with all standard 86mm x 86mm UK wall boxes. Modules feature a label carrier for easy imarking and identification.

This product carries a 15 year manufacturers warranty as standard.

Retail Unit Price each (inc. VAT).

VB53H	Net 5 STP Module	£4.240	£4.080	£4.020	£4.990

## AMP Netconnect Concentrators

AMP LAN-line professional Ethernet concentrator. Stands up to the IEEE 802.3 10BASE-T, ECMA80, 81, 82 protocols. Offers maximum flexibility by using 8 UTP unshielded twisted pair ports, each consisting of a cross connection so that the connections to the patch panel or workplace are easy to realise with 1:1 cables. The concentrator can be simply connected to an existing network by using the cascade port. The concentrators are available with a AUJ, COAX twisted pair or fibre optics connection. The ports of the concentrator are tested every 18 milliseconds for correct link connections, collisions, etc. When a link failure occurs, the port is automatically reconnected after the failure is fixed. This offers a minimum LAN downtime. In such a case, only one port is

disconnected, the other users remain on-line. Suitable for mounting in a 19 inch rack. Operates from 230V supply. The LEDs on the concentrator front panel indicate, in turn: transceiver, power, SQE, RX, TX, collision and link.

Retail Unit Price each (inc. VAT).

Order Code	Type 11627	Price each exc. VAT 1+	inc. VAT each 1+
CJ99H	Net Concentrator COAX	£407.130	£478.380

## Network Surge Protectors

Bowthorpe

A range of network surge protectors designed for use as either standalone units or for use with DIN rail mountings for modular installation. Available in BNC (10 Base 2), RJ45 (10 Base T) and Cat 5 RJ45 versions, CH72P, CH73Q and VC25C respectively. Designed to protect your network segment against surges caused by lightning, nearby power systems, power-cross faults, electrical machinery and electro-static discharge.

Retail Unit Price each (inc. VAT).

## Ethernet 16 Series Combo Network Card

High-end ISA combo Ethernet card, faster than existing technology using the newest chipsets and a 16Kb buffer. Can be configured without the aid of jumpers for connection to 10BASE2 BNC and 10BASE-T RJ45. Suitable for connection to 8 and 16-bit computers. Includes software drivers for Netware 386, Netware Lite, LANtastic, MS-LAN Manager, FTP/TCP/IP, Windows for workgroups, SCO unix.

An optional boot ROM (CU84F) for automatic connection to the network is also available. CU85G is Vesa Local Bus model: Connections for AUI, BNC and RJ-45 complete with drivers for Novell Netware, Lan Manager and OS/2.

Retail Unit Price each (inc. VAT).

Order Code	Type 10B16	Price each exc. VAT	inc. VAT each
CU83E	Network Card	£29.770	£34.990
CU85G	Local Bus Net Card	£35.090	£39.990
CU84F	Boot ROM	£8.500	£9.990

## DE-220ECT ISA Combo Card

D-Link

- ★ Jumperless Installation
  - ★ Simple Set-up Program
  - ★ Network Diagnostic Function Included
  - ★ Multiple Ethernet Media Supported
  - ★ Auto-detection of Connected Media
  - ★ Compatible with Netware and Windows
  - ★ Remote Boot Supported
  - ★ Compatible with ISA NE-2000
  - ★ LEDs for Tx, Link, Rx, Collision and Jabber Report
- A high quality cost effective solution for connecting workstations to Ethernet networks. Supplied with a user-friendly menu-driven set-up program for total ease of installation. The adapters are compatible with both 8 and 16-bit ISA slots and auto-detects the slot type. Optional boot roms are available for remote boot from Netware, IBM LAN Server and Microsoft LAN Manager file servers. Support for all major O.S. types is provided, the card can be run directly using NE-2000 drivers if required.

Retail Unit Price each (inc. VAT).

Order Code	Type 13A0E	Price each exc. VAT	inc. VAT each
JT02C	16k Boot Rom	£8.500	£9.990
VL85G	ISA Combo Card	£25.520	£29.990

## DE-220PCT P'n'P ISA Combo Card

D-Link

- ★ Plug-and-Play Installation
  - ★ Complies to P'n'P ISA Specifications v.1.0a
  - ★ On-board EPROM for Configuration Storage
  - ★ Network Diagnostic Function Included
  - ★ Auto-detection of Connected Media
  - ★ Remote Boot Supported
  - ★ Compatible with ISA NE-2000
  - ★ LEDs for Tx, Link, Rx, Collision and Jabber Report
- A cost effective Plug-and-Play solution for connecting workstations to Ethernet networks. Plug-and-Play computers will configure the card without the need for user intervention, older, non P'n'P, systems are catered for with a menu-driven configuration program. Support for most major O.S. types is provided, the card can be run directly using NE-2000 drivers if required.

