## High Power Twisted Vane

### Redpoint Thermalloy

A twisted vane radiator in matt black finish, pre-drilled to accept almost any flat plastic package device. Overall size: 38 x 28 x 22mm high. Temperature rise: 9.9°C/W.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
FG55K	Powerfin Plastic	£0.515	£0.467	£0.373	£0.860

## TO126 Style

### Redpoint Thermalloy

A miniature extruded heatsink with matt black finish for use with TO126 style packages. A 3.66mm device mounting hole is drilled in the heatsink and a slot is cut where the device leadwires are positioned. Overall size: 7.9 x 19 x 25.4mm. Temperature rise: 28°C/W.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
JR93B	Heatsink TO126	£1.100	£1.030	£0.827	£1.810

## TO202 STYLE

## TO202 Style

### Redpoint Thermalloy

A twisted vane radiator in matt black finish, pre-drilled to accept TO202 style devices e.g. C106D. Overall size: 30 x 12.7 x 45mm long plus mounting lugs. Temperature rise: 13°C/W.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
FG53H	Vaned Heatsink TO202	£0.540	£0.467	£0.373	£0.820

## TO128 STYLE

## BW5-2 Heatsink (TO218)

### Redpoint Thermalloy

A compact heatsink for use with TO218 style packages, giving high dissipation with a reduced footprint. Thermal resistance of 5.8°C/W. Constructed from black anodised aluminium. Devices may be secured with the aid of sprung clips (AX86T), eliminating the need for drilling.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
AX85G	Heatsink BW50-2	£0.800	£0.700	£0.560	£1.300
AX86T	Clip 6801	£0.120	£0.067	£0.053	£0.270

## BW38-2 Heatsink (TO218)

### Redpoint Thermalloy

A compact heatsink for use with TO218 style packages, giving high dissipation with a reduced footprint. Thermal resistance of 7.2°C/W. Constructed from black anodised aluminium. Devices may be secured with the aid of sprung clips (AX86T), eliminating the need for drilling or modifying the heatsink in any way.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
AX84F	Heatsink BW38-2	£0.760	£0.650	£0.520	£1.190
AX86T	Clip 6801	£0.120	£0.067	£0.053	£0.270

## TO220STYLE

## PF720 Heatsink (TO220)

### Redpoint Thermalloy

A miniature, low-cost heatsink which clips onto TO220 style packages. Pressure is applied directly above the junction, maximising thermal transfer. Designed for use without thermal interface grease. Manufactured from aluminium with a black paint finish. Thermal resistance of 28°C/W.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
AZ00A	Heatsink PF720	£0.110	£0.100	£0.080	£0.200

## Clip-On TO220

### Redpoint Thermalloy

A clip-on black anodised heatsink for vertically mounted TO220 devices, with slotted side vanes. A strong, reinforced clip allows maximum heat transfer and an integral locking tab secures the device in position. Temperature rise in centre of heatsink: 25°C per watt. Dimensions: height 18mm, width 22.86mm, thickness including vanes, 9.52mm.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
KU50E	Clip On TO220	£0.220	£0.183	£0.147	£0.420

## For Plastic Package Devices -Clip On

### Redpoint Thermalloy

A low-cost clip-on heatsink for TO220 style devices. The TO220 package is inserted into the clip as far as the dimple and is then retained by the pressure applied directly above the device junction, thus providing optimum thermal transfer. Black anodised finish. Overall size: 25 x 19.05 x 8mm. Temperature rise: 23°C/W.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
FG52G	Clip On TO220	£0.310	£0.267	£0.213	£0.490

## Clip-On Vaned TO220

### Redpoint Thermalloy

Labour saving, clip-on black anodised vaned heatsink for TO220 devices. It can be mounted vertically or horizontally. A strong, reinforced clip allows maximum heat transfer and an integral locking tab secures the device in position. Temperature rise in centre of heatsink: 13.6°C per watt. Dimensions: height 29.44mm, width 25.53mm, thickness including vanes, 15.5mm.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
KU51F	Clip On Vaned TO220	£0.320	£0.267	£0.213	£0.490

Order £30 or above?

Account holder or not, your order will be sent carriage paid.

## PF750 Heatsink (TO220)

### Redpoint Thermalloy

A very low cost heatsink with integral tags for PCB fixing etc. Clips neatly over any TO220 style package to provide 20°C/W power dissipation. Note that this heatsink is not anodised, which makes it possible to solder directly to the heatsink for earthing purposes etc.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2617	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
AX88V	Heatsink PF750	£0.380	£0.320	£0.250	£0.760

## PF430 Heatsink (TO220)

### Redpoint Thermalloy

A compact clip-on heatsink featuring a solderable tag for flow solder PCB assembly. Designed for operation without the need for heatsink compound or grease. Constructed from aluminium with a black anodised finish. Thermal resistance of 25°C/W.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2627	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
AZ01B	Heatsink PF430	£0.560	£0.470	£0.370	£1.090

## HF20 Heatsink (TO220)

### Redpoint Thermalloy

A versatile and efficient extruded heatsink, ideal for use with TO220 style packages. Fixes easily to TO220 devices using a built-in clip. Thermal resistance of 13°C/W.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2616	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
AX87U	Heatsink HF20	£0.800	£0.670	£0.530	£1.420

## Top Mounting TO220

### Redpoint Thermalloy

Can be added to a TO220 packaged device fitted to the low profile heatsink above to provide heatsinking on the top side as well. A special cutout makes space for the plastic encapsulation leaving a flat strip which lies flat on top of the heatsink tab giving the device double-sided cooling. Shaped to mate with low profile heatsink above. Temperature rise in centre of heatsink: 15°C per watt. Dimensions: length 17.78mm, width 44.45mm, height 12.7mm. Channel 12.7mm. Cutout: width 10.67mm, depth 13.46mm.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2616	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
KU47B	Top Mount TO220	£0.220	£0.183	£0.147	£0.360

## Low Profile TO220

### Redpoint Thermalloy

Low profile, black anodised pre-drilled heatsink, large enough for up to two TO220 devices, with slotted side vanes. Designed for mounting flat onto a PCB and can be used with the top mounting part described previously. Temperature rise in centre of heatsink: 7.1°C per watt. Dimensions: length 36.83mm, width 44.45mm, height 9.52mm. Channel 17.78mm. Each mounting hole is 13.21mm from each end.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2612	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
KU48C	Low Profile TO220	£0.380	£0.367	£0.293	£0.600

## Low Profile High Performance TO220

### Redpoint Thermalloy

A low profile, black anodised pre-drilled heatsink for up to two TO220 devices, having folded slotted side vanes. Designed for mounting flat onto a PCB. Temperature rise in centre of heatsink: 6.5°C per watt. Dimensions: length 50mm, width 50mm, height 9.52mm. Channel 24.28mm. Each mounting hole is 10.52mm from each end.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2614	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
KU53H	Hi Performance TO220	£0.380	£0.333	£0.267	£0.600

## High Performance TO220

### Redpoint-Thermalloy

Very high performance 4-sided heatsink pre-drilled for TO220 style devices in black anodised finish. Has a 45.2mm square base. Height of fins 25.4mm. Temperature rise 6°C/W.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2616	Price each exc. VAT			inc. VAT each
		25+	100+	300+	1+
FG61R	Heatsink TO220 EHP	£0.560	£0.467	£0.373	£0.860

## TO220 5-Lead Style

### Redpoint Thermalloy

A twisted vane radiator in matt black finish, pre-drilled to accept 5-lead TO220 (Pentawatt) style devices, e.g. LM383. Overall size: 38 x 28 x 22mm high. Temperature rise: 9.9°C/W.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2602	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
FG54J	Vaned Heatsink Penta	£0.960	£0.917	£0.733	£1.480

## 8-Fin TO220 Heatsinks

Pre-drilled for one TO220 package. Available in two versions:

Length	Overall height	Overall width	No. of packages	semi. Thermal Colour
25mm	12.3mm	35mm	1	13°C/W Matt black
40mm	12.3mm	35mm	1	9°C/W Matt black

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2621	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
KW41U	8 Fin TO220 25mm	£0.260	£0.186	£0.149	£0.600
KW42V	8 Fin TO220 40mm	£0.350	£0.249	£0.199	£0.710

## Centrally Mounting Heatsink for TO220 Semiconductor Packages

Available for a single TO220 package which mounts in the centre of the heatsink, the main areas of heat dissipation being concentrated at the ends. Overall dimensions: 50mm length x 12.5mm height x 43mm width. Manufactured from matt black anodised aluminium alloy, the thermal rating of the heatsink is 6.8°C/W. Pre-drilled for one TO220 package.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2623	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
KW43W	Central Mount TO220	£0.473	£0.394	£0.315	£1.080

## KM50-1 Heatsink (TO220)

Redpoint Thermalloy

A high dissipation heatsink which features threaded slots for board assembly and occupies the minimum of board space due to its predominantly vertical design. TO220 style packaged devices fix easily to this heatsink with the aid of sprung clips (AX93B). Thermal resistance of 5°C/W.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 5025	Price each exc. VAT			inc. VAT each
		10+	25+	100+	1+
AX91Y	Heatsink KM50-1	£1.600	£1.500	£1.200	£2.180
AX93B	Clip 4426	£0.080	£0.050	£0.040	£0.200

## KM100-1 Heatsink (TO220)

Redpoint Thermalloy

A high dissipation heatsink which features threaded slots for board assembly and occupies the minimum of board space due to its predominantly vertical design. TO220 style packaged devices fix easily to this heatsink with the aid of sprung clips (AX93B). Thermal resistance of 2.9°C/W.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 6021	Price each exc. VAT			inc. VAT each
		10+	25+	100+	1+
AX92A	Heatsink KM100-1	£1.980	£1.880	£1.500	£2.730
AX93B	Clip 4426	£0.080	£0.050	£0.040	£0.200

## 1.25GY-50 Heatsink (TO220)

Redpoint Thermalloy

A high quality heatsink designed for both horizontal and vertical mounting. Ideal for use with all TO220 style packages, giving high dissipation at low cost. Constructed from black anodised aluminium. Thermal resistance of heatsink is 6.8°C/W (horizontal) and 8.6°C/W (vertical).

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 6013	Price each exc. VAT			inc. VAT each
		10+	25+	100+	1+
AX83E	Heatsink 1.25GY-50	£1.840	£1.530	£1.220	£2.730

## KL50-1 Heatsink (TO220)

Redpoint Thermalloy

A high quality, high dissipation heatsink designed for use with TO220 style packaged devices. Fixes to TO220 style devices with sprung clips (AX93B), for fast efficient and secure operation. Overhang feature maximises the radiant surface of the heatsink while minimising the actual amount of space required on PCBs. Thermal resistance of 4.4°C/W.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 6018	Price each exc. VAT			inc. VAT each
		10+	25+	100+	1+
AX89W	Heatsink KL50-1	£1.990	£1.800	£1.440	£2.730
AX93B	Clip 4426	£0.080	£0.050	£0.040	£0.200

## KL100-1 Heatsink (TO220)

Redpoint Thermalloy

A high quality, high dissipation heatsink designed for use with TO220 style packaged devices. Fixes to TO220 style devices with sprung clips (AX93B), for fast efficient and secure operation. Overhang feature maximises the radiant surface of the heatsink while minimising the actual amount of vertical space required on PCBs. Thermal resistance of 2.6°C/W. Constructed from aluminium with a black anodised finish.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 6018	Price each exc. VAT			inc. VAT each
		10+	25+	100+	1+
AX90X	Heatsink KL100-1	£2.940	£2.880	£2.300	£4.380
AX93B	Clip 4426	£0.080	£0.050	£0.040	£0.200

## 8W Hi-Fi Heatsink

Dimensions in mm unless otherwise stated. All holes  $\phi 3.5$ .

Designed to bolt to a pcb, the power amp IC then bolts onto this heatsink and a further heatsink may be bolted to it. It is therefore an ideal method of transferring heat from an on-board plastic power device to a large finned heatsink easily. Manufactured in aluminium angle 4.76mm ( $\frac{3}{16}$ in.) thick and black anodised.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 2534	Price each exc. VAT			inc. VAT each
		10+	25+	100+	1+
HQ81C	8W Hi-Fi Heatsink	£0.650	£0.250	£0.200	£2.510

## 50W Hi-Fi Heatsink

As 8W Heatsink, but longer and designed for two plastic power transistors or power ICs.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 2537	Price each exc. VAT			inc. VAT each
		10+	25+	100+	1+
HQ89A	50W Hi-Fi Heatsink	£0.600	£0.500	£0.400	£3.500

## TO3 STYLE

### For Case Style TO3 - Basic Radiator

Redpoint Thermalloy

A basic fin radiator in matt black finish, pre-drilled to accept a standard TO3 transistor. Overall size: 44.5 x 31.5 x 14mm high. Temperature rise: 11°C/W

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2514	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
FG50E	Basic TO3 Fin	£0.460	£0.383	£0.307	£0.600

### Low Profile TO3

Redpoint Thermalloy

Space saving black anodised vaned heatsink for TO3 style devices. The design conforms to the diamond TO3 case style, using very little extra space on the board. Temperature rise in centre of heatsink: 6.9°C per watt. Overall dimensions: length 47.76mm, width 35.56mm, height 25.4mm.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2517	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
KU45Y	Low Profile TO3	£0.500	£0.417	£0.333	£0.710

### High Power Twisted Vane for TO3

Redpoint Thermalloy

A vaned radiator in matt black finish, pre-drilled to accept a standard TO3 transistor. Overall size: 47mm long, 43mm wide x 50mm high. Temperature rise: 4.2°C/W. Not suitable for use with mounting kit WR24B.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2519	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
FG51F	Powerfin TO3	£0.800	£0.667	£0.533	£1.300

## Call and Collect

At all our stores nationwide. See the maps at the front of the catalogue for the nearest one to you.

**6-Fin TO3 Heatsinks (Type V)**

Available in two versions.  
Pre-drilled for one or two TO3 package devices.

Length	Overall height	Overall width	No. of semi. packages	Thermal rating	Colour
50mm	18.4mm	66mm	1	5.4°C/W	Black
100mm	18.4mm	66mm	2	3.4°C/W	Black

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
KW44X	50mm	£1.018 £0.848	£1.078 £2.19C
KW45Y	100mm	£1.964 £1.837	£1.310 £2.73C

**Centrally Mounting TO3 Heatsinks (Type X)**

The semiconductor(s) are mounted centrally and horizontally. The base of the heatsink will fit flush against a flat surface and as a result is suitable for PCB mounting, the leads from the package being soldered on the other side. Available in three versions. Pre-drilled for one, two, or three TO3 package devices.

Length	Overall Height	Overall Width	No. of semi. packages	Thermal rating	Colour
50mm	25mm	86mm	1	2.90°C/W	Black
100mm	25mm	86mm	2	1.35°C/W	Black
150mm	25mm	86mm	3	1.30°C/W	Black

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
KW46A	50mm	£2.063 £1.715	£1.372 £2.73C
KW50E	100mm	£3.457 £2.881	£2.305 £7.14C
KW50E	150mm	£5.197 £3.351	£3.465 £8.13C

**Centrally Mounting TO3 Heatsinks (Type Y)**

A range of heatsinks where the semiconductor(s) are mounted centrally and horizontally. From a side view the heat dissipating device is centrally mounted, sufficient clearance for its lead-outs being provided when the heatsink is chassis mounted. Available in two versions. Pre-drilled for one or two TO3 package devices.

Length	Overall Height	Overall width	No. of semi. packages	Thermal rating	Colour
50mm	36mm	91.4mm	1	2.75°C/W	Black
100mm	36mm	91.4mm	2	1.75°C/W	Black

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
KW47B	Central TO3 50mm Y	£2.440 £2.030	£1.620 £3.610
KW51F	Central TO3 100mm Y	£4.280 £3.570	£2.860 £5.480

**Heatsinks for Multiple TO3 Packages (Type W)**

The semiconductors are mounted on the two end panels, the main area of heat dissipation being in the middle section. Available in two versions. Pre-drilled for two, or four TO3 package devices.

Length	Overall height	Overall width	No. of semi. packages	Thermal rating	Colour
50mm	44mm	130mm	2	2.1°C/W	Black
100mm	44mm	130mm	4	1.33°C/W	Black

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
KW49D	Multiple TO3 50mm	£3.180 £2.650	£2.120 £5.480
KW53H	Multiple TO3 100mm	£5.440 £5.360	£4.290 £7.680

**10-Fin TO3 Heatsink (Type Z)**

There are 10 fins on this heatsink, 9 are devoted to dissipating heat while the tenth, which is mounted at 180° to the rest, accommodates the semiconductor package(s). Three versions are available. Pre-drilled for one, two, or three TO3 package devices.

Height	Overall Length	Overall Width	No. of semi. packages	Thermal rating	Colour
50mm	75mm	69.4mm	1	2.20°C/W	Black
100mm	75mm	69.4mm	2	1.39°C/W	Black
150mm	75mm	69.4mm	3	1.00°C/W	Black

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
KW48C	10 Fin TO3 50mm	£2.330 £1.940	£1.550 £4.710
KW52G	10 Fin TO3 100mm	£3.940 £3.280	£2.620 £6.580
KW55K	10 Fin TO3 150mm	£7.220 £6.860	£5.490 £8.790

**High Power 'T' Slotted**

Redpoint Thermalloy

An efficient, general purpose symmetrically finned heatsink where the two outer pairs of fins, on both sides, feature integral 'T' slots 4.7mm wide for locating screw heads. With these the heatsink can be attached to panels, supported on pillars or carry PCBs. One side of the central device mounting section has a pair of thick longitudinal fins 22.2mm apart. Holes are provided for two TO3 devices to be mounted upon the other side. Centre of heatsink is 6.4mm thick. Width 130.2mm, length 101.6mm, depth 31.8mm. Thermal rating 1.2 C/W. Black anodised finish.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

## Type 9SV

Redpoint Thermalloy

A very high power heatsink in extruded aluminium. Black anodised and with holes punched to accept up to 8 TO3 packages. Dimensions 127 x 85 x 229mm long. Temperature rise in centre of heatsink: 0.45°C/W.

Price each is shown. Order quantities less than 5 will be sold at the one off inc. VAT price.

Order Code	Type 2555	Price each exc. VAT			inc. VAT each
		5+	10+	25+	1+
XJ66W 4	Heatsink Drilled	£24.250	£21.500	£19.950	£29.990

## UNDRILLED HEATSINKS

### Bonded IC Heatsink

Redpoint Thermalloy

A black anodised finned heatsink designed for 14 and 16 pin dual-in-line ICs. The heatsink may be attached using contact adhesive or similar at each end, and for best results it should be smeared with heatsink compound in between. Temperature rise in centre of heatsink: 68°C per watt. Dimensions: length 19.05mm, width 6.35mm, height 4.83mm. Fins are orientated longitudinally.

Price each is shown. Order quantities less than 5 will be sold at the one off inc. VAT price.

Order Code	Type 2561	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
KU44X	Bonded Heatsink	£0.270	£0.240	£0.210	£0.390

### Large Bonded IC Heatsink

Redpoint Thermalloy

A black anodised finned heatsink for 24, 28, and 40 pin dual-in-line ICs. Requires no extra board space. The heatsink may be attached using contact adhesive or similar at each end, and for best results it should also be smeared with heatsink compound in between. Temperature rise in centre of heatsink: 38°C per watt. Dimensions: length 31.75mm, width 13.46mm, height 4.83mm. Fins are longitudinal.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 2563	Price each exc. VAT			inc. VAT each
		25+	100+	1000+	1+
KU49D	Lrg Bonded Heatsink	£0.390	£0.350	£0.305	£0.560

## Type 4Y

Redpoint Thermalloy

Plain undrilled aluminium heatsink. Dimensions: Width: 60mm (2.4in.); Length: 102mm (4in.); Thickness: 16mm (0.63in.); Temperature rise in centre of heatsink: 3.3°C/W.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 2532	Price each exc. VAT			inc. VAT each
		10+	25+	100+	1+
FL41U	Heatsink 4Y	£1.650	£1.450	£1.410	£3.480

## High Power Types – Type 2E

Redpoint Thermalloy

Plain undrilled aluminium heatsink. Dimensions: Width: 80mm (3.15in.); Length: 51mm (2in.); Thickness: 30mm (1.2in.); Temperature rise in centre of heatsink: 2.4°C/W.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 2528	Price each exc. VAT			inc. VAT each
		10+	25+	100+	1+
HQ70M	Heatsink 2E	£3.300	£2.600	£2.350	£4.980

## Flat Type

Redpoint Thermalloy

Plain undrilled aluminium heatsink ideal for printed circuit boards and suitable for external mounting on equipment.

Dimensions: Width: 94mm (3.7in.); Length: 152mm (6in.); Thickness: 14mm (0.6in.); Temperature rise in centre of heatsink: 1.8°C per watt.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 2544	Price each exc. VAT			inc. VAT each
		10+	25+	100+	1+
FL42V	Flat Heatsink	£4.300	£3.950	£3.350	£6.860

## Type 6W-1

Redpoint Thermalloy

Plain undrilled aluminium heatsink. Dimensions: Width: 130mm (5.1in.); Length: 152mm (6in.); Thickness: 32mm (1.25in.); Temperature rise in centre of heatsink: 1.1°C/W.

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type 2548	Price each exc. VAT			inc. VAT each
		10+	25+	100+	1+
FL77J	Heatsink 6W-1	£6.400	£5.600	£5.300	£8.490

## COOLING MODULES

### PELLIER

### Peltier Heat Pumps

Supercool AB

The thermoelectric Peltier effect is the most direct way to utilise electricity to pump heat. The material used in these pumps is made from bismuth telluride, doped to obtain P- and N-type properties. A number of these P- and N- type pairs (couples) are thermally connected in parallel, and electrically connected in series and sandwiched between ceramic plates. When connected to a suitable DC power supply, the passing current causes heat to be transferred from one side of the module to the other. A cold side and a hot side are now created. The cold side can be attached to any object or device that needs controlled cooling. By reversing the current flow through the pump you reverse the cooling effect. Typical applications can include scientific and medical instrumentation, microprocessors, charged coupled devices, spot cooling of laser etc. Efficiency is improved by connecting the hot side to a heatsink which will dissipate heat to the environment. The pumps are lightweight, completely silent, have no moving parts, and are very reliable. They generate very little, if any electrical noise and can provide precision temperature control if necessary, and additionally, be used in a vacuum or weightless environments, with liquids, air or solid surfaces and in any orientation.

Maximum temperature differential ( $\Delta T$  max)

between the cold and warm side of a Supercool single-stage module is up to 72°C at warm side temperatures of 25°C or ΔT = 81°C at a warm side temperature of 50°C. By increasing the number of stages in a cascade arrangement, then the maximum ΔT is also increased.

**Specification**

Order Code	I max (A)	U max (V)	Pc max (W)	Δt max (°C)
DT78K	3.4	3.8	7.6	71
DT79L	3.9	8.8	19.7	71
DT80B	6.1	8.8	31.3	71
DT81C	6.1	15.7	56.0	71

Pc max = Cooling effect at ΔT=0

ΔT max = Temperature difference (warm surface less cold surface) at a warm side temperature of 25°C and Pc=0.

800C is maximum warm side temperature.

**Dimensions mm**

Order Code	A	B	H	L	S (mm <sup>2</sup> )
DT78K	15	15	3.8	150	0.20
DT79L	20	20	3.6	150	0.20
DT80B	30	30	3.9	150	0.35
DT81C	40	40	3.9	300	0.35

L = lead length; S = surface area

Price each is shown. Order quantities less than 5 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
DT78K	Supercool 7.6W	£17.680	£16.680
DT79L	Supercool 19.7W	£20.370	£19.180
DT80B	Supercool 31.3W	£27.240	£25.570
DT81C	Supercool 56W	£34.460	£32.210

## Thermoelectric Cooling Systems

Supercool

These compact, thermoelectric cooling systems offer a convenient and environmentally friendly method of cooling small enclosures or surfaces. Both types provide 20W of 'practical' cooling, that is components, or an electronics enclosure producing 20W of heat will be maintained at ambient temperature. The systems feature brushless, high quality fans equipped with ball-bearings as standard, with an average service life in excess of 30,000 hours at 35°C

Type AA20 (DT82D) is an Air-to-Air cooler and is suitable for small electronic enclosures or similar applications, such as automotive, or portable and laboratory refrigerators up to 10 litres. The cooler is easy to install, requiring an aperture 98 x 66mm. When installed the enclosure will remain hermetically sealed.

Type DA20 (DT83E) is a Direct-to-Air cooler designed for solid surfaces such as processors, disk drives, heatsinks and small enclosures e.g CCTV, CCD etc. The cold plate is applied to the object to be cooled using screws and silicon thermal grease.

**Specification (both types)**

Voltage working:	12V DC
Current:	2.9A
Power input:	35W
Weight:	0.9kg
Dimensions	
AA20:	107 x 84 x 140mm
DA20:	97 x 65 x 83mm
AA20 aperture:	98 x 66mm
DA20 Cooling plate:	62 x 40mm

Price each is shown. Order quantities less than 5 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
DT82D	Air/Air Cooler 20W	£153.560	£149.120
DT83E	Direct Cooler 20W	£122.020	£118.640

## PC / CPU HEATSINKS

### 486 CPU Heatsinks

Repoint Thermalloy

A range of low-profile heatsink designed specifically for use as 486 CPU coolers, or for use with other devices having PGA size 17 x 17 or 18 x 18.

Type	Dimensions mm	Pin fin matrix	Convection °C/W
2321B	42 x 43 x 9	12 x 13	10.0
2333B	44.6 x 46 x 16.5	12 x 14	7.2

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
AZ02C	Heatsink 2321B	£1.270	£1.140
AZ04E	Heatsink 2333B	£2.450	£2.200

## THERMAL COMPOUND/GLUE

### Heat Transfer Compound

Electrolube

Heat transferring grease having about 31/2 times the thermal transmission of ordinary silicone grease. The material is non-irritant except to the eyes. In the case of such contamination wash freely with water until the smarting stops. Supplied in a box with syringe-type applicator for accurate and wasteless placement of the compound. Available in either 35ml, 10ml or 2ml syringes.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
HQ39N	Heat Trans Comp 35ml	£3.380	£3.220

Price each is shown. Order quantities less than 12 will be sold at the one off inc. VAT price.

Order Code	Type	Price each exc. VAT	inc. VAT each
FL79L	Heat Trans Comp 10ml	£1.920	£1.430
HQ00A	Heat Trans Comp Tube	£1.260	£0.940

## Output Kit

Loctite

A thermally conductive adhesive which cures rapidly at room temperature. It is designed for bonding electronic components to heat sinks or PCBs. The high thermal conductivity provides excellent heat dissipation.

**Kit contains:**

- ★ 25ml adhesive 315 in syringe
- ★ 18ml activator in brush top bottle

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YC06G	Output Kit	£26.190	£25.200

## FANS

### AXIAL

#### Brushless 12V DC Axial Fans

A range of 12V DC axial fans with plastic housings and blades to UL49V-0. These fans have brushless motors for long life. Slimline style. Connection is by 300mm flying leads, red is positive, blue is negative.

##### Specification

Type:	40mm
Operating Voltage:	10-2V to 13-8V
Rated Voltage:	12V
Current:	160mA
Noise Level:	35dBA
Max Airflow:	210 litres/min
Continuous Life:	20000 hrs @ 40°C
Operating Temperature:	-10°C to +70°C
Insulation Resistance:	10MΩ @ 500V DC
DC Dielectric Strength:	5mA @ 500V AC
Weight:	40g
Overall Size:	40 x 40 x 20mm

Fixing Centres: 32 x 32 x dia 3-5mm

##### Specification

Type:	60mm
Operating Voltage:	10-2V to 13-8V
Rated Voltage:	12V
Current:	200mA
Noise Level:	35dBA
Max Airflow:	420 litres/min
Continuous Life:	60000 hrs @ 40°C
Operating Temperature:	-10°C to +70°C
Insulation Resistance:	10MΩ @ 500V DC
DC Dielectric Strength:	5mA @ 500V AC
Weight:	110g

Overall Size: 60 x 60 x 25-5mm  
Fixing Centres: 50 x 50 x dia 4-2mm

##### Specification

Type:	80mm
Operating Voltage:	10-2V to 18-8V
Rated Voltage:	12V
Current:	180mA
Noise Level:	31dBA
Max Airflow:	900 litres/min
Continuous Life:	60000 hrs @ 25°C

Operating Temperature: -10°C to +70°C  
Insulation Resistance: 10MΩ @ 500V DC  
DC Dielectric Strength: 5mA @ 500V AC  
Weight: 140g  
Overall Size: 80 x 80 x 25-5mm  
Fixing Centres: 71-5 x 71-5 x dia 4-5mm

##### Specification

Type:	92mm
Operating Voltage:	10-2V to 13-8V
Rated Voltage:	12V
Current:	300mA
Noise Level:	35dBA
Max Airflow:	1200 litres/min
Continuous Life:	60000 hrs @ 25°C
Operating Temperature:	-10°C to +70°C
Insulation Resistance:	DC 10MΩ @ 500V DC
DC Dielectric Strength:	5mA @ 500V AC
Weight:	150g
Overall Size:	92 x 92 x 25-5mm
Fixing Centres:	82-5 x 82-5 x dia 4-5mm

Type: 120mm  
Operating Voltage: 10-2V to 13-8V  
Rated Voltage: 12V  
Current: 380mA  
Noise Level: 42dBA  
Max Airflow: 2200 litres/min  
Continuous Life: 60000 hrs @ 25°C  
Operating Temperature: -10°C to +70°C  
Insulation Resistance: 10MΩ @ 500V  
DC Dielectric Strength: 5mA @ 500V AC  
Weight: 200g  
Overall Size: 119-5 x 119-5 x 25-5mm  
Fixing Centres: 104-8 x 104-8 x dia 4-5mm

##### Retail Unit Price each (inc. VAT).

Order Code	Type 1818	Price each exc. VAT			inc. VAT each
		1+	10+	25+

YZ39N	92mm 12V Fan	£10.840	£8.120	£6.810	£12.740
YZ40T	120mm 12V Fan	£12.140	£9.310	£7.910	£14.270

## 230V Mains

A 230V ac mains axial fan for cooling, extraction, intake, ventilation etc. Available in two standard sizes 80mm (3in.) and 120mm (4 1/2in.). The fans feature an impedance protected shaded-pole motor with a sintered iron sleeve bearing. The frame is diecast aluminium with steel impeller all finished in black epoxy paint. The 120mm unit has five blades and the 80mm has nine blades.

The 120mm fan has solder tag connections and one fixing hole is 2BA (M5) clear for earth connection. The 80mm fan has 280mm flying leads for connection inside equipment only, and a hole in the chassis is tapped M4 for earth connection.

##### Specification

	80mm	120mm
Power consumption	13W	22W
Continuous life	20,000 to 40,000 hours	at 40°C

Motor current	85mA	140mA
Stall current	105mA	180mA
Noise level	33dBA	45dBA
Max. airflow	28CFM	80CFM
Speed	2700rpm	2650rpm
Overall size	80 x 80 x 38mm	119 x 119 x 38mm
Fixing centres	71-5 x 71-5	105 x 105
Operating temp	4-5mm clear	-10°C to +60°C

## ADHESIVES

### ADHESIVES - INDUSTRIAL

#### Prism 401 Instant Adhesive

Loctite

A single part general purpose instant adhesive. Within five seconds ceramics, aluminium, leather, fabrics and paper products are fixtured. Mild steel surfaces take ten seconds. Supplied in a 20g bottle.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
YC15R	Prism 401 Adhesive	£13.600	£12.870	£12.490	£15.990

#### Prism 406 Instant Rubber Adhesive

Loctite

A single part instant adhesive for the rapid bonding of rubber and plastics. Even EPDM rubber takes just five seconds to fixture. Nitrile and neoprene take only one second.

Bonds polyolefins, silicone rubber and PTFE when used with primer 770.

Supplied in a 20g bottle.

Price each shown, but sold only in multiples of 0.

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
YC18U	Prism 406 Adhesive	£13.600	£12.870	£12.490	£15.990

#### Prism 454 Instant Adhesive Gel

Loctite

Use general-purpose Prism 454 where greater control is required or where parts are not close fitting. Applied as a clear gel, this multi-use adhesive does not drip or run - even when applied overhead - and is not absorbed by porous materials e.g. wood and cork. Supplied as a 20g tube.

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
YC17T	Prism 454 Adhesive	£15.650	£14.740	£14.300	£18.390

#### Prism 460 Low Odour, Low Bloom Adhesive

Loctite

Prism 460 can be used on delicate and electronic assemblies without fear of 'blooming'. It produces little or no odour or fumes which means that it can safely be used alongside optical equipment and in confined areas with poor ventilation.

Supplied in a 20g bottle

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
YC16S	Prism 460 Adhesive	£15.570	£14.740	£14.300	£18.300

#### Prism 480 Tough Instant Adhesive

Loctite

Prism 480 is a black rubber toughened, thermally-resistant formulation instant adhesive. It is recommended for small metal parts where the bond must endure heavy peel loads. It is the toughest of the advanced Prism 'instant' adhesives and has a high resistance to humidity. Supplied in a 20g bottle.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
YC14Q	Prism 480 Adhesive	£13.600	£12.870	£12.490	£15.990

#### Prism 770 Polyolefin Primer

Loctite

Bonding plastics like polypropylene, polyethylene, PTFE, silicones and many thermoplastic elastomers, require surface ionization pretreatment of the bond surfaces. Loctite 770 primer has been developed to activate these plastics for successful bonding. Best results are obtained with the combination of 770 (primer) and 406 (adhesive).

This primer also acts as an activator and speeds up the cure time to less than five seconds. Supplied in 10g bottle with applicator brush.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
YC19V	Polyolefin Primer 770	£9.500	£9.130	£8.900	£11.170

#### Superglue

Permabond

A fast, high viscosity cyanoacrylate adhesive that has a handling time of 8 to 20 seconds for plastics and rubber and 20 to 40 seconds for metals.

Development of strength is very rapid, 50% of the ultimate strength is achieved in one hour. The durability of joints is good, particularly where plastic and rubber components are concerned.

The adhesive is applied sparingly to one surface, usually one drop is sufficient, and the components are brought together quickly and correctly aligned. Sufficient hand pressure is applied to ensure the adhesive spreads into a thin film. The joint must not be disturbed or realigned until curing is achieved, normally in a few seconds. It is strongly recommended that polythene gloves are used when applying the adhesive. Available in 20g containers.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	30+	1+
BA08J	Superglue 20g	£14.160	£12.690	£12.120	£16.640

#### Fast Superglue

Permabond

A very fast, low viscosity cyanoacrylate adhesive designed for bonding some of the more difficult rubbers and plastics, or when exceptionally fast cure is required. Usually one drop applied to one surface is sufficient - curing times are 1 to 5 seconds for rubber and plastics, and 5 to 10 seconds for metal.

Development of strength is very rapid, 50% of the ultimate strength is achieved in one hour. It is strongly recommended that polythene gloves are used when applying the adhesive. Available in 20g containers.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	30+	1+
BA09K	Fast Superglue 20g	£14.160	£12.690	£12.120	£16.640

#### Axiom 100 SA Acrylic Adhesive

Bostik

Bostik's Axiom 100 SA reactive bonding system is solvent free and a new concept in high performance bonding. It is ideal for creating an effective, highly impact resistant bond on many plastics, metal, glass, etc. When cured it is tolerant of oily surfaces and will safely bond heat sensitive substrates. To use, simply apply adhesive to most porous surface and the activator to the other (using the brush contained within its lid) so providing an open time of up to 30 minutes if required. Working time is approximately 15 seconds of bringing the two surfaces into contact. Hyperbond builds up structural bond strength rapidly at room temperatures, reaching handling strength in minutes, full cure in 24 hours and involves no mixing or waste. Pack contains one 70g tube of adhesive, one 10ml

## Superfast Epoxy Resin

Devcon

A superfast epoxy resin from Devcon that sets in 5 minutes; an item can be handled in 15 minutes with full bond strength in 1 hour. The epoxy resin comes in either a twin plunger dispenser or in two separate bottles/ either 28g or 256g.

Using the plunger dispenser: pressing the plunger dispenses equal amounts of clear resin and hardener. Using the two tubes: equal amounts of clear resin and hardener must be squeezed separately from each tube. The epoxy hardens at room temperature to an opaque finish and is resistant to most chemicals.

Retail Unit Price each (inc. VAT).

## ADHESIVES - GENERAL

### Super Attak Instant Glue

Loctite

Ideal for a multitude of uses around the home and office. Bonds metal, card, wood, china and most rigid plastics in seconds. Supplied as a 5g bottle with non-clogging nozzle and as the Super Attak Matic dispenser which allows accuracy and precise control of the glue.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	12+	36+	1+
YC23A	Super Attak Matic	£2.200	£2.050	£1.990	£2.530
YC26D	Super Attak 5g	£2.550	£2.370	£2.300	£3.000

### Super Attak Gel

Loctite

Formulated as a thick gel for gluing vertical surfaces or where there is a possibility of running. Suitable for porous materials or where there are larger gaps. Bonds metal, card, wood, china and most rigid plastics in seconds. Supplied as 3g tube with non-clogging nozzle and as the Super Matic dispenser.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	12+	36+	1+
YC25C	Super Attak Matic Gel	£2.550	£2.370	£2.300	£3.000
YC24B	Super Attak Gel	£2.120	£1.990	£1.940	£2.500

### Cyanoacrylate Adhesive

A one part adhesive which forms a very strong bond in a matter of seconds. The adhesive is suitable for virtually all materials except polyethylene, polypropylene, Teflon (PTFE) and very porous surfaces. Apply the adhesive to one surface only. Align surfaces then bring them together quickly applying light finger pressure. For very small bond areas spread glue by lightly rubbing components together once or twice, but once bond is established do not break it (adhesive cures in a few seconds depending on material, but in general do not handle for 10 minutes). Supplied in 3g tubes.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	50+	1+
FL46A	Cyanoacrylate 3g	£0.859	£0.708	£0.562	£1.010

### Super Glue 4

Bostik

A cyanoacrylate adhesive that forms an instant and permanent bond on rubber, metal, jewellery, porcelain, most plastics and more. Super Glue is not suitable for use on polypropylene, absorbent surfaces (such as fabric or paper) or for items that contain hot liquids, food or drink. Note: extreme caution must be exercised when using this product as it will bond human skin and eyes in seconds. Pack contains one 5ml (approx) bottle with a safety cap.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BP13P	Superglue Safety	£2.450	£2.060	£1.950	£2.890

### 5-Pack Cyanoacrylate Adhesive

Permabond

A single part, solvent free, rapid curing adhesive, that sets in seconds. The adhesive is applied sparingly to one surface (usually one drop is sufficient), the components are brought together and by applying sufficient hand pressure to ensure the adhesive spreads into a thin film, curing is achieved. The durability of joints is generally good, particularly, where plastics and rubber components are concerned. Supplied in packs of 5 x 5g bottles.

Price each shown, but sold only in multiples of 1.

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	30+	1+
BA07H	Cyanoacrylate 5Pk	£16.810	£15.560	£14.250	£19.760

### Spray Glue

Servisol

A spray glue that is able to be used on wood, metal, plastics, rubber, glass, paper, card, vinyl and felt. Before use it is advisable that the spray is tested on the substances being used as the solvents can affect some types of plastic. To assist in spraying, the orientation of the spray nozzle is adjustable. Normal safety precautions must be taken with this pressurised can and must be kept out of reach of children. Supplied in 400ml can. COSHH information is available.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	12+	36+	1+
CC85G	Spray Glue	£3.080	£2.560	£2.380	£3.630

**Urgent Requirement?**

Call and collect from your local Maplin store.

## All Purpose Adhesive

Bostik

This is the original strong, clear adhesive that will stick most household materials including wood, metal, leather, most plastics, china and more. Ideal for household repairs, crafts and office use, a thin film of glue applied evenly to both surfaces (or a generous amount applied to one surface on porous materials) will form a strong bond. Not suitable for polythene, polypropylene, polystyrene, rayon or acetate and must not be used on items that contain hot liquid. Available in two sizes – Standard (approx 20ml) or Economy (approx 58ml).

Retail Unit Price each (inc. VAT).

Order Code	Type 10308	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BPO4E	All Purpose Glue Std	£1.090	£0.925	£0.870	£1.290
BPO5F	All Purp Glue Econy	£1.600	£1.360	£1.280	£1.890

## Solvent Free All Purpose Adhesive

Bostik

This new version of Bostik's famous all purpose adhesive is solvent free and gives off no addictive vapours. It's safe and easy to use and suitable for wood, paper, leather, fabric, china and much more. This adhesive must not be used to repair pottery handles or items that hold hot liquids. The adhesive is white in colour but dries clear. Pack contains one 58ml (approx) tube.

Retail Unit Price each (inc. VAT).

Order Code	Type 10305	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BPO6G	AllPurp Glue SolvFre	£1.600	£1.350	£1.280	£1.890

## Wood Adhesive Rapide

Bostik

This rapid bonding and powerful wood adhesive can be used for a wide variety of applications both inside and outside the home. It is ideal for general household repairs and DIY and will also bond windows, external doors, walls and other wooden joints. To use, just clean and dry the surfaces to be bonded, apply the adhesive to one or both surfaces, bring them together within 5 minutes and hold firmly or clamp for a further 10 minutes.

Available in two sizes – 250ml or 500ml.

Retail Unit Price each (inc. VAT).

Order Code	Type 10311	Price each exc. VAT			inc. VAT each
		1+	12+	24+	1+
BPO2C	Wood Glue 250ml	£2.940	£2.750	£2.580	£3.460
BPO3D	Wood Glue 500ml	£3.890	£3.690	£3.270	£4.580

## Hot-Melt Glue Gun

Bostik

The Hot-Melt Glue Gun, with its easy trigger action, is the fast and easy way to apply small quantities of hot glue exactly where you need it. Other features include a safety warning light, constant thermostatic control and a retractable stand that keeps the gun upright when not in use.

The gun can be used with All Purpose Glue Sticks (suitable for PVC, metal, fabric, leather, tiles and brick) or Woodworking Glue Sticks (for all woodworking applications including veneers, joints, beading, toys, mouldings and furniture).

To use, load the appropriate glue stick through the grip ring at the rear of the gun and press the trigger several times until the stick is positioned firmly in the gun. Plug in the gun and allow it to warm up for around 5 minutes. Aim the nozzle at the prepared surface and press the trigger until the glue flows from the nozzle, applying it to one surface. Press the surfaces together within 15 seconds and the glue will bond – clamps and other holding devices are not needed. Unplug the gun and trim away any surplus glue with a knife.

The pack contains the Hot-Melt Glue Gun with mains lead and 3A fused plug fitted and a clip on stand. This pack does not include any Glue Sticks, they are available separately.

Retail Unit Price each (inc. VAT).

BP09K	Woodwork Glue Stick	£2.110	£1.730	£1.640	£2.490

## Araldite Rapid

A quick setting version of the famous two part epoxy resin glue made by Araldite. Suitable for bonding almost all materials in common use; metals, wood, rubber, earthenware, glass and most plastics except polythene. Araldite sets with virtually no shrinkage and joints are resistant to chemical attack and provide a seal which is impervious to moisture, electrically insulating and a protection against electrolytic corrosion. Supplied in two 16g tubes, one containing the resin and one the hardener. The tubes are supplied in a pack with detailed instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type 4051	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+

## Extra-Fast-Setting Adhesive

Permabond

A two part epoxy resin adhesive that sets in 3 to 5 minutes. Supplied in a 3.5g sachet simply cut off the end and squeeze out. Sachet contains exactly the correct proportional amounts of the resin and hardener to ensure a perfect mix. Stir the two parts together with stick (supplied) and apply immediately to both surfaces to be bonded then hold tightly together for a few minutes. Within one hour bond reaches a considerable strength, but is not completely cured for 24 hours. Can also be used as a filler.

Retail Unit Price each (inc. VAT).

Order Code	Type 4002	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FL45Y	Double Bubble Sachet	£0.859	£0.749	£0.510	£1.010

## Double Bead Extra Fast Epoxy Resin

Permabond

The easy way to use extra-fast setting epoxy adhesive. Two syringes, containing equal amounts of resin and hardener, are used to dispense equal amounts for mixing and give 25ml of mixed adhesive. The adhesive sets in 3 to 5 minutes and reaches a working strength in about 30 minutes. Suitable for bonding a wide variety of materials such as metals, plastics, wood, ceramics and concrete, and for filling gaps and voids.

Retail Unit Price each (inc. VAT).

Order Code	Type 4093	Price each exc. VAT			inc. VAT each
		1+	10+	30+	1+
BA11M	Twin Syringe Epoxy	£3.260	£2.870	£2.550	£3.840

## Fast Setting Epoxy Resin

A quick setting two part epoxy resin supplied in two tubes (resin and hardener). The resin is suitable for use with metal, porcelain, glass, wood, stone and concrete. Surfaces to be joined should be clean and free from dust and grease. Smooth surfaces (such as metal) should be sandpapered to provide a 'key' for the adhesive. Resin will begin to set in 5 minutes, usable bonding strength reached in 15 to 60 minutes.

Retail Unit Price each (inc. VAT).

Order Code	Type 4088	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
JL92A	Epoxy Resin 15g	£1.290	£1.020	£0.936	£1.520
EM08J	Epoxy Resin 40g	£1.720	£1.520	£1.430	£2.030

**Fast Setting Clear Epoxy Resin**

A quick setting two part epoxy resin that dries clear with superior strength. The joint is stronger than many other types of adhesive and is resistant to fuel, oil and water. Ideal for bonding metal, wood, china, glass, fibreglass and rigid plastic, the adhesive begins to harden in 4 to 5 minutes. Supplied in two tubes or bottles and in combined weights of 28g, 112g, and 224g packs. A slower setting version is available that has a higher strength, the setting time being half to one hour, available only in 168g packs.

Retail Unit Price each (inc. VAT).

Order Code	Type 4200	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
KC17T	Speed Epoxy 28g	£3.020	£2.230	£2.130	£3.56H
KC19V	Speed Epoxy 112g	£5.630	£4.780	£4.430	£5.62H
KC20W	Speed Epoxy 224g	£7.370	£6.090	£5.650	£8.660
KC21X	One Hour Epoxy 168g	£6.500	£5.370	£4.970	£7.640

**Magic Bond Epoxy Putty**

Devcon

Fast, easy and permanent repairs and patches for holes, gouges and scratches in metal, concrete, wood, fibreglass and ceramics. Holed your vessel by mistake? This epoxy putty will work on damp or wet surfaces – even under water. Tanks, drums, pipes and castings can also be repaired. Just cut off the length required, knead till mixed thoroughly and then apply to the required spot. The epoxy hardens after 20 to 30 minutes and after 60 minutes the repaired item can be put back into service.

Retail Unit Price each (inc. VAT).

		1+	10+	25+	
KER2D	Magic Bond 114g Stk	£3.190	£2.860	£2.680	£3.750

**Flexible Rubber Sealant**

A ready-to-use one part paste which when cured forms a tough flexible rubber seal. Adheres to most surfaces and has excellent electrical insulating and waterproofing properties. It is ideal for making watertight, electronic equipment used outdoors. Supplied in an 78g tube with plunger.

Retail Unit Price each (inc. VAT).

Order Code	Type 4050	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
YJ81Y	Flex Rubber Sealant	£3.720	£3.170	£2.970	£4.380

**ADHESIVES - THREADLOCKING**

**Threadlocking Adhesives**

Loctite

Loctite threadlockers are single-component liquid adhesives which completely fill the gaps between interfacing threads. They cure to a tough solid by anaerobic reaction (in the absence of air) and prevent any movement of the threads, sealing against corrosion and leakage. The threadlockers also act as a lubricant on the threads during assembly, enabling torques to be set with precision. A range of strengths is available:

**Screwlock 222**

A lighter strength, screwlock 222 replaces nylon patches, star washers and spring washers on screws and other threaded fittings where easy dismantling is required, e.g. with a screwdriver. Curing is moderate to fast and is good for most metal surfaces. Supplied in 10ml bottle.

**Nutlock 243**

Medium strength Nutlock 243 replaces nylon insert nuts lock nuts, deformed threads, star washers, spring washers, castellated nuts and tab washers for all general purpose threadlocking. Only ordinary spanners are needed to undo fasteners. Cures rapidly. Supplied in 10ml bottle.

**Studlock 270**

Use high strength Studlock 270 to replace nylon patches and interference studs.

It also removes the need for blind holes for studs in oil filled castings. For use on any fastener where high removal torques are required.

Rapid curing. Supplied in 10ml bottle.

Retail Unit Price each (inc. VAT).

Order Code	Type 12506	Price each exc. VAT			inc. VAT each
		1+	12+	36+	
YC10L	Screwlock 222	£4.020	£3.820	£3.700	£4.730
YC11M	Nutlock 243	£4.230	£4.020	£3.890	£4.980
YC12N	Studlock 270	£4.030	£3.830	£3.710	£4.740

**Threadlock**

Permabond

An anaerobic adhesive designed for locking and sealing threaded metal parts. Handling strength is reached after 10 to 25 minutes and full strength after 24 hours. Supplied in a 10ml bottle.

Retail Unit Price each (inc. VAT).

Order Code	Type 4051	Price each exc. VAT			inc. VAT each
		1+	10+	30+	
BA13P	Threadlock	£3.970	£3.270	£3.050	£4.670

**ADHESIVES - RETAINER**

**Oil-Tolerant Retainer 603**

Loctite

Retaining adhesives allow total surface contact thus eliminating backlash, corrosion and fretting. They demonstrate lubricant properties during assembly enabling easy slip fitting of parts. Their strength is maintained over a range of clearances, allowing worn or scored parts to be reused without machining. Retainer 603 can replace or augment interference fits, pins, splines, keys and screws. Can be used on as-received parts. Use to fit oil impregnated bushes, restores or strengthens press fits of shafts, bushes, rotors and similar cylindrical parts

Retail Unit Price each (inc. VAT).

Order Code	Type 12514	Price each exc. VAT			inc. VAT each
		1+	12+	36+	
YC13P	Oil Titrant Retn 603	£4.230	£4.020	£3.890	£4.980

**Retainer**

Permabond

An anaerobic adhesive designed for retaining metal parts, i.e. bushes, studs, bearings, etc. Applied straight from the bottle, the components are brought together (and by doing so air is excluded) and then, and only then, will the curing process commence. The components can be handled after 10 to 25 minutes and a full strength bond is reached after 24 hours. Supplied in a 10ml bottle.

Retail Unit Price each (inc. VAT).

Order Code	Type 4054	Price each exc. VAT			inc. VAT each
		1+	10+	30+	
BA12N	Retainer	£3.970	£3.270	£3.050	£4.670

**ADHESIVES - SUNDRIES**

**Dispensing Nozzles**

Loctite

Suitable for either anaerobic or cyanoacrylate type adhesives.

The blue plastic needle is for fine flow and the green plastic needle for medium flow.

These needles are a tight push-fit onto most of the Loctite adhesive bottles. Supplied in a pack of 10.

Retail Unit Price each (inc. VAT).

DF18U	25 Masking Tape 50M	£1.290	£0.926	£0.738	£1.520

### Double Sided Tape

A 4.5m long roll of 50mm wide general purpose adhesive tape with adhesive applied to both sides.

Retail Unit Price each (inc. VAT).

Order Code	Type #11937	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
DF19V	Double Sided Tape	£1.120	£0.770	£0.681	£1.320

## PVC Insulation Tape

Strong, self-adhesive flame resistant PVC insulation tape. Width: 19mm. Length: all colours including black: 4.6m reel. Alternative black only: 20m reel. Breakdown voltage: 7500V. Insulation resistance:  $10^{14} \Omega/\text{cm}$ . Thickness: 0.15mm. VDE Approved. Available in Black, Blue, Green, Red, White, Yellow and Green/Yellow.

Retail Unit Price each (inc. VAT).

Order Code	Type #1096	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FM84F	20m Black PVC Tape	£0.859	£0.708	£0.624	£1.010
FT20W	4.6m Black PVC Tape	£0.391	£0.333	£0.292	£0.460
FT21X	4.6m Blue PVC Tape	£0.391	£0.333	£0.292	£0.460

FT23A	4.6m Red PVC Tape	£0.391	£0.333	£0.292	£0.460
FT24B	4.6m White PVC Tape	£0.391	£0.333	£0.292	£0.460
FT25C	4.6m Yellow PVC Tape	£0.391	£0.333	£0.292	£0.460
FC94C	20M Grn/Yel PVC Tape	£0.842	£0.680	£0.600	£0.990

## Gaffer Tape

A very tough, self-adhesive, synthetic fibre tape which can be used for sealing boxes, binding cables or securing them, joining carpets, temporary repairs and the like. It is 50mm wide and is supplied on 50m long reels. Available in silver, black and white.

Retail Unit Price each (inc. VAT).

Order Code	Type #1097	Price each exc. VAT			inc. VAT each
		1+	12+	24+	1+
KW31J 1	Gaffer Tape Black	£5.200	£3.790	£3.390	£6.110
KW33L 1	Gaffer Tape Silver	£5.200	£3.790	£3.390	£6.110
KW32K 1	Gaffer Tape White	£5.200	£3.790	£3.390	£6.110

## Yellow/Black Hazard Tape

Used for marking factory floors, gangways or hazardous zones. This 50mm wide tape has an aggressive pressure sensitive adhesive, good abrasion resistance and conformability together with minimum creep-back. It is self-extinguishing if it catches fire. Comes in a 33m roll.

Retail Unit Price each (inc. VAT).

Order Code	Type #11934	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
GU58N	Yell/Blk Hazard Tape	£6.930	£5.990	£5.450	£8.150

## Aluminium Tape

A self-adhesive, 30µm thick aluminium tape 25mm wide which has many applications, particularly within the field of electronics and electrics. For example, it can be used for PCB repair, screening enclosures and circuits susceptible to RFI, and when applied to windows it can be used as a very cost-effective 'broken window detector' for security systems. Supplied on a reel containing 4.6m of tape.

Retail Unit Price each (inc. VAT).

Order Code	Type #1098	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
KW30H	Aluminium Tape	£1.550	£1.160	£1.070	£1.830

## Self-Amalgamating Tape

A very useful derivative of insulating tape which can be used for waterproofing connections. To use, the top protective layer is peeled off and the rubbery self-amalgamating tape underneath is wrapped tightly around the connection to be waterproofed. Eventually, the layers of this tape will merge together and create a waterproof seal. This tape is highly recommended for automotive work and also aerial installations, particularly those for satellite TV where cables enter the LNB and polariser. The tape is in black, 19mm wide and is supplied on 10m reels.

Retail Unit Price each (inc. VAT).

Order Code	Type #1099	Price each exc. VAT			inc. VAT each
		1+	10+	36+	1+
KW29G	Self Amalgamate Tape	£4.330	£3.120	£2.700	£5.090

## P.T.F.E. Thread Sealing Tape

12mm wide white P.T.F.E. screw thread sealing tape for threading pipe joints, e.g. water, etc.. Thickness of tape is 0.075mm. Not recommended for gas joints. Supplied on 12m rolls.

Retail Unit Price each (inc. VAT).

Order Code	Type #1100	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RJ45Y †	PTFE Thread Tape	£0.425	£0.333	£0.270	£0.500

We endeavour to hold stocks at all Maplin and Maplin Mondo stores, but to be sure, please phone before travelling. See front of catalogue for addresses and telephone numbers

**CLEANING**

**CLEANING - ANTISTATIC**

**Antistatic Spray**

*Electrolube*

A water based antistatic spray in a pump action container, used for nullifying static charge problems. Supplied in a 250ml bottle.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	12+	36+	1+
YB79L	Antistatic Spray	£3.390	£2.950	£2.700	£3.996

**Antistatic Foam Cleanser**

*Electrolube*

In addition to its ability to remove general grease and grime this foaming cleanser has lasting antistatic properties, defeating static charges, eliminating dust attraction and preventing the advent of further static charges for long periods. Particularly suitable for all hard surfaces and crackle finish paints. If in doubt about its suitability for a particular surface, test a small area first before using. Supplied in 200ml and 400ml aerosol cans.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
YB59P	Foam Cleanser 400ml	£2.220	£2.120	£2.000	£2.620
YB76H	Foam Cleanser	£1.690	£1.610	£1.400	£1.960

**Carterclene**

*Electrolube*

An extremely powerful, highly efficient anti-static foaming cleanser for surfaces prone to static dust attraction which has specially developed for use on plastics, metal, glass and synthetic surfaces. This product is free of CFC solvents and propellants. Available in 400ml aerosol.

Retail Unit Price each (inc. VAT).

FC23A	Safeclene 2000	£15.200	£14.430	£12.530	£17.860

## Safecleans

**Electrolube**

An anti-static cleaner particularly for VDU and TV screens, etc. It is approved by manufacturers of anti-glare coatings. Used in conjunction with Safewipes it removes dust, dirt, finger marks and nicotine stains whilst at the same time eliminating static charges. This reduces eye-strain and errors caused by a blurred display. It would also be most useful for cleaning the glass of photocopiers, microfilm readers and lenses, and will also remove typewriter ribbon ink from the hands. Supplied in 250ml aerosol can.

Retail Unit Price each (inc. VAT).

## Floppiclene Disc Drive Head Cleaning Kits

**Electrolube**

Research has shown that 85% of read/write malfunctions are caused by contaminated heads. This system overcomes this problem efficiently and economically. Disposable cleaning discs eliminate the problems of cross-contamination and re-contamination. The wet/dry cleaning action safely removes deposits from all double sided diskette drives. (Not suitable for single sided drives). Use once every two weeks and whenever errors occur to keep disc drive in peak condition.

**Contents:**

- 1 Instruction leaflet
  - 1 Headclene magnetic head cleaning fluid pump spray 70ml
  - 1 Clamshell cartridge to suit drive
  - 10 Cleaning discs to suit clamshell
- Kits available for 3.5" and 5.25" drives.

means fast service and best value for money

## Driveclene 8mm Drive Kit Wet/Dry

### Electrolube

Keeps tape drives performing to specification. Regular cleaning removes dust particles and tape residue. The solvent (included) is applied to the cleaning tape by means of a foam pad, thus giving a wet/dry action whilst solvent use is kept to a minimum. Best results are obtained when the tape is used with Isoclene cleaning fluid but the tape can be used without solvent if desired. Supplied tape cartridge is designed to perform 12 cleaning operations only.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JE07H	Driveclene 8mm	£11.230	£13.200

## Driveclene 4mm Drive Cleaning Tape

### Electrolube

Keeps tape drives performing to specification. Regular cleaning removes dust particles and tape residue from head and tape path. Supplied tape will perform about 75 cleaning operations depending on drive model.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JE08J	Driveclene 4mm	£7.540	£8.860

## CLEANING - GENERAL

## Aqueous Foam Cleaner

### Electrolube

An ozone friendly biodegradable foam cleanser for removing flux and heavy contamination from PCBs, and electromechanical assemblies. It is recommended that 'Saferinse 2000' KR71N be used to remove the foam cleaner. Supplied in a 400ml aerosol can. Contains no CFC.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KR70M	Saferinse 2000	£6.130	£7.210

## Rinsing Solution

### Electrolube

A non-flammable biodegradable rinsing solution for use with 'Saferwash 2000'. The solution is used to remove all foam and contaminant residue and drying may be assisted with 'Airduster' KR69A. Supplied in a 400ml aerosol can. Contains no CFC.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KR71H	Saferinse 2000	£4.630	£5.450

## PCB Cleaner

### Electrolube

An aerosol solvent especially for removing contaminants and oxidation from printed circuit board conductors, and removing flux residues that result from soldering operations. Before using on plastics, test a small area first. Supplied in 200ml and 400ml aerosol cans.

Retail Unit Price each (inc. VAT).

## ECS+ Electronic Cleaning Solvent

### Electrolube

A 200ml can of super-fast evaporating solvent for cleaning and degreasing applications. Removes flux, grease, oil and other common contaminants, leaving a residue-free finish. It is recommended that a small area be tested beforehand if plastic surfaces are to be cleaned. Supplied with application brush. 100% ozone-friendly. Also available as standard 400ml aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FC02C	Supriscan Solvnt	£3.850	£4.530
FC04E	Supriscan 400ml	£6.230	£7.330

## IPA Electronic Cleaning Solvent

### Electrolube

A 400ml spray can containing 99.7% pure isopropyl alcohol, designed for the cleaning of electronic equipment, PCBs and delicate instruments. Safe on most plastics, it leaves no residue. 100% ozone-friendly. Supplied with tube for directing spray at a specific point. Also available in 1ltr bulk pack.

Retail Unit Price each (inc. VAT).

## Degreasing Solvent

**Electrolube**

A fast drying, non-toxic electronic cleaning and degreasing solvent which leaves no residue. Intended for delicate electronic and electrical components and contacts, and also precision rubbers etc. Supplied in a 200ml aerosol can, a 400ml aerosol can with brush and a 1ltr bulk pack. Contains flammable solvent so do not spray onto live electrical equipment or other sources of ignition.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DM90X	Ultraclean	£3.370	£3.210	£2.790	£3.970

FC29G	Ultraclean 1Ltr	£9.200	£8.740	£7.590	£10.810

## Glass Cleaner

**Servisol**

A CFC free aerosol spray for cleaning glass. The chemical is sprayed onto glass and wiped away with a lint-free cloth leaving no residue. It is advisable to observe the warnings on the can as this spray is inflammable. Keep out of the reach of children.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	12+	36+	1+
JP37S	Glass Cleaner	£1.990	£1.740	£1.640	£2.340

## Foam Cleanser

**Servisol**

Remove dirt, grease and stains, with this aerosol spray containing no CFCs. The chemical is sprayed onto the surface and left for 15 to 20 seconds then wiped away leaving the surface clean and fresh. It also contains antistatic properties to prevent the accumulation of dust. As the contents are inflammable keep away from naked flames and observe the warnings printed on the side of the can. Supplied in 400ml cans.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	12+	36+	1+
JP18U	Foam Cleaner	£1.990	£1.740	£1.640	£2.340

## Contact Cleaner

**Servisol**

Switch and contact cleaning aerosol spray. When applied the chemical quickly removes tarnish, dirt, grease, dust, oil and other deposits. It also prevents arcing between dry contacts. Before applying ensure that the power is always removed from switches etc. This product is inflammable. Inaccessible areas are accessed by the extension nozzle supplied with the can. Due attention must be given to the warnings printed on the side of the can. Sold in 176ml cans.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	12+	36+	1+
JP17T	Switch Cleaner	£1.990	£1.880	£1.660	£2.340

## CLEANING - SUNDRIES

### Airduster

**Electrolube**

Pure compressed inert gas for removal of dust and airborne contamination from very delicate or inaccessible areas of electrical and electronic equipment. Supplied in a 400ml standard aerosol can and a 200ml invertible aerosol can. Contains no CFC.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
BP35Q	Airduster	£12.260	£11.640	£10.110	£14.410
FC05F	Elec Clean Solv 1Ltr	£6.690	£6.350	£5.520	£7.870

### Sprayduster

**Electrolube**

Simply contains a microscopically clean, inert gas which is non-toxic, non-flammable and non-corrosive, for use as a pressurised gas jet for clearing accumulated debris, dust and fluff from otherwise inaccessible nooks and crannies of radio and TV chassis, variable capacitor assemblies and similarly difficult and sensitive areas where any alternative attempt at cleaning may cause damage. Supplied in 125ml aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
BP36P	Sprayduster	£5.080	£4.830	£4.190	£5.980

## Label Remover (with Brush)

**Electrolube**

Quickly and efficiently removes paper based pressure sensitive adhesive labels from a variety of surfaces. Simply spray or wipe on, leave in contact for 5 minutes and then peel off the label. Harmless to most plastics, rubbers, elastomers and surface coatings when used as directed. Test sensitive plastics on a small area first and do not use on polystyrene. Product is flammable so keep away from sources of ignition. Contains no CFC. Supplied in a 200ml aerosol can with application brush.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
FC20W	Label Remove + Brush	£3.290	£3.120	£2.710	£3.670

## Label Remover

**Servisol**

A non-CFC spray from Servisol for removing adhesive labels, although it is not suitable for some types of plastic labels. The chemical is sprayed onto the label and allowed to soak in for approximately 5 minutes - then simply peel away. Before use test the surrounding material as the product may affect some plastics and other delicate materials. This product is flammable so keep away from sources of ignition. Note the warnings printed on the side of the can. Supplied in 200ml cans. COSHH information is available.

Retail Unit Price each (inc. VAT).

## CLEANING - HAND CLEANSING

## Fast Orange Hand Cleaner

### Loctite

A range of hand cleaners that are completely biodegradable as well as being kind to the skin. All harmful petroleum pollutants have been replaced by a combination of citrus oil, jojoba oil, lanolin and aloe to moisturise the skin and keep hands free from irritation. Fast Orange can be safely used with or without water, and leaves hands smelling fresh and natural. Removes dirt, grease, grime, resin, inks, paints, cement and tar. Available in sizes 400ml and 3ltr with pumice granules and 200ml as a smooth lotion.

Retail Unit Price each (inc. VAT).

## LUBRICATION

### LUBRICATION - CONTACTS

## Contact Cleaner Lubricant Pen

### Electrolube

Identical with the aerosol electro-mechanical lubricant below, but in the form of a pen containing 5ml.

Retail Unit Price each (inc. VAT).

Order Code	Type #182	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
FM77J	Switch Cleaner Pen	£1.600	£1.510	£1.310	£1.880

## Contact Cleaner Lubricant

### Electrolube

An electro-mechanical lubricant in aerosol form. It consists of a solvent suspended oil for use where a thin film of contact lubricant is required having good penetrating and cleaning properties. It is safe to use on all metals and most plastics and rubbers. Uses pentane propellant. Available in 200ml and 400ml aerosol cans.

Retail Unit Price each (inc. VAT).

Order Code	Type #163	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DM85G	Switch Cleaner	£3.840	£3.650	£3.170	£4.520
FC19V	Switch Clear 400ml	£6.230	£5.920	£5.140	£7.330

## Contact Lubricant

### Electrolube

An extra high quality contact treatment oil for preserving long term reliability and performance. It is antistatic, and safe to use on most plastics, paints and rubbers. Supplied in 200ml aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type #164	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DM86T	Contact Lubricant	£8.030	£7.630	£6.630	£9.440

## Contact Treatment Grease

### Electrolube

A grease version of the contact treatment oil DM86T. A high quality, non-melting, tenacious grease giving better protection for vertical surfaces, sliding contacts and connections than DM86T. It is antistatic and is safe on most plastics, paints and rubbers. Supplied in 200ml aerosol can and 35ml syringe for precise application.

Retail Unit Price each (inc. VAT).

Order Code	Type #165	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DM87J	Contact Grease	£4.460	£4.240	£3.680	£5.250

## High-Performance Dry Lubricant

### Electrolube

A long term, high performance dry lubricant for precision mechanical assemblies in regular use. It may be used lubricating sprocket wheels, ball races, gears and axles on items such as printers and photocopiers. It has antistatic properties and hence aids the prevention of accumulated dust build up. It may also be used for cleaning and lubricating gold contacts on edge connectors and for cleaning and protecting relays, particularly from silicone contamination. Highly flammable so use away from sources of ignition. Supplied in 200ml aerosol can.

Retail Unit Price each (inc. VAT).

## LUBRICATION - GENERAL

### General Purpose Oil

#### Electrolube

A high quality, low viscosity oil for general purpose use. Excellent lubrication and penetration characteristics. Supplied in 250ml can with dispensing spout.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JL76H	General Purpose Oil	1+ 5+ 10+ £2.930 £2.790 £2.640	1+ £3.450

### Clear Mechanical Oil

#### Electrolube

A multi-purpose, light machine oil of very high quality and performance. Ideal for delicate mechanisms, yet is designed to meet high temperature and extreme pressure conditions. Contains non-staining Molybdenum Disulphide additives for long life, tenacity and exceptional anti-wear protection. Supplied in 200ml aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DM92A	Aerosol Mech Oil	1+ 5+ 10+ £3.110 £2.950 £2.560	1+ £3.660

We endeavour to hold stocks at all Maplin and Maplin Mondo stores, but to be sure, please phone before travelling. See front of catalogue for addresses and telephone numbers

### Dry Film Lubricant

#### Electrolube

A special colourless dry lubricant (PTFE) with excellent anti-stick and mould release characteristics. Non-oily, extremely pure, chemically inert even at high temperatures. Does not affect plastics. Supplied in 200ml aerosol can. Uses pentane propellant.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DM93B	Dry Film Lubricant	1+ 5+ 10+ £5.620 £5.340 £4.640	1+ £6.610

### Silicone Grease

#### Electrolube

A high quality, tenacious, electrically insulating compound which is resistant to water and extremes of temperature. It has the property of preventing high voltage tracking, arcing or corona discharge. It makes an excellent releasing agent whilst casting resin in a mould, for example. Will not harden with age. Supplied in 200ml aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DM91Y	Silicone Compound	1+ 5+ 10+ £4.010 £3.810 £3.310	1+ £4.720

### Multi-Purpose Grease

#### Electrolube

A general purpose grease for use in many mechanical and electro-mechanical applications. It has a wide temperature range and good lubrication and thermal properties. Supplied in a tube of 50ml.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FM80B	Tube of Grease	1+ 5+ 10+ £1.140 £1.080 £0.939	1+ £1.340

### Anti-Seize Paste

#### Electrolube

A corrosion inhibitor which, when applied, will help prevent the seizing of mechanical components due to progressive rusting or oxidation. The threads of

screws, nuts and bolts are the most obvious candidates for such treatment. Supplied in a 2g syringe.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FM82D	Syringe Anti-Seize	1+ 5+ 10+ £1.320 £1.260 £1.090	1+ £1.560

### Precision Oiler

This hypodermic oil is the answer to those difficult lubrication problems. The amount of oil dispensed is controlled by squeezing the plastic dispenser. The oil can be easily refilled and the dispensing tip is protected by cover and pen top style lid. The dispenser contains a high quality lightweight oil.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GU95D	Precision Oiler	1+ 10+ 25+ £2.590 £2.300 £2.150	1+ £3.050

### Super Lube Pen

#### Loctite

Super Lube is a patented, multi-purpose, synthetic lubricant containing Teflon particles held in suspension. The lubricant features:

- ★ Excellent thermal and oxidation stability.
- ★ Contains no wax or silicone.
- ★ Contains anti-oxidants and rust inhibitors, protects against moisture and corrosion.
- ★ Odourless, clean and non-staining - food grade U.S.D.A. rated H1.

Supplied in a handy 7g pen dispenser complete with pocket clip.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YC22Y	Super Lube Pen	1+ 12+ 36+ £2.790 £2.670 £2.600	1+ £3.280

### Silicone Grease

A tube of good quality silicone grease for gear boxes and other moving parts of all types of racing models. All models should be kept well greased at all times.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JG00A	Silicone Grease	1+ 25+ 100+ £1.370 £1.070 £0.968	1+ £1.620

**LUBRICATION - MOISTURE DISPERSANTS**

**Permagard 40**

**Electrolube**

Similar to the popular 'WD40' type general purpose lubricant. As such Permagard lubricates, penetrates, disperses and replaces water, frees tight components, and forms a protective film over metal surfaces to protect them from the effects of oxidation. It is electrically insulating and ideal for automotive applications (for example, driving damp out of HT leads, preventing tracking between battery terminals due to condensation, cleaning and recovering electrical connections) and other electrical appliances which find themselves most used or stored out of doors. It is instrumental in recovering the reliability and smooth action of all types of switches. Supplied in 250g aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type #153	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
YJ47B	Permagard 40	£2.380	£2.270	£2.150	£2.800

**Max Oil 3**

This is a high performance spray lubricating oil with PTFE. The oil also acts as an inert barrier to water and dirt including salt water. The oil can be used safely on all metals, painted or chromed surfaces and GRP. There are no White Spirit or any other Aromatic Hydrocarbon solvents contained in the product.

Retail Unit Price each (inc. VAT).

Order Code	Type 11926	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BP01B	Max Oil 3	£3.390	£3.100	£2.950	£3.990

**WD-40 All-Purpose Lubricant**

The legendary WD-40 all-purpose light oil and solvent, which lubricates, penetrates, disperses and replaces water, frees tight components and forms a protective film over metal surfaces to protect them from oxidation. Electrically insulating, and resists tracking up to 12kV. Ideal for all automotive servicing applications; will drive damp out of HT leads and immediately restore normal engine running; protects battery terminals, cleans and recovers all types of electrical connections and switches.

As a penetrating lubricant it frees any type of sticky mechanism. Use it to recover the smooth action of locks, padlocks, door catches; the joints of pliers, secateurs, shears, and switches of any type. Eliminates annoying squeaks in door, gate and car door hinges. Squirt WD-40 into your car locks to make them ice-proof in the winter. WD-40 is also a powerful cleaning agent, dissolving crayon, grease, tar, gum, adhesive and hard water deposits. It can be used to clean machine parts prior to maintenance or repair, and will even clean your hands afterwards! Supplied in aerosol cans in the following sizes: 100ml, 200ml and 400ml. Contains no CFCs. Warning: contains 78% petroleum, extremely

flammable. Flash point 43°C. Under no circumstances apply to hot surfaces or expose to a naked flame.

Retail Unit Price each (inc. VAT).

Order Code	Type #182	Price each exc. VAT			inc. VAT each
		1+	12+	36+	1+
ZF08J	100ml WD-40	£1.170	£1.070	£1.020	£1.380

ZF10L	400ml WD-40	£2.510	£2.310	£2.190	£2.960

**PCB CONSUMABLES**

**PCB - ADHESIVES**

**Thermal Bonding Compound**

**Electrolube**

A metal-oxide loaded two part epoxy bonding system having excellent thermal conductivity while being electrically insulating. Ideal for bonding to heatsinks etc. Supplied in two syringes and applied in the ratio 3 parts of Part A (colour blue) to 1 part of Part B (colour cream). Contains 20ml total.

Retail Unit Price each (inc. VAT).

FA81C	Thermalbond Compound	£7.140	£6.780	£6.430	£8.390

**Output Kit**

**Loctite**

A thermally conductive adhesive which cures rapidly at room temperature. It is designed for bonding electronic components to heat sinks or PCBs. The high thermal conductivity provides excellent heat dissipation.

- Kit contains:**
- ★ 25ml adhesive 315 in syringe
  - ★ 18ml activator in brush top bottle

Retail Unit Price each (inc. VAT).

YC06G 1	Output Kit	£26.190	£25.200	£24.600	£30.780

**Tak Pak Kit**

**Loctite**

An instant adhesive for wire tacking and component mounting. Tak Pak Kit gives excellent performance on substrates used in PCB assemblies. Tak Pak high viscosity instant adhesive with activator cures in seconds at room temperature. Withstands high temperature and thermal cycling. Use for wire tacking and anchoring and component

mounting.

- Kit contains:**
- ★ 20g adhesive 382
  - ★ 25ml spray activator 7455
  - ★ 2 dispensing needles

Retail Unit Price each (inc. VAT).

YC07H	Tak Pak Kit	£19.260	£19.170	£18.430	£22.640

**Black Tak Kit**

**Loctite**

A tough instant adhesive for strain relief and mounting larger components to PCBs. Black Tak adhesive with activator cures fast at room temperature and provides tough joints resistant to high temperature. Withstands impact shocks, cleavage loads and stresses caused by thermal shock. Uses include mounting large components to PCB, strain relief large components, elimination of lead stress on high profile components, strain relief on cable connections and reinforcement of terminal wires.

- Kit contains:**
- ★ 20g adhesive 4105
  - ★ 25ml spray activator 7455
  - ★ 2 dispensing needles

Retail Unit Price each (inc. VAT).

YC08J	Black Tak Kit	£20.720	£19.170	£18.430	£24.350

**Tempflex Kit**

**Loctite**

A completely non-corrosive sealant adhesive paste for use on corrosion sensitive substrates. The single component translucent paste cures at room temperature to form a high strength flexible rubber. Adhesion to metals, plastics, ceramics and glass is excellent. Tempflex meets MIL A 46146B, Group II, Type 1. The flexible material properties remain constant from -55°C to +300°C and withstand long term exposure at 250°C. Especially designed for critical applications on military, industrial and automotive electronics under harsh environments. Uses include stress relief, bonding PCBs to housings, sealing and gasketing electrical devices, protecting and encapsulating corrosion sensitive parts and repairing silicone rubber gaskets.

- Kit contains:**
- ★ 40ml adhesive sealant 5145 in tube
  - ★ 2 dispensing needles

## PCB - COATINGS

### Clear Protective Lacquer

#### Electrolube

A general purpose convenient coating designed to protect PCB's from environmental attack. Also ideal for protecting ferrous metals from corrosion. Gives a high quality glossy finish, good resistance to humidity, good surface resistivity and circuits can be resoldered through the lacquer. 100% Ozone Friendly. Supplied in 200ml aerosol.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YB75S	PCB Lacquer	1+ £3.180 5+ £3.020 10+ £2.620	1+ £3.740

### Acrylic Conformal Coating

#### Electrolube

A flexible transparent acrylic Conformal coating which can be used to protect printed circuit boards and sensitive electronic circuitry from the effects of humidity and corrosion. Ideal for sealing EHT and high voltage conductors, and can be used for additionally insulating automotive HT circuits against the weather, for example. Does not crack or discolour, conforms to international specifications. Disappears quickly and easily on the application of a soldering iron, hence the circuit is not difficult to service or modify afterwards. Supplied in a 400ml aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DM82D	Acrylic Conf Coating	1+ £6.400 12+ £4.690 36+ £3.670	1+ £7.530

### High Performance Acrylic Conformal Coating

#### Electrolube

A flexible transparent acrylic coating specially formulated for the protection of electronic circuitry to meet the highest defence and aerospace industry requirements. Possesses excellent adhesion under all climatic conditions. It is resistant to mould growth and has a temperature range of -60 to +130°C. It has excellent dielectric properties and is fluorescent under ultra-violet light as an aid to inspection. Can be soldered through without fear of highly toxic gases being produced e.g. isocyanates. It is non-corrosive to cadmium and zinc plate (contains no phenols). It can be totally removed with 1,1,1 trichloroethane. Supplied in 200ml aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YT50E	HPA Conformal Coat	1+ £6.700 12+ £5.340 36+ £4.030	1+ £7.880

### Very High Temperature Conformal Coating

#### Electrolube

A flexible, transparent modified silicone resin conformal coating specially formulated for the protection of electronic circuitry to meet the highest defence and aerospace industry requirements. Possesses excellent adhesion under all climatic conditions and is resistant to a wide range of solvents. Excellent resistance to mould growth and ultra-violet light. Wide temperature range from -70 to +200°C.

The coating produces a high gloss finish, exceptionally low oxygen permeability and high surface resistivity. It has good dielectric properties at all frequencies, and is fluorescent under ultraviolet light as an aid to subsequent inspection. Can be soldered through without fear of highly toxic gases being produced, e.g. isocyanates. Non-corrosive to cadmium and zinc plate (contains no phenol). Supplied in 200ml aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YP74R	-70+200 Conformal	1+ £7.390 12+ £5.390 36+ £4.460	1+ £8.690

### Silicone Removable Coating

#### Electrolube

A silicone conformal coating designed to protect printed circuit boards exposed to high humidity environments. Excellent resistance to mould growth, tropical conditions and UV light. A UV trace is included within the coating to allow easy and reliable post-coating inspection. The stronger the reflected light, the thicker the coating layer.

The coating is specially formulated to be easily removed with most common solvents. **Electrolube Ultrasolve (ULS)** is ideal. Supplied in a 400ml aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FC25C	Silicone PCB Coat	1+ £12.500 5+ £11.870 10+ £10.310	1+ £14.690

### Peelable Coating Mask

#### Electrolube

A flexible, solvent resistant latex for masking components, connectors and other items prior to applying a conformal coating, to ensure that sensitive items, and areas requiring further processing are not coated. The mask can be applied to adjustable pots, IC sockets etc. to prevent ingress of coating. The high film strength of the mask means that it can be peeled away by hand without breaking or leaving residues. Note that this product contains ammonia and therefore must be allowed to dry in a well-ventilated area. Supplied in 250ml bottles.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YT48C	Peelable Coat 250ml	1+ £5.420 12+ £3.990 36+ £3.550	1+ £6.370

### Bloc'Lube

#### Electrolube

A one part, air drying, tamper evident seal for screws, nuts, tuneable items and other "factory fixed" components where evidence of unauthorised access is required. It is also ideal for application onto rotary controls to ensure that settings do not move under vibration loads etc. Available as 15ml bottle with integral brush in colours red or green.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FC36P	BlocLube Red	1+ £2.050 5+ £1.960 10+ £1.860	1+ £2.420
FC37S	BlocLube Green	1+ £2.050 5+ £1.960 10+ £1.860	1+ £2.420

## PCB - ETCHING

### Press-n-Peel PCB Transfer System

Create high precision professional PCB layouts quickly and easily. These 8 1/2" x 11" ("letter" setting on printers) sheets are designed for use with Laser printers or photocopiers. Print directly from a graphics program or photocopy (after reversing the image as necessary) onto the sheet. Then simply iron onto a copper-clad board using your domestic iron (steam setting not recommended). Leave to cool for a few minutes then peel the sheet from the board leaving the layout ready to be etched as normal. Supplied in a pack of 5 sheets.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

**PCB Starter Kit**

Press-n-Peel

A comprehensive kit of parts to produce professional looking PCBs easy and quickly. The kit includes the 'Press-n-Peel' transfer system for marking out the boards prior to etching. Full instructions included.

**Kit contents**

- 1 pack assorted single-side copper boards (10 x 8, 9 x 6, 8 x 6, 7 x 5, 6 x 4, 5 x 3)
- 1 off tray for etching boards
- 1 off tray for rinsing boards
- 1 off 500g SP etchant
- 1 off permanent etch resist pen
- 5 off sheets of Press-n-Peel
- 1 off 100ml approx. of Press-n-Peel stripper
- 1 pack 10 paper wipes
- 1 pair safety glasses
- 2 pairs latex gloves
- 1 pack data sheets inc. Health and Safety

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MC50E1	Starter Kit	£55.310 3+ £52.500 5+ £51.000	1+ £54.990

**Positive Photoresist Aerosol Spray**

Electrolube

An aerosol can of positive photoresist for coating copper-clad board. To use, first use a fine grade emery cloth or polishing block to remove dust, dirt, grease, fingermarks and oxide from the copper surface. Rinse well and dry thoroughly. The coating must be applied in subdued light. Shake the can, place the board horizontally in a dust-free area, then holding the can at a 30° to 45° angle, from a distance of 20 to 30cm spray with smooth strokes in a zig-zag pattern. Leave in low light for 5 minutes until touch-dry. Move to a dark well-ventilated area and leave for 24 hours (or heat to 80°C for 15 minutes, but do NOT use an open flame or incandescent element). The board may now be used in the normal way, with our UV Light Box. Available in 150g/200ml cans.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YM62S	Pos Photores 150g	1+ £8.500 12+ £5.890 36+ £5.080	1+ £9.990

**Photoresist Developer**

Electrolube

For use with positive photoresist PCBs, the developer must be diluted 4:1 with water before use. Place the prepared board in the solution for 30 to 90 seconds at 20°C. Development is complete when the shiny copper shows through on the non-image areas. Rinse the board thoroughly with water to halt the development process. When the board is dry it is ready for etching. Supplied in 250ml bottle.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YJ38R	Photoresist Developr	1+ £4.240 12+ £3.090 36+ £2.170	1+ £4.990

**Printed Circuit Board Etch Resist Marker Pen**

A nylon tipped pen for fast fabrication of perfect printed circuit boards. The ink adheres perfectly to copper and is completely resistant to ferric chloride and other usual etchant solutions. Draw the planned circuit onto a thoroughly cleaned copper laminated board and allow to dry. Then immerse the board in etching fluid until the copper is dissolved. The ink can then be removed with Degreasing Solvent or PCB Cleaner, and the circuit board is then ready to be drilled and assembled. This pen is capable of producing thin, delicate lines allowing for quite a condensed track layout if required. It can also be used as an indelible marker felt tip pen for an enormous range of materials especially metals.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
HK02C	PCB Pen	1+ £1.940 25+ £1.490 100+ £0.990	1+ £2.290

**Dalo Etch Resist Marker Pen**

An etch-resist marker pen similar to the one above, but having better adhesion to the board if it is not perfectly clean of grease and oxides.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FP40T	Dalo Pen	1+ £3.390 12+ £1.990 120+ £1.890	1+ £3.990

**PCB Etch Powder**

Press-n-Peel

- ★ Safer, and excellent value compared to ferric chloride
- ★ Excellent stability
- ★ Etching time is 5 to 10 minutes at 45°C
- ★ 1kg makes 5l of etch solution

This sodium persulphate based etch powder has been specifically developed for etching copper laminate used in the electronics industry. The product exhibits excellent stability in use leaving surfaces clean, even and free of staining.

1kg will make 5l of etch solution, or 200g per litre. 4.5l of water is heated to between 40 to 50°C and the powder is slow stirred into the water. When dissolved, top up to 5l with water. The solution should last between 4 to 8 weeks, but is dependent upon the volume of copper in solution.

N.B To prevent premature breakdown of the solution, do not operate in excess of 50°C. Supplied in 1kg tubs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MC49D	Etchant 1kg	1+ £11.050 3+ £10.500 5+ £9.950	1+ £12.990

**Ferric Chloride Crystals**

Electrolube

A pack of Ferric Chloride (FeCl3) crystals for etching copper clad boards. Packet contains sufficient crystals to make one pint of solution. Dissolve in 250ml of warm water. Store and etch in plastic or glass vessels. With regular stirring, etching will take about 20 minutes or longer depending on how many times solution has been used before. One pint will etch about: 2260sq.cm. (350sq.in.).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
XX12N	Etch Crystals	1+ £6.110 10+ £3.990 50+ £3.550	1+ £7.180

**Etching Fluid**

A plastic bottle containing 250ml of high concentration ferric chloride etching fluid. The fluid can be used as supplied, but should be diluted with 250ml of water before use (i.e. one part etchant, one part water). Childproof container.

Retail Unit Price each (inc. VAT).

## Universal PCB Developer

A sodium-hydroxide free PCB developer that is supplied in free flowing odourless granules and is ready for dilution with water. Suitable for single or double sided PCBs, and all applications such as prototype work is 10g of granules with 100ml of water, or the full 250g would make up to 2.5l of developer.

The ideal temperature for dilution and developing is room temperature, i.e. approximately 20°C.

Development time will depend on the complexity of the board design, dilution ratio of the solution and the temperature.

After development, the board should be rinsed thoroughly and dried either in air or an oven. Always wear protective gloves and goggles and avoid contact with the eyes and skin, but in case of contact, flush liberally with water.

Ensure all containers and utensils used with this product are made from strong chemical resistant plastics or glass.

Do not use any equipment made from metal.

Retail Unit Price each (inc. VAT).

## POTTING COMPOUND

### Potting Compound PX700K

Robnorganic

Encapsulate your circuits to make them damage and moisture proof. Our potting compound packs are available in five different sizes to minimise wastage. Final mix is black. All resins get hot as they are curing, but where delicate electronic components are concerned, it can be a considerable advantage if the cure temperature is low and our compound does exhibit a comparatively low exothermicity. This resin has a lower viscosity, a better thermal conductivity and remains flexible in comparison to our previous potting compound. The compound remains workable for about 120 minutes, and is completely cured in 24 hours at 25°C. May be stored for at least 12 months without detriment. Has very high electrical resistance.

Full instructions are supplied with the pack. Available in five sizes: 50g size makes 28.7cc, 100g size makes 57.5cc, 250g size makes 143.7cc, 500g size makes 287.4cc 1000g size makes 574.8cc. This product supersedes our previous potting compound

## Clear Varnish MP400C.

Robnorganic

A solvent based transparent acrylic varnish with excellent resistance to Fungus attack. Touch dry in approximately 10 minutes at 21°C.

Contains an ultraviolet flourescing tracer to enable checking of coverage.

Working temperature range -60°C to +130°C

Recommended for application by dipping with a viscosity of 240-280 cps at 25°C. Will require thinning for application by dipping or spraying.

Retail Unit Price each (inc. VAT).

Order Code	Type 12083	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
AZ96E	MP400C/NC Vrnsh 450g	£8.410	£6.700	£6.050	£9.890

## Jaxa Mould Release

Robnorganic

A non-silicone release agent for moulds constructed of metal, epoxy resin, or glass re-inforced polyester (but not silicone elastomer).

Air drying within 30 seconds to 1 minute depending on air flow.

Supplied in a 1ltr screw top tin with an average coverage of 13 sq mtr/ltr.

Highly flammable: Flash point below 22°C. Under no circumstances apply to hot surfaces or expose to a naked flame.

Full COSHH data available on request.

Retail Unit Price each (inc. VAT).

AZ97F	Mould Release	£10.670	£9.500	£9.050	£12.540

## GENERAL SERVICE

### ABRASIVES

#### Abrasive Fibreglass Pencil

A fibreglass abrasive stick housed in a propelling pencil type case. Designed for removing protective lacquer coatings on PCB board, prior to repair, and generally cleaning copper track for soldering. Refills are also available.

Warning: A certain amount of fibreglass dust is produced which should be removed with great care. Avoid touching with exposed skin as the particles can easily penetrate flesh and be extremely uncomfortable. Avoid contact with eyes.

Retail Unit Price each (inc. VAT).

Order Code	Type 3032	Price each exc. VAT			inc. VAT each
		1+	10+	25+

## Wet and Dry Paper

A 280 x 224mm sheet of wet and dry abrasive paper. Available in three grades:  
Fine: (Approx. 600 grade)  
Medium: (Approx. 320 grade)  
Coarse: (Approx. 80 grade)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
FY55K	Wet & Dry Fine	£0.417	£0.315	£0.290	£0.490

FY57M	Wet & Dry Coarse	£0.417	£0.315	£0.290	£0.490

## Polishing Block

Block is ultrafine non-metallic polishing compound bonded in an elastic material which wears evenly. It cleans, degreases and polishes in one clean simple procedure, totally eliminating the need for abrasive pastes, water washes and solvent washes. It has been designed primarily for cleaning copper-clad boards prior to application of resist inks, or finished circuits prior to tin/silver/gold plating. It is equally useful for cleaning contacts, switch gears, potentiometers, connectors, adjustable transformers etc. Supplied individually.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	12+	120+	1+
HX04E	Polish Block	£2.370	£1.790	£1.310	£2.790

## Abrasive Cord

Flexible cords to debur, grind and polish hard-to-reach areas which are inaccessible to most standard tools. Ideal for narrow slots, grooves, small holes and curved surfaces they can be used on metal, plastic and wood. Impregnated with aluminium oxide, silicon carbide and crocus, the aluminium oxide and silicon carbide cords are used to debur. Crocus cords are used to polish metal after deburring.

Diameter dimensions are approximate

Maplin Code	Size (mm)	Use
Crocus		
YC49D	0.76	Very fine polishing
Silicon Carbide		
YC50E	0.76	Multipurpose

## Aluminium Oxide

YC51F 1.78 Deburring  
YC52G 0.76

Supplied in reels of approximately 50' (15 metres).

## GENERAL SUNDRIES

### Freezer Spray

Electrolube

A non-corrosive refrigerant aerosol for the rapid cooling of electronic components as an aid in tracking down and detecting thermally related faults. Can also find invaluable uses such as cooling semiconductors during soldering to prevent damage, and/or shrinking mechanical components having an interference fit with one another and thereby making fitting easier. The freezer spray can lower temperature to as much as -56°C (70°C below ambient) Suitable for static sensitive devices. Available in 200ml and 400ml aerosol cans.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DM88V	Freezer	£5.200	£4.940	£4.290	£6.110
FC99H	Freeze Spray 400ml	£12.130	£11.530	£10.930	£14.260

### Electrically Conductive Silver Paint

Electrolube

An air drying electrically conductive paint containing pure silver. The paint should be applied to dry, grease- and oil-free surfaces with a soft bristled brush to obtain as thin a coating as possible to ensure minimum resistance. After approx. 15 minutes the paint will be dry, but is not completely cured for 12 hours. The resistance will be about 0.01Ω per cm. However, by applying heat (e.g. from a hair dryer) to speed the drying time immediately after application the resistance can be reduced to less than 0.5mΩ per cm. Before use always shake the tube well. Applications include: repairing broken tracks on PCBs; repairing demisters on car rear windows; bonding wires together; rf shielding; prototype PCB manufacturing; conductive ink and many more. Supplied in a phial containing 3g. Note: Shake well before use.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
FY72P	Conductive Paint	£5.230	£5.320	£5.610	£7.330

### Nickel Screening Spray

Electrolube

An electro-conductive coating based on nickel for EMI and RFI screening (electro-magnetic and radio frequency interference). Adheres to a wide variety of materials and ideal for spraying the insides of plastic boxes to provide a screen. Has a surface resistivity of 0.7Ω per sq.cm. with 50 microns thickness. The can must be shaken for at least 2 minutes before use. Supplied in a 400ml aerosol can.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DM10L	Screening Spray	£16.970	£16.130	£15.260	£19.950

### Funnel

A general purpose high density polyethylene funnel. Diameter, 120mm. Spout requires minimum 20mm diameter entry hole.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JU50E	Funnel 120mm	£0.859	£0.604	£0.530	£1.010

## CONSTRUCTION CONSUMABLES

### Fire Retardant Sealant (Pyropol)

Siroflex

Pyropol is a one part moisture curing silicone sealant conforming to BS476 part 20, preventing the passage of smoke and fumes. Achieves primerless adhesion to most surfaces (low modulus). When used for remedial work an Epoxy primer is recommended. Apply to clean, dry surfaces free from dust and grease. Cut nozzle for required width (6 to 40mm), and apply directly to joint. Smooth within 10 minutes of application. Cure rate of 3mm per 24 hours at 20°C/50% RH. Uses include perimeter pointing and sealing of fire rated structures, vapour seals in fire rated cladding, sealing between curtain walling and main structure and other applications where up to 50% movement capability is required. Each tube contains 310ml.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
AS82D	Fire Retardant Sealant	£4.160	£3.420	£3.140	£4.890

## Bond-Flex

**Bostik**

Bond-Flex is a high modulus silicone sealant which provides a waterproof, durable seal for a wide variety of applications – including general joint sealing, glazing and metal constructions, cladding panels, air conditioning systems and kitchen and bathroom surfaces.

Bond-Flex is safe for food contact and is ideal for use in hygiene critical areas. Bond-Flex forms a fast curing, colourfast and UV resistant seal and conforms to BS5889 (B).

It provides excellent adhesion to most building materials and is suitable for both interior and exterior use. BP10 is white. BP11 is clear. Supplied in a 310ml pack that's suitable for use with all sealant guns.

Retail Unit Price each (inc. VAT).

Order Code	Type 10102	Price each exc. VAT			inc. VAT each
		1+	10+	25+

BP11M	Silicone Seal Neutral	£3.140	£2.520	£2.320	£3.690

## Polyfoam

**Bostik**

Bostik Polyfoam is a single part, foaming polyurethane compound supplied in a pressurised aerosol pack. It requires no mixing or measuring, simply aim the supplied nozzle and spray. The foam will expand vigorously after dispensing to form a semi-rigid foam which bonds, fills, seals and insulates against heat and noise. It will automatically expand to seal all hidden spaces and cavities. Polyfoam is ideal for filling large gaps or cavities or for use as a packing material for valuable items and can be built up to fill large volumes or injected to seal and fill enclosed cavities such as glands or service entries. Polyfoam is suitable for use, without priming, on a wide variety of materials including metal, wood, brick, stone and most plastics and rubbers (excluding PTFE, PE and PP) and once set can be trimmed or cut and overpainted with gloss or emulsion paints. The aerosol contains 500ml of Polyfoam which will expand to approx 15-20 litres.

Retail Unit Price each (inc. VAT).

## MODEL FINISHING

### ADHESIVES

## 'Hyloglue' Rapid Bonding Adhesive

**MFA**

Rapid bonding, high strength adhesive available in four viscosity grades as follows:

Red – metals, plastics, rubber.

Yellow – porous surfaces.

Blue – metals.

Green – wood.

Use cyanoacrylate as the active constituent.

Supplied in 20g bottles.

Retail Unit Price each (inc. VAT).

Order Code	Type 0135	Price each exc. VAT		inc. VAT each
		1+	1+	
WE97F	Metal Cyano Glue	£2.540		£2.990

DX17T	Wood Cyano Glue	£2.540		£2.990

## BRUSH ON PAINT

### Brush-on Paint

**Pactra**

A range of top quality lead free brush paints, intended for model making, but also suitable for a wide range of other uses. Available in a selection of vivid and highly individual colours that'll make the most of your customised paint job. These paints must be used with caution – they are extremely flammable and the vapour is harmful if inhaled. Only use in well ventilated conditions. Supplied in 19.7ml glass jars.

Retail Unit Price each (inc. VAT).

**PAINT THINNERS**

**Racing Finish Thinner**

Pactra

A specialist lead-free thinner designed for use with the range of Racing Finish paints – other types of thinner may be incompatible and are not recommended. Can also be used to clean brushes and equipment. This thinner must be used with caution – it is extremely flammable and harmful if inhaled. Only use in well ventilated conditions. Supplied in three sizes, small (20ml), medium (100ml) and large (237ml).

Retail Unit Price each (inc. VAT).

**CUTTER**

**Smart Cut**

Top Flite

This totally unique trimming tool is the perfect way to cut and trim model film (such as the Solarfilm and Solartrim ranges shown in this catalogue) and fabrics. It allows smooth, straight cuts and consistent overlaps in traditionally difficult areas – such as the inside corners where fuselage and tailfin meet, fuselage sides and wing leading and trailing edges – and can quickly and evenly trim edges, curves and inside corners. A detachable spacer plate easily produces a uniform 32mm or 16mm overlap for perfect seams. Uses two standard, replaceable number 11 hobby knife blades (included).

**Please note that under the Offensive Weapons Act 1996 this product cannot be sold to anyone under the age of 16.**

## SOLDERING IRONS

### MAINS VOLTAGE

#### Beginners Soldering Iron

A robust mains-powered 25W general-purpose soldering iron. The handle is yellow and ribbed for extra grip, and a removable clip is supplied to enable the iron to be safely hung up whilst not being used. If the iron is remaining idle while still hot then the iron **MUST** be placed in a stand, or hung by its clip, for safety reasons. The bit has a 5mm chisel tip and is held in place by one of the grub screws on the barrel. A replacement bit is available separately. The element cannot be changed.

Retail Unit Price each (inc. VAT).

		1+	5+	10+	
ZF32K	Econ Solder Iron	£5.520	£4.700	£3.870	£6.490

#### 12W Miniature Soldering Iron Type M

Antex

A 12W miniature 240V AC soldering iron which has a heating element contained in a stainless steel shaft, such that the heat is transferred to the bit with maximum efficiency. The soldering bit (No. 10 fitted) can be easily removed from the shaft for replacement. Ideal for SMD rework and other applications where not too much heat is required. Fitted with 1.8m of mains cable.

A replacement element is available (JR55K).

#### Specification

Power consumption:	12W
Breakdown voltage:	1250V
Leakage current:	<5µA
Max. bit temperature:	370°C
Length:	147mm
Weight:	21g

#### 15W Miniature Soldering Iron Type C

Antex

A 15W miniature 230V AC soldering iron which has a heating element contained in a stainless steel shaft, such that the heat is transferred to the bit with maximum efficiency. The soldering bit (No. 820 fitted) can be easily removed from the stainless steel shaft for replacement. Ideal for light duty and PCB soldering jobs where not too much heat is required. Fitted with 1.4m of mains cable. The item is fully compatible with European EMC and CE regulations and sports the CE mark.

#### Specification

Power consumption:	15W
Breakdown voltage:	1,250V

FR02C	Handle Type CN	£1.150	£1.090	£1.360

#### 18W Miniature Soldering Iron Type CS

Antex

An 18W precision miniature soldering iron featuring a double shaft. An inner shaft of ceramic provides a very low leakage current of <2µA, and has an outer stainless steel sleeve for strength. It is intended for use with modern miniature components. The iron comes fitted with a Bit No. 1100, but many alternative bits are available. 230V AC mains

operated. Fitted with 1.4m of mains lead. The iron is fully compatible with European EMC and CE regulations and sports the CE mark.

A replacement element is available (FY95D).

#### Specification

Power consumption:	18W
Breakdown voltage:	>2,500V
Leakage current:	<2µA
Max bit temperature:	390°C
Length:	183mm
Weight:	26g

#### 25W Soldering Iron Type XS

Antex

A strongly recommended 25W 230V mains soldering iron ideal for soldering transistors and integrated circuits since the leakage current is <2µA. It has a shatterproof handle and detachable hook. The iron is designed to use the same bits as the X25 model which it replaced. The iron comes fitted with a Bit No. 51. 230V AC mains operated, with 1.4m of mains lead attached. The iron is fully compatible with European EMC and CE regulations and sports the CE mark.

A replacement element is available (FY96E).

#### Specification

Power consumption:	25W
Breakdown voltage:	>2,500V
Leakage current:	<1µA
Max bit temperature:	420°C
Length:	193mm
Weight:	42g

Retail Unit Price each (inc. VAT).

## Soldering Kit SK-6

Antex

An attractive presentation kit that makes the perfect present for the beginner. A superb XS soldering iron and the new stand ST-6, neatly packaged with full instructions on how to use the iron as well as some general hints on soldering. The soldering iron meets fully the requirements of EMC regulations and carries the CE mark. A small length of solder is also provided.

Retail Unit Price each (inc. VAT).

Cutters and Pliers

## 12 VOLT SOLDERING IRONS

### 12v Soldering Iron with Cigar Lighter Plug

- ★ Fast soldering
- ★ Extra long life
- ★ High performance
- ★ 12V 40W specification

A low voltage soldering iron that operates from 12V DC and is ideal for use in a car or caravan where mains power may be unavailable. Suitable for most soldering tasks, with chisel point tip included. Supplied with a cigar lighter socket for quick and easy connection.

A replacement bit is available. Please note this bit is unique to this iron and is not compatible with any of the Antex range. A suitable stand is available separately - see order code BP57M

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BP55K	SiIron 12V	£5.940	£3.650	£3.150	£6.990
BP56L	12V SiIron Bit	£0.842	£0.520	£0.450	£1.990
BP57M	SiIron Stand	£2.970	£2.200	£2.050	£4.490

## Low Voltage Soldering Iron MLXS25

Antex

A low voltage 25W soldering iron designed to work from a 12V car battery. The iron has the same specifications as the XS mains iron. The bits are interchangeable with the XS iron. The MLXS is supplied with a 3mm bit (bit no. 51), two large crocodile clips for connection to battery terminals, and 4.5m of 2-core lead (already fitted).

The iron comes with a small quantity of solder and an instruction leaflet "How to Solder".

The iron is compatible with the European EMC and CE regulations.

A replacement 12V element is available (FY97F).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each

		1+	3+	5+	1+
FT06K	Finger Hook XS/MLXS	£0.365	£0.346	£0.328	£0.430

## SOLDERING IRON STANDS

### Soldering Iron Stand

A neat and functional soldering iron stand that is ideal for use with all soldering irons (except some fume extraction types). Double spiral spring construction makes it virtually impossible to accidentally touch the iron when inserted into the stand.

Fast and easy construction means you'll be using it within minutes. A sponge and recessed area provide a convenient method of cleaning the soldering iron tip. Ideal for the hobbyist and professional user alike.

Retail Unit Price each (inc. VAT).

		1+	3+	5+	1+
FR11M	Sponge ST3	£0.408	£0.390	£0.369	£0.480

## TEMPERATURE CONTROLLED IRONS & STATIONS

### 50W Temperature Controlled Iron Type TCS 220/240V

Antex

A 50W 230V AC mains operated Temperature Controlled Soldering Iron with the temperature controller built into the handle of the iron. A thermocouple near the tip of the heating element provides feedback for temperature control within the range 200 to 450°C, with an accuracy of  $\pm 1\%$ . The temperature may be selected by using a screwdriver inserted into an adjuster in the body of the iron. The iron comes fitted with a Bit No. 1100, but many alternative bits are available. Fitted with 1.2m of mains lead. Bits for the CS iron will fit this iron. The iron is compatible with the European EMC and CE regulations.

A replacement element is available (JR39N).

#### Specification

Power consumption: 50W  
Voltage to element: 230V AC  
Warm up time: 60 seconds to 450°C  
Control: Analogue proportional  
Temperature range: 200 - 450°C  
Control accuracy:  $\pm 1\%$  typical  
Length: 222mm  
Weight: 50g

**All Customers**  
No additional freight charges for heavy items

### Temperature Controlled Iron

Weller

A low-cost, portable, general-purpose soldering iron with automatic control of output and temperature. This well-balanced soldering iron has a lightweight thermoplastic handle, is fully earthed, and comes with a long-life tip. Fitted with 1.3m of PVC mains lead (conforms to BS6500), and supplied with tip CT5CC7 as standard. Rated at 240V AC 60W.

Spare tips are available separately and are rated at 370°C. A spare heating element is available.

Tip Code	Description	MPS Code
CT5AA7	1.6mm screwdriver	DF48C
CT5BB7	2.4mm screwdriver	DF49D

### Iron Holder

Weller

A holder for the temperature controlled soldering iron DF47B. The cast-iron base has a reinforced spring safety holder that prevents the soldering iron flex from entangling in the spring. Supplied with a tip cleaning sponge.

Retail Unit Price each (inc. VAT).

Order Code	Type 4101	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DF55K	Holder for Iron W60D	£8.500	£8.070	£7.860	£9.990

### Thermally Balanced Soldering Iron

Weller

This general-purpose iron operates at a temperature of approximately 400°C, and is fitted with a nickel-plated copper tip (MT-45) as standard. The soldering iron is not intended for constant

production line work. Supplied with 1.2m of PVC mains lead. Spare tips are available separately.

### 17W 24V CS Iron for PSU

Antex

A 17W precision miniature soldering iron intended for use with 24V soldering stations. The double shaft element ensures minimal leakage current whilst retaining good mechanical strength. This iron is designed for use with modern miniature components. Supplied with Bit No. 1100. Note: this iron must not under any circumstances be directly connected to 240Vac mains. Fitted with 1.8m of cable and a Bulgin plug for connection to soldering stations HN96E or DQ06G. This iron is also available with a 'burn proof' silicon rubber cable; BA22Y.

A replacement element is available; JR42V.

#### Specification

Operating voltage: 24V  
Power consumption: 17W  
Breakdown voltage: >2,500V  
Leakage current: <2µA  
Max. bit temperature: 390°C  
Length: 183mm  
Weight: 26g

Retail Unit Price each (inc. VAT).

JR43W	24V 25W XS Element	£5.240	£6.160

## Plug-in Power Supply Unit

Antex

A plug-in power supply unit which offers a lower cost solution to providing 24 volts for soldering. Plugging directly into a standard mains socket, it frees up valuable bench space and does away with trailing leads from the socket to a transformer. The output socket to the 24 volt iron is underneath the unit avoiding the likelihood of ingress of foreign matter.

The unit is fitted with a male 3 pin Bulgin Socket and has a maximum power rating of 25 watts. This makes it suitable for use with our 17w CS (YZ15R) and 25w XS (YZ16S) irons.

### Specification

Maximum power output: 25W  
Input voltage: 230V AC  
Output voltage: 24V

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DO06G	Plug-in PSU 24V 25W	£24.340	£28.610

## Temperature Controlled Soldering Station

- ★ Adjustable temperature range
- ★ Grounded tip for soldering static sensitive devices
- ★ LED power, heat and temperature indicators
- ★ Overheat protection with temperature control
- ★ Auxiliary ground terminal

A high quality soldering station developed to meet the needs of electronics professionals. Constructed using sophisticated electronic circuitry enabling the user to change the tip temperature from 300°F (150°C) to 790°F (420°C) without the need to change the tip or heating element. The temperature is maintained within ±10°F of its preset temperature. This is made possible by a unique temperature sensor that is located near the tip of the soldering iron. The result is rapid response to temperature changes and little variation when soldering large items. Completely electronic

switching protects voltage and current sensitive components against transient spikes, etc. An LED readout accurately indicates the temperature of the tip. Supplied with full operating instructions, a sponge, stand and one spike point tip. Replacement tip available (BP54J).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BP53H	Temp Cntrl Solder Str	£59.560	£69.990
BP54J	Silicon Bit	£1.690	£1.990

## Temperature Controlled Soldering Station 660-TC

Antex

This very robust soldering unit comes with the TC50 24V 50W iron and the ST-6 bench stand. The unit is able to control the temperature of the irons between 65 to 450°C, and is controlled by a thumbwheel on the front of the unit. The iron is connected to the unit by a 5 pin DIN plug and socket. The unit is mains operated, via an 'ON/OFF' switch at the rear, providing a 24V output for the iron. Two LEDs, one 'RED' the other 'GREEN', give iron 'ON' and 'POWER-ON' indication. The unit meets fully the requirements of EMC regulations and carries the CE mark. The accompanying iron will take any of the Antex 1100 soldering bits or DST range of SMT desoldering bits. A 25W iron TC25 can be used as an option where finer soldering and low wattage is required and is available separately

### Specification

Maximum power output: 50W  
Input voltage: 230V  
Output voltage: 24V  
Weight: 1.34kg  
Mains cable length: 1.5m  
Dimensions: 115 x 118 x 112mm

## Soldering Station

Unger

An advanced soldering station that has been designed for most soldering tasks. The fully grounded tip together with 'zero crossover closed loop' control of the ceramic heating element makes the iron suitable for use on sensitive components. ESD safety is further ensured by the static dissipative handle and case. The unit has an external fuse and has convenient access for calibration, making maintenance very easy. The temperature is continuously variable between 288°C and 454°C. A replacement 24V iron is also available separately.

