WHEELING 7, WEST VIRGINIA

In 1959 Kern county petroleum production was over \$287 million - 29% of the California total. (Source: Bureau of Mines.)

You're talking to consumers with incomes well above average when you use the Beeline stations. In Bakersfield, for example, effective buying income per household is $8095^* - 27\%$ higher than the national average, 16% higher than California's average. This is sales potential for your product.

Beeline's KERN helps you tap it. In fact, throughout Inland California and Western Nevada, the Beeline stations deliver more radio homes than any other combination of stations — and at the lowest cost per thousand (Nielsen, SR&D).

Redo reorganization

NAB reorganization plan to be submitted to board of directors at meeting in Washington this week was being reworked last weekend by President LeRoy Collins. After consultation with his three-man advisory committee (Clair R. McCollough, Steinman stations, Lancaster; Thomas C. Bostic, KIMA Yakima, Wash.; Dwight W. Martin, WDSU-TV New Orleans), NAB's new president decided to recast plan, probably calling for gradual reorganization Advisory. committee. plus vice chairmen of Radio-Television Boards (Merrill Lindsay, WSOY Decatur, Ill; William B. Quarton, WMT-TV Cedar Rapids, Iowa) and immediate past tv board chairman, W. D. (Dub) Rogers, KDUB-TV Lubbock, Tex., meets in Washington today preparatory to full board meeting later in week.

Original reorganization plan, it's believed, called for centralization of control in chief executive beyond that considered advisable at this time. Whereas it had been thought maximum benefit would ensue if combined board were reduced sharply in size from present 43, it presumably was felt such drastic reduction now would be premature.

Tv crawls next

Dead-serious NAB tv code revampers are eyeing a new target—the endless crawls at the close of programs. If Tv Board approves triplespotting ban cut in participating commercials this week, serious effort will be made to cut crawls. One big problem will be union contracts, which inherited practice from Hollywood. Codifiers want to eliminate big hunks of non-program material such as names of assistant hair-dressers, fourth assistant directors and bit players.

NAB to fill vacancies

Summer meeting of NAB board this week will feature changes in both Radio and Tv Board structures. Both chairman and vice chairman will be elected by Radio Board, which technically has had no chairman since Tom Bostic, KIMA Yakima, left board at end of term in May. Merrill Lindsay, WSOY Decatur, Ill., vice chairman and past chairman, is favorite for chairmanship. Tv Board will fill vacancy in tv-only class, created when Joseph C. Drilling moved from KJEO (TV) Fresno, Calif., to WJW-TV Akron, Ohio, which has radio adjunct. NAB staff vacancy created by move of Charles H. Tower, tv vice

CLOSED CIRCUIT

president, to Corinthian stations, will be filled by Gov. Collins.

Tom Bostic, it's learned, is not eligible under present rules to continue on Gov. Collins advisory committee. Board action setting up three-man advisory group last winter specified it consist of chairmen of combined radio and tv boards.

Dwight W. Martin, WDSU-TV New Orleans, tv chairman, and William B. Quarton, WMT-TV Cedar Rapids, Iowa, vice chairman, were elected by tv board during May NAB convention. Clair R. McCollough, Steinman stations, and Mr. Martin serve on present advisory committee with Mr. Bostic.

Search and research

It's sure bet that NAB board this week will be asked by President Le-Roy Collins to approve preliminary steps leading toward establishment of permanent research center of kind he described in his speech at association's convention last month. Since speech, several university research centers have volunteered interest in plan, and at least one large foundation has indicated willingness to discuss endowments. What Gov. Collins will probably suggest is formation of small committee of broadcasters with strong research or education backgrounds to study how center could be created.

Blast hurts market

FCC Chairman Newton N. Minow's blast against U. S. television programming is having repercussions in foreign countries—to consternation of distributors of U. S. films abroad. Reports filtering in from Australia, Mexico and other countries point up Mr. Minow's criticism and quote foreign producers and community leaders as saying U. S. product should be restricted.

CBS radio meet

Agenda is still in work, but time and place for CBS Radio affiliates^{*} annual convention have been set: Sept. 18-19, at Waldorf-Astoria in New York.

All-channel tv

After delay of several months, Budget Bureau and White House put stamp of approval last week on FCC proposal backing legislation requiring manufacturers to produce all-channel tv sets. Letter of transmittal, with proposed legislation, will go to Congress this week—or as soon as budget approval is given in writing. Several weeks ago, FCC bill was sent from budget to White House without any official explanation.

On the line

Crowell-Collier expansion into New York and Washington will be on line this week when FCC considers that broadcaster's response to questions regarding purported programming excesses at its West Coast operations and technical violations in Minneapolis-St. Paul. C-C is seeking to buy WMGM New York for \$11 million. FCC renewed that station's license last month, absolving it of payola allegation, but passed over consideration of sale to C-C.

C-C is scheduled to buy WGMS-AM-FM Washington from RKO General for \$1.5 million, if RKO General wins right to buy NBC's WRC-AM-FM-TV Washington. This, in turn, is dependent on FCC approval of package RKO General-NBC deal whereby both exchange facilities in Boston and Philadelphia, respectively, and NAB is permitted to buy KTVU (TV) San Francisco.

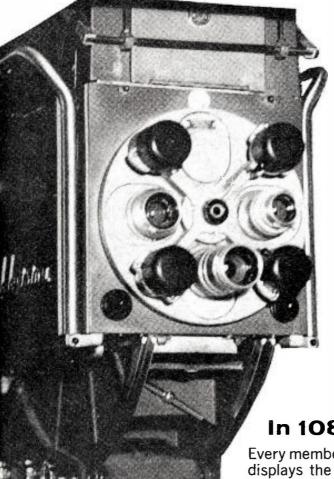

Censorship in brass

Is move afoot to shift standby censorship organization in event of national emergency from White House (OCDM) to Defense Department? Report, as yet unverified, is that White House in evolving reorganization of OCDM under which standby censorship organization is now provided, would shift all censorship responsibilities—civil as well as military—to military. This would be stoutly resisted by mass media, although they probably would not object to control of cables, mails, etc. by military.

Virtually since end of World War II when U. S. Office of Censorship was abolished, standby organization, fully staffed with key personnel (many of whom were with old organization) has been activated. While identities of key figures are classified, it's rather well-known in news field who they are. Byron Price, former executive editor of Associated Press and former Asst. Secretary General of UN, now retired, was World War II's censorship chief and he was instrumental in devising standby organization.

Writers to testify on 'violence' orders

Chairman Thomas Dodd (D-Conn.) said Friday his Senate Juvenile Delinquency Subcommittee will hear from tv writers who will testify they were told to "beef up" their scripts with violence if they expect to sell them.

He made statement as William T. Orr, Warner Bros. production vice president, was testifying at subcommittee hearing on possible connection between television and juvenile delinquency (see story page 60).

Mr. Orr denied knowledge of such orders at Warner Bros. But he conceded violence "is sometimes" added to scripts when necessary to Western format. Mr. Orr's testimony followed screening of segments from three episodes of *Cheyenne*, ABC show produced by Warner Bros. Subcommittee contended segments contained excessive violence and brutality.

Two ABC executives, Thomas W. Moore, programming vice president, and Grace M. Johnson, continuity director, said network does not condone violence or horror in shows for their own sake.

Along with Mr. Orr, they defended *Cheyenne*, contending it teaches sound moral values. Both said no proof exists of link between tv crime and juvenile delinquency.

James V. Bennett, director of Federal Prisons, however, said "definite relationship" exists, basing assertion on surveys he said were made of inmates at several federal institutions.

Dr. Wilbur T. Schramm, of Stanford U. said while tv cannot be considered sole cause of juvenile delinquency, crime shown on medium does "trigger" latent aggressions in some children. "Amount of tv violence is too dangerous to go on," he said.

Hearing continues Tuesday, moves to New York Thursday and possibly Friday. Three network tv chiefs will testify then. NAB President LeRoy Collins and FCC Chairman Newton N. Minow are expected to testify next week.

Engineering firm disbands

Washington consulting engineering firm of Page, Creutz, Steel & Waldschmitt after 15 years was disbanded Friday. John Creutz and Arthur Snowberger will remain in association at 1413 K St. David L. Steel Sr. will remain at K Street address until he can secure own office quarters. Willis C.

Davis heads NTA

Leonard Davis, who led fruitless proxy fight to secure seats on National Telefilm Assoc. board for himself and his attorney, Philip Handsman (BROADCASTING, March 27, April 3, 10) has become NTA president, board chairman and chief executive officer, BROADCASTING learned Friday. Official announcement was to be made Saturday (June 10).

He succeeds Charles L. Glett, who had held post only two weeks (BROADCASTING, May 29). Group insurance specialist handling policies with annual premiums of over \$30 million, Mr. Davis succeeded in gaining seats on board of National Theatres & Television, largest (38%) NTA stockholder with NT&T's losses in NTA his major issue (BROADCASTING, April 10, 17, 24).

Beecher, associate, will establish private practice, but will remain at K Street address. Both Esterly C. Page an Joseph A. Waldschmitt have been most active recently in Page Communications Inc., Mr. Page as chairman and Mr. Waldschmitt as president.

Communicators set Northwestern talks

Mass media and their responsibilities in free, democratic society, will undergo scrutiny at conference called for Aug. 3-4 at Northwestern U. School of Law, Chicago, with FCC Chairman Newton N. Minow and score of others prominent in communications, tv and journalism among participants.

Mr. Minow and J. Leonard Reinsch, executive director of Cox stations, both graduates of Northwestern, jointly initiated seminar at which Mr. Reinsch will preside over one open and two closed sessions. It's first such symposium at major university since tv became factor in mass communications.

In addition to Messrs. Minow and Reinsch, others who have accepted invitations include: Pierre Salinger, news secretary to President Kennedy; Prof. Louis Jaffe, Harvard Law School; Dean Roscoe Barrow, U. of Cincinnati Law School and author of controversial Barrow report on network operations; Fairfax Cone, chairman, Foote, Cone & Belding, Chicago; Clair R. McCollough, Steinman stations and chairman, NAB Board; Ralph McGill, publisher, Atlanta Constitution; Ward L. Quaal, WGN Inc.; William R. McAndrew, executive vice president in charge of news at NBC; W. Theodore Pierson, Washington communications attorney; Peter Goelet, president, National Audience Board; Sig Mickelson, Time, Inc.; Prof. Nathaniel Nathanson and John E. Coons, Northwestern School of Law; M. S. Novik, broadcast consultant; Warren Agee, executive officer, Sigma Delta Chi, and Sol Taishoff, editor and publisher, BROADCASTING and Television magazines.

AT DEADLINE

NBC follows suit, ups station breaks

NBC officials said Friday they will "reluctantly . . follow the lead of ABC and CBS" in extending affiliates' prime-time station breaks from 30 seconds to 42, effective as new programs start this fall (also see story page 45). With this decision network abandoned plans, announced last winter, to give affiliates 70-second breaks after four 7:30-8:30 p.m. programs that are sold on participation basis.

Decision was disclosed after meeting with NBC-TV affiliates board of delegates, which agreed that use of expanded breaks for triple-spotting would be "highly undesirable and extremely inadvisable." Authorities said delegates board, headed by Jack Harris of KPRC-TV Houston, will "urge all affiliates to give NBC written assurance that they will not triple-spot," and that network is confident of getting this written pledge.

Delegates also approved network's fall advertising and promotion plans and adopted resolution hailing NBC-TV's upcoming lineup as "the most promising fall schedule in network history."

Rich sees haltered ID under 40-second breaks

Tv networks' 40-second station break will reduce present maneuverability of ID advertiser, Lee Rich, Benton & Bowles senior vice president, media and programming, told agency account people in memo Friday (June 9).

ID advertiser, he felt, will be frustrated because stations will try to fill breaks with two 20-second announcements and such announcements will hold "strong positions" in network lineups. There'll also be 40-second announcement to fill break, he predicted, but said he'd recommend them only under special conditions.

WEEK'S HEADLINERS

Mr. Beckwith

Aaron Beckwith and Delbert O. Fuller Jr. elected vps at BBDO, N. Y. Mr. Beckwith, tv account supervisor, joined agency in March 1959. He had been program sales manager for ABC-TV, and previously was vp in charge of N. Y. film activities for Music Corp. of America; vp and general manager of United Television Programs; director of business for National Telefilm Assoc., and manager of WHEN Syracuse. Mr.

Mr. Fuller

Fuller joined BBDO in 1957 as account executive. He was named group head last year. Previously, he had served as product manager, General Foods Corp.

Harold (Hap) Anderson, general manager of W1NS New York, appointed president and general manager of First Carolina Corp., Columbia, S. C., holders of construction permit for WCCA-TV Co-

Mr. Anderson

lumbia. Station is expected to start operating on uhf ch. 25 on Labor Day. Mr. Anderson joined WINS in 1959 after serving for year as president of Founders Corp., holding and investment company with broadcast properties. Lewis J. Rachmil, administrator of west coast office of Ziv-United Artists since 1960, appointed vp in charge of production operations for company. He joined Ziv-UA in 1959 as producer of

Mr. Rachmil

Men Into Space series. Earlier he had been producer at Paramount, RKO and Columbia Pictures on such feature films as "Androcles and the Lion," "Violent Men" and "Miss Sadie Thompson." Mr. Rachmil began his career in 1930 as art director for Paramount Pictures on Long Island, later working with Sol Lesser Productions, Hollywood. He was with RKO from 1942-49 and Columbia from 1952-59.

For other personnel changes of the week see FATES & FORTUNES

Rosel Hyde, Frederick Ford and T. A.

FCC may consider sins of past, Harris told

Possibility of sanctions against lawyers who represented clients in famous *ex parte* cases was raised in FCC testimony Friday (June 9) which wound up hearings by House Commerce Committee on HR 14, called Independent Regulatory Agencies Act of 1961 (see page 64).

Commission endorsed objectives of bill but urged that "great care" be taken to assure that FCC is not unduly shackled by unworkable procedures which would result in delayed decisions. FCC asked that definition of "on-therecord" refer to those matters covered by "statute" rather than by "law" as now drafted.

As bill now reads, commissioners said, they are unable to determine when off-the-record contacts would be permitted in rulemaking proceedings. Rep. Oren Harris (D-Ark.), committee chairman and author of HR 14, said bill gives FCC discretion to decide when matters go on record.

Commissioners unanimously opposed section which, they said, makes substantial changes in present law governing separation of functions. Section would unduly burden administrative process and place restrictions on FCC use of its staff, FCC Chairman Newton Minow maintained.

Four commissioners present (Minow,

M. Craven) huddled for few minutes when Rep. Harris asked if FCC contemplates any sanctions against attorneys involved in *ex parte* cases which have been subjects of rehearings. After huddle, Chairman Minow said that all cases are still pending and any sanctions will be considered after final decisions have been made on *ex parte* cases.

U. S.-Mexico treaty begins

Three-year procedure on U. S.-Mexico radio agreement was scheduled to wind up over weekend, putting continental frequency treaty into full operation. U. S. Ambassador to Mexico Thomas C. Mann was to meet Friday (June 9) with Mexican government officials for exchange of documents. U. S. ratified 1951 NARBA and 1957 Mexico treaty within past year. U. S. and Mexico have operated under "gentlemen's agreement" pending ratification.

Anti-station-break meeting

Young & Rubicam, N. Y., has invited station representatives in New York to attend meeting in Y&R's auditorium on Wednesday (June 14) to discuss informally what action may be taken by network affiliates on increase of station break time. In recent weeks Y&R has spearheaded drive in opposition to network plans to expand station break periods this fall.

CBS opposes federal aid for campaign broadcasts

Legislation to help finance election campaign broadcasts with federal funds was opposed by CBS in June 9 statement to Senate Privileges and Elections Subcommittee (earlier story page 68).

Thomas K. Fisher, vice presidentgeneral counsel said S 227 would promote compulsory sale of broadcast time to political parties. CBS opposed another bill (S 1555) for payment of half of campaign broadcast costs to licensees on same grounds.

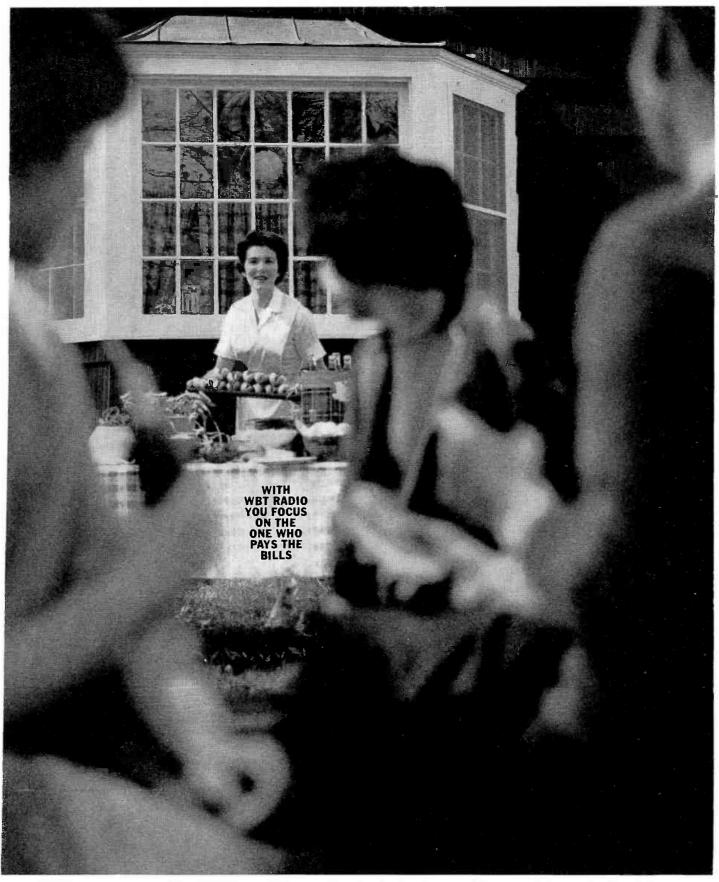

CBS objected to third measure (S 1628) revising Sec. 315 (equal time) on ground it omits, perhaps inadvertently, 1959 amendment exempting newscasts from Sec. 315 equal-time provisions.

House to vote on JFK plan

House Majority Leader John W. Mc-Cormack announced Friday House will vote this Thursday on President's plan to reorganize FCC (see story page 68). House rejection is expected.

Bartell wants ch. 14

Bartell Broadcasters Inc., licensee of WADO New York, Friday (June 9) asked FCC to assign uhf ch. 14 to New York. Bartell said it would apply for channel and would program extensively in foreign languages and for minority groups.

"It's a great party, Mrs. Williams." The mother in the background is one of the nation's adults, who receive and control 98% of the U.S. income. In the WBT 48-county basic area, adults receive and control most of the \$2,690,786,000 worth of spending money...and WBT radio has the largest number of adult listeners. Clearly, the radio station to use for more sales is the one that reaches more adults... **WBT RADIO CHARLOTTE.** Represented nationally by CBS Radio Spot Sales. Los Angeles story

EDITOR: Congratulations on your Los Angeles section in the May 29 BROAD-CASTING. Your editorial and research people did a very good job of presenting the Los Angeles story both from a radio and tv standpoint, as well as that of other media. . . — Darwin H. Clark, President, Darwin H. Clark Co. Adv., Los Angeles.

[Reprints of BROADCASTING'S special report on Los Angeles are available at 25 cents each in quantities up to 100; 15 cents each in quantities of more than 100.]

FCC in Maytime

EDITOR: Lines from a broadcaster's Waste Land:

May is the cruelest month, breeding Minows out of water over the

dam, mixing

Judicial with administrative metaphors, stirring

Dull programming with spring threats.

When lovely woman stoops to folly and

Paces about her room again, alone,

She smooths her hair with automatic hand,

And schedules a public service tape.

-Theo Mandelstam, Copy Chief, Henry J. Kaufman & Assoc., Washington.

Machines vs. mediocrity

EDITOR: I understand some makers of automation equipment are worried that Chairman Minow's urgings of more local live programming may arrest the sales of automatic gear. I think they're wrong.

It is only through automation—complete automation—that broadcasters can do a better job. Machines eliminate mediocrity and permit the employment of smarter people for better and more profitable public service. Everything the chairman wants can be done better with machines than without them.—Rogan Jones, President, International Good Music Inc., Bellingham, Wash.

Yearbook listings

EDITOR: I thought you might be interested in knowing that your list of radio and television stations (from the BROAD-CASTING Yearbook) is the best one I have ever encountered. I was radio and tv coordinator for the 1960 White House Conference on Children and Youth and used [other] lists and had many transcriptions and tv slides returned because of inaccurate addressing. Then I was

William Esty's got a secret!

William Esty does indeed have a secret. It concerns something this aggressive agency has done — and is still doing.

Give up?

The secret is this: Esty is smoking up a storm of cigarette sales by using the live wire station in Providence — WICE.

We trust our friends at Esty will forgive us for blabbing like this. Actually, Esty's success never has been a secret in Providence. Once you run a commercial on WICE your client's cat is out of the bag and scurrying all over town.

fortunate enough to use your list.

When I was moved to the White House Conference on Aging to handle their radio and tv, I sent out radio transcriptions and tv material, using your list. Not one . . . sent to tv stations was returned; only three radio transcriptions were returned and that was because the stations were out of business . . .-Josephine McQuillin, Information Officer, St. Elizabeths Hospital, Dept. of Health, Education & Welfare, Washington.

Quality's available

EDITOR: At the recent NAB convention FCC Chairman Newton N. Minow warned broadcasters to improve their product or get off the air. . . . Mr. Minow apparently did not feel called upon to mention . . . that there are broadcasters who have a product of the highest order, but who might soon be off the air since no one, including Mr. Minow, will support them.

I refer to fm, of course. To support my point I [refer you to] the May 20 issue of the *Saturday Review*, which mentions a public service series aired by KQAL-FM....

We intend to continue with quality broadcasting, even if we go broke doing it. But let no man say that quality isn't available on the public air waves. It is and anyone who wants to can listen. —Jack L. Katz, President, KQAL-FM Omaha.

Needed combination?

EDITOR: ... Broadcasters must not wait for advertisers to give them direct support (sponsorship) of public service programs, although they might reasonably expect advertisers to give indirect support to stations and networks which occasionally sacrifice ratings by programming needed serious fare.

... Trying to change the quality of entertainment programming is a far more debatable project. . . Nobody has to watch tv or listen to the radio and certainly nobody has to watch or listen to the particular program you think he ought to like....

In fact, the combination of mass appeal entertainment with serious news and public affairs programming woven into the fabric may be just what we need.—R. Peter Straus, President, Straus Broadcasting Group, New York.

Redcoats are coming

EDITOR: . . . I should like to assure Mr. A. A. Schechter (OPEN MIKE, May 22) that the question on the cancellation stamp is but a reminder to Britons to buy the greatest bargain in the history of all broadcasting: sponsorship

IN WORDS OF ONE SYLLABLE...

A man who pays to get a thing, as a rule, wants it.

Or needs it. Or both.

This is true for things men read—as well as things they eat or wear. Which is why we think it makes sense to look for the ABP sign in the books in which you plan to run your ads.

For the ABP sign in a book means it goes to men who *want* it. It is a sign they have paid to get it. And with some of them—a lot of them, in fact—it is a sign they *need* it.

When you pay for space to talk to men who can buy what you have to sell, it's a good thing to keep this in mind. For if they *want* the book in which you run your ad, there is a good chance they will see it and read it. And if they *need* the book in their jobs, the chance is more than just good. It's what we used to call a lead pipe cinch.

When you buy space to talk to men you want to sell, buy it in the books *they buy*—books that are proud to stand a plain old test of worth: cash. You can spot them through this sign:

The plus value of paid circulation is "wantedness"

BROADCASTING is the only publication in its field qualifying for ABC and ABP membership.

of the BBC. That \$11.20 (\$2.80 for radio only) used to buy for me, when I lived in the United Kingdom, better entertainment, more informative programs, and most of all, better music than I have ever heard on any radio or tv station in the U.S. (with the possible exception of KPFA [FM] Berkeley, Calif.—and many of its programs came from the BBC); and all of this without the obnoxious and childish commercials which plague American listeners endlessly.

. . . No one who does not have a vested financial interest in the American system of broadcasting . . . would prefer it to the British system . . . unless, of course, he were mentally retarded. Indeed, most of our programs seem to be designed especially for the mentally retarded.—W. F. Locke, Douglas, Ga.

Hit home

EDITOR: I have always looked forward to the cartoon in the back of your magazine and I must say I really enjoyed the

Drawn for BROADCASTING by Bid Hix "I said, 'Auntie, we've got a clever chief engineer who can fix your radio better than any old service man.'"

BROADCASTING, May 8, 1961

one in the May 8 issue. Since I am a chief engineer, this one really hit home. —Arthur F. Altro, Chief Engineer, WDOR Sturgeon Bay, Wis.

Technical wants

EDITOR: ... I enjoy your magazine very much. I think it might be appreciated if you added some news about true technical achievements every so often.— *Arthur M. Litvin, Brooklyn, N. Y.*

KSTB's musical survey

EDITOR: We read several months ago, with intense interest, the story of the music survey of KING Seattle (BROAD-CASTING, Oct. 12, 1959). We made an intensive study of the story of this large market survey. Then we designed a survey for our small market of Breckenridge, Tex.—9,000 people in the immediate area and approximately 70,000 in the trade area—and in proportion to our facilities proceeded to make the survey. This information after being assembled and analyzed has been integrated into active programming. It has received tremendous acclaim, which proved to be very interesting. Quite different figures from that of KING.— Hugh M. McBeath, General Manager, KSTB Breckenridge, Tex.

Earlier model

EDITOR: Re the item, "Whirling dervish" (EQUIPMENT & ENGINEERING, May 8) . . . a similar device holding 500 cartridges, rotating by handpower, has been in use here for almost two years. . . The gentleman who designed the unit is of modest nature but should receive credit for this. He is Paul Von Kunits, chief engineer of WINS. — Herbert Greenberg, Engineering Staff, WINS New York.

Increasingly useful

EDITOR: . . . We here at the university find BROADCASTING and the BROAD-CASTING Yearbook to be increasingly useful. Your coverage of the educational and commercial news is excellent. . . . — Walter B. Emery, Division of Mass Communications, Department of Tv and Radio, Michigan State University, East Lansing.

Transportation successes

EDITOR: . . . It is not always possible to index or classify the many fine articles appearing in your magazine. We find ourselves, at this moment, in a position requiring rather urgently any radio or tv success stories dealing with transportation (ship, rail, air) which might have appeared in the magazine in the past.

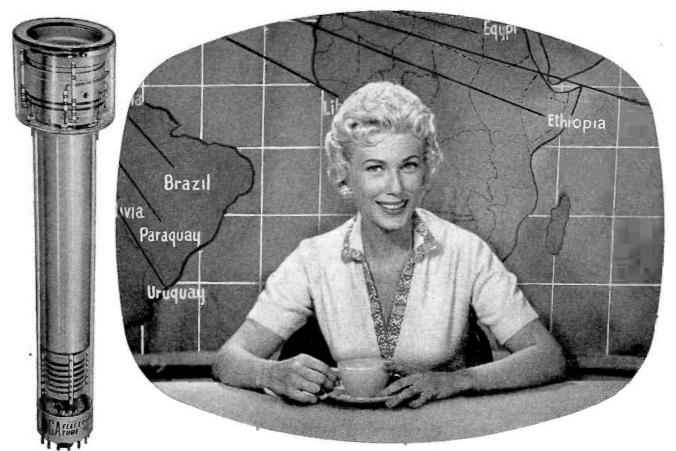

Should this be the case, I am wondering if you could provide us with either copies of the articles or with the dates of the specific issues....-P. O. Steven, Radio-Tv Director, McKim Advertising Ltd., Montreal.

[Success story information concerning two van lines, an airline and a railroad has been sent to Mr. Steven.]

Radio spending

EDITOR: I have a copy of the 1960 BROADCASTING Yearbook, but the advertising radio dollars spent in all of the radio markets are not given. Do you have this information or could you please tell me where I might find it . .?—Robert J. Flynn, Associated Media Brokers, Fort Lauderdale, Fla.

[The information Mr. Flynn seeks appeared in BROADCASTING last fall (For the RECORD, Oct. 14, 1960.)]

JEW RCA 7293-A FIELD-MESH IMAGE ORTHICON *prevents highlight "ghost" and "portholing"* Vou'll be amazed at the picture quality you get with the new RCA

You'll be amazed at the picture quality you get with the new RCA 7293-A! A unique combination of design features provides a picture that is essentially free of distortion and free of shading at the sides and corners of the screen. In addition, the tube effectively suppresses objectionable "highlight ghost"—an effect usually encountered when a light subject is televised against a dark background.

The 7293 - A offers many design advantages:

ANTI-GHOST DESIGN. "Ghost" (or highlight flare) is prevented when the tube is operated well "above the knee" in black-and-white cameras.

ANTI-PORTHOLE DESIGN. Tube provides uniform background right to edge and corners of picture! Suppressor grid in electron gun re-shapes focusing field to produce a blemish-free background.

EXTREME PHOTOSENSITIVITY. Equivalent to film rated ASA 8,000! Only 10 foot-candles of incident light are required to produce commercially acceptable pictures!