Retail Unit Price each (inc. VAT).

Order Code	Type 13A07	Price each exc. VAT	inc. VAT each
VL86T	ISA Combo Card PnP	£28.770	£34.990

## DE-530CT+ PCI Combo Card

D-Link

- ★ PCI Local Bus ver. 2.0 Specifications
  - ★ Alleviate Network Bottlenecks
  - ★ High Performance, Direct I/O with Host's Memory
  - ★ Bus Master Operation, Burst Mode Supported
  - ★ Full Duplex Supported
  - ★ Ideal for Servers or DTP/CAD/Multimedia Stations
  - ★ Jumperless Design for Easy Installation
  - ★ Auto-detection of Connected Media Type
  - ★ Diagnostic LED Report
  - ★ Extensive O.S. Support
  - ★ Directly Run DEC's Driver Programs
  - ★ Certified Driver for Windows 95, Windows NT
  - ★ Remote Boot Supported
- This network card is engineered to to unlock the power of systems equip with PCI expansion slots, operating in 32-bit Bus Master mode to reduce CPU utilisation. At 20Mhz full duplex this card provides robust performance for high through-put environments.

Retail Unit Price each (inc. VAT).

Order Code	Type 13A0E	Price each exc. VAT	inc. VAT each
VL87U	PCI Combo Card	£42.540	£49.990

## DFE-500TX PCI Fast 10/100 Network Adapter

D-Link

- ★ Plug and Play Installation
  - ★ EEE 802.3u 100BaseTX, IEEE 802.3 10BaseT
  - ★ NWay Dual Auto-sensing Interface for 10 & 100 Mbs Networks
  - ★ Single RJ45 Socket
  - ★ Complies with PCI Local Bus 2.1 Specs
  - ★ Supports 32-bit Bus Master Operation
  - ★ Supports Full Duplex in both 10 & 100Mbps
  - ★ 4k Receive and 2k Transmit FIFO Buffers
  - ★ 5 Diagnostic LEDs
  - ★ Remote Boot ROM Supported (Not Supplied)
  - ★ Full Driver Support
- This fast PCI adapter features a single RJ45 socket for connection to the network and automatically senses network speed and adjusts to the type of network connected. As a PCI 2.1 compliant device the DFE-500TX features Plug and Play installation. A single set of drivers is supplied to support both 100BaseTX and 10BaseT modes. This adapter uses the bus master burst mode to directly transfer network data between card and the host's memory, by-passing the CPU to reduce workload. An ideal card for demanding servers, graphics stations and CAD stations.

Retail Unit Price each (inc. VAT).

Order Code	Type 13A11	Price each exc. VAT	inc. VAT each
VL88V	100MHz 10-Base-T PCI	£51.050	£59.990

## 3Com Etherlink III Adaptors

With Etherlink III parallel tasking technology – the unique parallel tasking technology makes data transfer 25% faster. Automatic configuration settings. Works according to the Ethernet IEEE 802.3 protocol. Data transfer 10Mbps.

3Com Ethernet cards come complete with software drivers for Novell Personal netware, Netware client server, Netware ODI client, Netware 386 server, Netware 4.X Lanworkplace for DOS, Unixware, Microsoft Windows for workgroups, LAN manager, Windows NT, DEC Pathworks, Sun PC-NFS. Intercon: tcp/connect. IBM: OS/2 LAN server. FTP: PC/TCP: WRQ: Reflections. ARTISOFT: LanTastic, BANYAN: Vines client.

Retail Unit Price each (inc. VAT).

Order Code	Type 10B15	Price each exc. VAT	inc. VAT each
CU75S	ELink Adapt 16 ISA	£32.450	£36.890
CU76H	ELink Adapt 32 MCA	£144.670	£169.990
CU77J	ELink Adapt 32 EISA	£144.670	£169.990
CU78K	ELink Adapt PCI	£212.750	£249.990

### 3Com PCMCIA Etherlink III

3Com Etherlink III PCMCIA (type II) Ethernet card. This card is ideal for 10Base2 (BNC) and 10BaseT (RJ45) and, due to its parallel tasking technology is 110% faster than existing adaptors. Automatic software configuration. Works according to Ethernet 802.3 protocol. Data transfer rate 10Mbps. Comes complete with software drivers for the following networks: Novell Personal Netware, Netware Client Server, Netware OD Client, Netware 386 Server, Netware 4.0 Lanworkplace for MS-DOS, UNIX ware, Microsoft Windows for workgroups, LAN manager, Windows NT, DEC Pathworks, SUN pc-nfs. Intercon: tcp/connect, IBM OS/2 LAN server. FTP: PC/TCP, WRQ reflections. ARTISOFT Lantastic, BANYAN: Vines client. Easy PCMCIA installation.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CU74R 1	PCMCIA Etherlink	£161.690	£189.990

### 3Com Token Link III UTP/STP Adaptors

Token Link III 16/4 16-bit ISA and EISA Token Ring Adaptors.

