This is Indianapolis...

One of America's "most frequently used" test markets

And why not? Indianapolis meets every requirement as the *ideal* test market.

It is centrally located. Its economy is singularly diversified and balanced. Its population, ethnically, is closely representative of the nation's.

And, of particular significance to advertisers, it offers an uncommonly broad choice of media, with no infiltration by media from surrounding areas.

Also of particular significance to advertisers, our WFBM Stations cover this market best. In fact,

we cover the entire Mid-Indiana market best, with, among other things, the largest basic NBC service.

All of which leads to a suggestion: If you'd like your share of the three billion dollars spent annually in this rich market . . . put us to the test!

DISTINCTIVELY DETROIT

AMBASSADOR BRIDGE. *Symbolic of international goodwill, the flags of the United States and Canada stand side by side midway across the mighty span that links Detroit and Windsor, Ontario. Opened in 1929, the Ambassador Bridge accommodates more than 7 million people and 3¼ million vehicles annually.*

Just as Detroiters regard this border landmark as distinctive of Detroit, so they have regarded The WWJ Stations as distinctively Detroit for 48 years. Why? Because of programming that reflects the city's own interest in local news, sports, entertainment, public affairs, and community service. And, because of WWJ's home-ownership by The Detroit News. When you ask a Detroiters which radio and TV stations are distinctively Detroit, he'll instinctively tell you "WWJ."

ONLY KSTP-TV DELIVERS

90 minutes of early evening information programming in the Twin Cities

Anchored by veteran newsman Bob Ryan, the KSTP NEWS 5 O'CLOCK REPORT appears live and in color, Monday through Friday. Concentrating on in-depth coverage of special interest areas such as medicine, science, arts, law and more, each subject is covered by a specialist in that field such as Brooks Henderson on business news and Jane Johnston on women's activities.

The Huntley-Brinkley Report follows immediately with national and international events leading into the KSTP NEWS 6 O'CLOCK REPORT of latest developments in News, Weather and Sports with the experienced crew of Ryan, Johnny Morris and Al Tighe.

The result of this extended, flexible format is a new concept in significant television communication—another example of KSTP-TV's leadership in the news field over the last 20 years.

Growth picture in Charlotte, the action city

Biggest story of the past and current year is the quality of Charlotte's industrial expansion. It continues to be one of explosive growth in the more sophisticated fields of manufacturing and research.

Here is some of the action. Westinghouse's new \$65-million plant for production of nuclear turbines. General Time's new facility for manufacture of delicate precision parts (750 highly skilled employees). General Tire's new \$18-million plant with 22 acres under one roof. Armstrong's new \$15-million plant on a 40-acre site. Corporate names shown and many others are participating in the multimillion-dollar picture of this city's expanding economy.

There is big business for you in the Charlotte market. And it is getting bigger. Bigger than most in the South. Biggest in the Carolinas. Let us tell you how WSOC-TV can do the big job for you here.

Our Finch Won't Eat Crow...

Finch is Houston's sly old bird. He programs KTRK-TV. And he's got plenty to crow about. Like our Late News which delivers 30% more homes than a year ago.

In the daytime, his "Dialing For Dollars" doubled the rating and share in the time period and increased Homes and Women more than 150%.

Now he's scheduled "Run For Your Life" in the afternoon at 4:00 PM. It inherits an 11 rating and a 36 share in the time period. Finch says it'll fly.

Check our movies. They fly too. Last spring our Friday Late Movie soared our rating in the time period 500% and our women 600%. That's not hard to swallow.

Howard. That's our Finch. And he doesn't lay eggs. If your nest needs feathering, call your Blair man.

TV Allocations, State, City

Note: UHF and VHF TV allocations have been made by the FCC to the following cities. A plus or minus after a channel indicates that a station occupying the channel must operate with its carrier frequencies offset 10 kilocycles above or below, respectively, the normal carrier frequencies. The offset indicators are not shown for UHF assignments, which were the subject of a rulemaking adopted June 4, 1965. The designators were to be added in a later order, but had not been published by time the Yearbook went to press. Meanwhile, the appropriate designators are shown on construction permits and licenses issued for UHF stations.

Asterisks (*) indicate channels reserved for noncommercial use.

Nothing's beyond your reach on Mutual Radio

(Especially the Mutual Tween-agers!
They're between 18 and 49—the heaviest spenders!)

Teen-agers are a great audience—if you sell lollipops. Middle-agers are great, too ... for rocking-chair manufacturers.

But Mutual concentrates on the Tween-agers. They're between 18 and 49, with young, large and growing-larger families. With growing-larger needs. And growing-larger incomes to spend. The Tween-agers are your bread-and-butter audience. And Mutual gives you a larger percentage of Tween-agers in its vast audience than any other network.* If you want to reach listeners at the prime age for spending, reach the Mutual Tween-agers!