HIGH SIGNAL-TO-NOISE RATIO. Low noise component-another benefit of the suppressor grid.

HIGH RESOLUTION AND CONTRAST. Inherent high resolution and high contrast enhanced by use of field mesh resulting in razor-sharp transition from black to white and improved corner focus.

HIGH SIGNAL-CURRENT OUTPUT. Due to extremely high photosensitivity and high-gain multiplier. For full information on the RCA 7293-A—the camera tube that represents a major step forward in camera pick-up—write Commercial Engineering, RCA Electron Tube Division, Harrison, N. J. For prompt tube delivery for your station operation, call your RCA Industrial Tube Distributor.

The Most Trusted Name in Electronics RADIO CORPORATION OF AMERICA

Radio hasn't come back—it's never been away!

It is astounding to me that many advertisers say they are "re-discovering" radio as an effective merchandising tool.

I say it is astounding because radio has been there right along, serving several generations of listeners and advertisers. Radio has an admirable and honorable history, but perhaps it was eclipsed as an advertising medium by the flush of television's initial impact.

Now radio is resuming its rightful role in the minds of men as a power to sell, to entertain, to inform and to do good.

Radio's Classic Place = Advertisers are re-assessing the broadcast media and are finding that certain round pegs fit into certain round holes. They are finding that television is not the endall. They are finding that radio still has its classic place. And that place is in the imagination of the listener.

A person listening to radio is enchanted by the figures created by his imagination. He sees the fairy princess, the castle, the moat, the fire-breathing dragon, and the prince charming. This is accomplished through a few words of dialogue or narration. But to do the same thing on television, you've got to come up with a production number. And as likely as not the tv production --while beautiful, well-done and costly --will not be as effective as the radio show. Why? Simply because the imagination has not been allowed its play.

Imagination Is Important • Radio loyalty built up through the years by such shows as Amos 'n' Andy, Fibber McGee and Mollie and The Jack Benny Show was based upon the full sway of imagination which the listener was able to use. Jack Benny's vault was a running gag which never failed to throw an audience into hilarious laughter with its weird sounds and the images they conjured up. However, when the vault was actually shown on tv it was pretty much of a disappointment to people who had spent years figuring out what a tremendous thing this vault must be.

The same thing is true of Fibber McGee's celebrated closet. When the sound man created the impression of a fantastic amount of things suddenly unleashing themselves on the poor, forgetful hero, this was something in which people could find tremendous humor. The television version, limited by actualities, seemed a pale imitation of something which had been very real.

Tv's Limitations = Television demands optical action by its very nature. And because it excels in many fields, its use is limited. The deficiencies of television are magnified by radio. Take flexibility and adaptability, for example. Television, no matter how wonderful in delineating the character in the face of a human being or in showing the drama inherent in a disaster scene, is a cumbersome medium, both from the standpoint of its production crew and the viewpoint of its audience.

Radio is fleet and lithe. It is available everywhere. It is economical and unobtrusive. Advertisers are learning that radio is not only tailored to the casual listener, but that it creates its own captive audience. A person driving his car to or from work on the freeway is trapped in more ways than one. He is trapped by the freeway itself, by the traffic around him and by what he can listen to on his car radio.

Radio's Advantages • Of course this means that radio has an infinitely greater audience than television has. And the radio audience is loyal. For example, if there is a live sports show on radio, a general round-up sports report on television is dead. Nobody wants to watch a man read a rehash of what has already happened when he can listen to what is actually happening at that moment.

The so-called "music stations" are another example of roping and branding a captive audience. These audiences don't deviate a decimal or a decibel. They are highly loyal, and they listen to the advertiser's message.

The mere fact that radio is now universally recognized as being a medium of advertising with a low cost per impression is not sufficient reason in itself for advertising on radio. But the fact that the low cost per impression can achieve translatable remembrance and actual active participation by listeners is an inducement that advertisers find hard to beat.

Let's explore this active participation a bit further. Radio has never been so dramatic as recently when one of the helicopter traffic hour show announcers asked everybody listening to sound his horn at a given signal.

I was on the Hollywood Freeway. The sound of the auto horns was deafening. It was the greatest example of power I have ever seen.

Listener polls do not tell the whole story. It's pretty difficult to call up a guy with a transistor radio at the Coliseum and ask him what show he is watching. He is watching a real live show and he is listening to a description of what is going on before his eyes. And the advertiser is selling his wares.

Workhorse of Advertising • Radio is the medium for person-to-person sales. When two people converse, their remarks are specific—no generalities. A commercial message on radio must be —and in most instances is—specific. It "tells it like it is."

Radio is the workhorse of advertising. There is no such thing as having "re-discovered" it. It's been in there pulling all the time. It's something like that fine and fantastic little racehorse named Carry Back.

Carry Back is a humble horse. He comes from no famous farm and his dam and sire were, frankly, not included on the preferred breeding lists. Yet he came from behind to win the Kentucky Derby.

I like to compare Carry Back to radio. Television has been the highlypriced, highly-touted thoroughbred. Radio has been the unflashy plater from the wrong side of the tracks. Yet Carry Back (make that read "radio") has won the important race. Maybe more of us should have had our money on that scrawny little candidate for the glue factory—radio.

E. G. Neale Sr. began his career in advertising more than 40 years ago in the classified department of the Los Angeles Times. He later was a printing salesman with Young & McAllister Printing Co., a manufacturer's representative selling advertising specialties, and formed, with his brother, the Deluxe Advertising Co., later sold to Foster & Kleiser. He spent eight years with the Henry Mayers Co. and in 1946, with his son, E. G. Neale, Jr., formed Neale Advertising Assoc.

TELEPHONE CROSSBAR SWITCHING FRAMES the main product of Western Electric's new Oklahoma City manufacturing plant, are shown undergoing process control checks. In 1961, Western Electric will make nearly 13,000 of these crossbar frames for shipment to Bell Telephone central offices throughout the United States.

OKLAHOMA CITY

Adding further impetus to the growth of one of America's fastest growing cities, Western Electric's new manufacturing plant in Oklahoma City — with over 30 acres under one roof — is already producing important telephone equipment for the Bell Telephone System.

Oklahoma City — with an exploding population now numbering over a third of a million, and long-known as a wheat, cattle, and oil center — is now in dramatic transition from an agricultural to an industrial economy.

An important step in this transition is Western Electric's modern manufacturing plant in Oklahoma's capital city. Its principal "products" are the workhorses of the Bell Telephone System – intricate crossbar frames used by Bell's central telephone offices to automatically switch and channel the bulk of the nation's telephone calls.

Oklahoma City already feels the benefits of this year-old plant: jobs for 3,000 Oklahomans, a \$14 million payroll, and \$4 million paid to more than 300 local suppliers.

Western Electric has found its Oklahoma employees capable workers and excellent citizens who share wholeheartedly in the city's civic and social life. We're proud to be in Oklahoma City, and we're confident of a bright future in the great, growing Sooner State.

Besides Oklahoma City, Western Electric has 12 other principal manufacturing locations, where we make hundreds of different products for the Bell System and for the Government, mainly for defense. Last year we purchased over a billion dollars' worth of raw materials, products and services from our more than 35,000 suppliers located in every State of the Union. Of these, 90% are "small businesses." The things we make and buy are distributed to the Bell telephone companies through Western Electric distribution centers located in 33 cities.

"SHOOTING" THE FAMILY on the grounds of the Oklahoma State Capitol Building is Western Electric stock maintenance clerk, Morris Dees. His willing subjects are wife Mary (who also works for Western Electric) and children John and Lana Lu. Oil derricks furnish a unique but characteristic backdrop.

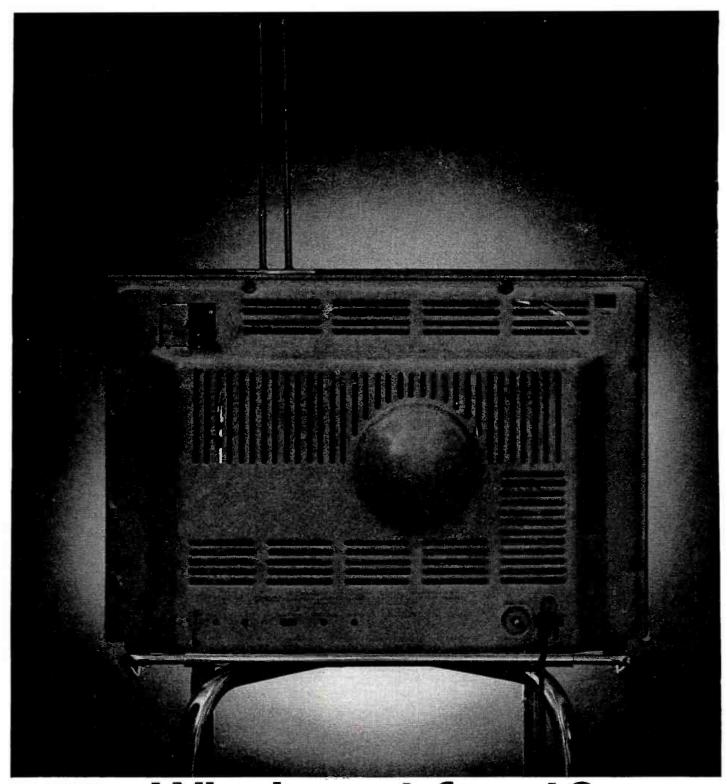

A PUBLISHER'S WELCOME from E. K. Gaylord of the Oklahoma Times: "We're very happy to have Western Electric here in Oklahoma City...it affords outstanding local job opportunities to our college students who have majored in science and technology."

WESTERN ELECTRIC BUYER, Bob Peregrin (left), examines a pair of special pliers with Otto Hart, President of Hart Industrial Supply Co., one of many small businesses in Oklahoma which furnish Western with a wide range of tools, parts, and machinery.

GOOD SPORT Jerry Irby, Western Electric output tracer, uses sign language to interpret the fine art of bowling to local deaf-mute citizens. Jerry is typical of many W.E. employees who devote a great deal of their spare time to community affairs work.

Who's out front?

ABC-that's who-with the most popular programs in television

The biggest popularity contest in America goes on nightly, in your home, at your television set. As you view, you vote. You turn the dial, that's a vote. Turn it again, that's another vote.

Nielsen does the tallying.

For the 2 weeks ending May 7 (latest reported period) the tally says that where you could watch all 3 networks, you watched ABC most.* You voted ABC programs the most popular in television. (Which is the way it's been going all season.*1

This popularity count, we repeat, is taken where it counts most, where all 3 networks screen their candidates for your approval. ABC did it with such leading candidates as My Three Sons, The Untouchables, The Flintstones, The Real McCoys, Hawaiian Eye, etc. ABC proposes to keep doing it with such new entries as Bus Stop, The Corruptors, The New Breed, Calvin & The Colonel, Top Cat, etc Keep voting.

ABC Television Network

WILL CODE CUT COMMERCIAL TIME? NAB Tv Board must approve recommendations for changes

Would ban triple spots, cut participations about one-third

New rules might raise prices of spots, agencies suggest

Two major moves to combat the charge that television is cluttered with too many commercials will face the NAB Tv Board of Directors, meeting Wednesday-Thursday in Washington. If adopted, a pair of recommenda-

If adopted, a pair of recommendations by the NAB Tv Code Review Board (CLOSED CIRCUIT, June 5) would provide the first voluntary stiffening of television's self-regulatory structure since the flood of winter and spring protests. Only prime time (highest rate) would be affected.

The principal changes boil down to these basic steps:

• Triple-spotting (two spots and an ID) at station breaks would be banned, and

• Allowable commercial time in participating half-hour programs would be cut from six to four minutes.

Tv code board recommendations require approval by the top tv board of directors. Historically the directors often have revised or dropped code board proposals. These proposals are not made public until approved by the tv directors; but the essence of the recommendations appears on this page.

Broadcasting and advertising circles

were buzzing last week as the first indication of the prime-time recommendations was disclosed. They are concerned over the effect on station revenues, the supply of availabilities and the impact of commercials in a less-crowded selling environment.

Another code board move whose effects aren't yet clear in the industry is a recommendation that simplifies and revises the table of advertising time standards.

Here two things are proposed:

1, The commercial time limit would be redefined to include billboards, promotion announcements and related material;

2, The allowable maximum time limit (single-sponsor programs) would be increased from three to four minutes for half-hour, six to eight minutes for hour programs.

In effect, NAB contends, the four and eight-minute maximum limits amount to a freezing of present advertising time standards in single-sponsored programs and should not be interpreted as a relaxing of the existing limits. A crash study by NAB is said to bear out this position. The code board has a specific longrange goal in the group of recommendations—clearing up of the confusing maze of billboards, advertising announcements, crawls, credits and general non-programming material in programs during the choice evening hours. No recommendation was made on crawls and credits.

It was emphasized there would be absolutely no change in the existing 70-second maximum time limit on station breaks. However, there can be no more than two spot announcements in any break instead of the present triple-spotting formula of two spots plus an ID.

The proposed elimination of one advertising spot at the station break has aroused concern among some industry groups. Some stations say it will really hurt; others say they don't sell many IDs anyhow. In agency-advertiser and film quarters it was suggested the price of spots will go up. There was considerable agreement that six minutes is too much commercial time for a participating half-hour but two analyses of prevailing practices show an important share of stations don't use the full six

Code Board recommendations for advertising allowances

Here are the changes in present advertising allowances in prime (highest rate) time recommended by the NAB Tv Code Review Board for action this week by the NAB Tv Board of Directors, in summarized form:

The present triple-spotting practice at station breaks (two announcements and the customary commercial 10-second ID, not to exceed 70 seconds) would no longer be allowed. Instead no more than two commercial announcements would be permitted, including the ID.

The six-minute maximum commercial time limit for announcement or participation half-hour programs in prime time would be reduced to four minutes.

The "Time Standards for Advertising" table (YEARBOOK, page C-6) for single-sponsor programs would be revised and simplified. Billboards, promotional announcements etc. would be classified within the commercial time allowance. with the time limit adjusted from three to four minutes to accommodate such non-program information. For practical purposes, this would not provide any additional commercial time. The hourly limit would be increased from six to eight minutes, including billboards, promotions, etc.

There would be no change in the

basic 70-second station-break maximum for prime time. The code board is seeking to provide more time for programming and to reduce the maze of credits, crawls and assorted non-program information, but no action was taken on credits and crawls.

Network practice has been based on a 30-second station break; recently ABC-TV announced it would increase its station breaks to 40 seconds.

CBS-TV officially disclosed last week its breaks would become 42 seconds between prime-time shows, and NBC-TV was expected to follow suit momentarily (See story above).

Median station half-hour participations three to four spots

The median tv station carries between three and four spot announcements per half-hour participating program, according to a study conducted by the NAB Tv Code Review Board's operating staff.

The survey covered 220 stations in local markets, both network and independent, and a total of 842 half-hour programs.

Of approximately 500 participating programs, 21 had no sponsors; 39 programs had one sponsor; 57 had two; 101 had three; 159 had four; 82 had five and 29 programs had six sponsors.

Of the 842 programs, 193 had a single sponsor and 141 had alternate sponsors.

Another survey, conducted for the Alliance of Television Film Producers, covered 141 stations and 2,091 syndicated film programs. It was conducted in a three-month period started Oct. 29, 1960. This study also showed a maximum of four spots to be general practice, with only 12% of stations permitting five and 4% permitting a maximum of six commercials in syndicated programs.

The original tv code language adopted in 1952 specified that time standards were designed as a "guide" and didn't affect the industry practice of permitting stationbreak and spot announcements in the usual 30-second period at the end of each program. They were lifted bodily from the old radio standards.

Later the time standards were made mandatory and station-break language was added. This stated it is not recommended that over two announcements be run back-to-back at station breaks or within the framework of a single program. In 1956 this was made mandatory, adding language that permitted two spot announcements plus a sponsored station ID.

Last year the code was amended to limit station breaks to a total of 70 seconds of announcements (two spots plus an ID) within the station's highest rate period for announcements (night).

In the case of participation programs the code provided during its first nine years a maximum of three one-minute announcements in a 15-minute period and not more than six in a 30-minute announcement program—a one spot per 5minute formula. The two-spots-andan-ID formula was applied inside a single program as well as at a station break.

Protests were heard that the code allowed too frequent interruptions of programs. Three years ago networks had developed their own participation daytime programs until their use was widespread. A 1960 amendment provided that commercials should not exceed a total of six minutes in a 30-minute participating program, and not more than two spots and an ID run consecutively.

Single-sponsor programs currently have a basic 3-minute time limit for total commercials in A and AA time, 4:15 in all other time.

minutes now allowed by the code.

A frequent observation dealt with the lack of a "triple-spotting" definition. NAB has contended its two-spots-andan-ID formula is not triple-spotting but most industry sources disagree. They argue three back-to-back announcements are triple-spotting even if one is only a 10-second ID.

Agency reaction in New York to the new recommendations is generally but by no means universally—favorable. Most agency people who would comment seemed to feel a cutback in commercial time in participating programs would be good. Their attitudes toward changes with respect to sponsored programs—which in many cases they do not clearly understand due to the lack of detailed information—is more evenly divided among good, bad and uncertain. On triple-spotting they had some reservations over the definition.

Syndicators are divided. Most do not think they will be hurt. Some say the cutback in participating sponsorships will cost stations money; some say it'll make no real difference. On this point one or two agency sources tended to take the latter view: one suggested, however, that only in perhaps three markets are independents selling prime-time participation shows at a clip that would require them to cut back under the proposed changes. He thought the cutback in commercial time, amounting to 33%, might lead —or force—stations to hike their rates to advertisers by that much in the three markets.

Station representatives who commented also appeared to have mixed ideas.

Networks had no official comment but unofficially they indicated general satisfaction and in some cases enthusiasm for the changes. Most seemed to feel that networks would not be directly affected to any real extent except through their owned stations, and probably not much even there. Craig Lawrence, vice president for CBS-TV owned stations and tv spot sales, noted that his company's stations already prohibit triple-spotting and limit commercial time in prime-time participating programs to four minutes, so that the proposed changes conform to the stations' current practices.

Network "participating" programs those sold in "thirds" or on a spot-carrier basis, a difference only in terminology—already are voluntarily limited by all networks to three minutes of commercial time per half-hour, or even fewer than the proposed changes would allow.

Donald H. McGannon, president, Westinghouse Broadcasting Co. and former chairman of NAB Tv Code Review Board, said:

"The proposed elimination of triple spotting (two spots and ID) is not only desirable but also important to the industry. It is the local station's contribution to the resolution of the pyramiding of commercial and other messages at the station breaks. I'm heartily in support of it.

"The commercial content of participating programs in prime time is also a difficult one. I believe a reduction to 4 minutes would be a sensible resolution of a longtime problem."

John P. Cunningham, chairman of board, Cunningham & Walsh and chairman of board, Advertising Federation of America: "It's an excellent idea to cut down the flashing spots at station breaks. They flicker like an old movie. That is more important than a reduction in the amount of commercial time in a program."

Robert M. Gray, manager of advertising and sales promotion, Humble Oil & Refining Co.: "I'm all for it. A reduction in commercial time is very desirable. It will make tv more effective for the advertiser. There are too many commercials now. Viewers simply get a montage of commercials and fail to get any impression at all."

Rollo W. Hunter, vice president and radio-tv director of Erwin Wasey, Ruthrauff & Ryan, New York called the reduction of commercial time in participating-announcement programs "a step in the right direction."

He recalled that one of the agency's clients decided not to participate in an upcoming program because it felt that six minutes of commercials would "crowd out" its messages.

Frank Kemp, senior vice president

WHO's Herb Plambeck...

Herb Plambeck, right, is applauded by H. V. Kaltenborn, noted NBC news analyst, and Richard Kathe of the American Feed Manufacturers Association, as he receives the 1960 National Animal Agriculture Award.

WHO Radio is part of Central Broadcasting Company, which also owns and operates WHO-TV, Des Moines; WOC and WOC-TV, Davenport

Col. B. J. Palmer, Presidenr P. A. Loyet, Resident Manager Robert H. Harter, Sales Manager

Peters, Griffin, Woodward, Inc., Representatives

...Receives TOP Farm Award!

Every year the American Feed Manufacturers Association presents its "Animal Agriculture Award" to one farm broadcaster, for outstanding services to livestock and poultry farmers. This citation is the most significant and most coveted award in the farm radio field.

WHO-Radio is extremely proud that Herb Plambeck has added this distinguished 1960 award to the 45 other state, national and international citations he has received in the past 25 years. Founder and past president of the National Association of Radio Farm Directors, Herb was the originator of national plowing matches, is one of the best-known farm directors in America, is "Mr. Agriculture" to perhaps a million Midwest farm homes. Herb and his staff at WHO-Radio are actually on the air *sixty* times per week with farm programs!

Ask PGW for all the facts that have made WHO-Radio and Herb Plambeck's Farm Department a "must" for farm-products advertisers in "Iowa Plus." of Compton Adv., New York, echoed Mr. Hunter's plea for a "definition of what is triple spotting." He asked: "Is an announcement for a public service campaign or a station promotion spot considered one commercial?" He applauded the proposal for reducing commercial time in participating-announcement programs and opposed the suggestion for increasing time in sponsored programs. His reasoning: "I'm against anything that hurts the effectiveness of an advertiser's message. The fewer the commercials there are, the better chance there is that they will be noticed.

William E. (Pete) Matthews, vice president and director of media relations and planning for Young & Rubicam, New York, said: "We welcome the effort to clarify and improve the commercial situation on television." He noted the code proposals consider the allowable amount of commercial time, and added: "Our only question now is to limit the number of commercials as well as the length."

John B. Simpson, vice president and director of broadcasting, Foote, Cone & Belding, New York, believes it "more important than ever to adopt the proposed triple-spotting ban." With the networks' adoption of the 40-second break there is the possibility of "overcommercialization by stations, but with this code change there will be some protection against this." Mr. Simpson said that from the advertiser's standpoint he would be in favor of the move to reduce the time in participating programs to four minutes, but that the financial aspect of this change is something that the NAB will have to weigh with its membership.

Leslie L. Dunier, vice president in charge of radio and television, Mogul Williams & Saylor, New York, said: "The way things are going, the triplespotting problem will be as outdated as propeller driven airplanes. Quadruple spotting, and even more blatant station break abuses, are becoming more widespread. But if the board can give teeth to the triple-spotting sanction, it would be a vital step in the right direction."

"The reduction of commercial time is, I believe, too drastic a measure."

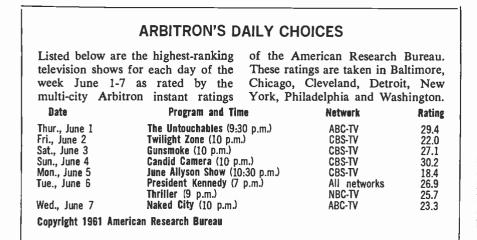

Samuel L. Frey, vice president and media director, Ogilvy, Benson & Mather, said he's very much in favor of disallowing triple spotting and reducing the amount of commercial time in participating-announcement programs.

John Burns, vice president in charge of tv sales, MGM-TV, said only the question of reducing the amount of commercial time in participating announcement programs would pertain to him and he thinks it's strictly a matter for individual stations. He feels enactment of the change could conceivably hurt his company in the long run, but he doesn't think it will.

Charles Goit, domestic sales manager of 20th Century Fox-TV, called the proposed changes "interesting." He feels the proposal to reduce commercial time in participating programs will affect his company more than any other, because NBC-TV will begin televising Fox films in prime time in the fall. He feels the restriction is unnecessary because "NBC is not trying to oversell the program. It is not pushing for another minute or two. The network is very careful as to how it sells the time."

Howard Anderson, sales vice president, ABC Films Inc., said: "The NAB is controlled by the small markets, that is, most of NAB's active leaders are from small markets where they are rarely able to sell more than four minutes per half-hour in a feature film anyway. The major markets and independent stations who rely on feature films would suffer losses if this reduction in time proposal takes effect."

Seymour Reed, president of Official Films, New York, said: "I think the

stations so far have done an excellent job. I'm sure they'll continue to keep faith with the public and use the proper discretion in the amount of commercial time used. However, the proposed change presents no problem for many stations which are showing only four minutes of commercials on participation programs."

A spokesman for CBS Films said the changes would have little effect on its operations. He said none of his company's films are shown in prime time.

Two other leading syndicators of feature films and filmed series, who asked they not be identified, agreed they both felt it is rare to find more than four minutes in a prime-time announcement program and see little practical effect on stations.

Adam Young, president of Adam Young station representative companies, said he approves the triple-spot elimination at station breaks, but is strongly opposed to a reduction of commercial time in participating programs. Mr. Young viewed the proposal as a move that would hurt spot business; "It certainly won't assist it." He said it will cause a bad squeeze on the stations. "Some people," he said, "presume all spots are equally salable, but an advertiser who buys prime time minutes may never consider buying a 20-second or 10-second announcement. There is a direct relationship between the number of one-minute spots and the station's ultimate income. You can't recapture the loss of minutes with 20and 10-second spots.

"I'm in favor of self-regulation for the industry but not when the regulations create a strait-jacket which will happen if the four-minute per half-hour proposal is approved for participating programs. I think the broadcasters want to live by a reasonable code but this change in the code will chase stations away from it."

A Katz Agency spokesman said on triple spotting: "No disagreement if the review board intends a maximum of two commercial announcements at breaks within the highest rate period. Where a station break is long enough to accommodate one 20- and one 10second announcement plus a 10-second public service or promotion announcement, the latter should not be interpreted as a third spot."

Edward P. Shurick, executive vice president, Blair-Tv, agreed wholeheartedly with the proposals that would prohibit triple-spotting and set up four minutes of commercial time in sponsored programs. He was reluctant to discuss plans to reduce commercial time in participation programs, pointing out he would like to ascertain the attitude of tv stations toward such a suggestion before offering an opinion.

WILL CODE CUT COMMERCIAL TIME? continued

dent—media, Leo Burnett Co., Chicago: "We are in favor of the provision condemning triple-spotting. We've been stamping our contracts with notriple-spot clauses for years. The NAB code would only be lately and reluctantly recognizing what has now practically been stamped out as a bad business practice.

"We are against their provision to increase commercial time by allowing 'four minutes for spots, promotional announcements, billboards, ID's etc., as reported in BROADCASTING.

"This is a maneuver to revise the code to accommodate the proposed 42-second station break after half-hour shows and the 70-second network break after hour shows.

"It is a move designed to defeat the critics of overcommercialization by getting the additional commercial time allowance 'approved' by the NAB.

"The Leo Burnett Co. went on the record as opposing the 40-second chain break last February, as soon as it was proposed by ABC. We still believe it is shortsighted and bad for the medium.

"The decrease in program time as proposed by the network and alleged to be condoned by the NAB amounts to a substantial rate increase for network advertisers."

Margot Stevens, media director of Eisaman, Johns & Laws, Los Angeles, said the reduction in the number of commercials would undoubtedly mean a jump in the price of the spots but a more favorable sales climate would make the commercial worth more to the advertiser.

Alan M. Berger, radio-tv director, Tilds & Cantz, Los Angeles, called the reduction in the number of commercials a "very smart move." "Anything that encourages single spotting is good because that immediately causes more attention to the commercial and this is worth more money."

Alvin G. Flanagan, president and general manager of KCOP TV) Los Angeles, said: "I'm for it. I hope it goes and I hope every station manager has the courage and the good sense to raise his announcement rates and stick with the increase. Otherwise, it could mean a tremendous loss in revenue, because virtually all locally originated programs today have—at least 95 per cent of them—are sold on a participation basis. But it's good because it will help the value of television and will give each advertising message more impact."

Paul McCluer, executive vice president, Wade Adv., Los Angeles, hailed the move as "a great step forward." The program buyer, who pays for both the program and the time, is now getting a fair shake with the advertiser who buys just an announcement, Mr. McCluer commented. In the past the advertiser who bought his own program has been shortchanged by being allowed only three minutes of sell in his half hours.

Richard Jencks, president, Alliance of Television Film Producers, said: "Any action on the part of the NAB which tends to standardize the length of the time periods allowed for the presentation of television films will make for better quality programming. Television programs are painstakingly devised to

NETWORK UP, SPOT DOWN

TvB first quarter figures show tv spot billing dropping 2.1% while network climbs 6.2%

Tv businessmen can be expected to anxiously await this year's second quarter spot tv billing figures for any variation—hopefully upward—from the first quarter total.

Spot tv gross time billings of more than \$151.3 million in the January-March period represented a dip of 2.1% on the basis of estimating procedures used to compute the corresponding quarter in 1960.

Total gross billings of the tv networks, however, have shown a continued gain in TvB's reports. For the first quarter, network billing went up from \$171.8 million last year to more than \$182.4 million this year, or an increase of 6.2%. (BROADCASTING, May 29). Last week TvB released a product category breakdown, brand and advertiser leaders in network gross billing in the January-March period (see figures, page 38).

P&G Up Front • No. 1 tv advertiser in the first quarter is Procter & Gamble Co. with more than \$12.1 million in spot. It placed another \$11.8 million at gross rates on the networks, for a total tv gross time billing in the quarter of nearly \$24 million.

