ILIFFE & SONS LTD., DORSET HOUSE, TUDOR ST., LONDON, E.C.4

# INDEX—VOLUME XVIII

JANUARY 6th to JUNE 30th, 1926

- "Absorbos" Shock Absorbers, 591  
A.C. Circuits, Capacity and Resonance in (Wireless Circuits), 304  
— Circuits, Power in, 29  
Accumulator, A Neglected, 433  
— Charging (Hints and Tips), 125  
Accumulators, Care of, 389  
— from A.C. Mains, Charging, 33  
— with Wire-wound Resistances, Charging, 152  
A.C. Mains, Charging Accumulators from, 33  
— Mains, Charging H.T. Accumulators from, 790  
— Mains, Operating a Receiver from, 606  
— Mains Unit, The Tudoradio, 103  
Acoustic Instruments, Diaphragms for, 147  
Adjustable Diaphragms, 266  
Advertisements Competition, Hidden, 32, 50, 108, 190, 234, 250, 306, 376, 406, 498, 717, 752, 788, 801, 853  
Aerial, An Unusual, 509  
Aerial-Earth Circuit from Receiving or Transmitting Set, Screened, 384  
— Switch, 265  
Aerial, H.T.-L.T. and Earth from Wallplug (D.C. Mains Receiver), 811  
— Insulator, Improved, 432  
— Lead-in, 614  
— Safety Cord, 370  
— System (Pat. No. 221825), 105  
— Tuning Circuits (Wireless Circuits), 537  
Aerials and Aerial Circuits (Wireless Circuits), 457  
— Indoor (Hints and Tips), 87  
— Receiving, 665  
Afloat, Reception, 569  
Air-spaced Winding for Internal Connections of Sets, Using, 389  
Air, Wireless Bearings from the, 866  
A.J.S. Choke Amplifying Unit, 104  
Alternating Current Circuits, 269  
Alternative Choke-Filter or Direct Output Circuit, 279  
Amateur Recording Apparatus, 647  
Amateur Research, 829  
Amateur's Part in Short Wave Development, The, 216  
Amateur Station 2JB, 594  
— Station 6RJ, 251  
— Transmitters, 479, 724  
America, Broadcasting Problems in, 179  
— England v., 865  
America's New High-power Broadcasting Station, 495  
Ampere (Pioneers of Wireless), 131  
Amplification, Calculating, 789  
Amplifiers (Buyers' Guide), 213, 424  
Amplifier Switching (Hints and Tips), 261  
— The Valve as an (Wireless Circuits), 815  
Anode Current, 112  
— or Crystal Rectification (Hints and Tips), 57  
— Reaction Unit, Sparta, 185  
— Rectification (Hints and Tips), 673  
— Rectification, Grid Bias for, 478  
— Rectification in Tuned Anode Receiver, 390  
— Resistances (Buyers' Guide), 711  
Anti-Vibration Holder, Cosmos, 299  
— Vibration Valve Holder, 399  
Apparatus, New, 27, 68, 103, 149, 185, 272, 299, 341, 415, 460, 504, 535, 566, 591, 637, 672, 751, 786, 819, 894  
Arctic Expedition, Wireless with the Byrd, 771  
Argentine, High Power in, 128  
Arrago, Dominique François (Pioneers of Wireless), 175  
Ashdown Variable Condenser, 149  
Atlas Fixed Condensers, 820  
— Vernier Dial, 28  
Automatic "On and Off" Switch, An, 357  
— Receiver, An, 756  
— Valve Replacement, 630  
  