### Specification

Power: 230V AC 50Hz  
Iron operating voltage: 24V  
Iron handle wattage: 60W full load, 20W idle  
Temperature range: 288°C to 454°C  
Temperature stability at idle: ±5.5°C  
Tip to GND resistance: <2Ω  
Tip leakage: <2mV  
Dimensions: 84 x 95 x 175mm  
Net weight: 1.4kg approx.

## Power Station Unit and ST6 Bench Stand 650PS

Antex

An attractively styled soldering station. The unit is powered from 230V AC mains and provides a 24V AC output to power 24V TC25 (25W) and 24V TC50 (50W) irons. An LED shows power on.

This unit provides isolation between the mains supply and soldering iron output, thus providing low voltage safety and very low leakage currents.

The 650-PS can be bench or wall mounted to suit the user. The unit meets fully the requirements of EMC regulations and carries the CE mark.

Note: soldering irons must be purchased separately and fitted with the appropriate Bulgin 50V Socket P631. Included with the unit is ST6 bench stand.

### Specification

Maximum power output:	50W
Input voltage:	230V AC
Output voltage:	24V

## Digital Read-out Station Unit + ST6 Bench Stand 690-SD

Antex

An attractively styled programmed, digital read-out, static dissipative temperature controlled soldering station. The unit is powered from 230V AC mains and provides a 24V AC output to power SD50 (50W) irons. The station is built to meet the US MIL Std 2000A and EN 100015-1. The temperature range is 65 to 450°C with an accuracy of 2°C.

The three buttons on the front face are used to select the in-built programmes. Multi-lingual instructions are included in the kit. The station is programmed with the following functions:

- 2 memory settings
- °C or °F read-out
- Dial-in bit selection for accurate offset
- Lockable with PIN security
- Basic self-diagnostics

Included with the unit is ST6 bench stand.

### Specification

Maximum power output:	50W

## PORTABLE SOLDERING

### Portable Battery Powered Soldering Iron

A novel soldering iron which is powered by either 4 alkaline C cells or two Ni-Cd C cells. The combined low voltage element/bit retracts when not in use which serves both as a safety feature and also protects the element/bit from damage.

A conveniently placed push-to-heat button operates the iron, working temperature is reached in approximately 10 seconds. A charging socket is provided so that Ni-Cd cells may be charged in situ from an AC or DC adaptor (suitable type XX09K). Charging time is 12 to 16 hours. Important: Under no circumstances must any attempt be made to recharge non-rechargeable cells.

Supplied with one element/bit and solder. Batteries not included. Spare element/bits are available separately.

Retail Unit Price each (inc. VAT).

Order Code	Type	3882	Price each exc. VAT	inc. VAT each
YZ22V	1	Portable Iron	£5.200	£6.110
JU28F		Spare Tip	£2.160	£2.540
			1+ 10+ 25+	1+ 1+
			£4.210	£3.850

### Gas Torch Combination Kit

A combination kit which incorporates a gas torch and includes the following accessories: pencil flame head, hot blower head, flat flame head, soldering head, four bits, hot knife, soldering iron sponge, reel of solder and storage box. This kit is ideal for engineers and hobbyists alike. The gas torch is butane gas (lighter fuel) powered and is therefore extremely portable. Ideal for field service engineers where power points may not always be close to hand. The soldering head contains a platinum catalyst which heats the bit without a flame! (gas will burn when first ignited, but flame will extinguish when catalyst is up to temperature). The torch head may be used for engineering, jewellery and model making work. The flame is adjustable and reaches a

temperature of 1300°C (2370°F). Note: gas torch is supplied unfilled. Refilling is achieved using standard gas lighter fuel available from newsagents and tobacconists. Overall dimensions of gas torch (accessories not fitted): 168mm x 19mm dia. Accessories and spare soldering iron bits are available, see below.

**WARNING:** extreme care must be exercised when using this gas torch due to the very high temperature of the gas flame.

Retail Unit Price each (inc. VAT).

Order Code	Type	3887	Price each exc. VAT	inc. VAT each
YT73Q	1	Gas Torch Kit	£23.390	£27.490
			1+ 5+ 10+	1+ 1+
			£18.520	£16.390

### Gas Soldering Iron

An extremely useful soldering iron and gas torch for engineers and hobbyists alike, this gas torch is butane gas (lighter fuel) powered and is therefore extremely portable. Ideal for field service engineers where power points may not always be close to hand. The soldering head contains a platinum catalyst which heats the bit without a flame! (Gas will burn when first ignited, but flame will extinguish when catalyst is up to temperature). The torch head may be used for engineering, jewellery and model making work. The flame is adjustable and reaches a temperature of 1300°C (2370°F). Refilling is achieved using standard gas lighter fuel available from newsagents and tobacconists.

Overall dimensions: 230mm x 19mm dia. (soldering head fitted).

Note: gas torch is supplied unfilled. Spare soldering iron bits and catalytic converters are available, see below.

**WARNING:** extreme care must be exercised when using this gas torch due to the very high temperature of the gas flame.

Retail Unit Price each (inc. VAT).

## Gas Soldering Iron

Antex

A compact, pocket sized, butane gas (lighter fuel) soldering iron for use in those areas of soldering where mains power is unavailable or trailing leads are a hindrance. The strong nylon casing will hold sufficient liquid butane for one hour's continuous use. An adjustable fuel regulator controls the tip temperature up to a maximum of 400°C. The iron is supplied with a 1mm soldering tip fitted as standard and a protective cap, which has an integral flint lighter and a pocket clip. Supplied with instructions. A range of spare tips are available separately.

### Specification

Max. tip temperature:	400°C
Max. torch temperature:	1300°C
Max. operating time:	1 hour
Flint life:	900 cycles
Length:	188mm
Weight:	52g

Retail Unit Price each (inc. VAT).

RD51F	Compact Gas Iron	£20.410 £19.390	£18.370 £23.990

## Gas Soldering Iron Tips

Antex

A range of tips to suit the gas soldering iron RD51F and the kit AJ97F. The range includes 4 solder tips, a hot knife tip, a gas flame tip, a hot air tip and heat shield.

## Gas Soldering Iron Kit

Antex

A compact, handy, pocket sized kit, containing our butane gas (lighter fuel) soldering iron (RD51F) with the 1mm tip, a tube of 1mm diameter 60/40 resin cored solder, a cleaning pad, a hot flame tip, a hot knife tip, a hot air tip, and spring clip that fits into two holes as an iron rest when the iron is being used. The kit is supplied in a plastic case 205 x 103 x 38mm in size and includes instructions. A range of spare tips are available separately.

## Self-Igniting Soldering Kit

Nimrod

- ★ Fully functional soldering iron
- ★ Safety cap
- ★ Stand supplied
- ★ Cleaning sponge
- ★ Hot air blower

A stylish soldering iron kit powered by butane gas – ideal for the hobbyist and professional on-the-move! The kit comprises a high quality soldering iron with protective cap, sponge and tray, stand and changeable soldering tips. Simply charge from a standard butane gas refill for between 140 and 240 minutes of soldering time (dependent on temperature required). With the hot air blower

attached temperatures up to 1300°C can be realised. Supplied with full operating instructions, sponge, stand, hot air blower tip, chisel tip, wedge tip and rugged storage box. This iron is also sold separately (order as BN88V).

Retail Unit Price each (inc. VAT).

## Butane Gas Soldering Iron

Weller

A gas operated soldering iron for field and service applications, where a suitable mains supply may not be easily available. The reservoir in the handle holds sufficient butane gas for approximately 3 hours continuous use. The heating of the tip is achieved without a burning flame, but by a heated catalyst in the tip which generates infra-red and ultra infra-red when a stream of butane gas hits it at high-speed.

By regulating the gas flow the temperature can be adjusted between 200°C and 500°C for soldering. By exchanging the long-life soldering tip with the hot-blow nozzle, inactive hot-air is generated, which is ideal for shrink tubing and rework of SMDs. Fitted with a 3-0mm (DF61R) soldering tip as standard,

the iron is ready to solder in 30 seconds.

A hot-blow nozzle and heat deflector is also supplied with the soldering iron.

## Self-Igniting Butane Gas Soldering Iron

Weller

An adjustable temperature butane gas powered soldering iron and hot-air tool that has push-button, self-ignition for single-handed operation.

The soldering iron is supplied with a 3-0mm long-life tip, hot-blow nozzle, heat deflector, spanner, protective cap and operating instructions.

The reservoir holds sufficient butane gas for approximately 3 hours' continuous operation.

## Junior Gas Soldering Iron

Weller

A handy self-igniting soldering iron offering the ultimate in portability. This unit runs solely on butane gas and features a piezo ignition circuit, eliminating the need for replacement flints and trailing cords. Simply fill the body of the iron from a butane gas container and you're ready to start soldering. Adjustable tip temperature allows soldering of delicate and large components irrespective of their heat capacity. Ideal for the hobbyist, electrician, repair person and DIY expert. Supplied with full operating instructions.

Retail Unit Price each (inc. VAT).

## Junior Butane Gas Soldering Iron

Weller

A butane gas powered mini-soldering and hot-air tool that is housed in a lightweight aluminium body. The temperature is adjusted by varying the butane gas flow. The soldering iron is ready to solder in 30 seconds. The gas reservoir holds sufficient butane gas for approximately 45 minutes, continuous use. The soldering iron is supplied with a 0.5mm tapered long-life soldering tip, a 4.5mm hot-blow nozzle, a protective cap with pocket clip and operating instructions.

**Screwdrivers**

## Micro Gas Torch

An extremely compact, butane (gas lighter fuel) powered gas flame torch. Ideal for engineering, jewellery and model making work. The flame is adjustable and reaches a temperature of 1300°C (2370°F). A full charge of gas will last 40 minutes. Refilling is achieved using standard gas lighter fuel available from newsagents and tobacconists. Overall dimensions: 184mm x 15mm dia.

Note: Gas torch is supplied unfilled.

**WARNING:** extreme care must be exercised when using this gas torch due to the very high temperature of the gas flame.

Retail Unit Price each (inc. VAT).

## Pipemaster

Antex

A unique new product from Antex which makes central heating fitting quick and easy. Allows Yorkshire-type capillary fittings and end feed capillary fittings to be soldered without the use of a blow-torch. This is particularly useful when working in roof spaces, underfloor, or close to decorated surfaces, carpets etc. Simply slide the copper tube into the fitting, place Pipemaster jaws around edge of fitting and squeeze handles. Joint is complete in 10 to 40 seconds. The tool requires about 5 minutes to reach working temperature and care should be taken as the heads reach a temperature of 520°C. For integral solder ring fittings, joint is complete when molten solder appears at outer edge of fitting. For end feed fittings, close heads around pipe beside fitting and apply solder. When solder flows it will be drawn into the fitting and the joint is made. The tool is supplied with heads suitable for 15mm pipe. Heads for 22mm pipe are also available. Complete with approx. 1.8m of mains lead. A safety stand is also included. Manufactured in rugged yellow polycarbonate. Overall length 285mm. Supplied with full instructions for use.

Retail Unit Price each (inc. VAT).

## DESOLDERING TOOLS

### Surface Mount Technology Desoldering Bit Set

Antex

A range of special SMT desoldering bits designed for use with A series irons but can also be used with GS, TCS, XSTC and XSD series irons. The set comprises of 12 bits with profiles engineered to fit the majority of SMT components. Desoldering of SMT components requires sufficient localised heat to melt the solder, whilst not overheating adjacent components and tracks. It is strongly advised that a temperature controlled iron is used so that the lowest possible temperature consistent with efficient desoldering is used, thus minimising the possibility of damage to components or PCB. A spade bit is included which can be dressed (filed) to suit any component that is not catered for in the standard range. By using either of the miniature 0.1mm or 0.5mm bits, SMT components can be resoldered after a replacement device has been positioned. The 12 bits are stored in a neat tray, which is supplied with the set.

Retail Unit Price each (inc. VAT).

### Economy Desoldering Pump

Powerful desoldering tool quickly removes molten solder from joint. Spring loaded piston is closed while solder is being melted, then released by a simple push button. The cylinder is made of aluminium for increased resistance to wear. The nozzle is easily removed for cleaning or replacement. Plunger has a plastic shroud so that the knob cannot spring up into the operator's face or eye.

### Desoldering Pumps

Antex

A range of three desoldering pumps in various sizes and construction. To operate, the plunger is pushed down until it locks. The pump tip is then placed over the molten solder and the button pressed to release the plunger, the molten solder is now sucked up into the body of the pump.

The 'Mini' has a glass filled nylon body with a white Teflon tip and the 'Pro-Desold' has the same construction but with a larger capacity and a black conductive Teflon tip. The 'Conductive' version has a nickel-plated aluminium body with a black conductive Teflon tip. This results in a low 'top-to-tip' resistance. Replacement tips are available for each version.

	Mini	Pro-Desold	Conductive
Overall length:	198mm	210mm	195mm
External diameter:	22mm	26mm	20mm
Suction volume:	9-0cc	14-0cc	7-7cc
'Top-to-tip' resistance:	Infinite	Infinite	10Ω
Spare tip:	BA16S	BA18U	BA20W

Retail Unit Price each (inc. VAT).

### Desolder Braid

Sprig

A flux-impregnated, copper braid which speedily removes unwanted solder from a joint. Place the cold braid end on the solder that is to be removed. Place the hot soldering iron tip on top of the braid. Remove the braid and the hot iron at the same time. Cut off the end that contains the unwanted solder. The temperature of the soldering iron bit must be sufficient to liquify the cold solder efficiently. The braids come in 1.5m lengths of four different widths.

Retail Unit Price each (inc. VAT).

Order Code	Type 3808	Price each exc. VAT			inc. VAT each

GUB4F	Desolder Braid 2.7mm	£0.944	£0.666	£0.582	£1.110

## FUME EXTRACTION

### Solder Fumes Extractor

How often have you found a tricky soldering job made even more difficult by fumes and smoke? This handy unit is the perfect answer. Designed as a low cost bench-top fumes extraction system it is primarily intended for use adjacent to hand soldering operations, where it will remove much of the smoke and fumes generated by the soldering process away from the operator. Its secret is a filter element comprising charcoal filled reticulated foam that will absorb particles down to about 5µ. The unit is mains powered and supplied with a 3A fused plug, a stand designed to hold the unit at the correct angle for optimum smoke collection and optional stick-on rubber feet.

Replacement filters (5 to a pack) are available

#### Dimensions

Free-standing: 170 x 140 x 55mm  
On stand: 270 x 140 x 190mm

Retail Unit Price each (inc. VAT).

		1+	10+	25+	1+
BN90X	Fume Displacer	£51.050	£42.150	£39.250	£59.990
BN91Y	Filter Pad	£8.500	£7.500	£7.150	£9.990

### Fume Extraction Kit

Antex

A fume extraction upgrade kit for connecting a suitable fume extractor to the Antex series 'A' industrial soldering irons CS, XS, CSTC, XSTC, XSD, TC25, TC50 and SD50 soldering irons. The kit includes: a stainless steel tube, 2m silicone rubber tubing, a cleaning brush and 5 ties (to tie tubing to cable). Modifies a single iron.

Retail Unit Price each (inc. VAT).

## TOOLS

### Soldering Aid Set

A set of three useful soldering aids ideal for printed circuit board work. Each tool has two different ends, and the six available in this set are a reamer, a hook, a knife, a scraper, a brush, and a fork.

Retail Unit Price each (inc. VAT).

Order Code	Type 3028	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
FG08J	Soldering Aid Set	£6.930	£5.620	£5.200	£8.150

### Heat Shunt

A pair of locking metal tweezers which when clipped to a transistor lead for example, will prevent the heat of soldering reaching the device.

Retail Unit Price each (inc. VAT).

Order Code	Type 3030	Price each exc. VAT			inc. VAT each
		1+	3+	5+	
FR10L	Heat Sink Tweezers	£0.902	£0.858	£0.813	£1.060

### Abrasive Fibreglass Pencil

A fibreglass abrasive stick housed in a propelling pencil type case. Designed for removing protective lacquer coatings on PCB board, prior to repair, and generally cleaning copper track for soldering. Refills are also available.

**Warning:** A certain amount of fibreglass dust is produced which should be removed with great care. Avoid touching with exposed skin as the particles can easily penetrate flesh and be extremely uncomfortable. Avoid contact with eyes.

Retail Unit Price each (inc. VAT).

Order Code	Type 3032	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
KR61R	Fibreglass Pencil	£3.290	£3.070	£2.600	£3.870
KR62S	Pencil Refill	£0.774	£0.604	£0.552	£0.910

## SOLDER

### Standard Solder

**Adepto**

A 60% tin, 40% lead alloy solder containing a non-corrosive flux. We recommend this solder for use with the iron-clad and nickel-clad bits supplied with our soldering irons and for use with all the electronic components shown in this catalogue. Melting temperature 188°C. Solder is available in 18swg (1.22mm) and 22swg (0.71mm). 18swg is sold in packs of 5m and on 1/2kg reels (approx 61m). 22swg is sold in packs of 10m and on 1/2kg reels (approx 178m).

Retail Unit Price each (inc. VAT).

Order Code	Type 3040	Price each exc. VAT			inc. VAT each
		1+	10+	20+	
FV53H	5 Mtr Pk 18swg Solder	£0.944	£0.541	£0.396	£1.110
YJ92A	18 Swg Solder Reel	£7.800	£4.950	£4.210	£9.170
FR21X	Solder 22swg 10m Pk	£0.944	£0.541	£0.396	£1.110
FY70M	22 Swg Solder Reel	£8.670	£5.670	£4.680	£10.190

### 60/40 Solder

**Multicore**

A tin/lead solder alloy wire containing a halide activated rosin based flux, that is suitable for soldering electronic components. The solder has a melting point of 188°C and solidifies at 183°C. Sold on 500g reels and available in 18swg, 22swg and 24swg.

Retail Unit Price each (inc. VAT).

Order Code	Type 3041	Price each exc. VAT			inc. VAT each
		1+	10+	20+	
DF10L	18swg Solder Reel	£13.270	£12.330	£11.710	£15.600
DF11M	22swg Solder Reel	£15.180	£14.050	£13.370	£17.840
DF12N	24swg Solder Reel	£30.370	£27.880	£26.530	£35.690

### Low-Melt Point Solder

**Multicore**

A tin/lead/silver alloy wire containing a halide activated rosin based flux, that is intended for soldering silver-plated surfaces. The solder has a melting point of 179°C. Sold on 500g reels and available in 18swg and 22swg.

Retail Unit Price each (inc. VAT).

Order Code	Type 3043	Price each exc. VAT			inc. VAT each
		1+	10+	20+	
DF13P	18swg LMP Solder	£25.160	£23.410	£22.110	£29.570
DF14Q	22swg LMP Solder	£23.860	£22.110	£20.860	£28.040

### High-Melt Point Solder

**Multicore**

A high-melt point (301°C) solder that is particularly suitable for soldering electric motors, high temperature lamps, and other products which are likely to operate at, or be near, high temperatures during their working life. Also, the solder has improved strength compared to other solders and is recommended for service in extremely cold conditions.

Sold on 500g reels in 22swg only.

Retail Unit Price each (inc. VAT).

Order Code	Type 3044	Price each exc. VAT			inc. VAT each
		1+	10+	20+	
DF15R	22swg HMP Solder	£19.950	£18.160	£16.600	£23.450

### Silver Solder

A specially designed solder containing 10% silver that will join copper, brass, nickel more cleanly and with a lower resistance than standard solder, to give an improved joint for higher quality hi-fi equipment. The melting point of this solder is 420°C to 450°C, therefore a high temperature soldering iron will be required, to obtain satisfactory results. Solder is 18swg, sold in 50cm lengths and 250g reels. Flux sold in one litre cans. This is a very hazardous substance and is not available by mail order.

Retail Unit Price each (inc. VAT).

Order Code	Type 3045	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
GW45Y	Silver Solder	£0.927			£1.090A
AP17T	Silver Solder Reel	£19.080	£16.180	£15.030	£22.430
J98G	Liquid Flux	£11.270	£10.350	£9.110	£13.250

### Fluxed Silver Solder

A pre-fluxed solder containing 5.5% silver that will provide the benefits of a lower resistance than normal with the added benefit of a lower melting point (220 - 230°C).

This gives an improved joint for higher quality hi-fi equipment. Solder is 18swg, sold in 50cm lengths and 250g reels.

Retail Unit Price each (inc. VAT).

Order Code	Type 10009	Price each exc. VAT			inc. VAT each
		1+			
DP52G	Silver Solder +Flux	£0.927			£1.090
DP51F	Silv Sold Reel +Flux	£15.760			£18.520

### Aluminium Solder

**Multicore**

A specially designed solder that will joint aluminium, brass, copper, nickel, stainless steel and tin-plate more easily than standard solder.

This solder is 18% tin, 80% lead and 2% silver alloy. A higher temperature is required to melt this solder than ordinary solder so it is unlikely that a miniature iron will be satisfactory unless the volume of the parts to be jointed is very small.

The solder contains four cores of non-corrosive flux. Melting temperature 270°C. Solder is 16swg (1.63mm). Sold only in packs of 1m.

Retail Unit Price each (inc. VAT).

Order Code	Type 3052	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FY71N	Aluminium Solder	£1.370	£1.010	£0.879	£1.620

## 'Hardcore' Solder Wire.

Warton

A range of solder wire with various percentage levels of 'hardcore' flux, which offers a greater flexibility when balancing the solder flow speed and solder residue. The high grade (63% tin/37% lead) solder alloy has a melting point of 185°C and a solidify temperature of 183°C. Available in 22swg and 1/2kg reels.

Manufacturers Part Number	Flux %	Speed of Flow
AQ32	2% Residue	Excellent
AQ86	1%	-
AQ85	0.85%	-
AQ56	0.4% Low residue	Good

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JZ59P	1 Fast Flow Solder	£8.670 £7.550 £5.560	£10.190
KC07H	1 Low Residue Solder	£8.670 £7.550 £6.560	£10.190
KP56K	1 Fine Line Solder	£8.670 £7.550 £6.560	£10.190
JZ60Q	1 Fine Line 0.4Solder	£8.670 £7.550 £6.560	£10.190

## High Purity Pellets and Bar Solder

Warton

Two types of non-fluxed solder, 60/40 and 63/37, available in pellet and/or bar form. Can be used with the Solder Pots KR27E and KR28F. Pellets are supplied per kilo and the bars are supplied in nominal kilo bars.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KP57M	2 Pellet Solder 63/37	£8.670 £7.550 £6.560	£10.190
AY10L	2 Bar Solder 63/37	£8.670 £7.550 £6.560	£10.190
KP56L	2 Pellet Solder 60/40	£8.670 £7.550 £6.560	£10.190
KP63T	2 Bar Solder 60/40	£8.670 £7.550 £6.560	£10.190

## Solder Dispensers

Multicore

Two very handy solder dispensers for your tool box. The standard dispenser contains 11g of 1.2mm dia, 5-Core Solder with a tin-lead composition of 60/40. It is ideal for electronic and electrical repairs. The other dispenser contains extra thin solder that is fast and non-corrosive for use on micro-electronics such as printed circuits and fine wires. The dispenser contains 9g of 0.7mm dia, 5-Core Solder with a tin-lead composition of 60/40. The minimum temperature of the solder bit is 250°C.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GU97F	1 Solder Dispenser Std	£1.460 £1.390 £1.340	£1.720
GU98G	1 Solder Dispenser Fine	£1.460 £1.390 £1.340	£1.720

## Lead-Free Multicore Solder

Ersin

A high quality 1.2mm multicore solder ideal for use with electronic and electrical joints, silver jewellery, stainless steel, nickel, zinc, copper and most aluminium. Simply apply Ersin multicore solder simultaneously with the iron or other source of heat to the clean components to be soldered. No additional flux or joint cleaning is necessary. Minimum bit temperature required is 300°C. Available in 10g and 30g packs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DP46A	1 Lead Free Solder 10g	£1.460 £1.320 £1.280	£1.720
DP47B	1 Lead Free Solder 30g	£3.720 £3.320 £3.200	£4.380

## Tip Tinner/Cleaner TTC 1

Multicore

The TTC 1 is a small block of electronics-grade solder powder and chemicals compacted into the shape of a thick disc. It is packaged in a metal container complete with lid and self adhesive pad on the underside so that it can be fixed to any convenient surface. A single wipe of the iron across the TTC 1 block at once cleans, wets and tins the tip.

The composition will remove the stubborn tin/iron intermetallic layer that forms on iron plated tips and resists resin based fluxes. The Tip/Tinner Cleaner does all the work of sponges or wipes and acid-cored solder wire which, although often used for tinning, does not really belong in an electronics assembly environment.

Net Weight: 15g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JG06G	1 Tip Tinner Cleaner	£2.850 £2.550 £2.350	£3.360

## General Purpose Silver Brazing Alloy Silver-Flo 55

A general purpose, low temperature, silver brazing alloy that is free from cadmium (cadmium content not greater than 0.025%). Applications include model making, model railways, precision engineering, fluid carrying vessels and pipes, and joining of metal objects where higher strength and operation temperature is required than can be achieved with conventional soft soldering. The alloy consists of 55% silver, 21% copper, 22% zinc and 2% tin. Melting temperature range is 620 to 600°C and is therefore suitable for use with our range of high temperature gas torches. Full instructions and details of safety precautions supplied. Supplied in 600mm x 1.5mm diameter rods. This brazing alloy requires the use of a special flux (JX39N).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
ZA19V	1 Brazing Rod	£4.760 £3.590 £3.120	£5.600

## Surface Mount Solder Paste

Electrolube

A long tack time, screen printable solder cream that may also be used through 'dot' dispensing equipment. This specialised solder is mixed with a premium flux which minimises drying out and results in a product that exhibits a 24 hour tack time, does not require cleaning, has excellent moisture retention characteristics and dispenses and prints with superior reproductibility. It has excellent reflow characteristics with no solder balling. Composition is a standard 63% tin, 35% lead and 2% silver with a melting point of 183°C. Supplied in a 10ml syringe with 'Luer Lock' type adapter head for use with dispensing equipment and a hand plunger for manual use.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DQ27E	1 Solder Paste 10ml	£7.670 £7.300 £7.100	£9.020

## SOLDERING AIDS

### Solder Pots

Antex

Two sizes of solder pots are available, the 'Major' and 'Minor'. Both models operate at a stabilised temperature of 310°C (typically the melting point of solders used in electronics is around 185°C). It is recommended that 60/40 solder pellets are used, (solder containing flux MUST NOT be used), and it will normally take up to 30 minutes for the solder to melt and the temperature to stabilise. The solder pots are of sturdy construction with a wide base giving excellent stability on the work bench, although holes are provided in the base for those installations where permanent fixing is required. The 'Major' has a removable dross tray which retains excess dross when cleaning the solder surface. The 'Minor' has a smaller capacity and lower power consumption and no dross tray. The pots are supplied with 1.5m of mains lead.

#### Specification

	Major	Minor
Input voltage:	220/240V AC	
Power consumption:	60W	45W
Nominal stabilised running temperature:	310°C	
Full solder capacity:	17cm <sup>3</sup>	9.5cm <sup>3</sup>
Normal solder depth:	17mm	14mm
Weight without solder:	960g	770g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KR27E	2 Major Solder Pot	£67.010 £63.650 £60.300	£78.740
KR28F	2 Minor Solder Pot	£58.080 £55.170 £52.270	£68.250

## Call and Collect

Maplin has more stores Nationwide than ever before. See the maps at the front of the catalogue for the nearest one to you.

## Surface Mount Rework Flux

### Electrolube

A quick drying, mildly activated (RMA type) no-clean flux in aerosol form for use when removing and replacing surface mount components. The aerosol is fitted with a wide angle actuator to give a protective film and an extension tube actuator for pinpoint application. Particularly recommended for precision products e.g. tele-communications or computers where a high degree of reliability is required. For use with hot air, hot gas or conventional soldering techniques.

#### Typical applications include:

- ★ Apply to aid reflow when removing components
- ★ After removing components excess solder should be removed from solder pads using desolder braid aided by a squirt of spray flux.
- ★ Apply to solder pads for placement of new components when using solder paste with hot air or hot gas, or using conventional solder and soldering iron.
- ★ Can also be used as an anti-tarnish, protective film on bare copper or tinned tracks providing excellent solderability for up to 6 months. Supplied in 200ml (100% Ozone Friendly) aerosol.

Retail Unit Price each (inc. VAT).

Order Code	Type 13711	Price each exc. VAT			inc. VAT each
		1+	12+	36+	
DQ26D	Rework Flux 200ml	£6.270	£5.960	£5.800	£7.370

## Silver Brazing Alloy 'Easy-Flo' Flux

A special flux powder for use with Silver-Flow 55 and other silver brazing alloys. Suitable for use at temperatures up to 800°C. The flux powder should be mixed with water to a creamy consistency and applied to the metals to be joined. Metals should be clean and degreased before applying flux. Mix only sufficient flux for the joint(s) to be undertaken. Replace lid to keep contents dry and in good condition. The flux powder is harmful if swallowed and irritating to eyes and skin, therefore wear suitable gloves and goggles. Avoid inhalation of dust. Keep out of reach of children. Full instructions and details of safety precautions supplied. Flux powder is supplied in 25g tubs.

Retail Unit Price each (inc. VAT).

## STAGE AND DISCO EQUIPMENT

### LIGHTING EFFECTS

#### Multi-Colour Moving Display

- ★ Large display
- ★ High brightness output
- ★ 8000 character memory
- ★ Infra-red remote control programmable

A versatile and attractive way of getting your ideas across – a Colour Moving Display! Up to 64 different colours are possible, and with an integrated 8000 character memory, you can program virtually any type of information. Packed with effects like Rainbow, Dazzle and Marquee. Its many features include: 55mm high characters; a 5 minute message with animated graphics, high brightness output; simple programming via remote control; capability to link and program via your personal computer. Overall dimensions 720 x 130 x 35mm. Also available separately is a pack to operate the display via software (GV32K) and a pack including an instruction manual, source code, demos and control codes to act as a tutorial and get the most out of your display!

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GV29K	Multi-Colour Moving Display	£256.310	£314.000
GV32K	Multi-Colour Moving Display Software	£42.540	£52.000
GV33	Multi-Colour Moving Display Software	£42.540	£52.000

#### PIN SPOT PAR 36

A pin spot supplied with an adjustable mounting bracket and containing a safety isolating transformer and fuse holder. Lamps supplied separately.

Power: 230V AC 50Hz.  
Weight: 1.25Kg.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BE29F	Pin Spot	£12.750	£15.700

**+** This symbol beside an order code in the price block indicates **WHILE STOCKS LAST**

#### PAR 36 BULB

A parabolic focused narrow beam bulbs, ideal for use in the products within the disco lighting effects range.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BE27E	PAR 36 Bulb	£6.800	£8.360

#### PAR36 Filter Gels

These moulded plastic, coloured filter gels are produced in deep, rich colours to make sure that your light display never looks washed out – they will not fade or wilt under the heat of your lamps. They're easy to fit and come in 8 sensational colours.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DU60Q	Red Filter	£0.842	£1.030
DU61R	Rose Filter	£0.842	£1.030
DU62S	Purple Filter	£0.842	£1.030
DU63T	Blue Filter	£0.842	£1.030

DU65V	Light Green Filter	£0.842	£1.030
DU66W	Orange Filter	£0.842	£1.030
DU67X	Yellow Filter	£0.842	£1.030

#### Mini Strobe

This quality strobe unit is ideal for smaller mobile discos, but nevertheless manages a very high light intensity for its size. The tube's maximum output power is 15W at a strobe rate of 10 flashes per second. Strobe rate is adjustable up to 10 flashes per second. The grey steel case is equipped with a mounting bracket for flexibility.

Dimensions: 125 x 85 x 55mm  
Weight: 0.52kg

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DU14Q	Mini Strobe	£17.010	£20.960

#### High Quality Strobe Unit

This strobe unit is ideal for use at discos, parties and theatre productions, etc. The unit can be programmed to pulse between a pulse every few seconds to a maximum of 10 pulses per second. Slimline design allows this unit to be installed almost anywhere. Overall dimensions 120 x 90 x 50mm (excluding bracket).

#### Specification

Supply voltage: 230V AC 50 Hz  
Power consumption: 20W (at 10 flashes/s)  
Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BS93E	Mini Strobe	£25.520	£31.400

#### Light Sequencer

This self-contained 4-light sequencer is contained in a sturdy grey metal case. A built-in sound detection circuit controls the speed of the sequence and makes the light display react to the beat of the music. Can be used as a free-standing unit or wall/ceiling mounted.

Supplied complete with amber, green, red and blue lamps.

#### Specification

Power: 230V AC 100W  
Dimensions: 368 x 225 x 105mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BE24B	4 Light Sequencer	£42.540	£52.000

#### Flower projectors

Professionally finished projectors from Geni, made with extruded aluminium cases and capable of operating in three different formats: Sound operated, rotating or static. Top quality optics produce well defined bright beams. All types will accept a colour filter and are supplied complete with lamp.

**Specification:**  
Lamp Type: A1220.  
Dimensions: 170 x 125mm Dia.  
Weight: 2.5Kg  
Power requirements: 300Watts @230V  
Spare Bulb Available - Order Code VR89W

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VA06G	Flower Projector	£51.050	£59.990

**Blaze Lighting Effect.**

This dazzling dichroic flower effect from Geni Electronics emits a multitudinous display of coloured beams that sway to the beat of music. Excellent sound processing, using the latest analogue algorithms, ensures a dynamic sound response. It has a strong extruded aluminium body and is finished to the same high standard of effects twice its price. This effect is supplied complete with a 250 Watt halogen lamp.

**Specification:**  
Lamp type: M33 250 Watt 24 Volt (HLX64655)  
Dimensions: 310 x 230 x 160mm  
Weight: 5.5Kg.  
Power Requirements: 300Watts @ 230V  
Spare Bulb Available - Order Code GT86T

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC98G	Blaze Disco Lgth	£102.110	£119.990
GT86T	250W 24V Halogen Bulb	£2.540	£2.990

**NJD Blitzer Effect**

The Blitzer, from leading disco equipment manufacturers NJD, is a sound-activated dichroic 'flower-effect' lighting unit which utilises a focusable 100W halogen bulb to produce a shower of brilliant multi-coloured light beams.

Requiring no more than a mains supply, the Blitzer will twist its beams back and forth accurately in time with the music, at the touch of a switch. Manufactured in black-coated steel, the Blitzer is supplied with halogen bulb and adjustable hanging bracket. The Blitzer provides a startling lighting effect that will fit even the most modest lighting budget. A replacement bulb is available- See FU88.

**Specification**  
Audio input: Built in microphone, automatic level control.  
Dichroic colours: 5 x 4 colours (20 beams)  
Lamp type: A1/215  
Power requirements: 220/240V AC 50/60Hz, 100W  
Dimensions: 192mm x 167mm x 115mm (excluding bracket)  
Weight: 3.8kg.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DW56L1	Blitzer Effect	£102.110	£119.990
FU88V	Blitzer Spare Bulb	£2.540	£2.990

**Laser Crab**

Superb red beam laser with a high intensity 5mW output. A sophisticated mirror system - controlled by microprocessor driven servo motors, controls the beam. This high-tech driven circuitry gives a series of different stunning patterns and effects. A good all round effect used singly or in multiples. The most dramatic and cost effective effect of this type we have seen. Dimensions: 170x135x80mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KS21X1	CRAB laser	£102.110	£119.990

See Stock Code Index For More Price Breaks

**Wild Blaze**

The Wild Blaze is a scanning head flower incorporating superior optics and dichroic filters. The automatic sound activation to the filters and the reflective head produce a magnificent display of light. The internal coloured moonflower is deflected by the action of the sound activated mirror. This truly professional product from Geni has an extruded aluminium case, fan cooling and long life, high torque motors. This product is supplied with a lamp.

**Specification:**  
Lamp type: M33250 W 24V (HLX64655)  
Dimensions: 530 x 230 x 160mm.  
Weight: 6.5Kg  
Power requirements: 300W @230V  
Spare bulb available - Order Code GT86T

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC99H	Wild Blaze Lighting	£127.650	£149.990

**XTC Lighting Effect**

One of Geni's original and most popular effects; the XTC incorporates a new dichroic lens design, plus a unique-shaped reflective head. These combine to create a awe-inspiring effect, sending out a vast number of continuously changing colour beams in all directions. Fitted with superior optics, cooling fan, automatic audio sensitivity and constructed in an extruded aluminium case. This product is supplied with a 250 watt lamp.

**Specification:**  
Lamp type: M33 250 W 24 V (HLZ64655)  
Dimensions: 530 x 230 x 160mm.  
Weight: 6.5Kg.  
Power requirement: 300W @23V  
Spare Bulb available - order code GT86T

Retail Unit Price each (inc. VAT).

## Evolution Lighting Effect

**RECENTLY INTRODUCED**

The Geni evolution has a dichroic lighting head that sends out a flat fan of rotating, changing gobos that change colour to the beat of the music, creating an astounding display of light. Supplied with four standard, (circles, stars, triangles), replacement gobos. This lighting effect has a quality aluminium case with superior optics and long life motors.

### Specification:

Lamp Type: ELC  
 Dimensions: 530 x 230 x 160mm  
 Weight: 3.5Kg  
 Power requirements: 300Watts @ 230V

## Microbeam 100 Intelligent Scanner

**NJD**

**RECENTLY INTRODUCED**

"The smallest, most portable, scanner possible, with the facilities and reliability of the larger and more expensive models".

Facilities include:

- ★ DMX 512 control
- ★ 0-10 volt control
- ★ Stand alone operation with internal microphone.
- ★ Stepper motors.
- ★ 7 Dichroic colours + white.
- ★ 5 Gobos fixed to colours.
- ★ 100W Halogen lamp
- ★ Fan cooled
- ★ Built in programmes
- ★ Large bright images.
- ★ External Focusing.
- ★ Blackout facility (strobe effect)
- ★ Compatible with all industry standard DMX and 0 - 10V controllers.

Lamp A1/231 12V 100W  
 Power req 230V - 50/60Hz 100VA  
 Dimensions 370mm x 140mm x 165mm  
 Weight 5.4kg  
 Spare Bulb available order code - FU89W

Retail Unit Price each (inc. VAT).

PD97F	Microbeam 100	£297.860	£349.990

## Datamoon Intelligent Flower Effect

**NJD**

**RECENTLY INTRODUCED**

This "high brightness" effect is a fan cooled 250 Watt Halogen flower effect fitted with high reliability, long life, STEPPER MOTORS, 7 dichroic colours +white, 5 gobos, strobe effect, variable rotation speed, forward and reverse, sound activation and a lamp life economy switch. The DATAMOON will independently run through a comprehensive series of pre-programmed patterns and effects activated by its own built in microphone and will synchronise with and number of DATAMOONS by simply linking them with a DMX lead. Any industrial standard lighting controller with DMX or 0 - 10V facilities can be used with this equipment. Up to 32 DATAMOONS may be addressed independently.

### Specification:

Dichroic colours 7+White (20 beams)  
 Gobos 5  
 Lamp A1/259 24V 250W supplied  
 Power req 230V AC 50/60 Hz 300VA  
 Dimensions 275mm x 305mm x 160mm  
 Weight 8kg  
 Spare bulb available - order code GT28F

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
PD98G	Datamoon Flower	£297.860	£349.990

## SWORD Lighting Effect

**NJD**

**RECENTLY INTRODUCED**

This machine utilises two independently motorised dichroic mirrors which, depending on their position, can produce up to six random coloured beams of dichroic colour. These mirrors can be adjusted to allow beams to sweep in parallel or diagonally and the whole SWORD can be mounted either vertically or horizontally to provide the user with a generous choice of effect presentations. The light source is provided by two inexpensive 100W 12V dichroic lamps, each individually fan cooled and focussable. Sound activation is totally automatic and requires no connection to a sound system. Simply connect the SWORD to the power and its internal electronics will sense the sound level and activate the mirrors accurately in time with the bass beat of any music.

### Specification:

Dichroic colours: 4(producing 6)  
 Sound response: Internal microphone, auto level.  
 Lamps: 2 x A1/231, 100W 12V  
 Power requirements: 230V AC 50/60Hz 240VA  
 Dimensions 625mm x 210mm x 110mm  
 Weight: 9.2kg  
 Spare bulb available - order code FU89W

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MX47B	G clamp to fit PD78	£4.240	£4.990

### Goal Post Lighting Stand

**NEW**

This light weight stand has been designed specifically for mobile use. The dual cross-bar provides extra rigidity and offers maximum flexibility when securing lights etc on the frame. The whole stand folds neatly down to a convenient transportable size, and can be re-assembled quickly and easily.  
 Maximum height: 3.2 Meters  
 Crossbar width: 3 Meters (2x1.5 meter pieces)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GT62S	Lighting Goal Post	£170.200	£199.990

**Safety Chain and Safety wire**

GT59 - Safety Chain

Welded link safety chain for hanging or adding extra security to fittings.

GT58 - Safety wire

Quick fit safety wire for double security when fitting heavy items to rigs etc.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GT58N	Safety Cable	£9.350	£10.990
GT59P	Safety chain	£5.090	£5.990

**PATTERN CHASERS**

**Euro 4E Computer Chaser**

A high-quality rack-mounting light controller. By combining computer-aided design with the latest microprocessor technology, the Euro 4E packs an astounding range of facilities into a 1U high package. 24 pre-programmed chase patterns, 3 auto-run programs, sound chase or sound-to-light, manual over-ride on all channels and 3 or 4 channel operating modes are just some of the features on this superb controller. Finished in its distinctive 'Euro Blue' livery, the Euro 4E typifies the modern trend towards more and more compact lighting control.

**Specification:**

Audio input sensitivity: 2V to 40V rms  
Audio input impedance: 680Ω  
Audio input connector: 6.3mm jack

Maximum load per channel: 4A 1kVA (1kW resistive, 600W inductive)

Maximum total load: 15A 3.6kW (reduce to 13A is connected via standard BS1363 mains plug and socket)

Output connectors: 8-pin Bulgin P552 socket  
Output voltage: 220/240V AC (as input)

Power requirements: 220/240V AC  
Dimensions: 483mm x 44mm (1U) x 110mm

Weight: 1.25kg

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DW62S	Computer Chaser	£136.160	£159.990

**NJD PC4000S Pattern Chaser**

NJD's PC4000S has been designed to provide a selection of simple chase patterns at the most affordable price possible, without sacrificing quality. A push-button switch selects between single channel chase (with auto-reverse) or the full 6-channel pattern 'run' program. Switchable to either 3 or 4-channel operating modes.

**Specification:**

Audio input sensitivity: 2V to 40V rms  
Audio input impedance: 1kΩ minimum  
Audio input connector: 6.3mm jack

Maximum load per channel: 4A 1kVA (1kW resistive, 600W inductive)

Maximum total load: 15A 3.6kW (reduce to 13A is connected via standard BS1363 mains plug and socket)

Output connectors: 8-pin Bulgin P552 socket  
Output voltage: 220/240V AC (as input)

Power requirements: 220/240V AC 50/60Hz, 10VA

Dimensions: 205mm x 55mm x 160mm

Weight: 1kg

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DW61R	Pattern Chaser	£85.090	£99.990

**NJD CC4000S Computer Chaser**

Making use of NJD's specially-produced lighting control microprocessor, the CC4000S provides many of the facilities normally associated with the larger rack-mounted controllers, but in a compact package ideal for the budget installation or mobile disco. Features include switchable 3 or 4 channel lighting mode, 24 selectable chase patterns and 3 auto-run programs, together with sound chase or audio interpretation. The CC4000S is one of the most popular lighting controllers on the market today.

**Specification:**

Audio input sensitivity: 1.5V to 35V rms  
Audio input impedance: 680Ω  
Audio input connector: 6.3mm jack

Maximum load per channel: 5A 1.2kVA (1.2kW resistive, 800W inductive)

Maximum total load: 15A 3.6kW (reduce to 13A is connected via standard BS1363 mains plug and socket)

Output connectors: 8-pin Bulgin P552 socket  
Output voltage: 220/240V AC (as input)

Power requirements: 220/240V AC 50/60Hz, 3VA

Dimensions: 245mm x 70mm x 165mm

Weight: 1kg

## SMOKE MACHINES

### "Smokey Joe" Fog Machine

A smoke machine which utilises an industrial pump to provide an impressive smoke screen when activated by the remote control handset on its 7 meter cable. For complete safety, the heater is controlled by a laser trimmed platinum film sensor, protected by a thermal trip.

Heat-up time	5 minutes
Smoke output	42.5m <sup>3</sup> /minute
Max fluid consumption	1.75 liter/hour
Smoke particle size	0.5-60 microns
Heater	500W
Power Supply	220/240Vac
Power Consumption	3A
Dims	375(H) x 185(Dia) mm
Weight	5.4kg

The smoke generating fluid is completely non-toxic as a medium persistence and is supplied in 5 litre bottles.

To enhance the atmosphere even more, add one of the exciting flavours to the Smoke Machine fluid. Non-toxic and available in Mint, English Rose, Tropical and Banana flavours.

<b>Specification:</b>	
Heat up time:	5 minutes
Smoke output:	42.5m <sup>3</sup> /min
Max fluid consumption:	1.75ltr/hour
Smoke particle size:	0.5-60 microns

## CD PLAYERS

### Single CD Player

A versatile 19in. rack mount CD player with special features for the DJ.

- ★ 3 beam laser pickup servo system
- ★ 16 bit 8 times oversampling
- ★ 19in. rack mounting, 2U high
- ★ 20 track random programmable
- ★ Variable pitch ±8% slider and bend controls
- ★ Cue/sample and pause facility
- ★ FF/Reverse
- ★ Time elapsed/remain digital display
- ★ Repeat one/all facility.

<b>SPECIFICATIONS</b>	
System	Compact disc digital audio
Channel separation	>80dB
Pick up	3-beam laser
Sampling Frequency	100kHz
Harmonic Distortion	<0.09%
Frequency Response	20Hz-20kHz±3dB
S/N ratio	>80dB
Output Voltage	2Vrms (1kHz±0.2V)
Load impedance	10kΩ
Power	220/240Vac 50Hz
Dims	482 x 250 x 85mm
Weight	4.18kg

KSS2G	Double CD player	£382.970	£449.990

## Professional CD Player

A dual CD player incorporating all the latest features required by the professional DJ.

- ★ Dual mechanism CD player
- ★ 3-beam laser system
- ★ 19in. 2U high
- ★ ±8% variable pitch slider and joystick controls
- ★ FF/Rev Scanning (shuttle)
- ★ Fast search (JOG) dials
- ★ Cue/sample and pause facility
- ★ Time elapsed/remain digital display
- ★ Quick que/memory joystick feature
- ★ Track skip
- ★ Repeat one/all facility.

<b>SPECIFICATIONS</b>	
System	Compact disc digital audio
Channel separation	>80dB
Pick up	3-beam laser
Sampling Frequency	400kHz
Harmonic Distortion	<0.09%
Frequency Response	20Hz-20kHz
S/N ratio	>80dB
Output Voltage	2Vrms
Load impedance	10kΩ
Output terminals	RCA phono socket
Terminal ports	Mini 8-pin DIN (leads supplied)

Power	220/240Vac 50Hz
Dims	Main unit 482 x 249 x 88mm
Control unit	482 x 64 x 88mm
Weight	main unit 5.3kg
Control unit	1.80kg

Retail Unit Price each (inc. VAT).

**TURNTABLES**

**Belt Drive Turntable**

Sound Lab

This belt drive turntable is fully manual in operation and features a quality anti-skate turntable with strobe to help maintain electronically controlled speeds of 33<sup>1</sup>/<sub>3</sub> and 45 rpm. Other features include a fast start/stop and remote start/stop and forward/reverse controls, a high quality tone arm, cue light and pitch control with central green LED indicator. The turntable is mounted in a quality plinth with sprung feet and a clear perspex hinged cover. A replacement styli is available

**Specification:**  
Wow and flutter: Less than 0.15% wrms  
Turntable platter: 305mm dia aluminium  
Speeds: 33<sup>1</sup>/<sub>3</sub> and 45 rpm  
Tone arm: Statically balanced  
Power: 220/240V AC 50/60Hz  
Power consumption: 5W  
Drive motor: 12V DC servo motor  
Dimensions: 450 x 350 x 152mm  
Weight: 10kg

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DW30H	Belt Drive Turntable	£119.140	£139.990
LN52G	Styli for DW30	£5.940	£6.990

**Belt Drive Professional Turntable**

This professional quality belt drive and fully manual turntable is supplied in its own light-weight plinth with sprung feet and a clear perspex hinged lid. The brushless dc motor drives the turntable at an electronically controlled speed of 33<sup>1</sup>/<sub>3</sub> or 45 rpm with the aid of a built-in strobe. Other features include remote stop/start and forward/reverse controls, an 'S' shape tone arm, separate pitch control, a detachable PU head fitted with a magnetic cartridge and an XLR socket for a cue light.

**Specification:**  
Wow and flutter: 0.20% wrms  
Turntable platter: 300mm dia aluminium  
Speeds: 33<sup>1</sup>/<sub>3</sub> and 45 rpm  
Power: 220/240V AC 50/60Hz  
Drive motor: 12V dc servo motor  
Dimensions: 420 x 350 x 122mm  
Weight: 4.5kg

## MIXERS

### Battery Operated Stereo Mixer

A high quality low-cost battery powered stereo mixer incorporating sophisticated solid-state circuitry to ensure low-noise performance. The unit is enclosed in an attractive black case designed to eliminate hum while allowing the switch-control panel to be operated with ease. This mixer's range of facilities includes an input for a microphone (600Ω), a headphone socket, two phono inputs (RIAA compensated for magnetic pick-ups), and one auxiliary input for tuner/tape etc. Slide type gain controls on the front panel enable fingertip control for complete mixing and fading. All the input/output phono sockets are at the rear of the unit with the exception of the 6.35mm (1/4in.) mono jack socket for the microphone and the 6.35mm (1/4in.) jack socket for the headphones, which are positioned on the front panel. A PP3 9V battery (JY49D) provides the power to run this unit or alternatively a 9V DC battery eliminator, such as our XX09K may be used. The battery is fitted inside the mixer case and access is via a removable cover in the base. The battery eliminator connection is a 2.1mm power socket on the rear panel.

#### Specification:

Frequency response: 20Hz to 20kHz ±1dB  
 Distortion: <0.5%  
 Signal to noise ratio: >55dB  
 Output: 220mV (max 2V) at 50kΩ  
 Mic input: 0.3mV at 600Ω  
 Phono inputs: 3mV at 50kΩ  
 Aux input: 120mV at 50kΩ  
 Current consumption: 12mA  
 Overall dimensions: 228 x 178 x 80mm  
 Weight: 1176g

Retail Unit Price each (inc. VAT).

### DSM1 Scratch Mixer

Soundlab

- ★ 5 input
- ★ 3 Channel design.
- ★ Mic talkover.
- ★ Cue mixing.
- ★ Twin 5 segment bargraphs.

A compact mixer with crossfader and cue mixing, ideal for the beginner.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC78K	DSM1 Scratch Mixer	1+ £55.310	1+ £64.990

### DSM5 Scratch Mixer

Soundlab

- ★ 8 input.
  - ★ 5 channel design.
  - ★ Mic talkover.
  - ★ Mic equaliser.
  - ★ Twin 5 segment bargraphs.
- An economical, yet fully featured scratch mixer, ideal for the first time buyer.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC79L	DSM5 Scratch Mixer	1+ £63.820	1+ £74.990

### DSM15 Scratch Mixer

Soundlab

- ★ 5 input, 3 channel design.
- ★ Mic talkover.
- ★ Mic equaliser / transform buttons.
- ★ Cue mixing.
- ★ Replaceable crossfader.
- ★ Output level control.

A compact design that features transform buttons and cue mixing.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC80B	DSM15 Scratch Mixer	1+ £85.090	1+ £99.990

### DSM20 Dub Mixer with Channel Equaliser

Soundlab

- ★ 5 input, 3 channel design.
- ★ Mic talkover.
- ★ Mic Equaliser 3
- ★ Channel gain control.
- ★ 3 band channel equaliser.
- ★ Transform buttons.
- ★ Replaceable crossfader.

This is an ideal mixer for the intermediate / advanced DJ. 3 band channel equaliser gives added versatility when dubbing whilst input gain controls allow for a wide variation of input sources.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC81C	DSM20 Dub Mixer + Eq	1+ £119.140	1+ £139.990

### DSM30 Dub Mixer with Multimode Transform

Soundlab

- ★ 5 input, 3 channel design.
  - ★ Mic equaliser.
  - ★ Channel equaliser.
  - ★ 3 Band "kill" switches.
  - ★ Multimode Transform.
  - ★ Cue mixing.
  - ★ 8U vertical format.
- Advanced vertical format dub deck for the serious re-mixer. Kill switches combine with 3 band channel eq. to give precise control over each mix track. Multimode punch buttons, with dual colour indicators, allow drop in, drop out, and substitution transforms - the ultimate in ease of use and creative expression.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
VC82D	DSM30 Mixer+transform	1+ £136.160	1+ £159.990

### DSM55 Sampling Mixer With Graphic Equaliser

Soundlab

- ★ 10 Input, 6 channel design.
  - ★ 3 phono inputs.
  - ★ 4 x 6 second sampler.
  - ★ Sample pitch control.
  - ★ Two mic inputs 7-band.
  - ★ Graphic equaliser.
  - ★ 19" rack mount format..
- Advanced mixer for mobile/club use. 24 second sampler offers single or repeat play with genuinely seamless loop. Banks may be recorded and played in any combination, allowing up to 4 separate samples to be stored at any one time. Dual seven band graphics allow tailoring of the sound to personal taste or control of difficult acoustics.

Retail Unit Price each (inc. VAT).

KSS3H	Cross fader-DSM mxr	£8.500	£9.990

### Stereo Mixer

A quality stereo mixer incorporating sophisticated solid-state circuitry to ensure low-noise performance. The unit is enclosed in an attractive modern case with wooden end cheeks which is designed to eliminate hum while allowing the switch-control panel to be operated with ease. The mixer's large range of facilities includes two inputs for microphones (each independently selectable for 600Ω or 50kΩ), four phono inputs (two for magnetic - RIAA compensated and two for ceramic), one for tuner and one for tape. Slide type gain controls on the front panel enable finger tip control for complete mixing and fading. Two slide controls are for the microphone inputs, two for the phono inputs (each switchable to magnetic or ceramic input), and one switchable for tape or tuner input. As well as the ability to monitor the mixed output on stereo headphones, cue switches are provided for monitoring individual channels. All the fade controls, switches and the left and right VU meters are presented on the front panel while the signal input/output sockets are provided at the rear of the unit. The microphone input sockets are standard 6.35mm (1/4in.) jacks, phono 1 & 2, tape & tuner and output sockets are phono. A 5-pin DIN socket is also fitted for tape recorder.

#### Specification:

Frequency response: 20Hz to 20kHz  
Signal to noise ratio: Better than 50dB  
Mic input: 1mV at 600Ω or 2mV at 50kΩ  
Phono input magnetic: 3mV at 50kΩ  
ceramic: 150mV at 100kΩ  
Tape/Tuner input: 150mV at 100kΩ  
Output: 500mV at 50kΩ  
Tape recorder output: 150mV at 10kΩ  
Headphone output: 35mV at 8Ω  
Overall size 305mm wide x 205mm deep x 85mm high, with a sloping front panel. The unit operates from a 9V PP3 battery (not supplied).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
XJ177 4	Mono/Stereo Mixer	£68.070 £57.650 £51.950	£79.990

### Multi-function Stereo Disco Mixer

A flexible 5-channel stereo mixer which will accept signals from two phono turntables, two line outputs, two microphones, one tape deck and a tuner. Channel pairs 1 and 2 (mic) and 3 and 4 (phono/line) each have their own volume and cross-fade controls. Channel 5 is switchable between tape and tuner. The master control sets the total mixed output volume.

A flexible monitoring section allows any single channel to be heard individually through stereo headphones, so one turntable or tape deck can be 'cued up' while another is playing through the main output or the final mix may be heard. A double VU meter allows the monitoring of the left and right output channel signal levels. A 'talk' switch is provided which when pressed lowers the volume from all inputs except microphone.

A 6-band stereo graphic equaliser provides much more precise control than conventional tone controls. Each slide control can provide up to 12dB of cut or boost and has central click effect in the slide. The equaliser will affect all inputs and can be switched in or out with the front panel EQ/BYPASS switch.

With the exception of the microphone input and headphone output sockets which are 6-35mm (1/4in.) jacks, all connections are made on the rear panel by means of phono sockets. Headphone connection is a standard 6-35mm stereo jack situated on the front panel with an independent volume control. A 5-pin DIN socket is provided to connect a tape recorder. An earth terminal post is also provided but take care not to introduce earth loops if using this.

The unit is housed in a matt-black case with a black anodised control panel and is designed for rack or console mounting. A heavy duty handle is provided at each end of the front panel.

#### Specification:

Input:  
Mic 1 and 2: 1mV at 600Ω  
Phono 1 and 2: 3mV at 50kΩ  
Line 1 and 2: 150mV at 100kΩ  
Tape/Tuner: 150mV at 100kΩ  
Equaliser:  
6 Frequency bands: 55Hz, 170Hz, 530Hz, 1-6kHz, 5kHz, 15-5kHz  
Boost/cut range: ±12dB at centre frequency  
Output voltage: Switchable 1-5V or 0-5V at 600Ω  
Distortion: 0-5% at 1kHz, 1-5V output  
1% at 1kHz, 8-5V output  
Frequency response: 20Hz to 20kHz ±0.5dB  
S/N ratio: Tape, Tuner, Line 60dB  
Phono 55dB  
Mic 50dB  
Phones output: Max 20mW at 8Ω  
Power: 240V 50Hz  
Dimensions: 430 x 260 x 115mm  
Weight: 4kg  
Supplied with operating instructions.

### Stereo Disco Mixer

A boldly coloured (red and black) stereo mixer primarily intended for use in disco applications. The mixer has six main input channels, each with preset level and slide fader controls. Channels one and two are microphone inputs, with switches to select low or high level inputs. Channels three and four are turntable/line level inputs (switch selectable). A special feature on these channels is the provision of auto (turntable) start outputs. Two switch outputs are provided to control low voltage turntable motors, the switches close when the channel faders are moved from the zero position. Channels five and six are CD/line level inputs (switch selectable). Additional to the six main input channels is a DJ microphone input with tone, level and automatic talk-over controls. Adjacent to the channel faders is the master level control and low/high output level switch. A headphone monitor output with level control is provided and a rotary switch allows selection of the input channel to be monitored, alternatively the master output may be monitored. Two seven band (left and right) equalisers are provided, which enable the master output to be equalised to suit room acoustics, if required the equaliser may be bypassed by operating the EQ/bypass switch. Output levels are displayed on two calibrated VU meters. The mixer also has a BBD echo circuit that can produce effects ranging from rapid 'slapbacks' to reverberation and discrete echoes. All input and output connections, with the exception of microphone inputs and start outputs, are made via phono sockets. Microphone and headphone connections are 1/4in. jack sockets.

#### Specification:

Input Sensitivity  
DJ mic: 1mV/10kΩ  
Mic: 1mV/600Ω or 2.5mV/10kΩ  
Phono: 3mV/50kΩ (RIAA equalised)  
Line: 150mV/100kΩ  
CD: 150mV/100kΩ  
Output Level (Master)(Rated): 0-775V/600Ω or 1-5V/600Ω  
(Max): 8V  
Output Level (Record) (Rated): 0-775V/600Ω  
(Max): 8V  
Harmonic Distortion: 0-002% at rated output  
Frequency Response: 20Hz to 20kHz ±0.5dB  
S/N Ratio  
DJ mic: 60dB  
Mic: 60dB  
Phono: 70dB  
Line: 80dB  
CD: 80dB  
Monitor Output: 1W/8Ω  
Equaliser  
Boost/cut: ±12dB  
Centre Frequencies: 60Hz, 150Hz, 400Hz, 1kHz, 2k4Hz, 6kHz, 15kHz.  
Turntable Start Output: 2 outputs rated at 24V DC/500mA  
Echo: BBD; delay time 300mS maximum  
Auto talk Over: Reduces main inputs by 12dB  
DJ Mic Tone Control: 10kHz to 12dB  
Dimensions: 482 x 240 x 120mm

## Professional 8-Channel Mixer

A superb 8-channel mixer that offers a wide range of inputs and facilities, and provides three independently controlled stereo outputs; master, monitor and sub. Separate stereo record and a mono 'effect send' outputs are also provided. Mono channels 1 to 6 inputs are switchable between line or unbalanced microphone (if balanced microphones are used, a matching transformer must be used). Channels 7 and 8 each feature a built-in stereo RIAA-equalised phono preamplifier, for turntables with magnetic cartridges. This circuit can be switched out and replaced by a mono microphone input. Each of the eight channels has controls for input signal gain, treble, mid, bass and effect. High quality faders control the signal level that is fed to the main outputs. Additionally, channels 1 to 6 have a pan pot which adjusts the relative amplitude in the left and right channels of the output and allows the channel to emanate from the left or right, or somewhere in between. Channels 7 and 8, being stereo, have balance controls in place of pan pots. The effect control alters the level of the mix-down being fed to the effect send output. This effects output can feed an echo unit, or similar, the return feed can then be added to the stereo bus, via a level control pot. A stereo auxiliary input facility is available that can be added to the stereo bus via bass and treble controls only. Each channel can be added to the (PFL) bus, which can then be monitored through headphones or the monitor loudspeakers, if used. When depressed, an LED lights and indicates that the channel has been selected to the bus, then by adjusting the gain control the desired level can be set on the VU meters. Alternatively, the master or sub outputs can be monitored. All microphone input sockets and the headphone monitoring socket are 6.35mm (1/4in.) mono jacks, all other sockets are phono. The free-standing mixer is of sturdy metal construction with black finished wooden end cheeks and is mains powered.

Dimensions 400 x 325 x 115mm approx.

### Specification:

input sensitivity	
Mic:	1mV into 1kΩ
Phono:	3mV into 50kΩ (RIAA)
Aux & line:	150mV into 100kΩ
Effect return:	0.775mV into 100kΩ
Output level	
Master, sub, mon:	1.5V rated, 8V max.
Record:	0.775V rated, 8V max.
Effect send:	0.775V rated, 8V max.
Output impedance:	600Ω
Harmonic distortion:	0.01% (rated o/p)
Frequency response:	20Hz to 20kHz ± 1dB (RIAA ± 2dB)
S/N ratio	
Mic:	75dB
Phono:	70dB
Line:	80dB
Aux:	80dB

## 9-Channel Stereo Disco Mixer

A very smart high quality audio mixer primarily intended for disco/audio visual applications. The control panel is finished in semi-matt silver/grey with white and red legend. The nine input channels have individual gain controls and slide faders. Channels one to three are for use with microphones and have additional high/low equalisation controls on each channel. Channels 4 and 5 are turntable inputs and are RIAA equalised accordingly. Channels 6 and 7 are tape/CD inputs. Channels 8 and 9 are auxiliary/video (soundtrack) inputs. Channels 4 to 7 are equipped with auto start outputs for controlling low voltage motors on turntable or cassette decks. An overall master fader controls the output signal level, a balance control is also provided. Output levels are displayed on twin 11 LED VU bargraph displays. To compensate for room acoustics a stereo 10 band equaliser allows fine adjustment of the output signal. If required the equaliser can be bypassed by operating the EQ/bypass switch. A stereo/mono switch is also provided. The monitoring section allows monitoring of any of the individual input channels or the master output. A 6.35mm (1/4in.) stereo headphone socket is provided on the front panel for the monitor output, the level of which can be adjusted by an adjacent control. With the exception of the microphone input and start outputs, all connections are via phono connectors.

### Specification:

Input Sensitivity	
Mic:	3mV/20kΩ
Phono:	3mV/50kΩ (RIAA equalised)

## Professional Stereo Sound Mixer

- ★ 7 separate inputs
- ★ Low total harmonic distortion levels
- ★ High signal to noise ratio
- ★ Headphone output

A high quality, professional stereo sound mixer featuring high quality sliders and two clear, easy to read VU meters. Each input has its own dedicated slider to control input signal level, and a master level control alters the signal amplitude of all the combined inputs. Provision for a BNC lamp holder is provided allowing the mixing desk to be used easily in partial or total blackness. Due to the design of these mixing desks all the controls are easily accessible and arranged in a logical way. Ideal for discos, night-clubs, parties and home recording studios.

### Specification:

Lyonforge  
MX79L - 200Watt Amplifier

Lyonforge slave power amplifier with VU meters and individual level controls. It has full open and short circuit protection and will work on 8-16ohms loads. This is a compact, high power design with reliable mosfet circuitry. Also has the added feature of visual level monitoring. 2U 19" rack mounting front panel.

### Specification

Output power:	115+115 Watts to 8Ω
Load impedance	8-16Ω
Response	20-20,000 Hz ±2dB
Input	500mV/22kΩ
Distortion	0.07%
Dimensions	88x483x220mm
Weight	7Kg

**MX80B - 400 Watt Amplifier**

Lyonforge slave power amplifier with VU meters and individual level controls. Designed using mosfet circuit technology, it has full open short circuit protection and will work on 4-16ohm loads. Smooth power handling and a clean crisp sound characterises this amplifier. Fan assisted cooling. 3U x 19" rack mounting front panel.

**Specification**  
Output power: 204+204 Watts to 4Ω  
Load impedance: 8-16Ω  
Response: 20-20,000 Hz±2dB  
Input: 500mV22kΩ  
Distortion: 0.06%  
Dimensions: 133x483x365mm  
Weight: 9.3Kg

**MX81C - 800Watt amplifier**

Lyonforge slave power amplifier with individual level controls and full open and short circuit protection. The output stage uses mosfet transistors for increased reliability and frequency response. Generously rated circuitry increase the dynamic capability of the P800 and enables it to drive difficult loudspeaker loads effectively. This fan cooled amplifier has level meters and peak indicator and comes with a good reliability record. Input connections are made via XLR plugs, outputs are through speakon connectors. 3U 19" Rack mounting front panel.

**Specification**  
Output power: 410+410 Watts to 4Ω  
Load impedance: 8-16Ω  
Response: 20-20,000 Hz±2dB  
Input: 500mV22kΩ  
Distortion: 0.05%  
Dimensions: 133x483x450mm  
Weight: 16Kg

**MX82D - 1200 Watt Amplifier**

The largest Lyonforge power amplifiers, giving a total power of more than 1100 Watts. Individual level controls and output meters are provided for accurately setting power levels. Mosfet transistors are used in the output stage for increased reliability and frequency response. The amplifier has full open circuit, short circuit and D.C. protection and will work with 4-16ohm loads. Cooling is assisted with two fans. This amplifier is suitable for driving high power P.A.s or stack systems and must be used with suitable loudspeaker cabinets. Input connections are made via XLR plugs, outputs are through speakon connectors. 4U 19" Rack mounting front panel.

**Specification**

Output power: 590+590 Watts to 4Ω  
Load impedance: 8-16Ω  
Response: 20-20,000 Hz±2dB  
Input: 500mV22kΩ  
Distortion: 0.06%  
Dimensions: 175x483x455mm  
Weight: 22Kg

**See Section 11, Enclosures and Accessories**  
for our full range of 19in. rack enclosures

**19" RACK ACCESSORIES**

**Echo Chamber**

A good quality solid state echo unit housed in a matt black case. The front panel accommodates all the controls and input/output jacks. The unit provides two standard 6-35mm (1/4in.) input sockets, a low impedance (50dB 10kΩ) socket for the microphone and a (-20dB 330kΩ) socket for instruments and line outputs of hi-fi, organ, synthesisers, etc. There is a footswitch jack on the front panel for a remote control switch. The delay time control is variable between 30 and 200ms and there are three selectable output levels of (0, -20dB and -40dB) to allow connection to any amplifier. There is also a peak level indicator to show when the input level is too high and likely to cause distortion. The balance control adjusts the equilibrium of direct/ echo sound and may be set to minimum to allow direct (no echo), or through to maximum (total echo). The repeat control sets the echo sound repetition rate and the dial is rotated clockwise to increase the speed. Case size: 245 x 150 x 61mm.

**Retail Unit Price each (inc. VAT).**

Order Code	Type	Price each exc. VAT	inc. VAT each
YP67X 3	Echo Chamber	£59.560	£69.990

**Professional 31-Band Graphic Equaliser**

A high-quality mono graphic equaliser designed for mounting into a standard 48cm (19in.) rack (with 1U of available height). With 31 bands available, each of which can be boosted or cut by 12dB, the overall sound can be tailored precisely to the venue. The

unit is also equipped with bypass, level and low-frequency filter controls, and a four-LED bargraph output level meter.

**Specification:**

Input level: 5-5V max into 1-2 kΩ  
Output level: 5-5V max into 20 kΩ  
S/N ratio: 90dB  
Distortion: 0-03%  
Control frequencies: 20Hz, 25Hz, 31-5Hz, 40Hz, 50Hz, 63Hz, 80Hz, 100Hz, 125Hz, 160Hz, 200Hz, 250Hz, 315Hz, 400Hz, 500Hz, 630Hz, 800Hz, 1kHz, 1-2kHz, 1-6kHz, 2kHz, 2-5kHz, 3-1kHz, 4kHz, 5kHz, 6-3kHz, 8kHz, 10kHz, 12-5kHz, 16kHz, 20kHz  
Power: 230V AC, 50Hz  
Dimensions: 483 x 44 (1U) x 270mm

Order Code	Type	Price each exc. VAT	inc. VAT each
DU83E 1	Graphic EQ	£136.160	£159.990

**Professional 15 Band Stereo Graphic Equaliser**

A 48cm (19in) rack mounting (1U high) stereo graphic equaliser with independent tone control of left and right channels. Each frequency band can be boosted or cut by 12dB. The unit also features bypass, low cut and output level controls for each channel. Each channel has a 4-LED output level meter.

**Specification:**

Input level: 5-5V max into 1-2 kΩ  
Output level: 5-5V max into 20 kΩ  
S/N ratio: 90dB  
Distortion: 0-03%  
Control frequencies: 31-5Hz, 40Hz, 63Hz, 100Hz, 160Hz, 250Hz, 400Hz, 500Hz, 630Hz, 800Hz, 1kHz, 2kHz, 4kHz, 8kHz, 16kHz.  
Power: 230V AC, 50Hz  
Dimensions: 483 x 44 (1U) x 270mm.

## NJD Euro 6S Rack-Mounting Switch Panel

A simple six-channel switch panel designed for mounting into a 19in. rack (1U high), the Euro 6S provides six 'zero-switched' mains outlets, each individually fused with its own indicator. For ease of connection, six separate IEC output sockets are provided. Housed in a compact case and finished in its distinctive blue livery, the Euro 6S is the ideal switch panel.

### Specification:

Maximum load per channel: 5A 1-2kW resistive  
 Maximum total load: 15A 3-6kW (reduce to 13A if connected via a standard BS1363 mains plug and socket)  
 Output connectors: 6 x IEC 320 (BS4491) Euro-type sockets  
 Power requirements: 220/240V AC 50/60Hz  
 Dimensions: 483mm x 44mm (1U) x 130mm  
 Weight: 1.65kg

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DW59P 1	Euro6S Switch Panel	£110.620	£129.990

## Euro 4E Computer Chaser

A high-quality rack-mounting light controller. By combining computer-aided design with the latest microprocessor technology, the Euro 4E packs an astounding range of facilities into a 1U high package. 24 pre-programmed chase patterns, 3 auto-run programs, sound chase or sound-to-light, manual over-ride on all channels and 3 or 4 channel operating modes are just some of the features on this superb controller. Finished in its distinctive 'Euro Blue' livery, the Euro 4E typifies the modern trend towards more and more compact lighting control.

### Specification:

Audio input sensitivity: 2V to 40V rms  
 Audio input impedance: 680Ω  
 Audio input connector: 6.3mm jack  
 Maximum load per channel: 4A 1kVA (1kW resistive, 600W inductive)  
 Maximum total load: 15A 3-6kW (reduce to 13A is connected via standard BS1363 mains plug and socket)  
 Output connectors: 8-pin Bulgin P552 socket  
 Output voltage: 220/240V AC (as input)  
 Power requirements: 220/240V AC  
 Dimensions: 483mm x 44mm (1U) x 110mm  
 Weight: 1.25kg

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DW62S 1	Computer Chaser	£136.160	£158.990

## Patch Box

This tough and reliable 16 x 2 channel patch box is constructed in heavy black steel in the 48cm (19in) rack mounting format. It's ideal for patching between amps, mixers, instruments, mics, etc.  
 Dimensions: 484 x 44 (1U) x 80mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
EL02C 1	Patch Box	£51.050	£59.990

## 19" Rack for Non Standard Equipment.

19" Rack Clamp for mounting of non standard equipment. With strong steel clamping bars. 1.2mm steel, black powder coated. Depth 250mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
MX74R 1	Adjustable 19in rack	£29.770	£34.990

## 19" Rack Casing

Build your own 19" rack casing without all of the hassle of drilling out awkward shaped holes. These panels come ready cut to fit.

MX48C - 19" 2U universal frame 1.5mm steel, black powder coated.

MX49D - 19" 2U Rear cover, 65mm deep

MX50E - Cable Gland for rear cover.

MX51F - Blank panel, height 2 U, width 1/10

MX52G - Blank Panel, height 2U, width 2/10

MX53H - Blank Panel height 2 U, Width 4/10

MX54J - Ventilation panel Height 2 U, width 2/10

MX55K - Punched for 2 x jack sockets, height 2 U width 1/10

MX56L - Punched for 4 x jack socket, Height 2 U, width 2/10

MX57M - Punched for 6 x jack socket, Height 2 U, width 2/10

MX58N - Punched for 2 x XLR universal or 2 x Speakon 4 pole. Height 2 U, Width 1/10

MX59P - Punched for 4 x XLR universal or 4 x Speakon 4 pole. Height 2 U, Width 2/10

MX60Q - Punched for 1 x speakon 8 pole, 1 x Alcatel EP/AP. Height 2 U, Width 2/10.

MX61R - Punched for IECC 240V 6A female. Height 2 U, Width 2/10

MX62S - Punched for IECC 240V 6A male. Height 2 U, Width 1/10

MX63T - Punched for IECC 240V 6A female. Height 2 U, Width 1/10

MX64U - Punched for 220V Schuko socket with blue cover. Height 2U, Width 2/10

MX65V - Punched for CEE 380/415V 16A and CEE 380/415V 32A. Height 2 U, Width 2/10

MX66W - Punched for Harting 64 pin. Height 2 U, Width 4/10

MX67X - Punched for Harting 102 pin. Height 2U, width 4/10

MX68Y - Punched for EDAC 56 pin. Height 2 U, Width 2/10

**Business Account Holders**  
**No Delivery Charges for any order**

**MX69A** - Punched for EDAC 90 pin. Height 2U, Width 2/10

**MX70M** - Punched for 2 x Siemens 30 pin. Height 2 U. Width 2/10

**MX71N** - Punched for 2 x D sub 25 pole. Height 2 U, Width 2/10

**MX72P** - Punched for 2 x D Sub 37 pole

**MX73Q** - Punched for SOCAPEX 337 or Bulgin 8 pole

## Isolating Screws for 19" Racks

Isolate your sensitive 19" equipment from direct "body contact" with each other and the rack, thereby eliminating ground loops which are the most common cause of hum and noise. A practical side effect is that scarring and scratching of the front panel by the mounting screws is also eliminated.

One bag will isolate one device and contains:

- ★ 4 plastic folding washers
- ★ 4 specially isolated screws
- ★ Instructions

Retail Unit Price each (inc. VAT).

### Multiple Cable Test System

The Adam Hall multi cable tester is a compact and comprehensive testing device for a wide range of audio cables. It is simple to use, with well laid out high quality sockets and a clear LED read-out. It will test cables fitted with any combination of speakon, phono, BNC, 6.5 jack, 5-pin DIN, and XLR male and female connectors. A rotary control selects pins 1-5 showing a yellow LED for the right connector and a green LED for the left, thereby not only showing if the connection is being made, but whether it is in phase. A further red LED shows if any pin has connected to ground. Power is from a single 9V battery.

Retail Unit Price each (inc. VAT).

## Accessories

### Mic Matching Transformer

This mic matching transformer is a must if you want to match the low impedance of your expensive microphone to the high impedance of most amplifiers. The transformer is used at the amplifier end to minimise noise and losses due to the mic lead. Mu-metal screened transformer.

#### Specification:

Input: 500Ω 6.35mm jack socket  
Output: 50kΩ 6.35 jack plug  
Dimensions: 22.5 (dia) x 100mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+			1+
BE80B	Mic Transformer	£7.650			£9.990

### Mic Matching Transformer/ XLR Female Plug

Another professional mic matching transformer but this time built into an XLR female plug and with a short lead to an all metal 6.35mm jack plug. For even greater versatility the transformer has an impedance selector switch for high/low input. Mu-metal screened transformer.

#### Specification:

Input: 600Ω or 50kΩ XLR female connector  
Output: 50kΩ 6.35mm jack plug  
Total length: 270mm

Retail Unit Price each (inc. VAT).

**KARAOKE**

**Karaoke Drum Machine**

Goodmans

- ★ 20W PMPO
- ★ Twin cassette with auto stop
- ★ 3-Band graphic equaliser
- ★ Sockets for 2 microphones
- ★ Public address facility
- ★ Detachable drum pad
- ★ Full range 5in. (130mm) speaker
- ★ Bass boost

The Karaoke drum machine features a graphic equaliser, twin cassette decks, bass boost circuitry, 5 drum and 10 scratch rhythms, high speed dubbing, sequential play and tape multiplex facility (auto vocal fader). Video software compatibility also allows this unit to be connected to a video recorder, giving on screen graphics. Tempo, slide treble and bass controls allow you to continually adjust the output to suit the environment and mood! With the 5 drum and 10 scratch rhythms you can even join in - adding your own beat and style to your performance. Supplied with full operating instructions, a video and audio tape, audio/video lead and drumsticks.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DW74R1	Karaoke Drum MC	£110.620	£129.990

**Boogie Box XBIII**

Goodmans

- ★ 20W total output
- ★ MW/FM waveband tuner
- ★ Echo facility

- ★ Twin stereo cassette decks with high speed dubbing and relay play
- ★ Master volume control
- ★ Tone control
- ★ Bass boost switch
- ★ Auto vocal cut
- ★ 2 X mic volume controls

A high quality Karaoke machine capable of receiving MW and FM broadcasts, this unit is also ideal for providing background music. The twin cassette decks allow continuous play and dubbing to be performed, while the whole system is 'Video Ready' enabling on screen graphics to be shown when used in conjunction with a suitable video recorder. Supplied with a microphone and backing tape. Features include bass boost, echo facility, tone and master volume control and two mic sockets. Supplied with full operating instructions, a microphone and a backing tape.

Retail Unit Price each (inc. VAT).

KS68A	Casio key+6 trk sqcr	£170.200	£198.990

## Yamaha PSR-520

The top model in Yamaha's PSR range, the General MIDI-equipped PSR-520 bridges the gap between home keyboard and professional synthesiser. The unit employs Yamaha's new high-resolution AWM chip with digital filtering for sounds of accuracy and realism never before experienced on a home keyboard. The standard 128 General MIDI sounds are available, and are accompanied by a dual-voice function and a series of high-quality DSP effects, including digital reverb and 43 chorus types. The timbre, as well as the volume, of these effects can be controlled for realism. For example, brass instruments can be made to sound 'sharper' if the key is struck harder. The PSR-520 can be expanded by the use of Yamaha's 'interactive' cartridges, which are not dissimilar to the General MIDI disk/songbook combinations available for other, more expensive, keyboards. Such a cartridge is supplied with the PSR-520, and a range of others are available from Maplin. Other features include a large backlit LCD multi-function screen, registration memory, 4-track sequencer, MIDI connectivity, 100-strong rhythm section, auto-accompaniment and 400 one-touch settings. The keyboard is a 61-note type, with switchable touch response and a pitch-bend wheel. Four programmable 'multi-pads' hold short sequences that can be accessed whenever required. A total of 8W per channel is available from the built-in stereo amplifiers. Powered by 6 D cells (alkaline JY46A recommended, not included).  
 Dimensions: 940 x 350 x 100mm.  
 Weight: 5kg.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DW69A1	Keyboard PSR520	£451.050	£529.990

## Fully Featured Keyboard

Yamaha

With its AWM chip containing realistic recordings of instruments, the MIDI equipped PSR-320 is capable of sounds normally in the realm of more expensive

keyboards. A large and comprehensive LCD screen displays operational status, including tempo, style, backing, voice selection and more. It is easy to understand and makes the keyboard even easier to use, especially for the more advanced functions like digital effects. At the touch of a button you can select one of the 128 built in voices, one of the 8 percussion kits or one of the 100 built in styles with instant feedback provided by the LCD.

### FEATURES

- ★ 61 note key pad
- ★ Large LCD with graphic interface
- ★ General MIDI compatible
- ★ Guide lamps for easy learning (indicates interactively when and which key should be pressed)
- ★ Music Cartridge slot (allows you to expand the built in song range)

Retail Unit Price each (inc. VAT).

## KEYBOARD ACCESSORIES

### Adjustable Keyboard Stand

A good quality, strong, fully adjustable stand for portable keyboards. The keyboard stands on soft rubber pads with the base of the keyboard 740mm from the ground. The keyboard is held lightly in position and the stand suits keyboards with the following dimensions: minimum width 420mm, minimum depth (front to back) 185mm. Maximum width of stand 720mm though longer keyboards could overhang. Maximum depth of keyboard 310mm. The stand can be assembled and disassembled very quickly for easy transportation.

DU66E	Metronome	£25.520 £21.450 £19.080	£26.990

## Contact Springs

Silver-plated sprung-steel springs for use as contacts on organ keyboards. One end is beveled slightly to facilitate soldering. Overall length: 48mm (can be cut to any length). Diameter: 1.4mm. Diameter of bell: 2.3mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
QY07H	Contact Springs	£0.297 £0.260 £0.200	£0.350

## MIDI

### MIDI Switch

This handy device can be used to route MIDI data from a single IN to either of two OUT's or two IN's to a single OUT, depending on the way you connect the MIDI leads. This is particularly useful when one part of your rig needs to be isolated or when a single device is played from two separate rigs. Simply connect the leads and you can change the data flow at the flick of a switch without needing to pull out cables – saving you time and inconvenience and reducing wear on tear on your sockets. Requires no power supply.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BS79L	MIDI Switch	£13.600	£15.990

### MIDI Merge

The MIDI Merge logically combines the MIDI messages from two MIDI sources (from a computer and a keyboard, for example) to form a single MIDI OUT datastream. The use of MASTERSHIP states means that either input can be used to control MIDI TIME CODE (MTC).

Once connected, its operation is transparent to the user and the unit needs no manual intervention to carry out its task. However, to allow monitoring, each MIDI IN has an associated lamp that flashes when data is received, with the intensity of the flash indicating the type of MIDI data involved.

The use of low power technology means that this unit needs no batteries or power supply connections, it draws its power from one of the MIDI inputs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BS76H 1	MIDI Merge Box	£68.070	£79.990

Order £30 or above?

Account holder or not, your order will be sent carriage paid.

(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)

## MIDI Thru Box (1 Midi in, 3 Midi Thru)

This MIDI THRU Box is a smaller version of BS78K and is an ideal alternative to 'daisy chaining' MIDI leads in a smaller, less complex setup. This unit makes it possible, for example, to connect a keyboard to a sequencer or computer and two MIDI expanders without creating a loop and without risking loss of data. It also makes it easy to include equipment with no THRU connection in your MIDI setup. Powered by a single PP3 battery (JY49D, not supplied) – an automatic switch ensures long battery life.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BS77J	MIDI 1>3	£14.450	£16.990

## MIDI Thru Box (2 Midi in, 8 Midi Thru)

This solidly built black metal box has been designed to allow you to expand the number of MIDI OUT's (THRU's) available on your MIDI setup and control a number of possible configurations at the flick of a switch.

While 'daisy chaining' (i.e. MIDI OUT to IN, then THRU to IN, etc.) is fine for smaller rigs, it can soon become unwieldy and fraught with technical difficulties as your MIDI collection grows. This unit overcomes this problem and offers two inputs that can be shared between two banks of four THRU's, allowing an easily controlled set of MIDI combinations without the need to continually unplug cables for each setup. The unit can also be used to connect a single IN to 8 THRU's. Requires a 9V AC adaptor (not supplied – see our 'Batteries and Power Supplies' Section for a suitable adaptor).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BS78K	MIDI 2>8	£31.480	£36.990

## Patch Commander Foot Pedal

The Patch Commander becomes even more versatile when you add this Foot Pedal to the setup. It has two switches which can be programmed to carry out a number of increment/decrement or on/off functions – including step through stored patch changes or program number, start/stop MIDI clock and modulation on/off – to provide simple 'hands free' operation during your performance.

Dimensions: 120 x 85 x 40mm  
Supplied with connecting cable.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BS80B	Patch Com Pedal DF1	£17.010	£19.990

## GUITAR AMPLIFIERS

### 10W Guitar Amp

A very compact and sturdily built 10W guitar amplifier. This amplifier is primarily intended for use as a practice amp, but if 'miked-up' could be used in other applications. Front panel controls are on/off, master volume, treble, mid and bass. An 'on' LED and 6.35mm (1/4in.) input socket are also fitted on the front panel.

**Specification:**  
Power output: 10W rms 8Ω  
Input impedance: 220kΩ  
Maximum input signal level: 10V pk-pk

**Equalisation:**  
Bass: 8dB boost (100Hz)  
Mid: 12dB boost (500Hz)  
Treble: 20dB boost (10kHz)  
Power requirements: 240V AC 50Hz mains  
Fuse rating: 1A fast blow  
Dimensions: 245 x 265 x 165mm (excluding feet & handle)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
XM34M9	10W Guitar Amp	£42.540	£49.990

### 15W Guitar Amplifier

A powerful 15W rms guitar amplifier and loudspeaker in an extremely tough wooden cabinet with corner protectors and carrying handle. Two inputs are provided, one for low output and one for higher output guitars. When switched to Channel 2, the output volume is controlled by the Channel 2 level control and the Overdrive is bypassed. The three channel Equaliser controls Treble, Mid and Bass. The Treble control adds crispness to the sound, the Mid control can thin-out or fatten-up the tone when turned down or up respectively, and the Bass control adds warmth to the sound. The Overdrive circuit is brought into operation by switching to Channel 1. The circuit uses multiple feedback loops to create an effect similar to that heard when a valve amplifier is overdriven. Turning the Pre-gain control clockwise increases the level with the distortion occurring in the last quarter-turn. The Post-gain control cuts or boosts the level of the signal from the Overdrive circuit. It will enable the correct balance to be reached between the unchanged and overdriven signal, and works together with the Pre-gain control to set the total harmonic content, gain and operating level. When switched to Channel 1, the Channel 2 level control will still have some effect on the output volume, and the Treble control, now adds bite or edge to the overall sound. Three standard 6.35mm (1/4in.) jack sockets are provided on the back of the amplifier. The Phones output allows a stereo headphone to be plugged in and doing this cuts off the internal speaker for private listening (the output is mono). The Line output allows an external power amp, PA system, or tape recorder to be driven from the amplifier. Finally, the Footswitch socket allows a footswitch to be connected and duplicates the Channel 1/Channel 2 switch so that the Overdrive circuit can be switched in and out during a performance.

**Specification:**  
Power output: 15W rms at 1kHz (THD = 10%)  
Loudspeaker: 200mm dia. 4Ω  
Bass boost: >8dB at 100Hz  
Mid boost: >10dB at 500Hz  
Treble boost: >20dB at 10kHz  
Frequency response: 120Hz to 20kHz (all tone controls at 10)  
Input sensitivity: 28mV at 220kΩ (high)  
56mV at 20kΩ (low)  
Signal to noise ratio: Better than 50dB  
Power source: 240V AC 50Hz  
Fuse type: 1A 250V AC fast acting  
Size: 335 x 345 x 182mm  
Net weight: 6kg

Retail Unit Price each (inc. VAT).

## 75W Guitar Amp

A powerful 75W amplifier that has two 6.35mm (1/4in.) input jack sockets (high and low). Controls are provided for 'overdrive'; pre-gain, post-gain and waveform (adjusts the harmonic content). The overdrive may be switched in or out, either from the front panel or via a foot switch (not supplied). Controls are also provided for reverb, bass, low mid, high mid, treble and master volume. An additional switch 'bright' gives the signal more presence. The rear panel has a mains on/off switch and three jack sockets; external speaker (8Ω), pre-amp out and power amp in.

### Specification:

Power output: 75W rms 8Ω  
 Bass: ±15dB (50Hz)  
 Low middle: ±15dB (300Hz)  
 High middle: ±15dB (2kHz)  
 Treble: ±15dB (10kHz)  
 Bright: +8dB (3kHz)  
 Overdrive gain: 80dB (1kHz)  
 S/N ratio: >60dB

### Input impedance:

Low: 36kΩ  
 High: 1MΩ

### Maximum input signal level:

Low: 20V pk-pk  
 High: 10V pk-pk  
 Pre-amp out: 1V rms (10kΩ)  
 Power amp in: 1V rms (28kΩ)  
 Power requirements: 240V AC 50Hz mains  
 Fuse rating: 3A fast blow  
 Dimensions: 440 x 460 x 260mm (excluding feet & handle)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
XM55Q 34	75W Guitar Amp	£153.180	£179.990

## 40W Bass Amp

A powerful 40W bass guitar amplifier with built-in limiter, sturdily built and ideal for on-stage use. This amplifier provides two 6.35mm (1/4in.) input jack sockets (high and low), controls are provided for

volume, bass, mid and treble. A limiter circuit is included which prevents the amplifier from being overdriven. The limiter may be switched in or out from a front panel switch, operation is indicated by an LED. Sockets are provided for line out and headphones. The on/off switch is on the rear panel and an LED on the front panel indicates power on.

### Specification:

Power output: 40W rms 8Ω  
 Bass: ±12dB (50Hz)  
 Middle: ±12dB (500Hz)  
 Treble: ±12dB (5kHz)  
 Limiter range: 23dB  
 S/N ratio: >50dB

### Input impedance:

Low: 36kΩ  
 High: 220kΩ

### Maximum input signal level:

Low: 20V pk-pk  
 High: 10V pk-pk  
 Headphones output: 250mV 8Ω  
 Line output: 2V pk-pk (10kΩ)  
 Power requirements: 240V AC 50Hz mains  
 Fuse rating: 2A fast blow  
 Dimensions: 440 x 490 x 290mm (excluding feet & handle)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
XM36P 37	40W Bass Amp	£127.650	£149.990

## 75W Bass Amplifier

A robust, high quality, bass amplifier, designed for the professional bass player, and capable of delivering 75W rms. The amplifier is equipped with high and low level impedance inputs to match the instrument used. Each input has a gain control. A limiter circuit with LED indication is incorporated that will attenuate high level peaks to avoid distortion. This feature is very useful for those bass players who 'slap', 'snap' or 'hammer' the strings. The green LED indicates when the limiter is switched on. The active equaliser circuit includes four individual boost and cut controls (treble, hi-mid, lo-mid and bass) to match room or hall acoustics. Larger rooms and halls will tend to reinforce bass output, while people will attenuate the treble. Treble and bass boost will be more noticeable when the 'mid' controls are reduced.

The front panel includes a standard 1/4in. headphone jack. Plugging in headphones will remove the amplifiers output to the speaker. The back panel has an input jack to allow the main amplifier to be used with an external preamp. A line-level output allows the internal preamp to feed an external amplifier, PA system or tape recorder. 'Effect Loop Send' and 'Return' jacks are included in the line level signal path to include external effects units. The substantial cabinet is covered in a hard wearing material to cope with the rigours of professional use.

### Specification:

Speaker diameter: 15in.  
 Power output (8Ω load): 75W rms  
 Treble control (8kHz): ±10dB  
 Hi/mid range control (2kHz): ±10dB  
 Lo/mid range control (500Hz): ±10dB  
 Bass control (125Hz): ±10dB  
 Limiter range: 23dB  
 S/N ratio: >50dB  
 Input impedance high: 470k  
 low: 47k  
 Dimensions: 448 x 326 x 636mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
AG88V 34	75W Bass Amplifier	£170.200	£199.990

## EFFECTS PEDALS

### Voice Processor with Sound Effects

Wind up your friends over the phone! This compact voice processor is designed to increase or decrease the pitch of an input signal at the touch of a button, disguising your voice. The processor can take its signal from a microphone or line-level input, a slide switch selecting that used. Also included is a range of 8 sound effects which are activated at the touch of a button. The pitch of these can also be varied. The unit is powered by a PP3 battery (alkaline recommended, JY49D) not included.

### Specification:

Input sensitivity (line): 150mV  
 Input sensitivity (mic): 1.5mV  
 Output level: 250mV  
 Signal-to-noise ratio: Greater than 65dB  
 Power supply: 9V DC from PP3 battery (not included)  
 Dimensions: 190 x 140 x 34mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BE90Q 1	Voice Processor	£40.840	£47.990

### Tube Driver

This device is for those who wish to reproduce the 'classic' sound of valve amplifiers, as used by groups in the 60s and 70s. This tube driver features 'level', 'distortion' and 'hi' and 'low' equalisation controls to alter the effect. The rotary control knobs are colour-coded white.

### Specification:

Input impedance: 470k  
 Output impedance: 220Ω  
 Gain: 60dB  
 Equalisation range: ±15dB  
 Signal-to-noise ratio: 75dB  
 Frequency response: 70Hz to 7kHz

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
B231J 11	Tube Driver	£29.770	£34.990

## Compressor

A useful device when increased sustain is desired without adding unwanted distortion. 'Attack' and separate 'sustain' controls provide a variable adjustment of the actual compression range to be developed. A 'level' control is also provided which regulates the effect's level. Suitable for all amplified instruments especially electric guitar and bass. The rotary control knobs are colour-coded lemon yellow.

### Specification:

Input impedance: >300kΩ  
 Output impedance: 200Ω  
 Compression range: 40dB min.  
 Attack time: 1ms max.  
 Signal-to-noise ratio: 80dB min.  
 Frequency response: 70Hz to 5kHz

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YB88V	11 Compressor	£28.070	£32.990

## Ultra Metal

One of the very best examples of this kind of effect available today, it is ideal for the 'heavy metallist' who needs more overdrive. The ultra-metal features a finely tuned voicing and extended range and has four controls: 'hi', 'lo', 'distortion' and 'level'. The unit can provide sounds ranging from a fairly gentle blues sustain to a blistering heavy-metal overdrive. The rotary control knobs are colour-coded light-grey.

### Specification:

Input impedance: >300kΩ  
 Output impedance: 200Ω  
 Gain: 60dB max.  
 Signal-to-noise ratio: 70dB min.  
 Frequency response: 70Hz to 5kHz  
 Eq range: ±18dB

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YN22Y	11 Ultra Metal	£34.030	£39.990

## Stereo Chorus

This chorus unit has stereo outputs and has separate 'depth', 'rate' and 'intensity' controls. The 'rate' control varies the speed of the effect, whilst the 'depth' and 'intensity' controls regulate the short-time delay and chorus effects. The rotary control knobs are colour-coded electric-blue.

### Specification:

Input impedance: >300kΩ  
 Output impedance: 200Ω  
 Gain: 0dB  
 Rate: 0.2Hz to 10Hz  
 Delay time: 2.5ms to 12.8ms  
 Signal-to-noise ratio: 75dB min.  
 Frequency response: 70Hz to 5kHz

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YN20W	11 Chorus	£34.030	£39.990

## Phaser

One of the most useful effects in contemporary music. The 'depth' and 'feedback' controls give variations in the sound from a clean phase effect to a deep 'rolling' effect. Effect width is adjusted automatically in accordance with the speed selected on the 'rate' control. The rotary control knobs are colour-coded salmon-pink.

### Specification:

Input impedance: >300kΩ  
 Output impedance: 200Ω  
 Max input level: 0dBm  
 Gain: 0dB  
 Signal-to-noise ratio: 70dB min.  
 Frequency response: 70Hz to 5kHz  
 Sweep rate: 0.1Hz to 10Hz  
 Phase shift: 720°

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YN23A	11 Phaser	£34.030	£39.990

## Fuzz Pedal

A fuzz distortion unit which can create a wide range of sound colouration from wild hard distortion to fine soft distortion. Level and fuzz controls.

### Specification:

Input impedance: 300kΩ  
 Output impedance: 200Ω  
 Gain: 50dB  
 S/N ratio: 90dB  
 Frequency response: 100 to 10kHz  
 Dimensions: 125 x 75 x 55mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DU87U	11 Fuzz Pedal	£34.030	£39.990

## Stereo Analogue Echo

This stereo echo unit uses solid-state bucket-brigade devices (BBDs) instead of electromechanical springlines for high reliability and audio performance. Inputs from a pair of low impedance microphones and speaker outputs from personal stereos, etc., can be mixed together prior to echo processing. Level adjustment relies on the source. The stereo output is available via a pair of phono sockets. There are also output bass and treble controls, and an echo level adjuster. A moving-coil VU meter allows the output level to be monitored. Powered from PP3 battery (alkaline recommended, JY49D not included) for portability, or from an external 9V DC power unit (not included).

Input sensitivity (mic): -73dB into 600Ω  
 Delay time: Fixed at 200ms  
 Power: 9V DC (PP3 battery)  
 Dimensions: 240 x 45 x 105mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BE61R	1 Stereo Analog Echo	£28.070	£32.990

## GUITAR ACCESSORIES

### Guitar Stand

An adjustable, fold away, chromed tubular guitar stand. Suitable for use with most electric and acoustic guitars.

Height: 80cm  
 Neck Width (max): 75mm  
 Foot Print: 42 ¥ 42 ¥ 56cm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
XM23A	3 Guitar Stand	£13.600	£15.990

### Guitar/Bass Tuner

Yamaha

The Yamaha YT-1100 Guitar/bass tuner with built in microphone features a battery checker and pitch selection.. The unit is appropriate for use with acoustic, and electric guitars.

### Specification:

Indicators: VU Meter  
 Tuning Notes: 6E(4E), 5A(3A), 4D(2D), 3G(1G), 2B, 1E.

VU Meter Precision: ± 1cent  
 Standard Pitch: A4 = 440Hz  
 Added Function: Battery check  
 Jacks: Input, Output  
 Power Source: 9V dry cell battery (006P or 6F22)

Battery Life: Approx. 80 hours  
 Dimensions: 146 x 48.5 x 32.5 mm  
 (WxHxD): (5-3/4" x 1-15/16" x 1-1/4")  
 Weight: 155g (5.5oz) with battery  
 Accessory: 9V dry cell battery (6F22) x 1

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FU90X	Guitar Tuner	£21.260	£24.990

### Acoustic Guitar Transducer

A high level output transducer with low distortion, wide frequency response and good overload capability. The device measures just 21mm in diameter and is supplied with 1m of lead terminated in a standard mono jack. Height 8mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BM97F	Guitar Transducer	£5.090	£5.990

## Ashley Acoustic Guitar Transducers

A range of small easily fixed transducers, for use with acoustic guitars. The units offer wide frequency responses comparable with the best microphones. The onset of acoustic feedback compared to a microphone is considerably delayed, and they have a very high output. They are very convenient to use; simply attach to the bridge close to one end of the saddle using the self-adhesive material supplied. The material allows lifting and repositioning of the transducer without damage to the guitar. The unit may be fixed to its bevelled face to give an alternative bass response. Size: 28 x 10 x 8mm. Two types are available. Model AJ21 is the top of the range, and has an exceedingly smooth frequency response. Model AJ51 has a slightly emphasised treble response and is recommended for acoustic guitars in loud electric groups. Supplied with short lead terminated in a standard mono jack line socket.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YL08J	1+ Pickup Transl.AJ21	£29.770	£34.990
YL09K	1+ Pickup Transl.AJ51	£21.260	£24.990

## Guitar Lead

A straight extension lead of the highest quality with a brass bodied, 1/4in. jack plug at each end. The jack plug bodies have knurled finger grips and moulded strain relief sleeves. This lead is manufactured with untinned OFC (oxygen free copper) conductors to preserve sound purity. Length 6m. Colour black.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CC39N	1+ 10+ 25+ Guitar Lead	£8.500 £6.650 £5.950	£9.990

## Guitar Pickup

A good quality magnetic guitar pick-up for six-string acoustic guitars. The pick-up clips into the circular hole in the sound board. Tone and volume controls are provided and a 3.5mm mono jack socket. A lead is provided to connect to this socket and has a 6.35mm (1/4in.) mono jack plug at the other end. Lead length 2m.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YT39N	1+ Mag Guitar Pick-Up	£9.770	£11.490

## Direct Injection Box

Is your bass guitarist unbalanced? This pre-amplified direct injection box will soon straighten him out - it's specifically designed to provide a 600Ω balanced output to the mixer from an unbalanced musical input.

Encased in a tough all steel case, the box is provided with 0, -20, -40dB attenuation switch, Gnd/float/lift switch, low battery indicator and link output. Powered from an internal PP3 battery (not supplied) or external 9-12V DC power supply (not supplied).

**Specification:**  
Output impedance: 600Ω  
Dimensions: 118 x 82 x 30mm  
Power: 9-12V DC

Retail Unit Price each (inc. VAT).

XY28F	2 Remote Foot Control	£21.260	£24.990

## PUBLIC ADDRESS

### P648W (120W RMS) and P648U (60W RMS) Mixer Amplifiers

Quality, low-cost and high power output, make these amplifiers the ideal choice for medium and large PA systems. Five inputs are provided: one balanced microphone input with voice operated priority over all other inputs, two unbalanced microphone inputs and two auxiliary inputs for background music. Separate bass, treble and individual volume controls for all inputs are located on the front panel. 100V line or low impedance loudspeakers may be used. A booster output is provided to enable the system to be expanded using booster amplifiers. These amplifiers can be used in marine and commercial vehicle applications using the 24V DC power input.

	P648U	P648W
Power Output	60W	120W
Speaker Outputs	8Ω/70V/100V	
Frequency Response	60Hz-17kHz	
THD @ rated output	< 3%	
Mic Input sensitivity	1.5mV @ 600Ω/2kΩ

## 646U (40W RMS) and P646S (20W RMS) Mixer Amplifiers

A choice of 40W or 20W output with mains and 12V operation, make these amplifiers suitable for use in a wide variety of small and medium sized public address systems. There are two balanced microphone inputs. A jack socket is provided on the front panel for mic one. Mic two has a voice activated priority circuit to automatically mute all other inputs. There are two auxiliary inputs for background music. Either low impedance or 100V line loudspeakers can be used. Separate Mic 1, bass, treble and a dual auxiliary control are located on the front panel.

	P646S	P646U
Power Output	20Wrms	40Wrms
Speaker Outputs	8Ω/70V/100V	
Frequency Response	60Hz-15kHz	
THD @ rated output	<3%

## P647S Auto Reverse Single Cassette Player

A high quality tape playback unit designed to operate reliably and consistently over long periods with the minimum of maintenance. The P647S is compatible with the auxiliary inputs of all Eagle PA amplifiers and most other amplifiers. Features: Auto reverse mechanism for endless unattended play, fast forward and rewind keys, direction change key, play direction indicators. Mains or 12V DC operation.

Retail Unit Price each (inc. VAT).

Order Code	Type 11327	Price each exc. VAT	inc. VAT each
BD82D 6	Single C/Player	£119.140	£139.990

## P647U Radio Tuner

A highly reliable tuner providing a maximum of six preset stations on FM or MW bands for background music. The P647U is compatible with all Eagle PA amplifiers and can be used with the auxiliary inputs of most other amplifiers. Stations are tuned using screwdriver presets on the front panel. The tuned

frequency is displayed on the large LED on the front panel. Mains or 12V DC operation. Frequency: FM 88.3-108.9MHz, AM 530-1640kHz. S/N: >50dB. Antenna requirement: 300Ω or 75Ω (FM).

Retail Unit Price each (inc. VAT).

Order Code	Type 11328	Price each exc. VAT	inc. VAT each
BD83E 6	Radio Tuner	£119.140	£139.990

## P649S Amplifier with Cassette (30W rms)

A 30W amplifier with a built-in auto reverse cassette player. Ideal for small PA systems requiring paging as well as background music. Four inputs are provided: two auxiliary inputs (Aux. 1 is switched with the built-in cassette player) for additional music sources and two balanced microphone inputs. Mic. 1 has a jack socket and volume controls located on the front panel. Mic. 2 has voice activated priority over all other inputs and a volume control (screwdriver adjustable) located on the rear panel. On the front panel there is a dual function volume control for the built-in cassette auxiliary 1 and 2 inputs with a centre off position. Separate controls for bass and treble. Low impedance or 100V line loudspeakers may be used.

Output Power	30W
Loudspeaker Output	8Ω or 100V line
Frequency Response	60Hz-15kHz
THD @ 1kHz	≤ 2%
Mic Input Sensitivity	1.5mV @ 600Ω
Aux Input Sensitivity	100mV @ 47kΩ
AC Power	230V 50/60Hz
DC Power	12V
Dimensions	88mm x 428mm x 234mm
Weight	6 kg

Retail Unit Price each (inc. VAT).

BD80B 12	30W Amp C/Deck	£238.280	£279.990

## YU37S Professional Unidirectional Dynamic Microphone

Solidly built professional low impedance unidirectional dynamic microphone, with a cardioid response pattern ideal for vocal applications. Die-cast aluminium body finished in semi-matt grey with integral on/off switch, mesh windshield and 6m detachable lead (XLR to jack).

Sensitivity	-76dB (±3dB)
Impedance	600Ω
Frequency Response	60Hz-12kHz

Retail Unit Price each (inc. VAT).

Order Code	Type 11331	Price each exc. VAT	inc. VAT each
YU37S 1	Pfntsl Cardioid Mic	£23.820	£27.990

## MK58N Balanced Microphone Lead

A 10m lead with a male XLR latching connector at one end, and a female XLR latching connector at the other. Manufactured from high quality microphone cable with a black heavy-duty outer covering.

Retail Unit Price each (inc. VAT).

Order Code	Type 11333	Price each exc. VAT	inc. VAT each
MK58N 1	Bal Mic Lead	£16.160	£18.990

## P606M Noise-Cancelling Fist 500Ω Microphone

Improved performance for noisy environments. The P606M will give speech clarity impossible with conventional microphones and can reduce background noise by over 80% (10dB). Built-in talk switch and coiled lead.

Impedance	500Ω
Frequency Response	200Hz-7kHz
Sensitivity	2mV @ 94dB SPL, 1kHz

Retail Unit Price each (inc. VAT).

BE00A 4	Desk Mic	£46.800	£54.990

## P101 12W Vehicle Amplifier

This unit provides low-cost amplification with a microphone input with level control, Auxiliary input with level control and fog siren output. The power output of 12 Watts can be fed into a combined speaker load of between 4 and 16Ω and the unit is supplied with mounting hardware.

Power output 12W RMS into 4Ω at 1kHz  
Output impedance 4 to 16Ω  
Mic input 3.5mV @ 20-50 kΩ  
Aux input 85mV @ 10kΩ  
Power requirements nominal 12V dc  
Dimensions 40 x 150 x 140mm

MM15RL1	12W Mobile PA Amp	£34.030	£23.250	£26.990	£39.990

## P668M 15W Amplifier with Intercom Facility

Despite its compact dimensions, the P668M packs 15W rms output which will power most vehicle speaker configurations. It can be used from a 12 or 24V DC supply, so it can be used in commercial vehicles and water craft. A microphone can be plugged straight into the front panel and an 'Aux' input for tape, radio, etc., is on the rear panel - both inputs have independent level controls. There are two separate speaker switches allowing selective output, and there is a special third output for intercom and fog/siren use. This allows the P668M to be used not only as an amplifier and 'foghorn' but also to communicate with another part of the vehicle or vessel: the amplifier itself has a built-in speaker to listen, while the other party uses a remote speaker as a microphone. The Siren and Fog output can be manually sounded, the 'Fog' can also be set to Auto for unattended output.