Other top advertisers in spot-network gross time billing in the first quarter: American Home Products with more than \$11.7 million, of which over \$9.1 million is in network; Lever with some \$11.8 million, a greater share of which is in network (\$6 million plus); Colgate-Palmolive with \$9.2 million of which \$5.1 million is in network, and General Foods which splits nearly evenly in network and in spot its more than \$9.6 million total for the quarter.

Advertisers appearing on the top 100 spot tv listing for the first time included Chattanooga Medicine Co., DCA Food Industries, Hanes Hosiery, Lehn & Fink Products, John Morrell & Co., National Federation of Coffee Growers of Colombia, Pan American Coffee Bureau, and Van Camp Sea Foods.

tell a story in a very compact time period. They suffer greatly in entertainment impact if they are butchered at the station level in order to accommodate program time periods which are abnormally short. A large part of a television producer's stock in trade is the reputation which his programs enjoy among the viewing audience. If that audience never gets to see a program as it was produced, but sees merely a carelessly edited version of it, it may seriously impair the viewer's interest in subsequent programs of the same series. If we are to improve the quality of film programming, we should start by seeing to it that the television films which the public sees are of at least as good quality as they were when they were finally edited by the producer.'

Hildred Sanders, vp for radio-tv, Honig-Cooper & Harrington, Los Angeles, said the agency won't buy triple spots now if they know and some, but not all, contracts are stamped: "void if triple spotted." For a single sponsor, she felt four commercials in a halfhour schedule would be too many and recommended longer but fewer spots, perhaps four 90-second spots in an hour. For a co-sponsored program such as used to be popular, she felt two for each advertiser in a half-hour would be acceptable, particularly if it is a major-minor proposition. But for announcement participating programs, she believes the public is used to multiple interruptions and doesn't particularly mind them.

George Elber, first vice president, Four Star Television, Los Angeles: "No one is in favor of triple spotting, but it should be pointed out that eliminating this practice does not necessarily mean more program viewing time for the public. Two one-minute commercials take twice as much time as three 20-second spots.

"The reduction of the number of commercials permitted in a half-hour from six to four seems to me a good thing, although I would describe it as a recognition of general industry practice rather than a major reform. It's good for the program producer, whose show doesn't get cut to pieces for the insertion of too many spots; it's good for the public which gets more program time and fewer commercials, and it should be good for the advertiser whose commercials will have less competition within the period."

Clark B. George, vice president of CBS Television Stations Div. and general manager of WBBM-TV Chicago: "I think it is a good thing. But it won't affect us because we already are living within these standards and in some cases we are stricter than the old NAB code."

Tom Garrabrant, vice president and media director, North Adv., Chicago, "I'm for the proposed ban on triple spotting." He felt stations are the key factors in control of commercials and said he hoped the industry "would get some good ground rules and stick with them."

Buckingham W. Gunn, vice president and radio-tv director, Clinton E. Frank Inc., was enthusiastic over the code board's intent to stop triple-spotting in prime time. "We've been fighting for that for a long time," he said. He also approved the limit of four commercials in a half-hour show.

12. Texaco

ction in March More than 200 spots a week were used the first three weeks Yuban was placed on the market and 55 spots a week have been used thereafter, James W. Andrews, executive vice president in charge of marketing for the Maxwell House Division of General Foods, told a Sales Executive Club meeting in New York last week. Though it was expensive, the spot

1,164,904

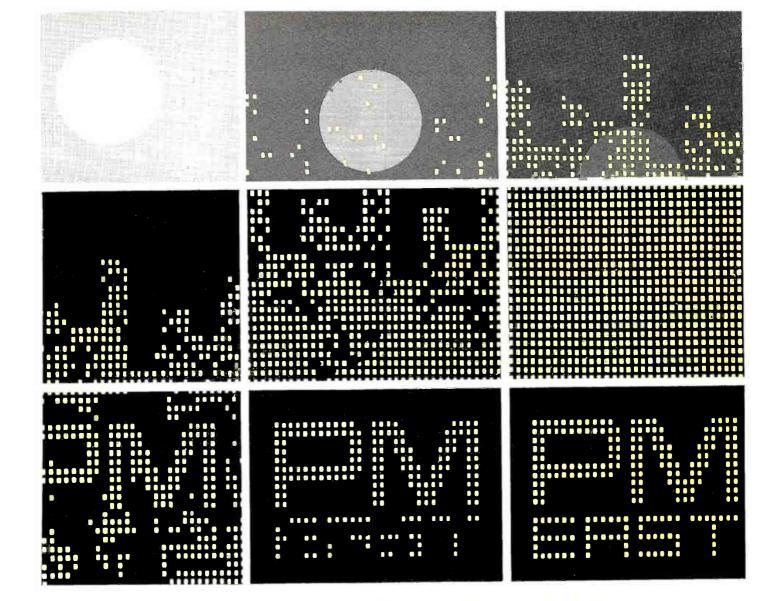

campaign, combined with a strong print campaign, paid off, Mr. Andrews reported. Today Instant Yuban is No. 3 instant brand in New York, Philadelphia and San Diego and No. 2 in Los Angeles and Boston. "We promoted the hell out of it," Mr. Andrews said, and that's one of the important reasons Instant Yuban will soon be distributed on a national basis.

Rate card committee set

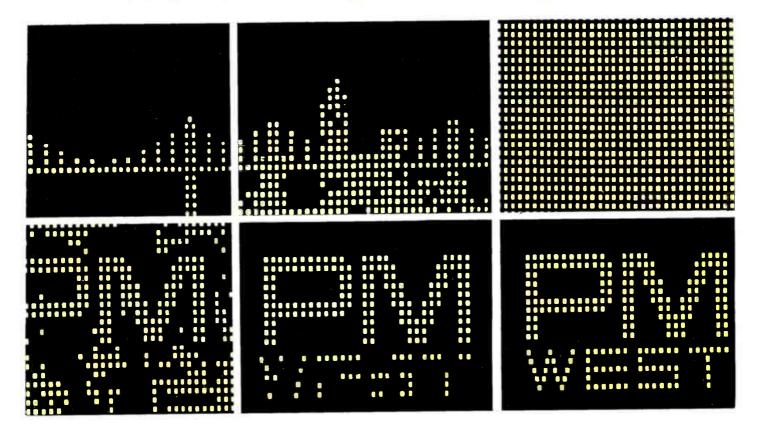

CBS Radio Spot Sales has formed a rate card advisory committee to service the 11 stations it represents. Objective: simplify rate cards as a more useful tool for timebuyers. The committee hopes to eliminate excess rate card wordage and duplication by passing along new ideas to each station while acting as a sounding board for a station proposing rate changes.

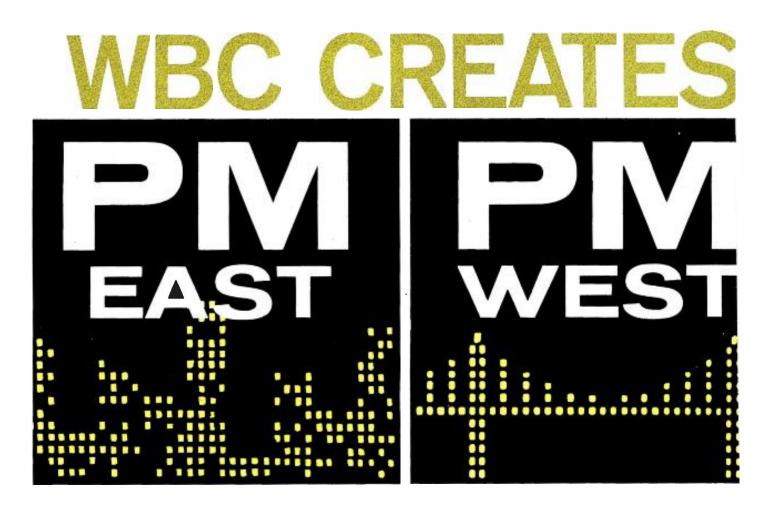

Individual stations will meet regularly with the committee to discuss their rate card problems. The commitee is composed of 10 CBS Radio Spot Sales executives with Edward O'Berst, account executive, as chairman.

The newest sight in the night ...

new dimensions in late evening television

Originating from New York and San Francisco...11:15-12:45 Mon. thru Fri

PM spans the continent and brings to the "late nighter" a constant flow and interchange of enter tainment, ideas and PEOPLE. PM concentrates on the deep excitement in people...their private views...their inner perspectives. As you will see—<u>PM is fresh television at its powerful best</u>.

PM EAST. The East show (11:15 pm-12:15 am) originates in New York City. Featured Star: **Mike Wallace** (warmer than you've known him—and still the most sure-footed man about television). With **Joyce Davidson** (beautiful, blonde Canadian entry to American television—smarter and sharper than any woman has a right to be). With her help, Mike probes the glitter of people who thrive in the city's big lights, people from all shades of life. Each night Mike explores a different chunk of human experience, which mixes the humor, guts and excitement of people in the big city.

PM WEST. The West show (12:15 am 12:45 am) originates in San Francisco. It features **Terrence O'Flaherty** (TV Editor of the San Francisco Chronicle with vibrant intellect, vast knowledge — and a wide, flashing smile). He knows best how to bring out the lively music and humor of San Francisco's famous jazz spots and coffee houses. The tempo's cool and relaxed—and with it comes deep insight into the city and its people. What is PM's element? People. How are they handled? With deftness, warmth and fun. AND...one at a time, not all together! Because PM likes to dig in deep. Its focus is tight, close-up...perceptive. An on-the-spot story emerges through a PM autobiography...of a sudden news figure...a renowned artist...a controversial writer. You find you've gone beneath the surface image...liking it every quick step of the way. PM goes behind the front page of entertainment, too! Bringing out the budding folk singer — the newly schooled comedian...talent on the rise, with talent worth seeing, hearing and learning more about. Furthermore, PM pokes fun. PM is unpredictable...PM is free-swinging. AND, PM's not tied down to the studio. It ''tapes'' off in the pursuit of people in the unusual pursuit — while they're pursuing! Finds 'em, too! At the races...on the streets — wherever they may be!

Who's behind PM? Top professional broadcast minds, who are alert to the growing needs of the ever more important "late nighter" segment of the television audience—who have designed PM to spark their attention...arouse their curiosity—and keep it burning night after night. That's why PM's elements are wide ranging—yet each is strong and compelling. And PM is produced by one of the best known producers, directors and program creators in broadcasting. Two-time Peabody Award winner BEN PARK. PM's chief writer is MARVIN DAVID. His background is studded with writing achievements in motion pictures, network television, radio and record albums and stage shows. All working personnel were chosen with the exact needs of the show in mind, even the show titles (designed by Saul Bass who did titles for "80 Days Around the World," "Man With The Golden Arm," "Exodus," and "Ben Hur"). And here is where the "inside" power of PM lies. PM is planned in advance. Content is investigated and chosen with exploitation in mind. Scripts are written—and tailor-made for each individual program. All elements are tightly woven in…and standards are high! It comes out excitement. Excitement that's planned to come night after night after night. PM is not a shot in the dark. It's a light in the night.

The <u>important</u> joy of discovery! After the show...talk begins. Because PM brings viewers inside. They discover for themselves. And they never know what will happen next. Be assured. PM plans to be the most talked about show in television...right from the start.

MIKE WALLACE

(PM EAST) Major TV award winner (Sherwood, Emmy, Hollywood Foreign Press Association)—he continues to be one of the few men in television to conduct fulllength, thoughtful interviews with people from the entire spectrum of society. On PM, he enjoys himself. He's warmer—and as he puts it: "more lovable." We think you'll like the new-old Mike Wallace...

JOYCE DAVIDSON

(PM EAST) Canada's primetime TV gal became a 200 proof legend in her own (very young) time. For this kitten soft blonde is uncomfortably bright. She was enthusiastically spirited away by WBC to conquer a new world. And we're sure you'll agree...<u>she will!</u> She has a happy effect on Mike and guests. And has a built-in tendency to capitalize on it...

TERRENCE O'FLAHERTY

(PM WEST) Against his own advice—"TV columnists should not appear on TV" (directed to John Crosby)—the syndicated TV columnist for the San Francisco Chronicle joins PM West. And, why not? He is known, admired, revered, read and reread throughout the West. He writes with fluidity, candor, grace and charm. And you'll find he talks the same way...

WBC BELIEVES

that people would rather be entertained than distracted. WBC believes that people want late evening television worth waiting up for...television that doesn't talk down, around and nowhere in particular. PM's got direction. It's timely television with the earthy magnetism to attract and hold wide segments of viewers in every market it plays. And, very important...

PM is built to sell. WBC believes in smart, effective commercial placement. On PM...commercials are built into the show. They never interrupt. Instead, they are spotlighted. Four showcases per hour (60-10-and 60 second spots in each). And no more. Yet...PM's rate structure is no higher than current rates for films shown at the same time!

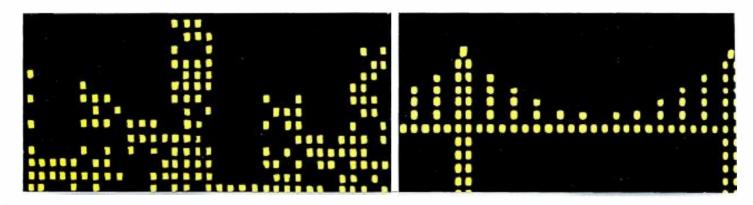

PM EAST—PM WEST is not only the newest sight in the night...but, as well—the best buy in the night. Ask for rates and full details from WBC TV Stations—or call TvAR direct.

TvB reveals spending of three groups

TV TOBACCO BILLINGS JUMP \$6 MILLION AT EXPENSE OF OTHER MEDIA

Television Bureau of Advertising, in an accelerated program to release detailed summaries of 1960 advertising expenditures by product category, has highlighted the spending records of tobacco, soft drink and insurance companies, among others. The total network and spot gross time billings of the three categories: \$143,001,654.

Network tv billings for tobacco products and supplies in 1960 totalled \$76,-912,694 against \$75,169,190 in 1959, TvB/LNA-BAR figures show. Spot tv billings, according to TvB-Rorabaugh, were \$35,686,000 last year, compared with \$31,490,000 in 1959. TvB adds: tv's share of tobacco advertising rose substantially in 1960 as the tobacco industry, achieving new sales records, reduced expenditures in other measured consumer media while expanding their use of tv.

Soft drink (bottled) advertisers' tv gross time billings in 1960, for network and national spot, rose 10.3% over 1959, from \$13,288,340 to \$14,-659,360. Spot tv billings in 1960 were \$11,696,000 against \$11,165,430 in 1959. Network billings in 1960 were \$2,963,360, compared with \$2,122,910

BROADCASTING, June 12, 1961

the previous year. TvB points out that soft drink advertisers are making greatly expanded use of tv in 1961, with gross time billings alone expected to rise some 20% over last year (BROAD-CASTING, May 22).

Insurance companies, according to TvB, increased their tv expenditures 136% from 1956 to 1960. Of all media used by insurance companies during those years, only tv has increased its share of insurance advertising. Out of the category's total 1960 tv expenditures of \$15,743,600, the companies spent \$12,381,622 for network gross time billings, compared with \$10,270,755 in 1959. Spot tv billings, which dropped from the preceding year, were \$3,362,-000 against \$3,770,000 in 1959.

Agency appointments...

• The Elgin National Watch Co., Elgin, Ill., appoints McCann-Marschalk Co., effective immediately, replacing the J. Walter Thompson Co., N. Y. Budget is estimated at \$1.5 million and approximately 50% is spent in network television.

• Catz American Co. (importers of food and non-food items sold through supermarkets) New York, appoints The Wexton Co., N.Y., as its agency. Extensive radio advertising will be used in selected markets.

• 42 Products Ltd. (toiletries), Santa Monica, Calif., appoints Beckman-Koblitz, Los Angeles, as its agency. A \$300,000 all-media budget has been announced for the firm's hair preparation line.

• Vic Tanny Enterprises has divided its advertising budgeted at more than \$2 million for the coming year, between two agencies. Stahl & Lewis Adv., Los Angeles, which had handled all of the advertising for the chain of Vic Tanny health clubs since 1955, retains control of all advertising west of the Mississippi. Kastor, Hilton, Chesly, Clifford & Atherton, New York, has been named agency for Vic Tanny's advertising in the eastern half of the country.

• Gulton Industries Inc., Metuchen, N. J., appoints Compton Adv., N. Y., as agency for its consumer products. Immediate advertising expenditures, principally in network and spot tv, will be directed toward the company's Life-Lite Rechargeable flashlights. Account had been at the W. B. Doner Co., N: Y. It spent approximately \$125,000 in spot tv in 1960, a figure expected to be raised this year.

A TREND BECOMES REALITY

CBS-TV joins ABC-TV in longer station breaks with NBC-TV expected to make it unanimous

The 40-second station break between network prime-time programming became virtually unanimous last week as far as the networks are concerned.

CBS-TV told its affiliates they would get the longer breaks—42 seconds, actually—and NBC-TV was expected to follow suit with little delay, possibly at a meeting with its affiliates' board of delegates on Friday (June 9). ABC-TV started the trend several months ago. The changes, from the present standard 30-second break, will become effective with the new television season in the fall.

If the networks were nearing unanimity on extension of the breaks, agencies and advertisers were maintaining a unity of their own; they gave no sign of retreating from the almost solid opposition they have put up. Even CBS and NBC officials have said they would make the move only if they had to, for competitive reasons, to avoid losing advantage to ABC. CBS-TV's move and the reported imminence of similar action by NBC-TV indicated that those networks no longer harbored the thought that ABC-TV might abandon its plan.

There were continuing signs that at least some agencies would demand rebates for the 10 seconds their clients must lose in order to make room for the expanded breaks. But whether they would succeed in getting money back remained a question (CLOSED CIRCUIT, May 1).

CBS officials have said that their advertiser contracts are cancellable on six months' notice and that the longer breaks could be installed on that much notice. (William H. Hylan, CBS-TV sales administration vice president, notified agencies of the 42-second move last week in a letter date June 7. That would be somewhat short of six months' notice since the plan goes into effect in September and October. In an April 7 letter Mr. Hylan had warned agencies that CBS-TV would have to adopt longer breaks if its competitors did; if construed as 'notice," that letter would fit the six-month requirement in the case of a few programs at the time they first are due o become involved in the longer breaks.) NBC authorities say their contracts do not specify the length of station breaks and hence no formal notice would be required. For all three networks, however, the question of "good consumer relations" may have a bearing on their decisions to grant or deny rebates if requested.

Dollars Involved . The number of

dollars that might be involved in rebates, if any are made, was indicated by one agency official's estimate that one of its clients would receive \$20,-25,000 for its estimated time lost in sponsorship of an alternate-week halfhour program on CBS-TV.

CBS-TV's plan, disclosed to affiliates in a telegram from president James T. Aubrey Jr., said the 42-second breaks between prime-time programs would become effective this fall "as new programs go into schedule." Thus the longer breaks at 7:30 and 8 p.m. on Sundays will become effective Sept. 10, while they will start in the Sunday 10 p.m. spot on Oct. 15.

The 42-second length will apply to all breaks between CBS-TV prime-time programs, but station breaks within those programs will remain 30 seconds. This means between-program breaks from 8 p.m. New York time (on nights when half-hour programs are scheduled) through 11 p.m., six nights a week, and starting at 6:30 p.m. on Sundays.

Rep appointments...

• WMGM New York: Daren F. Mc-Gavren Co. Inc.

• KJEO-TV Fresno, Calif.: George P. Hollingbery Co., effective June 15.

• WMUR-TV Manchester, N. H., appoints Young Television Corp., N. Y., effective June 1.

Keeping it hot

Some like it "cold," but most people like it "hot," so Pan-American Coffee Bureau, New York, will stay with hot coffee promotion in broadcast media this summer. Agency BBDO, New York, currently awaits the clients' final approval of the new summer campaign. It's understood the coffee bureau is researching the extent of consumer interest in iced coffee, but the feeling is that with the widespread use of air-conditioning hot coffee still is strong favorite despite heat waves. Meanwhile, the Tea Council is ready to go with new radio spot drive for iced tea.

dino-Riverside, KAFY Bakersfield have appointed Robert E. Eastman & Co. as the national sales representatives.

Also in advertising ...

Sound sell • A new Radio Advertising Bureau presentation, "Sell With Sound," was released last week. It is designed to encourage stations to sell by means of tape commercials. Stations are provided with a complete backlog of representative commercials and are advised to use them for radio holdouts, and for retailers who want to bring in more business.

UAL's ad counsel • United Air Lines appointed N. W. Ayer & Son Inc., Philadelphia, as advertising counsel for the entire UAL system following United's merger with Capital Airlines.

HOUSE HUNTING ON TV

Johns-Manville takes viewers on filmed tour every week

Johns-Manville goes house hunting with viewers every Sunday in St. Louis in a program arrangement that may become the pilot model for similar tv ventures in other J-M markets.

The Sunday show is called Suburban Living, a 15 minute program starting at noon on KTVI (TV). It was created by Cunningham & Walsh, J-M's agency which also supervises the program though located miles away in New York.

As explained last week by Ton DeHuff, C&W's director of commercial production, the format presents new home models on motion picture film unlike similar home shows around the country which use still photographs.

The custom-built show depicts both interior and exterior views of the model home. Purpose of the program is to help people select homes for themselves and more importantly for the builder to increase traffic to his development. Each show permits four builders to participate under the Johns-Manville (building supplier) "Seven-Star Home Value Plan." There are no formal commercials; tag lines—a series of slides. Mention of Johns-Manville is brief, coming at the show's opening and closing.

Show Mechanics . The mechanics of putting the show together are relatively simple. The local Johns-Manville agent alerts the station each Thursday on which builders are set to cooperate with the program on the following Sunday. The station itself acts as the producing unit. Station newscaster Bruce Hayward narrates, appearing on camera live for a few minutes to recap. Script is prepared by Jim Lyle, also of KTVI. The area covered is within a 50-mile radius of St. Louis. Especially prepared maps are used on the show to help viewers find their way to the new homes. Each script is cleared at Cunningham & Walsh in New York before air time.

The agency feels there are important advantages in such a set up. Among them: rigid production and quality control, professional writing and photography, a program concept that lends to movement on location and sound (narration), a favorable cost factor and an exclusive property of the client.

For the builder, the J-M program permits 40-50 in a year's time (there are some repeats) to take part in a tv show that costs them nothing except some time and a little effort. In turn, J-M gets goodwill while helping to stimulate home sales and consequently the building industry in St. Louis.

Johns-Manville started the 52 week

Soap opera sells homes

Who says a "soap opera" can sell only soap or other products made for milady? Mutual reported last week that the network's My True Story, a veteran "soaper," has been sold by WPEN Philadelphia to Morrell Park Homes, a 1,000-unit housing development in that city. The business was placed through Haughton Adv., Philadelphia, The program is fed by Mutual to affiliates via closed circuit each day. Stations record it for use at their discretion. Under Mutual's sales plan, stations receive the program without fee but permit MBS to sell one-half of the commercial time. It is now carried by 113 stations.

show on April 16. Before that date, filming was underway for two weeks to insure a continuing backlog. J-M may enter other markets in 1962.

Lipton buys 10 tv shows

Thomas J. Lipton Inc. (Lipton Tea), Hoboken, N. J., will sponsor 10 network tv public affairs shows during the next three months.

Called Lipton Summerama, the campaign schedule is as follows: June 8, "A Real Case of Murder" (CBS-TV); June 13, " $T\nu$ Guide Awards" (NBC-TV); June 20, "JFK Report" (NBC-TV); June 22, "The Year of the Polaris" (CBS-TV); July 4, "The Great War" (NBC-TV); July 4, "The Great War" (NBC-TV); July 6, "Rescue—With Yul Brynner" (CBS-TV); July 20, "The Trials of Charles de Gaulle" (CBS-TV); Aug. 3, "Britain—Blood, Sweat and Tears, Plus 20 Years" (CBS-TV); Aug. 17, "Censorship and the Movies" (CBS-TV), and Aug. 31, "The Great Holiday Massacre" (CBS-TV).

Lipton tea will fully sponsor three NBC-TV shows and one-half sponsorship of the seven CBS-TV programs. Advertisers also will sponsor on alternate weeks CBS-TV's Wayne and Schuster show, the summer replacement for The Jack Benny Show (Sun. 9:30-10 p.m. EDT). The agency: Sullivan, Stauffer, Colwell & Bayles Inc., New York.

Schlitz to Burnett

Joseph Schlitz Brewing Co., Milwaukee, last week moved its \$16 million Schlitz beer account from J. Walter Thompson Co., Chicago, to Leo Burnett Co., Chicago. Account was at Thompson for $5\frac{1}{2}$ years. Schlitz network and spot tv budget runs about \$4.5 million. Another \$3 million is spent in local radio, placed through distributors.

This year the Radio Network of Maine Broadcasting System celebrates 100 years of combined radio broadcasting service.

WCSH-Radio is 36 years old, WLBZ-Radio is 35 years old and WRDO-Radio is 29. Each is better than middle-aged in radio annals and their combined years give them venerable standing ... old in years of service to the state, but young and energetic in outlook and determination to provide to Maine people the best in radio.

The Maine Broadcasting System reaches over 249,000 homes and 95% of the retail sales in the state, over WCSH in Portland, WRDO in Augusta and WLBZ in Bangor.

Are timebuyers tied to counting table? MOST FEEL MORE SAY-SO, FLEXIBILITY WOULD MAKE JOBS 'CREATIVE'

Is today's timebuyer creative—or merely an appendage to an adding machine?

The answer, based on survey results being released today (June 12), would seem to be that his urge is creative but that often his work is not allowed to be. In many cases he is restricted through no fault of his own—to functions of the adding-machine variety.

He feels that many things work against his desire to be a "creative" buyer. The ones he mentions most frequently are too much detail work, not enough time to work out efficient buys, inflexible budgeting and rating goals, lack of background information which would enable him to buy more efficiently, too little authority to make decisions, and lack of familiarity with the copy approach in the campaigns he is buying for.

This is his own estimate of himself —and the limitations he works under —as it emerges from a survey conducted among buyers and other personnel at agencies throughout the U.S. NBC Spot Sales made the study to determine whether the buyer, responsible for \$2 billion in advertising spending this year, is given commensurate authority or is hamstrung; how he fits into the agency pattern; whether he is free to use judgment and imagination in his buying or whether he is, indeed, "an adding-machine appendage."

Response = A total of 207 agency people in 182 agencies or agency offices responded to the survey, the eighth in a continuing series conducted by NBC Spot Sales among members of its Timebuyer Opinion Panel. Here are some of the highlights of the findings, details of which are reproduced in the tables below:

• Ninety-nine out of a hundred timebuyers think they can do a better job when they are allowed to take part in planning the overall strategy of the campaigns they help place—or at least know what the strategy is all about.

But approximately one-third of them usually do not take part in this planning, and in some phases of it twothirds of them usually have no voice.

• Nine out of ten say that being familiar with the commercial copy approach has a "substantial influence" on their buying decisions—but three in ten report that as a rule they're *not* familiar with the commercial copy.

• They overwhelmingly don't like

"buying by the numbers"—though "with rare exceptions" that's the way buying is done.

• Two out of three think all-media buying encourages "creativity" in the purchase of broadcast time more than specializing in time buying does. (The survey did not elicit data on how many respondents are in fact employed in agencies where buying is done on an all-media basis as opposed to the specialist system.)

The panelists were given a chance to offer free comments on the general subject of creativity in timebuying. A few took the opportunity to scoff at the idea of "creativity" or to wonder what it is.

Dullest J. M. McCarthy, media buyer at Benton & Bowles, New York, offered this assessment: "What's creativity? The only people I ever come across who worry about 'creativity in media buying' are those cocktail-wielding, smile-holding junior witches at the World's Dullest Cocktail Parties. They make \$65 p/w and can read SRDS. Rah! Rah!"

Carroll E. Osborn, a partner in Osborn-Propst Adv., Syracuse, put it this way: "Who's kidding who? A buyer

What the questionnaires revealed

QUESTION 1 FREQUENCY OF PARTICIPATION

How often does the timebuyer *take part* in the initial strategy planning phases of a campaign regarding:

QUESTION 3

Generally speaking, do you believe that participation in, or knowledge of, the overall campaign strategy adds to the should be alert, a good politician with time salesmen, a thorough researcher, shrewd, tough-minded, courageous in his recommendations. But "creative? Humbug!"

Carol Bag, media director of Smith & Dorian, New York, didn't know "what a 'creative' buy really is," but said that "if a buyer is given a free rein and knows his job, the only deterrents are lack of information or lack of availability. If he knows his job, then the information should be in his hands and the only limiting factor is availability."

Many other panelists used the questionnaire's space for comments to protest the "numbers game" of buying primarily according to ratings.

Marshall Hawks, vice president and radio-tv director of Emery Adv., Baltimore, looked at it this way: "A timebuyer is often fairly young and new in a profession populated by genuine or self-styled experts, including the clients. He or she wants to succeed and advance in the agency. The safest way to job security is to buy by ratings and be able to smile and repeat the magic words 'I got you the lowest cost per thousand.' The truly dedicated and fearless timebuyer will apply all his intelligence to the job despite ratings and calculations, justify his purchase with logic and stand or fall on the results produced by the campaign."