Balancing Inductances, 780  
Basket Coil Formers (Drilling Radial Holes), 825  
Bath Abbey, Loud-speakers in, 736  
Battery Charging from D.C. Mains, 535  
— Room at 2L.O. The, 440  
B.B.C. Finance, 281  
— Future of the—a Forecast, 323  
— Programme, Copyright of, the 360  
Beam Stations, Rugby and the, 35  
Bell, Alexander Graham (Pioneers of Wireless), 707, 749  
Belling-Lee Crystal Detector, 185  
Berlin's New Broadcast Station, 286  
Biassing the Detector Valve (Hints and Tips), 890  
"Bico" Valve Switch, The, 566  
"Blackadda" Constructional Sets, 504  
Blue Print, Constructional, 819  
"Blue Spot" Tuning Coil, The, 460  
Books and Catalogues Received, 28, 69, 104, 149, 183, 196, 273, 341, 579, 598, 720, 768, 822  
Broadcast Brevities, 25, 66, 99, 135, 177, 229, 267, 313, 351, 377, 413, 469, 505, 533, 567, 599, 635, 663, 713, 747, 775, 809, 845, 895  
— Commissioners, The (Editorial), 436  
— Receiver, Home, 608  
— Reception, Relative Strength in, 289  
Broadcasting Committee's Report, 391, 406  
— Government Controlled, 360  
— Importance of, 685  
— Photographs, 436, 437  
— Problems in America, 179  
— the Budget, 435  
— The Case for, 671  
Broken Earth Connections (Hints and Tips), 839  
Budget, Broadcasting the (Editorial), 435  
Built-up Fixed Capacity Condenser, A, 416  
Burwood Coil Mount, 69  
"Buyers' Guide," Wireless (Editorial), 75  
— Guide, Component Parts, 709, 855  
— Guide, Condensers, Fixed and Variable, 855  
— Guide, Receivers, 199, 423  
— Guide, Receivers, Portable, 551  
Buying a Set, On, 193  
— Wireless Components, 176  
Byrd Arctic Expedition, Wireless with the, 771  
  
Cabinets, "Hobbies'", 592  
Calculating Amplification, 789  
Calls Heard, 24, 65, 106, 148, 256, 316, 344, 369, 422, 468, 602, 617, 698, 746, 779, 838  
Canadian Trains, Wireless on, 615  
Capacity and Resonance in A.C. Circuits, 304  
— Controlled Reaction (Hints and Tips), 223  
— Reaction, Conditions for (Hints and Tips), 451  
Carborundum Detector, 57, 87, 520, 888  
Cardboard Tube, Cutting, 646  
Carelessness in Manufacture, 511  
Catalogues and Books Received, 28, 69, 104, 149, 183, 196, 273, 341, 579, 598, 720, 768, 822  
C.A.V., L.T. Accumulator, 460  
Celestion Loud-speaker, 751  
C.E. Precision Rheostat, 504  
Change-over Switch from Contact Studs, 400  
Changes of Current, Measuring Small, 41  
Charging Accumulators from A.C. Mains, 33  
— Accumulators with Wire-wound Resistances, 152  
— H.T. Accumulators from A.C. Mains, 790  
— H.T. Accumulators (Hints and Tips), 673  
— of H.T. Accumulators, Economical, 238  
Choice of Programmes, 791  
Choke Amplifying Unit, A.J.S., 104  
— and Transformer Coupling, Combined, 899  
— Filter Circuit, Correct Connections of, 863  
— Filter or Direct Output Circuit, Alternative, 279  