Power output: 15W rms into 4Ω at 1kHz, 13-8V DC  
Output impedance: 4, 8 or 16Ω, two speaker outputs  
Microphone input: 1.5mV, 6.4mm 3-pole jack socket (ring allows muting)  
Auxiliary input: 200mV  
Power requirements: nominal 12 or 24V DC

Only by choosing the right kind of speaker for a specific application can you be sure that you will reach everyone you want to hear your message or music.

There are many kinds of loudspeakers. This catalogue, however, deals mainly with speech or background music as opposed to performance music; and for these purposes there are three main types of speakers, ceiling/suspension speakers, wall speakers and horn speakers.

For discreet music with unobtrusive looks, our background speakers are ideal. Each unit is of high quality MDF construction, and incorporates a knock-out panel to allow an attenuator to be fitted if required.

## PARTS STORAGE

### STORAGE BOXES

Raaco manufacture a wide range of quality storage products. Each item in the range shows the design, attention to detail and quality of manufacture that have made Raaco world leaders in their field. MPS now stock a comprehensive range of Raaco products, from small hobby boxes to large scale industrial rack systems.

By choosing Raaco from MPS you can be sure the products you buy will offer the best in quality, reliability and value for money.

### Assorted Hobby Boxes

#### Raaco

A range of six quality storage boxes and one storage case, made from high grade polypropylene, with a hinged translucent plastic lid and slide locks. Boxes are available in three sizes; A6, A5 and A4. Each type has 2 differently constructed compartment sizes; assorted (red only) or criss-cross (green only) and are fitted with three unbreakable hinges. A groove on the inside of the lid overlocks the base of the box when closed ensuring the contents of the compartments are held in place, and not mixed when the box is carried.

### Parts Box

#### Raaco

A range of parts boxes available in three sizes. Ideal for storing small components, washers, screws and other odds and ends. From small to large the boxes comprise 5, 9 and 14 compartments of varying volumes. Manufactured from tough, durable polythene material with clear see-through lids, each storage box will provide years of service. Dimensions from small to large are 180 x 130 x 40; 270 x 155 x 40 and 330 x 230 x 50. Other features include a recessed lid to allow boxes to be effectively stacked.

### Transbox

#### Raaco

A good quality plastic box with two layers of storage and a clear plastic lid with carrying handle and slide-lock. The box contains several dividers which fit into the base to make between 2 and 15 separate compartments. A clear plastic tray with three large compartments fits tightly on top of the base and with the lid closed contents cannot spill from one compartment to another when the box is carried. Overall size of box 275 x 215 x 80mm high.

## Storage Cabinets

Contico

A storage cabinet made from SuperleneTM, a strong plastic that will not rust, dent, chip or peel, suitable for home, workshop or office. The five drawers are made from translucent polypropylene and are divided into 15 compartments, and with the dividers provided, the compartments may be divided into sections. The cabinet is of one piece construction, can be stacked to provide additional storage and can be wall mounted or free-standing.

## Complete Wall Mounting Units

Raaco

These units are available using a range of Open Bins and two Wall Panels that can be fixed to provide a system measuring 1040 x 440mm or 520 x 880mm. The lightweight wall panels measure 520 x 440mm and have numerous slots to allow for a variety of arrangements of the open bins. The panels have a good load capacity and combined with the unbreakable open bins, provide an excellent storage system.

## TOOLBOXES & TOOLCASES

### Multibox

#### Raaco

A robust plastic box with separate internal compartmentalised tray, carrying handle and revolving clasp. The box has a large open well and the tray fits into this to about half-way down so that the top of the box is level with the top of the tray. With the handle pulled up, the lid when opened out will sit horizontal supported by the handle, with the opened box and the tray can be lifted out of the box and placed in the lid.

Overall size 335 x 205 x 162mm high.

Retail Unit Price each (inc. VAT).

Order Code	Type 2700	Price each exc. VAT			inc. VAT each
		1+	12+	36+	1+
XJ05F	Multibox	£11.230	£9.210	£7.910	£13.200

## Toolmate

### Raaco

A new generation of Toolboxes. Light in weight, their design offers stability in use and a large capacity in relation to their overall size.

- ★ **Do not rust**
- ★ **Remain stable**
- ★ **Weatherproof**
- ★ **Resistant to chemical attack**
- ★ **Made from durable Polypropylene**

Toolmate 1 is supplied with a removable tote tray and two drawers which can be kitted out with compartment inserts.

Toolmate 2 features the removable tote tray, which like Toolmate 1, can be kitted out with compartment inserts.

Toolmate 3 features a removable tote tray but does not use the compartment inserts. Inserts are

available as an assorted set of 16, ordered separately (Order Code KU86T), for use only in Toolmates 1 and 2.

**Compact Tool Boxes**

A choice of two black tool boxes that are ideal for electronics engineers, service technicians and hobbyists. The tool boxes are molded in Superlene™, a very tough plastic that will not dent, peel, chip or crack. Inside, there is a removable tool/compartment tray that sits securely in the box. A heavy duty rust resistant plated latch (two on the larger box) secures the box for transit, and provision for a padlock is also provided. The smaller box measures 405 x 194 x 220mm, and the larger box measures 480 x 230 x 260mm.

Retail Unit Price each (inc. VAT).

		1+	8+	36+	1+
BN72P	Two Step Tool Store	£20.350	£16.130	£14.310	£23.920

**Aluminium Type**

A quality aluminium type flight case in which the items to be carried are packed in foam. The case is silver in colour except for the black rounded corners and the two chrome-plated locks. Two keys are supplied for the locks, which are of the clasp action catch variety. The handle is made from tough black plastic and has attractive chrome trimmings. A shoulder carrying strap is provided which hooks onto buckles mounted on either side of the case. The bottom and the back of the case have four feet fitted, which not only reduce shock being transmitted to the contents of the case when it is placed down on a hard surface, but also help to prevent the underside of the case from getting scratched.

Weight: 2.6kg; overall dimensions (including handle and feet): 350mm long x 470mm wide x 165mm deep; overall depth of foam (compressible): 55mm (lid); 80mm (lower body).

## Lightweight Cases

A range of 3 elegant, black plastic, splashproof, injection-moulded carrying cases which represent superb value for money. When closed, the edge of the top half of the case interlocks with the bottom half. Not only does this provide waterproofing, but also increases rigidity for transport. The two halves of the case are locked together by 'snap' fit fasteners, and it features rigid, moulded handles. Their dimensions are:

Type	Overall External Dimensions mm	Internal Dimensions mm
A	270 x 210 x 50	260 x 180 x 45
B	350 x 259 x 75	340 x 230 x 70
C	380 x 270 x 90	370 x 265 x 85

Primarily for use as tool carrying cases, they can find many other applications, which can include transporting documents. In particular, size A can be used as a handy storage case for vehicle documents as it will fit into most glove compartments.

Retail Unit Price each (inc. VAT).

Order Code	Type 3967	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+

ME10L	Deep Case B	£19.150	£17.200	£16.050	£22.510

## EQUIPMENT CASES

### High Protection Watertight Cases

Pell

A range of high quality watertight and airtight cases made from a lightweight structural resin, and fitted with a neoprene 'O' ring seal. The cases are virtually indestructible and are airtight and watertight to a depth of 9m. They are fitted with a unique 'purge' valve for easy opening after air travel, locking flanges, multiple latches for absolute security and a comfortable moulded fold down handle. A panel frame kit (MG13P) is available for MG10L that allows for equipment to be directly mounted into the case.

- ★ Lifetime guarantee
  - ★ Supplied with prescored 'Pick & Pluck' foam inserts
  - ★ Nato approvals for 1500 & 1600 models
- Model 1500: 6760-01-295-3560

## COMPUTER MEDIA

### Expanding 89mm (3 1/2 in.) Disk Box

A plastic disk box capable of holding up to 10, or when expanded, 13 89mm disks. The main body of the case is pulled apart, thus increasing its capacity by up to three disks. The box is finished in grey and charcoal and has two transparent lids that overlap thus keeping the disks secure in transport. Dimensions are 105 x 105 x 40mm unexpanded and 105 x 105 x 50mm expanded.

Retail Unit Price each (inc. VAT).

DK30H	Expanding Disk Box	£1.690	£1.350	£1.230	£1.990

### 89mm (3 1/2 in.) Disk Box with Integral Flap

A clear acrylic 89mm disk box with a flip-top lid and an integral spring loaded flap that will hold the disks securely. Holds from 1 to 10 disks.

Retail Unit Price each (inc. VAT).

Order Code	Type 5485	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RU83B	3.5in Disk Box&Flap	£1.690	£1.350	£1.230	£1.990

### Lockable Storage Boxes

Storage boxes for 89mm (3 1/2 in.) and 133mm (5 1/4 in.) diskettes. The units are manufactured in an attractive light-beige anti-static plastic with hinged anti-static smoked acrylic lids. The lids can be locked and two keys are supplied. All boxes are supplied with dividers. The following sizes are available:

Max no. of disks	Disk size (mm)	Overall size (mm)		
		w	d	h
40	89	127	252	126
80	89	232	252	126
100	133	180	386	150
50+50	133	338	214	150

Price each shown, but sold only in multiples of 1.

Order Code	Type 384	Price each exc. VAT			inc. VAT each

YT32K-2	100 Disk Box 5.25 Dbl	£7.650	£6.450	£4.750	£8.990

### Large Disk Storage Boxes

Drawer type disk storage boxes similar in operation to the drawers of a filing cabinet. The boxes can be stacked and have positive locating tongue and groove guides and special clips to join two cases together. The boxes are not portable carrying type, but are intended to be sited on a desk or work station. Two types are available to cater for both 133mm (5 1/4 in.) and 89mm (3 1/2 in.) size disks. Type 180 can accommodate 180 x 133mm floppy disks in two rows, and is provided with 16 dividers, while type 150 can hold up to 150 x 89mm disks, and has 14 dividers. Both are lockable and provided with two keys. Dimensions are identical: width 340mm, height 180mm, depth 285mm. Drawer withdraws to 235mm. Made entirely of tough light grey injection moulded plastic with a smart black fascia 25mm (1 in.) deep which incorporates a recessed handle, barrel lock and two small recessed panels for labels.

Retail Unit Price each (inc. VAT).

## CAPACITORS

### 1206 CHIP

#### Ceramic Chip

Universe

A range of multilayer ceramic chip surface-mounted capacitors that are packaged in a standard 1206 format (3.45 x 1.85 x 1.52mm). The terminations are metallised silver with a tin-coated nickel barrier layer.

Value	Operating Voltage	Dielectric Type	Tolerance	Temperature Range

## RESISTORS

### 1206 CHIP

#### Surface Mount Resistors

A range of surface mounted resistors that are packaged in the industry standard 1206 format (3.1 x 1.55 x 0.55mm). These high quality resistors are marked with the normal 3-digit resistance code. Sold in packs of 25 (price per 25).

Specification:

Power rating: 0.25W at 70°C  
Operating voltage: 200V max  
Resistance tolerance: ±5%  
Temperature coefficient: ±200ppm/°C  
Operating temperature range: -55°C to +155°C

The following values are available:

10Ω	100Ω	1k	10k	100k	1MΩ
22Ω	220Ω	2k2	22k	220k	
33Ω	330Ω	3k3	33k	330k

## 3MM X 2MM

### Low Profile SMD LED Lamps

Kingbright

Dimensions in mm

A miniature 3mm x 2mm (1mm high) LED specifically for direct surface mounting to a PCB. Viewing angle is 90° for all colour types. Available as translucent orange, green and yellow, and clear super-bright red. A marker bar at one end of the ceramic base identifies the cathode, except for the super-bright red type where it identifies the anode. Sold in multiples of 25 (price per 25):

Type	Luminous Intensity @ 20mA
Orange	12.5 to 32mcd
Green	12.5 to 20mcd
Yellow	12.5 to 20mcd
Super red	20 to 60mcd
Clear green	20 to 60mcd

Price each is shown. Order quantities less than 4 will be sold at the one off inc. VAT price.

#### 'SuperSOT' SOT23 Power Transistors

Zetex

Surface mount, power switching transistors in SOT 23 size package, capable of dissipating 625mW as measured on the industry standard 15 x 15mm ceramic substrate, and retaining high gain and low  $V_{CE}$  at high collector currents. Applications can include printer head and stepper motor drivers, 'moving message' LED displays, miniature supply inverters, etc.

## CMOS LOGIC

### Low Voltage CMOS Logic

Motorola

The LCX family provide the necessary circuitry to bridge the technology gap between the 5V and 3.3V worlds. Most 3.3V logic families can directly interface only with other 3.3V products. The LCX family are the only family that guarantees 5V tolerant inputs, so can easily handle 5V TTL or CMOs interface on the input bus. Features include low static power consumption, high noise margins, high fan-out, low input loading, 50Ω transmission line drive capability, excellent performance with speeds of 5ns at CMOS power levels and ESD and latch-up immunity.

Device	Type
MC74LCX00D	Quad 2-Input Nand
MC74LCX02D	Quad 2-Input NOR
MC74LCX04D	Hex Inverter
MC74LCX08D	Quad 2-Input AND

## MAX485 Low Power RS485/RS422 Transceivers

Maxim

RECENTLY INTRODUCED

MAX485

The MAX485 is a half duplex, low power transceiver for RS485 and RS422 communications, and contains one driver and one receiver. The driver slew rate is not limited allowing the device to transmit up to 2.5Mbps. The device draws 300µA of supply current when unloaded or fully loaded with disabled drivers. Drivers are short-circuit current limited and are protected against excessive power dissipation by thermal shutdown circuitry. The receiver input has a fail-safe feature that guarantees a logic high output if the input is open circuit. MAX485CPA is supplied in a 8-pin DIL package, and MAX485CSA is 8-pin SO package.

### Specification

Supply voltage: 12V DC max.  
 Differential driver output no load: 5V max  
 load R=50Ω: (RS422): 2V  
 load R=27Ω (RS485): 1.5V to 5V  
 Input current (A,B): 1mA (V<sub>IN</sub>=12V)  
 Receiver input resistance: 12KΩ

### INA118U

Burr-Brown

118

The INA118 is a low power instrumentation amplifier offering excellent accuracy. Its versatile 3 op-amp design and small size make it ideal for a wide range of precision applications. It offers a combination of features such as very high input impedance, wide bandwidth even at high gain settings, single or dual rail power supply operation at voltages as low as ±1.35V. The inputs to the INA118 are protected for voltages up to ±40V. If the inputs are overloaded, the internal protection circuitry limits the input current to

a safe value without the need for high value series input resistors which would contribute excessive noise. Inputs remain protected even if the power supply is switched off. Laser trimmed offset makes external trimming unnecessary in most applications.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

Order Code	Type 11801	Price each exc. VAT			inc. VAT each
		25+	100+	500+	1+
LE49D	Lo-Power Inst Amp	£4.520	£3.550	£3.320	£5.990

### OPA177GS

177

The OPA177 precision bipolar op-amp features a high open loop gain of at least 130dB, low quiescent current @ 1.5A typ, very low (laser trimmed) offset voltage and low drift. The inputs are internally protected with 500Ω series resistors and diode clamped and can withstand ±30V differential inputs without damage. Internal input bias current compensation means that connection of an external bias current cancellation resistor is unnecessary. Typical applications include compact or portable precision instrumentation, bridge or thermocouple amplifiers, data acquisition amplifiers etc., and the device will replace OP07, OP77, OP177, AD707.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

### BUF634U

Burr-Brown

The BUF634 is a high-speed unity gain open-loop SMD buffer IC which may be used in any application where high output currents are required from a compact surface mount circuit. It is capable of providing a continuous output current of 250mA with internal circuitry limiting output to approximately 350mA maximum, or to a maximum junction temperature of 175°C. The -3dB bandwidth of the BUF634 is approximately 30MHz in low quiescent mode (1.5mA typical with bandwidth control not connected), although it can be extended to approximately 180MHz at 15mA quiescent consumption by connecting the bandwidth control pin to V-.

**DIGITAL AUDIO**

**PCM1710U**

Burr-Brown

171

This dual output (stereo) CMOS digital-to-analogue converter will operate with a single 5V supply and features a unique Delta-Sigma 4th order architecture that eliminates influence from input clock jitter and RF interference, resulting in a truly superior performance in portable digital audio and musical applications.

With THD figures of typically 0.0025%, a dynamic range of 98dB and on chip 8X oversampling, the PCM1710 will accept 16 and 20-bit input data as well as normal/11s (1/fs, 32 clock, continuous data) format data. The on-chip digital low-pass filter has -62dB stop band attenuation, resulting in an S/N ratio of typically 110dB, with an analogue output of up to 3.2Vp-p.

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

**SDA0808N 8-Bit A/D Converter with 8-Channel Multiplexer**

Siemens

SDA0808N

A monolithic 8-bit CMOS A/D converter with an 8-channel analogue multiplexer, that operates from a single 5V DC supply, with a power consumption of only 15mW. The IC contains a microprocessor compatible control logic and an 8-bit data bus. The converter consists of a capacitor network (approximately 50pF) as a sample-and-hold circuit, a successive-approximation register (SAR) and a temperature stabilised comparator. Interfacing to a microprocessor is provided by 3-bit address latches and an 8-bit tristate data bus. The device operates at a clock frequency of 1.5MHz. Housed in a PLCC-28 package.

**Specification:**

Supply voltage: 5V  
Resolution: 8 bit  
Positive reference voltage: VCC  
Negative reference voltage: -0.1V min  
Analogue input range: -VREF to +VREF  
Slew rate: 60mV/µs  
Clock frequency: 640kHz to 1500kHz  
Linearity error: ±0.5LSB  
Conversion time at 1.5MHz: 13µs

Price each is shown. Order quantities less than 10 will be sold at the one off inc. VAT price.

**MSM6322GSK Speech Pitch Controller**

OKI

6322

Note: This device is only available in small outline 24-pin plastic SOP style package. A speech pitch converter IC that operates in real time and requires very few external components. It has a microphone preamplifier and line level input and the output requires only a single transistor to directly drive a loudspeaker. As well as the microphone preamplifier, the IC contains a 4th order low pass filter on input and a 3rd order low-pass filter on output. In addition there is a built-in 8-bit A/D converter and 9-bit D/A converter. The pitch of the speech is alterable in 17 steps over a range of one octave up and one octave down, and there are two modes of operation. In the 'up/down' mode two inputs are provided which when pulsed, move the pitch up or down sequentially through the pitches available. In the 'binary' mode four inputs are provided from which 16 of the available pitches can be directly selected. In the example circuit, an application using the 'up/ down' mode is shown. Note that pins 1 and/or 2 could be continuously cycled using an electronic counter to produce an interesting effect. The following table shows the pitches available.

**Pin functions (high = +5V, low = 0V digital)**

- Pin 1. In 'up/down' mode, pulse high to move the pitch up one step. In 'binary' mode, taking this pin high sets bit 3.
- Pin 2. In 'up/down' mode, pulse high to move the pitch down one step. In 'binary' mode, taking this pin high sets bit 2.
- Pin 3. In 'up/down' mode, setting this pin high initiates power down, where all internal clocks are stopped and pin 9 goes low. On reverting to low on pin 3, the clocks take 10ms to restabilise. In 'binary' mode, taking this pin high sets bit 4, the most significant bit.
- Pin 4. When taken high, all internal clocks are stopped except the main 4MHz oscillator. On reverting to low, pin 9 outputs a 2.5V (1/2 of VDD) level for about 15ms.
- Pin 5. In 'up/down' mode, pulse high to set the pitch to stage 8, no pitch change. In 'binary' mode, taking this pin high sets bit 1, the least significant bit.
- Pin 6. Set high to select 'binary' mode; set low to select 'up/down' mode.
- Pin 7. Manufacturers test pin. Must be fixed low.
- Pin 8. Manufacturers test pin. Must be fixed low.
- Pin 9. Output of the digital to analogue converter.
- Pin 10. Input to the output stage's low-pass filter.
- Pin 11. Final output.
- Pin 12. Analogue supply +5V.
- Pin 13. Output of the line amplifier and input to the input stage's low-pass filter. The gain of this amplifier is set by the value of resistance between here and pin 14.
- Pin 14. Input to the line amplifier. Must be capacitively coupled to input signals.
- Pin 15. Output of the microphone preamplifier.
- Pin 16. Input to the microphone preamplifier. Must be capacitively coupled to the microphone.
- Pin 17. Stabilisation capacitor for the internal analogue reference voltage +2.5V (1/2 of VDD).
- Pin 18. Analogue ground. Microphone and line inputs and the output must be referenced to this ground.
- Pin 19. Stabilisation capacitor for the internal analogue reference voltage +2.5V (1/2 of VDD).
- Pin 20. No connection.
- Pin 21. Digital ground. Logic low.
- Pin 22. Crystal oscillator. If using an external clock, it should be connected here.
- Pin 23. Crystal oscillator. If using an external clock, leave this pin open.
- Pin 24. Digital supply +5V. Logic high.

Supply voltages:	4V to 6V (7V max.)
Supply current:	<10mA
Standby current:	<7mA
Power down current:	<1mA
Logic high:	>3.6V
Logic low:	<0.8V

## SMD Positive Voltage Regulators

SGS Thomson

A series of positive voltage regulators constructed using an epitaxial process. These regulators employ internal current-limiting and thermal shut-down, making them virtually indestructible. The case style is SO-8. Duplicated GND connections (pins 2, 3, 6 and 7) provide heatsinking to the PCB track. If adequate heatsinking is provided, the devices can deliver up to 100mA output current. They are intended as fixed voltage regulators in a wide range of applications including local or on-board regulation for the elimination of noise and supply distribution problems associated with single-point regulation. In addition, they can be used with power pass elements to make high current voltage regulators.

The L78L00 series, used as a Zener diode/resistor combination replacement, offers an effective output impedance improvement of typically two orders of magnitude, along with lower quiescent current and lower noise.

**Specification:**

Input voltage, for  $V_{OUT} = 5$  to 9V: 30V max.  
 for  $V_{OUT} = 12$  to 15V: 35V max.  
 for  $V_{OUT} = 24$ V: 40V max.  
 Output current: 100mA max.  
 Power dissipation: Internally limited, depends on track area

Operating temperature range: 0 to 125°C

Output voltage accuracy: 5%

Devices of seven different output voltages are available:

L78L05CD	5V
L78L08CD	8V
L78L09CD	9V
L78L12CD	12V
L78L15CD	15V

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## REF01AU

Burr-Brown

The REF01 is a high performance precision pin compatible second source 10V reference, offering a 30% improvement over industry standard REF01s. Output noise is 5µVp-p, which is a 75% decrease in noise over all other REF01s. With output line regulation of 0.001%/V max and load regulation of 0.002%/V max, this device is the best choice for precision regulation applications, A/D and D/A references and precision calibration or test equipment.

The REF01 will source 10mA, sink 5mA min and is internally short circuit protected. Input voltage may be from 11.4V to 40V.

+10V Reference with Trimmed Output

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## REF02AU

Burr-Brown

The REF02 is a high performance precision pin compatible second source 5V reference, offering a laser trimmed 8.5ppm/°C max drift and very low current drain of 1mA. Output noise is 10µVpk-pk. With output line regulation of 0.008%/V max and load regulation of 0.005%/V max, this device is the ideal choice for precision regulation applications, A/D and D/A references and precision calibration or test equipment.

The REF02 will source 10mA and is internally short circuit protected. Input voltage may be from 8V to 40V.

## SURFACE MOUNT SWITCHES

### Surface Mount Key Switch

A totally sealed, miniature key switch that has been designed for surface mounting on PCBs and has a single-pole, normally open contact. The switch features an actuator, tin plated gullwing terminals for easy soldering, and a positive 'click' action.

#### Specification:

Contact:	Silver
Voltage rating:	20mV minimum, 50V maximum
Current rating:	1mA minimum, 50mA maximum
Maximum switching power:	1VA
Maximum contact resistance:	100mΩ
Nominal operating force:	160g
Life expectancy:	500,000 operations

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DC71N	SurfMount Switch	£0.595 1+ £0.428 25+ £0.388 100+	£0.700 1+

## SURFACE-MOUNTED SELECTION GUIDE

In the early 1970s, surface-mounted technology (SMT) was originally introduced for two main reasons. Firstly, the components are a good deal smaller (and so the pin densities can be correspondingly higher). At roughly the same time as SMT was introduced, the industry began to see the use of multi-layer PCBs - boards in which several layers of conductive tracks (including ground and power planes) are buried. Because SMT does not require structure-weakening through-holes, the boards can be made thinner. Usually, there are smaller plated through-holes that serve to interconnect tracks on the various layers.

With multi-layer and SMT, electronic assemblies can be made much smaller - and this generates cost and marketing benefits for the manufacturer. Without SMT, compact portable devices that we take for granted such as cellular telephones, camcorders and notebook computers would simply not be possible. A small size and weight is clearly an advantage in the military and aerospace industries - indeed, these were the original driving forces behind SMT and its associated technologies.

The second benefit of SMT is that the components - known as surface-mounted devices (SMDs) - have been designed from the outset for automated assembly. A solder paste is silk-screen printed onto the contact areas of the circuit board. The board is then fed into a pick-and-place machine that puts the components (each with a small tab of glue under the body) onto it. The board is then fed into an infra-red reflow soldering machine, that causes the solder paste to melt and form an electrical connection with the component's tinned contacts.

Although the capital costs of setting up a SMT-based manufacturing facility are very high, the overall manufacturing costs per product - remember that large-scale production is generally involved - are low. Remember that these facilities are highly-automated, and employ the bare minimum of expensive human staff. The production lines can be re-tooled to handle different products. In some cases, several such lines within the plant can be co-ordinated to handle different products, or sub-assemblies used within the same product.

But what about the hobbyist, and service technicians called upon to service SMT-based products? Unfortunately, manually-positioning the miniature components onto a circuit board requires patience and skill. Removing a multi-legged SMD for replacement, without damaging the circuit board, is also difficult. A common procedure is to cut the damaged chip away from its legs. The isolated legs are then removed by heating the PCB's tracks gently with a fine-tipped soldering iron.

The components industry is now arriving at the point where many electronic devices - notably specialist ICs - are now available in SMD form

only. The pin spacing of some VLSI chips is a mere 0.65mm. At least one Maplin project includes a surface-mounted chip at its heart. The replacement of through-hole with surface mount is set to continue. Maplin does sell a range of tools, notably soldering iron bits, magnifiers and PCB workstations, that are essential for use with this system of assembly/production.

The benefits of SMT are not limited to the area of manufacturing. Because they dispense with the lead-out wires and are smaller, passive SMDs perform much nearer to their theoretical specification. They have reduced self inductance, resistance and capacitance, which makes them ideal for use at the high switching speeds of today's computers, and at radio frequencies. Disassemble a compact TV tuner, and you will find extensive use made of SMT. The smaller electronic assemblies made possible by SMT and multi-layer boards mean that propagation delay is greatly reduced - this is important where high-speed logic is involved.

### SMD types

**MELF (Metal electrode face-bonded).** Cylindrical components resembling conventional diodes, capacitors and resistors, but with tinned ends instead of wires.

**Cubic chips.** Flat components, available in a range of sizes that reflect component values. Electrical contact and soldering is made via pads at the ends of the component. Resistors, ceramic capacitors and electrolytic capacitors typically up to 33µF/6V available as cubic chips. LEDs are also available in this style

**SO (small-outline).** Normally used for transistors and diodes (SOT23), and for standard logic ICs, memory, voltage regulators, some specialist ICs and DIP switches up to 28 pins (SOx). Standard logic chips normally have the same pin-outs as their through-hole DIL equivalents. Power transistors, with larger (heat-sinking) tabs also available. ICs have gull-wing' pins.

**PLCCs (plastic-leaded chip carriers).** ICs of 18 to 84 pins - typically complex multi-pin ASICs (such as glue logic) and some microprocessors. Normally square in shape, with pins on all four sides. Pins normally J' shaped, the curve of the J folding underneath the device. Sockets for PLCCs are available - hence EPROMs, and other programmable devices, available in this packaging. Leadless ceramic chip carriers (LCCCs) similar, but with ceramic packaging, and contact pads instead of pins. LCCCs are more expensive and tend to be military-specification devices. In both cases, pin spacing is fixed.

**Quad flatpack (QFP).** Again, used for complex ICs - and pins are on all four sides. Lower in profile, rectangular in shape, and the larger multi-pin devices have narrower pin-spacing. Pins are gull-winged'. The QFP packaging is typically used for devices of between 64 and 196 pins.

## SWITCHES

### TOGGLE

#### Ultra Miniature Toggle Switches

A range of ultra miniature toggle switches. Rated 3A 125V AC, 1A 250V AC. Chrome plated brass dolly. Mounting hole: 5.2mm (0.2in.) Available in SPST, SPDT and DPDT types.

Insulation resistance: >100MΩ  
Contact resistance: 20mΩ max.

Dimensions	Single-pole	Double-pole
Body	8 x 5 x 7mm	8 x 9 x 7mm
Bush length	5.6mm	5.6mm
Dolly length	9.5mm	9.5mm
Tag length	5mm	5mm

Retail Unit Price each (inc. VAT).

#### Sub-Miniature Toggle Switches

A range of toggle switches in SPDT and DPDT with a variety of switching actions. Switches have chrome-plated brass dolly and silver-plated contacts.

Rated: 2A 250V AC  
5A 125V AC  
5A 30V DC

Contact resistance: <20mΩ  
Insulation resistance: >100MΩ  
Life: 50,000 make/break cycles at full load  
Mounting hole: 6.35mm dia.

Single-pole double-throw (SPDT) types are available in the following switching actions. Non-locking indicates biased or momentary action.

Type	Action	Description
A	ON-ON	Locking both ways
J	ON-(ON)	Locking one way, non-locking one way
B	ON-OFF-ON	Locking both ways, centre off
C	ON-OFF-(ON)	Locking one way, non-locking one way, centre off
D	(ON)-OFF-(ON)	Non-locking both ways, centre off

Similarly double-pole double-throw (DPDT) types are available in the following switching actions.

Type	Action	Description
E	ON-ON	Locking both ways
K	ON-(ON)	Locking one way, non-locking one way
F	ON-OFF-ON	Locking both ways, centre off
G	ON-OFF-(ON)	Locking one way, non-locking one way, centre off
H	(ON)-OFF-(ON)	Non-locking both ways, centre off

#### Right-Angled PCB Mounting Type

Sub-miniature toggle switches rated at 250V AC 3A, 125V AC 6A, 30V DC 5A. Silver-plated alloy contacts. Nickel-plated brass dolly. The switches have extended right-angled terminals and a pair of pins at the edge of the toggle pivot plate for insertion in a pcb. The switches are not threaded for front panel fixing. Two styles are available for up/down and left/right operation and both are available in single- and double-pole double-throw versions. All other dimensions are as panel mounting types.

#### Sub-Miniature Waterproof Toggle Switch Cover

##### Moist Components

A waterproof toggle switch cover for use with sub-miniature toggle switches having 1/4-40 UNF threaded mounting bushes. This cover fits the 'Sub-Miniature Toggle Switch' range. The cover comprises of a polychloroprene boot with a knurled nickel-plated brass nut. To provide sealing between the panel and the cover, an O-ring is also supplied. When this toggle switch cover is used, the switch locating plate and outer fixing nut are not required.

Retail Unit Price each (inc. VAT).

Order Code	Type 2348	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JR79L	Small Toggle Cover	£1.270	£1.120	£1.020	£1.500

#### Miniature PCB Mounting Toggle Switches

A range of miniature toggle switches for direct PCB mounting, available in both single and double pole changeover, both vertical or right-angled mounting. Right-angled types have two extra PCB pins at front near the toggle for secure fixing. Suitable for use with 0.1in. matrix board. All types are rated at 0.3A at 125V DC. Contact resistance is 20mΩ. Insulation resistance, 100MΩ at 500V DC.

Insulation strength, 1000V AC for 1 minute.  
Chrome toggle dolly is 6mm long on all types.

**Dimensions of body**

Type	Height mm	Width mm	Depth mm

**10A Toggle Switches**

A range of heavy duty toggle switches with chrome-plated dolly. Connections are 6.35mm (1/4in.) blade terminals with hole for soldering if desired as an alternative.

Rated 10A 250V AC  
 15A 125V AC  
 Contact resistance: <50mΩ  
 Insulation resistance: >100MΩ  
 Life: >50,000 make/break cycles at full load  
 Available in single pole and double pole.

**Single pole types**

Body size: 29.2 x 15.8 x 17.5mm high  
 Tag length: 11mm  
 Bush: M12 x 11.5mm long  
 Dolly: 16.5mm long x 6mm dia.  
 Panel cut-out: 12.7mm dia.

**Double pole types**

Body size: 32.5 x 19.5 x 20mm high  
 Tag length: 11mm  
 Bush: M12 x 11.5mm long  
 Dolly: 16.5mm long x 6mm dia.  
 Panel cut-out: 12.7mm dia.

**Snap-in Miniature Round Rocker Switches**

A range of miniature round faced rocker switches which snap-in a 20.4mm diameter hole. Body has a 2mm wide locating lug for which a slot must be provided in the edge of the hole, to prevent rotation.

Available in SPST, SPDT, DPST and DPDT contact configurations with red or black rocker. All buttons have a white spot to indicate the 'on' direction. Connections are 4.8mm push-on style terminals which can be soldered. Contacts are rated at 125V AC @ 5A, 250V AC @ 3A. Contact resistance is 20mΩ max. as measured with 2.5V @ 1A DC. Insulation resistance 100MΩ @ 500V DC, insulation strength is > 1,500V AC.

JU03D	Round Rocker DPDT Rd	£1.880	£1.420	£1.250	£2.210

**Miniature Rocker Switches**

A very attractive single hole fixing miniature rocker switch available in SPST and DPDT styles. Switch has a red rocker in a matt finish black frame.

Rating: 6A/125V AC (2A/250V AC)  
 Contact resistance: <20mΩ  
 Panel cut-out: 18mm diameter  
 Overall depth behind front of panel: 14mm  
 Overall height in front of panel: 12mm (including rocker) 7.5mm (frame only)  
 Frame size: 30 x 20mm.

Retail Unit Price each (inc. VAT).

## Illuminated Rocker Switch

A smart, snap-in rockerred or green neon illuminated rocker. DPST contacts rated 10A @ 125V, 6A @ 250Vac. Connectors are push-on style terminals which can be soldered. The snap-in switch requires a panel cut-out of 22 x 19mm. Overall depth from front of panel is 23.5mm. Contact resistance is 50mΩ max. Insulation resistance is 100MΩ at 500V DC. Insulation strength is 1500V AC for 1 minute.

Retail Unit Price each (inc. VAT).

## Single Pole 16A Rocker Switches

Molveno

Snap fit mounting rocker switches having a black polycarbonate body and white rocker. These 16A 250VAC rated switches require a 12.5 x 28.0mm cut out, connections are via 6.3mm solder tags. They have a very wide range of approvals including, UL, CSA, VDE, IMQ, SEMKO & DEMKO.

Retail Unit Price each (inc. VAT).

## Rocker Switches

A range of 10A 250V AC rocker switches having a black polycarbonate body and white rocker, or green (with white body) or red lens. The switches are snap-mounting and require a panel cut-out 29 x 12.5mm for single-pole types and 29 x 25mm for double-pole types, except for YR70M/FE64U which require a cut-out of 30 x 22mm. Types available are: Single-pole make with integral neon indicator with red or green lens (Neon); Double-pole make (DPST); Double-pole changeover (DPDT); Double-pole make with integral neon indicator with red or green lens (Dual Rocker Neon).

## Rocker Switch

Cliff

A snap-in, black rocker switch that is available with either DPDT, or DPST contacts. Suitable for panel thickness 0.75 to 3.00mm.

### Specification

Rating: 250V AC 6A, 125V AC 8A  
 Inrush current: >80A  
 Contact resistance: <20mΩ  
 Dimensions: 24 x 21 x 24mm

### Panel thickness

## Single-Pole Rocker Switch

A slim aesthetically styled, single-pole, single-throw, illuminated rocker switch that is mains rated and uses a neon indicator. Moulded in self-extinguishing thermoplastic this switch is supplied with a red illuminated rocker and snap-fits into a cut-out 19 x 13mm in a panel 0.7 to 1.25mm thick. Rated at 10A/250V AC for resistive loads or 4A/250V AC for inductive loads.

Retail Unit Price each (inc. VAT).

## 16A Rocker Switches

Molveno

A series of large rocker switches with 11 x 30mm single and 22 x 30mm double EUROPEAN cut-out. They are single/double pole on/off and c/o switches with the option of illuminated rockers. All connections are via 6.5mm fastons.

Rating: 16A @ 240V  
 Action ON/OFF except GU50E & GU54J which are C/O

**Slimline Tri-State Switch**

A PCB mounting switch in a dual-in-line package with tri-state switching. The eight outputs can be either 'high', 'indeterminate', or 'low'. The switch is manufactured from UL94V0 plastics with gold plated contacts, to ensure low resistance and long operating life. Designed to fit a standard IC socket or can be directly mounted on the PCB. Ideally suited for encoding/decoding circuitry in digital and computer circuits.

Contact rating non-switching:  
switching:

100mA, 50V DC  
25mA, 24V DC

Contact resistance initial:  
after life test:

50mΩ max.  
100mA max.

Insulation resistance:  
Dielectric strength:

1,000MΩ min at 100V DC  
500V DC min for 1 minute

Capacitance between adjacent switches:  
Operating life:

5pF max.  
> 2,000 operations per pole

Acceptable soldering temperature:

260 ±5°C for 5 ±1 second

Dimensions  
width: 7.62mm  
length: 21.92mm  
height: 4.1mm  
pin spacing: 2.54mm (0.1in.)

GW74F	8W Tri-State DIL Sw	£1.370	£1.170	£0.918	£1.610

**Slimline SPST**

DIL switches with dimensions identical to DIL ICs. The pins fit standard IC sockets or can be directly mounted on the PCB. The white levers are numbered 1 and 2, 1 to 4, 1 to 6, or 1 to 8 depending on size and have a movement of 1mm. The switch is made from UL94V-0 plastics with gold-plated twin contacts to ensure low contact resistance and long operating life. Pin spacing is 7.62 x 2.54mm (0.3in. x 0.1in.).

**Call and Collect**

Maplin has more stores Nationwide than ever before. See the maps at the front of the catalogue for the nearest one to you.

**ROTARY**

**Sub-Miniature PCB Mounting 'Hex' Encoded Rotary Switches**

Extremely compact, PCB mounting, sub-miniature switch arrays which can produce any 4-bit hexadecimal number from 0 to F by simply turning the integral slotted actuator with a screwdriver, to one of 16 click-stop positions. The switches are 10mm square and 11mm high overall excluding pins. The five pins are spaced for a 2.54mm (0.1in.) matrix, comprising one common pin and four 'output' pins for hex 0 to 3.

Switch QY68Y is arranged so that any pin output 'bit 0' in hex is connected to the common pin. For identification purposes, the actuator is white. Switch QY69A has the complementary arrangement in that any pin output 'bit 0' in hex is open circuit, or not connected to the common pin. For identification purposes, the actuator is red.

**Specification**

Contact rating: 100mA @ 50V DC non-switching  
100mA @ 5V DC switching  
Contact resistance: 100mΩ  
Dielectric strength: 250V AC for 1 minute  
Insulation resistance: >1000MΩ @ 100V DC  
Life: 10000 operations  
Acceptable soldering temperature: 260°C±5°C for 10 min.

**Decimal Rotary DIL Switch**

A PCB mounting, sealed, dual-in-line, 10-position, BCD rotary programming switch with 1-2-4-8 binary coding. The switch is easily operated by means of the screwdriver slot on top of the body and has a positive click action. The switch provides complement coding and is suitable for use in pre-programming of digital circuits and computers.

**Specification**

Contact rating Non-switching: 100mA, 50V DC  
Switching: 25mA, 24V DC resistive  
Contact resistance: 100mΩ max. at 5V DC, 10mA  
Insulation resistance: 1000MΩ min at 100V DC  
Dielectric strength: 240V x 104 operations without load  
Acceptable soldering temperature: 230 ±5°C for 3 ±0.5 secs - (75% coverage)

## Miniature Sealed Rotary Switch

A sub-miniature coded rotary switch in DIP configuration, that has sealed gold contacts, and is available with either 10 or 16-positions. A screwdriver slot is provided for switch position selection. The 10-position switch has been especially designed for direct binary coding, while the 16-position version has been designed for hexadecimal coding. The small dimensions make the switch ideal for PCB mounting.

### Specification

Switching voltage  
maximum: 30V DC  
minimum: 20mV DC

Switching current  
maximum: 100mA  
minimum: 10µA at 5V DC

Initial contact resistance: 100mΩ

## Rotary Switches

Lorlin

A high quality rotary switch moulded in glass-filled nylon. Indexing 30°. 6.3mm (1/4in.) spindle. 9.5mm (3/8in.) bush. With adjustable rotation limit stop. Silver-plated contacts.

Bush length: 8mm  
Spindle length: 30mm (with flat)  
Overall length: 58mm  
Max voltage: 300V AC or DC  
Max current: 5A continuous  
Contact resistance: 10mΩ  
Contact rating: 150mA at 250V AC or DC  
350mA at 110V AC or DC

The following types are available:

### Break before Make action

1 pole 12 way: FF73Q    3 pole 4 way: FF75S  
2 pole 6 way: FF74R    4 pole 3 way: FF76H

### Make before Break action

1 pole 12 way: FH42V    3 pole 4 way: FH44X  
2 pole 6 way: FH43W

## Right-Angled PCB Mounting Rotary Switch

Lorlin

A right-angled PCB mounting rotary switch which features single line PCB insertion pins on a 2.54mm (0.1in.) spacing. Two mounting pillars and fixing screws are provided under the switch body to ensure rigid support to the PCB, in addition to the usual 9.53mm (3/8in.) spindle bush and nut fitting for front panel mounting, and adjustable end stop. The switch contacts are an integral part of a PCB at rear of the switch and are brought out to the insertion pins at the bottom.

Available as break before make in 1 x 12 way.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FT56L	PCB R/A Rotary 1x12	£3.900	£3.710	£3.510	£4.590

## Stackable PCB Mounting Wafer

Lorlin

A 1-pole, 12-way rotary wafer switch designed to be added behind any of the main PCB switch units above. The main switch couples to a number of secondary wafers via a nylon shaft, which inserts into a keyed recess at rear of the main switch. The shaft will pass through up to 11 stackable wafers, forming one complete, pcb mounted multi-pole rotary switch assembly. Shaft is 76mm in length x 4.5mm dia. Wafers available as 1-pole 12-way only.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FA97F	Wafer 1 Pole 12 Way	£2.280	£2.170	£2.060	£2.690
FA98G	Wafer Shaft Plastic	£0.553	£0.523	£0.495	£0.650

## Rotary Mains Switch

Lorlin

A double-pole single-throw (DPST) rotary mains switch moulded in flame retardant plastic. Recommended for use in circuits where heavy switching current surges occur. Indexing 45°. 6.3mm (1/4in.) spindle. 9.5mm (3/8in.) bush.

### Specification

Bush length: 8mm  
Spindle length: 25mm (with flat)  
Overall length: 47mm  
Contact rating: 4A at 250V AC  
Current surge: 80A for 10msec.  
Contact resistance: 20mΩ

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FH57M	Rotary Mains	£1.310	£1.250	£1.180	£1.550

## THUMBWHEEL

### Thumbwheel Switches

A thumbwheel edge switch in a black plastic housing. This high quality switch has gold plated contacts on both the PCB and wiper to ensure reliable operation. The numbers 0 to 9 appear in the aperture in the front as the aperture is revolved, and the operation is smooth and positive. The switches are front panel mounting with snap-in fixings, and can be snapped together to form a bank of switches if desired.

Connections are made as follows:

No.	Pin numbers	BCD
0	Decimal C and 0	None
1	C and 1	C and 1
2	C and 2	C and 2
3	C and 3	C, 1 and 2
4	C and 4	C and 4
5	C and 5	C, 1 and 4
6	C and 6	C, 2 and 4
7	C and 7	C, 1, 2 and 4
8	C and 8	C and 8
9	C and 9	C, 1 and 8

Switch resistance: 100mΩ max  
Current carrying capacity: 1A max  
Contact rating: 150mA at 50VAC or 28VDC

Character height: 5.8mm  
Width of switch: 8mm  
Overall height: 33mm  
Overall depth: 43mm  
Panel cut-out: 31 x 8mm

## End Cheeks for Thumbwheel Switches

A pair of end cheeks, one right-hand and one left-hand mounting that enable snap-in mounting. To calculate the size of panel cut-out required use the formula:- Multiply the number of switches by eight, then add eight to give the width in mm, and the height is 33mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
JK36P	Thumbwheel BCD	£1.960	£1.540	£1.270	£2.310

## KEY OPERATED

### Miniature Round Type

A single-pole make/break, metal-bodied key switch with a chrome-plated bezel. The key switch uses a round key for extra high security. The switch has two solder buckets at the rear. Supplied with two keys. The key may be withdrawn in either position.

### Specification

Bezel diameter: 15mm  
Panel cut-out: 12mm (the bush is flattened to 10.25mm on opposing sides to prevent twisting)  
Bush length: 20mm  
Indexing: 90°  
Contact rating: 1/2 A at 250V AC

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FE44X	Min Key Switch	£3.850	£2.290	£1.740	£4.530

## Miniature Short Round Type SPST

A single-pole, single-throw, short, zinc-alloy bodied key switch with a chrome-plated bezel. The key switch uses a round key for extra security. The switch position is indicated by an arrow; the key can be withdrawn from either position. The switch has two solder bucket terminals at the rear. Supplied with two keys.

### Specification

Bezel diameter: 15mm  
Panel cut-out: 12mm dia, 10.8mm across the flats (provided to prevent twisting)  
Bush length: 10.3mm  
Indexing: 90°  
Contact rating: 1A 125V AC  
0.5A 250V AC

Retail Unit Price each (inc. VAT).

Order Code	Type 2443	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CJ92A	Min Round Key Sw	£2.130	£1.300	£1.010	£2.510

## Miniature Round Type SPDT

A single-pole, double-throw, key switch with a zinc-alloy die-cast housing and chrome-plated bezel. The key switch uses a round key for extra security; the key can be withdrawn from either position. The switch has four solder bucket terminals at the rear. Supplied with two keys with a range of 200 combinations.

### Specification

Bezel diameter: 15mm  
Panel cutout: 12mm dia, 10.8mm across the flats (provided to prevent twisting)  
Bush length: 21.5mm  
Indexing: 90°  
Contact rating: 1A 125V AC  
0.5A 250V AC

Retail Unit Price each (inc. VAT).

Order Code	Type 2445	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CJ94C	Min SPDT Key	£3.850	£2.290	£1.740	£4.530

## Miniature Four Position

A single-pole, four-position, key switch with a zinc-alloy die-cast housing and stainless steel bezel. This key switch is ideal for specialist alarm systems

where there is a need for separate arming and testing positions; the key can be withdrawn from any of the four positions. At the rear, the switch has four pin terminals and one solder bucket terminal. Supplied with two keys, with a wide range of combinations.

### Specification

Bezel diameter: 15.5mm  
Panel cut-out: 12mm dia, 10.8mm across the flats (provided to prevent twisting)  
Bush length: 23.5mm  
Indexing: 0°, 90°, 180°, 270°  
Contact rating: 400mA 125V AC  
200mA 250V AC

Retail Unit Price each (inc. VAT).

Order Code	Type 2447	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CJ95D	Min 4 Pos Key	£4.280	£2.640	£2.140	£5.040

## Metal Body Round Type DPST

A top quality, double-pole, single-throw, key switch having a zinc-alloy die-cast housing and cylinder with a chrome plated bezel. The key switch uses a round key for extra security; the key can be withdrawn from either position. The radial cylinder has a seven-pin tumbler mechanism, deterring lock-picking and providing a wide range of key differences. Random supply from 50,000 different combinations. Ideal for alarm and security systems. The switch has four solder tags at the rear. Supplied with two keys.

### Specification

Bezel diameter: 22mm  
Panel cut-out: 19mm dia, 15.8mm across the flats (provided to prevent twisting)  
Bush length: 25.5mm  
Indexing: 90°  
Contact rating: 4A 125V AC  
2A 250V AC

Retail Unit Price each (inc. VAT).

Order Code	Type 2448	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CJ96E	Metal DPST Round Key	£4.280	£2.640	£2.140	£5.040

## Metal Body DPST

A top quality, double-pole, single-throw, key switch with a zinc-alloy die-cast housing and cylinder with a chrome plated bezel. The cylinder has a five-disc tumbler mechanism, to deter lock-picking; the reversible key can be withdrawn from either position. Suitable for burglar alarms and security systems. The switch has four solder tags at the rear. Supplied with two keys with a range of 150 combinations.

### Specification

Bezel diameter: 22mm  
Panel cut-out: 19mm dia, 15.8mm across the flats (provided to prevent twisting)  
Bush length: 27mm  
Indexing: 90°  
Contact rating: 4A 125V AC  
2A 250V AC

Retail Unit Price each (inc. VAT).

Order Code	Type 2451	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CJ97F	Metal DPST Key	£4.280	£2.640	£2.140	£5.040

## Metal Body SPST

A top quality, single-pole, single-throw, key switch with a zinc-alloy die-cast housing and cylinder with a chrome plated bezel. The cylinder has a five-disc tumbler mechanism, with dust shutter, to deter lock-picking; the reversible key can be withdrawn from either position. Ideal for burglar alarms and security systems. The switch has two solder bucket terminals at the rear. Supplied with two keys with a range of 150 combinations.

### Specification

Bezel diameter: 22mm  
Panel cut-out: 19mm diam, 16.3mm across the flats (provided to prevent twisting)  
Bush length: 27.5mm  
Indexing: 90°  
Contact rating: 4A 125V AC

		1+	25+	100+	
FV42V	Plas Key Switch	£6.430	£5.320	£5.200	£7.560

## MAKA SWITCH

### Maka-Switch

**Lorlin**

Switches may be made up using the various accessories to suit individual requirements. Available only in 'miniature' size. 6.3mm (1/4in.) spindle, 9.5mm (3/8in.) bush.

### Shaft Assembly

Switch mechanism (shafting assembly) accommodates up to 4 wafers.

### Specification

Indexing: 30°  
 Diameter: spindle: 6.3mm (1/4in.)  
 bush: 9.5mm (3/8in.)  
 Spindle length: 41mm (with flat).  
 Bush length: 8mm  
 Overall length: 90mm  
 With adjustable rotation limit stop.

Retail Unit Price each (inc. VAT).

Order Code	Type 2464	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FH46A	Maka Shaft	£2.950	£2.800	£2.650	£3.470

## Wafers

Glass filled diallyl phthalate stators, acetel rotors and silver-plated contacts.

Max working voltage: 300V AC or DC  
 Max current: 5A continuous  
 Contact resistance: 10mΩ  
 Contact rating: 150mA at 250V AC or DC  
 350mA at 110V AC or DC

The following types are available:

### Break before Make action

1 pole 12 way: FH47B, 2 pole 6 way: FH48C.  
 2 pole 9 way: FF81C, 4 pole 3 way: FH50E.  
 6 pole 2 way: FH51F.

### Make before Break action

1 pole 12 way, can also be wired as independent 1 pole 2 way for the first 2 positions (thereafter open circuit), followed by the remaining 10 ways on a separate circuit. The wafer can be reversed to make the SPDT action the last 2 positions.  
 The two wiper contacts must be wired together for single pole 12 ways: FH52G, 2 pole 6 way: FH53H.

Retail Unit Price each (inc. VAT).

Order Code	Type 2467	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FH47B	Maka Wafer 1p 12w	£2.120	£2.020	£1.910	£2.500

FH53H	Maka Wafer 2p 6w MB	£2.030	£1.580	£1.420	£2.390

## Screen

Metal plate to mount between wafers for screening.

Retail Unit Price each (inc. VAT).

Order Code	Type 2468	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FH55K	Maka Screen	£0.212	£0.200	£0.189	£0.250

## MICRO SWITCHES

### Sub-Miniature

A low-cost range of subminiature micro-switches produced to an internationally accepted standard size and operating characteristics. These switches are manufactured from glass-reinforced thermoplastic to give rugged performance. Switches are single-pole double-throw and available in the basic style, or with an actuator attached. Terminals are suitable for PCB mounting at a standard pitch.

The actuator is of stainless steel and is a 13mm long lever.

### Specification

Contact rating: 3A 125V AC  
 Body size: 12.8 x 6.5 x 5.8mm  
 Fixing centres: 6.5mm  
 Fixing hole: 1.2mm diameter (for M1 screws)

Retail Unit Price each (inc. VAT).

Order Code	Type 2451	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
GW66W	Sub-Microsw	£0.595	£0.510	£0.418	£0.700
GW67X	Sub-Microsw/Lever	£0.680	£0.592	£0.448	£0.800

## Sub Miniature

**Crouzet**

A sub-miniature microswitch of internationally accepted size and operating characteristics. It is manufactured to the highest standards using glass-reinforced thermoplastic with inlaid silver contacts. Switches are single-pole double-throw. BT approved.

### Specification

Contact rating: 5A 250V AC  
 Body size: 19.84 x 6.35 x 9.6mm high  
 Fixing centres: 9.53mm, 2.3mm clear  
 Actuator: 2.4mm above body,  
 2.26mm square

The switch is also available with an 18mm long lever or with a 16.8mm long lever with roller. Solder tag connections.

Retail Unit Price each (inc. VAT).

Order Code	Type 2471	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FP41U	Min Microswitch	£0.987	£0.842	£0.693	£1.160
FP42V	Min M-Sw With Lever	£1.140	£0.969	£0.798	£1.340
FP43W	Min M-Sw With Roller	£1.200	£1.020	£0.840	£1.410

## Low Cost Miniature

A low-cost range of miniature microswitches produced to an internationally accepted standard size and operating characteristics. These switches are manufactured from glass-reinforced thermoplastic to give rugged performance.

Switches are single-pole double-throw and available in the basic style, or with a choice of actuators attached.

Terminals are standard solder lugs. The actuators are of stainless steel and either a 16.5mm long lever, or a 18.5mm long lever carrying a roller.

### Specification

Contact rating: 3A 250V AC  
 Body size: 19.8 x 10.2 x 6.4mm  
 Fixing centres: 9.5mm  
 Fixing hole: 2.35mm diameter (for M2.3 screws)

Retail Unit Price each (inc. VAT).

Order Code	Type 2452	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
GW68Y	Min-Microsw	£0.595	£0.510	£0.418	£0.700

GW70M	Min-Microsw/Roller	£0.731	£0.612	£0.480	£0.860

## Miniature

**Crouzet**

A miniature microswitch of standard size with internationally accepted operating characteristics. Constructed in glass-reinforced thermoplastic to give strength and good temperature performance. Switches are single-pole double-throw.

**Specification**

Contact rating: 16A 250VAC  
Body size: 27.76 x 10.3 x 15.9mm high  
Fixing centres: 22.2 x 10.31mm,  
3.16mm clear  
Actuator: 2.76mm above body  
The switch is also available with a 28.3mm long lever, or with a 27mm long lever with roller.  
Standard 6.35mm (1/4in.) blade connections.

Retail Unit Price each (inc. VAT).

Order Code	Type 2472	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
FP44X	Microswitch	£1.140	£0.978	£0.805	£1.350
FP45Y	Lever Microswitch	£1.310	£1.120	£0.924	£1.550
FP50E	Roller Microswitch	£1.380	£1.180	£0.973	£1.630

**Low Cost Standard**

A low-cost range of standard microswitches produced to an internationally accepted standard size and operating characteristics. These switches are manufactured from glass-reinforced thermoplastic to give rugged performance. Switches are single-pole double-throw and available in the basic style, or with a choice of actuators attached. Terminals are 6.35mm (1/4in.) blade type that can either be soldered or used with push-on connectors (e.g., HF10L). The actuators are of stainless steel and either a 27.5mm long lever, or a 27.5mm long lever carrying a roller.

**Specification**

Contact rating: 15A 250V AC  
Body size: 27.8 x 15.9 x 10.3mm  
Fixing centres: 22.2 x 10.3mm  
Fixing hole: 3.1mm diameter

Retail Unit Price each (inc. VAT).

Order Code	Type 1463	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
GW71N	Std-Microsw	£0.765	£0.664	£0.540	£0.900
GW72P	Std-Microsw/Lever	£0.842	£0.720	£0.570	£0.990
GW73Q	Std-Microsw/Roller	£0.902	£0.786	£0.622	£1.060

**Heavy Duty**

Crouzet

A heavy duty microswitch with internationally accepted dimensions and operating characteristics and a particularly rugged construction. Switches are single-pole double-throw.

**Specification**

Contact rating: 16A 250VAC  
Body size: 46.4 x 16.3 x 18.7mm high  
Fixing centres: 25.4mm, 3.78mm clear  
Actuator: 5.26mm above body  
The switch is also available with a 60mm long lever, or a 60mm long lever with roller, or a panel-mounting bush and push-button. Bush requires

9.5mm panel cut-out and is 8mm long, flattened to 8.1mm on opposing sides. Button is 8mm long. Standard 6.35mm (1/4in.) blade connections.

Retail Unit Price each (inc. VAT).

Order Code	Type 2475	Price each exc. VAT			inc. VAT each 1+

**Protected Sub-Miniature Microswitch**

Crouzet

A protected sub-miniature microswitch housed in a glass filled polyamide case.

- ★ Compact size
  - ★ Double Break C/O
  - ★ UL and CSA approved
- Crouzet Part Number 83 133 035

**Specification**

Contact rating: 5A, 250Vac  
Operating temperature: -20°C to +125°C  
Body size: 20.4x10x6.4mm  
Fixing centres: 7mm

Retail Unit Price each (inc. VAT).

**LIMIT SWITCHES**

**Limit Switch - Plastic Body**

Crouzet

Industry standard limit switches to EN50047 housed in a thermoplastic case which is double insulated. These switches are designed for use in industrial applications and have a fail safe action, the contacts being forced apart in the event of welding.

- ★ Snap Action Contact with Positive Break Operation

- ★ IP66 rated
- ★ UL/CSA and British Rail approved

## SLIDE

### Single Pole Sub-Miniature

Sub-miniature SPDT slide switch suitable for use as replacements in calculators, clocks etc. Can be PCB mounted.

Dimensions: Body: 11 x 5 x 6mm  
Front plate: 19 x 5mm  
Tang: 3-8mm long (throw 3mm)  
Tags: 4mm long x 1-5mm wide  
Fixing centres: 15mm x M2 tapped

Rating: 125V AC 0-3A

Retail Unit Price each (inc. VAT).

## 4-Pole Change-over

A miniature switch incorporating four separate single pole change-over switches. Pin connections allow this switch to be used in PCB designs, and four mounting pins connect to the body of the switch to help shield and anchor it securely.

### Specification

Operating voltage: 30V DC  
Operating current: 1A  
Insulation rating: 500V  
Temperature range: -10 to 60°C  
Life: 10000 cycles

Retail Unit Price each (inc. VAT).

FH38R	4-Pole Slide	£0.851	£0.530	£0.438	£1.000

### PUSH

### Illuminated Push-Button Switches

Two 4PDT, PCB mounting, illuminating push switches. An internal light source (red or green) illuminates the clear push plunger when the lighting circuit is activated. A clear push-button cap is available separately (KE62S). The switches are available as latching and non-latching 4PDT illuminating push switches.

Retail Unit Price each (inc. VAT).

### PCB Mount Momentary Push Switches

Fujitsu

High quality miniature momentary action push switches. Ideal for PCB mount data or signal reset applications in audio or computer network situations.

Maximum rating 50Ma  
48VAC/DC. Gold plated contacts in a board washable unit.

Terminal pitch 0.1in.  
2 Pole Horizontal mount 5 x 9 x 18.9mm overall  
1 Pole Vertical mount 5 x 9 x 19.3mm overall  
(16.0mm above PCB)

Retail Unit Price each (inc. VAT).

### Sub Miniature PCB Mount Push Switches

Sansal

Designed for low current applications such as instrumentation and portable test and communications equipment. These switches offer extremely high quality in an extremely small and light weight package. Switch operation is momentary or latching in 2, 4 or 6 pole versions. Connecting pins are on a 2.54mm (0.1 in) grid suitable for PCB mounting and each switch is ready fitted with a mounting bracket.  
Contact Rating 100mA at 30VDC  
Contact Resistance <20mOhm

Dimensions mm	Length (Body)	Height (Ex Pins)
2 Pole	14.1	9.0
4 Pole	21.6	9.0
6 Pole	29.1	9.0

Switch Buttons Black

### Splashproof Push Switch DPST

An attractively styled, double-pole, momentary action, circular push-button switch that is mains rated, with normally-open silver contacts. The switch is moulded in black self-extinguishing thermoplastic, with a white push-button, and snap-fits into a 16mm diameter hole in panels 0.7 to 2.5mm thick. Supplied with a waterproof cap and bezel. Rated at 3A/250V AC for resistive loads and 1A/250V AC for inductive loads.

Retail Unit Price each (inc. VAT).

Order Code	Type 2345	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
RD20W	Splashproof Sw	£1.880	£1.590	£1.260	£2.210

### Interlocking Push-Button Switch System

A very high quality, low-cost range of push-button switches, each of which is capable of operating as either push-on/push-off (locking), momentary push only (non-locking), or as part of an inter-locked

group (push-on any one to latch and release others). The push-on/push-off action (latching action) is provided by a wire detent. To make the switch a momentary action switch (non-latching action) the wire detent is pulled from the latching mechanism in the switch body and placed on one outside edge of the switch. The other end of the wire detent must be left in under the spring as this prevents the plunger falling out. An almost infinite variety of configurations are possible using the latchbrackets, so that these switches fulfil practically all the likely requirements of a quality push-button switch installation.

### Signal Switches

Moving contacts are spring-loaded and contoured to achieve constant pressure, a positive self-cleaning action and long-term low contact resistance. The housing has printed circuit pins fixed on the bottom face and solder terminals on the top face.

Rated: 0-5A, 100V AC  
0-2A, 250V AC  
1A, 25V DC  
Max. contact resistance: <50mΩ after 20,000 operations

Max. insulation resistance between adjacent contact or frame and any contact: 100MΩ at 500V DC  
Working temperature range: -20°C to +70°C  
Action: Break before make

PCB pins are on a 4 x 6mm matrix. Four different button styles are available. These switches are available in the following types: 2-pole changeover, 4-pole changeover and 6-pole changeover.

Length of body:  
2-pole changeover: 24.5mm  
4-pole changeover: 36.5mm  
6-pole changeover: 48.5mm

Retail Unit Price each (inc. VAT).

## Mounting Brackets

A range of mounting brackets for mounting the latching switches and providing interlocking action where required. The switches have no other means of fixing except by their PCB pins. Latchbrackets are available for mounting up to 10 switches, any group of which can be interlocked, and any switch may be locking or non-locking (if not interlocked). The single version is only a mounting frame for one switch, whereas the others include a latching bar and a latch return spring for the interlocking function. The length of the latch bar is matched to the frame, but it can be cut down for only those switches in the whole group which are required to be interlocked, and the return leafspring can be located at any switch position.

Retail Unit Price each (inc. VAT).

## Miniature Push-Button Switches

Miniature PCB mounting push-button switches having square buttons with identical dimensions to the body, 11.6mm square, so that any number of switches can be stacked horizontally or vertically with ease, and all buttons will mate together side-by-side. The four pins are on a 7.62 x 5.08mm matrix, which includes a 1.6mm diameter locating peg on the body itself, offset 5.4mm from centre. Total height above PCB, 17.7mm; to base of button, 12mm. Contacts are rated at 3A at 125V AC. Contact resistance is 20mΩ. Insulation resistance, 100MΩ at 500V DC; insulation strength, 1,000V AC for 1 minute. Two types are available, SPST push-on/push-off locking, and SPST push-on/release-off momentary action. Each type is also available with either a Black or White button.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
JX94C	Min Sw Locking Black	£2.220	£1.740	£1.560	£2.620

JX99H	Min Sw Momntry Wht	£2.220	£1.740	£1.560	£2.620

## Miniature Illuminated Push-Button Switches

Miniature PCB mounting push-button switches as above, but also having a square LED indicator inset into the button. Again both the body and button are 11.6mm square, so that switches can be stacked. The four pins are on a 7.62 x 5.08mm matrix, which includes a 1.6mm diameter locating peg on the body itself, offset 5.4mm from centre. Two of these are the connections for the integral LED which does not include a dropper resistor. Total height above PCB, 17.7mm; to base of button, 12mm. Contacts are rated at 3A at 125V AC. Contact resistance is 20mΩ. Insulation resistance, 100MΩ at 500V DC; insulation strength, 1,000V AC for 1 minute. Two types are available, SPST push-on/push-off locking, and SPST push-on/release-off momentary action, and both types available with either a red or

green LED within a black button. Forward current of LED must not exceed 40mA, nor power dissipation exceed 80mW (Red) or 100mW (Green). Voltage drop is 1.7V for Red type, and 2.1V for Green at  $I_F = 20mA$ .

Retail Unit Price each (inc. VAT).

## Square Push-Button Switches

Smart push-button switches featuring a silver coloured square bezel 14 x 14mm, and a silver square button 10 x 10mm. Remainder of body is threaded for a 10mm dia. panel hole, and a lockwasher and fixing nut are included. Single pole single throw only with two solder terminals. Overall depth from front of panel is 20mm. Rated at 125V at 3A, 250V at 1A AC. Two types are available, push-on/push-off locking, and momentary push-on/release-off non-locking.

Retail Unit Price each (inc. VAT).

## The Complete Modular Switching System

### Apem

This modular switching system, designed and manufactured to very high standards in the UK, offers a comprehensive range of push-button and key operated switches and indicator lamps, all approved to the latest European-wide standards. They are ideal for control systems, office and industrial equipment and many other panel-mounted applications. All components are finished in charcoal grey.

### Modular System Specifications

Electrical rating: min 10mA 5V AC  
max 6A 250V AC  
Electrical life: Frequent duty >50,000 operations  
Switch & lamp terminals: 2.8mm for Faston connectors or solder 2 x 1.0mm<sup>2</sup>  
Circuits: Changeover 1.5mm nom. contact gap  
Gold flash silver  
Contacts: Contact resistance initial: <10Ω at 4V DC and 1A >50MΩ  
Insulation resistance: 95%RH  
Operating humidity: 16mm diameter mounting hole  
Panel mounting: IEC 529 IP65 at front of panel, IP40 at back  
Class 2  
Approvals: UL, CSA, BEAB & VDE

## Call and Collect

Maplin has more stores Nationwide than ever before. See the maps at the front of the catalogue for the nearest one to you.

## Push-Button Switch Operators

Each push-button switch operator, which can have a square (18 x 18mm) or rectangular (18 x 24mm) bezel, drives a small piston to activate the switches in the switch block below. Switch state is clearly visible from the side, both mechanically and when illuminated.

The white push-button supplied can be covered by an optional removeable coloured or clear screen and can accommodate printed or engraved legends. All push-button switches can be illuminated, bulbs available separately.

Each complete switch assembly requires the additional purchase of a switch block, a screen and bulb.

**Overall dimensions:** 18 x 24 x 52mm (rectangular operator)  
18 x 18 x 52mm (square operator)  
18 x 52mm (round operator)  
Switch height from panel 10mm

## Keylock Switch

Available with a rectangular (18 x 24mm) or square (18 x 18mm) bezel this switch has two positions, operated by a key. The key can be removed with the switch locked in either the 'on' or 'off' position. Supplied with two keys.

Each complete keylock assembly requires the purchase of a separate switch block.

**Overall dimensions:** 18 x 24 x 52mm (rectangular keylock)  
18 x 18 x 52mm (square keylock)  
Switch height from panel 10mm (34.5mm with key in place).

*Retail Unit Price each (inc. VAT).*

Order Code	Type 11920	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+

## Indicator Lamps

Indicator lamps complement the design and colour of switch operators but instead of providing a switch action they simply illuminate to indicate circuit state ('on' or 'off'). They are supplied with plain white tops, ready to accept the coloured or clear screens shown above.

Each indicator lamp assembly requires a bulb and a screen which can be purchased separately.

**Overall dimensions:** 18 x 24 x 52mm (rectangular indicator)  
18 x 18 x 52mm (square indicator)  
18 x 52mm (round indicator)  
Indicator lamp height from panel 10mm  
T 1 3/4 Midget Groove bulbs required

## Illuminated Vandal Resistant Switches

A range of vandal resistant switches with robust stainless steel button and bushing sealed to IP65  
Illuminated versions available with green or red

LED, or in non illuminated form.  
Gold plated contacts for low level switching, with an excellent tactile feel.

Switch Rating 50mA 24VDC LED 1.6V 2mA  
Panel hole 19.2mm. Overall Length 23.8mm  
Bezel Diameter 22.0mm Fixing 22.0mm hex nut.  
Terminals solder tag.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each

## Foot Switches

Hard-wearing push-on push-off switch with strong metal shaft and knob for use as foot operated switch. Requires a 12.7mm (1/2in.) dia. panel cut-out and has a 12mm long threaded bush.

### 2A Type

SPDT switch.  
Rated 2A at 250V AC.  
Body size: 36 x 12 x 15mm.  
Bush and knob length: 28mm.  
The common terminal is the centre one.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FH32A	Press Toe SPDT	£3.850	£3.060	£2.810	£4.530

### 6A Type

DPDT switch. Rated 6A at 250V AC, 10A at 120V AC. Body: 28 x 18 x 23mm.  
Bush and knob length: 24mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FH33B	Press Toe DPDT	£4.970	£4.180	£3.730	£5.850

## Cassette Recorder Remote Control Footswitch

For cassette recorders and dictation machines having a start/stop remote control 2.5mm jack socket. Upon plugging in the footswitch, the machine will be able to play tape while the switch is held down, and pause while the footswitch is released. Fitted with 1.4m of lead terminated in a mono 2.5mm jack plug. Dimensions of switch housing: 77 x 75 x 25mm deep. Has a non-slip rubber pad underneath and a ribbed rocking top face. Colour black.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
KW02C	Remote Footswitch	£3.420	£2.610	£2.340	£4.030

## Illuminated Click Effect Push Switches

A very smart click effect push switch for direct PCB mounting. The rectangular black button has a dimple over the switch end, and a rectangular window for the LED indicator lamp at the other end. The switch mechanism is of the conductive rubber contact type with a smooth, positive click action, and is single pole push to make connecting a pair of PCB pins underneath. The body is 15.5 x 10.1mm rectangular with support feet at the corners to ensure it stands firm and square on the PCB surface. The switches are stackable side by side and include locating pegs and sockets on the sides for this purpose. A very professional, neat array of switches can be made up in this way. The LED is electrically accessible via a further pair of pins (four in total), with the polarity marked on the switch base. Available with red or green LEDs.

Contact rating: 1A @ 125V AC  
Contact resistance: 20mΩ max.  
Insulation resistance: 100MΩ  
(as measured at 500V)  
Max. voltage: 1000V AC for 1 minute  
Life: 100,000 operations  
Button size: 15.3 x 9.8 x 5.1mm  
Button travel: 1.5mm  
Gap between stacked buttons: 0.5mm  
LED reverse voltage: 4V max.  
LED forward drop: 2.1V @ 20mA  
Max. current: 25mA  
Overall height from PCB: 14.1mm  
Height of body from PCB: 9mm  
Pin length: 3.8mm  
Pin diameter: Switch 0.6mm, LED 0.45mm  
Pin spacing: 'T' pattern, 0.2in. between switch pins, 0.2in. between middle switch pin and both LED pins, which are 0.1in. either side of switch pins' axis.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JU04E	Click Sw+LED Red	£1.450	£1.150	£1.030	£1.710
JU05F	Click Sw+LED Green	£1.450	£1.150	£1.030	£1.710

## Illuminated Push Button Switches

### Switch Assembly

Attractive square push button switches in push/push locking or non-locking styles, with a double pole make function, using two pairs of solder tags at rear.

The switches include a sprung metal snap-in-plate which makes installation simply a process of pressing the switch into a 12.7 x 12.7mm (1/2in. square) hole. The buttons are 9.8mm square in a 14mm square escutcheon. Overall length 23mm less tags. Contact rated 100mA at 30V DC.  
Note: Lens cap and bulb must be ordered separately. The switch can be used without the bulb if desired.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
FA78K	Illuminated Momentary Sw	£2.570	£1.960	£1.770	£3.020

## Modular Switch

A switch available in momentary and latching types which may be used on its own or in various combinations with its accessories. Possible combinations are switch with button, switch with button and bezel, and switch with button, bezel and LED. Buttons are available in blue, grey or red; bezels are black, one type being plain and the other having a hole in the top right-hand corner for an LED; and the LEDs are available in red or green. Momentary and latching switches are identical except that momentary type has a black plunger, whilst latching type has a red plunger.

The switch is manufactured in glass-reinforced polycarbonate with ABS buttons and bezels. Fixed contacts are silver-flashed, nickel-coated tin-bronze alloy and moving contacts silver-flashed, nickel-coated beryllium-copper.

### Specification

Contact rating: 250mA and 120V subject to 9W AC max, 6W DC max.  
 Max non-switching current: 500mA  
 Contact resistance: 35mΩ  
 Contact bounce: <5ms  
 Insulation resistance: 5 x 10<sup>13</sup>Ω

### Dimensions

Switch body size: 12.6 x 12.6 x 10.1mm high  
 Plunger size: 3.3 x 3.3 x 5.6mm high  
 Pins: 0.7 x 0.3 x 4mm long  
 Button size: 12.3 x 6 x 4.8mm high (with button fitted overall switch height is increased by 1.1mm)  
 Bezel size: 15.1 x 15.1 x 14.5mm high (when fitted to switch height from base of switch is 16mm and button protrudes by a further 0.8mm)

### LED

Forward voltage at I<sub>F</sub> = 20mA:  
 1.6V red 2.7V green  
 Max forward current:  
 50mA red 30mA green

Retail Unit Price each (inc. VAT).

## Tactile Switches

A range of high quality PCB surface mounting click-effect switches with a positive click action in miniature and sub-miniature sizes. The switches are single-pole push-to-make non-locking and each contact is connected to two pins for ease of track layout.

### Sub-Miniature Specification

Rating: 12V DC 50mA  
 Operating force: 120 ± 30gF  
 Travel: 0.25mm ± 0.1mm  
 Contact resistance: 100mΩ max  
 Life: 100,000 cycle min.

## Click-Effect Push Switch

A neat, small low cost push switch in a matt grey finish for direct PCB mounting. Smooth, gentle and positive action with a click-effect so that you know switch has operated. Action is single-pole push-to-make non-locking.

Switch has a small square button fitted to a circular base. Each contact is connected to two pins for ease of track layout on PCB. Contact is self-cleaning laminated silver.

### Specification

Contact rating: 10mA at 35V DC  
 Contact resistance: >50mΩ  
 Bounce: 1ms  
 Insulation resistance: >10<sup>9</sup>MΩ  
 Life: 500,000 operations  
 Inter-contact capacity at 1MHz: <1pF  
 Key travel: 0.8mm  
 Size of button: 7.7 x 7.7mm  
 Height of button: 4mm  
 Overall diameter: 11.5mm  
 Overall height from pcb: 10.8mm  
 Pin length: 2.8mm  
 Pin diameter: 0.8mm  
 Pin spacing: 5 x 5mm

**KEYPAD / KEYBOARD**

**Miniature Key Switch**

A sealed, miniature key switch for PCB mounting that has a single pole, single throw, normally open contact. The switch features a short actuator, silver terminals and a positive 'click' action. Available with a round snap-in button.

**Specification**

- Contact: Silver
- Voltage rating: 20V min. 50V max.
- Current rating: 1mA min. 50mA max.
- Max. switching power: 1VA
- Max. contact resistance: 50mΩ
- Nominal operating force: 160g
- Life expectancy: 500,000 operations

Retail Unit Price each (inc. VAT).

Order Code	Type 2508	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
DC70M	Mini Key Switch	£0.476	£0.378	£0.326	£0.560
DK81C	Rnd Snap-in Button	£0.246	£0.204	£0.189	£0.290

**Keyboard Switch**

A low-cost non-locking push-switch designed for making up keyboards and key pads etc. The keytops must be ordered separately. Designed to be mounted directly on the pcb, the centre of each switch should be 19mm distant from its neighbour. The keytops will then butt up to one another to avoid having a complicated front panel cut-out.

**Specification**

- Rating: 1mA at 24V DC
  - Bounce: 10ms max. (4ms typical)
  - Contact resistance: 200mΩ
  - Stroke: 2.5mm
  - Life: 10<sup>6</sup> operations
  - Overall size: 15 x 15mm
  - Height: 17mm (excluding 3mm pins)
  - Height with key-top: 19mm (excluding pins)
- Switches are non-locking push-to-make.

Retail Unit Price each (inc. VAT).

## Numeric Press Button Keypad

A numeric keypad comprising twelve square, double moulded white buttons with black legend, on a black ABS escutcheon. Legends are 0 to 9, asterisk and hash (#). The buttons operate conductive silicon rubber pads and have a click effect. The single pole make switches are arranged on a four by three X/Y matrix. Overall dimensions 51 x 64 x 13mm. Fixing centres 46 x 59.

### Specification

Contact rating:	24V DC 5mA
Contact resistance:	200Ω (max)
Bounce:	5ms (max)
Actuating force:	140g ±40g
Key travel:	1.8mm
Key life:	1,000,000 operations

## MEMBRANE

### Modular Membrane Keypad Kits

A range of membrane keypads and keyboards designed to provide you with exceptional reliability, performance and extended life, and, most importantly of all, are supplied with blank keys, a set of coloured key overlays and rub-down lettering. Now at last you can make up your own keypads with your own individual key legends! From these basic units many different types of keypad switches may be easily created for your one-offs and prototypes with professionally finished,

custom legends.

The flexible membranes are built up from wafer-thin assemblies consisting of an array of normally open contact switches, produced by printing a conductive substrate onto plastic films. The two contact layers, one above the other, are separated by a spacer layer, and the whole laminated together. When the switch area is depressed, the top contact closes with the bottom one to make the connection, and then opens when the pressure is released. Connection to the membrane's switch array is made through a ribbon cable which is simply an extension of the conductive layers, and terminated with an inline, multi-way PCB terminal which plugs onto the end. The ribbon can be easily disconnected and re-inserted into this terminal during service if required. Each membrane keypad kit contains the main basic keypad switch and connector array; a textured, hard wearing top template with a black border surrounding the keys and legends; and the single inline connector which can be directly soldered into a PCB and is compatible with 0.1in. spaced matrix and strip-board. All these parts are supplied separately in the package. The custom overlay system includes a set of pre-cut, self-adhesive transfer pads, designed to fit over each switch key area and fill the key space. The keys are surrounded with a double-sided adhesive film (for the top template) protected by a backing sheet, both of which leave the key areas free. There is a choice of six colours for the transfer pads and enough of them to entirely fill whichever size of keypad chosen with keys of the same colour. To assemble, the desired coloured pad is placed over the key position which, when stuck down, will lie flush with the backing sheet of the adhesive border. It will be helpful to leave the pad attached at one corner to the edge of its carrier sheet while positioning it over the key area. The pads will accept marks from felt tip pens, but better results will be produced by using the rub-down transfer lettering.

A B C D E F G H I J K  
L M N O P Q R S T U  
V W X Y Z  
0 1 2 3 4 5 6 7 8 9  
# + , - \$ @ = ~

These are specially developed letter transfers for use with the coloured pads. To apply, place the desired character over the pad and rub over with a blunt point, e.g. blunt pencil, tip of an artist's brush, cap of ballpoint pen etc., do this carefully to prevent cracking the character. Only alpha-numeric characters with capital letters are provided, with a selection of other symbols. When the legends are finished, the surrounding backing sheet is carefully peeled off and then the top template applied, making sure that the textured surface is outermost. Six styles of keypad are available.

### 4-Way Keypad

An 80 x 32mm keypad with four keys 13.5mm square with rounded corners. Keys are arranged in one row and spaced 3.5mm apart.

The connecting ribbon cable is 70mm long and 23mm wide. An 8-way PCB terminal is supplied unattached. Pins are spaced 0.1in. apart and the terminal is compatible with 0.1in. matrix and stripboard. Supplied with 8 White, 4 Blue, 4 Red, 4 Green, 12 Grey and 4 Yellow self-adhesive transfer pads and a sheet of alpha-numeric rub-down characters.

## KNIFE

### Knife Switch

Ideal for educational and demonstration purposes, the switch is double-pole changeover, having four sets of spring contacts, along with the fulcrums of

the moving contacts, fixed to a base board. Uses should be restricted to switching voltages not exceeding about 24V DC. A safe maximum current rating is about 10 to 15A. The base board is 60mm long x 43mm wide and 6mm thick.

FK31J	Knife Switch	£1.370	£1.070	£0.938	£1.610

## REED

### Rhodium Plated Reed Switches

A dry-reed switch with rhodium plated contacts for long life. When a magnet or electromagnet is brought near the reed, magnetism is induced into both halves of the reed in the same direction. Thus, of the overlapping ends, one becomes a north pole and one a south pole and the attraction of the poles causes the switch to close. When the operating magnet is removed, the springiness of the reed enables the switch to break.

Type	Standard	Compact	Miniature

## Magnets

Magnets for use with our Reed Switches. Approximate sizes: Small: 18 x 3 x 3mm. Large: 25 x 5 x 5mm.

In the table below the distance in mm is that when the reed just operates and just releases when the wide face of the reed is parallel to a long face of the magnet and is measured from the centre of the reed to the nearest face of the magnet. In practice reduce the operate distance and increase the release distance by 25% to ensure reliable operation.

Magnet	Standard	Compact	Miniature
Large	Operate distance 22mm Release distance 36mm	Operate distance 19mm Release distance 29mm	Operate distance 26mm Release distance 36mm

## TILT

### Non-Mercury Tilt Switches

A hermetically sealed tilt and motion detector ideal for use with industrial control equipment, household goods and security devices. The CM1300 (DP50E) is designed for low level switching applications which are currently using mercury switches. Enclosed in a metal housing for longer life. Features hermetically sealed contacts and filled with an inert gas for stable, resistance and quiet operation.

**Specifications:** **CM1300**  
 Switching current: 450ma (at 1.5V DC)  
 Switching voltage: 120V AC  
 Contact resistance: 0.8Ω

Retail Unit Price each (inc. VAT).

### Non-Mercury Tilt Switches

A pair of hermetically sealed tilt and motion detectors ideal for use with industrial control equipment, household goods and security devices. MTA240 (DP48C) and MTC175 (DP49D) are hermetically sealed tilt switches incorporating reed switch contacts featuring non-bouncing contacts and estimated mechanical switching life in excess of 105 operations. The MTA240 has a simple N.O. configuration while the MTC175 incorporates a change-over function. Ideal for use in a wide variety of industrial, household and leisure-time applications.

**Specifications:** **MTA240** **MTC175**  
 Switching current: 500mA 500mA

## Tilt Switches

A sealed encapsulated mercury tilt switch which finds applications in sensing angles of position for machine control, angular movement detectors, etc. The switch is finished in black and includes a mounting clip. It is fitted with a pair of 14cm long leads terminated in 4BA (M5) crimped ring tags.

**Specification**  
 Type: G5Z-003  
 Included angle: 11° max.  
 Contact rating: 13A @ 240V AC  
 10A @ 240V DC

**Insulation Strength:**  
 Contact to contact, off state: 1500V  
 Encapsulation: 5000V

**Dimensions:**  
 Length: 46mm  
 Diameter: 13mm  
 \*Max included angle = degree of movement from position to guarantee an 'off' state through horizontal to position to guarantee an 'on' state.

## Tip-Over Safety Switch

### Assemtch

Potted in a robust polypropylene housing these sealed mercury tip over switches are designed for level and position sensing as well as safety systems. The switch contacts are closed when vertical and open when tilted beyond the 35° from vertical.

Max Contact Rating 15A 240VAC  
Terminals 2 x 200mm leads 17awg silicone rubber insulated. Diameter 28.0mm Height 29.0mm Fixing centres 42.0mm

Retail Unit Price each (inc. VAT).

		1+	25+	100+	1+
CE59P	35deg Tipover Switch	£5.770	£5.000	£4.570	£6.790

## Tip-Over Break Contact Switches

A pair of mercury switches in nickel plated steel encapsulations. These switches are designed to be installed such that they are normally 'on' whilst 'upright', and break contact if tilted off vertical.

### Safety Supply Breaker Type

The T03-1016 finds applications in free standing electric heaters for example, and will turn off the appliance should it fall over. The switch is terminated with a right-angled 'Lucar' blade at top and a 'Lucar' terminal at the side, suitable for use with our push-on connectors in the Connectors Section.

### Motion Break Contact Switch

The 4539 is a tip-over switch which can be used in security applications to detect vibration or for detecting motion. It is quite sensitive to side-ways and vertical displacement, and will break contact if moved or knocked sharply. The switch remains closed for gentle movements. The break angle ensures 'normal' operation of the sensing circuit for any angle up to 79° relative to absolute vertical. The vertical terminals are 7mm long pins spaced at 2.5mm.

### Specification

Type	T03-1016	4539

## Vibration Switches

### Assemtch

Miniature vibration switches ideal for mobile security units on cars, bikes etc or as a safety device on machinery. The contacts are normally open but when vibrated the switch pulses on and off continuously until movement stops.

	Type 1	Type2
Max switching voltage	240Vac	120Vac
Max switching current	500mA	150mA
Switching capacity	200VA	3VA
Contact resistance	N/A	5Ω
Operating temp	-37°C to 100°C	
Overall length	20.7mm	7.1mm
Body dia.	8.2mm	4.6mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
UK57M	Vibration Switch	£2.530	£2.410	£2.290	£2.980
SH40T	Mini Vibration Sw	£1.940	£1.850	£1.760	£2.290

## ACCELERATION

## LINEAR ACCELERATION SWITCHES

### Assemtch

Linear acceleration switches which are fitted with a spring loaded contact which closes when the switch detects shock or acceleration above certain thresholds (see technical specification). Contacts will open again when activation levels decrease.

Three versions are available:

	AS1-25	ASLS-5	ASS-25
Max switching voltage	24Vdc	24Vdc	24Vdc
Max switching current	250mA	250mA	250mA
Max switching capacity	5VA	5VA	5VA
Max contact resistance	10Ω	10Ω	10Ω
Activation level (G)	25.0±2.0	5.0±1.5	25.0±2.0
Operating temperature	-20°C to +85°C		

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
SH46A	LinAcc Sw Mini	£22.090	£20.990	£19.880	£25.960
SH47B	LinAcc Sw LowForce	£4.450	£4.230	£4.010	£5.230
SH48C	LinAcc Sw Std	£17.770	£16.890	£16.000	£20.890

## FLOAT

## Compact Float Switches - Horizontal Mounting

### Assemtch

Horizontal mounting liquid level float switches designed to be mounted on the side of a vessel from the inside. The switches are used to indicate either high or low levels when the pivoted actuator magnet comes close to the reed switch mounted in the main body.

Two fixing styles available, Compression gland on 16.5mm diameter mounting hole and 1/2 in NPT gland fitting. The case material is polysulphone and nylon it complies to food contact regulations and is resistant to acids and alkalis.

Minimum Specific Gravity	0.7	
Temperature range	-20°C to +80°C	
Max Switching Voltage	240VAC/200VDC	
Max Switching Current	SPST 50W/0.5A	

Dimensions	Length O/A	Length Actuator
Panel Fig.	90.0	52.0
1/2in NPT	97.5	52.0
Lead Wires approx.	300mm.	

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
CL25C	Float Sw Panel Fig	£10.200	£8.350	£7.300	£11.990
CL26D	Float Sw 1/2 NPT Fig	£10.200	£7.950	£6.750	£11.990

## Compact Float Switches - Vertical Mount

### Assemtch

Vertical mounting liquid level float switches for indicating high or low levels. As the float containing the magnet rises or falls it will turn the reed on or off. Both versions are reversible allowing normally open or normally closed operation

Max switching voltage	230Vac/200Vdc
	OR 125Va
Max switching current	200ms±
Temp range	-20°C to +80C
Material	Polypropylene
Clearance hole dia.	10mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
SH42V	Vert Float Sw 125VAC	£6.930	£6.590	£6.250	£8.150
SH43W	Vert Float Sw 250VAC	£14.400	£13.680	£12.960	£16.920

## POWER

### Battery Isolator Switch

The safer way to control circuits up to 300A at 12V or 24V. Insert the key and turn it clockwise to make the circuit live. To switch off and isolate the circuit turn the key anti-clockwise and remove.

Retail Unit Price each (inc. VAT).

Order Code	Type 9586	Price each exc. VAT 1+	inc. VAT each 1+
WD16S	Battery Isolator	£9.930	£8.150

### Control Panels

Zig

This three-way switched and fused 12V distribution panel includes a battery condition monitor (green light=normal charge, red light=low charge) and power source selector switch. Available in horizontal (WD32K) or vertical formats (WD33L), these panels are designed to be installed remotely from the power supply.

#### Overall Dimensions

Horizontal Panel: 215 x 80 x 40mm  
Vertical Panel: 175 x 75 x 60mm

Retail Unit Price each (inc. VAT).

Order Code	Type 9601	Price each exc. VAT 1+	inc. VAT each 1+
WD32K	CP400 Control Panel	£21.690	£25.490
WD33L	CP400V Control Panel	£21.690	£25.490

## PROXIMITY SWITCHES

### MAGNETIC

#### Proximity Switches

Assemtech

Magnetic proximity switches with reliable hermetically sealed contacts in Normally Open and Changeover styles. Contacts actuate when the magnet is in close proximity to the switch. Suitable for safety systems, position sensing, level sensing, flow sensing, security and anti tamper applications. The rectangular housing style has two slotted holes to provide easy fixing and adjustment of both switch and actuator. The cylindrical housing style are available in standard and miniature housing.

#### Rectangular Housing

Order Code	CL27E	CL28F	SH49D
Part No	PSA	PSC	PSC

**All Customers**  
No additional freight charges for heavy items

### Panel Mounting Proximity Switch

Assemtech

Magnetic proximity switch with highly reliable hermetically sealed contacts encapsulated in an M6 threaded nickel plated brass housing. This construction enables a wide range of adjustment in through panel mounting.

Switching Voltage 470VAC  
Switching Current 0.5A max  
Switching Capacity 10VA max  
Dimensions Length 28.0mm  
Dia M6 thread  
Wire 300mm of 7/0.2 PVC  
Temperature Range -20°C to +85°C

Retail Unit Price each (inc. VAT).

Order Code	Type 10173	Price each exc. VAT 1+	25+	100+	inc. VAT each 1+
CL35Q	Prox Sw Panel Flg	£9.920	£7.250	£6.350	£10.490

## SENSORS

### PHOTOELECTRIC

#### Compact Photoelectric Sensors - UZA Range

Matsushita

A range of compact photoelectric sensors for use in detecting the presence of objects using light emitted from the sensor. The sensors output a signal to inform other devices of detection. Three versions are offered, with either NPN or PNP transistor output:

#### Diffuse: A23 (NPN) & A235 (PNP)

The sensor emits a constant beam of light and when an object passes in front of the sensor, within 0.8m, it is reflected back to the sensor which then outputs a signal.

#### Retro-reflective: A24 (NPN) & A245 (PNP)

As for the Diffuse type a beam of light is emitted by the sensor but in this case the beam is reflected back to the sensor by a reflector. Only when an object breaks the beam is a signal transmitted. The advantage of the this type is a greater detection distance (0.1 to 3.0m) but at a lower cost than a Through beam device.

#### Through beam: A20 (NPN) & A205 (PNP)

For the maximum sensing distance (Up to 10m) a separate transmitter and receiver are utilised. With this type of sensor when the receiver no longer detects a light source it will output a signal. An added advantage of this type of sensor is that the beam can penetrate up to 20 sheets of A4 paper and a typical application would be detecting for contents in a paper bag.

#### Mounting brackets are also available:

UZA811 Vertical mounting bracket  
UZA812 Horizontal mounting bracket  
UZA813 Protective mounting bracket

	A23/A235	A24/A245	A20A/205
Sensing range	0 - 8m	0.1 - 3m	0 - 10m
Emitting diode	Infrared LED	Red LED	Infrared LED
Detectable object	White paper 10x10cm	Metal, black Δ ≥50mm	Metal, black Δ ≥12mm
Current consumption without load, max	35mA	35mA	Transmitter: 35mA Receiver: 30mA
Operating voltage		12-24Vdc	
Output transistor, max		100mA	
Response time, max		1ms	
Connection method		Cable, 2m	
Environmental protection		IP67	
Ambient temperature		-25 °C to +55 °C	
Dimensions		33x12x20mm	

Retail Unit Price each (inc. VAT).

SH08J	UZA813 Protect Bkt	£5.600	£6.580

## Cylindrical Photoelectric Sensors - UZC Range

Matsushita

Cylindrical or Barrel photoelectric sensors for industry standard through hole mounting. Housed in a threaded M18 plastic body these sensors are sealed to IP67 allowing use in severe industrial environments.

Three variants are available, with either NPN or PNP transistor output.

**Diffuse type: A230 (NPN) & A2305 (PNP)**

For close range applications (<12cm) the optical beam is reflected back from the object to the sensor giving an output.

**Retro-reflective type: A250 (NPN) & A2505 (PNP)**

Using a reflector the sensor is triggered when the beam is broken by an object. Ideal for applications with a range of up to 3m such as items on a conveyor belt.

**Through beam type: A200 (NPN) & A2005 (PNP).**

Where detection is required over longer distances (Up to 12m) a transmitter and receiver are utilised. When the beam is broken the receiver produces an output.

	A230/A2305	A250/A2505	A200/A2005
Sensing range	12cm	3m	12m
Emitting diode	Infrared LED	Infrared LED	Infrared LED
Detectable object	White paper 5x5cm	Metal, black Δ ≥50mm	Metal, black Δ ≥8mm
Current consumption without load, max	25mA	25mA	Transmitter: 20mA Receiver: 25mA
Operating voltage		10-30Vdc	
Output transistor, max		100mA	
Connection method		Cable, 2m

## Miniature Photoelectric Sensors - UZJ Range

Matsushita

Miniature photoelectric sensors available as Diffuse or Through Beam 'U' shaped types. These sensors use fixed focusing of the light beam enabling precise object detection in a defined sensing range and are ideal for sensing at close ranges (typ <5/8mm). Due to their compact size and different design styles these sensors are also ideal for applications where space is limited.

Three different mounting versions are available in both Diffuse and Through Beam 'U' shaped variants. Each version is available with either Light ON or Dark ON output.

**Diffuse types:**

Top Sensing: Light ON (UZJ101), Dark ON (UZJ102)

Front sensing: Light ON (UZJ111), Dark ON (UZJ112)

L Type (Top sensing): Light ON (UZJ121), Dark ON (UZJ122)

**Through beam types, 'U' shaped:**

K Type: Light ON, (UZJ251), Dark ON (UZJ252)

L Type: Light ON (UZJ261), Dark ON (UZJ262)

T Type: Light ON (UZJ271), Dark ON (UZJ272)

	Diffuse	Through Beam
Rated sensing distance	8mm	5mm
Sensing range	2.5-8mm	5mm
Emitting diode	Infrared LED	Infrared LED
Detectable object	White paper 15x15mm	Metal, black Ø ≥5mm
Current consumption without load, max	25mA	30mA
Response time	0.8ms	Light ON: 20ms Dark ON: 200ms
Ambient temperature	-10 °C to +55 °C	-25 °C to +60 °C
Operating voltage	5-24Vdc	
Output transistor, max	NPN (Open collector), 100mA	
Connection method	Connector or solder terminals

## INDUCTIVE

## Miniature Proximity Sensor - UZP Range

Matsushita

Miniature inductive proximity sensors for use in detecting metal objects at very close range (<1.8mm). Being both compact and lightweight these sensors are ideal for confined spaces. Available in either Top or Front detection housings two variants are offered:

**Approach - ON:** A signal is output when a metal object comes within range.

**Leave - ON:** When an object leaves detection range a signal is output.

**Top detection, Approach - ON: UZP141**

**Top detection, Leave - ON: UZP151**

**Front detection, Approach - ON: UZP101**

**Front detection, Leave - ON: UZP111**

Typical applications include monitoring objects moving past a fixed point (conveyor belt) or monitoring whether a door/window is open or closed, making these sensors ideal for alarm systems.

Operating voltage	12-24Vdc
Output	NPN transistor
Output transistor current, (Open collector) max	100mA
Rated current, max	15mA
Detection frequency	500Hz
Sensing range	0 - 1.8mm
Standard detectable	Steel plate, 15x15x1mm
Environmental protection	IP67
Weight	12g
Ambient temperature	-10°C to +55°C

Dimensions:	Front detection	Top detection
	21x8x7.4mm	23x8x8mm

## TIMERS

### MOTOR DRIVEN

#### Run Back Timers

Crouzet

Motor driven run back timers designed for panel mounting applications. These timers feature a graduated setting knob allowing for quick setting and easy identification of remaining run time

#### Features

- ★ Available in single or double pole versions
- ★ 60 minute or 5 hour versions available
- ★ Operating voltage selectable between 115Vac and 230Vac

#### Specification

Operating voltage 115Vac or 230Vac  
 Contact rating 16A (Res), 4A (Inductive)  
 Power consumption 3.1VA  
 Mechanical life >10<sup>7</sup> operations  
 Operating temp -5°C to +70°C

Retail Unit Price each (inc. VAT).

Order Code	Type 17932	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
MG31J	1 SP R/Back 60min	£29.510	£28.040	£26.560	£34.680

MG34M	1 DIP R/Back 5 Hrs	£41.520	£39.450	£37.370	£48.790

### 4 POLE PLUG IN

#### Miniature On Delay Timers

Crouzet

H. 27mm W. 21mm  
 D. 69mm

On Delay timers with 4 SPDT contacts housed in a compact housing. These timers are designed for mounting into a 14 pin base and are easily set utilising a front mounted analogue dial.

#### Features

- ★ On Delay (Delay on energisation) function
- ★ Simple setting by analogue dial
- ★ Multiple Time Ranges:  
 0.1s to 1s, 1s to 10s, 0.1min to 1min, 1min to 10min, 0.1h to 1h, 1h to 10h
- ★ Available in four voltage versions:  
 24Vac, 24Vdc, 115Vac & 230Vac
- ★ LED indication of power and relay status

#### Specification

★ UL and CSA approved  
 Operating voltage 24Vdc  
 or 24Vac, 50/60Hz  
 or 115Vac, 50/60Hz  
 or 230Vac, 50/60Hz  
 Contact rating 3A, 250Vac (Res)  
 Reset time (max) 100ms  
 Mechanical life 10<sup>7</sup> operations  
 Operating temperature -20°C to +60°C

Retail Unit Price each (inc. VAT).

Order Code	Type 17935	Price each exc. VAT			inc. VAT each

MG29G	1 4 Pole Timer 115vac	£26.260	£24.950	£23.640	£30.860
MG30H	1 4 Pole Timer 230Vac	£26.260	£24.950	£23.640	£30.860

#### 4 Pole (14-Pin) DIN Relay Socket

Camden

Compact 14 pin relay socket for 2.2/2.6 mm blade terminal 4 pole relays. Suitable for DIN rail or chassis moulded with rising clamp type terminals and moulded in UL94 V1 self extinguishing PA6 with contacts rated at 7A, 300Vac. The socket terminals are finger proof to IP20.

Retail Unit Price each (inc. VAT).

Order Code	Type 13821	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
SDB1C	DIN 14 Pin 4P Skt	£2.220	£2.120	£2.010	£2.620

### DIN RAIL MOUNTING

#### DIN Rail Mounting Timers

Crouzet

H. 78.5mm W. 22.5mm D. 103.5mm  
 Electronic timers in a standard 22.5mm wide case for mounting onto 35mm symmetric DIN rail to EN50022 (DIN 46277-3).

#### Features

##### ★ Four types available

- TRA - On Delay (Delay on energisation)
- TRL - Assymetrical recycler (Cyclic), pulse or pause start
- TRQ - Star Delta
- TRU - Four function timer, including:  
 On Delay, On Pulse (Timing on impulse), Off Delay (Timing after impulse) and On pulse (Timing on energisation or Interval Timer - one shot)

- ★ Multi time range : 1s, 10s, 1m, 10m, 1h & 10h For Star Delta (TRQ) 2 sub ranges - 20s & 160s

- ★ Time ranges easily set by a front mounted switch (Two in the case of the TRL, one for pulse and one for pause)

- ★ Multi voltage: 24Vac/dc and 115 to 230Vac
- ★ LED indication of power & relay status
- ★ UL and CSA approved

#### Specification

Operating voltage 24Vac/dc & 115-230Vac, 50/60Hz  
 Contact rating 8A, 250Vac (res)  
 Contact type SPDT, AgCdO  
 Mechanical life >5x10<sup>6</sup> operations  
 Operating temperature -20°C to +60°C

Retail Unit Price each (inc. VAT).

### PROGRAMMABLE LOGIC CONTROLLERS

#### PLC Starter Kit - FP1

Matsushita

A low cost PLC (Programmable Logic Controller) kit consisting of everything the first time user needs to get started.

The PLC is a microprocessor based control system designed to replace timers, counters and relays for the control of complex systems with one compact unit.

This particular PLC is capable of accepting up to 8 inputs and supplying 6 outputs making it ideally suited to small industrial applications such as controlling lighting, machinery, motors etc. Due to its low cost it is also ideal for controlling model railways and other moderately complex systems.

#### Kit contents:

- FP1-C14 PLC
- NPST-GR programming software
- Programming lead with built in RS232C/422 converter
- Input simulator switches
- Operation and Application manuals
- Supply voltage 100-240Vac
- Max current 200mA @ 200V
- Input/Outputs (I/O) 8/6
- Processing speed 1.6ms / logical instruction
- Program capacity 900 steps
- Memory type EEPROM
- Number of commands  
 Basic 41  
 Additional 85
- Timers/counters 128
- Working temperature range 0°C to +55°C
- Dimensions 120x81x74mm

### Dialatron 66/1 Telephone

Dialatron

- ★ Pulse/tone operation
- ★ Mute key
- ★ Last number redial
- ★ Ringer on/off switch
- ★ Wall mounting
- ★ Suitable for PSTN connection

A cost effective telephone ideal for the bedroom, garage, conservatory and anywhere that occasional use may be required. Features included a mute switch for privacy, last number redial, ringer on/off and a dial tone reset button. The clear, simple key layout allows easy operation, while the holster (supplied) provides an effective solution to wall mounting. This unit has a REN of 1 and operates in 'Pulse' mode only but will still work correctly with the new digital exchanges. Suitable for PSTN (Public Switched Telephone Network) connection and some PABX (Private Automatic Branch Exchange). Supplied with full operating instructions and wall holster.

### Dialogue Telephone

Binatone

- ★ Mute key
- ★ Pause during dialling
- ★ Last number redial
- ★ Tone/pulse dialling
- ★ Earth loop/timed break recall
- ★ Ringer on/off switch
- ★ BT Star Services compatible
- ★ PABX compatible
- ★ REN=1

An elegantly styled two-piece telephone, ideal for use at home or in the office. This versatile telephone is able to connect to BT Star Services, PABX and home banking services by using the # and \* symbols in Tone dialling mode. For compatibility with older style exchanges this unit also operates in Pulse dialling mode. Last number redial is supplied as standard, allowing rapid dialling of engaged numbers and a mute key will prove useful during private conversations while online. Suitable for desk or wall mounting, supplied with screws and mounting template. Supplied with full operating instructions.

- ★ BT Star Services compatible

A very advanced cordless telephone employing the latest technology to ensure no other cordless phone users can use your line. 65536 different codes are used to 'password' the mobile to base station link, so that only your telephone will work with your base unit. Whenever the telephone is placed in the cradle to charge, the code is updated making it virtually impossible to work out the current code. 8-channel auto-scanning enables different frequency allocations to be altered - even while making a call. This makes it unlikely that another user in the area will be able to overhear your phone calls. The 2-way intercom allows message relay between the base and mobile units - ideal for contacting your partner in the garage or garden, etc. Supplied with full operating instructions.

Retail Unit Price each (inc. VAT).

## Payphones

### Imperial Payphone

Betacom

- ★ Accepts 10p,20p,50p & £1 coins
- ★ Pay on answer
- ★ Follow on call facility
- ★ 3 Direct memories
- ★ Handset volume control
- ★ Allows 999/112 calls without coins
- ★ Programmable tariff control
- ★ Programmable call barring
- ★ Connects to standard telephone line

This easy to use payphone has many of the facilities that you would expect from a more expensive model. The liquid crystal display shows the owner the amount of cash in the cash container eliminating the need to open and check each time. The owner may make free calls at any time by using a unique PIN code. Call barring can be programmed to prevent international calls etc, and tariff can be adjusted when required. The unit comes complete with full operating instructions and 12 month guarantee.

Retail Unit Price each (inc. VAT).

Order Code	Type 12489	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
YD08J	Imperial Payphone	£110.620	£99.500	£91.500	£129.990

## Solitaire 6000 Payphone

GN Rathdown

- ★ Supplied pre-programmed ready to use
- ★ 4 x AA Batteries supplied
- ★ Pay on answer with refund
- ★ Accepts 10p,20p,50p & £1 coins with future coin learning mode
- ★ Adjustable charge rates
- ★ Five year battery life
- ★ Next call button
- ★ International barring options
- ★ PABX compatible
- ★ Large 11 digit LCD display

In addition to the above features, the Solitaire 6000 has the ability to automatically route calls via the Mercury network to reduce call costs for the owner. By simply turning a key, the owner may also see on the LCD display, the amount of money contained in the cashbox. This total is then reset to zero when the cashbox is opened to empty. The Solitaire 6000 also has the ability to learn new coins to enable any new currency to be accepted at the correct rate. This unit is supplied with full operating instructions and 12 month guarantee.

Retail Unit Price each (inc. VAT).

## Telephone Systems

### D-I-Y Telephone System

A simple to use telephone system that allows users with only one telephone line to make, receive, hold and transfer calls in complete privacy from any of up to four different locations of the user's choice. Standard (pulse or tone) and cordless telephones can be used to access all features of the system. Special phones, answering machines, modems and other equipment with a REN of 1 can be connected to the system, making it ideal for home-based businesses. Additional features include: intercom between extensions, call-hold during internal enquiry, baby monitoring facility, day and night time ringing selection, 'ring-me-back' when line becomes free, courtesy tone when caller is 'on hold', and 'do not disturb this extension' facility. The system comes with adhesive quick reference labels, for use with MF tone dial telephones, and four extension sockets.

## Telephone Accessories

### Surface Mounting

#### Master Jack Unit 2/4A Secondary Line Jack Unit 2/6A

A wall or surface mounting Master or Secondary Jack Unit. Size 67 x 67 x 29mm deep.

Retail Unit Price each (inc. VAT).

Order Code	Type 887	Price each exc. VAT	inc. VAT each
FT48C	Stce Mt Mstr Jk 2/4A	£4.240	£2.630
FG28F	Line Jack Unit 2/6A	£3.390	£2.270

#### Flush Fitting Master Line Jack Unit 3/4A Secondary Line Jack Unit 3/6A

Standard BT type Master Line Jack Unit, including bell capacitor, surge arrester and 'out of service' resistor.

A standard BT type Secondary Line Jack is also available in the same style. For flush fitting to a wall. Screw terminal connections. BT has the franchise for fitting the first socket on every exchange line at an installation, thus the Master socket will only be required by private individuals and companies for PBX extensions etc. Size 84 x 84mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 885	Price each exc. VAT	inc. VAT each
FJ27E	Fish Mstr LJok 3/4A	£4.240	£2.680
FJ34M	Flush Sec LJok 3/6A	£3.390	£1.970

#### Twin Flush Mounting Master Jack Unit 5/4A Secondary Jack Unit 5/6A

A flush mounting Master or Secondary Jack Unit having two commoned outlets. For use where two appliances may need to share one socket, e.g. telephone and answering machine, modem etc. Size 84 x 84mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 884	Price each exc. VAT	inc. VAT each
FT46A	Twin Master Jk 5/4A	£5.520	£3.990
FT47B	Twin Second Jk 5/6A	£4.670	£2.680

#### Small Locking Plate

A locking strip for use with the small Master and Secondary Line Jack units 2/4A and 2/6A, fitting is identical with large locking plate.

Retail Unit Price each (inc. VAT).

Order Code	Type 883	Price each exc. VAT	inc. VAT each
FV94C	Small Locking Plate	£0.587	£0.455

#### Large Locking Plate

A strip which when fitted to master or secondary Line Jack units 3/4A or 3/6A by using the two cover retaining screws, will lock the line plug into position so that it cannot be removed.

Retail Unit Price each (inc. VAT).

Order Code	Type 881	Price each exc. VAT	inc. VAT each
FV95D	Large Locking Plate	£0.757	£0.606

#### Telephone Extension Socket

A compact surface mount slave telephone extension socket ideal for use in conjunction with an existing master telephone socket. Ideal for bedrooms, kitchens, etc. where a larger socket could not be fitted.. This unit can be fitted unobtrusively to a skirting board, etc.