Numbers Game • Nate Rind, a broadcast buyer at Doyle Dane Bernbach, New York: "Ratings and the almost endless variety of numbers available to a timebuyer or media buyer, if used exclusively in media selection, can often be very misleading. Even if they are correct and 'verify' large audiences, they do not in any way indicate that this audience provides the best potential for the purchase of the products being advertised. Quality, an important but rarely measured factor, must be a prime consideration in media selection."

Edward F. Ritz, media vice president, Klau-Van Pietersom-Dunlap, Milwaukee: ". . . Far too much emphasis is being placed on the quantitative aspects. . . . The primary function of any medium is to move goods. It does not necessarily follow that program popularity sells merchandise. Certainly media buyers should take into consideration the station's profile in a market, the amount of time it devotes to public service programming and at what time this public-service programming appears. The general program format of a station should be a very important consideration, if not one of the most important, in the selection and recommendation of a station.'

Syd Cornell, radio-tv director, Rollman Adv., Cincinnati: "We are usually swayed by station success stories, which are often quite contrary to the numbers. We are also influenced by types of air personalities and station policies on multiple-spotting and exclusivity."

Donald E. Leonard, media vice president, Fuller & Smith & Ross, New York: "I believe 'quality' should become our war cry—in our commercials, in the media used, in the programming or editorial, in the people who sell or represent media, and in the buyers responsible for purchasing media. We all see so much mediocrity every day—in everything—that seeking 'quality' is a tremendous challenge."

John T. Nolan Jr., president, Keelor & Stites, Cincinnati: "The timebuyer with specific knowledge of a local situation is often in a better position to ascertain whether a media buy is justified than a small sampling by a rating survey. On the other hand, we generally do buy by the numbers since audience composition indications and homes-reached-per-thousand are important factors. Broadcast media, like all others, must be expected to carry its own weight."

Eclecticism Bob Reichenbach, radio-tv director, Bernard B. Schnitzer Inc., San Francisco: "The small agency, serving local and regional accounts, often is in a position to buy without close regard to the numbers because of more knowledge of the actual audience composition of his local and close-by

BROADCASTING, June 12, 1961

stations. We often prefer to buy a special personality or a special situation, with only secondary regard to the numbers."

The study showed that approximately 70% of the panelists "always" or "frequently" take part in the initial planning of a campaign, and that usually the buyers in smaller agencies (those under \$5 million in billing) have a greater voice in this early planning than do buyers in the bigger agencies (see tables, Question 1, page 48. When the overall budget has been set, the basic media selected and budgeted, and the copy approaches worked out, however, buyers in the bigger agencies have a greater voice in such secondary planning activities as market selection and the allocation of funds to specific markets (Tables with Questions 5 and 6).

Buyers are much more apt to have

a hand in determining the overall radio and television budgets than in working out the copy lines for the commercials to be used (Question 1-c, 1-d).

Although virtually all respondents felt that a knowledge of overall campaign strategy would help them to buy better (Question 3), they also indicated that often they not only do not take part in the planning but in some cases are told little or nothing about the client's sales and marketing problems (Question 2) and are not familiarized with the commercials before they start placing them (Question 4).

Leftovers • Seven out of ten said they "always" or "frequently" are consulted about the length of commercials to be used (Question 7). Approximately the same percentage said that if they have left-over money in a market they usually have discretion to spend it on additional spots elsewhere (Question 8).

Six out of ten "always" or "frequently" try to get a change in the copy and buying plan if they find nothing but poor availabilities open under the established plan (Question 9).

More than nine out of ten think they are justified in following their own judgment and experience when these are at odds with "the numbers" (Question 11). An equal percentage think that under certain circumstances (not described in the survey) a buyer should consider the figures shown by a rating service he doesn't normally use, if those figures reflect "a striking difference" from the report he does subscribe to.

If presented with a set of availabilities or a program idea that sounds realistic and convincing but does not conform

What the questionnaires revealed

Continued from preceding page

QUESTION 7 TYPE ANNOUNCEMENTS USED

In setting up a broadcast announcement campaign, how often is the timebuyer consulted about the *type* of announcement(s) to be used? (i.e., the choice of ID's, 20's or 1-minute announcements)

| | | | Over \$5 million | | Under \$5 million | |
|-------------------|-------|-------|---------------------|-------|----------------------|-------|
| | Total | | | | | |
| | # | % | # | % | # | % |
| Always | 62 | 30 | 25 | 22 | 37 | 40 |
| Frequently | 83 | 41 | 48 | 43 | 35 | 38 |
| Sometimes | 47 | 23 | 28 | 25 | 19 | 20 |
| Never | 13 | 6. | 11 | 10 | 2 | 2 |
| Total respondents | 205 | (100) | 112 | (100) | 93 | (100) |

QUESTION 8 DO YOU RE-ALLOCATE FUNDS?

If, through the use of special plans or because of market peculiarities, the desired reach and frequency in a market can be achieved for appreciably less than the budgeted amount, does the timebuyer usually have the discretion to reallocate the funds to buy additional spots elsewhere?

| | | | Over | | Under | |
|-------------------|-------|-------|-------------|-------|-------------|-------|
| | Total | | \$5 million | | \$5 million | |
| | # | % | # | % | # | % |
| Yes | 131 | 69 | 76 | 75 | 55 | 63 |
| No | 59 | 31 | 26 | 25 | 33 | 37 |
| Total respondents | 190 | (100) | 102 | (100) | 88 | (100) |

QUESTION 9 CHANGING ESTABLISHED PLANS

Let us assume that by following the established buying plan the timebuyer is limited to poor availabilities in certain markets. In this situation, how often does he attempt to bring about a change in copy and buying plan so as to take advantage of better avails?

| | Total | | Over \$5 million | | Under \$5 million | |
|-------------------|-------|-------|---------------------|-------|----------------------|-------|
| | | | | | | |
| | # | % | # | % | # | % |

BROADCASTING, June 12, 1961

And... we did... WFAA 820 listeners were the first to hear a direct report from Cuba. After many long hours on the phone, "Southwest Central" newsmen finally found someone who could speak English and report on the invasion of Cuba. WFAA then provided the networks and wire services with the beat of the month. It happens every day on WFAA! "Southwest Central's" audience is kept abreast of happenings in "Big D" and around the world 4 or 5 times every hour. And this is in addition to regularly scheduled news on the hour...coverage that is making WFAA Radio's new "Southwest Central" the station people are afraid to leave. They tune to and stay with "Southwest Central" for the big stories...first, and first-hand. News, special features, behind-thescenes sports, weather, farm news...it comes anytime and often on WFAA where professional journalism makes the difference.

Isn't this the place for your message?

to established buying patterns, two out of ten said they would buy it, fewer than one in ten would reject it and almost eight out of ten would pass the decision along to somebody else (Question 13).

On the question of all-media buying vs. specialization the vote was two to one against specialization (Question 10), but the "comments" produced some firm arguments for each system.

Undiluted • Arthur S. Pardoll, associate media director of Foote, Cone & Belding, New York, contended "it is not possible for a buyer to do the most effective job by diluting his effort among different media and several contacts. Concentration in buying a specific medium develops better skills and a more intimate knowledge of the medium concerned."

Janet Murphy, a timebuyer for L. C. Gumbinner agency, New York, said: "A specialist can devote more time and thought to specific problems of timebuying and be free to make opportunistic recommendations for purchase when offered. He is easier for reps to reach quickly and has a better chance of making the quick, knowledgeable decisions vital to a competitive product category."

On the other side Charles N. Campbell, media director (consumer) of MacManus, John & Adams, Bloomfield Hills, Mich., argued that "the all-media buyer is in a better position to see how broadcast works in terms of marketing, creative platform and product needs. He is better equipped to talk to the client and work with the account group."

Fuller & Smith & Ross' Donald Leonard defended the all-media system on the ground that "a well-rounded media man, who knows the relative quantity and quality of what he can purchase in all media, will purchase a specific medium more astutely. This is especially true when evaluating the special qualities of one medium versus another, in order to make suggestions which have a flair and are creative."

Information, Please • Whatever system of buying is used, panelists were outspoken in stressing the importance of buyers being given as much campaign and marketing strategy information as possible—and of being given authority to use it.

Sam B. Vitt, media vice president of Doherty, Clifford, Steers & Shenfield, New York, said that "a timebuyer who isn't permitted maximum flexibility, within certain clearly defined media and marketing strategies, can be severely handicapped in making 'creative' buys. Individual market conditions vary and where a formula may apply to one market, it just as well may not apply to another. In his own best interests the advertiser who has faith in his buyer and insists that he be unfettered to meet any situation as that situation *is*, and not as it should be, will in almost every instance receive a greater share of 'creative' buys and better value for his dollar."

Mrs. Marion J. Ward, national media buyer, Phillips-Ramsey, San Diego: "I cannot emphasize enough that the more the buyer can know about a client and a particular promotion, the better job he can do in purchasing time."

Frances Lindh, media director, Garfield, Hoffman & Conner, San Francisco: "In radio particularly, where the ratings lag behind the changes in format, a timebuyer must use her own judgment to project the current importance of a station in a market. There is a moment when a station, healthfully moving ahead, with no ratings as yet to justify an increase in rates, is a 'best' buy. Call it creative or intuitive, that is the moment to buy the station available ratings to the contrary."

Robert C. Hall Jr., media director, Cargill, Wilson & Acree, Richmond: "Agencies have not been training creative people to do this job—they have been making timebuyers out of bookkeepers, then wondering why they're not more creative. The job has every opportunity for a creative person to express himself if he really wishes to."

'GE Theatre' ads to be all-institutional

PROGRAM TO FEATURE ONE COMMERCIAL, TIMELY DRAMAS

The television commercials on the half-hour *General Electric Theatre* next season and the programming itself will seek to improve the corporate image of the General Electric Co.

The commercials will be three minutes long and will be purely institutional in nature. In the past season half of the commercial time was institutional and the other half product selling. In the programming area in 1961-62, *General Electric Theatre* will accentuate more heavily those dramas with

A three-minute all-institutional commercial to be carried on General Electric Theatre on July 9 spotlights an "electronic heart" device developed by GE engineers. Don Herbert, commercial spokesman for GE, shows the device, called an "electronic pacemaker," which is used to make the heart beat in proper rhythm during an operation. The device was developed by engineers working under Dr. John B. Russell (I), manager of GE's electronics laboratory in Syracuse. contemporaneous themes. This twin effort, GE hopes, will have the effect of enhancing the prestige of the company to millions of viewers.

GE's strategy was outlined by David Burke, manager of institutional advertising, last week. Asked if GE's plans are a counter-move to offset recent disclosures before the Senate Antitrust Subcommittee concerning antitrust violations by some of the company's executives, Mr. Burke replied:

"Not exactly. We had planned some of the changes for some time. But I will say that the unfavorable publicity we have received lately had the effect of accelerating our decision."

The commercials on *GE Theatre* (CBS-TV, Sun., 9-9:30 p.m.) will interrupt the program only once for three minutes, according to Mr. Burke. There will be no direct "sell" of products and *GE* will attempt to make the institutional commercials interesting and informative, he said. *GE* plans to implement its new commercial approach this summer, starting with the July 9 program.

Tries to Please = Mr. Burke stressed that GE Theatre always has attempted to "please as many people as possible" and in this respect has carried westerns, adventure, situation comedy and other types of programs when they were in vogue. He contends the type of show is not significant; what is important, he insists, is the story, the performers and the production values. He believes the program's track record supports his theory and notes that GE Theatre has been on CBS-TV continuously since 1954 in the same time period with only one producer (Revue Productions) and one host, Ronald Reagan.

The program in the upcoming season will adhere to GE's basic credo: to try to entertain as many viewers as possible, Mr. Burke explained. But he said the environment is "right" for dramas dealing with the problems of the

"Films of the 50's" K.O. Springtime

DETROIT "Arbitron Breakout" reports overpowering attraction of "High and the Mighty" against allure of beautiful spring day.

Sunday telecasts of Seven Arts feature film, completely dominate Detroit's 4-station audience for WJBK-TV.

"ARBITRON BREAKOUT"

WJBK-TV Detroit showing "High and the Mighty" May 14-Sunday Afternoon* & Evening *The first beautiful spring day after a long, hard winter!

5 PM-6:30 PM FIRST SHOWING MAY 14 WJBK STATION A STATION B STATION C 30.0 1.9 9.4 .9 71% share of audience

For list of TV stations programming Warner's Films of the 50's see Third Cover SRDS (Spot TV Rates and Data) times. Projected for next season, he revealed, are a trilogy on the problems of Protestant, Catholic and Jewish clergymen, and five other programs which will dramatize such critical areas of life as education, juvenile delinquency and world politics. Innovations planned, according to Mr. Burke, are a short folk opera by Kurt Weill, "Down in the Valley," and a half-hour show devoted exclusively to Mike Nichols and Elaine May, the comedy team.

The valuation General Electric sets on *GE Theatre* was underscored by this remark from Mr. Burke:

"We asked the Opinion Research Corp. to do a study for us last year to find out which was the single source from which people received their ideas about the General Electric Co. The results showed that 29% of the people mentioned GE products which they had used over the years. The General Electric Theatre was mentioned by 27% of the respondents. The remainder of the people cited a variety of factors. But what struck us was this: GE has been in business for 80 years and naturally has made many friends among consumers. But only since 1954 GE Theatre has made itself so vital in communicating ideas about the company. I'd say that's remarkable."

Ad Council reviews media use success

High-level government officials met in Washington last week with members of the Advertising Council at a two-day briefing session. Vice President Lyndon Johnson headed the list of government speakers. Lee H. Bristol, board chairman of the council and of Bristol-Myers, presided at the session.

The council is composed of leading industrialists and advertising executives. It cooperates with radio, tv and other media in providing free time and space for public-service announcements. Last year the council placed over \$100 million in free advertising for savings bonds, forest fire prevention, polio vaccine, the census and similar campaigns. The Washington program was arranged under White House auspices.

, R. Sargent Shriver, director of the new Peace Corps, told the final luncheon June 6 that recruiting efforts of the council had led to appearance of 4,000applicants when the tests were begun Memorial Day. The number of recruits has now reached 10,000.

Luther H. Hodges, secretary of Commerce, told the council the economy is definitely on the way up and added, "The recession is behind us." He lauded the council's "Confidence in a Growing America" campaign, explaining that the messages stimulate business activity and reduce unemployment through growth.

Vice President Johnson reviewed his

hand-shaking, people-meeting tour of Asia. He suggested the U. S. send tv equipment to foreign nations that have limited school facilities to provide education for millions of children.

Twiggs sues C&W, officers, for slander

Reginald W. Twiggs, vice president and general manager of the Los Angeles office of Cunningham & Walsh, has filed a \$900,000 damage suit against the agency and two of its officers in Los Angeles Superior Court.

Mr. Twiggs charges that slanderous and malicious remarks were made about him by Robert R. Newell, C&W president, and by Robert W. Dailey, executive vice president for western operations who has headquarters in San Francisco, and that these remarks resulted in the withdrawal of an offer to employ him as vice president and general manager of the 'Los Angeles office of Grey Advertising Inc., causing damages to him in the amount of \$750,000.

The suit asks for judgment against the defendants for \$750,000 in general damages and for \$50,000 from each of the three defendants individually in punitive damages.

Mr. Twiggs states in his complaint that on some occasions around May 1 of this year Messrs. Newell and Dailey told various individuals that the plaintiff, after doing a fine job from the time he joined C&W in June of 1959, was on the verge of a nervous breakdown and had been given an enforced leave of absence to pull himself together. The defendants, the complaint declares, "in making said false, unprivileged and defamatory statements, intended and were understood to mean by said statements that plaintiff was a mental incompetent and incapable of discharging his duties."

Business briefly...

Sunbeam Corp., Chicago, ordered three nighttime series next season on NBC-TV, as well as in network's telecasts of National Basketball Assn.'s tv games. Programs are: 87th Precinct (Mon. 9-10 p.m., NYT), Cain's Hundred (Tues. 10-11 p.m.) and Robert Taylor's Detectives (Fri. 8:30-9:30 p.m.). Agency: Foote, Cone & Belding, N. Y.

Purex Corp., South Gate, Calif., will sponsor (NBC-TV's) rebroadcast of an original drama, "The Accomplice," as a *Purex Special* next Monday (June 19, 10-11 p.m., EDT). Starring Nehemiah Persoft as a Nazi war criminal, "Accomplice" was originally presented Aug. 26, 1960 in the *Moment of Fear* series. Agency: Edward H. Weiss & Co., Chicago.

General Motors Corp., Detroit, will

sponsor the July 13 rebroadcast of *The* Secret Life of Danny Kaye on CBS-TV (Thurs., 10-11 p.m., EDT). The program was originally presented Dec. 2, 1956. Agency: Campbell-Ewald Co., Detroit.

Chesebrough-Pond's Inc., Dumas Milner Corp., Mennen Co. and Procter & Gamble Co. ordered full sponsorship of *The NBC Mystery Theatre*, starting July 2 on NBC-TV (Sun., 9-10 p.m., EDT). The color series, which NBC-TV first presented last summer in the same time period, features original suspense dramas and will continue through Sept. 10. Agencies: Norman, Craig & Kummel (Chesebrough-Pond's), Gordon Best (Dumas Milner), Grey Adv. (Mennen) and Benton & Bowles (Procter & Gamble).

The Nestle Co.'s central American distributors will sponsor *Robert Taylor in the Detectives* on the Central American Television Network for 52 weeks. The order was placed through ABC International Inc.

AFL-CIO, Washington, D. C., has renewed ABC Radio's Edward P. Morgan and the News (Mon.-Fri., 7-7:15 p.m., EDT) for the seventh consecutive year, effective June 26. Agency: Furman, Feiner & Co., N. Y.

Seven-Up Co., Candy Gram Inc. and Bankers Life & Casualty Co. are among the eight new major advertisers in ABC Radio programs. Sponsorships include various weekday and weekend newscasts by Seven-Up (J. Walter Thompson), Candy Gram (Dunnan & Jeffrey), Bankers Life (Phillips & Cherbo), Pepsi-Cola (BBDO), and Lanolin Plus (Dunnan & Jeffrey). Others include P. Lorrillard (Lennen & Newell), weekend Speaking of Sports and newscasts; Curtis Circulation Co. (BBDO), Breakfast Club and Flair, and Tidy House Products (McCann-Marschalk), daily sponsorship for 52 weeks in Breakfast Club. Also, Gospel Broadcasting Assn. (R. H. Alber Co.) renewed sponsorship of Old Fashioned Revival Hour for another vear.

NBC TeleSales moves to RCA Building

Production activities of NBC Tele-Sales, the network's commercial tape unit, will be centered in the RCA Building in New York, starting today (June 12), Jerry Madden, director, announced last week. The move was made to offer advertisers and agencies all production facilities in one location, though color production will be available at NBC's Brooklyn studios and the Ziegfeld and Colonial Theatres.

Mr. Madden reported that NBC Tele-Sales has doubled its business in black and white commercial production for the first five months of 1961.

And here's how WHIO-TV gives viewers more of what they want. A solid hour of live and informative programming from 6 to 7 P.M. weekdays. Here's a typical run-down:

national and international news • sports • local and area news • business news and stock market information • weather summary • Dow Finsterwald's Golf Tips • plus features and human interest items in the news. In addition, each Monday evening 7-7:30, "WHIO-TV Reports" presents a lively forum devoted to the discussion of items of particular local interest. "Rising Generation," a talent showcase for the youth of the area, adds life to Saturday evenings, 6-6:30 P.M.

These, and countless other live and informative programs, provide the kind of balanced programming that pleases most of the people, most of the time in Ohio's 3rd, and the nation's 34th market.

See George P. Hollingbery (in living color) for the full story on Dayton's High, Wide, and Wholesome station (WHIO-TV)

> Associated with WSB, WSB-TV, Atlanta, Georgia and WSOC, WSOC-TV, Charlotte, North Carolina

THE MEDIA _

ABC-TV sets \$2 million expansion of Hollywood facilities

A \$2 million expansion and modernization program for ABC-TV's Hollywood studios and offices was announced last week by James G. Riddell, vice president in charge of the network's western division, and Frank L. Marx, ABC vice president in charge of engineering. Scheduled for completion by fall is the production and sound stage (photo at left). The new administration building (photo at right) will be ready for occupancy early in 1962. The conversion of the studio will give it a hemispheric audience section with 350 permanent seats. The 10,000-square-foot facility will have fully transistorized equipment and a new control room operation. The administration building will encompass more than 50,000 square feet.

Nafi first quarter net nearly triples last year's

Nafi Corp.'s report to stockholders for the first quarter of 1961 shows net revenues of \$17,380,269, compared to \$6,210,385 for the same period of 1960, which was before Nafi acquired Chris-Craft Corp. Net earnings for the 1961 quarter were \$544,971 or 45 cents a share, compared to earnings of \$262,413 or 25 cents a share for the 1960 quarter.

The report points out that "an advantageous sale" of KXYZ-AM-FM Houston, Tex., which was approved two weeks ago by the FCC (BROADCASTING, June 5), will divest the company of its only radio property. The broadcast division will concentrate on television, according to current plans. Nafi owns three vhf stations-KPTV (TV) Portland, Ore., KCOP (TV) Los Angeles and KTVT (TV) Fort Worth, Tex. "Although results for the [Broadcast] Div. in the first quarter were below those in the first three months of 1960, the outlook is currently better and continued improvement seems probable for the balance of the year," the report states.

CBS-TV schedules regional promotion meets

CBS-TV's second annual regional promotion meetings will be held in 10 cities, June 12-22. The network also announced last week that the fourth annual meeting of promotion and information services directors of the five CBS-owned tv stations will be held June 22-23 at the St. Regis Hotel in New York.

General, sales and program managers and other station personnel have been

invited to attend regional promotion meetings, to be held in each of the areas of the CBS-TV Affiliates Assn. The schedule of dates, hotels and cities follows: June 12 Sheraton-Plaza, Boston, and Sheraton-Carlton, Washington; June 14 Sheraton-Towers, Chicago, and Peabody Hotel, Memphis; June 16 President Hotel, Kansas City, and Roosevelt Hotel, Jacksonville; June 20 Hotel Cosmopolitan, Denver, and Hotel Manger, San Antonio; June 22 Hotel Olympic, Seattle, and Sheraton-Palace, San Francisco.

CBS-TV executives conducting the clinics are: George Bristol, Alex Kennedy, Gordon Hayes, Bert Lown, Ernie Stern, Ed Scovill, James Kane, Leonard Broom and James Sirmans.

The agenda for the two-day promotion and information directors meetings will cover all phases of advertising, promotion, and publicity, including analyses of new activities in research, sales promotion, on-the-air promotion and sales development.

No Canon 35 study funds

Hope for an early foundation grant for a preliminary study of the American Bar Assn. Canon 35, restricting broadcast and picture coverage of trials, appeared dim last week, according to Howard H. Bell, NAB vice president.

Mr. Bell has been notified by Richmond C. Coburn, chairman of the ABA special Canon 35 committee, that it has been unable to obtain funds needed to determine the feasibility of a scientific study of the effect on participants in a courtroom trial with tv, radio or photography present. The committee is searching for another approach to the problem of determining the effect of media presence on trial participants.

CBS Foundation makes grants to eight schools

CBS Foundation last week awarded grants totaling \$27,000 to eight educational institutions. The foundation has awarded \$317,000 since 1954 when the plan to honor employes with unrestricted grants to their schools started.

Institutions and CBS representatives for whom the new grants were made are:

Bucknell U. (M. Ross Yeiter, sales manager, semiconductor operations, CBS Electronics); Columbia U. (David M. Blank, director of economic analysis, CBS, and Albert H. Dwyer, assistant general attorney, CBS); Fordham U. (William F. Grady, vice president in charge of manufacturing, Columbia Records); Kenyon College (Ralph Briscoe, director of budgets, CBS Television Stations); Manhattan College (Joseph N. Curl, daytime sales, manager, CBS-TV); Rensseleaer Polytechnic Institute (Robert M. Hammer, assistant director recording and distribution operations, CBS-TV); Trinity College (Drew Brinckerhoff, director of salary administration, CBS), and U. of Chicago (Deborah Ishlon, vice president in charge of creative services, Columbia Records).

Triangle buys site

WFIL-AM-FM-TV Philadelphia last week announced the purchase of a fouracre tract at the southwest corner of City Line Avenue and Monument Road to house its new multi-million dollar headquarters. Also to be located in the new facility will be the Radio & Television Div. of Triangle Publications, parent organization of WFIL-AM-FM-TV. The station's transmitters, located in Roxborough and Whitemarsh Township, will not change.

KRLA rebuked for incident at beach

The Los Angeles county board of supervisors last week reprimanded countv recreation officials and KRLA Pasadena-Los Angeles for disorders that occurred when some 25,000 persons showed up for a KRLA-sponsored beach party the preceding Saturday night.

The disturbances began around midnight after a show staged by the station's disc jockeys on a public beach near Santa Monica. One girl suffered an eye injury when a firecracker exploded. One youth was arrested when authorities broke up a fist fight.

Early wire service reports, published in newspapers throughout the county, erroneously stated that a girl had been raped and that 14 had been arrested.

Capt. Edward Fitzgerald of the Los Angeles county sheriff's office said the situation reached "near riot" proportions but that it was brought under control by 35 deputy sheriffs, 17 state highway patrolmen and nine lifeguards.

Herb Heiman, KRLA program director, said the station had coordinated with all official agencies in advance of the party and had written permission from the county department of parks and recreation.

"We had expected a crowd of not

more than 10,000 people," Mr. Heiman said. "Between 20,000 and 30,000 came. Even despite the high number there was complete order except for a couple of isolated instances until virtually all our guests had left for home at 11:15 p.m.

"Seeing that some of the crowd apparently intended to remain behind, KRLA management called the sheriff's office and advised it of this fact. Whatever disorder occurred, it took place after almost all of the beach was vacated and unquestionably was staged by a handful of toughies who seized the occasion for a display of rowdiness."

At a meeting June 6 of the county board of supervisors Norman S. Johnson, director of the department of parks and recreation, said his department had been "negligent in exercising good judgment" and described the party as a "regrettable incident." The supervisors ordered study of a proposal to stiffen regulations governing the use of beaches for private gatherings.

KRLA was told by the supervisors it would be held responsible for damages that might be awarded in any litigation stemming from the incident. "You were the host. You invited people to come one, come all," Ernest E. Debbs, chairman of the board of supervisors, told Mr. Heiman.

FCC examiners recently recommend-

avoid the hazards of selling on your own

Why take the risks involved in negotiating without our knowledge of markets, of actual sales, of responsible contacts? In speaking to any buyer, Blackburn's experience and reputation for reliability naturally lend greater weight to our opinion than any seller can reasonably expect to be given to his own.

Changing hands

ANNOUNCED • The following sales of station interests were reported last week subject to FCC approval:

WKNB New Britain, Conn.: Sold by Sheldon Smerling and associates to Louis A. Sodokoff for \$270,000. Mr. Sodokoff was executive vice president and director of Howard Stores Corp., men's clothing chain. WKNB operates on 840 kc with 1 kw daytime. Edwin Tornberg & Co. acted as consultant in the purchase.

• WJOC Jamestown, N. Y.: 87.5% interest of Harold P. Kane and Frederick E. Davis bought by Taylor Radio Corp. for \$215,000. Taylor is headed by Keith W. Horton, manager of WELM Elmira, N. Y. Burton O. Waterman, chief engineer of WJOC, retains his 12.5% ownership. WJOC operates with 250 w on 1340 kc. Broker was Paul Chaman Co.

• KJAY Topeka, Kan.: Sold by Dale Helmers and Joseph McCoskie to O. A. Friend Jr. and Hart Cardozo for \$150, 000. Mr. Friend owns WDBO Dubuque, Iowa, and Mr. Cardozo, KATE Albert Lea, Minn. KJAY is on 1440 kc with 5 kw day, 1 kw night. Broker was Blackburn & Co.

• WRMT Rocky Mount, N. C.; Sold by George Valentine and associates to Stanley Fox and group for \$125,000. Mr. Fox and his group own WHVH Henderson, N. C. WRMT operates on 1490 kc with 250 w. Broker was Howard S. Frazier Inc.

• WMLP Milton, Pa.: Sold by John S. Booth to Victor Michael, Joseph Kesnow and Stanley Kierszrowski for \$125,-000. Mr. Michael is manager and part owner of WTTC Towanda, Pa. Mr. Kesnow is a Towanda architect and Mr. Kiersznowski, a petroleum engineer. Station operates with 1 kw daytime on 1570 kc. Broker was Blackburn & Co.

KNOG Nogales, Ariz.: Sold by Lloyd Burlingham and Robert F. Baltrano to Madelon Harper Cowling for \$60,000. KNOG operates on 1340 kc with 250 w. Broker was Wilt Gunzendorfer & Assoc.

APPROVED • The following transfers of station interests were among those approved by the FCC last week (for other commission activities see For THE RECORD, page 92).

WONE-AM-TV, WFIE (FM) Day-

BROADCASTING, June 12, 1961

ton, Ohio: Sold by Ronald B. Woodyard, Lauren M. Berry and associates to Brush-Moore Newspapers Inc., for \$1,650,000 and agreement that Mr. Woodyard and D. Tatum will not compete for 10 years, payment being \$165,-000 and \$55,000 respectively and their employment as consultants for five years at \$25,000 and \$5,000 respectively. Brush-Moore owns WHBC-AM-FM Canton, Ohio, and WPDQ Jacksonville, Fla., and publishes newspapers in Ohio, Maryland and California. WONE-TV (ch. 22) has been dark since 1954.

