WHITE'S RADIO LOG

Volume 49, Part 2

An up-to-date Broadcasting Directory of North American AM, FM and TV Stations. Including a Special Section on World-Wide Shortwave Stations

This is the second part of *White's Radio Log*, published in three parts twice each year. This format permits the Editors of RADIO-TV EXPERIMENTER to offer its readers two complete volumes of *White's Radio Log* each year, while increasing the scope of the *Log* and inserting station changes as they occur.

In this issue of *White's Radio Log* we have included the following listings: U. S. AM Stations by Location, U. S. FM Stations by States, Canadian AM Stations by Location, Canadian FM Stations by Location, and the expanded, up-to-date World-Wide Shortwave Section.

In the June-July 1968 issue of RADIO-TV EXPERIMENTER, the *Log* will contain the following listings: U. S. AM Stations by Call

Letters, U. S. FM Stations by Call Letters, Canadian AM Stations by Call Letters, Canadian FM Stations by Call Letters, and the expanded World-Wide Shortwave Section.

In the event you missed any part of the *Log* published earlier this year, you will have a complete copy of *White's Radio Log* by collecting any three consecutive issues of RADIO-TV EXPERIMENTER during 1968. The three consecutive issues comprise a complete volume of *White's Radio Log* that offers complete listings with last minute station change data that cannot be offered in any other magazine or book. If you are a broadcast band DXer, FM station logger, like to photograph distant TV test patterns, or tune the shortwave bands, you will find *White's Radio Log* an unbeatable reference.

World-Wide Shortwave Stations

■ Are you ready for your monthly quickie quiz? It's the greatest contest of all time since it involves prizes, no boxtops, nothing to buy, nothing to complete in 25 words or less. All you do is turn on, tune in

(your receiver, that is) and see if you can drop these stations into your DX basket. Your score will give you some indication as to how you're stacking up. Scoring instructions are found at the end of the quiz:

1. Afar and Issa? Yup, that's the new handle for the spot in Africa which was formerly called French Somali, and you can be the first one on your block to hear it! Look

for Radio Djibouti on Monday through Saturday 0300 to 0415, 0900 to 1145, 1445 to 2000, Sundays 0315 to 1900 GMT. They operate on 4780 kHz.

2. Gabon is another seldom heard spot in Africa. Just a wrist spin away on your dial from Radio Djibouti is a station in Libreville (Gabon, natch) which is now being heard at about 2100 on 3550 kHz. Can you hear it?

3. While we're still in Africa, let's see how many countries you can log tonight on the aeronautical communications frequency of 6552 kHz. Without straining your eardrums you should be able to log Malawai, Botswana, Tanzania, Rhodesia, and Zambia—others too! You've got an hour in which to score.

4. Hopping aboard the magic carpet of your receiver we now fly to the Ryukyu Islands in the Pacific Ocean. Listen for The Voice of the U.N. Command which runs 20 kilowatts from their location in Deragawa. They can be found on 14459 kHz holding down the fort at 0600 GMT.

5. Like fruit? How about Raspberries and Cherries? There's an interesting U.S. Navy aeronautical network operating daily on 6723 kHz. Some of the call signs include Cherry Point (N.C.), Raspberry (Alameda, Calif.), and Raspberry Rosy (Roosevelt Roads, P.R.). How many planes and aircraft can you log in 1 hour?

6. Somebody goofed! The record books list Radio Jornal do Comercio in Recife, Brazil, as inactive. It's to be heard, however, on both 9565 and 11825 kHz at 0030 GMT. Did you log it?

7. Like some jam with the fruity stations shown in question #5? You can get plenty if you tune to 6025 kHz at about 1730 GMT—it's especially great if you happen to like the tune "My Blue Heaven"; a jamming station in the USSR plays this song over and over to jam Radio Peking.

8. New station hereabouts is HIKZ, Radifusora Popular, in Santo Domingo, Dominican Republic. Running 500 watts it is being reported on 4980 kHz evenings.

9. The DX program of Radio Denmark is something new on the shortwave scene. It runs for 20 minutes each Sunday (in

English) at 1015 GMT on 9520 kHz.

10. How many different Voice of America relay transmitters (overseas) can you log in 1 hour? Each different frequency heard from the same location counts separately. Each must be identified.

Grade yourself as follows: 10 points for questions 1, 2, 4, 6, 7, 8, 9. Other questions bring 1 point for each station monitored. If you score below 25, forget it. 26 to 50—keep trying. Above 50, pretty good. Above 75—excellent. Above 85, nobody likes a showoff!

By the way, many of you have written asking for information on government, military, police, emergency, aeronautical, overseas telephone, maritime, etc. radio communications networks. The best source of this information we've yet seen is in the new edition of the Confidential Frequency List. This was compiled from the private files of DXer Tom Kneitel and contains literally thousands of such listings including frequencies, call signs, locations, and (in many instances) even the addresses of the stations. There's even a section on how to decode spy broadcasts. Copies are available at \$2 from Gilfer Associates, Inc., P.O. Box 239, Park Ridge, N.J. 07656.