Circuits (Wireless), in Theory and Practice, 82, 122, 181, 269, 304, 345, 425, 457, 537, 595, 675, 715, 781, 815, 873  
Cleaning Variable Condensers (Hints and Tips), 170  
Clicking from Electric Light Mains, 322  
Clip-on Detector, 894  
Clix Wander Plugs, New, 624  
Clubs, News from the, 94, 134, 184, 220, 259, 312, 342, 387, 428, 473, 498, 536, 560, 603, 656, 712, 818  
Coil Former, 442  
— Formers, Basket (Drilling Radial Holes), 825  
— Holder, A New, 672  
— Holder Contacts, 614  
— Holder, Variable, 10, 520, 872  
— Mount, Burwood, 69  
— Mount, New, 592  
— Tests, Low Loss, 240, 291, 328  
Colonies, England in the, 554  
Combined Choke and Transformer Coupling, 899  
— Earthing Switch and Safety Gap, 121  
Common Faults (Hints and Tips), 22  
Communication Without Wires, Further Suggestions for (Pioneers of Wireless), 421  
Compact Portable, A, 753  
Comparing Receiver Range, 541  
Comparison of Signal Strength, 842  
Complications of Crystal Reception, 245, 309  
Component Parts, Buyers' Guide for, 709, 855  
Composite L.F. Amplification (Hints and Tips), 525  
Composite Reflex Receiver, Three Valve and Crystal Set, 36  
Condenser Design, New Features in, 416  
— Dial Adjustment, 841  
— Dials, 121  
— Plate Design, 847  
Condensers, Fixed and Variable (Buyers' Guide), 855  
— for Current from Mains, 68  
Cone Loud-speaker Diaphragm (Pat. No. 241860), 888  
Constant Aerial Tuning, The Meaning of, 605  
Constructing Components at Home, 73  
— Filament Resistances, 863  
— Intermediate Frequency Transformers (Hints and Tips), 349  
Constructional Blue Print, 819  
Construction of Grid Leaks and Anode Resistances, etc., 432  
Contact Detector, A New (Johnsen-Rahbek), 588  
Controlling Volume by Tapped Choke, 828  
Copyright of the B.B.C. Programme, 360  
Cosmos Anti-Vibration Holder, 299  
— Grid Condenser and Leak, 504  
— Hydrometer, 672  
— Micrometer 2-coil Holder, 637  
— Rheostat, 591  
— Variable Condenser, 185  
Coupling L.F. Valves, 701  
Crystal Detector, 580  
— Detector, The (Wireless Circuits), 675  
— Receivers, Portable (Hints and Tips), 605  
— Reception, Complications of, 245, 309  
— Rectification, Anode or (Hints and Tips), 57  
— Rectification, Valve or, 9  
— Rectifier, A Full-Wave, 828  
— Set, Adding L.F. Amplification to a (Hints and Tips), 555  
— Set, Improving a (Hints and Tips), 407  
— Set, Improving Results from a, 478  
— Sets (Buyers' Guide), 199, 423  
Crystals, Further Notes on the Loading Effects of, 334  
Crystal-Valve Sets (Buyers' Guide), 201, 423  
Current from Mains, Condensers for, 68  
Current Topics, 17, 49, 91, 129, 171, 215, 257, 297, 337, 371, 409, 453, 491, 521, 557, 589, 621, 661, 699, 737, 769, 807, 843, 877  
Cutting Cardboard Tube, 646  
Cutting Ebonite and Brass, 357  
  