This NIC (network interface card) is ideal for token ring networks and completely IBM compatible. The adaptor supports 4 and 16Mbps network speeds and is compatible with shielded (STP), unshielded (UTP), and UTP level III cables.

Software auto-configuration makes installation easy (no technical knowledge is necessary) and supports enhanced configuration options such as 8 x IRQ and 32 I/O base addresses. The adaptor is ready to log in to the network immediately after installation.

For 100% IBM compatibility the adaptor is equipped with a token ring chipset compatible with IBM's most recent adaptor drivers. Plug and play.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CU71N 1	T/Link III Adapt ISA	£182.280	£214.190
CU72P 1	T/Link III Adpt EISA	£217.010	£254.990

### 3Com PCMCIA Token Link III UTP/STP Adaptor

16/4 16-bit PCMCIA adaptor. This NIC (Network Interface Card) is ideal for token ring networks and completely IBM compatible. The adaptor supports 4 and 16Mbps network speeds and is compatible with shielded STP, unshielded UTP and UTP level III cables.

Software auto-configuration makes installation easy (no technical knowledge is necessary) and the adaptor is ready to log in to the network immediately after installation.

For 100% IBM compatibility the adaptor is equipped with a token ring chipset compatible with IBM's most recent adaptor drivers. Plug and play.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CU73Q 1	PCMCIA T/Link Adapt	£140.410	£399.990

### PC-ZEN Pocket Adaptor

Simply connect your notebook or laptop computer to the network with this fast, compact PC-ZEN Ethernet adaptor. Simply connect the adaptor to your printer port. No special installation required, thanks to the self configuration capability. Operates according to Ethernet IEEE 802.3 protocol. Has connections for 10BASE-T, RJ45, and 10BASE2. Includes 8Kb S-RAM buffer for very fast internal processing of your data. Data transfer rate 10Mbps. Comes complete with software for Novell, Lansmart, Windows for Workgroups and Netware Lite.

Price each shown, but sold only in multiples of 1.

Order Code	Type	Price each exc. VAT	inc. VAT each
CU96E 1	PC-ZEN Pocket Adapt	£53.560	£69.990

### IBM ISA Token Ring NIC

The 16/4 Busmaster ISA is a high performance token ring adaptor. 4 and 16 Mbps data transfer speeds are supported. This card also supports PCs with RAM memory above 16Mb. Due to this, the card is excellent for servers as well as workstations. The controller operates under the

strict IEEE 802.5/ECMA 89 standard and comes with drivers for 3270, OS/2, Novell, IBM Netware, NDIS and ODI. This card can be used in different network environments, and can be connected to unshielded or shielded twisted pair cables. Easy installation is achieved by using the fully automatic installation software.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
ZE63T 1	IBM ISA T/Ring Adapt	£225.690	£265.190

### AMP Patch Panels

#### AMP Cat-5 24 Port Patch Panel

The AMP CAT-5 24 precision patch panel is used to centralise CAT-5 cables. This patch panel has 24 RJ45 outlets for connecting 4 twisted pairs per connector. The connectors on the patch panel are fully approved by the CAT-5 100Mbps norm. The cables can be easily connected in the 110 cable positions which are colour-coded. Insertion of the pins into their positions is easily carried out by using the AMP 110 insertion tool. For easy installation of the cable, tie wraps are supplied as standard. The patch panel also has cable notice points on the front and rear of each panel. This patch panel is supplied complete with the AMP 110 cable inserts.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CV19V 1	24 Port Patch Panel	£94.620	£111.180

### Testers

#### Ethernet BNC Cable Tester

High quality Ethernet coax cable tester for use with BNC and TNC connectors. The tester checks the cable for shorting (LED shows red) and between shielding and inner cores (a green LED shows if the inside wiring and the shielding are connected on both sides). Power supplied by 9V battery. Includes a luxury case.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CU68Y 1	Ether-BNC Cble Test	£40.790	£47.930

## Twisted Pair Cable Tester

High quality tester for checking and measuring twisted pair cables with RJ-45 connectors. The tester indicates by LEDs whether the cable is 1:1 (green), cross connected (red) or broken (no LEDs lit). It is also possible to make connections via the break out function. Power supplied by a 9V battery. Includes a luxury cover.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CU67X 1	T.Pair Cable Tester	£43.390	£50.990

## Twisted Pair Cable Tester

This high quality RJ-45 cable-tester for twisted pair cables can check pin connections and show by LEDs the type of cable you are using (10 Base T, 356A, 258A). Usable for RJ-45 connectors. Power supplied by a 9V battery. Includes a luxury cover.

Retail Unit Price each (inc. VAT).