• KOPY Alice, Tex.: Sold by Leon S. Walton to Norman Building Co. for \$200,000. Buying group is headed by Robert N. Aylin.

• KCIN Denver, Colo.: Sold by Don W. Burden and Dorothy F. Storz to TV Denver Inc. (KBTV [TV] Denver) for \$200,000 and agreement that Mr. Burden not compete for 10 years.

Medical Tv Network formed

The formation of Medical Tv Network Inc. was announced last week by Teleglobe Pay-Tv System Inc., New York. The new company plans to use a tv channel assigned to one of the New York tv stations in the early morning time periods (7:30-8 or 8-8:30), in advance of the station's regular sign on time for a regular series of professional lectures and demonstrations to physicians. A spokesman said that as soon as arrangements are completed with one of the New York stations, the new company will apply to the FCC for authorization. Physicians will be charged a monthly subscription fee to cover the costs of a special portable tv set and its servicing and for the programming.

TPT buys three catv systems

The TelePrompTer Corp., New York, announced last week the purchase of three community antenna tv systems, serving approximately 5,200 homes, for a sum in excess of \$1 million. The new acquisitions, bringing TPT's catv subscriber list to more than 20,000, are: Pacific Telescription System, Santa Cruz, Calif. (3,100 customers); Community Cable Tv, Coquille, Ore. (1,300 subscribers); Cableview of Springfield, Ore. (750 customers). TPT owns six other catv systems-in Liberal, Kan.; Eugene, Ore.; Rawlins, Wyo.; Farmington and Silver City, both New Mexico, and Elmira, N.Y. In addition it is participating in a jointly-owned venture with Henry J. Kaiser in an underground cable system at the Kaiser resort development of Hawaii Kai near Honolulu.

Media notes...

New radio affiliates • ABC Radio's newest affiliates announced last week included: WHYS Ocala, Fla.; WLNH Laconia, N. H. and WMRT Lansing, Mich. WHYS, owned and operated by radio station WHYS, operates with 5 kw on 1370 kc, and R. L. Bowles is general manager. WLNH, owned and operated by Northern Broadcasting Corp., with Arthur Rothafel as general manager, operates with 500 w ton 1350 kc. WMRT, owned and managed by Herbert T. Graham, operates with 500 w on 1010 kc.

Honored • The Sinclair Refining Co. was honored by WFAA-AM-FM-TV Dallas, for its outstanding contribution to public service and educational television programming, through the series of intercollegiate debates, *Young Ameri*ca Speaks, carried on WFAA-TV.

Critic • A total of 36 stations took part in the live program during which Texas Governor Price Daniels commented critically on the work of that state's legislature which recently adjourned. Originating at KTBC-TV Austin, Gov. Daniels presented a 15 minute summary and then subjected himself to questioning from AP, UPI and KTBC-TV newsmen for a similar amount of time. Single rate card • WHAT Philadelphia, Negro programming station, has announced a single advertising rate card, effective immediately. The station says it will guarantee at least 15 minutes between competitive spots and that no triple spotting would be practiced.

On the air = KOA-FM Denver went on the air June 1, duplicating the programming of its companion station KOA. The new affiliate, at 103.5 mc with 57 kw, is on the air from 7:15 a.m. to midnight every day.

Thanks - The Danny Thomas Award of Merit has ben presented to KIOA Des Moines, Iowa, in recognition for its "outstanding" fund raising job for Alsac's St. Jude Hospital project to aid leukemia stricken American children. The station collected over \$8,000 for the fund. Disc jockey Chuck Hamilton broadcast for more than 85 consecutive hours during the marathon appeal.

CBS affiliate • KBLL-TV Helena, Mont., owned and operated by Helena Tv Inc., is a new interconnected affiliate of CBS-TV. The station (formerly KXLJ-TV) previously was a satellite of KXLF-TV Butte, Mont. Bruce Hamilton is general manager of the ch. 12 outlet.

3 Western States VHF TV Stations For Sale !

1. Major network TV affiliate plus fulltime radio station. Combined annual gross \$170,000-plus. Absentee-owned. Sale includes two buildings and 50 acres of land. Total price \$305,000 with \$60,000 down and attractive terms.

2. Total price of \$150,000 buys all fixed assets of single station market VHF. Possible financing help available on \$100,000 down payment.

3. 60% of VHF station in market of over 100,000 available for \$150,000 with \$75,000 down and balance over five years.

Another raking over the coals for tv

SENATE HEARING SEEKS TO FIND TIE-IN WITH JUVENILE DELINQUENCY

The television industry was pictured last week as programming a constantlyincreasing number of crime and violence shows in defiance of its own codes and without regard for the possible harmful effects on youthful viewers. The industry's only concern, according to this view, is ratings.

This unflattering picture was drawn by the Senate Juvenile Delinquency Subcommittee Thursday as it opened its hearing on the possible connection between tv crime and violence programs and the rising incidence of juvenile delinquency.

Subcommittee Chairman Thomas Dodd (D.Conn.) said that the television industry, during a similar hearing six years ago, had told his committee it had — and would use — its own machinery to regulate itself with regard to good taste.

But since then, he charged the number of crime-and-violence shows has "dramatically increased." A staff report indicated that their number had tripled in the last seven years, from 16.6% of the total programming time to 50.6%.

He said the argument that the public wants action-adventure shows does not justify such an increase. "We don't need ratings to prove that millions of people want to gamble, that millions of people keep prostitution, the rackets and other social evils flourishing through their active support of these pursuits," he said. "But we have determined that these desires are inimical to the greater good and have . . . taken steps to regulate, control or eliminate them."

Lions and Ratings • "We must determine," he continued, "if this gigantic new medium is not allowing similar human weaknesses to dictate its policies and drag it into the same category as the violent Roman spectacles of 2,000 years ago, which also had 'high ratings.'"

The chief exhibit at the opening session was a filming of the initial episode in the new NBC western series, *Whispering Smith*, starring Audie Murphy. Though the acoustics in the hearing room weren't ideal, the episode's message came through.

The film featured a whip-wielding widow who had raised her son and daughter with one thought in mind to kill Deputy Whispering Smith. In it, mother whips son, daughter plays badger game on deputy, deputy shoots son and mother, accidentally, shoots daughter.

The subcommittee felt that the moral expressed at the end—that a mother should rear her children to love, not hate—was small comfort to those who feared that what had gone before was unnecessarily brutal.

Industry representatives, however, disagreed. The executive producer of the series, Richard Lewis, of MCA's Revue Studios, said it was in the same "genre" as other westerns on television.

'Acceptable' Fare • And Carl Watson, director of NBC's broadcast standards division, said he thought the episode was "acceptable" under the network's own code. He said it was "pretty standard" tv fare.

Through one of its witnesses, the subcommittee conceded at the outset that there is no definite proof linking television to the zooming juvenile delinquency rate. But, said Dr. Peter Lejins, the parallel increase in crime shows and delinquency cannot be ignored.

Dr. Lejins, a professor of sociology at the U. of Maryland, said also the U. S. is "pretty much alone" in its hands-off attitude toward mass media. He said other countries believe government should be responsible for banning television shows and movies likely to affect children adversely.

But in answer to a question from Sen. John A. Carroll (D.-Col.), Dr. Lejins said official suppression is not available as a weapon to the U. S. government because of this country's traditions of freedom of speech and press.

The basis for the inquiry, according to Dr. Ralph J. Garry, a consultant to the committee, is "the fact that as many children watch Cheyenne, Laramie and Rifleman as view Capt. Kangeroo, Donna Reed and Father Knows Best.

This means, he said, that 1.5 million children under 6 watch *Cheyenne* and 3.5 million to 4 million under 17 watch *Malibu Run, Laramie* and *The Untouchables.* The last-named, he added, is seen by 1.5 million between 6 and 12 and by almost 3 million teenagers.

If only 1% of the children watching are affected adversely, he added, "we are concerned with 30,000 such children watching *The Untouchables.*"

In questioning industry witnesses, the subcommittee sought to determine how, why and by whom television programs are selected and scheduled, and whether any thought is given to the young viewers who will be in the audience for the programs.

Attempting to supply the answers were NBC vice president David Levy, who is in charge of programs and talent, and Peter B. Kenney; and Wes Harris, program director of WRC-TV Washington.

The hearing resumed Friday, with testimony being taken from ABC officials. It is scheduled to continue Tuesday and Thursday.

An array of charts at last week's hearing was used to support the charge that the amount of tv crime and violence has increased in recent years. The dark boxes on these charts represent the action-adventure programs the subcommittee says were shown in Washington, D.C., in 1954 and this year.

THE BOLLING CO. INC.

NBC-RKO DEAL PARTIES ASK CLARITY

All five question issues, four indicate they'll participate

Respondents to the FCC's hearing order in the multi-faceted NBC-RKO General Inc. transactions and related applications and pleadings (BROADCAST-ING, May 1) slapped back at the commission last week for allegedly being ambiguous in failing to define hearing issues clearly.

ł

All parties in the five-sided hearing order except Crowell-Collier Broadcasting Co. announced plans to participate. Crowell-Collier maintained that any issues in the forthcoming hearings should not include a determination of that multiple-station owner's character qualifications.

The proceeding originated as a result of a consent decree whereby NBC was required to dispose of WRCV-AM-TV Philadelphia. Subsequently, the network (1) contracted to exchange WRCV-AM-TV for RKO's WNAC-AM-FM-TV Boston; (2) sold WRC-AM-FM-TV Washington to RKO for \$11.5 million; 3; NBC affiliate KRON-TV San Francisco-Oakland for \$7.5 million.

Crowell-Collier became involved when it purchased RKO's WGMS-AM-FM Washington for \$1.5 million. The other parties to the proceeding are Philco, which has applied for WRCV-TV ch. 3; NBC affiliate KRON-TV San Francisco, which has applied for WRC-TV ch. 4 Washington, and Westinghouse Broadcasting Co., whose WBZ-TV Boston also is affiliated with NBC.

Crowell-Collier Answer In two separate filings, Crowell-Collier answered FCC charges that broadcasts on KEWB San Francisco and KFWB Los Angeles have incited public alarm or that the latter station has been guilty of programming in vulgar language or bad taste.

The first charge concerned a spot campaign on the stations attacking California narcotics laws and was highly commended by the California Assembly, law enforcement officers, municipal governments and civic groups, C-C stated. In answering the bad taste charge, C-C outlined in detail its policies and controls to prevent such occurences and added that it's difficult to reply without specific charges.

C-C surmised that because of a 1959 inquiry, most of the complaints centered principally on one KFWB program. The reply covered extensively the broadcast background, including network service, of the master of ceremonies of the program and his continuous activities in civic and community enterprises. C-C said that more than any other performer for the licensee, the man in question is sought out for personal appearances before church groups, PTA's and other or-

ganizations.

"It is inconceivable, we believe, that he would be requested regularly to make personal appearances before, and take a prominent part in, activities conducted by public service and educational institutions, youth organizations and similar groups if any significant number of persons regarded his radio appearances as being vulgar or in bad taste," C-C said.

The licensee pointed out that a potential fine of \$10,000 levied against its KDWB by the FCC for technical violations is the subject of an entirely separate proceeding.

KRON-TV, Philco Object • Both KRON-TV and Philco, which are seeking permits for tv stations on facilities NBC proposes to sell to RKO, objected to the taking of testimony on RKO's programming and other plans. Such information would be immaterial and would result in depriving Philco of a fair comparative hearing in the case of ch. 3 Philadelphia and KRON-TV for ch. 4 Washington, both respondents said individually.

Philco also asked the commission to include an issue relating to NBC's^{*} parent RCA's recent payola consent decree signed with the Federal Trade Commission. The matters raised by the FTC are important in determining the network's qualifications, Philco said. Philco also noted that it had amended its application for ch. 3 to include additional information on its financing plans, officers, directors and voting stock as requested by the commission.

RKO and NBC asked principally that the hearing issues be enumerated specifically. "If the commission fails to do this and frames broad issues which do not sharply define the scope of the hearing, not only will the parties be put to unnecessary burden and expense, but the hearing will inevitably be turned

FCC summer hiatus

The New Frontier has accepted the old and established custom of the FCC of conducting as little business as possible under the law during August.

Following a meeting Tuesday, Aug. 1, the commission will adjourn for the remainder of the month. In addition, no oral arguments or hearings will be held during August, the commission announced last week. At least one commissioner will be on duty during the annual hiatus to handle emergency and routine business. into one in which public interest considerations will be buried in the background," NBC said.

The network also maintained that there is no justification for inclusion of antitrust issues related to NBC-RKO, as the commission has proposed.

Pastore introduces Sec. 315 legislation

Sen. John O. Pastore (D-R.I.), chairman of the Senate Communications Subcommittee, last week widened the attack on the Communications Act's restrictions on political broadcasting.

He introduced a bill Thursday that would exempt candidates for President, Vice President, U.S. senator, U.S. representative and governor from the equal-time requirements of the Act.

His measure goes beyond that offered early in the session by Sen. Warren G. Magnuson (D-Wash.), chairman of the full Commerce Committee. The Magnuson bill (S 204) would only make permanent last year's suspension of Sec. 315 as it applies to presidential and vice presidential candidates.

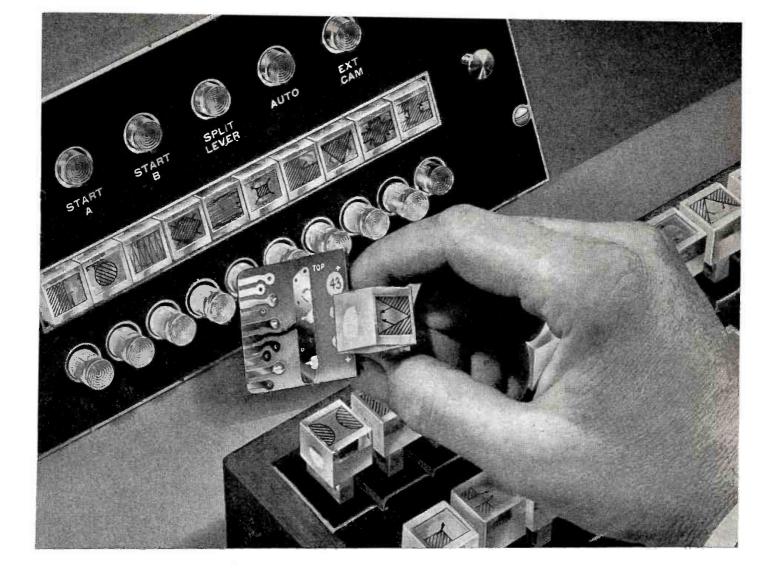

The introduction of the Pastore bill interrupted a Capitol Hill lull in the debate over Sec. 315's future. The Pastore subcommittee held a hearing in February on the Magnuson bill (BROADCAST-ING, Feb. 6), and in April the subcommittee's three-member Watchdog unit held one on alleged broadcaster bias during the 1960 campaign (BROADCAST-ING, April 3).

The Pastore subcommittee, which plans to continue its hearing on the Magnuson bill, has been awaiting the final report of the Watchdog unit, which is completing an exhaustive compilation of material bearing on the manner in which broadcasters covered the 1960 election. A spokesman for Sen. Pastore said his bill would be considered along with Sen. Magnuson's when the hearing resumes.

Matter of Timing Introduction of the Pastore bill follows an offer, by CBS President Dr. Frank Stanton, of free prime-evening time to candidates for key state and local offices across the country (BROADCASTING, May 29).

There is no need for prompt consideration of Sen. Magnuson's bill—its provisions wouldn't be applicable until 1964. But New Jersey will elect a governor in five months, and the candidates for that office were among those mentioned by Dr. Stanton in his conditional offer.

Sen. Pastore has indicated on several occasions he would favor complete repeal of Sec. 315. He has said he believes broadcasters can be trusted to deal fairly with candidates. But he feels that, as a practical matter, the shackles of Sec. 315 can be removed only gradually.

Now...pick an effect from more than 150 possibilities!

- 1

Here's the ultimate in convenience for selection and presentation of program effects—the all new RCA Special Effects System. Key circuitry for each effect is contained in plug-in modules. Any ten effects

may be pre-selected—simply plug ten modules into the control panel. Each module has illuminated symbol showing the effect it will produce. Slide an effect out—slide another in—it's just that easy. You get just the right effect to add that extra SELL to your programs and commercials.

See your RCA Broadcast Representative or write to RCA, Broadcast and TV Equipment, Dept. WB-22, Bldg. 15-5, Camden, N.J.

SIMPLIFIED CONTROL — Push-buttons put effects selection at your fingertips. Push the buttons below the illuminated symbol and you are ready to go "on-air." Wipes and transitions are controlled by a standard fader lever for simple foolproof operation.

UNLIMITED VARIETY—The complete complement of 154 special effects includes wipes, split-screens, picture insets, block, wedge, circular and multiple frequency patterns. In addition, the system will accept a keying signal from any camera source to produce a limitless variety of effects—inset letters, drawings, trademarks; self-keyed video insets, and traveling mattes.

THE BEST EFFECTS WITH LESS EFFORT—Mix color and black-and-white. Enjoy exceptionally clean transitions . . . the most exciting effects ever conceived ! And get them with the least amount of effort possible.

The Most Trusted Name in Television RADIO CORPORATION OF AMERICA

SRO AS KINGSTREE HEARING ENDS

Former co-owner testifies he sold out because of Walker

FCC Chairman Newton N. Minow's road shows may be in for further bookings judging by the big local box office response to the license renewal hearing of WDKD held in Kingstree, S.C. (BROADCASTING, June 5).

The last day of the hearing was held last Monday in a tiny room in the basement of the post office which can accommodate about 20 people. The adjoining room was crowded and the people there craned their necks to the open door. About 12 people stood in the corridor outside. In the room there was the hum of tv film cameras as WBTW (TV) Florence, S.C., and WCSC-TV Charleston, S.C., filmed portions of the proceeding for local newscasts.

Marion L. Few, half-owner of WDKD until 1956 and now operating a finance and loan company, testified that eight months before he sold his interest in the station he had fired Charlie Walker, the disc jockey whose allegedly off-color remarks precipitated the hearing. He said that Mr. Walker was back at work the next day however.

Mr. Few said his partner, E. G. Robinson Jr., the present licensee, had said many times that Charlie Walker was "an important business asset." Mr. Few claimed he had sold his interest because he was determined Mr. Walker would not be on the station and that Mr. Robinson was equally determined that he would.

Misunderstanding • Mr. Robinson, recalled to the stand later, said he had talked to Mr. Walker at that time and that the announcer said he and Mr. Few had had a misunderstanding. "I said 'Mr. Few owns 50% of this business and you straighten out your differences with him' "Mr. Robinson related.

Carroll Godwin, chief announcer of WCSC-TV Charleston and formerly with WDKD, said he had received mail from listeners complaining of Mr. Walker's off-color remarks. Mr. Walker was returning from Army service and the letters requested he not resume as announcer of the hymn-time program.

"Did they suggest Charlie Walker used language suggestive or susceptible to double meaning?" asked FCC attorney P. W. Valicenti.

"I believe the word they used was 'filthy'" Mr. Godwin replied. E. A. Kraemer, manager of Sears,

E. A. Kraemer, manager of Sears, Roebuck in Florence, S.C., said he had cancelled his spots on WDKD because of Mr. Walker's remarks and because of ad libs at the end of Sears' announcements.

The Walker show was considered by

64 (GOVERNMENT)

area broadcasters to be "degrading to the radio industry," according to Edward L. B. Osborne, president and general manager of WBCU Union and WAGS Bishopville and 1960 president of the South Carolina Broadcasters Assn.

"Walkerisms" • Examples of "Walkerisms" (a phrase coined by WDKD's attorney, Mrs. Lenore Ehrig) were introduced into the record as excerpts of the tapes made by WJOT Lake City, S.C.

• "I seen something last night that I wanted. I wasn't too bashful to go get it, I was just too smart. She had her husband with her . . ."

• "I used to go out with a gal cause she had plenty of loving but now I go out with her 'cause she's got plenty of patience."

• "It is you give me barbecued ice water and a green-eyed gal and I can go hard."

Noise distortion is the "scientific word for happy horse crud."

• "I can remember when I was a single boy. It is that my britches used to be wrinkled all the time too, but the reason my britches was wrinkled when I was single is because gals was always sitting on my lap . . . Man, times do change. Now what I got in 'em's wrinkled."

• "She don't mind marrying a stick of dynamite if he's got a long fuse."

At the conclusion of the hearing on Monday, FCC Examiner Thomas H. Donahue commended the attorneys on both sides for their conduct of the hearing. "It was not an easy case to try," he added.

Harris hears bill on agency ethics

Chairman Oren Harris (D-Ark.) of the House Commerce Committee opened a four-day hearing on his ethics bill (HR 14) for regulatory agencies last week with the observation that it "is one of the most important—if not the most important—pieces of legislation to be considered by this committee."

During the first three days of the hearing, spokesmen for the Civil Aeronautics Board, the Federal Power Commission, the Interstate Commerce Commission, the Securities and Exchange Commission and the Federal Trade Commission indicated they agreed. They endorsed the bills objectives though all had some reservations and suggested changes. The FCC was scheduled Friday (see AT DEADLINE).

The bill, an outgrowth of the old

House Oversight Subcommittee's inves tigation of the FCC and other regula tory agencies, would ban backdoor in fluences and *ex parte* communication and create a code of ethics for the agen cies and those who appear before them

Inquiries about the status of pendin cases would be permitted but the com missions could disqualify parties why try to make off-the-record contacts with members or employes. Certain viola tions would be punishable by up to on year's imprisonment and a \$10,000 fin or both.

Rep. Harris during the hearings las week asked agency chairmen and gen eral counsel to meet with him after the hearings to make the bill palatable to all agencies.

The seriousness with which Rep Harris views the situation his bill i. designed to treat was underlined in his opening remarks. "There's a job to be done here," he said, "but we can't go overboard to the point where orderly administration of agencies is affected."

He said the problem of reconciling the commissions' need for "judicia aloofness" with their need for gathering information is "vexatious." But unless steps are taken to solve it, he added the agencies are bound—in the future as in the past—to be rocked by periodic scandals.

The bill is identical to one approved by the Commerce Committee in the last Congress. That measure never reached a floor vote.

'Consultative' hearing set by antitrust group

FCC Chairman Newton N. Minow and Lee Loevinger, chief of the Justice Dept.'s antitrust division, will appear before the House Antitrust Subcommittee in a "consultative" hearing on Wednesday and Thursday June 14-15.

The congressional group, headed by Rep. Emanuel Celler (D-N.Y.), wants to learn what the commission and Justice have done to carry out recommendations contained in the subcommittee's 1957 report on the television industry.

The report dealt with the uhf problem and competitive tv, option time, long-term talent contracts, antitrust implications of multiple ownership, affiliate agreements, network must-buy and programming practices, music contracts and BMI, program tie-ins, AT&T line charges, network ownership of programs, the Westinghouse-NBC station swap and commission ethics.

The subcommittee will also discuss another of its reports with Messrs. Minow and Loevinger—one on the Justice Dept.'s consent-decree program. Issued in 1959, it is concerned mainly with the American Telephone & Telegraph Co.

Moulder unit okays \$25 million for etv HARRIS SUPPORT ENHANCES BILL'S CHANCES ON FLOOR

A federal subsidy for educational television was a step closer to reality last week. The House Communications Subcommittee, headed by Rep. Morgan Moulder (D-Mo.), approved a bill to appropriate \$25,250,000 in matching funds to the states for preparation of etv plans and acquisition and installation of transmission equipment.

The bill (HR 132), an amended version of one introduced by Rep. Kenneth Roberts (D-Ala.), is expected to get prompt and favorable consideration by the full Commerce Committee. It also stands a good chance of getting through the House. Chairman Oren Harris (D-Ark.) of the Commerce Committee is reported ready to give it full support.

The bill would amend the Communications Act but puts the etv program under the administration of the U.S. Commissioner of Education. He would decide whether to approve applications for funds and how much would be granted to a maximum of \$1 million for a state. His decisions would be based on availability of etv channels, the location of existing etv stations and on population density.

Amended by the subcommittee to include the views of the Dept. of Health, Education & Welfare, the Roberts bill differs in important respects from the etv bill (S 205) already passed by the Senate (BROADCASTING, March 27).

The Senate bill, authored by Chairman Warren G. Magnuson (D-Wash.) of the Senate Commerce Committee and identical to bills passed by the Senate in the two previous Congresses, would authorize a total appropriation of \$51 million, up to \$1 million for each state, and requires no state matching funds. It provides no funds for planning.

Bill's Provisions • The Robert's bill would make up to \$1 million in construction funds available to a state, but requires the recipient state to match the federal grant dollar for dollar. Secretary Ribicoff has expressed the view that only a minority of the states would require the maximum in federal aid on a matching-funds basis. The bill would also provide each state up to \$10,000 for surveys and planning, again on a maching basis.

HEW Secretary Abraham A. Ribicoff strongly endorsed the matching-funds and etv-planning provisions, which were in the original Roberts bill, in his appearance before the Communications Subcommittee last month (BROADCAST-ING, May 22). Under the Roberts bill, funds would be provided for the acquisition and installation of such equipment, as towers, microwave equipment, boosters, translators, repeaters, mobile equipment, and video recording devices, but not structures to house stations. The deadline for applying for the grants would be July 1, 1965.

Other key provisions, which reflect the thoughts expressed by Secretary Ribicoff in his testimony, would permit states to cooperate in planning interstate or regional etv facilities and allow for grants on a project-by-project basis, rather than state-by-state.

The Commissioner of Education, who would administer the federal aid program under the bill, would be required to base his decision on granting funds and "the amount of such grants" on criterial and priorities designed to achieve:

• Prompt and effective use of all remaining etv channels. (Of the 268 channels set aside for etv, 54 are in use.)

• Equitable geographic distribution of etv facilities.

• Establishing etv facilities "which will serve the greatest number of persons... and which are adaptable to the broadest educational uses."

The bill would also permit the federal government to recover a portion of the funds it grants a state if, within 10 years after completion of a federally subsidized project, the agency or institution receiving the funds ceases to function or the facilities no longer are used for educational television.

THE MINOW MIND

He gives views on networks, free time, diversification

Newton N. Minow, the outspoken chairman of the FCC, spoke out again last week. Before a luncheon meeting of the Woman's National Democratic Club in Washington, he said:

• That radio-tv networks and stations should be required to provide free time for political candidates on the national, state and local levels.

• That the FCC should have the authority to regulate certain network practices, such as balanced programming.

• That newspaper ownership of radiotv stations in certain markets is a "matter of grave concern" and destroys the whole concept of freedom in the dissemination of information.

• That the FCC has never censored programming and never will but licensees will be held strictly accountable for their promises.

• That the most serious long-range problem facing the commission is space communications.

• That children's tv shows are "such a waste."

"I can't see why broadcasters should profit from carrying political discussions," Chairman Minow told the Dem ocratic women during the featured panel discussion. "I personally thinl there should be mandatory free time They [stations] should have just com pensation for out-of-pocket expense in curred in such programs."

Mr. Minow said that he has no fixed ideas on-how much free time should be required and admitted he probably doe not have the support of a majority of the commissioners.

FCC, FTC money bill ratified by House

The House passed the independen offices appropriations bill last week which included \$12.4 million for fisca 1962 operations of the FCC and \$10 million for the Federal Trade Commission. The FCC appropriation represents an increase of \$611,000 over the amount appropriated for the current fiscal year ending June 30, but is \$125,000 less than the figure asked by the President.

An accompanying report from the Appropriations Committee noted that the increase will permit the addition of 50 employes with at least 20 for the Broadcast Bureau. The report also urged the FCC to hire three additional hearing examiners.

The Trade Commission received a whopping increase of \$1.99 million over its fiscal 1961 appropriation from the House. Of 230 new employes authorized. 10 are to be hearing examiners and over 60 are to be added to the agency's compliance division.

The measure now goes to the Senate for further action. Hearings are scheduled to begin on the House-passed USIA fiscal 1962 appropriation of \$134.7 million before a Senate subcommittee June 20 (BROADCASTING, June 5).

Payola deadline extended

At the request of the Motion Picture Assn. of America, the FCC last week granted interested parties an additional 10 days to comment on rulemaking to outlaw payola on radio and tv. Comments originally were due today (Monday); the new deadline is June 22, and for replies, July 3.

The rulemaking would implement Sec. 317 of the Communications Act, as revised by Congress last summer, and a new Sec. 508. The proposed rules (Docket 14094) extend commission authority to cover feature-length motion pictures produced after Sept. 13, 1960. They require announcements in cases where any payment of money or other valuable considerations were made in return for product mentions.

NAB last week asked for an exten-

ion of the present June 19 deadline for comments on a related rulemaking Docket 14119) which requires that dentifying announcements be aired if ny broadcaster has an interest in a roduct which is promoted on his own adio-tv facilities or network. NAB, in sking that comments be accepted unil July 10, said some of the plugola xsamples cited by the commission conain inconsistencies and are subject to nultiple interpretations.