Retail Unit Price each (inc. VAT).

Order Code	Type 880	Price each exc. VAT	inc. VAT each
BD48C	Extension Socket	£3.226	£2.070

See Stock Code Index For More Price Breaks

## 4-Wire 4-Way Junction Box

A white junction box containing a 4-way screw terminal block for joining 4 way telephone leads. Four breakouts are provided in the edge of the cover and up to two flat IPC type 'phone leads can be fitted in any one of these side by side. The terminals are labelled for conductors 2 to 5. The base has two fixing holes for 3mm countersunk screws. The cover is retained by two self-tap screws.

Retail Unit Price each (inc. VAT).

		1+	10+	33+	
BD41U	Telephone Kit	£1.690	£1.320	£1.210	£1.990

## Standard 4-Way and 6-Way Line Plugs 431A and 631A

Standard BT type 4-way and 6-way Line Plugs using Insulation Piercing Contacts (IPC), with strain relief. To fit the flat line cord (shown in the Cables Section) to an IPC plug, simply provide a clean cut across the end, and strip off 11 to 12mm of the outer sheath. Allow the wires to separate from one another by approximately 1mm, then push and tease them gently into the plug, which has locating guides built in for each conductor. Once fully home (the coloured wires can be seen through the slot behind the contacts) use heavy duty pliers or a small vice to press all the gold coloured contacts flush with the plug body; push down the small strain relief members immediately behind the contacts, then force down the cable clamp at rear.

Retail Unit Price each (inc. VAT).

Order Code	Type 928	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
BD39N	Telephone Plg 4-Pin	£0.468	£0.354	£0.293	£0.550

### Coiled Handset Cords

A pair of coiled cords for use with telephone handsets, etc. Supplied in two lengths, 1.8m and 6m fully extended. Both cables are terminated in standard RJ11/FCC68 plugs at each end.

Retail Unit Price each (inc. VAT).

Order Code	Type 3447	Price each exc. VAT			inc. VAT each
		1+	10+	20+	
BD52G	Coil H/Set Cord 1.8m	£3.390	£2.990	£2.640	£3.990
BD53H	Coiled H/Set Cord 6m	£5.940	£4.800	£4.340	£6.990

### Swivel Handset Plug

Banish the sheer misery of coiled cables, eradicate the exasperation of entwined extensions and terminate the twisted tangles of telephone torment with this state-of-the-art swivel plug. Simply plug in and watch your tangle troubles tumble away. Suitable for equipment with RJ11/FCC68 connections.

Retail Unit Price each (inc. VAT).

Order Code	Type 3407	Price each exc. VAT			inc. VAT each
		1+	10+	20+	
BD54J	Swivel Plg For H/Set	£3.220	£2.430	£2.140	£3.790

### Line Plug to Line Plug Adaptor

An adaptor that enables two line plugs to be connected together to facilitate cord extension, cord matching etc. Note that the plug inserted into the deeper socket will not be easy to remove without the use of a small screwdriver.

Retail Unit Price each (inc. VAT).

Order Code	Type 015	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
FV97F	In Line Skt/Ext Skt	£2.370	£2.020	£1.870	£2.790

### Two-, Three- or Four-Way Telephone Adaptors

An adaptor that can be plugged into any BT Line Jack unit to convert it to a two-, three- or four-way outlet for 4-way line plugs.

Retail Unit Price each (inc. VAT).

Order Code	Type 307	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
BD43W	Double Adaptor	£3.650	£2.410	£2.070	£4.290
BD44X	Triple Adaptor	£4.240	£2.930	£2.580	£4.960
BD45Y	4-Way Adaptor	£4.920	£3.430	£3.030	£5.790

### Extension Kits

A range of kits containing everything you need to provide an outlet for a second (or subsequent) telephone extension. The kits simply plug into an existing socket and provide a new double socket at that point for the existing telephone, etc. to plug back into. Cable lengths of 10m, 15m, 20m and 30m are available and a pack of suitable cable clips is provided. These kits are approved for private DIY installation and full instructions are supplied. **Note: The 30m kit has two extension sockets, (as illustrated), the other kits have one socket.**

Retail Unit Price each (inc. VAT).

Order Code	Type 582	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
BD06F	Extension Kit 10m	£6.370	£5.400	£4.700	£7.490
YT54J	15m Extension Kit	£7.220	£5.710	£4.950	£8.490
BD06G	Extension Kit 20m	£8.500	£6.820	£5.760	£9.990
BD07H	Extension Kit 30m	£11.050	£9.850	£8.380	£12.990

### IPC Insertion Tool

An insertion tool for attaching the BT IPC cable to master or secondary jack units having the BT type numbers with suffix /3A, which have IPC terminations as opposed to /6A types with screw terminal blocks. The tool is used to force the four wires of the line cord into the Insulation Piercing Connectors of the jack unit.

Retail Unit Price each (inc. VAT).

Order Code	Type 929	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
FT51F	BT IPC Insrtn Tool	£0.842	£0.354	£0.283	£0.990

### Plug-In Ringer

A self contained unit which can be plugged into a Line Jack unit, having its own plug extension at rear. The ringer will give an audible alarm of an incoming call being received.

Retail Unit Price each (inc. VAT).

Order Code	Type 931	Price each exc. VAT			inc. VAT each
		1+	10+	27+	
BD42V	Plug-In Sounder	£6.800	£4.950	£4.190	£7.990

### Telephone to Tape Recorder Adaptor

A compact adaptor to allow tape recordings to be made from a standard telephone line. Ideal for recording business details or announcements so that you can listen to them later. Simply plug the adaptor into a standard modular BT socket and insert the 3.5mm jack socket into the microphone input on your tape recorder. Now when you make a telephone call simply place the tape recorder into RECORD mode to store exactly what you hear and say. Alternatively if you use a voice activated tape recorder you will be able to automatically detect telephone conversations and begin recording as soon as the telephone line goes busy. A socket is provided on the back of the adaptor to allow your telephone to be plugged in - ideal for single outlet type wall sockets. Supplied with full operating and installation instructions.

This item is not approved for use on the BT system.

Retail Unit Price each (inc. VAT).

Order Code	Type 10436	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
YS78K	Telephone Recorder	£8.500			£9.990

### Telephone Recorder Accessory

A device that is designed to fit between a telephone handset and its base. Your telephone must use a RJ11 mini 4 pin plug to attach the handset cord to the base - most modern phones do. The 3.5mm jack plug that is attached to the device via a length of cable can then be plugged into cassette recorders, dictation machines, etc. A switch on top of the device allows you to select whether you are recording from the line or playing back to the line.

Retail Unit Price each (inc. VAT).

Order Code	Type 10436	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
MU66W	Phone Recorder	£8.500			£9.990

### US/BT Adaptor

This adaptor consists of a US Style socket to a BT style plug, enabling you to connect US type connectors to BT type sockets.

Retail Unit Price each (inc. VAT).

Order Code	Type 12454	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
AR34M	US To BT Adaptor	£3.820	£2.770	£2.160	£4.490

## BT/US Adaptors

**NEW EXTENDED RANGE**

This range of adaptors consists of a BT style socket to a US style plug, enabling you to plug devices fitted with a standard BT type telephone plug into a US type socket. Three versions are available:

**RZ79L** Secondary type that does not contain any other components

**VD36P** Part master type with the ringing capacitor, so that the phone will ring when called.

**MU67X** Full master type that contains all the components of a telephone master socket.

Retail Unit Price each (inc. VAT).

Order Code	Type 12482	Price each exc. VAT			inc. VAT each 1+
		1+	10+	25+	
RZ79L	BT/US Socket Adaptor	£3.820	£2.770	£2.160	£4.490
VD36P	US/BT Adaptor/Cap.	£5.940	£5.380	£4.860	£6.990
MU67X	BT/US Full Master	£6.800			£7.990

## Telephone/Modem Double Adaptor

This double adaptor is designed to enable a telephone and modem to be plugged into the same socket. The plug side of the adaptor is a standard BT style plug and the socket side consists of one BT style socket (for the telephone) and one RJ11 style socket (for the modem).

Retail Unit Price each (inc. VAT).

Order Code	Type 12815	Price each exc. VAT			inc. VAT each 1+
		1+	10+	25+	
VD35Q	Phone/Modem Doublr	£2.970	£2.600	£2.400	£3.490

## BT to US Telephone Plug Conversion Cord

This telephone conversion line cord is 3m (approximately) and has a BT type telephone plug at one end and a US type telephone plug (RJ11) at the other. The conductors are suitably crossed and the cord finds most use in connecting fax/modems, etc.

Retail Unit Price each (inc. VAT).

Order Code	Type 4592	Price each exc. VAT			inc. VAT each 1+
		1+	10+	25+	
RZ75S	UK/US Ext Line Cord	£2.970	£1.970	£1.770	£3.490

## BT to US Extension Cords

A range of extension cords whose conductors are connected straight through. One end of each cable is terminated in a BT style plug and the other end is terminated in a US type plug (RJ11). Not suitable for BT / US conversion. Available in various lengths, i.e. 3m (BD00A), 6m (BD03D) and 10m (BD04E).

Retail Unit Price each (inc. VAT).

Order Code	Type 8813	Price each exc. VAT			inc. VAT each 1+
		1+	10+	20+	
BD00A	Conversion Cord 3m	£3.390	£2.370	£1.970	£3.990

JW44X	FCC68 Plg 8C8P	£0.808	£0.580	£0.360	£0.950

## Crimping Tools for Modular FCC68 Connectors

Crimping tools for use with FCC68 modular connectors which are used on computers and American telephones. Simply place the plug with the cable in the tool and squeeze the grips together, thus causing the plug to bite into the cable. The handles are spring loaded for automatic opening. Wire can be cut with blades built into the handle. All made from toughened plastic. Overall length 190mm.

The following types are available:

**Plastic Crimp 4C4P**

This model is used on plugs with 4 contacts in a 4 position shell.

**Plastic Crimp 4C6P**

This model is used on plugs with 4 contacts in 6 position shell.

**Plastic Crimp 6C6P**

This model is used on plugs with 6 contacts in a 6 position shell.

Retail Unit Price each (inc. VAT).

JW49D	Plas FCC68 Crmp 6C6P	£6.110	£4.290	£3.780	£7.190

## Cellular Accessories

### Cellular Phone Batteries

A range of high quality Nickel Metal Hydride (NiMH) slim-line replacement batteries to fit the most popular mobile phones. NiMH batteries have the advantage over ordinary NiCad batteries of higher capacity in a smaller space. They also do not suffer from the "memory" effect that shortens the effective life of NiCads.

**1/4 Wave Glass-Mount Aerial Kit**

For use with mobile cellular telephones, this kit is designed to allow the aerial to be mounted on the rear window of a vehicle without the need to drill. The aerial base is stuck to the outside of the window with its super-strong self adhesive base and, on the inside of the glass, the base proper is similarly attached. The signal is inductively coupled through the glass. Supplied complete with 1/4 wave aerial, approximately 4m of coaxial cable and alcohol swab for cleaning the glass. Full instructions are included. The coaxial cable requires the appropriate plug to be crimped on the free end; suitable connectors are shown below.

Retail Unit Price each (inc. VAT).

Order Code	Type 1846E	Price each exc. VAT	inc. VAT each
MU69A	Glass-Mnt. Aerial Kit	£25.520	£29.990

**1/4 Wave Body-Mount Aerial Kit**

For use with mobile cellular telephones, this kit is designed to allow the aerial to be mounted on a wing or other suitable position. Direct access to the underside is not required but care should be taken to ensure that there is enough clearance. A 19mm hole is required. The kit is supplied complete with 1/4 wave aerial, approximately 4.5m of coaxial cable, a special assembly tool and a hex key for tightening the grub screw on the aerial. Full instructions are included. The coaxial cable requires the appropriate plug to be crimped on the free end; suitable connectors are shown below.

Retail Unit Price each (inc. VAT).

Order Code	Type 1845B	Price each exc. VAT	inc. VAT each
MU71N	3dB Whip Aerial	£11.050	£12.990

**3dB Whip aerial**

An aerial that offers 3dB gain, relative to a 1/4 wave aerial. The aerial is suitable for use with both our glass-mount and body-mount kits. The aerial is supplied with a special hinged base that can be attached in the same manner as the 1/4 wave aerial, over the 'stub' of the body-mount base via a collar with a grub screw. To use on the glass-mount base, the aerial is unscrewed from this base and screwed directly on to the thread of the glass-mount base. Supplied with hex key which is used to tighten the grub screw and hinge.

Retail Unit Price each (inc. VAT).

Order Code	Type 1845B	Price each exc. VAT	inc. VAT each
MU71N	3dB Whip Aerial	£11.050	£12.990

**FME Connector**

An RF connector that is designed to crimp on to RG58 coax cable. This connector finds a major use in cellular telephone in-car aerial systems.

Retail Unit Price each (inc. VAT).

Order Code	Type 1846E	Price each exc. VAT	inc. VAT each
MU72P	FME Connector	£0.842	£0.990

**M UHF Crimp Plug**

Vitelc

A high quality M UHF crimp plug with gold plated contacts.

Retail Unit Price each (inc. VAT).

## BNC Plug

Vitelc

A high quality BNC plug with gold plated contacts. This connector is suitable for use with 50Ω screened cable RG58. Order Code XS51F.

Retail Unit Price each (inc. VAT).

Order Code	Type 1513	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DV14Q	Clamp Plug (RG58)	£1.540	£1.420	£1.270	£1.810

## Coax Connector Crimping Tool

A coax crimping tool that has five separate sections to accept 1.72, 2.5, 5.4, 6.48 and 8.2mm connectors for crimping. The pressure necessary for crimping can be adjusted for individual requirements, and is made easy with the aid of long contoured, plastic covered handles.

Retail Unit Price each (inc. VAT).

Order Code	Type 1107	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
ZF41U	Coax Crimper	£19.080	£16.650	£15.140	£22.430

## Intercoms

### Motorcycle Intercom

Now you can communicate with your pillion passenger with this convenient and lightweight 2-way intercom. The battery powered unit has an on/off volume control and can be clipped to your belt. The mic, which is on an adjustable stem, and earpiece are clipped to your jacket. Dimensions of unit: 100 x 55 x 18mm. Requires 4 x 'AAA' batteries (not included, JY50E).

Retail Unit Price each (inc. VAT).

Order Code	Type 1106	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
YE23A	Motorcycle Intercom	£17.010			£19.990

We endeavour to hold stocks at all Maplin and Maplin Mondo stores, but to be sure, please phone before travelling. See front of catalogue for addresses and telephone numbers

## Wireless Baby Monitor

A highly sensitive baby monitor featuring continuous or automatic transmit modes. Ideal in continuous mode for small babies and in automatic mode for toddlers! All signals are transmitted through your household wiring, so installation is as simple as plugging in. Operation up to approximately 1km. Other applications include monitoring a waiting room or shop area. Supplied with full operating instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type 1105	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
YE26D	Baby Monitor	£17.010	£15.150	£14.500	£19.990

## YT16S 2-Channel FM Wireless Intercom

A very high quality mains operated intercom which transmits and receives via the mains wiring. No interwiring is required, each unit simply plugs into a normal 230V AC mains outlet socket. Available only in pairs.

Retail Unit Price each (inc. VAT).

Order Code	Type 11310	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
YT16S	2 FM Intercom 2 Chn Pr	£30.620	£24.640	£22.320	£35.990

## Doorbell Intercom

This reliable, attractive doorbell intercom provides easy communication and ensures maximum security and privacy at home or office. The system comprises a wall-mounting (in sheltered position) outdoor annunciator and a wall or free standing indoor unit. Both units are made from unbreakable ABS plastic resin and are connected by 20m of connecting lead via 3.5mm jacks. The outdoor unit has a push button which sounds a pleasant 'ding-dong' on the indoor station. The intercom is powered by a 9V PP3 battery (not included, JY49D). A weak battery is indicated by a flashing LED when any button is pressed. Ideal for home, office, shop, warehouse, etc.

Retail Unit Price each (inc. VAT).

Order Code	Type 11001	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
YE17T	Doorbell Intercom	£12.750			£14.990

## 2-Way Wired Intercom

An inexpensive wired intercom that is ideal for situations where the stations are to be used in permanent positions. The two stations are connected by 20m of twin cable via 3.5mm mono jacks. The master station houses the 9V PP3 battery (not supplied) and has a socket for an external 9V supply. The stations can be wall mounted or free standing on a convenient surface. The master station is normally left switched off. To make a call, the 'call' key is pressed at either station, a call signal will follow and the master station is switched on. To speak from the master station, the 'call/talk' key is held down and the LED lights, the key is released to listen to the substation. The LED on the substation will now light, and the substation can now speak to the master station, without pressing a key. When the conversation is over, the master station is switched off. A volume control is provided on the master station. Dimensions (each) 130 x 90 x 46mm. Supplied in pairs only. Cable clips included.

Retail Unit Price each (inc. VAT).

Order Code	Type 110	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
BZ61R	2-Way Intercom Pr	£9.350	£7.580	£6.510	£10.990

## P153 Master Station (6 Station)

A master/slave system with 'All Call' facility, ideal for receptionists. Can be used with up to five slave units (BE10L). Incorporates speech volume, ringer level, call and talk buttons. Slave LED indicator. Can be wall mounted.

Power supply 6V DC, 300mA external regulated power supply, JC90X or (4 x 'AA' batteries) (not supplied)

Cable 2-core PB07H (not supplied)  
Cable length 200m maximum to each slave  
Dimensions 43 x 182 x 140mm

Retail Unit Price each (inc. VAT).

Order Code	Type 11315	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
BE09K	Master Station	£23.820	£18.400		£27.990
JC90X	6V 300mA Mains Adptr	£7.650			£8.990

Order £30 or above?

Account holder or not, your order will be sent carriage paid.

\*Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue.

**P153B Slave Station**

For use with P153 master station. The unit incorporates a call button and a privacy switch, which prevents master eavesdropping. Can be wall mounted. Not compatible with P153C, YT16S or P153F. Dimensions 43 x 182 x 140mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT		inc. VAT each
		1+	5+	
BE10L	Slave Station	£9.770	£7.990	£11.490

**P153C All Master System (6 Station)**

All master system of up to six stations, which allows any station to communicate with any other. Station indicator LEDs, volume control, tone volume switch, talk and call buttons. Can be wall mounted.

Power supply 6V DC, 300mA external regulated power supply, JC90X or (4 x 'AA' batteries) (not supplied)

Cable Number of stations plus 3 wires (BE20W)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT		inc. VAT each
		1+	5+	
BE11M	6Way Master Intercom	£25.520	£19.400	£29.990
JC90X	6V 300mA Mains Adptr	£7.650		£8.990

**P150B 6-Station Intercom/Paging System**

A high specification non-private, all master 6 station system which offers duplex operation and only requires 4 core cable for wiring. A built in amplifier

permits addition of an external speaker. The unit is desk or wall mountable. A separate 12v dc power supply is required to power this system (JC93B is recommended).  
Wiring 4 core/0.65mm  
Distance 500m max  
Dimensions 220 x 115 x 65mm  
Power requirements 12V dc/1.5 Amp

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT		inc. VAT each	
		1+	6+	25+	1+
YD46A	6 Way Intercom	£31.480	£25.950	£22.250	£36.990
JC93B	12V 1.5A Mains Adptr	£19.140			£22.490

**P665T Handset Intercom System - 2 Stations**

Ideal for shops, restaurants and in the home, the P665T is a complete two station system. One station is designated the 'master': this has a power indicator and volume control. Stations may be wall mounted. The system is simply wired using 2-core cable and runs off either batteries or an external power supply; model JC90X. Not compatible with P666 units.

Power requirements: 6V DC, 300mA Adaptor or 4 x AA batteries (not supplied).

Cable: 2-core 0.5mm2 for best results (max. run 400m approx.)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT		inc. VAT each
		1+	4+	
BE07H	2 Station Intercom	£34.030	£25.990	£39.990
JC90X	6V 300mA Mains Adptr	£7.650		£8.990

**P150C 12 Station Intercom/Paging System**

A high specification non-private, all master 12 station system which offers duplex operation and only requires 4 core cable for wiring. It operates from a 12V dc power supply (not included). JC93B is recommended. A built-in amplifier permits addition of an external speaker. The unit can be desk top or wall mounted.

Wiring 4 core/0.65mm  
Distance 500m max  
Dimensions 220 x 115 x 65mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT		inc. VAT each	
		1+	12+	25+	1+
YD45Y	12 Way Intercom	£34.030	£26.900	£23.250	£39.990
JC93B	12V 1.5A Mains Adptr	£19.140			£22.490

**P666 6 Station - Master Station**

The P666 can start as a simple two station system and can be added to when necessary, up to a maximum of six stations. Features: any number of private conversations, conference facility by invitation, engaged tone, desktop or wall-mounting. Easy wiring into terminal box. The number of conductors required in the cable is the number of stations plus two wires, max. run 300m using 0.5mm2 cable. Recommended cable is P601M cable (BE20W). A single power supply unit is required per intercom, at 17V DC, 1A regulated (not supplied). A suitable unit is (BE21X). Dimensions 210 x 110 x 80mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT		inc. VAT each

## MPS PRECISION CALIBRATION SERVICE

Calibrated instruments from MPS ensure greater traceability and integrity of tests and measurements, which is vital for companies implementing or maintaining ISO9000 quality systems. MPS can now provide a wide range of test instruments calibrated by a NAMAS approved laboratory, which are available with two choices of calibration certification. 'Standard Certificate', (abbreviated as STD CAL in the order code table) guarantees the customer full traceability to NPL (National Physical Laboratory), whilst a NAMAS certificate (abbreviated as NAMAS CAL in the order code table offers the customer worldwide recognition and is Crown copyright. Please note: Customers must specify what type of calibration they require at the time of ordering. Orders for calibrated instruments are subject to a slight delay before despatch.

Please note that the prices shown for calibration in this catalogue also include the purchase price for the instrument concerned.

### Academy Digital Multimeters

A high quality, cost-effective range of multimeters, especially suitable for the hobbyist and electronics student. They provide measurements over a number of different ranges including voltage, current and resistance (and continuity on selected models), and test facilities for diodes, LEDs, transistors and capacitance and frequency measurement (depending on model). The measuring ranges are selected by a single rotary switch which also selects the test facilities. Two sockets marked 'VΩ' and 'COM' are provided for the measurement ranges and a 4-way socket for the test facilities where applicable. A 3 1/2-digit LCD screen displays the reading and the polarity, battery low warning and range overload indicators. With the exception of the 200Ω range, all the resistance ranges are 'low power', which means that accurate measurement of in-circuit resistances can be made, because the test voltage is below that necessary to forward bias a silicon diode junction. The diode test function allows that actual voltage drop across the junction to be measured and compared against other devices. It is also possible to perform these measurements on a device in-circuit, but this test will be inaccurate if the junction is shunted by a resistance of 1kΩ or less. Readings on all ranges are sampled at the rate of 2 1/2 times per second on average. Supplied with a pair of test leads, battery and full instruction manual.

## PORTABLE MULTIMETERS

### ACADEMY

## PG010 Digital Multimeter with Test Signal Output and LED Test

- ★ 3 1/2-digit LCD
- ★ Test signal output
- ★ LED and diode test
- ★ Transistor h<sub>FE</sub>

For the price, this multimeter offers an amazing range of functions. As well as the usual volts and resistance ranges there are LED and diode test functions, transistor h<sub>FE</sub> measurement, and a very useful square wave signal output for fault finding. Ideal for the hobbyist and experimenter. A spare set of test leads, (GW92A) are available separately.

#### Specification

Display: 3 1/2-Digit LCD

#### DC voltage

Range	Resolution	Accuracy
2V	1mV	±(1.5% rdg + 1dgt)
20V	10mV	±(1.5% rdg + 1dgt)
200V	100mV	±(1.5% rdg + 1dgt)
600V	1V	±(1.5% rdg + 1dgt)

Input impedance: 1MΩ

Overload protection: 600V DC or 500V AC

#### AC Voltage

Range	Resolution	Accuracy
200V	100mV	±(2.9% rdg+4dgt)
500V	1V	±(2.9% rdg+4dgt)

Input impedance: 450kΩ

#### Resistance

Range	Resolution	Accuracy
200Ω	100mΩ	±(1.5% rdg+3dgt)
2kΩ	1Ω	±(1.5% rdg + 1dgt)
20kΩ	10Ω	±(1.5% rdg + 1dgt)
200kΩ	100Ω	±(1.5% rdg + 1dgt)
2MΩ	1kΩ	±(1.5% rdg + 1dgt)

#### Signal output

Voltage: +3.0V -0.5V  
 Type: square wave  
 Duty cycle: 50%  
 Frequency: 50Hz approx.  
 Output impedance: 120kΩ  
 Input protection: 500V DC or AC rms

#### LED test

Accuracy: ±(3% rdg + 3dgt)  
 Resolution: 10mV  
 Test current: 10mA ±6mA  
 Test voltage: <3.5V

#### Diode test

Accuracy: ±(3% rdg + 3dgt)  
 Test current: 1.0mA ±0.6mA  
 Open circuit voltage: 3.3V DC typical  
 Overload protection: 500V DC or AC rms

#### Transistor h<sub>FE</sub>

Ranges: 0 - 1000  
 Base current: 10µA DC approx.  
 V<sub>CE</sub>: 3.0V DC  
**Dimensions:** 151 x 70 x 38mm

## PG10B Digital Multimeter with DC Current Measurement

- ★ 3 1/2-digit LCD
- ★ DC current
- ★ Continuity test
- ★ Diode test
- ★ Transistor h<sub>FE</sub>
- ★ Battery test

A well specified low-cost multimeter with DC current function, battery and continuity test. With the exception of the 200Ω range, all resistance ranges are low power which allows accurate in-circuit resistance measurements to be made. Ideal for students and hobbyists on a budget. Diode and transistor test specification as per PG010. A spare set of test leads (GW92A) are available separately.

#### Specification

Display: 3 1/2-Digit LCD

## PG014 Digital Multimeter with DC Current and Frequency Measurement

- ★ 3 1/2-digit LCD
- ★ Autoranging frequency counter to 15MHz ±(5%rdg +1dgt)
- ★ Battery and continuity test
- ★ Diode test and Transistor  $h_{FE}$

This quality meter offers the same features as Model PG10B but with the added advantage of an autoranging frequency function – at an easily affordable price. A spare set of test leads (GW92A) are available separately.

**Specification Display:**  
3 1/2-Digit LCD

## PG012 Digital Multimeter with Frequency and Capacitance Test

- ★ 3 1/2-digit LCD
- ★ Autoranging frequency counter to 15MHz ±(0.5%rdg+1dgt)
- ★ Capacitance to 20µF in 5 ranges ±(5%rdg +10dgts)
- ★ Continuity and diode test
- ★ Transistor  $h_{FE}$

A sensitive, accurate, multimeter for the more serious electronics enthusiast offering an autoranging frequency function in addition to the normal basic functions. A spare set of test leads (GW92A) are available separately.

### Specification

Display: 3 1/2-Digit LCD

### DC Voltage

Range	Resolution	Accuracy
200mV	100µV	±(0.9% rdg + 1dgt)
2V	1mV	±(0.9% rdg + 1dgt)
20V	10mV	±(0.9% rdg + 1dgt)
200V	100mV	±(0.9% rdg + 1dgt)
600V	1V	±(0.9% rdg + 1dgt)

Input impedance: 10MΩ

### AC Voltage

Range	Resolution	Accuracy
200mV	100µV	±(1.9% rdg+4dgts)
2V	1mV	±(1.9% rdg+4dgts)
20V	10mV	±(1.9% rdg+4dgts)
200V	100mV	±(1.9% rdg+4dgts)
600V	1V	±(1.9% rdg+4dgts)

Input impedance: 10MΩ

### Resistance

Range	Resolution	Accuracy
200Ω	100mΩ	±(1.5% rdg+3dgts)
2kΩ	1Ω	±(1.5% rdg + 1dgt)
20kΩ	10Ω	±(1.5% rdg + 1dgt)
200kΩ	100Ω	±(1.5% rdg + 1dgt)
2000kΩ	1kΩ	±(1.5% rdg + 1dgt)
20MΩ	10kΩ	±(3% rdg + 3dgts)
200MΩ	1MΩ	±((5% rdg-10dgts) + 10dgts)

### Capacitance

Range: 2000pF to 20µF (5 ranges)

Test frequency: 400Hz

Frequency (autoranging)

Range: to 15MHz

Sensitivity

Trig Lo: 1V rms min (TTL signal only)

Trig Hi: 2V rms min (TTL signal only)

Overload protection: 500V DC or AC rms

Continuity

Audible indication: <40Ω ±20Ω

Overload protection: 500V DC or AC rms

### Diode test

Accuracy: ±(3% rdg + 3dgts)

Test current: 1.0mA ±0.6mA

Open circuit voltage: 3.3V DC typical

Overload protection: 500V DC or AC rms

### Transistor $h_{FE}$

Ranges: 0 to 1000

Base current: 10µA DC approx

V<sub>CE</sub>: 3.3V DC

Dimensions: 151 x 70 x 38mm

Weight: 200g including battery

Battery: 9V PP3 type

Retail Unit Price each (inc. VAT).

## PG017 3 1/2-Digit Digital Multimeter

- ★ 3 1/2-digit LCD
- ★ Capacitance to 20µF in 5 ranges ±(5%rdg +10dgts)
- ★ Autoranging frequency counter to 15MHz ±(0.5%rdg+10dgts)
- ★ Continuity and diode test
- ★ Transistor  $h_{FE}$

A highly specified, cost-effective digital multimeter for the serious amateur and electronics engineer. This superb multimeter has a comprehensive range of facilities including an autoranging frequency function, capacitance, and a transistor test function that is ideal for selecting transistors for matched pairs. A spare set of test leads (GW92A) are available separately.

### Specification

Display: 3 1/2-Digit LCD

### DC Voltage

### PRECISION GOLD

#### Precision Gold Range

Our original and extremely popular range of multimeters still offers outstanding performance, reliability and value for money. The Precision Gold range features easy to read 3 1/2 digit 22mm LCDs, and also offer polarity, low battery and over-range indications. In addition to the extensive DC/AC voltage, current and resistance measuring ranges, there is a selection of diode, transistor and continuity testing. All meters have been designed to comply with the new IEC 348 class 11 and UL1244 international safety standards, and are supplied complete with battery, test probes and a detailed instruction manual.

## M215 Low-Cost 3 1/2-Digit Digital Multimeter

- ★ 22mm 3 1/2-digit LCD readout
- ★ Polarity, low battery and overload indicators
- ★ Diode test function

This is the entry level model in the highly regarded 'Precision Gold' range and offers a high quality multimeter with basic functions at an affordable price. An ideal basic multimeter for applications either in the home or in the field. Supplied with a pair of test probes, battery and instruction manual.

**Specification**  
Display: 3 1/2-Digit LCD

Range	Resolution	Accuracy
200mV	100µV	±(0.8% rdg +2 digits)
2V	1mV	±(0.8% rdg +2 digits)
20V	10mV	±(0.8% rdg +2 digits)

## M216 Digital Multimeter with Transistor Tester

- ★ 22mm 3 1/2-digit LCD readout
- ★ Diode and transistor tester
- ★ Continuity and battery tester

Offering the same basic functions as the Model M215, this multimeter benefits from the addition of continuity and battery tester functions. The diode test function can also measure transistor forward voltage drop and transistor hFE measurement is possible for both NPN and PNP devices up to a DC gain of 999.

#### Specification

Display: 3 1/2-Digit 22mm high LCD

#### DC Voltage

Range	Resolution	Accuracy
200mV	100µV	±(0.8% rdg +2 digits)

## M218 Digital Multimeter with Frequency Counter

- ★ Frequency function
- ★ 3 1/2-digit LCD
- ★ Transistor and diode tester
- ★ Continuity tester

This well specified multimeter has all the basic functions of the M216, plus the added features of a frequency counter. A special socket is provided for small signal transistors with different pin-outs.

#### Specification

Display: 3 1/2-Digit 22mm high LCD

#### DC Voltage

Input impedance: 10MΩ for all ranges.

#### AC Voltage

Input impedance: 4.5MΩ all ranges.

#### DC Current

Overload protection: 0.5A 250V fuse mA input only.

#### Resistance

#### Autoranging Frequency Counter

Input sensitivity: 50mV rms

Overload protection: 500V DC, 500V AC

Dimensions: 171 x 88 x 39mm. Weight: 300g.

Supplied with red and black probes and leads, battery and instruction manual.

## WHITE GOLD

### White Gold Multimeters

A range of high quality, versatile digital multimeters each providing a comprehensive range of useful features in one, easy to use package. In addition to voltage, current and resistance ranges, some models feature extra functions for the measurement of capacitance, inductance, frequency and duty cycle, transistor and diode test facilities and a continuity buzzer (depending on model). All of these features are selected by a single multi-function rotary switch and sockets provided for the measurement ranges and an additional 4-way socket is provided for the test facilities where applicable. This may be accompanied by a 2-way socket that accepts component leads. An LCD screen displays the reading with polarity indicator and the function/range selected. Also shown are battery low warning and range overload indicators. Most resistance ranges are 'low power', meaning that accurate measurement of in-circuit resistances can be made because the test voltage is below that necessary to forward bias a silicon diode junction. The diode test function (where applicable) allows the actual voltage drop across the junction to be measured and compared against other devices. It is also possible to perform the diode test function on a device in-circuit. The transistor test function (where available) allows the actual gain (hFE) to be measured and compared with other devices. The duty cycle function is a useful aid for measuring digital circuits and provides a measure of square-wave pulse width up to 90% of the duty cycle. Readings on all ranges are sampled at a rate of 2 1/2 times per second. Each meter is supplied with a pair of test leads, battery and full instruction manual.

### WG020 Digital Multimeter with Capacitance, Inductance and Frequency Measurement

- ★ **Capacitance test to 200µF in 5 ranges**  
±(8%rdg +10dgt)
- ★ **Inductance test to 20H in 5 ranges**  
±(5%rdg +20dgt)
- ★ **Frequency counter to 15MHz in 5 ranges**  
±(0.5%rdg +1dgt)

This accurate, versatile multimeter features a comprehensive range of functions for the serious hobbyist and professional. The frequency function is autoranging, and a 'MAX' hold facility allows the highest reading of a varying measurement to be stored. In addition to the basic functions, a 'duty cycle' measurement facility is provided, which is a useful aid for analysing pulsed signals in digital circuits. Continuity test, diode test, and a transistor hFE tester are also included. A protective holster (GW91Y) is available separately for this multimeter and is strongly recommended.

**Specification**  
Display: 3 1/2-Digit LCD

### WG023 4 1/2-Digit Digital Multimeter

- ★ **4 1/2-Digit LCD**
- ★ **Basic accuracy 0.5%**
- ★ **Transistor hFE test**
- ★ **Continuity and diode test**
- ★ **Incredible resolution; 10nA / 10µV / 1mΩ**

A precision, sensitive, multimeter with a large 4 1/2-digit LCD readout, ideal for measuring very low readings. The multimeter has a 200mV voltage range (AC/DC) with a resolution of 10µV (100µV AC) and a 200µA current range (AC/DC) with a resolution of 10nA. Additional features include continuity and diode test, plus transistor hFE tester. A protective holster (GW91Y) is available for this multimeter and is strongly recommended.

## WG022 4-Digit Digital Multimeter

- ★ **Min/Max/Hold range recording facility**
- ★ **Capacitance test to 40µF in 5 ranges ±(5%rdg +4dgts)**
- ★ **Frequency counter to 1MHz in 5 angles ±(0.5%rdg +2dgts)**
- ★ **Autorange and manual operation**

A laboratory grade multimeter for the most demanding applications, featuring 0.5% basic accuracy, a 3999 count display and a 40-segment analogue bargraph – ideal for delicate adjustments. Extra features include capacitance and frequency test, a min/max and memory recording facility, last reading hold, continuity and diode test and a battery saving power off. A protective holster (GW91Y) is available for this multimeter and is strongly recommended.

**Specification**  
Display: 4-Digit LCD

GW91Y	Holster	£5.480	£6.450

## BATTERY CHECKER

### Battery and Alternator Checker

A handy device for checking the condition of your car battery and alternator charging voltage. Simply connect the tester to a suitable ground point and

place the test probe on the positive terminal of the battery while the engine is switched off. A number of LEDs will now light up to show the current state of the battery. One LED shows the battery is discharged, two indicate a slightly discharged state and three indicate a good battery condition. Now with the engine running at about 2000 rpm, connect the test probe to the output of the alternator. Indicators now illuminate to show the state of the alternator. As with the battery condition, combinations of LEDs indicate whether the alternator voltage is low, normal or too high. Ideal for fast and simple diagnostics. Supplied with full operating instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
FU00A	Batt/Volt Checker	£7.660	£8.990

## Pocket Digital Multimeter

A calculator sized, auto-ranging digital multimeter in a plastic wallet and featuring a 3 1/2-digit LCD readout, continuity test and range hold facility. The leads are permanently connected and fold up into the wallet. In addition to the display and range indication, there is a 'low battery' warning on the LCD panel. The meter is supplied with batteries (replacement type SG13), test leads and instruction manual.

**Specification**  
Display: 3 1/2-Digit LCD

Range: 1mV to 200V  
Accuracy: ±(2% rdg ±2 dgits)

### DC volts

Range: 1mV to 400V  
Accuracy: ±(3% rdg ±5 dgits)

Max. input voltage: ±400V

### AC volts

Range: 0.1Ω to 2MΩ  
Accuracy: ±(2% rdg ±2 dgits)

Max. input voltage: ±400V

### Resistance

Overload protection: 400V RMS  
Continuity test: Buzzer sounds if resistance under 200Ω.

**ANALOGUE**

**Pocket Multimeter**

A rugged, easy to operate, general purpose multimeter having a sensitivity of 2000Ω/V for DC and AC voltage ranges. Its compact size and ease of portability makes it ideal for those situations where fast, accurate measurements are required. Ideal for use in the house, boat, car etc.

- Ranges:**
- DC volts: 10, 50, 250, 500V at 2000 ohms per volt
  - AC volts: 10, 50, 250, 500V at 2000 ohms per volt
  - DC current: 0.5, 50, 250mA
  - Resistance: 0 to 1MΩ (5kΩ at centre of scale) (Minimum reading: 200Ω)
  - Decibels: -20 to +56dB, using AC volts ranges

The meter has an accuracy of 4% at full scale deflection for DC and AC voltage ranges, and resistance measurements are accurate to 4° of scale arc. The two-colour mirrored scale has a total arc of 90°. Supplied complete with operating instructions, one red and one black test lead with probes and one battery (replacement type AA size). Dimensions 90 x 60 x 30mm. Weight: 110g.

Retail Unit Price each (inc. VAT).

Order Code	Type #362	Price each exc. VAT	inc. VAT each
YJ06G	Pocket Multimeter	£5.940 £4.630	£4.330 £5.990

**Hobby Multimeter**

This analogue Multimeter is a rugged, easy-to-operate instrument offering 10,000Ω/V DC and 4000Ω/V AC sensitivity, with a linear meter movement which provides for accurate measurement of DC and AC voltages, direct currents, resistance and decibels on a 90° arc mirrored scale. The meter uses the most modern components and circuit techniques in a high impact case.

- Ranges** 18
- DC volts 0 to 2.5, 50, 250, 1000V
  - AC volts 0 to 10, 50, 250, 1000V
  - DC current 0 to 10, 250mA
  - Resistance R x 10, R x 1k
  - Decibels -20dB to 62dB on AC volt ranges
- The meter has an accuracy of 4% of full scale

deflection for DC voltage ranges and 5% for AC voltage ranges. Resistance readings are accurate to 4% of scale arc. The 18 measuring ranges provided make this meter an ideal instrument for general purpose applications, or for a beginner to electronics who needs an instrument that is not too difficult to operate but at the same time must have most of the basic functions. Also provided with two special 'BAT' test functions for both 1.5V cells and 9V PP3 type batteries. Supplied complete with operating instructions, one red and one black test lead with probes and one battery (replacement type AA size). Dimensions: 105 x 64 x 32mm Weight: 136g

Retail Unit Price each (inc. VAT).

Order Code	Type #364	Price each exc. VAT	inc. VAT each
YJ76H	Hobby Multimeter	£11.480 £7.560	£7.090 £13.490

**Multimeter M-102BZ**

A wide range multimeter having a 90° three colour mirrored scale and 40μA F.S.D sensitivity, with a double jewelled precision moving coil movement. A dual silicon diode overload protection system is included with a 1A fuse. The meter has a sensitivity of 20,000Ω/volt DC, and 8,000Ω/volt AC. There are 23 measuring ranges.

- Ranges:**
- DC volts: 2.5, 10, 50, 250, 1000V
  - AC volts: 10, 50, 250, 1000V
  - DC current: 5, 50, 500mA and 10A
  - Resistance: 0 to 10kΩ (50Ω at centre of scale) 0 to 100kΩ (500Ω at centre of scale) 0 to 10MΩ (50kΩ at centre of scale) (Minimum reading: 1Ω)
  - Decibels: -8dB to +62dB using AC V ranges

The M-102BZ has the additional facilities of a battery test function, for 1.5V cells and 9V power packs, and an audible buzzer so that the meter can be used as a continuity tester. It also has a separate audio input for decibel measurements with an impedance of 600Ω.

During the battery testing functions the cells are loaded for a realistic result; the 1.5V cell under test is loaded with 75Ω for 20mA, and the 9V battery under test is loaded with 450Ω for 20mA.

The scale has an accuracy of 4% F.S.D for measuring DC volts, and 5% F.S.D measuring AC volts. When measuring ohms it is accurate to 4° of arc. A full instruction manual is included. The meter incorporates a rugged carrying handle that can also be used as a bench stand.

Supplied complete with operating instructions, one red and one black test lead with probes, and batteries (two size AA). Dimensions 133 x 89 x 38mm, not including handle. Weight: 255g.

**Multimeter HC-3030S**

A quality, comprehensive multimeter having a 90mm, full 90° arc mirrored two-colour scale with a knife edge pointer needle. It features a sensitivity of 30,000Ω/volt DC and 10,000Ω/volt AC, with a rated accuracy of 3% of F.S.D for all DC ranges and 4% for all AC ranges.

In addition to the usual multimeter functions this instrument also has a transistor checking facility, which can determine transistor type (npn/pnp) and operational integrity, by means of one green and one red alternately flashing LEDs, which are very easily interpreted. The green LED flashes if the transistor is an npn type that functions correctly, and the red flashes if it is a working pnp type. If the transistor is open circuit, both flash. If there is a collector-to-emitter short circuit neither LEDs will light. A front panel 4-pin socket is provided into which the transistor to be tested is inserted. The leakage current of the transistor can also be measured and the scale is marked to show defective types.

- Ranges:**
- DC volts: 3, 10, 30, 100, 300, 1000V
  - AC volts: 10, 30, 100, 300, 1000V
  - DC current: 100μA, 3mA, 30mA, 300mA, 10A
  - Resistance: 0 to 1kΩ (10Ω at centre of scale) 0 to 10kΩ (100Ω at centre of scale) 0 to 1MΩ (10kΩ at centre of scale) 0 to 10MΩ (100kΩ at centre of scale) (Minimum reading: 0.2Ω)
  - Decibels: -10dB to +22dB (10V AC range) +10dB to +42dB (30V AC range) +20dB to +52dB (300V AC range) +30dB to +62dB (1000V AC range)

Transistor Tester  
I<sub>CEO</sub>: 15mA, 150mA

Battery tester - working current  
1.5V AA: 27mA  
1.5V C/D: 300mA  
9V: 27mA  
Dimensions: 160 x 110 x 50mm  
Weight: 440g

The multimeter includes a polarity reversal switch, overload protection with 2A fuse, and a bench stand. Also has two non-slip rubber feet. Uses 2 x 1.5V AA and a 9V PP3 type battery, supplied. Full operating instructions and one red and one black test lead with safety probes and fully shrouded plugs are included.

## DMM900 Series Handheld Digital Multimeter

Tektronix

This range of high performance digital multimeters from Tektronix offers superb accuracy, resolution and reliability at an affordable price, and backed by a 3-year warranty. All the multimeters are true RMS with a dual numeric display and a full range of features including voltage, current, resistance, capacitance, frequency, dB and temperature (not 912 model).

- ★ Designed for the most demanding applications
- ★ True RMS for reliable, accurate readings
- ★ 40,000/4,000 display range
- ★ Full 3 year warranty
- ★ Temperature measurement (not 912)
- ★ Autoranging

## VoltAlert

Fluke

- ★ Detects voltage without metallic contact
- ★ Outer surfaces non-conductive for safety
- ★ Fits in shirt/coat pocket
- ★ Made from high-impact non-flammable PVC/ABS

The VoltAlert from Fluke is a pocket-sized AC mains voltage detector. It is very easy to use - just touch the tip to an outlet or mains lead/cable, and if the tip glows red then the line is live. Ideal for home, shop, factory or workshop to detect energised circuits and defective earths. The VoltAlert will detect a voltage in the range 200 to 600V AC and uses two 'AAA' size alkaline batteries (supplied). Dimensions: 146 x 19mm, Weight: 40.6g including batteries.

## Fluke 7 Series Electrical Testers

- ★ Automatic selection mode
- ★ Automatic reading of AC/Dc volts
- ★ 400-count digital display
- ★ Continuity beeper
- ★ 400 $\Omega$  range

For fast accurate test of electrical power, then nothing beats the easy-to-use Fluke 7-300 and 7-600 Electrical Testers - there is just an on/off switch. The Testers automatically switch to the right setting - AC/DC volts, continuity or Ohms, with the results displayed on a clear 4000-count LCD display. The 7-300 measures up to 300V AC/DC and is ideal for the home and general electrical needs. The 7-600 measures up to 600V AC/DC, and is ideal for fast voltage and continuity checks in industrial environments, including the growing number of low-voltage DC systems. These Electrical Testers set a whole new standard in professional performance at a low price and are backed with a two year guarantee. The Testers meet the following international standards: protection Class II requirement for UL3111, UL3111 compliant, IIEC 1010 over voltage Category III, TUV-EN61010-1, ANSI/ISA S.8.2.01-1994 and CSA c22.2 No 1010.1. Supplied with hard point test leads, fitted 9V battery and instruction manual.

## Fluke Professional Multimeters

A range of professional, quality multimeters from Fluke. These precision digital meters offer a smart set of troubleshooting features in a design that's exceptionally fast and simple to operate - with one hand. The versatile Series 10 have a large, easy-to-read, 4000-count autoranging display, that updates 4 times per second. These meters measure AC and DC voltage to 600V and ohms to 40M $\Omega$ . Also featured are continuity and diode tests and a 'sleep' mode allows the meter to conserve battery power if left on and unused for some time. The Fluke Series 10 range sets a new standard in low-cost, tough, dependable meters, backed by a 3-year warranty.

**Fluke 10**

- ★ Diode test
- ★ Continuity test
- ★ 3 1/4-digit LCD
- ★ Autoranging with manual override
- ★ 3-year warranty

This meter has a basic accuracy of 1.5% on DC and ohms and 2.9% on AC, and has a large easy-to-read 4000 count digital display, which gives a far better resolution than 1,999-count meters. Autoranging selects the range with the best resolution for the job and when you want to control the range manually, just push a button – ideal for fast, repetitive testing. In addition to the standard AC and DC voltage ranges, the meter also measures resistance, and the voltage drop of properly working diodes. Fast continuity checks can be made without the need to watch the display, just listen for the bleep; for continuity as short as 250µs. A protective holster (ZF45Y) is available separately and is strongly recommended.

**Specification**

**Display:** 3 1/4-Digit 4000 Count LCD  
**DC Voltage**

**Fluke 11**

- ★ Autoranging with manual override
- ★ Diode test
- ★ Continuity test
- ★ 3-year warranty
- ★ 0.9% DC accuracy
- ★ Capacitance to 10,000µF in 5 ranges ±(1.9%rdg +2dgts)
- ★ V Chek™

This meter has a basic accuracy of 0.9% on DC and ohms and 1.9% on AC, and has a large easy-to-read 4000 count digital display, which gives a far better resolution than 1,999-count meters. The Fluke 11 has V Chek™; an ingenious additional feature that allows you to make fast accurate checks on power sources and supplies. V Chek™ will determine if your circuit is open or if you have a short. If a voltage greater than 4.5V is present, it will automatically change modes to measure AC or DC volts, whichever is detected. If AC and DC are both present, it will display the greater of the two. V Chek™ lowers the meter's normal 10MΩ impedance to a minimum of 2kΩ, so you can distinguish real voltage from false readings caused by leakage from other sources. It even tells you, with a bleep, as it switches function from continuity to voltage. Capacitance can be measured from 1nF to 9999µF in manual or autoranging mode, with an accuracy of ±(1.9%rdg + 2dgts) except 10,000µF range. A protective holster (ZF41Y) is available separately, and is strongly recommended.

**Fluke 12B**

- ★ Large easy-to-use rotary dial
- ★ Autoranging with manual override
- ★ 0.9% DC accuracy
- ★ Capacitance to 10,000µF in 5 ranges ±(1.9%rdg +2dgts)
- ★ 3-year warranty
- ★ V Chek™
- ★ Highest/Lowest reading
- ★ Continuity test
- ★ Diode test

The top of the range Fluke 12B has all the features of the Fluke 11, and in addition, extra features that make solving intermittent, troublesome, faults so much easier. The Fluke 12B has the ability to record the highest and lowest voltage readings during a 100-hour period and 'time stamps' the readings to the nearest minute. Now you can hook up, walk away, come back later and see what happened – and when. Continuity Capture™ will display intermittent shorts as brief as 250µs, and display them as open-to-short and short-to-open transitions. The display shows the initial condition (either an open or short) and if the meter detects a transition, it beeps and the display captures the transition. Subsequent transitions cause the meter to beep, but the display does not change. Capacitance can be measured from 1nF to 9999µF in manual or autoranging mode with an accuracy of ±(1.9%rdg + 2dgts) except 10,000µF range. A protective holster (ZF41Y) is available separately, and is strongly recommended.

**Specification**

**Display:** 3 1/4-Digit 4000 Count LCD  
**DC Voltage**  
 Range: 4000mV, 4V, 40V, 400V, 600V  
 Resolution at 4000mV: 1mV  
 Accuracy: ±(0.9% rdg + 2 dgts), on 4000mV/4V ±(0.9% rdg + 1 dgt), on other ranges

**AC Voltage**  
 Range: 4000mV, 4V, 40V, 400V, 600V  
 Resolution at 4000mV: 1mV  
 Accuracy: ±(1.9% rdg + 3 dgts) on all ranges

**Resistance**  
 Range: 400Ω, 4kΩ, 40kΩ, 400kΩ, 4MΩ, 40MΩ  
 Resolution: 0.1Ω on 400Ω range  
 Accuracy: ±(0.9% rdg + 1 dgt) ±(1.5% rdg + 3 dgts) on 40MΩ range

**Open circuit test voltage:** <1.5V  
**Full scale voltage:** <450mV DC to 4MΩ, <1.5V DC 40MΩ

**General**  
 Dimensions: 142.3 x 70.5 x 34.6mm  
 Weight: 286g  
 Supplied with battery, instruction manual and a pair of 'hard point' test leads.

## Holster for Fluke 10 Range

Fluke

A tough, strong, flexible snap-on holster for any Fluke Series 10 meters. The holster fits tightly round the meter and gives a high degree of protection should the meter receive any rough handling. A built-in stand positions the meter for a better viewing angle, and a moulded hanger loop allows the meter to be suspended while taking measurements. The loop can also be used to hold a probe, allowing the meter and a probe to be held conveniently in one hand.  
Size: 160 x 76 x 40mm

## Fluke 70

- ★ Diode test
- ★ Continuity test
- ★ 0.5% DC accuracy
- ★ 3-year warranty

This meter has a basic accuracy of 0.5% – better than that of the finest analogue-only meters. Autoranging software instantly selects the proper range for maximum resolution. This meter offers a superb 3200 count resolution and also 31 segment analogue scale. A manual range-holding facility enables a range to be held on-screen, whilst a touch hold facility captures a reading. A 'sleep' mode allows the meter to conserve battery power, should the meter be left on.

### Specification

#### DC Voltage

## Fluke 73

- ★ 0.4% DC accuracy
- ★ Manual range hold
- ★ Touch hold facility
- ★ Diode test
- ★ Continuity test

This meter has a basic accuracy of 0.4%, which is better than that provided by most other DMMs. Autoranging software instantly selects the proper range for maximum resolution. In addition to the standard AC and DC voltage ranges the meter also measures AC and DC current, and resistance. The meter has a 3200 count resolution surpassing most other digital meters and a 31 segment analogue scale. Additional features include a 'Touch Hold' facility which captures and holds readings on the display. A sleep mode allows the meter to conserve battery power should the meter be left on.

### Specification

#### DC Voltage

Range: 320mV, 3.2V, 32V, 320V, 1000V

## Fluke 75

- ★ **Autoranging**
- ★ **Manual range hold**
- ★ **Touch hold facility**
- ★ **Diode test**
- ★ **Continuity test**
- ★ **0.4% DC accuracy**
- ★ **3-year warranty**

This meter has a basic accuracy of 0.4%, and is similar to the Fluke 73, but with better resolution and featuring a current range with improved accuracy. Autoranging software instantly selects the proper range for maximum resolution. In addition to the standard AC and DC voltage ranges, the meter also measures AC and DC current, and resistance. It contains a diode tester and audible continuity tester, and has a 3200 count resolution (unlike most other digital meters with a 31 segment analogue scale. Additional features include a 'Touch Hold' facility which captures and holds readings on the display. A sleep mode allows the meter to conserve battery power should the meter be left on.

### Specification

#### DC Voltage

Range: 320mV, 3.2V, 32V, 320V, 1000V  
Sensitivity at 320mV: 0.1mV  
Accuracy:  $\pm 0.4\%$  rdg  $\pm 1$  dgt  
Input resistance: 10M $\Omega$   
Overload protection: 1000V, 500V on 320mV range

#### AC Voltage

Range: 3.2V, 32V, 320V, 750V  
Sensitivity: 1mV on 3.2V range  
Accuracy:  $\pm 2\%$  rdg  $\pm 2$  dgts  
Overload protection: 750V AC, 1000V AC

#### DC Current

Range: 32mA, 320mA, 10A  
Accuracy:  $\pm 1.5\%$  rdg  $\pm 2$  dgts  
Sensitivity: 0.01mA  
Overload protection: 10A continuous, 20A for 30 secs. max.

#### AC Current

Range: 32mA, 320mA, 10A  
Accuracy:  $\pm 2.5\%$  rdg  $\pm 2$  dgts  
Frequency: 45Hz to 1kHz  
Sensitivity: 0.01mA  
Overload protection: 10A continuous, 20A for 30 secs. max.

#### Resistance

Range: 320 $\Omega$ , 3200 $\Omega$ , 32k $\Omega$ , 320k $\Omega$ , 3.2M $\Omega$ , 32M $\Omega$

## Fluke 77

- ★ **Autoranging**
- ★ **Manual range hold**
- ★ **Touch hold**
- ★ **Diode test**
- ★ **Continuity test**
- ★ **0.3% DC accuracy**
- ★ **3-year warranty**

This meter has the same resolution as the Fluke 75 and includes the same facilities, but has a better DC voltage accuracy ( $\pm 0.3\%$  rdg  $\pm 1$  dgt, and  $\pm 0.4\%$  rdg  $\pm 1$  dgt on 1000V range). A tough protective holster is included for impact protection during everyday use. This item features a stand so that the meter can be angled for better visibility if required. Features of the meter include a basic accuracy of 0.4%, autoranging software, a 3200 count resolution and a 31 segment analogue scale. In addition a 'sleep' mode allows the meter to conserve battery power if left on and unused for some time. When taking readings the digital display is updated 2 1/2 times every second while the analogue display is updated 25 times a second. A 'Touch Hold' facility enables readings to be captured and held on the display. The LCD panel also indicates overload, low battery and 'sleep' conditions. Supplied with test leads, battery (replacement type PP3), instruction manual and protective holster.

#### Retail Unit Price each (inc. VAT).

## Fluke 79

- ★ **Autoranging**
- ★ **Manual range hold**
- ★ **0.3% DC accuracy**
- ★ **Diode test**
- ★ **Continuity test**
- ★ **Capacitance to 10,000 $\mu$ F in 6 ranges**
- ★ **Frequency to 1MHz**
- ★ **Touch hold**

The most comprehensive meter of the Fluke series II range, the Fluke 79 has a better accuracy than most others in its class and offers more facilities. In addition a tough protective holster is included for impact protection during everyday use. This item features a stand so that the meter can be angled for better visibility if required.

In addition to several AC/DC voltage/current ranges and resistance measurement (including a 40 $\Omega$  range), this meter also includes a frequency counter, capacitance meter, diode and continuity testers. Other attributes of the meter include a basic accuracy of 0.3%, autoranging software, a 4000 count resolution, and a 63 segment analogue scale. A 'Touch Hold' facility enables readings to be captured and held on the display. Supplied complete

with test leads, battery, instruction manual and protective holster.

## Fluke 87 True RMS Meter

The Fluke 87 True RMS Multimeter is a handheld, 400-count instrument designed to be used in the field, laboratory or at home and combines the precision of a digital meter with the speed and versatility of a high resolution analogue display. It can measure frequencies between 0.5Hz and 200KHz with up to 0.01Hz resolution and has an impressive range of extra features, including a MIN MAX recording mode that 'remembers' the lowest and highest readings over a period as long as 36 hours, a peak MIN MAX mode that captures changes as brief as 1 millisecond, an alternate Frequency Counter to measure duty cycle and display it as a value between 0.0 and 99.9%, an Input Alert that sounds the bleeper if the test leads are plugged into the wrong terminals, REL mode and a Touch Hold that allows you to keep your eyes fixed on the probes when taking measurements in difficult or hazardous circumstances. The display has a 4 1/2-digit display mode for a ten times increase in resolution and contains a back-light. The DMM's rotary selector switch allows the selection of testing for standard AC voltage, millivolts in the 400mV range, resistance, conductance, capacitance or continuity, diode testing, milliamperes or amperes and microamps. Push buttons control the back-light, choice of AC/DC, resistance or capacitance, minimum, maximum and average recording, manual ranging, continuity bleeper, relative readings, frequency counter mode and duty cycle.

The Fluke 87 is supplied with test leads, a rugged snap-on holster with flexible stand, a comprehensive user manual and quick reference guide.

### Specification

#### AC Voltage Range

Range	Resolution	Accuracy at 50/60Hz

## FLUKE CLAMP METERS

### Fluke 30 Clamp Meter

Continuing the Fluke tradition for reliability and ingenuity, the Fluke 30 is the general purpose clamp meter that you really can take just about anywhere. In fact, it's so rugged you can drop it from a 2 metre ladder and it will still deliver reliable measurements day in and day out.

With the Fluke 30 you can single-handedly measure ac current, ac volts, ohms and continuity and have your results displayed on an easy-to-read digital display. Special features include a 'Display Hold' button that holds the last reading on your display, a 6 position manual ranging dial (200A, 400A, 200Ω, 200V, 600V and off), and the tough, well insulated clamp jaws which will accept one 300mm<sup>2</sup> cable or two 150mm<sup>2</sup> cables. With all those capabilities in one reliable, high precision self-contained package, it's the only troubleshooting tool you need for most jobs. The Fluke 30 meets UL, CSA and TUV certification standards and conforms to IEC 1010 safety standards. If you are looking for a rugged, general purpose, professional quality clamp meter at a basic price, this is the one to choose. The Fluke 30 is supplied with Fluke Hard Point TL75 test leads, a soft vinyl zip-fastened carry case and a user's manual.

### Specification

#### AC Current 50/60Hz

Range	Resolution	Accuracy	Overload protection

## Fluke 32 True RMS Clamp Meter

For testing circuits with non-linear loads such as computers and adjustable speed drives, this true rms clamp meter is the ideal solution. The Model 32 measures true rms AC current to 400A with a crest factor of 3, and to 600A with a crest factor of 2. You can single-handedly measure AC current, AC volts, ohms and continuity and have your results displayed on an easy-to-read digital display. Special features include a 'Display Hold' button that holds the last reading on your display, a 6 position manual ranging dial (200A, 600A, 200Ω, 200V, 600V and off), and the tough, well insulated clamp jaws which will accept one 750 MCM cable or 350 MCM cable, up to 38mm in diameter. With all those capabilities in one reliable, high precision self-contained package, it's the only troubleshooting tool you need for most jobs.

The Fluke 32 meets UL, CSA and TUV certification standards and conforms to IEC 1010 Cat III safety standards.

If you are looking for a rugged, general purpose, professional quality clamp meter at a basic price, this is the one to choose. The Fluke 32 is supplied with Fluke Hard Point TL75 test leads, a soft vinyl zip-fastened carry case and a user's manual.

### Specification

#### AC Current 50/60Hz

## ACCESSORIES

### Infrared Temperature Probe

The Fluke 80T-IR Infrared Temperature Probe is a non-contact temperature measurement accessory for use with a digital multimeter (DMM). Simply plug its red connector into the V dc input jack, its black connector into the common or ground input jack on your DMM, point the tip of the probe at the object to be measured and after 1 second its temperature will appear on your DMM's display. The probe can be adjusted to display its readings in centigrade or fahrenheit at the flick of a switch.

How does it work? All objects emit invisible infrared energy in proportion to their temperature and their ability to emit IR energy (this ability is called 'emissivity' and ranges from 0.10 for a very reflective surface to 1.00 for a black body). The probe senses this energy and calculates a temperature based upon the amount of IR energy it receives and a factory set emissivity value of 0.95, which will cover 90% of typical applications. To extend battery life the probe will automatically shift to SLEEP mode after 10 minutes of use.

#### Specification

Temperature range: -18 to 260°C (0 to 500°F)  
 Ambient operating range: 0 to 63°C (32 to 145°F)  
 Accuracy (for 1 year): ±3% of reading or ±3°C, whichever is greater  
 Temperature Coefficient: ±0.2% of reading or ±0.2°C, whichever is greater  
 Response time: 1 second  
 Spectral response: 8 to 14 microns nominal  
 Emissivity: preset at 0.95  
 Power: 9V PP3 type battery (supplied)  
 Dimensions: 180 x 30 x 50mm

Retail Unit Price each (inc. VAT).

## METRIX

### ASYCII SERIES

#### ASYCII Series Multimeters

Metrix

The Metrix ASYCII (Advanced SafeY Concept) multimeters offer a performance and safety that is second-to-none, and set a new standard in accuracy for hand-held multimeters. These multimeters will display up to 50,000 counts (5000 on capacitance), and deliver true rms performance for applications where accuracy is needed for non-sinusoidal wave shapes. Designed for the most demanding situations, these multimeters have advanced safety features. Separate battery and fuse compartments isolate the electronics from outside contaminants- no tools are needed to replace fuses or battery, and there is no need to disturb the main case seal. The unique test lead retaining system keeps leads plugged-in, even when accidentally pulled or caught. 600V fuses, metal oxide varistors voltage ranges that will withstand 1100V peaks, and sealed, waterproof cases make these multimeters amongst the best available, at any price. Each multimeter carries a three-year guarantee and is provided with a Declaration of Conformity and test report for traceability to national and international standards. Re-calibration is digital via a serial interface, and does not require the meter seals to be disturbed.

#### General Specification

Counts: 50,000  
 Bar graph segments: 34  
 Digit height: 14mm  
 Update rate digits: 2 per sec  
 bargraph: 20 per sec  
 AC conversion: true rms, AC or AC+DC (selectable); crest factor 6 IEC1010-1, class 2, degree pollution 2, 600V CAT III, and 1000V CAT II  
 Ruggedness: IP 677 and ML-T-28800  
 EMC: emission EN55011, class B; susceptibility IEC 801, level 3  
 Power: 9V 6LF22 battery  
 Auto switch-off: after 30mins  
 Battery life: 500hrs  
 Dimensions: 40 x 82 x 189mm  
 Weight: 40g

#### Continuity Indicator

Beeps below 15Ω with a response time of 1mS

#### Capacitance

5000 counts with resolution of 10pF and accuracy of 1%+2.  
 Ranges: 50nF, 500nF, 5μF, 50μF, 500μF, 5mF, 50mF

#### Diode Test

Measures forward drop of diode in 0 to 1.999V with a current of 1mA±20%.

#### Frequency Counter

Bandwidth: 0.6Hz to 500kHz  
 Accuracy: 0.03%+1  
 Sensitivity: 2% to 5% of voltage range  
 Duty cycle: %+ and %-

## Model MX54

Metrix

The Metrix MX54 combines superior performance with safety, reliability and environmental integrity. The 50,000 counts capability, high accuracy and resolution, mains disturbance indication and power measurements are complemented by good transient protection and a wide temperature range.

### Specification

## BENCH MULTIMETERS

## True RMS Digital Multimeter - 3210

Black Star

- ★ True RMS
- ★ 0.1% basic accuracy
- ★ Diode test
- ★ Continuity buzzer
- ★ 7000 hours battery life

A battery powered, sensitive bench or field multimeter that will measure true rms voltages. The meter will measure down to 100µV and 200µA on both AC and DC inputs. The 3 1/2-digit 12.5mm LCD readout also indicates polarity, overrange and low battery indication. Battery life is typically over 7000 hours with alkaline batteries.

### Specification

#### DC Voltage

Range	Resolution	Accuracy
200mV	100µV	±(0.1% rdg + 1d)
2V	1mV	±(0.1% rdg + 1d)
20V	10mV	±(0.1% rdg + 1d)
200V	100mV	±(0.1% rdg + 1d)
1000V	1V	±(0.1% rdg + 1d)

Max i/p voltage: 1100V Dc or peak AC

NMRR: >60dB at 50Hz/60Hz

CMRR: >100dB at 50Hz/60Hz

#### DC Current

Range	Resolution	Accuracy
200µA	100nA	±(0.15% rdg + 1d)
2mA	1µA	±(0.15% rdg + 1d)
20mA	10µA	±(0.15% rdg + 1d)
200mA	100µA	±(0.15% rdg + 1d)
2000mA	1mA	±(0.3% rdg + 1d)
10A	10mA	±(2% rdg + 3d)

#### Overload protection

up to 2A: 2A 250V fuse

10A range: 20A max for 10 seconds

Maximum voltage burden is <200mV on all ranges.

On 10A range with currents >5A, accuracy is limited to 20 seconds after application of input.

#### AC Voltage true rms

Range	Resolution	Accuracy - 45Hz-1kHz
200mV	100µV	±(0.5% rdg + 2d)
2V	1mV	±(0.5% rdg + 2d)
20V	10mV	±(0.5% rdg + 2d)

Range	Resolution	Accuracy - 1kHz-10kHz
200mV	100µV	±(1.5% rdg + 2d)
2V	1mV	±(1.5% rdg + 2d)
20V	10mV	±(2% rdg + 2d)

Range	Resolution	Accuracy - 10kHz-20kHz
200mV	100µV	±(3% rdg + 5d)
2V	1mV	±(5% rdg + 5d)
20V	10mV	±(5% rdg + 5d)

Range	Resolution	Accuracy - 45Hz-400Hz
200V	100mV	±(0.5% rdg + 2d)
750V	1V	±(0.5% rdg + 2d)

Range	Resolution	Accuracy - 400Hz-2kHz
200V	100mV	±(3% rdg + 5d)

Range	Resolution	Accuracy - 2kHz-10kHz
200V	100mV	±(5% rdg + 5d)

Accuracy specification apply for inputs between 20% and 100% of full scale.

Maximum permissible input voltage

200mV range: 250V rms, 400V DC

all other ranges: 750V rms, 1100V peak AC

I/P impedance: 10MΩ

CMRR: >60dB at 50Hz/60Hz

Crest factor: >5 at full scale

**AC current**

Range	Resolution	Accuracy - 45Hz-1kHz
200µA	100nA	±(1% rdg + 2d)
2000µA	1µA	±(1% rdg + 2d)
20mA	10µA	±(1% rdg + 2d)
200mA	100µA	±(1% rdg + 2d)
2000mA	1mA	±(1% rdg + 2d)
10A	10mA	±(2.5% rdg + 2d)

Overload protection up to 2A: 2A 250V fuse  
 10A range: 20A max for 10 seconds  
 Crest factor: >5 at full scale  
 Voltage burden: <200mV max. all ranges

**Diode test**  
 The 20kΩ range has sufficient full-scale voltage to turn on a silicon diode at a current of approximately 100µA.

**Continuity test**  
 When the continuity tester is selected an internal audible 'BEEPER' sounds when the resistance between the test probes is less than approximately 50Ω.

**Resistance**

Range	Resolution	Accuracy
200Ω	100mΩ	±(0.15% rdg + 1d)
2kΩ	1Ω	±(0.15% rdg + 1d)
20kΩ	10Ω	±(0.15% rdg + 1d)
200kΩ	100Ω	±(0.15% rdg + 1d)
2000kΩ	1kΩ	±(0.2% rdg + 1d)
20MΩ	10kΩ	±(1% rdg + 2d)
Max. i/p voltage:		250V DC or AC rms
Full scale voltage		
200Ω/2kΩ:		<0.5V
20kΩ/200kΩ:		>0.7V
2000kΩ/20MΩ:		>0.7V
Dimensions:		79 x 219 x 240mm
Weight:		1.2kg

## 1906 Computing Multimeter

TTI (Thurby-Thandar)

A highly advanced autoranging DMM that combines a 5 1/2-digit display with a 1µV sensitivity and a 0.012% basic accuracy. AC ranges are true RMS, giving accurate measurements regardless of the waveform shape. With a maximum resolution of 1µV, 1mΩ, and 1nA, the DMM is ten times more sensitive than a 4 1/2-digit meter. This extra sensitivity enables accurate measurements to be made in areas previously impossible, such as thermocouple junctions, switch contact resistance or capacitor leakage. All functions, including current, feature auto or manual ranging. Resistance measurements can be made in either 2 terminal or 4 terminal mode. High impedance sensing ensures that the meter switches automatically between modes. The resistance function also provides audible continuity and diode test capabilities. The DMM can store up to six front panel set-ups in non-volatile memory. In addition to the range and function, each set-up defines the active computing or logging function along with their parameters. This facility is particularly valuable when similar tests need to be repeated at regular intervals. The DMM stores its calibration constants in permanent memory (EEPROM), which can be recalibrated in software without ever opening the case. Up to 100 readings can be stored at any required time interval from 1 reading per second up to 1 reading every 3 hours. A simple recall sequence allows the readings to be scrolled onto the display whenever required. Tedious time related measurement sequences can now be handled automatically. Every function of the instrument can be controlled using the RS-232 interface, which is compatible

with the TTIARC system. The ARC system (Addressable RS232 Chain) enable up to 32 instruments to be 'daisy-chained' together, and to be individually addressed and controlled using a single RS232, port of a PC. The 1906 can be purchased with a GPIB interface as an option. When installed, a rear panel switch allows the user to choose between RS232 or GPIB control. The GPIB interface fully conforms with both IEEE-488.1 and IEEE-488.2.

**Specification**

**DC Volts**

Range	Accuracy	Input Impedance
200mV	0-0.17% + 3 digit	10MΩ or >1GΩ (Hi Z mode)
2V	0-0.12% + 3 digit	10MΩ or >1GΩ (Hi Z mode)
20V	0-0.19% + 3 digit	10MΩ
200V	0-0.19% + 3 digit	10MΩ
1000V	0-0.19% + 3 digit	10MΩ

Maximum input is 1kV DC or AC peak, any range  
**AC Volts (true RMS)**  
 Maximum input 750V RMS, 1kV peak, any range  
**Amps DC and AC (True RMS)**

**Accuracy**

Range	45Hz-5kHz	5kHz-10kHz	10kHz-20kHz	20kHz-50kHz
200mV	0.2% + 150d	0.2% + 250d	3% + 500d	—
2V	0.2% + 150d	0.2% + 150d	0.5% + 300d	3% + 1500d
20V	0.2% + 150d	0.2% + 250d	0.5% + 300d	2% + 1000d
200V	0.2% + 150d	0.2% + 250d	0.5% + 500d	—
750V	0.2% + 150d	—	—	—

Up to 200mA the maximum input is 300V 1A fuse protected. For the 10A range the maximum input is 300V 10A fuse protected.

**Resistance**

Range	Accuracy	Max. measuring current
200Ω	0-0.025% + 4dgt	1.5mA
2kΩ	0-0.19% + 3dgt	1.5mA
20kΩ	0-0.19% + 3dgt	0.4mA
200kΩ	0-0.19% + 3dgt	40µA
2MΩ	0-0.22% + 3dgt	4µA
20MΩ	0-0.7% + 3dgt	400nA

Maximum open circuit voltage 3-5V. Audible continuity check available on all ranges.

**Computing Functions**  
 Null: Operates over full range; values can be stored for every function  
 Digital filter: 10 options, including optimised default values for each range and function  
 Touch & hold: Reading is held when stable  
 % DEV: Displays % deviation from entered reference value  
 dB: Displays measurement in dB relative to 1V, 1mA, 1kΩ or user entered value, or in dBm  
 Ax+B: Linear scaling of results, with offset  
 Limits: Reading displayed with 'H', 'L' or 'P' (pass) with respect to user-defined high and low limits  
 Min/Max: Minimum and maximum reading stored  
 Data logger: Manual or automatic storage of 100 measurements, 0.33s to 9999s

**Display**  
 Display type: 13mm LED, 8-digit  
 Scale length: Selectable 5 1/2-digit or 4 1/2-digit  
 Reading rate: 3 readings/s (5 1/2-digit)  
 10 readings/s (4 1/2-digit)  
 Over range: Displays 'OL' if input too great for range  
 Overflow: Displays 'OFLO' if calculated result overflows display  
 Annunciators: LED annunciator for range, function and program modes  
 Power requirements: 110/120V or 220/240V AC 50/60Hz, 25VA  
 Dimensions: 260 x 235 x 88mm, excluding handle/feet  
 Weight: 2.2kg

MF65V	2mm+Insulator black	£0.800	£0.760

## 2mm Safety Socket

Multi-Contact

A fully insulated safety socket for 2mm safety plugs and any similar 2mm spring-loaded plug. The socket is designed for screw, or push-fit mounting in to a suitable pre-drilled plastic or metal panel. The socket is gold-plated copper, and the 1.9mm dia. connecting pin is gold-plated brass.

★ Rated at 600V/10A

★ Easy panel mounting

★ Gold-plated connections

A spacing sleeve is supplied for panels below 5mm thickness which allows the socket to be either proud or flush mounted. For panels 5 to 9mm thickness the spacing sleeve is not used.

Type of mounting	Panel thickness mm	Hole dia. mm
Push fit	1.5 min	8.3
Flush - no spacer	5 to 9	8.6
Flush with spacer	5 max	8.6
Proud with spacer	5 max	8.2

## Test Probe Leads

Moulded 2mm

A red and black test lead pair. Terminated in 2mm plugs to suit many multimeters etc. Other end terminated in heavy duty moulded PVC test prods. Heavy duty extra-flexible PVC covered wire 750mm long.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
HF32K	Moulded Test Probe	£1.860	£1.220	£0.990	£2.190

## Moulded 4mm

A red and black test lead pair terminated in moulded 4mm plugs. The other end is terminated in heavy duty moulded PVC test prods. Heavy duty extra-flexible PVC covered wire 850mm long.

Retail Unit Price each (inc. VAT).

## Test Lead Kit

A universal test lead kit comprising one red and one black extra-flexible lead 1m long, and terminated in either a 4mm plug at one end and a test prod at the other, or any combination of terminators; the test prod having a 27mm long tip in a 86mm long x 9mm diameter handle. The 4mm plugs can be plugged into one of three alternative terminations comprising 4mm (minimum) spade terminals, 38mm long crocodile clips (maximum gape 8mm), or 20mm long x 2mm diameter needle point plugs, all red/black colour matched pairs.

Retail Unit Price each (inc. VAT).

FK21X	4mm Test Lead Kit	£3.900	£2.990	£2.490	£4.590

## Banana Plug Probes

Test leads for Precision Gold series multimeters M810, M195 and M920. Alligator clips for use with these probes are also available.

## Shroud Plug/Probes

Test leads for multimeters M105, M125, M135, M205, M225 and M285. Alligator clips for use with these probes are shown below.

## Alligator Clips

Alligator clips that screw onto the probes of the M105, M108, M125, M135, M205, M225, M285, M300A, M400D, M775, M779, M810, M874, M920,

M990, M1300K, M2020S, M25001, M3500TC, M4510, M5010, M5010EC, M5020A, M5050DB, M5050E, and M6000. Sold as a red and black pair.

## 4mm Retractable Plug

Multi-Contact

A 4mm plug with nickel plated contacts and a protection guard to prevent accidental contact to the 'live' part. The transparent guard sleeve is spring-loaded and retracts when the plug is inserted in to a socket. Rated at 500V/32A with a contact resistance of 0.8Ω. Available in red (MF70M), and black (MF71N).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
MF70M	5mm Retract Red	£2.840	£2.700	£2.560	£3.340
MF71N	4mm Retract Black	£2.840	£2.700	£2.560	£3.340

## Plug/Socket Adaptor

Multi-Contact

A range of plug/socket adaptors with either a 2mm plug and 4mm socket, or a 4mm plug and 2mm socket. Contacts made from gold-plated machined brass, and rated at 25A. Each type available in red or black.

Type	2mm plug with 4mm socket	4mm plug with 2mm socket	Order Code
Colour	Red	Black	MF73Q
Contact Resistance	0.6mΩ	0.6mΩ	MF74R
Colour	Red	Black	MF75S

## Insulated Right-Angled Plug/Socket Adaptor

Multi-Contact

An insulated right-angled adaptor with a 4mm plug and 2mm socket, ideal for connecting a 2mm system to a 4mm shrouded system such as multimeters and test equipment. Contacts are gold-plated machined brass, and rated at 600V/25A. Available in black (MF77J) or red (MF78K).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
MF77J	4mm Plug 2mm Skt Red	£2.290	£2.180	£2.070	£2.700
MF78K	4mm Plug 2mm Skt Bk	£2.290	£2.180	£2.070	£2.700

## Safety Right-Angled Plug/Socket Adaptor

Multi-Contact

This 1000V/25A adaptor has a 4mm plug and 4mm socket, configured at right-angles in a fully insulated body. The adaptor is designed to allow 90° entry to safety sockets where there is restricted access. Available in black (MF79L) or red (MF80B).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
MF79L	4mm-4mm R/A Black	£2.990	£2.850	£2.700	£3.520
MF80B	4mm-4mm R/A Red	£3.140	£2.980	£2.820	£3.690

## Miniature Test Clip

Multi-Contact

A miniature test clip with revolving grapper and spring-loaded 1mm dia. socket, suitable for 1mm test leads. Available in red (MF81C), or black (MG02C).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
MF81C	Min Test Clip Red	£7.240	£6.880	£6.520	£8.510
MG02C	Min Test Clip Black	£7.240	£6.880	£6.520	£8.510

## 1m Safety Test Lead with 4mm Shrouded Plug

Multi-Contact

A highly flexible safety 1 metre connecting lead with a 4mm banana plug at either end. The lead is insulated with PVC. Rated current: 16A. Rated voltage: 1000V. Available in red and black colours.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DN18U	Safety Lead 1m Red	£2.850			£3.360
DN19V	Safety Lead 1m Black	£2.850			£3.360

## High-Current 4mm Safety Test Lead

Multi-Contact

An updated version of the above, with a rated current of 32A. Rated voltage: 1000V. Available in red and black colours.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
CN73Q	In-Line Safe Lead Rd	£5.020			£5.910
CN74R	In-Line Safe Lead Bk	£5.020			£5.910

## 1m 20A Safety Test Lead with 4mm Shrouded Plug/Socket

Multi-Contact

A highly flexible safety 1 metre connecting lead with a 4mm banana plug (with integrated 4mm socket) at either end. The integral socket means that the lead can be 'stacked' – in other words, multiple connections can be made to a piece of equipment. The plug/socket conductor is formed from gold-plated brass for low contact resistance and long life, and the lead is insulated with high-temperature PVC. Rated current: 20A. Rated voltage: 1000V. Available in red and black colours.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
DN16S	20A Stackable Lead Rd	£3.890			£4.580
DN17T	20A Stackable Lead Bk	£3.890			£4.580

## 1m 32A Safety Test Lead with 4mm Shrouded Plug/Socket

Multi-Contact

A stackable version of the above. Rated current: 32A. Rated voltage: 1000V. Contact resistance: 0-3mΩ. Available in red and black colours.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
CN71N	Safety Lead 1m Red	£5.940			£6.980
CN72P	Safety Lead 1m Black	£5.940			£6.980

## Probe Clip Sets

Sets of the sub-miniature and miniature probe clips described above previously. Each set contains twelve probe clips, two of each colour, black, blue, green, red, white and yellow. Each colour pair is connected together by a wire of the same colour such that the set contains six different colour test leads. Leads are 500mm long tip to tip.

Retail Unit Price each (inc. VAT).

Order Code	Type 5661	Price each exc. VAT			inc. VAT each
		1+	2+	5+	
FA96E	S-Min Probe Clip Set	£9.700	£6.990	£5.490	£11.400
FE22Y	Min Probe Clip Set	£10.190	£7.870	£5.990	£11.980

## Probe to Croc Clip Leads

A red and black pair of test leads with a 57mm probe clip at one end and a 35mm crocodile clip at the other. Each lead is 1m long tip to tip. Crocodile clips have a vinyl sleeve 42mm long red and black to match wire and clip. Sold only in pairs.

Retail Unit Price each (inc. VAT).

Order Code	Type 5667	Price each exc. VAT			inc. VAT each
		1+	2+	5+	
FE23A	Probe/Croc Clip Lead	£3.220	£2.790	£1.990	£3.790

## Miniature Probe Clips

Ideally suited for use with our extra flexible wire, these probe clips feature a spring-loaded wire hooked probe which retracts into the probe moulding. Two types are available. The 43mm type is available in black, blue, green, red, white or yellow and the 57mm type in black, green or red. Probe material is phosphor bronze plate 0.3mm thick on small and 0.4mm thick on larger type. Housing is nylon. Sold individually.

Dielectric strength: 2kV for 1 minute  
Insulation resistance: >100MΩ at 50V DC

### Dimensions

Length	43mm	57mm	
Cap diameter	8mm	13mm	
Cap stroke		3.5mm	4mm

## Probe Clip

Probe with a positive spring-loaded hook grip for use in confined spaces. Fully insulated, with acetel mouldings and gold-plated contact. Screw or soldered connections. One red and one black. Supplied in pairs only. Overall length 83mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 5662	Price each exc. VAT			inc. VAT each
		1+	2+	5+	
HF21X	Probe Clips	£2.110	£1.370	£0.990	£2.490

## Hook Clip for IC Pins

Multi-Contact

This clip, which has a solder terminal for wires of 0.5mm total diameter (insulation diameter 2mm), is ideal for monitoring signals from IC pins, wires, terminals and test points. The spring-loaded hook is made from copper-beryllium. The low weight of 1.3g allows contact even with fragile components. Voltage rating: 30V AC (60V DC). Available in red or black colours.

Retail Unit Price each (inc. VAT).

Order Code	Type 10291	Price each exc. VAT		inc. VAT each
		1+	1+	
DN20W	IC Test Clip Red	£1.260		£1.490
DN21X	IC Test Clip Black	£1.260		£1.490

## Hook Grabber for 4mm Safety Test Leads

Multi-Contact

A fully-enclosed test probe for use with 4mm test leads. Squeezing the spring-loaded pistol-type grip reveals a pair of stainless-steel wire clamps for hooking onto the test conductor. The shaft is 50mm in length, flexible and coated in silicone rubber. Voltage rating: 1000V. Current rating: 1A. Available in red and black colours.

Retail Unit Price each (inc. VAT).

Order Code	Type 10276	Price each exc. VAT		inc. VAT each
		1+	1+	
DN30H	Flexible Probe Red	£5.090		£5.990
DN31J	Flexible Probe Black	£5.090		£5.990

## Solderable Test Prods

A pair of test probes with plastic body, one red and one black, which can be unscrewed so that a cable can be soldered into the threaded well of the tip. Together with the required wander plugs or crocodile clips, and using preferably extra-flexible wire, it is possible to make up your own test leads to your own specifications. The prods have 27mm long tips with 100mm long x 10mm diameter handles.

Retail Unit Price each (inc. VAT).

Order Code	Type 5663	Price each exc. VAT			inc. VAT each
		1+	2+	5+	
FK32K	Solder Test Prods	£2.110	£1.370	£0.990	£2.490

## Rigid Test Probe for Safety Test Leads

Multi-Contact

A 122mm long test probe with a refined non-slip steel tip, which is covered with a removable transparent cap for safely working on densely populated circuit boards. A 4mm socket is built into the handle for the test lead. Available in red and black colours.

### Specification

Length:	122mm
Shank:	70mm
Rated voltage:	1000V
Insulation co-ordination:	6kV/2 (only applies to handling part between guard collar and socket)
Test voltage:	3250V
Operating temperature:	-40oC to 80oC

Retail Unit Price each (inc. VAT).

Order Code	Type 10296	Price each exc. VAT		inc. VAT each
		1+	1+	
DN46A	Rigid Test Probe Red	£2.540		£2.990

## GS38 Fused Test Probes

Multi-Contact

A pair of novel test probes that accommodate a fuse, and so are ideal for working on delicate or potentially-dangerous equipment. To access the fuseholder, the bayonet-fitting top section of the probe is removed from the base. The fuse section is transparent, so that the state of the fuse can be readily seen. To access the pointed test tip, the probe's handles are squeezed. Designed for use with high-power fuses of up to 20A (Isc = 100kA). Available in red and black. Fuses suitable 15A (UL73Q), 20A (GW90X) (not supplied).

Retail Unit Price each (inc. VAT).

Order Code	Type 11022	Price each exc. VAT	inc. VAT each
DN44X	Fused Test Probe Red	£14.880	£17.490
DN45Y	Fused Test Probe Blk	£14.880	£17.490

## Small Crocodile Clip for Safety Test Leads

Multi-Contact

Designed for a good contact on small conductors – both round and rectangular. The spring-loaded clip has an ergonomically-designed insulated handle, which accommodates a 4mm socket for the test lead. The jaws, which will open out to accept cables of up to 11mm in diameter, are nickel-plated, have a flat clamping area for very fine wires. Available in red and black.

### Specification

Clamping limit: 11mm (max)  
 Length: 53mm  
 Operating temperature: -40°C to 80°C  
 Rated voltage: 300V  
 Rated current: 15A (max, depends on cross-sectional area of connecting lead and the clamped conductor)  
 Insulation co-ordination: 2-5kV/2 (applies only to handling part and safety socket)  
 Test voltage: 1350V

Retail Unit Price each (inc. VAT).

Order Code	Type 11022	Price each exc. VAT	inc. VAT each
DN24B	Small Croc Clip Red	£2.330	£2.740
DN25C	Small Croc Clip Blk	£2.330	£2.740

## Large Crocodile Clip for Safety Test Leads

Multi-Contact

Designed for a good contact on conducting surfaces – large and small, round and rectangular. The spring-loaded clip has an ergonomically-designed insulated handle, which accommodates a 4mm socket for the test lead. The jaws, which will open out to accept cables of up to 30mm in diameter, are nickel-plated, have a flat clamping area for very fine wires. Available in red and black.

### Specification

Clamping limit: 30mm (max)  
 Length: 80mm  
 Rated voltage: 1000V  
 Rated current: 32A (max, depends on cross-sectional area of connecting lead and the clamped conductor)  
 Insulation co-ordination: 6kV/2 (applies only to handling part and safety socket)  
 Test voltage: 3250V

Retail Unit Price each (inc. VAT).

Order Code	Type 11025	Price each exc. VAT	inc. VAT each
DN22Y	Large Croc Clip Red	£2.800	£3.290
DN23A	Large Croc Clip Blk	£2.800	£3.290

## Adaptor for 4mm Safety Test Leads

Multi-Contact

This insulated adaptor is designed for the attachment of safety test leads to all kinds of conventional 4mm sockets. The splined shaft is made from gold-plated machined brass. Buried in the shaft is an Allen screw, which is tightened for a secure fit in the socket (a suitable Allen key (DN29G) is available separately). Available in red, black and green/yellow colours.

### Specification

Rated voltage: 1000V  
 Insulation co-ordination: 6kV/2  
 Test voltage: 3250V

Retail Unit Price each (inc. VAT).

Order Code	Type 11024	Price each exc. VAT	inc. VAT each
DN26D	Safety Adaptor Red	£2.800	£3.290
DN27E	Safety Adaptor Black	£2.800	£3.290
DN28F	Safety Adaptor Gr/Yl	£2.800	£3.290

## Allen Key for 4mm Safety

## Adaptors

Multi-Contact

A STS 1.5mm Allen key designed for installing the above items in a 4mm socket.

Retail Unit Price each (inc. VAT).

Order Code	Type 11026	Price each exc. VAT	inc. VAT each
DN29G	Socket Screw Wrench	£0.340	£0.400

## Safety Plug Adaptor

Multi-Contact

Designed to connect 4mm safety plugs, with a rigid insulating sleeve, to conventional 4mm sockets, binding posts, etc. The adaptor's plug has a relatively high plug-in force and is protected by a retractable insulating sleeve. Once the adaptor has been inserted into a socket, considerable force is required to withdraw it – since the safety plug requires a weaker withdrawal force, the adaptor will remain in place. Contact parts nickel-plated. Available in red only.

### Specification

Rated current: 25A  
 Contact resistance: 0-8mΩ  
 Rated voltage: 1000V (plugged in only, plug side)  
 Insulation co-ordination: 6kV/2  
 Test voltage: 3250V  
 Operating temperature: -40°C to 80°C

Retail Unit Price each (inc. VAT).

Order Code	Type 11027	Price each exc. VAT	inc. VAT each
DN58N	Die Socket Adaptor	£1.870	£2.200

## PCB PROBES

### Concave Type

The CSP-2A contact probe has a non-slip concave conical tip, ideal for use on solder joints and similar surfaces.

Price each shown, but sold only in multiples of 1.

Order Code	Type 5651	Price each exc. VAT	inc. VAT each
UL99H	Concave Probes 2A	£0.740	£0.870

## Call and Collect

Maplin has more stores Nationwide than ever before. See the maps at the front of the catalogue for the nearest one to you.

**Businesses and Government Establishments – open a Maplin MPS Account**

Just complete form at back of catalogue

Sales Tel: 01702 554000 • Fax: 01702 554001 • Technical Helpline: 01702 556001

Export carriage charges (1,2 etc.) and price information see back of catalogue. † symbol in price block indicates While Stocks Last.

## Convex Type

The CSP-2E contact probe has a convex conical tip, with a small surface area, ideal for use on fine PCB tracks, solder joints and plated-through holes.

Price each shown, but sold only in multiples of 1.

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
UM00A	Convex Probes 2E	£0.740	£0.612	£0.561	£0.870

## Concave Type

Cylindrical tip with a concave centre, used for connection to a soldered component lead on a PCB pad.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
UM01B	Concave Probes	£0.927	£0.550	£0.520	£1.090

## Convex Type

Convex cylindrical tip, used for connection to plated-through holes, eyelets and open unused pads.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
UM02C	Convex Probes	£0.927	£0.550	£0.450	£1.090

## Toothed Type

Cylindrical tip with small teeth on top, used for connection to short component leads. The teeth provide positive electric connection.

Retail Unit Price each (inc. VAT).

		1+	25+	100+	1+
UM03D	Toothed Probes	£0.927	£0.524	£0.437	£1.090

## Circular Receptacle

A circular pin projection receptacle for holding the above probes. Fits into a 1.5mm hole.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
UM05F	Circular Receptacle	£0.434	£0.226	£0.188	£0.510

## ANALOGUE OSCILLOSCOPES

### GOLDSTAR

## 20MHz 2-Channel Oscilloscope OS-9020P

LG Goldstar

A portable 2-channel, dual trace oscilloscope built to a high quality, using the latest surface mount technology for performance and reliability. The front panel layout follows a simple and logical format with which the new user will quickly become familiar. The 9020P has all the capabilities required of a general purpose oscilloscope and will accept signals from DC to 20MHz with a high degree of accuracy, and includes TV field and line triggering for video work.

#### Features

Large 150mm (6in.) high luminance CRT with internal graticule of 8 x 10cm. Wide dynamic range even at high frequencies where sensitivity is down -3dB. Fast rise time with low overshoot. Flat frequency response up to half of the -3dB frequency point. Selectable alternate and chop for 2-channel display. Polarity inversion and algebraic summing of channel 1 and channel 2. Superb, jitterless trigger sensitivity. TV sync separator and hold-off useful for video signal observation. Z-axis brightness modulation available. Electronically compensated for low trace drift. X - Y phase difference measurement possible up to 50kHz.

#### Specification

**CRT:**  
Screen: 150mm (6in.) rectangular with internal graticule, effective area 8 x 10cm  
Acceleration: 1.9kV  
Z-axis input (intensity modulation): DC (-3dB @ 10Hz) to 20MHz (7MHz if x5 X magnification on)  
Input signal: Positive going for decreasing intensity, effective from 5V pk-pk at normal  
Bandwidth: DC to 2MHz (-3dB)  
Coupling: DC  
Input impedance: 20kΩ to 30kΩ  
Maximum input voltage: 30V DC + peak AC  
Vertical deflection (Ch1 & Ch2): DC (-3dB @ 10Hz) to 20MHz (7MHz if x5 X magnification on)  
Ch1, Ch2, Add, Dual, Chop, Alt.  
Bandwidth: 5mV/cm to 5V/cm in 10 calibrated steps in 1-2-5 sequence ±3% (1mV/cm to 1V/cm if x5 magnification on, ±5%)  
Modes: ±3% (±5% if x5 magnification on)  
Sensitivity: 1MΩ/25pF  
Accuracy: ±3% (±5% if x5 magnification on)  
Input impedance: 1MΩ/25pF  
Maximum input voltage: 250V DC + peak AC  
Input coupling: DC/AC/Gnd ref.  
Risettime: <17.5ns (<50ns if x5 magnification on)

Ch1 out: 20mV/cm into 50Ω, DC to 10MHz (-3dB)  
Polarity: Ch2 invert option  
Horizontal deflection: A, X-Y  
Sweep modes: 0.2μs/cm to 0.2s/cm in 19 calibrated steps in 1-2-5 sequence  
Timebase A: Variable  
Hold-off time: 10 times (20ns/cm max.)  
Sweep magnification: ±3% (add 2% for magnifier)  
Triggering: Auto, Norm, TV vertical, TV horizontal  
Modes: Ch1, Ch2, Line, External AC  
+ or -

Source: AC  
Coupling: + or -  
Sensitivity, Auto, Norm: 0.5cm @ 20Hz to 2MHz internal, 0.2V pk-pk external 1.5cm @ 2MHz to 20MHz internal, 0.8V pk-pk external  
TV field or line: At least 1cm internal or 1V pk-pk external

External trigger input impedance: 1MΩ/30pF  
Maximum input voltage: 250V DC + peak AC  
X-Y operation: Same as vertical deflection for both Ch1 = X and Ch2 = Y  
Sensitivity: DC to 500kHz (-3dB)  
X-axis bandwidth: 3Ω or less (@ DC to 50kHz)  
X-Y phase error: 1kHz square wave, 0.5V pk-pk ±3%, 50% duty cycle

Calibrator: 1kHz square wave, 0.5V pk-pk ±3%, 50% duty cycle  
Power supply: 240V AC ±10%  
Line voltage: 50/60Hz  
Line frequency: 35W  
Power consumption: 320(W) x 140(H) x 430(L)mm  
Dimensions: 7.5kg  
Weight: Supplied with operating manual, mains lead, spare fuse. Case fitted with stand. A service manual (GS94C) is available separately. Probes not included. Refer to Oscilloscope Accessories for suitable probes.

## 20MHz 2-Channel Oscilloscope with Function Generator OS-9020G

LG Goldstar

Based on model OS-9020P, this dual trace oscilloscope has the additional advantage of a built-in function generator. Outputs include triangle, sine and square wave - all with an adjustable frequency range from 0.1Hz to 1MHz, plus DC offset. A separate TTL level pulse with the same adjustable frequency range is also provided.

#### Function Generator Specification

Output frequency: 0.1Hz to 1MHz (7-steps)  
Output waveform: Sine, square, triangle, TTL level square wave  
Frequency stability: ±0.5%: 0, 10, 100, 1k, 10k, 100k  
±1%: 1M  
Frequency variable range: 10:1 or more

Output impedance: 50Ω ±10%, TTL Fanout 20EA

Output voltage  
open circuit: 14V pk-pk  
DC offset: over ±6%  
TTL level: over 3V pk-pk

Rise/fall time  
50Ω (max output): <120ns  
TTL output: <25ns

Please note probes are not included. Refer to Oscilloscope Accessories for suitable probes. A service manual GS91Y is available separately.

## 40/60MHz 2-Channel Oscilloscopes OS-9040D/60D

LG Goldstar

A choice of two portable 2-channel, dual trace oscilloscopes built to a high quality and incorporating a full scale delayed sweep function, where any portion of the signal displayed with the main timebase can be magnified, and both the magnified portion and the original display can be shown simultaneously. This is invaluable for examining short duration events. The front panel layout follows a simple and logical format with which the new user will quickly become familiar. The 9040D is ideally suited to the observation of high speed events in TV, video and the general purpose fields and will accept signals from DC to 40MHz with a high degree of accuracy. A delay line is also included for the observation of fast leading edges. The 9060D will accept signals from DC to 60MHz, again with a high degree of accuracy.

### Features

Large 150mm, high luminance CRT with internal graticule of 8 x 10cm.  
Wide dynamic range even at high frequencies where sensitivity is down -3dB.  
Fast risetime with low overshoot.  
Flat frequency response up to half of the -3dB frequency point.  
Selectable alternate and chop for 2-channel display.  
Polarity inversion and algebraic summing of channel 1 and channel 2.  
Maximum sweep rates of 20ns/cm for the 9040D and 10ns/cm for the 9060D.  
Variable scale illumination.  
Delayed sweep function with minimum delay time jitter of 1/20,000 or less.  
Superb, jitterless trigger sensitivity.  
TV sync separator and hold-off useful for video signal observation.  
Z-axis brightness modulation available.  
Electronically compensated for low trace drift.  
Signal delay with delay line useful for high speed pulse work.  
X - Y phase difference measurement possible up to 50kHz.

### Specification

**CRT:**  
Screen: 150mm rectangular with internal graticule, effective area 8 x 10cm  
Acceleration  
OS-9040D: 12kV  
OS-9060D: 10kV  
**Z-axis input (intensity modulation):**  
Input signal: Positive going for decreasing intensity, effective from 5V pk-pk

at normal brightness

Bandwidth  
OS-9040D: DC to 2.0MHz (-3dB)  
OS-9060D: DC to 3.5MHz (-3dB)  
Coupling: DC  
Input impedance: 20kΩ to 30kΩ  
Maximum input voltage: 30V DC + peak AC  
**Vertical deflection (Ch1 & Ch2):**  
Bandwidth  
OS-9040D: DC (-3dB @ 10Hz) to 40MHz (7MHz if x5 X magnification on)  
OS-9060D: DC (-3dB @ 10Hz) to 60MHz (20MHz if x5 X magnification on)

on)  
Modes: Ch1, Ch2, Add, Dual, Chop, Alt. (CHOP: Time/div 0.2s to 5ms  
ALT: Time/div 2ms to 0.1µs, to 0.1µs on OS-9060D.  
5mV/cm to 5V/cm in 10 calibrated steps in 1-2-5 sequence ±3% (1mV/cm to 1V/cm if x5 magnification on, ±5%)  
Accuracy: ±3% (±5% if x5 magnification on)  
Inout impedance: 1MΩ/25pF  
Maximum input voltage: 250V DC + peak AC  
Input coupling: DC/AC/Gnd ref.  
Risetime  
OS-9040D: <8.8ns (<50ns if x5 magnification on)  
OS-9060D: <5.8ns (<17.5ns if x5 magnification on)  
Ch1 out: 20mV/cm into 50Ω, DC to 10MHz (-3dB)  
Polarity: Ch2 invert option

**Horizontal deflection:**  
Sweep modes: A, A int B, B, B triggered, X-Y  
Timebase A: 0.1µs/cm to 0.2s/cm in 20 calibrated steps in 1-2-5 sequence  
Hold-off time: Variable  
Timebase B: 0.1µs/cm to 10µs/cm in 7 calibrated steps in 1-2-5 sequence  
Delayed sweep start: <1cm to >10cm  
Delay time jitter: Better than 1/20,000  
Sweep magnification  
OS-9040D: 10 times (20ns/cm max.)  
OS-9060D: 10 times (10ns/cm max.)  
Accuracy: ±3% (add 2% for magnifier)

**Triggering:**  
Modes: Auto, Norm, TV vertical, TV horizontal  
Source: Ch1, Ch2, Line, External  
Coupling: AC  
Slope: + or - Sensitivity, Auto, Norm  
OS-9040D: 0.5cm at 20Hz to 2MHz internal, 0.2V pk-pk external  
1.5cm at 2MHz to 40MHz internal, 0.8V pk-pk external  
OS-9060D: 0.5cm at 20Hz to 2MHz internal, 0.15V pk-pk external  
1.5cm at 2MHz to 60MHz internal, 0.3V pk-pk external  
TV field or line: At least 1cm internal or 1V pk-pk external

External trigger input impedance: 1MΩ/30pF  
Maximum input voltage: 250V DC + peak AC

**X-Y operation:**  
Sensitivity: Same as vertical deflection for both  
Ch1 = X and Ch2 = Y  
X-axis bandwidth: DC to 500kHz (-3dB)  
X-Y phase error: 3° or less (at DC to 50kHz)

**Calibrator:** 1kHz square wave, 0.5V pk-pk ±3%, 50% duty cycle

**Power supply:**  
Line voltage: 240V AC ±10%  
Line frequency: 50/60Hz  
Power consumption  
OS-9040D: 40W  
OS-9060D: 50W  
Dimensions: 320(W) x 135(H) x 320(L)mm  
Weight  
OS-9040D: 7.2kg  
OS-9060D: 7.7kg  
Supplied with operating manual, mains lead and two spare fuses. Case is fitted with stand. A 60MHz Scope Probe for use on the 9060D is available

separately (AQ58N).

## MHz 2-Channel Read-Out Oscilloscope OS-904RD

LG Goldstar

A portable 2-channel, 40MHz bandwidth dual trace oscilloscope built to a high quality and incorporating a full scale delayed sweep function invaluable for examining short duration events. The front panel layout follows a simple and logical format with which the new user will quickly become familiar.

In addition the 904RD has on-screen generated, character read-out capability showing voltage and timing information about the trace if required. The on-waveform potential difference measurement displays the potential difference between two points of the waveform where the moveable cursors intersect. This is helpful for measuring peak to peak voltages of a signal, for example. The measured value is displayed in the top left corner of the screen. In addition the time difference, as measured between the two cursors, is shown at top right. The two cursors are shown as 'X' and '+' symbols, and can be positioned horizontally anywhere on the trace. In addition the input channel number, attenuation level (vertical sensitivity per cm) and horizontal timebase sweep per cm are shown at the bottom of the screen.

Finally the read-out can also show the frequency of the waveform, or that part of it that lies between the two cursors. This is most useful for finding the frequency of a harmonic or some other superimposed signal over the fundamental waveform. This display appears at top right in place of the time difference reading in this mode; all other parts of the read-out are as before.

The 904RD is ideally suited to laboratory or workshop uses and the observation of high speed events in TV, video and the general purpose fields, and will accept signals from DC to 40MHz with a high degree of accuracy. The read-out facility provides the ability to examine waveforms in minute detail more easily than by interpreting the graticule alone. A delay line is also included for the observation of fast leading edges. The CRT includes automatic focusing responding to screen intensity changes, variable graticule illumination and a rotateable trace.

### Features

Large 150mm (6in.) 8 x 10cm, high illumination CRT with internal graticule. Wide dynamic range even at high frequencies with -3dB. Fast risetime with low overshoot. Flat frequency response up to half the -3dB point. Signal delay line useful for observing fast leading edged waveforms. Maximum sweep rate of 20ns/cm. Variable scale illumination. Delayed sweep function with minimum delay time jitter of 1/20,000 or less. TV sync separator and hold-off for video signal observation. X-Y phase shift difference measurement possible up to 50kHz. Character and cursor read-out on CRT with a selection of character and cursor styles. High precision measurement of  $fV$ ,  $fT$  and  $1/fT$  with the cursors.

### Specification

#### CRT:

Configuration: 150mm (6in.) with internal 8 x 10cm graticule also marked for risetime with 2mm divisions along central axes

Accelerating potential: 12kV  
Phosphor: P31 (standard)

#### Z-axis (intensity modulation):

Input signal: Negative going for increase in intensity, 5V pk-pk for discernable change in brightness at normal settings

Bandwidth: DC to 2MHz (-3dB)  
Coupling: DC  
Input impedance: 20k $\Omega$  to 30k $\Omega$  typical  
Maximum input voltage: 30V DC + peak AC  
Vertical deflection: DC (-3dB @ 10Hz AC) to 40MHz

Modes: (7MHz if x5 magnifier on)  
Ch1, Ch2, Add, Dual, Chop (0.2s - 5ms/cm), Alt (2ms - 0.2 $\mu$ s/cm)  
Sensitivity: 5mV/cm to 5V/cm in 10 calibrated steps in 1-2-5 sequence (1mV/cm to 1V/cm if x5 magnification on)  
Accuracy:  $\pm 3\%$  ( $\pm 5\%$  if x5 magnification)  
Input impedance: 1M $\Omega$ /25pF  
Maximum input voltage: 250V DC + peak AC  
Input coupling: DC, AC, Gnd ref.  
Risettime: <8.8ns (<50ns if x5 magnification on)

Ch1 out: 10MHz  
Polarity inversion: (-3dB)  
Ch2 only  
Display modes: A, A int B, B, B triggered, X-Y  
Horizontal deflection: Timebase A: 0.2 $\mu$ s/cm to 0.2s/cm in 10 calibrated steps in 1-2-5 sequence  
Hold-off: Variable  
Timebase B: 0.2 $\mu$ s/cm to 20 $\mu$ s/cm in 7 calibrated steps in 1-2-5 sequence

Delayed sweep start: <1cm to >10cm  
Delayed sweep jitter: >1/20,000  
Sweep magnification: 10 times (sweep rate 20ns max.)  
Accuracy:  $\pm 3\%$  ( $\pm 5\%$  if x10 magnification)  
Trigger system: Modes: Auto, Norm, TV vertical, TV horizontal

Source: Ch1, Ch2, Line, External  
Coupling: AC  
Slope: + or -

Normal: 0.5V/cm @ 20Hz to 2MHz (1.5V/cm @ 2MHz to 40MHz) internal, 0.2V pk-pk @ 20Hz to 2MHz (0.8V pk-pk @ 2MHz to 40MHz) external  
At least 1cm or 1V pk-pk external

TV field and line: External trigger input impedance: 1M $\Omega$ /30pF  
Maximum input voltage: 250V DC + peak AC  
X-Y operation: X-axis: As Ch1 except accuracy,  $\pm 6\%$ ; frequency response, DC to 500kHz (-3dB)  
Same as Ch2

Y-axis: X-Y phase error: <3 $^\circ$  @ DC to 50kHz  
Read-out function: Voltage reference  $fV$ :  $f$ -reference;  $fT$ :  $f$ -REF/frequency reference;  $1/fT$ :  $f$ -REF. Note  $fV$ ,  $fT$  changed to  $fX$ ,  $fT$  when in X-Y mode

Panel setting displays: Vertical axis (Ch1, Ch2): V/DIV, UNCAL, MAG (converted value). Note displayed when vertical mode is Ch1, Ch2 or Dual, not displayed in ADD or B modes. Horizontal axis: S/DIV, UNCAL, MAG (converted value).

Effective cursor range from centre of graticule: Vertical: within  $\pm 3$ cm; horizontal: within  $\pm 4$ cm  
Resolution: 1/25cm  
Calibrator: 1kHz approx., 0.5V ( $\pm 3\%$ ) square wave, 50% duty cycle

Power supply: Line voltage: 240V AC  $\pm 10\%$   
Line frequency: 50/60Hz  
Power consumption: 45W  
Dimensions: 320(W) x 140(H) x 430(L)mm  
Weight: 7.5kg  
Supplied with operating manual, mains lead, spare fuse. Case fitted with stand. Probes not included. Refer to oscilloscope accessories for suitable probes. A comprehensive service manual is also available (AP95D).