Darimont Cell, The, 718  
D.C. Mains, Operating Valve Filaments from, 509  
— Mains Receiver: Aerial, H.T., L.T., and Earth from Wallplug, 811  
— Mains Unit, 591  
— Mains, Working a Set from, 869  
Dead-end Switch, 399  
Deeko Neutralising Condenser, 186  
D.E. 8L.F. and H.F. Valves (Valves We Have Tested), 16  
Detecting Oscillation, Methods of, 322  
Detection of High Frequency Oscillations, 505  
Detector Circuit, Four-Electrode, 384  
— Clip-on, 894  
— Valve, Biassing the (Hints and Tips), 890  
D.E.2 Series of Valves, Marconi and Osram, 133  
Devicon Condenser, 672  
Dialite Instrument Lamp, The, 592  
Diaphragms, Adjustable, 266  
— for Acoustic Instruments, 147  
Dictionary of Technical Terms, 29, 70, 107, 145, 190, 274, 317, 355, 385  
Dimic Coil, 273  
Directional Reception, Multiplex, 162

Q.S.L. Card, A New, 602

Radial Holes in Basket Coil Formers, Method of Drilling, 825  
Radio Frequency Amplifier, Two-Stage, 393, 394, 395, 396, 463, 464, 465, 466  
— in Miniature, 558  
Radion Type Valves (Valves We Have Tested), 173  
Radio Chris, 521, 522  
— Research in Russia, 110  
Railway, Wireless and the: Carrier Current System on American Trains, 101  
Ranger, Captain R. H. (Picture Transmission by Wireless), 549, 686  
Rathbun Vernier Dial, 637  
Ravox Variable Condenser, 415  
Reaction Control for Short-wave Tuner, 265  
— Reversing Switch, 894  
Reception Aloft, 569, 570  
— Without Aerial or Earth, Transmission and, 725, 726, 727  
Recording Apparatus, Amateur, 647, 648, 649  
— Broadcast Programmes, 567  
— with a Photoelectric Cell, 770  
Recruits by Wireless, Winning, 663  
Reduction Gear Fitted to Simpson Variable Condenser, 786  
— Gear in the Sterling Miniloss Condenser, 299  
Reed Type Loud-Speaker, 432  
— Type Telephone, 71  
"Reflex Neutrodyne," Wiring a (Dissected Diagrams), 556  
Reflex Receiver, Composite: Three-Valve and Crystal Set, 36, *et seq.*  
— Receiver, Wiring a Valve-Crystal (Dissected Diagrams), 526  
— with Choke-coupled L.F. Amplification, Valve-Crystal (Dissected Diagrams), 350  
Regenerative Variometer Receiver, 705, 706  
Reinartz Receiver, Switching, 798  
Reisz Microphone, The, 888  
Reith, Mr. J. C. W., 392  
Remote Filament Control, 678  
Resistance-Coupled Receiver, A 1-V-1 (Dissected Diagrams), 408  
Resistance, Experimental Plug-in Anode, 121  
Reversing Switch, Plug and Socket, 400  
Rio de Janeiro Station, 843, 845  
— Roberts "Reflex Neutrodyne, The, 833, 834, 835, 836, 837  
Royle, Mr. R. L.: Station 2WJ, 84  
Rugby Station, Equipment at (World-wide Wireless), 324  
— Rushton "Lead-in Tube and Earthing Plug, 28  
Russia, Radio Research in, 110

Safety Cord, Aerial, 370  
— Gap Incorporated in D.P.D.T. Earthing Switch, 121  
Sangamo Condenser, Section of, 104  
Savoy Hill and the Strike, 713  
Schnell, Mr. F. H., 492  
School, Wireless in, 505  
— Wireless Society, A (Royal Grammar School, High Wycombe), 603  
Screening in Receiving Aerials, 61, 62, 63, 64  
Screws Cut to Different Lengths for Valve Connections, 780  
Selective Three-Valve Receiver, 443, 444, 445, 446, 447, 448  
Self-Contained Two-Valve Portable Set, 561, 562, 563, 564, 565  
Series Aerial Condenser Unit, 486  
Series-Parallel Switch, 120  
70-Metre Aerial, A: The Short-Wave Aerial at Bound Brook, N.J., 337  
Shannon, Mr. Derek: with his Duplex Telephony Transmitter and Receiver (Wireless Telephony at Sea), 256  
Shock Absorbers, "Absorbos," 591  
Short-Wave Coil Holder, 9  
— Wave Oscillator, New, 361  
— Wave Receiver Using Interchangeable Coils, 379 *et seq.*  
Simmonds, Mr. O. D., 288  
Simplicon Variable Condenser Fitted with Reduction Gear, 786  
Single Side-band Transmission, 487, 488, 529  
Single-Valve Set giving Visual Indication of Self-Oscillation, 799  
— Wire Loud-Speaker Extension Unit, 217, 218  
Sirrel Switch Spade Terminal, 592  
6KJ, an Amateur Experimental Station, 251, 252, 253  
S.L.F. Dial, 592  
Slow-Motion Coil Holder, 520  
— Smoothac "Filament Rheostat, 820  
Solelip Connector, 104  
Soldering Iron Support, 580  
— Tray, 780  
Solid Back Microphone, 146

Southeast Wireless Exhibition, 180  
Spacing Washers, 831  
Spade Connectors Converted to Telephone Plugs, 728  
Spark Gap Lightning Arrester, 442  
Sparta Anode Reaction Unit, 185  
— L.F. Interval Transformer, 103  
Spindles, 830  
Spiral Telephone Tags, 265  
Spring Contacts for Moving Coil Holders, 614  
Square Law Condenser, 190  
Stable H.F. Receiver, A, 339, 340  
Steinheil, Prof. C. A., 421  
Sterling Miniloss Condenser, Reduction Gear in the, 299  
Stops, 831  
Strap Inductance Coil, 274  
Strike, Savoy Hill and the, 713  
Sturgeon, William, 221  
Summer Wireless, Portable Sets for, 549, 550, 553  
Superheterodyne, A Harmonic (Dissected Diagram), 126  
— A "Tropadyne" (Dissected Diagrams), 170  
— Receiver, Stage-by-Stage Tests of a, 740, 766  
— with One Stage of Neutralised H.F. Amplification, Practical (Dissected Diagrams), 58, 88  
Super-regenerative Receiver, Armstrong (Dissected Diagram), 22  
Surface Insulation of Ebonite Panels, 86  
Swart, A Well-known South African Station Owned by Mr. J. G., 820  
Swiss Broadcasting (Zurich Station), 453, 454  
Switches for Home Construction, 472  
Switching Reinartz Receiver, 798  
Switch Spade Terminal, Sirrel, 592  
Syphon Recorder Movement, 146