Sale of WJPB-TV stock nay be approved again

The sale of 50% of WJPB-TV Weson, W. Va., by J. B. Beacom to Thomas . Johnson (47.5%) and George W. Eby (2.5%) looks as if it is going to e approved. The FCC last week isued instructions to its staff to prepare apers affirming the transaction, origially approved in February 1960. This vas protested by WBOY-TV Clarksburg, W. Va., and the earlier approval vas set aside. In the hearing the comnission looked also into allegations of inauthorized transfer of control. This was based on the transfer early in 1960 of 36.74% to Mr. Johnson and 3.01% o Mr. Eby. An initial decision favored re-approval of the 50% transfer (BROADCASTING, March 6). Last week's action is subject to a final FCC vote.

MST OPPOSES DEINTERMIXTURE PLEA

Association's filing reflects alerted policy

The Assn. of Maximum Service Telecasters and several individual tv stations filed comments with the FCC last week opposing a petition by the Committee for Competitive Tv urging that the commission move rapidly on deintermixture.

Specifically, CCT asked that the following nine markets be made all uhf through the deletion of existing vhf allocations (BROADCASTING, May 8): Montgomery, Ala.; Hartford, Conn.; Champaign-Urbana, Ill.; Evansville, Ind.; Binghamton, N. Y.; Erie, Pa.; Lancaster - Harrisburg - York - Lebanon, Pa.; Columbia, S. C., and Madison, Wis. MST maintained the CCT petition

MST maintained the CCT petition should be dismissed without consideration for "substantial and material failure" to comply with commission rules. If not dismissed, it should be denied because the petition does not contain a single fact to support its contentions.

The MST comment represents a departure from the past policy of the association, which heretofore has limited itself primarily in FCC proceedings to proposals which would result in a breakdown of mileage separations. In replying to CCT, MST came out strongly against deintermixture as "wholly inconsistent with . . . a sound approach to tv allocations in the public interest. . . . MST requests that the commission otherwise not give any further consideration to deintermixture as a policy . . . "

According to MST, deintermixture would deprive the public of existing wide-area service; waste valuable vhf frequencies; weaken vhf; and "would advance private interests at the expense of the public interest."

Also opposing the CCT proposal were ch. 6 WNOK-TV Columbia, S. C.; Ch. 3 WISC-TV Madison, Wis., ch. 8 WGAL-TV Lancaster, Pa., ch. 3 WCIA (TV) Champaign, Ill.; ch. 3 WTIC-TV Hartford, Conn; ch. 10 WIS-TV Columbia, S. C.; ch. 12 WSFA-TV Montgomery Ala., and the Triangle stations. Ch. 40 WINR-TV Binghamton, which has asked the FCC to assign ch. 4 there, said the commission should act with haste to make Binghamton either all vhf or all uhf.

In a separate rulemaking, MST and ch. 3 WRGP-TV Chattanooga, Tenn., opposed a petition by Voice of Dixie Inc. asking that ch. 3 be allocated to Birmingham. Both pointed out that such an assignment would result in short separations from WRGP-TV and co-channel WRBL-TV Columbus, Ga.

BROADCASTING, June 12, 1961

EVERYBODY'S IN FCC ACT

Sen. Pastore introduces bill; Rep. Harris sets hearings; House showdown on Kennedy plan seen

FCC reorganization developments popped all over Capitol Hill last week.

Chairman Oren Harris (D-Ark.) of the House Commerce Committee announced he will hold a subcommittee hearing this week on his bill (HR 7333) to permit the commission to delegate all of its functions and to eliminate the mandatory right of review in FCC cases. On the Senate side, Sen. John O. Pastore (D-R. I.) introduced a similar reorganization measure he said was drafted "with the full cooperation" of the FCC.

And on the House floor Thursday, Rep. H. R. Gross (R-Iowa) created a flurry of excitement when he unexpectedly sought to call up the President's FCC reorganization plan for a vote. Since the matter had not been scheduled, the House shouted his motion down, with even the House Republican leadership voting against him.

The independently-acting Iowan, however, succeeded in eliciting a promise from Rep. Harris and Rep. William L. Dawson (D-III.), chairman of the House Government Operations Committee, that they'll seek a House vote on the plan this week. With the House leadership opposed to the plan and Rep. Dawson's committee having recommended its rejection, its defeat is considered almost certain.

The hearing on Rep. Harris' bill will be held Tuesday, Wednesday and Thursday, by his Regulatory Agencies Subcommittee. The FCC and Leonard Marks, former head of the Federal Communications Bar Assn., were the only witnesses listed at week's end.

New One = The latest entry in the FCC-reorganization derby, the Pastore bill (S 2034), has three main sections which resemble key features in both the Harris bill and the President's plan.

• It would permit the commission to delegate all functions, including those involving adjudicatory matters.

• It would eliminate litigants' right to mandatory review by the full commission.

• It would abolish the commission's opinions and review staff.

But in two respects the Pastore bill goes farther than the Harris measure in meeting objections of those who opposed the President's plan.

1. It says nothing about transferring to the chairman the power to assign commission personnel to tasks. The Harris bill would authorize the chairman to assign work to anyone except the commissioners. The President's plan, which has been denounced on the ground that it would grant the chairman unwarranted power, excludes no one from this authority to assign work.

2. Although eliminating the right to mandatory review, the Pastore bill would permit litigants in adjudicatory cases to file exceptions which either the commission or the staff member to whom the matter had been referred would be required to pass on.

Neither the President's plan nor the FCBA, as well as several members of the FCC, opposed the President's plan because it lacked such a feature.

Free Advisors = Both the Harris and and Pastore bills, however, go further than the President's plan in one respect. They would eliminate a section of the Communication Act which prohibits the commission from consulting, in adjudicatory matters, with the offices of the general counsel, chief engineer or chief accountant. Only those staff members who actually engaged in the preparation of a case would still be prevented from discussing such cases with the commission.

Commissioners have complained about the present prohibition ever since it was written into the Communicaions Act in 1952. They feel it denies them the staff assistance they need.

Sen. Pastore said his bill was worked out with "the full cooperation of the commission and has the agreement of all seven commissioners." During a hearing on the President's plan before his Communications Subcommittee last month, Sen. Pastore had requested the commission to present a reorganization measure all its members could support (BROADCASTING, May 29).

Sarnoff urges relief from Sec. 315 'yoke'

NBC Board Chairman Robert Sarnoff appealed to a Senate Subcommittee last Friday (June 9) to remove the "equal time yoke . . . across the political board" and at the same time hit "discriminatory" proposals which would require broadcasters to give political candidates free time.

In a statement prepared for delivery before the Subcommittee on Privileges & Elections of the Senate Rules & Administration Committee, Mr. Sarnoff urged Congress to take immediate action on outright repeal of Sec. 315 of the Communications Act. The subcommittee began a second round of hearings Friday on several bills relating to all phases of politicking.

The NBC chairman said that Sec. 315 represents the barrier which prevents

radio and tv from making the most effective contribution possible toward political campaigns. Equal time requirements should be repealed immediately, he said, so that the American people who will be going to the polls several times before the next presidential election can have candidates and issues presented to them as effectively as possible "untrammeled by needless restraints."

Broadcasters demonstrated during the 1960 suspension of Sec. 315 for the presidential campaign that benefits to be derived from outright repeal are not just conjecture, Mr. Sarnoff said. "The equal time restriction should be lifted across the political board so that the debate technique may be applied, along with other expanded broadcast coverage, to any election for public office," he stated. Mr. Sarnoff renewed his pledge, made last fall, that NBC-owned stations will seek out candidates in local and state elections for debates.

Discrimination The purchase of time is only one of many costly campaign expenses, Mr. Sarnoff said, in attacking proposals to require free time for candidates. To discriminate against broadcasting on the grounds stations use the public airwaves and are licensed by the FCC cannot be justified, he maintained. "What would be expropriated is the use of costly facilities, manpower and other resources representing the investment and expense that have created a service where none existed before."

KTTV comments to FCC on L. A. etv problem

KTTV (TV) Los Angeles last week suggested that the seven commercial vhf stations in that city join forces to raise funds to purchase one of the seven outlets at a fair market price—for conversion into an educational tv station.

Until this could be accomplished, the Los Angeles Times-Mirror's KTTV said, the seven area stations should alternate in devoting a day's broadcasting time to etv. KTTV's views were presented to the FCC in the latter's inquiry into methods by which a vhf channel in Los Angeles and New York could be made available to etv. Deadline for commenting on the proposal has been extended to July 6 (BROAD-CASTING, June 5).

The station urged the commission to take steps to encourage negotiations between one of the Los Angeles stations and an educational group capable and ready to buy at a fair market price. This could be done, KTTV said, through FCC assurances that sale negotiations would not prejudice the existing licensee's right to retain his license and a promise not to delay any proposed transfers by reason of the pendency of the present inquiry.

The Third Degree of a Buyer of Time*

Special Report to Broadcasters: Under questioning, subject admitted holding such varied titles as Time Buyer, Media Director, Account Executive or Space Buyer in advertising agencies, Sales Manager, Sales Promotion Director or Advertising Manager in advertiser companies. Most Significant: Confesses to handling in 1960 an average of \$287,341 in Spot Radio, \$922,426 in Spot TV as an agency man. Also has a 1960 record of handling an average of \$119,154 in Spot Radio, \$348,399 in Spot TV as an advertiser. Says he will probably spend as much or more in '61.

Recommendation: A campaign to tap this Buying Power concentrating on those who buy or influence the purchase of advertising in Media/scope.

* Editor's Note: "A Buyer of Time" is a collective designation here for Media/scope readers who buy time, regardless of title or position in agency or advertiser company. Among Media/scope agency readers alone, 73% buy Spot Radio Time and 65% buy Spot TV Time. "The Buying Power of the Media/scope Audience,"—a study conducted by Market Facts, Inc .- clearly delineates these and other facts such as what media Media/scope readers buy; how much, in dollars, they buy; how involved they are in the various phases of the media-buying decision; what is the approximate size of their agency billings and advertiser appropriations; and how much media they will buy in 1961. For full information about this important study, write or call your nearest Media/scope office today.

If it's in works, boss doesn't know it

KENNEDY DISMISSES NEWSPAPER OWNERSHIP QUERY

Attorney General Robert F. Kennedy told a group of newspaper editors and publishers last week he is not aware of any case under study at the Dept. of Justice looking toward the possible divestiture of radio or tv stations by newspaper owners.

The disclaimer came after questions were asked of Mr. Kennedy by delegates attending the second annual UPI Editors and Publishers Conference in Washington last week.

Mr. Kennedy said there is no policy against such joint ownership, but said facetiously that if anyone knows of any case where the antitrust law is being violated he should inform the Dept. of Justice.

The editors and publishers were told about such a "threat" earlier in the conference by Herbert G. Klein, editor of the San Diego (Calif.) Union. "The Justice Dept. has not started action to break up group ownership of newspapers and television," the news secretary to former Vice President Nixon said, "but it has not denied interest in the subject." This is the second time Mr. Klein has warned of such an impending action.

Censorship Threat • Of major concern to the UPI delegates was the threat of censorship initiated by President Kennedy in his talk to newspaper publishers and editors last April.

This menace was stressed by both Mr. Klein and Sen. Barry Goldwater (R- Ariz.), who also spoke to the conference.

President Kennedy, however, told the conferees last week: "There is no proposal that the federal government or the national government take any action in that area."

Court reverses FCC in cut-off date case

You can't close the barn door if the horse belongs inside. This is what, in substance, the U.S. Court of Appeals in Washington ruled in a radio case last week involving the right of an applicant to be joined in a hearing for a new am station—even though his application was filed months after the cutoff date for new applications or amendments.

A unanimous three-judge court said that Ridge Radio Corp., applicant for 1350 kc at Windber, Pa., could not be denied its right to a hearing even though it filed its application almost three months after a Sept. 4, 1959 cutoff date.

The court emphasized that there was no way for Ridge to know that it had to meet the Sept. 4, 1959 deadline from the FCC notice of July 30, 1959. This listed 50 applications which the commission considered ready for processing by Sept. 5 of the same year. WKRZ Oil City, Pa., was one of these.

Early in January 1960, the FCC notified 39 applicants (of the 50 in the block announced July 30, 1959) that

a hearing would have to be held. Amony these was WKRZ, seeking an increase of power on its 1340 kc. Included it the hearing order was WCVF Connelis ville, Pa., also seeking an increase in power on 1340 kc. WCVF had filed its application on August 25, 1959, wel within the Sept. 4, 1959 cutoff date Because WCVF was named a party it the hearing, the FCC found it necessary to also name as participants in the hearing the pending applications of Goscc Broadcasters and Windber Community Broadcasting System for 1350 kc a: Windber. Gosco had been on file since May of 1959; Windber sice Sept. 4 of that year.

Ridge's request also to be includec in this hearing was denied by the FCC on the ground it had filed its application after the deadline.

Ridge had no conflict with WKRZ, the court said, and therefore had nc reason to meet the cutoff date. The notices of the cutoff procedure, the court said, must be clear enough to warn prospective applicants, or those already filed but who are contemplating amendments, that they must check not only the listed applications but also those pending with which they might be in conflict—unto the third, fourth and even fifth degree.

The FCC, spokesmen said, already has taken action to tighten up this oversight. All applicants and prospective applicants have been warned for the past nine months that they must check not only those applications in the cutoff list, but all pending applications which might be in conflict with a particular application on the list.

EQUIPMENT & ENGINEERING

PARAMOUNT UNVEILS COLOR TV SET

New unit boasts price 25% lower than present models

Add Paramount Pictures Corp. to a growing list of companies soon to bring out new color tv receivers on a mass distribution basis. Paramount, at its annual meeting June 6 in New York, demonstrated two prototypes of its own color sets, and announced that negotiations are underway to license one of three unidentified major tv set makers for commercial production, to start within a year.

Among the competitive advantages Paramount attributes to its single-gun tube color receiver: a price 25% below present starting prices (RCA's \$495 set); a smaller size, and improved brightness for both color and black-and-white pictures.

The color tv development, Paramount's pay tv activities and its recent acquisition of 50% ownership in Talent Assoc. overshadowed the company's report on motion picture business, which Barney Balaban, president, was quick to say is "still basically the business" of Paramount.

Mr. Balaban told the large shareholder assemblage that dissatisfaction with results of Paramount's 1960 entry into production for television led to the association with the "truly professional and experienced" Talent Assoc. organization, which is headed by Alfred Levy and David Susskind. Mr. Susskind, in a brief talk to stockholders, said CBS-TV has accepted three new programs for the 1962-63 season. He said scripts and pilots for two one-hour shows and one half-hour show were authorized. Talent Assoc. last week completed the taping of "The Power and The Glory, a two-hour special scheduled for showing next season on CBS-TV.

In his report on Paramount's "pioneering" of pay tv, Mr. Balaban said that its wholly-owned subsidiary, International Telemeter Co., in September 1960 achieved the "phase 1" objective of about 6,000 subscribers at its largescale experiment in Etobicoke, near Toronto, Canada. "Since then," he said, Telemeter has been developing a "good deal of basic information about various aspects of this new medium." He said the Etobicoke operation "does not offer a valid base for profit and loss determination.

Mr. Balaban said that even in Telemeter's early stage and with limited programming some trends are discernible. For example, the creation of a new audience of movie viewing via the home box office of pay tv. He remarked that the movie "Psycho" played on Telemeter fully two weeks after it had completed runs at both local theatres and yet was purchased by about 47% of the subscribers.

Paul Raibourn, Paramount vice

president, who unveiled the new color tv set, said the basic difference between Paramount's set and those now on the market is that the chromatic color selection in the Paramount set is "almost entirely made by electromagnetic voltages inside the tube and a single cathode ray gun is used." Sets presently on the market use three guns so related in space that the selection paths in the tubes, when adjusted by external components, reach the proper color, and, "sets so far offered for sale lack brightness."

For purposes of comparison, the Paramount sets were demonstrated on either side of a \$309 Zenith black and white tv receiver. Mr. Raibourn said that the cost of the Paramount set would be between 1.7 to 1.9 times that of the Zenith set under production of 50,000 to 100,000 sets per year and under experienced mass production of 500,000 sets per year, costs could get down to 1.3 to 1.4 times the Zenith set. Autometric Corp., a Paramount subsidiary, produced the color units, using the Chromatic tube proposed some years ago by Dr. Ernest Lawrence.

General Electric and Zenith are other major companies to announce entry into color tv manufacture, with market distribution to start this fall.

Jerrold '60-'61 revenue totals \$11.9 million

Operating revenues for the Jerrold Electronics Corp., Philadelphia, manufacturer of community tv system and other equipment, totaled \$11,935,899 for the fiscal year ending Feb. 28, the firm reported last week. This is a 42% increase over the 1959-60 fiscal year revenues of \$8,416,750.

Net income after taxes, including a special credit, amounted to \$3,086,085 (\$1.64 per share) on an average of 1,884,569 outstanding shares during the 1960-61 year. Of this, \$2,837,212 (\$1.51) represented net gain from the sale of Jerrold's nine catv systems last year (to H&B American Corp. for \$5 million). Net income and a special credit after taxes in the 1959-60 fiscal year totaled \$810,251 (67 cents per share); of which \$283,656 (23 cents) represented non-recurring income.

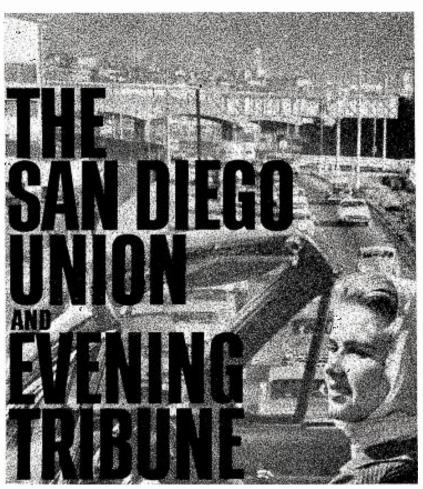

Technical topics...

Thin Man mike • Electro-Voice Inc., Buchanan, Mich., has introduced its "Thin Man" mike, Model E-V652, a non-directional, voice-range microphone with a 24-inch semi-rigid neck. A oneeighth inch tubing allows freedom of movement for the microphone in all directions. It also is available with a 15-inch neck (Model 652A). Both models come complete with Model 300 stand adapter and 20-foot, three-conductor, rubber-jacketed broadcast cable.

Explosion The microwave terminal of the Kimball (Neb.) community tv system at Dallas was destroyed by the explosion of propane gas tanks May 19, but now is operating again, Collins Radio Co. reported last week. Collins' Texas division promptly shipped new three-channel terminal facility that was installed and operating May 30.

New dimmer = Kliegl Bros. Co., 321 W. 50 St. New York, has announced UL approval and availability of SCR dimmers in 4, 5 and 6-kw capacities, and 3, 10 and 12-kw models will be available in the near future. The dimmers, suitable for use in theaters, auditoriums and studios, feature self-contained cooling fans.

New distributor • Livingston Audio Products Corp., Caldwell, N. J., has become the sole distributor of the Livingeston tape line. A new catalog emphasizing its 4-track "100 Minute Series" is available. For information write: Livingston Audio Products Corp., 147 Roseland Ave., Caldwell, N. J.

New competition for late movies and 'Paar'

WESTINGHOUSE'S 'PM EAST' & 'PM WEST' BEGIN

Westinghouse Broadcasting Co.'s two-in-one answer to late-night movies, the Jack Paar Show and the constant call for imaginative programming will be launched tonight (June 12). It's tape syndication's biggest venture to date, a pair of companion programs totaling 90 minutes a night, five nights a week, and they're starting on the five Westinghouse tv stations and four others thus far committed on a syndication basis.

Donald H. McGannon, WBC president, expects that the total lineup for the programs may not exceed 10 or 15 top-market stations outside the WBC group—not because the programming lacks appeal but because tape, as yet, lacks the flexibility to make wholesale syndication practical. He estimates that the cost of tapes for 15 stations, including WBC's five, will come to about \$125,000 a year when the expenses of duplication, packaging, transportation, return transportation and inspection are all added up.

The programs, to be presented backto-back in late evening time Monday through Friday, are *PM East* and *PM West*. Mike Wallace is host of *PM East* and Joyce Davidson is feature editor. The program originates in New York, is 60 minutes long and runs to interviews with both name and littleknown personalities, panel discussions, on-location features and similar treatments of so-called "idea subjects." Terrence O'Flaherty, syndicated tw columnist of the San Francisco Chronicle, is host on the 30-minute PM West, which originates in San Francisco and will deal chiefly with places, personalities and performances by entertainers.

Dick Pack, WBC programming vice president, describes the shows this way: *PM East* explores a single theme each night via performing talent, roundtable discussion, interview, remote segments on location and prepared narrative. *PM West* investigates the sight and sound of San Francisco, its folkways, its color, its pioneer spirit, its emergence as America's most exciting city.

Thoroughly Planned • "Both programs are about people, famous and obscure but all interesting to the viewer. Except for the actual texts of the interview and discussion segments, the twin shows are thoroughly planned, designed for intimacy between studio and home. There are no orchestral cues and fanfares, no studio audience, no stage setting to raise a barrier between the one or two faces on the tv screen and the other half of the conversation, the home viewer."

Messrs. McGannon, Pack and associ-

ates do not regard the two *PMs* as signifying either dissatisfaction with feature films (which they replace on the WBC stations) or desire to compete with NBC-TV's *Jack Paar*.

Mr. McGannon estimates that through existing libraries and new purchases the WBC stations could have continued with feature films in these late-night periods for a "reasonable" distance into the future—probably 18 to 24 months. But he says WBC also realized that "sooner or later" it would have to face the problem of finding new programming—"and we'd rather do it sooner, when we have the luxury of time in which to work on it, than later when we wouldn't."

In addition, he said, WBC felt that

Sample. June 17 (10-10:30 a.m.) The Shari Lewis Show, Nabisco through Kenyon &

Eckhardt. June 17 (10:30-11 a.m.) King Leonardo and His Short Subjects, General Mills

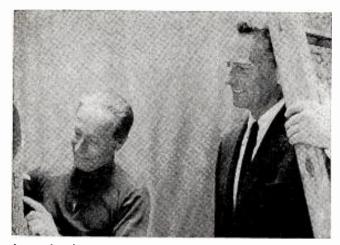

and His Short Subjects, General Mills through Dancer-Fitzgerald-Sample. June 17 (7:30-8:30 p.m.) Bonanza, RCA

through J. Walter Thompson. June 18 (6-6:30 p.m.) Meet the Press,

co-op. June 18 (7-8 p.m.) The Shirley Temple Show, Nabisco through Kenyon & Eckhardt.

June 18 (9-10 p.m.) The Chevy Show Chevrolet through Campbell-Ewald.

June 19 (10-11 p.m.) The Accomplice. Purex through Edward Weiss.

Appearing in the first week of WBC's new late-night shows will be sculptor Beniamino Bufano (I. picture) on the

Wed., June 14 installment of 'PM West,' shown talking with host Terrence O'-Flaherty. On 'PM East' will be Pulitzer Prize winner Fred Cook (r. picture) who will be interviewed by Mike Wallace and feature editor Joyce Davidson.

this late-evening period offers both an opportunity and a challenge for the "innovation and creativity" essential to successful television programming today.

Refining and Building • Thus WBC started work on finding and developing the format some 18 months ago and has been refining and building it since then. The programs are produced through a new subsidiary, WBC Productions Inc., under the overall supervision of Ben Park as executive producer. They are taped several weeks in advance (subject matter is "topical but not perishable"), for presentation on all stations at approximately the same time (11:15 p.m. on WBC stations).

In addition to the WBC stations-WBZ-TV Boston, KDKA-TV Pittsburgh, KYW-TV Cleveland, KPIX (TV) San Francisco and WJZ-TV Baltimore-there are, at the start Metropolitan Broadcasting Co.'s WNEW-TV New York at whose studios *PM East* is taped, and WTTG (TV) Washington, plus WGN-TV Chicago and KTTV (TV) Los Angeles. Officials said negotiations were in progress with close to 20 other major market stations and indicated some of these were nearing the point where they could be announced.

The programs represent an invest-

ment of more than \$1 million a year but financial success is not dependent on syndication. Officials said they can be and if necessary will be continued on the five WBC stations alone at no more expense than is involved in programming the stations with feature films at the going rates for films.

The sales format calls for two 60-10-60 commercial insertions per half-hour —another factor which admittedly, along with the problems of duplicating and distributing tape, may tend to limit the extent of syndication. The commercial insertions provided in the tapes are fewer than the NAB Television Code permits, but WBC officials feel they permit a better "program flow" and yet enable the company to amortize its investment in the programs. It is the same sales format used by the WBC stations in programming feature films in this period.

Sales in *PM East* and *PM West* on the WBC stations are handled by TvAR, WBC-owned station representation firm. Sales in the programs on non-WBC stations are handled by those stations or their reps.

Show Participants • Indicating the tone of the new series, the first week's program's include appearances by Admiral Chester Nimitz, author William L. Shirer, producer Otto Preminger, historian Lucius Beebe, singer Sam Cook, comedian Jonathan Winters, and actor Sterling Hayden.

Each PM East will be devoted to a different theme around which all of the evening's features will be built. The opening night's program has an "anthology" theme and will include a visit by Joyce Davidson first to a race track and then to the operator of a school who teaches how to bet on horse races; an interview with Sam Cook, who also performs on the program; a talk with the inventor of the round hot dog at Coney Island; an appearance and performance by the writers of "Bye Bye Birdie"; an interview with a wartime comrade of the man for whom the controversial John Birch Society was named (who says Birch would never have joined the society); interviews with and performances by a nght club act and a singer, and an interview with Mr. Shirer, author of Rise and Fall of the Third Reich.

The opening *PM West* tours San Francisco's Golden Gate Bridge, Fisherman's Wharf, Chinatown, Coit Tower and the famed cable cars, and visits author Barnaby Conrad, jockey Billy Pearson and his new art gallery, Adm. Nimitz, sculptor Beniamino Bufano, cartoonist George Lichty, philanthropist-historian Beebe, and other West Coast personalities.

CBS Films production shuts down in Hollywood

CBS Films has closed its Hollywood production offices and will now operate only as a representative and distributor of outside-produced pilots and series.

Merle S. Jones, president of CBS-TV Stations Division and CBS Films, said last week the shift in emphasis was made because of a change in the buying pattern of programs for network series. The market potential is not worth the capital risk in pilots, he said.

CBS Films had increasing difficulties this year in offering its pilots for sale to networks. It produced four pilots, and though they reportedly stimulated advertiser interest, none won network acceptance. The shows included Max Shulman's comedy *Daddy-O; Mister Doc*, starring Dean Jagger; *Russell*, a half-hour western; and *Baron Gus*, starring Ricardo Montalban. Each cost an estimated \$70,000. An additional pilot, the *Bonnie Prudden Show*, is still being shown to agencies and advertisers.

In the new alignment, Robert F. Lewine, vice president in charge of CBS Films production, will continue to supervise programs. There reportedly will be personnel cutbacks in both New York and Hollywood offices, however.

The fifty billion dollar generation!

They're part of the "population explosion" you've read about.

In just 10 years, there will be some 30 million more Americans like them!

That's a big reason why you see huge new electric power plants going up all over the country. Giant power lines marching to the horizons.

And you'll be seeing more. An additional 50 billion dollars' worth in the next 10 years-built by the investor-owned electric light and power companies.

This is the way they meet their responsibility for power on a nation-wide scale. Plenty of power-for the increasing population-for the zooming needs of industry, farms, homes and defense.

A Preview of a More Powerful America Studies of the nation's future power needs have been published in a new booklet, which outlines the building program that will provide more power to meet them. The coupon below will bring you a copy, without charge.

New tv markets for good local programs

TRANS-LUX'S TAC TO OFFER MEMBERS BEST FROM OTHER STATIONS

Locally-produced television programs in cultural, informational and educational areas will be available to stations which join the newly-formed Television Affiliates Corp., New York, a tv subsidiary of the Trans-Lux Corp., New York [CLOSED CIRCUIT, June 5]. TAC hopes to deliver initial programs to stations by December 1961.

TAC's establishment was announced at a news conference last week by Richard Brandt and Richard Carlton, president and vice president, respectively, of Trans-Lux. Robert Weisberg, vice president of TAC, will head this operation.

The Criteria • The programs to be offered to member stations, Mr. Brandt said, must meet these established criteria: (1) they must be cultural, informational and educational; (2) they must be of high quality; (3) they must be regional or national in scope of interest, and (4) they must conform to NAB code standards.

A broadcast advisory committee, which attended the news conference, has worked with TAC officials in setting up program standards and in establishing pricing policies. The committee consists of Richard Borel, director of tv at WBNS-TV Columbus, Ohio, and chairman of the CBS-TV Network Affiliates Assn.; Eldon Campbell, vice president and general manager, WFBM-TV Indianapolis; Roger Clipp, vice president and general manager, radio-tv division of Triangle Publications, Philadelphia; Jack Harris, vice president and general manager, KPRC-TV Houston; David Moore, president, Transcontinent Television Corp., A Louis Read, executive vice president and general manager, WDSU-TV New Orleans; Norman Louvau, president and general manager, KCPX-TV Salt Lake City.