## 100MHz 2-Channel Oscilloscope OS-9100P

LG Goldstar

A high quality 2-channel oscilloscope capable of displaying waveforms from DC up to 100MHz and capable of up to 4 traces. The wide bandwidth and magnification controls allow complex waveforms to be measured quickly and accurately. A full screen delayed timebase allows a portion of a trace to be delayed and then magnified. When used in conjunction with the dual trace function this allows the original and delayed trace to be displayed simultaneously - invaluable when trying to examine short duration events in real-time. The front panel layout follows a simple and logical format, with which the new user will quickly become familiar. A fluorescent scale allows photographs of traces and waveforms to be taken. Ideal for any application where fast, accurate results are demanded.

### Features

15cm square CRT with internal fluorescent scale  
Algebraic addition of Ch1 and Ch2  
Alternate and chop trace switching modes  
Auto focusing, responding to changes in screen image intensity  
Delayed sweep function  
Divided TV trigger signal  
Fast rise-time of 3.5ns with low overshoot  
High vertical sensitivity of 2mV  
High input impedance of 1M $\Omega$   
High bandwidth  
Low input capacitance, less than 22pF  
Two timebase generators  
Z-axis or brightness modulation from an external input

### Specification

CRT: 15cm square CRT with internal graticule and an effective area of 8 x 10cm  
Screen: 9kV

Acceleration: 9kV  
Z-axis input (intensity modulation): Positive going for decreasing intensity, effective from 3V pk-pk at normal brightness  
DC to 3.5MHz ( $\pm 3$ dB)

Bandwidth: DC  
Coupling: DC  
Input impedance: 17 - 22k $\Omega$   
Maximum i/p voltage: 20V (DC + peak AC)Vertical deflection (Ch1 and Ch2): DC ( $\pm 3$ dB at 10Hz) - 100MHz (20MHz if x5 magnification is on)

Modes: Ch1, Ch2, Add, Alt, Chop  
Sensitivity: 2mV to 5V/div in 11 calibrated steps of a 1-2-5 sequence  
Accuracy:  $\pm 3\%$   
Input impedance: 1M $\Omega$  in parallel with 25pF  
Maximum i/p voltage: 250V (DC + peak AC)  
Input coupling: AC - DC, GND  
Rise time: 3.5ns or less (17.5ns or less : 2mV/div)

Ch1 out: 20mV/div into 50 $\Omega$  : 50Hz to 30MHz ( $\pm 3$ dB)  
Polarity inversion: Ch2 only  
Horizontal deflection: Input impedance: 1M $\Omega$  in parallel with 22pF  
Maximum i/p voltage: Direct connection 250V (DC + peak AC)

Display modes: A, A INT, B, X-Y, B Triggered  
Timebase A: 0.1 $\mu$ s/div to 0.5s/div in 21 calibrated steps in 1-2-5 sequence  
Timebase B: 0.1 $\mu$ s/div to 10 $\mu$ s/div in calibrated steps

Delayed sweep: 1 div or less 10 div or more  
Accuracy:  $\pm 3\%$ ,  $\pm 5\%$  (x10)  
Trigger system:

Modes: Auto, Norm, TV-V, TV-H  
Source: Int, Line, Ext  
Slope: + or 2  
Sensitivity and frequency: Auto, Norm, TV-V, TV-H

Freq.	Internal	External
30Hz-10MHz	0.48 div	200mV
10MHz-100MHz	1.5 div	600mV
TV-V, TV-H	1.0 div	0.2V
30Hz-10MHz	1.5 div	-
10Hz-100MHz	3.0 div	-

X-Y operation:  
Frequency bandwidth: DC coupling (DC-2MHz), AC coupling (10Hz-2MHz)  
X-Y phase difference: Within 3° (up to 100kHz at DC)

Electrical specification:  
Power supply: 230V 50Hz fixed  
Weight: 8.5kg ± 1kg  
Dimensions: 320 x 140 x 430mm (W x H x L)

Supplied with operating manual and mains cable. Please note that probes are not included.

## 100MHz 3-Channel Oscilloscope OS-9100D

LG Goldstar

An excellent oscilloscope capable of displaying waveforms or events at frequencies from DC up to greater than 100MHz, with three input channels showing up to six traces. This bandwidth, along with the increased magnification, makes for displaying complex signals with precision and accuracy. It incorporates a full scale delayed sweep function, where any portion of the signal displayed with the main timebase can be magnified, and both the magnified portion and the original display can be shown simultaneously. This is invaluable for examining short duration events. The front panel layout follows a simple and logical format with which the new user will quickly become familiar. Ideal for exacting laboratory tasks, examining RF signals and high speed logic.

### Features

- Wider than specified frequency response.
- Fast risetime, less than 3.5ns with low overshoot.
- Dynamic range up to 100MHz without waveform distortion.
- Low input capacitance of less than 22pF.
- Three input channels offering six separate traces with alternate sweep function convenient for observation of multiple signals.
- High vertical sensitivity down to 1mV/cm.
- High brightness, domed-mesh CRT.
- Signal delay line useful for observing fast leading edges.
- Auto focusing responding to screen intensity changes.
- Alternate and chop trace switching modes.
- Algebraic summing of Ch1 and Ch2 possible.
- Polarity inversion of Ch2 possible.
- Z-axis or brightness modulation from external input.
- Drift compensated vertical amplifier.
- Maximum sweep rate of 5ns/cm.
- Delayed sweep function.
- High sensitivity and jitterless triggering.
- TV sync separator and hold-off.
- X-Y phase difference measurement up to 100kHz.

### Specification

CRT:  
Screen: 150mm (6in.) rectangular with internal graticule, effective area 8 x 10cm  
Acceleration: 16.5kV  
Z-axis input (intensity modulation):

Input signal: Positive going for decreasing intensity, effective from 5V pk-pk at normal brightness  
Bandwidth: DC to 3.5MHz (-3dB)  
Coupling: DC  
Input impedance: 15kΩ  
Maximum input voltage: 20V DC + peak AC  
Vertical deflection (Ch1 & Ch2):  
Bandwidth: DC (-3dB @ 10Hz) to 100MHz (20MHz if x5 X magnification on)  
Modes: Ch1, Ch2, Add, Dual, Chop, Alt.  
Sensitivity: 5mV/cm to 5V/cm in 10 calibrated steps in 1-2-5 sequence ±3% (1mV/cm to 1V/cm if x5 magnification on, ±5%)

Accuracy: ±3% (±5% if x5 magnification on)  
Input impedance: 1MΩ/25pF  
Maximum input voltage: 250V DC + peak AC or 400V pk-pk at 1kHz or less DC/AC/Gnd ref.  
Input coupling: DC/AC/Gnd ref.  
Risettime: <3.5ns (<17.5ns if x5 magnification on)

Ch1 out: 20mV/cm into 50Ω, DC to 30MHz (-3dB)

Polarity: Ch2 invert option  
Channel 3 vertical deflection:  
Sensitivity: 0.1V/cm to 1V/cm  
Bandwidth: DC (-3dB @ 10Hz) to 50MHz  
Risettime: <7ns  
Accuracy: ±5%  
Input impedance: 1MΩ/25pF

Maximum input voltage: 250V DC + peak AC  
Horizontal deflection:  
Sweep modes: A, Alt., B, B triggered, X-Y  
Timebase A: 50ns/cm to 0.5s/cm in 22 calibrated steps in 1-2-5 sequence  
Hold-off time: Variable  
Timebase B: 50ns/cm to 50ms/cm in 19 calibrated steps in 1-2-5 sequence

Delayed sweep start: <1cm to >10cm  
Delay time jitter: Better than 1/20,000  
Sweep magnification: 10 times (5ns/cm max.)  
Accuracy: ±3% (add 2% for magnifier)

Triggering:  
Modes: Auto, Norm, TV vertical, TV horizontal  
Source: Ch1, Ch2, Line, External (Ch3)  
Coupling: AC, LF reject, HF reject, DC  
Slope: + or -  
Sensitivity, Auto, Norm: 0.5cm @ DC to 10MHz internal, 0.1V pk-pk external  
1.5cm @ DC to 100MHz internal, 0.3V pk-pk external  
TV field or line: At least 1cm internal or 1V pk-pk external

External trigger input impedance: 1MΩ/30pF  
Maximum input voltage: 250V DC + peak AC

X-Y operation:  
Sensitivity: Same as vertical deflection for both Ch1 = X and Ch2 = Y  
X-axis bandwidth: DC to 2MHz (-3dB)  
X-Y phase error: 3Ω or less (@ DC to 100kHz)  
Calibrator: 1kHz square wave, 0.5V pk-pk ±1%, 50% duty cycle

Power supply:  
Line voltage: 240V AC ±10%  
Line frequency: 50/60Hz  
Power consumption: 60W  
Dimensions: 320(W) x 140(H) x 420(L)mm  
Weight: 8.5kg

Supplied with operating manual, mains lead, spare fuse. Case is fitted with a multi-position stand/carrying handle.

A service manual (AP96E) is available separately. Probes not included. Refer to oscilloscope accessories for suitable probes.

Retail Unit Price each (inc. VAT).

## 20/40/60MHz 2-Channel Digital Storage Oscilloscopes OS-3020/40/60

LG Goldstar

A range of superb 2-channel, dual trace oscilloscopes with digital storage capabilities for 'freezing' and continuously displaying fast, complex or non-repeatable events. 'Equivalent sampling' is possible for very high frequencies. This is a useful function for digitising and observing high speed repetitive signals. In this method one data item is sampled for every high speed sweep, and the sampling point is shifted to the right with every sweep. A useful function for digitising and observing high speed repetitive signals up to the bandwidth of the oscilloscope. Another procedure called 'averaging' is used to improve the signal to noise ratio of a signal, i.e. to reduce the noise components from the constantly displayed repetitive waveform shown on the screen which has too much noise. In general, after 'averaging' has been performed a number of times, the noise can be reduced to  $1/\sqrt{N}$ , where N = the number of times. The 'pre-trigger' function is also provided to allow the operator to observe what happens prior to the trigger point of a stored waveform. The trigger point may be set from 0.00cm up to 10.00cm. 'Roll mode' provides continuous observation of slow waveforms, whilst linear and sine interpolation functions allow for accurate representation of sampled waveforms (e.g. high speed waveforms) with as little as 2.5 data points per cycle. A RS232 interface is also provided so that stored waveforms can be printed out on paper with a suitable X-Y plotter.

In addition there is an on-screen generated, character read-out capability showing voltage and timing information about the trace if required. The on-waveform potential difference measurement, displays the potential difference between two points of the waveform where the moveable cursors intersect. This is helpful for measuring peak to peak voltages of a signal, for example. The measured value is displayed in the top left corner of the screen while the time difference, as measured between the two cursors, is shown at top right. The two cursors are shown as 'X' and '+' symbols, and can be positioned horizontally anywhere on the trace. The input channel number, attenuation level (vertical sensitivity per cm) and horizontal timebase sweep per cm are shown at the bottom of the screen.

Finally, the read-out can also show the frequency of the waveform, or that part of it that lies between the two cursors. This is most useful for finding the frequency of a harmonic or some other superimposed signal over the fundamental waveform. This display appears at top right in place of the time difference reading in this mode; all other parts of the read-out are as before. The read-out also shows the general operating mode of the oscilloscope including active sampling functions. The CRT includes automatic focusing responding to screen intensity changes, variable graticule illumination and a rotatable trace.

At the rear of the unit is 'Ch1 Out Connector' which provides an amplified part of the input signal on Ch1 for a frequency counter or any other monitoring/ measuring device.

Full scale delayed sweep, trace magnification and comprehensive triggering modes are also provided.

### Features

- Maximum 2-channel simultaneous sampling rates of 20MS/s.
- Digitised repetitive signal in equivalent mode 60MHz (OS-3060), 40MHz (OS-3040), 20MHz (OS-3020).
- 2-kilowords memory capacity per channel.
- One-touch switching between real and storage modes.
- Two save memories.
- Pre-triggering enables observation of waveform

portions before the trigger point. Direct copy of screen display using HP-GL commands with RS232C interface. Roll mode provides continuous observation of slow waveforms. Averaging functions provides summation averaging of up to 256 times. Linear and sine interpolation function for optimum pulse or sinusoidal signals. Magnification function simplifies detailed waveform observation. CRT read-out for displaying set values along with measured values of voltage, time and frequency using the cursor function.

### Specifications for models OS-3020; 3040; 3060.

- CRT:
- Configuration: 150mm (6in.) with internal 8 x 10cm graticule also marked for rise time with 2mm divisions along central axes
  - Accelerating potential:
    - OS-3020: 1.9kV
    - OS-3040: 11.5kV
    - OS-3060: 10.0kV
  - Phosphor: P31 (standard)
  - Z-axis (intensity modulation):
  - Input signal: Negative going for increase in intensity, 5V pk-pk for discernable change in brightness at normal settings
  - Bandwidth:
    - OS-3020; OS-3040 DC to 2MHz (-3dB)
    - OS-3060 DC to 3.5MHz (-3dB)
  - Coupling: DC
  - Input impedance: 20kΩ to 30kΩ typical
  - Maximum input voltage: 30V DC + peak AC
  - Vertical deflection:
    - Bandwidth:
      - OS-3020 DC (-3dB @ 10Hz AC) to 20MHz (7MHz if magnified)
      - OS-3040 DC (-3dB @ 10Hz AC) to 40MHz (7MHz if magnified)
      - OS-3060 DC (-3dB @ 10Hz AC) to 60MHz (10MHz if magnified)
    - Modes: Ch1, Ch2, Add, Dual, Chop
      - (0.2s - 5ms/cm), Alt (2ms - 0.2μs/cm); (2ms - 0.1μs for OS-3060 only)
    - Sensitivity: 5mV/cm to 5V/cm in 10 calibrated steps in 1-2-5 sequence (1mV/cm to 1V/cm if x5 magnification on)
      - Accuracy: ±3% (±5% if x5 magnification)
      - Input impedance: 1MΩ/25pF ±3pF
      - Maximum input voltage: 250V DC + peak AC
      - Input coupling: DC-Gnd-AC.
      - Rise time:
        - OS-3020 <17.5ns (<50ns if x5 magnification on)
        - OS-3040 <8.8ns (50ns if x5 magnification on)
        - OS-3060 <5.8ns (35ns if x5 magnification on)
      - Ch1 out: 20mV/cm into 50Ω, DC to 10MHz (-3dB)
      - Ch2 only
    - Polarity inversion: OS-3040, OS-3060 only.
    - Signal Delay: OS-3040, OS-3060 only.
    - Delay: Cable supplied
    - Horizontal deflection: A, A int B, B, B triggered, X-Y (OS-3060 push button operation only)
    - Display modes: A, A int B, B, B triggered, X-Y (OS-3060 push button operation only)
    - Timebase A:
      - OS-3020; OS-3040 0.2μs/cm to 0.2s/cm in 19 calibrated steps in 1-2-5 sequence
      - OS-3060 0.1μs/cm to 0.2s/cm in 20 calibrated steps in 1-2-5 sequence
    - Hold-off: Variable
    - Timebase B: OS-3020, OS-3040 0.2μs/cm to 20μs/cm in 7 calibrated steps in 1-2-5 sequence
    - OS-3060 0.1μs/cm to 10μs/cm in 7 calibrated steps in 1-2-5 sequence.
    - Delayed sweep start: <1cm to >10cm
    - Delayed sweep jitter: >1/20,000
    - Sweep magnification:
      - OS-3020; OS-3040: 10 times (sweep rate 20ns max.)
      - OS-3060: 10 times (sweep rate 10ns max.)

- Accuracy: ±3% (±2% additional error for magnifier)
- Trigger system:
  - Modes: Auto, Norm, TV vertical, TV horizontal
  - Ch1, Ch2, Line, External AC
  - Coupling: AC
  - Slope: + or -
  - Sensitivity, Auto, Normal:
    - OS-3020: Internal = 0.5V/cm @ 20Hz to 2MHz (1.5V/cm @ 2MHz to 20MHz)
    - OS-3040: Internal = 0.5V/cm @ 20Hz to 2MHz (1.5V/cm @ 2MHz to 40MHz) External = 0.2V pk-pk @ 20Hz to 2MHz (0.8V pk-pk @ 2MHz to 20MHz)
    - OS-3060: Internal = 0.5V/cm @ 20Hz to 2MHz (1.5V/cm @ 2MHz to 60MHz) External = 0.15V pk-pk @ 20Hz to 2MHz (0.3V pk-pk @ 2MHz to 60MHz)
  - TV field and line: At least 1cm or 1V pk-pk external, composite sync
  - External trigger input impedance: 1MΩ/30pF
  - Maximum input voltage: 250V (DC + peak AC)
  - X-Y operation:
    - X-axis: As Ch1 except accuracy, ±5%; frequency response, DC to 500kHz (-3dB)
    - Y-axis: Same as Ch2
    - X-Y phase error: <3° @ DC to 50kHz
  - Read-out function:
    - Cursor read-out: Voltage reference fV; f-REF/time reference; fT; f-REF/frequency reference; 1/fT; f-REF
  - Panel setting displays:
    - Vertical axis (Ch1, Ch2): V/DIV, UNCAL, MAG (converted value). Note displayed when vertical mode is Ch1, Ch2 or Dual, not displayed in B mode.
    - Horizontal axis: S/DIV, UNCAL, MAG (converted value).
  - Effective cursor range from centre of graticule:
    - Vertical: within ±3cm;
    - Horizontal: within ±4cm
  - Resolution:
    - Digital storage function: 1000 words per channel
    - Display memory: 1000 words per channel x 2
    - Acquisition memory:
      - OS-3020; OS-3040: 5μs/cm ~ 20s/cm: 2000 words per channel
      - 0.2μs/cm ~ 2μs/cm: 1000 words per channel
      - OS-3060 0.5μs/cm ~ 20s/cm: 2000 words per channel
      - 0.1μs/cm ~ 2μs/cm: 1000 words per channel
    - Vertical resolution: 25 points/cm
    - Horizontal resolution: 100 points/cm
    - Maximum sampling rate: 20MS/s
    - Single-shot event bandwidth: 5MHz
    - Repetitive event bandwidth:
      - OS-3020: 20MHz
      - OS-3040: 40MHz
      - OS-3060: 60MHz
  - Data acquisition method:
    - NORM mode: store whole screen each sweep
    - Averaging mode: store the average from 4 to 25 times
    - Roll mode: continuously read and store and re-display on screen at higher rate
    - Hold mode: data is held for NORM, AVG and ROLL
    - Single shot: waveform is held after one sweep is stored
    - Up to two screens can be saved and recalled on screen at any time
  - Data saving: Variable by 0.4cm per step
  - Pre-trigger: Variable by 0.4cm per step

Paper plotting: Via RS232 interface  
Magnifier: 10 times by time/cm switch or MAG switch

X-Y operation: Single trace X-Y mode, X-axis = Ch1, Y-axis = Ch2 or X-axis = storage A, Y-axis = storage B; Dual trace mode, X-axis = Ch1, Y-axis = Ch2. Sensitivity, both: 1mV to 5V/cm±5%. Phase error = <3° from DC to 50kHz

Sweep time: OS-3020; OS-3040 0.2µs/cm to 20s/cm. Repetitive mode: 0.2µs/cm to 2µs/cm. Roll mode: 0.5µs/cm to 20s/cm. Alternate: 0.2µs/cm to 0.5ms/cm

Chop: 1ms/cm to 20s/cm. OS-3060 0.1µs/cm to 20s/cm. Repetitive mode: 0.1µs/cm to 2µs/cm. Roll mode: 0.5s/cm to 20s/cm. Alternate: 0.1µs/cm to 0.5ms/cm. Chop: 1ms/cm to 20s/cm

Read-out function: Voltage reference ΔV;  
Cursor read-out: Δ-REF/time reference; ΔT; Δ-REF/frequency reference; 1/ΔT: Δ-REF

Panel setting displays V/DIV, UNCAL, MAG. S/DIV, UNCAL, MAG. X-Y trigger point, number of averaging roll mode, smoothing, interpolation method, save memory information, probe setting 1kHz approx., 0.5V (±3%) square wave, 50% duty cycle

Calibrator: square wave, 50% duty cycle

Power supply: 240V AC ±10%  
Line voltage: 50/60Hz  
Line frequency: 65W  
Power consumption: 320(W) x 140(H) x 430(L)mm  
Dimensions: 8.5kg  
Weight: Supplied with operating manual, mains lead and two spare fuses. Case is fitted with multi-position stand/carrying handle. Probes, not included, see accessories. Calibration service available please contact the sales line for details.

## METRIX

### 20MHz Dual Channel Oscilloscope - OX520

The OX520 is an entry level 20MHz dual channel scope that is ideal for students and general purpose repair and monitoring applications. The stylish front panel is simple and well laid out making it easy for the beginner to use and understand. This affordable scope is built to the highest standards and safety, and will provide years of trouble-free service.

#### Specification Vertical amplifiers

No. of channels: 2  
Sensitivity: 5mV to 5V/division ±5%  
1mV/division ±10%  
Bandwidth: 20MHz  
Rise time: <17.5ns  
I/P impedance: 1MΩ ±5%  
I/P capacitance: 30pF  
Operating modes: CH1, CH2, CHOP, ALT, ADD  
Max. i/p voltage: 400V pk-pk

#### Timebase

Sweep time: 0.2µs/division - 0.2s/division  
Expansion: 20ns/division ±10% max sweep

**Triggering**  
Modes: TRIG, AUTO  
Sources: INT (CH1, CH2), LINE, EXT  
Coupling: AC, TV-V, TV-H  
+ or -  
Slope: Sensitivity  
10Hz-10MHz: <1 division (Ext. 0.5V)  
10MHz-20MHz: <1.5 division (Ext. 0.5V)

**XY Mode**  
Input X: CH2  
Y: CH1  
Bandwidth: 500kHz  
Phase difference: <±3° (50kHz)

**CRT**  
Type: rectangular screen with internal graticule (80 x 100mm  
Power supply: 230V/110V ±10% 50/60Hz  
Dimensions: 340 x 155 x 450mm  
Weight: 6.5kg  
Safety: IEC 1010 Cat II, degree of pollution 2

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each

### 20MHz Dual Channel Oscilloscope with Component Tester OX800

- ★ Microprocessor controlled
- ★ SMD technology
- ★ Autoranging sweep
- ★ Alternate and peak-to-peak trigger modes
- ★ Component tester
- ★ Supplied with Certificate of Conformity

This 20MHz microprocessor controlled analogue scope features 'Alternate' and 'Peak-to-Peak' trigger modes to simplify the synchronisation and display of waveforms. Its Autoranging sweep delay is unique for a 20MHz bandwidth real time scope. The latest design and manufacturing techniques are used to produce this quality scope which includes microprocessor control and SMD assembly technology. This has resulted in the virtual elimination of complex switching of sensitive high frequency signals from the front panel controls. Additionally, the CRT is fully mu-metal shielded against the influence of magnetic fields. This Metrix scope complies with the IEC 1010 (EN 61010) standards, and is designed to give precise and repeatable measurements throughout its service life. As a result the calibration of every instrument is traceable to national and international standards and a Certificate of Conformance is supplied with all scopes.

#### Specification Vertical amplifiers

Bandwidth (-3dB)  
AC coupled: 10Hz to 20MHz  
DC coupled: 0 to 20MHz  
Sensitivity: 1MΩ ±1%/25pF  
Rise time: <17.5ns  
Operating modes: CH1; ±CH2; CH1 and ±CH2 alternate or chopped;  
Add/Subtract  
Max. i/p voltage: ±400V (DC or AC peak at 1kHz); Cat. II

#### X-Y operation

Mode: CH1 in X-axis; CH2 in Y-axis  
Sensitivity: 1mV/div to 20V/div  
Bandwidth ch. X: 0 to 20MHz (-3dB)  
I/P impedance: 1MΩ/25pF  
Phase difference: <3° at 120kHz

**Timebase**  
Sweep time: 0.5µs/div to 0.2s/div ±3%  
Fine adjustment: 1 to 2.5 (with UNCAL LED) up to 0.2µs/div  
max. sweep 20ns/div ±5%  
variable 1 - 10 division

Expansion x10:  
Hold off: max. sweep 20ns/div ±5%  
variable 1 - 10 division

**Triggering**  
Trigger indication: 'TRIG' LED  
Source: CH1, CH2, ALT (CH1 and CH2 alternate), EXT, LINE

Sensitivity on CH1, CH2, ALT EXT  
0-10MHz 0.5 div 50mV eff  
10MHz to 20MHz 1 div 100mV eff  
20MHz to 30MHz 2 div 200mV eff  
30MHz to 40MHz 3 div 300mV eff

Modes: normal; pk-pk; triggered; delayed  
Coupling: DC, AC, filters LF, HF (10kHz); TV-V, TV-H  
positive, negative

Slope: square wave  
Waveform: 2V ±1%  
Amplitude: 1kHz ±1%  
Frequency: 1kHz ±1%

**CRT (with beam finder & trace rotation)**  
Screen: 80 x 100mm internal graticule  
Acc voltage: 2kV approx.

**Z-Modulation**  
I/P rear panel: BNC  
Sensitivity: TTL level (±20V DC max.)  
I/P impedance: 2kΩ  
I/P frequency: 4MHz max.

**Component tester**  
O/P: 12V rms (15mA rms max.)  
at 50Hz via 4mm safety sockets

**Safety**  
IEC 1010-1 overvoltage CAT II; degree of pollution 2. EMC to IEC 801, Level 3; EN55011 and VDE 871cl. B

**General**  
Power supply: 110V to 230V/240V ±10%

## Dual Channel 20MHz Analogue/Digital Oscilloscope OX8020

Metrix

RECENTLY INTRODUCED

- ★ Combined analogue and programmable digital storage oscilloscope
- ★ 40M samples/second
- ★ 17 automatic and cursor measurement modes
- ★ 'AUTOSET' automatic match to input signal
- ★ RS232 interface
- ★ Comprehensive trigger modes
- ★ Envelope mode
- ★ Three acquisition modes

A superb, combined analogue and programmable digital storage oscilloscope with a host of features to make measurements simple and easy. By pressing the auto measurement button, 17 different amplitude and time related functions are available. This will make automatic calculations on digitised stored waveforms in either analogue or digital display modes. As well as comprehensive trigger mode options, the OX8020 also offers an 'AUTOSET' facility that selects the optimum trigger, timebase and attenuation settings to match the input signal. Envelope mode allows variations in repetitive signals to be displayed in screen. Each sweep of a repetitive signal accumulates on the screen, building up an envelope view of the signal variations.

Three acquisition modes are available - roll for slowly changing phenomena; single-shot for single events; refresh for repetitive signals. These modes can be combined with the pre-trigger function, which is selectable in 1k word steps, to view waveforms before and after the trigger point. Two horizontal and vertical cursors allow a choice of measurements on real time and stored waveforms.

The OX8020 can be externally programmed (listener-talker) in analogue or digital modes. Functions such as sensitivity; timebase; trigger mode; display mode; input coupling; trigger delay; acquisition mode (single, roll, refresh), pre-trigger, etc., can be set up remotely via the RS232 interface.

Microprocessor control and SMD assembly technology eliminates totally any complex switching of sensitive high frequency signals from the front panel controls. The CRT is fully mu-metal shielded against the influence of magnetic fields. The calibration of every instrument manufactured by Metrix is traceable to national and international standards and a certificate of compliance is supplied with every OX8020.

### Specification

#### Vertical amplifiers

Bandwidth (-3dB) 10Hz to 20MHz  
 AC coupled: 10Hz to 20MHz  
 DC coupled: 0 to 20MHz  
 Sensitivity: 1MΩ ±1%/25pF  
 Rise time: <17.5ns  
 Operating modes: CH1; ±CH2; CH1 and ±CH2 alternate or chopped; Add/Subtract  
 Max. i/p voltage: ±400V (DC or AC peak at 1kHz); Cat. II

#### X-Y operation

Mode: CH1 in X-axis; CH2 in Y-axis  
 Sensitivity: 1mV/div to 20V/div  
 Bandwidth ch. X: 0 to 20MHz (-3dB)  
 I/P impedance: 1MΩ/25pF  
 Phase difference: <3° at 120kHz

#### Timebase

Sweep time: 0.5µs/div to 0.2s/div ±3%  
 Fine adjustment: 1 to 2.5 (with UNCAL LED) up to 0.2µs/div  
 Expansion x10: max. sweep 20ns/div ±5%  
 Hold off: variable 1 - 10 division

#### Triggering

Trigger indication: 'TRIG' LED  
 Source: CH1, CH2, ALT (CH1 and CH2 alternate), EXT, LINE

Sensitivity on CH1, CH2, ALT EXT  
 0-10MHz 0.5 div 50mV eff  
 10MHz to 20MHz 1 div 100mV eff  
 20MHz to 30MHz 2 div 200mV eff  
 30MHz to 40MHz 3 div 300mV eff

Modes: normal; pk-pk; triggered; delayed

Coupling: DC, AC, filters LF, HF (10kHz); TV-V, TV-H

Slope: positive, negative

#### Autoset

Automatic vertical and horizontal configuration of the instrument to match the signals on inputs CH1 and CH2

#### Acquisition

A/D conversion  
 Vertical resolution: 8-bit (256 levels) individual converter for each channel

Accuracy: ±3% overall

Sampling rate: 40M samples/second

Memory sizes: 2 x 4k word buffers

#### Acquisition modes

roll: 500ms to 200s/div  
 refresh: 0.1µs to 200s/div  
 single shot: 0.1µs to 200s/div  
 Pre-trigger: 0 to 4k in 1k word steps

#### Display

Readout: applicable in analogue and digital modes

Trace selection: depends on the vertical mode (CH1 - ALT - CHOP - CH2 - XY - ADD - MULT)

#### Waveform analysis

Bargraph indication of the expansion and position of the displayed window; Linear and sinusoidal interpolation; Analogue smoothing ('Dot Join')

#### Vertical shift

Display of the vertical shift position (during and after acquisition).

#### Measurements

By cursors - ΔV, Δt, F, φ (in analogue and digital modes), Reference selection (CH1 or CH2) Automatic measurements - tr, tf, F, T, W+, W-, Vrms, Vamp, Vlow, Vh, Vpp, Vmax, Vmin, DC+, DC-, φ (phase) on digitised stored waveforms.

NOTE: The measured values are displayed at the bottom of the screen in analogue and digital modes.

#### Calibrator

Waveform: square wave  
 Amplitude: 2V ±1%  
 Frequency: 1kHz ±1%

#### CRT (with beam finder & trace rotation)

Screen: 80 x 100mm internal graticule  
 Acc. voltage: 2kV approx.

#### Z-Modulation

I/P rear panel: BNC  
 Sensitivity: TTL level (±20V DC max.)  
 I/P impedance: 2kΩ  
 I/P frequency: 4MHz max.

#### Interface

RS232 serial interface 25-way male D-connector

#### Safety

IEC 1010-1 overvoltage CAT II; degree of pollution 2. EMC to IEC 801, Level 3; EN55011 and VDE 871cl. B

#### General

Power supply: 110V to 230V/240V ±10%  
 50/60Hz; 80W max.  
 Dimensions: 450 x 340 x 155mm  
 Weight: 7.2kg

## 100MHz Dual Channel Oscilloscope - OX860

Metrix

RECENTLY INTRODUCED

- ★ 100MHz Bandwidth
- ★ Microprocessor controlled
- ★ Trigger up to 180MHz
- ★ Bandwidth limit gives users high degree of control
- ★ Dual time base with one single knob
- ★ LEDs for ease of use

A superb 100MHz dual channel oscilloscope with a microprocessor controlled digital front end that saves you time and simplifies testing procedures. Just press the AUTOSET button and the scope automatically sets both the vertical and time scale for optimum measurements. Through its built-in data and setup memory feature, the scope will retain your setup in non-volatile RAM. The ergonomically designed front panel with LEDs for selection make this scope a joy to use.

The European Low Voltage Directive requires all new laboratory measuring equipment to meet the IEC1010 safety standards. The OX860 fully complies with the safety and specifies overvoltage CATII and degree of pollution 2. To ensure that every instrument is traceable to national and International standards, Metrix maintain an accredited calibration laboratory. All OX860 scopes are supplied with a declaration of conformity. The OX860 can be used in the most demanding applications - education, R & D laboratories, production testing, quality assurance etc. - and will provide years of trouble-free, reliable operation. Supplied with two 250MHz probes.

### Specification

#### Vertical amplifiers

Bandwidth (-3dB, 2mV to 5V/div)  
 AC coupled: 10Hz to 100MHz  
 DC coupled: 0Hz to 100MHz  
 Sensitivity: 2mV to 5mV/div ±3% (1-2-5)  
 Fine adjustment: 1 to 1/2.5 (with UNCAL LED)  
 I/P impedance: 1MΩ/15pF  
 Rise time: <3.5ns (2mV to 5V/div)  
 Operating modes: CH1; ±CH2; CH1 and ±CH2 alternate or chopped; add/subtract

Max. i/p voltage: ±400V (DC/AC at 1kHz); CATII  
 Bandwidth limit: 20MHz

#### X-Y operation

Mode: CH1 in X axis; CH2 in Y axis  
 Sensitivity: 2mV/div to 5V/div  
 Bandwidth Ch. X: 0 to 4MHz (-3dB points)  
 I/P impedance: 1MΩ/15pF  
 Phase difference: <3° to 120kHz

#### Main Timebase TB1

Sweep time: 50ns/div to 0.1s/div ±3% (1-2-5 sequence)  
 Fine adjustment: 1 to 2.5 (with 'UNCAL' LED) up to 0.25s/div

Expansion x10: max. sweep 5ns/div ±5%  
 Hold-off: variable 1 - 10

#### Delayed Timebase TB2

Seep time: 50ns/div to 0.1s/div ±3% (1-2-5 sequence)  
 Horizontal modes: intensified alternate; delayed run-after-delay; trig-after-delay

#### Triggering

Trigger indication: 'TRIG' LED  
 Sources: CH1, CH2, ALT (CH1 & CH2 alternate), EXT, LINE (net)

Freq. Range CH1, CH2, ALT EXT  
 1kHz 0.5 div 100mV/rms  
 100MHz 1 div 200mV/rms  
 160MHz 2 div 300mV/rms

Sensitivity: CH1, CH2, ALT, EXT  
 Modes: normal - pk-pk triggered - delayed

Coupling: DC, AC, filters LFR, HFR (10kHz), TV-V, TV-H

Slope: pos, neg  
 Apparent delay: 20ns  
 Trigger delay: TB2 with intensified trace  
 Variable delay: 1 to 10 div, TB2 triggered on the same signal

**Z-Modulation**  
 Input: rear panel BNC  
 Zin: 10kΩ  
 Sensitivity: TTL level (max ±50V DC)  
 I/P frequency: 20MHz max.

**Calibrator**  
 Waveform: square wave  
 Amplitude: 0.5V ±1%  
 Frequency: 10Hz to 50kHz - according to sweep time

**Autoset**  
 Automatic vertical and horizontal configuration of the instrument to match the signals on inputs CH1 and CH2

**CRT**  
 Screen: 80 x 100mm  
 Accelerating: 15.5kV approx. plus trace rotation

**General**  
 Safety: IEC1010 -1 class 1; overlapping cat II; pollution degree 2  
 EMC: IEC, level 2; EN55011 class B  
 Power: 94V to 264V (48/440Hz) < 50W max  
 Dimensions: 450 x 340 x 155mm  
 Weight: 5.5kg

## DIGITAL OSCILLOSCOPES

### TEKTRONIX

#### Tektronix Digital Storage Oscilloscopes

An oscilloscope's display has been the final judge of electronic circuit performance. For decades, a key tool in acquiring the most challenging of waveform events has been digital sampling, and more recently the digital storage oscilloscope (DSO).

DSOs now dominate most scope applications because they offer crucial advantages over analogue oscilloscopes. Digital scopes document, analyse, and compare waveforms far more efficiently. They present stable, clear images of complex waveforms. Even so, several limitations of conventional DSOs have hampered their acceptance in some applications. Capturing Digital Real Time (DRT) waveforms eliminates distortion and aliasing sometimes found in conventional Digital Storage Oscilloscopes, while achieving full bandwidth for both repetitive and single-any time/division setting without having to wait through the multiple acquisitions needed to build a full display with equivalent-time methods.

When it comes to seeing the realities of a waveform, nothing beats DRT acquisition. Because the waveform is sampled and acquired in real time, as it actually occurs, the actual waveform is displayed in all its detail. This includes depiction of waveform noise and other random or nonsynchronous aberrations. With Tektronix digital real-time, if you can trigger on the waveform, you can see it! DRT acquisition technology has provided a platform for high-performance digital scopes at all price points. It overcomes the traditional limitations of digital storage scopes, and therefore is ideally suited for applications in the manufacturing, education, and service fields-applications traditionally claimed by analogue scopes. The TDS 210 and TDS 220 are low-cost DRT-based oscilloscopes optimised for these applications. Real-world users will find the scopes' performance better than analogue scopes. Moreover, the TDS 210 (KV56L) and TDS 220 (KV57M) provide a host of automated digital functions that will enhance productivity wherever they are used. These new products will hasten the final transition to digital scopes.

**Business Account Holders**  
**No Delivery Charges for any order**

#### TDS210 Digital Real-time Oscilloscopes

Tektronix

The TDS 210 features an unbeatable combination of performance, price, and functionality, making it easy for analog users to choose and use digital scopes. In fact, no other digital scope offers as much bandwidth and sample rate in one affordable package. By sampling at 10 and 16 times their bandwidths on both channels, the TDS210 Series scopes provide accurate real-time acquisition to the full bandwidth. The AC220 carrying case shown is an optional extra. Waveform storage makes it easy to save waveforms for later analysis, comparison, or printing. Features:

- ★ Affordable, high-performance scope that minimises aliasing and provides higher resolution waveforms
- ★ Available in 60 MHz and 100 MHz models, (KV57M) both featuring cursors with readout, 2 reference waveforms, 5 setup memories, 5 automatic measurements, and autoset
- ★ Small, light-weight footprint fits anywhere
- ★ Hardcopy extension module makes it easy to add screen hardcopy capability
- ★ Full 3-year warranty

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KV56L	TDS210 60MHz	1+ 2+	£720,000 £684,000
KV61R	AC220 Case	£54,990	£64,620

#### TDS 220 Digital Real-time Oscilloscope

Tektronix

Featuring an unbeatable combination of performance, price and functionality, the TDS 220 makes it easy for analogue users to choose and use digital scopes. In fact, no other digital scope offers as much bandwidth and sample rate in one affordable package. By sampling at 10 and 16 times their bandwidths on both channels, the TDS 220 Series scopes provide accurate real-time acquisition to the full bandwidth. Waveform storage makes it easy to save waveforms for later analysis, comparison, or printing. The AC220 carrying case shown is an optional extra.

- Features:
- ★ 100 MHz bandwidth
  - ★ 2 Channels
  - ★ 1 GS/s max sample rate on each channel
  - ★ 5 ns/div to 5 s/div sweep speeds
  - ★ 2500 points/channel record length
  - ★ 3-year warranty

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KV57M	TDS220	1+ 2+	£1,060.00 £1,009.52

KV58N	TDS2CM	1+ 2+	£194,990 £185,710

#### TDS340A Digital Real-Time Oscilloscopes

Tektronix

When you need to capture real-life signals on each and every sweep, you can rely on TDS 300 Series Digital Real-time scopes. Featuring twice the bandwidth and twice the sample rate of previous TDS 300 models, the 300 series is ready to help you get the job done - no matter what your application. All models come with Fast Fourier Transform (FFT) to display harmonic content of waveforms. TDS340A features:

- ★ 100 MHz bandwidth
- ★ 500 MS/s/channel max sample rate
- ★ 2 channels
- ★ 5 ns/div to 5 s/div sweep speeds
- ★ 2 mV to 10 V vertical sensitivity
- ★ 8 bits vertical resolution
- ★ 1 K/channel record length
- ★ FFT, TV Line and Field Trigger
- ★ Roll Mode
- ★ Autoset
- ★ 21 Automatic Measurements
- ★ Peak Detect
- ★ 3-year warranty

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
KV62S	TDS340A	1+ 2+	£2,154.99 £2,047.00

#### TDS 360 Benchtop Oscilloscope

Tektronix

The TDS 300 Digital Real Time (DRT) oscilloscopes offer a wide range of circuit design and test utilities including FFT analysis and an internal floppy disk. Store waveforms and setups in a wide range of formats (TIFF, PCX, BMP, PostScript, Lotus 1-2-3, Excel, MathCAD) transferring files to your PC via the internal floppy disk drive or optional communications interface.

- TDS360 Specifications:**
- ★ 200 MHz Bandwidth
  - ★ 1 GS/s Sample rate per channel
  - ★ 2.5ns - 5s/div timebase range
  - ★ 21 automatic measurements
  - ★ Floppy disk drive
  - ★ FFT
  - ★ Optional GPIB/Centronics/RS232

Retail Unit Price each (inc. VAT).

## WAVESTAR

## WSTR31 - WaveStar 1.1 Waveform Capture/Documentation Software

**Tektronix**

Windows based WaveStar 1.1 software makes it easy to import and export waveforms, transforming your PC into an electronic lab notebook. Now scientists, engineers and technicians can record measurements made with a broad range of Tektronix DSO's, including all related screen shots, scope settings and notes. This powerful software package provides a link to current spreadsheet and documentation software, allowing users to analyze measurements and incorporate them into reports and other documents.

Features:

- ★ Capture, organise, annotate, and archive all scope-related waveforms and settings
- ★ Analyze waveforms with Windows-based spreadsheet
- ★ Define unique notebook as one save file
- ★ Windows 95 and Windows Clipboard compatible
- ★ Display 22 measurements
- ★ Compute a 51 harmonic analysis
- ★ Dead bitmap and waveform files imported from TDS floppies
- ★ Export spreadsheets in .csv and .xlsx format.

Supports 2200 Series, 2400 Series, THS700A Series, TDS 200, 300, 400, 500, 600, 700, 800, 11401/02/03

## PORTABLE OSCILLOSCOPES

### THS700 SERIES

## THS710A Handheld Oscilloscope

**Tektronix**

For Digital Real-Time (DRT) technology in a powerful, handheld scope, take a look at the industry's market leader: the THS700 Series

scopes. Combining a full-featured DRT scope with a powerful digital multimeter, the THS700 Series makes it easy to take full advantage of feature-packed instrumentation. Cursors, video trigger, voltage, resistance measurements and Waveform storage. Everything you need to test high-speed electronic circuitry. For maximum flexibility, scope and meter modes operate simultaneously and independently - on the same or separate channels. With the THS700 Series scopes, you won't find higher performance at a greater value. Case not included

THS710A Features:

- ★ Affordable DRT handheld scope and multimeter in a powerful package
- ★ Independently floating IsolatedChannel architecture for safe and accurate measurements
- ★ 21 Automatic measurements
- ★ High Resolution, backlit display, and pop-up menus
- ★ 60 MHz Bandwidth
- ★ 250 MS/s Sample Rate (each channel)
- ★ Time/Div Ranges 10 ns/div to 50 s/div

Accessories:

- THS7CHG Quick charge battery charger
- THS7BAT Rechargeable NiCad battery
- THS7HCA Transport Case
- TXMDXPB Deluxe probe set

## THS720P Handheld Digital Scope and Multimeter

**Tektronix**

The THS720P handheld digital scope and multimeter is the only safe measurement solution for powerful electronics. Featuring automatic power measurement with statistics, as well as independently floating isolated scope and DMM channels for safety, the THS720P scope offers what today's marketplace demands. From cursors to video trigger; voltage and resistance measurements; and waveform, data, and instrument setup storage - the THS720P scope provides 600 Vrms measurement capability with IsolatedChannel architecture, 100 MHz DRT bandwidth, and power measurements for safe and accurate performance. A truly powerful combination that can't be beat.

Features:

- ★ Designed specifically for electric/power applications
- ★ Powerful scope and DMM combination for maximum flexibility
- ★ Measures harmonics up to 31st (50/60 Hz)
- ★ High resolution, backlit display, and pop-up menus
- ★ 100 MHz bandwidth
- ★ 500 MS/s sample rate (each channel)
- ★ Time/Div range 5ns/div to 50 s/div
- Case not included.

**VECTOR SCOPE**

**WFM91 PAL Handheld  
Waveform/Vector/Audio/  
Picture Monitor**

**Tektronix**

A handheld, waveform/vector/audio monitor with an integrated colour picture display. This new monitor features low cost and ease of operation, in a rugged, self-contained package suitable for field production and system maintenance applications. The WFM 91 provides, for the first time, the utility of several discrete instruments in one handheld package. Field production can now realise the benefits of composite waveform, vector, and colour picture monitoring for camera setup and timing, and use the same instrument to supervise the program segment. Field service and troubleshooting can be quick, with a complete monitoring instrument easily hand carried to the site. Behind the rack, the studio engineer can have a full service monitoring system where separate monitors would be impractical. Battery operation makes the WFM 91 ideal for portable operation where ac power may not be available. This comprehensive monitor operates from an optional accessory NiCad battery pack or six alkaline C-cells. Where external power is available, the WFM91 operates from either 12 Vdc system power or a supplied ac adaptor, which also charges the optional NiCad pack. The WFM91 is a natural complement to the popular Tektronix TSG900 series Handheld Test Signal Generators. Together, this generator/monitor set provides a complete, portable system test package.

**NEW**

Features:

- ★ Video waveform, with 1H, 2H, 2F and magnified displays
- ★ Composite vector display, with x5 magnification
- ★ Audio waveform voltage/time display
- ★ High quality TFT colour picture display
- ★ Waveform or vector displays cut into picture\*
- ★ Bright line select display for VITS testing
- ★ Output to external picture monitor
- ★ Battery or ac operation with adaptor
- ★ Headphone output for audio identification and microphone checks
- ★ Rugged package for field operation.

**SIGNAL GENERATOR**

**TSG 95 PAL/NTSC Signal Generator**

**Tektronix**

The TSG 95 is a handheld PAL/NTSC Signal Generator designed for use in installation and maintenance of analog composite video systems. The TSG 95 supports both PAL and NTSC standards. It is a great companion for those verifying microwave links, installing studio or outside broadcast systems, or servicing in the field. Special signals are included for testing FCC baseband video parameters in cable television systems and for verifying television transmitter automatic correction systems. The TSG 95 Signal Generator provides a powerful combination of test signals, ID capabilities, and other features making it a must for the TV engineer's toolbox or workbench. The TSG 95 generator provides 20 user-selected test signals in PAL, 20 in NTSC, and 21 in zero setup Japan

**SPECTRUM ANALYSER**

**TSA250 250MHz Spectrum  
Analyser Adaptor**

**TTI (Thurby-Thandar)**

This adaptor will convert virtually any conventional oscilloscope into a highly cost-effective spectrum analyser. Bandwidth is unimportant and the only requirement is that the oscilloscope has an X-Y mode. The frequency range of the device is 400kHz to 250MHz and the bandwidth (selectivity) is 250kHz. The centre frequency can be adjusted over the full frequency range with direct frequency readout on

a large LCD display. Both scan width and scan rate are fully adjustable.

The amplitude range is -70dBm to 0dBm with good accuracy over the whole amplitude and frequency range. A front panel 'CAL' button allows a calibrated -30dBm 50MHz marker signal to be superimposed for precise amplitude and frequency checks.

Connection to an oscilloscope is via standard BNC cables, with the BNC input of the adaptor a true 50Ω for low VSWR.

This mains powered adaptor is housed in a robust ABS case with full internal screening to meet EMC requirements.

**Specification**

Power requirements: 220/240V or 110/120V AC 50/60Hz

Power consumption: 8VA

Oscilloscope requirements

modes: X-Y mode, DC coupling; bandwidth not critical

X-input sensitivity: 0.5V/div

Y-input sensitivity: 0.5V/div

**Frequency**

Frequency range: At least 400kHz to 250MHz

Centre frequency

adjust: 0MHz to 250MHz

Bandwidth: 250kHz (-6dB)

Meter accuracy: Typically 2% of full range

Calibration marker: 50MHz fundamental, harmonics at

100MHz, 150MHz, 200MHz, 250MHz

Frequency scan width: 10MHz to 250MHz continuously variable (1MHz/div to 25MHz/div)

Scan speed: 0.5ms/div to 5ms/div, variable

**Amplitude**

Input impedance: 50Ω

Amplitude range: -70dBm to 0dBm nominal

Amplitude scale: Logarithmic, 10dB/div

Amplitude linearity: Typically ±1.5dB

Amplitude flatness: Typically ±1.5dB, 1MHz to 250MHz

Maximum input level: +10dBm

Calibration marker: -30dBm ±1dB at 50MHz, harmonics uncalibrated

Dimensions: 260 x 88 x 235mm

## ACCESSORIES

### 60MHz Oscilloscope Probe HP-2060

The HP-2060 is a high-quality passive oscilloscope probe for use with scopes up to 60MHz. The probe is suited to equipment with an input impedance of 1M $\Omega$  shunted by 25pF. However, it is possible to compensate for equipment with an input capacitance in the range 10-35pF. The probe also features a switchable attenuator with X1 and X10 settings as well as a 1.4m flexible screened cable. The probe head can be detached from the cable assembly by unplugging the push-fit BNC connector. Compensation adjustment is available so that the probe does not distort sampled waveforms. Simply apply a 1kHz square waveform to the probe tip and adjust the recessed trimmer concealed in the probe head.

#### Specification

Attenuation Ratio: 1:1, 10:1 switchable  
 Bandwidth: DC to 15MHz (1:1), DC to 60MHz (10:1)  
 Rise time: 27ns (1:1), 5.5ns (10:1)  
 Input resistance: 1M $\Omega$  (i.e. oscilloscope input)  
 1:1 attenuation: 10M $\Omega$  (when used with 1M $\Omega$  input oscilloscopes)  
 Input capacitance: 46pF plus oscilloscope capacitance  
 1:1 attenuation:  $\approx$ 18pF  
 10:1 attenuation:  $\approx$ 18pF  
 Working voltage: 600V DC including peak AC  
 The probe is supplied with two channel identifier clips, a sprung loaded hook, ground lead, insulating tip, IC test tip, operating manual and an adjustment tool for the internal trimmer.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
AG58N	60MHz Scope Probe	£16,260	£7,850	£7,490	£19,110

### Oscilloscope Probe

A very high quality probe suitable for use with almost any oscilloscope. Probe has a slide switch on body for immediate selection of either times 10 or times 1.

#### Specification

Position x1  
 Attenuation: 1:1  
 Bandwidth: DC to 25MHz  
 Rise time: 14ns  
 Input resistance: 1M $\Omega$  (oscilloscope input)  
 Input capacitance: 90pF (+ oscilloscope input)  
 Working voltage: 200V DC including peak AC derating with frequency

#### Position Ref

Probe tip grounded via 9M $\Omega$  resistor

#### Position x10

Attenuation: 10:1  
 Bandwidth: DC to >250MHz  
 Rise time: <1.4ns  
 Compensation range: 10 to 50pF  
 Input resistance: 9M $\Omega$   $\pm$ 1% (10M $\Omega$  when

connected to oscilloscopes with 1M $\Omega$  input)  
 Input capacitance: 16pF  
 Working voltage: 500V DC including peak AC derating with frequency  
 Cable length: 1.2m terminated in BNC plug  
 Working temperature: -25°C to +70°C  
 The probe is supplied with a 1.2m flexible screened lead and 20cm earth lead with crocodile clip. Supplied in a plastic storage wallet with the following accessories: sprung loaded test hook, IC test tip, probe tip, BNC adaptor, insulating tip and compensating tool.

### HCK Isoprobe 10:1 Scope Probe

Multi-Contact

A superbly-made high-bandwidth 10:1 oscilloscope probe, which is fully insulated for safety. The 1.5m lead is terminated in a BNC plug, which also accommodates a trimmer. This is adjusted to match the capacitance of the probe with that of the scope. Full instructions are supplied, together with adjustment tool. If a ground connection is required, the spring-loaded probe shield is pushed upwards to reveal a metal ring. The optional shield grip, which terminates in a crocodile clip, clips onto this. Finished in blue colour.

#### Specification

Frequency range: DC to 250MHz -3dB (with optional shield grip)  
 Input impedance: 10M $\Omega$  (at 1M $\Omega$  scope input)  
 Input capacitance: 15pF (at 25pF scope input)  
 Rise time: 1ms  
 Dielectric strength: 1000V AC/DC (between

screen and outer insulation)  
 Voltage between tip and shield: 1000V AC/DC (at 1MHz)  
 Cable length: 1.5m

Retail Unit Price each (inc. VAT).

DN36P	11 Scope Probe 1.5m Blu	£52,070		£61,190

### Shield Grip

Multi-Contact

Allows ground connection to be made to the scope probe above, for high bandwidth measurements. Insulated with 6.6 polyamide. 90mm lead, terminated in shrouded crocodile clip. Maximum shield potential: 30V AC (60V DC).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT		inc. VAT each
		1+	10+	
DN42V	Shield Grip Probe	£2,540		£2,990

### Isoprobe Plug-On Hook Grip

Multi-Contact

The body of this grip is made from sturdy 6.6 polyamide to provide a high degree of insulation. When the collar is pulled, a spring-loaded copper-beryllium hook is revealed. This will grip wires and pins of up to 1.5mm in diameter. The grip is readily attached or removed, and a special click mechanism prevents accidental detachment.

Retail Unit Price each (inc. VAT).

		1+	10+	
DN38R	Plug-On Grip Probe A	£3,990		£4,690

### Isoprobe Long-Reach Grip

Multi-Contact

This Isoprobe plug-on grip has a pair of steel wire clamps that open and spread when the collar is pulled back. The shaft, which is 50mm long, is insulated with silicone rubber. Difficult-to-access conductors of up to 5mm in diameter can be gripped. The device is readily attached or removed, and a special click mechanism prevents accidental detachment.

Retail Unit Price each (inc. VAT).

DN39N	Plug-On Grip Probe B	£5,350		£6,290

### Isoprobe Plug-On Hook Grip with Shield Grip

Multi-Contact

Intended for use with the Isoprobe, this grip has a spring-loaded copper-beryllium hook of the type fitted to DN38R above. When attached to the scope probe, the inner-shield sleeve of the grip and the shield sleeve of the probe come into contact, so that a very short connection to a ground point can be made, for a large bandwidth. The grip is readily attached or removed, and a special click mechanism prevents accidental detachment. 90mm lead, terminated in shrouded crocodile clip. Maximum shield potential: 30V AC (60V DC)

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN41U	Plug-On Hook Probe	£4.410	£5.190

### Isoprobe Plug-On Probe

Multi-Contact

This probe has been designed for the Isoprobe, so that contact can be made with awkward-to-access test points. The body of the probe covers the whole area between the protection collar and the Isoprobe's tip, for touch protection up to 1000V. The tip is 19mm long, 2mm in diameter and made from turned nickel-plated brass.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN37S	Plug-On Probe Blue	£2.710	£3.190

### Isoprobe Plug-On Jaw Grip

Multi-Contact

Recommended for attaching Isoprobe to thick conductors, this grip consists of a pair of spring-loaded nickel-plated jaws, which are opened when the collar is pulled back. The grip is readily attached or removed, and a special click mechanism prevents accidental detachment.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN40T	Plug-On Grip Probe C	£5.940	£6.990

### Isoprobe Safety Plug Adaptor

Multi-contact

This adaptor, intended for the Isoprobe, contains a 4mm safety cage spring plug on one side, and a sleeve to accept the tip of the scope probe on the other. With this adaptor, a touch-protected connection of up to 1000V between the probe and safety sockets on experimental boards, etc., is possible.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DN43W	Probe Safe Plug Adap	£1.690	£1.990

### BNC Fully Insulated Test Leads

Multi-Contact

Intended for use as extension leads, or for test clips equipped with a BNC plug, these high-quality high-frequency test leads are completely insulated. Even the barrels of the BNC connectors are coated in plastic. Impedance: 50Ω. Length 1m  
Male to Female Black DN35Q  
Male to Female Red DN34M  
Male to Male Red DN32K  
Male to Male Black DN33L

## LOGIC PC TESTING PC A/D CONVERTERS

### PC Based Virtual Instruments

Pico

A range of high performance virtual instruments that allow your PC to be used as an oscilloscope, spectrum analyser, voltmeter or data logger. They are supplied ready to use with either PicoScope software (scope, spectrum, meter) or PicoLog (datalogger). All units connect to the PC's parallel port so can be used on both desktop and laptop PC's. Each unit is targeted at different application areas :

- ADC-10 Low cost A/D converter. Simple oscilloscope.
- ADC-11 Multi channel data logger.
- ADC-100 Audio spectrum analyser. High Speed data logging.
- ADC-200 Digital Storage Oscilloscope. High Speed Spectrum analyser.

In addition the ADC-100 and ADC-200 are a popular choice for automotive work. All units are also supplied with DOS (C.Pascal) and Windows software drivers for users wanting to develop their own software.

### ADC-10 A/D Converter with Oscilloscope, Voltmeter and Spectrum Analyser Software

The ADC-10 provides your PC with a single channel of analog input. Plugging into the parallel port it is completely self contained, requiring no external power and taking up no expansion slots. Input is via a BNC connector allowing standard (x1) scope probes to be used. Software is supplied which allows the device to be used as a single channel oscilloscope (DSO), spectrum analyser and voltmeter. Displayed waveforms can be saved to disk or printed. For users wishing to develop their own software, C, Pascal, Basic and Windows drivers are supplied. Note: the ADC-10 has a 0 to 5V unipolar input range. For use as a general purpose oscilloscope the ADC-100 and ADC-200 are more suitable.

#### Specification

- Input Range: 0 to 5V
- Resolution: 8 bits
- Max sampling rate: 20ksps on 386/33 PC
- Accuracy: 1%
- Overload protection: ±30V
- Input Connector: BNC
- Input impedance: 200kΩ
- Output Connector: 25 Way male D type to PC printer port
- Power Requirements: No power supply required

Retail Unit Price each (inc. VAT).

## ADC-11 Multichannel PC-Based Datalogger

Pico

The ADC-11 together with the supplied software is the ideal solution to multichannel data-logging tasks without spending a fortune. All the electronics necessary to monitor 11 analogue channels has been squeezed into this tiny 65 x 55mm (l x w) unit. Connection to the PC is through the parallel port which also supplies all the power required. The ADC-11 is ideal a wide variety of data logging tasks, such as temperature monitoring, pressure monitoring and plotting battery discharge curves. The supplied PicoLog software is a powerful and flexible data logging package, it allows data to be collected, stored and printed (from 1 sample/ms to 1/day). Scaling options include linear, equation and table lookup. Reports (text or graphs) can be displayed during and after data collection, alarms can be set to indicate if a signal is out of range. Simple setup and operation mean you can be up and running in minutes.

### Specification

Number of i/p channels: 11  
 Number of outputs: 1 (Digital)  
 Input range: 0 to 2.5V  
 Resolution: 10 bits  
 Max sampling rate: 18ksp/s on 386/33 PC  
 Accuracy: 1%  
 Overload protection:  $\pm 30V$   
 Input connector: 25 Way female D type  
 Output connector: 25 Way male D type to PC printer port  
 Power requirements: No power supply required

## ADC-100 PC based Digital Storage Oscilloscope/Data Logger

Pico

The ADC-100 is a high speed data acquisition system for use with an IBM compatible computer. Its high speed (100ksp/s) and high resolution (12 bits) make it ideal for both audio work and as a general purpose test instrument. Its 9 voltage input ranges ( $\pm 50mV$  to  $\pm 20V$ ) enable the unit to connect directly to a wide range of signals. The PicoScope software

(Windows and DOS versions supplied) converts the unit into an oscilloscope, spectrum analyser, voltmeter and frequency meter. PicoLog software (see ADC-11 entry for details) extends the capabilities of the ADC-100 to a high speed data logger. Features include:

**Oscilloscope:** 100 $\mu$ s/div to 50s/div adjustable timebase. Dual trace with X and Y zoom. Advanced triggering; rulers for measurement.

**Spectrum Analyser:** Real time display of amplitude against frequency. Both axis can be linear or log. Signal averaging to reduce noise. Meter displays AC or DC Voltage (autoranging), Frequency and dB. DataLogger see ADC-11 for details

**Meter:** Displays AC or DC voltage (autoranging), frequency and dB.

**DataLogger:** see ADC-11 for details

### Specification

No of i/p channels: 2  
 Resolution: 12 bits  
 Input ranges:  $\pm 20V$ ,  $\pm 10V$ ,  $\pm 5V$ ,  $\pm 2V$ ,  $\pm 1V$ ,  $\pm 500mV$ ,  $\pm 200mV$ ,  $100mV$ ,  $\pm 50mV$   
 AC/DC  
 Input impedance: 1M $\Omega$   
 Max sampling rate: 100ksp/s on 386/33 PC  
 120ksp/s on 486/66 PC  
 Accuracy: 1%  
 Overload protection:  $\pm 100V$   
 Input connectors: BNC  
 Output connector: 25-Way male D-type to PC printer port  
 Power requirements: no power supply required

## ADC-200 PC Based Digital Storage Oscilloscope

Pico

- 50MSPS dual channel storage scope
- 25MHz spectrum analyser
- Multi meter
- Lower cost 20MSPS also available
- Windows and DOS software supplied
- Easy to install and use

The Pico ADC-200 is a high speed virtual instrument designed for use with your PC. Together with PicoScope Software your computer can be used as a 50MSPS Dual channel Digital Storage Oscilloscope (DSO), a spectrum analyser or multimeter. The external trigger connector also doubles up as a simple signal generator.

The ADC-200 simply plugs into the parallel port of your PC, and requires no complicated setting up procedure - just run the software and start measuring. Connection to the parallel port means the ADC-200 can be used with either desktops in the lab, or notebooks in the field. Controlled using the standard Windows user interface (3.1x or Win 95) the software is easy to use with full on line help.

The ADC-200 offers all the usual advantages that storage oscilloscopes have over analogue scopes, but takes thing one step further. By making full use of the Windows environment it is possible to view a signal in several ways simultaneously. The screen shot shows 4 different views of the same input signal. The scope shows the actual waveform, the spectrum and frequency components, and the two meters shows

its AC voltage and frequency. Never before has it been so easy to capture so much information about a signal.

Being a PC based instrument means that the ADC-200 has features as standard that are normally only found on DSO's costing many times the price, such as:

1. FFT Spectrum analyser included
2. Oversampling for noise reduction/resolution enhancement
3. Advanced triggering modes
4. Autorange voltage selection
5. Rulers for amplitude / time measurement
6. Unlimited storage of traces to disk
7. Print to any Windows compatible printer

The spectrum analyser trace shows several features of the software. Button bars provide quick access to the most commonly used features, whilst less often used options are kept out of the way to allow maximum use of the screen for the trace. This is of particular use to people who need to view the screen from a distance, or when several people want to view the signal at once.

The ADC-200 has a much larger memory (8K per channel) than most DSO's. This allows large amounts of data to be collected at high speed. The large amount of memory also allows oversampling which is useful for eliminating aliasing and boosts the resolution when viewing small signals.

As well as its uses as a virtual instrument, the ADC-200 can also be used as a high speed data acquisition / data logging device. C, Pascal and Windows (Visual Basic, Delphi, and Excel) drivers are supplied as standard, so you can easily develop software to automate measurement, test and diagnosis activities.

Two versions are available. The ADC200-50 capable to 50MSPS samples and spectrum analysis of 25MHz, and the ADC200-20 capable to 20MSPS and spectrum analysis to 10MHz. Both units are supplied with cables, power supply and manuals.

### Specification

## PCS32 Mk II Dual Channel Digital Storage PC 'Scope

Velleman

Use your IBM compatible computer as an oscilloscope. This fully aligned and tested unit presents a very good, and economical, way to

convert your computer into a comprehensive piece of test equipment.

The PCS32 Mk II is a digital memory oscilloscope that can be used on an IBM compatible computer. It is operated from the computer using the computer screen as the oscilloscope display. All standard oscilloscope functions are available, as well as a Transient recorder and FFT analysis, from the DQS program supplied. Operation seems like a normal oscilloscope, with the one difference that most operations are performed using the mouse. Connection is via the parallel port of the computer. The PC oscilloscope uses a sampling frequency of 32MHz and can drive up to two completely independent channels. Any waveform on screen can be stored in TIFF format so that it may be later retrieved for use in documentation or for comparison to other waveforms.

This latest version is supplied with manual, PC connecting cable and software. Requires +9V to +12V DC @ 700mA supply to operate. Power supply and probes are not included.

**Demo Disk**

A Digital PC 'Scope Demonstration Disk is available (VF78K), the demonstration software is also downloadable free of charge from the Maplin website, the following URL will take you directly to the correct page of the site:

<http://www.maplin.co.uk/velleman/k7103.htm>

**Software**

Software supplied is DOS-based (requires '86 or better PC) and provides Scope, Spectrum Analyser (FFT) & Transient Recorder functions (software is compatible with Windows™ 3.x and Windows™ 95)

**Windows 95 Software**

Dedicated software for Windows™ 95 is also available (VF87U), as an upgrade, which provides oscilloscope and spectrum analyser functions in an integrated Windows™ 95 environment.

**Oscilloscope Specifications**

Minimum system requirements

- IBM compatible PC
- VGA display
- Free Printer port LPT1
- Mouse
- 400Kb free conventional memory

Technical data

Vertical deflection	
Sensitivity:	10mV to 5V/DIV
Frequency range:	DC to 16MHz
Input impedance:	1MΩ // 30pF
Input coupling:	DC - AC - Gnd
Input voltage:	100V max (DC + peak AC)
Horizontal deflection	
Timebase:	100ns to 100ms/DIV
Triggering	
Trigger mode:	single, automatic or free running
Slope:	positive or negative
Level:	adjustable in steps of 1/2 division
Trigger channel:	channel 1 or channel 2
Digital storage

## LOGIC PROBES & ANALYSERS

### Logic Pulser

A handy and simple to use logic pulser designed to inject pulses directly into logic circuits for powered-up circuit tests and fault finding, suitable for use with TTL, DTL, CMOS and various other kinds of ICs. Using the logic pulser you will not only find wiring errors but other component faults. The pulser is simply powered by direct connection to the circuit's own supply rails using the red and black probe clips attached to the pulser's 580mm long supply cable. The probe generates alternate and very short duration (10µs) positive and negative pulses which can source or sink up to 100mA. As a result the probe can inject pulses into any part of a digital circuit and overcome the output impedance of the previous stage to produce a result, whether the potential at this point is logic high or low, but because of the extremely short duration of the pulse there is only absolute minimum risk of the preceding stage.

Used in conjunction with a logic probe, oscilloscope or similar monitoring instrument, the pulser can be used to 'trace' through a logic system. In order that results can be observed by the human eye using a monostable driven LED indicator or similar the pulse train can be as slow as 0.5 pps (positive or negative), or the rate can be switched to a faster 400 pps. In addition three pins are provided on the outside of the case to which crocodile clips can be attached, providing a square wave output with 50% duty cycle, and a sync pulse input for synchronisation with oscilloscope, signal generator etc. A third pin serves as a common ground for these if required.

**Specification**

Supply voltage max:	20V DC
Nominal supply range:	3 to 15V DC
Sync input impedance:	1MΩ
Pulse repetition rate:	0.5 or 400 pps
Pulse width, 100mA load:	10µs
Pulse polarity:	both 1 positive and 1 negative each cycle
Output current capability:	100mA source or sink, pulse o/p 5mA source or sink, square o/p
Dimensions:	212 x 26.5 x 18mm
Weight:	65g
Supply input overload protected to:	±25V for 15s, pulse output to ±35V for 15s, sync input to ±120V for 15s.

Retail Unit Price each (inc. VAT).

		1+	5+	10+	
YU5RL	Logic Pulser	£14.450	£10.990	£9.950	£16.980

### Logic Probe

A high quality logic probe for use with TTL, DTL and CMOS ICs. The probe has a memory function which can detect the occurrence of single pulses or logic

level. One shot and low repeat rate narrow pulses which are nearly impossible to see even with a fast scope, are easily detectable and visible. The probe has three LEDs, red for high logic level, green for low logic level and yellow for pulse. The intensity of the pulse LED is directly proportional to the duty cycle of the signal observed. All single pulses or pulse trains are recognised from 30ns up to 500ms. The probe is supplied with approx. 500mm lead terminated in a red and black probe clip. In use the red clip should be connected to the positive of the circuit under test, and the black to the negative. When making the connection, the yellow LED may blink once or twice, but if it continues to blink, the power supply has excessive ripple. With the switch in TTL position a +5V supply must be used, but in CMOS position voltage may be between +3V and +18V DC.

**Pulse Detector:** High speed pulse train or single events (+ or - transitions) activate 500ms pulse stretcher. In memory position, first transition lights and latches LED.

**Detection Levels**

Logic Lights LED	DTL/TTL	CMOS
1 Red (Hi)	>2.3V ±0.2V	>70% of V <sub>CC</sub> ±10%
0 Green (Lo)	<0.8V ±0.2V	<30% of V <sub>CC</sub> ±10%
Bad No indication	0.8V to 2.3V	30% to 70% of V <sub>CC</sub>
Detectable Pulse Width:	30ns min	
Input Impedance:	>1MΩ	
Input Signal Frequency:	>17MHz	
Input Overload Protection:	±220V DC/AC for <15s	
Probe Power:	25mA to 40mA at 5V to 15V DC	
Probe Power Protection:	±20V max with lead reversal protection	
Dimensions:	212 x 26.5 x 18mm

### Accessories for Logic Probe

An inset plug on the side of the Logic Probe described above permits the connection of one of two accessories. Approximately 250mm of wire terminated in a socket which connects to plug on side of Logic Probe. A red wire terminated at the other end in a red Probe Clip extends the probe. Or a black wire terminated at the other end with a crocodile clip in a black vinyl sleeve extends the ground connection. Sold separately.

## 32-Channel Logic Analyser

Black Star

Not supplied with board and ribbon cable.

- ★ 32-channels
- ★ 2k x 32-bit word memory
- ★ Non-volatile acquisition and reference memory
- ★ 33MHz internal or external clocks
- ★ Hex, octal, binary formats
- ★ Fully menu driven

An easy-to-use, full function 32-channel Logic Analyser that is operated using menus and function keys with full context sensitive help readily available. 32-channel acquisition is available (33MHz maximum external clock rate) with data capture in single, repeat or condition repeat mode. Single mode will do just one acquisition while repeat mode will keep doing single acquisitions until a comparison between acquisition and reference memories fails (failure parameters are selectable). Two main display modes are available. 'Timing display' allows 8-channels of timing data with selectable resolution from 2048 to 16 locations. This mode will also show cursor and timing bar and one state line in the chosen format. 'State mode' allows six locations to be displayed in 16 selectable formats in combinations of HEX, OCTAL or ASCII. Additionally, this mode has a cursor bar to show the position in memory. It is possible to select a 'compare' mode where difference between the acquisition and reference memory are highlighted. In both modes it is possible to display either the acquisition memory or the reference memory. Triggering is by two full 32-bit trigger words with trigger on either word, and set in either HEX, OCTAL or BINARY. The trigger may be held off so that two clocks are required to recognise any trigger. Also, the trigger may be delayed until the memory is full. A RS232 serial output at a 4800 baud rate is provided for printouts (Epson compatible printer) of timing diagram for 32-channels and 32-bit state.

### Specification

**Display:** 128 x 64 graphics LCD with up to 20 x 8 characters

**Memory:** Full 2k deep non-volatile memory for both acquisition and reference memory on all 32-channels

**Clocks**  
 internal: 100Hz to 33MHz  
 external: 2, DC to 33MHz +/- edge

**Trace:** Full 32-bit trace word, set in either HEX, OCTAL or BINARY

**Inputs:** TTL levels (1.4V) or HC levels (2.5V), 100kΩ input impedance

**Outputs:** Trigger output goes high whenever the first 32-bit trigger word is recognised

**Power:** 110/120V AC or 220/240V AC 12VA

**Size:** 219 x 240 x 98mm

**Weight:** 1.8kg

Supplied with instruction manual, IEC mains lead and spare fuse.

### Optional accessories

The Personality Module provides convenient connection between 5V logic or microprocessor systems and the Logic Analyser via a 0.5m 40-way ribbon cable. Wire wrap pins provide user-configurable inputs. A 40-way IC socket is provided for optional mounting of the target system microprocessor. All inputs are buffered. Solder-on configuration boards are provided for users of 6502 and Z80 microprocessors.

The Communications Pod simplifies monitoring of Centronics, GPIB and RS232 communication buses by the Logic Analyser. RS232, 9-way, 25-way male and female D connectors, two 36-way Centronics connectors, and a 24-way GPIB connector are provided on a single PCB with 0.5m 40-way ribbon cable connection to the Logic Analyser.

A kit of nine (eight channels, one ground) leads approximately 0.3m long with sprung loaded miniature hooks is available. The leads are designed for use with the Logic Analyser and the Personality Module.

## TV/ MONITOR TESTERS

### WFM91 PAL Handheld Waveform/Vector/Audio/Picture Monitor

Tektronix

A handheld, waveform/vector/audio monitor with an integrated colour picture display. This new monitor features low cost and ease of operation, in a rugged, self-contained package suitable for field production and system maintenance applications. The WFM 91 provides, for the first time, the utility of several discrete instruments in one handheld package. Field production can now realise the benefits of composite waveform, vector, and colour picture monitoring for camera setup and timing, and use the same instrument to supervise the program segment. Field service and troubleshooting can be quick, with a complete monitoring instrument easily hand carried to the site. Behind the rack, the studio engineer can have a full service monitoring system where separate monitors would be impractical. Battery operation makes the WFM 91 ideal for portable operation where ac power may not be available. This comprehensive monitor operates from an optional accessory NiCad battery pack or six alkaline C-cells. Where external power is available, the WFM91 operates from either 12 Vdc system power or a supplied ac adaptor, which also charges the optional NiCad pack. The WFM91 is a natural complement to the popular Tektronix TSG900 series Handheld Test Signal Generators. Together, this generator/monitor set provides a complete, portable system test package.

Features:

- ★ Video waveform, with 1H, 2H, 2F and magnified displays
- ★ Composite vector display, with x5 magnification
- ★ Audio waveform voltage/time display
- ★ High quality TFT colour picture display
- ★ Waveform or vector displays cut into picture\*
- ★ Bright line select display for VITS testing
- ★ Output to external picture monitor
- ★ Battery or ac operation with adaptor
- ★ Headphone output for audio identification and microphone checks
- ★ Rugged package for field operation.

### TSG 95 PAL/NTSC Signal Generator

Tektronix

The TSG 95 is a handheld PAL/NTSC Signal Generator designed for use in installation and maintenance of analog composite video systems. The TSG 95 supports both PAL and NTSC standards. It is a great companion for those verifying microwave links, installing studio or outside broadcast systems, or servicing in the field. Special signals are included for testing FCC baseband video parameters in cable television systems and for verifying television transmitter automatic correction systems. The TSG 95 Signal Generator provides a powerful combination of test signals, ID capabilities, and other features making it a must for the TV engineer's toolbox or workbench. The TSG 95 generator provides 20 user-selected test signals in PAL, 20 in NTSC, and 21 in zero setup Japan NTSC.

## TELETEST 2 Test Pattern Generator

Ozan

This compact, hand-held, battery powered test pattern generator provides the most essential audio/video test signals on line and RF outputs. It is suitable for comprehensive testing and servicing of consumer and video equipment, such as TVs, VCRs, camcorders, satellite receivers, Hi-Fi etc. The generator produces six test patterns and a 1kHz test tone, with outputs via standard sockets, so no non-standard cables are required. Housed in a tough plastic box. An optional mains power supply and handy carry case are available separately.

### Specification

Video test patterns: colour bars (75% EBU 100.0.75.0 spec) grey scale; crosshatch with edge castellations; red purity; white purity; black and burst

Video outputs  
composite video: 1V pk-pk 75Ω phono socket  
S-video: 1V pk-pk (Y) 75Ω.  
0.3V pk-pk (C) 75Ω via 4-pin DIN socket

UHF: tuneable chs 32-42, 75Ω co-axial socket  
1kHz pure sine wave

Audio test:  
Audio outputs  
line level: 1V pk-pk, 1kΩ phono socket  
Note: UHF PAL I = 6MHz subcarrier to CCIR specification

Synchronisation: fully interlaced

Line frequency: 15.625kHz  
Sync amplitude: 300mV ±2%

Video reference  
luminance level: 700mV ±2%  
s/c frequency: 4.433619MHz ±4Hz  
burst level: 300mV ±2%  
Power: 9V PP3 alkaline battery or 9V to 12V DC mains adaptor  
Dimensions: 80 x 160 x 135mm  
Weight: 250gms

Retail Unit Price each (inc. VAT).

## TELETEST Tone

Ozan

The TELETEST Tone generates the most essential audio test signals at line output, and is ideal for professional, semi-professional, disco and similar audio equipment. There are four selectable test frequencies available via standard balanced XLR and unbalanced phono sockets. There are three standard reference levels available on the balanced output, each channel being independently adjustable. A stereo ident mode is provided. This rugged, battery powered handheld unit fits into a toolkit or pocket. An optional mains adaptor and carry case are available separately.

### Specification

Sine wave frequencies: 150Hz, 1kHz, 6kHz, 12kHz  
Balanced o/p levels: +4dBu, 0dBu, -50dBu.  
Unbalanced o/p level: 1V pk-pk  
Connectors:  
balanced: 2 x male XLR skts, 600Ω  
unbalanced: 2 x phono skts 1kΩ  
Stereo ident: Left ch. interrupt - ITC spec  
Power requirements: 9V PP3 or mains adaptor  
Dimensions: 80 x 160 x 135mm  
Weight: 250gms

## TELETEST PC

Ozan

The TELETEST PC provides the most essential computer video and sync test signals needed for full servicing and comprehensive testing of personal computer monitors. Six video test signals are available for testing VGA or S-VGA type monitors. The output connector is the same as found on modern computer graphics cards. The PC monitor cable plugs straight into the TELETEST PC without the need for adaptors. This compact and robust unit fits easily into a pocket or toolkit and is ideal for field use. Powered by a 9V PP3 battery - optional mains adaptor and carry case are available separately.

### Specification

Test signals: 100% colour bars; grey-scale; crosshatch; red purity; white purity; black & sync.

Synchronisation  
VGA: 640 x 480 lines, 31.5kHz, 60Hz  
S-VGA: 800 x 600 lines, 32.5kHz, 56Hz  
O/P connector: high density 15-W, D-type

Analogue video outputs  
red: 1V pk-pk 75Ω  
green: 1V pk-pk 75Ω  
blue: 1V pk-pk 75Ω

Sync outputs  
horizontal: TTL 10kΩ  
vertical: TTL, 10kΩ  
Dimensions: 80 x 160 x 135mm

## Video Monitor Tester 1410

Black Star

The 1410 is a microprocessor controlled versatile video monitor tester for aligning and testing computer and TV monitors as well as video projectors. The tester has a comprehensive range of line and field frequencies, and together with a wide range of rear panel outputs, ensures compatibility with the majority of commonly used computer monitors.

A wide range of test patterns can be selected with the selected pattern, system, sync polarity and line/field frequencies detailed on the LCD display.

### Specification

Systems	Line Rate	Field Rate
TV	15.625kHz	50Hz
TV 250 lines	15.625kHz	50Hz
CGA	15.75kHz	60Hz
CGA border	15.75kHz	60Hz

## COMPONENTS & CIRCUIT TESTERS

### Capacitance Meter PG015

An accurate capacitance meter providing measurements over a very wide range. The desired capacitance range is selected by a single rotary switch which also has an 'off' position. A separate rotary control marked '0-ADJ' provides limited adjustment for the more sensitive ranges to counteract stray capacitance. Two jack sockets and a pair of wire lead sockets, marked (+) and (-), are provided for connection to the component being measured. A 3 1/2-digit LCD screen displays the reading, the polarity indicator and the range selected. Also shown is the battery low and range overload indicators. Readings on all ranges are sampled at a rate of two per second. The meter is protected by a quick-blow fuse. Supplied with a pair of test leads, battery and full instruction manual.

### Specification

Test voltage: <3.5V  
Input protection: 0.25A/250V quick-blow fuse  
Zero adjust range: =20pF approx.

(for values of <200nF)  
151 x 70 x 38mm  
200g including battery  
9V PP3 type

Capacitance Range	Resolution	Test Frequency	Accuracy

## LCR Bridge

This instrument will determine the value of resistance, capacitance or inductance of any device connected to it, using a bridge nulling technique. It is fully built and tested. It has six ranges for each function allowing readings to be made (assuming one can read to a tenth of a large division) of 0.1Ω to 1MΩ, 10pF to 100µF, 1µH to 10H.

### Ranges:

Resistance	10Ω, 100Ω, 1kΩ, 10kΩ, 100kΩ, 1MΩ.
Capacitance	1000pF, 0.01µF, 0.1µF, 1µF, 10µF, 100µF.
Inductance	100µH, 1mH, 10mH, 100mH, 1H, 10H.
Accuracy:	±2%
Requires one PP3 battery (not supplied).	

Retail Unit Price each (inc. VAT).

## M195 LCR Meter

An immensely useful inductance, resistance, and capacitance meter which will provide accurate measurements of component values. The value of each component can be read from a 12.7mm (1/2in.) high, 3 1/2-digit LCD display, which includes over-range and low battery indicators. Two sets of red and black test leads are provided; a short set terminates in crocodile clips and a pair of conventional test probes. In addition a two terminal socket on the front panel allows direct connection of a component to the meter. A battery is also supplied, replacement type PP3.

### Specification

**Capacitance Ranges:** 200pF, 2nF, 20nF, 200nF, 2µF, 20µF, 200µF  
**Accuracy:** £0.5µF ±2% ±1 digit  
>0.5µF ±3% ±1 digit  
<5pF  
**Zero error:**  
**Resistance Ranges:** 20Ω, 200Ω, 2kΩ, 20kΩ, 200kΩ, 2MΩ, 20MΩ  
**Accuracy:** <1M ±1% ±1 digit  
>1M ±5% ±1 digit  
<100mΩ  
**Zero error:**  
**Inductance Ranges:** 2mH, 20mH, 200mH, 2H, 20H, 200H  
**Accuracy:** <2mH to 2H ±3%  
>2H to 200H ±5%  
<10µH  
The meter is protected up to 250V AC or DC, instantly or from charged capacitors, to any input terminal.

### Specification

**Capacitance Ranges:** 200pF, 2nF, 20nF, 200nF, 2µF, 20µF, 200µF

**Hand Held Transistor Test**

A transistor tester that will indicate the condition of a PN or NP junction of a semiconductor device whether it be in or out of a circuit. Provided that the circuit equivalent parallel resistance is greater than 330Ω, or the shunt capacitance is less than 47μF, then the tester will determine the integrity of the semiconductor under test. As well as all transistors, diodes, rectifiers, LEDs and SCRs can be tested. The tester uses only two probes, and a flashing LED indicates an operational, open or short circuit junction as well as the polarity. Uses one PP3 style battery (not supplied). Size 120 x 61 x 20mm. Fitted with red and black test leads 850mm long, terminated with probes.

**Resistance Box**

A six decade resistance box ideal for schools, laboratories and industry. The box can simulate resistances from 1Ω to 999, 999Ω in 1Ω steps very accurately. The resistance is set using push-buttons and the value is displayed in ohms. An additional 1kΩ resistor is provided connected between one of the terminals of the internal resistance and a third terminal so that the box can be used as a very accurate potential divider (but ensure that power rating of resistors is not exceeded). A fourth terminal marked 'Screen' enables the metal box to be connected to earth. Outputs are on terminal posts with 4mm top sockets.

**Specification**

Decade 1Ω to 9Ω: 1W, ±1% tolerance  
 Decade 10Ω to 99Ω: 1W, ±0.5% tolerance  
 Decades 100Ω to 999kΩ: 0.5W, ±0.1% tolerance  
 Max switching current: 75mA  
 Max carrying current: 1A  
 Stability: 100ppm/°C  
 The unit is housed in a black and yellow metal box with non-slip feet.  
 Box size: 113 x 71 x 50mm high  
 Overall height: 75mm

## TG200 Series 2MHz Function Generators

**TTI (Thurby-Thandar)**

A range of high quality versatile function generators that will generate a variety of precision waveforms from less than 1Hz to 2MHz. The generators can provide a wide range of controlled amplitudes from a low-impedance source, and maintain a constant amplitude as the frequency is varied. Output levels can be varied from 60mV pk to 20V pk to pk. A variable DC offset of  $\pm 10V$  is available via a centre detent control. An auxiliary output provides a fixed 0V to +5V level that is suitable for driving TTL and CMOS loads. All the generators have an external sweep input. The TG220 and TG230 feature an internal sweep generator with linear and log sweep, variable sweep rate and sweep output socket. Additionally, the TG230 has a digital display for frequency, amplitude and offset.

The generators will provide three very high quality waveforms under all conditions, e.g., a low distortion sinewave, low aberration triangle waveform and fast-edged square waves with low overshoot. Other features include bidirectional variable symmetry, variable DC offset and an external sweep input.

Housed in a heavy-duty ABS case that features an integral multi-position handle which acts as an adjustable tilt stand.

### Specification

Power requirements: 110V/120V or 220V/240V AC  
50/60Hz

Power consumption: 25VA

Frequency range: 0.002Hz to 2MHz in 7 overlapping decade ranges with fine adjustment by a vernier

Vernier range: 1000:1 on each range

Vernier accuracy: Typically  $\pm 5\%$  of full scale. See meter accuracy for TG230

Sinewave distortion: <0.5% on 200, 2k and 20k ranges; less than 1% on 2, 20 and 200k ranges; all harmonics >25dB below fundamental on 2M range.  $\pm 0.2dB$  to 200kHz;  $\pm 1dB$  to 2MHz. Better than 99% to 200kHz

Amplitude flatness: Triangle linearity: Square wave rise and fall times: <100ns

Mark/space ratio: 1:1  $\pm 1\%$  to 100kHz

DC range:  $\pm 10V$  from 50 $\Omega$

Symmetry range: Variable between 1:9 to 9:1 (on top decade of each range), frequency divided by 10

External sweep mode 10k $\Omega$

input impedance: 0 to 3V for 1000:1 sweep

input sensitivity:  $\pm 10V$  maximum

input voltage: Better than 1%

sweep linearity: Slew rate of sweep 0.1V/ $\mu s$  maximum

voltage: Outputs

50 $\Omega$ : Two switch-selectable ranges with 30dB vernier control within each attenuator range

0.6V to 20V pk-pk (0.3V to 10V into 50 $\Omega$ )

0dB range: 60mV to 2V pk-pk (30mV to 1V into 50 $\Omega$ )

-20dB range:  $\pm 10V$  from 50 $\Omega$ . DC offset plus signal

DC offset: Peak limited to  $\pm 10V$  ( $\pm 5V$  into 50 $\Omega$ ) DC offset plus waveform attenuated proportionally in -20dB position

Control range: Fixed 0 to +5V output capable of driving CMOS and 2 standard TTL loads

TTL:

## Model TG210

The TG210 offers all the basic generator functions plus variable DC offset, variable symmetry and external sweep input. Styling is similar to the TG230 but without the digital display.

Retail Unit Price each (inc. VAT).

Order Code	Type 4451	Price each exc. VAT	inc. VAT each
DE99W	TG210 Generator	£161.460	£157.590
AK84F	DE89 Std Calib	£196.450	£230.840
AK85G	DE89 NAMAS Calib	£216.450	£254.340

## Model TG230

The top of the range TG230 includes all the internal sweep functions plus amplitude modulation and a digital display for frequency, amplitude and offset. The modulation can be external or internal (via a 400Hz internal generator) with modulation levels fully variable between 0% to 100%. For the four higher frequency ranges the auto-ranging meter displays frequency to an accuracy of  $\pm 1$  digit. For the three lower frequency ranges the meter changes mode to maintain fast update. This has several advantages, namely that high resolution is provided at all points on the dial within a given range, and a fast update rate is maintained at all times. Additionally, good accuracy is achieved for frequencies as low as 0.1Hz.

### Additional specification

Internal sweep mode

Sweep range: 1000:1 within each range  
Sweep rate: Adjustable, typically 20ms to 20s

Sweep mode: Linear or logarithmic  
Sweep output: 6V ramp from 600 $\Omega$

Amplitude modulation depth: Variable 0 to 100%  
frequency: 400Hz (internal). DC to 100kHz (external)

external sensitivity: Approx. 2V pk-pk for 50% modulation

Meter accuracy frequency:  $\pm 1$  digit on 2k to 2M ranges; better than 1% of full scale on 2 to 200

amplitude: Typically 5% of full scale  
DC offset: Typically 2%

resolution: 0.05% maximum on all ranges (1 in 2000)

update rate: 2 updates per second minimum

## TF830 8-Digit 1-3GHz Universal Counter

**TTI (Thurby-Thandar)**

A universal counter that incorporates a microcontroller and, in addition to frequency measurement, offers period measurement, frequency ratio, pulse width measurement and event counting.

Pulse width measurements can be made from rising to falling edge or vice versa. A reciprocal frequency counting technique is used to achieve high resolutions at all frequencies, and eliminate the  $\pm 1$  input cycle errors that are found on conventional frequency counters.

The counter can be operated from alkaline batteries, rechargeable batteries or AC mains. Low power circuitry is combined with an LCD display to give up to 200 hours of operation from alkaline batteries. The heavy-duty ABS case features an integral multi-position handle which acts as an adjustable tilt stand. Internal metal screening provides excellent shielding against RF interference and ensures compliance with

EMC regulations.

### Specification

Power requirements

AC input: 110/120V AC or 220/240V AC

Power consumption: 8VA

Battery type: 6 'C' size disposable or rechargeable cells 100mA from internal AC or external DC input

Charge current:

## 2MHz Function Generator Jupiter 2010

Black Star

RECENTLY  
INTRODUCED

- ★ 0.2Hz to 2MHz
- ★ Sine, square, triangle, TTL
- ★ Variable DC offset
- ★ 50Ω, 600Ω o/p's
- ★ 20MHz frequency counter
- ★ 4-digit LED readout

A 2MHz full-featured function generator with a microprocessor controlled reciprocal frequency counter that gives 4-digit resolution at all frequencies. At low frequencies the display updates every input signal period, and the high accuracy of 0.01% is maintained at all frequencies.

### Specification

Waveforms: sine, square, triangle TTL  
Frequency: <0.2Hz to >2MHz

Accuracy: <±0.1% determined by frequency counter

Sine distortion: 0.2Hz to 200kHz <1% to 2MHz all harmonics >30dB below fundamentals >90% to 200kHz <80ns

Triangle linearity: >90% to 200kHz  
Square rise time: <80ns  
Square m/s ratio: 1:1 ±1% to 200kHz

TTL: 20 standard TTL loads  
Symmetry range: nom 8:1 on all waveforms  
O/Ps 50Ω/600Ω: 0dB, -20dB, -40dB

switchable attenuation with >30dB vernier control

### O/P level (open circuit)

0 to 20V pk-pk: 0dB  
0 to 2V pk-pk: -20dB  
0 to 0.2V pk-pk: -40dB

DC offset: ±10v from both outputs  
TTL: will drive up to 20 standard TTL loads

### Sweep i/p range

>1000:1: 1k, 10k, 100k, 1M  
>100:1: 100Hz  
>20:1: 10Hz, 1Hz  
>2000:1: with reduced linearity & distortion to 4MHz

### I/P impedance:

9kΩ  
Approx. sweep i/p sensitivity  
10:1 sweep: 17.1V pk-pk  
100:1 sweep: 18.8V pk-pk  
1000:1 sweep: 19V pk-pk  
2000:1 sweep: 19.1V pk-pk

Sweep linearity: <±1%  
Sweep i/p voltage: ±50V max  
Sweep i/p slew rate: 0.1V/μs max

### Frequency counter internal

measurement type: reciprocal, single cycle and multiple period average auto, 1s or 1 period, whichever greater

accuracy: 0.01% ±1 count  
stability: 50ppm -10°C to 50°C

### Frequency counter external

i/p impedance: 1MΩ AC coupled  
-3dB @ 5Hz  
max. input: 100V DC, 250V AC 50Hz derating with frequency

sensitivity AC rms: 25mV <10MHz;  
50mV <25MHz  
frequency: >20MHz

Power requirements: 220V/240V/110V AC 50/60Hz  
Dimensions: 219 x 240 x 98mm  
Weight: 1.9kg

## 1.3GHz Hand-Held Frequency Counter

TTI (Thurby-Thandar)

RECENTLY  
INTRODUCED

A compact, battery-powered, hand-held frequency counter with a performance that exceeds many higher priced bench top counters. Despite its compact size it features a large 8-digit LCD display with a full range of annunciators providing indication of measurement function, measurement time, overflow, trigger activity, low battery and the measurement units.

Operation is simplicity itself with all functions and ranges being selected using just five large buttons. The counter can measure frequencies from 5Hz to 1.3GHz, with high sensitivity across the whole frequency range with no dead spots. A low-pass filter can be selected to reduce high frequency signal noise and ensure stable readings at lower frequencies. Reciprocal frequency counting techniques are used which involves multiple period measurements followed by computation of the reciprocal. This system yields at least 7-digits of resolution per second of measurement time and can measure low frequencies to a resolution of 0.0001MHz. Signals can be displayed in terms of period as an alternative to frequency up to 25MHz. Readings can be 'frozen' for measuring non-continuous signals or recording results later.

**Specification**

	Input A	Input B
Input impedance:	1MΩ/25pF	50Ω
Frequency range:	5Hz to 25MHz	20MHz to 1.3GHz
Resolution:	10-7Hz-10Hz	1Hz-1kHz
Accuracy:	±(1 digit + timebase error)	
Sensitivity:	15mV rms 10Hz-20MHz	10mV rms 20MHz-700MHz 50mV rms above

Max input: 200V DC/250V AC 50Hz-400Hz down to 1V rms above 1MHz  
5Hz to 25MHz

Period: 5Hz to 25MHz  
Accuracy: ±(1 digit + timebase error)  
Timebase initial error: ±2ppm (10MHz crystal)  
temp coeff: <±0.3ppm/°C for 18°C to 28°C  
±10ppm/°C for -20°C to 70°C

Power: 9V PP3 alkaline, 12 hours continuous, or 3000 press-to-measure operations - 6V to 12V DC external.

Size: 81 x 178 x 30mm  
Weight: 190g excluding battery

## 1.3GHz Frequency Counter

Black Star

RECENTLY  
INTRODUCED

- ★ 5Hz to 1.3GHz measurement range
- ★ 7-digit/second resolution
- ★ Bright 8-digit LED display
- ★ 0.1s to 10s measurement time
- ★ Display hold
- ★ Min/max facility

The Black Star model 1325 frequency counter will measure frequencies and period from 5Hz to 1.3GHz. The microprocessor controlled measurement technique gives a fast response and high resolution at all frequencies. The counter can be powered from the mains or internal batteries and is ideal for bench or field use. The bright 8-digit LED display provides excellent visibility in poor light conditions. The low power consumption gives extended battery, typically 200 hours from alkaline batteries (not included - 6 x 'C' cells order code JY47B). Other functions include display hold, min/max and HF reject.

### Specification

	Input A	Input B
Frequency:	5Hz to 25MHz	20MHz to 1.3GHz
Period A:	200ms to 40ns	-----
Sensitivity:	<30mV to 20MHz <35mV to 25MHz	<15mV to 1.3GHz <50mV to 1.3GHz
Impedance:	1M/25pF, AC coup.	50Ω nom.
Input:	30V DC or AC pk	30V DC or AC pk 50/60Hz decreasing to 1V rms >1MHz

### Resolution

Input A Frequency	Digits of resolution vs gate time		
	0.1s	1s	10s
5Hz to 25MHz:	5	6	7
1MHz to 10MHz:	6	7	8
10MHz to 25MHz:	7	8	9

### Input B

20MHz to 100MHz:	5	6	7
100MHz to 1GHz:	6	7	8
1GHz to 1.3GHz:	7	8	9

Note hysteresis is added to all ranges to prevent display flicker.

### Timebase

Frequency: 10MHz  
Stability: ±1ppm  
Temp coeff: ±10ppm from -10°C to +70°C  
Ageing: <5ppm/year  
Int. frequency: 10MHz  
Temp coeff: ±1ppm 0°C to +50°C  
Stability: ±0.2ppm  
Ageing: <1ppm/year

### General

Power requirements: 220/240V AC 50/60Hz

## Counter Module

An electronic Counter Module with 5-digit LCD display. The display increases by 1 every time a positive-going edge is applied to pin 3. A reset is available, and a tone output which can drive a piezo sounder directly and beeps on every count and on reset. Square wave outputs at 512Hz and 32768Hz are also provided.

### Specification

Working voltage: 1.5V DC  
 Current: 2µA standby  
 8µA average when counting  
 Count range: 00000 to 99999 (resets to 00000 after count 99999)  
 Max. input frequency: 7Hz  
 Input voltage range: 1V to 1.5V  
 Min. duration pulse: <100µs  
 Overall size: 68 x 35 x 24mm  
 A plastic bezel (FE35Q) is available for use with this module, size 68 x 35mm and increases the overall depth of the module to 27mm. The module requires a 1.5V AA cell (not supplied).

## BENCH POWER SUPPLIES

### HOBBYISTS

## 30V 2A

A good quality regulated power supply ideal for the hobbyist's work bench. The unit will supply up to 2A at up to 30V, and has a separate ammeter and voltmeter. The ammeter reads 0 to 2.5A and the voltmeter reads 0 to 30V. A rotary control sets the output voltage from 0 to 15V with voltage range switch to the left and 15 to 30V with switch to the right. The output current can be limited to between about 300mA and 2.2A by the rotary control marked 'current'. Three output terminal posts are provided marked '-', 'ground' and '+'. The 'ground' terminal is connected to the chassis and mains earth.

### Specification

Input: 210 to 250V AC  
 Output: 0 to 30V DC in two ranges  
 Current: 0 to 2A  
 Voltage regulation:  
 Load: <0.1% (30mV) for a no load to full load change  
 Line: <0.15% (45mV) for a 10% line voltage change  
 Current regulation:  
 Load: 0.2% max for a 30V DC load voltage change  
 Line: 0.2% max + 3mA for a 10% line voltage change  
 Ripple and noise: <250µV rms  
 Output mode: Automatic crossover between constant voltage and constant current operation  
 Overload protection: By an adjustable electronic current limiting circuit and fuse in AC input

Current limiting: Adjustable from 1% to 110% of rated load current  
 Dimensions: 205 x 100 x 195mm deep

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
XG89W	Bench PSU 2A 30V	£93.600	£109.990

## Triple Power Supply

A cost-effective quality power supply, in a strong galvanized steel case, with two fixed outputs and a 0 to 30V DC output up to 2.5A max. The fixed outputs are of 5 and 12V DC, each with a 0.5A max. rating. Overload and short circuit protection is provided. A separate analogue voltmeter and ammeter display the output settings for the adjustable supply; the voltmeter reading 0 to 30V and the ammeter reading 0 to 2.5A. The output voltage is continuously variable over the range using the 'voltage' control, whilst the current can be limited from 0 to 2.5A using the 'current' control. The two fixed outputs are fed out through 'snap-on' terminals and the variable supply is available at a pair of terminal posts. The various terminals are marked '+', '-' and '-' and coloured red and black respectively.

### Specification

Power requirements: 230V AC/50Hz  
 Variable output: 0 to 30V DC  
 Maximum current: 2.5A  
 Fixed output 1: 5V DC/0.5A max.  
 Fixed output 2: 12V DC/0.5A max.  
 Ripple & noise: 5mV  
 Line regulation: 0.05% + 10mV  
 Load regulation: 0.05% + 10mV  
 Dimensions: 200 x 150 x 145mm  
 Weight: 2.8kg

Retail Unit Price each (inc. VAT).

## PROFESSIONAL

## Single 60V 1A DC Power Supply

Instek

A high quality DC power supply with an output of 0 to 60V DC at up to 1A max. A separate voltmeter and ammeter are provided for monitoring the output. Voltage output is continuously variable over the range with one 'coarse' rotary control, and is accompanied by an additional 'fine' control which can vary output over 10% of the set value. In addition the voltage level can be remote controlled from an external source and the output can be switched to handle continuous or dynamic loads. Current limiting is provided by further 'coarse' and 'fine' rotary controls, and with these the power supply can be forced to leave 'constant voltage' mode and enter 'constant current' mode. Here the output current is maintained for a given setting of the current control by the output voltage being varied to keep the current constant. Power consumption and dissipation is reduced by a multiple level power saving system which selects lower ratios of the main supply transformer secondary automatically if the output falls below the relevant threshold. The output is provided via three (+), (-) and chassis ground front panel screw terminal posts which accept 4mm wander plugs, spade terminals or stripped wires. Includes overload and reverse polarity protection.

### Specification

	CV Mode	CC Mode
Input:	230V AC ±10% 50/60Hz	
Output:	0 to 60V DC	0 to 1A DC

accompanied by an additional 'fine' control which can vary output over 10% of the set value. In addition the voltage level can be remote controlled from an external source and the output can be switched to handle continuous or dynamic loads. Current limiting is provided by further 'coarse' and 'fine' rotary controls, and with these the power supply can be forced to leave 'constant voltage' mode and enter 'constant current' mode. Here the output current is maintained for a given setting of the current control by the output voltage being varied to keep the current constant. A novel feature is a power saving device which selects a lower ratio of the main supply transformer secondary automatically if the output falls below 15V. The output is provided via three (+), (-) and chassis ground front panel screw terminal posts which accept 4mm wander plugs, spade terminals or stripped wires. Includes overload and reverse polarity protection.

**Specification**

	CV Mode	CC Mode
Input:	230V AC ±10%	50/60Hz
Output:	0 to 30V DC	0 to 3A DC
Load regulation:	0.01% +5mV	0.02% +3mA
Line regulation:	0.01% +3mV	0.02% +3mA
Ripple & noise:	0.5mV rms	3mA rms
Dimensions:	128 x 145 x 285mm	
Weight:	5kg	

Retail Unit Price each (inc. VAT).

Order Code	Type 5930	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
GW09L6	PSU 30V 3A Digital	£127.650	£119.000	£112.000	£149.990
AL42V	GW09 Std Calib	£157.650			£185.230
AL41U	GW09 NAMAS Calib	£182.650			£214.610

**Digital Single 30V 3A DC Power Supply**

Instek

A high quality DC power supply providing 0 to 30V DC at up to 3A max. The instrument includes an auto-ranging digital voltmeter (DVM) with front panel LCD display, and which can also function as a digital ammeter, for monitoring voltage or current output as required according to the setting of the front panel VOLTS/AMPS selector switch. Voltage output is continuously variable over the whole range with one 'coarse' rotary control, accompanied by an additional 'fine' control which can vary output over >5% of the set value. In addition the voltage level can be remote controlled from an external source and the output can be switched to handle continuous or dynamic loads. Current limiting is provided by further 'coarse' and 'fine' rotary controls, and with these the power supply can be forced to leave 'constant voltage' mode and enter 'constant current' mode. Here the output current is maintained for a given setting of the current control by the output voltage being varied to keep the current constant. As an aid, green and red front panel LEDs signal either 'CV' (constant voltage) or 'CC' (constant current) mode as active. Power consumption and dissipation is reduced by a multiple level power saving device which selects lower ratios of the main supply transformer secondary automatically if the output falls below the relevant threshold. The output is provided via three (+), (-) and chassis ground front panel screw terminal posts which accept 4mm wander plugs, spade terminals or stripped wires. Includes overload and reverse polarity protection.

**Specification**

	CV Mode	CC Mode
Input:	230V AC ±10%	50/60Hz
Output:	0 to 30V DC	0 to 3A DC
Load regulation:	0.01% +3mV	0.02% +3mA
Line regulation:	0.01% +3mV	0.02% +3mA
Ripple & noise:	0.5mV rms	3mA rms

AL43W	GW10 NAMAS Calib	£233.710			£274.600

**Single 30V 6A DC Power Supply**

Instek

A high quality DC power supply providing 0 to 30V DC at up to 6A max. Separate volt and ammeters are provided for monitoring the output. Voltage output is continuously variable over the range with 'coarse' and 'fine' rotary controls. In addition the output can be switched to handle continuous or dynamic loads. Current limiting is provided by further 'coarse' and 'fine' rotary controls, and with these the power supply can be forced to leave 'constant voltage' mode and enter 'constant current' mode. Here the output current is maintained for a given setting of the current control by the output voltage being varied to keep the current constant. As an aid red and green front panel LEDs signal either 'CV' (constant voltage) or 'CC' (constant current) mode as active. Power consumption and dissipation is kept to a minimum by a multiple level power saving device, which selects lower ratios of the main supply transformer secondary automatically if the output falls below the relevant thresholds. The output is via two front panel screw terminal posts which accept 4mm wander plugs, spade terminals or stripped wires. A similar chassis earth terminal post is also provided. Includes overload and reverse polarity protection.

**Specification**

	CV Mode	CC Mode
Input:	230V AC ±10%	50/60Hz
Output:	0 to 30V DC	0 to 6A DC
Load regulation:	0.01% +5mV	0.02% +3mA
Line regulation:	0.01% +3mV	0.02% +3mA

**Dual Tracking 30V 3A DC Power Supply**

Instek

A high quality DC power supply featuring two 0 to 30V DC outputs, which can operate either as two entirely independent single ended supplies, or be combined in tracking mode to produce equal dual (+) and (-) supply rails, both continuously variable from one single control, with a central commoned rail. Each supply can deliver up to 3A max. in either mode. Separate voltmeters and ammeters are provided for monitoring each output. Voltage output for each independent supply is continuously variable over the range with one rotary control. In addition the output can be switched to handle continuous or dynamic loads. Similarly, current limiting is provided for each by a further rotary control, and with this either supply can be forced to leave 'constant voltage' mode and enter 'constant current' mode. Here the output current is maintained for a given setting of the current control by the output voltage being varied to keep the current constant. As an aid, red and green front panel LEDs for each channel signal either 'CV' (constant voltage) or 'CC' (constant current) mode as active. Power consumption and dissipation is conserved by a dual level power saving device which selects lower ratios of the main supply transformers' secondaries automatically if the outputs fall below the relevant thresholds. Outputs are presented via two pairs of front panel screw terminal posts which accept 4mm wander plugs, spade terminals or stripped wires and include two chassis earth terminal posts. Also provided is one fixed, 5V DC 3A maximum output, regulated supply to TTL logic circuit standard. It is overload and reverse polarity protected and has an overload LED, and the output is available on a pair of 4mm terminal posts on the front panel.

**Specification**

	CV Mode	CC Mode
Input:	230V AC ±10%	50/60Hz
Outputs, each:	0 to 30V DC	0 to 3A DC
Load regulation:	0.01% +3-5mV	0.02% +3mA

## TEMPERATURE / HUMIDITY METERS

### Portable Digital Thermocouple Thermometer

#### Thermal Measurement Systems

A portable digital thermometer for HVAC applications, laboratory temperature control and industrial uses. It has a large 3 1/2-digit LCD display, which can show °C or °F by a push-button selector. Sampling rate is 2 times per second with data-hold function (display shows 'HD' when data held). A variety of remote thermocouple probes can be plugged into the 2-pin input socket. Temperature measuring range is -50°C to +700°C (-60°F to +1300°F), with a resolution of 1°C or °F and cold junction compensation. The case is splashproof and a carrying pouch is included. Powered by two AAA size batteries Probes are not included.

Dimensions: 170(L) x 70(W) x 29.5(H)mm.  
Weight including batteries: 270g.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
RD33L 1	TT338 Thermometer	£63.480	£55.590	£53.040	£74.590

### Food Thermometer

#### Thermal Measurement Systems

A quality instrument with probe specifically intended for measurement of the internal temperature of foodstuffs. In use, the stainless steel probe, with 1.3m of lead attached, is plugged into the top of the instrument (a miniature DIN connector is used) before switching on. If the probe is not plugged in, an error display 'LLL' will appear on the 17mm high LCD. The temperature sensing interval is selectable between 1 second or 10 seconds; normally 10 seconds is the default at power up for continuous measurement to preserve battery life. However 1 second sampling is active by holding down the '1/10 sec' button. A range button alternately selects a

display in °C or °F at each push.

An audible high or low temperature limit alarm can also be set. The alarm is disabled upon power up and both high and low thresholds default to -55°C (-67°F). When the alarm is enabled and the current temperature display increases or falls to reach either limit the alarm will sound for up to 1 minute and the relevant 'HI' or 'LO' symbol will flash in the display. The alarm can be stopped and normal temperature display is resumed by pressing any of the 'ADVANCE', 'ALARM', 'HI' or 'LO' buttons.

#### Specification

Measuring temperature range: -55°C to +148.8°C (-67°F to +299.8°F)

Sensor type: Thermistor

Resolution:  
0.2°C (0.3°F) from -55°C to -49°C (-67°F to -56.2°F)  
0.1°C (0.2°F) from -49°C to 105°C (-56.2°F to 221°F)  
0.2°C (0.3°F) from 105°C to 120°C (221°F to 429.8°F)  
0.3°C (0.5°F) from 129°C to 140°C (264.2°F to 234°F)  
0.4°C (0.7°F) from 140°C to 148.8°C (284°F to 299.8°F)

Accuracy:  
±0.5°C (±1°F) 0°C to 65°C (32°F to 160°F)  
±1°C (±2°F) all other ranges

#### Operating temperature

range of main unit: 0°C to 40°C

Batteries: 2 x AAA size or equivalent.