Tangent Galvanometer, Improved, 290  
Tapa Connector, 819  
T.C.C. Condenser of 2 mfd. Capacity, 69  
Telephone and Filament Switching Jack, 290  
— Extension Leads with Series Connections, 399  
— Plug, Improved, 400  
— Plugs, Converting Spade Connectors to, 728  
— Receivers in Parallel, 407  
— Tags, Spiral, 265  
— Type Terminals, 121  
Telephony in Trains, 517, 518, 519  
— Tests, Transatlantic, 792  
Telephotographs, Wireless, 440, 441  
Television Apparatus, 642, 643, 644, 645  
— Demonstrating Apparatus Owned by Prof. E. E. Fournier D'Albe, 461  
Temporary Connections, 872  
Testing Marconiophone "Ideal" Transformers, 132  
Thermo-Galvanometer, Principle of the, 317  
Three-Coil Holder, Experimental, 646  
— Electrode Receiving Valves (Wireless Circuits), 716  
— Valve and Crystal Set (Composite Reflex Receiver), 36, 37, 38, 39, 40  
— Valve Receiver, Long Range, 689, 690, 691  
— Valve Receiver, Selective, 443 *et seq.*  
— Valve Reflex Receiver, A (Oscillation Without Radiation), 154 *et seq.*; 231 *et seq.*  
— Valve Set, Long Range, 731, 732, 733  
— Valves in One: Herr D. L. Loewe, the German Inventor, 661  
Thrust Bearings, 831  
"Tiger" Coil Holder, 272  
Tone Control Unit for Adding to Existing Receivers (Improving Loud-Speaker Quality), 195, 196, 197  
Torvid Inductance Coil, 318  
Tottenham Wireless Society's Receiving Equipment, 348  
Train Antenna System, 617  
Trains, Telephony in, 517, 518, 519  
Transatlantic Picture Transmission (General Harbor's Cheque), 622  
— Telephony Tests, 792  
Transmission and Reception Without Aerial or Earth, 725, 726, 727  
Transmitting Control, Crystal, 377  
"Tropadyne," Superheterodyne, A (Dissected Diagrams), 170  
Trowbridge, Prof. John (Pioneers of Wireless), 785  
Tudoradio A.C. Mains Unit, 103  
— D.C. Mains Unit, 591  
Tuned Anode H.F. and Detector Set, Wiring a (Dissected Diagrams), 452  
Tune Rite Dial, 416  
Tungar Rectifier Valve, Two-Electrode, 355  
Tuning Coils, Low Loss, 417, 419, 420  
Twin Microphone, A, 351  
— Variometers with Provision for Reaction Coupling, 888  
Two-Coil Holder, Hava, 672  
— Electrode Tungar Rectifier Valve, 355  
"2H.F. Neutrodyne," Stage-by-Stage Tests of a (Dissected Diagrams), 694  
2JB, Amateur Station, 594  
2LO, taken from Oxford Street, A View of, 735  
2LO, The Battery Room at, 449, 450  
2NM, Progress at, 360  
Two Range Cosmos Rheostat, 592  
2RN Dublin: Studio of, 135

Two Stage Power Amplifier, 480 *et seq.*  
— Stage Radio-Frequency Amplifier, 303, *et seq.*; 463 *et seq.*  
— Valve Portable Set, Self-contained, 561, *et seq.*  
— Valve Reflex Receiver, Stage-by-Stage Tests of a (Dissected Diagrams), 674  
2WJ: The Station of Mr. R. L. Royle, 84  
2XAF: A Corner of the Transmitting Room