TAC's objectives are to make "the best" locally-produced programs of a cultural, informational and educational nature available to stations throughout the country; help develop and encourage local production and writing talent, and help provide a balance in local programming.

TAC in the next three months, will screen local programs. It aims to collect a library of approximately 100 shows. From Sept. 1 to Dec. 1, TAC will conduct its membership drive and hopes to enroll approximately 100 stations.

'Keep Fees Low' • Mr. Harris spoke briefly on behalf of the Broadcast Advisory Committee. He stressed that the committee has urged TAC to set membership fees as low as possible so a larger number of stations can afford the service. He said he feels there is a strong need for the type of programming TAC wants to make available and said members of the advisory committee are confident the project will be successful.

Present last week for the announcement of the establishment of Television Affiliates Corp. were (I to r) standing—Richard Carlton, vice president, Trans-Lux; Richard Brandt, president, Trans-Lux, and Robert Weisberg, vice president of TAC. Sitting are five members of TAC's seven-man broadcaster advisory committee: Richard Borel, WBNS-TV Columbus, Ohio; A. Louis Read, WDSU-TV New Orleans; Jack Harris, KPRC-TV Houston; Eldon Campbell, WFBM-TV Indianapolis, and Norman Louvau, KCPX-TV Salt Lake City. Committee members not shown are David Moore, Transcontinent Television Corp and Roger Clipp, radio and tv division, Triangle Publications. Mr. Weisberg made it clear that TAC is owned by Trans-Lux—that no financial interest in the organization is held by member stations, though the cooperative effort will enable TAC members to obtain "quality" programs at "fair and equitable prices."

Mr. Weisberg explained that one station in each market will have exclusive rights to programs obtained through TAC, but a producing station need not be a member. A published price list will be distributed in about a month, but it was learned the annual membership fee will range from approximately \$1,500 for smaller markets up to \$18,-000-\$19,000 for the top markets. Member stations may use the programs at their discretion.

The outlets which provide programs to the TAC library will be designated "producing stations." They will receive payment from TAC, the amount depending on the length of the program, the number of performances it receives and the size of the markets in which it is carried.

TAC will receive a management service fee of about one-half of the 35% that most distributors charge for handling a program. For example, if TAC's revenues for a year are \$200,000, TAC will be entitled to about \$38,000, plus expenses for overhead, which officials say, will be "modest" at the outset. The remainder of the funds will be distributed to producing stations, based on the amount of revenue they have earned under the performance formula.

Headquarters for TAC will be at the home office of Trans-Lux at 625 Madison Ave., New York, N. Y. Trans-Lux, through various subsidiaries, distributes programs to tv stations and motion pictures to theatres. The company also owns and operates 10 motion picture theatres in New York, Boston, Philadelphia, Washington and Detroit.

UAA offers 32 post-'50 films

A new package of 32 motion picture features released in the late 1950s is being offered to stations and advertisers by United Artists Assoc. beginning today (June 12). The group—including seven in color—is made up of United Artists releases.

Titles include "Legend of the Lost," "Paris Holiday," "Paths of Glory," "Alexander the Great," and "Twelve Angry Men" with such stars as John Wayne, Sophia Loren, Bob Hope, Anita Ekberg, Claire Bloom, Frederic March, Kirk Douglas and Henry Fonda.

FOR THAT "LIVE" LOOK, TAPE IT... on Scotch[®] BRAND Live-Action Video Tape!

"'Real-life" presence is the new TV look achieved by today's commercials using "SCOTCH" BRAND Video Tape. Until now, the home-viewer's picture has been an ingenious compromise—an optical medium shown on an electronic screen.

Not so with tape! "SCOTCH" BRAND Video Tape offers complete compatibility of picture source and picture—both electronic with a greatly expanded gray scale for gradual transitions from absolute black to absolute white. In addition, tape eliminates jitter, provides excellent sound quality and an "unlimited" number of special effects. It all adds up to cleaner, crisper originals of unswrpassed quality . . . with exceptional Video Tape duplicates and kines from master tapes.

"SCOTCH" is a registered trademark of 3M Company. @ 1961, 3M Co.

Tape has many advantages—for advertiser, agency, producer. Playback is immediate, serious goofs can be remedied at once by retakes. Special effects are made instantaneously . . . no lab work and waiting. Costs are competitive, savings gratifying.

Tape is easy to work with, no mystery . . . talented specialists

are available to help you. *Prove it to yourself!* Send your next TV storyboard to your local tape producer for an estimate that will surprise you —at no cost or obligation.

Write for the new brochure, "The Show is on Video Tape"—a case history of six commercial tapings. Enclose 25¢ to: 3M Co., Box 3500, St Paul 6, Minn.

MINNESOTA MINING AND MANUFACTURING COMPANY

Temple movies in 21 markets

Eight Shirley Temple movies never shown on tv, being distributed by National Telefilm Assoc. as a "Shirley Temple Festival" package, have been sold in 21 markets since their announcement at the NAB convention, Berne Tabakin, NTA vice president, said last week. The stations include WABC-TV New York, WTAE (TV) Pittsburgh, WISH-TV Indianapolis, WTIC-TV Hartford, WTVJ (TV) Miami, Fla., WHEN-TV Syracuse, WGAN-TV Portland, Me., KLRJ-TV Las Vegas, WSM-TV Nashville, WBNS-TV Columbus, Ohio, WSB-TV Atlanta and WTMJ-TV Milwaukee.

NBC Radio sets specials

NBC Radio will supplement its regular news schedule with a series of quickly-produced, in-depth specials covering major world events. The "Instant News" programs, tailored specifically for radio and to be offered for sponsorship, will be introduced at the time of the next big news break.

The number and length of programs in the series will be determined by the nature and amount of news breaks during the year. It's expected at least 20 of the specials will be presented annually, with each one running 25 to 55 minutes.

The programs will be produced by NBC News and put on the air within hours after the event. No specific time periods will be set aside for the shows, although it's probable that most will be aired in nighttime hours. Indications are that if the news event warrants prolonged coverage, an open-end policy will prevail, with repeats broadcast at various times during the day.

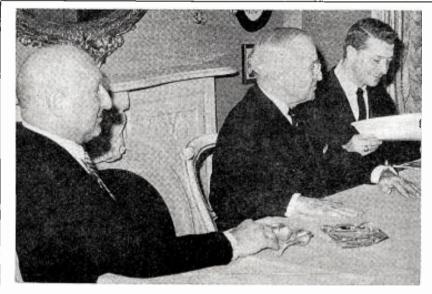

The programs will employ NBC's worldwide news staff which will present on-the-scene reports and news analyses.

The overall responsibility for the project will vary, different producers and directors handling each special.

RPI signs 21 Canada outlets

Radio Press International, a voiced radio news service, has signed 21 independent Canadian stations as clients, Michael J. Minahan, RPI general manager, announced last week. RPI now serves 83 stations on the North American continent.

Mr. Minahan said the addition was made possible by the allegiance of RPI and Broadcast News Ltd., a Canadian radio-tv news wire service, which provides Radio Press International with its service. RPI's client list in Canada now stretches from St. Johns, Newfoundland, to Victoria, B. C.

Talent Assoc.-Paramount sets Truman series

Former President Harry S. Truman, flanked by Barney Balaban (1), president of Paramount Pictures, and David Susskind (r), vice president of Talent Assoc.-Paramount Ltd., announced at a news conference in New York last week that he will appear in a series of 26 one-hour, weekly tv programs dealing with major historic events of the time and of the years when he was President (CLOSED CIRCUIT, May 29, 1961). The series, which is expected to cost more than \$2.5 million, will be produced by Talent Assoc.-Paramount and Mr. Susskind. They hope to have them ready for televising by February, 1962. NBC-TV reportedly is interested in the series for a primetime spot. Most of the profits will go to the Truman Library in Independence, Mo. (also see page 70).

Film sales...

Post '48 films (Screen Gems, N. Y.) sold to WBTV (TV) Charlotte, N. C.

Columbia Post '48 Feature Films (Screen Gems, N. Y.) now on 30 stations: Sold to WKRG-TV Mobile, Ala.

King of Diamonds (Ziv-UA): Sold to Rague Packing Co. along with Langie Fuel Service for WHEC-TV Rochester, N. Y.; Shell City Supermarket for WTVJ (TV) Miami; Galbreath Bakery Co. for WCYB-TV Bristol, Va., and to the following stations: WOI-TV Des Moines, Iowa; WCSC-TV Charleston, S. C.; WTIC-TV Hartford; KNTV (TV) San Jose, Calif. KFDX-TV Wichita Falls, Tex.; KOTA-TV Rapid City, S. D.: WDSU-TV New Orleans: KNOE-TV Monroe, La.; WOAI-TV San Antonio, Tex.; WBAP-TV Dallas and WKRG-TV Mobile, Ala. Now in 155 markets.

Ripcord (Ziv-UA): Sold to WAFB-TV Baton Rouge, La.; KSL-TV Salt Lake City; KXLY-TV Spokane; WGAN-TV Portland, Me.; WCTV (TV) Thomasville, Ga.-Tallahassee; KGHL-TV Billings, Mont.; KLFY-TV Lafayette, La.; KJEO (TV) Fresno, Calif. and KCSJ-TV Pueblo-Colorado Springs, Colo. Now in 61 markets.

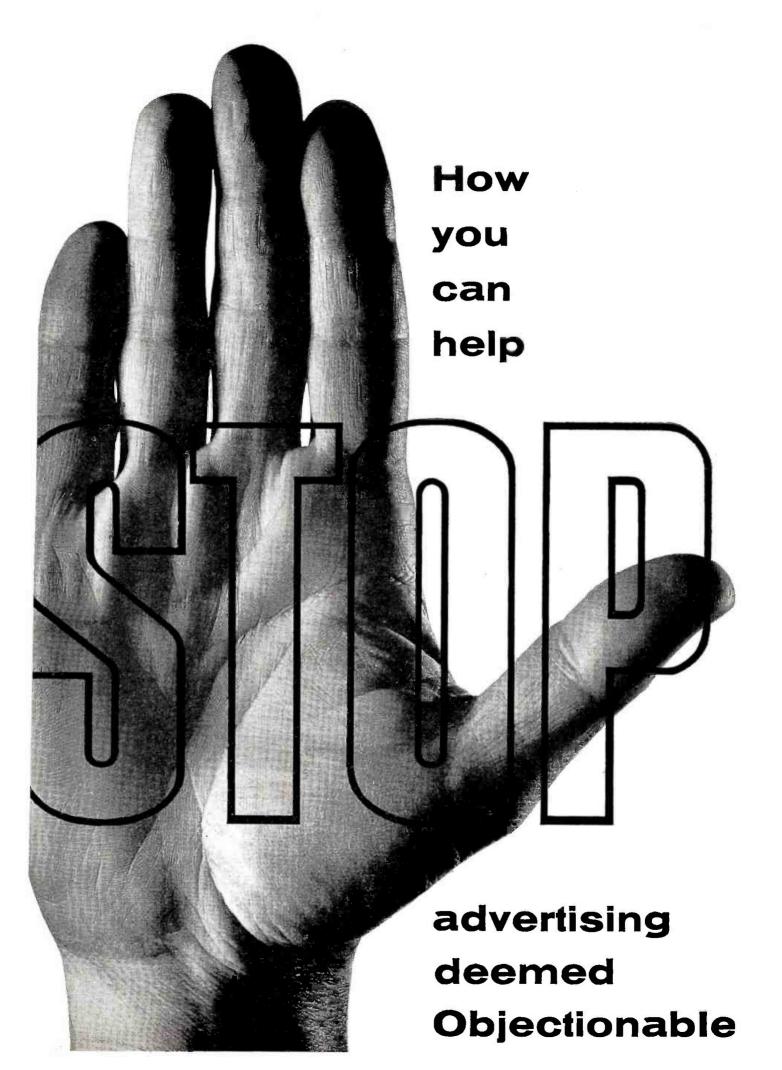

Program notes...

No future plans = National Telefilm Assoc. reported last week there are no immediate plans for further production on *The Play of the Week* series, which won critical acclaim for many of its presentations during the past two years. Charles Glett, NTA president, said that prospects for new productions were "very remote." Re-runs of the taped series will continue to be distributed by NTA.

Seven Arts finances • Seven Arts Productions Ltd., Toronto, reports a \$1,090,212 loss in the fiscal year ended last Jan. 31. The loss was attributed mainly to the low earnings of Seven Arts' record company. Stockholders were advised that estimated profits (before taxes) for the first fiscal quarter of 1961 will be about \$1.5 million, derived primarily from distribution of feature films to tv. Seven Arts distributes the Warner's *Post-50 Features*, with sales in the past year amounting to about \$6 million.

New company - Actress Carolyn Jones and her husband, Aaron Spelling, producer at Four Star Television, have formed Caron Productions as their own independent production company.

Convention coverage • Resort Radio Productions, Atlantic City, N. J., is offering its services to radio stations seeking personalized coverage of the numerous conventions and activities to

... In TV, radio and print

Through the Interchange of Opinion on Objectionable Advertising, every advertising man and woman can help reduce still further the small percentage of advertising which is harmful to advertising as a whole.

.What is The Problem?

From time to time, elements which are considered offensive and objectionable tend to creep into advertisements or commercials.

Cumulatively, these elements irritate people against advertising, impair their confidence in advertising as a whole and weaken the effectiveness of all advertising. When advertising is "false" or "misleading," it is contrary to *law*. Such advertising is dealt with by government regulatory bodies and by the Better Business Bureaus.

But some advertising which is not *illegal* may be considered objectionable on the grounds of *taste and opinion*.

What Can Be Done About It?

One of the important industry efforts to discourage all objectionable aspects of advertising is the Copy Code shown in this folder.

The Copy Code is jointly sponsored by the American Association of Advertising Agencies (A.A.A.A.) and the Association of National Advertisers (A.N.A.), endorsed also by the Advertising Federation of America and by some of the media associations.

There is also a *continuing program* to deal with *specific criticisms* of advertising deemed to be in bad taste or otherwise harmful to advertising as a whole.

This is the INTERCHANGE OF OPINION ON OB-JECTIONABLE ADVERTISING, operated by the A.N.A. - A.A.A.A. Committee for Improvement of Advertising Content.

The plan is described in this folder. You are invited to participate.

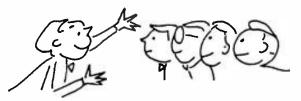

What Does The Interchange Cover?

The Interchange of Opinion is set up to deal with any national or regional agency-placed advertising considered harmful or potentially harmful to all advertising. For example:

Bad taste, Suggestiveness, Statements offensive to public decency, Visual trickery, Weasel wording, Improper disparagement of other products or industries, Derogation of advertising.

The Interchange deals essentially with questions of taste and opinion. It does not deal with the factual validity of claims as such, since the Committee does not have access to the facts. Hence, it does not attempt to duplicate the work of government regulatory bodies or the Better Business Bureaus in this area.

How Does The Interchange Work?

Through the Interchange, advertisers and agencies may make criticisms at any time, have the criticisms evaluated by a panel of advertiser and agency leaders and, if the panel considers the advertising objectionable, have their opinions registered with the *advertiser and the placing agency*.

iere is How It Works:

- 1. Report your criticism of any objectionable advertising to the designated person in your organization — the official A.N.A. Member Representative, in the case of advertiser companies; the appointed "coordinator" or A.A.A.A. Official Contact, in the case of agencies.
- 2. Criticisms by advertisers or agencies are sent to the Secretary of the A.N.A. - A.A.A. Committee, c/o 420 Lexington Avenue, New York 17.
- 3. Those in the scope of the Interchange are sent without identification to the ten advertiser people and ten agency people who make up the A.N.A.-A.A.A.A. Committee.
- 4. Each member of the Committee is asked whether he considers any element in the advertisement to be objectionable; if so, what and why, and whether it is regarded as "serious."
- 5. If a majority of the Committee considers the advertising objectionable, the criticism and the Committee's votes and comments are sent concurrently to the advertiser and to the placing agency of record.
- 6. If a majority of the Committee regards the advertising as "seriously" objectionable, the advertiser and placing agency are asked to take corrective action. If within thirty days the advertiser and agency do not answer, or answer unsatisfactorily, the Committee will so notify the Boards of Directors of the A.N.A. and A.A.A.

The Committee vote is not reported to the complainant, since the Committee works in confidence with the advertiser and placing agency.

The Interchange is not censorship. It is helpful criticism and must rely on voluntary self-regulation. But it has helped to bring about a considerable number of improvements in advertising, many in campaigns having wide exposure.

What Can You Do?

Looking out for objectionable features in advertising is a job for each of us in advertising.

Through the Interchange of Opinion, you as an individual can help. If you see or hear what you consider an objectionable commercial on television or radio, note the advertiser, the network or station, the date and time – enough to describe them accurately.

> If you see an objectionable ad in print, tear it out or make a note of it.

> Watch for objectionable advertisements on outdoor posters, carcards, and in other forms of advertising too, and make enough notes to describe them accurately.

Give your criticism to the person in your organization who has been appointed to forward complaints to the A.N.A.-A.A.A.A. Committee.

If you — an advertiser or a placing agency — receive a communication from the Committee, please consider it carefully. It may express a valuable point of view.

Your cooperation will help raise confidence in and acceptability of advertising still further in the minds of the public.

You strengthen your *own* advertising when you help to reduce objectionable advertising which is harmful to advertising as a whole.

COPY CODE

The following copy practices are disapproved in a code jointly adopted by the American Association of Advertising Agencies and the Association of National Advertisers, and also by the Advertising Federation of America:

a. False statements or misleading exaggerations.

b. Indirect misrepresentation of a product, or service, through distortion of details, or of their true perspective, either editorially or pictorially.

c. Statements or suggestions offensive to public decency.

d. Statements which tend to undermine an industry by attributing to its products, generally, faults and weaknesses true only of a few.

e. Price claims that are misleading.

f. Pseudoscientific advertising, including claims insufficiently supported by accepted authority, or that distort the true meaning or practicable application of a statement made by professional or scientific authority.

g. Testimonials which do not reflect the real choice of a competent witness. The A.N.A.-A.A.A.A. Committee for Improvement of Advertising Content

Association of National Advertisers, Inc.

American Association of Advertising Agencies, Inc.

Address: 420 Lexington Avenue, New York 17, N. Y.

be held in that city this summer. RRP features special beeper interviews, spot news coverage features and other services. More information is available from the company, 7 S. Cambridge Ave., Atlantic City, N. J.

New production company = Skitch Henderson, tv, radio and concert personality; and Jack Grogan, president of Brass Dolphin Inc. (tv packager of Golf Tip of the Day and other shows) have formed Skitch Henderson Assoc., 146 E. 57 St., New York, a produc-tion company. The new firm will specialize in creating, writing, scoring and producing commercials, station ID's and sound tracks for ty, radio and films. Mr. Grogan will manage the company and at the same time continue to serve as chief officer of Brass Dolphin. Sales representative for Skitch Henderson Assoc. is Tv Marketeers Inc.

Official-Wolper project = Official Films Inc., N. Y., has entered into a co-production agreement with producer David L. Wolper for a series of 39 half-hour films titled Biography, covering the life and times of noted figures in a wide range of activities. Mr. Wolper already has begun production in Hollywood on the first episode, which will relate the story of the late Fiorello H. La Guardia, mayor of New York City. Other subjects will be Franklin D. Roosevelt, Adolph Hitler, Benito Mussolini, Clark Gable, Gen. John J. Pershing, Woodrow Wilson and Gary Cooper. Mike Wallace has been signed to narrate the series.

Incompatibility splits HEC, NTA, says Leeds

Martin N. Leeds, president of Home Entertainment Co., has resigned as a board member of National Telefilm Assoc., at the same time terminating the affiliation of HEC with NTA, which had held distribution rights to the HEC pay tv equipment.

Mr. Leeds, who will continue as a special consultant to NTA, has set up new HEC offices at 9025 Wilshire Blvd., Beverly Hills, Calif. H. W. Sargent Jr., inventor of the HEC system of pay tv, continues as vice president. Rudy Petersdorf, formerly associated with Mr. Leeds at Desilu Productions where he was a member of the legal staff and where Mr. Leeds was executive vice president, is HEC's vice president in charge of business administration.

The break between HEC and NTA came because the association of a company producing and distributing programs for free television with one attempting to establish a new system of pay tv seems incompatible, Mr. Leeds said. He reported that negotiations are

Baltimore prize program on air over 20 years

In Baltimore there is a 20-minute period each weekday morning when telephone traffic slows considerably. it's between 9:40 and 10 a.m. when the Newhoff-Blumberg money giveaway, Dialing for Dollars, is simulcast on WMAR-TV and WCBM.

It is not surprising that Baltimoreans have made it something of a habit to keep their phone lines open during Dialing for Dollars, for the show is one of the oldest of its type now on the air. It started in October 1940 on WCBM and has remained popular. On September 10, 1956, it became a simulcast with WMAR-TV carrying the television portion.

The television version became a quick success, surveys showing that an average of 75% of the sets in use in the city were tuned to WMAR-TV.

The format of Dialing for Dollars is relatively

simple. The Mr. Rogers telephone directories of Baltimore and its suburbs are cut into strips and placed in the Golden Cash Box, from which three winning namesand-numbers are picked each day. Winners are called and those who were listening or viewing receive \$50 plus another \$50 for any unanswered or nonlistener calls in the sequence immediately preceding. Although the percentage of winners is amazingly good-in 1960 the average was nearly 20%-the prize package sometimes soars to several hundred dollars. In August 1958 a 79-yearold retired nurse won \$1,100 and

in progress for HEC franchises in a number of markets and that "when millions of dollars are involved these things take time and there's lots of paper work to be done before a contract is signed."

All telephone companies have expressed a willingness to provide facilities for transmitting HEC programs from central sources to the homes of subscribers, Mr. Leeds said, so that is no problem. He added that he is not sure his company will make use of the telephone company services, since HEC's own system of distribution might be more economical. At a demonstration of the HEC pay tv system in Hollywood (BROADCASTING, April 10), the company described it as 50% less expensive to manufacture and 70% less expensive to install than competitive pay tv systems.

winners of \$500 or more are not uncommon. A consolation prize goes to those called who fail to qualify for the main award.

Inflation - The cash prizes were not always as big as they are today. In 1940 there was a \$5 prize riding on each call with \$1 in merchandise as a consolation. The program in those days was sponsored entirely by Food Fair Stores and Homer Todd was the m.c. "Mr. Fortune" he is called on Dialing for Dollars. Jack Wells was the second Mr. Fortune and he staved with the program until 1958 when the present m.c., George Rogers, took over the post.

The program has its own public service aspect, since the winning slips each day are drawn by a representative of some local or national public service or charitable organization who is given a chance to simulcast a message on behalf of his group. Sponsors of this grandfather among telephone programs have been many through its long period on the air, including such well-known names as Quaker Oats, Betty Crocker, Gold Seal Linoleum, Carnation Milk, Mr. Clean, Nabisco and Lipton. As a test one coffee firm made a one-time offer through its one-minute commercial and received over 4,000 letters in the next day's mail.

Through the years Dialing for Dollars has had dozens of imitators ---some on the networks. While most of these have disappeared, the Baltimore program keeps rolling along. Since the program has been on WMAR-TV its ratings "have reached new highs," according to Theodore A. Newhoff, of Newhoff-Blumberg, copyright owners. The show is syndicated in a number of other cities.

VHF Inc. to produce programs, commercials

The formation of VHF Inc., New York, as a production company for programs, tv commercials, closed-circuit programs and industrial films has been announced. The principals are former executives of CBS Television Production Sales, which ceased operation last winter (CLOSED CIRCUIT, May 29).

Officers are Ira G. DeLumen, president; Richard R. Rector, vice president, production; Robert C. Troup, vice president, sales; Peter J. Smith, vice president, special projects. The company, located at 300 E. 42d St., New York, will operate in the areas of video-tape, film and live tv productions.

Mr. Rogers

News program to feature U. S. weekly editors

Temple/Morgan Enterprises, a Hollywood program production firm best known as the producer of the long-lived Queen for a Day, has developed a new kind of news program, Editors Conference Call, being offered for network broadcast, either radio or tv.

The program would be a roundtable of editors discussing important news developments and controversial issues, but instead of national commentators or byline writers the participants would be the editors of the nation's hometown weekly newspapers, who, the company feels, reflect and frequently help to form the opinions of reader residents in the suburbs and small towns and rural areas of the land.

Four editors would participate in the half-hour program each week. They would be selected from the staffs of the 8,100 weekly newspapers by John Henry, editorial coordinator of *Editors Conference Call* and former head of the Publishers' Auxiliary, a national association of editors and publishers of the weekly press. They will be chosen from widely separated parts of the country and will represent differing interests and viewpoints.

The format of the program is "very simple, practical and workable," according to a Temple Morgan brochure. Frank Hemingway, veteran west coast newscaster, will preside over the panel, working from the network newsroom in Los Angeles. The panel members will be connected with him by a five-way conference call telephone hookup for radio or a telco round-robin loop if the show is on tv. Each editor will speak from the network affiliate studio nearest to his hometown.

Four MGM-TV series starting this month

Four tv series are scheduled to be in production at MGM-TV by mid-June and a record number of 37 directors and writers are already at work at the studio. The total is expected to reach 50 with the conclusion of additional deals now being negotiated, Robert Weitman, vice president in charge of tv production, said last week.

The first series, which got under way June 5, was *Cain's Hundred*, for which Paul Monash, creator of the series and executive producer, will write several future episodes in addition to the already completed pilot. E. Jack Neuman, Mel Goldberg and Eliot Asinof have been signed to write other *Cain's Hundred* episodes. Boris Segal, John Peyser and Lamont Johnson will direct various segments of the hour-long series.

Today (June 12), *Dr. Kildare* goes before the cameras with Norman Felton as executive producer, Herbert Hirschman as producer and Elliot Silverstein, Lamont Johnson, Buzz Kulich and John Brahams set to direct. A

INTERNATIONAL

dozen writers have been signed so far for this 60-minute series: E. Jack Neuman, who also wrote the pilot, Adrian Spies, Ernest Kinoy, Norman Katkov, John Kneubuhl, John Furia Jr., John Vlahos, Andy Lewis, John T. Kelley, Jean Holloway, James Henerson and Archie Tegland.

Also starting today is Father of the Bride, which Fletcher Markle will direct. Katherine and Dale Eunson and Ted and Mathilda Ferro, both pairs operating as teams, and Ted Cooper, will write the series. The fourth MGM-TV series to start production this month is National Velvet, renewed for a second year on NBC-TV. Frank McDonald will direct this series. Robert Maxwell is executive producer of both of these half-hour series, with Rudy E. Abel producing.

Customized newsfilm service

Newsfilm Inc., New York, is offering stations international custom coverage, according to Kenneth Baldwin, president. Clients can order a complete package for any story or arrange to send their own correspondents, with Newsfilm providing overseas cameramen, shipping, customs clearance and processing. The service is on an exclusive basis.

Newsfilm is a subsidiary of Marathon International Productions Inc. Newsfilm is at 10 E. 49th St., New York 17.

Stanton urges educational 'Marshall Plan'

PUT INTERNATIONAL EGGS IN MANY BASKETS, HE SAYS

A massive educational "Marshall Plan" aid program using up to a fifth of the current U. S. foreign aid commitment over 10 years is urged by Dr. Frank Stanton, president of CBS Inc., a speaker June 9 at commencement exercises of The Massachusetts Institute of Technology.

Dr. Stanton further suggested that other democracies assist in the program.

Dr. Stanton's proposal calls for an extended program in helping educate underdeveloped nations of the world. Education, he said, is "the neglected world frontier, the neglected world opportunity."

In taking note of the new nations emerging in Africa and Asia, Dr. Stanton asserted that education is their first concern—"would it be going too far to suggest that it borders on criminal negligence that we here in this crucible of democracy have not given top priority to helping these new nations educate their people?"

He cautioned against the U. S. placing all of its international eggs in a basket of economic and military aid. "Only an incidental trickle split among a score of projects (in foreign aid in the past decade or more) has borne directly on education," Dr. Stanton declared.

Determinism In another point in his talk, he stated, "we are practicing economic determinism, when we know from every evidence of our own experience that the only road to democratic fulfillment is educational determinism."

Dr. Stanton pointed to the U. S. heritage of mass education, asking that with this background, "how can we assume that if we give emerging nations guns and monkey wrenches, tanks and cement mixers, economic aid and technical assistance, they will become selfgoverning peoples and stay free?"

He suggested the secretary of state be urged to add educational development to other foreign policy implements which Dr. Stanton described as diplomacy, military aid and economic assistance.

He recommended also that other democratic countries join in the mass educational program through United Nations avenues. The objective: help the world's free peoples "become capable of the self-government for which they so nobly and hopefully yearn."

BBC, Italians, Czechs win Montreux tv honors

National tv networks representing England, Italy and Czechoslovakia won top honors at the Montreux (Switzerland) tv festival contest, May 22-26. NBC-TV received special mention from the seven-man international jury which judged the contest, limited to musical and variety shows.