Battery life:  
3 years approx. if alkaline types used,  
1 1/2 years approx. if heavy duty types used.

Dimensions: 70mm wide x 170mm high x 29.5mm deep

Length of probe: 124mm

Length of handle: 85mm

Accessories supplied include PVC pouch, heavy duty batteries, external sensor probe and instruction manual.

### Hand-Held Thermocouple Probes

#### Thermal Measurement Systems

A range of optional thermocouple probes for various applications and heat ranges. The probes are fitted with lead and connector suitable for use with the digital thermometer RD34M.

HH1 is for surface temperature measurement, having a spring-loaded copper sensing disc and tripod tip to ensure correct alignment. Maximum temperature range is 850°C.

HH4 is a general-purpose mineral insulated immersion probe for use in air, other gases and liquids. Maximum temperature range is 1100°C.

HH6 is a swaged tip probe specifically suitable for food. Maximum temperature, 350°C.

Retail Unit Price each (inc. VAT).

RD38N	HH6 Thermometer Prob	£29.420	£25.500	£22.950	£34.580

### Digital Thermo-Hygrometer

#### Thermal Measurement Systems

A portable digital thermo-hygrometer for HVAC applications, laboratory temperature control and industrial uses, including clean rooms, semiconductor and electronics assembly plants, paper and textile industries, drying rooms and greenhouses. The remote sensor probe has a lead 1m long for easy access into difficult to reach places. The display can simultaneously show both temperature and relative humidity readings, and there is a memory function for recording minimum and maximum readings of both temperature and humidity. Selection of °C or °F display is by push button, and the instrument includes temperature compensation of relative humidity measurement. Measuring range of temperature is -20°C to +50°C (-4°F to +122°F), while the humidity measuring range is 2% to 98% RH with resolutions of 0.1°C (0.1°F) for temperature, and 1% RH for humidity. The unit is powered by two AAA size batteries, and a pouch is included.

Dimensions: 170(H) x 80(W) x 29.5(D)mm.  
Weight including batteries: 250g.

## TIMERS

### MOTOR DRIVEN

#### Run Back Timers

Crouzet

Motor driven run back timers designed for panel mounting applications. These timers feature a graduated setting knob allowing for quick setting and easy identification of remaining run time

#### Features

- ★ Available in single or double pole versions
- ★ 60 minute or 5 hour versions available
- ★ Operating voltage selectable between 115Vac and 230Vac

#### Specification

Operating voltage 115Vac or 230Vac  
 Contact rating 16A (Res), 4A (Inductive)  
 Power consumption 3.1VA  
 Mechanical life >10<sup>7</sup> operations  
 Operating temp -5°C to +70°C

### 4 POLE PLUG IN

#### Miniature On Delay Timers

Crouzet

H. 27mm W. 21mm D. 69mm

On Delay timers with 4 SPDT contacts housed in a compact housing. These timers are designed for mounting into a 14 pin base and are easily set utilising a front mounted analogue dial.

#### Features

- ★ On Delay (Delay on energisation) function
- ★ Simple setting by analogue dial
- ★ Multiple Time Ranges:  
0.1s to 1s, 1s to 10s, 0.1min to 1min, 1min to 10min, 0.1h to 1h, 1h to 10h
- ★ Available in four voltage versions:  
24Vac, 24Vdc, 115Vac & 230Vac
- ★ LED indication of power and relay status

#### Specification

★ UL and CSA approved  
 Operating voltage 24Vdc  
 or 24Vac, 50/60Hz  
 or 115Vac, 50/60Hz  
 or 230Vac, 50/60Hz  
 Contact rating 3A, 250Vac (Res)  
 Reset time (max) 100ms  
 Mechanical life 10<sup>7</sup> operations  
 Operating temperature -20°C to +60°C

### DIN RAIL MOUNTING

#### DIN Rail Mounting Timers

Crouzet

H. 78.5mm W. 22.5mm D. 103.5mm

Electronic timers in a standard 22.5mm wide case for mounting onto 35mm symmetric DIN rail to EN50022 (DIN 46277-3).

#### Features

#### ★ Four types available

- TRA - On Delay (Delay on energisation)
- TRL - Asymmetrical recycler (Cyclic), pulse or pause start
- TRQ - Star Delta
- TRU - Four function timer, including:  
On Delay, On Pulse (Timing on impulse), Off Delay (Timing after impulse) and On Pulse (Timing on energisation or Interval Timer - one shot)

- ★ Multi time range : 1s, 10s, 1m, 10m, 1h & 10h  
For Star Delta (TRQ): 2 sub ranges - 20s & 160s

- ★ Time ranges easily set by a front mounted switch (Two in the case of the TRL, one for pulse and one for pause)

- ★ Multi voltage: 24Vac/dc and 115 to 230Vac
- ★ LED indication of power & relay status
- ★ UL and CSA approved

#### Specification

Operating voltage 24Vac/dc & 115-230Vac, 50/60Hz  
 Contact rating 8A, 250Vac (res)  
 Contact type SPDT, AgCdO

## TIMESWITCHES

### PLUG IN

#### 24-Hour Plug-In Timer

Smiths

Plugging this timer into your existing 13A socket outlet gives automatic control over a 24-hour period to any electrical appliance. Simply plug the appliance that you wish to be controlled, up to 13A resistive or 2A inductive loading, into the 13A socket outlet of the unit and set the time interval. The unit is switchable in 15-minute intervals with a minimum time between settings of 30 minutes. Available singly (RZ81C), or as a twin pack (RZ83E).

Retail Unit Price each (inc. VAT).

Order Code	Type 4437	Price each exc. VAT			inc. VAT each 1+
		1+	10+	25+	
RZ81C	24h Plug-In Timer	£12.750	£11.970	£11.060	£14.990
RZ83E	Twin Pk 24h Timer	£23.820	£20.200	£19.140	£27.990

#### 7-Day Plug-In Timer

This timer can be plugged into your existing 13A socket outlet and gives automatic control of an electrical appliance over a 7-day period. The time controller can switch up to 13A resistive or 2A inductive loads. The minimum time interval is 2 hours with a minimum time between settings of 4 hours. The timer can be extremely useful as a security device turning on such appliances as radios and table lamps to give a potential intruder an impression that your home is occupied.

Retail Unit Price each (inc. VAT).

		1+	10+	25+	
RZ82D	7 Day Plug In Timer	£14.450	£12.470	£11.720	£16.990

#### 24-Hour Segment Timeswitch

Smiths-Timeguard

- ★ Simple to program & operate
- ★ Plug in control for all 13A appliances and lamps
- ★ Switches on and off at preset times.
- ★ Manual override.

Easily set by its captive segment dial this 24Hour plug in time controller will automatically switch appliances On and Off at preset times during the day over a 24-hour cycle. With a minimum On/Off switching of 15 minutes the unit can switch up to 96 times per day. You can switch your appliance On and Off at any time by using the self cancelling switching rider on the top left of the unit. Rated at 240V AC 50Hz.

Retail Unit Price each (inc. VAT).

Order Code	Type 12819	Price each exc. VAT			inc. VAT each 1+
		1+	5+	10+	
VJ58N	24Hr Segment Timer	£12.750	£12.130	£11.400	£14.990

## 7-Day Segment Time Switch

Smiths-Timeguard

- ★ Simple to program and operate.
- ★ Plug in Control for all 13amp appliances and lamps.
- ★ Switches on and off at preset times up to 12 times each day.
- ★ Manual override.

This 7-day Segment Timeswitch has all the benefits and features of the 24-hour Timeswitch (VJ58) but has a minimum On/Off switching time of 2 hours and can switch a maximum of 12 times a day. Rated at 240V AC 50Hz.

Retail Unit Price each (inc. VAT).

## 24-Hour Slimline Digital Timer

This timer is a slimline digital controller that can be plugged straight into your existing 13A socket outlet and can be programmed to switch loads of up to 13A resistive or 2A inductive. The timer can switch up to 4 ON/OFF programmes per day, with a minimum of 1 minute between switch settings, each of which can be manually overridden. The override function is cancelled at the next automatic ON or OFF switching time. The unit has a back up battery in order that timing is kept accurately, even during a power cut.

Retail Unit Price each (inc. VAT).

## 7-Day Slimline Digital Timer

Smiths-Timeguard

This 7 Day Slimline Digital Timer has all the benefits and features of the 24Hour version - RZ84F- plus individual day, everyday, weekday or weekend programme selections.

Six programmes are available which if selected to operate over all 7 days give a total of 42 switchings per week.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
VJ63T	7Day Digital Timer	£19.560	£18.800	£17.750	£22.990

## SURFACE MOUNT

## Single Gang Fused Spur Timeswitch

Smiths Timeguard

A fused spur timeswitch with double pole contacts that is built in to a single gang surface mount housing. The timeswitch is ideal for controlling combination boilers, storage heaters, convector heaters, water heaters and lighting. Conforms to 73/23/EEC and 89/336/EEC directives. Available in two versions.

**MB01B** is a 24 hour model with 4 ON/OFF programmes per day.

**MB02C** is a 7 day model with 6 ON/OFF programmes per day. Additionally, there is individual day, everyday or weekend programme selections. This allows up to 42 settings per week.

- ★ Switched and switched timed outputs
- ★ Integral BEAB approved double pole switch and replaceable BS1362 fuse
- ★ Simple two button programming - one recessed
- ★ Front button override facility
- ★ 1000 hours memory back-up from fitted rechargeable battery in case of supply loss or fuse blow

- ★ Minimum switching period of one minute
- ★ Voltage free contacts

### Specification

Operating voltage: 220/240V AC 50Hz  
 Switch rating (240V AC): 6A inductive  
 13A resistive (3kW)  
 Operating temperature: -10°C to +40°C  
 Dimensions: 85 x 85 x 38mm

Retail Unit Price each (inc. VAT).

## Central Heating Mini Programmer

Smiths Timeguard

This electronic mini programmer is suitable for fully pumped or gravity fed central heating systems, and conveniently fits onto a single gang 25mm deep wall box. Conforms to 73/23/EEC and 89/336/EEC directives. Available in two versions.

**MB03D** is a 24 hour model with up to 4 ON/OFF programmes per day.

**MB04E** is a 7 day model with individual day, everyday, every weekday or weekend programme selection with a total of 6 programmes.

- ★ Integral BEAB approved double pole switch and replaceable BS1362 fuse
- ★ Front button override facility
- ★ 1000 hours memory back-up from fitted rechargeable battery in case of supply loss or fuse blow

- ★ Minimum switching period of one minute

### Specification

Operating voltage: 220/240V AC 50Hz  
 Switch rating (240V AC): 3A inductive  
 Operating temperature: -10°C to +40°C  
 Dimensions: 85 x 85 x 38mm

## 24-Hour 20A Electro-Mechanical Time Controller

Smiths Timeguard

This plug-in base surface mount electro-mechanical timer has an 'analogue' type time display, and will control all electrical equipment up to 20A (resistive). Easily set by the captive segment setting dial, the unit has a maximum of 96 switchings per day. Conforms to 73/23/EEC and 89/336/EEC directives.

- ★ Synchronous motor driven
- ★ Manual override
- ★ Permanent ON/OFF
- ★ 15 minute minimum switching interval which can be increased in 15 minute steps

- ★ 12A inductive rating
- ★ Controls electrical appliances up to 4.8kW
- ★ 72 x 72mm plug-in base surface mount
- ★ Tamper proof transparent cover

### Specification

Operating voltage: 230V ac 50Hz  
 Contact rating: 20A resistive  
 12A inductive  
 Operating temperature: -10°C to +40°C  
 Dimensions: 104 x 72 x 69mm

Retail Unit Price each (inc. VAT).

## 7-Day Electronic Time Controller

Smiths Timeguard

**NEW**

This versatile digital time controller features 7-day programme selections plus holiday suspension of programmes. Easy to use 6-button programming and 1000 hours rechargeable memory back-up allow ultimate control of electrical and electronic appliances. The controller is supplied with a transparent cover to discourage tamper and reduce dust ingress. Conforms to 73/23/EEC and 89/336/EEC directives.

- ★ 72 x 72mm plug-in base surface mount
- ★ 21 ON/OFF commands per week
- ★ Shortest switching time 1 minute
- ★ Manual override and permanently ON/OFF
- ★ ON/OFF times may be repeated over a number of days without using extra memory locations

★ Voltage free contacts

### Specification

Operating voltage: 230V ac 50Hz  
 Contact rating: 16A resistive (3.8kW)  
 6A inductive  
 Operating temperature: -10°C to +40°C  
 Dimensions: 104 x 72 x 69mm

Retail Unit Price each (inc. VAT).

Order Code	Type 17211	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
MB09K	24 Hour Timeswitch	£15.430	£14.670	£13.900	£18.140

MB11M	Power & Relay PCB	£11.960	£11.360	£10.760	£14.060

## PANEL MOUNT

## Electronic Timer Module and Power/Relay PCB

Smiths Timeguard

**NEW**

An electronic timer module for applications in equipment and appliances requiring accurate cost effective time control. The module is housed in an easy fit 72 x 72mm panel mount case giving permanent ON/permanent OFF/ timed selection. It can be mounted in an enclosure or cubicle, and the module can, if required, be built directly in to equipment. The module has a factory fitted rechargeable battery for memory back-up (1000 hours), and requires a 24V DC supply for charging. Available in two versions. MB09K is a 24-hour version. MB10L is a 7-day version with individual day, everyday, every weekday or weekend programme selection.

- ★ 24-hour model has up to 4 ON/OFF programmes per day
- ★ 7-day model has up to 6 ON/OFF programmes per day
- ★ Simple two button programming
- ★ Shortest switch time 1 minute
- ★ Self-cancelling override
- ★ Power/relay PCB will switch up to 16A resistive load

A power supply and relay PCB (MB11M) designed for use with MB09K and MB10L is available separately. It operates from the 230V ac mains and produces the required charge current for the module battery. In addition, it provides single-pole changeover, voltage free contacts. All connections are via 6.35mm/0.25in blades.

### Specification

Operating voltage  
 timer module: 24V dc and above  
 power/relay PCB: 230V ac 50Hz  
 Switch rating of power/relay PCB  
 resistive: 16A  
 inductive: 6A  
 Operating temperature  
 timer module: -10°C to 55°C  
 power/relay PCB: -10°C to 40°C  
 Dimensions  
 timer module: 39 x 55 x 33mm  
 housing: 72 x 72 x 34mm  
 power/relay PCB: 54 x 54 x 14mm  
 Modules and power/relay PCB conform to 72/23/EEC and 89/336/EEC directives.

## DIN RAIL MOUNT

## Staircase Timeswitch For DIN Rail Mounting

Theben

**NEW**

A 16A delay timeswitch for staircase lighting that has an ON time adjustable from 1 to 7 minutes in 15 second steps. The timer comes in a standard one module wide housing (45 x 17.5 x 68mm), and is designed to snap-on fit a standard 35mm 'top-hat' rail (DIN EN50022).

- ★ Can switch up to 2000W of incandescent or fluorescent lighting
- ★ Permanent ON switching
- ★ Very reliable synchronous motor drive
- ★ Simple to set with direct indication of delay time

### Specification

Operating voltage: 230V ac 50Hz  
 Switching capacity: 16A  
 2000W for incandescent, fluorescent lamps  
 resettable after 30s approx.  
 Switching: Operating temperature: -10°C to +50°C

## 7-Day Tappet Timeswitch With Power Reserve For DIN Rail Mounting

Theben

**NEW**

This 16A, 7-day tappet dial timeswitch comes with a 150 hour power reserve, and a summer/winter changeover switch. Additionally, there is a manual override switch to the next programme. The timer comes in a standard three module wide housing (45 x 52.5 x 60mm), and is designed to snap-on fit a standard 35mm 'top-hat' rail (DIN EN50022).

- ★ 4 hour switching minimum interval which can be increased in 1 hour steps.
- ★ Manual override switch to next programme
- ★ Permanent ON/OFF switching
- ★ Summer/winter changeover switch

### Specification

Operating voltage: 230V ac 50Hz  
 Switch rating  
 cosφ=1: 16A  
 cosφ=0.6: 2A  
 Accuracy: ±1 sec/day at 20°C

## 24-Hour Segment Timeswitch For DIN Rail Mounting - 1 Module Wide

Theben

**NEW**

- ★ Easy to programme with captive segment setting
- ★ 24-hour with up to 96 ON/OFF's per day
- ★ 15 minute minimum switching interval which can be increased in 15 minute steps
- ★ Switching status indicator
- ★ Permanent ON switching

### Specification

Operating voltage: 230V ac 50Hz  
 Switch rating  
 cosφ=1: 16A

**24-Hour 16A Segment  
Timeswitch For DIN Rail  
Mounting - 3 Module Wide**

Theben

A 16A timeswitch with 24-hour segment dial that has a transparent tamper proof cover to protect against undesired programming intervention. Additionally, there is a summer/winter changeover switch and early manual override switching for ON/OFF without affecting the programme sequence. The timer comes in a standard three module wide housing (45 x 52.5 x 60mm), and is designed to snap-on fit a standard 35mm 'top-hat' rail (DIN EN50022).

- ★ Easy to programme with captive segment setting
- ★ 24-hour with up to 48 ON/OFF's per day
- ★ 30 minute minimum switching interval which can be increased in 30 minute steps
- ★ Manual override switch to next programme
- ★ Permanent ON/OFF switching
- ★ Summer/winter changeover switch

**Specification**  
Operating voltage: 230V ac 50Hz

**24-Hour/7-Day 10A  
Timeswitch For DIN Rail  
Mounting**

Theben

A one channel, 10A, digital timeswitch with 8 memories for 4 ON and 4 OFF switching times. The timer features a built-in gold capacitor that provides approximately 78 hours of power reserve, and a holiday control that can interrupt the programmes for up to 45 days. The timer comes in a standard one module wide housing (45 x 17.5 x 60mm), and is designed to snap-on fit a standard 35mm 'top-hat' rail (DIN EN50022).

- ★ Easy to programme
- ★ 4 ON/OFF programmes
- ★ Minimum switching time 1 minute
- ★ 78 hours power reserve
- ★ 24 hour/7 day or several day 'free block' programming
- ★ Permanent ON/OFF switching
- ★ Override to next programme

**24-Hour/7-Day 16A  
Timeswitch For DIN Rail  
Mounting**

Theben

A 16A, digital timeswitch with preset UK time and automatic summer/winter changeover that is suitable for UK, European and USA standards. The timer features an integral Lithium cell power reserve with a 6 year life, and a holiday control that can interrupt the programmes for up to 99 days. The timer comes in a standard two module wide housing (45 x 35 x 60mm), and is designed to snap-on fit a standard 35mm 'top-hat' rail (DIN EN50022).

Available in two versions  
**MB14Q** is a single channel version with 7 ON/OFF programmes  
**MB15R** is a two channel version with 18 ON/OFF programmes which can be distributed as required over the two channels.

- ★ Easy to programme
- ★ Single channel version has 7 ON/OFF programmes
- ★ Dual channel version has 18 ON/OFF programmes
- ★ Minimum switching time 1 minute
- ★ Integral Lithium cell power reserve with 6 years life
- ★ 24 hour/7 day or several day 'free block' programming
- ★ Permanent ON/OFF switching
- ★ Override to next programme

**Dusk-to-Dawn Switch For DIN  
Rail Mounting**

Theben

This dusk-to-dawn switch is ideal for the control of display lighting systems and external lighting systems i.e streets, car parks, drives etc. Supplied with a separate surface mount light sensor. The switch comes in a standard two module wide housing (45 x 35 x 60mm), and is designed to snap-on fit a standard 35mm 'top-hat' rail (DIN EN50022).

- ★ Adjustable brightness between 2 and 200 Lux
- ★ 40 second built-in delay to prevent nuisance switching
- ★ 10A switching capacity

**Specification**  
Operating voltage: 230V ac 50Hz  
Switch rating

**IMMERSION HEATER**

**24-Hour Segment Immersion  
Heater Timer Controller**

Smiths Timeguard

Economical and convenient to use, this controller has been specially designed for easy installation with both new and existing immersion heater systems. The controller has a captive segment setting dial with a 15 minute minimum switching interval which can be increased in 15 minute steps. Conforms to 73/23/EEC and 89/336/EEC directives.  
★ Switches ON and OFF at preset times  
★ Easy setting captive segment dial  
★ 15 minute minimum switching interval  
★ Integral thermal fuse for extra protection  
★ Manual override

## Electronic Immersion Heater Time Controller'

Smiths-Timeguard

This timer has the facility to be used permanently on, permanently off or with timed programmes. Its 24 hour digital clock/timer display enables a shortest switching time of 1 minute. An integral memory back up battery retains programmes in the event of a power failure. Two versions available.

VJ61R - is a 24 - hour version  
MB05F - is a 7- day version with individual day, everyday, every weekday or weekend programme selections for six programmes  
Conforms to 73/23/EEC and 89/336/EEC directives.

- ★ **Easily Programmable - 2 button system.**
- ★ **24-hour model has 4 ON/OFF**
- ★ **7-day model has up to 6 ON/OFF switching programmes every 24 Hours.**
- ★ **Shortest switching time of 1 minute**
- ★ **24-hour model has 1 or 2 hour boost facility**
- ★ **Integral thermal fuse for extra protection**
- ★ **Self cancelling override for instant ON/OFF control**

## CLOCKS

### ANALOGUE

## 12/24Hr Analogue Wall Clock

Smiths-Timeguard

This smartly styled analogue wall clock is ideal for home or office and features dual 12/24 hour 224mm (approx. 9in.) diameter white dial with contrasting red/black numerals and hands. Movement is powered by a single alkaline 'AA' cell (JY48C, not included) and is quartz crystal controlled for accuracy. This quality brand-name product, manufactured by the respected Smiths company, has a three-year guarantee.

## DIGITAL

## Digital Clock with MSF Decoder

An ingenious, very accurate, digital alarm clock that incorporates a radio receiver tuned to the MSF time-code transmitter at Rugby. An internal quartz oscillator keeps the clock running should the MSF reception be lost, or goes out of range. The clock has an alarm with 'snooze', and a backlight which is operated by a switch on the side.

Setting the clock is very simple. A thumb-wheel on the rear of the clock is used to set the hour and minute hand to the top of the current hour (e.g., if the current time is 7:45, then the hour hand is set to 7 and the minute hand to 12). Two 'AA' batteries (not supplied) are inserted and the 'SNOOZE' button is pressed until the seconds hand reaches the top of the minute. After approximately 2 minutes the clock hands will automatically adjust to the correct time.

Housed in an attractive black case measuring 88 x 98 x 56mm, the clock requires two 'AA' batteries (JY48C) to operate.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BM77J	Digital MSF Att. Clk	£24.290	£28.850

DR60Q	Car Clock/Calendar	£4.240	£4.999

**MOVEMENTS & MODULES**

**Wireless Clock Module**

A compact analogue clock movement that incorporates a miniature radio receiver to decode the Rugby MSF time-code transmissions. Once locked to the transmission, the module is extremely accurate. Supplied with hour, minute and second hands. Finished in black. Requires one 'AA' battery (not supplied). Dimensions of module (not including hands) 55 x 55 x 17.5mm.

Overall length of hands  
hour: 77mm  
minutes: 120mm  
seconds: 120mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RJ69W	Wireless Clock Module	£21.290 £16.580 £15.300	£24.990

**Quartz Clock Movement**

A standard basic quartz clock movement as described above. The movement is supplied without hands but uses the separate hands shown on the next page. Time is set with a knob on the back. Movement is attached to face with a threaded brass boss having a shouldered brass collar nut.

**Specification**

Crystal freq: 32.768kHz  
Accuracy @ 22°C: ±0.45 ±0.55s/day  
Operating voltage: 1.3 - 1.65V DC  
Operating temperature: -10°C to +60°C  
Average current: <150µA @ 1.5V  
Battery life: ≥1 year  
Dimensions: 55 x 55 x 17mm not including mounting boss and hand pivots.  
Mounting boss: 8mm dia. clear  
Hole dia. for collar: 10mm dia. clear

YU76H	Clock Hands Type 3	£0.255 £0.163 £0.143	£0.300

**Table Alarm Clock Movement**

As standard quartz movement above but including an alarm function, and a special set of four hands, one of which is a set alarm time indicator. The alarm sounds where the hour hand aligns with the alarm set hand. Separate set time and set alarm knobs are provided on the back with an alarm on/off switch. The separate hands below will not fit this movement as the mounting pivots are of different diameter. Also unlike standard movement, alarm version has no central mounting boss and instead is provided with two mounting holes through the case; fixing centres 49mm x 8BA/M2 clear.

**Specification**

As those for standard movement except -  
Operating voltage: 1.3 to 1.7V DC  
Operating current: <85µA @ 1.5V  
Alarm current: <8mA @ 1.5V  
Alarm volume: >80dB @ 10cm  
Alarm duration: 35 min. ±20 min.  
Alarm time accuracy: ±5 min.  
Operating temperature: -10°C to +50°C  
Dimensions: 52 x 55 x 23mm not including hand pivots.

YU67X	Alarm Clock Module	£4.240	£4.990

**Small Clock Module FM-882**

A compact digital clock module that uses a quartz crystal to provide an accuracy of ±15 seconds per month. Four digits show hours and minutes for a 12 hour period with AM and PM indicators. Operates from one GE-13 silver oxide button cell (FM28F) and draws a maximum of 5.5µA, which results in a battery life of approximately one year. The clock has an integral flanged bezel and can be snapped into a panel cut-out of 50 x 25mm. Makes an ideal small, low-cost and accurate digital clock suitable for a wide range of applications.

**Specification**  
Digit height: 10mm  
Oscillator frequency: 32.768kHz

## Digital Quartz Stopwatch

- ★ High accuracy quartz design
- ★ Large three row display
- ★ Memory function - stores 30 measurements
- ★ Split time/Lap time measurement
- ★ Count-down/up timer - 9 hrs/59 mins/59 secs
- ★ Pacer function - adjustable 5 to 240 counts/min
- ★ Water resistant

A full function, quartz controlled, stopwatch with a highly visible three row display that fits comfortably in the hand and is water resistant. The stopwatch can measure up to 10 hours in 1/100 seconds and up to 999 split/lap times. Total elapsed time, split time and lap time can be displayed simultaneously in the three row display, and they can be measured successively without releasing split or lap time measurement. The memory function can store up to 30 split times, 30 lap times and the total elapsed time, and in addition, the slowest lap and the average lap can be recalled. When not in stopwatch mode the display will show year, month, date, hour, minutes and seconds. Supplied with neck strap. Overall dimensions of stopwatch: 82 x 62 x 22mm approx.

Retail Unit Price each (inc. VAT).

MG06J	Stopwatch 30 Laps	£20.410	£23.950

## BENCH MOUNTED

## Count-Down Timer

A simple count-down liquid crystal display (LCD) timer that counts in minutes and seconds. Three buttons below the LCD provide control of the 'Minutes', 'Seconds', 'Clear', 'Start/Stop' and 'Memory'. During count-down, the two legends 'M' and 'S' flash 'on' and 'off'. Completion of the count-down is indicated by an alarm that starts when the count-down has finished and the display reads zero. The alarm, which can last as long as 30 seconds, is stopped by pressing the 'Start/Stop' button. This will also cause the display to show the original time setting. The count-down can be repeated again using the original setting or either be cleared or a new time set in. Simultaneously pressing the 'Min' and 'Sec' buttons clears the display and the memory. A short bleep is emitted when any button is pressed and when the digits are scrolled up in fast mode. A spring loaded

belt clip, which incorporates a magnet, is fixed to the back of the timer. The instructions for standing the product upright appear on the back of the packaging.

**Specification**

Digits - minutes: 19mm  
seconds: 14mm  
Unit dimensions: 62 x 62 x 26mm  
Operational current: 4µA while counting (no alarm sounding)  
99 mins 59 secs  
Set time (max): 99 mins 59 secs  
Power supply: One 'AAA' battery

**Bench Stopwatch with Remote Facility**

- ★ Large visible display
- ★ Solid construction for laboratory/bench use
- ★ 4mm sockets for remote operation

This solidly constructed stopwatch has a large visible angled display for laboratory/bench use and will measure up to 9 hours, 59 mins, 59secs with a 1/100 sec accuracy. Three large colour-coded push-buttons are used to operate the stopwatch. Alternatively, the functions can be remotely operated using three 4mm sockets - the red socket mirrors the split/lap/reset button and the green socket mirrors the start/stop button. The black socket provides the neutral/return path. The stopwatch requires 1 x 'AA' alkaline battery, and measures approximately 120 x 95 x 48mm.

**WATCHES**

**Learning TV & VCR Remote Control Watch**

Casio

**Features**

- TV & VCR remote control:  
TV - Power On/Off, Volume, Channel +/-  
VCR - Power On/Off, Play, Stop, Rewind,

F/Forward, Channel +/-

- Pre-programmed with major manufacturers codes
- Learns codes from other infra-red remote controls
- 5 metre effective operating distance
- 8-digit calculator
- Daily alarm and hourly time signal
- 1/100<sup>TH</sup> Second stopwatch

The Learning TV & VCR Remote Control Watch from Casio is the world's first wrist-watch that actually 'learns' how to control your TV, VCR and many other devices that use an infra-red remote control. It will control the majority of remote control televisions and video cassette recorders that are currently available.

This watch can also, in most cases, 'learn' the codes of other manufacturers equipment not listed below and also those codes for satellite and audio equipment which have infra-red remote control.

Compatible with the following manufacturer's TV/VCR products:

Akai, Ferguson, Goldstar, Grundig, Hitachi, JVC, Mitsubishi, NEC, Nokia, Panasonic, Philips, Pioneer, Samsung, Sanyo, Sharp, Sony, Telefunken, Toshiba.

**Telememo 50 World-Time Data-Bank Watch**

Casio

**Features**

- Electroluminescent (EL) display back-light
- 50 Telememo/schedule pages with 8 letters and 12 numerals capacity per page
- Memo page with 22 letters capacity
- World time - 24 time-zones
- Multi-function alarm
- Count-down timer - 1 second to 24 hours
- 1/100<sup>TH</sup> Second stop-watch
- Water-resistant to 50 metres

The Telememo 50 from Casio has a built-in telephone directory, keeping those important telephone numbers at your fingertips, whilst also being able to store appointments on a diary basis.

A handy reminder feature can display a message on the display or can advise you of an event when an alarm time is reached.

## Pro-Trek Triple Sensor Watch

Casio

### Features

- Compass, altimeter, thermometer and watch all in one!
  - Electroluminescent (EL) backlit display with auto light switch
  - 16-Point digital compass
  - 5 Measurement data memories
  - Abnormal magnetic field detect function
  - Bi-directional calibration & northerly calibration functions
  - Altimeter - up to 4,000m
  - Auto memory function - up to 50 sets of measurements with altitude, temperature, month, date and time
  - Target altitude alarm
  - Altitude frequency graph
  - Display in metres and feet
  - Barometer - 610Hpa to 1,100Hpa
  - Barometric pressure graph
  - Display in Hpa and inHg
  - Thermometer -10°C to +60°C
  - Display in °C and °F
  - Daily alarm
  - 1/100<sup>TH</sup> Second stopwatch
  - Water resistant to 100m
- The incredible Pro-Trek Triple Sensor watch from Casio features an electronic direction sensor, barometric pressure sensor and temperature sensor, making this the ultimate outdoor watch. The electroluminescent backlight features an Auto Light mode, which turns the backlight on whenever you turn the watch towards your face - without pressing any buttons - great for night-time walking.

## Exercise Pulse Monitor

Casio

### Features

- Pulse measurement mode - 2 minute consecutive pulse measurements - range 30 to 199 bpm
- 3 Data memories for storing pulse, pulse measurement data, measurement start time, measurement time, aerobic zone and intensity level
- Intensity gauge
- 1/100<sup>th</sup> Second stopwatch
- Daily alarm
- Countdown alarm - 1s to 10hrs
- Water resistant to 50m

This superb Exercise Pulse Monitor Watch from Casio is designed for those who are serious about fitness.

By simply programming the watch with the relevant data, i.e. age, the watch measures your pulse, and displays your optimal aerobic range. An 'intensity' gauge even indicates the intensity of the activity you are performing. Additionally, there are three sets of 7 measurement data memories.

The watch has the usual timekeeping functions, i.e. hours, minutes, seconds, month, date and day, and automatically determines and sets the number of odd or even days in the month. The time display can be set to show the time in either the 12 or 24-hour format.

A daily alarm can be set to provide a gentle reminder at the same time every day, and time signals can be set to 'beep' on the hour.

## VHR Alpha Heart Rate Wrist Watch

Vetta

- ★ Simple and accurate
- ★ Programmable with upper and lower limits
- ★ Large, clear display

- ★ Real-time clock
- ★ Stopwatch
- ★ Training zone limit indicators

The VHR Alpha Heart Rate wrist watch is a sophisticated, user friendly training tool with a large, high contrast two line LCD displaying heart rate at all times. The transmitter straps across the chest for accurate measurement of heart rate, then a signal relays this information to the wrist watch. Allows you to program your Training Target Zone, and continually monitor your progress. Accuracy is assured with the ECG accurate Integrated Processing Circuit, which eliminates background muscle noise with a sophisticated mathematical algorithm. Supplied with full operating instructions and batteries.

## VHR 50 - Cross Trainer Heart Rate Cycling Computer and Wrist Watch

Vetta

- ★ Pulse rate display
- ★ Training limit programmable
- ★ Training zone memory and alert
- ★ Speed/average speed/maximum speed display
- ★ Auto timer stopwatch
- ★ Trip distance
- ★ Odometer
- ★ Real-time clock
- ★ Cycle mounting bracket supplied

The ideal cross training tool for the multi-sport athlete, combining a Heart Rate Cycling Computer and Heart Rate Wrist Watch. Two distinct modes of operation exist, the Cycling Modes and Wrist Watch Modes, selected by pressing a single button. When in cycling mode, the display can be scrolled through Speed, Pulse, Distance and Automatic Timer Stopwatch, while in Wrist Watch mode the display can be scrolled through Pulse, Clock and Stopwatch functions. Fully programmable with Training Limits, wheel diameter and clock settings, etc. An electronic sensor is supplied, for fixing to a cycle frame, and is used for sensing wheel rotation to operate the Odometer, Speed Indication and Distance Trip. Supplied with full operating instructions and a pamphlet covering Getting Started with Heart Training.

## THERMOMETERS, HYGROMETERS & BAROMETERS

### Outdoor Temperature/Humidity Meter with Memory

A highly specified thermo-hygrometer with an external temperature probe that allows the unit to monitor the temperature at a distance of 3m or less from the unit, for example outdoors or in a refrigerator. A memory is incorporated which will store the lowest and highest external temperature readings. These figures can be shown, or the memory reset, at any time. An additional independent display shows the temperature as measured by a sensor integral to the unit. Indoor RH expressed as a percentage is also shown.  
Temp range: 0° to 50° (+32°F to +122°F)  
External temp range: 50°C to 70°C (-58°F to +158°F)  
Temp. resolution: 0.1°C/0.1°F  
RH range: 32° to 95° (at 25°C/77°F)  
RH resolution: 1%  
Supplied with instructions. Batteries (2 'AA' size alkaline recommended, JY48C) not included.

ZA43W	Dual Thermo/Hygro	£30.370 25+ £23.970 100+ £22.390	£35.690 1+

### Thermo-Hygrometer with Memory

This meter has a large clear LCD panel which shows relative humidity (RH - as a percentage), and temperature (which is user-selectable to read in either celsius or fahrenheit).

A memory is incorporated which will store the lowest and highest RH and temperature readings. These figures can be shown, or the memory reset, at any time. Indicators on the display show if it is 'wet' (RH over 65%), 'dry' (RH below 45%) or 'comfortable' (RH between 45% and 65%). The unit is attractively finished in white and two-tone grey, and can be table or wall mounted.

Size: 99 x 70.5 x 20.5mm  
Weight: 70g (less batteries)  
Temp. range: 0°C to 50°C (+32°C to 122°F)  
Temp. resolution: 1°C/1°F  
RH range: 25% to 95% (at 23°C/77°F)  
RH resolution: 1%  
Supplied with instructions and wall mounting bracket. Batteries (2 x AAA size - alkaline recommended, JY50E) not included.

## Electronic Rain Gauge

An ideal way of measuring the amount of rainfall from the comfort of your own home. An external rain collector measures how much rain has been collected over a period of time and displays the total on an indoor display unit, which can be wall mounted or free standing. The liquid crystal display shows the amount of rainfall in millimetres, this reading can be reset at any time. The display unit is powered by a single AAA cell and is supplied with 10m of cable, to which the external collector unit is attached. Rain collector unit size, 100 x 50 x 100mm. Display unit size, 93 x 62mm x 22mm.

## Digital Clinical Thermometer

This compact, accurate and easy to use digital clinical thermometer is essential for every family's 'medicine cupboard' or travel bag and is great value for money. Whilst used in the same manner as a conventional mercury thermometer, it has none of the disadvantages.

This thermometer:

- Does not have to be 'shaken down' prior to use - simply switch on and use
- Has a beeper which sounds after the correct measurement time has elapsed
- Has a clear, easy to read display
- Much safer to use children - no glass breakage/mercury spillage worry
- Simple to clean - simply dip end in Milton™ or other similar sterilising fluid.

Supplied complete with battery and handy storage case.

Temperature is displayed in degrees celsius. As with all medical matters, if you are concerned or unsure about symptoms, contact a qualified medical practitioner.

Retail Unit Price each (inc. VAT).

## Digital Alarm Thermometer with Steel Probe

A slimline, portable LCD thermometer with a stainless steel probe that is suitable for industrial or domestic use. The unit features a wide temperature range, and a programmable maximum and minimum alarm, making it ideal for measuring and monitoring temperatures in the electronics, heating and ventilation, refrigeration, laboratory, and food processing industries. The 100mm long stainless steel probe is attached to the unit by 1m of sensing wire, and for convenience, the probe can be clipped to the side of the unit. The sensing wire is stored in the battery compartment. Beneath the display the unit has two exposed slide switches that are the alarm on/off and temperature sensing speed of either 1 sec. or 10 secs.: the slow sensing speed reduces battery use, to prolong battery life. The front cover slides down to reveal buttons for adjusting high and low temperature alarms and slide switches for setting and locking the alarm and selecting either °C or °F display functions. The light-cream case has a flip-out stand for placing on a table and a spring-loaded clip for fixing to a belt, etc. Supplied with battery and instructions.

### Specification

Temperature range: -55°C to +148.8°C (-67°F to +299.8°F)  
 Accuracy at 0°C to 60°C: ±1°C  
 Accuracy over full range: ±1.5°C  
 Resolution from -49°C to 105°C: 0.1°C  
 Resolution from -55°C to -49°C: 0.2°C

## Digital Alarm Thermometer with Warning Alarm

A slimline, portable digital LCD thermometer and clock with a stainless steel probe that is suitable for industrial or domestic use. The unit features a programmable maximum and minimum alarm, making it ideal for measuring and monitoring refrigeration, food processing, heating and ventilation, particularly in the food industry. The 100mm long stainless steel probe is attached to the unit by 1m of sensing wire, and for convenience, the probe can be clipped to the side of the unit. The sensing wire is stored inside the battery compartment. The unit has two exposed slide

switches which are the alarm on/off and temperature sensing speed, either 1 sec or 10 secs. The slow sensing speed saves battery energy, prolonging battery life. The front cover slides down to reveal the buttons to adjust and set the time, high and low temperature alarms, and slide switches to select either °C or °F display or clock function. The light-cream case has a flip out stand and a spring loaded clip, for fixing to a belt etc.

WE50E	Indoor Thermo	£6.060 1+	£7.130 1+

## Dual Display Indoor/Outdoor Thermometer

A compact, attractive, dual LCD digital thermometer that displays indoor and outdoor temperatures in °C at the same time. The meter has an internal and an external probe that is attached to a thin 3m cable. Each display has a memory that stores the maximum and minimum temperature reached since last reset, and the reading can be recalled by pressing the relevant buttons. The thermometer is housed in a distinctive white and grey plastic case with a built-in plastic stand for table standing. The thermometer can be wall-mounted if preferred, and a wire holder is supplied for fixing the sensing probe to a wall. Powered by one 'AA' battery.

**Specification**

Temperature range indoor: -5°C to +50°C  
outdoor: -40°C to +50°C

Resolution: 0.1°C  
Probe length: 20mm  
Probe diameter: 7mm at base, 4mm at tip

Probe wire length: 3m approx.  
Size: 110 x 70 x 20mm  
Weight: 85g (excl. battery)

Retail Unit Price each (inc. VAT).

		1+	10+	25+	1+
BU81C	Dual Display Thermo	£14.740	£14.030	£11.420	£17.330

**Digital Time Display and Thermometer**

This compact unit is ideal for children's bedrooms, greenhouses, car, office and home use. Displays either the local time and a programmable world time, or the maximum and minimum indoor and outdoor temperature. The temperature range is -50 to +70°C, and with a resolution accurate to 0.1° the large LCD panel is easy to read in almost all lighting conditions. Maximum and minimum temperature memories allow temperature extremes to be recorded - invaluable when used in a greenhouse for checking frost conditions - safeguarding your plants and hard work. Supplied with full operating instructions and external self-adhesive temperature sensor.

Retail Unit Price each (inc. VAT).

		1+	10+	25+	1+
WE71N	DD In/Out Min/Max	£13.010			£15.290

**Thermometer/Clock Module**

A versatile indoor/outdoor thermometer that can be easily wall mounted or placed flat. Outdoor temperatures are sensed by a temperature probe attached to the end of a 3m cord, allowing you to

place the unit almost anywhere without the worry that the cable length will be too short. A large, clear LCD readout allows easy reading of the current time and either the indoor or outdoor temperatures (selected with a separate switch). Displays temperature in °C. Supplied with full operating instructions and 1 x 'AAA' cell. A back-light is operated by a push-button. Wall mounting fixings are also supplied.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
WE55K	Dual Disp Therm Clock	£14.740			£17.330

**Digital Thermometer and Clock**

An attractive, compact thermometer and clock, with an outdoor temperature probe, that can display either °C or °F. The LCD display alternates between time and temperature readings at three second intervals. A small slide switch on the front selects either the indoor or outdoor temperature probe, which is attached to the module by 2m of black twin flex. Time settings and the °C/°F slide switch are mounted on the back of the module. The module has a flip-out stand on the back for desk or table top use, or it can be wall-mounted using the matching wall bracket (supplied). Finished in dark grey and silver.

**Specification**

Temperature range  
indoor: -5°C to +50°C (-23°F to +122°F)  
outdoor: -50°C to +70°C (-58°F to +158°F)  
Resolution: 0.1°C (0.1°F)  
Battery type: Single G-13 type 1.5V (LR44)  
Probe length: 22mm  
Probe diameter: 5mm at base, 4mm at tip  
Size: 68 x 52 x 16mm (incl. bracket)  
Weight: 51g (incl. battery)

BU77J	Small Thermometer	£8.670	£7.090	£5.870	£10.190

**Thermometer/Clock**

A very compact, low-cost inside/outside LCD thermometer and clock that is ideally suited for use in the car, the office or home. Also suitable for greenhouse or workshop. This thermometer has a wide temperature range, measuring from -50°C to +70°C. The unit has a built-in internal sensor and an external sensor that takes the form of a flat plastic probe attached to a 3m length of wire. This external sensor is attached to the inside of a non-moving window or, in a car, somewhere unaffected by engine heat, e.g., behind the front bumper, not directly in the wind stream. Controls to set up the clock and select °C or °F are on the rear, with a temperature selector slide switch at one end. On the face is a clock button and a light button.

The unit is provided with 'velcro' mounting pads for attaching to any smooth surface. Colour black. Dimensions: 114 x 24 x 17mm. Supplied with type 'AAA' battery and instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
GW57M	ThermoClock	£7.800			£9.170

**Thermometer Clock**

An attractive white LCD dual-purpose clock that displays the time as well as the ambient temperature in either °C or °F. On the front of the unit is a single push-button labelled 'Clock' which, when the display is reading temperature, will show the time when pressed. The time can be altered even when displaying temperature. The front 'Clock' button is held 'on' and the 'HR' and 'MIN' buttons pressed. The temperature sensor is positioned at the top left-hand side of the unit's face.

**Specification**

Display dimensions: 48 x 20mm  
Digit height: 18mm  
Unit dimensions: 63 x 45 x 15mm  
Weight: 32g  
Power supply: One 'AAA' battery

		1+	25+	100+	1+
RZ53H	Thermometer Clock	£6.060	£4.850	£4.280	£7.130

**Indoor/Outdoor Thermometer**

This versatile and easy to use digital thermometer will give you an accurate reading of the internal or external temperature of your home or car at the flick of a switch.

The thermometer features an integral sensor for internal temperature and a separate sensor at the end of approx 3m of cable that can be mounted outside your home or car to test the outside temperature.

Either temperature can be displayed in °C or °F, again at the flick of a switch, and there's an integral back-light that'll ensure you can even read the temperature at night.

Powered by a single 'AAA' type battery (not supplied). The thermometer has an extra wide temperature range (-30°C to +50°C, -58°F to +122°F) and is supplied with double-sided adhesive pads for easy installation.

Retail Unit Price each (inc. VAT).

## Aquarium Thermometer

This LCD thermometer is primarily intended for use with an aquarium, but it also doubles up as a room thermometer. A sliding switch, at the bottom right-hand side, selects either the water temperature or the room temperature. The water temperature sensor is housed in a sealed metal cylinder connected to the thermometer by approximately 1m of lead. A suction cap attached to the sensor holds it in position within the tank. The room temperature sensor is housed inside the actual thermometer body on the left-hand side of the thermometer. The thermometer has an operational range of between -20°C to +70°C.

### Specification

Dimension: 60 x 40 x 14mm  
 Temperature range: -20°C to 70°C  
 Power supply: One LR44 (SR44) battery

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RJ79L	Aquarium Thermometer	£6.930 25+ £4.850 100+ £4.280	£8.150

## Aquarium Thermometer

The ideal safety device to guard against under and over temperature in aquaria. Simple setting allows a band of temperatures to be selected and constantly monitored. The current temperature is displayed on the large LCD readout, a flashing LED signal and buzzer warn you when over or under temperature conditions prevail. The warning limits can be disabled should you wish to use the unit as a simple thermometer. Supplied with full operating instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WE59P †	Aquarium Thermometer	£13.010	£15.290

## Ice-Box Alert

A compact dual display thermometer ideal for use with refrigerators and freezers. Simply insert the temperature sensor into the ice-box, etc., and the thermometer will register the refrigerator or freezer temperature on the righthand side display. A constant readout of the room temperature is given on the left of the display. In addition to its high accuracy this unit also features an over-temperature warning with a sounder and flashing LEDs, should the temperature in the cooler rise above a predetermined threshold.

Display selectable between °C and °F, with adhesive pads to allow fixture to walls, door frames, refrigerators, etc. Supplied with full operating instructions.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GZ09K	Freezer Thermometer	£13.010	£15.290

## Freeze Alert

A handy and convenient device that gives a visual and audible warning if the temperature inside your freezer rises above -10°C/14°F. The module is attached to the outside of the freezer door (sticky pad supplied) and the probe is passed through, when the door is opened, and positioned at the rear of the freezer cabinet. An LED will flash and an alarm sounds when the temperature rises above -10°C. There is a small on/off slide switch on the front of the module. Ideal for domestic and commercial freezers, as well as industrial and laboratory freezers.

Requires 1 'AA' size battery (JY48C)  
 Length of cable 2.7m  
 Dimensions: 77 x 46 x 19mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

## BLOOD PRESSURE MONITORS

### Manual Blood Pressure Monitor

- ★ Manual operation
- ★ Large LCD readout
- ★ Measures systolic/diastolic/mean and pulse
- ★ Simple operation

A manually inflated precision blood pressure meter. Ideal for fitness enthusiasts. Simply fit the cuff over an arm, above the elbow and switch on the unit. Now inflate the cuff by pumping the plastic bulb until the pressure reading on the unit reads between 30 and 44mmHg higher than the estimated systolic blood pressure.

The unit will now automatically start to reduce the pressure in the cuff through a special control valve. When a pulse is detected the pressure reading moves to the right and then when the diastolic pressure is measured the display clears and displays both. After a few seconds the display begins to flash between the systolic and diastolic pressures, and mean blood pressure and pulse rate. Full instructions are supplied with the unit, together with blood pressure charts that can be used to plot readings. Requires 4 x 'AA' cells (JY48C), not supplied.  
**Note: Please read Important Health Warning before purchasing or using this product.**

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WE49D †	SemiAuto BP Monitor	£38.280	£44.990

## Automatic Digital Blood Pressure Monitor

- ★ Fully automatic
- ★ Large LCD readout
- ★ Measures systolic/diastolic/mean and pulse
- ★ Simple operation

Measure your blood pressure in the comfort of your own home. Ideal for keep-fit enthusiasts. Simply place the cuff correctly on the arm, switch on the unit and press the 'Start' key. The cuff is inflated by using a small compressor inside the unit and begins the measurement cycle. The cuff now slowly deflates, measuring the pulse, systolic and finally diastolic blood pressure. When the cycle is complete, the large, clear LCD readout flashes between systolic and diastolic blood pressure, and mean blood pressure and pulse rate. Requires 4 x 'AA' cells. (JY48C), not supplied.  
**Note: Please read Important Health Warning before purchasing or using this product.**

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

## SCREWDRIVERS

### GENERAL PURPOSE

#### Light Duty Screwdrivers

A range of small screwdrivers primarily intended for light duty work and small screws. Blades are made of tempered and hardened tool steel and nickel plated, in 75mm, 100mm and 150mm lengths respectively. Moulded plastic handles.

Retail Unit Price each (inc. VAT).

Order Code	Type 3314	Price each exc. VAT			inc. VAT each 1+
		1+	25+	100+	
BR52G	L/Duty Driver 75mm	£0.587	£0.460	£0.415	£0.690

FV46A	L/Duty Driver 150mm	£0.757	£0.595	£0.540	£0.890

#### Standard Screwdrivers

Flat blade screwdrivers with chrome-vanadium shanks and heat-treated fully-hardened tips lightly magnetised to help prevent screws being lost during awkward tasks. On the two larger sizes, the shanks are square section for added strength. The handles are moulded shockproof transparent amber plastic with finger grips.

The following sizes are available:

### Key Screwdriver Blade Symbols

Where possible these symbols will be used to indicate the blade or blades supplied with each screwdriver or set of screwdriver blades.

Regular	Phillips	Allen Hex	Internal Line Head	Internal Tamper Proof	External Line Head	Pazi Drive
Spline	Tamper Proof Tarx	Torx	Spanner	Tri-Wing	Security Hex	Scrulox

### C.K. 'Triton' Screwdrivers

The 'Triton' range of screwdrivers from the German manufacturer C.K. have blades made from chrome vanadium steel, hardened throughout the full blade length to 52-60 HRC. They are rust protected with precision machined tips for excellent screw fit and 'no-cam out'.

- ★ Chrome vanadium blades
- ★ Injection moulded polypropylene handle
- ★ Textured, anti-slip grip

The handles are injection moulded polypropylene, and the ergonomic tri-square design ensures ease of use with high torque turning and easy alignment. The lightweight, shatterproof textured grip has excellent anti-slip properties and is resistant to shock, oil, acids and extreme temperatures.

'Triton' screwdrivers are manufactured to the highest standards to all relevant DIN and ISO Standards, so ensuring durability, comfort and a very long working life.

### 'Stubby' Range

C.K.

A range of four 'stubby' handle screwdrivers with slotted or Pozidriv/Supadriv blades.

## Electronic Superslim Screwdrivers

C.K.

This superior range of screwdrivers has been designed for fast, precision work, and made from chrome vanadium to the highest standards. The fully hardened blades (52-60 HRC) are matt chrome plated with gun finished precision machined tips. The handles are manufactured from shatterproof cellulose acetate with ribbed turning grooves, and colour-coded centred heads.

- ★ Chrome vanadium blades
- ★ Precision machined tips to exact sizes
- ★ Shatterproof colour-coded handles

Available with slotted or Phillips tips.

Slotted size x shaft length mm	Tip mm	Overall length mm	Weight gms	Order Code
2.5 x 75	0.4	160	10	MC73Q

BK36P	Flex Driver	£4.330	£3.400	£3.060	£5.090

**Businesses and Government Establishments – open a Maplin MPS Account**

Just complete form at back of catalogue

## Screw Grip Driver

A long bladed screwdriver with sprung jaws for gripping the head of the screw whilst reaching into difficult places. The clamp can be slid back up to the handle if not required. Overall length 230mm. Blade length 154mm. Width at tip 4mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3830	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
BK35Q	Screw Grip Driver	£2.160	£1.830	£1.600	£2.540

## Crosspoint Driver with Screw Grip

Long bladed crosspoint screwdriver with sprung jaws for holding screws. All other specifications as BK35Q.

Retail Unit Price each (inc. VAT).

Order Code	Type 3835	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
BK37S	Crosspoint Grip Dvr	£2.160	£1.830	£1.600	£2.540

## Angle Screwdrivers

Manufactured from chrome vanadium steel for maximum strength, and bright nickel plated for rust protection. The tips are set at 90 degrees to the shaft, which makes these screwdrivers ideal for use in confined areas. Two types are available, the first with a 5mm plain blade on one end and a no. 1 cross slot on the other, and the second with a 6mm plain blade on one end and a no. 2 cross slot on the other. Overall length of the first is 125mm, and the second is 135mm.

Retail Unit Price each (inc. VAT).

		1+	5+	10+	
FG03D	5mm x No1 Angle Dvr	£1.320	£1.250	£1.230	£1.560
FG04E	6mm x No2 Angle Dvr	£1.410	£1.340	£1.300	£1.560

## ESD

### C.K. 'Triton' ESD Screwdrivers

The 'Triton' ESD range of high quality screwdrivers is specifically designed for electrostatic dissipative areas and is manufactured in Germany to all the relevant DIN and ISO standards.

- ★ Chrome vanadium blade
- ★ Injection moulded handle has excellent blade/handle integrity
- ★ Textured anti-slip grip

The special dissipative material used in the handle, is injection moulded around extra large 'tang's' to ensure excellent blade to handle integrity. The ergonomic, tri-square design combines easy of use with high torque turning. The slightly textured grip offers excellent anti-slip characteristics, yet is lightweight, shatterproof and resistant to shock, oil and extreme temperatures.

The blades are manufactured from chrome vanadium, hardened throughout the full blade length to 52-60 HRC. The tip is precision machine for excellent screw fit and the blade has a matt black, anti-peel finish.

### Slotted ESD Instrument Screwdrivers

## Triton 6-Piece ESD Screwdriver Set

C.K.

A quality set of six 'Triton' ESD screwdrivers with blades made from chrome vanadium steel. The handles are made from a special dissipative material that is injection moulded around extra large tangs to provide greater blade to handle integrity. The lightweight, shatterproof handles are slightly textured to prevent slip and are resistant to shock, oil, acid and extreme temperatures.

- ★ Chrome vanadium blades
- ★ Set includes slotted and Pozidriv tips
- ★ Shatterproof handles
- ★ Precision machined tips

Contents		Slotted Instrument	Tip	Overall	Weight

## INSULATED

### Electricians Terminal Screwdriver

Insulated Tools

A high quality 150mm terminal screwdriver with handle and blade insulated with bright orange 'nylon 11' that complies to ESI Standard 26-3 issue 2, and is therefore suitable for 'live' line working. The screwdriver has a fluted handle and a parallel blade to allow the best sight line for locating recessed or countersunk screw heads.

Dimensions

handle:	75 x 13mm
basic blade:	75 x 3mm
insulation diameter:	5mm
Weight:	19g

Retail Unit Price each (inc. VAT).

Order Code	Type 3001	Price each exc. VAT			inc. VAT each
		1+	4+	20+	
DH04E	Elect Term Driver	£2.590	£2.280	£2.030	£3.050

### Electricians Screwdriver

Insulated Tools

A high quality 227mm electricians screwdriver with handle and blade insulated with bright orange 'nylon 11', that complies to ESI Standard 26-3 issue 2, and is therefore suitable for 'live' line working. The screwdriver has a fluted handle and a parallel blade to allow the best sight line for locating recessed or countersunk screw heads.

Dimensions

handle:	75 x 19mm
basic blade:	150 x 5mm
insulation diameter:	7mm
Weight:	55g

Retail Unit Price each (inc. VAT).

		1+	4+	20+	
DH06G	Elect Pozidriv	£9.230	£7.330	£5.400	£9.680

## C.K. 'Triton' VDE Screwdrivers

The 'Triton' range of VDE screwdrivers from C.K. are produced to the exacting standards laid down by the VDE0680/201 and IEC 900 specifications, and exceed all other relevant standards including DIN and ISO.

- ★ Meets VDE 0680/201 and IEC 900 standards
- ★ Suitable for working around live circuits up to 1000V ac and 1500V dc.

★ Machined gun finished tips  
These top quality screwdrivers are manufactured in high alloy steels, correctly hardened throughout the full blade length to 52-60 HRC. Precision machined gun finished tips give a perfect screw fit with no 'cam-out'.

The blade insulation is moulded onto the blade, and the handle is then injection moulded around the insulating sheath, so maintaining blade to handle integrity. The insulation and handle are both made from polypropylene to ensure a very long life under extreme working environments.

Each screwdriver is tested to a voltage of 10,000V ac to ensure that they are safe to use around electrical equipment up to 1000V ac or 1500V dc

**WARNING - DO NOT use on live circuits - for use around circuits NOT exceeding 1000V ac.**

DO NOT touch non-insulated areas of Triton VDE screwdrivers when in use.

DO NOT use Triton VDE screwdriver if insulation appears damaged in any way e.g. voids, cracks or breaks. Visually inspect Triton VDE screwdriver before use.

To ensure a long life, Triton VDE screwdrivers must be kept clean and dry to maintain insulation properties.

## Slotted Insulated Screwdrivers

C.K.

A range of slotted insulated screwdrivers with chrome vanadium shafts.

## RATCHETS

### Ratchet Screwdrivers

A range of quality screwdrivers with a left, right and neutral setting ratchet in the moulded plastic handle. The blade is manufactured from a high alloy chrome vanadium steel and is supplied with either a flat tip or a pozidriv tip.

#### Specification

Overall length:	225mm
Blade length:	100mm
Flared flat tip:	6mm wide
Pozidriv tip:	6mm across (No. 2 point size)

Retail Unit Price each (inc. VAT).

## Stepless Ratchet Driver With 8-Bits

C.K.

This unique, stepless, cam-drive 'ratchet' driver uses friction instead of the usual teeth to provide a smooth, continuous positive action. The chunky handle features an easy-to-use drive direction adjustment, and comes with a 1/4in. magnetic hexagon drive bit holder. The handle has a convenient bit storage facility. Supplied with a clip of eight assorted bits.

- ★ Unique stepless design
- ★ 1/4in. magnetic hexagon drive
- ★ Chunky handle with storage facility

Specification	
Blade length:	100mm
Handle length:	120mm

## SETS

### 60-Piece Screwdriver Set with Display Stand

A high quality set of screwdrivers with stand, ideal for displaying on counters, shelves or in display cabinets. The set is available in two versions. One set consists of 60 small, blue handled screwdrivers 100mm in overall length, with a Phillips blade 3mm across. The other set is more comprehensive and consists of 60 small screwdrivers with flat blades 3mm across, in three lengths each identified by a different handle colour. The three lengths are 100mm (red handle), 120mm (yellow handle), and 140mm (blue handle). Overall dimensions of either display are: 138 x 126 x 76mm.

Retail Unit Price each (inc. VAT).

## Triton 6-Piece ESD Screwdriver Set

C.K.

A quality set of six 'Triton' ESD screwdrivers with blades made from chrome vanadium steel. The handles are made from a special dissipative material that is injection moulded around extra large tangs to provide greater blade to handle integrity. The lightweight, shatterproof handles are slightly textured to prevent slip and are resistant to shock, oil, acid and extreme temperatures.

- ★ Chrome vanadium blades
- ★ Set includes slotted and Pozidriv tips
- ★ Shatterproof handles
- ★ Precision machined tips

**T-Handle Screwdriver Set**

A precision screwdriver system based on a high quality range of 6.35mm (1/4 in.) hex blades and a T-handle screwdriver. The eleven, 25mm long, blades are manufactured from chrome vanadium steel and hardened. The T-handle is manufactured from tough impact resistant plastic and the shaft from chrome plated steel. The 6.35mm (1/4 in.) hex socket, on the end of the shaft, is magnetised to retain the blade in use.

The 11 blades comprise:

- ★ Five flat bits: 3, 4, 5, 6, 7mm.
- ★ Three Posidriv/Supadriv crosspoint bits: Nos. 1, 2, 3.
- ★ Three Phillips crosspoint bits: Nos. 1, 2, 3.

Retail Unit Price each (inc. VAT).

**Sixpac Screwdriver Set**

Picquic

Provides the quality and reliability of a single premium screwdriver with the convenience of six different tip types being instantly available. Features a solid Cellulosic Butyrate handle, spring-lock stainless steel bit holder complete with six 3" long 1/4" Hex drive power bits.

Drill bits lock into the handle using a unique 'feed-through' system that needs each bit to be pushed out using the one previously in use.

- Included bits:
- Two flat blade: 3/16, 1/4"
  - Two Phillips: Nos. 1, 2
  - Two Pozidriv: Nos. 1, 2

**24-Piece Ratchet Screwdriver Set**

A high quality ratchet screwdriver socket and bit set in chrome vanadium. The screwdriver ratchet is controlled by a small spring loaded knob that is rotated to select forward or reverse. This versatile screwdriver is fitted with a latched pivoting mechanism that allows the handle to be bent at any

angle, up to a right angle from the straight line, to increase the leverage. The handle is of tough plastic and provided with a pliable, comfortable grip. The screwdriver is designed to accept the 6.35mm (1/4 in.) hex bits and an adaptor is supplied to accept the 6.35mm (1/4 in.) square sockets.

**6.35mm (1/4 in.) hex bits:**

3, 4, 5 and 6mm flat blade. Nos. 1, 2 and 3 Posidriv blade. Nos. 1, 2 and 3 Phillips blade.

**6.35mm (1/4 in.) sockets:**

5, 6, 7, 8, 9 and 10mm  
1/4, 5/16, 11/32, 3/8, 7/16 and 1/2 in. A/F.

RD92A	Blade Tidy	£1.990	£1.460	£1.310	£2.340

## 17-Piece Screwdriver Blade Set

A high quality set of precision blades for use with 6.35mm (1/4in.) hex screwdrivers. The 16 blades and holder are manufactured from chrome vanadium steel and hardened. Supplied with two blade storage tides made from rubberised plastic. Each tidy will store 16 by 25mm long blades and a holder.

The set comprises:

- ★ Four flat blades: 4, 5, 6, 7mm.
- ★ Three Posidriv/Supadriv blades: Nos. 1, 2, 3.
- ★ Three Phillips blades: Nos. 1, 2, 3.
- ★ Three Torx blades: Nos. T25, T30, T40.
- ★ Two hexagonal blades: 4 and 6mm.
- ★ One 6.35mm hex to 6.35mm square drive adaptor.
- ★ One 60mm long magnetised blade holder.

## 33-Piece Security Bit Set

This is a worthwhile accessory for the tool box. A high quality 6-35mm hex drive tamper-proof Security Bit Set suitable for use with hand and power tools. It contains 32 bits which can be used on most current tamper-proof fasteners. The bits are housed in a Bit Tidy with a spare that can be used as a lid or as an additional bit storage container. Complete with a 60mm magnetic bit holder.

Consists of:

- ★ T8H, T10H, T15H, T20H, T25H, T27H, T30H, T35H, and T40H Tamper Proof Torx-Type bits
- ★ 5/64, 3/32, 7/64, 1/8, 9/64 and 5/32 Security Hex bits
- ★ No.1, 2, 3 and 4 Tri-Wing bits
- ★ No.4, 6, 8 and 10 Spanner bits
- ★ No.6, 8 and 10 Torq bits
- ★ 4, 5 and 7mm Flat bits
- ★ No.2 Phillips
- ★ No.2 Pozidriv
- ★ 1/4 drive x 1/4 Hex. adaptor

**Internal/External Circlip Pliers**

A versatile pair of circlip pliers that can be used for both internal and external retaining rings. The special handles feature a movable pivot, allowing both types of circlip to be removed by squeezing the handles together. With the pivot point in one position the jaws will move apart, while in the other position they will be forced together. Suitable for circlips with location holes 1mm in diameter and over, and able to cope with circlips up to 15cm in diameter. The handles are covered with a tough PVC coating and fit easily into the hand. Overall length: 150mm. Width closed: 55mm.

*Retail Unit Price each (inc. VAT).*

## Cutting and Bending Tool

A very useful tool designed for trimming wires on PCBs. After placing components on PCB, turn board over and place angled tip of tool on PCB with a component wire in the notch in the head. Now simply squeeze handles of tool. Component wire is cut with a powerful spring action and the remaining tip of wire bent over to lock the component in place. The wire is now also lying tightly on the PCB track and after soldering this will result in a better connection. Overall length 210mm.

YB99H	230mm Cable Cutter	£16.150	£14.150	£12.850	£16.980

**Heavy Duty Cable Croppers**

A heavy duty pair of 'crab claw' cutters suitable for cutting even the heaviest of copper power cables. Construction is from anodised 4mm pressed steel. The spring-loaded action allows these cutters to be used in one hand while the handles are covered with a PVC air-cushioned grip to provide comfort when cutting heavy cables and wires. A lock is also provided on the handle of the cutters to allow them to be locked in the closed position for storage and safety. The jaws pivot on a 12mm metric bolt which may be easily tightened. Overall length: 220mm, width closed 60mm.

Retail Unit Price each (inc. VAT).

UK96E	Heavy Duty Cutters	£6.380	£5.500	£4.750	£7.500

## Cable Croppers

A compact pair of light/medium gauge wire 'crab claw' cutters suitable for copper conductors up to 5mm diameter. The handles are covered with an insulating PVC material affording protection to the user and providing comfort during operation. The spring-loaded jaws simplify the use of these cutters by returning the jaws to the 'ready' position for the next cut. A locking clasp on the handle allow the cutters to be stored in the closed position for safety. Construction is from 3mm anodised pressed steel with insulating grips. Overall length: 160mm, width closed 55mm.

Retail Unit Price each (inc. VAT).

RJ72P	Cable Croppers	£3.020	£2.700	£2.500	£3.560

## Copper Sheet and Ribbon Cable Cutters

A sturdy pair of cutters for thin copper sheet and ribbon cable, with deep scissor action jaws to allow effective and clean cutting. A lock is provided to allow the cutters to be locked for storage and for safety. The handles are covered with a PVC material to both insulate and provide cushioning when the cutters are gripped. A strong spring ensures that the jaws return to the open position after use to allow for the next cut to take place. A serrated grip at the tip of the cutters allows these cutters to be also used as a holding and bending tool. Construction is from 3mm pressed steel, and provides an overall cutter length of 30mm. Total length including handles is 155mm, width closed 50mm.

		1+	10+	25+	
FY31J	Crimp Tool	£3.020	£2.230	£1.830	£3.560

## Heavy Duty Crimping Tool

A crimping tool for use with red, yellow and blue insulated crimp terminals. Simply place the connector to be crimped in the appropriate die in the jaws and squeeze the handles together, until the tool re-opens. A ratchet prevents the tool opening until the crimp is complete. A latch is provided so that the tool can be opened manually after the ratchet has engaged and before the crimp is complete if necessary. Manufactured from 3mm steel plate with plastic handles. Overall length 225mm.

## Telecom Impact Tool

This handy tool is ideal for inserting BT IPC cable into the connectors in master and secondary jack units. It features a reversible blade, one end of which is used to force the four wires of the line cord into the Insulation Piercing connectors of the jack unit and the other does the same job but also includes a blade to cut off any excess wire once connection is made. The impact tool's durable handle is made from a tough resin, reinforced with fibre glass.

Retail Unit Price each (inc. VAT).

## Crimping Tools for Modular FCC68 Connectors

Crimping tools for use with FCC68 modular connectors which are used on computers and American telephones. Simply place the plug with the cable in the tool and squeeze the grips together, thus causing the plug to bite into the cable. The handles are spring loaded for automatic opening. Wire can be cut with blades built into the handle. All made from toughened plastic. Overall length 190mm.

The following types are available:

### Plastic Crimp 4C4P

This model is used on plugs with 4 contacts in a 4 position shell

### Plastic Crimp 4C6P

This model is used on plugs with 4 contacts in a 6 position shell.

### Plastic Crimp 6C6P

This model is used on plugs with 6 contacts in a 6 position shell.

## F Connector Crimping Tool

This low cost crimping tool with hexagonal shaped jaws is designed for use with F connectors and RG-59, RG-62 and RG-6 co-axial cable. Simple action – just place the cable into the connector, locate the connector between the jaws of the crimping tool and squeeze the tool's two handles together. Maximum extension on the lever-action jaws is 24mm. Overall length: 205mm.

Retail Unit Price each (inc. VAT).

		1+	5+	10+	
ZF41U 1	Coax Crimper	£19.080	£16.650	£15.140	£22.430

## Co-axial RG Cable Crimp Tool Set

This quality set provides everything you need to crimp RG type cable in a smart and durable plastic carry case – a heavy duty crimping tool with 5 removable dies, a coax stripper and a cable cutter. To use the crimping tool simply screw the appropriate die into place (see table), locate the connector to be crimped in the jaws and squeeze the handles together until the tool re-opens (a ratchet prevents the tool from re-opening until the correct pressure has been exerted and the crimp is complete).

The 165mm cable cutter has jaws that open to a maximum of 35mm and is fitted with a strong spring that automatically opens the jaws after each cut. A simple latch holds the jaws safely closed when the cutters are not in use.

The stripper removes the inner and outer sheath of co-axial cables simultaneously and is provided with an allen key to set the blades to suit your cable. It features a simple push out adaptor with four positions to suit different types of cable.

### Crimping Tool Dies

Die type Suitable for cable:

- A 55, 58, 59, 62, 140, 141, 142, 174, 210, 223, 303, 400, fibre optic, Belden 8279
- C 6, 55, 58, 59, 62, 140, 141, 142, 174, 210, 223, 303, 400, fibre optic, Belden 8279
- G 55, 58, 59, 62, 8X, 140, 141, 142, 174, 210, 223, 303, 400, fibre optic, Belden 8279

## Flat Cable Cutter

Xcelite

A handy cutting tool for flat cables, that gives an even, undistorted cut across all conductors (up to 64 conductors). A built-in guide guarantees a

square cut, reefered to the edge of the cable. The cutter has a one-piece solid blade for increased durability and accuracy. The cutter is capable of cutting under- carpet electrical cable (up to 4 conductors).

Length of cut: 81mm  
Overall length: 255mm

Retail Unit Price each (inc. VAT).

## Crimping Tool for IDC Connectors

A crimping tool designed for assembling IDC connectors onto flat cable. The crimping distance is capable of accepting connectors from 6 to 27.5mm in height, between the fixed and moving jaws. A plastic adaptor is supplied with 6mm and 10mm slots to cater for different connector types. Simply place the cable into the connector, load the connector into the tool and squeeze the grips together. The tool is 240mm long by 77mm wide and manufactured from 2mm and 3.5mm carbon steel with comfortable cushioned plastic grips. Black oxide finish.

## WIRE & CABLE STRIPPERS

### Side-Action Wire Strippers

A range of wire strippers all of which strip insulation quickly and easily from flex and cable without cutting the wire and are easily adjustable to most wire sizes. They also have cutting blades for cutting wire easily and splitting plastic twin flex.

#### Model 8B

Model 8B: Fitted with a unique 7-gauge selector. Spring incorporated for automatic opening. Easy-grip plastic covered handles.

#### Model 9

Model 9: Easily adjusts for most sizes of flex and cable. Fitted with extra strong spring for automatic opening after each stripping operation. Ideal for repetitive work. Easy-grip plastic handles.

## Precision Wire Stripper

A wire stripper made from precision ground, hardened steel, that strips and cuts wire. The wire stripper has six holes that are used to cut and remove the insulation from the wire. The holes are marked in AWG (American wire gauge) sizes, but are suitable for 18 to 27 SWG sizes. At the base of the jaws is the cutting area which will cut copper or aluminium wire. A convenient flat design allows the wire stripper to be used in tight locations and to fit easily in a pocket or tool kit.

Retail Unit Price each (inc. VAT).

Order Code	Type 4253	Price each exc. VAT			inc. VAT each
		1+	3+	5+	1+
KC16S	Stripper	£10.200	£9.700	£9.200	£11.990

## Universal Cable Stripper

This is a general-purpose universal cable stripper that will strip cables with a minimum diameter of 7/0.2 up to 6mm<sup>2</sup>. The cable is placed within the jaws and the handles squeezed. The jaws automatically hold the cable and cut the outer sheathing. The tool is also used for crimping.

Retail Unit Price each (inc. VAT).

Order Code	Type 11835	Price each exc. VAT			inc. VAT each
		1+	3+	5+	1+
MCS1F	Univsl Cable Strip	£6.800	£6.000	£5.250	£7.990

## Wire Cutter/Stripper Tool

A quick and very easy to use wire stripping tool, which has jaws to grip the wire sheath, whilst a pair of blades strip off the insulation by simply squeezing the handles. The blades do not have to be set for a specific wire thickness, but are internally sprung in order to apply just the pressure required to bite through the insulation before moving backwards taking the insulation with them. The blades can however be adjusted by a simple thumb screw so as to operate effectively for a range of different insulation plastics. It is even possible to strip two or more wires, inserted side by side, simultaneously.

Retail Unit Price each (inc. VAT).

Order Code	Type 4254	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
FT44X	Cutter/Stripper Tool	£5.940	£4.000	£3.250	£5.990

## High Quality Wire Cutter/Stripper Tool

A quick and very easy to use low-cost wire stripping tool, which has jaws to grip the wire sheath, whilst a pair of blades strip off the insulation by simply squeezing the handles. The blades do not have to be set for a specific wire thickness, but are internally sprung in order to apply the correct pressure required to bite through the insulation before moving backwards taking the insulation with them. The blades can be adjusted by a simple thumb screw so as to operate effectively for a range of different insulation plastics. It is possible to strip two or more wires, inserted side by side, simultaneously. A depth of cut adjustment allows precise lengths of insulation to be stripped accurately, and consistently.

AQ74R	Quality Cutter/Strip	£7.650	£5.500	£5.050	£8.990

## Cable Strippers

Abeco

This cable stripper has a capacity of handling 0.25mm<sup>2</sup> to 6.0mm<sup>2</sup> PVC coated wire. The powerstrip is fully self-adjusting with a rapid adjustment for the ratio between gripping and cutting jaws. This is to accommodate the difference between 'tough' and 'soft' insulations. An easily adjusted wire stop is fitted in the jaws and an integrated wire cutter allows for trimming as well as stripping.

Retail Unit Price each (inc. VAT).

## Self-Adjusting Wire Stripper

TTI (Thurlby-Thander)

A self-adjusting wire cutter, stripper, bender and crimping tool that has been designed for the professional electrician. The tool can be used with twin and earth, three core and earth, flat twin and flat three core cables in sizes from 1.0mm<sup>2</sup> to

6-0mm2. The automatic stripper removes the outer and inner insulation on twin and earth from 1mm up to 4mm, but up to 6mm on conduit. The unique bender folds and crimps the conductor for secure screw terminations.

**Manufacturer's Code 00030**

		1+	4+	20+	1+
CW32K1	SelfAdjust Stripper	£31.160	£28.660	£26.430	£36.620

## Single-Action Wire Strippers

For precise rapid wire-stripping without risk of damage to the wire or insulation. Simply place the wire to be stripped between the jaws and squeeze the handles. The tool automatically grips the wire, cuts the insulation, and strips it from the wire in one operation. The tool is manufactured in die cast aluminium and fitted with hardened steel cutting blades. The tool comes complete with blade fitted and is available with a choice of two blades to suit most common wires.

Blade A has holes to strip wires of 0.5, 1.2, 1.6 and 2.0mm diameter. Blade B has holes to strip wires of 1.0mm, 1.6mm, 2.0mm, 2.6mm and 3.2mm.

Size: 180mm.  
Length of strip: 22mm max.

## Low Cost Coax Cable Stripper

A simple, quick to use, coax cable stripper for cables from 4-8 to 7.5mm outer diameter, i.e. most RF, radio and TV aerial cables. At one end, the blades are set for removing the outer sheath, and at the other end, the blades are set for removing the dielectric. The cable is inserted to the desired length, the stripper is closed, a quick twist to the left and right and the sheath/dielectric is removed. The coax cable stripper is spring-loaded for ease of use. Overall size 98 x 25mm.

*Retail Unit Price each (inc. VAT).*

		1+	10+	25+	1+
B219V	Coax Stripper	£3.890	£3.120	£2.600	£4.580

## Co-axial Cable Stripper

A stripper which removes the inner and outer sheath of co-axial cables simultaneously. An allen key is provided to set the blades to suit your cable. Cables from 4mm to 7mm outside diameter can be accommodated. The tool is set at the factory to suit RG58 and RG59 cable. To change from one to the other the die is reversed in the tool. To operate, squeeze to open the jaws, then place the cable on the cable guide and close the jaws. Insert a finger in the loop on the tool and revolve the tool around the cable four to five times. Then holding the tool, pull the cable firmly out of the tool. Both the inner and outer will be neatly trimmed away leaving the cable ready for connection.

Overall size: 104 x 34 x 22mm.

## Coaxial Cable Stripping Tools

**TTI (Thurby-Thandar)**

A range of dedicated coaxial cable preparation tools capable of performing 2- and 3-level strips on the dielectric, braid and outer insulations. The tools require no adjustment, and incorporate a unique measuring device to determine the correct strip length to suit a particular connector.

Suitable tool for each cable type is shown below.

Manufacturer's Code	Cable Type	MPS Code
10030	RG58 (MPS XS51F)	CW36P

## Hand Cable Stripper

**Abeco**

The hand cable stripper allows the removal of insulation from round cables between 4.5 and 28.5mm diameter. The handle contains a spring-loaded gripping arm and an adjustable cutting blade. The blade can penetrate to a depth of 3mm. Rotate the cutter round the circumference of the cable and then turn the blade through 90° by depressing the side button. This results in the blade cutting along the length that is to be removed. Also the tool incorporates a spring-loaded ripping tool to remove insulation.

## Professional Tie-Wrap Gun

This metal based tie-wrap gun will tension and cut plastic cable ties. To use the tool the cable tie should be placed in position and the tail of the cable tie inserted into the mouth of the tool. The tool is operated by squeezing the lever; this tensions and removes any excess cable tie. It is important that the tension is adjusted correctly, otherwise a clean cut will not be achieved; this often results in an unwanted sharp edge being left at the end of the cable tie. The tension at which the cutting edge operates can be adjusted using a rotary control on the handle of the tool. The cutting edge is 7mm wide and is suitable for cable tie sizes from 2.2mm to 4.8mm. A hard wearing and long-lasting tool suitable for production environments where quick, accurate assembly is essential.

AP99H 1	Metal Tie Gun	£32.630	£26.500	£23.250	£38.350

## Economy Cable Tie Gun

A cable tie-wrap gun that tensions and cuts cable ties. The cable tie is simply placed around the cables in the normal way and the 'tail' is inserted into the cable tie gun. Operating the trigger tensions

the cable tie and automatically cuts the tail off, all in one fast, simple, action. Ideal for production environments where quick, accurate assembly is important.

YC36P	Ceramic Cut & Mat	£18.100	£16.350	£15.250	£21.270

## Cutting Mats

These professional quality cutting mats are the ideal way to protect your desk or worktop when working with scalpels and hobby knives while providing a safe and flat cutting surface. The mat's non-slip surface will make sure that your work stays in place while you make your cut and it's also self-healing. Knife marks completely disappear, leaving no trace behind to influence or divert future cuts. These mats really can be used time and time again for years without needing replacement. Both sides of the mat can be used - one is printed with grid lines to help provide a handy cutting guide

while the other is left plain.

The Cutting Mat is green in colour and available in three sizes:

A2 Cutting Mat:	450 x 600 x 3mm
Large Cutting Mat:	300 x 450 x 3mm
Small Cutting Mat:	220 x 300 x 3mm

		1+	5+	10+	1+
BP27E	Plasterboard Saw	£3.490	£3.320	£3.230	£4.110

### Mitre Box and Saw

A quality, precision engineered tool, this mitre box and saw is designed for making accurate joints in wood, plastic and alloys. It is the ideal tool for the enthusiast, useful for making picture frames, door frames, and in fact, all types of mitre work, enabling four, five, six, and eight-sided frames to be made up accurately, using the readily located preset angles. Alternatively, provision is made for those odd angles to be set up. An adjustable clamp is supplied to restrain the workpiece and an end stop or depth guide is supplied to enable identical work to be repeated. A spare saw blade is available.

#### Specification

Maximum width of workpiece 90°:	160mm
Maximum width of workpiece 45°:	110mm
Maximum height of workpiece:	85mm
Table length:	400mm

Blade length:	550mm
Blade width:	45mm
Pre-set angles:	±67.5°, ±60°, ±54°, ±45°, 90°
Overall dimensions (assembled) mitre box with arm at 90°:	487 x 256 x 320mm
saw:	648 x 170 x 52mm

Retail Unit Price each (inc. VAT).

## ALLEN KEYS

### Standard Sets

A pack of ten Allen keys available in AF or metric sizes. Both types supplied in a plastic wallet.  
 Sizes: AF - 1/16in., 5/64in., 3/32in., 1/8in., 5/32in., 3/16in., 7/32in., 1/4in., 5/16in. and 3/8in.  
 Metric: - 1.5, 2, 2.5, 3, 4, 5, 5.5, 6, 8 and 10mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3780	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
FY34M	Allen Keys AF	£3.020	£2.350	£1.830	£3.560
FY35Q	Allen Keys Metric	£3.020	£2.350	£1.830	£3.560

### Metric Allen Key and Balldriver Sets

A choice of two sets of Allen Keys that have a balldriver at one end, for all types of socket head screws. The balldriver can be used at an angle up to 25° from the screw centre line, making it easier to access screws in confined places and in equipment with awkward accessibility. Available in sets of eight or ten keys. The eight-key set comprises: 1.5, 2, 2.5, 3, 4, 5, 5.5 and 6mm size keys. The ten-key set comprises: all of the eight-key set plus 8 and 10mm size keys.

Retail Unit Price each (inc. VAT).

RDR1C 1	25pc Allen Key Set	£4.930	£4.060	£3.690	£5.800

## GorillaGrip Fold Up Tool Sets

### Bondhus

Hexagon, Ballpoint and Torx keys housed in a fibreglass reinforced resin handle which is 40% stronger than steel.

- ★ One piece handle design resistant to heat, cold and chemicals.
- ★ Specially engineered fastening system prevents loosening of the tools.
- ★ Tools manufactured from heat treated high grade chrome vanadium steel.
- ★ Available in 9 variations including:-  
 Metric (hexagon & ballpoint versions)  
 Imperial (hexagon & ballpoint versions)  
 Torx  
 Metric and Imperial combination (hexagon)
- ★ Handles colour coded - red for metric, yellow for imperial, green for Torx and orange for metric + imperial combination.

### Metric sizes:

YC03D Hex - 1.5, 2, 2.5, 3, 4, 5 and 6mm.  
 YC00A Hex - 2, 2.5, 3, 4, 5, 6 and 8mm  
 MC12N Ballpoint - 5, 6, 7, 8 and 10mm

### Imperial sizes:

YC02C Hex - 0.050", 1/16, 5/64, 3/32, 7/64, 1/8, 9/64, 5/32 and 3/16"  
 YC01B Hex - 5/64, 3/32, 7/64, 1/8, 9/64, 5/32, 3/16, 7/32 and 1/4"  
 MC13P Ballpoint - 3/16, 7/32, 1/4, 5, 16 and 3/8"

### Torx sizes:

YC04E T6, T7, T8, T9, T10, T15, T20 and T25  
 MC14QT9, T10, T15, T20, T25, T27, T30 & T40

### Metric / Imperial Combination:

## Ratchet Spanner Set

A 5-piece reversible ratchet wrench set contained in a black roll-up wallet. Each tool has two different sized ring spanners at either end. Each spanner has its own ratchet system with its own independent reversing direction lever. Sizes are as follows, overall length in brackets.

- 5.5mm and 7mm heads (113mm)
- 6mm and 8mm heads (140mm)
- 9mm and 10mm heads (173mm)
- 13mm and 14mm heads (204mm)
- 15mm and 17mm heads (233mm).

Retail Unit Price each (inc. VAT).

Order Code	Type 3796	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
JR18U	Ratchet Spanner Set	£9.440	£7.550	£6.710	£11.100

## Adjustable Torque Wrench

Quality, precision made torque wrenches available with either a 12.7mm (1/2in., code RJ11M) or 10mm (3/8in., code BP83E) square drive. The required torque is set by turning the knurled handle until the

zero mark lines up with the desired setting on the main stem. Both types have a reversible ratchet action and are supplied in a black plastic carry case with instructions and conversion tables.

Specification	12.7mm drive (RJ11M)	10mm drive (BP83E)
Torque range:	2.9kg/m to 21.4kg/m	1.4kg/m to 11.1kg/m
Overall length:	470mm	280mm
Supplied extras:	10mm extension	-
	10mm square converter	-

Retail Unit Price each (inc. VAT).

### 101-Piece Socket Set

A high quality 101-piece 6.35mm (1/4in.) and 12.7mm (1/2in.) square drive socket set containing an extensive range of metric sockets, hex bits and various fittings. Suitable for use in many different applications including maintenance, assembly and service, whether in the field or workshop.

Manufactured from chrome vanadium steel and bright chrome-plating, the set includes eleven combination spanners, four double-socket spanners, one 6.35mm (1/4in.) and one 12.7mm (1/2in.) ratchet handle, one 6.35mm (1/4in.) and one 12.7mm (1/2in.) sliding T-bar, two 6.35mm (1/4in.) and two 12.7mm (1/2in.) extension bars, one 6.35mm (1/4in.) and one 12.7mm (1/2in.) universal joint, one spinner ratchet handle for hex driver bits, one hex extension bar, .25" flexible EXT bar, a hex to 6.35mm (1/4in.) adaptor, and a spark plug socket. Supplied complete in a tough moulded plastic carrying case. The sockets, hex bits and keys are as follows:-

**12.7mm (1/2in.) Square Sockets:** 10, 12, 13, 14, 15, 16, 17, 18, 20, 21, 23, 24, 27, 32mm.  
3/8, 7/16, 1/2, 9/16, 11/16, 3/4, 13/16, 7/8, 13/16in. A/F.

**6.35mm (1/4in.) Square Standard Sockets:** 4, 4.5, 5, 5.5, 6, 7, 8, 9, 10, 11, 12, 13mm.

**6.35mm (1/4in.) Square Long Sockets:** 4, 5, 6, 7, 8, 9, 10, 11, 13mm.

**6.35mm (1/4in.) Hex Bits:**

Flatblade: 4.5, 6mm.

Phillips crosspoint: Nos. 1, 2, 3.

Pozidriv/Supadriv crosspoint: Nos. 1, 2, 3.

Hexagonal: 1.5, 2, 2.5, 3, 4, 5, 5.5, 6mm.

Torx: T10, T15, T20, T25, T27, T30, T40.

**Combination Spanners:**

7, 8, 9, 10, 11, 12, 13, 14, 15, 17, 19mm.

**Double - Socket Spanners:**

8 x 9, 10 x 11, 12 x 13, 14 x 15mm.

**Allen Key Wrenches:**

1.5, 2, 2.5mm.

**TOOL KITS**

**Interchangeable Utility Set**

A very useful set of small tools all of which fit into screwdriver-type body.

19 different tools:

Box spanners 3mm, 3.5mm, 4mm, 4.5mm, 5mm

Open-ended spanners 4mm, 4.5mm, 5mm, 5.5mm, 6mm; Allen keys 1.5mm, 2mm, 2.5mm;

Pozidrive screwdriver size 0 and size 1; Flat blade screwdrivers (blade widths) 1.5mm, 2.5mm, 3.5mm;

and an Awl. These miniature precision tools (all approx. 50mm long; handle 92mm long) are supplied in a hinged plastic case.

**Students Tool Kit**

A 15-piece tool kit ideal for electronics courses at schools and colleges, and for electronics hobbyists. The kit includes a 25W soldering iron with two interchangeable bits (flat and pointed), a detachable hook and small fold-up stand, desoldering tool, a supply of solder and a pot of flux. For working on PCBs and delicate equipment, a 'helping hands', a 'scraper' and a wire wrap tool are included. To help in assembly and repair of most work and projects, two crosspoint and two standard screwdrivers are included, a pair of pliers and wire cutters, and for delicate work, a pair of tweezers. Housed in a grey plastic box with handles and two catches, the tools are held in 'cut-outs' to keep them secure during transit.

## PC Service Kit

Xcellite

A 12-piece tool kit that is ideal for repairs on PCs, as it contains antistatic tools, so protecting sensitive ICs etc. from ESD damage. All the tools fit securely into a vinyl roll-up pouch.

### Contents

- Handle: 1
- Phillips screwdrivers: 2 (Nos. 0 and 1)
- Slotted screwdriver: 1 (5mm)
- 'Torx' head screwdrivers: 2 (Size T10 and 15 with 75mm blades)
- Nutdrivers: 2 (8mm and 6.35mm)
- Antistatic chip tools: 4 (3-prong chip retriever/extractor, chip tweezers, chip inserter and chip extractor)

Retail Unit Price each (inc. VAT).

DF85G	12 Piece Service Kit	£42.500	£40.370	£39.310	£49.940

## Multi-Purpose Tool Kit

Xcellite

A 39-piece tool kit containing an assortment of quality screwdriver, nutdriver and other blades which can be fixed into either of the two purpose made handles supplied in the kit. All blades are high carbon steel with highly polished nickel-chrome finish, except the 'Bristol' and 'Allen Hex' types, which are precision formed, cold drawn, case hardened steel. The plastic handles have a patented spring device that holds the blades firmly, yet permits quick, easy insertion and removal. Supplied in a plastic coated canvas case that folds into a compact package which is secured by a permanently attached loop. There are two additional pockets for pliers, snips etc.

### Contents

- Regular handle: 1 (amber)
- Tee handle: 1 (black)
- Reamer: 1 (3.2 x 9.5mm (1/8 x 3/8 in.))
- Extension: 1 (adds 100mm)
- Magnetic nutdriver: 1 (6.35mm (1/4 in.))
- Nutdrivers: 9 (up to 12.7mm (1/2 in.))
- Allen hex screwdrivers: 9 (up to 12.7mm (1/2 in.))
- Bristol multi spline: 9 (up to 12.7mm (1/2 in.))
- Slotted screwdrivers: 4 (3.2, 4.8, 6.35 and 8mm (1/8, 3/16, 1/4 and 5/16 in.))
- Phillips screwdrivers: 3 (Nos. 1, 2 and 3)

Retail Unit Price each (inc. VAT).

## Professional Tool Kit

Xcellite

A high quality tool kit in a handy zip-up wallet that will suit most service needs. The kit is available with either the Weller Junior butane gas soldering iron (DF57M) and gas refill (DF70M) or the Weller T400 240V AC soldering iron (DF51F).

### Contents

- Handle: 1
- Flat screwdrivers: 3 (3.2mm, 6.35mm and 8mm)
- Phillips screwdrivers: 2 (No. 0 and 1)
- Adjustable wrench: 1 (150mm)
- Wire stripper: 1
- Needle nose plier: 1
- Midget semi-flush cutter: 1
- Fine point tweezers: 1
- Desolder pump: 1
- Solder: Length of 20swg
- Tape measure: 5m/16ft.
- Notebook: 1

		1+	10+	25+	
GW32K	Diamond Files	£7.800	£6.190	£5.470	£9.170

## Needle File Handle with Collet

A triangular shaped plastic handle with collet that will accept all regular needle files.

Retail Unit Price each (inc. VAT).

Order Code	Type 11300	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
GU89W	Collet File Handle	£2.590	£2.330	£2.180	£3.050

## Automatic Centre Punch

A professional quality automatic centre punch that can be used on iron plate, wood and a variety of other hard materials, and is used to mark or pierce work, particularly prior to drilling holes.

An automatic centre punch does the same task as a conventional centre punch but in a slightly different manner. The tool point is positioned on the required intersection and then pushed down. This automatically releases a striking block which punches the point into the metal. The force can be adjusted by turning the knurled adjuster at the opposite end to the point. Length: 125mm. Weight: 78.5g.

Retail Unit Price each (inc. VAT).

Order Code	Type 3065	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
F536E	HQ Centre Punch	£5.790	£5.510	£5.360	£6.810

## Chassis Punch Set

A set of five punches for thin tin or aluminium sheet up to 1.6mm thick. The punches make it easy to make neat round holes where drills are not practical. Sizes are 16, 18, 20, 25 and 30mm. The set is supplied with a reamer.

Retail Unit Price each (inc. VAT).

Order Code	Type 3866	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
YK27E 1	Chassis Punch Set	£28.630	£26.210	£25.070	£33.650

## Sheet Metal Punches

A range of sheet metal punches for cutting perfect holes in stainless and mild steel up to 16swg (1-62mm), sheet copper, brass, and aluminium up to 2-0mm, and many other sheet materials, ductile plastics etc. These sheet metal cutters are ideal for electricians, electronic engineers, plumbers, vehicle mechanics, in fact anywhere that requires clean, accurate and burr-free holes. At the centre of where the hole is to be punched, a hole is drilled large enough to clear the Allen screw of the punch to be used. The punch is assembled with the panel between the two parts of the punch, and the Allen screw is tightened, with a suitable Allen key (not supplied), until the hole is cleanly punched out.

Sizes available (mm)	Allen Key required A/F
12.5	6mm
16	6mm
20	8mm
22.5	8mm
25	8mm
32.5	10mm

Retail Unit Price each (inc. VAT).

BA70M	Metal Punch 32.5	£6.800	£5.850	£5.550	£7.990

## Reamer

A hand operated, tapered reamer for finishing and deburring panel holes. Made from carbon-chrome alloy steel, it may also be useful in opening holes out to non-preferred diameters. Will cover holes from 3mm up to 12mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3888	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
FG11M	Reamer	£5.200	£4.430	£4.110	£6.110

## Pipe Cutter

A pipe cutting tool that cuts copper, brass, aluminium tubing and thin-wall conduit. It is able to cut tubing of 3mm to 30mm diameter. A spare cutting blade and burr remover is also supplied.

Retail Unit Price each (inc. VAT).

Order Code	Type 3871	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
GK33B	Pipe Cutter	£5.200	£4.630	£3.960	£6.110

## Tinmans Shears

These professional quality tinmans shears are ideal for use on soft lightweight sheet metals such as tin, aluminium, zinc, copper, silver, gold, etc. With an overall length of 180mm, these quality shears have straight, drop forged, selected tool steel blades. If after extensive use they become dull, they can be re-sharpened with a file or grinding wheel.

Retail Unit Price each (inc. VAT).

Order Code	Type 10218	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
BP00A	Tinmans Shears	£7.680	£7.480	£7.290	£9.260

## Metal Sheet Folding Tool

A heavy duty manual sheet metal folding machine made from thick steel plate and angle sections. It is particularly useful for producing metal boxes and brackets. A slotted former bolted to the jig holds the sheet metal to be bent, in place, the slots being occupied by previously bent sections. This arrangement allows 33 different widths of box to be produced, ranging from 10mm to 420mm. The former also has eccentric adjustment screws to allow for different thicknesses of metal. Sheet steel of up to 0.6mm thick, and aluminium to 1.5mm thick or less, can be safely bent. The folder must be bolted down securely at 4 points before use. It is supplied with two steel handle bars (used to operate the pivoted bending mechanism) and full operating instructions.

Retail Unit Price each (inc. VAT).

**Ultrasonic Tape Measure (Range Finder)**

A precision made, fast and convenient measuring device in matt black ABS with a range from 61cm to 13.72m or 2 feet to 45 feet. A slide switch instantly converts any measurement from metric to imperial or vice versa. The range finder measures from the rear of the case to the target, and is very easy to use.

If you want to measure the area or volume of a space, the range finder has three memories to allow this to be done. The memories are not cleared when the unit is switched off and can be recalled at any time.

A '+' key and '-' key allow you to add to or subtract from measurements stored in memory (providing units are the same, e.g. both metric). If the sonic signal is not cleanly reflected, or the range is over the maximum, the display shows 'error'.

A low battery indicator shows on the display when the batteries need replacing.

**Specification**

- Range: 61cm to 13.72m, 2ft. to 45ft.
- Accuracy: Better than 0.5% reading at 4.21m, 13.81ft. at 25°C
- Resolution: 1cm, 0.1ft.
- LCD: 7-digit, indicates measurement being taken
- Sensor: Polaroid ultrasonic sensor
- Power saving: Automatic shut off after 1 minute
- Memories: 3 non-volatile memories for length, width and height (memory is retained after switch off)
- Volume: Single key calculation
- Area: Three key calculation
- Other features: Allows addition or subtraction of results. Automatic and accurate temperature compensation from 0°C to 40°C. Beep tone indicates measurement is complete. Error tone and LCD indicator if measurement fails. Easy to use 10 key panel.
- Battery life: 1 year in normal use
- Size: 127 x 66 x 27mm (length of unit automatically incorporated in

measurement)  
Weight: 156g with batteries  
The range finder requires four AAA cells to operate (not supplied).

**DRAFTING AIDS**

**Templates**

**Type 116:** A template for circles from 1 to 5mm in 0.5mm steps and circles from 5 to 35mm in 1mm steps. The template is made from transparent tinted plastic and is marked with metric and imperial units, and centre guide lines. Size 240 x 120 x 1.2mm.

**Type 175:** Flowcharting template incorporates 32 of the most commonly used computing/data preparation symbols and is made from transparent tinted plastic. Size: 190 x 100 x 1.2mm.

A range of green-transparent, 1mm thick butyrate, templates with raised bosses on the underside, to prevent ink spread.

**Type 1139S:** Electronic: Containing logic and electronic symbols in two sizes to suit 0-1 or 0-2in. grids. Size 165 x 95mm.

**Type 1173S:** Square: With 34 squares from side length 2 to 35mm, with centre lines. Size 242 x 125mm.

**Type 7857:** Lettering: Upper case, numbers and arrow heads in 3-5, 5 and 7mm heights. Size: 250 x 60mm.

**Type 1170S:** Combination: A useful collection of circles, hexagons, squares, and triangles for layouts. Size: 130 x 87mm.

## Multipurpose Ruler

A versatile multipurpose ruler with a host of useful features. Convenient for use at school, in the office or the home, for applications that involve the accurate measurement of distances or angles. This ruler is not only for measuring, it enables you to draw perfect straight lines due to its unique roller action. The ruler may be moved up or down a fixed distance which, together with its rectifying lines, allows you to draw perfectly parallel lines of any length and distance apart. The ruler section is marked with both metric and imperial graduations. The fixed circle template allows circles of between 1 and 10mm to be easily and quickly drawn. Larger circles are also possible by use of the compass feature. The many features of this compact ruler include ruler, compass, set square, fixed circle template, protractor and rectifying lines. Various spirograph functions are also possible, which are described in the manual supplied. Overall dimensions of ruler: 150 x 65 x 15mm.

## POWER TOOLS

### CORDLESS DRILLS / DRIVERS

#### Cordless Power Screwdriver

Black & Decker

- ★ 2.4V battery pack
- ★ Reversing
- ★ Shaft lock
- ★ Wall mounting
- ★ Supplied with charger
- ★ Supplied with double-ended screwdriver bit

A compact, yet powerful, cordless screwdriver with numerous applications where screws need to be inserted or removed. Shaft rotational speed 130 rpm. The screwdriver is easy to use; with one switch that selects the direction of rotation by sliding to the left or right and applies power when pressed. With the switch in the centre 'neutral' position power cannot be applied, thus acting as a safety lock against accidental operation. A shaft lock is provided so that screws can still be driven home if for any reason the battery pack runs flat during a job. Supplied with a double-ended screwdriver bit, suitable for Phillips and slotted screws; and a wall mounting bracket/charging receptacle. Recharge time is 12 hours.

## Powerdriver Kit

Black & Decker

A handy, rechargeable, cordless power screwdriver, that drives in and removes screws quickly and easily at the press of a button. The rotational speed is 130 rpm in forward and reverse. A locking feature enables the powerdriver to be used as a standard screwdriver. The powerdriver comes with three double function bits, three 'pozidriv' bits (nos. 1, 2, 3), three 'Phillips' bits (nos. 1, 2, 3), three slotted (4, 6, 7-2mm), a magnetic bit holder to keep the bits tidy and a kit box. The kit includes a wall-mounting bracket and a charger which takes 12 hours to fully charge the powerdriver.

Retail Unit Price each (inc. VAT).

## Power Screwdriver Kit

Black & Decker

A compact, powerful rechargeable cordless screwdriver that drives and removes screws quickly and easily at the press of a button. The shaft rotational speed is 180 r.p.m. in forward and reverse – the direction being selected by a single switch – with a six position torque control for a wide variety of screwdriving tasks, from the most delicate screws to the more stubborn. For the exceptionally tough screws the neutral position of the direction switch includes an auto locking feature that enables the screwdriver to be used conventionally, like a standard tool. The screwdriver kit comes complete with three double function bits, three pozidriv bits, three Phillips bits, three flat-bladed bits, a magnetic bit holder, wall mounted battery charger and a tough moulded plastic kit box. The battery charging time is 12 hours.

## Cordless Screwdriver

Skil

This compact and slim screwdriver is light and as easy to use as a conventional screwdriver. It features a powerful reversing action for driving or removing screws and bolts plus a spindle lock for those jobs where you'll prefer to use it as a manual screwdriver.

It is powered by Skil's 'Flexi-Charge' interchangeable power system (this allows all rechargeable power tools in the range to operate from the same type of battery, even with different voltages). Can be kept fully charged and ready for instant use in the provided wall mounted charging/storage unit. The screwdriver is supplied with a 'Flexi-Charge' power pack, charger/storage unit (with LED to indicate charge status) and two double-ended bits (cross and slotted head). Spare battery power pack is available separately (FC92A).

## Keyless Cordless Drill

Skil

This versatile cordless drill features a keyless chuck for faster and easier bit changes and an extra powerful 12V motor. Promising superb handling and performance, it's powered by Skil's 'Flexi-Charge' interchangeable power system. Every charge gives three hours uninterrupted performance. This powerful cordless drill features a 5-position torque setting (4 for screwdriving and 1 for drilling) for precision screwdriving, two selectable speeds and a reversing action that allows you to effortlessly drive home or remove screws and bolts.

The drill is supplied with a 'Flexi-Charge' power pack and a charger/storage unit (with LED to indicate charge status). Spare battery packs are available separately (FC91Y).

## 2745 Professional 12V Cordless Drill/Driver

Skil

This high performance cordless drill has been designed to deliver superb performance and handling. It features two speeds (0-350/0-1100 rpm) with a variable speed switch, electric brake, reversing action for the effortless driving home or removing of screws and bolts and a 15-position clutch to facilitate precise screwdriving. The drill is powered by a quick-charge (fully charged in one hour) Super Power Pack with a thermostat that prevents over-charging. The 10mm keyless chuck ensures that changing drill and screwdriver bits is both fast and easy and its low chuck offset makes this drill ideal for working in confined spaces. The professional cordless drill is supplied with a Super Power Pack, charger and its own plastic carry case. Weighs 1.3kg

## MAINS POWERED

### Multi-Purpose Power Tool

Dremel

This is a versatile, high speed, easy to use multi-purpose mains powered drill. The drill will cut, grind, sand, drill, sharpen and polish using the accompanying accessories. The kit includes a 40-piece accessory assortment, wrench, storage case and the '100+ Uses' guidebook. The high speeds of 10,000 to 37,000 rpm enable the Multi to perform many jobs that other tools cannot perform. The Multi is small and compact allowing comfortable use and control, even in tight places. The accessories are secured firmly using the quick-change collets (two sizes).

### Drill Press 212

Dremel

Designed for use with the Dremel Multi-purpose Power Tool, this drill press will enable precise drilling, routing and grooving. The stand is made from die cast metal for stability and maximum accuracy. The large base plate (155 x 155mm) has holes and slots cut in it so that a machine vice can be fixed in position. There are mounting holes for securing the stand to a bench.

Maximum working travel is 70mm. A fitted depth shaft with locking stop collar will enable a number of holes to be drilled to the same depth.

### Variable Speed Hammer Drill

Skil

This professional quality and fully featured DIY hammer drill has a variable speed switch with a lock button and pre-selected speed indicator to provide optimum control while working. The disengageable hammer mechanism is capable of delivering a high rate of impacts per minute and, to ensure holes are always drilled to the correct depth, there's an adjustable depth indicator - simply set it to the required depth and stop drilling when the gauge comes into contact with the surface. The drill features an excellent compact and ergonomic design that ensures it's a joy to use and easy to handle and control - left or right handed - and Skil's patented RBR reversing system. This automatically rotates the carbon brushes, delivering 10% more power in both directions and extending the life of the brushes themselves. The drill has a 710W motor, is double insulated to European safety

standards and radio/TV suppressed and has a 13mm chuck capacity. It is supplied with a variable depth adjuster, chuck key and side handle.

## Orbital Sander

Ski

Get the job done faster with this lightweight but powerful orbital sander with its high power and extra large orbit to provide speedier material removal on all surfaces. The 150W motor delivers an impressive 24,000 movements per minute (unloaded). The sander's ergonomic design and an integrated auxiliary handle ensures that it's safe, easily controllable and comfortable to use and there's a lock-on button for continuous use. Dust and debris is taken away by suction through the hole pattern in the foot and, for an even cleaner working environment, a domestic vacuum cleaner can be connected to the integral adaptor at the rear of the tool. Supplied with 3 sanding sheets.

Retail Unit Price each (inc. VAT)

FC43W	1 Orbital Sander	£22.970	£26.990

## Jig Saw

Ski

This powerful 380W jig saw delivers high power and speed for faster and smoother cutting. Its 50mm saw depth will cut through 50mm of wood or up to 3mm of steel. The jig saw's features include a lock-on button for continuous use, a 2-way adjustable foot for accurate bevel cuts and splinter-free cutting and an automatic blower that keeps the line of the cut clear and easier to follow. Dust and debris is taken away by suction and, for an even cleaner working environment, a domestic vacuum cleaner can be connected to the integral adaptor at the rear of the tool. Supplied with a blade key.

## Angle Grinder

Ski

This lightweight but powerful DIY angle grinder delivers 11,000 rpm (unloaded) and features a wheel that's enclosed through 180° for additional safety – the guard cover can easily be adjusted to offer protection in any direction. The angle grinder is double insulated to European safety standards and radio/TV suppressed. It has a 550W motor and is supplied with a grinding wheel, set of flanges, safety guard, side handle, accessory key and hexagon key.

Retail Unit Price each (inc. VAT)

FC45Y	1 Angle Grinder 450W	£38.280	£44.990

## Professional Angle Grinder 9125

Ski

Ideal for those heavier DIY projects, this powerful but compact professional quality angle grinder delivers 11,000 rpm (unloaded) and features a wheel that's enclosed through 180° for additional safety - the guard cover can easily be adjusted to offer protection in any direction. Quality built to the highest standards and featuring durable precision-cut helical gears, the grinder has been designed with a slim metal head to improve access in awkward spaces and a quick and easy to operate spindle lock for more rapid disc changes. The angle grinder is double insulated to European safety standards and radio/TV suppressed. It has a 1050W motor and is supplied with a 125mm grinding wheel, set of flanges, safety guard, side handle, and accessory key.

YC54J	1 Angle Grinder 1050W	£90.840	£94.990

## Heat Gun

Black & Decker

A very useful mains powered 240V 1600W heat gun for paint stripping, thawing pipes, shrink-wrapping, welding plastics (in a very well ventilated area) etc. The heat gun has two heat settings, 300°C and 560°C and extreme care MUST be exercised when using the heat gun to avoid personal injury. The air flow of either 270 l/min. or 450 l/min. ensures faster paint stripping using the push-and-pull scrapers supplied with the heat gun. The heat gun is fitted with a two way handle for either conventional pistol grip, or in-line grip for one handed use, which provides added safety, particularly during external use.