United States Army's Portable Short-Wave Transmitter and Receiver, 124  
Unspillable C.A.V. 2-Volt Cell in Glass Box, 460  
Utility Valve Switch, 69

Valve Adaptors, Experimental, 370  
— Adaptor to Prevent Filament Sag, 790  
— Connections: Screws Cut to Different Lengths, 780  
— Crystal Reflex Receiver, Improving a (Dissected Diagrams), 800  
— Crystal Reflex Receiver, Stage-by-Stage Tests of a Standard (Dissected Diagrams), 634  
— Crystal Reflex Receiver, Wiring a (Dissected Diagrams), 526  
— Crystal Reflex Set, 301, 302, 303  
— Crystal Reflex with Choke-Coupled L.F. Amplification (Dissected Diagrams), 350  
— Failure, An Interesting, 598  
— Filament with Auxiliary A.C. Heater, 147  
— Holder and Filament Rheostat, L. and P. Combined, 28  
— Holder, Anti-Vibration, 399  
— Holder, Experimental, 9  
— Holder, Low Capacity, 520  
Variable Condenser by Messrs. L. Hamm, 416  
— Condensers, 830  
— Condenser with Mercury Electrode, 105  
— High Resistance, Marconiophone, 591  
— Mounting for Plug-in Coil, 872  
Variometer Construction, 384  
— Receiver, Regenerative, 705, 706  
— Typical, 182  
— with Adjustable Damping Plate, 54  
Variometers with Provision for Reaction Coupling, Twin, 888  
Varley Wire-wound Anode Resistance, 104  
"Verdianob," Atlas, 28  
Vernier Condenser, 356  
— Control, The Last Word in: Transmitting Room at W.J.Z. Bound Brook, N.J., 130  
— Dial, Halladay's, 535  
— Dial, Rathbun, 637  
— Movement, Geared, 728  
— Movement, Improved, 400  
Vernistat, Etasca, 28  
Vienna Broadcasting Station, 67  
— High Power Station, The New, 625 *et seq.*  
Visvolt Battery Switch, 149  
Visual Indication of Self-Oscillation. Single-Valve Set, giving (Is My Set Interfering?) 799 *et seq.*  
Volta, Alessandro (Pioneers of Wireless), 59  
Von Sömmerring, S. Th. (Pioneers of Wireless), 343

Weatherproof Earthing Switch, 486, 798  
Wheatstone Bridge, Method of Measuring Resistance, 386  
Wide Range Tuner, 10  
Wilkins, J. W. (Pioneers of Wireless), 559  
Winding Dimic Coils, 306  
Wireless and the Railway, 101  
— at the G.P.O., 91, 92  
— Bearings from the Air, 866, 867, 868  
— in Amundsen Expedition (Commdr. F. Göttschaldt), 590  
— in School, 505  
— Installation at Guy's Hospital, 271  
— in the Arctic, 662  
— in the Hospital: Capt. P. P. Eckersley selling his Autograph, 298  
— in the London Hospital, 51, 52  
— on Canadian Trains, 615, 616, 617  
— on the Modern Liner: Radio Room of the *Hamburg*, 738  
— on the Polar Airship *Norge*, 669, 670  
— Sprite, The, 372  
— Waves, Distribution of, 401 *et seq.*  
— with the Byrd Arctic Expedition, 771, 772  
— with the Northern Australian Expedition, 876  
Wiring a Neutralised H.F. Amplifier-Detector (Dissected Diagrams), 494  
— a "Reflex Neutrodyne" (Dissected Diagrams), 556  
— a Tuned Anode I.F. and Detector Set (Dissected Diagrams), 452  
— a Valve-Crystal Reflex Receiver (Dissected Diagrams), 526  
Witzleben, Berlin's New Broadcast Station, 286  
WJZ, Bound Brook, N.J. (A Large Size in Switches), 895  
— Transmitting Room at Bound Brook, N.J., 130  
Wootophone Low Loss Condenser, 637

"Yarmouth," H.M.S., in Amateurs' Naval Wireless Tests, 17  
Zurich Station, 453, 454