The Gold Rose award for first place,

went to BBC's Black and White Minstrel Show. Radio Audizione Italiano's Giardino d' Inverno (Italy) was the second place winner, and the third prize went to Czechoslovakian tv's Mille Vues Derriere Les Coulisses. Perry Como's Kraft Music Hall (NBC-TV) earned a special mention for telegenic effects, along with Soviet tv's Miniature Dances and Japan's Afternoon Variety.

The winners were picked from 36 entries, offered by 25 national networks representing 18 countries.

Discussions of worldwide tv and the space age dominated the symposium and scientific sessions held earlier in the 12-day festival. Brig. Gen. David Sarnoff, RCA board chairman and one of six recipients of the festival's special citation for "outstanding contributions to the advance of tv," predicted that 10 years from now a billion people over the world may watch a color tv program at the same time. He suggested that the heads of state consider the use of satellite tv for "face to face" meetings, and proposed that every tv have a special channel reserved for UN broadcasts. Gen. Sarnoff's observations were contained in a letter acknowledging the acceptance of the citation.

Another citation winner, Prof. Pavel V. Shmakov, president of the Leningrad Tv Institute, predicted that "in the near future" it will be possible to see Venus and Mars on color tv. He did not elaborate but indicated that Russia is capable of achieving the feat.

Other citation winners were Sir Noel Ashbridge of England, Prof. G. A. Bourty of France, Dr. Denjiro Takayanagi of Japan, and Erik Esping of Sweden.

Scottish outlet refuses TAM tv ratings service

TAM, the television audience measurement meter-service company, has met opposition to its system, in which it holds a virtual monopoly. TAM supplies weekly "top ten" ratings for homes-tuned-in to British commercial tv, with a network and regional lists for stations outside London.

Scottish Border Tv—newest and smallest of commercial tv stations—has announced it won't use the TAM system in a letter to advertisers and agencies.

Border said TAM's service is expensive for its basically small area coverage, and more important, that TAM doesn't give the kind of viewer breakdown the station needs.

Border Managing Director Robin Gill said TAM figures don't give sex or age details. He said his company will use a system of aided recall.

Border TV's announcement has caused a minor furor in British tv. Though TAM has been criticized, no

ATAS assembly plans global spectacular

What's being planned as the biggest "international" tv show ever produced is gaining in advertiser interest, though the cast has not been assembled and a network is still undesignated.

The show is slated Nov. 10 as the climax to the Academy of Tv Arts & Sciences' First International Assembly in New York Nov. 4-11.

Robert Saudek of Saudek Assoc. will produce the 90-minute show and network rights will be decided by bid, with bidding to start at \$400,-000. Performers sought for the show include such stars as comics Cantinflas (Mexico) and Popov (Russia), pianists Von Cliburn (U.S.) and Richter (Russia), ballerina Ulanova (Russia), Maurice Chevalier France), Alec Guinness (Britain).

Danny Kaye is among those sought for the m.c. Advertisers who have indicated an interest in sponsorship: Procter & Gamble, Revlon, AT&T.

company has refused the service.

TAM Director G. B. Audley said Border was informed some time ago that a service would be expensive, and suggested a special system based on diaries and recordimeters. TAM announced it will probably operate a service in the Border area anyway, if it succeeds in negotiations with advertisers and the Institute of Practioners in Advertising.

International alliance planned by unions

Union officials from 17 Western hemisphere nations have effected the preliminary organization of an Intra-American Confederation of Free Trade Unions in the entertainment field, according to Herman F. Kenin, president of the American Federation of Musicians and chairman of the organizing conference.

The conference, which was held in San Jose, Costa Rica, ended May 25. The objective of the conference, Mr. Kenin said, is to facilitate an international exchange of ideas and understandings and working relationships among all free trade unions in the entertainment field. Formal organization, is expected to be achieved at another meeting in the Caribbean area within the next few months.

Delegates to the conference from the U. S. included officials of the American Federation of Television & Radio Artists, the International Alliance of Theatrical & Stage Employes, the American Guild of Variety Artists and the Assn. of Theatrical Press Agents & Managers.

CBC finance-merger plan opposed by Henderson

The continuance of annual grants by Canada's Parliament to the governmentowned Canadian Broadcasting Corp. and deferment of CBC's plan to spend \$70 million on consolidation of its facilities in Toronto and Montreal were urged to the House of Commons Broadcasting Committee by Maxwell Henderson, Canadian auditor-general. He spoke from experience, for before his present post he was comptroller of the CBC.

Mr. Henderson thinks CBC's financial operations should be studied by an independent firm of management consultants, and suggested this last year shortly after his appointment as Canada's treasury watchdog. He opposes granting CBC annual money from the public treasury on a five-year basis as requested by CBC at earlier sessions. CBC has requested \$70,418,000 for operating expenses and \$9,640,000 for capital costs this year.

KLIF's 'lazy girl' has a long day

To herald the change in its programming concept this month, KLIF Dallas resorted to a variety of promotions—none, however, as alluring, as ostentatious or as downright pleasing to the eye (if you happen to go for pretty, blue-eyed blondes) as "the living billboard" pictured above. The occupant, Joyce Williams, a curvacious lass, selected after a long and interesting search merely waves at passing traffic and listens to KLIF while spending 18 hours a day being "The Laziest Girl in Town."

Birmingham's Rebel award becomes an annual affair

It was bound to happen sooner or later so it is not astonishing to learn that Birmingham, Ala., has come up with its own answer to the Oscar, the Emmy and the Tony---the Rebel (of course). The brainchild of Robert E. Lee (his real name) of the *Birmingham News*, the Rebel is the award given to outstanding performers in radio and television in Birmingham.

Mr. Lee concocted the idea, his readers caught on with 6,000 replies in two weeks and WYDE, that city, broadcast the entire proceeding from the gala banquet. The whole idea was so successful, WYDE reports, that the event will become an annual affair.

The winners: Best radio personalities

---(male) Bob Powers, WYDE; Duke Rumore, WSGN; (female) Miss Midnight, WSGN. Best tv personalities---(male) Tom York, WBRC-TV; (female) Pat Gray, WBRC-TV. Best newscaster radio---Herb Steadman, WSGN; best newscaster tv---Harry Maybry, WBRC-TV. Best tv sportscaster---Buddy Rutledge, WAPI-TV. Best radio sportscaster---Lynn Faris, Wyde. Best youngsters' show---Cousin Cliff Holman, WAPI-TV.

CBS Radio's summer campaign

CBS Radio is beginning an on-theair promotion campaign this week to attract more summertime listening to the network. It has distributed various jingles, recorded on a two-sided $33\frac{1}{3}$ RPM disc, to affiliates for use this sum-

TvAR meets the Jacksonville market

An airplane, a bus, a boat and 4,800 feet of video tape was the sucessful recipe used by WJXT (TV) Jacksonville, Fla., to acquaint TvAR, the station's new rep firm, with its service area.

A two-day junket of Jacksonville and the North Florida market was hosted by WJXT for 23 members of TvAR's management and research staff. Glenn Marshall Jr., president of WJXT, and Dave Booher, general sales manager, acted as tour guides with many leading businessmen.

Climaxing the trip was an hour long closed-circuit show produced by WJXT dealing with the station and its programming concepts. mer. The jingles were composed and arranged by Norman Paris. The vocal portion is by a popular quintet, The Honeydreamers, and lead-in to the jingles are provided by such CBS Radio performers as Arthur Godfrey, Bing Crosby, Rosemary Clooney, Garry Moore and Art Linkletter.

WSB-TV puts the shoe on the other foot

WSB-TV Atlanta's *Challenge*, a summer series designed to offer new, experimental and creative ideas in local programming, has extended an invitation to two leading television critics to show the public what they (the critics) feel is the ideal program.

Invited were Alan Patureau, Atlanta Journal, and Paul Jones, Atlanta Constitution, neither of whom has accepted as yet. The station will provide the facilities, a production crew and a director to help the critics with their ideas. The audience will then have an opportunity to criticize the critics.

Drumbeats...

Tourist kits • To help boost interest in the vacation facilities of its market KDAL-AM-TV Duluth, Minn., has assembled a vacationland kit available to listeners who write in. Last year the station sent out more than 3,000 kits.

Cancer crusader = WGLI Babylon, N. Y., netted \$125,000 for the American Cancer society in the annual spring Cancer Crusade. Instead of concentrating on direct appeals for donations, as in past years, WGLI found greater success in the fund-raising drive by stressing the need for volunteer collectors. Some 100 volunteers each visited at least 15 homes in their respective neighborhoods to distribute information about cancer and to ask for donations. An added inducement for volunteers, WGLI announced a drawing for a new boat, which was donated by a local dealer.

Meet Boyd = WBT Charlotte, N. C., introduced New York's Madison Ave. early this month to Ty Boyd, morning personality (Mon.-Sat., 6:30-9 a. m.) who has taken over from Grady Cole who had been in that spot for 31 years (now special assistant to the general manager, Jefferson Standard Broadcasting Co., and who will act as roving goodwill ambassador for WBT and WBTV [TV] Charlotte and WBTW [TV] Florence, S. C.). Mr Boyd has been on radio for various stations in both Carolinas. New York newsmen met him at a June 2 luncheon sponsored by CBS Radio Spot Sales.

Eugene S. Hallman, vp for programming of Canadian Broadcasting Corp., elected member of board of trustees, Broadcasting Foundation of America. Mr. Hallman formerly served as director of radio networks and director of radio network programming of CBC.

Jerry Gomez named to head Magnum Television International's sales office in Buenos Aires. Mr. Gomez, whose Argentine company, TV Films Distribution, will now exclusively represent Magnum, was formerly handling tv series from ABC Films, 20th Century Fox, and TV Interamericana.

lan Grant, formerly of CHCT-TV Calgary, Alta., and Radio Representatives Ltd., Toronto, Ont., to client service representative of McDonald Research Ltd., Toronto.

Michael Hind-Smith, manager of CBLT (TV) Toronto, Ont., to national program director of Canadian Television Network Ltd., that city.

DEATHS

George S. Fowler, 76, senior vp of Cunningham & Walsh, New York, died June 5 at his home. Mr. Fowler joined Newell-Emmett Co. in 1932, becoming partner in agency which later became Cunningham & Walsh.

Kenneth E. Chernin, 41, promotion director for radio-tv division of Triangle Publications Inc., died June 7 in Philadelphia. He has been with Triangle since 1956, serving as radio-tv promotion director since 1957.

Herbert C. Lund, 56, vp of Erwin Wasey, Ruthrauff & Ryan, Chicago, died May 27 at Geneva Hospital after sudden heart attack. He had been with agency 17 years, served on such accounts as General Mills, Carey Salt, Quaker Oats, Empress Coffee and Frito. Before that he had been with Knox Reeves Adv.

Harold Mitchell, 67, founder of Mitchell Advertising Agency, N. Y., died May 31 in Winston-Salem, N.C.

Fred C. Beckwith, 37, national sales manager of KCRA Sacramento, died June 3 following an automobile accident.

Jess Kimmel, 46, production manager and director in theatre and tv, Studio City, Calif., died May 31 in his N.Y. apartment.

Emile N. Hill, 55, chief engineer for WADO New York, died May 5 of heart attack at his home.

Al Pearce, 62, former radio and tv comedian, died June 2 in Newport Beach, Calif. During 1930's, his Elmer Blurt, low-pressure salesman who approached each door with mumbled "Nobody home, I hope, I hope," was among radio's best known characters.

J. Harold Ryan, Storer executive, dead at 75

J. Harold Ryan, 75, co-founder, director and senior vp of Storer Broadcasting Co., died June 6 at

Miami (Fla.) Heart Institute after brief illness. He had been in semiretirement for several years. Mr. Ryan started business career with Arbuckle-Ryan Co., Toledo, and served as president of firm from 1918 to 1928, when he started long association with George B. Storer. They founded Fort Industry Oil Co., which was re-named Storer Broadcasting in 1952. Mr. Ryan helped build company from single, 50 w station to today's 12 maximum power stations in nine cities. Listed in Who's Who. Mr. Ryan was president of National Assn. of Broadcasters in 1944-45. He was past president of Broadcast Music Inc., and was chairman of Broadcast Measurement Bureau which was formed while he was NAB president. During World War II, Mr. Ryan was assistant director of censorship, in charge of censorship proceedings for all national and international radio broadcasts.

Co. to increase daytime power of WMRN Marion, Ohio, to 1 kw on 1490 kc. Since petition was filed, initial de-cision looks to grant of WABJ's like appli-cation. Action June 7.

cision looks to grant of WABJ's like appli-cation. Action June 7. By memorandum opinion and order commission, on its own motion, (1) set aside its March 15 action granting applica-tion of Andrew B. Letson for increase in power of station WZRO on 1010 kc, D, from 1 kw to 25 kw, DA, and change studio lo-cation from Jacksonville Beach to Jackson-ville, Fla, and (2) designated application for hearing; made city of Jacksonville Beach, which petitioned for reconsideration of March 15 grant, and Jacksonville Beach Chamber of Commerce parties to proceed-ing. Action June 7. KTKR Taft, Calif.-Designated for hearing application to increase power on 1310 kc, D, from 500 w to 1 kw; made KLAN Le-moore, Calif., party to proceeding. Comr. Ford dissented and issued statement, in which Comrs. Bartley and Craven join. Action June 7. By order commission denied petition by Crosley Bestg. Corp. for further hear-ing and postponement of June 8 oral ar-gument in Indianapolis, Ind., Tv ch. 13 proceeding. Action June 5. Following stations were granted exten-sions of completion dates as shown: KBYR-

proceeding. Action June 5. Following stations were granted exten-sions of completion dates as shown: KBYR-TV Anchorage, Alaska, to 12-5, and WFMD Frederick, Md., to 10-7, without prejudice to such further action as commission may deem warranted in light of decision of U. S. Court of Appeals, D. C., Circuit, May 4, 1961, in re WBEN Inc., Case No. 16017. Action June 2. BU order commission extended from

■ By order commission extended from June 12 to July 6 time for filing comments in proceeding to make vhf tv channels available for noncommercial educational use in New York City and Los Angeles. More time was requested by Governor Robert B. Meyner of New Jersey and sta-

PROFESSIONAL CARDS

tions WNEW-TV and WOR-TV New York City. Action June 1. By memorandum opinion and order commission granted petition by its Broad-cast Bureau and amended memorandum opinion and order of Feb. 28 which granted, without hearing, certain applications by am stations to increase daytime power on 1340 kc from 250 w to 1 kw, to add condition that grants to two of those stations "is without prejudice to whatever action com-mission may deem appropriate in light of any facts developed in pending inquiry con-cerning qualifications of Independence Bestg. Inc. (WHAT) and Mid-Atlantic Bestg. Co. (WMID) to be licensees of com-mission." WHAT operates at Philadelphia and WMID at Atlantic City, N. J. Action June 1.

By memorandum opinion and order commission denied petition by Windber Community Best2. System for severance from consolidated am proceeding of its application for new am station to operate on 1350 kc. 1 kw, D. in Windber, Pa., and for finalization of Feb. 20 initial decision which looked toward grant, or for alternative relief. Comr. Cross dissented. Action June 1.
By memorandum opinion and order, commission denied March 29 petiton by KWK Radio Inc., licensee of broadcast station of commission's order of Nov. 3, 1960, which ordered KWK to show cause why its license should not be revoked due to conduct involving treasure hunts and bonus club contests. Action June 1.
By order commission granted petition by Broadcast Bureau to accept its late filing of exceptions and supporting brief in proceeding on applications for new am stations for new am stations of Pier San Inc., and Francis C. Morgan Jr., to operate on 1290 kc, 500 w, D, in Larned, and Wilmer E. Huffman to operate on 1290 kc. 5 kw-D, 500 w-N, DA-2, in Pratt, Kan. Action June 1.
By memorandum opinion and order, commission denied petition by Marshall Electric Co. (KFJB) Marshalltown, Iowa, to make effective immediately March 7 initial decision which looked toward granting its application, among others, to increase daytime power on 1230 kc from 250 w to 1 kw, continued nighttime operation with 250 w. Action June 1.
By order commission stayed effective date of April 21 initial decision in New Bedford, Mass., tv ch. 6 proceeding, pending further review by commission. Initial decision proposed to dismiss, without prejudication of E. Anthony & Sons Inc., for new Tay memorandum opinion and order commission 10 is subject to stated condition. Action June 1.
By memorandum opinion and order commission 10 dismissed application of J. B. Hart for new am station to operate on 940 kc. 500 w, D, in Aurora, Mr. Hart for approx due and stations for new day indrawn application. Action June 1.
By memorandum opinion

ORAL ARGUMENTS SCHEDULED

■ Commission scheduled following pro-ceedings for oral arguments as indicated: Clarke Bestg. Corp. (WGAU) Athens, Ga.; Wake Inc. (WAKE) Atlanta Ga., and Savannah Valley Bestg. Co. (WBBQ) Au-

gusta, Ga., to increase daytime power on 1340 kc to 1 kw, for afternoon of July 6. WBUD Inc., and Concert Network Inc., for new class B fm station in Trenton, N. J., for afternoon of July 6. Jowa Great Lakes Bestg. Co. (KICD) Spencer, Iowa, and 11 other applicants in Illinois, Iowa, Minnesota, Nebraska, and Wisconsin to increase daytime power on 1230 or 1240 kc to 1 kw, for 10:00 a.m., July

Routine roundup

Following its annual practice, commission will schedule no hearings or oral arguments during August, in which month it will hold but one meeting (Tuesday, August 1). This summer recess is convenience to vacationing and other planning by those who do business with commission. Different commissioners will be present in August to act as motions commissioners, handle emergency matters, and expedite commission's routine business. Ann. June 7.
 By letter commission waived Sec. 3.682 of its rules to permit Community Tv Inc. to scramble certain programs of medical to station WJCT (ch. *7) Jacksonville, Fla., for period of year, subject to specified conditions.

ditions

ditions. Programs, which will not exceed two hours a day, will be produced in coopera-tion with Jacksonville hospitals educational program. Being geared to educational needs of medical profession, they will not be suitable for public viewing. They will be received on sets converted for purpose and installed in hospitals and doc-tors' homes. Comrs. Bartley and Craven dissented. Action June 1. - BW letter commission granted recuest

dissented. Action June 1. By letter commission granted request by Metropolitan Bestg. Corp. (now Metro-Media Inc.) licensee of international broad-cast station WRUL Scituate, Mass., for re-consideration of May 11 action which de-nied or dismissed as moot request for waiver of certain sections of international broadcast rules and granted extension of operating hours and waiver of Sec. 3.702 (d) and (1), commencing June 5 for the remainder of summer season, in accordance with revised frequency authorization. Ac-tion June 1. Commission for second time returned

tion June 1. • Commission, for second time, returned as unacceptable for filing application by Bankers Life and Casualty Co. for license for station KGA Spokane, Wash. (pre-viously returned on April 26). There is pending application for renewal of that station license by Gran Bestg. Co. (to which it was transferred from Bankers Life in 1957). Since Bankers Life claims to have purchased Gran in 1960, commission again advised that proper procedure is to file FCC Form 315 for consent to transfer. Chrm. Minow and Comr. Bartley voted for hearing on Gran's financial qualifications. Action June 1.

THE WHEELS THAT GO EVERYWHERE

BROADCASTING, June 12, 1961

The entire country is his campus

John F. White's early ambition was to become a college president. He didn't attain this goal. But as president of the National Educational Television & Radio Center, which has 51 etv station affiliates stretching from coast to coast, he can call virtually the entire country his "campus."

In recent weeks the magic number around NETRC's headquarter office in New York has been "52." To Jack White and his associates, this signifies that after more than a year of tireless effort, much of it behind-the-scenes, the New York market appears headed for the etv fold. A New York civic group, operating through NETRC, has offered a bid of \$5,750,000 to purchase WNTA-TV New York and use it for an educational tv channel. The bid was accepted in principle by WNTA-TV about two months ago, but the contract signing was held up largely because of internal changes within National Telefilm Assoc., which owns the station.

Catalyst - Colleagues insist that Mr. White is the catalyst who will bring an educational channel to the competitive New York market. For more than a year, he has been wangling invitations to meet educators, businessmen, civic leaders, government officials, foundation executives and other opinionmakers and, in essence, to communicate this plea: "New York must have an educational television station."

The odds against an educational outlet in New York were formidable a year ago. But Jack White continued his crusade, lining up supporters and spreading the word that "New York, the center of the communications industry, has to have an educational channel." He was prepared to move in with strength, therefore, when National Telefilm Assoc., in financial straits, decided to dispose of WNTA-TV. Even Mr. White is willing to concede that a climate of opinion in favor of an educational station in New York, which he helped to create, was a crucial consideration in NTA's decision to sell WNTA-TV to a New York civic group.

No Stops = Mr. White's relentless campaign to acquire WNTA-TV for educational tv, his associates say, brought into focus his boundless energy, his prowess as an able persuader and his strong dedication to enlightenment through television. "Once Jack decides that a certain course of action is right," one colleague said, "he never stops until he is proved wrong. He's aggressive all right, but not in a distasteful sort of way."

Mr. White is a trim, medium-sized man who seems to do everything in a

hurry. He moves quickly and easily and talks rapidly but cogently. He is a ruggedly-handsome man of 43, whose appearance and manner suggest solidity and authoritativeness ("But don't say he's stuffy." a co-worker says. "He's anything but that.")

John Francis White was born in Waukegan, Ill., on Oct. 17, 1917, but spent his childhood in Chicago where his father, the Rev. E. S. White, was an Episcopalian minister. He was an active youngster in high school and at Lawrence College, Appleton, Wis.

Mr. White received his B.A. degree in political science from Lawrence in 1941, and began his career there that year as an admissions counsellor. In 1944, after earning a Master's degree in political science from the U. of Chicago, he joined the staff of the Illinois Institute of Technology. He served there successively as director of admissions, assistant dean of students, dean of students, and dean and director of the development program.

In 1950 he left Illinois Tech in Chicago to become vice president of Western Reserve U. in Cleveland. The following year he played a prominent part in putting the first accredited college course on commercial television and during the next four years at Western Reserve, he continued to work on the development of etv.

By-passed Presidency By 1955 his accomplishments in educational tv had come to the attention of the board of directors of WQED (TV) Pittsburgh, an educational station, which offered

NETRC's White Better than being college president

him the post of general manager. He recalls he paused about accepting the position. He realized that his next opportunity in education was as president of a college and he credits an old friend, Dr. Charles Heald, now president of the Ford Foundation and then president of New York U., with helping him to make up his mind. Dr. Heald urged him to accept the WQED offer, pointing out: "Jack, you're still young enough to take the chance. And television has great potential."

Today Jack White has "no regrets" about his choice. During his three years at WQED, he says, he began to learn of "the tremendous opportunities of educational television" and "the surface has not been touched." At WQED he was instrumental in raising the annual budget from \$250,000 and expanding the programming hours from 30 to 90 a week.

The reputation he fashioned at WQED as a resourceful leader and capable administrator won for him in 1958 the position of president of the National Educational Television & Radio Center in New York. In less than three years at the center Mr. White is credited with having raised the number of affiliated non-commercial stations from 30 to 51; boosted the hours of programming emanating from the Center to 10 hours weekly and equipped all NET stations with video tape recorders.

Help Those Who . . . = Mr. White regards the role of the center in this way: it should provide programming to station affiliates; it should provide counsel and financial assistance to etv stations and it should help communities that "want etv to help themselves." He noted that if the group buying WNTA-TV does not come up with funds to buy the station, NETRC will lend the money.

Mr. White married the former Joan Glasow of Fond du Lac, Wis., in 1943. They have three children—Susan, 16; Michael, 11 and Christopher, 9. The family home is in Tuxedo Park, N. Y.

He belongs to numerous educational groups, fraternities and societies. His broadcast-oriented affiliations include the Joint Council on Educational Broadcasting, the Television Committee of the American Council on Education, and the Broadcasting Advisory Committee of the United States Information Agency. He says he "plays at" golf at the Tuxedo Club.

Mr. White is "too busy" for any hobbies, and adds: "I enjoy my work. This is much better than any college president job."

EDITORIAL

The critical week

BROADCASTING is in more trouble today than it was during the bleak winter of 1959-60 when television quiz shows and radio payola were under congressional investigation. Today the sources of the trouble are more diffuse and the cures of it more difficult to prescribe. It is understandable that the commonest reaction among broadcasters is that of a man who has been hit over the head repeatedly while walking down an alley in the dark.

The immediate cause of the present reaction was the speech delivered by FCC Chairman Newton Minow at the NAB convention last month. But Mr. Minow's speech was in truth no more than an official endorsement of a critical attitude that has become increasingly fashionable among intellectuals over the past year or longer. In the extreme tensions of the moment it is easy to forget the sequence of events that led up to and perhaps shaped the present circumstances.

The television quiz investigation exploded into national prominence when Charles Van Doren confessed in early November 1959. The networks that had been involved tidied up their housekeeping, and the incident might have had no further effect if it had not been followed by an investigation of payola, primarily in radio.

Payola never received the intense publicity that was precipitated by the quiz investigation, but over many months the subject was kept alive by prosecutions of record companies by the Federal Trade Commission, the adoption of an anti-payola law by the Congress, and continuing investigations by the FCC. There are still some radio station license renewals that are being held up pending disposition of payola charges.

M EANWHILE, in December 1959 and January 1960 the FCC held a full-dress hearing on program policies. During it, a number of articulate critics of broadcasting whose principal target was television—appeared to argue for increased government control over programming. Their testimony received wide publicity.

At the same hearing broadcasters themselves invited endless trouble when the NAB and network witnesses agreed that the FCC had the right to review programming as a means of judging the character of a license applicant. From those hearings came an FCC statement last July in which the commission announced a toughened policy. The principle of measuring performance vs. promise as a condition of license renewal began to take shape. It was that principle that Mr. Minow emphasized repeatedly in his NAB speech as the means of forcing program improvement.

While these official actions were taking place, the balance of competition within television was radically changing. ABC-TV became a strong third force, attracting larger audiences, more advertising, more station clearances than it had formerly enjoyed. Its strength came largely from action-adventure shows, and the inevitable consequence was that the other networks to some degree reoriented their programming to suit the new conditions.

The change in emphasis of network programming began to be noticed by professional viewers. In the past year the television critics who write for newspapers and magazines have adopted an attitude of disenchantment. Coincidentally, general columnists and commentators have devoted more attention to television than ever before, and the attention has been largely unfavorable.

It may be true, as ABC-TV has recently been saying in another context, that there is nothing harder to stop than

a trend. Certainly the trend of adverse criticism of television has not been stopped, not even by the explosion of great television journalism that was set off by the political campaigns of last year and is still bursting out on all channels.

More and more, in the past year or so, have outside pressures threatened to assume command over broadcasting and less and less have broadcasters seemed to be in control of their own destiny. This condition cannot be allowed to continue if broadcasters wish to stay in business on anything like the basis they have become accustomed to.

O a large extent, the reaction of broadcasters to the problems of the past year and a half has been defensive. They have waited to be hit before taking action, and when hit they have conducted their defenses unilaterally. It has been rare that one network has gone to the assistance of another, even when joint defense would have benefited both. Stations have found it difficult to act in concert for lack of an effective trade association. The NAB operated most of last year without a president. Its new president, LeRoy Collins, chose to spend his first few months planning a structural reorganization as a preliminary to his taking over administrative command. For more than a yaer the NAB has been held together by a secretariat and the parttime efforts of an advisory board whose members could not entirely disengage themselves from the hard job of running their own properties.

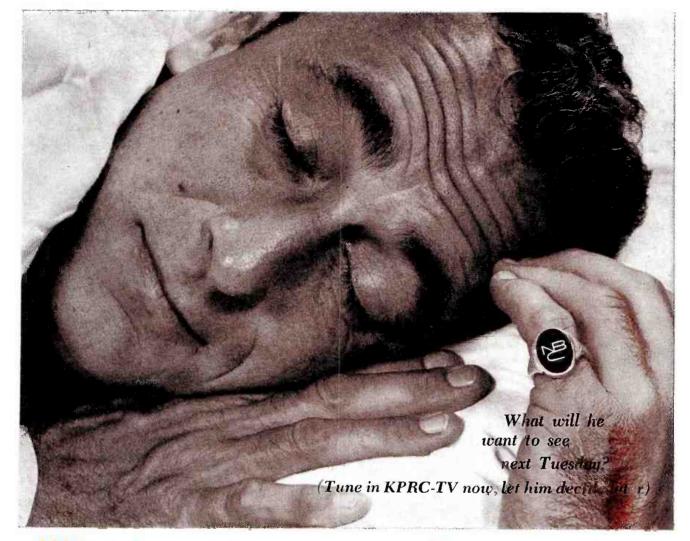

At this point of broadcast history, radio and television are in real danger of being nibbled to death piece by piece. That is the condition that confronts the joint board of the NAB as it meets this week in Washington. It will be largely up to the board to decide whether the condition continues.

The board will have weighty matters to consider, including Mr. Collins' reorganization plan and proposals to strengthen the radio and television codes. But the weightiest matter is not listed on the agenda. It is the determination whether NAB will continue in its present state of relative immobility or be shaped into an instrument that can command the respect of members and the general public.

It is the board, no one else, that has the obligation to set the policy that governs the NAB during the next critical months. A weak policy will only extend and amplify the troubles of broadcasting. A strong one could mark the beginning of the reversal of the trend that has been running against the best interests of broadcasting.