Retail Unit Price each (inc. VAT)

Order Code	Type	Price each exc. VAT	inc. VAT each
BU36P	2 Heat Gun	£28.630	£33.650

## Heat Gun with Adaptors

Ungar

This 240V AC, lightweight, efficient heat-gun can perform a wide range of tasks including encapsulation, reflow soldering, epoxy curing, cooling and drying of components, softening adhesives and applying heatshrink tubing. A three-way off/cool/heat switch is conveniently located at the trigger position. The gun operates at 425°C so care must be taken when operating the gun. The heat gun is contained in a rugged, impact resistant housing and is supplied with three reflectors and a reducing baffle. Manufacturer's Code 6966G

DF80B	1 Heat Gun 6966G	£102.500	£120.440

## ACCESSORIES & BITS

### Vertical Drill Stand

**Black & Decker**

The D2037 is a rigid high quality vertical drill stand, for use with Black & Decker claw grip drills, that is perfect for precision drilling. The single solid support column is fitted with a multi-position handle that can be set to any position. The handle operates a spring loaded drill support bracket which can be rotated through 360° and provides automatic retraction. Included on the support bracket is a calibrated depth scale and drill stop for accurate drilling control. The professional quality of this drill stand will ensure a long working life.

RJ33L	7 Vertical Drill Stand	£29.200	£27.570	£25.810	£34.320

### Hobby Shop

**Black & Decker**

The D2057 Hobby Shop is designed for all hobbyist work such as mitre cutting, grinding and sanding, and comprises a horizontal stand and tilting table. The horizontal stand is suitable for all Black & Decker 43mm DIN nose drills and allows the drill to be rotated through 360°. The tilting table is adjustable for greater accuracy of finish. The stand can be held in a vice, a Black & Decker Workmate™, or secured with screws to a work surface.

### Tungsten Carbide Drills

A range of very high quality solid tungsten carbide drills which offer extended life when drilling PCBs, especially fibre-glass. All drills have an a 3.18mm diameter shank approx. 24mm long. Overall drill length 38mm. Tungsten carbide drills are not recommended for hand-held use as they snap very easily under sideways pressure. For best results, use a drill stand and run the drill at a slower speed than would be normal for high-speed steel. Available in five sizes 0.6, 0.8, 0.9, 1 and 1.3mm diameter.

Retail Unit Price each (inc. VAT).

YU25C	29pc Imp Drill Set	£16.480	£19.370

## Drill Bit Sharpener

This clever and very handy device actually uses your drill to sharpen its own bits – both steel and masonry and of any size between 3mm and 10mm. The sharpener is safe (the grindstone is fully enclosed within the body of the sharpener) and very easy to use. After fitting the appropriate grindstone, fasten the chuck of your drill (minimum suitable chuck size is 8mm) to the rotating shaft and select the correct collet holder and collet for the bit to be sharpened. Seat the drill bit correctly within its collet and collet holder (a built-in clamp helps you set the correct position and angle), turn on the drill (the grindstone operates best at a speed of 3,000 rpm), insert the collet assembly into the grinding position and, using a smooth, light, downward action, rotate the bit while it is in contact with the grindstone.

Supplied with two grindstones, one for steel and one for masonry bits, two collet holders and 4 collets: 'A' for bits up to 10.5mm, 'B' for bits up to 9.7mm, 'C' for bits up to 6.7mm and 'D' for bits up to 3.7mm.

A range of replacement parts is available: White Aluminium Oxide Grindstone for steel bits (BN95D), Green Silicon Carbide Grindstone for masonry bits (BN96E) and replacement set of 4 Collets (BN97F). Remember, eye goggles should always be worn when sharpening drill bits.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
CB14Q	Drill Sharpener	£13.600	£15.990
BN95D	Sharp Stone White	£2.200	£2.590
BN96E	Sharp Stone Green	£2.200	£2.590
BN97F	Collet Set	£2.200	£2.590

## 75mm Wire Cup

A stiff wire bristled cup-shaped brush. The brush has a central protruding shaft that enables the brush to be inserted into a drill chuck. Care should be taken when using the wire cup as the wire bristles are VERY sharp. Eye protection should be worn as a safety precaution. The shaft diameter is 6mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GX21X	75mm Wire Cup	£1.760	£2.070

## 75mm Wire Wheel

A stiff wire bristled wheel, with a central protruding 6mm shaft for insertion into a drill chuck. Care should be taken when using the wire wheel as the wire bristles are VERY sharp. Eye protection should be worn as a safety precaution.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GX20W	75mm Wire Wheel	£1.310	£1.550

## Power Tool Nibbler

A high quality nibbler that fits any power drill for cutting sheet metals and plastics. The nibbler cuts cleanly without distortion in straight or curved lines and will also cut corrugated sections. For most work a drill speed of 2500 to 3000 rpm is used, but for heavy continuous cuts a slower speed is recommended. It is important that plenty of oil is used on the cutting edges and along the job. This is very important when cutting aluminium. The width of cut is 3mm and the maximum gauge is 1.5mm (16swg) for mild steel and 2mm (14swg) for aluminium etc. Replacement punches and dies are available.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BA25C	Nibbler Attachment	£23.420	£27.530
BA26D	Spare Die	£4.760	£5.600
BA27E	Spare Punch	£2.420	£2.850

## Jigsaw Blades

Blades suitable for use with Black & Decker jigsaws. Two types are available; medium finish in metal and medium finish in wood, supplied in packs of three.

## Reliant Drill Kit

A kit comprising the Reliant electric drill, fitted with latest automatic 3 jaw pin chuck, adjustable to take any size drill bit up to 2.9mm dia. Kit includes 16 twist drills, one axial brush, one radial brush, polishing pad, tommy bar. A mains adaptor is included in the kit.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
LH79L	Reliant Kit	1+ 10+ 25+ £32.330 £26.850 £25.050	1+ £37.990

## Zircon Electric Drill

Miniature 12V DC electric drill suitable for drilling printed circuit boards, thin aluminium and other light duty work. The T section magnets and 5-pole motor produce more torque than drills of twice this size. The drill utilises a ground shaft, ball race drive and 3-jaw pin chuck which has a capacity of 0.5mm to 3.0mm. The drill is well balanced, comfortable to hold and easy to use.

**Specification**  
 Rated voltage: 12V  
 No load current: 390mA  
 Full load current: 2.25A  
 Running torque: 150g/cm  
 Stall torque: 1150g/cm  
 Speed on load: 9700 rpm  
 No load speed: 11,200 rpm  
 Dimensions: 170 x 35mm dia.

Retail Unit Price each (inc. VAT).

XM82D	Reliant Stand	1+ 5+ 10+ £26.030 £22.740 £21.380	1+ £30.590
XP05F	Zircon Stand	£26.030	£30.590

## Microturbo Drill

Como

These miniature combination drills are ideal for engraving, polishing, grinding, drilling and cutting and versatile enough for a wide range of applications including modelling, glass cutting and engraving, working on PCBs, car body work, toolmaking and a variety of hobbies.

Both precision drills are reliable and versatile and the combination of their power, small size, shape and handling characteristics make them ideal for fine detail work where larger DIY tools are too cumbersome. For variable speed with no loss of torque at lower speeds the Variable Speed Transformer is required (order code BP80B) – variable speed is recommended when plastics or similar materials are being cut or drilled.

Both drills are supplied with 4 collets to take tools up to 3mm in diameter and with 950mm cable terminating in sprung 4mm connectors.

The Microturbo 2 shares the same features as the Microturbo 1 but has the additional advantage of a drill shaft running in a precision ball race for even greater accuracy and durability.

### Specification for Microturbo 1 and 2

Power supply: 6–18V DC  
 Maximum speed: 14,500 rpm  
 Typical current draw: 0.75 amp  
 Tool sizes: 0–3mm  
 Torque: 530 gr/cm  
 Power: 20W

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each

## Variable Speed Transformer

Como

This 6-3A fused heavy duty transformer steps 240V AC mains power down to the 15V DC necessary to power the Microturbo drills on this page.

The transformer features +/- terminals for the connectors supplied with the drills, a neon indicator to show power is connected and a single knob to control drill speed – from 'stop' to the drill's maximum 14,500 rpm. Supplied fitted with a 13A fused plug.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BP80B	Var. Speed Transf.	1+ 10+ 25+ £36.580 £27.000 £24.150	1+ £42.990

## Cast Alloy Drill Stand

Como

This quality made cast alloy drill stand is ideal for use with the Microturbo drills on this page.

The drill retention harness holds the drill firmly in place while you set the rig up to the perfect angle for the job in hand. Every aspect of the stand can be fine tuned for precision work – including carriage movement, drill depth, vertical height and axial adjustment (the drill can be turned through 360° with a gauge marked from 0 to 180 to the left and right).

The base features a raised bed and a large countersunk hole at each corner for fixing to your workbench. When you're ready to drill, cut, grind or polish a sprung lever (it springs back to rest when released) gives you full control over the speed at which you present the bit to your work and the amount of pressure you exert on it.

### Specification

Bed height: 25mm  
 Bed size: 119 x 119mm  
 Max throat depth: 119mm  
 Max drilling depth: 28mm  
 Overall dimensions: 265 x 139 x 198mm  
 Net weight: 1.46kg

Retail Unit Price each (inc. VAT).

## MINICRAFT®

### Hobby Drill

Minicraft

The MB150 is a high-quality, low cost, miniature lightweight drill ideal for use in electronics for PCB preparation, in jewellery fabrication and in model making. This drill has been ergonomically styled for comfortable handling to allow for long periods of continuous use without excess fatigue. A high-torque, high-speed, fan-cooled motor ensures that it will give a long and trouble-free life. A lightweight keyless chuck allows for simple accessory changeover and versatility in use. Alternatively, the drill can be fitted with a collet chuck (BA95D) for a greater degree of accuracy in drilling and detailing.

Specification	
Operating voltage:	9 to 18V DC
Maximum power:	25W
Off load speed:	16,000 rpm
Chuck type:	Keyless
Chuck capacity:	0.4 to 3.2mm
Cable type:	Extendable
Cable length:	1.8m
Dimensions:	165 x 32mm approximately
Weight:	190g

### High-Speed Precision Drill for the Hobbyist

Minicraft

- ★ **Lightweight ergonomically designed housing**
- ★ **Keyless chuck for easy accessory changeover**
- ★ **Twin bearing drive shaft for smoother running**
- ★ **Powerful 40W fan cooled motor**
- ★ **Very high speed for increased versatility**

For the hobbyist who requires a drill that offers a perfect balance between speed and handling, then this drill is the ideal choice. This lightweight ergonomically designed drill has a powerful high speed motor with a twin bearing drive shaft for smoother running. A lightweight keyless chuck ensures easy accessory changeover and for extra flexibility, a collet set (BA95D) can be fitted.

Specification	
Operating voltage:	9 to 18V DC
Power:	40W
Off-load speed (12V):	20,000 rpm
Chuck type:	Keyless
Chuck capacity:	0.4 to 3.2mm
Cable type:	Extendable
Cable length:	1.8m
Weight:	210g

### High Power High Precision Miniature 'Buffalo II' Drill

Minicraft

- ★ **Very powerful 100W fan cooled motor**
- ★ **Twin bearing drive shaft**
- ★ **Precision key operated chuck**
- ★ **Integral on/off/push-on**
- ★ **Coiled cable**
- ★ **Ergonomically styled**

A highly recommended miniature drill which offers both power and precision. The drill has an extremely powerful motor and a special on/off/push-on switch which allows continuous use or intermittent use. Twin drive shaft bearings ensure long life, accuracy and smooth operation. The key operated chuck accepts drill bits or accessories between 0.4 and 6mm dia. The drill is neatly styled, comfortable to hold, well balanced and easy to use. Supplied with chuck key. Spare chuck keys available (BA97F). This versatile drill, when used with the MB540 twin pillar vertical drill stand (XP21X) is ideal for printed circuit board fabrication and other precision drilling applications.

Specification	
Operating voltage:	9 to 18V DC
Power:	100W
Off-load speed (12V):	12,500 rpm
Chuck type:	Key operated
Chuck capacity:	0.4 to 6.0mm dia.
Cable type:	Extendable, coiled
Cable length:	1.8m
Weight:	420g

Retail Unit Price each (inc. VAT).

### 10VA Transformer Unit

Minicraft

A well made, compact transformer unit for use with all 40W drills and engraving pen. The unit is self contained, with integral 13A plug pins and output cable with free socket. The unit is double insulated and thermally protected against overload, the thermal trip is self resetting. This unit is suitable for indoor use only.

Specification	
Input voltage:	240V AC 50Hz
Output voltage:	12V DC
Output power:	10VA
Output cable connector:	Minicraft 2-pin socket
Cable length:	2m
Weight:	520g

Retail Unit Price each (inc. VAT).

YZ97F 1	MB714 10VA Xformer	£23.820	£20.550	£19.450	£27.990

### 24VA Variable Speed Transformer Unit

Minicraft

A variable speed transformer unit for use with all Minicraft tools. The unit is well made and compact and features a manually resettable trip to guard against overload. Mains input is via a two core mains cable fitted with a 13A plug and 3A fuse (plug and fuse supplied ready fitted). A rotary front panel control allows adjustment of output voltage, thus controlling speed. The unit is double insulated and is suitable for indoor use only.

Specification	
Input voltage:	240V AC 50Hz
Output voltage:	9V to 16V DC
Output power:	24VA
Speed control range:	7,000 to 30,000 rpm
Output connector:	Minicraft 2-pin socket
Mains cable length:	2m
Weight:	1.05kg

### Universal Variable Speed Transformer

Minicraft

This top of the range power centre is suitable for all Minicraft precision tools, and has a massive 100VA peak output. This unit is equipped with a unique microchip controlled electronic variable speed for smoother running, with full torque control for effective work at lower speeds. Additionally, a resettable overload cut-off facility is incorporated for extra safety and longer life, and for added convenience, three outputs are included for easy tool changeover. Storage space for 60 accessories is included along with a tool rest for quick and easy access.

Specification	
Input voltage:	240V AC 50Hz
Output voltage:	8.8V to 16.2V DC
Output power:	50VA constant 100VA peak
Speed control range:	500 to 18,000 rpm
Cable type:	Standard
Cable length:	2.0m
Weight:	2.0kg

## MB1000 Hobby Drill Kit

Mincraft

A high torque low voltage drill for hobby, electronics and D.I.Y. use. The drill and included accessories will enable a variety of jobs to be done, including drilling, grinding, sanding, cutting, etc.

The kit contains:

MB150 Hobby drill upgraded to 30W max. power  
MB714 Transformer giving 10VA at 12V DC.

20 Accessories

Supplied complete with a handy carry/storage case.

Retail Unit Price each (inc. VAT).

## MB1037 Cordless Drill Kit

Mincraft

A top quality kit which comes complete with cordless drill, charger and 15 accessories for drilling, grinding, cutting, routing, shaping, polishing and sanding. All items are packed in a handy carry and storage case. The drill itself is extremely practical, it can be used anywhere at any time when its internal batteries have been charged. It features a lightweight, keyless chuck to make changing of accessories quick and easy. The body of the drill has been ergonomically designed to make using it a pleasure. For longer life and high reliability, a fan-cooled motor is fitted, and the drive shaft has twin bearings for smoother running.

### Specification

Power source: 3 x Ni-Cd cells (3-6V DC)

Charger included

Off-load speed: 13,500 rpm

Drilling capacity: 230 x 3mm holes in 10mm softwood

400 x 2mm holes in 10mm

## Twin Pillar Precision Vertical Drill Stand

Mincraft

A twin pillar precision vertical drill stand for use with either the MB160 'Topi' or MB1012 'Buffalo II' drills. The stand is made from die cast metal for stability and maximum accuracy. The large base plate (117 x 176mm) has holes and slots cut in it so that the MB715 Machine Vice can be fixed in position. Mounting holes are also provided so that the stand can be secured to a bench. Supplied with a reducing collar for YZ94C drill.

## Precision Circular Saw Table

Minicraft

- ★ Powerful 100W fan cooled motor
- ★ Diecast table
- ★ Rip fence
- ★ Mitre guide
- ★ Transparent blade guard
- ★ Supplied with two blades

A precision circular saw table for modellers, a fan cooled 100W motor provides power to the saw blade which rotates at 12,500 rpm off-load. The saw table is made from die cast metal for accuracy and reliability. A transparent saw blade guard protects the operator whilst allowing the progress of the blade through the workpiece to be observed. A rip fence ensures precise straight cuts in wood, metal and plastic. An adjustable mitre guide is also provided to allow mitres to be cut accurately, the guide is adjustable from 0° to 90°. Supplied with two blades; an 84-tooth blade for wood and plastic and a 106-tooth blade for metal and plastic.

### Specification

Voltage:	9 to 18V DC
Power:	100W
Off-load speed:	12,500 rpm
Table area:	169 x 119mm
Cutting capacity	

Non-ferrous metal:	1mm
Plastic:	2mm
Wood:	6mm

Mitre guide angle:	0° to 90°
Blade diameter:	50mm or 60mm

## MB495 Variable Speed Fretsaw Kit

Minicraft

- ★ Short 5mm safety cutting stroke.
- ★ Diecast construction.
- ★ Adjustable mitre guide available separately
- ★ Complete with power supply MB730 and three blades

Especially designed for the hobbyist or light DIY use, this saw contains a number of user benefits which, combined, make it a class leading fretsaw. The short 5mm stroke reduces the risk of accidental injury considerably, as skin tends to vibrate with the stroke rather than being cut. The blade is 4-way positioning thus increasing flexibility by allowing longer workpieces to be accommodated.

### Specification.

Voltage:	9 to 18V DC
Cutting speed:	500-1250 Strokes/Min
Table size:	195mm x 195mm
Max. cutting height:	75mm
Cutting stroke:	5mm
Throat distance:	270mm
Weight inc. Transformer:	6KG

## MB6001 Lathe & Drill Kit

Minicraft

FOR TECHNICAL ADVICE  
ON ALL PRODUCTS

01702 556001

e-mail: Technical@maplin.co.uk

- ★ **Powerful 100W ball bearing drill MB1012 for DIY, hobby and craft use**
- ★ **Keyed chuck for better grip**
- ★ **Variable speed transformer MB730 - matches speed to application**
- ★ **Can be used as a lathe or drill stand for added flexibility**
- ★ **190 x 25mm Lathe turning capacity for small and detailed work pieces**
- ★ **Includes 2 bench clamps and assorted accessories**

This extremely versatile lathe system is designed for turning small, intricate pieces of wood. The system is easily assembled and is powered by the flexibility of variable speed control combined with the power of a Minicraft 100W precision drill. The system can also be used as a separate drill and transformer unit for drilling, cutting and D.I.Y. work. Supplied in a sturdy reusable kit box for storage

## Orbital Sander

Minicraft

- ★ **Powerful 100W fan cooled motor**
- ★ **Quick release sandpaper grip for simple changeover**
- ★ **Extendable cable for better storage - 1.8m**
- ★ **Includes 3 sanding sheets and a handy carry/storage case.**

This low voltage orbital sander is designed for all precision sanding work on wood and metal, and is excellent for treating surfaces before painting. It is suitable for use with Minicraft power supply MB714, MB730, MB750 or a similar source of direct current.

**Specification:**

Voltage	12V DC
Max. output	100W
No load speed (12V)	12,500 rpm
Pad size	70 x 50mm
Weight	400gm.

Replacement sanding sheets available in packs of 10:

## Low Voltage Bench Sander

Minicraft

- ★ **100W motor**
- ★ **Ventilated housing for longer life**
- ★ **Bench fixing holes for maximum stability**
- ★ **Complete with mitre guide, table and 3 sanding disks**

A useful addition to any armoury of low voltage hobby power tools. Use for rapid removal and smoothing of material. Designed for use with Minicraft MB730 or MB750 variable speed power supplies.

**Specification:**

Voltage	19-18V DC
Max. output	100W
No load speed (12V)	12,500 rpm
Work surface area	100 x 65mm
Pad size	75mm dia
Standard cable	1.8m
Weight	510 gm

Replacement velcro backed sanding discs available in packs of 5.

## Engraving Pen

Minicraft

An extremely simple to use engraving pen for craft and security engraving on glass or metal. The lightweight pen-style unit is comfortable to hold. The on/off switch requires very little pressure to operate, thus reducing operator fatigue. Accessory bits simply push-in/pull-out for fast interchangeability. Tip speed is 20,000 rpm (off-load) for fast efficient engraving. Supplied with one diamond tipped engraving bit.

**Specification**

Voltage:	9 to 16V DC
Power:	6W
Off-load speed:	20,000 rpm
Shaft holder capacity:	2-3mm
Cable connector:	Minicraft 2-pin plug
Cable length:	1-8m
Weight:	75g

Retail Unit Price each (inc. VAT).

		1+	10+	25+	
BP75S	6 Steel/Brass Brush	£4.240	£3.550	£3.350	£4.990

## WELDING EQUIPMENT

### Mig Welder

Clarke

The NO GAS MIG 85EN is a high quality rugged 'metal inert gas' (MIG) welder for professionals and DIYers alike offering the advantages of standard mig welding but without the need for a CO2 gas bottle. The welder is used with a special flux-cored mild steel wire that produces its own gas shroud as it burns allowing these machines to weld steel without the need for additional gas, thus simplifying their use. The wire is retained inside the machine and automatically fed out by a feeder unit through the torch nozzle: the rate of feed being controlled by a 'min/max' switch. A second 'min/max' switch provides two power settings at the torch, to give increased welding power control. The torch incorporates an 'on/off' control 'switch'. Designed solely for use without gas and simple to use, yet capable of producing professional results, this machine is ideal for welding thin sheet metal-work and car body repairs. Supplied with welding torch, flux-cored mild steel wire, earth clamp, face mask and full operating instructions.

#### Specification

Input voltage:	240V AC 50Hz
Open-circuit output voltage:	21 to 28V
Output current	
Max:	85A
60%:	35A
Min:	30A
Maximum metal thickness:	3 to 4mm mild steel
Wire size:	0.9mm
Wire spool capacity:	Mini or 5kg
Max wire feed speed:	15m/min
Dimensions:	430 x 370 x 250mm
Weight:	21.5kg

Retail Unit Price each (inc. VAT).

## MIG Welder

Clarke

A high quality rugged 'metal inert gas' (MIG) arc welder designed for the hobbyist, professional and light industrial user who needs the advantages of standard mig welding that are offered by this welder. The welder is used with a mild steel wire and a CO2 gas bottle, strapped to the rear, to produce its own gas shroud as it burns, to weld steel. It can be used for other metals with only a change of wire and gas, if necessary. Stowage for a spare bottle is provided. The wire is retained inside the machine and automatically fed out by a feeder unit through the torch nozzle: the rate of feed being controlled by a 'min/max' switch and wire tension controlled by a 0 to 10 position variable rotary control. Two switches provide four power settings for optimum welding power control at the torch. The torch incorporates a control 'switch' for full 'on/off' control. Designed to be simple to use, yet capable of producing professional results, this machine is ideal for welding thin sheet metal-work and car body repairs. Supplied with CO2 gas bottle, welding torch, gas regulator, mild steel welding wire, earth clamp, face mask and full operating instructions.

### Specification

Input voltage: 240V AC 50Hz  
 Open-circuit output voltage: 21 to 28V  
 Output amperage  
 Max: 90A  
 60%: 30A  
 Min: 25A  
 Maximum metal thickness: 3 to 4mm mild steel  
 Wire size: 0.6/0.8mm  
 Wire spool capacity: Mini or 5kg  
 Max wire feed speed: 14m/min  
 Dimensions: 430 x 370 x 250mm  
 Weight: 23.0kg

Retail Unit Price each (inc. VAT).

RJ47B	49 90A MIG Welder	£164.920 £144.620 £133.170	£193.790

## Welding Gases

Clare

A selection of gases, for use with MIG welder RJ47B, are available. Supplied in standard bottles, the gases are CO2 for mild steel, Argon for aluminium/stainless steel, and a CO2/Argon Mix for thin sheet metal/mild steel.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RJ48C	3 CO2 Welding Gas	£8.670 £8.070 £7.550	£10.190
RJ49D	Argon Welding Gas	£8.670 £8.070 £7.550	£10.190
RJ50E	3 CO2/Argon Weld Gas	£8.670 £8.070 £7.550	£10.190

## Welding Wire

Clarke

Supplied on mini-spools, welding wire is available for the MIG welders RJ46A (which uses flux-cored wire) and RJ47B, in a selection of types and sizes.

### Description

Mild steel wire spool, 0.6mm dia. RJ51F  
 Mild steel wire spool, 0.8mm dia. RJ52G  
 Mild steel wire spool, 0.9mm dia. flux-cored RJ53H  
 Stainless steel wire spool, 0.8mm dia. RJ54J  
 Aluminium wire spool, 0.8mm dia. RJ55K

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RJ51F	2 M/S Weld Wire 0.6mm	£5.200 £4.580 £4.310	£6.110
RJ52G	2 M/S Weld Wire 0.8mm	£5.200 £4.580 £4.310	£6.110
RJ53H	1 M/S W/W 0.9mm Fluxed	£8.670 £7.550 £7.130	£10.190
RJ54J	1 S/S Weld Wire 0.8mm	£13.880 £12.330 £11.710	£16.310
RJ55K	Alum Weld Wire 0.8mm	£13.880 £12.330 £11.710	£16.310

## Welding Tips

Clarke

Supplied in packs of five, a selection of welding tips is available for the MIG welders RJ46A and RJ47B. Three sizes are available: 0.6mm, 0.8mm, and 1.0mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RJ57M	0.6mm Welding Tip	£3.460 £3.040 £2.870	£4.070
RJ26D	0.8mm Welding Tip	£3.460 £3.040 £2.870	£4.070
RJ58N	1.0mm Welding Tip	£3.460 £3.040 £2.870	£4.070

## Welding Torch Shroud

Clarke

A spare shroud for use with the torches supplied with MIG welders RJ46A and RJ47B. Supplied in packs of two.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RJ56L	Welding Torch Shroud	£4.330 £3.850 £3.590	£5.090

## Glass for Welding Mask

Clarke

A spare darkened safety glass for the welding mask supplied with MIG welders RJ46A and RJ47B.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RJ59P	Weld Mask Dark Glass	£3.720 £3.270 £3.070	£4.380

## Welding Clamps

Each tool has two clamps which securely lock when the handles are squeezed together. The self-locking device can be quickly released by pulling a lever into the second half of the handle (the handle is made up of two levers). Screw adjustment on the base of the handle increases or decreases the space between the jaws of the clamp.

Three types of clamp are available:  
 C Welding Clamps with a 100mm gap when the jaws are fully open.  
 250mm Welding Clamps with a 53mm gap when the jaws are fully open.  
 Flat Nose Clamps with a 68mm gap when the jaws are fully open.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JR64U	1 C Welding Clamp	£4.330 £3.740 £3.220	£5.090
JR65V	2 250mm Weld Clamp	£4.240 £3.390 £2.830	£4.990
JR66W	1 Flat Nose Clamp	£4.160 £3.390 £3.070	£4.890

## Heavy Duty Gauntlets

Heavy duty gauntlets made from a suede type material. Features long length for maximum protection and have internal lining. The gloves are suitable for general-purpose use and offer excellent protection from hard and dirty tasks.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GK92A	Green Gauntlets	£3.650 £2.970 £2.700	£4.290

**PRODUCTION**

**COMPONENT PREFORMING**

**Component Preforming Machine**

Cliff

This manually operated machine is designed to cut to length, and preform, axial lead components ready for fitting into PCBs, where the component is parallel to the board. The component may be fed in bandolier form (assuming a 5mm pitch between components or multiple of), or loose by means of the built-in chute slots. Components are cut and formed without scoring or damaging the leads. The bandolier drum supports have lugs which locate into keyhole slots on the side of the machine. This allows the drum to sit over the machine, when in use, so that components are gravity fed into the machine.

All adjustments are carried out on top of the machine using the built-in scales and setting instructions, which are conveniently printed on the machine.

The machine has an anodised body with heavy steel sides and is supplied with an incorporated base plinth. The 35mm diameter free running blades are made from 'M2' high-speed steel. The cutting and bending wheels are in high carbon steel, and are all hardened and tempered as appropriate. The machine will cut and form 40,000 components per hour, and is fitted with safety guards where necessary. A mains powered component counter is available, separately, for use with the machine. The counter is adjustable to accept all bandolier sizes and has a reset button and reverse count switch.

**Specification**

Bending between centres A:	5mm to 50mm
Length of cut B:	4mm to 13mm
Minimum bending C:	1-2mm
Diameter of component D:	0.4mm to 15mm
Diameter of wire E:	0.4mm to 1mm

Dimensions: 200 (W) x 165 (H) x 175 (D)mm  
Weight: 2.8kg

Retail Unit Price each (inc. VAT).

Order Code	Type #405	Price each exc. VAT		inc. VAT each
		1+	3+	
DH18U	Preforming Machine	£346.360	£322.520	£406.980
DH19V	Component Counter	£216.150	£192.470	£253.980

**PCB JIGS**

**PCB Workframe**

A range of three high quality PCB frames – ideal for PCB assembly with leaded components. Simply insert all the leaded components into the PCB, fit the foam lined back plate, invert the frame and solder the leaded joints. This ensures all the components never fall out while soldering, giving flush components every time. Available in different sizes, with the ability to hold a PCB up to 230 x 280mm (WF/0), 230 x 510mm (WF/1) and 360 x 510mm (WF/2).

Retail Unit Price each (inc. VAT).

Order Code	Type 10403	Price each exc. VAT		inc. VAT each
		1+	1+	
BN92A 1	Work Frame WF/0	£68.070		£79.990
BN93B 1	Work Frame WF/1	£74.030		£86.990
BN94C 1	Work Frame WF/2	£93.600		£109.990

**PCB Component Mounting and Soldering Frame**

An ingenious and flexible solution to component insertion and soldering problems. The extruded aluminium frame will hold a PCB with dimensions up to 185 x 235mm. The first stage of PCB assembly is to clamp the board in position using the adjustable clamp bars. The PCB is held firmly by 8 spring clips and the components can now be inserted. Once insertion is complete, the foam padded lid is fitted, which holds the components in position. The frame is then turned over and the underside of the board can be soldered and leads cropped without components falling out. Overall size 260 x 240 x 50mm. Supplied unassembled.

Retail Unit Price each (inc. VAT).

Order Code	Type 2016	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
XM72P 2	PCB Assembly Frame	£44.460	£39.000	£29.040	£52.250

**Conductive Rack for PCBs**

Cliff

A modular rack system that has been designed for safely holding PCBs during all stages of assembly, cleaning or testing. The width of each module is easily adjusted from 0 to 290mm, by sliding one side panel along the aluminium extrusion and tightening 2 screws. The module is stackable in all directions so that racks of unlimited height and depth may be constructed. The two front handles are used for holding the assembly, and two back strips are provided which, when fitted, prevent the PCBs from sliding out of the back of the rack. Two moulded hooks are supplied for wall mounting the modules. The plastic sides are antistatic so sensitive devices may be safely stacked in PCBs without special precautions, other than earthing the rack.

**Supplied Parts:**

- Side assemblies: 2
- 320mm long aluminium extrusions: 2
- Back strip: 2
- Wall hooks: 2
- Nut holders: 4
- Nuts/bolts: 10 sets

**Manufacturer's Code**

DH21X	PCB Conductive Rack	£20.410	£19.000	£14.280	£23.990

**Printed Circuit Board Clamps**

A plastic moulded clamp for holding printed circuit boards of up to 3mm max. thickness. The clamp can also be screwed onto a board as part of a jig assembly for testing purposes. The clamp has been designed to be used with the various contact probes, so the PCB is sitting on the probes with the clamps holding the board in place. A lever with a thumb platform allows the PCBs to be removed with ease, whilst a wide base enables the user to screw the clamp into the desired position. Base measures: 34 x 25mm  
Height to PCB level: 12mm  
Total height: 30mm

## WORKBENCHES

### Modular Workbench System

**Treston**

A range of self-assembly workbenches that are sturdy in construction, and offer considerable flexibility in the way they can be used. Because of the modular design, layout changes and alterations in worktop and shelf heights can be made rapidly without loss of stability. The worktop is light grey, laminated on both sides and all edges, and has an overall thickness of 25mm. The framework is in blue-grey epoxy enamelled steel. The workbenches are particularly suited to electronic and related industries.

Each bench is supplied in a strong carton with full instructions and a small spanner and hex key for easy assembly.

**Profile dimensions**

frame: 40 x 40 x 2.0mm  
 sidebars: 35 x 35 x 1.5mm  
 height adjustment profile: 34 x 34 x 2.0mm

### Workbench TP

This range has a continuous height adjustment of 650 to 900mm. There is an integral scale between 10 and 50mm in the height adjustment profile.

Manufacturer's Code	Measurements (mm)	MPS Code
TP-510	500 x 1000	DE97F
TP-515	500 x 1500	DE98G
TP-715	700 x 1500	DE99H
TP-718	700 x 1800	DF00A

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DE97F	Workbench TP-510	£144.670	£169.990
DE98G	Workbench TP-515	£161.690	£189.990

DF00A	Workbench TP-718	£187.220	£219.990
DF01B	Workbench TP-918	£212.750	£249.990

### Workbench TPH

**Treston**

This range includes a matching light grey laminate shelf. The depth of this shelf is 320mm and its height may be continuously adjusted between 1080 and 1580mm. Under the shelf there is a longitudinal

support bar 35 x 35 x 1.5mm. Height adjustment of the main worktop is continuous between 650 to 900mm.

Manufacturer's Code	Measurements (mm)	MPS Code
TPH-712	700 x 1200	DF02C
TPH-715	700 x 1500	DF03D
TPH-918	900 x 1800	DF05F

Retail Unit Price each (inc. VAT).

DF05F	Workbench TPH-918	£306.370	£359.990

### Movable Bench

**Treston**

This movable bench has four 100mm diameter castors, two being fitted with brakes. Height adjustment is continuous between 650 to 900mm. This useful and versatile auxiliary bench, or trolley, is available in two sizes. Can be equipped with a matching lower shelf (available separately).

Manufacturer's Code	Measurements (mm)	MPS Code

DF09K	Shelf AT-710	£55.310	£64.990

## SERVICE PRODUCTS

### VACUUM CLEANERS

#### Vacuum Cleaner Dustbuster

**Black & Decker**

A compact and lightweight cordless rechargeable vacuum cleaner. Ideal for cleaning in 'nooks and crannies' and cleaning up everyday spills. Supplied with wall-mounting housing and recharger.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
RL21X	DustBuster	£19.950	£23.450

### Rechargeable Vacuum Cleaner

A high suction power lightweight vacuum cleaner for use in the home, car, etc. The cleaner has a high capacity 6V sealed lead acid battery rated at 4Ah, and an easy and fast to clean filter. An LED built-in to the body of the cleaner indicates when on charge. Supplied with a plug-in AC battery charger and extension tube nozzle.

Price each shown, but sold only in multiples of 1.

Order Code	Type	Price each exc. VAT	inc. VAT each
BP39N	Rechargebl Vac Clnr	£17.010 10+ 14.100 25+ 13.150	£19.990 1+

## METAL & ELECTRICAL TESTERS

### Mains Testers

These mains tester screwdrivers contain a neon indicator in the clear plastic handle which lights up when the point of the screwdriver is touched on voltages between 220-250V and your thumb is forming an earth contact with the metal stud set into the top of the handle.

The mains tester has a plastic insulating sleeve on the screwdriver blade and is available in two sizes - 140mm overall length (55mm blade length) or 190mm overall length (100mm blade length). The 140mm tester is fitted with a metal pocket clip.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
BP82D	Mains Tester 140	£1.060 10+ 0.710 25+ 0.660	£1.250 1+
BP81C	Mains Tester 190	£1.440 10+ 1.100 25+ 1.020	£1.700 1+

### Continuity Tester

An ingenious screwdriver tester that can be used to detect continuity and therefore used for checking fuses or lamps. Continuity tests can be made by holding the tip of the screwdriver on a fuse then touching the cap of the screwdriver and the cap of the fuse with your hand. If the fuse is OK, the screwdriver will light. The same principle can be used with lamps, leads and anything else that is conductive.

Other uses include short circuit tests, tracking broken cables, microwave oven radiation testing and television emission tests. The device uses two

silver or alkaline batteries (supplied), with a battery life of approximately 5 hours continuous use. Dimensions 136 x 20mm (L x W) including clip. **NB Not suitable for direct connection with live circuitry.**

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
AS26D	Continuity Tester	£6.380	£5.750	£5.250	£7.500

## Metal and Voltage Detector

A very useful instrument for tracing pipes, detecting nails and screws etc. in walls. In addition to detecting metals it can also detect electric cables that are connected to the mains even if no current is flowing. To distinguish between metal objects and mains cables an LED indicator and buzzer will give a continuous tone and light for metal objects and an intermittent tone and flashing light for mains cable. The detector is housed in a tough plastic case and is powered by one 9V PP3 battery (JY49D, not supplied).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
YP30H	Metal/Volt Detector	£5.930	£5.000	£4.210	£8.150

## MAINS CONNECTOR

### Quick Mains Connector

cliff

A completely safe way of connecting mains cables to the power supply without having to fit plugs. The wire ends of the cable simply fit under three clips which are exposed when the lid is lifted. With lid lifted it is not possible to touch any live part. When lid is closed all live parts are fully enclosed and mains is connected to the clips and thus to the cable.

#### Specification

Max rating: 13A, 240V AC  
Size: 127 x 67 x 51mm high  
Weight: 340g (12oz.)

YB21X	Quick Mains Connectr	£10.400	£9.680	£9.110	£12.230

## BRUSHES

### Small Brass Brush

A straight wooden handle with brass bristles at one end. Ideal for cleaning files and sparkplugs.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
GX14Q	Brass Brush	£0.689	£0.624	£0.520	£0.810

### Brass Plated Brush

A wide wire brush with brass plated steel bristles and a hardwood handle. Bristle length: 25mm  
Brush width: 35mm  
Brush length (including handle): 280mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
ZC34M	Wire Brush	£0.978	£0.791	£0.749	£1.150

## CLAMPS & VICES

### Hobby Vice

A small modellers' vice in tough plastic construction with metal faced jaws. The vice has a very strong suction clamp for mounting to flat non-porous surfaces. Jaw width: 37mm. Max opening: 27mm. Overall dimensions fully closed: 90mm long x 70mm wide x 68mm high.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
YP38R	Hobby Vice	£2.420	£1.940	£1.610	£2.850

### Bench Vices

Two good quality steel bench mounting vices with smooth jaws. 50mm type fixes to benches from 2mm to 32mm thick. Jaw width 50mm, max.

opening 40mm. 75mm type fixes to benches from 13mm to 46mm thick. Jaw width 75mm, max. opening 60mm. Finished in hammertone.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
YJ83E	1 50mm Bench Vice	£14.740	£13.270	£12.640	£17.330
YJ84F	4 75mm Bench Vice	£24.790	£22.000	£20.910	£29.120

### Table Vice

This top quality table vice is ideal for smaller bench top tasks such as model engineering, jewellery making or general DIY and handicrafts. The vice is well designed, solidly constructed and extremely versatile – the highly efficient fixing clamp holds the vice firmly to any table or bench top (avoiding the need for more permanent fixing), precision machined slide rods assure equally applied jaw pressure and the jaws can be covered by slide off rubber jaw pads (supplied) to protect delicate or easily marked surfaces. A special feature is the multi-positional swivel base, allowing the vice working position to be varied through a full 360° on its horizontal axis and 180° on its vertical axis. Jaw width is 50mm and, when fully open, the jaws extend to 68mm in length (62mm with the rubber pads in place).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
BNS9H	Swivel Table Vice	£18.390	£17.470	£17.010	£21.610

### Bench Vice with Swivel Base

A quality 75mm vice with integral swivel base that is manufactured from cast steel and finished in blue. The swivel base can rotate 360° and can be locked in any position with two locking handles. Maximum jaw opening is 105mm. The vice has three fixing holes 85mm diameter for securing to a bench. Overall dimensions: 268 x 155 x 136mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
RJ13P	12 75mm Bench Vice	£13.880	£11.960	£11.190	£16.310

## Machine Vice

Black & Decker

A machine vice that features a quick-release adjustment mechanism and jaw width of 100mm with a jaw opening of 100mm. Suitable for use with the Black & Decker vertical drill stand.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
RJ37S 3	Machine Vice	£17.700	£17.010	£16.600	£20.800

## G Clamp Set

A three-piece, diecast G clamp set comprising 20mm, 30mm and 40mm capacity clamps. A shoe on the end of the threaded screw protects the workpiece. The screw is operated by a knurled knob. A round, magnetic base is included, which incorporates a slot to accept any of the three clamp frames, such that two may be combined to form a small table edge vice, or to make the clamp free-standing for holding small items. Ideal as a third hand for holding PCBs etc., holding together small objects being bonded, and many other uses.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
FT76H	Mini G Clamp Set	£3.810	£2.750	£2.440	£4.480

## Fast Action Screw Clamps

Two fast action screw clamps that are ideal for clamping work to benches, or to hold work securely while glue sets. As the adjustable part of the clamp is tightened and starts to secure the work, it 'locks' into a ratchet on the stem. When the clamp is unscrewed, the clamp 'unlocks' and can slide down

the stem, instantly releasing the work. The centre of the clamp to the stem is 50mm and the clamp can open to either 100mm or 300mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
KR45Y	Screw Clamp 100	£3.980	£3.490	£3.240	£4.680
KR46A	Screw Clamp 300	£4.850	£4.310	£4.110	£5.700

## INSPECTION & ASSEMBLY

### Mono Inspection Microscope

Zenith

A high quality instrument of metal construction and excellent optical performance. Ideal for use as a routine inspection microscope in industrial applications and highly recommended for Primary Science Education and Field Study Centres.

Specification:

- ★ Fixed magnification x20, x10 widefield eyepiece (locked on), x2 achromatic objective.
- ★ Field of view 9.5mm, working distance 81mm
- ★ Monocular head inclined 45° & rotatable 360° for convenient viewing, upright/ erect image
- ★ Smooth-action Rack and Pinion focussing
- ★ Black & White reversible Stage Plate
- ★ Complete with Dust Cover
- ★ Overall dimensions 145 x 110 x 260mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	3+	5+	1+
YC44X 1	Mono Insp Microscope	£64.000	£59.250	£56.250	£75.210

### Stereo Inspection Microscope

Zenith

A routine inspection microscope combining high optical quality with robust, reliable construction and simplicity of operation, making it an extremely useful tool for use in Industry, Field Study Centres and throughout education from Primary level upwards.

Specification:

- ★ Magnification x20, paired x10 Widefield Eyepieces (locked on) with rubber eyecups, achromatic objective pair x2
- ★ Field of view 10mm, working distance 70mm, dioptic adjustment provided, stereo head height adjustable to accommodate specimens of varying sizes.
- ★ Rack and Pinion focussing, adjustable Inter-Pupillary distance, black & white reversible stage plate
- ★ Height approx. 300mm

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	3+	5+	1+
YC45Y 1	Stereo Insp Microscope	£104.000	£99.100	£92.750	£122.210

## Helping Hands

A very useful piece of apparatus which allows a PCB or any delicate work to be held in position by means of two large crocodile clips. Enables user to keep both hands free for positioning, soldering, and assembling. Six ball joints allow adjustments to the exact angles needed, and the heavy iron base prevents tipping. Includes a glass magnifier.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
YK53H 1	Helping Hands + Mag	£6.370	£5.500	£4.500	£7.490

## Pocket Magnifier

A 50mm glass magnifying lens, which slides away into a protective synthetic leather pouch when not in use. It offers a 5x magnification factor with low distortion.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
ZF02C	Pocket Magnifier	£1.860	£1.700	£1.550	£2.190

## Large Magnifier

A good quality, general purpose 75mm dia. glass magnifier with a 93mm long handle. It offers a 3.5 x magnification factor with low distortion.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
ZF01B	Large Magnifier	£2.340	£2.100	£1.800	£2.750

### Illuminated Glass Magnifier

An illuminated x 2.5 glass magnifier that is ideal as an aid for fine inspection of electronic components and circuit boards, but equally suited for reading fine print, maps etc. The handle incorporates an on/off slide switch for the lamp, which is powered by 4 x AA size batteries (not supplied JY48C). Magnifier 90mm dia., handle length 135mm. A replacement bulb is available (RZ39N).

Retail Unit Price each (inc. VAT).

Order Code	Type 4002	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
BZ53H	Illuminated Glass	£3.460	£2.350	£1.980	£4.070
RZ39N	Replacement Bulb	£0.417	£0.295	£0.265	£0.490

### Eye Glass

Ideal for close observation and inspection of small objects. This eye glass has a 3x magnification and is housed in a plastic shroud. Suitable for close-up work. Focusing distance is 90mm (3.5in.).

Retail Unit Price each (inc. VAT).

Order Code	Type 7896	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
GU96E	Eye Glass	£1.720	£1.360	£1.240	£2.030

### Miniature Inspection Mirror

Optum

An inspection mirror on a long plastic handle. Overall length 125mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3121	Price each exc. VAT			inc. VAT each
		1+	25+	100+	
FS19W	Inspection Mirror	£0.774	£0.500	£0.396	£0.910

### Guiding Lite

A must for all cablers and electrical installers – a pair of guiding lights comprising either a plastic or metal bodied torch with a 1.5m plastic guide incorporating a miniature high brightness incandescent bulb at its tip. Ideal for illuminating trunking, cable conduits and darkened recesses. Replacement light pipes are also available, order FC33L. For the Deluxe, metal bodied, version order FC32K or for the economy, plastic bodied, version order FC31J. Requires 2 'AA' cells (JY50E).

Retail Unit Price each (inc. VAT).

Order Code	Type 10432	Price each exc. VAT			inc. VAT each

FC32K	Guiding Lite DeLux	£28.920	£26.100	£25.050	£33.990	
FC33L	Spare Lite Tube	£5.940	£5.640	£5.530	£6.990	

### Halogen Headtorch

Lago

A robust general-purpose head-torch, with all of the features of BN79X above. Instead of the prefocused bulb, though, a superbright halogen bulb is used to provide up to 100m of illumination. A fresh LR12 battery (not included ZB63T), will power the torch for between 6 and 7 hours. For longer battery life, an alkaline battery is available, JC94C. In this case, the battery pack is mounted on the back of the headband. Weight (without batteries): 135g. A pouch is available (BN78K). Helmet clips (BN80B) and a replacement bulb (BP87U) are also available.

Retail Unit Price each (inc. VAT).

Order Code	Type 10304	Price each exc. VAT		inc. VAT each
		1+	1+	
BN77J	Halogen Head Torch	£21.260	£24.990	
BN78K	Pouch	£4.890	£5.750	
BP87U	Spare Bulb	£3.190	£3.750	
BN80B	Helmet Clips	£1.650	£1.950	

### Powerlite 6V

Lago

A novel, extremely robust and dependable headtorch, as supplied to the Ministry of Defence, BR and UK electricity companies. It consists of a

bright 6V lamp with an adjustable 56mm parabolic lens to cover the field of view. This is fitted to a comfortable, adjustable and elasticated 30mm wide headband, which can be used with a safety helmet if the optional clips are used. A pair of battery packs, which between them take four 'AA' cells (alkaline recommended, not included JY48C) are strapped to the sides of the headband. A fresh set of batteries will yield between 6 and 7 hours of continuous operation. The bulb is a lens-ended brilliant type, and provides a 30m beam of illumination. For convenience, the lens also acts as the on/off switch, and has three operating modes: off, wide and spot beam. A compartment just under the lamp provides storage for spare bulbs. Weight (without batteries): 105g. Please note: this product is not waterproof, but will continue to work if immersed in water. It can be quickly opened up and dried, when convenient. The electrical contacts are rustproof and the lens varnished, for long service life under moisture-rich environmental conditions. A spare 3.5V 200mA lens-ended MES bulb (BP86T) is available for the above, as is a pouch (BN78K) and helmet clips (BN80B).

Retail Unit Price each (inc. VAT).

Order Code	Type 10306	Price each exc. VAT		inc. VAT each
		1+	1+	
BP86T	Spare Bulb	£0.638	£0.750

BN80B	Helmet Clips	£1.650	£1.950	

## SAFETY & PROTECTION

### BS Lens

Safety goggles for use when working with power tools, machinery or in situations where flying debris is a hazard. These safety goggles are manufactured from impact resistant polycarbonate to BS2092/1. The goggles have a comfortable, ventilated soft plastic surround and adjustable elastic head-band. Suitable for protection when drilling, filing, sanding, planing, chipping, spraying, grinding and other hazardous jobs.

Retail Unit Price each (inc. VAT).

Order Code	Type 4133	Price each exc. VAT			inc. VAT each
		1+	5+	10+	
YZ68Y	BS Safety Goggles	£4.900	£4.650	£4.530	£5.760

### Safety Coverspecs

Coll

The Coverspecs are manufactured from polycarbonate material and are designed for use with or without standard spectacles. They conform to BS2092 Impact Grade 2 and CE standard.

Retail Unit Price each (inc. VAT).

		1+	25+	100+	1+
GK91Y	PVC Gloves	£1.370	£1.100	£0.999	£1.620

## Heavy Duty Gauntlets

Heavy duty gauntlets made from a suede type material. Features long length for maximum protection and have internal lining. The gloves are suitable for general-purpose use and offer excellent protection from hard and dirty tasks.

Retail Unit Price each (inc. VAT).

Order Code	Type 4030	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
GK92A	Green Gauntlets	£3.650	£2.970	£2.700	£4.290

## Plastic Gloves

A pair of light, throw-away plastic gloves for those especially messy jobs, or when handling chemicals. Ideal for protecting the hands whilst handling ferric chloride and PCBs in the process of being etched. Supplied in pairs.

Retail Unit Price each (inc. VAT).

Order Code	Type 4052	Price each exc. VAT			inc. VAT each
		1+	50+	250+	1+
YJ48C	Plastic Gloves	£0.425	£0.312	£0.270	£0.500

## FIRST AID KITS

### First Aid Kit Refills

A range of first-aid kit refills suitable for offices, shops etc. All dressings are packed in sterile wrappings. Kit ACOP is intended for one to five employees in low-hazard environments. Kit ACOP 1 is intended for up to 20 employees in a low-hazard environment, or up to 10 employees in an environment with a greater degree of hazard. Kit ACOP 2 is intended for up to 50 employees.

Contents	ACOP	ACOP 1	ACOP 2

## FERRITES

### FERRITE KIT

#### EMC/RF Ferrite Kit

**RECENTLY INTRODUCED**

A kit comprising a selection of the cable EMI suppressors, toroidal cores, bead cores, anti-parasitic beads and wide band choke cores described in this section. Housed in a transparent component box, and offering a considerable saving compared to individual prices.

#### Order

Order Code	Quantity	Type
AN83E	1	Component Box
AF92A	2	Flat Cable Suppressor 25.4mm
AG94C	2	Flat Cable Suppressor 33.5mm
AG95D	10	Toroidal Core 12.7mm
AN75S	5	Toroidal Core 22mm
AN76H	2	Bead Core 25.9mm
AN77J	10	Bead Core 14.22mm
AN78K	15	Bead Core 12mm
AN80B	5	Bead Core 4mm
AN79L	25	Bead Core Taped Type
AN81C	25	Wide Band Choke 7MHz

Order Code	Type	Price each exc. VAT	inc. VAT each
GT10L	EMC/RF Ferrite Kit	£25.520	£29.990

## FERRITES

### Wired Bead Cores

**RECENTLY INTRODUCED**

A wired bead core designed for manual or automatic insertion into PCBs to prevent undesirable signal feedback and parasitic oscillation.

Practical frequency range is 100kHz to 2MHz. Dimensions: A = 2.5mm, D = 3mm, C = 1mm.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
AN79L	Bead Core Taped	£0.110	£0.130

## Bead Cores

**RECENTLY INTRODUCED**

A range of ferrite cores for EMI suppression on round cables. AN80B supplied in packs of 10.

Order Code	Suitable Frequency	Max Cable dia. mm
AN76H	100kHz to 2MHz	12mm
AN77J	100kHz to 2MHz	6mm
AN78K	300kHz to 7MHz	5mm
AN80B	100kHz to 2MHz	1.2mm

## EMI Suppressor For Flat Cables

**RECENTLY INTRODUCED**

A choice of two EMI ferrite suppressors for flat cables, designed to have a practical frequency range of 100kHz to 2MHz. The suppressor comes in two halves which are clamp round the cable by two supplied spring clips

AF92A is for 25.4mm flat cables  
AG94C is for 33.5mm flat cables

## FX4054 Ferrite Toroid

A general purpose nylon coated toroid made from 3E2 grade high permeability manganese-zinc ferrite material; suitable for use in a wide range of applications, including interference suppression, inductors, transformers, etc.

### Mechanical Specification

Inside diameter: 13.4mm  
Outside diameter: 23.6mm  
Thickness: 7.6mm

### Magnetic Specification

Initial inductance factor: 3472nH  
Residual plus eddy loss factor: <math>< 15 \times 10^{-6}</math>  
Curie point: >130°C  
Effective length of magnetic path: 57.0mm  
Core factor: 1.81mm<sup>-1</sup>  
Effective volume of core: 1790mm<sup>3</sup>  
Effective area of core: 31.5mm<sup>2</sup>  
 $\mu_{tor}$  at +25 to +70°C: >5000

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JR84F	FX-4054	£2.050	£2.420

## Ferrite EMC Filters

### Cure Radio Interference

One of the easiest ways of curing interference is with these special ferrite rings selected for the purpose. Simply wind a few turns of any hi-fi lead, TV down lead, or mains lead, around the ring. Interfering radio signals are then prevented from travelling into the equipment. As supplied by us to BBC, DTI and TV rental companies etc.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
AM35Q	Ferrite Filter	£2.540	£2.990

## NOTES ON WINDING INDUCTORS

The following range of pot cores allow inductances from about 10mH to 10H to be wound with a high degree of accuracy. In general it is best to use as thick enamelled copper wire as possible bearing in mind that the thicker the wire the fewer the number of turns that can be contained on the former within the core. Using thicker wire will have negligible effect on the value of inductance, but it will lower the DC resistance which makes the Q higher.

To calculate the number of turns required to make a particular inductance use the formula:

$$n = \sqrt{L/A_L} \text{ or } L = n^2 A_L$$

where n is the number of turns, L is the inductance in Henrys and  $A_L$  is the specific inductance.

The specific inductance of our cores is given in nanoHenrys and it is necessary to convert this to Henrys (i.e.  $\times 10^{-9}$ ) to obtain the inductance in Henrys.

Example:

Using Core Type 2 find the number of turns required to give 0.1 Henrys (100mH).

For core LA4345,  $A_L = 400nH$ .  $n = \sqrt{L/A_L} = \sqrt{0.1/400 \times 10^{-9}}$  turns  
 $= \sqrt{0.00025 \times 10^9}$  turns  
 $= \sqrt{250,000}$  turns  
 $= 500$  turns.

## Pot Core (Type 2)

### Phillips

#### Core (Type 2) (LA4345)

Pot core dia. 23mm, height 17mm. Printed circuit board mounting former (with pins on 2.54mm grid) and clips supplied separately. Specific inductance: 400nH.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
HX06G	Core Type 2	£2.370	£2.790

## Bobbin (Type 2) (DT 2470)

Single section bobbins for use with Core Type 2.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
HX07H	Bobbin Type 2	£0.927	£1.090

## Clips (Type 2) (DT 2396)

Tinned sprung steel clip for use with Core Type 2. two clips are required, note clips are sold singly.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
HX08J	Clip Type 2	£0.161	£0.190

## Pot Core (Type 3)

#### Core (Type 3) (LA4543)

Pot core dia. 28mm, height 19mm, printed circuit board mounting former (with pins on 2.54mm grid) and clips supplied separately. Specific inductance: 1000nH.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
HX09K	Type 3 Core	£3.820	£4.490

## Bobbin (Type 3) (DT 2534)

Single section with 5 pins for use with Type 3 Core.

Viewed from above

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
HX10L	Type 3 Bobbin	£1.090	£1.290

## Clips (Type 3) (DT2406)

Tinned sprung steel clips for use with Type 3 Core (2 clips required).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
HX11M	Type 3 Clips	£0.187	£0.220

## Ferrite Rods

Round ferrite rods with a slightly flattened cross-section for medium/long wave radios. Available in the following sizes which may be cut into shorter lengths with a hacksaw if required.

Type	Length (l)	Dia. (d)	d1	Apparent permeability
810	100mm ±1.5mm	8mm ±0.8mm	7mm ±0.3mm	9.2 to 9.5
101	140mm ±2mm	10mm ±0.4mm	9mm ±0.4mm	9.9 to 10.2

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
YG20W	Ferrite Rod 810	£0.842	£0.990
YG22Y	Ferrite Rod 101	£1.180	£1.390

e-mail: Sales@maplin.co.uk

## Ferrite Rod Aerial

A 127mm (5in.) long x 9.525mm (0.375in.) diameter ferrite rod onto which a medium wave and long wave coil are wound. Coils may be moved on rod for best performance (then fixed with a suitable adhesive). Inductance of medium wave coil: 370µH; long wave coil: 4.1mH.  
 Typical coverage:  
 Medium wave - 550 to 1550kHz (193m to 545m).  
 Long wave - 150 to 280kHz (1070 to 2000m).

Retail Unit Price each (inc. VAT).

Order Code	Type 3019	Price each exc. VAT	inc. VAT each
LB12N	MW/LW Aerial	1+ £3.710 10+ £0.533 25+ £0.426	1+ £4.360

## INDUCTORS / CHOKES / COILS

## Moulded RF Coils

A range of small moulded coils with ferrite cores for designers. A special nylon trim tool is also available to suit these cores - a metal tool must not be used. The coils are available in 1 1/2 to 8 1/2 turn types and are particularly suited to use at frequencies between 40 and 170MHz.

Inductance in µH	Turns	Q at 100MHz	Colour code
0-04	1 1/2	150	White
0-066	2 1/2	150	Red
0-114	3 1/2	150	Orange
0-180	4 1/2	170	Yellow
0-230	5 1/2	140	Green
0-297	6 1/2	130	Blue
0-389	7 1/2	140	Violet
0-450	8 1/2	170	White

## Miniature Radial Lead Inductors

Newport Components

A range of general purpose inductors with radial leads. Their small size makes them particularly suitable for power-line decoupling and low-power switching regulator applications.

This series offers lower DC resistance and a higher current rating than its counterparts. All parts are protected by a flame retardant sleeve. Size is

6.5mm diameter by 11mm high, with leads spaced at 4mm. (680µH is 2.73mm.)

Order Code	Type No.	Inductance µH (±10%) at 1kHz	DC Resistance Ω (max.)	DC Current Continuous A

## Bobbin Type Inductors

Newport Components

These inductors use a novel bobbin core manufactured from a material with a high saturation flux density. The high current capability makes these devices suitable for power-line applications, and they are ideal for use in switching regulators and filters. They have low temperature dependence and can be used at high currents. Each component is finished with a flame retardant heat shrink sleeve. For additional mechanical stability, these inductors may be mounted using an M4 non-magnetic bolt (e.g. nylon).

Type	A (mm)	B (mm)
14-104-54	24	14.5
14-224-35	24	14.5
14-334-28	24	14.5

## R.F. Choke

An axial lead, lacquer-coated radio frequency choke, featuring high inductance and small size.  
 Inductance: 4.7mH  
 Q<sub>min</sub>: 35 (Test frequency: 252kHz)  
 Rated current: 55mA  
 Dimensions: 9.2 x 4mm dia.

Retail Unit Price each (inc. VAT).

Order Code	Type 3016	Price each exc. VAT	inc. VAT each
UK80B	4.7mH Choke	1+ £0.587 25+ £0.450 100+ £0.336	1+ £0.690

## General Purpose Axial Lead Inductor

Newport Components

A general purpose inductor (type 1200/15) with axial lead terminations. The high permeability wound ferrite rod is finished with a flame-retardant heat-shrink sleeve.

**Specification:**  
 Inductance (@ 1kHz): 1000µH (±10%)  
 DC resistance: 0.77Ω  
 DC current: 1A continuous  
 Q (at 10kHz): 55  
 Self-resonant frequency: 800kHz  
 Diameter: 12mm

Retail Unit Price each (inc. VAT).

UM13P	Inductor 1200/15	1+ £1.940 10+ £1.440 25+ £1.300	1+ £2.290

## Search Coil

A 100µH inductor designed for use as a search coil in our Mini Metal Detector Kit. Overall size 29mm long x 10mm diameter.

Retail Unit Price each (inc. VAT).

Order Code	Type 3615	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
JC25C	100µH Search Coil	£0.842	£0.670	£0.590	£0.990

## 293mH RF Coil

An adjustable 293mH RF Coil, as specified for the Rugby Clock Superhet Receiver project (LP63T) published in issue 99 of Electronics The Maplin Magazine.

Retail Unit Price each (inc. VAT).

Order Code	Type 11950	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
DT18U	293mH RF Coil	£13.180			£15.490

## High Current Toroidal Inductors

Newport Components

A range of high current vertically mounted toroidal inductors, designed for use in switching power supply and power line filtering circuits. Suitable for any application requiring high current handling with minimal EMI emissions.

The inductors are mounted on a plastic base having UL94-VO rating and secured by a cable tie.

Type	Inductance (@ 1kHz) (µH ±10%)	DC Resistance (mΩ max.)	DC Current (Continuous) (A max.)
19104B	100	65	2.2
19334B	330	120	1.0

BU58N	Toroid 19474	£3.310	£2.560	£2.130	£3.900

## High Current Toroids

High current chokes wound on toroids designed primarily for use in switched mode power supplies. Two types are available:  
Inductance: 150µH. Max current: 5A intermittent, 3A continuous.  
Inductance: 300µH. Max current: 8A intermittent, 5A continuous.

Retail Unit Price each (inc. VAT).

Order Code	Type 3631	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+

## Very High Inductance Choke

A small audio choke inductance 10H (with no DC current present or 3H with 12mA DC). DC resistance: 750Ω.  
Size: 20 x 16 x 16mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 3616	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
HW27E	Choke 10H	£3.540	£3.360	£3.090	£4.170

## Low Frequency Choke

A high value LF choke with a laminated steel core of separate 'E' and 'I' stacks separated by a paper insulator to minimise saturation. Designed for main line supply smoothing in HT valve power supplies. Inductance value is nominally in the range 7 to 10 Henries, while the DC resistance is 150Ω. The choke was originally designed for the 'Newton' Valve Pre-amplifier project.

### Specification

Choke core material:	Electrical steel
Lamination distribution:	Insulated 'E' and 'I' groups
Specific inductance:	7 to 10H nominal @ 50mA DC
Maximum DC (wire rating):	100mA
DC resistance:	150Ω approx.
DC voltage drop:	7.5V @ 50mA
Mechanical fitting:	2-hole 'clamp' type
Fixing centres:	67 to 75mm (M4 or 4BA)
Overall dimensions excluding lugs:	60 x 52 x 49mm high

Retail Unit Price each (inc. VAT).

Order Code	Type 6935	Price each exc. VAT			inc. VAT each
		1+	25+	100+	1+
ST28F	10H 100mA Choke	£6.060	£5.460	£4.990	£7.130

### TV Video IF Coil

A TV I.F. coil which will tune to 38-9MHz using a 100pF capacitor in parallel. Adjustable ferrite core.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
UL55K	Toko TV IF	£0.476	£0.560

### TV Sound IF Coil

Bonex

A TV sound I.F. coil with one single winding of 8 turns, which should be tuned externally with 560pF for a resonant frequency of 6MHz, tunable with adjustable ferrite core. Q = 75. Colour: black.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
UL56L	Toko TV Sound	£0.502	£0.590

### 15µ H Adjustable Coil

Type 119ANA5873HM.

#### Specification

Q:	80
Suggested Frequency:	2-52MHz
Turns between Pins 1 & 3:	25
Inductance:	15µH
Identification	
Colour:	Pink

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
UH86T	15µH Adjustable Coil	£0.544	£0.640

### 15kHz Lowpass Filter

Bonex

A multiple inductor low-pass filter with a cut-off frequency at 15kHz which will find uses for the output stage filtering of F.M. audio receivers and stereo decoders.

#### Specification

Input and output impedances:	3-3kΩ
Attenuation:	-2.5 to 3dB @ 15kHz -43dB @ 36-4kHz max. 12µs @ 30kHz
Group delay time:	
Dimensions of can: length 18mm, width 6-1mm, height 9-5mm. Pin length 3mm.	

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
JMS4C	15kHz L.P.F.	£1.690	£1.990

### Coil for Mains Tx/Rx Project

Centre frequency:	125kHz
Q (pins 3, 4) unloaded:	25 min at 125kHz
Adjustment range (pins 3, 4) at 125kHz:	33,000pF ±6%
External tuning cap:	33,000pF
Winding pin 4 to 3:	49 1/2 turns
pin 5 to 6:	7 turns
pin 5 to 2:	3 1/2 turns
pin 5 to 1:	4 1/2 turns

## PULSE TRANSFORMERS

### 772 Series Pulse Transformers

Newport Components

Designed for thyristor/triac triggering applications these pulse transformers are fully encapsulated in a moulded case.

The windings have been tested to withstand 2500V rms at 50Hz. The windings may be linked together to obtain alternative turns ratios.

Type 77207 is a six pin package with a single primary (pins 1 and 2) and secondary winding (pins 3 and 4 (pins 5 and 6 may be removed if required)). Type 77208 is a six pin package with a single primary winding and two secondary windings. Type 77209 is a six pin package with a double wound primary and two secondary windings.

#### Specification

Type:	77207	77208	77209
Turns ratio ±2%:	1:1	1:1:1	2:1:1
Primary inductance mH (min.):	20-7	20-7	20-7
Primary Et constant Vµs:	494	494	494
Leakage inductance µH (max.):	18	40	40
Capacity pF (max.):	65	40	40
DC resistance of winding Ω (max.):			
Primary:	3-5	3-6	3-5
Secondary 1:	3-4	3-1	1-6
Secondary 2:		4-2	2

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
UM32K	Pulse Tx 77207	£4.240	£4.990
UM33L	Pulse Tx 77208	£4.240	£4.990
UM34M	Pulse Tx 77209	£4.240	£4.990

### 766 Series Pulse Transformers

Newport Components

These ferrite cored transformers are fully encapsulated in a high grade moulded case. They are widely used in digital and data processing applications, and for line coupling, matching and isolating. Linking the secondaries together can produce an alternative ratio.

Types 76601/1, 76601/2 and 76601/3 are four pin packages and comprise a single primary and secondary winding.

Types 76602/2 and 76602/3 are six pin packages and comprise a single primary and two secondary windings.

**Specification**

Type	76601/1	76601/2	76601/3
Turns ratio $\pm 2\%$ :	1:1	1:1	1:1
Primary inductance $\mu\text{H}$ (min):	2060	492	219
Primary Et constant $V\mu\text{s}$ :	17.5	8.5	5.5
Capacity pF (max):	45	20	12
Leakage inductance $\mu\text{H}$ (max):	0.6	0.3	0.25
DC resistance of windings $\Omega$ (max):	1.5	0.8	0.5

Type	76602/2	76602/3
Turns ratio $\pm 2\%$ :	1:1:1	1:1:1
Primary inductance $\mu\text{H}$ (min):	492	219
Primary Et constant $V\mu\text{s}$ :	8.5	5.5
Capacity pF (max):	20	12
Leakage inductance $\mu\text{H}$ (max):	0.3	0.25
DC resistance of windings $\Omega$ (max):	0.8	0.5

## 1000 Series Pulse Transformers

**Newport Components**

The fully encapsulated 1000 series pulse transformers with moulded cases, are intended to be used in wide band and pulse applications including thyristor/triac triggering circuits. Each winding has been voltage tested to withstand 2000V rms, 50Hz. Type 1001 is a four pin package comprising primary and secondary windings. Types 1002 and 1003 are six pin packages comprising one primary and two secondary windings.

**Specification**

	1001	1002	1003
Turns ratio $\pm 2\%$ :	1:1	1:1:1	2:1:1
Primary inductance mH (min.):	3	3	12

## DELAY LINES

### Delay Line

The delay consists of two parallel coils which are astatically wound to decrease the influence of magnetic fields from other parts of the receiver. The delay line is in a plastic housing. Three pins enable the unit to be soldered directly to a printed circuit board.

**Electrical Data**  
(measured at 25°C)

Delay:	270ns $\pm 10\%$
Characteristic impedance:	0.9k $\Omega$ $\pm 10\%$
Group Delay (with respect to 0.5 MHz) at 3.5MHz max:	30ns
at 5.0MHz max:	60ns
Bandwidth at -3dB:	5MHz
Ripple with 2r-pulse on pin 2 max:	2.5%
Breakdown voltage between pins 2 and 3 min:	50V DC

Price each is shown. Order quantities less than 25 will be sold at the one off inc. VAT price.

## MAINS TRANSFORMERS

Our range of laminated core transformers is organised as follows:

**Standard Transformers:** All types are suitable for use between 230 and 240 VAC and comply with BS3535 / EN60742.

**PCB Mounting Transformers:** These units are now manufactured by JJ Transformers.

**Auto-Transformers:** All of our Autotransformers comply with BS7452 and CE/LV Directives.

**US Mains Auto-Transformers:** Our new range of portable US Mains Autotransformers are ideal for use in the home. CE Marked, BS7452 / IEC989.

**Public Address Transformers:** a range of 100V line matching transformers offering power matching from 1/4W through to 30W in many useful steps.

**Isolation Transformers:** 240V to 240V isolation transformers available in 20, 50 and 100VA versions, also 2KVA and 3KVA portable site types.

### Sub-Miniature

A range of very small transformers that are wire ended. All types have 100mA output. Overall size: 37 x 31 x 30mm. Fixing centres: 45mm. All primaries tapped 0 to 240V.

Type	Secondary
3V	3-0-3V
6V	6-0-6V
9V	9-0-9V
12V	12-0-12V
15V	15-0-15V

Retail Unit Price each (inc. VAT).

Order Code	Type 3686	Price each exc. VAT			inc. VAT each
		1+	10+	25+	1+
YN12N	Sub-Min Tr 3V	£3.140	£2.400	£2.180	£3.690
WB00A	Sub-Min Tr 6V	£3.390	£2.400	£2.180	£3.990

YN13P	Sub-Min Tr 15V	£3.390	£2.580	£2.330	£3.990

## Miniature 250mA

A range of small transformers that are wire ended. All types have a 250mA output, centre-tapped. All primaries are 0 to 240V. Available in 6V, 9V, 12V and 15V types.

Type	Secondary	Size(w x h x d)*	Fixing Centres
6V	6-0-6V	36 x 31 x 34mm	46mm
9V	9-0-9V	43 x 35 x 34mm	51mm
12V	12-0-12V	43 x 35 x 36mm	51mm
15V	15-0-15V	43 x 35 x 38mm	51mm

\*Size excludes fixing feet which protrude 10mm on each side.

Retail Unit Price each (inc. VAT).

YN16S	250mA Tr 12V	£4.240	£2.710	£2.450	£4.990
YN17T	250mA Tr 15V	£4.240	£2.960	£2.670	£4.990

## Standard Range

All Mains transformers in this section are suitable for 230-240V, 50-60Hz supply. Secondary voltages are specified at 240V input and should be reduced in proportion when the input is below 240V. A range of high quality mains transformers, all with single mains primary windings and twin secondaries, wound on double-section safety bobbins. All comply with BS3535 / EN60742. Note 6VA Chassis types would require extra insulation between tags and fixing clamp if used in a double insulated application. If core is connected to accessible metal parts, they should be earthed. Secondaries can be connected in parallel to double the current capacity, or in series to double the voltage or form a centre-tapped secondary. Connections are by solder tags.

## 6VA Chassis Mounting

With 2-hole fixing clamp and solder tags.

### Dimensions:

Size (W x D x H): 45 x 40 x 37mm  
Fixing centres: 54mm

### Outputs:

Code	Secondaries	Maximum Current
WB06G	2 x 6V	500mA
DH24B	2 x 9V	333mA
WB10L	2 x 12V	250mA
WB15R	2 x 15V	200mA
WB16S	2 x 20V	150mA
WB20W	2 x 24V	125mA

## 12VA Chassis Mounting

With 2-hole fixing clamp and solder tags.

### Dimensions:

Size (W x D x H): 59 x 50 x 49mm  
Fixing centres: 70mm

### Outputs:

Code	Secondaries	Maximum Current
YJ50E	2 x 6V	1A
WB11M	2 x 9V	666mA
DM27E	2 x 12V	500mA
DM28F	2 x 15V	400mA
DH25C	2 x 20V	300mA

## 20/25VA Chassis Mounting

With 2-hole fixing clamp and solder tags.

### Dimensions:

Size (W x D x H): 69 x 57 x 57mm  
Fixing centres: 80mm

### Outputs:

Code	Secondaries	Maximum Current
YJ51F	2 x 6V	2A
DH26D	2 x 9V	1.38A
WB25C	2 x 12V	1A
DH27E	2 x 15V	830mA
DH28F	2 x 20V	625mA

## 50VA Chassis Mounting

With 2-hole fixing clamp and solder tags.

### Dimensions:

Size (W x D x H): 78 x 63 x 65mm  
Fixing centres: 92mm

### Outputs:

Code	Secondaries	Maximum Current
DH29G	2 x 6V	4A
DH30H	2 x 9V	2.78A
WB26D	2 x 12V	2A
DH31J	2 x 15V	1.66A
DH32K	2 x 20V	1.25A

## 100VA Chassis Mounting

With multi-hole fixing frames and solder tags.

### Dimensions:

Size (W x D x H): 91 x 70 x 77mm  
Fixing centres: 4 holes @ 57 x 45mm

### Outputs:

Code	Secondaries	Maximum Current
DH33L	2 x 6V	8.33A
DH35Q	2 x 12V	4.17A
DH36P	2 x 15V	3.33A
DH37S	2 x 20V	2.5A
DH38R	2 x 55V	910mA

## Low Profile Encapsulated PCB Mounting Transformers

JJ Transformers

These are compact devices in a range from 2VA to 30VA, suitable for use where space is at a premium. The wound bobbins are mounted in resin filled thermoplastic cases designed for through hole soldering to PCBs. They are designed and manufactured to BS415 Class 2, IEC65, class 2. Integrally moulded mounting holes provide additional fixing points by four self tapping screws (No.6 x 9.5mm).

### Dimensions in mm

The inputs are 120/240V AC, with independent primary windings enabling connection in series for 240V and parallel for 120V input. The range available is shown below.

## PCB Mounting Transformers

Two ranges of 6 and 12VA PCB mounting transformers, identical to the chassis-mount range but having PCB pins instead of solder tags, and no hardware fixing clamps. The pins require PCB holes of 1.6mm diameter. Due to the extra weight of the 12VA types, these have three additional 'dummy' PCB pins for extra security. The actual PCB may also need extra hardware support fixings in the area close to the transformer. All types comply with BS3535 / EN60742. All suitable for 230-240V supply, data given for 240V.

## 6VA PCB Mounting

With six PCB pins.

### Dimensions:

Size (W x D): 45 x 37mm  
Height above PCB: 35mm

### Outputs:

Code	Secondaries	Maximum Current
YJ52G	2 x 6V	500mA
YJ53H	2 x 9V	333mA
YJ54J	2 x 12V	250mA
YJ55K	2 x 15V	200mA
DH39N	2 x 20V	150mA
DH40T	2 x 24V	125mA

## 12VA PCB Mounting

With six terminated PCB pins and three non-connected support pins.

### Outputs:

Code	Secondaries	Maximum Current
DM11M	2 x 6V	1A
DM26D	2 x 9V	660mA
DM13P	2 x 12V	500mA
DH41U	2 x 15V	400mA
DH42V	2 x 20V	300mA

### Dimensions:

Size (W x D): 58 x 48mm  
Height above PCB: 45mm

## Twin Secondary and Multi-Tapped Mains Transformers

A useful range of 230-240V mains transformers mostly with twin, tapped secondary windings, providing a varied choice of secondary combinations. Mechanical fixing is either by clamps or multi-hole frames. In the following table, 2-hole fixing centres are indicated by a single number in the 'fixing centres' column, or else multi-hole frames are fitted, and the dimensions of the centres of four holes are given. Dimensions in mm. All types comply with BS3535 / EN60742. All output data given for 240V input.

Code	VA Rating	Secondary Windings	Maximum Current	Dimensions W x D x H (mm)	Fixing Centres
WB03D	24	(1) 0-8-9V (2) 0-8-9V	1.5A 1.5A	69 x 63 x 57	80
YK28F	9	(1) 0-12V (2) 0-12V	330mA 330mA	55 x 45 x 45	70

## Inverter Transformer

A high quality inverter transformer as used in our 12V/240V, 60W Inverter Kit LW95D, and suitable for similar inverter circuits. Winding details, primary: centre-tapped to suit 12V DC, 50Hz inverter driver at 3A. Secondary: single winding for 240/260V AC output at a nominal 500mA maximum (120W). Turns ratio: 1+1:32. Fitted with multi-hole mounting frames.

### Dimensions:

Size (W x D x H): 100 x 88 x 100mm  
Fixing centres: 63.5 x 67mm

## Terminal Covers

Terminal covers for standard transformer styles with solder tags. These covers fit over the terminals and hold on to the plastic bobbin cover beneath. Wires exit through the top of the cover. Three sizes are

available: 5-way for 6VA transformers with up to 5 solder tags, 5-way for 20/25VA size and 6-way for 50 to 100VA sizes. These covers are particularly suitable for use with isolation transformers.

Retail Unit Price each (inc. VAT).

## AUTO TRANSFORMERS

### Portable Stepdown Auto-Transformers

A range of portable auto-transformers intended to operate American type 110/120V equipment in the U.K. The output sockets are designed to accept 2- or 3-pin American style plugs. An output fuse is fitted as standard on all models that is appropriate to the auto-transformer rating. The 220/240V input is fitted with 1m of 3-core flex with moulded plug.

The auto-transformers use highly efficient toroidal windings and each unit is encapsulated with potting compound (to UL94V0) in a robust housing. All types are manufactured to BS7452:1991 and IEC.989:1991, and generate virtually no external magnetic field.

All types are suitable for 220/240V input and 110/120V output.

Order Code	Max Load	No. of Outlets	Dimensions H x D
VR02C	100VA	1	95 x 88mm

## US Mains Type Auto-Transformers

Step-down transformers of 100, 250 and 450VA ratings to adapt UK 230/240V 50/60Hz mains supply to American standard 110/120V appliances. All types comply with BS7452, have enclosing steel shrouds and come complete with UK mains lead and standard American 3-pin outlet socket in the cover. Mounting is by four single hole brackets at the base.

**WARNING:** auto-transformers DO NOT provide safety isolation from the 230/240V mains supply and, despite the lower voltage, involved the 110V should be treated with the same respect as the 240V mains supply.

These units are NOT intended for outdoor use, neither should they be used with portable tools. Mounting is by four single hole brackets at the base, and the auto-transformer should be secured to a suitable surface/enclosure for safety. The auto-transformers are NOT intended to be portable.

Order Code	VA Rating	Nominal Max. Current (110/120V out)	Dimensions (mm)	Fixing Centres (mm)
YM50E	100	830mA	80 x 120 x 97	63.5 x 67

DH46A 10	US Mains 450VA	£66.470	£38.000	£25.300	£78.110

## Auto-Transformers

A range of auto-transformers which provide step-up or step-down to adapt 110/120V equipment to 230/240V AC mains and vice versa, suitable for 50/60Hz operation. Five different power ratings are available from 50VA to 450VA, all complying with BS7452, with steel shrouds and screw terminal connections. All types tapped at 0-120-240V.

**WARNING:** auto-transformers DO NOT provide safety isolation from the 110/240V mains supply (can be used for step-up/down) and, despite the lower voltage, involved the 110V should be treated with the same respect as the 240V mains supply. These units are NOT intended for outdoor use, neither should they be used with portable tools. Mounting is by four single hole brackets at the base. Note this type is intended for permanent wiring and

must be mounted in an enclosure so that the terminal block and wiring are not readily accessible.

Order Code	VA Rating	Nominal Max. Current (110/120V out)	Dimensions (mm)	Fixing Centres (mm)

LB14Q	Min Tr LT700	£1.150	£0.560	£0.418	£1.360

### Microphone Transformer

A transformer specially designed to match low impedance balanced or unbalanced microphones into unbalanced high impedance inputs.

Turns ratio: 7:1  
 Input impedance: 300-0-300Ω (600Ω)  
 Output impedance: 20kΩ  
 Frequency response: 50Hz to 18kHz (-1dB)  
 The transformer is suitable for direct PCB mounting. Overall dimensions: 30 x 30 x 30mm high including 5mm long PCB mounting pins.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
FD23A	Mic Xlfr 600/20	£7.960	£4.720	£4.180	£9.360

## 600-600Ω Line Isolating Transformer

A 1:1 ratio isolating transformer for use on 600Ω systems. Low insertion loss and good linearity over a wide signal level range coupled with a high proof voltage make this transformer ideally suited for such applications as telephony, general data transfer, audio and holding coil circuits. Please Note, this product is not approved for connection to the public switched telephone network. Audio Frequency range is 300 to 3kHz at 2dB. Dimensions: 37 x 40mm. Fixing centres: 53.5mm x 48A. Weight: 170g.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	10+	25+	
BK57M	600 Ohm Isoltran	£6.800	£5.160	£4.630	£7.990

## 100V Line-Matching Transformers

A range of line-matching transformers for multiple loudspeaker and Public Address systems. The range offers a choice of power outputs from 1/4W to 30W. Universal types can drive 4, 8 or 16Ω loads, all others are matched to 8Ω only.

The function of these transformers is to match the 100V line output of PA (Public Address) amplifiers to all loudspeakers in the system. They MUST NOT be connected to amplifiers or systems other than those designed for 100V line operation. Operating in the medium frequency range, the transformers are designed for typical commercial PA speech and music applications. The outputs quoted do not include input losses.

### Universal Types 15/30W

Input: standard 100V line.  
 Output power: 1, 2, 5 or 15/30W, selected by connecting the 100V line to the appropriate primary taps. Impedance matching: 4, 8 or 16Ω, selected by connecting the loudspeaker to the appropriate secondary taps.

**WARNING:** DO NOT adjust the primary taps of these transformers without first disconnecting the 100V line input or switching off the equipment. High voltages can be found on the adjacent primary taps of this type where only 100V would be expected. Mounting is by 2-hole clamps.

Code	Maximum Power	Dimensions W x D x H	Fixing Centres
DH47B	15W	69 x 57 x 57mm	80mm
YJ60Q	30W	78 x 63 x 65mm	92mm

**Businesses and Government Establishments – open a Maplin MPS Account**

Just complete form at back of catalogue

## Tapped Output Types

Line transformers with fixed 100V line inputs and outputs for 8Ω loudspeakers only. Adjustable output taps provide a range of 4 power levels from each type; two different power ranges are available. Mounting is by 2-hole clips.

Code	Output Taps, Watts	Dimensions W x D x H	Fixing Centres
DH49D	1/4, 1/2, 1, 2W		45 x 40 x 37mm
DH48C	1, 2, 4, 10W	59 x 50 x 49mm	70mm

## Low Power Step-up Transformer

This transformer may find applications where a low power step-up transformer is required. Transformer is wound on a LA4343 pot core.

**Specification**

Primary: 10 turns, 24 swg  
 Secondary: 600 turns, 40 swg  
 Turns ratio: 1:60  
 Dimensions: 29.3 x 27.5 x 18.5mm

XP27E 2	Tp 2400.1 & 6.3/1.5	£11.710	£7.980	£7.000	£13.760

## High Quality Valve Transformer

A transformer with HT and heater secondaries for valve circuits. It has a steel top cover over one side of the former, and is designed to be mounted into a

rectangular cutout in a suitable chassis on the other side. The core is grain oriented to keep the hum field to a minimum and the primary windings are dual standard 115/230V.

**Specification**  
 Transformer core material: Low-field grain-oriented steel  
 Primary windings: 2 x 115V (dual UK/US standard)  
 Secondary windings: 3  
 HT voltage: 350V max.\*  
 HT current: 100mA max.\*  
 Heater #1 voltage: 6.3V  
 Heater #1 current: 1.5A max.  
 Heater #2 voltage: 15V  
 Heater #2 current: 1.5A max.  
 Mechanical fittings: 4-bolt top cover and frame  
 Fixing centres: 64.5 x 52mm (4 off)  
 Overall dimensions: 80 x 66 x 70mm high  
 \*Not available simultaneously.  
 The transformer is designed for use in the 'Newton' Valve Preamplifier project. The 15V secondary is intended to source a 12.6V DC smoothed and regulated heater supply.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
ST29G 2	350V 3-Sec Valve TX	£18.020	£14.250	£12.950	£21.180

## High Power Valve Mains Transformer

A mains transformer for high power valve circuits such as audio power amplifiers with twin 0-115V primary windings, and separate single-ended HT and centre-tapped heater secondaries. It was developed for use in our 'Millennium 4-20' valve amplifier project.

The transformer is intended for mounting on top of a chassis where one side of the former, carrying all primary and secondary connections, passes through a rectangular cutout, and the top side of the former is shielded by a steel top cover. The core therefore seats flat on the chassis and 4 x M5 mounting hardware is included. Due to the heavy gauge of wire used, the heater secondaries are not terminated at solder tags.

**Specification**  
 Input voltage: 230V AC @ 50Hz (twin 0-115V)  
 HT secondary output voltage: 350V AC max.\*  
 HT secondary output current: 250mA max.\*  
 HT secondary winding impedance: 300Ω approx.  
 Heater secondary voltage: 6.3V AC centre-tapped (3.15-0-3.15V) 7A max.  
 Heater secondary current: 7A max.  
 Power consumption, I<sub>HT</sub> = 125mA, I<sub>h</sub> = 3.5A: 70W (VHT = 313V AC (350-300Ω x 125mA))  
 I<sub>HT</sub> = 250mA, I<sub>h</sub> = 7A: 120W (VHT = 275V AC (350-300Ω x 250mA))

Switch-on input surge current, HT into 68μF and fully loaded heater: >800mA  
 Nominal continuous primary input current at full load: >600mA  
 Overall dimensions: 96 x 80 x 85mm  
 Fixing centres: 79.3 x 63.5mm  
 Former cutout: 68 x 62mm min.  
 \* Due to the internal winding impedance, max. voltage and current are not available simultaneously.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DM54J 5	Valve Amp Mains Trans	£28.850	£21.700	£19.600	£33.900

## Valve Output Transformer

A push-pull output transformer suitable for class A/B and B valve output stages at powers up to 20W rms. Screen grid taps are provided for distributed-load ('ultra-linear') designs, but need not be used. It was developed for use in our 'Millennium 4-20' valve amplifier project.

The transformer is intended for mounting on top of a chassis where one side of the former, carrying all primary and secondary connections, pass through a rectangular cutout, and the top side of the former is shielded by a steel top cover. The core therefore seats flat on the chassis and 4 x M5 mounting hardware is included.

**Specification**  
 Primary anode-to-anode impedance (Ra/a): 6-6kΩ  
 Screen grid taps: 43% from CT  
 Winding distribution: Five sections of primary and secondary windings interleaved  
 Usable frequency range: 25Hz to 75kHz ±3dB @ 20W rms, <10Hz to >90kHz ±1dB @ 1W rms  
 Low frequency cut-off: 25Hz @ 20W throughput  
 Natural resonance frequency of primary winding: 80kHz approx.  
 Max. Power throughput: 20W rms (30W rms absolute max.)  
 Speaker load matching: 8Ω only  
 Output impedance: 0-2Ω approx.  
 Damping factor: 50 approx.  
 Overall dimensions: 85 x 71 x 84mm  
 Fixing centres: 71.5 x 57mm  
 Former cutout: 60 x 56mm min.

Note that this transformer must only be used in push-pull modes with HT supply connected to CT, and never in single-ended mode.

## TOROIDAL MAINS TRANSFORMERS

### Toroidal Mains Transformers

A range of high quality, toroidal mains transformers whose main features include a low magnetic field, small size and weight, low noise and excellent regulation. A mounting kit is supplied with each, allowing easy mounting to a chassis by placing one neoprene washer below, and the other above the transformer, and bolting the dished washer down on top. DO NOT over-tighten, also ensure that both ends of the bolt do not make contact with the chassis (e.g., top of bolt touches lid of case). Because the bolt is aligned in the same direction as the primary and secondary turns, this will effectively create a short-circuit winding. Either shorten the bolt if too long, or provide some insulation, such as plastic, so the bolt does not make contact. Note that an antisurge fuse should always be used as the mains fuse for toroidal transformers, as they exhibit a very high initial surge current at switch on. All types have a single 240V primary and two separate identical secondaries, except YZ23A, YK33L and XJ65V. All connections are approximately 20cm long sleeved leads, and primaries are always colour coded as orange. The types available are shown in the following list. Dimensions include mounting kit. The start/finish colour codes of the secondary windings are also shown. All types are approved to EN60742/BS3535, VDE0551 and ISO9003.

## SPECIALISED TRANSFORMERS

### Geiger Transformer

A specially wound transformer for use with Geiger tubes, as used in the Radiation Monitoring kit LM25C. The transformer is designed to operate from a 9V, 40kHz oscillator circuit and has a feedback winding as well as the primary. The secondary will produce 250V peak-to-peak.

Retail Unit Price each (inc. VAT).

Order Code	Type 1193	Price each exc. VAT	inc. VAT each
FP78K	Geiger Transformer	£4.240	£4.990

## LIGHTING TRANSFORMER

### Electronic Lighting Transformer

This electronic transformer is designed specifically for use with low voltage lighting. It is rated at 20 - 105 va, is double insulated and provided with internal overload and short circuit protection. This transformer is dimmable using standard tungsten dimmers (to BS 800/5518). An excellent transformer for variable wattage use.

#### Specifications

Length 140mm  
Diameter 32mm  
Weight 230g  
Rating 20-105va

Retail Unit Price each (inc. VAT).

Order Code	Type 12804	Price each exc. VAT			inc. VAT each
VJ13P	20-105 VA Trans.	£25.520	£23.290	£21.840	£29.990

### Toroidal Lighting Transformer

This toroidal transformer is specifically designed to work with individual lamps. It is double insulated and has self resetting thermal overload protection. Its small size makes it ideally suited for use with recessed downlighter and eyeball fittings.

#### Specifications

Length 78mm  
Diameter 62mm  
Weight 750g  
Input 240V 50Hz  
Output 12vAC  
Rating 50va

Retail Unit Price each (inc. VAT).

Order Code	Type 12805	Price each exc. VAT			inc. VAT each
VJ12N	12V Toroidal Trans.	£11.900	£10.970	£10.330	£13.990

### Electronic Safety Converter

This very compact and safe electronic converter is the ideal way to convert mains power for low voltage (12V) dichroic lamps of up to 50W (order codes AB73Q, AB74R, AB75S, AB76H, AB77J and AB78K). The converter stays cool in use, is quick and easy to fit and produces a controlled power

flow that will help to prolong bulb life. Can be used with dimmer switches. Dimensions: 75 x 33 x 25mm.

Retail Unit Price each (inc. VAT).

Order Code	Type 11663	Price each exc. VAT			inc. VAT each
KE85G	Lighting Transformer	£9.350	£7.500	£6.950	£10.990

## ISOLATION TRANSFORMERS

### Isolation Transformers

A range of 240V to 240V AC mains isolation transformers, wound on double-section safety bobbins. Four sizes are available; 12, 25, 50 and 100VA. The three smaller sizes have two-hole fixing clamps. The 100VA type has multi-hole frames for chassis mounting and solder tag connections.

Code	VA Rating	Maximum Current	Dimensions (W x D x H)	Fixing Centres
LW33L	12	50mA	59 x 50 x 49mm	70mm
DH50E	25	100mA	69 x 57 x 57mm	80mm
DH51F	50	200mA	78 x 63 x 65mm	92mm
DH52G	100	400mA	91 x 70 x 77mm	4 holes @ 57 x 45mm

Retail Unit Price each (inc. VAT).

Order Code	Type 3703	Price each exc. VAT			inc. VAT each
LW33L	12VA Isotran	£8.290	£4.650	£4.150	£7.400
DH50E	25VA Isotran	£9.000	£6.400	£5.750	£10.580
DH51F	50VA Isotran	£10.800	£7.600	£6.750	£12.700
DH52G	100VA Isotran	£18.920	£13.000	£11.650	£22.240

### Toroidal Isolation Transformers

A 230V mains isolation transformer designed to mount in enclosures or equipment. Both types are approved to EN60742/BS3535, VDE0551 and ISO9003. An anti-surge type fuse should be used as the mains fuse.

Primary windings are colour coded orange with secondary windings coded red. All connections are approximately 20mm long. Dimensions include mounting kit.

Code	Rating	Regulation, Approx.	Output Current	Size (mm) Dia. x Ht
DH53H	120VA	10%	500mA	95 x 50
DH54J	240VA	7%	1A	110 x 60

Retail Unit Price each (inc. VAT).

Order Code	Type 13205	Price each exc. VAT			inc. VAT each
DH53H	120VA 240V Toroidal	£18.000	£11.950	£10.250	£21.150
DH54J	240VA 240V Toroidal	£23.880	£15.950	£13.500	£28.060

## Industrial Isolation Transformers

Industrial specification isolation step-down transformers, especially designed for use with 110V power tools, for outdoor use. Two types are available, rated at 2000VA or 3000VA output respectively. Both types are enclosed in a tough, yellow plastic case with carrying handle and are fitted with a pair of CEE, industrial pattern, 3-pin outlet sockets with 16A contacts and spring-loaded protective caps. These conform to BS4343 and are interchangeable with various types of 110V plugs. A suitable plug is KC76H (see Electrical Accessories). The secondary is of CTE arrangement (Centre-Tapped Earth), ensuring that the absolute maximum voltage available from either side of the output is not more than 55V with reference to earth.

Specification	DH22Y	DH23A
Colour code:	Yellow (110 to 130V)	
Input:	240V AC @ 50Hz	
Phases:	Single	
Output:	110V CTE	
Tool rating, intermittent:	2000VA	3000VA
Dimensions, H x W x D:	220 x 200 x 240mm	
Weight:	13kg	13.6kg
Overall depth includes depth of outlet sockets, these being 50mm approx.		

Retail Unit Price each (inc. VAT).

Order Code	Type 3721	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
DH22Y 27	2000VA Indust Tx	£84.250	£81.000	£89.000	£99.000
DH23A	3000VA Indust Tx	£109.780	£99.000	£89.000	£129.000

## TRANSFORMER KITS

### Transformer Kits

At last you can wind your own mains transformers to your specification. Some power supply requirements might include an unusual secondary winding, which can be easily catered for by building a transformer kit, thereby obviating the tedious process of searching through the catalogues and adverts for a transformer to meet your needs, and having to settle for one having a higher specification or additional secondary taps which are expensive and which you don't really want. As an example, a digital frequency counter using a fluorescent multi-digit display will require +5V for its logic circuits, and then a 3V AC heater feed for the display. Or you may want a +5V, +12V and -5V supply for your home made microprocessor system, plus an additional 25V tap for programming EPROMS. The only other recourse would be to use two separate transformers, which use up space and money. **NOTE:** Under no circumstances should you attempt to modify or rewire the mains primary winding if the transformer is to remain safe to use. The primary windings have been properly assembled and tested during manufacture and should not be interfered with.

#### Output Current Calculation Table

Wire Gauge	Wire Dia. s.w.g	Max Current	Max number of turns for -		
	mm.	Out	20VA	50VA	100VA
36	0.2	100mA	1664	2394	3300
34	0.224	150mA	1363	1938	2652
32	0.25	200mA	1092	1581	2135
30	0.315	300mA	714	1025	1421
26	0.4	500mA	459	660	897
24	0.56	1A	228	336	476
22	0.71	1.5A	150	209	286
21	0.8	2A	104	160	240
20	1.0	3A	77	104	144
18	1.25	5A	40	60	96
16	1.5	7.5A	28	40	60

Note that the total number of turns that can be accommodated on the former are reduced in proportion to increasing wire sizes and therefore to increasing wire current. Thus, you will not be able to achieve a high current high voltage output from a transformer kit that is too small. **NEVER** attempt to use tinned copper wire in place of enamelled copper wire, regardless of how small the winding.

240V isolation transformers can easily be made (provided the factory wound primary windings are not used as the secondary), as follows:-  
 For 20VA 1,450 turns of 34 s.w.g. enamelled copper wire (80mA out).  
 For 50VA 1,150 turns of 31 s.w.g. enamelled copper wire (200mA out).  
 For 100VA 1,000 turns of 28 s.w.g. enamelled copper wire (400mA out).

### 20VA Transformer Kit

This 20VA transformer kit comprises a double section bobbin ready wound with a 120-240V mains primary winding, electrical steel core 'E' and 'I' laminations, end mounting 'frames' and clamping bolts. The number of secondary turns required can be found by multiplying the required secondary output in volts by 6.04 turns per volt, +1% for each multiple of 10VA loading. The maximum current output depends on the wire cross section of the secondary winding (see table left). The total power output of all secondaries must not exceed 20VA. Enamelled copper wire for winding the secondaries

is not supplied with the kit. Dimensions: Width 69mm x Depth 55mm x Height 58mm. Weight: 660g.

Retail Unit Price each (inc. VAT).

Order Code	Type 3725	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
YJ61R 1	Transformer Kit 20VA	£8.540	£5.990	£4.990	£10.040

### 50VA Transformer Kit

A transformer kit having a ready wound 120-240V mains primary winding, 'E' and 'I' laminations and end frames. Secondary windings can be wound for a total output not exceeding 50VA. The number of secondary turns required can be found by multiplying the voltage output required by 4.8, +1% for each multiple of 10VA loading. To find wire gauge for current output required see table above. Wire for winding the secondaries is not supplied in the kit.

Dimensions: Width 79mm x Depth 62mm x Height 65mm. Weight: 950g.

Retail Unit Price each (inc. VAT).

Order Code	Type 3726	Price each exc. VAT			inc. VAT each
		1+	5+	10+	1+
YJ62S 2	Transformer Kit 50VA	£11.230	£7.490	£5.990	£13.200

### 100VA Transformer Kit

A transformer kit having a ready wound 120-240V mains primary winding, 'E' and 'I' laminations, end frames and clamping bolts. Secondary windings can be wound using enamelled copper wire for a total power output not exceeding 100VA. To find the number of secondary turns required multiply output voltage required by 4-16 turns per volt, +1% for each multiple of 10VA loading. To find wire gauge for the output current required see table left. Wire for winding the secondaries is not supplied in the kit. Dimensions: Width 89mm x Depth 68mm x Height 75mm. Weight: 1400g.

Retail Unit Price each (inc. VAT).

### ETD39 Ferroxcube Transformer Core

A high performance ferroxcube core with performance optimised for switched mode power supply use. The 3C8 ferroxcube core is suitable for use at frequencies ranging from 20kHz to 150kHz. Maximum power throughput depends on operational frequency and construction of windings. Figure 1 shows power throughput versus operating frequency. Figure 2 shows the maximum working flux versus frequency. Figure 3 shows PCB mounting information. Former is manufactured from polyterephthalate and designed for PCB mounting. Assembly of the core and former is very easy due to the use of sprung stainless steel clips. Dimensions of assembled transformer (overall including pins): 44.5 x 47.5 x 41.25mm. Core halves, former and assembly clips are available separately. Note: to make one transformer two core halves, one former and two clips are required.

#### Core Specification (pair)

Absolute maximum power throughput at 150kHz:	500W
Absolute maximum power throughput at 25kHz:	150W

**ORDER BEFORE 5PM FOR SAME DAY DESPATCH**

**Tel: 01702 554000**

**Fax: 01702 554001**

**e-mail: Sales@maplin.co.uk**

Effective total loss at 25kHz: <2.2W  
 Ambient operating temperature: 60°C  
 Maximum operating temperature: 100°C  
 Length of the mean turn: 69mm  
 Effective magnetic path length: 92.2mm  
 Effective area of magnetic path: 125mm<sup>2</sup>  
 Effective magnetic volume: 11500mm<sup>3</sup>  
 Minimum centre pole area: 117mm<sup>2</sup>  
 Nominal specific inductance: 2700nH  
 Saturation limit at 100°C: 320mT  
 Maximum working flux: see Figure 2

### Former Specification

Material: Glass fibre filled polyepthalate  
 Terminations: 16 copper nickel alloy pins  
 Minimum window area: 177mm<sup>2</sup>  
 Length of mean turn: 69mm  
 Flammability: UL94-V0  
 Solderability: 400°C for 4 seconds

## VARIACS

### Variable Transformers

A range of three robust, open style, variable auto-transformers which enable a 250V AC 50Hz voltage supply to be varied between 0 and 270V AC. These

units are ideal for testing over- and under-voltage operation of mains equipment, as the range 240V ±10% can be covered. Three units are available, each with a different rating, to provide a cost-effective and versatile range. They can be used for reducing AC voltages for testing continental equipment, and as lighting controllers, for stage use. All feature smooth operation with single layer non-saturating windings and a toroidal iron core. The 0.75A version features 0 to 100% and 0 to 110% ranges that can be hard-wired depending on which is required. All units are specifically designed for panel mounting. Please note that these units have exposed live parts and must therefore be used in a suitable enclosure, and are only suitable for connection to a 250V AC 50Hz supply.

### 0.75A Version

**Terminal Connection**  
 0 to 240V AC operation  
 1: Input & output negative  
 2: Input positive 240V AC  
 3: Output positive 0 to 240V AC  
 0 to 270V AC operation  
 1: Input & output negative  
 4: Input positive 240V AC  
 3: Output positive 0 to 270V AC  
**Dimensions:** 90 x 84 x 97mm (H x Dia x L)  
 Two 4mm holes on 28mm PCD,  
 8mm hole for shaft

### 2A and 8A Versions

Rated input voltage: 240/270V AC 50Hz  
 Rated output voltage: 0 to 270V AC  
 Ratings: 2A and 8A continuous  
**Dimensions**  
 2A unit: 120 x 107 x 128mm  
 92 x 92mm / 4-hole fixing centres  
 8A unit: 185 x 145 x 155mm  
 146 x 146mm / 4-hole fixing centres

**Connections**  
 input: A & D for 240V AC  
 A & C for 270V AC  
 output: A & E for 0 - 270V AC

DM97F 15	8A Variac	£72.150	£49.000	£46.000	£84.780

## ELECTRIC MOTORS

### MOTORS & GEARBOXES

### Multi Ratio Gearbox and Motors

MFA

A range of pre-assembled motor and gearboxes providing various reductions, to output shafts between 2 and 6mm in diameter. Operation is from

a supply range of between 4.5V and 15V, drawing between 0.2A and 0.8A typically. Mounting holes are provided for four screws, allowing easy fixing to almost any surface.

Motor Size	Gear Ratio	Output Shaft Diameter (mm)	Order Code
Very Small		3	WC65V
Medium		3	WC66W
Medium	100:1	2	WC68Y
Large	11:1	6	WC70M
Large	148:1	6	WC71N

Supplied with operating specifications and accessories list, including gears, voltage regulators and rechargeable batteries.

Retail Unit Price each (inc. VAT).

Order Code	Type 0034	Price each exc. VAT	inc. VAT each
		1+	1+
WC65V	Multi GBox/VSmlMot	£6.800	£7.990
WC66W	Multi GBox/Med Motor	£7.650	£8.990
WC68Y	100:1 GBox/Med Motor	£7.650	£8.990
WC70M	11:1 GBox/Large Mot	£16.160	£18.990
WC71N	148:1 GBox/Large Mot	£16.160	£18.990

## MOTOR VOLTAGE REGULATOR MODULES

### Voltage Regulation Units

A range of voltage regulator units for use with electric motors and accessories. Available in a number of voltages, compatible with most modern model equipment. Each of the input power leads is terminated in a spade connector, allowing easy connection with rechargeable batteries.

Output Voltage (V): 1.50 3.00 4.50 4.12  
 Input Voltage (V): 6-15 6-15 6-15 6-15  
 Output Current (A): 1.50 1.50 1.50 3.00  
 Order Code: WC73Q WC74R WC75S WC76H

### Small Motor

A small 20mm diameter motor with a 2mm dia. shaft. Overall length: 30mm excluding shaft. Shaft length: 7.5mm. The motor casing is flattened for easy mounting. Distance across flats 15mm.

Operating voltage: 1.5 to 3V  
 No load speed: 8700rpm  
 No load current: 320mA  
 Speed at max efficiency: 5800 rpm  
 Current at max efficiency: 760mA  
 Torque at max efficiency: 5.3g/cm  
 Output at max efficiency: 310mW  
 Efficiency: 32%  
 Stall torque: 16g/cm

Retail Unit Price each (inc. VAT).

Order Code	Type 3738	Price each exc. VAT	inc. VAT each
YG13P	Small Motor	£1.520	£1.790

## STEPPER MOTORS

### Stepper Motor

A 12V 4-phase, unipolar stepping motor suitable for small robots and all kinds of applications requiring medium torque at low current drains. A suitable driver is the SAA1027 and a kit is available which contains the motor, the IC and the passive components required, together with a PCB.

#### Specification

Step angle: 7.5°  
 Current per phase: 130mA  
 Resistance per phase: 94Ω  
 Inductance per phase: 43mH  
 Dynamic torque, @ 10pps: 80g/cm (8mNm)  
 Response frequency: 300pps  
 Rotor inertia: 4g/cm<sup>2</sup>  
 Weight: 57g  
 Dimensions: 35mm dia. x 25mm deep  
 Drive Shaft: 3mm dia. x 11mm long

Max width across mounting tabs: 50mm  
 Fixing centres: 42mm x 6BA/M3  
 The motor is provided with six colour coded wires 230mm long.

Retail Unit Price each (inc. VAT).

Order Code	Type 3738	Price each exc. VAT	inc. VAT each
FT73Q	Stepper Motor Size 1	£17.430	£20.490

### Stepper Motor Kit

A kit comprising the Stepper Motor FT73Q, SAA1027 stepper motor driver IC (QY76H, see Semiconductors) and all passive components required to make a working module, together with a PCB. The PCB is also available separately. Full construction details may be found in Best of Maplin Projects Book 5 XC05F, and instruction leaflet XK04E.

Retail Unit Price each (inc. VAT).

Order Code	Type 3737	Price each exc. VAT	inc. VAT each
LK76H	Stpr Mtr + Drvr Kit	£22.970	£26.990
GD14Q	Stepper Motor PCB	£1.260	£1.490
XK04E	Stepper Motor Ins	£0.400	£0.400 NV

## MOTOR COUPLINGS & SHAFTS

### Inline Couplings and Rods

MFA

A range of inline couplings and connection rods for use with models, etc. The couplings are ideal for connecting rods of different diameter, like motor shafts and coupling rods. Simply place the dissimilar shafts in the coupling and tighten the two grub screws with the Allen key provided. Also each item is supplied with a parts list of other available parts.

Connection Type	Coupling Sizes/Rod Sizes (mm)	Order Code
Coupling	3 - 3	WC67X
Coupling	2 - 3	WC69A
Coupling	6 - 6	WC72P
Shaft	3 x 60	WC84F
Shaft	3 x 110	WC85G

Retail Unit Price each (inc. VAT).

Order Code	Type 3335	Price each exc. VAT	inc. VAT each
WC67X	Inline Coupling 3-3	£2.970	£3.490
WC69A	Inline Coupling 2-3	£3.140	£3.690

Account holder or not, your order will be sent carriage paid.

(Guaranteed next day delivery charges as stated in our Terms & Conditions in the back of the catalogue)

## Perforated Metal Sheet

MFA

A perforated metal sheet ideal for making motor and electrical accessory cages, shielding against moving parts or dangerous voltages. Measures 200 x 150mm, and width 0.5mm with 3mm square cutouts to provide ventilation and reduce overall weight. Constructed from galvanised steel, providing protection against rusting and discolouration.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WC86T	Perf Metal Sheet	£1.690	£1.990

## Perforated Metal Strips

MFA

A pack of metal strips measuring approximately 300 x 10mm and 0.5mm thick, ideal for producing ties and struts for models, and for providing rigid straps for mounting motors, etc. Each pack contains five strips constructed from galvanised steel to prevent rusting and discolouration.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WC87U	Perf Met Strip(SPk)	£2.970	£3.490

## Motor and Gearbox Spare Parts

A range of very useful packs of gear, chain & sprocket and rack & pinion sets and parts for use in mechanical models. Ideal for the keen home constructor and for use as replacements for lost or damaged parts in existing kits and models.

### GEAR & PULLEY SETS

## Rack and Pinion Sets

A choice of two packs containing rack & pinion components. One pack (WC77J) contains all of the components needed for a full rack and pinion assembly (one 70mm long rack, one pinion and two fixing screws) while the other (HA70M) contains ten racks, 70mm in length. For pinions, see Gear Sets.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WC77J	Rack & Pinion Set	£1.430	£1.690
HA70M	Rack 10Pk	£5.520	£6.490

## Gear Sets

MFA

A range of packs containing gears in the sizes and quantities indicated in the table below:

Order Code	Size	No in Pack
WC78K	Ratio gear 2.9mm bore x 48/12 teeth	2
	Ratio gear 3.1mm bore x 48/12 teeth	4
	Pinion gear 2.9mm bore x 10 teeth	1
	Spur gear 2.9mm bore x 40 teeth	1
WC81C	Pinion gear 2.9mm bore x 20 teeth	1
	Pinion gear 2.9mm bore x 10 teeth	1
HA64U	Pinion gear 2.9mm bore x 10 teeth	10
HA65U	Pinion gear 2.9mm bore x 20 teeth	10
HA66W	Spur gear 2.9mm bore x 40 teeth	10
HA75S	Ratio gear 2.9mm bore x 48/12 teeth	10
HA76H	Ratio gear 3.1mm bore x 48/12 teeth	10

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WC78K	Gear Set	£2.280	£2.690
WC81C	Spur Gear Set	£1.690	£1.990
HA64U	Gear 10T 2.9mm 10Pk	£2.970	£3.490
HA65U	Gear 20T 2.9mm 10Pk	£3.650	£4.290
HA66W	Gear 40T 2.9mm 10Pk	£5.520	£6.490
HA75S	Gear 48/12T 2.9mmx10	£2.970	£3.490
HA76H	Gear 48/12T 3.1mmx10	£2.970	£3.490

## Chain & Sprocket Sets

MFA

A selection of four packs containing chain & sprocket components. The first pack (WC79L) contains a full set of components for a chain & sprocket assembly (one 1m chain, two 8 tooth sprockets and two 16 tooth sprockets), while the second (HA74R) contains a 1m chain and the remaining two packs contain, respectively, ten 8 tooth sprockets (HA72P) and ten 16 tooth sprockets (HA73Q).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WC79L	Chain & Sprocket Set	£6.540	£7.690
HA72P	Chain 8T Sprkt 10Pk	£2.970	£3.490
HA73Q	Chain 16T Sprkt 10Pk	£3.650	£4.290
HA74R	Chain 1m	£5.520	£6.490

## Worm Drive Sets

MFA

A choice of two packs containing worm drive components. One (WC80B) contains a worm gear (total length: 35mm) and a 2.9mm bore x 40 teeth gear spur gear and the other contains ten 35mm worm gears (HA68Y). For spur gears, see Gear Sets.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WC80B	Worm Drive Set	£1.430	£1.690
HA68Y	Worm Drive 10Pk	£3.650	£4.290

## Crown Wheel and Pinion Sets

MFA

A selection of three packs containing crown wheel/pinion components. The first pack (WC96E) contains one 2.9mm bore x 10 tooth crown gear and one 1.9mm bore x 12 tooth pinion gear, the second pack (HA71N) contains ten 2.9mm bore x 15 tooth crown gears and the third pack (HA77J) contains ten 1.9mm bore x 12 tooth pinions.

Retail Unit Price each (inc. VAT).

Order Code	Type 11941	Price each exc. VAT	inc. VAT each
WC96E	Crown Wheel & Pinion	£1.260	£1.490
HA71N	Crown Gear 10Pk	£4.240	£4.990
HA77J	Pinion 12T 1.9mmx10	£2.370	£2.790

## Pulley Sets

MFA

Order Code	Description	No in Pack
WC82D	30mm spur shells	4
	14mm pinion shells	2

WC95D	Wheel 68x20mm	£1.260	£1.490

## SERVO

### Economy Servo

An economy servo complete with motor and electronics. The servo is supplied with actuator horns. The three wire system requires 5V DC on the red wire, 0V on the black wire and a 3V to 5V pulse on the white wire between 0.75 and 2.25ms long every 18ms approx.

**Specification**  
 Supply voltage: 5V DC  
 Current drain: Standby 8mA  
 Max 550mA  
 Speed: 0.26sec/60°  
 Torque: 2.3kg/cm  
 Input pulse: 0.75ms to 2.25ms  
 Rotation: 170° ±10°  
 Operating temp: -35° to +65°  
 Life (approx.): 1 million operations  
 Size: 39 x 38 x 19mm  
 Fixing centres: 47 x 10mm  
 Spline: 6mm diameter

Retail Unit Price each (inc. VAT).

Order Code	Type 3739	Price each exc. VAT	inc. VAT each
FS35Q	Economy Servo	£10.400	£12.230

Account Enquiries: 01702 554187

## Standard and Ball Race Servos

Futaba

A standard replacement servo as supplied with Futaba radio control systems. A superior ball raced version is also available (DX99H).

Retail Unit Price each (inc. VAT).

Order Code	Type 9944	Price each exc. VAT	inc. VAT each
DX09K	S148 Servo	£11.270	£13.250
DX99H	S3001 Servo	£13.880	£16.310

## Futaba S3302 High Torque Servo

A large, high-torque power servo, designed for activating systems requiring a lot of force, such as aircraft landing gear. Sealed for moisture and dust resistance, and built using metal gears, this heavy-duty servo is built to last. Supplied with horns and mounting kit.

**Specification**  
 Speed: 60° in 0.19 seconds  
 Torque: 8kg/cm (111oz./in.)  
 Dimensions: 59 x 29 x 50mm  
 Weight: 103g

Price each shown, but sold only in multiples of 1.

Order Code	Type 9774	Price each exc. VAT	inc. VAT each
DX08J 1	S3302 Servo	£47.730	£56.090

**Businesses and Government Establishments – open a Maplin MPS Account**

Just complete form at back of catalogue

## Futaba FP-S143 Micro-Servo

A high-quality micro-servo for small models, suitable for use with the Futaba J, M, SG, PG, 4N and 6N series digital proportional radio control systems. Features include a high level of shock and vibration resistance and neutral position, easy installation, a high torque/size ratio, and a mechanically strong case that is invulnerable to glow fuel. Supplied with horns – a splined shaft here aids neutral adjustment.

### Specification

Control system: +pulse width control (1520µs neutral)  
 Operating angle: Rotary type, one side 40° or greater (including trim)  
 Power supply: 4-8V or 6V (shared with receiver)  
 Power consumption: 6V, 8mA (idle)  
 Output torque: 1.9kg/cm  
 Operating speed: 0-18 sec/60°  
 Dimensions: 28mm x 13mm x 29mm  
 Weight: 19g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX10L †	S3101 Micro Servo	£39.050	£45.890

## SERVO ACCESSORIES

### Servo Accessory Pack

Futaba

The pack contains 3 servo horns. Each horn has an internal splined socket for neutral adjustment. The circular disc which is usually used on petrol cars, is pierced for use. The other two starfish shaped horns (four and six arms) can be cut to suit your requirements.

The Servo Accessory Pack comes complete with the following mounting kit:

- 4 x Screws
- 4 x Rubber mounts
- 4 x Brass screw guide

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GZ81C	Servo Acc Pack	£1.020	£1.210

## Servo Output Arms

A pack of two servo output arms, one wheel-type (approx 30mm diameter) and one bar-type (approx 40mm long).

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX79L †	Servo Output Arms	£0.340	£0.400

## Control Horns

A pack of seven control horns with spacers, ready to be fixed to any point (the control surfaces on radio control aircraft, for example) to be connected via pushrods to their controlling servos.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX89W †	Control Horns	£0.510	£0.600

## Single Servo Tray

Futaba

This complete black plastic assembly makes up into a side mounted tray designed to accept a single servo. Supplied complete with servo tray and all necessary screws and fixings.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GZ82D	Single Servo Tray	£2.070	£2.440

## Double Servo Mount

A complete plastic assembly, ready to be made up into a secure, shock-absorbing mount designed to accept a twin servo arrangement. Supplied complete with rubber grommets and screws.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX91Y †	Double Servo Mount	£0.944	£1.110

## Triple Servo Mount

A complete plastic assembly, ready to be made up into a secure, shock-absorbing mount designed to accept a triple servo arrangement. Supplied complete with rubber grommets and screws.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX94C †	Triple Servo Mount	£1.460	£1.720

## Single Servo Mount

A complete plastic assembly, ready to be made up into a secure, shock-absorbing mount designed to accept a single servo. Supplied complete with rubber grommets and screws.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX83E †	Single Servo Mount	£0.510	£0.600

## Triple Servo Tray

Futaba

This complete assembly is the ideal way to simply and neatly mount a triple servo arrangement within a large model (e.g. remote control aircraft). The kit contains a black plastic servo tray with integral mounting position for an on/off switch and all the necessary screws and fixings.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
GZ83E	Triple Servo Tray	£3.020	£3.560

## MODEL ENGINEERING MOTOR PACKS

### 'Marlin' Marine Power Pack

MFA

Electric power pack for the Avenger, Seahawk, and Fantome model boats. Note that two are required for the Fantome model. Includes motor and mounting, reversible speed controller, wiring and connectors and universal coupling. Features high torque and is ready to go after simple installation. The motor has twin output shafts (one at each end) and has interference suppression. Powered by MFA Titan 12V battery (WE91Y), not included.

#### Specification of motor

Typical maximum speed:	5,100rpm
Torque:	253mNm
Power consumption:	68W
No load current:	0.97A
Typical load current:	5A
Length of body:	75mm
Diameter:	50mm
Shaft diameter:	6.35mm
Shaft length, each end:	17mm
Weight:	543g

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
WE90X1	Marlin Power Pack	£38.280	£44.990

## Electric-Flight Power Pack 15

MFA

Offers extra power for model aeroplanes utilising 1-2Ah 9-6V NiCd pack. For use with 6 x 6, 7 x 4 or 7 x 6 propellers. Suitable for lightweight models of approximately 127cm wing-span. Includes double 4-8V NiCd battery packs with interconnecting leads, microswitch, fuseholder and motor with propeller fitting kit.

#### Specification

Total weight:	600g
Motor weight:	170g
Motor dimensions:	57 x 35-5mm (excluding shaft)
NiCd capacity:	8 cells, 1.4Ah
Average current consumption:	14A
Full power duration:	5 minutes, approximate

Motor includes RF suppression. To recharge NiCds, use the Multi-Charger and Charging Monitor DX19V. Recommended charging time is 30 minutes from 12V lead-acid battery.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX45Y1	Power Pack 15	£42.540	£49.990

## Electric Motor Mount

MFA

A quality plastic engine mount, designed for an RS-540 size electric motor. The motor sits inside the mount, held in place by its fixing bolts at one end. Holes can then be drilled in the desired position into the large plastic lugs to secure the mounted motor in place.

Retail Unit Price each (inc. VAT).

Order Code	Type	Price each exc. VAT	inc. VAT each
DX78K1	Electric Motor Mount	£0.595	£0.700

## HIGH PERFORMANCE RACING MOTORS

### MRI Motors

This range of high performance motors are produced by MRI. Available in a range of permutations, these motors are make an ideal more highly powered replacement for any standard RS540-type motor.

Order Code	Description	No of Turns	Winding
GZ18U	MRI 13/65 Motor	13	Double
GZ19V	MRI 15/65 Motor	15	Double
GZ20W	MRI 15/65 Motor	15	Triple
DX14Q	MRI 17/65 Motor	17	Double
GZ21X	MRI 17/65 Motor	17	Triple
DX13P	MRI 19/65 Motor	19	Double
GZ22Y	MRI 19/65 Motor	19	Triple
GZ23A	MRI 21/65 Motor	21	Single
GZ24B	MRI 27/65 Motor	27	Single

Price each shown, but sold only in multiples of 1.

Order Code	Type	Price each exc. VAT	inc. VAT each
GZ18U	MRI 13 Tm Dble Wnd	£21.690	£25.490
GZ19V	MRI 15 Tm Dble Wnd	£21.690	£25.490
GZ20W	MRI 15 Tm Triple Wnd	£21.690	£25.490
GZ21X	MRI 17 Tm Triple Wnd	£21.690	£25.490
GZ22Y	MRI 19 Tm Triple Wnd	£21.690	£25.490
GZ23A	MRI 21 Tm Single Wnd	£21.690	£25.490
GZ24B	MRI 27 Tm Single Wnd	£21.690	£25.490
DX13P	MRI 19 Tm Dble Wnd	£21.690	£25.490

## UK INLAND ORDERS

### HOW TO ORDER IN THE UK

Use our order form whenever possible. The blank form returned with your previous order will have your customer number and your name and address already printed. Please keep a note of your customer number and always use it on any order or correspondence. Send all mail to Maplin MPS, FREEPOST SMU 94, P.O. Box 777, Rayleigh, Essex SS6 8LU. Keep an accurate copy of your order so that you can check that we have sent you exactly what you have ordered. We will send an itemised invoice with your order which shows exact costs.

Please do not write queries or anything other than your order on the order form unless the query is about something you are ordering this time. If you have any other enquiry, write it on a separate piece of paper with your name and address and customer number if known.

### Telephone Your Order - 01702 554000

Please quote your customer number.

If you intend to pay for your order by credit card or an account, you can telephone your order to us. We shall require your credit card number, the expiry date and the cardholder's full name and address. For account customers we need your customer or account number. We aim to despatch on the same day all orders received by telephone before 5 p.m. subject to approval by the credit card company or account status.

When you telephone be as brief as possible. Please state the five digit order code only and then the quantity you require.

Please ensure you know the order codes for the goods you wish to order before phoning. If you are having difficulty finding an order code please call Customer Services (01702 554002)

Please note that the moment you ring off, your order is accepted by the system and it is no longer possible to modify it. So please do not ring back to add to or delete items from that order.

The Maplin Sales Desk is available Monday to Friday from 8:30 a.m. to 5:30 p.m. and Saturday from 9:30 a.m. to 5:00 p.m. Out of office hours there is an answering system on this line which can take your order. Please do not call our stores; they will not be able to help you with a mail order enquiry or order.

### Cashtel Modem Ordering Facility: 01702 552941

#### How To Use Cashtel

Once you have the appropriate hardware and software, simply dial 01702 552941 and listen for the tone. When you hear it, switch the modem to "online" and replace the telephone handset. Our modem sorts out at which speed you are sending automatically.

1. Your TV screen will now display the welcome message.
2. Enter your customer number and the FIRST line as displayed on your last address label. This must match exactly the details on file. A command menu is then displayed.
3. **Option 1** enables you to place orders. You will be asked for the stock number and quantity of the item you require, then the description, unit price and total price will be displayed. You are then asked for the next stock code and so on until you type 'END', as shown in Screen C. Your whole order is then displayed line by line and you choose to order or not by typing 'Y' or 'N' (Yes or No). You are also told at this time if any item is unavailable and if you still leave the order for the item outstanding, then it will be sent on to you by the computer as soon as it becomes available.

When all items have been entered, the screen displays the total value of all the items ordered. Only if you key 'Y' (Yes) to the whole order will the order actually be sent. You now enter your Access. Visa or American Express card number (or account number for business customers credit) and the order is printed out by our computer ready to be collected and despatched.

4. **Option 2** allows you to check the price and availability of any item.

5. **Option 3** allows you to search for any consecutive group of letters through a list of stock descriptions.
6. **Option 4** allows you to check your previous orders (whether placed by mail, phone or Cashtel).
7. The other options are for regular users, who will find them clearly explained as they use them.
8. If you enter **option 9**, the call is terminated - you may leave a message with any suggestions or explaining any problem you have had.

The system then disconnects and awaits the next call.

The full system is available, 24 hours a day except for essential maintenance. During shutdowns you will receive a message explaining why the system is closed and our estimate of when it will be open again.

### Key Call -

#### See back of order form for details

Out of office hours you can order via a standard tone dial telephone.

### PRICES

Maplin reserves the right to change prices at any time without prior notice. In general, prices are reviewed every six months, at which time some prices may change. The price charged for all goods will be that ruling at the date of acceptance of the order by Maplin MPS. No changes to prices will be made following acceptance of an order by Maplin MPS. Whilst every effort has been made to ensure accuracy of prices quoted, Maplin MPS does not accept responsibility for any error or omissions. Written quotations shall be valid for a period of thirty days.

Prices shown in this catalogue are shown as VAT exc. and VAT inc. at 17.5%, where applicable and are for the quantity shown, i.e. each, per pack, per metre etc. Items marked NV are rated at 0% (at the time of going to press - see note below) and the price shown applies both to inland and export orders. Overseas customers please see Overseas Ordering on page 1333.

All prices are the same in our stores and by mail order (excluding promotions). If there is an additional number next to the order code, they are for overseas customers only.

### Small Order Charge

For all credit business account customers, DELIVERY IS FREE OF CHARGE. For all other orders, i.e. credit card/cheque/PO/Transcash, a small order charge of £2.95 inc VAT is levied for orders below the value of £30.00 inc VAT. All orders over £30.00 inc. VAT, are delivered FREE OF CHARGE.

### DESPATCH

All orders received by 5pm are dispatched the same day whenever possible. Orders having a total weight of less than 1kg are despatched by first class letter post. Orders having a total weight over 1kg are despatched by 24-hour fast carrier (for most areas in the UK). For faster or guaranteed delivery, please see page 2.

### PAYMENT

Payment may be made by Cheque, Credit Card, Postal Order, Giro transfer or Transcash. Cheques and postal orders should be made payable to "Maplin MPS". In your own interest cross all cheques or postal orders sent in the post with two straight lines across the centre. For details of the Credit Cards we accept and details of Transcash and Giro transfers, see Credit Cards below.

Do not send cash unless the envelope is registered at the Post Office. If you send cash in an ordinary envelope the Post Office may compulsorily register it and we regret that we cannot accept such letters.

**Remember to enclose with your order the numbered credit note if you are claiming credit.**

Please remember to add the £2.95 charge on small orders below £30.00 inc VAT if you do not have an account.

**Note: VAT will be applied at whatever rate is legislated by the UK or other applicable EC government at the time we receive your order.**

### Credit Accounts

For bona fide business Educational or Government Establishments a credit account may be opened subject to status. Apply using the form in this catalogue.

### Credit/Direct Debit Cards

We are pleased to accept orders with payment by any of the following credit/direct debit cards: Access, American Express, Barclaycard, Connect, Eurocard, Mastercard, Visa and Switch. We also accept most company procurement cards - please enquire. NEVER send your card to us. Simply write the number and expiry date of your credit card on your order, sign it and send it to us. Do not include any cash.

### Place your Order in your Post Office

Simply ask for a form in your Post Office and write your order on it along with our TRANCASH number. You then pay the amount due to us to the cashier at the Post Office (plus a small fee to the Post Office) and that's it. No stamps to buy, no letters to post, no fiddly Postal Orders. We receive your order within four to five days and can despatch it immediately. Please do not include enquiries; orders only.

Take a note of Maplin's TRANCASH number now - TRANCASH 308 8065. Use it at your local Post Office now!

### Paying by Giro Transfer

You can transfer money from your Giro account directly into our Giro account by completing and sending to the National Giro Centre, in one of your National Giro postage paid envelopes, one of your own National Giro transfer/deposit forms. Write your order and your customer number (if you know it) on the back of the form. We receive your order in three to four days and can despatch it immediately.

Make a note of Maplin's National Girobank account number now. 3076652 Please do not send Giro transfers to us as this will cause considerable delay. Use a crossed Girocheque if you wish to send money directly to us.

### SPECIAL NOTE FOR CUSTOMERS IN THE CHANNEL ISLES

Customers in the Channel Isles do not have to pay British VAT, and should mark their orders "Export". Use VAT exclusive prices only.

### How To Order From BFPO Addresses

If your BFPO address is in Northern Ireland you must use the ordinary inland prices, but if your BFPO address is elsewhere in the world you do not have to pay VAT and small order charges will be applied.

However if any item is too large or heavy for despatch by BFPO you must supply a civilian address and pay extra for carriage at cost.

Should the rules pertaining to VAT change due to government legislation, VAT will be charged at whatever rate is in force at the date we receive your order.

### CREDIT FOR OUT OF STOCK ITEMS

When we are out of stock of an item that you have ordered we may issue a numbered credit note. If you do not want to buy anything further from us, simply put the credit note with your name and address and your request for a refund in an envelope and send it to us using the Freepost address. We will send a cheque refund by return of post. We regret that we cannot refund by Postal Order and we can only refund cash if you provide a Post Office registered envelope prepaid with the correct stamp.

If any item on your invoice is marked 'to follow' then we will automatically send it to you as soon as it comes into stock. If you wish to cancel then you can do so at any time until we despatch the goods and we will refund your money as described above.

## SATISFACTION GUARANTEED 7-DAY MONEY-BACK GUARANTEE FOR MAIL ORDER CUSTOMERS

If you change your mind and are not fully satisfied with your purchase, simply return the item(s) within seven days and you will receive a full refund or exchange at your option. We only ask that goods must be unused and in their original packaging complete with your proof of purchase. This guarantee does not apply to computer software, speakers, cut lengths of cable, books, loose batteries or semiconductors.

### Damaged Goods

Damaged goods or goods sent in error will be replaced as soon as we receive them, provided that they have been carefully packed and provided that we have stock. We will refund postage. Authorisation must be given by our Returns Manger before goods can be returned by any method other than by Royal Mail.

### Guarantee for Kits

All the components in our kits carry the guarantee that they meet the manufacturer's specifications. We guarantee that correctly built kits, using components supplied by us, will work to the specifications published in our advertising and construction details. The guarantee does not cover damage caused during construction or errors in construction. If after studying the construction details you feel that the project is more complicated than you expected, please contact our sales department who will arrange for you to return the kit for a refund subject to our 20% handling charge. This offer only applies to kits where construction has not started. Simply return to us or alternatively return it to any MAPLIN or Mondo store with proof of purchase.

This statement does not affect your statutory rights.

### Repairs and Get-You-Working Service

We will undertake to repair or get working any of the complete projects published in our constructional articles, including Velleman Kits, providing that they are built on our ready-etched printed circuit boards, and use a majority of components that we have supplied. Items marked "Datafile Project", Circuit Maker ideas and Mini Circuits in this catalogue and in our magazine are excluded because they are essentially technical information articles for 'building block' type circuit and IC applications, and their correct functioning depends on the surrounding circuitry over which we have no control. Therefore we cannot offer the service on such projects. Also we cannot offer the repairs and get-you-working service for magazine projects, *other than those in our own publications*, even if we are mentioned as suppliers of the parts or supply a pcb for the project. Please return the whole completed project, not just the faulty board (if it is a large project), as faults on one board are often caused by problems on another board in the project. Enclose a cheque or P.O. based on the retail price of the kit as shown in the table (subject to minimum cost of £24.00). If the boards arrive damaged by the Post Office, they will be returned to you with a refund after deducting the return postage. Under no circumstances will we be liable for damage to goods sent to us. In addition we will not attempt a repair if the quality of construction is so poor that the only answer is a complete rebuild. Again the package will be returned to you with your money after deducting the return postage. If the fault is due to faulty components, or incorrect instructions or any error on our part which could have led to the fault, we will repair the project free of charge and return it to you carriage paid with a refund of your postage to us. If the fault is due to an error or errors you have made we will charge you for our time at a reasonable rate (see table below) and for the cost of any parts replaced. If this is less than the amount you sent, we will refund the difference after deducting the cost of postage to you. If the cost including return postage is more than the amount you sent, we will ask you to pay the difference before the goods are returned. Remember that it can take our engineer up to an hour (or much more on large projects) to set up the necessary test jig that will enable him to start testing your particular project and then take him some time to find the fault. So if you are not actually prepared to pay our very reasonable charges then please do not return your projects for repair!

Kit Retail Price	Standard Servicing Cost
Up to £39.99	£24.00
£40 to £59.99	£30.00
£60 to £79.99	£40.00

£80 to £99.99	£50.00
£100 to £149.99	£60.00
Over £150	£60 min.

If no fault can be found with the project, a charge of £24.00 will be raised to cover the cost of setting up any equipment needed and the subsequent testing. All repairs are carried out by skilled technicians at our Head Office. Please note that staff at our shops are unable to undertake repairs, but will forward projects to our Head Office Service Centre. We will carry out the repair as fast as we possibly can, but please allow up to four weeks. We will acknowledge receipt of your returned kit by return of post.

### KIT BUILDING SERVICE

If for any reason you wish to purchase one of our projects but feel you are unable to construct it we will be happy to build and fully test it for you. Please contact our customer service department for pricing details.

### TECHNICAL ENQUIRIES AND FAULT FINDING

If you have a technical problem with any product please telephone 01702 556001. Between 9 a.m. and 5.30 p.m. each day (Mon to Fri) an engineer will be available to try to help. It will save time if you have all relevant details to hand, e.g. catalogue page number for components, project book number for kits, and if replacement or additional parts are required, your customer number and post code. There are times when fault finding cannot be carried out over the phone, in which case the engineer will ask you to write in with the problem.

If you write, please keep technical enquiries separate from any other enquiry or order. Address your letter to the Technical Department, Maplin MPS, P.O. Box 777, Rayleigh, Essex SS6 8LU.

We will do our utmost to answer your enquiry within 2 working days of our receiving it. We cannot answer queries which do not relate to items in our catalogue or 'Electronics & Beyond' (The Maplin Magazine). Also we are unable to offer the service on projects where the kit has been discontinued for over one year. Priority will be given to those enquiries accompanied by an sae. Enquiries about projects appearing in magazines must refer to the magazine concerned. Before you write try to narrow down the fault; it's hard to help you if you just say it doesn't work, since in most cases the fault could be almost anything. Most designs follow a logical sequence, so if possible check to see if any parts of the circuit are operating correctly, and make a note of every test you make. You will undoubtedly require a multimeter and in audio circuits a crystal earpiece can be useful as only the tip need be connected to enable you to hear what is happening throughout the circuit and the extremely high impedance of this monitor will not cause the existing conditions to change. Always check the power supply voltages and voltage rails in the circuit, and check that all points that should be at earth potential are correct, especially when you have several seemingly unconnected faults. Hums and buzzes are almost always caused by incorrect earthing, poor layout or interconnecting wires that are too long. Poor soldering is one of the most common causes of faults. Keep the soldering iron tip clean and free from build-ups of flux by wiping it on a damp rag or sponge, but ensure that it is always tinned (covered with a layer of molten solder - with a new iron, tin the new bit by wiping the molten solder over it with a piece of card or rag). It is most important that both sides of a joint are heated together by the iron. If one side is cold the flux from the solder will flow around it and insulate it from the other side, exactly the opposite to what is wanted.

### Specifications & Illustrations

Specifications and illustrations in this catalogue are given in good faith, but they should be used for guidance only as goods are subject to alteration without notice in order to maintain delivery or price levels.

### Patents and Copyright

Products offered for sale by Maplin MPS may be covered by patent or copyright in relation to a manufacturer or publisher. Maplin MPS maintains full copyright protection in respect of its catalogues, price details and other literature, which may not be reproduced wholly or partially without Maplin MPS prior consent in writing.

## OVERSEAS ORDERING

### HOW TO ORDER IF YOU LIVE OUTSIDE THE UK

Whenever possible, please use our order form and send your order to Maplin MPS, P.O. Box 777, Rayleigh, Essex, SS6 8LU, United Kingdom. To order an item, write the quantity you require and the five character code shown for that item, printed under the heading Order Code. If a number is shown beside the five character code (ignore any letters), multiply this number by the quantity you are buying and then write the result in the Carriage Charge column. For resistors, write the code letter for the type you require and the resistance value - for more information see Resistors Section.

All prices in this catalogue (except items marked NV beside their price) include British VAT. Since January 1st 1993, all customers within the E.C. have to be charged VAT, unless the purchaser has a VAT number. This will normally be at the British rate, which is currently 17½%, although in some cases VAT will be applied at the rate ruling in the country of import. When the goods arrive in your country, no duty on those goods should have to be paid. VAT will be applied at whatever rate is legislated by the government of the appropriate E.C. state at the time we receive your order. If you have a VAT number, please make sure it is clearly visible on your purchase order form. VAT will not be applied in these cases.

Carriage will be charged at a standard rate in accordance with the table on page 1334. All goods are despatched by airmail. Full details are shown in the table below.

The carriage you have to pay is calculated as follows:

- If you have not had to write any numbers in the Carriage Charge column, the carriage charge you have to pay is the minimum charge shown in the table for your country.  
For example, if you are ordering from the Republic of Ireland, you will use rate A, and the charge is £4.00.

Rate	Minimum charge	Multiplication factor in addition to minimum charge	Handling charge
A	£4.00	£0.80	-
B	£4.25	£2.00	-
C	£4.25	£3.00	-
D	£4.50	£4.00	-
E	£5.00	£5.00	-
F	£5.00	£4.00	-
G	£2.95	£0.50	-
H	-	-	£2.95

- If you had to write numbers in the Carriage Charge column, add up the numbers and multiply the total by the multiplication factor shown in the table for your country.  
For example, if you live in the Republic of Ireland and the Carriage Charge column adds up to say, 5; then the amount you have to pay for carriage is 5 x £0.80 = £4.00 plus the minimum charge, so total is £8.00.
- If the value of goods in your order is over £100.00, please add a minimum 20% only to the cost of your goods. Postage will be charged at cost. If the amount you send exceeds the cost, we will refund the difference, or contact you if it is insufficient. If you are just ordering one item which costs over £100, use the table to calculate the correct postage.

You do not have to pay the £2.95 handling charge applicable in the UK. All goods are sent by AIR MAIL unless shown in the notes at the foot of the table. Please note that hazardous goods such as aerosols and lead-acid batteries, cannot be sent by air parcel post. Extra charges will be made if air freight is requested. Carriage for catalogues and magazines are charged as follows:

Europe (including Republic of Ireland) and Surface Mail		
Outside Europe		
Catalogue	Single Magazine	Magazine Subscription
£8.45 or 21 IRC's	£3.40 or 8 IRC's	£17.00 or 40 IRC's
Catalogue (only) outside Europe		by surface mail
		£6.50 or 16 IRC's.
Air Mail Outside Europe		
Catalogue	Single Magazine	Magazine Subscription
£16.00 or 37 IRC's	£4.30 or 10 IRC's	£22.00 or 50 IRC's
IRC - International Reply Coupon		

## METHODS OF PAYMENT

There are seven ways in which you can send the money for your order to us. In all cases, cheques etc., should be made payable to Maplin MPS.

### 1. Uniform Eurocheques

If you have a Eurocheque book, then simply write the amount in pounds sterling and sign the cheque. You must write your Eurocheque guarantee card number on the back of the cheque.

### 2. Bank Draft

Go to any local bank and buy a bank draft drawn on a British bank for the exact amount in pounds sterling. We shall be able to despatch your goods on the day we receive your order because our money is guaranteed by the British bank printed on the draft.

### 3. Credit Card

If you have a Eurocard/Mastercard/Access, Visa/ Carte Bleue or American Express Card, then simply write your card number on your order also stating which type of card it is and its expiry date and sign the order. Do not send your card with the order. We will be able to despatch your order immediately, subject to credit card authorisation.

### 4. Postal Orders and International Reply Coupons

We can accept postal orders provided they are in pounds sterling and issued in one of the following countries only:

Anguilla, Antigua, Ascension, Bahamas, Barbados, Belize, British Antarctic Territory, British Virgin Isles, Brunei, Chatham Isles, Cook Isles, Dominica, Falkland Isles and Dependencies, Fiji, Gambia, Gibraltar, Grenada, Hong Kong, Malaysia, Malta, Montserrat, New Zealand, Niue Isle, Penrhyn Isle, Pitcairn Isle, St. Helena, St. Kitts & Nevis, St. Lucia, St. Vincent, Seychelles, Singapore, Tonga, Trinidad and Tobago, Tristan da Cunha, Turks and Caicos Isles, Western Samoa, Yemen (except Kamaran Isles). Do not affix extra stamps to Postal Orders as the stamps have no value in the UK, unless they are actually current British Post Office issues. For very small orders, catalogues and magazines we can accept International Reply Coupons (IRC). Each IRC is worth 41p.

### 5. Currency

We can accept currency (but no coins) only if sent by registered post at your risk.

### 6. C.O.D.

We can send goods (but not catalogues or magazines, unless included with goods) Cash on Delivery to the following countries only: Antigua & Barbuda, Austria, Azores, Balearic Isles, Bahamas, Barbados, Belgium, Belize, British Virgin Is, Canary Is, Cayman Is, Corsica, Cyprus, Czechoslovakia, Dominica, Denmark, Egypt, Falkland Is, Farøe Isles, Finland, Fiji, France, Gibraltar, Germany, Grenada, Guernsey, Hurgary, Iceland, Italy, Jamaica, Jersey, Liechtenstein, Luxembourg, Madeira, Malaysia, Malta, Monaco, Montserrat, Netherlands, Norway, Portugal, San Marino, St Christopher & Nevis, St Lucia, St Vincent & Grenadines, Sardinia, Seyocelles, Sicily, Sierra Leone, Singapore, Slovakia, Somalia, Spain, Sri Lanka, Sudan, Suriname, Sweden, Switzerland, Trinidad & Tobago, and Tunisia. You will be charged for the goods despatched, the standard carriage charge and the C.O.D. charge at cost. At present the C.O.D. charge is £5.00 per £200, but if the order is under £100, the charge is £9.00. Thus for example in addition to any other charges due, the additional amount you have to pay for C.O.D. is as follows:

Order Value	C.O.D. Charge
Up to £200	£5.45
£200 to £400	£10.25

You must write C.O.D. in large letters across your order.

### 7. Letter of Credit

If you cannot use any of the above methods, then usually the only other method we can accept is the "irrevocable Letter of Credit". Again, this can be arranged through any bank, part-shipment and transshipment must be allowed and you must pay all charges. Using this system, we do not receive payment until the goods are despatched. But it is a very slow system and because of the large amount of documentation, we cannot accept it with orders worth less than £750. Please do not use any other form of payment without

our prior consent. In particular, we cannot accept Money Orders or personal cheques except Uniform Eurocheques. In any event, please write on your order which method of payment you are using.

## OFFERS AND ACCEPTANCE

No obligation on Maplin MPS shall arise as a result of a catalogue quotation or any other offer until Maplin MPS accepts a purchaser's order. Maplin MPS reserves the right to cancel or amend orders without penalty depending on stock availability.

In the event of any inconsistency between Maplin MPS and the purchaser's terms and conditions, the Maplin MPS terms and conditions of sale shall prevail, unless and until variation by express agreement is accepted in writing by both parties.

## PRICES

Maplin reserves the right to change prices at any time without prior notice. In general, prices are reviewed every six months, at which time some prices may change. The price charged for all goods will be that ruling at the date of acceptance of the order by Maplin MPS. No changes to prices will be made following acceptance of an order by Maplin MPS. Whilst every effort has been made to ensure accuracy of prices quoted, Maplin MPS does not accept responsibility for any error or omissions. Written quotations shall be valid for a period of thirty days.

## PAYMENT TERMS

Export orders must be paid for in advance by one of the following methods:

1. Internationally recognised credit card, stating type of card, card number and expiry date.
2. Bank draft or cheque in Pounds Sterling, with order, drawn on a UK bank.
3. Where approved and established with Maplin MPS, net monthly account terms.
4. Letter of Credit (for order value exceeding £2,000), provided that it conforms to the following conditions:
  - (i) Irrevocable and confirmed on a major UK bank.
  - (ii) Negotiable for payment, at sight in Sterling.
  - (iii) Must conform exactly in detail for price, description of contents, despatch method etc., as given in Maplin MPS quotation or pro-forma invoice.
  - (iv) All bank charges, commissions, etc. are to be to the account of the customer.
  - (v) Transshipment and part-shipment must be allowed.
  - (vi) Must be open for a period of six months.
  - (vii) Must allow reasonable time for despatch of goods and subsequent preparation and presentation of documents.
  - (viii) Must specify if Country(ies) of Origin are to be shown.
  - (ix) Must be subject to the uniform Customs and Practice for Documentary Credits (1993 Revision ICC Publication UCP500) or as the same may be amended from time to time.

## DELIVERY, INSURANCE, IMPORTATION

In general, Maplin MPS delivery terms are CIF. Freight/Insurance charges are at cost and estimated as separate items on quotations and pro-forma invoices. All duties, importation and other costs related to import legislation in the destination country are the responsibility of the customer. The customer shall indemnify Maplin MPS against any expenses or losses incurred by Maplin in connection with the importation of goods into the destination country. The customer is responsible for obtaining any necessary import licences.

## DELIVERY DISCREPANCIES AND RETURNS

Any queries regarding non-delivery or incorrect delivery should be made in writing to Maplin MPS within twenty-one days of the date of despatch, quoting all relevant details, otherwise Maplin MPS cannot accept liability. No goods may be returned to Maplin MPS, for whatever reason, without prior written consent, unless they were sent by Maplin MPS in error or received by the purchaser in damaged or faulty condition. If goods are under guarantee, refer to section entitled "Warranty" for correct procedure.

## DESPATCH

Maplin MPS reserves the right to handle or transport goods by any means or method available to us, and that gives best service to our customer. However, Maplin MPS will

endeavour to meet the customer's specific requests regarding transportation of goods, but does not guarantee to do so. Special courier services are available at cost, as and when requested.

## Certificates of Origin

Maplin MPS undertakes, as necessary, to obtain, complete and submit Certificates of Origin to Chambers of Commerce and overseas consulates for certification and legalisation. Maplin MPS cannot arrange for certification or obtain other documentation from outside the UK.

## Documentation

Maplin MPS standard documentation comprises an invoice and a despatch note. Other documentation which, from time to time, may be required to accompany or support entry of orders into certain countries, e.g., Chamber of Commerce or Consular Certification of Legislation, will be charged at cost unless previously specified on Maplin quotation or pro-forma invoice. Maplin MPS will quote such charges, if requested to do so, at the time of any quotation. All such charges will be detailed separately.

## Additional Documentation - Charges

The following handling and administration charges for additional documentation will apply:

### \* Confirmed Irrevocable Letter of Credit:

(Minimum order value £2,000) Bank charges to the account of the customer.

Order value £2,000 to £4,999: Charged at £125

Order value £5,000 and over: Charged at £100

### \* Certificate of Origin:

Charged at £50 (in addition to Consular Legalisation charge)

### \* Hazardous Goods Document:

Charged at £30

## VAT

UK Value Added Tax at the standard rate of 17.5% is normally added to catalogue prices, quotations or pro-forma invoices for all customers resident in EC member states. Goods to EC customers may be zero rated provided that the customer's VAT registration number is indicated on the sales invoice. In some countries, such as Eire, VAT may be charged at the rate ruling in that EC State. In order to zero rate goods supplied to UK addresses for onward shipment overseas, e.g., to freight forwarders, a "Proof of Shipment" certificate and other necessary evidence of shipment may be required. Goods for export to areas outside the EC and including the Channel Islands are VAT zero rated.

## WARRANTY

Maplin MPS will, at its discretion, repair or replace a product in which, under proper use within 12 months of despatch, defects appear due to faulty materials or workmanship. All products should be returned at the purchaser's risk, suitably packaged, carriage paid within 12 months of despatch, accompanied by an advice note stating the original invoice number against which the goods were supplied, the nature of the fault and any other supporting information Maplin MPS may require. If any of these requirements are not complied with, Maplin MPS shall be discharged from all liabilities arising from the supply of faulty goods, and our warranty shall not apply.

## LIABILITY

Maplin MPS shall have no liability in respect of damage, expense or consequential loss resulting from the failure or delay in delivery or in performance of any obligations under any contract, due to any cause within or beyond Maplin control. This shall be considered Force Majeure and shall include, but not be limited to, Act of God, fire, floods, war, civil disturbances and industrial disputes.

## LAW

Any business transacted by Maplin MPS, subject to the foregoing terms and conditions, shall be governed solely by English law and be within the exclusive jurisdiction of English courts.

## A. UNITED KINGDOM

All orders and contracts for the sale of goods are accepted by Maplin Electronics PLC ('the Company') on these Terms and Conditions which supersede any previously published terms in this, or any previous catalogue, or elsewhere.

### 1. Offers and Acceptance

No obligation shall arise as a result of a catalogue entry, quotation or any other offer until the Company accepts an order from the person, company, or other organisation with whom the sale or supply of products is conducted ('the Purchaser').

In the event of any inconsistency between the Company's and Purchaser's terms and conditions, the Company's terms and conditions of sale shall prevail unless, and until, variation by express agreement is accepted in writing by both parties.

### 2. Orders

Where possible, orders should be made using the Company's order codes and order form. Please make a note of your customer number and/or account number and quote them on all orders. Products are supplied as shown in the Company's latest catalogue, unless the product has been superseded. Telephone orders will only be accepted on account when a purchase order number is given. Confirmation orders are not required, but if they are sent they must be marked "Confirmation Only". Failure to mark written confirmation orders could result in duplicate deliveries and in such case the Purchaser will be liable for the full purchase price, or alternatively, be subject to the Company's returns procedure.

Purchasers wishing to purchase goods on account at a Maplin Store will be required to provide a suitable purchase order. This procedure is also required when a previous telephone order has been made.

Prices and delivery for items covered by scheduled orders need to be made in writing and are strictly in accordance with the terms quoted by the Company and accepted by the Purchaser. Any variation in delivery requirements may be subject to price alteration. The Purchaser will be liable for any stocks held against an order at the end of the contract period.

Schedules will only be accepted when each shipment exceeds £25. Pro-forma invoices and quotations are available from the Company upon request.

### 3. Prices

The Company reserves the right to alter prices at any time, without prior notice. In general, prices are reviewed every six months, at which time some prices may change. The price charged for all goods will normally be that ruling at the date of acceptance of the order. All prices are subject to Value Added Tax (VAT) at the relevant rate ruling on the date of despatch.

### 4. Carriage:

Carriage is free for Maplin MPS Business Account customers. All non-account orders over £25.53 plus VAT or £30.00 inc VAT are sent free of carriage charges. Orders from non-account customers less than £25.53 plus VAT or £30.00 including VAT will attract a small order charge of £2.51 plus VAT or £2.95 including VAT. Orders received by 5pm will normally be despatched the same day. Guaranteed next day deliveries (before noon) are available for all of the UK mainland (excluding Scottish Highlands). Full details of all guaranteed delivery services are shown in the introduction to the Company's catalogue.

### 5. Payment

(a) Terms of payment are strictly cash with order unless a credit account has been established with the Company.

(b) Where a credit account has been established with the Company, payment must be made within 30 days of each delivery, whether the goods delivered are the whole order or only part shipment.

(c) The Company reserves the right to suspend deliveries where payment is not received in accordance with paragraph (b) of this clause, or in accordance with any alternative arrangement which has been agreed in writing between the Company and the Purchaser. In such case, the Company reserves the right to charge interest on the unpaid amount from 30 days after the invoice date at a rate of 4% above the current London Inter-Bank Borrowing Rate (LIBOR) per annum.

### 6. Back Orders

Any subsequent deliveries to complete an order will be despatched as soon as the item becomes available. Charges are only made when goods are despatched. The Company reserves the right to cancel any outstanding items in the event of unforeseen circumstances.

### 7. Order Cancellation

Cancellation of Purchaser's orders can only be accepted after prior negotiation and agreement – but in any case within 30 days of despatch. On no account can cancellation be accepted for items ordered specially on the Purchaser's behalf. In the case of any default, the Purchaser shall be liable to compensate the Company for any partly finished products, stock or materials and tools held for the manufacture or supply of such goods.

If the Company agrees to accept cancellation, part-cancellation or return of an order for catalogued items, a charge of 20% of order value will be made subject to a minimum charge of £2.

The Company reserves the right to impose a back billing charge for part-cancellation if the reduction in quantity affects the unit price.

### 8. Non-Delivery and Returns

No goods may be returned to the Company without prior written consent, unless they were sent in error by the Company or received by the Purchaser in a damaged or faulty condition. The Purchaser shall give the Company reasonable opportunity to examine the goods in respect of which any claim for damages is made. If the company agrees to accept the return, a charge of 20% of order value will be made subject to minimum charge of £2.

It is the Purchaser's responsibility to ensure that returned goods are received in as-new condition. This includes all associated packaging and literature. Appropriate precautions must be taken by the Purchaser regarding the handling of any static-sensitive devices.

It is the Purchaser's responsibility to refuse any damaged parcels or check that all goods conform to requirements as soon as it is practicable after delivery. Any error of despatch, including omissions or damage in transit, must be notified within 10 days of receipt of the package.

Any queries regarding the non-delivery of goods should be made within 10 days of the expected despatch date. The Company cannot accept liability for non-delivery if the Purchaser has failed to clearly identify the correct delivery address.

If the Company is not advised in accordance with specified notice periods relating to returns and non-delivery, as shown in the above paragraphs of this clause, it will be assumed that the Purchaser has examined the goods and accepted liability, in accordance with the contract. Notification of faulty goods must be made to the Company within 10 days of receipt.

All returned goods must be accompanied by the associated despatch note.

The Company will not accept returned software products.

### 9. Warranty

The Company will, at its discretion, repair or replace a product in which, under proper use and within 12 months of despatch, defects appear due to faulty materials or workmanship. Alternatively a refund of the purchase price may be given, or where the Company is owed sums by the Purchaser, a credit note may be issued. Acceptance of liability is at the discretion of the Company.

All products should be returned at the Purchaser's risk, suitably packaged and carriage paid, within 12 months of despatch, with an advice note stating the original invoice number relating to the product in question and detailing the claimed defect.

Should any modification or attempted repair be made to the product, for whatever reason, this will invalidate the warranty. Any item added to the product by the Purchaser should be removed before return to the Company. If such products are returned, the Company will accept no liability for any item attached to or associated with any product returned under warranty. The Company will assume it is authorised to remove any attachments but will not be obliged to reconnect such items before returning the product to the Purchaser.

This warranty excludes, and no liability can be accepted for, consequential damage, loss or injury arising from defective products.

Software products are excluded from this warranty.

### 10. Risk and Ownership

Whilst the responsibility for safe keeping passes to the Purchaser upon receipt of any goods, ownership does not pass until full payment is received by the Company.

### 11. Liability

The Company shall have no liability in respect of damage, expense or consequential loss arising from the failure or delay in delivery or in performance of any obligations under any contract, due to any cause either within or outside the Company's control. Causes shall include, but not be limited

to, act of God, fire, floods, war, civil disturbances, riots, act of Government, industrial disputes or failure by any subcontractor.

The Company ensures that every care and attention is given to the provision of correct information whether technical or otherwise. However, no liability can be accepted by the Company for any expense or consequential loss arising from either the failure to provide information, or any statement made by the Company's agents or representatives as to the specification of any product or suitability for a defined purpose, unless that information is confirmed in writing.

### 12. Lien

The Company shall have a general lien in respect of all sums due from the Purchaser upon all goods to be supplied, or upon which work has been done on the Purchaser's behalf, and twenty-eight days from written notice to the Purchaser, may sell such goods and apply the proceeds towards the satisfaction of the sums due to the Company.

### 13. Patents and Copyright

Products offered for sale by the Company may be the subject of patents or other such protectable devices.

The Company maintains full copyright in respect of the catalogue, and its whole or partial reproduction without the Company's consent is prohibited.

### 14. Illustrations, Specifications and Product Information

Whilst every effort is made to maintain accuracy, no liability can be accepted by the Company for any errors or omissions in supplying any technical information.

No illustration or specification should be taken to represent the manufacturer or source of origin.

The Company reserves the right, without prior notice, to discontinue or supersede any product as part of its continuous programme of product improvement. It is the Purchaser's responsibility to ensure that all products are suitable and fit for the purpose of their intended application.

### 15. Termination of Contract

If the Purchaser commits any breach of these terms and conditions of business, or becomes insolvent or commits an act of bankruptcy, or enters into any arrangement with his creditors or goes, or is put, into liquidation (other than solely for the purposes of reconstruction whilst solvent), or if a receiver is appointed over any part of the Purchaser's business, the Company may, without prejudice to any rights which may accrue, terminate the contract summarily by notice in writing.

### 16. Law

Any question relating to any contract subject to these terms and conditions of business, or agreed amendment to same, shall be determined in all respects by English law.

## B. EXPORT

The above UK Terms and Conditions also apply to export orders. In addition, the following clauses are applicable to orders received by the Company from Purchasers outside the United Kingdom, or from Purchasers requesting export to a country outside the United Kingdom.

### 1. Payment Terms

**Export orders must be paid for in advance by one of the following methods:**

- Internationally recognised credit card, stating type of card, card number and expiry date.
- Bank draft or cheque in Pounds Sterling, with order, drawn on a UK bank.
- Where approved and established with the Company, net monthly account terms.
- Letter of Credit (for order value exceeding £2,000), provided that it conforms to the following conditions:
  - Irrevocable and confirmed on a major UK bank.
  - Negotiable for payment, at sight in Sterling.
  - Must conform exactly in detail for price, description of contents, despatch, method, etc., as given in the Company's quotation or pro-forma invoice.
  - All bank charges, commissions, etc., are to be to the account of the Purchaser.
  - Trans-shipment and part-shipment must be allowed.
  - Must be open for a period of six months.
  - Must allow reasonable time for despatch of goods and subsequent preparation and presentation of documents.
  - Must specify if Country(ies) of Origin are to be shown.
  - Must be subject to the uniform Customs and Practice for Documentary Credits (1993 Revision ICC Publication UCP500) or as the same may be amended from time to time.
  - Country of Final Destination must be stated.

### 2. Delivery, Insurance, Importation

In general, the Company's delivery terms are Ex-works. Freight/Insurance charges are at cost and estimated as separate items on quotations and pro-forma invoices.

All duties, importation, and other costs related to import legislation in the destination country are the responsibility of the Purchaser. The Purchaser shall indemnify the Company against any expenses or losses incurred by the Company in connection with the importation of goods into the destination country. The Purchaser is responsible for obtaining any necessary import licences.

### 3. Delivery Discrepancies and Returns

Any queries regarding non-delivery or incorrect delivery should be made in writing to the Company within twenty-one days of the date of despatch, quoting all relevant details, otherwise the Company cannot accept liability. No goods may be returned to the Company, for whatever reason, without prior written consent, unless they were sent in error or received by the Purchaser in damaged or faulty condition. If goods are under guarantee, refer to the above section entitled "Warranty" for correct procedure.

### 4. Despatch

The Company reserves the right to handle or transport goods by any means or method available, and that gives best service. The Company will endeavour to meet the Purchaser's specific requests regarding transportation of goods, but does not guarantee to do so. Special courier services are available at cost, as and when requested.

### 5. Certificates of Origin

The Company undertakes, as necessary, to obtain, complete and submit Certificates of Origin to Chambers of Commerce and overseas consulates for certification and legislation. The Company cannot arrange for certification or obtain other documentation from outside the UK.

### 6. Documentation

The Company's standard documentation comprises an invoice and a despatch note. Other documentation which, from time to time, may be required to accompany or support entry of orders into certain countries, will be charged at cost unless previously specified. The Company will quote such charges, if requested to do so, at the time of any quotation. All such charges will be detailed separately.

### 7. Additional Documentation – Charges

The following handling and administration charges for additional documentation will apply:

- \* Confirmed Irrevocable Letter of Credit:  
(Minimum order value £2,000) Bank charges to the account of the Purchaser.  
Order value £2,000 to £4,999: Charged at £125  
Order value £5,000 and over: Charged at £100
- \* Certificate of Origin: Charged at £50 (in addition to Consular Legislation charge)
- \* Hazardous Goods Document: Charged at £30

### 8. VAT

UK Value Added Tax at the applicable rate (currently 17.5%) is normally included in the catalogue, quotations or pro-forma invoices for all Purchasers resident in EC member states. Goods to EC Purchasers may be zero-rated provided that the Purchaser's VAT registration number is indicated on the sales invoice and held in the Purchaser's records (the Destination System). If the Purchaser is unregistered, VAT must be charged at the standard rate applicable (the Origin system).

In order to zero-rate goods supplied to UK addresses for onward shipment overseas, e.g., to freight forwarders, a "Proof of Shipment" certificate and other necessary evidence of shipment may be required. Goods for export to areas outside the EC and including the Channel Islands are VAT zero-rated, provided the conditions of VAT Notice 703 apply.

### 9. Law

Any business transacted by the Company, subject to the foregoing terms and conditions, shall be governed solely by English law and be within the exclusive jurisdiction of English courts.

# The Maplin Guide to...

## GOOD SOLDERING

By Mark Brighton

Solder is the most important component that you will fit to your circuit board. It is the glue which will hold your circuit together and will allow all of the other components to connect to each other. A poorly soldered circuit will be unreliable or will not work at all. Consider the fact that a high proportion of the kits returned to the Maplin Service Centre need only re-soldering to make them work properly. This brief guide will attempt to describe the main soldering tools available and the techniques necessary to use them.

### The soldering iron

There are a few choices here and each type has its advantages in certain conditions. For truly portable soldering work, a gas powered soldering iron such as the Antex "GasCat" (RD51F) is an excellent choice. It works well outdoors, even in strong wind, as you may turn the gas control up to compensate for the cooling effect of the wind. Gas irons such as this or the professional "Pyropen" range from Weller are very good for jobs where access is restricted as they have no lead, which gives good freedom of movement in the tightest spots. They will run for about 20 minutes to an hour on a single charge of ordinary lighter gas, dependent on the control setting, and use a special catalytic soldering head for intense heat with no flame. Various special heads are available which convert the unit to a gas torch, cutting tool or a hot air blower for surface mount components or fine heat shrink sleeving. There are also cordless "go anywhere" electric soldering irons that use Ni-Cad rechargeable batteries to heat a wire tip.

In situations where the iron is going to be left on all day, or for hours at a time, gas and battery powered irons are not the best choice. The standard ranges of mains powered irons are the most economical and straightforward everyday tools for soldering jobs.

Very low Wattage irons (such as the Antex 12W (YU90X), 15W (FJ44X) and 18W (FY62S)) are ideally suited to soldering logic circuits or other designs based around IC's that may be a little sensitive to heat. Choose one of these irons if you intend to solder small components in low current circuits with fine PCB tracks.

The 25W mains soldering iron is the general purpose workhorse of electronic project construction. With just two or three extra bits in various sizes, it will be suitable for almost any job, if deftly used. The Antex XS 25W iron (FR12N) is the first choice of many constructors whose budget is limited to the choice of just one iron. The iron is supplied with a 3mm chisel tip (you may find a 2.3mm tip (FR16S) a better choice as a replacement for use with smaller components). This iron is powerful enough to solder cables to small

connectors or to larger solder tags, but you will need to order a larger tip (4.7mm chisel tip (FR18U) if you wish to solder to large connectors or chassis tags, otherwise the bit will not maintain sufficient temperature and may even freeze the iron to the job!

If you need to solder heavy wires or cables regularly, or solder to large connector tags or chassis plates, you will need a larger soldering iron. The Antex 50W temperature controlled iron (XJ45Y) is an excellent choice for this sort of heavy work, allowing accurate temperature control between 200 and 450 degrees Celsius. Note that this iron is NOT suitable for general purpose PCB work. For occasional heavy use, a gas iron turned right up will also do the job.

The serious user may wish to consider a soldering iron station which uses a special, low voltage version of the soldering iron for minimum leakage and very good safety. These units are temperature con-

trolled via easy to operate controls, some having digital readouts of iron temperature. A range of these are featured in the "Soldering Equipment & Accessories" section of your new Maplin / MPS catalogue.

### Solder and other accessories

Having made the right choice of soldering iron, it is equally important that you use the right type and gauge of solder wire. DO NOT attempt to use acid cored solder, solder bars or pellets of plumbers solder on your electronic circuits as the result will never be good or reliable.

The most common, general purpose solder used for circuit construction is 60% Tin, 40% Lead with one or more cores of non corrosive rosin based flux. Choose a reel of 22SWG solder such as our

FY70M or the Multicore DF11M for all fine and general purpose work. This solder is finer than the 18SWG solder (YJ92A) used for

heavier electrical wiring and allows quicker neater joints to be made on modern PCBs.

It may seem obvious, but soldering irons get very hot! You can hang some of them up on a hook, but a dedicated soldering iron stand with a spring or heat resistant plastic holder makes a much more sensible place to keep your iron.

One last word about accessories before we go on to discuss soldering technique. The first requirement for effective, neat soldering is that every surface is clean and that the iron tip is well tinned (whetted with molten solder). Soldering iron tips soon tarnish and oxidise and become more and more difficult to tin. You must avoid the temptation to use a file or emery cloth on a modern soldering iron tip as they are plated to prevent corrosion and pitting of the tip. Filing does clean a tip, but the unprotected copper beneath soon pits badly and the tip then rapidly disappears with use.

Multicore make a wonderful little tin of compressed solder powder, chemical cleaners and fluxes with a sticky pad underneath (JG06G). Throw away that wet sponge supplied with your soldering iron stand and fit one of these instead. Your bits will last two or three times as long. Simply grind the hot tip of the iron across this mixture for a clean tinned tip.

### Soldering technique

There are just a few simple ingredients for a clean shiny soldered joint. Firstly, make sure that the PCB or stripboard is clean before you start to insert components.

Copper is prone to tarnishing and should be polished with wire wool or similar just before you start to solder. HX04E is an abrasive elastic block which is perfect for PCB preparation and will not drop fine pieces of conductive wire all over your work-surface. Avoid fingering and handling the copper tracks before soldering.

Component leads should also be clean. Many component collections are relegated to a damp shed or garage and component leads will tarnish in the damp and become very difficult to solder. Keep them dry.

Once the components to be soldered are in place and have had their leads bent to hold them in position with the PCB upside down (push the components fully home onto the PCB, do not leave

them sticking up into the air), it is time to apply the soldering iron, which should have been left to warm up for several minutes and then freshly tinned by applying just a touch of solder wire to the tip face. If you are using a reel of solder, you may find it easier to pull off a couple of metres at a time and wind it around the fingers of one hand to form a handy little roll that is easy to hold and apply to the joint when soldering.

Apply the tip at an angle to the site of the joint in such a way that the tinned tip face heats both the PCB pad and the component lead where they touch and use the other hand to apply the end of the solder wire to that exact spot where iron tip, component lead and track are all touching. Push the solder wire into the joint just a little as it instantly melts and pull both the iron tip and solder cleanly away from the joint. The whole process should take no more than a couple of seconds.

All being well, the solder should have flowed evenly around the lead and over the pad and should have formed a smooth fillet of solder all around the lead which remains shiny when it cools.

If part of the pad or lead is still bare and clean, the iron should have been applied a little longer and a little more solder applied. You may go back in and re-apply the iron until the solder melts and apply a touch more solder. If you apply too much solder you will end up with a bulbous bead of solder on the joint instead of a fillet, with the possibility of short circuits to adjacent pads or tracks. If you do use too much solder, it is best to use desolder braid (GU83E) or a solder sucker (BA15R) to remove the excess and start again.

If the finished joint looks jagged, cracked and dull you have produced what is known as a dry joint. This is usually caused by applying heat to the joint for too long and cooking all of the flux out of the solder. Try reapplying the iron until the solder melts, add a touch more solder and instantly remove heat and solder wire. The flux in the new solder should allow the joint to flow and smooth out before setting. Again, if you end up with too much solder, or the joint still looks rough, remove the solder and redo the joint. Don't be tempted to leave dry joints. They may look joined now, but the leads will easily break free of the crystallised joint and form a high resistance joint which may overheat, arc and carbonise in use, especially if any significant current path runs via the joint.

If the finished joint looks clean, but the solder has beaded and is sitting above the pad, often with a brown shiny ring just under it, or the solder does not form a little "volcano" shape into the lead but dips into the lead and does not look joined, the pad or the lead were not clean enough and the solder has not taken to them. This sort of "joint" often insulates the component completely from the pad, and can be quite hard to troubleshoot once the circuit is finished. If reheating the joint does not work (and it usually doesn't) you will have to melt and remove the solder, wait for the joint to cool and scrape the flux and tarnish from the joint with a craft knife or similar before starting again. An abrasive fibreglass pencil (KR61R) is a handy tool for cleaning PCB tracks and pads.

## Soldering with Verowire.

The excellent Verowire wiring pen (HY16S) is the only sensible choice for the construction of prototype or one off digital circuits. It allows fast and direct wiring of multi wire data and address busses in one hit, where wires may cross as many times as necessary without shorting due to the tough, flexible layer of insulating varnish on the wire. Where a joint is required, the pen is used to wrap two or three turns of the fine wire around the IC

(socket) leg in question and the wire is run to the next IC, and so on.

It is not necessary to strip the insulation off of Verowire, as you may simply solder through it, but you will need a hot iron. A 25W iron with a medium tip will do this job adequately, but use of a hotter temperature controlled 40W or 60W iron will give faster and easier soldered joints. Pull enough excess wire out of the pen before soldering (10 cm will be fine) to ensure heat travelling up the wire from the joint does not melt it into the pen tip, ruining the pen. Use a craft knife or scalpel (FY05F is the handle, FY06G is a pack of blades) to cut off the wire at the end of the run (with pen attached) after soldering is complete. When soldering Verowired joints, the solder may bead on the iron tip for a second before you see the varnish burn off the wire. The solder should then run around the joint and the iron should be removed. If a whole buss has been wired by running (for example) D0 from one chip to the next, until the end, then back on D1 from chip to chip, across to D2 and so on until done, don't forget to cut of the links (alternately) at each end from one data line to another after soldering. Overheating should rarely be a problem with modern components and materials. In the 1960's, it was deemed necessary to fit a clip on device called a "heat shunt" (still available as FR10L for those working with obsolete Germanium devices) on each lead of a transistor or diode before soldering it in order to isolate the delicate crystal junction from the heat. Modern components are much more robust, but there are still some rules of thumb to follow.

Use as little heat as possible. This does not necessarily mean you should always use a low wattage iron or turn the temperature control down on a variable iron. On the contrary, a hotter iron often conducts less actual heat to a delicate component than a cooler iron does, because the more intense local heating produced by a hotter tip enables you to solder the leads quickly, before the heat is conducted to the device itself.

If in doubt, especially with a large IC to be directly soldered into a PCB (why not use a socket?) where many legs must be heated, you may use a freezer spray (DM88V) to freeze the IC solid before you start, and avoid soldering all the legs in one go. Try soldering half of them, then going on to other components before returning to finish the IC when it has had a chance to cool. Stripboard and Veroboard does not like being

heated excessively. Be very careful when soldering on stripboard. It is quite easy to overdo the solder and bridge (short) between strips. If you do this, bear in mind that these boards are made from resin bonded paper and the material does start to distort, blister and blacken if you overheat it. The track material is also prone to coming unstuck if you are forced to resolder or

remove components more than once.

Some connectors (especially basic phono and jacks) have plastic centre insulators that melt VERY easily. The tip here is to plug the connector into a mating socket before soldering. This not only acts as a helpful third hand, but supports the centre pin as the plastic holding it softens. It also helps to drain the heat away before the plastic melts completely. Don't unplug it before it has cooled!

## Health and Safety.

Just a brief note about health considerations. Solder is not very user friendly. It is 40% Lead, which gradually builds up in the body if ingested until toxic effects result. Handling solder is fairly safe, but don't nibble at it thoughtfully whilst contemplating your project! Wash your hands after soldering, especially if stopping for a bite to eat. Lead also vaporises into the fumes generated when you are soldering, so avoid inhaling the flux smoke. Just to add insult to injury, the flux fumes in the smoke are also none too healthy and have been shown to have carcinogenic properties with long term exposure. Work in a well ventilated room and avoid breathing the fumes. Use a fan or, better still, a filtered fume extractor such as our BN90X, which will remove most particulates if the filter is changed regularly (BN91Y). Careful with that hot soldering iron! Quite apart from burnt and blistered fingers, many plastics produce choking and harmful gases when melted and burned and it is all too easy to concentrate on the area where the tip is, only to burn something with the rest of the iron.

This brief guide has only scratched the surface of the art of soldering and the products available. There are specialised soldering irons such as the Antex Pipemaster (YP01B), designed to solder central heating / plumbing pipes, soldering iron kits, 12 Volt soldering irons for car use, solder pots for melting pellets, special shaped tips, solder creams and flux dispensers for reworking conventional components and surface mount devices. 60/40 solder is available by the reel, as well as in short lengths or in dispensers. Solder with higher or lower melting points is also available, as are solder pellets and bars.

"Practice makes perfect" as the old saying goes and it's never been truer than with soldering technique. It is very much a skill that comes with practice, once you have the right equipment for the job. It goes without saying that your new Maplin/MPS catalogue has all of the soldering equipment you will ever need and that our Technical Sales staff are only a phone call away should you wish to discuss your soldering requirements and need some help in making the right choice.

# The Maplin Guide to...

## HOME SECURITY

By Mark Brighton

Home security is a subject close to many peoples minds. As the years go by we all build up collections of valued possessions.

Insurance is all very well, but it won't replace those items with sentimental value taken without thought or broken without purpose, or make you feel any better about the intruders who have violated your home. If you can stop them getting in, you have protected more than a house full of possessions. You have protected your family's way of life.

It need not cost much to protect your home (look at YS01B)

You do not have to be an expert to fit a security system.

If you can wire a three pin plug, you can learn how to fit a burglar alarm.

You have one initial choice to make, that of a hardwired system, or a wireless system that uses low power radio circuits to connect the sensors to the main alarm unit. Each system has its own features and benefits, but may also have installation requirements that could affect your choice of system

Features and benefits compared;

### Hardwired alarm systems

Hardwired alarm systems such as our YS03D rely on simple switching circuits to operate, so they are easy to understand.

They do not need complex electronics, so they can be inexpensive to buy.

They run from one main power supply, so they do not need several batteries changing periodically.

Wired alarm systems do not use radio signals, so their arm and disarm codes cannot be "cloned" by enterprising technological criminals.

### On the other hand;

Hardwired alarm systems need to have cables run from the main control panel to each window, door or motion sensor and there are a number of ways to connect them together for correct operation.

Care must be taken to keep the wiring well away from any place where burglars could tamper with it, disconnecting sensors from the system.

### Wireless Alarm systems

Wireless alarm systems like the versatile Fox Security CN10L have no cables connecting sensors to the main control panel, so they are easy to fit and do not create redecoration work.

Nearby sheds or garages may be covered with no cables needed.

They are controlled by convenient remote control units, with no complex disarm codes to remember.

### On the other hand;

Each sensor has its own battery and these must be monitored and changed periodically, but many

wireless control systems will let you know when a battery is getting low.

Wireless systems are not actually wireless. They need mains power supply wiring and usually have a wired external bellbox connection (except for the solar cordless kit YD44X).

With very specialised receiver/decoder equipment it is possible (though very unlikely) that transmitted arm and disarm codes may be grabbed and "cloned", or transmissions may sometimes be jammed so that the panel cannot receive sensor alarm signals.

However, most of this is of limited importance. No burglar alarm will be absolutely infallible, but any alarm that you fit will be a deterrent to potential intruders. If the bellbox is visible, it indicates that your premises are not going to be a pushover. If

So, in essence, all that you need to do is to fit sensors to each window or door that you wish to protect and wire a loop from the

panel, via each sensor in turn, back to the panel again. Wire in the mains supply and bell box and presto! Your home is secure. In practice, there is a bit more to it than this, but it is not too complicated.

### Sensors and Zones

The sensors connected to an alarm panel could all be wired up as described previously to a single pair of inputs on the control panel, but there are advantages to having several separate sets of input pairs (zones) covering different parts of the house. Firstly and most obviously, you can tell what part of the house the offending sensor is in if the alarm is triggered. This narrows down the search for signs of an intruder or an open window. Having several separate zones rationalises the wiring too, as you end up with several spurs of wire

running out from the (ideally centrally located) control panel to each part of the house instead of one huge loop that must pass through every room, upstairs and downstairs.

The use of separate zones allows you to "part arm" the system. At night, the lower floor could be armed, with upstairs bedrooms disarmed so that windows could be left open in summer and movement detectors do not trigger if you turn over in bed and so on.

In addition to the zones you use to run sensors from separate parts of the house, there are often extra zones dedicated to special functions. The anti tamper or 24 hour zone will be triggered if anyone attempts to dismantle the control panel, the bell box, or any of the sensors connected to the system, whether the alarm is armed or not. Likewise you may fit a panic button to this zone near to the

front door which will trigger the alarm instantly when pressed.

One zone, usually connected to the front or back door, is called the "Entry / Exit Zone". This zone is fitted with (often programmable) time delays which allow you to leave the house having set the alarm, as well as allowing (say) 30 seconds for you to disarm the alarm upon entry detection before firing the sirens.

Some panels (such as our XP02C) have a dedicated fire zone for heat sensors or smash panels, which is a 24 hour zone with outputs for a separate fire siren.

Apart from the magnetic sensors already mentioned, the other main choice for coverage of a room is the Passive Infra-red Detector, or PIR (such as DM12N). This is a motion detector that works by sensing moving body heat in its field of view. Of course, by this time the intruder is inside your home, so you may wish to use window sen-

intruders do trigger your alarm, the resultant ear splitting din should see them off before they ever set foot inside your home, as well as alerting your neighbours that something is amiss.

Let us take a look in more detail at each of the systems, the sensors and the work involved in fitting them.

### Hardwired systems

As the name suggests, hardwired systems rely on wired inputs to inform the main control panel what is going on in your home. The most fundamental part of a wired alarm system is the closed loop. This simply means that, all being well, the control panel expects to see a short circuit between two sense terminals. It passes a signal to one end of the loop and expects to see it come back at the other. If any door or window fitted with a sensor is opened, a magnetic switch in the sensor opens and the loop is broken.

sors as well. A PIR is not triggered by moving curtains or lights being switched on, nor by slowly changing heat sources like a radiator or storage heater, but pets may trigger the sensor. Special lenses that look up away from the floor are available (use AG82D pet lens with PIR AG81C), but cats with a tendency to run up the curtains may well cause problems!

One very useful variation on the standard PIR is our code (CP98G) which combines a smoke detector with a passive infra-red detector (separate outputs) to convert your burglar alarm system into a very effective fire alarm too.

The various sensors fitted to a burglar alarm system are wired to each other and to the control panel using either four wire (PA77J) or six wire cable (PA7N). You may use a single reel of the six way cable for the whole installation if required, leaving the spare wires unconnected.

Door and window switch sensors generally require a four wire connection. One pair of wires are connected to the incoming and outgoing closed loop wires. This pair will be shorted by a magnetic switch when the window or door is closed (a magnet mounted on the door / window will be in close proximity to the switch), and opening the door will result in the switch opening the loop. In addition to the zone loop pair, another pair of anti tamper wires are fitted to each sensor. This pair is also shorted under normal conditions by a switch that is held in place by the screws securing the sensor casing. If the screws are removed, the anti tamper loop will be broken and the panel will fire the sirens.

Six wire connections are required for any sensor that needs a power supply. Passive Infra-Red sensors use the third pair of wires to obtain their 12 Volt DC supply from the panel. Most bell boxes also require a six wire connection.

Apart from the magnetic switched sensors and PIR's already described, there are a few special sensors which may be fitted to a security system. Glass break detectors and motion or shock sensors based upon trembler switches protect against entry via broken windows and photoelectric beam break sensors will trigger the alarm if an intruder crosses a certain point.

## Wireless systems

The zone arrangement on a wireless system is much the same as with a wired one, with several separate zones to cover different area and a 24 hour "Panic" and anti tamper zone. The obvious difference is that the sensors within a zone do not need wiring together and usually identify their zone number to the panel by transmitting a digital code to the receiver which includes the zone number.

The same magnetic switch sensor system is used for windows and doors, which may need some wiring to the sensor / transmitter unit. You would in any case probably wish to wire several magnetic switches to one sensor (for a large window with several casements), plus perhaps a door switch, all in one room.

PIR's are the easiest sensors to fit as they need no wired connections whatsoever. Simply set the internal switches to indicate which zone the sensor belongs to, connect the battery and fit the unit about two metres up on the desired wall.

## Remote monitoring of your system

It is also possible to add a remote monitoring station to your burglar alarm that will phone pre-programmed telephone numbers to warn that the alarm has been activated. The new Arms 3 subscriber unit (MT99H) will phone a professional monitoring service that will in turn dial out to one of four chosen contact numbers and warn you of the alarm activation. The system also allows you to listen to an audio recording from your property of the 20 seconds prior to the alarm being activated, as well as 10 seconds after activation. Should the system be triggered by accident, it is possible to disarm it from your home using a standard tone dial phone, after monitoring the recording locally. Extension microphones (MU43W) and loudspeakers (MU44X) are also available.

The annual subscription to this service is at one of three levels. The 3 Star service is as described above, notifying subscribers of Intruder, Fire or Personal Attack (provided the unit is connected to a burglar alarm system with separate outputs for those conditions) with monthly test calls being made to check the system (premium rate line, 75 seconds). The 4 Star service adds notification of rising freezer temperature, frozen pipes and water leaks (if the optional sensor pack (MU41U) is fitted

and wired to the subscriber unit). The top of the range 5 Star service adds electrical ring main failure, and monitoring for gas and carbon monoxide leaks to the other monitoring services (once the extra sensors / detectors (MU42V) have been fitted).

## General considerations

All of the sensor power supply and sensor loop wiring on modern burglar alarm systems is low voltage and poses no shock hazard provided the control panel has been properly fitted. The control panel of mains operated systems will need wiring into a separate fused unswitched spur from your mains supply. Follow the instructions provided with each panel for details of mains wiring and earth connections. The 12 Volt auxiliary supply wired to powered sensors and the bell box is fused or current limited within the panel. Note that working on a system with power applied risks shorting the auxiliary supply and blowing the fuse. If all PIR's stop working, this is the most likely cause.

The power supplies in mains operated systems are backed up by rechargeable batteries, so that your home will still be protected in the case of a power cut or if the supply cable is tampered with.

Likewise, most bell boxes have a rechargeable battery within them, making it very difficult for a burglar to disable the system. Cutting the lead to the bell box (which should in any case not be accessible from the outside of the premises) will result in the bell box sounding until its internal battery is discharged. Note that bell boxes such as our YS09K normally sound only for a predetermined period (usually up to 30 minutes) as required by legislation. Many alarm control panels have a separate output which remains switched on indefinitely after the alarm is triggered and this is usually connected to a strobe beacon on the bell box so that you may see upon return to your home that the system has triggered.

The battery back up and anti tamper system does mean that alterations or additions to the system cannot be accomplished by simply switching off the power and opening the case, as the bell box will sound continuously until power is restored. It will be necessary to climb up to the bell box and temporarily disable it whilst working. Nearby lightning strikes during thunderstorms sometimes set off alarm systems, which will occasionally need to be completely reset to stop their sirens. The mains power supply in some country areas is none too reliable and momentary drops or spikes in the supply may also trigger the alarm. It is possible to fit a mains filter to the supply to reduce the effect of a noisy supply.

Take a good look at the system kits and burglar alarm accessories featured in the "Security, Safety and Warning Devices" section of your new Maplin MPS catalogue. If you have any questions, or would like to discuss installation of a security system in your home with our trained technicians, please feel free to call our Technical Helpline on 01702 556001 for a prompt and courteous service.

## UPGRADING PC's

By Mark Brighton

They say that time and tide wait for no man and the world of PC's certainly never stands still.

Chances are that "State of the Art" machine you bought two or three years ago won't even run half the latest games now, and some of the new office programs run so slowly you might as well have written that report in longhand! But all is not lost. It is nowhere near as difficult to upgrade your PC as you may have imagined. Note that this guide is not written with the beginner in mind, but is intended to help those who have used a PC for some time and are considering upgrading their machines for better speed and capacity.

How much of an upgrade you wish to consider is very much up to you. For very little outlay, you may add extra RAM in the form of an extra 8 Meg (NT04E for 72 pin EDO, AR20W for 72 pin standard), 16 Meg (NT05F for 72 pin EDO) or even 32 Meg SIMM (NT06G for 72 pin EDO) to an existing system and gain a considerable speed increase. If your system uses 30 pin SIMM's, we can still supply the 4 Meg x 9 (ZG55) at time of writing. Older systems based on slower 486 processors may be modestly upgraded at next to nothing prices to use the fastest of the 486 chips such as a DX4 or an "Overdrive" Pentium adapter, or you may decide to bring your computer right up to date by fitting a new motherboard and Pentium processor. Before getting carried away with PC specifications and their complexities, take a moment to examine your system to assess what you have now. Then you are in a position to decide what sort of upgrade is worthwhile.

### Looking back at the AT's

Some of you may just have a 386 or even a 286 processor. If your motherboard is of a standard size and format in a full size desktop or tower case fitted with a 200 Watt power supply, you may be able to upgrade your PC to a modern standard, but it will not be easy. Older machines will need new motherboards with a Pentium processor fitted, but you will also find that your peripheral cards (VGA, IDE and so on have only an ISA interface (the black sockets with one long and one shorter part on the motherboard), whereas modern motherboards expect a PCI interface (shorter, denser single socket, usually white) in order to make full use of the speed of data transfer which is one of the main reasons for upgrading your machine in the first place.

Even if you change these cards the older VGA

monitors will not work at the faster SVGA refresh rates and you will not be able to use your original SIMM's (or, in the case of very old machines, SIP's) so will need new memory modules. Owners of pre 286 machines (IBM XT compatible) and non standard format PC's, such as older Amstrad or Compaq PC's, are best advised to sell or donate those machines to a worthy cause and start again.

### Back to the future

Some of the above will also apply to 486 based PC's, but to a lesser extent. The monitor of any PC bought over the past few years should be SVGA compatible (check for non interlaced (NI) refresh at 1024 x 768 mode). Users of motherboards

purchased within the past three years or so will probably have already fitted the more modern 72 pin SIMM's, which will be usable in new Pentium motherboards (until they are only supplied fitted with the latest DIMM standard sockets). If you still use 30 pin SIMM's, you will have to buy new memory modules, but you should be pleasantly surprised at the fall in prices. A 16 Meg 72 pin SIMM is now half the price an 8 Meg SIMM was just a year ago. Twice the memory for half the price!

If you should need a new monitor, the JT31J 15 inch colour monitor from CTX provides a useful increase in clarity over the 14 inch screens supplied with many older PC's at relatively little extra cost. The other item you will need to upgrade (unless you already have a fast PCI bus based graphics card) is your old ISA VGA or SVGA graphics card. If your present motherboard is fitted with

any VESA local bus cards (they plug into a long black ISA connector in line with a brown high density connector), they will

unfortunately not be suitable for use in a Pentium motherboard upgraded system.

### Bits and PC's

Where does this leave you? With a longer or shorter shopping list depending how modern your existing system peripherals are, but the first main item you will want is a new motherboard.

There are three new motherboards featured in the latest Maplin MPS catalogue. Each of the boards is supplied in a standard size format, one of which should fit in most desktop cases with no problem (most cases have a variety of fittings to accept mounting stand offs in a number of positions).

Each of the motherboards has two built in EIDE interface ports for connection of hard drives and CDROM's, so that is one less plug in card you will need to replace. The motherboards also include all of the usual "Super I/O" functions (floppy drive (up to 2.88 MB connector, two 16550 compliant (fast) serial ports and parallel ports).

The new baby AT motherboard (LR84F) offers the best backward compatibility, having the same back panel / socket arrangement as any standard AT compatible machine, as well as having both the old standard power supply sockets and the newer ATX software power control sockets. It will support a whole range of modern processors up to the 233MHz Pentium MMX, but will also accept slightly more affordable but still

high performance processors such as the Crix P150+ (VL68Y) or P166+ (VL69A). Provided with 512K cache, supports up to 256MB DRAM (SIMM memory)

The ATX motherboard (LR85G) provides the same functions as the board described above, but brings the various serial and parallel connectors out at the back of the PC in the newer ATX format, with the keyboard and mouse connectors being in the mini-DIN PS/2 style. Provided with 512K cache, supports up to 256K cache, supports up to 256MB DRAM

The top of the range Pentium II based ATX motherboard (LR86T) also uses the updated ATX format but features an additional expansion slot for the Pentium II processor (up to 266MHz). Supports up to 512MB DRAM.

Three of the older ISA sockets are provided on each motherboard for older peripheral cards that

you do not wish to replace, as well as four PCI sockets. All of the new motherboards feature Flash BIOS, software power control, jumperless CPU installation via BIOS, PnP and IrDA IR function.

Just a few general notes on changing a motherboard. Make sure that the stand-offs from your old motherboard are fitted to the new one lining up with as many of the holes in the case as possible and remove any that don't. If any of the brass threaded pillars at the rear of the case do not align with corresponding holes (clear of PCB tracks) in the new motherboard, then remove them.

Note that SIMM's are a lot easier to fit before the motherboard is installed in the case, and will only fit one way around. There are sometimes rules about which bank should be filled first and some motherboards are fussy about fitting only the same size in adjacent banks etc. If in doubt, consult the manual that came with the motherboard. CPU's should also be fitted at this stage, lifting the lever on the CPU ZIF (Zero Insertion Force) socket before fitting the CPU (note correct orientation) and then pushing the lever down to grip the CPU. DO NOT handle the CPU or SIMM pins when fitting. Do discharge any static you may be carrying by momentarily touching a grounded object such as a radiator, before starting or, better still, wear an anti static wrist strap connected to ground.

**Safety Note:** Do not connect yourself directly to ground, especially when working with mains powered equipment, as this could easily cause a fatal shock if a fault condition occurs. An anti static wrist strap such as FE29G contains high voltage limiting resistors which will protect the user against shocks as well as protecting your PC from failure due to static damage.

## Motherboard settings

Some motherboards have complex sets of jumper links to set CPU type and supply voltage. You should get away with setting the type up incorrectly, but setting a 3 Volt processor up with a 5 Volt supply may result in a brief, but expensive, fireworks display. Do consult the motherboard manual (booklet) several times to ensure that you have set the supply voltage and other CPU links correctly. Alternatively, buy one of our new motherboards, which will allow you to set up the CPU type from within the BIOS program at power up.

Ensure that the power connectors are correctly connected to the new motherboard (the black wires on the older AT connectors should meet on the inside of the long power socket).

Although it may look a little daunting, the spaghetti of wiring to the switches and indicators is quite straightforward when taken bit by bit. Each group of pins on the motherboard is marked more or less clearly (and the booklet that comes with each motherboard usually helps here) and the consequences of connecting LED's or switches the wrong way around are not usually that bad. Just two things to look out for;

The loudspeaker connector on the motherboard has both +5V (or +3V) and 0V pins. Make sure you do not connect the PC speaker between them or you may damage the motherboard!

The Reset switch wiring is often on a three way plug which will go on to the motherboard reset pins (only two pins) either way around, leaving one wire unconnected. If you fit this the wrong way around, the PC will switch on with a blank screen, because it is reset all of the time except when the Reset switch is pressed. Simply swap the connector to the other pair if this happens.

Most of the other connections are simple common sense. If, upon power up, a LED doesn't light when you operate the associated switch, reverse the connector to the LED concerned.

Upgrading other parts of the system is usually very easy in these days of "Plug n Play", especially if you are using Windows 95, which tends to recognise new hardware upon power up and prompt

you for the necessary driver software. When you fit new boards (soundcards, modems, graphics cards and so on), ensure that you have definitely pushed the card fully home into the motherboard (never, ever try to do this with the power on). Try to keep the card square to the socket as you do this or you may lose the BIOS set up information and have to go through the set up again. Bear in mind that the power supply on a PC can deliver 20 Amps or more and shorting it out will burn PCB tracks on your motherboard to a crisp. These are sometimes between the top and bottom PCB layers and therefore not repairable. You have been warned!

## Fitting Disk Drives

Floppy drives and hard drives have to be wired up in a certain way to set A drive, B drive, Master and Slave and so on. Unfortunately, these are often provided with little or nothing in the way of installation instructions. Data cables may often be fitted either way around (but will only work one way). Look for Pin one on the controller card or motherboard, fit the stripe on the cable to this end of the connector and follow it through to pin 1 on the drives. If you cannot see which is pin one, the end of the connector nearest to the power socket is usually right.

Fitting a new hard drive such as the 3.0 GB Western Digital (KV49D) is now fairly simple. Any motherboard made since mid 1995 will have an autodetect hard drive facility within the BIOS, so those heads, cylinders and sectors no longer need to be entered manually. Jumper leads however, will need setting so that you have a master drive and a slave drive. Modern IDE CDRom drives complicate this further as they also need setting to master or slave. If you have an EIDE interface (which will also allow your motherboard to access hard drives larger than 528MB), you will have two IDE connectors, each of which may have a master and a slave drive connected.

If you do not have information on the jumper settings (especially for your older drive) and they are not printed on the drive, try the Internet for information. This also applies to other configuration information as the Internet is, among other things, a huge repository of technical information both old and new. Failing that, as always, our technical team are waiting for your call!

# The Maplin Guide to...

## GETTING ON-LINE

By Mark Brighton

It seems that everybody is talking about the Internet. You cannot open a newspaper or watch an evenings television without at least one mention of the "World Wide Web" or the ubiquitous "Super Information Highway". Even the adverts display almost subliminal flashes of web addresses for those with extraordinary memory retention skills while television programme presenters struggle with those awkward "BBC dot Co dot UK" E-mail addresses.

But what's it all about? If you have never "surfed the web" before, you have possibly been left cold by all the coverage (and hype) of the Internet. However, if you own a PC already or are considering buying one, it wouldn't cost the earth to add Internet access to your system, but it would give you access to information, pictures and sounds from all over the earth. Once you have bought and fitted a modem (which simply allows your PC to send and receive data over the phone line) you simply choose a service provider from the many that advertise Internet access (prices are still coming down and some are around £7.50 per month at the time of writing), load up some software and you are ready to go.

### Whats in it for me

The Internet is not just for computer buffs. There is plenty out there in "cyberspace" for you, no matter what your interests may be. It may be fairly said that the Internet is like a huge encyclopaedia, with no contents or index pages. Instead of looking at contents lists, you use one of the many "search engines" which allow you to type in any words relating to your interest.

Whether you are into American square dancing, tourism in Oxford, war memorials in France, finding lost or distant relatives whose ancestors may have been "transported" to the colonies, or even more obtuse or exotic subjects, it can be practically guaranteed that your search results will list tens, hundreds or (often) thousands of web documents containing your key words, sorted by relevance (or at least by how many times the search found your keywords in each document). Just click on the links displayed and off you go.

### Fun for all the family

If you have children at school, the Internet can provide pages of useful information to help them: with homework or special projects from, for example, pages about what life is like in Kenya (and charities such as Actionaid, who are working to improve the quality of life in Africa and third world countries worldwide, have very active and interesting web sites) to web sites dedicated to the latest in space exploration, such as the recent Pathfinder mission to Mars.

Children will be delighted by the number of web sites providing information about their interests,

with sites discussing virtual pets and their care and evolution where children from around the world can swap pet stories, sites about those Orcs, Goblins and Space Marines used in the latest miniature wargaming, sites about Barbie and Ken, or almost anything else you could imagine. Just a word of warning here. The Internet has always been based very much on free speech and free expression and contains a number of sites with what may be best described as "adult content". It is advised that you do not let children browse the web unattended, but get an idea what they plan to search for, or visit, in advance and check in on them from time to time. There are also third party programs which attempt to censor web access but they are not infallible and, as always, gentle supervision is the best course.

Anyway, enough about the generalities of the

those pages full of pictures to laboriously download from a remote Internet site. Some pages contain ten or more large pictures which all attempt to download at once resulting in a wait of several minutes before the page is complete.

There is just one more decision that you need to make before buying your modem and that is whether you want an internal modem card or an external boxed modem unit. Each has its pro's and con's. Internal units such as the Motorola 56K (KQ17T) neatly disappear inside your case, so there is one less box to clutter the place, and they contain their own fast UART (the chip which converts the parallel data used inside your PC to the serial data sent one bit after another down your phone line, and vice versa). They are also a little cheaper than external types as they don't need a separate power supply.

External modems on the other hand (such as the new Motorola KQ16S) are far easier to fit as you do not need to open up the case of your PC, but they do require that you have a fast serial port to connect them to (based on a 16550 UART, not an 8250).

Some diagnostic programs (such as MSD under DOS) will tell you which chip your serial ports are based upon, but most modem serial cards and motherboard ports will be fitted with the faster type anyway. External units are obviously rather more portable and are worth considering if you wish to go online from more than one machine, or if all your motherboard expansion slots are already filled. You will need an extra mains socket for the power supply though.

Whatever you choose, BD06G is a telephone extension line kit that will run a convenient phone / modem socket to your PC for all but the most palatial of residences. Don't forget to put your

service providers phone number on your "Friends and Family" list to save 10% on those long Internet sessions.

### What do I use?

Once you have fitted your new modem, you will need to load some software to make use of it. This subject is a little complicated and the setup of your machine to work with the new hardware may be a little difficult. Firstly, your modem may have come with software drivers for Windows / Win 95 on disk, which may be installed. Windows 95 should recognise the fact that you have fitted new hardware to your system (if the modem is external, make sure it is switched on before you boot up) and prompt you through the set up sequence. Beyond this basic driver set up, the software you will use depends on your choice of service provider.

If you have chosen to subscribe to one of the non standard service providers such as Compuserve or America On Line (AOL), who do not connect you

Internet. Let us take a closer look at what you will need to get on line.

### The nuts and bolts of it

The various service providers are now generally offering country wide local access numbers at baud rates (connect speeds) of 28.8K Baud. This is (roughly) equal to 2.8K bytes per second when downloading and is the absolute minimum speed you should consider when buying a modem. 33.6K modems are available at much the same price as 28.8K ones and allow some degree of future proofing. For really snappy results, the latest 56K modems will allow speeds far in excess of what is possible at the moment once the service providers fit the equipment necessary to transmit at these speeds. In the meantime, the faster modems will automatically shift down to the fastest speed possible with your service provider, upon connection.

It really is worth buying the fastest modem you can afford, as you will realise when you sit waiting for

directly to the Internet but let you look at it through their gateway, you will need to run the software they provide to do that. For example, Compuserve subscribers run a program which in turn runs a special dial up and connect program that dials your local Compuserve node (access number) and then provides the log on and password information in the protocol that the Compuserve host machine expects before passing you to a menu program giving you access to a number of themed areas within Compuserve. Note that whilst browsing these areas you are not connected to the Internet as such, but to the alternative Compuserve network of computers. Clicking on the Internet button within this program then passes control to a special web browser program giving you a filtered access to the Internet.

On the one hand, this sort of access may be set up very easily. The CD supplied installs all of the (Windows based) software you will need and provides a number of configuration screens to fill in your logon and preference information. It is all rather non standard however. The programs you use are different from those used by other Internet subscribers, the E-mail addresses tend to be different in format, so you may find that many of the articles in the many Internet magazines do not directly apply to your set up.

If you choose to subscribe with a straightforward Internet only service provider, you may install their own suite of programs, such as the Demon Tumpike software, or you may use the programs supplied with Windows 95, or use some third party software. The most popular web browser packages, such as Microsoft Internet Explorer (supplied with later versions of Win 95), Netscape Navigator and NCSA Mosaic all work in a fairly similar way once you are connected.

## DUN Roamin'

The actual dial up, connection and log on is taken care of by Windows Dial Up Networking (DUN) software, which you may set up from My Computer and Control Panel in Win 95. This does require some patience but, once done, also allows you to set up Microsoft Mail / Microsoft Fax so that you may use your PC as a fax machine. Once set up, Microsoft Fax then becomes a printer option for any Windows application that can print, allowing you to send faxes quickly and easily using the Fax Wizard.

The long and short of all this is that, having purchased your modem and paid for your subscription to an Internet service provider, all of the software you will need for Internet web access, E-mail and general Fax use will be found on your Windows 95 system. Some of these options may not have been installed when Win 95 was set up on your system, but you may add them using Control Panel, Add/Remove Programs, under the Windows Setup tab. This will give you a list of Windows components that contains check boxes at the start of each line. Dial up networking will be found under communications, Microsoft Exchange and Microsoft Fax will both need checking if not already installed.

## State your preferences

You may choose to use the Microsoft Internet Explorer browser provided with later versions of Windows 95, or to use a browser such as Netscape Navigator (freely available on many magazine cover CD's). Either way, you will need to run the browser for the first time and set up the general preferences and details such as the E-Mail incoming and outgoing mail server names, the news server name and so on. These details will be given to you by your service provider. In addition to this, you will need to set up your networking options to add the TCP/IP data

exchange protocol before setting up your dial up adaptor from My Computer, Make New Connection. This will allow you to set up the program that dials your service provider and logs on to them. Note that some versions of Windows 95 will be able to do this automatically, having a suitable log on script built in, but others cannot. You must

enter your Internet Protocol (IP) address and your service provider IP address(es) within the Properties screen (right click on DUN icon created), via "Server Type" and "TCP/IP Settings". Choose "Specify" options and fill in the IP address numbers, which will have been given to you by your service provider.

Once you have set up your DUN connection, you may click and drag it across to the Desktop to create a shortcut, next to the icon for your chosen browser. Click on the shortcut to begin and your modem should dial out and connect to the remote server after an initial burst of whistling and data hiss.

## Logging on to the net

If the log on process presents you with a small terminal screen prompting you for log in name, password and protocol or similar, it is because the script run has not produced the expected result and error trapping has caused the system to revert to a manual log on. Enter the information as prompted and click on "Continue". If you get an error message such as "No Protocol", then you have not got the DUN or networking details set correctly.

If all of this proves too much, you may use programs such as the Tumpike software available from Demon (for access via that provider) which greatly simplify set up, but sometimes cause problems, particularly if you are also using a cabled network to link with other PC's, as they do replace or modify some standard Win 95 network files required by other networks.

## Browsing around

You will then need to run your favourite browser program. Note that you may be able to run several copies of your browser at once, should you wish to set something downloading on one browser, switch to the other and browse elsewhere (albeit slowly) while it downloads. This does slow things down, but not as much as you might think.

No one would pretend that the Internet is fast. Some of the more popular servers are under a continual strain due to weight of numbers accessing them at any one time. Service providers are struggling to keep up with the huge exponential increase in demand. The result of this is that the transfer rate of data from a given remote site is often considerably less than the theoretical maximum that your link to your local service provider could handle. Running two browsers at once sometimes gives a more effective combined bandwidth and does give you something to do if access to a site is slow.

That is about all that can be covered in this brief guide. The books section of this catalogue contains several books which are very useful to those venturing onto the Internet for the first time. The "Netscape Internet Navigator Assistant" is a concise reference to one of the most popular browsers. "The Complete Idiots Guide to the Internet" (NQ61R) covers everything you will need to know about getting started. It does all seem a little daunting at first, but confidence will only be gained by going on-line. If you do need help, try E-mailing [technical\\_sales@maplin.co.uk](mailto:technical_sales@maplin.co.uk) or, if you can't manage that, phone us on 01702 556001.

# SAVE OVER £50

## Offer valid until 28th February 1998

### £3 off voucher

(Only one voucher per transaction.)

**TO THE CUSTOMER:** This coupon may be used to gain a saving of £3 off your next transaction of £60 or more. Total value of order must be greater or equal to the values stated for purchases on the front of the coupon(s). Redemption of this coupon against any other items would constitute fraud. Maplin Electronics PLC reserve the right to refuse redemption of coupons if they have reason to believe that they have been used other than in accordance with their terms. Valid in U.K. only. Please submit vouchers with your orders from the Maplin Catalogue to: Maplin MPS, P.O. Box 777, Rayleigh, Essex SS6 8LU or at any Maplin Store nationwide. This money off voucher can only be used when purchasing goods from the Maplin Electronics 1997 Catalogue. Voucher cannot be used where the price may vary from the 1997 Maplin Catalogue published price, i.e. to purchase Sale items, special offer promotions, manager's specials, subscription discounts or any Bulk Purchases (where the number of single items purchased reaches the quantity eligible for bulk discount). This voucher is also excluded from calibration or repair services, handling and mailing charges. Cash value 0.01p. Offer ends 28th February 1998.

On purchases of £60 or over from

Voucher cannot be used where the price may vary from the 1997 Maplin Catalogue published price, i.e. to purchase Sale items, special offer promotions, manager's specials, subscription discounts or any Bulk Purchases (where the number of single items purchased reaches the quantity eligible for bulk discount). This voucher is also excluded from calibration or repair services, handling and mailing charges. Cash value 0.01p. Offer ends 28th February 1998.

On purchases of £300 or over from

### £10 off voucher

(Only one voucher per transaction.)

**TO THE CUSTOMER:** This coupon may be used to gain a saving of £10 off your next transaction of £200 or more. Total value of order must be greater or equal to the values stated for purchases on the front of the coupon(s). Redemption of this coupon against any other items would constitute fraud. Maplin Electronics PLC reserve the right to refuse redemption of coupons if they have reason to believe that they have been used other than in accordance with their terms. Valid in U.K. only. Please submit vouchers with your orders from the Maplin Catalogue to: Maplin MPS, P.O. Box 777, Rayleigh, Essex SS6 8LU or at any Maplin Store nationwide. This money off voucher can only be used when purchasing goods from the Maplin Electronics 1997 Catalogue. Voucher cannot be used where the price may vary from the 1997 Maplin Catalogue published price, i.e. to purchase Sale items, special offer promotions, manager's specials, subscription discounts or any Bulk Purchases (where the number of single items purchased reaches the quantity eligible for bulk discount). ## A. UNITED KINGDOM

All orders and contracts for the sale of goods are accepted by Maplin Electronics PLC ('the Company') on these Terms and Conditions which supersede any previously published terms in this, or any previous catalogue, or elsewhere.

### 1. Offers and Acceptance

No obligation shall arise as a result of a catalogue entry, quotation or any other offer until the Company accepts an order from the person, company, or other organisation with whom the sale or supply of products is conducted ('the Purchaser').

In the event of any inconsistency between the Company's and Purchaser's terms and conditions, the Company's terms and conditions of sale shall prevail unless, and until, variation by express agreement is accepted in writing by both parties.

### 2. Orders

Where possible, orders should be made using the Company's order codes and order form. Please make a note of your customer number and/or account number and quote them on all orders. Products are supplied as shown in the Company's latest catalogue, unless the product has been superseded. Telephone orders will only be accepted on account when a purchase order number is given. Confirmation orders are not required, but if they are sent they must be marked "Confirmation Only". Failure to mark written confirmation orders could result in duplicate deliveries and in such case the Purchaser will be liable for the full purchase price, or alternatively, be subject to the Company's returns procedure.

Purchasers wishing to purchase goods on account at a Maplin Store will be required to provide a suitable purchase order. This procedure is also required when a previous telephone order has been made.

Prices and delivery for items covered by scheduled orders need to be made in writing and are strictly in accordance with the terms quoted by the Company and accepted by the Purchaser. Any variation in delivery requirements may be subject to price alteration. The Purchaser will be liable for any stocks held against an order at the end of the contract period.

Schedules will only be accepted when each shipment exceeds £25. Pro-forma invoices and quotations are available from the Company upon request.

### 3. Prices

The Company reserves the right to alter prices at any time, without prior notice. In general, prices are reviewed every six months, at which time some prices may change. The price charged for all goods will normally be that ruling at the date of acceptance of the order. All prices are subject to Value Added Tax (VAT) at the relevant rate ruling on the date of despatch.

### 4. Carriage:

Carriage is free for Maplin MPS Business Account customers. All non-account orders over £25.53 plus VAT or £30.00 inc VAT are sent free of carriage charges. Orders from non-account customers less than £25.53 plus VAT or £30.00 including VAT will attract a small order charge of £2.51 plus VAT or £2.95 including VAT. Orders received by 5pm will normally be despatched the same day. Guaranteed next day deliveries (before noon) are available for all of the UK mainland (excluding Scottish Highlands). Full details of all guaranteed delivery services are shown in the introduction to the Company's catalogue.

### 5. Payment

(a) Terms of payment are strictly cash with order unless a credit account has been established with the Company.

(b) Where a credit account has been established with the Company, payment must be made within 30 days of each delivery, whether the goods delivered are the whole order or only part shipment.

(c) The Company reserves the right to suspend deliveries where payment is not received in accordance with paragraph (b) of this clause, or in accordance with any alternative arrangement which has been agreed in writing between the Company and the Purchaser. In such case, the Company reserves the right to charge interest on the unpaid amount from 30 days after the invoice date at a rate of 4% above the current London Inter-Bank Borrowing Rate (LIBOR) per annum.

### 6. Back Orders

Any subsequent deliveries to complete an order will be despatched as soon as the item becomes available. Charges are only made when goods are despatched. The Company reserves the right to cancel any outstanding items in the event of unforeseen circumstances.

### 7. Order Cancellation

Cancellation of Purchaser's orders can only be accepted after prior negotiation and agreement – but, in any case within 30 days of despatch. On no account can cancellation be accepted for items ordered specially on the Purchaser's behalf. In the case of any default, the Purchaser shall be liable to compensate the Company for any partly finished products, stock or materials and tools held for the manufacture or supply of such goods.

If the Company agrees to accept cancellation, part-cancellation or return of an order for catalogued items, a charge of 20% of order value will be made subject to a minimum charge of £2.

The Company reserves the right to impose a back billing charge for part-cancellation if the reduction in quantity affects the unit price.

### 8. Non-Delivery and Returns

No goods may be returned to the Company without prior written consent, unless they were sent in error by the Company or received by the Purchaser in a damaged or faulty condition. The Purchaser shall give the Company reasonable opportunity to examine the goods in respect of which any claim for damages is made. If the company agrees to accept the return, a charge of 20% of order value will be made subject to minimum charge of £2.

It is the Purchaser's responsibility to ensure that returned goods are received in as-new condition. This includes all associated packaging and literature. Appropriate precautions must be taken by the Purchaser regarding the handling of any static-sensitive devices.

It is the Purchaser's responsibility to refuse any damaged parcels or check that all goods conform to requirements as soon as it is practicable after delivery. Any error of despatch, including omissions or damage in transit, must be notified within 10 days of receipt of the package.

Any queries regarding the non-delivery of goods should be made within 10 days of the expected despatch date. The Company cannot accept liability for non-delivery if the Purchaser has failed to clearly identify the correct delivery address.

If the Company is not advised in accordance with specified notice periods relating to returns and non-delivery, as shown in the above paragraphs of this clause, it will be assumed that the Purchaser has examined the goods and accepted liability, in accordance with the contract. Notification of faulty goods must be made to the Company within 10 days of receipt.

All returned goods must be accompanied by the associated despatch note.

The Company will not accept returned software products.

### 9. Warranty

The Company will, at its discretion, repair or replace a product in which, under proper use and within 12 months of despatch, defects appear due to faulty materials or workmanship. Alternatively a refund of the purchase price may be given, or where the Company is owed sums by the Purchaser, a credit note may be issued. Acceptance of liability is at the discretion of the Company.

All products should be returned at the Purchaser's risk, suitably packaged and carriage paid, within 12 months of despatch, with an advice note stating the original invoice number relating to the product in question and detailing the claimed defect.

Should any modification or attempted repair be made to the product, for whatever reason, this will invalidate the warranty. Any item added to the product by the Purchaser should be removed before return to the Company. If such products are returned, the Company will accept no liability for any item attached to or associated with any product returned under warranty. The Company will assume it is authorised to remove any attachments but will not be obliged to reconnect such items before returning the product to the Purchaser.

This warranty excludes, and no liability can be accepted for, consequential damage, loss or injury arising from defective products.

Software products are excluded from this warranty.

### 10. Risk and Ownership

Whilst the responsibility for safe keeping passes to the Purchaser upon receipt of any goods, ownership does not pass until full payment is received by the Company.

### 11. Liability

The Company shall have no liability in respect of damage, expense or consequential loss arising from the failure or delay in delivery or in performance of any obligations under any contract, due to any cause either within or outside the Company's control. Causes shall include, but not be limited

to, act of God, fire, floods, war, civil disturbances, riots, act of Government, industrial disputes or failure by any subcontractor.

The Company ensures that every care and attention is given to the provision of correct information whether technical or otherwise. However, no liability can be accepted by the Company for any expense or consequential loss arising from either the failure to provide information, or any statement made by the Company's agents or representatives as to the specification of any product or suitability for a defined purpose, unless that information is confirmed in writing.

### 12. Lien

The Company shall have a general lien in respect of all sums due from the Purchaser upon all goods to be supplied, or upon which work has been done on the Purchaser's behalf, and twenty-eight days from written notice to the Purchaser, may sell such goods and apply the proceeds towards the satisfaction of the sums due to the Company.

### 13. Patents and Copyright

Products offered for sale by the Company may be the subject of patents or other such protectable devices.

The Company maintains full copyright in respect of the catalogue, and its whole or partial reproduction without the Company's consent is prohibited.

### 14. Illustrations, Specifications and Product Information

Whilst every effort is made to maintain accuracy, no liability can be accepted by the Company for any errors or omissions in supplying any technical information.

No illustration or specification should be taken to represent the manufacturer or source of origin.

The Company reserves the right, without prior notice, to discontinue or supersede any product as part of its continuous programme of product improvement. It is the Purchaser's responsibility to ensure that all products are suitable and fit for the purpose of their intended application.

### 15. Termination of Contract

If the Purchaser commits any breach of these terms and conditions of business, or becomes insolvent or commits an act of bankruptcy, or enters into any arrangement with his creditors or goes, or is put, into liquidation (other than solely for the purposes of reconstruction whilst solvent), or if a receiver is appointed over any part of the Purchaser's business the Company may, without prejudice to any rights which may accrue, terminate the contract summarily by notice in writing.

### 16. Law

Any question relating to any contract subject to these terms and conditions of business, or agreed amendment to same, shall be determined in all respects by English law.

## B. EXPORT

The above UK Terms and Conditions also apply to export orders. In addition, the following clauses are applicable to orders received by the Company from Purchasers outside the United Kingdom, or from Purchasers requesting export to a country outside the United Kingdom.

### 1. Payment Terms

**Export orders must be paid for in advance by one of the following methods:**

1. Internationally recognised credit card, stating type of card, card number and expiry date.
2. Bank draft or cheque in Pounds Sterling, with order, drawn on a UK bank.
3. Where approved and established with the Company, net monthly account terms.
4. Letter of Credit (for order value exceeding £2,000), provided that it conforms to the following conditions:
  - (i) Irrevocable and confirmed on a major UK bank.
  - (ii) Negotiable for payment, at sight in Sterling.
  - (iii) Must conform exactly in detail for price, description of contents, despatch, method, etc., as given in the Company's quotation or pro-forma invoice.
  - (iv) All bank charges, commissions, etc., are to be to the account of the Purchaser.
  - (v) Trans-shipment and part-shipment must be allowed.
  - (vi) Must be open for a period of six months.
  - (vii) Must allow reasonable time for despatch of goods and subsequent preparation and presentation of documents.
  - (viii) Must specify if Country(ies) of Origin are to be shown.
  - (ix) Must be subject to the uniform Customs and Practice for Documentary Credits (1993 Revision ICC Publication UCP500) or as the same may be amended from time to time.
  - (x) Country of Final Destination must be stated.

### 2. Delivery, Insurance, Importation

In general, the Company's delivery terms are Ex-works. Freight/Insurance charges are at cost and estimated as separate items on quotations and pro-forma invoices.

All duties, importation, and other costs related to import legislation in the destination country are the responsibility of the Purchaser. The Purchaser shall indemnify the Company against any expenses or losses incurred by the Company in connection with the importation of goods into the destination country. The Purchaser is responsible for obtaining any necessary import licences.

### 3. Delivery Discrepancies and Returns

Any queries regarding non-delivery or incorrect delivery should be made in writing to the Company within twenty-one days of the date of despatch, quoting all relevant details, otherwise the Company cannot accept liability. No goods may be returned to the Company, for whatever reason, without prior written consent, unless they were sent in error or received by the Purchaser in damaged or faulty condition. If goods are under guarantee, refer to the above section entitled "Warranty" for correct procedure.

### 4. Despatch

The Company reserves the right to handle or transport goods by any means or method available, and that gives best service. The Company will endeavour to meet the Purchaser's specific requests regarding transportation of goods, but does not guarantee to do so. Special courier services are available at cost, as and when requested.

### 5. Certificates of Origin

The Company undertakes, as necessary, to obtain, complete and submit Certificates of Origin to Chambers of Commerce and overseas consulates for certification and legislation. The Company cannot arrange for certification or obtain other documentation from outside the UK.

### 6. Documentation

The Company's standard documentation comprises an invoice and a despatch note. Other documentation which, from time to time, may be required to accompany or support entry of orders into certain countries, will be charged at cost unless previously specified. The Company will quote such charges, if requested to do so, at the time of any quotation. All such charges will be detailed separately.

### 7. Additional Documentation – Charges

The following handling and administration charges for additional documentation will apply:

- \* Confirmed Irrevocable Letter of Credit:  
(Minimum order value £2,000) Bank charges to the account of the Purchaser.  
Order value £2,000 to £4,999: Charged at £125  
Order value £5,000 and over: Charged at £100
- \* Certificate of Origin: Charged at £50 (in addition to Consular Legislation charge)
- \* Hazardous Goods Document: Charged at £30

### 8. VAT

UK Value Added Tax at the applicable rate (currently 17.5%) is normally included in the catalogue, quotations or pro-forma invoices for all Purchasers resident in EC member states. Goods to EC Purchasers may be zero-rated provided that the Purchaser's VAT registration number is indicated on the sales invoice and held in the Purchaser's records (the Destination System). If the Purchaser is unregistered, VAT must be charged at the standard rate applicable (the Origin system).

In order to zero-rate goods supplied to UK addresses for onward shipment overseas, e.g., to freight forwarders, a "Proof of Shipment" certificate and other necessary evidence of shipment may be required. Goods for export to areas outside the EC and including the Channel Islands are VAT zero-rated, provided the conditions of VAT Notice 703 apply.

### 9. Law

Any business transacted by the Company, subject to the foregoing terms and conditions, shall be governed solely by English law and be within the exclusive jurisdiction of English courts.
